BIKE SECURITY

Security Services continues to experience bike thefts and attempted thefts at both the Fort Garry and Bannatyne campus. In an ongoing effort to reduce bike thefts on campus, Security Services continues to patrol bike racks frequently and respond as quickly as possible to reports of suspicious individuals around bike racks.

If you ride your bike to the University of Manitoba there are steps that you can take to keep your bike safe. U-locks are the most effective devices for preventing bicycle theft. Its efficient design and solid construction makes it difficult to defeat by pry bars, hammers and bolt cutters. We suggest you to buy the best U-lock that you can afford. Additional cables can work in tandem with the U-lock to add extra security.

BE PROACTIVE

HOW TO LOCK YOUR BIKE

- » Park your bike at a designated bike rack on campus
- » Place the U-lock around the frame and attach it directly to the bike rack
- » For additional security use a cable to secure the front and rear wheels as well as the fork
- » Take anything easily removable like lights, cyclometers and seat bags with you when you leave

In addition to the tips provided above, the University of Manitoba currently offers 18 secure bike lockers located across the Fort Garry Campus, providing a personal, weather protected and secure enclosure for storing your bicycle. Bike lockers are available to the University of Manitoba community in terms of up to one year. Lockers are available on a first come, first served basis.

More information on the bike locker program can be found on the Office of Sustainability web page, located at:
