**EDUA 5080 Recent Developments in Educational Administration 1 3 Cr. Hrs.**

An opportunity to examine the theoretical bases for, and application of, recent or emerging developments in educational administration.

**EDUA 5090 Recent Developments in Educational Administration 2 3 Cr. Hrs.**

A continuation of certain topics of EDUA 5080 to extend and develop studies previously undertaken in these areas.

**EDUA 5100 Issues in the Administration of Education 3 Cr. Hrs.**

An analysis of issues in the administration of educational organizations. Not to be held with EDUA 5101.

**EDUA 5200 Readings in Educational Foundations 3 Cr. Hrs.**

Readings and research in selected areas of the study of education.

**EDUA 5210 Recent Developments in Educational Foundations 1 3 Cr. Hrs.**

An opportunity to examine the theoretical bases for, and application of, recent or emerging developments in educational foundations.

**EDUA 5230 Studies in International Education 3 Cr. Hrs.**

An examination of educational issues and practices in other countries, especially those of the third world. Emphasis will be given to teaching and administration in developing countries.

**EDUA 5480 Counselling Skills 3 Cr. Hrs.**

Emphasis will be on the development of counselling skills such as attending and listening, reflection of content and feelings, feedback and self-disclosure, focusing and summarization. May not be held with EDUA 5481. While students from other departments including Psychology and Social Work can enrol in this course, priority will be given to Education students. Pre- or corequisite: EDUA 5500 or EDUA 5501. Course evaluated on a pass/fail basis.

**EDUA 5490 Field Placement in Counselling 3 Cr. Hrs.**

A field-based counselling situation for students to apply counselling skills under qualified professionals in the field, and supported by university instructors. Not to be held with EDUA 5491. Prerequisite or co-requisite: [EDUA 5500 or EDUA 5501 (C)] and [EDUA 5480 or EDUA 5481 (P)]. Course evaluated on a pass/fail basis. Enrolment limited.

**EDUA 5500 Theories and Issues in School Counselling 3 Cr. Hrs.**

A study of the philosophy and theories of counselling and issues in school and community-based settings. May not be held with EDUA 5501.

**EDUA 5510 Elementary School Counselling 3 Cr. Hrs.**

An examination of the role and functions of the counsellor in the elementary school. Not to be held with EDUA 5511. Prerequisite or co-requisite: EDUA 5500 or EDUA 5501 (C).

**EDUA 5520 Ethics in Counselling 3 Cr. Hrs.**

In this course, participants will be introduced to the Codes of Ethics for counsellors. Major ethical issues related to the following topics will be discussed: informed consent, confidentiality, record-keeping, boundary issues, training and competence, clinical supervision and multicultural and diversity issues. Participants will get an opportunity to practice various ethical decision-making models.

**EDUA 5530 Secondary School Counselling 3 Cr. Hrs.**

A study of counselling as related to secondary-school practice. Emphasis on the secondary-school counsellor's role and functions. Examination of the various counsellor services: educational, orientation, staff, etc. Not to be held with EDUA 5531. Prerequisite or co-requisite: EDUA 5500 or EDUA 5501 (C).

**EDUA 5540 Groups in Guidance 3 Cr. Hrs.**

A study of groups, group leadership and related skill development, especially as related to a counsellor's functioning in the schools and community based settings. May not be held with EDUA 5541.

**EDUA 5550 Psychology of Human Relationships 3 Cr. Hrs.**

A study of interpersonal relationships. A laboratory approach is used to increase the personal sensitivity of the participants to people. Particularly

suitable for teachers, school administrators, and other professionals. Not to be held with EDUA 5551.

**EDUA 5570 Family Life Education 3 Cr. Hrs.**

A study of human sexuality and family relationships. Consideration is given to research findings, teaching resources and the methods, development, and cooperation with home and community. Not to be held with EDUA 5571.

**EDUA 5580 Career Development 3 Cr. Hrs.**

Study and application of theories of career development, occupational choice, and decision making; evaluation and design or self-knowledge programs in counselling for decision. Not to be held with EDUA 5581.

**EDUA 5590 Career Information 3 Cr. Hrs.**

A study of work, local employment, and training; analysis of career information; evaluation and design of career resource centres; a development study of career education.

**EDUA 5602 Introduction to Inclusive Education 6 Cr. Hrs.**

A survey course for educators interested in inclusive education- legislative, pedagogical, attitudinal and systemic barriers to inclusion and exemplary inclusive provisions are covered. Topics include SRV, the organization and implementation of inclusive classroom, school-wide, and community supports. May not be held with the former EDUA 5600 or EDUA 5601.

**EDUA 5612 Field Experience in Inclusive Education 6 Cr. Hrs.**

A field-based situation for full or part-time students to apply inclusive education skills under the supervision of qualified school staff and supported by professional peer mentors and university instructors. Approximately 160 hours of field-based service required. May not be held with the former EDUA 5616. Pre- or corequisites: [EDUA 5602 (or the former EDUA 5600) or EDUA 5601 or equivalent] and [EDUA 5632 (or the former EDUA 5630) or EDUA 5631 or equivalent] and [EDUA 5662 (or the former EDUA 5660) or EDUA 5661 or equivalent]. Course evaluated on a pass/fail basis.

**EDUA 5620 Teaching Children Through Alternative and Augmented Communication 3 Cr. Hrs.**

An examination of alternative and augmented communication issues, services, supports, and inclusive teaching and learning strategies.

**EDUA 5632 Assessment and Instruction in Inclusive Education 6 Cr. Hrs.**

An examination of curriculum-based and classroom-based assessment to guide the instruction of students experiencing learning or behavioral difficulties in inclusive classrooms. May not be held with the former EDUA 5630 or EDUA 5631. Pre- or corequisites: EDUA 5602 (or the former EDUA 5600) or EDUA 5601 or equivalent.

**EDUA 5642 Inclusive Education : Transition from School to Adult Life 3 Cr. Hrs.**

An examination of the practices for supporting students from preschool until they transition into adulthood, including the nature of support services and an analysis of factors influencing program development and effectiveness. May not be held with the former EDUA 5640 or the former EDUA 5650.

**EDUA 5652 FASD and Other Neurodiverse Conditions in the Classroom 3 Cr. Hrs.**

This course will examine how FASD and other neuro-behavioural/developmental conditions are diagnosed, and their associated learning and behavioural characteristics. Theoretical academic frameworks and educational strategies to optimize students' success in the classroom also will be explored. May not be held with the former EDUA 5770.

**EDUA 5662 Delivering Supports for Inclusive Education 3 Cr. Hrs.**

A critical study of the nature of learning support and an analysis of factors influencing program development and effectiveness. May not be held with the former EDUA 5660 or EDUA 5661. Pre- or corequisites: EDUA 5602 (or the former EDUA 5600).

**EDUA 5680 Promoting Responsible Behaviour in Educational Settings 3 Cr. Hrs.**

The course is designed to provide teachers with an understanding of the needs of children who display maladaptive behaviours in a school setting. Conceptualization of behaviour disorders, identification/assessment procedures, and intervention strategies will be studied. The purpose of the course is to enable teachers to generate intervention strategies which are appropriate in an educational setting. Not to be held with EDUA 5681.

**EDUA 5690 Focus on Exceptionality: Gifted and Talented 3 Cr. Hrs.**

Students will be introduced to various topics and issues in the realm of gifted education, including theoretical models; relevant research, and appropriate teaching and assessment practices.

**EDUA 5710 Readings in Educational Psychology 1 3 Cr. Hrs.**

Directed readings and study of topics in various aspects of education from the psychological viewpoint.

**EDUA 5730 Recent Developments in Educational Psychology 1 3 Cr. Hrs.**

An opportunity to examine the theoretical bases for, and practical application of, recent or emerging developments in this area.

**EDUA 5740 Recent Developments in Educational Psychology 2 3 Cr. Hrs.**

An opportunity to examine the theoretical bases for, and practical application of, recent or emerging developments in this area.

**EDUA 5760 Psychology of Instruction in Educational Contexts 3 Cr. Hrs.**

Designed primarily, although not exclusively, for classroom teachers and school personnel. A critical examination of major theoretical foundations and models of instruction. The course aims at the integration and application of traditional and emerging approaches and strategies of classroom instruction. Prerequisite: [EDUA 1800 (C)] or [PSYC 1200 (C)], or equivalent.

**EDUA 5800 Introduction to Educational Research 3 Cr. Hrs.**

A study of scientific inquiry in the field of education. Research and statistical methods are surveyed within the context of educational research. Particularly recommended for students interested in the evaluation and application of research findings. Not to be held with EDUA 5801.

**EDUA 5810 Theory of Test Construction 3 Cr. Hrs.**

Particular attention is given to problems of item analysis, validity, reliability, and test evaluation in the educational setting. Norm and criterion referenced tests are considered. Not to be held with EDUA 5811.

**EDUA 5930 Observing Child Behaviour 3 Cr. Hrs.**

The use of qualitative observation techniques, especially in educational settings, to understand children's behaviour, thinking, and motivations. Not to be held with EDUA 5930.

**EDUA 5940 Language and Symbolic Process 3 Cr. Hrs.**

The focus in this course is on the role of symbolic learning in the development of the young child. A study of theories on symbol formation is intended to serve as a framework for examining the emergence of representational capacities in movement, gesture, play, drawing and three dimensional media.

# Price Faculty of Engineering

Dean: (Acting) Dr. Nariman Sepehri, Ph.D., P.Eng.  
 Associate Dean(s): (Acting) TBA (Undergraduate Programs); Dr. Cyrus Shafai, Ph.D., P.Eng. (Research and Graduate Programs; Dr. Marcia Friesen, Ph.D., P.Eng., (Design Education).)

## Chapter Contents

### SECTION 1: Degrees Offered

- 1.1 The Profession of Engineering
- 1.2 Available Majors
- 1.3 Available Minors

### SECTION 2: Admission to the Price Faculty of Engineering

### SECTION 3: Academic Regulations

- 3.1 Appeals
- 3.2 Attendance
- 3.3 Categories of Students
- 3.4 Complementary Studies Electives
- 3.5 Procedure Regarding the Inclusion of Elective Courses Taken Towards a Student's Degree Requirements

### 3.6 Course Selection

### 3.7 Examinations

### 3.8 Grading and Assessment

### 3.9 Minors in Engineering

### 3.10 Professional Registration

### 3.11 Requirements for the Bachelor's Degree

### 3.12 Student Progress and Academic Status

### 3.13 Limit on Time in the Preliminary Program

### 3.14 Students Applying to an Engineering Program

### 3.15 Use of Calculating Devices

### 3.16 Withdrawal from Courses

## SECTION 4: Program Requirements

### 4.1 Engineering Access Program

### 4.2 Preliminary Engineering Program

### 4.3 Common Courses Taught by the Price Faculty of Engineering

### 4.4 Biosystems Engineering

### 4.5 Biosystems Engineering Course Descriptions

### 4.6 Civil Engineering

### 4.7 Civil Engineering Course Descriptions

### 4.8 Electrical and Computer Engineering

### 4.9 Electrical and Computer Engineering Course Descriptions

### 4.10 Mechanical Engineering

### 4.10 Mechanical Course Descriptions

### 4.11 Internationally Educated Engineers Qualification Program (IEEQ Program)-

### Post-Baccalaureate Diploma in Engineering

### 4.12 Approved Program Variations

## SECTION 5: Co-operative Education and Industrial Internship Programs

### SECTION 1: Degrees Offered

Degree Offered	Years to Complete	Total Credit Hours
Bachelor of Science in Engineering (Biosystems)	*4	150-153
Bachelor of Science in Engineering (Civil)	*4	163

Bachelor of Science in Engineering (Computer)	*4	152-157
Bachelor of Science in Engineering (Electrical)	*4	158-163
Bachelor of Science in Engineering (Mechanical)	*4	157-162
Post-Baccalaureate Diploma in Engineering	1-2	Minimum of 24

\*One year in Preliminary Program (36 credit hours) for direct admission students or in Preliminary Program courses (or equivalent) taken while in other faculties or University I, plus three years in a departmental program.

### 1.1 The Profession of Engineering

Engineers use fundamental principles and energy sources from the natural world and direct them to the benefit of people. They interpret science in terms of material, human needs and, managing personnel, cost, and supplies. The profession is involved in all aspects of construction and manufacturing, including conceptualization, design, preparation of plans and specifications, and fabrication of products to meet predetermined standards of reliability and performance. Engineers acquire competence through instruction in basic sciences, mathematics, and engineering sciences; by introduction to the processes of synthesis and design; by complementary studies in the humanities, social sciences, and management; by learning from the skills and experience of more senior engineers during the early years of employment.

The educational objective in the Price Faculty of Engineering is to prepare students for positions of leadership in a world where engineering, science, and management are of major importance.

### 1.2 Available Majors

- Biosystems Engineering
- Civil Engineering
- Computer Engineering
- Electrical Engineering
- Mechanical Engineering

### 1.3 Available Minors

- Arts
- Computer Science
- Geological Sciences
- Management
- Mathematics
- Music
- Recreational Studies

## SECTION 2: Admission to the Price Faculty of Engineering

The following is a summary of the admission requirements. Equivalent academic courses completed at recognized universities elsewhere will be considered. All admission requirements, as well as application deadline dates and forms, are included in an applicant information bulletin that is available from the [Admissions Office](#), Enrolment Services, 424 University Centre; this information is also posted on the university's website.

### Direct admission into the Price Faculty of Engineering from high school:

Applicants may apply directly to the Preliminary Engineering Program from a Manitoba high school (or the equivalent) and must meet the General

Entrance and Specific Admission Requirements for the Price Faculty of Engineering. The General Admission Requirement is a Manitoba (or equivalent) high school graduation. The Specific Admission Requirement is a minimum 85% average over the following three subjects, with no less than 60% in each course: Chemistry 40S, Precalculus Mathematics 40S, and Physics 40S. In cases where the number of eligible applicants exceeds the available spaces, applicants will require higher averages than stipulated to be successful in the admissions competition.

This information is on the following web site:

[http://umanitoba.ca/student/admissions/media/direct\\_entry\\_bulletin.pdf](http://umanitoba.ca/student/admissions/media/direct_entry_bulletin.pdf)

### Admissions changes for Fall 2021 intake:

Applicants applying directly to the Preliminary Engineering Program from a Manitoba high school (or equivalent) must meet General Entrance requirements and Specific Admission Requirements. The General Admission Requirement is Manitoba high school graduation (5 full credits at the Grade 12 level in courses designated S, G, or U). The Specific Admission Requirement is a minimum 80% average over the following four subjects, with no less than 70% in each course: Chemistry 40S, Precalculus Mathematics 40S, Physics 40S, and English 40S.

### All other admissions:

A minimum of 8 of the 12 courses in the Preliminary Engineering Program, section 4.2, each with a minimum grade of "C", and a minimum Adjusted Grade Point Average (AGPA) of 2.0. In addition, if the total number of credit hours attempted by the student in all courses that apply in the Price Faculty of Engineering meets or exceeds 72, then the ratio of those credit hours passed (from all courses with a grade of "C" or better that are applicable to the student's potential Engineering program) to total credit hours attempted must be greater than or equal to 75%. Furthermore, if the student has attempted less than 72 credit hours, the total number of failed credit hours (from all courses with a grade of "D" or "F" that are applicable to the student's potential Engineering program) must not exceed 18 credit hours in order to be eligible to be considered for admission.

Acceptance to Engineering programs is competitive. Courses must be completed within ten years of the application date in order to be considered for transfer credit.

### English and mathematics requirements:

All students are required to complete the University written English and mathematics requirement within the first 60 credit hours of their program. The requirement is described in the chapter General Academic Regulations and Requirements of this Calendar. In the Engineering programs the mathematics requirement is satisfied by one of MATH 1510 or MATH 1710 (or an equivalent); the written English requirement is satisfied by completing a course selected from the list of approved Written English Courses for Engineering Students (see 4.2.1).

### Chemical Engineering at the University of North Dakota

The University of Manitoba has an agreement with the University of North Dakota, Grand Forks, N.D., which allows students to obtain a degree in chemical engineering from the University of North Dakota by taking the Preliminary Engineering program at the University of Manitoba and three years at the University of North Dakota. The chemical engineering program at the University of North Dakota is accredited by the Accreditation Board for Engineering and Technology in the United States and is recognized by the Engineers Geoscientists Manitoba (formerly the Association of Professional Engineers and Geoscientists of Manitoba).

## SECTION 3: Academic Regulations

The provisions of the chapter, [General Academic Regulations and Requirements](#), and the chapter, [University Policies](#), apply to all students. In addition, the Price Faculty of Engineering has regulations and requirements, published below, which apply specifically to its students. Notwithstanding the regulations given in this section, the Faculty Council of Engineering reserves the right to rule on individual cases in exceptional circumstances.

### 3.1 Appeals

Students who feel that they have received unfair treatment in a course should appeal to the instructor. If the matter is not thereby resolved, it should be raised with the Department Head and subsequently the Associate Dean (Undergraduate Programs).

A student's academic status is based on academic performance. Students who feel that there are circumstances that have affected their academic performance should write to the Associate Dean (Undergraduate Programs), Chair of the Committee on Standing and Appeals, E1-284 EITC. Information regarding this process is available from the Undergraduate Student Services Office, E1-284 EITC and may be viewed through the following web site:

[http://umanitoba.ca/faculties/engineering/student\\_resources/sr\\_policies\\_appeals.html](http://umanitoba.ca/faculties/engineering/student_resources/sr_policies_appeals.html)

### 3.2 Attendance and Approved Leaves

#### 3.2.1 Attendance in Courses

When the number of unexcused absences recorded against a student in the Price Faculty of Engineering in any course exceeds 10 percent of the number of lectures and laboratories for that course the instructor may report the case to the Dean of Engineering. When a student's attendance or work continues to be unsatisfactory, the instructor has the authority to exclude the student from classes, or examinations, or both. Such cases shall be reported to the Faculty Council of Engineering at the first opportunity. Students who are excluded from an examination for inadequate attendance in a compulsory course will receive a failing grade and be required to repeat the course.

#### 3.2.2 Leaves of Absence

Students may make a written request to the Associate Dean (Undergraduate Programs) for a Leave of Absence from their studies when significant circumstances (i.e. medical or compassionate) affect their ability to continue in their program. Should it be approved, the student will be notified in writing of the duration of the leave. The limit on a student's time to complete their Engineering program, as set out in Section 3.11, will be extended by the duration of the approved Leave of Absence.

For situations affecting a student's ability to complete courses already in progress, see regulation 3.16 Withdrawal from Courses.

Notwithstanding a Leave of Absence, student may choose not to register for courses in any term at their own discretion. However, doing so *will not* extend a student's time to completion as set out in Section 3.11.

### 3.3 Categories of Students

A student shall normally register for three to six courses in a term. Registration for more than six or fewer than three courses in a term must be approved by the Department Head or, in the preliminary program, by the Associate Dean (Undergraduate Programs). Students must also

receive approval for registration in courses that are not part of the regular degree program.

All undergraduate programs offered by the Price Faculty of Engineering are full-time programs. Engineering considers registration in 15 credit hours per term to be a full course load. Full-time status is defined as being registered in at least 60 percent of this load, or 9 credit hours per term. Scholarships and other awards may require registration in more than this minimum.

### 3.4 Complementary Studies Electives

Complementary studies electives are an integral part of the curriculum. Their purpose is to broaden the student's experience beyond the purely scientific and technical content of engineering. They include studies in engineering economics and the impact of technology on society, as well as the central issues, methodologies and thought processes characteristic of the humanities and social sciences. Opportunities for development of the student's oral and written communication skills are also provided. The complementary studies elective requirements may vary from one program to another. Course numbers beginning with a 0 (i.e. ENGL 0930) are not allowed as complementary studies electives and ARTS 1110 Introduction to University cannot be used for credit in the Price Faculty of Engineering.

### 3.5 Procedure Regarding the Inclusion of Elective Courses Taken Towards a Student's Degree Requirements

#### Upon Admission Into Engineering

At the time of admission, students may choose to apply (transfer) some or all eligible non-Engineering elective courses (i.e., complementary studies electives, science electives, free electives) taken prior to their admission to the Faculty towards their current Engineering degree program. All attempts for those selected courses shall be applied to the student's degree program and included in the calculation of Degree Grade Point Average (DGPA).

#### After Admission Into Engineering

Grades for all eligible courses (i.e., technical electives, complementary studies electives, science electives, free electives) attempted following admission to Engineering shall be included in and applied to a student's current degree program.

Special cases for either circumstance may be considered at the discretion of the Price Faculty of Engineering Associate Dean (Undergraduate Programs).

### 3.6 Course Selection

When arranging a program of study, a student must satisfy the following requirements:

- All prerequisite and co-requisite course requirements must be met.
- All previously failed compulsory courses must be repeated. Students repeating a course previously taken are subject to Limited Access. Limited Access information may be viewed on the Registrar's Office web site as follows:  
<http://umanitoba.ca/student/records/academicpolicychanges/limitedaccessfaq.html>
- Students are not normally allowed to repeat courses graded "C" or higher, except under special circumstances with the approval of the Department Head, or for students in the Preliminary Engineering Program, of the Associate Dean (Undergraduate Programs).
- Failed elective courses may be repeated or replaced with alternative elective courses, however, all attempts will be included in the degree grade point average calculation.
- *Prerequisite Course:* A prerequisite course must have been completed with a "C" grade or better before a subsequent course can be

attempted. Under exceptional circumstances, a course instructor may waive, subject to approval by the Department Head (or designate), a prerequisite requirement.

- *Co-requisite Course:* A co-requisite course must be taken concurrently or before its companion course. Under exceptional circumstances, a course instructor may waive, subject to approval by the Department Head (or designate), a co-requisite requirement.

### 3.7 Examinations

#### Deferred Examinations

If you miss a final examination for medical or compassionate reasons, you may be granted a deferred examination. Applications for a deferred examination after the examination has been missed must be filed **within 48 hours** of the date of the missed examination. A medical certificate or other appropriate documentation may be required.

(See [Chapter, General Academic Regulations and Requirements](#) of this Calendar for more details)

Deferred Examinations are normally scheduled to take place within 30 working days from the end of the examination series from which the examination was deferred. The date of the deferred examination for a particular course will be set by the Dean's Office no later than January 15, May 15 or Sept 15 and in consultation with the instructor.

#### Supplemental Examinations

A student who has attempted to meet all requirements for the degree and has a single failure in their final academic year, in an Engineering course, may apply for a supplemental examination in that course. Supplemental examinations may not be requested for any other reason. A student shall only be permitted to exercise the privilege of writing a supplemental examination once in their degree program.

The grade for a course in which a supplemental examination is written shall be calculated in the following manner, with the grade reported being the greater of these two calculations:

- The supplemental examination shall have the same percentage weighting as the original examination, and shall be combined with all term marks;
- The supplemental examination shall have the percentage weighting equal to the combined weight of the original examination and all term tests, and shall be combined with all other term marks.

Both the original course grade and the supplemental examination course grade are retained on the student's record, and both are used in the calculation of TGPA and DGPA.

In the event that the supplemental examination is not successfully passed, the course must be repeated again in a subsequent term.

The results of supplemental examinations must be reported to the Faculty Council of Engineering. The supplemental examination privileges apply only to courses offered by the Price Faculty of Engineering.

#### Challenge for Credit

Courses offered in Engineering may not be challenged for credit.

### 3.8 Grading and Assessment

All grades awarded by instructors for undergraduate courses offered in the Price Faculty of Engineering are reviewed by examiners' boards, which comprise all of the instructors in the student's program year. After approval by department councils, grades are presented to the Faculty Council of Engineering for acceptance. Grades are published subsequent to their approval by the Faculty Council of Engineering.

Following are the descriptions of grade point averages used for evaluation at end of each of the terms (Fall, Winter, and Summer):

#### Term Grade Point Average (TGPA)

The Term Grade Point Average (TGPA) is computed from all of the final grades in all undergraduate courses completed during a given academic term.

#### Degree Grade Point Average (DGPA)

The Degree Grade Point Average (DGPA) is computed from the final grades obtained in all courses attempted, including applicable courses transferred from other faculties and other institutions, as part of a student's current degree program. Where a course has been repeated or replaced by an approved substitution or equivalent course, all attempts shall be included in the computation.

#### Cumulative Grade Point Average (CGPA)

The Cumulative Grade Point Average (CGPA) is computed from the final grades in all undergraduate courses attempted at the University of Manitoba and courses transferred from other faculties and other institutions.

#### Dean's Honour List

A continuing student who achieves a Term Grade Point Average (TGPA) of 3.50 or higher in their most recent academic term will be placed on the Dean's Honour List. The assessment is based on a minimum of 12 credit hours completed in that term. In addition, a graduating student who achieves a Degree Grade Point Average (DGPA) of 3.5 or higher in their final academic evaluation will graduate on the Dean's Honour List and receive a notation indicating this on their final term transcript.

#### Awards

A number of scholarships, bursaries and other academic awards are available to Engineering students. For information concerning awards (prizes, scholarships, and bursaries), please visit the Faculty website, [umanitoba.ca/faculties/engineering/student\\_resources/sr\\_finances\\_under\\_gradawards.html](http://umanitoba.ca/faculties/engineering/student_resources/sr_finances_under_gradawards.html)

### 3.9 Minors in Engineering

In meeting the specific requirements for any minors available to Engineering students, no more than 50% of the credit hours required for a minor may be common with those forming part of a student's regular Engineering program. Normal pre-requisites and class size restriction apply to courses taken towards minors.

#### Arts Minor

A Minor in Arts is available to Engineering students. The minor consists of 18 credit hours of Arts courses, including a minimum of 6 credit hours in the Humanities and 6 credit hours in the Social Sciences; students must meet all pre-requisite requirements and all courses must be at the 1000 level or higher. *ARTS 1110 Introduction to University may not be included in the minor.* Depending on the approval of the Engineering department, courses used for the minor may also be used to fulfill program requirements in Engineering.

#### Computer Science Minor

A Minor in Computer Science is available to Engineering students. The minimum requirement is 18 credit hours of computer science courses subject to the following constraints: (1) Courses COMP 1012, COMP 1020, and COMP 2140 are compulsory; (2) 9 additional credit hours of COMP

courses at the 2000 or 3000 level; and (3) registration in computer science courses will be controlled by normal pre-requisites and class size restrictions.

### Geological Sciences Minor

The Minor in Geological Sciences includes the following set of courses: (1) GEOL 1340; (2) One of the following three courses: GEOL 1400, GEOL 1410 or GEOL 1420; (3) Twelve (12) credit hours of 2000-level or above courses in Geological Sciences

### Management Minor

The Minor in Management offered by the Faculty of Management is available to Engineering students. The minor consists of any 18 credit hours of Management courses; students must meet all prerequisite requirements. Depending on the approval of the Engineering department, courses used for the minor may also be used to fulfill program requirements in Engineering. Admission requirements for the minor are based on all courses transferred to Engineering or completed while in Engineering; the requirements are a minimum of 30 credit hours applied to their degrees with a minimum Degree Grade Point Average (DGPA) of 3.00. Up to 10 spaces are available each year for engineering students on a competitive basis. Applications can be made in the Engineering Dean's office by May 30th.

Note 1. Civil Engineering student only may use CIVL 2780 for credit towards the Management Minor in Engineering.

Note 2. Mechanical Engineering students only may use MECH 3170 for credit towards the Management Minor in Engineering.

### Mathematics Minor

A Minor in Mathematics is available to Engineering students. The minimum requirement is 24 credit hours of mathematics courses subject to the following constraints: (1) the students must notify their home department that they are pursuing the minor; (2) up to 12 credit hours of mathematics courses in a student's engineering program may be counted toward the minor; (3) the student must complete at least 6 credit hours of courses from the mathematics department at the 3000 level or higher that are not included as part of the curriculum in the student's engineering program; and (4) approval of the Department of Mathematics is required for courses outside of the regular engineering program.

### Music Minor

The Minor in Music requires 18 credit hours of MUSC courses and students are subject to the regulations set by the Marcel A. Desautels Faculty of Music. Please see SECTION 4.7 Music Minors for students in the Price Faculty of Engineering, Faculty of Arts and Faculty of Science under the Marcel A. Desautels Faculty of Music section.

### Recreational Studies Minor

The Minor in Recreational Studies requires 18 credit hours of approved coursework. Students are subject to the regulations set by the Faculty of Kinesiology and Recreational Management. Please see SECTION 4.6 Minor in Recreational Studies under Faculty of Kinesiology and Recreational Management.

## 3.10 Professional Registration

In order to practice engineering in any province or territory in Canada, it is necessary to be a member of the professional engineering association of that province or territory. The requirements for membership are acceptable academic preparation and a subsequent period of acceptable engineering experience gained under the supervision of a registered professional

engineer. The undergraduate programs in Biosystems, Civil, Computer, Electrical, and Mechanical Engineering are accredited by the Canadian Engineering Accreditation Board (CEAB), reflecting acceptable academic preparation for membership in the association of professional engineers in any province or territory in Canada. Through a mutual recognition agreement, these programs are also recognized as satisfying accreditation requirements in many other countries such as the United States, the United Kingdom, Ireland, New Zealand, Australia, and Hong Kong.

Graduates of an accredited program are eligible to apply for membership as an engineering intern, in the association of professional engineers in their province of residence in Canada. After a period of acceptable experience, they are eligible to apply to the association for registration as a professional engineer in that province.

## 3.11 Requirements for the Bachelor's Degree

The requirement for a Bachelor of Science degree in Engineering is a grade of "C" or better in all courses in the student's program. All students are governed by the rules in effect at the time of their first registration in Engineering.

A student must complete at least 50 per cent of an engineering degree program as a full-time student in the Price Faculty of Engineering. Unless otherwise approved by the Dean of Engineering, students must complete all degree requirements within seven calendar years after being accepted into an Engineering departmental program.

### 3.11.1 Degree with Distinction

A student who on graduation achieves a Degree Grade Point Average (DGPA) of 3.80 or higher is awarded the degree "With Distinction."

### 3.11.2 Criteria for Medal Awards

The Price Faculty of Engineering Program Medal shall be awarded to the graduating student in each engineering program who has achieved the highest Degree Grade Point Average (DGPA) (minimum of 3.80) with no distinction as to full- or part-time status. The Program Medal will be awarded at spring convocation to the student who has completed that program in the past academic year (including October and February graduands).

The University Gold Medal for the Price Faculty of Engineering shall be awarded to the graduating student in the Price Faculty of Engineering who has achieved the highest Degree Grade Point Average (DPGA) (minimum of 3.80) for the entire program with no distinction as to full- or part-time status.

## 3.12 Student Progress and Academic Status

Students shall be evaluated at the conclusion of each academic term in which they receive a final grade in a minimum of 6 credit hours of course material (excluding Special Student credit hours), with the assessment being based on the resulting Term Grade Point Average (TGPA) in those courses. This assessment shall be based on only those courses which form part of the student's Engineering Program. The academic assessments are as follows:

### Good Academic Standing

A student with a TGPA of 2.00 or higher is in Good Academic Standing. This will be notated as "Faculty Minimum Met" or "Satisfactory" on the student academic transcript.

### Academic Warning

The first time the student's TGPA drops below 2.00, he/she will receive an *Academic Warning*. Students who receive such a warning are required to meet with an academic advisor from their department or, in the Preliminary Engineering Program, from the Dean's Office.

### Academic Probation

The second time that a student's TGPA drops below 2.00, the student will be placed on *Academic Probation*.

### Required to Withdraw

The third time that a student's TGPA drops below 2.00, the student will be *Required to Withdraw*. Students who receive such a suspension shall be ineligible to take courses offered by the Price Faculty of Engineering from the end of the term for which the suspension was issued through to the start of that same term in the subsequent academic year (normally, a period of 8 months.)

In order to be reinstated following the suspension period, the student must submit a written request for reinstatement to the Associate Dean (Undergraduate Programs). Applications must be received between 30-60 days in advance of the effective date of reinstatement; requests made earlier than 60 days in advance will not be accepted.

### Ineligible to Proceed in Engineering

A student shall be *Ineligible to Proceed in Engineering* under either of the following conditions:

- a) The student's TGPA drops below 2.00 for a fourth time, or;
- b) The ratio of credit hours passed (from all courses with a grade of "C" or better that are applicable to the student's Engineering program) to total credit hours attempted for that student drops below 75%, and the student has attempted a minimum of 72 credit hours.

### Starting Afresh

Students who have become Ineligible to Proceed in Engineering may apply to the Dean for permission to start their degree afresh, should they wish to return to the Price Faculty of Engineering.

At the discretion of the Dean, a student may start afresh in an engineering program after a minimum period of two years from their last academic assessment by the Price Faculty of Engineering, and may request to transfer up to 40 credit hours in which a minimum grade of "C+" was achieved. All previous courses will remain on the student's academic transcript, but will not be applied to their new program.

### 3.13 Limit on Time in the Preliminary Engineering Program

Students admitted to the Preliminary Engineering Program shall have two years to complete the minimum course requirements and submit an application for possible acceptance into an Engineering program. In the case of students admitted to the program through the Engineering Access Program the limit shall be three years.

Students who fail to meet this criterion shall be required to withdraw from Engineering. Such students may subsequently apply to an engineering program after successfully completing all courses forming the Preliminary Engineering Program.

### 3.14 Students Applying to an Engineering Program

Students will be accepted into department programs based on the following criteria. Students who have completed 8-12 Preliminary Engineering Program courses by May 1st of each academic year will be

ranked and admitted on a competitive basis based on the average of the best eight marks in courses in the Preliminary Engineering Program.

Students applying from programs, faculties, colleges, or other institutions will have all courses or equivalent courses that are required in a particular engineering program transferred in, including failed grades ("D's" and "F's") in those courses. In addition, if the total number of credit hours attempted by the student in all courses that apply in the Price Faculty of Engineering meets or exceeds 72, then the ratio of those credit hours passed (from all courses with a grade of "C" or better that are applicable to the student's potential Engineering program) to total credit hours attempted must be greater than or equal to 75%. Furthermore, if the student has attempted less than 72 credit hours, the total number of failed credit hours (from all courses with a grade of "D" or "F" that are applicable to the student's potential Engineering program) must not exceed 18 credit hours in order to be eligible to be considered for admission. Students are advised to consult with the Engineering Undergraduate Student Affairs Office if there is concern as to their standing under this rule.

Direct entry engineering students must submit an application for admission through [umanitoba.ca/apply](http://umanitoba.ca/apply) now indicating their program(s) of choice. The application fee for direct entry engineering students applying to an engineering program is waived. Students from University 1 and other faculties must apply for admission through [umanitoba.ca/apply](http://umanitoba.ca/apply) now and will be subject to an application fee.

### 3.15 Use of Calculating Devices

For courses offered by the Price Faculty of Engineering in which the use of devices capable of calculations is permitted in tests or examinations, such devices must be incapable of receiving and/or transmitting signals. Instructors wishing to restrict devices to certain capabilities must inform students, in writing, within the first week of term. Questions concerning the suitability of any given device should be directed to the course instructor(s).

### 3.16 Withdrawal from Courses

The responsibility for initiating withdrawals rests solely with the student, and no voluntary withdrawals are permitted after the deadlines for voluntary withdrawal without academic penalty (see the chapter, General Academic Regulations and Requirements, of this Calendar). For documented medical or compassionate reasons, Authorized Withdrawals may be permitted by the Dean's Office, Price Faculty of Engineering.

A student who, after registering for courses, in any term, becomes ineligible to proceed in Engineering will be withdrawn from his or her courses for the effective term as well as any subsequent terms, including Summer Session.

## SECTION 4: Program Requirements

### 4.1 Engineering Access Program

Campus Address: E2 -442 EITC  
 Email address: [engap@cc.umanitoba.ca](mailto:engap@cc.umanitoba.ca)  
 Telephone: 1 204 474 9872  
 Toll free Phone No. 1 204 432 1960 ext 9872  
 Fax No. 1 204 474 7518.  
 Web Site: [www.engap.com](http://www.engap.com)

The Engineering Access Program (ENGAP) recognizes that students of First Nation, Metis, and Inuit ancestry may be challenged with geographic and economic barriers, and/or lack of access to academic preparation, which may make them unable to meet the faculty's admission requirements. ENGAP serves as a specifically designed post-secondary program that provides an opportunity for students to complete their Bachelor of Science degree in Engineering. The program accomplishes this objective by offering upgrading courses in mathematics, chemistry, physics, and computer science, as well as providing academic advice, personal and family

counselling along with financial supports. First Nation, Metis, and Inuit students who do not meet the regular entrance requirements may still wish to join the program to benefit from these supports.

#### 4.2 Preliminary Engineering Program

Campus Address/General Office: E1-284 EITC

Email Address: [eng\\_info@umanitoba.ca](mailto:eng_info@umanitoba.ca)

Telephone: (204) 474 9807

Website: [umanitoba/faculties/engineering](http://umanitoba/faculties/engineering)

The Preliminary Engineering Program is common to all programs in engineering. Students in the direct entry engineering program or University 1 must complete a minimum of 8 courses to be eligible to apply to one of the five degree granting engineering programs. A student must complete the following list of 12 courses in order to graduate with a BSc degree from any of the engineering programs.

Prior to the 2016/2017 academic year, students were required to complete ENGL 1400 (or equivalent) to satisfy the written English course requirement within all engineering programs. Beginning with the 2016/2017 academic year these requirements may now be satisfied by completing any course selected from the list of Written English Courses for Engineering Students (which includes ENGL 1400). This change applies to all students entering the Price Faculty of Engineering, as well as all continuing students who have yet to complete this program requirement.

Course Number	Course Title	Cr. Hrs.
CHEM 1300	Structure and Modelling in Chemistry	3
COMP 1012	Computer Programming for Scientists and Engineers	3
ENG 1430	Design in Engineering	3
ENG 1440	Introduction to Statics	3
ENG 1450	Introduction to Electrical and Computer Engineering	3
ENG 1460	Introduction to Thermal Sciences	3
MATH 1210	Techniques of Classical and Linear Algebra (Note 1)	3
MATH 1510	Applied Calculus 1 or equivalent (Note 1, 2, 3, and 5)	3
MATH 1710	Applied Calculus 2 or equivalent (Note 2, 3, and 5)	3
PHIL 1290	Critical Thinking (Note 6)	3
PHYS 1050	Physics 1: Mechanics	3
	Written English Course (Notes 7 and 8)	3

#### Notes:

(1) MATH 1300 is not an acceptable equivalent to MATH 1210

(2) Students intending to obtain a degree in Engineering are strongly advised to complete MATH 1510 and MATH 1710; however, the substitutions described below are allowed.

(3) MATH 1500 or MATH 1230 may be taken in lieu of MATH 1510

(4) MATH 1700 OR math 1690 may be taken in lieu of MATH 1710.

(5) The former MATH 1690 may be regarded as fulfilling the requirement for MATH 1510 and MATH 1710.

(6) PHIL 1290 Critical Thinking is the recommended complementary studies elective. Students may; however, select any course from the Faculties of Arts or Management (Asper School of Business) at the 1000 level or above, to be used for credit in lieu of PHIL 1290. The exception is ARTS 1110 Introduction to University, which may not be held for credit within the Price Faculty of Engineering.

(7) Course selected from the list of approved Written English Courses for Engineering Students

(8) Three credit hours are required to satisfy the written English course requirement. Should a student complete a six credit hour course, the additional three credit hours may be used to satisfy general complementary studies requirements within a student's program.

#### 4.2.1 University Written English and Mathematics Requirements

##### IMPORTANT CHANGE TO "WRITTEN ENGLISH REQUIREMENT COURSES:" POLS 2000 level courses no longer qualify for the W requirement for Engineering.

All students are required to complete the university written English and mathematics requirement within the first 60 credit hours of their program. This requirement is described in the chapter [General Academic Regulations and Requirements](#) of this *Calendar*. In the Engineering programs the mathematics requirement is satisfied by one of MATH 1510 or MATH 1710 (or an equivalent); the written English requirement is satisfied by completing a course selected from the following list of approved *Written English Courses for Engineering Students*.

Note that courses transferred from other institutions are evaluated for content, but are not assessed for the written English requirement unless the student explicitly requests such an assessment. Therefore, students wishing to transfer a course from another institution which may be considered equivalent to a course on the list of Written English Courses for Engineering Students should request that the transfer be assessed as meeting the written English requirement. If the assessed course is found not to meet the requirement, the student will be compelled to complete another course from the list.

Course Number	Course Title	Cr. Hrs.
ASIA 1420	Asian Civilization to 1500	3
ASIA 1430	Asian Civilization from 1500	3
CATH 1190	Introduction to Catholic Studies	3
ENGL 1200	Representative Literary Works	6
ENGL 1300	Literature Since 1900	6
ENGL 1340	Introduction to Literary Analysis	3
ENGL 1400	Thematic Approaches to the Study of Literature	3
GPE 2700	Perspectives on Global Political Economy	3
GRMN 1300	Masterpieces of German Literature in English Translation	3
GRMN 1310	Love in German Culture in English Translation	3
HIST 1XXX*	Any 1000 level HIST course	3 or 6
HIST 2XXX*	Any 2000 level HIST course	3 or 6

NATV 2020	The Métis in Canada	3
POL 1900	Love, Heroes and Patriotism in Contemporary Poland	3
POL 2600	Polish Culture until 1918	3
POL 2610	Polish Culture 1918 to the present	3
POLS 1502**	Introduction to Political Studies	3
POLS 2302	Introduction to Political Theory	3
POLS 2502	Introduction to World Affairs	3
POLS 2504	Introduction to International Relations	3
POLS 2602	Introduction to Comparative Politics	3
POLS 2702	Introduction to Canadian Politics	3
POLS 2802	Introduction to Indigenous Politics	3
RLGN 1322	Introduction to Eastern Religions	3
RLGN 1324	Introduction to Western Religions	3
RLGN 1424	Religion and Sexuality	3
RLGN 1440	Evil in World Religions	3
RLGN 2036	Introduction to Christianity	3
RLGN 2140	Introduction to Judaism	3
RLGN 2160	Hebrew Bible (Tanakh / "Old Testament)	3
RLGN 2170	Introduction to the New Testament	3
RLGN 2222	The Supernatural in Popular Culture	3
RLGN 2590	Religion and Social Issues	3
RUSN 1400	Masterpieces of Russian Literature in English Translation	3
RUSN 2280	Russian Culture until 1900	3
RUSN 2290	Russian Culture from 1900 to the present	3
RUSN 2310	Exploring Russia Through Film	3
UKRN 2200	Ukrainian Myths, Rites and Rituals	3
UKRN 2410	Ukrainian Canadian Cultural Experience	3
UKRN 2590	Ukrainian Literature and Film	3
UKRN 2770	Ukrainian Culture until 1900	3
UKRN 2780	Ukrainian Culture from 1900 to the present	3
UKRN 2820	Holodomor and Holocaust in Ukrainian Literature and Culture	3
WOMN 1500	Introduction to Women's and Gender Studies in the Humanities	3
WOMN 1600	Introduction to Women's and Gender Studies in the Social Sciences	3
WOMN 2560	Women, Science and Technology	3
* Unallocated credits may not be used.		
** This course requires a laboratory.		

### 4.3 Common Courses Taught by the Price Faculty of Engineering-ENG 1000 Level

#### ENG 1420 Engineering Processes for Non- Engineering Students 3 Cr. Hrs.

Develops a basic understanding of the engineering profession with emphasis on basic technical principles, Systems Engineering, and Project Management. Special emphasis will be placed upon the interface between management and engineering and the role management plays in the conduct of technical projects and manufacturing. NOTE: This course is not available for credit to students registered in the Price Faculty of Engineering.

#### ENG 1430 Design in Engineering 3 Cr. Hrs.

The creative process; the design process; working in a team. The engineering profession from the perspective of students and professionals. Academic, legal and ethical considerations. Prerequisites: [A minimum grade of 60% in Pre-Calculus Mathematics 40S (or a minimum grade of "C" in one of MATH 0401, MATH 1230, MATH 1500, MATH 1501, MATH 1510, MATH 1520, MATH 1690, MSKL 0100, or the former MATH 1680)] and [a minimum grade of 60% in Physics 40S (or a passing grade in PHYS 0900 or PSKL 0100; or a minimum grade of "C" in PHYS 1050 or PHYS 1051)] and [a minimum grade of 60% in Chemistry 40S (or a passing grade in CHEM 0900 or CSKL 0100; or a minimum grade of "C" in CHEM 1300 or CHEM 1301)] or their equivalents.

#### ENG 1440 Introduction to Statics 3 Cr. Hrs.

Statics of particles; rigid bodies, equilibrium of rigid bodies; analysis of structures; distributed forces. Not to be held with ENG 1441. Prerequisites: [A minimum grade of 60% in Pre-Calculus Mathematics 40S (or a minimum grade of "C" in one of MATH 0401, MATH 1230, MATH 1500, MATH 1501, MATH 1510, MATH 1520, MATH 1690, MSKL 0100, or the former MATH 1680)] and [a minimum grade of 60% in Physics 40S (or a passing grade in PHYS 0900 or PSKL 0100; or a minimum grade of "C" in PHYS 1050 or PHYS 1051)] and [a minimum grade of 60% in Chemistry 40S (or a passing grade in CHEM 0900 or CSKL 0100; or a minimum grade of "C" in CHEM 1300 or CHEM 1301)] or their equivalents.

#### ENG 1450 Introduction to Electrical and Computer Engineering 3 Cr. Hrs.

Part I: Current, voltage, energy, potential, power Ohm's law; independent sources; capacitor, inductor, ideal diode, op-amp; Kirchoff's law; simple circuits (Resistive, RC, RL, OP-Amp; Diode); introduction to ac theory (Sinusoidal waveform, phase relations of voltage and current waveforms for R,L,C. RL and RC circuits). Part II: Applications (Digital Logic, motors). Prerequisites: [A minimum grade of 60% in Pre-Calculus Mathematics 40S (or a minimum grade of "C" in one of MATH 0401, MATH 1230, MATH 1500, MATH 1501, MATH 1510, MATH 1520, MATH 1690, MSKL 0100, or the former MATH 1680)] and [a minimum grade of 60% in Physics 40S (or a passing grade in PHYS 0900 or PSKL 0100; or a minimum grade of "C" in PHYS 1050 or PHYS 1051)] and [a minimum grade of 60% in Chemistry 40S (or a passing grade in CHEM 0900 or CSKL 0100; or a minimum grade of "C" in CHEM 1300 or CHEM 1301)] or their equivalents.

#### ENG 1460 Introduction to Thermal Sciences 3 Cr. Hrs.

Properties of pure substances; first law for closed systems; first law for open systems; second law; examples of power cycles and refrigeration cycles. Prerequisites: [A minimum grade of 60% in Pre-Calculus Mathematics 40S (or a minimum grade of "C" in one of MATH 0401, MATH 1230, MATH 1500, MATH 1501, MATH 1510, MATH 1520, MATH 1690, MSKL 0100, or the former MATH 1680)] and [a minimum grade of 60% in Physics 40S (or a passing grade in PHYS 0900 or PSKL 0100; or a minimum grade of "C" in PHYS 1050 or PHYS 1051)] and [a minimum grade of 60% in Chemistry 40S (or a passing grade in CHEM 0900 or CSKL 0100; or a minimum grade of "C" in CHEM 1300 or CHEM 1301)] or their equivalents.

**ENG 1900 Occupational Health and Safety Awareness 3 Cr. Hrs.**

Occupational health and safety will be discussed from the perspectives of various professions to understand 1) the issues relevant to individual professions and 2) how these individual perspectives may conflict. The overall goal for the course is to ensure that the student gains an appreciation for the importance of occupational health and safety to society.

**4.3 Common Courses Taught by the Price Faculty of Engineering- 2000 + Level****ENG 2022 Engineering CAD Technology for Biosystems 3 Cr. Hrs.**

(Lab required) Instruction in the use of current CAD technology for conveying design through the use of graphics. Students will gain knowledge in technical drawing, 3D modelling techniques, production technology, and visual communication. Registration restricted to students in Engineering. Prerequisite: BIOE 2900 or the former BIOE 2580.

**ENG 2030 Engineering Communication: Strategies for the Profession 3 Cr. Hrs.**

Students work in a team-based environment to produce deliverables comparable to the engineering workplace. In-class tutorials focus on the sharpening of individual students' writing skills through an analytical, problem-solving and critical thinking approach. Students are exposed to a variety of communicative scenarios and emphasis is placed on development of a repertoire of skills necessary for effective communication in the engineering profession. Not to be held with the former ENG 2010. Prerequisites: ENG 1430 and one of the courses from the list of Written English Courses for Engineering Students.

**ENG 2040 Engineering Communication: Strategies, Practice and Design 3 Cr. Hrs.**

This team-based course focuses on a rhetorical approach, communication strategies and guided practice in the design of engineering communications. May not be held with the former ENG 2010. Prerequisites: ENG 1430 and one of the courses from the list of Written English Courses for Engineering Students.

**ENG 3000 Engineering Economics 3 Cr. Hrs.**

An introduction to the economic aspects of engineering design. Time value of money and discounted cash flow calculations. Comparing costs of alternative designs. Replacement analysis and life-cycle costing. Public sector engineering economy studies. Before and after tax analyses. Applications in cost-estimating and asset management systems. Basic accounting. Accommodating capital limitations. Dealing with inflation. Risk management and uncertainty. Restricted to students registered in the Price Faculty of Engineering. May not be held with CIVL 4050.

**ENG 3020 Technology, Society and the Future 3 Cr. Hrs.**

Impact of technology and technological change on society-past, present, future; specific technologies, e.g. construction, machine power, computers, communications, medical, military: the process of technological change; invisible effects of technology; technology and resource use; sustainable development, limits to growth and the role of technology. May not be held with CIVL 4460 or ANTH 2430. Prerequisites: A grade of "C" or better in one of the courses from the list of Written English Courses for Engineering Students, or the former ENGL 1310.

**ENG 4010 Practicing Professional Engineering in Manitoba 3 Cr. Hrs.**

An introduction to the practice of professional engineering in Manitoba, including culture, professional organization and regulation, employability aspects, engineering ethics and law. Prerequisite: Must be enrolled in the Internationally-Educated Engineers Qualification Program (IEEQ).

**ENG 4012 IEEQ CO-OP ASSIGNMENT 3 Cr. Hrs.**

Professional work assignment in business, industry, or government for cooperative education students in the IEEQ Program. Requires submission of a written report covering the work completed during a minimum 16-week work period. (Pass/Fail grade only). Prerequisite: enrolled in IEEQ Program with 80% of courses complete, including ENG 4010; good academic standing.

**ENG 4020 Professional Engineering Practice in Manitoba 3 Cr. Hrs.**

An introduction to the practice of professional engineering in Manitoba. Professional culture, organization and regulation; industry topics; engineering ethics and law. Emphasis on professional communication development. Restricted to students enrolled in the IEEQ Program. May not be held with ENG 4010.

**ENG 4100 Contemporary Topics in Engineering Practice 3 Cr. Hrs.**

This course will cover contemporary topics relating to the practice of professional engineering. The specific topics and a detailed outline will be available prior to the start of the registration period for the session in which the course will be offered. Prerequisite: Permission of the Centre for Engineering Professional Practice and Engineering Education. As the course content will vary from year to year, students may take this course more than once for credit.

**ENG 4110 Operational Excellence 3 Cr. Hrs.**

(Lab required) Methodical application of operational excellence and engineering principles and theory to address real industry problems, with emphasis on the data and fact-based engineering method of problem solving. Grounded in the Plan-Do-Study-Act system. Covers the seven step problem solving method (problem definition, examine the current situation, root cause analysis, action planning and testing, study the results, standardize the changes, and draw conclusions), applied concepts (Lean Six Sigma Management) and the fundamentals of teamwork, team dynamics and change management. It is expected that students will be challenged in terms of their understanding of the method, concepts, analytics, and the tools, and their application to solving 'real' operational problems. Students must attend both lecture and tutorial. Students will be required to attend meetings at industrial partner facilities. May not be held with MECH 4342 where the topic is Operational Excellence. Pre- or Co-requisites: STAT 2220 or (STAT 1000 and STAT 2000).

**ENG 4800 Co-operative Work 1 1 Cr. Hrs.**

Work assignment in business, industry, or government for the Price Faculty of Engineering co-operative education stream students. Requires submission of a written report covering the work completed during the four-month professional assignment. It is assumed that courses ENG 4800, ENG 4810, ENG 4820, ENG 4830, ENG 4840 will be taken in order. Those registering for this course must have applied for and been accepted into the Price Faculty of Engineering co-operative stream. Not to be held with BIOE 2000, CIVL 2900, ECE 4720, MECH 2050 or ENG 4012. This course is graded on a pass/fail basis.

**ENG 4810 Co-operative Work 2 1 Cr. Hrs.**

Work assignment in business, industry, or government for the Price Faculty of Engineering co-operative education stream students. Requires submission of a written report covering the work completed during the four-month professional assignment. It is assumed that courses ENG 4800, ENG 4810, ENG 4820, ENG 4830 and ENG 4840 will be taken in order. Those registering for this course must have applied for and been accepted into the Price Faculty of Engineering co-operative education stream. Not to be held with: BIOE 3000, CIVL 3910, ECE 4720, or MECH 3050. This course is graded on a pass/fail basis.

**ENG 4820 Co-operative Work 3 1 Cr. Hrs.**

Work assignment in business, industry, or government for the Price Faculty of Engineering co-operative education stream students. Requires submission of a written report covering the work completed during the four-month professional assignment. It is assumed that courses ENG 4800, ENG 4810, ENG 4820, ENG 4830 and ENG 4840 will be taken in order. Those registering for this course must have applied for and been accepted into the Price Faculty of Engineering co-operative education stream. Not to be held with: BIOE 4000, CIVL 4920, ECE 4720, or MECH 4050. This course is graded on a pass/fail basis.

**ENG 4830 Co-operative Work 4 1 Cr. Hrs.**

Work assignment in business, industry, or government for the Price Faculty of Engineering co-operative education stream students. Requires

submission of a written report covering the work completed during the four-month professional assignment. It is assumed that courses ENG 4800, ENG 4810, ENG 4820, ENG 4830, ENG 4840 will be taken in order. Those registering for this course must have applied for and been accepted into the Price Faculty of Engineering co-operative education stream. Not to be held with: CIVL 4930, ECE 4720, or MECH 4060. This course is graded on a pass/fail basis.

#### ENG 4840 Co-operative Work 5 1 Cr. Hrs.

Work assignment in business, industry, or government for the Price Faculty of Engineering co-operative education stream students. Requires submission of a written report covering the work completed during the four-month professional assignment. It is assumed that courses ENG 4800, ENG 4810, ENG 4820, ENG 4830 and ENG 4840 will be taken in order. Those registering for this course must have applied for and been accepted into the Price Faculty of Engineering co-operative education stream. Not to be held with: CIVL 4940. This course is graded on a pass/fail basis.

#### 4.4 Biosystems Engineering

Head: Dr. D.Mann, P.Eng.

Associate Head: Dr. N.Cicek, P.Eng

Campus Address/General Office: E2-376 EITC

Telephone: 204 474 6033

Fax: 204 474 7512

Website: [umanitoba.ca/faculties/engineering/departments/biosystems](http://umanitoba.ca/faculties/engineering/departments/biosystems)

#### Academic Staff:

For a complete listing of academic staff, please refer to the following website:

<http://umanitoba.ca/faculties/engineering/departments/biosystems/facstaff/acadstatic.html>

The Department of Biosystems Engineering offers an accredited degree program in Biosystems Engineering. Biosystems Engineering emphasizes the application of engineering principles to biologically-based systems (plants, animals, humans, and microorganisms). The program is designed to give students knowledge of the fundamental principles of engineering and to introduce biological concepts to enable these engineers to successfully interact with relevant professionals when solving engineering problems involving biological systems. The program is offered in both a traditional and a co-operative education format. The department offers three Specializations (Biomedical, Bioresource and Environmental) and one Minor (Agribusiness). A bachelor's degree in Biosystems Engineering meets the requirements for admission to the Faculty of Medicine.

The undergraduate curriculum in Biosystems Engineering is an academic program in the Price Faculty of Engineering. Students wishing to study in Biosystems Engineering must be admitted to the Price Faculty of Engineering. They are required to complete the Preliminary Engineering Program as a prerequisite to the courses in Biosystems Engineering.

#### 4.4.1 Biosystems Engineering Degree Program

##### Preliminary Engineering Program

Common to all engineering programs (see Section 4.2 for details).

##### Program Core Courses

Note: Students are encouraged to consult the department for eight- and ten-term program models. Students are strongly encouraged to follow the model programs when possible, as timetabling and course offerings are based on these program models.

Course No.		Credit Hours
BIOE 2110	Transport Phenomenon	3
BIOE 2480	Impact of Engineering on the Environment	3
BIOE 2590	Biology for Engineers	3

BIOE 2790	Fluid Mechanics	4
BIOE 2800	Solid Mechanics	4
BIOE 2900	Biosystems Engineering Design 1	4
BIOE 3270	Instrumentation and Measurement for Biosystems	4
BIOE 3320	Engineering Properties of Biological Materials	4
BIOE 3400	Design of Structural Components in Machines	4
BIOE 3590	Mechanics of Materials in Biosystems	4
BIOE 3900	Biosystems Engineering Design 2	4
BIOE 4240	Graduation Project	3
BIOE 4900	Biosystems Engineering Design 3	4
BIOE 4950	Biosystems Engineering Design 4	4
CHEM 1310	University Chemistry 1	3
ENG 2022	Engineering CAD Technologies for Biosystems	3
ENG 3000	Engineering Economics	3
MATH 2130	Engineering Mathematical Analysis 1	3
MATH 2132	Engineering Mathematical Analysis 2	3
MBIO 1220 or MBIO 1010	Essentials of Microbiology Microbiology 1	3 3
MECH 2150	Mechanical Engineering Modelling and Numerical Methods	4
MECH 3482	Kinematics and Dynamics	4
STAT 2220	Contemporary Statistics for Engineers	3
BIOL 1410 or SOIL 4060	Anatomy of the Human Body Physical Properties of Soil	3 3
BIOL 1412 or BIOE 2600	Physiology of the Human Body Plant and Animal Physiology for Engineers	3 4
One course in Technology and Society (ENG 3020 or ANTH 2430)		3
Two Complementary Studies Electives		6
Three Biosystems Engineering Design Electives (see list below)		12
Two Free Electives		6-8
<b>Total credit hours for graduation</b>		<b>150 to 153</b>

Please note the combination of BIOL 1020 (Biology 1: Principles and Themes) and BIOL 1030 (Biology 2: Biological Diversity, Function and Interactions) can be used in place of BIOE 2590 (Biology for Engineers).

#### 4.4.2 Biosystems Engineering Design Electives

Course No.		Credit Hours
BIOE 4390	Unit Operations 1	4

BIOE 4412	Design of Light-Frame Building Systems	4
BIOE 4414	Imaging and Spectroscopy for Biosystems	4
BIOE 4420	Crop Preservation	4
BIOE 4440	Bioprocessing for Biorefining	4
BIOE 4460	Air Pollution Assessment and Management	4
BIOE 4560	Structural Design in Wood	4
BIOE 4590	Management of By-Products from Animal Production	4
BIOE 4600	Design of Water Management Systems	4
BIOE 4610	Design of Assistive Technology Devices	4
BIOE 4620	Remediation Engineering	4
BIOE 4640	Bioengineering Applications in Medicine	4
BIOE 4700	Alternative Building Design	4

Design elective courses offered vary from year to year. Courses offered in the current year are listed on the online timetables on the department website.

#### 4.4.3 Complementary Studies Electives

Complementary studies electives are required to give the engineering student exposure to topics outside the fields of science and engineering. Many university courses fulfill the complementary studies requirement:

- Any course at the 1000-level or above from the faculties of Arts or Management;
- Any course at the 1000-level or above from the Department of Agribusiness and Agricultural Economics;
- Any course listed in Group C of our 3 specializations

ARTS 1100 Introduction to University may not be used for credit in the Price Faculty of Engineering. Other university courses, which do not cover topics of science or engineering, may also be acceptable. Please consult with the department head (or his/her designate) for approval of such courses. If you are planning to complete a specialization, please take note that there are specific courses to be used as complementary studies electives.

#### Free Electives

Any university course at the 1000-level or above can be used as a free elective. However, ARTS 1100 Introduction to University may not be used for credit in the Price Faculty of Engineering. Students are permitted to take additional design electives or engineering courses from other departments to fulfill free elective requirements. If you are planning to complete a specialization, please take note that there are specific courses to be used as free electives.

#### 4.4.4 Specializations in Biosystems Engineering

##### Specializations in Biosystems Engineering

Students wishing to pursue more focused studies in a Biosystems Engineering subject area have the choice of completing one of three specializations: 1) Biomedical, 2) Bioresource, or 3) Environmental. To complete a specialization, you will be required to complete two science electives (identified as Group A), three Biosystems Engineering design electives (identified as Group B), two complementary studies electives (identified as Group C), and two free electives (selected from Groups B, C or D). The similarly-themed courses that have been identified for each

specialization take the place of two science electives, three Biosystems Engineering design electives, two complementary studies electives, and two free electives in the general Biosystems Engineering program (i.e., completing a specialization does not require any additional coursework).

#### Biomedical Specialization

The biomedical specialization provides engineers with knowledge of human anatomy and physiology to enhance the understanding of the role to be played by engineers in specific areas within biomedical engineering such as rehabilitation engineering, clinical engineering, medical imaging, and orthopaedics.

Students who obtain a grade of "C" or better in the courses listed below will receive a notation of "Biomedical Specialization" on their transcript at the time of graduation.

#### Group A: Science Electives (choose both courses)

BIOL 1410 Human Anatomy

BIOL 1412 Physiology of the Human Body

#### Group B: Biosystems Engineering Design Electives (choose 3 from the list)

BIOE 4414 Imaging and Spectroscopy for Biosystems

BIOE 4610 Design of Assistive Technology Devices

BIOE 4640 Bioengineering Applications in Medicine

BIOE 4650 Textiles in Healthcare and Medical Applications

#### Group C: Complementary Studies Electives (choose 2 from the list)

ENG 1900 Occupational Health and Safety Awareness

ENVR 3400 Introduction to Environment and Health

HIST 4660 History of Health and Disease (6) (counts as 2)

HIST 4680 Social History of Health and Disease in Modern Canada (6) (counts as 2)

HNSC 1210 Nutrition for Health and Changing Lifestyles

NATV 3240 Indigenous Medicine and Health

PERS 1200 Physical Activity, Health and Wellness

PHIL 2740 Ethics and Biomedicine (or PHIL 2741 Éthique et biomédecine)

#### Group D: Free Electives (choose 2 from the list)

**(Note: additional courses from Group C can be used to fulfill Group D electives.)**

BIOL 2410 Human Physiology 1

BIOL 2420 Human Physiology 2

BIOL 4470 Sensory-Motor Physiology

CHEM 2210 Introductory Organic Chemistry 1

CHEM 2360 Biochemistry 1

CHEM 2370 Biochemistry 2

ECE 4610 Biomedical Instrumentation and Signal Processing

KIN 2330 Biomechanics

KIN 4330 Advanced Biomechanics

MECH 4322 Design of Biomechanical Devices

MECH 4360 Biomaterials for Medical Applications

PHYS 3220 Medical Physics and Physiological Measurement

PHYS 4400 Medical Imaging

**Note:** Special permission may be granted by the Head of Department for courses not appearing on the list for Group C or Group D.

### **Bioresource Specialization**

Challenges remain in the production of food and renewable resources for a world of ever-increasing population. The bioresource specialization provides the educational background to enable engineers to devise strategies and technologies for producing food, fibre, bio-based products, and renewable energy efficiently and sustainably.

Students who obtain a grade of "C" or better in the courses listed below will receive a notation of "Bioresource Specialization" on their transcript at the time of graduation.

#### **Group A: Science Electives (choose both courses)**

BIOE 2600 Plant and Animal Physiology for Engineers

SOIL 4060 Physical Properties of Soil

#### **Group B: Biosystems Engineering Design Electives (choose 3 from the list)**

BIOE 4390 Unit Operations 1

BIOE 4412 Design of Light-Frame Building Systems

BIOE 4420 Crop Preservation

BIOE 4440 Bioprocessing for Biorefining

BIOE 4590 Management of By-Products from Animal Production

BIOE 4600 Design of Water Management Systems

#### **Group C: Complementary Studies Electives (choose 2 from the list)**

ABIZ 1000 Introduction to Agribusiness Management

ABIZ 1010 Economics of World Food Issues and Policies

ABIZ 3530 Farm Management

FOOD 1000 Food Safety Today and Tomorrow

GEOG 2520 Geography of Natural Resources

#### **Group D: Free Electives (choose 2 from the list)**

**(Note: additional courses from Group B or C can be used to fulfill Group D electives.)**

AGRI 1600 Introduction to Agrifood Systems

ENTM 3170 Crop Protection Entomology

FOOD 3010 Food Process 1

FOOD 4260 Water Management in Food Processing

PLNT 2500 Crop Production

PLNT 2510 Fundamentals of Horticulture

PLNT 3560 Organic Crop Production on the Prairies

SOIL 3520 Pesticides: Environment, Economics and Ethics

**Note:** Special permission may be granted by the Head of Department for courses not appearing on the list for Group C or Group D.

### **Environmental Specialization**

There are numerous environmental issues faced by society. The environmental specialization provides engineers with the knowledge to predict environmental impacts due to human developments and to solve problems associated with the environment (soil contamination, pollution of rivers and lakes, air pollution, wastewater treatment).

Students who obtain a grade of "C" or better in the courses listed below will receive a notation of "Environmental Specialization" on their transcript at the time of graduation.

#### **Group A: Science Electives (choose both courses)**

BIOE 2600 Plant and Animal Physiology for Engineers

SOIL 4060 Physical Properties of Soil

#### **Group B: Biosystems Engineering Design Electives (choose 3 from the list)**

BIOE 4460 Air Pollution Assessment and Management

BIOE 4590 Management of By-Products from Animal Production

BIOE 4600 Design of Water Management Systems

BIOE 4620 Remediation Engineering

BIOE 4700 Alternative Building Design

#### **Group C: Complementary Studies Electives (choose 2 from the list)**

ABIZ 2390 Introduction to Environmental Economics (or equivalent)

ENVR 1000 Environmental Science 1 – Concepts

ENVR 2000 Environmental Science 2 - Issues

ENVR 2810 Environmental Critical Thinking and Scientific Research

ENVR 3160 Environmental Responsibilities and the Law

ENVR 3400 Introduction to Environment and Health

ENVR 3750 Green Building and Planning

ENVR 3850 Sustainable Manitoba

ENVR 4050 Ecosystem Management

ENVR 4400 Advanced Issues in Environment and Health

GEOG 2520 Geography of Natural Resources

PHIL 2750 Environmental Ethics

#### **Group D: Free Electives (choose 2 from the list)**

**(Note: additional courses from Group B or C can be used to fulfill Group D electives.)**

AGEC 2370 Principles of Ecology (or equivalent)

CIVL 3690 Environmental Engineering Analysis

CIVL 3700 Environmental Engineering Design

CIVL 4350 Hazardous Waste Treatment

ENVR 2550 Environmental Chemistry

ENVR 3110 Environmental Conservation and Restoration

GEOG 3730 Geographic Information Systems

**Note:** Special permission may be granted by the Head of Department for courses not appearing on the list for Group C or Group D.

### Agribusiness Minor

A minor in agribusiness is available to Biosystems Engineering students. The minimum requirement is 18 credit hours consisting of ECON 1010 Introduction to Microeconomic Principles (3 credit hours), ECON 1020 Introduction to Macroeconomic Principles (3 credit hours), ABIZ 1000 Introduction to Agribusiness (3 credit hours), ABIZ 2510 Introduction to Agricultural and Food Marketing (3 credit hours), ABIZ 2520 Introduction to Management Sciences (3 credit hours) and at least three additional credit hours from the Department of Agribusiness and Agricultural Economics (students must meet all prerequisite requirements). A maximum of 3 courses (9 credit hours) of courses used for the minor may also be used to fulfill course requirements in Biosystems Engineering.

### Admission to Medicine

The Bachelor of Science degree in Biosystems Engineering provides the background to meet eligibility requirements for admission into the Max Rady College of Medicine at the University of Manitoba. Students planning to apply for entrance to Medicine after completing the B.Sc. in Biosystems Engineering are advised to consult with the Max Rady College of Medicine for admission requirements.

### Co-operative Education Program in Biosystems Engineering

Please refer to SECTION 5: Co-operative Education and Industrial Internship Programs

### 4.5 Biosystems Engineering Course Descriptions-2000 Level

#### BIOE 2110 Transport Phenomena 3 Cr. Hrs.

Principles of heat transfer, solar radiation, psychometrics, molecular diffusion, mass transfer and refrigeration and their application to biosystems. Prerequisite: ENG 1460.

#### BIOE 2480 Impact of Engineering on the Environment 3 Cr. Hrs.

Students will gain an understanding of overall sustainability of industrial activities, life-cycle and risk assessment techniques for sustainability, and design improvements to enhance environmental performance of engineered systems. This course will introduce basic methodologies for conducting environmental impact assessments, including physical, chemical, ecological, social and economic impacts. May not be held with the former BIOE 4480. Registration restricted to Biosystems Engineering students.

#### BIOE 2590 Biology for Engineers 3 Cr. Hrs.

Provide theories and principles of Biology to engineering students and present applications of biological principles to engineering problems. Fundamental theories involved in cell structure and function, metabolism, genetics and heredity, bacteria and virus structure and function, plant and animal structure and function are covered. An introduction to animal and plant physiology is also provided. Laboratory sessions and term

assignments focus on the engineering applications of these basic theories and principles to provide a good understanding of the role of Biology in Engineering. Prerequisite: CHEM 1300.

#### BIOE 2600 Plant and Animal Physiology for Engineers 4 Cr. Hrs.

Plant and animal physiology as affected by environment for use in the design of agricultural machines, structures, and food processes for biological products; models of simulation of plant and animal growth. Prerequisite: BIOE 2590. May not be held with the former AGRI 2200.

#### BIOE 2790 Fluid Mechanics 4 Cr. Hrs.

(Lab required) Definition of fluid; fluid properties; variation of pressure in a fluid; hydrostatic forces; buoyancy; kinematics of flow; control volumes; continuity; Bernoulli's equation; energy equation; flow in closed conduits; open channel flow. Prerequisites: ENG 1440 (or ENG 1441) and (MATH 1710 or MATH 1700 or MATH 1701). Not to be held with CIVL 2790.

#### BIOE 2800 Solid Mechanics 4 Cr. Hrs.

(Lab required) Analysis of deformable bodies; stress and strain in three dimensions; equilibrium equations and strain-displacement relations; constitutive relations and mechanical behaviour of materials; radially symmetric and plane problems in elasticity; relevant experimental demonstrations. Prerequisites: ENG 1440 (or ENG 1441) and (MATH 1710 or MATH 1700 or MATH 1701). Not to be held with CIVL 2800.

#### BIOE 2900 Biosystems Engineering Design 1 4 Cr. Hrs.

An introduction to the professional discipline of Biosystems Engineering and the philosophy of systems thinking that is used by the Biosystems engineer. Students will be introduced to several principles (i.e., safety engineering, human factors engineering and biomimicry) that should be considered during the design process, and will be given opportunity to apply these principles to design problems. The course will provide opportunity for students to develop technical communication, project management and teamwork skills. May not be held with BIOE 2580. Prerequisite: ENG 1430.

### 4.5.1 Biosystems Engineering Course Descriptions-3000 Level

#### BIOE 3100 Agricultural Engineering Fundamentals for Agronomists 3 Cr. Hrs.

(Lab required) The course will provide fundamental technical competencies from the discipline of agricultural engineering for the study of agronomy. Students will be introduced to i) concepts from "smart" farming, ii) functions of machinery for production agriculture, iii) water management for production agriculture, and iv) safe storage and handling of grains and oilseeds. Prerequisite: PLNT 2500 (D).

#### BIOE 3270 Instrumentation and Measurement for Biosystems 4 Cr. Hrs.

Basic instrumentation for measuring electrical and non-electrical quantities associated with biosystems engineering and industry; transducers for automatic control. Prerequisites: [MATH 2132 (or the former MATH 2110)] and ENG 1450.

#### BIOE 3320 Engineering Properties of Biological Materials 4 Cr. Hrs.

(Lab required) Engineering properties of biological and interacting materials within the system. Relationship between composition, structure, and properties of plant, animal, and human tissues. Definition and measurement of mechanical, thermal, electromagnetic, chemical and biological properties and their variability. Use of these properties in engineering calculations. Prerequisites: [Math 2130 (or the former Math 2110)] and [BIOE 2800 or CIVL 2800 or MECH 2222 (or the former MECH 2220)].

#### BIOE 3400 Design of Structural Components in Machines 4 Cr. Hrs.

(Lab required) Design of structural components in machines; designing for axial tension and compression, connections for axial loadings, pinned trusses, bending, torsion, and combined loads; designing for welded connections; use of fluid power to enable movement of structural components. Students will use the computer as a design tool. May not be held with the former BIOE 4530. Prerequisite: BIOE 2800 or CIVL 2800 or MECH 2222.

**BIOE 3530 Engineering Fundamentals 3 Cr. Hrs.**

Principles of heat transfer, steam, psychometrics, fluid mechanics, material balances, electricity and refrigeration. Cannot be held for credit in the Price Faculty of Engineering. Prerequisite: [MATH 1300 or equivalent] and [MATH 1500 or equivalent] or the former MATH 1680.

**BIOE 3590 Mechanics of Materials in Biosystems 4 Cr. Hrs.**

(Lab required) In this course students will be exposed to both the theory and physical behaviour of materials when subjected to loads. The course will be delivered using a combination of lectures and hands-on labs. The materials presented include a wide range of materials biosystems engineers may be involved with, including plastics, bone, wood, concrete, steel, other biological materials and composites. Prerequisite: BIOE 2800 or CIVL 2800, or MECH 2222.

**BIOE 3900 Biosystems Engineering Design 2 4 Cr. Hrs.**

An introduction to the use of reverse engineering to deduce design features from previously-designed products or systems. Considerations such as design for sustainability and design for disassembly will be discussed. Students will have opportunity to use reverse engineering principles i) to understand how components fit together to form functional systems, ii) to identify flaws and iii) to propose design improvements. Students will learn appropriate techniques for documenting the reverse engineering process. Theory of project management will also be taught and discussed. Prerequisites: [BIOE 2900 or the former BIOE 2580] and ENG 2022 or the former ENG 2020].

## 4.5.2 Biosystems Engineering Course Descriptions-4000 Level

**BIOE 4240 Graduation Project 3 Cr. Hrs.**

Either an independent or a directed study including at least one of: a comprehensive literature review, an experimental research project, or an engineering design problem. The project is to be concluded by a formal report or thesis. Prerequisites: BIOE 3270 or approval of department.

**BIOE 4390 Unit Operations 1 4 Cr. Hrs.**

(Lab required) Equipment and systems used in handling, mixing, size reduction, separation and size enlargement of value-added food products. Prerequisites: BIOE 2790 or CIVL 2790 or MECH 2262. Pre- or Co-requisites: BIOE 3320 and BIOE 3270.

**BIOE 4412 Design of Light-Frame Building Systems 4 Cr. Hrs.**

(Lab required) Light-frame buildings as a structural and environmental system; structural loads in building systems; energy (heat), moisture and air contaminants in building systems; built-environment for building occupants. Hands-on labs of constructing small-scale structures for students to gain an understanding of building construction techniques. May not be held with CIVL 4024. Prerequisites: BIOE 2110. Pre- or Corequisite: BIOE 3590.

**BIOE 4414 Imaging and Spectroscopy for Biosystems 4 Cr. Hrs.**

The purpose of this course is to familiarize senior Biosystems Engineering students with the fundamentals of imaging and spectroscopy for biosystems. Techniques of image acquisition, storage, processing, and pattern recognition will be taught. Various spectroscopy techniques and their applicability to biological materials will be discussed. Analysis of data using statistical, artificial neural networks and chemometric methods will be covered. Offered in alternate years. Prerequisite: BIOE 3270.

**BIOE 4416 Topics in Biosystems Engineering 3 Cr. Hrs.**

This course will cover contemporary topics in Biosystems Engineering. The specific topics and a detailed outline will be available at the time of registration. Prerequisite: Permission of the department.

**BIOE 4420 Crop Preservation 4 Cr. Hrs.**

Biological and physical deterioration during storage. Methods of preserving and storing cereals, oilseeds, and other agricultural crops. Prerequisite: BIOE 2110.

**BIOE 4440 Bioprocessing for Biorefining 4 Cr. Hrs.**

This course will provide students with an understanding of the principles involved in the design of proper conditions for processing of biomaterials for production of high-quality biofuels and bioproducts. The content of this course is built on the principles of physics, transport phenomena,

thermodynamics, reaction, kinetics, fermentation, and industrial unit operations. Prerequisite: BIOE 2110. Pre-or co-requisite: BIOE 3320.

**BIOE 4460 Air Pollution Assessment and Management 4 Cr. Hrs.**

(Lab required) Air pollutant sources and characteristics, their impact on the environment, their behaviour in the atmosphere. Methods of sampling and measurement and the basic technological alternatives available for separation/removal and control. Particular problems of regional interest are discussed. Pre- or Co-requisites: BIOE 2790 or CIVL 2790 or MECH 2262 or the former MECH 2260.

**BIOE 4560 Structural Design in Wood 4 Cr. Hrs.**

Design using wood as a structural material in light-frame buildings. Consideration of design constraints associated with sawn lumber as well as based composite materials. Emphasis on use of computer based design aids. Prerequisites: CIVL 3770 or BIOE 3590.

**BIOE 4590 Management of By-Products from Animal Production 4 Cr. Hrs.**

(Lab required) Topics covered include solid and liquid manure, manure characteristics, manure collection, storage, land application and utilization, biological treatment, design of equipment and facilities for manure handling. Environment issues, such as odour and water pollution associated with manure management will also be discussed. Prerequisites: BIOE 2790 or CIVL 2790 or MECH 2262 or the former MECH 2260.

**BIOE 4600 Design of Water Management Systems 4 Cr. Hrs.**

To introduce the basic theoretical principles in the design of irrigation and drainage systems. Topics covered include the determination of irrigation depth and interval, evapotranspiration, measurement and analysis of precipitation, design of sprinkler and drip irrigation systems, selection of pumps, surface and subsurface drainage design, water quality issues, salinity management, and the environmental impact of water management practices. Co-requisite: SOIL 4060 or CIVL 3730 or consent of instructor.

**BIOE 4610 Design of Assistive Technology Devices 4 Cr. Hrs.**

Application and design of technology for individuals with disabilities; emphasizing the development of the requisite knowledge, skills, and attitudes to evaluate, design, and implement client-centred assistive technology. A multi-disciplinary approach to learning and applying knowledge will be emphasized with engineering and medical rehabilitation students collaborating on a design project. Prerequisite: BIOL 1412 (or ZOO 1330).

**BIOE 4620 Remediation Engineering 4 Cr. Hrs.**

(Lab required) The theoretical basis for the engineering design of different remediation technologies to treat contaminated soil and groundwater will be introduced. Methods for site characterization, monitoring of progress in remediation, and modeling of the remediation process will be presented. Different methods such as soil washing, air sparging, bioremediation, phytoremediation, constructed wetlands, electrokinetic remediation, reactive barriers will be discussed. Prerequisite: BIOE 2790 or CIVL 2790 or MECH 2262 or the former MECH 2260.

**BIOE 4640 Bioengineering Applications in Medicine 4 Cr. Hrs.**

This course surveys bioengineering applications and medicine from a clinical engineering perspective. Topics include: clinical engineering practice; device development legislation; biomedical sensors; biosensors; biomaterials and biocompatibility; as well as the principles of and design for medical imaging equipment. Prerequisites: BIOL 1410 (or ZOO 1320) and BIOL 1412 (or ZOO 1330) and BIOE 3320.

**BIOE 4650 Textiles in Healthcare and Medical Applications 4 Cr. Hrs.**

This course provides students with an introduction to medical textiles and healthcare products used in current practices, as well as fundamentals for designing textile products and devices that improve the health and quality of life of human beings. The course includes both basic topics related to healthcare and medical textiles (i.e., materials and structures, nanofibers for medical uses, comfort and health problems with textiles, biocompatibility and biostability issues) and applications of textile products for healthcare and medical end uses (i.e., protective and hygiene textiles, external devices, tissue engineering and intelligent/smart textiles). May not be held with

TXSC 3500 or TXSC 4500. Prerequisite: BIOE 2590. Pre- or Co-requisite: BIOE 3320.

#### **BIOE 4700 Alternative Building Design 4 Cr. Hrs.**

(Lab required) This course will provide students with experience in the design of structures that utilize natural and green building materials and techniques. Students will get hands-on lab experience with various natural building materials such as straw, straw light clay, cob and stackwall. May not be held with CIVL 4024. Pre- or Co-requisites: BIOE 3590 or CIVL 3770.

#### **BIOE 4900 Biosystems Engineering Design 3 4 Cr. Hrs.**

An opportunity for the Biosystems Engineering student to practice fundamental engineering competencies (project management, technical communication) in the preparation of a preliminary design for the client. Students will be expected to demonstrate professionalism as a part of a design team. May not be held with BIOE 3580. Prerequisite: BIOE 3900.

#### **BIOE 4950 Biosystems Engineering Design 4 4 Cr. Hrs.**

An opportunity for the Biosystems Engineering student to validate a conceptual solution to an engineering problem through fabrication and testing of a prototype. Students will be expected to employ project management skills to ensure completion of both prototype and an engineering report for a client by the end of the semester. May not be held with BIOE 4580. Prerequisite: BIOE 4900.

### **4.6 Civil Engineering**

Head: Dr. Dagmar Svecova, P.Eng

Associate Head: Dr. Qiuyan Yuan, P.Eng. (Undergraduate Programs); Dr. Shawn Clark, P.Eng. (Graduate Programs)

Campus Address/General Office: E1-368 EITC

Email Address: [civil\\_eng@umanitoba.ca](mailto:civil_eng@umanitoba.ca)

Telephone: 204 474 9220

Fax: 204 474 7513

Website: <http://umanitoba.ca/faculties/engineering/departments/civil/>

Academic Staff: Please refer to our website at: [umanitoba.ca/faculties/engineering/departments/civil/facultystaff-academic.html](http://umanitoba.ca/faculties/engineering/departments/civil/facultystaff-academic.html)

The Department of Civil Engineering offers a fully accredited degree program in Civil Engineering. Graduates of the Civil Engineering program are academically qualified to register as Engineers-in-Training in engineering licensing bodies in Canada. The Civil Engineering program is designed to give students a broad knowledge of engineering principles and professional practice. The program has a strong core component that provides exposure to a range of areas in Civil Engineering, including – but not limited to – the design of building and bridges, the design of facilities and methods for treatment of water, waste water and solid waste, the design of foundations and earthworks such as dams and river bank protection, transportation planning, the design of roads and pavement, the design of hydraulic structures such as sewers, canals, and spillways, and the management of surface and ground water. In the last years of the program, there are some opportunities for specialization through selection of technical elective courses. A cooperative education option allows students to include practical work experience in their program.

#### **Civil Engineering Degree Program**

Students are to consult with the department for four and five-year program plans. Students are expected to follow the program plans when possible, as timetabling and course offerings are based on these plans.

#### **Environmental Engineering Option**

An option in Environmental Engineering provides an opportunity for students to focus on environmental engineering related courses.

#### **Student Support**

Summer employment of a limited number of undergraduate students may be offered by the Department of Civil Engineering. Typical duties include assisting academic staff members with research projects.

#### **Preliminary Engineering Program**

Common to all Engineering Programs (see Section 4.2 for details.)

#### **Civil Engineering Program and Environmental Engineering Option**

**Civil Engineering:**

Complementary Studies Elective (see Note 1) 3

**Environmental Option:**

PHIL 2750 Environmental Ethics 3 (see Note 1) 3

**Civil Engineering Technical Electives:** (5 courses) (see Notes 2 and 3)

A minimum of 3 courses must be taken from Group A and up to 2 from Group B, with no more than one course from outside the Department of Civil Engineering.

**Group A (Select 3 to 5 courses)**

Course No.	Course Name	Credit Hours
CIVL 3710	Finite Element Analysis	4
CIVL 4020	Masonry Design and Construction	4
CIVL 4022	Properties and Design of Concrete Mixtures	4
CIVL 4024	Sustainable Building Design (see Note 4)	4
CIVL 4030	Advanced Structural Design	4
CIVL 4040	Structural Dynamics	4
CIVL 4100	Engineering Management and the Environment	4
CIVL 4120	Water Treatment Plant Design	4
CIVL 4130	Solid Waste Management	4
CIVL 4180	Environmental Systems	4
CIVL 4200	Groundwater Contamination	4
CIVL 4230	Geotechnical Engineering	4
CIVL 4232	Geotechnical Earthquake Engineering	4
CIVL 4250	Groundwater Hydrology	4
CIVL 4300	Design of Urban Water Systems	4
CIVL 4350	Hazardous Waste Treatment	4
CIVL 4360	Water Resources Planning and Management	4
CIVL 4410	Transportation Systems	4
CIVL 4420	Highway Pavement Design	4
CIVL 4470	Watershed Processes	4

**Group B (Up to 2 courses, only 1 from outside of Civil Engineering)**

Course No.	Course Name	Credit Hours
BIOE 4560	Structural Design in Wood	4
CIVL 4332	Civil Engineering Thesis Project	4
CIVL 4500	Contemporary Topics in Civil Engineering	4

**Environmental Option Technical Electives:**

(5 courses) (see Notes 2 and 3)

A minimum of 3 courses must be taken from Group A and up to 2 from Group B, with no more than one course from outside the Department of Civil Engineering.

**Group A (Select 3 to 5 courses)**

Course No.	Course Name	Credit Hours
CIVL 3710	Finite Element Analysis	4
CIVL 4100	Engineering Management and the Environment	4
CIVL 4120	Water Treatment Plant Design	4
CIVL 4130	Solid Waste Management	4
CIVL 4180	Environmental Systems	4
CIVL 4200	Groundwater Contamination	4
CIVL 4250	Groundwater Hydrology	4
CIVL 4300	Design of Urban Water Systems	4
CIVL 4350	Hazardous Waste Treatment	4
CIVL 4360	Water Resources Planning and Management	4
CIVL 4470	Watershed Processes	4

**Group B (Up to 2 courses, only 1 from outside of Civil Engineering)**

Course No.	Course Name	Credit Hours
BIOE 4460	Air Pollution Assessment and Management	4
CIVL 4332	Civil Engineering Thesis Project	4
CIVL 4500	Contemporary Topics in Civil Engineering	4
SOIL 4500	Remediation of Contaminated Land	3

**Notes:**

1) Students are required to take any course from the Faculty of Arts or Faculty of Management, at the 1000 level or above, as a complementary studies elective. However, ARTS 1110 Introduction to University may not be used for credit in the Price Faculty of Engineering. Students pursuing the Environmental Option must take PHIL 2750 as their complementary studies elective.

2) Technical elective courses offered vary from year to year and may have limited enrollment. Courses offered in the current year are listed on the online timetables on the Department website.

3) Students are encouraged to discuss their program of courses with members of the instructional staff to obtain advice concerning the best choice of electives for their needs.

4) CIVL 4024 can not be held with BIOE 4412 or BIOE 4700.

5) Students may take one technical elective course with a significant engineering science and/or design component from another department subject to the approval by the department head (or designate) of Civil Engineering.

**Co-operative Education Option in Civil Engineering**

Please refer to SECTION 5: Co-operative Education and Industrial Internship Programs

**4.7 Civil Engineering Course Descriptions-2000 Level**

**CIVL 2770 Civil Engineering Materials 5 Cr. Hrs.**

Principles of testing; testing standards; instrumentation; data acquisition systems; mechanical properties of steel, iron, cement, concrete, asphalt, wood and composites; classification and particle size analysis of soils and aggregates. Prerequisite ENG 1440. Co-requisite: CIVL 2800.

**CIVL 2780 Civil Engineering Systems 4 Cr. Hrs.**

Introduction to applied systems analysis approach. Use of applied systems analysis in Civil Engineering. Optimization techniques: linear programming; dynamic programming; other techniques. Evaluation: decision analysis. Prerequisites: (MATH 1710 or MATH 1700) (C).

**CIVL 2790 Fluid Mechanics 4 Cr. Hrs.**

Definition of fluid; fluid properties; variation of pressure in a fluid; hydrostatic forces; buoyancy; kinematics of flow; control volumes; continuity; Bernoulli's equation; momentum equation; energy equation; flow in closed conduits; open channel flow. Prerequisites: ENG 1440, MATH 1710 or MATH 1700.

**CIVL 2800 Solid Mechanics 1 4 Cr. Hrs.**

Analysis of deformable bodies; stress and strain in three dimensions; equilibrium equations and strain-displacement relations; constitutive relations and mechanical behaviour of materials; radially symmetric and plane problems in elasticity; relevant experimental demonstrations. Prerequisites: ENG 1440, MATH 1710 or MATH 1700.

**CIVL 2830 Graphics for Civil Engineers 2 Cr. Hrs.**

Orthographic Drawing: Object Orientation and Views, Space Dimensions, Surfaces, Lines, and Hidden Features. Computer-based Drawings. Applications: Steel and Reinforced Concrete Structures, Digital Terrain Models. Ethical, Legal and Professional Issues. Co-requisite: CIVL 2840.

**CIVL 2840 Civil Engineering Geomatics 3 Cr. Hrs.**

Geomatics in civil engineering, map-making, map-reading, computerized maps; leveling; distance measurement angles, directions, traverses; coordinate geometry; electronic survey instruments; global positioning system; geographic information systems; digital photogrammetric methods and data; aspects of route surveying. Not to be held with CIVL 2820. Pre or Co-requisite: MATH 1210 (C), Co-requisite: CIVL 2830.

## 4.7.1 Civil Engineering Course Descriptions-3000 Level

**CIVL 3590 Numerical Methods in Engineering Analysis 4 Cr. Hrs.**

Variety of numerical techniques applicable to solutions of problems in civil engineering. Students may not hold credit for CIVL 3590 and MATH 2120. Prerequisite: COMP 1010 or COMP 1012 (C). Pre or Co-requisite: MATH 2132 or prerequisite MATH 2100.

**CIVL 3690 Environmental Engineering Analysis 4 Cr. Hrs.**

(Lab required) Introduction to environmental engineering analysis concept, risk assessment, colloidal dispersions, mass balances, reaction kinetics, and reactor design principles. Water pollution and water quality in rivers and lakes. Physical, chemical and biological unit operations and processes applied in water and/or wastewater treatment. Meteorology and air pollution; atmospheric dispersion. Solid waste management issues. Prerequisites: (CHEM 1310 or CHEM 2560), [ENG 2030 or ENG 2040 (or the former ENG 2010)], [STAT 2220 or (STAT 1000 and STAT 2000)].

**CIVL 3700 Environmental Engineering Design 4 Cr. Hrs.**

Design principles are developed for water, solid/soil and air pollution control. Application of the principles in design projects which may include surface and groundwater remediation, solid waste management, landfilling, soil remediation and site assessment; municipal and industrial wastewater treatment; odour and air pollution abatement facilities. Prerequisite: CIVL 3690.

**CIVL 3710 Finite Element Analysis 4 Cr. Hrs.**

One-dimensional analysis of fluid flow, seepage and heat transfer; truss, beam and frame elements; two-dimensional problems; isoparametric elements and Gauss quadrature; time-dependent problems, diffusion, consolidation, and time integration methods; introduction to commercial packages; solution of problems in civil engineering (seepage, dams, pavements). Prerequisites: [CIVL 2790, CIVL 2800], [CIVL 3590 or MATH 2120].

**CIVL 3730 Geotechnical Materials and Analysis 4 Cr. Hrs.**

Soil and rock properties: laboratory and field techniques; in situ states of stress and consolidations; constitutive models; stress beneath loaded areas and around tunnels; analysis of simple retaining structures and slopes; stability and settlement of shallow and deep foundations in soil and rock. Prerequisites: (GEOL 1340 or the former GEOL 2250), CIVL 2770, CIVL 2800.

**CIVL 3740 Hydraulics 4 Cr. Hrs.**

Hydraulics of uniform and gradually varied flow; backwater computation and classification of surface water profiles; hydraulics jumps, spillways, and stilling basins; flow over weirs; hydraulic models; theory of turbo-machinery. Prerequisite: CIVL 2790.

**CIVL 3750 Hydrology 4 Cr. Hrs.**

Basic hydrological processes; precipitation; evapotranspiration; infiltration and runoff; analytical methods; hydrograph theory and application; application to reservoir design; project floods and flow forecasting; statistical analysis. Prerequisite or co-requisite: STAT 2220 or (STAT 1000 and STAT 2000).

**CIVL 3760 Structural Analysis 4 Cr. Hrs.**

Different structural forms and load distribution, analysis of cables; statically determinate curved, beams and frames; influence lines; energy methods and deflections of structures; flexibility and stiffness methods; computer-aided structural analysis; introduction to structural dynamics. Prerequisite: CIVL 2800.

**CIVL 3770 Structural Design 1 4 Cr. Hrs.**

Introduction to design of steel structures; loading, structural configurations; design of simple members and connections; building code requirements. Prerequisites: CIVL 2770 (C), CIVL 3760 (C).

**CIVL 3790 Transportation Engineering 1 4 Cr. Hrs.**

Introduction to transportation. Overview of Canada and U.S. transport systems. Fundamentals of transport systems analysis. Introduction to sequential demand modeling. Analysis and evaluation of uninterrupted flow on highways. Basics of geometric design of highways. Basics of design of at-grade intersections. Introduction to computer applications in transportation engineering. Basics of pavement engineering and design. Prerequisites: CIVL 2840, CIVL 2770, CIVL 2780 and (STAT 2220 or (STAT 1000 and STAT 2000)).

## 4.7.2 Civil Engineering Course Descriptions-4000 Level

**CIVL 4020 Masonry Design and Construction 4 Cr. Hrs.**

Introduction to the building codes that govern masonry design. Advanced design procedures for masonry members and structures. Single-story and multi-story building design. Prerequisite: CIVL 3760.

**CIVL 4022 Properties and Design of Concrete Mixtures 4 Cr. Hrs.**

Constituent materials (cement, admixtures, etc.) of concrete; performance-based design and control of concrete mixtures; fresh, hardened and durability properties of concrete. Prerequisite: CIVL 2770.

**CIVL 4024 Sustainable Building Design: Principles of Best Practice 4 Cr. Hrs.**

(Lab required) Best practices in sustainable design; current standards that govern building envelope components, cladding systems, membranes, interface details and indoor air quality. Industry challenges; presents fundamental principles of building science and demonstrates their application to the design, repair and maintenance of buildings; building systems; how environments affect material performance. May not be held with BIOE 4412 or BIOE 4700. Prerequisite: CIVL 3760, Pre or Co-requisite: CIVL 3770.

**CIVL 4030 Structural Design 3 4 Cr. Hrs.**

(Lab required) Special topics in structural engineering including analysis and design of prestressed concrete structures, fibre-reinforced polymer (FRP)- reinforced concrete structures, and wood structures. Pre- or corequisite: CIVL 3770.

**CIVL 4040 Structural Dynamics 4 Cr. Hrs.**

Dynamic loads in civil engineering; overview of structural dynamics; single-degree-of-freedom systems; free-vibration, harmonic, periodic and

impulsive loads; multi-degree-of-freedom systems; distributed systems; beam vibrations; steady-state vibrations of foundations; introduction to earthquake engineering; elastic waves in soils, response and design spectrums; wind vibrations. Prerequisite: CIVL 3760.

**CIVL 4050 Engineering Economics 3 Cr. Hrs.**

Introduction to engineering economics. Time value of money and discounted cash flow calculations. Comparing alternatives. Replacement analysis and life-cycle costing. Public sector engineering economy studies. Private sector engineering economy studies. Before and after-tax analysis. Applications in cost-estimating. Applications in asset management systems. Basic accounting. Accommodating capital limitations. Dealing with inflation. Dealing with risk and uncertainty. Prerequisite: STAT 2220 or (STAT 1000 and STAT 2000).

**CIVL 4100 Engineering Management and the Environment**

**4 Cr. Hrs.**

Teams of students apply environmental management techniques, such as: impact assessment, site assessment, and auditing to selected engineering construction projects and operations; several oral and written reports are required. Co- or prerequisite: CIVL 3700.

**CIVL 4120 Water Treatment Plant Design 4 Cr. Hrs.**

Design of unit processes used in potable water treatment plants: solid/liquid separation, oxidation, coagulation, filtration, adsorption and disinfection. Determination of design parameters through laboratory studies. Water treatment plants design standards and guidelines. Prerequisite: CIVL 3690.

**CIVL 4130 Solid Waste Management 4 Cr. Hrs.**

Engineering principles and the practice of integrated management of solid wastes, including characteristics, sorting, utilization and final disposal in landfill. Principles of leachate and hazardous waste management and disposal. Pre or Co-requisite: CIVL 3700.

**CIVL 4180 Environmental Systems 4 Cr. Hrs.**

Development of a river water quality model; waste allocation modelling; modelling of the sites selection process; analysis of environmental impact using technical and non-technical (i.e. sociological, ethical, aesthetic) parameters. Prerequisites: CIVL 2780, CIVL 3690, CIVL 3750.

**CIVL 4200 Groundwater Contamination 4 Cr. Hrs.**

Introduction to the principles of groundwater chemistry; chemical evolution of natural groundwater flow systems; sources of contamination; mass transport processes; hydrochemical behaviour of contaminants; nuclear waste disposal; non-aqueous phase organics; aquifer remediation. Prerequisites: CIVL 2790 and (GEOL 1340 or GEOL 2250). Pre or Co-requisite: CIVL 3690.

**CIVL 4220 Geotechnical Design 4 Cr. Hrs.**

Site characterization; design and construction of surface footings, deep foundations, tunnels, earth and rock support systems; design and remediation of slopes; frozen soils and foundation design; geosynthetics and geofabrics in geotechnical construction; reinforced earth; geoenvironmental issues; tailing dams, clean-up, and remediation. Prerequisite: CIVL 3730.

**CIVL 4230 Geotechnical Engineering 4 Cr. Hrs.**

Case-history approach to geotechnical engineering practice from civil and mining engineering; relationship between predicted and observed behaviour; surface and shallow footings; propped walls and bulkheads; rock and soft ground tunneling; deep foundations; rock and soil slopes; culverts; geoenvironmental problems. Prerequisite: CIVL 3730.

**CIVL 4232 Geotechnical Earthquake Engineering 4 Cr. Hrs.**

(Lab required) Introduction to soil dynamics and geotechnical earthquake engineering. Behavior of soil subjected to various types of dynamic or cyclic loadings; liquefaction and lateral spreading of soil; design of shallow and deep foundations. retaining structures, slopes and pavements subject to seismic loading; design code provisions. Prerequisite: CIVL 3730.

**CIVL 4250 Groundwater Hydrology 4 Cr. Hrs.**

(Lab required) Introduction to the theory of groundwater flow, flow nets, regional groundwater flow, well hydraulics, role of groundwater in geologic

and engineering processes, multiphase flow. Prerequisites: CIVL 2790, GEOL 1340 ( or the former GEOL 2250), MATH 2130 (or MATH 2110), MATH 2132 (or MATH 2100).

**CIVL 4300 Design of Urban Water Systems 4 Cr. Hrs.**

Water supply and the design of water distribution systems. Urban hydrology and design of wastewater and stormwater collection systems. Manitoba specific applications will be discussed. Prerequisites: CIVL 2790. Pre-or Co-requisites: CIVL 3750.

**CIVL 4332 Civil Engineering Thesis Project 4 Cr. Hrs.**

The student will undertake an original study involving engineering design, procedure, or experimental investigation that emphasizes the student's initiative and judgement. The student must demonstrate an ability to plan, conduct and formally report on the study by written thesis and oral presentation. May not be held with CIVL 4330. Prerequisites: Completion of 120 credit hours, and [ENG 2030 or ENG 2040 (or the former ENG 2010)].

**CIVL 4350 Hazardous Waste Treatment 4 Cr. Hrs.**

Sources and classification of hazardous and industrial wastes. Overview of the waste management problem. Theory and applications of various physical, chemical, and thermal, waste treatment processes. Waste elimination options and strategies. Prerequisite: CIVL 3690.

**CIVL 4360 Water Resources Planning and Management 4 Cr. Hrs.**

(Lab required) Introduction to the theory and application of water resources planning and management as a constrained optimization problem with multiple conflicting objectives. Water laws including international, inter-provincial and local regulations will be discussed. The process for planning a water resource project, including identifying the problems and opportunities, resource and demand forecasting, plan formulation and evaluation, and optimization will be discussed. Prerequisites: CIVL 2780, CIVL 3590. Pre- or corequisite: CIVL 3750.

**CIVL 4380 Infrastructure Engineering and Construction Management 4 Cr. Hrs.**

Infrastructure engineering; drainage systems, maintenance engineering and management. Construction and project management; workplace health and safety, construction site field trips, construction equipment, temporary facilities, project management. Elements of law for civil engineers. Prerequisite: ENG 3000 or CIVL 4050.

**CIVL 4390 Structural Design 2 4 Cr. Hrs.**

Design in reinforced concrete; properties of materials; ultimate strength design; analysis and design of sections in bending; shear and development considerations; short- and long-term deflection; sections subjected to bending and axial stresses; design of simple floor systems; column footings. Prerequisites: CIVL 2770, CIVL 2800, CIVL 3760, CIVL 3770.

**CIVL 4400 Transportation Engineering 2 4 Cr. Hrs.**

Fundamentals of traffic control for highways. Capacity and level of service analysis on urban streets. Urban supplement to geometric design guide for Canadian roads. Modelling vehicle performance. Elements of railway engineering. Design for trucks. Transportation systems management. Application of intelligent transportation systems. Basic pavement design methods. Introduction to pavement management systems. Highway accidents and design for safety. Legislative and policy framework for transportation engineering. Prerequisite: CIVL 3790.

**CIVL 4410 Transportation Systems 4 Cr. Hrs.**

Contemporary approaches to transportation planning. Data for transportation planning. Advanced demand analysis and modelling. Illustrative transport planning studies. Planning and design for public passenger transportation. Planning and design for barrier-free transportation and transport of disabled persons. Goods movement and trucking studies. Planning and design for motor carrier operations. Planning and design for grain handling and transportation. Transport planning in developing countries. Evaluating transport plans and projects. Transport and the environment. Transport and energy. Vehicle operating costs and engineering unit cost models. Prerequisite: CIVL 3790.

**CIVL 4420 Highway Pavement Design 4 Cr. Hrs.**

(Lab required) Soil classification and properties; soil-moisture-density-strength relationships; earthwork operations and specifications; soil stabilization; granular bases; surface drainage; structural design of flexible and rigid pavements. Pre- or corequisites: CIVL 3790.

**CIVL 4460 Technology, Society, and the Future 3 Cr. Hrs.**

Impact of technology and technological change on society - past, present, future; specific technologies, e.g. construction, machine power, computers, communications, medical, military: the process of technological change; invisible effects of technology; technology and resource use; sustainable development, limits to growth and the role of technology. Prerequisite: A grade of "C" or better in one of the courses from the list of Written English for Engineering Students, or the former ENGL 1310, or the former ENGL 1320.

**CIVL 4470 Watershed Processes 4 Cr. Hrs.**

Rainfall-runoff processes, flood routing; characteristics and mechanics of flow in (natural) channels; computer modelling of watershed hydrology and hydraulics; influence of man-made structures; river morphology, sediment transport prediction, design of a stable channel; river ice processes. Prerequisite: CIVL 3750. Pre or co-requisite: CIVL 3740.

**CIVL 4500 Contemporary Topics in Civil Engineering 4 Cr. Hrs.**

This course will cover contemporary topics in Civil Engineering. The specific topics and a detailed outline will be available at the time of registration prior to the start of the registration period for the session in which the course will be offered. Prerequisite: Permission of the department head.

**CIVL 4590 Design Project 6 Cr. Hrs.**

An interdisciplinary project-based course involving engineering design, teamwork and delivered in studio format. Students are expected to work in pre-assigned teams under the guidance of professional engineers on a pre-determined project. Lecture material will cover project management, construction, environmental and economic issues. Each team will be required to give an oral presentation of their design project. Prerequisite:[ENG 2030 or ENG 2040 (or the former ENG 2010)], CIVL 2840, CIVL 3690, CIVL 3730, CIVL 3740, CIVL 3750, CIVL 3770, and CIVL 3790.

**4.8 Electrical and Computer Engineering**

Head: (Acting) Dr. Udaya Annakkage, Ph.D, P.Eng.

Associate Head(s): Dr. Dean McNeill, P.Eng. (Computer Engineering); Dr.

Derek Oliver, P.Eng. (Electrical Engineering)

Campus Address/General Office: E2-390 EITC

Telephone: 204 474 9603

Fax: 204 261 4639

Website: <http://umanitoba.ca/ece/>

The Department of Electrical and Computer Engineering offers two fully accredited degree programs, one in Electrical Engineering and one in Computer Engineering. Both programs may include an industry internship (co-op). The programs are designed to give students knowledge of the basic principles of engineering and, in particular, an adequate training and education in the fundamentals and professional applications of Electrical and Computer Engineering. It is recommended that students entering Electrical or Computer Engineering acquire their own computer.

**Industry Internship Program (IIP)**

The Price Faculty of Engineering offers cooperative education or industry internship opportunities as part of all degree programs. For information on these programs, please refer to *SECTION 5: Co-operative Education and Industrial Internship Programs*.

**4.8.1 Computer Engineering Degree Program**

The program in Computer Engineering has a core-plus-elective structure. The core includes fundamental professional courses focused on digital hardware, digital systems design, software engineering, algorithms, electronics, and communications, as well as developing a necessary foundation in mathematics, computer programming, electric circuits, the

physical sciences, and thermodynamics. At the conclusion of the program, a graduate will have acquired both the knowledge and experience necessary to design and engineer practical custom digital hardware and software systems to solve real-world problems. To support that outcome, the final year includes a significant, industrially relevant, capstone group design project as a core requirement, with the remaining program based on electives. A certain level of specialization is possible through the selection of elective courses offered in the final year. In addition, the Department offers recognized Focus Areas in Computer Networks and Communications, Embedded Systems, and Software Engineering, and Biomedical as described in Section 4.8.3.

The student's program must include six credit hours of complementary studies electives. Courses in engineering economics, technical writing, and ecology, technology and society are compulsory.

Students are encouraged to consult with the department for model four-year and five-year programs. Students are strongly encouraged to follow the model programs when possible, as timetabling and course offerings are based on these.

**Preliminary Engineering Program**

All degree programs within the Price Faculty of Engineering consist of a common first-year known as the *Preliminary Engineering Program*. For information on the preliminary program, please refer to Section 4.2.

**Computer Engineering Departmental Program**

Course No.		Credit Hours
ANTH 2430	Ecology, Technology and Society	3
CHEM 1300	Structure and Modelling of Chemistry	3
COMP 1012	Computer Programming for Scientists and Engineers	3
COMP 1020	Computer Science 2	3
COMP 2140	Data Structures and Algorithms	3
COMP 3430	Operating Systems	3
ENG 1430	Design in Engineering	3
ENG 1440	Introduction to Statics	3
ENG 1450	Introduction to Electrical and Computer Engineering	3
ENG 1460	Introduction to Thermal Sciences	3
ENG 2030	Engineering Communication: Strategies for the Profession	3
or		
ENG 2040	Engineering Communication: Strategies, Practice, and Design	3
ENG 3000	Engineering Economics	3
MATH 1210	Techniques of Classical and Linear Algebra	3
MATH 1510	Applied Calculus 1 (or equivalent)	3
MATH 1710	Applied Calculus 2 (or equivalent)	3

MATH 2130	Engineering Mathematical Analysis	3
MATH 2132	Engineering Mathematical Analysis 2	3
MATH 3120	Applied Discrete Mathematics	3
MATH 3132	Engineering Mathematical Analysis 3	3
PHIL 1290	Critical Thinking **	3
PHYS 1050	Physics 1: Mechanics	3
PHYS 2152	Modern Physics for Engineers	3
STAT 2220	Introduction to Probability and Statistics	3
ECE 2160	Electronics 2E	5
ECE 2220	Digital Logic Systems	5
ECE 2262	Electric Circuits	4
ECE 3610	Microprocessor Systems	4
ECE 3700	Telecommunication Network Engineering	4
ECE 3740	System Engineering Principles 1	4
ECE 3760	Digital Systems Design 1	4
ECE 3780	Signal Processing 1	4
ECE 3790	Engineering Algorithms	4
ECE 4150	Control Systems	4
or		
ECE 4260	Communication Systems	4
ECE 4240	Microprocessor Interfacing	4
ECE 4830	Signal Processing 2	4
ECE 4600	Group Design Project (See Note 1)	6
	Plus 1 course from the list of Written English Courses for Engineering Students	
	Plus 1 Complimentary Studies Elective	
	Plus 2 Natural Science Electives from the approved list	
	Plus 5 Technical Electives from the approved list	
	**Phil 1290 Critical Thinking is the recommended complimentary studies elective. However, students may select any course from the Faculty of Arts or the Faculty of Management at the 1000 level or above, with the exception of ARTS 1110 Introduction to the University which may not be held for credit within the Price Faculty of Engineering.	

**Total credits for Graduation 152-157**

### Computer Engineering Technical Electives (5 required) (see Note 3)

Students may select their five technical electives from the following approved list of courses from Computer Engineering, Electrical Engineering,

or Computer Science, with the only limitations that no more than two may come from the list of Approved Electrical Engineering Electives.

### Computer Engineering Electives

ECE 3750	Systems Engineering Principles 2	4
ECE 3770	Digital Systems Design 2	4
ECE 4180	Introduction to Robotics	4
ECE 4250	Digital Communications	4
ECE 4420	Digital Control	4
ECE 4440	Computer Vision	4
ECE 4450	Applied Computational Intelligence	4
ECE 4520	Simulation and Modelling	4
ECE 4530	Parallel Processing	4
ECE 4560	Modern Computing System	4
ECE 4540	Wireless Networks	4
ECE 4740	Digital System Implementation	4
ECE 4850	Topics in Electrical and Computer Engineering (see Note 6)	14
ECE 4860	Topics in Electrical and Computer Engineering (see Note 6)	24
ECE 4870	Topics in Electrical and Computer Engineering (see Note 6)	33
ECE 4880	Topics in Electrical and Computer Engineering (see Note 6)	43

### Approved Electrical Engineering Electives (maximum of 2) (see Note 3)

ECE 3540	Advanced Circuit Analysis and Design	4
ECE 3580	Foundations of Electromagnetics	4
ECE 3600	Physical Electronics	4
ECE 3670	Electronics 3E	4
ECE 3720	Electric Power and Machines	4
ECE 4100	Microelectronic Fabrication	4
ECE 4150	Control Systems	4
ECE 4160	Control Engineering	4
ECE 4260	Communication Systems	4
ECE 4390	Engineering Computation 4E	4
ECE 4610	Biomedical Instrumentation and Signal Processing	4

### Approved Computer Science Electives

COMP 2150	Object Orientation	3
-----------	--------------------	---

COMP 2160	Programming Practices	3
COMP 3010	Distributed Computing	3
COMP 3020	Human-Computer Interaction 1	3
COMP 3190	Introduction to Artificial Intelligence	3
COMP 3350	Software Engineering 1	3
COMP 3290	Introduction to Compiler Construction	3
COMP 3380	Databases Concepts and Usage	3
COMP 3490	Computer Graphics 1	3
COMP 4020	Human-Computer Interaction 2	3
COMP 4140	Introduction to Cryptography and Cryptosystems	3
COMP 4190	Artificial Intelligence	3
COMP 4200	Expert Systems	3
COMP 4350	Software Engineering 2	3
COMP 4360	Machine Learning	3
COMP 4380	Database Implementation	3
COMP 4430	Operating Systems 2	3
COMP 4490	Computer Graphics 2	3
COMP 4580	Computer Security	3
COMP 4710	Introduction to Data Mining	3

#### Natural Science Electives for Computer Engineering

The Computer Engineering program requires students to complete two (2) Natural Science Electives as part of their program selected from a Department approved list. These courses may be taken anytime during the student's program. One course must be selected from *Group A*. The second may be selected from either *Group A* or *Group B*.

#### Approved Natural Science Electives - Group A (1 required)

CHEM 1310	University 1 Chemistry: An Introduction to Physical Chemistry	3
PHYS 2600	Electromagnetic Field Theory	3
PHYS 3630	Electro- and Magnetostatic Theory	3

#### Approved Natural Science Electives - Group B

ASTR 1810	Astronomy: The Universe	3
ASTR 3180	Stars	3
BIOL 1020	Biology 1: Principles and Themes	3
BIOL 1300	Economic Plants	3
BIOL 1410	Anatomy of the Human Body	3
CHEM 1320	University 1 Chemistry: An Introduction to Organic Chemistry	3
ENTM 2050	Introduction to Entomology	3

GEOL 1340	The Dynamic Earth	3
MBIO 1220	Essentials of Microbiology	3
PHYS 2260	Optics	3
PHYS 2386	Introduction to Quantum Mechanics and Special Relativity	3
PHYS 2650	Classical Mechanics 1	3
PHYS 3220	Medical Physics and Physiological Measurements	3

#### NOTES:

1. Course continues through both terms with credit given upon completion.
2. The complementary studies elective can be any course at the 1000 level or above from either the faculties of Arts or Management. However, ARTS 1110 Introduction to University may not be used for credit in the Price Faculty of Engineering.
3. The Department of Electrical and Computer Engineering does not guarantee that all elective courses will be offered every session or that it will be possible to fit courses into all of the many possible timetable combinations of students taking the programs. The term in which an elective course is offered is specified each year in the online timetables on the Department website. There may be a maximum limit on the number of students allowed to take an elective in a particular session. Similarly, there may be a minimum limit and if registration is below the minimum, the elective will be cancelled for the session, and those registered will be required to transfer to another elective before the deadline date for course changes.
4. Students are urged to discuss their program of courses with members of the instructional staff before the end of their third year to obtain advice concerning the best choice of electives for their needs.
5. The natural science elective course is to be chosen from a list of courses approved by the Department and available on the Department website.
6. Requires permission of the Department.

#### 4.8.2 Electrical Engineering Degree Program

The program in Electrical Engineering has a core-plus-elective structure. The core develops the necessary base in mathematics, the physical sciences, dynamics, thermodynamics, electric fields and circuits, and fundamental professional courses focused on energy conversion and transmission, electronics, materials and devices, communications, and control systems. At the conclusion of the program, a graduate will have acquired both the knowledge and experience necessary to design and engineer practical electrical and electronic systems to solve real-world problems. To support that outcome, the final year includes a significant, industrially relevant, capstone group design project, in addition to control systems, and communication systems as core requirements, with the remaining program based on electives. A certain level of specialization is possible through the selection of elective courses offered in the final year. In addition, the Department offers recognized Focus Areas in Power and Energy Systems, Communication Devices, Engineering Physics, and Biomedical, as described in Section 4.8.4.

The student's program must include six credit hours of complementary studies electives. Courses in engineering economics, technical writing, and ecology, technology and society are compulsory.

Students are encouraged to consult with the department for model four-year and five-year programs. Students are strongly encouraged to follow the model programs when possible, as timetabling and course offerings are based on these.

### Preliminary Engineering Program

All degree programs within the Price Faculty of Engineering consist of a common first-year known as the *Preliminary Engineering Program*. For information on the preliminary program, please refer to Section 4.2.

### Electrical Engineering Departmental Program

Course No.		Credit Hours
ANTH 2430	Ecology, Technology and Society	3
CHEM 1300	Structure and Modelling of Chemistry	3
COMP 1012	Computer Programming for Scientists and Engineers	3
ENG 1430	Design in Engineering	3
ENG 1440	Introduction to Statics	3
ENG 1450	Introduction to Electrical and Computer Engineering	3
ENG 1460	Introduction to Thermal Sciences	3
ENG 2030	Engineering Communication: Strategies for the Profession	3
or		
ENG 2040	Engineering Communication: Strategies, Practice, and Design	3
ENG 3000	Engineering Economics	3
MATH 1210	Techniques of Classical and Linear Algebra	3
MATH 1510	Applied Calculus 1 (or equivalent)	3
MATH 1710	Applied Calculus 2 (or equivalent)	3
MATH 2130	Engineering Mathematical Analysis	3
MATH 2132	Engineering Mathematical Analysis 2	3
MATH 3132	Engineering Mathematical Analysis 3	3
PHIL 1290	Critical Thinking**	3
PHYS 1050	Physics 1: Mechanics	3
PHYS 2152	Modern Physics for Engineers	3

STAT 2220	Introduction to Probability and Statistics	3
ECE 2160	Electronics 2E	5
ECE 2220	Digital Logic Systems	5
ECE 2240	Numerical Methods for Electrical Engineers	4
ECE 2262	Electric Circuits	4
ECE 3540	Advanced Circuit Analysis and Design	4
ECE 3580	Foundations of Electromagnetics	4
ECE 3590	Electromagnetic Theory	4
ECE 3600	Physical Electronics	4
ECE 3610	Microprocessor Systems	4
ECE 3670	Electronics 3E	4
ECE 3720	Electric Power and Machines	4
ECE 3730	Principles of Embedded System Design (See Note 8)	4
ECE 3780	Signal Processing 1	4
ECE 4150	Control Systems	4
ECE 4260	Communications Systems	4
ECE 4600	Group Design Project (see Note 1)	6
	Plus 1 course from the list of Written English Courses for Engineering Students	
	Plus 1 Complimentary Studies Elective	
	Plus 1 Natural Science Elective from the approved list	
	Plus 7 Technical Electives from the approved list	
	**PHIL 1290 Critical Thinking is the recommended complimentary studies elective. However, students may select any course from the Faculty of Arts or the Faculty of Management at the 1000 level or above, with the exception of ARTS 1110 Introduction to the University which may not be held for credit within the Price Faculty of Engineering.	

**Total credits for Graduation 158-163**

**Electrical Engineering Technical Electives (7 required) (see Notes 3, 4)**

**Group A Qualified Engineering Design Elective Courses (3 required)**

ECE 4160	Control Engineering	4
ECE 4250	Digital Communications	4
ECE 4290	Microwave Engineering	4
ECE 4370	Power Electronics	4
ECE 4830	Signal Processing 2	4

**Group B Technical Elective Courses**

ECE 3650	Electric Machines	5
ECE 3700	Telecommunication Network Engineering	4
ECE 3770	Digital Systems Design 2	4
ECE 4100	Microelectronic Fabrication	4
ECE 4140	Power Transmission Lines	4
ECE 4180	Introduction to Robotics	4
ECE 4200	Electric Filter Design	4
ECE 4240	Microprocessor Interfacing	4
ECE 4270	Antennas	4
ECE 4280	Engineering Electromagnetics	4
ECE 4300	Electrical Energy Systems 1	4
ECE 4310	Electrical Energy Systems 2	4
ECE 4360	High Voltage Engineering	4
ECE 4390	Engineering Computation 4E	4
ECE 4420	Digital Control	4
ECE 4430	Design of RF Devices and Wireless Systems	4
ECE 4440	Computer Vision	4
ECE 4520	Simulation and Modelling	4
ECE 4530	Parallel Processing	4
ECE 4540	Wireless Networks	4
ECE 4560	Modern Computing Systems	4
ECE 4580	Optoelectronics	4
ECE 4610	Biomedical Instrumentation and Signal Processing	4
ECE 4740	Digital Systems Implementation	4
ECE 4850	Topics in Electrical and Computer Engineering 1	4
ECE 4860	Topics in Electrical and Computer Engineering 2	4
ECE 4870	Topics in Electrical and Computer Engineering 3	3
ECE 4880	Topics in Electrical and Computer Engineering 4	3
COMP 1020	Computer Science 2	3

COMP 2140	Data Structures and Algorithms	3
COMP 3190	Introduction to Artificial Intelligence	3
COMP 4360	Machine Learning	3
MATH 3120	Applied Discrete Mathematics	3
MATH 3460	Partial Differential Equations	3
PHYS 2260	Optics	3
PHYS 3220	Medical Physics and Physiological Measurement	3
PHYS 4590	Advanced Optics	3
PHYS 4646	Electro- and Magnetodynamics and Special Relativity	3

**Natural Science Electives for Electrical Engineering**

The Electrical Engineering program requires students to complete an elective course in natural science selected from a Department approved list. This list is updated periodically to reflect changes in course offerings and is available on the Department website and as follows:

Course No.		Credit Hours
ASTR 1810	Introduction to Astronomy: The Magnificent Universe	3
ASTR 3180	Stars	3
BIOL 1020	Biology 1: Principles and Themes	3
BIOL 1300	Economic Plants	3
BIOL 1410	Anatomy of the Human Body	3
CHEM 1310	University 1 Chemistry: An Introduction to Physical Chemistry	3
CHEM 1320	University 1 Chemistry: An Introduction to Organic Chemistry	3
ENTM 2050	Introduction to Entomology	3
GEOL 1340	The Dynamic Earth	3
MBIO 1220	Essentials of Microbiology	3
PHYS 2260	Optics	3
PHYS 2386	Introduction to Quantum Mechanics and Special Relativity	3
PHYS 2650	Classical Mechanics 1	3
PHYS 3220	Medical Physics and Physiological Measurements	3

**NOTES:**

1. Course continues through both terms with credit given upon completion.

2. The complementary studies electives can be any course at the 1000 level or above from either the faculties of Arts or Management. However, ARTS 1110 (formerly 099.111) Introduction to University may not be used for credit in the Price Faculty of Engineering.

3. A minimum of 3 electives are required from Group A; the other 4 electives may be taken from either Group A or B unless the student completes a Focus Area.

4. The Department of Electrical and Computer Engineering does not guarantee that all elective courses will be offered every session or that it will be possible to fit courses into all of the many possible timetable combinations of students taking the programs. The term in which an elective course is offered is specified each year in the online timetables on the Department website. There may be a maximum limit set on the number of students allowed to take a particular elective in a session. Similarly, there may be a minimum limit and if registration is below the minimum, the elective will be cancelled and those registered will be required to transfer to another elective before the deadline date for course changes.

5. Students are urged to discuss their program of courses with members of the instructional staff before the end of their third year to obtain advice concerning the best choice of electives for their needs.

6. The natural science elective course is to be chosen from a list of courses approved by the Department.

7. Requires permission of the Department.

8. Students who do not complete ECE 3730 are required to have taken both ECE 3710 and ECE 4240.

9. Students must complete one Qualified Engineering Design technical elective. Please see:  
[http://umanitoba.ca/ece/curr\\_students/undergraduate.html](http://umanitoba.ca/ece/curr_students/undergraduate.html)

#### 4.8.3 Computer Engineering Focus Areas

Students wishing to pursue more focused studies in a Computer Engineering subject/research area have the choice of doing so through a recognized Focus Area. Courses taken towards a Focus Area take the place of some of the Technical Electives required in the Computer Engineering program.

##### Computer Networks and Communications Focus Area

ECE 4260 Communication Systems

CNC Elective

CNC Elective

CNC Elective

All of the above courses plus 2 technical electives required

##### Computer Networks and Communications (CNC) Electives (choose 3)

ECE 4250 Digital Communication

ECE 4520 Simulation and Modelling

ECE 4540 Wireless Networks

ECE 4870 Computer Communication Networks

COMP 3010 Distributed Computing

COMP 4140 Introduction to Cryptography and Cryptosystems

COMP 4580 Computer Security

##### Embedded Systems Focus Area

ECE 4150 Control Systems

ES Elective

ES Elective

ES Elective

All of the above courses plus 2 technical electives required

##### Embedded Systems (ES) Electives List (choose 3)

ECE 3770 Digital Systems Design 2

ECE 4180 Introduction to Robotics

ECE 4440 Computer Vision

ECE 4560 Modern Computing Systems

ECE 4610 Biomedical Instrumentation and Signal Processing

ECE 4740 Digital System Implementation

COMP 3020 Human-Computer Interaction 1

COMP 4140 Introduction to Cryptography and Cryptosystems

COMP 4580 Computer Security

##### Software Engineering Focus Area

ECE 4260 or ECE 4150

COMP 3350 Software Engineering 1

SE Elective

SE Elective

SE Elective

All of the above courses plus 1 technical elective required

##### Software Engineering (SE) Electives (choose 3)

ECE 3750 Systems Engineering Principles 2

ECE 4530 Parallel Processing

COMP 3010 Distributed Computing

COMP 3020 Human-Computer Interaction 1

COMP 3380 Databases: Concepts and Usage

COMP 4350 Software Engineering 2

COMP 4580 Computer Security

COMP 4710 Introduction to Data Mining

##### Biomedical Focus Area

ECE 4610 Biomedical Instrumentation and Signal Processing

BIOL 1410 Anatomy of the Human Body\*

PHYS 2600 Electromagnetic Field Theory\*

Biomedical Group A Elective Course

Biomedical Group A or Group B Elective Course

All of the above courses plus (2) technical electives required.

\*These courses satisfy the Natural Science Elective Requirement.

**Biomedical Group A Elective Courses: (1 required)**

ECE 4860 Biomedical Optics

PHYS 3220 Medical Physics and Physiological Measurement

PHYS 4300 Microfluidics for Biology

**Biomedical Group B Elective Courses: (Choose 1 at most)**

BIOL 1412 Physiology of the Human Body

MBIO 1220 Essentials of Microbiology

BIOE 3320 Engineering Properties of Biological Materials

BIOE 4610 Design of Assistive Technology Devices

**4.8.4 Electrical Engineering Focus Areas**

Students wishing to pursue more focused studies in an Electrical Engineering subject/research area have the choice of doing so through a recognized Focus Area. Courses taken towards a Focus Area take the place of some or all of the Technical Electives required in the Electrical Engineering program. See [http://umanitoba.ca/ece/curr\\_students/undergrad/ee-focus-areas.html](http://umanitoba.ca/ece/curr_students/undergrad/ee-focus-areas.html) for a detailed description of each area and the courses required.

**Power and Energy Systems Focus Area****Requirements:**

To complete the Power and Energy Systems Focus the four prescribed courses must be taken. One of the three Power and Energy Systems Technical Elective courses must also be taken. To complete the program requirements two additional courses must be selected from the elective courses listed in the Electrical Engineering Standard Program (Section 4.8.2).

**Prescribed Power and Energy Systems Courses**

ECE 3650 Electric Machines

ECE 4300 Electrical Energy Systems 1

ECE 4370 Power Electronics

One additional course from the list of Group A Qualified Design Elective Courses found in the Electrical Engineering Standard Program (Section 4.8.2).

**Power and Energy Systems Technical Electives**

ECE 4140 Power Transmission Lines

ECE 4310 Electrical Energy Systems 2

ECE 4360 High Voltage Engineering

**Communication Devices Focus Area****Requirements:**

To complete the Communication Devices Focus the three prescribed courses must be taken. Two of the five Communication Devices Technical Elective courses must also be taken. To complete the program requirements two additional courses must be selected from the elective courses listed in the Electrical Engineering Standard Program (Section 4.8.2).

**Prescribed Communication Devices Courses**

ECE 4270 Antennas

ECE 4290 Microwave Engineering

ECE 4250 Digital Communications for ECE 4830 Signal Processing 2

**Communication Devices Technical Electives**

ECE 4250 Digital Communications

ECE 4280 Engineering Electromagnetics

ECE 4430 Design of RF Devices and Wireless Systems

ECE 4580 Optoelectronics

ECE 4830 Signal Processing 2

**Biomedical Focus Area****Requirements:**

To complete the focus area, students are required to take a total of six (6) courses as indicated below. Of these, five (5) replace general technical electives and one (1) is in place of the Natural Science Elective in the Electrical Engineering program. To complete the program requirements two (2) additional courses must be selected from the technical electives listed in the Electrical Engineering Standard Program.

**Prescribed Biomedical Courses:**

ECE 4610 Biomedical Instrumentation and Signal Processing

ECE 4830 Signal Processing 2

BIOL 1410 Anatomy of the Human Body

One additional course from the list of Group A Qualified Design Elective Standard Program (Section 4.8.2)

**Biomedical Group A Elective Courses: (1 Required)**

ECE 4860 Biomedical Optics

PHYS 3220 Medical Physics and Physiological Measurement

PHYS 4300 Microfluidics for Biology

**Biomedical Group B Elective Courses: (Choose at most 1)**

BIOL 1412 Physiology of the Human Body

MBIO 1220 Essentials of Microbiology

BIOE 3320 Engineering Properties of Biological Materials

BIOE 4610 Design of Assistive Technology Devices

**Engineering Physics Focus Area****Requirements:**

In the standard Electrical Engineering program, seven Technical Elective Courses and one Natural Science Elective are required. To complete Engineering Physics focus area, students are required to take a total of seven courses as indicated below, including the four prescribed Engineering Physics courses. Three further courses must be taken from the list of Engineering Physics Elective courses. To complete the program

requirements a course must be selected from the technical electives listed in the Electrical Engineering Standard Program (Section 4.8.2).

### Prescribed Engineering Physics Courses

ECE 4270 Antennas

ECE 4580 Optoelectronics

PHYS 2386 Introduction to Quantum Mechanics and Special Relativity

PHYS 2650 Classical Mechanics 1

### Engineering Physics Technical Elective Courses (3 required)

ECE 4860 Materials Characterization

PHYS 2260 Optics

PHYS 3220 Medical Physics and Physiological Measurement

PHYS 3386 Quantum Mechanics 2

PHYS 3430 Honours Physics Laboratory

PHYS 3570 Physics of Materials 1

PHYS 4646 Electro- and Magnetodynamics and Special Relativity

PHYS 3650 Classical Mechanics 2

PHYS 3670 Classical Thermodynamics

PHYS 4680 Statistical Mechanics

PHYS 4520 Introduction to Solid State Physics

PHYS 4590 Advanced Optics

### 4.8.5 Second Degree in Electrical and Computer Engineering

Students who have completed a first degree in Electrical Engineering or Computer Engineering may seek a second degree in the complementary program. The requirements for completion of the second degree include:

1. The completion of all deficient required (core) courses for the second degree. If a student has completed any of these courses as fourth year electives towards the first degree, then they will not have to repeat or replace the courses already taken.
2. The equivalent of a full fourth year program is required for the second degree, i.e., twelve half courses. This must include:
  - i) A second capstone group design project on a different topic relating to the field of the second degree;
  - ii) All the fourth year course requirements of the second degree. If a student has already taken one or more of the required fourth year courses during their first degree, then they must replace those courses by other appropriate fourth year courses as approved by the Department Head. For example, core courses common to both programs must be replaced by fourth year electives from the Department.

### 4.9 Electrical and Computer Engineering Course Descriptions-2000 Level

#### ECE 2160 Electronics 2E 5 Cr. Hrs.

Characteristics of integrated circuits and transistors; design of DC and AC amplifiers in the steady state. Prerequisite: ECE 2262.

#### ECE 2220 Digital Logic Systems 5 Cr. Hrs.

Boolean algebra and logic primitives, net-work simplification techniques, physical realizations, number systems and codes; analysis and design of asynchronous and synchronous sequential circuits; applications to computation, measurements, and control. Prerequisite ENG 1450

#### ECE 2240 Numerical Methods for Electrical Engineers 4 Cr. Hrs.

Numerical methods applied to Electrical Engineering problems; mathematical models of physical systems, solutions of linear and non-linear equations, numerical differentiation and integration methods and associated errors, introduction to solution analysis. May not be held with MATH 2120. Prerequisites ECE 2262, COMP 1012, MATH 2132

#### ECE 2262 Electric Circuits 4 Cr. Hrs.

The application of circuit concepts; network theorems and formal methods, steady state analysis, frequency and transient response, application of the Laplace transform in the analysis of linear time-invariant networks. Prerequisite: [ENG 1450. Pre- or co-requisite: MATH 2132 or [MATH 2100 and MATH 2110].

4.9.1 Electrical and Computer Engineering Course Descriptions-3000 Level

#### ECE 3010 Elements of Electric Machines and Digital Systems 4 Cr. Hrs.

Introduction to elementary concepts in ac circuits, electric machines, and digital sub-systems. Topics include electrical impedance, capacitors, inductors, electric motors, logic gates, decoders, multiplexing, flip flops, registers, microprocessor structures, I/O and data acquisition. Not available to students in Electrical or Computer Engineering. Prerequisite ENG 1450, MATH 2132, and a year class designation of Year 3 or Year 4.

#### ECE 3540 Advanced Circuit Analysis and Design 4 Cr. Hrs.

Application of the Laplace Transform in the analysis of linear time-invariant networks, poles, zeros and frequency response; natural frequencies; general network theorems; two ports; energy and passivity; transmission lines; time and frequency domain. Prerequisite: ECE 2262 (or ECE 2260) and MATH 3132 (or MATH 3100).

#### ECE 3580 Foundations of Electromagnetics 4 Cr. Hrs.

(Formerly ECE 2130) Fundamental laws of field theory; Maxwell's equations in integral and point form. Prerequisite: ECE 2240, PHYS 2152, and MATH 3132 (MATH 3100).

#### ECE 3590 Electromagnetic Theory 4 Cr. Hrs.

Maxwell's equations; plane electromagnetic waves; transmission line theory; electromagnetic radiation and introduction to antennas. Prerequisite: ECE 3580 (or the former ECE 2130.)

#### ECE 3600 Physical Electronics 4 Cr. Hrs.

Basic solid state theory; properties of semi-conductors; principles of metal-semiconductor junctions, p-n junctions and transistors; optoelectronic processes. Prerequisites: PHYS 2152 or (PHYS 1070) and MATH 3132 or (MATH 3100), and ECE 3670.

#### ECE 3610 Microprocessing Systems 4 Cr. Hrs.

Fundamentals of microprocessors and microcomputers; data flow; machine programming; architectures and instructions sets; stacks, subroutines, I/O, and interrupts; interfacing fundamentals; designing with microprocessors. Prerequisite: ECE 2220.

#### ECE 3650 Electric Machines 5 Cr. Hrs.

Continuation of ECE 3720, including steady state and transient performance and introductory power systems theory. Prerequisite: ECE 3720

#### ECE 3670 Electronics 3E 4 Cr. Hrs.

Continuation of ECE 2160, including device models, feedback, regulators, frequency effects, oscillators, and bistability and gates. Prerequisite: ECE 2160.

#### ECE 3700 Telecommunication Network Engineering 4 Cr. Hrs.

This course will introduce modem concepts in telecommunications, including LANs, WANs, telephone networks, wireless and mobile networks, and Internet networks. Focus will be on design engineering, and

management of networks, and on network programming for client server architectures. Prerequisite: COMP 2140.

**ECE 3720 Electric Power and Machines 4 Cr. Hrs.**  
(Lab required) Principles and applications of electric power, energy conversion and machines. Prerequisite: ECE 2262.

**ECE 3730 Principles of Embedded System Design 4 Cr. Hrs.**  
This course will introduce students to the design and implementation of embedded systems. Topics include introduction to UML and data structures, A-to-D, D-to-A, serial bus architectures, embedded computing, bus-based computer systems, program design and analysis, networks, and hardware-software co-design. Prerequisites: ECE 2160, ECE 3610 and (COMP 1010 or COMP 1012).

**ECE 3740 Systems Engineering Principles 1 4 Cr. Hrs.**  
Complexity and other system measures and analysis, system architectures and architectural elements for embedded systems, hardware and software, incremental design elaboration. Coding, testing, debugging, verification and validation. Project planning, cost analysis and maintenance. Real-time systems, graphical user interfaces and computational models. Prerequisite: COMP 2140.

**ECE 3750 Systems Engineering Principles 2 4 Cr. Hrs.**  
Reliability measures and analysis, software system architectures, system metrics, system verification for embedded systems. Coding practices for large scale embedded system development. Real-time systems, graphical user interfaces, and computational models. Prerequisite: ECE 3740.

**ECE 3760 Digital Systems Design 1 4 Cr. Hrs.**  
Design methodologies for the development of digital hardware, including system specification, component allocation, functional partitioning, specification refinement, implementation, verification, and testing. Hardware-software co-design. Prerequisite: ECE 4240.

**ECE 3770 Digital Systems Design 2 4 Cr. Hrs.**  
Executable system specification and a methodology for system partitioning and refinement into system-level components. Models and architectures, specification languages, translation to an HDL, system partitioning, design quality estimation, specification refinement into synthesizable models. Prerequisite: ECE 4240 and MATH 3120.

**ECE 3780 Signal Processing 1 4 Cr. Hrs.**  
Introduction to signals and systems; spectral analysis (Fourier Series) of continuous-time periodic signals; spectral analysis of aperiodic signals (Fourier Transform); the impulse response and convolution operator; frequency analysis of linear time-invariant systems; applications to filtering, communications systems, and biological systems; A/D conversion; sampling. Laboratory periods will be used to give students hands-on experience in programming many of the techniques covered in the theoretical parts of the course. Prerequisites: ECE 2262 or ECE 2260 and MATH 3132 or MATH 3100.

**ECE 3790 Engineering Algorithms 4 Cr. Hrs.**  
Numerical algorithms, optimization, statistical description of data random number generation, string processing, geometric algorithms, algorithm machines, dynamic programming and NP complete problems. Pre- or Co-requisite: Comp 2140 and Math 3132 (or the former Math 3100).

4.9.2 Electrical and Computer Engineering Course Descriptions-4000 Level

**ECE 4100 Introduction to Microelectronic Fabrication 4 Cr. Hrs.**  
Introduction to the fabrication of integrated circuits (ICs). Emphasis is on silicon based devices. Topics include water preparation, oxidation, thin film deposition, diffusion and ion implantation, lithography, wet and dry etching and metallization. An introduction to MEMS and micromachining technology is given. Prerequisite: ECE 3670.

**ECE 4140 Power Transmission Lines; Field Effects and Insulation Coordination 4 Cr. Hrs.**  
AC and DC transmission line corona and its environmental effects. Electric field calculations; design methods to reduce electric field. Electrostatic and electromagnetic effects. Insulation design for power frequency, switching and lightning induced surges. Insulation coordination - conventional and

probabilistic methods. Power apparatus testing - criteria and significance. Prerequisite: ECE 3720.

**ECE 4150 Control Systems 4 Cr. Hrs.**  
Principal methods of analysis and design for feedback control systems. Prerequisite: ECE 2160 and ECE 3780.

**ECE 4160 Control Engineering 4 Cr. Hrs.**  
Design of control systems by frequency domain and root locus method; state equations; introduction to nonlinear analysis. Prerequisite: ECE 4150.

**ECE 4180 Introduction to Robotics 4 Cr. Hrs.**  
This course provides fundamental concepts of robotics, including robot classification and applications, robot kinematics, sensor and actuators, sensor interfacing, motor control, trajectory planning, and robot programming. Prerequisites: ECE 4150 and (ECE 4240 or ECE 3730).

**ECE 4200 Electric Filter Design 4 Cr. Hrs.**  
Realizability theory, approximation of filtering characteristics, ladder networks and transmission zeros, active RC filter design with regard to sensitivity minimization, phase-shifting and time-delay filters, impulse response of filters, rudiments of digital filters. Prerequisite: ECE 3540 (or ECE 3530).

**ECE 4240 Microprocessor Interfacing 4 Cr. Hrs.**  
Interfacing of microcomputers to the external world: interfacing of I/O devices with minimum hardware and software; data acquisition with and without microprocessors; data communication, transmission and logging with small computers. Prerequisite: ECE 2160 and ECE 3610.

**ECE 4250 Digital Communications 4 Cr. Hrs.**  
Transmission of digital data; error rates, interference. Information measures, information rate and channel capacity. Coding. Prerequisite: ECE 4260 and ECE 3780.

**ECE 4260 Communications Systems 4 Cr. Hrs.**  
Development and applications of random processes. Analysis and comparison of modulation schemes: AM, FM, PM, PCM. Prerequisites: ECE 3780 and STAT 2220.

**ECE 4270 Antennas 4 Cr. Hrs.**  
Radiation fundamentals, linear antennas, point source arrays, aperture antennas, antenna impedance, antenna systems. Prerequisite: ECE 3590.

**ECE 4280 Engineering Electromagnetics 4 Cr. Hrs.**  
Plane, cylindrical and spherical waves, introduction to scattering and diffraction, waveguides, transmission line applications. Prerequisite: ECE 3590.

**ECE 4290 Microwave Engineering 4 Cr. Hrs.**  
Microwave circuit analysis; passive and active devices; communication system power budget and signal-to-noise ratio calculations. Prerequisite: ECE 3590.

**ECE 4300 Electrical Energy Systems 1 4 Cr. Hrs.**  
Power system component modelling and computational methods for system problems such as load flow, faults, and stability. Prerequisite: ECE 3650 (or 024.365).

**ECE 4310 Electrical Energy Systems 2 4 Cr. Hrs.**  
(Lab required) Generating stations. Power system stability and optimal operation. EHV-ac and HVDC power transmission. Power system protective relaying and reliability evaluation. Prerequisites: ECE 4150 and ECE 4300.

**ECE 4360 High Voltage Engineering 4 Cr. Hrs.**  
The course serves as an introduction to high voltage engineering, including basics of electrical breakdown, high voltage generation, high voltage test systems, measurement and analysis techniques as applied to power system apparatus, such as cables, insulators, transformers, and generators. Prerequisite: ECE 3580, ECE 3720.

**ECE 4370 Power Electronics 4 Cr. Hrs.**  
Thyristor device theory and operation, controlled rectifiers and line-commutated inverters, and forced commutation as applied to d/c choppers and a/c variable frequency and voltage inverters. Prerequisites: ECE 3720 and ECE 2160.

**ECE 4390 Engineering Computations 4E 4 Cr. Hrs.**

Development and application of numerical methods for the solution of electrical and computer engineering problems. Optimization techniques. Finite difference, finite element and boundary element methods. Solution of large systems of linear and non-linear equations. Prerequisite: MATH 3132, ECE 2240.

**ECE 4420 Digital Control 4 Cr. Hrs.**

Mathematical modelling of sampling switches. Z-transforms. Response and stability of systems involving sampling. Design of digital compensators. Prerequisites: ECE 4830 (or 024.483) or 024.373 and ECE 4150 (or 024.415).

**ECE 4430 Design of RF Devices and Wireless Systems 4 Cr.Hrs.**

(Lab required) Techniques for the system level design, simulation, fabrication, and testing of RF devices and microwave circuits, including the basics of radar and RFID technology. May not be held with ECE 4860 when titled "Design of RF Devices and Wireless Systems." Prerequisite: ECE 3590.

**ECE 4440 Computer Vision 4 Cr. Hrs.**

Image formation and sensing, image compression, degradation and restoration, geometrical and topological properties, pattern classification, segmentation procedures, line-drawing images, texture analysis, 3-D image processing. Prerequisite: ECE 3780.

**ECE 4450 Applied Computational Intelligence 4 Cr.Hrs.**

(Lab required) Computational intelligence and machine learning algorithms and their application in solving complex engineering problems. May not be held with COMP 4360 or ECE 4850 when titled "Applied Computational Intelligence." Prerequisite: MATH 3132.

**ECE 4520 Simulation and Modelling 4 Cr. Hrs.**

Monte Carlo Methods, random processes, simulation of complex systems in the design of computer systems. Use of statistical interference and measures of performance in hardware and software systems. Prerequisites: STAT 2220 and COMP 2140.

**ECE 4530 Parallel Processing 4 Cr. Hrs.**

Classification of parallel processors, SIMD vs. MIMD, multiprocessing Vs parallel processing, interconnection topology, communications, and node complexity, pipelining and vector processors, array processors, connection machines, multiprocessors, data flow and VLSI algorithmic machines. Prerequisites: COMP 2140 and ECE 3760.

**ECE 4540 Wireless Networks 4 Cr. Hrs.**

Introduction to wireless communications systems, network architectures, protocols and applications. Topics include mobile computing systems, signals propagation, channel modelling, modulation, and networking standards. Prerequisite: ECE 3700 and ECE 3780.

**ECE 4560 Modern Computing Systems 4 Cr. Hrs.**

(Lab required) Advanced topics in computer architecture and organization, such as instruction set architecture, performance measures, pipeline processor design, data and instruction cache, data dependencies, branch prediction and penalties, superscalar architecture, multithreading, out-of-order execution, speculative execution, overlapping register windowing, and multiprocessor system design. May not be held with ECE 4850 when titled "Modern Computing Systems." Prerequisite: ECE 3610.

**ECE 4580 Optoelectronics 4 Cr. Hrs.**

Basic theory of quantum mechanics; solution of Schrodinger equations; interaction of radiation with matter; masers and lasers; propagation, modulation, excitation and detection in optical waveguides; introduction to fiber and integrated optics. Prerequisite: ECE 3600.

**ECE 4600 Group Design Project 6 Cr. Hrs.**

The engineering curriculum must culminate in a significant design experience which is based on the knowledge and skills acquired in earlier course work and which gives students an exposure to the concepts of team work and project management. Prerequisites: [ENG 2030 or ENG 2040 or the former ENG 2010] and ECE 3780 and [(ECE 3580 (or the former ECE 2130), ECE 3720, ECE 3670 and ECE 3610) or (ECE 3700, ECE 3760 and ECE 3740)].

**ECE 4610 Biomedical Instrumentation and Signal Processing 4 Cr. Hrs.**

Introduction to biological systems and the application of engineering principles to medical problems. Students design systems to acquire and analyze biological signals in the laboratory. Content includes introduction to relevant physiology and anatomy of cells, skeletal muscles, heart and cardiovascular systems, human balance and biomechanics, recording and analyzing biological signals (ECG, EMG, respiratory sounds), design of instrumentation amplifiers for signal conditioning, medical instrumentation safety and health hazards. Prerequisites: ECE 2160 and ECE 3780.

**ECE 4740 Digital Systems Implementation 4 Cr. Hrs.**

Implementation methodologies and technologies for digital systems, including VLSI implementations, PCB implementations, and rapid prototyping (FPGA). Prerequisite: ECE 4240. Not to be held with ECE 4500.

**ECE 4830 Signal Processing 2 4 Cr. Hrs.**

Representation of discrete-time signals and systems in the time and frequency domains; the z-transform; application to various discrete-time linear time-invariant systems; design of digital filters. Laboratory periods will be used to give students hands-on experience in programming many of the techniques covered in the theoretical parts of the course. Prerequisite: ECE 3780.

**ECE 4850 Topics in Electrical and Computer Engineering 1****4 Cr. Hrs.**

This course will cover contemporary topics in Electrical and Computer Engineering via lectures and laboratory sessions. The specific topics and a detailed course outline will be available at the time of registration. Prerequisite: Permission of the Department.

**ECE 4860 Topics in Electrical and Computer Engineering 2****4 Cr. Hrs.**

This course will cover contemporary topics in Electrical and Computer Engineering via lectures and laboratory sessions. The specific topics and a detailed course outline will be available at the time of registration. Prerequisite: Permission of the Department.

**ECE 4870 Topics in Electrical and Computer Engineering 3****3 Cr. Hrs.**

This lecture based course will cover contemporary topics in Electrical and Computer Engineering. The specific topics and a detailed course outline will be available at the time of registration. Prerequisite: Permission of the Department.

**ECE 4880 Topics in Electrical and Computer Engineering 4****3 Cr. Hrs.**

This lecture based course will cover contemporary topics in Electrical and Computer Engineering. The Specific topics and a detailed course outline will be available at the time of registration. Prerequisite: Permission of the Department.

**4.10 Mechanical Engineering**

Head: Dr. David Kuhn, P.Eng.

Associate Head(s): Dr. Paul Labossiere, P. Eng., (Undergraduate Programs)

Dr. M. Tachie, P.Eng. (Graduate Programs)

Campus Address/General Office: E2-327 EITC

Telephone: 204 474 7358/ 6630

Fax: 204 275 7507

Website:

<http://umanitoba.ca/faculties/engineering/departments/mechanical>

The Department of Mechanical Engineering offers a fully accredited degree program. Students entering the Mechanical Engineering program may specialize with an option in Aerospace, or a stream in Aerospace, Materials, Solid Mechanics, or Thermofluids. Students are urged to consult appropriate program requirements shown for each option/stream.

The Mechanical Engineering program provides the education required by those who wish to practice in Mechanical Engineering that embraces, among other subdivisions, the design of mechanical devices and systems, manufacturing engineering and management, computer-aided design and computer-aided manufacturing, power generation and utilization, air conditioning, the material sciences, and the aeronautical sciences.

The Mechanical Engineering Program offers basic training in the sciences, mathematics and fundamental engineering subjects followed by more specialized discipline-related subjects. Students are allowed to choose technical electives to suit their career objectives and are also required to take complementary studies electives related to social issues.

### Co-operative Education Programs

Please refer to SECTION 5: Co-operative Education and Industrial Internship Programs.

#### 4.10.1 Mechanical Engineering Program

**Preliminary Engineering Program** - Common to all Engineering Programs. (See Section 4.2 for details.)

Program Core Courses:		
Course No.		Credit Hours
CHEM 1310	An Introduction to Physical Chemistry	3
ENG 3000	Engineering Economics	3
ENG 3020	Technology, Society, and the Future	3
ECE 3010	Elements of Electric Machines and Digital Systems	4
ENG 2030	Engineering Communication: Strategies for the Profession	3
or		
ENG 2040	Engineering Communication: Strategies, Practice and Design	3
MATH 2130	Engineering Mathematical Analysis 1	3
MATH 2132	Engineering Mathematical Analysis 2	3
MATH 3132	Engineering Mathematical Analysis 3	3
MECH 2112	Fundamentals of Mechanical and Computer Aided Design	5
MECH 2150	Mechanical Engineering Modelling and Numerical Methods	4
MECH 2202	Thermodynamics	4
MECH 2222	Mechanics of Materials	4
MECH 2262	Fundamentals of Fluid Mechanics	4
MECH 2272	Engineering Materials 1	4
MECH 3170	Project Management	4
MECH 3420	Vibrations and Acoustics	4
MECH 3430	Measurements and Control	4
MECH 3460	Heat Transfer	4
MECH 3482	Kinematics and Dynamics	4

MECH 3492	Fluid Mechanics and Applications	4
MECH 3502	Stress Analysis and Design	4
MECH 3542	Engineering Materials 2	4
MECH 3652	Machine Design	4
MECH 3982	Mechanical Laboratories in Solid Mechanics	2
MECH 3992	Mechanical Laboratories in Thermofluids	2
MECH 4860	Engineering Design	5
PHYS 1070	Physics 2: Waves and Modern Physics	3
STAT 2220	Contemporary Statistics for Engineers	3
5 Technical Electives (TE)		4
1 Complimentary Studies Elective (CE)		3

#### NOTES:

1. A student's selection and timetabling of electives are subject to the following conditions:

a. Only one complementary elective (CE) is required upon completion of Critical Thinking (PHIL 1290), which is recommended but not required; students may choose an alternate course from the Faculties of Arts or Management at the 1000 level or above, and one course from the approved list of Written English Courses for Engineering Students in the Preliminary Engineering Program (see Section 4.2).

b. The complementary elective (CE) can be any course at the 1000-level or above from the faculties of Arts or Management. However, ARTS 1110 Introduction to Uni-versity may not be used for credit in the Price Faculty of Engineering.

2. For courses continuing through both terms, credit is given on completion of course.

3. A minimum of 20 credit hours of technical electives is required with 18 hours required if completing MECH 4162 the Mechanical Engineering Thesis Course (5 courses at 4 credit hours each or 3 courses at 4 credit hours each plus MECH 4162 at 6 credit hours).

#### 4.10.2 Aerospace Option

Complete all 3 TEs in LIST A. Choose the remaining two TEs from LIST B. Some courses in LIST B will be offered in alternating years.

Course No.		Credit Hours
<b>LIST A:</b>		
MECH 3520	Aerodynamics	4
MECH 4182	Aerospace Structures: Analysis and Design	4
MECH 4192	Aerospace Materials and Manufacturing Processes	4
<b>LIST B:</b>		
MECH 4200	Gas Turbine Propulsion Systems	4
MECH 4452	Aircraft Performance, Dynamics, and Design	4
MECH 3582	Manufacturing Planning and Quality Control	4
MECH 4482	Applied Aerospace Instrumentation	4
MECH 4432	Systems Engineering (with permission)	4

ENG 4110	Operational Excellence (with permission)	4
----------	--	---

**4.10.3 Aerospace Stream**

Choose 3 TEs from the following 5 courses. Choose the remaining two TEs from the same stream, other TEs, or thesis. Some courses will be offered in alternating years.

Course No.	Credit Hours	
MECH 3520	Aerodynamics	4
MECH 4182	Aerospace Structures Analysis and Design	4
MECH 4192	Aerospace Materials and Manufacturing Processes	4
MECH 4200	Gas Turbine Propulsion Systems	4
MECH 4452	Aircraft Dynamics and Performance	4

**4.10.4 Manufacturing Stream**

Choose 3 technical electives from the following courses. Some courses may be offered in alternate years

Course No.	Credit Hours	
MECH 3550	Robotics and Computer Numerical Control	4
MECH 3582	Manufacturing Planning and Quality Control	4
MECH 3570	Manufacturing Automation	4
MECH 3592	Simulation Modelling and Facilities Planning	4
MAECH 4192	Aerospace Materials and Manufacturing Processes	4
MECH 4330	Contemporary Topics in Manufacturing Engineering 1	4
MECH 4342	Contemporary Topics in Manufacturing Engineering 2	4

**4.10.5 Materials Stream**

Choose 3 from the following 5 courses. Choose the remaining two TEs from the same stream, other TEs, or thesis. Some courses will be offered in alternating years.

Course No.	Credit Hours	
MECH 4192	Aerospace Materials and Manufacturing Processes	4
MECH 4350	Topics in Materials 1	4
MECH 4360	Topics in Materials 2	4
MECH 4620	Corrosion of Metals and Alloys	4
MECH 4870	Fracture and Failure of Engineering Materials	4

**4.10.6 Solid Mechanics Stream**

Choose 3 from the following 6 courses. Choose the remaining two TEs from the same stream, other TEs, or thesis. Some courses will be offered in alternating years.

Course No.	Credit Hours	
MECH 4182	Aerospace Structures: Analysis and Design	4
MECH 4472	Mechanical Vibration	4

MECH 4510	Fundamentals of Finite Element Analysis	4
MECH 4532	Advance Strength of Materials	4
MECH 4550	Noise Control	4
MECH 4672	Advanced Mechanical Design	4

**4.10.7 Thermofluids Stream**

Choose 3 from the following 8 courses. Choose the remaining two TEs from the same stream, other TEs, or thesis. Some courses will be offered in alternating years.

Course No.	Credit Hours	
MECH 4292	IC Engines	4
MECH 4412	Heating, Venting, and Air Conditioning	4
MECH 4560	Selected Topics in Fluid Mechanics 4M	4
MECH 4680	Energy Conversion Utilization	4
MECH 4692	Renewable Energy	4
MECH 4694	Advanced Topics in Heat Transfer	4
MECH 4702	Design of Thermal Systems	4
MECH 4822	Numerical Heat Transfer in Fluid Flow	4

**4.10.8 Technical Electives in Mechanical Engineering**

MECH 3520	Aerodynamics	4
MECH 3550	Robotics and Computer Numerical Control	4
MECH 3562	Introduction to Optimization	4
MECH 3570	Manufacturing Automation	4
MECH 3582	Manufacturing Planning and Quality Control	4
MECH 3592	Simulation Modelling and Facilities Planning	4
MECH 4162	Thesis (full year course) (See Note 2)	6
MECH 4182	Aerospace Structures: Analysis and Design	4
MECH 4192	Aerospace Materials and Manufacturing Processes	4
MECH 4200	Gas Turbine Propulsion Systems	4
MECH 4240	Design for Manufacturing	4
MECH 4292	IC Engines	4
MECH 4310	Contemporary Topics in Mechanical Engineering 1	4
MECH 4322	Contemporary Topics in Mechanical Engineering 2	4
MECH 4330	Contemporary Topics in Manufacturing Engineering 1	4
MECH 4342	Contemporary Topics in Manufacturing Engineering 2	4
MECH 4350	Topics in Materials 1	4
MECH 4360	Topics in Materials 2	4
MECH 4412	Heating, Venting, and Air Conditioning	4

MECH 4432	Systems Engineering	4
MECH 4452	Aircraft Performance, Dynamics, and Design	4
MECH 4472	Mechanical Vibration	4
MECH 4482	Applied Aerospace Instrumentation	4
MECH 4510	Fundamentals of Finite Element Analysis	4
MECH 4532	Advanced Strength of Materials	4
MECH 4542	Principles of Turbomachinery	4
MECH 4550	Noise Control	4
MECH 4560	Selected Topics in Fluid Mechanics 4M	4
MECH 4582	Vehicle Testing, Condition Monitoring, and Fault Analysis	4
MECH 4620	Corrosion of Metals and Alloys	4
MECH 4672	Advanced Mechanical Design	4
MECH 4680	Energy Conversion Utilization	4
MECH 4692	Renewable Energy	4
MECH 4694	Advanced Topics in Heat Transfer	4
MECH 4702	Design of Thermal Systems	4
MECH 4812	Automotive Engineering	4
MECH 4822	Numerical Heat Transfer in Fluid Flow	4
MECH 4832	Biomaterials in Biomedical Engineering	4
MECH 4870	Fracture and Failure of Engineering Materials	4
MECH 4900	Mechatronics System Design	4

**NOTES:**

1. The Department of Mechanical Engineering may not be able to offer all technical electives listed above. Students are urged to consult the Mechanical Engineering office for a current list of technical electives.

2. Students must be in their graduating year to register for MECH 4162 Thesis.

4.10.9 Mechanical Engineering Course Descriptions-2000 Level

**MECH 2112 Fundamentals of Mechanical and Computer Aided Design 5 Cr. Hrs.**

(Lab required) Provide instruction on the application of computer aided design software packages. The students will work in groups in the design and development of a product using CAD packages and digital fabrication technologies. May not be held for credit with CIVL 2830, the former ENG 2020, ENG 2022, MECH 2010, or MECH 2012. Prerequisite: ENG 1430.

**MECH 2150 Mechanical Engineering Modelling and Numerical Methods 4 Cr. Hrs.**

A case-study-based introduction to modelling and numerical methods with mechanical engineering applications. Selected problems, primarily from second and third year mechanical engineering course material, will be used to teach modelling. Derivation and application of appropriate numerical methods will be performed to solve the case study problems using a hands-on approach. A high level computer language and accompanying toolkit/built-in functions will be introduced for solution of the cases. May not be held for credit with MATH 2120. Prerequisites: COMP 1012 or COMP 1013. Pre- or Co-requisites: MATH 2132 and (MECH 2262 or BIOE 2790 or CIVL 2790).

**MECH 2202 Thermodynamics 4 Cr. Hrs.**

Cycles, transient flow processes, entropy, gas mixtures, psychrometry combustion. Prerequisites: ENG 1460, (MATH 1500 or MATH 1510 and MATH 1700 or MATH 1710). Not to be held for credit with MECH 2200.

**MECH 2222 Mechanics of Materials 4 Cr. Hrs.**

Topics covered in this course include: axial and torsional loading, stress-strain and deformation in statically determinate/indeterminate systems, thermally induced stress, and stresses in beams (including reinforced beams) under pure bending and bending with shear. The mechanical properties of materials under various loading modes will be addressed. Prerequisites: [PHYS 1050] and [ENG 1440 or ENG 1441 (ENG 1350)] and COMP 1012 and [MATH 1710 or MATH 1700].

**MECH 2262 Fundamentals of Fluid Mechanics 4 Cr. Hrs.**

Fundamental concepts used in the analysis of fluid behaviour, pressure in stationary fluids, forces on submerged surfaces, buoyancy, integral methods, Bernoulli equation, pipeline analysis. May not be held for credit with the former MECH 2260. Prerequisites: PHYS 1050 and ENG 1440 and ENG 1460 and MATH 2130 (or the former MATH 2110). Pre or Co requisite: MATH 2132 (or the former MATH 2100).

**MECH 2272 Engineering Materials 1 4 Cr. Hrs.**

(Lab required) Introduction to engineering materials; defects, strengthening mechanisms, and plasticity in engineering metals and alloys; fundamentals and application of heat treatment of metallic materials including topics such as diffusion, phase diagram, phase transformation, and thermal processing; mechanical properties of engineering metallic materials and their relationship to structure, defects, various strengthening mechanisms, and processing; structure of non-metallic polymers and ceramics. Prerequisites: [CHEM 2240 or CHEM 1310] and [MECH 2222 (or MECH 2220)]. May not be held for credit with MECH 2270, MECH 2290 or MECH 3540.

4.10.10 Mechanical Engineering Course Descriptions-3000 Level

**MECH 3170 Project Management 4 Cr. Hrs.**

(Lab required) Topics covered include project planning, scheduling, resource allocation, process analysis, layout and control. The course will make use of industrial projects for developing a strong design and analytical approach pertinent to project management. May not be held with the former MECH 4170. Prerequisite: MECH 2112 (or the former MECH 2010 or the former MECH 2012) or CIVL 2830.

**MECH 3420 Vibrations and Acoustics 4 Cr. Hrs.**

Vibrations and computer simulations of single-degree-of-freedom systems, viscous and friction damping, MD of systems and modal analysis, measurement and sources of noise, noise control. Prerequisites: MECH 3482 (formerly MECH 2120 and MECH 3480), and MATH 3132 (formerly MATH 3100).

**MECH 3430 Measurements and Control 4 Cr. Hrs.**

Mathematical modelling of mechanical systems. Feedback systems and stability. Digital control; analog to digital and digital to analog control systems. Prerequisites: MATH 3132 (or MATH 3100) and ENG 1450 (or 130.118).

**MECH 3460 Heat Transfer 4 Cr. Hrs.**

(Lab required) This is the first course in heat transfer. Topics covered include fundamental concepts relevant to heat transfer analysis, steady-state and transient conduction, forced and free convection, external and internal flows, heat exchangers and fundamentals of radiation. May not be held for credit with the former MECH 3470. Prerequisites: MECH 2150, MATH 3132 (or the former MATH 3100) and ENG 1460. Pre- or corequisite: MECH 3492 (or the former MECH 3490).

**MECH 3482 Kinematics and Dynamics 4 Cr. Hrs.**

Fundamentals of 2D and 3D rigid body motions (kinematics) and the forces/moments (kinetics) needed to produce such motions. Applications will emphasize elements of machine design. May not be held for credit with MECH 2120 or MECH 3480. Prerequisites: PHYS 1050 and [ENG 1440 or ENG 1441] and COMP 1012 and [MATH 1710 or MATH 1700].

**MECH 3492 Fluid Mechanics and Applications 4 Cr. Hrs.**

(Lab required) The angular momentum principle, introduction to differential analysis of fluid motion, internal and external incompressible viscous flow, fluid machinery and multiple-path systems, fluid coupling and torque couplings and torque converters. May not be held with the former MECH 3490. Prerequisite: MECH 2262 (or the former MECH 2260). Pre- or Co-requisite: MECH 2150 or CIVL 3590 or MATH 2120.

**MECH 3502 Stress Analysis and Design 4 Cr. Hs.**

Strength and stability of columns, torsion of thin-walled members, unsymmetric loading and shear centres, beam deflection and energy methods. Prerequisites: MECH 2222 (formerly MECH 2220), and MATH 2130 (formerly MATH 2110). May not be held for credit with MECH 2220 or MECH 3500.

**MECH 3520 Aerodynamics 4 Cr. Hrs.**

Aeronautical definitions, compressible flow, plane normal shock waves, Mach. no. and shock waves in two-dimensional flow, potential flow theory in two-dimensional and axisymmetric flows. Two-dimensional wing theory, finite wing theory panel methods, elements of boundary layer theory. Compressibility and wings, wing design, flow control. Prerequisite: MECH 3492 (MECH 3490).

**MECH 3542 Engineering Materials 2 4 Cr. Hrs.**

(Lab required) Mechanical properties of engineering non-metallic materials such as polymers, ceramics and composites, and their relationship to structure and processing; introduction to various shaping and joining processes used in manufacturing, their advantages and limitations; selection and application of engineering materials. Prerequisites: MECH 2272 (formerly MECH 2270). May not be held for credit with MECH 2270, MECH 2290 or MECH 3540.

**MECH 3550 Robotics and Computer Numerical Control 4 Cr. Hrs.**

(Lab required) This course builds up a foundation in the area of Computer Aided Manufacturing (CAM) such as computer numerically controlled machine tools and robotics. Intense hands on experience is provided in the laboratory sessions on part programming using Computer Aided Design (CAD) packages and robots to demonstrate application in the area of CAM. Several case studies and manufacturing applications will be discussed. Prerequisite: MECH 2112 (or the former MECH 2010 or the former MECH 2012) or CIVL 2830.

**MECH 3562 Introduction to Optimization 4 Cr. Hrs.**

(Lab required) The objective of this course is to develop the ability to formulate and analyze problems that will be encountered in a manufacturing system. The skills acquired will allow the students to approach problems from an optimization perspective. The students will be provided experience in related software packages. May not be held for credit with the former MECH 3560. Prerequisites: (MECH 2112 or the former MECH 2010 or the former MECH 2012 or CIVL 2830) and STAT 2220.

**MECH 3570 Manufacturing Automation 4 Cr. Hrs.**

(Lab required) This course builds upon the foundation developed in a previous course: namely Robotics and Computer Numerical Control. The course covers a wide variety of topics in the area of computer controlled automation. The students are provided with hands on experience in design for automation. It will synthesize several aspects associated with integrated operation of computer controlled automated devices. Prerequisite: MECH 3550.

**MECH 3582 Manufacturing Planning and Quality Control 4 Cr. Hrs.**

(Lab required) The course covers topics such as: group technology, just-in-time, computer aided process planning, statistical process control and manufacturing planning and control. Issues related to the integration of several areas that fall within CIM are emphasized. Systems approach is introduced. May not be held with the former MECH 3580. Prerequisite: MECH 2112 (or the former MECH 2010 or the former MECH 2012) or CIVL 2830.

**MECH 3592 Simulation Modeling and Facility Planning 4 Cr. Hrs.**

(Lab required) The objective of this course is to introduce simulation for manufacturing operations and the concepts of facilities location and layout. The students will learn how to program WITNESS, a simulation language, and through simulation, explore the effects of facility planning; resource

availability e.g. machines and quality related problems on manufacturing productivity and timing. May not be held with MECH 3590. Prerequisite: MECH 2112 (or the former MECH 2010 or the former MECH 2012) or CIVL 2830.

**MECH 3602 Manufacturing Process Fundamentals 4 Cr. Hrs.**

(Lab required) This course will give students hands on experience with numerous manufacturing processes, machines and systems. Using CNC mills, lathes, conventional machine shop equipment and hand tools, the students will manufacture mechanical components, assemble them and troubleshoot any problems. The object is to provide students with hands-on exposure to the application of basic manufacturing process tools. May not be held for credit with MECH 3600. Prerequisite: MECH 2112 (or the former MECH 2012 or the former MECH 2010) or CIVL 2830.

**MECH 3652 Machine Design 4 Cr. Hrs.**

(Lab required) Stress and failure analysis and the design of machine elements; shafts and couplings, threaded fasteners and power screws, clutches and power transmission components; spur, bevel, worm and helical gears; lubrication, journal and roller bearings May not be held for credit with MECH 4650. Prerequisites: (MECH 3482 or the former MECH 2120) and (MECH 3502 or the former MECH 3500).

**MECH 3982 Mechanical Laboratories in Solid Mechanics 2 Cr. Hrs.**

(Lab required) Laboratory course on topics that compliment and reinforce concepts developed in second and third year mechanical engineering courses in mechanics of solids and structures, and vibrations. May not be held for credit with the former MECH 3980, MECH 4980, or MECH 4990. Prerequisites: (ENG 2030 or ENG 2040 or the former ENG 2010) and (MECH 2222 or the former MECH 2220). Pre- or corequisites: MECH 3420 and (MECH 3502 or the former MECH 3500).

**MECH 3992 Mechanical Laboratories in Thermofluids 2 Cr. Hs.**

(Lab required) Laboratory course on topics that compliment and reinforce concepts developed in second and third year mechanical engineering courses in thermofluids. May not be held for credit with the former MECH 3980, MECH 4980, or MECH 4990. Prerequisites: (ENG 2030 or ENG 2040 or the former ENG 2010), (MECH 2202 or the former MECH 2200), and (MECH 2262 or the former MECH 2260). Pre- or corequisites: MECH 3460 or the former MECH 3470.

4.10.11 Mechanical Engineering Course Descriptions-4000 Level

**MECH 4162 Thesis 6 Cr. Hrs.**

This course will give students the opportunity to gain research or design experience in their area of interest. Thesis topics must be approved by the head of the department or designate. Restriction: Only students with a year class distinction of 4 or higher in Mechanical Engineering may register for this course. Prerequisites: ENG 2030 or ENG 2040 (or the former ENG 2010) and eligible to graduate. May not be held for credit with MECH 4160.

**MECH 4182 Aerospace Structures: Analysis and Design 4 Cr. Hrs.**

Methodology and techniques for design of aerospace structures and components to preclude failure with minimum weight, cost and resource consumption. Analysis of structural, air, gust and maneuver loads. May not be held for credit with MECH 4180. Prerequisites: MECH 3502 (or MECH 3500).

**MECH 4192 Aerospace Materials and Manufacturing Processes 4 Cr. Hrs.**

Properties of aerospace structural materials including glass and graphite fibre composites, light metal alloys and high strength steels. Properties of high temperature materials; superalloys ceramics, intermetallic compounds, metal matrix composites. Specialized methods for manufacture of these materials. Prerequisites: MECH 3542 (formerly MECH 3540) May not be held for credit with MECH 4190.

**MECH 4200 Gas Turbine Propulsion Systems 4 Cr. Hrs.**

Gas turbine systems, shaft power cycles, gas turbine propulsion cycles, centrifugal compressors, axial flow compressors, combustion systems, design performance predictions, off-design operations and transient behaviour of gas turbines. Design performance predictions. Prerequisites: MECH 2202 (or MECH 2200) and MECH 3520.

**MECH 4292 IC Engines 4 Cr. Hrs.**

Thermodynamics of internal combustion engines and engine cycles; fuels and fuel systems; combustion; emission control systems; electronic engine controls and strategies; intake and exhaust systems; camshafts and valve train dynamics; balancing; performance and testing. Prerequisite: MECH 2202 (or the former MECH 2200). May not be held for credit with MECH 4290.

**MECH 4310 Contemporary Topics in Mechanical Engineering I 4 Cr. Hrs.**

This course will cover contemporary topics in Mechanical Engineering. The specific topics and a detailed outline will be available at the time of registration prior to the start of the registration period for the session in which the course will be offered. Prerequisite: Permission of the department.

**MECH 4322 Contemporary Topics in Mechanical Engineering II 4 Cr. Hrs.**

This course will cover contemporary topics in Mechanical Engineering. The specific topics and a detailed outline will be available at the time of registration prior to the start of the registration period for the session in which the course will be offered. Prerequisite: Departmental Permission. May not be held for credit with MECH 4320

**MECH 4330 Contemporary Topics in Manufacturing Engineering I 4 Cr. Hrs.**

This course will cover contemporary topics in Manufacturing Engineering. The specific topics and a detailed outline will be available at the time of registration prior to the start of the registration period for the session in which the course will be offered. Prerequisite: Permission of the department.

**MECH 4342 Contemporary Topics in Manufacturing Engineering II 4 Cr. Hrs.**

This course will cover contemporary topics in Manufacturing Engineering. The specific topics and a detailed outline will be available at the time of registration prior to the start of the registration period for the session in which the course will be offered. Prerequisite: Departmental Permission. May not be held for credit with MECH 4340

**MECH 4350 Topics in Engineering Material 1 4 Cr. Hrs.**

This course will cover contemporary topics in engineering materials. The specific topics and a detailed outline will be available prior to the start of registration period for the session in which the course will be offered. Prerequisite: Departmental Permission.

**MECH 4360 Topics in Engineering Materials 2 4 Cr. Hrs.**

This course will cover contemporary topics in engineering materials. The specific topics and a detailed outline will be available prior to the start of registration period for the session in which the course will be offered. Prerequisite: Departmental Permission.

**MECH 4412 Heating, Ventilation and Air Conditioning 4 Cr. Hrs.**

Psychometric processes, equipment selection, and the design of heating and cooling systems for typical buildings. Prerequisite: MECH 2202 (formerly MECH 2200). Not to be held for credit with MECH 4410.

**MECH 4432 Systems Engineering 4 Cr. Hrs.**

(Lab required) The engineering support process as applied to the entire product life cycle from requirements definition to disposal. Focus on the system as a whole; from the outside, its interaction with its environment and other systems; and from the inside, its design requirements and implementation. May not be held with MECH 4342 when titled "Systems Engineering." Restricted to students in third year or above.

**MECH 4452 Aircraft Performance, Dynamics and Design 4 Cr. Hs.**

A study of the morphology of aerospace vehicles; basic components and their functions, Aircraft performance; drag, thrust, lift, basics of orbital mechanics. Prerequisites: MECH 3520. May not be held for credit with MECH 4450.

**MECH 4472 Mechanical Vibration 4 Cr. Hrs.**

Nonlinear Vibrations: mathematical theory for lumped vibratory systems; response of systems to nonharmonic excitation; solutions by Laplace

transforms and Fourier analysis; introduction to the matrix formulation of vibration problems and vibration of distributed systems. Prerequisite: MECH 3420.

**MECH 4482 Applied Aerospace Instrumentation 4 Cr. Hrs.**

(Lab required) Principles and practices of test and measurement system design and analysis for aerospace applications. Topics include transducers, signal conditioning, data acquisition and analysis, uncertainty analysis, calibration and correlation, system design and maintenance, and piping and instrumentation diagrams, and an introduction to LabVIEW software. This course may include a field trip component. May not be held for credit with MECH 4322 when titled "Applied Instrumentation". Prerequisites: MECH 3430 and [(MECH 3982 and MECH 3992) or the former MECH 3980 or (the former MECH 4980 and the former MECH 4990)].

**MECH 4510 Fundamentals of Finite Element Analysis 4 Cr. Hrs.**

(Lab required) Fundamentals of the Finite Element Method, basic components in a Finite Element procedure, application of FEM to solve engineering problems and use of commercial software. Prerequisites: (MECH 2150 or MATH 2120) and (MATH 3132 or MATH 3100) and MECH 2222 (or the former MECH 2220).

**MECH 4532 Advanced Strength of Materials 4 Cr. Hrs.**

Stress and strain in three dimensions; thick walled cylinders, beams of elastic foundations, unsymmetrical bending and sheet-stringer construction, curved beams. Additional topics such as the analysis of fibre-composite material, techniques in experimental stress analysis and studies in metallics fatigue may be presented prerequisite: MECH 3502 (formerly MECH 3500). May not be held for credit with MECH 4530.

**MECH 4542 Principles of Turbomachinery 4 Cr. Hrs.**

(Lab required) Principles and design of turbomachinery, including fluid dynamics, thermodynamics and engineering applications. A variety of turbomachines are introduced, including hydraulic pumps and turbines, centrifugal compressors and fans, and axial flow compressors and fans. May not be held for credit with MECH 4310 when titled "Turbomachinery." Prerequisites: MECH 2202 (or the former MECH 2200) and MECH 3492 (or the former MECH 3490).

**MECH 4550 Noise Control 4 Cr. Hrs.**

An elective course open to all branches of Engineering; a recommended course for students taking Air Conditioning. Wave propagation, transducers and measurement techniques, psycho-acoustic criteria, legislation, techniques of noise and vibration control.

**MECH 4560 Selected Topics in Fluid Mechanics 4M 4 Cr. Hrs.**

(Lab required) Topics may include: wind tunnel design; experimental techniques; some exact solutions of the conservation equations; fundamentals of turbulence; secondary flows; fluidization; elementary meteorology; fluidics; other topics of current interest. Prerequisites: [MATH 3132 or the former MATH 3100] and [MECH 3492 or the former MECH 3490].

**MECH 4582 Vehicle Testing, Condition Monitoring, and Fault Analysis 4 Cr. Hrs.**

(Lab required) General testing and fault diagnostic techniques for ground vehicles including common signal analysis techniques, vibration testing and fault analysis methods. Basic knowledge of vibration based condition monitoring including the basic theory and applications of engineering tools, damage analysis and detection, and modal analysis. May not be held with MECH 4322 when titled "Ground Vehicle Testing Technology." Prerequisite: MECH 3420.

**MECH 4620 Corrosion of Metals and Alloys 4 Cr. Hrs.**

Electrochemical basis of corrosion, corrosion prevention by cathodic protection, inhibitors, alloying and heat treatment, passivation, stress corrosion cracking, corrosion fatigue; ionic and electronic conduction; oxidation of metals and alloys. Prerequisite: MECH 3542 (or MECH 3540).

**MECH 4672 Advanced Mechanism Design 4 Cr. Hrs.**

Graphical, analytical and computer techniques for the analysis and design of mechanisms to produce a desired set of motion characteristics; design of linkages, double lever, slider and dwell mechanism; cognate linkages. Kinetic synthesis tasks function generation, path generation and motion

generation. Prerequisite: MECH 3482 (formerly MECH 2120). May not be held for credit with MECH 4670.

**MECH 4680 Energy Conservation and Utilization 4 Cr. Hrs.**  
Energy supply and demand, advanced thermodynamic cycles, conventional energy sources, alternative energy, conservation of energy, environmental considerations. Prerequisite: MECH 2202 (formerly MECH 2200).

**MECH 4690 Topics in Heat Transfer and Energy 3 Cr. Hrs.**  
Some combination of the following advanced topics: conduction heat transfer, radiation, heat-exchanger design, two-phase phenomena, fluidization, alternative energy, energy conservation. Other topics of current interest may also be included. Prerequisite: MECH 3460 (or MECH 3470).

**MECH 4692 Renewable Energy 4 Cr. Hrs.**  
Introduction to renewable energy systems, current and future global energy issues and the need for renewable energy applications, and distributed renewable energy generation. Renewable energy systems that will be considered are; solar heat, solar PV, biomass heat and power, hydro power, and wind power. Students will develop simple numerical models of renewable energy systems. Prerequisites MECH 2202 (formerly MECH 2200) and MECH 2262 (formerly MECH 2260). Pre- or Co requisite; MECH 3460 (formerly MECH 3470).

**MECH 4694 Advanced Topics in Heat Transfer 4 Cr. Hrs.**  
Some combination of the following advanced topics; conduction heat transfer radiation, heat-exchanger design, two-phase phenomena, fluidization, alternative energy, energy conservation. Other topics of current interest may also be included. Prerequisite: MECH 3460 (or MECH 3470). May not be held for credit with MECH 4690.

**MECH 4702 Design of Thermal Systems 4 Cr. Hrs.**  
Modeling of thermal systems; system simulation; design applications of optimization methods: Lagrange multipliers, search methods, and dynamic geometric and linear programming. Prerequisite: MECH 2202 (or MECH 2200). May not be held for credit with MECH 4700.

**MECH 4812 Automotive Engineering 4 Cr. Hrs.**  
Introduction to vehicle dynamics; power trains; braking systems; road loads, aerodynamics and fuel efficiency; ride and suspension systems; steering systems; tire properties and dynamics; structural analysis and crash safety; performance vehicle design. Prerequisite: MECH 3502 (or the former MECH 3500). Pre or Corequisite: MECH 3420 May not be held for credit with former MECH 4810.

**MECH 4822 Numerical Heat Transfer in Fluid Flow 4 Cr. Hrs.**  
(Lab required) General conservation equations; specific forms of the conservation equations and energy equations; finite difference methods: one dimensional steady problems, one dimensional unsteady problems, two dimensional steady problems; two dimensional unsteady problems; convection, solution for the flow fluid. May not be held for credit with former MECH 4820. Prerequisites: (MATH 3132 or the former MATH 3100), (MECH 2150 or MATH 2120), MATH 3460 (or the former MECH 3470) and MECH 3492 (or the former MECH 3490).

**MECH 4832 Biomaterials in Biomedical Engineering 4 Cr. Hrs.**  
(Lab required) Biomechanics and design of hard biomaterials and soft biomaterials and their applications in orthopedics, cardiovascular and neural systems. Course includes fundamental biological concepts, materials science fundamentals and medical/clinical concerns. Prerequisites: MECH 3542 (or the former MECH 3540) or (BIOE and BIOE 3590).

**MECH 4860 Engineering Design 5 Cr. Hrs.**  
(Lab required) Design projects; teams of students prepare written and oral design reports on solutions to specific problems from Manitoba industries; series of seminars by invited speakers. Prerequisite: eligibility for graduation in the current academic year or registered in third year Industrial Cooperative Education Program. Prerequisites: (ENG 2030 or ENG 2040 or the former ENG 2010) and (MECH 3652 or the former MECH 4650).

**MECH 4870 Fracture and Failure of Engineering Materials 4 Cr. Hrs.**  
Criteria for crack initiation and propagation leading to structural failure. Fracture mechanics and fracture toughness phenomena. Effects of structure geometry, loading rate, environment, temperature, composition

and microstructure on material integrity. Prerequisite: MECH 3542 (or MECH 3540).

**MECH 4900 Mechatronics System Design 4 Cr. Hrs.**  
The course covers topics in the analysis of control systems and components with the goal to provide students with tools and an understanding of issues related to integrating mechanical, electronic and software components towards building mechatronic devices. Hands-on-experience is provided in the laboratory sessions on simulation and actual computer control of various devices. Problems considered would include application to fluid power systems, systems integration and validation. The focus is placed on learning to work with real hardware. Prerequisite: MECH 3430.

**MECH 4930 Mechanical Engineering Industry Internship (IIP) 0 Cr. Hrs.**  
Supervised work experience normally of 12-16 months duration, concluded by a work report. (Pass/Fail grade only.)

#### **4.11 Internationally Educated Engineers Qualification Program (IEEQ) – Post-Baccalaureate Diploma in Engineering**

Campus Address/General Office:

Email Address: [ieeq@umanitoba.ca](mailto:ieeq@umanitoba.ca)

Telephone: 204 474 8961

Website: <http://umanitoba.ca/engineering/ieeq>

##### **4.11.1 Introduction**

The Price Faculty of Engineering offers the IEEQ Program, designed for international engineering graduates (IEGs) pursuing foreign credentials recognition with Engineers Geoscientists Manitoba ([www.enggeomb.ca](http://www.enggeomb.ca)), the regulatory body for engineering in Manitoba. Through the IEEQ Program, IEGs:

- Meet requirements for academic qualification with Engineers Geoscientists Manitoba and, upon successful completion of IEEQ Program requirements, become registered with Engineers Geoscientists Manitoba as Engineering Intern; and,
- May earn a Post-Baccalaureate Diploma in Engineering from the University of Manitoba.

The provisions of Section 3: Academic Regulations apply to all students. In addition, the IEEQ Program has regulations and requirements that apply specifically to its students that may differ from the academic regulations in Section 3. Details on regulations and requirements not included below are provided to students upon their admission into the IEEQ Program, and can be found on-line at [www.umanitoba.ca/engineering/ieeq](http://www.umanitoba.ca/engineering/ieeq)

##### **4.11.2 Admission Requirements and Application Procedures**

The IEEQ Program can accept applicants whose Confirmatory Exam assignments by Engineers Geoscientists Manitoba correspond to one of the five accredited undergraduate engineering programs offered in the Price Faculty of Engineering.

Program entrance is in September of any given year. In order to be admitted to the IEEQ Program, the student must:

Be an IEG with an earned undergraduate engineering degree obtained from a university outside of Canada;

Have obtained the results of an *Assessment of Academic Credentials* from Engineers Geoscientists Manitoba, with a result of five or fewer Confirmatory Exams assigned by Engineers Geoscientists Manitoba in order to be considered academically qualified;

Be a Permanent Resident or Canadian Citizen; and,

Demonstrate proficiency in the English language by meeting the minimum standard in one of the University of Manitoba approved proficiency tests or achieve Canadian Language Benchmark (CLB) Placement Test scores of

level eight (8) and no more than one seven (7) in the four language areas (for example, 8/8/8/7 or similar combination).

#### 4.11.3 Program Requirements

The Post-Baccalaureate Diploma in Engineering consists of a minimum of 24 hours of coursework, subject to the following regulations:

ENG 3000 Engineering Economics; and  
 ENG 4020 Professional Engineering Practice in Manitoba; and  
 ENG 4800 Co-operative Work- IEEQ; and  
 Technical courses are taken from the 3000 and 4000 levels of the student's engineering discipline, corresponding to the topic areas of Confirmatory Exams assigned by Engineers Geoscientists Manitoba.

The total number of courses required in the IEEQ Program is generally as shown in the table below:

#### 4.11.1 Introduction

Number of Technical Confirmatory Exams <sup>1</sup> Assigned by EGM	Number of courses in IEEQ <sup>2</sup>
One (1) or two (2)	5
Three (3)	7
Four (4)	9
Five (5)	11

#### Notes:

1. Technical exams refer to exams assigned from Group A or Group B of the Discipline Examinations (see <https://engineerscanada.ca/become-an-engineer/examination-syllabus>). Technical Exams do not include exams assigned from the Basic Studies (BS) or Complementary Studies (CS) syllabi, such as 11-CS-1 Engineering Economics

2. Including ENG 3000 Engineering Economics, ENG 4020 Professional Engineering Practice in Manitoba, and ENG 4800 Co-operative Work- IEEQ.

If the courses required in the IEEQ program total less than 24 credit hours, the student may apply for a transfer of credit from the original earned undergraduate engineering degree (obtained outside of Canada).

All courses must be completed with a grade of C or better. Failed courses may only be repeated once, and are subject to the limits outlined in the IEEQ Student Handbook and on the IEEQ Program website.

#### 4.11.4 Maximum Time Limits

Students can choose a full-time or part-time option in the IEEQ Program. Students will be asked to declare their status upon their acceptance to the IEEQ Program.

Number of courses in IEEQ	Full-time	Part-time
Seven (7) or fewer	1 yrs	2 yrs
More than seven (7)	2 yrs	3 yrs

#### 4.11.5 Course Descriptions for IEEQ

##### ENG 3000 Engineering Economics **3 Cr. Hrs.**

An introduction to the economic aspects of engineering design. Time value of money and discounted cash flow calculations. Comparing costs of alternative designs. Replacement analysis and life-cycle costing. Public sector engineering economy studies. Before and after tax analyses. Applications in cost-estimating and asset management systems. Basic accounting. Accommodating capital limitations. Dealing with inflation. Risk

management and uncertainty. Restricted to students registered in the Price Faculty of Engineering. May not be held with CIVL 4050.

##### ENG 4020 Professional Engineering Practice in Manitoba **4 Cr. Hrs.**

An introduction to the practice of professional engineering in Manitoba. Professional culture, organization and regulation; industry topics; engineering ethics and law. Emphasis on professional communication development. Restricted to students enrolled in the IEEQ Program. May not be held with ENG 4010.

##### ENG 4800 Co-operative Work 1 **1 Cr. Hrs.**

Work assignment in business, industry, or government for the Price Faculty of Engineering co-operative education stream students. Requires submission of a written report covering the work completed during the four-month professional assignment. It is assumed that courses ENG 4800, ENG 4810, ENG 4820, ENG 4830, ENG 4840 will be taken in order. Those registering for this course must have applied for and been accepted into the Price Faculty of Engineering co-operative stream. Not to be held with BIOE 2000, CIVL 2900, ECE 4720, MECH 2050 or ENG 4012. This course is graded on a pass/fail basis.

#### 4.12 Approved Program Variations

While it is the expectation that students will complete their individual programs as set-out in the preceding sections 4.1-4.11 it is recognized that, in certain limited circumstances, course substitutions approved by the Price Faculty of Engineering may be made where the content of alternative course(s) have been deemed to be equivalent.

Students are required to consult with their corresponding program advisors and declare their intention of taking the alternate course(s). The calculations of TGPAs must include the alternate course(s), and they cannot be excluded from the calculation of the TGPAs.

The following is a list of approved substitutions:

- The combination of STAT 1000 and STAT 2000 is considered equivalent to STAT 2220

## SECTION 5: Co-operative Education and Industrial Internship Programs

### Contact and Program Information

Director: Carolyn Geddert, P.Eng., Engineer-in-Residence

Tel. 204 474 8948

Email [carolyn.geddert@umanitoba.ca](mailto:carolyn.geddert@umanitoba.ca)

Program Administrator: Megan Johnson

Tel. 204 480 1069

Email [megan.johnson@umanitoba.ca](mailto:megan.johnson@umanitoba.ca)

The Price Faculty of Engineering offers a Co-operative education and Industrial Internship Program (Co-op/IIP) designed to complement and enrich the academic program with work experience. The work terms provide students with practical experience, assistance in financing their education, and guidance for future career specialization.

Applications are accepted for Co-op/IIP every fall. Co-op/IIP supports the application and participation of all students who meet the requirements and wish to apply. Application to Co-op/IIP is a process. The Co-op/IIP Office will work with you. If there are requirements that challenge you, connect with our staff, please click on the [Contact Us](#) link. Please click on the Benefits and Responsibilities link to see the benefits of Co-op/IIP. [Benefits and Responsibilities](#)

Successful applicants to Co-op/IIP have:

- Attended an information session.
- Been accepted as an undergraduate student into an Engineering Department.
- Completed all 12 first year Engineering courses before their first work

term.

- Completed 42 but not more than 90 credit hours towards your degree by the end of the Fall term. (This will support the completion of 3 work terms.)
- Been assessed as in Good Academic standing (GPA above 2.0). I.E. not on Probation or academic warning.
- Agree to follow all rules and regulations of the program as detailed in the Rules and Regulations

In addition to students following regular departmental programs, Internationally Educated Engineers Qualification (IEEQ) Program participants may also be approved for participation in Co-op/IIP upon written approval of the IEEQ Direct

Work placements must be confirmed to be appropriate by the Co-op/IIP office in order to be credited as a Co-op/IIP work term.

Upon securing a job placement, Engineering students enrol in the course ENG 4800, Engineering Cooperative Education Work Term 1 and subsequently the specific work term of employment ENG 4810, ENG 4820, ENG 4830, ENG 4840.

Students who are unable to maintain the standards of the Co-op/IIP will be transferred back into the regular program.

The course and grade requirements for completion of the Co-op/IIP are the same as those required for the regular program. However, in order to satisfy course prerequisite requirements, timetables may differ from the regular program. Co-op/IIP students are evaluated in the same manner as regular students and all rules and regulations of the Faculty of Engineering apply.

Students who are placed on Academic Warning or Academic Probation may either be removed from Co-op/IIP or have their acceptance deferred until they have completed two consecutive terms with an Academic Standing of "Satisfactory".

Students who are Required to Withdraw will immediately become ineligible for Co-op/IIP and will remain ineligible after re-instatement to the Faculty of Engineering.

Written reports must be completed at the end of each work term. Each successfully completed work term and its corresponding work term report receives a Pass/Fail grade and is rated at one credit hour. Graduates who successfully complete at least three work terms and the required work term reports will have the Co-operative Education Option acknowledged on their B.Sc. graduation parchment.

For more information regarding the Co-op/IIP rules, regulations and requirements, please see the Co-op/IIP office.

## **SECTION 1: Degree Programs Offered**

The Clayton H. Riddell Faculty of Environment, Earth, and Resources offers degree programs in Environmental Science, Environmental Studies, Geography, Physical Geography, Geological Sciences, Geology and Geophysics. All students are advised to examine their interests and future goals carefully to make appropriate program choices. Consultation with [Riddell Faculty student advisors](#) and/or department representatives is strongly encouraged.

### **1.1. Programs (Majors and Minors)**

<b>Degree</b>	<b>Years to complete (at 100% Load)</b>	<b>Total Credit Hours</b>
<b>Geography</b>		
Bachelor of Arts in Geography (General) <sup>1</sup>	3	90
Bachelor of Arts in Geography (Advanced) <sup>1</sup>	4	120
Bachelor of Arts in Geography (Honours) <sup>1</sup>	4	120
<b>Physical Geography</b>		
Bachelor of Science in Physical Geography (Major, Major Co-op) <sup>1</sup>	4	120
Bachelor of Science in Physical Geography (Honours, Honours Co-op) <sup>1</sup>	4	120

<b>Environmental Science</b>		
Bachelor of Environmental Science (General) <sup>1</sup>	3	90
Bachelor of Environmental Science (Major, Major Co-op) <sup>1</sup>	4	120
Bachelor of Environmental Science (Honours, Honours Co-op) <sup>1</sup>	4	120
<b>Environmental Studies</b>		
Bachelor of Environmental Studies (General) <sup>1</sup>	3	90
Bachelor of Environmental Studies (Major, Major Co-op) <sup>1</sup>	4	120

<b>Geophysics</b>		
Bachelor of Science in Geological Sciences – Geophysics (Major) <sup>1</sup>	4	121
Bachelor of Science in Geological Sciences – Geophysics (Honours) <sup>2</sup>	4	121
<b>Footnotes:</b>		
<sup>1</sup> There is no time limit to complete the degree.		
<sup>2</sup> There is an eight-year time limit to complete the degree.		

## 1.2 Available Focus Areas and Streams

**Focus Areas** (Environmental Studies and Environmental Science): Conservation & Biodiversity, Environmental Assessment, Environmental Health, Toxicology, Land Systems, Natural Resource Management, Northern Studies, Policy & Law, Stewardship, Sustainable Building, Sustainable Development, Water Resources, Wildlife Management, and Individualized Study.

**Streams** (Physical Geography): Atmosphere and Hydrological Sciences, General Physical Geography, and Geomatics.

## SECTION 2: Admission to the Clayton H. Riddell Faculty of Environment, Earth, and Resources

### 2.1 Admission to the Clayton H. Riddell Faculty of Environment, Earth, and Resources

Admission information, rules, regulations and requirements are subject to change from year to year; those found in this publication are specific to the academic year for which it was written.

The following is a summary of the admission requirements. All admission requirements, as well as application deadline dates and forms, are included in the Clayton H. Riddell Faculty of Environment, Earth, and Resources Applicant Information Bulletin that is available from the [Admissions Office](#), Enrolment Services, 424 University Centre; this information is also posted on the University of Manitoba website.

Other than Direct Entry students, completion of a minimum of 24 credit hours of university level courses is required (see sections 2.3 to 2.7)

Faculty admission is determined on the basis of a 2.00 Cumulative Grade Point Average on a minimum of 24 credit hours of course work from a recognized institution. Note: For students completing the Bachelor of Arts in Geography, entry is based on a Degree Standards Table.

Degree programs may define additional entrance requirements and students are referred to the appropriate section of this *Chapter* for further details as follows:

**Section 5:** Bachelor of Arts in Geography Degree Regulations and Program Descriptions.

**Section 6:** Bachelor of Science in Physical Geography Degree Regulations and Program Descriptions.

**Section 7:** Bachelor of Environmental Science and Bachelor of Environmental Studies Degree Regulations and Program Descriptions.

**Section 8:** Department of Geological Sciences: Bachelor of Science in Geological Sciences - Geology, Geophysics, and General Degree Regulations and Program Descriptions.

Students must apply to be considered eligible for admission to the Riddell Faculty. Application information is available from the Admissions Office, Enrolment Services, 424 University Centre. This information is also available in the Riddell Faculty Dean's Office, 440 Wallace Building, and is posted on the University's website ([umanitoba.ca/admissions](http://umanitoba.ca/admissions)).

### 2.2 Direct Entry from Highschool

Eligible students may apply to enter the Clayton H. Riddell Faculty of Environment, Earth, and Resources upon completion of a high school diploma. Eligible students must meet the criteria listed in the Direct Entry Programs Bulletin.

For the most current admission requirements, refer to the Direct Entry Programs

Bulletin: [http://umanitoba.ca/admissions/media/direct\\_entry\\_bulletin.pdf](http://umanitoba.ca/admissions/media/direct_entry_bulletin.pdf)

### 2.3 Admission from University 1

University 1 students are encouraged to apply for admission to a degree program in the Clayton H. Riddell Faculty of Environment, Earth, and Resources once they have completed 24 credit hours of course work and have met the minimum entrance requirements of their intended degree program.

### 2.4 Admission as a Transfer Student

Students applying for admission from other recognized universities or colleges are called 'transfer students'. For the University of Manitoba's general policy on transfer of credit and advanced standing, refer to the Admissions website: [umanitoba.ca/admissions](http://umanitoba.ca/admissions).

To be eligible for admission to the Clayton H. Riddell Faculty of Environment, Earth, and Resources, transfer students must have completed no fewer than 24 credit hours of university level course work and satisfied the minimum performance requirements of the intended degree program.

Transfer students who have completed less than 24 credit hours must register in University 1 or Extended Education to complete the required credit hours of course work. Students with more than 24 credit hours who are not admissible to the Riddell Faculty should consider applying to Extended Education as their alternative choice.

Students on academic suspension as a result of work completed at another post-secondary institution or another Faculty will not normally be considered for admission to the Clayton H. Riddell Faculty of Environment, Earth, and Resources until the suspension has been served.

### Transfer of Credit

The University of Manitoba assesses transfer credit as a part of the application process. Assessment of prior course work for admissions or transfer credit will only take place after an application has been submitted. The University of Manitoba [transfer credit equivalencies database](#) is now available as a reference tool to look up current course assessments. Please take note of the guidelines outlined on the database access page as these course assessments are subject to change.

See the Admissions section of this Calendar. Courses completed at an external institution ten years prior to registration in the Clayton H. Riddell Faculty of Environment, Earth, and Resources are not considered for transfer of credit. Students should contact a [Riddell Faculty student advisor](#) regarding transfer credit.

University College of the North and the University of Manitoba Articulation Agreement NRM Technology Diploma (UCN)/ Bachelor of Environmental Science (U of M)

Graduates of the 2 Year Natural Resource Management Technology Diploma from University College of the North may apply for admission into the Bachelor of Environmental Science program in the Clayton H. Riddell Faculty of Environment, Earth, and Resources at the University of Manitoba. Successful applicants will be granted 60 credit hours on admission towards the completion of the 120 credit hour Bachelor of Environmental Science degree.

Students should contact a [Riddell Faculty student advisor](#) regarding more information.

### 2.5 Admission as a Visiting Student

Visiting students may apply for admission to the Clayton H. Riddell Faculty of Environment, Earth, and Resources on the basis of a [Letter of Permission](#) from the Registrar or appropriate Dean of her/his home institution. Certain restrictions may be placed on the kind and number of courses in which a student will be allowed to register. Visiting students may wish to contact a [Riddell Faculty student advisor](#) in the Faculty Dean's Office for further information.

### 2.6 Admission as a Second Degree Student

Students possessing a first degree from a recognized university program with a minimum Cumulative Grade Point Average of 2.00 on their first degree may be eligible for admission as a Second Degree student provided they have completed the minimum coursework entrance requirements for their intended degree program.

Second Degree requirements may be shortened by up to 60 credit hours and, once admitted, students will be expected to satisfy all continuation and graduation requirements in the degree program. Second Degree students are not required to satisfy the University Written English and Mathematics requirement. See a [Riddell Faculty student advisor](#) for specific information on degree requirements following completion of the first degree.

### 2.7 Admission as a Special Student (After Degree Students)

#### After Degree Special Student

Students who have successfully completed a first degree from a recognized university program with a cumulative Grade Point Average of 2.00 or better are eligible for admission as Special Students.

Prospective applicants who hold a previously completed degree may enroll in degree credit courses in the Faculty as a Special Student provided that they are not at the time interested in pursuing a degree. As noted in the university admission requirements (<http://umanitoba.ca/student/admissions/requirements/special-students.html>), such courses may subsequently be accepted as credit towards a degree, diploma or certificate at the discretion of program deans or directors.

### 2.8 Auditing Students

Students who wish to audit courses must have written permission from the instructor of the desired course before they can register. Auditing students must register in-person in their Faculty of registration. The Clayton H. Riddell Faculty of Environment, Earth, and Resources prohibits auditors from registering in courses until after the initial access period.

## SECTION 3: Degree Regulations and Services Applicable to all Programs in the Clayton H. Riddell Faculty of Environment, Earth, and Resources

### 3.1 Courses Offered in Other Faculties and Schools Acceptable for Credit in the Clayton H. Riddell Faculty of Environment, Earth, and Resources

Students who are registered in the Clayton H. Riddell Faculty of Environment, Earth, and Resources may take any course offered by another faculty or school for credit towards their degree, subject to permission from the department head (or designate) and/or a [Riddell Faculty student advisor](#).

### 3.2 Available Minors in Departments and Faculties

Students in the Bachelor of Arts Geography (Honours), Bachelor of Environmental Science, Bachelor of Environmental Studies, Bachelor of Science in Geological Sciences (Geology and Geophysics) and Bachelor of Science in Physical Geography degree programs may, if they wish, declare and complete a Minor from departments and interdisciplinary programs in which a Minor is offered. Students registered in the B.A. Geography (General; Advanced) and B.Sc. Geological Sciences (General) are required to complete a Minor prior to graduation. Students may not, however, declare both their Major and Minor from the same subject area. For example: a student in B.A. Geography program may not declare a minor in physical geography; a student in Environmental Science program may not declare a minor in Environmental Studies, etc.. Students can declare only one minor. For specific requirements to complete a Minor, please refer to the relevant Faculty/School's chapter in the Academic Calendar.

It should be noted that for Honours students any consideration of completing a Minor should be made early due to restricted opportunities in later years in their programs.

A Minor will normally consist of at least 18 credit hours, with a minimum of 12 credit hours being at the 2000-, 3000-, and 4000-levels (although there are some exceptions). Courses required in a student's specific degree program are acceptable for use in a chosen Minor, subject to the Riddell Faculty regulation stating that students may not declare both their Major and Minor from the same department or interdisciplinary program.

Students planning to enrol in the I.H. Asper School of Business [Management Minor] must consult a [Riddell Faculty student advisor](#) as enrolment in these minor programs is limited. The Management Minor consists of any 18 credit hours in courses offered by the Asper School of Business.

### 3.3 University Written English and Mathematics Requirement

Students are required to complete the University Written English and Mathematics requirement within their first 60 credit hours as outlined in the General Academic Regulations, Residence and Written English and Mathematics Requirements in this *Calendar*.

A list of all courses that satisfy the Written English and Mathematics requirements can be found in Approved English and Mathematics Courses of this *Calendar*. Course numbers of designated written English courses are marked with a 'W' and designated Mathematics courses are marked with an 'M'.

Students may wish to consider GEOG 2900W Geography of Canadian Prairie Landscapes (3), ENVR 2810W Environmental Critical Thinking and Scientific Research (3), GEOL 3130W Communication Methods in the Geological Sciences (3), and/or GEOG 3810M Quantitative Research Methods in Geography (3) to satisfy these requirements. In addition, the Department of Environment and Geography offers several courses annually through Distance Education that satisfy the 'W' requirement.

### 3.4 Science and Faculty of Arts Course Requirements

Students are required to take 6 credit hours from the Faculty of Arts and 6 credit hours of science coursework.

For course subjects taught by the **Faculty of Arts** refer to the Chapter [Faculty of Arts](#) for a complete listing.

Students may complete any combination of the courses listed below adding up to six credit hours to satisfy the 6 credit hours science requirement.

#### Clayton H. Riddell Faculty of Environment, Earth, and Resources

ENVR 1000, ENVR 2000

GEOG 1290, GEOG 1291, GEOG 2200, GEOG 2272, GEOG 2520, GEOG 2540, GEOG 2541, GEOG 2550, GEOG 2551, GEOG 2700, GEOG 2930, GEOG 3390, GEOG 3730

GEOL 1340, GEOL 1400, GEOL 1410, GEOL 1420, GEOL 2350, GEOL 2390, GEOL 2440, GEOL 2500, GEOL 2570, GEOL 3310

#### Faculty of Science

All courses offered by the Faculty of Science.

#### Faculty of Agricultural and Food Sciences

AGRI 1600

ENTM 1000, ENTM 2050

PLNT 1000, PLNT 2500

SOIL 3060, SOIL 3520, SOIL 3600

For course titles and descriptions see the relevant faculty entries in this *Calendar*.

### 3.5 Changes in Program Requirements

Once students have successfully completed any portion of a degree program, they will not be required to meet new course requirements subsequently stipulated for that portion of the program, whether the requirements be for the Faculty or for an individual degree program. Students are required to complete their program in its entirety as outlined in the *Calendar* effective upon the point of admission to the Faculty and program.

### 3.6 Prerequisite and Corequisite Courses

**Prerequisite:** Minimum grades of "C" are required in all courses listed as prerequisites, except as otherwise noted in the course descriptions published in each department and program section of this chapter. If a course is a prerequisite for a second course, the prerequisite must be met in order to continue in the second course.

Some course descriptions will indicate that a specific course is a pre- or corequisite for the course in which you wish to register. If you have not previously taken the specific course, you may register for it in the same term.

**Corequisite:** Where a course identifies another course as a corequisite, both courses must be taken at the same time.

### 3.7 Course Availability

All courses listed in this *Calendar* are not offered every year. Students are referred to the [Class Schedule](#) in Aurora for current information.

The Department of Environment and Geography offers numerous courses under the following course numbers: GEOG 3770 Special Topics in Geography (3), GEOG 4670 Selected Issues (3), GEOG 3740 Field Studies in Geography (6), GEOG 3750 Field Studies in Geography (3), GEOG 3760 Special Topics in Geography (6), ENVR 2010 Field Topics in Environment (1.5), ENVR 2020 Extended Field Topics in Environment (3), ENVR 3000 Multidisciplinary Topics in Environmental Science (3), ENVR 3010 Field Topics in Environmental Science 1 (1.5), ENVR 3020 Extended Field Topics in Environmental Science 1 (3), ENVR 4000 Multidisciplinary Topics in Environmental Science (3), ENVR 4010 Field Topics in Environmental Science 2 (1.5), and ENVR 4020 Extended Field Topics in Environmental Science 2 (3).

The Department of Geological Sciences offers a course under the following course number: *GEOL 4270 Advanced Studies in Earth Sciences (3)*. Students are referred to the [Class Schedule in Aurora](#) for current information.

### 3.8 Repeated Courses and Attempted Credit Hours

Clayton H. Riddell Faculty of Environment, Earth, and Resources students are subject to the University of Manitoba regulations (see [General Academic Regulations, Academic Evaluation, Repeating a Course](#) as described in this *Calendar*) and the Riddell Faculty degree regulations regarding eligibility to repeat a course. Repeating a course will not result in the removal of the first attempt and grade in that course from the student's record. The course will appear on the transcript as many times as it has been repeated. When a course has been repeated or an equivalent course is taken, only the attempt in which the highest grade was achieved shall be counted towards a student's degree. Grades from all course completions will be used in the calculation of the DGPA, TGPA and CGPA.

There is no limit to the number of credit hours permitted in the degree programs in the Faculty provided a student does not exceed the credit hour limit of failed courses stated for specific programs.

### Limited Access

#### Effective 2018 Winter Term - Limited Access in Effect

Limited Access is a registration rule that allows students who have never before completed, or voluntarily withdrawn, from a course (or its equivalent) the opportunity to register for the course before students who are repeating or have previously withdrawn from the course.

If a student has previously taken a course and received a final grade, or voluntarily withdrawn from the course (VW)\*, any future attempt to take that course or its equivalent is considered a repeated course.

\*A previous VW is only considered a repeat if the student voluntarily withdrew in Winter 2017 or later.

Effective Winter 2018, Limited Access will prevent a student from registering or placing themselves on the waitlist for a course (or equivalent) being repeated until the "Limited Access Term Expiry Date" has passed.

Limited Access applies for three consecutive terms following the term that the course in question was last completed or voluntarily withdrawn (VW).

During these three terms of Limited Access, a student may register to repeat a course, without permission, only when the Limited Access Term Expiry Date has passed.

Once the three terms of Limited Access has expired, any student wishing to repeat a course must request permission to do so from the Riddell Faculty Dean's Office prior to registration in order to register or place themselves on the waitlist for a course prior to the "Limited Access Term Expiry Date".

### 3.9 Voluntary Withdrawals

The responsibility for initiating withdrawals rests solely with the student. When eligible to do so, Voluntary Withdrawals must be done through Aurora Student. No withdrawals will be permitted after the deadlines posted in the [Academic Schedule](#).

There is currently no limit on the number of Voluntary Withdrawal hours a student can accumulate.

### 3.10 Authorized Withdrawals

Students who have valid and documented reasons for withdrawal, such as medical illness or compassionate circumstances, may be authorized to withdraw without penalty. Requests for authorized withdrawals must be submitted in writing to a [Riddell Faculty student advisor](#). The Office of Student Advocacy located at 520 University Centre (474-7423, [student\\_advocacy@umanitoba.ca](mailto:student_advocacy@umanitoba.ca)) is available to provide information and assistance.

### 3.11 Residence Requirement

Students are required to complete a minimum number of credit hours at the University of Manitoba. Students should refer to their degree program in the appropriate section for further information:

5: Bachelor of Arts in Geography Degree Regulations and Program Description and Courses Offered by

6: Bachelor of Science in Physical Geography Degree Regulations and Program Description and Courses Offered by

7: Bachelor of Environmental Science and Bachelor of Environmental Studies Degree Regulations and Program Descriptions and Courses Offered by

8: Department of Geological Sciences: Bachelor of Science in Geological Sciences - Geology, Geophysics, and General Degree Regulations and Program Descriptions and Courses Offered by

The courses used to satisfy the residence requirement must be acceptable for credit by the degree program in the Clayton H. Riddell Faculty of Environment, Earth, and Resources. Residence requirements apply to both first and second degree students.

### 3.12 Letter of Permission to Take Courses at Another University

Students wishing to complete courses at another institution for credit at this university must obtain written permission (Letter of Permission) from the Registrar's Office prior to registering at the other institution or no credit will be permitted. Any earned grades are transferred and form part of the degree Grade Point Average, when applicable. Students who register for courses elsewhere without a Letter of Permission must reapply to the Faculty.

Students who are on academic suspension may not elect courses at another institution for credit toward an Environment, Earth, and Resources degree at this university.

### Attendance at Other Institutions

Students who attend other post-secondary institutions without a Letter of Permission must reapply for admission to the Faculty before the application deadline and be academically competitive for admission. Similarly, students registered in the Clayton H. Riddell Faculty of Environment, Earth, and Resources may not be registered at another academic institution at the same time unless they are registered elsewhere on a Letter of Permission. The penalty for unauthorized or undisclosed attendance may be disciplinary withdrawal or academic suspension.

### 3.13 Dean's Honour List

A student's eligibility for the Dean's Honour List designation is evaluated after each term.

Students enrolled in a minimum of 12 credit hours of course work during a term and who achieve a term Grade Point Average of 3.50 or higher will be placed on the Dean's Honour List. The Dean's Honour List designation will appear on the student's transcript.

### 3.14 Academic Warning, Probation, Academic Suspension and Special Students (Academic Standing)

Students shall be evaluated after each academic term in which they receive a final grade in a minimum of 4 credit hours, with the assessment being based on the resulting Degree Grade Point Average (DGPA). This assessment will determine a student's academic standing to be: faculty minimum met, academic warning, on probation, suspension warning, or academic suspension.

### Degree Grade Point Average (DGPA)

The Degree Grade Point Average (DGPA) is computed from the final grades obtained in all courses attempted that are part of the degree requirements, including applicable courses transferred from other faculties and institutions. Where a course has been repeated or replaced by an approved substitution or equivalent course, all attempts shall be included in the computation.

### Faculty Minimum Met

To be in good standing, a student must achieve a 2.00 Degree Grade Point Average at each point of assessment and the notation 'Faculty Minimum Met' will be recorded on the student's transcript. Note: For students completing the Bachelor of Arts in Geography, Faculty Minimum Met is based on a Degree Standards Table found in section 5.2.2.

Degree programs may define additional performance requirements for continuation and graduation. Students are referred to the appropriate section of this Chapter for further details as follows:

- Section 5.3: Bachelor of Arts in Geography.
- Section 6.3: Bachelor of Science in Physical Geography.
- Section 7.3: Bachelor of Environmental Science and Bachelor of Environmental Studies.
- Section 8.3.1: Bachelor of Science in Geological Sciences - Major.
- Section 8.3.2: Bachelor of Science in Geological Sciences - Honours.
- Section 8.3.3: Bachelor of Science in Geological Sciences - General.

### Academic Warning

Students will receive an academic warning if, at the point of assessment following a term, s/he fails to achieve the required minimum performance level. The notation 'Academic Warning' will be recorded on the student's transcript.

### On Probation

Those who fail to meet the required minimum performance level following an Academic Warning assessment will be placed **on probation**. The notation 'On Probation' will be recorded on the student's transcript.

### Suspension Warning

Those who fail to meet the required minimum performance level following an On Probation assessment will be placed on **Suspension Warning**. The notation, 'Suspension Warning' will be recorded on the student's transcript.

### Academic Suspension

Those who fail to meet the required minimum performance level following a Suspension Warning assessment will be placed on **Academic Suspension for One Year**. The notation, 'Academic Suspension for One Year' will be recorded on the student's transcript. A student placed on academic suspension is not allowed to register in the Clayton H. Riddell Faculty of Environment, Earth, and Resources during the duration of the suspension.

A student will be placed on **academic suspension for two years** under the following circumstances:

- Upon return from one year suspension, the student fails to attain a 2.00 degree grade point average in the following two terms after the probationary assessment (see a [Riddell Faculty student advisor](#) for information).
- The Faculty calculates that it is mathematically impossible for the student to clear his/her probationary standing by the following assessment period.
- The student exceeds the maximum number of credit hours of failed courses.

The notation, 'Academic Suspension for Two Years', will be recorded on the student's transcript of marks. Those serving two-year suspensions are required to start the degree afresh should they choose to return to the Clayton H. Riddell Faculty of Environment, Earth, and Resources. Students may appeal for transfer of credit up to 30 credit hours in courses in which a minimum grade of 'C' was achieved.

Students should consult with a [Riddell Faculty student advisor](#) for further assistance in clearing their academic warning, on probation, suspension warning, or academic suspension academic standing.

### Special Students

Special students that have successfully completed at least 15 credit hours of course work in the Riddell Faculty will be notified by mail / email that given the extent of their studies to date, they are strongly encouraged to consider application to a degree, diploma or certificate program, perhaps through Extended Education or as a Second Degree Student.

- If 6 or more credit hours of coursework in the first 15 are failed course attempts (grades of F or D) students will receive notice by mail / email

encouraging them to seek guidance from the Academic Learning Centre and /or from Riddell Faculty student advisors.

Special students that have earned (includes earning F grades) 30 credit hours of course work in the Riddell Faculty will be notified by mail / email that given the extent of their studies that they must either transfer into a degree, diploma or certificate program, or should they wish to continue their studies as non-degree students, to enroll with Extended Education. Special Student status will not be granted by the Riddell Faculty past the 30 credit hour level.

### 3.15 Academic Misconduct

Academic misconduct is intentional cheating, fabrication, impersonation, or plagiarism. It is also knowingly helping or attempting to help others to be dishonest. Academic dishonesty lowers scholastic quality and defrauds others who will eventually depend on their own knowledge and integrity.

Plagiarism or any other form of cheating on examinations, term tests, or assignments is subject to academic penalty as serious as suspension or expulsion from the Faculty or University.

Students who are unsure of what constitutes academic misconduct should refer to the regulations in the *Chapter* General Academic Regulations, Academic Integrity: Plagiarism and Cheating in this *Calendar* and consult with your professor or instructor.

### 3.16 Termwork and Debarment

A student is responsible for the completion of laboratory work, assignments, tests and other class work as prescribed by the course syllabus. A student who does not meet termwork requirements to the satisfaction of the Associate Dean (Academic) will receive a warning to this effect. If this warning is ignored, a student may be debarred from the course. Any student debarred from a course receives an automatic grade of 'F' in that course.

### 3.17 Deferred (missed) Examinations

A student who is unable to write a final examination because of illness or other incapacity or compassionate reasons should contact a student advisor in the Clayton H. Riddell Faculty of Environment, Earth, and Resources. The appropriate documentation (i.e. a medical certificate or otherwise appropriate documentation certifying the reason for the missed exam) will be required. Students are reminded to contact their home faculty (and not the faculty through which the course is offered). Please see the [missed exam information](#) on the faculty website. For information on Incomplete Coursework, Deferred Examinations, Debarment, Academic Dishonesty, etc., refer to the *Chapter* General Academic Regulations in this *Calendar*.

A complete copy of the Deferred and Supplemental Examinations Procedures is available at [http://umanitoba.ca/admin/governance/governing\\_documents/academic/1299.html](http://umanitoba.ca/admin/governance/governing_documents/academic/1299.html)

It should in particular be noted that there are no Supplemental Examinations in the Clayton H. Riddell Faculty of Environment, Earth, and Resources.

### 3.18 Challenge for Credit

Some departments at the University of Manitoba offer courses by means of challenge of credit. Since the courses offered in this manner may vary from year to year, any student wishing to challenge a course for credit should contact a [Riddell Faculty student advisor](#) in the Clayton H. Riddell Faculty of Environment, Earth, and Resources general office. The [Academic Schedule](#) of this *Calendar* contains the relevant registration deadline dates appropriate to challenge for credit.

### 3.19 Appeals Involving Academic Regulations

The Student Appeals and Discipline Committee in the Faculty considers appeals from students who request special consideration with respect to the rules and regulations governing their degree program and qualifications for graduation.

Appeals should be addressed to: [Student Advisor](#), Secretary Student Appeals and Discipline Committee, General Office, Clayton H. Riddell Faculty of Environment, Earth, and Resources, 440 Wallace Building.

### 3.20 Riddell Faculty Student Advisor Office Hours

Monday through Friday: 9:00 a.m. to 4:00 p.m.

Email: [Riddell.Faculty@umanitoba.ca](mailto:Riddell.Faculty@umanitoba.ca)

Students may schedule an appointment with an Academic Advisor here: <https://riddellappointments.setmore.com>.

### 3.21 Student Responsibility & Application to Graduate

It is your responsibility to be familiar with the regulations, courses, and graduation requirements of your degree program. You are advised to review the appropriate sections of this *Calendar* carefully when selecting your courses to ensure compliance with degree program requirements. If you are not sure of how regulations and requirements apply to your case, please consult a [Riddell Faculty student advisor](#). Since a complete graduation check is not done until you have declared your intention to graduate, you are encouraged to make an appointment with a [Riddell Faculty student advisor](#) prior to your initial registration access date to confirm you are meeting the degree requirements. Ultimately you are responsible to ensure compliance with degree program requirements.

Every candidate for a degree must make a formal application at the beginning of the term in which they expect to complete graduation requirements, before the last date of the registration revision period.

Undergraduate students need to declare their intent to graduate. This can be done on-line through Aurora. (Log into Aurora, select "Enrolment and Academic Records", select "Declarations", and follow the instructions. If the date you wish to graduate does not appear, you will need to contact a Student Advisor in the Dean's Office, 440 Wallace, for assistance; you may have missed the online application deadline)

**Note:** While we welcome the opportunity to assist you, it is important for you to realize that it is your responsibility to be familiar with university and Riddell Faculty academic regulations and registration procedures as they are described in this calendar.

### 3.22 Maximum Number of Courses During a Term

You may attempt a maximum of 15 credit hours in any one term unless otherwise stipulated by your program. If you wish to exceed the normal load you may apply in-person at the Faculty Dean's Office, or complete the [Application to Exceed Credit Hours](#) form available on the Riddell Faculty web page ([umanitoba.ca/environment/undergraduate](http://umanitoba.ca/environment/undergraduate)).

### 3.23 Time Away from the Clayton H. Riddell Faculty of Environment, Earth, and Resources

#### Have you been away for a While?

Have you attended any other post-secondary institution or another Faculty at the U of M since your last registration in the Riddell Faculty?

If your answer to the above question is **no**, then you follow these procedures:

Former Riddell Faculty students that have not registered in courses for more than one calendar year and have not attended any other post-secondary institution or faculty at the University of Manitoba will contact a Riddell Faculty student advisor to complete and submit the Request for Permission to Re-Register form to have their record reactivated.

Former Riddell Faculty students previously placed on academic suspension may not re-register until they have served their term of suspension. Upon completion of their suspension, students must contact a Riddell Faculty student advisor in order to have their records updated and activated.

If you answered **yes** to the above question and you have attended another post-secondary institution or another Faculty at the U of M since your last registration in the Riddell Faculty, you follow these procedures:

Students who have registered in another Faculty or School at the University of Manitoba since their last registration in the Riddell Faculty must apply through the Admissions Office in accordance with the application deadlines and be readmitted before they are eligible to register in the Riddell Faculty again.

Students who have attended another university or institution since their last registration in the Riddell Faculty must apply through the Admissions Office in accordance with the application deadlines and be readmitted before they are eligible to register in the Riddell Faculty again.

- This does not apply to Riddell students who have taken courses at another university or college on the basis of a Letter of Permission granted by this university.

#### Admitted to the Riddell Faculty - but Never Registered

Students previously admitted to the Riddell Faculty that did not register in the Riddell Faculty in the term of admission must re-apply to the Riddell Faculty if they wish to register as a student in the Riddell Faculty.

## SECTION 4: Department of Environment and Geography

Head: Mark Hanson

Campus Address/General Office: 220 Sinnott Building

Email Address: [environment\\_geography@umanitoba.ca](mailto:environment_geography@umanitoba.ca)

Telephone: (204) 474-9667

Fax: (204) 261-0038

Website: [umanitoba.ca/environment/departments/geography](http://umanitoba.ca/environment/departments/geography)

### 4.1 Academic Staff

Please refer to the Clayton H. Riddell Faculty of Environment, Earth, and Resources [Academic Staff](#) website.

### 4.2 Undergraduate Programming in the Department of Environment and Geography

The fields of study in this department can be divided into four overlapping areas: environmental sciences, environmental studies, human geography and physical geography. These areas are built on a diverse range of academic frameworks or foundations, including: natural, physical and social sciences, education, law, agriculture, management, medicine, humanities and architecture.

Environmental Science applies scientific knowledge from many disciplines to issues and questions relating to an increasing human population, the sustainability of resource use, degradation caused by pollution and

disturbance, and the endangerment and extinction of species and natural systems. Environmental Studies applies the theory and practice of group and organizational communication, understanding public policies and programs that underscore environmental concerns, and the need to integrate diverse social, institutional, political and legal considerations inherent in attaining environmental objectives. (Students have the opportunity to focus advanced studies in one of several areas, defined through consultation with a [Riddell Faculty student advisor](#).)

"Human Geography examines how people have been influenced by the environment and how, in turn, they have left their mark on the environment," Dr. Daniel Todd, Human Geographer. Students may choose to focus their studies into one of several areas including Human-Environment Relations, Urban and Rural Development, Social Cultural Geography, Population, Resources and Development, and Area Studies.

Areas of physical geography include the study of the environment through aspects of atmospheric science, geomatics, biogeography, and hydrology. Streams are currently available in *Atmospheric and Hydrological Sciences*, *Geomatics* (an emerging subfield, referring to the techniques of spatial data acquisition, handling and analysis) and *Physical Geography*.

Potential careers for graduates of these programs include a diverse array of possibilities in the natural sciences, social sciences, or a combination of both. Graduates are poised to assume positions where they identify and analyze the local, regional, national, and global patterns that shape our lives. As well, technical skills such as geographic information systems and remote sensing are demanded in several of the environmental sectors. Graduates of these programs can expect to enter the workforce in private, government, research, or not-for-profit sectors.

#### 4.3 Cooperative Education Option

A [Cooperative Education Option](#) is available to students registered in either the Major or Honours degree programs in Environmental Science, Environmental Studies, or Physical Geography. Coop is an arrangement whereby students spend alternating periods in university and employment. There are several advantages to a cooperative education program for students. One benefit is that students are able to acquire both theoretical knowledge and practical experience. This experience assists them in selecting areas of specialization for their senior courses in their chosen Focus Area or Stream. As well, Coop assists students in their professional development by enhancing networking opportunities, participation in conferences and workshops and provides the foundation of skills and strategies required in searching and acquiring employment after graduation. Students can also defray some of the costs of their university education through these work term placements. Further information about Cooperative Education and student eligibility is available from the [Coop Placement Coordinator](#) available in the Faculty general office.

Students electing to participate in the Cooperative Education Option will be assessed a program fee with their formal admission into the program. Once a student has accepted a position with a Coop employer, no portion of the program fee will normally be refunded.

The Cooperative Education Option consists of two employment work terms, each over a minimum period of four months, and contributes 6 credit hours towards the four year degree program. Students complete ENVR 2900 Professional Development 1 (1.5), ENVR 3900 Professional Development 2 (1.5), work term placements ENVR 3980 Work Term 1 (0), ENVR 3990 Work Term 2 (0), and the work term report courses ENVR 3910 Work Term Report 1 (1.5) and ENVR 3920 Work Term Report 2 (1.5). Additional work terms are available to interested students. Each academic term and each employment term commence in January, May or September. While on an employment term, a Cooperative Education Option student is not permitted to take more than three additional credit hours of academic

work outside of the requirements of the Coop placement without permission of a [Riddell Faculty student advisor](#).

Students are required to register in the appropriate Coop courses and pay course fees prior to beginning their placement.

For more information, please visit the [Riddell Faculty Co-operative Education Program](#) webpage.

## SECTION 5: Bachelor of Arts in Geography Degree Regulations, Program Description and Courses Offered by

Head: Mark Hanson

Campus Address/General Office: 220 Sinnott Building

Website: [environment\\_geography@umanitoba.ca](mailto:environment_geography@umanitoba.ca)

Telephone: (204) 474-9667

Fax: (204) 261-0038

### 5.1 Program Information

There are three broad areas where students can focus their course work in the B.A. in Geography program: *Resources, Environment and Society (RS)* focuses on the geographies of natural and human induced environmental processes in the recognition that current environmental change shapes relationships across all scales of society; *Global Politics, Justice, and Sustainability (GPS)* a global scale, integrated assessment of the links between the economic, socio-cultural, ecological and political systems that combine to shape the world in which we live; and *Culture, Identity and Space (CIS)* which emphasizes the dynamics between identity, culture and landscapes, with a particular focus on cooperation and conflict that produce local landscapes. These areas reflect the expertise of the department and are not required for students in the program. A guide to these areas, and the courses that align with them, is published by the department.

The attraction of Geography as a discipline lies in its diverse interests and approaches to knowledge building while being centred on the fundamental concepts of human-environment relations, location/place and space/ distance. Geographers see the world and want to know how physical processes and systems shape the land, air, water, flora and fauna around them and how these are influenced by human activity. We want to know how human societies, cultures, and economies work and how these human systems are interdependent with each other and with natural systems. We work at a variety of geographic scales, from the micro-scale of local communities and regions, through the macro-scale of global human and physical systems. Human geography embraces the study of topics as wide-ranging as: human-environment relationships, globalization, social justice, attachment to place, recreation and tourism, climate change, and geopolitics. Therefore, by selecting courses from within the department, as well as complementary courses from other academic units of the Faculty and University, students can develop fascinating, focused and challenging degree programs that will prepare them for careers in a variety of areas.

The General B.A. degree in Geography (90 credit hours, 30 in Geography) provides students with a basic level of understanding of the discipline and its inter-relationships. **This degree is also a useful consideration for students planning to complete the After-Degree Bachelor of Education program (see the [Faculty of Education](#) chapter of this *Calendar*).** The General degree program may be completed entirely by Distance Education.

The Advanced B.A. degree program in Geography (120 credit hours, 51 in Geography) provides opportunities for students who desire a broad geographical education along with a significant degree of specialization in a particular field of Geography.

Students planning a professional career, graduate school or a high degree of specialization in Geography are strongly advised to enter the Honours B.A. degree program (120 credit hours, 69 in Geography). The Honours degree demands the highest scholastic performance of all programs available. Students are strongly advised to enter an Honours degree program with their admission to the Bachelor of Arts in Geography. Consultation with the department head and Faculty academic advisors is also recommended.

### Structure of the B.A. Geography Degree Program

The structure of the B.A. Geography degree is summarized as follows:

A **Geography (Major)** component that varies in credit hour requirement depending on the degree program; 30 credit hours in the General; 51 credit hours in the Advanced; and 69 credit hours in the Honours. Students are not permitted to declare a second major.

Advanced and General degree students must complete a **Minor** in a subject field that is different than that of the declared major. Honours degree students may, if they choose, complete a Minor in a subject field that is different than that of the declared major. The minor may be chosen from one of the other programs in the Clayton H. Riddell Faculty of Environment, Earth, and Resources or any program at the University that offers a Minor. Students in the B.A. Geography are not permitted to complete a Minor in Physical Geography. The Minor requirements are described in [section 3.2](#) of this *Chapter*. Contact a [Riddell Faculty student advisor](#) in the Faculty Dean's Office for further information about eligible Minors.

Students must complete 5 subject fields with 6 credit hours in each (30 credit hours). For example: 6 credit hours in Geography, plus 6 credit hours in Mathematics, plus 6 credit hours in Geological Sciences, plus 6 credit hours in Anthropology, plus 6 credit hours in Native Studies.

Students must also complete 6 credit hours from Humanities, and 6 credit hours offered by the Faculty of Arts, and 6 credit hours of science courses (see section 3.4).

**Note:** Students can satisfy the requirement for Humanities, and/or Arts, or science and at the same time satisfy the Written English or Mathematics requirement and one of the 5 subject fields required with the same 6 credit hours of courses.

#### *Humanities*

For course subjects taught by the Faculty of Arts that can be used towards the Humanities requirement, refer to the *Chapter* for the [Faculty of Arts, Additional Faculty Regulations and Policies section](#). Music (i.e. all courses listed for Advanced Major and Minor programs except ensemble courses) and History of Art (i.e. all courses listed with course prefix FAAH) may also be eligible courses. Students should see a [Riddell Faculty student advisor](#) for further information.

### B.A. in Geography (General): Academic Regulations

To qualify for the degree Bachelor of Arts in Geography (General), students must complete 90 credit hours including: all course requirements; a chosen minor field; the requirements in the five subject fields; and areas of Humanities, Arts, and sciences. As well, students must satisfy the Riddell

Faculty regulations outlined in [section 3](#) of this *Chapter*. Minimum performance requirements include passing grades ('D' or better) in each course and a minimum degree Grade Point Average of 2.00 on Geography courses as well as the 90 credit hours that constitute the degree. Students cannot exceed 48 credit hours of failed courses.

### B.A. in Geography (Advanced): Academic Regulations

To qualify for the Bachelor of Arts in Geography (Advanced) degree, students must complete 120 credit hours including: all course and performance requirements; a chosen minor field; the requirements in the five subject fields; and areas of Humanities, Arts, and sciences. As well, students must satisfy the Riddell Faculty regulations outlined in section 3 of this *Chapter*. Minimum performance requirements include passing grades ('D' or better) in each course and a minimum degree Grade Point Average of 2.00 on Geography courses and the 120 credit hours that constitute the degree. Students cannot exceed 18 credit hours of failed courses.

### B.A. in Geography (Honours): Academic Regulations

To qualify for the Bachelor of Arts in Geography (Honours) degree, students must complete 120 credit hours including: all course and performance requirements; the requirements in the five subject fields, and the areas of Humanities, Arts and sciences. As well, students must satisfy the Riddell Faculty regulations outlined in section 3 of this *Chapter*. Minimum performance requirements include passing grades ('D' or better) in each course and a minimum degree Grade Point Average of 3.00 on Geography courses and the 120 credit hours that constitute the degree. Students cannot exceed 18 credit hours of failed courses.

## 5.2 Advanced Entry Requirements

Students are required to attain a minimum degree Grade Point Average of 2.00 based on the Degree Standards Table in Section 5.2.2 to be eligible for admission to the B.A. in Geography. Students who are admitted will be placed in the General degree program. Students may be eligible for transfer to either the Advanced or Honours degree program provided they satisfy the entrance requirements defined below in 5.2.1. To enter the Advanced or Honours degree program, a student must consult with a [Riddell Faculty student advisor](#) in the Faculty Dean's Office.

5.2.1 Advanced Entry Requirements				
Degree Program in B.A. Geography	Minimum Number of Credit Hours	Minimum Degree Grade Point Average	Maximum Credit Hours of Failed courses	Additional Entrance Requirements
Honours	24	3.00	18	grade of 'B' from GEOG 1280, GEOG 1290 <sup>2</sup> and/or GEOG/GPE 1700 or a GPA of 3.00 or better in all Geography courses
Advanced	24	2.00	18	grade of 'C' from GEOG 1280, GEOG 1290 <sup>2</sup> and/or GEOG/GPE 1700
General	24	2.00 <sup>1</sup>	48	grade of 'C' from GEOG 1280, GEOG 1290 <sup>2</sup> and/or GEOG/GPE 1700

<sup>1</sup>Minimum Grade Point Average for entrance into the General degree program is determined using the Degree Standards Table in 5.2.2.

<sup>2</sup> GEOG 1281 and GEOG 1291 may be used in lieu of GEOG 1280 and GEOG 1290, respectively.

### 5.2.2 Grade Point Average Calculation for Entrance and Continuation

General degree students in the B.A. Geography must attain a minimum 2.00 Grade Point Average at each point of assessment. The Degree Standards Table listed below is used to determine a student's eligibility for admission to the Riddell Faculty as well as evaluate a student's performance after each term.

5.2.2 Degree Standards Table	
Credit hours	Minimum Degree GPA
24-30	1.80
33-45	1.85
48-60	1.90
63-75	1.95
78-90	2.00
93+ hours	2.00

### 5.3 Minimum Performance Requirements

A student's academic performance is assessed first with his/her application for admission to the Riddell Faculty and then following each *term* in which the student is registered in more than 4.0 credit hours. To be in **good standing** and permitted to continue in a degree program, a student must achieve the minimum standards outlined for his/her degree program at each point of assessment. For General degree students, this includes the Degree Standards Table outlined in 5.2.2, as well as the requirements outlined in 5.3.1. Students in the Advanced and Honours degrees are required to satisfy the requirements listed in 5.3.1. Minimum academic performance is based on the degree Grade Point Average and number of failed courses. Prior to each registration, Advanced and Honours degree students must have their course selections approved by a [Riddell Faculty student advisor](#). Students may not make any subsequent changes without receiving prior written permission.

To graduate with a B.A. Geography with the intended degree designation, a student must achieve the minimum performance standards and graduation requirements outlined in 5.3.1. following their last term of registration and satisfy all faculty and degree requirements in Geography as defined in sections 5.3.1. and 5.5 of this Chapter.

Students in the Honours and Advanced degree programs who do not meet these minimum performance requirements will be withdrawn from their existing program and placed in the Advanced and General degrees respectively. Students who do not meet the minimum performance requirements for the General degree program will receive an academic warning, be placed on probation or academic suspension as defined in section 3.14 Academic Warning, Probation, Academic Suspension and Special Students (Academic Standing) in this Chapter. Students withdrawn from the Honours degree program may be eligible to enter the Advanced program and are required to obtain permission from a [Riddell Faculty student advisor](#).

Students withdrawn from the Honours degree program will have the notation, 'Required to Withdraw from the Honours Program', recorded on

their transcript. Similarly, students withdrawn from the Advanced program will have the notation, 'Required to Withdraw from the Advanced Program', recorded on their transcript.

### 5.3.1 Minimum Performance Requirements for Continuation and Graduation

Degree Program (Cr. Hrs.)	Minimum Performance Requirements		Additional Graduation Requirements		
	Minimum Degree Grade Point Average (DGPA)	Maximum Cr. Hrs. Failed Courses	Minimum Degree GPA in Geography Courses <sup>3</sup>	Geography Courses Cr. Hr. Requirement (see 5.5 also)	Residence Requirement (Cr. Hrs.) (see section 3.11 also)
Honours <sup>2,1</sup> (120)	3.00	18	3.00	69	60
Advanced <sup>1,2,3</sup> (120)	2.00	18	2.00	51	60
General <sup>2</sup> (90)	2.00 see 5.2.2 for continuation	48	2.00	30	48 cr. hrs. total or the final 30 cr. hrs.

<sup>1</sup>The courses required in this program may satisfy the university mathematics requirement and the science course requirement, if selecting SOC 2290.

<sup>2</sup> Within the first 60 credit hours of courses, students must have completed 6 credit hours in each of 5 subject fields (totalling 30 credit hours). See section 5.1 for details.

<sup>3</sup> General and Advanced degree students are required to maintain a Degree Grade Point Average of 2.00 on the courses defining their Geography Major. Note: Students must complete all prerequisite courses with minimum 'C' grades.

### 5.4 Graduating with Distinction or First Class Honours

#### With Distinction

Students graduating with a B.A. Geography (General) degree will have their degree granted 'With Distinction' if they have a minimum degree Grade Point Average of 3.80 and provided a minimum of 60 credit hours of acceptable course work is completed at the University of Manitoba.

Students graduating with a B.A. Geography (Advanced) degree will have their degree granted 'With Distinction' if they have a minimum degree Grade Point Average of 3.80 and provided a minimum of 90 credit hours of acceptable course work is completed at the University of Manitoba.

#### First Class Honours

Students in the Honours program will have their degree granted with 'First Class Honours' if they have a minimum degree Grade Point Average of 3.80 and provided a minimum of 90 credit hours of acceptable course work is completed at the University of Manitoba.

### 5.5 B.A. Geography Program Chart

5.5 B.A. Geography <sup>1</sup>			
YEAR 1	YEAR 2	YEAR 3	YEAR 4
<b>HONOURS<sup>2</sup> 120 CREDIT HOURS (69 credit hours in Geography)</b>			
6 credit hours from GEOG 1280, GEOG	6 Credit hours from GEOG 2520, GEOG 2640	GEOG 3730 <sup>5</sup>	GEOG 4660

1290 <sup>3</sup> and/or GEOG 1700	and/or GEOG 2870	3 credit hours from ENVR 2810 <sup>6</sup> , WOMN 3000 <sup>7</sup> , SOC 2290 <sup>7</sup> , ANTH 3930 <sup>7</sup>	18 credit hours in Geography courses numbered at the 4000- level
6 credit hours of Humanities <sup>4</sup>	12 credit hours in Geography courses numbered at the 2000- or 3000-level	18 credit hours in Geography courses numbered at the 2000- or 3000-level	6 credit hours of electives
18 credit hours of electives	12 credit hours of electives	6 credit hours of electives	

The W and M requirements must be completed within the first 60 credit hours.

**ADVANCED<sup>2</sup> 120 CREDIT HOURS (51 credit hours in Geography)**

6 credit hours from GEOG 1280, GEOG 1290 <sup>3</sup> and/or GEOG 1700	6 Credit hours from GEOG 2520, GEOG 2640 and/or GEOG 2870	GEOG 3730 <sup>5</sup> 3 credit hours from ENVR 2810 <sup>6</sup> , WOMN 3000 <sup>7</sup> , SOC 2290 <sup>7</sup> , ANTH 3930 <sup>7</sup>	12 credit hours in Geography courses numbered at the 4000- level
6 credit hours of Humanities <sup>4</sup>	12 credit hours in Geography courses numbered at the 2000- or 3000-level	6 credit hours in Geography courses numbered at the 3000-level	6 additional credit hours in Geography at the 2000-level or above
18 credit hours of electives	12 credit hours of electives	18 credit hours of electives	12 credit hours of electives

The W and M requirements must be completed within the first 60 credit hours.

**GENERAL<sup>8</sup> 90 CREDIT HOURS (30 credit hours in Geography)**

6 credit hours from GEOG 1280, GEOG 1290 <sup>3</sup> and/or GEOG 1700	12 credit hours in Geography courses numbered at the 2000-level	12 credit hours in Geography courses numbered at the 3000- and/ or 4000- level	
6 credit hours of Humanities <sup>4</sup>	18 credit hours of electives	18 credit hours of electives	
18 credit hours of electives			

The W and M requirements must be completed within the first 60 credit hours. Note: 30 credit hours, with 6 credit hours in each of 5 subject fields, must be completed in the first 60 credit hours.

**MINOR 18 CREDIT HOURS**

6 credit hours from GEOG 1280, GEOG 1290 and/or GEOG 1700	6 credit hours in Geography courses numbered at the 2000-level	6 credit hours in Geography courses numbered at the 3000-level	
---	--	--	--

**NOTES:**

<sup>1</sup>Equivalent courses offered through Université de Saint-Boniface may be used in lieu of the specified courses identified in the degree program chart.

<sup>2</sup>Entrance into the Honours and Advanced degree programs is summarized in [5.2.1](#).

<sup>3</sup>GEOG 1290 satisfies 3 of the required 6 credit hours of science courses. Students in the Honours or Advanced degree programs will satisfy the science requirement via other required course work. Students in the General degree selecting this course must complete an additional 3 credit hours of science courses. General degree students electing GEOG 1280 or GEOG 1700 must complete 6 credit hours from science courses.

<sup>4</sup>May also satisfy the Faculty of Arts requirement.

<sup>5</sup>Students wishing to transfer from the General to the Advanced or Honours degree program are permitted to take GEOG 3730 in either third or fourth year.

<sup>6</sup>The former GEOG 2530 may be used in lieu of ENVR 2810.

<sup>7</sup>In order to register in these courses, students must have fulfilled the prerequisites.

<sup>8</sup>Entry into the General degree program is summarized in [5.2.1](#) and [5.2.2](#).

**Notes:**

- To fulfil prerequisite requirements, a grade of "C" must be achieved, unless otherwise stated, in any course stipulated as a prerequisite to a further course.
- Students should review the current course topics available through GEOG 3740 (6), GEOG 3750 (3), GEOG 3760 (6), GEOG 3770 (3) and GEOG 4670 (3). Also, all courses are not offered every year or every term. The course schedule for the current academic term is available from the [Class Schedule in Aurora](#).
- Students registering in certain courses may be required to participate in field trips or field components and pay a portion of the associated expenses. For details, contact the [Department of Environment and Geography](#) general office.

**5.6 Systematic (HS, PS, TS) and Area Studies (A) Courses**

Courses numbered at the 2000- and 3000-level are arranged into Systematics (PS- Physical Geography, HS- Human Geography, TS- Techniques) and Area Studies (A).

Courses offered for the current academic term are published in the Class Schedule in Aurora and can be searched by Attribute Type. To find Systematic (HS, PS, TS) courses search: 'Geography: Human', 'Geography: Physical' or 'Geography: Techniques'. To find Area Studies (A) courses search: 'Geography: Area Studies'.

**5.7 Environment, Earth, and Resources Course Description**

**EER 1000 Earth: A User's Guide 3 Cr. Hrs.**

This course will present a multi-disciplinary introduction to the Planet Earth as both the source of essential resources and as the site of resulting negative impacts. Focus in the course will be provided by addressing important and current topics, case studies, and concepts that the well-educated citizen of the Earth should understand and will include natural and human-induced processes within a broad range of spatial and temporal scales.

**5.8 Geography Course Descriptions 1000 level**

**GEOG 1280 Introduction to Human Geography 3 Cr. Hrs.**

This course studies aspects of the human world: population, settlement and resources. Not to be held with GEOG 1200 or GEOG 1201, or GEOG 1281.

**GEOG 1290 Introduction to Physical Geography 3 Cr. Hrs.**

This course studies aspects of our physical environment: climate, landforms, soils and vegetation. Not to be held with GEOG 1291 or GEOG 1200 or GEOG 1201.

**GEOG 1700 Social Justice in the 21st Century: Global Political Economy and Environmental Change 3 Cr. Hrs.**

Introduces students to political economy and cultural geography through the close analysis of contemporary world events, including but not limited to instances of violent conflict, environmental change, international negotiations, political processes and events, social movements, and policy developments. A multimedia approach will advance students' understanding of geopolitical events from political economy and spatial perspectives. Specific content of the course will change year-by-year in response to developments in national and world politics. Also offered by the Faculty of Arts as GPE 1700. Students may not hold credit for both GPE 1700 and GEOG 1700.

**5.8 Geography Course Descriptions-2000 Level****GEOG 2200 Introduction to Thematic Cartography (TS) 3 Cr. Hrs.**

(Lab Required) An introduction to the principles of map compilation and reproduction, including analysis and cartographic display of spatially referenced data. Emphasis will be placed on cartographic data manipulation, generalization, and symbolization, map design, visualization and communication. Not to be held with GEOG 2221. Prerequisite: a grade of C or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

**GEOG 2272 Natural Hazards (PS) 3 Cr. Hrs.**

Environmental hazards to human settlement and economy are examined with particular attention to meteorological, soil erosion, mass wasting, earthquake and volcanic phenomena. Not to be held with GEOG 2440. Prerequisite: a grade of C or better in one of GEOG 1290, GEOL 1340, or GEOL 1410, GEOG 1291, GEOG 1200, GEOG 1201, GEOL 1360 or permission of department head.

**GEOG 2300 Atmospheric Thermodynamics, Clouds and Precipitation (PS) 3 Cr. Hrs.**

Critical thermodynamic processes are discussed that are associated with the Earth's atmosphere including dry and moist processes, phases of water, stability, cloud development and precipitation processes. Prerequisites: (GEOG 1290 or GEOG 1291 (C), or (GEOG 1200) or GEOG 1201 (C)), and (MATH 1500 or MATH 1501 (C), or MATH 1510 (C), or MATH 1520 (C), or MATH 1530 (C)).

**GEOG 2310 Introduction to Process Hydrology (PS) 3 Cr. Hrs.**

This course introduces students to the near-surface components of the hydrological cycle, including the processes of precipitation, evaporation, water-biosphere interactions, infiltration, overland and stream flow. Prerequisites: (GEOG 1290 or GEOG 1291 (C), or (GEOG 1200) or GEOG 1201 (C)), and (PHYS 1020 or PHYS 1021 (C), or PHYS 1050 or PHYS 1051 (C), or MATH 1500 or MATH 1501 (C), or MATH 1510 (C), or MATH 1520 (C), or MATH 1530 (C)), or permission of department head.

**GEOG 2330 Place, Populations and Mobility: Geographic Perspectives (HS) 3 Cr. Hrs.**

An examination of the factors controlling the number and distribution of human population. Variations in fertility, mortality and mobility will be analyzed and the causes and consequences reviewed. Not to be held with GEOG 2480. Prerequisite: a grade of C or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

**GEOG 2372 Geography of Tourism (HS) 3 Cr. Hrs.**

This course examines the social, economic and environmental dimensions of tourism and recreation. Historical and contemporary experiences from around the world will be studied. Not to be held with GEOG 2410.

Prerequisite: a grade of C or better in (GEOG 1200) or GEOG 1280, or permission of department head.

**GEOG 2520 Geography of Natural Resources (HS) 3 Cr. Hrs.**

An introduction to the basic concepts of the subject and the distribution of resources. Stress will be placed on Canadian resources and resource requirements but examples from other resource systems will also be used. Prerequisite: a grade of C or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

**GEOG 2540 Weather and Climate (PS) 3 Cr. Hrs.**

This half-course examines the nature, controls, and observations of weather and the variation of climate in time and space. Prerequisite: a grade of C or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

**GEOG 2550 Geomorphology (PS) 3 Cr. Hrs.**

This half-course surveys a broad array of landforms in the world and the geomorphic processes responsible for their creation. Attention is strongly focused on those landform processes originating at the earth's surface. Prerequisite: (GEOG 1200) or GEOG 1201 (C), or GEOG 1290 or GEOG 1291 (C), or permission of department head.

**GEOG 2570 Geography of Canada (A) 3 Cr. Hrs.**

A regional study of Canada in which the major regions of Canada are studied with respect to geographical patterns of their physical environment, settlement, culture, economic activity, and land use. Not to be held with GEOG 2560, GEOG 2561 or GEOG 3431. Prerequisite: a grade of C or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

**GEOG 2580 Geography of the United States (A) 3 Cr. Hrs.**

A regional study of the United States in which the major regions of the United States are studied with respect to geographical patterns of their physical environment, settlement, culture, economic activity, and land use. Not to be held with GEOG 2560, GEOG 2561. Prerequisite: a grade of C or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

**GEOG 2630 Geography of Culture and Environment (HS) 3 Cr. Hrs.**

An introduction to the cultural geographic study of environment, focusing on the evolution of landscape, the creation of regions, and human relationships with nature. Prerequisite: (GEOG 1200) or GEOG 1201 (C), or GEOG 1280 or GEOG 1281 (C), or permission of department head.

**GEOG 2640 Geography of Culture and Inequality (HS) 3 Cr. Hrs.**

An introduction to the cultural geographic study of human and place inequalities, focusing on behaviour in landscape, group differences, and human identities. Prerequisite: (GEOG 1200) or GEOG 1201 (C), or GEOG 1280 or GEOG 1281 (C), or permission of department head.

**GEOG 2700 Introduction to Arctic System Science 3 Cr. Hrs.**

This course introduces students to the various components of the Arctic system, including the terrestrial and marine environments, polar atmosphere, biological and chemical oceanography. Prerequisite: GEOG 1290 or (GEOG 1291)(C), or GEOG 1200 or (GEOG 1201)(C) or ENVR 1000 (C) or GEOL 1340 (C).

**GEOG 2870 Introduction to Economic Geography (HS) 3 Cr. Hrs.**

This course introduces the field of economic geography, paying particular attention to the historical, environmental and spatial dimensions that shape the global economy and current economic order, including: wealth and poverty, production patterns and commodity chains, consumption and retail processes; natural resources; the state's role in economic governance; global labour; and the ways in which economic structures and processes shape gender and ethnicity. Course materials will be global in scope but will provide both a macro- and microeconomic perspective. May not be held with the former GEOG 2210 or GEOG 2211. Prerequisite: a minimum grade of C in a course in Geography at the 1000 level.

**GEOG 2900 Geography of Canadian Prairie Landscapes (A) 3 Cr. Hrs.**

This course introduces students to the various geographical themes, concepts and processes within the context of the natural and anthropogenic development of the Canadian prairie region. It traces the evolution of the prairie landscape. It will focus on academic writing in the discipline. Not to be held with GEOG 2450. Prerequisite: a grade of C or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

**GEOG 2930 Introduction to Oceanography 3 Cr. Hrs.**

This course provides an introduction to the physical, chemical, biological and geological processes in the world oceans and their interactions with the overall Earth system. This course is interdisciplinary, applying geological, chemical and biological processes to the study of the world's oceans. Prerequisite: A minimum grade of "C" in GEOG 1290 (or GEOG 1291) or GEOG 1200 (or GEOG 1201) or ENVR 1000 or GEOL 1340.

**5.8 Geography Course Descriptions-3000 Level**

**GEOG 3200 Introduction to Remote Sensing (TS) 3 Cr. Hrs.**

(Lab Required) The course is an introduction to the principles of optical, active and passive microwave remote sensing. A review of satellite and sensors and their geographic applications will be presented, along with digital image analysis techniques. Laboratory assignments will provide hands-on experience in dealing with remote sensing data. Prerequisites: [(GEOG 1200) or GEOG 1201 (C), or GEOG 1290 or GEOG 1291 (C)], and [PHYS 1020 or PHYS 1021 (C), or PHYS 1050 or PHYS 1051 (C), or MATH 1300 or MATH 1301 (C), or MATH 1500 or MATH 1501 (C)], or permission of department head.

**GEOG 3272 Social Vulnerability to Natural Hazards (HS) 3 Cr. Hrs.**

This course examines differing social vulnerability to natural hazards, before, during and after disasters, including class, gender, age, health, language, and ethnicity. Prerequisite: a grade of C or better in a minimum of 3 credit hours from Geography courses numbered at the 1000 level, or GPE 1700 or GEOL 1340 or GEOL 1410 or permission of department head.

**GEOG 3310 Atmospheric Dynamics, Storms and Radar (PS) 3 Cr. Hrs.**

The course covers the critical dynamic processes that are associated with the Earth's atmosphere including forces that control wind, the kinematics of the wind field, general circulation, hodographs, thermal wind, laws of motion, mid-latitude circulations, convective storms and the utility of weather radar. Prerequisite: GEOG 2300 (C), or permission of department head.

**GEOG 3320 Introduction to Microclimates and Micrometeorology (PS) 3 Cr. Hrs.**

This course introduces the concept of energy balance climatology and examines relationships among climate, microclimate, and environments of the Earth's surface and human-made environments. Studies include bioclimates and hydroclimates. Prerequisites: (GEOG 2310 (C)), and (GEOG 2300 (C)), or permission of department head.

**GEOG 3340 Migration and Mobility in a Globalized World 3 Cr. Hrs.**

This course surveys the geographic dimensions of migration and mobility of populations, with emphasis of contemporary events. Prerequisites: a grade of C or better in GEOG 2330 or (GEOG 2480), or permission of department head.

**GEOG 3390 Introduction to Climate Change and Its Causes (PS) 3 Cr. Hrs.**

The primary objective of this course is to provide students with a general understanding of the physical and astronomical factors that drive global climate change. Focus will be given to current and future climate change in the context of observations and modeling. Not to be held with GEOG 3610. Prerequisite: a minimum of three credit hours from Geography or Environment courses, or permission of department head.

**GEOG 3460 Urban Geography (HS) 6 Cr. Hrs.**

The course studies the processes and trends of urbanization; the classification of cities; central-place theory; cities as systems; land-use patterns; social forces and factorial ecology; and urban transport problems.

Prerequisite: (GEOG 1200) or GEOG 1201 (C), or GEOG 1280 or GEOG 1281 (C), or permission of department head.

**GEOG 3640 Social Geography of the Environment (HS) 3 Cr. Hrs.**

This course provides an intermediate-level assessment of current geographical approaches to society and environment. Students are exposed to critical realist, social constructionist, Marxist, feminist and post-Colonial traditions as they are applied to environmental and social justice, globalization and public health. It includes discussion and a community-based learning project. Prerequisite: a grade of C or better in (GEOG 1200 or GEOG 1201) or GEOG 1280 or GEOG 1281, or permission of department head.

**GEOG 3730 Geographic Information Systems (TS) 3 Cr. Hrs.**

(Lab Required) Weekly two-hour lab. The course introduces students to the evolving science, technology and applications of Geographic Information Systems (GIS). Related geospatial technologies such as Global Navigation Satellite Systems and Remote Sensing, as well as the field of Geomatics will be introduced. Prerequisite: a grade of C or better in a minimum of three credit hours from Geography, Geology or Environment courses numbered at the 1000 and/or 2000 level, or permission of instructor or department head. Not to be held with GEOG 2250.

**GEOG 3740 Field Studies in Geography (A,TS) 6 Cr. Hrs.**

A field course designed to introduce students to either a detailed area study or to field techniques employed for specific geographic enquiry. Prerequisite: Permission of department head.

**GEOG 3750 Field Studies in Geography (A,TS) 3 Cr. Hrs.**

A field course designed to introduce students to either a detailed area study or to field techniques employed for specific geographic enquiry. Prerequisite: a grade of C or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

**GEOG 3760 Special Topics in Geography 6 Cr. Hrs.**

This course will vary from year to year depending on the needs of students and the interests of instructors. Prerequisite: Permission of department head.

**GEOG 3770 Special Topics in Geography 3 Cr. Hrs.**

This course will vary from year to year depending on the needs of students and the interests of instructors. Prerequisite: Permission of department head.

**GEOG 3810 Quantitative Research Methods in Geography (TS) 3 Cr. Hrs.**

This course focuses on the quantitative analytical methods available for the interpretation on physical and human geography applications. May not be held with GEOG 3680. Prerequisite: ENVR 2810 or the former GEOG 2530 or STAT 1000 or STAT 1001, or permission of department head.

**GEOG 3850 Sustainable Manitoba (A) 3 Cr. Hrs.**

This course approaches local sustainability issues from an interdisciplinary perspective. By looking at the ecological, social and economic aspects from a variety of discipline perspectives, a fuller understanding of sustainability is achieved. The broad range of perspectives is achieved through participation of guest speakers from other faculties and outside of the university as well as excursion outside the classroom. Not to be held with ENVR 3850. Prerequisite: 60 credit hours of course work, or permission of department head.

**GEOG 3860 Animal Geographies (HS) 3 Cr. Hrs.**

This course presents a variety of topics concerning the interactions between humans and animals, how humans influence and use animals, and the many roles animals play in human lives and environments. Animal Geographies lies at a meeting point between physical and human geography, where we must consider the blurring boundaries between what it means to be animal/human, and the implications of how animals are used and represented. A wide variety of perspectives, beliefs, and points of view will be explored. Prerequisite: Permission of department head.

**GEOG 3870 Food Geographies 3 Cr. Hrs.**

This course provides a critical examination of the geographies of food at a variety of scales, from the body to the global. The course focuses on themes

in three interconnected areas: 1) food production and the global food system from farm to plate including agribusiness and alternative food production and distribution models; 2) food consumption habits and beliefs and foodways as geographically contingent material culture; and 3) food (in) security and its relationship to health and wellbeing. This course is cross-listed as HNSC 3870. May not be held with HNSC 3870. Prerequisite: a grade of C or better in GEOG 1280 or GEOG 1281 or HNSC 1200 or GEOG 1200, or permission of department head.

**GEOG 3890 Geography and Wellness (HS) 3 Cr. Hrs.**

This course explores how human environment relations influence our mental, emotional, and physical wellbeing. Students will delve into current research in health and wellness geography and related disciplines, particularly focusing on: therapeutic landscapes, ecological loss and grief, sacred spaces, and environmental influences on mental wellbeing. Also offered as ENVR 3890. May not be held with ENVR 3890. Prerequisite: ENVR 1000 or GEOG 1200 or GEOG 1280 or GEOG 1700 or GPE 1700 or permission of the department head.

**GEOG 3920 Biological Oceanography 1: Lower Trophic Levels 3 Cr. Hrs.**

In this course, students will gain a background on the study of biological oceanography. Biological oceanography is a very active and important field of study worldwide due to the spatial coverage and biological activity of the world's oceans. This course examines the interaction of marine organisms with other biological life, as well as with the physical environment. Prerequisite: A minimum grade of "C" in both GEOG 2930 and BIOL 1030.

**5.8 Geography Course Descriptions-4000 Level**

**GEOG 4050 Ecosystem Management 3 Cr. Hrs.**

This course will provide students with an understanding of the practical applications of ecological science, environmental policy, and resource management approaches in the large-scale planning of landscapes. The course will review ecological principles and trace the historical development of the ecosystem concept. Comparisons are made to other possible environmental management approaches. The synthesis of major elements and concepts will be reinforced through case studies on the Manitoba landscape, with an emphasis on practical learning by students through field seminars and group discussions. Not to be held with ENVR 4050. Prerequisite: Permission of department head.

**GEOG 4060 Biogeography 3 Cr. Hrs.**

This course will provide students with a general understanding of the historical, ecological, analytical, and conservation aspects of biogeography. The course will also have a dual focus on the principles and concepts of reasons for the distribution of plants and animals worldwide, as well as incorporating discussion on as many local (Manitoba, Canada, North America) examples as possible. Not to be held with ENVR 4060. Prerequisite: Permission of department head.

**GEOG 4200 Advanced Methods in Remote Sensing 3 Cr. Hrs.**

(Lab Required) Provides instruction in the current theory and application of remote sensing technology to Earth system Science. Emphasis will be placed on the processing and interpretation of remote sensing imagery and the integration of remote sensing data with other spatial data. Prerequisite: GEOG 3200 (C), or permission of department head.

**GEOG 4260 Sacred Lands 3 Cr. Hrs.**

Students will increase their understanding of the importance and significance of Sacred Lands and Sacred Spaces to International Indigenous Peoples. Experiential learning, seminars, and a field component may be included. Not to be held with NATV 4260. Prerequisite: Permission of department head.

**GEOG 4280 Gender and the Human Environment 3 Cr. Hrs.**

This upper-level seminar course will develop in students a depth and breadth of understanding appropriate to the honours undergraduate/graduate level in the area of gender geography scholarship. From critical social science theoretical positions, this course asks students to examine what we can learn about how humans live on the earth if we see them as gendered. Just as we may also understand humans and their

interactions in and with spaces, places and environments through the lenses of race, ethnicity, class, age and/or combinations of these categories with gender. Prerequisite: a grade of C or better in a minimum of six credit hours in Geography, or permission of department head.

**GEOG 4290 Geographies of Health and Health Care 3 Cr. Hrs.**

This course provides an introduction to and critical examination of the geographies of health and healthcare. Topics include perceptions and determinations of health and health care; health care delivery, focusing on spatial patterns and inequities; and the relationship between environment and health, particularly impacts of environmental contamination. Prerequisite: Permission of department head.

**GEOG 4300 Synoptic Meteorology and Weather Analysis 3 Cr. Hrs.**

Applied aspects of meteorology are described in terms of weather analysis and forecasting techniques for synoptic-scales and meso-scales using various meteorological tools. An introduction to severe weather forecasting techniques will also be described. Prerequisite: GEOG 3310 (C), or permission of department head.

**GEOG 4310 Boundary-Layer Climatology and Micrometeorology 3 Cr. Hrs.**

A seminar course on advanced topics in microclimatology and micrometeorology. Prerequisite: GEOG 3320 (C), or permission of department head.

**GEOG 4330 Concepts in Atmospheric Modeling 3 Cr. Hrs.**

This course will primarily focus on numerical modeling applications and techniques of the Earth's atmosphere with an emphasis on weather prediction. This includes understanding basic modeling terminology, numerical schemes, structure of models, types of models, what is required to run a model, and an introduction to data assimilation and ensemble techniques to weather prediction. Not to be held with GEOG 4320. Prerequisite: GEOG 3310 (C) or GEOG 3320 (C), or permission of department head.

**GEOG 4350 Parks and Protected Areas Planning and Management: Field Studies 6 Cr. Hrs.**

The course is taught in two segments, an on-campus component and field study component taking place in Banff National Park. The on-campus component examines the historical development of the concept of parks and protected areas, the role of interpretation, management and research in the parks and emerging issues in the management of parks and protected areas. In addition, during the on-campus component planning for the field will take place. The field segment will focus on a wide variety of management issues with particular attention to Banff National Park. Emerging issues and trends will be examined and past management responses evaluated. There will be opportunities for students to investigate specific management issues of interest to them and to participate in current research being conducted in the park. This course is also offered in the Faculty of Kinesiology and Recreation Management as REC 4350. Prerequisite: Permission of department head.

**GEOG 4390 Global Climate Change 3 Cr. Hrs.**

Students will be introduced to the complexities of climate changes through a series of introductory lectures and reading assignments that focus on recent scientific publications and review articles (mathematical skills are not required). Both sides of the climate change debate will be addressed in weekly assignments, and students will defend their conclusions in classroom discussion. Each student will take on a project in some aspect of climate change -- glaciers, sea ice, temperature trends, precipitation, agriculture, animal migration, aerosols, or a regional impact. Prerequisite: a grade of C or better in GEOG 3390 (or GEOG 3610), or permission of department head.

**GEOG 4560 Techniques in Climatology 3 Cr. Hrs.**

Instrumentation, the sources of climatic data, and the use of satellite photography, as well as methods of analysis and presentation are discussed. Prerequisite: GEOG 3320 (C), or permission of department head.

**GEOG 4650 Models in Regional Analysis 3 Cr. Hrs.**

Emphasis is placed on the use of regression techniques in regional analysis including the classical ordinary least squares methods and two-stage least

squares. Migration and industrial location models are developed and calibrated using these techniques. Prerequisite: Permission of department head.

**GEOG 4660 Honours Thesis** **6 Cr. Hrs.**

This course involves the production of a thesis under the supervision of a department faculty member. Prerequisite: Permission of department head.

**GEOG 4670 Selected Issues** **3 Cr. Hrs.**

Intensive study of selected geographic issues. Prerequisite: Prearranged written consent of an individual instructor and permission of department head.

**GEOG 4750 Understanding Contemporary Environmentalism: Power and Discourse** **3 Cr. Hrs.**

This course will provide students with an advanced understanding of the relationships between nature and society by examining the rise of environmentalism through the past 50 years. Special attention will be paid to recent developments within the field of environmentalism and to theoretical work in the field of political ecology. Prerequisite: Permission of the Instructor.

**GEOG 4780 Storms-Mesoscale** **3 Cr. Hrs.**

This course focuses on a range of storms and mesoscale phenomena in the summer or winter. These include thunderstorms, tornadoes, squall lines, lightning, low level jets, gust fronts, blizzards, freezing rain, orographic storm, and polar lows. The emphasis is on the physical mechanisms leading to these events and it also examines how they may change in our changing climate. Not to be held for credit with GEOG 7780. Prerequisite: A grade of "C" or better in GEOG 3310 or permission of department head.

**GEOG 4872 Advanced Methods in Geomatics** **3 Cr. Hrs.**

This course focuses on the theory and application of geomatics in spatial problem solving in geography and the environment. The use of geomatics' technologies including GIS, Earth observation and spatial numerical methods will be covered. Students will learn the theoretical underpinning of spatial statistical concepts and will experiment with data exploration, inference and hypothesis testing. Lab assignments will provide practical experience with GIS and other geomatics software as well as CRAN-R. Not to be held with ENVR 4872, GEOG 4590 or GEOG 4720. Prerequisite: GEOG 3730 or permission of Instructor.

**GEOG 4930 Oceanography: Chemical** **3 Cr. Hrs.**

This course deals with the sources, distribution, and transformation of chemical constituents of the oceans, and the processes that control them. The emphasis will be given to biologically or climatically significant elements such as carbon, nitrogen, phosphorus, iron and mercury in the Arctic Ocean. Prerequisite: ENVR 2550 and GEOG 2930 or permission by department head.

**GEOG 4940 Arctic Sea Ice** **3 Cr. Hrs.**

This course aims to (i) provide students with a strong background on the importance and current knowledge of Arctic sea ice and (ii) train students on current field techniques used in research pertaining to sea ice-related investigations. To attain these goals, the course will combine field safety training, classroom lectures and assignments, and direct field experience through a field trip pertaining to physical and biogeochemical processes of the snow-covered sea-ice environment. Prerequisite: permission of the instructor.

**GEOG 4960 Oceanography: Biological II Higher Trophic Levels** **3 Cr. Hrs.**

This course will examine the oceanographic-biological coupling occurring in the Arctic region, focusing on environmental conditions related to higher trophic levels and impacts of climate change. This course will extend the learning of the 3000-level course that examines biological oceanography, which focuses on the environmental factors that control primary production and lower trophic levels in the world's oceans. Prerequisite: A minimum grade of "C" in both GEOG 3920 and a 2000-level BIOL course or permission of instructor.

## SECTION 6: Bachelor of Science in Physical Geography Degree Regulations, Program Description and Courses Offered by

Head: Mark Hanson

Campus Address/General Office: 220 Sinnott Building

Email Address: [environment\\_geography@umanitoba.ca](mailto:environment_geography@umanitoba.ca)

Telephone: (204) 474-9667

Fax: (204) 261-0038

Website: [umanitoba.ca/environment/departments/geography](http://umanitoba.ca/environment/departments/geography)

### 6.1 Program Information

Physical Geography includes the study of the environment through aspects of atmospheric science, geomorphology, biogeography, and hydrology, all of which draw upon the natural and applied sciences to understand the natural environment. Atmospheric sciences examine the physical and biophysical processes at and near the earth's surface shaping climate and determining the weather. These processes are examined over cascading scales, local to global. Hydrology studies the flow of water between the Earth's surface and the atmosphere, including the quantity and quality of water resources as well as the spatial variability in the hydrologic cycle. The examination of processes at the earth's surface and the associated landforms is called geomorphology. Various sub-disciplines in geomorphology include weathering and erosional processes, volcanoes, glacial and river systems. Biogeography studies the interrelationships between the biospheric environment and the physical environment. Formation of soils, ecosystem and biome cycles and components, as well as human interaction with the physical environment are all topical areas in biogeography.

Geomatics is an emerging field referring to the techniques of spatial data acquisition, handling, and analysis. Included within this field have been geographic applications of computer analysis and spatial modeling, spatial statistics, remote sensing technology, and geographic information systems. Many of these techniques have their origins in the applied sciences, but both physical and human geographers have contributed greatly to their development and application. The application of such methodologies in geographic fields, such as resource management, urban geography, climate change, and applied geography has also provided closer co-operation between human and physical geography, as well as promoting considerable interdisciplinary research with other University disciplines.

The Major and Honours B.Sc. degree programs in Physical Geography serve students who desire advanced study in the academic subject matter of various themes contained within Physical Geography. The Honours program in particular is intended for students interested in the opportunity for exposure to advanced geographic research. As such, the Honours program demands higher academic performance. Students who are ineligible to enter Honours in their second year may establish this in the following year on the basis of their improved scholastic performance. The degree programs may be pursued on a full or part-time basis.

### Minor in Another Department

Students in the B.Sc. Physical Geography have the opportunity to complete a Minor in a subject field that is different than that of the declared Major, and which normally consist of 18 credit hours from a department offering this option at the University of Manitoba. Students in the B.Sc. Physical Geography are not permitted to complete a Minor in Geography. Students can declare only one Minor. The Minor requirements are described in

section 3.2 of this Chapter. Contact a [Riddell Faculty student advisor](#) in the Faculty Dean's Office for further information about eligible Minors.

**Streams**

Students are required to complete a stream approved by a Riddell Faculty student advisor. Students in the Major or Major (Coop) programs are required to complete a minimum of 30 credit hours of 2000- (or higher) level courses, of which at least 18 credit hours must be at or above the 3000-level. The B.Sc. Honours and Honours (Coop) programs require students to complete 39 credit hours in a Stream, of which at least 24 credit hours are defined at or above the 3000-level and must include *GEOG 4660 Honours Thesis* (6). Streams are currently available in *Atmospheric and Hydrological Sciences, Geomatics and Physical Geography*. See a [Riddell Faculty student advisor](#) for current information about these Streams.

**Major**

To qualify for the degree, Bachelor of Science in Physical Geography (Major), a student must complete 120 credit hours with passing grades ('D' or better) and a minimum degree grade point average of 2.00. Major (Coop) students must attain a minimum degree Grade Point Average of 2.50. Students must complete all faculty requirements. There is no limit to the number of credit hours a student completes provided he/she does not exceed 18 credit hours of failed courses.

**Honours**

To qualify for the degree Bachelor of Science in Physical Geography (Honours and Honours Coop), a student must complete 120 credit hours with passing grades ('D' or better) and a minimum degree grade point average of 3.00 in the courses that constitute the degree. Students must complete all faculty requirements. There is no limit to the number of credit hours a student completes provided he/she does not exceed 18 credit hours of failed courses.

**6.2 Advanced Entry Requirements**

Advanced Entry students are placed in the Major degree program until they have completed a minimum of 48 credit hours after which they may transfer to the Honours program or remain in the Major. To make a program transfer, students must consult a [Riddell Faculty student advisor](#).

6.2.1 Advanced Entry Requirements			
Degree Program in Physical Geography	Minimum Number of Credit Hours	Minimum Degree Grade Point Average	Additional Entrance Requirements
Honours	48	3.00	A grade of 'B' or better in GEOG 1290 <sup>2</sup> ; a grade of 'C+' or better in 12 credit hours from GEOL 1340, PHYS 1020 <sup>3</sup> (or PHYS 1050), MATH 1500 <sup>2,3</sup> , PHYS 1030 (or PHYS 1070), MATH 1300 <sup>3</sup> (or MATH 1310)
Honours (Coop) <sup>1</sup>	60	3.00	ENVR 2900; students must satisfy the requirements for Entrance/continuation in the regular program and (normally) have completed GEOG 2200, GEOG 2300, GEOG 2310, GEOG 2550, GEOG 3730, PHYS 1020 <sup>3</sup> (or PHYS 1050), PHYS 1030 (or PHYS 1070), MATH 1300 <sup>3</sup> (or MATH 1310) and MATH 1500 <sup>2,3</sup>

Major	24	2.00	A grade of 'C' or better in GEOG 1290 <sup>2</sup> ; a grade of 'C+' or better in 6 credit hours from GEOL 1340, PHYS 1020 <sup>3</sup> (or PHYS 1050) and MATH 1500 <sup>2,3</sup> , PHYS 1030 (or PHYS 1070), MATH 1300 <sup>3</sup> (or MATH 1310)
Major (Coop) <sup>1</sup>	60	2.50	ENVR 2900; students must satisfy the requirements for Entrance/continuation in the regular program and (normally) have completed GEOG 2200, GEOG 2300, GEOG 2310, GEOG 2550, GEOG 3730, PHYS 1020 <sup>3</sup> (or PHYS 1050), PHYS 1030 <sup>3</sup> (or PHYS 1070), MATH 1300 <sup>3</sup> (or MATH 1310) and MATH 1500 <sup>2,3</sup>

<sup>1</sup>Students may be permitted to enter the program without satisfying all requirements listed. Students should consult with the Cooperative Education Coordinator for further information.

<sup>2</sup> MATH 1230 or MATH 1510 or MATH 1520 or MATH 1690 may be used in lieu of MATH 1500.

<sup>3</sup>Equivalent courses offered through Université de Saint-Boniface may be used in lieu of the specified courses identified in the degree program chart.

**6.3 Minimum Performance Requirements for Continuation and Graduation**

A student's academic performance will be assessed with his/her application for admission to the Clayton H. Riddell Faculty of Environment, Earth, and Resources and following each *term* thereafter. A Riddell Faculty student advisor must approve a student's registration each Fall/Winter term. Any revisions in this schedule should also be approved prior to the end of the registration revision period.

To be in **good standing** and permitted to continue in a degree program, a student must achieve the minimum standards at each point of assessment. This assessment is based on the student's minimum degree Grade Point Average; the grades received in each of GEOG 1290 (or GEOG 1291), GEOG 2200, GEOG 2300, GEOG 2310, GEOG 2550, GEOG 3730, GEOG 3810; and the number of failed courses after admission to the Clayton H. Riddell Faculty of Environment, Earth, and Resources.

6.3.1 Minimum Performance Requirements					
Minimum Performance Requirements				Graduation Requirements <sup>1</sup>	
Degree Program (Credit Hours)	Min Degree Grade Point Average (DGPA)	Max Credit Hours of Failed Courses	Physical Geography Core: Min Grade Requirements in GEOG 1290 <sup>2</sup> , GEOG 2200 <sup>2</sup> , GEOG 2300, GEOG 2310, GEOG 2272, GEOG 2550, GEOG 3730, GEOG 3810	Stream (2000-Level or Higher)	Coop Option Courses
Honours (120)	3.00	18	'B' in GEOG 1290; 'C+'	39 credit hours of which at least 24	

			grades in others	credit hours must be at the 3000-level or higher; completion of GEOG 4660; minimum 'C+' grade in each course.	
Honours Coop (120)	3.00	18	'B' in GEOG 1290; 'C+' grades in others	39 credit hours of which at least 24 credit hours must be at the 3000-level or higher; completion of GEOG 4660; minimum 'C+' grade in each course.	ENVR 2900, ENVR 3900, ENVR 3910, ENVR 3980, ENVR 3920, ENVR 3990; (ENVR 4910 and ENVR 4980 are optional)
Major (120)	2.00	18	'C'	30 credit hours of which at least 18 credit hours must be at the 3000-level or higher; minimum Degree GPA of 2.00.	
Major Coop (120)	2.50	18	'C'	30 credit hours of which at least 18 credit hours must be at the 3000-level or higher; minimum Degree GPA of 2.00.	ENVR 2900, ENVR 3900, ENVR 3910, ENVR 3980, ENVR 3920, ENVR 3990; (ENVR 4910 and ENVR 4980 are optional)
<p><sup>1</sup>B.Sc. Physical Geography students must successfully complete a minimum of 60 credit hours at the University of Manitoba to satisfy the Residence Requirement. The courses used to satisfy the requirement must be acceptable for credit in the Clayton H. Riddell Faculty of Environment, Earth, and Resources.</p> <p><sup>2</sup>Equivalent courses offered through Université de Saint-Boniface may be used in lieu of the specified courses identified in the degree program chart.</p>					

To **graduate** from the Bachelor Science in Physical Geography with the intended degree designation, a student must achieve the minimum standards and graduation requirements outlined above in 6.3.1 following the final term of registration and satisfy all degree course requirements in the foundation, physical geography core and Stream.

Students in the Honours program who do not meet these minimum performance requirements for continuation or graduation will be withdrawn from the degree program and placed in the Major provided they are eligible based on their performance. Students who do not meet the minimum performance requirements of the Major will be placed on academic warning, probation or academic suspension as defined in section 3.14 Academic Warning, Probation, Academic Suspension and Special Students (Academic Standing) in this Chapter.

Students withdrawn from the Honours program as a result of their inability to meet minimum performance requirements will have the notation, 'Required to Withdraw from the Honours Program,' recorded on their transcript. Similarly, students withdrawn from the Major program will have the notation, 'Required to Withdraw from the Major Program,' recorded on their transcript.

### 6.4 Graduating with Distinction or First Class Honours

#### With Distinction

Students graduating with a B.Sc. Physical Geography (Major) degree will have their degree granted 'With Distinction' if they have a minimum Degree Grade Point Average of 3.50 on all course work.

The term 'Degree with Distinction' will appear both on the parchment and on the student's transcript.

#### First Class Honours

Students in the Honours program will have their degree granted with 'First Class Honours' if they have a minimum Degree Grade Point Average of 3.50 based on all acceptable course work. The term First Class Honours will appear both on the parchment and on the student's transcript.

### 6.5. B.Sc. Physical Geography Program Chart

Bachelor of Science in Physical Geography <sup>2,7</sup>			
YEAR 1	YEAR 2	YEAR 3	YEAR 4
<b>HONOURS<sup>3</sup> 120 CREDIT HOURS</b>			
GEOG 1290, PHYS 1020 <sup>4</sup> , MATH 1500 <sup>5</sup>	GEOG 2200, GEOG 2300, GEOG 2310, GEOG 2540, GEOG 2550, ENVR 2810 <sup>8</sup>	GEOG 2272 <sup>9</sup> , GEOG 3730, GEOG 3810 <sup>10</sup>	GEOG 4660
PHYS 1030 <sup>4</sup> , MATH 1300 <sup>5</sup> ; or 6 credit hours from GEOL 1340, COMP 1012, CHEM 1300, CHEM 1310, STAT 1000 <sup>6</sup> , STAT 2000, BIOL 1020 <sup>7</sup> , BIOL 1030 <sup>7</sup> , MATH 1700 <sup>5</sup>	Whichever of, PHYS 1030 <sup>4</sup> , MATH 1300 <sup>5</sup> , or 6 credit hours from GEOL 1340, COMP 1012, CHEM 1300, CHEM 1310, STAT 1000 <sup>6</sup> , STAT 2000, BIOL 1020 <sup>7</sup> , BIOL 1030 <sup>7</sup> , MATH 1700 <sup>5</sup> not yet taken	9 credit hours from GEOL 1340, COMP 1012, CHEM 1300, CHEM 1310, STAT 1000 <sup>6</sup> , STAT 2000, BIOL 1020 <sup>7</sup> , BIOL 1030 <sup>7</sup> , MATH 1700 <sup>5</sup> not yet taken	Enough elective credit to total 120 credit hours for the program.
The W course must be completed within the first 60 credit hours of courses.			
Plus a <b>Stream</b> approved by a Riddell Faculty student advisor. Honours Stream requirements are as follows: 33 credit hours of 2000- (or higher) level courses, of which 24 credit hours must be at the 3000- or 4000-level.			
<b>HONOURS COOPERATIVE OPTION<sup>1</sup> 120 CREDIT HOURS</b>			
GEOG 1290, PHYS 1020 <sup>4</sup> , MATH 1500 <sup>5</sup>	GEOG 2200, GEOG 2300, GEOG 2310, GEOG 2540, GEOG	GEOG 2272 <sup>9</sup> , GEOG 3730, GEOG 3810 <sup>10</sup> , ENVR 3900,	GEOG 4660

PHYS 1030 <sup>4</sup> , MATH 1300 <sup>5</sup> ; or 6 credit hours from GEOL 1340, COMP 1012, CHEM 1300, CHEM 1310, STAT 1000 <sup>6</sup> , STAT 2000, BIOL 1020 <sup>7</sup> , BIOL 1030 <sup>7</sup> , MATH 1700 <sup>5</sup>  Plus 6 credit hours from the Faculty of Arts	2550, ENVR 2810 <sup>8</sup> , ENVR 2900  Whichever of, PHYS 1030 <sup>4</sup> , MATH 1300 <sup>5</sup> , or 6 credit hours from GEOL 1340, COMP 1012, CHEM 1300, CHEM 1310, STAT 1000 <sup>6</sup> , STAT 2000, BIOL 1020 <sup>7</sup> , BIOL 1030 <sup>7</sup> , MATH 1700 <sup>5</sup> not yet taken	ENVR 3980, ENVR 3910  9 credit hours from GEOL 1340, COMP 1012, CHEM 1300, CHEM 1310, STAT 1000 <sup>6</sup> , STAT 2000, BIOL 1020 <sup>7</sup> , BIOL 1030 <sup>7</sup> , MATH 1700 <sup>5</sup> not yet taken	ENVR 3990, ENVR 3920 (ENVR 4980 and ENVR 4910 are optional)  Enough elective credit to total 120 credit hours for the program.
The W course must be completed within the first 60 credit hours of courses.			
Plus a <b>Stream</b> approved by a Riddell Faculty student advisor. Honours Stream requirements are as follows: 33 credit hours of 2000- (or higher) level courses, of which 24 credit hours must be at the 3000- or 4000-level.			
<b>MAJOR<sup>1</sup></b> <b>120 CREDIT HOURS</b>			
GEOG 1290, PHYS 1020 <sup>4</sup> , MATH 1500 <sup>5</sup>  PHYS 1030 <sup>4</sup> , MATH 1300 <sup>5</sup> ; or 6 credit hours from GEOL 1340, COMP 1012, CHEM 1300, CHEM 1310, STAT 1000 <sup>6</sup> , STAT 2000, BIOL 1020 <sup>7</sup> , BIOL 1030 <sup>7</sup> , MATH 1700 <sup>5</sup>  Plus 6 credit hours from the Faculty of Arts	GEOG 2200, GEOG 2300, GEOG 2310, GEOG 2540, GEOG 2550, ENVR 2810 <sup>8</sup>  Whichever of, PHYS 1030 <sup>4</sup> , MATH 1300 <sup>5</sup> , or 6 credit hours from GEOL 1340, COMP 1012, CHEM 1300, CHEM 1310, STAT 1000 <sup>6</sup> , STAT 2000, BIOL 1020 <sup>7</sup> , BIOL 1030 <sup>7</sup> , MATH 1700 <sup>5</sup> not yet taken	GEOG 2272 <sup>9</sup> , GEOG 3730, GEOG 3810 <sup>10</sup>  9 credit hours from GEOL 1340, COMP 1012, CHEM 1300, CHEM 1310, STAT 1000 <sup>6</sup> , STAT 2000, BIOL 1020 <sup>7</sup> , BIOL 1030 <sup>7</sup> , MATH 1700 <sup>5</sup> not yet taken	Enough elective credit to total 120 credit hours for the program.
The W course must be completed within the first 60 credit hours of courses.			
Plus a <b>Stream</b> approved by a Riddell Faculty student advisor. Major Stream requirements are as follows: 30 credit hours of 2000- (or higher) level courses, of which 18 credit hours must be at the 3000- or 4000-level.			
<b>MAJOR COOPERATIVE OPTION<sup>1</sup></b> <b>120 CREDIT HOURS</b>			
GEOG 1290, PHYS 1020 <sup>4</sup> , MATH 1500 <sup>5</sup>  PHYS 1030 <sup>4</sup> , MATH 1300 <sup>5</sup> ; or 6 credit hours from GEOL 1340, COMP 1012, CHEM 1300, CHEM 1310, STAT 1000 <sup>6</sup> , STAT 2000, BIOL 1020 <sup>7</sup> , BIOL 1030 <sup>7</sup> , MATH 1700 <sup>5</sup>  Plus 6 credit hours from the Faculty of Arts	GEOG 2200, GEOG 2300, GEOG 2310, GEOG 2540, GEOG 2550, ENVR 2810 <sup>8</sup> , ENVR 2900  Whichever of, PHYS 1030 <sup>4</sup> , MATH 1300 <sup>5</sup> , or 6 credit hours from GEOL 1340, COMP 1012, CHEM 1300, CHEM 1310, STAT 1000 <sup>6</sup> , STAT 2000, BIOL 1020 <sup>7</sup> , BIOL 1030 <sup>7</sup> , MATH 1700 <sup>5</sup> not yet taken	GEOG 2272 <sup>9</sup> , GEOG 3730, GEOG 3810 <sup>10</sup> , ENVR 3900, ENVR 3980, ENVR 3910  9 credit hours from GEOL 1340, COMP 1012, CHEM 1300, CHEM 1310, STAT 1000 <sup>6</sup> , STAT 2000, BIOL 1020 <sup>7</sup> , BIOL 1030 <sup>7</sup> , MATH 1700 <sup>5</sup> not yet taken	ENVR 3990, ENVR 3920 (ENVR 4980 and ENVR 4910 are optional)  Enough elective credit to total 120 credit hours for the program.

The W course must be completed within the first 60 credit hours of courses.
Plus a <b>Stream</b> approved by a Riddell Faculty student advisor. Major Stream requirements are as follows: 30 credit hours of 2000- (or higher) level courses, of which 18 credit hours must be at the 3000- or 4000-level.
<b>MINOR</b> <b>18 CREDIT HOURS</b>
GEOG 1290 15 credit hours selected from 2000-, 3000-, or 4000-level courses designated as Physical Geography (PS) or Techniques (TS) courses in the Geography course descriptions defined in sections 5.6 in this <i>Chapter</i> .
<b>NOTES:</b>
<sup>1</sup> The courses required in this program will satisfy the <a href="#">University Mathematics requirement</a> .
<sup>2</sup> Equivalent courses offered through Université de Saint-Boniface may be used in lieu of the specified courses identified in the degree program chart.
<sup>3</sup> Entrance into the degree programs is summarized in <a href="#">6.2.1</a> in this <i>Chapter</i> .
<sup>4</sup> PHYS 1050 and PHYS 1070 may be used in lieu of PHYS 1020 and PHYS 1030, respectively.
<sup>5</sup> MATH 1230, MATH 1510 or MATH 1520 may be used in lieu of MATH 1500; or MATH 1690 may be used in place of MATH 1500 (or equivalent) and MATH 1700; or MATH 1310 may be used in lieu of MATH 1300; or MATH 1232 or MATH 1710 may be used in lieu of MATH 1700.
<sup>6</sup> STAT 1150 may be used in lieu of STAT 1000.
<sup>7</sup> BIOL 1000 and BIOL 1010 may be used in lieu of BIOL 1020 and BIOL 1030.
<sup>8</sup> The former GEOG 2530 may be used in lieu of ENVR 2810.
<sup>9</sup> The former GEOG 2440 may be used in lieu of GEOG 2272.
<sup>10</sup> The former GEOG 3680 may be used in lieu of GEOG 3810.
<b>Note:</b> To fulfil prerequisite requirements a grade of 'C' must be achieved, unless otherwise stated, in any course stipulated as a prerequisite to a further course.
Students should review the course topics available for GEOG 3740 (6), GEOG 3750 (3), GEOG 3760 (6), GEOG 3770 (3) and GEOG 4670 (3). Also, all courses are not offered every year. The course schedule for the current academic term is available from the Class Schedule in Aurora.
Students registering in certain courses may be required to participate in field trips or field components and pay a portion of the associated expenses. For details, contact the <a href="#">Department of Environment and Geography</a> general office.
<b>IMPORTANT:</b> The Honours and Major programs need not be completed in the course order described in the chart above. The chart indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their program.

**6.6 Environment, Earth, and Resources Course Description**

**EER 1000 Earth: A User's Guide** **3 Cr. Hrs.**  
This course will present a multi-disciplinary introduction to the Planet Earth as both the source of essential resources and as the site of resulting

negative impacts. Focus in the course will be provided by addressing important and current topics, case studies, and concepts that the well-educated citizen of the Earth should understand and will include natural and human-induced processes within a broad range of spatial and temporal scales.

### 6.7 Geography Course Descriptions-1000 Level

**GEOG 1280 Introduction to Human Geography 3 Cr. Hrs.**  
This course studies aspects of the human world: population, settlement and resources. Not to be held with GEOG 1200 or GEOG 1201, or GEOG 1281.

**GEOG 1290 Introduction to Physical Geography 3 Cr. Hrs.**  
This course studies aspects of our physical environment: climate, landforms, soils and vegetation. Not to be held with GEOG 1291 or GEOG 1200 or GEOG 1201.

**GEOG 1700 Social Justice in the 21st Century: Global Political Economy and Environmental Change 3 Cr. Hrs.**  
Introduces students to political economy and cultural geography through the close analysis of contemporary world events, including but not limited to instances of violent conflict, environmental change, international negotiations, political processes and events, social movements, and policy developments. A multimedia approach will advance students' understanding of geopolitical events from political economy and spatial perspectives. Specific content of the course will change year-by-year in response to developments in national and world politics. Also offered by the Faculty of Arts as GPE 1700. Students may not hold credit for both GPE 1700 and GEOG 1700.

### 6.7 Geography Course Descriptions-2000 Level

**GEOG 2200 Introduction to Thematic Cartography (TS) 3 Cr. Hrs.**  
(Lab Required) An introduction to the principles of map compilation and reproduction, including analysis and cartographic display of spatially referenced data. Emphasis will be placed on cartographic data manipulation, generalization, and symbolization, map design, visualization and communication. Not to be held with GEOG 2221. Prerequisite: a grade of C or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

**GEOG 2272 Natural Hazards (PS) 3 Cr. Hrs.**  
Environmental hazards to human settlement and economy are examined with particular attention to meteorological, soil erosion, mass wasting, earthquake and volcanic phenomena. Not to be held with GEOG 2440. Prerequisite: a grade of C or better in one of GEOG 1290, GEOL 1340, or GEOL 1410, GEOG 1291, GEOG 1200, GEOG 1201, GEOL 1360 or permission of department head.

**GEOG 2300 Atmospheric Thermodynamics, Clouds and Precipitation (PS) 3 Cr. Hrs.**  
Critical thermodynamic processes are discussed that are associated with the Earth's atmosphere including dry and moist processes, phases of water, stability, cloud development and precipitation processes. Prerequisites: (GEOG 1290 or GEOG 1291 (C), or (GEOG 1200) or GEOG 1201 (C)), and (MATH 1500 or MATH 1501 (C), or MATH 1510 (C), or MATH 1520 (C), or MATH 1530 (C)).

**GEOG 2310 Introduction to Process Hydrology (PS) 3 Cr. Hrs.**  
This course introduces students to the near-surface components of the hydrological cycle, including the processes of precipitation, evaporation, water-biosphere interactions, infiltration, overland and stream flow. Prerequisites: (GEOG 1290 or GEOG 1291 (C), or (GEOG 1200) or GEOG 1201 (C)), and (PHYS 1020 or PHYS 1021 (C), or PHYS 1050 or PHYS 1051 (C), or MATH 1500 or MATH 1501 (C), or MATH 1510 (C), or MATH 1520 (C), or MATH 1530 (C)), or permission of department head.

**GEOG 2330 Place, Populations and Mobility: Geographic Perspectives (HS) 3 Cr. Hrs.**  
An examination of the factors controlling the number and distribution of human population. Variations in fertility, mortality and mobility will be analyzed and the causes and consequences reviewed. Not to be held with GEOG 2480. Prerequisite: a grade of C or better in a minimum of three credit

hours from Geography courses numbered at the 1000 level, or permission of department head.

**GEOG 2372 Geography of Tourism (HS) 3 Cr. Hrs.**  
This course examines the social, economic and environmental dimensions of tourism and recreation. Historical and contemporary experiences from around the world will be studied. Not to be held with GEOG 2410. Prerequisite: a grade of C or better in (GEOG 1200) or GEOG 1280, or permission of department head.

**GEOG 2520 Geography of Natural Resources (HS) 3 Cr. Hrs.**  
An introduction to the basic concepts of the subject and the distribution of resources. Stress will be placed on Canadian resources and resource requirements but examples from other resource systems will also be used. Prerequisite: a grade of C or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

**GEOG 2540 Weather and Climate (PS) 3 Cr. Hrs.**  
This half-course examines the nature, controls, and observations of weather and the variation of climate in time and space. Prerequisite: a grade of C or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

**GEOG 2550 Geomorphology (PS) 3 Cr. Hrs.**  
This half-course surveys a broad array of landforms in the world and the geomorphic processes responsible for their creation. Attention is strongly focused on those landform processes originating at the earth's surface. Prerequisite: (GEOG 1200) or GEOG 1201 (C), or GEOG 1290 or GEOG 1291 (C), or permission of department head.

**GEOG 2570 Geography of Canada (A) 3 Cr. Hrs.**  
A regional study of Canada in which the major regions of Canada are studied with respect to geographical patterns of their physical environment, settlement, culture, economic activity, and land use. Not to be held with GEOG 2560, GEOG 2561 or GEOG 3431. Prerequisite: a grade of C or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

**GEOG 2580 Geography of the United States (A) 3 Cr. Hrs.**  
A regional study of the United States in which the major regions of the United States are studied with respect to geographical patterns of their physical environment, settlement, culture, economic activity, and land use. Not to be held with GEOG 2560, GEOG 2561. Prerequisite: a grade of C or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

**GEOG 2630 Geography of Culture and Environment (HS) 3 Cr. Hrs.**  
An introduction to the cultural geographic study of environment, focusing on the evolution of landscape, the creation of regions, and human relationships with nature. Prerequisite: (GEOG 1200) or GEOG 1201 (C), or GEOG 1280 or GEOG 1281 (C), or permission of department head.

**GEOG 2640 Geography of Culture and Inequality (HS) 3 Cr. Hrs.**  
An introduction to the cultural geographic study of human and place inequalities, focusing on behaviour in landscape, group differences, and human identities. Prerequisite: (GEOG 1200) or GEOG 1201 (C), or GEOG 1280 or GEOG 1281 (C), or permission of department head.

**GEOG 2700 Introduction to Arctic System Science 3 Cr. Hrs.**  
This course introduces students to the various components of the Arctic system, including the terrestrial and marine environments, polar atmosphere, biological and chemical oceanography. Prerequisite: GEOG 1290 or (GEOG 1291)(C), or GEOG 1200 or (GEOG 1201)(C) or ENVR 1000 (C) or GEOL 1340 (C).

**GEOG 2870 Introduction to Economic Geography (HS) 3 Cr. Hrs.**  
This course introduces the field of economic geography, paying particular attention to the historical, environmental and spatial dimensions that shape the global economy and current economic order, including: wealth and poverty, production patterns and commodity chains, consumption and retail processes; natural resources; the state's role in economic governance; global labour; and the ways in which economic structures and processes

shape gender and ethnicity. Course materials will be global in scope but will provide both a macro- and microeconomic perspective. May not be held with the former GEOG 2210 or GEOG 2211. Prerequisite: a minimum grade of C in a course in Geography at the 1000 level.

**GEOG 2900 Geography of Canadian Prairie Landscapes (A)** **3 Cr. Hrs.**

This course introduces students to the various geographical themes, concepts and processes within the context of the natural and anthropogenic development of the Canadian prairie region. It traces the evolution of the prairie landscape. It will focus on academic writing in the discipline. Not to be held with GEOG 2450. Prerequisite: a grade of C or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

**GEOG 2930 Introduction to Oceanography** **3 Cr. Hrs.**

This course provides an introduction to the physical, chemical, biological and geological processes in the world oceans and their interactions with the overall Earth system. This course is interdisciplinary, applying geological, chemical and biological processes to the study of the world's oceans. Prerequisite: A minimum grade of "C" in GEOG 1290 (or GEOG 1291) or GEOG 1200 (or GEOG 1201) or ENVR 1000 or GEOL 1340.

**6.7 Geography Course Descriptions-3000 Level**

**GEOG 3200 Introduction to Remote Sensing (TS)** **3 Cr. Hrs.**

(Lab Required) The course is an introduction to the principles of optical, active and passive microwave remote sensing. A review of satellite and sensors and their geographic applications will be presented, along with digital image analysis techniques. Laboratory assignments will provide hands-on experience in dealing with remote sensing data. Prerequisites: [(GEOG 1200) or GEOG 1201 (C), or GEOG 1290 or GEOG 1291 (C)], and [PHYS 1020 or PHYS 1021 (C), or PHYS 1050 or PHYS 1051 (C), or MATH 1300 or MATH 1301 (C), or MATH 1500 or MATH 1501 (C)], or permission of department head.

**GEOG 3272 Social Vulnerability to Natural Hazards (HS)** **3 Cr. Hrs.**

This course examines differing social vulnerability to natural hazards, before, during and after disasters, including class, gender, age, health, language, and ethnicity. Prerequisite: a grade of C or better in a minimum of 3 credit hours from Geography courses numbered at the 1000 level, or GPE 1700 or GEOL 1340 or GEOL 1410 or permission of department head.

**GEOG 3310 Atmospheric Dynamics, Storms and Radar (PS)** **3 Cr. Hrs.**

The course covers the critical dynamic processes that are associated with the Earth's atmosphere including forces that control wind, the kinematics of the wind field, general circulation, hodographs, thermal wind, laws of motion, mid-latitude circulations, convective storms and the utility of weather radar. Prerequisite: GEOG 2300 (C), or permission of department head.

**GEOG 3320 Introduction to Microclimates and Micrometeorology (PS)** **3 Cr. Hrs.**

This course introduces the concept of energy balance climatology and examines relationships among climate, microclimate, and environments of the Earth's surface and human-made environments. Studies include bioclimates and hydroclimates. Prerequisites: (GEOG 2310 (C)), and (GEOG 2300 (C)), or permission of department head.

**GEOG 3340 Migration and Mobility in a Globalized World** **3 Cr. Hrs.**

This course surveys the geographic dimensions of migration and mobility of populations, with emphasis of contemporary events. Prerequisites: a grade of C or better in GEOG 2330 or (GEOG 2480), or permission of department head.

**GEOG 3390 Introduction to Climate Change and Its Causes (PS)** **3 Cr. Hrs.**

The primary objective of this course is to provide students with a general understanding of the physical and astronomical factors that drive global climate change. Focus will be given to current and future climate change in

the context of observations and modeling. Not to be held with GEOG 3610. Prerequisite: a minimum of three credit hours from Geography or Environment courses, or permission of department head.

**GEOG 3460 Urban Geography (HS)** **6 Cr. Hrs.**

The course studies the processes and trends of urbanization; the classification of cities; central-place theory; cities as systems; land-use patterns; social forces and factorial ecology; and urban transport problems. Prerequisite: (GEOG 1200) or GEOG 1201 (C), or GEOG 1280 or GEOG 1281 (C), or permission of department head.

**GEOG 3640 Social Geography of the Environment (HS)** **3 Cr. Hrs.**

This course provides an intermediate-level assessment of current geographical approaches to society and environment. Students are exposed to critical realist, social constructionist, Marxist, feminist and post-Colonial traditions as they are applied to environmental and social justice, globalization and public health. It includes discussion and a community-based learning project. Prerequisite: a grade of C or better in (GEOG 1200 or GEOG 1201) or GEOG 1280 or GEOG 1281, or permission of department head.

**GEOG 3730 Geographic Information Systems (TS)** **3 Cr. Hrs.**

(Lab Required) Weekly two-hour lab. The course introduces students to the evolving science, technology and applications of Geographic Information Systems (GIS). Related geospatial technologies such as Global Navigation Satellite Systems and Remote Sensing, as well as the field of Geomatics will be introduced. Prerequisite: a grade of C or better in a minimum of three credit hours from Geography, Geology or Environment courses numbered at the 1000 and/or 2000 level, or permission of instructor or department head. Not to be held with GEOG 2250.

**GEOG 3740 Field Studies in Geography (A,TS)** **6 Cr. Hrs.**

A field course designed to introduce students to either a detailed area study or to field techniques employed for specific geographic enquiry. Prerequisite: Permission of department head.

**GEOG 3750 Field Studies in Geography (A,TS)** **3 Cr. Hrs.**

A field course designed to introduce students to either a detailed area study or to field techniques employed for specific geographic enquiry. Prerequisite: a grade of C or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

**GEOG 3760 Special Topics in Geography** **6 Cr. Hrs.**

This course will vary from year to year depending on the needs of students and the interests of instructors. Prerequisite: Permission of department head.

**GEOG 3770 Special Topics in Geography** **3 Cr. Hrs.**

This course will vary from year to year depending on the needs of students and the interests of instructors. Prerequisite: Permission of department head.

**GEOG 3810 Quantitative Research Methods in Geography (TS)** **3 Cr. Hrs.**

This course focuses on the quantitative analytical methods available for the interpretation on physical and human geography applications. May not be held with GEOG 3680. Prerequisite: ENVR 2810 or the former GEOG 2530 or STAT 1000 or STAT 1001, or permission of department head.

**GEOG 3850 Sustainable Manitoba (A)** **3 Cr. Hrs.**

This course approaches local sustainability issues from an interdisciplinary perspective. By looking at the ecological, social and economic aspects from a variety of discipline perspectives, a fuller understanding of sustainability is achieved. The broad range of perspectives is achieved through participation of guest speakers from other faculties and outside of the university as well as excursion outside the classroom. Not to be held with ENVR 3850. Prerequisite: 60 credit hours of course work, or permission of department head.

**GEOG 3860 Animal Geographies (HS)** **3 Cr. Hrs.**

This course presents a variety of topics concerning the interactions between humans and animals, how humans influence and use animals, and the many roles animals play in human lives and environments. Animal Geographies lies at a meeting point between physical and human

geography, where we must consider the blurring boundaries between what it means to be animal/human, and the implications of how animals are used and represented. A wide variety of perspectives, beliefs, and points of view will be explored. Prerequisite: Permission of department head.

**GEOG 3870 Food Geographies 3 Cr. Hrs.**

This course provides a critical examination of the geographies of food at a variety of scales, from the body to the global. The course focuses on themes in three interconnected areas: 1) food production and the global food system from farm to plate including agribusiness and alternative food production and distribution models; 2) food consumption habits and beliefs and foodways as geographically contingent material culture; and 3) food (in) security and its relationship to health and wellbeing. This course is cross-listed as HNSC 3870. May not be held with HNSC 3870. Prerequisite: a grade of C or better in GEOG 1280 or GEOG 1281 or HNSC 1200 or GEOG 1200, or permission of department head.

**GEOG 3890 Geography and Wellnes (HS) 3 Cr. Hrs.**

This course explores how human environment relations influence our mental, emotional, and physical wellbeing. Students will delve into current research in health and wellness geography and related disciplines, particularly focusing on: therapeutic landscapes, ecological loss and grief, sacred spaces, and environmental influences on mental wellbeing. Also offered as ENVR 3890. May not be held with ENVR 3890. Prerequisite: ENVR 1000 or GEOG 1200 or GEOG 1280 or GEOG 1700 or GPE 1700 or permission of the department head.

**GEOG 3920 Biological Oceanography 1: Lower Trophic Levels 3 Cr. Hrs.**

In this course, students will gain a background on the study of biological oceanography. Biological oceanography is a very active and important field of study worldwide due to the spatial coverage and biological activity of the world's oceans. This course examines the interaction of marine organisms with other biological life, as well as with the physical environment. Prerequisite: A minimum grade of "C" in both GEOG 2930 and BIOL 1030.

**6.7 Geography Course Descriptions-4000 Level**

**GEOG 4050 Ecosystem Management 3 Cr. Hrs.**

This course will provide students with an understanding of the practical applications of ecological science, environmental policy, and resource management approaches in the large-scale planning of landscapes. The course will review ecological principles and trace the historical development of the ecosystem concept. Comparisons are made to other possible environmental management approaches. The synthesis of major elements and concepts will be reinforced through case studies on the Manitoba landscape, with an emphasis on practical learning by students through field seminars and group discussions. Not to be held with ENVR 4050. Prerequisite: Permission of department head.

**GEOG 4060 Biogeography 3 Cr. Hrs.**

This course will provide students with a general understanding of the historical, ecological, analytical, and conservation aspects of biogeography. The course will also have a dual focus on the principles and concepts of reasons for the distribution of plants and animals worldwide, as well as incorporating discussion on as many local (Manitoba, Canada, North America) examples as possible. Not to be held with ENVR 4060. Prerequisite: Permission of department head.

**GEOG 4200 Advanced Methods in Remote Sensing 3 Cr. Hrs.**

(Lab Required) Provides instruction in the current theory and application of remote sensing technology to Earth system Science. Emphasis will be placed on the processing and interpretation of remote sensing imagery and the integration of remote sensing data with other spatial data. Prerequisite: GEOG 3200 (C), or permission of department head.

**GEOG 4260 Sacred Lands 3 Cr. Hrs.**

Students will increase their understanding of the importance and significance of Sacred Lands and Sacred Spaces to International Indigenous Peoples. Experiential learning, seminars, and a field component may be

included. Not to be held with NATV 4260. Prerequisite: Permission of department head.

**GEOG 4280 Gender and the Human Environment 3 Cr. Hrs.**

This upper-level seminar course will develop in students a depth and breadth of understanding appropriate to the honours undergraduate/graduate level in the area of gender geography scholarship. From critical social science theoretical positions, this course asks students to examine what we can learn about how humans live on the earth if we see them as gendered. Just as we may also understand humans and their interactions in and with spaces, places and environments through the lenses of race, ethnicity, class, age and/or combinations of these categories with gender. Prerequisite: a grade of C or better in a minimum of six credit hours in Geography, or permission of department head.

**GEOG 4290 Geographies of Health and Health Care 3 Cr. Hrs.**

This course provides an introduction to and critical examination of the geographies of health and healthcare. Topics include perceptions and determinations of health and health care; health care delivery, focusing on spatial patterns and inequities; and the relationship between environment and health, particularly impacts of environmental contamination. Prerequisite: Permission of department head.

**GEOG 4300 Synoptic Meteorology and Weather Analysis 3 Cr. Hrs.**

Applied aspects of meteorology are described in terms of weather analysis and forecasting techniques for synoptic-scales and meso-scales using various meteorological tools. An introduction to severe weather forecasting techniques will also be described. Prerequisite: GEOG 3310 (C), or permission of department head.

**GEOG 4310 Boundary-Layer Climatology and Micrometeorology 3 Cr. Hrs.**

A seminar course on advanced topics in microclimatology and micrometeorology. Prerequisite: GEOG 3320 (C), or permission of department head.

**GEOG 4330 Concepts in Atmospheric Modeling 3 Cr. Hrs.**

This course will primarily focus on numerical modeling applications and techniques of the Earth's atmosphere with an emphasis on weather prediction. This includes understanding basic modeling terminology, numerical schemes, structure of models, types of models, what is required to run a model, and an introduction to data assimilation and ensemble techniques to weather prediction. Not to be held with GEOG 4320. Prerequisite: GEOG 3310 (C) or GEOG 3320 (C), or permission of department head.

**GEOG 4350 Parks and Protected Areas Planning and Management: Field Studies 6 Cr. Hrs.**

The course is taught in two segments, an on-campus component and field study component taking place in Banff National Park. The on-campus component examines the historical development of the concept of parks and protected areas, the role of interpretation, management and research in the parks and emerging issues in the management of parks and protected areas. In addition, during the on-campus component planning for the field will take place. The field segment will focus on a wide variety of management issues with particular attention to Banff National Park. Emerging issues and trends will be examined and past management responses evaluated. There will be opportunities for students to investigate specific management issues of interest to them and to participate in current research being conducted in the park. This course is also offered in the Faculty of Kinesiology and Recreation Management as REC 4350. Prerequisite: Permission of department head.

**GEOG 4390 Global Climate Change 3 Cr. Hrs.**

Students will be introduced to the complexities of climate changes through a series of introductory lectures and reading assignments that focus on recent scientific publications and review articles (mathematical skills are not required). Both sides of the climate change debate will be addressed in weekly assignments, and students will defend their conclusions in classroom discussion. Each student will take on a project in some aspect of climate change -- glaciers, sea ice, temperature trends, precipitation, agriculture, animal migration, aerosols, or a regional impact. Prerequisite: a

grade of C or better in GEOG 3390 (or GEOG 3610), or permission of department head.

**GEOG 4560 Techniques in Climatology 3 Cr. Hrs.**

Instrumentation, the sources of climatic data, and the use of satellite photography, as well as methods of analysis and presentation are discussed. Prerequisite: GEOG 3320 (C), or permission of department head.

**GEOG 4650 Models in Regional Analysis 3 Cr. Hrs.**

Emphasis is placed on the use of regression techniques in regional analysis including the classical ordinary least squares methods and two-stage least squares. Migration and industrial location models are developed and calibrated using these techniques. Prerequisite: Permission of department head.

**GEOG 4660 Honours Thesis 6 Cr. Hrs.**

This course involves the production of a thesis under the supervision of a department faculty member. Prerequisite: Permission of department head.

**GEOG 4670 Selected Issues 3 Cr. Hrs.**

Intensive study of selected geographic issues. Prerequisite: Prearranged written consent of an individual instructor and permission of department head.

**GEOG 4750 Understanding Contemporary Environmentalism: Power and Discourse 3 Cr. Hrs.**

This course will provide students with an advanced understanding of the relationships between nature and society by examining the rise of environmentalism through the past 50 years. Special attention will be paid to recent developments within the field of environmentalism and to theoretical work in the field of political ecology. Prerequisite: Permission of the Instructor.

**GEOG 4780 Storms-Mesoscale 3 Cr. Hrs.**

This course focuses on a range of storms and mesoscale phenomena in the summer or winter. These include thunderstorms, tornadoes, squall lines, lightning, low level jets, gust fronts, blizzards, freezing rain, orographic storm, and polar lows. The emphasis is on the physical mechanisms leading to these events and it also examines how they may change in our changing climate. Not to be held for credit with GEOG 7780. Prerequisite: A grade of "C" or better in GEOG 3310 or permission of department head.

**GEOG 4872 Advanced Methods in Geomatics 3 Cr. Hrs.**

This course focuses on the theory and application of geomatics in spatial problem solving in geography and the environment. The use of geomatics' technologies including GIS, Earth observation and spatial numerical methods will be covered. Students will learn the theoretical underpinning of spatial statistical concepts and will experiment with data exploration, inference and hypothesis testing. Lab assignments will provide practical experience with GIS and other geomatics software as well as CRAN-R. Not to be held with ENVR 4872, GEOG 4590 or GEOG 4720. Prerequisite: GEOG 3730 or permission of Instructor.

**GEOG 4930 Oceanography: Chemical 3 Cr. Hrs.**

This course deals with the sources, distribution, and transformation of chemical constituents of the oceans, and the processes that control them. The emphasis will be given to biologically or climatically significant elements such as carbon, nitrogen, phosphorus, iron and mercury in the Arctic Ocean. Prerequisite: ENVR 2550 and GEOG 2930 or permission by department head.

**GEOG 4940 Artic Sea Ice 3 Cr. Hrs.**

This course aims to (i) provide students with a strong background on the importance and current knowledge of Arctic sea ice and (ii) train students on current field techniques used in research pertaining to sea ice-related investigations. To attain these goals, the course will combine field safety training, classroom lectures and assignments, and direct field experience through a field trip pertaining to physical and biogeochemical processes of the snow-covered sea-ice environment. Prerequisite: permission of the instructor.

**GEOG 4960 Oceanography: Biological II Higher Trophic Levels 3 Cr. Hrs.**

This course will examine the oceanographic-biological coupling occurring in the Arctic region, focusing on environmental conditions related to higher trophic levels and impacts of climate change. This course will extend the learning of the 3000-level course that examines biological oceanography, which focuses on the environmental factors that control primary production and lower trophic levels in the world's oceans. Prerequisite: A minimum grade of "C" in both GEOG 3920 and a 2000- level BIOL course or permission of instructor.

## SECTION 7: Bachelor of Environmental Science and Bachelor of Environmental Studies Degree Regulations, Program Descriptions and Courses Offered by

### 7.1 Program Information

The Clayton H. Riddell Faculty of Environment, Earth, and Resources offers General, Major, and Honours degree programs leading to a Bachelor of Environmental Science (B.Env.Sc.) and Bachelor of Environmental Studies (B.Env.St.). Through an interdisciplinary approach, environmental issues relating to human populations, sustainable resource development, pollution and conservation, environmental health, and endangerment and preservation of species are explored in conjunction with alternative conditions that have the potential to reverse current trends and contribute to ecological sustainability. Students have access to undergraduate courses offered by the Clayton H. Riddell Faculty of Environment, Earth, and Resources as well as the Faculties of Agricultural and Food Sciences, Arts, Law, Engineering, Architecture, and Science in order to complete their education. They are expected to take many courses outside the Riddell Faculty enabling them to obtain a truly interdisciplinary education.

The Major and Honours degree programs serve students who desire advanced study in an environmental field. The programs are intended for students interested in professional training and the opportunity for advanced research. Honours degree programs demand higher academic performance and lead most directly to graduate studies. Students who are ineligible to enter the Honours degree program in their third year may establish this in the following year on the basis of their improved scholastic performance. See a Riddell Faculty student advisor in the Faculty general office for information. The degree programs may be pursued on a full- or part-time basis.

The B.Env.Sc. and B.Env.St. degree programs share a general structure that includes a foundation of either introductory Sciences or Social Sciences/ Humanities. Students complete an environmental core and a Focus Area that is defined through consultation with a Riddell Faculty student advisor in the Faculty general office. Students completing the General degree program are required to complete 9 credit hours in a Focus Area; Major, Major Coop, Honours and Honours Coop students complete 33 credit hours in a Focus Area. Other Focus Area requirements are defined in the graduation requirements in section 7.3.1 in this Chapter. You may also refer to the Focus Area Brochure for further information.

### General

To qualify for the degree Bachelor of Environmental Science (General) or Bachelor of Environmental Studies (General), students must complete 90 credit hours including all faculty and degree requirements (including the foundation, environmental core and 9 credit hours of minimum 2000-level courses in a Focus Area). Minimum performance requirements include passing grades ('D' or better) in each course and a minimum degree Grade Point Average of 2.00. There is no limit to the number of credit hours a student completes provided he/she does not exceed 48 credit hours of failed courses.

**Major**

To qualify for the degree Bachelor of Environmental Science (Major) or Bachelor of Environmental Studies (Major), a student must complete 120 credit hours with a minimum degree grade point average of 2.00. Focus Area requirements are as follows: 33 credit hours of which 21 credit hours must be completed at the 3000- or 4000-level; 2.00 Grade Point Average. Major (Coop) students must attain a minimum degree Grade Point Average of 2.50. There is no limit to the number of credit hours a student completes provided he/she does not exceed 18 credit hours of failed courses.

**Honours**

To qualify for the degree Bachelor of Environmental Science (Honours) or Bachelor of Environmental Studies (Honours), a student must complete 120 credit hours with a minimum degree grade point average of 3.25. Focus Area requirements are as follows: 33 credit hours of which 21 credit hours must be completed at the 3000- or 4000-level; 3.00 Grade Point Average and minimum 'C+' grades. There is no limit to the number of credit hours a student completes provided he/she does not exceed 18 credit hours of failed courses.

**Minor in Another Department**

Students in the B.Env.Sc. and B.Env.St. have the opportunity to complete a Minor in a subject field that is different than that of the declared major, and which normally consist of 18 credit hours from a department offering this option at the University of Manitoba. Students are not permitted to complete a Minor in Environmental Science or Environmental Studies. Contact a [Riddell Faculty student advisor](#) in the Faculty general office for further information about eligible Minors.

**Eco-Canada Accreditation**

The Environmental Science program is accredited to the [National Standard of Environmental Programs](#) in Canada by ECO Canada.

**7.2 Advanced Entry Requirements**

Advanced Entry students are placed in the Major degree program in either the Bachelor of Environmental Science or Bachelor of Environmental Studies until they have completed a minimum of 48 credit hours after which they can transfer to the General or Honours program or remain in the Major. To make a program transfer, students must consult with a [Riddell Faculty student advisor](#).

Transfer students, and Second Degree students may be eligible for direct entry into the General or Honours programs. These students should consult with a [Riddell Faculty student advisor](#) in the Faculty Dean's Office.

7.2.1 and 7.2.2 define the Advanced Entry Entrance requirements for the degree programs in the Bachelor of Environmental Science and Bachelor of Environmental Studies, respectively.

**7.2.1 Bachelor of Environmental Science Advanced Entry Entrance Requirements**

Degree Program in B.Env.Sc.	Minimum Number of Credit Hours	Minimum Degree Grade Point Average	Additional Advanced Entry Entrance Requirements
Honours	48	3.25	No failures on entry <sup>1</sup> ; a grade of 'B' or better in ENVR 1000 and ENVR 2000 as well as a minimum 'C+' in 6 hours of BIOL 1020 <sup>3</sup> , BIOL 1030 <sup>3</sup> or CHEM 1310 <sup>3</sup> and 'C' in the other course.
Honours (Coop) <sup>2</sup>	60	3.25	No failures on entry <sup>1</sup> ; ENVR 2900; students must satisfy the requirements for entrance/continuation in the regular program and (normally) have completed ENVR 1000, ENVR 2000, ENVR 2810, ENVR 3160, STAT 1000 <sup>3</sup> , STAT 2000 <sup>3</sup> , BIOL 2300 <sup>3</sup> (AGEC 2370), ECON 2390 (ABIZ 2390), BIOL 1020 <sup>3</sup> , BIOL 1030 <sup>3</sup> and one of GEOG 1290 <sup>3</sup> or GEOL 1340.
Major	24	2.00	12 credit hours in ENVR 1000, ENVR 2000, BIOL 1020 <sup>3</sup> , BIOL 1030 <sup>3</sup> , CHEM 1300 <sup>3</sup> , CHEM 1310 <sup>3</sup> , STAT 1000 <sup>3</sup> , STAT 2000 <sup>3</sup> , MATH 1500 <sup>3</sup> (or MATH 1200 <sup>3</sup> , MATH 1300 <sup>3</sup> , MATH 1310, MATH 1510, MATH 1520), one of GEOG 1290 <sup>3</sup> or GEOL 1340, PHYS 1020 <sup>3</sup> (or PHYS 1050 <sup>3</sup> ), PHYS 1030 <sup>3</sup> (or PHYS 1070 <sup>3</sup> ), with a grade of 'C+' or better in six of the 12 credit hours, and a grade of 'C' or better in the remaining six credit hours.
Major (Coop) <sup>2</sup>	60	2.50	ENVR 2900; students must satisfy the requirements for continuation in the regular program and (normally) have completed ENVR 1000, ENVR 2000, ENVR 2810, ENVR 3160, STAT 1000 <sup>3</sup> , STAT 2000 <sup>3</sup> , BIOL 2300 <sup>3</sup> (AGEC 2370), ECON 2390 (ABIZ 2390), BIOL 1020 <sup>3</sup> , BIOL 1030 <sup>3</sup> , and one of GEOG 1290 <sup>3</sup> or GEOL 1340.
<b>General</b>	<b>48</b>	<b>2.00</b>	

<sup>1</sup> Students may be permitted to enter the program without satisfying all requirements listed. Students should consult with a Student Advisor for further information.

<sup>2</sup> Students may be permitted to enter the program without satisfying all requirements listed. Students should consult with the [Cooperative Education](#) Coordinator for further information.

<sup>3</sup> Equivalent courses offered through Université de Saint-Boniface may be used in lieu of the specified course identified in the entrance requirements chart.

**7.2.2 Bachelor of Environmental Studies Advanced Entry Entrance Requirements**

Degree Program in B.Env.St.	Minimum Number of Credit Hours	Minimum Grade Point Average	Additional Advanced Entry Entrance Requirements

Honours	48	3.25	No failures on entry <sup>1</sup> ; a grade of 'B' or better in ENVR 1000 and ENVR 2000; GEOG 1280 <sup>3</sup> and GEOG 1290 <sup>3</sup> , ENVR 3160, with a grade of 'C+' or better in six of the 15 credit hours, and a grade of 'C' or better in the remaining nine credit hours.
Honours (Coop) <sup>2</sup>	60	3.25	No failures on entry <sup>1</sup> ; ENVR 2900; students must satisfy the requirements for Entrance/continuation in the regular program and (normally) have completed ENVR 1000, ENVR 2000, ENVR 2350, ENVR 3160, GEOG 1280 <sup>3</sup> and GEOG 1290 <sup>3</sup> , ECON 2390 (ABIZ 2390), STAT 1000 <sup>3</sup> , one of BIOL 2390 <sup>3</sup> (or AGECE 2370) (or BIOL 2300 <sup>3</sup> ), and one of BIOL 1010 <sup>3</sup> , (or BIOL 1030 <sup>3</sup> ).
Major	24	2.00	12 credit hours taken from ENVR 1000, ENVR 2000, BIOL 1010 <sup>2</sup> (or BIOL 1030 <sup>2</sup> ), STAT 1000 <sup>2</sup> , NATV 1220, GEOG 1280 <sup>3</sup> or GEOG 1290 <sup>3</sup> ; with a grade of 'C+' or better in six of the 12 credit hours, and a grade of 'C' or better in the remaining six credit hours.
Major (Coop) <sup>1</sup>	60	2.50	ENVR 2900; students must satisfy the requirements for continuation in the regular program and (normally) have completed ENVR 1000, ENVR 2000, ENVR 2350, ENVR 3160, GEOG 1280 <sup>3</sup> and GEOG 1290 <sup>3</sup> , ECON 2390 (ABIZ 2390), STAT 1000 <sup>3</sup> , one of BIOL 2390 <sup>3</sup> (AGECE 2370) or BIOL 2300 <sup>3</sup> ), and one of BIOL 1010 <sup>3</sup> (or BIOL 1030 <sup>3</sup> ).
<b>General</b>	<b>48</b>	<b>2.00</b>	

<sup>1</sup>Students may be permitted to enter the program without satisfying all requirements listed. Students should consult with a Student Advisor for further information.  
<sup>2</sup>Students may be permitted to enter the program without satisfying all requirements listed. Students should consult with the [Cooperative Education](#) Coordinator for further information.  
<sup>3</sup>Equivalent courses offered through Université de Saint-Boniface may be used in lieu of the specified course identified in the entrance requirements chart.

**7.3 Minimum Performance Requirements for Continuation and Graduation**

A student's academic performance will be assessed with his/her application for admission to the Clayton H. Riddell Faculty of Environment, Earth, and Resources and following each *term* thereafter. A Riddell Faculty student advisor must approve a student's registration each Fall/Winter term. Any revisions to this schedule should also be approved prior to the end of the registration revision period.

To be in **good standing** and permitted to continue in a degree program, a student must achieve the minimum standards outlined in section 7.3.1 at each point of assessment. This assessment is based on the student's minimum degree Grade Point Average and the number of failed courses after admission to the Riddell Faculty.

To graduate from either a Bachelor of Environmental Science or the Bachelor of Environmental Studies with the intended degree designation, a student must achieve the minimum standards and graduation requirements outlined in section 7.3.1 following the final term of registration and satisfy all degree course requirements in the foundation, environment core and Focus Area as defined in section 7.1 of this *Chapter*. In addition, students must satisfy the residence requirement by completing either a total of 48 credit hours or their last 24 credit hours at the University of Manitoba. These courses must be acceptable for credit in either the Bachelor of Environmental Science or the Bachelor of Environmental Studies.

Students who do not meet these minimum performance requirements for continuation or graduation will be required to transfer to the appropriate program based on their performance and eligibility as defined in 7.3.1. Students who do not meet the minimum performance requirements for the General degree program will be placed on probation or academic suspension as defined in section 3.14 Academic Warning, Probation, Academic Suspension and Special Students (Academic Standing) in this *Chapter*.

Students required to withdraw from the Honours degree program will have the statement 'Required to Withdraw from the Honours Program' recorded on their transcript. Similarly, students required to withdraw out of the Major degree program will have the statement 'Required to Withdraw from the Major Program' recorded on their transcript.

7.3.1 Minimum Performance Requirements					
	Minimum Performance Requirements			Additional Graduation Requirements <sup>1</sup>	
Degree Program (Credit Hours)	Minimum Degree Grade Point Average (DGPA)	Maximum Credit Hours of Failures	Focus Area	Minimum credit hours of course work completed at the 3000- and 4000-levels	Coop Option Courses
Honours (120)	3.25	18	33 credit hours of which 21 must be at the 3000- or 4000-level; minimum cumulative GPA of 3.00; minimum 'C+' grade in each course.	39 credit hours	
Honours Coop (120)	3.25	18	33 credit hours of which 21 must be at the 3000- or 4000-level; minimum cumulative GPA of 3.00. minimum 'C+' grade in each course.	39 credit hours	ENVR 2900, ENVR 3900, ENVR 3910, ENVR 3980, ENVR 3920, ENVR 3990; (ENVR 4910 and ENVR 4980 are optional)
Major (120)	2.00	18	33 credit hours of which 21 must be at the 3000- or 4000-level; minimum	33 credit hours	

			cumulative GPA of 2.00.		
Major (Coop) (120)	2.50	18	33 credit hours of which 21 must be at the 3000- or 4000-level; minimum cumulative GPA of 2.00.	33 credit hours	ENVR 2900, ENVR 3900, ENVR 3910, ENVR 3980, ENVR 3920, ENVR 3990; (ENVR 4910 and ENVR 4980 are optional)
General (90)	2.00	48	9 credit hours		

<sup>1</sup>Students must satisfy the residence requirement for the degree program in order to be eligible for graduation. This is defined as either a total of 48 or the last 24 credit hours at the University of Manitoba.

**7.4 Graduating with Distinction or First Class Honours**

**With Distinction**

Students graduating with a Bachelor of Environmental Science (General) or Bachelor of Environmental Studies (General) degree will have their degree granted 'With Distinction' if they have a minimum Degree Grade Point Average of 3.50 on all course work.

Students graduating with a Bachelor of Environmental Science (Major) or Bachelor of Environmental Studies (Major) degree will have their degree granted 'With Distinction' if they have a minimum Degree Grade Point Average of 3.50 on all course work.

The term Degree with Distinction will appear both on the parchment and on the student's transcript.

**First Class Honours**

Students in the Honours program will have their degree granted with 'First Class Honours' if they have a minimum Degree Grade Point Average of 3.50 based on all acceptable course work. The term First Class Honours will appear both on the parchment and on the student's transcript.

**7.5 Bachelor of Environmental Science Program Chart**

Bachelor of Environmental Science <sup>1,2</sup>			
YEAR 1	YEAR 2	YEAR 3	YEAR 4
<b>HONOURS 120 CREDIT HOURS</b>			
ENVR 1000, ENVR 2000, BIOL 1020, BIOL 1030, CHEM 1300, CHEM 1310, MATH 1500 <sup>3</sup> , STAT 1000, ECON 1010	ENVR 2810 <sup>8</sup> , ENVR 3160 <sup>9</sup> , BIOL 2300 (or AGECE 2370), ECON 2390 (ABIZ 2390), PHYS 1020 <sup>5</sup> , STAT 2000	ENVR 4110, ENVR 4500	Plus 33 credit hours in an approved Focus Area <sup>7</sup>
Plus 3 credit hours from the Faculty of Arts <sup>4</sup>	One of PHYS 1030 <sup>5</sup> , MATH 1200, MATH 1300 <sup>6</sup> , MATH 1700 <sup>6</sup>  One of GEOG 1290 or GEOL 1340 (or GEOL 1440)	Enough elective credit to total 120 credit hours for the program.	
The W course must be completed within the first 60 credit hours of coursework.			

<b>HONOURS COOPERATIVE OPTION 120 CREDIT HOURS</b>		
ENVR 1000, ENVR 2000, BIOL 1020, BIOL 1030, CHEM 1300, CHEM 1310, MATH 1500 <sup>3</sup> , STAT 1000, ECON 1010	ENVR 2810 <sup>8</sup> , ENVR 3160 <sup>9</sup> , BIOL 2300 (or AGECE 2370), ECON 2390 (ABIZ 2390), PHYS 1020 <sup>5</sup> , STAT 2000, ENVR 2900	ENVR 4110, ENVR 4500
Plus 3 credit hours from the Faculty of Arts <sup>4</sup>	One of PHYS 1030 <sup>5</sup> , MATH 1200, MATH 1300 <sup>6</sup> , MATH 1700 <sup>6</sup>  One of GEOG 1290 or GEOL 1340 (or GEOL 1440)	Plus 33 credit hours in an approved Focus Area <sup>7</sup>  ENVR 3900, ENVR 3980, ENVR 3990, ENVR 3910, ENVR 3920 (ENVR 4980 and ENVR 4910 are optional)  Enough elective credit to total 120 credit hours for the program.
The W course must be completed within the first 60 credit hours of coursework.		
<b>MAJOR 120 CREDIT HOURS</b>		
ENVR 1000, ENVR 2000, BIOL 1020, BIOL 1030, CHEM 1300, CHEM 1310, MATH 1500 <sup>3</sup> , STAT 1000, ECON 1010	ENVR 2810 <sup>8</sup> , ENVR 3160 <sup>9</sup> , BIOL 2300 (or AGECE 2370), ECON 2390 (ABIZ 2390), PHYS 1020 <sup>5</sup> , STAT 2000	ENVR 4110

	One of GEOG 1290 or GEOL 1340 (or GEOL 1440)	
--	--	--

**MINOR 18 CREDIT HOURS**

ENVR 1000, ENVR 2000	12 credit hours of ENVR courses numbered at the 2000-level or above.
----------------------	--

**NOTES:**

<sup>1</sup> Advanced Entry into the degree programs is summarized in section 7.2.1 of this Chapter.

<sup>2</sup> The courses required in this program will satisfy the University Mathematics Requirements.

<sup>3</sup> MATH 1510 or MATH 1520 may be taken in place of MATH 1500 (or equivalent).

<sup>4</sup> It is recommended that students consider a selection from List A below when selecting courses from the Faculty of Arts.

<sup>5</sup> PHYS 1050 and PHYS 1070 may be used in lieu of PHYS 1020 and PHYS 1030.

<sup>6</sup> MATH 1310 and MATH 1710 may be taken in place of MATH 1300 and MATH 1700 (or equivalent).

<sup>7</sup> Focus Area courses must include a minimum of 21 credit hours at the 3000- and/or 4000-level. Focus Area performance requirements are defined in section 7.3 of this Chapter. Information on Focus Areas is available in the Focus Area Brochure.

<sup>8</sup> The former ENVR 2170 or the former ENVR 2270 may be used in lieu of ENVR 2810.

<sup>9</sup> The former ENVR 2650 may be used in lieu of ENVR 3160.

**IMPORTANT:** The Honours and Major programs need not be completed in the manner prescribed in the chart above. The chart indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their program.

**NOTE:**

- To fulfil prerequisite requirements, a grade of 'C' must be achieved, unless otherwise stated, in any course stipulated as a prerequisite to a further course.
- Students should review the current course topics available through ENVR 2010 (1.5), ENVR 2020 (3), ENVR 3000 (3), ENVR 3010 (1.5), ENVR 3020 (3), ENVR 4000 (3), ENVR 4010 (1.5), and ENVR 4020 (3) as well as those offered through GEOG 3740 (6), GEOG 3750 (3), GEOG 3760 (6), GEOG 3770 (3) and GEOG 4670 (3). Also, all courses are not offered every year or every term. The course schedule for the current academic term is available from the Class Schedule in Aurora.
- Students registering in certain courses may be required to participate in field trips or field components and pay a portion of the associated expenses. For details, contact the [Department of Environment and Geography general office](#).
- Equivalent courses offered through Université de Saint-Boniface may be used in lieu of the specified course identified in the program requirements chart.

**List A:** Recommended List of Faculty of Arts Electives. Students may wish to consider courses from the following list when identifying appropriate selections from the Faculty of Arts.

**\* In the list below indicates courses no longer offered.**

ANTH 1210 Human Origins and Antiquity (3)

ANTH 1220 Cultural Anthropology (3)

ANTH 1520 Critical Cultural Anthropology (3)

ECON 1020 Introduction to Macroeconomic Principles (3)

NATV 1200 The Indigenous Peoples in Canada (6)

NATV 1240 The Indigenous Peoples in Canada, Part 2 (3)

PHIL 1200 Introduction to Philosophy (6)

PHIL 1290 Critical Thinking (3)

PHIL 1320 Introductory Logic (6)

PHIL 1510\* Historical Introduction to Philosophy (6)

RLGN 1420 Ethics in World Religions (3)

RLGN 2180 Theory of Nature (3)

**7.6 Bachelor of Environmental Studies Program Chart**

Bachelor of Environmental Studies <sup>1,2</sup>			
YEAR 1	YEAR 2	YEAR 3	YEAR 4
<b>HONOURS 120 CREDIT HOURS</b>			
ENVR 1000, ENVR 2000, GEOG 1280, GEOG 1290, NATV 1220 <sup>3</sup> , BIOL 1010 <sup>4</sup> , STAT 1000, ECON 1010	ENVR 2350, ENVR 3160 <sup>7</sup> , ECON 2390 (ABIZ 2390), BIOL 2390 <sup>4</sup>  Plus 3 credit hours from List B <sup>5</sup>	GEOG 3810 <sup>8</sup> , ENVR 4110, ENVR 4500  Plus 33 credit hours in an approved Focus Area <sup>6</sup>  Enough elective credit to total 120 credit hours for the program.	
The W course must be completed within the first 60 credit hours of coursework.			
<b>HONOURS COOPERATIVE OPTION 120 CREDIT HOURS</b>			
ENVR 1000, ENVR 2000, GEOG 1280, GEOG 1290, NATV 1220 <sup>3</sup> , BIOL 1010 <sup>4</sup> , STAT 1000, ECON 1010	ENVR 2350, ENVR 3160 <sup>7</sup> , ECON 2390 (ABIZ 2390), BIOL 2390 <sup>4</sup> , ENVR 2900  Plus 3 credit hours from List B <sup>5</sup>	GEOG 3810 <sup>8</sup> , ENVR 4110, ENVR 4500  Plus 33 credit hours in an approved Focus Area <sup>6</sup>  ENVR 3900, ENVR 3910, ENVR 3920, ENVR 3980, ENVR 3990 (ENVR 4980 and ENVR 4910 are optional)  Enough elective credit to total 120 credit hours for the program.	
The W course must be completed within the first 60 credit hours of coursework.			
<b>MAJOR 120 CREDIT HOURS</b>			
ENVR 1000, ENVR 2000, GEOG 1280, GEOG 1290, NATV 1220 <sup>4</sup> , BIOL 1010 <sup>4</sup> , STAT 1000, ECON 1010	ENVR 2350, ENVR 3160 <sup>7</sup> , ECON 2390 (ABIZ 2390), BIOL 2390 <sup>4</sup>  Plus 3 credit hours from List B <sup>5</sup>	GEOG 3810 <sup>8</sup> , ENVR 4110  Plus 33 credit hours in an approved Focus Area <sup>6</sup>  Enough elective credit to total 120 credit hours for the program.	

The W course must be completed within the first 60 credit hours of coursework.		
<b>MAJOR COOPERATIVE OPTION 120 CREDIT HOURS</b>		
ENVR 1000, ENVR 2000, GEOG 1280, GEOG 1290, NATV 1220 <sup>3</sup> , BIOL 1010 <sup>4</sup> , STAT 1000, ECON 1010	ENVR 2350, ENVR 3160 <sup>7</sup> , ECON 2390 (ABIZ 2390), BIOL 2390 <sup>4</sup> , ENVR 2900  Plus 3 credit hours from List B <sup>5</sup>	GEOG 3810 <sup>8</sup> , ENVR 4110  Plus 33 credit hours in an approved Focus Area <sup>6</sup>  ENVR 3900, ENVR 3910, ENVR 3920, ENVR 3980, ENVR 3990 (ENVR 4980 and ENVR 4910 are optional)  Enough elective credit to total 120 credit hours for the program.
The W course must be completed within the first 60 credit hours of coursework.		
<b>GENERAL 90 CREDIT HOURS</b>		
ENVR 1000, ENVR 2000, GEOG 1280, GEOG 1290, NATV 1220 <sup>3</sup> , BIOL 1010 <sup>4</sup> , STAT 1000, ECON 1010	ENVR 2350, ENVR 3160 <sup>7</sup> , ECON 2390 (ABIZ 2390), BIOL 2390 <sup>4</sup>  Plus 3 credit hours from List B <sup>5</sup>	GEOG 3810 <sup>8</sup> , ENVR 4110  Plus 9 credit hours in an approved <a href="#">Focus Area</a> Enough elective credit to total 90 credit hours for the program.
<b>MINOR 18 CREDIT HOURS</b>		
ENVR 1000, ENVR 2000	12 credit hours of ENVR courses numbered at the 2000-level or above.	
<b>NOTES:</b>		
<sup>1</sup> Advanced Entry into the degree programs is summarized in 7.2.2.		
<sup>2</sup> The courses required in this program will satisfy the university mathematics requirements.		
<sup>3</sup> Students are permitted to substitute NATV 1220 with another 3 credit hours from the department (not a language) or approved alternative course. See the <a href="#">Riddell Faculty student advisor</a> for assistance.		
<sup>4</sup> Students with an interest in the Conservation and Biodiversity Focus Area (or other Focus Areas including advanced Biology courses) are advised to complete the combination of BIOL 1020 and BIOL 1030 as well as BIOL 2300 (or AGECE 2370) instead of BIOL 1010 and BIOL 2390.		
<sup>5</sup> Students must complete 3 credit hours of course work containing significant international content. Students are referred to List B for a list of available courses. Students may substitute with another course as approved by the student advisor.		
<sup>6</sup> Focus Area courses must include a minimum of 21 credit hours at the 3000- and/or 4000-level. Focus Area performance requirements are defined in section 7.3 of this Chapter. Information on Focus Areas is available in the <a href="#">Focus Area Brochure</a> .		
<sup>7</sup> ENVR 2650 may be used in lieu of ENVR 3160.		
<sup>8</sup> GEOG 3680 may be used in lieu of GEOG 3810.		
IMPORTANT: The Honours and Major programs need not be completed in the manner prescribed in the chart above. The chart indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their program.		

**NOTE:**

To fulfil prerequisite requirements, a grade of 'C' must be achieved, unless otherwise stated, in any course stipulated as a prerequisite to a further course.

Students should review the current course topics available through ENVR 2010 (1.5), ENVR 2020 (3), ENVR 3010 (1.5), ENVR 3020 (3), ENVR 4000 (3), ENVR 4010 (1.5), and ENVR 4020 (3) as well as those offered through GEOG 3740 (6), GEOG 3750 (3), GEOG 3760 (6), GEOG 3770 (3) and GEOG 4670 (3). Also, all courses are not offered every year or every term. The course schedule for the current academic term is available from the [Class Schedule in Aurora](#).

Students registering in certain courses may be required to participate in field trips or field components and pay a portion of the associated expenses. For details, contact the [Department of Environment and Geography general office](#).

Equivalent courses offered through Université de Saint-Boniface may be used in lieu of the specified course identified in the entrance requirements chart.

**List B:** Courses containing significant international content:

ABIZ 1010 Economics of World Issues and Policies (3)

ECON 2550 Political Economy 2: Economic Growth and Fluctuations in a Global Economic Environment (3)

ECON 3670 International Trade (3)

POLS 2040 Introduction to International Relations (6)

POLS 3220 Globalization and the World Economy (3)

POLS 3250 International Political Economy (3)

GEOG 4260 Sacred Lands (3)

or as approved by a [Riddell Faculty student advisor](#)

**7.7 Environment, Earth, and Resources Course Description****EER 1000 Earth: A User's Guide****3 Cr. Hrs.**

This course will present a multi-disciplinary introduction to the Planet Earth as both the source of essential resources and as the site of resulting negative impacts. Focus in the course will be provided by addressing important and current topics, case studies, and concepts that the well-educated citizen of the Earth should understand and will include natural and human-induced processes within a broad range of spatial and temporal scales.

**7.8 Environmental Science and Environmental Studies Course Descriptions-1000 Level****ENVR 1000 Environmental Science 1 - Concepts****3 Cr. Hrs.**

This course will introduce students to the conceptual framework of the environment by examining its physical, biological, and social components. General topics to be considered will include ecological principles and the responses of natural and managed systems to disturbance; population growth; biodiversity and conservation; and environmental sustainability. Not to be held with BIOL 1340.

**7.8 Environmental Science and Environmental Studies Course Descriptions-2000 Level****ENVR 2000 Environmental Science 2 - Issues****3 Cr. Hrs.**

This course will briefly review the major features of the structure and function of natural systems along with the degree to which these have been compromised. The main component of the course, however, will concentrate on the identification of the issues that underlie environmental degradation, while exploring alternative conditions that have the potential

to reverse current trends and ultimately contribute to ecological sustainability. Prerequisite: ENVR 1000 (C) or BIOL 1340 (C).

**ENVR 2010 Field Topics in Environment 1.5 Cr. Hrs.**

Field and practical experience in selected topics of current interest in the Environmental Science and Studies, with the content to vary depending on the needs of students and faculty. Prerequisite: Permission of department head.

**ENVR 2020 Extended Field Topics in Environment 3 Cr. Hrs.**

Field and practical experience in selected topics of current interest in the Environmental Science and Studies, with the content to vary depending on the needs of students and faculty. Prerequisite: Permission of department head.

**ENVR 2180 Introductory Toxicology 3 Cr. Hrs.**

A survey of general principles underlying the effects of toxic substances on biological systems, including consideration of the history, scope and applications of toxicology, the mechanisms of toxic action, and some major types of toxicants. Not to be held with ENVR 2190 or BIOL 2380 (BOTN 2180 or ZOOL 2180) or BIOL 2382 (BOTN 2190 or ZOOL 2190) or AGRI 2180 or AGRI 2190. Prerequisites: [BIOL 1030 or BIOL 1031 or (C)], and [(CHEM 1310 or CHEM 1311 (C), or CHEM 1320 (C)].

**ENVR 2190 Toxicological Principles 1.5 Cr. Hrs.**

A survey of general principles underlying the effects of toxic substances on biological systems, including consideration of the history, scope and applications of toxicology, and the mechanisms of toxic action. Not to be held with ENVR 2180 or BIOL 2380 (BOTN 2180 or ZOOL 2180), or BIOL 2382 (BOTN 2190 or ZOOL 2190), or AGRI 2180, or AGRI 2190. Prerequisites: [BIOL 1030 or BIOL 1031 (C)], and [CHEM 1310 or CHEM 1311 (C), or CHEM 1320 (C)].

**ENVR 2350 Technical Communication in the Environmental Sectors 3 Cr. Hrs.**

(Lab Required) An introduction to technical communication skills required for environmental practitioners in research, government, and industry. The course covers technical writing and literature search techniques, business writing including reports, memos and e-mails, professional presentation skills, and fundamental internet skills. Practical experience is gained through assignments and laboratory exercises. Prerequisite: ENVR 1000 or BIOL 1340 (C), or permission of department head.

**ENVR 2550 Environmental Chemistry 3 Cr. Hrs.**

(Lab Required) An introduction to the chemistry of the environment. Emphasis will be on the composition of the natural environment and the processes of natural and human-introduced chemical species that take place within it. The course will provide students with the chemical basis for understanding the environment and environmental problems. Not to be held with CHEM 2550. Prerequisite: CHEM 1310 or CHEM 1311 (C).

**ENVR 2810 Environmental Critical Thinking and Scientific Research 3 Cr. Hrs.**

Course is designed to aid students in the development of a skeptical, scientific approach to thinking about environmental and geographical problems and issues, as well as applying that skepticism and critical thinking to develop well balanced research hypotheses and data collection methods. May not be held with the former ENVR 2270 or the former GEOG 2530. Prerequisites: ENVR 1000 (C) or GEOG 1280 (C) or GEOG 1290 (C); GEOG 1700 (C) or GPE 1700 (C); or consent of department.

**ENVR 2900 Professional Development in the Environmental Sectors 1.5 Cr. Hrs.**

Through self directed learning students are introduced to the environmental sectors and issues including workplace health and safety, the respectful workplace, managing workloads and expectation, and professionalism. The course is a mandatory requirement to Cooperative Education Option admission. Prerequisite: 30 credit hours of university credit.

**7.8 Environmental Science and Environmental Studies Course Descriptions-3000 Level**

**ENVR 3000 Multidisciplinary Topics in Environmental Science 1 3 Cr. Hrs.**

Selected topics of current interest in the Environmental Sciences and Studies. Course content to vary with each offering depending on the needs and interests of students and faculty. Prerequisites: Permission of department head, and 60 credit hours of university credit.

**ENVR 3010 Field Topics in Environmental Science 1 1.5 Cr. Hrs.**

Field and practical experience in selected topics of current interest in the Environmental Sciences and Studies, with the content to vary depending on the needs and interests of students and faculty. Prerequisite: Permission of department head.

**ENVR 3020 Extended Field Topics in Environmental Science 1 3 Cr. Hrs.**

Field and practical experience in selected topics of current interest in the Environmental Sciences and Studies, with the content to vary depending on the needs and interests of students and faculty. Prerequisite: Permission of department head.

**ENVR 3110 Environmental Conservation and Restoration 3 Cr. Hrs.**

(Lab Required) Environmental conservation and restoration are introduced and approaches based on science and traditional knowledge are contrasted. An emphasis is placed on systems thinking and both local and international case studies. Prerequisites: BIOL 2390 (BOTN 2280 or ZOOL 2290) (C), or BIOL 2300 (BOTN 2370 or BOTN 2371 or ZOOL 2370 or ZOOL 2371) (C), or AGECE 2370 (C), or permission of department head.

**ENVR 3160 Environmental Responsibilities and the Law 3 Cr. Hrs.**

Environmental responsibilities and their legal framework in terms of policies, legislation, standards and guidelines and the tools to manage responsibility are examined through lectures, case study review and discussion. Environmental liability and due diligence are reviewed in relation to responsibilities of organizations and individuals. Strategies to manage environmental liabilities, including environmental and risk assessment, are also discussed. Not to be held with (ENVR 3150 or ENVR 2650). Prerequisite: ENVR 2000 (C) or permission of department head.

**ENVR 3180 Methods in Ecotoxicology 3 Cr. Hrs.**

(Lab Required) This is a laboratory-based course exploring the development, conduction and application of bioassays, biomarkers, bioindicators and biomonitors in ecotoxicology. Through a laboratory setting, students learn how to perform standard bioassays for a variety of species (plants and invertebrates) as well as systems (aquatic and terrestrial) at different levels of biological organization, from the individual to the ecosystem. Not to be held with (ENVR 3300). Prerequisites: a minimum grade of C in each of ENVR 2180 or BIOL 2380 (BOTN 2180, ZOOL 2180) or AGRI 2180, and a second year course in the Faculty of Science or the Faculty of Agricultural and Food Sciences that has a laboratory component, or permission of department head.

**ENVR 3250 Environmental Assessment 3 Cr. Hrs.**

(Lab Required) The theory, principles and practices of environmental assessment as a planning and decision-making process to identify and mitigate adverse effects of development projects. Environmental assessment is defined in the context of federal and provincial legislation, and applicable standards and guidelines. Laboratory assignments involve practical experiences, case study review and basic report preparation. Prerequisites: A grade of "C" or better in [ABIZ 3550 or ENVR 3160 or the former ENVR 3150] and [BIOL 2300 or BIOL 2301 or the former BOTN 2370 or the former BOTN 2371 or the former ZOOL 2370 or the former ZOOL 2371 or AGECE 2370] or [BIOL 2390 or the former BOTN 2280 or the former ZOOL 2290] or permission of department head.

**ENVR 3340 Circumpolar Cultures and Lifestyles 3 Cr. Hrs.**

This course provides an introduction to the culture, lifestyles, belief systems, material culture, art, environmental issues, and politics of Aboriginal Peoples in northern Canada, Greenland, Alaska, Siberia and Scandinavia. Prerequisite: Permission of department head.

**ENVR 3350 Environmental Management Systems 3 Cr. Hrs.**

This course provides an introduction to environmental management systems and specific material on the ISO 14001 international EMS standard.

Auditing principles and techniques are described with specific guidance on auditing an ISO 14001 EMS. Prerequisite: Permission of department head.

**ENVR 3400 Introduction to Environment and Health 3 Cr. Hrs.**

An overview of the linkages between human health and environmental issues. The course discusses the nature of environmental hazards, human exposure and health outcomes. Major environmental and human health issues such as air pollution, hazardous substances, endocrine disruptors and products in the home are covered. Prerequisite: 60 credit hours of university credit.

**ENVR 3500 Project in Environmental Science 3 Cr. Hrs.**

A research project in any aspect of environmental science, chosen in consultation with the department head and an appropriate supervising faculty member. Written reports and oral presentation on the results of the project will be required. The course is normally available only to final year students in the Environmental Science or Studies Program. Prerequisite: Permission of department head.

**ENVR 3550 Environmental Analysis 3 Cr. Hrs.**

(Lab Required) An introduction to classical and modern techniques for sampling, sample pre-treatment, and analysis of chemical substances in aquatic atmospheric and terrestrial environments and the interpretation of data obtained from such analyses. Not to be held with CHEM 3590. Prerequisite: ENVR 2550 (C), or CHEM 2550 (C), or CHEM 2470 (C), or permission of department head.

**ENVR 3750 Green Building and Planning 3 Cr. Hrs.**

An overview of the concepts and tools of Green building design and Green Planning. The course covers the history and trends in Green Building and Planning, related policies, tools and techniques. There is a strong emphasis on learning from local case-studies through seminars and field trips. Prerequisite: ENVR 2000 and 57 credit hours, or permission of department head.

**ENVR 3850 Sustainable Manitoba (A) 3 Cr. Hrs.**

This course approaches local sustainability issues from an interdisciplinary perspective. By looking at the ecological, social and economic aspects from a variety of discipline perspectives, a fuller understanding of sustainability is achieved. The broad range of perspectives is achieved through participation of guest speakers from other faculties and outside of the university as well as excursion outside the classroom. Not to be held with GEOG 3850. Prerequisite: 60 credit hours of course work, or permission of department head.

**ENVR 3890 Geography and Wellness 3 Cr. Hrs.**

This course explores how human environment relations influence our mental, emotional, and physical wellbeing. Students will delve into current research in health and wellness geography and related disciplines, particularly focusing on: therapeutic landscapes, ecological loss and grief, sacred spaces, and environmental influences on mental wellbeing. Also offered as GEOG 3890. May not be held with GEOG 3890. Prerequisite: ENVR 1000 or GEOG 1200 or GEOG 1280 or GEOG 1700 or GPE 1700 or permission of the department head.

**ENVR 3900 Professional Development in the Environmental Sectors 2 1.5 Cr. Hrs.**

Attendance and participation in seminars, conferences and workshops to foster greater interaction between students and practitioners in the environmental sectors. Students improve professional skill sets through assignments and mock interviews. The normal sequence for participation is after completion of ENVR 3980. Prerequisites: ENVR 2900 (C), and 60 credit hours of university credit.

**ENVR 3910 Coop Work Term Report 1 1.5 Cr. Hrs.**

Work term report, completed in conjunction with the coop placement, designed to integrate professional experiences with the concepts and theories explored through academic study. Students must be admitted into the Coop program to be registered, and receive credit. Prerequisite: ENVR 2900 (C). Prerequisite or Concurrent Requirement: ENVR 3980.

**ENVR 3920 Coop Work Term Report 2 1.5 Cr. Hrs.**

Work term report, completed in conjunction with the coop placement, designed to integrate professional experiences with the concepts and theories explored through academic study. Students must be admitted into the Coop program to be registered, and receive credit. Prerequisite: ENVR 3980 (P). Prerequisites or Concurrent Requirements: ENVR 3900, and ENVR 3990.

**ENVR 3980 Coop Work Term 1 0 Cr. Hrs.**

Work assignments in business, industry, research or government for students registered in the Honours or Major Cooperative program. This course is graded pass/fail. Prerequisite: ENVR 2900 (C).

**ENVR 3990 Coop Work Term 2 0 Cr. Hrs.**

Work assignments in business, industry, research or government for students registered in the Honours or Major Cooperative program. This course is graded pass/fail. Prerequisite or Concurrent Requirement: ENVR 3900.

**7.8 Environmental Science and Environmental Studies Course Descriptions-4000 Level**

**ENVR 4000 Multidisciplinary Topics in Environmental Science 2 3 Cr. Hrs.**

Selected topics of current interest in the Environmental Sciences and Studies. Course content to vary with each offering depending on the needs and interests of students and faculty. Prerequisites: Permission of department head, and 60 credit hours of university credit.

**ENVR 4010 Field Topics in Environmental Science 2 1.5 Cr. Hrs.**

Field and practical experience in selected topics of current interest in the Environmental Sciences and Studies, with the content to vary depending on the needs and interests of students and faculty. Prerequisite: Permission of department head.

**ENVR 4020 Extended Field Topics in Environmental Science 2 3 Cr. Hrs.**

Field and practical experience in selected topics of current interest in the Environmental Sciences and Studies, with the content to vary depending on the needs and interests of students and faculty. Prerequisite: Permission of department head.

**ENVR 4050 Ecosystem Management 3 Cr. Hrs.**

This course will provide students with an understanding of the practical applications of ecological science, environmental policy, and resource management approaches in the large-scale planning of landscapes. The course will review ecological principles and trace the historical development of the ecosystem concept. Comparisons are made to other possible environmental management approaches. The synthesis of major elements and concepts will be reinforced through case studies on the Manitoba landscape, with an emphasis on practical learning by students through field seminars and group discussions. Not to be held with GEOG 4050. Prerequisite: Permission of department head.

**ENVR 4060 Biogeography 3 Cr. Hrs.**

This course will provide students with a general understanding of the historical, ecological, analytical, and conservation aspects of biogeography. The course will also have a dual focus on the principles and concepts of reasons for the distribution of plants and animals worldwide, as well as incorporating discussion on as many local (Manitoba, Canada, North America) examples as possible. Not to be held with GEOG 4060. Prerequisite: Permission of department head.

**ENVR 4110 Critical Thinking and the Environment 3 Cr. Hrs.**

(Lab Required) Topical issues and responses regarding the environment including conservation, management, and policy making are critically evaluated at local, national, and global scales. Term projects emphasizing applied work with environmental organizations and researchers are presented. Prerequisites: ENVR 2000 (C), and 72 credit hours of course work, or permission of department head.

**ENVR 4180 Ecotoxicological Risk Characterization 3 Cr. Hrs.**

A biologically based, advanced course that will give students working knowledge of current processes and techniques for ecotoxicological risk

characterization. The course material will cover the topics of problem definition, dose response characterization, exposure characterization, risk assessment, and risk management decision making. Prerequisite: ENVR 2180 (C), or BIOL 2380 (BOTN 2180 or ZOOL 2180) (C), or AGRI 2180 (C).

#### **ENVR 4400 Advanced Issues in Environment and Health 3 Cr. Hrs.**

An evaluation of global and local environmental health issues and the assessment and management tools used to manage these risks. Case studies of environmental issues and their human health effects are covered. Students have the opportunity to work on a substantial interdisciplinary environmental health project. Prerequisite: ENVR 3400 (C).

#### **ENVR 4500 Thesis Project in Environmental Science and Studies 6 Cr. Hrs.**

A research thesis project in any aspect of environmental science or environmental studies, chosen in consultation with the course coordinator and an appropriate supervisor, typically a faculty member. Written reports and oral presentation on the results of the thesis project will be required. The course is normally available only to final year students in the Environmental Science Honours or Environmental Studies Honours Program. Prerequisites: Permission of course coordinator, and a GPA of 3.00 in the last 30 credit hours.

#### **ENVR 4550 Aquatic Chemistry 3 Cr. Hrs.**

An examination of biogeochemical processes affecting the distribution, speciation and bioavailability of chemical substances in the aquatic environment. The theoretical basis for the chemical behaviour of natural water systems is discussed, as well as the description of the processes involved in wastewater treatment. Not to be held with CHEM 4550. Prerequisite: ENVR 3550 (C), or CHEM 3590 (C), or permission of department head.

#### **ENVR 4650 Advanced Issues in Environmental Law and Policy 3 Cr. Hrs.**

This course provides an in-depth review of Canadian law and policy relating to environmental protection and management. In particular, the course describes the laws governing a variety of topics related to the environment, including constitutional responsibilities, federal and provincial environmental legislation, water law, parks and protected areas, wildlife and fisheries management, species at risk, and international law including climate change. Prerequisite: a minimum grade of C in ENVR 3160 (or the former ENVR 2650), or permission of department head.

#### **ENVR 4872 Advanced Methods in Geomatics 3 Cr. Hrs.**

(Lab required) This course focuses on the theory and application of geomatics in spatial problem solving in geography and the environment. The use of geomatics' technologies including GIS, Earth observation and spatial numerical methods will be covered. Students will learn the theoretical underpinning of spatial statistical concepts and will experiment with data exploration, inference and hypothesis testing. Lab assignments will provide practical experience with GIS and other geomatics software as well as CRAN-R. Not to be held with GEOG 4590 or GEOG 4720 or GEOG 4872. Prerequisite: GEOG 3730 or permission of instructor.

#### **ENVR 4910 Coop Work Term Report 3 1.5 Cr. Hrs.**

Work term report, completed in conjunction with the coop placement, which is designed to integrate professional experiences with the concepts and theories explored through academic study. Students must be admitted into the Coop program to be registered, and receive credit. Prerequisite: ENVR 3990 (P).

#### **ENVR 4980 Work Term 3 0 Cr. Hrs.**

Work assignments in business, industry, research or government for students registered in the Honours or Major Cooperative program. This course is graded pass/fail. Prerequisite: ENVR 3990 (P).

## **SECTION 8: Department of Geological Sciences**

Head: Alfredo Camacho

Campus Address/General Office: 240 Wallace Building

Telephone: (204) 474-9371

Fax: (204) 474-7623

[umanitoba.ca/environment/about/academic\\_staff.html](http://umanitoba.ca/environment/about/academic_staff.html)

### **8.2 Program Information**

The Geological Sciences deal with the history of the Earth and its life, especially that which is recorded in rocks. Different component parts of the Earth system, the *lithosphere*, *biosphere*, *atmosphere* and *hydrosphere*, operate at different length and time scales. During interactions between the spheres there is feedback between the component parts as energy and mass are exchanged, transferred and redistributed. In a geological context, the feedback can occur on a global scale, or on very small scales such as that which we see in minerals. More recently humans have become a major force in this Earth system because we have intervened in many of these exchanges.

Considering the Earth's past, geoscientists typically work with long time scales (in the order of millions to billions of years). We also use Hutton's original philosophy of *uniformitarianism*, stated as *the present is the key to the past*, to solve geological problems. However, as we see changes at the Earth's surface (our environment) occurring on very short time scales we need to learn to extract the signal of human activity from the Earth's pre-human past. Once we understand and quantify the nature and extent of the Earth's natural evolution as well as our more recent environmental impact, geological sciences can help predict future changes to the Earth.

Geology and Geophysics are the sciences that provide the quantitative data on the physical and chemical behaviour and characteristics of Earth materials - rocks, minerals, fluids and gases. These data are needed to model the behaviour of minerals in natural as well as many industrial systems. The theoretical and instrumental expertise needed to tackle many resource extraction, mineral processing and environmental problems is resident in geological science departments. From a broad Earth, environmental and resource perspective our collective future will depend on sustainable use of our Earth's resources and care of the environment.

The three-year General program (comprising of 90 credit hours) in Geological Sciences is designed to give students a basic understanding of the discipline in combination with a concentration of courses in a second subject area. The General Program is not intended for those students who seek a career in the geosciences. Rather, it is a useful consideration for students planning to enter the Bachelor of Education program (see the Faculty of Education in this calendar) or other programs that require an undergraduate degree for admission. Students intending to pursue a career in the geosciences or graduate study should hold an Honours or Major degree (comprising at least 120 credit hours) in Geology or Geophysics.

### **Professional Registration**

The professional practice of geoscience in Canada is governed by provincial/territorial law and is regulated by professional geoscience associations. In Manitoba, Engineers Geoscientists Manitoba (EGM) regulates professional practice. The requirements for professional registration are acceptable academic preparation and a subsequent period of acceptable geoscience experience. Students considering professional registration should take the B.Sc. Geological Sciences Honours or Major degree and make appropriate course selections, particularly in the basic sciences. Graduates who do not meet the academic requirements may be required by the professional association to take additional courses or examinations. Current registration information for EGM is available in the department or from the association's web site: [www.apegm.mb.ca](http://www.apegm.mb.ca)

## Geological Sciences Prerequisite Information

To fulfil prerequisite requirements, a grade of 'C' must be achieved in any course stipulated as a prerequisite to a further course in Geological Sciences unless otherwise stated. Please note that some GEOL courses require a minimum grade of 'C+' in the prerequisite course.

### 8.3 Degree Regulations

#### 8.3.1 B.Sc. in Geological Sciences (Major) Geology or Geophysics

To qualify for the degree, a student must complete a minimum of 120 credit hours with passing grades ('D' or better) in each course and with a minimum degree grade point average of 2.50 as indicated in the Graduation Requirements Table (see section 8.3.5). Students must complete all Faculty requirements as well as the University Written English and Mathematics requirement as described in the Chapter, General Academic Regulations, in this Calendar.

Students admitted to the Major program will normally have completed six credit hours of courses from the Faculty of Arts. Students who do not meet this requirement within their first 30 credit hours must do so within the Major program.

#### Minor in Another Department

Students in the B.Sc. Geological Sciences have the opportunity to complete a Minor in a subject field that is different than that of the declared major, and which normally consists of 18 credit hours from a department offering this option at the University of Manitoba. Students in the B.Sc. Geological Sciences are not permitted to complete a Minor in Geological Sciences. The Minor requirements are described in section 3.2 of this Chapter. Contact the department and/or a [Riddell Faculty student advisor](#) in the Faculty Dean's Office for further information about eligible Minors.

#### Entrance to the Major

To enter a Major program in Geology or Geophysics, a student must have completed at least 24 credit hours with a minimum Degree Grade Point Average of 2.50 as stipulated in Entrance and Continuation Requirements Table (see section 8.3.4). In addition, the student must attain the minimum grade requirements specified for individual Year 1 courses according to the program tables for the Major in Geology (section 8.4) or the Major in Geophysics (see section 8.5).

#### Continuation in the Major

A student's academic performance is assessed first with his/her application for admission to the Riddell Faculty and then following each *term* in which the student is registered. To be in **good standing** and permitted to continue in the degree program, a student must maintain a minimum degree Grade Point Average of 2.50 as stipulated in the Entrance and Continuation Requirements Table (section 8.3.4). Students who do not meet the minimum performance requirement will be required to withdraw from the Major program and will be placed in the General program provided their Degree Grade Point Average is 2.00 or above. Students will have the notation 'Required to Withdraw from the Major Program', recorded on their transcript.

If below 2.00, students will be placed on academic warning, probation or academic suspension as outlined in section 3.14 Academic Warning, Probation, Academic Suspension and Special Students (Academic Standing) in this Chapter.

**Failed courses:** Students cannot exceed 18 credit hours of failed courses (F's) as calculated on courses applicable to the degree program (DGPA).

Repeating GEOL 4920 Technical Report: The course may be repeated only once after a grade of F.

#### Program approval

A [Riddell Faculty student advisor](#) in the Faculty Dean's Office must approve a student's Major program each term. Students must also obtain departmental approval for all revisions to their programs. The [Advanced/Major/Honours Program Approval](#) forms are available on the Riddell Faculty web page. ([umanitoba.ca/environment/undergraduate](http://umanitoba.ca/environment/undergraduate))

#### Graduation in the Major

In order to graduate from the Geology or Geophysics Major, students must complete all degree program and faculty requirements as stipulated in section 3 and section 8 of this Chapter. Students must also achieve the minimum performance requirements as outlined in the Graduation Requirements Table (see section 8.3.5). This is defined as a minimum Degree Grade Point Average of 2.50 on 120 credit hours which constitute the degree.

#### Residence Requirement for Major Students

A student must successfully complete a minimum of 60 credit hours at the University of Manitoba. The courses used to satisfy the requirement must be acceptable for credit in the Clayton H. Riddell Faculty of Environment, Earth, and Resources. Residence requirements apply both to first and second-degree students.

#### Recognition of Academic Merit Degree with Distinction

To obtain a degree with distinction a student must achieve a minimum 3.50 Degree Grade Point Average on all courses constituting the Major degree. The term 'Degree with Distinction' will appear both on the parchment and on the student's transcript.

#### 8.3.2 B.Sc. in Geological Sciences (Honours) Geology or Geophysics

The Honours programs are the most heavily concentrated programs offered and lead most directly to graduate studies. A student is required to achieve higher grade standards than in the Major degree program. The Honours degree may be pursued on a part-time basis, although it must be recognized that students will require additional terms to complete degree requirements. Students must complete the degree program within 8 years of gaining initial admission to the Honours program. Failure to complete the Honours degree within the 8-year time limit may require a student to transfer into the Major program.

Students admitted to the Honours program will normally have completed six credit hours of courses from the Faculty of Arts. Students who do not meet this requirement within their first 30 credit hours must do so within the Honours program.

A student will normally begin the Honours program in second year and must meet the entrance requirements set out below. Students in full-time study can expect to complete the prescribed courses in four years. Honours programs lead to either the B.Sc. Geological Sciences (Hons.) (Geology) or the B.Sc. Geological Sciences (Hons.)(Geophysics).

To be eligible for any award granted exclusively on the basis of academic performance, a student must normally be enrolled in a full-time program as defined by the department.

Students must complete the University Written English and Mathematics requirement as described in the chapter, General Academic Regulations, of this Calendar.

#### Entrance to Honours

To enter the Honours program in Geology or Geophysics, a student must have completed at least 24 credit hours with the minimum Degree Grade Point Average as stipulated in the Entrance and Continuation Requirements Table (section 8.3.4). In addition, the student must attain the minimum grade requirements specified for individual Year 1 courses according to the program tables for Honours Geology (section 8.4) or Honours Geophysics (section 8.5). Students who are ineligible to enter Honours with their admission to the Riddell Faculty may establish eligibility the following year on the basis of their second year of academic performance.

### Continuation in Honours

A student's academic performance is assessed first with his/her application for admission to the Riddell Faculty and then following each *term* in which the student is registered. To be in **good standing** and permitted to continue in the degree program, a student must maintain the performance requirement as stipulated in the Entrance and Continuation Requirements Table (section 8.3.4). Students who do not meet the minimum performance requirements will be placed on academic warning, probation or academic suspension as outlined in section 3.14 Academic Warning, Probation, Academic Suspension and Special Students (Academic Standing) in this *Chapter*. Students who do not maintain this minimum average to remain in the program will be required to withdraw from the Honours program and, if eligible, will be placed in the Major program. Students will have the notation 'Required to Withdraw from the Honours Program' recorded on their transcript.

**Failed courses:** Students cannot exceed 18 credit hours of failed courses (F's) as calculated on courses applicable to the degree program (DGPA).

**Repeating GEOL 4870 Honours Thesis:** The course may be repeated only once after a grade of F.

### Program Approval

A [Riddell Faculty student advisor](#) in the Faculty Dean's Office must approve a student's Major program each term. Students must also obtain departmental approval for all revisions to their programs. The [Advanced/Major/Honours Program Approval](#) forms are available on the Riddell Faculty web page. ([umanitoba.ca/environment/undergraduate](http://umanitoba.ca/environment/undergraduate))

### Residence Requirement for Honours Students

A student must successfully complete a minimum of 60 credit hours at the University of Manitoba. The courses used to satisfy the requirement must be acceptable for credit in the Clayton H. Riddell Faculty of Environment, Earth, and Resources. Residence requirements apply both to first and second-degree students.

### Graduation from Honours

In order to graduate from the Honours Geology and Geophysics programs, students must complete all degree program and faculty requirements as stipulated in section 3 and section 8 of this Chapter. Students must also achieve the minimum performance requirements as outlined in the Graduation Requirements Table (see section 8.3.5). This is defined for the Honours Geology program as a minimum Degree Grade Point Average of 3.00 on 120 credit hours which constitute the degree and for Honours Geophysics as a minimum Degree Grade Point Average of 2.80 on the 120 credit hours which constitute the degree.

### Recognition of Academic Merit First Class Honours

To graduate with **First Class Honours**, a student must achieve a Degree Grade Point Average of 3.50. The term 'First Class Honours' will appear both on the parchment and on the student's transcript.

### Honours Program Notes: Double Honours Programs

Double Honours programs may be available. The program must be arranged in consultation with the departments concerned.

### Honours Requirements and Options

Students who do not obtain the entrance requirements for the Honours program in their first year but who are interested in obtaining an Honours degree should consult with the department before registering for their second year.

### Honours Geology Options

For students who wish to increase the focus of their knowledge, recommended electives are listed below:

*Environmental Geoscience:* BIOL 2300 (or AGEC 2370), CIVL 4250, SOIL 4060, SOIL 4130, SOIL 4500, GEOL 4370, GEOG 3390, ENVR 2180 (BIOL 2380 or AGRI 2180), ENVR 3110, ENVR 3250, or others approved by the department. (Students are responsible for completion of prerequisites for these courses.)

### Honours Geophysics Option

Students who wish to enter the Honours Geophysics Option and have not taken 6 credit hours of introductory Geological Sciences (e.g., GEOL 1340 and one of GEOL 1400, GEOL 1410, or GEOL 1420) may arrange with the department to make up this credit. Students must contact the department during the spring preceding entrance to the Honours program. All course choices in the Honours program should be made after consultation with the coordinator of the Geophysics program.

### 8.3.3 B.Sc. in Geological Sciences (General) Degree Program Structure

- A Geological Sciences component consisting of a minimum of 30 credit hours.
- A Minor of 18 credit hours (minimum) in a different department or an interdisciplinary program. e.g. in the Clayton H. Riddell Faculty of Environment, Earth, and Resources, or the Faculty of Arts, or the Faculty of Science. The Minor requirements are described in section 3.2 of this Chapter. Contact the department and/or a Riddell Faculty student advisor in the Faculty Dean's Office for further information about eligible Minors.
- Students will normally complete the Faculty of Arts courses requirement which include 6 credit hours from the Faculty of Arts. Students who have not met this requirement in their first year must meet the requirement prior to graduation.

### Entrance to the General

To be admitted to the General program, a student must have completed at least 24 credit hours with a minimum Degree Grade Point Average of 2.00. In addition, a student must have completed GEOL 1340 with the grade of 'C+'. Refer to Section 8.6 for further program requirements.

### Continuation in the General

A student's academic performance is assessed first with his/her application for admission to the Riddell Faculty and then following each term in which the student is registered. To be in good standing and permitted to continue in the degree program, a student must maintain a minimum Degree Grade Point Average of 2.00 as stipulated in the Entrance and Continuation Requirements Table (section 8.3.4). Students who do not meet the minimum performance requirement will be placed on academic warning, probation or academic suspension as outlined in section 3.14 Academic

Warning, Probation, Academic Suspension and Special Students (Academic Standing) in this Chapter.

**Failed courses:** A student is required to repeat those failed courses that are specified as required courses for the program. Students are subject to the University of Manitoba regulations (see General Academic Regulations, Academic Evaluations, 1.2 Repeating a Course as described in this Calendar) and the Riddell Faculty degree regulations regarding eligibility to repeat a course. Students who need to repeat a course more than once to fulfil degree requirements must contact a [Riddell Faculty student advisor](#) for approval prior to registration. Students cannot exceed 30 credit hours of failed courses (F's) as calculated on courses applicable to the degree program (DGPA).

### Graduation in the General

To qualify for the degree, students must complete 90 credit hours, inclusive of Geological Sciences courses, a minor in a second department or program, and any University 1 requirements. Minimum performance requirements include passing grades ("D" or better) in each course, a minimum degree grade point average of 2.00 in Geological Sciences courses, and an overall degree grade point average of 2.00 on the 90 credit hours which constitute the degree. Note: Where a Geological Sciences course listed in the calendar has required prerequisites, a student must hold a minimum grade of "C+" or "C" in each prerequisite course as stipulated in the course description.

### Residence Requirement for General Students

Students must complete a total of 48 credit hours at the University of Manitoba, or they must complete their final 30 credit hours at the University of Manitoba in order to satisfy the residency requirement. The courses used to satisfy the requirement must be acceptable for credit in the Clayton H. Riddell Faculty of Environment, Earth, and Resources.

### Recognition of Academic Merit Degree with Distinction

To obtain a degree with distinction, a student must achieve a minimum 3.50 Degree Grade Point Average on all courses constituting the General degree. The term 'Degree with Distinction' will appear both on the parchment and on the student's transcript.

#### 8.3.4 Geological Sciences Advanced Entry Entrance and Continuation Requirements

Degree Program	Minimum Degree Grade Point Average	
	Entrance	Continuation
Major (Geology)	2.50 <sup>1</sup>	2.50 <sup>1</sup>
Major (Geophysics)	2.50 <sup>1</sup>	2.50 <sup>1</sup>
Honours (Geology)	3.00 <sup>1</sup>	3.00 <sup>1</sup>
Honours (Geophysics)	2.80 <sup>1</sup>	2.80 <sup>1</sup>
General (Geological Sciences)	2.00 <sup>1</sup>	2.00 <sup>1</sup>

#### Notes:

<sup>1</sup>In addition to the minimum degree grade point average noted in this chart, specific courses (with minimum grades) are required for entry and these are noted in the program chart for each program.

#### 8.3.5 Geological Sciences Graduation Requirements

Degree Program	Minimum Degree Grade Point Average
----------------	------------------------------------

Major (Geology) (120)	2.50
Major (Geophysics) (120)	2.50
Honours (Geology) (120)	3.00
Honours (Geophysics) (120)	2.80
General (Geological Sciences) (90)	2.00

#### 8.4 B.Sc. Geological Sciences (Geology) Program Chart

##### 8.4 B.Sc. Geological Sciences (Geology)<sup>1</sup>

YEAR 1	YEAR 2	YEAR 3	YEAR 4
<b>HONOURS GEOLOGY 120 CREDIT HOURS</b>			
GEOL 1340 (B) and GEOL 1400 MATH 1500 <sup>3</sup> (C) CHEM 1300 (C) PHYS 1020 <sup>2</sup> 6 credit hours from the Faculty of Arts	GEOL 2440, GEOL 2500, GEOL 2520, GEOL 2530, GEOL 2800, GEOL 2770, GEOL 3910 <sup>5</sup>	GEOL 2060, GEOL 3110, GEOL 3130, GEOL 3310, GEOL 3440, GEOL 3450, GEOL 3490, GEOL 3900, GEOL 4910 <sup>5</sup> 3 credit hours of Geological Sciences Geology Electives – Group A	GEOL 4300, GEOL 4520, GEOL 4670, GEOL 4870 6 credit hours of Geological Sciences Geology Electives – Group A Enough elective credit to total 120 credit hours for the program.
<b>MAJOR GEOLOGY 120 CREDIT HOURS</b>			
GEOL 1340 (C+) and GEOL 1400 MATH 1500 <sup>3</sup> (C) CHEM 1300 (C) PHYS 1020 <sup>2</sup> 6 credit hours from the Faculty of Arts	GEOL 2440, GEOL 2500, GEOL 2520, GEOL 2530, GEOL 2800, GEOL 2770, GEOL 3910 <sup>5</sup>	GEOL 2060, GEOL 3110, GEOL 3130, GEOL 3310, GEOL 3440, GEOL 3490, GEOL 3900, GEOL 4910 <sup>5</sup> 3 credit hours of Geological Sciences Geology Electives <sup>4</sup>	GEOL 4670, 15 credit hours of Geological Sciences Geology Electives <sup>4</sup> Enough elective credit to total 120 credit hours for the program.

#### Notes:

<sup>1</sup>The courses required in this program will satisfy the [University Mathematics requirement](#) and the University Written English requirement.

<sup>2</sup>PHYS 1050 may be used in lieu of PHYS 1020.

<sup>3</sup>MATH 1510 or MATH 1520 may be used in lieu of MATH 1500.

<sup>4</sup>Among the Geological Sciences Electives, Major students must complete 18 credit hours consisting of 3 credit hours from Group B with the remaining 15 credit hours from Group A or B.

<sup>5</sup>Students will register for GEOL 3910 and GEOL 4910 in Summer term.

#### NOTE:

Students should be aware that they are expected to contribute to transportation and accommodation costs. See the department office at the beginning of each year for information.

#### IMPORTANT:

The Honours and Major programs need not be completed in the manner prescribed in the chart above. The chart indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their program. (Letters in brackets indicate the minimum prerequisite standing in a specific course required for entry to the program).

GEOL 1400 is highly recommended to be taken in Year 1, but will not be considered when assessing entrance requirements to the program. If this

requirement is not fulfilled in Year 1, it must be completed by the end of Year 2.

**NOTE:**  
To fulfil prerequisite requirements, a grade of 'C' must be achieved in any course stipulated as prerequisite to a further course in Geological Sciences, unless a higher prerequisite is stipulated in a course description.

All courses are not offered every year. The course schedule for the current academic term is available from the Class Schedule in Aurora.

Students registering in certain courses may be required to pay a portion of the costs associated with field trips. For details, contact the Department general office.

Equivalent courses offered through Université de Saint Boniface may be used in lieu of the specified courses identified in the degree program chart.

**Geological Sciences Geology Electives**

**Other Note 1: Geological Sciences – Geology Electives:** Honours students are required to complete a minimum of 9 credit hours from Group A; Major students must complete 18 credit hours consisting of 3 credit hours from Group B with the remaining 15 credit hours from Group A or B.

<b>MAJOR GEOPHYSICS 120 CREDIT HOURS</b>			
GEOL 1340 (C+) and one of: GEOL 1400, GEOL 1410, or GEOL 1420 <sup>2</sup>  PHYS 1050(C) [or PHYS 1020(C+)], PHYS 1070(C) [or PHYS 1030 (C+)], MATH 1210 <sup>3</sup> , COMP 1012, CHEM 1300, MATH 1510 <sup>3</sup> (C+), and MATH 1710 <sup>3</sup> (C) [or MATH 1500(C+) and MATH 1700(C)1]  3 credit hours from the Faculty of Arts.	GEOL 2060, GEOL 2440, GEOL 2500, GEOL 2520, GEOL 2530, GEOL 2800  MATH 2130 <sup>4</sup> , MATH 2132 <sup>4</sup>  3 credit hours from the Faculty of Arts.	GEOL 3130, GEOL 3740, GEOL 3810, GEOL 4670, GEOL 4740 <sup>5</sup> , GEOL 4810, COMP 2190 <sup>4</sup> , PHYS 2600, MATH 3132 <sup>4</sup>  9 credit hours of Geological Sciences Geophysics Electives from List A, 3 credit hours of Geological Sciences Geophysics Electives from List P and 6 credit hours of Geological Sciences Geophysics Electives from List B.  Enough elective credit to total 120 credit hours for the program.	
<b>NOTES:</b>			
<sup>1</sup> The courses required in this program satisfy the University Mathematics Requirement and the University Written English Requirement.			
<sup>2</sup> GEOL 1400 is highly recommended to be taken in Year 1, but GEOL 1410 or GEOL 1420 may be substituted.			
<sup>3</sup> MATH 1690 may be taken in place of MATH 1500 (or MATH 1510) and MATH 1700 (or MATH 1710); MATH 1300 may be taken in place of MATH 1210. Selection of MATH 1300 or MATH 1210 will determine the			

prerequisite background for Mathematics courses required in years 2, 3 and 4.

<sup>4</sup>MATH 2720 may be taken in place of MATH 2130. PHYS 2496 may be taken in place of MATH 2132. MATH 2160 may be taken in place of COMP 2190. PHYS 3496 may be taken in place of MATH 3132. Normally, students select (MATH 2130, MATH 2132, COMP 2190, and MATH 3132) or (MATH 2720, PHYS 2496, MATH 2160, and PHYS 3496).

<sup>5</sup>GEOL 4740 will normally be taken immediately following the Winter term examinations and will continue for approximately three weeks. Registration will show as Summer Term. NOTE: Students are expected to contribute to the costs of transportation, lodging, and food. Contact the Department for further information.

**IMPORTANT:** The Honours and Major programs need not be completed in the manner prescribed in the chart above. The chart indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their program. (Letters in brackets indicate the minimum prerequisite standing required for further study)

**NOTE:**

- To fulfil prerequisite requirements, a grade of 'C' must be achieved in any course stipulated as prerequisite to a further course in Geological Sciences, unless a higher prerequisite grade is stipulated in a course description.
- All courses are not offered every year. The course schedule for the current academic term is available from the [Class Schedule in Aurora](#)
- Students registering in certain courses may be required to pay a portion of the costs associated with field trips. For details, contact the Department general office.
- Equivalent courses offered through Université de Saint-Boniface may be used in lieu of the specified courses identified in the degree program chart.

**Other Note 1: Geological Sciences Geophysics Electives Lists A, B and P**

**List A Electives:** Major students must complete a minimum of 9 credit hours from the following courses

GEOL 4250	Theory and Application of Geophysical Inversion Methods (3)L
GEOL 4320	Physics of the Earth: Seismology and Heat Flow (3)
GEOL 4330	Physics of the Earth: Geomagnetism and Gravity (3)
GEOL 4920	Technical Report (3)

**List B Electives:** Honours students are required to complete a minimum of 6 credit hours; Major students must complete a minimum of 6 credit hours from the following courses:

GEOL 2390	Environmental Geology (3)
GEOL 2770	Principles of Inorganic Geochemistry (3)L
GEOL 3110	Petrogenesis of Igneous Rocks (3)L
GEOL 3420	Engineering Geology (3)
GEOL 3440	Structure and Metamorphism (3)L
GEOL 3450	Hydrogeology (3)L
GEOL 3490	Glacial Geology and Geomorphology (3)L
GEOL 3750	Geology and Geophysics of the Planets (3)L

GEOG 2310	Introduction to Process Hydrology (3)
GEOG 2930	Introduction to Oceanography (3)
GEOG 3200	Introduction to Remote Sensing (3)L
GEOG 3310	Atmospheric Dynamics, Storms and Radar (3)
GEOG 3320	Introduction to Microclimates and Micrometeorology (3)
GEOG 3730	Geographic Information Systems (3)L

Any List A or P not already taken, or any advanced level Geological Sciences, Physics or Mathematics course(s) approved by department.

**List P Electives:** Honours students are required to complete a minimum of 6 credit hours; Major students must complete a minimum of 3 credit hours from the following courses:

CHEM 2290	Chemical Energetics and Dynamics: Macroscopic Descriptions (3)L
PHYS 2152	Modern Physics for Engineers (3)L
PHYS 2260	Optics (3)L
PHYS 2610	Circuit Theory and Introductory Electronics (3)L
PHYS 2650	Classical Mechanics 1 (3)
PHYS 3180	Stars (3)
PHYS 3630	Electro - and Magnetostatic Theory (3)
PHYS 3670	Classical Thermodynamics (3)
MECH 2262	Fundamentals of Fluid Mechanics (3)L

Or alternate physical science course(s) approved by department.

**8.6 B.Sc. Geological Sciences (General) Program Chart**

B.Sc. Geological Sciences (General)		
YEAR 1	YEAR 2	YEAR 3
<b>GENERAL 90 CREDIT HOURS</b>		

GEOL 1340 (C+) plus one of GEOL 1400 <sup>1</sup> , GEOL 1410, or GEOL 1420	GEOL 2500 plus a further 21 credit hours in Geological Sciences courses numbered at the 2000-level or above
Plus 6 credit hours from the Faculty of Arts	Enough elective credit to total 90 credit hours for the program.
The M and W course requirements must be met within the first 60 credit hours of the program.	
<b>MINOR GEOLOGICAL SCIENCES 18 CREDIT HOURS</b>	
GEOL 1340 and one of GEOL 1400, GEOL 1410, or GEOL 1420	Plus 12 credit hours chosen from 2000- and 3000-level courses
<p><b>Notes:</b>  <sup>1</sup>GEOL 1400 is highly recommended to be taken in Year 1, but GEOL 1410 and GEOL 1420 may be substituted. If this requirement is not fulfilled in Year 1, it must be completed by the end of Year 2.</p> <p><b>NOTE:</b>            To fulfil prerequisite requirements, a grade of 'C' must be achieved in any course stipulated as prerequisite to a further course in Geological Sciences.</p> <ul style="list-style-type: none"> <li>All courses are not offered every year. The course schedule for the current academic term is available from the <a href="#">Class Schedule in Aurora</a></li> <li>Students registering in certain courses may be required to pay a portion of the costs associated with field trips. For details, contact the Department general office.</li> </ul> <p>Equivalent courses offered through Université de Saint-Boniface may be used in lieu of the specified courses identified in the degree program chart.</p>	

## 8.7 Environment, Earth, and Resources Course Description

### EER 1000 Earth: A User's Guide 3 Cr. Hrs.

This course will present a multi-disciplinary introduction to the Planet Earth as both the source of essential resources and as the site of resulting negative impacts. Focus in the course will be provided by addressing important and current topics, case studies, and concepts that the well-educated citizen of the Earth should understand and will include natural and human-induced processes within a broad range of spatial and temporal scales.

## 8.8 Geological Sciences Course Descriptions-1000 Level

### GEOL 1340 The Dynamic Earth 3 Cr. Hrs.

(Lab required) An introduction to dynamics of the Earth's interior and surface that created the environment in which life evolved and that continue to change the world in which people now live. Not to be held with the former GEOL 1440 or the former GEOL 2250. Required for students intending to proceed in further courses in the Geological Sciences

### GEOL 1400 Time-Trekker's Travelog: Our Evolving Earth 3 Cr. Hrs.

Take a trip across billions of years, as we explore awesome times in the evolution of our planet and its life -- from dust to us! Not to be held with GEOL 1350.

### GEOL 1410 Natural Disasters and Global Change 3 Cr. Hrs.

Discover how and when natural disasters occur, and how to identify and recognize them. Explore the Earth processes that lead to natural disasters and global change. Not to be held with the former GEOL 1360.

### GEOL 1420 Exploring the Planets 3 Cr. Hrs.

Discover the Solar System as we explore ancient ideas and modern concepts. Emphasis will be on recent space exploration and a comparison of the Earth and its neighbours. Not to be held with the former GEOL 1370.

## 8.8 Geological Sciences Course Descriptions-2000 Level

### GEOL 2060 Introductory Geophysics 3 Cr. Hrs.

(Lab Required) An introduction to geophysical exploration, Earth physics,

satellite geophysics and remote sensing. Emphasis will be on quantitative modeling and will include geophysical measurements and handling of data. Prerequisites: [GEOL 1340, or (GEOL 1440) (C)], and [MATH 1300, or MATH 1310, or MATH 1500, or MATH 1510, or MATH 1520, or MATH 1530 (C)], and [PHYS 1020, or PHYS 1050 (C)], or permission of department head.

### GEOL 2350 Canada Rocks: The Geology of Canada 3 Cr. Hrs.

This is a general interest course. Journey through the spectacular story of Canada's geology - its rocks and how they were assembled over time into the amazing country that we live in today. Prerequisite: a grade of C or better in [a minimum of 3 credit hours of university-level geology] or [GEOG 1290 or GEOG 1291] or [the former GEOG 1200 or the former GEOG 1201] or EER 1000.

### GEOL 2390 Environmental Geology 3 Cr. Hrs.

Examination of geological processes and material as they interact with human activities, environmental planning, and management. Also available by correspondence. Prerequisite: [Minimum 3 credit hours of university-level geology] or [GEOG 1290 or GEOG 1291], or [the former GEOG 1200 or GEOG 1201].

### GEOL 2440 Structural Geology 1 3 Cr. Hrs.

(Lab Required) Elementary mechanical principles of rock deformation, brittle and continuous deformation, geometry of faults, folds, joints, cleavage, lineations. Descriptive geometric and stereonet solution to structural geology problems, cross sections, structural contour maps. Prerequisite: GEOL 1340 (C+), and [MATH 1300, or MATH 1210, or MATH 1500, or MATH 1510, or MATH 1520].

### GEOL 2500 Introduction to Mineralogy 3 Cr. Hrs.

(Lab Required) An introduction to the chemistry, physics and classification of minerals. Brief, systematic description of about 200 of the most important minerals. Laboratory: hand specimen identification. Not to be held with the former GEOL 2540. Prerequisites: GEOL 1340 (C+) and [40S Chemistry or CHEM 0900 (Pass)]. CHEM 1300 is highly recommended.

### GEOL 2520 Igneous and Metamorphic Petrology 3 Cr. Hrs.

(Lab Required) The classification, occurrence and origin of igneous and metamorphic rocks. The study and identification of rocks using hand specimens and thin sections. Prerequisites: [GEOL 2500 and GEOL 2800] or [the former GEOL 2540].

### GEOL 2530 Introductory Sedimentary Petrology and Stratigraphy 3 Cr. Hrs.

(Lab Required) An introduction to sedimentary deposits and principles of stratigraphic analysis. Occurrence, classification and origin of sedimentary deposits. Facies concept, stratigraphic classification and correlation. Prerequisites: [GEOL 2500 and GEOL 2800] or [the former GEOL 2540].

### GEOL 2570 Energy and Mineral Resources 3 Cr. Hrs.

An introduction to the geological factors and processes responsible for the origin, concentration and distribution of fuels, geothermal resources, metallic and nonmetallic minerals. Available by correspondence only. Not for credit in a Major or Honours program in Geological Sciences. Prerequisite: Any university-level Geology course.

### GEOL 2770 Principles of Inorganic Geochemistry 3 Cr. Hrs.

(Lab Required) The cosmic abundance of the elements, nucleosynthesis, geological differentiation of the elements; chemical petrology of igneous, metamorphic and sedimentary rocks. An introduction to aqueous and low-temperature geochemistry. Prerequisite: [GEOL 2500 or the former GEOL 2540] and [MATH 1300, or MATH 1210, or MATH 1500, or MATH 1510, or MATH 1520]. Pre or Corequisite: CHEM 1300.

### GEOL 2800 Optics and Spectroscopy of Minerals 3 Cr. Hrs.

(Lab Required) Use of the petrographic microscope; microscopic recognition of common rock-forming minerals; introduction to spectroscopic techniques in geosciences (including optical, vibrational and luminescence techniques). Pre- or Corequisite: GEOL 2500 or the former GEOL 2540.

## 8.8 Geological Sciences Course Descriptions-3000 Level

**GEOL 3110 Petrogenesis of Igneous Rocks 3 Cr. Hrs.**

(Lab Required) Crystallization processes in magma and resultant textures; physical, chemical, and kinetic processes of magmatic systems. Prerequisites: GEOL 2520 and GEOL 2770.

**GEOL 3130 Communication Methods in the Geological Sciences 3 Cr. Hrs.**

(Lab Required) Practice in oral and written description of geologic subjects; tools of library and database research; manuscript organization; abstract writing; computer-aided table, figure, and slide preparation. Prerequisites: GEOL 2440 and GEOL 2520 and GEOL 2530. This course is for students in the Honours and Major Geological Sciences programs only.

**GEOL 3140 Gemology 3 Cr. Hrs.**

(Lab Required) An introduction to the scientific study of natural and synthetic gem materials, methods of their identification and principles of gemstone appraisals. Laboratory: identification of gemstones using optical methods. Prerequisites: [GEOL 2500 and GEOL 2800] or [the former GEOL 2540].

**GEOL 3310 Paleontology 3 Cr. Hrs.**

(Lab Required) The study of fossils: invertebrate paleontology, with an introduction to paleontologic principles, vertebrate paleontology, and paleobotany. Prerequisite: GEOL 1340 (C+) or the former GEOL 1440 (C+) or permission of department head.

**GEOL 3420 Engineering Geology 3 Cr. Hrs.**

Engineering properties of rocks and soils, laboratory testing and site investigations in engineering geology. Engineering geology of tunnels, bridges, dams, reservoirs, shorelines, sanitary landfills, landslides, seismic risk areas, etc. Prerequisites: GEOL 2440 and GEOL 2520 and GEOL 2530.

**GEOL 3440 Structure and Metamorphism 3 Cr. Hrs.**

(Lab required) Structural and metamorphic geology, links between deformation and metamorphism, and the application of pressure-temperature and time paths to study metamorphic equilibria. Not to be held with the former GEOL 3290. Prerequisites: GEOL 2440 and GEOL 2520 and GEOL 3910.

**GEOL 3450 Hydrogeology 3 Cr. Hrs.**

(Lab required) The hydrologic cycle and basic hydrologic processes; properties of aquifers and principles of groundwater flow; well hydraulics and groundwater resource evaluation; regional groundwater flow and subsurface geology; and basic chemical hydrogeology. May not be held with CIVL 4250. Prerequisites: [MATH 1500 or MATH 1501 or MATH 1510 or MATH 1520 (C)] and [PHYS 1020 or PHYS 1021 or PHYS 1050 or PHYS 1051 (C)] and [CHEM 1300 or CHEM 1301 (C)] and [GEOL 2060 or GEOG 2310 (C)] and [GEOL 2530 (C)].

**GEOL 3490 Glacial Geology and Geomorphology 3 Cr. Hrs.**

(Lab required) Principles of landform development with emphasis on glacial deposition. Aerial photo and map interpretation in lab. Not to be held with the former GEOG 3580. Prerequisite: GEOL 2530.

**GEOL 3740 Exploration Seismology 3 Cr. Hrs.**

(Lab required) Collection of seismic data (land and sea); simple elastic wave theory; geometry of refraction and reflection seismology; rock velocity determination; seismic noise and signal; data corrections; data enhancement techniques; representation of data; survey procedures. Prerequisites: [GEOL 2060 (C)] and [MATH 1500 or MATH 1501 (C) or MATH 1510 (C) or MATH 1520 (C) or the former MATH 1530 (C) or MATH 1690 (C)].

**GEOL 3750 Geology and Geophysics of the Planets 3 Cr. Hrs.**

(Lab required) Physical and chemical nature of the inner and outer planets and their satellites, asteroids and meteorites. The application of geophysical, geochemical and petrological techniques to planetology; remote sensing study of geological features of planetary surfaces and atmospheres. Prerequisites: GEOL 2060, GEOL 2520, and GEOL 2530, or permission of department.

**GEOL 3810 Applied Geophysics 3 Cr. Hrs.**

(Lab required) The application of geophysical methods in exploration and in environmental and engineering projects. Prerequisite: [GEOL 2060] and [GEOL 2500 or the former GEOL 2540].

**GEOL 3900 Sedimentology 3 Cr. Hrs.**

(Lab Required) The study of depositional environments of sedimentary rocks. Facies analysis and modeling of sedimentary deposits. Prerequisite: GEOL 2530.

**GEOL 3910 Introduction to Field Mapping 3 Cr. Hrs.**

Course introducing field mapping techniques including field navigation and basic geologic interpretations. Students are responsible for costs of room and board during the field course. Offered in the Summer Term. Prerequisites: GEOL 2440 and GEOL 2520 and GEOL 2530 and permission of department.

**8.8 Geological Sciences Course Descriptions-4000 Level****GEOL 4250 Theory and Application of Geophysical Inversion Methods 3 Cr. Hrs.**

(Lab required) Introduction to linear and non-linear geophysical inversion theory. Prerequisites: [GEOL 2060 (C)] and [MATH 1210 (C) or MATH 1300 (C) or MATH 1301 (C) or MATH 1310 (C)].

**GEOL 4260 Applied Geophysics Field Course 3 Cr. Hrs.**

Field instruction in the planning and execution of geophysical surveys and the use of geophysical equipment; analysis, interpretation and reporting of acquired geophysical data. Taught with the first half of GEOL 4740 in the summer term. Students are responsible for costs of room and board during the field course. Not to be held with GEOL 4740. Prerequisites: GEOL 3810, GEOL 2440, GEOL 2520, GEOL 2530, and permission of department.

**GEOL 4270 Advanced Studies in Earth Sciences 3 Cr. Hrs.**

Advanced study in a selected subject in Earth sciences. Prerequisite: Permission of department head. As the course content will vary from year to year, students may take this course more than once for credit.

**GEOL 4280 Instrumental Techniques in Geology 3 Cr. Hrs.**

(Lab required) Lecture and laboratory course introducing modern instrumental techniques for the characterization of materials. Includes coverage of diffraction, spectroscopy, mass spectrometry, electron and scanning probe techniques. Emphasis is placed on basic principles, instrument operation, data analysis and sample preparation. Prerequisites: GEOL 2520 and GEOL 2530 and GEOL 2770 and permission of department.

**GEOL 4300 Mineral Deposits 3 Cr. Hrs.**

(Lab required) The tectonic setting and deformational and structural nature of ore deposits. The physics and chemistry of ore deposition and ore bearing fluids. The mineralogical, textural and environmental constraints on resource exploitation. Prerequisites: GEOL 3110 and GEOL 3900.

**GEOL 4310 Paleontologic Principles 3 Cr. Hrs.**

(Lab required) Interpretation of Earth history using fossils: topics in taxonomy, functional morphology, paleoecology, evolution, biostratigraphy, and biogeography. Prerequisite: GEOL 3310 or permission of department.

**GEOL 4320 Physics of the Earth: Seismology and Heat Flow 3 Cr. Hrs.**

Seismology and the structure, physical properties and equations of state of the Earth's interior; thermal constitution and the history of the Earth. Prerequisites: GEOL 2060 and [MATH 2130 or MATH 2720 or MATH 2721]. Pre- or corequisite: MATH 3132 or PHYS 3496 or PHYS 2490.

**GEOL 4330 Physics of the Earth: Geomagnetism and Gravity 3 Cr. Hrs.**

Potential field theory; magnetic properties of Earth materials; figure and rotation of the Earth; theory and application of Earth's gravity and magnetic fields. Prerequisites: GEOL 2060 and [MATH 2130 or MATH 2720 or MATH 2721]. Corequisite: MATH 3132 or PHYS 2490 or PHYS 3496.

**GEOL 4360 Mineral Exploration Techniques 3 Cr. Hrs.**

(Lab required) Methodologies used in exploration and evaluation of Canadian mineral deposits and case studies illustrating the application of these methods. Prerequisite: GEOL 3910 and GEOL 2770. Recommended pre- or corequisite: GEOL 4300.

**GEOL 4370 Global Change 3 Cr. Hrs.**

Examination of the major processes controlling global change through

time. The causes, magnitude, and periodicity of changes in the geological record resulting from the variability and interaction of continents, oceans, atmospheres, climate, Earth-sun relationships, and ice sheets, with an emphasis on paleoclimate. Prerequisite: GEOL 3900. Pre- or corequisite: GEOL 3490.

**GEOL 4380 Mineral Resource Development 3 Cr. Hrs.**

Examination of economic, political, social, and environmental considerations that affect exploration and mining activity. Prerequisite: GEOL 3130 (C+). Pre- or corequisite: GEOL 4300 or GEOL 3810.

**GEOL 4520 Petroleum Geology 3 Cr. Hs.**

(Lab required) A study of the physical properties, origins and maturation, migration, and accumulation of petroleum products. Prerequisites: [GEOL 2060 and GEOL 3900] or [GEOL 2530 and either (GEOL 3810 or GEOL 3740)].

**GEOL 4670 Global Tectonics 3 Cr. Hrs.**

(Lab required) The structure and properties of, and physical processes taking place within, the Earth's interior. Continental cratons and their margins, orogenic belts, structural and petrologic features of the ocean basins, modern diastrophism, global tectonic theories. Prerequisites: [GEOL 3110, GEOL 3440 (or the former GEOL 3290), GEOL 3900] or [GEOL 2440, GEOL 2520, GEOL 2530 and two of the following courses: GEOL 4250, GEOL 4320, GEOL 4330, GEOL 4810].

**GEOL 4740 Geophysics Field Course 6 Cr. Hrs.**

Field instruction in planning and execution of geophysical surveys and use of geophysical equipment; analysis, interpretation and reporting of acquired geophysical data. Students are responsible for costs of room and board during the field course. Taught in the summer term. Not to be held with GEOL 4260. Prerequisites: GEOL 2440, GEOL 2520, GEOL 2530, GEOL 3810, and permission of department.

**GEOL 4810 Geophysical Data Analysis 3 Cr. Hrs.**

The theory and application of spectral methods in geophysics. The use of Fourier Transforms, convolution, power spectra, coherence, transfer functions, covariance, correlation and filtering. Prerequisite: MATH 2132 or PHYS 2490 or PHYS 2496 or permission of department.

**GEOL 4870 Honours Thesis 6 Cr. Hrs.**

A thesis based on a geoscience research project conducted by a fourth-year student in Geology or Geophysics. Selection of a project and supervisor to be arranged prior to registration, submitted in writing to and approved by the department head. This course is for Honours students only and is to be taken in the student's final year before graduation. Not to be held with GEOL 4920. Prerequisite: GEOL 3130 and permission of department head.

**GEOL 4890 Basin Analysis 3 Cr. Hrs.**

(Lab required) The study of major sedimentary basins. Qualitative and quantitative aspects of basin origin, classification, evolution, fluid content and diagenesis, and sedimentary facies architecture. Prerequisites: [GEOL 3900 and GEOL 2060] or [GEOL 2530 and (GEOL 3740 or GEOL 3810)].

**GEOL 4910 Advanced Field Mapping 3 Cr. Hrs.**

Course developing field mapping techniques including independent mapping and interpretation and synthesis in complex geological terrains. Students are responsible for costs of room and board during the field course. Offered in the summer term. Prerequisites: GEOL 3440 or (the former GEOL 3290), GEOL 3110, GEOL 3900, GEOL 3910, and permission of department.

**GEOL 4920 Technical Report 3 Cr. Hrs.**

A technical report based on a geoscience research project conducted by a fourth year Major student in Geology or Geophysics. Selection of a project and supervisor to be arranged prior to registration, submitted in writing to and approved by the department head. This course is for students in the Major program only and is available during the student's final year of study before graduation. Not to be held with GEOL 4870. Technical reports written for this course are not considered compliant with National Instrument 43-101. Prerequisite: GEOL 3130 and permission of department head.

## Extended Education

Dean: Dr. David Mandzuk (Acting)  
 Associate Dean: Dr. Rod Lastra  
 185 Extended Education Complex  
 (204) 474 8800; Toll Free: 1 888 216 7011  
 (204) 474 7661  
[umanitoba.ca/umextended](http://umanitoba.ca/umextended)

### SECTION 1: Extended Education

### SECTION 2: Program Areas

- 2.1 Access and Aboriginal Focus Programs
- 2.2 Flexible Delivery and Intensive Programs
- 2.3 General Studies and Military Support Office

### SECTION 1: Extended Education

Extended Education is an academic unit of the University that offers continuing and professional programming to adult learners. Our programs often take the form of short credentials such as Certificates and Letters of Accomplishment. We also offer programming that provides support for Indigenous and newcomer University students as well as for students admitted to the University in *General Studies*. Working in partnership with other faculties and departments of the University and with community organizations, we develop high quality programming that is responsive, accessible, and socially progressive.

### SECTION 2: Program Areas

#### 2.1 Access and Aboriginal Focus Programs

Area Director: Dr. Diedre A. Desmarais  
 General Office: 221 Migizii Agamik, 114 Sidney Smith St.  
 Telephone: 204-474-8000  
[umextended.ca/access/](http://umextended.ca/access/)

Established in 1975, Access' mandate is to support those students who have not had the opportunity to pursue post-secondary education due to social, economic and/or cultural barriers. The Aboriginal Focus Programs were established in 1998 with the mandate to create and provide community-based programs responding to the post-secondary and professional development needs of Aboriginal peoples. These two distinct areas were integrated on July 1, 2011 combining the unique program development skills of the Aboriginal Focus Programs with the expertise of delivering strong academic, personal and financial supports to students who have experienced barriers to post-secondary education. The amalgamation of these two areas strengthens our capacity to provide students with unique programs in tandem with the supports needed to enhance capacity for success. In 2014, in order to further enhance student success a new initiative was developed to provide academic supports and programming in math and science. This includes enhanced teaching capacity, supplemental academic supports for specific science courses and non-degree offers in math and science skills. In 2017, Access introduced a Common First Year (CFY) for new students. The CFY program will be taken by first year Access students utilizing a "cohort" type model. The components of the program including courses, learning labs, etc. are mandatory. It is anticipated that students will progress through the first year together thereby fostering "community" and "family" environment which will facilitate transition to university and thereby enhance success. The CFY is designed to nurture the connection between students and staff as well as within the student body. Additionally we provide intensive supports related to academic reading and writing. In 2018, a full time

"Unkan" (Grandfather in residence) joined the team, further enriching student and staff academic experience. We take pride in our holistic approach to program development and student support and have progressively sought gifted educators to help us carry forward continued excellence in all our educational endeavors.

#### Access Programs

Established in 1975, Access' mandate is to support those students who have not had the opportunity to pursue post-secondary education due to academic, social, economic and/or cultural barriers. The following are programs currently being offered:

#### University of Manitoba Access Program (UMAP)

In cooperation with the Province of Manitoba, the University of Manitoba Access Program (UMAP) facilitates university studies at the undergraduate degree level for persons who traditionally have not had the opportunity for such experience because of social, economic and cultural reasons, lack of formal education or residence in remote areas. Students in this program are provided with academic and personal supports. For information, call 474-8800 or, within Manitoba, 1-888-216-7011.

#### Health Careers Access Program (HCAP)

This program is designed to prepare Manitoban Indigenous persons (Status, Non-Status, Métis, Inuit) for entry to the health professional programs such as Medicine, Dentistry, Dental Hygiene, Pharmacy, Medical Rehabilitation (Occupational, Physical and Respiratory Therapy) and Nursing. Through the cooperation of the Province of Manitoba and the University of Manitoba, students in this program are provided with academic and personal supports. For information call 474-8800 or, within Manitoba, 1-888-216-7011.

#### Professional Health Program (PHP)

This program is designed to support Indigenous persons (Status, Non-Status, Métis, Inuit) in any of the professional health programs. This program provides academic, personal supports, and limited financial assistance may be available. For information call 474-8800 or, within Manitoba, 1-888-216-7011.

#### Aboriginal Focus Programs (AFP)

Aboriginal Focus Programs (AFP) offers certificate and diploma programs as well as degree programs through cooperative arrangements with Aboriginal stakeholders and faculties of the University of Manitoba. Programs are offered in a central location, as in-house training to staff of an organization, or as community-based programs. Programs are offered as 'open enrolment' or as block-funded cohort programs through an arrangement with an employer or sponsor. Delivery methodology can be part-time or full-time study, and can incorporate technology-based delivery where technology access permits. Aboriginal organizations that identify a need for specific post-secondary or adult education not currently available may be interested in knowing that AFP has the capacity to develop new programs to meet their needs. The following are programs currently being offered:

#### Aboriginal Counseling Skills Certificate

(This program is not being offered in the 2020/2021 academic year).

The Aboriginal Counseling Skills (ACSC) Certificate program provides individuals who are employed by First Nation, Metis and Inuit social service agencies with the knowledge and skills required to provide culturally appropriate counseling services to individuals and families. An Aboriginal philosophy of recognizing the strengths and resilience of families within the counseling relationship is emphasized. The certificate is offered as a

general intake program in Winnipeg or as a community-based program through agreements with Aboriginal agencies. The Faculty of Social work offers graduates 3 allocated and 6 unallocated hours of credit.

### Aboriginal Environmental Stewardship Diploma

(This program is not being offered in the 2020/2021 academic year).

The Aboriginal Environmental Stewardship (AESD) Diploma Program is a partnership program between Aboriginal Focus Programs and the University of Manitoba's Clayton H. Riddell Faculty of Environment, Earth and Resources and the Faculty of Arts: Department of Native Studies. The 60-credit hour diploma offers a post-secondary education program that provides the core principles of environmental science, stewardship and indigenous environmental justice. The program is designed to offer students an Indigenous community-focused perspective of environmental issues within Manitoba. The objective will be to integrate global and regional environmental issues related to the ecological, and cultural impacts as well as legal implications of resource use and exploration in the 21st century. The curriculum will focus on the incorporation of Indigenous Knowledge within a scientific framework. The AESD program is offered on-campus or as a community-based program through collaboration with external stakeholders.

#### Program and Graduation Requirements:

- Students must pass 60 credit hours of the program (30 credit hours of required courses, 28.5 credit hours of elective courses, and 1.5 credit hours of work experience).
- Students must achieve an average GPA of 2.5 (C+) in the program and must not have a grade lower than a "C" in every program course.
- Students must complete all course work within six (6) years from the date of the first registration in the program. Application for extension of this time limit must be received prior to the end of the six year time frame and approved by the Dean of Extended Education.

Course No.		Cr. Hrs.
<b>Required Courses</b>		<b>27</b>
ARTS 1110	Introduction to University	3
NATV 1220	Indigenous Peoples of Canada Part 1	3
ENVR 1000	Environmental Science 1 – Concepts	3
NATV 1240	Indigenous Peoples of Canada Part 2	3
ENVR 2000	Environmental Science 2 – Issues	3
ENVR 3160	Environmental Responsibilities and Law	3
NATV 2100	Indigenous Spirituality	3
ENVR 3250	Environmental Assessment	3
NATV 3310	Canadian law and Aboriginal People	3
GEOG 4260	Sacred Lands and Sacred Spaces of Indigenous Peoples	3
<b>Elective Courses</b>		<b>28.5</b>
ENVR 2010	Field Studies in Environment	
	GPS Field Survey and Sampling	1.5
	Field Readiness and Outdoor Survival	1.5

	Wildlife Sampling, Stewardship and GIS	1.5
ENVR 2010	Extended Field Topics in Environmental Science 1	
	Basic Communication and Statistical Skills	3
	Biological and Ecological Concepts	3
	Landscape Sampling and Boreal Forest Stewardship	3
	Environmental Health	3
ENVR 3000	Multidisciplinary Topics in Environmental Science 1	
	Ecosystem Management Techniques	3
	Biogeography	3
	Concepts in Wildlife Management	3
	Ecology of the Boreal Region	3
	Parks and Protected Areas	3
	Indigenous Stewardship	3
ENVR 3010	Field Topics in Environmental Science 1	
	Water Quality Assessment	1.5
	Issues in Sustainable Forestry	1.5
	Soil Characterization	1.5
	Wildlife and/or Fisheries Techniques	1.5
EER 1000	Earth: A User's Guide	3
GEOL 1340	The Dynamic Earth	3
GEOG 1290	Introduction to Physical Geography	3
BIOL 1000	Biology: Foundations of Life	3
BIOL 1010	Biology: Biological diversity and Interaction	3
BIOL 2390	Introductory Ecology	3
<b>Required</b>	<b>Work Experience Program</b>	<b>1.5</b>

An academic committee will select the elective courses for each cohort offering of the program.

### First Nations Community Wellness Diploma

(This program is not being offered in the 2020/2021 academic year)

The First Nations Community Wellness (FNCW) Diploma offers an excellent program of studies for people who wish to expand their knowledge and skills in Aboriginal mental health and community wellness services. The Diploma is offered in partnership with First Nations and Inuit Health and the University of Manitoba's Extended Education, as well as the Faculties of Social Work, Kinesiology, Health Sciences, College of Nursing and Arts: Native Studies and Psychology. The FNCW Diploma provides students with higher education that respects Indigenous knowledge and Western theory through education based on Aboriginal values concerning wellness. The 60-credit hours of the FNCW Diploma are typically delivered as 7-day modules in an off-campus location or via blended/technology-based delivery. Students are eligible for transfer of credit into degree programs in the participating faculties at the University of Manitoba.

## Program and Graduation Requirements:

- Students must pass 60 credit hours of the program including 33 credit hours of required courses, and 27 credit hours of elective courses or the equivalent of degree and non-degree credit.
- Students must achieve an average GPA of 2.0 (C) in the program.
- Students must complete all course work within six (6) years from the date of the first registration in the program. Application for extension of this time limit must be approved by the Dean of Extended Education.

Course No.		Cr. Hrs.
<b>Required Courses</b>		<b>33</b>
ARTS 1110	Introduction to University	3
SWRK 2080	Interpersonal Communication Skills	3
NATV 1220	Indigenous Peoples of Canada Part 1	3
NURS 3350	Counselling Skills for Nurses	3
PSYC 1200	Introduction to Psychology	6
NATV 2100	Indigenous Spirituality	3
HNSC 1100	Nutrition for Healthy Living	3

NATV 3100	Indigenous Healing Ways	3
NATV 4250	Indigenous Identities	3
NURS 3340	Providing Care in a Culturally Diverse Society	3

PHED 3770	Indigenous Games and Activities	3
KPER 2200	Program Planning Principles	3

Elective courses will be selected by the First Nations Community Wellness Diploma's Curriculum and Management Committee once a specialization has been determined.

### Aboriginal Child and Family Services Diploma Program

(This program is not being offered in the 2020/2021 academic year).

The Aboriginal Child and Family Services (ACFS) Diploma Program provides an opportunity for students to build their knowledge and skills base in the area of child protection and family enhancement. The program would be of interest to those individuals who are currently employed, or who anticipate future employment in the field of Aboriginal Child Welfare. The diploma consists of 60 credit hours with students completing 9 required courses and 12 credit hours of electives. There is also a comprehensive program orientation to provide students with the foundational skills to assist in their studies. Students are eligible for transfer of credit into degree programs in the participating faculties at the University of Manitoba.

### 2.2 Flexible Delivery and Intensive Programs

General Office: 185 Extended Education Complex

Telephone: 204 474 8800

#### Flexible Delivery

A diverse selection of short courses/programs, certificates, diplomas, and post baccalaureate certificates and diplomas are offered for professional and personal development in Education, Management and Leadership, Science/Environment, University Skills courses, Higher Education, as well as Health and Social Services. For more information call 204-474-8800 or visit [umextended.ca](http://umextended.ca)

#### Education

##### Certificate in Program Development for Adult Learners (PDAL)

This certificate program responds to the expressed needs of business and industry for a program tailored specifically for people who develop and/or deliver teaching and training to adults, are instructional designers, program planners, curriculum developers or evaluators in a variety of work environments. One of its kind in Canada, this innovative program ushers in a new era of professional development for you, your employer, and the people you educate.

##### Letter of Accomplishment in Teaching English as a Second Language (TESL)

Teach English to newcomers or teach abroad with confidence and the power of your Teaching English as a Second Language credential behind you. The University of Manitoba's TESL program is an intensive online training program followed by an in-class practicum. Learn online from wherever you are and put your knowledge into practice at a practicum near you, in a real ESL classroom setting.

##### Post-Baccalaureate Certificate in E-Learning (PBCE)

This two-streamed program, teaching and design, offers a theory-based, yet hands-on approach to using instructional systems and learning technologies to design and/or deliver educational materials. Designed for new and more experienced educators and professional trainers, the PBCE program explores the latest developments in online educational technology; provides a solid foundation in e-learning planning, implementation and program management; and offers an opportunity for

professionals to gain the knowledge to design, implement, and manage online learning in educational and business settings.

### **Letter of Accomplishment in E-Learning (LOA: E)**

This two-streamed program, teaching and design, is for both new and more experienced educators and professional trainers who want to gain foundational knowledge and techniques in instructional design, e-learning technologies, teaching in an online environment, and the coordination of e-learning projects.

### **Management and Leadership**

#### **Certificate in Management and Administration (CIMA)**

The Certificate in Management and Administration is designed for supervisors, managers and professionals who are seeking to enhance their management and leadership skills and obtain a University of Manitoba credential along with a professional designation. Offered in proud partnership with the Canadian Institute of Management, the program includes courses in business administration, managerial communication, financial management, and strategic analysis. Graduates will earn their CIMA credential through Extended Education and may apply for the Certified in Management designation, with membership to the Canadian Institute of Management/Chartered Managers Canada.

#### **Certificate in Human Resource Management Certificate (HRM)**

The Human Resource Management Certificate provides students with the leadership, teamwork, communication and strategic planning skills necessary for a successful career in human resources. This comprehensive program covers key topics such as employee relations, human resource legislation, and staff training and development, while also introducing students to the professional competencies required for the CPHR designation. This program of study is ideally suited for professionals looking to start or advance their career in human resources. This program is offered in partnership with CPHR Manitoba.

#### **Certificate in Business Analysis (BA)**

The Certificate in Business Analysis provides students with a high-level, multifaceted introduction to the growing field of business analysis (BA). This program prepares students for BA employment and future certifications from organizations, such as the International Institute for Business Analysis (IIBA) and/or the Project Management Institute (PMI).

#### **Certificate in Quality Management (QM)**

The Quality Management Certificate is designed for professionals wishing to implement or manage quality assurance and control programs within their organizations. It provides learners with the necessary knowledge and skills to implement effective quality assurance principles and plan and manage quality control processes. This program is beneficial for professionals working in a wide range of sectors – government, education, healthcare, manufacturing, and the service industry.

#### **Certificate in Manitoba Municipal Administration (CMMA)**

The Certificate in Manitoba Municipal Administration provides students with the knowledge and skills required to assume administrative responsibilities within small to mid-sized municipalities. This comprehensive program, which can be completed in one year, covers key topics for current and future municipal administrators, including municipal accounting, municipal law and municipal administration.

#### **Letter of Accomplishment in Introductory Business Accounting (LOA: IBA)**

The Letter of Accomplishment (LOA) in Introductory Business Accounting provides students with introductory skills in financial management and accounting. It is also appropriate for individuals working/seeking employment where this knowledge is required to document the achievement. The LOA consists of two courses: Introductory Accounting for Business, which provides an understanding of basic accounting principles; as well as Financial Management, which seeks to introduce students to the broader field of managerial finance.

#### **Letter of Accomplishment in Change Management (CM)**

The Letter of Accomplishment (LOA) in Change Management provides new or emerging change management specialists and other professionals the opportunity to participate in professional development. The program focuses on key foundation change management practices and skills and consists of two courses (54 contact hours in total).

#### **Letter of Accomplishment in Career Preparation (LOA: CP)**

The Letter of Accomplishment (LOA) in Career Preparation is composed of six assessed workshops that serve as an introduction to the Canadian workplace. The LOA is part of the Intense Packages (ABM, AHRM and ABA).

#### **Post-Baccalaureate Certificate in Aerospace Program Management (PAPM)**

The Post-Baccalaureate in Aerospace Program Management offers the tools and knowledge needed to be a leader in the sophisticated and dynamic aerospace industry. The Post-Baccalaureate Certificate is an advanced credential in aerospace program management designed for current and future project, production, and operational managers, design engineers, and procurement and logistics specialists wishing to enter the field or advance their career in the aerospace industry. Learners will develop an in-depth understanding of the complete life cycle of an aerospace system; from initial identification of system requirements, to the design, manufacturing and marketing of the system, to its ongoing employment and maintenance.

### **Partnership Management and Leadership Programs**

#### **Certificate Program in Public Sector Management (CPSM)**

The Certificate in Public Sector Management (CPSM) is co-sponsored by the Government of Manitoba. A strong emphasis is placed on integrating the important and current issues affecting all levels of government in Manitoba. The instructors have a wealth of hands-on senior management experience in the public sector.

#### **United Way of Winnipeg Leadership Development Certificate Program - (UW)**

This program is offered in partnership with United Way and provides extensive training to Sponsored Executives. Sponsored Executives are leaders or potential leaders in their workplace who have a commitment to their community and are willing to serve as ambassadors for the United Way of Winnipeg and their organizations.

#### **Certificate in Applied Management (CAM)**

The Certificate in Applied Management provides participants with the opportunity for study in common management courses and in courses specific to a field of Specialization. All CAMs are offered in partnership with industry. There are currently five areas of specialization:

- Utilities Management (partner Manitoba Hydro)

- Retail Management (partner Manitoba Liquor and Lotteries Corporation)
- Leadership Development (partner Biosciences Association Manitoba)
- Customer Services Specialization (partner Manitoba Customer Contact Association)
- Organizational Effectiveness (partner QNET)

## Science and Environment

### Field Readiness and Safety Course (EEAS 0100)

A field course designed to provide students with hands-on review of field safety techniques (e.g., navigation, wildlife encounters, land and water safety). Students will spend five days in the field combined with class room instruction. Upon successful completion of the course students will receive a Letter of Accomplishment.

## University Skills Courses

### Basic Skills in Mathematics (MSKL 0050)

This course provides an overview of basic computational, algebraic and geometric concepts, the mastery of which will be essential for success in a pre-calculus course. Students will learn the basic concepts of calculations involving integers and fractions, algebraic computations such as factoring and solving equations, as well as some geometry such as coordinator geometry and right angle trigonometry. Upon successful completion of this course the student will receive a letter grade which will demonstrate preparation for entry into MSKL 0100 Mathematical Skills a course which can serve as a pre-requisite to many first year mathematics courses. Register through Extended Education: <https://umextended.ca/math-skills/>

### Mathematical Skills (MSKL 0100)

This course is designed, but not exclusively, for students preparing to enter first-year mathematics courses. Students will learn how to apply mathematical skills consistently and with confidence. The courses include a review of fundamental concepts, demonstrations, problem solving, applications and regular testing. Upon successful completion of this course the student will receive a letter grade which will demonstrate preparation for entry into selected University of Manitoba mathematics courses. Register through Extended Education: <https://umextended.ca/math-skills>

### Chemistry Skills (CSKL 0100)

This course provides a review of high school chemistry. Upon fulfillment of the course requirements the student will receive a pass/fail, acceptable to the Department of Chemistry as evidence of preparation for entry into selected University of Manitoba chemistry courses. Register through Extended Education: <https://umextended.ca/chemistry-skills>

### Physics Skills (PSKL 0100)

This course provides a review of high school physics. Upon fulfillment of the course requirements the student will receive a pass/fail to the Department of Physics as evidence or preparation for entry into selected University of Manitoba physics courses. Register through Extended Education: <https://umextended.ca/physics-skills/>

## Higher Education

### Certificate in University & College Administration (CUCA)

The program is designed to provide a background to the complex cultures and administrative challenges found in modern universities and colleges, and to help practitioners become integral members of the academic administrative team.

### Letter of Accomplishment in Higher Education Administration (HEA)

The Letter of Accomplishment (LOA) in Higher Education Administration will prepare entry-level or mid-level professionals in Canadian universities, polytechnics, and colleges to become integral members of the administrative team by developing a greater understanding of how the context in which they work impacts their role, and by acquiring skills and abilities to enhance their performance.

### Letter of Accomplishment in Academic Advising (LOA: AA)

The Letter of Accomplishment (LOA) in Academic Advising provides an understanding of the academic advising landscape in Canada. This program aims to enable advisors at all levels to deepen their understanding of the theories and practices associated with academic advising and to provide enhanced service to students and their institutions. The LOA is composed of three core courses and two electives.

## Health and Social Services

### Certificate in Applied Counselling (ACC)

The Applied Counselling Certificate provides an introduction to the counselling process and helps learners develop effective counselling strategies. It is ideally suited for anyone working in a counselling context through paid or volunteer work. Participants' varied workplaces include: health care, education, social services, and government.

Through this program, the student can choose a General Stream or Specialization in Addictions Studies. The later combines' courses in the ACC program with courses from the Addictions Foundation of Manitoba (<https://afm.mb.ca/>).

## Intensive Programs

### 12-month Intensive Program Packages

12-month intensive program packages are composed of a Certificate, a Letter of Accomplishment (LOA) in Career Preparation, and a 175- hour Industry Placement. There are currently three intensive program packages.

- Applied Business Management, ABM (Certificate in Management and Administration + LOA in Career Preparation + 175-hour Industry Placement)
- Applied Human Resource Management, AHRM (Certificate in Human Resource Management + LOA in Career Preparation + 175- hour Industry Placement)
- Applied Business Analysis, ABA (Certificate in Business Analysis + LOA in Career Preparation + 175- hour Industry Placement)

## 2.3 General Studies and Military Support Office

General Office: 185 Extended Education Complex  
Telephone: 204-474-8800

### General Studies

General Studies provides opportunities for students to take credit courses at the University of Manitoba without being enrolled in a degree program. General Studies students include professionals developing their careers, students satisfying entrance requirements to professional and other faculties, seniors enriching their lives, students visiting from other institutions, and individuals exploring a career change. Courses are

available in the Fall, Winter and Summer terms and are offered on campus, online and/or some form of remote learning. Due to the COVID-19 pandemic, the University has approved a plan to deliver **all possible courses for the 2020 Fall Term by remote learning.**

General Studies Student Advisors are available to assist with course and program planning and to provide admission and registration information throughout the year.

### Admission

Prospective students are required to submit an online application to the Division of Extended Education in one of the following categories: General Studies (Special Student), Auditing Student, Mature Student (Canadian Military only), or Visiting Student. Detailed information on eligibility requirements may be found at [umanitoba.ca/admissions](http://umanitoba.ca/admissions) or by contacting the General Studies office.

### Registration

All General Studies students register for courses using Aurora; go to: <http://umanitoba.ca/registrar/registration>. Registration for Fall & Winter term courses will begin in August. To determine your initial access date for registration, log onto Aurora beginning Friday July 10<sup>th</sup> (select Enrolment & Academic Records, Registration & Exams, Registration Time & Status).

Please refer to [umanitoba.ca/registrar](http://umanitoba.ca/registrar) for helpful links regarding registration procedures, fee information, and examinations. Note that applicable prerequisites as outlined in Aurora Student (Course Catalog) must be fulfilled prior to registering in a course.

You may register for up to a maximum of 30 credit hours in the combined Fall and Winter terms, and up to a maximum of 15 credit hours in any one term, including Summer Session.

### Special Students

To be eligible for admission, students must have completed 24 credit hours of college or university level studies (please refer to transfer credit policies) and be in good standing.

Special students are those taking course(s) for professional development or personal learning, students with a degree taking a few courses to satisfy entry requirements to a faculty, students who have completed previous university/college course work, and those wanting to increase their GPA for admission to a faculty, college, or school.

Special Students pay the application fee and provide all official transcripts from external institutions attended. If born outside Canada and now a permanent resident or Canadian citizen, you are required to provide proof of status in Canada. If English is not your first language, you are required to provide [English Language Proficiency results](#).

*Transfer credit* - A General Studies Student Advisor will enter overrides for external courses that have been evaluated by the University of Manitoba and satisfy prerequisite requirements, provided the prerequisite grade requirement has been satisfied. To access the Transfer Credit Equivalencies database, visit [aurora.umanitoba.ca](http://aurora.umanitoba.ca), click on Transfer Credit Equivalencies. Note that external credits are not officially evaluated for transfer credit until an application to a degree granting faculty/school is received by the Admissions Office. For more information regarding evaluation of external courses, contact a General Studies Student Advisor.

### Returning Special Students

If you need help with course selection or have any concerns about your status, contact a General Studies Student Advisor.

### Visiting Students

Visiting students who have been admitted and registered previously in at least one course are eligible to register in a subsequent session without reapplying for admission provided your home university has not changed since you last registered in General Studies, you have a Letter of Permission from your home institution approving the selected course(s), and the Letter of Permission has been submitted to a General Studies advisor prior to registering.

The Letter of Permission from your home institution overrides all prerequisites as stated in the course descriptions in the Undergraduate Calendar, except where a course requires Department Head or Instructor approval. Instructor/departmental approvals should be submitted to a General Studies Student Advisor prior to registration. We recommend that you start the process with your home institution early and have a selection of alternate courses approved in case the initial course(s) is/are full.

### Auditing Students

This option is available to Canadian Citizens/Permanent Residents only.

Auditing students should obtain written permission from the course instructor to audit a course. The written permission and your written consent must be submitted to a General Studies Student Advisor who will manually register you for the course(s). Please contact General Studies for more information.

### Senior Students

Adults who are 65 years by Sept. 1 (Fall term), Jan. 1 (Winter term), or May 1 (Summer term) and who are Canadian citizens or Permanent Residents will not pay application or tuition fees. Proof of age and citizenship/residence status, and English language proficiency may be required. Seniors can apply to General Studies as a Special Student to take course(s) for credit or as an Auditing Student to take courses for personal interest.

### Courses Available to General Studies Students

All courses in the following faculties and schools are available to General Studies students. Prerequisites may be required for some courses as specified in the course descriptions.

Clayton H. Riddell Faculty of Environment, Earth, and Resources  
Faculty of Agricultural and Food Sciences  
Faculty of Arts  
Faculty of Science  
I.H. Asper School of Business  
School of Art (visiting students may not register in any course offered by the School of Art)

All courses offered in the following faculties require teaching faculty written approval before registering, with the exception of courses open to all students as listed under University 1:

Faculty of Architecture  
Faculty of Education (5000 level courses only)  
Faculty of Engineering  
Faculty of Health Sciences  
Faculty of Kinesiology and Recreation Management  
College of Nursing  
Faculty of Social Work  
Marcel A. Desautels Faculty of Music

## Academic Regulations and Policies Applicable to all General Studies Students

**Academic Assessment and Progression Rules:** Academic Assessment gauges student success at the University. Formal academic assessment shall be done following each academic term for all General Studies students who have completed 30 credit hours or more of attempts. In order to be in "good standing" in General Studies, a student must achieve a degree Grade Point Average (GPA) of 2.00 or greater at each assessment period. Students in "good standing" may continue in General Studies or, preferably, transfer to a target faculty.

Students who do not achieve a degree GPA of 2.00 will be placed "on probation", which will appear on the student's transcript. Once "on probation", a student will be allowed to register for another term (or terms). At each point of assessment, a student "on probation" must achieve a term GPA of 2.00 in order to proceed. In order to clear probation, a student must achieve a degree GPA of 2.00. While "on probation", students are encouraged to consult a General Studies Student Advisor prior to registration and on a regular basis thereafter.

If a student does not succeed in achieving a term GPA of 2.00 by the end of the probation period, they will be placed on "academic suspension" for one calendar year. A student on "academic suspension" is normally not allowed to register in another faculty or school at the University of Manitoba or to attend any other post-secondary institution during the time of suspension. Following the suspension period, a student may reapply for admission to General Studies.

**Credit Hour Policy:** In an effort to assist students with academic decisions, all students who have completed 30 credit hours of study with General Studies will be required to meet with a General Studies Student Advisor before being allowed further registration. Until such time as the student meets with an advisor, a block will be placed on their record that prevents further registration.

### Diploma in Labour Relations and Workplace Studies

The Diploma in Labour Relations and Workplace Studies was originally approved by Senate in 2002. Extended Education, along with the Labour Studies program, Faculty of Arts, developed this comprehensive university-based program that is intended to provide necessary knowledge and skills to conduct improved labour and industrial relations. The intended audience of the program is labour representatives and industrial relations practitioners. The program has been designed in a manner that is accessible for working people qualified to enter General Studies, and able to access evening, off campus courses, and courses offered during Summer term.

The Diploma in Labour Relations and Workplace Studies provides a broad educational experience in labour relations and workplace studies, including courses in economics and politics of work, unions and labour relations, employment legislation, labour law, and pensions and benefits.

### The diploma is composed of 30 credit hours of Labour Studies coursework.

Course No.		Cr. Hrs.
<b>Required Courses</b>		
LABR 1260	Working for a Living	3
LABR 1290	Introduction to the Canadian Labour Movement	3
<b>Electives</b>		
LABR designated	2000 level courses	6

LABR designated	3000 level courses	18
-----------------	--------------------	----

LABR 1260 and LABR 1290 are prerequisites to all other courses in the program and must be completed as the first two courses with a minimum grade of "C". Upon successful completion of these two prerequisites, students may complete the electives in the order they choose, subject to availability.

Students are required to complete all 30 credit hours and achieve a 2.5 GPA with a minimum grade of "C" in each course.

**Application Process:** Complete the Application for the Diploma in Labour Relations and Workplace Studies, available from [umextended.ca/labour-studies/](http://umextended.ca/labour-studies/)

**Dual Credit:** Students currently admitted into another Faculty at the University of Manitoba may also apply for the Diploma in Labour Relations and Workplace Studies.

**Graduation:** Upon completion of the designated 30 credit hours of study, students must indicate their intent to graduate in Aurora Student or contact the General Studies student advisor.

**Degree Credit:** All courses from the Diploma in Labour Relations and Workplace Studies are transferable to a degree program in the Faculty of Arts and possibly other faculties. Students who have received external transfer credit towards the Diploma program should note that some faculties and schools may have limitations on external transfer credit taken beyond a specific period. This information may be found in each faculty chapter of the University of Manitoba Undergraduate Calendar.

### Military Support Office

The Military Support Office is designed to assist Canadian Armed Forces personnel and their immediate family members in the pursuit of a university education.

Through this unique office, the University of Manitoba acknowledges and accommodates the difficulties which extensive mobility can create for military members wishing to complete university degree programs. Recognition is given for a wide range of military training, and provision may be made for academic and financial relief when military duties interrupt studies. Academic counselling is available.

Courses are available through distance and online education or on campus, either part-time or full-time. A Mature Student entry program is also available.

## Rady Faculty of Health Sciences

Dean: Dr. Brian Postl

Campus Address/General Office: A101 Chown-753 McDermot Avenue

Telephone: (204) 789-3485

Email Address:

[brian.postl@umanitoba.ca](mailto:brian.postl@umanitoba.ca)

The Faculty of Health Sciences was created with the amalgamation of the University's former health sciences faculties (Dentistry, Medicine, Nursing, Pharmacy, Human Ecology) and former schools (Dental Hygiene and Medical Rehabilitation). Professional Colleges within the Faculty are the: College of Dentistry (including the School of Dental Hygiene), College of Medicine, College of Nursing, College of Pharmacy, and College of Rehabilitation Sciences. All existing programs of these units will initially be offered by the proposed new faculty.

In addition to the above programs, the administration of the Interdisciplinary Health Programs (B.H.Sc. and B.H.St.) and General Human Ecology (B.H.Ecol.) program from the Faculty of Human Ecology (HE) will be transferred to the Faculty of Health Sciences (FHS). As such, effective Fall 2015 term, the programs will be transferred to, and administered by, the Faculty of Health Sciences.

### 4.1 First Year

### 4.2 Second Year

### 4.3 Third Year

### 4.4 Fourth Year

## SECTION 5: Course Descriptions

### SECTION 1: Degree Programs Offered

#### 1.1 Programs

Program/Degree	Years to Complete	Total Credit Hours (dental program only)
Doctor of Dental Medicine (D.M.D.) (4 year program)	Minimum time to graduation: Six years (University 1, plus one year or 2 years in either the Faculty of Science or Arts, plus four years in the College of Dentistry).	154
Doctor of Dental Medicine (D.M.D.) (International Dentists Degree Program [IDDP] 2 year program)	After an 8 week summer orientation students in this program complete the 3 <sup>rd</sup> and 4 <sup>th</sup> year of the dental program.	74
Bachelor of Science in Dentistry  (note: only students enrolled in the D.M.D. program are eligible for admission)	This program is completed over two (2) summers, normally commencing after first year in the dental program.	NA

#### 1.2 The Profession of Dentistry

The Dr. Gerald Niznick College of Dentistry is dedicated to educating dental, dental hygiene and graduate students in a progressive learning environment, conducting research in oral health, and serving the community and the oral health professions as a source of knowledge and expertise. The college serves as a bridge between the fundamental scientific foundation of the profession and its translation into health care for the public. Dentists enhance and promote the total health of patients through oral health management. Dentists are concerned with promoting oral health and preventing and alleviating the effects of oral diseases and conditions in order to contribute to the well-being of their patients.

The curriculum is designed to ensure that students graduate as competent dentists prepared to meet the oral health care needs of their patients. It provides the knowledge of basic biomedical, behavioural and clinical sciences and biomaterials, the cognitive and behavioural skills, and the professional and ethical values necessary for practice as a dental professional.

Information on the Dental Hygiene program is in the chapter, [School of Dental Hygiene](#).

#### National Examining Body

Graduates of this college are required to sit a written examination and an objective structured clinical examination during the calendar year of their graduation, administered by the National Dental Examining Board of Canada. The NDEB certification granted to graduates who pass these

examinations, entitles them to apply for a license to practice in all provinces of Canada. The provinces of Ontario and Quebec have additional requirements. For information contact: The Registrar, [National Dental Examining Board](#), 80 Elgin Street, 2nd Floor, Ottawa, Ontario K1P 6R2; telephone (613) 236 5912; e-mail: [director@ndeb.ca](mailto:director@ndeb.ca)

### Licensing Requirements

A graduate of the Dr. Gerald Niznick College of Dentistry, who has received NDEB certification, is entitled to apply to the Manitoba Dental Association to obtain a license to practice within the province of Manitoba. For information on licensing requirements and the application process please contact: The Registrar, [Manitoba Dental Association](#), 202 - 1735 Corydon Avenue, Winnipeg, Manitoba R3N 0K4; telephone (204) 988 5300; e-mail: [office@manitobadentist.ca](mailto:office@manitobadentist.ca)

### Other Licensing Bodies

For regulations governing licensure in other areas (e.g., other provinces, the United States), candidates are advised to write the licensing body in the province/state in which they are interested.

## SECTION 2: Admission Requirements

### 2.1 Doctor of Dental Medicine

Minimum time to graduation: Six years (University 1, plus one year in the Faculty of Science or Arts or Extended Education; or 2 years in the Faculty of Science or Arts; plus four years in the Dr. Gerald Niznick College of Dentistry).

The following is a summary of the admission requirements. Equivalent academic courses completed at recognized universities elsewhere will be considered. All admission requirements, as well as application deadline dates and forms, are included in an application bulletin that is available from on the university's website ([dentistry](#)).

#### Minimum 60 credit hours of pre-Dentistry study including:

BIOL 1020 and BIOL 1030

CHEM 1300 and CHEM 1310

CHEM 2210 and CHEM 2220

CHEM 2360 and CHEM 2370 or MBIO 2360 and MBIO 2370

PHYS 1020 and PHYS 1030 or PHYS 1050 and PHYS 1070

6 credit hours of English (taught through the English Department, usually with ENGL prefix)

6 credit hours of Humanities/Social Sciences which must be in the non-applied sciences or non-pure sciences.

18 credit hours of electives (We do not recommend specific courses).

All science courses must include the laboratory component.

#### Other requirements

High school prerequisites: Chemistry 40S, Pre-Calculus Mathematics 40S or Applied Mathematics 40S, Physics 40S and Biology 40S.

The 6 credit hours of English satisfies the written English requirement; the mathematics requirement must be met in the first 60 credit hours even though it is not a specific admissions requirement (PHYS 1020(M) meets the mathematics "M" requirement).

The English Canadian Dental Aptitude Test (DAT) must be written no later than the November test date prior to the application deadline.

#### A personal interview is required.

Admission is competitive.

Information on the admission process may be accessed through the Dr. Gerald Niznick College of Dentistry's web page (<http://umanitoba.ca/healthsciences/dentistry/>) or by visiting the Admission website at: <http://umanitoba.ca/student/admissions/application/programs/dentistry-application.html>

Selection criteria: Grades (AGPA), interview and DAT score equally weighted.

Students should be aware that if admitted they must provide an official Adult Criminal Record Check (including Vulnerable Persons Screening), an Adult Abuse Registry Check\* and a Child Abuse Registry Check\* as well as a signed acknowledgement of the *Essential Skills and Abilities for Admission, Promotion and Graduation in the DMD Program* document prior to registration. See Section 3 for further information on these requirements.

\*The College will provide further information on the application process (to be completed through the College)

### 2.2 Bachelor of Science in Dentistry

In addition to the basic professional degree, the college offers the Bachelor of Science in Dentistry degree to interested dental students wishing to undertake research during their undergraduate program. The program is designed to assure that participation in it will not interfere with the student's dental degree. Through active participation in a research program, the students will be given the opportunity to develop skills in applying scientific knowledge to dental practice and an interest in dental research. In addition, the program will serve as a preparatory step for entry into various graduate programs. Information on admission to this program is available from the Dean's Office and through the Dr. Gerald Niznick College of Dentistry's web page [https://umanitoba.ca/faculties/health\\_sciences/dentistry/research/bsc-dent.html](https://umanitoba.ca/faculties/health_sciences/dentistry/research/bsc-dent.html).

### 2.3 International Dentist Degree Program (IDDP)

The Dr. Gerald Niznick College of Dentistry, University of Manitoba, offers the International Dentist Degree Program (IDDP) to graduates of international dental programs that are not accredited by the Commission on Dental Accreditation of Canada. After a summer orientation program, students enter the 3rd year of the regular dental program of the College. Upon satisfactory completion of the 3rd and 4th years of the dental program, IDDP participants will be awarded the Doctor of Dental Medicine (DMD) degree. All graduates of DMD programs in Canada, once having passed the National Dental Examining Board of Canada (NDEB) examinations, are eligible for licensure/registration as a dentist in all provinces in Canada.

Requirement to the IDDP program can be found at the Dr. Gerald Niznick College of Dentistry's website at: <http://umanitoba.ca/student/admissions/application/programs/iddp-application.html>

#### Please note that there are two tracks which may be applied to.

Should you have specific questions that cannot be answered from the above website, please call the IDDP Coordinator at (204) 977-5611.

## SECTION 3: College Academic Regulations

All students are asked to note that some academic policies and regulations are under review and are subject to change. Please check the Web Calendar at [umanitoba.ca](http://umanitoba.ca) for updated information.

The provisions of the chapter, General Academic Regulations and Requirements, and the chapter, University Policies, apply to all students. In

addition, the Dr. Gerald Niznick College of Dentistry has regulations and requirements, published below that apply specifically to its students.

The Dr. Gerald Niznick College of Dentistry expects all students to participate fully in their educational experience. This means participation above and beyond the requirements of individual courses. For example, as a part of their clinical experiences, all students must learn skills of a clinical nature, such as local anesthesia, rubber dam placement, etc. Our teaching approach includes having students practice these skills on each other. All students are expected to participate in these activities.

Further, the college has an expectation of all students that they are aware of and maintain attitudes and behaviours which exhibit a level of professionalism, empathy, and consideration of all members of their community, including faculty, staff, students or patients, similar to what is expected of an oral health practitioner.

The following policies have been adopted by the College to aid students in understanding the value the College places on these conducts/behaviours.

### 3.1 Essential Skills and Abilities for Admission, Promotion and Graduation in the DMD Program

As an accredited Canadian dental program, the Dr. Gerald Niznick College of Dentistry, Rady Faculty of Health Sciences at the University of Manitoba is responsible for providing a program of study that ensures graduates have the necessary qualifications (academic knowledge, clinical skills, and professional behaviors and attitudes) to enter the regulated profession of Dentistry in Canada. Becoming and being a dentist requires a wide range of highly specialized skills and abilities. Some of these are taught in dental school, while others must be brought by the individual as an innate set of essential skills and abilities. The criteria for becoming registered/ licensed as a dentist in Canada requires a level of motor skills and other attributes that are not necessary in other professional occupations. Similarly, the ability to provide reasonable accommodation for special learning needs in dentistry may not be the same as it is for other academic programs.

It is important to note that an offer of admission to the Dr. Gerald Niznick College of Dentistry is not evidence that the dental program has verified that an applicant has the prerequisite skills and abilities for success in the program or in obtaining future professional licensure. However, these skills and abilities are essential if students are to be successful in achieving the competency standards of the profession.

For progression in, and graduation, from the dental program, all students must conduct themselves in a professional manner, and must have the Essential Skills and Abilities (Technical Standards) discussed under the following five broad areas: Observation/perception; Communication; Motor/tactile function; Cognition; Emotional functioning

All applicants to the undergraduate program of the Dr. Gerald Niznick College of Dentistry are expected to review *The Essential Skills and Abilities for Admission, Promotion and Graduation in the DMD Program* document to assess their ability to meet these standards; all applicants offered admission will be required to acknowledge such review and assessment. Any candidate for the DMD degree who cannot demonstrate the required skills and abilities throughout their course of study may be requested to withdraw from the program.

Detailed information for the above policy can be found at: [http://umanitoba.ca/faculties/health\\_sciences/dentistry/students/1097.html](http://umanitoba.ca/faculties/health_sciences/dentistry/students/1097.html)

### 3.2 Policy on Student Attendance

The Dr. Gerald Niznick College of Dentistry has a social mandate to ensure that graduating dentists are caring, skilled healthcare providers who are worthy of the public trust endowed upon them. In fulfilling this mandate, the Dr. Gerald Niznick College of Dentistry has developed comprehensive programs of education and experience to ensure that graduates meet these high expectations. Unlike non-professional education programs, where

students can pick and choose their education and experiences based on personal preferences, Dental School requires students to attend and participate actively in all components of the program.

While students are required to complete assignments and pass examinations, these are not considered to be equivalent to attending Dental School. When the University confers the DMD degree, it attests to society not only that the student has shown successful examination performance, but that the student has participated in the entire educational experience defined by the Dr. Gerald Niznick College of Dentistry and has thereby demonstrated an appropriate level of professional learning and responsibility.

Students at the University of Manitoba, Dr. Gerald Niznick College of Dentistry, are required to attend all scheduled classes, examinations, small group sessions, laboratories, pre-clinical labs, and clinics unless expressly indicated otherwise by the course coordinator in the course outline/syllabus.

Students are required to be on time for all scheduled classes, examinations, small group sessions, laboratories, and pre-clinical labs. Students arriving more than 10-minutes late will be recorded as absent.

Students who do not comply with the Student Attendance Policy will face academic consequences.

Detailed information for the above policy can be found at: [http://umanitoba.ca/faculties/health\\_sciences/dentistry/students/1097.html](http://umanitoba.ca/faculties/health_sciences/dentistry/students/1097.html)

### 3.3 Dr. Gerald Niznick College of Dentistry/School of Dental Hygiene Professional Unsuitability By-Law

Students must at all times demonstrate suitability for the dental profession. In this regard students are obligated to act with integrity and diligence in carrying out their professional responsibilities, and their behaviour and conduct in relation to others must be characterized by consideration, respect and good faith.

The Dr. Gerald Niznick College of Dentistry may require a student to withdraw from the College when the student has been found unsuited for the practices of dentistry or dental hygiene because the student has been found to have engaged in unprofessional behaviour. A student may be required to withdraw at any time throughout the academic year.

Grounds which may require withdrawal are: demonstrated behaviour which is exploitive, irresponsible, intentionally injurious or destructive to patients; and/or compromised professional judgment through self-interest and/or conflict of interest; and/or an acquired criminal conviction, either in Canada or any other jurisdiction, which is of such a nature as to place in question his/her fitness for the dental professions; and/or participation in any activity related to patient care or any activity related to the practice of the dental professions while under the influence of alcohol or drugs or while abusing prescription drugs; and/or engaging in behaviour or conduct that if engaged in by a practising dentist/dental hygienist would likely result in disciplinary action, including suspension or revocation of the license to practise, by the Manitoba Dental Association or the College of Dental Hygienists of Manitoba.

Detailed information for the above policy can be found at: [http://umanitoba.ca/faculties/health\\_sciences/dentistry/students/1097.html](http://umanitoba.ca/faculties/health_sciences/dentistry/students/1097.html)

### 3.4 Criminal Record/Adult Abuse Registry/Child Abuse Registry

An adult criminal record, an adult abuse registry and a child abuse registry self-declaration will be required of all applicants at the time of application. A formal Adult Criminal Record Check (including vulnerable sector screening), a formal Adult Abuse Registry Check and a formal Child Abuse Registry Check are required at the time of registration, and annually

thereafter keeping in accordance with existing policies of other health, education and social service programs at the University of Manitoba.

Failure to provide these documents may impact on registration and a student's ability to progress in the Dental program.

### 3.5 Immunization and Blood Borne Diseases Policy

The Dr. Gerald Niznick College of Dentistry and School of Dental Hygiene maintain comprehensive immunization requirements to protect the wellbeing of our students and the health of patients and communities with whom they will have contact during their curriculum.

All students enrolled in the Dr. Gerald Niznick College of Dentistry must have immunity demonstrated against the following diseases: tetanus, diphtheria, pertussis, polio, measles, mumps, rubella, varicella (chickenpox), and hepatitis B. Students need to undergo testing for tuberculosis (TB) infection, unless the student already has a past history of TB infection or TB disease documented. Students must receive yearly influenza vaccinations. Students who cannot receive certain immunizations due to allergies or pregnancy must provide a physician's certificate stating this.

Before the first day of classes, all students must complete and return the University of Manitoba Immune Status Consent Form, as provided by the Dr. Gerald Niznick College of Dentistry Dean's Office. Please note that any supplemental immunization documentation provided to support this document and/or any future submissions of immunization materials must be signed by a physician or nurse. All students are responsible for updating their immunizations as needed.

Students **will not be permitted to attend clinics** until all immunization requirements are satisfied.

For the collection and management of student immunization records, the Dr. Gerald Niznick College of Dentistry/School of Dental Hygiene partner with the Rady Faculty of Health Science Immunization Program. The Director of Immunizations and the Program Assistant collect and organize immunization data as well as provide immunization services to students at the Bannatyne campus.

All students are expected to comply with the requirements of the Rady Faculty of Health Science Immunization Program which may change from time to time due to the immunization requirements of external health care facilities where students will be expected to attend as a part of their dental/dental hygiene program.

The Dr. Gerald Niznick College of Dentistry is compliant with the Association of Canadian Faculties of Dentistry (ACFD) *Guidelines for Infectious Disease and Healthcare Workers* document and its recommendations regarding barring students from clinical activities who do not meet these guidelines. Further information on the ACFD guidelines can be found at the following web-site:

<http://acfd.ca/about-acfd/publications/acfd-guidelines-for-infectious-diseases-and-health-care-workers/>

Any student applicant with an infectious disease should either delay their application to the program or disclose this information upon being accepted into the Dr. Gerald Niznick College of Dentistry. Should a student who has been accepted into the program but has been found to be unable to meet the immunization requirements/guidelines, every effort will be made to accommodate the student until the guidelines are met. In some cases, it may be necessary to suspend or terminate the student from the program if it is shown that the immunization requirements/guidelines are unable to be met.

### 3.6 CPR Certification

Accepted candidates will be required to show proof of CPR (Health Care Provider level) certification by September 15 of each year. This certification must be maintained on a yearly basis up to the date of graduation. CPR

Certification levels accepted by the Dr. Gerald Niznick College of Dentistry are:

Canadian Red Cross: ACLS (Advanced Cardiovascular Life Support for Health Care Providers)

Heart & Stoke Association: BLS for HCP + AED

St. John Ambulance: Health Care Provider Level C and AED

### 3.7 PHIA

Students are required to maintain confidentiality of patient records and abide by PHIA (Personal Health Information Act) legislation which governs and controls the sharing of personal health information. Students will be required to attend a PHIA orientation and sign a pledge of confidentiality in their first year of the program. This orientation includes content that satisfies PHIA requirements for student participation at external clinical sites under the direction of the Winnipeg Regional Health Authority (WRHA).

### 3.8 Sharing of Student Personal Information

Once admitted to the Dr. Gerald Niznick College of Dentistry, University of Manitoba, students' personal information is protected by FIPPA (Freedom of Information and the Protection of Privacy Act) legislation. However, prior to first registration, some personal information (name, e-mail, photo) is shared with external partners to facilitate student involvement. Please see further information below:

#### Mentorship Program

In a partnership between the Dr. Gerald Niznick College of Dentistry and the Manitoba Dental Association (MDA), first year Dental students are assigned a Mentor who is a member of the MDA and a practicing Dentist within the community. Each year, the MDA holds a "Welcome to the Profession" dinner where incoming students are invited to meet their Mentors. Students will then attend two to four Mentorship meetings each year throughout the four year program. The Dr. Gerald Niznick College of Dentistry provides the names, e-mail (U of M) and photographs of all first year Dental students to MDA personnel for the purpose of facilitating student participation in the Mentorship program.

#### Vital Source Textbook Database

Dentistry student's text books are accessible through an electronic textbook database called Vital Source. In order to provide all Dentistry students with access to their text books, the Dr. Gerald Niznick College of Dentistry will provided Vital Source with the names and e-mail (U of M) of all students for the purpose of authenticating users and providing access to their on-line content.

#### Manitoba Dental Students Association/Manitoba Dental Hygiene Students Association

Students in the Dr. Gerald Niznick College of Dentistry/School of Dental Hygiene become members of and are represented by the Manitoba Dental Students Association/Manitoba Dental Hygiene Students Association. These Associations provide student representation on College/School and University Committees as well as represent students on various external organizations (CDA/MDA/MDHA, etc.). The Dr. Gerald Niznick College of Dentistry/School of Dental Hygiene provides the names, e-mail (U of M) and photographs of all first year Dental and Dental Hygiene students with the respective student Associations for the purpose of facilitating student participation.

Student information will not be used or disclosed for other purposes, unless permitted by *The Freedom of Information and Protection of Privacy Act* (FIPPA). If you have any questions about the collection or use of your personal information, contact the Access & Privacy Office (tel. 204-474-9462), 233 Elizabeth Dafoe Library, University of Manitoba, Winnipeg, MB, R3T 2N2.

### 3.9 Instruments Computers and Textbook

Students entering the Dr. Gerald Niznick College of Dentistry will be expected to own or purchase a PC laptop computer (the College only supports PC's given the software used in our clinical facilities) that is compliant with University computer standards (see Bookstore - Computers on Campus for annual listing) and Vital Source Technology software requirements (see [www.vitalsource.com](http://www.vitalsource.com) for details). The expenditure of a computer may range approximately from \$1000 to \$4000 within the first year of the program. The Vital Source Technologies cost is approximately \$1400 per year for DMD and \$2000 per year for IDDP. These fees will be assessed annually on student's accounts under "Electronic Textbook Fee".

Students are responsible for Clinical Instrument Fees which represent the cost of dental instruments and supplies required for clinical education. These fees will be assessed annually on student's accounts under "Clinic Instrument Fee". These instruments and supplies are the property of students and are retained by the student after graduation.

It is the students' responsibility to maintain the condition of their instruments and stay within allotted supply levels. Any damaged/lost instruments or excessive use of supplies may result in additional charges to students. Over the 4 years of the DMD program, these fees will amount to approximately \$13,000 (\$15,000 for the IDDP program).

The college is unable to provide refunds for clinical instrument or electronic textbook fees and will not accept returns of any student computer software (including Vital Source Technologies), clinical instruments or other items, should a student leave the college for whatever reason and upon graduation.

### 3.10 Voluntary Withdrawal

Students intending to withdraw from a portion or all of their courses must report immediately in person or in writing to the Dean's Office. No fees will be refunded without the authorization of the dean. Please Note: Computer Software, Clinical Instrument fees and/or Clinical Instrument items are non-refundable. See also the chapter on General Academic Regulations and Requirements.

Students who withdraw from the Dr. Gerald Niznick College of Dentistry without notice will be considered to have terminated their connection with the college. If a subsequent application for registration is approved, they will be required to conform to the rules and regulations, fee schedules, sequence of courses, etc., in effect at the time of such subsequent application.

In cases where a student is obliged to withdraw after the final date of withdrawal published in the *Calendar* because of ill health or other sufficient reasons, their cases will be considered by the dean of the college.

### 3.11 Required Withdrawal

The Senate of the university has approved bylaws granting certain faculties, colleges and schools the authority to require a student to withdraw on the basis of unsuitability for the practice of the profession to which the program of study normally leads. Senate has approved such a bylaw for the Dr. Gerald Niznick College of Dentistry (see item 3.3 above).

Full policy information can be found at: [http://umanitoba.ca/faculties/health\\_sciences/dentistry/students/1097.html](http://umanitoba.ca/faculties/health_sciences/dentistry/students/1097.html)

### 3.12 Decisions Concerning Academic Promotions

The letter grade "D" is the lowest acceptable level of performance in each undergraduate course leading to the degree of D.M.D. when the work of any given year is being taken for the first time. (In the case of a repeated year, the minimum passing grade in each course is "C".)

A student who has a failing grade registered against him/her may not register for the program of the subsequent year, but may, at the discretion of Dental College Council, be permitted to repeat the failed year.

A minimum term GPA of 2.0 in each year is required to qualify a student for standing in that year.

A student who fails to obtain a minimum term GPA of 2.0 and who is not granted supplemental privileges will be considered to have failed the year.

Except by special permission of Dental College Council, no student may repeat more than one year in Dentistry, nor may any year be repeated more than once.

The work requirements of any repeated year may be modified, even increased, at the discretion of the Dental College Council.

The passing grade in each course of a repeated year in Dentistry is "C".

If a student receives an "F" grade in a fourth year clinical course, they will be required to register and pay a fee for the entire repeated year, and the work in that year may be modified or even increased by Dental College Council.

### 3.13 Incomplete Standing in the Dr. Gerald Niznick College of Dentistry

The incomplete "I (F)" designation is restricted to clinical courses.

Successful completion of clinical course requirements is through extended clinics rather than supplemental assessment.

A student who is unable to complete the quantitative clinical requirements in a course by the end of the academic year may apply for an incomplete grade classification ["I (F)"] and extension of time. Details of this application procedure can be obtained from the College.

### 3.14 Supplemental Examinations

A "Supplemental Examination" is an examination which may be offered as a privilege to a student who has failed a course or failed to achieve a satisfactory result. Such examinations are offered in order to grant the student an opportunity to rectify the inadequacy without repeating the course.

Information on Supplemental Examinations can be found in the chapter, [General Academic Regulations](#) at the beginning of this *Calendar*.

The following information regarding the policy of supplemental examination privilege is specific to the Dr. Gerald Niznick College of Dentistry:

Supplemental examinations are permitted for all courses **except those in which remediation is not realistically feasible (pre-clinical and/or clinical courses are NOT eligible for supplemental examination).**

The student will be notified in a letter from the Dean's Office if he/she is granted this examination privilege by Dental College Council. A student who is granted supplemental privileges is obliged to sit the examination at the soonest opportunity prior to the start of the next academic session.

The student must contact his/her Course Coordinator within 14 days of the date the notification letter from the Dean's Office to schedule a date to write their supplemental examination.

A student in first, third or fourth year who has failed in not more than two courses, at the regular final examinations of any year, or who fails to obtain a sessional (combined fall & winter GPA) grade point average of 2.0 for all courses taken by him or her, may, at the discretion of Dental College Council, be awarded the privilege of one or two supplemental examinations.

A student in second year who has failed in not more than three courses, or who failed to obtain a sessional (combined fall & winter GPA) grade point average of 2.0 for all courses taken by him or her, may, at the discretion of Dental College Council, be awarded the privilege of one, two or three supplemental examinations.

If a student has any failures he/she must have a minimum sessional (combined fall & winter GPA) grade point average of 2.0, including the failure(s), in order to qualify for supplemental privileges.

If a student has no failures but fails to obtain a minimum sessional (combined fall & winter GPA) grade point average of 2.0, that student may be eligible for supplemental privileges.

When students are allowed to write supplemental examinations for the purpose of raising their sessional (combined fall & winter GPA) grade point average to the minimum standard of 2.0, Dental College Council will specify the courses in which the student may write supplemental examinations. For the purpose of calculating such a student's cumulative grade point average, grade points attained in supplemental examinations will replace the grade points previously attained in the same course. Students are normally required to carry a full-time program in order to be eligible for supplemental privileges.

The passing grade in supplemental examinations is "C" in each course. A student failing a supplemental examination will be considered to have failed the year. A student may only write a supplemental once in any course; otherwise the course must be repeated.

### 3.15 Honours and Awards

Dean's Honour List: awarded to students in each year of the dental program who have achieved a minimum sessional (fall & winter term combined) G.P.A. of 3.8.

To qualify for Graduation with Honours, a candidate for the D.M.D. degree must qualify for the Dean's Honour List in both third and fourth year.

A student who repeats a year at his/her own request, i.e., not at the request of Dental College Council, is not eligible for the Dean's Honour List or to receive any awards for the work in that repeated year.

The following policy applies to the eligibility of part-time students for academic awards: in allocating any award, the only academic performance of a student to be considered is that attained during the year(s) for which the award is made. Therefore, a part-time student is not eligible for any purely academic award, other than one in an individual course. However, a part-time student who is carrying 80 per cent or more of the normal course load for the year is eligible for any award where conditions other than academic merit apply, and further, subject to the provisions set forth above, any part-time student is eligible for any award in the individual courses taken in the year for which the award is made.

### 3.16 E-Mail Accounts

All students are expected to have an e-mail account with the University of Manitoba and check it regularly. The Dr. Gerald Niznick College of Dentistry does not support communications with its students through external e-mail addresses.

### 3.17 Financial Aid

A number of loan and bursary funds are available to dental students. Applications and further information are available through the University of Manitoba's [Financial Aid and Awards Office](#).

### 3.18 Registration Exceptions

Upon receipt of initial (and annually thereafter) Criminal Record (including Vulnerable Sector Screening), Adult Abuse Registry Check and Child Abuse Registry Check, the Dr. Gerald Niznick College of Dentistry completes registration for all students in their courses.

Students who have a failing grade/s registered against them and/or have other outstanding academic matters (i.e. deferred or supplemental examinations, modified program, etc.) in regards to the previous academic session will not be registered in the next ensuing academic session until all outstanding matters have been cleared. Students who fall into this category should contact the student advisor for further information.

A student advisor is available in D113 Dental Building or by calling (204) 789-3484.

## SECTION 4: Program and Graduation Requirements

### 4.1 First Year

Course Number	Course Description	Credit Hours
DDSS 1100	Periodontology 1	1
DDSS 1110	Radiology 1	1
DENT 1202	Early Clinical Experience	3
DENT 1210	Dental Practice Management	1
ORLB 1302	Cell and Tissue Biology	4
ORLB 1310	Head, Neck and Nervous System Part 1	4
ORLB 1320	Head, Neck and Nervous System Part 2	3
ORLB 1330	Human Growth and Development	3
ORLB 1340	Oral Tissues Structure and Function	3
RSTD 1500	Dental Materials 1	2
RSTD 1512	Operative Dentistry 1	6
RSTD 1520	Dental Anatomy	3
RSTD 1530	Occlusion	2
RSTD 1550	Introduction to Dentistry	2

### 4.2 Second Year

Course Number	Course Description	Credit Hours
DDSS 2100	Periodontology 2	2
DDSS 2110	Radiology 2	1
DDSS 2122	Oral Pathology	5
DDSS 2130	Pain and Anxiety Control 1	1
DENT 2202	Introduction to Comprehensive Care	4
ORLB 2300	Pathology and Microbiology 1	1
ORLB 2312	Structure and Function of Major Organ Systems	4
ORLB 2320	Cariology and Plaque Associated Diseases	3
ORLB 2330	Nutrition in Dentistry	2
PDSO 2430	Introduction to Orthodontics	1

PDSD 2410	Pediatric Dentistry 1	3
PDSD 2420	Dental Public Health	1
RSTD 2502	Dental Materials Science 2	2
RSTD 2510	Operative Dentistry 2	3
RSTD 2520	Endodontology 1	2
RSTD 2532	Fixed Prosthodontics 1	6
RSTD 2540	Removable Partial Denture Prosthodontics	3
RSTD 2552	Complete Denture Prosthodontics	4

#### 4.3 Third Year \*

Course Number	Course Description	Credit Hours
DDSS 3102	Periodontology 3	3
DDSS 3112	Oral Diagnosis and Radiology 1	2
DDSS 3120	Pain and Anxiety Control 2	1
DDSS 3132	Oral and Maxillofacial Surgery 1	2
DDSS 3142	Medicine	2
DDSS 3152	Temporomandibular Disorder & Orofacial Pain	2
DDSS 3162	Pharmacology and Therapeutics	3
DENT 3210	Dental Practice Management 3	1
ORLB 3300	Pathology and Microbiology 2	1
PDSD 3402	Orthodontics 3	2
PDSD 3404	Dental Public Health 2	3
PDSD 3412	Pediatric Dentistry 2	3
RSTD 3512	Operative Dentistry 3	5
RSTD 3522	Endodontology 2	3
RSTD 3532	Fixed Prosthodontics 2	5
RSTD 3542	Complete and Removable Partial Dental Prosthodontics	3

\*IDDP Students must also complete a summer Orientation program prior to commencing the 3<sup>rd</sup> year of the program (DENT 2440, IDDP Orientation – 6 credit hours)

#### 4.4 Fourth Year

Course Number	Course Description	Credit Hours
DDSS 4122	Oral and Maxillofacial Surgery 2	1
DDSS 4150	Hospital Dentistry	1
DENT 4202	Interdisciplinary Patient Centred Care Case Studies	2
DENT 4210	Dental Practice Management 4	2

DENT 4222	General Practice Dentistry	10
DENT 4232	General Practice Seminars	2
DENT 4240	Dental Jurisprudence	1
PDSD 4402	Orthodontics 4	2
PDSD 4412	Pediatric Dentistry 3	2
PDSD 4422	Community Dentistry Externship	4

## SECTION 5: Course Descriptions

### SECTION 5.1 General Dentistry Course Descriptions

#### DENT 1202 Early Clinical Experience **3 Cr. Hrs.**

A series of lectures and clinical participation sessions designed to introduce the student to clinical dentistry and the relevance of basic science courses in the dental curriculum. May not be held with DENT 1010. Course evaluated on a pass/fail basis.

#### DENT 1210 Dental Practice Management 1 **1 Cr. Hrs.**

This course is an introduction to the Dental Practice Management curriculum which is distributed throughout the four year program. It comprises the modules on the Essentials of Effective Leadership and Strategic Leadership; Managing the Workplace and Conflict Resolution; Essentials of Interpersonal Communication Skills; and Team Building.

#### DENT 2202 Introduction to Comprehensive Care **4 Cr. Hrs.**

This course is an introduction to an integrated, patient-centered program with patient needs as the primary focus. The course introduces students to clinical protocol and patient record documentation and communication. Students receive experience in comprehensive treatment planning as well as basic treatments in periodontics, operative dentistry, and pain control. Course evaluated on a pass/fail basis. May not be held with DENT 2430.

#### DENT 3210 Dental Practice Management 3 **1 Cr. Hrs.**

This course is the third in a series of Dental Practice Management courses distributed throughout the four-year program. It comprises the modules on managerial decision-making and negotiations; operations management; self-assessment in practice; and effective management of patient and employees.

#### DENT 4202 Interdisciplinary Patient Centered Care Case Studies **2 Cr. Hrs.**

(Formerly DENT 4020) Lectures and development of portfolio case designed to enable the student to obtain, organize and critically evaluate information in order to facilitate treatment planning. May not be held with DENT 4020.

#### DENT 4210 Dental Practice Management 4 **2 Cr. Hrs.**

(Formerly RSTD 4170) The management, evaluation, economics, organization, design, location, selection and marketing of a dental practice are covered by lectures and seminars. In addition, ethical considerations of dental practice, the options available to new dental graduates and the role of professional associations are discussed. May not be held with RSTD 4170.

#### DENT 4222 General Practice Dentistry **10 Cr. Hrs.**

This course is designed to consolidate the theoretical and clinical building blocks of all previous dental courses into the development of a comprehensive dental care methodology. Clinical instruction and experience will facilitate the senior dental students in developing effective patient management tools and advance their technical skills to the level of a novice general dentist. May not be held with the former DENT 4030.

#### DENT 4232 General Practice Seminars **2 Cr. Hrs.**

Topics relating to General Practice Dentistry are reviewed and reinforced in preparation for clinical practice and National Board Examinations. This course supports the General Practice Dentistry (DENT 4222) program with procedure reviews as needed. May not be held with DENT 4030.

**DENT 4240 Dental Jurisprudence 1 Cr. Hrs.**  
(Formerly RSTD 4160) This course provides an overview of the Canadian legal system. It defines and discusses legal concepts relevant to dentistry including issues in negligence, contracts, confidentiality, business and human rights. Identifying a dentist's legal responsibilities to patients, peers, employees, profession and society will underlie the entire course. May not be held with RSTD 4160.

## SECTION 5.2 Dental Diagnostic and Surgical Sciences Course Descriptions

**DDSS 1100 Periodontology 1 1 Cr. Hrs.**

A pre-clinical laboratory and didactic course designed to (1) introduce students to periodontal examination procedures and to basic non-surgical periodontal therapy, (2) develop skills related to periodontal instrumentation and treatment, and (3) present fundamental concepts of periodontal anatomy, physiology and microbiology in health and disease. May not be held with DDSS 1020.

**DDSS 1110 Radiology 1 1 Cr. Hrs.**

A series of lectures which introduces the student to: the elementary principles of dental radiology; radiation physics, radiation biology, imaging techniques, x-ray equipment and radiation protection. May not be held with DDSS 1140.

**DDSS 2100 Periodontology 2 2 Cr. Hrs.**

A basic didactic course with emphasis on (1) diagnosis, classification, treatment and prevention of different forms of plaque-induced periodontal diseases, (2) oral-systemic disease associations; (3) non-plaque induced gingival alterations, (4) periodontal treatment of medically compromised patients. May not be held with DDSS 2120.

**DDSS 2110 Radiology 2 1 Cr. Hrs.**

A series of lectures in the theoretical and practical principles of radiographic interpretation of common oral pathologic conditions as well as selected examples of pathologic conditions exhibiting important radiographic principles. May not be held with DDSS 2180.

**DDSS 2122 Oral Pathology 5 Cr. Hrs.**

A series of lectures emphasizing recognition, description, etiopathogenesis, clinical and/ or radiographic features, biologic behaviour, treatment and/ or management of oral and paraoral conditions. May not be held with DDSS 2010.

**DDSS 2130 Pain and Anxiety Control 1 1 Cr. Hrs.**

A series of lectures to introduce the student to: local anaesthetics, local anaesthesia techniques, avoidance and management of complications and selection of appropriate drugs and techniques. May not be held with DDSS 2020.

**DDSS 3102 Periodontology 3 3 Cr. Hrs.**

This combined lecture and clinical course is designed to provide experience which will allow students to apply previous didactic learning to the clinical environment in the field of Periodontology. The classroom sessions provide description and discussion of periodontal treatment modalities and techniques, including non-surgical, surgical intervention, and implant treatment. Inter-relationships with other clinical disciplines also receive considerable attention. May not be held with the former DDSS 3220.

**DDSS 3112 Oral Diagnosis and Radiology 1 2 Cr. Hrs.**

This course includes a lecture component covering history-taking, clinical examination, diagnosis and treatment of soft and hard tissue lesions, emergency treatment, dental treatment of patients with systemic disease, and clinical experience. May not be held with DDSS 3200.

**DDSS 3120 Pain and Anxiety Control 2 1 Cr. Hrs.**

This course consists of lectures/seminars and clinical experience in: physiology of pain psychology of anxiety, management of medical emergencies, parenteral injections, and therapeutics of the various modalities of pain and anxiety control. May not be held with DDSS 3230.

**DDSS 3132 ORAL AND MAXILL SURGERY 1 2 Cr. Hrs.**

This course consists of lectures, seminars and clinics, covering all aspects of

oral and maxillofacial surgery with an emphasis on those procedures performed by the general practitioner. May not be held with DDSS 3210.

**DDSS 3142 Medicine 2 Cr. Hrs.**

Lectures or seminars describing the basic mechanisms, symptoms, diagnosis and management of various disease processes included in internal medicine and their dental correlations. May not be held with DDSS 3030.

**DDSS 3152 Temporomandibular Disorders and Orofacial Pain 2 Cr. Hrs.**

The course reviews the foundational clinical sciences in pain biology, and function of the masticatory muscles and TMJ. It discusses the contemporary classification, diagnosis and management of Temporomandibular disorders and related orofacial pain disorders. May not be held with DDSS 3190.

**DDSS 3162 Pharmacology and Therapeutics 3 Cr. Hrs.**

A discussion of the basic pharmacodynamics, pharmacokinetics, mechanisms of actions, doses and adverse effects of therapeutic agents prescribed and administered by dentists. This will include antibiotics, analgesics, anxiolytics, anti-viral and anti-fungal agents. Subsequently drugs used in the management of systemic diseases will be discussed including mechanisms of actions and adverse effects, with particular focus on those which are dentally-related. May not be held with the former ORLB 3320 or the former ORLB 3060 or the former ORLB 3310.

**DDSS 4112 Oral Diagnosis and Radiology 2 2 Cr. Hrs.**

(Formerly DDSS 4200) This clinical course is designed to give the student clinical experience with: treatment planning, diagnostic techniques, differential diagnosis, emergency treatment and non-surgical management related to oral pathologic conditions. May not be held with DDSS 4200.

**DDSS 4122 Oral & Maxillofacial Surgery 2 1 Cr. Hrs.**

(Formerly DDSS 4210) This course consists of lectures, seminars and clinics covering all aspects of oral and maxillofacial surgery with an emphasis on those procedures performed by the general practitioner. May not be held with DDSS 4210.

**DDSS 4150 Hospital Dentistry 1 Cr. Hrs.**

(Formerly DDSS 4130) This course is designed to provide the student with a familiarization with hospital protocol, reinforcement of understanding in medicine, surgery, pharmacology and therapeutics, the dental treatment of medically compromised patients at the Health Sciences Centre, and handicapped patients in other institutional settings. May not be held with DDSS 4130. Course evaluated on a pass/fail basis.

## SECTION 5.3 Oral Biology Course Descriptions

**ORLB 1302 Cell and Tissue Biology 4 Cr. Hrs.**

Structure, function and chemical composition of eucaryotic cells and oral bacteria will be studied. Taste signaling, diseases, and molecular interactions within and between cells and the immune system will be described in detail. May not be held with ORLB 1050.

**ORLB 1310 Head, Neck and Nervous System, Part 1 4 Cr. Hrs.**

Gross anatomy of the head and neck are described and observed by regional dissection. Overviews of the nervous system and surface anatomy of the mouth are included. May not be held with ORLB 1060.

**ORLB 1320 Head, Neck and Nervous System, Part 2 3 Cr. Hrs.**

An introduction to the structure and function of the central and peripheral nervous systems and associated structures, the neurophysiology and the stomatognathic system, pain and analgesics. May not be held with ORLB 1070.

**ORLB 1330 Human Growth and Development 3 Cr. Hrs.**

Human development from the origin of the reproductive cells through fertilization, conception, embryonic/fetal development, birth, growth and aging. Particular emphasis is given to development and growth of structures of the head and neck. May not be held with ORLB 1080.

**ORLB 1340 Oral Tissues, Structure and Function 3 Cr. Hrs.**

This course is designed to present the normal morphology, developmental biology, biochemical structure, metabolism and functions of the dentition and para oral tissues, cartilage, bone and exocrine glands of the head and

neck. Structural functional aspects of oral anatomy, biochemistry/molecular biology and physiology will be included. May not be held with ORLB 1090.

**ORLB 2300 Pathology and Microbiology 1 1 Cr. Hrs.**

Study of the basic mechanisms of microbial pathogenicity and general pathology as they relate to dentistry and dental treatment. Includes the pathogenesis of bacterial, viral and fungal infections and the aetiology of neoplastic, inflammatory and metabolic diseases. May not be held with ORLB 2100.

**ORLB 2312 Structure and Function of Major Organ Systems 4 Cr. Hrs.**

This course emphasizes the basic structure at both organ and cellular levels of a number of organ systems and an understanding of their role in total body function. May not be held with ORLB 2070.

**ORLB 2320 Cariology and Plaque Associated Diseases 3 Cr. Hrs.**

A study of the various dietary, host and microbial factors in the etiology of dental caries and periodontal disease, and a discussion of the various methods of plaque control. May not be held with the former ORLB 2090.

**ORLB 2330 Nutrition in Dentistry 2 Cr. Hrs.**

An examination of the fundamentals of nutrition and the relationship between nutrition and health within the context of the health professions. The focus is on nutritional strategies used to promote health and in the treatment of common health conditions. The primarily on-line content is followed up with a combination of oral health specific patient/clinical exercises for Dentistry students. May not be held with ORLB 2150, HYG 2370, HNCS 2170, or PHRM 2420.

**ORLB 3300 Pathology and Microbiology 2 1 Cr. Hrs.**

A study of selected infectious diseases and the application of general diagnostic pathology in dental practice. May not be held with ORLB 3020.

**SECTION 5.4 Preventive Dental Science Course Descriptions**

**PDS 2410 Pediatric Dentistry- 1 3 Cr. Hrs.**

A series of lectures and laboratories to introduce the student to: the fundamental principles of dental growth and development of children, introduction to operative dentistry and preventative techniques commonly used in dentistry for children. May not be held with PDS 2070.

**PDS 2420 Dental Public Health 1 Cr. Hrs.**

This course introduces students to healthcare concepts from a systems-level viewpoint. Topics include the methods used in Dental Public Health, history and structure of Canadian Medicare, a parallel view of Canadian dental care, social determinants of health, health promotion, measurement methods for dental health and disease, epidemiology of dental disease in Canada, and access to dental care. May not be held with the former PDS 2130.

**PDS 2430 Introduction to Orthodontics 1 Cr. Hrs.**

This course provides students with an introduction to growth and development, orthodontic records, diagnosis of malocclusion, modalities of treatment using removable appliances, basic biomechanics and simple wire bending. May not be held with the former PDS 1020 or the former PDS 1400 or the former PDS 2020 or the former PDS 2400.

**PDS 3402 Orthodontics 3 2 Cr. Hrs.**

A series of seminars covering the analysis, diagnosis, treatment planning, and mechanotherapy using records of selected cases. The clinical component consists of the diagnosis and treatment planning for individuals seeking orthodontic treatment. The clinical experience includes exposure to removable and fixed mechanotherapy, screening of patients seeking orthodontic care and follow-up of retention of completed cases. May not be held with PDS 3040.

**PDS 3404 Dental Public Health 2 3 Cr. Hrs.**

This course uses on-line self-study, classroom discussion, a formal debate, and clinical externships to introduce students to historical and contemporary public health topics. Topics covered include the history of fluoride use to prevent dental caries, the theory and methods for oral

disease prevention in populations, the principles and methods for evidence-based practice, and geriatric and sports dentistry. May not be held with the former PDS 3140 or the former PDS 3422.

**PDS 3412 Pediatric Dentistry 2 3 Cr. Hrs.**

A series of seminars and clinics to give the student a basic understanding and some clinical experience with: clinical procedures, emergency treatment, psychological management, preventative medical considerations and the provision of total dental care to pediatric patients. May not be held with PDS 3050.

**PDS 4402 Orthodontics 4 2 Cr. Hrs.**

(Formerly PDS 4060) This course consists of seminars on special topics related to the provision of orthodontic therapy. In addition, the clinical component including the diagnosis and treatment planning for individuals seeking orthodontic treatment as well as the continuation of treatment commenced in PDS 3040. Clinical seminars cover the analysis, diagnosis, treatment planning, mechanotherapy and post-treatment evaluation of previously treated cases. May not be held with PDS 4060.

**PDS 4412 Pediatric Dentistry 3 2 Cr. Hrs.**

(Formerly PDS 4050) This course consists of clinical experience including exposure to common pediatric dentistry problems, caries preventive and control procedures, routine conservative procedures and the dental treatment of children in community-based clinics. May not be held with PDS 4050.

**PDS 4422 Community Dentistry Externship 4 Cr. Hrs.**

The clinical portion of the program is centered in community outreach clinics in the City of Winnipeg. The students spend time at a pediatric community clinic, a low income community clinic, and at geriatric clinic. The clinics serve the elderly, children, Indigenous, or patients from low income families. The didactic portion of the program focuses mainly on geriatric dentistry. May not be held with the former PDS 4080. Course evaluated on a pass/fail basis.

**SECTION 5.5 Restorative Dentistry Course Descriptions**

**RSTD 1500 Dental Materials 1 2 Cr. Hrs.**

This course introduces the materials commonly used in dental practice. Composition, chemistry, properties, manipulation and manipulative variables are covered by lecture, laboratory exercises and demonstrations. May not be held with RSTD 1070.

**RSTD 1512 Operative Dentistry 1 6 Cr. Hrs.**

A lecture and laboratory course introducing the fundamentals of operative dentistry. Lectures and laboratory exercises in the principles of cavity preparation, utilization of rotary and hand instruments and manipulation, placement and finishing of restorative materials are presented. May not be held with RSTD 1100.

**RSTD 1520 Dental Anatomy 3 Cr. Hrs.**

A lecture and laboratory/seminar course introducing dental terminology, tooth identification, dental morphology and concepts of dental anatomy as it relates to the intraoral functional relationship. May not be held with RSTD 1110.

**RSTD 1530 Occlusion 2 Cr. Hrs.**

A lecture and laboratory course designed to introduce the student to the concepts of dental occlusion and the relationship between the anatomy of the teeth and the TMJ. May not be held with RSTD 1110.

**RSTD 1550 Introduction to Dentistry 2 Cr. Hrs.**

A series of lectures and seminars which introduce the student to the profession, its structure and governance. Professionalism, dental ethics and communication skills are also introduced. May not be held with RSTD 1120 or RSTD 1540. Course evaluated on a pass/fail basis.

**RSTD 2502 Dental Materials-2 2 Cr. Hrs.**

This course develops a scientific basis for the selection, application, manipulation and clinical performance of dental materials. The relationship between the properties of a material and its manipulation, application and clinical behaviour is developed. May not be held with RSTD 2020.

**RSTD 2510 Operative Dentistry-2 3 Cr. Hrs.**

A lecture and laboratory course presenting modern and advanced techniques in tooth restoration. Composite resins, adhesion to tooth structure, esthetic restorations and protection of tooth vitality. Introduction to clinical treatment modalities and treatment priorities. May not be held with RSTD 2050.

**RSTD 2520 Endodontology-1 2 Cr. Hrs.**

Introduction to root canal therapy as a clinical practice, pulp and periapical pathology. The majority of the teaching is directed at the understanding and actual performance of practical endodontic techniques, performed in the laboratory setting on mannequins using extracted human teeth. May not be held with RSTD 2060.

**RSTD 2532 Fixed Prosthodontics 1 6 Cr. Hrs.**

This course is designed to review the fundamentals of fixed prosthodontic restorative techniques in conjunction with laboratory exercises involving tooth preparation, waxing, and fabrication of metal and ceramic restorations. Both conventional laboratory techniques and contemporary digital technology are introduced to closely reflect contemporary dental practice. May not be held with the former RSTD 2140.

**RSTD 2540 Removable Partial Denture Prosthodontics 3 Cr. Hrs.**

The didactic portion of this course presents the principles for the treatment of partially edentulous patients. The procedures and techniques founded on the basic principles make up the laboratory exposure. May not be held with RSTD 2220.

**RSTD 2552 Complete Denture Prosthodontics 4 Cr. Hrs.**

The didactic portion of this course presents the principles for the treatment of edentulous patients. Emphasis is placed on techniques of treatment in the laboratory component. May not be held with RSTD 2230.

**RSTD 3512 Operative Dentistry 3 5 Cr. Hrs.**

A lecture and clinical course emphasizing diagnosis, treatment planning and the application of fundamental principles of operative and esthetic dentistry. Lectures and clinical treatments dealing with current restorative materials and techniques. My not be held with RSTD 3020.

**RSTD 3522 Endodontology 2 3 Cr. Hrs.**

This course emphasizes the rationale and biologic basis for the practical technique previously taught. Techniques are discussed in greater detail and are applied to treatment of patients. The second part of the course deals with pulp biology and periapical pathology to prepare the student for understanding the rationale behind pulpal protection, prevention and treatment of pulpal disease. Laboratory exercises are performed on more complex root canal systems in preparation for General Practice Clinic. May not be held with RSTD 3050.

**RSTD 3532 Fixed Prosthodontics 2 5 Cr. Hrs.**

An introduction to the clinical practice of fixed prosthodontic techniques. An emphasis is placed on diagnosis and treatment-planning. Clinical exposure is supplemented by lecture materials. May not be held with RSTD 3040.

**RSTD 3542 Complete and Removable Partial Denture Prosthodontics 3 Cr. Hrs.**

This course consists of a series of lectures and clinics. Theories of applied prosthodontics are discussed and applications of this knowledge are made concurrently through the clinical treatment of patients. May not be held with RSTD 3090.

## School of Dental Hygiene

Director: Mary Bertone

Campus Address/General Office: D212 Dental Building, Bannatyne Campus

Email Address: [dent\\_hygiene@umanitoba.ca](mailto:dent_hygiene@umanitoba.ca)

Telephone: (204) 789 3683

Fax: (204) 789 3948

Website: [umanitoba.ca/faculties/dentalhygiene](http://umanitoba.ca/faculties/dentalhygiene)

Academic Staff: Please refer to the School website:

[umanitoba.ca/faculties/dentalhygiene](http://umanitoba.ca/faculties/dentalhygiene)

### SECTION 1: Degree Programs Offered

#### 1.1 Programs

#### 1.2 The Profession of Dental Hygiene

### SECTION 2: Admission Requirements

#### 2.1 Diploma in Dental Hygiene

#### 2.2 Bachelor of Science in Dental Hygiene, Degree Completion Program

### SECTION 3: Faculty Academic Regulations

#### 3.1 Diploma in Dental Hygiene

#### 3.2 Bachelor of Science in Dental Hygiene, Degree Completion Program

### SECTION 4: Program and Graduation Requirements

#### 4.1 Diploma in Dental Hygiene

#### 4.2 Bachelor of Science in Dental Hygiene, Degree Completion Program

### SECTION 5: Course Descriptions

#### 5.1 Diploma in Dental Hygiene

#### 5.2 Bachelor of Science in Dental Hygiene, Degree Completion Program

### SECTION 1: Degree Programs Offered

#### 1.1. Programs

Program/Degree	Years to Complete	Total Credit Hours
Diploma in Dental Hygiene	Minimum time to graduation: Three years via Direct Entry or University 1 (or satisfaction of prerequisites), plus two years.	101
Bachelor of Science in Dental Hygiene, Degree Completion Program	Minimum time to graduation: Dependent upon prior education (i.e. completion of a pre-professional year [Univ 1] prior to entry into the Diploma in Dental Hygiene program). Upon admission to the B.Sc.D.H. program part-time students would be expected to complete the program within two to three (2-3) years.	120*

\* See [section 4.2](#) for details on how this credit hour requirement is satisfied.

#### 1.2 The Profession of Dental Hygiene

Dental hygiene is a self-regulated health service profession concerned primarily with the prevention of oral disease and the promotion of

optimum oral health. As a licensed professional, the dental hygienist's scope of practice is regulated by provincial legislation. The dental hygiene process of care consists of five components: assessment, dental hygiene diagnosis, planning, implementation, and evaluation. Current practice settings include: Private dental practice, community health centres, institutions (e.g., hospitals, long-term care facilities), primary health care centres, home care and other outreach programs, educational institutions (e.g., universities, community colleges), the military, research, and industry. Dental hygienists acquire competence through instruction in basic sciences, oral health sciences, the humanities and clinical practice. Through more than 600 hours of a competency-based clinical curriculum, students are prepared to meet the needs of a broad range of population groups.

The School of Dental Hygiene Mission Statement: In a dynamic environment of excellence and progressive learning, the University of Manitoba, School of Dental Hygiene prepares future dental hygienists to enhance the health and wellbeing of the public through oral health promotion, disease prevention and therapeutic means; and to be active members of the global health care community.

#### Practice Requirements

After successful completion of the National Dental Hygiene Certification Board Examination, in Manitoba, graduates must apply to the College of Dental Hygienists of Manitoba for a licence to practice as a dental hygienist. Dental hygienists must fulfil the requirements of the respective provincial regulatory authorities licensing bodies. The minimum educational credential for licensure in the province of Manitoba is the Diploma in Dental Hygiene. Licensed dental hygienists may continue their education by completing a Bachelor of Science Degree in Dental Hygiene.

Note: Students admitted to the School of Dental Hygiene must register annually with the College of Dental Hygienists of Manitoba. Further information regarding student registration requirements can be found in Section 3: Faculty Academic Regulations (section 3.1.b).

### SECTION 2: Admission Requirements

#### 2.1 Diploma in Dental Hygiene

The following is a summary of admission requirements. All admission requirements, as well as application deadline dates and forms, are included in an applicant information bulletin that is available from the Admissions Office, Enrolment Services, 424 University Centre; this information is also posted on the university's website.

##### 2.1.a Direct Entry

#### General Direct Entry/University of Manitoba Admission Requirements

Manitoba high school graduation, with five full credits at the Grade 12 level, in courses designated S (Specialized), G (General), or U (Dual Credit – University).

#### Specific Requirements for the School of Dental Hygiene

A minimum 85% average over the four required courses, with no less than 60% in each required course.

- Any English 40S
- Mathematics: either Applied 40S or Pre-Calculus
- Chemistry 40S
- Another academic 40S course

**Notes:** Candidates must meet the specific subject requirements, minimum grades, average or other requirements as listed for the program. Should demand exceed available positions, higher averages may be required to be competitive (higher than 85%). Only Canadian Citizens and Permanent Residents will be considered for admission.

Selection criteria: 100 per cent based on academic standing.

### 2.1. b Advanced Entry Applicants

The following is a summary of the admission requirements for Advanced Entry. Applicants to this category must successfully complete the following courses prior to application. Course are normally completed within University 1, however, equivalent academic courses completed at recognized universities elsewhere will be considered.

- Any 3 credit hour ENGL course at the 1000 level or higher
- CHEM 1300 and CHEM 1310 or CHEM 1320
- PSYC 1200
- BIOL 1410 and BIOL 1412
- STAT 1000
- 6 credit hours of electives (Sociology is strongly recommended) for a total of 30 credit hours.

#### Other Requirements

Minimum GPA for consideration: 3.00 with no grade less than C, with the exception of English which requires the minimum grade of C-. Admission is competitive.

Selection criteria: 100 per cent based on academic standing for the Regular Applicant Category. An interview, biographical sketch and letters of reference are considered within the Special Applicant Category. Preference will be given to Manitobans in the Special Applicant Category (includes the Canadian Indigenous/Aboriginal Peoples applicant category) and on the alternate list.

### 2.2 Bachelor of Science in Dental Hygiene, Degree Completion Program

The program will be available to dental hygiene diploma graduates of the University of Manitoba or other accredited dental hygiene educational institutions wishing to complete requirements for the baccalaureate degree on a full-time or part-time basis. Transfer of credit for courses completed at other institutions will be possible through appropriate University procedures. The School will evaluate credits from other institutions on an individual basis. The following is a summary of the admission requirements. All admission requirements, as well as application deadline dates and forms, are included in an applicant information bulletin that is available from the [Admissions Office, Enrolment Services](#), 424 University Centre; this information is also posted on the university's website.

#### Admission to the degree completion program requires of students that:

- They must possess a Diploma in Dental Hygiene from either a university or community college program accredited by either the Commission on Dental Accreditation of Canada or the American Dental Association's Commission on Dental Accreditation.
- They must possess the National Dental Hygiene Certification Board (NDHCB) Certificate
- They must hold current licensure to practice dental hygiene in Canada and be eligible for licensure to practice in Manitoba.
- They must possess all the pre-requisite course requirements prior to admission (see prerequisite requirements, options A & B below)

Prerequisite Requirements
<b>Option A</b>
This option is for those graduate of accredited dental hygiene programs who completed a proscribed pre-professional year of university studies prior to entry into their dental hygiene program

Required Prerequisites (minimum C grade in each course)	Research methods (REHB 2450; PSYC 2250; PSYC 2260) or equivalent	3 credit hours
	Basic Statistical Analysis (STAT 1000) or equivalent	3 credit hours
	Total	6 credit hours

#### Option B

This option is for dental hygienists who are graduates of accredited two year programs which did not require a pre-professional year of university studies

Required Prerequisites (minimum C grade in each course)	Research Methods (REHB 2450) or equivalent	3 credit hours
	Basic Statistical Analysis (STAT 1000) or equivalent	3 credit hours
	Free choice electives	15 credit hours
	TOTAL	21 credit hours

The required minimum grade for specified prerequisite courses including electives is a C. There is a **required minimum overall grade point average of 3.0 (B) in the candidates Diploma in Dental Hygiene or Associated Degree Program.**

Selection is competitive. In the event of a surplus number of applicants, selection will be based on the grade point average (GPA) over the most recently completed 60 credit hours of study completed at the accredited post-secondary level.

## SECTION 3: Faculty Academic Regulations

All students are asked to note that some academic policies and regulations are under review and are subject to change. Please check the Web Calendar at [umanitoba.ca](http://umanitoba.ca) for updated information.

The provisions of the chapter, General Academic Regulations and Requirements, and the chapter, University Policies, apply to all students. In addition, the School of Dental Hygiene has regulations and requirements, published below, that apply specifically to its students.

Direct Entry students are to be aware that as they will be registered in courses outside of the School of Dental Hygiene (non HYG courses), they may be subject to the rules and regulations of the faculty/school in which those courses reside (primarily the Faculties of Arts and Science). Direct Entry students are encouraged to become familiar to the rules and regulations of these faculties/schools. Please contact the School of Dental Hygiene for further information.

### 3.1.a Essential Skills and Abilities for Admission, Promotion and Graduation in Dental Hygiene Diploma Program

As an accredited Canadian dental hygiene program, the Dr. Gerald Niznick College of Dentistry, School of Dental Hygiene at the University of Manitoba is responsible for providing a program of study that ensures graduates have the necessary qualifications (academic knowledge, clinical skills, and professional behaviors and attitudes) to enter the regulated profession of Dental Hygiene in Canada. Becoming and being a dental hygienist requires a wide range of highly specialized skills and abilities. Some of these are taught in dental hygiene school, while others must be brought by the individual as an innate set of essential skills and abilities. The criteria for becoming registered/ licensed as a dental hygienist in Canada requires a level of motor skills and other attributes that are not necessary in other professional occupations. Similarly, the ability to provide reasonable accommodation for special learning needs in dental hygiene may not be the same as it is for other academic programs.

It is important to note that an offer of admission to the Dr. Gerald Niznick College of Dentistry, School of Dental Hygiene is not evidence that the dental hygiene program has verified that an applicant has the prerequisite skills and abilities for success in the program or future professional licensure. However, these skills and abilities are essential if students are to be successful in achieving the competency standards of the profession.

For progression in, and graduation, from the dental hygiene program, all students must conduct themselves in a professional manner, and must have the Essential Skills and Abilities (Technical Standards) discussed under the following five broad areas: Observation/perception; Communication; Motor/tactile function; Cognition; Emotional functioning.

**All applicants** to the dental hygiene diploma program of the Dr. Gerald Niznick College of Dentistry School of Dental Hygiene are expected to review the *Essential Skills and Abilities for Admission, Promotion and Graduation in Dental Hygiene Diploma Program* document to assess their ability to meet these standards; all applicants offered admission will be required to acknowledge such review and assessment.

Any candidate for the diploma in dental hygiene program who cannot demonstrate the required skills and abilities throughout their course of study may be requested to withdraw from the program.

Detailed information for the above policy can be found at: [http://umanitoba.ca/healthsciences/dentistry/student\\_resources/policies.html](http://umanitoba.ca/healthsciences/dentistry/student_resources/policies.html)

### 3.1.b College of Dental Hygienists of Manitoba (CDHM)

The College of Dental Hygienists of Manitoba (CDHM) is a separate entity from the University of Manitoba. Students admitted into the dental hygiene degree program must be registered with CDHM in order to practice/study as a dental hygiene student in Manitoba. Re-registration is required each academic year.

Students will receive application information during the first week of classes and must complete and return the application to CDHM prior to September 15<sup>th</sup> of each year. Note that evidence of completion of a CPR – Level C course in the last 12 months is required for the application process.

Failure to register with CDHM will result in being restricted from participating in classes until registration is complete.

For further information please contact the CDHM at 204-219-2678 or [cdhm@cdhm.info](mailto:cdhm@cdhm.info).

### 3.1.c Dr. Gerald Niznick College Of Dentistry/School Of Dental Hygiene Professional Unsuitability By-Law

Students must at all times demonstrate suitability for the dental/dental hygiene profession. In this regard students are obligated to act with integrity and diligence in carrying out their professional responsibilities, and their behaviour and conduct in relation to others must be characterized by consideration, respect and good faith.

The Dr. Gerald Niznick College of Dentistry may require a student to withdraw from the College/School when the student has been found unsuited for the practices of dentistry or dental hygiene because the student has been found to have engaged in unprofessional behaviour. A student may be required to withdraw at any time throughout the academic year.

Grounds which may require withdrawal are: demonstrated behaviour which is exploitive, irresponsible, intentionally injurious or destructive to patients; and/or compromised professional judgment through self-interest and/or conflict of interest; and/or an acquired criminal conviction, either in Canada or any other jurisdiction, which is of such a nature as to place in question his/her fitness for the dental professions; and/or participation in any activity related to patient care or any activity related to the practice of the dental professions while under the influence of alcohol or drugs or while abusing prescription drugs; and/or engaging in behaviour or conduct

that if engaged in by a practising dentist/dental hygienist would likely result in disciplinary action, including suspension or revocation of the license to practise, by the Manitoba Dental Association or the College of Dental Hygienists of Manitoba.

Detailed information for the above policy can be found at:

[http://umanitoba.ca/healthsciences/dentistry/student\\_resources/policies.html](http://umanitoba.ca/healthsciences/dentistry/student_resources/policies.html)

### 3.1.d Criminal Record/Adult Abuse Registry/Child Abuse Registry

An adult criminal record, an adult abuse registry and a child abuse registry self-declaration will be required of all applicants at the time of application. A formal Adult Criminal Record Check (including vulnerable sector screening), a formal Adult Abuse Registry Check \*and a formal Child Abuse Registry Check\* are required at the time of registration, and annually thereafter keeping in accordance with existing policies of other health, education and social service programs at the University of Manitoba.

Direct Entry students will be required to provide these documents upon admission to the program and prior to October 1 of that year.

Failure to provide these documents may impact on registration and a student's ability to progress in the Dental Hygiene program.

\*The School will provide information on the application process (through the School).

### 3.1.e Immunization and Bloodborne Diseases Policy

The Dr. Gerald Niznick College of Dentistry and School of Dental Hygiene maintain comprehensive immunization requirements to protect the wellbeing of our students and the health of patients and communities with whom they will have contact during their curriculum.

All students enrolled in the School of Dental Hygiene must have immunity demonstrated against the following diseases: tetanus, diphtheria, pertussis, polio, measles, mumps, rubella, varicella (chickenpox), and hepatitis B. Students need to undergo testing for tuberculosis (TB) infection, unless the student already has a past history of TB infection or TB disease documented. Students must receive yearly influenza vaccinations. Students who cannot receive certain immunizations due to allergies or pregnancy must provide a physician's certificate stating this.

Before the first day of classes, all students must complete and return the University of Manitoba Immunization Record Form (Package A), as provided by the School of Dental Hygiene/Dentistry Student Services Office. Please note that any supplemental immunization documentation provided to support this document and/or any future submissions of immunization materials must be signed by a physician or nurse. All students are responsible for updating their immunizations as needed.

Students **will not be permitted to attend clinics** until all immunization requirements are satisfied.

For the collection and management of student immunization records, the Dr. Gerald Niznick College of Dentistry/School of Dental Hygiene partner with the Faculty of Health Science Immune Program. The Director of Immunizations and the Program Assistant collect and organize immunization data as well as provide immunization services to students at the Bannatyne campus.

All students are expected to comply with the requirements of the Rady Faculty of Health Science Immune Program which may change from time to time due to the immunization requirements of external health care facilities where students will be expected to attend as a part of their dental/dental hygiene program.

The Dr. Gerald Niznick College of Dentistry and School of Dental Hygiene are compliant with the Association of Canadian Faculties of Dentistry (ACFD) *Guidelines for Infectious Disease and Healthcare Workers* document

and its recommendations regarding barring students from clinical activities who do not meet these guidelines. Further information on the ACFD guidelines can be found at the following web-site:

<http://acfd.ca/about-acfd/publications/acfd-guidelines-for-infectious-diseases-and-health-care-workers/>

Prospective students should refer to and be familiar with the Dr. Gerald Niznick College of Dentistry's (School of Dental Hygiene) Infectious Diseases Policy Statement on the College/School website [http://umanitoba.ca/healthsciences/dentistry/dentalhygiene/future/dh\\_prereg.html](http://umanitoba.ca/healthsciences/dentistry/dentalhygiene/future/dh_prereg.html). Any student applicant with an infectious disease should either delay their application to the program or disclose this information upon being accepted into the Dr. Gerald Niznick College of Dentistry/School of Dental Hygiene. Should a student who has been accepted into the program but has been found to be unable to meet the policy requirements, every effort will be made to accommodate the student until the guidelines are met. In some cases, it may be necessary to suspend or terminate the student from the program if it is shown that the policy guidelines are unable to be met.

Direct Entry students are responsible to have all immunization requirements in place prior to their entrance into their second year (first clinical year) of the program. Further information will be provided upon admission to the School.

### 3.1.f CPR Certification

Accepted candidates will be required to show proof of CPR (Health Care Provider level) certification by September 15 of each year. This certification must be maintained on a yearly basis up to the date of graduation. CPR Certification levels accepted by the School of Dental Hygiene are:

Canadian Red Cross: ACLS (Advanced Cardiovascular Life Support for Health Care Providers)

Heart & Stoke Foundation of Canada: BLS for HCP + AED

St. John Ambulance: Health Care Provider Level C and AED

Life Saving Society: CPR for Health Care Providers (HCP)

Canadian Ski Patrol: Advanced First Aid (AFA)

Direct Entry students will not need to provide this certification in year 1 of their program; they will be expected to complete this requirement by September 15<sup>th</sup> of their first clinical year.

### 3.1.g PHIA

Students are required to maintain confidentiality of patient records and abide by PHIA (Personal Health Information Act) legislation which governs and controls the sharing of personal health information. Students will be required to attend a PHIA orientation and sign a pledge of confidentiality in their first clinical year of the program. This orientation includes content that satisfies PHIA requirements for student participation at external clinical sites under the direction of the Winnipeg Regional Health Authority (WRHA).

### 3.1.h Sharing of Student Personal Information

Once admitted to the School of Dental Hygiene, University of Manitoba, students personal information is protected by FIPPA (Freedom of Information and the Protection of Privacy Act) legislation. However, prior to first registration, some personal information (name, e-mail, photo) is shared with external partners to facilitate student involvement. Please see further information below:

#### Student Licensure and Mentorship Program

To better administer Student Licensure, the School of Dental Hygiene provides the College of Dental Hygienists of Manitoba (CDHM) with a list of

advanced entry and Year 2 direct entry students, which includes names and U of M e-mail addresses.

In addition, as a partnership between the School of Dental Hygiene and the CDHM, these same students are assigned a Mentor who is a member of the CDHM and a practicing Dental Hygienist within the community.

#### Vital Source Textbook Database

Most Dental Hygiene student's text books are accessible through an electronic textbook database called Vital Source. In order to provide all Dental Hygiene students with access to their text books, the Dr. Gerald Niznick College of Dentistry/School of Dental Hygiene will provide Vital Source with the names and e-mail (U of M) of all students for the purpose of authenticating users and providing access to their on-line content.

#### Manitoba Dental Students Association/Manitoba Dental Hygiene Students Association

Students in the Dr. Gerald Niznick College of Dentistry/School of Dental Hygiene become members of and are represented by the Manitoba Dental Students Association/Manitoba Dental Hygiene Students Association. These Associations provide student representation on College/School and University Committees as well as represent students on various external organizations (CDA/MDA/MDHA, etc.). The College of Dentistry/School of Dental Hygiene provides the names, e-mail (U of M) and photographs of all first year Dental and Dental Hygiene students with the respective student Associations for the purpose of facilitating student participation.

Student information will not be used or disclosed for other purposes, unless permitted by *The Freedom of Information and Protection of Privacy Act* (FIPPA). If you have any questions about the collection or use of your personal information, contact the Access & Privacy Office (tel. 204-474-9462), 233 Elizabeth Dafoe Library, University of Manitoba, Winnipeg, MB, R3T 2N2.

### 3.1.i Instruments, Computer, Textbooks and Uniforms

Students entering the School of Dental Hygiene will be expected to own or purchase a PC laptop computer (the School only supports PC's given the software used in our clinical facilities) that is compliant with University computer standards (see Bookstore - Computers on Campus for annual listing) and Vital Source Technologies software requirements (see [www.vitalsource.com](http://www.vitalsource.com) for details). The expenditure of a computer may range approximately from \$1000 to \$4000 within the first year of the program. The Vital Source Technologies cost is approximately \$2150 per year. These fees will be assessed annually on student accounts under "Electronic Textbook Fee".

Students are responsible for Dental Hygiene Clinical Instrument Fees which represent the costs of dental instruments and supplies required for clinical education. These fees will be assessed annually on student accounts under "Clinic Instrument Fee". These instruments and supplies are the property of students and are retained by students after graduation.

It is the students' responsibility to maintain the condition of their instruments and stay within allotted supply levels. Any damaged/lost instruments or excessive use of supplies may result in additional charges to students. Over the 2 years of the program, these fees will amount to approximately \$6,600.

The college is unable to provide refunds for Electronic Textbook or Dental Hygiene Clinical Instrument Fees and will not accept returns of any clinical instruments or other items, should a student leave the college for whatever reason and upon graduation.

\*Direct entry students will not be expected to purchase a laptop computer, Vital Source Software, or be charged Dental Hygiene Clinical Instrument fees until the start of their second year of the program (first clinical year).

**Please Note:** Electronic Textbook Fees, Clinical Instrument fees and/or Clinical Instrument items are non-refundable.

### 3.1.j Progression Rules/Promotions

Some of the following may not apply to Direct Entry students during their first year of the program, but will come into effect once they are registered in years two and three of the program (once registered in HYGN courses as described in Section 4). Further clarification will be communicated to Direct Entry Students upon admission to the School of Dental Hygiene.

- Rules and Regulations - Direct Entry Year 1 – DH 1
  - The letter grade of “C” is the lowest acceptable level of performance per course in DH 1 (pre-professional year), with the exception of English, which is a C+, to progress further in the dental hygiene program.
  - Students admitted to the School via Direct Entry must complete the first year (DH 1) curriculum, including electives, within 2 years of admission. If students do not successfully complete the first year course requirements within this time frame, they will, except under special circumstances under the discretion of the Director of the School of Dental Hygiene, be required to withdraw from the program; this does not preclude these students from re-applying to the program via the advanced entry route.
  - Direct entry students must achieve a minimum term grade point average of 2.0 in all terms during the completion of their pre-professional program (DH 1).
- Rules and Regulations - Years DH 2 and DH 3
  - In years DH 2 and DH3 the lowest acceptable grade is a “D” if the course is being taken for the first time (see below for a minimum requirement of repeated courses).
  - A minimum sessional grade point average of 2.0 in years DH 2 and DH 3 of the program is required to qualify a student for standing in that year. A student in years DH 2 and DH 3 who fails to obtain a minimum sessional grade point average of 2.0 and who is not granted supplemental privileges will be considered to have failed the year.
  - Except by special permission of Dental College Council, no student in years DH 2 and DH 3 may repeat more than one year of the program, nor may any single year be repeated more than once. The work requirements of any repeated dental hygiene course year may be modified at the discretion of the Dental College Council. The passing grade in each course of a repeated year in Dental Hygiene is “C”.
  - A student in DH 2 or DH 3 who has obtained a grade of “F” in more than two subjects or who fails to obtain a sessional G.P.A. of 2.0 will be regarded as having failed the year and will be required to repeat the work of that year in a succeeding annual session.
- Attendance
  - Regular attendance is expected of all students in all School of Dental Hygiene courses. Students should make themselves familiar with School of Dental Hygiene attendance policies and should be aware that there may be academic consequences with not complying with these regulations. For details on these policies please see the University of Manitoba’s Attendance Policy as listed in the on-line Calendar as well as individual HYGN course outlines for specific course requirements.
  - Only under exceptional circumstances may students be granted approval for absences exceeding one day for reasons other than illness. Students must make such a request in advance from the Director of the School to obtain prior approval.
  - Students registered in the School of Dental Hygiene are expected to conform to any new requirements that may be adopted from year to year. Any student returning to resume studies after an interval away is expected to

conform to any new requirements that have been adopted during their absence.

### 3.1.k Examinations

**Deferred Examinations** A deferred examination is a privilege that may be granted to a student who is unexpectedly unable to write an examination as scheduled or a student who knows in advance that he or she is unable to write an examination at the scheduled time. Making a false or misleading claim may be considered an offence under the Student Discipline Bylaw. Penalties may range from a failed grade in the course to suspension or expulsion.

A dental hygiene student (DH 1, 2 and 3) who is unable to sit an examination because of illness or other affliction may file an application for a deferred examination with the Director of the School of Dental Hygiene. Application for deferral must normally be filed **within 48 hours of the missed examination, for students in DH 1**, and within seven days of the examination, **for students in DH 2 and DH 3**, and must be accompanied by a medical certificate or an otherwise appropriate document certifying the inability of the student to write the examination at the regular scheduled time, and, where possible, indicating the period of disability. Based on the overall application submission, the Director shall determine if the application is approved.

When an application for a deferred **HYGN** examination is approved, the Director, in consultation with the course coordinator concerned may:

- Permit a student to take a deferred examination in such a form as the Director/course coordinator may determine.
- Grant standing in a course without examination. In such cases a grade shall be assigned to the course on the basis of term work and assignments.

**Supplemental Examinations** A supplemental examination is an examination that may be offered as a privilege to a dental hygiene student who has failed a dental hygiene (HYGN) course or failed to achieve a satisfactory result. Such examinations are offered in order to grant the student an opportunity to rectify the inadequacy without repeating the course.

Supplemental examination privileges are permitted in the School of Dental Hygiene for all HYGN courses with the **exception** of those in which remediation/re-examination is not realistically feasible. Such privileges must be approved by Dental College Council. Students seeking supplemental privileges should contact the Director indicating her/his request. Applications to write a supplemental examination must be accompanied by the paid fee before the supplemental examination can be written. The student will be notified in a letter from the Director’s Office if she/he is granted the privilege and under what specific conditions.

A student in DH 2 and DH 3 who has failed in not more than two HYGN courses at the end of the regular term, may, at the discretion of the Director and with approval from Dental College Council, be awarded the privilege of one or two supplemental examination(s). A student must maintain a minimum sessional (combined Fall and Winter terms) GPA of 2.0 in that year in order to be eligible for supplemental privileges.

The passing grade in supplemental examinations is “C” for each course.

A student who is granted supplemental privileges is obliged to sit the examination at the earliest opportunity. The student must contact the course coordinator within 7 days of the date the notification letter from the Director’s Office to schedule a plan for remediation and a date to write their supplemental examination. Supplemental examinations must be held prior to the opening of the Fall academic session.

A student who has not successfully exercised supplemental privileges will be considered to have failed the year and may be required to repeat the entire year or a modified program as required by Dental College Council. If/when the condition is removed in that session, the student will be regarded as having completed the year to which the condition applied.

**NOTE:** DH I students (direct entry in pre-professional program) should note that supplemental examination privileges are not normally permitted within the courses in which they will be registered. Failure of any course/s in year DH 1 of the program (pre-professional year) will normally require the course/s to be repeated during the next available offering of the course. DH 1 students should be aware that this may impact the student's ability to progress in the dental hygiene program (see Section iii).

### 3.1.l Honours and Awards

Dean's Honours: awarded to students in each year of the dental hygiene Diploma program who have achieved a minimum sessional (fall & winter term combined) G.P.A. of 3.8. In addition, only students registered for 80 per cent or more of the normal course load during a regular session are eligible for Honours Standing.

A student who fails in one or more subjects, or who fails the year at the regular final examination, is not eligible to obtain Honours Standing or to receive any awards for the work of that year.

A student repeating a year's work is not eligible to obtain Honours Standing or to receive any awards for the work of that year.

The following policy applies to the eligibility of part-time students for academic awards:

A student who is carrying less than 80 per cent of the normal course load for the year is only eligible for an award in the individual subjects taken by him/her.

A student who is repeating a course may not be eligible for an award in that subject.

### 3.1.m Voluntary Withdrawal

Students intending to withdraw from a portion or all of their courses must report immediately in person or in writing to the Director's Office. Please note: Computer Software (Including Vital Source Technology software), Dental Hygiene Clinical Instrument fees and/or Clinical Instrument items are non-refundable. See also the chapter, on General Academic Regulations and Requirements.

Students who withdraw from the School of Dental Hygiene without notice will be considered to have terminated their connection with the school. If a subsequent application for registration is approved, they will be required to conform to the rules and regulations, fee schedules, sequence of courses, etc., in effect at the time of such subsequent application.

In cases where a student is obliged to withdraw after the final date of withdrawal published in the *Calendar* because of ill health or other sufficient reasons, their cases will be considered on an individual basis by the Director of the School.

### 3.1.n Required Withdrawal

Senate has approved by-laws granting the School of Dental Hygiene the authority to require a student to withdraw on the basis of professional unsuitability; such right may be exercised at any time throughout the academic year.

This right to require a student to withdraw prevails notwithstanding any other provisions in the academic regulations of the particular faculty or school regarding eligibility to proceed or repeat.

Full policy information can be found at:

[http://umanitoba.ca/healthsciences/dentistry/student\\_resources/policies.html](http://umanitoba.ca/healthsciences/dentistry/student_resources/policies.html)

### 3.1.o E-Mail Accounts

All students are expected to have an e-mail account with the University of Manitoba and check it regularly. The School of Dental Hygiene does not support communications with its students through external e-mail addresses.

### 3.1.p Registration exceptions

**Direct Entry students should contact the School of Dental Hygiene for information on registration.**

Upon receipt of initial (in year two; and annually thereafter) Criminal Record (including Vulnerable Sector Screening), Adult Abuse Registry Check and Child Abuse Registry Checks, the School of Dental Hygiene completes registration for all students in their courses (Years 2 and 3). Diploma students who have a failing grade/s registered against them and/or have other outstanding academic matters (i.e. deferred or supplemental examinations, modified program, etc.) in regards to the previous academic session will not be registered in the next ensuing academic session until all outstanding matters have been cleared. Students who fall into this category should contact the student advisor for further information. A student advisor is available in D113 Dental Building or by calling (204) 789-3484.

### 3.2 Bachelor of Science in Dental Hygiene, Degree Completion Program

#### 3.2.a Academic Progress

A minimum Degree Grade Point Average of 2.0 must be maintained in the Bachelor of Science in Dental Hygiene for clear standing. A grade of C is considered a passing grade for all courses applied towards degree requirements. Students who do not maintain a minimum GPA of 2.0 may be required to withdraw from the program.

#### 3.2.b Licensure

Students in the Bachelor of Science in Dental Hygiene program must maintain professional licensure during their registration at the School of Dental Hygiene. Students should also note that licensure with the College of Dental Hygienists' of Manitoba may be required for registration within certain core courses (example: teaching practicum) of the program. Students are responsible for all fees associated with the maintenance of current licensure as well as application for licensure within Manitoba as may be required.

#### 3.2.c Criminal Record/Adult Abuse Registry/Child Abuse Registry

An adult criminal record, an adult abuse registry and a child abuse registry self-declaration will be required of all applicants at the time of application. A formal Adult Criminal Record Check (including vulnerable sector screening), a formal Adult Abuse Registry Check and a formal Child Abuse Registry Check are required at the time of registration, and annually thereafter keeping in accordance with existing policies of other health, education and social service programs at the University of Manitoba.

#### 3.2.d Writing Skills

Once in the program, students who do not exhibit ability to communicate in writing may be required to seek remediation in writing skills.

#### 3.2.e Transfer of Credit

The School may consider University credits earned **outside** of dental hygiene diploma programs or earned as part of an **incomplete** degree for transfer credit. If a student earned credit for a required course in the baccalaureate program as part of a diploma in dental hygiene or as part of another degree, an alternative course must be submitted for consideration.

#### 3.2.f Residence Requirements

Baccalaureate Degree-Completion Program students are required to complete at least 30 credit hours of University of Manitoba courses of the

total 120 credits for the degree, with the minimum grade of “C” in each course.

### 3.2.g Clinic Attire

Students in the B.Sc.Dental Hygiene program must maintain appropriate clinic attire when participating in clinical activities. Students will be required to purchase clinic uniforms as specified at the time of registration.

### 3.2.h Program Length/Registration

Students in the Bachelor of Science in Dental Hygiene, Degree Completion Program should note that after initial registration, the length of time to complete the B.Sc.D.H. program is variable dependent upon whether courses are taken full-time or part-time. Part-time students would be expected to complete the program within two to three (2-3) years. Students should be aware that the B.Sc.D.H. program tuition fee does not include tuition fees assessed against registration in courses administered outside of the Dental Hygiene Program (non HYG N courses). Further information on fees may be obtained from the University of Manitoba's web-site: [umanitoba.ca](http://umanitoba.ca)

### 3.2.i Voluntary Withdrawal

Students intending to withdraw from a portion or all of their courses must report immediately in person or in writing to the Director's Office. Please note that all program tuition fees for the Bachelor of Science in Dental Hygiene program are non-refundable. See the chapter, on General Academic Regulations and Requirements for further information on voluntary withdrawal.

Students who withdraw from the School of Dental Hygiene without notice will be considered to have terminated their connection with the school. If a subsequent application for registration is approved, they will be required to conform to the rules and regulations, fee schedules, sequence of courses, etc., in effect at the time of such subsequent application.

In cases where a student is obliged to withdraw after the final date of withdrawal published in the *Calendar* because of ill health or other sufficient reasons, their cases will be considered by the Director of the School.

### 3.2.j E-Mail Accounts

All students are expected to have an e-mail account with the University of Manitoba and check it regularly. The School of Dental Hygiene does not support communications with its students through external e-mail addresses.

### 3.2.k Registration exceptions

Bachelor of Science Students who will be taking courses outside of the School of Dental Hygiene will be required to follow registration regulations/restrictions governed by the faculty in which those courses reside. Normal course repeat rules and restrictions will apply. Students in the B.Sc. program will also be responsible to ensure that they have verified their initial access time for registration; consulted with an advisor and/or obtained required program approval for outside courses as necessary; checked for timetable updates for all external courses; registered and assessed their fees after registration in all courses. A student advisor is available in D113 Dental Building or by calling (204) 789-3484.

## SECTION 4: Program and Graduation Requirements

### 4.1 Diploma in Dental Hygiene

For students admitted as of Fall, 2020 and forward. Students admitted prior to 2020 should refer to the version of the University of Manitoba Undergraduate Calendar in effect on the date of their admission for clarification of program/graduation requirements. Further information may also be obtained from the School of Dental Hygiene.

### First Year

Course No.	Course Title	Credit Hours
<b>Direct Entry/Prerequisite Requirement</b>		
ENGLISH	Any 3 credit ENGL course at the 1000 level or higher	3
PSYC 1200	Introduction to Psychology	6
BIOL 1410	Anatomy of the Human Body	3
And	And	
BIOL 1412	Physiology of the Human Body	3
STAT 1000	Basic Statistical Analysis 1	3
6 credit hours of electives	Electives (Sociology is strongly recommended)	6
CHEM 1300	University 1 Chemistry: Structure and Modeling in Chemistry	3
And	And	
CHEM 1310	University 1 Chemistry: An Introduction to Physical Chemistry	3
Or	Or	
CHEM 1320	University 1 Chemistry: An Introduction to Organic Chemistry	3
<b>Total Credit Hours</b>		<b>30</b>

### Second Year/First Clinical Year (Year 1 Advanced Entry)

Course No.	Course Title	Credit Hours
HYGN 1232	Oral and Dental Anatomy	3
HYGN 1234	Preclinical Dental Hygiene	2
HYGN 1236	Dental Hygiene Theory and Practice I	4
HYGN 1238	Dental Hygiene Clinical Practice I	3
HYGN 1242	Dental Hygiene Theory and Practice II	4
HYGN 1262	Dental Radiology	3
HYGN 1270	Biology of the Head and Neck	3
HYGN 1280	Microbiology and Infectious Diseases	3
HYGN 1292	Dental Hygiene Preclinical Restorative Techniques	2
HYGN 1320	Dental Materials	2
HYGN 1340	Communications	2
HYGN 1352	Community Health I	3
HYGN 1360	Periodontology I	2

<b>Total credit hours</b>	<b>36</b>
---------------------------	-----------

<b>Third Year/ Second Clinical Year</b>		<b>Credit Hours</b>
HYGN 2100	Dental Hygiene Portfolio*	2
HYGN 2280	Pharmacology	2
HYGN 2300	Pathology	3
HYGN 2312	Dental Hygiene Clinical Practice II	4
HYGN 2314	Dental Hygiene Theory and Practice III	4
HYGN 2316	Dental Hygiene Clinical Practice III	4
HYGN 2318	Dental Hygiene Theory and Practice IV	5
HYGN 2340	Periodontology II	2
HYGN 2350	Biology of Oral Tissues	2
HYGN 2362	Community Health II	3
HYGN 2370	Nutrition in Dentistry	2
HYGN 2380	Pain Management	2
<b>Total credit hours</b>		<b>35</b>

\* Registration in HYGN 2100, Dental Hygiene Portfolio will also occur within the first clinical year of the Dental Hygiene program. However, no grade will be assigned and it will not be factored into GPA calculations.

#### 4.2 Bachelor of Science in Dental Hygiene, Degree Completion Program

Accredited dental hygiene programs in Canada and the U.S. have been traditionally offered as either stand-alone two year programs with direct entry from high school, or as two-year programs requiring a pre-professional year of studies prior to admission into the professional program. In order to provide access to a broad range of potential degree completion students, two options have been developed.

**Option A.** This option is for those graduates of accredited 3 year dental hygiene programs, or equivalent, or those who have completed a proscribed pre-professional year prior to entry into their dental hygiene program.

Dental hygienists from the University of Manitoba who graduated between 1993 and 2007 must complete 21 credit hours

Dental hygienists from the University of Manitoba who graduated after 2007 must complete 19 credit hours

Graduates of other (non-University of Manitoba) dental hygiene programs who completed a pre-professional year prior to entry into their dental hygiene program, may be granted up to 15 credit hours from the pre-professional year and 75 credit hours from the 2-year dental hygiene program towards their degree. These graduates will be required to complete 30 hours of University of Manitoba credits in order to complete the degree and satisfy the residency requirement.

**Option B.** Dental hygienists who are graduates of accredited two year programs without the pre-professional year, must complete the 21 credit hours as described below plus 24 credit hours of free-choice electives. This requirement applies to graduates from the University of Manitoba (prior to 1993) as well as other accredited two-year dental hygiene programs in North America with no pre-professional year. As in Option A, the residency

requirement of 30 credit hours for those non-University of Manitoba graduates will be upheld.

#### University of Manitoba Graduates

Students with diplomas in dental hygiene from the University of Manitoba will complete 19 credit hours if they graduated after 2007 and 21 credit hours if they graduated between 1993 and 2007. Dental hygienists who graduated from the University before 1993 will complete 24 credit hours of electives in addition to 21 dental hygiene baccalaureate credit hours (total 45).

<b>Year of Graduation (U of M)</b>	<b>Pre-Professional Year</b>	<b>Total Dental Hygiene Program Credit Hours Granted</b>	<b>Option</b>	<b>Credit Hours for BScDH Completion</b>	<b>Total BScDH Credit Hours</b>
After 2007	Yes	1 + 2 years or 3 years (30 + 71 = 101 Credit Hours)	Option A	1 year (19 Credit Hours)	120 credits hours
Between 1993 and 2007	Yes	1 + 2 Years (30 + 69 = 99 Credit Hours)	Option A	1 year (21 credit hours)	120 credit hours
Before 1993	No	2 Years 75 Credit Hours	Option B	2 years (45 credit hours)	120 credit hours

#### Graduates of Other Accredited North American Dental Hygiene Programs

\* Residency Requirement

<b>Pre - Professional Year</b>	<b>Total Dental Hygiene Program Credit Hours Granted</b>	<b>Option</b>	<b>Credit Hours for BScDH Completion</b>	<b>Total BScDH Credit Hours</b>
Yes	Pre-Prof. Year (accept 15 credit hours) + 2 years DH (75 Credit Hours) = 90 Cr. Hrs.	Option A	1 year *(30 credit hours)	120 credits hours
No	2 Years 75 Credit Hours	Option B	2 years *(45 credit hours)	120 credit hours

#### Degree Completion Curriculum

##### Dental Hygiene Core (Minimum 12)

##### Mandatory Courses (2)

- HYGN 2380 Pain Management (2)

##### Elective Courses

- HYGN 4412 Dental Hygiene Practice Management and Leadership (3)
- HYGN 4460 Community Health Independent Study (3)
- HYGN 4470 Community Health Independent Study 2 (3)
- HYGN 4492 Current Issues in Dental Hygiene (3)

- HYGN 4520 Advanced Independent Study (3)
- HYGN 4530 Teaching Practicum (3)
- HYGN 4540 Advanced Teaching Practicum (3)
- HYGN 4550 Advanced Independent Study II (3)

**Potential Electives - Not part of the Core Program  
(up to 21 Cr. Hrs)**

- HYGN 4500 Advanced Oral Pathology (UBC) (3)
- HYGN 4510 Microbiology & Immunology (3)
- HYGN 4472 Assessment & Treatment Planning for Advanced Periodontal Disease (3)

**Courses approved as Potential Electives outside of the School of Dental Hygiene**

- NURS 1260 Human Growth & Development (3)
- PHIL 1290 Critical Thinking (3)
- SOC 2490 Sociology of health & Illness (3)
- SOC 3540 Sociology of Health Care Systems (3)
- HNSC 1210 Nutrition for Health & Changing Lifestyles (3)
- PHIL 2740 Ethics & Biomedicine (3)

## SECTION 5: Course Descriptions

### SECTION 5: Dental Hygiene Course Descriptions- 1000 Level

**HYGN 1232 Oral and Dental Anatomy 3 Cr. Hrs.**

This course consists of a self-study CD and laboratory work dealing with the normal development, morphology, structure, and functions of the dentition and related structures. Corequisites: HYGN 1234 and HYGN 1236.

**HYGN 1234 Preclinical Dental Hygiene 2 Cr. Hrs.**

This introductory course teaches the necessary dental hygiene skills in laboratory and preclinical settings. Students are introduced to foundational assessment and implementation skills necessary to begin client care at the novice level. Corequisites: HYGN 1232 and HYGN 1236.

**HYGN 1236 Dental Hygiene Theory and Practice I 4 Cr. Hrs.**

This introductory course provides the necessary foundational knowledge requisite for preclinical experience and early client care. It includes the theory and principles underlying the practice of dental hygiene based on the four phases of the Dental Hygiene Process of Care and the concept of Professionalism. Corequisites: HYGN 1232 and HYGN 1234.

**HYGN 1238 Dental Hygiene Clinical Practice I 3 Cr. Hrs.**

The course focus is on the cognitive, psychomotor and affective knowledge and skills requisite to the dental hygiene process of care. It includes the principles underlying the practice of dental hygiene and facilitates the development of a self-directed and self-aware professional. Prerequisites: HYGN 1234 and HYGN 1236. Corequisite: HYGN 1242.

**HYGN 1242 Dental Hygiene Theory and Practice II 4 Cr. Hrs.**

A continuation of foundational knowledge requisite for clinical care on less complicated clients that includes the theory and principles underlying the practice of dental hygiene based on the Dental Hygiene Process of Care. Prerequisites: HYGN 1234 and HYGN 1236. Corequisite: HYGN 1238.

**HYGN 1262 Dental Radiology 3 Cr. Hrs.**

An introduction to the production of x-rays, radiation biology, radiation protection, imaging materials, imaging techniques, recognition of radiographic landmarks and structures, and quality control of radiographs. Corequisites: HYGN 1234 and HYGN 1238.

**HYGN 1270 Biology of the Head and Neck 3 Cr. Hrs.**

Anatomy, physiology, histology and embryology of the head and neck.

**HYGN 1280 Microbiology and Infectious Diseases 3 Cr. Hrs.**

A study of different types of microorganisms. Infectious diseases will be discussed in terms of reservoirs, transmission, pathogenesis, treatment and prevention. Emphasis will be given to common communicable diseases, the oral microflora and its role in disease and health.

**HYGN 1292 Dental Hygiene Preclinical Restorative Techniques 2 Cr. Hrs.**

A study of the principles and techniques of restorative dentistry. Introduction information on restorative dentistry specialties.

**HYGN 1320 Dental Materials 2 Cr. Hrs.**

A study of the properties of materials used in the oral environment for restorative, prosthetic, orthodontic and preventive purposes. Laboratory demonstrations and exercises are designed to demonstrate the correct preparation and handling of dental materials.

**HYGN 1340 Communications 2 Cr. Hrs.**

This course provides an introduction to basic principles of communication in relation to everyday and professional interactions. The students are sensitized to the process of communication, its complexities and its related dynamics. Particular attention is given to enabling students to develop effective professional communication skills that have the potential to promote client compliance and harmonious working relationships.

**HYGN 1352 Community Health I 3 Cr. Hrs.**

An introductory, participatory course in community oral health promotion intended to inspire a sense of community responsibility in students as health professionals responding to community needs through classroom teaching, interviews and debates.

**HYGN 1360 Periodontology I 2 Cr. Hrs.**

A study of the normal tissues of the periodontium, and an introduction to periodontal diseases, their etiology, epidemiology and treatment, especially as these relate to dental hygiene practice. A critical analysis of periodontal cases is included.

### SECTION 5: Dental Hygiene Course Descriptions- 2000 Level

**HYGN 2100 Dental Hygiene Portfolio 2 Cr. Hrs.**

This two credit hour course houses the evaluation component of the programmatic portfolio of student competencies that all students commence at enrolment and complete prior to graduation.

**HYGN 2280 Pharmacology 2 Cr. Hrs.**

Drugs used in clinical practice; a general knowledge of drugs by groups with emphasis on agents such as local anesthetics, analgesics, and antibiotics used extensively in the practice of dentistry.

**HYGN 2300 Pathology 3 Cr. Hrs.**

A study of the principles of general and oral pathology involving pathologic mechanisms, disorders of physiologic systems, and pathologic conditions and diseases affecting oral and para-oral structures.

**HYGN 2312 Dental Hygiene Clinical Practice II 4 Cr. Hrs.**

This competency-based clinical course amalgamates theoretical knowledge and clinical skills in both general clinical and community based clinical settings. Students provide care to clients with moderate oral health needs. This course is evaluated on a pass/fail basis. Prerequisites: HYGN 1238 and HYGN 1242. Corequisite: HYGN 2314.

**HYGN 2314 Dental Hygiene Theory and Practice III 4 Cr. Hrs.**

Learning, motivation, and behaviour modification theories are applied to oral health promotion. Dental hygiene care plans are developed using a human needs model and process of care. Ethics, jurisprudence and practice standards are discussed. Prerequisites: HYGN 1238 and HYGN 1242. Corequisite: HYGN 2312.

**HYGN 2316 Dental Hygiene Clinical Practice III 4 Cr. Hrs.**

This course advances the student's clinical dental hygiene skills to a level of minimal competency. Students provide dental hygiene care to clients with high oral health needs to facilitate their attainment of optimal oral health. This course is evaluated on a pass/fail basis. Prerequisites: HYGN 2312 and HYGN 2314. Corequisite: HYGN 2318.

**HYGN 2318 Dental Hygiene Theory and Practice IV 5 Cr. Hrs.**

The oral health needs of persons with disabilities and the development of dental hygiene care plans to address those needs are discussed as well as issues of access to dental hygiene care, employment, quality assurance, and

professional growth and development. Prerequisites: HYGN 2312 and HYGN 2314. Corequisite: HYGN 2316.

**HYGN 2340 Periodontology II** **2 Cr. Hrs.**

Continuation of the study of etiology, diagnosis and treatment of periodontal disease.

**HYGN 2350 Biology of Oral Tissues** **2 Cr. Hrs.**

Consideration of physiology of the oral environment and its microflora in relation to health, dental caries and periodontal diseases.

**HYGN 2362 Community Health II** **3 Cr. Hrs.**

Student abilities to deliver community oral health education/promotion programs, with attention given to barriers and strategies used to meet the unique needs of target populations less likely to have optimal oral health are further developed. Prerequisite: HYGN 1352.

**HYGN 2370 Nutrition in Dentistry** **2 Cr. Hrs.**

An examination of the fundamentals of nutrition and the relationship between nutrition and health within the context of the health professions. The focus is on nutritional strategies used to promote health and in the treatment of common health conditions. The primarily on-line content is followed up with a combination of oral health specific patient/clinical exercises for Dental Hygiene students. May not be held with HNSC 2170 or ORLB 2330, HNSC 2170, or the former ORLB 2150 or the former PHRM 2420.

**HYGN 2380 Pain Management** **2 Cr. Hrs.**

This course is designed to enhance the dental hygiene student's knowledge of the mechanisms of pain control through the administration of topical and local anesthetic agents. Emphasis will be placed on the pharmacology of dental anesthetic agents and their interaction with the client's current conditions and medications.

**SECTION 5: Dental Hygiene Course Descriptions-  
4000 Level**

**HYGN 4412 Dental Hygiene Practice Management and Leadership** **3 Cr. Hrs.**

This course is designed to provide the student with the necessary knowledge and skills to facilitate the transition to the practice environment. The focus of the course is leadership, workplace dynamics, management, developing alternate practice settings and working with third party payers. Oral health care management in a variety of organizations such as community health agencies, private practice, research and industry will all be discussed.

**HYGN 4460 Community Health Independent Study** **3 Cr. Hrs.**

This course is a practicum and/or independent study course focusing on the design and/or implementation and evaluation of the health promotion program process in; the field. Students may choose to host an oral health awareness raising event for the public, provide community-based oral health promotion activity at a selected site, develop a small-scale oral health promotion program for an underserved population group or a similar community-based project.

**HYGN 4470 Community Health Independent Study II** **3 Cr. Hrs.**

This course is a continuation of HYGN 4460 (Community Health Independent Study) and provides a further opportunity for the student to build on the previous independent study course or focus on the design and/or implementation and evaluation of an additional health promotion program. In either case, students may choose from oral health awareness raising event for the public, community-based oral health promotion activity, small-scale oral health promotion programming or similar community oral health project.

**HYGN 4492 Current Issues in Dental Hygiene** **3 Cr. Hrs.**

This seminar course focuses on current topics concerning the profession of dental hygiene in Canada and Internationally. Exploration of global topics will enable the student to glean a broad view of the profession.

**HYGN 4500 Advanced Oral Pathology** **3 Cr. Hrs.**

A web-based CD-ROM distance education course designed to present the clinical and pathobiologic aspects of diseases that affect oral and maxillofacial tissues or present with significant oral manifestations of

systemic diseases. This course is presented in conjunction with the University of Manitoba and the University of British Columbia.

**HYGN 4510 Microbiology and Immunology** **3 Cr. Hrs.**

This Web CT course is offered in conjunction with the University of British Columbia. Microbiological and immunological concepts that are the scientific basis for understanding human response in health and disease will be explored. This course builds on knowledge acquired from dental hygiene entry-to-practice level education and dental hygiene practice.

**HYGN 4520 Advanced Independent Study I** **3 Cr. Hrs.**

This course will enable the degree-completion student to explore issues or areas of interest in dental hygiene with the mentorship of a dental hygiene faculty member. Dependent upon the extent of the project, students may enroll in either three or six hours of study.

**HYGN 4530 Teaching Practicum** **3 Cr. Hrs.**

This course provides students with a seminar course in clinical teaching methodologies and the opportunity to practice teach within an undergraduate dental hygiene program under the supervision and mentorship of dental hygiene faculty members.

**HYGN 4540 Advanced Teaching Practicum** **3 Cr. Hrs.**

This course is a continuation of HYGN 4530 (Teaching Practicum) and provides the opportunity to extend the practice teaching experience into a second term, thus strengthening the individual's skills as a dental hygiene educator. This experience will occur under the supervision and mentorship of dental hygiene faculty members.

**HYGN 4550 Advanced Independent Study II** **3 Cr. Hrs.**

This course is a continuation of HYGN 4520 (Advanced Independent Study) and provides the opportunity for the student to pursue a more complex project which cannot be completed within the first course. Students will have selected their project topic in HYGN 4520 and will continue their exploration and write-up of this topic with the guidance of a dental hygiene faculty mentor.

## Max Rady College of Medicine

Dean: Dr. Brian Postl

Vice Dean(s): (Academic Affairs): Dr. Sara Israels; (Continuing Competency & Assessment): Dr. Christine Polimeni; (Education): Dr. Christine Ateah; (Indigenous): Dr. Catherine Cook; (Research): Dr. Peter Nickerson

Assistant Dean(s): (Brandon Satellite Program): Dr. Joanne Maier

Associate Dean(s): (Admissions) Dr. Sara Goulet; (Undergraduate Medical Education): Dr. Ira Ripstein; (Professionalism): Dr. Eric Jacobsohn; (Student Affairs, UGME): Dr. Aviva Goldberg; (First Nations, Métis & Inuit Health): Dr. Catherine Cook; (Research): Dr. Jude Uzonna; (Brandon Satellite Program): Dr. Charles Penner; (Continuing Competency and Assessment): Dr. Christine Polimeni; (Quality Improvement & Accreditation): Dr. Aaron Chiu; (Postgraduate Student Affairs & Wellness): Dr. Amanda Condon; (Postgraduate Medical Education): Dr. Cliff Yaffe

## SECTION 10 Postgraduate Medical Education

### SECTION 1: Medical Education

#### 1.1 Mission Statement

The Mission of the Max Rady College of Medicine is to develop and deliver high quality educational programs for undergraduate and postgraduate students of medicine, for graduates and post-doctoral fellows in the basic medical sciences and for physicians in practice; conduct research and other scholarly inquiry in the basic and applied medical sciences; and, contribute to the improvement of health status in Manitoba and beyond by providing advice, disseminating information to health professionals and the public, and by cooperating in the planning for the development and delivery of health care services.

The Mission of the Undergraduate Medical Education Program is to develop, deliver and evaluate a high quality educational program for the MD Program.

Our Graduates will approach their profession with a spirit of Discovery by:

- Welcoming and adapting to the ever-changing nature of medicine
- Appreciating the continuum of basic science and human wellness
- Building a broad and unbiased foundation of medical knowledge
- Maintaining openness to practice medicine and conduct broader academic work in urban hubs and in rural and Northern communities, in Canada and around the world

Our Graduates will embrace Scholarship by:

- Pursuing academic excellence at every stage of their careers as clinicians, researchers, academics, and administrators
- Appropriately applying medical research and innovation to patient care
- Committing to the practice of lifelong learning as professionals
- Committing to the lifelong maintenance of an evidence-based practice
- Healing through knowledge and compassion and acting as educators for patients, allied health professionals, and one another

Our Graduates will lead and collaborate within their communities by:

- Advocating for the health and safety needs of individual patients and collective populations
- Communicating effectively with all health care professionals, including generalists, specialists, and allied professionals and those in related sectors
- Exemplifying professionalism and sustaining a climate of respect in all aspects of their lives
- Fostering an atmosphere of cultural safety for all patients and populations by practicing with open-mindedness and unconditional goodwill.
- Providing expert and compassionate medical care to diverse patient populations in Canada and beyond
- In doing so, graduates of the Max Rady College of Medicine at the University of Manitoba will become exemplary physicians prepared to undertake the responsibilities entrusted to them

Medical education in Manitoba is designed to provide students with the knowledge and experience they need to practise medicine in a profession where new developments in science and public health policy create an ever-changing environment. In the first two years of the program, referred to as Pre-Clerkship, the subject matter is divided into Modules comprised of courses which cover core concepts in Human Biology, Health and Disease. The final two years, referred to as Clerkship are spent in direct contact with patients and doctors in a range of rural and metropolitan clinical settings in which students gain experience with Increasing responsibility for patient care and management.

## 1.2 History of the College

Medical education in Manitoba had its beginnings in 1883 when 13 physicians applied to the local legislature for a charter to form the Manitoba Medical College. The college was chartered as an affiliate of the University of Manitoba. The number of students registered for the first session was 15, and the number in attendance at each session from that date to the present has ranged from 15 to 440. The university came to the aid of the Medical School from time to time by furnishing full-time professors in chemistry, physiology, pathology, bacteriology, and zoology. With the session of 1918-1919 the Manitoba Medical College ceased to exist as a separate institution. It made a gift of all its property and equipment to the University of Manitoba "on condition that the university establish a Faculty of Medicine, and carry on the work of medical education in an efficient manner."

In 1921, a building for the accommodation of the departments of Physiology, Biochemistry, and Bacteriology was erected on the old Medical School property, and a further unit was completed in February, 1922. In January, 1956, the new wing of the medical building was officially opened, which included new quarters for the Medical Library. In February, 1965, the Chown Building was opened providing five-stories of administration offices and space for Pharmacology and Therapeutics and the Computer Department for Health Sciences. The Basic Medical Sciences Building, containing undergraduate teaching facilities, opened in 1973. It provides accommodation for anatomy, biochemistry, physiology, and medical microbiology. The Brodie Centre officially opened in the spring of 1996; it provides a library, research and recreational facilities. In 2004, the Office of the Dean and the Education Offices relocated to new administrative facilities in the Brodie Centre. General teaching facilities are located in the medical buildings, and facilities for clinical instruction are provided in the teaching hospitals affiliated with the University of Manitoba and in related institutions. The varied settings in which medicine is practised in Winnipeg and in rural and northern Manitoba also provide students with the opportunity to study community medicine outside the major teaching institutions.

### 1.3 Neil John Maclean Health Sciences Library

The Neil John Maclean Health Sciences Library provides access to a wide range of evidence-based medical resources. Online resources include core medical textbooks such as *Harrison's Principles of Internal Medicine*, drug reference resources such as *Lexi-Comp* and *RxTX* and clinical point of care tools such as *UpToDate*, and *Access Medicine*. The Library subscribes to over 4,500 online journals and a number of essential medical databases such as PubMed, EMBASE, Scopus, and the Science Citation Index Expanded through Web of Science. Students can access all of the online resources on-campus using the Bannatyne campus wireless network and from home with a UMNNetID. The Library's facilities include an assistive technology workstation, 2 computer labs with 15 computers each, 12 seminar rooms, which can be booked by students for group study, 92 study carrels, and 4 sit-stand desks and 24 computers for walk-in use. Librarians offer training on the use of key medical resources and information management both as part of the curriculum and in regularly scheduled sessions throughout the year.

### 1.4 Graduate Studies

Approximately 350 graduate students are doing research and pursuing Master's and Doctoral degrees in the Max Rady College of Medicine. Their training programs offer opportunities to conduct research at a number of sites such as the Bannatyne Campus, National Microbiology Laboratory and St. Boniface Hospital Research Centre. Graduate programs are available in the Departments of Biochemistry and Medical Genetics, Community Health Sciences, Human Anatomy and Cell Science, Immunology, Medical Microbiology and Infectious Diseases, Pathology, Pharmacology and Therapeutics, Physiology and Pathophysiology as well as Surgery.

## 1.5 Postgraduate Medical Education

Postgraduate Medical Education (PGME) at the University of Manitoba is comprised of a variety of training programs for graduated medical students interested in obtaining a higher level of education in Family Medicine or medical specialty. Programs are usually organized to be in one of three categories:

- Programs accredited by the Royal College of Physicians and Surgeons of Canada (RCPSC).
- Programs accredited by the College of Family Physicians of Canada (CFPC).
- Other training and fellowship programs approved by the Max Rady College of Medicine.

For further information, please refer to the Postgraduate Medical Education website or see Section 10.

## 1.6 Master of Physician Assistant Studies

The Master of Physician Assistant Studies degree program is a comprehensive two-year program administered by the Max Rady College of Medicine's Department of Family Medicine. Physician Assistants are academically and clinically educated medical generalists who practice medicine within a formalized structure with physicians. PA education prepares graduates for roles in primary health care, specialty practice, or hospital-based roles. For further information, please refer to the Physician Assistant Studies Program [website](#) and the Graduate Academic Calendar's [Physician Assistant](#) Program Info.

## 1.7 Office of Educational and Faculty Development

The mandate of the Office of Educational and Faculty Development is to work in a collaborative manner across all programs and schools within the Max Rady College of Medicine to provide expertise and services related to medical education including curriculum development, faculty development, and design of evaluation tools and assessment. The second purpose of the Office of Educational and Faculty Development is to engage in research and scholarly activity related to medical education.

## 1.8 Continuing Professional Development

**The Continuing Professional Development Program (Medicine)** is an accredited academic unit responsible for creating a variety of certified educational programs for physicians and other primary care practitioners throughout the Province of Manitoba and North-western Ontario. These educational sessions incorporate plenary, small group, interactive and e-learning activities to a consistently growing audience. Each year, CPD-Med develops and co-develops over one hundred educational sessions. In addition, the program provides support in the form of event planning, organization of clinical traineeships and coordination to externally developed CPD events on a fee-for-service basis, as well as, providing accreditation of CPD events on behalf of the Royal College of Physicians and Surgeons of Canada (RCPSC). CPD-Med also provides assistance in maintaining educational standards for accredited regular scheduled series programs in a number of departments in the Max Rady College of Medicine.

For information contact:

Office of Continuing Competency and Assessment

[cpd-umanitoba.ca](http://cpd-umanitoba.ca).

## SECTION 2: Admission to the Max Rady College of Medicine

The Applicant Information Bulletin is the official policy document for Admission. The document can be found at: [http://www.umanitoba.ca/student/admissions/media/medicine\\_bulletin.pdf](http://www.umanitoba.ca/student/admissions/media/medicine_bulletin.pdf) The Applicant Information Bulletin is reviewed and updated annually and may be subject to change.

### 2.1 Degrees Offered

Doctor of Medicine (M.D.)

BSc (MED)- Bachelor of Science in Medicine

MD/PhD

### 2.2 Program Pools and Streams

The 4 year general MD Program is open to the following applicant pools and streams:

- Manitoba Applicant Pool
- Bilingual (French/English) Stream
- Canadian Indigenous Applicant Pool
- Out of Province Applicant Pool

### 2.3 Eligibility Requirements for Admission

Refer to the Applicant Information Bulletin for the eligibility requirements:

[http://www.umanitoba.ca/student/admissions/media/medicine\\_bulletin.pdf](http://www.umanitoba.ca/student/admissions/media/medicine_bulletin.pdf)

### 2.4 Additional Requirements

- Technical Standards Requirement; the Max Rady College of Medicine has identified the requisite skills and abilities for admission, promotion and graduation in the MD program; these can be found at [http://umanitoba.ca/faculties/health\\_sciences/medicine/education/undergraduate/policies.html](http://umanitoba.ca/faculties/health_sciences/medicine/education/undergraduate/policies.html)
- The University of Manitoba and the Max Rady College of Medicine is committed to providing all students equal access to learning opportunities. If you are a student with a diagnosed disability (permanent, chronic, or temporary) who may require academic accommodations, please contact Student Accessibility Services at 204-474-7423 or by email at [student\\_accessibility@umanitoba.ca](mailto:student_accessibility@umanitoba.ca) to learn more about the confidential supports that are available. <http://umanitoba.ca/student/accessibility/new-and-future-students.html>
- Adult Criminal Record, Child Abuse Registry and Adult Abuse Registry Checks; all applicants must complete a self-declaration regarding adult criminal records, pending criminal charges and registration on the child abuse registry as an offender; this self-declaration must be done at the time of application; an adult criminal record check, declaration of pending criminal charges

and child abuse registry self-check are required at the time of registration and annually thereafter;

- Professional Registration; all medical students must be eligible for, and become registered with the College of Physicians and Surgeons of Manitoba (CPSM) by the time of registration; eligibility requirements can be viewed on the CPSM website at: [www.cpsm.mb.ca](http://www.cpsm.mb.ca);
- Immunization requirements can be viewed at [http://umanitoba.ca/faculties/health\\_sciences/medicine/education/undergraduate/immunestatus.html](http://umanitoba.ca/faculties/health_sciences/medicine/education/undergraduate/immunestatus.html)
- Students must have CPR designated as "Health Care Provider Level C" acceptable to the standards of the Heart and Stroke Foundation at the time of registration in Year I. Students must have annual renewal of their CPR registration acceptable to the standards of the Heart and Stroke Foundation throughout the Undergraduate Medical Education program. Evidence of current renewal must be provided on an annual basis prior to the beginning of the academic year. Failure to comply, may result in exclusion from all academic programs until renewal is obtained.

## 2.5 Eligibility Requirements for Transfer

Applications for transfer are only accepted from students registered and in good standing at an LCME accredited medical school. Transfers can only be considered if there is a seat available through attrition. Details regarding the transfer policy can be found at the following link:

[http://umanitoba.ca/faculties/health\\_sciences/medicine/education/undergraduate/media/Transfer\\_Policy\\_Approved\\_by\\_Senate\\_11.7.18.pdf](http://umanitoba.ca/faculties/health_sciences/medicine/education/undergraduate/media/Transfer_Policy_Approved_by_Senate_11.7.18.pdf)

## SECTION 3: Academic Regulations

The provisions of the chapter, [General Academic Regulations and Requirements](#), and the chapter, [University Policies](#), apply to all students. Max Rady College of Medicine regulations and requirements change from time to time. Detailed information concerning the general regulations governing admissions, evaluation, academic progress and withdrawal for an undergraduate medical student may be obtained from the Undergraduate Medical Education Office. These regulations include the following:

- A student will not be permitted to register unless the student is in good academic and financial standing from the previous year.
- No year may be repeated more than once.
- A student who withdraws from the Max Rady College of Medicine without prior written notice will be considered to have terminated connection with the College and will not be eligible for re-admission.
- A student who withdraws from the College having given due notice of intention to withdraw is eligible for re-admission. If re-admission is approved the student will be required to conform to the rules and regulations, fee schedules, sequence of courses, in effect at the time of such readmission.
- A student may, after completion of the work of a full year, be granted a leave of absence for one year subject to certain conditions related to the purpose of the leave of absence and on subsequent registration will be required to conform to the rules and regulations, fee schedules, and sequence of courses in effect

at the time of such registration. The Leaves of Absence (LOA) Policy can be viewed at the following [link](#)

- A student who has been or expects to be prevented from attending any regular examination by reason of illness or other cause beyond the student's control should at once notify the Associate Dean, Student Affairs and must abide by the requirements of the Deferred Examination Policy and Procedures found at the following [link](#)
- The College Executive Council reserves the right to require a student to withdraw from the program for which the student is enrolled when it believes the student to be unsuited, on general considerations of scholarship, or conduct for the profession, or the field within the profession, to which the program of studies normally leads. This right prevails notwithstanding any other provision in the college regulations.
- Each student is required to present the personal and professional appearance, attitudes and behaviours expected of members of the medical profession. The Max Rady College of Medicine has a process through which lapses in professionalism are reported, investigated, and, when necessary, will result in remedial or punitive actions up to and including dismissal. The College of Medicine Professionalism website provides additional information at the following [link](#)
- Each student must complete the undergraduate program for the M.D. degree of the Max Rady College of Medicine within seven years of entry to first-year Medicine, exclusive of those students undertaking additional academic pursuits which are acceptable to the Progress Committee. The Leaves of Absence (LOA) Policy can be viewed at the following [link](#). When a student fails to complete the program, Progress Committee will review the academic record of the student. The reasons for the prolonged duration of the student's program are confidential but must be approved as valid by the Associate Dean, UGME.

### 3.1 Requirements for the Degree of Doctor of Medicine (M.D.)

Every candidate for the degree of Doctor of Medicine must have satisfied the following requirements:

- Subsequent to the successful completion of the required university studies, a student must have attended four full sessions of not less than nine months each in this or some other school of medicine approved by the University of Manitoba, the last two years of which must have been spent as a student of the University of Manitoba.
- A student must have completed the required work, have fulfilled satisfactorily all special requirements, have received satisfactory grades throughout the entire medical program, and have discharged all indebtedness to the university.

Degrees: All degrees in Medicine will be conferred by the Senate of the university on the recommendation of the College Executive Council at a regular meeting of the University Senate or at a meeting specially called for that purpose.

### 3.2 Requirements for Registration to Practise Medicine

A university degree in medicine does not in itself confer the right to practice the profession of medicine in Canada. That right is obtained from a provincial registering body in the particular province in which the graduate

desires to practice, and follows the successful completion of the Medical Council of Canada's two qualifying examinations.

### 3.2.1 Federal Registration: The Medical Council of Canada

The Medical Council of Canada was established in 1912 by the Canada Medical Act. Its purpose is to grant a qualification to practice medicine acceptable for license in every province of Canada. It is not a licensing body, but "anyone who secures the diploma of the Medical Council of Canada by examination is registered on the Canadian Medical Register. This registration entitles one to become licensed to practice medicine in any province in Canada upon payment of the necessary fee and on meeting other provincial requirements."

The Medical Council of Canada examinations are normally taken by undergraduate medical students of the University of Manitoba at the end of the fourth year. There is a fee for this examination. Examinations are held annually in Winnipeg in May and November, and registration for these examinations may be made with The Registrar, Medical Council of Canada, 2283 St. Laurent Boulevard, Ottawa, ON K1G 5A2. The deadline for application is usually in December; candidates are advised to contact the Medical Council of Canada for current information: [www.mcc.ca](http://www.mcc.ca).

### 3.2.2 Provincial Registration

The College of Physicians and Surgeons of Manitoba is the regulation body for the physicians in Manitoba. Each medical student must be registered with the College of Physicians and Surgeons of Manitoba in each year of the academic program. For information on registration in Manitoba contact: The College of Physicians and Surgeons of Manitoba, 1000-1661 Portage Ave., Winnipeg, MB R3G 3T7; telephone: (204) 774 4344 or <http://cpsm.mb.ca/>.

## SECTION 4: The Program for the M.D. Degree

### 4.1 Governance

The program and its curriculum are the responsibility of the Curriculum Executive Committee. The policies, regulations, implementation and modifications of the educational program for the M.D. degree are determined by the Curriculum Executive Committee on the recommendation of the College Executive Council, Pre-Clerkship Curriculum Committee and the Clerkship Curriculum Committee. The Curriculum Executive Committee is chaired by the Associate Dean, UGME. The Terms of Reference for this committee and committee membership can be viewed at the following [link](#). The Curriculum Executive Committee is responsible for the curriculum, and teaching in the educational program leading to the M.D. degree.

### 4.2 General Statement

The UGME program has undergone an exhaustive comprehensive curriculum renewal process which commenced in 2010. The new clerkship was introduced in August 2013, and the new preclerkship was introduced in August 2014. The curriculum was created to be a fully integrated spiral scaffold curriculum throughout all 4 years that fulfills UGME global objectives, *Future of Medical Education* (FMEC) recommendations and LCME/CCME standards. It was fashioned to be a *Person to Community Centered* curriculum (as opposed to organ system or department-based).

The program is a continuum over the four years but is divided into the Pre-Clerkship, Years 1 and 2, and the Clerkship, Years 3 and 4, for administrative purposes. The mission and objectives of the program can be found at the following [link](#)

The Max Rady College of Medicine does not support students' limitation of their studies to only fields and disciplines of personal interest. Nonetheless,

students are encouraged to pursue areas of interest and to develop their own education through clerkship electives and summer clinical exposures or research experiences. Students learn to use information, skills and behaviour from multiple sources of teaching to prevent and solve the health care issues that face their patients and society. Students learn that physicians are part of an interdisciplinary team and health care system that provides accessible, continuous and comprehensive health care.

In order to modify and enhance the educational program, the opinions of students and their evaluation of the program and its teachers are formally sought and respected by faculty. This information is used by the Curriculum Executive Committee to improve the program.

### 4.3 The Plan of the Curriculum

#### 4.3.1 Professionalism

Professionalism, that is the behaviour and attitudes befitting medical professionals, is an important component of the Undergraduate Medical Education curriculum. Our goal is to instill the attributes of professionalism and to emphasize to medical learners that professional characteristics and attributes are necessary during the practice of medicine and for the development of their identity as physicians.

The Max Rady College of Medicine has developed a professionalism charter that serves as a framework for defining and demonstrating medical professionalism.

In cases where lapses in the level of professionalism necessary to underpin medical education are recognized, the Max Rady College of Medicine uses a Professionalism Report by which single egregious or recurrent lapses in student professionalism can be brought to the school's attention. A summary statement will be included on an individual's Medical Student Performance Record if two or more validated reports have been received. The Max Rady College of Medicine maintains the option to dismiss students on the basis of unprofessional behaviour, regardless of performance in the curriculum.

#### 4.3.2 Pre-Clerkship Program:

The goals and objectives of the UGME Pre-Clerkship curriculum are based on the mission and objectives of the undergraduate program as outlined in the following [link](#). Student assessment is based on achievement of the learning objectives provided to students on-line via a curriculum management system known as Entrada.

The curriculum framework is based upon the principles of scaffolding and integration. The program comprises **Human Biology, Health and Disease Modules** commencing with a four week module – **Foundation of Medicine**. This module provides a basic science foundation relevant to the study and practice of medicine with the focus on principles, themes and overarching framework- these include normal structure and function of molecules, cells and tissues and how homeostasis is maintained at these levels; how cells respond to perturbations in homeostasis and some of the possible consequences; major mechanisms that underlie the development of disease, and exogenous factors that threaten health.

This is followed by 23 weeks of the **Human Biology and Health Modules** which in sequence are: Blood and Immunology 1, Cardiovascular 1, Respiratory 1, Neuroscience 1, Musculoskeletal 1, Endocrine/Metabolism 1, Woman's Reproductive Health 1, Gastroenterology, Hepatology, Nutrition 1 and Urinary Tract 1 courses. These courses cover the normal development, anatomy, histology, physiology and processes for the various systems, predominantly basic sciences with clinical cases (normal or abnormal) to contrast or help illustrate normal. Each course will include an overview of burden of illness or diseases related to that system. The courses will be presented in the mornings while the afternoons will consist of five

*Longitudinal Courses* that will proceed throughout all four years. These include:

- (1) Clinical Reasoning
- (2) Professionalism
- (3) Population Health
- (4) Clinical Skills
- (5) Indigenous Health

The content, where relevant will parallel the morning module courses.

Following completion of the *Human Biology and Health Modules*, the same course names will appear as Human *Health and Disease Modules*. This is 36 weeks in total with the first 9 weeks completing year 1 of study. *Health and Disease Modules* starts with an Introduction to Infectious Disease and Therapeutics course followed by Cardiovascular 2 and Respiratory 2. Year 2 of study commences with the remainder of the M2 courses in sequence: Blood and Immunology 2, Principles of Oncology, Neuroscience 2, Endocrine/Metabolism 2, Woman's Reproductive Health 2, Gastroenterology, Hepatology and Nutrition 2, Urinary Tract 2 and Musculoskeletal 2. All the courses are presented as abnormal processes, predominantly clinical cases with review and application of basic sciences. Modules will be presented in the mornings while the afternoons will be five *Longitudinal Courses* again including:

- (1) Clinical Reasoning
- (2) Professionalism
- (3) Population Health
- (4) Clinical Skills
- (5) Indigenous Health

The content, where relevant, will parallel the morning module courses. Each course provides an overview of burden of illness and societal impact of diseases, and for each specific abnormality or disease where relevant the epidemiology, scientific basis and anatomy review, prevention and screening, cultural, social and ethical issues, natural history and prognosis, diagnosis, therapeutics and disease management. These may be covered during the morning module course or the afternoon *Longitudinal* course. The impact of Translational Research, Evidence Based Medicine and Health Care Systems will be highlighted where appropriate.

Year 1 will conclude with a one week rural primary care exposure.

Year 2 will conclude with a 9 week *Consolidation module*. The module will ensure all the content from the previous modules are assimilated, and includes single symptom presentations with broad differential diagnosis, multisystem disease such as complicated diabetes, "Themes" or disciplines such as pediatrics, geriatrics and systemic diseases such HIV, SLE and multiple myeloma. The consolidation module begins with the pain management curriculum and the dermatology course. The subsequent weeks will be small group case based discussions to ensure all the 137 *Essential Clinical Presentations* have been covered at appropriate level.

The two-year Pre-Clerkship curriculum brings together teachers and facilitators from across all College Departments, other healthcare related faculties and disciplines as well as members of the public. All basic medical sciences, including anatomy, molecular biology, biochemistry, human genetics, immunology, microbiology, physiology contribute to the

curriculum as do the clinically applied basic sciences of pathology, pharmacology and community health sciences. Clinical departments including anaesthesia, clinical health psychology, family medicine, internal medicine, obstetrics, gynaecology, ophthalmology, otolaryngology, paediatrics, psychiatry, surgery are involved in all aspects of the curriculum.

An overview of the UGME Framework within the Pre-Clerkship component of the Undergraduate Medical Education program can be viewed at the following [link](#)

### Methods of Teaching

A variety of approaches are used to facilitate learning. These include self-directed learning, small group sessions, whole group sessions, lab practicals and simulation.

### Methods of Assessment

Formative and summative assessments are provided throughout the Pre-Clerkship curriculum. These include self-reflection, learning portfolios, tutor feedback, instructional tests, multiple choice examinations, practical examinations, and short and long answer examinations.

### Attendance

Certain learning sessions within the UGME program are designated as "mandatory attendance" sessions. These are generally sessions in which students are learning in a small group format, patients or their families are involved; clinical skills are being taught; or clinical care is being provided. Attendance at these sessions is recorded and reported to the UGME office, and contributes to the evaluation of the learner's professionalism, The Attendance Policy can be viewed at the following [link](#)

The procedures outlined in this policy do not preclude course directors, session leaders and instructors from tracking student learner attendance in their sessions and discussing any concerns related to attendance with the learners.

### 4.3.3 Clerkship Program:

The Clerkship component of Curriculum Renewal introduced in 2013 was created to facilitate the integrated 4 year scaffold curriculum with central governance, supervised responsibility for patient care and mandatory academic time with frequent feedback and evaluation. The program is governed by the Clerkship Curriculum Committee for which the terms of reference and membership can be viewed on the [website](#)

The Clerkship (Years 3 and 4) consists of *Transition to Clerkship* (3 weeks), *Core Clinical Rotations* (48 weeks), *Electives*, and *CaRMS interviews* (20 weeks), and *Transition to Residency* (12 weeks)

***Transition to Clerkship (TTC) (3 weeks):*** The goal of TTC is for the students to expand their focus from learning during preclerkship years to the actual provision of care in various health care settings. This will help the students translate the knowledge gained in pre-clerkship to the clinical setting and the actual provision of care. This includes the supervised responsibilities that accompany provision of preventative health and management of disease by use of simulation, patient assessments, small group sessions and shadowing experiences. The *Transition to Clerkship* is launched with a prominent local keynote speaker and reciting of Hippocratic Oath, includes three weeks in various didactic, simulation, and community settings.

***Core Clerkship Rotations (48 weeks):*** There are four 12 week blocks comprising 8 major clinical disciplines combining 2 disciplines per block to facilitate delivery of joint academic time: Surgery and Anesthesia, Internal Medicine and Emergency Medicine, Pediatrics and Obstetrics/Gynecology

and Psychiatry with Family Medicine/Public Health. For more specific outline see [http://umanitoba.ca/faculties/medicine/education/undergraduate/program\\_overview.html](http://umanitoba.ca/faculties/medicine/education/undergraduate/program_overview.html). The primary responsibility of the clerks in the program is the care of patients under the supervision of postgraduate students and faculty. Settings for the clerkship experience are varied, including wards and outpatient facilities of the hospitals, doctors' offices, rural settings and community-based hospitals. A formal Academic Half Day occurs weekly with mandatory attendance shared and created equally by the UGME Office and Longitudinal Courses, and the respective core clinical rotations. The *Longitudinal Courses* are those that proceed throughout all four years and include:

- (1) Clinical Reasoning
- (2) Professionalism
- (3) Population Health
- (4) Clinical Skills
- (5) Indigenous Health

The UGME academic time includes reflection exercises and assignments. An *Evidence Based Medicine Course and Capstone Project* is included during this time period. The core rotations each have additional scheduled academic sessions.

**Electives and CaRMS National Interview Period (20 weeks):** There are 17 weeks of electives prior to the CaRMS National Interview Period.

Throughout the elective periods, students must pursue education in a minimum of three different disciplines with a minimum duration of two weeks and maximum duration of eight weeks each. Electives may be pursued in a setting of the student's own choice (including beyond the the university), but must be approved by the Director, Electives. Students are responsible for all costs associated with electives and CaRMS interviews, e.g. transportation, accommodation etc.

**Transition to Residency (12 weeks):** Following completion of the CaRMS interviews will be two 3 week selective periods selected from a catalogue of options including international selectives and university exchange programs, sandwiching CaRMS match week. During this time period students will be participating in an Evidence Based Medicine Course and Capstone Project. The CaRMS match week will include preparation for PGME sessions including types of practise, leadership skills, team work and medical legal/licensure sessions. **Transition to Residency** will conclude with a 4 week Comprehensive Review and Advanced Cardiac Life Support (ACLS) course

#### 4.3.4 Requests for Conscience-Based Objections

The College of Medicine acknowledges that at times, learners may object to participating in educational activities. Learners who object to participation in educational activities may refer to the *Conscience Based Exemptions Policy* available [online](#) in order to seek a Conscience-Based Objection.

## SECTION 5: Student Assessment and Academic Progress

### 5.1 Responsibility

The policies and procedures for the assessment of the students in the program for the M.D. degree are the responsibility of the College Executive Council.

**Progress Committee:** The Progress Committee meets regularly to evaluate the performance and progress of students enrolled in the Undergraduate Medical Education program.

The responsibilities of the Progress Committee include:

- Recommending to the College Executive Council the academic standards by which the progress of students are judged and ensuring that examiners have followed the policies and procedures set by the College Executive Council.
- Determining which students may proceed to the next stage of the program or to graduation.
- Determining which students should write supplemental examinations, or be required to take remedial study, or be required to repeat all or part of the academic year before promotion to the next stage of the program or graduation.
- Placing students on Monitored Academic Status or Probationary Academic Status.
- Ensuring that the Student Evaluation Committees have followed the policies and regulations of evaluation that have been approved by the College Executive Council.

The Preclerkship and Clerkship Student Evaluation Committees (PSEC, CSEC) conduct the assessment of the students. The knowledge, clinical and communication skills, attitudes and behaviour of the students are evaluated by examination, assessment of performance and completion of assignments.

**The responsibilities of the PSEC, and CSEC include:**

- Planning and administration of all aspects of student assessment and performance.
- Planning and administration of all supplemental examinations.
- Planning and administration of all other measures of academic performance.
- Planning and administration of remedial training for students with unsatisfactory academic performance.
- The reporting of the results of examinations, supplemental examinations, other academic performance evaluation and remedial training to the Progress Committee.

### 5.2 Evaluation in the Pre-Clerkship Program

#### 5.2.1 Summative Examinations

The PSEC will inform the students of the pre-determined pass mark for each examination at the beginning of their course or module. The students, however, will be given the overall as well as the actual marks obtained in the different sections of the examination. Student results will be reported to them as a pass or fail. Grades and relative performance will be recorded in the students' active files. A student can view his or her active file in accordance with the Student Records Policy and procedures [online](#)

The Max Rady College of Medicine uses a Pass/Fail system where grades are not reported external to the Max Rady College of Medicine. Transcripts and Medical Student Performance Reports will indicate only whether a student has passed or failed a year, course, or module. However, within the Max Rady College of Medicine, student grades will be used to help identify

students at academic risk and to help select students for distinctions such as awards and specialized programs.

For modular courses, there are written comprehensive examinations based on the objectives at the end of each course or module. In addition, there are mid-course or mid-modular assessments (often examinations) for each course. Each examination may use various methods of assessment: multiple choice questions, short answer questions, etc. There may also be take-home assignments in each course that contribute to the final mark. Longitudinal courses will have multiple forms of assessment throughout the year, and may include written examinations, take-home assignments, OSCE examinations, or other forms of assessment.

Expectations for student conduct and information related to pass marks for summative examinations can be found in the following UGME policies.

- [Examination Conduct Policy](#)
- [Examination Results Policy](#)
- [Deferred Examinations Policy](#)
- [Examination Accommodation Procedures](#)

### 5.2.2 Failures of the Evaluation in Pre-Clerkship Years 1 and 2

The UGME Promotion and Failure Policy governs decisions related to student promotion and failure at the Pre-Clerkship level can be viewed [here](#)

Students failing a number of examinations up to the maximum allowable failures for modular courses or up to two longitudinal courses are permitted to sit supplementary examinations in accordance with the Supplemental Examination Policy that can be viewed [online](#)

Students who fail any supplementary examination in a first or second year modular course will be given a third attempt to pass the particular course via a second supplemental examination. Students who fail this third attempt will fail the year. Students who fail any supplemental examination in a first or second year longitudinal course will fail that year.

Students who are granted supplemental privileges are expected to undertake remedial study at a time determined by the Director, Remediation. Remediation usually occurs during the summer period. Following the remediation, a student will sit a supplemental examination comparable but different from that failed. The performance of students during the remedial period will be assessed by a preceptor and will normally include an oral and/or written examination and/or repeated OSCE. Students who fail to reach the standard expected after remediation will fail the year.

Students in Year 1 and Year 2 who are successful on the supplemental examination(s) will be promoted.

Students who fail Year 1 or Year 2 will be required to repeat that particular year.

### 5.2.3 Formative Assessment in Pre-Clerkship

A variety of formative assessments are conducted in Pre-Clerkship including instructional tests, practice questions, reflective writing, self-evaluation, and peer-evaluations.

### 5.2.4 Remediation in Pre-Clerkship

A student who fails an examination is required to meet with the Director, Remediation for a remediation assessment. The exact nature of the remediation may vary and will be determined on a case by case basis by the Director, Remediation in conjunction with the Course Coordinator. The

student will also be required to meet with the Associate Dean, Student Affairs, who may also direct the student to other college members or services for students. Remediation Policy and Procedures can be viewed [online](#)

## 5.3 Evaluation of Students in the Clerkship Program

The Max Rady College of Medicine concluded a significant period of Curriculum Renewal in 2018.

### 5.3.1 For Students beginning Clerkship prior to August 2013:

During the clerkship years students will be evaluated on their competence and this will include assessment of their cognitive knowledge and understanding, clinical skills, problem solving and judgement, technical skills, interpersonal attributes and general professional responsibility. Assessment will be the responsibility of the CSEC.

#### 5.3.1.1 Methods of Summative Assessment (General)

The policy and procedures applicable for evaluation are:

- [Examination Conduct Policy](#)
- [Examination Results Policy](#)
- [Deferred Examinations Policy](#)
- [Examination Accommodation Procedures](#)

Various methods will be used to assess students, including the final evaluation reports (FITERs); written external NBME examinations and OSCE-type exams. Student performance for evaluation purposes during examinations may be recorded in writing, orally, by computer, by audio or by video taping. All material necessary to generate the mark such as papers, computer records and tapes will be destroyed once the student has passed that assessment. Such material can be of help to a student needing remediation before the examination.

To achieve this quality assurance, the Clerkship Student Evaluation Committee may use direct observation or indirect observation by audio and video monitoring. Quality assurance material is subject to the aforementioned regulations of the university and the College. Furthermore, this material, which could identify the individual student will not be released to anyone, other than the Dean and Clerkship Student Evaluation Committee without the written consent of the student.

#### 5.3.1.2 The Introduction to Clerkship (ITC)

The goal of Introduction to Clerkship (ITC) is to prepare the student for clerkship rotations. Students will be assessed for attendance and performance in learning groups. The purpose of student evaluations in ITC is to ensure that students are ready to begin the clerkship rotations.

Readiness for clerkship must be demonstrated in many areas including: basic medical knowledge and its application; clinical skills in evaluating patients; analysis of clinical data; problem identification and diagnosis; planning of investigation; planning of management and therapy; relationships to patients and staff. These attributes will be assessed in a variety of ways throughout ITC.

#### Method of Assessment

Students failing to attend mandatory sessions will be reported to the Associate Dean UGME, who will inform the Clerkship Student Evaluation Committee. Each student will receive a warning from the Associate Dean's office. If this warning is ignored the student's attendance record and

performance will be considered by the Clerkship Student Evaluation Committee and the student may be failed for the sessions missed. A suitable remedial period may be provided. If the student does not perform satisfactorily in the remedial period the ITC will be failed.

The student must be informed of a recommendation for failure within seven working days of the end of the session. The pass/fail decision will be given by the departmental representative to the Clerkship Student Evaluation Committee. In the case of a failing evaluation the reasons for failure must be documented and submitted to the Clerkship Student Evaluation Committee.

### 5.3.1.3 ITC Remediation

#### Failure for inadequate attendance

The coordinator of the module of sessions missed may, with approval of the Director, Clerkship Curriculum, provide the student with a remedial course, of comparable educational experience in that subject; the student will have to attend and perform satisfactorily to pass the ITC.

### 5.3.1.4 The Major Clinical Clerkships

#### Method of Assessment

The evaluation of the students during the clinical clerkship rotations may be assessed by review of clinical performance, written examinations, and projects.

#### Clinical Performance

The objectives of the Clerkship Program are consistent with the Undergraduate Medical Education Objectives found [online](#)

The Midpoint In-Training Report (MITER) is a formative assessment in rotations of four weeks or longer. The student uses this report to complete a self-assessment which is then discussed with the student's preceptor. If a student's early performance is likely to lead to a failure, the Clerkship Director must advise the student of an impending failure by the midway point of the rotation. In such cases, the student must be given help to improve performance to the expected standard. The Clerkship Director, or designate, will collect preceptor assessments throughout the rotation. The Clerkship Director, or designate, will use all assessments to make a final decision on the student's performance at the end of the rotation in that department. A Final In-Training Evaluation Report (FITER) of each student's achievement of these objectives will be completed for each rotation.

A failing student must be informed of the failure by the Clerkship Director, or designate, preferably before the end of the rotation but not later than seven working days after the rotation is complete. All results will be submitted to the undergraduate committee of the department, who, for a failure, will review all the assessments and preceptors' pass/fail assessments and determine the overall pass/fail standing for the student during the rotation in question.

The pass/fail recommendation, with the FITER and any supporting evidence for that decision, will be submitted by the departmental representative to the Clerkship Student Evaluation Committee. The pass/fail decision will be reviewed and affirmed if there is a majority vote of the members of Clerkship Student Evaluation Committee present at the first meeting of the Clerkship Student Evaluation Committee following the completed rotation. In the case of a tie, the chair of Clerkship Student Evaluation Committee will have the deciding vote, otherwise he or she will not vote.

On occasions, Progress Committee may deem it necessary to forward feed student summative assessment information to subsequent Clerkship Directors, or designates. In such instances, the student will be informed and

the process will follow that outlined in the Forward Feeding Policy and Procedures found [online](#)

### Clerkship Written Examinations

Students will take the National Board of Medical Examiners (NBME) subject examinations at the end of the following clerkship periods: Obstetrics/ Gynaecology, Paediatrics, Psychiatry, and Surgery. For Internal Medicine, the NBME examination will take place after the Internal Medicine Selective rotation. For Core Surgery the NBME examination will take place following the major surgery rotation. The passing standard for National Board Exams will be the 11th percentile of the entire reference group. Students failing a NBME examination will re-sit this examination as outlined in the Supplemental Examination Policy found [online](#)

### 5.3.1.5 The Comprehensive Clinical Examination (CCE)

The goal of the Comprehensive Clinical Examination (CCE) is to objectively assess student clinical competence in generic skills of data collection, interpersonal relationships, along with the content of the case for diagnosis, investigation, and management of common clinical problems. This examination frequently uses standardized patients to test these clinical skills. The CCE committee is a sub-committee of the Clerkship Student Evaluation Committee and is chaired by the CCE coordinator. The CCE is marked to a standard predetermined by the CCE committee and the results of the examination are submitted to the Clerkship Student Evaluation Committee.

### 5.3.1.6 The Multiple Specialty Rotation in Clerkship (MSR)

#### Method of Assessment

The assessment of students during each component of the MSR clerkship rotation includes assessments of attendance, performance and could include College prepared examinations. Students will be expected to attend all clinical, small group, and laboratory sessions. Clinical performance will be judged, where applicable, as in the major clerkships. The Clerkship Director, or designate, must advise each student by the midway point of each component of the rotation if his or her performance is likely to lead to a failing assessment in that component. In such cases, the student must be given help to improve performance to the expected standard. The Clerkship Director, or designate, will use all assessments to make a final decision on the student's performance at the end of each component of that rotation. A failing student must be informed of the failure by the preceptor, Clerkship Director, or designate preferably before the end of the rotation but not later than seven working days after the rotation is complete. All results will be submitted to the undergraduate committee of the department, who, in the case of a failure will review all the assessments and preceptor(s) pass/fail assessments to determine the overall, pass/ fail standing for the student in that department.

### 5.3.1.7 The Elective Periods

**Method of Assessment** Electives are evaluated in a similar manner to other clerkship rotations and students are required to obtain a completed elective assessment form for every elective pursued. These evaluations will be reviewed by the Director, Electives, and unsatisfactory assessments will be submitted to the Clerkship Student Evaluation Committee.

### 5.3.1.8 Remediation during Clerkship

A student who has received a failing FITER on a non-elective clinical rotation, shall be required to meet with the Director, Remediation for a remediation assessment. Remediation during the clerkship is typically scheduled during electives or other time as determined suitable by the College. The Director, Remediation in consultation with the Clerkship Director, or designate will coordinate this remediation, which will include

further clinical experience. The policy and procedures governing remediation may be found [online](#)

### Clerkship Clinical Performance Remediation

The Clerkship Student Evaluation Committee will provide the student who has failed a clinical rotation an appropriate remedial period with the department in which the rotation was failed. The rotation will be an equivalent educational experience to the clerkship failed, and its goal will be to assist the student to reach the expected standard of clinical competence. A similar process of evaluation will be used. The remedial rotation will usually be taken during an elective period.

### Remediation for NBME Examination Failures

Students failing any two NBME examinations (in the same subject or different subjects) will be required to meet with the Director, Remediation for remediation assessment. The policy and procedures governing remediation may be found [online](#). Where a student has failed two successive NBME examinations in the same subject, the student will be required to complete a remedial period of training from the relevant. The Director, Remediation in conjunction with the Clerkship Director, or designate, will coordinate the remediation; further clinical experience may be needed to meet that purpose. Such a remedial period will be a maximum of four weeks and will usually be taken in an elective period, and followed by a third attempt at the National Board examination.

### Remediation for Failure in the CCE

The Clerkship Student Evaluation Committee will devise an appropriate remedial period which will take into account the areas of weakness demonstrated by the CCE and will usually be taken during elective time. This remediation will be assessed by a clinical assessment and may include an oral and/or written exam.

### Remediation for an MSR Clerkship Failure

The Clerkship Student Evaluation Committee will provide the student who has failed a clinical component of the MSR with a remedial period in the department in which the rotation was failed. This period is flexible but can be up to the same length as the failed rotation. Such a remedial rotation will be an equivalent educational experience to that failed and its goal will be for the student to reach the expected standard of clinical performance. A similar process of assessment will be used and may be supplemented by a clinical oral and/ or written examination if the department deems it necessary. The remedial will usually be taken in an elective period.

### Remediation for an Electives Failure

The Clerkship Student Evaluation Committee will devise a remedial period of up to four weeks which will take into account the areas of weakness revealed by the student's elective evaluation. This will be taken in the next available free time for the student. The remedial period will be evaluated by clinical assessment.

#### 5.3.1.9 Failure of a Student in the Clerkship Program

The Clerkship Program is a continuum held over Year 3 and Year 4. A failure of the Clerkship Program is considered to be a failure of one year, see Section 3 Academic Regulations, above.

### Failure of the Clerkship

The student will be determined to have failed the Clerkship Program if:

#### 1. Failure of Clinical Assessments

The student has received failing assessments in one or more of the following:

a) Two major clerkships in different disciplines (Internal Medicine, Internal Medicine Selective, Surgery, Surgery Selective, Paediatrics, Obstetrics/Gynaecology, Psychiatry, and Family Medicine)

OR

b) One major clerkship and:

i) its remedial, or

ii) an ITC remedial, or

iii) an MSR remedial, or

iv) an elective remedial

OR

c) Remedials in two of the following:

i) Anesthesia

ii) Emergency Medicine

iii) Otolaryngology

iv) Ophthalmology

v) Community Health Sciences

vi) Elective

vii) ITC

### 2. Failure of Examinations

The student has failures in one or more of the following:

a) A single NBME subject examination three times

OR

b) A total of five NBME examinations

OR

c) The CCE after remediation

### 3. Remediation Related Failures

If the remediation period recommended for a student, for whatever cause, requires more than eight weeks, then the student will be deemed to have failed the Clerkship Program.

Complete information related to promotion and failure in any year of the Undergraduate Medical Education program can be found in the Undergraduate Medical Education Promotion and Failure Policy and Procedures [online](#)

#### 5.3.1.10 Terms for the Repeat Clerkship

A student who fails the Clerkship Program, be it because of failure of clinical assessments, failure of examinations, or failure of remediation (as above), immediately ceases in the program, and will be required to repeat the Clerkship Program. The Repeat Clerkship will consist of the following, at a minimum: Six-week rotations in each of Core Internal Medicine, Core Surgery, Paediatrics, Family Medicine, Psychiatry, and Obstetrics/Gynaecology, plus 12 to 16 weeks of electives. A student in the

Repeat Clerkship will also be required to complete the ACLS course (0.5 weeks), the LMCC refresher course (4.5 weeks). The student will be granted 3 weeks for CaRMs interviews and two weeks for vacation. Furthermore, if the failure occurred prior to the completion of the Medicine Selective, Surgery Selective, Multiple Specialty Rotation (MSR), or Community Health Sciences Project, then these will be required components of the Repeat Clerkship as well. The student must satisfactorily meet all clinical assessments, examinations, the CCE, as well as remedial rotations (as appropriate), regardless of whether they had been passed previously. The terms of the Repeat Clerkship will be submitted to the Progress Committee for review and final approval.

### 5.3.1.11 Terms for Failure of the Repeat Clerkship

The terms for failure of the Repeat Clerkship are the same as listed above in 5.3.1.9 "Failure of a Student in the Clerkship Program." A student who has failed the Repeat Clerkship will be required to withdraw from the Max Rady College of Medicine program.

### 5.3.2 For Students beginning Clerkship on August 2013 or later:

During the clerkship years students will be assessed on their competence and this will include assessment of their cognitive knowledge and understanding, clinical skills, problem solving and judgement, technical skills, interpersonal attributes and general professional responsibility. Assessment will be the responsibility of the Clerkship Student Evaluation Committee (CSEC).

#### 5.3.2.1 Methods of Summative Evaluation (General)

The policy and procedures applicable for evaluation are:

- [Examination Conduct Policy](#)
- [Examination Results Policy](#)
- [Deferred Examinations Policy](#)
- [Examination Accommodation Procedures](#)

Various methods will be used to assess students, including the final evaluation reports (FITERs); written external NBME examinations and OSCE-type exams. Student performance for assessment purposes during examinations may be recorded in writing, orally, by computer, by audio or by videotaping. All material necessary to generate the mark such as papers, computer records and tapes will be destroyed once the student has passed that evaluation. Such material can be of help to a student needing remediation before the examination.

To achieve this quality assurance, the CSEC may use direct observation or indirect observation by audio and video monitoring. Quality assurance material is subject to the aforementioned regulations of the university and the College. Furthermore, this material, which could identify the individual student will not be released to anyone, other than the Dean and Clerkship Student Evaluation Committee, without the written consent of the student.

#### 5.3.2.2 The Transition to Clerkship (TTC)

The goal of Transition to Clerkship (TTC) is to prepare the student for clerkship rotations. Students will be assessed for attendance and performance in learning groups. The purpose of student assessment in TTC is to ensure that students are ready to begin the clerkship rotations.

Readiness for clerkship must be demonstrated in many areas including: basic medical knowledge and its application; clinical skills in evaluating patients; analysis of clinical data; problem identification and diagnosis;

planning of investigation; planning of management and therapy; relationships to patients and staff. These attributes will be evaluated in a variety of ways throughout TTC.

### Method of Assessment

Students failing to attend mandatory sessions will be reported to the Associate Dean UGME, who will inform the Clerkship Student Evaluation Committee. Each student will receive a warning from the Associate Dean's office. If this warning is ignored the student's attendance record and performance will be considered by the Clerkship Student Evaluation Committee and the student may be failed for the sessions missed. A suitable remedial period may be provided. If the student does not perform satisfactorily in the remedial period the TTC will be failed.

The student must be informed of a recommendation for failure within seven working days of the end of the session. The pass/fail decision will be given by the departmental representative to the Clerkship Student Evaluation Committee. In the case of a failing evaluation the reasons for failure must be documented and submitted to the Clerkship Student Evaluation Committee.

#### 5.3.2.3 TTC Remediation

##### Failure for inadequate attendance

The coordinator of the block of sessions missed may, with approval of the Director, Clerkship Curriculum, provide the student with a remedial course, of comparable educational experience in that subject; the student will have to attend and perform satisfactorily to pass the TTC.

#### 5.3.2.4 The Major Clinical Clerkships

##### 5.3.2.4.1 The Major Clinical Clerkships for students Beginning Clerkship in August 2013 are:

- Family Medicine
- Internal Medicine
- Internal Medicine Selective
- Surgery
- Surgical Specialties
- Musculoskeletal Rotation
- Obstetrics/Gynecology
- Pediatrics
- Psychiatry

##### 5.3.2.4.2 The Major Clinical Clerkships for students Beginning Clerkship in August 2014 or later are:

- Family Medicine
- Internal Medicine
- Surgery (Surgical Specialties is a part of this rotation.)
- Obstetrics/Gynecology
- Pediatrics

- Psychiatry
- Anaesthesia
- Emergency Medicine

### Method of Assessment

The assessment of the students during the clinical clerkship rotations may be assessed by review of clinical performance, written examinations, and projects.

### Clinical Performance

The objectives of the Clerkship Program are consistent with the Undergraduate Medical Education Objectives found [online](#)

The Midpoint In-Training Report (MITER) is a formative assessment in rotations of four weeks or longer. The student uses this report to complete a self-assessment which is then discussed with the student's preceptor. If a student's early performance is likely to lead to a failure, the Clerkship Director must advise the student of an impending failure by the midway point of the rotation. In such cases, the student must be given help to improve performance to the expected standard. The Clerkship Director, or designate, will collect preceptor assessments throughout the rotation. The Clerkship Director, or designate, will use all assessments to make a final decision on the student's performance at the end of the rotation in that department. A Final In-Training Evaluation Report (FITER) of each student's achievement of these objectives will be completed for each rotation.

All results will be submitted to the undergraduate committee of the department, who, for a failure, will review all the assessments and preceptors' pass/fail assessments and determine the overall pass/fail standing for the student during the rotation in question.

The pass/fail recommendation, with the FITER and any supporting evidence for that decision, will be submitted by the departmental representative to the CSEC. The pass/fail decision will be reviewed and affirmed if there is a majority vote of the members of CSEC present at the first meeting of the CSEC following the completed rotation. In the case of a tie, the chair of CSEC will have the deciding vote, otherwise he or she will not vote.

On occasions, Progress Committee may deem it necessary to forward feed student summative assessment information to subsequent Clerkship Directors, or designates. In such instances, the student will be informed and the process will follow that outlined in the Forward Feeding Policy and Procedures found [online](#)

### Clerkship Written Examinations

Students will take the National Board of Medical Examiners (NBME) subject examinations at the end of the following clerkship periods: obstetrics/gynaecology, paediatrics, family medicine and psychiatry. For internal medicine, the NBME examination will take place after the internal medicine/emergency medicine block. For surgery, the NBME examination will take place after the surgery/anaesthesia block. For students who have begun their clerkship prior to August 2020, the passing standard for National Board Exams will be the 11th percentile of the entire reference group. For students beginning their clerkship in August 2020 or later, the passing standard for the NBME examinations will be set by the CSEC on an annual basis, based on an Equated Percent Score as recommended by the NBME. Students failing a NBME examination will re-sit this examination as outlined in the [Supplemental Examination Policy](#)

#### 5.3.2.4.3 The Major Clinical Clerkships

As an alternative to the tradition block rotation described above, students will have the opportunity to apply for the Brandon Longitudinal Integrated Clerkship (LInC). This clerkship will cover the same clinical presentations and academic material of the traditional block rotation. Moreover, the program will be delivered in a longitudinal fashion with students getting exposure to the major clinical areas multiple times throughout the year. In the family medicine portion of the clerkship students will be exposed to the same preceptors over the course of the entire year for approximately one day a week including small communities around Brandon.

Evaluation and examinations will be the same as the traditional block rotation. The primary benefits of this form of clerkship are to allow students to develop relationships with preceptors, and to provide an exposure to medicine in a rural setting. Opportunities to get more one on one and hands on experience will be enhanced in this environment.

#### 5.3.2.5 The Comprehensive Clinical Examination (CCE)

The goal of the Comprehensive Clinical Examination (CCE) is to objectively assess student clinical competence in generic skills of data collection, interpersonal relationships, along with the content of the case for diagnosis, investigation, and management of common clinical problems. This examination frequently uses standardized patients to test these clinical skills. The CCE committee is a sub-committee of the CSEC and is chaired by the CCE coordinator. The CCE is marked to a standard predetermined by the CCE committee and the results of the examination are submitted to the CSEC.

#### 5.3.2.6 The Minor Clinical Clerkships

##### 5.3.2.6.1 The Minor Clinical Clerkships for Students beginning Clerkship in August 2013 are:

- Emergency Medicine
- Anesthesia
- Public Health
- Electives

##### 5.3.2.6.2 The Minor Clinical Clerkships for Students beginning Clerkship in August 2014 are:

- Internal Medicine Selective
- Musculoskeletal Rotation
- Public Health
- Electives

##### 5.3.2.6.3 The Minor Clinical Clerkships for Students beginning Clerkship in August 2015 or later are:

- Internal Medicine Selective
- Musculoskeletal Rotation
- Any of the assessments integral to the Population Health Course or Professionalism Course (if applicable)
- Public Health
- Evidence-Based Medicine Practice Course

- Electives
- Transition to Residency Selectives

### Method of Assessment

The assessment of the students during the clinical clerkship rotations may be assessed by review of clinical performance, written examinations, and projects..

### Clinical Performance

The objectives of the Clerkship Program are consistent with the Undergraduate Medical Education Objectives found [online](#)

The Midpoint In-Training Report (MITER) is a formative assessment in rotations of four weeks or longer. The student uses this report to complete a self-assessment which is then discussed with the student's preceptor. If a student's early performance is likely to lead to a failure, the Clerkship Director must advise the student of an impending failure by the midway point of the rotation. In such cases, the student must be given help to improve performance to the expected standard. The Clerkship Director, or designate, will collect preceptor assessments throughout the rotation. The Clerkship Director, or designate, will use all assessments to make a final decision on the student's performance at the end of the rotation in that department. A Final In-Training Evaluation Report (FITER) of each student's achievement of these objectives will be completed for each rotation.

All results will be submitted to the undergraduate committee of the department, who, for a failure, will review all the assessments and preceptors' pass/fail assessments and determine the overall pass/fail standing for the student during the rotation in question.

The pass/fail recommendation, with the FITER and any supporting evidence for that decision, will be submitted by the departmental representative to the CSEC. The pass/fail decision will be reviewed and affirmed if there is a majority vote of the members of CSEC present at the first meeting of the CSEC following the completed rotation. In the case of a tie, the chair of CSEC will have the deciding vote, otherwise he or she will not vote.

On occasions, Progress Committee may deem it necessary to forward feed student summative assessment information to subsequent Clerkship Directors, or designates. In such instances, the student will be informed and the process will follow that outlined in the Forward Feeding Policy and Procedures found [online](#)

#### 5.3.2.7 The Transition to Residency (TTR)

The goal of the Transition to Residency (TTR) is to prepare students for residency programs. Students will be assessed for performance on TTR selectives and in the Evidence-Based Medicine Practice Course. Attendance is mandatory for TTR.

### Method of Assessment

Students failing to attend mandatory sessions will be reported to the Associate Dean UGME, who will inform the CSEC. Each student will receive a warning from the Associate Dean's office. If this warning is ignored the student's attendance record and performance will be considered by the CSEC and the student may be failed for the sessions missed. A suitable remedial period may be provided if determined appropriate by the College. If the student does not perform satisfactorily in the remedial period the TTR will be failed.

The TTR selectives and Evidence-Based Medicine Practice Course will be assessed by FITER.

The student must be informed of a recommendation for failure within seven working days of the end of the session. The pass/fail decision will be given by the departmental representative to the CSEC. In the case of a failing evaluation the reasons for failure must be documented and submitted to the CSEC.

#### 5.3.2.8 Remediation during Clerkship

A student who has received a failing FITER on a clinical rotation, shall be required to meet with the Director, Remediation for a remediation assessment. Remediation during the clerkship is typically scheduled during electives or other time as determined suitable by the College. The Director, Remediation in consultation with the Clerkship Director, or designate will coordinate this remediation which will include further clinical experience. The policy and procedures governing remediation may be found [online](#)

### Clerkship Clinical Performance Remediation

The CSEC will provide the student who has failed a clinical rotation an appropriate remedial period with the department in which the rotation was failed. The rotation will be an equivalent educational experience to the clerkship failed, and its goal will be to assist the student to reach the expected standard of clinical competence. A similar process of assessment will be used. The remedial rotation will usually be taken during an elective period.

### Remediation for NBME Examination Failures

Students failing any two NBME examinations (in the same subject or different subjects) will be required to meet with the Director, Remediation for a remediation assessment. Where a student has failed two successive NBME examinations in the same subject, the student will be required to complete a remedial period of training from the relevant rotation. The Director, Remediation in conjunction with the Clerkship Director, or designate, will coordinate the remediation; further clinical experience may be needed to meet that purpose. Such a remedial period will be a maximum of four weeks and will usually be taken in an elective period, and followed by a third attempt at the National Board examination.

### Remediation for Failure in the CCE

The CSEC will devise an appropriate remedial period which will take into account the areas of weakness demonstrated by the CCE and will usually be taken during elective time. This remediation will be evaluated by a clinical assessment and may include an oral and/or written exam.

#### 5.3.2.9 Failure of a Student in the Clerkship Program

The Clerkship Program is a continuum held over Year 3 and Year 4. A failure of the Clerkship Program is considered to be a failure of one year, see Section 3 Academic Regulations, above.

### Failure of the Clerkship

The student will be determined to have failed the Clerkship Program if:

#### 1. Failure of Clinical Assessments

The student has received failing evaluations in one or more of the following:

- Two major clerkships in different disciplines

OR

- One major clerkship and:

- i) its remedial, or
- ii) a TTC remedial, or
- iii) a remedial of a minor clerkship

OR

c) Remedials in two of the following:

- i) A minor clerkship
- ii) TTC

## 2. Failure of Examinations

The student has failures in one or more of the following:

a) A single NBME subject examination three times

OR

b) A total of five NBME examinations

OR

c) The CCE after remediation

## 3. Remediation Related Failures

If the remediation period recommended for a student, for whatever cause, requires more than ten weeks, then the student will be deemed to have failed the Clerkship Program.

Complete information related to promotion and failure in any year of the Undergraduate Medical Education program can be found in the Undergraduate Medical Education [Promotion and Failure Policy and Procedures](#)

### 5.3.2.10 Terms for the Repeat Clerkship

A student who fails the Clerkship Program, be it because of failure of clinical assessments, failure of examinations, or failure of remediation (as above), immediately ceases in the program, and will be required to repeat the Clerkship Program. The Repeat Clerkship will consist of the following, at a minimum: Six-week rotations in each of Internal Medicine, Surgery, Paediatrics, Family Medicine, Psychiatry, and Obstetrics/Gynaecology, plus up to fourteen weeks of electives. The number of elective weeks may be reduced (from fourteen) by the number of weeks of electives already successfully completed. A student in the Repeat Clerkship will also be required to complete the ACLS course (if not already passed) (0.5 weeks), the LMCC refresher course (if not already passed) (4.5 weeks). The student will be granted 3 weeks for CaRMs interviews and two weeks for vacation. Furthermore, if the failure occurred prior to the completion of the Medicine Selective, Musculoskeletal Rotation, Emergency Medicine Rotation, Anesthesia Rotation, Population Health course, Professionalism Course, TTR selectives, Evidence-Based Medicine Practice Course, then these will be required components of the Repeat Clerkship as well. The student must satisfactorily meet all clinical assessments, examinations, the CCE, as well as remedial rotations (as appropriate), regardless of whether they had been passed previously. The terms of the Repeat Clerkship will be submitted to the Progress Committee for review and final approval.

### 5.3.2.11 Terms for Failure of the Repeat Clerkship

The terms for failure of the Repeat Clerkship are the same as listed above in 5.3.2.9 "Failure of a Student in the Clerkship Program." A student who has failed the Repeat Clerkship will be required to withdraw from the Max Rady College of Medicine program.

## 5.4 Regulations for Students Taking Leave from the Clerkship Program

Students may, for health or personal reasons, withdraw from clinical rotations or take temporary leave. For planned leave, prior permission must be obtained from the Associate Dean, UGME and/or Associate Dean, Student Affairs or designate. For leaves due to sudden or unexpected circumstances, the Associate Dean, UGME, the Director, Clerkship, and the Clerkship Director or designate of the rotation must be informed. Written documentation of the reason for leave will be required by the Associate Dean, UGME. The information is confidential to the Associate Dean, UGME and Associate Dean, Student Affairs or designate. Further information please refer to the [Leaves of Absence \(LOA\) Policy](#)

Students who require an extended leave from the Clerkship Program may have a delayed graduation.

If a student misses more than 25% of a rotation, the student will not receive credit for the rotation regardless of the reason. The student will be required to repeat the entire rotation.

Brief periods of leave may be taken upon notification and approval by the Director, Clerkship. For complete details on attendance during clerkship please refer to the [Student Attendance Policy](#)

Generally, the Clerkship program is completed in 79 weeks, excluding CaRMS interview time and holiday time. When, due to leaves of absence, a student will take more than 79 weeks, including elective periods, to complete the Clerkship Program the Clerkship Student Evaluation Committee will review the student's record (clinical assessments and examinations) during the Clerkship Program to ensure that the time lost has not compromised the overall achievement of the student.

## 5.5 Reappraisal and Appeal of Failed Rotations and Examinations

A student who has received a failing grade in any course or on any FITER may be permitted to request a reappraisal of the assessment in accordance with the Reappraisal of Student Assessment Policy found [online](#)

If the student is not accepting of the decision reached by a Reappraisal Committee as outlined in the above stated policy, the student can appeal the decision to the Undergraduate Student Appeals Committee found [online](#)

A student can appeal a decision of the Undergraduate Student Appeals Committee to the Max Rady College of Medicine Student Appeals Committee and a student appeal of the Max Rady College of Medicine Student Appeals Committee can be brought to the Senate Committee on Student Appeals.

The Max Rady College of Medicine will not accept requests for reappraisal of external examinations. The National Board of Medical Examiners (NBME) provides a *Score Recheck Service*, details of which are posted on the NBME website at the following [link](#). Students are responsible for the cost of a Score Recheck that may be requested on their behalf by the Max Rady College of Medicine.

## SECTION 6: Academic Research in Medical Education

### 6.1 Intro Medicine

Part of the educational responsibility of the Max Rady College of Medicine is to perform research on innovations and effectiveness in medical education. Whenever students are the research subjects, all such research must have approval from the Max Rady College of Medicine Research Ethics Board.

Where students are studied individually their participation will be voluntary. Research findings will not identify individuals.

## SECTION 7: Additional Degrees and Research Programs in Medicine

### 7.1 Bachelor of Science in Medicine (B.Sc. (Med.))

#### 7.1.1 General Information

The Bachelor of Science in Medicine program is offered over two summer terms; following the first and second year of the undergraduate program in Medicine. The B.Sc. (Med) program is designed to provide the undergraduate medical student with an opportunity to gain firsthand experience in medical research. A large variety of basic science, translational and clinical research projects are available for the student to choose from each year.

The program consists of three components with the option of clinical exposure:

- Research project
- Written report
- Dissertation

The program is open to undergraduate students in the Max Rady College of Medicine and, if approved by the B.Sc. (Med) Committee. The work for this degree may be carried out in any department of the Max Rady College of Medicine at the University of Manitoba. This full-time program may not be taken concurrently with the MED II Research program or any part of the medical curriculum nor combined with any other programs such as traveling scholarships. The BSc.(Med) Program is only open to students who are in good academic standing and the students must be enrolled in the Max Rady College of Medicine at the University of Manitoba.

To enroll in the B.Sc.(Med) program the student must find a supervisor in any field within the Max Rady College of Medicine. Every September the Program Coordinator posts a list of abstracts with the supervisor's contact information listed. The abstracts provide a snap shot of the research project and also briefly outline what the BSc(Med) student will be doing within the project. Students are welcome to select an abstract from the posted list and contact the supervisor individually or they can seek out a supervisor that is not listed on the posted abstract list. The main requirement for the supervisor is that they must hold a minimum appointment of Assistant Professor within the Max Rady College of Medicine. Together, the student and supervisor submit an application which includes an abstract and project proposal to the B.Sc.(Med) Committee. If the project proposal is accepted by the committee, students are accepted into the B.Sc. (Med) Program and can then be registered with the university for the B.Sc.(Med) summer sessions. All accepted projects require both a primary supervisor from the Max Rady College of Medicine and a Co-supervisor from any faculty or school at the University of Manitoba. Primary and Co-supervisors must hold a minimum appointment within their academic setting of Assistant Professor. All accepted projects must receive the applicable institutional ethics, biosafety or other approvals prior to commencement of the term. As well, any projects focusing on topics pertaining to indigenous peoples, must be submitted with approval from the appropriate regulatory bodies, such as First Nations and Inuit Branch, etc.

All students are required to present their research findings in both a written report and oral presentation at the conclusion of their second summer. Students are encouraged to produce an interim report due in the second year of their undergraduate training. Students will be evaluated by

their Supervisor after the first summer and by the B.Sc.(Med) committee following the completion of the requirements for the B.Sc.(Med) degree. Students will be required to withdraw from the program if they make unsatisfactory progress after the first summer of research.

The B.Sc.(Med) degree will be conferred at the same time as the M.D. degree unless the student, having satisfactorily completed the requirements for the B.Sc.(Med) degree, discontinues the study of Medicine at the University of Manitoba or other approved institution. In this case, the B.Sc. (Med) degree will not be conferred. Students may defer their final dissertation upon approval by the B.Sc.(Med) Director.

The program is on a Pass/Fail basis. Withdrawal from the program (without permission from the Director) outside of the normal voluntary withdrawal time frame will be considered a fail. Authorization for withdrawal while enrolled in the program is through written application to the Director. Withdrawal without permission will result in a Fail grade.

#### 7.1.2 Program Fees

The program fees will be additional to the Max Rady College of Medicine tuition fees. Program fees change annually.

#### 7.1.3 Program terms

The program runs for 2 summer terms. Each term is generally between 12 and 13 weeks (subject to Max Rady College of Medicine schedule). Students are entitled to a 2 week paid vacation during each term (to be scheduled with project supervisor).

#### 7.1.4 Stipendiary Support

Students receive stipendiary support for each term. Presently support is in the amount of \$7500.00 per term.

#### 7.1.4 Optional Clinical Exposure

If chosen, students are entitled to a minimum of 48 hours of in-clinic exposure over the two summers of the BSc (Med) Program.

### 7.2 MD/PhD Program

#### 7.2.1 Purpose

The MD/PhD Program in the Max Rady College of Medicine is designed to produce academic clinician scientists who are interested in a career that combines both research and clinical medicine, providing them advanced clinical, academic and research skills.

#### 7.2.2 Duration

The minimum program of study is the total required by the Max Rady College of Medicine for the MD program (4 years) plus the minimum requirements of the Faculty of Graduate Studies (normally two years beyond the level of the Master's degree, or three years beyond the level of a Bachelor's degree; see FGS Academic Guide, 5.5.1). Typically, students undertake a 3-6 year research training interval to successfully complete doctoral training. Most students complete training in 4-5 years. Students who obtained advanced/graduate training prior to admission may be granted advanced standing. Students will be considered to be full-time graduate students throughout the entire period. They then return to third year Medicine to begin Clerkship full time.

#### 7.2.3 Eligibility

Medical Students are eligible to apply upon initial admission to Medicine and at any time during the first two years of the MD program. Eligibility criteria should be reviewed on the Advanced Degree website:

[http://umanitoba.ca/faculties/medicine/research/grad\\_undergrad/6696.html](http://umanitoba.ca/faculties/medicine/research/grad_undergrad/6696.html)

#### 7.2.4 Application Process

Potential applicants should carefully review full details on the application process posted on the program website. Students wishing to apply should contact the Director of the Program early in the process. Acceptance will minimally require: 1) identification of a supervisor (within a department at the University of Manitoba which has an approved PhD program) who has adequate resources for the research expenses necessary for proposed program of study and whose department recommends acceptance, 2) submission of application dossier to the Program Admissions and Advisory Committee (PAAC) and their recommendation for acceptance and 3) acceptance by the Faculty of Graduate Studies.

#### 7.2.5 Program Fees

The total tuition fees payable are the sum of the fees required for the MD and PhD programs of study. Continuing fees (Faculty of Graduate Studies) are also applicable. MD/PhD trainees that remain in good standing receive renewable stipend funding of \$25,000 per annum for up to 6 years, or until successful defense and submission of their approved final PhD thesis. The stipend is terminated once the student has successfully defended their thesis and submitted the final corrected version to the Faculty of Graduate Studies. The 6 years of support is NOT lengthened by any years of support the student receives external to the program.

#### 7.2.6 Administration

After initial assessment of the complete application dossier by the Advanced Degrees in Medicine Program Director, the program advisory and admission committee (PAAC), chaired by the Program Director, reviews all eligible applications and makes a recommendation to the Faculty of Graduate Studies. The Program will: 1) review whether adequate resources are available for delivery of the program, 2) be a liaison with the trainee's host research department, the Max Rady College of Medicine, and Faculty of Graduate Studies, and 3) review the Advisory Committee composition/function and monitor student progress.

#### 7.2.7 Coursework

The minimum course requirements of the Faculty of Graduate Studies, as defined by individuals host research department supplementary regulations, are applicable in addition to the normal curriculum of undergraduate medical studies.

#### 7.2.8 Research/Thesis Requirements

The quality and quantity of research supporting the thesis shall be consistent with that required for all other doctoral candidates in the field.

#### 7.2.9 Additional Program Elements: Seminar Series and Research Progress Evaluations

Expectations for both the student and advisor are outlined in the Advisor Student Guidelines- Thesis/Practicum Programs, which must be reviewed and signed prior to any research. Students are required to regularly attend the designated research seminar series or journal clubs organized by the host research department. Students are also encouraged to seek out professional development opportunities offered by the host research department or University encompassing topics including effective writing, teaching training, and academic integrity. Students will be assessed a minimum of once per academic year, as per FGS guidelines. Students are required to prepare semi-annual updates for distribution to their advisory committee and the program director. Starting in the second year of the PhD training, trainees are eligible to receive up to \$1000 funding per year

towards attending and presenting their research at national or international conferences.

#### 7.2.10 Conferment of the Dual Degrees of MD/PhD

Normally the graduate degree is conferred on the next available date after successful defense of the thesis and submission of the final approved thesis. For simultaneous conferral of both the MD and graduate degree, an application for notification of delayed convocation must be made to and approved by the Faculty of Graduate Studies.

### 7.3 MD/MSc Program

#### 7.3.1 Purpose

The combined-degree MD/MSc Program in the Max Rady College of Medicine is designed to begin development of academic clinician scientists by providing them advanced clinical, academic and research skills.

#### 7.3.2 Duration

The minimum program of study is the total required by the Max Rady College of Medicine for the MD program (4 years) plus the minimum requirements of the Faculty of Graduate Studies (the minimum time is equivalent to two academic terms; see FGS Academic Guide, 4.4.7). Completion of most programs requires more than this and students should review the host research department's supplemental regulations regarding specific requirements. Students who obtained advanced/graduate training prior to admission may be granted advanced standing. Students will be considered to be full-time graduate students (see (Faculty of Graduate Studies guidelines pertaining to Full-Time Status) throughout the entire period. Typically, following completion of Med II, students undertake at least a 2 year interval away from MD training to undertake and complete MSc training. They may also transfer to the MD/PhD Program. They then return to third year Medicine to begin Clerkship.

#### 7.3.3 Eligibility

Medical Students are eligible to apply upon initial admission to Medicine and at any time during the first two years of the MD program. Eligibility criteria should be reviewed on the Advanced Degree website:

[http://umanitoba.ca/faculties/medicine/research/grad\\_undergrad/6696.html](http://umanitoba.ca/faculties/medicine/research/grad_undergrad/6696.html)

#### 7.3.4 Application Process

Potential applicants should carefully review full details on the application process posted on the program website. Students wishing to apply should contact the Director of the Program early in the process. Acceptance will minimally require: 1) identification of a supervisor (within a department at the University of Manitoba which has an approved MSc program) who has adequate resources for the research expenses necessary for proposed program of study and whose department recommends acceptance, 2) submission of application dossier to the Program Admissions and Advisory Committee (PAAC) and their recommendation for acceptance, and 3) acceptance by the Faculty of Graduate Studies. The MD MSc program provides the Student Stipend and limited Conference travel expenses for approved applicants.

#### 7.3.5 Program Fees

The total tuition fees payable are the sum of the fees required for the MD and MSc programs of study. Continuing fees (Faculty of Graduate Studies) are also applicable. MD/MSc trainees that remain in good standing receive renewable stipend funding of \$21,000 per annum for time spent actively engaged in full-time research (approximately 2-2.5 years). Trainees are also eligible to obtain up to \$1000 research allowance per year (for up to 2

years) to support: laboratory consumables, applicable software, journal fees, or conference related travel expenses and presentation expenses.

### 7.3.6 Administration

After initial assessment of the complete application dossier by the Advanced Degrees in Medicine Program Director, the program advisory and admission committee (PAAC), chaired by the Program Director, reviews all eligible applications and makes a recommendation to the Faculty of Graduate Studies. The Assistant Dean, Graduate Studies (Medicine) and the Associate Dean, Faculty of Graduate Studies, are advisory to the Program Director, Advanced Degrees in Medicine. The Program will: 1) review whether adequate resources are available for delivery of the program, 2) be a liaison with the trainee's host research department, the Max Rady College of Medicine, and Faculty of Graduate Studies, and 3) review the Advisory Committee composition/function and monitor student progress.

### 7.3.7 Coursework

The minimum course requirements of the Faculty of Graduate Studies, as defined by individuals host research department supplementary regulations, are applicable.

### 7.3.8 Research/Thesis Requirements

The student is required to dedicate their full time to the graduate program to make timely and effective progress towards meeting degree requirements (research and academic) for successful completion. The quality and quantity of research supporting the thesis shall be consistent with that required for all other MSc candidates in the field.

### 7.3.9 Additional Program Elements: Seminar Series and Research Progress Evaluations

Expectations for both the student and advisor are outlined in the Advisor Student Guidelines- Thesis/Practicum Programs, which must be reviewed and signed prior to any research. Students are required to regularly attend the designated research seminar series or journal clubs organized by the host research department. Students are also encouraged to seek out professional development opportunities offered by the host research department or University encompassing topics including effective writing, teaching training, and academic integrity. Students will be assessed a minimum of once per academic year, as per FGS guidelines. Students are required to prepare semi-annual updates for distribution to their advisory committee and the program director.

### 7.3.10 Conferment of the Dual Degrees of MD/MSc

Normally the graduate degree is conferred on the next available date after successful defense of the thesis and submission of the final approved MSc thesis. For simultaneous conferral of both the MD and graduate degree, an application for notification of delayed convocation must be made to and approved by the Faculty of Graduate Studies.

## SECTION 8: Registration Information

### 8.1 Initial Registration Access Times

Students in the Max Rady College of Medicine Undergraduate Medical Education Program will be given access time to the registration system (Aurora Student) in July. For instructions on how to register online, please refer to the chapter, "Registration Information: Aurora Student". Registration must be complete prior to the first day of classes.

Each student is registering in the same course for both the **Fall AND Winter** sessions. Med III students will be able to register in their **Summer** session in mid-March. Students are asked to contact the Administrator, Enrolment via

email: [anna.urbanik@umanitoba.ca](mailto:anna.urbanik@umanitoba.ca) or via telephone: (204) 789-3627 if registering difficulties are encountered.

### Courses for the Undergraduate Medical Education program are:

Program & Year	College / School Codes	Terms	Dept. Number & Course Number	Lecture Section	Lab Section
Medicine I	05	Fall 2020 and Winter 2021	UGME 1000	L01	Not Applicable
Medicine II	05	Fall 2020 and Winter 2021	UGME 2000	L01	Not Applicable
Medicine III	05	Fall 2020, Winter 2021 and Summer 2021	UGME 3000	L01	Not Applicable
Medicine IV	05	Fall 2020 and Winter 2021	UGME 4000 UGME 4990	L01	Not Applicable

### 8.2 Web Registration Exceptions

Students who have a failing grade/s registered against them and/or have other outstanding academic matters (i.e. deferred or supplemental examinations, modified program, etc.) in regards to the previous academic session will not be allowed to register using the web registration system. Students who fall into this category should contact the Administrator, Enrolment at (204) 789-3627 for further information.

### Bachelor Science in Medicine and Summer Early Exposure Programs

Students approved to participate in summer enrichment programs will be registered by the College.

### 8.3 Prior to Registration

New Students: All incoming students must complete an application to the College of Physicians and Surgeons of Manitoba, complete a Heart and Stroke certified course in BLS for Healthcare Providers (HCP-C) and submit the following documentation prior to the first day of class: Immunization records, Adult Criminal Records Check (with Vulnerable Sector search), Child Abuse Registry Self-Check, Adult Abuse Registry Check, Essential Skills and Abilities (Technical Standards) for Admission, Promotion and Graduation in the MD Program, and Accommodation for Undergraduate Medical Students with Disabilities. If you are unable to submit these documents by the first day of class please contact the Administrator, Enrolment via email: [anna.urbanik@umanitoba.ca](mailto:anna.urbanik@umanitoba.ca) or via telephone: (204) 789-3627.

Returning Students: All returning students must re-certify their CPR in a Heart and Stroke certified course in BLS for Healthcare Providers (HCP-C) and submit a copy of their card to the Max Rady College of Medicine office prior to the first day of class. Returning students must be registered with the College of Physicians and Surgeons of Manitoba by June 30 of each year and must provide current documentation on Adult Criminal Record Check (with vulnerable sector search), Adult Abuse Registry Check and Child Abuse Registry Self-Check prior to the first day of class.

## SECTION 9: Course Descriptions

### SECTION 9: Biochemistry & Medical Genetics Course Descriptions-3000 Level

#### BGEN 3022 Introduction to Human Genetics A 3 Cr. Hrs.

Introduction to basic principles of human genetics with emphasis on pedigrees analysis, population genetics and cytogenetics. May not be held with the former BGEN 3020.

#### BGEN 3024 Introduction to Human Genetics B 3 Cr. Hrs.

Principles of human genetics with emphasis on clinical applications, including human development, disease treatments, prenatal diagnosis and ethics. May not be held with the former BGEN 3020. Prerequisite: BGEN 3022.

### SECTION 9: Biochemistry & Medical Genetics Course Descriptions-4000 Level

#### BGEN 4010 Project Course in Human Genetics 6 Cr. Hrs.

A research project chosen in consultation with and supervised by a faculty member. A written report is required. The course is available primarily to final year Honours students in the Honours Genetics program. Selection of project and supervision to be arranged prior to September 30 and submitted in writing to department head. Deadline for submission of first draft to supervisor by March 1. Deadline for submission of final draft to supervisor and course coordinator is March 31.

### SECTION 9: Human Anatomy & Cell Science Course Descriptions-1000 Level

#### ANAT 1030 Human Anatomy 3 Cr. Hrs.

To present the essentials of the organization and structure of the human body. Surface, functional and applied anatomy will be taken into consideration. For Pharmacy students only.

### SECTION 9: Pharmacology Course Descriptions-4000 Level

#### PHAC 4030 Drugs in Human Disease I 3 Cr. Hrs.

Foundation physiological principles underlying human disease integrated with drug disposition and effects of important drug groups on disorders of the autonomic and central nervous systems, and the cardiovascular system. May not be held with PHAC 4020. Prerequisites: BIOL 2410 and BIOL 2420.

#### PHAC 4040 Drugs in Human Disease II 3 Cr. Hrs.

Foundation physiological principles underlying human disease integrated with effects of important drug groups on endocrine and organ system disorders, allergy and inflammation, infection, and cancer. The course also offers an introduction to basic clinical pharmacology as well as several current specialized topics in pharmacology. May not be held with PHAC 4020. Prerequisites: BIOL 2410 and BIOL 2420.

### SECTION 9: Physiology Course Descriptions-1000 Level

#### PHGY 1030 Fundamentals of Medical Physiology 6 Cr. Hrs.

The function and regulation of the systems and major organs of the human body as they relate to clinical disorders.

### SECTION 10: Postgraduate Medical Education

Dean: Brian Postl

Associate Dean(s): (Postgraduate Medical Education): Cliff Yaffe

Campus Address/General Office: 260 Brodie Centre, 260-727 McDermot

Avenue, Winnipeg MB R3E 3P5

Telephone: (204) 789-3290

Fax: (204) 789-3929

Email Address: [PGME@umanitoba.ca](mailto:PGME@umanitoba.ca)

Website:

[http://umanitoba.ca/faculties/health\\_sciences/medicine/education/pgme/index.html](http://umanitoba.ca/faculties/health_sciences/medicine/education/pgme/index.html)

Postgraduate Medical Education (PGME) at the University of Manitoba is comprised of a variety of training programs for graduated medical students interested in obtaining a higher level of education in Family Medicine or medical specialty. Programs are usually organized to be in one of three categories:

- Programs accredited by the Royal College of Physicians and Surgeons of Canada (RCPSC).
- Programs accredited by the College of Family Physicians of Canada (CFPC).
- Other training and fellowship programs approved by the Max Rady College of Medicine.

#### Programs Accredited by RCPSC and CFPC

Programs in the first two categories are most likely to be recognized towards obtaining a license to practice medicine. The RCPSC and CFPC provide accreditation for the training program content and evaluative processes. After the successful completion of their training, candidates are eligible to challenge the appropriate national specialty exams for their particular programs. The complete listing of these programs follows in this section under the heading Description of Programs. The specific and detailed national requirements for individual programs may be obtained from the Postgraduate Medical Education Office.

The PGME Programs at University of Manitoba are accredited on a scheduled basis by the RCPSC and the CFPC. This allows PGME to oversee the training programs and support them in a variety of ways.

Several hospitals and healthcare facilities are used as training sites. The main teaching sites include: Health Sciences Centre, St. Boniface Hospital, Grace General Hospital, Misericordia Hospital (Ophthalmology) and a number of hospitals outside of Winnipeg for distributed education.

#### General Regulations

Once accepted into a RCPSC specialty or Family Medicine training program the learner (now referred to as a "resident") is registered with University of Manitoba by the Postgraduate Medical Education Office. Registration fees are paid by Shared Health. Each resident is registered every subsequent year of his or her training program by the PGME office. The resident must also register with the College of Physicians and Surgeons of Manitoba (CPSM) so that their name is entered the CPSM Educational Register.

The resident must obtain malpractice insurance, from the Canadian Medical Protective Association or its equivalent. Residents enrolled in postgraduate residency programs are expected to conform to such new requirements as may be adopted from year to year. Residents must apply directly to either the Royal College of Physicians and Surgeons of Canada or the College of Family Physicians of Canada for assessment of training and for permission to sit the college examinations. Being a resident in a program does not automatically enroll the resident for such examination or certification.

### Eligibility

Graduates of Canadian medical schools are eligible for consideration of PGME training, and are required to challenge the Medical Council of Canada Qualifying Examination, Part I prior to commencing their residencies.

Generally, Canadian citizens or permanent residents once accepted into the PGME program, are eligible for provincial funding for residency training under the contract established with the Professional Association of Residents and Interns of Manitoba (PARIM).

International Medical graduates (IMGs) are eligible to apply for admission after they have challenged the Medical Council of Canada Evaluating Examination. IMGs must be Canadian or permanent residents to be eligible to apply for postgraduate medical training. IMGs may apply for possible residency positions through the CaRMS match (see below).

Internationally (Visa) Sponsored-trainees represent a special training category for entrance to postgraduate medical training. The Internationally (Visa) Sponsored trainee applicant must pass the Medical Council of Canada Evaluating Examination and be sponsored by an agency which has entered into a contract with the University of Manitoba for such training. All residents must receive remuneration from an institution recognized by the Government of Manitoba while registered in a training program in PGME.

### Criteria for Selection

Selection for admission to the various training programs will be made primarily on the basis of scholastic, personal and professional attributes as determined by academic records, personal interviews, letters of reference and in-training evaluation reports. Each particular training program determines the selection process; all programs follow the Best Practices in Application & Selection (BPAS) Report and recommendations endorsed by the Associations of Faculties of Medicine of Canada (AFMC) to ensure appropriate procedures are in place for objective decision-making, transparency, due process and societal responsibility. Admission to the postgraduate training year one (PGY1) for most programs is conducted through the CaRMS PGY1 match outlined below.

The College of Medicine commits to using reasonable accommodations and progressive efforts to ensure that residents with documented disabilities are considered for selection to Residency Programs for which they are academically qualified, ensuring full and safe access to the educational and learning environment and to the University facilities and services.

### Other Training and Fellowship Programs

The following post-PhD programs are offered by PGME at the University of Manitoba: Clinical Psychology, Clinical Microbiology, Clinical Biochemistry, and Molecular Genetics/Cytogenetics.

An Area of Focused Competence (Diploma) or AFC (Diploma) Program is a highly-specialized area of expertise within a medical specialty or subspecialty that addresses a specific societal need but does not meet the Royal College of Physicians and Surgeons of Canada (RCPC) criteria of an

independent specialty or subspecialty discipline. The length of training is typically 1-2 years. Training is competency-based.

Fellowships are programs of specialized training beyond medical residency offered by different clinical departments. The fellowships are usually one-year in duration.

### University Registration

All postgraduate trainees and fellows (not registered with the Faculty of Graduate Studies for M.Sc. or Ph.D. degrees) must be registered as postgraduate trainees in the Max Rady College of Medicine. The normal registration period is June 15 to July 1 each year, and is done by the College PGME Office.

### Program Administration

The departments which provide PGME training programs in the Max Rady College of Medicine are: Anesthesia, Community Health Sciences, Family Medicine, Biochemistry and Human Genetics, Emergency Medicine, Internal Medicine, Medical Microbiology, Obstetrics, Gynecology and Reproductive Sciences, Otolaryngology, Pathology, Pediatrics and Child Health, Psychiatry, Radiology and Surgery. Some departments offer more than one program, and may also offer training in sub-specialty areas.

Each program has a Program Director and a Resident Program Committee to administer the training program. There are also Program Administrators at each training site. The Program Director of each program reports both to the Department Head and the Associate Dean of PGME.

Beyond the program level, administrative matters pertaining to postgraduate residency training programs are the responsibility of the Associate Dean for PGME and the College PGME Executive Committee and its subcommittees. These committees are responsible for reviewing programs, allocation of residency positions, hearing resident appeals, and other duties as outlined in the terms of reference for each committee. The committees make recommendations to both the Associate Dean of the Max Rady College of Medicine and the College Postgraduate Executive Committee.

### Description of Residency Programs

Residency Programs will generally follow one of two pathways leading to licensure eligibility as described below.

#### College of Family Physicians of Canada Accredited Programs

The training program for family physicians offers a two-year basic program in outpatient, in-hospital and community settings. This program is composed of several streams (urban, rural, Northern Remote, bilingual and Integrated Care of the Elderly) and the program leads to eligibility for certification with the

College of Family Physicians of Canada (CFPC). A small number of positions are also available from time to time for enhanced training within the Family Medicine Training Program for a third year of training in Emergency Medicine, Anesthesia and Palliative Care, Care of the Elderly, Sports and Exercise Medicine, Cancer Care and Women's Health. Some of these enhanced positions may be associated with a return of service requirement.

#### Royal College of Physicians and Surgeons of Canada Accredited Programs

The Faculty of Medicine offers a wide range of specialty and sub-specialty programs leading to eligibility for certification with the Royal College of Physicians and Surgeons of Canada. Programs vary in length from 2-7 years of medical training.

<b>Primary Specialties:</b>	
Anatomical Pathology	Anesthesia
Cardiac Surgery	Diagnostic Radiology
Emergency Medicine	General Surgery
Internal Medicine	Medical Genetics
Medical Microbiology	Neurology (Adult)
Nuclear Medicine	Neurosurgery
Obstetrics and Gynecology	Ophthalmology
Orthopedic Surgery	Otolaryngology
Pediatrics	Physical Medicine and Rehabilitation
Plastic Surgery	Psychiatry
Public Health and Preventative Medicine	Radiation Oncology
Urology	Vascular Surgery

<b>Subspecialty Programs*</b> (available only with completion in a primary specialty):	
Cardiology (Adult)	Clinical Immunology and Allergy (Child & Adult)
Critical Care Medicine (Adult)	Developmental Pediatrics
Endocrinology and Metabolism	Emergency Medicine (Child)
Gastroenterology	Geriatric Medicine
Gynecologic Oncology	Hematology (Child & Adult)
Infectious Diseases (Child & Adult)	Maternal and Fetal Medicine
Medical Oncology	Neonatal-Perinatal Medicine
Nephrology (Child & Adult)	Palliative Medicine
Respiratory Medicine (Child & Adult)	Rheumatology (Adult)
Thoracic Surgery	Vascular Surgery

**NOTE:** These programs require different primary specialty credits, and may not be offered every year at the University of Manitoba.

For learners interested in a career combining health-related research and clinical activities, the University of Manitoba offers a two year Clinician Investigator Program (CIP) sponsored by the RCPSC.

### Application Procedures:

All applicants for the PGY1 year of programs accredited by the RCPSC and CFPC must apply through the Canadian Residency Matching Service (CaRMS). All graduates of Canadian medical schools and International medical schools who are Canadian citizens or permanent residents and who have had no prior postgraduate medical training in Canada or the United States are eligible for the CaRMS match.

Applications for positions beyond the entry PGY1 year should be made at the PGME Office, 260 Brodie Centre or to the Program Director for the specific program. Availability of positions will vary from year to year and are not guaranteed for any program. No resident can be accepted unless a funded position is available.

### The Canadian Resident Matching Service (CaRMS)

This matching service is an autonomous, national organization of the Association of Canadian Medical Colleges. It provides an orderly method for students to select where to pursue Postgraduate Medical Education and for Program Directors to rank the applicants they wish to enroll. A second matching process (the second iteration) by CaRMS is subsequently available (after the 1st CaRMS match) to medical students not matched in the first iteration, and other medical graduates who have already received some prior postgraduate training. All information about registration and matching processes is available on the CaRMS website: [www.CaRMS.ca](http://www.CaRMS.ca). There are listings of all programs on their website.

### Assessment of Residents in Postgraduate Medical Education Programs

Assessment at all levels is based primarily on clinical performance in the patient care setting. The Program Director and the Residency Program Committee in each program are responsible for the implementation of the assessment process in their own program. At the end of each clinical rotation or at other appropriate stages of the program, each trainee is assessed by a variety of formative and summative assessment tools appropriate to that program and training level. The assessor(s) discusses the assessment with the trainee; the assessment information is documented in the resident's electronic portfolio and made available to the Program Director and Academic Advisor (if applicable). This ongoing assessment process may be supplemented by written examinations, oral examinations, supervised history and physical examination and by direct observation of clinical and technical skills.

When a resident receives an unsatisfactory assessment or examination result, the Program Director will review the assessment with the resident. Unsatisfactory assessments will also be discussed in a confidential manner at the Residency Program Committee meeting. The committee will make recommendations regarding remedial training. If a subsequent remedial period is also assessed as being unsatisfactory, the Program Director will contact the Associate Dean PGME and the Probation Protocol and Procedure will be instituted. A failed probation period may result in a resident being dismissed from their training program.

The Faculty College Executive Council reserves the right to require any student to withdraw from the program of enrollment when it believes the student to be unsuited, on general considerations of scholarship, professional fitness or professional conduct for post-graduate medical education. However, the Max Rady College of Medicine does not have a professional unsuitability by-law. The right to require a student to withdraw on the basis of professional unsuitability may arise through the professional unsuitability by-law of the College of Physicians and Surgeons of Canada. This right prevails notwithstanding any other provision in the faculty regulations.

### Appeals

The appeals process is available on a number of different levels. A postgraduate trainee who wishes to appeal the results of any aspect of the assessment process must follow the written guidelines established by the PGME Committee and the Max Rady College of Medicine. These guidelines may be obtained from the PGME Office.

### Further information on individual Residency Programs and affiliated governing bodies may be found at the following links:

#### 3.4 Direct Entry

#### 3.5 Repeating Courses

#### 3.6 Challenge for Credit

#### 3.7 Transfer of Credit

#### 3.8 Appeals of Academic Regulations

#### 3.9 Dean's Honour List

#### 3.10 Degree with Distinction

#### 3.11 Work Permit for Study Purposes

#### 3.12 Release and Indemnification Forms

#### 3.13 Written English and Mathematics Requirements

### SECTION 4: Program and Graduation Requirements

#### 4.1 Advisement

#### 4.2 Program Requirements

#### 4.3 Program Electives

#### 4.4 Family Social Sciences Program

#### 4.4.1 Students admitted in September 2015 or later

#### 4.4.2 Aging and Developmental Health Option

#### 4.4.3 Child and Youth Developmental Health Option

#### 4.4.4 Family Economic Health Option

#### 4.4.5 Family Violence Option

#### 4.4.6 Social Development Option

#### 4.5 The After Degree Program in Family Social Sciences

#### 4.6 The Family Social Sciences Minor

#### 4.7 Interfaculty Option in Aging

#### 4.8 The Minor in Management

#### 4.9 The Voluntary Minor

### SECTION 5: Course Descriptions

#### SECTION 1: Degree Programs Offered

##### 1.1 Programs

Program/Degree	Years to Complete	*Total Credit Hours
Bachelor of Human Ecology (Family Social Sciences)	4*	120
Bachelor Human Ecology (The After Degree Program in Family Social Science)	2**	60

\*This includes one year (30 credit hours) of study in University 1.

\*\*Approximate as prerequisites must be met in order to progress.

##### 1.2 Available Minors, Options, Concentrations and Streams

Program	Minor Availability	Options	Streams
Family Social Sciences		Yes: Family Social Sciences	Aging and Developmental Health Child and Youth Developmental Health Family Economic Health Family Violence Social Development
			Interfaculty Option in Aging

##### 1.3 Professional Designations

Home economists in Manitoba, and other provinces, are regulated by legislation. Graduates may apply to the Manitoba Association of Home Economists (MAHE) for interim professional home economist (IPHE) status, and subsequently qualify as a professional home economist (PHEC).

## SECTION 2: Admission Requirements for Family Social Sciences

### Admissions into the Family Social Sciences program has been suspended.

Students interested in Family Social Sciences are advised to review the [Bachelor of Health Studies](#) (Family Health concentration), which is part of the Interdisciplinary Health Program. All FMYL courses listed under Family Social Sciences continue to be offered through the Bachelor of Health Studies, in the Family Health concentration, and will continue to do so regardless of the suspension of FSS. All courses listed in this *Calendar* are not offered every year. Students are referred to the *Class Schedule* for current information.

## SECTION 3: Department Academic Regulations

The provisions of the chapter, [General Academic Regulations and Requirements](#), and the chapter, [University Policies](#), apply to all students. In addition, the Bachelor of Human Ecology - Family Social Sciences Degree Program has regulations and requirements, published below, that apply specifically to its students.

### 3.1 Prerequisite, Corequisite, and Course Availability: Definitions

**Prerequisite:** If a course is prerequisite to a second course, the prerequisite must be met in order to continue in the second course. The department giving the second course may require a minimum grade of 'C' in the first course to register in the second course. Some inactive (legacy) courses may be used as prerequisites.

**Corequisite:** If a first course is a corequisite to a second course, the first course (unless previously completed) must be taken in the same term as the second course.

**Course Availability:** Not all courses listed in this Calendar are offered every year. Students are referred to the on-line calendar for courses offered in the year. Family Social Sciences courses at the 3000 and 4000 level are available only to students registered in the Bachelor of Human Ecology - Family Social Sciences Degree Program or one of the minors or options associated with the Degree Program. Courses at the 3000 and 4000 level may be taken with written permission from an Academic Advisor as long as there is space.

### 3.2 Scholastic Standards

#### Graduation and Grade Point Average

To graduate, a student must have passed 120 credit hours acceptable for credit in the current degree program and have obtained a minimum of 240 quality points. This is equivalent to a Degree Grade Point Average of 2.0. A pass indicates a grade of 'D' or better. A student's Degree Grade Point Average (DGPA) will be determined from the number of effective courses which apply at a particular stage. The effective courses consist of all courses passed, in addition to all failures which have not been cleared, or substituted for, in the student's record. A maximum of 150 credit hours (25 courses or the equivalent) may be attempted in order to obtain the 120 credit hours.

#### Assessment

The status of each student will be assessed in May of each year in which a student is registered. All Direct Entry students will be assessed formally upon completion of at least 24 credit hours in May of each year using the

Bachelor of Human Ecology - Family Social Sciences Degree Program assessment standards. Assessments can include the following comments:

- Faculty minimum met (grade point average meets the standards listed below);
- Dean's Honour (see 3.9)
- Academic Warning
- Probationary status (see below)
- Suspension (see below)
- Suspension - all attempts used (see below)

Academic warning indicates a grade point average between the minimum required at the effective credit hours (year) and the DGPA requirement of 2.0.

There is a maximum of 30 credit hours of attempts allowed for each academic program; once those attempts are used (repeated courses, grades of F or D), it is impossible to graduate.

#### Probationary Standing

Students must achieve or exceed the following standards at the specified stages in their academic careers. Failure to obtain the standard results in probation. Once placed on probation, students who fail to meet the appropriate performance level at the next assessment following the next registration will be academically suspended. A student is not permitted to be on probation for two consecutive years.

Assessment Standards		
Bachelor of Human Ecology Family Social Sciences Degree Program		
Effective Credit Hours	Minimum Grade Point Average	
9 – 21 credit hours	< 2.0	Academic Warning
24 – 30 credit hours	1.80	
33 – 60 credit hours	1.85	
63 – 90 credit hours	1.90	
93 – 117 credit hours	1.95	
120+ credit hours	2.0	

#### Suspension

Suspended students must remain out of the Bachelor of Human Ecology - Family Social Sciences Degree Program for one academic year from the date of suspension and must apply for reinstatement at the Admissions Office no later than May 1.

Where mathematically possible for a suspended student to complete the degree by repeating failed courses, a suspended student shall be automatically reinstated after remaining out of the Degree Program for one calendar year, or by achieving a degree GPA above the probationary standard.

#### Suspension (All Attempts Used)

Where it is mathematically impossible for a student to complete the degree by repeating failed courses, a suspended student, after remaining out of the faculty for one calendar year, may attempt reinstatement. By completing at least 12 credit hours in one term with a minimum 'D' grade in all courses and a term grade point average of at least 2.0, the student will be reinstated. The student will start the program afresh, with previous grades of 'C' or better applicable to the program.

### 3.3 Part-time Students

The maximum time allowed for completion of the degree is 10 years. After completion of 24 credit hours, part-time students will be evaluated each May and must conform to the minimum performance levels.

### 3.4 Direct Entry

**Admissions into the Family Social Sciences program has been suspended. Students interested in Family Social Sciences are advised to review the [Bachelor of Health Studies \(Family Health concentration\)](#), which is part of the [Interdisciplinary Health Program](#).**

Current Direct Entry students will be assessed formally upon completion of at least 24 credit hours in May of each year using the Bachelor of Human Ecology Family Social Science Degree Program's assessment standards. Probationary standing is assessed using the criteria listed. Direct Entry students who complete fewer than 24 credit hours by May of their first year will not be formally assessed until the following May. Students who complete 9 - 21 credit hours with a grade point average of less than 2.0 will be placed on academic warning.

### 3.5 Repeating Courses

A student may repeat any course for the purpose of attaining a better grade. A course or its equivalent that is repeated in Fall 2016 or later will have the highest grade count. There are no supplemental examinations for students who have failed final or deferred examinations.

### 3.6 Challenge for Credit

A student wishing to challenge a course for credit should contact an Academic Advisor. Letter grades are granted upon completion of the course that is challenged for credit. A list of courses for challenge is available in the Advising Office. An application is required.

### 3.7 Transfer of Credit

See the chapters on [Admissions and Academic Regulations and Requirements](#) at the beginning of this *Calendar*.

### 3.8 Appeals of Academic Regulations

The Committee on Student Standing considers petitions from students who request special consideration with respect to rules and regulations governing their programs of study and qualification for graduation.

### 3.9 Dean's Honour List

Eligible students who achieve a term Grade Point Average of 3.5 or higher in at least 12 credit hours per term will be included in the Deans Honour List.

### 3.10 Degree with Distinction

Students who graduate with a degree GPA of 3.75 and higher will receive a degree with distinction.

### 3.11 Work Permit for Study Purposes

International students who are registering for courses or programs that require work placement must obtain a valid **Work Permit**, in addition to maintaining a valid Study Permit. Work placement includes, but is not limited to, any **paid or unpaid** practicum, internships, work experience, field placement, and co-op programs that are a required component for the completion of their degree, diploma or certificate. Please contact your program advisor or the [International Centre for Students](#) for further information.

### 3.12 Release and Indemnification Forms

In elective courses, students may be required to sign a release form for off-campus activities.

### 3.13 Written English and Mathematics Requirements

The written English and Mathematics requirements are satisfied by required courses HNSC 2000 (former HMEC 2000) and STAT 1000 within the Bachelor of Human Ecology Family Social Science Degree Program. HNSC 2000 will be available to students upon admission to the Degree.

## SECTION 4: Program and Graduation Requirements

### Introduction

**Intake to the Family Social Sciences program has been suspended.**

For students entering the Bachelor of Human Ecology - Family Social Sciences Degree Program:

In order to qualify for a degree, students must complete the 120 credit hours specified for the selected program. Elective choices provided in each program can permit students to transfer between them; however, this opportunity decreases as students progress. Students who transfer to another program must meet the full requirements of that program. There is a quota in effect for intake to each program per academic year. The quota may affect movement into a program after the September intake.

### 4.1 Advisement

**Intake to the Family Social Sciences program has been suspended.**

The Bachelor of Human Ecology Family Social Sciences Degree Program will provide entering students with orientation information and will refer a student to a program advisor if the student requests. All returning students in the Degree Program must submit a program plan for the succeeding year before the start of registration.

### 4.2 Faculty Program Requirements

The following are the guidelines for the program requirements in the Degree Program. The courses outlined in the sections which follow, meet these basic requirements.

#### Admitted in September 2015 or Later:

All students complete a Degree Program core of 9 credit hours consisting of:

Course Number	Course Name
HEAL 2600	Integration of Health Determinants of Individuals
HNSC 2000 (former HMEC 2000)	Research Methods and Presentation
HNSC 3000 (former HMEC 3000)	Introduction to Social Epidemiology

- Plus a minimum of 51 additional credit hours within the Degree Program;
- Plus a minimum of 27 additional credit hours outside the Degree Program of which at least 6 credit hours must be from the Faculty of Science and six from the social sciences;
- Plus a minimum of 12 additional credit hours of free electives leading to a degree requirement of 120 (123) credit hours.
- Notes:
- Students admitted before September, 2005 and graduating after May, 2005, will make the following program adjustments:
- Family Social Sciences students must complete an additional 3 credit hours of FMYL electives at the 3000-4000 level.

- Students admitted between September 2005 and September 2015 are urged to seek academic advising assistance for advice regarding completion of core course requirements.

#### 4.3 Program Electives

Courses within each program fall into one of three categories:

- Program electives must be chosen from within the program department.
- Outside electives must be chosen from a Faculty other than the Bachelor of Human Ecology Family Social Sciences Degree Program.
- Free electives may be chosen from within or outside the Degree Program.

#### 4.4 Family Social Sciences

Head: Sharon Bruce - Community Health Sciences

Applying knowledge from the social and physical sciences, students in Family Social Sciences examine factors affecting human psychosocial health and wellbeing. They study human development from infancy to old age within the context of families, communities, and culture.

Students are required to choose at least one area, or option, in which to focus their studies. The name of their option will appear as a "comment" on their transcripts. They may select from the following options: 1) Aging and Developmental Health Option; 2) Child and Youth Developmental Health Option; 3) Family Economic Health; 4) Family Violence; 5) Social Development as well as the Interfaculty Option in Aging. Family Social Sciences graduates are permitted to complete any option after their degree as a Special Student. Not every Family Social Sciences course will be offered every year. A chart providing course rotation information is available on the Family Social Sciences web page.

The Family Social Sciences program can provide students with academic preparation or complementary courses for programs such as Law, Social Work, Education or Graduate Studies.

Students interested in Family Social Sciences are also advised to review the Bachelor of Health Studies, which is part of the [Interdisciplinary Health Program](#).

#### 4.4.1 Students Admitted in September 2015 or Later

Courses to be taken by all Family Social Sciences students:

Course Number	Course Name	Credit Hours
STAT 1000	Basic Statistical Analysis	3
One of STAT 2000 or any other Science course	Basic Statistical Analysis 2 or any other Science course	3
One of: ECON 1010, 1020, 1210 or 1220	Principles of Economics, Introduction to Canadian Economic Issues, or Introduction to Global and Environmental Economic Issues and Policies	3 - 6
HNSC 2000 (former HMEC 2000)	Research Methods and Presentation	3
HEAL 3000 (former HMEC 3000)	Introduction to Social Epidemiology	3
HEAL 2600	Integration of Health Determinants of Individuals	3
FMLY 1000	Families in Contemporary Canadian Society	3
FMLY 1010	Human Development in the Family	3

FMLY 1012	Introduction to Social Development	3
FMLY 1420	Family Management Principles	3
FMLY 2400	Family Financial Health	3
FMLY 2500	Diversity and Families	3
FMLY 3750	Fundamentals of Health Promotion	3
FMLY 3780	Introduction to the Development of Programs for Children and Families	3
FMLY 3790	Introduction to the Evaluation of Programs for Children and Families	3
PSYC 1200 or SOC 1200	Introduction to Psychology or Introduction to Sociology	6
<b>Program Electives</b>		<b>24</b>
<b>FMLY Elective (3 cr. hr. must be at the 3000 level or higher)*</b>		<b>3</b>
<b>Outside Electives</b>		<b>12 - 15</b>
<b>Free Electives</b>		<b>27</b>

#### Notes:

If students choose ECON 1010 and 1020 (former 1200) or ECON 1210 and 1220, 12 credit hours of outside electives are required.

All courses listed in the general Family Social Sciences section (above) are required. In addition, students must choose at least one area (Option) in which to focus their studies. In the following section, the courses required to fulfill each Option are listed. They will partially meet department, outside and free elective requirements. More courses will be required to complete the 120 credit hour degree. Students are encouraged to take more than one Option. Each Option must consist of 18 non-overlapping credit hours; that is, no course can satisfy the requirement of more than one Option.

\* Any non-required FMLY course is a Bachelor of Human Ecology (Family Social Sciences) program elective. At least one of the non-specified program electives must be at the 3000-4000 level. For more information, students are asked to contact the Academic Advisor for the Bachelor of Human Ecology Family Social Sciences Degree Program.

#### 4.4.2 Aging and Developmental Health Option

This option is also part of the Interfaculty Option in Aging, which can fulfill the requirement for an option within the Family Social Sciences major.

Aging and Development Health Option		
Course Number	Course Name	Credit Hours
FMLY (Former HMEC) or REC or SWRK 2650	Social Aspects of Aging	3
NURS or KIN 2610	Health and Physical Aspects of Aging	3
FMLY 4300	Field Experience (must be focused on Aging)	6
<b>At least 3 credit hours from:</b>		<b>3</b>
FMLY 3220	Death and the Family

SWRK 2050	Community and Organizational Theory	
WOMN 1600	Introduction to Women's and Gender Studies in the Social Sciences	

#### 4.5 The After Degree Program in Family Social Sciences

An After Degree Program (ADP) in Family Social Sciences is offered to students who have completed a previous undergraduate degree. ADP students must complete 60 credit hours in total to earn their second degree in Family Social Sciences. All Family Social Sciences U1 prerequisites are waived. In order to facilitate ADP students completing the program in a timely manner, they will automatically be permitted (without special permission from the course instructor) to take Family Social Sciences 2000 level prerequisites as corequisites for any required Family Social Sciences 3000 and/or 4000 level courses. Please consult with the Academic Advisor when planning programs prior to registration. ADP students are required to choose at least one option and meet its requirements at the second year level and beyond. These 18 credit hours may include courses external to the Bachelor of Human Ecology Social Sciences Degree Program that are required to complete an option. If a second option is not chosen, then these credit hours must be taken within the program. There are no free electives in the ADP.

#### Students admitted in September 2015 or Later

Bachelor of Human Ecology Family Social Sciences Degree Program Core Courses (any 6 credit hours. See note 3):

<b>At least 6 credit hours from:</b>		
HNSC 2000, HEAL 3000, or HEAL 2600	Research Methods and Presentation, Introduction to Social Epidemiology, or Integration of Health Determinants of Individuals (see note 3)	6 - 9
<b>Family Social Sciences Requirements (see note 4):</b>		
FMLY 2400	Family Financial Health	3
FMLY 2500	Diversity and Families	3
FMLY 3750	Fundamentals of Health Promotion	3

FMLY 3780	Introduction to the Development of Programs for Children and Families	3
FMLY 3790	Introduction to the Evaluation of Programs for Children and Families	3
<b>And a minimum of 6 credit hours from (see note 5):</b>		<b>6</b>
FMLY 2600	Foundations of Childhood Developmental Health	
FMLY 2800	Family Violence	
FMLY 2012	Development, Conflict, and Displacement	
FMLY/SWRK/REC 2650	The Social Aspects of Aging	
<b>Family Social Sciences Option (see note 6)</b>		<b>15</b>
<b>Family Social Sciences Electives (see note 7)</b>		<b>12-15</b>
STAT 1000	Basic Statistical Analysis (see note 8)	3
<b>TOTAL</b>		<b>60</b>

#### NOTES:

1. The same entrance requirements will be applied to ADP students in order to maintain current Degree Program standards.

2. Basic social science knowledge is assumed because ADP students have previously completed an undergraduate degree; waiving U1 requirements for FSS courses acknowledges the skills, background and maturity of this particular group of students.

3. This choice provides students who have previously taken a research methods course with the option of avoiding redundancy in their program. Students are free to take all three core courses if they feel it would benefit them. If students select 9 credit hours of core courses, the FSS electives component is reduced to 15 credit hours.

4. This set of courses is currently required of all undergraduate FSS students and is required for students in the ADP.

5. Students are required to take a minimum of any two (6 credit hours) of the introductory level courses across options. Review the list of options found in the 120 credit hour undergraduate degree program to assist with planning for prerequisites for higher level courses.

6. Each FSS option is a total of 18 credit hours; ADP students will have taken at least one 2000 level course (3 credit hours) required by the chosen option as part of their program requirements, leaving the remaining 15 credit hours to be completed to fulfil the option. Completion of the option may include courses external to the Bachelor of Human Ecology Family Social Sciences Degree Program that are required to complete an option.

7. ADP students are encouraged to specialize in two options simultaneously to strengthen and broaden their expertise. If a second option is chosen, these credit hours may include courses external to the Bachelor of Human Ecology Family Social Sciences Degree Program that are required to complete the option. If students have completed the 2000 level course required for the second option, the requirement to complete the option is 15 credit hours. If a second option is not chosen, then these credit hours must be taken within the department.

8. Students who have previously completed an undergraduate statistics course can either transfer it in directly (if already assessed as equivalent) or can request to have it assessed for advanced standing; if successful, students will be required to add 3 credit hours to their program from courses selected from Family Social Sciences.

ADP in FSS is 60 credit hours. If students have taken any of the required courses for this degree, they can be transferred in. ADP students will need to take additional courses in order to fulfill the University of Manitoba's Residency Requirement. This requirement states all students must complete at least 60 credit hours in the Bachelor of Human Ecology - Family Social Sciences degree program at the University of Manitoba. Students may want to discuss additional courses with the Academic Advisor's office.

#### 4.6 The Family Social Sciences Minor

Students must complete 18 credit hours, distributed as follows: Six (6) credit hours in Family Social Sciences at the 1000 level, and at least three (3) credit hours in Family Social Sciences at the 2000 level, and at least three (3) credit hours in Family Social Sciences at the 3000 or 4000 level, with no more than 6 credit hours at the 1000 level.

The Family Social Sciences minor is still available to students.

#### 4.7 Interfaculty Option in Aging

An Option in Aging is offered by and in the following faculties, schools, and colleges: Arts, Rady Faculty of Health Sciences: Bachelor of Human Ecology Family Social Sciences Degree Program, Interdisciplinary Health, Nursing, Kinesiology and Recreation Management, Social Work, and Agricultural and Food Sciences: Bachelor of Sciences in Human Nutritional Sciences Program, Bachelor of Science in Textile Science Program.

To complete the option, students must complete each of the following requirements:

Interfaculty Option in Aging		
Required Courses (6 credit hours):	FMLY 2650 (former HMEC) or REC 2650 or SWRK 2650 The Social Aspects of Aging	KIN 2610 or NURS 2610 Health and Physical Aspects of Aging
At least six (6) credit hours of discipline-specific (professional) applied work in the student's department of registration	Human Ecology Courses: FMLY 4300 Agricultural and Food Sciences Course: HNSC 4362	Application is required for all field placement or practicum courses.
Six (6) credit hours of aging-related courses from participating units	Human Ecology Courses: FMLY 3220 FMLY 3240 FMLY 4220 Agricultural and Food Science Courses: HNSC 2130 HNSC 4310	

Upon completion of these requirements, a comment will be added to the student's transcript.

#### 4.8 The Minor in Management

A Management Minor is offered by the Asper School of Business. Bachelor of Human Ecology Family Social Sciences Degree Program students may complete this Minor as part of the electives portion of their programs. The Minor will consist of any 18 credit hours of Management courses. Students must meet prerequisites for all courses.

#### 4.9 The Voluntary Minor

Students in the Bachelor of Human Ecology Family Social Sciences Degree Program may declare and complete a Minor from departments and interdisciplinary programs in which a Minor is offered. Information about Minors in programs is found in the appropriate description of departmental/school/faculty program offerings in the Undergraduate Calendar.

Completion of the Minor is entirely optional. Students may not, however, declare both their Major and Minor from the same department/interdisciplinary program. No course may be used as part of a prescribed program in the Bachelor of Human Ecology Family Social Science Degree Program and also be part of a prescribed Minor. For example, if a course in Chemistry is part of a student's degree requirements in the Bachelor of Human Ecology Family Social Sciences Degree Program, it cannot be used as part of a Minor in another program. Completion of a

Minor may require that a student take more than the minimum number of credit hours for graduation.

## SECTION 5: Course Descriptions

### SECTION 5: Family Social Sciences Course Descriptions-1000 Level

**FMLY 1000 Families in Contemporary Canadian Society 3 Cr. Hrs.**  
(Formerly FMLY 1020) This course provides an introduction to issues in contemporary families from an interdisciplinary perspective. Changing and diverse family forms and experiences are reviewed. An overview of issues pertinent to family well-being, including but not limited to immigration, poverty, homelessness, racism, addiction, disability, divorce, and physical and mental illness is provided. Not to be held with FMLY 1020.

**FMLY 1010 Human Development in the Family 3 Cr. Hrs.**  
Introductory survey of key aspects of human development processes within the family context from a life span perspective. Not to be held with NURS 1260.

**FMLY 1012 Introduction to Social Development 3 Cr. Hrs.**  
This course is an introduction to Social Development with a particular emphasis on families and communities. Social development is concerned with the advancement of the common good, the effective management of social problems, the meeting of human needs, and the equitable distribution of society's resources. As such, this course explores the social factors and conditions that promote or hinder social development and how this affects the well-being of individual, families, and communities in contemporary societies. Not to be held with FMLY 1900

**FMLY 1420 Family Management Principles 3 Cr. Hrs.**  
An introductory course that uses an ecosystem perspective resources, decision-making, planning, implementing, evaluating, and communication within family contexts. Applications to balancing work and family, individual and family stress, family finance, environmental issues, and the use of time and human resources will be made.

### SECTION 5: Family Social Sciences Course Descriptions-2000 Level

**FMLY 2012 Development, Conflict, and Displacement 3 Cr. Hrs.**  
The course is an introduction to development, conflict, and displacement as they affect individuals, families and communities. Specifically, this course examines the current phenomenon of induced displacement due to social conflicts, natural disasters, or uneven development in developing countries. Students will examine concepts and issues arising from induced displacement and explore community based responses to this problem. Not to be held with FMLY 2900. Prerequisite: 1012 or consent of the instructor.

**FMLY 2400 Family Financial Health 3 Cr. Hrs.**  
A survey of topics that have an impact on the financial health of Canadian families, including personal money management, mortgage financing, credit and debt, educational and retirement planning, taxation, insurance, savings and investments. The course prepares students to help families maximize resources and increase their financial literacy. Prerequisite: FMLY 1420. Not to be held with the former FMLY 2070.

**FMLY 2500 Diversity and Families 3 Cr. Hrs.**  
(Formerly FMLY 2350) Using the theoretical frameworks of intersectionality and social ecology, this class addresses how diversity in Canada is influenced by age, gender, ability, ethnicity, race, as well as family relationships, institutions and social policies. A focus on human rights and anti-racism education is emphasized. Not to be held with FMLY 2350. Prerequisite: FMLY 1000 (FMLY 1020) or FMLY 1010 or equivalent.

**FMLY 2600 Foundations of Childhood Developmental Health 3 Cr. Hrs.**  
This course examines the theoretical and empirical foundations of childhood development and their implications for promoting developmental health. Specifically, the course considers the biological and

environmental factors that influence developmental health given physical, cognitive, emotional and social development from the prenatal period to middle childhood. May not be held with PSYC 2290 or PSYC 2291.  
Prerequisite: FMLY 1010.

**FMLY 2650 The Social Aspects of Aging 3 Cr. Hrs.**

An examination of the social aspects of aging. Emphasis on understanding the aging process as a life transition involving adaptation through interaction with social and physical environments. May not be held with the former HMEC 2650 or SWRK 2650 or SWRK 2651 or REC 2650.

**FMLY 2800 Family Violence 3 Cr. Hrs.**

A survey of the extent and nature of various forms of family violence across the life course. Topics include physical and sexual child abuse, sibling violence, partner violence, and elder abuse. Emphasis is on prevalence, incidence, causes, consequences and solutions. Prerequisite: FMLY 1010 or FMLY 1000 (FMLY 1020) or PSYC 1200 or SOC 1200.

**SECTION 5: Family Social Sciences Course  
Descriptions-3000 Level**

**FMLY 3012 Theories of Social Development 3 Cr. Hrs.**

This course is a survey of social development theories that have influenced the study and practice of development since the 1950s. It addresses the question of why theories of social development are necessary and why different theories emerged at particular times in history. This course examines explanations of development and underdevelopment as they impact on individuals, families and communities. Not to be held with FMLY 3900. Prerequisite: FMLY 1012.

**FMLY 3220 Death and the Family 3 Cr. Hrs.**

An examination of dying and death of family members throughout the family life cycle. Specific topics included are the meaning of death, the process of dying, caring relationships, grief and bereavement. Prerequisite: FMLY 1000 (FMLY 1020) or PSYC 1200 or SOC 1200.

**FMLY 3240 Families in Later Years 3 Cr. Hrs.**

An investigation of family issues in the later years of life, such as housing, intergenerational relations, adjustment to retirement, sibling relations, grandparenting, and death. Students may not hold credit for FMLY 3240. Prerequisites: [FMLY 1010 and FMLY 1000 (FMLY 1020)] or PSYC 1200 or SOC 1200.

**FMLY 3330 Parenting and Developmental Health 3 Cr. Hrs.**

Examines parenting and its influence on developmental health, with consideration of change across time, the context in which parenting occurs, and the effect of the parent-child relationship on developmental health. Prerequisites: FMLY 2600 or FMLY 3600.

**FMLY 3400 Families as Consumers 3 Cr. Hrs.**

An examination of the factors that influence the consumer behaviour of individuals and families across the life course, with particular attention to the situation of vulnerable consumers. Theory, education, policy and practice are related to contemporary consumer issues and the impact of consumption behaviour on the environment. Prerequisites: [FMLY 2400 or FMLY 2070] and [ECON 1210 or ECON 1220 or ECON 1010 or ECON 1020]. Not to be held with the former FMLY 3450.

**FMLY 3470 Selected Studies in the Family I 3 Cr. Hrs.**

The opportunity to carry out an individual study in the area of the family of particular interest to the student. When enrolment warrants, the department may offer selected topics in a regular course format. Prerequisite: consent of instructor.

**FMLY 3600 Adolescents in Families and Society 3 Cr. Hrs.**

This course is designed to help students understand the nature of adolescent relationships with their families in communities. The application of theory and research on adolescent relationships to professional practice with families and communities is emphasized. Prerequisite: FMLY 2600 and completion of 54 credit hours.

**FMLY 3750 Fundamentals of Health Promotion 3 Cr. Hrs.**

This course provides an interdisciplinary life course perspective on theories

and methods of health promotion. Current research, practices and policies in health promotion targeting individuals, families and communities will be critically reviewed with regard to issues of gender, culture, age, functional ability, socio-economic status, sexual orientation, and other determinants of health. Prerequisites: HEAL 2600 or KPER 1200 (or the former PERS 1200) or KPER 1400 (or the former PERS 1400).

**FMLY 3780 Introduction to the Development of Programs for Children and Families 3 Cr. Hrs.**

An introduction to the theory and practice of program development with special emphasis on programs for children and families. The course will cover techniques for conducting need assessments, as well as the process of planning and implementing programs to address community need. Prerequisite: HMEC 2000 or HMEC 2050.

**FMLY 3790 Introduction to the Evaluation of Programs for Children and Families 3 Cr. Hrs.**

An introduction to the theory and practice of program evaluation with special emphasis on child and family programs. Considers the purpose of evaluation, types of evaluation, evaluation design and analysis, and the evaluation process. Prerequisites: HMEC 2000 or HMEC 2050.

**FMLY 3800 Conflict Resolution in the Family 3 Cr. Hrs.**

Students will examine the nature and development of conflict in family relationships throughout the life span. Implications of conflict for the quality of family relationships and individual development will be addressed. Prerequisite: FMLY 2800 and completion of 54 credit hours.

**FMLY 3802 Intimate Partner Violence 3 Cr. Hrs.**

A critical examination of theory and research on violence in intimate relationships. Topics will include violence in dating, common-law, marital, ex-partner and same-sex relationships. Prerequisite: FMLY 2800.

**FMLY 3806 Children, Violence and Rights 3 Cr. Hrs.**

Violence against children in their families takes many forms, from sexual exploitation to honour killings. We will explore, through a child rights lens, the forces contributing to violence against children, its impact on human lives, and approaches to prevention being implemented around the world. Prerequisite: FMLY 2800. Not to be held with FMLY 3804.

**SECTION 5: Family Social Sciences Course  
Descriptions-4000 Level**

**FMLY 4012 Social Development Policies 3 Cr. Hrs.**

This course examines the formulation of social development policies and the impact of these policies on the well-being of individuals, families, and communities. The course uses a seminar format to foster students' capacity to understand and examine policy issues. Students will develop skills in understanding, analyzing, and formulation social development policies. Actual social development case studies will be evaluated and alternative family and community oriented policies discussed. Not to be held with FMLY 4900. Prerequisite: FMLY 1012.

**FMLY 4220 Aging and Risk in a Global Context 3 Cr. Hrs.**

This course will take an interdisciplinary perspective on definitions of risk associated with a variety of determinants that shape the daily lived experience of older adults, their families and communities, and the institutions that care for them. Students will evaluate programs, policies and research, and engage in a final project of their choice. Prerequisite or Corequisite: HMEC 2650 or SWRK 2650 or REC 2650 or NURS 2610 or KIN 2610.

**FMLY 4300 Field Experience 6 Cr. Hrs.**

Provide students with field experience in a supervised setting. The course consists of 120 hours of supervised work in an assigned setting and seminar time with peers and field experience coordinator. Grade is pass/fail. Prerequisite: 84 credit hours and consent of instructor.

**FMLY 4330 Management of Family Stress 3 Cr. Hrs.**

Theories which influence family behaviour during stress are discussed, and coping/managerial skills to mitigate the effects of the stressors are examined. Stress management advice from agencies and in educational settings is analyzed. Prerequisite: FMLY 1000 (FMLY 1020).

**FMLY 4400 Family Economics: Poverty and Wealth 3 Cr. Hrs.**

Analysis of principles, major problems and trends in the economic welfare of individuals and families in both the Canadian and global economies. Emphasis on families and their relationships to the economy such as income inequality, family economic policy, human capital, poverty and resource distribution within families. Prerequisites: [FMLY 2400 or FMLY 2070] and [one of ECON 1210 or ECON 1220 or ECON 1010 or ECON 1020].

**FMLY 4470 Selected Studies in the Family II 3 Cr. Hrs.**

The opportunity to carry out advanced study in the area of the family of particular interest to the student. When enrolment warrants, the department may offer selected topics in a regular course format. Prerequisite: consent of instructor.

**FMLY 4480 Work and Family Issues 3 Cr. Hrs.**

An exploration of the interface between paid work and unpaid work and families in the Canadian and international contexts. Topics include demographic trends; parenting, child and elder care; management of work-family conflict; development of workplace solutions; and social policy implications. Prerequisite: FMLY 2400 (or FMLY 2070) and 84 credit hours.

**FMLY 4500 Senior Thesis 3 Cr. Hrs.**

The preparation and presentation of a comprehensive review of the literature and an empirical investigation of an approved topic. Prerequisite: Registered in the final year of the Family Social Sciences program and consent of Department Head. Application required. Enrolment limited.

**FMLY 4600 Risk and Resilience in Behavioural and Social Development 3 Cr. Hrs.**

The development of behavioural and social difficulties are examined from a risk and resilience perspective. The interaction of factors at all levels of the human ecological system are considered in terms of their impact on increasing risk and/or building resilience in children and youth. Prerequisite: FMLY 2600

**FMLY 4602 Family Relationships, Health and Well-being 3 Cr. Hrs.**

This course provides an in-depth survey of the interaction between family relationship dynamics, health and well-being across the life course period. The influence of family members on health-related behaviours is reviewed and preventive family-based interventions are evaluated. Prerequisite: FMLY 3600.

**FMLY 4604 Children in Adversity 3 Cr. Hrs.**

Millions of children live with violence, trauma and other adverse circumstances. We will explore the interactions among individual, family, cultural, legal and policy factors as they affect children's developmental pathways in the face of adversity. Prerequisite: FMLY 2600 or FMLY 3600. May not be held with FMLY 4600.

**FMLY 4606 A Social Justice Perspective on Indigenous Maternal and Child Health 3 Cr. Hrs.**

This course examines the local and global challenges regarding the health care and health care needs of Indigenous peoples, with particular attention to childbearing women, new mothers, and young children. Interdisciplinary theories and methods applied to the study of Indigenous peoples are critically evaluated from Indigenous and social justice perspectives. Prerequisite: FMLY 2500(FMLY 2350) or NURS 3330 or NATV 1220 or NATV 1240.

**FMLY 4800 Senior Seminar in Family Violence and Conflict Resolution 3 Cr. Hrs.**

Advanced study in the areas of family violence and/or conflict resolution. Special emphasis is placed upon current research and/or practice. Prerequisite: FMLY 3800 and completion of 72 credit hours.

**FMLY 4802 Family Violence Prevention 3 Cr. Hrs.**

Family violence prevention theories, research, practices and policies will be critically reviewed with regard to issues such as gender, culture, sexual orientation and others. Prerequisites: FMLY 2800. Not to be held with the former FMLY 4800.

#### 1.1 Programs

#### 1.2 Available Options

#### 1.3 Professional Designation

### SECTION 2: Admission Requirements

#### 2.1 Bachelor of Nursing Program

#### 2.2 Baccalaureate Program for Registered Nurses

#### 2.3 Bachelor of Midwifery Program

### SECTION 3: Academic Regulations

#### 3.1 Regulations for the Bachelor of Nursing Program

#### 3.2 Regulations for the Baccalaureate Program for Registered Nurses

#### 3.3 Regulations for the Bachelor of Midwifery Program

### SECTION 4: Program and Graduation Requirements

#### 4.1 Bachelor of Nursing Program

#### 4.2 Baccalaureate Program for Registered Nurses

#### 4.3 Bachelor of Midwifery Program

#### 4.4 Courses Available to Students in Other Faculties

### SECTION 5: Course Descriptions

#### SECTION 1: Degree Programs Offered

##### 1.1 Programs

Program/Degree	Years to Complete	Total Credit Hours	Maximum Years to Complete
Bachelor of Midwifery	4*	130	6
Bachelor of Nursing	4*	127	6

\*This includes one year (30 credit hours) of study in University 1.

\*\*This program is designed specifically for active practicing Registered Nurses.

#### 1.2 Available Options: Inter-Faculty Option in Aging (Bachelor of Nursing only)

Inter-Faculty Option in Aging courses are offered by the following Colleges and Faculties: Arts; Nursing; Kinesiology and Recreation Management; and Social Work. To complete the Inter-College Option in Aging, students will complete a total of 18 credit hours including each of the following:

- Required Courses (six credits). See the Registration Guide for the current course number being offered.
  - a) IDES 2650 /HMEC 2650/REC 2650/SWRK 2650 The Social Aspects of Aging (3 credit hours)
  - b) NURS 2610/KIN 2610 Health and Physical Aspects of Aging (3 credit hours)
    - Electives (12 credit hours).
- a) At least three credits of professional/discipline-specific applied work on aging within the student's faculty of registration; and
- b) An additional nine credit hours in aging electives from the participating faculties. Students can take nine credit hours from their own faculty but are encouraged to select offerings from other faculties. Lists of eligible elective courses are available from the student advisors.
  - The nursing option in aging elective is NURS 2200 Topics in Aging.

Upon completion of these requirements, the "Option in Aging" comment will be recorded on the student's transcript. Information on the Inter-Faculty Option in Aging is available from a student advisor.

#### 1.3 Professional Designation

##### Professional Designation- Bachelor of Nursing

A graduate of the Four-Year Baccalaureate Nursing Program or Bachelor of Nursing Program must write the Registered Nurse examination to become eligible to practice nursing. Following successful completion of all courses, the College of Nursing provides the College of Registered Nurses of Manitoba (CRNM) with a letter indicating that the student has completed the program requirements and is a potential graduate. Completion of the program entitles students to apply to work as graduate nurses and to apply to write the NCLEX to obtain the designation, Registered Nurse (RN). Approval of the application to write the NCLEX will be subject to the graduate's meeting the requirements of the CRNM. Application and registration information can be obtained from the CRNM website at: [www.crnmb.ca](http://www.crnmb.ca).

##### Professional Designation- Bachelor of Midwifery

A graduate of the Bachelor of Midwifery Program will be eligible to apply for registration with the College of Midwives of Manitoba and to write the Canadian Midwifery Registration Exam. Information can be obtained from the Canadian Midwifery Regulators Council (CMRC) website at <https://cmrc-ccosf.ca/registration-exam>.

### SECTION 2: Admission Requirements

#### 2.1 Bachelor of Nursing Program

The following is a summary of the admission requirements for each program in the College of Nursing. All admission requirements, application deadline dates and forms, are included in the Applicant Information Bulletin that is available from the Admissions Office website at <http://umanitoba.ca/admissions>. Non-Nursing courses must be assessed as exact equivalents in order to meet the specific course requirements for

admission. Only courses completed within 10 years prior to the date of admission to the College of Nursing will be considered for transfer credit.

Nursing courses will be considered for evaluation and credit only if completed within 5 years prior to application/admission.

See also Section on "Advanced Standing/Transfer Credit".

Students who fail the same Nursing course twice, prior to applying to the College of Nursing, are ineligible for admission to the College of Nursing.

### Course Requirements for Admission

All applicants must complete a minimum of 30 credit hours in the following identified courses (or their equivalent) with a minimum grade of "C" in each course. All of the following pre-requisite courses used to meet the admission requirements for the Bachelor of Nursing program must be transferrable for credit into the Bachelor of Nursing program. Non-nursing courses must be completed within 10 years and Nursing courses must be completed within 5 years of admission to the College of Nursing in order to be eligible for admission and advanced standing (transfer credit).

BIOL 1410 Anatomy of the Human Body

BIOL 1412 Physiology of the Human Body **or**

BIOL 2410 Human Physiology 1 **and** BIOL 2420 Human Physiology 2

MBIO 1220 Essentials of Microbiology **or**

MBIO 3010 Mechanisms of Microbial Disease

**Science Electives** - 9 credit hours

**Electives** - 12 credit hours

Any combination of the following courses/subjects for a total of 12 credits may be taken:

- Social Sciences
- Humanities
- NURS 1280 Introduction to Nursing
- NURS 1500 Preparing Professional Nursing Education
- NURS 2610 or KIN 2610 Health and Physical Aspects of Aging
- NURS 2650 or SWRK 2650 or HMEC 2650 Social Aspects of Aging

**Applicants require a minimum of "C" in Math and Written English course requirements prior to admission.**

**All applicants to nursing must meet the University Written English and University Math requirements at a 1000 level or higher, a grade of "C" and completed within the last ten years.**

The AGPA will be calculated on the most recent 45 credit hours (including repeated courses) of university level course work. If an applicant has less than 45 credit hours, the AGPA will reflect all credit hours completed (i.e. a minimum of 30 credit hours to a maximum of 45 credit hours). The AGPA is limited to course work taken within the 10 years prior to admission.

The minimum Adjusted GPA for admission to the College of Nursing is 2.5.

An AGPA higher than the minimum is recommended as admission may be competitive.

For more information see College of Nursing Applicant Information Bulletin.

### Applicants with Previous Bachelor of Nursing Degree

Applicants who have previously completed a Bachelor of Nursing or equivalent program in Canada or the United States are not eligible for admission to the Bachelor of Nursing program in the College of Nursing at the University of Manitoba. In exceptional circumstances, students may be considered on a case-by-case basis.

### Applicants from Diploma and Degree Nursing Programs Category

Applicants who have attended but have not completed a nursing diploma or degree program, the completion of which would result in the graduate's eligibility to write the NCLEX in order to qualify for registration to practice as a Registered Nurse, must meet admission requirements including the competitive AGPA in the year of application, apply for admission by the application deadline, and provide supplementary information, including the name of the Dean, Director, Head, or Coordinator of the Nursing Program in which the student was previously registered, and who will be contacted by the College of Nursing.

The Advance Standing and Admissions Committee reserves the right to deny admission to the University of Manitoba Nursing program based on any of the supplementary information. Applicants who would be eligible to register in third or fourth year courses will be considered for admission only if space is available.

Appeals of decision are limited to the question of procedural regularity only. The merits of the decision are not subject to review.

### Special Consideration- Canadian Indigenous Category

The Special Consideration Category will consider applicants who are Indigenous People of Canada only, including individuals of First Nations, Metis, and Inuit heritage. Applicants in this category must meet the minimum entrance requirements including a minimum AGPA of 2.5; however, they do not have to meet the competitive grade point average of admitted students in the admission year. Applicants must apply by the application deadline and also complete a supplementary application form that is available with the online application. The Supplementary Application and information are due no later than May 1.

Appeals of decisions are limited to the question of procedural regularity only. The merits of the decision are not subject to review.

### Provisional Admission - Non-Academic Admission Requirements

All successful applicants are admitted provisionally pending compliance with the non-academic admission requirements of the College of Nursing. Failure to meet the requirements by July 15 for Fall admission or November 15 for Winter admission may result in the offer of admission being revoked. Contact the College of Nursing or go to <https://umanitoba.ca/explore/programs-of-study/nursing-bn#admission-requirements> to find further information about the Non-Academic Admission Requirements.

Applicants are advised to carefully check the recommended start dates in the above document before beginning the process of complying with these admission requirements. Any costs associated with the non-academic admission requirements are the responsibility of the applicant.

### Advanced Standing/Transfer Credit

Advanced standing will be considered for non-nursing courses completed at any university, including the University of Manitoba, if completed within 10 years of admission to the Bachelor of Nursing program.

Nursing courses from any university, including the University of Manitoba, will be considered for advanced standing/transfer credit only if they have

been completed within five years prior to admission to the College of Nursing.

See also section on "Courses Completed at Recognized Universities other than the University of Manitoba" and course requirements for admission.

### **Advanced Standing: Licensed Practical Nurse (LPN)**

Applicants who graduated from the Licensed Practical Nursing (LPN) Program from Assiniboine Community College or the Diploma in the Practical Nursing Program at University College of the North within five years of admission to the College of Nursing may be eligible for transfer credit. Applicants must meet admission requirements.

### **Criminal Record Check**

Following their provisional admission to the program, applicants must provide a Criminal Record Check, including Vulnerable Sector Check, by July 15 or November 15. Apply for the Criminal Record Check after April 1 and allow 4-8 weeks for processing.

A criminal conviction will not necessarily result in denial of admission to the College of Nursing. Criminal offences will be reviewed by a sub-committee of the Nursing Advance Standing and Admissions Committee for the implications of the conviction in view of the professional mandate to protect the public. Failure to disclose any criminal record will invalidate an applicant's application and shall result in automatic expulsion from the College of Nursing if the applicant has been admitted.

The College of Registered Nurses of Manitoba (CRNM) also requires that all graduates of an approved nursing education program who wish to practice nursing in this province disclose information about any conviction for an offence under the Criminal Code (Canada). The review process by the College of Nursing is independent of the review process conducted by the CRNM.

### **Child Abuse Registry Check**

Following provisional admission to the program, applicants must provide a Child Abuse Registry Check by July 15 for Fall admission or November 15 for Winter admission. Apply for the Child Abuse Registry Check after April 1 and allow 4-8 weeks for processing.

Note: Any applicant on the Child Abuse Registry will be denied admission.

### **Adult Abuse Registry Check**

Following provisional admission to the program, applicants must provide an Adult Abuse Registry check by July 15 for Fall admission or November 15 for Winter admission. Apply for the Adult Abuse Registry Check after April 1 and allow 4-8 weeks for processing.

### **Immunizations**

Immunizations and tests will be provided at the College of Nursing. Students who are offered admission will be sent an Immune Status Consent Form & Student information for completion due July 15 for Fall intake and November 15 for Winter intake. Previous immunization and testing records will be reviewed and students will be informed what additional items, if any, are required. Detailed information about the immunization requirements can be found at <http://umanitoba.ca/faculties/nursing/undergrad/index.html>

### **CPR Certification**

CPR certification at the Health Care Provider (HCP) Level is a requirement for admission to the College of Nursing. Certification must be valid until the end of the academic year (i.e. April); therefore, should not be obtained before April 1st by applicants for either Fall or Winter admission.

### **Respirator Mask-Fit Testing**

Applicants must be fit-tested with the respirator mask that is used in the event that airborne precautions are required in clinical agencies. All new students will be given the opportunity to have mask-fit testing addressed at the start of the program. Testing includes basic education about the masks, precise determination of your mask size, and issue of an official card which indicates your mask size and confirms that you have met this requirement. Official proof of the mask-fit test must be submitted by a designated date to the College of Nursing in advance of participation in any clinical practice course. Students carry the official card for all clinical practice rotations.

### **2.2 Baccalaureate Program for Registered Nurses (BPRN)**

**Effective in Fall 2019, admission intake to the BPRN has been suspended.**

All admission requirements for applicants who are already Registered Nurses are described in detail in an applicant information bulletin that includes application deadline dates and application forms. This material is available from the Admissions Office website at: <http://www.umanitoba.ca/student/admissions/>

### **Admission Requirements**

- 1) Graduation from an approved diploma of nursing education program;
- 2) Current active practicing membership in a Canadian provincial or territorial association/college of registered nurses; and
- 3) A minimum of 1125 hours of nursing experience will normally be required for selection.

Applicants will be provisionally admitted pending submission, by the published deadline, of the non-academic requirements: Criminal Record Search Certificate including Vulnerable Sector Search, Child Abuse Registry Check, Adult Abuse Registry Check, Immunization, CPR Certification, Respirator Mask-Fit Testing, and PHIA training.

### **Failures in Nursing Courses**

Students who fail the same Nursing course twice, prior to applying to the College of Nursing, are ineligible for admission to the College of Nursing.

### **Proof of Professional Registration**

Active practicing membership must be maintained throughout the program in the Canadian jurisdiction under which the student is a practicing RN. Verification will be obtained annually from the College of Registered Nurses of Manitoba by the College for returning Manitoba students.

Students from outside of Manitoba must submit proof of registration annually from the registering body to the College of Nursing.

After admission and at any time prior to completing the program, students with any changes to their active practicing status with the College of Registered Nurses of Manitoba or other Canadian jurisdiction in which they hold membership, (e.g., conditions placed on a registration or ineligibility for active practicing status), are required to report this information to the Associate Dean, Undergraduate Programs, College of Nursing. Such changes will be reviewed on a case by case basis. Failure to report a change in status may result in disciplinary action.

### **Transfer of Credit**

University credits earned outside of nursing diploma programs or earned as part of an incomplete degree may be considered for transfer of credit. If a required course in the baccalaureate program was earned as part of a nursing diploma program or as part of another degree, an alternative

course must be substituted. Transfer of credit will be considered for university level nursing courses completed within the five years prior to admission. Credit for previous nursing courses is not given if there is a lapse of five years or more from the last date of attendance in the program or if taken more than five years prior to admission. Credit for non-nursing courses taken at other universities over 10 years prior to admission will not be granted.

Graduates of the Red River College Diploma Nursing Accelerated Program (DNAP) (est. 2000) will receive 12 credit hours of advanced standing in the Baccalaureate Program for Registered Nurses (BPRN) for the following courses, provided a minimum grade of C+ was achieved in each course for transfer: NURS 3210 Research Methods, NURS 4220 Law and Ethics, and 6 credit hours of non-nursing electives. The Nursing courses must have been completed within five years, and the non-Nursing courses completed within 10 years, prior to admission to the College of Nursing. All remaining courses for the BPRN must be completed at the University of Manitoba in order to meet the residency requirement for the BPRN, unless the electives were completed at the University of Manitoba.

### Transfer of Credit for Advanced Certificate Programs

No credit will be given for these certificates in the BPRN.

### 2.3 The Bachelor of Midwifery

Applicants must meet the general admission requirements of the University of Manitoba, as well as the admission requirements of each program in the College of Nursing. All admission requirements, as well as application deadline dates and forms, are included in an applicant information bulletin that is available from the Admissions Office website at <http://umanitoba.ca/student/admissions/>.

Registration in the Bachelor of Midwifery Program will be restricted to Canadian citizens and permanent residents. Preference will be given to Manitoba residents.

The following are summaries of the admission requirements for each program in the College of Nursing.

### Courses Completed at Recognized Universities Other Than the U of M

Non-Midwifery and non-Nursing courses must be assessed as exact equivalents in order to meet the specific course requirements for admission. Only courses completed within 10 years prior to the date of admission to the program will be considered for transfer credit.

Midwifery and nursing courses will be considered for evaluation and credit only if completed within 5 years prior to admission.

### Failures in Required Courses

Students who fail the same required midwifery or nursing course twice, prior to applying to the Bachelor of Midwifery Program, are ineligible for admission to the program.

### Course Requirements for Admission

Students must complete the University Written English requirement and the University Mathematics requirement to be eligible for admission. According to University policy, students who have a completed undergraduate degree are exempt from the Written English and math requirements (see appropriate section in Calendar for University policy on written English requirement).

An adjusted Grade Point Average (AGPA) of at least 2.5 is required.

The AGPA will be calculated as follows: (0.3 x the core course average) PLUS (0.7 x the average of the most recent 45 credit hours).

The core course average will be calculated on the most recent attempts of the following courses:

BIOL 1410

BIOL 1412

MBIO 1220

NATV elective course

The most recent 45 credit hours will be based on the most recently completed 45 credit hours of university level course work, including the original grades of any repeated courses if these fall within the most recent 45 credit hours. The 45 credit hours will be limited to courses completed within the past ten years.

An AGPA higher than the minimum is recommended as admission may be competitive.

All applicants must complete a minimum of 30 credit hours in the following identified courses (or their equivalent) with a minimum grade of "C" in each course before entering the Bachelor of Midwifery Program. All required courses must be at a 1000 level, or higher.

BIOL 1410	Anatomy of the Human Body <sup>1</sup>	3
BIOL 1412 or BIOL 2410 and BIOL 2420	Physiology of the Human Body <sup>1</sup> OR Physiology 1 AND Physiology 2	3
MBIO 1220 or MBIO 3010	Essentials of Microbiology <sup>1</sup> OR Mechanisms of Microbial Disease	3
STAT 1000	Basic Statistical Analysis <sup>3</sup>	3
CHEM 1300	University 1 Chemistry: Structure and Modelling in Chemistry <sup>3</sup>	3
CHEM 1310	University 1 Chemistry: An Introduction to Physical Chemistry	3
Students must meet the University of Manitoba Written English and Mathematics Requirements with a University level course completed within the last 10 years, must be at the 1000 level (or higher) and with a minimum grade of C in each. It is strongly recommended that these courses be completed within the elective credits indicated above.		
Native Electives <sup>1 &amp; 2</sup>		3
Science Electives <sup>1, &amp; 3</sup>		3
Social Sciences or Humanities Electives <sup>1</sup>		6
<b>Total Credit Hours</b>		<b>30</b>

<sup>1</sup> All courses can be completed in University 1, or an equivalent program, if students do not wish to extend their program of study.

<sup>2</sup> NATV 3240: Indigenous Medicine and Health is the preferred elective and should be taken if it is offered during the time the student is fulfilling University 1 or pre-midwifery year course requirements. Other Native Studies courses or equivalents are acceptable if NATV 3240 is not offered.

<sup>3</sup> Science Prerequisites. Students must meet the current Science prerequisites before registration for Science courses. See the Faculty of Science section in the Academic Calendar for the current prerequisites. It is recommended the above prerequisites have been completed within the last five years. Math 40S is a prerequisite for MBIO 1220. Any grade 12 or 40S Mathematics, or equivalent is a prerequisite for STAT 1000. Students should have a minimum of two years of previous high-school chemistry

study (Chemistry 40S or its equivalent, such as CHEM 090) which is the prerequisite for CHEM 1300.

### **Applicants from Diploma and Degree Midwifery Programs Category**

Applicants who have attended but have not completed a midwifery program, the completion of which would result in the graduate's eligibility to write the Canadian Midwifery Registration Examination (or equivalent) in order to qualify for registration to practice as a Registered Midwife, must meet admission requirements including the competitive AGPA in the year of application, apply for admission by the application deadline, and provide supplementary information, including the name of the Dean, Director, Head, or Coordinator of the Midwifery Program in which the student was previously registered. This individual will be contacted for further information.

The Advance Standing and Admissions Committee reserves the right to deny admission to the Bachelor of Midwifery Program based on any of the supplementary information. Applicants who would be eligible to register in third or fourth year courses will be considered for admission only if space is available.

Appeals of decision are limited to the question of procedural regularity only. The merits of the decision are not subject to review.

### **Special Consideration - Canadian Indigenous Category**

The Canadian Indigenous Category will consider applicants who are Indigenous People of Canada only, including individuals of First Nations, Metis, and Inuit heritage. Applicants in this category must meet the minimum entrance requirements including a minimum AGPA of 2.5; however, they do not have to meet the competitive grade point average of admitted students in the admission year. Applicants must apply by the application deadline and also complete a supplementary application form that is available with the online application. The Supplementary Application and information are due no later than May 1.

Appeals of decisions are limited to the question of procedural regularity only. The merits of the decision are not subject to review.

### **Provisional Admission**

#### **Advanced Standing/Transfer Credit**

Advanced standing will be considered for non-midwifery and non-nursing courses completed at any university, including the University of Manitoba and University College of the North, if completed within 10 years of admission to the Bachelor of Midwifery program.

Midwifery and nursing courses from any university, including the University of Manitoba and University College of the North, will be considered for advanced standing/transfer credit only if they have been completed within five years prior to admission to the Bachelor of Midwifery Program.

See also section on "Courses Completed at Recognized Universities other than the University of Manitoba."

### **Non-Academic Admission Requirements**

All successful applicants are admitted provisionally pending compliance with the non-academic admission requirements of the Bachelor of Midwifery Program. Failure to meet the requirements by July 15 will result in the offer of admission being revoked. Please refer to the following document for further information about the Non-Academic Admission Requirements <http://umanitoba.ca/explore/programs-of-study/midwifery-bmid#admission-requirements>

### **Criminal Record Search Certificate**

Following their provisional admission to the Bachelor of Midwifery Program, applicants must provide a Criminal Record Search Certificate, including Vulnerable Sector Search, by July 15. As it can take up to 120 days to obtain these documents, it is recommended that applicants apply for the Criminal Record Search certificate and Vulnerable Sector Search between April 1 and April 15 in the year of application.

A criminal conviction will not necessarily result in denial of admission to the Bachelor of Midwifery Program. Criminal offences will be reviewed by a sub-committee of the Advance Standing and Admissions Committee for the implications of the conviction in view of the professional mandate to protect the public. Failure to disclose any criminal record will invalidate an applicant's application and shall result in automatic expulsion from the Bachelor of Midwifery Program if the applicant has been admitted.

The College of Midwives of Manitoba may also require that all graduates of an approved midwifery education program who wish to practice midwifery in this province disclose information about any conviction for an offence under the Criminal Code (Canada). The review process by the Bachelor of Midwifery Program is independent of the review process conducted by the CMM.

### **Child Abuse Registry Check**

Following provisional admission to the Bachelor of Midwifery Program, applicants must provide a Child Abuse Registry check by July 15. As it can take up to 120 days to obtain these documents, it is recommended that applicants apply for the Child Abuse Registry check between April 1 and April 15 in the year of application.

Any applicant on the Child Abuse Registry will be denied admission.

### **Adult Abuse Registry Check**

Following provisional admission to the Bachelor of Midwifery Program, applicants must provide an Adult Abuse Registry check by July 15. As it can take up to 120 days to obtain these documents, it is recommended that applicants apply for the Adult Abuse Registry check between April 1 and April 15 in the year of application.

### **Immunization**

Immunizations and tests will be provided at the College of Nursing. Students who are offered admission will be sent an Immune Status Consent Form & Student information for completion due July 15 for Fall intake. Previous immunization and testing records will be reviewed and students will be informed what additional items, if any, are required. Detailed information about the immunization requirements can be found at <http://umanitoba.ca/faculties/nursing/undergrad/index.html>.

### **CPR Certification**

CPR certification at the Health Care Provider Level is a requirement for admission to the Bachelor of Midwifery Program. Certification must be valid until the end of the academic year (i.e., April); therefore, should not be obtained before April 1st of Year 2 of the Bachelor of Midwifery Program.

### **Respirator Mask-Fit Testing**

Applicants must be fit-tested with the respirator mask that is used in the event that airborne precautions are required in clinical agencies. Official proof of the mask-fit test must be submitted to the College of Nursing by July 15.

As it can take a number of weeks to obtain an appointment for fit testing, applicants are advised to book as soon as they are offered admission or earlier in order to meet the July 15 deadline.

## **SECTION 3: Academic Regulations**

The provisions of the chapter, [General Academic Regulations](#) and Requirements, and the chapter, [University Policies](#), apply to all students. In addition, the College of Nursing has regulations and requirements, published below, that apply specifically to its students.

Following the regulations for all students, please see the regulations that are specific to each program.

### 3.1 Regulations for the Bachelor of Nursing Program

Students are obligated to be familiar with all regulations governing their continued progress in the program.

#### Security of Academic Records

The University's policies regarding the security of student academic records are found in the chapter, University Policies, of this Calendar.

#### Registration Status in the Program

Students admitted to the Program must complete a minimum of 3 credit hours of course work in the College of Nursing in the Fall or Winter term of their admission year.

Students are expected to maintain contact with the program by registering in at least one nursing course during each consecutive Fall and Winter term while they are enrolled in the Program.

Students who wish to interrupt their studies must apply in writing to the Associate Dean, Undergraduate Programs, for a Leave of Absence.

#### Leave of Absence

Students wishing to interrupt their studies must submit a written request for a Leave of Absence, normally by June 1 for Fall Term or November 1 for Winter Term, to the Associate Dean, Undergraduate Programs, College of Nursing. Later requests may be considered in exceptional circumstances. A Leave of Absence may normally be granted for a maximum period of one year. Requests for an extension to the Leave of Absence or for a subsequent Leave of Absence must be made in writing and will be subject to approval by the Associate Dean, Undergraduate Programs.

In order to return to the College of Nursing, students must submit a written request for reinstatement to the Associate Dean, Undergraduate Programs, no later than May 1 for Fall Term or October 1 for Winter Term. Requests for reinstatement will not normally be considered after May 1 or October 1 respectively. Students who do not apply for reinstatement by May 1 or October 1 will normally be considered as having left the Nursing program, and will be withdrawn from the College of Nursing.

Decisions made in response to requests for leaves of absence or reinstatement can be appealed to the College of Nursing Student Appeals Committee.

Leave of Absence status does not extend the program time limit outlined in the College of Nursing regulations. To maintain Leave of Absence status, and not be discontinued from the College of Nursing, students may not attend any other faculty or institution during the period in which the Leave of Absence is in effect. Students on a Leave of Absence will be subject to the same criminal record, Child Abuse Registry, and Adult Abuse Registry policies as students taking courses. At the time of requesting a return to studies, students may be required to provide a current self-declaration of a criminal record or a Criminal Record Check, Child Abuse Registry, and Adult Abuse Registry check.

Students who attend another faculty or institution while on leave, or who have been withdrawn from the College of Nursing because they were not granted a Leave of Absence and did not take at least one Nursing course in Fall or Winter term, must re-apply through Admissions should they wish to return.

#### Residence Requirements

See the chapter, [General Academic Regulations](#) and Requirements in this Calendar.

#### Coursework and Evaluation

##### "0900" Level Courses

Credit will not be given for "0900" courses.

#### University Mathematics and Written English Requirement

Students admitted September 2015 and later must satisfy the Written English requirement and Mathematics requirement prior to admission.

#### Prerequisite Deficiency

Students who enroll in courses provisionally pending satisfactory completion of pre- or co-requisites must, if unsuccessful, withdraw or amend their registration accordingly. The College of Nursing reserves the right to not send reminders of the requirement to withdraw.

#### Challenge for Credit

Students wishing to challenge a course for credit should contact a student advisor.

#### Supplemental Examinations or Tests

The College of Nursing does not permit supplemental examinations or tests.

#### Academic Progression

Students are required to obtain a minimum of "C" grade in every letter grade course, a "Pass" in every Pass/Fail course, and a Program GPA of 2.5 to graduate. A final grade of "D" or "F" in a letter grade course or "Fail" in a Pass/Fail course taken to complete the degree requirement is considered a failure.

Academic assessments will be based on student performance in letter grade courses. The Term Grade Point Average (TGPA) will be calculated at the conclusion of each academic term in which the student has completed a minimum of 6 credit hours. Students who do not complete the minimum credit hours in one term will be assessed as "too few credit hours to assess." These students will be assessed over two terms or more at the end of the term in which they reach the threshold of 6 credit hours.

The final term of the program (NURS 4580) will be excluded from assessment providing the student meets graduation requirements. Students are required to have a minimum Program GPA of 2.5 to be eligible for graduation. Please see [http://umanitoba.ca/faculties/nursing/undergrad/assessment\\_policy.html](http://umanitoba.ca/faculties/nursing/undergrad/assessment_policy.html) for details and procedures.

#### Good Academic Standing

A student with a TGPA of 2.5 or higher will be assessed "Faculty Minimum Met."

#### Academic Warning

The first time a student's TGPA drops below 2.5, the student will receive an Academic Warning.

#### Academic Probation

The second time that a student's TGPA drops below 2.5, the student will be placed on Academic Probation.

## Academic Suspension

The third time that a student's TGPA drops below 2.5, the student will be placed on Suspension. Students who are suspended shall be ineligible to take any courses at the University of Manitoba or on a letter of permission for a minimum of eight and a maximum of 15 calendar months.

A student may apply for reinstatement on academic probation after the term of suspension has been completed.

## Required to Withdraw

Students who have been permitted to return from Suspension and whose TGPA drops below 2.5 a fourth time will be Required to Withdraw. Students who are Required to Withdraw are ineligible for re-admission to the College of Nursing.

## Dean's Honour List

The Dean's Honour list will be determined after each term of study. Students who achieve a minimum Term GPA of 3.75, and who are registered for a minimum of 12 credit hours will be placed on the Dean's Honour List. Students who complete a course on a Letter of Permission may request to have these courses included in the assessment for Dean's Honour List. Students with a grade of D, F, or "Fail" in that term will not be eligible for Dean's Honour List.

## Degree with Distinction

Students who achieve a Degree GPA of 3.8 and above based on the last 68 credit hours of course work, including Pass/Fail courses, will be eligible for a Degree with Distinction. Students with a grade of D, F, or "Fail" in the last 68 credit hours will not be eligible.

## Voluntary Withdrawal

Students are allowed only one voluntary withdrawal per Nursing course in the College of Nursing.

Students who voluntarily withdraw from a Nursing course a subsequent time will have their withdrawal reversed and will be expected to complete the course. Students planning to withdraw from any course are advised to speak with a student advisor regarding the implications of this decision. Any financial implications will be the responsibility of the student.

## Attendance

Regular attendance at class is expected of all students in all courses. Attendance in on-line courses will be interpreted as regular and consistent participation in the course.

Attendance in the clinical practice/laboratory portions of Nursing courses is mandatory to enable the student to satisfy the evaluative criteria of the theoretical and practical components of courses. Students absent from class or practice due to illness may be required to present a certificate of illness. This certificate must be signed by a recognized health care provider. Absence for compassionate reasons is considered on an individual basis. Where absence is involved, make-up time may be required.

A course leader may initiate procedures to debar a student from attending classes and from final examinations and/or from receiving credit where unexcused absences exceed those permitted by faculty regulations.

## Debarment Policy

A student may be debarred from class, clinical practice, laboratories, and examinations by action of the Associate Dean, Undergraduate Programs for persistent non-attendance, unsafe clinical practice, and/or failure to produce assignments to the satisfaction of the instructor. Once the debarment process has been initiated, the student will not be able to

voluntarily withdraw from the course that is presently under investigation. Students so debarred will have failed that course.

## Failures in Nursing Courses

Students will be permitted to repeat a nursing course only once following a failure. Withdrawal from the program will be required following a second failure in the same nursing course or any two clinical courses. Students who fail a Nursing course twice and are required to withdraw from the College of Nursing are ineligible for re-admission to the College of Nursing.

## Clinical Absence

Bachelor of Nursing Program students returning following one year or more absence from clinical courses must complete a mandatory demonstration of psychomotor skills competency in the skills lab. Competency must be demonstrated prior to clinical attendance. Students should consult with a student advisor for instructions. Testing must be completed prior to July 1 (Fall Term) or December 1 (Winter Term).

## Failures in Clinical (Pass/Fail) Courses

Students who fail a clinical course will be required to accept a supportive learning contract prior to being given permission to register in another clinical course.

## Failures in Clinical Course Rotations

Students who fail a rotation of a clinical course in which there are multiple rotations will be debarred from the course immediately following that rotation and will receive a final grade of "Fail". These students will not be permitted to voluntarily withdraw from the course following receipt of the failed grade.

## Unsafe Clinical Practice Policy

The debarment policy will be invoked when the student demonstrated unsafe clinical practice. Unsafe clinical practice involves actions or behaviours which result in adverse effects or the risk of adverse effects to the health and well-being (psychological or physical) of the client, family, staff, faculty, or other students. Unsafe clinical practice is an occurrence, or a pattern of behaviour involving unacceptable risk.

## Clinical Practice

Students enrolled in nursing courses with clinical practice components may not register for any other course during those designated clinical days. Nursing clinical practice may be scheduled during the morning, afternoon or evening. Weekends are also used for some sections in clinical courses.

All students must be registered in all clinical courses for both terms by the specified deadline. Failure to register by this date may prevent accommodation in a clinical course.

Transportation costs to clinical practice settings are the responsibility of the student.

Every effort will be made to accommodate eligible students who register for clinical courses during the initial registration period. However, spaces in clinical courses are dependent upon the availability of clinical sites, which are determined by health care agencies and the availability of clinical teachers. Therefore, the College cannot guarantee that all students who registered for the course can be accommodated.

## Clinical Agency Requirements

The College of Nursing has contractual arrangements with the agencies in which students are placed for clinical practice. The contracts set out specific expectations regarding the preparation of students prior to their placement in any clinical site and their fitness to practice.

The College of Nursing assists the student to complete the following requirements and further information about how these requirements are met will be provided during Year 2 orientation or during NURS 0500.

### 1. The Personal Health Information Act (PHIA) Training

PHIA cards are required for clinical practice and will be checked at clinical sites.

### 2. Non-Violent Crisis Intervention Workshop

Provided after admission.

### 3. Electronic Patient Record Training

The following requirements are the responsibility of the student and must be completed independently, according to deadlines established by the College of Nursing. For newly admitted students, instructions about how to fulfill these requirements is set out in Section 3.1 Admission Requirements.

### 4. Immunizations

Once admitted to the College of Nursing, students are required to maintain an up-to-date immunization status. Deadlines for completion of required vaccines will be established for individual students as needed. Students should keep a copy of their immunization records and retrieve their immunization records from their files upon graduation.

#### Penalty for Non-Compliance with Immunization Policy

Returning students who do not comply with the deadlines for completion of their immunizations, will be placed on hold status, which blocks the student from the registration system. Students on hold will be permitted to register in mid-August after all documentation has been received. Students who register in mid-August may not be able to register in some or all of the courses they had originally planned to take, and may experience a delay in completing the program. Hold status also prevents receipt of refunds or histories/transcripts from the Registrar's Office, attending clinical practice, and graduation.

### 5. Mandatory Annual Influenza Vaccination

All undergraduate students in the College of Nursing are required to obtain an annual influenza vaccination and submit documentation confirming the vaccination by the published deadline.

Students who do not submit documentation of influenza vaccination by the published deadline may not participate in clinical practice courses in Winter Term.

### 6. Criminal Record Check

Some clinical practice sites require that students complete a current or additional Criminal Record Check prior to the first clinical practice day.

Prior to starting Year 4 Year Term 2 of the Bachelor of Nursing Program, all students must complete a current Criminal Record Check (deadline of July 15 for fall term and November 15 for winter term).

Students charged with or convicted of a criminal offence are required to report this information to the Associate Dean, Undergraduate Programs, College of Nursing. Failure to report a criminal offence may result in dismissal from the program. Criminal offences will be reviewed by the College of Nursing Professional Unsuitability Committee for the implications of the conviction in view of the professional mandate to protect the public.

### 7. Child Abuse Registry

Some clinical practice sites require that students complete a current or additional Child Abuse Registry check prior to the first clinical practice day.

Prior to starting Year 4 Year Term 2 of the Bachelor of Nursing Program, all students must complete a current Criminal Record Check (deadline of July 15 for fall term and November 15 for winter term).

Students listed on the Child Abuse Registry are required to report this information to the Associate Dean, Undergraduate Programs, College of Nursing. A listing on the Child Abuse Registry or failure to report the listing will result in dismissal from the program.

### 8. Adult Abuse Registry

Some clinical practice sites require that students complete a current or additional Adult Abuse Registry check prior to the first clinical practice day.

Prior to starting Year 4 Year Term 2 of the Bachelor of Nursing Program, all students must complete a current Criminal Record Check (deadline of July 15 for fall term and November 15 for winter term).

Students listed on the Adult Abuse Registry are required to report this information to the Associate Dean, Undergraduate Programs, College of Nursing.

### 9. Cardiopulmonary Resuscitation Certification (CPR)

All students are required to obtain certification in CPR at the Health Care Provider Level. Returning students, including those certified at the Instructor level, must recertify in April/May each year to ensure that their certification is valid for the entire academic year. Proof of re-certification must be submitted annually by June 1 to the Student Services Assistant or designate.

#### Penalty for Non-Compliance with CPR Policy

Returning students who do not comply with the deadlines for submission of the CPR re-certification, will be placed on hold status, which blocks the student from the registration system. Students on hold will be permitted to register in mid-August after all documentation has been received. Students who register in mid-August may not be able to register in some or all of the courses they had originally planned to take, and may experience a delay in completing the program. Hold status also prevents receipt of refunds or histories/transcripts from the Registrar's Office, attending clinical practice and graduation.

### 10. Respirator Mask Fit Testing

Mask-fit test cards are required for clinical practice and will be checked at clinical sites.

#### Attire for Clinical Practice

All students are required to wear uniforms, name tags and crests during clinical courses, unless given specific instructions not to do so by the agency in which they are placed for clinical practice.

#### Professional Unsuitability By-Law

The Senate of the University has approved a by-law granting authority to the College to require a student to withdraw for reasons of professional unsuitability. A student may be required to withdraw from the College when, at any time, the College Council, through the Professional Unsuitability By-Law, believes the student to be unsuited for the profession of nursing, on general considerations of scholarship, professional fitness or professional conduct.

Copies of this by-law may be obtained from <http://umanitoba.ca/faculties/nursing/undergrad/unsuitability-by-law.html> See chapter, [General Academic Regulations](#) and Requirements.

## Disciplinary Appeal

Until the final disposition of a disciplinary appeal, students in the Bachelor of Nursing Program will not be permitted to attend clinical practice or the nursing skills laboratory. At the discretion of the Associate Dean, Undergraduate Programs, College of Nursing, students may be granted permission to attend the lecture component only of a nursing course(s) while awaiting a final disposition of an appeal currently in progress.

## 3.2 Regulations for the Baccalaureate Program for Registered Nurses (BPRN)

Students are obligated to be familiar with all regulations governing their continued progress in the program.

### Security of Academic Records

The University's policies regarding the security of student academic records are found in the chapter, "[University Policies](#)", of this Calendar.

### Registration Status in the Program

Students admitted to the BPRN must complete a minimum of 3 credit hours of course work in the Fall or Winter term following admission. Admission will be revoked for students who do not complete at least 3 credit hours in their first or second term of study following admission.

Students are expected to maintain contact with the program by registering in at least one nursing course during each consecutive Fall and Winter term while they are enrolled in the Program.

Students who wish to interrupt their studies must apply in writing to the Associate Dean, Undergraduate Programs, for a Leave of Absence. Refer to section on Leave of Absence for further information.

### Program Planning

Students are expected to meet with a Nursing Student Advisor prior to May 15 to plan their program for the upcoming year. Students who do not meet with the Nursing Student Advisor will be placed on hold status, which blocks the student from the registration system and prevents receipt of refunds or histories/transcripts from the Registrar's Office, and graduation.

### Leave of Absence

BPRN students wishing to interrupt their studies must have completed a minimum of 3 credit hours of course work in the College of Nursing in the Fall or Winter term of their admission year. Students must submit a written Leave of Absence request to the Associate Dean, Undergraduate Programs, College of Nursing. Leave of Absence status does not extend the program time limit outlined in the College of Nursing regulations. To maintain a Leave of Absence status at the University of Manitoba, students may not attend any other post-secondary institution during the period in which the Leave of Absence is in effect. See section [Transfer of Credit](#).

### Reinstatement

Students who have withdrawn from the College of Nursing (interrupted their studies without requesting a Leave of Absence) must submit a written request for reinstatement to the Associate Dean, Undergraduate Programs. The student advisor will inform the student of the appropriate procedure and advanced standing, if any, that the student may receive. Note: 1) the student who does not attend another faculty or institution and requests, within five years of voluntary withdrawal, to re-enter the College of Nursing will be advised to forward such a request to the Associate Dean, Undergraduate Programs; 2) the student who requests to return to the College of Nursing more than five years after withdrawal must re-apply; 3) the student who has attended another faculty or an institution following withdrawal from Nursing must re-apply. See [section 2.1 Advanced Standing/Transfer of Credit](#).

**Note that the BPRN must be completed within five years, including time on a Leave of Absence.**

### Residence Requirements

Students are required to complete, with the minimum grade of "C" in each course, at least 32 credit hours of University of Manitoba courses. Of these courses, a minimum of 20 credit hours must be from among those offered by the College of Nursing.

### Course Work and Evaluation

#### Supplemental Examinations or Tests

The College of Nursing does not permit supplemental examinations or tests.

#### "0900" Level Courses

Credit will not be given for "0900" courses.

#### Prerequisite Deficiency

Students who enrol in courses provisionally pending satisfactory completion of pre- or co-requisites must, if unsuccessful, withdraw or amend their registration accordingly. The College of Nursing reserves the right to not send reminders of the requirement to withdraw.

#### Challenge for Credit

Students wishing to challenge a course for credit should contact a student advisor.

#### Proof of Professional Registration

Verification of registration of returning students will be obtained by the College of Nursing annually from the College of Registered Nurses of Manitoba (CRNM). Students not registered with the College of Registered Nurses of Manitoba and continuing in the program must submit proof annually of active practicing status in the Canadian jurisdiction in which they hold membership.

After admission and at any time prior to completing the program, students with any changes to their active practicing status with the CRNM, or other Canadian jurisdiction in which they hold membership (e.g., conditions placed on a registration or ineligibility for active practicing status), are required to report this information to the Associate Dean, Undergraduate Programs, College of Nursing. Such changes will be reviewed on a case by case basis. Failure to report a change in status may result in disciplinary action.

#### Academic Progression

Students will be required to obtain a minimum of "C" grade (2.0) in every course, and a minimum Program GPA of 2.5 in order to graduate. A final grade of "D" in any course taken to complete the degree requirement is considered a failure and is not accepted by the College.

Students must have a minimum Degree GPA of 2.5 to proceed in the program. For further information, refer to: Academic Probation - Baccalaureate Program for Registered Nurses.

#### Dean's Honour List

Students who achieve a minimum Term GPA of 3.5, including courses taken on a Letter of Permission, and who are registered for a minimum of 12 credit hours, will be placed on the Dean's Honour list. The Dean's Honour list will be determined after each term of study.

#### Degree with Distinction

Students who obtain a Degree GPA of 3.8 and above in their program of studies will be eligible for a Degree with Distinction.

### Academic Probation

Students will be assessed after the Winter term upon completion of a minimum of 18 credit hours. Students failing to achieve the minimum Degree GPA of 2.5 will be placed on probationary status.

Probationary students will be assessed at the end of the Winter term after completion of a minimum of 15 credit hours. Students failing to achieve the minimum Degree GPA of 2.5 will be placed on academic suspension.

### Academic Suspension

A probationary student who does not achieve the minimum academic standing is required to withdraw from the College of Nursing with the status "academic suspension." While suspended indefinitely, after one year's suspension the student may apply for reinstatement on academic probation.

To request reinstatement following academic suspension, the student should submit a written request before May 1 to the Chair, Student Appeals Committee, College of Nursing.

### Voluntary Withdrawal

Students are allowed only one voluntary withdrawal per nursing course in the College of Nursing.

Students who voluntarily withdraw from a nursing course a subsequent time will have their withdrawal reversed and will be expected to complete the course. Students planning to withdraw from any course are advised to speak with a student advisor regarding the implications of this decision. Any financial implications will be the responsibility of the student.

### Attendance

Regular attendance at class is expected of all students in all courses. Attendance in on-line courses will be interpreted as regular and consistent participation in the course. Attendance in the clinical practice/laboratory portions of nursing courses is mandatory to enable the student to satisfy the evaluative criteria of the theoretical and practical components of courses. Students absent from class or practice due to illness may be required to present a certificate of illness. This certificate must be signed by a recognized health care provider. Absence for compassionate reasons is considered on an individual basis. Where absence is involved, make-up time may be required.

A course leader may initiate procedures to debar a student from attending classes and from final examinations and/or from receiving credit where unexcused absences exceed those permitted by college regulations.

### Debarment Policy

A student may be debarred from class, clinical practice, laboratories, and examinations by action of the Associate Dean, Undergraduate Programs for persistent non-attendance, unsafe clinical practice, and/or failure to produce assignments to the satisfaction of the instructor. Once the debarment process has been initiated, the student will not be able to voluntarily withdraw from the course that is presently under investigation. Students so debarred will have failed that course.

### Failures in Nursing Courses

Students will be permitted to repeat a nursing course only once following a failure. Withdrawal from the program will be required following a second failure in the same nursing course. Students who fail the same Nursing course twice and are required to withdraw from the College of Nursing are ineligible for re-admission to the College of Nursing.

### Professional Unsuitability By-Law

The Senate of the University has approved a by-law granting authority to the College to require a student to withdraw for reasons of professional unsuitability. A student may be required to withdraw from the College when, at any time, the College Council, through the Professional Unsuitability By-Law, believes the student to be unsuited for the profession of nursing, on general considerations of scholarship, professional fitness or professional conduct.

Copies of this by-law may be obtained from the College of Nursing website, [umanitoba.ca/nursing](http://umanitoba.ca/nursing). See chapter, General Academic Regulations and Requirements.

### Clinical Agency Requirements

#### Immunizations

Immunizations are a requirement mandated by the Regional Health Authorities.

New students enrolling in the BPRN must provide proof of current immunization by July 15. Once admitted to the College of Nursing, students are required to maintain an up-to-date immunization status. See Penalty for Non-Compliance of Immunization and CPR section. Students should keep a copy of their immunization records and retrieve their immunization records from their files upon graduation.

#### Cardiopulmonary Resuscitation Certification (CPR)

All students must be certified at the Health Care Provider (HCP) Level. Newly admitted students must submit proof of certification to the Student Services Assistant or designate by July 15. Thereafter, registered nurses are to maintain current certification at the required level.

#### Penalty for Non-Compliance of Immunization and CPR

Students who do not comply with the deadlines for proof of current CPR and/or immunizations will be placed on hold status, which blocks the student from the registration system. Students on hold status will be permitted to register after all documentation has been received. Hold status also prevents receipt of refunds or histories/transcripts from the Registrar's Office, attending clinical practice and graduation. Students who register after the initial registration period may not be able to register in some or all of the courses they had originally planned to take, and may experience a delay in completing the program.

#### Criminal Record Check/Child Abuse Registry Check/Adult Abuse Registry Check

Students are required to hold active registration with the CRNM which further requires a yearly self-declaration of any criminal charges or convictions. In addition, at any time prior to completing the BPRN (regardless of admission date), students charged with, or convicted of, a criminal offence or listed on the Child Abuse Registry or the Adult Abuse Registry are required to report this information to the Associate Dean, Undergraduate Programs, College of Nursing. Failure to report a criminal offence may result in dismissal from the program. Criminal offences will be reviewed by the College of Nursing for the implications of the conviction in view of the professional mandate to protect the public. A listing on the Child Abuse Registry or failure to report the listing will result in dismissal. In addition, please note that some clinical practice sites require that students complete a current or additional Criminal Record Check and/or a Child or Adult Abuse Registry check.

#### Name Tags

Students are required to wear a University of Manitoba, College of Nursing name tag during clinical/project courses when meeting with patients or clients.

### 3.3 Regulations for the Bachelor of Midwifery

The provisions of the chapter, General Academic Regulations and Requirements, and the chapter, University Policies, apply to all students. In addition, the Bachelor of Midwifery Program has regulations and requirements, published below, that apply specifically to its students.

#### Regulations for the Bachelor of Midwifery Program

Students are obligated to be familiar with all regulations governing their continued progress in the program.

#### Security of Academic Records

The University's policies regarding the security of student academic records are found in the Chapter, [University Policies](#), of this Calendar.

#### Registration Status in the Program

Students admitted to the Bachelor of Midwifery Program are required to register for a 100% course load in each term of the program. Students who fail to complete course work in the year of admission must reapply.

#### Student Registration with the College of Midwives of Manitoba

Each midwifery student must be registered with the College of Midwives of Manitoba at the end of Term 2, Year 2, in order to be eligible to register in MDFY 2090: Normal Childbearing Clinical Practice and Tutorial in Term 3, Year 2 of the Program. Thereafter, students must register with the College of Midwives of Manitoba annually.

Penalty for Non-Compliance with the Student Registration with the College of Midwives of Manitoba Policy: Students who do not register with the College of Midwives of Manitoba as set out in the policy will be placed on hold status, which blocks the student from the registration system.

#### Leave of Absence

Students wishing to interrupt their studies must submit a written request for a leave of absence, normally by June 1, to the Associate Dean, Undergraduate Programs, College of Nursing. Later requests may be considered in exceptional circumstances. A leave of absence may normally be granted for a maximum period of one year. Leaves may be granted for maternity, illness, or for compassionate/personal reasons. Poor academic standing is not a valid reason for a leave to be granted. Requests for an extension to the leave of absence or for a subsequent leave of absence must be made in writing and will be subject to approval by the Associate Dean, Undergraduate Programs.

In order to return to the Bachelor of Midwifery Program, students must submit a written request for reinstatement to the Associate Dean, Undergraduate Programs, no later than May 1 of the year of return. Requests for reinstatement will not normally be considered after May 1. Students who do not apply for reinstatement by May 1 will normally be considered as having left the Program, and will be withdrawn from the Program.

Decisions made in response to requests for leaves of absence or reinstatement can be appealed to the College of Nursing Admissions Committee.

Leave of absence status does not extend the program time limit outlined in the Bachelor of Midwifery Program regulations. To maintain leave of absence status, and not be discontinued from the Program, students may not attend any other faculty or institution during the period in which the leave of absence is in effect. Students on a leave of absence will be subject to the same criminal record, child abuse registry, and adult abuse registry policies as students taking courses. At the time of requesting a return to studies, students will be required to provide a current self-declaration of a criminal record, child abuse registry, and adult abuse registry listing.

Students who attend another faculty or institution while on leave, or who have been withdrawn from the Bachelor of Midwifery Program because they were not granted a leave of absence and did not take at least one Midwifery course in Fall or Winter term, must re-apply to the Bachelor of Midwifery Program should they wish to return.

#### Residence Requirements

To qualify for graduation from the Bachelor of Midwifery Program, students must complete a minimum of 2 years of study at the University of Manitoba.

#### Coursework and Evaluation

##### "0900" Level Courses

Credit will not be given for "0900" courses.

#### University of Manitoba Mathematics and Written English Requirement

All students must meet the Written English and Mathematics requirements prior to admission. Students should refer to the General Academic Regulations and Requirements in this Calendar.

#### Prerequisite Deficiency

Students who enroll in courses provisionally pending satisfactory completion of pre- or co-requisites must, if unsuccessful, must withdraw or amend their registration accordingly. The Bachelor of Midwifery Program reserves the right to not send reminders of the requirement to withdraw.

#### Challenge of Credit

Students wishing to challenge a course for credit should contact a Student Advisor.

#### Supplemental Examinations or Tests

The Bachelor of Midwifery Program does not permit supplemental examinations, tests, or assignments.

#### Academic Progression

Students are required to obtain a minimum of "C" grade (2.0) in every course, and a Degree GPA of 2.5 in order to graduate. A final grade of "D" in a standard grade course or "Fail" in a Pass/Fail course taken to complete the degree requirement is considered a failure and is not accepted in the Bachelor of Midwifery Program.

Students shall be evaluated at the conclusion of each academic term in which they receive a final grade in a minimum of 6 credit hours of course work. Students who do not complete the minimum credit hours in one term will be assessed on the combined course work over two terms or more when they reach the threshold of 6 credit hours.

The final term of the Bachelor of Midwifery Program will be excluded from assessment providing the student meets graduation requirements. Students are required to have a minimum Program GPA of 2.5 to be eligible for graduation.

#### Good Academic Standing

A student with a TGPA of 2.5 or higher, and no failed courses, will be assessed "Faculty Minimum Met"

#### Academic Warning

A student will receive an Academic Warning if:

- the student's TGPA drops below 2.5 a first time, OR

- the student receives a grade of "Fail" a first time

### Academic Probation

A student will be placed on Academic Probation if:

- The student's TGPA drops below 2.5 a second time, OR
- The student received a grade of "Fail" and the student has previously had a TGPA below 2.50 in one previous term, OR
- The student's TGPA drops below 2.50 and the student has a "Fail" in a previous term

A formal remediation plan will be mandatory for students on academic probation

### Academic Suspension

A student will be placed on Suspension if:

- The student's TGPA drops below 2.5 a third time, OR
- The student receives a grade of "Fail" and the student has previously had a TGPA below 2.50 in two previous terms, OR
- The student's TGPA drops below 2.50 for a second time and the student has a "Fail" in an additional previous term

Students who are suspended shall be ineligible to take any courses at the UM; or on a letter of permission for a minimum of eight, and a maximum of 16, calendar months.

In the instance where the suspension makes it impossible for students to complete the program within 6 years of commencement of the program, students will not be eligible for a program extension.

### Required to Withdraw

Students who have been permitted to return from Suspension and whose TGPA drops below 2.5, or receives a grade of "Fail" will be Required to Withdraw. Students who are Required to Withdraw are ineligible for re-admission to the Bachelor of Midwifery Program.

### Voluntary Withdrawal

Students are permitted only one voluntary withdrawal per required course in the Bachelor of Midwifery Program. Students who voluntarily withdraw from the same course a second time will have their withdrawal reversed and will be expected to complete the course. Students planning to withdraw from any course are advised to speak with a student advisor regarding the implications of this decision. Any financial implications will be the responsibility of the student.

### Attendance

Attendance at all courses in the Bachelor of Midwifery Program is expected of all students. This includes on-line courses, where attendance will be interpreted as regular and consistent participation in the course. Students absent from class or practice due to illness or a family medical emergency must notify their course leaders and the Program Director as soon as possible.

At the discretion of the Director, Midwifery Program, documentation confirming the reason for the absence may be requested. In the case of an illness, the student may be required to present a certificate of illness signed by a health care provider.

Absence for compassionate reasons will be considered on an individual basis by the Director, Midwifery Program.

Students who miss classes for any reason are responsible for taking the initiative to ensure that they have achieved the learning outcomes set out for that class. Where absence involves clinical/clerkship courses, make-up time may be required if it can be arranged.

### Debarment Policy

A student may be debarred from any course or examination in the Bachelor of Midwifery Program by action of the Associate Dean, Undergraduate Programs for persistent non-attendance, which does not meet the exceptions set out in the attendance policy. Once the debarment process has been initiated, the student will not be able to voluntarily withdraw from the course that is under investigation. Students so debarred will have failed that course.

### Failures in Required Courses

Students in the Bachelor of Midwifery Program will be required to withdraw from the Program following a second failure in the same course (theory or clinical/clerkship) or one failure in any two clinical/clerkship courses. Students who are required to withdraw under this regulation are ineligible for re-admission to the Program.

### Clinical Absence

Attendance at all courses in the Bachelor of Midwifery Program is expected of all students. This includes online courses, where attendance will be interpreted as regular and consistent participation in the course. Students absent from class or practice due to illness or a family medical emergency must notify their course leaders and the Program Director as soon as possible.

At the discretion of the Director, Bachelor of Midwifery Program, documentation confirming the reason for the absence may be requested. In the case of an illness, the student may be required to present a certificate of illness signed by a health care provider.

Absence for compassionate reasons will be considered on an individual basis by the Director, Bachelor of Midwifery Program.

Students who miss classes for any reason are responsible for taking the initiative to ensure that they have achieved the learning outcomes set out for that class. Where absence involves clinical/clerkship courses, make-up time may be required if it can be arranged.

### Failures in Clinical/Clerkship Courses

Students who fail a clinical/clerkship course will be required to accept a supportive learning contract prior to being given permission to register in another clinical/clerkship course.

### Unsafe Clinical Practice Policy

Unsafe clinical practice is defined as an occurrence, or a pattern of behaviour in the clinical setting that creates unacceptable risk to others. It involves actions or behaviours which result in adverse effects or the risk of adverse effects to the psychological or physical health and well-being of the client, family, staff, faculty, or other students.

A student will be debarred from a clinical/clerkship by action of the Associate Dean, Undergraduate Programs if their conduction in clinical practice is assessed as being consistent with the definition of unsafe clinical practice set out in the policy. Once the debarment process has been initiated, the student will not be able to voluntarily withdraw from the course that is under investigation. Students so debarred will have failed that course.

### Clinical Practice

Students enrolled in midwifery clinical/clerkship and tutorial courses may not register for any non-required or elective courses during that term. Students will be required to be available 24 hours per day, including weekends, for clinical/clerkship courses.

Students in the Bachelor of Midwifery Program must accept clinical placements in any location in Manitoba arranged for them by the Program. All costs associated with clinical placements, including, but not limited to transportation, parking, accommodation, and meal costs are the responsibility of the student.

All students must be registered in all clinical courses for both terms by the specified deadline. Failure to register by this date may prevent accommodation in a clinical course. Current deadlines are published on the College of Nursing website.

### **Clinical Agency Requirements**

The Bachelor of Midwifery Program has contractual arrangements with the agencies in which students are placed for clinical practice. The contracts set out specific expectations regarding the preparation of students prior to their placement in any clinical site and their fitness to practice.

#### **1. Personal Health Information Act (PHIA) Training**

Students are required to complete a workshop to qualify for the PHIA card prior to their first day in clinical practice. Students must have their PHIA card with them at all times while in clinical practice.

Students who fail to produce their PHIA card while in clinical practice will be required to leave the practice setting until such time as they can produce the card.

#### **2. Non-Violent Crisis Intervention Workshop (NVCI)**

Students are required to complete the NVCI workshop prior to their first day of clinical practice.

Students who fail to complete the NVCI workshop will not be able to attend clinical practice.

#### **3. Electronic Patient Record (EPR) Training**

Students are required to complete EPR training prior to the first day of clinical practice.

Student who fail to complete the EPR training will not be able to attend clinical practice.

#### **4. Immunizations**

Once admitted to the Bachelor of Midwifery Program, students are required to maintain an up-to-date immunization status. Deadlines for completion of required vaccines will be established for individual students as needed. Students should keep a copy of their immunization records and retrieve their immunization records from their files upon graduation.

#### **Penalty for Non-Compliance with Immunization Policy**

Returning students who do not comply with the deadlines for completion of their immunizations will be placed on hold status, which blocks the student from the registration system. Students on hold will be permitted to register in mid-August after all documentation has been received. Students who register in mid-August may not be able to register in some or all of the courses they had originally planned to take, and may experience a delay in completing the program. Hold status also prevents receipt of refunds or histories/transcripts from the Registrar's Office, attending clinical practice, and graduation.

#### **5. Mandatory Annual Influenza Vaccination**

All Bachelor of Midwifery Program students are required to obtain an annual influenza vaccination and submit documentation confirming the vaccination by the published deadline.

Students who do not submit documentation of flu vaccination by the published deadline may not participate in clinical practice courses in Winter Term.

#### **6. Criminal Record Search Certificate**

Some clinical practice sites require that students complete a current or additional Criminal Record Search Certificate prior to the first clinical practice day.

Students charged with or convicted of a criminal offence are required to report this information to the Associate Dean, Undergraduate Programs, College of Nursing. Failure to report a criminal offence may result in dismissal from the program. Criminal offences will be reviewed by the Bachelor of Midwifery Program Professional Unsuitability Committee for the implications of the conviction in view of the professional mandate to protect the public.

#### **7. Child Abuse Registry**

Students charged with or convicted of child abuse are required to report this information to the Associate Dean, Undergraduate Programs, College of Nursing. Failure to report this information may result in dismissal from the program. Child abuse charges will be reviewed by the Bachelor of Midwifery Program Professional Unsuitability Committee for the implications in view of the professional mandate to protect the public.

A listing on the Child Abuse Registry or failure to report the listing will result in dismissal from the program

#### **8. Adult Abuse Registry**

Students charged with or convicted of adult abuse are required to report this information to the Associate Dean, Undergraduate Programs, College of Nursing. Failure to report this information may result in dismissal from the program. The adult abuse charge or conviction will be reviewed by the Bachelor of Midwifery Program Professional Unsuitability Committee for the implications in view of the professional mandate to protect the public

#### **9. Cardiopulmonary Resuscitation Certification (CPR)**

All students are required to obtain certification in CPR at the Health Care Provider Level. Returning students, including those certified at the Instructor level, must recertify in April/May each year to ensure that their certification is valid for the entire academic year. Proof of re-certification must be submitted annually by June 1 to the Student Services Assistant or designate.

#### **Penalty for Non-Compliance with CPR Policy**

Returning students who do not comply with the deadlines for submission of the CPR re-certification will be placed on hold status, which blocks the student from the registration system. Students on hold will be permitted to register in mid-August after all documentation has been received. Students who register in mid-August may not be able to register in some or all of the courses they had originally planned to take, and may experience a delay in completing the program. Hold status also prevents receipt of refunds or histories/transcripts from the Registrar's Office, attending clinical practice and graduation.

#### **10. Neonatal Resuscitation Certificate (NRP)**

All students are required to obtain certification in neonatal resuscitation annually. Proof of re-certification must be submitted annually by June 1 to the Student Services Assistant or designate.

### Penalty for Non-Compliance with the Neonatal Resuscitation Policy

Returning students who do not comply with the deadline will be placed on hold status, which blocks the student from the registration system. Students on hold will be permitted to register in mid-August after all documentation has been received. Students who register in mid-August may not be able to register in some or all of the courses they had originally planned to take, and may experience a delay in completing the program. Hold status also prevents receipt of refunds or histories/transcripts from the Registrar's Office, attending clinical practice, and graduation.

### 11. Respirator Mask Fit Testing

Mask-fit test cards are required for clinical practice and will be checked at clinical sites

Students who fail to produce their mask fit card while in clinical practice will be required to leave the practice site until such time as they can produce the card

### 12. Emergency Skills Certification

All students are required to obtain certification in Emergency Skills prior to registration in MDWY 3090: Clerkship and Tutorial in Term 2, Year 4 of the Program. Proof of this certification must be submitted by June 1 to the Student Services Assistant or designate.

### Penalty for Non-Compliance with the Emergency Skills Certification Policy

Returning students who do not comply with the deadline will be placed on hold status, which blocks the student from the registration system. Students on hold will be permitted to register in mid-August after all documentation has been received. Students who register in mid-August may not be able to register in some or all of the courses they had originally planned to take, and may experience a delay in completing the program. Hold status also prevents receipt of refunds or histories/transcripts from the Registrar's Office, attending clinical practice, and graduation.

### Attire for Clinical Practice

All students are required to wear professional attire and name tags during clinical courses unless given specific instructions not to do so by the agency in which they are placed for clinical practice.

Students may be required to leave their clinical placement at the discretion of their preceptor(s) if they do not adhere to the policy.

### Professional Unsuitability By-Law

The Senate of the University of Manitoba has approved a by-law granting authority to the College to require a student to withdraw for reasons of professional unsuitability. A student may be required to withdraw from the Bachelor of Midwifery Program when, at any time, the College Council, through the Professional Unsuitability By-Law, believes the student to be unsuited for the profession of midwifery, on general conditions of scholarship, professional fitness or professional conduct.

Copies of this by-law may be obtained on the College of Nursing website.

### Continuance in Clinical Practice Pending the Results of a Disciplinary Appeal

At the discretion of the Associate Dean, Undergraduate Programs, College of Nursing, students may be denied permission to attend clinical/clerkship courses in which they are registered until the final disposition of a disciplinary appeal is determined.

## SECTION 4: Program and Graduation Requirements

### 4.1a Bachelor of Nursing Program

Non-nursing courses must be completed within 10 years; and nursing courses must be completed within 5 years of admission to the program in order to be eligible for admission and advanced standing (transfer credit).

This program can be done by full-time and part-time study.

### All courses from any given year are to be completed before proceeding to the next year.

#### University 1 (30 credit hours)

(pre-nursing)

BIOL 1410	Anatomy of the Human Body	3
BIOL 1412	Physiology of the Human Body	3
MBIO 1220	Essentials of Microbiology	3

**Science Electives** 9

**Electives** Any combination of the following courses/subjects 12 for a total of 12 credit hours

Social Sciences or Humanities (6-12 cr)

NURS 1280 Introduction to Nursing (3 cr)

NURS 2610 or Health and Physical Aspects of Aging (3 cr)  
KIN 2610

REC 2650 or Social Aspects in Aging (3 cr)  
SWRK 2650 or  
HMEC 2650

NURS 1500 Preparing for Professional Nursing Education (3 cr)

#### Year 2 (31 credit hours)

##### Term 1

Health and Illness 1:  
NURS 2500 Pathophysiology/Pharmacology/Assessment 6

NURS 2510 Client and Context 1: Human Growth and Development 2

NURS 2518 Health and Illness 2: The Older Client 3

NURS 2530 Nursing Skills 1 1

Professional Foundations 1: Development of Professional  
NURS 2520 Identity 2

NURS 2540 Nursing Practice 1 2

##### Term 2

Health and Illness 3:  
NURS 2514 Pathophysiology/Pharmacology/Health Assessment 6

NURS 2522 Client and Context 2: Human Diversity 3

NURS 2532 Nursing Skills 2 1

NURS 2542 Nursing Practice 2 3

HNSC 2170 Nutrition for Health Professionals 2

#### Year 3 (30 credit hours)

**Term 1**

NURS 3510	Client and Context 3: Supportive and Palliative Care	3
NURS 3512	Health and Illness 4: Acute and Chronic Illness	5
NURS 3520	Professional Foundations 2: Health Education	2
NURS 3530	Nursing Skills 3	1
NURS 3540	Nursing Practice 3	4

**Term 2**

NURS 3514	Health and Illness 5: Mental Health and Illness	3
NURS 3532	Nursing Skills 4	1
NURS 3542	Nursing Practice 4	4
NURS 3550	Professional Foundations 3: Evidence Informed Practice in the Health Sciences	4
NURS 3560	Professional Foundations 4: Law and Ethics in Nursing Practice	3

**Year 4 (36 credit hours)****Term 1**

NURS 4500	Health and Illness 6: Gender and Reproductive Health	3
NURS 4510	Client & Context 4: Family Health	3
NURS 4520	Professional Foundations 5: Interprofessional and Collaborative Practice	3
NURS 4530	Nursing Practice 5	4

**Term 2**

NURS 4540	Health and Illness 7: Community and Population Health	5
NURS 4550	Professional Foundations 6: Leadership and Change Management	4
NURS 4560	Professional Foundations 7: Preparation for Nursing Practice 7	1
NURS 4570	Nursing Practice 6	4

**Term 3**

NURS 4580	Nursing Practice 7	9
-----------	--------------------	---

**NURS 4580 Nursing Practice 7****All other courses in the curriculum must be successfully completed and the grade posted prior to starting NURS 4580.**

Any costs incurred in completing this course are the responsibility of the student. A student's chosen area for completion of practicum experience must be approved by the College of Nursing. The location of the practicum must meet the approval of the University of Manitoba. The location of the practicum is subject to change in the event approval is not received. There may be organizations which require contractual arrangements with the student and/or University of Manitoba prior to permitting the student to enter into the practicum experience. There is no guarantee the University of Manitoba will enter into such contractual arrangements to permit the student to carry out practice at a particular agency or site. In such cases, the student should be prepared to choose an alternate agency or site.

**NURS 4560 Professional Foundations 7: Preparation for Nursing Practice 7**

Preparation for Nursing Practice 7 must be completed in the term just prior to taking NURS 4580: Nursing Practice 7. Therefore, students who fail or withdraw from any of the following courses: NURS 4540: Health and Illness 7: Community and Population Health; NURS 4550: Professional Foundations 6: Leadership and Change Management; or NURS 4580: Nursing Practice 7 must also repeat NURS 4560: Professional Foundations 7: Preparation for Nursing Practice 7, even if it was successfully completed, in order that they are taking the course in the term just before NURS 4580: Nursing Practice 7.

In the instance where a student is required to repeat NURS 4560: Professional Foundations 7, the requirement that the Professional Foundations 7 be completed as a co-requisite of NURS 4570: Nursing Practice 6 will be waived.

**Reminder: It is the responsibility of the student to ensure that degree requirements are met. It is the responsibility of students to ensure all program requirements have been met before working as a graduate nurse and/or writing the NCLEX to become a Registered Nurse. In order to be eligible to work as a graduate nurse and/or write the NCLEX, students must meet all program requirements and requirements of the College of Registered Nurses of Manitoba.**

**4.1b Available Options****Inter-Faculty Option in Aging (Bachelor of Nursing only)**

Inter-Faculty Option in Aging courses are offered by the following Colleges and Faculties: Agricultural and Food Sciences; Arts; Kinesiology and Recreation Management; Medicine; Nursing; and Social Work. To complete the Inter-College Option in Aging, students will complete a total of 18 credit hours including each of the following:

- Required Courses (six credits). See the Registration Guide for the current course number being offered.

a) FMYL 2650/REC 2650/SWRK 2650 The Social Aspects of Aging (3 credit hours)

b) NURS 2610/KIN 2610 Health and Physical Aspects of Aging (3 credit hours)

- Electives (12 credit hours).

a) At least three credits of professional/discipline-specific applied work on aging within the student's faculty of registration; and

b) An additional nine credit hours in aging electives from the participating faculties. Students can take nine credit hours from their own faculty but are encouraged to select offerings from other faculties. Lists of eligible elective courses are available from the student advisors.

- The nursing option in aging elective is NURS 2200 Topics in Aging.

Upon completion of these requirements, the "Option in Aging" comment will be recorded on the student's transcript. Information on the Inter-Faculty Option in Aging is available from a student advisor.

**4.2 Baccalaureate Program for Registered Nurses (BPRN)**

**Effective in Fall 2019, admission intake has been suspended.**

The College of Nursing BPRN was developed to recognize and value the knowledge and experience of practicing Registered Nurses. The learner-

centred, process curriculum is designed to further the capacity of Registered Nurse practice in an ever-changing and increasingly complex health care system.

The curriculum consists of a minimum of 36 credit hours in Nursing, and 9 credit hours from Arts, Science or a professional faculty (for a total of 45 credit hours).

Students may elect full-time or part-time study. A variety of community settings are utilized for clinical experience. Courses may be offered in late afternoons or evenings, during Summer session and through distance education (correspondence) or internet-based study.

Students graduating with the minimum of 45 credit hours of coursework will be considered on an individual basis for admission to the graduate program in Nursing (Master of Nursing). For further information, contact the College of Nursing, 204-474-7452.

#### 4.2.1 Special Student Status in Nursing

Students who are not admitted to the BPRN, may be eligible to apply to the College of Nursing as a special student. Once admitted, students may register in University of Manitoba courses. Following are the guidelines for special student status:

- Special Students are allowed to register for a maximum of 15 credit hours.
- Special Students must obtain a minimum of "C" grade in a course in order to transfer credit into the BPRN.
- A nursing course completed as a special student may be accepted subsequently for credit in the BPRN up to five years from the date of completion.

Prior to registering for a nursing course, all special students must obtain written permission from a College of Nursing student advisor and present a photocopy of their current Active Practising Membership with the College of Registered Nurses of Manitoba or other jurisdiction.

Completion of courses as a special student does not guarantee admission into the BPRN. All students must complete the application forms and submit required information by the application deadline for the term in which students are applying, unless otherwise indicated at the time of application.

The College of Nursing will allow Registered Nurses admitted to another faculty at the University of Manitoba or another university to register for a maximum of 15 credit hours of nursing courses prior to being admitted to the College of Nursing. Written permission must be obtained from a student advisor and does not guarantee space in the course.

#### 4.2.2 BPRN - Curriculum

Note: Nursing electives may not be offered every year.

Course No.	Core Courses:	
NURS 3430	Seminar in Professional Nursing Foundations (see Note 1)	2
STAT 1000	Basic Statistical Analysis 1	3
NURS 3550	Professional Foundations 3: Evidence Informed Practice in the Health Sciences	4
NURS 3220	Community Health Nursing 1 (see Notes 4 and 5)	4
NURS 3520	Professional Foundations 2: Health Education	2
NURS 4210	Independent Study in Nursing Practice	4

NURS 3560	Professional Foundations 4: Law and Ethics in Nursing Practice	3
NURS 4550	Professional Foundations 6: Leadership and Change Management	4
	Nursing Electives (see Note 2)	10
	Non-Nursing Electives (see Note 3)	9

#### Nursing Electives

10 credit hours of acceptable Nursing electives are to be chosen from the following list – at least one course chosen must be a 4 credit hour course.

- NURS 2110 Health Assessment of Individuals (3)
- NURS 2200 Topics in Aging (3)
- NURS 3200 Nursing of Individuals and Families with Long-Term Illness and Disability (4)
- NURS 3230 Perspectives on Mental Health Nursing (4)
- NURS 3330 Women and Health (3)
- NURS 2510 Client and Context 2: Human Diversity (3)
- NURS 3350 Counselling Skills for Nurses (3)
- NURS 3390 Nursing in Rural Environments (4)
- NURS 3400 Men's Health: Concerns, Issues and Myths (3)
- NURS 4160 Community Health Nursing 2 (4)
- NURS 3510 Client and Context 3: Supportive and Palliative Care (3)

In addition, the following courses from the Inter-Faculty Option in Aging are acceptable as Nursing electives:

- NURS 2610 / KIN 2610 Health and Physical Aspects of Aging (3)
- FMLY 2650/REC 2650/SWRK 2650 The Social Aspects of Aging (3)

#### NOTES:

1) NURS 3430 should be taken in the first 12 credit hours of the program. Students who have credit for the previous NURS 3190 may substitute this course for NURS 3430.

2) Nursing electives may be used to customize a student's program. Electives may be used to expand on a number of different areas of nursing or may be used to focus on a particular area of nursing practice.

3) Of the 9 credit hours of non-Nursing electives, no more than 6 credit hours may be at the 1000 (introductory) level. See section 5.4 for suggestions re: Non-Nursing Electives for the BPRN. Students may not take courses for credit for which it is assumed that the content was covered in the diploma nursing program (i.e., Anatomy, Physiology, Microbiology, Pharmacology, Psychology, Sociology, etc.).

4) Graduates of the DNA program at Red River College are required to substitute a 4 credit hour Nursing clinical course for NURS 3220.

5) NURS 3360 and NURS 4300 are no longer offered. Students who have previously completed either course within 5 years prior to admission to the College of Nursing may use NURS 3360 in place of NURS 3220 and/or NURS 4300 as a nursing elective.

### 4.2.3 Clinical Courses and NURS 3200 (Long Term Illness) and NURS 4210 (Independent Study) for the BPRN

Review section 3.1 Regulations for All Students which contains information regarding the Personal Health Information Act (PHIA), immunization and CPR regulations, and other information specific to clinical practice.

A clinical project course (normally designated by the fact that it is a 4 credit hour project based course) involves a heavier workload and time commitment than a 3 credit hour course. For most of these courses, clinical placements/assignments will be arranged between the course leader and student at or prior to the start of a term.

NURS 3200 (Long Term Illness), students must contact the course leader at least **three months prior to the start of classes** to state their intention to register for this course and to discuss preference of clinical sites. Placement sites will be arranged as requested by the student on a first-come, first-served basis according to the availability of the agency. Registration in this course is restricted to students who have contacted the course leader.

### NURS 4210 Independent Study in Nursing

The Independent Study in Nursing is designed to provide the learner with an opportunity to synthesize previous learning while working with a high degree of independence. Under the guidance of a faculty advisor, students explore a topic of their choosing and design learning objectives consistent with the purpose of the course. Students are required to contact the course leader at least 8 weeks prior to the start of the course to select a topic and faculty advisor. The choice of topic, the proposed plan for completion of the Independent Study, and the faculty advisor must all be approved by the College of Nursing.

Information sessions are scheduled, normally in April for the Fall session and in October for the Winter session, to familiarize students with the course. Students should check the College's web page, BPRN section, for announcements about dates and times.

If a practice setting is required as part of the student's learning objectives, the student is responsible for negotiating access to the setting and addressing agency and faculty requirements. Be advised that there may be organizations which require contractual arrangements with the student and/or the University of Manitoba prior to permitting the student to enter the practice setting. These arrangements are subject to approval by the College and require pre-planning.

**Note: the prerequisite for this course is 35 credit hours of completed study in the program.**

### 4.2.4 Courses Which May be Used as Non-Nursing Electives in the BPRN

Courses may be selected from any faculty or school of the University, subject to faculty/department regulations and subject to the student's meeting any prerequisite requirements. See Note 4 under 4.4 BPRN Curriculum. Some suggestions follow:

Faculty of Arts courses - e.g. anthropology, native studies, psychology, sociology, religion

Asper School of Business (Management) - e.g. courses in business administration, management, organizational behaviour

Faculty of Kinesiology and Recreation Management

Faculty of Science - e.g. biology, chemistry, computer science, microbiology, zoology

Faculty of Social Work - e.g. courses in social welfare policy, communication skills

### 4.3 Bachelor of Midwifery

The program must be done full time.

The courses from any given term must be completed before proceeding to the next term.

Year 1		
Course	Course Title	Credit Hours
BIOL 1410	Anatomy of the Human Body <sup>1</sup>	3
BIOL 1412	Physiology of the Human Body <sup>1</sup>	3
MBIO 1220	Essentials of Microbiology <sup>1</sup>	3
STAT 1000	Basic Statistical Analysis	3
CHEM 1300	University 1 Chemistry: Structure and Modelling in Chemistry	3
CHEM 1310	University 1 Chemistry: An Introduction to Physical Chemistry	3
Native Studies Elective <sup>1,2</sup>		3
Science Electives <sup>1,3,4</sup>		3
Electives (any combination of the following courses/subjects for a total of 9 credit hours)		
Social Sciences or Humanities <sup>1</sup>		6
<b>Total Credit Hours</b>		<b>30</b>
YEAR 2

<b>Total Credit Hours</b>		<b>36</b>

Year 4		
MDFY 4010	Advanced Clinical Skills II	3
MDFY 4090	Complex Care II: Clinical Practice and Tutorial	12
MDFY 4100	Clerkship and Tutorial	12
<b>Total Credit Hours</b>		<b>27</b>

<sup>1</sup> All courses can be completed in University 1, or an equivalent program, if students do not wish to extend their program of study.

<sup>2</sup> NATV 3240: Indigenous Medicine and Health is the preferred elective and should be taken if it is offered during the time the student is fulfilling University 1 or pre-midwifery year course requirements. Other Native Studies courses or equivalents are acceptable if NATV 3240 is not offered.

<sup>3</sup> Science Prerequisites. Students must meet the current Science prerequisites before registration for Science courses. See the Faculty of Science section in the Academic Calendar for the current prerequisites. It is recommended the above prerequisites have been completed within the last five years. Math 40S is a prerequisite for MBIO 1220. Any grade 12 or 40S Mathematics, or equivalent is a prerequisite for STAT 1000. Students should have a minimum of two years of previous high-school chemistry study (Chemistry 40S or its equivalent, such as CHEM 090) which is the prerequisite for CHEM 1300.

#### 4.4 Courses Available to Students in Other Faculties

Students registered in faculties other than Nursing may take the following Nursing courses without College permission:

- NURS 2200 Selected Topics in Aging and Health
- NURS 3330 Women and Health
- NURS 3400 Men's Health: Concerns, Issues and Myths

**NOTE:** These courses are not intended for first year students.

## Section 5: Course Descriptions

### Section 5: Midwifery Course Descriptions

#### MDFY 2010 Preparation for Professional Midwifery Education and Practice **3 Cr. Hrs.**

This course provides students with an understanding of the midwifery model of care in remote, rural, and urban settings in Manitoba and contrasts this model with those in other Canadian jurisdictions and internationally. Students also learn about the historical context of midwifery and the issues related to the future of the midwifery profession in Canada, including Indigenous midwifery practices. This course introduces theories and models of teaching and learning as it relates to the health promotion of individuals, groups, and communities. Strategies for interpersonal communication and counseling are introduced.

#### MDFY 2020 Bioscience for Midwives **3 Cr. Hrs.**

(Lab required) This course provides an overview of the biochemical and microbiological concepts that underlie screening and diagnostic testing in the childbearing year. Content areas include practical applications of clinical chemistry, specimen collection, medical microbiology, and the interpretation of laboratory results. Prerequisites: MDFY 2010, MDFY 2440, NURS 2522, and NURS 3550.

#### MDFY 2030 Pharmacology for Midwives **3 Cr. Hrs.**

This course introduces concepts of pharmacotherapeutics. It provides an overview of basic concepts in pharmacology and introduces therapeutics relevant to the pharmacological aspects of the practice of midwifery. Unifying concepts include pharmacokinetics, pharmacodynamics, toxicology, adverse reactions in pregnancy and lactation, and in the neonate. This course includes content related to traditional Indigenous midwifery practices. Prerequisites: MDFY 2010, MDFY 2440, NURS 2522, and NURS 3550.

#### MDFY 2040 Normal Childbearing Skills **6 Cr. Hrs.**

(Lab required) This course provides students with fundamental theory, assessment skills, and psychomotor skills to support clinical practice in the normal childbearing year. Prerequisites: MDFY 2010, MDFY 2440, NURS 2522, and NURS 3550.

#### MDFY 2090 Normal Childbearing Clinical Practice and Tutorial **12 Cr. Hrs.**

This clinical practice course enables students to apply the knowledge, skills and judgment related to the normal childbearing process to clinical practice. This course offers students the opportunity to reflect about and critically analyze clinical practice experiences and to share this analysis with their peers and instructors. This course will include content related to traditional Indigenous midwifery practices. Prerequisites: MDFY 2020, MDFY 2030, and MDFY 2040. This course is graded on a pass/fail basis.

#### MDFY 2440 Human Reproductive Physiology **3 Cr. Hrs.**

(Lab required) This course provides an in-depth understanding of human reproduction with particular emphasis on intrinsic control mechanisms and extrinsic methods of regulation of reproduction. This course also provides the basis for the understanding of alterations from normal mechanisms of reproductive processes.

#### NURS 2522 Client & Context 2: Human Diversity **3 Cr. Hrs.**

This course provides students with knowledge of the social factors that enhance or diminish the health of individuals, families and communities. Students will also analyze the concept of client-centred care and its relevance in the practices of health care professionals. May not be held with NURS 2516. Pre- or co-requisites: NURS 2500 and NURS 2520. Registration is normally restricted to students in Year 2 of the BN program.

#### NURS 3550 Professional Foundations 3: Evidence Informed Practice in the Health Sciences **4 Cr. Hrs.**

This course provides students with the knowledge and skills to locate and critically appraise nursing and health care literature, and to make decisions about how research knowledge can be transferred into nursing and health care practice. May not be held with the former NURS 3210. Prerequisite: NURS 2542. Registration is normally restricted to students in Year 3 of the program.

## SECTION 5: Nursing Course Descriptions-1000 Level

#### NURS 1500 Preparing for Professional Nursing Education **3 Cr. Hrs.**

Students will develop knowledge, skills, attitudes, and approaches to learning that increases their opportunity for success in baccalaureate nursing education. Restricted to the students in the Aboriginal Cohort in Nursing program.

## SECTION 5: Nursing Course Descriptions-2000 Level

#### NURS 2100 Introduction to Family Caregiving Across the Span **3 Cr. Hrs.**

This course provides an interdisciplinary approach to introduce the concept of family caregiving. In this course, students will be provided with

information regarding caregivers and the vital role (s) they play in providing support and assistance to those who have physical, psychological, or developmental needs. Health-related quality of life and wellness, legal, economic, and policy issues related to caregiving are explored. Prerequisite: A grade of "C" or better in SOC 1200 (or SOC 1221) or PSYC 1200 (or PSYC 1221).

**NURS 2110 Health Assessment of Individuals 3 Cr. Hrs.**

The focus is on health assessment of adults including the normal changes which occur in childhood and aging. The course will provide opportunity to learn the health history and physical examination skills essential to health assessment.

**NURS 2200 Selected Topics in Aging and Health 3 Cr. Hrs.**

Emphasis will be placed on theory and research related to a current topic in aging and health. Special attention will be directed to integrating concepts and processes of aging. A practicum/field work component will be an integral part of the course. Prerequisite: core courses in the Inter-faculty Option in Aging or permission from the course leader.

**NURS 2500 Health and Illness 1:**

**Pathophysiology/Pharmacology/Assessment 6 Cr. Hrs.**

This course provides students with a comprehensive survey of selected pathophysiological processes that produce alterations in human health, and the related pharmacological interventions and health assessment techniques. May not be held with the former NURS 2120, the former NURS 2220, the former NURS 3290, or the former NURS 3310.

**NURS 2510 Client and Context 1: Human Growth & Development 2 Cr. Hrs.**

This course provides students with knowledge of normal human growth and development across the lifespan. May not be held with NURS 1260. Registration is normally restricted to students in Year 2 of the program.

**NURS 2514 Health and Illness 3:**

**Pathophysiology/Pharmacology/Assessment 6 Cr. Hrs.**

This course provides students with a comprehensive survey of selected pathophysiological processes that produce alterations in human health, and the related pharmacological interventions and health assessment techniques. May not be held with the former NURS 2120, the former NURS 2220, the former NURS 3290 or the former NURS 3310. Prerequisite: NURS 2500. Registration is normally restricted to students in Year 2 of the program.

**NURS 2518 Health & Illness 2: The Older Client 3 Cr. Hrs.**

This course provides students with knowledge of the age-related changes and illnesses experienced by older adults. It introduces students to health problems commonly occurring in this age group. Nursing strategies to encourage, maintain and enhance functional abilities and independence in older adults in the context of long term care are evaluated. May not be held with NURS 2230 or NURS 2512. Pre- or co-requisites: NURS 2500 or NURS 2510. Registration is normally restricted to students in Year 2 of the BN program.

**NURS 2520 Professional Foundations 1: Development of Professional Identity 2 Cr. Hrs.**

This course provides the student with an introduction to the conduct, knowledge and values that characterize a professional registered nurse. Registration is normally restricted to students in Year 2 of the program.

**NURS 2522 Client & Context 2: Human Diversity 3 Cr. Hrs.**

This course provides students with knowledge of the social factors that enhance or diminish the health of individuals, families and communities. Students will also analyze the concept of client-centred care and its relevance in the practices of health care professionals. May not be held with NURS 2516. Pre- or co-requisites: NURS 2500 and NURS 2520. Registration is normally restricted to students in Year 2 of the BN program.

**NURS 2530 Nursing Skills 1 1 Cr. Hrs.**

This course introduces students to the basic health assessment and psychomotor skills necessary to provide novice-level nursing care in the practice setting. May not be held with NURS 2120 and NURS 2130. Pre-or

Corequisite: NURS 2500. Registration is normally restricted to students in Year 2 of the program. This course is graded on a Pass/Fail Basis.

**NURS 2532 Nursing Skills 2 1 Cr. Hrs.**

This course introduces students to the basic health assessment and psychomotor skills necessary to provide novice-level nursing care in the practice setting. May not be held with NURS 2120 and NURS 2130. Prerequisites: NURS 2530 and NURS 2540. Pre- or Co-requisite: NURS 2514. Registration is normally restricted to students in Year 2 of the program. This course is graded on a Pass/Fail Basis.

**NURS 2540 Nursing Practice 1 2 Cr. Hrs.**

This course enables students to demonstrate clinical competence by applying the theoretical knowledge, psychomotor skills and health assessment skills covered in Year 1 Term 1 courses in the practice setting. Pre- or co-requisites: NURS 2500, NURS 2510, NURS 2518 (or the former NURS 2512), NURS 2520 and NURS 2530. Registration is normally restricted to students in Year 2 of the program. This course is graded on a pass/fail basis.

**NURS 2542 Nursing Practice 2 3 Cr. Hrs.**

This course enables students to demonstrate clinical competence by applying the theoretical knowledge, psychomotor skills and health assessment skills covered in Year 1 Term 2 courses in the practice setting. May not be held with NURS 2190. Pre- or co-requisites: NURS 2514, NURS 2522 (or the former NURS 2516), and NURS 2532. This course is graded on a pass/fail basis.

**NURS 2610 Health and Physical Aspects of Aging 3 Cr. Hrs.**

An introduction to health, well-being and aging. Emphasis on health as multidimensional including physical, social and mental health. Integration of theory and research in examining selected issues related to health and physical aspects of aging. May not be held with NURS 2610 and PHED 2610. (A required Option in Aging course)

**SECTION 5: Nursing Course Descriptions-3000 Level**

**NURS 3200 Nursing of Individuals and Families with Long-Term Illness and Disability 4 Cr. Hrs.**

Nursing of individuals and families of all age groups who require palliative nursing measures or need assistance in adapting to long-term illness. The learner will participate in planning relevant clinical experiences to meet own learning objectives.

**NURS 3220 Community Health Nursing I 4 Cr. Hrs.**

An analysis of concepts of prevention of disease/dysfunction and promotion of health in community based populations. Focus is on primary and secondary prevention and the promotion of health with identified risk groups. Population groups are assessed for risks to their physical and psychosocial health and current preventive and promotive measures analyzed and critiqued. The impact of macro systems in promoting health are discussed. MNHW NURS 3360.

**NURS 3230 Perspectives on Mental Health Nursing 4 Cr. Hrs.**

Emphasis will be placed on the mental health needs of individuals and their families who are experiencing mental health problems and/or mental illness. Diverse perspectives on mental health and illness will be explored. A clinical practicum will provide an opportunity to apply mental health nursing principles in community settings.

**NURS 3330 Women and Health 3 Cr. Hrs.**

Introduction to health concepts and issues as they relate to women from a woman's health perspective. Emphasis on enhancing self-care and prevention. Studies the relationship between a woman and the Canadian Health Care System, and appropriate methodology for self-care, vis-a-vis nutrition, reproduction, menarche, menopause, etc. Caution: This course is not intended for 1st year students.

**NURS 3350 Counselling Skills for Nurses 3 Cr. Hrs.**

Builds on the significance of interpersonal skills in nursing practice in health and illness. Examines theoretical basis and practical application of a counselling approach with clients. Students will have the opportunity for experiential learning.

**NURS 3390 Nursing in Rural Environments 4 Cr. Hrs.**

Emphasis will be placed on the health needs of residents in a rural environment. The nature of nursing and issues encountered in a rural setting, whether in a health care institution or a community health nursing practice are explored. A clinical practicum is an integral part of the course.

**NURS 3400 Men's Health: Concerns, Issues and Myths 3 Cr. Hrs.**

An exploration and examination of concerns, issues and myths surrounding men's health and men's health related behaviours. Students will develop a knowledge base for promoting health and preventing illness in men.

**NURS 3430 Seminar in Professional Nursing Foundations****2 Cr. Hrs.**

The study and application of academic skills, nursing informatics and theoretical foundations, designed to assist diploma-prepared registered nurses to successfully transition to university and the Baccalaureate Program for Registered Nurses. May not be held with NURS 3190.

**NURS 3450 Introduction to Legal and Ethical Foundations of Nursing Practice 3 Cr. Hrs.**

The legal and ethical foundations that guide nursing practice are examined. The process of critical analysis and reasoning will be applied to common legal and ethical issues.

**NURS 3510 Client and Context 3: Supportive and Palliative Care 3 Cr. Hrs.**

This course provides students with the knowledge and critical thinking skills to provide supportive and palliative nursing care to individuals and families experiencing a variety of life-threatening illnesses including end of life. May not be held with the former NURS 4250. Prerequisites: HNSC 2170 and NURS 2542. Registration is normally restricted to students in Year 3 of the program.

**NURS 3512 Health and Illness 4: Acute and Chronic Illness 5 Cr. Hrs.**

This course provides students with the knowledge and critical thinking skills necessary to provide nursing care to individuals and families experiencing acute and chronic illness. May not be held with the former NURS 3290 or the former NURS 3310. Prerequisites: HNSC 1210 and NURS 2542. Registration is normally restricted to students in Year 3 of the program.

**NURS 3514 Health and Illness 5: Mental Health and Illness 3 Cr. Hrs.**

This course provides students with the knowledge and critical thinking skills necessary to provide nursing care to individuals and families experiencing acute and chronic mental illness and/ or mental health problems. May not be held with the former NURS 4260. Prerequisites: NURS 3512, NURS 3510 and NURS 3540. Registration is normally restricted to students in Year 3 of the program.

**NURS 3520 Professional Foundations 2: Health Education 2 Cr. Hrs.**

This course provides students with the knowledge and skills necessary to provide health information to clients across the lifespan in a variety of settings in both planned and spontaneous situations. Emphasis will be placed on client assessment and the appropriate use of existing health information resources. May not be held with NURS 2230 or NURS 4200. Prerequisite: NURS 2542. Registration is normally restricted to students in Year 3 of the program.

**NURS 3530 Nursing Skills 3 1 Cr. Hrs.**

This course introduces students to the basic health assessment and psychomotor skills necessary to provide intermediate-level nursing care in the practice setting. May not be held with the former NURS 3280. Prerequisites: NURS 2542. Registration is normally restricted to students in Year 3 of the program. This course is graded on a Pass/Fail basis.

**NURS 3532 Nursing Skills 4 1 Cr. Hrs.**

This course provides students with the opportunity to consolidate the health assessment and psychomotor skills necessary to attain proficiency in the provision of nursing care. May not be held with NURS 3280.

Prerequisite: NURS 3540. Pre- or Co-requisite: NURS 3514. Registration is normally restricted to students in Year 3 of the BN program. This course is graded on a pass/fail basis.

**NURS 3540 Nursing Practice 3 4 Cr. Hrs.**

This course enables students to demonstrate clinical competence by applying the theoretical knowledge, psychomotor skills and health assessment skills covered in Year 3 Term 1 courses in the practice setting. May not be held with the former NURS 3300, the former NURS 3310, or the former NURS 4270. Pre- or Co-requisites: NURS 3512, NURS 3510, NURS 3520, and NURS 3530. Registration is normally restricted to students in Year 3 of the program. This course is graded on a Pass/Fail basis.

**NURS 3542 Nursing Practice 4 4 Cr. Hrs.**

This course enables students to demonstrate clinical competence by applying the theoretical knowledge and simulation skills covered in Year 3 Term 2 courses in the practice setting. May not be held with the former NURS 3300, the former NURS 3310, or the former NURS 4270. Pre- or Co-requisites: NURS 3514, NURS 3550, NURS 3560 and NURS 3532. Registration is normally restricted to students in Year 3 of the program. This course is graded on a Pass/Fail basis.

**NURS 3550 Professional Foundations 3: Evidence Informed Practice in the Health Sciences 4 Cr. Hrs.**

This course provides students with the knowledge and skills to locate and critically appraise nursing and health care literature, and to make decisions about how research knowledge can be transferred into nursing and health care practice. May not be held with the former NURS 3210. Prerequisite: NURS 2542. Registration is normally restricted to students in Year 3 of the program.

**NURS 3560 Professional Foundations 4: Law and Ethics in Nursing Practice 3 Cr. Hrs.**

This course provides the student with knowledge regarding the legal and ethical foundations that guide nursing practice. May not be held with NURS 3450 or NURS 4220. Prerequisite: NURS 2542. Registration is normally restricted to students in Year 3 of the program.

**SECTION 5: Nursing Course Descriptions-4000 Level****NURS 4160 Community Health Nursing II 4 Cr. Hrs.**

Application, integration and synthesis of knowledge and skills in the utilization of the nursing process with families. Development of skills in the process of change with families. Orientation to the concept of prevention and health promotion as focal concepts in the practice of nursing with families in communities. Pre- or co-requisite: NURS 3220. May not be held with NURS 4300.

**NURS 4170 Issues and Trends in Nursing and Health Care 3 Cr. Hrs.**

Study of the forces shaping nursing education, service and research and analysis of current issues in nursing and health care. The learner will develop awareness of professional nursing roles and responsibilities.

**NURS 4190 Leadership in Nursing Practice 3 Cr. Hrs.**

Focuses on selected theories of leadership and management. Effective interpersonal behaviour in health care organizations will be examined. The learner will explore own potential to effect change in the health care system.

**NURS 4210 Independent Study in Nursing 4 Cr. Hrs.**

The learner will have an opportunity to formulate a learning contract to explore, in depth, an area of nursing. This learning contract is to include a major emphasis on the theoretical basis of the selected topic. Prerequisite: 35 credit hours of completed study in the program.

**NURS 4290 Clinical Practicum 10 Cr. Hrs.**

This course enables students to integrate and critically apply concepts, theories and relevant research to an area of practice and a client group of their choice. Care will address all levels of health, reflect application of a focused body of theory, and consider concepts of leadership, research, ethics, family and community care. Prerequisites: all courses in the program. Course is evaluated on a pass/fail basis.

**NURS 4500 Health and Illness 6: Gender and Reproductive Health**  
**3 Cr. Hrs.**

This course provides students with the knowledge and critical thinking skills to provide nursing care in response to the social construction of gender; gender-related health care needs; and the reproductive health needs of individuals and families. May not be held with NURS 2240. Prerequisite: NURS 3542. Registration is normally restricted to students in Year 4 of the program.

**NURS 4510 Client and Context 4: Family Health** **3 Cr. Hrs.**

This course provides students with the knowledge and critical thinking skills to support the health promotion of families across the lifespan. May not be held with NURS 2240. Prerequisite: NURS 3542. Registration is normally restricted to students in Year 4 of the program.

**NURS 4520 Professional Foundations 5: Interprofessional and Collaborative Practice** **3 Cr. Hrs.**

This course provides students with the knowledge, attitudes and skills necessary to collaborate with other care providers, including those from other health care disciplines, to problem solve and make decisions to enhance client care outcomes. For Bachelor of Nursing students: Prerequisite: NURS 3542. Registration is normally restricted to students in Year 4 of the program. For Baccalaureate Program for Registered Nurses students: permission of the College of Nursing Registrar. For students in the Faculties of Health Sciences; Social Work; Education; Kinesiology and Recreation Management; Arts, Department of Psychology; and Faculty of Agricultural and Food Sciences, Department of Human Nutritional Sciences: completion of at least Year 3 of their program and permission of the Nursing Registrar. Students from other faculties and programs interested in taking this course will be considered on a case-by-case basis.

**NURS 4530 Nursing Practice 5** **4 Cr. Hrs.**

This course enables students to demonstrate clinical competence by applying the knowledge and skills covered in Years 2 and 3 and Term 1, Year 4 courses, in the clinical setting. May not be held with NURS 2180. Pre- or Co-Requisites: NURS 4500, NURS 4510, NURS 4520. Registration is normally restricted to students in Year 4 of the program. This course is graded on a pass/fail basis.

**NURS 4540 Health and Illness 7: Community and Population Health** **5 Cr. Hrs.**

This course provides students with the knowledge and critical thinking skills to work with groups and communities to support population based health promotion and disease prevention. May not be held with the former NURS 4420 or the former NURS 4440. Prerequisite: NURS 4530. Registration is normally restricted to students in Year 4 of the program.

**NURS 4550 Professional Foundations 6: Leadership and Change Management** **4 Cr. Hrs.**

This course provides the student with knowledge regarding contemporary issues in nursing and health care, and the forces that shape contemporary and future nursing practice. Emphasis is placed on leadership development, change theory and critical inquiry. May not be held with the former NURS 4310. Prerequisite: NURS 3542. Registration is normally restricted to students in Year 4 of the program.

**NURS 4560 Professional Foundations 7: Preparation for Nursing Practice 7** **1 Cr. Hrs.**

This course will enable students, in collaboration with the course leader, to assess their readiness for NURS 4580: Nursing Practice 7 and to remediate any knowledge or skill deficits identified during the assessment process. Students will also complete all requirements necessary for the selection and confirmation of the clinical setting in which they will complete NURS 4580: Nursing Practice 7. Co-requisite: NURS 4570. Registration is normally

restricted to students in Year 4 of the program. This course is graded on a pass/fail basis.

**NURS 4570 Nursing Practice 6** **4 Cr. Hrs.**

This course enables students to demonstrate clinical competence by applying knowledge and skills covered in Years 2, 3 and 4 courses in the clinical setting. May not be held with the former NURS 4430. Prerequisite: NURS 4530. Pre- or Co-requisites: NURS 4540 and NURS 4550. Co-requisite: NURS 4560. Registration is normally restricted to students in Year 4 of the program. This course is graded on a pass/fail basis.

**NURS 4580 Nursing Practice 7** **9 Cr. Hrs.**

This course enables students to consolidate the knowledge, skills, and attitudes included in the Bachelor of Nursing program and achieve the CRNM entry-level competencies. May not be held with NURS 4290. Registration in this course is dependent on the completion of all other courses in the program. This course is graded on a pass/fail basis.

## College of Pharmacy

Dean: Dr. Lalitha Raman-Wilms

Associate Dean (s): Dr. Lavern Vercaigne, Dr. Hope Anderson

Campus Address/General Office: Apotex Centre, 750 McDermot Avenue

Email Address: [pharmacy@umanitoba.ca](mailto:pharmacy@umanitoba.ca)

Telephone: (204) 474-9306

Fax: (204) 789-3744

Website: <http://umanitoba.ca/faculties/pharmacy>

Academic Staff: Please refer to the College website for an Academic Staff listing: [http://umanitoba.ca/faculties/pharmacy/staff/academic\\_staff.html](http://umanitoba.ca/faculties/pharmacy/staff/academic_staff.html)

Pharmacists are specialists in drug therapy and provision of pharmaceutical care. This not only involves the traditional function of preparing and dispensing medications but also includes designing and monitoring drug therapy plans to optimize patient care. The College of Pharmacy has been educating pharmacists for over one hundred years. It has dynamic faculty members characterized by their teaching expertise, research programs and practice partnerships in the health sciences. Members of the College are internationally recognized through their participation in research and various committees and agencies. Their research is funded through a variety of sources including, CIHR, NSERC, Research Manitoba, various other government agencies, and the pharmaceutical industry.

The undergraduate pharmacy program is meant to prepare students for entry-level practice in the profession of pharmacy by providing them with a solid foundation in the basic, pharmaceutical and clinical sciences which is applied to the provision of patient care. In addition, the program is designed to provide students with a broad experience in patient care through experiential placements in health orientated settings, hospital, and community pharmacies. The experience is further enhanced with an open elective program in the final year of studies.

### SECTION 1: Degree Programs Offered

#### 1.1 Programs

#### 1.2 Professional Designation

### SECTION 2: Admission Requirements

### SECTION 6: Course Descriptions

### SECTION 1: Degree Programs Offered

#### 1.1 Programs

Program/Degree	*Years to Complete	*Total Credit Hours
B.Sc. Pharmacy	5* <sup>1</sup>	166* <sup>1</sup>
PharmD	6* <sup>2</sup>	204* <sup>2</sup>

\*1 This includes one year (30 credit hours) of pre-requisite courses.

\*2 This includes two years (60 credit hours) of pre-requisite courses.

Students who were accepted for the fall 2018 intake are being transitioned into the PharmD program. Their total credit hours at graduation will be 203.

#### 1.2 Professional Designation

##### The College of Pharmacists of Manitoba

Students who are accepted for admission to the College of Pharmacy shall file an application for registration as a student of the College of Pharmacists of Manitoba, prior to the start of classes in September of the year they are admitted. Detailed information will be provided to each student, and can also be obtained from The College of Pharmacists of Manitoba, 200 Tache Ave., Winnipeg, Manitoba R2H 1A7; telephone, (204) 233-1411. Failure to complete this requirement will result in students being unable to participate in the Structured Practice Experiential Program (SPEP).

Full information on the requirements for licensure in the Province of Manitoba is available from the Registrar of The College of Pharmacists of Manitoba.

## Pharmacy Examining Board of Canada

All applicants for licensure must pass the qualifying examinations of the Pharmacy Examining Board of Canada. Although PEBC has no language proficiency requirements, Provincial Regulatory Authorities do require these tests and language proficiency does affect candidates' performance in the Qualifying Examination (Part I and Part II). Effective written and verbal communication skills, at levels satisfactory for a health professional, are essential for practice and for success in taking the PEBC examinations.

## SECTION 2: Admission Requirements

### 2.1 Bachelor of Science in Pharmacy

Admissions to the B.Sc. Pharmacy program have been suspended. Please review the admission section for the Pharm.D. program in Section 2.2.

### 2.2 Doctor of Pharmacy (PharmD)

The following is a summary of the admission requirements. All admission requirements are listed in the [Applicant Information Bulletin](#) that is available on the university's website.

Minimum 60 credit hours of pre-requisite courses including:

CHEM 1300 and CHEM 1310

CHEM 2210

CHEM 2360 and CHEM 2370

BIOL 1020 and BIOL 1030

BIOL 2410 and BIOL 2420

MBIO 1010

MATH 1500 **or** MATH 1230

STAT 1000 **or** STAT 1150

12 credit hours of Humanities/Social Sciences courses

12 credit hours of other courses (any faculty)

The Humanities/Social Sciences or other courses must include a 3 credit hour course which will meet the University's Written English (W) requirement.

### Other requirements

High school prerequisites: Biology 40S, Chemistry 40S and Pre-Calculus Math 40S

Minimum AGPA for consideration: 3.50.

The admission process includes a written critical skills essay and writing the Pharmacy College Admissions Test (PCAT®).

Selection criteria: 60% AGPA, 10% Written critical skills essay, 30% PCAT®.

Students should be aware that if admitted they must provide a current, official Adult Criminal Record Check, an Adult Abuse Registry Check and a Child Abuse Registry Check (see section 4.2). All students enrolled in the College of Pharmacy must be immunized against specific diseases (see section 4.3).

## SECTION 3: College Academic Regulations: Bachelor of Science in Pharmacy Program

The provisions of the chapter, General Academic Regulations and Requirements, and the chapter, University Policies, apply to all students. In addition, the College of Pharmacy has regulations and requirements, published below, that apply specifically to its students.

### 3.1 Scholastic Progress

For course progression in the College of Pharmacy students must achieve a minimum combined fall and winter term GPA of 2.00, and attain the minimum passing grade of "C" in each course.

A student in any of the first three years of the pharmacy program who records no more than two grades of "D" during the academic year, and who achieves a minimum combined fall and winter term GPA of 2.00, may at the discretion of the dean be permitted to apply for a supplementary examination in those courses.

A student in the fourth year of the pharmacy program who records no more than one grade of "D" during the academic year, and who achieves a minimum combined fall and winter term GPA of 2.00, may at the discretion of the dean be permitted to apply for a supplementary examination in that course.

Application forms for supplementary examinations are available in the College of Pharmacy Dean's Office, and the examination is subject to a prescribed fee. Supplementary exams will normally take place in the following mid-summer examination session each year.

A student who has failed to record a minimum grade of "C" in more than two courses within years one to three of the pharmacy program, or in more than one course in the fourth year of the pharmacy program, or who records a grade of "F" during the academic year at any stage during their program may not be granted supplementary examinations unless the dean by reason of special circumstances applicable to the student's case otherwise decides.

A candidate who has been allowed to sit for a supplementary examination may not be awarded a grade higher than "C" in that course. Grade calculations for any course following supplementary examination will be inclusive of on-course assessment. Grades achieved following supplementary examination will replace those grades originally recorded on the student's academic record.

A student who fails to achieve a passing grade of "C" in one course, following supplementary examination if that option is offered, and who achieves a minimum combined fall and winter term GPA of 2.00, will be required to repeat that course and may at the discretion of the dean be required to repeat all, or a number of courses in that year.

A student whose combined fall and winter term GPA falls below 2.00, or who fails to achieve a minimum passing grade of "C" in two courses, following supplementary examination if that option is offered, and whose combined fall and winter term GPA remains above 1.75, will be considered to have failed that year, and will be required to repeat all subjects in the following academic year.

The records of all students who fail a year, and the disposition of the cases, shall be reported to College Council for information, but not for debate. Students who have cause to disagree with the disposition may file an appeal against the decision.

A student who fails more than one year in the program, or who fails the same year twice, shall be required to withdraw from the Pharmacy program.

A student who fails to achieve a passing grade in more than two courses in the academic session, or whose combined fall and winter term GPA falls below 1.75, or who fails to achieve a passing grade in a repeated year, will be required to withdraw from the Pharmacy program.

### 3.2 Appeals Concerning Scholastic Progress

Should a student wish to appeal against any decision concerning scholastic progress, the following procedure should be followed:

The problem should be discussed with the Associate Dean (Academic) of Pharmacy, who will supply information about the appeals procedure, academic regulations and related matters.

Students who still wish to proceed with an appeal should consult the office of [Student Advocacy](#) for advice and assistance, and a letter of appeal must be sent to the dean within 21 days of receiving notification of the decision. The letter should state the nature of the decision being appealed and the alternative that is being requested.

The Dean will respond in writing to notify the appellant of the date and time the student should attend a meeting of the College Appeals Committee.

The Appeals Committee will comprise: the Dean of the College (or designate) as chair; one senior support staff member as secretary; three members of the full-time faculty appointed by the full-time faculty; a representative of the profession appointed by the College of Pharmacists of Manitoba. The chair and senior support staff member are non-voting members.

Appellants have the right to attend the hearing of their appeal and may have a representative to assist them at the appeal hearing. This representative may be the Student Advocate or a fellow student or other full-time member of the university community not receiving payment for appearing, or working for Legal Aid. In addition, if the student wishes, one member of his or her immediate family, and also if desired a lawyer, may be present, but as observers who do not participate. The decision of the Appeals Committee will be conveyed to the student as soon as possible after the hearing.

If the appellant is still dissatisfied they may wish to discuss the issue further with [Student Advocacy](#). Student appellants should not expect a favourable decision when their appeal is based on grounds related to external factors such as employment, sports, or hobbies.

### 3.3 Transfer of Credit Earned Elsewhere

The College of Pharmacy will transfer in external grades in a manner that is consistent with the University of Manitoba policy on the transference of external grades. The relevance of courses completed to the student's educational objective at the University of Manitoba and the quality of academic achievement as evidenced by the student's grades will be determining factors in assessing acceptability of credits earned elsewhere. No transfer of credit will be given for courses taken ten years or more prior to the application date. No transfer of credit will be permitted for courses where a "D" grade (or its percentage equivalent) has been awarded.

### 3.4 Residence Requirements

A minimum of two years attendance at the university within the College is required for the Bachelor of Science in Pharmacy, except with the permission of the College.

### 3.5 Attendance at Class

Regular attendance is required of all students in all courses. Students who are absent from class for a period of three days or more due to illness must present a certificate from a physician to the Dean's Office upon their return. An instructor may initiate procedures to debar a student from attending classes and from final examinations where unexcused absences exceed three continuous sessions. Students must obtain prior approval from the Dean for an absence exceeding one day for reasons other than illness.

### 3.6 Voluntary Withdrawals

Any student seeking to withdraw from a portion of, or all of their courses must provide written notification to the Dean's Office of the reasons for this request. Re-entry to Pharmacy by students who voluntarily withdraw, will be dependent on the availability of space and external rotation facilities. Any student who has voluntarily withdrawn from a portion of, or all of their courses in Pharmacy on more than one occasion will not be permitted re-entry into the program. Withdrawals for medical or compassionate reasons will not contribute toward this maximum. Students who, for medical reasons, withdraw from the program may not re-register until they have established, through proper medical consultation, their fitness to resume studies.

### 3.7 Deferred Final Examinations

Students may file an application for a deferred final examination with the Dean for reasons of illness or other disability, or for compassionate reasons, setting out the reasons for the deferral. The application must normally be filed within forty-eight (48) hours of the scheduled date of the missed examination or, in a case where more than one examination was missed, within forty-eight (48) hours of the scheduled date of the last examination missed. The application must be accompanied by a medical certificate or otherwise appropriate documentation certifying the reason for the deferral, the inability of the student to write the examination at the regular scheduled time and, where possible, indicating the period of incapacity. Based on the evidence provided, the Dean shall decide whether the application is approved. Students who, for medical reasons receive deferred examination privileges for all final examination series may not re-register until they have established, through proper medical consultation, their fitness to resume studies.

Students may request a deferred examination(s) on the grounds that they are unable to write said examination(s) due to:

- (a) participation in an inter-university, provincial, inter-provincial, national or international scholastic or athletic event
- (b) religious obligations; or
- (c) a medical condition.

Students requesting a deferred examination due to a known condition as listed above must file an application normally twenty (20) working days prior to the day of the scheduled examination.

Any student requesting deferred examination(s) will be required to sign an undertaking that the student has not discussed, reviewed, had access to, or otherwise become aware of the contents of the deferred examination except as expressly authorized by the instructor or professor for the course in which the deferred examination is being undertaken.

### 3.8 Incompletes

A student who is unable to complete the term work prescribed in a course may apply to the instructor prior to the end of lectures for consideration of a grade classification of "Incomplete". Should an "incomplete" be granted the student will still be required to write the final examination, if one is scheduled for the course, and a temporary grade of "IF" will be submitted. In addition to the grade, the recommendation for an "incomplete" should indicate the reason(s) for consideration being given, a description of the outstanding work to be completed, and the date by which the work must be submitted. If a final grade is not reported by the above maximum extension deadlines, the letter "I" will be dropped and the grade of "F" will remain as awarded, unless where specific circumstances warrant, the Associate Dean (Academic) extends the date by which an Incomplete must be cleared. Instructors must formally request such an extension prior to the elapse of the maximum deadline date. In addition, the Registrar's Office must be notified of the extension.

### 3.9 Dean's Honour List

Eligible students who achieve a combined fall and winter sessional GPA of 4.00 or higher will be placed on the Dean's Honour List. Eligible students must have completed a minimum of 12.5 credit hours in each of the fall and winter terms. (Exception: Fourth year students must complete a minimum of 10 credit hours during the winter term). The Dean's Honour List designation is not applied until the end of the winter term.

### 3.10 Academic Self-Declaration

All students accepted into the College of Pharmacy will be required to complete a Self-Declaration of Records Form which declares current or previous academic suspensions and disciplinary actions. The disclosure contained therein must be satisfactory to the College of Pharmacy.

### 3.11 Experiential Training (Structured Practical Experiential Program [SPEP])

Approved Placement Sites are limited, and the University cannot warrant that it will be able to find sufficient suitable placement sites in convenient locations, in a timely manner or at all. Students are responsible for all costs associated with SPEP, including travel and living expenses where placements are outside Winnipeg.

Under The Workers Compensation Act (Manitoba), students of the University of Manitoba who are engaged in a field practicum as a required part of their program are generally covered for injuries sustained in the course of and arising out of the practice experience. However, where the practicum takes place outside of Manitoba, and the student is not a Manitoba resident, workers compensation coverage may not be extended, based on the provisions of The Workers Compensation Act. However, other insurance coverage may be available to registered students. Students are encouraged to contact the SPEP Coordinator at the earliest opportunity to determine if any such alternative arrangements are possible.

### 3.12 Academic Honesty

Many courses in the College of Pharmacy require group projects and students should be aware that these are subject to the same rules regarding academic honesty as individual projects. Because of the unique nature of group work, all members of the group should exercise special care to insure that work completed does not violate academic integrity. Should a violation occur, group members will be held jointly accountable unless the violation can be attributed to a specified individual, or group of individuals.

In the College of Pharmacy all suspected cases of academic dishonesty will be passed to the Dean's Office for evaluation.

### 3.13 Professional Unsuitability By-Law

The Senate has approved a by-law granting authority to the College to require a student to withdraw for reasons of professional unsuitability. Copies of this by-law may be obtained from the College of Pharmacy Dean's Office.

### 3.14 Completion of the Bachelor Program

The maximum time allowable for completion of the Bachelor of Science, Pharmacy degree is seven years. Students must successfully complete all of the course work associated with a year in the program prior to being allowed to register for courses in the next year. In certain cases, the dean may grant exceptions to this requirement.

## SECTION 4: College Academic Regulations: Doctor of Pharmacy (PharmD) Program

### 4.1 Academic Self-Declaration

All students applying to the College of Pharmacy will be required to complete a Self-Declaration of Records Form which declares current or previous: academic suspensions, disciplinary action, professional misconduct, record of criminal conviction, record on the Child Abuse

Registry and record on the Adult Abuse Registry. The disclosure contained therein must be satisfactory to the College of Pharmacy.

### 4.2 Criminal Record Check, Child Abuse Check, and Adult Abuse Check

Many health care agencies where Pharmacy students are placed in a health care setting, including community pharmacies, require a criminal record check, child abuse registry check and adult abuse registry check. As a result of the above requirements, and in keeping with the future requirements of the College of Pharmacists of Manitoba, all applicants offered a position in the College of Pharmacy are required to provide a self-declaration of a Criminal Record, Child Abuse Registry and Adult Abuse Registry listing following provisional admission, and subsequently provide a current, official Criminal Record Search, Child Abuse Registry Check and Adult Abuse Registry Check. All documents must be submitted to the College of Pharmacy Dean's Office by the first day of classes in August of the year they are admitted.

Any applicant's name appearing on the Adult or Child Abuse Registry will be denied admission. A criminal conviction will not necessarily result in denial of admission to the College of Pharmacy. Criminal offences will be reviewed by a sub-committee of the Pharmacy Admissions Committee for the implications of the conviction in view of the regulatory professional mandate to protect the public. Failure to disclose any adult criminal record or listing on the Child Abuse or Adult Abuse Registry will invalidate an application and shall result in the applicant being denied admission, or automatic expulsion from the College of Pharmacy if the applicant has been admitted.

In addition, all undergraduate professional students of the University of Manitoba, College of Pharmacy must be registered with the College of Pharmacists of Manitoba (CPhM). CPhM requires that all graduates of the College of Pharmacy who wish to obtain a license to practice pharmacy in this province, must disclose information about any conviction for an offence under the Criminal Code (Canada), the Controlled Drugs and Substances Act (Canada), or the Food and Drugs Act (Canada) in order to be considered for eligibility for registration with the College of Pharmacists of Manitoba.

The review process conducted by the College of Pharmacy is independent of the review process conducted by the College of Pharmacists of Manitoba.

### 4.3 Immunization

Maintaining an up-to-date health record is an important responsibility of being a student, and serves to protect the health of vulnerable patients with whom students will be involved, as well as the health of students and their families. In general, immunizations and health screening tests are voluntary procedures; however, required immunizations and testing are also a condition of enrolment within The College of Pharmacy. All students enrolled in the College of Pharmacy must be immunized against the following diseases: diphtheria/tetanus/pertussis, polio, rubella, measles, mumps, chickenpox, Tuberculosis, hepatitis A and B and influenza. Students admitted to first year Pharmacy will be provided with an Immunization package at the time of acceptance into the program. Students have the option to provide their immune status and complete their immunizations with their own healthcare provider or participate in the Faculty of Health Sciences Immunization Program on campus. Students will be required to complete their required immunizations by the end of their first year.

Students will not be able to attend Introductory Pharmacy Practice Experiences or participate in any external outreach activities until all immunization requirements are up-to-date. Students are responsible for updating their immunizations as needed. Completion of the immunization schedule is required for course progression in Pharmacy.

#### 4.4 CPR/First Aid Requirements

All students in the Pharmacy program are required to have valid Standard First Aid and CPR - Health Care Provider training. The Standard First Aid course is valid for 3 years and the CPR (HCP) course is valid for one year. It is the academic and financial responsibility of the student to ensure that current certification in both CPR (HCP) and Standard First Aid is maintained throughout the program and a copy of the current certificate is submitted to the Dean's Office.

#### 4.5 Mask Fit Testing

Introductory and Advanced Pharmacy Practice Experiences are subject to certain requirements intended to protect the health and well-being of learners, staff and patients. One such requirement is that learners provide documentation of current (i.e., within 2 years) N95 mask fit testing. Official proof of the mask-fit test must be submitted to the College of Pharmacy Dean's office by April 30th of the second year of the Pharmacy program.

Some learners may be unable to provide the Documentation due to religious reasons, as the N95 mask fit testing requires the absence of facial hair. In such situations, the College will work with the learner and the experiential site to accommodate the learner and make alternate arrangements that comply with human rights laws and policies, bona fide program requirements, and the health and safety requirements of the College and the experiential placement site.

The affected learner must advise the College and the experiential site of the need for alternate arrangements well in advance of the learner's experiential rotation. If adequate notice is not provided, the learner may be reassigned to an area of perceived lower risk (recognizing that zero risk of exposure in the area of reassignment cannot be guaranteed).

In the unlikely event of an outbreak of some infectious entity that requires use of N95 masks more broadly in a facility (such as a viral outbreak or epidemic), learners without the appropriate N95 mask fit (or accepted alternate arrangements) will not be allowed on site. In such a case, the requirements for fulfillment of the experiential program will be reviewed as required and may include delayed completion of the experiential rotation, or change in location.

#### 4.6 Introductory/Advanced Pharmacy Practice Experiences (IPPE/APPE)

Approved Introductory / Advanced Pharmacy Practice Experiences are limited and the University cannot guarantee that it will be able to find sufficient suitable placement sites in convenient locations for all students, in a timely manner. Students are expected to participate in rural practice experiences. Students are responsible for all costs associated with Pharmacy Practice Experiences, including travel and living expenses where placements are outside Winnipeg.

Under The Workers Compensation Act (Manitoba), students of the University of Manitoba who are engaged in a field practicum as a required part of their program are generally covered for injuries sustained in the course of and arising out of the practice experience. However, where the practicum takes place outside of Manitoba, and the student is not a Manitoba resident, workers compensation coverage may not be extended, based on the provisions of The Workers Compensation Act. However, other insurance coverage may be available to registered students. Students are encouraged to contact the Coordinator of the Pharmacy Practice Experience Program at the earliest opportunity to determine if any such alternative arrangements are possible.

#### 4.7 Transfer of Credit Earned Elsewhere

The College of Pharmacy will transfer in external grades in a manner that is consistent with the University of Manitoba policy on the transference of external grades. The relevance of courses completed to the student's educational objective at the University of Manitoba and the quality of academic achievement as evidenced by the student's grades will be determining factors in assessing acceptability of credits earned elsewhere. No transfer of credit will be given for courses taken ten years or more prior to the application date. No transfer of credit will be permitted for courses where a "D" grade (or its percentage equivalent) has been awarded.

#### 4.8 Scholastic Progress

The University of Manitoba Academic Calendar and Catalog applies to all students. In addition, the College of Pharmacy has regulations and requirements, published within the Academic Calendar in the College of Pharmacy section and yearly in the College of Pharmacy Student Handbook that apply specifically to its students.

For course progression in the College of Pharmacy students must achieve a minimum combined fall and winter term GPA of 2.00, and attain the minimum passing grade of "C" in each course, except where the course evaluation is in a "pass/fail" format, where "pass" is required, or as otherwise described in the course outline.

A student in Year 1-4 of the pharmacy program who records no more than one grade of "D" during the academic session, and who achieves a minimum combined fall and winter term GPA of 2.00, may at the discretion of the Dean of the College of Pharmacy be permitted to write a supplementary examination in that course.

Supplementary Exams will not be granted if a student records more than one grade of "D" during the academic session within any year or if a student records a grade of "F" during the academic session within any year. No more than two supplemental exams will be offered to any student throughout the Pharmacy program. Supplementary Exams are not available in most courses and are at the discretion of the Dean of the College of Pharmacy. Please refer to the current College of Pharmacy Student Handbook for specific details.

Application forms for supplementary examinations are available in the College of Pharmacy Dean's Office, and the examination is subject to a prescribed fee. Supplementary exams, if granted, will normally take place in mid-summer, following the academic session. Students may not be awarded a grade higher than "C" in a course for which a supplementary exam is written.

The grade achieved following supplementary examination will replace the grade originally recorded on the student's academic record.

A student who fails to achieve a passing grade of "C" in one course, following supplementary examination if that option is offered, and who achieves a minimum combined fall and winter term GPA of 2.00, will be considered to have failed that year, and will be required to repeat that course and may at the discretion of the Dean of the College of Pharmacy be required to repeat all, or a number of courses in the following academic year.

A student who fails to achieve a minimum passing grade of "C" in two courses, and whose combined fall and winter term GPA remains above 1.75, will be considered to have failed that year, and will be required to repeat those courses and may at the discretion of the Dean of the College of Pharmacy be required to repeat all, or a number of courses in the following academic year.

The records of all students who fail a year, and the disposition of the cases, shall be reported to the Pharmacy College Council for information, but not for debate. Students who have cause to disagree with the disposition may file an appeal against the decision according to University of Manitoba Student policies and procedures.

A student who fails more than one year in the program, or who fails the same year twice, shall be required to withdraw from the Pharmacy program.

A student who fails to achieve a passing grade in more than two courses in the academic session, or whose combined fall and winter term GPA falls below 1.75, or who fails to achieve a passing grade in a repeated year, will be required to withdraw from the Pharmacy program.

#### 4.9 Appeals Concerning Scholastic Progress

Should a student wish to appeal against any decision concerning scholastic progress, the following procedures should be followed:

##### Appeals of Term Work

Term Work refers to anything for which marks or grades are assigned and which have been returned or made available to students prior to the close of the last day of classes. This may include such things as tests, essays, class presentations, class participation, assignments, laboratory and other reports, preceptor evaluations and any other component of a final grade completed and evaluated during the term. Any student who is dissatisfied with a grade on term work has the right to appeal that grade. Students should recognize, however, that term work grade appeals are only upheld when there are good reasons to support the student's request for an elevated grade.

Reasons for submitting a Term Work Grade Appeal may include; miscalculation of marks, misgrading of a paper/exam, application of an evaluation or grading system which was not included in the course outline, and unfair or inequitable processes in determining the final grade.

##### Procedure:

- i. A student may formally appeal a grade received for term work provided that the matter has been discussed with the instructor in the first instance in an attempt to resolve the issue without the need for a formal appeal. If the grade discrepancy cannot be resolved, the student should make an appointment with the Associate Dean (Academic) who will provide information about the appeals procedure, academic regulations and related matters.
- ii. A formal appeal of the grade(s) for term work may be made on an "Application for Appealing a Grade Given for Term Work" form and is to be submitted to the Cashier's Office with the appropriate fee payment. The time limit for submission of this appeal is ten working days following communication of the grade to the student. Once paid, the form should be submitted to the academic unit offering the course. Subsequent processing of the appeal and communication of the disposition of the appeal is the responsibility of the Associate Dean (Academic) responsible for that academic unit. The result of the appeal will be forwarded in writing to the student and the instructor not later than fifteen working days after the formal appeal has been lodged.
- iii. Normally the re-evaluation of a grade shall be undertaken by the instructor(s) responsible for the particular course (section) in consultation with at least one other instructor, in the same or related subject area.
- iv. The fee charged for each term work grade appeal will be refunded for

any grade which is changed (increased) as a result of the appeal.

- v. Should a student not be satisfied with the decision, he/she may wish to seek advice from The Office of Student Advocacy, University of Manitoba.

##### Appeals of Course Final Grades

The appeal of a final grade should be discussed with the Associate Dean (Academic) of Pharmacy, who will supply information about the appeals procedure, academic regulations and related matters.

Students who still wish to proceed with an appeal should consult the office of Student Advocacy for advice and assistance, and a letter of appeal must be sent to the Dean of the College of Pharmacy within 21 days of receiving notification of the decision. The letter should state the nature of the decision being appealed and the alternative that is being requested.

The Dean will respond in writing to notify the appellant of the date and time the student should attend a meeting of the College Appeals Committee.

The Appeals Committee will comprise: the Dean of the College of Pharmacy (or designate) as chair; one senior support staff member as secretary; three members of the full-time faculty; and a representative of the Pharmacy profession appointed by the College of Pharmacists of Manitoba. The senior support staff member is a non-voting member. The Chair shall only vote in the event of a tie.

Appellants have the right to attend the hearing of their appeal and may have a representative to assist them at the appeal hearing. This representative may be the Student Advocate or a fellow student or other full-time member of the university community not receiving payment for appearing or working for Legal Aid. In addition, if the student wishes, one member of his or her immediate family, and also if desired a lawyer, may be present, but as observers who do not participate and have no speaking privileges. The decision of the Appeals Committee will be conveyed to the student as soon as possible after the hearing.

If the appellant is still dissatisfied they may wish to discuss the issue further with the office of Student Advocacy. Student appellants should not expect a favorable decision when their appeal is based on grounds related to external factors such as employment, sports, or hobbies, etc.

#### 4.11 Voluntary Withdrawals

Any student seeking to withdraw from a portion of, or all of their courses must provide written notification to the Dean's Office outlining the reasons for this request. Re-entry to the College of Pharmacy by students who voluntarily withdraw, will be dependent on the availability of space and external rotation facilities. Any student who has voluntarily withdrawn from a portion of, or all of their courses in Pharmacy on more than one occasion will not be permitted re-entry into the program. Withdrawals for medical or compassionate reasons will not contribute toward this maximum. Students who, for medical reasons, withdraw from the program may not re-register until they have established, through proper medical consultation and documentation, their fitness to resume studies.

Reinstatement following a voluntary withdrawal will be subject to current and satisfactory:

1. Criminal Records, Child Abuse Registry and Adult Abuse Registry Search results;
2. College of Pharmacists (CPhM) Registration;
3. Immunization, Standard First Aid and CPR (HCP) certification;
4. Reinstatement may also be subject to the student signing an undertaking

to either or both of the College of Pharmacy and CPhM of certain terms and conditions.

#### 4.12 Deferred Final Examinations

Students may request a deferred final examination from the Dean of the College of Pharmacy for reasons of illness or other disability, for bereavement or for compassionate reasons. The request should typically be communicated before the final exam is written, but must normally be filed within forty-eight (48) hours of the scheduled date of the missed examination or, in a case where more than one examination was missed, within forty-eight (48) hours of the scheduled date of the last examination missed. The application must be accompanied by a medical certificate or other appropriate documentation certifying the reason for the deferral, the inability of the student to write the examination at the regular scheduled time and, where possible, indicating the period of incapacity. Based on the evidence provided, the Dean shall decide whether the application is approved. Students who, for medical reasons receive deferred examination privileges for all final examinations may not reregister until they have established, through proper medical consultation, their fitness to resume studies.

Students may also request a deferred examination(s) on the grounds that they are unable to write said examination(s) due to:

- (a) participation in an inter-university, provincial, inter-provincial, national or international scholastic or athletic event; or
- (b) religious observance.

Students requesting a deferred examination due to a known situation as listed above must file an application normally twenty (20) working days prior to the day of the scheduled examination.

Any student requesting deferred examination(s) will be required to sign an undertaking that the student has not discussed, reviewed, had access to, or otherwise become aware of the contents of the deferred examination except as expressly authorized by the instructor or professor for the course in which the deferred examination is being undertaken.

#### 4.13 Incomplete Courses

A student who is unable to complete the term work prescribed in a course may apply to the course instructor 5 working days prior to the end of lectures for consideration of a grade classification of 'incomplete', and a time extension to complete the work. Should an 'incomplete' be granted the student will still be required to write the final examination if one is scheduled for the course. Taking into account the results of the final examination, the value of the term work completed, and the extent of the incomplete term work, the course instructor shall calculate the temporary grade using a zero value for incomplete work. Incomplete final grades are entered with the grade code and the letter 'I'. In addition to the grade, the recommendation for an 'incomplete' should indicate the reason(s) for consideration being given, a description of the outstanding work to be completed, and the date by which the work must be submitted. If a final grade is not reported by the extension deadline, the letter "I" will be dropped, and the grade will remain as awarded. The student's opportunity to improve the grade will have lapsed, unless where specific circumstances warrant, the Associate Dean (Academic) extends the date by which an incomplete must be cleared.

#### 4.14 Leave of Absence

Any student seeking a leave of absence must submit a written request to The Dean of The College of Pharmacy normally by June 1st. The request for the leave of absence must clearly outline the reasons for the request and

the Dean may require further supporting documentation to support the request. The duration of a leave of absence is typically one year and will count towards the maximum number of years to complete the pharmacy program. Students who wish to be reinstated after the leave must contact the Dean's office by May 1st for the upcoming academic year and request reinstatement. At the point of reinstatement for students on leave for an academic year, students must provide a current, official Criminal Record Search, Child Abuse Registry Check and Adult Abuse Registry Check.

Reinstatement following a leave of absence will be subject to current and satisfactory:

1. Criminal Records, Child Abuse Registry and Adult Abuse Registry Search results;
2. CPhM Registration;
3. Immunization, Standard First Aid and CPR (HCP) certification;
4. Reinstatement may also be subject to the student signing an undertaking to either or both of the College of Pharmacy and CPhM of certain terms and conditions.

#### 4.15 Dean's Honour List

Eligible students who achieve a combined fall and winter sessional GPA of 4.00 or higher will be placed on the Dean's Honour List. Eligible students must have completed a minimum of 13 credit hours in each of the fall and winter terms in years 1-3 of the program. Fourth year students' eligibility for the Dean's Honour List will be based on graded courses (i.e. vs pass / fail grading during Advanced Pharmacy Practice Experiences or the Electives program). The Dean's Honour List designation is not applied until the end of the winter term.

#### 4.16 Academic Honesty

Many courses in the College of Pharmacy require group projects and students should be aware that these are subject to the same rules regarding academic honesty as individual projects. Due to the unique nature of group work, all members of the group should exercise special care to insure that work completed does not violate academic integrity. Should a violation occur, group members will be held jointly accountable unless the violation can be attributed to a specified individual, or group of individuals. In the College of Pharmacy, all suspected cases of academic dishonesty will be passed to the Dean's Office for evaluation.

#### 4.17 Liability

The University's insurer, The Canadian Universities Reciprocal Insurance Exchange (CURIE), includes malpractice coverage for pharmacy students, in respect of activities related to their Pharmacy studies, whether conducted on or off campus. The limiting factor is that the students must be doing the activity in furtherance of their education or training while a registered student of the University of Manitoba.

#### 4.18 Professional Unsuitability By-Law

The Senate has approved a by-law granting authority to the College of Pharmacy to require a student to withdraw for reasons of professional unsuitability.

#### 4.19 Residence Requirements

Students are required to complete all years of the Pharm.D. degree program with the College of Pharmacy, Faculty of Health Sciences,

University of Manitoba. Under exceptional circumstances, residence requirements may be altered with permission from the Dean of Pharmacy.

#### 4.20 Completion of the PharmD Program

The maximum time allowable for completion of the Entry to Practice PharmD degree is seven years after admission into the College of Pharmacy. Students must successfully complete all of the course work associated with a year in the program prior to being allowed to register for courses in the next year. In exceptional cases, the Dean of the College of Pharmacy may grant exceptions to this requirement.

### SECTION 5: Program and Graduation Requirements

#### 5.1 Student Responsibility

Students are advised to carefully review the College of Pharmacy chapter of the *Undergraduate Calendar* to ensure compliance with degree program requirements.

It is the student's responsibility to know all relevant regulations, policies and practices.

#### Final completion of degree requirements is the responsibility of the student.

The University of Manitoba Registration System is not a degree audit system and the onus is on students to make sure they are selecting courses appropriate to their academic program.

#### 5.2 Registration Assistance

If you have questions or problems with your registration you can contact the Aurora Student Help Line at (204) 474-9420, or call the College of Pharmacy Dean's Office at (204) 474-9306.

#### 5.3 Course Information by Year: Bachelor of Science in Pharmacy

Year 4

Please refer to the [Academic Schedule](#) for all important dates (start and end dates for terms, [exams](#), electives and and SPEP blocks)

Course Number	Course Name	Credit Hours
PHRM 4230	Pharmacy Practice Management	4
PHRM 4310	Clinical Pharmacy 3	4
PHRM 4450	Toxicology	3
PHRM 4470	Current Topics	3
PHRM 4700	Structured Experiential Program 4	10
PHRM 4800	Electives Program	10
<b>Total Credit Hours</b>		<b>34</b>

**Total Program Credit Hours is 136.**

**Note: Students may not obtain any grade lower than a "C" in all required courses.**

#### 5.4 Course Information by Year: Doctor of Pharmacy (PharmD)

##### Year 1

Course Number	Course Name	Credit Hours
ANAT 1030	Human Anatomy	3
PHAC 2100	Pharmacology	6
PHMD 1000	Introduction to Professional Practice	1
PHMD 1002	Applied Pharmacy Practice Lab 1	4
PHMD 1004	Intro to Pharmacotherapy Literature	1
PHMD 1006	Pharmacy Informatics	1
PHMD 1008	Medicinal Chemistry	4
PHMD 1010	Applied Pathophysiology	4
PHMD 1012	Extemporaneous Pharmaceutical Compounding	3
PHMD 1014	Clinical Therapeutics 1	3
PHMD 1016	Pharmaceutics	3
PHMD 1040	Service Learning / IPE 1	1
<b>Total Credit Hours</b>		<b>34</b>

##### Year 2

Course Number	Course Name	Credit Hours
HNSC 2170	Nutrition for Health Professionals	2
PHMD 2000	Drug Delivery	3
PHMD 2004	Critical Appraisal of Pharmacotherapy Literature 1	4
PHMD 2006	Applied Biopharmaceutics and Pharmacokinetics	3
PHMD 2008	Pharmacy Law	1
PHMD 2010	Principles of Biotechnology	2

PHMD 2012	Pharmacogenetics	2
PHMD 2016	Clinical Pharmacokinetics-Pharmacodynamics	3
PHMD 2020	Introductory Pharmacy Practice-Community	4
PHMD 2022	Applied Pharmacy Practice Lab 2-1	2
PHMD 2024	Applied Pharmacy Practice Lab 2-2	2
PHMD 2026	Clinical Therapeutics 2-1	4
PHMD 2028	Clinical Therapeutics 2-2	4
PHMD 2030	Introductory Pharmacy Practice - Hospital	4
PHMD 2040	Service Learning/ IPE 2	1
<b>Total Credit Hours</b>		<b>41</b>

**Year 3**

Course Number	Course Name	Credit Hours
PHMD 3002	Applied Pharmacy Practice Lab 3	24
PHMD 3004	Critical Appraisal of Pharmacotherapy Literature 2	2
PHMD 3006	Advanced Clinical Therapeutics	6
PHMD 3008	Concepts of Integrative Medicine	2
PHMD 3010	Pharmacy Management	4
PHMD 3012	Applied Professional Practice	3
PHMD 3014	Clinical Therapeutics 3	8
PHMD 3016	Toxicology of Medications and Drug Abuse	2
<b>Total Credit Hours</b>		<b>31</b>

**Year 4**

Course Number	Course Name	Credit Hours
---------------	-------------	--------------

PHMD 4000	Pharmacy Research Project	6
PHMD 4020	Advanced Pharmacy Practice Experience-Community	8
PHMD 4030	Advanced Pharmacy Practice Experience-Hospital	8
PHMD 4040	Advanced Pharmacy Practice Experience-Primary Care	8
PHMD 4060	Advanced Pharmacy Practice Experience- Elective	8
<b>Total Credit Hours</b>		<b>38</b>

**SECTION 6: Course Descriptions****PHMD 1000 Introduction to Professional Practice 1 Cr. Hrs.**

This course provides an introduction to various aspects of professional practice with a focus on patient care and safety. The course will include discussion and activities that incorporate cultural diversity, determinants of health, health literacy and Indigenous health. Registration is normally restricted to students in Year 1 of the program. Students will be graded on a pass/fail basis.

**PHMD 1002 Applied Pharmacy Practice Lab 1 4 Cr. Hrs.**

This course is an introduction to community pharmacy practice with a focus on communication skills that are patient centered. The course provides opportunities to apply knowledge when completing patient assessments that will ensure positive patient outcomes. The process of prescription filling includes ensuring the legal requirements are met, minimizing errors, calculations and adverse drug reactions. Students will be introduced to drug information resources, adherence aids and physical assessment. May not be held with PHRM 1110 or the former PHRM 1100. Registration is normally restricted to students in Year 1 of the program.

**PHMD 1004 Introduction to Pharmacotherapy Literature 1 Cr. Hrs.**

An introduction to the concepts of evidence-based medicine and applied medical/biostatistics in the evaluation of relevant pharmacotherapy literature. Registration is normally restricted to students in Year 1 of the program.

**PHMD 1006 Pharmacy Informatics 1 Cr. Hrs.**

This course will introduce students to the use of information and communication technologies for delivering patient care and fostering collaboration between healthcare providers. Students will also be introduced to the professional, ethical, and legal implications of using such technologies for communicating health information. Registration is normally restricted to students in Year 1 of the program.

**PHMD 1008 Medicinal Chemistry 4 Cr. Hrs.**

This course explores the physicochemical aspects of drug structure in absorption, distribution, metabolism, and excretion and the interaction between drugs and their receptors as they relate to the biochemical, pharmacological, and therapeutic actions of medicinal compounds. Students will learn the fundamental relationships between the structures of drugs and the resulting activity. May not be held with PHRM 2222 or the former PHRM 2220 or PHRM 3220. Registration is normally restricted to students in Year 1 of the program. Prerequisite: CHEM 2370 or MBIO 2370.

**PHMD 1010 Applied Pathophysiology 4 Cr. Hrs.**

A comprehensive foundation of the underlying patho-physiological mechanisms associated with various types of human disease. Course content will service as an essential requirement to prepare students for subsequent advanced clinical courses related to diagnosis and medical management (pharmacological and non-pharmacological approaches) of the disease(s). May not be held with PHRM 1430. Registration is normally restricted to students in Year 1 of the program. Prerequisite: BIOL 2420 (ZOOL 2540).

**PHMD 1012 Extemporaneous Pharmaceutical Compounding 3 Cr. Hrs.**

In a classroom and laboratory setting, this course provides an introduction to the compounding of pharmaceutical products and the physiochemical basis of product formulation. Practical aspects of formulation and patient counselling regarding the products is also explored. May not be held with PHRM 1300. Registration is normally restricted to students in Year 1 of the program.

**PHMD 1014 Clinical Therapeutics 1 3 Cr. Hrs.**

This course introduces principles of drug therapy for the management of both self-care conditions and ambulatory ailments, with an additional focus on health promotion. Within the conditions covered, identifying signs and symptoms to complete a differential diagnosis, development of treatment plans and follow-up monitoring will be emphasized. Treatment approaches discussed will include non-pharmacological options, non-prescription options and some prescription treatments. May not be held with PHRM 2320 or the former PHRM 2310. Registration is normally restricted to students in Year 1 of the program.

**PHMD 1016 Pharmaceutics 3 Cr. Hrs.**

This course introduces principles of formulation and good pharmaceutical manufacturing practice, including aspects of product development and assessment, stability testing, and quality control. It also explores the application of dosage forms to clinical situations. May not be held with PHRM 2270. Registration is normally restricted to students in Year 1 of the program. Prerequisite: PHMD 1012.

**PHMD 1040 Service Learning / IPE 1 1 Cr. Hrs.**

The course is a service-learning experience that provides students an opportunity to work in community-based patient or client centered settings. The course will focus on developing communication skills, interprofessional collaboration with other healthcare students and patient advocacy while working with patients or clients from diverse backgrounds. The course also includes an opportunity for students to experience various pharmacy practice environments through a job shadowing experience under the supervision of practicing pharmacists and senior pharmacy students. Registration is normally restricted to students in Year 1 of the program. Students will be graded on a pass/fail basis.

**PHRM 1000 Introduction to Pharmacy 1 Cr. Hrs.**

This course provides an orientation to Pharmacy and to the application of medicines within the context of today's dynamic medical care system. It has been designed to highlight professionalism early in the Pharmacy curriculum and will provide the opportunity for students to interact with Pharmacy professionals "at the cutting edge" of pharmacy practice.

**PHRM 1110 Pharmacy Skills Laboratory 3 Cr. Hrs.**

This is a multifaceted course using an integrated skills laboratory format to develop essential skills that students require for pharmacy practice. These skills primarily involve communication, problem solving and critical thinking that form the foundation for life-long learning. Exploring ethical principles and professionalism are also essential components of this course.

**PHRM 1300 Fundamentals of Pharmaceutics 2 Cr. Hrs.**

In a classroom and laboratory setting, this course provides an introduction to the compounding of pharmaceutical products and the physiochemical basis of product formulation. Practical aspects of formulation and an introduction to the dispensing function are also explored.

**PHRM 1310 Fundamentals of Pharmaceutics 3 Cr. Hrs.**

(Lab required) In a classroom and laboratory setting, this course provides an introduction to the compounding of pharmaceutical products and the physiochemical basis of product formulation. Practical aspects of formulation and patient counselling regarding the products is also explored. May not be held with PHRM 1300. Registration is normally restricted to students in Year 1 of the program.

**PHRM 1430 Applied Pathophysiology for Pharmacy Students 3 Cr. Hrs.**

A comprehensive theoretical foundation of the phenomena that produce alterations in human physiology function across the lifespan. Course content will prepare the student for subsequent courses related to diagnosis and management of disease processes associated with pathophysiological dysfunction/alterations.

**PHRM 1440 Applied Pathophysiology 4 Cr. Hrs.**

A comprehensive foundation of the underlying patho-physiological mechanisms associated with various types of human disease. Course content will serve as an essential pre-requisite required to prepare students for subsequent advanced clinical courses related to diagnosis and medical management (pharmacological and non-pharmacological approaches) of the disease(s). May not be held with PHRM 1430. Registration is normally restricted to students in Year 1 of the program.

**PHRM 1700 Structured Practical Experiential Program 1 1 Cr. Hrs.**

This course is a service-learning experience, providing students the opportunity to work in community-based patient/client-centred settings. This course also includes two half day job shadowing experiential rotations in a variety of pharmacy practice settings (eg. community pharmacy practice, institutional pharmacy practice) under the supervision of pharmacist preceptors consistent with the Manitoba Pharmacy Act. It serves to familiarize students with the health care setting and the pharmacist's role. Students will be graded on a pass/fail basis.

**PHMD 2000 Drug Delivery 3 Cr.Hrs.**

This course discusses the concepts and application of various drug delivery and drug administration routes to improve therapeutic outcomes. The course is a continuation of PHMD 1012 and PHMD 1016 and is directly associated to drug dosage forms and preparations. May not be held with PHRM 3320. Registration is normally restricted to students in Year 2 of the program. Prerequisite: PHMD 1016.

**PHMD 2020 Introductory Pharmacy Practice Experience - Community 4 Cr.Hrs.**

This four week introductory rotation provides pharmacy students with an opportunity to contribute to patient care in a community pharmacy setting. Pharmacy students will build upon the knowledge, skills and abilities they have developed during the first year and a half of the Pharm.D. program. Opportunity will be provided to help pharmacy students cultivate their patient care skills and begin to gain personal clinical experiences working with a variety of patients and other members of the healthcare team encountered in a community pharmacy. Students will begin to make health care decisions with the help and guidance of a pharmacist preceptor. Pharmaceutical care, pharmacy law and ethics, the operation of a community pharmacy, formal presentations, drug information, patient safety and interprofessional practice are key areas of this rotation. Registration is normally restricted to students in Year 2 of the program. Prerequisites: PHMD 2008, PHMD 2022, and PHMD 2026. Students will be graded on a pass/fail basis.

**PHMD 2022 Applied Pharmacy Practice Lab 2-1 2 Cr. Hrs.**

This course develops essential skills required for community pharmacy practice. Focus is on prescription triage and counselling, patient assessment and education, effective communication, care plan development and documentation, working within a health care team, use of home medical devices, immunization, lab ordering and interpretation. May not be held with PHRM 2100. Registration is normally restricted to

students in Year 2 of the program. Prerequisites: PHMD 1002 and PHMD 1014.

**PHMD 2024 Applied Pharmacy Practice Lab 2-2** **2 Cr.Hrs.**

This course develops essential skills required for institutional pharmacy practice. Focus is on hospital prescription triage, medication distribution, patient assessment and education, discharge counselling, effective communication, care plan development and documentation, and working within a health care team. May not be held with PHRM 2100. Registration is normally restricted to students in Year 2 of the program. Prerequisites: PHMD 2022 and PHMD 2026.

**PHMD 2026 Clinical Therapeutics 2 - 1** **4 Cr.Hrs.**

This course focusses on pharmacotherapy for several medical conditions. Aspects of providing direct patient care are covered to identify, solve and prevent actual or potential drug-related problems. Emphasis is placed on the evaluation, selection and monitoring of drug therapy as it applies to patient care. May not be held with PHRM 3310. Registration is normally restricted to students in Year 2 of the program. Prerequisite: PHMD 1014.

**PHMD 2028 Clinical Therapeutics 2 - 2** **4 Cr.Hrs.**

This course focusses on pharmacotherapy for several medical conditions, continuing from PHMD 2026. Aspects of providing direct patient care are covered to identify, solve and prevent actual or potential drug-related problems. Emphasis is placed on the evaluation, selection and monitoring of drug therapy as it applies to patient care. May not be held with PHRM 3310. Registration is normally restricted to students in Year 2 of the program. Prerequisite: PHMD 2026.

**PHMD 2030 Introductory Pharmacy Practice Experience - Hospital**

**4 Cr.Hrs.**

This four week introductory rotation provides students with an opportunity to actively participate in patient care within a hospital pharmacy practice setting. Pharmacy students will build upon the knowledge, skills and abilities they have developed during the first two years of the Pharm.D. program. Opportunity will be provided to allow pharmacy students to continue to cultivate their patient care skills and gain personal clinical experiences working with a variety of patients and other members of the healthcare team within a hospital setting. Students will begin to make healthcare decisions with the help and guidance of a pharmacist preceptor. Areas of focus include: the role of the hospital pharmacist as part of the healthcare team; understanding the patient chart; documentation of patient care; pharmaceutical care; ordering and interpreting lab values as required for the management of drug therapy; case presentations; drug information; patient/medication safety; and interprofessional practice. Registration is normally restricted to students in Year 2 of the program. Prerequisites: PHMD 2008, PHMD 2016, PHMD 2024, and PHMD 2028. Students will be graded on a pass/fail basis.

**PHRM 2100 Pharmacy Skills Lab 2** **3 Cr. Hrs.**

This course develops essential skills required for pharmacy practice. Focus is on drug distribution, pharmacy law, communication with "standardized patients" and drug information.

**PHRM 2222 Medicinal Chemistry** **6 Cr. Hrs.**

This course explores the physicochemical aspects of drug structure in absorption, distribution, metabolism, and excretion and the interaction between drugs and their receptors as they relate to the biochemical, pharmacological, and therapeutic actions of medicinal compounds. Not to be held with the former PHRM 220 or PHRM 3220. Prerequisites: CHEM 2210, CHEM 2360, CHEM 2370.

**PHRM 2270 Pharmaceutics/Biopharmaceutics** **6 Cr. Hrs.**

This course introduces principles of formulation and good pharmaceutical manufacturing practice, including aspects of product development and assessment, stability testing, and quality control. It also explores the application of dosage forms to clinical situations.

**PHRM 2280 Pharmacokinetics** **3 Cr. Hrs.**

This course introduces principles of pharmacokinetics to predict how drugs will be absorbed, distributed, metabolized and excreted from the body. Practical application of concepts and calculations will be emphasized.

**PHRM 2320 Clinical Pharmacy 1** **5 Cr. Hrs.**

This course introduces principles of drug therapy to manage self-care conditions and ambulatory ailments. There is also a component of health promotion with a focus on clinically relevant nutrition topics for pharmacists. Non-prescription and prescription treatment approaches will be covered within the course. May not be held with the former PHRM 2310.

**PHRM 2700 Structured Practical Experiential Program 2** **2 Cr. Hrs.**

This course offers experiential learning in a variety of pharmacy practice settings (eg. community pharmacy practice, institutional pharmacy practice) It consists of 2 one week rotations at the end of the second year of the program. This course builds on skills learned in SPEP 1 and focuses on the practice of drug preparation and distribution, non-prescription medication counseling, and jurisprudence under the supervision of pharmacist preceptors consistent with the Manitoba Pharmacy Act. Students will be graded on a pass/fail basis.

**PHMD 3002 Applied Pharmacy Practice Lab 3** **4 Cr.Hrs.**

The course develops advanced skills required for pharmacy practice in all settings (i.e. community, hospital, and primary care). The focus is on interaction with patients and other health care professionals and the application of advanced knowledge, skills and values required for the provision of exemplary pharmaceutical care. May not be held with PHRM 3110 or the former PHRM 3100. Registration is normally restricted to students in Year 3 of the program. Prerequisites: PHMD 2024 and PHMD 2028.

**PHMD 3006 Advanced Clinical Therapeutics** **6 Cr.Hrs.**

A problem-based clinical therapeutics course that builds on PHMD 1014, PHMD 2026 and PHMD 2028. The emphasis is on the provision of pharmaceutical care to enhance students' ability to identify, resolve and prevent drug-related problems in advanced clinical scenarios. Registration is normally restricted to students in Year 3 of the program. Prerequisite: PHMD 2028.

**PHMD 3008 Concepts of Integrative Medicine** **2 Cr.Hrs.**

Introduction to the integrative medicine paradigm of health care. Systems of complementary and alternative medicine as well as utilization of natural health products are emphasized. May not be held with PHRM 3430. Registration is normally restricted to students in Year 3 of the program. Prerequisite: PHMD 2028.

**PHMD 3014 Clinical Therapeutics 3** **8 Cr.Hrs.**

A case-based therapeutics course that builds on PHMD 2028. The course will integrate knowledge from previous pharmacy courses with newly acquired therapeutic knowledge, incorporating critical evaluation skills and clinical judgment into clinical case topic discussions in order to enhance students' ability to identify, resolve and prevent drug-related problems for individual patients. Not to be held with PHRM 4310. Registration is normally restricted to students in Year 3 of the program. Prerequisite: PHMD 2028.

**PHMD 3016 Toxicology of Medications and Drugs of Abuse** **2 Cr.Hrs.**

Toxicology of prescription and non-prescription medications and drugs of abuse. The emphasis is on the study of emergency treatments of the overdosed patient. Forensic aspects of common poisonings and drug overdoses are also discussed. May not be held with PHRM 4450. Registration is normally restricted to students in Year 3 of the program. Prerequisites: PHMD 2016 and PHMD 2028.

**PHRM 3110 Pharmacy Skills Laboratory III** **3 Cr. Hrs.**

This course develops essential skills required for pharmacy practice. The focus is on interaction with patients and other health care professionals and

the application of essential knowledge, skills and values required for the provision of pharmaceutical care. May not be held with PHRM 3100.

**PHRM 3230 Principles of Professional Practice 2 Cr. Hrs.**

This course offers the opportunity to explore professionalism, ethics and socio-economic aspects of the health care system. May not be held with PHRM 3210.

**PHRM 3310 Clinical Pharmacy 2 10 Cr. Hrs.**

This course builds on principles of drug therapy introduced in Clinical Pharmacy 1. Aspects of providing direct patient care are emphasized to identify, solve and prevent actual or potential drug-related problems. The course also expands knowledge of "Over the Counter (OTC)" medications as therapeutic alternatives and introduces home diagnostic testing

**PHRM 3320 Pharmaceutical Analysis Lab 3 Cr. Hrs.**

This course offers the opportunity to prepare pharmaceutical dosage forms and perform analytical testing on the products. Qualitative and quantitative instrumental assay techniques are introduced.

**PHRM 3430 Natural Products 3 Cr. Hrs.**

Medicinal products of natural origin; introduction to systems of complementary medicine. Therapeutic aspects and products are emphasized

**PHRM 3520 Principles of Scientific Literature Evaluation 4 Cr. Hrs.**

Primary literature is critically analyzed. Discussion of how study results impact on treatment strategies are emphasized. May not be held with PHRM 3510.

**PHRM 3550 Clinical Pharmacokinetics 3 Cr. Hrs.**

This course explores the practical application of pharmacokinetic concepts, calculations, and patient factors which effect pharmacokinetics in the clinical setting. Emphasis is on selected medications that require closer monitoring to ensure efficacy and patient safety. May not be held with PHRM 3500 or 046.350.

**PHRM 3640 Principles of Biotechnology 3 Cr. Hrs.**

Introduction of biotechnology in pharmaceutical science and pharmacy. Students will be introduced to concepts from molecular biology, immunology, biotechnology and pharmacogenomics.

**PHRM 3700 Structural Practical Experiential Program 3 4 Cr. Hs.**

This course offers experiential learning in a variety of pharmacy practice settings (e.g. community pharmacy practice, institutional pharmacy practice) It consists of 2 two week rotations at the end of the third year of the program. This course builds on skills learned in SPEP 1 and SPEP 2 and focuses on the introduction of applying pharmaceutical care to patients under the supervision of pharmacist preceptors consistent with the Manitoba Pharmacy Act. Students will be graded on a pass/fail basis.

**PHRM 4230 Pharmacy Practice Management 4 Cr. Hrs.**

An Introduction to administrative and behavioural sciences as they relate to planning, organization and operation of pharmacy practice and to the control of human and financial resources.

**PHRM 4310 Clinical Pharmacy 3 4 Cr. Hrs.**

A problem-based therapeutics course that builds on PHRM 3310. The emphasis is on the provision of pharmaceutical care to enhance students' ability to identify, resolve and prevent drug-related problems in given clinical scenarios.

**PHRM 4450 Toxicology 3 Cr. Hrs.**

Toxicology of prescription and non-prescription medications and drugs of abuse. The emphasis is on the study of emergency treatments of the overdosed patient. Forensic aspects of common poisonings and drug overdoses are also discussed

**PHRM 4470 Current Topics 3 Cr. Hrs.**

A discussion of topics of immediate interest to the profession. Subject to

satisfactory completion of required projects and presentations. Attendance of 80% is mandatory. Students will be graded pass/fail.

**PHRM 4700 Structural Practical Experiential Program 4 10 Cr. Hrs.**

This course offers experiential learning in a variety of pharmacy practice settings (e.g. community pharmacy practice, institutional pharmacy practice) It consists of 2 six week rotations. This course builds on skills learned in SPEP 1, SPEP 2 and SPEP 3 and focuses on practicing advanced pharmaceutical care and further developing therapeutic and disease knowledge under the supervision of pharmacist preceptors consistent with the Manitoba Pharmacy Act. Students will be graded on a pass/fail basis.

**PHRM 4800 PHARM ELECTIVES 10 Cr. Hrs.**

This program offers students the opportunity to explore areas in research and professional practice that are not part of the required undergraduate courses. Students have the option of applying to conduct projects at sites pre-approved by the College or to propose alternative avenues for self-directed learning. All project proposals need to obtain final approval from the College of Pharmacy which facilitates students' placement. Assessment will be based on written reports submitted by individual students to the College of Pharmacy. Students will be graded on a pass/fail basis.

## College of Rehabilitation Sciences

Dean: Reg Urbanowski  
 Head: Denise Mackey, Department of Respiratory Therapy  
 Campus Address/General Office: R106-771 McDermot Ave., Bannatyne Campus  
 Email Address: [CORS.RTprogram@umanitoba.ca](mailto:CORS.RTprogram@umanitoba.ca)

**Chapter Contents**

### SECTION 1: Degree Programs Offered

- 1.1 Programs
- 1.2 Professional Designation

### SECTION 2: Admission Requirements

- 2.1 Course Requirements: Respiratory Therapy

### SECTION 3: Faculty Academic Regulations

- 3.1 General
- 3.2 Health Requirements
- 3.3 Dean's Honour List
- 3.4 Attendance
- 3.5 Criminal Record and Vulnerable Persons Check, Adult Abuse Registry Check and Child Abuse Registry Check

### SECTION 4: Program and Graduation Requirements

- 4.1 Academic Education
- 4.2 Clinical/Fieldwork Education

### SECTION 5: Course Descriptions

#### SECTION 1: Degree Programs Offered

##### 1.1 Programs

Program/Degree	Years to Complete	Total Credit Hours
Bachelor of Respiratory Therapy (B.R.T.) *	Regular Program: 4 years (University 1 plus 3 years)	136 **
	Degree Completion Program: 5 years	30

\* The B.R.T. replaces the former B.M.R. (R.T.).

\*\* For students admitted into the B.R.T. degree program in 2014 or later.

The College of Rehabilitation Sciences also offers Master of Occupational Therapy and Master of Physical Therapy programs. Refer to the U of M Graduate Studies Calendar for further info on these programs.

##### 1.2 Professional Designation

#### Bachelor of Respiratory Therapy (B.R.T.)

Respiratory Therapists may apply for a license in jurisdictions throughout Canada after graduation of an approved or accredited educational program and successful completion of the credentialing examination approved Manitoba Association of Respiratory Therapists (MARRT). In Manitoba

MARRT has the right to confer the title of Registered Respiratory Therapist (RRT) by virtue of a candidate's successful completion of the certification examinations. Further information regarding the national certification exam can be found at <https://www.csrt.com/rt-professional-practice/>

Students admitted into the program of studies in respiratory therapy should note carefully that while the University of Manitoba, College of Rehabilitation Sciences may admit students to its course of studies, the right to practice as a respiratory therapist is granted only through the appropriate authority of the province concerned, through a process of licensure. To be eligible for employment in Manitoba, graduates must register with the Manitoba Association of Registered Respiratory Therapists (MARRT). Regulations are similar in most other provinces in that the students must pass a credential exam and be registered with the regulatory body in that jurisdiction. Further information regarding registration in Manitoba can be found at <http://www.marrt.org/index.jsp?p=membership>. Students are highly encouraged to become student members of both provincial and national professional associations.

### SECTION 2: Admission Requirements

#### Intro Rehabilitation Sciences

The following is a summary of the admission requirements for Respiratory Therapy. Equivalent academic courses completed at the University of Manitoba or recognized universities elsewhere will be considered. All admission requirements, as well as application deadline dates and forms, are included in applicant information packages that are available from the College of Rehabilitation Sciences website ([http://umanitoba.ca/rehabsciences/rt/admissions\\_hub.html](http://umanitoba.ca/rehabsciences/rt/admissions_hub.html)). Info can also be obtained from the [Admissions Office](#), Enrolment Services, 424 University Centre. This information is also posted on the university's website.

##### 2.1 Course Requirements: Respiratory Therapy Regular Program

BIOL 1020 and BIOL 1030, or BIOL 1000 and BIOL 1010

SOC 1200 Introduction to Sociology, or PSYC 1200 Introduction to Psychology

STAT 1000 Introductory Statistics

3 credit hour course to satisfy the written English requirement

6 credit hours of electives to total 24 credit hours in University 1

Other requirements: Respiratory Therapy

Minimum GPA required for consideration: 3.0. Minimum GPA required in core courses: 3.0.

Respiratory Therapy does not require specific high school courses. However, the following high school courses are required to register for the required courses:

Math 40S minimum 50% required (Pre-Calculus or Applied Math recommended)

If taking BIOL 1020, Biology 40S, and one of Chemistry 40S or Physics 40S minimum 50% required

Biology 40S, Chemistry 40S, English 40S, and Physics 30S and/or 40S recommended

Selection Criteria: 67% Grades and 33% Interview.

#### Degree Completion Program

In addition to the regular degree program in Respiratory Therapy, the College offers a degree completion program. Generally, individuals who have attained a diploma in respiratory therapy from an accredited program of studies in Canada, who are actively involved in the practice of the profession, and who demonstrate an interest in continuing their studies in this field, will be accepted. The degree completion program requires a minimum of 30 credit hours of study to be determined by the student in consultation with the department head and/or faculty advisor.

## SECTION 3: College Academic Regulations

### 3.1 General

The provisions of the chapter, General Academic Regulations, and the chapter, University Policies, apply to all students. In addition, the College of Rehabilitation Sciences has regulations and requirements, published below, that apply specifically to its' students.

Policies with regard to admissions, selection, academic progression of the student, compulsory attendance, examination procedures, supplemental examination procedures, and withdrawal dates are in force and are on file in the general office of the College of Rehabilitation Sciences.

### 3.2 Health Requirements

Students in Respiratory Therapy are required to provide a health history and immunization record. A student will not be permitted to attend fieldwork/clinical placements until all health, immunization, CPR and mask fit requirements are current.

#### Immunizations

Standard Health Record Form Packages are sent to new students in Respiratory Therapy upon acceptance into the program. New students in Respiratory Therapy are required to return forms to their department by the dates published yearly in the Health Record Form Packages. Returning students are required annually to review and update immunizations as necessary.

#### Cardiopulmonary Resuscitation Certification

All students (both new and returning) in the Department of Respiratory Therapy are required to obtain Heart and Stroke Foundation of Canada certification in cardiopulmonary resuscitation annually. Certification must be at the Basic Life Support (BLS) for Healthcare Providers. Students in year 1 and 2 of the program will be required to provide proof of certification at the first day of class. Students in year 3 of the program will be required to provide proof of certification before the first day of their clinical placement. For students in all years of the program, proof of certification must not have an issue date prior to the last week in June of the current year. This will ensure that the certification remains current until the end of the clinical education period for each year in the program.

#### Mask Fit Certification

Clinical/fieldwork education sites require Respiratory Therapy students to maintain mask fit certification. Information on acquiring this certification is provided to new students with the Health Record Form Packages. All students are required to maintain mask fit certification throughout the program.

### 3.3 Dean's Honour List

Students carrying a full course load, with a sessional Grade Point Average of 3.7 or higher and have not done resit or supplemental exams, are placed on the Dean's Honour List.

### 3.4 Attendance

Regular attendance is expected of all students in all courses. Prior permission is required for any anticipated absences. Students absent from class due to illness may be required to present a certificate from a physician. Unexcused absence from an examination may result in a grade of zero for

that examination. Make-up examinations may be allowed under special circumstances.

### 3.5 Criminal Record and Vulnerable Persons Check, Adult Abuse Registry Check and Child Abuse Registry Check

All respiratory therapy students are required to obtain a formal Criminal Record and Vulnerable Persons Check, an Adult Abuse Registry Check, and a formal Child Abuse Registry Check **by the first day of classes of each year of the program**. These records must have been issued within the ninety (90) days previous to that date to ensure that they remain current until the end of the clinical education period for each year of the program. These documents are required for participation in all clinical/fieldwork education activities.

## SECTION 4: Program and Graduation Requirements

### 4.1 Academic Education

#### Respiratory Therapy

Course No.		Credit Hours
First Year		
ANAT 1030	Human Anatomy	3
RESP 1400	Introduction to Professional Practice	3
RESP 1410	Health Systems and Respiratory Care	3
RESP 1420	Applied Physiology for Respiratory Therapy	6
RESP 1430	Respiratory Therapeutics 1	6
RESP 1440	Pharmacology	3
RESP 1450	Principles of Mechanical Ventilation	6
RESP 1460	Basic Fieldwork 1	4
<b>Total credit hours</b>		<b>34</b>
Second Year		
REHB 2450	Research Methodology for Medical Rehabilitation	3
RESP 2200	Primary Care in Respiratory Therapy	3
RESP 2210	Pathophysiology	6
RESP 2220	Physical Examination and Health Assessment	3
RESP 2230	Respiratory Therapeutics 2	6
RESP 2240	Clinical Mechanical Ventilation	3
RESP 2250	Ventilator Instrumentation	3
RESP 2260	Cardiopulmonary Diagnostics	3
RESP 2380	Basic Fieldwork 2	4
RESP 2390	Clinical Integration and Simulation	6
<b>Total credit hours</b>		<b>40</b>
Third Year		

RESP 3320	Clinical Education in Pediatric Respiratory Care	3
RESP 3350	Clinical Education in Pulmonary Diagnostics	3
RESP 3360	Clinical Education in Anesthesia	3
RESP 3370	Clinical Education in Community Care	4
RESP 3410	Clinical Education in Critical Care	8
RESP 3420	Clinical Education in Neonatal Care	5
RESP 3430	Clinical Education in General Therapeutics	6
RESP 3440	Current Topics in Respiratory Therapy	6
<b>Total credit hours</b>		<b>38</b>

Students may not obtain any grade lower than "C" in all required courses.

#### 4.2 Clinical/Fieldwork Education

Sixteen hundred (1,600) full-time hours of clinical/fieldwork experience are required. Three hundred and twenty (320) hours of clinical education time is organized into blocks that occur during years one and two of the B.R.T. program. The remaining 1,280 hours of clinical placements may occur in another province and will occur in both urban and rural settings. Students may be required to pay for travel and accommodations for some clinical placements.

### SECTION 5: Course Descriptions

#### SECTION 5: Course Descriptions-Medical Rehabilitation

##### REHB 2450 Research Methodology for Medical Rehabilitation

**3 Cr. Hrs.**

A theory and practical course designed to provide a basic understanding of research principles and their application in Medical Rehabilitation. 45 hours.

#### SECTION 5: Course Descriptions-Respiratory Therapy

##### RESP 1400 Introduction to Professional Practice **3 Cr. Hrs.**

This course provides an introduction to the profession of Respiratory Therapy and the roles and responsibilities of a Respiratory Therapist as a member of the health care team. Emphasis is placed on professional conduct, communication and decision-making around issues affecting client-centered care. The course also introduces the safety aspects of delivering respiratory therapy according to the Canadian Standards Association, as well as workplace health and safety. This course is restricted to students in year one of the Bachelor Respiratory Therapy program.

##### RESP 1410 Health Systems and Respiratory Care **3 Cr. Hrs.**

Building on RESP 1400, Introduction to Professional Practice, this course further explores the role of the Respiratory Therapist as a regulated health care professional in Canada and the function of regulatory and professional advocacy organizations. Students will learn concepts of patient safety and quality and how human, material, and financial resource management is accomplished in the Canadian health care system. Emphasis is placed on the integration of professional practice knowledge, skills and attitudes. This course is restricted to students in year one of the Bachelor of Respiratory Therapy program.

##### RESP 1420 Applied Physiology for Respiratory Therapy **6 Cr. Hrs.**

The course is designed to provide students with a basic understanding of the function and regulation of the systems and major organs of the human body as they relate to clinical respiratory sciences. This course is restricted

to students registered in year one of the Bachelor of Respiratory Therapy program.

##### RESP 1430 Respiratory Therapeutics 1 **6 Cr. Hrs.**

A lecture and laboratory course which introduces basic therapeutic concepts, technologies and techniques employed in respiratory therapy including medical gases, humidity and aerosol therapy, and bronchopulmonary hygiene. It introduces the principles of gas physics, and the physical and chemical properties of medical gases used in respiratory care. This course is restricted to students registered in year one of the Bachelor of Respiratory Therapy program.

##### RESP 1440 Pharmacology **3 Cr. Hrs.**

This course will introduce the principles of pharmacology, those factors modifying drug effects, and individual pharmacologic agents including: ANS drugs, CNC drugs, cardiovascular medications, respiratory medications, antibiotics, and other drugs relevant to Respiratory Therapy. This course is restricted to students registered in year one of the Bachelor of Respiratory Therapy program.

##### RESP 1450 Principles of Mechanical Ventilation **6 Cr. Hrs.**

The course will focus on the fundamental physical and physiologic principles involved with mechanical ventilation under normal and abnormal respiratory conditions. Various forms and application strategies of positive pressure ventilation will be introduced and explained as to their effects on the physiological systems. This course is restricted to students registered in year one of the Bachelor of Respiratory Therapy program.

##### RESP 1460 Basic Fieldwork 1 **4 Cr. Hrs.**

This course is comprised of 160 hours of clinical fieldwork experiences in respiratory therapy, provided under the supervision of registered respiratory therapists at one or more approved clinical sites. This course is restricted to students registered in year one of the Bachelor of Respiratory Therapy program.

##### RESP 2200 Primary Care in Respiratory Therapy **3 Cr. Hrs.**

This course provides an understanding of primary care in Respiratory Therapy practice as a method of supporting individuals and populations with respiratory disease. Students will learn the principles of health promotion and disease prevention, as well as chronic disease management and self-management strategies. This course is restricted to students registered in year two of the Bachelor of Respiratory Therapy program who have completed all of the required courses for year one of the program.

##### RESP 2210 Pathophysiology **6 Cr. Hrs.**

This course will introduce the pathogenesis of primary diseases of the cardio-respiratory, peripheral vascular, central and peripheral nervous systems. Specific disorders of the renal, metabolic, and immune systems, as well as infectious diseases with particular relevance to respiratory therapy will be introduced. The course will also introduce the differential diagnosis and current strategies employed in the management of these diseases. This course is restricted to students registered in year two of the Bachelor of Respiratory Therapy program who have completed all the required courses for year one of the program.

##### RESP 2220 Physical Examination and Health Assessment **3 Cr. Hrs.**

This course focuses on the development of the patient/client history and physical examination skills essential to health assessment. Students will apply the findings of health assessments in the determination of differential diagnoses and in the development of respiratory care plans. This course is restricted to students registered in year two of the Bachelor of Respiratory Therapy program who have completed all the required courses for year one of the program.

##### RESP 2230 Respiratory Therapeutics 2 **6 Cr. Hrs.**

This lecture and laboratory based course introduces advanced respiratory therapeutics including airway management, anaesthesia, invasive hemodynamic techniques, blood sample procurement and analysis, and others commonly employed in respiratory therapy. This course is restricted to students registered in year two of the Bachelor of Respiratory Therapy program who have completed all the required courses for year one of the program.

**RESP 2240 Clinical Mechanical Ventilation 3 Cr. Hrs.**

This course will discuss the initiation and management of all types of mechanical ventilation, both conventional and advanced, with intra and inter-facility patient transport. Interpretation of detailed pulmonary mechanics will be discussed to allow for assessment of ventilated patients. This course is restricted to students registered in year two of the Bachelor of Respiratory Therapy program who have completed all the required courses for year one of the program.

**RESP 2250 Ventilator Instrumentation 3 Cr. Hrs.**

This is a comprehensive course in the function, operation, and application of specified neonatal, pediatric and adult ventilators. Illustration of the necessary skills to setup, monitor and troubleshoot the ventilator will be examined in the classroom as well as in simulated patient case scenarios. This course is restricted to students registered in year two of the Bachelor of Respiratory Therapy program who have completed all the required courses for year one of the program.

**RESP 2260 Cardiopulmonary Diagnostics 3 Cr. Hrs.**

This course will introduce the principles of cardiac and pulmonary function diagnostics including: static and dynamic measures, determination of volumes and capacities, exercise physiology. Cardiopulmonary function changes relative to common diseases and abnormal physiologic states will be evaluated. This course is restricted to students registered in year two of the Bachelor of Respiratory Therapy program who have completed all the required courses for year one of the program.

**RESP 2380 Basic Fieldwork 2 4 Cr. Hrs.**

Building on RESP 1460 (Basic Fieldwork1) and RESP 2390 (Clinical Integration and Simulation), this course is comprised of fieldwork experiences which provide the student the opportunity to apply the integrated concepts learned in the first two years of the Respiratory Therapy program in a clinical setting. This course will prepare students for advanced clinical education coursework. Prerequisites: RESP 1460, RESP 2390.

**RESP 2390 Clinical Integration and Simulation 6 Cr. Hrs.**

This course provides the student an opportunity to integrate concepts learned in the first two years of the Respiratory Therapy program, and to learn life support protocols prior to participation in advanced clinical education coursework. The course will be delivered through a variety of formats including classroom, seminar, and clinical simulation. Prerequisite: This course is restricted to students registered in year two of the Bachelor of Respiratory Therapy program who have completed all required courses for year one of the program.

**RESP 3320 Clinical Education in Pediatric Respiratory Care 3 Cr. Hrs.**

Three weeks of clinical experience in the Pediatric Intensive Care Unit at Children's Hospital. Shiftwork and extended shifts may be required. Course evaluated on a pass/fail basis. 144 hours.

**RESP 3350 Clinical Education in Pulmonary Diagnostics 3 Cr. Hrs.**

Three weeks of clinical experience in the pulmonary diagnostic laboratory of an approved clinical site. Course evaluated on a pass/fail basis. 144 hours.

**RESP 3360 Clinical Education in Anesthesia 3 Cr. Hrs.**

Three weeks of clinical experience designed to acquaint the student with actual clinical techniques and procedures used in the operating and recovery room. Course evaluated on a pass/fail basis. 144 hours.

**RESP 3370 Clinical Education in Community Care 4 Cr. Hrs.**

Four weeks of clinical experience in community care settings including: pre-hospital care, health and wellness promotion, interfacility transport, chronic care, home care and community outreach. Course evaluated on a pass/fail basis. 180 hours.

**RESP 3410 Clinical Education in Critical Care 8 Cr. Hrs.**

This course enables students to critically apply skills and concepts in the care of adult patients requiring critical respiratory care. The focus is on attainment of essential Respiratory Therapy competencies for practice. This course is evaluated on a pass/fail basis. This course is restricted to students registered in year three of the Bachelor of Respiratory Therapy program

who have completed all the required courses for year two of the program. May not be held with the former RESP 3310.

**RESP 3420 Clinical Education in Neonatal Care 5 Cr. Hrs.**

This course enables students to critically apply skills and concepts in the care of infants requiring critical respiratory care in the Labor & Delivery, and Neonatal units of the hospitals. The focus is on attainment of essential Respiratory Therapy competencies for practice. This course is evaluated on a pass/fail basis. This course is restricted to students registered in year three of the Bachelor of Respiratory Therapy program who have completed all the required courses for year two of the program. May not hold with the former RESP 3330.

**RESP 3430 Clinical Education in General Therapeutics 6 Cr. Hrs.**

This course enables students to critically apply skills and concepts in the care of adult patients requiring general respiratory care (non-critical care) in the hospital setting. The focus is on attainment of essential Respiratory Therapy competencies for practice. This course is evaluated on a pass/fail basis. This course is restricted to students registered in year three of the Bachelor of Respiratory Therapy program who have completed all the required courses for year two of the program. May not hold with the former RESP 3380.

**RESP 3440 Current Topics in Respiratory Therapy 6 Cr. Hrs.**

Focuses on current issues in health and healthcare, in particular as they relate to respiratory therapy. Students complete a thorough review of the current evidence for practice and ongoing research relating to a topic of interest, and present their findings in a professional forum. This course is restricted to students registered in year three of the Bachelor of Respiratory Therapy program who have completed all the required courses for year two of the program. Not to be held with the former RESP 3300.

## Bachelors of Health Sciences, Health Studies

Dean: Brian Postl

Program Director: Mark Nachtigal

Campus Address/General Office: 202 Human Ecology Bldg

Telephone: 204 474 8137

Website: [umanitoba.ca/faculties/health\\_sciences/IHP/index.html](http://umanitoba.ca/faculties/health_sciences/IHP/index.html)

Academic Staff: Please refer to our website at

### SECTION 1: Degree Programs Offered

#### 1.1 Degree Programs

#### 1.2 Available Minors, Options, Concentrations and Streams

### SECTION 2: Admission Requirements

### SECTION 3: Academic Regulations

#### 3.1 Prerequisite, Corequisite, and Course Availability: Definitions

#### 3.2 Scholastic Standards

#### 3.3 Part-Time Students

#### 3.4 Repeating Courses

#### 3.5 Challenge for Credit

#### 3.6 Transfer of Credit

#### 3.7 Appeals of Academic Regulations

#### 3.8 Dean's Honour List

#### 3.9 Degree with Distinction

#### 3.10 Work Permit for Study Purposes

#### 3.11 Release and Indemnification Forms

#### 3.12 Written English and Mathematics Requirements

### SECTION 4: Program and Graduation Requirements

#### 4.1 Advisement

#### 4.2 Interdisciplinary Health Program

#### 4.3 Minors

#### 4.4 Interfaculty Option in Aging

#### 4.5 The Minor in Management

#### 4.6 The Voluntary Minor

### SECTION 5: Course Descriptions

### SECTION 1: Degree Programs Offered

#### 1.1 Programs

Program/Degree	Years to Complete	Total Credit Hours
Bachelor of Health Sciences	4	120
Bachelor Health Studies	4	120

#### 1.2 Available Minors, Options, and Concentrations

Program	Minor Availability	Options	Concentrations
Health Sciences	Yes: Health Sciences Minor		Biomedical Sciences
Health Studies	Yes: Health Studies Minor		1. Health Policy, Planning and Evaluation 2. Health Promotion and Education 3. Family Health
		Interfaculty Option in Aging	

### SECTION 2: Admission Requirements for the Interdisciplinary Health Program

Admission requirements are described on the Undergraduate Admissions website at <http://umanitoba.ca/student/admissions/application/index.html>

#### General Entrance Requirements to the Interdisciplinary Health

**Program:** A minimum adjusted grade point average (AGPA) of 2.0 in at least 24 credit hours of University 1, including 6 credit hours from Arts and 6 credit hours from Science to total 12 credit hours, plus 12-18 credit hours of other University 1 courses, for a total of 24-30 credit hours.

Other requirements for University study

High school prerequisites required for University level courses in certain programs: Mathematics 40S (pre-calculus or applied) and Chemistry 40S are required for the science requirements in the Interdisciplinary Health Program. Students planning to take BIOL 1020 for any program must have Biology 40S and any Grade 12 Mathematics course.

#### Minimum Adjusted GPA for consideration: 2.0.

For students wishing to choose the focused approach for entry to the Interdisciplinary Health Program, the course requirements for each of the programs or areas of concentration offered by the program are described in the Start Book at <http://umanitoba.ca/firstyear/>.

Direct Admission into the Health Sciences/Health Studies Degree Programs from High School

To be eligible for admission based on high school, students must have: General Requirements to the University of Manitoba, plus a minimum 85% average over the following, with no less than 60% in each course:

- English 40S
- Applied Mathematics 40S or Pre-Calculus Mathematics 40S
- Biology 40S, Chemistry 40S, Physics 40S or Computer Science 40S

### SECTION 3: Academic Regulations

The provisions of the chapter, [General Academic Regulations and Requirements](#), and the chapter, [University Policies](#), apply to all students. In addition, the Interdisciplinary Health Program has regulations and requirements, published below, that apply specifically to its students.

### 3.1 Prerequisite, Corequisite, and Course Availability: Definitions

**Prerequisite:** If a course is prerequisite to a second course, the prerequisite must be met in order to continue in the second course. The department giving the second course may require a minimum grade of 'C' in the first course to register in the second course. Some inactive (legacy) courses may be used as prerequisites.

**Corequisite:** If a first course is a corequisite to a second course, the first course (unless previously completed) must be taken in the same term as the second course.

**Course Availability:** Not all courses listed in this Calendar are offered every year. Students are referred to the on-line calendar for courses offered in the year.

### 3.2 Scholastic Standards

#### Graduation and Grade Point Average

To graduate, a student must have passed 120 credit hours acceptable for credit in the current degree program and have obtained a minimum of 300 quality points. This is equivalent to a Degree Grade Point Average of 2.50. A pass indicates a grade of 'D' or better. A student's Degree Grade Point Average (DGPA) will be determined from the number of effective courses which apply at a particular stage. The effective courses consist of all courses passed, in addition to all failures which have not been cleared, or substituted for, in the student's record. A maximum of 150 credit hours (25 courses or the equivalent) may be attempted in order to obtain the 120 credit hours.

#### Assessment

The status of each student will be assessed in May of each year in which a student is registered. Assessments can include the following comments:

- Faculty minimum met (grade point average meets the standards listed below);
- Dean's Honour (see 3.9)
- Academic Warning
- Probationary status (see below)
- Suspension (see below)
- Suspension - all attempts used (see below)

Academic warning indicates a grade point average between the minimum required at the effective credit hours (year) and the DGPA requirement of 2.0.

There is a maximum of 30 credit hours of attempts allowed for each academic program; once those attempts are used (repeated courses, grades of F or D), it is impossible to graduate.

#### Probationary Standing

Students must achieve or exceed the following standards at the specified stages in their academic careers. Failure to obtain the standard results in probation. Once placed on probation, students who fail to meet the appropriate performance level at the next assessment following the next registration will be academically suspended. A student is not permitted to be on probation for two consecutive years.

#### Assessment Standards

Interdisciplinary Health Program: Health Sciences and Health Studies		
9 – 21 credit hours	< 2.0	Academic Warning
24 – 30 credit hours	2.0	
33 – 60 credit hours	2.2	
63 – 90 credit hours	2.4	
93 – 117 credit hours	2.5	
120+ credit hours	2.5	

#### Suspension

Suspended students must remain out of the Degree Program for one academic year from the date of suspension and must apply for reinstatement at the Admissions Office no later than May 1.

#### Suspension (All Attempts Used)

Where it is mathematically impossible for a student to complete the degree by repeating failed courses, a suspended student, after remaining out of the program for one calendar year, may attempt reinstatement. By completing at least 12 credit hours in one term with a minimum 'D' grade in all courses and a term grade point average of at least 2.0, the student will be reinstated. The student will start the program afresh, with previous grades of 'C' or better applicable to the program.

#### 3.3 Part-time Students

The maximum time allowed for completion of the degree is 10 years. After completion of 24 credit hours, part-time students will be evaluated each May and must conform to the minimum performance levels.

#### 3.4 Repeating Courses

A student may repeat any course for the purpose of attaining a better grade. A course (or its equivalent) that is repeated in Fall 2016 or later will have the highest grade count. There are no supplemental examinations for students who have failed final or deferred examinations.

#### 3.5 Challenge for Credit

A student wishing to challenge a course for credit should contact an Academic Advisor. Letter grades are granted upon completion of the course that is challenged for credit. An application is required.

#### 3.6 Transfer of Credit

See the chapters on [Admissions and Academic Regulations and Requirements](#) at the beginning of this *Calendar*.

#### 3.7 Appeals of Academic Regulations

The Committee on Student Standing considers petitions from students who request special consideration with respect to rules and regulations governing their programs of study and qualification for graduation.

#### 3.8 Dean's Honour List

Eligible students who achieve a term Grade Point Average of 3.5 or higher in at least 12 credit hours per term will be included in the Deans Honour List.

#### 3.9 Degree With Distinction

Students who graduate with a degree GPA of 3.75 and higher will receive a degree with distinction.

#### 3.10 Work Permit for Study Purposes

International students who are registering for courses or programs that require work placement must obtain a valid **Work Permit**, in addition to maintaining a valid Study Permit. Work placement includes, but is not

limited to, any **paid or unpaid** practicum, internships, work experience, field placement, and co-op programs that are a required component for the completion of their degree, diploma or certificate. Please contact your program advisor or the [International Centre for Students](#) for further information.

### 3.11 Release and Indemnification Forms

In elective courses, students may be required to sign a release form for off-campus activities.

### 3.12 Written English and Mathematics Requirements

The written English and Mathematics requirements are satisfied by required courses HNSC 2000 (former HMEC 2000) and STAT 1000 within the Interdisciplinary Health Program. HNSC 2000 will be available to students upon admission to the Interdisciplinary Health Program.

## SECTION 4: Program and Graduation Requirements

### Introduction

Students entering the Interdisciplinary Health Program will select one of the following two programs:

- Health Sciences
- Health Studies

In order to qualify for a degree, students must complete the 120 credit hours specified for the selected program. Elective choices provided in each program can permit students to transfer between them; however, this opportunity decreases as students progress. Students who transfer to another program must meet the full requirements of that program.

### 4.1 Advisement

The Interdisciplinary Health Program will provide entering students with orientation information and will refer a student to an academic advisor if the student requests. All returning students in the program must submit a program plan for the succeeding year before the start of registration.

### 4.2 Interdisciplinary Health Program

#### Program Director: Dr. Mark Nachtigal

This curriculum consists of two degree programs: the Bachelor of Health Sciences and the Bachelor of Health Studies. These degree programs offer new approaches to planning, administration and delivery of health services by fully integrating biological science and social science in understanding the health of people. Students will gain experience of dealing with health issues at the individual, community and population levels, as well as across the lifespan. The two degrees can serve as the foundation for careers in biomedical sciences, health care teams and community health management. They offer a general course of study, not a professional status. Students can use both degree programs to build the knowledge and prerequisites for entry into professional programs in the health and social science fields.

#### 4.2.1 Bachelor of Health Sciences Degree Program Chart Admission as of September 2018

The Bachelor of Health Sciences (B.H.Sc.) degree is a four year interdisciplinary program that incorporates science, humanities and social science to provide students with an integrative perspective on health. The BHSc provides students with an interdisciplinary background and skill set that will contribute to their preparation for a future in health-related careers. This interdisciplinary skill set is seen as advantageous for students applying for education in professional health programs and graduate studies.

The Bachelor of Health Sciences (B.H.Sc.) Degree consists of 120 credit hours. There is one concentration available as an option, the Biomedical Sciences concentration. A Concentration is 18 credit hours.

Students should consult the Academic Calendar to ensure that they have the appropriate pre- or co-requisites before they attempt to register in a course. A number of courses are cross-listed between departments/faculties. Students are strongly encouraged to seek the advice of the Academic Advisor in the Interdisciplinary Health Program in order to plan their programs.

YEAR 1 <sup>1</sup>	YEAR 2 <sup>1</sup>	YEAR 3 <sup>1</sup>	YEAR 4 <sup>1</sup>
<b>120 Credit Hours</b>			
<b>30 Hours</b>	<b>30 Hours</b>	<b>30 Hours</b>	<b>30 Hours</b>
BIOL 1020	ECON 1210 or ECON 1220	FMLY 3750	HEAL 4600
BIOL 1030		FMLY 3780 or FMLY 3790	HEAL 4620
BIOL 1410	GMGT 2070 or LEAD 2010		15 credit hours of Program Electives <sup>2,3</sup>
BIOL 1412	HEAL 2600	HEAL 3000 (former HMEC 3000)	9 credit hours of Free Electives
CHEM 1300	HNSC 1210	HEAL 3600	
CHEM 1310	HNSC 2000 (former HMEC 2000) or PSYC 2250		
PSYC 1200		15 credit hours of Program Electives <sup>2,3</sup>	
STAT 1000		3 credit hours of Free Electives	
3 credit hours of Free Electives	NATV 1220 or NATV 1240 or NATV 3240		
	PHIL 2740		
	6 credit hours of Program Electives <sup>2,3</sup>		
	3 credit hours of Free Electives		
<b>Notes:</b>			
<sup>1</sup> Equivalent courses offered through Université de Saint-Boniface may be used in lieu of the specified courses identified in the degree program chart.			
<sup>2</sup> Of 36 credit hours of program electives, 21 must be science electives			
<sup>3</sup> Of the 36 credit hours of program electives, 24 must be at the 3000-4000 level.			

### Biomedical Sciences Concentration

Students registered in the Bachelor of Health Sciences can choose to complete a Biomedical Sciences concentration. This concentration offers courses related to the mechanisms of disease, giving students an opportunity to experience how diseases are researched through biomedical laboratory experience. This concentration will provide students not only with an interdisciplinary experience involving both the biological and social sciences, but with a new path to further studies in biomedical disciplines.

A written statement must be submitted to an IHP Academic Advisor declaring an interest in obtaining the concentration normally by May 15, following completion of HEAL 3610 (minimum grade of B). Students will be informed whether they have been accepted into the concentration normally by mid-June.

Normally, enrolment will be limited to the 24 eligible students who have achieved the highest degree GPAs after completion of HEAL 3610.

<b>Biomedical Sciences Concentration</b> <sup>1,2,3</sup>	
<b>Year 3</b>	<b>Year 4</b>
BIOL 2520	HEAL 4630 <sup>4</sup>
CHEM 2360	HEAL 4640 <sup>4</sup>
HEAL 3610 <sup>5</sup>	

**Notes:**

<sup>1</sup> It is recommended that students accepted into the Biomedical Sciences concentration complete PHAC 4030 and PHAC 4040 as 6 credit hours of the Science electives.

<sup>2</sup> Only students registered in the B.H.Sc. degree program may complete a Biomedical Sciences concentration.

<sup>3</sup> Courses required for the Biomedical Sciences concentration could count toward 18 of the 36 credit hours of approved elective course work to be completed in Years 3 and 4 of the B.H.Sc. degree.

<sup>4</sup> Registration in HEAL 4630 and HEAL 4640 is restricted to students accepted into the Biomedical Sciences concentration and required permission of the Instructor. Registration must be confirmed by the IHP Academic Advisor.

<sup>5</sup> HEAL 3610 is offered as an elective course for all students in the B.H.Sc. degree.

#### **4.2.2 Bachelor of Health Sciences Program Electives List as of September 2018**

##### **Bachelor of Health Sciences Program Electives List**

The following B.H.Sc. Electives List only applies to those students admitted to the B.H.Sc. degree program in the Fall of 2018 and later. The existing list of IHP electives should be followed by students admitted to the B.H.Sc. prior to the Fall of 2018. [See Section 4.2.10](#)

The science requirement may be met using any course offered by the Faculty of Science, or the Faculty of Agricultural and Food Sciences on the approved elective list (see below), in addition to the following courses:

##### **Clayton H Riddell Faculty of Environment Earth and Resources**

ENVR 1000 Environmental Science 1: Concepts

**4.2.3 Bachelor of Health Studies Program Admission as of September 2018**

The Bachelor of Health Studies (B.H.St.) Degree now consists of 3 Concentrations from which students must declare at least one. A Concentration is 18 credit hours. Students must choose from one of the following 3 Concentrations:

1. Health Policy, Planning and Evaluation
2. Health Promotion and Education
3. Family Health

Students should consult the Academic Calendar to ensure that they have the appropriate pre- or co-requisites before they attempt to register in a course. A number of courses are cross-listed between departments/faculties. Students are strongly encouraged to seek the advice of Academic Advisor in the Interdisciplinary Health Program in order to plan their programs.

The new B.H.St. Electives List would apply only to those students admitted to the B.H.St. degree program in the Fall of 2018 and later. The new elective list can be found in [section 4.2.8](#). The existing list of IHP electives should be

followed by students admitted to the B.H.St. prior to the Fall of 2018 and can be found in [section 4.2.10](#)

The **Health Policy, Planning, and Evaluation** concentration can provide foundational knowledge related to health policy development and related evaluation, as well as programming services. This concentration can be a potential route for those wishing to pursue related graduate studies in Community Health Sciences (although students in all three concentrations are eligible to pursue graduate studies), or for individuals seeking careers in areas such as Health Policy Analysis or Program Planning and Evaluation Coordinators.

The **Health Promotion and Education** concentration would be a route through which students wishing to pursue a career as a home economics teacher could obtain their ‘teachable subjects’ in family studies and nutrition. Students are advised that additional training will be required and that consultation with academic advisors in the Faculty of Education is recommended. Aside from home economics education, this concentration would lay the foundation for a future career options as Community Health Educators or Health-related Organization/Foundation Fundraising, or Health and Safety Coordinators or a Professional Home Economist (P.H.Ec.)

The **Family Health** concentration was created to ensure that those students interested in family social science would clearly see a place for themselves in the new academic structure. One of the features of the Family Health concentration will be the ability to take courses relevant to the existing Family Social Science options (Aging and Developmental Health; Child and Youth Developmental Health; Family Economic Health; Family Violence; Social Development) allowing the program to be flexible and meet individual student needs. This degree provides the educational background suitable for a future career as a Community Wellness Worker, Victim Services Worker, Youth Care Worker, Residential Care Manager.

**4.2.4 Bachelor of Health Studies Program Chart Admission as of September 2018**

YEAR 1 <sup>1</sup>	YEAR 2 <sup>1</sup>	YEAR 3 <sup>1</sup>	YEAR 4 <sup>1</sup>

HEAL 4500	Injury Prevention Across the Life Course	3
NURS 2100	Introduction to Family Caregiving Across the Lifespan	3

#### 4.2.8 Bachelor of Health Studies Program Electives List Admission as of September 2018

The B.H.St. Electives List in this section applies only to those students admitted to the B.H.St. degree program in the Fall of 2018 and later. The existing list of IHP electives should be followed by students admitted to the B.H.St. prior to the Fall of 2018. The existing list of IHP electives can be found in [section 4.2.10](#)

The science requirement may be met using any course offered by the Faculty of Science on the approved elective list (see below), in addition to the following courses:

#### Faculty of Agricultural and Food Sciences

FOOD 4150 Food Microbiology 1

HNSC 1200 Food, Facts and Fallacies

HNSC 2130 Nutrition through the Life Cycle

#### Clayton H. Riddell Faculty of Environment, Earth and Resources

EER 1000 Earth: A User's Guide

ENVR 1000 Environmental Science 1: Concepts

ENVR 3400 Introduction to Environment and Health

ENVR 4400 Advanced Issues in Environment and Health

#### Max Rady College of Medicine

BGEN 3022 Introduction to Human Genetics A

BGEN 3024 Introduction to Human Genetics B

PHGY 1030 Fundamentals of Medical Physiology

#### Faculty of Agricultural and Food Sciences

ABIZ 1010 Economics of World Food Issues and Policies

ABIZ 3550 Environmental Policy

HNSC 3350 Culture and Food Patterns

HNSC 3870 Food Geographies (cross-listed with GEOG 3870)

HNSC 4290 Food, Nutrition and Health Policies

SOIL 3520 Pesticides: Environment, Economics and Ethics

#### Faculty of Arts

**4.2.9 Bachelor of Health Sciences prior to September 2018****Health Sciences Degree (Total credit hours: 120)**

The Bachelor of Health Sciences degree provides students with an interdisciplinary background and skill set that will contribute to their preparation for a future in health-related careers. This interdisciplinary skill set is seen as advantageous for students applying for education in professional programs and graduate studies.

Year 1	Year 2	Years 3 and 4
CHEM 1300	PHIL 1290 ECON 1210	HEAL 4620
CHEM 1310	GMGT 1010 or GMGT 2070	<b>36 credit hours from the approved list of electives, of which at least 24 credit hours must be at the 3000 and 4000 level, and including:</b>
BIOL 1020	HNSC 1210	At least 21 credit hours of Science electives
BIOL 1030	FMLY 3780 or FMLY 3790	At least 12 credit hours of Social Science electives
BIOL 1410	PSYC 2250 or HNSC (HMEC) 2000	<b>15 credit hours of Free Electives</b>
BIOL 1412	NATV 1220 or NATV 1240

PSYC 1200	6 credit hours chosen from:	
3 Credit hours of	PHIL 2740	
Free Electives	GEOG 4290	
	SOC 2490	
	HEAL 2600 <sup>1</sup>	
	HEAL 3600 <sup>1</sup>	
	HEAL 4600 <sup>1</sup>	

### Biomedical Sciences Concentration

Students registered in the Bachelor of Health Sciences can choose to complete a Biomedical Sciences concentration. This concentration offers courses related to the mechanisms of disease, giving students an opportunity to experience how diseases are researched through biomedical laboratory experience. This concentration will provide students not only with an interdisciplinary experience involving both the biological and social sciences, but with a new path to further studies in biomedical disciplines.

A written statement must be submitted to the Student Advisor declaring an interest in obtaining the concentration normally by May 15, following completion of HEAL 3610 (minimum grade of B). Students will be informed whether they have been accepted into the concentration normally by mid-June.

Normally, enrolment will be limited to the 24 eligible students who have achieved the highest degree GPAs after completion of HEAL 3610.

Biomedical Sciences Concentration <sup>2,3,4</sup>	Year 3	Year 4
	BIOL 2520 CHEM 2360 HEAL 3610 <sup>6</sup>	HEAL 4630 <sup>5</sup> HEAL 4640 <sup>5</sup>

**Notes:**

- <sup>1</sup> HEAL 2600, HEAL 3600, and HEAL 4600 are offered in a case-study format in years 2, 3 and 4.
- <sup>2</sup> It is recommended that students accepted into the Biomedical Sciences concentration complete PHAC 4030 and PHAC 4040 as 6 credit hours of the Science electives.
- <sup>3</sup> Only students registered in the B.H. Sc. degree program may complete a Biomedical Sciences concentration.
- <sup>4</sup> Courses required for the Biomedical Sciences concentration could count toward 18 of the 36 credit hours of approved elective course work to be completed in Years 3 and 4 of the B.H.Sc. degree.
- <sup>5</sup> Registration in HEAL 4630 and HEAL 4640 is restricted to students accepted into the Biomedical Sciences concentration and requires permission of the Instructor. Registration in these courses must be confirmed by the Student Advisor.
- <sup>6</sup> HEAL 3610 will be offered as an elective course for all students in the B.H.Sc. degree.

### Health Studies Degree (Total credit hours: 120) Prior To Admission for September 2018

The curriculum of this program integrates social science concepts, such as sociology and economics with science concepts, such as biology and metabolism. The integration supports the promotion of health by creating a new understanding among graduates of the determinants of health and how these determinants influence the health of individuals, families, and communities, as well as health services. This degree combines knowledge from science and social science disciplines in their content and learning experiences.

Year 1	Year 2	Years 3 and 4

PSYC 1200	PHIL 1290	HEAL 4610
SOC 1200	ECON 1210	<b>36 credit hours from the approved list of electives, of which at least 24 credit hours must be at the 3000 and 4000 level, and including:</b>  At least 21 credit hours of Social Science electives  At least 12 credit hours of Science electives  <b>15 credit hours of Free Electives</b>
ANTH 1210	GMGT 1010 or GMGT 2070	
ANTH 1220	HNSC 1210	
BIOL 1020	FMLY 3780 or FMLY 3790	
BIOL 1030	PSYC 2250 or HNSC (HMEC) 2000	
STAT 1000	NATV 1220 or NATV 1240	
3 Credit hours of Free Electives	HEAL (HMEC) 3000	
	6 credit hours chosen from:	
	PHIL 2740	
	GEOG 4290	
	SOC 2490	
	HEAL 2600 <sup>1</sup>	
	HEAL 3600 <sup>1</sup>	
	HEAL 4600 <sup>1</sup>	

**Notes:**

- <sup>1</sup> HEAL 2600, HEAL 3600, and HEAL 4600 are offered in a case-study format in years 2, 3 and 4.
- <sup>2</sup> Before entering continuing years in the Interdisciplinary Health Program, the overall program must be planned with academic advice. Program advising begins in early April.
- <sup>3</sup> Students are strongly encouraged to seek the advice of Academic Advisors in the Interdisciplinary Health Program in order to plan their programs to develop pathways of knowledge that will assist them in moving toward careers in chosen fields.
- <sup>4</sup> Students in both programs are required to structure their course selections as follows:  
  
 In Health Sciences, students are required to take 21 credit hours of science and 12 credit hours of social science courses from 36 credit hours of Approved Electives.  
  
 In Health Studies, students are required to take 21 credit hours of social science and 12 credit hours of science courses from 36 credit hours of Approved Electives.
- <sup>5</sup> Students in both programs are required to take at least 24 credit hours at the 3000 and 4000 levels from 36 credit hours of Approved Electives.  
  
 Students should consult the University Calendar to ensure that they have the appropriate pre- or corequisites before they attempt to register in a course. A number of courses are cross-listed between departments/faculties. The Academic Advisor will give additional guidance.

### 4.2.10 Interdisciplinary Health Program Electives List (Bachelor of Health Sciences and Bachelor of Health Studies prior to September 2018)

#### Sciences Orientation Electives

#### Faculty of Agricultural and Food Sciences

- FOOD 4150 Food Microbiology 1
- FOOD 4540 Functional Foods and Nutraceuticals
- HNSC 2130 Nutrition through the Life Cycle

HNSC 2140 Basic Principles of Human Nutrition  
 HNSC 3220 Food and Nutrition Literacy Education  
 HNSC 3300 Vitamins and Minerals in Human Health  
 HNSC 3310 Macronutrients and Human Health  
 HNSC 3342 Management for Food and Nutrition Professionals  
 HNSC 3870 Food Geographies (cross-listed with GEOG 3870)  
 HNSC 4290 Food, Nutrition and Health Policies  
 HNSC 4300 Community Nutrition Intervention  
 HNSC 4310 Nutrition and the Elderly  
 HNSC 4340 Maternal and Child Nutrition  
 HNSC 4350 Nutrition in Exercise and Sport  
 HNSC 4540 Functional Foods and Nutraceuticals

#### **Faculty of Arts**

### 4.3 Health Sciences and Health Studies Minors

Minors in Health Sciences and Health Studies are offered by the Interdisciplinary Health Degree program.

Health Sciences Minor:	
HEAL 2600	Integration of Health Determinants of Individuals
HEAL 3600	Integration of Health Determinants for Communities
HEAL 4600	Integration of Health Determinants for Canada and the World
	6 credit hours of Science Orientation courses at the 3000 or 4000 level
	3 credit hours of Social Science Orientation courses at the 3000 or 4000 level
<b>Total Credit Hours</b>	18 credit hours
Health Studies Minor:	
HEAL 2600	Integration of Health Determinants of Individuals
HEAL 3600	Integration of Health Determinants for Communities
HEAL 4600	Integration of Health Determinants for Canada and the World
	6 credit hours of Social Science Orientation courses at the 3000 or 4000 level
	3 credit hours of Science Orientation courses at the 3000 or 4000 level
<b>Total Credit Hours</b>	18 credit hours

### 4.4 Interfaculty Option in Aging

An Option in Aging is offered by and in the following faculties, schools, and colleges: Arts, Rady Faculty of Health Sciences: Bachelor of Human Ecology Family Social Sciences Degree Program, Interdisciplinary Health Program, Nursing, Kinesiology and Recreation Management, Social Work, and Agricultural and Food Sciences: Bachelor of Science in Human Nutritional Sciences Program.

To complete the option, students in the Interdisciplinary Health Program must complete each of the following requirements:

Interfaculty Option in Aging		
Required Courses (6 credit hours):	FMLY 2650 (formerly HMEC 2650) or REC 2650 or SWRK 2650  The Social Aspects of Aging	KIN 2610 or NURS 2610  Health and Physical Aspects of Aging
At least six (6) credit hours of discipline-specific (professional) applied work in the student's department of registration	Human Ecology Courses: FMLY 4300	Application is required for all field placement or practicum courses.

	Agricultural and Food Sciences Course: HNSC 4362	
Six (6) credit hours of aging-related courses from participating units	Human Ecology Courses: FMLY 3220 FMLY 3240 FMLY 4220  Agricultural and Food Science Courses: HNSC 2130 HNSC 4310	

Upon completion of these requirements, a comment will be added to the student's transcript.

### 4.5 The Minor in Management

A Management Minor is offered by the Asper School of Business. Interdisciplinary Health students may complete this Minor as part of the electives portion of their programs. The Minor will consist of any 18 credit hours of Management courses. Students must meet prerequisites for all courses.

### 4.6 The Voluntary Minor

Students in the Interdisciplinary Health Program may declare and complete a Minor from departments and interdisciplinary programs in which a Minor is offered. A Family Social Sciences Minor is available. Information about Minors in programs other than Interdisciplinary Health is found in the appropriate description of departmental/school/faculty program offerings in the Academic Calendar.

Completion of the Minor is entirely optional. Students may not, however, declare both their Major and Minor from the same department/interdisciplinary program. No course may be used as part of a prescribed program in the Interdisciplinary Health Program and also be part of a prescribed Minor. For example, if a course in Chemistry is part of a student's degree requirements, it cannot be used as part of a Minor in another program. Completion of a Minor may require that a student take more than the minimum number of credit hours for graduation.

## SECTION 5: Course Descriptions

### SECTION 5: Interdisciplinary Health Degree Program Course Descriptions

**HEAL 1600 Health and Health Professions 3 Cr. Hrs.**  
(Formerly BIOL 1110) Students discuss the Inter-relationship between health, health determinants, and the impact that sciences, health-science, behavioural-social sciences, and technology, have on health care and the health professions. Participants will consider their own role as health care consumers. Not to be held with BIOL 1110.

**HEAL 2600 Integration of Health Determinants of Individuals 3 Cr. Hrs.**  
Students study, integrate and apply the determinants that affect the health of individuals throughout the life span to selected case or learning scenarios. The case or learning scenarios present a variety of issues in the delivery of health-related services that are intended to benefit individual health. Prerequisites: One of CHEM 1300 or BIOL 1020 or STAT 1000; and one of PSYC 1200 or SOC 1200 or consent of instructor.

**HEAL 3000 Introduction to Social Epidemiology 3 Cr.Hrs.**  
This course provides an overview of the basic concepts, principles and

methods of social epidemiology and their applications for research and practice from a human ecology perspective. Applications to social determinants of health across the life course may include but are not limited to income and food security, early child development and others. May not be held with the former HMEC 3000. Restricted to students registered in the Rady Faculty of Health Sciences, Max Rady College of Medicine, or Faculty of Agricultural and Food Sciences. Prerequisites: HNSC 2000 (or PSYC 2250 or the former HMEC 2000 or the former HMEC 2050) and HEAL 2600 (or the former HMEC 2030).

**HEAL 3600 Integration of Health Determinants for Communities** **3 Cr. Hrs.**

Students study, integrate and use community level determinants of population health in selected case or learning scenarios. These cases present a variety of issues in the design of health related services that are intended to benefit population health. Prerequisites: HEAL 2600 with a grade of "C" or higher and 39 credit hours in the Curriculum for Interdisciplinary Health or consent of instructor.

**HEAL 3610 Mechanisms of Disease 1** **3 Cr. Hrs.**

This course will provide an overview of cellular processes and immunology, followed by an introduction to common processes underlying the development of human diseases. These include: cell injury and death (including metabolism and aging); neoplasia, inflammation; toxins and trauma; genetic diseases and susceptibility; and immune dysregulation. The focus will be on both local and systemic disease processes, and the progression of cells and tissues from a healthy to a pathological state. For IHP students only. Prerequisites: BIOL 2520 (C) and CHEM 2360 (C).

**HEAL 4500 Injury Prevention Across the Life Course** **3 Cr. Hrs.**

This course provides an interdisciplinary life course perspective on theories and methods of injury prevention. Current research, practices and policies in injury prevention across a wide variety of contexts, including but not limited to homes, communities, sport and the workplace, will be critically reviewed with regard to issues of gender, culture, age, functional ability, socio-economic status, sexual orientation, and other determinants of health. Prerequisites: HEAL 2600 or FMLY 1000 or SOC 1200 or PSYC 1200.

**HEAL 4600 Integration of Health Determinants for Canada and the World** **3 Cr. Hrs.**

Students use selected case or learning scenarios to study the determinants of population health that depend on decision making in governmental or international agencies. The case scenarios present a variety of issues in the governance and management of population health. Prerequisites: HEAL 3600 and 57 credit hours in the Curriculum for Interdisciplinary Health or consent of instructor.

**HEAL 4610 Health Studies Capstone** **3 Cr. Hrs.**

Students will explore selected topics from the social sciences to synthesize and evaluate actions that can affect the health of people. The course summarizes the social sciences knowledge that forms the basis for all health related professional work. Prerequisite: A grade of C+ in HEAL 3600 and 57 credit hours in the Curriculum for Interdisciplinary Health or consent of instructor. Restricted to students in Health Sciences and Health Studies.

**HEAL 4620 Health Sciences Capstone** **3 Cr. Hrs.**

Students will explore selected topics from the biological sciences to synthesize and evaluate actions that can affect the health of people. The course summarizes the biological science knowledge that forms the basis for all health related professional work. Prerequisite: a grade of C+ in HEAL 3600 and 57 credit hours in the Curriculum for Interdisciplinary Health or consent of instructor. May not hold with HEAL 4610

**HEAL 4630 Mechanisms of Disease 2** **3 Cr. Hrs.**

This course will expand upon the concepts learned in HEAL 3610 by exploring systemic diseases. The focus will be on understanding how some disease processes are not constrained by individual tissues and/or organs and may progress to affect the patient systemically. Specific diseases such as cancer, diabetes, multiple sclerosis, and HIV will be used as examples. For Bachelor of Health Sciences students only. Prerequisite: HEAL 3610 (B).

**HEAL 4640 Mechanisms of Disease 3** **6 Cr. Hrs.**

(Lab required) Students will learn experimental techniques commonly used in modern biomedical science through lectures and laboratory sessions.

Students will have the opportunity to conduct hands-on experiments in a modern research setting by rotating through five laboratory modules that will explore biomedical science methods such as histology and microscopy, cell culture, molecular biology, systems biology and proteomics, and HLA genotyping. These modules will be based on the diseases discussed in HEAL 4630, and will allow students to establish a direct connection between their experimental work and disease mechanisms. For students in the Bachelor of Health Sciences program only. Prerequisites: HEAL 4630 (B) and HEAL 3610 (B) and instructor permission required.

**HEAL 4650 Selected Topics in Interdisciplinary Health** **3 Cr. Hrs.**

The opportunity to carry out individual study in the area of interdisciplinary health. When enrolment warrants, special topics may be offered in a regular course format. Prerequisite: Consent of Instructor and Director.

# Faculty of Kinesiology and Recreation Management

Dean: Dr. Douglas Brown  
 Associate Dean (s): (Undergraduate Studies) Dr. Sarah Teetzel

## SECTION 6: Sport Physical Activity and Recreation in the Community (SPARC) Certificate

### 6.1 Certificate Admissions Criteria

### 6.2 SPARC Non-credit Professional Development Courses (3 courses)

### 6.3 SPARC University Credit Courses (3 courses)

### 6.4 Certificate Program Assessment and Completion Requirements

### 6.5 Certificate Completion Time

## SECTION 7: Course Descriptions

### SECTION 1: Degree Programs Offered

#### 1.1 Programs/Majors

Program/Degree	*Years to Complete	Total Credit Hours
Bachelor of Physical Education	3	102
Bachelor of Kinesiology	4	120
Bachelor of Kinesiology- Athletic Therapy	4	120
Bachelor of Recreation Management and Community Development	4	120

## Program Accreditation - CATA and CCUPEKA

The Faculty of Kinesiology and Recreation Management has two accredited programs. One (Bachelor of Kinesiology) is accredited by CCUPEKA (The Canadian Council of University Physical Education and Kinesiology Administrators) and one (Bachelor of Kinesiology - Athletic Therapy) is accredited by the Canadian Athletic Therapy Association.

### 1.2 Available Minor

Minor in Recreation Studies (See Section 4.6 for details)

### 1.3 Available Option

Interfaculty Option in Aging (See Section 4.7 for details)

## SECTION 2: Admission Requirements

### Admission Information

The following is a summary of the admission requirements for the Faculty of Kinesiology and Recreation Management. All admission requirements, as well as application deadline dates and forms, are included in the Applicant Information Bulletin that is available from the Admissions Office, Enrolment Services, 424 University Centre; this information is also posted on the University of Manitoba [website](#) in January each year.

### Direct Entry (from High School)

The Faculty of Kinesiology and Recreation Management accepts some of the annual admissions quota into the three degree programs (excludes Athletic Therapy) directly from High School.

In addition to the general U of M admission requirements for high school students, to be *considered* for direct entry into the Faculty of Kinesiology and Recreation Management you will require a minimum 85% average over the following courses, with no less than 60% in each individual course.

### Kinesiology/Physical Education Admission Requirements (Direct Entry Category 2)

- English 40S
- Applied Mathematics 40S or Pre-Calculus Mathematics 40S
- One of Biology 40S (*recommended for Bachelor of Kinesiology*), Chemistry 40S, Physics 40S, or Computer Science 40S

### Recreation Management and Community Development Admission Requirements (Direct Entry Category 3)

- English 40S
- Applied Mathematics 40S or Pre-Calculus Mathematics 40S
- A third 40S course

Please note that due to limited space students may require a higher average than stipulated. Any student applying for Direct Entry admission to this faculty will automatically be considered for admission to University 1, should they not be granted Direct Entry admission.

### Regular Advanced Entry Admission (from U1 or another academic program)

The Advanced Entry admission requirements for all degrees include a minimum of 24 credit hours of successfully completed coursework to include the following required courses listed below. In order to complete the degree in the shortest time possible it is recommended that students take the required Year 1 courses before applying to the Faculty. Entering students who have not completed all of the required Year 1 courses must complete them during their program. Academic course work completed from other recognized post-secondary institutions will be considered once evaluated for equivalency.

### Kinesiology/Kinesiology- Athletic Therapy/Physical Education Admission Requirements (Advanced Entry)

- BIOL 1410 Anatomy of the Human Body *and*
- BIOL 1412 Physiology of the Human Body (minimum grade of C) *and*
- KPER 1500 Foundations of Physical Education and Kinesiology (minimum grade of C) *and*
- 15 additional credit hours

### Recreation Management and Community Development Admission Requirements (Advanced Entry)

- KPER 1400 Concepts of Recreation and Leisure (minimum grade C) *and*
- 21 additional credit hours

Minimum GPA for admission consideration is 2.0 but admission is competitive.

Note: Effective Fall 2021 admissions intake, students applying for programs requiring BIOL 1412 Physiology of the Human Body may present BIOL 2410 Human Physiology and BIOL 2420 Human Physiology 2 (with a minimum average grade of C) in lieu of BIOL 1412.

The Faculty of Kinesiology and Recreation Management strives for a student body within its degree programs that is representative of the rich diversity of peoples within the province and to enrich the overall teaching and learning climate. Our Indigenous Achievement and other University of Manitoba priorities are realized through an Individual Consideration admissions category for applicants who identify as the following underrepresented group: Canada Indigenous/Aboriginal Peoples, Racialized Minorities, Mature Students, ACCESS Program Students, Persons with Disabilities, and those with exceptional circumstances. Students applying under Individual Consideration must have successfully completed at least one year of study (min 24 credit hours) and a minimum AGPA of 2.0.

### 2.1 Transfer and Second Degree Students

Students admitted to the Faculty of Kinesiology and Recreation Management following the completion of another recognized university degree or coursework may transfer in credit that is deemed equivalent toward the course requirements of a Kinesiology and Recreation Management undergraduate degree. Students are eligible to transfer a maximum of 50 credit hours to the Bachelor of Physical Education degree and a maximum of 60 credit hours to the Bachelor of Kinesiology and Bachelor of Recreation Management and Community Development programs.

Students who hold a degree and have completed further courses at the University of Manitoba which are applicable to their second degree in the Faculty of Kinesiology and Recreation Management but which were not used for credit toward their first degree may receive additional transfer credit for that work.

Equivalent courses completed at other universities or post-secondary institutions will be considered for admission and transfer credit only if the courses have been taken within the last 10 years.

Students are encouraged to contact an [Academic Advisor](#) in the Faculty General Office for information on how to optimize their transfer credit. Course transfer equivalencies will not be processed until after an application and all necessary documents have been submitted.

### 2.2 Visiting Students

Students who are enrolled and pursuing a degree at another institution may apply to be a visiting student in order to register for courses with the Faculty of Kinesiology and Recreation Management. A Letter of Permission from the home institution granting permission to register for courses from

the University of Manitoba is required in order for access to be granted to those courses.

### SECTION 3: Faculty Academic Regulations

All students are asked to note that some academic policies and regulations may be subject to change. Please check the Web Calendar at [umanitoba.ca](http://umanitoba.ca) for updated information.

The provisions of the following chapters from the Undergraduate Calendar (University Policies, and General Academic Regulations and Requirements) apply to all students. In addition, the Faculty of Kinesiology and Recreation Management has regulations and requirements, published below, that apply specifically to its students.

The Faculty of Kinesiology and Recreation Management strictly adheres to the University of Manitoba Student Discipline By-Law and will enforce these regulations. It is the responsibility of the student to know what constitutes academic dishonesty. Plagiarism or any other form of cheating is subject to academic penalty, which could be as serious as suspension or expulsion from the Faculty or university. Students are encouraged to avoid academic misconduct by learning more about the University of Manitoba regulations at:

[http://umanitoba.ca/student/resource/student\\_advocacy/index.html](http://umanitoba.ca/student/resource/student_advocacy/index.html)

#### 3.1 Policy on Minimum Grade in Faculty Required Courses

A minimum grade of "C" is required to pass all faculty required courses within the degree program. Students are permitted to repeat a failed faculty required course and are strongly encouraged to meet with an academic advisor to discuss an academic progression plan.

#### 3.2 Scholastic Standards: Academic Assessment

##### Scholastic Standards:

Formal academic assessments are performed following each term for all Faculty of Kinesiology and Recreation Management students who have completed 3 or more credit hours. As a result of this assessment students will be determined to be minimum met, satisfactory, on probation, suspension warning, or academic suspension for one year. All academic assessments will appear on the student's official transcript.

##### Minimum Met

Students must achieve a minimum DGPA of 2.0 at each point of assessment in order to have met the minimum requirements of the Faculty of Kinesiology and Recreation Management. Students who do not achieve a minimum DGPA of 2.0 will be placed on probation.

##### Probation

Once placed on probation, a student will be placed on hold and must meet with an academic advisor to review performance and to receive an override in order to register for another term. Students on probation who achieve a minimum term GPA of 2.0 will be assessed as satisfactory. Students who do not achieve a minimum term GPA of 2.0 will be placed on suspension warning.

##### Satisfactory

The assessment of satisfactory is used once a student has been placed on probation but has subsequently achieved a minimum term GPA of 2.0. Students with satisfactory standing will be able to register without restrictions. Students who do not maintain a minimum term GPA of 2.0 will be placed on suspension warning.

##### Suspension Warning

Once placed on suspension warning, a student must meet with an academic advisor before registering for another term. Students on

suspension warning who achieve a minimum term GPA of 2.0 will be assessed as satisfactory. Students who do not achieve a minimum term GPA of 2.0 will be placed on academic suspension.

##### Academic Suspension

A student placed on academic suspension in the Faculty of Kinesiology and Recreation Management is not permitted to register for a period of one calendar year. The notation "Academic Suspension for 1 Year" will be recorded on the student's transcript.

Once a student has served a one year suspension, they must contact an academic advisor in order to be reinstated for future registration.

#### 3.3 Dean's Honour List

Students enrolled in 12 credit hours or more who achieve a Term GPA of 3.50 or higher will be placed on the Dean's Honour List. The Dean's Honour List will be calculated after each term (i.e. Fall, Winter, and Summer).

The Dean's Honour List designation will appear on the student's transcript.

#### 3.4 University Gold Medal and Program Medals

##### Gold Medal

The Faculty of Kinesiology and Recreation Management will award the University Gold Medal to the graduating student who:

- 1) has achieved the highest grade point average of all graduating students (minimum 3.75) on courses constituting the last two years of an eligible program (and including transfer courses in the applicable years); and,
- 2) has completed at least 80 percent of what is considered to be the normal full course-load in each of the last two years of the eligible program.

##### Program Medals

There are two program medals awarded each year in the Faculty of Kinesiology and Recreation Management to the two students with the highest standing (according to the University Gold Medal criteria) in the programs in which the winner of the University Gold Medal in Kinesiology and Recreation Management is not registered (the three programs are Kinesiology, Physical Education, and Recreation Management and Community Development).

#### 3.5 Degree With Distinction

Awarded to students who graduate with a cumulative Degree GPA of 3.8 or higher. The notation of "Degree with Distinction" will appear on the student's parchment and transcript.

#### 3.6 Attendance and Withdrawal

Students absent from class for three or more days due to illness are required to present a certificate from a physician. Unexcused absence of more than three hours of class time in a theory course or experiential learning course may result in the student being required to withdraw from the course or may result in an "F" grade being assigned.

#### 3.7 Leave of Absence

Students who have not registered for a full academic session will need to reactivate their status by contacting the Faculty General Office and must consult with an Academic Advisor. Students who have been absent from study for more than 5 years or have attended another institution since their last registration (not on a Letter of Permission) will have to re-apply for admission to the university.

#### 3.8 Time Limit for Completion of the Degree

Students admitted to the Bachelor of Kinesiology, Bachelor of Physical Education, or Bachelor of Recreation Management and Community Development degree programs must complete all requirements to graduate within ten years of admission to the program. Students with questions relating to the time limit regulation should consult the Undergraduate Program Administrator.

### 3.9 Student Academic Appeals

Students who wish to appeal matters concerning their academic status should contact the Faculty of Kinesiology and Recreation Management Associate Dean (Undergraduate Studies). The Faculty has an academic appeals process for students who wish to appeal a policy or decision affecting their program of study.

## SECTION 4: Program and Graduation Requirements

### Degree Requirements and Course Selection

It is the student's responsibility to have read the *Undergraduate Academic Calendar* carefully, and to know all relevant university and faculty regulations, policies and practices. Completion of degree requirements is the responsibility of the student. Returning students should contact their advisor if they have any questions concerning their curriculum.

The four degree programs have a base of shared core courses. Shared core courses are intended to ensure students recognize the interconnections across our Faculty and its related fields of practice, and to facilitate the professional education of students.

In Fall 2017 the Faculty of Kinesiology and Recreation Management introduced an updated curriculum. In Fall 2018 and later, all students admitted through Year 1 Direct Entry and Year 2 Advanced Entry admission will follow the updated curriculum program requirements for each undergraduate degree program.

#### 4.1 Program Requirements: Bachelor of Kinesiology

(Students admitted Direct Entry in September 2017 or later)

#### Program and Graduation Requirements: Bachelor of Kinesiology

To graduate with a four-year Bachelor of Kinesiology degree, a student must have passed the 120 credit hours of the program outlined below and must have achieved a Degree Grade Point Average (DGPA) of 2.00 with a minimum grade of "C" in all Faculty-required courses.

A maximum of 158 credit hours may be attempted in order to obtain the 120 credit hours required for graduation with the Bachelor of Kinesiology degree.

YEAR 1: 30 Credit Hours

#### 4.2 Program Requirements: Bachelor of Kinesiology - Athletic Therapy

(Students admitted Year 2 Advanced Entry in September 2018 or later)

#### Program and Graduation Requirements: Bachelor of Kinesiology - Athletic Therapy

To graduate with a four-year Bachelor of Kinesiology – Athletic Therapy degree, a student must have passed the 120 credit hours of the program outlined below and must have achieved a Degree Grade Point Average (DGPA) of 2.00 with a minimum grade of “C” in all Faculty-required courses.

A maximum of 158 credit hours may be attempted in order to obtain the 120 credit hours required for graduation with the Bachelor of Kinesiology - Athletic Therapy.

Students are expected to progress through the Athletic Therapy program as outlined below. It is strongly recommended that courses be completed in the sequence and year indicated, otherwise an additional year may be required.

Valid CPR (Basic Life Support Provider) and Standard First Aid (Red Cross, St. John's Ambulance) certification is required prior to the start of classes in Year 2 through graduation (if lapsed, students must re-certify). Each year while in the program, Athletic Therapy students must also register as members with both the Manitoba Athletic Therapists Association (MATA) and Canadian Athletic Therapists Association (CATA).

#### Athletic Therapy Practica (KIN 3912, KIN 3914 & KIN 4910)

Students in the Athletic Therapy Program will be required to complete several hours of clinical and field (sports team) experiences on campus and in the community during their degree. These experiences provide opportunities to apply the knowledge and skills students obtain via their educational curriculum, in a practical hands-on manner, and therefore enhance their preparation for the Canadian Athletic Therapy Association (CATA) examinations. Students must successfully complete the previous year's courses and be registered in all of the present year's courses in order to register in each practicum (KIN 3912, KIN 3914 & KIN 4910).

#### 4.5 Program Requirements for Students Admitted Prior to 2018

Faculty of Kinesiology and Recreation Management Students admitted before September 2018 will notice changes to course and program requirements. Students admitted prior to 2018 should contact the Undergraduate Program Administrator or Academic Advisor at the Faculty General Office for information on their specific degree requirements and courses required for graduation. All degree program requirements can be found in the Undergraduate Calendar of the corresponding year of admission.

#### 4.6 Minor in Recreation Studies (123)

The Recreation Studies Minor consists of 18 hours of credit in the following courses offered by the Faculty of Kinesiology and Recreation Management. To qualify for and declare the Minor in Recreation Studies, students must achieve a grade of "C" or better in KPER 1400. A student must obtain department approval (when necessary) and declare the minor with their home faculty for access into advanced REC courses.

##### Required Core Courses for the Minor in Recreation Studies (6 credit hours):

- KPER 1400 Concepts of Recreation and Leisure (3 credit hours)
- REC 2400 Management and Marketing of Leisure Services (3 credit hours)

##### Two Required Elective Courses for the Minor in Recreation Studies (Choose 6 credit hours from the following):

- REC 2100 Introduction to Leisure Travel (3 credit hours)
- REC 2130 Introduction to Outdoor and Land-Based Recreation (3 credit hours)
- REC 2150 Introduction to Therapeutic Recreation (3 credit hours)
- REC 2170 Introduction to Sport Management (3 credit hours)
- REC 2650 The Social Aspects of Aging (3 credit hours)

##### Two Advanced Electives (Choose 6 credit hours from the following):

REC 3090 Sustainable Nature-Based Tourism (3 credit hours)

REC 3170 Sport Development in Community (3 credit hours)

REC 3400 Advanced Marketing of Leisure Services (3 credit hours)

REC 3310 Cultural Tourism (3 credit hours)

REC 3770 Indigenous Perspectives on Land-Based Education (3 credit hours)

REC 4060 Person Centred Leisure Education (3 credit hours)

REC 4120 Recreational Travel and Tourism (3 credit hours)

REC 4250 Leisure and Aging (3 credit hours)

REC 4350 Parks and Protected Areas Planning and Management (6 credit hours) (Summer Session Travel Study – Instructor Permission Re-quired)

REC 4400 The Administration of Special Events (3 credit hours)

REC 4720 Wilderness Adventures (3 credit hours)

REC 4770 Indigenous Recreation and Wellbeing (3 credit hours)

KPER 4000 Special Topics (3 credit hours)

KPER 4110 The Olympics and the Global Sporting Event (3 credit hours)

KPER 4320 Sport and the Body (3 credit hours)

KPER 4340 Sport, Film and Society (3 credit hours)

Note: Students may count REC 2100, REC 2130, REC 2150, REC 2170 and REC 2650 to fulfil the remaining electives requirements if they have not already counted these courses above. That is, students may elect to take all 12 CH of required elective courses in lieu of taking 6 CH required elective courses and 6 CH of electives.

#### 4.7 Interfaculty Option in Aging

An Interfaculty Option in Aging is offered by the following faculties and colleges: Agricultural and Food Sciences, Arts, Kinesiology and Recreation Management, Medicine, Nursing, and Social Work.

Students in the Faculty of Kinesiology and Recreation Management can elect to complete the Option in Aging which consists of 18 credit hours of aging-related coursework. All KRM Option in Aging students MUST complete the following two courses (6 credit hours):

- KIN 2610/ NURS 2610 Health and Physical Aspects of Aging (alternates between faculties)
- REC 2650/FMLY 2650/SWRK 2650 The Social Aspects of Aging (alternates between faculties)

PLUS ONE OF (3 credit hours):

- REC 4250 Leisure and Aging (BRMCD students; not offered every year)
- KIN 3510 and KIN 4500 Physical Activity and Aging (BKin students)

AND ELECTIVES\* (9 credit hours):

- Approved age related courses from Kinesiology and Recreation Management or other faculties. A current list of applicable courses (that have the Option in Aging Attribute in Aurora student) is available at the Faculty General Office.

In order to declare the Option in Aging, students must meet with an Academic Advisor once they have successfully completed the two compulsory courses of KIN 2610/ NURS 2610 and REC 2650/FMLY 2650/SWRK 2650.

Upon graduation, a student who has met all the requirements will have the concentration added to their transcript indicating they have completed the Option in Aging.

#### 4.8 Supervised Fieldwork Experience (KPER 4630, KPER 4632 and KPER 4634)

The supervised fieldwork experience is a professionally supervised experience that provides the student with the opportunity to apply knowledge gained in academic courses, and gives exposure to a workplace environment in a related field.

Students in the BKin and BRMCD programs are eligible to register for the 12 credit hour course provided they will complete 90 credit hours toward the degree and achieve a minimum Degree Grade Point Average of 2.5 or higher at the end of the third year of their degree. Student placements are usually scheduled for 13 weeks (working full-time) during the Fall Term (September through December). Information on the application process, deadlines and course details are available on the Faculty website and at the Faculty General Office.

#### 4.9 External Minors

Kinesiology and Recreation Management students may choose and declare an external minor offered by the Faculty of Arts, Clayton H. Riddell Faculty of Environment, Earth, and Resources, Faculty of Human Ecology, Faculty of Science, Faculty of Management, Marcel A. Desautels Faculty of Music, or School of Art. Completion of a declared minor is optional and may be achieved through the use of electives in a program. See the applicable faculty and department chapters for the requirements of each minor. Minors must be declared with an Academic Advisor at the Faculty General Office in order to be approved and appear on a student's transcript.

In order to declare the Management Minor from the I. H. Asper School of Business, Faculty of Kinesiology and Recreation Management students must achieve a 3.0 DGPA (or higher). If a student has successfully completed 18 credit hours of course work from the Faculty of Management, and a 2.0 GPA in the Management course work by the time of graduation, the Minor in Management may also be declared upon completion of the degree program.

## SECTION 5: Registration Information for All Students

### Faculty Academic Advisors

If you require further information after reading the *Undergraduate Calendar*, contact the Kinesiology and Recreation Management academic advisors, 8:30 a.m. - 4:30 p.m. Monday - Friday.

Patti Dickieson, Academic Advisor  
103B Frank Kennedy Centre  
Telephone: (204) 474 9748

Chelsey Prokesch, Advising/Office Assistant  
102 Frank Kennedy Centre  
Telephone: (204) 474 9747

### 5.1 Faculty Orientation Sessions

All new students admitted to the Faculty must attend an Orientation session in order to be unblocked from registration. Dates will be provided with the letter of acceptance (normally in early July before registration initial access) and on the Faculty website.

At this session students will receive important information regarding their program, registration, and an orientation manual. Upon acceptance into the Faculty, students from outside of the province will be sent an orientation manual and should contact an Academic Advisor to discuss registration and other matters prior to registration initial access.

### 5.2 Course Sequencing and Prerequisites

Planning the sequence of required courses is essential. Several Faculty courses in all degrees require successful completion of another course in order to register. Some courses may only be offered once per year. Please check current catalogue course descriptions and class schedules in your

program to ensure that you achieve what is necessary for efficient course enrolment in future terms.

### 5.3 Experiential Learning Courses (ELCs)

Experiential learning courses (ELCs) provide three credit hours of integrated theory and practice, and include applied activities that are designed to translate theoretical components to hands-on-learning in the gymnasium, dance studio, fitness studio, playing field, outdoor environment or clinic. Students should refer to the course attendance policy in Section 3.6. Below is a list of Faculty of Kinesiology and Recreation Management experiential learning courses:

- KIN 2750 Athletic Therapy Skills
- PHED 2710 Human Movement Principles
- PHED 2742 Group Fitness and Leadership
- PHED 3102 Indigenous Song and Dance
- PHED 3122 Developmental Games and Activities
- PHED 3722 Coaching Theory and Practice
- PHED 3732 Dance and Rhythmic Activities
- PHED 3750 Lifestyle Activities
- PHED 3760 Diverse Populations Mentorship
- PHED 3770 Indigenous Games and Activities
- PHED 4710 Outdoor Education
- REC 4720 Wilderness Adventures

### 5.4 Courses Requiring an Active Facility Use Pass

In some courses students will be required to activate the student facility use pass in order to gain access into and utilize various learning environments. Students should be prepared to have their pass active within the first week of class in the applicable term. Students report to the Recreation Services Customer Service Desk in Active Living Centre.

### 5.5 Course Field Work Fees

The following courses will be assessed Field Work Fees upon registration. Fees are viewable in the Aurora Student Class Schedule under Detailed Class Information for each course listed:

- KIN 3320 Advanced Anatomy
- KPER 1500 Foundations of Physical Education and Kinesiology
- PHED 2710 Human Movement Principles
- PHED 2742 Group Fitness and Leadership
- PHED 3102 Indigenous Song and Dance
- PHED 3750 Lifestyle Activities
- PHED 4710 Outdoor Education
- REC 3090 Sustainable Nature-Based Tourism
- REC 4720 Wilderness Adventures

### 5.6 Courses Available to Students in Other Faculties and Schools

Students from other faculties who wish to register for courses with registration restrictions may seek departmental permission by obtaining a form from the Faculty General Office (102 Frank Kennedy Centre) at the end of the initial registration access period of the applicable session.

Students who have declared the Recreation Studies Minor may register for additional Recreation Studies courses with the help of their academic advisor in their faculty – refer to requirements in Section 4.6.

## SECTION 6: Sport, Physical Activity and Recreation in the Community Certificate (SPARC)

The Sport, Physical Activity and Recreation in the Community (SPARC) certificate program provides in-depth meaningful and relevant non-credit professional development (PD) programming along with university courses related to physical activity, sport, recreation, fitness, health and wellness, all delivered with Indigenous perspectives, worldviews and teachings and adapted for delivery in the community.

The SPARC certificate program consists of 400 contact hours with combined non-credit professional development instruction and for UM credit introductory experiential learning courses. Courses for the cohorts may be delivered at either an Urban or Northern/Rural location.

### Selection Process

Completed applications will be assessed in the order they are received. Applicants for the certificate program will be assessed on the following admissions criteria. Note that the selection process for northern/rural cohorts will be determined in consultation with the partner organization who is sponsoring the SPARC program.

#### 6.1.1 Application and Admission Criteria – Recent Graduates

1. A minimum average of 63-69.9% over three Grade 12 S or U credits
2. One credit of Grade 12 S or U English with a minimum grade of 60%
3. Must be a Canadian citizen or Permanent Resident

#### 6.1.2 Application and Admission Criteria – Mature Applicants (over 21 years of age)

1. Must be 21 years of age or older by September 30 for classes starting in September, January 31 for classes starting in January, May 1 for classes starting in May, and July 1 for classes starting in July.
2. Must have limited experience at college or university (fewer than 24 credit hours).
3. May or may not meet the regular academic requirements of the program.
4. Must be a Canadian citizen or Permanent Resident

Information on the next cohort intake and admission date, entrance requirements and descriptions of the student categories may available by contacting the Faculty of Kinesiology and Recreation Management General Office.

#### PHED 0100 Safety in the Community

A blend of professional safety, health and wellness certifications, including but not limited to CPR/First Aid; Applied Suicide Intervention Skills training (ASIST); Indigenous Mental Health First Aid; Hunting Safety; Water Safety; Aboriginal Sport Coaching Certificate; Food Handling Certificate. Evaluated Pass/Fail.

#### PHED 0150 Activity and Program Planning

An introduction to equity-based program planning principles and strategies. Adult education and Indigenous education theories and models will address the complexity and challenges of planning for public well-being. In the course, students will learn to plan, develop, implement and evaluate community-driven physical activity, recreation and sport programs for marginalized populations, with a specific focus on Indigenous and racialized minority groups.

#### PHED 0200 Living Mino-Pimatisiwin

An introduction to Indigenous-informed, culturally relevant approaches to health and wellness set within a sport, physical activity and recreational

context. Elders, Knowledge Keepers and Cultural Teachers will share their perspectives (e.g., knowledge, skills and values) related to “*living Mino-Pimatisiwin*” – the good life, including a deeper understanding of Medicine Wheel teachings of wholism, interdependence, sharing and respect as experienced through Indigenous cultural perspectives and service learning in a communal mentorship or equivalent physical activity program. Evaluation Pass/Fail.

PHED 3770 Indigenous Games and Activities

REC 3770 Indigenous Perspectives on Land-Based Education

#### FKRM Elective (listed below)

KPER 1200 Physical Activity, Health and Wellness

KPER 2200 Planning Principles

PHED 2710 Human Movement Principles

PHED 2742 Group Fitness and Leadership

PHED 3122 Developmental Games and Activities

PHED 3722 Coaching Theory and Practice

PHED 3760 Diverse Populations Mentorship

REC 2130 Introduction to Outdoor and Land-Based Education

REC 4770 Indigenous Recreation and Well-being

\*Note: Undergraduate course descriptions available in SECTION 7

Students seeking the credential must pass all three non-credit PD courses and achieve a minimum Grade Point Average of 2.0 for the three KRM university courses to graduate with the SPARC Certificate. Students may repeat a course in order to achieve the minimum requirements for the certificate.

This program normally takes a minimum of 12 months to complete. Students will have up to 4 years from the initial start date (first term of enrolment) to complete the program. Note: Northern/rural cohorts may have a more condensed delivery format (e.g., 6 months), depending on resources and needs of the community.

## SECTION 7: Course Descriptions

### SECTION 7: Kinesiology, Physical Education & Recreation Course Descriptions (KPER) 1000 Level

#### KPER 1200 Physical Activity, Health and Wellness 3 Cr. Hrs

An examination of the importance of physical activity for health and wellness. Provides an overview of the present and recommended levels of physical activity, the factors influencing participation in physical activity, Indigenous peoples' approaches to health, the role of recreation in health and wellness, and individual, organizational and national interventions for increasing physical activity. May not be held with the former PHED 1200 or the former PERS 1200.

#### KPER 1400 Concepts of Recreation and Leisure 3 Cr. Hrs.

The nature and scope of recreation and leisure, the past influences and implications for the future. An overview of the types and roles of various components of the leisure service delivery system. May not be held with the former PERS 1400 or the former REC 1400.

#### KPER 1500 Foundations of Physical Education and Kinesiology 3 Cr. Hrs.

An introduction to physical education and kinesiology as a profession and a discipline, including an overview of sub-disciplines, resources, and careers; a personal physical assessment; and principles for achieving physical

fitness. This course includes a field trip component. May not be held with the former PERS 1500 or the former PHED 1500.

## SECTION 7: Kinesiology, Physical Education & Recreation Course Descriptions (KPER) 2000 Level

### KPER 2000 Special Topics (Introductory) 3 Cr. Hrs.

An introductory examination of selected topics in the fields of kinesiology, physical education and recreation. Topics will vary depending on faculty expertise and student need. This course can be completed as a topics course multiple times under different titles.

### KPER 2120 Academic Skills in Kinesiology and Recreation Management 3 Cr. Hrs.

This course provides interdisciplinary and multidisciplinary academic preparation and communication skills for students pursuing undergraduate degrees from the Faculty of Kinesiology and Recreation Management. Prerequisites: KPER 1400 (or the former PERS 1400 or the former REC 1400) or KPER 1500 (or the former PERS 1500 or the former PHED 1500).

### KPER 2170 History of Physical Activity and Leisure 3 Cr. Hrs.

This course examines the post-Confederation history of Canadian sport, physical education, physical fitness and recreation, as well as the growth of public programs. Using the concepts of social class, gender, race, and ethnicity, the focus is on the ways in which Canadian physical activity, recreation, and sport have been organized since Confederation and the processes by which people have fashioned them, within the dynamic of economic, social, and political struggles and changes. May not be held with the former PERS 3170 or the former KIN 3170, or the former PHED 3170, or the former PHED 3070. Prerequisites: [KPER 1200 (C) (or the former PERS 1200, or the former PHED 1200)] and KPER 2120 (C).

### KPER 2200 Planning Principles 3 Cr. Hrs.

While contexts in practice may vary, planning is an essential competency for all professional in recreation, kinesiology, and physical education. This course emphasizes principles and processes in effective planning, implementation, and evaluation. May not be held with the former PERS 2200 or the former PHED 3080 or the former REC 2530. Prerequisites: [KPER 1200 (or the former PERS 1200 or the former PHED 1200)] or [KPER 1400 (or the former PERS 1400 or the former REC 1400)] or [KPER 1500 (or the former PERS 1500 or the former PHED 1500)].

### KPER 2320 Human Anatomy 3 Cr. Hrs.

(Lab required) Structure of the skeletal, articular, and muscular systems of the human body. May not be held with the former KIN 2320 or the former PHED 2320. Prerequisites: BIOL 1412 (C) or BIOL 1413 (C) or BIOL 2420 (C), or BIOL 2421 (C) or the former ZOO 1330 (C).

### KPER 2330 Biomechanics 3 Cr. Hrs.

(Lab required) The mechanical and anatomical analysis of human movement. May not be held with the former KIN 2330 or the former PHED 2330. Prerequisites: KPER 2320 (or the former KIN 2320 or the former PHED 2320).

### KPER 2350 Introduction to Research 3 Cr. Hrs.

(Lab required) Students will become familiar with the basic principles and methods of research in the humanities, biological, life and social sciences. Students will develop the conceptual foundations and practical skills needed to locate, understand, and evaluate primary research publications. May not hold with the former PERS 3350, the former KIN 3350, the former REC 3350 or the former REC 2010. Prerequisites: STAT 1000 (D) or STAT 1001 (D) or STAT 1150 (D).

### KPER 2540 Psychology of Sport and Physical Activity 3 Cr. Hrs.

This course provides students with an understanding of psychological variables affecting individuals within sporting and activity contexts. Topics to be explored include motivation, arousal/anxiety, group dynamics and

youth involvement in sport. May not be held with the former KIN 2540 or the former PHED 2540.

### KPER 2700 Motor Control and Learning 3 Cr. Hrs.

(Lab required) Principles underlying human motor performance and motor skill learning. May not be held with the former KIN 3450 or the former PHED 3450.

## SECTION 7: Kinesiology, Physical Education & Recreation Course Descriptions (KPER) 3000 and 4000 Level

### KPER 3100 Inclusive Physical Activity and Leisure 3 Cr. Hrs.

This course introduces the foundations of inclusive physical activity and leisure and the application of this knowledge to individuals from diverse backgrounds and experiences with a focus on people with various forms of impairment. May not hold with the former PERS 3100, the former PHED 3390, or the former REC 3060. Prerequisite: KPER 2120.

### KPER 3140 Health Promotion 3 Cr. Hrs.

An introduction to health promotion with emphasis on the benefits of physical activity for health and wellness, factors influencing participation in physical activity, health promotion strategies, and interventions for increasing physical activity applied at the individual, organizational, and national levels. Prerequisites: [KPER 2200 (or the former PERS 2200)] and [KPER 2350 (or the former PERS 3350 or the former KIN 3350 or the former REC 3350 or the former REC 2010)].

### KPER 3460 Sociology of Physical Activity and Leisure 3 Cr. Hrs.

This course examines sociological factors that influence and shape participation in the areas of physical activity, sport and leisure. The exploration of students' own experiences in this field is emphasized, using an analytical model examining experiences as they arise out of the interplay of social structure and individual agency. May not be held with the former PERS 3460 or the former PHED 3460. Prerequisite: KPER 2120 (C).

### KPER 3470 Exercise Physiology 3 Cr. Hrs.

(Lab required) Physiological and functional responses to acute and chronic exercise, focusing on the cardiovascular, respiratory and neuromuscular systems. May not be held with the former KIN 3470, the former PHED 3470, or the former PHED 3430. Prerequisites: BIOL 1412 (C), (or the former ZOO 1330), or BIOL 1413 (C), or BIOL 2420 (D), (or the former ZOO 2540), or BIOL 2421 (D).

### KPER 3512 Principles of Fitness Training 3 Cr. Hrs.

(Lab required) Theoretical concepts of designing programs employing the principles of overload and adaptation are applied over the entire healthy population, from inactive sedentary individuals to elite athletes, for all age groups. May not be held with the former KIN 3512, the former KIN 3090, or the former PHED 3090. Prerequisite: KPER 3470 (C) (or the former KIN 3470, or the former PHED 3470, or the former PHED 3430).

### KPER 3550 Growth and Motor Development 3 Cr. Hrs.

Detailed study of physical growth and motor development from conception to adolescence, with implications for physical activity programs. May not be held with the former PHED 2550. Prerequisite: KPER 2700 (C) (or the former KIN 3450 or the former PHED 3450).

### KPER 3630 Service and Experiential Learning 3 Cr. Hrs.

This service-learning course combines cognitive learning and affective service to enhance student learning by connecting theory with practical experience and thinking with action. In a holistic learning environment, students apply service and experiential learning theories to community issues in physical activity and leisure while reflecting on their experiences and gaining deeper appreciation and skill development. Prerequisites: KPER 2200 (C) or PERS 2200.

### KPER 4000 Special Topics 3 Cr. Hrs.

A theoretical and practical examination of selected topics in the fields of

recreation, leisure, physical education and kinesiology. Topics will vary depending on faculty expertise and student need. This course can be completed as a topics course multiple times under different titles.

Prerequisites: [KPER 1200 (or the former PERS 1200 or the former PHED 1200)] or [KPER 1400 (or the former PERS 1400 or the former REC 1400)] or [KPER 1500 (or the former PERS 1500 or the former PHED 1500)] or department approval.

**KPER 4020 Philosophy of Physical Activity and Leisure 3 Cr. Hrs.**

Issues in sport, physical education and recreation will be examined from a philosophical perspective. May not be held with the former PERS 3340, the former KIN 3340, the former REC 3340, or the former PHED 2340.

Prerequisite: KPER 2120 (C).

**KPER 4110 The Olympics and the Global Sporting Event 3 Cr. Hrs.**

Critical examination of the sporting and cultural significance of the modern Olympic Games and other global events, with emphasis given to the Olympic and Paralympic Games that occur in the year the course is offered. May not be held with the former PERS 4110. Prerequisites: KPER 3460 (C), (or the former PERS 3460 or the former PHED 3460).

**KPER 4310 Physical Activity Counselling 3 Cr. Hrs.**

This course introduces students to physical activity counselling and the associated interpersonal and counselling skills as well as the relevant theories that underpin behaviour change and counselling techniques. Through case studies, readings, research, discussions, simulations, role plays and real counselling work, students will learn, reflect on and practice proven counselling skills to build motivation and facilitate behaviour change. May not be held with the former PERS 4310. Prerequisites: [KPER 2540 (C) (or the former KIN 2540 or the former PHED 2540)] or [REC 3180 (C)] or [PSYC 2660 (C) (or the former PSYC 3660)].

**KPER 4320 Sport and the Body 3 Cr. Hrs.**

A critical analysis of current interdisciplinary topics pertaining to sport and the body. This course tackles difficult and controversial questions related to the active body. May not be held with the former PERS 4320. Prerequisites: KPER 3460 (C) (or the former PERS 3460 or the former PHED 3460) or permission of the instructor.

**KPER 4340 Sport, Film and Society 3 Cr. Hrs.**

This seminar format course encourages students to use films as "texts" through which important socio-cultural themes related to the study of sport, recreation, physical activity, dance, and physical education can be explored. It builds upon themes explored in courses such as KPER 3460 and uses film as a way to examine the intersections between the representations of key historical and sociological concepts such as class, gender, and race/ethnicity and the representations of sport and the moving body. The course is organized around these themes and includes a variety of film genres, primarily feature films and documentaries. Each seminar includes one or more screening upon which class discussions are based. The course concludes with a screening of the films made by students themselves, a key component of the course evaluation. May not be held with the former PERS 4340. Prerequisites: KPER 3460 (C) (or the former PERS 3460 or the former PHED 3460) or permission of the instructor.

**KPER 4600 Directed Study 3 Cr. Hrs.**

Completion of an independent study or fieldwork experience, including a major written submission, approved by the department and under the direction of a faculty member. This course can be completed as a topics course multiple times under different titles.

**KPER 4630 Supervised Fieldwork Experience 12 Cr. Hrs.**

The fieldwork practicum is a professionally supervised field experience that provides an opportunity to apply knowledge gained in academic courses and exposure to new concepts of professional practice in the fields of physical activity, health and wellness or leisure. Students are placed for a 13-week period of full time work within a suitable agency. May not be held with the former PERS 4630, the former REC 33080, the former PHED 4620, or the former KIN/REC 4630. Prerequisites: Successful completion of 90 credit

hours of course work in the BKin or BRMCD degree and a minimum DGPA of 2.5 and permission of instructor. Evaluated on a pass/fail basis.

**KPER 4632 Supervised Fieldwork Experience A 6 Cr. Hrs.**

The fieldwork practicum is a professionally supervised field experience that provides an opportunity to apply knowledge gained in academic courses and exposure to new concepts of professional practice in the fields of physical activity, health and wellness or leisure. Students are placed in a professional environment with a mentor/direct supervisor. May not be held with the former PERS 4630 or the former KIN 4630 or the former REC 4630 or the former REC 3080 or the former PHED 4620. Prerequisites:

Prerequisites: Successful completion of 90 credit hours of course work in the BKin or BRMCD degrees and a minimum DGPA of 2.5 and permission of instructor. Evaluated on a pass/fail basis.

**KPER 4634 Supervised Fieldwork Experience B 6 Cr. Hrs.**

The fieldwork practicum is a professionally supervised field experience that provides an opportunity to apply knowledge gained in academic courses and exposure to new concepts of professional practice in the fields of physical activity, health and wellness or leisure. Students are placed in a professional environment with a mentor/direct supervisor. May not be held with the former PERS 4630 or the former KIN 4630 or the former REC 4630 or the former REC 3080 or the former PHED 4620. Prerequisites: Successful completion of 90 credit hours of course work in the BKin or BRMCD degrees and a minimum DGPA of 2.5 and permission of instructor. Evaluated on a pass/fail basis.

**KPER 4810 Senior Thesis Preparation 3 Cr. Hrs.**

An opportunity for continuing FCRM students in 4th year to participate in independent research. Under the supervision of a faculty member, each student will create and defend a research prospectus and literature review, and then develop a methodology to conduct a research study.

Prerequisites: KPER 2120 (C) and (KPER 2320 (C) or the former PERS 3550 (C)) and a minimum DGPA of 3.0 and approval of instructor.

**KPER 4820 Senior Thesis Research Project 3 Cr. Hrs.**

A 4th year research experience involving the delivery and dissemination of a research project under the supervision of a faculty member. Students will create, produce, and defend a written research document building on skills developed in KPER 4810. Prerequisites: KPER 4810 (C) and approval of instructor.

**SECTION 7: Kinesiology Course Descriptions-2000 Level**

**KIN 2200 Basic Trauma and Life Support 3 Cr. Hrs.**

(Lab required) Assessment and management of medical emergencies common to sports. Topics will include on-field primary and secondary surveys, airway management, assessment and management of head, spinal, chest, abdominal and extremity trauma. Open only to Athletic Therapy students or with permission of the instructor. May not be held with the former KIN 3200 or the former PHED 3200.

**KIN 2610 Health and Physical Aspects of Aging 3 Cr. Hrs.**

An introduction to health, well-being and aging. Emphasis on health as multidimensional including physical, social and mental health. Integration of theory and research in examining selected issues related to health and physical aspects of aging. This is an Option in Aging course and may not be held for credit with PHED 2610 or NURS 2610.

**KIN 2750 Athletic Therapy Skills 3 Cr. Hrs.**

This course will focus upon the theoretical study and practical application of massage therapy (basic and advanced) and sport specific taping, splinting and bracing techniques. The intent of this course is to help prepare students for their future in the profession of Athletic Therapy. May not hold for credit with PHED 2020 or PHED 3180. Open to Athletic Therapy students only.

## SECTION 7: Kinesiology Course Descriptions-3000 Level

### **KIN 3160 Pathology and Sport Medicine 3 Cr. Hrs.**

(Lab required) Analysis of types of injuries and emergency procedures, and practical experience in first aid, taping and wrapping, massage, and various preventive techniques. May not be held with the former PHED 3160 or the former PHED 3060. Prerequisite: KPER 2320 (or the former KIN 2320 or the former PHED 2320).

### **KIN 3320 Advanced Human Anatomy 3 Cr. Hrs.**

(Lab Required) This course will concentrate on the structure and function of the human body's various tissues, organs and systems with particular emphasis upon basic histology, function and gross anatomy. This course will help prepare students who are interested in pursuing careers in Athletic Therapy and Kinesiology. Note: A fieldwork fee is attached to the course. Prerequisite: KPER 2320 (or the former KIN 2320 or the former PHED 2320).

### **KIN 3330 Functional Assessment and Restoration A 3 Cr. Hrs.**

(Lab required) General principles of assessment and restoration; assessment of acute and chronic musculo-skeletal injuries of the lower extremity; rehabilitation techniques to ensure full restoration of function. May not be held with KIN 3300 (PHED 3300). Prerequisite: KIN 3320. Corequisite: KIN 3912 or permission of instructor.

### **KIN 3332 Functional Assessment and Restoration B 3 Cr. Hrs.**

(Lab required) Assessment of acute and chronic musculo-skeletal injuries of the upper extremity and spine; rehabilitation techniques to ensure full restoration of function. May not be held with KIN 3300 (PHED 3300). Prerequisite: KIN 3330 (C).

### **KIN 3400 Therapeutic Modalities 3 Cr. Hrs.**

(Lab required) This course will concentrate on the use of therapeutic modalities commonly utilized in the profession of Athletic Therapy. It will introduce the student to various thermal mechanical, and electromagnetic agents used for therapeutic purposes. May not be held with the former PT 2720. Prerequisite: KIN 3320 or permission of instructor.

### **KIN 3510 Physical Activity and Aging 3 Cr. Hrs.**

The study of the aging process and the effects of exercise and lifestyle factors on the health and fitness of the aging adult. This is an Option in Aging course. May not be held with the former KIN 4500 or the former PHED 4500. Prerequisites: KPER 3470 (C) (or the former KIN 3470, or the former PHED 3470, or the former PHED 3430), or permission of the instructor.

### **KIN 3700 Advanced Motor Control and Learning 3 Cr. Hrs.**

This course focuses on the fundamentals of the nervous system as they relate to human movement and the application to motor control and learning. Emphasis is placed on an advanced understanding and application of theories and models of motor control and learning, including the introduction to how different components of the central and peripheral nervous systems contribute to movement. Prerequisite: KPER 2700 (or the former KIN 3450 or the former PHED 3450).

### **KIN 3912 Athletic Therapy Practicum 4 Cr. Hrs.**

To provide clinical and on-field internship experiences on campus and in the community for prospective Athletic Therapy candidates. May not hold for credit with the former PHED 3910 or the former KIN 3910. Prerequisite [KIN 2750 (or the former PHED 2020 or the former PHED 3180)] and [KIN 2200 (or the former KIN 3200 or the former PHED 3200)]. Corequisite: KIN 3330 or permission of instructor. Evaluated on a pass/fail basis.

### **KIN 3914 Clinical Block Placement 2 Cr. Hrs.**

Clinical internship experiences on campus and in the community for prospective Athletic Therapy candidates. May not be held for credit with KIN 3910 (PHED 3910). Prerequisites: (KIN 3332, KIN 3400, and KIN 3912) or permission of instructor. Evaluated on a pass/fail basis.

## SECTION 7: Kinesiology Course Descriptions-4000 Level

### **KIN 4040 Advanced Exercise and Health Psychology 3 Cr. Hrs.**

This course provides students with an advanced understanding of research, theory and contemporary issues in exercise and health psychology. Using a variety of methods, such as case studies, narrative, and research articles, students will learn to critically read and evaluate research in the field. Students will also explain and apply influential theories and models. Contemporary research topics covered in this class include psychological influences on health behaviours, including exercise, as well as the psychological outcomes of these health behaviours. Prerequisite: KPER 2540 (or the former KIN 2540 or the former PHED 2540) or permission of instructor.

### **KIN 4060 Drugs and Ergogenic Aids in Sport 3 Cr. Hrs.**

A multidisciplinary examination of drugs, hormones, dietary supplement and methods used by athletes in attempting to enhance athletic performance. Ethical concerns and mechanisms of action will be examined for steroids, stimulants, masking agents, blood doping, and hormonal and dietary supplements among others. May not hold for credit with PHED 4060. Recommended prerequisite BIOL 1412 (ZOOL 1330) or BIOL 2420 (ZOOL 2540).

### **KIN 4070 Development and Movement Disorders 3 Cr. Hrs.**

This course is designed to provide the student with an understanding of neuroscience as it relates to motor control and learning through consideration of foundational content in how the central and peripheral nervous systems contribute to movement control and the contributions of sensory feedback. The role of the nervous system for motor function will be explored through an understanding of a selection of developmental and acquired neurological disorders. Students will have an opportunity to examine the application of a selection of the content and theories to the study of a sample of neurological and/or developmental disorders. May not be held with the former PERS 4200 when titled "Developmental and Movement Disorders." Prerequisite: KPER 2700 (C), or the former KIN 3450 (C), or permission of the instructor.

### **KIN 4160 Advanced Pathology and Sport Medicine 3 Cr. Hrs.**

Basic principles of pathology and clinical manifestations of cardiac respiratory, and neurologic disorders. Preventative measures, assessments and treatment methods employed in care of patients with these disorders will also be examined. May not be held for credit with PHED 4050. Prerequisites: [KIN 3160 (C) (or the former PHED 3160, or the former PHED 3060)] and [KIN 3320 (C)] and [KPER 3470 (C) (or the former KIN 3470, or the former PHED 3470, or the former PHED 3430)].

### **KIN 4260 Human Factors and Ergonomics 3 Cr. Hrs.**

This course reviews principles of human factors and ergonomics and explores the systematic application of human capabilities, limitations and behaviours with regard to the design of usable elements within specific environments. Emphasis is placed on the interactive nature of human-machine systems, the development of ergonomic models, and the techniques used to assess the design of modern work and living environments. Prerequisite: KPER 2700 (or the former KIN 3450 or the former PHED 3450).

### **KIN 4330 Advanced Biomechanics 3 Cr. Hrs.**

(Lab required) A biomechanical analysis of the skills and techniques of the major sports, games, and exercises. May not be held with the former PHED 4360. Prerequisite: KPER 2330 (or the former KIN 2330 or the former PHED 2330 or the former PHED 2310).

### **KIN 4370 Physiology of Exercise in Extreme Environments 3 Cr. Hrs.**

Learn how humans exercise and work under five environmental extremes: heat, cold, hypobaria (altitude), hyperbaria (under water) and microgravity (space). After learning how each environment limits exercise and poses

health risks, students will then apply knowledge of exercise physiology to determine how training and acclimatization can mitigate these limitations to maximize performance. Knowledge attained in this course will be valuable professionally (e.g., providing training for athletes in heat and cold), for personal recreation (e.g., mountaineering, SCUBA diving), or research (e.g., microgravity). May not be held with KPER 4000 or the former PERS 4200 when titled "Physiology of Exercise in Extreme Environments." Prerequisite: KIN 3470 (C).

**KIN 4400 Therapeutic Exercise Rehabilitation 3 Cr. Hrs.**

This course will concentrate on therapeutic exercise for the upper and lower extremities, torso and spine. Content will focus upon using exercise and basic therapy techniques to restore function by addressing deficiencies in range of motion, flexibility, strength, power, endurance, proprioception, coordination, agility and speed. Prerequisites [KIN 3160 (or the former PHED 3160 or the former PHED 3060)] and [KPER 3512 (or the former KIN 3512, or the former KIN 3090, or the former PHED 3090)] and [KIN 3332] or permission of instructor.

**KIN 4460 Fitness Appraisal and Lifestyle Counselling 3 Cr. Hrs.**

Theoretical knowledge and practical training related to physical activity, fitness and lifestyle appraisal and counselling. Note: This course prepares students for certification as a Certified Personal Trainer (CPT) by the Canadian Society for Exercise Physiology. B. Kin. students who wish to prepare for certification as a Certified Exercise Physiologist (CEP) by the Canadian Society for Exercise Physiology, should consult the Undergraduate Program Administrator for information. May not be held for credit with PHED 4460. Prerequisites: KPER 3470 (C) or the former KIN 3470 or the former PHED 3470 or the former PHED 3430. Pre- or Co-requisites: [KPER 1200 (C) (or the former PERS 1200 or the former PHED 1200)] and [KIN 3512 (C) (or the former KIN 3090 or the former PHED 3090)]. Requires an active Recreation Services Membership.

**KIN 4470 Advanced Exercise Physiology 3 Cr. Hrs.**

An advanced examination of the physiological factors that affect human performance during physical activity. This will include exposure to related research and the development of techniques for its critical assessment. May not be held with PHED 4410. Prerequisites: KPER 3470 (C) (or the former KIN 3470, or the former PHED 3470, or the former PHED 3430).

**KIN 4540 Advanced Topics in Sport Psychology 3 Cr. Hrs.**

This course will provide the student with a deeper understanding of psychological variables affecting individuals within sport contexts, including an exploration of various research methods and theories/research related to motivation, youth, and applied work in sport psychology. May not hold with the former PHED 4540. Prerequisite: KPER 2540 (or the former KIN 2540 or the former PHED 2540).

**KIN 4560 Advanced Fitness Appraisal and Lifestyle Counselling 3 Cr. Hrs.**

(Lab required) Advanced theoretical knowledge and experiential learning related to physical activity, fitness and lifestyle assessment, counselling, and exercise prescription for apparently healthy and clinical populations. Prepares students for certification as a Certified Exercise Physiologist (CEP) by the Canadian Society of Exercise Physiology. May not be held with the former PHED 4350. Prerequisites: [KIN 4460 (C) (or the former PHED 4460)] and [KPER 3512 (C) (or the former KIN 3512, or the former KIN 3090, or the former PHED 3090)]. Requires an active Recreation Services membership.

**KIN 4910 Athletic Therapy Practicum 6 Cr. Hrs.**

To provide clinical and on-field internship experiences on campus and in the community for prospective Athletic Therapy candidates. May not be held for credit with PHED 4910. Evaluated pass/fail. Prerequisite: KIN 3914 (KIN 3910, PHED 3910) (C) and KIN 3400 (C) and KIN 3320 (C).

**SECTION 7: Physical Education Course Descriptions-2000 Level**

**PHED 2442 Health Education 3 Cr. Hrs.**

By integrating theory with practice, this course explores conceptions of health and education. Current health models and motivational theories will guide strategies for understanding health education. The course introduces students to conceptions of "active health" that challenge and support models of wellness and wellbeing. May not be held with the former PHED 3440. Prerequisite: KPER 1200 (or the former PERS 1200 or the former PHED 1200).

**PHED 2710 Human Movement Principles 3 Cr. Hrs.**

An introduction to the principles of inclusive physical education through the integration of the theory, practice and guided reflection pertaining to the development of fundamental movement skills and strategies applied to educational games, gymnastics, and dance. May not hold for credit with PHED 1420. Requires an active Recreation Services membership.

**PHED 2742 Group Fitness and Leadership 3 Cr. Hrs.**

(ELC) This course integrates theory and practice necessary to design and lead safe and effective group fitness programs (e.g., interval, circuit, conditioning, choreography). Emphasis is placed on the Manitoba Curriculum Student Learning Outcomes in "Fitness Management", and prepares students for Group Fitness Leader Certification. This course includes a field trip component. May not be held with the former PHED 1640 or the former PHED 2630 or the former PHED 2640 or the former PHED 2740 or the former KIN 2740. Prerequisite: KPER 2320 (C) (or the former KIN 2320 or the former PHED 2320) or permission of instructor. Requires an active Recreation Services membership.

**SECTION 7: Physical Education Course Descriptions-3000 Level**

**PHED 3102 Indigenous Song and Dance 3 Cr. Hrs.**

An introduction to a variety of traditional and culturally relevant Indigenous songs and dances representative of Canada's Indigenous peoples, including First Nations, Metis and Inuit, taught using western and traditional teaching styles with an emphasis on hands-on learning. May not be held with the former PERS 4200. A fieldwork fee is attached to the course.

**PHED 3122 Developmental Games and Activities 3 Cr. Hrs.**

(ELC) Practical and theoretical aspects of designing educational game experiences applicable to early through senior years physical education, to include the design, implementation, and assessment of safe and inclusive physical activities as well as planning, organizational and teaching strategies. Introduces students to Manitoba Curriculum Student Learning Outcomes in "Movement Safety, Personal and Social Management". May not be held with the former PHED 2720 or the former PHED 2650. Prerequisite: PHED 2710 or permission of instructor.

**PHED 3362 Culturally Relevant Pedagogies 3 Cr. Hrs.**

(Lab required) An investigation of physical health and education from a critical theorist perspective, that is, one that investigates the different relations of power and privilege (based on ability, gender, race, socio-economic class, sexuality etc.) experienced within education and physical activity contexts. The physical education experiences of young people from diverse backgrounds will be analyzed from a holistic perspective. May not be held with the former PHED 3100 or the former PHED 3360. Prerequisite: PHED 3122 or the former PHED 2720.

**PHED 3522 Coaching the High Performance Athlete A 3 Cr. Hrs.**

The development of advanced technical and theoretical expertise in coaching, including conflict management, psychology of performance, effective leadership, making ethical decisions, and practice planning. The course prepares students to be "Trained" in the Competition-Developmental level of the National Coaching Certification Program (NCCP). May not be held with the former PHED 3520 or the former KIN 3520. Prerequisites: Faculty permission and 45 credit hours of university course work. The student must demonstrate a high level of proficiency as an athlete, coach or official in their sport.

**PHED 3532 Coaching the High Performance Athlete B 3 Cr. Hrs.**

The development of advanced technical and theoretical expertise in coaching, including prevention and recovery, leading drug free sport, developing athletic abilities, and designing a basic sport program. The course completes the fully "Trained" component of the Competition-Development level of the National Coaching Certification Program (NCCP). May not be held with the former PHED 3530 or the former KIN 3530. Prerequisites: PHED 3522 (C) or the former PHED 3520 or the former KIN 3520 (C).

**PHED 3722 Coaching Theory and Practice 3 Cr. Hrs.**

(Lab required) An introduction to the theoretical and practical aspects of coaching at the community and school level, including the examination of topics of philosophical, psychological, ethical and technical significance. The course introduces students to the National Coaching Certification Program (NCCP) of Canada and the coach certification pathway. May not be held with the former PHED 2400, the former PHED 2402, the former KIN 3720, or the former KIN 3730, or the former PHED 3050.

**PHED 3732 Dance and Rhythmic Activities 3 Cr. Hrs.**

(ELC) Practical and theoretical aspects of designing dance and rhythmic activity experiences applicable to early through senior years physical education, to include the design, implementation, and assessment of safe and inclusive physical activities as well as planning, organizational and teaching strategies. Incorporates Manitoba Curriculum Framework of Outcomes for K to 8 dance (2011) and Grade 9-12 dance (2015). May not be held with the former PHED 2730 or the former PHED 3410. Prerequisite: PHED 2710.

**PHED 3750 Lifestyles Activities 3 Cr. Hrs.**

An introduction to the knowledge, skills, and attitudes that aid in the development of lifelong physically active and healthy lifestyles. May not hold for credit with KIN 3750 (REC 3750). Requires an active Recreation Services membership. Note: A fieldwork fee is attached to the course.

**PHED 3760 Diverse Populations Mentorship 3 Cr. Hrs.**

Practical and theoretical aspects of designing physical activity experiences for students from diverse population, including on site leadership opportunities in a multicultural school context. Evaluated pass/fail.

**PHED 3770 Indigenous Games and Activities 3 Cr. Hrs.**

This course will provide Indigenous and non-Indigenous students with a unique opportunity to explore, in theory and practice, traditional and contemporary world views related to historical, cultural, and environmental approaches to Indigenous games and activities.

**SECTION 7: Physical Education Course Descriptions-4000 Level****PHED 4710 Outdoor Education 3 Cr. Hrs.**

To introduce the students to the basic outdoor skills associated with summer/winter backpacking/cross-country skiing/snow shoeing trips. Students will then learn to use a variety of outdoor settings for education opportunities on a variety of topics and disciplines. May not hold for credit with KIN 4710 (REC 4710). A fieldwork fee is attached to the course.

**SECTION 7: Recreation Studies Course Descriptions-2000 Level****REC 2100 Introduction to Leisure Travel 3 Cr. Hrs.**

To provide an introduction to tourist behaviour and the tourism system through an overview of: why people travel; the components of tourism; the scope and organization of tourism in Canada; and the interrelationship between recreation and tourism. May not be held with the former PERS 1300 or the former REC 1200.

**REC 2130 Introduction to Outdoor and Land-Based Recreation 3 Cr. Hrs.**

This course provides an introduction to both Indigenous and non-Indigenous perspectives on land-based education and outdoor recreation. Students examine how as individuals and groups we can build strong relationships and a robust sense of connection with others, with the land, the outdoors, and with recreation through academic and experiential explorations. Prerequisite: KPER 1400 (or the former PERS 1400 or the former REC 1400) or permission of instructor.

**REC 2150 Introduction to Therapeutic Recreation 3 Cr. Hrs.**

An examination of the current principles of therapeutic recreation in relation to their practical application to individuals in clinical settings such as nursing homes, hospitals and other long-term care facilities. May not be held with the former REC 4150. Prerequisite: KPER 1400 (or the former PERS 1400 or the former REC 1400).

**REC 2170 Introduction to Sport Management 3 Cr. Hrs.**

This course provides an introduction to sport management focusing primarily on North American sport. This course gives students an introduction to basic management functions and how they relate to sport management at the community, interscholastic, intercollegiate and professional levels. May not be held with the former REC 4170. Prerequisite: KPER 1400 (or the former PERS 1400 or the former REC 1400).

**REC 2400 Management and Marketing of Leisure Services 3 Cr. Hrs.**

Basic management, and marketing principles and practices and their applicability to delivery of leisure services. Topics include financial resources, budgeting, people-centred management, and marketing. Prerequisite: KPER 1400 (or the former PERS 1400 or the former REC 1400).

**REC 2650 The Social Aspects of Aging 3 Cr. Hrs.**

An examination of the social aspects of aging. Emphasis on understanding the aging process as a life transition involving adaptation through interaction with social and physical environments. This is an Option in Aging course and may not be held for credit with FMLY 2650 (the former HMEC 2650, SWRK 2650).

**SECTION 7: Recreation Studies Course Descriptions-3000 Level****REC 3072 Community Development Principles 3 Cr. Hrs.**

An introduction to community development principles and the role recreation and leisure play in developing healthy and vibrant communities. This course emphasizes connections between community, recreation, and leisure. Prerequisites: KPER 2200 (C) (or the former PERS 2200 or the former PHED 3080), or the former REC 2530.

**REC 3090 Sustainable Nature-Based Tourism 3 Cr. Hrs.**

Analysis of the growth and development of sustain-able nature-based tourism as a global and regional phenomenon. Particular emphasis will be placed upon the fundamental principles of sustainability, natural resource and visitor management for recreation, and the role of outdoor recreation and education in Sustainable Tourism Planning and Management. Prerequisite: [KPER 1400 (or the former PERS 1400 or the former REC 1400)] and [REC 2100 (or the former PERS 1300 or the former REC 1200)]. Note: A fieldwork fee is attached to the course.

**REC 3170 Sport and Development in Community 3 Cr. Hrs.**

An examination of the multiple uses of sport across communities for the purposes of development broadly defined. Emphasis is placed on exploring both theoretical and practical aspects of development in the leisure, sport and physical activity experiences of a multitude of communities at the local and national levels. This course aims to unpack, explore and describe the diverse lived experiences with sport, physical activity and leisure. Prerequisites: REC 2170 (C) or the former REC 4170 (C).

**REC 3180 Social Psychology of Leisure 3 Cr. Hrs.**

This course explores the leisure behaviour of individuals in social contexts

and examines current social psychological thinking about leisure experiences. Application of leisure behaviour concepts, theories and research in the delivery of leisure programs and services will be emphasized. Prerequisites: PSYC 1200, or (PSYC 1211 and PSYC 1221) or permission on instructor

**REC 3220 Program Planning and Evaluation 3 Cr. Hrs.**

(Lab required) Consideration and application of program planning principles as they relate to specialized contexts and diverse populations. Foundations of interpersonal communication for effective and successful program implementation with emphasis on program evaluation. May not be held with the former REC 3200, the former REC 2540 or the former REC 3870. Prerequisite: KPER 2200 (or the former PERS 2200).

**REC 3310 Cultural Tourism 3 Cr. Hrs.**

This course will provide students with an understanding of various stakeholder perspectives related to visiting and operating cultural tourism attractions. The following topics will be discussed: tourists' motivations and experiences, cultural resource managers' perspectives on tourism, tourism industry leaders' viewpoint on cultural resources and the relationship between cultural producers and consumers. Prerequisite: REC 2100 (or the former PERS 1300 or the former REC 1200).

**REC 3400 Advanced Marketing of Leisure Services 3 Cr. Hrs.**

This course integrates the theory and practice of marketing leisure services. Strategies for marketing services and experiences within private, public sector and not-for-profit recreation agency programs and services are examined. Prerequisite: REC 2400 (C) or equivalent, or permission of instructor.

**REC 3770 Indigenous Perspectives on Land-Based Education 3 Cr. Hrs.**

This course provides an introduction, overview and exploration of Indigenous knowledge systems and ways of knowing as an entry point to understanding Indigenous land-based education on Turtle Island (North America). Treaties, stories, traditional ecological knowledge and ways of living as well as an intensive land-based experiential learning weekend will be used to explore historical and contemporary Indigenous perspectives of the land and land-based education. Prerequisite: REC 2130 (C) or permission of instructor.

**REC 3850 The Planning of Recreation Areas and Facilities 3 Cr. Hrs.**

The process used to plan both recreational open spaces and facilities. Special consideration is given to the role of the recreation professional in relationship to other planners. Prerequisite: REC 3220 or the former REC 3200.

**SECTION 7: Recreation Studies Course Descriptions-4000 Level**

**REC 4060 Person Centred Leisure Education 3 Cr. Hrs.**

A detailed examination of person-centred leisure education with an emphasis on both theoretical and practice models and their application to the recreation service delivery system. Prerequisites: KPER 3100 (C) (or the former PERS 3100, or the former REC 3060, or the former PHED 3390).

**REC 4072 Advanced Community Development 3 Cr. Hrs.**

This course examines the nature of community and the unique role that leisure service organizations play in the complex process of community development. May not be held with the former REC 4070. Prerequisite: REC 3072 (C).

**REC 4120 Recreational Travel and Tourism 3 Cr. Hrs.**

The purpose of this course is to provide students with a better understanding of the travel and tourism industry through an examination

of its history, service systems and issues. Prerequisite: REC 2100 (or the former PERS 1300 or the former REC 1200).

**REC 4250 Leisure and Aging 3 Cr. Hrs.**

The nature of the aging process and its impact on leisure behaviour. The factors influencing leisure among older adults, policy issues, and program and service methods and implications will be examined. May not be held with the former REC 4130. Prerequisites: KPER 3100 (C) (or the former PERS 3100, or the former REC 3060, or the former PHED 3390) or REC/SWRK/HMEC 2650 (C) or permission of instructor.

**REC 4350 Parks and Protected Areas Planning and Management: Field Studies 6 Cr. Hrs.**

The course is taught in two segments, an on-campus component and field study component taking place in Banff National Park. The on-campus component examines the historical development of the concept of parks and protected areas, the role of interpretation, management and research in the parks and emerging issues in the management of parks and protected areas. In addition, during the on-campus component planning for the field will take place. The field segment will focus on a wide variety of management issues with particular attention to Banff National Park. Emerging issues and trends will be examined and past management responses evaluated. There will be opportunities for students to investigate specific management issues of interest to them and to participate in current research being conducted in the park. Prerequisite: Written permission of the instructor required. Offered with GEOG 4350.

**REC 4400 The Administration of Special Events 3 Cr. Hrs.**

Students will learn about theories and concepts that inform the study of special events and will be exposed to advanced management principles and practices and their applicability to the delivery of special events. May not be held for credit with the former REC 4310. Prerequisite: REC 3220 or the former REC 3200.

**REC 4720 Wilderness Adventures 3 Cr. Hrs.**

Student will learn how to plan and participate in one or more wilderness adventure activities such as canoe tripping, sailing, kayaking, climbing, winter camping, etc. Students will also concentrate on conducting these activities safely with clients. It is hoped that this experience will positively affect future life sport and recreation activities. May not be held for credit with KIN 4720 or PHED 4720. A fieldwork fee is attached to the course.

**REC 4770 Indigenous Recreation and Well-Being 3 Cr. Hrs.**

This course will provide students with a historical context of health and wellness among First Nations, Metis and Inuit peoples as well as contemporary perspectives on the promotion of sport, physical, recreation and leisure to achieve social development goals. The political landscape of health, recreation, and sport policies will be examined in relation to their impact on Indigenous sport, health and wellness programming. The strength and resilience of Indigenous peoples will be explored through grassroots movements, physical cultural practices, and wholistic understandings of health and wellbeing. Prerequisite: REC 3770 (C) or permission of instructor.

# Faculty of Law

## SECTION 1: Degree Programs Offered

Program/Degree	*Years to Compete	Total Credit Hours
Juris Doctor (J.D.)	5	152
Master of Laws (LL.M.)	6	161-163 and Thesis

\*This includes two years (60 credit hours) of study in an undergraduate program.

Equivalent academic courses completed at recognized universities elsewhere will be considered. For all admission requirements see:

<http://law.robsonhall.com/student-resources/admissions>

\*The Master of Laws is a thesis-based program designed for completion in one year after the completion of a three year J.D. program. The program consists of participation in the Graduate Legal Theory Seminar, two additional courses and completion of a substantial thesis. Further details are available through the LL.M. website:

<http://law.robsonhall.ca/llm/admissions> Applicants should also consult the Faculty of Graduate Studies website: [umanitoba.ca/graduate\\_studies/](http://umanitoba.ca/graduate_studies/).

## SECTION 2: The Profession and the Faculty of Law

### Juris Doctor-J.D.

Robson Hall, Faculty of Law, offers a three year J.D. program that starts with the fundamental doctrinal courses that allow students to acquire a solid foundation in law. From the foundational courses, students can move into legal specialties of their choice, or choose to pursue a J.D. concentrating on Indigenous law, business law, or human rights. Clinical legal education has been a part of the J.D. program since the early 1970s and students develop lawyering skills under faculty guidance, expanding their perspectives and ethical understanding of the role of practising lawyers. Scholarship and research is built into the J.D. program so students have an opportunity to develop a critical understanding of law and its development.

### 2.1 The Study of Law

Legal education in Canada is divided into two phases: the academic study of law at one of the university law schools and practical training under the auspices of a provincial law society for those who wish to be admitted to practice and called to a Bar. As there is a reciprocal recognition of university law degrees between the common law provinces (all provinces except Quebec), the academic study can be taken in any one of these provinces.

A sound education in law provides a good foundation for a great variety of careers. In the past most law graduates have entered the private practice of law to concentrate on various types of legal work including: real estate transactions, commercial contracts, company law, family law, taxation. While the tendency to specialize in the practice of law is becoming more prevalent, most lawyers continue to be general practitioners prepared to perform most types of legal work according to the needs of their clients.

Besides the private practice of law, law graduates can join the legal departments of corporations as in-house counsel, or various government agencies that maintain legal departments. Law graduates also find careers in non-profit organizations, business, "law enforcement, social work, and journalism.

### 2.2 Clinical Learning

The curriculum invites critical assessment of the role of law in society as well as the development of skills relevant to the practice of law. In addition to lectures and seminars, students are given an opportunity to develop, under supervision, some of the research, writing and oral advocacy skills which will prove useful in the practise of law. In first year, students are acquainted with the various paper and electronic resource materials available in a law library, and they follow a program designed to develop legal research and writing techniques. In second and third years, students participate in negotiation exercises, mock trials and appeals and moot court competitions. Students may choose from a range of clinical courses, including clerkships with various levels of court internships and externships. Throughout their legal studies students have many opportunities to serve actual legal clients both by taking internship and externship courses and through Volunteering with organizations such as the University Community Law Centre, Pro Bono Students Canada and The Legal Help Centre. This clinical training is just one element of the program at Robson Hall that contributes to the excellent reputation of our graduates.

## 2.3 Research and Publications

Research and scholarly writing are integral elements of the mission of the University and the law school. Professors research, write and consult with the larger legal community in their particular area of expertise and students have similar opportunities. Each year students must take a writing requirement which provides an opportunity to explore a particular area of law in depth. Students have the opportunity to work on a number of scholarly publications including: *Asper Review of International Business and Trade Law*, *Canadian Journal of Human Rights*, *Manitoba Law Journal*, *Robson Crim* and *Underneath the Golden Boy*.

## 2.4 Faculty of Law Centres of Excellence

Robson Hall is home to two named research chairs. In 1999, the Faculty of Law established the Asper Chair of International Business and Trade Law. The Asper Chair sponsors a variety of research including bi-annual academic conferences in international business and trade law. An internship program allows up to four students a year to work with the Asper Chair and creates opportunities for students to advance their education, while gaining skills necessary to pursue careers in law or business with an international focus. Additionally, students involved in the Asper program have the opportunity to participate in international commercial dispute resolution competitions.

The Marcel Desautels Chair in Private Enterprise and the Law has a mandate to conduct research and provide education on issues of specific interest to the privately held or family owned businesses. The Desautel Centre's focus is on the needs of closely held businesses.

## 2.5 Student Organizations

All law students are members of the Manitoba Law Students' Association (MLSA), the student government. Student participation in faculty governance takes place through the representation of elected members of the MLSA. In addition to the Manitoba Law Students' Association there exists a diversity of student groups at Robson Hall. No matter what your interests, joining a student group can greatly enhance your law school experience by providing you with greater opportunities throughout the year to interact with the community and other students. Student groups include:

Business Law Group  
 Canada Law Games  
 Christian Legal Fellowship (CLF)  
 Criminal Law Group  
 Curling Club  
 Debating Club  
 Employment and Labour Club  
 Environmental Law Group  
 Feminist Legal Forum  
 Health and Elder Law Club  
 Human Rights Collective  
 Manitoba Indigenous Law Students Association (MILSA)  
 Mental Health Group  
 Migration Law Group  
 MBA Mentorship Program  
 Outlaws  
 Pro Bono Students Canada (PBSC)  
 Robson Hall Mediators  
 Please see the MLSA website for a complete list

## SECTION 3: Admission to the Faculty of Law

### 3.1 Course Requirements for Admission to J.D. Program

Robson Hall, Faculty of Law offers three First Year Admission categories:

- Index Score (Regular) Category (50% GPA and 50% LSAT score)
- Individual Consideration Category
- Canadian Indigenous Category

The minimum academic requirement to apply is two (2) full-years of university degree level courses (equivalent to 60 credit hours). Included in the 60 credit hours should be a course to fulfill the University's mathematics requirement. Completion of the JD program fulfills the University's Written English requirement. For additional information about the University's Mathematics and Written English requirements, see the 'General Academic Regulations' of this calendar

All applicants must write the Law School Admission Test (LSAT).

Please visit the Robson Hall website: <http://law.robsonhall.com/student-resources/admission/>

## SECTION 4: Academic Regulations

All students are asked to note that some academic policies and regulations are under review and are subject to change. Please check the Web Calendar at [www.umanitoba.ca](http://www.umanitoba.ca) for updated information.

The provisions of the chapter, General Academic Regulations and Requirements, and the chapter, University Policies, apply to all students. In addition, the Faculty of Law has regulations and requirements, published below, that apply specifically to its students.

### 4.1 Residence requirements for the Juris Doctor Degree

To obtain the Juris Doctor (J.D.) degree from the University of Manitoba, ordinarily a student must successfully complete two of the three years of the Juris Doctor (J.D.) program at the University of Manitoba. The remaining year may be completed at another law school as approved by the Admissions Committee or the Dean's office.

### 4.2 Licence to Practise Law

Graduates who wish to practise must apply to the Law Society of the province in which they wish to practise. Law societies generally require applicants to complete a bar admission course. The Law Society must be satisfied as to the good character and repute of its applicants, as well as their academic competence and qualifications. Inquiries with regard to the Province of Manitoba should be made to the [Law Society of Manitoba](http://www.law.society.mb.ca).

### 4.3 Regulations of the Faculty of Law

Regulations of the Faculty of Law, as amended from time to time governing attendance, evaluation, prizes, and progression may be consulted at the Faculty's website (<http://law.robsonhall.com/student-resources/exam-information>).

### 4.4 Miscellaneous Registration Matters

The Associate Dean's office shall, subject to appeal to the Academic Affairs Committee, consider and determine all applications from students admitted to the faculty for permission: (i) to take part of their law studies at another university under a letter of permission with conditions; (ii) to defer their law studies for a period of one or more academic years after successfully completing first or second year, and to permit such students to re-register following such an absence with conditions; (iii) to withdraw before completing the academic year for which they are registered and to permit, in the case of a student who withdraws from first year under exceptional circumstances, that student to re-register for a subsequent academic year as a supernumerary student, and in the case of a second or third year student, to permit such student to re-register for a subsequent academic year; in all cases with or without conditions; (iv) to switch from the full-time program to the half-time program and vice versa.

## SECTION 5: Program Requirements

### 5.1 Juris Doctor Admission as of September 2018

This section describes the program requirements that are in effect for the academic year. However, prospective students should be aware that the Faculty of Law regularly reviews its curriculum to ensure that it continues to meet the current needs of our students.

#### First Year

Each full-time student is required to take all of the following courses:

Course No.	Mandatory Courses	Credit Hours
LAW 1102	Contracts	5
LAW 1140	Criminal Law and Procedure	5
LAW 1460	Constitutional Law	5
LAW 1480	Torts and Compensation Systems	5
LAW 1500	Property	5
LAW 1540	Legal Methods	5
LAW 1530	Legal System	2
<b>Total credit hours</b>		<b>32</b>

#### Second Year Only

Each full time student in Second Year is required to take a total of 30 credit hours. The 30 credit hours consist of 15 credit hours of mandatory courses and 15 credit hours of electives (List A and List B; see below), which must include a minimum of one Writing Requirement Course (List A).

Course No.	Mandatory Courses	Credit Hours
LAW 2602	Evidence	3
LAW 3530	Administrative Law	3
LAW 2690	Corporations I	3
LAW 2650	Introduction to Advocacy	3
LAW 2680	Legal Negotiation	3
<b>Total Credit Hours</b>		<b>15</b>
<b>List A: Writing Requirement Courses</b>		
LAW 3012	International Business Law	3
LAW 3014	International Trade Law	3
LAW 3018	Human Rights Law	3
LAW 3030	Research Paper B	3
LAW 3070	Gender and the Law	3
LAW 3090	Children, Youth, and the Law	3
LAW 3120	Philanthropy and the Law	3
LAW 3170	Dispute Resolution	3
LAW 3230	Aboriginal Peoples and Land Claims	3

LAW 3310	Aboriginal Peoples and the Law	3
LAW 3334	Global and Domestic Governance of Tainted Finance	3
LAW 3336	Law and Popular Culture	3
LAW 3338	Sentencing	3
LAW 3346	Access to Justice	3
LAW 3352	Sexual Expression, Conduct and Work in Canada	3
LAW 3362	Animals and the Law	3
LAW 3364	Law and Resistance	3
LAW 3366	Language Rights- Droits linguistics	3
LAW 3370	The Legislative Process	3
LAW 3380	Issues in Law and Bio Ethics	3
LAW 3394	Internet and E-Commerce	3
LAW 3410	Canadian Legal History	3
LAW 3620	Comparative Law	3

LAW 3740	Public International Law	3
LAW 3760	Jurisprudence	2
LAW 3940	Canadian Charter of Rights and Freedoms	3
LAW 3980	Current Legal Problems B	3
LAW 3990	Externship	12

**Students admitted prior to September 2018, please refer to the Academic Calendar for the year you were admitted.**

**SECTION 6: Registration**

All students will need to register themselves through Aurora. Please check the [Faculty of Law](#) website for detailed information.

**SECTION 7: Law Course Descriptions****SECTION 7: Law Course Descriptions-1000 Level****LAW 1102 Contracts 5 Cr. Hrs.**

This course covers the basic principles of contract law, including how a contract is formed; what is an offer; what constitutes acceptance; whether all promises are enforceable as a contract; when parties should be allowed to avoid obligations; what happens if one party misrepresents the quality of subject matter of the contract; what happens when a party makes a mistake about what they buy or sell; what should happen if one party takes advantage of another for a better deal for themselves. May not be held with LAW 1100.

**LAW 1140 Criminal Law and Procedure 5 Cr. Hrs.**

A general introduction to criminal law and procedure dealing with principles of criminal liability, common defenses to criminal charges, selected specific offences, and the basic procedures to be followed in the administration of criminal justice in Canada.

**LAW 1460 Constitutional Law 5 Cr. Hrs.**

An examination of the legal problems arising from the nature of the Canadian political structure and, in particular, the distribution of legislative powers between the federal parliament and the provincial legislatures and an introduction to the impact of the Canadian Charter of Rights and Freedoms.

**LAW 1480 Torts and Compensation Systems 5 Cr. Hrs.**

A general introduction to the law of torts and other compensation systems such as the Workers' Compensation and Criminal Injuries Compensation schemes.

**LAW 1500 Property 5 Cr. Hrs.**

A general introduction to the principles of property with special emphasis on the principles of real property, their historical development and modern application.

**LAW 1530 Legal System** **2 Cr. Hrs.**

An introduction to the study of law including initial analysis of various aspects of legal history, the structure of the legal system, legal reasoning, statutory interpretation, dispute resolution and the role of the judiciary.

**LAW 1540 Legal Methods** **5 Cr. Hrs.**

An introduction to legal research and writing skills and oral advocacy.  
Grading: Pass/Fail

**SECTION 7: Law Course Descriptions-2000 Level**

**LAW 2400 Wills and Succession** **3 Cr. Hrs.**

The law of testate and intestate succession, Part IV of The Marital Property Act, and The Dependents' Relief Act.

**LAW 2490 Trusts** **3 Cr. Hrs.**

The nature and functions of modern inter vivos and testamentary trusts. The creation of express, private trusts, charitable trusts, resulting trusts, and constructive trusts. The administration of trusts, and real and personal remedies of beneficiaries under trusts.

**LAW 2602 Evidence** **3 Cr. Hrs.**

A study of the rules relating to the admissibility and weight of evidence in judicial proceedings. May not be held with LAW 2600.

**LAW 2640 Family Law** **3 Cr. Hrs.**

An overview of key legal issues regarding familial relationships and family breakdown in Canadian society. Topics include cohabitation, marriage, separation, divorce, child custody and access, spousal and child support and property division.

**LAW 2650 Introduction to Advocacy** **3 Cr. Hrs.**

A detailed study of the conduct of a case from its inception through to trial. The course requires that students prepare and conduct a trial. Grading: Pass/Fail.

**LAW 2672 Civil Procedure** **3 Cr. Hrs.**

An introduction to the rules of civil procedure. May not be held with LAW 2670

**LAW 2680 Legal Negotiation** **3 Cr. Hrs.**

Most legal disputes settle before trial. This course examines how lawyers assist their clients through effective interviewing, counseling, strategic planning and negotiation as well as some of the mechanisms, both judicial and non-judicial, that facilitate pre-trial dispute settlement.

**LAW 2690 Corporations I** **3 Cr. Hrs.**

A study of the major legal, practical and policy issues arising out of the formation and operation of business organizations in Canada, with a particular focus on business corporations. Students will examine major principles of Canadian corporate law, including corporate personality, management power, majority rule and minority protection.

**LAW 2700 Income Tax Law and Policy** **3 Cr. Hrs.**

The object of this course is to develop a working knowledge of the basic principles and rules of the income tax system as these apply to individuals. A parallel objective is the discovery of the major policy positions that inform the personal income tax system and the development of the ability to use tax policy analysis to evaluate advantages of, and problems with, the current system.

**SECTION 7: Law Course Descriptions-3000 Level**

**LAW 3012 International Business Law** **3 Cr. Hrs.**

Explores the legal, practical and social realities of international business transactions.

**LAW 3014 International Trade Law** **3 Cr. Hrs.**

The course will deal with the doctrine, practice and policy issues in international trade and business.

**LAW 3016 Corporations II** **3 Cr. Hrs.**

An advanced study of corporations law from various theoretical and practical perspectives.

**LAW 3018 Human Rights Law** **3 Cr. Hrs.**

Critical and constructive study, at an advanced level, of a significant major subject or set of topics in Human Rights Law.

**LAW 3020 Clinical Administrative Law** **3 Cr. Hrs.**

The primary purpose of this course is to train students in lawyering skills. Students will be required to engage in classroom work and participate in simulated exercises. Emphasis will be given to the difference between board and court advocacy.

**LAW 3022 Insurance Law** **3 Cr. Hrs.**

Introduction to the basic principles of insurance law. The fundamental elements to most types of policies will be examined with particular emphasis on property and liability insurance. The terms and provisions specific insurance policies and coverages such as automobile, property, liability policies will also be covered.

**LAW 3024 The Legal Profession and Professional Responsibility** **3 Cr. Hrs.**

A general introduction to the problems of professional responsibility and the ethics of lawyers individually, as well as the legal profession collectively. Topics dealt with will include ethical problems of the lawyer in the role of the advocate and in the role of counsellor (confidentiality, conflict of interest, etc.); professional responsibility in the delivery of legal service (competency, fee determination, specialization, regulation etc) and the legal profession and the public interest (governance of profession, discipline, professional liability etc) These problems are to be studied by the critical examination of case law, codes, canons, and other published materials, by classroom discussion and debate on problems; and by workshops and panels which involve practising lawyers.

**LAW 3026 Trademarks and Patents** **3 Cr. Hrs.**

An in-depth examination of the law of Trademarks and Patents, including underlying policy objectives.

**LAW 3028 Copyright Law** **3 Cr. Hrs.**

An in-depth examination of the law of Copyright.

**LAW 3030 Research Paper B** **3 Cr. Hrs.**

Details in each case to be worked out with the Associate Dean. 10,000 words for 3 credit hours. May not be held with LAW 3490.

**LAW 3032 Court of Queen's Bench Clerkship** **3 Cr. Hrs.**

Students will be expected to provide research assistance to the Justices, and students will be asked to provide written memoranda and other research to help the Justices prepare for trial or application hearings. Discussions of legal issues may follow from the work that students do. May not be held with LAW 3250 when titled "Court of Queen's Bench Clerkship" Grading: Pass/Fail.

**LAW 3034 Court of Appeal Clerkship** **3 Cr. Hrs.**

Students will be expected to provide research assistance to the Justices, and students will be asked to provide written memoranda to help the Justices prepare for hearings. Discussions of legal issues may follow from the other work that students do. Grading is on a Pass/Fail basis.

<b>LAW 3050 Commercial Law</b>	<b>3 Cr. Hrs.</b>
A study of secured transactions and negotiable instruments.	
<b>LAW 3070 Gender and the Law</b>	<b>3 Cr. Hrs.</b>
An exploration of ideas about gender differentiation in law, the legal system, legal education and the legal profession. It will offer an introduction to the feminist critique of law and feminist theories about sexual equality and discrimination.	
<b>LAW 3090 Children, Youth, and the Law</b>	<b>3 Cr. Hrs.</b>
Relationships between children and youth, family, state and law are examined within an interdisciplinary context, focusing on such issues as rights theories and the public/private distinction; regulation of young offenders; child protection and state intervention; children in the courts; and the particular challenges of older children/young adults at the boundary between childhood and adulthood.	
<b>LAW 3120 Philanthropy and the Law</b>	<b>3 Cr. Hrs.</b>
This course investigates the origins of, and regulation of, charities and charity law as well as regulation of other non-profit entities. Typical topics considered in this course include the social, economic and cultural importance of an ethic of giving, the tax benefits attendant upon charitable status, dimensions of fund-raising, public and private foundations and terrorism and international charities.	
<b>LAW 3132 Clinical Family</b>	<b>3 Cr. Hrs.</b>
This course will serve as a bridge between the introductory family law course and the Advanced Family Law course, enabling students to develop a deeper understanding of the issues in this area of the law and to be better prepared to assimilate the necessary skills to be successful in this high demand area of practice. May not be held with LAW 3250 when titled Clinical Family. Registration restricted to students in Year 3. Prerequisite LAW 2640. Grading: Pass/Fail.	
<b>LAW 3170 Dispute Resolution</b>	<b>3 Cr. Hrs.</b>
This course offers a detailed exploration of the theory and practice of dispute resolution focusing on the various approaches, private and court-connected, currently used to resolve conflict. In critically examining selected alternative dispute resolution mechanisms, the course exposes students to issues such as rights-based and interest-based dispute resolution, power, gender and culture in ADR processes and the functions, and skills required of, third party interveners. May not be held with the former LAW 3160 or LAW 3162.	
<b>LAW 3212 Immigration Law</b>	<b>3 Cr. Hrs.</b>
The refugee definition; the need for refugee protection; procedural protection for refugee claimants; a comparative study of refugee determination systems; the legality of a refugee sanctuary movement; the legal status of refugee claimants in Canada; refugee and immigrant detention; the relevance of Charter guarantees to refugees and immigrants; visa requirements and airline fines; the international system of refugee protection; racist intention and effect in immigration and refugee law; material misrepresentation as a ground of exclusion; medical inadmissibility; equivalence of Canadian and foreign criminal offenses for purposes of exclusion; the relevance of foreign laws in determining family composition of sponsored immigrants. May not be held with LAW 3200.	
<b>LAW 3220 Competitions B</b>	<b>3 Cr. Hrs.</b>
Credit for selected students who satisfactorily participate in those academic competitions approved by Faculty Council. Grading: Pass/Fail.	
<b>LAW 3230 Aboriginal Peoples and Land Claims</b>	<b>3 Cr. Hrs.</b>
The course shall provide an overview of land claims and treaty land entitlement policies in Canada and their impact upon land claims by Aboriginal communities.	
<b>LAW 3250 Current Legal Problems D</b>	<b>3 Cr. Hrs.</b>
Critical and constructive study, at an advanced level, of a significant major subject or set of topics. Grading: Pass/Fail.	
<b>LAW 3302 Clinical Criminal Law</b>	<b>6 Cr. Hrs.</b>

The primary purpose of this offering is to train students in lawyering skills in the criminal law area. To this end, instruction is given on an intensive basis in small groups. Students may be required to engage in classroom work; to participate in various forms of simulation exercises and to conduct actual client based cases under the supervision of the instructor. Particular emphasis will be given to questions of professional responsibility and ethics. Registration restricted to students in Year 3. May not be held with LAW 3300. Prerequisites: (LAW 2602 or LAW 2600) and LAW 3590. Corequisite: LAW 3532 or LAW 3340. Grading: Pass/Fail.

**LAW 3310 Aboriginal Peoples and the Law** **3 Cr. Hrs.**

A study of the laws relating to Aboriginal Peoples in North America from the colonial period to the present. Special emphasis will be given to aboriginal rights, hunting and fishing rights, the legal aspects of Indian Treaties and the Indian Act. A more general treatment will be given to a study of Aboriginal Peoples' relationship to civil and criminal law in modern Canadian society.

**LAW 3330 Employment Law** **3 Cr. Hrs.**

A detailed study of employment law including employment principles, constructive and wrongful dismissal, just cause, human rights and remedies.

**LAW 3334 Global and Domestic Governance of Tainted Finance**

**3 Cr.Hrs**

The object of this course is to explore the law and policy related to the regulation of tainted finance. It aims to critique and appraise the merits of governance, both international and domestic. It begins with a broad overview of the relationship between tainted finance and global problems and then moves to consideration of discrete aspects. May not be held with LAW 3980 when titled "Global and Domestic Governance-Tainted Finance."

**LAW 3336 Law and Popular Culture** **3 Cr. Hrs.**

This course will study legal popular culture. This course will critically examine television programs and films that are concerned with law, lawyers and justice. This course will study them with a view to discovering how popular culture constitutes law (the influence of popular culture on law) and how law helps create popular cultural understandings of justice, including popular perceptions of lawyers and legal institutions (the influence of law on popular culture). This course will theorize about the capacity of law and popular culture to generate social meaning. This course will use a number of theoretical approaches including: critical legal studies, feminist legal theory, film studies, conflict resolution theory, and cultural studies theory. These theories will inform readings of the TV shows and movies, and will help students critically question the visions of justice advanced by both the theories and the popular culture. In doing so, the course also critiques the jurisprudence (or legal philosophy) offered in popular culture films and television shows and examines key concepts such as justice and equality. May not be held with LAW 3980 when titled "Law and Popular Culture."

**LAW 3338 Sentencing** **3 Cr.Hrs.**

The vast majority of criminal charges result in a conviction, whether by guilty plea or conviction at trial. This seminar focuses on the principles and practice of sentencing, while also looking in some detail at the sanction of imprisonment, penal policy and prisoners' rights. The course will be run as an advanced seminar class. May not be held with LAW 3980 when titled "Sentencing."

**LAW 3340 Advanced Advocacy** **3 Cr. Hrs.**

Advanced topics in trial presentation, procedure and evidence with concentration on jury trials.

**LAW 3342 Agency and Partnership** **3 Cr.Hrs.**

The course deals comprehensively with the law of agency, including the various ways in which and authorities with which an agent can be empowered, the contractual and tort liabilities of Principals, Agents, and Third Party's arising from an exercise of authority by Agents, and the duties

and rights of Agents. The pairing of the law of agency and partnership is natural because the law of agency is a foundational pillar of the partnership business form. Next to the corporation, partnership is the most common form in which entrepreneurs carry on business. The course will provide an introduction to the law governing partnerships. May not be held with LAW 3980 when titled "Agency and Partnership."

**LAW 3344 Internships 3 Cr.Hrs.**

This course will serve as a bridge between the academic study of law and the practice of law. Connecting academic study with community service through structured reflection contributes to learning that is deeper, longer lasting and more generalizable to new situations and contexts. An Internship will provide opportunities for cooperative experiences and addressing legal problems, this will require students to engage in problem solving by drawing on the substantive knowledge they have acquired over the course of their law studies. This course is graded on a 257 pass/fail basis. May not be held with LAW 3250 when titled "Current Legal Problems - Internship."

**LAW 3346 Access to Justice 3 Cr.Hrs.**

This course will explore how individuals seek to manage their legal problems by engaging with and navigating the civil justice system in Manitoba. Topics which may be covered in the course include: public legal services; the proliferation of self-represented litigants; the role of pro bono services; rural and remote access to justice (A2J); the costs of justice; the state of A2J research; the provision of legal services by non-lawyers; on line dispute resolution; and, technology, innovation and the legal practice of the future. May not be held with LAW 3980 when titled "Access to Justice."

**LAW 3348 Bankruptcy and Insolvency 3 Cr.Hrs**

This course provides students with an introduction to Canadian bankruptcy and insolvency law under the Bankruptcy and Insolvency Act. By the end of the course students will understand the main components of Canadian bankruptcy and insolvency law as well as the key policy issues. May not be held with LAW 3980 when titled "Bankruptcy and Insolvency."

**LAW 3352 Sexual Expression, Conduct and Work in Canada 3 Cr.Hrs.**

This course surveys selected issues involving sexual work, performances, expression and the criminal law. The main focus of the course is on the development of obscenity and indecency laws, prostitution-related laws, voyeurism laws, artistic expression, revenge pornography, cyber sexual crimes, bestiality laws, campus sexual regulation and hateful sexual speech. Study of these topic areas is based on a doctrinal, socio-legal and anthropological history of sexual regulation beginning in ancient Pompeii and leads to assessment of law in modern day Canada. The course thus explores theories underpinning freedom of expression, equality and liberty. The course engages doctrinal issues in criminal law, constitutional law, tort law and to a certain extent, jurisprudence and the philosophies inherent in law and society approaches. May not be held with LAW 3980 when titled "Sexual Expression, Conduct and Work in Canada." WARNING: This course contains graphic (though legal) sexual content.

**LAW 3354 Moot Researcher 3 Cr.Hrs.**

The Moot Researcher will be expected to conduct the research necessary for a University of Manitoba team for a specific national moot competition. The Moot Researcher must actively participate in the writing and editing of a factum and attend all meetings of the moot team as a group, including oral advocacy practices. The workload of the researcher is expected to be closely monitored by the faculty supervisor. Activities assigned by the supervisor might include the following: attending the competition with the moot team, to conduct exigent research arising at the competition; writing

memorandums of law or bench memos to assist with the factum preparation or questions arising out of practices; and writing a reflective paper. The researcher will be required to docket her/his time. Although considerable time and effort is involved, the exercise provides a unique and rewarding development of the skills necessary for appellate research. May not be held with LAW 3250 when titled "Moot Researcher." This course is graded on a pass/fail basis.

**LAW 3360 Advanced Legal Research 3 Cr. Hrs.**

This course will provide students with the wherewithal to conduct legal research across a number of jurisdictions using both print and digital formats. Students are evaluated on a number of research exercises, a midterm examination, a major research pathfinder and a presentation of research results.

**LAW 3362 Animals and the Law 3 Cr.Hrs.**

This course will provide students with an opportunity to think critically about the following in relation to animals: Crown ownership versus private property ownership; regulatory takings; natural resources and environmental legal frameworks; tort law; trade law; property law; intellectual property and regulation of biotechnology; regulation of food and agriculture; migrant workers and employment and immigration law and policy; animal health and welfare; animal rights and standing; and ultimately, the role of law. The objective of this course is to be able to respond to the following questions: What is the legal relationship between humans and animals? On what grounds is this legal relationship justified? What is the nature of current legal reform initiatives? Is such reform merited? If so, on what basis and to what purpose or end? To answer these questions, we will explore legal strategy theory; domestic statutory frameworks; international conventions and treaties; international and domestic jurisprudence; and historical, philosophical, and religious perspectives on the moral status of animals. May not be held with LAW 3980 when titled "Animals and the Law."

**LAW 3364 Law and Resistance 3 Cr.Hrs.**

This course examines the intersections between law and resistance, including the ways in which individuals, groups and/or communities may challenge the dominant power of various entities (governments, institutions, corporations or other organizations, Indigenous communities) or individuals and the decisions they make and the actions they take. The course shall also explore the spectrum of responses that legal systems employ to legitimize or punish the conduct of such resisters. Acts of resistance may have an impact (directly or indirectly) in shaping the law - its creation, interpretation or enforcement. May not be held with LAW 3980 when titled "Law and Resistance."

**LAW 3366 Language Rights - Droits linguistiques 3 Cr.Hrs.**

Le cours de Droits linguistiques aborde les différents aspects juridiques et politiques de la protection par l'état de sa diversité linguistique. Après une introduction mettant l'accent sur le contexte social, politique et culturel des droits linguistiques au Canada et au Manitoba, le cours examinera le droit constitutionnel et législatif applicable au niveau fédéral et dans les provinces canadiennes, les droits linguistiques autochtones, et la protection des droits linguistiques en droit international et ailleurs au monde. Le cours se conclura par un examen des visions des communautés de langues officielles en situation minoritaire (et tout particulièrement, la communauté franco-manitobaine) face à leur avenir. May not be held with LAW 3980 when titled "Language Rights." Taught in English and French.

**LAW 3370 The Legislative Process 3 Cr. Hrs.**

A study of how statutes and regulations are made in the Province of Manitoba, and how lawyers can effectively represent their clients in the context of lawmaking by politicians, civil servants and regulators.

<b>LAW 3380 Issues in Law and Bio Ethics</b>	<b>3 Cr. Hrs.</b>
The course deals with the legal aspects of prevention, creation, alteration, maintenance and termination of life through medical and other scientific means.	
<b>LAW 3392 Securities Law</b>	<b>3 Cr. Hrs.</b>
A study of the basic concepts and application of the securities regulatory system in Canada. May not be held with LAW 3390.	
<b>LAW 3394 Internet and E-Commerce Law</b>	<b>3 Cr. Hrs.</b>
This is a perspectives course. It will cover legislation, case law and practical drafting techniques in many areas in order to better equip students in the practice of law, and at the same time invite students to reflect upon the political and social issues that arise as "cyberlaw" develops. Subject matter of the course: The legislation, court decisions, policy debates and practical drafting and litigation techniques connected with the internet and e-commerce. A variety of issues will be covered, including: freedom of expression issues, jurisdiction, internet speech regulation; online privacy issues; intellectual property issues, including domain names and downloading of copyright material; internet commerce issues, such as the law of contracts pertaining to online contracting. May not be held with LAW 3980 when titled "Internet and Ecommerce Law".	
<b>LAW 3410 Canadian Legal History</b>	<b>3 Cr. Hrs.</b>
The historical background of the Canadian legal system.	
<b>LAW 3450 Remedies</b>	<b>3 Cr. Hrs.</b>
A study of the law relating to damages, specific performance, injunctions, and other equitable remedies.	
<b>LAW 3510 Corporate Taxation</b>	<b>3 Cr. Hrs.</b>
A study of federal tax laws as they affect corporation income, as well as a discussion of the effects of income tax laws on corporate and other commercial planning.	
<b>LAW 3520 Taxation of Trusts and Estates</b>	<b>3 Cr. Hrs.</b>
A study of taxation principles as they relate to partnership and trust income and estate planning.	
<b>LAW 3530 Administrative Law</b>	<b>3 Cr. Hrs.</b>
An introduction to administrative law generally, with concentration on the judicial review of the exercise of statutory authority by administrative entities.	
<b>LAW 3532 Intensive Criminal Law</b>	<b>3 Cr. Hrs.</b>
This course follows the general introduction to the complexities and principles of criminal law presented in earlier courses on criminal law and evidence. It emphasizes the ways in which these complexities and principles play out in practice and has a strong practical component. It is well-suited for students considering working in the field of criminal law. The first half of the course will address the demands placed on prosecutors and defence counsel at various points of a prosecution, including, inter alia, application for judicial interim release, the preparation of pre-trial motions, direct and cross-examination, and sentencing. These demands are not only statutory, but also logistical, tactical and ethical. The second half of the course will look at these demands in the context of certain "special" criminal law contexts, including, inter alia, impaired driving, young offenders, domestic violence, and drug prosecutions. Registration restricted to students in Year 3. May not be held with LAW 3250 when titled "Intensive Criminal Law". Grading: Pass/Fail.	
<b>LAW 3590 Charter Issues in Criminal Law</b>	<b>3 Cr. Hrs.</b>
The rules of Criminal Procedure and principles underlying and unifying such rules with a particular emphasis on the effect of the Charter of Rights and Freedoms on those rules.	
<b>LAW 3600 Environmental Law</b>	<b>3 Cr. Hrs.</b>
The balance between technical development and the life-support capacity of the environment. The acquisition and nature of private rights in natural	

resources and their control by legislation and common law. Remedies for environmental degradation. Constitutional and international legal issues.

**LAW 3620 Comparative Law** **3 Cr. Hrs.**  
An introduction to civil law; a brief historical survey, codification, judicial philosophy, detailed study of selected comparative law topics in tort and contract with special reference to the Civil Code of the Province of Quebec. An introduction to Soviet law, detailed study of selected topics in Soviet law.

**LAW 3674 Advanced Public Law** **3 Cr. Hrs.**  
This course provides students with a fuller appreciation and knowledge of several topics of interest and importance for Canadian public law, including the changing boundaries of public law in our "shrinking" state, the scope and meaning of judicial, administrative and bureaucratic independence, the role of international human rights norms in Canadian constitutional and administrative law, the intersection between the Canadian Charter of Rights and Freedoms and administrative law and the role of guidelines, policies and other "soft law" in public administration. Although focused on Canadian public law, the course may include a comparative component and draw from the public law experience of other jurisdictions. May not be held with LAW 3980 when titled "Advanced Public Law". Prerequisite: LAW 3530.

**LAW 3690 Real Estate Transactions** **3 Cr. Hrs.**  
The law relating to vendors and purchasers of land and to mortgages and other security on land.

**LAW 3740 Public International Law** **3 Cr. Hrs.**  
Public international law has a complex history, one that lends itself to conflicting interpretations. It has also been the object of a variety of competing theoretical projects, most of which diverge radically on questions of form and substance. This course provides a historically and theoretically reinforced introduction to the basic rules, principles, and institutions of public international law.

**LAW 3770 Labour-Management Relations** **3 Cr. Hrs.**  
A survey of the development of trade unions; their present status under both federal and provincial legislation regarding the right of association, collective bargaining, and the settlement of disputes.

**LAW 3824 Scholarly Publications** **3 Cr. Hrs.**  
The course will provide students with hands-on experience in working with scholarly writing. Students will develop their evaluation and critical analysis skills through the process of editing for publication all submissions to the Journal. May not be held with the former LAW 3820 or the former LAW 3822. Grading: Pass/Fail.

**LAW 3826 Advanced Scholarly Publications** **3 Cr. Hrs.**  
The course will provide students with hands-on experience in working with scholarly writing. Students will develop their evaluation and critical analysis skills through the process of completing full substantive and copy edits on two or three articles during the course of the year. Working as Senior Editors students will develop their interpersonal skills by communicating with authors and by supervising and managing the work of Junior Editors. May not be held with LAW 3250 when titled "Advanced Scholarly Publications". Grading: Pass/Fail.

**LAW 3828 Preventing Wrongful Convictions** **3 Cr. Hrs.**  
This course examines the causes of wrongful convictions, how to avoid them, detection mechanisms and remedies that should be provided under international instruments when a miscarriage of justice has occurred. The course starts by examining the environmental factors that nurture a miscarriage of justice, including the adversarial system of criminal justice. It then examines the role of the various players in the criminal justice system, and how each can inadvertently feed into a wrongful conviction - individually, or in combination with other factors. May not be held with LAW 3980 when titled "Preventing Wrongful Convictions".

**LAW 3832 Legal Aid Clinic 3 Cr. Hrs.**

Students who are selected to act as student supervisors at the University Law Centre during the summer and who continue to actively serve the University Law Centre during their third year may, by successfully completing a written assignment approved by a faculty supervisor, opt for the Legal Aid Clinic. May not be held with LAW 3830. Grading: Pass/Fail.

**LAW 3852 Private International Law 3 Cr. Hrs.**

It has to do with choosing what place to sue, what law applies when the law of more than one place might apply, and with the enforceability of judgments through foreign courts. May not be held with LAW 3850.

**LAW 3862 Business Transactions: The Art of the Deal 6 Cr. Hrs.**

A study, involving practical exercises of certain aspects of solicitors' work, including interviewing, negotiating, counseling and memo writing.

**LAW 3880 Municipal and Planning Law 3 Cr. Hrs.**

A general course in municipal law, including important aspects of land-use control and planning law. Although the course deals generally with the nature, structure, functions, and powers of the various units comprising the local level of government, the focus is primarily on municipal corporations. Topics covered include assessment and taxation, land-use planning and control, tort liability, judicial review of bylaws, qualification and accountability of councillors, and the law relating to expropriation, as well as some discussion of contemporary urban problems.

**LAW 3940 Canadian Charter of Rights and Freedoms 3 Cr. Hrs.**

An in-depth study of the legal, philosophical and historical foundations of the Canadian Charter of Rights and Freedoms. Included is a study of both the American and European experience with Charters of Rights as well as Canadian case law.

**LAW 3980 Current Legal Problems B 3 Cr. Hrs.**

Critical and constructive study, at an advanced level, of a significant major subject or set of topics.

**LAW 3990 Externship 12 Cr. Hrs.**

The primary purpose of the Externship is to allow students an opportunity to work in a legal context where they gain professional knowledge and skills related to law, the legal profession and legal practice. Particular emphasis will be given to questions of professional responsibility and ethics. Within the workplace, students will be required to participate in various forms of exercises and to conduct work within an actual work setting where they face real day-to-day work situations under the supervision of practicing lawyers. Depending on the nature of the placement, they may be required to engage in classroom work. Registration restricted to students in Year 3. Grading: Pass/Fail.

**Includes subjects: IDM (Interdisciplinary Management)**

### 5.11 Marketing

**Includes subjects: MKT (Marketing)**

### 5.12 Supply Chain Management

**Includes subjects: MSCI (Management Sciences), OPM (Operations Management), SCM (Supply Chain Management)**

## SECTION 1: Degree Programs Offered

### 1.1 Degree Programs Offered

Degree	Years to Complete	Total Credit Hours
Bachelor of Commerce Honours	4	120
Bachelor of Commerce Honours (Co-operative Education Option)	4.33+	120

**NOTE:** Students admitted to the Asper School of Business prior to September 2011 should refer to the Academic Calendar for the year in which they were admitted for a description of their program requirements.

### 1.2 Available Majors and Option

The following Majors may be used to complete the Bachelor of Commerce (Honours) program:

Indigenous Business Studies

Accounting

Actuarial Mathematics

Entrepreneurship/Small Business

Finance

Generalist

Human Resources Management/Industrial Relations

International Business

Leadership and Organizations

Logistics and Supply Chain Management

Management Information Systems

Marketing

Operational Research/Operations Management

A detailed explanation of the requirements for each major may be found in Section 4.2.

The Co-operative Education Option is the only option that may be used to complete the Bachelor of Commerce (Honours) program. Complete details on the requirements for the Co-operative Education Option are found in Section 4.3.

### 1.3 Accreditation

In 2009, the Asper School of Business received re-accreditation from AACSB International - The Association to Advance Collegiate Schools of Business.

In 2009, the Asper School of Business received accreditation from the SOA - Society of Actuaries.

These prestigious recognitions affirm the faculty's commitment to the continuous improvement of its courses and programs. The mission of the Asper School of Business is to provide management education in Manitoba by creating and disseminating leading edge knowledge and developing skills relevant to current and future managers in organizations operating in a global environment.

## SECTION 2: Admission Requirements

### 2.1 Admission Requirements from High School and Previous Post-Secondary Institutions

The following is a summary of the admission requirements for the Bachelor of Commerce (Honours.). Equivalent courses completed at other universities will be considered for admission and transfer credit only if the courses have been taken within the last 10 years. All admission requirements, as well as application deadline dates and forms, are included in the Applicant Information Bulletin that is available from the Admissions Office, 424 University Centre. This information is also posted on the University of Manitoba's website.

#### Direct Entry from High School

To be eligible to apply high school students must have:

1. Manitoba high school graduation, with five full credits at the Grade 12 level, in courses designated S (Specialized), G (General), or U (Dual Credit – University), with
2. A minimum 85% average over three courses: Pre-Calculus Math 40S or Applied Math 40S (Recommended Pre-Calculus 40S), English 40S, and one other 40S/U course, and
3. A minimum 60% in each of the three courses noted in point 2 above, and
4. Applicants may require a higher average than stipulated in point 2 to be successful in the annual competition for admission.

See Applicant Bulletin for complete details.

#### Track 1 Transfer Students

The following is a summary of the admission requirements for the Bachelor of Commerce (Honours.) for Track 1 transfer students. Equivalent courses completed at other universities will be considered for admission and transfer credit only if the courses have been taken within the last 10 years. All admission requirements, as well as application deadline dates and forms, are included in the Applicant Information Bulletin that is available from the Admissions Office, 424 University Centre. This information is also posted on the University of Manitoba's website.

#### Requirements (for Track 1 Transfer students)

- [ECON 1010 (3) and ECON 1020 (3)] (6)
- 6 credit hours from: Anthropology, History, Mathematics, Philosophy, Political Studies, Psychology, or Sociology (6)\*
- Mathematics MATH 1520 (3) or MATH 1500 (3) or MATH 1230 (3) Statistics STAT 1000 (3) or STAT 1150 (3)

- A 3 credit hour Written English (“W”) course from a specific discipline (ARTS 1110, GMGT 1010 and GMGT 2010 are not considered to be from a specific discipline) (3)
- 3 credit hours of electives (3) \*\*

Minimum 24 credit hours completed by April 30. Although 24 credit hours is the minimum requirement for admission, a full year course load would require 30 credit hours; therefore, students only taking 24 credit hours for admission will need to pick up an extra 6 credit hours of course work once in the Asper School of Business.

An Elective is any three or six credit hour course freely chosen by the student from courses taught in the degree programs of other faculties and schools, excluding the Asper School of Business.

If students want to complete 30 credit hours in Year 1, students are recommended to take 6 credit hours from this suggested list of recommended courses: GMGT 1010 plus one of GMGT 2060, GMGT 2070 or MKT 2210.

\* Courses chosen for this requirement must be independent from courses taken to fulfill other degree requirements.

\*\*Critical Thinking (Philosophy) PHIL 1290 is a preferred elective choice\*\*

Students must achieve a minimum grade of “C” on each course listed above. Admission in this category is competitive.

See Applicant Bulletin for complete details.

### Track 2 Transfer Students

Applicants who are missing one or more of the Track 1/Foundation course requirements may apply under Track 2 provided they have met the following criteria: completed a minimum of 24 credit hours; achieved a minimum admission GPA of 3.1; and achieved a minimum grade of “C” on each course comprising the 24 credit hours. Track 2 applicants are encouraged to complete all outstanding Track 1/Foundation required courses during their first year after admission to the Asper School of Business.

Minimum 24 credit hours completed by April 30. Although 24 credit hours is the minimum requirement for admission, a full year course load would require 30 credit hours; therefore, students only taking 24 credit hours for admission will need to pick up an extra 6 credit hours of course work once in the Asper School of Business.

\*Students must achieve a minimum grade of “C” on each course listed above. Admission in this category is competitive.

NOTE: The prerequisite for MATH 1520 or MATH 1500 is a 60 per cent in Grade 12 Pre-Calculus Mathematics 40S or equivalent or a grade of “C” in the MSKL 0100 Mathematical Skills course taught by Extended Education; the prerequisite for MATH 1230 is a 70% in Pre-calculus Mathematics 40S or the MSKL 0100 Mathematical Skills offered by Extended Education (B).

NOTE: The prerequisite for STAT 1150 is a 70% in Pre-calculus Mathematics 40S or the MSKL 0100 Mathematical Skills offered by Extended Education (B).

See Applicant Bulletin for complete details.

### Other requirements

High school prerequisite: Grade 12 Pre-Calculus Mathematics 40S (or equivalent, with a minimum 60 %)

The Written English and Mathematics requirements are satisfied by Track 1/Foundation courses.

Minimum AGPA for consideration: 2.0 for Track 1 applicants; 3.1 for Track 2 applicants.

Admission to the Asper School of Business is limited to an annual quota and is competitive.

The Bachelor of Commerce (Honours) program does not have a Mature Student Category for admission.

All students seeking admission to the Bachelor of Commerce (Honours) program must first complete either the Direct Entry, Track 1 or Track 2 requirements.

All students planning to enter the Bachelor of Commerce (Honours) program must obtain a minimum of 60 per cent in Grade 12 Pre-Calculus Mathematics 40S (or equivalent) in order to complete all degree requirements.

The Bachelor of Commerce also have Special Consideration and Canadian Indigenous Ancestry categories of admission. See Applicant Bulletin for complete details.

### Advance Standing: Transfer and Second Degree Students

Students who do not meet the eligibility requirements for admission after their first year of University can spend another year (or more) in another faculty, complete the eligibility requirements, and then apply (or re-apply) for admission. Students who complete additional course credits beyond the Track 1/Foundation or Track 2 requirements are eligible to receive applicable advance standing upon admission to the Asper School of Business.

The following regulations apply to students who must (or choose to) take more than one year to qualify for admission to the Asper School of Business.

### All transfer and second degree students will be required to:

Meet the admission requirements of Track 1 or Track 2 in the year of application.

Complete all 120 credit hours required in the Bachelor of Commerce (Honours) program, including the 24 credit hours that comprise the specific Track 1/Foundation course requirements, the Core requirements, the course requirements for one Major, Business Options, and Elective courses. An Elective is any three or six credit hour course freely chosen by the student from courses taught in the degree programs of other faculties and schools, excluding the Asper School of Business. After admission to the Asper School, students in Track 2 must complete all outstanding courses listed in the Track 1/Foundation course requirements and achieve a minimum grade of “C” in each course.

Students who are admitted to the Asper School of Business who have completed more than the minimum 24 credit hours requirement of Track 1/Foundation course or Track 2 may be eligible to receive transfer credit for the additional work completed, provided the additional course work is creditable toward the degree requirements of the Bachelor of Commerce (Honours).

Students who are admitted to the Asper School of Business following the completion of another degree program are eligible to receive a maximum of 60 hours of transfer credit for applicable courses completed as part of their first degree. Students who, within their first degree, have more than 60 hours of transferable credits would be required to take substitute courses for credits in excess of the 60 hour limit on transfer.

Students who have a degree and in addition have completed further courses at the University of Manitoba which are applicable to the B. Comm.(Hons.) program that were not used for credit toward their first degree may receive additional transfer credit for that work.

Equivalent courses completed at other universities will be considered for admission and transfer credit only if the courses have been taken within the last 10 years.

Students are encouraged to contact a Undergraduate Program Advisor in the Undergraduate Program Office for information on how to optimize their transfer credit and advance standing.

See Applicant Bulletin for detailed information on admission requirements.

## 2.2 Admission Requirements from Joint Programs with Manitoba Colleges

The Asper School of Business has established Joint Programs with Red River College, Assiniboine Community College, University College of the North, and école technique et professionnelle. Graduates of the Business Administration Diploma (University Stream) from these four colleges are eligible to apply directly to the Asper School of Business.

Successful applicants will receive block transfer credit for their courses completed in the Business Administration Diploma and are required to complete specified courses at the University of Manitoba in order to receive the Bachelor of Commerce (Honours) degree. Requirements for the Joint Programs are listed in Section 4.

Admission to each Joint Program is limited to an annual quota and is competitive. Students must achieve a minimum grade point average of 3.00 on their Business Administration Diploma (University Stream) to be eligible for admission. Students must have graduated from the Diploma program within the last 5 years to be eligible for admission. Applicants are ranked in descending order of their grade point average and are admitted until the annual quota is met.

See Applicant Bulletin for detailed information on admission requirements.

## SECTION 3: Academic Regulations

All students are asked to note that some academic policies and regulations are under review and are subject to change. Please check the Undergraduate Program Office for updated information.

The provisions of the chapter, General Academic Regulations and Requirements, and the chapter, University Policies, apply to all students. In addition, the Asper School of Business has regulations and requirements, published below, which apply specifically to its students and to non-business students taking business courses.

### 3.1 Changes in Program Requirements

Once students are admitted to the Asper School and have successfully completed any portion of the program, they will not be required to meet new course requirements subsequently stipulated for that portion of the program, whether the requirements be for the faculty or for an individual major.

NOTE: Students admitted prior to September 2011 should refer to the 2010-2011 Undergraduate Calendar for a description of their program requirements.

### 3.2 Evening Program

The Asper School of Business does not offer an evening program. Although a limited number of business courses may be offered in evening time slots during both the Regular and Summer Sessions, it is not possible to

complete all the course requirements of the Bachelor of Commerce (Honours) program without recourse to daytime attendance.

### 3.3 Leadership for Business and Organizations Minor for Non-Business Students

The Minor in Leadership for Business and Organizations is offered to non-Management students whose faculties permit a Minor. The minor combines subject knowledge with conceptual organizational knowledge and competencies in leading teams, conflict resolution, organizational change, negotiations as well as corporate responsibility and other leadership components that facilitate and support personal, work group and organizational success.

A limited number of seats in this minor will be available each year. Supplementary entrance requirements and enrolment limits may vary with a student's faculty of registration. Students planning to enrol in this minor should consult a student advisor in their home faculty.

The Minor in Leadership for Business and Organizations consists of 18 credit hours from the following:

Entrance to the Minor in Leadership for Business and Organizations is comprised of 6 credit hours of prerequisite courses completed with a minimum grade of "C" or better:

MGMT 1010 Business and Society (3)

MGMT 2060 Management and Organizational Theory (3)

\*Other Faculty specific entrance requirements may be required because of the limited seats available each year; students must consult a student advisor in their home faculty for additional information.

And, after entry to the minor all students must complete the following 6 credit hours:

MGMT 2070 Introduction to Organizational Behaviour (3)

LEAD 4010 Leading Change (3)

And, any 6 credit hours from the following courses:

MGMT 3010 Management Decision-Making (3)

LEAD 3010 Negotiation and Conflict Management (3)

LEAD 3020 Team Building and Diversity (3)

LEAD 3030 Corporate Social and Environmental Responsibility (3)

LEAD 4020 Leadership, Power and Politics in Organizations (3)

PSYC 2540 Social Psychology (3)

NATV 3350 Aboriginal Organizations (3)

NATV 4320 Aboriginal Economic Leadership (3)

### 3.4 Management Minor for Non-Business Students

The Management Minor consists of any 18 hours of credit in courses offered by the Asper School of Business. Entrance requirements and enrolment limits vary with a student's faculty of registration. Students planning to enrol in this minor should consult a student advisor in your home faculty.

### 3.5 Student Responsibility

The Bachelor of Commerce (Honours) program undergoes changes from time to time. As a result, some changes in program structure, content and regulations may be made for the current and upcoming academic year. Specific program information for the regular program, the co-operative education program option, Joint Programs, and 2+2 Programs may be obtained from the Undergraduate Program Office.

## Student's Responsibility

It is the responsibility of all students to ensure that they follow the program of study as outlined in their chosen Major and that they meet all the requirements as specified by the University of Manitoba and the Asper School of Business.

When you are registering for courses, it is your responsibility to ensure that you have satisfied all prerequisite and concurrent course requirements.

It is your responsibility to ensure you have registered for the correct courses to satisfy the requirements of the Bachelor of Commerce (Honours) degree.

Read course descriptions carefully to make sure you are not registered for a course that "May Not Be Held With" a course you have already taken. You will not be allowed to apply both courses toward your degree requirements.

**NOTE:** Students admitted prior to September 2011 should refer to the 2010-2011 Undergraduate Calendar for a description of their program requirements.

### 3.6 Prerequisite Requirements

Prerequisite requirements must be met for entry into and continuance in the faculty.

Students must also meet all individual course prerequisites for further study in the program.

A passing grade is acceptable for prerequisite purposes for courses offered by the Asper School of Business unless a higher grade is called for in the course description.

### 3.7 Degree GPA Requirement for Graduation

#### Students Admitted in 2011 and Thereafter

Students admitted to the Asper School of Business in 2011 and thereafter must achieve a minimum degree GPA of 2.00 on all 120 credit hours required in the Bachelor of Commerce (Honours) degree program. Students must also achieve a passing grade of "D" or better in each course except for the individual courses required in the Track 1/Foundation course requirements that require a grade of "C" or better in each course.

All Track 1/Foundation courses, Core courses, Major courses, Business Options, and Electives applicable to the Bachelor of Commerce (Honours) degree requirements, as well as the grades achieved in each course, are transferred into the Asper School of Business and are included in the degree GPA. An Elective is any three or six credit hour course freely chosen by the student from courses taught in the degree programs of other faculties and schools, excluding the Asper School of Business.

**NOTE:** Students admitted prior to September 2011 should refer to the 2010-2011 Undergraduate Calendar for a description of their program requirements.

### 3.8 Calculation of the Cumulative GPA

The computation of the cumulative GPA is the same as that described in the chapter, General Academic Regulations and Requirements.

### 3.9 Residency Requirement

All Business students must complete a minimum of 60 credit hours at the University of Manitoba in order to satisfy the residence requirement of the Bachelor of Commerce (Honours) degree.

Students participating in approved International Exchange Programs may be exempt from the 60 credit hour requirement. See Section 4.8.3 Academic Term Requirements.

**NOTE:** Students admitted to the Asper School of Business prior to the current calendar year should refer to the Academic Calendar for the year in which they were admitted for a description of their program requirements.

Students considering completing course work at another university are referred to the chapter, General Academic Regulations and Policy, and the section on Letter of Permission.

### 3.10 Time Limit for Completion of the Degree

The maximum period of eight years for completion of degree requirements will be reduced by one year for each block of 15 credit hours of advance standing received at the point of admission. This time limit applies to all students, whether full-time or part-time.

The maximum period for completion of degree requirements for students enrolled in the co-operative education option is currently under faculty review.

A student who does not complete all degree requirements within the time limit permitted will be required to withdraw from the faculty. Students may appeal to the Undergraduate Program Committee for a one year time extension; all appeals must be accompanied by a detailed letter explaining the student's circumstances and appropriate supporting documentation.

### 3.11 Probation Regulations

#### Maximum Number of Failures

Each student in the Asper School of Business is permitted a maximum of 15 credit hours of failures. If a student has more than 15 credit hours of failed courses and a degree grade point average (DGPA) of 2.00 or higher, the student will be placed on Probation and have a formal academic assessment of "On Probation" automatically placed on their academic record. Such students will be subject to the course load and performance requirements of the Probation Program.

Details and procedures concerning the Probation Program are available from the Undergraduate Program Office or see [Academic Matters](#) on the Asper School of Business website.

#### Probation Program

Students in academic jeopardy should carefully monitor each term's academic results. Students placed on Probation, will immediately be placed on "hold" in the Asper School of Business and have a formal academic assessment of "On Probation" added to their transcript.

Students who have been placed on Probation must process all registration through an Asper Program Advisor and will only be reinstated to regular student status in the Asper School of Business if all the specific conditions of the Probation Program have been met, including having met a minimum DGPA of 2.00.

If a student successfully completes the Probation Program, their student status is automatically reinstated to regular student status.

A student who fails the first Probation Program is permitted to enter a second Probation Program.

A student who successfully completes the Probation Program and who later fails an additional course in a subsequent term will immediately be placed on Probation again and be permitted another opportunity to enter the Probation Program.

Students are permitted a maximum of 2 consecutive attempts in the Probation Program. If a student fails the second consecutive Probation Program, the student will automatically have an academic assessment of "Required to Withdraw from Faculty" (WF) placed on their academic record. (See section 3.13 Required to Withdraw from Bachelor of Commerce (Honours) Program.)

Details and procedures concerning the Probation Program are available from the Undergraduate Program Office or see [Academic Matters](#) on the Asper School of Business website.

### 3.12 Repeating, Substituting and Extra Courses

#### Required Courses

A student who withdraws from a Core course or who wants to repeat a Core course because of a passing or failing grade, should, if possible, repeat that course during the following Fall or Winter Term. The student will be subject to Limited Access as per the University's Voluntary Withdrawal and Repeat Course Policies (see General Academic Regulations and Requirements). If a student repeats a course for which a grade was recorded, only the highest of the grades achieved will be included in the computation of the degree GPA.

Students may not substitute another course for a Core course.

#### Major Courses

Students who achieve a grade of "F" in a Major course must either repeat that course or substitute another Major course if the Major requirements permit an alternate choice. Upon completion of the Major course, only the highest of the grades achieved will be included in the computation of the degree GPA. When a course is to be substituted, the student must seek the approval of the Undergraduate Program Office, in writing, prior to enrolling in the new course; failure to do so may result in a denial of the course substitution.

#### Electives and Business Options

Students who achieve a grade of "F" in an Elective or Option may either repeat that course or substitute another approved course in its place. An Elective is any three or six credit hour course freely chosen by the student from courses taught in the degree programs of other Faculties and Schools, excluding the Asper School of Business. Upon completion of the course, only the highest of the grades achieved will be included in the computation of the degree GPA.

When a course is substituted for a failed Elective or Option, a student must request approval from the Undergraduate Program Office in writing prior to enrolling in the new course; failure to do so may result in a denial of the course substitution.

Students who want to supplement their Majors may take up to 12 hours of their Business Options from that area.

#### Voluntary Withdrawals and Voluntary Repeats

If a student voluntarily withdraws from a course and wants to enrol in the course in another term or if a student wants to voluntarily repeat any course in which a passing grade has been achieved (for example, in order to improve their degree GPA, or to meet a prerequisite requirement) they will be subject to all published University or Faculty registration restrictions (for example, students repeating courses will be subject to Limited Access as per the University's Voluntary Withdrawal and Repeat Course Policies; see General Academic Regulations and Requirements). After completion of a voluntary course repeat only the highest of the grades achieved will be included in the computation of the degree GPA. When a student wishes to

voluntarily repeat a course, the student should seek written approval of the Undergraduate Program Office.

#### Extra or Substitute Courses

Students who would like to take courses extra to their degree are permitted, however students should seek approval of the Undergraduate Program Office prior to registration. When a course is extra to the degree but a student would like to substitute the course for another already in the degree, the student should seek written approval of the Undergraduate Program Office, prior to enrolling in the new course; failure to do so may result in a denial of the course substitution.

### 3.13 Completing Two Majors (Second Major)

#### Students Wishing to Complete Two Majors

Note the following Asper School of Business policy: "Students will not be given any registration priority for a second major". The Asper School of Business cannot guarantee that you will obtain space in the courses you would like for a second major.

Students who have completed all the requirements or who have all the courses in registration for a major are not permitted to formally declare a different major unless there is space in the courses needed to complete the different major. Students are not permitted to declare a different major in order to obtain space in full courses.

### 3.14 Required to Withdraw (WF) from the Bachelor of Commerce (Honours) Program

All students admitted in September 2015 and thereafter, in the I. H. Asper School of Business will have a formal academic assessment once they have completed 24 or more credit hours of coursework. After that point a student will have a formal academic assessment at the end of every Fall, Winter and Summer term.

At any point of formal academic assessment, if a student i) has a degree grade point average (DGPA) of less than 2.00 or ii) fails a second consecutive Probation Program, they will be required to withdraw from the Asper School of Business. A student in this situation will automatically have an academic assessment of "Required to Withdraw from Faculty" (WF) placed on their academic record.

Such a student will cease to be a student in the Asper School of Business but may apply for admission to another Faculty according to the rules of that unit. If such a student desires to gain entry back to the Asper School of Business, they must re-apply for admission and will have to meet the requirements for admission at the time of the new application.

### 3.15 Withdrawal from Bachelor of Commerce (Honours) Program for No Registration after Admission

- A student who does not register for any courses in the Fall or Winter term after admission will cease to be a student in the Asper School of Business. Such students must re-apply for admission if that is desired and will have to meet the requirements for admission at the time of the new application.
- A student who registers for course work in the Fall or Winter term after admission but subsequently voluntarily withdraws from all course work may be permitted to re-register at any time thereafter, subject to all faculty policies and requirements as they existed at the time of first admission and completing a signed declaration of non-attendance at another post-secondary institution. Such students should be aware of the time limit for completion of the degree.
- A student who applies for transfer to another university program and subsequently registers for courses will cease to be a student in the Asper School of Business. Such a student must re-apply for admission

if that is desired and will have to meet the requirements for admission at the time of the new application.

### 3.16 Withdrawal from Individual Courses

#### Required Courses

Students in the Asper School of Business may withdraw without academic penalty from a required Core course provided they have not previously failed or withdrawn from that course and that they have met the Voluntary Withdrawal deadlines established by the university (see Deadline for Withdrawals in the Academic Schedule).

#### Electives and Business Options

Students may withdraw without academic penalty from an Elective or Option provided they do so before the final date for withdrawal (see Deadline for Withdrawals in the Academic Schedule). An Elective is any three or six credit hour course freely chosen by the student from courses taught in the degree programs of other faculties and schools, excluding the Asper School of Business.

#### Authorized Withdrawals

Authorized Withdrawals from courses after the registration revision period in each term may be granted on the basis of medical and compassionate grounds. A medical certificate signed by a physician or other appropriate professional must document medical grounds. Appeals based on compassionate reasons and circumstances must be supported by appropriate documentation. Students requesting Authorized Withdrawals should contact the Undergraduate Program Office.

### 3.17 Withdrawal from the Asper Co-op Program

Details for all the Asper Co-op Program's requirements are found in Section 4.3 of the UG Calendar

**Note: Specifically Section 4.3.6 Withdrawal from the Asper Co-op Program.**

### 3.18 Maximum Course Load/Minimum Course Load

Students are not permitted to take more than 18 credit hours during an academic term without permission from the Undergraduate Program Manager.

Students enrolled in the Asper Co-op Option must register in a minimum of 9 credit hours between co-op work terms, unless written permission is obtained from the co-op office to complete back to back work terms (see Section 4.3.5 Academic Term Requirements for the Asper Co-op Program).

While on a co-op work term, a Cooperative Option student is not normally permitted to take more than three hours of academic credit and may not take more than one course at a time (see Section 4.3.4 Work Term Requirements for the Asper Co-op Program).

### 3.19 Course Selection and Requirements

All students are limited to a maximum of six credit hours of IDM 4050 Readings in Management, IDM 4070 Management Research 1, and IDM 4080 Management Research 2. These courses are considered Business Options, rather than as part of any Major.

ACC 3080 Canadian Income Taxation, FIN 3270 Personal Financial Planning, and FIN 3440 Real Estate Investments are also considered general Options. They are not part of any major.

### 3.20 Eligibility Requirements for Awards

To be eligible for the Dean's Honours List a student must complete a minimum of 12 credit hours of courses at the University of Manitoba during one academic term and achieve a term GPA of at least 3.50. Students participating in approved International Exchange Programs may be eligible for the Dean's Honour List.

To be eligible for most awards, a student must complete a minimum of 24 credit hours of courses at the University of Manitoba during an academic year consisting of consecutive Fall and Winter terms. Co-operative Education students are eligible to apply for most awards; please check the Asper Undergraduate Program web site and/or with the Financial Aid and Awards Office for more information on the eligibility requirements for Co-operative Education students.

The degree "With Distinction" will be awarded to all students graduating with the Bachelor of Commerce (Honours) Degree who attain a degree GPA of 3.80 or better on the following criteria: students admitted to the Asper School of Business in 2011 and thereafter will have their degree GPA determined on the basis of all courses which form a part of the 120 credit hours required in the four-year degree program.

The University Gold Medal, Silver Medal and Bronze Medal in Business shall be awarded annually. The candidate for the one medal may be a graduate from either the Bachelor of Commerce (Honours) or the Bachelor of Commerce (Honours) [Co-operative Education Option]. Students graduating in October, February, and May are eligible for these awards in Business which shall be awarded annually at the spring convocation.

Students interested in the detailed terms of reference for the University Gold Medal in Business or who are interested in bursaries, awards and scholarships should contact the Undergraduate Program Office in Asper or the [University's Financial Aid and Awards Office](#).

### 3.21 Examination Regulations

The faculty adheres to the General University Examination Regulations Policy. For particular examination regulations, including deferred examinations, pertinent to the Faculty, students are referred to the pamphlet, Examination Regulations for the Asper School of Business, available from the Undergraduate Program Office. The faculty does not offer supplemental examinations. The faculty does not offer Challenge for Credit examinations.

### 3.22 Letter of Permission to Take Courses at another University for Transfer of Credit

Students wishing to complete courses at another institution for credit at the University of Manitoba will apply for written permission from the Registrar's Office prior to registering at the other institution. Students should apply for the Letter of Permission at least 4-6 weeks in advance.

To be eligible to take courses on a Letter of Permission, a Business student must:

- Be applying to take a course not currently offered by Asper (when applying to take a course transferred as an Asper course) in the term for which they are applying and
- Have completed a minimum of 24 credit hours in the Asper School of Business in addition to any transfer credits received upon admission. Students (including Asper students on an exchange program) will not be granted a Letter of Permission for capstone courses of the Bachelor of Commerce (Honours) Program or capstone courses in its majors (regardless if the course is or is not being offered in any term).

See the on-line University of Manitoba "Academic Calendar and Catalog", Faculty of Management/I.H. Asper School of Business, Program and Graduation Requirements, Program Requirements for Majors, for the

defined capstone courses of the Bachelor of Commerce (Honours) program and capstone courses in its majors.

### Faculty Council Amendments Approved February 1, 2013.

#### 3.23 Plagiarism, Cheating and Personation

The Asper School of Business has adopted the Senate definition and policy on plagiarism, cheating and personation as described in the chapter, General Regulations and Requirements. A student found guilty of participating in any of these activities is subject to serious academic penalty and possible prosecution under the Canadian Criminal Code.

#### 3.24 Student Appeals of Academic Regulations

Except as otherwise noted, student appeals should be directed to the Secretary of the Undergraduate Program Committee in the Undergraduate Program Office. The Committee considers appeals from Asper students who request special consideration in respect to rules and regulations governing their programs of study.

A certificate from an appropriate professional agency, such as the University Counselling Service or a licensed medical practitioner, should support appeals based on compassionate or medical problems.

#### 3.25 Security of Academic Records

The Asper School of Business has adopted supplementary criteria and procedures on access to student academic records to supplement the university policy on Disclosure and Security of Student Academic Records. Copies of these policies are available in the Undergraduate Program Office. (Currently under review.)

#### 3.26 Transcripts and Degree Parchments

##### Majors on Transcripts

After you graduate with your Bachelor of Commerce (Honours) degree, your formally declared major will appear on your University of Manitoba transcript. Your major will appear on your transcript once you have formally declared it on Aurora. Your major *will not* be listed on the Bachelor of Commerce (Honours) parchment.

If you complete the requirements of a second major within the credit hours required for the Bachelor of Commerce (Honours) degree, you may request that the second major also appear on your transcript after you graduate. See the Undergraduate Program Office in your graduating term to complete a request form.

##### Co-operative Education Option on Transcripts

If you have successfully completed the Co-operative Education Option, it will appear on your University of Manitoba transcript after you graduate with your Bachelor of Commerce (Honours) degree. The Co-operative Education Option will appear on your transcript once you have formally declared it on Aurora. Also, the Co-operative Education Option *will* appear on the Bachelor of Commerce (Honours) parchment.

## SECTION 4: Program and Graduation Requirements

The Bachelor of Commerce (Honours) program comprises 120 credit hours of course work. The Co-operative Education Option also comprises 120 credit hours of course work plus a minimum of three 4-month approved work terms. The degree encompasses the following components which will be listed in detail below: Track 1/Foundation courses, Program Core courses (common to all students), Major courses, Business Options and Elective courses. An Elective is any three or six credit hour course freely

chosen by the student from courses taught in the degree programs of other faculties and schools, excluding the Asper School of Business.

Each student must declare at least one major and present a minimum Degree Grade Point Average of 2.00.

Detailed information on the degree regulations is found in Section 3, in the Undergraduate Program Office (268 Drake) or on the undergraduate web site at: [umanitoba.ca/faculties/management/programs/undergraduate/](http://umanitoba.ca/faculties/management/programs/undergraduate/)

NOTE: Students admitted prior to September 2011 should refer to the 2010-2011 Undergraduate Calendar for a description of their program requirements.

### 4.1 Program Requirements for the Bachelor of Commerce (Honours) Program – Direct Entry, Track 1 and Track 2 (including students admitted from International Articulation Agreements)

All students admitted under these tracks (including International Students and International from 2+2 Joint Programs) will complete the Bachelor of Commerce Honours Program. The Bachelor of Commerce (Honours) degree is comprised of 120 credit hours and can be divided into the following components:

- The Track 1/Foundation Course Requirements (24 credit hours)
- The Core (54 credit hours)
- The Major (12 credit hours)
- Business Options (15 credit hours)
- Electives (12 credit hours)
- Business Option or Elective (3 credit hours)

These components comprise 120 credit hours; their associated limits and definitions are defined below.

**NOTE:** Students admitted to the Asper School of Business prior to the current calendar year should refer to the Academic Calendar for the year in which they were admitted for a description of their program requirements.

#### Track 1/Foundation Course Requirements

All students must complete the specified Track 1/Foundation course requirements. Direct Entry students from high school will complete the Track 1/Foundation courses in their first year. Track 1 students complete these requirements prior to their admission to the Asper School of Business. Track 2 students have completed 24 credit hours of university course work but are missing one or more of the specific Track 1/Foundation courses. Track 2 students should complete all outstanding Track 1/Foundation courses during their first year after admission to the Asper School of Business and must achieve a minimum grade of "C" in each outstanding Track 1/Foundation courses.

#### The Core

The CORE consists of 54 credit hours of specified mandatory courses from all four departments in this faculty as well as courses taught by the departments of Economics, Environment, Global Political Economy, Political Studies, Philosophy and Sociology. All students are required to complete the Core. The Core presents the essence of a business degree program. The majority of the Core courses are taken in Years 2 and 3 of the Bachelor of Commerce Honours Program.

#### The Major

Each student is required to complete the course requirements of one MAJOR. Each department and the Dean's Office have developed one or more Majors. Each Major consists of a 12 credit hours of course work specified by the department. Subject to demand and faculty resources, specialized Majors are available in Indigenous Business Studies, Accounting,

Actuarial Mathematics, Entrepreneurship/Small Business, Finance, Generalist, Human Resources Management/Industrial Relations, International Business, Logistics and Supply Chain Management, Management Information Systems, Management of Organizations, Marketing, and Operational Research/Operations Management. A list of the Departments and the Majors they oversee is outlined below.

Students will normally choose a Major at the beginning of the third year of the program, following completion of many of the Core courses, which introduce the areas. Students have an opportunity to transfer from one Major to another, but this opportunity decreases as the student progresses in the program.

**Business Options**

This component of the program consists of a required number of Business courses, meaning courses taught by the Faculty of Management/I.H. Asper School of Business, freely selected by the student. These courses are referred to as Business OPTIONS. Students are required to complete 15 credit hours of Options. All Business Options courses must be at the 2000 Level or higher, except for language courses used as part of the International Business Major. Some students may want to take Options which will supplement their Major, whereas other students may prefer to broaden their educational base by selecting Business courses in another or several other Majors. Students who want to supplement their Majors may take up to 12 hours of their Options from that area. Students may complete a second Major as part of their Options requirements. Such students should consult with staff in the Undergraduate Program Office.

**Electives (non-business courses)**

This component of the program is the NON-BUSINESS ELECTIVE requirement; within this document it will be referred to as an Elective. An Elective is any three or six credit hour course freely chosen by the student from courses taught in the degree programs of other faculties and schools, excluding the Asper School of Business. Students must complete 12 credit hours of Electives that meet the following criteria; a minimum of 6 credit hours of the Electives must be at the 2000 Level or higher plus a minimum of 6 credit hours of the Electives must comprise a freely chosen course that meets the Written English "W" requirement at any level.

**Business Option or Elective**

This component of the program consists of 3 credit hours which may be either a Business Option or Elective and it must be at the 2000 Level or higher.

**Course Requirements for Direct Entry, Track 1 and Track 2 Students**

The tables below list the Core courses that all Business students must complete. The courses are listed by year in a *suggested* sequence. Students normally complete the Core courses in the sequence shown.

To determine which additional courses to take each year (i.e., non-Core courses) students should consult the listing of course requirements for each year of their chosen Major.

Course Requirements for Direct Entry, Track 1 and Track 2 Students			
YEAR 1	YEAR 2	YEAR 3	YEAR 4
ECON 1010 and ECON 1020 <sup>1</sup>	ACC 1100	GMGT 3300	GMGT 4010
MATH 1520 or MATH 1500 or MATH 1230 <sup>1</sup>	GMGT 2010 ENTR 2030	3 credit hours from International Business Requirement <sup>8</sup>	
STAT 1000 or STAT 1150 <sup>1</sup>		3 credit hours from Ethics <sup>9</sup>	

6 credit hours of ANTH, HIST, MATH, PHIL, POLS, PSYC, SOC <sup>1,2</sup>			
3 credit hours of Written English "W" <sup>1,3</sup>			
GMGT 1010 <sup>4</sup>	18 credit hours from ACC 1110, FIN 2200, HRIR 2440, MIS 2000, MSCI 2150, SCM 2160 <sup>7</sup>	3 credit hours from Alternative Management Studies <sup>10</sup>	
9 credit hours from GMGT 2060, GMGT 2070, MKT 2210 <sup>4,5</sup>		12 credit hours of Major courses	
		15 credit hours of Business Options <sup>11</sup>	
3 credit hours of Electives <sup>1,6</sup>	3 credit hours of Electives <sup>12</sup>	12 credit hours of Electives <sup>12</sup>	
<b>30 Hours</b>	<b>30 Hours</b>	<b>30 Hours</b>	<b>30 Hours</b>

**NOTES:**

- 1) Foundation Courses: All students regardless of admit type must complete these Foundation courses and achieve a minimum grade of "C" in each. These 24 credit hours are the minimum admission requirements for Track 1 transfer students. (See applicant information bulletin for details).
- 2) 6 credit hours from: Anthropology, History, Mathematics, Philosophy, Political Studies, Psychology, or Sociology. Courses chosen for this requirement must be independent from courses taken to fulfill other degree requirements.
- 3) Students are required to complete a three credit hour course to satisfy the Written English "W" requirement, minimum grade of "C". The "W" course for the Foundation course requirement must be from a specific discipline (i.e., ARTS 1110, GMGT 1010 and GMGT 2010 are not considered to be from a specific discipline and therefore do not fulfil the Track 1/Foundation Written English course requirement). Courses that satisfy the Written English requirement are listed in the chapter, General Academic Regulations and Policy.
- 4) GMGT 1010, GMGT 2060, GMGT 2070 and MKT 2210 can be taken in Year 2 if entering with 24 credit hours.
- 5) It is an option to complete either 3 credit hours in Year 1 and 6 credit hours in Year 2 or all 9 credit hours in Year 2.
- 6) PHIL 1290 Critical Thinking is a preferred elective in Year 1.
- 7) 12 credits from the following core courses are to be completed in Year 2: ACC 1110, FIN 2200, HRIR 2440, MIS 2000, MSCI 2150, SCM 2160. Choose courses according to prerequisite requirements in your major. The remaining 6 credits are completed in the third year.
- 8) International Business Requirement: Choose one of the following: ACT 4250, INTB 2200, FIN 3450, HRIR 4520, MKT 3300, MKT 3240 (Cross-Cultural Brand Management topic only) or SCM 3230.
- 9) Ethics requirement: Complete one of the following: PHIL 2290, PHIL 2750, PHIL 2790, PHIL 2830, GMGT 3030 or GMGT 3581. If a 6 credit hour course is chosen, 3 credit hours will count as Electives.
- 10) Alternative Management Requirement: Complete one of the following: AGRI 3030 (Cooperatives in Business and Community topic only), ECON 2540, LABR 2300, NATV 3120, NATV 4220, NATV 4320, POLS 3250, POLS 3270, SOC 3838 or any one of the following Asper courses: GMGT 4210, LEAD 3030, or MKT 3246 (or the former MKT 3240 when titled Sustainability Marketing Topic only). Take careful note of any course prerequisites in your timetable planning. Course prerequisites will be waived for Asper students in the following courses: NATV 3120, NATV 4220 NATV 4320, and POLS 3270. Students must contact an Asper Program Advisor before registration for the prerequisite waiver. May be taken in Year 3 or Year 4.

11) 15 credit hours of Business Options which must be at the 2000 Level or higher, except for language courses used as part of the International Business Major. 12 credit hours of Business Options may be used to complete an optional second major.

12) The 15 credit hours of electives (taken over Years 2, 3 and 4) must include 3 credit hours at the 2000 level or higher, 3 credit hours of Written English "W", 6 credit hours at any level, and 3 credit hours of Business Options or electives at the 2000 level or higher.

### Course Key

All Core courses are taught by the Asper School of Business except the following:

SUBJECT		Cr. Hrs.
<b>Agriculture and Food Sciences</b>		
AGRI 3030	Modern Topics in Agriculture 1 (see note 10 above)	3
<b>Economics</b>		
ECON 2540	Political Economy 1: Production and Distribution	3
<b>Labour Studies</b>		
LABR 2300	Workers, Employer and the State	3
<b>Native Studies</b>		
NATV 3120	Exploring Indigenous Economic Perspectives	3
NATV 4220	Environment, Economy and Aboriginal Peoples	3
NATV 4320	Indigenous Economic Leadership	3
<b>Political Studies</b>		
POLS 3250	International Political Economy	3
POLS 3270	Theories of the Capitalist World Order	3
<b>Philosophy</b>		
PHIL 2290	Ethics and Society	6
PHIL 2750	Ethics and the Environment	3
PHIL 2790	Moral Philosophy	6
PHIL 2830	Business Ethics	3
<b>Sociology</b>		
SOC 3838	Ecology and Society	

### 4.2 Program Requirements for Majors

Students who intend to complete a second major should note that when a course is applicable to two different majors, that course may be used to satisfy only one set of major requirements.

**Capstone Courses for the Faculty and its Majors:** The capstone course for the Faculty is GMGT 4010. The capstone course for a major will be listed with the major details below (if none is listed then there is no course defined as a capstone course for that major).

NOTE: Equivalent courses offered through Université de Saint-Boniface may be used in lieu of the specified courses identified in the requirements for the majors. Université de Saint-Boniface courses end in the number "1" (e.g. ACC 1101).

### Indigenous Business Studies

The Major consists of NATV 3120 and NATV 4320 plus three credit hours from ACC 3040, ENTR 3100, ENTR 4100, FIN 3270, FIN 3470, HRIR 4410 or LEAD 2010 plus either three more credit hours from any course not taken from the list of ACC 3040, ENTR 3100, ENTR 4100, FIN 3270, FIN 3470, HRIR 4410 or LEAD 2010 or any 3 credit hours from NATV 2100, NATV 2110, NATV 2220, NATV 3100, NATV 3160, NATV 3310, NATV 3360, NATV 3370, NATV 4200 OR NATV 4220.

Effective September 2019, along with all existing course prerequisites, the mandatory core course ENTR 2030 (C) has been added to the following Entrepreneurship courses in this major: ENTR 3100 and ENTR 4100. The prerequisite to ENTR 2030 is GMGT 1010 (D).

NOTE: Students interest in the Indigenous Business Studies Major are encouraged to discuss course options with an Asper Program Advisor as not all courses are offered every year.

### Accounting

As of September 2018: The Major consists of: ACC 2010 (C), ACC 2020 (C), ACC 3040 (C) and ACC 4030 (C) and a requirement that students have a minimum of C+ in the prerequisite courses of ACC 1100 and ACC 1110.

The prerequisite for ACC 2010 is ACC 1100 (C+), for ACC 2020 is ACC 2010 (C) and FIN 2200 (C), for ACC 3040 is ACC 1110 (C+) and for ACC 4030 is ACC 2020 (C) and FIN 2200 (C).

### Actuarial Mathematics

The Major consists of any 12 hours from ACT 2020, ACT 2120, ACT 3130, ACT 3230, ACT 3340, ACT 3630, ACT 4010, ACT 4020, ACT 4030.

**NOTES:** i) ACT 4020 and ACT 4030 collectively satisfy the requirement for the Short-Term Actuarial Mathematics Exam by the Society of Actuaries. ii) Student declaring Actuarial Mathematics as their first major may take MATH 2720 as either a Business Option or non-Business Elective.

Students admitted to the Asper School of Business prior to the current academic year should refer to the Academic Calendar for the year in which they were admitted for the requirements for this major.

Students are required to attain a minimum grade of "C+" in all 12 credit hours of Actuarial courses that will contribute to the Major in order to graduate with an Actuarial Mathematics Major.

If STAT 1150 is completed, this satisfies the prerequisite for FIN 3410. Alternatively STAT 2000 is a recommended elective as a prerequisite for FIN 3410.

Prior to registration, all students interested in or enrolled in Actuarial Mathematics should consult the Director or an Undergraduate Program Advisor for program planning advice.

### Entrepreneurship/Small Business

The Major consists of: ENTR 3100, ENTR 4100, and FIN 3240, plus one of the following: ENTR 3102, ENTR 3104, or ENTR 3106.

Effective September 2019, along with all existing course prerequisites, ENTR 2030 (C) will be added to the following Entrepreneurship courses: ENTR 3100, ENTR 3102, ENTR 3104, ENTR 3106, and ENTR 4100. The prerequisite to ENTR 2030 is GMGT 1010 (D).

### Finance

The major consists of 12 credit hours from: FIN 3410\*, FIN 3480\*, and FIN 4400\*\* plus one of FIN 3400, FIN 3420, FIN 3450, FIN 3460\*, FIN 4240, FIN 4250, FIN 4260, or FIN 4270 and a requirement that students have a minimum of C+ in the prerequisite course of FIN 2200.

\*The prerequisites for FIN 3410, FIN 3460 and FIN 3480 are: [FIN 2200 (C+), MATH 1220 (C) or MATH 1300 (C) or MATH 1310 (C)], and [STAT 2000 (C) or STAT 2150 (C)].

\*\*The prerequisite for FIN 4400 is FIN 3480 (D).

Finance students are also required to take MATH 1300 (C) or MATH 1310 (C) and STAT 2000 (C) as part of the electives in their program since they are part of the prerequisite for the finance courses as stated above.

Capstone Course: FIN 4400\*\*.

### Generalist

The Major consists of one course from the required list of courses from four different Majors (i.e., Options that are not part of a Major's required course requirements are not eligible for the Generalist Major).

### Human Resources Management/Industrial Relations

The Major consists of: HRIR 3450 plus three of the following: HRIR 4410, HRIR 4420, HRIR 4480, HRIR 4520 **OR** HRIR 3450 plus two of the following: HRIR 4410, HRIR 4420, HRIR 4480, HRIR 4520, plus one of the following: HRIR 3430, LABR 3010, LABR 3060, LABR 3070, LABR 3130, and LABR 3140.

Students entering the second year of the four-year program are advised to take HRIR 2440 since it is a prerequisite to advanced courses in the area.

### International Business

The Major consists of: FIN 3450, INTB 2200, HRIR 4520, and MKT 3300.

One of the above four courses may be used in the core program; therefore the major will be comprised of the remaining three courses plus one course from the following list: MKT 3240 Special Topics in Marketing (Cross-Cultural Brand Management topic only), ACT 4250 Managing Insurance Operations in the International Business Environment or SCM 3230 Global Chain Management.

Students majoring in International Business are permitted to take 12 credit hours of a foreign language and/or courses with an international focus from an approved list and have these non-business courses count as Business Options. The list is available in the Undergraduate Program Office.

### Leadership and Organizations

The Major consists of 12 credit hours from: GMGT 3010, LEAD 3010, LEAD 3020, LEAD 3030, LEAD 3040, LEAD 4010 AND LEAD 4020.

Students entering the second year of the four year program are advised to take GMGT 2070 and GMGT 2060 as they are prerequisites to some of the advanced courses in the major.

Students entering second year are strongly recommended to take LEAD 2010 prior to taking LEAD 4020 and speak with an Asper Student Program Advisor for course planning advice.

### Logistics and Supply Chain Management

The Major consists of: SCM 2210, SCM 2230, SCM 3360 plus one of the following: SCM 2220, SCM 2240, SCM 2250, SCM 2260, SCM 3230, SCM 3250, SCM 3260, SCM 3270, SCM 3280, SCM 3630, SCM 4250 (not to be held with the former SCM 4240).

Recommended Business Options/Electives in this area include: MIS 3500, MIS 3510, INTB 2200, HRIR 3450, GMGT 3160, GMGT 4160, MSCI 3400, IDM 4050, IDM 4070, IDM 4080, MKT 3220, MKT 3340, GEOG 3800, ECON 2010, ECON 3010.

### Management Information Systems

The Major consists of MIS 3500, MIS 3510, MIS 3520, and MIS 4500 and a requirement that students have a minimum C+ in the prerequisite course of MIS 2000.

MIS 3510 (D) and COMP 1010 (C) are prerequisites for the required MIS 3500 course.

Options available in this area are ACC 3530 and MIS 4250.

Students interested in pursuing the Management Information Systems Major are encouraged to take MIS 2000 in the second year of the four-year program since it is a prerequisite to advanced courses in the area.

Students interested in pursuing the Management Information Systems Major are also encouraged, but not required, to complete COMP 1020.

Capstone Course: MIS 4500.

### Management of Organizations (Discontinued/Deleted)

NOTE: Students previously pursuing the major may have to consult with the Business Administration Department Head for information and feasibility on completing the major.

### Marketing

For students admitted in September 2019 and onward the Major consists of MKT 3220, MKT 3230, MKT 3390 and MKT 4210.

Students admitted to the Asper School of Business prior to September 2019 should refer to the Academic Calendar for the year in which they were admitted for the requirements for this major.

Students admitted to the Asper School of Business prior to September 2019 and following the old Marketing Major will be permitted to use MKT 3248 as one of the list of additional Marketing courses for their major.

In addition the the 12 credit hours required for the major, Marketing students may take up to an additional 12 credit hours of courses from the Marketing Department as business options (see section 4.1 Business Options).

Capstone Course: MKT 4210.

### Operational Research/Operations Management

The Major consists of any 12 hours from MSCI 3400, OPM 3650, OPM 3660, OPM 3670, MSCI 4220, OPM 4620.

Prior to registration, all students enrolled in Operational Research/Operations Management should consult the Department Head or a Undergraduate Program Advisor for program planning advice.

### 4.3 Program Requirements for the Asper Co-op Program

#### Contact and Program Information

Director: Kelly Mahoney  
Asper Co-op Office Room 254 Drake  
Telephone: 204-474-8521  
Email: [aspercoop@umanitoba.ca](mailto:aspercoop@umanitoba.ca)

The Asper School of Business offers a co-operative education option designed to complement and enrich the academic program with work experience. The co-op work terms provide students with practical experience, assistance in financing their education, and guidance for future career specialization.

All students must complete all 120 credit hours of the program including the Core, one of the Majors listed above in Section 4.2, as well as the Option and Elective course components. Students who intend to complete the Asper Co-op Program must also complete a minimum of three (3) 4-month co-op work terms. Students admitted from September 2011 and who successfully complete the minimum three co-op work terms can combine the work terms together to satisfy 3 credit hours of Business Options.

### 4.3.1 Entrance Requirements and Selection Criteria for the Asper Co-op Program

Those applying to the Asper Co-op Program must have completed or obtained:

All Bachelor of Commerce (Honours) admission requirements as specified in the University of Manitoba Undergraduate Calendar, the Asper School of Business.

A minimum degree grade point average of 3.0 upon assessment of the Asper School of Business Bachelor of Commerce (Honours) Program.

A minimum of 45 credit hours in the Bachelor of Commerce (Honours) Program, before commencing the student's first work term, and no fewer than 39 credit hours remaining in the Bachelor of Commerce (Honours) Program before the commencement of the first co-op work term.

In addition to the above requirements:

An interview with the Co-op Office will be required for admission to the Asper Co-op Program and

Applicants for the Asper Co-op Program will be evaluated based on a complete application. (see Section 4.3.2 Application Requirements for the Asper Co-op Program).

Note: Each year, 5 seats will be allotted to the Canadian Indigenous Ancestry Category. This category is intended for all First Nations, Métis, and Inuit applicants who have attained a minimum DGPA of 2.75 and met all other requirements for application to the Asper Co-op Program. Students wishing to be considered in the Canadian Indigenous Ancestry Category must indicate so in the appropriate section on the Asper Co-op Program Application Form. If students do not indicate this on the application form, they will not be eligible for consideration within this category. All applicants admitted under this category are required to register with the Indigenous Business Education Partners (IBEP) for a period of at least two academic terms following admission. If you are unsure whether to apply under this category, please consult with the Indigenous Business Education Partners (IBEP), 350 Drake Centre, phone (204) 474-7401. Proof of Indigenous Ancestry will be required to register for IBEP. Unfilled seats in this category will not be filled from outside the category and will not be transferred for use in future years.

If a student has been found to have deliberately falsified information in the application for the Asper Co-op Program, the matter will be immediately reported to the Associate Dean, Undergraduate Program as an allegation of academic dishonesty and handled according to the University Student Discipline Bylaw.

If, prior to acceptance into the Asper Co-op Program, it is found that the student has had an allegation of academic dishonesty upheld against them the student will no longer be eligible for entrance to the co-operative education option.

Students are advised that satisfying the minimum entrance requirements does not guarantee a place in the Asper Co-op Program. In the event that the demand for placements exceeds the number of places available or that appropriate levels of staffing of the co-op office are not available, a cap may be placed on the number of students accepted into the Asper Co-op Program. In such situations, the Asper School of Business reserves the right to determine and select the best qualified applicants.

### 4.3.2 Application Requirements for the Asper Co-op Program

In addition to the minimum requirements of the Asper School of Business, applicants for the Asper Co-op Program will be evaluated based on a complete application. This will include the following:

- A completed co-op application form and
- A completed Consent of Release of Personal Information form and
- A statement of purpose: The applicant must submit a statement outlining his/her motivations for participating in the Asper Co-op Program, and
- A group interview conducted by the Co-op Office.

Upon completion of the co-op application form and the group interview, each applicant's academic standing is verified by the Undergraduate Program Office.

Applications to the Asper Co-op Program must be received prior to the application deadline specified on the Co-op website ([www.umanitoba.ca/asper/co-op](http://www.umanitoba.ca/asper/co-op)), except by special permission from the Program Director. All completed applications must be submitted directly to the Co-operative Education Program Office.

### 4.3.3 Structure and Sequencing for the Asper Co-op Program

The Asper Co-op Program consists of both academic terms and co-op work terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of students and co-op employers and will be approved by the co-op office.

Students are expected to follow the academic/work term sequence defined by the Asper School of Business from admission through to graduation.

### 4.3.4 Work Term Requirements for the Asper Co-op Program

The Asper Co-op Program will include 12 months spent in co-op work terms with a co-op office approved employer. Normally, each co-op work term will be completed with one employer. Typically, the co-op work terms will be taken in three, 4-month-long co-op work terms; however, other schedules may also be approved on an as-needed basis.

A minimum grade of "C" is required in each co-op work term course. Students who fail to meet the minimum "C" grade in each of their co-op work term courses will be required to withdraw from the co-operative education program and have the following academic assessment noted on their transcript "Required to Withdraw from the Asper Co-op Program".

Asper Co-op students are required to submit at least three written co-op work term reports on their work term activities. These reports are due at times designated by the co-op office. The co-op office will provide students with instructions regarding the content and format requirements of the co-op work term reports.

Indications of unsatisfactory performance by a student on a work term will be thoroughly investigated by the co-op office. As a result of the investigation, if benefits from further professional training are questionable, the student may be required to withdraw from the Asper Co-op Program and the following academic assessment noted on their transcript "Required to Withdraw from the Asper Co-op Program". The student would then be assessed for eligibility to enter the regular B. Comm. (Honours) program (see Section 4.3.6 Withdrawal from the Asper Co-op Program for more information).

While on a co-op work term, a Cooperative Option student is not normally permitted to take more than three hours of academic credit. Students wishing to enroll in more than 3 credit hours while on a co-op work term must apply to the Co-op Faculty Advisor for permission to do so, including furnishing a letter from their co-op employer indicating that the employer approves of this exception; if approved a student may not take more than

six hours of academic credit while on a work term and may not take more than one course at a time.

### 4.3.5 Academic Term Requirements for the Asper Co-op Program

Coursework requirements of the Asper Co-op Program are equivalent to the coursework requirements of the B. Comm. (Hons.) program with exception that each Co-op Work Term (Course IDM 2982, IDM 3982, IDM 4982) will receive 1 credit hour for each co-op work term course passed. Students passing all three co-op work term courses will be permitted to use the three co-op work term courses together as equivalent to three (3) credit hours of a 2000+ level business option.

Students enrolled in the Asper Co-op Program are required to maintain satisfactory progress toward their B. Comm. (Honours) degree and be registered in a minimum of 9 credit hours between co-op work terms after admission to the Asper Co-op Program, unless back to back work terms have been approved by the co-op office.

While on a co-op work term, a Cooperative Option student is not normally permitted to take more than three hours of academic credit (see section 4.3.4 Work Term Requirements for the Asper Co-op Program); choosing to do so does not reduce the requirement of enrolment in a minimum of 9 credit hours in each academic term unless written permission is obtained from the co-op office.

Students whose degree G.P.A. falls below 2.0 in any given term are subject to withdrawal from the B. Comm. (Hons) program as per section 3.13 Required to Withdraw from the Bachelor of Commerce (Honours) Program in the Asper Undergraduate Calendar.

To continue in the Asper Co-op Option a student's performance will be evaluated following each academic term to ensure standards are met for continuance in the Asper Co-op Program. The student must meet all academic degree and individual course prerequisites for further study, departmental continuation and graduation requirements. Continuation is also contingent upon satisfactory performance on co-op work terms (see Section 4.3.4 Work Term Requirements for the Asper Co-op Program).

### 4.3.6 Withdrawal from the Asper Co-op Program

Students may be required to withdraw from the Asper Co-op Program for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Asper School of Business,
- Failure to maintain the minimum credit hour requirements of the academic term in the Asper Co-op Program,
- Failure to achieve a minimum grade of "C" on any work term,
- Unsatisfactory performance in the work place during a co-op work term (see section 4.3.4 Work Term Requirements for the Asper Co-op Program),
- Failure to observe the ethical standards of the Asper School and the University in place at the time; including being found guilty of academic dishonesty, or
- When, in the opinion of the Co-op Director and Co-op Faculty Advisor, the student does not exhibit sufficient qualities of ability, skills, aptitudes, attitudes, diligence or motivation to complete the Asper Co-op Program successfully.

Students who have been required to withdraw from the Asper Co-op Program for either academic assessment reasons or other reasons will have the following academic assessment placed on their transcript: "Required to Withdraw from the Asper Co-op Program".

A student who withdraws after participating in the recruitment period or after accepting a position with an employer for a co-op work term, without written approval of the Co-op Faculty Advisor or Co-op Director, will be withdrawn from the Asper Co-op Program and have the following

academic assessment noted on their transcript "Required to Withdraw from the Asper Co-op Program.

Students who wish to withdraw voluntarily from the Asper Co-op Program may do so by written letter to the Co-op Director at any time prior to participating in the recruitment period through applications and/or interviews and prior to accepting a position for a co-op work term. Students may be granted permission to revert back to the regular Bachelor of Commerce (Honours) program without being required to withdraw.

### 4.3.7 Appeals for Exceptions to Academic and Non-Academic Regulations and Appeals in the Asper Co-op Program

Appeals to academic regulations relating to the Asper Co-operative Education Option (i.e., those relating to the entrance, continuing, and graduation requirements) will be processed in a similar manner to any other request for exception to academic regulations. Normally, the student's written request, accompanied by any supporting documentation, e.g. written notice of medical or compassionate circumstances, and a written recommendation from the Co-op Faculty Advisor with or the Co-op Director, will be directed to the Undergraduate Program Manager for either immediate disposition or to forward on to the Undergraduate Program Committee for its consideration.

Appeals to non-academic program-related issues should be resolved by contact with the Co-op Director, or the Co-op Faculty Advisor. Appeals related to non-academic entrance or continuance issues are the responsibility of the Co-op Director. If these appeals are not resolved to the student's satisfaction, the student may appeal in writing to the Undergraduate Program Committee through the Undergraduate Program Manager.

### 4.3.8 Graduation from the Asper Co-op Program

B. Comm.(Hons.) Cooperative Option students who are required to revert or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

To graduate from the Asper Co-op Program, students are required to meet the Bachelor of Commerce (Honours) Program graduation requirements as outlined in the Asper School of Business section of the University of Manitoba Undergraduate Calendar, plus completion of twelve months of co-op work terms (or a minimum of 3 approved co-op work terms) with each Co-op work term course having been assigned a "C" grade or better. Students passing all three co-op work term courses will be permitted to use the three co-op work term courses together as equivalent to three (3) credit hours of a 2000+ level business option.

## 4.4 Program Requirements for the Asper School of Business/Red River College Articulation Agreement

### Overview

Under the Asper School of Business/Red River College Articulation Agreement, graduates of the Business Administration Diploma at Red River College may seek admission to the Bachelor of Commerce (Honours) program at the University of Manitoba. Applicants must have graduated from the Business Administration Diploma program at Red River College within the past 5 years to be eligible for admission. Students must have a minimum of 42 hours of transferable credits to be eligible for admission; a maximum of 54 credit hours from Red River College can be transferred.

Admission under the Asper School of Business / Red River College Articulation Agreement is limited to an annual quota and is competitive. Applicants satisfying the minimum entry requirements should realize that they are eligible for consideration, but that selection is academically competitive and within the discretion of the Asper School of Business.

### Specific Required Course Work at Red River College

To be considered for admission, applicants must have completed the following courses at Red River College with a minimum grade of "C":

ECON-1022 Microeconomics  
ECON-2000 Macroeconomics  
MATH-1020 Statistics  
COMP-1975 Business Computing

To be eligible for admission, applicants must achieve a minimum grade point average of 3.00 on their RRC Business Administration Diploma and that GPA must be equal to or greater than the competitive GPA of those admitted to the Asper School of Business under Track 1.

#### NOTES:

1. Red River College applicants are admitted solely based on their college coursework.
2. The maximum allowed external transfer, from all sources combined, is 60 credit hours. If the student has additional post-secondary work other than from Red River College, it will be assessed for potential transfer credit.
3. If Psychology (SOSC 3001) and/or Sociology (SOSC 3007) are taken at Red River College, the student must achieve a minimum grade of "C" in the course to receive transfer credit to the Bachelor of Commerce (Honours) program.
4. All applicants whose primary language is not English and who do not qualify for a waiver under the University of Manitoba's English language proficiency regulations will be required to demonstrate proficiency in English through one of the options listed at the University of Manitoba Admissions web site.
5. All program requirements are listed in Section 4.1 of the Calendar. The specific courses that must be completed after admission and transfer credit assignment will vary from student to student. Please see an Asper Program Advisor for individual advice in this regard.
6. Students admitted to the Asper School of Business prior to the current calendar year should refer to the Academic Calendar for the year in which they were admitted for a description of their program requirements.

#### 4.5 Program Requirements for the Asper School of Business /Assiniboine Community College Joint Program

Prior to admission to the Asper School of Business/Assiniboine Community College Joint Program students must complete the Business Administration Diploma (University Stream) at Assiniboine Community College with a minimum cumulative grade point average of 3.00. Students must have graduated from the Diploma program within the last 5 years to be eligible for admission. Admission is limited and competitive. Following admission to the Asper School of Business, students in the Joint Program will be required to complete 66 credit hours to earn the Bachelor of Commerce (Honours) degree. The 66 credit hours can be divided into the following components: the Core, the Major, Business Options, and Elective courses. These components and their associated limits are defined below.

NOTE: The Joint Program is currently under review; transfer credit details are subject to change. Please contact the Asper Undergraduate Program Office, Room 268 Drake, for information and details on the admission requirements and transfer credit processing.

NOTE: Students admitted to the Asper School of Business prior to the current calendar year should refer to the Calendar for the year in which they were admitted for a description of their program requirements.

#### The Core

The CORE comprises 39 credit hours of the 66 required in the Joint Program. The Foundation courses (12 credit hours) should be taken in the first year in the Asper School. Students must achieve a minimum "C" grade in each Track 1/Foundation course. The Program Core courses (27 credit hours) may be taken at any point in the program, but the course GMGT 4010 must be taken in the student's final term. Core courses are listed below in Course Requirements for ACC Joint Program Students.

#### The Major

Each student must complete the course requirements of one MAJOR. Each Major will consist of a 12 credit hour unit of course work. Information on completing a Second Major is listed in Section 3.12. The Majors are listed Section 4.2.

Students may begin taking courses for their major as soon as prerequisites are met. Students have an opportunity to transfer from one Major to another, but this opportunity decreases as the student progresses in the program.

Note: Students in the Asper School of Business/Assiniboine Community College Joint Program who want to major in Finance will be required to take FIN 2200 as one of their Business options. Likewise, students who want to major in Marketing must take MKT 2210 as one of their Business Options.

#### Business Options

This component of the program consists of a required number of Business courses freely selected by the student. These courses are referred to as Business OPTIONS. Students must take 12 credit hours of Business Options. All Business Options courses must be at the 2000 Level or higher, except for language courses used as part of the International Business Major. Some students may want to take Business Options which will supplement their Major, whereas other students may prefer to broaden their educational base by selecting Business courses in other Majors. Students who want to supplement their Majors may take up to 9 hours of their Business Options from that area. Students may complete a second Major as part of their Business Options requirements. Such students should consult with staff in the Undergraduate Program Office.

#### Electives

This component of the program is the ELECTIVE requirement. An Elective is any three or six credit hour course freely chosen by the student from courses taught in the degree programs of other faculties and schools, excluding the Asper School of Business. Students must 3 credit hours of Electives that is a freely chosen course that meets the Written English "W" requirement at any level.

#### Course Requirements for ACC Joint Program Students

The course requirements for the Asper School of Business/Assiniboine Community College Joint Program are as follows.

Students should register for the Track 1/Foundation courses in their first year at the University of Manitoba and must achieve a minimum "C" grade in each course.

#### Foundation Courses Cr. Hrs.

- 6 credit hours from: ANTH, HIST, MATH, PHIL, POLS, PSYC OR SOC (See Note 1) (6 credit hours)
- MATH 1520 or MATH 1500 or MATH 1230 (see Note 2) (3 credit hours)
- Written English Course (see Note 3) (3 credit hours)

#### Program Core Requirements

- ENTR 2030 (3 credit hours)
- MIS 2000 (3 credit hours)

- GMGT 1010 (3 credit hours)
- MSCI 2150 (3 credit hours)
- SCM 2160 (3 credit hours)
- GMGT 4010 (must be taken in final term) (3 credit hours)
- Ethics (see Note 4) (3 credit hours)
- Alternative Management Studies (see Note 5) (3 credit hours)
- International Business (see Note 6) (3 credit hours)

#### Overall Program Requirements Cr. Hrs.

- Track 1/Foundation Courses (12 credit hours)
- Program Core Courses (27 credit hours)
- Major Courses (12 credit hours)
- Business Options (12 credit hours)
- Electives (3 credit hours)

#### Total credit hours 66 credit hours

#### NOTES:

1) 6 credit hours from: Anthropology, History, Mathematics, Philosophy, Political Studies, Psychology, or Sociology. Courses chosen for this requirement must be independent from courses taken to fulfill other degree requirements.

2) The prerequisite for MATH 1520 or MATH 1500 is a 60 per cent in Grade 12 Pre-Calculus Mathematics 40S or equivalent or a grade of "C" in the MSKL 0100 Mathematical Skills course taught by Extended Education; the prerequisite for MATH 1230 is a 70% in Pre-calculus Mathematics or the former Mathematics 40S (300) (70%) or the MSKL 0100 Mathematical Skills offered by Extended Education (B). Students who have been admitted into the Joint Program and who successfully complete the Mathematical Skills course may be entitled to an additional three credit hour Elective from their Business Administration diploma.

3) Students are required to select a three credit hour course to satisfy the Written English "W" requirement. The "W" course for the Foundation course requirement must be from a specific discipline (ARTS 1110, GMGT 1010 and GMGT 2010 are not considered to be from a specific discipline and therefore do not fulfil the Track 1/ Foundation Written English course requirement). Courses that satisfy the Written English requirement are listed in the chapter, General Academic Regulations and Policy.

4) All Business students must complete three credit hours of Ethics. Students may fulfil this requirement by completing one of the following courses: PHIL 2290 (6), PHIL 2750 (3), PHIL 2790 (6), PHIL 2830 (3), GMGT 3030 (3) or GMGT 3581 (3). If a 6 credit hour course is chosen, 3 credit hours will count toward the core Ethics requirement and 3 credit hours will count as Electives.

5) Alternative Management Requirement: One of the following must be chosen: AGRI 3030 (Cooperatives in Business and Community topic only), ECON 2540, LABR 2300, NATV 3120, NATV 4220, NATV 4320, POLS 3250, POLS 3270, SOC 3838 or any one of the following Asper courses: GMGT 4210, LEAD 3030 or MKT 3246 (or the former MKT 3240 when titled Sustainability Marketing topic only). Take careful note of any course prerequisites in your timetable planning. Course prerequisites will be waived for Asper students in the following courses: NATV 3120, NATV 4220, NATV 4320, and POLS 3270; students must contact an Asper Program Advisor before registration for the prerequisite waiver. May be taken in Year 3 or Year 4.

6) International Business Requirement: One of the following courses must be chosen: ACT 4250, INTB 2200, FIN 3450, HRIR 4520, MKT 3300, MKT 3240 (Cross-Cultural Brand Management topic only) or SCM 3230.

#### 4.6 Program Requirements for the Asper School of Business /University College of the North Joint Program

Prior to admission to the Asper School of Business/University College of the North Joint Program students must complete the Business Administration

Diploma (University Stream) at University College of the North with a minimum cumulative grade point average of 3.00. Students must have graduated from the Diploma program within the last 5 years to be eligible for admission. Admission is limited and competitive. Following admission to the Asper School of Business, students in the Joint Program will be required to complete 81 credit hours to earn the Bachelor of Commerce (Honours) degree. The 81 credit hours can be divided into the following components: the Core, the Major, Business Options, and Electives. These components and their associated limits are defined below.

**NOTE:** The Joint Program is currently under review; transfer credit details are subject to change. Please contact the Asper Undergraduate Program Office, Room 268 Drake, for information and details on the admission requirements and transfer credit processing.

**NOTE:** Students admitted to the Asper School of Business prior to the current calendar year should refer to the Academic Calendar for the year in which they were admitted for a description of their program requirements.

#### The Core

The CORE comprises 45 credit hours of the 81 required in the Joint Program. The Foundation courses (18 credit hours) should be taken in the first year in the Asper School. Students must achieve a minimum "C" grade in each Foundation course. The Program Core courses (27 credit hours) may be taken at any point in the program, but the course GMGT 4010 must be taken in the student's final term. Core courses are listed below in Course Requirements for UCN Joint Program Students

#### The Major

Each student must complete the course requirements of one MAJOR. Each Major will consist of a 12 credit hour unit of course work. Information on completing a Second Major is listed in Section 3.12. The Majors are listed in Section 4.2.

Students may begin taking courses for their major as soon as prerequisites are met. Students have an opportunity to transfer from one Major to another, but this opportunity decreases as the student progresses in the program.

**Note:** Students in the Asper School of Business/University College of the North Joint Program who want to major in Finance will be required to take FIN 2200 as one of their Business Options. Likewise, students who want to major in Marketing must take MKT 2210 as one of their Business Options.

#### Business Options

This component of the program consists of a required number of Business courses freely selected by the student. These courses are referred to as Business OPTIONS. Students must take 15 credit hours of Business Options. All Business Options courses must be at the 2000 Level or higher, except for language courses used as part of the International Business Major. Some students may want to take Business Options which will supplement their Major, whereas other students may prefer to broaden their educational base by selecting Business courses in other Majors. Students who want to supplement their Major may take up to 12 hours of their Business Options from that area. Students may complete a second Major as part of their Business Options requirements. Such students should consult with staff in the Undergraduate Program Office.

#### Electives

This component of the program is the ELECTIVE requirement. An Elective is any three or six credit hour course freely chosen by the student from courses taught in the degree programs of other faculties and schools, excluding the Asper School of Business. Students must take 9 credit hours of Electives that meet the following criteria; 3 credit hours must be at the

2000 Level or higher, 3 credit hours must be a freely chosen course that meets the Written English "W" requirement at any level plus a 3 credit hour elective at any level.

### Business Option or Elective

This component of the program consists of 3 credit hours which may be either a Business Option or Elective and it must be at the 2000 Level or higher.

### Course Requirements for UCN Joint Program Students

The course requirements for the Asper School of Business/University College of the North Joint Program are as follows.

Students should register for the Foundation courses in their first year at the University of Manitoba and must achieve a minimum "C" grade in each course.

### Foundation Courses

- 6 credit hours from: ANTH, HIST, MATH, PHIL, POLS, PSYC OR SOC (See Note 1) (6 credit hours)
- MATH 1520 or MATH 1500 or MATH 1230 (see Note 2) (3 credit hours)
- Written English Course (see Note 3) (3 credit hours)
- STAT 1000 or STAT 1150 (see Note 7) (3 credit hours)
- Elective (3 credit hours)

### Program Core Requirements

- ENTR 2030 (3 credit hours)
- MIS 2000 (3 credit hours)
- GMGT 1010 (3 credit hours)
- MSCI 2150 (3 credit hours)
- SCM 2160 (3 credit hours)
- GMGT 4010 (must be taken in final term) (3 credit hours)
- Ethics (see note 4) (3 credit hours)
- Alternative Management Studies (see Note 5) (3 credit hours)
- International Business (see Note 6) (3 credit hours)

### Total Credit Hours (39 credit hours)

### Overall Program Requirements Cr. Hrs.

- Foundation Courses (18 credit hours)
- Program Core Courses (27 credit hours)
- Major Courses (12 credit hours)
- Business Options (15 credit hours)
- Electives (6 credit hours)
- Business Options or Elective (3 credit hours)

### Total Credit Hours 81

### NOTES:

1) 6 credit hours from: Anthropology, History, Mathematics, Philosophy, Political Studies, Psychology, or Sociology. Courses chosen for this requirement must be independent from courses taken to fulfill other degree requirements.

2) The prerequisite for MATH 1520 or MATH 1500 is a 60 per cent in Grade 12 Pre-Calculus Mathematics 40S or equivalent or a grade of "C" in the MSKL 0100 Mathematical Skills course taught by Extended Education; the prerequisite for MATH 1230 is a 70% in Pre-calculus Mathematics or the former Mathematics 40S (300) (70%) or the MSKL 0100 Mathematical Skills offered by Extended Education (B).

3) Students are required to select a three credit hour course to satisfy the Written English "W" requirement. The "W" course for the Foundation course requirement must be from a specific discipline (ARTS 1110, GMGT 1010 and GMGT 2010 are not considered to be from a specific discipline and

therefore do not fulfil the Track 1/ Foundation Written English course requirement). Courses that satisfy the Written English requirement are listed in the chapter, General Academic Regulations and Policy.

4) All Business students must complete three credit hours of Ethics. Students may fulfil this requirement by completing one of the following courses: PHIL 2290 (6), PHIL 2750 (3), PHIL 2790 (6), PHIL 2830 (3), GMGT 3030 or GMGT 3581 (3). If a 6 credit hour course is chosen, 3 credit hours will count toward the core Ethics requirement and 3 credit hours will count as Electives.

5) Alternative Management Requirement: One of the following must be chosen: AGRI 3030 (Cooperatives in Business and Community topic only), ECON 2540, LABR 2300, NATV 3120, NATV 4220, NATV 4320, POLS 3250, POLS 3270, SOC 3838 or any one of the following Asper courses: GMGT 4210, LEAD 3030 or MKT 3246 (or the former MKT 3240 when titled Sustainability Marketing topic only). Take careful note of any course prerequisites in your timetable planning. Course prerequisites will be waived for Asper students in the following courses: NATV 3120, NATV 4220, NATV 4320, and POLS 3270; students must contact an Asper Program Advisor before registration for the prerequisite waiver. May be taken in Year 3 or Year 4.

6) International Business Requirement: One of the following courses must be chosen: ACT 4250, INTB 2200, FIN 3450, HRIR 4520, MKT 3300, MKT 3240 (Cross-Cultural Brand Management topic only) or SCM 3230.

7) The prerequisite for STAT 1150 is a minimum of 70% in Pre-calculus Mathematics 40S or a grade of B or better in MSKL 0100 Mathematical Skills offered by Extended Education or equivalent.

### 4.7 Program Requirements for the Asper School of Business /École technique et professionnelle joint program

Prior to admission to the Asper School of Business/École technique et professionnelle Joint Program students must complete the Business Administration Diploma (University Stream) at École technique et professionnelle with a minimum cumulative grade point average of 3.00. Students must have graduated from the Diploma program within the last 5 years to be eligible for admission. Admission is limited and competitive. Following admission to the Asper School of Business, students in the Joint Program will be required to complete 66 credit hours to earn the Bachelor of Commerce (Honours) degree. The 66 credit hours can be divided into the following components: the Core, the Major, Business Options, and Electives. These components and their associated limits are defined below.

**NOTE:** The Joint Program is currently under review; transfer credit details are subject to change. Please contact the Asper Undergraduate Program Office, Room 268 Drake, for information and details on the admission requirements and transfer credit processing.

**NOTE:** Students admitted to the Asper School of Business prior to the current calendar year should refer to the Academic Calendar for a description of their program requirements.

### The Core

The CORE comprises 39 credit hours of the 66 required in the Joint Program. The Foundation courses (12 credit hours) should be taken in the first year in the Asper School. Students must achieve a minimum "C" grade in each Foundation course. The Program Core courses (27 credit hours) may be taken at any point in the program, but the course GMGT 4010 must be taken in the student's final term. Core courses are listed below in Course Requirements for ETP Joint Program Students.

### The Major

Each student must complete the course requirements of one MAJOR. Each Major will consist of a 12 credit hour unit of course work. Information on

completing a Second Major is listed in Section 3.12. The Majors are listed in Section 4.2.

Students may begin taking courses for their major as soon as prerequisites are met. Students have an opportunity to transfer from one Major to another, but this opportunity decreases as the student progresses in the program.

Note: Students in the Asper School of Business/École technique et professionnelle joint program who want to major in Finance will be required to take FIN 2200 as one of their Business Options.

### Business Options

This component of the program consists of a required number of Business courses freely selected by the student. These courses are referred to as Business OPTIONS. Students must take at least nine and not more than 9 hours of Business Options. All Business Options courses must be at the 2000 Level or higher, except for language courses used as part of the International Business Major. Some students may want to take Business Options which will supplement their Major, whereas other students may prefer to broaden their educational base by selecting Business courses in other Majors. Students who want to supplement their Majors may take up to 9 hours of their Business Options from that area. Students may complete a second Major as part of their Business Options requirements. Such students should consult with staff in the Undergraduate Program Office.

### Electives

This component of the program is the ELECTIVE requirement. An Elective is any three or six credit hour course freely chosen by the student from courses taught in the degree programs of other faculties and schools, excluding the Asper School of Business. Students must take at least 3 credit hours of Electives that meet the following criteria; 3 credit hours must be a freely chosen course that meets the Written English "W" requirement at any level.

### Business Option or Elective

This component of the program consists of 3 credit hours which may be either a Business Option or Elective but it must be at the 2000 Level or higher.

### Course Requirements for ETP Joint Program Students

The course requirements for the Asper School of Business/École technique et professionnelle Joint Program are as follows.

Students should register for the Foundation courses in their first year at the University of Manitoba and must achieve a minimum "C" grade in each course.

### Foundation Requirements Cr. Hrs.

- 6 credit hours from: ANTH, HIST, MATH, PHIL, POLS, PSYC OR SOC (See Note 1)
- MATH 1520 or MATH 1500 or MATH 1230 (see Note 2) (3 credit hours)
- Written English Course/Elective (see Note 3) (3 credit hours)

### Program Core Requirements

- ENTR 2030 (3 credit hours)
- MIS 2000 (3 credit hours)
- GMGT 1010 (3 credit hours)
- MSCI 2150 (3 credit hours)
- SCM 2160 (3 credit hours)
- GMGT 4010 (must be taken in final term) (3 credit hours)
- Ethics (see note 4) (3 credit hours)
- Alternative Management Studies (see Note 5) (3 credit hours)

- International Business (see Note 6) (3 credit hours)

### Total Credit Hours 39

### Overall Program Requirements Cr. Hrs.

- Foundation Courses (12 credit hours)
- Program Core Courses (27 credit hours)
- Major Courses (12 credit hours)
- Business Options (2000+ level, except for language courses used as part of the International Business Major.) (9 credit hours)
- Electives (2000+ level & a "W" elective course any level) (3 credit hours)
- Business Option or Elective (3 credit hours)

### Total Credit Hours (66 credit hours)

### NOTES:

1) 6 credit hours from: Anthropology, History, Mathematics, Philosophy, Political Studies, Psychology, or Sociology. Courses chosen for this requirement must be independent from courses taken to fulfill other degree requirements.

2) The prerequisite for MATH 1520 or MATH 1500 is a 60 per cent in Grade 12 Pre-Calculus Mathematics 40S or equivalent or a grade of "C" in the MSKL 0100 Mathematical Skills course taught by Extended Education; the prerequisite for MATH 1230 is a 70% in Pre-calculus Mathematics or the former Mathematics 40S (300) (70%) or the MSKL 0100 Mathematical Skills offered by Extended Education (B). Students who have been admitted into the Asper School of Business/École technique et professionnelle Joint Program and who successfully complete the Mathematical Skills course may be entitled to an additional three credit hour Elective from their Business Administration diploma.

3) Students are required to select a three credit hour course to satisfy the Written English "W" requirement. The "W" course for the Foundation course requirement must be from a specific discipline (ARTS 1110, GMGT 1010 and GMGT 2010 are not considered to be from a specific discipline and therefore do not fulfil the Track 1/ Foundation Written English course requirement). Courses that satisfy the Written English requirement are listed in the chapter, General Academic Regulations and Policy.

4) All Business students must complete three credit hours of Ethics. Students may fulfil this requirement by completing one of the following courses: PHIL 2290 (6), PHIL 2750 (3), PHIL 2790 (6), PHIL 2830 (3), GMGT 3030 or GMGT 3581 (3). If a 6 credit hour course is chosen, 3 credit hours will count toward the core Ethics requirement and 3 credit hours will count as Electives.

5) Alternative Management Requirement: One of the following must be chosen: AGRI 3030 (Cooperatives in Business and Community topic only), ECON 2540, LABR 2300, NATV 3120, NATV 4220, NATV 4320, POLS 3250, POLS 3270, SOC 3838 or any one of the following Asper courses: GMGT 4210, LEAD 3030 or MKT 3246 (or the former MKT 3240 when titled Sustainability Marketing topic only). Take careful note of any course prerequisites in your timetable planning. Course prerequisites will be waived for Asper students in the following courses: NATV 3120, NATV 4220, NATV 4320, and POLS 3270; students must contact an Asper Program Advisor before registration for the prerequisite waiver. May be taken in Year 3 or Year 4.

6) International Business Requirement: One of the following courses must be chosen: ACT 4250, INTB 2200, FIN 3450, HRIR 4520, MKT 3300, MKT 3240 (Cross-Cultural Brand Management topic only) or SCM 3230.

### 4.8 Program Requirements for the Asper International Exchange Program

## Contact and Program Information

Coordinator: Amber Pohl  
 Room: 268 Drake  
 Telephone: 204-474-6752  
 Email: [amber.pohl@umanitoba.ca](mailto:amber.pohl@umanitoba.ca)

The Asper School of Business offers an International Exchange Program, designed to complement and enrich the academic program with international experience. All students must complete all 120 credit hours of the program including the Core, one of the Majors listed above in Section 4.2, as well as the Option and Elective course components.

### 4.8.1 Entrance Requirements

At the time of assessment, those applying to the Asper International Exchange program must possess:

- All Bachelor of Commerce (Honours) admission requirements as specified in the University of Manitoba Undergraduate Calendar, the Asper School of Business
- A minimum degree grade point average of 3.0 upon assessment of application
- Completion of a minimum of 12 University of Manitoba credit hours at the time of application
- Direct entry students must complete a minimum of 24 credit hours at the University of Manitoba at the time of commencement of the international exchange term
- Transfer students must have completed a minimum of 12 credit hours at Asper at the commencement of their international exchange term
- Students may participate in an exchange in their final term before graduation

In addition to meeting the above requirements, the following are required of students:

- Completed application form
- Submission of 1-3 page Statement of Intent
- Submission of current resume
- Submission of three recommendation forms (one academic reference, one professional/volunteer reference, one academic OR professional/volunteer reference)
- A meeting conducted by an interview committee or Director, International Programs (or designate) to assess academic background and suitability, based on academic performance, maturity level, motivation, and personal characteristics. Where deemed necessary, a second meeting with the Director, International Programs (or designate) may be required

Upon completion of the application process, each applicant's academic standing is verified by the Undergraduate Program Office.

Application Deadline: Applications to the Asper International Exchange Program must be received prior to the application deadlines specified on the Exchange website ([www.umanitoba.ca/asper/exchange](http://www.umanitoba.ca/asper/exchange)), except by special permission.

Students are advised that satisfying the minimum entrance requirements does not guarantee acceptance into the program. In the event that demand for space exceeds the number of spaces available, a cap may be placed on the number of students accepted. In such situations, the Asper School of Business reserves the right to determine and select the best qualified applicants.

Students are required to have an academic record free of any allegation of academic dishonesty where the allegation has been upheld. If it is found that during the assessment of the entrance requirements a student has had an allegation of academic dishonesty upheld against them, or that they have deliberately provided false application information, the student will no longer be eligible for entrance into the Asper International Exchange Program.

### 4.8.2 Program Structure

The program consists of academic terms in the fall, winter and summer. Full academic terms in fall or winter will be a minimum of four months in duration depending on host institution scheduling. Short term summer programs will vary in length depending upon host institution scheduling.

### 4.8.3 Academic Term Requirements

Students participating in a regular academic exchange term (defined as Fall or Winter by the University of Manitoba) are required to be registered in a minimum of 12 credit hours during each term. Students participating in an international summer school are required to be registered in a minimum of 3 credit hours.

Senate approved regulations (approved May 18, 1994) allow an Asper student to receive a waiver of the University's residency requirement. The University allows 60 of the 120 credit hours of the degree program to be external. Asper exchange students can be permitted a waiver of this to go on an international exchange, assessed internally by the Asper Associate Undergraduate Dean/Director, International Programs.

All students going on international exchange may be considered for a waiver of the university residency requirement only if they can complete the degree and ensure at least 48 credit hours of coursework are courses taken at the University of Manitoba.

Current Faculty Council guidelines (approved December 11, 2009) for students admitted under domestic or international joint articulation agreements to participate in an Exchange must still be adhered to. Domestic or international joint articulation agreement students will be permitted to apply for a maximum 1-term exchange with a maximum of 15 credit hours. Refer to appendix regarding students admitted under the Ningbo 2+2 articulation agreement up to and including the final student intake in September 2019.

Dual degree students may need permission from their home institution to participate if approved by Asper.

### 4.8.4 Withdrawal

Students may be required to withdraw from the Asper International Exchange Program, prior to departure, for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Asper School of Business, or
- Failure to successfully complete a minimum of 24 credit hours upon commencement of their exchange term, or
- Found to have engaged in academic and/or non-academic misconduct, or
- When, in the opinion of the Director, International Programs (or designate), the student does not exhibit sufficient qualities of

ability, skills, aptitudes, attitudes, diligence or motivation to complete the Asper International Exchange Program successfully

Students who wish to withdraw from the Asper International Exchange Program prior to departure voluntarily may do so by written letter to the Asper Coordinator of Student Exchanges and International Cooperation/Student Advisor at any time prior to the start of their exchange term.

#### 4.8.5 Appeals of Decisions to Academic and Non-Academic Matters

Appeals of academic decisions relating to the Asper International Exchange Program (i.e. those relating to the entrance, continuing and graduation requirements) will be processed in a similar manner to any other appeals for decisions of academic regulations. Normally, the student's written request, accompanied by any supporting medical and/or compassionate documentation and a written recommendation from the Coordinator of Student Exchanges and International Cooperation/Student Advisor will be directed to the Undergraduate Program Manager for either immediate disposition or to send to the Undergraduate Program Committee for its consideration.

Appeals to non-academic program related issues should be resolved by contact with the Asper Coordinator of Student Exchanges and International Cooperation/Student Advisor or Director, International Programs. Appeals related to non-academic entrance are the responsibility of the Director, International Programs. If these appeals are not resolved to the student's satisfaction, the student may appeal in writing to the Undergraduate Program Committee through the Undergraduate Program Manager.

#### Appendix A

In addition to meeting all other requirements, approval from the Asper Associate Undergraduate Dean/Director, International Programs and from the Dean or designate at Ningbo University is required for Ningbo 2+2 students admitted up to and including the final intake in September 2019.

### SECTION 5: Course Descriptions

#### SECTION 5.1 Accounting and Finance-Accounting Course Descriptions (ACC)

**ACC 1100 Introductory Financial Accounting 3 Cr. Hrs.**  
(Lab required) Examination of accounting postulates underlying the preparation and presentation of financial statements.

**ACC 1110 Introductory Managerial Accounting 3 Cr. Hrs.**  
(Lab required). Role of accounting in creation and application of business information used by decision-makers in the management of enterprise. Prerequisite: ACC 1100 (009.110) (D). Prerequisite or Concurrent Requirement: ECON 1010 (D) and ECON 1020 (D) or the former ECON 1200 (D).

**ACC 2010 Intermediate Accounting – Assets 3 Cr. Hrs.**  
Accounting policies and practices dealing with calculation and measurement of assets and related reporting problems. Prerequisite: ACC 1100 (C+).

**ACC 2020 Intermediate Accounting – Equities 3 Cr. Hrs.**  
Consideration of current accounting relating to equities with attention to the accounting treatment of current and long-term liabilities, income tax allocation, share capital, and surplus. May not be held with FIN 3250 or ACC 2021. Prerequisites: (ACC 2010 (C) or ACC 2011 (C)) and (FIN 2200 (C) or FIN 2201 (C)).

**ACC 3030 Advanced Accounting 3 Cr. Hrs.**  
Topics include: partnerships, consolidations, mergers, reporting on conglomerates, and fund accounting. Not offered every year. May not be held with ACC 3031. Prerequisites: (ACC 2010 (C) or ACC 2011 (C)) and (ACC 2020 (C) or ACC 2021 (C)).

**ACC 3040 Cost Accounting 3 Cr. Hrs.**  
Study of accounting concepts and functions as they relate to product costing, planning, control, and decision-making. Prerequisite: ACC 1110 (C+).

**ACC 3080 Canadian Income Taxation 3 Cr. Hrs.**  
(Lab required). Structure and concepts of the Canadian income tax system, calculation of income and tax thereon for individuals and corporations, introduction to planning principles. May not be held with ACC 3050 or ACC 3051. Prerequisite: ACC 1100 (C+).

**ACC 3530 Accounting Information Systems 3 Cr. Hrs.**  
Role of accounting systems in total management information systems; design and installation of accounting systems. Prerequisites: ACC 1110 or ACC 1111 (D) and MIS 2000 or MIS 2001 (D).

**ACC 4010 Auditing 3 Cr. Hrs.**  
Study of philosophy and concepts of auditing, legal and ethical responsibilities of the auditor, basic techniques of auditing including statistical sampling and flowcharting, and the operational audit. May not be held with ACC 4011. Prerequisites: (ACC 2010 (C) or ACC 2011 (C)) and (ACC 2020 (C) or ACC 2021 (C)).

**ACC 4030 Accounting Theory 3 Cr. Hrs.**  
Examination of principles and postulates of accounting theory. Coverage of selected topics will vary from year to year depending on interests of course participants. May not be held with ACC 4031. Prerequisites: (ACC 2020 or ACC 2021 (C)) and (FIN 2200 or FIN 2201 (C)).

**ACC 4040 Advanced Managerial Accounting 3 Cr. Hrs.**  
A critical examination of managerial accounting techniques and the controllership function. Prerequisite: ACC 3040 (D).

#### SECTION 5.2 Accounting and Finance-Finance Course Descriptions (FIN)

**FIN 2200 Corporation Finance 3 Cr. Hrs.**  
(Lab required) An introduction to corporate finance regarding the allocation and acquisition of funds. Topics include: discounted cash flows, capital budgeting, financial instruments, cost of capital, risk-return trade-offs, market efficiency, capital structure and the use of derivatives. May not be held with FIN 2201. Prerequisites: [A grade of "D" or better in ACC 1100 or ACC 1101] and [a grade of "C" or better in MATH 1230 or MATH 1500 or MATH 1501 or MATH 1520] and [a grade of "C" or better in STAT 1000 or STAT 1001 or STAT 1150] and [a grade of "C" or better in both ECON 1010 (or ECON 1011) and ECON 1020 (or ECON 1021) or the former ECON 1200 (or the former ECON 1201)].

**FIN 3240 Entrepreneurial Finance 3 Cr. Hrs.**  
Study of entrepreneurial finance, addressing both investment and financing decisions of new ventures, covering both in theory and in practice. May not be held for credit in any program with FIN 3470 and may not be used in place of FIN 3470. Prerequisite: FIN 2200 (D).

**FIN 3250 Financial Statement Analysis 3 Cr. Hrs.**  
A study of the methods and techniques used for interpretation of annual financial reports and the significance of alternative accounting policies on reported income. Students may not hold credit for both FIN 3250 and ACC 2020. Prerequisite: ACC 1100 (D).

**FIN 3270 Personal Financial Planning 3 Cr. Hrs.**  
An introduction to financial planning techniques used in professional practice. Topics include financial assessment, income tax planning, risk management, insurance, debt and credit management, investments, retirement planning, and estate planning. Prerequisite: FIN 2200 (D).

**FIN 3400 Investment Banking 3 Cr. Hrs.**  
The practice and theory of investment banking including valuation, initial public offerings, mergers and acquisitions, and restructuring. Prerequisite: FIN 2200 (C+).

**FIN 3410 Investments 3 Cr. Hrs.**  
An introduction to investment analysis and modern portfolio theory. Topics include equilibrium in the capital markets, fixed income securities, equities

and derivative instruments. May not be held with FIN 3411. Prerequisites: [A grade of "C+" or better in FIN 2200 or FIN 2201] and [a grade of "C" or better in MATH 1220 or MATH 1300 or MATH 1301 or MATH 1310] and [a grade of "C" or better in STAT 2000 or STAT 2001 or STAT 2150].

**FIN 3420 Security Analysis 3 Cr. Hrs.**

This course provides a practical application of techniques to analyse a company for investment purposes and evaluate purchases of stock and fixed-income securities. Topics include financial statement analysis, ratio analysis, alternative methods for forecasting corporate profits and dividends, risk assessment, and valuation techniques. Prerequisites: FIN 2200 (C+).

**FIN 3440 Real Estate Investments 3 Cr. Hrs.**

An introduction to real estate finance. Topics include valuation, financing, transaction, tax and legal issues. Prerequisite: FIN 2200 (C+).

**FIN 3450 International Finance 3 Cr. Hrs.**

An introduction to the theory of comparative advantage, foreign exchange markets, international parity relations, international debt and equity markets, international debt operating exposures, and international capital budgeting. Prerequisite: FIN 2200 (C+).

**FIN 3460 Financial Markets and Institutions 3 Cr. Hrs.**

A study of financial systems with emphasis on Canada. Major topics include monetary policy, financial markets, financial institutions, financial regulation and risk management. May not be held with ECON 3640 or ECON 3641. Prerequisites: [A grade of "C+" or better in FIN 2200 or FIN 2201] and [a grade of "C" or better in MATH 1220 or MATH 1300 or MATH 1301 or MATH 1310] and [a grade of "C" or better in STAT 2000 or STAT 2001 or STAT 2150].

**FIN 3470 Small Business Finance 3 Cr. Hrs.**

Study of the financial issues faced by small business enterprises. Prerequisite: FIN 2200 (D). May not be held with FIN 3240.

**FIN 3480 Corporate Finance Theory and Practice 3 Cr. Hrs.**

Intermediate Corporate Finance including the following topics: Capital budgeting theory and techniques, determination of relevant cost of capital, capital structure, dividend policy, leasing and other special topics. May not be held with FIN 3481. Prerequisites: [a grade of "C+" or better in FIN 2200 or FIN 2201] and [a grade of "C" or better in MATH 1220 or MATH 1300 or MATH 1301 or MATH 1310] and [a grade of "C" or better in STAT 2000 or STAT 2001 or STAT 2150].

**FIN 4230 Selected Topics in Finance 3 Cr. Hrs.**

A study of current issues in finance. Topics considered will depend on the interests and needs of the participants. Prerequisite: FIN 2200 (C+).

**FIN 4240 Financial Modeling 3 Cr. Hrs.**

Spreadsheet implementation of practitioner-oriented financial models. May not be held with FIN 4230 when titled "Financial Modeling". Prerequisite: FIN 3410 (C).

**FIN 4250 Behavioral Finance 3 Cr. Hrs.**

Understand how human biases impact the financial decisions of market participants and the practical implications. Prerequisite: FIN 2200 (C+).

**FIN 4260 Advanced Finance Theory 3 Cr. Hrs.**

Theories that provide the foundation for modern corporate finance. Empirical tests of finance theories. Implications for managers. Prerequisites: FIN 3410 (D) and FIN 3480 (D).

**FIN 4270 Options and Futures 3 Cr. Hrs.**

Mechanics of futures, options and swaps markets. Topics include arbitrage, hedging, forward rate agreements, models of derivative valuation and value-at-risk. Prerequisite: FIN 3410 (D).

**FIN 4400 Financial Management Practices 3 Cr. Hrs.**

Application of theoretical models in finance to real-world problems using cases. Topics include working capital management, long-term investment and financing decisions, valuation, risk management, reorganizations and international financial management. Prerequisite: FIN 3480 (D).

## SECTION 5.3 Accounting and Finance-Management Info Systems Course Descriptions (MIS)

**MIS 2000 Information Systems for Management 3 Cr. Hrs.**

(Lab required) Introduction to information systems in organizations, systems development/acquisition, and management issues concerning information technology in organizations.

**MIS 3010 Business Data Analytics 3 Cr. Hrs.**

The course covers the process of data analysis: extracting, transforming, analyzing, visualizing, and interpreting data by using popular analytics software and techniques. May not be held with MIS 4250 when titled "Data Analytics". Prerequisites: MIS 2000 (C+) or MIS 2001 (C+).

**MIS 3500 Database Management Systems 3 Cr. Hrs.**

Designing, developing and managing database systems, by using mainstream design methodologies and popular development tools. Prerequisites: [MIS 3510 (D)] and [COMP 1010 (C)].

**MIS 3510 Systems Analysis and Design 3 Cr. Hrs.**

Analyzing business tasks, processes, information and information technology, and designing information systems by employing methodologies, techniques and popular software used by information systems professionals. Prerequisites: MIS 2000 (C+).

**MIS 3520 Data Communications and Networking 3 Cr. Hrs.**

A study of basic data communications topics, including communication media, protocols, network security, network topologies (local and wide area networks), Web development and network management issues. Prerequisite: MIS 2000 (C+).

**MIS 4250 Advanced Topics in Management Information Systems 3 Cr. Hrs.**

A study of current issues in MIS. The topics for this course will vary over time, depending on student interests, faculty interests, and student demand. Not offered every year. Prerequisite: consent of instructor.

**MIS 4500 Management Information Systems Strategy 3 Cr. Hrs.**

A survey of the various issues associated with managing information as a resource. Explores MIS planning frameworks and tools, and the linkages between information systems, organizational structure and organizational strategy. A survey of the various issues associated with managing information as a resource. Explores MIS planning frameworks and tools, and the linkages between information systems, organizational structure and organizational strategy. Prerequisites: at least two of the following: ACC 3530 (D), MIS 3500 (D), MIS 3510 (D), MIS 3520 (D), MIS 4250 (D).

## SECTION 5.4 Warren Centre for Actuarial Studies Course Descriptions (ACT)

**ACT 2020 Economic and Financial Applications 3 Cr. Hrs.**

A synthesis of macroeconomic issues, quantitative aspects of finance using interest theory, and insurance economics.

**ACT 2120 Interest Theory 3 Cr. Hrs.**

The application of calculus and probability to discrete and continuous interest functions. Key topics are the measurement of interest, present and accumulated values, and annuities. May not be held with the former ACT 3320. Prerequisite: MATH 1232 (C) or MATH 1690 (C) or MATH 1700 (B) or MATH 1710 (B). Prerequisite or co-requisite: [MATH 2720 or MATH 2721 (D)] or [MATH 2731 or the former MATH 2750 or MATH 2730 (D)] and STAT 2400 (D).

**ACT 2210 Introduction to Risk Management 3 Cr. Hrs.**

Mathematical tools for the quantitative assessment of risk and their application to problems encountered in risk management. Prerequisite or co-requisite: STAT 2400 (D) or consent of instructor.

**ACT 3130 Actuarial Models 1 3 Cr. Hrs.**

Elementary concepts respecting the quantification of the financial impact of contingent payments. May not be held with ACT 3630. Prerequisites: ACT

2120 (C+) and [STAT 2800 (D) or the former STAT 3400 (D) or the former STAT 3500 (D)].

**ACT 3230 Actuarial Models 2 3 Cr. Hrs.**

Intermediate and advanced concepts respecting the quantification of the financial impact of contingent payments. Not to be held with ACT 3630. Prerequisite: ACT 3130 (C+).

**ACT 3340 Financial Derivatives for Actuarial Practice 3 Cr. Hrs.**

Introduction of interest rate models and rational valuation of derivative securities. Prerequisite: ACT 2020 (C+) or consent of instructor.

**ACT 3530 Actuarial Models 4 3 Cr. Hrs.**

Survival Models, Stochastic Process Models, and Simulation Models. May not be held with the former 010.447. Prerequisite: ACT 3130 (C+). Prerequisite or Concurrent Requirement: ACT 3230 (D).

**ACT 3630 Models for Life Contingencies 6 Cr. Hrs.**

Knowledge of the theoretical basis of contingent payment models and the application of those models to insurance and other financial risks. Not to be held with ACT 3130 and ACT 3230. Preor corequisite: ACT 2120 (C+) and [STAT 2800 (C) or the former STAT 3400 (C) or the former STAT 3500 (C)].

**ACT 4000 Advanced Actuarial Topics 3 Cr. Hrs.**

A selection of advanced topics of current actuarial interest. Prerequisite: ACT 3230 (D).

**ACT 4010 Regression Modeling in Actuarial Science 3 Cr. Hrs.**

Construction of generalized linear models and regression-based time series models with actuarial applications. May not be held with IDM 4050 when titled "Time Series and Regression Analysis for Management". Pre- or corequisite: STAT 2800 (D) or the former STAT 3400 (D) or the former STAT 3500 (D).

**ACT 4020 Short Term Actuarial Mathematics I 3 Cr. Hrs.**

Introduction to useful frequency and severity models, aggregate models, coverage modifications, risk measures and construction and selection of parametric models. This course covers part of the learning objectives of Short-Term Actuarial Mathematics Exam by the Society of Actuaries (SoA). May not be held with the former ACT 4140 or the former ACT 4630. Pre- or corequisite: STAT 2800 (D) or the former STAT 3400 (D) or the former STAT 3500 (D).

**ACT 4030 Short Term Actuarial Mathematics II 3 Cr. Hrs.**

Introduction to useful credibility theory, insurance and reinsurance coverage, and pricing and reserving for short term insurance coverages. This course covers part of the learning objectives of Short-Term Actuarial Mathematics Exam by the Society of Actuaries (SoA). May not be held with the former ACT 4240 or the former ACT 4630. Prerequisite: ACT 4020 (C+) (or the former ACT 4140(C+)).

**ACT 4060 Actuarial Aspects of Investment Practice 3 Cr. Hrs.**

This course examines stochastic interest rates and tools and techniques for coping with general product issues in asset/liability management. May not be offered every year. Students may not hold credit for both ACT 4060. Prerequisites: FIN 2200 Corporate Finance (C+).

**ACT 4150 Pension Mathematics 3 Cr. Hrs.**

Actuarial applications for defined benefit pension plans. Actuarial cost methods, funding levels, operation of pension plans from an actuarial perspective. Students may not hold credit with ACT 7550. May not be offered every year. Prerequisite: ACT 3230 (D).

**ACT 4160 Introduction to Property and Casualty Insurance Industry 3 Cr. Hrs.**

The introduction to the Property and Casualty Insurance Industry and the discussion of relevant topics. Pre- or Corequisite: ACT 2120 (C+) or consent of instructor.

**ACT 4250 Managing Insurance Operations in the International Business Environment 3 Cr. Hrs.**

Introduction of the risks inherent in insurance products and assets, as well as the relationships between assets and liabilities across the entire operations of the global insurance enterprise. Prerequisites: FIN 2200 (C+) or consent of instructor.

**ACT 4340 Actuarial Modeling Methods 3 3 Cr. Hrs.**

Classical, Bayesian and Buhlmann Credibility Models. The connection between Credibility Theory and Experience Rating. Underlying assumptions for the different methods. Simulation in Estimating and Fitting Actuarial Models. May not be offered every year. Prerequisite: ACT 4020 (C+) (or the former ACT 4140(C+)).

**SECTION 5.5 Business Administration-  
Entrepreneurship/Small Business Course  
Descriptions (ENTR)**

**ENTR 2010 Managing the Smaller Business 3 Cr. Hrs.**

Small firms dominated the Canadian economic scene and contribute to the nations' economic welfare in a major way but pose different managerial issues and problems for their owner/managers than larger organizations. This course will focus specifically on how to effectively manage and grow the smaller firm. Students may not hold credit for both ENTR 2010 and ENTR 3100. This course is not open to students in the Asper School of Business. This course is not for students who will pursue a major in Entrepreneurship/Small Business. U1 students may take this course.

**ENTR 2020 Starting a New Business 3 Cr. Hrs.**

This is a course for students in all Faculties who may wish to start a business of their own at some time or assess their potential for such an option. It will cover a broad range of topics to increase your understanding of what it takes to succeed in an entrepreneurial career. Students may not hold credit for both ENTR 2020 and ENTR 4100. This course is not open to students in the Asper School of Business. This course is not for students who will pursue a major in Entrepreneurship/Small Business. U1 students may take this course.

**ENTR 2030 Introduction to Entrepreneurship: Business and Social Perspectives 3 Cr. Hrs.**

Examines entrepreneurship via a social, environmental and economic sustainability perspective. Provides proven methods of entrepreneurial thinking to help students explore the relationship between society's need for economic development and costs to and benefits for the environment or other stakeholders, including rural and indigenous communities. Prerequisite: GMGT 1010 (D).

**ENTR 3100 Small Business Management 3 Cr. Hrs.**

An appreciation of the primary issues that should be considered in starting and managing a small business within the Canadian context. Students may not hold credit for both ENTR 3100 and ENTR 2010. Prerequisites: ACC 1100 (D), and MKT 2210 (D), and GMGT 2060 (formerly GMGT 2080) (D)).

**ENTR 3102 Technological Entrepreneurship 3 Cr. Hrs.**

An overview of the inter-relationship between technology and entrepreneurship. An appreciation of the role of technical entrepreneurship in the economy, how a technology strategy is developed, implemented and defended as well as the societal implications of technological entrepreneurship. Prerequisite: MKT 2210(D).

**ENTR 3104 Selected Topics in Small Business/Entrepreneurship 3 Cr. Hrs.**

A study of selected areas of recent development related to small business/entrepreneurship. Topics may include innovation and creativity, venture financing, opportunity identification and recognition, franchising and entry strategies of new business, social entrepreneurship, international entrepreneurship and entrepreneurial histories (e.g. IDEA recipients). Prerequisites: none

**ENTR 3106 Family Business Management 3 Cr. Hrs.**

An examination of the unique challenges inherent in the management of a family business. Topics include founder relinquishment, the need for succession planning and firm regeneration, the core actors and their issues, ownership structure and estate planning. Prerequisite: GMGT 2060 (D) or GMGT 2080 (D).

**ENTR 4100 New Venture Analysis 3 Cr. Hrs.**

A project oriented course focusing on the identification and evaluation of

viable new venture concepts and their associated risks, problems, and opportunities. Students may not hold credit for both ENTR 4100 and ENTR 2020. Students are strongly encouraged to take FIN 3240 prior to ENTR 4100. Prerequisites: MKT 2210 (D) and ACC 1110 (D) and [GMGT 2060 (D) (or GMGT 2080 (D))] and FIN 2200 (D).

## SECTION 5.6 Business Administration-General Management Course Descriptions (GMGT)

### GMGT 1010 Business and Society 3 Cr. Hrs.

The course will provide overarching frameworks to examine the nature, role, and importance of business in society. Key internal operations of business organizations will be discussed (e.g. finance, marketing, operations), but the majority of the course examines the relationships that business firms must balance among key stakeholders in their external environment (i.e. government, owners, customers, communities, suppliers, future generations, etc.). Students will examine various institutional contexts (e.g. economic, political-legal, and socio-cultural) and critically think about relationships between business and society, mindfully considering alternative approaches to management. Special emphasis will be placed on contemporary social issues in business (e.g. sustainable development, corporate social responsibility).

### GMGT 2010 Business Communications 3 Cr. Hrs.

The course provides an introduction to theoretical, cultural, and ethical bases of effective communication. Another goal is to develop students' interpersonal, oral, and written communication skills at individual, group, and organizational levels. The students will also develop analytical, problem-solving, rhetorical, and critical thinking abilities required in organizational and business settings. Students are strongly recommended to take GMGT 2010 in their first 45 credit hours. Not to be held for credit with the former GMGT 2000.

### GMGT 2060 Management and Organizational Theory 3 Cr. Hrs.

Examination of the underlying principles concerning the formation of organizations and their internal management. Emphasis on the study and analysis of various theoretical approaches to organization theory and management. Prerequisite: GMGT 1010 (D). Students may not hold for credit with either GMGT 2080 or GMGT 2030.

### GMGT 2070 Introduction to Organizational Behaviour 3 Cr. Hrs.

Examination of the impact of human behaviour on the formal and informal organization. Topics include leadership, work groups, organizational conflict, and communications.

### GMGT 2120 Business/Government Relations 3 Cr. Hrs.

Analysis of the interaction between business firms and government in the creation, modification, and implementation of government policies that affect business. Study of the ways business can influence government decision-making. Prerequisite: [ECON 1010 (D) and ECON 1020 (D)] or ECON 1200 (D).

### GMGT 3010 Management Decision-Making 3 Cr. Hrs.

Introduces students to the decision-making process and factors that enter into making decisions, including the objectives and approaches to decision-making, the basic type of managerial decisions, and exemplifications of decision in operations. Decision making will be viewed as a multi-dimensional process involving values, psychology, sociology, social psychology, and politics. The course presents a variety of perspectives useful for making and evaluating decisions in all kinds of organizations. Prerequisites: GMGT 2070 (D).

### GMGT 3030 Contemporary Social Issues in Business 3 Cr. Hrs.

Study of key issues in the relationship of business organizations and society with emphasis on the impact of management. Prerequisites: [GMGT 2060 or former GMGT 2080 (D)] and GMGT 2070 (D).

### GMGT 3160 Managerial Economics 3 Cr. Hrs.

An introduction to the economic foundation of managerial decision making, which includes pricing strategies, boundaries of the firm, investment in human capital and incentive contract design. Also offered by the Faculty of Arts as ECON 3160. May not be held with ECON 3160. Prerequisite: [a grade of "C" or better in both ECON 1010 (or ECON 1011)

and ECON 1020 (or ECON 1021), or the former ECON 1200, or the former ECON 1201] and [a grade of "C" or better in MATH 1230 or MATH 1500 (or MATH 1501) or MATH 1510 or MATH 1520].

### GMGT 3300 Commercial Law 3 Cr. Hrs.

General history of law, the organization of courts, the Canadian Constitution, federal and provincial legislative functions. Legal concepts and problems relating to business organization, contracts, principal and agent, negotiable instruments, common torts, and bankruptcy proceedings.

### GMGT 4010 Administrative Policy 3 Cr. Hrs.

Studies of policies available to business enterprise; with case studies to focus attention on problems involved in formulating and administering policies with interdisciplinary considerations. Take only in final term of program or with consent of department head. Prerequisite: prior to being admitted to GMGT 4010, students must be in Year 4, in the final term prior to graduation in the Asper School and have successfully completed (with a minimum grade of (D) in each course) all 30 credit hours of courses specified in Year 2 of the 4-Year Program. Prerequisite or Concurrent Requirement: all remaining core courses specified in Year 3 and 4 of the 4-Year Program (with a minimum grade of (D) in each course).

### GMGT 4110 Commercial Law 2 3 Cr. Hrs.

Aspects of the law relating to business units, including a study of the law relating to proprietorships, partnerships and corporations, and secured transactions. Not taught every year. Prerequisite: GMGT 3300 (D).

### GMGT 4210 Seminar in Management and Capitalism 3 Cr. Hrs.

This course provides students with an understanding of the institutions, developments, and debates associated with modern capitalism and their implications for management. Students will explore alternative management perspectives and bi-directional interactions within the context of larger issues. It is designed to ensure that students are introduced to a variety of different perspectives, and that no single perspective is unduly privileged over others. Prerequisite: GMGT 1010 (D) or GMGT 2120 (D).

## SECTION 5.7 Business Administration-Human Resources/Industrial Relations Course Descriptions (HRIR)

### HRIR 2440 Human Resource Management 3 Cr. Hrs.

Introduction to principles and procedures in the management of human resources. Topics include diversity management, conflict resolution, employment, law, planning, job analysis, performance appraisal, staffing, compensation, union-management relations, and current issues. May not be held with HRIR 2441 or ABIZ 2620 or AGRI 3030 when titled "Agricultural Human Resource Management" or the former DAGR 0530.

### HRIR 3430 Selected Topics in Industrial Relations 3 Cr. Hrs.

Analysis of specific topics or issues in the employment relationships in an industrial society. Prerequisites: [HRIR 2440 (D)] and [HRIR 3450 (D)] or consent of instructor.

### HRIR 3450 Labour and Employment Relations 3 Cr. Hrs.

This course is to enhance knowledge and understanding of labour and employment relations in Canada and beyond. It addresses various issues and debates about these relations; their history, structure, and functioning; management employment relations practices; the role of labour unions; collective bargaining; and contemporary developments and alternatives.

### HRIR 4410 Staffing and Management Development 3 Cr. Hrs.

A review of: employment planning; recruitment and selection; internal placement; out placement; performance appraisal; career development. Training needs analysis, methods and evaluation. Prerequisite: HRIR 2440 (D).

### HRIR 4420 Compensation 3 Cr. Hrs.

A review of the major concepts and design of compensation systems including: strategy, internal equity, external competitiveness, rewarding individual contributions, performance incentives, employee benefits,

government regulations, union role in compensation; budgets and administration. Prerequisite: HRIR 2440 (D).

**HRIR 4480 Collective Bargaining and Administration 3 Cr. Hrs.**

Focuses on the legal framework, processes and issues pertaining to the negotiation and administration of collective agreements, building on the foundation provided by HRIR 3450. Students will learn practical strategies for collective bargaining by participating in mock collective bargaining and how to conduct in-depth analysis of grievance arbitration cases. May not be held with HRIR 4481. Prerequisites: HRIR 3450 (D) or HRIR 3451 (D).

**HRIR 4520 Comparative Industrial Relations and Human Resource Management 3 Cr. Hrs.**

To provide an international perspective on industrial relations (IR) and human resource management (HRM) through analysis and comparison of IR systems and HRM practice across selected countries and of current developments therein. Also covers theories and issues relevant to these topics. Students are encouraged, but not required, to complete HRIR 3450 (D) prior to taking this course.

**SECTION 5.8 Business Administration-International Business Course Descriptions (INTB)**

**INTB 2200 International Management 3 Cr. Hrs.**

Analysis of the practice of management in an international setting. Examines the cultural, political, and economic environments which influence managerial decision-making in an international context.

**SECTION 5.9 Business Administration-Leadership Course Descriptions (LEAD)**

**LEAD 2010 Learning to Lead 3 Cr. Hrs.**

This seminar provides students with an introduction to and understanding of effective leadership and its application to a variety of group and organizational contexts. The classes encourage interdisciplinary discussions of theoretical, philosophical, historical, and technical elements of effective leadership. The course allows students to reflect on and develop their own leadership style through interactive lectures, experiential activities, and action learning in groups and organizations in which students want to lead and be led. This seminar is intended for all students that have an interest in leadership theory and effective leadership practices. Students may not hold credit for both LEAD 2010 and ARTS 1160. Prerequisite: Students must have completed 15 credit hours of passed courses to register in LEAD 2010.

**LEAD 3010 Negotiation and Conflict Management 3 Cr. Hrs.**

Leaders are regularly called upon to manage conflict, promote cooperation, and resolve competing interests. With a focus on negotiation as a means of conflict resolution, this course blends contemporary research and theory with practical, first-hand experience. Students' effectiveness as negotiators will be developed with readings and class discussions focused on the social and psychological underpinnings of negotiation, and applied with weekly hands-on experiences, ranging from bilateral bargaining games to complex, multi-issue, multilateral negotiation scenarios. Prerequisites: Year three standing (or by permission of instructor).

**LEAD 3020 Team Building and Diversity 3 Cr. Hrs.**

The ability to work effectively with team members is crucial to individual functioning and promotion within organizations. This course examines the structure and dynamics of teams with an aim to understanding team-building, team dynamics, diversity, and managing team conflict. Part of working effectively in teams is understanding diversity and how to encourage collaboration in diverse teams. This course will therefore cover topics related to diversity and cross-cultural awareness. Equivalent to but students may not hold credit for LEAD 3020 and GMGT 3020 with topics Diversity Management and Team Building or Diversity Management or Team Building. Prerequisites: GMGT 2060 (D) [or GMGT 2080 (D)] and GMGT 2070 (D).

**LEAD 3030 Corporate, Social, and Environmental Responsibility 3 Cr. Hrs.**

This course examines the responsibilities of business that accompany

maximizing shareholder wealth. This includes balancing the needs of a variety of stakeholders (including owners, employees, customers, suppliers, competitors, neighbours, future generations) among a variety of forms of well-being (e.g. financial, ecological, environmental, social, spiritual, physical). Students will learn theory and best practices. Students are encouraged to take this course in the final two years of their program of studies at the I.H. Asper School of Business. Prerequisites: GMGT 1010 (D) and GMGT 2060 (D) [or GMGT 2080] (D).

**LEAD 3040 Special Topics in Leadership and Organization 3 Cr. Hrs.**

The content of this course will change from year to year based on: cutting edge topics, research innovations, and trends in leadership. Example topics might include: Organizational Health and Safety; Organizational Justice; Women and Leadership; Advanced Organizational Behaviour; Advanced Organizational Theory. Prerequisites: GMGT 2060 (D) [or GMGT 2080 (D)] and GMGT 2070 (D), or by permission of instructor.

**LEAD 4010 Leading Change 3 Cr. Hrs.**

Organizations regularly face change due to market demands, competition, and economic pressures. The ability to lead change effectively is crucial to organizational success. This course will focus on how to: understand resistance to change, manage change processes, and support employees in times of uncertainty. Prerequisites: GMGT 2060 (D) [or GMGT 2080] (D) and GMGT 2070 (D).

**LEAD 4020 Leadership, Power and Politics in Organization 3 Cr. Hrs.**

This course provides students with an introduction to and understanding of effective leadership and its application to a variety of group and organizational contexts. The course will also describe and enable students to make sense of organizations as political entities and understanding the use of power and social influence. The classes encourage interdisciplinary discussions of theoretical, historical, and practical elements of effective leadership and power. Through interactive lectures and experiential activities, students will have the opportunity to reflect on and develop their own leadership style, to understand how to use and manage power, and to recognize and apply social influence tactics. Students entering second year are strongly recommended to take LEAD 2010 prior to taking LEAD 4020. Prerequisite: GMGT 2070 (D).

**SECTION 5.10 Interdepartmental Courses 2000 Level (IDM)**

**IDM 2982 Co-op Work Term 1 1 Cr. Hrs.**

Work assignment in business, industry, or government for students registered in the Asper School of Business co-operative option. For Asper students only. Prerequisite: Written permission from the Asper School of Business Co-operative Education Office. May not be held with the former IDM 2980.

**IDM 3982 Co-op Work Term 2 1 Cr. Hrs.**

Work assignment in business, industry, or government for students registered in the Asper School of Business co-operative option. For Asper Students only. Prerequisites: IDM 2982 with a minimum grade of C and written permission from the Asper School of Business Cooperative Education Office. May not be held with the former IDM 3980.

**IDM 4050 Readings in Management 3 Cr. Hrs.**

Supervised readings in one of the areas of Management. Students are limited to a maximum of six hours of readings and research courses.

**IDM 4070 Management Research 1 3 Cr. Hrs.**

Individually supervised preparation of a detailed research proposal for an advanced study in one of the areas of Management. Students are limited to a maximum of six hours of readings and research courses.

**IDM 4080 Management Research 2 3 Cr. Hrs.**

Individually supervised research and preparation of a paper in one of the areas of Management based on the proposal developed in IDM 4070.

Students are limited to a maximum of six hours of readings and research courses.

**IDM 4982 Co-op Work Term 3 1 Cr. Hrs.**

Work assignment in business, industry, or government for students registered in the Asper School of Business co-operative option. For Asper Students only. Prerequisites: IDM 3982 with a minimum grade of C and written permission from the Asper School of Business Co-operative Education Office. May not be held with the former IDM 4980.

**SECTION 5.11 Marketing Course Descriptions (MKT)**

**MKT 2210 Fundamentals of Marketing 3 Cr. Hrs.**

Analysis of marketing problems, emphasizing various alternatives available for achieving economic efficiency in the distribution process; public policy with respect to marketing.

**MKT 3220 Marketing Research 3 Cr. Hrs.**

Study of the planning and implementation of research required to make informed marketing decisions. May not be held with MKT 3221. Prerequisite: MKT 2210 (D) or MKT 2211 (D) or consent of instructor.

**MKT 3230 Consumer Behavior 3 Cr. Hrs.**

Study of buying behaviour of individuals and organizations as affected by psychological and sociological forces within society. Prerequisite: MKT 2210 (D).

**MKT 3240 Selected Topics in Marketing 3 Cr. Hrs.**

Analysis of marketing as it relates to specialized fields. Prerequisite: MKT 2210 (D).

**MKT 3242 Brand Management 3 Cr. Hrs.**

Examination of the holistic and integrative considerations that affect brand management. May not be held with MKT 3240 when titled "Branding". Prerequisites: MKT 2210 (D) or MKT 2211 (D).

**MKT 3246 Sustainability Marketing 3 Cr. Hrs.**

This course will examine strategies that organizations can adopt to be successful in meeting the triple bottom line (people, planet, profit) within the broader framework of sustainability. May not be held with MKT 3240 when titled "Sustainability Marketing". Prerequisites: MKT 2210 (D) or MKT 2211 (D).

**MKT 3300 International Marketing 3 Cr. Hrs.**

A study of international similarities and differences in marketing structures, functions and processes as related to the socio-economic and cultural environment and a consideration of the opportunities and problems of international marketing. Prerequisite: MKT 2210 (D).

**MKT 3310 Retail and Channel Management 3 Cr. Hrs.**

The study of the functions performed by traditional and e-commerce distributors. Topics include location and competitive analysis, promotion, merchandising, buying, design, selection and historical development. Topics include location and competitive analysis, promotion, merchandising, buying, design, selection and historical development. Prerequisite: MKT 2210 (D).

**MKT 3340 Services Marketing 3 Cr. Hrs.**

An examination of the differences in the marketing of goods versus services. Topics covered include service process design and management, problem identification and resolution, positioning issues, the importance of human resources, and promotional issues. Prerequisite: MKT 2210 (D).

**MKT 3390 Integrated Marketing Communications 3 Cr. Hrs.**

The process of using promotional tools in a unified way so that a synergistic communications is created. The course examines the roles of advertising, sales promotion, direct marketing, and the internet within this broader framework. Prerequisite: MKT 2210 (D).

**MKT 4210 Marketing Management 3 Cr. Hrs.**

An examination of strategies and tactics marketing managers use for products and services at various stages in the product life cycle. Uses qualitative and quantitative analyses to develop critical thinking essential for making marketing decisions. Can only be taken in final year of program. Prerequisites: [MKT 3220 (D) or MKT 3230 (D)], and [one other 3000 or 4000

level Marketing course (D)], and [ACC 1110 (D)]. Pre- or co-requisite: either MKT 3220 (D) or MKT 3230 (D), but not both.

**MKT 4270 Sales Management 3 Cr. Hrs.**

The study of the management of the personal selling area including an examination of the selling function, the sales manager, and sales management. Prerequisite: MKT 2210 (D).

**SECTION 5.12 Supply Chain Management-  
Management Science Course Descriptions (MSCI)**

**MSCI 2150 Introduction to Management Sciences 3 Cr. Hrs.**

An introduction to management science techniques and models. Topics include linear programming, distribution problems, decision theory and queuing models. May not be held with ABIZ 2520 or MSCI 2151. Prerequisites: [a grade of "C" or better in MATH 1230 or MATH 1520 or MATH 1500 (or MATH 1501)] and [a grade of "C" or better in STAT 1000 (or STAT 1001) or STAT 1150].

**MSCI 3400 Intermediate Management Science 3 Cr. Hrs.**

Operations research models used in the analysis of management problems. Topics include network analysis, deterministic inventory models, dynamic programming and game theory. Prerequisite: MSCI 2150 (D) or consent of instructor.

**MSCI 4200 Topics in Management Science 3 Cr. Hrs.**

Topics of current interest in management science. Prerequisite: MSCI 2150 (D). Not taught every year.

**MSCI 4220 Management Science Models in Business and Industry 3 Cr. Hrs.**

An applied course providing practical experience in modeling and solving business and industrial problems. Emphasis to be placed upon analysis, formulation, solution and implementation. Prerequisite: MSCI 3400 (D) or MSCI 4200 (D) or MSCI 4230 (D) or MSCI 4200 (D).

**SECTION 5.13 Supply Chain Management-  
Operations Course Descriptions (OPM)**

**OPM 3630 Simulation Models for Operations Management 3 Cr. Hrs.**

Seminar on the concept, techniques, and application of simulation for problem-solving and decision-making in operations management. Existing operational models will be studied and applied in computerized form. Prerequisite: Consent of instructor.

**OPM 3640 Project Planning and Control 3 Cr. Hrs.**

Seminar on management of complex projects of various kinds with emphasis on planning and control by means of network methods. PERT and CPM methods computer applications. Prerequisite 3260 or consent of instructor.

**OPM 3650 Management of Quality and Reliability 3 Cr. Hrs.**

This course offers a practical introduction to modern quality assurance and reliability management concepts, methods and practices. It builds upon the relevant subject matter in basic courses in production management and prepares for positions in the field of quality and reliability management. Prerequisite: SCM 2160 [or the former OPM 2600 (D)] and STAT 1000 (C).

**OPM 3660 Operations Management in Service Organizations 3 Cr. Hrs.**

This course explores the applications of operations management concepts to the management of service operations. The characteristics of a service operation, while generally comparable to manufacturing a product, often place a unique demand upon the service manager. These demands, along with the analysis of actual company situations through case study applications, are emphasized. Prerequisite: SCM 2160 [or former OPM 2600] (D) and STAT 1000 (C).

**OPM 3670 POM Project in Industry 3 Cr. Hrs.**

An applied course, designed to bridge the gap between theoretical concepts developed in previous POM courses and current industrial

practices by means of an industrial project. Prerequisites: [SCM 2160 or former OPM 2600 (D)] and STAT 1000 (C) or consent of instructor.

**OPM 4620 Production Management Seminar 3 Cr. Hrs.**

Problems, development, and application of analytical methods in production and operations management with emphasis on planning and control. Prerequisite: MSCI 2150 (D) and SCM 2160 or OPM 2600 (D).

**SECTION 5.14 Supply Chain Management-Supply Chain Management Course Descriptions (SCM)**

**SCM 2160 Supply Chain and Operations Management 3 Cr. Hrs.**

Study of supply chain management (SCM) and operations management. Positions operations management as a critical area of study within SCM. Focuses on process approach and system design. May not hold credit for both SCM 2160 and the former OPM 2600. Prerequisites: None.

**SCM 2210 Transportation Principles 3 Cr. Hrs.**

This course is a study of demand forecasting, cost analysis, regulation of carriers, role of transport in economic development, project appraisal, and transport planning focusing upon agricultural, agri-food and other supply chains. Also offered as ABIZ 2210. May not be held with ABIZ 2210. Prerequisite: [ECON 1010 (C) and ECON 1020 (C)] or former ECON 1200 (D).

**SCM 2220 Selected Topics in Logistics and Transportation**

**3 Cr. Hrs.**

This course provides coverage on a number of critical topics in Supply Chain Logistics and Transportation. Areas of emphasis are based on current issues confronting managers and regulators/policy makers such as global supply chain logistics and transportation policy.

**SCM 2230 Introduction to Supply Chain Management 3 Cr. Hrs.**

An examination of the management activities that are necessary to ensure an efficient flow of materials, funds, and information among the various organizations in supply chains, from the acquisition of raw materials to the delivery of the finished product to the end user.

**SCM 2240 Purchasing and Supply Management 3 Cr. Hrs.**

Purchasing and supply management is an increasingly important element of corporate strategy as global supply chains become longer and more complex. In this course, students will learn about a major paradigm shift in purchasing, from a clerical activity to a strategic corporate function. The course covers strategic supply management, inter-organizational relationships, product and service specifications, price and cost analysis, negotiation, quality management, supply chain information technology, and other important purchasing topics, from a supply chain management perspective. Students may not hold credit for both SCM 2240 and SCM 2220. Topic: Purchasing Management.

**SCM 2250 Transportation Infrastructure Planning and Management 3 Cr. Hrs.**

This course introduces students to the basic principles and practices of transportation infrastructure planning and management, providing students with adequate knowledge on the nature of transportation infrastructure, its development, management structures, and policies. Through different teaching methods, it aims to enable students to understand the major issues and challenges that transport planners, managers and policy makers are facing, and enable them to develop the ability of applying theoretical knowledge into practice. May not be held with SCM 2220 when titled "Transportation Infrastructure Planning and Management".

**SCM 2260 Transportation Strategy and Policy 3 Cr. Hrs.**

This course provides students relevant fundamental knowledge on the major concepts of competitive strategies, governance and policies, as well as their application in the transportation sector. Through different teaching methods, this course aims to enable students to develop the ability to put strategic theories and policy concepts into practice within the transportation sector, both in Canada and the world. May not be held with SCM 2220 when titled "Transportation Strategy and Policy".

**SCM 3230 Global Supply Chains 3 Cr. Hrs.**

The course provides a global orientation to supply chain management, with

a particular emphasis on the global linkages between organizations in international supply chains. Supply chain management practices in selected countries are also examined. Prerequisite: SCM 2230 (D) or SCM 3360 (D); or consent of instructor.

**SCM 3250 Airline Business 3 Cr. Hrs.**

This course provides a practical overview of the modern airline business from a global perspective. Topics such as airline pricing, airline alliance and airline-airport interaction will be included. May not be held with SCM 2220 when titled "Airline Business". Prerequisite: SCM 2230 (D) or consent of instructor.

**SCM 3260 Supply Chain Sustainability 3 Cr. Hrs.**

This course covers supply chain sustainability. From a functional viewpoint, supply chain management (SCM) includes logistics/transportation, purchasing and certain elements of marketing. Sustainability is a multi-dimensional concept, spanning ecological, social, cultural and economic issues. The course includes a special focus on sustainable transportation. May not be held with SCM 2220 when titled "Supply Chain Sustainability". Prerequisite: GMGT 2010 (D) or consent of instructor.

**SCM 3270 Lean Management 3 Cr. Hrs.**

Lean Management will provide students with a basic understanding of the components of Lean Management and the opportunity to practically apply the principles, methods and tools of Lean Management to real problems. Students will learn how to analyze case studies and apply course material in real-world situations. May not be held with SCM 2220 when titled "Lean Management". Prerequisites: a grade of "D" or better in SCM 2160 (or SCM 2161) or SCM 2230 or ABIZ 2520 or MSCI 2150 (or MSCI 2151) or the former OPM 2600 (or OPM 2601) or consent of the instructor.

**SCM 3280 Project Management in Supply Chain 3 Cr. Hrs.**

Topics covered in this course will include project initiating, planning, executing, monitoring and controlling, and closing. Following the PMI methodology, all ten knowledge areas will be covered, including: integration, scope, schedule, cost, HR, quality, risk, communication, procurement and stakeholder management. Students will learn how to analyze case studies and effectively use team work to develop strong planning and an analytical approach pertinent to project management. May not be held with SCM 2220 when titled "Project Management in Supply Chain". Prerequisites: a grade of "D" or better in SCM 2160 (or SCM 2161) or SCM 2230 or ABIZ 2520 or GMGT 1010 (or GMGT 1011) or MIS 2000 (or MIS 2001) or MSCI 2150 (or MSCI 2151) or the former OPM 2600 (or OPM 2601) or consent of instructor.

**SCM 3360 Supply Chain Logistics 3 Cr. Hrs.**

The course provides an international/global orientation to logistics and supply chain management. Prerequisite: MKT 2210 (D).

**SCM 4250 Beyond Business: Advanced Issues in Supply Chain Management 3 Cr. Hrs.**

The material covered in this course moves beyond a business perspective and analyzes the relationship between supply chain management (SCM) and other parts of society as a whole. It examines the issues that arise as supply chain management interests with government and society. May not be held with the former SCM 4240. Prerequisite: SCM 2230 (D); or consent of instructor.

#### 7.9 Assessment

### SECTION 8: Offerings for Non-Music Students

#### 8.1 Courses Offered outside the B.Mus. and B. Jazz Programs for Students in Other Faculties

### SECTION 9: Course Descriptions

### SECTION 1: Degree and Diploma Programs Offered

#### SECTION 1: Degree and Diploma Programs Offered

Degree	Years to Complete	Total Credit Hours
Bachelor of Music	4 *	126
Bachelor of Music (Composition)	4 *	126
Bachelor of Music (History)	4 *	126
Bachelor of Music (Performance)	4 *	126
Bachelor of Music (Music Education)	4 *	132
Bachelor of Music/Bachelor of Education	5 **	Currently under review
Bachelor of Jazz Studies	4 *	126
Post-Baccalaureate Diploma in Performance	1	30

\* Minimum time to graduation: Four years if admission is directly from high school and five years if admission is via University 1.

\*\* Intake into the Integrated Bachelor of Music/Bachelor of Education is currently suspended.

### SECTION 2: Admission to Music

#### 2.1 Course Requirements for Admission from High School

Admission to the Faculty is directly from high school, although admission from University 1 is an option.

#### Other requirements

High school prerequisites: Music 40S is strongly recommended, while a second 40S language is recommended. Private lessons in your instrument and formal instruction in music theory and keyboard study are strongly recommended. Good academic performance in subject areas other than music is also strongly recommended. Refer to: [umanitoba.ca/faculties/music/prospective/Undergraduate.html](http://umanitoba.ca/faculties/music/prospective/Undergraduate.html) for audition information or [Fmusic@umanitoba.ca](mailto:music@umanitoba.ca)

### SECTION 3: Academic Regulations

The provisions of the chapter, [General Academic Regulations and Requirements](#), and the chapter, [University Policies](#), apply to all students. In addition, the Faculty has regulations and requirements, published below, which apply specifically to its students. Detailed information regarding regulations is available in the general office of the Faculty. The aim of the Bachelor of Music and Bachelor of Jazz Studies programs is to provide a basic framework of knowledge and ability; both theoretical and practical, from which either professional activities or graduate specialization can start. The Bachelor of Music four-year program contains concentrations in specified areas in the third and fourth years. After their first two years, students select the area in which their interests and abilities are strongest. The Faculty offers four-year programs leading to the degree of either Bachelor of Music, with the following concentrations: Performance, Composition, History, Education and General Music. The four-year Bachelor of Jazz Studies is a direct entry program from high school. Practical study is offered in standard classical and jazz instruments and voice. Ensemble work is included in all years of the program. Music courses are available to students in other faculties and schools. Consult section 7.0 or the appropriate section of this Calendar for regulations.

### 3.1 Written English Requirement and Mathematics Requirement

The University's written requirement is met through any three credit hour course that fulfills the "W" requirement. The University's mathematics requirement is met through MUSC 3230 Acoustics of Music or a three credit hour MATH 1XXX or STAT 1XXX course. These courses are listed as requirements to complete the first year of all Bachelor of Music programs and Bachelor of Jazz Studies.

### 3.2 Electives (Non-Music)

Students are required to take course(s) in a subject other than music for each year of the Bachelor of Music and Bachelor of Jazz Studies program to a total of 18 credit hours. With the exception of the University's written English and Mathematics Requirements in the first year, the student is free to choose any subject but is advised to seek the advice of faculty.

### 3.3 Ensembles

The Faculty offers a wide variety of opportunities for participation in ensembles such as the Women's Choir, Concert Choir, University Concert Band, University Singers, University Symphony Orchestra, University Wind Ensemble, University Jazz Orchestra, Jazz Ensembles, Opera Theatre, Chamber Ensembles, Percussion Ensemble, Musical Theatre, XIE (eXperimental Improv Ensemble), and other wind, string and keyboard combinations. Bachelor of Music students are required to participate in two ensembles each year for four years. Bachelor of Jazz Studies students are required to participate in one ensemble each year for four years. The Ensemble Committee determines placement in credit ensembles; such participation will normally be in ensembles directly relevant to the student's major practical study area. Students from other faculties and non-university musicians are welcome to participate as space and instrumental balance allow, but all participation is at the discretion of the conductor or coach of the ensemble. Some ensembles are offered for credit in other faculties.

### 3.4 Scholarships

Entrance and continuing scholarships are available for Faculty students. Details may be obtained from Financial Aid and Awards or the Marcel A. Desautels Faculty of Music.

### 3.5 Scholastic Progress

Within the first week of the term, students will be informed of the organization of materials, the nature and timing of testing, and the proportionate weighting of marks that contribute to the final grade in all academic courses at the Marcel A. Desautels Faculty of Music. Regulations regarding the grading of all practical courses at the Faculty are contained in the Student Handbook; special attention is called to the Concert Credit and

Masterclass Attendance Policy which is an integral part of the grading system for Major Practical Study in each year of the program. A grade of "C" or better is required in each Music course throughout the Bachelor of Music and Bachelor of Jazz Studies programs, except where the Faculty Student Handbook states otherwise. Students who take Music elective courses and fail to achieve a minimum grade of "C" in them should repeat these courses. Due to the system of rotating electives, this may not be possible and in such a case another approved Music elective may be substituted. Supplemental examinations are not normally given in the Faculty, with the following exception: where a jury mark of "D" has been assigned in Major Practical Study, the juried examination may be reheard prior to the next registration. A sessional (September to April) Grade Point Average of less than 2.0 (C), or failure to achieve a grade of "C" or better in two Music courses will result in a student being placed on probation. While on probation, the student remains in the program but is subject to a set of conditions that are established by the Faculty. A student failing to meet these conditions may be placed on suspension. Each student is permitted a maximum 21 credit hours of failed Music courses in the Bachelor of Music and Bachelor of Jazz Studies programs. Students will not be permitted to register for a required music course more than twice without the permission of the Dean.

### 3.6 Dean's Honour List

Bachelor of Music and Bachelor of Jazz Studies students who achieve a sessional (September to April) Grade Point Average of 3.5 and are registered in a minimum of 80% of a full-time program in both fall and winter terms will be eligible for the Dean's Honour List. Students who are granted incomplete or deferred status will not be eligible.

### 3.7 Attendance

Regular attendance is expected of all students in all courses. Any unexcused absences from Ensemble or Major Practical Study courses or three unexcused absences from any other music course may result in the student being required to withdraw from the course or Ensemble, or may result in a failing grade being assigned. Students absent from a class for three or more consecutive meetings due to illness may be required to present a certificate from a physician. Prior approval for extended absences from class for reasons other than illness must be obtained from the instructor and the Dean. Unexcused absence from a class test may result in a grade of zero for the test. Make-up tests may be allowed in special circumstances.

## SECTION 4: Program Requirements

### Bachelor of Music, Bachelor of Jazz Studies, Years 1-4

These programs are in effect for students admitted since 1997-98. Students who entered in previous years should consult earlier calendars.

#### 4.1 Bachelor of Music- General, Performance, History and Composition

##### Year One

Bachelor of Music: General, Performance, History, and Comosition		
MUSC 1004	Introduction to Music in History 1	3
MUSC 1014	Introduction to Music in History 2	3
MUSC 1110	Music Theory 1	3
MUSC 1120	Music Theory 2	3
MUSC 1180	Ensemble	2
MUSC 1190	Ensemble	2

MUSC 1384	Musicianship 1	2
MUSC 1394	Musicianship 2	2
MUSC 1400	Major Practical Study (Composition Students take MUSC 1404 – Introduction to Composition 1 (3 credit hours) and MUSC 1414 - Introduction to Composition 2 (3 credit hours))	6
* MUSC 3230	Acoustics of Music	3
	** Written English requirement	3
<b>Total Credit Hours</b>		<b>32</b>

\* a 3 credit hour MATH 1xxx or STAT 1xxx may be taken in place of MUSC 3230, Acoustics of Music

\*\*any 3 credit hour course that meets the written English requirement; consult with an advisor before making a selection

### Year Two

<b>Bachelor of Music: General, Performance, History, and Composition</b>		
MUSC 2110	Music Theory 3	3
MUSC 2120	Music Theory 4	3
MUSC 2180	Ensemble	2
MUSC 2190	Ensemble	2
MUSC 2384	Musicianship 3	2
MUSC 2394	Musicianship 4	2
MUSC 2400	Major Practical Study	6
	* Core Music History Elective	3
	* Core Music History Elective	3
	Non-Music Electives	6
<b>Total Credit Hours</b>		<b>32</b>

### Third Year

<b>Bachelor of Music: General</b>		
MUSC 3180	Ensemble	2
MUSC 3190	Ensemble	2
MUSC 3470	Major Practical Study	6
MUSC 3974	Music Theory After 1900	3
	* Core Music History Elective	3
	**Music Theory Elective	3

	Music Elective	3
	Music or Non-Music Elective	3
	Non-Music Electives	6
<b>Total Credit Hours</b>		<b>31</b>

### Bachelor of Music: Performance

MUSC 3180	Ensemble	2
MUSC 3190	Ensemble	2
MUSC 3470	Major Practical Study	6
MUSC 3550	Recital 1	3
MUSC 3974	Music Theory After 1900	3
	* Core Music History Elective	3
	Music Electives	6
	Non-Music Electives	6
<b>Total Credit Hours</b>		<b>31</b>

**NOTE:** A grade of at least "B" in MUSC 3550 is required to continue in the Performance Concentration.

### Bachelor of Music: History

MUSC 3050	Research Methods	3
MUSC 3180	Ensemble	2
MUSC 3190	Ensemble	2
MUSC 3470	Major Practical Study	6
MUSC 3974	Music Theory After 1900	3
	* Core Music History Elective	3
	Music History Elective	3
	**Music Theory Elective	3
	Non-Music Electives	6
<b>Total Credit Hours</b>		<b>31</b>

### Bachelor of Music: Composition

MUSC 2460	Conducting	3
MUSC 3180	Ensemble	2
MUSC 3190	Ensemble	2

MUSC 3470	Major Practical Study	6
MUSC 3650	Electroacoustic Music	3
MUSC 3964	History of Western Art Music After 1900	3
MUSC 3974	Music Theory After 1900	3
	Music or Non-Music Elective	3
	Non-Music Electives	6
<b>Total Credit Hours</b>		<b>31</b>

\* See Section 4.4: Core Music History Electives

\*\*Music Theory Electives: MUSC 2112, MUSC 2122 (Jazz Theory 1 & 2), MUSC 3150 (Orchestration), MUSC 3650 (Electroacoustic), MUSC 4330 (Advanced Analysis), Topics: Advanced Counterpoint

#### Year Four

<b>Bachelor of Music: General</b>		
MUSC 4180	Ensemble	2
MUSC 4190	Ensemble	2
MUSC 4470	Major Practical Study	6
or MUSC 4160	Major Practical Study	3
	* Core Music History Elective	3
	Music Electives (9 credit hours if MUSC 4160 is elected)	6
	Music or Non-Music Electives	6
	Non-Music Electives	6
<b>Total Credit Hours</b>		<b>31</b>

<b>Bachelor of Music: Performance</b>		
MUSC 4180	Ensemble	2

MUSC 4772	Instrumental Music Methods 1	3
MUSC 4782	Instrumental Music Methods 2	3
MUSC 4896	Cultural Perspectives for Music Educations	3

### General Notes Regarding Electives

Most electives are not offered every year; some are offered every other year and some are offered less frequently. The listing of a subject as an elective does not guarantee that it will always be available or that it will be possible to fit it into all of the many varied timetable combinations of full- and part-time students. There may be a maximum limit set on the number of students permitted to take an elective in a particular session. Similarly, there will be a minimum limit. If registration is below the minimum, the elective will be cancelled for the session, and those registered will be required to transfer to another elective before the course change deadline date. Students are urged to discuss their elective program with members of the faculty toward the end of their second and third years to obtain advice concerning the best choice of electives for their needs.

### 4.4 Core Music History Electives and Music Theory Electives

#### Core Music History Electives

In addition to the required first-year History courses (MUSC 1004 and MUSC 1014) Bachelor of Music students must choose four additional Music History electives (12 credit hours) from the chart below- two from column A and two from column B. Bachelor of Music (Music Education) students must choose two Music History elective (6 credit hours) from any of the courses listed in columns A or B.

A	B
MUSC 3034 Medieval Music History	MUSC 2072 Jazz History 1
MUSC 3044 Renaissance Music History	MUSC 2082 Jazz History 2
MUSC 3064 Baroque Music History	MUSC 3056 Plainchant and Liturgy in Medieval Europe
MUSC 3074 Classical Music History	MUSC 3090 Introduction to Ethnomusicology
MUSC 3084 Romantic Music History	MUSC 3104 History of Opera 1: From Monteverdi to Mozart
MUSC 3964 History of Western Art Music after 1900	MUSC 3114 History of Opera 2: From Mozart to the Modern Era
	MUSC 3380 From Rock to Rap and Beyond: A History of Popular Music in the 20 <sup>th</sup> Century
	MUSC 3390: From Ragtime to Rock'n'Roll: A History of Popular Music in the 20 <sup>th</sup> Century
	MUSC 3404 From New Wave to Rave: A History of Popular Music in the Late 20 <sup>th</sup> Century
	MUSC 4140: History of Canadian Music
	MUSC 4130: History of Women in Music
	MUSC 3820 or MUSC 3830 (Topics Courses)

*Note: Not all of the above listed courses will be offered every year.*

#### Music Theory Electives

- MUSC 2112- Jazz Theory 1
- MUSC 2122- Jazz Theory 2
- MUSC 3150- Orchestration
- MUSC 3650- Electroacoustic Music
- MUSC 3992- Advanced Counterpoint
- MUSC 4330- Advanced Analysis
- MUSC 3820 or MUSC 3830- Topics Course

#### 4.5 Music Minors

##### Music Minor for Students in Faculties other than the Faculty of Music

The music minor requires 18 credit hours of MUSC courses as follows:

Course Number	Course Title	Credit Hours
MUSC 1004	Introduction to Music in History 1	3
MUSC 1014	Introduction to Music in History 2	3
MUSC 1110	Music Theory 1	3
Music courses*		9

\*Students pursuing a Music Minor can take any of the music courses in the Academic Calendar for which they have the prerequisites or permission, if required, EXCEPT FOR MUSC 1400, MUSC 2400, MUSC 3470, MUSC 4160, MUSC 4470. Minor practical study (MUSC 1460, MUSC 2480, MUSC 3480, MUSC 4480) is possible with permission of the Dean.

For a minor in music, it is recommended that MUSC 1004, MUSC 1014 and Music Theory 1 be taken before all other courses.

#### Note for Ensembles:

1. All Ensembles courses are 2 credit hours each.
2. Students may take a maximum of three ensemble courses as part of a minor in music.
3. Participation in ensembles is determined by audition.

**Note:** Completion of a minor in music does not satisfy the “teachable minor” required for admission to the After Degree B.Ed. Program in middle years and senior years.

#### 4.6 Voluntary Minors

##### Effective Fall 2015:

All undergraduate Marcel A. Desautels Faculty of Music students may declare and complete a minor from faculties, schools, departments and interdisciplinary programs in which a minor is offered, provided the minor constitutes a minimum of 18 credit hours. Please contact a Faculty Advisor for more information and program planning.

## SECTION 5: Bachelor of Music (Music Education)

### 5.1a. Early Years Concentration

#### Year One

MUSC 1004	Introduction to Music in History 1	3
MUSC 1014	Introduction to Music in History 2	3
MUSC 1110	Music Theory 1	3
MUSC 1120	Music Theory 2	3
MUSC 1180	Ensemble	2
MUSC 1190	Ensemble	2
MUSC 1384	Musicianship 1	2
MUSC 1394	Musicianship 2	2
MUSC 1400	Major Practical Study	6
	*Mathematics Requirement	3
	*Written English Requirement	3
	<b>Total Credit Hours</b>	<b>32</b>

\*Can be used to fulfill the breadth component

#### Requirements for breadth component effective 2018-2019:

- 6 credit hours of English Literature and/or French Literature
- 6 credit hours of Social Studies (History and/or Geography)
- 12 credit hours of Mathematics & Science comprised of:
  - 6 credit hours of Mathematics or Statistics

- 6 credit hours from Science: Biology, Chemistry, Environmental Science, Geological Science or Physics

**Year Two**

MUSC 2100	Introduction to Music Teaching and Learning	3
MUSC 2110	Music Theory 3	3
MUSC 2120	Music Theory 4	3
MUSC 2180	Ensemble	2
MUSC 2190	Ensemble	2
MUSC 2384	Musicianship 3	2
MUSC 2394	Musicianship 4	2
MUSC 2400	Major Practical Study	6
MUSC 2460	Conducting	3
	Breadth Requirement	6
	Music History Elective	3
	<b>Total Credit Hours</b>	<b>35</b>

**Year Three**

MUSC 3102	Composition, Technology and Improvisation for Music Educators	3
MUSC 3200, or	Orff-Schulwerk 1 (Summer Term)	6
MUSC 3220	Kodály Music Education (Summer Term)	6
MUSC 3180	Ensemble	2
MUSC 3190	Ensemble	2
MUSC 3470	Major Practical Study	6
MUSC 3772	Vocal Pedagogy for Choirs	3
MUSC 4752	Elementary and Middle Years Choral Methods	3
	Teachable Minor	6
	Breadth Requirement	6
	<b>Total Credit Hours</b>	<b>37</b>

**Year Four**

MUSC 3730	Early Music Development	3
MUSC 4160	Major Practical Study	3
MUSC 4180	Ensemble	2
MUSC 4190	Ensemble	2
MUSC 4896	Cultural Perspectives for Music Educators	3
	Teachable Minor	6
	Breadth Requirement	6
	Music History Elective	3
	<b>Total Credit Hours</b>	<b>28</b>
	<b>Total Degree Credit Hours</b>	<b>132</b>

**5.1b. Early Years Concentration (With “W” or “Math” Requirement as Teachable Minor)**

**Year One**

MUSC 1004	Introduction to Music in History 1	3
MUSC 1014	Introduction to Music in History 2	3
MUSC 1110	Music Theory 1	3
MUSC 1120	Music Theory 2	3
MUSC 1180	Ensemble	2
MUSC 1190	Ensemble	2
MUSC 1384	Musicianship 1	2

MUSC 1394	Musicianship 2	2
MUSC 1400	Major Practical Study	6
	*Mathematics Requirement	3
	*Written English Requirement	3
	<b>Total Credit Hours</b>	<b>32</b>

**\*Can be used to fulfill the breadth component (Math requirement may not be MUSC 3230 Acoustics of Music)**

**Requirements for breadth component effective 2018-2019:**

- 6 credit hours of English Literature and/or French Literature
- 6 credit hours of Social Studies (History and/or Geography)
- 12 credit hours of Mathematics & Science comprised of:
  - 6 credit hours of Mathematics or Statistics
  - 6 credit hours from Science: Biology, Chemistry, Environmental Science, Geological Science or Physics

**Year Two**

MUSC 2100	Introduction to Music Teaching and Learning	3
MUSC 2110	Music Theory 3	3
MUSC 2120	Music Theory 4	3
MUSC 2180	Ensemble	2
MUSC 2190	Ensemble	2
MUSC 2384	Musicianship 3	2
MUSC 2394	Musicianship 4	2

### 6.5 Fifth Year: 1997-2012

<b>Integrated Bachelor of Music/Bachelor of Education Program</b>		
EDUB 2980	Senior Years School Experience	6
EDUA 1800	Psychology of Learning and Instruction 1: Theory and Practice	3
EDUA 1810	School and Society 1: The Foundations of Education	3
EDUB 1990	Teacher and Technology	3
EDUA 2800	Psychology of Learning and Instruction 2: Inclusive Special Education	3
EDUA 2810	School and Society 2: The Administrative Foundations of Education	3
EDUB 2500	Themes in Senior Years Education (for Early/Middle Years specialization, students may take a 3 credit hour Education complementary course)	3
EDUB 2510	Language and Literacy Across the Curriculum (for Early/Middle Years specialization, students may take a 3 credit hour Education complementary course)	3
EDUB 1XXX	Students with a Music teachable minor take an Education Complementary Course. (admitted to Faculty of Education September 2008 or earlier). Students admitted September 2009 and beyond take a Year 1 Curriculum & Instruction Course in their minor area.	3
<b>Total Credit Hours</b>		<b>30</b>
Further information about the integrated program is in the chapter for the Faculty of Education.		

### 6.6 Teachable Minors

Currently under review.

## SECTION 7: Post-Baccalaureate Diploma in Performance

The Marcel A. Desautels Faculty of Music offers a Post-Baccalaureate Diploma in Performance (PBDP) designed for musicians who wish to further their performance skills in preparation for further study or professional activity. The unique features of the PBDP program are that students can design their own program of study and tailor it to their own areas of interest. They may take courses at the Faculty as well as in other faculties and schools at the University of Manitoba.

### 7.1 Admission Requirements

Applicants for Admission must submit the completed application form and fee, and must possess a Bachelor of Music degree or a Conservatory Diploma taken in residence. They must also pass an entrance audition, which requires the performance of three works of contrasting styles and/or historical periods appropriate to the audition medium. This audition would normally be held in person, but video auditions may be accepted where distance is a prohibitive factor. Application materials which misrepresent the level of performance ability will be treated as fraudulent, resulting in dismissal from the program. Admission may not be possible for all qualified applicants, as it is dependent on the number of spaces available, the major practical study area, and instructor availability. Applicants who hold the PBDP from the University of Manitoba (or an equivalent Post-Baccalaureate one-year program from another institution) may apply for a second PBDP if studying a different applied instrument than that of their first PBDP in their Major Practical Study, and Recital courses, and if the remaining course credits taken do not duplicate those of the first PBDP.

### 7.2 Admission Procedures

Applications are made through the University's "Apply Yourself" system and creation of a UMConnect profile. Application deadlines are: February 15 to

begin a program in September (Fall Term), or June 15 to begin a program in January (Winter Term).

All those who complete the application and provide the required documentation are granted an audition. Audition dates are scheduled as required.

It is recommended that students be admitted for a program start in Fall Term.

### 7.3 Program Requirements

MUSC 5400 Major Practical Study, 6 credit hours

MUSC 5560 Recital, 6 credit hours

MUSC 5180 Ensemble, 3 credit hours

Electives: chosen from available 3000 and 4000 level courses recommended by the Faculty Advisor and approved by the Faculty, 15 credit hours

Total Credit Hours: 30

Note: A minimum of 18 credit hours must be taken in the Marcel A. Desautels Faculty of Music (although all 30 may be taken within the Faculty).

Reminder: While Faculty staff and faculty are available to clarify Faculty and university regulations and degree requirements, it is the student's responsibility to ensure that diploma and program requirements are met.

### 7.4 Academic Standing

Regulations for the Post-Baccalaureate Diploma program regarding academic standing, scholastic progress, attendance, required GPA, probation and suspension will follow those governing the Bachelor of Music and Bachelor of Jazz Studies programs as outlined in the Faculty Student Handbook.

### 7.5 Maximum Time Limits

Expected time to complete program: 1 year. The maximum time allowed for completing the Post-Baccalaureate Diploma program is 3 years. The Dean may grant extensions for medical or compassionate reasons. Medical: A letter from the student's physician stating the diagnosis and treatment with projected recovery. Compassionate: A letter from the student outlining the reasons for the extension showing that extenuating circumstances beyond the student's control have contributed to the need for an extension. Students will not be permitted to transfer for credit any course completed more than five years prior to the completion date of the diploma.

### 7.6 Courses Available

Undergraduate 3000 and 4000 level courses approved by the Dean may be used as electives in designing the program of study. Students will register for their courses after their program has been determined in consultation with their Major Practical Study instructor who will act as an advisor during the PBDP. Students may not count toward the PBDP any courses that counted for credit in a previous degree.

### 7.7 Credit Transfer

The Student Advisor in the faculty will process transfer of credits into the PBDP program. A maximum of 12 credit hours of courses may be transferred into the PBDP program provided that they have not counted toward any previous degree. A minimum of 18 credit hours must be taken within the Faculty, although up to the full 30 credit hours of the diploma program may be taken within the Faculty. Transfer of credits from the PBDP program into the Master of Music processed through the Faculty of Graduate Studies. Courses may not be counted for more than one degree, and may be transferred from the PBDP to the Master of Music only if they

have not been counted toward the PBPD, or more than the minimum credit hours have been taken.

## 7.8 Assessment

**Student Assessment:** Type of evaluation: Academic freedom dictates that there will be variation between classes according to the professor's preferred systems, approaches, materials, readings, and assignments. However, the University of Manitoba regulations as outlined in the General Calendar state that within the first week of lectures, instructors must inform the class of the method of evaluation to be used in each course. **Minimum Grade Requirements:** In the Faculty students must attain a grade of "C" or higher for a course to count toward a degree, except in the case of Recital where a minimum of "B" is required. The PBPD program will be governed by these regulations, as outlined in the Faculty Student Handbook. Should the student transfer to another faculty in the university that faculty's regulations would apply relating to transfer of credit. Successful completion of the program will be achieved by receiving a "C" or higher in 30 credit hours. **Teacher Assessment:** The SEEQ course evaluations will be used in the PBPD program for academic courses, and the Faculty's specialized forms will be used for the performance-related courses.

## SECTION 8: Offerings for Non-Music Students

### 8.1 Courses Offered in the Bachelor of Music and Bachelor of Jazz Studies Program for Students in Other Faculties

Some courses are offered outside the Bachelor of Music and Bachelor of Jazz Studies programs for students in other faculties. For information, contact the Marcel A. Desautels Faculty of Music Student Advisor.

Two courses are available without pre-requisites or special permission from Music, for non-music students:

**MUSC 1050 - Well-Tempered Concert-Goer**, 3 credit hours, may be used towards a Music Minor

**MUSC 1930 - Rudiments of Music**, 3 credit hours, is not applicable to a Music Minor

For information on completing a Music Minor in another faculty, please refer to Section 4.5 in the Marcel A. Desautels Faculty of Music calendar.

## SECTION 9: Music Course Descriptions

### SECTION 9: Music Course Descriptions 1000 Level

#### **MUSC 1004 Introduction to Music in History 1** 3 Cr. Hrs.

A survey of Western music from early monophony to c. 1750 through an examination of genres and aesthetic foundations. The course will include comparison to non-Western musical traditions.

#### **MUSC 1014 Introduction to Music in History 2** 3 Cr. Hrs.

A continuation of MUSC 1004, covering the eras from c. 1750 to the present. A survey of Western music from c. 1750 to the present through an examination of genres and aesthetic foundations. The course will include contemporary art music and comparison to non-Western musical traditions. Prerequisite: MUSC 1004 or consent of the Faculty of Music.

#### **MUSC 1050 The Well-Tempered Concert-Goer** 3 Cr. Hrs.

This course is an introduction to the art of music with the listening component based on attendance at live performances by Winnipeg's superior performing ensembles. Topics include instruments of the orchestra, musical materials, forms and structures, historical periods and biographical information on composers. This course may not be used for credit towards the Bachelor of Music or Bachelor of Jazz Studies degree.

#### **MUSC 1110 Music Theory 1** 3 Cr. Hs.

This course is designed to develop fluency in the writing and recognition of the elements of music: melodic and harmonic intervals, modes and scales, rhythm and metre, triads and inversions, and the principles of melodic and

homophonic design. This course is normally restricted to students admitted to the Bachelor of Music or Bachelor of Jazz Studies program. Non-Music students will only be admitted if there is sufficient room in the class. Prerequisite: MUSC 1930 with a grade of "C" or better, or knowledge of music rudiments demonstrated by a rudiments test administered by the Faculty of Music before the first day of classes.

#### **MUSC 1120 Music Theory 2** 3 Cr. Hrs.

An examination of the idioms of vocal melody through the writing and analysis of duple paraphrase, duple- and syncopated-rhythm counter-point in two parts, and tonal homophony leading to the Chorale phrase and Bar form. Prerequisite: a grade of "C" or better in MUSC 1110.

#### **MUSC 1180 Ensemble** 2 Cr. Hrs.

Participation in University Symphony Orchestra, University Wind Ensemble, Women's Choir, Concert Choir, University Jazz Orchestra, University Concert Band or University Singers, as is appropriate to the student's background and/or major applied area (placement to be determined by ensemble committee).

#### **MUSC 1182 Jazz Ensemble 1** 2 Cr. Hrs.

Participation in jazz ensemble(s) as assigned by the ensemble committee.

#### **MUSC 1190 Ensemble** 2 Cr. Hrs.

Participation in a Faculty of Music Ensemble other than the one designated in MUSC 1180 (placement to be determined by the Ensemble Committee).

#### **MUSC 1192 Jazz Rhythm Performance Techniques** 2 Cr. Hrs.

A practical approach to rhythmic proficiency in jazz, including emphasis on rhythmic and harmonic etudes, standard song form interpretation, interaction, call and response language for jazz performance.

#### **MUSC 1280 Musical Style and Structure 1** 3 Cr. Hrs.

An integrated study of the history and theory of Western music to 1750. Prerequisite: MUSC 1930 or Conservatory Canada Grade 4 Theory or RCM Advanced Rudiments or consent of the Faculty of Music. Continuation in the Music Minor requires a grade "C" or better in this course. This course may not be used as credit towards the Bachelor of Music or the bachelor of Jazz Studies degree.

#### **MUSC 1290 Musical Style and Structure 2** 3 Cr. Hrs.

An integrated study of the history and theory of Western music from 1750 to the present. Prerequisite: MUSC 1280 (or 033.128) or consent of the Faculty of Music. Continuation in the Music Minor requires a grade of "C" or better in this course. This course may not be used for credit towards the Bachelor of Music or the Bachelor of Jazz Studies degree.

#### **MUSC 1384 Musicianship 1** 3 Cr. Hrs.

A practical approach to the cultivation of critical aural perception, specifically, to develop the student's sight-singing, transcription and keyboard skills. Not to be held with MUSC 1380. For music students only.

#### **MUSC 1394 Musicianship 2** Cr. Hrs. 3

A continuation of MUSC 1384. Prerequisite: MUSC 1384. Not to be held with MUSC 1390. For music students only.

#### **MUSC 1400 Major Practical Study** 3 Cr. Hrs.

Individual instruction in one of the following: any of the standard orchestral instruments (strings, woodwinds, brasses, percussion), classical guitar, harp, harpsichord, lute, organ, piano, recorder composition or voice. An important constituent of the grading procedure for this course is performance in, and attendance at, the recitals/concerts of the Faculty of Music. For Music students only.

#### **MUSC 1404 Introduction to Composition 1** 3 Cr. Hrs.

A study of contemporary theoretical and practical approaches to rhythm, pitch, timbre, texture and form. For Music students only or with permission from the Faculty of Music.

#### **MUSC 1414 Introduction to Composition 2** 3 Cr. Hrs.

A continuation of MUSC 1404 Introduction to Composition 1. Prerequisite: MUSC 1404. For Music students only or with permission from the faculty of Music.

**MUSC 1460 Minor Practical Study 3 Cr. Hrs.**

Individual instruction in an area other than that selected for MUSC 1400 or in composition by special permission. Written consent of the director is required prior to registration.

**MUSC 1930 Rudiments of Music 3 Cr. Hrs.**

An introduction to fundamental aspects of music such as sound generation, notation, melodic and harmonic construction, with emphasis on an aural approach. This course may not be used for credit towards the Bachelor of Music or the Bachelor of Jazz Studies degree.

**SECTION 9: Music Course Descriptions-2000 Level****MUSC 2072 Jazz History 1 3 Cr. Hrs.**

A broad survey of the development of jazz and early popular styles of the 20th Century up until the early 1950s. This course is designed to reveal the origins of modern jazz and conventional jazz performance practices. Prerequisite: MUSC 1014 or consent of the Faculty of Music.

**MUSC 2082 Jazz History 2 3 Cr. Hrs.**

A broad survey of jazz styles from 1950 to the present, with an emphasis on the development of contemporary performance practices. Prerequisite: MUSC 2072 or consent of the Faculty of Music.

**MUSC 2100 Introduction to Music Teaching and Learning****3 Cr. Hrs.**

This course provides an introduction to philosophical, sociological, and psychological perspectives relevant to music teaching and learning, including reflective practice, development of music teacher identity, and critical analysis of pedagogical principles.

**MUSC 2110 Music Theory 3 3 Cr. Hrs.**

An examination of the idioms of instrumental melody through the writing and analysis of triple paraphrase, triple- and quadruple-rhythm counterpoint in two parts, and chromatic homophony leading to the Minuet and binary form. Prerequisite: MUSC 1120 or the consent of the Faculty of Music.

**MUSC 2112 Jazz Theory 1 3 Cr. Hrs.**

This course is designed to develop fluency in the writing and recognition of the elements of jazz: melodic and harmonic intervals, modes and scales, rhythm and meter, harmonic structure, and the principles of melodic and homophonic design. Prerequisite: MUSC 1120 or consent of the Faculty of Music.

**MUSC 2120 Music Theory 4 3 Cr. Hrs.**

An examination of the diffusion of tonality in instrumental textures through the writing and analysis of chromatic paraphrase, florid counterpoint in two parts and chromatically-extended homophony leading to the Cavatina and ternary form. Prerequisite: MUSC 2110 or consent of the Faculty of Music.

**MUSC 2122 Jazz Theory 2 3 Cr. Hrs.**

A continuation of Jazz Theory 1. New topics will include transcription analysis, transposition of lead sheets, modal and substitute harmony. Prerequisite: MUSC 2112 or consent of the Faculty of Music.

**MUSC 2180 Ensemble 2 Cr. Hrs.**

Participation in University Symphony Orchestra, University Wind Ensemble, Women's Choir, Concert Choir, University Jazz Orchestra, University Concert Band or University Singers, as is appropriate to the student's background and/or major applied area (placement to be determined by ensemble committee). Prerequisite: MUSC 1180 or consent of the Faculty of Music.

**MUSC 2182 Jazz Ensemble 2 2 Cr. Hrs.**

Participation in jazz ensemble(s) as assigned by the ensemble committee. Prerequisite: MUSC 1182 or consent of the Faculty of Music.

**MUSC 2190 Ensemble 2 Cr. Hrs.**

Participation in a Faculty of Music Ensemble other than the one designated in MUSC 2180 (placement to be determined by Ensemble Committee). Prerequisite: MUSC 1190 or consent of the Faculty of Music.

**MUSC 2192 Jazz Improvisation 1 2 Cr. Hrs.**

A course designed to give the student practical application of rhythmic

devices, rhythmic modes, melodic and harmonic devices, scales, chords, and substitutions in the context of song forms, song fragments, repertoire. The student will be required to keep a journal of melodic devices and original jazz compositions. Prerequisite: MUSC 1120 or consent of the Faculty of Music.

**MUSC 2384 Musicianship 3 3 Cr. Hrs.**

A continuation of MUSC 1394. Prerequisite: MUSC 1394. Not to be held with MUSC 2380. For music students only.

**MUSC 2394 Musicianship 4 3 Cr. Hrs.**

A continuation of MUSC 2384. Prerequisite: MUSC 2384. Not to be held with MUSC 2390. For music students only.

**MUSC 2400 Major Practical Study 6 Cr. Hrs.**

Individual instruction, normally in the area chosen in MUSC 1400. An important constituent of the grading procedure for this course is performance in and attendance at the recitals/concerts of the Faculty of Music. For Music students only. Prerequisite: MUSC 1400 or MUSC 1414.

**MUSC 2460 Conducting 3 Cr. Hrs.**

The principles and development of baton technique and expressive gestures. Fundamentals of vocal and instrumental score reading, preparation and interpretation. Prerequisites: MUSC 1120 or equivalent, or consent of the Faculty of Music.

**MUSC 2480 Minor Practical Study 3 Cr. Hrs.**

Individual instruction in an area other than that selected for MUSC 2400. Normally a continuation of MUSC 1460. Written consent of the director is required to register.

**SECTION 9: Music Course Descriptions-3000 Level****MUSC 3010 Advanced Diction 1 3 Cr. Hrs.**

Advanced training in rules of pronunciation, language use and translation skills in Italian and German. May not be held with MUSC 3820 when titled Advanced Diction 1. Prerequisite: Consent of the Faculty of Music.

**MUSC 3012 Advanced Diction 2 3 Cr. Hrs.**

Advanced training in rules of pronunciation, language use and translation skills in French and English. May not be held with MUSC 3820 when titled Advanced Diction 2. Prerequisite: Consent of the Faculty of Music.

**MUSC 3034 Medieval Music History 3 Cr. Hrs.**

A study of music history with emphasis on historical, stylistic, and cultural developments and issues of the Middle Ages. May not be held with the former MUSC 1070 or the former MUSC 3054. Prerequisite: MUSC 1014 or consent of the Faculty of Music.

**MUSC 3044 Renaissance Music History 3 Cr. Hrs.**

A study of music history with emphasis on historical, stylistic, and cultural developments and issues of the Renaissance. May not be held with the former MUSC 1070 or the former MUSC 3054. Prerequisite: MUSC 1014 or consent of the Faculty of Music.

**MUSC 3050 Research Methods 3 Cr. Hrs.**

Techniques of bibliography and expository writing in music. Minor research projects in selected areas; the use of primary and secondary sources.

**MUSC 3056 Plainchant and Liturgy in Medieval Europe 3 Cr. Hrs.**

Intensive study of plainchant and liturgy in medieval Europe. Topics will include the development and standardization of "Gregorian" chant, issues of style and genre, related repertoires, and issues of historiography and performance practice. May not be held with MUSC 3830 when titled Seminar in Gregorian Chant. Prerequisite: Consent of the Faculty of Music.

**MUSC 3064 Baroque Music History 3 Cr. Hrs.**

A history of European art music from the late 16th to the early 18th centuries (the so-called Baroque period) beginning with the invention of opera and the monodic and concerted styles in Italy and their subsequent adoption in the rest of Europe and the emergence of national schools and culminating in the works of Bach and Handel. Prerequisites: MUSC 1014 or consent of the Faculty of Music. Not to be held with MUSC 1080.

**MUSC 3074 Classical Music History 3 Cr. Hrs.**

A history of European art music from the early-18th to the early-19th centuries (the so-called Classical period) beginning with the innovations of Neapolitan opera and sinfonia their subsequent adoption in the rest of Europe, culminating in the Viennese school of Haydn, Mozart and Beethoven. Prerequisites: MUSC 1014 or consent of the faculty of Music. Not to be held with MUSC 2070.

**MUSC 3084 Romantic Music History 3 Cr. Hrs.**

A study of the changing styles, forms and contexts of music from the late 18th century to 1915 (the Romantic Period). Prerequisites: MUSC 1014 or consent of the Faculty of Music. Not to be held with MUSC 2080.

**MUSC 3090 Introduction to Ethnomusicology 3 Cr. Hrs.**

A study of style, performance methods and social role of selected non-Western and indigenous Western music, with particular emphasis on native Canadian music, through readings in field studies and methodology. Prerequisite: MUSC 1014.

**MUSC 3100 Opera Repertoire 3 Cr. Hrs.**

The nature of the opera, its beginnings and development to modern times.

**MUSC 3102 Composition, Technology and Improvisation for Music Educators 3 Cr. Hrs.**

This course explores the development of musical creativity through active participation in composition, improvisation, and informal music learning. Students will engage with a variety of activities, strategies and tools appropriate for numerous music education contexts.

**MUSC 3104 History of Opera 1: from Monteverdi to Mozart 3 Cr. Hrs.**

A history of opera from its origins to the late eighteenth century, tracing various styles, genres and composers through representative works in the central Italian, as well as the French, English and German schools. Prerequisites: MUSC 1014 or consent of the Faculty of Music.

**MUSC 3112 Jazz Composition and Arranging 1 3 Cr. Hrs.**

A study of the fundamentals of part writing such as instrumental range and transposition, various styles of unison writing, simple harmonic writing, melodic, harmonic and rhythmic devices along with standard and non-standard song structures. Course will culminate in a recital of student compositions and arrangements. Prerequisite: MUSC 2122 or consent of the Faculty of Music.

**MUSC 3114 History of Opera II: from Mozart to the Modern Era 3 Cr. Hrs.**

A history of opera from the late 18th century and the masterpieces of Mozart to the present, tracing the various styles, genres and composers through representative works. Prerequisite: MUSC 1014 or consent of the faculty of Music.

**MUSC 3116 Standard Orchestral Excerpts and Solos 1 (Cello and Bass) 3 Cr. Hrs.**

An in-depth study of standard orchestral excerpts for Cello and Bass from the Baroque and Classical eras, with emphasis on technical and stylistic analysis, execution, and preparation for professional auditions and performance. May not be held with MUSC 3830 when titled Cello Orchestral Excerpts Part 1. Performance stream students (Cello and Bass) only. Prerequisite: Instructor approval.

**MUSC 3118 Standard Orchestral Excerpts and Solos 2 (Cello and Bass) 3 Cr. Hrs.**

An in-depth study of standard orchestral excerpts for Cello and Bass from the Romantic and Modern eras, with emphasis on technical and stylistic analysis, execution, and preparation for professional auditions and performance. May not be held with MUSC 3830 when titled Cello Orchestral Excerpts Part 2. Performance stream students (Cello and Bass) only. Prerequisite: Instructor approval.

**MUSC 3150 Orchestration 3 Cr. Hrs.**

A study of the technical capabilities and tonal characteristics of orchestral instruments, as well as practical scoring and arranging for various groups,

from chamber to full orchestra and band. Prerequisite: MUSC 2120 or MUSC 2122 or consent of the Faculty of Music.

**MUSC 3180 Ensemble 2 Cr. Hrs.**

Participation in University Symphony Orchestra, University Wind Ensemble, Women's Choir, Concert Choir, University Jazz Orchestra, University Concert Band or University Singers, as is appropriate to the student's background and/or major applied area (placement to be determined by ensemble committee). Prerequisite: MUSC 2180 or consent of the Faculty of Music.

**MUSC 3182 Jazz Ensemble 3 2 Cr. Hrs.**

Participation in jazz ensemble(s) as assigned by the ensemble committee. Prerequisite: MUSC 2182 or consent of the Faculty of Music.

**MUSC 3190 Ensemble 2 Cr. Hrs.**

Participation in a Faculty of Music Ensemble other than the one designated as appropriate to MUSC 3180 (placement to be determined by Ensemble Committee). Prerequisite: MUSC 2190 or consent of the Faculty of Music.

**MUSC 3192 Jazz Improvisation 2 2 Cr. Hrs.**

A continuation of Jazz Improvisation 1. Rhythmic devices, rhythmic modes, melodic and harmonic devices, scales, chords and substitutions in the context of song form, song fragments, repertoire. The student will be required to keep a journal of melodic devices and original jazz compositions. Prerequisite MUSC 2192 or consent of the Faculty of Music.

**MUSC 3200 Orff Schulwerk 1 6 Cr. Hrs.**

(Lab required) The philosophy, techniques and materials in Orff-Schulwerk, including practical activities in the areas of Basic Orff, creative movement, recorder, aural skills, and choral techniques. Applicants should have a working knowledge of music rudiments. May not be held with the former MUSC 3130 or the former MUSC 3106, or MUSC 3360 when titled Choral, Recorder and Movement. Prerequisite: A grade of "C" or better in MUSC 1930 or consent of instructor.

**MUSC 3220 Kodály Music Education 1 6 Cr. Hrs.**

(Lab required) An introduction to contemporary Kodály-inspired pedagogy for preschool and early years contexts. In addition to exploring philosophy, practice, and materials for music teaching and learning, course participants will have opportunities to develop their personal vocal, musicianship and conducting skills in the lab component. May not be held with the former MUSC 3108 or MUSC 3360 when titled Kodály 1: Pedagogy and Materials. Prerequisite: a grade of "C" or better in MUSC 1930 or consent of the Instructor.

**MUSC 3222 Kodály Music Education 2 6 Cr. Hrs.**

(Lab required) Inspired pedagogy, lesson planning, and project work for upper elementary and middle years with continued development of musicianship, conducting, and ensemble music-making in the lab component. Prerequisite: MUSC 3220 or the former MUSC 3108 or consent of the Instructor.

**MUSC 3230 Acoustics of Music 3 Cr. Hrs.**

A study of the physical basis of music; consideration of the nature of musical sound, tone production of typical musical instruments, scales, and temperaments, and architectural acoustics. Experiments and projects.

**MUSC 3270 Performance Skills 3 Cr. Hrs.**

For performance majors in the Faculty of Music. Provides training in performance-related skills of the music profession, including such topics as acting, body awareness, self-promotion, career management, master classes, concert organizing, concert promotion and participation.

**MUSC 3272 Jazz Performance Skills 3 Cr. Hrs.**

A course designed to equip the student with the techniques necessary to rehearse, interact and perform effectively with an ensemble in various situations.

**MUSC 3360 Topics in Music Education 3 Cr. Hrs.**

This course may vary from year to year depending on the needs and interests of instructors and students.

**MUSC 3380 From Rock to Rap and Beyond: A History of Popular Music in the Later 20th Century 3 Cr. Hrs.**

A survey of popular music in North America and Britain from the mid-sixties

to the present, beginning with the two foremost bands of the British Invasion, the Beatles and Stones, and the development of folk rock....The nineties focuses on the continual mainstreaming of music on the edge of rap, alternative and world beat. Prerequisite: MUSC 1014 or consent of the Faculty of Music.

**MUSC 3390 From Ragtime to Rock 'n' Roll: A History of Popular Music in the 20th Century** **3 Cr. Hrs.**

A survey of popular music in North America from the ragtime craze and Tin Pan Alley tradition, through the development of blues and country to the emergence of Rhythm and Blues and Rock 'n' Roll to the beginnings of the British Invasion. Prerequisite: MUSC 1014 or consent of the Faculty of Music.

**MUSC 3404 From New Wave to Rave: A History of Popular Music in the Late 20th Century** **3 Cr. Hrs.**

A survey of popular music from the end of twentieth century, beginning with the revolutions that occurred during the late seventies and early eighties (disco and rap, punk and hardcore) that transformed pop music, setting the course for music of the two final decades of the century. Prerequisite: MUSC 1014 or consent of the Faculty of Music.

**MUSC 3442 Jazz Pedagogy 1** **3 Cr. Hs.**

A course designed to instruct jazz musicians on procedure and methodology for teaching jazz song form, rhythmic concepts, repertoire and history to K-8 students. Class members will teach and perform with students from the Faculty of Music Preparatory Division.

**MUSC 3470 Major Practical Study** **6 Cr. Hrs.**

Individual instruction, normally in the area chosen in MUSC 2400. An important component of the grading procedure for this course is performance in and attendance at the recitals/concerts of the Faculty of Music. Prerequisite: MUSC 1014, MUSC 1120, MUSC 1394, and MUSC 2400. For Music students only.

**MUSC 3480 Minor Practical Study** **3 Cr. Hrs.**

Individual instruction in an area other than that selected for Major Practical Study. Normally a continuation of MUSC 2480. Written consent from the Faculty of Music is required prior to registration.

**MUSC 3550 Recital 1** **3 Cr. Hrs.**

The program must be approved by the applied instructor and the jury members. Prerequisite: MUSC 1014, MUSC 1120, MUSC 1394, and MUSC 2400, or consent of the Faculty of Music. For Music students only.

**MUSC 3554 Jazz Recital 1** **3 Cr. Hrs.**

Preparation and performance of a public recital. The program must be approved by the applied instructor and jury members. Prerequisite: MUSC 1014, MUSC 1120, MUSC 1394, and MUSC 2400 or consent of the Faculty of Music. For Music students only.

**MUSC 3620 Independent Study 1** **3 Cr. Hrs.**

Individual project designed by the student and a supervising faculty member. This study may be in an academic or applied area. Approval from the Faculty of Music is required.

**MUSC 3650 Electroacoustic Music** **3 Cr. Hrs.**

An introduction to electroacoustic music composition with the focus on acousmatic music. The course covers sound aesthetics, historical perspective of electro-acoustic music, repertoire and basic studio techniques such as sound editing, digital signal processing, multi-channel techniques and sound mixing.

**MUSC 3690 Percussion Techniques** **3 Cr. Hrs.**

Class instruction in percussion instruments. Development of basic playing techniques and examination of materials and procedures for individual and group instruction. Prerequisite: MUSC 2460 or consent of the Faculty of Music.

**MUSC 3730 Early Music Development** **3 Cr. Hrs.**

Procedures and materials for the development of musicality in children through listening activities, movement, creativity, singing and classroom instruments. Pre- or corequisite: MUSC 2460 or the former MUSC 3770 or consent of the Faculty of Music.

**MUSC 3772 Vocal Pedagogy for Choirs** **3 Cr. Hrs.**

The study of basic principles of vocal pedagogy and technique as they apply to educational settings and choral contexts. Study of the anatomy and physiology of breathing, phonation, and resonant tone production. Overview of stages of vocal development, and introduction to diction of choirs. Examination of materials and procedures for group vocal instruction. May not be held with the former MUSC 3770. Prerequisite: MUSC 2460 or consent of the Instructor.

**MUSC 3780 Woodwind Techniques** **3 Cr. Hrs.**

Class instruction in woodwind instruments. Development of music playing techniques and examination of materials and procedures for individual and group instruction. Prerequisite: MUSC 2460 or consent of the Faculty of Music.

**MUSC 3790 Brass Techniques** **3 Cr. Hs.**

Class instruction in brass instruments. Development of basic playing techniques and examination of materials and procedures for individual and group instruction. Prerequisite: MUSC 2460 or consent of the Faculty of Music.

**MUSC 3800 String Techniques** **3 Cr. Hrs.**

Class instruction in string instruments. Development of basic playing techniques and examination of materials and procedures for individual and group instruction. Prerequisite: MUSC 2460 or consent of the Faculty of Music.

**MUSC 3820 Topics in Music** **3 Cr. Hrs.**

This course may vary from year to year depending on the needs and interests of instructors and students.

**MUSC 3830 Topics in Music** **3 Cr. Hrs.**

This course may vary from year to year depending on the needs and interests of instructors and students.

**MUSC 3884 Introduction to Jazz for Music Educators** **3 Cr. Hrs.**

Procedures for organizing, rehearsing, and directing small and large group jazz ensembles. Study of repertoire and performance materials, with emphasis on personal understanding of jazz improvisation and style. Prerequisites: MUSC 2460 or consent of the Faculty of Music. Not to be held with MUSC 3880.

**MUSC 3894 Guitar Techniques** **3 Cr. Hrs.**

Class instruction in guitar technique. Development of basic techniques and examination of materials and procedures for individual and group instruction. Prerequisite: MUSC 2460 or consent of the Faculty of Music.

**MUSC 3964 History of Western Art Music After 1900** **3 Cr. Hrs.**

A survey of the processes, contexts and conceptual constructs of Western art music from 1900 to present. Prerequisites: MUSC 1014 or consent of the Faculty of Music.

**MUSC 3974 Music Theory After 1900** **3 Cr. Hrs.**

A survey of music theoretical approaches, analytical techniques and compositional trends in Western art music from 1900 to the present. Prerequisite: MUSC 2120 or MUSC 2122, or consent of the Faculty of Music.

**MUSC 3992 Advanced Counterpoint** **3 Cr. Hrs.**

The study of contrapuntal structures in modal, tonal, neo-tonal and/or post-tonal music. This course will include the analysis of composition in two or more parts in a variety of historical genres, and the creation of pieces modeled directly on the works studied. May not be held with MUSC 3820 when titled Advanced Counterpoint. Prerequisites: MUSC 1014 and MUSC 2120.

**SECTION 9: Music Course Descriptions-4000 Level**

**MUSC 4010 French Diction and Repertoire** **3 Cr. Hrs.**

Specialized instruction in French diction, translation and transcription using the International Phonetic Alphabet, with direct application to performance activities in French vocal repertoire. This course will be rotated on a three-year cycle with MUSC 4020 and MUSC 4030.

**MUSC 4020 Italian Diction and Repertoire 3 Cr. Hrs.**

Specialized instruction in Italian diction, translation and transcription using the International Phonetic Alphabet, with direct application to performance activities in Italian vocal repertoire. This course will be rotated on a three-year cycle with MUSC 4010 and MUSC 4030.

**MUSC 4030 German Diction and Repertoire 3 Cr. Hrs.**

Specialized instruction in German diction, translation and transcription using the International Phonetic Alphabet, with direct application to performance activities in German vocal repertoire. This course will be rotated on a three-year cycle with MUSC 4010 and MUSC 4020.

**MUSC 4110 Special Area Paper 3 Cr. Hrs.**

The student will select a particular area of special interest or significance, work under supervision of a faculty member, and present results in an extended paper. Prerequisites: (MUSC 2120 or MUSC 2122), MUSC 2394 and MUSC 3470. For Music students only.

**MUSC 4112 Jazz Composition and Arranging 2 3 Cr. Hrs.**

A continuation of Jazz Composition and Arranging 1. The student will write for larger ensembles, including jazz orchestra. Course will culminate in a recital of student compositions and arrangements. Prerequisite: MUSC 3112 or consent of the Faculty of Music.

**MUSC 4130 History of Women in Music 3 Cr. Hrs.**

A study of the female contribution to the art of music from the Middle Ages to the present; emphasis on the changing roles of, and attitudes towards, women as composers and performers. Prerequisite: MUSC 1014 or consent of the Faculty of Music.

**MUSC 4140 History of Canadian Music 3 Cr. Hrs.**

A survey of music in Canada from Colonial times to the present, encompassing both folk, popular and classical traditions.

**MUSC 4156 Choral Music Literature and Programming 3 Cr. Hrs.**

Survey of historic and contemporary choral repertoire including major choral forms, composers, and performance practice, with a focus on representative works. Introduction to concert programming and planning for diverse choral ensembles. Examination of materials and resources for organizing and administering community, church, and school coral programs. May not be held with the former MUSC 4150 or the former MUSC 4154. Prerequisite: MUSC 2460 or consent of Instructor.

**MUSC 4160 Major Practical Study 3 Cr. Hrs.**

Individual instruction, normally in the area chosen in MUSC 3470. An important constituent of the grading procedure for this course is performance in and attendance at the recitals/concerts of the Faculty of Music. For Music students only.

**MUSC 4180 Ensemble 2 Cr. Hrs.**

Participation in University Symphony Orchestra, University Wind Ensemble, Women's Choir, Concert Choir, University Jazz Orchestra, University Concert Band or University Singers, as is appropriate to the student's background and/or major applied area (placement to be determined by ensemble committee). Prerequisite: MUSC 3180 or consent of the Faculty of Music.

**MUSC 4182 Jazz Ensemble 4 2 Cr. Hrs.**

Participation in jazz ensemble(s) as assigned by the ensemble committee. Prerequisite: MUSC 3182 or consent of the Faculty of Music.

**MUSC 4190 Ensemble 2 Cr. Hrs.**

Participation in a Faculty of Music Ensemble other than the one designated in MUSC 4180 (placement to be determined by Ensemble Committee). Prerequisite: MUSC 3190 or consent of the Faculty of Music.

**MUSC 4192 Jazz Improvisation 3 2 Cr. Hrs.**

A continuation of Jazz Improvisation 1 and 2. Rhythmic devices, rhythmic modes, melodic and harmonic devices, scales, intervallic devices, chords, and substitutions in the context of song forms, song fragments, repertoire. The student will be required to keep a journal of melodic devices and original jazz compositions. Prerequisite: MUSC 3192 or consent of the Faculty of Music.

**MUSC 4212 Orff Schulwerk 3 6 Cr. Hrs.**

(Lab required) Continues instruction in the theory, philosophy, and pedagogy related to Orff process. Students are expected to create, orchestrate and perform at a high level, and to reach a high standard of competence in the art of teaching especially at the middle school level. Course work features mixed meters, and an exploration of medieval modes and their place in music history and in the Schulwerk. Competence in composing and arranging in the Elemental style and familiarity with materials from the Schulwerk, and Medieval, Renaissance, and Contemporary sources is developed along with recorder work using the full complement of recorders. Fluency on alto and soprano recorder is expected prior to start of the course. May not be held with the former MUSC 3140. Prerequisite: Grade B or better in MUSC 3210 or consent of Instructor.

**MUSC 4224 Kolády Music Education 3 6 Cr. Hrs.**

Kodály-inspired pedagogy for older beginners, senior years contexts, and community ensembles, with continued skill development in musicianship, conducting, and ensemble music-making in the lab component. Open to students outside of the Faculty of Music with written permission from the Faculty of Music. Prerequisite: a grade of "C" or better in MUSC 3222 or consent of Instructor.

**MUSC 4330 Advanced Analysis 3 Cr. Hrs.**

A survey of analytical approaches to tonal and post-tonal music. Aspects of musical structure, perception and performance will be explored through readings and the analysis of major works from the core repertoire. Prerequisite: MUSC 2120 or MUSC 2122 or consent of the Faculty of Music.

**MUSC 4360 Wind Repertoire 3 Cr. Hrs.**

A selected survey of wind literature from 1500 to the present. Prerequisites: (MUSC 4772 or the former MUSC 4770) and (MUSC 4782 or the former MUSC 4780) or consent of the Faculty of Music.

**MUSC 4370 Wind Conducting Techniques 3 Cr. Hrs.**

A study of the psychological, philosophical and practical aspects of conducting wind ensembles at all levels. Prerequisites: (MUSC 4772 or the former MUSC 4770) and (MUSC 4782 or the former MUSC 4780) or consent of the Faculty of Music.

**MUSC 4380 Piano Repertoire 3 Cr. Hrs.**

A comprehensive survey of major composers and their compositions for solo Piano. (Required course for piano Performance majors)

**MUSC 4390 Piano Chamber Music Literature Seminar 3 Cr. Hrs.**

A selected survey of piano chamber music.

**MUSC 4430 Pedagogy and Repertoire 3 Cr. Hrs.**

A consideration of approaches to the teaching of style and technique, through an examination of the repertoire for the student's major practical study.

**MUSC 4440 Vocal Pedagogy 3 Cr. Hrs.**

An exploration of the foundations of the singer's art and craft, including the physical nature of the singing voice, stages of development, and various national, historical and individual pedagogical approaches to the teaching of singing. Required course for voice majors in Performance and General concentrations.

**MUSC 4442 Jazz Pedagogy 2 3 Cr. Hrs.**

A continuation of Jazz Pedagogy 1, with a focus on high school students. Class members will teach and perform with students from the Faculty of Music Preparatory Division. Prerequisite: MUSC 3442 or consent of the Faculty of Music.

**MUSC 4470 Major Practical Study 3 Cr. Hrs.**

Individual instruction, normally in the area chosen in MUSC 3470. An important component of the grading procedure for this course is performance in and attendance at the recitals/concerts of the Faculty of Music. Prerequisites: (MUSC 2120 or MUSC 2122), MUSC 2394 and MUSC 3470 with a grade of "C" or better in each of the courses. For Music students only.

**MUSC 4480 Minor Practical Study 3 Cr. Hrs.**

Individual instruction in an area other than that selected for Major Practical

Study. Normally a continuation of MUSC 3480. Written consent of the director is required prior to registration.

**MUSC 4490 Piano Pedagogy 3 Cr. Hrs.**

An introduction to teaching of styles and techniques through an examination of piano repertoire. (Required course for piano and organ majors in Performance and General Concentrations.)

**MUSC 4520 Coaching Skills 3 Cr. Hrs.**

Introduction to and training in philosophies and techniques of vocal coaching including both song and operatic repertoire.

**MUSC 4530 Operatic Piano 3 Cr. Hrs.**

Development of skills required of an operatic pianist, including standard arias, operatic scores, working with conductors and developing an orchestral sound. May include participation in community opera events. (by audition only)

**MUSC 4560 Recital 2 6 Cr. Hrs.**

Preparation and performance of a public graduation recital. The program, which must be approved by the applied instructor and jury members. Prerequisite: MUSC 2120, MUSC 2394 and MUSC 3550 or consent of the Faculty of Music. For Music Students only.

**MUSC 4562 Jazz Recital 2 6 Cr. Hrs.**

Preparation and performance of a public graduation recital. The program must be approved by the applied instructor and the jury members. Prerequisite: MUSC 2082, MUSC 2122, MUSC 2394 and MUSC 3554 or consent of the Faculty of Music. For Music Students only.

**MUSC 4630 20th to 21st Century Piano Repertoire 3 Cr. Hrs.**

Piano repertoire from 1900 to the present.

**MUSC 4650 Interactive Computer Music 3 Cr. Hrs.**

An introduction to interactive computer music composition. The course covers different techniques for interaction between performers and a computer. Experiments will be done using major software for live MIDI and audio processing. The course also covers sound synthesis. Possibilities are given to write with either projects involving performers or multi-disciplinary projects (e.g., installation including visual elements). Prerequisite: MUSC 3650 or consent of the Faculty of Music.

**MUSC 4660 Computer Assisted Composition 3 Cr. Hrs.**

An introduction to Computer Assisted Composition. The course covers a variety of mathematical models for structuring musical parameters, such as probability, iterative functions, spectral pitch organization, rule-based systems and morphological models. Different environments using the Lisp language are used as a base for experiments. Prerequisite: MUSC 1414 or consent of the Faculty of Music.

**MUSC 4752 Elementary and Middle Years Choral Methods**

**3 Cr. Hrs.**

Introduction to methods and pedagogical approaches for students in elementary and middle years choirs. Application of vocal technique, score preparation, and advanced conducting principles to unison, 2-part, and 3-part vocal music for unchanged and changing voices in a variety of styles. Examination of materials and resources for classroom instruction in choral music, including appropriate repertoire and methods assessment. May not be held with MUSC 4750. Prerequisite: MUSC 3772 or the former MUSC 3770 or consent of the Instructor.

**MUSC 4762 Senior Years and Community Choral Methods**

**3 Cr. Hrs.**

Methods and pedagogical approaches for rehearsing, evaluating, organizing, and conducting changed voices in school and community ensembles. Introduction of teaching strategies and application of vocal technique, score preparation, and advanced conducting principles to mixed voice repertoire in a variety of genres for diverse groups of singers. Examination of materials and resources related to choral music instruction. May not be held with the former MUSC 4760. Prerequisite: MUSC 2460, MUSC 3772, the former MUSC 3770, MUSC 4752, the former MUSC 4750 or consent of the Instructor.

**MUSC 4772 Instrumental Music Methods 1 3 Cr. Hrs.**

The study of principles and methods related to beginning and middle school instrumental pedagogy. Techniques for teaching individual instruments in a group setting and the instruction/administering of a large ensemble program. Close examination of the fundamentals of tone production, technique and instrument specific skills. The study of rehearsal techniques, lesson planning, score preparation and assessment practices. Examination of appropriate instructional materials and repertoire for beginning and middle school instrumental ensembles. May not be held with the former MUSC 4770. Prerequisite: MUSC 2460. Pre- or corequisites: MUSC 3690 or MUSC 3780 or MUSC 3790 or MUSC 3800 or MUSC 3894 or consent of Instructor.

**MUSC 4894 Advanced Guitar Techniques 3 Cr. Hrs.**

This course is an extension of MUSC 3894 with a particular focus on developing curricular resources for creative composition, diverse musical styles, and informal music learning. This course provides a brief introduction to electric guitar and ukulele. Prerequisite: MUSC 3894 or consent of the Faculty of Music.

**MUSC 4896 Cultural Perspectives for Music Educators 3 Cr. Hrs.**

A study of non-Western musical practices and approaches to learning music, and implications for music teaching. This course is intended to prepare students for the diversity of the 21st century music classroom and studio.

**SECTION 9: Post-Baccalaureate Course**

**Descriptions-5000 Level**

**MUSC 5180 Ensemble 3 Cr. Hrs.**

Participation in a Faculty of Music ensemble as is appropriate to the student's background and/or major applied area. (To be decided by the Major Practical Study Teacher in consultation with the ensemble committee).

**MUSC 5400 Major Practical Study 6 Cr. Hrs.**

Individual instruction in the instrument area of study at the Post-Baccalaureate level.

**MUSC 5560 Recital 6 Cr. Hrs.**

Preparation and performance of a public, full-length recital at the Post-Baccalaureate level. The program, must be approved by the applied instructor and the jury committee judging the recital. It should include an appropriate balance of solo and chamber repertoire.

# Faculty of Science

Dean: Dr. Stefi Baum  
 Associate Dean(s): Teresa deKievit, Krystyna Koczanski, Ben Li, Peter Loewen, Brian Mark

### 4.15 Resources for students interested in related fields of study / occupations

## SECTION 1: Degrees and Programs offered by the Faculty of Science

### 1.1 Degree Offerings

Degree Offering Name	Minimum Years to Complete <sup>1</sup>	Minimum Required Credit Hours
Bachelor of Science General Degree - B.Sc. General	3	90
Bachelor of Science Major Degree – B.Sc. Major	4	120
B.Sc. Major Degree – Co-operative Option	5 <sup>2</sup>	120
Bachelor of Science Double Major Degree	4	120 <sup>1</sup>
Bachelor of Science Honours Degree – B.Sc. Honours	4	120 - 129
B.Sc. Honours Degree – Co-operative Option	5 <sup>2</sup>	120
Bachelor of Computer Science Honours – B.C.Sc. Honours	4	120
B.C.Sc. Honours Degree – Co-operative Option	5 <sup>2</sup>	120
Bachelor of Science Double Honours Degree	4	120 <sup>1</sup>

#### NOTES:

1. The actual number of credit hours required to complete the Double Major and Double Honours programs may exceed 120 credit hours and will depend on each specific program, designed in consultation with the departments involved.

2. This number includes a minimum of 12 months paid employment.

## SECTION 2: Admission to the Faculty of Science

### 2.1 Direct Entry Admissions Requirements

To enter the Faculty of Science directly from high school, a student must have:

1. Manitoba high school graduation with five full credits at the Grade 12 level in courses designate S, G, or U.
2. A minimum 85% average over the following, with no less than 60% in each course:
  - a. English 40S
  - b. Pre-Calculus Mathematics 40S (recommended) or Applied Mathematics 40S; AND,
  - c. One of Biology 40S, Chemistry 40S, Computer Science 40S, or Physics 40S

Students admitted Direct Entry, enter a 4-Year undeclared Major. See Section 3.3 for details.

### 2.2 Entrance to Science from University 1: Transiting

To transit from University 1 to the Faculty of Science a student must have completed a minimum of 24 credit hours of courses. If a student has satisfied the minimum requirements for entry to Science, they simply perform the transit function on AURORA Student to enter the Faculty of Science. There are no fees for transiting and there is no application form required. Students who require assistance with transiting to Science from University 1, should contact the Faculty of Science office.

When a student transits from University 1 to the Faculty of Science, they may choose to transit to a 4-year Major program for which they qualify, or they may choose to transit to the General Degree. If a student wishes to enter an Honours program in the Faculty of Science they should contact the Faculty of Science office for assistance. Students intending to enter a four year Major or Honours program should refer to the program charts in Section 4, Departments in, and Programs and Courses Offered by, the Faculty of Science, for courses required for entry into each program. Completion of these courses in University 1 will prepare a student to complete a four year Major or Honours program in four calendar years.

For further information please contact a Faculty of Science Academic Advisor and/or refer to the Faculty of Science applicant information brochure and the University Admissions website: [www.umanitoba.ca/admissions](http://www.umanitoba.ca/admissions).

Note: Students who have exceeded 36 credit hours of "F" grades will not normally be admissible until a suspension has been served. Students may contact the Faculty of Science for further information or advice.

### 2.3 Transfer Students

Students who wish to transfer to the Faculty of Science must have completed a minimum of 24 credit hours of post-secondary courses and have achieved a minimum cumulative grade point average of at least 2.00 to be eligible for consideration. Students who do not meet this minimum may appeal to be considered for admission on the recommendation of the Dean. Please see a Science Academic Advisor for information. External transfer students with 24 credit hours or more of transfer credit are assessed upon admission to the Faculty of Science.

Students on academic suspension as a result of work completed at another post-secondary institution will not normally be considered for admission to the University of Manitoba until the suspension has been served.

### Transfer of Credit

*External:* Please refer to the Admissions website at [umanitoba.ca/admissions](http://umanitoba.ca/admissions) or the Admissions section at the front of this *Calendar*. Courses completed at an external institution ten years prior to registration in the Faculty of Science are not considered for transfer credit. Students should contact a Science Academic Advisor regarding departmental transfer credit policies. **All courses acceptable to the Faculty of Science must be transferred.**

### 2.4 Second Degree Students

Students possessing a first degree from a recognized university program and who have a minimum Cumulative Grade Point Average of 2.00 (or a 2.30 adjusted grade point average – see applicant information bulletin for details on AGPA) on all previous university work are eligible for admission as Second Degree students.

Second degree requirements may be shortened by up to 60 credit hours, and once admitted to a Second Degree Program, students will be expected to conform to all continuation, residency and graduation requirements as described in Section 3.

Specific information on requirements for a Bachelor of Science degree following the completion of a degree in another faculty or school, or at another university, is available in the general office.

## 2.5 Special Students

### After Degree Special Students

Students who have successfully completed a first degree from a recognized university program with a Cumulative Grade Point Average of 2.00 or better are eligible for admission as Special Students.

## 2.6 Auditing Students

Students who wish to audit courses must have written permission from the instructor of the desired course before they can register. Auditing students must register in person in the Faculty of Science general office. The Faculty of Arts will prohibit auditors from registering in their courses until after the initial access period for registration.

## 2.7 Returning to Science after an Extended Leave

Students who have been away from Science for more than a year are blocked from using AURORA STUDENT. They must consult with a Science Academic Advisor. If the student has not attended another post-secondary institution, they are eligible to return. The advisor will determine academic progress, registration date and time, and discuss degree plans. Students planning a return to studies are strongly urged to contact an Advisor well in advance of the start of registration. Students who have attended elsewhere since their last registration in Science must normally re-apply for admission and be academically competitive for admission on all of their previous academic work. June 1 is the application deadline for Fall term.

Students who have graduated must re-apply (June 1 for Fall Term – Other deadlines may be found at [umanitoba.ca/admissions](http://umanitoba.ca/admissions)) and be academically competitive for admission

## SECTION 3: Academic Regulations

### 3.1 Regulations Applicable to all Programs

The provisions of the chapters: "General Academic Regulations" and "University Policies and Procedures" apply to all students. In addition, the Faculty of Science has regulations and requirements published below that apply specifically to its students.

#### Repeating a Course

Permission to repeat a course or a direct equivalent is no longer required. To take a course that is "not to be held" with a previously completed course still requires a registration override. Please contact the Faculty of Science General Office prior to registration.

Science students are subject to the University of Manitoba regulations (see General Academic Regulations, Repeating a Course) and the Faculty of Science degree regulations regarding eligibility to repeat a course. See below for information on Limited Access.

Repeating a course will **not** result in the removal of the first attempt and grade in that course from the student's record. The course will appear on the transcript as many times as it has been repeated. The grade in all attempts of a course will be calculated as part of the student's GPA.

There is a limit on the number of 'F' grades permitted in any degree. All courses with "F" grades that are repeated count towards the limit of "F" grades permitted in a Science degree. See Academic Assessment below and B.Sc. Major and B.Sc. Honours Academic Regulations.

Students who wish to repeat a course for which they have obtained a grade of "C" or better are encouraged to discuss their choice to do so with a Science Academic Advisor prior to registration.

**NOTE:** In most cases, professional Faculties and Schools have specific rules governing the way repeated courses are treated in their admission process. Check the applicant information bulletin of the appropriate Faculty or School, or with the Admissions Office (424 University Centre), or with a Science Academic Advisor for information regarding how different professional programs treat repeated courses in determining admission.

#### Voluntary Withdrawals

The responsibility for initiating withdrawals rests solely with the student. When eligible to do so, Voluntary Withdrawals must be done through Aurora Student. No withdrawals will be permitted after the deadlines posted in the Academic Schedule. See below information on Limited Access.

There is no limit on the number of Voluntary Withdrawal hours a student can accumulate.

In exceptional circumstances, Authorized Withdrawals may be permitted on presentation of appropriate documentation. See the chapter, "General Academic Regulations" section "Withdrawal from Courses and Programs" or consult a Science Academic Advisor for information.

#### Limited Access

##### Effective 2018 Winter Term - Limited Access Policy in Effect

Limited Access is a registration rule that allows students who have never before completed, or voluntarily withdrawn, from a course (or its equivalent) the opportunity to register for the course before students who are repeating or have previously withdrawn from the course.

If a student has previously taken a course and received a final grade, or voluntarily withdrawn from the course (VW)\*, any future attempt to take that course or its equivalent is considered a repeated course.

\*A previous VW is only considered a repeat if the student voluntarily withdrew in Winter 2017 or later.

Effective Winter 2018, Limited Access will prevent a student from registering or placing themselves on the waitlist for a course (or equivalent) being repeated until the "Limited Access Term Expiry Date" has passed.

Limited Access applies for three consecutive terms following the term that the course in question was last completed or voluntarily withdrawn (VW).

During these three terms of Limited Access, a student may register to repeat a course, without permission, only when the Limited Access Term Expiry Date has passed.

Once the three terms of Limited Access has expired, any student wishing to repeat a course must request permission to do so from the Faculty of Science General Office prior to registration.

#### Attendance at other Institutions

Students who attend other post-secondary institutions without a Letter of Permission must reapply for admission to the Faculty of Science before the application deadline and be academically competitive for admission. Similarly, students registered in the Faculty of Science may not be registered at another academic institution at the same time unless they are registered elsewhere on a Letter of Permission. The penalty for unauthorized or undisclosed attendance may be disciplinary withdrawal or academic suspension.

For more information on Letters of Permission, refer to the Registration Information section of this calendar or to the Registrar's Office website at: [umanitoba.ca/registrar](http://umanitoba.ca/registrar).

### Academic Dishonesty

Academic dishonesty is intentional cheating, fabrication, impersonation, or plagiarism. It is also knowingly or inadvertently helping or attempting to help others to be dishonest. Academic dishonesty lowers scholastic quality and defrauds others who will eventually depend on their own knowledge and integrity.

Plagiarism or any other form of cheating on examinations, term tests, or assignments is subject to academic penalty as serious as suspension or expulsion from the faculty or university.

Students who are unsure of what constitutes academic dishonesty should refer to the regulations in General Academic Regulations and Policy, Plagiarism and Cheating, and consult with a Science Academic Advisor or a faculty member. Information about academic penalties for academic dishonesty is available on the Faculty of Science website.

### Academic Assessment

Effective September 2013, each student in the Faculty of Science will be placed on academic suspension for one year, regardless if there has been evidence of improved performance, if they have more than 36 credit hours of "F" grades.

Following a one year suspension, the student may return upon application to the Faculty of Science by selecting one of the following irreversible options:

(a) to continue with no possibility of further "F" grades. Any further "F" grades will result in academic suspension for two years. (Following the two year suspension, the student may apply to the Faculty of Science to return to start afresh.)

**Or**

(b) start afresh, with their previous work not counting towards satisfying degree requirements. Students may appeal to transfer in up to 30 credit hours of previously completed coursework with a grade of "C" or better.

(In either case this does not mean that the previous coursework will be removed from the student history or transcript.)

### Required to Withdraw from Major or Honours

If a student's last assessment was "Required to Withdraw from the Honours or the Major program," they **must** consult a Science Academic Advisor prior to registration. An advisor will review new degree plans, determine eligibility for a desired program, and update any affected university records.

### Students on "Hold"

If a student is on "Hold", they are prevented from any registration transaction (including Voluntary Withdrawals) until they have cleared this status. The student must contact the Faculty of Science within the normal deadline to withdraw from a course while on "Hold".

### Term work and Debarment

A student is responsible for the completion of laboratory work, assignments, tests and other class work as prescribed by departments. A student who does not meet term work requirements to the satisfaction of a department may receive a warning to this effect from the department or the general office. If this warning is ignored, a student may be debarred from the course. Any student debarred from a course receives an automatic grade of "F" in that course.

### Deferred Examinations

Students unable to write a final examination because of illness, disability, or for compassionate reasons, must file an application in the Faculty of Science general office for a deferred examination. The application must be filed within 48 hours of the examination. Appropriate documentation must be provided that verifies that the incapacity existed at the time the examination was to be written.

A deferred examination is offered in a manner prescribed by the head of the department concerned. This would normally be written within 30 working days of the last examination in that series. Any other consideration would be determined by the department head.

Students requesting deferred examinations on the grounds that the examinations conflict with vacation or holiday plans shall not be granted deferrals.

A deferred examination is not granted to a student who has written the final examination.

Deferred examinations that need to be re-deferred, and/or requests where a student is seeking a deferral in a third examination series (i.e. Fall 2008, Winter 2009, Winter 2010 – any course) must be approved by the Faculty of Science Committee on Student Standing. Students must appeal, in writing, to the Committee on Student Standing and provide precise documentation that outlines why a deferral request should be granted in their case.

### Appeals Involving Academic Regulations

The Committee on Student Standing in Science considers appeals from students who request special consideration in respect of rules and regulations governing their programs of study and qualification for graduation.

Appeals should be addressed to: The Secretary, Committee on Student Standing, General Office, Faculty of Science, 239 Machray Hall.

### Appeal for Authorized Withdrawal

Students who have valid and documented reasons for withdrawal, such as medical illness or compassionate circumstances, may be authorized to withdraw without penalty. Requests for authorized withdrawals must be submitted in writing to a Faculty of Science Academic Advisor. The Office of Student Advocacy located at 519 University Centre (204-474-7423, [student\\_advocacy@umanitoba.ca](mailto:student_advocacy@umanitoba.ca)) is available to provide information and assistance.

**Statute of Limitations:** Students who intend to appeal matters concerning regulations or decisions of the Faculty which may affect their registration must arrange to submit a written appeal, including pertinent documentation to the Secretary of the Faculty of Science CSS, normally within three months following the term in which the course was taken or from the date of the academic decision. Appeals will not be considered beyond three years after the end of the course, or from the date of the academic decision.

### Appeal for other Academic Concessions

Students who believe they have grounds for academic concessions based on their personal circumstances should consult with a Science Academic Advisor. The Office of Student Advocacy located at 519 University Centre (204-474-7423, [student\\_advocacy@umanitoba.ca](mailto:student_advocacy@umanitoba.ca)) is available to provide information and assistance.

### Laboratory Registration

If a course requires registration in both a lecture and a separate appropriate laboratory section, AURORA STUDENT will not permit you to register in that course unless you register for both.

### Laboratory Exemptions

Students who think they are eligible for a laboratory exemption must check with the department offering the course to obtain formal consent of this. Once received, deliver the written permission to their faculty or school office, as an override may be required on their academic record. They must register for the laboratory exempt section.

It is the student's responsibility to ensure that they are eligible for a laboratory exemption. If they register for one of these courses and it is subsequently determined that they are not entitled to exemption, they will be required to register for a laboratory section. If no space remains available in the laboratory, they will be required to withdraw from the course.

### Laboratory release

Certain Chemistry and Microbiology courses require that students check out of the laboratory before they withdraw or change lab sections. It is the students responsibility to check with the departmental office prior to making any changes to their laboratory registration. Failure to check out of the laboratory may result in the students academic records being placed on HOLD.

## 3.2 B.Sc. (General) Degree Academic Regulations

### B.Sc. (General) – Three Year Degree

The three year General program is intended to provide diversified training in Science. The design of the program is such that a student is exposed to several areas of science at an introductory level together with a requirement for more advanced study in at least two Science areas. These requirements will ensure that a student's program of study will have elements of breadth and depth.

This program is not intended for students who desire to practice in some field of specialization in the Sciences. Students with that intent are recommended to pursue the Honours or the four year Major program. However, the three year General program is flexible enough in most departments to allow a student to choose courses that would facilitate transferring to the four year Major program should that become desirable.

### B.Sc. General Academic Regulations<sup>1</sup>

A student must complete 90 credit hours with passing grades ("D" or better) in each course. Please note higher grades are usually required for prerequisite purposes. See course descriptions for details. A student must obtain a minimum grade point average of 2.00 on the 90 credit hours which constitute the degree to qualify for the degree of Bachelor of Science (General).

Students may not exceed 36 credit hours of failures.

**Introductory Level Science courses (24 credit hours):** Students must select 6 credit hours from each of 3 areas listed below (18 credit hours) in Group A. Additionally, students must select 6 credit hours from any courses listed in Group A and/or Group B.

**NOTE:** No more than 6 credit hours may be selected from any single subject area for use toward the 24 credit hours of introductory course requirements.

#### Group A:

Astronomy: ASTR 1810 and ASTR 1830

Biology: BIOL 1020 and BIOL 1030

Chemistry: CHEM 1300 and CHEM 1310

Computer Science: COMP 1010 (or COMP 1012<sup>2</sup>) and COMP 1020

Mathematics: six credit hours chosen from:

- MATH 1200<sup>1</sup>
- 3 credit hours from MATH 1210<sup>1</sup> MATH 1220<sup>1</sup> or MATH 1300<sup>1</sup> (or equivalent),
- 3 credit hours from MATH 1230 or MATH 1500 (or equivalent),
- 3 credit hours from MATH 1232 or MATH 1700 (or equivalent),
- MATH 1240

Microbiology: MBIO 1010 and MBIO 2020

Physics: PHYS 1020 or PHYS 1050; and PHYS 1030 or PHYS 1070

Statistics: STAT 1000<sup>4</sup> (or STAT 2220<sup>3</sup>) and STAT 2000<sup>4</sup> or STAT 1150<sup>4</sup> and STAT 2150<sup>4</sup>

#### Group B:

BIOL 1410, FORS 2000.

#### Notes:

1. MATH 1210 is intended for Engineering students and may not be held for credit with MATH 1200, MATH 1220 or MATH 1300.
2. COMP 1012 is intended for Engineering students and may not be held for credit with COMP 1010.
3. STAT 2220 is intended for Engineering students and may not be held for credit with STAT 1000 or STAT 1150.
4. It is recommended that students intending to complete their advanced level Science subjects in Statistics or Mathematics choose STAT 1150 and STAT 2150, rather than STAT 1000 and STAT 2000. STAT 1000 and STAT 2000 may not be held for credit with STAT 1150.

**Advanced Level Science Courses (36 credit hours):** Effective for students entering Science September 2008 or later<sup>2</sup>, to satisfy the advanced level requirements of the 3-year General Degree program, eighteen (18) credit hours at the 2000, 3000, and (or) 4000 level must be chosen from each of **two** of the following Science departments: Biological Sciences, Chemistry, Computer Science, Mathematics, Microbiology, Physics and Astronomy, and (or) Statistics.

Of the 36 credit hours (total) from the advanced areas of study, at least 6 credit hours must be chosen from 3000 or 4000 level courses. Students should note prerequisite requirements for upper level courses when planning their program. Appropriate courses and combinations of courses are detailed in each departmental section. Substitute courses from a department may be taken by obtaining written authorization from the chosen department.

**Other Faculty Courses (12 credit hours):** a minimum of 12 credit hours must be taken from outside the Faculty of Science, of which at least six credit hours must be from the Faculty of Arts. A maximum of 30 credit hours may be taken from outside the Faculty of Science for use in the General Degree program.

**Elective Courses (18 credit hours):** 18 credit hours of the B.Sc. General Degree are open electives.

**Biological Sciences Option:** Students may elect to choose all 36 credit hours of advanced level course requirements from the Department of

Biological Sciences provided they follow the specified course selections prescribed in the Biological Sciences Focus Chart - B.Sc.General.

**Chemistry Option:** Students may elect to choose a specific set of introductory courses, plus all 36 credit hours of the advanced level course requirements from the Department of Chemistry provided they follow the specified course selections (introductory and advanced levels) prescribed in Chemistry Focus Chart - B.Sc. General.

#### NOTES:

1. Students having difficulty with the interpretation of these regulations or the way in which they are applied, are urged to contact a Science Academic Advisor in the general office. Students are responsible for their own degree progress and completion.

2. Students admitted to the Faculty of Science prior to September 2008 should consult with a Science Academic Advisor about degree requirements.

#### B.Sc. General Degree Minimum Performance Requirements

Effective September 2013, each student in the Faculty of Science will be placed on academic suspension for one year, regardless if there has been evidence of improved performance, if they have more than 36 credit hours of "F" grades.

Following a one year suspension, the student may return upon application to the Faculty of Science by selecting one of the following **irreversible** options:

(a) to continue with no possibility of further "F" grades. Any further "F" grades will result in academic suspension for two years. (Following the two year suspension, the student may apply to the Faculty of Science to return to start afresh.)

#### Or

(b) start afresh, with their previous work not counting towards satisfying degree requirements. Students may appeal to transfer in up to 30 credit hours of coursework previously completed with a grade of "C" or better.

(In either case this does not mean that the previous coursework will be removed from the student history or transcript.)

#### B.Sc. General Degree Residence Requirements

There are two ways in which students may fulfill the minimum requirement of credit hours that must be taken at the University of Manitoba: by taking at least 48 credit hours at the University of Manitoba; or by taking at least the final 30 credit hours at the University of Manitoba. The courses used to satisfy the residence requirement must be acceptable for credit in the Faculty of Science. Residency requirements apply to both first and second degree students.

#### 3.3 B.Sc. Major (Degree) Academic Regulations

Faculty of Science Direct Entry students are admitted to a 4-Year undeclared Major program. While in the undeclared Major, students will take courses to allow them to declare a specific Major or enter an Honours program. To declare a specific Major or enter an Honours program students will need to satisfy the entry requirements as outlined in Section 4, Programs and Courses Offered by the Faculty of Science.

Following the completion of 24-30 credit hours students will declare their Major program, or enter the Honours program, or they may choose to enter the 3-Year General degree. Students who do not qualify for a specific Major or Honours program will be required to move into the 3-Year General degree. Students who wish to be in a Major or Honours program but did not qualify can complete the outstanding requirements while in the

General degree program and enter the program upon completion of the requirements.

#### B.Sc. (Major) – Four-Year Degree

The four-year Major programs provide in-depth study in a specific discipline and enable graduates to function competently in a career in their chosen subject area.

While this program is not intended for students pursuing graduate studies, most programs allow students to do so with a minimum of difficulty.

The four-year Major program may be pursued on a part-time basis, although it must be recognized that under those conditions students would require more than four years to complete degree requirements.

#### B.Sc. (Major): Academic Regulations

To qualify for the degree Bachelor of Science (Major), a student must complete 120 credit hours or more, with minimum grades of "C" on Major Program Specific courses (as specified by the department), "D" or better on the remaining courses, and a minimum Degree Grade Point Average of 2.00.

Program Specific courses are those identified by the department as being core to the given degree. See the Calendar entry for these departments for clarification.

At least six credit hours **must** be taken from outside the Faculty of Science. Students admitted to a Major program must complete six credit hours of courses from the Faculty of Arts. Students in the Major degree programs may take a maximum of 36 credit hours from outside the Faculty of Science.

#### B.Sc. (Major): Entrance Requirements

To enter a specific four-year Major program, a student must normally have achieved a minimum grade of "C+" in at least one introductory course designated by the department(s). One of the entry routes to the Physics & Astronomy Major program, has a more rigorous entry requirement than listed above; please see the calendar entry for more details. In addition, to enter a four-year Major program a student shall normally have completed at least 30 credit hours, although a student may enter on the recommendation of the department with only 24 credit hours completed.

Any student who, prior to being admitted to a four-year Major program that has completed more than 30 credit hours will be allowed to apply those excess credit hours which meet the specifications of the program to the four year Major program.

Students must attain a Degree Grade Point Average of at least 2.00 regardless of the point of entry, and must meet continuation requirements as outlined below.

#### B.Sc. (Major): Continuation Requirements

To continue in the program, a student must maintain a Degree Grade Point Average of 2.00 at each point of assessment. Students who do not meet this minimum will be required to withdraw from the Major program.

There is no minimum term course load requirement for the Major program.

**Failed courses:** Any student that exceeds 18 credit hours of failing grades after entering a Major program will be required to withdraw from that program. **Students are also subject to the academic assessment policy found in 3.1 Regulations Applicable to all Programs.**

A student will be required to repeat those failed courses specified as required courses for the program; however, with the approval of the

department the student may be allowed to substitute a new course for any elective course failed.

Major students reverting to the General program must fulfil all academic requirements of that degree.

### **B.Sc. (Major): Residence Requirement**

To satisfy the Faculty of Science residency requirements, a student must successfully complete at least 60 credit hours at the University of Manitoba. The courses used to satisfy the requirement must be acceptable for credit in the Faculty of Science. Residency requirements apply to both first and second degree students.

### **B.Sc. Double Major Programs**

Students may wish to pursue a Double-Major program in the Faculty of Science. Consultation with, in addition to specific course selection and approval from, the departments involved must occur prior to the commencement of any Double-Major program. Students must also consult with a Faculty of Science Academic Advisor prior to the start of any Double-Major program.

### **3.4 B.Sc. and B.C.Sc (Honours) Academic Regulations**

The Honours programs in the Faculty of Science are study in specific disciplines and the most heavily concentrated programs offered in the faculty. These programs lead most directly to graduate study and are in most cases prescribed extensively by the departments. A student is required to pursue this degree full-time and may be required to achieve higher grade standards than in other degree programs. The programs are regarded as professional training.

Students graduating from the Honours program in Computer Science receive the degree designation Bachelor of Computer Science (Honours), also noted as B.C.Sc. (Honours).

A student electing an Honours program will normally begin Honours work in second year and must meet the entrance requirements set out below. Honours work will consist of three years of study in prescribed courses beyond the first year and will lead to the B.Sc. (Honours) or the B.C.Sc. (Honours).

Students must complete the university written English and Mathematics requirements as described in the chapter, General Academic Regulations, of this Calendar.

Students admitted to Honours programs must complete six credit hours from the Faculty of Arts. Because many Honours programs in the Faculty of Science do not have room for electives in Years 2, 3 and 4, these six credit hours, including the three credit hours of written English, should be completed in Year 1.

### **Honours Entrance Requirements**

To enter an Honours degree program, a student must have completed at least 24 credit hours, have a minimum DGPA of 3.00 (3.5 for entry to Psychology), and a grade of "B" or better in at least one course designated by the department(s). See Calendar entry for each department for specific information on entrance requirements.

Another way to gain entry to the many Faculty of Science Honours programs is through the Second Year Entry Route. If a student finds himself/herself ineligible to enter a desired Honours program following the completion of 24 or more credit hours, eligibility to enter Honours via the second year entry route can be established by taking a minimum of 18 credit hours over consecutive Fall and Winter Terms with a minimum of 9 credit hours in each term. The 18 credit hours chosen must be applicable to the program the student wishes to enter, and the student must achieve at

least a "B" average on those 18 credit hours. If a student chooses to attempt more than 18 credit hours over the consecutive Fall and Winter terms, the best applicable 18 credit hours will be used to calculate whether or not the "B" average has been achieved for the purpose of assessing eligibility for entrance to the Honours program of choice. Note: Students wishing to enter an Honours program using the Second Year Entry Route must also have an overall DGPA of at least 3.00 (a 3.5 for Psychology).

### **Honours Continuation Requirements**

To continue in an Honours degree a minimum Degree Grade Point Average of 3.00 (a minimum 3.5 is required for Psychology) is required at each point of assessment.

Students must complete a minimum of 9 credit hours in each Fall and Winter Term (or equivalent for students in the Co-operative option).

Students who do not meet the above minimum requirement will be required to withdraw from the Honours program and may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program.

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. **Students are also subject to the academic assessment policy found in 3.1 Regulations Applicable to all Programs.**

### **Honours Graduation Requirements**

To qualify for the degree, Bachelor of Science (Honours), a student must complete a minimum of 120 credit hours or more with a minimum grade of C on all courses contributing to the credit hours that satisfy the program requirements. The Actuarial Mathematics, the Joint Honours in Statistics and Actuarial Mathematics, and the Joint Honours in Mathematics and Physics & Astronomy have more rigorous requirements; please see the calendar entries for more details.

Additionally, students must have a minimum degree grade point average of 3.00.

### **Honours Residence Requirement**

A student must successfully complete a minimum of 60 credit hours at the University of Manitoba. The courses used to satisfy the requirement must be acceptable for credit in the Faculty of Science. Residency requirements apply to both first and second degree students.

### **Withdrawal from Honours**

Honours students reverting to an alternate degree program must fulfil all academic requirements of that degree.

### **Double Honours Programs**

Double Honours programs may be available as specified under departmental headings. Other programs may be arranged in consultation with the departments concerned.

### **3.5 Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)**

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs: Biochemistry, Biological Sciences, Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.), Chemistry, Computer Science, Data Science, Genetics, Mathematics, Microbiology, Physics & Astronomy, Psychology and Statistics.

The Honours programs offering a Co-operative Education Option are: Biochemistry, Biological Sciences, Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.), Chemistry, Computer Science, Genetics, Mathematics, Microbiology, Physics & Astronomy, Statistics, Joint Computer Science - Mathematics, Joint Computer Science – Physics and Astronomy, Joint Computer Science – Statistics, Joint Mathematics-Physics and Astronomy, and the Joint Statistics-Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

### Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

### Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

### Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

### Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must attain a minimum DGPA of 2.50 at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must attain a DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.

- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in 3.1 Regulations Applicable to all Programs.

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B. Sc. Major program or the B. Sc. General degree program. Students are also subject to the academic assessment policy found in 3.1 Regulations Applicable to all programs

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfill all academic requirements of that degree.

### 3.6 Minors: Academic Regulations for Science Students

Students in B.Sc. Major and Honours programs may, if they wish, declare and complete a Minor from any department or interdisciplinary program at the University of Manitoba which offers a listed Minor. In the Faculty of Science Minors are listed in the program charts for each department and interdisciplinary program. Other available Minor requirements can be found within the appropriate sections of the departmental/school/faculty offerings. Completion of a Minor in a B.Sc. Major or Honours program is entirely optional. Students may not, however, declare both their Major and Minor from the same department/interdisciplinary program. It should be noted that for Honours students any consideration of completing a Minor should be made early on, due to restricted opportunities in later years of their programs. Completion of a Minor may require that a student take more than the minimum number of credit hours required for graduation. If they wish, students may choose to complete and declare multiple Minors in the four year Major and Honours degree programs.

The Minor is not available to students in the B.Sc. General Degree program.

A Minor will normally consist of a minimum of 18 credit hours specified by the department(s) offering the Minor. Courses required in a student's specific Honours or Major degree program are acceptable for use in a

chosen Minor, subject to the Faculty of Science regulation stating that students may not declare both their Major and Minor from the same department or interdisciplinary program.

Minors not offered by the Faculty of Science can be selected from the following list. For further information about courses required for the completion of a specific Minor, please refer to the section of the calendar that relates to the chosen area.

Animal Systems, Entomology, Food Science, Plant Biotechnology, Soil Science, Art History, Anthropology, Asian Studies, Canadian Studies, Catholic Studies, Central and East European Studies, Classics, Greek, Latin, Economics, English, Film Studies, Theatre, French, Spanish, Italian, German, Russian, Ukrainian, Polish, History, Icelandic, Labour Studies, Linguistics, Medieval Studies, Native Studies, Indigenous Languages, Near Eastern and Judaic Studies, Philosophy, Political Studies, Psychology, Religion, Sociology, Ukrainian Canadian Heritage Studies, Women's and Gender Studies, Geography, Geological Sciences, Physical Geography, Environmental Science, Environmental Studies, Human Nutrition and Metabolism, Family Social Sciences, Textile Sciences, Management\*, and Music.

**\*Faculty of Management/Asper School of Business:** For entry to the Minor, the prerequisite is a grade of "C" or better in the first 6 hours of Business courses. The Management Minor will consist of any 18 hours of credit in courses offered by the Asper School of Business. Enrolment in this program will be limited to 20 students annually. Students planning to enrol in this minor must consult a Faculty of Science Academic Advisor.

### 3.7 Dean's Honour List, Degree with Distinction, First Class Honours

#### Dean's Honour List (all programs)

Students who complete 12 credit hours or more, who achieve a Term Grade Point Average of 3.75 or higher will be placed on the Dean's Honour List. The Dean's Honour List will be calculated after each term.

#### Degree with Distinction (4-Year Major Degree and 3-Year General Degree)

To obtain a Degree with Distinction a student must achieve a final minimum Degree Grade Point Average of 3.80. The term 'Degree with Distinction' will appear on the student's parchment and the student's transcript of marks.

#### First Class Honours (Honours Degree Only)

To graduate with First Class Honours the student must achieve a final minimum Degree Grade Point Average of 3.80. The term 'First Class Honours' will appear on the student's parchment and on the student's transcript of marks.

### 3.8 Faculty of Science Academic Awards

Refer to the University's Award Database for information on awards available to Faculty of Science Students:

<http://umanitoba.ca/student/fin-awards/scholarships/1507.html>

To be eligible for any award granted exclusively on the basis of academic performance, a student must be enrolled in 100% of a full program as defined by the department.

### 3.9 Academic Advising

Science General Office: 239 Machray Hall  
Telephone: (204) 474 8256  
Toll-Free: 1 800 432 1960, extension 8256

E-mail: [science\\_advisor@umanitoba.ca](mailto:science_advisor@umanitoba.ca)

Website: [www.umanitoba.ca/science](http://www.umanitoba.ca/science)

Science Advisor Availability: [www.sci.umanitoba.ca/undergraduate-students/academic-resources/academic-advisors](http://www.sci.umanitoba.ca/undergraduate-students/academic-resources/academic-advisors)

### Student Responsibility

Students must ensure that they are selecting the correct courses that will enable them to satisfy their degree requirements. Specific degree requirements are listed in the program charts found in the departmental/program sections of this chapter. Final completion of specific degree requirements is the student's responsibility. Academic Advisors are available to answer any questions regarding a student's academic progress.

AURORA STUDENT will not check degree requirements. Students are responsible for knowing the requirements of their degree. Consult with a Science Academic Advisor for advice and assistance if uncertain about degree requirements.

AURORA STUDENT will not prevent a student from registering in two (or more) courses that are designated as not to be held for credit with one another. It is the student's responsibility to ensure that they are not registered for courses that are ineligible to be held for credit with one another. Read the course descriptions carefully. If unsure about a course you have selected, check with a Science Academic Advisor prior to the revision deadline. No academic concessions will be granted in this regard.

Students cannot add or change a course classification through AURORA STUDENT. Therefore, if an undergraduate student wishes to take a course as a Special Student in their degree, as an Auditor, or as a Challenge for Credit, they must add this course in person in the Science General Office within the normal deadlines for such activity.

### General Degree Program

Students in the B.Sc. General program are not required to contact a Science Academic Advisor before registration; however, they are strongly advised to do so. A Science Academic Advisor can answer any questions about degree progress and entry to professional faculties that may affect registration.

Students reverting from a Major or Honours program to the B.Sc. General program must consult a Science Academic Advisor prior to registration, so that their university records may be changed.

Science Academic Advisors may check students' degree progress periodically. These checks are completed after registration. Reminder: It is the student's responsibility to know and satisfy all degree requirements.

### Honours, Major, and Co-operative Options

Honours students are required to register in a minimum of 9 credit hours during each Fall and Winter Term in which they are registered. Prior to declaring graduation, Honours, Major, and Co-op students are encouraged to have their programs checked by Science Academic Advisors on a regular basis.

**Students entering or changing a program must see a Science Academic Advisor so that eligibility can be checked and university records updated.**

## SECTION 4: Departments in, and Programs and Courses offered by the Faculty of Science

### Important Course Selection Information

The courses required to complete the specific Honours, Major, General and Minor programs in Science are listed in the program charts found within each department or program entry in this section.

Not all courses included in the course description sections below are currently offered. The course schedule for the current academic year is available through [AURORA Student](#). Students should note that space in Honours and Major specific courses may be reserved for students in those programs.

All Honours and Major Degree Programs (4-year degrees) offered by the Faculty of Science satisfy the University "M" (Mathematics) requirement.

Students registered in the 3-Year General Degree programs are responsible for ensuring that they successfully complete a course that will satisfy the University's "M" (Mathematics) requirement.

Students in all programs are responsible for ensuring that they successfully complete a course that will satisfy the University's "W" (Written English) requirement. It is strongly recommended that this requirement be completed in Year 1.

For a complete listing of courses that satisfy the University's "W" and "M" requirements refer to appendix A of the General Academic Regulations section of this Calendar.

In the Faculty of Science, unless otherwise noted, a minimum grade of "C" is required in any course listed as a prerequisite. See course descriptions.

Equivalent courses offered through Université de Saint-Boniface may be used in lieu of the specified courses identified in the degree program charts. See course descriptions in Aurora Student for information on course equivalencies; Université de Saint-Boniface courses are taught in French and end in odd numbers, eg: BIOL 1021.

**NOTE:** Course prerequisites may be waived with written consent of the department.

### 4.1 Actuarial Mathematics

Campus Address/General Office: 640 Drake Centre

Telephone: 204 474 6412

Email Address: [warrencentre@umanitoba.ca](mailto:warrencentre@umanitoba.ca)

Website: [www.umanitoba.ca/actuarial](http://www.umanitoba.ca/actuarial)

#### 4.1.1 Program Information

This is an interdisciplinary program leading to a Bachelor of Science (Honours) degree in Actuarial Mathematics offered in collaboration with the Warren Centre for Actuarial Studies and Research of the I.H. Asper School of Business. The program covers mathematical, statistical, financial and economic concepts required to develop skills in the modelling and management of financial risk and contingent events. In the Faculty of Science the program has a greater emphasis on the mathematical and statistical courses than does the Actuarial Mathematics program offered by the I.H. Asper School of Business.

The Warren Centre, with the department of Statistics, offers a joint Honours program (see Section 4.13.3).

**To enter** the program, a student must have completed a minimum of 24 credit hours with a minimum DGPA of 3.00, and also obtained a minimum grade of "B" in one of the courses listed in Year 1 of the program chart. All of the courses listed in Year 1 of the program chart are program requirements and students are strongly urged to take them in the first year.

**To continue** in the Actuarial Mathematics Honours program, students must maintain a minimum DGPA of 3.00 and complete a minimum of 9 credit hours during each Fall and Winter Term.

**To graduate** with the B. Sc. Honours degree, a student must achieve a minimum DGPA of 3.00, a minimum grade of "C+" in each of the Honours Program Specific courses (see below), and a minimum grade of "C" on all remaining courses that contribute to the 120 credit hours of the degree.

#### Honours Program Specific Courses

Students must achieve a minimum grade of "C+" in each of the following for both prerequisite purposes and graduation requirements:

ACT 2020, ACT 2120, ACT 2210, ACT 3130, ACT 3230, ACT 3340, ACT 3630 (or both ACT 3130 and ACT 3230), ACT 4010, ACT 4020, ACT 4030, ACT 4060, ACT 4160.

#### 4.1.2 Actuarial Mathematics Program Chart

YEAR 1	YEAR 2	YEAR 3	YEAR 4
<b>HONOURS ACTUARIAL MATHEMATICS 120 CREDIT HOURS</b>			
ECON 1010, ECON 1020 MATH 1220 <sup>1</sup> , MATH 1230 <sup>1</sup> , MATH 1232 <sup>1</sup> , MATH 1240 STAT 1150 <sup>1</sup> , STAT 2150	ACT 2020, ACT 2120, ACT 2210 STAT 2400, STAT 2800 ACC 1100 <sup>2</sup> , FIN 2200 <sup>2</sup> MATH 2720 GMGT 2010 <sup>4</sup>	ACT 3630 (or both ACT 3130 and ACT 3230), ACT 3340, ACT 4020 <sup>3</sup> , ACT 4030 <sup>3</sup> STAT 3030, STAT 3100	ACT 4010, ACT 4060, ACT 4160 STAT 3450 <sup>3</sup> , STAT 3490 <sup>3</sup> MSCI 2150
6 credit hours of electives	3 credit hours of electives	9 credit hours of electives <sup>5</sup>	12 credit hours of electives <sup>5</sup>
30 Hours	30 Hours	30 Hours	30 Hours
<b>JOINT STATISTICS - ACTUARIAL MATHEMATICS HONOURS: See Section 4.13.3</b>			
<b>NOTES:</b>			
<sup>1</sup> The following substitutions are allowed: MATH 1300 (C) or MATH 1310 in place of MATH 1220 (C), MATH 1500 (B) or MATH 1510 (B) in place of MATH 1230 (C), MATH 1700 (B) or MATH 1710 (B) in place of MATH 1232 (C), STAT 1000 (C) and STAT 2000 (B) in place of STAT 1150.			
<sup>2</sup> Students are strongly urged to complete ACC 1100 in Year 1 when possible. FIN 2200 may be taken in Year 2, 3 or 4; however, it is strongly recommended that it be completed in Year 2. Note that ACC 1100 is a prerequisite for FIN 2200.			
<sup>3</sup> STAT 3450, STAT 3490, ACT 4020 and ACT 4030 may be taken in Year 3 or 4.			
<sup>4</sup> GMGT 2010 fulfills the written English requirement.			
<sup>5</sup> It is recommended that electives in Year 3 and Year 4 be chosen from Actuarial Mathematics, Business courses, Computer Science, Economics, Mathematics (3000 or 4000 level) and Statistics (4000 level courses). Other electives may be selected through consultation with the program director. Examples include: Year 3: FIN 3410, FIN 3450, FIN 3480, MSCI 3400, STAT 3150, STAT 3550, STAT 3690 Year 4: FIN 4240, STAT 4100, STAT 4150, STAT 4250, STAT 4630.			

#### 4.2 Biochemistry

Head: Deborah Court - Department of Microbiology; Joe O'Neil - Department of Chemistry  
Campus Address/General Office: 213 Buller Building / 360 Parker Building  
Telephone: 204 474 9372 / 204 474 9321  
Email Address: [Deborah.Court@umanitoba.ca](mailto:Deborah.Court@umanitoba.ca)  
/ [Joe.ONeil@umanitoba.ca](mailto:Joe.ONeil@umanitoba.ca)  
Website: <http://umanitoba.ca/faculties/science/departments/microbiology/>  
OR <http://www.umanitoba.ca/chemistry>

##### 4.2.1 Program Information

#### Biochemistry Honours Degree Requirements

**To enter** the joint Honours program in Biochemistry, a student must have completed at least 24 credit hours with a minimum DGPA of 3.00 and also obtained a minimum grade of "B" in CHEM 1310 and a minimum grade of "C+" in BIOL 1020, BIOL 1030, PHYS 1020 (or PHYS 1050), PHYS 1030 (or PHYS 1070), MATH 1500 and MATH 1700 are required courses in the program and students **are strongly encouraged to complete them in first year.**

**To continue** in the Biochemistry Joint Honours program, students must maintain a minimum DGPA of 3.00, and complete a minimum of 9 credit hours during each Fall and Winter Term.

**To graduate** with the Biochemistry Joint Honours degree, a student must achieve a minimum DGPA of 3.00 and obtain a minimum grade of "C" on the courses that make up the 120 credit hours of the degree.

#### Chemistry and Microbiology Option Courses for Biochemistry Honours Students:

Chemistry: CHEM 2290, CHEM 3360, CHEM 3370, CHEM 3390, CHEM 3400, CHEM 3490, CHEM 3580, CHEM 3590, CHEM 4370, CHEM 4570, CHEM 4580, CHEM 4590, CHEM 4610 (6), CHEM 4640, CHEM 4650, CHEM 4670, CHEM 4680, CHEM 4690

Microbiology: MBIO 3000, MBIO 3010, MBIO 3030, MBIO 3280, MBIO 3430, MBIO 3470, MBIO 3600, MBIO 4020, MBIO 4410, MBIO 4440, MBIO 4480, MBIO 4520, MBIO 4570, MBIO 4580, MBIO 4602, MBIO 4612, MBIO 4670 (or MBIO 4672)

Option courses no longer offered that may be used if taken prior to their deletion: CHEM 3380, CHEM 4600, MBIO 2280, MBIO 3440, MBIO 3480, MBIO 4010, MBIO 4320, MBIO 4470, MBIO 4510, MBIO 4600 and MBIO 4610. NOTE: Several of these courses may not be held with current course offerings found on the above option lists. Please refer to the calendar descriptions for more information about specific course restrictions.

Other options may be considered and approved by the program advisor.

#### Biochemistry Four Year Major Degree Requirements

**To enter** the joint four year Major program, a student must have completed a minimum of 24 credit hours with a minimum DGPA of 2.00, and also obtained a minimum grade of "C+" in CHEM 1310, and a minimum grade of "C" in BIOL 1020, BIOL 1030, PHYS 1020 (or PHYS 1050), PHYS 1030 (or PHYS 1070), MATH 1500, and MATH 1700 are required courses in the program and students are strongly encouraged to complete these courses in first year.

**To continue** in the Bachelor of Science Major degree program, students must maintain a minimum DGPA of 2.00.

**To graduate** with the Bachelor of Science Major in Biochemistry, a student must complete 120 credit hours or more, with minimum grades of "C" on all Major Program Specific courses (see below), passing grades ("D" or better) on the remaining courses, and a minimum DGPA of 2.00.

#### Major Program Specific Courses:

Chemistry: CHEM 2210, CHEM 2220, CHEM 2260, (CHEM 2280), CHEM 2360 (MBIO 2360), CHEM 2370 (MBIO 2370), CHEM 2400 (CHEM 2380), CHEM 2470, CHEM 3570, CHEM 4630 and whichever one of CHEM 4620, CHEM 4360, CHEM 4370 is selected.

Microbiology: MBIO 1010, MBIO 2020, MBIO 3410, and whichever one of MBIO 3450, MBIO 3460 or MBIO 4540 is selected.

Students in this program should note the following:  
 Students must satisfy any course prerequisites and co-requisites for courses selected. Care should be taken to select courses in their proper sequence, e.g. CHEM 2370 (MBIO 2370) and MBIO 2020 should be taken in Year 2 as they are prerequisite to a number of subsequent required or optional courses.

Normally 4000 level courses are available only to students in their fourth year. MBIO 4530 and MBIO 4670 are not available to Major students.

Students are encouraged to elect other courses pertinent to the study of biochemistry although this is not required for completion of the degree. The departments of Microbiology and Chemistry will be glad to suggest such supplementary courses upon request.

Students who may wish to transfer to the Honours program in Biochemistry following Year 2 should be sure to complete all courses recommended in Year 2 (see chart below).

**Honours and Major Co-operative Options**

A co-operative education option is available for both Major and Honours students. Students should refer to Section 3.5 of this chapter for further information on the Co-op programs.

**Honours Co-op**

The course, grade requirements and minimum DGPA requirement for entry and continuation in the Co-operative Option are the same as that for regular Honours program.

Students are required to complete the first and second year requirements of the program and MBIO 3410 before beginning their first co-op work term.

**Major Co-op**

The course and minimum grade requirements for **entry and continuation** in the Co-operative Option are the same as those required for the regular Major program. However, the entry and continuation DGPA requirement is set at a minimum of 2.5.

Students are encouraged, but not required, to take 15 credit hours in each academic term in the third and subsequent years. Students are required to complete the first and second year requirements of the program and [MBIO 3410](#) before beginning their first co-op work term.

4.2.2 Biochemistry Programs (offered Jointly by the Departments of Chemistry and Microbiology)			
YEAR 1	YEAR 2	YEAR 3	YEAR 4
<b>JOINT HONOURS 120 CREDIT HOURS</b>			
CHEM 1300, CHEM 1310 BIOL 1020, BIOL 1030  PHYS 1050 (or PHYS 1020), PHYS 1070 (or PHYS 1030)  MATH 1500 <sup>1</sup> , MATH 1700 <sup>1</sup>	CHEM 2210, CHEM 2220, CHEM 2260 <sup>4</sup> , CHEM 2360, CHEM 2370, CHEM 2400, CHEM 2470 MBIO 1010 <sup>5</sup> , MBIO 2020	CHEM 3570 MBIO 3410, MBIO 3450, MBIO 3460	CHEM 4360, CHEM 4620, CHEM 4630, (CHEM 4710 (6) or MBIO 4530 (6)) MBIO 4540
In Year 1 or Year 2 the following must be completed:		18 credit hours selected from the list of Microbiology and Chemistry optional courses (listed above).	

6 credit hours from the Faculty of Arts including the University Written English "W" requirement <sup>2</sup>		12 credit hours selected from the Faculty of Science <sup>3</sup>	
3 credit hours chosen from COMP, MATH, or STAT <sup>3</sup>			
30 Hours	30 Hours	30 Hours	30 Hours
<b>JOINT HONOURS CO-OPERATIVE OPTION<sup>6</sup> 120 CREDIT HOURS</b>			
CHEM 1300, CHEM 1310 BIOL 1020, BIOL 1030  PHYS 1050 (or PHYS 1020), PHYS 1070 (or PHYS 1030)  MATH 1500 <sup>1</sup> , MATH 1700 <sup>1</sup>	CHEM 2210, CHEM 2220, CHEM 2260 <sup>4</sup> , CHEM 2360, CHEM 2370, CHEM 2400, CHEM 2470 MBIO 1010 <sup>5</sup> , MBIO 2020	CHEM 3570 MBIO 3410, MBIO 3450, MBIO 3460	CHEM 4360, CHEM 4620, CHEM 4630 MBIO 4540
In Year 1 or Year 2 the following must be completed: 6 credit hours from the Faculty of Arts including the University Written English "W" requirement <sup>2</sup>		24 credit hours selected from the list of Microbiology and Chemistry Optional courses listed above. 12 credit hours selected from the Faculty of Science <sup>3</sup>	
3 credit hours chosen from COMP, MATH, or STAT <sup>3</sup>		<b>Co-op Requirements:</b> SCI 3980, SCI 3990, SCI 4980, and SCI 4990 (if a 4 <sup>th</sup> work term is selected)	
30 Hours	30 Hours	30 Hours	30 Hours
<b>JOINT FOUR YEAR MAJOR (Including Co-operative Option)<sup>6,7</sup> 120 CREDIT HOURS</b>			
CHEM 1300, CHEM 1310 BIOL 1020, BIOL 1030  PHYS 1050 (or PHYS 1020), PHYS 1070 (or PHYS 1030)  MATH 1500 <sup>1</sup> , MATH 1700 <sup>1</sup>	CHEM 2210, CHEM 2220, CHEM 2260 <sup>4</sup> , CHEM 2360, CHEM 2370, CHEM 2400, CHEM 2470 MBIO 1010 <sup>5</sup> , MBIO 2020	CHEM 3570 MBIO 3410  One of: MBIO 3450, MBIO 3460, MBIO 4540	CHEM 4630 One of: CHEM 4620, CHEM 4360, CHEM 4370
In Year 1 or Year 2 the following must be completed: 6 credit hours from the Faculty of Arts including the University Written English "W" requirement <sup>2</sup>		24 credit hours of Microbiology and Chemistry (minimum 6 credit hours from each dept.). Of these 24 credit hours, at least 12 hours must be 4000 level courses. 21 credit hours of approved electives <sup>3</sup>	
3 credit hours chosen from COMP, MATH, or STAT <sup>3</sup>		<b>Co-op Requirements (if selected):</b> SCI 3980, SCI 3990, SCI 4980, and SCI 4990 (if a 4 <sup>th</sup> work term is selected)	
<b>NOTES:</b> <sup>1</sup> MATH 1230 or MATH 1510 or MATH 1520 may be taken in place of MATH 1500; MATH 1232 or MATH 1710 may be taken in place of MATH 1700; MATH 1690 may be taken in place of MATH 1500 and MATH 1700.  <sup>2</sup> As there are no open electives in Year 2 of the program, students should complete the university written English requirement in Year 1. If not completed in Year 1, a "W" course must be completed prior to Year 3 in addition to the required Year 2 courses.			

<sup>3</sup> MATH 1010, MATH 1020, the former MATH 1190, the former COMP 1260, the former COMP 1270, COMP 1500 and COMP 1600 may not be chosen to satisfy this requirement

<sup>4</sup> The former CHEM 2280 may be used in lieu of CHEM 2260.

<sup>5</sup> MBI0 1010 can be taken in Year 1 after BIOL 1020.

<sup>6</sup> IMPORTANT: Students in the co-operative programs must ensure that they are able to satisfy the prerequisites for all 3000 and 4000 level courses they plan to take.

<sup>7</sup> The four year Major program need not be completed in the manner prescribed in the chart above. The chart indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their program.

(The number 6 in brackets indicates a six credit hour course.)

<sup>6</sup> MBI0 1010 can be taken in Year 1 after BIOL 1020.

(The number 6 in brackets indicates a six credit hour course.)

### 4.3 Department of Biological Sciences

Head: Steven Harris

Campus Address/General Office: 212 Biological Sciences Building

Telephone: (204) 474 9610

Email Address: [Steven.Harris@umanitoba.ca](mailto:Steven.Harris@umanitoba.ca)

Website: [http://umanitoba.ca/science/biological\\_sciences/](http://umanitoba.ca/science/biological_sciences/)

#### 4.3.1 Biological Sciences

Biology is one of the most rapidly evolving and diverse sciences in the modern world, exploring all aspects of life from biomolecules to ecosystems. The Department of Biological Sciences is committed to advancing our understanding of biological structure and function, and developing new tools and technologies to address current and emerging problems facing all living organisms. Connections will be forged between molecules, cells, tissues, organs, organisms, populations, communities, and ecosystems, highlighting the need to explore all levels of biological interactions. Programs emphasize the organism as the key element in studies of the development and evolution of form and function, and the role in adaptations to the environment. Based on a core of fundamental biological principles, our programs explore diverse areas such as organismal biology, environmental biology, genetics, cell biology and development, physiology, ecology, behaviour, and systematics and evolution. The Department focuses on the integration of research and teaching expertise to create opportunities for growth and novel synergisms in the training of future leaders in the field.

#### 4.3.2 B.Sc. Honours: Biological Sciences

The Honours program is designed for students planning a professional career in Biological Sciences at the graduate level. Such students are strongly advised to enter the Honours program at the beginning of second year.

Appropriate courses will be arranged in consultation with the Theme Advisor who may be contacted through the Biological Sciences Office (212 Biological Sciences Building). Students must select a specific theme area of study as part of their Biological Sciences program. See the information below outlining the different theme areas offered by the Department of Biological Sciences.

**To enter** the Biological Sciences Honours program a student must have completed at least 24 credit hours with a minimum DGPA of 3.00, and obtained a minimum grade of "B" in BIOL 1030. CHEM 1300, CHEM 1310, STAT 1150 or STAT 1000, and the 3 credit hours of specified Mathematics or Physics are program requirements and students are strongly urged to complete these courses in first year.

**To continue** in the Biological Sciences Honours program, students must maintain a minimum DGPA of 3.00, and complete a minimum of 9 credit hours during each Fall and Winter Term.

**To graduate** with the B. Sc. Honours degree, a student must achieve a minimum DGPA of 3.00, and obtain a minimum grade of "C" on the courses that make up the 120 credit hours of the degree.

#### 4.3.3 B.Sc. (Major): Biological Sciences

The four year Major program is also designed for students planning a professional career in the Biological Sciences, but who may not be considering graduate training. It will provide intensive training in all areas of Biology comparable to that of the Honours program, but has less demanding performance requirements. Additionally, students may complete the Major degree requirements on a part-time basis if they so choose. Students who so wish, and have appropriate standing and course selection, may transfer to the Honours program at any time up to the commencement of Year 4.

Appropriate courses will be arranged in consultation with the Theme Advisor who may be contacted through the Biological Sciences Office, 212 Biological Sciences Building. Students must select a specific theme area of study as part of their Biological Sciences program. See the information below outlining the different theme areas offered by the Department of Biological Sciences.

Course BIOL 4100 is not available to students in this program.

**To enter** the Biological Sciences four year Major program a student must have completed a minimum of 24 credit hours with a minimum DGPA of 2.00, and obtained a minimum grade of "C+" in BIOL 1030. CHEM 1300, CHEM 1310, STAT 1150 or STAT 1000, and the 3 credit hours of specified Mathematics or Physics are program requirements and students are strongly encouraged to complete these courses in first year.

**To continue** in the Bachelor of Science Major degree, a student must maintain a minimum DGPA of 2.00.

**To graduate** with the Bachelor of Science (Major) in Biological Sciences, a student must obtain a minimum DGPA of 2.00 and a minimum grade of "C" or better in all required courses and required option courses.

#### 4.3.4 Honours and Major Co-operative Options

A co-operative education option is available for both Major and Honours students. Students should refer to [Section 3.5](#) of this chapter for further information on the Co-op programs.

##### Honours Co-op

The course, grade requirements and minimum DGPA requirement for entry and continuation in the Co-operative Option are the same as that for regular Honours program.

Before starting the first co-op work term, the following prerequisite courses must be completed: BIOL 1020, BIOL 1030, CHEM 1300, CHEM 1310, STAT 1150 or STAT 1000, 3 credit hours of specified Mathematics or Physics, BIOL 2300, BIOL 2500, BIOL 2520 and BIOL 3100. In addition, students must complete 9 credit hours from program core courses as follows: students must select one course from Group A (BIOL 2200, BIOL 2210), plus one course from

Group B (BIOL 2240, BIOL 2242, BIOL 2260, BIOL 2262), plus one additional course from either Group A or Group B.

##### Major Co-op

The course and minimum grade requirements for entry and continuation in the Co-operative Option are the same as those required for the regular Major program. However, the entry and continuation DGPA requirement is set at a minimum of 2.5.

Before starting the first co-op work term, the following prerequisite courses must be completed: BIOL 1020, BIOL 1030, CHEM 1300, CHEM 1310, STAT 1150 or STAT 1000, 3 credit hours of specified Mathematics or Physics, BIOL 2300, BIOL 2500, and BIOL 2520. In addition, students must complete 9 credit hours from program core courses as follows: students must select one course from Group A (BIOL 2200, BIOL 2210), plus one course from Group B (BIOL 2240, BIOL 2242, BIOL 2260, BIOL 2262), plus one additional course from either Group A or Group B.

#### 4.3.5 Biological Sciences Theme Areas

**I. Cell, Molecular and Developmental Biology:** Students in the Department of Biological Sciences with an interest in the exciting field of cell and developmental biology can select the Cell, Molecular, and Developmental Biology theme for focus. This theme will provide students a selection of courses that highlight fundamental principles and many important advances in this rapidly growing area of contemporary biology. Students can concentrate on aspects that deal with the molecular structures and processes of cellular life and their roles in the function, reproduction, and development of living organisms. The theme is structured such that students can choose from a broad range of disciplines, including biochemistry, molecular biology, morphology, genetics, cell biology, and developmental biology. The organisms under study in this theme are equally diverse, ranging from microbes through to invertebrates, vertebrates, plants, and fungi. The Department collaborates with many other life sciences departments and this theme allows student to develop a highly flexibly course portfolio that includes courses from the Departments of Biological Sciences, Chemistry, Microbiology, or Plant Science.

Specific courses required for the Cell, Molecular, and Developmental Biology Theme in addition to the core course requirements: BIOL 3542; Plus a minimum of 6 credit hours of Biochemistry: CHEM 2770 (MBIO 2770) and CHEM 2780 (MBIO 2780); or CHEM 2210 and CHEM 2360 (MBIO 2360) and CHEM 2370 (MBIO 2370).

**II. Ecology and Environmental Biology:** Ecology is the study of interactions between organisms and their environment, both in natural settings and human-influenced habitats. In our society ecology and environmental biology provides a scientific link to the living world. Ecologists study the lives of many organisms including animals, plants, fungi, protists, and bacteria. Interactions among these organisms are investigated at many scales ranging from the microscopic to the global. At the individual level, ecology investigates the impact of environmental factors on organisms through their physiology and behaviour. Ultimately, ecologists link these factors to survival and reproduction in variable environments. At the population level, ecology examines the causes of fluctuations in numbers and changes in distribution of a single species. This work is often the focus of agencies concerned with exploitation, extinction, and rehabilitation of both commercially and esthetically important species. At the community and ecosystem level, ecology considers many coexisting species. It examines the interactions between species within the communities (competition, predation, parasitism, mutualism, etc.) as well as broader investigations of community structure and composition. Ultimately, the skills developed within this theme prepare students for future careers in academia, government agencies, private consulting companies, or NGOs whose mandates encompass ecological and environmental concerns.

Specific courses required for the Ecology and Environmental Biology Theme in addition to the core **course requirements:** BIOL 3310, BIOL 3312, BIOL 3314, STAT 2150 or STAT 2000.

**III. Environmental and Integrative Physiology:** The Environmental and Integrative Physiology theme will be of interest to a wide array of students interested in pursuing employment opportunities in the Environmental, Consulting, Pharmaceutical, Healthcare, and Professional job markets. Based on the suggested courses and sub themes within this program students will be able to graduate with an all inclusive degree or specialize in particular disciplines ranging from molecular physiology to whole organism physiology and eco/environmental physiology, a subject area that is at the interface between ecology and physiology. Students will be exposed to modern research techniques in lab classes and will be taught by instructors and faculty with active research programs within the Department of Biological Sciences.

Specific courses required for the Environmental and Integrative Physiology Theme in addition to the core course requirements: 6 credit hours of Biochemistry CHEM 2770 (MBIO 2770) and CHEM 2780 (MBIO 2780); or CHEM 2210 and CHEM 2360 (MBIO 2360) and CHEM 2370 (MBIO 2370); Plus: two of the following courses (one of which is already required in the four-year Biological Sciences Degree programs): BIOL 3470, BIOL 3472, BIOL 3400 (the former BIOL 3450), BIOL 3452.

**IV. Evolution and Biodiversity:** Evolution is broadly defined as “descent with modification” and is the process that generates the earth’s biodiversity. The theory of evolution provides a unifying framework for biology because all organisms are descended from a common ancestor. As a result, evolutionary principles permeate research and teaching throughout biology.

Evolutionary biology addresses two overarching questions. (1) What was the history of life? (2) What processes account for adaptation and diversification? Systematics reconstructs the history of life by studying relationships among species, and involves comparisons of physical appearance, development, biochemistry, genetics, behaviour, ecology and biogeography. Evolutionary Genetics investigates how processes such as natural selection, mutation, and migration interact to cause evolutionary change within populations. Evolutionary history, genetics, and ecological context are required to fully understand the evolution of traits, for example body size, wing shape or leaf structure. Thus evolution integrates knowledge from a wide spectrum of sub-disciplines within biology.

Evolutionary biology has wide-ranging practical applications. Principles of evolution are required to understand: the evolution of pathogens such as HIV and avian influenza; domestication of wild species and consequences of genetic modifications; the identification of natural products; long-term responses to environmental change; and human biology. Courses from this theme will prepare students for academia, medicine, and government agencies or NGO’s that emphasize the cataloguing and conservation of biological diversity.

Specific courses required for the Evolution and Biodiversity Theme in addition to the core course requirements:

**List A:** One of the following: BIOL 3360, BIOL 4300, BIOL 4362, BIOL 4510.

**List B:** One of the following: BIOL 3200, BIOL 3242, BIOL 3250, BIOL 3270, BIOL 4212, BIOL 4214, BIOL 4216, BIOL 4218.

**V. Integrative Biology:** The Integrative Biology theme will be of interest to students planning to pursue careers in the various biology sub disciplines and who wish an undergraduate degree that is “interdisciplinary” within the life science departments that cuts across the traditional boundaries. This program will suit students who are interested in the “after degree” program in Education or who are intending to apply to a professional program (e.g. Medicine, Dentistry, Pharmacy, Medical Rehabilitation) and who would like a broad background in the Life Sciences. With the appropriate choice of Biological Science courses it would be possible to

indicate the Integrative Biology theme along with a second theme from the department.

Specific courses required for the Integrative Biology Theme in addition to the core course requirements: All five of the following: BIOL 2200, BIOL 2210, BIOL 2240, BIOL 2242, MBIOL 1010; One of the following: BIOL 3400 (the former BIOL 3450), BIOL 3470 or BIOL 3472; Plus: 24 credit hours in Biological Sciences (3000/4000 level courses) and 6 credit hours in Microbiology (3000/4000 level courses).

**4.3.6 B. Sc. General Degree: Biological Sciences**

Courses taken as part of a General degree program provide an introduction to the major fields of study in the Biological Sciences. Commencing in Fall Term 2009, students will have two options for the General Degree under the Department of Biological Sciences.

**Option A:** 18 credit hours of 2000, 3000, and (or) 4000 level Biological Sciences courses (subject to the Faculty requirement that of the 36 credit hours in the two chosen advanced level Science areas, at least 6 credit hours must be at the 3000/4000 level);

**Option B:** Students may choose 36 credit hours from the Biological Sciences provided they select the following courses: each of BIOL 2300<sup>1</sup>, BIOL 2500, BIOL 2520; one of BIOL 2200 or BIOL 2210; one of BIOL 2240, BIOL 2242, BIOL 2260 or BIOL 2262; plus 21 additional credit hours (2000 level or higher) from the Biological Sciences including at least a minimum of 6 credit hours at the 3000 or 4000 level.

Students anticipating a transfer to either the four year Major or Honours program at the end of their second or third year should consult with the Departmental Program Advisor before registering.

**NOTE:**

1 BIOL 2300 has a prerequisite or concurrent requirement of STAT 1150 or STAT 1000. Students planning this option should consider taking STAT 1150 or STAT 1000 as part of their Introductory Science requirement.

**4.3.7.1 Biological Sciences Program Charts**

YEAR 1	YEAR 2	YEAR 3	YEAR 4
<b>HONOURS: Cell, Molecular and Developmental Biology Theme (incl. Co-op) 120 CREDIT HOURS</b> (Courses listed in chart below and electives)			
BIOL 1020, BIOL 1030 CHEM 1300, CHEM 1310  STAT 1150 or STAT 1000	BIOL 2300, BIOL 2500, BIOL 2520 Choose one course from each of:  Group A: BIOL 2200, BIOL 2210  Group B: BIOL 2240, BIOL 2242, BIOL 2260, BIOL 2262  One additional course from either Group A or Group B  Either both of CHEM 2770 and CHEM 2780; or all three of CHEM 2210,	BIOL 3100, BIOL 3300 BIOL 3542 <sup>4</sup> (theme course)  Choose one of the following:  BIOL 3400, BIOL 3470, BIOL 3472  30 credit hours of 3000 or 4000 level Biology courses <sup>3</sup> (courses from outside Biology may be approved by the theme advisor) Enough elective credit hours required to total 120 credit hours for the program	BIOL 4100 (6)

	CHEM 2360, and CHEM 2370 (theme courses)		
	In Year 1 or Year 2 the following must be completed: 3 credit hours of Mathematics or Physics chosen from: MATH 1240 <sup>1</sup> , MATH 1300 <sup>1</sup> , MATH 1500 <sup>1</sup> , PHYS 1020 or PHYS 1050  6 credit hours from the Faculty of Arts, including a required "W" course	<b>Co-op Requirements (if selected):</b> SCI 3980, SCI 3990	<b>Co-op Requirements (if selected):</b> SCI 4980, and SCI 4990 (if a 4 <sup>th</sup> work term is selected)

**NOTES:**

<sup>1</sup> MATH 1230, MATH 1510, MATH 1520, or MATH 1690 may be taken in place of MATH 1500; MATH 1220 or MATH 1310 may be taken in place of MATH 1300; MATH 1200 may be used in place of MATH 1240.

<sup>2</sup> IMPORTANT: The programs need not be completed in the manner prescribed in the chart above. The charts indicate one possible arrangement of the 120 credit hours that make up the degree and are

meant to be a guide around which students can plan their programs with a view to satisfying the prerequisites of the required courses. These 120 credit hours are a combination of the courses outlined in the charts above and elective courses chosen by the student in consultation with the program advisors.

<sup>3</sup> Courses from other departments or faculties may be acceptable for use towards the 24 credit hours of 3000/4000 level Biological Sciences courses required in the Honours and Major Degree programs. Please consult with the department for permission to use alternate courses.

(The number 6 in brackets indicates a six credit hour course.)

#### 4.3.7.6 Biological Sciences - General Degree and Minor Requirements Charts

YEAR 1	YEAR 2	YEAR 3	YEAR 4
<b>THREE YEAR GENERAL (90 CREDIT HOURS)</b>			
BIOL 1020, BIOL 1030	18 credit hours of 2000, 3000, and (or) 4000 level Biological Sciences courses (subject to the Faculty requirement that of the 36 credit hours in the two advanced level Science areas, at least 6 credit hours must be at the 3000/4000 level.); <b>or</b> Students may choose all 36 credit hours of advanced level courses from the Department of Biological Sciences as long as courses are selected following the provisions outlined below:  Each of BIOL 2300 <sup>1</sup> , BIOL 2500, BIOL 2520; one of BIOL 2200 or BIOL 2210; one of BIOL 2240, BIOL 2242, BIOL 2260 or BIOL 2262; plus 21 additional credit hours from the Biological Sciences including at least 6 credit hours at the 3000 or 4000 level.		
<b>MINOR</b>			
BIOL 1020, BIOL 1030	12 credit hours of 2000, 3000, and/or 4000 level Biology courses.		

**NOTES:**

1 BIOL 2300 has STAT 1150 or STAT 1000 as a prerequisite or concurrent requirement. Students in this program may want to consider selecting STAT 1150 or STAT 1000 as part of their Introductory Science requirement. See Section 3.2 for more information.

#### 4.3.8 Biological Sciences Course Descriptions-1000 Level

##### **BIOL 1000 Biology: Foundations of Life 3 Cr. Hrs.**

A course in unifying principles of biology including cell biology, bioenergetics, cell division, genetics and evolution. May not be used for credit in a Major or Honours program in the Biological Sciences. May not be held with BIOL 1001, BIOL 1020, or BIOL 1021. Prerequisite: Any grade 12 or 40S Mathematics course (50%) or MSKL 0100.

##### **BIOL 1010 Biology: Biological Diversity and Interaction 3 Cr. Hrs.**

An introduction to biological diversity including prokaryotes, protists, fungi, plants and animals; the form and function of plants and animals and basic concepts of ecology. May not be used for credit in a Major or Honours program in the Biological Sciences. May not be held with BIOL 1011, BIOL 1030, or BIOL 1031. Prerequisite: Any grade 12 or 40S Mathematics course (50%) or MSKL 0100.

##### **BIOL 1020 Biology 1: Principles and Themes 3 Cr. Hrs.**

(Lab Required) A laboratory-based course in unifying principles of biology including cell biology, bioenergetics, cell division, genetics and evolution. This course is intended for Major and Honours students in the Biological Sciences. May not be held with BIOL 1021, BIOL 1000, BIOL 1001, or BIOE 2590. Students who complete BIOL 1000 as the prerequisite for BIOL 1020 will not be allowed to use both BIOL 1000 and BIOL 1020 towards their degree program as the two courses may not be held for credit with one another. Prerequisite: Biology 40S (50%) and [any 40S Mathematics (50%) or

MSKL 0100] and [one of 405 Chemistry (50%), CSKL 0100, 405 Physics (50%), or PSKL 0100] or BIOL 1000.

**BIOL 1030 Biology 2 : Biological Diversity, Function and Interactions** **3 Cr. Hrs.**

(Lab Required) A laboratory-based course introducing biological diversity including prokaryotes, protists, fungi, plants and animals; the form and function of plants and animals and basic concepts of ecology. This course is intended for major and honours students in the Biological Sciences. Not to be held with BIOL 1031, BIOL 1010 or BIOL 1011, BIOE 2590. Prerequisite: BIOL 1020 or BIOL 1021 (C). NOTE: BIOL 1030 is a prerequisite to further courses in Microbiology and to most courses in Biological Sciences. It is also intended for students proceeding to Agricultural and Food Sciences, Dentistry, Human Ecology, Medicine, Optometry, Pharmacy, Veterinary Science, Physical Education and Science.

**BIOL 1300 Economic Plants** **3 Cr. Hrs.**

A survey of economically important plants and their products. The history of plant use, plants in folklore and medicine, fermentation and viticulture, domestication of plants, and forestry are the major topics covered. Chemical, structural, and nutritional aspects of plant products are also discussed.

**BIOL 1340 The State of the Earth's Environment: Contemporary Issues** **3 Cr. Hrs.**

A presentation of contemporary environmental issues focusing on the scientific basis of problems caused by the growth of human population, use and depletion of resources, pollution, and damage to the environment. The current state of our knowledge bases will be discussed, along with improvements in them that may be necessary. The course will consider needs for action, priorities, and opportunities. May not be used to meet a program requirement of an Honours or Major program in the Biological Sciences. Not to be held with ENVR 1000.

**BIOL 1410 Anatomy of the Human Body** **3 Cr. Hrs.**

(Lab Required) Microanatomy and gross anatomy discussed including changes occurring from conception to old age. Although this course may be used as an elective in an Arts or Science program, it may not be used to meet a program requirement of an Honours or Major program in the Biological Sciences. May not be held with BIOL 1411. No prerequisite. High school Biology strongly recommended.

**BIOL 1412 Physiology of the Human Body** **3 Cr. Hrs.**

(Lab Required) Function of all systems discussed with homeostatic regulatory mechanisms as foundation themes. Although this course may be used as an elective in an Arts or Science program, it may not be used to meet a program requirement of an Honours or Major program in the Biological Sciences. Not available to students who have previously obtained credit in, or are currently registered in both of BIOL 2410 (BIOL 2411) and BIOL 2420 (BIOL 2421) or BIOL 1413. Prerequisite: BIOL 1410 or BIOL 1411 (C); or one of BIOL 1030, BIOL 1031 (C). This prerequisite is waived for students in the Baccalaureate Program for Registered Nurses.

**4.3.8 Biological Sciences Course Descriptions-2000 Level**

**BIOL 2200 The Invertebrates** **3 Cr. Hrs.**

(Lab Required) Biology and phylogeny of invertebrates. Emphasis on common taxa and on those groups of particular phylogenetic significance. Not to be held with BIOL 2201. Prerequisite: one of BIOL 1030, BIOL 1031 (C).

**BIOL 2210 The Chordates** **3 Cr. Hrs.**

(Lab Required) A study of the origin, evolutionary history and structure of the major groups of Chordates. Provides the foundation for more specialized courses such as Biology of Fishes, Ornithology, and Systematics and Biogeography of Fishes. Not to be held with BIOL 2231. Prerequisite: one of BIOL 1030, BIOL 1031 (C).

**BIOL 2240 The Non-Flowering Plants** **3 Cr. Hrs.**

(Lab Required) An introduction to the mosses and liverworts, ferns and their allies, and conifers, specifically treating their structure, reproduction, identification and ecological significance. Prerequisite: one of BIOL 1030, BIOL 1031 (C).

**BIOL 2242 The Flowering Plants** **3 Cr. Hrs.**

(Lab Required) A study of the structure and function of the flowering plants. Lecture topics are supplemented by laboratory exercises that focus on the anatomy and morphology of roots, stems, leaves and reproductive organs. Prerequisite: BIOL 1030 or BIOL 1031.

**BIOL 2260 Biology of Fungi and Lichens** **3 Cr. Hrs.**

(Lab Required) An introduction to the fungi, both free living and lichenized, with emphasis on the major taxonomic groupings, their organization and structure, their life histories, identification and general economic significance. May not be held with BIOL 2261. Prerequisite: BIOL 1030 or BIOL 1031.

**BIOL 2262 Biology of Algae** **3 Cr. Hrs.**

(Lab Required) (Formerly BIOL 3260) Lectures and laboratories dealing with the cellular features of major groups of algae and their phylogenetic and adaptive significance. The basics of algal taxonomy are also covered. Not to be held with the former BIOL 3260. Prerequisite: One of BIOL 1030, BIOL 1031 (C).

**BIOL 2300 Principles of Ecology** **3 Cr. Hrs.**

(Lab Required) Principles of ecology at the individual, population, community, and ecosystems levels. This course is also offered as AGEC 2370. It is the normal prerequisite to other courses in ecology. May not be held with BIOL 2301, BIOL 2390, or AGEC 2370. Prerequisite: BIOL 1030 or BIOL 1031. Prerequisite or concurrent requirement: one of STAT 1150 (D), STAT 1000 (D), or STAT 1001 (D).

**BIOL 2380 Introductory Toxicology** **3 Cr. Hrs.**

A survey of general principles underlying the effects of toxic substances on biological systems, including consideration of the history, scope and applications of toxicology, the mechanisms of toxic action, and some major types of toxicants. This course is also taught in Environmental Science as ENVR 2180 and in Agriculture as AGRI 2180. Not to be held with BIOL 2381, BIOL 2382, ENVR 2190, or AGRI 2190. Prerequisites: one of BIOL 1030, BIOL 1031 (C); and one of CHEM 1310, CHEM 1311 or CHEM 1320 (C).

**BIOL 2390 Introductory Ecology** **3 Cr. Hrs.**

The course involves a study of the interrelationships of living organisms (including human) with each other and with their environment. It is not normally acceptable as a prerequisite to other courses in ecology. Not to be held with BIOL 2300, BIOL 2301, or AGEC 2370. Prerequisite: one of BIOL 1010, BIOL 1030, BIOL 1031 (C).

**BIOL 2410 Human Physiology 1** **3 Cr. Hrs.**

The mechanisms of action of the body's major control systems (nervous and endocrine) and of the muscular and reproductive systems are examined. Not to be held with BIOL 2411 or BIOL 3460. Prerequisite: a "C" or better in one of BIOL 1030, BIOL 1031 or BIOL 1412 or a "C+" or better in both BIOL 1000 (or equivalent - BIOL 1001) and BIOL 1010 (or equivalent - BIOL 1011).

**BIOL 2420 Human Physiology 2** **3 Cr. Hrs.**

An examination of homeostatic regulation by the body's major effector organ systems (cardiovascular, respiratory, digestive, renal, and immune). Not to be held with BIOL 2421. Prerequisite: Completion of BIOL 2410 (D), or BIOL 2411 or BIOL 3460 (D); or consent of department.

**BIOL 2440 Human Reproductive Physiology** **3 Cr. Hrs.**

This course provides an in-depth understanding of human reproduction with particular emphasis on intrinsic control mechanisms and extrinsic methods of regulation of reproduction. This course also provides the basis for the understanding of alterations from normal mechanisms of reproductive processes. Prerequisites: BIOL 1410 (C) and BIOL 1412 (C); or consent of department. Check with the Department of Biological Sciences for course availability.

**BIOL 2500 Genetics 1** **3 Cr. Hrs.**

(Lab Required) Principles of heredity, gametogenesis and the cytological basis of inheritance in plants and animals. The concepts of dominance and genetic interaction, sex and inheritance, linkage, chromosomal variations, quantitative and population genetics, the genetic code. Not to be held with BIOL 2501, or PLNT 2520. Prerequisite: one of BIOL 1030, BIOL 1031 (C).

**BIOL 2520 Cell Biology 3 Cr. Hrs.**

The microscopic and submicroscopic aspects of cellular structure and function are considered with emphasis on the living cell as a dynamic system. Not to be held with BIOL 2521. Prerequisite: one of BIOL 1030, BIOL 1031 (C).

**BIOL 2600 Introduction to Computational Biology 3 Cr. Hrs.**

(Lab required) Biologists working in fields from genomics to ecology to physiology collect, analyze, and interpret their data using quantitative methods. More and more, biological researchers are encountering data (genomic, environmental, phenotypic) in unprecedented volumes that require new data handling approaches. The overall goal of this course is to introduce biology students to the types of biological questions that can be answered by applying computational methods to large-scale, publicly available data sets. The course will include a survey of several major public biological data repositories and will introduce students to the tools that biologists use to access, explore, analyze and visualize these data. This course is restricted to Faculty of Science students in a Major or Honours program. Prerequisites: (BIOL 1030 or BIOL 1031) or [(STAT 1150 or (STAT 1000 and STAT 2000)) and (one of BIOL 1000, BIOL 1001, BIOL 1010, or BIOL 1011)].

**4.3.8 Biological Sciences Course Descriptions-3000 Level****BIOL 3100 Skills in Biological Sciences 3 Cr. Hrs.**

This course will introduce students to the concepts and skills necessary to succeed in a research directed Biology-based career, including: communication skills (scientific writing and oral presentations), critical thinking, strategies for employment and graduate training, familiarization with the range of biological research, and exposure to a variety of Biology-based careers. Prerequisite: This course is restricted to Honours students in the Biological Sciences or departmental permission.

**BIOL 3200 Advanced Invertebrate Biology 3 Cr. Hrs.**

Topics of current interest within diverse phyla of Invertebrates to be surveyed. Students may develop approved research proposals and present up-to-date research summaries. Prerequisite: BIOL 2200 or BIOL 2201.

**BIOL 3242 Vascular Flora of Manitoba 3 Cr. Hrs.**

(Lab Required) A survey of the vascular plants of Manitoba emphasizing identification, nomenclature and classification, and including brief accounts of the distribution and post-glacial history of the main floristic associations within the province. Students must submit a collection of at least 20 different vascular plants identified to species. A guide to the collection should be obtained from the Department of Biological Sciences office in the Spring/Summer prior to commencing the course. Prerequisite: BIOL 2240 or BIOL 2242 or permission of the department.

**BIOL 3250 Lichens and Bryophytes 3 Cr. Hrs.**

(Lab Required) The biology, evolution, and ecology of lichens and bryophytes. Emphasis is placed on the role of lichens and bryophytes in the ecosystem, gene flow, animal interactions, co-evolution, secondary compounds, and species identification. Not to be held with BIOL 3240 or BIOL 4246. Prerequisite: BIOL 1030 or BIOL 1031 (C).

**BIOL 3270 Introductory Parasitology 3 Cr. Hrs.**

(Lab Required) General course covering major parasitic phyla: namely, Protozoa, Platyhelminthes, Aschelminthes, Acanthocephala, and Arthropoda. Emphasis will be on principles of parasitology. Prerequisite or concurrent requirement: BIOL 2200 (C), or BIOL 2201, or consent of department.

**BIOL 3280 Forest Botany 3 Cr. Hrs.**

An examination of the structure and dynamics of plant communities in forested ecosystems. Topics include forest type classification, physiological and anatomical responses of representative forest species, decomposition and nutrient cycling, disturbance and forest succession. Prerequisites: BIOL 2242 (C); and one of BIOL 2300, BIOL 2301 or AGECE 2370 (C); or consent of the department.

**BIOL 3290 Medicinal and Hallucinogenic Plants 3 Cr. Hrs.**

A botanical and historical survey of medicinal, hallucinogenic and poisonous plants used in various cultures. Not to be held with BIOL 3291.

Prerequisite: a minimum of 30 hours of university credit, or consent of department.

**BIOL 3300 Evolutionary Biology 3 Cr. Hrs.**

(Lab Required) Evolution is the ultimate cause of biological diversity. This course introduces the major questions and research methods in evolutionary biology. Topics include evolutionary genetics, adaptation, speciation, and the reconstruction of evolutionary history. Prerequisites: a "C" or better in one of BIOL 2500, BIOL 2501, or PLNT 2520; and any one of the following with a minimum grade of "C": BIOL 2200, BIOL 2210, BIOL 2231, BIOL 2240, BIOL 2260, BIOL 2261, BIOL 3260; or consent of department.

**BIOL 3310 Foundations of Population Ecology 3 Cr. Hrs.**

(Lab Required) The study of living populations, through experimentation and theory, will be examined. Topics investigated will include population regulation, competition, predation, disease, harvest, nonlinear and spatial dynamics and individual based models. Concepts and methods are reinforced through tutorials and evaluated by assignments and examinations. Prerequisites: [one of BIOL 2300, BIOL 2301, or AGECE 2370] and [one of STAT 1150, STAT 2000, or STAT 2001] or consent of department.

**BIOL 3312 Community Ecology 3 Cr. Hrs.**

Lectures and laboratories emphasizing the structure and function of terrestrial biotic communities with emphasis upon selected Manitoba situations. Prerequisite: a C or better in one of BIOL 2300, BIOL 2301 or AGECE 2370; or consent of department.

**BIOL 3314 Field Ecology 3 Cr. Hrs.**

Problems, techniques and assumptions involved in measuring parameters of biological populations and environmental variables. A field trip will be held prior to the start of classes. Students must register in the department office by August 5. Prerequisites: [a "C" or better in one of BIOL 2300, BIOL 2301, or AGECE 2370] and [a "D" or better in one of STAT 1150, STAT 2000, or STAT 2001].

**BIOL 3318 Boreal Ecology 3 Cr. Hrs.**

A survey of ecological factors in the formation, evolution, and survival of northern biota including northern peoples. There will be optional weekend field trips. Prerequisites: [one of BIOL 2300, BIOL 2301, or AGECE 2370] and [one of STAT 1150, STAT 1000, or STAT 1001]; or consent of department.

**BIOL 3340 Biology of Primitive Fungi and Allies 3 Cr. Hrs.**

Studies on the evolution of ancestral fungi, relevant Chromista and slime molds within the broader context of evolution of derived fungi and ancient groups basal to fungi and animals. The course also encompasses cogent life histories, development, structure, taxonomy, and fundamental biochemistry. General methods for environmental collection, isolation and study of these organisms will be presented in lectures. Prerequisite: BIOL 2260 or BIOL 2261, or consent of the department.

**BIOL 3350 Methods of Data Collection and Analysis in Ecology 3 Cr. Hrs.**

This course will consider methods of collection and analysis of ecological data, emphasizing experimental design of ecological studies, sampling, analysis of ecological data sets, and presentation techniques. May not be held with the former BIOL 4320. Prerequisites: [a "C" or better in one of BIOL 2300, BIOL 2301, or AGECE 2370] and [a "D" or better in one of STAT 1150, STAT 2000, or STAT 2001] or consent of department.

**BIOL 3360 Animal Behaviour 3 Cr. Hrs.**

(Lab Required) An introduction to the study of animal behaviour including key concepts from the parent disciplines of ethology and comparative psychology, the genetic and physiological bases of behaviours, and evolutionary aspects introducing optimality and game theoretical models characteristic of modern behavioural ecology. Laboratory work involves the design and execution of a behavioural project at the Assiniboine Park Zoo. Prerequisites: a "C" or better in one of BIOL 2300, BIOL 2301 or AGECE 2370; and BIOL 2210 (C); or consent of department.

**BIOL 3370 Limnology 3 Cr. Hrs.**

(Lab Required) Lectures and laboratories providing an introduction to the physics, chemistry and biology of lakes. Prerequisite: a "C" or better in one of BIOL 2300, BIOL 2301 or AGECE 2370.

**BIOL 3372 Wetland Ecology 3 Cr. Hrs.**

Lectures and field exercises examine the biotic (algae, macrophytes, invertebrates, and vertebrates) and abiotic (hydrology, nutrient cycling) properties of Manitoba's wetlands. Various wetland types, including prairie potholes, peatlands, and coastal marshes will be considered in lectures and field work. The course is offered in Summer Session. Prerequisite: a C or better in one of BIOL 2300, BIOL 2301 or AGEC 2370; or consent of department.

**BIOL 3400 Plant Physiology 3 Cr. Hrs.**

(Lab Required) (Formerly in plants, spanning the biochemical, cellular, tissue, organ and whole plant levels of organization. The focus will be on photosynthesis, respiration, plant water relations, plant mineral nutrition, and the role of hormonal and extrinsic factors in the regulation of plant growth. This course is taught together with PLNT 3400. Students may not hold credit for both BIOL 3400 and PLNT 3400. Not to be held with the former BIOL 3450 or PLNT 3500. Prerequisites: BIOL 1030 (C); and BIOL 2242 (or equivalent)(C); and a grade of "C" or better in one of CHEM 2360, MBIO 2360, CHEM 2770 or MBIO 2770; or consent of the department.

**BIOL 3452 Environmental Plant Physiology 3 Cr. Hrs.**

(Lab Required) A physiological study of plant-environment interactions with emphasis on the development of strategies to survive abiotic stresses including heat, cold, drought, flooding, shade, excess light and UV light. The unique mechanisms used by plants (including the fascinating carnivorous species) to obtain nutrients in deficient environments will also be covered. Prerequisite: one of BIOL 3400, the former BIOL 3450, PLNT 3400, or the former PLNT 3500 (C) or consent of the department.

**BIOL 3470 Environmental Physiology of Animals 1 3 Cr. Hrs.**

(Lab Required) This course is intended to acquaint students with some of the major environmental challenges encountered by animals and stresses the diversity of physiological solutions to these problems in aquatic and terrestrial organisms. Areas covered may include thermal biology, circulation, gas exchange and buoyancy regulation. Laboratories explore related subjects in various animals. This course may not be held for credit with the former BIOL 3462. Prerequisite: BIOL 2200 (C) or BIOL 2210 (C); or consent of department.

**BIOL 3472 Environmental Physiology of Animals 2 3 Cr. Hrs.**

(Lab Required) This course is intended to acquaint students with the control and integration of organ systems and body functions of animals, and their biochemical and physiological adaptations to environmental perturbations. Areas covered may include neuroendocrinology, excretion, and water, salt, and acid-base balance. Laboratories explore related subjects in various animals. This course may not be held for credit with BIOL 3460. Prerequisites: BIOL 2200 (C) or BIOL 2210 (C) or consent of department.

**BIOL 3500 Genetics 2 3 Cr. Hrs.**

(Lab Required) The course complements Genetics I (BIOL 2500, BIOL 2501) and deals with various aspects of linkage and crossing over, gene function, allelism, mutation and repair, the use of bacteria and viruses as genetic tools, basics of developmental genetics and extra-nuclear inheritance. May not be held with BIOL 3501. Prerequisite: BIOL 2500 (C), or BIOL 2501 or PLNT 2520 (C). Prerequisite or concurrent requirement: One of CHEM 2370, CHEM 2371, MBIO 2370, MBIO 2371, CHEM 2780, or MBIO 2780; or consent of department.

**BIOL 3542 Developmental Biology 3 Cr. Hrs.**

Principles and concepts of developmental biology will be presented including early embryo development, tissue patterning, morphogenesis, germ cell formation, stem cell biology, organ and nervous system development, growth and regeneration. Fundamental developmental concepts as well as the cellular, genetic and molecular mechanisms behind development will be covered utilizing invertebrate, vertebrate and plant examples. May not be held with the former BIOL 2540. Prerequisites: [A "C" or better in one of BIOL 2500, BIOL 2501, PLNT 2520] and [a "C" or better in one of BIOL 2520, BIOL 2521, or consent of the department.

**BIOL 3550 Plant Anatomy 3 Cr. Hrs.**

(Lab Required) A study of the anatomical aspects of the growth and development of plants cells, tissues and organs. Laboratory exercises will complement material. Prerequisite: BIOL 2242 (C).

**BIOL 3560 Comparative Animal Histology 3 Cr. Hrs.**

(Lab Required) This course focuses on the cell and tissue organization of animals. Cell morphology and specialization, tissue types and a survey of the cellular and tissue organization of all organ systems are covered. The primary focus is on mammals but comparative aspects of other animal groups are also included. May not be held with BIOL 3561. Prerequisite: one of BIOL 2210, BIOL 2520, or BIOL 2521.

**BIOL 3600 Biological Diversity and Sustainability 3 Cr. Hrs.**

Anthropogenic drivers of change of many components of biological diversity; the resulting impacts on ecosystem capacity to provide on-going goods and services that are essential constituents of well-being and ultimately sustainability. Prerequisites: BIOL 2300 (C); or BIOL 1030 (C) and BIOL 2390 (C).

**BIOL 3980 Work Term 1 0 Cr. Hrs.**

Work assignment in business, industry, or government for students registered in the Biological Sciences Cooperative Option. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

**BIOL 3990 Work Term 2 0 Cr. Hrs.**

Work assignment in business, industry, or government for students registered in the Biological Sciences Cooperative Option. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

**4.3.8 Biological Sciences Course Descriptions-4000 Level****BIOL 4100 Honours Thesis 6 Cr. Hrs.**

The student will conduct a research project, chosen in consultation with a Biological Sciences faculty member acting as an advisor, and produce a thesis in which the project, the results and conclusions are presented. The student will defend the thesis at an oral examination held on completion of the thesis. This course is restricted to 3rd and 4th year Honours Biological Science students. Prerequisite: BIOL 3100 or consent of department.

**BIOL 4210 Biology of Fishes 3 Cr. Hrs.**

(Lab Required) Lectures survey organ systems, life history, and the population biology of fishes. The ecological analysis of fish communities is addressed through a field trip and a series of workshops on the analysis of field data. Evaluation is based upon work related to the field trip and examinations based upon the lecture material. Prerequisite: BIOL 2210 (C) or BIOL 2231(C).

**BIOL 4212 Systematics and Biogeography of Fishes 3 Cr. Hrs.**

(Lab Required) A study of the evolutionary history, interrelationships and distribution patterns of the fish-like vertebrates. Laboratories will cover the identification of the major groups of fish-like vertebrates. Prerequisite: BIOL 2210 (C) or BIOL 2231 (C); or consent of department.

**BIOL 4214 Biology of Amphibians and Reptiles 3 Cr. Hrs.**

(Lab Required) Lectures consider the evolution, biology and adaptations of amphibians and reptiles. Laboratories and student presentations will deal with classification, structure, identification, and methods of field and laboratory study of these animals. Prerequisite: BIOL 2210 (C) or BIOL 2231 (C); or consent of department.

**BIOL 4216 Biology of Birds 3 Cr. Hrs.**

(Lab Required) Biology of birds including: morphology, systematics, evolution, life histories and breeding biology, ecology, migration, and distribution of birds. Prerequisite: BIOL 2210 (C) or BIOL 2231 (C). Prerequisite or concurrent requirement: BIOL 3360.

**BIOL 4218 Biology of Mammals 3 Cr. Hrs.**

(Lab Required) Structure, classification, evolution, life histories and distribution of mammals and their relation to human cultures. Techniques of studying mammals. Identification of the mammals of Manitoba. Offered in 2009-2010 and alternate years thereafter. Prerequisites: BIOL 2210 (C) or BIOL 2231 (C); and one of BIOL 2300, BIOL 2301 or AGEC 2370 (C); or consent of department.

**BIOL 4220 Marine Biodiversity 3 Cr. Hrs.**

(Examines key ecological principles governing the maintenance of marine biodiversity, particularly in northern ecosystems. Topics include the

definitions and global patterns of biodiversity and the ecological mechanisms influencing changes in these patterns in the context of applied population, community and ecosystem ecology. The course will also emphasize practical solutions, including fisheries' harvest models and marine protected areas. Prerequisites: [one of BIOL 2300, BIOL 2301, or AGECE 2370] and [one of STAT 1150, STAT 1000, or STAT 1001]; or consent of department.

**BIOL 4262 Wildlife and Fisheries Parasitology 3 Cr. Hrs.**  
(Lab Required) Parasites of major vertebrate groups of economic importance in temperate regions. Emphasis on: identification, means of control, and how to evaluate the impact of parasites on animal populations. A major project is required. Prerequisite: BIOL 3270 (C).

**BIOL 4300 Evolution and Adaptation 3 Cr. Hrs.**  
Lectures and discussion on advances in evolutionary research. Topics will include systematics, evolutionary genetics, evolution and development, co-evolution, mating systems, species ranges, eco-evolutionary dynamics, and evolution in society. This course may not be held for credit with either of BIOL 4240 or BIOL 4242. Prerequisite: BIOL 3300.

**BIOL 4310 Applications of Population Ecology in Fisheries and Wildlife 3 Cr. Hrs.**  
(Lab Required) The material introduced in BIOL 3310 is developed into the quantitative analyses of field data to form a basis for conservation and management. Topics covered include: surplus harvest models, virtual population analysis, spatial population modeling, bioeconomics, and quantitative adaptive management. Concepts are reinforced through tutorials. Prerequisite: BIOL 3310.

**BIOL 4312 Analysis of Biological Communities 3 Cr. Hrs.**  
A survey of methods and approaches to the analysis of biological and environmental data containing many variables. Offered in alternate years. Prerequisites: [one of BIOL 2300, BIOL 2301, or AGECE 2370] and [one of STAT 1150, STAT 2000, or STAT 2001].

**BIOL 4314 Arctic Field Ecology 3 Cr. Hrs.**  
This hands-on field course will be held in Churchill, MB. While participating in ongoing monitoring and research, students will learn techniques for estimating wildlife abundance, distribution, behaviour, and reproductive parameters. The course is offered in Summer Term. A field trip fee will be assessed in addition to tuition fees. May not be held with BIOL 4800 when topic is Arctic Field Ecology - Churchill, MB. Prerequisites: [one of BIOL 2300, BIOL 2301, or AGECE 2370] and [one of STAT 1150, STAT 1000, or STAT 1001] and instructor permission.

**BIOL 4330 Plant Interactions 3 Cr. Hrs.**  
This course examines the ecology of interactions between plants and their biotic environment - other plants, animals and soil microbes. This is a reading course. Students will participate in discussions of key papers, examine recent and historic literature, and write a term paper examining a selected topic. Prerequisite: a "C" or better in BIOL 2300; or consent of department.

**BIOL 4362 Behavioural Ecology and Cognitive Ethology 3 Cr. Hrs.**  
(Lab Required) Examines proximate and ultimate questions relating to mating and parental behaviour, communication, social parasitism and animal intellect to provide insight into the intimate relationship between behavioural evolution and the environment. Laboratory and field exercises complement major topics considered in lectures. Prerequisite: BIOL 3360 (C); or consent of department.

**BIOL 4374 Aquatic Botany 3 Cr. Hrs.**  
This course examines the relationship between algae, fungi and macrophytes, and the physical, chemical and biological properties of the aquatic environment. Specific adaptations to life in water, and patterns of distribution and succession in rivers, lakes and wetlands will be covered. Prerequisite: a "C" or better in one of BIOL 2300, BIOL 2301 or AGECE 2370; or consent of department.

**BIOL 4380 Environmental Toxicology 3 Cr. Hrs.**  
(Lab Required) A survey of the principles governing the dynamics of chemicals in the environment, with emphasis on the biological systems,

using case histories of known pollution problems. Prerequisites: [one of CHEM 2370, CHEM 2371, MBIO 2370, MBIO 2371, CHEM 2780, or MBIO 2780] and [one of BIOL 2300, BIOL 2301, or AGECE 2370] and [one of STAT 1150, STAT 1000, or STAT 1001] and [one of BIOL 2410, BIOL 2411, BIOL 3470, BIOL 3472, the former BIOL 3460, the former BIOL 3462]; or consent of department.

**BIOL 4400 Revegetation of Disturbed Lands 3 Cr. Hrs.**  
A physiological and ecological study of disturbed plant communities with emphasis on stresses associated with both mining activities and agricultural practices and processes of assisted recovery. Prerequisites: BIOL 3400 or PLNT 3400, BIOL 3450 or PLNT 3500 (C); and one of BIOL 2300, BIOL 2301 or AGECE 2370 (C); or consent of instructor.

**BIOL 4460 Comparative Animal Energetics 3 Cr. Hrs.**  
Energetic strategies of animals living in ecologically diverse environments. Integration of physiological, morphological and behavioural adaptations with an emphasis on vertebrate species. Prerequisites: BIOL 2210 (C) or BIOL 2231(C); and one of BIOL 2410 (C), BIOL 2411, BIOL 3470 (BIOL 3462), (C), or BIOL 3472 (BIOL 3460) (C); or consent of department.

**BIOL 4470 Sensory-Motor Physiology 3 Cr. Hrs.**  
Information flow in the nervous system and the control of behaviour. The diverse roles that ion channels and synaptic circuitry play in sensory reception, neuronal integration and motor control are emphasized. Prerequisite: a "C" or better in BIOL 2410 and BIOL 2420 or BIOL 2411 and BIOL 2421 or BIOL 3470 and BIOL 3472 (the former BIOL 3460 and BIOL 3462) or consent of department. This course is restricted to students in year 3 or 4 of a Major or Honours degree program in Biological Sciences or in Chemistry (Biopharmaceutical Focus Area), or in the B.Sc. in Biosystems Engineering.

**BIOL 4480 Comparative Endocrinology 3 Cr. Hrs.**  
The structure, control, and function of vertebrate endocrine systems. BIOL 2520, BIOL 2521, one of BIOL 2410, BIOL 2411, BIOL 3470 or BIOL 3472, and a course in biochemistry are strongly recommended as prerequisites. Prerequisites: one of BIOL 1030 or BIOL 1031 and successful completion of 60 credit hours of university coursework.

**BIOL 4500 Molecular Genetics of Plant Development 3 Cr. Hrs.**  
Analysis of plant development at the molecular level. Recent advances in model system genetics will be highlighted including seedling, root, shoot, and flower development as well as environmental responses. Prerequisite: BIOL 2500 or BIOL 2501 (BOTN 2461) (C).

**BIOL 4510 Evolutionary Genetics 3 Cr. Hrs.**  
(Lab Required) Evolutionary genetic processes are the foundation upon which much of understanding of biology is built. This course uses lectures, discussions, and computer-based analyses of real data sets to introduce the core concepts of theoretical population genetics and the applications of these ideas for the study of evolution. May not be held with BIOL 4890 when the topic is "Evolutionary Genetics". Registration is restricted to students in the B.Sc. Honours or Major programs, including Co-op programs, in Biological Sciences and Genetics. Prerequisites: (one of BIOL 3300, BIOL 3301 or consent of department) and (one of MATH 1200, MATH 1210, MATH 1211, MATH 1220, MATH 1230, MATH 1240, MATH 1241, MATH 1300, MATH 1301, MATH 1310, MATH 1500, MATH 1501, MATH 1510, MATH 1520, the former MATH 1530, or MATH 1690).

**BIOL 4540 Developmental Molecular Biology 3 Cr. Hrs.**  
(Lab Required) An examination of early development with emphasis on the molecular events. Sex determination, gametogenesis and early embryogenesis will be discussed. Prerequisite: BIOL 3542 or the former BIOL 2540 (C); or consent of department.

**BIOL 4542 Genes and Development 3 Cr. Hrs.**  
An in depth examination of selected topics in embryonic development, emphasizing the genetic control of the cell and molecular mechanisms that direct embryogenesis. The course emphasizes hypothesis testing and the evolution of development, including studies of both animal and plant development. Prerequisites: BIOL 2520 or BIOL 2521 (C); and BIOL 3542 (or the former BIOL 2540 (C); or consent of department.

**BIOL 4544 Advanced Developmental and Cellular Biology****3 Cr. Hrs.**

(Lab Required) The course focuses on contemporary concepts and approaches in developmental biology, including theoretical and practical aspects. The emphasis is on the laboratory component. May not be held with the former BIOL 3540. Prerequisites: BIOL 2520 or BIOL 2521 and BIOL 3542 (C) or the former BIOL 2540; or consent of the department.

**BIOL 4554 Molecular Biology Techniques for Eukaryotes - DNA****3 Cr. Hrs.**

(Lab Required) A techniques intensive course focusing on the understanding of molecular biology techniques, troubleshooting problems, writing reproducible laboratory experiments for publications, accurate recording of procedures in lab journals, and bioinformatics exercises from a DNA perspective. This course is designed for 4th year undergraduate and graduate students interested in understanding the theory and application of molecular methods specifically focusing on eukaryotic DNA. Students will learn essential and cutting-edge molecular biology techniques involved in gene structure, amplification, transformation, and sequencing among others. This course may not be held for credit with BIOL 4552. Prerequisite: BIOL 2520

**BIOL 4556 Molecular Biology Techniques for Eukaryotes - RNA****3 Cr. Hrs.**

(Lab Required) This is a "hands-on" techniques course designed for the 3rd and 4th year undergraduate level. The purpose of this course is to train students in the current molecular biology techniques dealing with highly sensitive RNA molecules. The students will learn all essential steps involved to identify the messenger RNA expression of a particular target protein in plant or animal (invertebrates) systems. This course may not be held for credit with BIOL 4552. Prerequisite: BIOL 2520.

**BIOL 4560 Microtechnique****3 Cr. Hrs.**

(Lab Required) This intensive course covers a spectrum of animal tissue and cell preparation techniques for microscopy and a survey of the variety of types of microscopy. These span all types of microscopy; live cell techniques, fixation and tissue processing methods for both paraffin embedding media and plastic media, sectioning and staining imaging and image processing, introduction to histochemistry and immunocytochemistry and electron microscopy. This is a practical course with a major hands-on laboratory emphasis. Prerequisites: BIOL 1030 or BIOL 1031 (C+); or consent of department. This course is restricted to students in year 3 or 4 of a Major or Honours degree program.

**BIOL 4650 Biology and Society****3 Cr. Hrs.**

(Lab Required) An exploration of the intersection of biology with society and the societal implications of research in areas such as genetics, biotechnology, ecology and evolution through lectures and tutorials. The course will examine how biological research is presented in the public sphere, and consider common public misunderstandings of the science. Students will examine some of the ethical issues that arise in the practice and application of biological sciences and develop skills in the communication and clarification of biological principles to the public. May not be held with BIOL 4890 when titled "Biology and Society". Prerequisites: One of BIOL 2500, BIOL 2501, PLNT 2520, the former BOTN 2460 or the former BOTN 2461 (C+), or permission of instructor. Students must be enrolled in third year (or higher) of a major or honours program in Biological Sciences, Biotechnology or Genetics.

**BIOL 4800 Special Topics in Field Biology****3 Cr. Hrs.**

Lectures, field studies and research projects on a selected topic. Course content to vary from year to year depending on instructor. Usually offered during the summer months. Prerequisite: consent of department.

**BIOL 4890 Special Topics in Biology****3 Cr. Hrs.**

Biology encompasses a broad array of ideas and special topic areas. In this course, students can pursue a specific topic in detail through lectures, seminars and research projects. Normally restricted to third and fourth year Honours and Major students. Prerequisite: Consent of department.

**BIOL 4980 Work Term 3****0 Cr. Hrs.**

Work assignment in business, industry, or government for students

registered in the Biological Sciences Cooperative Option. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only)

**BIOL 4990 Work Term 4****0 Cr. Hrs.**

Work assignment in business, industry, or government for students registered in the Biological Sciences Cooperative Option. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only)

**4.4.1 Program Information**

**NOTE:** As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.

**Biotechnology Honours Degree Requirements**

**To enter** the Biotechnology Joint Honours program a student must have completed at least 24 credit hours with a minimum DGPA of 3.00, and also obtained a minimum grade of "B" in CHEM 1310 and a minimum grade of "C+" in BIOL 1020. CHEM 1300, BIOL 1030, MATH 15001, PHYS 1020 (or PHYS 1050), and STAT 1000 are required courses in the program and students are strongly encouraged to complete these courses in first year. Six credit hours of Arts electives, including the written English course should also be taken in Year 1.

Students will select one stream (Analytical or Molecular Biotechnology). Students are also encouraged to select a Minor in a complementary area. There are enough free electives to cover the 18 credit hours required for a Minor. All students must complete a Common Core of required courses plus required Stream Specific courses. The remaining courses can be selected from the list of Recommended Electives. This list is meant to give students some idea of appropriate electives; however, students have the option to choose courses not on the list in consultation with the Program Advisors.

**To continue** in the Biotechnology Joint Honours program, students must maintain a minimum DGPA of 3.00 and complete a minimum of 9 credit hours during each Fall and Winter Term. No more than 15 credit hours of F grades may be accumulated, regardless of whether any course has been repeated and a higher grade achieved. Research Project in Biotechnology ([BTEC 4000](#)) must be taken in the final year of the program.

**To graduate** from the Biotechnology Joint Honours program students must achieve a minimum DGPA of 3.00 and obtain minimum grade of "C" on the courses that contribute to the 120 credit hours that make up the degree.

Students who do not meet these minimum requirements will be required to withdraw from the program and may be eligible to enter the 4-Year Major degree program in Biotechnology. Depending on course selection students may also be eligible to enter other Major Programs (e.g. Biochemistry, Biological Sciences, Chemistry, or Microbiology) and/or the 3-year B.Sc. General Degree program.

**Biotechnology Honours Cooperative Option**

Students interested in alternating academic terms and terms of paid employment as part of their Honours Biotechnology program may enter the Cooperative Option in April of their second year in Honours Biotechnology. This program provides students with a minimum of 12 months of paid employment by the time they graduate. It enables them to obtain work experience in research and industry with participating firms, government agencies and university units.

The course and grade requirements **for entry** to this option are the same as those required for entry to the regular Honours program, as indicated in the chart. Students are required to complete the first and second year requirements of the program; and MBI0 3410 before they begin their first employment term. Students should refer to the general faculty regulations for B.Sc. (Honours) Cooperative Options in Section 3.6.

**To continue** in the Honours Cooperative program a student must maintain a minimum DGPA of 3.00, successfully complete each work term, and complete a minimum of 9 credit hours during each academic term. Students should note that the grade requirements for the Cooperative Option are the same as that for the regular Honours program (see above).

Students must check with the Co-op office for the April application deadline information. They will normally be notified of their provisional acceptance in the program by September. Acceptance into the program is dependent upon the student receiving an employment placement. Employment term positions available to the students will be approved by the department, and the employers will select the students they wish to employ. Students are advised that satisfying the entrance requirements does not guarantee a place in the Cooperative Option if the demand for places exceeds the number of places available. The department reserves the right to determine and select the best qualified applicants.

Students are required to register in and pay fees for each employment term prior to the commencement of each employment term. Students will be required to submit an employment report upon the completion of each employment term.

#### **Biotechnology 4-Year Major Degree Requirements**

**To enter** the Biotechnology Joint Major program a student must have completed at least 24 credit hours with a minimum DGPA of 2.00 and also obtained a minimum grade of "C+" in CHEM 1310 and a minimum grade of "C" in BIOL 1020, BIOL 1030, CHEM 1300, MATH 15001, PHYS 1020 or 1050, and STAT 1000 are required courses in the program and students are strongly urged to complete these courses in first year. Six credit hours of Arts electives, including the written English course should also be taken in Year 1.

Students will select one stream (Analytical or Molecular Biotechnology). Students are also encouraged to select a Minor in a complementary area. There are enough free electives to cover the 18 credit hours required for a Minor. All students must complete a Common Core of required courses plus required Stream Specific courses. The remaining courses can be selected from the list of Recommended Electives. This list is meant to give students some idea of appropriate electives; however, students have the option to choose courses not on the list in consultation with the Program Advisors.

**To continue** in the Major program a student must maintain a minimum DGPA of 2.00. No more than 18 credit hours of F grades can be accumulated regardless of whether any course has been repeated and a higher grade achieved.

**To graduate** from the Biotechnology Joint Major degree, students must maintain a minimum DGPA of 2.00. Students must also obtain a minimum grade of "C" on all common core and stream specific courses outlined

below. There is no term registration load requirement in the Major degree.

Students who do not meet these minimum requirements will be required to withdraw from the program and will normally be eligible to enter the 3-Year B.Sc. General degree program.

#### **Biotechnology 4 Year Major Cooperative Option**

Students interested in alternating academic terms and terms of paid employment as part of their Major program in Biotechnology may enter the Cooperative Option in April of their second year in Biotechnology. This program provides students with a minimum of 12 months of paid employment by the time they graduate. It enables them to obtain work experience in research and industry with participating firms, government agencies and university units.

The course and grade requirements **for entry** to this option are the same as those required for entry to the regular Major program. MBI0 3410 is required in Year 3. Students are required to complete the first and second year requirements of the program and MBI0 3410 before they begin their first employment term. Students should refer to the general faculty regulations for B.Sc. (Major) Cooperative Options in Section 3.4.

Students must check with the Co-op office for the April application deadline information. They will normally be notified of their provisional acceptance in the program by September. Acceptance into the program is dependent upon the student receiving an employment placement. Employment term positions available to the students will be approved by the department, and the employers will select the students they wish to employ. Students are advised that satisfying the entrance requirements does not guarantee a place in the Cooperative Option if the demand for places exceeds the number of places available. The department reserves the right to determine and select the best qualified applicants.

Students are required to register in and pay fees for each employment term prior to the commencement of each employment term. Students will be required to submit an employment report upon the completion of each employment term.

#### **Common Core Courses:**

BIOL 2500, BIOL 2520, CHEM 2210, CHEM 2220, CHEM/MBIO 2360, CHEM /MBIO 2370, CHEM 2470, CHEM 3590, CHEM 4630, MBIO 1010, MBIO 2020, MBIO 3000, MBIO 3030, MBIO 3410, MBIO 4520

#### **Optional Courses:**

Appropriate prerequisites must be taken for all Optional courses.

BIOL 2500, BIOL 2520, CHEM 2210, CHEM 2220, CHEM/MBIO 2360, CHEM /MBIO 2370, CHEM 2470, CHEM 3590, CHEM 4630, MBIO 1010, MBIO 2020, MBIO 3000, MBIO 3030, MBIO 3410, MBIO 4520

#### **Program Stream Courses:**

**Analytical Biotechnology:** MATH 17001, CHEM 4370, CHEM 4590, CHEM 4670, CHEM 4700

**Molecular Biotechnology:** MATH 17001, CHEM 4370, CHEM 4590, CHEM 4670, CHEM 4700

**Note:** In some instances pre-requisites will be waived upon approval by the appropriate department.

Complementary Existing Minors that could satisfy the Recommended Electives (Minors require 18 cr hrs of prescribed courses):

Management, Animal Systems, Food Science, Plant Biotechnology, or Human Nutrition and Metabolism

**Recommended General Electives if not required in Program stream:**

All courses in above described Minors.

Appropriate pre-requisites must also be taken for all Electives.

BIOE 3200, BIOE 3530, BIOE 4510, BIOL 1300 (BOTN 1010), BIOL 2242 (BOTN 2010), BIOL 2380 (BOTN/ZOOL 2180), BIOL 2260 (BOTN 2210), BIOL 2300 (BOTN/ZOOL 2370), BIOL 3550 (BOTN 3190), BIOL 3290 (BOTN 3280), BIOL 3500 (BOTN 3460), BIOL 4500 (BOTN 4180), BIOL 3542 (BIOL 2540), BIOL 4540 (ZOOL 4150), BIOL 4544 (BIOL 3540); CHEM 4360, CHEM 4370, CHEM 4590, CHEM 4620, CHEM 4670, CHEM 4700; COMP 1010, COMP 1020, COMP 1260, COMP 1270; ENG 1420; ENTR 2020; MATH 17001; MBIO 3280 (MBIO 2280), MBIO 3010, MBIO 3430, MBIO 4440 (MBIO 3440), MBIO 3450, MBIO 3460, MBIO 3470, MBIO 4480 (MBIO 3480), MBIO 4010, MBIO 4410, MBIO 4470, MBIO 4600, MBIO 4610, MBIO 4672; PHAC 4030, PHAC 4040; PHIL 2740, PHIL 2830; PLNT 3140, PLNT 3500, PLNT 3520, PLNT 3570, PLNT 4310, PLNT 4330, PLNT 4550, PLNT 4560, PLNT 4570, PLNT 4580, PLNT 4590, PLNT 4600; STAT 2000

Other suitable courses may be selected through consultation with the department heads.

**4.4.2 Biotechnology Programs (incl. Co-operative Option if selected)**

**NOTE:** As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.

<sup>2</sup> Optional courses and program stream courses requirements can be found above the Biotechnology program charts in section 4.4.1.

<sup>3</sup> Refer to list of recommended elective courses and complementary Minor programs (listed above charts) prior to registration in your electives.

<sup>4</sup> BTEC 4000 is required for students in the Honours program only. Students in the Honours Co-operative program will require 6 credit hours of approved electives.

<sup>5</sup> Choice of BIOL 4554 or BIOL 4556 not already chosen for stream. (The number 6 in brackets indicates a 6 credit hour course.)

**4.4.3 Biotechnology Course Descriptions****BTEC 3980 Work Term 1 0 Cr. Hrs.**

Work assignments in business, industry or government for students registered in the Biotechnology Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

**BTEC 3990 Work Term 2 0 Cr. Hrs.**

Work assignments in business, industry or government for students registered in the Biotechnology Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

**BTEC 4000 Research Project in Biotechnology 6 Cr. Hrs.**

(Lab Required) Students can carry out independent biotechnology based research in their area of interest under the supervision of a faculty member or an approved external biotechnology professional. Results will be presented as an interim oral report and a written journal style paper. Registration restricted to Year 4 Honours Biotechnology students. Not to be held with any other Research Project courses such as MBIOL 4530 or CHEM 4710.

**BTEC 4980 Work Term 3 0 Cr. Hrs.**

Work assignments in business, industry or government for students registered in the Biotechnology Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

**BTEC 4990 Work Term 4 0 Cr. Hrs.**

Work assignments in business, industry or government for students registered in the Biotechnology Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

**4.5 Department of Chemistry**

Head: Joe O'Neil

Campus Address/General Office: 360 Parker Building

Telephone: (204) 474 9321

Fax: (204) 474 7608

Email Address: [Chemistry\\_Dept@umanitoba.ca](mailto:Chemistry_Dept@umanitoba.ca)

Website: <http://umanitoba.ca/chemistry>

**4.5.1 Department of Chemistry Program Information**

Chemistry is the science concerned with the properties of atoms and molecules, of which all matter is composed. Chemistry is important for all aspects of the material world - food production; the manufacture of medicines, textiles, and plastics; energy production; identifying environmental problems and remedies; and understanding the workings of living organisms. The department offers study in analytical, inorganic, organic and physical chemistry, and in biochemistry.

**Chemistry Club:** The Chemistry Club is the University of Manitoba Student Chapter of the Chemical Institute of Canada. The aim of the organization is to advance interest in chemistry. All students engaged in chemical studies are eligible for membership in the chapter and are encouraged to apply. Regular meetings, tours, publications, etc., are planned by each year's membership.

**Scholarships and Awards:** Several scholarships and awards are granted each year to Honours and Major students in Chemistry, Biochemistry, and Biotechnology on the basis of outstanding academic performance. To be eligible for these awards for any regular session, students are normally required to have completed a full program with a minimum of 18 credit hours of Chemistry in that session. They must also be registered for a full program with a minimum of 18 credit hours of Chemistry in the next regular session. Additional information is available from the Chemistry general office.

The department must approve a student's Honour or Major program each session. Students must also obtain departmental approval for any and all revisions to their program.

**Honours Requirements**

**To enter** the Honours program in Chemistry, a student must have completed at least 24 credit hours with a minimum DGPA of 3.00, and also obtained a minimum grade of "B" in CHEM 1310. CHEM 1300, MATH 1500, MATH 1700, PHYS 1020 (PHYS 1050), and PHYS 1070 are required courses in this program and students are strongly encouraged to complete these courses in first year.

**To continue** in the Chemistry Honours program, students must maintain a minimum DGPA of 3.00 and complete a minimum of 9 credit hours during each Fall and Winter Term.

**To graduate** from the Chemistry Honours program students must achieve a minimum DGPA of 3.00 and obtain a minimum grade of "C" on the courses that make up the 120 credit hours of the degree.

**Four Year Major Requirements**

**To enter** the Chemistry Major program a student must have completed at least 24 credit hours with a minimum DGPA of 2.00 and also obtained a minimum grade of "C+" in CHEM 1310. CHEM 1300, MATH 1500, MATH 1700, PHYS 1020 (PHYS 1050), and PHYS 1070 are required courses in this program and students are strongly encouraged to complete these courses in first year.

**To continue** in the Major program, a student must have a DGPA of 2.00 at each point of assessment.

**To graduate** with the Bachelor of Science (Major) in Chemistry, a student must obtain a minimum DGPA of 2.00, and a minimum grade of “C” or better in all required Chemistry and Focus Area courses.

Students who, at the end of Year 1, are undecided between the four year Major and Honours programs should note that the prescription for Honours Year 2 satisfies both the Honours and Major program requirements.

### Honours and Major Co-operative Options

A co-operative education option is available for both Major and Honours students. Students should refer to [Section 3.5](#) of this chapter for further information on the Co-op programs.

#### Honours Co-op

The course, grade requirements and minimum DGPA requirement for entry and continuation in the Co-operative Option are the same as that for regular Honours program.

Students are required to complete 24 credit hours of Chemistry (including CHEM 2470 and either CHEM 2260 (the former CHEM 2280) or CHEM 2290) before beginning their first co-op work term.

#### Major Co-op

The course and minimum grade requirements for entry and continuation in the Co-operative Option are the same as those required for the regular Major program. However, the entry and continuation DGPA requirement is set at a minimum of 2.5.

Students are required to complete 24 credit hours of Chemistry (including CHEM 2470 and either CHEM 2260 (the former CHEM 2280) or CHEM 2290) before beginning their first co-op work term.

### Chemistry Program Focus Areas

Students may elect to take courses that, in combination, make up a Chemistry focus area. Currently, there are nine Chemistry focus areas. They are: Bioanalytical, Biopharmaceutical, Biophysical, Environmental, Inorganic, Materials Science, Organic, Physical, and Quantum/Computational. Each focus area has specific course requirements that students will satisfy in order to graduate and receive the focus area notation on their transcripts. Other focus areas may be selected with approval from the Department Head.

**Required** Courses for each Chemistry Focus Area (Note: Students are responsible for completing all prerequisite courses required for the completion of a specific Focus Area). The below course listings are not meant to be limiting. Plausible substitutions will be reviewed and approved by the Department of Chemistry on an individual basis.

**Bioanalytical:** 18 credit hours chosen from: CHEM 2550, CHEM 2370, CHEM 3260, CHEM 3570, CHEM 4550, CHEM 4590, CHEM 4630; plus a minimum of 9 credit hours from: BGEN 3020 (6), MBIO 2020, MBIO 3410, PHYS 2600, PHYS 2610, PHYS 2260, STAT 2000.

**Biopharmaceutical:** Each of: CHEM 3390, CHEM 3580, CHEM 4580, CHEM 4590, CHEM 4670, CHEM 4690; plus 9 credit hours chosen from: BIOL 2380, BIOL 2410, BIOL 2420, BIOL 2520, BIOL 3290, BIOL 4470.

**Biophysical:** 18 credit hours chosen from: CHEM 2370, CHEM 3360, CHEM 3370, CHEM 3490, CHEM 3570, CHEM 4590, CHEM 4620, CHEM 4630, CHEM 4640, CHEM 4700; plus 9 credit hours chosen from: BIOL 2500, BIOL 2520, MBIO 1410 or MBIO 3410, MBIO 3460, MBIO 4540.

**Environmental:** Each of: CHEM 2370, CHEM 2550, CHEM 4550, CHEM 4590, and 6 credit hours of 3000 or 4000 level Chemistry courses; plus at least 9 credit hours chosen from: ENVR 1000, ENVR 2000, ENVR 2180 (BIOL 2380), ENVR 3180, BIOL 4380.

**Inorganic:** 18 credit hours chosen from: CHEM 3390, CHEM 4680, CHEM 4570 (Topics in Inorganic Chemistry: Catalysis and Small Molecule Activation), CHEM 4570 (Topics in Inorganic Chemistry: Bioinorganic Chemistry), CHEM 4570 (Topics in Inorganic Chemistry: Inorganic Materials), CHEM 4802 (Topics in Analytical Chemistry: Materials Characterization), CHEM 3360; plus 9 credit hours from CHEM 3260, CHEM 3580, CHEM 4690, CHEM 3370, CHEM 3490, PHYS 2210 or PHYS 2600. (Note: The Inorganic Chemistry Focus Area does not include 9 hours of non-Chemistry courses.)

**Materials Science:** Each of: CHEM 3360, CHEM 3370, CHEM 3490, CHEM 4570, CHEM 4590, CHEM 4680; plus 9 credit hours from: BIOE 3320, ECE 3600, PHYS 2600, PHYS 2610. (MATH 1300 is highly recommended but does not count toward the 9 credit hour of non-Chemistry requirements.)

**Organic:** 27 credit hours from: CHEM 3260, CHEM 3390, CHEM 3580, CHEM 4580, CHEM 4590, CHEM 4620, CHEM 4630, CHEM 4670, CHEM 4680, CHEM 4690. (Note: There are no non-Chemistry courses in the Organic Chemistry Focus Area)

**Physical:** 18 credit hours from: CHEM 3260, CHEM 3360, CHEM 3370, CHEM 3490, CHEM 3570, CHEM 3580, CHEM 4100, CHEM 4800 (Topics in Physical/Theoretical Chemistry); plus 9 credit hours from: MATH 2090, PHYS 2260, PHYS 2390, PHYS 2490 or PHYS 2496, PHYS 2600, PHYS 2610, the former PHYS 3680 or PHYS 4680. (MATH 1220 or MATH 1300 are highly recommended but will not count toward the 9 credit hours of non-Chemistry requirements.)

**Quantum/Computational:** Each of: CHEM 3260, CHEM 3360, CHEM 3370, CHEM 3580, CHEM 4640, CHEM 4670; plus 9 credit hours from: COMP 2160, COMP 2190, MATH 2090, MATH 2160, the former PHYS 2380 or PHYS 2386, PHYS 4250, PHYS 4520.

### Three Year Requirements

Courses taken as part of a three-year degree program provide an introduction to the major fields of study in Chemistry. Students will have two options for a three year Degree under the Department of Chemistry.

**Option A – Three Year General:** As prescribed with all other faculty regulations in Section 3.2, students in this program must select 18 credit hours of 2000, 3000, and (or) 4000 level courses from each of two Science areas. To satisfy the requirement in the area of Chemistry, students must select a minimum of 18 credit hours from the following list of advanced level courses: CHEM 2210, CHEM 2220, CHEM 2260 (CHEM 2280), CHEM 2290, CHEM 2360, CHEM 2370, CHEM 2400 (CHEM 2380), CHEM 2470, CHEM 3260 (CHEM 4660), CHEM 3360, CHEM 3370, CHEM 3390, CHEM 3400 (CHEM 3380), CHEM 3570, CHEM 3580, CHEM 3590, CHEM 4100, CHEM 4360, CHEM 4370, CHEM 4570, CHEM 4580, CHEM 4590, CHEM 4620, CHEM 4630, CHEM 4640, CHEM 4660, CHEM 4670, CHEM 4680, CHEM 4690 (subject to the Faculty requirement that of the 36 credit hours in the two advanced level Science areas, at least 6 credit hours must be at the 3000/4000 level).

Courses not allowed for use as advanced level courses in the 3-Year General Degree are: CHEM 2240, CHEM 2550, CHEM 2560, CHEM 2770, CHEM 2780, CHEM 2860, CHEM 4550, the former CHEM 4600, CHEM 4610 (6), CHEM 4650, CHEM 4700, and CHEM 4710.

**Option B - Three Year B.Sc. – Chemistry Focus:** Students that choose this path for their three-year degree program will follow the program chart below. The 24 credit hours of introductory courses and 36 credit hours of advanced level requirements have been prescribed in such a way so that students that follow the chart can seamlessly transfer to a 4-year Chemistry

Honours or Major degree program should they choose to do so after the completion of the 90 credit hours listed in the chart.

Students anticipating a transfer to either the four year Major or Honours program at the end of their second or third year should consult with the Departmental Program Advisor before registering.

**Laboratory Exemption Regulations**

- valid for two calendar years only
- lab exemption given only one time per course
- laboratory marks are carried forward to the next course attempt
- students are responsible for laboratory questions on tests and examinations
- students must earn a minimum of 60% on the laboratory to be eligible for an exemption.

**Biochemistry and Biotechnology\* Programs**

The Department of Chemistry, in conjunction with the Department of Microbiology, offers Joint Honours programs, Joint Honours Cooperative Options, Joint four year Major programs and a Joint four year Major Cooperative Options in Biochemistry and Biotechnology.\* See sections 4.2 Biochemistry Program and 4.4 Biotechnology Program\* for full details.

\*As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.

**4.5.2 Chemistry Honours Degree Program Chart**

YEAR 1	YEAR 2	YEAR 3	YEAR 4
HONOURS <sup>3</sup> (incl. Co-operative Option if selected) 120 CREDIT HOURS			
CHEM 1300, CHEM 1310 (B)  PHYS 1050 (or PHYS 1020), PHYS 1070  MATH 1500 <sup>1</sup> , MATH 1700 <sup>1</sup>	CHEM 2210, CHEM 2220, CHEM 2260 (CHEM 2280), CHEM 2290, CHEM 2400, CHEM 2470, CHEM 2860 (CHEM 2360)	CHEM 3400, CHEM 3590	CHEM 4610 (6), CHEM 4710 (6)
In Year 1 or Year 2 the following must be completed:  6 credit hours from the Faculty of Arts, which		Sufficient credit hours (18) from the 2000, 3000 and 4000 level Chemistry <sup>3</sup> courses not yet taken to total a minimum of 63 credit hours of Chemistry courses at the 1000-4000 level. These credit hours may make up part of a focus area.	

should include the required "W" course  3 credit hours from Mathematics, Statistics or Computer Science courses <sup>2</sup>  12 credit hours of electives in years one and two	9 credit hours of non-Chemistry <sup>5</sup> courses which are part of a designated focus area <sup>3</sup> . If no Focus Area is selected, students must choose 9 credit hours of Chemistry courses.  15 credit hours of electives in years three and four <sup>4</sup>		
	<b>Co-op Requirements (if selected):</b>  SCI 3980, SCI 3990	<b>Co-op Requirements (if selected):</b>  SCI 4980 and SCI 4990 (if a 4 <sup>th</sup> work term is selected)	
30 Hours	30 Hours	30 Hours	30 Hours

**NOTES:**

<sup>1</sup> MATH 1230, MATH 1510 or MATH 1520 may be taken in place of MATH 1500; MATH 1232 or MATH 1710 may be taken in place of MATH 1700; MATH 1690 may be taken in place of MATH 1500 and MATH 1700.

<sup>2</sup> MATH 1010, MATH 1020, the former MATH 1190, MATH 1191, COMP 1500, COMP 1600, the former COMP 1260 and the former COMP 1270, may not be used to satisfy this requirement.

<sup>3</sup> Students may elect to complete the requirements set out in one of the Chemistry focus areas. If a student opts for one of the focus areas, they should consult with the Department of Chemistry and a Science Academic Advisor for information regarding specific course requirements for each focus area.

<sup>4</sup> Elective courses should be selected in consultation with the Department of Chemistry and/or a Faculty of Science Academic Advisor.

<sup>5</sup> Not all Focus Areas include non-Chemistry courses. Some Focus Areas are all Chemistry courses. Refer to the description of each Focus Area for more information.

(Letters in brackets indicate minimum prerequisite standing for further study. The number 6 in brackets indicates a 6 credit hour course.)

**4.5.3 Chemistry Major Degree Program Chart**

YEAR 1	YEAR 2	YEAR 3	YEAR 4
FOURYEAR MAJOR <sup>3,4</sup> (incl. Co-operative Option if selected) 120 CREDIT HOURS (comprising courses listed in chart below, and electives <sup>5</sup> )			
CHEM 1300, CHEM 1310 (C+)  PHYS 1050 (or	CHEM 2210, CHEM 2220, CHEM 2260 (CHEM	CHEM 3400, CHEM 3590	CHEM 4610 (6)

PHYS 1020 (C+), PHYS 1070  MATH 1500 <sup>1</sup> , MATH 1700 <sup>1</sup>	2280), CHEM 2290, CHEM 2400, CHEM 2470, CHEM 2860 (CHEM 2360)		
In Year 1 or Year 2 the following must be completed:  6 credit hours from the Faculty of Arts, which should include the required "W" course.  3 credit hours from Mathematics, Statistics or Computer Science courses <sup>2</sup>	Sufficient credit hours (18) from the 2000, 3000 and 4000 level Chemistry <sup>3</sup> courses not yet taken to total a minimum of 57 credit hours of Chemistry courses at the 1000-4000 level. These credit hours may make up part of a focus area.		
	9 credit hours of non-Chemistry courses <sup>6</sup> which are part of a designated focus area <sup>3</sup> . (Note: If no Focus Area is selected, students must choose 9 credit hours of Chemistry courses.)	<b>Co-op Requirements (if selected):</b>  SCI 3980, SCI 3990	<b>Co-op Requirements (if selected):</b>  SCI 4980 and SCI 4990 (if a 4 <sup>th</sup> work term is selected)

**NOTES:**

1. MATH 1230, MATH 1510 or MATH 1520 may be taken in place of MATH 1500; MATH 1232 or MATH 1710 may be taken in place of MATH 1700; MATH 1690 may be taken in place of MATH 1500 and MATH 1700.

2 MATH 1010, MATH 1020, the former MATH 1190, MATH 1191, COMP 1500, COMP 1600, the former COMP 1260 and the former COMP 1270 may not be used to satisfy this requirement.

3 Students may elect to complete the requirements set out in one of the Chemistry focus areas. If a student opts for one of the focus areas, they should consult with the Department of Chemistry and a Science Academic Advisor for information regarding specific course requirements for each focus area.

4 IMPORTANT: The four year Major program need not be completed in the manner prescribed in the chart above. The chart indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their program.

5 Elective courses should be selected in consultation with the Department of Chemistry and/or a Faculty of Science Academic Advisor.

6 Not all Focus Areas include non-Chemistry courses. Some Focus Areas are all Chemistry courses. Refer to the description of each Focus Area for more information.

(Letters in brackets indicate minimum prerequisite standing for further study. The number 6 in brackets indicates a 6 credit hour course.)

**4.5.4 Chemistry General Degree and Minor Requirements**

YEAR 1	YEAR 2	YEAR 3	YEAR 4
THREE YEAR GENERAL – Chemistry Focus 90 CREDIT HOURS			
CHEM 1300, CHEM 1310 (C+)  BIOL 1020, BIOL 1030  MATH 1500 <sup>1</sup> , MATH 1700 <sup>1</sup>  PHYS 1050 <sup>2</sup> , PHYS 1070 <sup>2</sup>  6 credit hours from the Faculty of Arts. (Should include the student's "W" requirement.)	21 hours of required 2000 level Chemistry courses: CHEM 2210, CHEM 2220, CHEM 2260 (CHEM 2280), CHEM 2290, CHEM 2400 (CHEM 2380), CHEM 2470, CHEM 2360  15 credit hours of 2000 level or higher CHEM: Excluding the Chemistry service courses (CHEM 2240, CHEM 2560, CHEM 2770, CHEM 2780), Co-op courses (CHEM 3980, CHEM 3990, CHEM 4980, CHEM 4990) and specialized courses (CHEM 4610, CHEM 4700, CHEM 4710). A minimum of 6 credit hours must be chosen from the 3000 / 4000 level.  6 credit hours of electives to be chosen from outside the Faculty of Science  18 credit hours of open electives		
THREE YEAR GENERAL 90 CREDIT HOURS			
CHEM 1300, CHEM 1310 (C)	a minimum of 18 credit hours from the following list of advanced level courses: CHEM 2210, CHEM 2220, CHEM 2260 (CHEM 2280), CHEM 2290, CHEM 2360, CHEM 2370, CHEM 2400 (CHEM 2380), CHEM 2470, CHEM 3260 (CHEM 4660), CHEM 3360, CHEM 3370, CHEM 3400 (CHEM 3380), CHEM 3390, CHEM 3570, CHEM 3580, CHEM 3590, CHEM 4100, CHEM 4360, CHEM 4370, CHEM 4570, CHEM 4580, CHEM 4590, CHEM 4620, CHEM 4630, CHEM 4640, CHEM 4670, CHEM 4680, CHEM 4690 (subject to the Faculty requirement that of the 36 credit hours in the two advanced level Science areas, at least 6 credit hours must be at the 3000/4000 level).		
<b>MINOR</b>			
CHEM 1300, CHEM 1310 (C)	Normally CHEM 2210 and CHEM 2220, plus an additional 6 credit hours of Chemistry		

**NOTES:**

1 MATH 1230 or MATH 1510 or MATH 1520 may be taken in place of MATH 1500; MATH 1232 or MATH 1710 may be taken in place of MATH 1700; MATH 1690 may be taken in place of MATH 1500 and MATH 1700.

2 PHYS 1020 may be used in place of PHYS 1050; and, in the 3-year degree only - PHYS 1030 may be used in place of PHYS 1070. Students planning on

completing a 4-year degree in Chemistry are required to complete PHYS 1070.

(Letters in brackets indicate minimum prerequisite standing for further study. The number 6 in brackets indicates a 6 credit hour course.)

2 Students are advised to take PHYS 1050 and PHYS 1070.

3 The prerequisite of PHYS 3430 is waived for students in this program.

(Letters in brackets indicate minimum prerequisite standing for further study. The number 6 in brackets indicates a 6 credit hour course.)

#### 4.5.6 Chemistry Course Descriptions-0 Level

##### CHEM 0900 Preparatory Chemistry 0 Cr. Hrs.

A course designed for students with little, or no background in chemistry who wish to achieve the prerequisites for advanced courses, or for students who require a refresher course in basic chemistry. Concurrent registration in CHEM 0900 and any of CHEM 1300, CHEM 1301, CHEM 1311 or CHEM

1320 is not permitted. (Pass/Fail grade only.) Prerequisite or Concurrent Requirement: Any grade 12 or 40S Mathematics course or equivalent.

#### 4.5.6 Chemistry Course Descriptions-1000 Level

##### CHEM 1000 Understanding the World through Chemistry 3 Cr. Hrs.

This course introduces students to the principles of chemistry necessary for an understanding of contemporary issues in agriculture, the environment, industry, medicine, and the economy. High school chemistry is not required. May be used as a prerequisite (minimum grade "B") for CHEM 1300 or CHEM 1301 (Developmental section). Not to be held with CHEM 1001. May not be used to fulfill chemistry requirements in a Chemistry Honours, Major, General or Minor program. Not available to students who have previously obtained credit in, or are concurrently registered in, any 2000 level university Chemistry course.

##### CHEM 1030 Carbon Chemistry in Nature and Society 3 Cr. Hrs.

This course introduces organic molecules and illustrates the principles of organic chemistry with topics from cosmetics and personal care products, the petroleum industry, food preparation chemistry, polymers and plastics, poisons and biological toxins, and risk assessment. May not be used to fulfill chemistry requirements in a Chemistry Honours, Major, General or Minor program. Not available to students who have previously obtained credit in, or are concurrently registered in, any 2000 level university Chemistry course. Not to be held with CHEM 1001, CHEM 1001 (C), CHEM 1300, CHEM 1301 (C), Chemistry 40S (or equivalent), or CHEM 0900.

##### CHEM 1300 University 1 Chemistry: Structure and Modelling in Chemistry 3 Cr. Hrs.

(Lab Required) Atomic and molecular models and their applications to chemistry, including a discussion of solid, liquid, and gaseous states, and of mixtures. Not to be held with CHEM 1301. Prerequisites: (one of Chemistry 40S, CHEM 0900 (P), CSKL 0100 (P) offered by Extended Education, a grade of "B" or better in CHEM 1000 or the former CHEM 1001, or equivalent) and (one of Applied Mathematics 40S, Pre-calculus Mathematics 40S, the former Mathematics 40S (300), a grade of "C" or better in MSKL 0100 offered by Extended Education, or equivalent).

##### CHEM 1310 University 1 Chemistry: An Introduction to Physical Chemistry 3 Cr. Hrs.

(Lab Required) Thermochemistry, chemical thermodynamics, and chemical kinetics. Prerequisite: CHEM 1300 or CHEM 1301 (C).

##### CHEM 1320 University 1 Chemistry: An Introduction to Organic Chemistry 3 Cr. Hrs.

(Lab Required) Structures, properties and reactions of organic molecules. Not to be held with CHEM 2210 or CHEM 2211. Prerequisite: CHEM 1300 or CHEM 1301 (C).

#### 4.5.6 Chemistry Course Descriptions-2000 Level

##### CHEM 2210 Introductory Organic Chemistry 1: Structure and Function 3 Cr. Hrs.

(Lab Required) An introduction to the concepts of organic reactivity and bonding in organic molecules. Preparation and properties of functionalized organic molecules. Not to be held with CHEM 1320 or CHEM 2211. Prerequisite: CHEM 1310 or CHEM 1311 (C).

##### CHEM 2220 Introductory Organic Chemistry 2: Reactivity and Synthesis 3 Cr. Hrs.

(Lab Required) An introduction to the reactivity of organic compounds and organic spectroscopy. The application of functional group interconversions to syntheses. Not to be held with CHEM 2221. Prerequisite: CHEM 2210 or CHEM 2211 (C).

##### CHEM 2240 Applied Chemistry for Engineers 3 Cr. Hrs.

Bonding, surface chemistry, phase rule, electrochemistry, materials and descriptive inorganic chemistry of selected elements. Prerequisite: CHEM 1300 or CHEM 1301 (C).

**CHEM 2260 Introduction to Spectroscopy 3 Cr. Hrs.**

(Lab required) An exploration of the underlying principles of atomic and molecular spectroscopy and the application of such tools to probe chemical and physical properties of matter on a microscopic scale. Aspects of ultraviolet, visible, vibrational, rotational and nuclear magnetic resonance spectroscopies are explored. Not to be held with the former CHEM 2280 or CHEM 2281. Prerequisites: CHEM 1310 or CHEM 1311 (C); PHYS 1030 or PHYS 1031 (C) or PHYS 1070 or PHYS 1071 (C); plus six credit hours of 1000 level mathematics (preferably calculus) with the exception of MATH 1010, the former MATH 1190, MATH 1191, FA 1020, or MATH 1020.

**CHEM 2290 Chemical Energetics and Dynamics: Macroscopic Descriptions 3 Cr. Hrs.**

(Lab Required) Chemical energetics, entropy and the second law of thermodynamics, chemical dynamics. May not be held with CHEM 2291. Prerequisites: CHEM 1310 or CHEM 1311 (C); PHYS 1030 or PHYS 1031 (C) or PHYS 1070 or PHYS 1071 (C); plus six credit hours of 1000 level mathematics (preferably calculus) with the exception of MATH 1010, MATH 1190, MATH 1191, MATH 1020, or FA 1020.

**CHEM 2360 Biochemistry 1: Biomolecules and an Introduction to Metabolic Energy 3 Cr. Hrs.**

(Lab Required) An introductory course dealing with kinds of molecules encountered in biochemistry, and the concept of metabolic energy as a product of catabolism and a requirement for biosynthesis. This course is also given in Microbiology as MBIO 2360. May not be held with CHEM 2361, CHEM 2770, MBIO 2360, MBIO 2361, or MBIO 2770. Prerequisites: CHEM 1310 or CHEM 1311 (C+); and one of BIOL 1030, BIOL 1031 (C). NOTE: Students may hold this course for credit in the B.Sc. General Degree program, but may not use it to fulfill the minimum requirement of 12 credit hours in 2000 level Chemistry (pre-September 2008 regulations). Those students following the new General Degree regulations (effective 2008-09) are able to use this course as part of the 18 credit hours of advanced level Chemistry or Microbiology.

**CHEM 2370 Biochemistry 2: Catabolism, Synthesis, and Information Pathways 3 Cr. Hrs.**

(Lab Required) An introductory course dealing with the basic metabolic processes that occur in living cells, including the production and use of metabolic energy, the breakdown and synthesis of biomolecules; the synthesis of DNA, RNA and proteins; and the regulation of these processes. This course is also given in Microbiology as MBIO 2370. May not be held with CHEM 2371, CHEM 2780, MBIO 2370, MBIO 2371, or MBIO 2780. Prerequisites: one of CHEM 2360, CHEM 2361, MBIO 2360, or MBIO 2361; and CHEM 2210 or CHEM 2211, both courses with a minimum grade of "C". NOTE: Students may hold this course for credit in the B.Sc. General Degree program, but may not use it to fulfill the minimum requirement of 12 credit hours in 2000 level Chemistry (pre-September 2008 regulations). Those students following the new General Degree regulations (effective 2008-09) are able to use this course as part of the 18 credit hours of advanced level Chemistry or Microbiology.

**CHEM 2400 Inorganic chemistry: Structure and Applications 3 Cr. Hrs.**

(Lab Required) Overview of chemical bonding, structure and reactivity across the Periodic Table, illustrated by examples linking Inorganic Chemistry with e.g. materials science and biochemistry. The lab component involves synthesis and analysis of simple inorganic compounds. May not be held with CHEM 2380, CHEM 2381 or CHEM 2401. Prerequisite: CHEM 1310 or CHEM 1311 (C).

**CHEM 2470 Introductory Analytical Chemistry 3 Cr. Hrs.**

(Lab Required) A course in quantitative analysis provides training useful for nearly all scientists. It equips the students with the theoretical principles on which the analytical methods are based, with the ability to plan and perform experimental work, to interpret the results. May not be held with CHEM 2471. Prerequisites: CHEM 1310 or CHEM 1311 (C); and three credit hours of mathematics with the exception of MATH 1010, MATH 1190, MATH 1191, MATH 1020, or FA 1020.

**CHEM 2550 Environmental Chemistry 3 Cr. Hrs.**

(Lab Required) An introduction to the chemistry of the environment.

Emphasis will be on the composition of the natural environment and the processes of natural and human-introduced chemical species that take place within it. The course will provide students with the chemical basis for understanding the environment and environmental problems. This course is also taught in Environmental Science as ENVR 2550. Prerequisite: CHEM 1310 or CHEM 1311 (C).

**CHEM 2560 Water Quality Analysis for Engineers 3 Cr. Hrs.**

(Lab Required) Principles and applications of chemical and instrumental methods for the analysis of water quality. This course is restricted to students in Civil Engineering.

**CHEM 2770 Elements of Biochemistry 1 3 Cr. Hrs.**

(Lab Required) Basic concepts of biochemistry including the properties of biomolecules (amino acids and proteins, enzymes, carbohydrates, lipids, and nucleic acids) and aspects of energy production in cells. For students in Agricultural and Food Sciences, Human Ecology, and Four Year Biological Sciences programs in Science. May not be used as part of an Honours, Major, General, or Minor program in Chemistry or in Microbiology. This course is also given in Microbiology as MBIO 2770. May not be held with CHEM 2360, CHEM 2361, MBIO 2360, MBIO 2361, CHEM 2860, or MBIO 2770. Prerequisites: one of CHEM 1310, CHEM 1311 (C), or CHEM 1320 (C); plus six credit hours of university level biological sciences.

**CHEM 2780 Elements of Biochemistry 2 3 Cr. Hrs.**

(Lab Required) The continuation of CHEM 2770 or MBIO 2770, dealing with nitrogen and lipid metabolism, representative biosynthetic pathways, and synthesis and importance of DNA, RNA and proteins. For students in Agricultural and Food Sciences, Human Ecology, and four-year Biological Science programs in Science. May not be used as part of an Honours, Major, General, or Minor program in Chemistry or Microbiology. This course is also given in Microbiology as MBIO 2780. May not be held with CHEM 2370, CHEM 2371, MBIO 2370, MBIO 2371, MBIO 2780. Prerequisites: one of CHEM 2770, MBIO 2770 (C), CHEM 2360, CHEM 2361, MBIO 2360, or MBIO 2361 (C).

**CHEM 2860 Chemistry of Biomolecules 3 Cr. Hrs.**

(Lab Required) The chemistry of molecules encountered in biochemistry, including their structures, reactions, and physical properties. The concept of metabolic energy in biochemistry. May not be held with CHEM 2360, CHEM 2361, CHEM 2770, MBIO 2360, MBIO 2361, MBIO 2770. Prerequisite: one of CHEM 1310, CHEM 1311 with a minimum grade of "C". This course is available only to students registered in the Chemistry Honours or Four Year Major program.

**4.5.6 Chemistry Course Descriptions-3000 Level****CHEM 3260 Introduction to Computational Chemistry 3 Cr. Hrs.**

(Lab Required) This course provides an introduction to modern Computational Chemistry and its application to chemical problems, with a strong focus on practical applications. May not be held with the former CHEM 4660. Prerequisite: CHEM 2260 or CHEM 2281 (or the former CHEM 2280); plus six credit hours from CHEM 2290 (recommended) (or CHEM 2291), CHEM 2220 (or CHEM 2221), CHEM 2370 (or CHEM 2371 or MBIO 2370, or MBIO 2371), CHEM 2400 (or CHEM 2401 or the former CHEM 2380 or CHEM 2381), CHEM 3400 (or the former CHEM 3380).

**CHEM 3360 Elementary Quantum Chemistry and Molecular Bonding 3 Cr. Hrs.**

(Lab Required) Elementary quantum chemistry and its applications to structure and bonding in molecules and solids. Prerequisite: CHEM 2260 or the former CHEM 2280 or CHEM 2281 (C).

**CHEM 3370 Symmetry, Spectroscopy and Structure 3 Cr. Hrs.**

(Lab Required) Applications of symmetry in chemistry; molecular spectroscopy; structure of solids. Prerequisite: CHEM 2260 or the former CHEM 2280 or CHEM 2281 (C).

**CHEM 3390 Structural Transformations in Organic Chemistry 3 Cr. Hrs.**

(Lab Required) An intermediate course dealing with the reactions of organic chemistry involving functional group transformations and carbon-carbon bond forming reactions. Prerequisite: one of CHEM 2220, CHEM 2221 (C), CHEM 2290 or CHEM 2291 is recommended.

**CHEM 3400 Inorganic Chemistry: Reactivity and Properties****3 Cr. Hrs.**

(Lab Required) Advanced chemistry of the elements with emphasis on chemical reactivity, electronic structure and physical properties of inorganic compounds. The laboratory focuses on the preparation, structure determination and spectroscopic characterization of inorganic compounds. This course may not be held for credit with CHEM 3380. Prerequisite: CHEM 2400 or CHEM 2380 (C).

**CHEM 3490 Introduction of Polymers****3 Cr. Hrs.**

An introduction to the formation, structure, physical properties, and degradation of polymers. Prerequisites: one of CHEM 2220, CHEM 2221 (C); and CHEM 2290 or CHEM 2291 (C).

**CHEM 3570 Biophysical Chemistry****3 Cr. Hrs.**

The application of physical chemistry to biological problems, with an emphasis on quantitative interpretation. Topics include enzyme kinetics, bioenergetics, transport processes and spectroscopy. Prerequisites: CHEM 2360 or CHEM 2361 or MBIO 2360 or MBIO 2361 and MATH 1230 or MATH 1500 or MATH 1501 or MATH 1510 or MATH 1520. CHEM 2260 or the former CHEM 2280 or CHEM 2281 is recommended.

**CHEM 3580 Methods in Physical Organic Chemistry****3 Cr. Hrs.**

(Lab Required) A course dealing with the application of physical chemical principles to organic reaction mechanisms. Prerequisite: one of CHEM 2220, CHEM 2221 (C). Prerequisite or concurrent registration: CHEM 2290 or CHEM 2291.

**CHEM 3590 Instrumental Analysis****3 Cr. Hrs.**

(Lab Required) A course dealing with the theory and use of standard instruments used for chemical and biochemical analyses. An introduction to the interpretation of data obtained from such analyses. This course is designed to follow a classical analytical chemistry course. May not be held with ENVR 3550. Prerequisite: CHEM 2470 (C).

**CHEM 3980 Work Term 1****0 Cr. Hrs.**

Work assignments in business, industry or government for students registered in the Chemistry Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only)

**CHEM 3990 Work Term 2****0 Cr. Hrs.**

Work assignments in business, industry or government for students registered in the Chemistry Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

**4.5.6 Chemistry Course Descriptions-4000 Level****CHEM 4100 Materials Chemistry****3 Cr. Hrs.**

This course emphasizes the synthesis, structure, properties and applications of a wide variety of materials, providing insight into the chemistry behind many common and high-tech materials and devices. Specific examples include solar cells, fibre optics, batteries, polymer composites, magnetic and multiferroic materials. May not be held with CHEM 4570 when titled "Materials Chemistry." Prerequisite: CHEM 3400 (C).

**CHEM 4360 Signalling and Regulation of Gene Expression****3 Cr. Hrs.**

The biochemistry of cell response to external stimuli, with emphasis on animals. Cell surface receptors and ligands; signalling to the nucleus; phosphorylation and proteolysis; transcription; gradients in cell patterning. May not be held with CHEM 4361. Prerequisite: a "C" or better in one of CHEM 2370, CHEM 2371, MBIO 2370, MBIO 2371.

**CHEM 4370 Glycobiology and Protein Activation****3 Cr. Hrs.**

The role of carbohydrate containing biomolecules in biochemistry and their importance for understanding some genetic diseases. The importance of limited proteolysis in activation of biomolecules. May not be held with CHEM 4371. Prerequisite: a "C" or better in one of CHEM 2370, CHEM 2371, MBIO 2370, MBIO 2371.

**CHEM 4550 Aquatic Chemistry****3 Cr. Hrs.**

An examination of biogeochemical processes affecting the distribution, speciation and bioavailability of chemical substances in the aquatic environment. The theoretical basis for the chemical behaviour of natural water systems is discussed, as well as the description of processes involved in wastewater treatment. This course is also taught in Environmental Science as ENVR 4550. Prerequisite: A grade of "C" or better in one of CHEM 3590 or ENVR 3550; or permission of the department.

**CHEM 4570 Topics in Inorganic Chemistry****3 Cr. Hrs.**

A variety of topics from recent literature. This is an advanced 4000 level course. Registration requires departmental permission. This course may not be offered every year - check with department for availability.

**CHEM 4580 Topics in Organic Chemistry****3 Cr. Hrs.**

Selected topics dealing with the structure and reactivity of organic compounds. This is an advanced 4000 level course. Registration requires departmental permission. This course may not be offered every year - check with department for availability.

**CHEM 4590 Bioanalytical Methods****3 Cr. Hrs.**

(Lab Required) This course introduces different methods used currently for the analysis of biological materials. Qualitative and quantitative aspects are explored. Instrumentation is described and practical methods are designed. Prerequisite: a grade of "C" or better in CHEM 3590 or ENVR 3550.

**CHEM 4610 Advanced Chemical Techniques****6 Cr. Hrs.**

(Lab required) A workshop course consisting of lectures, problem solving, and advanced instrumental techniques. The course is designed to train potential research students in techniques like NMR, mass spectroscopy, and chromatography. This course is required of all final year Honours students in Chemistry. May not hold with the former CHEM 4600. Prerequisite: one of CHEM 3360 (C), CHEM 3370 (C), CHEM 3400 (C), CHEM 3380 (C), CHEM 3390 (C), CHEM 3590 (C) or CHEM 3580 (C).

**CHEM 4620 Biochemistry of Nucleic Acids****3 Cr. Hrs.**

The structure of nucleic acids; synthesis and sequence determination; interaction with drugs and protein. May not be held with CHEM 4621. Prerequisite: a "C" or better in one of CHEM 2370, CHEM 2371, MBIO 2370, MBIO 2371.

**CHEM 4630 Biochemistry of Proteins****3 Cr. Hrs.**

The structure and function of proteins, their physical and chemical properties and methods for studying them. May not be held with CHEM 4631. Prerequisite: a "C" or better in one of CHEM 2370, CHEM 2371, MBIO 2370, MBIO 2371.

**CHEM 4640 Spectroscopy, Relaxation and Structure****3 Cr. Hrs.**

A course dealing with quantum mechanical manipulations and illustrations from magnetic resonance and other spectroscopies; relaxation and polarization phenomena. Prerequisite: CHEM 3370 (C) or permission of the Instructor.

**CHEM 4650 Molecular States and Processes****3 Cr. Hrs.**

A course dealing with various aspects of molecular states and processes including student selected topics. Prerequisite: CHEM 3370 (C).

**CHEM 4670 Drug Design and Drug Discovery****3 Cr. Hrs.**

An understanding of the design, synthesis and interactions of drug molecules. Emphasis will be on novel drug-like molecules in the early stages of drug discovery with special focus on brain diseases and infectious diseases. Prerequisites: CHEM 2220 (C); and one of CHEM 2360, CHEM 2361, MBIO 2360, MBIO 2361 (C) or CHEM 2860 (C).

**CHEM 4680 Organometallic Chemistry****3 Cr. Hrs.**

Chemistry of organometallic compounds of the transition metals and representative elements. Prerequisite: CHEM 3400 (C), or CHEM 3380 (C), or CHEM 3390 (C).

**CHEM 4690 Specific Methods in Organic Synthesis****3 Cr. Hrs.**

Advanced methods and principles of organic synthesis of complex molecules. Prerequisite: CHEM 3390 (C).

**CHEM 4700 Advanced Biochemistry Laboratory****3 Cr. Hrs.**

(Lab required) A laboratory and workshop consisting of lectures, problem solving, and advanced instrumental techniques such as magnetic

resonance spectroscopy, mass spectrometry, circular dichroism, x-ray crystallography, fluorescence spectroscopy and computer analysis of protein sequences. This course is required for all final year Honours students in Biochemistry. Prerequisite or concurrent requirement: CHEM 4620 or CHEM 4621; and CHEM 4630 or CHEM 4631.

#### **CHEM 4710 Research Project in Chemistry or Biochemistry**

**6 Cr. Hrs.**

(Lab required) A research project in any aspect of chemistry or biochemistry, chosen in consultation with the course administrator and an appropriate supervising faculty member. Written reports and oral presentation at the end of the project will be required. The course is normally available only to final year students in chemistry programs. May not be held with CHEM 4711 or MBIO 4530. Prerequisite: Permission of the course administrator.

#### **CHEM 4800 Topics in Physical/Theoretical Chemistry 3 Cr. Hrs.**

Selected topics related to physical chemistry properties of matter, their measurement, and computational methods for studying them. This is an advanced 4000 level course, registration only by Departmental permission. This course may not be offered every year - check with department for availability.

#### **CHEM 4802 Topics in Analytical Chemistry 3 Cr. Hrs.**

Selected topics on the most recent and sensitive techniques described in the literature in the Analytical, Bioanalytical and Environmental areas. A selection of topics among separation, surface, ionization, spectroscopy, voltammetry and spectrometry techniques will be covered. This is an advanced 4000 level course, registration only by Department permission. This course may not be offered every year - check with department for availability.

#### **CHEM 4804 Topics in Biochemistry 3 Cr. Hrs.**

Selected advanced topics relevant to the study of biomolecules. This is an advanced 4000 level course, registration only by Departmental permission. This course may not be offered every year - check with department for availability.

#### **CHEM 4980 Work Term 3 0 Cr. Hrs.**

Work assignments in business, industry or government for students registered in the Chemistry Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

#### **CHEM 4990 Work Term 4 0 Cr. Hrs.**

Work assignments in business, industry or government for students registered in the Chemistry Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

### **4.6 Department of Computer Science**

Head: Mike Domaratzki

Campus Address/General Office: E2-445 EITC

Telephone: 204 474 8313

Email Address: [queries@cs.umanitoba.ca](mailto:queries@cs.umanitoba.ca)

Website: [www.cs.umanitoba.ca](http://www.cs.umanitoba.ca)

#### **4.6.1 Program Information**

Computer technology continues to advance and computer applications are found in all fields and disciplines. As new applications proliferate, opportunities for careers in computing will continue to be strong. Both the Major and the Honours programs offer a co-op option so students may combine education with paid employment experience. The co-operative (co-op) option in Computer Science is well established with the first class graduating in October 1983.

The department must approve a student's Honour or Major program prior to registration for each Fall/Winter Term. Students must also obtain departmental approval for any and all revisions to their program.

The Computer Science Honours and Major programs, including the Co-op programs, and the Software Engineering area of specialization, are accredited by the Computer Science Accreditation Council.

### **Honours**

The Honours program in Computer Science at the University of Manitoba was the first Honours program in Canada to be given professional accreditation by the Canadian Information Processing Society. The program provides an opportunity to study the subject in greater depth than the other programs in Computer Science and leads to an Honours Bachelor of Computer Science degree (B.C.Sc.). In addition, this program gives professional preparation for careers in areas such as software engineering, system design or project management.

**To enter** the Honours program in Computer Science, a student must have completed at least 24 credit hours with a minimum DGPA of 3.00, and also obtained a minimum grade of "B" in COMP 1020, "C+" in both MATH 1220 (or MATH 1300) and MATH 1230 (or MATH 1500) (or their equivalents) and "C" in MATH 1700 (or equivalents).

**To continue** in the Computer Science Honours program, students must maintain a minimum DGPA of 3.00 and complete a minimum of 9 credit hours during each Fall and Winter Term.

**To graduate** from the Computer Science Honours program students must achieve a minimum DGPA of 3.00 and obtain a minimum grade of "C" on the courses that make up the 120 credit hours of the degree.

Outside of computer science and mathematics courses, students are encouraged to select courses such that their programs include at least 15 credit hours of study in science, engineering, or business, and at least 9 credit hours of study in the humanities or social sciences.

### **Four Year Major**

**To enter** the Major Degree program in Computer Science, a student must have completed at least 24 credit hours with a minimum DGPA of 2.00, and also obtained a minimum grade of "C+" in COMP 1020, "C+" in both MATH 1300 and MATH 1500 (or their equivalents) and "C" in MATH 1700 (or equivalents).

**To continue** in the Major program a student must maintain a minimum DGPA of 2.00.

**To graduate** with the Computer Science Major degree, a student must present a minimum grade of "C+" in: MATH 1300 (or equivalent), MATH 1500 (or equivalent), and a minimum grade of "C" in MATH 1240, MATH 1700 (or equivalent), (STAT 1000 or STAT 1150), COMP 2080, COMP 2140, COMP 2150, COMP 2160, COMP 2280, COMP 3350, COMP 3370, COMP 3430, COMP 4620 and in each of the 18 credit hours of 3000 and 4000 level Computer Science courses that apply to the Computer Science component of their degree program. Additionally, students must achieve a minimum DGPA of 2.00.

This program is suitable for those students interested in combining a fairly extensive program in Computer Science with broad coverage of another subject or subjects of their choice (Science or non-Science). The program offers greater scheduling flexibility, more relaxed entrance requirements, and a wider range for the inclusion of electives from other disciplines than the Honours program, but it is not considered to offer the same professional training as the Honours program. Admission to graduate programs may be conditional upon completion of additional courses. Students intending to proceed to a master's degree from the four year Major program must

consult with the department at the beginning of their second year of undergraduate study and in each subsequent year.

The student will be able to transfer to the Honours program at the end of the second year, provided that departmental and faculty requirements for the Honours program at that stage are satisfied.

Outside of computer science and mathematics courses, students are encouraged to select courses such that their programs include at least 15 credit hours of study in science, engineering, or business, and at least nine (9) credit hours of study in the humanities or social sciences. In addition to the faculty maximum, students may be allowed to take up to an additional 12 credit hours of courses outside of the Faculty of Science, with departmental permission. The permission would typically be granted if a student is completing a minor outside of Science and may have completed a variety of electives outside the Faculty prior to declaring a minor in one department.

**Honours and Major Co-operative Options**

A co-operative education option is available for both Major and Honours students. Students should refer to [Section 3.5](#) of this chapter for further information on the Co-op programs.

**Honours Co-op**

The course, grade requirements and minimum DGPA requirement for entry and continuation in the Co-operative Option are the same as that for regular Honours program.

Students are required to complete all the first and second year courses in the program chart before their first co-op work term.

**Major Co-op**

The course and minimum grade requirements for entry and continuation in the Co-operative Option are the same as those required for the regular Major program. However, the entry and continuation DGPA requirement is set at a minimum of 2.5.

Students are required to complete all the first and second year courses in the program chart before their first co-op work term.

**Three Year General**

As prescribed with all other faculty regulations in Section 3.2, students in this program must select 18 credit hours of 2000, 3000, and (or) 4000 level courses from each of **two** Science areas. To satisfy the requirement in the area of Computer Science, students must select a minimum of 18 credit hours from the 2000, 3000, and (or) 4000 level courses offered by the department (subject to the Faculty requirement that of the 36 credit hours in the two advanced level Science areas, at least 6 credit hours must be at the 3000/4000 level).

<p><b>Area Specializations</b></p> <p>Students who obtain a grade of "C" or better in the courses listed for an area of specialization will receive a notation on their transcript stating that they have met the requirements of that specialization. Students may obtain</p>	<p><b>Human-Computer Interaction and Computer Graphics</b></p> <p>Requires: COMP 3020, and COMP 3490; one of COMP 4020 or COMP 4490.</p> <p><b>Databases</b></p>

COMP 1010 <sup>1</sup> , COMP 1020 (C+), MATH 1300 <sup>1</sup> (C+), MATH 1500 <sup>1</sup> (C+), MATH 1700 <sup>1</sup> (C)	COMP 2080, COMP 2140, COMP 2150, COMP 2160, COMP 2280 MATH 1240 <sup>1</sup>	COMP 3350, COMP 3370, COMP 3430, COMP 4620 18 credit hours of 3000 or 4000 level Computer Science courses of which 6 credit hours must be at the 4000 level	
In Year 1 or Year 2 the following must be completed:		30 credit hours of electives <sup>3</sup>	
		<b>Co-op Requirements (if selected):</b>	

STAT 1000 (C) or STAT 1150 (C) 6 credit hours from the Faculty of Arts, which should include the required 3 credit hour "W" course. 18 credit hours of electives <sup>3,4</sup>		SCI 3980, SCI 3990, SCI 4980, and SCI 4990 (if a 4 <sup>th</sup> work term is selected)	
<b>THREE YEAR GENERAL (90 CREDIT HOURS)</b>			
COMP 1010 <sup>1</sup> , COMP 1020	18 credit hours of 2000, 3000, and (or) 4000 level Computer Science courses (subject to the Faculty requirement that of the 36 credit hours in the two advanced level Science areas, at least 6 credit hours must be at the 3000/4000 level)		
<b>MINOR</b>			
COMP 1010 <sup>1</sup> , COMP 1020	COMP 2140 Plus a minimum of 9 credit hours from 2000 and (or) 3000 level Computer Science courses.		
<b>NOTES:</b> <sup>1</sup> COMP 1012 may be taken in place of COMP 1010. MATH 1210, MATH 1220 or MATH 1310 may be taken in place of MATH 1300; MATH 1230, MATH 1510, MATH 1520, or MATH 1690 (6) may be taken in place of MATH 1500; MATH 1232, MATH 1710 or MATH 1690 (6) may be taken in place of MATH 1700. Honours students are encouraged to take MATH 1220 instead of MATH 1300 and to take MATH 1230 instead of MATH 1500 to better prepare them for later, higher-level studies. Students who have previously completed COMP 2130 may use it in lieu of MATH 1240. <sup>2</sup> Entry to the Honours Co-operative Option and four-year Major Co-operative Option is at the end of second year. Employment terms follow 3A (September-December), 3B (May-August) and 4A (January-April). Students in the Co-operative Option must complete three employment terms and receive a passing grade in SCI 3980, SCI 3990, SCI 4980, and SCI 4990 (if selected) prior to the last academic term. <sup>3</sup> Additional information on how students may select their courses can be found at the beginning of this section. <sup>4</sup> IMPORTANT: The Honours and four-year Major degree need not be completed in the order prescribed in the chart above. The chart indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their program. Students in the Co-operative Option should be aware that while other arrangements are possible, they may jeopardize their chances of obtaining employment by selecting such arrangements. Students should discuss their planned sequence of courses with the department prior to making adjustments to the sequence above.			

**4.6.3 Computer Science - Mathematics Joint Honours Program (Including Co-op if selected)**

The departments of Computer Science and Mathematics offer a joint Honours program for in-depth study in both Computer Science and Mathematics. <b>Honours Requirements</b> <b>To enter</b> the Joint Honours Computer Science-Mathematics program, the student must have a minimum grade of "B" in each of COMP 1020, either MATH 1232 or MATH 1690 (or a minimum grade of "A" in MATH 1700), and have satisfied the Faculty of Science requirements for entry to the honours program. It is recommended that STAT 2150 be completed in Year 1 as an elective. <b>To continue in, and graduate from</b> the program, the student must meet the Faculty of Science requirements for continuation and graduation from the Honours or Honours Co-op program.			
YEAR 1	YEAR 2	YEAR 3	YEAR 4
<b>JOINT HONOURS (Including Co-operative Option if selected) 120 CREDIT HOURS</b>			

COMP 1010 and COMP 1020 (B) MATH 1220 <sup>1</sup> , MATH 1230 <sup>1</sup> , MATH 1232 <sup>1</sup> , MATH 1240	COMP 2080, COMP 2140, COMP 2160, COMP 2280 MATH 2020, MATH 2080, MATH 2090, MATH 2150, MATH 2180	COMP 3030, COMP 3170, COMP 3370, COMP 3430 15 credit hours of 3000 or 4000 level Computer Science courses, of which at least 6 credit hours must be 4000 level MATH 2030, MATH 2160, MATH 3320, MATH 3440, MATH 3470, MATH 3472	
STAT 1150 <sup>1</sup> 6 credit hours from the Faculty of Arts, which should include the required 3 credit hour "W" course 3 credit hours of electives	3 credit hours of electives	9 credit hours from MATH 2070, MATH 2170, any 3000 or 4000 level Mathematics courses, of which at least 3 credit hours must be 4000 level 6 credit hours of electives	
	<b>Co-op Requirements (if selected):</b> SCI 3980 <sup>2</sup>	<b>Co-op Requirements (if selected):</b> SCI 3990 <sup>2</sup>	<b>Co-op Requirements (if selected):</b> SCI 4980 <sup>2</sup> , and SCI 4990 <sup>2</sup> (if a 4 <sup>th</sup> work term is selected)
30 Hours	30 Hours	30 Hours	30 Hours
<b>NOTES:</b> <sup>1</sup> Students are strongly advised to take MATH 1220, MATH 1230 and MATH 1232. The following substitutions are allowed (but not advised), provided the grades indicated in brackets are achieved: MATH 1300 (A) in place of MATH 1220, MATH 1500 (A) or MATH 1510 (A) in place of MATH 1230, MATH 1700 (A) or MATH 1710 (A) in place of MATH 1232, MATH 1690 (B) in place of MATH 1230 and MATH 1232. With permission from the department, students may be able to substitute STAT 1000 and STAT 2000 in place of STAT 1150. <sup>2</sup> When chosen, the Co-operative Option work terms (SCI 3980, SCI 3990, SCI 4980, and SCI 4990 (if selected)) will normally be completed during the Summer Terms following years 2, 3, and 4 respectively. (Letters in brackets indicate minimum prerequisite standing for further study.)			

**4.6.4 Computer Science – Physics & Astronomy Joint Honours Program**

The departments of Computer Science and Physics & Astronomy offer a joint Honours program for in-depth study in both Computer Science and Physics & Astronomy.

**To enter** the Joint Honours Computer Science-Physics and Astronomy program, the student must have a minimum grade of "B" in each of PHYS 1050 (or "B+" in PHYS 1020), PHYS 1070 (or B+ in PHYS 1030), MATH 1300, MATH 1500, MATH 1700 (or any equivalent), COMP 1010 (or COMP 1012) and COMP 1020 and a minimum DGPA of 3.00. Students must complete a minimum of 9 credit hours per term in each Fall and Winter term.

**To continue** in the Honours program, students must maintain a minimum DGPA of 3.00, complete a minimum of 9 credit hours during each Fall and Winter term (or equivalent for students in the Co-operative option).

**To graduate** with the Honours degree, a student must obtain a minimum DGPA of 3.00 and present a minimum grade of "C" in each course that contributes to the degree

YEAR 1	YEAR 2	YEAR 3	YEAR 4
--------	--------	--------	--------

<b>JOINT HONOURS (Including Co-operative Option if selected) 120 CREDIT HOURS</b>			
PHYS 1050 (B) (or PHYS 1020 (B+)) and PHYS 1070 <sup>1</sup> (B) (or PHYS 1030 (B+))	PHYS 2260 or Physics elective <sup>5</sup> , PHYS 2386, PHYS 2496, PHYS 2650	PHYS 2600, PHYS 2610 or Physics elective <sup>5</sup> , PHYS 3386, PHYS 3670, PHYS 3496	PHYS 4680 12 credit hours of 3000 and 4000 level Honours Physics courses, with at least 6 credit hours at the 4000 level
COMP 1010 or COMP 1012, COMP 1020 (B)	MATH 1240 <sup>2</sup> , MATH 2720	COMP 3170, COMP 3430	12 credit hours of 3000 or 4000 level courses from Computer Science, with at least 9 credit hours at the 4000 level by the end of Year 4
MATH 1300 <sup>2</sup> (B), MATH 1500 <sup>2</sup> (B), MATH 1700 <sup>2</sup> (B)	COMP 2080, COMP 2140, COMP 2160, COMP 2280	6 credit hours of 3000 and/or 4000 level Computer Science courses	3 credit hours of electives
6 credit hours from the Faculty of Arts, which should include the required 3 credit hour "W" course <sup>3</sup>	<b>Co-op Requirements (if selected):</b>	<b>Co-op Requirements (if selected):</b>	<b>Co-op Requirements (if selected):</b>
3 credit hours of electives	SCI 3980 <sup>4</sup>	SCI 3990 <sup>4</sup>	SCI 4980 <sup>4</sup> and SCI 4990 <sup>4</sup> (if a 4 <sup>th</sup> work term is selected)
30 Hours	30 Hours	30 Hours	30 Hours
<p><b>NOTES:</b></p> <p><sup>1</sup> PHYS 1050 and PHYS 1070 are recommended.</p> <p><sup>2</sup> MATH 1220 or MATH 1310 may be taken in place of MATH 1300; MATH 1230, MATH 1510 or MATH 1520 may be taken in place of MATH 1500; MATH 1232 or MATH 1710 may be taken in place of MATH 1700; MATH 1690 may be taken in place of MATH 1500 and MATH 1700. Students who have previously completed COMP 2130 may use it in lieu of MATH 1240.</p> <p><sup>3</sup> As there are no open electives in Year 2 of the program, students should complete the University written English requirement in Year 1. If not completed in Year 1, a "W" course must be completed prior to Year 3 in addition to the required Year 2 courses.</p>			

<sup>4</sup> When chosen, the Co-operative Option work terms (SCI 3980, SCI 3990, SCI 4980 and SCI 4990 (if selected)) will normally be completed during the Summer Terms following years 2, 3, and 4 respectively.

<sup>5</sup> Students are required to take at least one of PHYS 2260 or PHYS 2610.

**4.6.5 Computer Science – Statistics Joint Honours Program**  
 The departments of Computer Science and Statistics offer a joint Honours program for in-depth study in both Computer Science and Statistics.

**To enter** the Joint Honours Computer Science-Statistics Program, the student must have a "B" or better in COMP 1020 and in STAT 2150 and a DGPA of 3.00. Note that MATH 1220<sup>1</sup>, MATH 1230<sup>1</sup> and MATH 1232<sup>1</sup> and MATH 1240 are not required to enter the program, however, it is recommended that they be completed in Year 1 as they are prerequisites to Year 2 courses.

**To continue** in the Joint Honours Computer Science - Statistics Program, students must maintain a DGPA of 3.00.

**To graduate** with the Honours degree a student must present a minimum grade of "C" in each course that contributes to the degree. In addition, the student must achieve a minimum DGPA of 3.00.

Both departments must approve a student's Honours program each session. Students must also obtain approval from both departments for any and all revisions to the program.

<b>4.6.5 Computer Science – Statistics Joint Honours Program</b>			
YEAR 1	YEAR 2	YEAR 3	YEAR 4

#### 4.6.6 Computer Science Course Descriptions-1000 Level

##### **COMP 1010 Introductory Computer Science 1** 3 Cr. Hrs.

(Lab Required) An introduction to computer programming using a procedural high level language. May not be held with COMP 1011 or COMP 1012 or COMP 1013. Prerequisite: any grade 12 or 40S Mathematics, or equivalent.

##### **COMP 1012 Computer Programming for Scientists and Engineers** 3 Cr. Hrs.

(Lab Required) An introduction to computer programming suitable for solving problems in science and engineering. Students will implement algorithms for numerical processing, statistical analysis and matrix operations. Not to be held with COMP 1010, COMP 1011 or COMP 1013. Prerequisite: Mathematics 40S or equivalent. Co-requisite: MATH 1230 or MATH 1500 or MATH 1501 (or equivalent).

##### **COMP 1020 Introductory Computer Science 2** 3 Cr. Hrs.

(Lab Required) More features of a procedural language, elements of programming. May not be held with COMP 1021. Prerequisite: COMP 1010 or COMP 1011 (C); or COMP 1012, or COMP 1013 (C): or High School Computer Science 40S (75%) and any grade 12 or 40S Mathematics, or equivalent.

##### **COMP 1500 Computing: Ideas and Innovation** 3 Cr. Hrs.

An introduction to the topics of Computer Science and problem solving. Students will learn concepts in computer programming. May not be used to fulfill computer science requirements in a Computer Science Honours, Joint Honours, Major, General or Minor program. May not be taken once in a declared Computer Science Honours, Joint Honours, Major, General or Minor program. May be used as an elective if taken prior to entry.

##### **COMP 1600 Navigating Your Digital World** 3 Cr. Hrs.

Topics related to digital society such as security, encryption and data storage, issues of social and ethical importance, and current events. May not be used to fulfill computer science requirements in a Computer Science Honours, Joint Honours, Major, General or Minor program. May not be taken once in a declared Computer Science Honours, Joint Honours, Major,

General or Minor program. May be used as an elective if taken prior to entry. May not be held with the former COMP 1270.

#### 4.6.6 Computer Science Course Descriptions-2000 Level

##### **COMP 2080 Analysis of Algorithms** 3 Cr. Hrs.

Methods of analyzing the time and space requirements of algorithms. Average case and worst case analysis. Models of computation. Prerequisites: MATH 1240 (C), MATH 1241 (C) or COMP 2130 (C); and one of COMP 2140, or the former COMP 2061 (C). STAT 1000 or STAT 1001 or STAT 1150 is strongly recommended.

##### **COMP 2130 Discrete Mathematics for Computer Science** 3 Cr. Hrs.

An introduction to the set theory, logic, integers, combinatorics and functions for today's computer scientists. Prerequisites: COMP 1020 or COMP 1021 (C), and a "C" in one of: MATH 1210, MATH 1211, MATH 1220, MATH 1300, MATH 1301, MATH 1310; and one of: MATH 1230, MATH 1500, MATH 1501, MATH 1510, MATH 1520, or MATH 1690.

##### **COMP 2140 Data Structures and Algorithms** 3 Cr. Hrs.

(Lab Required) Introduction to the representation and manipulation of data structures. Topics will include lists, stacks, queues, trees, and graphs. May not be held with COMP 2061. Prerequisites: one of COMP 1020, COMP 1021 (C).

##### **COMP 2150 Object Orientation** 3 Cr. Hrs.

Design and development of object-oriented software. Topics will include inheritance, polymorphism, data abstraction and encapsulation. Examples will be drawn from several programming languages. Prerequisite: COMP 2160; and one of COMP 2140 or COMP 2061(C).

##### **COMP 2160 Programming Practices** 3 Cr. Hrs.

(Lab Required) Introduction to issues involved in real-world computing. Topics will include memory management, debugging, compilation, performance, and good programming practices. Prerequisite: COMP 1020 (C+) or COMP 1021 (C+).

##### **COMP 2190 Introduction to Scientific Computing** 3 Cr. Hrs.

An applied computational course introducing topics such as approximation by polynomials, solution of non-linear equations, linear systems, simulation and computational geometry. May not hold with COMP 2191. Prerequisites: One of COMP 1020 or COMP 1021, or COMP 1012 (C) or COMP 1013 (C); and one of MATH 1230, MATH 1500, MATH 1501 (C), MATH 1510 (C), MATH 1520 (C), or MATH 1690 (C). Prerequisite or concurrent registration: One of MATH 1220, MATH 1300, MATH 1301, or MATH 1310.

##### **COMP 2280 Introduction to Computer Systems** 3 Cr. Hrs.

(Lab Required) Data representation and manipulation, machine-level representation of programs, assembly language programming, and basic computer architecture. Not available to students who have previously completed ECE 3610. Prerequisites: COMP 2140 (C), COMP 2160 (C), and one of MATH 1240 (C), MATH 1241 (C) or COMP 2130 (C).

##### **COMP 2980 Workterm 1** 0 Cr. Hrs.

Work assignment in business, industry, or government for students registered in the Computer Science Cooperative Option. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail)

#### 4.6.6 Computer Science Course Descriptions-3000 Level

##### **COMP 3010 Distributed Computing** 3 Cr. Hrs.

An introduction to the development of client server and peer-to-peer systems through web applications, distributed programming models, and distributed algorithms. Prerequisite: COMP 2150 (C) or ECE 3740 (C).

##### **COMP 3020 Human-Computer Interaction 1** 3 Cr. Hrs.

Human-computer interaction: human factors and usability, user-centered design, prototyping, usability evaluation. Prerequisite: one of COMP 2140 or COMP 2061 (C). A course in cognitive psychology, such as PSYC 2480, is recommended.

**COMP 3030 Automata Theory and Formal Languages 3 Cr. Hrs.**

An introduction to automata theory, grammars, formal languages and their applications. Topics: finite automata, regular expressions and their properties; context-free grammars, pushdown automata and properties of context-free languages; Turing machines and their properties. Prerequisite: COMP 2080 (C).

**COMP 3040 Technical Communication in Computer Science 3 Cr. Hrs.**

This course is designed to help students become more effective and confident writers in the context of the computing profession. Students will be introduced to a broad range of written and oral presentation styles used in the computing workplace. Prerequisite: Students must be enrolled in third year (or higher) of a majors or honours program in the Department of Computer Science.

**COMP 3090 Digital Logic 2 3 Cr. Hrs.**

Design and implementation of digital circuits. Minimization and state reduction, asynchronous circuits, arithmetic circuits, implementation using modern hardware techniques. May not be held with ECE 2220. Prerequisite: COMP 2280 (C).

**COMP 3170 Analysis of Algorithms and Data Structures 3 Cr. Hrs.**

Fundamental algorithms for sorting, searching, storage management, graphs, databases and computational geometry. Correctness and analysis of those algorithms using specific data structures. An introduction to lower bounds and intractability. Prerequisites: one of COMP 2140 or COMP 2061(C); and COMP 2080 (C).

**COMP 3190 Introduction to Artificial Intelligence 3 Cr. Hrs.**

Principles of artificial intelligence: problem solving, knowledge representation and manipulation; the application of these principles to the solution of 'hard' problems. Prerequisite: one of COMP 2140 or COMP 2061(C).

**COMP 3290 Introduction to Compiler Construction 3 Cr. Hrs.**

Introduction to the standard compiler phases: scanning, parsing, symbol-table management, code generation, and code optimization. The emphasis is on the simpler techniques for compiler construction such as recursive descent. Prerequisites: COMP 2140 (or COMP 2061) (C) and COMP 2280 (or ECE 3610) (C). COMP 2160 is recommended.

**COMP 3350 Software Engineering 1 3 Cr. Hrs.**

Introduction to software engineering. Software life cycle models, system and software requirements analysis, specifications, software design, testing and maintenance, software quality. Prerequisites: COMP 2150 (C) or ECE 3740 (C).

**COMP 3370 Computer Organization 3 Cr. Hrs.**

Principles of computer systems architecture, organization and design. Performance, instruction sets, processors, input/output, memory hierarchies. Prerequisite: COMP 2280 (C) or ECE 3610 (C).

**COMP 3380 Databases Concepts and Usage 3 Cr. Hrs.**

An introduction to database systems including the relational, hierarchical, network and entity-relationship models with emphasis on the relational model and SQL. Prerequisite: one of COMP 2140 or COMP 2061(C).

**COMP 3430 Operating Systems 3 Cr. Hrs.**

(Lab Required) Operating systems, their design, implementation, and usage. Prerequisites: one of COMP 2140 or COMP 2061(C); and COMP 2280 (C) or ECE 3610 (C). COMP 2160 is recommended.

**COMP 3440 Programming Language Concepts 3 Cr. Hrs.**

An introduction to major concepts involved in the design of modern programming languages. The imperative, functional, and logical families and differences between them. Facilities for high level data and control structures, modular programming, data typing, and other topics will be covered. Prerequisite: one of COMP 2140 or COMP 2061(C).

**COMP 3490 Computer Graphics 1 3 Cr. Hrs.**

An introductory course in computer graphics including topics such as raster

graphics, two and three dimensional transforms, and simple rendering. Prerequisite: COMP 2140 (C); and either COMP 2190 (C), or a C in both: MATH 1300 (or MATH 1220, MATH 1310, MATH 1301, MATH 1210 or MATH 1211) and MATH 1500 (or MATH 1230, MATH 1501, MATH 1510 or MATH 1520).

**COMP 3820 Introduction to Bioinformatics Algorithms 3 Cr. Hrs.**

An introduction to problems in molecular biology and computational solutions. Focus on design and analysis of efficient algorithms. Prerequisites: COMP 2080. Suggested prerequisite: MBI0 1410. Suggested concurrent requirement: COMP 3170.

**COMP 3980 Workterm 2 0 Cr. Hrs.**

Work assignment in business, industry, or government for students registered in the Computer Science Cooperative Option. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail). Prerequisite: COMP 2980 (P).

**4.6.6 Computer Science Course Descriptions-4000 Level****COMP 4020 Human-Computer Interaction 2 3 Cr. Hrs.**

Advanced issues in the field of human-computer interaction. Topics will be selected from current research and development issues in the field of HCI. Prerequisite: COMP 3020 (C). A course in cognitive psychology such as PSYC 2480 is recommended.

**COMP 4050 Project Management 3 Cr. Hrs.**

Introduction to the issues involved in managing large, complex software projects. Prerequisite: COMP 3350 (C).

**COMP 4060 Topics in Computer Science 3 Cr. Hrs.**

This course will examine topics of interest at the fourth-year level. Specific topics will vary from year to year. Topics will be selected from current research in computer science. Prerequisite: Departmental permission.

**COMP 4140 Introduction to Cryptography and Cryptosystems 3 Cr. Hrs.**

Description and analysis of cryptographic methods used in the authentication and protection of data. Classical cryptosystems and cryptoanalysis, the Advanced Data Encryption Standard (ADES) and Public-key cryptosystems. Prerequisite: one of MATH 1240 (C), MATH 1241 (C) or COMP 2130 (C). Students must be registered in Computer Engineering or fourth year of a Major or Honours program in the Department of Computer Science.

**COMP 4180 Intelligent Mobile Robotics 3 Cr. Hrs.**

Topics include artificial intelligence, computer vision, human-robot interaction, and multi-robot systems. These abstract components are grounded in the problem of developing a team of intelligent mobile robots. All topics are covered with specific emphasis on applied problems, e.g. real-time performance. Not to be held with the former COMP 4060 – "Mobile Robotics". Prerequisites: COMP 2160 and COMP 3190 (C).

**COMP 4190 Artificial Intelligence 3 Cr. Hrs.**

Reasoning with temporal knowledge; causal reasoning; plausible reasoning; nonmonotonic reasoning; abductive reasoning. Prerequisite: COMP 3190 (C).

**COMP 4200 Expert Systems 3 Cr. Hrs.**

Organization of expert systems; knowledge representation in expert systems; inference; knowledge engineering; tools for building expert systems; limitations of expert systems. Prerequisite: COMP 3190 (C).

**COMP 4300 Computer Networks 3 Cr. Hrs.**

(Lab required) This course examines the principles of computer networks, including network architectures, algorithms, protocols, and performance. May not be held with the former COMP 3720 or the former COMP 4720 or ECE 3700. Prerequisite: COMP 2280 (C) and COMP 3010 (C).

**COMP 4340 Graph Theory Algorithms 1 3 Cr. Hrs.**

Spanning trees, connectivity, planar graphs, directed graphs, networks, colouring problems and tours are studied and their applications to computer science will be highlighted. Prerequisite: COMP 3170 (C).

**COMP 4350 Software Engineering 2** **3 Cr. Hrs.**

Advanced treatment of software development methods. Topics will be selected from requirements gathering, design methodologies, prototyping, software verification and validation. Prerequisite: COMP 3350 (C).

**COMP 4360 Machine Learning** **3 Cr. Hrs.**

Learning strategies; evaluation of learning; learning in symbolic systems; neural networks, genetic algorithms. May not be held with ECE 4450. Prerequisite: COMP 3190 or [STAT 2400, and MATH 2740, and DATA 2010].

**COMP 4380 Database Implementation** **3 Cr. Hrs.**

Implementation of modern database systems including query modification/optimization, recovery, concurrency, integrity, and distribution. Prerequisite: COMP 3380 (C).

**COMP 4420 Advanced Design and Analysis of Algorithms****3 Cr. Hrs.**

Algorithm design with emphasis on formal techniques in analysis and proof of correctness. Computational geometry, pattern matching, scheduling, numeric algorithms, probabilistic algorithms, approximation algorithms and other topics. Prerequisites: COMP 3170 (C) and (STAT 1000 (C) or STAT 1001 (C) or STAT 1150 (C)).

**COMP 4430 Operating Systems 2** **3 Cr. Hrs.**

Design and implementation of modern operating systems. Detailed analysis of an open source modern operating system and hands-on experience with its kernel and major components. Prerequisites: COMP 2160 (C) and COMP 3430 (C).

**COMP 4490 Computer Graphics 2** **3 Cr. Hrs.**

Methods in computer graphics including topics such as representation of curves and surfaces, viewing in three dimensions, and colour models. Prerequisite: COMP 3490 (C).

**COMP 4510 Introduction to Parallel Computation** **3 Cr. Hrs.**

An overview of the architectures of current parallel processors and the techniques used to program them. Not to be held with ECE 4530. Prerequisites: COMP 3370 (C) and COMP 3430 (C).

**COMP 4520 Undergraduate Honours Project** **3 Cr. Hrs.**

A research based project on a specific area of computer science. Students must find a faculty supervisor and write a proposal in their penultimate term. If acceptable, the defined research is to be carried out in the student's final term. Permission to take the course is given on an individual basis. Available to 4th Year students only. Prerequisite: departmental permission.

**COMP 4550 Real-Time Systems** **3 Cr. Hrs.**

An introduction to the theory and practice of real-time systems. Topics include the design of real-time systems, scheduling, event based processing, and real-time control. This course may not be held for credit if a student has previously completed both of ECE 4240 and ECE 3760. Prerequisites: COMP 3430 (C) and COMP 3370 (C).

**COMP 4560 Industrial Project** **3 Cr. Hrs.**

Students will work in teams on an industrial project. Projects are supplied by the Department. Prerequisites: COMP 3350 (C) and departmental permission.

**COMP 4580 Computer Security** **3 Cr. Hrs.**

(Lab Required) Computer security and information management. This course will examine state-of-the-art knowledge about the issues relevant to data and computer security. Prerequisite: COMP 3430 (C) and COMP 3010 (C).

**COMP 4620 Professional Practice in Computer Science** **3 Cr. Hrs.**

Background and rationale to view Computer Science in a professional context. Examination of professional ethics, intellectual property, and privacy considerations important to Computer Scientists. May not be held with the former COMP 3620. Prerequisite: COMP 3350 (C).

**COMP 4690 Computer Systems and Architecture** **3 Cr. Hrs.**

Investigation of today's modern computer architecture and system design concepts, including requirements, specifications, and implementation. Instruction sets, instruction-level parallelism, speculative execution, multi-threaded architectures, memory hierarchy, multiprocessors, storage design

and implementation, and interconnection networks. Prerequisite: COMP 3370 (C).

**COMP 4710 Introduction to Data Mining** **3 Cr. Hrs.**

Introduction to data mining concepts and their applications. Prerequisite: COMP 3380 or consent of department.

**COMP 4740 Advanced Databases** **3 Cr. Hrs.**

Parallel, distributed, object-oriented, object-relational, and XML databases; other emerging database technologies. Prerequisite: COMP 3380 (C).

**COMP 4980 Workterm 3** **0 Cr. Hrs.**

Work assignment in business, industry, or government for students registered in the Computer Science Cooperative Option. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail). Prerequisite: COMP 3980 (P).

**COMP 4990 Workterm 4** **0 Cr. Hrs.**

Work assignment in business, industry, or government for students registered in the Computer Science Cooperative Option. Requires submission of a written report covering the work completed during the four-month professional assignment (Pass/Fail). Prerequisite: COMP 4980 (P).

**4.7 Genetics Program**

Campus Address/General Office: 212 Biological Sciences Building

Telephone: 204 474 9245

Email Address: [Georg.Hausner@umanitoba.ca](mailto:Georg.Hausner@umanitoba.ca)

Website: [umanitoba.ca/science/biological\\_sciences](http://umanitoba.ca/science/biological_sciences)

Program Coordinator: George Hausner, Associate Head, Department of Microbiology

Jeffrey Marcus, Department of Biological Sciences

**4.7.1 Program Information**

The Faculty of Science offers an interdisciplinary program leading to a B.Sc. (Honours) degree or B.Sc. Major in Genetics. Genetics is the science of heredity dealing with the mechanisms of inheritance and has generated concepts basic to modern biology. Three areas are represented in this program: classical genetics, population genetics, and molecular genetics. Courses from Arts, Agricultural and Food Sciences, and Medicine are included in this program.

**Genetics Entry, Continuation, and Graduation Requirements****Honours**

To enter the Honours program in Genetics, a student must have completed at least 24 credit hours with a minimum DGPA of 3.00, and also obtained a minimum grade of "B" in BIOL 1030, and a minimum grade of "C+" in CHEM 1310. STAT 1000, MATH 1500 and the additional 3 credit hours of specified Mathematics courses are program requirements and students are strongly encouraged to complete these courses in first year.

\* Students interested in studying Genetics should note that Grade 12 mathematics and chemistry are prerequisite to CHEM 1300. Effective 2009-2010, students will also require Biology 40S (or equivalent) and any Grade 12 mathematics course (or equivalent) for entry to BIOL 1020 (the required prerequisite for BIOL 1030).

**To continue** in the Genetics Honours program, students must maintain a minimum DGPA of 3.00, and complete a minimum of 9 credit hours during each Fall and Winter Term.

**To graduate** with the B. Sc. Honours degree, a student must maintain a minimum 3.00 DGPA and achieve a minimum grade of "C" on all courses that make up the 120 credit hours of the degree.

**Major**

**To enter** the Major Degree program in Genetics, a student must have completed at least 24 credit hours with a minimum DGPA of 2.00, and also obtained a minimum grade of "C+" in BIOL 1030 and CHEM 1310. STAT 1000, MATH 1500 and the additional 3 credit hours of specified Mathematics courses are program requirements and students are strongly encouraged to complete these courses in first year.

\* Students interested in studying Genetics should note that Grade 12 mathematics and chemistry are prerequisite to CHEM 1300. Effective 2009-2010, students will also require Biology 40S (or equivalent) and any Grade 12 mathematics course (or equivalent) for entry to BIOL 1020 (the required prerequisite for BIOL 1030).

**To continue** in the Genetics Major Degree program, students must maintain a minimum DGPA of 2.00.

**To graduate** with the Bachelor of Science (Major) in Genetics, a student must obtain passing grades on all courses, obtain a minimum DGPA of 2.00, and a minimum grade of C in all required and optional courses that contribute to the Major.

**Honours and Major Co-operative Options**

A co-operative education option is available for both Major and Honours students. Students should refer to [Section 3.5](#) of this chapter for further information on the Co-op programs.

**Honours Co-op**

The course, grade requirements and minimum DGPA requirement for entry and continuation in the Co-operative Option are the same as that for regular Honours program.

Students are required to complete the first and second year requirements of the program and MBIO 3410 before beginning their first co-op work term.

**Major Co-op**

The course and minimum grade requirements for entry and continuation in the Co-operative Option are the same as those required for the regular Major program. However, the entry and continuation DGPA requirement is set at a minimum of 2.5.

Students are required to complete the first and second year requirements of the program and MBIO 3410 before beginning their first co-op work term.

**4.7.2 Genetics Program Charts**

4.7.2 Genetics			
YEAR 1	YEAR 2	YEAR 3	YEAR 4
<b>HONOURS 120 CREDIT HOURS</b>			
CHEM 1300, CHEM 1310 BIOL 1020, BIOL 1030  STAT 1000 or STAT 1150  MATH 1500 <sup>1</sup>  One of: MATH 1200 <sup>1</sup> , MATH	BIOL 2500, BIOL 2520 CHEM 2210, CHEM 2220, CHEM 2360 (MBIO 2360), CHEM 2370 (MBIO 2370)  MBIO 1010, MBIO 2020	BIOL 3500 MBIO 3410  PLNT 3140  BGEN 3022, BGEN 3024  BGEN 4010 <sup>3</sup> (6) or MBIO 4530 <sup>3</sup> (6)  One of: ANTH 2240, ANTH 2560, ANTH 2860, or ANTH 2890	

1300 <sup>1</sup> , or MATH 1700 <sup>1</sup>	STAT 2000 or STAT 2150	36 credit hours from list of optional courses (a minimum of 12 of these credit hours must be 4000 level)	
<b>In Year 1 or Year 2:</b> 3 credit hours from the Faculty of Arts  3 credit hour "W" course <sup>2</sup>  6 credit hours of electives			
30 Hours	30 Hours	30 Hours	30 Hours
<b>HONOURS Co-operative Option 120 CREDIT HOURS</b>

<b>In Year 1 or Year 2:</b> 3 credit hours from the Faculty of Arts  3 credit hour "W" course <sup>2</sup>  6 credit hours of electives		<b>Co-op Requirements<sup>3,4</sup> (if selected):</b> SCI 3980, SCI 3990, SCI 4980, and SCI 4990 (if a 4 <sup>th</sup> work term is selected)	
30 Hours	30 Hours	30 Hours	30 Hours
<b>FOUR YEAR MAJOR (Including Co-operative Option if selected) 120 CREDIT HOURS</b>			
CHEM 1300, CHEM 1310 BIOL 1020, BIOL 1030  STAT 1000 or STAT 1150  MATH 1500 <sup>1</sup>  One of: MATH 1200 <sup>1</sup> , MATH 1300 <sup>1</sup> , or MATH 1700 <sup>1</sup>	BIOL 2500, BIOL 2520 CHEM 2210, CHEM 2220, CHEM 2360 (MBIO 2360), CHEM 2370 (MBIO 2370)  MBIO 1010, MBIO 2020  STAT 2000 or STAT 2150	BIOL 3500 MBIO 3410  PLNT 3140  BGEN 3022, BGEN 3024  One of: ANTH 2240, ANTH 2560, ANTH 2860, or ANTH 2890  33 credit hours from list of optional courses (a minimum of 15 of these credit hours must be 4000 level)  9 credit hours of approved elective courses	
<b>In Year 1 or Year 2:</b> 3 credit hours from the Faculty of Arts  3 credit hour "W" course <sup>2</sup>  6 credit hours of electives		<b>Co-op Requirements<sup>3,4</sup> (if selected):</b> SCI 3980, SCI 3990, SCI 4980, and SCI 4990 (if a 4 <sup>th</sup> work term is selected)	

**NOTES:**

<sup>1</sup> MATH 1220 or MATH 1310 may be taken in place of MATH 1300; MATH 1230, MATH 1510, or MATH 1520 may be taken in place of MATH 1500; MATH 1232 or MATH 1710 may be taken in place of MATH 1700; MATH 1690 may be taken in place of MATH 1500 and MATH 1700; MATH 1240 may be taken in place of MATH 1200.

<sup>2</sup> As there are no electives in Year 2 of the program, students should complete the University written English requirement in Year 1. If not completed in Year 1, a "W" course must be completed prior to Year 3 in addition to the required Year 2 courses.

<sup>3</sup> BGEN 4010 or MBIO 4530 are required courses for students in the Genetics Honours, but are not available to students in the Co-operative Option, and require department consent for students in the Genetics Major.

<sup>4</sup> Students in the Co-operative Option are advised to ensure that they are able to satisfy the prerequisites for all 3000 and 4000 level courses they plan to take.

(The number 6 in brackets indicates a 6 credit hour course.)

#### The optional courses are:

*Biochemistry and Medical Genetics:* BGEN 4010<sup>1</sup> (6)

*Biological Sciences:* BIOL 2410, BIOL 2420, BIOL 3290, BIOL 3300, BIOL 3400 (or PLNT 3400), BIOL 3542, BIOL 3560, BIOL 4500, BIOL 4510, BIOL 4540, BIOL 4542, BIOL 4560, BIOL 4650

*Chemistry:* CHEM 2260 (or the former CHEM 2280), CHEM 2290, CHEM 4360, CHEM 4370, CHEM 4620, CHEM 4630

*Microbiology:* MBIO 2420, MBIO 3000, MBIO 3010, MBIO 3030, MBIO 3430, MBIO 3450, MBIO 3460, MBIO 4020 (or the former MBIO 4010), MBIO 4410, MBIO 4530<sup>1</sup> (6), MBIO 4540, MBIO 4670 (or the former MBIO 4570), MBIO 4672, MBIO 4602 (or the former MBIO 4600), MBIO 4612 (or the former MBIO 4610)

*Computer Science:* COMP 1010, COMP 1020, COMP 1500, COMP 1600

*Physics:* PHYS 1020, PHYS 1030, PHYS 1050, PHYS 1070

*Animal Science:* ANSC 3500, ANSC 4280

*Pharmacology:* PHAC 4030, PHAC 4040

*Plant Science:* PLNT 2530, PLNT 3400 (or BIOL 3400), PLNT 3520, PLNT 4330, PLNT 4610

By an appropriate selection of courses from this list, students can obtain particular program emphasis in either plant, human or molecular genetics.

The Honours Co-op program must contain a minimum of 18 credit hours of 4000 level courses as options in Years 3 and 4.

Other suitable optional courses may be arranged through consultation with the Genetics program committee.

#### NOTES:

<sup>1</sup> MBIO 4530 (6) and BGEN 4010 (6) are project courses. A research project is chosen in consultation with the Microbiology department (MBIO 4530) or Biochemistry and Medical Genetics (BGEN 4010) and the Genetics program committee, and is supervised by a staff member. Only one of MBIO 4530 or BGEN 4010 may be selected in this program. These are required courses for students registered in the Genetics Honours program and may be available to students registered in the Genetics Major program by departmental consent.

### 4.8 Interdisciplinary Courses in Forensic Science and Science

**FORS 2000 Introductory Forensic Science 3 Cr. Hrs.** Survey course which introduces forensic science via a series of guest lectures provided by experts from within the university and from the community (e.g., Winnipeg Police, RCMP, Chief Medical Examiner, etc.). Multidisciplinary topics will be covered including how a case is studied, use of scientific

techniques in investigations, collection of evidence, the role of the expert witness, and presentation of evidence in court. Prerequisites: BIOL 1030 (C+), CHEM 1310 (C+).

**FORS 3000 Forensics Processing and Analysis 3 Cr. Hrs.** (Lab Required) Theory and practice of processing and analysis of various types of forensic evidence. Lectures will be given by experts from within the university and within the community. Topics covered in lecture and lab exercises include protocols to identify, document and protect visible and latent forensic scientific evidence, analytical methods with forensic applications, rules and procedures governing the collection of evidence and the use of scientific data in court. Prerequisite: FORS 2000.

**SCI 1000 Topics in Science 1 3 Cr. Hrs.** Topics of current interest in the Faculty of Science. Offerings will be based on the interests and requirements of students and faculty and will include interdisciplinary topics not available in regular course offerings. This course may be used to satisfy a Science elective. Non-science students should check with their department. Prerequisite: consent of the instructor. This course is a Topics course and may be completed multiple times under different titles.

**SCI 2000 Topics in Science 2 3 Cr. Hrs.** Topics of current interest in the Faculty of Science. Offerings will be based on the interests and requirements of students and faculty and will include interdisciplinary topics not available in regular course offerings. This course may be used to satisfy a Science elective. Non-science students should check with their department. Prerequisite: consent of the instructor. This course is a Topics course and may be completed multiple times under different titles.

**SCI 3000 Topics in Science 3 3 Cr. Hrs.** Topics of current interest in the Faculty of Science. Offerings will be based on the interests and requirements of students and faculty and will include interdisciplinary topics not available in regular course offerings. This course may be used to satisfy a Science elective. Non-science students should check with their department. Prerequisite: consent of the instructor. This course is a Topics course and may be completed multiple times under different titles.

**SCI 3980 Co-operative Education Work Term 1 0 Cr. Hrs.** Supervised work experience with an approved employer for a minimum of 12 weeks full-time. Restricted to students admitted to the Honours or Major Co-operative Education Option in the Faculty of Science. Completion of co-op pre-employment workshops required. Final work term report required. Prerequisite: Written permission from the Faculty of Science Co-operative Education Office. (Pass/Fail grade only).

**SCI 3990 Co-operative Education Work Term 2 0 Cr. Hrs.** Supervised work experience with an approved employer for a minimum of 12 weeks full-time. Restricted to students admitted to the Honours or Major Co-operative Education Option in the Faculty of Science. Final work term report required. Prerequisites: SCI 3980 (P) or equivalent and written permission from the Faculty of Science Co-operative Education Office. (Pass/Fail grade only).

**SCI 4000 Topics in Science 4 3 Cr. Hrs.** This course may be used to satisfy a Science elective. Non-science students should check with their department. Prerequisite: consent of the instructor. This course is a Topics course and may be completed multiple times under different titles.

**SCI 4980 Co-operative Education Work Term 3 0 Cr. Hrs.**

Supervised work experience with an approved employer for a minimum of 12 weeks full-time. Restricted to students admitted to the Honours or Major Co-operative Education Option in the Faculty of Science. Final work term report required. Prerequisites: SCI 3990 (P) or equivalent and written permission from the Faculty of Science Co-operative Education Office. (Pass/Fail grade only).

#### **SCI 4990 Co-operative Education Work Term 4 0 Cr. Hrs**

Supervised work experience with an approved employer for a minimum of 12 weeks full-time. Restricted to students admitted to the Honours or Major Co-operative Education Option in the Faculty of Science. Final work term report required. Prerequisites: SCI 4980 (P) or equivalent and written permission from the Faculty of Science Co-operative Education Office. (Pass/Fail grade only.)

### **4.9 Department of Mathematics**

Head: Shaun Liu

Campus Address/General Office: 342A Machray Hall

Telephone: 204 474 8703

Email Address: [mathematics\\_dept@umanitoba.ca](mailto:mathematics_dept@umanitoba.ca)

Website: <http://www.math.umanitoba.ca/>

#### **4.9.1 Program Information**

Mathematics provides the language, reasoning and analytic tools that many other disciplines use to investigate their areas. These include all the physical sciences, computer and engineering sciences, social sciences, and the biological and health sciences. A wide range of business, industrial, and government programs rely on mathematics to provide insight and analysis. Students may specialize in mathematics alone or in combinations with physics, computer science, economics, or statistics.

**NOTE:** Students entering either the Faculty of Arts or Science, and intending to take courses from the department, are strongly advised to speak to a Science Academic Advisor or a faculty advisor in the department concerning an appropriate choice of mathematics courses. They may also consult the Department of Mathematics website at [umanitoba.ca/science/mathematics](http://umanitoba.ca/science/mathematics).

#### **Honours Requirements**

**To enter** the Honours program in Mathematics, a student must have completed at least 24 credit hours with a minimum DGPA of 3.00, and also obtained a minimum grade of "B" in either MATH 1232 or MATH 1690, or a minimum grade of "A" in MATH 1700.

**To continue** in the Mathematics Honours program, students must maintain a minimum DGPA of 3.00, and complete a minimum of 9 credit hours during each Fall and Winter Term.

**To graduate** with the B. Sc. Honours degree, a student must achieve a minimum 3.00 DGPA and achieve a minimum grade of "C" on all courses that make up the 120 credit hours of the degree.

**List of Year 2 Mathematics electives** (of which two are required for the core requirements): MATH 2030, MATH 2040, MATH 2070, MATH 2160, MATH 2170.

Students are encouraged to discuss potential electives with a department advisor.

**Double Honours:** A student may elect Honours in Mathematics and one other field, subject to the approval of both departments. The Mathematics prescription for a Double Honours program is as indicated in the table below.

#### **Four Year Major Requirements**

**To enter** the four year Major in Mathematics, a student must have a "C+" in either MATH 1232 or MATH 1690 or a minimum grade of "B" in MATH 1700, and have satisfied all Faculty requirements for entry to the program.

**To continue** in the Mathematics Major degree program students must maintain a minimum DGPA of 2.00.

**To graduate** with the B. Sc. Major degree, a student must achieve a minimum DGPA of 2.00, and a minimum grade of "C" in each of the Major Program Specific courses (see below).

#### **Major Program Specific Courses**

MATH 1220, MATH 1230, MATH 1232, MATH 1240, MATH 2020, MATH 2030, MATH 2080, MATH 2090, MATH 2150, MATH 2160, MATH 2180,

MATH 3320, MATH 3340, MATH 3360, MATH 3390, MATH 3440, MATH 3460, and the 6 credit hours of Year 2 Mathematics Electives: MATH 2040, MATH 2070, MATH 2170. A student may substitute any 3000/4000 level MATH course for either of these two electives.

Other electives can be chosen.

#### **Four Year Major in Applied Mathematics with Option (Computer Science, Economics, Statistics)**

These programs provide a sound general knowledge of applied mathematics together with a significant number of courses in the option area. Courses in the Computer Science option provide training in aspects of computer science which are most useful to the practicing mathematician. Courses in the Computer Sciences, Economics, and Statistics options are fundamental to each area and provide a strong, mathematical basis for further study.

**To enter** the four year Major in Applied Mathematics with one of the above three options, a student must have a "C+" in either MATH 1232 or MATH 1690 or a minimum grade of "B" in MATH 1700, and have satisfied all faculty requirements for entry to the program.

**To continue** in the Applied Mathematics Major degree programs, students must maintain a minimum DGPA of 2.00.

**To graduate** with the B. Sc. Major degree, a student must achieve a minimum DGPA of 2.00, and a minimum grade of "C" in each of the Major Program Specific courses (see below).

#### **Applied Mathematics Major Program Specific Courses**

MATH 1220, MATH 1230, MATH 1232, MATH 1240, MATH 2070, MATH 2080, MATH 2090, MATH 2150, MATH 2160, MATH 2180, MATH 3340, MATH 3420, MATH 3440, MATH 3460, MATH 3470, and MATH 3610.

It is recommended that students take all 12 credit hours of 1000 level mathematics courses in their initial 30 credit hours; however, students should take at least MATH 1230, MATH 1232 and MATH 1220. See the individual charts below for additional requirements for each option.

**Options List:** MATH 2030, MATH 2040, MATH 2170, or any 3000/4000 level MATH course.

#### **Honours and Major Co-operative Options**

A co-operative education option is available for both Major and Honours students. Students should refer to [Section 3.5](#) of this chapter for further information on the Co-op programs.

### Honours Co-op

The course, grade requirements and minimum DGPA requirement for entry and continuation in the Co-operative Option are the same as that for regular Honours program.

Students will need to have completed MATH 2020, MATH 2080, MATH 2090, MATH 2150 and MATH 2180 (or their equivalents as approved by the department of Mathematics) before entrance into the Co-op Program. Students who plan on, or are required to, take MATH 3470 and MATH 3472 are recommended to take these in the Fall and Winter (respectively) of Year 3 (similarly with MATH 3320 and MATH 3322).

### Major Co-op

The course and minimum grade requirements for entry and continuation in the Co-operative Option are the same as those required for the regular Major program. However, the entry and continuation DGPA requirement is set at a minimum of 2.5.

Students will need to have completed MATH 2020, MATH 2080, MATH 2090, MATH 2150 and MATH 2180 (or their equivalents as approved by the department of Mathematics) before entrance into the Co-op Program. Students who plan on, or are required to, take MATH 3470 and MATH 3472 are recommended to take these in the Fall and Winter (respectively) of Year 3 (similarly with MATH 3320 and MATH 3322).

### Three Year General

As prescribed with all other faculty regulations in Section 3.2, students in this program must select 18 credit hours of 2000, 3000, and (or) 4000 level courses from each of **two** Science areas. To satisfy the requirement in the area of Mathematics, students must select a minimum of 18 credit hours of 2000, 3000, and (or) 4000 level Mathematics courses (subject to the Faculty requirement that of the 36 credit hours in the two advanced level Science areas, at least 6 credit hours must be at the 3000/4000 level).

See a Science Academic Advisor or a Faculty Advisor in the department for information regarding entry to or completion of any of the programs outlined.

#### 4.9.2.1 Mathematics Honours Program Chart

4.9.2.1 Mathematics			
YEAR 1	YEAR 2	YEAR 3	YEAR 4
<b>MATHEMATICS HONOURS (including Co-operative Option) 120 CREDIT HOURS</b>			
MATH 1220 <sup>1</sup> , MATH 1230 <sup>1</sup> , MATH 1232 <sup>1</sup> , MATH 1240	MATH 2020, MATH 2080, MATH 2090, MATH 2150, MATH 2180  6 credit hours from	36 credit hours Mathematics courses, which must include the following:  MATH 3320, MATH 3340, MATH 3390, MATH 3440, MATH 3470, MATH 3472;	

	the following list:  MATH 2030, MATH 2040, MATH 2070, MATH 2160 <sup>2</sup> , MATH 2170	And one of the two concentrations listed below:  <b>Applied and Computational Mathematics Concentration:</b>  MATH 3420, MATH 3460, MATH 4370; and additional 9 credit hours to be chosen from:	
STAT 1150 <sup>1</sup> , COMP 1010 <sup>1</sup>		MATH 3322, MATH 3330, MATH 4280, MATH 4320 <sup>3</sup> , MATH 4330 <sup>3</sup> , MATH 4380 <sup>3</sup> , MATH 4390 <sup>3</sup> , MATH 4440, MATH 4460 <sup>3</sup>  <b>Pure Mathematics Concentration:</b>  MATH 3322, one of (MATH 3410 <sup>3</sup> or MATH 3480 <sup>3</sup> ), MATH 4260, and one of (MATH 4300 <sup>3</sup> or MATH 4340 <sup>3</sup> or MATH 4360 <sup>3</sup> );  and an additional 6 credit hours to be chosen from: MATH 3360, MATH 4240 <sup>3</sup> , MATH 4270, MATH 4280, MATH 4290, MATH 4450, MATH 4470 <sup>3</sup>	
	The following must be completed in Year 1 or Year 2:  6 credit hours from the Faculty of Arts, which should include the required "W" course.	12 credit hours of Mathematics courses from: MATH 2030, MATH 2070, MATH 2160, MATH 2170 (if not taken as a required 2nd year elective) and all Year 3 and 4 mathematics courses	
	15 credit hours of electives	12 credit hours of approved (not necessarily mathematics)	
		<b>Co-op Requirements (if selected):</b>  SCI 3980, SCI 3990, and SCI 4980, and SCI 4990 (if a 4 <sup>th</sup> work term is selected)	
30 Hours	30 Hours	30 Hours	30 Hours

#### NOTES:

1 Students are strongly advised to take MATH 1220, MATH 1230 and MATH 1232. The following substitutions are allowed (but not advised), provided the grades indicated in brackets are achieved: MATH 1300 (A) in place of MATH 1220, MATH 1500 (A) or MATH 1510 (A) in place of MATH 1230, MATH 1700 (A) or MATH 1710 (A) in place of MATH 1232, MATH 1690 (B) in place of MATH 1230 and MATH 1232. With permission from the

department, students may be able to substitute STAT 1000 and STAT 2000 in place of STAT 1150. COMP 1012 may be used in lieu of COMP 1010.

2 Department strongly recommends choosing MATH 2160 as one of the electives in Year 2.

3 These courses may not be offered every year, but are usually offered once every second year. Please refer to Aurora Student for courses offered in the current year and to the website of the Department of Mathematics for the planned schedule of future course offerings.

**4.9.2.2 Mathematics Double Honours Program Chart**

YEAR 1	YEAR 2	YEAR 3	YEAR 4
<b>MATHEMATICS HONOURS DOUBLE (including Co-operative Option) MINIMUM 120 CREDIT HOURS (comprising courses listed in chart below, and the required courses from the other department)</b>			
MATH 1220 <sup>1</sup> , MATH 1230 <sup>1</sup> , MATH 1232 <sup>1</sup> , MATH 1240  STAT 1150 <sup>1</sup>  COMP 1010 <sup>1</sup>  Plus 6 credit hours from the Faculty of Arts, which should include the required "W" course	MATH 2020, MATH 2080, MATH 2090, MATH 2150, MATH 2180  6 credit hours from the following list:  MATH 2030, MATH 2040, MATH 2070, MATH 2160, MATH 2170	MATH 3320, MATH 3340, MATH 3390, MATH 3440, MATH 3470, MATH 3472	15 credit hours from: MATH 2030, MATH 2070, MATH 2160, MATH 2170 (if not taken as a required 2nd year elective); and all Year 3 and 4 mathematics courses of which at least 9 credit hours must be 4000 level.
		<b>Co-op Requirements (if selected):</b>  SCI 3980, SCI 3990, and SCI 4980, and SCI 4990 (if a 4 <sup>th</sup> work term is selected)	

**NOTES:**

1 Students are strongly advised to take MATH 1220, MATH 1230 and MATH 1232. The following substitutions are allowed (but not advised), provided the grades indicated in brackets are achieved: MATH 1300 (A) in place of MATH 1220, MATH 1500 (A) or MATH 1510 (A) in place of MATH 1230, MATH 1700 (A) or MATH 1710 (A) in place of MATH 1232, MATH 1690 (B) in place of MATH 1230 and MATH 1232. With permission of the department, students may be able to substitute STAT 1000 and STAT 2000 in place of STAT 1150. COMP 1012 may be used in lieu of COMP 1010.

**4.9.2.3 Mathematics Four Year Major Program Chart**

YEAR 1	YEAR 2	YEAR 3	YEAR 4
--------	--------	--------	--------

<b>MATHEMATICS FOUR YEAR MAJOR (including Co-operative Option) 120 CREDIT HOURS</b>

	24 credit hours of approved electives taken during years 2, 3 and 4
3 credit hour "W" course must be taken in Year 1 or Year 2	<b>Co-op Requirements (if selected):</b> SCI 3980, SCI 3990, and SCI 4980, and SCI 4990 (if a 4 <sup>th</sup> work term is selected)

**NOTES:**

1 Students are strongly advised to take MATH 1220, MATH 1230 and MATH 1232. The following substitutions are allowed (but not advised), provided the grades indicated in brackets are achieved: MATH 1300 (B) in place of MATH 1220, MATH 1500 (B) or MATH 1510 (B) in place of MATH 1230, MATH 1700 (B) or MATH 1710 (B) in place of MATH 1232, MATH 1690 (C+) in place of MATH 1230 and MATH 1232. STAT 1000 (C) and STAT 2000 (B) in place of STAT 1150. COMP 1012 may be used in place of COMP 1010.

**4.9.2.6 Applied Mathematics with Statistics Option Program Chart**

YEAR 1	YEAR 2	YEAR 3	YEAR 4
<b>APPLIED MATHEMATICS FOUR YEAR MAJOR with STATISTICS OPTION (including Co-operative Option) 120 CREDIT HOURS</b>			
MATH 1220 <sup>1</sup> , MATH 1230 <sup>1</sup> , MATH 1232 <sup>1</sup> , MATH 1240  STAT 1150 <sup>1</sup>	MATH 2080, MATH 2090, MATH 2150, MATH 2160, MATH 2180 STAT 2150, STAT 2400	MATH 2070, MATH 3340, MATH 3420, MATH 3440, MATH 3460, MATH 3470, MATH 3610  STAT 2800, STAT 3100, STAT 3450	
6 credit hours from the Faculty of Arts, which should include the required "W" course	COMP 1010 <sup>1</sup>  9 credit hours from:  MATH 2030, MATH 2040, MATH 2170, or any 3000/4000 level MATH course  9 credit hours of 3000 or 4000 level Statistics courses		

9 credit hours of electives	18 credit hours of approved electives taken during years 2, 3 and 4
	<b>Co-op Requirements (if selected):</b> SCI 3980, SCI 3990, and SCI 4980, and SCI 4990 (if a 4 <sup>th</sup> work term is selected)

**NOTES:**

1 Students are strongly advised to take MATH 1220, MATH 1230 and MATH 1232. The following substitutions are allowed (but not advised), provided the grades indicated in brackets are achieved: MATH 1300 (B) in place of MATH 1220, MATH 1500 (B) or MATH 1510 (B) in place of MATH 1230, MATH 1700 (B) or MATH 1710 (B) in place of MATH 1232, MATH 1690 (C+) in place of MATH 1230 and MATH 1232. STAT 1000 (C) and STAT 2000 (B) in place of STAT 1150. COMP 1012 may be used in place of COMP 1010.

**4.9.2.7 Mathematics General Degree and Minor Requirements**

YEAR 1	YEAR 2	YEAR 3	YEAR 4
<b>THREE YEAR GENERAL 90 CREDIT HOURS</b>			
<u>MATH 1220<sup>1</sup></u> , <u>MATH 1230<sup>1</sup></u> , <u>MATH 1232<sup>1</sup></u> , <u>MATH 1240</u>	18 credit hours of 2000, 3000, and (or) 4000 level Mathematics courses (subject to the Faculty requirement that of the 36 credit hours to be completed in the two advanced level Science areas, at least 6 credit hours must be at the 3000/4000 level).		
<b>MINOR</b>			
MATH 1220 <sup>1</sup> , MATH 1230 <sup>1</sup> , MATH 1232 <sup>1</sup> , plus a minimum of 9 credit hours from MATH 1240 <sup>1</sup> and (or) 2000 and (or) 3000 level Mathematics courses.			

**NOTES:**

1 MATH 1500 or MATH 1510 may be taken in place of MATH 1230; MATH 1300 may be taken in place of MATH 1220; MATH 1700 or MATH 1710 may be taken in place of MATH 1232. MATH 1200 may be taken in place of MATH 1240, but these courses are not equivalent. i.e. students should note that MATH 1240 is a prerequisite to some 2nd year mathematics courses of which MATH 1200 is not a prerequisite.

**4.9.2.8 Mathematics – Physics and Astronomy Joint Honours Program (including Co-operative Option if selected)**

<b>Honours Requirements (including Co-operative Option)</b> <b>To enter</b> the Joint Honours Mathematics – Physics Honours program the student must have a minimum grade of "B" in: MATH 1232 or MATH 1690 (or a minimum grade of "A" in MATH 1700), PHYS 1050 (or "B+" in PHYS 1020) and PHYS 1070 (or "B+" in PHYS 1030).
---

**To continue** in the Honours program, students must maintain a minimum DGPA of 3.00, complete a minimum of 9 credit hours each Fall and Winter Term.

**To graduate** with the B. Sc. Honours degree, a student must achieve a minimum DGPA of 3.00 and a minimum grade of "C+" in each of the Honours Program Specific courses<sup>6</sup>, and a minimum grade of "C" on all remaining courses that contribute to the 120 credit hours of the degree.

YEAR 1	YEAR 2	YEAR 3	YEAR 4
<b>JOINT HONOURS 120 CREDIT HOURS</b>			
MATH 1220 <sup>1</sup> , MATH 1230 <sup>1</sup> , MATH 1232 <sup>1</sup> (B), MATH 1240 PHYS 1050 (B) (or PHYS 1020 (B+)) <sup>2</sup> and PHYS 1070 (B) (or PHYS 1030 (B+))	PHYS 2260 or PHYS 2610, PHYS 2386, PHYS 2600, PHYS 2650 <sup>3</sup> 3 credit hours of Physics MATH 2020, MATH 2080, MATH 2090, MATH 2150, MATH 2180	MATH 3340, MATH 3440, MATH 3460, MATH 3470, MATH 3472 PHYS 3670 <sup>3</sup> , PHYS 3650 <sup>3,5</sup> , PHYS 3630 <sup>3</sup> , PHYS 3386 <sup>3</sup> 3 credit hours from 3000 and 4000 level Physics Honours courses	MATH 3320, MATH 3322, 3 credit hours of 4000 level Math PHYS 3430 (6), PHYS 4680 <sup>5</sup> 6 credit hours from the Department of Mathematics or the Department of Physics & Astronomy: MATH 2030, MATH 2070, MATH 2160, MATH 2170, or any 3000 or 4000 level Mathematics or Physics courses 6 credit hours of electives
<b>Co-op Requirements (if selected):</b> SCI 3980, SCI 3990, SCI 4980, and SCI 4990 (if a 4 <sup>th</sup> work term is selected)			
30 Hours	30 Hours	30 Hours	30 Hours

**NOTES:**

<sup>1</sup> Students are strongly advised to take MATH 1220, MATH 1230 and MATH 1232. The following substitutions are allowed (but not advised), provided the grades indicated in brackets are achieved: MATH 1300 (A) in place of MATH 1220, MATH 1500 (A) or MATH 1510 (A) in place of MATH 1230, MATH 1700 (A) or MATH 1710 (A) in place of MATH 1232, MATH 1690 (B) in place of MATH 1230 and MATH 1232. With permission from the department, students may be able to substitute STAT 1000 and STAT 2000 in place of STAT 1150.

<sup>2</sup> Students are advised to take PHYS 1050 and PHYS 1070.

<sup>3</sup> The corequisite or prerequisite of PHYS 2496 is waived for students in this program. It is recommended that students audit PHYS 2496 in second year and PHYS 3496 in third year.

<sup>4</sup> As there are no electives in Year 2 of the program, students should complete the university written English requirement in Year 1. If not completed in Year 1, a "W" course must be completed prior to Year 3 in addition to the required Year 2 courses.

<sup>5</sup> The pre-or corequisite of PHYS 3496 is waived for students in this program. It is recommended that students audit PHYS 2496 in second year and PHYS 3496 in third year.

<sup>6</sup> The Honours Program Specific courses consists of all the Physics and Astronomy courses listed in the program chart, with the exception of PHYS 1020, PHYS 1050, PHYS 1030 and PHYS 1070.

<sup>7</sup> Students may take STAT 1000 and STAT 2000 in lieu of STAT 1150.

(Letters in brackets indicate minimum prerequisite standing for further study. The number 6 in brackets indicates a 6 credit hour course.)

**4.9.2.9 Mathematics – Economics Joint Honours Program**

<p><b>The Department</b> of Mathematics along with the Department of Economics (Faculty of Arts) offer a joint Honours program for students wishing in depth study in Mathematics and Economics. For Economics course listings, refer to the Faculty of Arts chapter in the Calendar.</p>			
<p><b>To enter</b> the Joint Honours Mathematics - Economics program, the student must have a minimum grade of "B" in: ECON 1010 and ECON 1020 (or ECON 1210 and ECON 1220), either MATH 1232 or MATH 1690 (or a minimum grade of "A" in MATH 1700) and have satisfied the Faculty of Science requirements for entry to the honours program.</p>			
YEAR 1	YEAR 2	YEAR 3	YEAR 4
<b>JOINT HONOURS 120 CREDIT HOURS</b>			
Both ECON 1010, ECON 1020, or both ECON 1210 and ECON 1220	ECON 2010, ECON 2020	ECON 3010, ECON 3020, ECON 3040 <sup>3</sup>	
MATH 1220 <sup>1</sup> , MATH 1230 <sup>1</sup> , MATH 1232 <sup>1</sup> , MATH 1240	MATH 2020, MATH 2080, MATH 2090, MATH 2150, MATH 2180	MATH 2030, MATH 2160, MATH 3320, MATH 3340, MATH 3440, MATH 3470. MATH 3472

COMP 1010 <sup>2</sup>		3 credit hours from MATH 3420, MATH 3460, MATH 3610, MATH 4370, or any Mathematics course at the 4000 level.	
6 credit hours of electives, including the required "W" course.	9 credit hours of approved electives	3 credit hours of Mathematics courses at the 3000 or 4000 level.	
30 Hours	30 Hours	30 Hours	30 Hours
<p><b>NOTES:</b></p> <p>1 Students are strongly advised to take MATH 1220, MATH 1230 and MATH 1232. The following substitutions are allowed (but not advised), provided the grades indicated in brackets are achieved: MATH 1300 (A) in place of MATH 1220, MATH 1500 (A) or MATH 1510 (A) in place of MATH 1230, MATH 1700 (A) or MATH 1710 (A) in place of MATH 1232, MATH 1690 (B) in place of MATH 1230 and MATH 1232. With permission from the department, students may be able to substitute STAT 1000 and STAT 2000 in place of STAT 1150.</p> <p>2 Some courses may be taken in a different year than indicated; STAT 1150, COMP 1010, ECON 3040 may be taken in Year 2. The normal prerequisite for ECON 3040 is ECON 2040 (or the former ECON 3170),</p>			

which will be waived for students in this program who have completed Year 1.

3 Of the 24 credit hours in electives in Economics in Years 3 and 4, no more than 6 credit hours may be at the 2000 level or below and at least 6 credit hours must be at the 4000 level. Students are encouraged to take ECON 4010, ECON 4020 and ECON 4040.

**4.9.2.10 Mathematics - Computer Science Joint Honours Program**

Mathematics - Computer Science Joint Honours Program (Including Co-op if selected) - [see 4.6.3 Computer Science - Mathematics Joint Honours Program](#)

**4.9.2.11 Mathematics - Statistics Joint Honours Program**

Mathematics - Statistics Joint Honours Program - [see 4.13.5 Statistics - Mathematics Joint Honours Program](#)

**4.9.3 Mathematics Course Descriptions-0 Level****MATH 0500 Preparing for University Mathematics 0 Cr. Hrs.**

A voluntary non-credit mathematics course for students, holding credit in Pre-Calculus 40S or Applied Mathematics 40S or equivalent, who would benefit from improving their knowledge and skills concerning topics included in the Manitoba secondary school mathematics curriculum. This course may be taken prior to or concurrently with MATH 1200, 1210, 1300, 1310, 1500, 1510, 1520, 1700, 1710 or 1690. Students participating in this course should purchase the set of notes "Preparing for University Mathematics" from the University of Manitoba Bookstore. Prerequisite: a grade of 60% in Pre-Calculus 40S, 70% in Applied Mathematics 40S or a grade of 60% or better in the Math Skills course offered by Extended Education. (NOTE: The fee for this course is non-refundable upon withdrawal).

**4.9.3 Mathematics Course Descriptions-1000 Level****MATH 1010 Applied Finite Mathematics 3 Cr. Hrs.**

(Lab Required) For students needing to fill the requirement of a university level mathematics course. Introduces students to modern applications of discrete mathematics. Topics include: mathematics of finance, linear programming, graph theory, and game theory. This is a terminal course and may not be used as a prerequisite for other Mathematics courses. This course cannot be used as part of an Honours, Major, General or Minor program in the mathematical sciences. Not available to any student already holding a grade of "C" or better in any Mathematics course with the exception of MATH 1020, FA 1020, the former MATH 1190 or MATH 1191. Not to be taken concurrently with any other Mathematics course with the exception of MATH 1020, FA 1020 or MATH 1191. No prerequisite.

**MATH 1020 Mathematics in Art 3 Cr. Hrs.**

Specific theory, structuring systems, and mathematical methods and principles used in works of art from various historical periods and contexts will be explored in relation to Euclidean and non-Euclidean geometries. Topics include: linear perspective; shapes, patterns, balance and symmetry; ratio, proportion and harmony; and order, dynamics, and chaos. The course will be one half art and one half mathematics, team-taught by faculty from the School of Art and the Department of Mathematics. This course is also given in the School of Art as FA 1020. This is a terminal course and may not be used as a prerequisite for other Mathematics courses. This course cannot be used as part of an Honours, Major, General or Minor program in the mathematical sciences. Not available to any student already holding a grade of "C" or better in any Mathematics course with the exception of MATH 1010, the former MATH 1190, or MATH 1191. Not to be taken concurrently with any other Mathematics course with the exception of MATH 1010 or MATH 1191. No prerequisite.

**MATH 1080 Fundamentals of Mathematical Reasoning 3 Cr. Hrs.**  
(Lab required) Logic, reasoning, problem solving, introduction to set theory, mathematical induction, introduction to number theory, bases of arithmetic and the standard algorithms, working with fractions and functions. The course is recommended for students intending to become early or middle years school teachers. This course cannot be used as part of an Honours, Major, General or Minor program in the mathematical sciences. Prerequisite: Pre-Calculus Mathematics 40S or the former Mathematics 40S (300) or a minimum grade of 65% in Applied Mathematics 40S or a grade of "C" or better in MSKL 100 offered by Extended Education.

**MATH 1090 Mathematical Reasoning in Euclidean Geometry 3 Cr. Hrs.**  
(Lab required) Introduction to Euclidean geometry with emphasis on mathematical reasoning. Perimeter, area, volume, triangle congruence, parallel lines and quadrilaterals, similarity, circles, coordinate geometry or transformation geometry. The course is recommended for students intending to become early or middle years school teachers. This course cannot be used as part of an Honours, Major, General or Minor program in the mathematical sciences. Prerequisite: MATH 1080.

**MATH 1200 Elements of Discrete Mathematics 3 Cr. Hrs.**  
(Lab Required) Sequences and series, trigonometry, complex numbers, algebra of polynomials, approximation of zeros of functions, linear difference equations. Not to be held with MATH 1210, MATH 1211 or MATH 1201. Not available to any student holding credit in any Mathematics course numbered 2000 or higher, unless MATH 1200 is a required course in a student's program. Prerequisite: a minimum grade of 60% in Pre-calculus 40S or the former Mathematics 40S (300), or a grade of 60% or better in the MSKL 100 offered by Extended Education.

**MATH 1210 Techniques of Classical and Linear Algebra 3 Cr. Hrs.**  
(Lab Required) To introduce a variety of practical algebraic concepts and skills necessary for the study of calculus and advanced engineering mathematics. The emphasis of this course is in the development of methodology and algebraic skill necessary for successful completion of subsequent engineering mathematics courses. This course is intended for Engineering and Geophysics students only. May not be held with MATH 1200, MATH 1201, MATH 1211, MATH 1220, MATH 1300, MATH 1301, or MATH 1310. Prerequisites: a minimum grade of 60% in Pre-calculus Mathematics 40S or the former Mathematics 40S (300), or a grade of "C" or better in the MSKL 100 offered by Extended Education.

**MATH 1220 Linear Algebra 1 3 Cr. Hrs.**  
(Lab required) This course is intended for students in mathematically rich disciplines including those planning to enter an Honours or Major program in Mathematics or Statistics. An introduction to vectors, matrices, systems of linear equations and three-dimensional geometry. May not be held with MATH 1210, MATH 1211, MATH 1300, MATH 1301, MATH 1310, or the former MATH 1680. Prerequisite: Pre-calculus Mathematics 40S (70%) or the former Mathematics 40S (300) (70%), or the MSKL 100 offered Extended Education (B).

**MATH 1230 Differential Calculus 3 Cr. Hrs.**  
(Lab required) The course is intended for students in mathematically rich disciplines including those planning to enter an Honours or Major program in Mathematics or Statistics. Rigorous treatment of limits, continuity, and differentiation (with epsilon-delta proofs), applications in optimization problems, related rates, l'Hopital's rule, curve sketching, Taylor polynomials. Not to be held with MATH 1500, MATH 1501, MATH 1510, MATH 1520, the former MATH 1680, or MATH 1690. Prerequisite: Pre-calculus Mathematics 40S (70%) or the former Mathematics 40S (300) (70%), or the MSKL 100 offered by Extended Education (B).

**MATH 1232 Integral Calculus 3 Cr. Hrs.**  
(Lab required) This course is intended for students in mathematically rich disciplines including those planning to enter an Honours or Major program in Mathematics or Statistics. Integral calculus: theory and techniques of integration, curve sketching (parametric and polar), volume, arc length, surface area and partial derivatives. Sequences and series. Not to be held with MATH 1690, MATH 1700, MATH 1701, MATH 1710. Prerequisite: MATH 1230 (C) or MATH 1500 (B) or MATH 1501 (B) or MATH 1510 (B).

**MATH 1240 Elementary Discrete Mathematics 3 Cr. Hrs.**  
(Lab required) The course is intended for students in mathematically rich disciplines including those planning to enter an Honours or Major program in Mathematics or Statistics. An introduction to mathematical ideas, proof, techniques, and mathematical writing, explored through topics in discrete mathematics. May not be held with MATH 1241 or MATH 3120. Prerequisite: Pre-calculus Mathematics 40S (60%) or the former Mathematics 40S (300) (60%), or a "C" or better in MSKL 0100.

**MATH 1300 Vector Geometry and Linear Algebra 3 Cr. Hrs.**  
(Lab Required) An introduction to vectors, matrices, systems of linear equations and three-dimensional geometry. May not be held for credit with MATH 1210, MATH 1211, MATH 1220, MATH 1310, MATH 1301, or the former MATH 1680. Prerequisite: a minimum grade of 60% in Pre-calculus Mathematics 40S or the former Mathematics 40S (300), or a grade of "C" or better in the MSKL 100 offered by Extended Education. NOTE: A minimum grade of 70% in Applied Mathematics 40S may be used as a prerequisite to this course.

**MATH 1310 Matrices for Management and Social Sciences 3 Cr. Hrs.**  
(Lab Required) Matrix methods with examples relevant to the Management and Social Sciences. Topics include vectors, matrices, systems of linear equations, and determinants; applications include economic models, the simplex method for linear programming, Markov chains, and game theory. May not be held with MATH 1210, MATH 1211, MATH 1220, MATH 1300, MATH 1301, or the former MATH 1680. Prerequisite: a minimum grade of 60% in Pre-calculus Mathematics 40S or the former Mathematics 40S (300), or a grade of "C" or better in the MSKL 100 offered by Extended Education. NOTE: A minimum grade of 70% in Applied Mathematics 40S may be used as a prerequisite to this course.

**MATH 1500 Introduction to Calculus 3 Cr. Hrs.**  
(Lab Required) Differentiation and integration of elementary functions, with applications to maxima and minima, rates of change, area, and volume. May not be held with MATH 1230, MATH 1501, MATH 1510, MATH 1520, the former MATH 1680, or MATH 1690. Prerequisite: a minimum grade of 60% in Pre-calculus Mathematics 40S or the former Mathematics 40S (300), or a grade of "C" or better in the MSKL 100 offered by Extended Education.

**MATH 1510 Applied Calculus 1 3 Cr. Hrs.**  
(Lab Required) Functions and graphs; limits and continuity; differentiation of functions defined explicitly, implicitly and parametrically; applications of derivatives to velocity and acceleration, related rates, maxima and minima; differentials, indefinite and definite integrals, application of integration to area. Physical applications in this course make it especially suitable for students intending to take programs in engineering. May not be held with MATH 1230, MATH 1500, MATH 1501, MATH 1520, the former MATH 1530, the former MATH 1680, or MATH 1690. Prerequisites: (a grade of 60% in one of Pre-calculus Mathematics 40S, or the former Mathematics 40S (300), or a grade of "C" or better in the MSKL 0100 offered by Extended Education) and (one of Physics 40S (300), PHYS 0900 (P), or PSKL 0100 (P) offered by Extended Education).

**MATH 1520 Introductory Calculus for Management and Social Sciences 3 Cr. Hrs.**

(Lab Required) Differentiation and integration of functions of one variable and partial differentiation of functions of several variables. Emphasizes applications in the areas of management and social science. May not be held with MATH 1230, MATH 1500, MATH 1501, MATH 1510, the former MATH 1680, or MATH 1690. Prerequisite: a minimum grade of 60% in Pre-calculus Mathematics 40S or the former Mathematics 40S (300), or a minimum grade of "C" in the MSKL 100 offered by Extended Education.

**MATH 1690 Calculus 6 Cr. Hrs.**

(Lab Required) An introduction to the calculus of functions of one variable. This course covers the same material as MATH 1500 and MATH 1700 together, but in greater depth. Exposure to high school calculus (45S) is desirable, but not essential. This course is intended for students planning to enter an Honours or 4 year Major program in Mathematics. May not be held with MATH 1230, MATH 1232, MATH 1500, MATH 1501, MATH 1510, MATH 1520, the former MATH 1680, MATH 1700, MATH 1701, MATH 1710. Prerequisite: a minimum grade of 80 % in Pre-calculus Mathematics 40S or the former Mathematics 40S (300).

**MATH 1700 Calculus 2 3 Cr. Hrs.**

(Lab Required) Theory and techniques of integration, curve sketching, volume, arc length, surface area and partial derivatives. May not be held with MATH 1232, MATH 1690, MATH 1701, MATH 1710. Prerequisite: A grade of "C" or better in one of MATH 1230, MATH 1500, MATH 1501, MATH 1510, MATH 1520, or the former MATH 1680.

**MATH 1710 Applied Calculus 2 3 Cr. Hrs.**

(Lab Required) Applications of integration to volumes, centres of mass, moments of inertia, work and fluid pressure; differentiation of trigonometric, inverse trigonometric, exponential, and logarithmic functions; techniques of integration; polar coordinates. Physical applications in this course make it especially suitable for students intending to take programs in engineering. May not be held with MATH 1232, MATH 1690, MATH 1700, MATH 1701. Prerequisite: A grade of "C" or better in one of MATH 1230, MATH 1500, MATH 1501, MATH 1510, MATH 1520, or the former MATH 1680. Prerequisite or concurrent Requirement: PHYS 1050 or PHYS 1051.

**4.9.3 Mathematics Course Descriptions-2000 Level**

**MATH 2020 Algebra 1 3 Cr. Hrs.**

(Lab required) The course is intended for students in mathematically rich disciplines. Groups, rings, fields: elementary concepts and examples. May not be held with MATH 2021 or the former MATH 3350. Prerequisite: MATH 2090 or MATH 2091 (C) or the former MATH 2352 (C) or the former MATH 2300 (B) or MATH 2301 (B).

**MATH 2030 Combinatorics 1 3 Cr. Hrs.**

(Lab required) Introductory combinatorics, including basic counting, permutations and combinations, enumeration, inclusion-exclusion, pigeonhole principle, solving basic recursions, relations, and derangements. May not be held MATH 2031 or the former MATH 3400. Prerequisites: MATH 1240 (C) or MATH 1241 (C) or [the former MATH 2202 (C) and one of the former MATH 2350 or the former MATH 2352 (C)] or consent of instructor.

**MATH 2040 Curves and Surfaces 3 Cr. Hrs.**

(Lab required) Curves and surfaces in the plane and space. Intrinsic geometry of curves and surfaces: Serret Frenet frames, first and second fundamental forms, curvature and the Gauss map. Geodesics and parallel transport. Theorema Egregium and Gauss-Bonnet theorems. Prerequisites: [MATH 1232 (C) or MATH 1690 (C) or MATH 1700 (B) or MATH 1701 (B) or MATH 1710 (B)] and [MATH 1220 (C) or MATH 1300 (B) or MATH 1301 (B)]; or consent of instructor. Pre-or corequisite: MATH 2150 or MATH 2151 or MATH 2720 or MATH 2721.

**MATH 2070 Graph Theory 1 3 Cr. Hrs.**

(Lab required) Introduction to graphs, digraphs, and multigraphs. Topics include trees, cycles and circuits, planarity, basic graph algorithms, and applications of graph theory to social and physical sciences. May not be held with MATH 2071 or the former MATH 2400 or COMP 4340. Prerequisites: [MATH 1240 (C) or MATH 1241 (C)] and [MATH 1220 (C) or MATH 1300 (B) or MATH 1301 (B)].

**MATH 2080 Introduction to Analysis 3 Cr. Hrs.**

(Lab required) The course is intended for students in mathematically rich disciplines. Fundamental properties of the real number system as a complete ordered field, Archimedean property, existence of square roots, density of rational numbers, uncountability of real numbers. Sequences, subsequences, limit theorems, monotonicity, Bolzano-Weierstrass theorem, Cauchy sequences. Rigorous treatment of limits and continuity of functions of one and several variables. Uniform continuity. Applications. May not be held with MATH 2081 or the former MATH 2202. Prerequisites: [MATH 1232 (C) or MATH 1690 (C) or MATH 1700 (B) or MATH 1701 (B) or MATH 1710 (B)] and [MATH 1220 (C) or MATH 1300 (B) or MATH 1301 (B)] and [MATH 1240 (C) or MATH 1241 (C)].

**MATH 2090 Linear Algebra 2 3 Cr. Hrs.**

(Lab required) The course is intended for students in mathematically rich disciplines. Abstract vector spaces, linear transformations, bases and coordinatization, matrix representations, orthogonalization, diagonalization, principal axis theorem. May not be held with MATH 2091 or the former MATH 2300 or the former MATH 2301 or the former MATH 2350 or the former MATH 2352. Prerequisite: MATH 1220 (C) or MATH 1300 (B) or MATH 1301 (B).

**MATH 2120 Introductory Numerical Methods for Engineers 4 Cr. Hrs.**

(Lab Required) Numerical methods applied to problems in engineering; roots of nonlinear equations and systems of linear equations, numerical differentiation and integration, initial-value problems. For Engineering and Geophysics students only. May not be held with MATH 2600 or MATH 2601. Prerequisites: one of COMP 1010, COMP 1011, COMP 1012, COMP 1013 (C); pre- or corequisite: MATH 2132 or the former MATH 2100 (C).

**MATH 2130 Engineering Mathematical Analysis 1 3 Cr. Hrs.**

(Lab required) Multivariable differential and integral calculus up to and including multiple integrals in cylindrical and spherical coordinates. For Engineering and Geophysics students only. May not be held for credit with MATH 2720, MATH 2750, or the former MATH 2110. Prerequisites: MATH 1210 or MATH 1211 and MATH 1710 (C).

**MATH 2132 Engineering Mathematical Analysis 2 3 Cr. Hrs.**

(Lab required) Infinite series, Taylor and Maclaurin Series; ordinary differential equations including Laplace transforms. For Engineering and Geophysics students only. May not be held for credit with MATH 2800, MATH 2730, or the former MATH 2100. Prerequisites: MATH 1210 (C) or MATH 1211 (C), and MATH 1710 (C).

**MATH 2150 Multivariable Calculus 3 Cr. Hrs.**

(Lab required) The course is intended for students in mathematically rich disciplines. Parametric curves, arc length and curvature. Functions of several variables. Level curves. Partial derivatives, gradient, divergence and curl. Max/min problems. Double and triple integrals, line and surface integrals of functions and vector fields, and applications. Green's, Stokes, and divergence theorems. May not be held with MATH 2130, MATH 2151, MATH 2720, MATH 2721, or the former MATH 2750. Prerequisite: MATH 2080 (C) or MATH 2081 (C) or the former MATH 2202 (C).

**MATH 2160 Numerical Analysis 1** **3 Cr. Hrs.**

(Lab required) Elementary techniques of numerical solution of mathematical problems: solution of equations, linear systems of equations, nonlinear equations; finite and divided differences, interpolation; numerical differentiation and integration. May not be held with MATH 2120, MATH 2161, the former MATH 2600, or the former MATH 2601. Prerequisites: [MATH 1232 (C) or MATH 1690 (C) or MATH 1700 (B) or MATH 1701 (B) or MATH 1710 (B)] and [MATH 1220 (C) or MATH 1300 (B) or MATH 1301 (B)].

**MATH 2170 Number Theory 1** **3 Cr. Hrs.**

(Lab required) Prime numbers, unique factorization, linear congruences, Chinese remainder theorem, multiplicative functions, primitive roots and quadratic reciprocity. May not be held with the former MATH 2500 or the former MATH 2501. Prerequisite: MATH 2090 or MATH 2091 or [(the former MATH 2350 (C) or the former MATH 2352 (C) or the former MATH 2300 (B) or the former MATH 2301 (B)) and consent of instructor].

**MATH 2180 Real Analysis 1** **3 Cr. Hrs.**

(Lab required) Introduction to metric spaces including connectedness, compactness and continuity; topics in infinite series of numbers, and sequences and series of functions. May not be held with the former MATH 3230. Prerequisite: MATH 2080 (C) or MATH 2081 (C) or the former MATH 2202 (C).

**MATH 2720 Multivariable Calculus** **3 Cr. Hrs.**

Calculus of several variables. For students in one of the following programs: Actuarial Mathematics, Data Science, Statistics (Honours or Majors), Physics (Honours or Majors) Geophysics (Honours or Majors), and Physical Geography. May not be held with the former MATH 2750, the former MATH 2110, MATH 2130, MATH 2150, MATH 2151 or MATH 2721. Prerequisites: (one of MATH 1220, MATH 1300, MATH 1301, or MATH 1310) and (one of MATH 1232, MATH 1690, MATH 1700, MATH 1701, MATH 1710, or the former MATH 1730).

**4.9.3 Mathematics Course Descriptions-3000 Level****MATH 3120 Applied Discrete Mathematics** **3 Cr. Hrs.**

(Lab Required) Sets, groups, graphs, and Boolean algebra. For Engineering students only. May not be held with COMP 2130. Prerequisites: ECE 2220 (C) and MATH 2130 (C).

**MATH 3132 Engineering Mathematical Analysis** **3 Cr. Hrs.**

(Lab required) Vector integral calculus; series of Ordinary differential equations; Fourier series and Partial differential equations. For Engineering and Geophysics students only. May not be held with the former MATH 3740, the former MATH 3800, or the former MATH 3100. Prerequisites: MATH 2130 and MATH 2132.

**MATH 3142 Engineering Mathematical Analysis 4** **3 Cr. Hrs.**

Introduction to discrete mathematics; systems of linear differential equations; complex function theory and applications. For Engineering and Geophysics students only. May not be held with MATH 3110, MATH 3700, MATH 3710, or MATH 3800. Prerequisites: MATH 2130 (C); and MATH 2132 or the former MATH 2110 (C). NOTE: MATH 3132 is highly recommended.

**MATH 3320 Algebra 2** **3 Cr. Hrs.**

Basic structure theory of groups, integral domains and field extensions. Not to be held with the former MATH 3350. Prerequisite: MATH 2020 (C) or MATH 2021 (C) or [the former MATH 3300 (C) and consent of instructor].

**MATH 3322 Algebra 3** **3 Cr. Hrs.**

A continuation of topics in Algebra 1 and Algebra 2. More structure theory of groups, general ring theory, fields and field extensions, Galois theory. Prerequisite: MATH 3320 (C) or [the former MATH 3350 (C) and consent of instructor].

**MATH 3330 Computational Algebra** **3 Cr. Hrs.**

An introduction to the use of computers for symbolic mathematical computation, involving solving nonlinear systems and differential equations. A suitable software package will be used to explore applications. Prerequisite: MATH 2090 (C) or MATH 2091 (C) or the former MATH 2300 (C) or the former MATH 2301 (C) or the former MATH 2350 (C) or the former MATH 2352 (C) or consent of instructor.

**MATH 3340 Complex Analysis 1** **3 Cr. Hrs.**

Analytic functions, Cauchy's theorem and integral formula, series representation of analytic functions, calculus of residues, Rouche's theorem and the principle of the argument. May not be held with the former MATH 3710. Prerequisites: [MATH 2180 (C) or the former MATH 3230 (C)] and [MATH 2150 (C) or MATH 2151 (C) or MATH 2720 (B) or MATH 2721 (B) or the former MATH 2750 (C)].

**MATH 3360 Combinatorics 2** **3 Cr. Hrs.**

Advanced topics in combinatorics, including generating functions, elementary design theory, recurrences, chains and antichains, Polya counting. The course is challenging and is intended for students in mathematically rich disciplines. May not be held with the former MATH 4400. Prerequisite: MATH 2030 (C) or MATH 2031 (C) or the former MATH 3400 (C).

**MATH 3370 Graph Theory 2** **3 Cr. Hrs.**

Advanced topics in graph theory, including matchings and coverings, optimization, factors, flows, extremal graph theory, basic Ramsey theory, connectivity, and spectral graph theory. Selected applications in science and operations research are studied. The course is challenging and is intended for students in mathematically rich disciplines. May not be held with COMP 4340. Prerequisite: MATH 2070 (C) or MATH 2071 (C) or the former MATH 2400 (B) or permission of instructor.

**MATH 3380 Introduction to Projective Planes** **3 Cr. Hrs.**

Affine planes and projective planes, cross ratio, complex projective plane (the great unifier), Desargues' theorem, projective planes over division rings, Pappus' theorem and commutativity, the fundamental theorem for projectivities on a line, introduction of coordinates in a projective plane. May not be held with the former MATH 2552 or the former MATH 3430. Prerequisite: MATH 2020 (C) or MATH 2021 (C) or the former MATH 3300 (C) or the former MATH 3350 (C) or consent of instructor.

**MATH 3390 Introduction to Topology** **3 Cr. Hrs.**

Topological spaces, continuity, connectedness, compactness, separation properties. May not be held with the former MATH 3240. Prerequisite: MATH 2180 (C) or the former MATH 3230 (C) or consent of instructor.

**MATH 3410 Introduction to Mathematical Logic** **3 Cr. Hrs.**

Propositional and first-order logic. Recursion theory. May not be held with the former MATH 4250. Prerequisite: MATH 2020 (C) or MATH 2021 (C) or the former MATH 2202 (C) or the former MATH 2352 (C) or consent of instructor.

**MATH 3420 Numerical Analysis 2** **3 Cr. Hrs.**

Numerical methods for eigenvalue problems, nonlinear systems, initial-value problems, boundary-value problems; finite difference methods for ordinary and partial differential equations; error analysis. Not to be held with the former MATH 3600 or the former MATH 3601. Prerequisites: [MATH 2090 (C) or MATH 2091 (C) or the former MATH 2300 (B) or the former MATH 2301 (B) or the former MATH 2352 (C)] and [MATH 2150 (C) or MATH 2151 (C) or MATH 2720 (B) or MATH 2721 (B) or the former MATH 2750 (C)] and [MATH 2160 (C) or MATH 2161 (C) or the former MATH 2600 (C) or the former MATH 2601 (C)]. Pre- or corequisite: MATH 3440 or the former MATH 2800 or the former MATH 2801.

**MATH 3440 Ordinary Differential Equations 3 Cr. Hrs.**

Theory and applications of ordinary differential equations; existence and uniqueness of solutions, linear systems, simple nonlinear systems. This course is theory-based and is intended for students in mathematically rich disciplines. Not to be held with the former MATH 3800. Prerequisite: MATH 2180 (C) or [(MATH 1300 (B) or MATH 1301 (B)) and (the former MATH 2730 (B) or the former MATH 2731 (B) or the former MATH 2750 (C))].

**MATH 3460 Partial Differential Equations 3 Cr. Hrs.**

Method of characteristics for first order PDEs, wave, beam, heat and Laplace equations, derivation of PDEs, existence and uniqueness, energy estimates, well-posedness, maximum principles, separation of variables. Not to be held with the former MATH 3810. Prerequisites: [MATH 2150 (C) or MATH 2151 (C) (the former MATH 2750 (C)) or ((MATH 2720 (B) or MATH 2721 (B)) and (the former MATH 2730 (B) or the former MATH 2731 (B)))] and [MATH 3440 (C) or the former MATH 3800 (C)].

**MATH 3470 Real Analysis 2 3 Cr. Hrs.**

Functions of bounded variation, Riemann-Stieltjes integration and Lebesgue integration. Not to be held with the former MATH 3740 or the former MATH 3760. Prerequisites: [MATH 2150 (C) or MATH 2151 (C) or MATH 2720 (B) or MATH 2721 (B) or the former MATH 2750 (C)] and [MATH 2180 (C) or the former MATH 3230 (C)].

**MATH 3472 Real Analysis 3 3 Cr. Hrs.**

Fourier series and Fourier transforms; orthogonal systems and L2 theory, convergence and approximation. Multivariable calculus of maps from  $\mathbb{R}^n$  to  $\mathbb{R}^m$ , general chain rule and general notion of derivative, implicit function and inverse function theorems. Not to be held with the former MATH 3740 or the former MATH 3760. Prerequisite: MATH 3470 (C).

**MATH 3480 Set Theory 3 Cr. Hrs.**

Axiomatic set theory. Cardinality, well-ordered sets, ordinal numbers, cardinal numbers. Axiom of Choice. Ordinal and cardinal arithmetic. Transfinite induction and recursion. May not be held with the former MATH 3220. Prerequisite: MATH 2020 (C) or MATH 2021 (C) or the former MATH 2202 (C) or consent of instructor.

**MATH 3490 Optimization 3 Cr. Hrs.**

(Lab required) This course introduces the theory and practice of optimization. Both unconstrained and constrained problems are considered, as well as continuous and discrete optimization. Topics include linear programming, unconstrained optimization, constrained nonlinear optimization and integer programming. Applications to Statistics and Data Science will be explored. Prerequisites: [one of MATH 2090, MATH 2091, MATH 2740, the former MATH 2300, the former MATH 2301, the former MATH 2350, or the former MATH 2352] and [one of MATH 2150, MATH 2151, MATH 2720, MATH 2721, or the former MATH 2750].

**MATH 3610 Introduction to Mathematical Modelling 3 Cr. Hrs.**

An introduction to the principles and techniques involved in the design, development, solution, testing and revision of mathematical models of real world phenomena illustrated through the discussion of case studies. May not be held with the former MATH 3820 or the former MATH 3821. Prerequisite: MATH 2150 (C) or MATH 2151 (C) or MATH 2720 (B) or MATH 2721 (B) or MATH 2130 (B) or consent of instructor.

**4.9.3 Mathematics Course Descriptions-4000 Level****MATH 4240 Advanced Group Theory 3 Cr. Hrs.**

Representation theory of finite groups, presentations of finite and infinite groups, or other topics. Prerequisite: MATH 3322 (C) or the former MATH 3350 (C) or consent of instructor.

**MATH 4260 Abstract Measure Theory 3 Cr. Hrs.**

Lebesgue and abstract measures, measurable functions, convergence theorems, absolutely continuous functions, measure spaces, the Radon-Nikodym theorem, Fubini's and Tonelli's theorems. Not to be held with the former MATH 4750. Prerequisite: MATH 3472 (C) or the former MATH 3740 (B+) or the former MATH 3760 (C).

**MATH 4270 Algebraic Topology 3 Cr. Hrs.**

This course will serve as an introduction to elements of homotopy or homology theory. Not to be held with the former MATH 4230. Prerequisites: [MATH 3320 (C) or the former MATH 3300 (C)] and [MATH 3390 (C) or the former MATH 3240 (C)], or consent of instructor.

**MATH 4280 Basic Functional Analysis 3 Cr. Hrs.**

Banach spaces, Hahn-Banach, open mapping and closed graph theorems, principle of uniform boundedness, linear operators and functionals, dual space,  $L_p$  and  $L_q$  spaces, weak and weak\* topologies, Hilbert spaces and compact operators on a Hilbert space. Not to be held with the former MATH 4750. Prerequisites: [MATH 3472 (C) or the former MATH 3740 (B+) or the former MATH 3760 (C)] and [MATH 3390 (C) or the former MATH 3240 (C)], or consent of instructor.

**MATH 4290 Complex Analysis 2 3 Cr. Hrs.**

Conformal mappings, normal families, harmonic and subharmonic functions, Perron's family, Dirichlet problem and Green's function. Not to be held with the former MATH 4710. Prerequisites: [MATH 3340 (C) or the former MATH 3700 (B+) or the former MATH 3710 (C)] and [MATH 3390 (C) or the former MATH 3240 (C)].

**MATH 4300 Combinatorial Geometry 3 Cr. Hrs.**

Topics in combinatorial geometry, including arrangements of convex bodies, introduction to polytopes, problems in discrete geometry, repeated distances, and geometric graphs. Prerequisite: MATH 3360 (C) or the former MATH 3400 (C) or consent of instructor.

**MATH 4320 Dynamical Systems 3 Cr. Hrs.**

Techniques for the qualitative analysis of nonlinear systems of ordinary differential equations and discrete-time systems. Not to be held with the former MATH 4800. Prerequisite: MATH 3440 (C) or the former MATH 3800 (C).

**MATH 4330 Fundamentals of Approximation Theory 3 Cr. Hrs.**

Theoretical aspects of approximation theory: density, existence, uniqueness; direct and inverse theorems for polynomial approximation. Prerequisites: [MATH 2080 (C) or MATH 2081 (C) or the former MATH 2202 (C)] and [MATH 2160 (C) or MATH 2161 (C) or the former MATH 2600 (C) or the former MATH 2601 (C)], or consent of instructor.

**MATH 4340 Introduction to Algebraic Geometry 3 Cr. Hrs.**

This course will introduce students to the basics of affine and projective varieties through a combination of basic theoretical tools and elementary examples. Prerequisite: MATH 3322 (C) or the former MATH 3350 (C) or consent of instructor.

**MATH 4360 Introduction to Differential Geometry 3 Cr. Hrs.**

Manifolds and submanifolds; vector and tensor fields, Lie brackets and derivatives. Also at least one of the following: exterior differential calculus and Stokes' theorem, introduction to Riemannian geometry, symplectic geometry and hamiltonian mechanics. Not to be held with the former MATH 4730. Prerequisites: [MATH 3472 (C) or the former MATH 3740 (B) or the former MATH 3760 (C)] and [MATH 3390 (C) or the former MATH 3240 (C)].

**MATH 4370 Linear Algebra and Matrix Analysis 3 Cr. Hrs.**

Vector and matrix norms, matrix factorizations, eigenvalues and

eigenvectors, theory of non-negative matrices. Applications to differential equations, math biology, numerical analysis, digital image processing, data mining, GPS, Markov chains, graph theory, etc will be given in this course. Not to be held with the former MATH 4310. Prerequisite: MATH 2090 (C) or MATH 2091 (C) or the former MATH 2300 (B) or the former MATH 2301 (B) or the former MATH 2350 (C) or the former MATH 2352 (C).

**MATH 4380 Mathematical Biology** **3 Cr. Hrs.**

Formulation, analysis and simulation of suitable models in mathematical biology. Applications will be chosen from fields such as population dynamics, epidemiology, ecology, immunology and cellular dynamics. Not to be held with the former MATH 3530. Prerequisite: MATH 4320 (C) or the former MATH 3800 (C) or consent of instructor.

**MATH 4390 Numerical Approximation Theory** **3 Cr. Hrs.**

Computational aspects of approximation by interpolatory polynomials, convolutions, artificial neural networks, splines and wavelets. Prerequisites: [MATH 2150 (C) or MATH 2151 (C) or MATH 2720 (B) or MATH 2721 (B) or the former MATH 2750 (C)] and [MATH 2160 (C) or MATH 2161 (C) or the former MATH 2600 (C) or the former MATH 2601 (C)], or consent of instructor.

**MATH 4440 Numerical Analysis of Partial Differential Equations** **3 Cr. Hrs.**

Finite difference method, mathematical theory of Elliptic PDEs, finite element method, iterative solution of linear systems. Emphasis will be on the error analysis (stability, consistency and convergence) of the various methods. Prerequisites: [MATH 3420 (C) or the former MATH 3600 (C) or the former MATH 3601 (C)] and [MATH 3460 (C) or the former MATH 3810 (C)] and [MATH 3470 (C) or the former MATH 3740 (B) or the former MATH 3760 (C)], or consent of instructor. It is recommended that MATH 4370 be taken prior to or at the same time.

**MATH 4450 Number Theory 2** **3 Cr. Hrs.**

Algebraic number theory, arithmetic geometry and analytic number theory, Diophantine equations, examples such as arithmetic of elliptic curves and Dirichlet L-functions. Not to be held with the former MATH 3450. Prerequisites: [MATH 2020 (C) or MATH 2021 (C) and MATH 2170 (C)] or [(the former MATH 2500 (C) or the former MATH 2501 (C)) and the former MATH 2202 (C) and the former MATH 2750 (C)], or consent of instructor.

**MATH 4460 Partial Differential Equations 2** **3 Cr. Hrs.**

Green's function, Poisson, heat, Schrodinger and wave equations in two and three spatial dimensions, variational characterization of eigenvalues, Fourier and Laplace transforms, introduction to functional analytic techniques in PDEs. Not to be held with the former MATH 4810. Prerequisites: [MATH 3460 (C) or the former MATH 3810] and [MATH 3470 (C) or the former MATH 3740 (B) or the former MATH 3760 (C)], or consent of instructor.

**MATH 4470 Rings and Modules** **3 Cr. Hrs.**

The general theory of (non-commutative) rings, modules and algebras. Prerequisite: MATH 3322 (C) or the former MATH 3350 or consent of instructor.

**MATH 4910 Project Course in Mathematics** **3 Cr. Hrs.**

A research project by the student in consultation with the department head and an appropriate supervising Faculty member. A written report will be required to be submitted by the end of the term. An oral examination may be required. This course is restricted to students in the fourth year of the Honours or Major program in Mathematics and is not available to Graduate Students. This course may not be held for credit with MATH 4900. Prerequisite: Consent of Department.

**MATH 4920 Topics in Mathematics** **3 Cr. Hrs.**

Topics of current interest in Mathematics or Applied Mathematics upon the

interests and requirements of students and faculty, and will include specialized topics not available in regular course offerings. Prerequisite: consent of department.

**4.10 Department of Microbiology**

Head: Deborah Court

Campus Address/General Office: 213 Buller Building

Telephone: 204 474 9372

Email Address: [Deborah.Court@umanitoba.ca](mailto:Deborah.Court@umanitoba.ca)

Website: [umanitoba.ca/faculties/science/departments/microbiology/](http://umanitoba.ca/faculties/science/departments/microbiology/)

**4.10.1 Program Information**

Microbiology is the study of microorganisms such as bacteria, viruses, fungi, protozoa, and algae, and their interactions with the environment. It is also an area of study that plays a pivotal role in understanding other life science disciplines, such as medicine, agriculture, ecology, and pharmacy. Molecular and systems microbiology are part of the program, which spans applied, environmental and medical microbiology. The departments of Microbiology and Chemistry offer joint Honours programs (including Co-op) and joint Four Year Major programs (including Co-op) in biochemistry and biotechnology\* (See Sections 4.2 and 4.4).

(\*As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)

**Microbiology Prerequisite Information**

Students are advised to take courses in the year suggested in the charts below; otherwise difficulties may arise with timetabling and prerequisite requirements. Students are responsible for all prerequisites and corequisites of the courses required or selected in all programs below. Since Chemistry courses form an integral part of all Microbiology programs, students should note that Grade 12 mathematics and chemistry are prerequisite to CHEM 1300. Students will also require Biology 40S (or equivalent) and any Grade 12 mathematics course (or equivalent) for entry to BIOL 1020 (the prerequisite for BIOL 1030).

**Honours Requirements and Options**

**To enter** the Honours program in Microbiology, a student must have completed at least 24 credit hours with a minimum DGPA of 3.00, and also obtained a minimum grade of "B" in MBIO 1010, and a minimum grade of "C+" in CHEM 1310. BIOL 1020, BIOL 1030, STAT 1000 (or STAT 1150) and the 3 credit hours of specified Mathematics or Physics are program requirements and students are strongly encouraged to complete these courses in first year.

**To continue** in the Microbiology Honours program, students must maintain a minimum DGPA of 3.00, and complete a minimum of 9 credit hours during each Fall and Winter Term.

**To graduate** from the Microbiology Honours program students must achieve a minimum DGPA of 3.00 and obtain a minimum grade of "C" on the courses that make up the 120 credit hours of the degree.

Students who wish to elect CHEM 2260, CHEM 2290 or CHEM 2470 as options should note the prerequisites in making a choice of mathematics courses.

CHEM 2210 must be taken before MBIO 2370 (CHEM 2370). Courses (MBIO 2360 and CHEM 2360), (MBIO 2370 and CHEM 2370) are the same and credit cannot be held for both. Microbiology students will normally register in

MBIO 2360 and MBIO 2370, but CHEM 2360 and CHEM 2370 will be regarded as equivalents.

By careful choice of electives, programs may be selected giving emphasis to various areas of Microbiology, e.g., Biochemistry and Molecular Biology or Environmental and Ecological Microbiology. In choosing optional courses, students should be aware of any prerequisite requirements.

#### Four Year Major

**To enter** the Major Degree program in Microbiology, a student must have completed at least 24 credit hours with a minimum DGPA of 2.00, and also obtained a minimum grade of "C+" in MBIO 1010, and CHEM 1310. BIOL 1020, BIOL 1030, STAT 1000 (or STAT 1150) and the 3 credit hours of specified Mathematics or Physics are program requirements and students are strongly urged to complete these courses in first year.

\* Students interested in studying Microbiology should note that Grade 12 mathematics and chemistry are prerequisite to CHEM 1300. Students will also require Biology 40S (or equivalent) and any Grade 12 mathematics course (or equivalent) for entry to BIOL 1020 (the prerequisite for BIOL 1030).

**To continue** in the Microbiology Major Degree, students must maintain a minimum DGPA of 2.00.

**To graduate** from, the 4-year Major degree program in Microbiology, students are required to obtain a minimum DGPA of 2.00.

Potential entrants to this program should also note the following:

Students who wish to elect CHEM 2260, CHEM 2290 or CHEM 2470 as options should note the prerequisites in making a choice of mathematics courses.

Chemistry CHEM 2210 must be taken before MBIO 2370 (CHEM 2370). Courses MBIO 2360 and CHEM 2360, and MBIO 2370 and CHEM 2370 are the same and credit cannot be held for both. Microbiology students will normally register in MBIO 2360 and MBIO 2370, but CHEM 2360 and CHEM 2370 will be regarded as equivalents in the four year Major program.

Students must note course and grade prerequisites when selecting 3000 and 4000 level Microbiology courses.

Microbiology MBIO 4530 is not available in this program without special permission.

By careful choice of electives, programs may be selected giving emphasis to various areas of Microbiology, e.g., Biochemistry and Molecular Biology or Environmental and Ecological Microbiology. In choosing optional courses, students should be aware of any prerequisite requirements.

The listed requirements are minimum requirements. Students are reminded that should they wish to take further courses in Microbiology, they are at liberty to do so within the degree regulations.

#### Honours and Major Co-operative Options

**A co-operative education option is available for both Major and Honours students. Students should refer to [Section 3.5](#) of this chapter for further information on the Co-op programs.**

#### Honours Co-op

**The course, grade requirements and minimum DGPA requirement for entry and continuation in the Co-operative Option are the same as that for regular Honours program.**

**Before beginning their first co-op work term**, students are required to complete the first and second year requirements of the program, in addition to MBIO 2370(CHEM 2370), MBIO 3010 and MBIO 3410.

#### Major Co-op

The course and minimum grade requirements for entry and continuation in the Co-operative Option are the same as those required for the regular Major program. However, the entry and continuation DGPA requirement is set at a minimum of 2.5.

Before beginning their first co-op work term, students are required to complete the first and second year requirements of the program, in addition to MBIO 2370 (CHEM 2370), MBIO 3010 and MBIO 3410.

#### Three Year General

As prescribed with all other faculty regulations in Section 3.2, students in this program must select 18 credit hours of 2000, 3000 and (or) 4000 level courses from each of **two** Science areas. To satisfy the requirement in the area of Microbiology, students must take a minimum of 18 credit hours of Microbiology courses as prescribed in the chart below (subject to the Faculty requirement that of the 36 credit hours in the two advanced level Science areas, at least 6 credit hours must be at the 3000/4000 level.).

Students wishing to elect courses in Microbiology in fulfilment of the requirements for the B.Sc. (General) degree should note the following:

- Students must obtain a grade of "C" or better in the following: MBIO 1010, BIOL 1020, BIOL 1030, CHEM 1300 and CHEM 1310.
- Students are encouraged to elect additional Microbiology courses above the required minimum.
- Microbiology MBIO 2770 and MBIO 2780 (CHEM 2770 and CHEM 2780) are not available in this program.

#### Minor

Students must complete MBIO 1010, CHEM 1300, CHEM 1310, BIOL 1020, BIOL 1030, plus 12 credit hours of Microbiology courses at the 2000 and (or) 3000 level.

#### Biochemistry and Biotechnology\* Programs

The Department of Microbiology, in conjunction with the Department of Chemistry, offers Joint Honours programs, Joint Honours Co-operative Option programs, Joint four year Major programs and Joint four year Major Co-operative Option programs in Biochemistry and Biotechnology.\* **See Sections 4.2** Biochemistry Program and 4.4 Biotechnology Program\* for full details.

(\*As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)

<b>BIOCHEMISTRY – Joint Microbiology and Chemistry Programs:</b> See Section 4.2 Biochemistry	
<b>BIOTECHNOLOGY* – Joint Microbiology and Chemistry Programs:</b> See Section 4.4 Biotechnology	
*As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.	

**NOTES:**

1 MATH 1220 or MATH 1310 may be taken in place of MATH 1300; MATH 1230, MATH 1510, MATH 1520 or MATH 1690 may be taken in place of MATH 1500. MATH 1200 may be used in place of MATH 1240.

2 MBIO 4530 may be selected only by special permission.

3 It is strongly recommended that MBIO 2370 (CHEM 2370) be completed prior to year 3 as it is the prerequisite to many upper level MBIO courses.

4 IMPORTANT: The four year Major program need not be completed in the manner prescribed in the chart above. The chart indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their program.

5 MBIO 1010 may be completed in either year 1 or year 2. It is recommended that it be completed in first year.

6 MBIO 1220 and MBIO 1410 cannot be used to satisfy course requirements in a Major or Honours program.

7 Students in the Co-operative Option must complete MBIO 3010 and MBIO 3410 before their first employment term.

(The number 6 in brackets indicates a 6 credit hour course.)

**Option List for All Microbiology Programs:**

Agroecology: AGECE 2370

Biological Sciences:

BIOL 2242, BIOL 2260, BIOL 2261, BIOL 2300, BIOL 2301, BIOL 2380, BIOL 2381, BIOL 2410, BIOL 2411, BIOL 2420, BIOL 2421, BIOL 3260, BIOL 3290, BIOL 3291, BIOL 3330, BIOL 3370, BIOL 3400, BIOL 3450, BIOL 3452, BIOL 3460, BIOL 3462, BIOL 3470, BIOL 3472, BIOL 3500, BIOL 3501, BIOL 3542, BIOL 3560, BIOL 3561, BIOL 4242, BIOL 4244, BIOL 4246, BIOL 4430, BIOL 4480, BIOL 4540, BIOL 4542, BIOL 4544 (BIOL 3540), BIOL 4554, BIOL 4556, BIOL 4560

Chemistry:

CHEM 2260 (CHEM 2280), CHEM 2290, CHEM 2400 (CHEM 2380), CHEM 2470, CHEM 3390, CHEM 3590, CHEM 3570, CHEM 4590, CHEM 4360, CHEM 4370, CHEM 4620, CHEM 4630, CHEM 4670

Environmental Science: ENVR 2180

Food Sciences: FOOD 4150, FOOD 4280

General Agriculture: AGRI 2180

Pharmacology: PHAC 4030, PHAC 4040

Plant Science: PLNT 3400

Statistics: STAT 2000 or STAT 2150

**4.10.3 Microbiology Course Descriptions-1000 Level****MBIO 1010 Microbiology I****3 Cr. Hrs.**

(Lab Required) Topics will include the definition and history of microbiology, concepts of practical microbiology, prokaryotic cell structure, prokaryotic specialization in gene expression and transfer of genetic information, the role of microbes in environments including the human body, and applications of microbiology to food production and biotechnology. May not be held with MBIO 1011 or the former MBIO 2100 (MBIO 2101) or MBIO 2110 (MBIO 2111). Prerequisite: BIOL 1020.

**MBIO 1220 Essentials of Microbiology****3 Cr. Hrs.**

An introduction to the essential principles of microbiology including immunity, with emphasis on microbial disease. Not available to students who have previously obtained credit in or are currently enrolled in MBIO 1010 or MBIO 1011 (or the former MBIO 2100 or MBIO 2101). NOTE: MBIO 1220 is intended for students planning to enter the College of Nursing or other health care or related programs. Students that have completed MBIO 1010 but wish to take MBIO 1220 to satisfy Faculty of Nursing entrance requirements must obtain departmental permission prior to registering for MBIO 1220. MBIO 1220 cannot be used to satisfy the requirements of the Microbiology Honours or Major degree programs. MBIO 1220 can be used as an elective course in any Science program.

**MBIO 1410 Introduction of Molecular Biology****3 Cr. Hrs.**

An introduction to the mechanisms, themes and patterns that are present in the molecular biology of organisms ranging from bacteria to humans. The basic applications of molecular biology to disciplines such as medical microbiology, criminology, genetic fingerprinting, genome sequencing, and bioinformatics will be discussed. Not available to students who have previously obtained credit in, or are currently enrolled in the following courses: the former MBIO 2410, BIOL 2500, BIOL 2501, MBIO 2020, MBIO 2021, the former MBIO 2100, MBIO 2101, MBIO 3410 or MBIO 3411. Prerequisite: one of grade 12 Biology, grade 12 Chemistry, BIOL 1000, CHEM 1000, or higher level Chemistry or Biology course; or consent of department. NOTE: MBIO 1410 is intended for students outside of Microbiology and Biological Sciences who require an introduction to molecular biology, such as those with interests in bioinformatics, biophysics, or bioengineering. Although this course may be used as an elective in an Arts or Science program, it may not be used to meet a program requirement for an Honours or Major program in Microbiology.

**4.10.3 Microbiology Course Descriptions-2000 Level****MBIO 2020 Microbiology II****3 Cr. Hrs.**

(Lab Required) Topics will include bacterial growth, chromosome replication, the specifics of transcription and translation and their application to the regulation of microbial gene expression. Families of bacterial and animal viruses, their modes of reproduction and pathogenicity will be discussed. Mutation and gene transfer in bacteria will be introduced. May not be held with MBIO 2021 or MBIO 2110, MBIO 2111. Prerequisites: MBIO 1010 or MBIO 1011 and one of CHEM 1310, CHEM 1311 or CHEM 1320 (C).

**MBIO 2230 Introductory Biogeochemistry****3 Cr. Hrs.**

The roles and interactions of biological, chemical and geological reactions in determining the composition of the environment. Microorganisms as major agents of biogeochemical change and their roles in the element cycles will be especially emphasized. Not available to students who have

previously obtained credit in MBI0 4320 or MBI0 4440 or are currently registered in MBI0 4440. Prerequisite: one of MBI0 1010, MBI0 1011, BIOL 1030, BIOL 1031 (C); and CHEM 1310 or CHEM 1311 (C).

**MBIO 2360 Biochemistry 1: Biomolecules and an Introduction to Metabolic Energy** **3 Cr. Hrs.**

(Lab Required) An introductory course dealing with kinds of molecules encountered in biochemistry, and the concept of metabolic energy as a product of catabolism and a requirement for biosynthesis. This course is also given in Chemistry as CHEM 2360. May not be held with MBI0 2361, MBI0 2770, CHEM 2360, CHEM 2361, CHEM 2860, or CHEM 2770. Prerequisites: CHEM 1310 or CHEM 1311 (C+); and one of BIOL 1030, BIOL 1031 (C). NOTE: Students may hold this course for credit in the B.Sc. General Degree program, but may not use it to fulfill the minimum requirement of 12 credit hours in 2000 level Chemistry (pre-September 2008 regulations). Those students following the new B.Sc. General Degree regulations (effective 2008-09) are able to use this course as advanced level credit in both Microbiology and Chemistry.

**MBIO 2370 Biochemistry 2: Catabolism, Synthesis, and Information Pathways** **3 Cr. Hrs.**

(Lab Required) An introductory course dealing with the basic metabolic processes that occur in living cells, including the production and use of metabolic energy, the breakdown and synthesis of biomolecules; the synthesis of DNA, RNA and proteins; and the regulation of these processes. This course is also given in Chemistry as CHEM 2370. May not be held with MBI0 2371, MBI0 2780, CHEM 2370, CHEM 2371, or CHEM 2780. Prerequisites: CHEM 2210 (C); and one of MBI0 2360, MBI0 2361, CHEM 2360 or CHEM 2361 (C). NOTE: Students may hold this course for credit in the B.Sc. General Degree program, but may not use it to fulfill the minimum requirement of 12 credit hours in 2000 level Chemistry (pre-September 2008 regulations). Those students following the new B.Sc. General Degree regulations (effective 2008-09) are able to use this course as advanced level credit in both Microbiology and Chemistry.

**MBIO 2420 Introductory Virology** **3 Cr. Hrs.**

An introduction to the general principles of eukaryotic virology, with emphasis on animal virus systems. These principles will be reinforced and expanded to deal with specific viruses that cause acute and chronic infections in humans. Topics to be discussed include the molecular structure of viruses; the basic multiplication strategies of the major virus families; mechanisms of host immune evasion and viral latency, persistence, and oncology. Prerequisite: MBI0 1010

**MBIO 2770 Elements of Biochemistry 1** **3 Cr. Hrs.**

(Lab Required) Basic concepts of biochemistry including the properties of biomolecules (amino acids and proteins, enzymes, carbohydrates, lipids, and nucleic acids) and aspects of energy production in cells. For students in Agricultural and Food Sciences, Human Ecology, and four-year Biological Sciences programs in Science. May not be used as part of an Honours, Major, General, or Minor program in Chemistry or in Microbiology. This course is also given in Chemistry as CHEM 2770. May not be held with CHEM 2770, MBI0 2360, MBI0 2361, CHEM 2360, CHEM 2361, or CHEM 2860. Prerequisites: CHEM 1310 or CHEM 1311 (C) or CHEM 1320 (C), plus six credit hours of university level biological sciences.

**MBIO 2780 Elements of Biochemistry 2** **3 Cr. Hrs.**

(Lab Required) The continuation of MBI0 2770, dealing with nitrogen and lipid metabolism, representative biosynthetic pathways, and synthesis and importance of DNA, RNA and proteins. For students in Agricultural and Food Sciences, Human Ecology, and four-year Biological Sciences programs in Science. May not be used as part of an Honours, Major, General, or Minor program in Chemistry or Microbiology. This course is also given in Chemistry as CHEM 2780. May not be held with CHEM 2780, MBI0 2370, MBI0 2371, CHEM 2370, or CHEM 2371. Prerequisite: A grade of "C" or better in one of MBI0 2770, CHEM 2770, MBI0 2360, MBI0 2361, CHEM 2360, or CHEM 2361.

**4.10.3 Microbiology Course Descriptions-3000 Level**

**MBIO 3000 Applied Biological Safety** **3 Cr. Hrs.**

A comprehensive overview of (i) applied biological safety in research and industrial environments and (ii) the disease-causing features of relevant infectious agents and considerations for their containment. The course consists of lectures and demonstration components. Prerequisite: MBI0 1010 (MBIO 1011)(C) or the former MBI0 2100 (or equivalent MBI0 2101) (C); and one of CHEM 1310, CHEM 1311, CHEM 1320 or permission of instructor. Check with department for availability.

**MBIO 3010 Mechanisms of Microbial Disease** **3 Cr. Hrs.**

A consideration of host-parasite relationships, an introduction to the immune response, microbial pathogenesis, viral diseases, clinical microbiology and public health, and an introduction to antimicrobial agents. May not be held with MBI0 3011. Prerequisites: MBI0 2020 (MBIO 2021)(C) or the former MBI0 2100 or former MBI0 2101 (C).

**MBIO 3030 Microbiology III** **3 Cr. Hrs.**

(Lab Required) The course will include an introduction to microbial growth and genomics approaches used for the analysis of microbial metabolism. Using these tools, the physiology of microbial cell walls, transport, and motility, as well as microbial metabolism as related to ATP production, respiration, fermentation and carbon fixation will be discussed. May not be held with MBI0 3031 or the former MBI0 2100. Prerequisites: MBI0 2020 (MBIO 2021)(C); and one of MBI0 2370, MBI0 2371, CHEM 2370, CHEM 2371 (C); or consent of instructor.

**MBIO 3280 Microbial Communities** **3 Cr. Hrs.**

(Lab Required) This course will examine microbial communities, which will be discussed in terms of their composition, physiological adaptations and their effects on their abiotic and biological surroundings. Topics will include nutrient cycling, biodegradation and adaptation to extreme environments, and the applications arising from these microbial functions. Methods for quantitation of microbial biomass and biological activity will be discussed. This course may not be held for credit with MBI0 2280. Prerequisites: both MBI0 1010 (MBIO 1011)(C) and CHEM 1310 (CHEM 1311)(C); or MBI0 2100 (MBIO 2101)(C). MBI0 2020 (MBIO 2020, MBI0 2110) and MBI0 2410 are recommended prerequisites.

**MBIO 3410 Molecular Biology** **3 Cr. Hrs.**

A rigorous treatment of the foundations of modern day molecular biology as it pertains to molecular disease, gene and cell manipulation, and cellular controls. May not be held with MBI0 3411. Prerequisites: One of MBI0 2370, MBI0 2371, CHEM 2370, CHEM 2371, MBI0 2780, or CHEM 2780 (C); and a C or better in one of MBI0 2020 (MBIO 2021), MBI0 2110 (MBIO 2111), BIOL 2520 (BIOL 2521, ZOOL 2280, ZOOL 2281) or BIOL 2500 (BIOL 2501, BOTN 2460, BOTN 2460).

**MBIO 3430 Molecular Evolution** **3 Cr. Hrs.**

An analysis starting with prebiotic evolution, progressing through the elaboration of macromolecules and examining their adaptation to their function as cellular components. Proteins, carbohydrates, and nucleic acids as structural, catalytic, and genetic elements in evolution of living systems. Prerequisite: A "C" or better in one of: MBI0 2020, MBI0 2021, the former MBI0 2110, the former MBI0 2111, BIOL 2500, BIOL 2501, the former BOTN 2460, the former BOTN 2461, PLNT 2520, BIOL 2520, the former ZOOL 2280, the former ZOOL 2281, MBI0 2370, MBI0 2371, CHEM 2370, CHEM 2371, MBI0 2780 or CHEM 2780.

**MBIO 3450 Regulation of Biochemical Processes** **3 Cr. Hrs.**

Mechanisms of regulation of enzyme activity, including allostery, control of selected biosynthetic and degradative pathways and regulation of gene expression. Contact department regarding availability. May not be held with MBI0 3451. Prerequisites: MBI0 2020 (MBIO 2021) or MBI0 2110 (MBIO 2111) (C); and one of MBI0 2370, MBI0 2371, CHEM 2370, or CHEM 2371 (C); or consent of the department.

**MBIO 3460 Membrane and Cellular Biochemistry** **3 Cr. Hrs.**

(Lab Required) Isolation, fractionation, structure and function of cellular membranes and subcellular components. The central role of these elements in the biochemistry of cellular processes will be stressed. May not be held with MBI0 3461. Prerequisites: One of MBI0 2370, MBI0 2371, CHEM 2370, or CHEM 2371 (C).

**MBIO 3470 Microbial Systematics 3 Cr. Hrs.**

(Lab Required) Characterization and classification of the major group of micro-organisms. Bases for divisions and the relatedness among organisms will be studied. Laboratory work on the identification of representative species. Prerequisite: MBIO 3030 (MBIO 3031) or MBIO 2110 (MBIO 2111) (C).

**MBIO 3600 Molecular Microbiology Techniques 3 Cr. Hrs.**

A lab based course, intended to teach the fundamental techniques required to work in a modern molecular microbiology lab. Students will develop a thorough understanding of the theory underpinning the techniques introduced in this course, laboratory skills in current molecular microbiology techniques, and application of techniques to investigate scientific questions, such as the identification of unknowns. Evaluation will emphasize successful completion of protocols and presentation of results, with an emphasis on scientific writing. May not be held with the former MBIO 4600, MBIO 4601, or MBIO 4030 when the topic was Advanced Microbial Genetics Lab. Prerequisite: MBIO 3410 or MBIO 3411.

**MBIO 3980 Work Term 1 0 Cr. Hrs.**

Work assignments in business, industry or government for students registered in the Microbiology Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only). Prerequisite: MBIO 2370 (MBIO 2371) or CHEM 2370 (CHEM 2371).

**MBIO 3990 Work Term 2 0 Cr. Hrs.**

Work assignments in business, industry or government for students registered in the Microbiology Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

**4.10.3 Microbiology Course Descriptions-4000 Level****MBIO 4020 Immunology 3 Cr. Hrs.**

Topics will include antigens, antibodies, antigen-antibody reactions, immunogenetics, regulation of immune reactions, complement, hypersensitivities, autoimmunity, immunodeficiencies, transplantation and tumour immunology. May not be held with the former MBIO 4010, the former MBIO 4011, or MBIO 4021. Prerequisite: MBIO 3010 or MBIO 3011.

**MBIO 4030 Special Topics in Microbiology 3 Cr. Hrs.**

Microbiology is a very broad field that encompasses a wide range of specialized topics. In this course, students can pursue a specific topic in detail through lectures, assigned readings, seminars and research projects. The course is normally restricted to third and fourth year Honours and Major students. Topics to be covered by the course shall be decided by the instructor(s) in consultation with the student(s) and with the approval from the Department. Grades are based on written assignments and reports. Evaluation may also include oral presentation and poster presentation(s). Prerequisite: Consent of Department.

**MBIO 4032 Special Topics in Microbiology 3 Cr. Hrs.**

(Lab required) Microbiology is a very broad field that encompasses a wide range of specialized topics. In this course, students can pursue a specific topic in detail through laboratory-based research projects and may include lectures, assigned readings, and presentation of seminars. The course is normally restricted to third and fourth year Honours and Major students in Microbiology, Biochemistry, and Genetics. Topics to be covered by the course shall be decided by the instructor(s) in consultation with the student(s) and with the approval from the Department. Prerequisite: Consent of Instructor.

**MBIO 4410 Virology 3 Cr. Hrs.**

A comprehensive examination of fundamental properties of viruses, virus taxonomy, and the different ways in which viruses replicate. The ways viruses cause disease and experimental methods used in virology also will be examined. May not be held with MBIO 4411, or for credit by students who have already taken MMIC 7010. Prerequisites: MBIO 3010 or MBIO 3011 (C); and MBIO 3410 or MBIO 3411 (C).

**MBIO 4440 Systems Microbiology: from Genomes to Life 3 Cr. Hrs.**

(Lab Required) The purpose of this course is to use knowledge of the components of the bacterial cell to synthesize an understanding of the

growth of microbes and their adaptation to their environments. The most recent research tools and systems biology approaches will be discussed. This course may not be held for credit with MBIO 3440. Prerequisites: MBIO 3030 (MBIO 3031)(C); or the former MBIO 2110 (MBIO 2111)(C); and one of MBIO 2370, MBIO 2371, CHEM 2370, CHEM 2371(C).

**MBIO 4480 Microbes in our Environment 3 Cr. Hrs.**

(Lab Required) A course investigating the diversity of roles microbes play in our immediate environment, and how they affect it. Environments to be examined may include the human body, waste treatment facilities and extreme environments. Molecular tools to study the community structure and roles of individual organisms will also be discussed. This course may not be held for credit with MBIO 3480 or MBIO 4320. Prerequisites: MBIO 3030 (MBIO 3031)(C); or the former MBIO 2110 (MBIO 2111)(C); and one of MBIO 2370, MBIO 2371, CHEM 2370, CHEM 2371(C).

**MBIO 4520 Industrial Bioprocesses 3 Cr. Hrs.**

(Lab Required) Bioprocesses for a range of commercially important healthcare and industrial products including antibiotics, vaccines, steroids, therapeutic recombinant proteins, monoclonal antibodies, and ethanol will be discussed. Other topics will include bioreactor design, metabolic engineering, applied genetic engineering and animal cell technology. This course may not be held for credit with MBIO 4510. Prerequisites: MBIO 3030 (or one of MBIO 2100 or MBIO 2101) (C); and one of MBIO 2370, MBIO 2371, CHEM 2370, CHEM 2371 (C).

**MBIO 4530 Project in Microbiology 6 Cr. Hrs.**

(Lab Required) A research project chosen in consultation with the department head, and supervised by a staff member. A written report is normally required. The course is available only to final year Honours students in Microbiology, the Joint Microbiology-Chemistry programs, or the Genetics program. May not be held with CHEM 4710.

**MBIO 4540 Biological Energy Transduction 3 Cr. Hrs.**

Biochemistry of biological processes involving interconversion of different forms of energy such as oxidative phosphorylation, membrane transport and contractile processes. May not be held with MBIO 4541. Prerequisite: MBIO 2020 (MBIO 2021) or MBIO 2110 (MBIO 2111) (C); and one of MBIO 2370, MBIO 2371, CHEM 2370, or CHEM 2371(C); or consent of the department. MBIO 3030 (MBIO 3031) is recommended as a prerequisite to this course.

**MBIO 4602 Molecular Genetics of Prokaryotes - Lectures 3 Cr. Hrs.**

A detailed examination of replication, expression, mutability, repair and transposition of DNA in bacteria and their viruses. May not be held with the former MBIO 4600 or MBIO 4601. Prerequisites: [one of MBIO 2020, MBIO 2021, the former MBIO 2110, or the former MBIO 2111] and [one of MBIO 2370, MBIO 2371, CHEM 2370, or CHEM 2371]. BIOL 2500 or BIOL 2501 is recommended.

**MBIO 4612 Molecular Genetics of Eukaryotes - Lectures 3 Cr. Hrs.**

A comprehensive study dealing with replication and expression of DNA, genome structure, and the involvement of genes in diseases such as cancer. May not be held with the former MBIO 4610 or MBIO 4611. Prerequisites: [one of MBIO 2020, MBIO 2021, the former MBIO 2110, or the former MBIO 2111] and MBIO 3410 or MBIO 3411. BIOL 2500 or BIOL 2501 is recommended.

**MBIO 4670 Applied Molecular Biology H 3 Cr. Hrs.**

(Lab Required) The overall objective of this course is to introduce and describe current molecular techniques and their application to biological problems. These include, but are not limited to basic gene cloning, mutagenesis, and over-expression. Priority will be given to Science Honours students. May not be held with MBIO 4672, or the former MBIO 4570, MBIO 4581 or the former MBIO 4580. Prerequisites: MBIO 3410 or MBIO 3411 (C).

**MBIO 4672 Applied Molecular Biology 3 Cr. Hrs.**

The overall objective of this course is to introduce and describe the current molecular techniques and their application to biological problems. These include, but are not limited to, basic gene cloning, mutagenesis and over-expression. May not be held with MBIO 4670, the former MBIO 4570, MBIO 4581 or the former MBIO 4580. Prerequisite: MBIO 3410 or MBIO 3411 (C).

**MBIO 4700 Computational Molecular Microbiology 3 Cr. Hrs.**

The introduction to bioinformatics concepts achieved by applying computational tools to analyse sequence/molecular data relevant to Microbiology. The course will introduce existing bioinformatics tools that deal with biological databases, sequence alignment, gene and protein structure prediction, molecular phylogenetics, genomics and proteomics. May not be held with MBIO 4030 when the topic was Applied Bioinformatics Resources for Microbial Based Research. Prerequisite: a "B" or better in MBIO 3410 or MBIO 3411.

**MBIO 4980 Work Term 3 0 Cr. Hrs.**

Work assignments in business, industry or government for students registered in the Microbiology Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

**MBIO 4990 Work Term 4 0 Cr. Hrs.**

Work assignments in business, industry or government for students registered in the Microbiology Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

#### 4.11 Department of Physics and Astronomy

Head: Robert Stamps

Campus Address/General Office: 301 Allen Building

Telephone: 204 474 9817

Email Address: [physics@umanitoba.ca](mailto:physics@umanitoba.ca)

Website: <http://www.physics.umanitoba.ca/>

##### 4.11.1 Program Information

Physics is the discipline that by experiment and logical analysis examines the laws of nature that form the basis for all relationships and interactions between matter and energy. Knowledge of physics is also essential in other natural sciences, such as chemistry and geology, and to professions such as engineering, medicine and dentistry. Astronomy, the other focus of this department, examines the universe, the earth and the planets, as well as phenomena such as quasars, pulsars, comets, and asteroids; a planetarium and an astronomical observatory are part of this program. In both Physics and Astronomy mathematical skills are developed simultaneously.

The Department of Physics and Astronomy and the Department of Electrical and Computer Engineering have defined focus areas of study within their own programs. Students taking the courses recommended for these focus areas will find it easier to transfer between programs in Physics and Astronomy and Electrical and Computer Engineering programs. Students interested in obtaining more information about transferring to a Physics program from Electrical Engineering should consult with the Head of the Physics department.

##### Honours

To enter the Honours programs in Physics and Astronomy, a student must have completed at least 24 credit hours with a minimum DGPA of 3.00, and also obtained a minimum grade of "B" in PHYS 1070, or a "B+" in PHYS 1030. Students are strongly encouraged to complete MATH 1300, MATH 1500, and MATH 1700 in Year 1. Not only are these courses required in the Physics and Astronomy programs, they are required prerequisites to several second year Physics and Astronomy required courses.

**To continue** in the Physics and Astronomy Honours program, students must maintain a minimum DGPA of 3.00, and complete a minimum of 9 credit hours during each Fall and Winter Term.

**To graduate** with the B. Sc. Honours degree, a student must achieve a minimum DGPA of 3.00 and minimum grade of "C" in each course that contributes to the 120 credit hours of the degree.

There are a number of awards — the Coish, the C.P. Loewen, the Neamtan, the Roulston, and the Sen Scholarships — available in this program.

##### Joint Honours

The Department of Physics and Astronomy offers joint honours programs in conjunction with the Departments of Mathematics, Computer Science, and Chemistry.

To enter the Joint Honours Mathematics-Physics program the student must have a minimum grade of "B" in: MATH 1232 or MATH 1690 or a minimum grade of "A" in MATH 1700, PHYS 1050 (or "B+" in PHYS 1020) and PHYS 1070.

To enter the Joint Honours Computer Science-Physics program, the student must have a minimum grade of "B" in: PHYS 1050 (or "B+" in PHYS 1020), PHYS 1070, MATH 1300, MATH 1500 (or equivalent), MATH 1700 (or equivalent), and COMP 1020.

To enter the Joint Honours Chemistry-Physics program, the student must have a minimum grade of "B" in: PHYS 1050 (or "B+" in PHYS 1020), PHYS 1070, CHEM 1300, CHEM 1310, MATH 1500 and MATH 1700.

##### Double Honours

The Department of Physics and Astronomy offers a double honours degree in conjunction with the Biochemistry program.

##### Four Year Major

The program is intended for students who wish to learn Physics as part of a general education, or combine Physics with other disciplines. There are many options with this degree which might include a career in education, high technology, business, or science journalism. The large number of electives will allow the students to obtain significant background in another field such as Chemistry, Life Sciences, Computer Science, Mathematics, Physical Geography, Geophysics or Geology. In some cases, these can be recognized formally as a minor or part of a double major program.

**To enter** the four year Major program in Physics and Astronomy, a student must have PHYS 1050 (C+) or PHYS 1020 (B). In addition, students must have satisfied the faculty requirements for entry to the four year Major program. Students are strongly encouraged to complete PHYS 1070 or PHYS 1030 as well as MATH 1300, MATH 1500, and MATH 1700 in Year 1. Not only are they required courses in the Physics and Astronomy programs, these courses are required prerequisites to several required second year Physics and Astronomy courses.

##### Honours and Major Co-operative Options

A co-operative education option is available to both Major and Honours students. Students should refer to [Section 3.5](#) of this chapter for further information on the Co-op programs.

##### Honours Co-op

The course, grade requirements and the minimum DGPA requirement for entry and continuation in the Co-operative Option are the same as that for the regular Honours program.

##### Major Co-op

The course and minimum grade requirements for entry and continuation in the Co-operative Option are the same as those required for the regular Major program. However, the entry and continuation DGPA requirement is set at a minimum of 2.5.

**Three Year General**

As prescribed with all other faculty regulations in Section 3.2, students in this program must select 36 credit hours of 2000 and (or) 3000 level courses from **two** Science departments. To satisfy the requirement in the Department of Physics and Astronomy, students must select a minimum of 18 credit hours from the list in the chart below.

Variations in any of the programs listed above may be possible, but must be approved by the head of the department and the Science general office.

**4.11.2 Physics and Astronomy Program Charts**

4.11.2 Physics and Astronomy			
YEAR 1	YEAR 2	YEAR 3	YEAR 4
<b>HONOURS: Astronomy and Astrophysics</b> <sup>1</sup> (including Co-operative Option) 120 CREDIT HOURS

<b>MINOR</b>	
PHYS 1050 (C) (or PHYS 1020 (C+)) and PHYS 1070 (C) (or PHYS 1030 (C+))	A minimum of 12 credit hours of 2000, 3000, and (or) 4000 level Physics or Astronomy courses.
<b>JOINT HONOURS: PHYSICS – CHEMISTRY</b> refer to <a href="#">section 4.5.5</a>	
<b>JOINT HONOURS: PHYSICS – COMPUTER SCIENCE (including Co-operative Option)</b> refer to <a href="#">section 4.6.4</a>	
<b>JOINT HONOURS: PHYSICS – MATHEMATICS</b> refer to <a href="#">section 4.9.2.8</a>	

**NOTES:**

<sup>1</sup> Students must achieve a minimum grade of "C" in all courses contributing to the Honours program.

<sup>2</sup> PHYS 1050 and PHYS 1070 are recommended. MATH 1220 may be taken in place of MATH 1300; MATH 1230 or MATH 1510 or MATH 1520 may be taken in place of MATH 1500; MATH 1232 or MATH 1710 may be taken in place of MATH 1700; MATH 1690 may be taken in place of MATH 1500 and MATH 1700.

<sup>3</sup> Although they are not required courses in the Physics programs, MATH 2080, MATH 2180, and MATH 3340 are recommended electives for the Physics Honours and Four Year Major degrees.

<sup>4</sup> Students who do not take PHYS 1070 or PHYS 1030 in Year 1 must postpone PHYS 2600 until Year 3. PHYS 2260, PHYS 2610 and PHYS 2650 may be taken in Year 2 or Year 3 if the respective prerequisites are met.

<sup>5</sup> Students who have already taken COMP 1010 before joining the program may count COMP 1010 in lieu of COMP 1012. However, students who have not taken COMP 1010 before entering the program must then take COMP 1012.

<sup>6</sup> Students may take STAT 1000 and STAT 2000 in lieu of STAT 1150.

**IMPORTANT:** The Honours and four year Major program need not be completed in the manner prescribed in the chart above. The chart indicates the recommended arrangement of the required courses and is meant to be a guide around which students can plan their program (Letters in brackets refer to minimum prerequisite standing required for further study. The number 6 in brackets indicates a 6 credit hour course).

**4.11.3 Astronomy Courses****ASTR 1810 Introduction to Astronomy: The Magnificent Universe** **3 Cr. Hrs.**

(Lab Required) This introductory astronomy course surveys our magnificent Universe. The topics covered in this course outline the properties of stars and planets that can be observed and the physics necessary to interpret these observations. It also includes an introduction to galaxies and cosmology. Using lectures and laboratory sections, it provides an astronomy background and introduction to the scientific method. It ranges from introductory physical background to considering current research problems. This course is taught with algebra and trigonometry used frequently. May not be held with the former PHYS 1810. Prerequisites: (one of Physics 40S, PHYS 0900 (P), or equivalent) and (70% or better in one of Pre-calculus Mathematics 40S, Applied Mathematics 40S, or equivalent). It is strongly recommended that students attain a minimum of 70% as the average of their marks in Physics 40S and Pre-calculus Mathematics 40S.

**ASTR 1830 Life in the Universe** **3 Cr. Hrs.**

This descriptive, general interest course explores the topic of life in the universe. Some of the following topics will be covered. (1) Some astronomy fundamentals (gravity, light). (2) The solar system (an introduction to the solar system, the formation of the solar system, the origin of life on Earth, extremophiles, the conditions needed for life, possible locations for life in the solar system). (3) Exoplanets (discovery methods, properties of detected Exoplanets, the Habitable Zone). (4) Star system formation (pre-stellar disks, planetary migration). (5) The Interstellar medium (nebulae, molecular clouds). (6) Our Milky Way galaxy as an environment for life and the Drake Equation. (7) The Search for Extra Terrestrial Intelligence (SETI). This course is qualitative with simple arithmetic and trigonometry used occasionally. May not be held with the former PHYS 1830

**ASTR 2000 Foundations of Astrophysics** **3 Cr. Hrs.**

This course covers the foundations of astrophysics, with emphasis on the core physical principles and processes that govern astronomical phenomena. The course emphasizes how the physics of matter, radiation, gravity, magnetic fields, and the interaction between light and matter can be used to understand a range of astrophysical phenomena, including fundamental processes, fascinating energetic objects, and topics at the forefront of modern research. Prerequisites: (a grade of "C" or better in one of PHYS 1070, PHYS 1071, or PHYS 2152) or (a "C+" or better in PHYS 1030 or PHYS 1031) and (a "C" or better in one of MATH 1232, MATH 1690, MATH 1700, MATH 1701, MATH 1710, or the former MATH 1730) or permission of the department. ASTR 1810 is recommended.

**ASTR 2070 Observational Astronomy Techniques** **3 Cr. Hrs.**

(Lab Required) Students will learn the basic astronomy tools and practical concepts pertaining to observational astronomy. Lecture topics include spectroscopy, the optics of mirrors and lenses relevant to telescopes, types of telescopes, and factors that affect the quality of astronomical observations. The practical aspects include observational project development, and hands-on telescope experience using the University of Manitoba's Ewen Campus Observatory (ECO) and the Glenlea Astronomical Observatory (GAO) as well as smaller 8-inch portable telescopes. May not be held with the former PHYS 2070. Prerequisites: (a "C" or better in one of PHYS 1070, PHYS 1071, or PHYS 2152) or (a "C+" or better in PHYS 1030 or PHYS 1031) and (a "C" or better in one of MATH 1232, MATH 1690, MATH 1700, MATH 1701, MATH 1710, or the former MATH 1730) and (one of ASTR 1810, the former PHYS 1810, ASTR 1830, the former PHYS 1830, or ASTR 2000) or permission of the department.

**ASTR 3070 Observational Astronomy Project** **3 Cr. Hrs.**

(Lab Required) Students will learn to develop and execute an observational research project. Students will choose their research topic with the constraint that the data be collected using the University of Manitoba's Astronomical Observatory at Glenlea Astronomical Observatory and the Ewen Campus Telescopes. The optical observational data will be supplemented by archival data from professional research telescopes such as the Hubble Space Telescope, Chandra X-ray Observatory and others. The course covers the determination of observational constraints, the use of filters, methods of data analysis, and interpretation of results. The research project will be written into a report and presented. Not to be held with the former PHYS 2070. Prerequisite: ASTR 2070 or permission of the department.

**ASTR 3180 Stars** **3 Cr. Hrs.**

This course provides an overview of the physics of stars, including all phases of stellar evolution: from star formation, to the main-sequence phase, to star death, to the formation of degenerate or compact remnants such as white dwarfs, neutron stars and black holes. Topics include radiative transfer, stellar structure and atmosphere, nuclear fusion, stellar evolution, degenerate stars, and other exotic forms of compact stellar remnants. May not be held with the former PHYS 3180. Prerequisite: ASTR 2000 or permission of the department.

**ASTR 3230 The Phenomenology of Galaxies** **3 Cr. Hrs.**

This course investigates galaxies from the perspective of recent observational data, exploring characteristics that theories have yet to explain. Topics include sources of their radiation, such as stars, gas and dust; their structure and kinematics, which indicate the existence of dark

matter; and their formation and evolution, which has implications for cosmological studies. May not be held with the former PHYS 4230.

Prerequisite: ASTR 2000 or permission of the department. ASTR 2070 or ASTR 3180 is recommended.

#### **ASTR 4020 Cosmology and Black Holes 3 Cr. Hrs.**

Topics include static solutions of Einstein's equations, gravitational waves, static models for stars (white dwarfs, neutron stars), dynamic models for stars (Birkhoff theorem, black holes), and cosmology (Robertson-Walker metric, Friedmann equations). Further topics discussed in the course are cosmic inflation, dark matter and energy, as well as large-scale structure of the universe. May not be held with the former PHYS 4020. Prerequisite: PHYS 4010.

#### **ASTR 4100 High-Energy Astrophysics 3 Cr. Hrs.**

This course provides an overview of the field of high-energy astrophysics and of high-energy missions, with emphasis on X-ray and gamma-ray astrophysical sources and relevant radiation processes. Radiation and high-energy processes include synchrotron radiation, bremsstrahlung, Inverse Compton scattering, pion decay, and particle acceleration. Astrophysical sources include accreting compact objects, supernovae and their remnants, gamma-ray bursts, and clusters of galaxies. The course can include topics relevant to nuclear astrophysics and will train students in writing observing proposals for high-energy facilities. May not be held with PHYS 4300 when the topic is "High-Energy Astrophysics". Prerequisites: (PHYS 2386 or the former PHYS 2380) and PHYS 2600 and PHYS 3670. ASTR 2000 is recommended.

#### **ASTR 4200 Radio Astronomy 3 Cr. Hrs.**

This course will provide an introduction to observational radio astronomy and processes in radio astrophysics. Topics will include: an introduction to radio astronomy; basic radiative transfer; blackbody radiation and radiation from an accelerated charge; radio telescopes, receivers, and interferometers; thermal continuum sources (e.g., HII regions); non-thermal continuum sources (e.g., radio galaxies); pulsars; and spectral-line sources (e.g., the 21 cm line, radio recombination lines, and rotational energy transitions in simple molecules). May not be held with PHYS 4300 when the topic taught is "Radio Astronomy." Prerequisites: (PHYS 2386 or the former PHYS 2380) and PHYS 2600 and PHYS 3670. ASTR 2000 is recommended.

#### **ASTR 4400 Magnetohydrodynamics, Astrophysical Plasmas, and the Interstellar Medium 3 Cr. Hrs.**

This course develops a theoretical understanding of interstellar magnetic fields for a diverse range of astrophysical objects, processes, and phenomena. The theoretical aspects of magnetohydrodynamics (MHD), including waves, shocks, instabilities, and turbulence are discussed. MHD and plasma physics are applied to the magneto-ionic interstellar medium of our galaxy, including supernova remnants. Magnetic fields in molecular clouds and cores are examined, with emphasis on their role in star formation. The course also develops a theoretical foundation for the physics of cosmic ray diffusion and acceleration. Prerequisites: PHYS 3630 and PHYS 3670.

#### **4.11.3 Physics and Astronomy Course Descriptions-0 Level**

##### **PHYS 0900 Preparing for University Physics 0 Cr. Hrs.**

A review of elementary physics, emphasizing the laws of mechanics, for students considering enrolling in a first-year university physics course. Mathematical techniques used in solving physics problems and the relevance of physics to everyday life will be stressed. Although this course may be used as part of the prerequisite requirements for first-year Physics courses, students are encouraged to take Physics 40S whenever possible.

#### **4.11.3 Physics and Astronomy Course Descriptions-1000 Level**

##### **PHYS 1020 General Physics 1 3 Cr. Hrs.**

(Lab Required) It's a crazy world; come and find out why objects fall, slide, bounce, stick, go in circles or stay straight, float or sink, glide or crash. Why don't satellites fall to the ground? What exactly does weightlessness mean anyway? Find answers to these and other questions as you get to know Newton's and other basic laws of nature and see what makes the world go round. This course, together with the sequel PHYS 1030, is recommended for students seeking either a single, comprehensive course in Physics or

entry into health science programs. It may also be used for entry into the Honours Physics program ("B+" or better) or the Major Physics program ("B" or better). May not be held with PHYS 1021, PHYS 1050, PHYS 1051, the former PHYS 1410, or the former PHYS 1420. Prerequisites: (one of Physics 40S, PHYS 0900 (P), PSKL 0100 (P) offered by Extended Education, or equivalent) and (one of Pre-calculus Mathematics 40S, Applied Mathematics 40S (with 70% or better), a grade of "C" or better in MSKL 0100 offered by Extended Education, or equivalent). It is strongly recommended that students attain a minimum of 70% as the average of their marks in Physics 40S and Pre-calculus Mathematics 40S.

##### **PHYS 1030 General Physics 2 3 Cr. Hrs.**

(Lab Required) Discover how physics is the basis of the hi-tech world we live in and how we live in it. Learn how to use simple, intuitive physics concepts that are described using little math and no calculus to understand a diversity of topics including how electricity is made, what drives the greenhouse effect, what makes a diamond sparkle, lasers, LASIC eye surgery and the workings of the human eye. This course, together with its prerequisite PHYS 1020, is recommended for students seeking either a single comprehensive course in Physics, or entry into health science programs. This course may not be held with PHYS 1031, the former PHYS 1410 the former PHYS 1420. Prerequisite: one of PHYS 1020, PHYS 1021, PHYS 1050, or PHYS 1051.

##### **PHYS 1050 Physics 1: Mechanics 3 Cr. Hrs.**

(Lab required) It's rocket science! Mechanics is the science of describing (Kinematics) and explaining (Dynamics) motion. The basic concepts of calculus together with laws of conservation of momentum and energy are used to develop the tools required to describe, analyze and predict the outcomes of linear and rotational motion in simple mechanical systems. A brief introduction to the Einstein theory of special relativity provides a taste of modern approaches to this subject. This course develops a strong scientific foundation for students considering a program of study in engineering or the physical sciences. May not be held with PHYS 1020, PHYS 1021, PHYS 1051, the former PHYS 1410, or the former PHYS 1420. Prerequisite: one of Physics 40S (60% or better), PHYS 0900 (P) or PSKL 0100 (P) offered by Extended Education, or equivalent. Pre- or corequisite: one of MATH 1230, MATH 1500, MATH 1501, MATH 1510, MATH 1520, the former MATH 1530, or MATH 1690.

##### **PHYS 1070 Physics 2: Waves and Modern Physics 3 Cr. Hrs.**

(Lab Required) At the heart of modern communications, waves and oscillations are key to understanding the world around us from subatomic scales to biology, traffic flow, the stock market, climate change and the cosmos itself. Learn about the mysterious quantum world, the basis of the latest nanotechnology, where particles are waves and waves are particles. Explore Bohr's model of the atom and discover Heisenberg's Uncertainty Principle. This calculus based course addresses the underlying concepts for all modern science and engineering. This course, like Physics 1 (PHYS 1050), is intended for students considering a program in the physical sciences. May not be held for credit with PHYS 1071, the former PHYS 1410, the former PHYS 1420, or PHYS 2152. Prerequisites: (a grade of "C" or better in PHYS 1050 or PHYS 1051) or (a grade of "B" or better in PHYS 1020 or PHYS 1021) and (a grade of "C" or better in one of MATH 1230, MATH 1500, MATH 1501, MATH 1510, MATH 1520, or the former MATH 1530). Pre- or corequisite: one of MATH 1232, MATH 1700, MATH 1701, MATH 1690, MATH 1710, or the former MATH 1730. Recommended for entry into the Honours programs (with a grade of "B").

#### **4.11.3 Physics and Astronomy Course Descriptions-2000 Level**

##### **PHYS 2010 Computational Modeling of Natural and Human-Created Systems 3 Cr. Hrs.**

This course uses computer simulations to explore emergent behavior in simple models of natural phenomena, traffic, financial systems, and human behavior. The goal of the course is to show how computational modeling can be applied to exciting interdisciplinary problems spanning a wide range of human knowledge, beyond what is normally considered to be physics. Prerequisites: (one of COMP 1012, COMP 1013, COMP 1010 or COMP 1011) and (one of PHYS 1020, PHYS 1021, PHYS 1050, or PHYS 1051) and (one of MATH 1220, MATH 1300, MATH 1301, or the former MATH

1310) and (one of MATH 1230, MATH 1500, MATH 1501, MATH 1510, MATH 1520, the former MATH 1530, or MATH 1690).

**PHYS 2152 Modern Physics for Engineers 3 Cr. Hrs.**

(Lab Required) An overview of topics in modern physics including wave particle duality, atomic structure and quantum mechanics. Elementary classical electromagnetic theory and wave theory are reviewed as an introduction to the modern physics concepts. For Engineering students only. May not be held with PHYS 1070 or PHYS 1071. Prerequisites: a "C" or better in one of PHYS 1050, PHYS 1051; or a "B" or better in PHYS 1020 or PHYS 1021; and a "C" or better in one of MATH 1230, MATH 1500, MATH 1501, MATH 1510, MATH 1520; and a "C" or better in one of MATH 1232, MATH 1700, MATH 1701, MATH 1710 or MATH 1690. Prerequisite or concurrent requirement: MATH 2130.

**PHYS 2210 Understanding Electricity and Magnetism 3 Cr. Hrs.**

An introduction ranging from its history to connections with real-world phenomena in engineering and biology, and common sense on the understanding of the phenomena. The student is carefully guided through mathematical derivations. Physics is used to develop the theory and the applications of such things as motors, radios, magnetic resonance imaging (MRI) systems and computers. May not be held with the former PHYS 2200, or the former PHYS 2201, PHYS 2600 or PHYS 2610. Prerequisites: [(a "C" or better in PHYS 1070 or PHYS 1071) or (a "C+" or better in both of (PHYS 1020 or PHYS 1021) and (PHYS 1030 or PHYS 1031))] and [a "C" or better in one of MATH 1230, MATH 1500, MATH 1501, MATH 1510, MATH 1520]. Pre- or corequisite: [MATH 1200 or the former MATH 1201 or MATH 1240 or MATH 1241] and [one of MATH 1232, MATH 1690, MATH 1700, MATH 1701, MATH 1710].

**PHYS 2260 Optics 3 Cr. Hrs.**

(Lab Required) A survey of refraction, reflection, simple lens systems and optical systems, dispersion, achromatism and an elementary treatment of diffraction, interference, and polarization. May not be held with PHYS 2261. Prerequisites: [a "C" or better in PHYS 1050 or PHYS 1051] or [a "C+" or better in PHYS 1020 or PHYS 1021] and [one of MATH 1230, MATH 1500, MATH 1501, MATH 1510, MATH 1520, or MATH 1690]. Pre- or corequisites: [one of PHYS 1070, PHYS 1071, PHYS 1030, PHYS 1031, or PHYS 2152] and [one of MATH 1210, MATH 1211, MATH 1220, MATH 1300, MATH 1301, or MATH 1310] and [one of MATH 1232, MATH 1700, MATH 1701, or MATH 1710].

**PHYS 2270 Introductory Physics for Life Sciences: Fundamentals and Applications 3 Cr. Hrs.**

Physical topics with a relation to biology are discussed. Radiative transfer of energy, boundary layers, heat conduction, diffusion, mass transport, and the use of radioactive materials in biology are considered. May not be held with PHYS 2271 or PHYS 2272. Prerequisite: (a grade of "C" or better in PHYS 1050 or PHYS 1051) or (a "C+" or better in PHYS 1020, or PHYS 1021) or permission of the department.

**PHYS 2272 Physics for Medicine & Biology 3 Cr. Hrs.**

An intermediate course in physics with relevant applications to Medical and Biological Physics. The course will cover key topics in mechanics, fluid dynamics, exponential growth and decay, equilibrium and entropy, modeling of transport by drift and diffusion, and electricity and magnetism, as applied to the human condition; Linear and nonlinear feedback, regression and the Fourier series for signal and image analysis will also be covered. May not be held with PHYS 2270 or the former PHYS 2271. Prerequisites: (a grade of "C" or better in one of PHYS 1070, PHYS 1071, or PHYS 2152) or (a grade of "C+" or better in one of PHYS 1030 or PHYS 1031) and (a grade of "C" or better in one of MATH 1232, MATH 1690, MATH 1700, MATH 1701, MATH 1710, or the former MATH 1730).

**PHYS 2350 Energy Sources: Physical Aspects 3 Cr. Hrs.**

A detailed investigation of the physical aspects of energy production and utilization. Critical comparison of the various energy sources including solar, nuclear, fossil, and wind will be emphasized. The physics of energy collection, production, storage, and distribution will be discussed in the context of thermodynamics, radiation, solid state and nuclear physics. Prerequisite: (a grade of "C" or better in one of PHYS 1070, PHYS 1071 or PHYS 2152) or (a "C+" or better in PHYS 1030 or PHYS 1031) or permission of the department.

**PHYS 2386 Introduction to Quantum Mechanics and Special Relativity 3 Cr. Hrs.**

The first in a sequence of three courses on quantum mechanics, which also includes an introduction to the theory of special relativity. The topics covered include Einstein's postulates of special relativity, the Lorentz transformation, relativistic kinematics and dynamics and four vectors, kinetic theory of gases, cavity radiation and normal modes, Planck's quantization postulate and the Schrodinger theory of quantum mechanics. Special emphasis is placed on the derivation of the time dependent and time independent Schrodinger equation and its solutions in one dimension. May not be held with the former PHYS 2380. Prerequisites: (a "C" or better in one of PHYS 1070, PHYS 1071 or PHYS 2152) or (a "C+" or better in PHYS 1030 or PHYS 1031) and (a "C" or better in one of MATH 1232, MATH 1690, MATH 1700, MATH 1701, MATH 1710, or the former MATH 1730).

**PHYS 2390 Theoretical Physics 1 3 Cr. Hrs.**

This course provides an introduction to the mathematics required for both the Honours and Major programs in Physics and Astronomy. Topics include series expansions, partial derivatives, vector calculus and integral theorems. Prerequisites: A "C" or better in PHYS 1050 or PHYS 1051, or a "C+" or better in PHYS 1020 or PHYS 1021; and a grade of "C" or better in one of MATH 1232, MATH 1690, MATH 1700, MATH 1701, MATH 1710. Pre- or Corequisite: one of PHYS 1070 or PHYS 1071 or PHYS 1030 or PHYS 1031.

**PHYS 2490 Theoretical Physics 2 3 Cr. Hrs.**

This course provides a continuation of the introduction to the mathematics required for both the Honours and Major programs in Physics and Astronomy. Topics include Fourier series, differential equations, special functions, boundary value problems and transform methods. Prerequisite: PHYS 2390.

**PHYS 2496 Mathematical Physics 1 3 Cr. Hrs.**

This course provides a continuation of the mathematics required for both the Honours and Major programs in Physics and Astronomy. Topics include sequences and series, an introduction to complex numbers, special functions, ordinary differential equations, Fourier series and transforms, and an introduction to probability and statistics. May not be held with PHYS 2490. Prerequisites: [a "C" or better in PHYS 1050 or PHYS 1051] or [a "C+" or better in PHYS 1020 or PHYS 1021] and [one of MATH 1232, MATH 1690, MATH 1700, MATH 1701, or MATH 1710]. Pre- or corequisite: one of PHYS 1070, PHYS 1071, PHYS 1030, PHYS 1031, or PHYS 2152.

**PHYS 2600 Electromagnetic Field Theory 3 Cr. Hrs.**

(Lab Required) Electric field, electric potential, Gauss' law, capacitors, dielectric materials, magnetic fields, Ampere's law, magnetic induction, magnetic materials, displacement current, integral form of Maxwell's equations. In addition to the lectures, the course includes a tutorial session of two hours per week. May not be held with PHYS 2200 or PHYS 2201. Prerequisites: a "C" or better in one of PHYS 1070, PHYS 1071, or PHYS 2152, or a "C+" or better in PHYS 1030 or PHYS 1031; and a "C" or better in one of MATH 1232, MATH 1690, MATH 1700, MATH 1701, MATH 1710.

**PHYS 2610 Circuit Theory and Introductory Electronics 3 Cr. Hrs.**

(Lab Required) Ohm's law, Kirchhoff's laws, DC circuit analysis, equivalent circuits, AC circuit analysis, complex impedance, RLC circuits, magnetic coupling, transformers, diodes and diode circuits. May not be held with PHYS 2200 or PHYS 2201. Prerequisite: PHYS 2600 (C).

**PHYS 2650 Classical Mechanics 1 3 Cr. Hrs.**

The first in a sequence of two courses on intermediate to advanced level mechanics. Topics include inertial and non-inertial reference frames, energy, oscillations, dynamics of systems of particles, motion of a projectile with air resistance, planar motion of rigid bodies, as well as gravitation and central-force motion. Prerequisite: [a "C" or better in one of PHYS 1070, PHYS 1071, or PHYS 2152] or [a "C+" or better in PHYS 1030 or PHYS 1031]. Pre- or corequisite: one of PHYS 2496, PHYS 2490 or MATH 3132.

**4.11.3 Physics and Astronomy Course Descriptions-3000 Level**

**PHYS 3220 Medical Physics and Physiological Measurement 3 Cr. Hrs.**

This course will introduce the core subject areas of Medical Physics, in particular the physics of physiology and of radiology. The mechanics of body systems and the theory, medical applications and safety issues

relating to the production, use, detection and measurements of electromagnetic radiation (both ionizing and non-ionizing) will be included. It will also cover Medical imaging (Ultrasound, CT and MRI) and will provide the student with an understanding of the physics underlying neurological, audiological, respiratory and vascular function and measurements. Prerequisite: (a grade of "C" or better in one of PHYS 1070, PHYS 1071 or PHYS 2152) or (a "C+" or better in PHYS 1030 or PHYS 1031) or permission of the department. PHYS 2270 or PHYS 2272 is recommended.

**PHYS 3386 Quantum Mechanics 2 3 Cr. Hrs.**

The second in the sequence of three courses on quantum mechanics which includes mathematical Hilbert space formalism, solutions of the Schrodinger equation in three dimensions with a special emphasis on central potentials, spin, angular momentum, ladder operators, Clebsch-Gordon coefficients and time-independent perturbation theory. May not be held with the former PHYS 3380. Prerequisites: (PHYS 2386 or the former PHYS 2380) and (one of PHYS 2496, PHYS 2490, or MATH 3132). PHYS 3496 is recommended.

**PHYS 3430 Honours Physics Laboratory 6 Cr. Hrs.**

Six hours per week. This is a hands-on course of experimental essentials of modern physics. Prerequisites: one of PHYS 2260, PHYS 2261, PHYS 2610 or ECE 2160, or permission of the department.

**PHYS 3496 Mathematical Physics 2 3 Cr. Hrs.**

This course provides a continuation of the mathematics required for both the Honours and Major programs in Physics and Astronomy. Topics include complex analysis, generalized coordinate systems, Sturm-Liouville theory and generalized orthogonal functions, partial differential equations, and applications in physics. Prerequisites: [one of PHYS 2390, MATH 2720, MATH 2721, MATH 2130, MATH 2150, or MATH 2151] and one of PHYS 2496 or PHYS 2490. MATH 2090 or the former MATH 2300 is recommended.

**PHYS 3570 Physics of Materials 1 3 Cr. Hrs.**

Introduction to the physics of materials. Solids within the elastic limit: stress and strain tensors, elastic constants. Liquids: continuity equation, Bernoulli, Euler and Navier-Stokes equations. Pre- or corequisite: PHYS 3386 or the former PHYS 3380.

**PHYS 3630 Electro - and Magnetostatic Theory 3 Cr. Hrs.**

Material covered will include electrostatics (i.e. Gauss' Law, Laplace and Poisson equations) and magnetostatics (Lorentz force, Maxwell equations) as well as the properties of electrostatic fields in matter and magnetism in materials. Prerequisites: PHYS 2600 and (one of PHYS 2496, PHYS 2490, or MATH 3132) or permission of the department. PHYS 3496 is recommended.

**PHYS 3650 Classical Mechanics 2 3 Cr. Hrs.**

The second in a sequence of two courses on intermediate to advanced level mechanics. Topics include calculus of variations, Lagrangian and Hamiltonian dynamics, rotational motion of rigid bodies in three dimensions, canonical equations using Poisson brackets, nonlinear oscillations and chaos, and coupled oscillations. Prerequisite: PHYS 2650. Pre- or corequisite: one of PHYS 3496, PHYS 2490, or MATH 3132.

**PHYS 3670 Classical Thermodynamics 3 Cr. Hrs.**

An introduction to the laws of classical equilibrium thermodynamics and their applications. Prerequisite: one of PHYS 2496, PHYS 2490 or MATH 3132.

**4.11.3 Physics and Astronomy Course Descriptions-4000 Level**

**PHYS 4010 General Relativity and Gravitation 3 Cr. Hrs.**

The course briefly covers Newtonian gravity, special relativity and Minkowski space, before moving on to relativistic electrodynamics with the focus on the energy-momentum tensor, relativistic hydrodynamics, non-inertial reference frames and the principle of covariance and Einstein's field equations, linearized field equations and gravitational waves, as well as Schwarzschild's solution with the application to a static black hole. Prerequisites: PHYS 3650 and (PHYS 3496 or PHYS 2490) or permission of the department. Pre- or corequisite: PHYS 4646 or the former PHYS 3640.

**PHYS 4250 Computational Physics 3 Cr. Hrs.**

Application of numerical methods and programming skills to model a variety of physics problems on a computer. Topics include differential

equations, boundary value and eigenvalue problems, special functions, and Monte Carlo methods, with examples from classical, quantum, and statistical mechanics. Prerequisites: (one of COMP 1012, COMP 1013, COMP 1010, or COMP 1011) and (PHYS 3496 or PHYS 2490) or permission of the department.

**PHYS 4300 Topics in Physics 3 Cr. Hrs.**

Topics will vary depending upon student needs and interests, and will include specialized topics not available in regular course offerings. Prerequisite: PHYS 3386 or the former PHYS 3380, or permission of the department.

**PHYS 4350 The Physics of Fluids 3 Cr. Hrs.**

The course covers basic fluid dynamics based on the Euler equations. Topics include conservation laws; linear sound waves; instabilities; the generation of sound waves; linear and non-linear description of water waves including the Korteweg-de Vries equation, soliton solutions, and shock waves; elasticity and the stress tensor; Navier-Stokes equations and their solutions; the Hagen-Poiseuille law; Stokes' law and aerodynamics; attenuation of acoustic waves; non-linear acoustics; and the basic concepts of the description of turbulence including Kolmogorov's theory, correlation functions, and spectral tensors. Prerequisite: PHYS 3496.

**PHYS 4360 Medical Radiation Physics 3 Cr. Hrs.**

The relevant physics of the production and interaction of radiation beams used in both diagnostic and therapeutic medicine will be covered. Such beams included X- and g-rays, particle beams, visible and I.R. radiation, microwaves, and ultrasound. Prerequisite: PHYS 3220 or the former PHYS 4560 or permission of the department.

**PHYS 4386 Quantum Mechanics 3 3 Cr. Hrs.**

The third in the sequence of three courses on quantum mechanics which includes systems of identical particles, variational methods, time-dependent perturbation theory and scattering theory. May not be held with the former PHYS 4390. Prerequisites: (PHYS 3386 or the former PHYS 3380) and (PHYS 3496 or PHYS 2490).

**PHYS 4400 Medical Imaging 3 Cr. Hrs.**

Fundamental principles of image formation, analysis of the characteristics of medical images, parametric description of image quality; application to transmission radiography. Prerequisite: PHYS 3220 or permission of the department.

**PHYS 4516 Introduction to Nuclear and Particle Physics 3 Cr. Hrs.**

Bulk properties of the atomic nucleus; nuclear models, nuclear disintegration; alpha-decay, gamma transitions, and beta-decay; scattering formalism and experiments; evidence for quark structure and properties of the hadrons (neutrons, protons, mesons); basic introduction to QCD; basic intro to the weak interaction and neutrino physics; basic introduction to the standard model. May not be held with the former PHYS 4510. Prerequisites: (PHYS 3386 or the former PHYS 3380) and (PHYS 4646 or the former PHYS 3640).

**PHYS 4520 Introduction to Solid State Physics 3 Cr. Hrs.**

An introduction to the following topics as they relate to the properties of solids: crystal structure and lattice energy; lattice vibrations; specific heat; free-electron gas; electronic band structure; metals, semiconductors and insulators. Prerequisite: (PHYS 3386 or the former PHYS 3380) and (PHYS 4680 or the former PHYS 3680).

**PHYS 4590 Advanced Optics 3 Cr. Hrs.**

Light as a classical electromagnetic wave, optical fields in media, interference by wavefront and amplitude splitting, diffraction, diffraction theory of image formation, spatial filtering and image processing, coherence theory. Prerequisites: (PHYS 2260 or PHYS 2261) and (PHYS 4646 or the former PHYS 3640).

**PHYS 4600 Lasers and Applications 3 Cr. Hrs.**

Light and atoms: semi-classical theory, principles of laser operation and properties of laser light, polarization optics, Gaussian beam optics, laser spectroscopy. Prerequisites: (PHYS 2260 or PHYS 2261) and (PHYS 3386 or the former PHYS 3380).

**PHYS 4620 Advanced Classical Mechanics 3 Cr. Hrs.**

Canonical invariants and Lagrange and Poisson brackets. Hamilton-Jacobi theory, action-angle variables, normal modes of vibration. Prerequisite: PHYS 3650 and PHYS 3496.

**PHYS 4630 Physics of Materials 2 3 Cr. Hrs.**

Physics of materials beyond the elastic limit, emphasizing atomistic features. Structural aspects, crystal defects, plastic deformation, radiation damage, diffusion and dislocations. Prerequisite: PHYS 3570 (C).

**PHYS 4646 Electro - and Magnetodynamics and Special Relativity 3 Cr. Hrs.**

Topics covered will include time dependent Maxwell's equations, Ohm's and Faraday's Law, electromagnetic waves, potential and fields, radiation, and special relativity including the Lorentz transformations. May not be held with the former PHYS 3640. Prerequisites: PHYS 3630 or ECE 3590. Pre- or corequisite: one of PHYS 3496, PHYS 2490, or MATH 3132.

**PHYS 4676 Honours Thesis - Proposal and Preparation 3 Cr. Hrs.**

For students in term 1 of their final year in Honours. The student will prepare a proposal for the undergraduate thesis and demonstrate the feasibility of the project under the supervision of a faculty member. The results of the study will be presented (in written and oral form) to an examining committee during the term. Both experimental and theoretical topics are acceptable. A grade of C (based on the presentations) is required to proceed to the next course which forms the final stage of the honours thesis. May not be held with the former PHYS 4670 or the former PHYS 4672. Prerequisite: permission of the thesis supervisor.

**PHYS 4678 Honours Thesis - Dissertation 3 Cr. Hrs.**

For students in term 2 of their final year in Honours. The student will complete the work needed and produce an undergraduate thesis under the supervision of a faculty member. The grade will be based on the examining committee's evaluation of a progress report (presented mid-term) and an evaluation of the thesis manuscript and oral presentation at the end of term. Both experimental and theoretical topics are acceptable. May not be held with the former PHYS 4670, the former PHYS 4672, or the former PHYS 4674. Prerequisite: permission of the department.

**PHYS 4680 Statistical Mechanics 3 Cr. Hrs.**

Principles of statistical mechanics and their applications. Topics include phase space, Liouville and Poincare theorem, statistical ensembles, entropy, ideal classical gas, photon gas, Fermi gas, Bose-Einstein condensation, models of magnetism, and phase transitions. May not be held with the former PHYS 3680. Prerequisites: (PHYS 2386 or the former PHYS 2380) and PHYS 3670. Pre- or corequisite: PHYS 3496 or PHYS 2490.

**4.12 Psychology Program**

Head: Dan Bailis

Campus Address/General Office: P404 Duff Roblin Bldg.

Telephone: 204 474 9338

Email Address: [psychugadvisor@umanitoba.ca](mailto:psychugadvisor@umanitoba.ca)

[psychughead@umanitoba.ca](mailto:psychughead@umanitoba.ca)

Website: <http://www.umanitoba.ca/psychology/>

**4.12.1 Program Information**

Psychology is the scientific study of behaviour and mental processes, including the biological bases of behaviour and cognitive processes, and behavioural and cognitive neuroscience. The Honours and Major programs combine courses in Psychology with related courses in Science. Courses from the Faculty of Arts are included in this program. The Faculty of Science offers programs leading to a B.Sc. (Honours) degree in Psychology and a B.Sc. (Major and Major Co-op) degree in Psychology.

**B.Sc. Honours Psychology**

To enter the Honours program, students must have obtained a grade of "B" or better in PSYC 2260 and a grade of "B" in six credit hours in courses offered by the Faculty of Science. In addition, students must have obtained a degree grade point average of 3.50. Introductory courses in Biological Sciences, Chemistry, Computer Science, Mathematics or Statistics are highly recommended.

**Students** will normally take PSYC 2260 in Year 2 and enter Honours in Year 3. Students who qualify for entry to the Four Year Major in Psychology after Year 1 should choose that option. See the Four Year Major entry requirements for details.

**To continue** in the Honours program, a student must register in a minimum of 9 credit hours in each Fall and Winter Term and must meet all of the continuation criteria of the Faculty of Science. In addition, students must maintain a minimum degree grade point average of 3.50 based on all courses in the program. Students who do not meet the minimum continuation requirement will be required to withdraw from the Honours program.

**To graduate**, a student must obtain 120 credit hours of courses with grades of "C" or better in each course and with a minimum degree grade point average of 3.00. In addition, students must complete the program of study in the chart below.

**B.Sc. Four Year Major Psychology**

To enter the Major program, students must have obtained a grade of "C+" or better in PSYC 1200 (or in both PSYC 1211 and PSYC 1221) and in six credit hours in courses offered by the Faculty of Science and meet the Faculty of Science requirements for entry to the Major program. Introductory courses in Biological Sciences, Chemistry, Computer Science, Mathematics, or Statistics are highly recommended.

**To continue** in the Major program, a student must meet all of the continuation criteria of the Faculty of Science. This includes maintaining a minimum DGPA of 2.00 at each point of assessment, and no more than 18 credit hours of failing grades after entry to the program. Students who do not meet the minimum continuation requirement will be required to withdraw from the Major program.

**To graduate** with the degree of Bachelor of Science (Major), a student must complete 120 credit hours of courses with passing grades ("D" or better) in each course, with a minimum DGPA of 2.00. In addition, the student must complete the program of study as listed in the program chart below.

**B.Sc. Four Year Major Psychology Co-operative Option**

A co-operative education option is available for Major students. Students should refer to Section 3.5 of this chapter for further information on the Co-op programs.

Entry and continuance in the Four Year Major Co-operative require completion of PSYC 2250 and PSYC 2260 with a grade of "C" or better, and a DGPA of 3.00 or higher. Students who fail to maintain a DGPA of 3.00 while enrolled in the Co-operative Option will be required to withdraw from the option and revert to the Four Year Major or the B.Sc. General.

NOTE: Psychology cannot be used to fulfill either the introductory or advanced level Science requirements in the Three Year B.Sc. General Degree.

**4.12.2 Psychology**

YEAR 1	YEAR 2	YEAR 3	YEAR 4

<b>HONOURS<sup>8</sup> 120 CREDIT HOURS (comprising courses listed in chart below, and electives)</b>			
PSYC 1200 (or PSYC 1211 and PSYC 1221) (6)  6 credit hours Science <sup>1</sup> (B)	PSYC 2250, PSYC 2260 (B)  6 credit hours 2000 or 3000 level <sup>2</sup> Psychology  15 credit hours Science <sup>5</sup>  3 credit hours options <sup>6</sup>	PSYC 3200, PSYC 3340, PSYC 3630  3 credit hours from PSYC 3520, PSYC 3560, PSYC 3590 or a 4000 level PSYC course  9 credit hours Psychology <sup>3</sup>  9 credit hours Science <sup>5</sup>	PSYC 4520 (6)  18 credit hours Psychology <sup>4</sup>  6 credit hours Science <sup>5</sup>

<b>FOUR YEAR MAJOR<sup>8,9</sup> 120 CREDIT HOURS (comprising courses listed in chart below, and electives)</b>			
PSYC 1200 (C+)(or PSYC 1211 (C+) and PSYC 1221(C+)) (6)  6 credit hours Science <sup>1</sup> (C+)	PSYC 2250, PSYC 2260  6 credit hours 2000 or 3000 level Psychology <sup>7</sup>	18 credit hours 2000 or 3000 level Psychology <sup>7</sup>	18 credit hours 2000 or 3000 level Psychology <sup>7</sup>
Plus 30 credit hours of courses from departments in the Faculty of Science, including a minimum of 18 credit hours at the 2000 level or above <sup>5</sup> .			
A "W" course must be taken in Year 1 or Year 2			
<b>MINOR</b>			
PSYC 1200 or (PSYC 1211 and PSYC 1221)	12 credit hours in Psychology courses numbered at the 2000 or 3000 level		
<b>NOTES:</b> <sup>1</sup> Introductory courses in Biological Sciences, Chemistry, Computer Science, Mathematics, or Statistics are highly recommended.			

<sup>2</sup> These 6 credit hours must include 3 credit hours from each of two different lettered categories of Psychology courses below.

<sup>3</sup> These 9 credit hours must include 3 credit hours from each of two different lettered categories of Psychology courses below and not sampled in Year 2.

<sup>4</sup> These 18 credit hours must include 6 credit hours at the 4000 level; and 6 credit hours at any level including any remaining lettered category below.

<sup>5</sup> The Science courses that are chosen must be approved by the Department of Psychology and must include a minimum of 18 credit hours at the 2000 level or above.

<sup>6</sup> Free options are to be chosen from courses that are acceptable for credit in the Faculty of Science and must be approved by the Department of Psychology.

<sup>7</sup> During Years 2 to 4 a total of 42 credit hours of 2000 or 3000 level Psychology courses must be completed, including a minimum of 3 credit hours from each of the five lettered categories of courses below.

<sup>8</sup> The courses required in this program satisfy the university mathematics requirement.

<sup>9</sup> **IMPORTANT:** The four year Major program need not be completed in the manner prescribed in the chart above. The chart indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their program.

(Letters in brackets indicate minimum prerequisite standing required for further study. The number 6 in brackets indicates a 6 credit hour course.)

**Categories of Psychology Courses**

Category A:	Personality/Social	PSYC 2490, PSYC 2530, PSYC 2540
Category B:	Developmental	PSYC 2290
Category C:	Learning	PSYC 2440, PSYC 2470
Category D:	Cognitive	PSYC 2480
Category E:	Biological	PSYC 2360

**Psychology Courses**

**All Psychology courses are available to Science students. For a complete course listing, see the Faculty of Arts section.**

Psychology courses taught at the Université de Saint-Boniface can be used to satisfy degree requirements

### 4.13 Department of Statistics

Head: Liqun Wang  
 Campus Address/General Office: 318 Machray Hall  
 Telephone: 204 474 8172  
 Email Address: [Stats\\_Dept@umanitoba.ca](mailto:Stats_Dept@umanitoba.ca)  
 Website: [umanitoba.ca/statistics/](http://umanitoba.ca/statistics/)

#### 4.13.1 Program Information

Statistics is a discipline grounded in mathematics that has practical applications in many other areas. Statistics is an analytical discipline that helps other disciplines carry out research projects and studies that involve measurement, comparison, and interpretation. Statistics is a useful ancillary subject to other sciences, the social sciences, and many of the professional programs. The department offers joint programs with Computer Science, Mathematics, Economics and Actuarial Mathematics.

#### Honours Requirements

**To enter** the Honours program in Statistics, a student must have completed at least 24 credit hours with a minimum DGPA of 3.00, and also obtained a minimum grade of "B" in STAT 2150.

STAT 1150, MATH 1220, MATH 1230, MATH 1232 and MATH 1240 are all requirements of the Statistics Honours degree program and students are strongly encouraged to take these courses in Year 1.

To continue in the Statistics Honours program, students must maintain a minimum DGPA of 3.00, and complete a minimum of 9 credit hours during each Fall and Winter Term.

**To graduate** with the B. Sc. Honours degree, a student must achieve a minimum DGPA of 3.00 and minimum grade of "C" in each course that contributes to the 120 credit hours of the degree.

#### Four Year Major Requirements

**To enter** the Major Degree program in Statistics, a student must have completed at least 24 credit hours with a minimum DGPA of 2.00, and also obtained a minimum grade of "C+" in STAT 2150.

STAT 1150, MATH 1220, MATH 1230, MATH 1232 and MATH 1240 are all requirements of the Statistics Major degree program and students are strongly encouraged to take these courses in Year 1.

**To continue** in the four year Major program a student must maintain a minimum DGPA of 2.00.

**To graduate** from the four year Major program a student must obtain a minimum DGPA of 2.00, and a minimum grade of "C" in the Major Program Specific courses, which include all program required courses (see program chart). And optional courses selected from lists C, D and E.

#### Honours and Major Co-operative Options

A co-operative education option is available for both Major and Honours students. Students should refer to [Section 3.5](#) of this chapter for further information on the Co-op programs.

#### Honours Co-op

The course, grade requirements and minimum DGPA requirement for entry and continuation in the Co-operative Option are the same as that for regular Honours program. Students are required to complete the first and second year requirements of the program; and STAT 2300 and STAT 3450 before beginning their first co-op work term.

#### Major Co-op

The course and minimum grade requirements for entry and continuation in the Co-operative Option are the same as those required for the regular

Major program. However, the entry and continuation DGPA requirement is set at a minimum of 2.5.

Students are required to complete the first and second year requirements of the program; and STAT 2300 and STAT 3450 before beginning their first co-op work term.

#### Optional Courses for Honours and Major Programs

The following lists of options are used in the Honours and Major programs.

List A: Statistics options for the Honours program

STAT 3170, STAT 3380, STAT 3490, STAT 3550, STAT 4150, STAT 4170, STAT 4250, STAT 4520, STAT 4530, STAT 4600, STAT 4630, STAT 4700

List B: Mathematics options for the Honours program

MATH 2030, MATH 2070, MATH 2090, MATH 2160, MATH 2180, MATH 2740, MATH 3330, MATH 3340, MATH 3360, MATH 3440, MATH 3460, MATH 3470, MATH 3490, MATH 3610, MATH 4370, MATH 4390

List C: Computer Science options for the Honours and Major programs

COMP 2080, COMP 2140, COMP 3170, COMP 3190, COMP 3380, COMP 3820, COMP 4190, COMP 4360, COMP 4380, COMP 4420, COMP 4710

List D: Statistics options for the Major program

STAT 3030, STAT 4100 and all options in List A

List E: Mathematics options for the Major program

MATH 2080 and all options in List B

#### Three Year General

As prescribed with all other faculty regulations in Section 3.2, students in this program must select 18 credit hours of 2000, 3000, or 4000 level courses from each of two Science areas. To satisfy the requirement in the area of Statistics, students must take a minimum of 18 credit hours of 2000, 3000 and (or) 4000 level Statistics courses. STAT 2000 and STAT 2150 cannot be used towards this requirement.

#### 4.13.2 Statistics Program Charts

STAT 1150, STAT 2150	<p>12 additional credit hours of 2000, 3000, or 4000 level Statistics courses<sup>4</sup></p>		

**NOTES:**

<sup>1</sup> IMPORTANT: The four year Honours and Major programs need not be completed in the manner prescribed in the chart above. The chart indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their program.

<sup>2</sup> The following substitutes are allowed: MATH 1300 (B) in place of MATH 1220, MATH 1500 (B) or MATH 1510 (B) in place of MATH 1230, MATH 1700 (B) or MATH 1710 (B) in place of MATH 1232, MATH 1690 in place of MATH 1230 and MATH 1232; MATH 2720 in place of MATH 2150; STAT 1000 and STAT 2000 (B) in place of STAT 1150.

<sup>3</sup> Although not required, students are encouraged to select some of their electives from traditional fields of application in Statistics such as Biological Sciences, Microbiology, Actuarial Mathematics, Economics, Psychology, or Sociology.

<sup>4</sup> STAT 2000 and STAT 2150 cannot be counted towards this requirement.

<sup>5</sup> STAT 2000 cannot be counted toward this requirement.

(Letters in brackets indicate minimum prerequisite standing for further study.)

**4.13.3 Statistics - Actuarial Mathematics Joint Honours Program**

<p>The Department of Statistics and the Warren Centre for Actuarial Studies and Research offer a joint Honours program for students wishing in depth study in Statistics and Actuarial Mathematics.</p>			
<p><b>To enter</b> the Joint Honours program, students must have completed 24 credit hours with a minimum DGPA of 3.00. Students must also obtain a minimum grade of "B" in STAT 2150. All of the courses listed in Year 1 of the program chart are program requirements and students are strongly urged to take them in the first year.</p>			
<p><b>To continue</b> in the Joint Honours Statistics - Actuarial Mathematics program, students must maintain a minimum DGPA of 3.00, and complete a minimum of 9 credit hours during each Fall and Winter Term.</p>			
<p><b>To graduate</b> with the B. Sc. Honours degree, a student must achieve a minimum DGPA of 3.00 and a minimum grade of "C+" on all required Actuarial Mathematics (ACT) courses and a grade of "C" on all remaining courses that contribute to the 120 credit hours of the degree.</p>			
<p>Recommended Electives: FIN 3410, FIN 4240, COMP 1010</p>			
YEAR 1	YEAR 2	YEAR 3	YEAR 4
<p><b>JOINT HONOURS 120 CREDIT HOURS</b></p>			
<p>STAT 1150<sup>1</sup>, STAT 2150 (B)</p> <p>ECON 1010, ECON 1020</p> <p>MATH 1220<sup>1</sup>, MATH 1230<sup>1</sup>, MATH 1232<sup>1</sup>, MATH 1240</p> <p>3 credit hour "W" course</p>	<p>STAT 2300, STAT 2400, STAT 2800</p> <p>ACT 2020, ACT 2120, ACT 2210</p> <p>ACC 1100<sup>2</sup>, FIN 2200<sup>2</sup></p> <p>MATH 2720</p>	<p>STAT 3030, STAT 3100, STAT 3450,</p> <p>ACT 3340, ACT 3630 (or both ACT 3130 and ACT 3230)</p>	<p>STAT 4100</p> <p>ACT 4060, ACT 4160, ACT 4020<sup>3</sup>, ACT 4030<sup>3</sup></p> <p>MSCI 2150</p>

<b>NOTES:</b>			
<p><sup>1</sup> Students are strongly advised to take MATH 1220, MATH 1230, MATH 1232. The following substitutions are allowed (but not advised), provided the grades indicated in brackets are achieved: MATH 1300 (A) in place of MATH 1220; MATH 1500 (A) or MATH 1510 (A) in place of MATH 1230; MATH 1700 (A) in place of MATH 1232; MATH 1690 (B) in place of MATH 1230 and MATH 1232; STAT 1000 and STAT 2000 (B) in place of STAT 1150.</p> <p>(Letters in brackets indicate minimum prerequisite standing for further study.)</p>			

STAT 1150 <sup>1</sup> MATH 1220 <sup>1</sup> , MATH 1230 <sup>1</sup> , MATH 1232 <sup>1</sup> , MATH 1240  COMP 1010	MATH 2080, MATH 2150 <sup>1</sup>	MATH 2160, MATH 3610	
6 credit hours of electives including the required "W" course.	6 credit hours of approved Economics electives <sup>2</sup>	3 credit hours of approved Economics electives <sup>2</sup>  6 credit hours of approved Statistics electives <sup>3</sup>	12 credit hours of approved Economics electives <sup>2</sup>  9 credit hours of approved Statistics electives <sup>3</sup>
30 Hours	30 Hours	30 Hours	30 Hours

<b>NOTES:</b>			
<p>1 The following substitutes are allowed: MATH 1300 in place of MATH 1220; MATH 1500 in place of MATH 1230; MATH 1700 in place of MATH 1232.; MATH 2720 in place of MATH 2150; STAT 1000 and STAT 2000 (B) in place of STAT 1150. Students must attain specific grade requirements in order to meet the upper level course prerequisites. Consult course descriptions for further information.</p> <p>2 Of the 21 credit hours of electives in Economics in Years 2, 3 and 4, no more than 6 credit hours may be at the 2000 level or below; ECON 2030 and ECON 3040 are recommended in Year 2 or 3. The normal prerequisite for ECON 3040 is ECON 2040, which will be waived for students in this program who have completed Year 1.</p> <p><sup>3</sup> The 15 credit hours of electives in Statistics in Years 3 and 4 must all be at the 3000 level or higher, at least 9 of which must be at the 4000 level. The following courses are recommended: STAT 3030, STAT 3490, STAT 3550, STAT 3690, STAT 4150, STAT 4250, STAT 4630</p> <p>(Letters in brackets indicate minimum prerequisite standing for further study.)</p>			

**4.13.6 Statistics - Economics Joint Honours Program**

The Department of Statistics along with the Department of Economics (Faculty of Arts) offer a Joint Honours program for students wishing in depth study in Statistics and Economics. For Economics course listings, refer to the Faculty of Arts chapter in the Calendar.			
<p>Students will normally take STAT 2150 in second year and enter Honours in Year 3.</p> <p><b>To enter</b> the Joint Honours Statistics-Economics program in the Faculty of Science, the student must have a minimum grade of "B" in both of ECON 1010 and ECON 1020 (or ECON 1210 and ECON 1220) and STAT 2150; and have satisfied the Faculty of Science requirements for entry to the honours program. Students are strongly encouraged to take MATH 1220, MATH 1230, MATH 1232 and MATH 1240 in Year 1.</p> <p><b>To continue</b> in the Joint Honours Statistics-Economics program in the Faculty of Science, a minimum DGPA of 3.00 is required.</p> <p><b>To graduate</b> with the B.Sc. Joint Honours Statistics-Economics degree from the Faculty of Science, a student must achieve a minimum DGPA of 3.00, and a minimum grade of "C" in each course that contributes to the 120 credit hours of the degree.</p>

**4.13.7 Statistics Course Descriptions-1000 Level**

<p><b>STAT 1000 Basic Statistical Analysis 1 3 Cr. Hrs.</b> (Lab required) This course is not recommended for students in certain programs (see the description of STAT 1150). An introduction to the basic principles of statistics and procedures used for data analysis. Topics to be covered include: gathering data, displaying and summarizing data, examining relationships between variables, sampling distributions, estimation and significance tests, inference for means. May not be held with STAT 1001, STAT 1150, STAT 2220. Prerequisite: Any grade 12 or 40S Mathematics, or equivalent.</p>	<p><b>STAT 1150 Introduction to Statistics and Computing 3 Cr. Hrs.</b> (Lab required) This course is recommended for students in mathematically rich disciplines, including Statistics, Mathematics, Actuarial Science, Computer Science, and related interdisciplinary programs. Topics to be covered include: summarizing and displaying large datasets, sampling, estimation and significance tests, probability calculations, random variables and probability distributions, introduction to regression and correlation analysis, statistical software. Not to be held with STAT 1000, STAT 1001, STAT 2000, STAT 2001 and STAT 2220. Prerequisite: Minimum of 70% in Pre-</p>
---	--

calculus Mathematics 40S or a grade of B or better in MSKL 0100 or equivalent.

#### 4.13.7 Statistics Course Descriptions-2000 Level

##### **STAT 2000 Basic Statistical Analysis 2** **3 Cr. Hrs.**

(Lab required) This course is not recommended for students in certain programs (see the description of STAT 2150). The study of estimation and hypothesis testing procedures for means and proportions in one, two and multiple sample situations, introduction to the analysis of variance; regression and correlation analysis; optional topics may include nonparametric procedures, design of experiments, probability models. May not be held with STAT 1150, STAT 2001. Prerequisite: STAT 1000 (C), or STAT 1001 (C).

##### **STAT 2150 Statistics and Computing** **3 Cr. Hrs.**

(Lab required) This course is recommended for students in mathematically rich disciplines, including Statistics, Mathematics, Actuarial Science, Computer Science, and related interdisciplinary programs. Topics to be covered include: exploratory data analysis and visualization, graphical methods, random number generation, random variables, simple statistical models and computing, Monte Carlo methods, large sample and simulation-based inference, statistical software packages. Prerequisites: [a "C" or better in STAT 1150 or a "B" or better STAT 2000 or STAT 2001] and [a "C" or better in one of: MATH 1230, MATH 1500, MATH 1501, MATH 1510, the former MATH 1530, or MATH 1690].

##### **STAT 2220 Contemporary Statistics for Engineers** **3 Cr. Hrs.**

(Lab Required) Descriptive statistics, basic probability concepts, special statistical distributions, statistical inference-estimation and hypothesis testing, regression, reliability, statistical process control. May not be held with STAT 1000, STAT 1001 or STAT 1150. Prerequisite: a "C" or better in one of MATH 1232, MATH 1690, the former MATH 1680, MATH 1700, MATH 1701, MATH 1710.

##### **STAT 2300 Principles of Data Collection** **3 Cr. Hrs.**

Introduction to the basic principles and foundational aspects of data collection with a focus on the design and basic analysis of observational and experimental studies. Important issues like randomization, blocking and confounding, sampling, stratification, response bias and nonresponse will be covered. May not be held with the former STAT 3480. Prerequisite: one of STAT 1150, STAT 2000 (B), or STAT 2001 (B).

##### **STAT 2400 Introduction to Probability I** **3 Cr. Hrs.**

(Lab Required) Basic probability, discrete and continuous random variables, important families of distributions, functions of a random variable, expectation and variance, introduction to joint distributions. This course is not available to students who have previously obtained credit for the former STAT 3500. Prerequisites: [one of STAT 1150, STAT 2000 (B), or STAT 2001 (B)] and [one of MATH 1232, MATH 1690, MATH 1700 (B), MATH 1701 (B), MATH 1710 (B), or the former MATH 1730 (B)].

##### **STAT 2800 Introduction to Probability 2** **3 Cr. Hrs.**

(Lab Required) Joint and conditional distributions, distributions of functions of random variables, laws of total expectation and variance, moments and generating functions. May not be held with the former STAT 3400 or the former STAT 3500. Prerequisite: STAT 2400. Pre- or corequisite: one of MATH 2150, MATH 2151, MATH 2720, MATH 2721, or the former MATH 2750.

#### 4.13.7 Statistics Course Descriptions-3000 Level

##### **STAT 3000 Applied Linear Statistical Models** **3 Cr. Hrs.**

Applied linear regression, analysis of variance for designed experiments and related topics. This course is not for use in the Honours or Major degree programs in Statistics. May not be held with STAT 3450, the former STAT 3120, or the former STAT 3470. Prerequisite: one of STAT 1150, STAT 2000 or STAT 2001.

##### **STAT 3030 Introduction to Stochastic Processes** **3 Cr. Hrs.**

Review of conditional probability and expectations, Markov chains,

homogeneous and nonhomogeneous Poisson processes. Optional topics include: reliability theory, queuing theory and Brownian motion. May not be held with the former STAT 3050. Prerequisites: [one of STAT 2800, the former STAT 3400, or the former STAT 3500] and [one of MATH 2150, MATH 2151, MATH 2720, MATH 2721, or the former MATH 2750].

##### **STAT 3100 Introduction to Statistical Inference** **3 Cr. Hrs.**

(Lab Required) Overview of the most common approaches to inference associated with point estimation, confidence intervals and hypothesis testing, including likelihood, least-squares and moment-based methods, as well as large sample approximations. May not be held with the former STAT 3600 or the former STAT 3800. Prerequisites: STAT 2150 and STAT 2400. Pre- or corequisite: one of MATH 2150, MATH 2151, MATH 2720, MATH 2721, or the former MATH 2750.

##### **STAT 3150 Statistical Computing** **3Cr. Hrs.**

Programming using statistical software, random number generation, principles of Monte Carlo simulation, simulation-based inference, Monte Carlo integration, and other related topics. Prerequisites: STAT 2150 and STAT 2400.

##### **STAT 3170 Statistical Quality Control** **3 Cr. Hrs.**

Techniques for quality improvement through the use of statistical process control. Topics will include acceptance sampling, Pareto diagrams, control charts, measurements of process capability and process performance. Prerequisite: one of STAT 1150, STAT 2000 or STAT 2001.

##### **STAT 3380 An Introduction to Nonparametric Statistics** **3 Cr. Hrs.**

Parametric versus nonparametric inference, inference using ranks and order statistics, contingency tables, goodness-of-fit tests, applications in the social and physical sciences. Prerequisite: one of STAT 1150, STAT 2000 or STAT 2001.

##### **STAT 3450 Linear Models** **3 Cr. Hrs.**

Least-squares approach to simple and multiple regression, one-way analysis of variance, two-way analysis of variance and related topics. May not be held with STAT 3000, the former STAT 3120, or the former STAT 3470. Prerequisites: STAT 2150 and STAT 2400 and [one of MATH 1220, MATH 1300 (B), or MATH 1301 (B)].

##### **STAT 3490 Time Series Analysis** **3 Cr. Hrs.**

Analysis of time series data and related methodologies: autoregressive and moving-average models and their generalizations, trend and seasonal components, exponential smoothing, the Box-Jenkins Methodology. Prerequisite: one of STAT 3450, the former STAT 3120, or the former STAT 3470.

##### **STAT 3550 Nonlinear Regression Models** **3 Cr. Hrs.**

Nonlinear multiple regression, logistic regression, Poisson regression and generalizations, over/under dispersion, model selection techniques. May not be held with STAT 4000. Prerequisite: one of STAT 3450, the former STAT 3120, or the former STAT 3470. Pre- or corequisites: [one of STAT 3100, the former STAT 3600, or the former STAT 3800] and STAT 3150.

##### **STAT 3690 Multivariate Analysis** **3 Cr. Hrs.**

Multivariate normal distribution, multivariate regression and applications, visualization of multivariate data and dimension reduction, principal component analysis, canonical correlation. May not be held with the former STAT 4690. Prerequisites: [one of STAT 2800, the former STAT 3400, or the former STAT 3500] and [one of STAT 3450, the former STAT 3120, or the former STAT 3470] and [one of MATH 2150, MATH 2151, MATH 2720, MATH 2721, or the former MATH 2750].

##### **STAT 3980 Work Term I** **0 Cr. Hrs.**

Work assignment in business, industry, or government for students registered in the Statistics Honours or Major Cooperative Option. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only). Prerequisites: STAT 3470 (C) and STAT 3480 (C).

##### **STAT 3990 Work Term II** **0 Cr. Hrs.**

Work assignments in business, industry or government for students registered in the Statistics Honours or Major Cooperative program. Requires

submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail). Prerequisite: STAT 3980 (Pass).

#### 4.13.7 Statistics Course Descriptions-4000 Level

##### **STAT 4000 Applied Statistical Modelling** 3 Cr. Hrs.

Generalizations of linear models, including polynomial regression, analysis of covariance, logistic regression and regression for count data. Other optional topics include: random effects and mixed models, models for dependent data, advanced concepts in designing experiments. This course may not be used in the Honours or Major degree programs in Statistics. May not be held with STAT 3550. Prerequisite: one of STAT 3000, STAT 3450, the former STAT 3120, or the former STAT 3470.

##### **STAT 4100 Statistical Inference 1** 3 Cr. Hrs.

(Lab required) Rigorous treatment of inferential methods associated with point estimation, confidence intervals and hypothesis testing, including large sample techniques. May not be held with the former STAT 4140. Prerequisites: [one of STAT 2800, the former STAT 3400, or the former STAT 3500] and [one of STAT 3100, the former STAT 3600, or the former STAT 3800].

##### **STAT 4150 Bayesian Analysis and Computing** 3 Cr. Hrs.

(Lab required) Bayesian modelling, prior and posterior distributions, predictive distributions, credible regions, Bayes factors and model uncertainty, Bayesian computational methods. Prerequisites: [one of STAT 2800, the former STAT 3400, or the former STAT 3500] and [one of STAT 3100, the former STAT 3600, or the former STAT 3800] and STAT 3150.

##### **STAT 4170 Lifetime Data Analysis** 3 Cr. Hrs.

Introduction to basic principles and techniques for lifetime data analysis in biostatistics and reliability, with emphasis on theory and applications. Topics to be covered include: censoring, truncation, survival and hazard functions, parametric and nonparametric methods, proportional hazards regression. Prerequisites: [one of STAT 3100, the former STAT 3600, or the former STAT 3800] and [one of STAT 3450, the former STAT 3120, or the former STAT 3470].

##### **STAT 4250 Statistical Learning** 3 Cr. Hrs.

(Lab required) Topics related to the use of Statistics and inferential methods in machine learning, including the lasso and ridge regression, classification and clustering, neural networks, support vector machines, bagging, boosting and ensemble methods. Prerequisites: [one of STAT 3100, the former STAT 3600, or the former STAT 3800] and STAT 3150 and [STAT 3690 or the former STAT 4690].

##### **STAT 4520 Sampling Techniques 1** 3 Cr. Hrs.

Development of sampling theory for use in sample survey problems. Covered topics include: probability sampling and inclusion probabilities, standard sampling designs, ratio and regression estimators, linearization of estimators. Prerequisites: [STAT 2300 and (one of STAT 3450, the former STAT 3120, or the former STAT 3470)] or the former STAT 3480.

##### **STAT 4530 Design of Experiments 1** 3 Cr. Hrs.

Construction and analysis of commonly used experimental designs: block designs, Latin square designs, factorial and fractional factorial designs, split-plot designs. Prerequisites: [STAT 2300 and (one of STAT 3450, the former STAT 3120, or the former STAT 3470)] or the former STAT 3480.

##### **STAT 4600 Topics in Statistics** 3 Cr. Hrs.

Topics of current interest in Statistics that will vary with the needs and interests of students and faculty. This course can be completed as a topics course multiple times under different titles. Prerequisite: Consent of Department.

##### **STAT 4630 Stochastic Processes** 3 Cr. Hrs.

Continuous time processes, renewal processes, Brownian motion, martingales, and other related processes. Prerequisite: STAT 3030 or the former STAT 3050.

##### **STAT 4700 Statistical Consulting** 3 Cr. Hrs.

The role of a Statistics Consultant. Practical consulting experience. This course is restricted to students in the Honours, Joint Honours, or Major degree programs in Statistics. Students are advised to take this course in their fourth year. Prerequisite: STAT 2300 or the former STAT 3480. Pre- or corequisites: STAT 3550 and [STAT 3690 or the former STAT 4690].

##### **STAT 4980 Work Term III** 0 Cr. Hrs.

Work assignments in business, industry or government for students registered in the Statistics Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail). Prerequisite: STAT 3990 (Pass).

##### **STAT 4990 Work Term IV** 0 Cr. Hrs.

Work assignments in business, industry or government for students registered in the Statistics Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail). Prerequisite: STAT 4980 (Pass).

#### 4.14 Courses Offered in Other Faculties and Schools

All courses acceptable for credit in any degree program at the University of Manitoba are acceptable for credit in Science (excluding Pass/Fail courses) subject to overall degree requirements. All courses will be included on admission to the Faculty and will be applied toward the elective requirement in all degree programs offered in Science. For course descriptions, including any prerequisites and/or restrictions, see the chapter entitled Course Descriptions in this Calendar.

Students are reminded that normally a maximum of 30 credit hours (General Degree) or 36 credit hours (Major Degree) from courses offered by Faculties or Schools other than the Faculty of Science can contribute to degree requirements.

## SECTION 1: Degree Offered

### 1.1 Program

### 1.2 Interfaculty Option in Aging

## SECTION 2: Admission Requirements

### 2.1 Admission to the Fort Garry Social Work Program

### 2.2 Admission to the Inner City Social Work Program

### 2.3 Admission to the Northern Social Work Program

### 2.4 Admission to the Distance Delivery Social Work Program

### 2.5 The Université de Saint-Boniface

### 2.6 Special Student Admission

## SECTION 3: Faculty Academic Regulations

### 3.1 Prerequisite and Corequisite Policy

### 3.2 Residence Requirements for a Degree Program

### 3.3 Scholastic Progress

### 3.4 Professional Unsuitability Bylaw

### 3.5 Dean's Honour List

### 3.6 Appeal of Grades

### 3.7 Distance Courses Open to Fort Garry Campus and Inner City Social Work Students

### 3.8 Opting Into Field and Practices of the Two-Year Plan

### 3.9 Courses Open to Challenge for Credit

### 3.10 Credit for Social Work Courses Taken at Other Universities

## SECTION 4: Program and Graduation Requirements

### 4.1 Curriculum Outline

### 4.2 Field Instruction

### 4.3 Requirements for Graduation

## SECTION 5: Course Descriptions

## SECTION 1: Degree Offered

### The Bachelor of Social Work Program

Historically, the social work profession has focused on the well-being of people as well as the social structures and conditions that prevent a just and equal society. The Bachelor of Social Work Program is a professional program that is designed to prepare generalists who are knowledgeable of social work theories, and who can demonstrate skills related to practice, research, and social policy analysis. Students and graduates undertake these activities in accordance with the Canadian Association of Social Workers's Code of Ethics. The program is accredited by the Canadian Association for Social Work Education.

Graduates have competence for entry-level social work positions in a variety of different practice areas. The program is based on the principles of social justice, human rights, and anti-oppression, with an emphasis on critical thinking and understanding the structural roots of social problems. Foundation courses are grounded in critical theoretical frameworks including Indigenous worldviews, feminism, and anti-racism.

The program is offered at multiple geographic sites including the Fort Garry Campus, the William Norrie Centre (Inner-city), the Université de Saint-Boniface, and Thompson, Manitoba (Northern Social Work Program) as well as by Distance Delivery.

### 1.1 Program

Degree	*Years to Complete	*Total Credit Hours
Bachelor of Social Work (Full-Time)	4	123
Bachelor of Social Work (Concentrated)**	2	123
Bachelor of Social Work (Part-Time)	Up to 9	123

\*This includes one year (30 credit hours) of prior university study.

\*\*Please see 4.1 B

### 1.2 Interfaculty Option in Aging

The Interfaculty Option in Aging is offered by the following faculties/colleges: Arts, Agriculture and Food Sciences, Medicine, Nursing, Kinesiology and Recreation Management, and Social Work. To complete the option, students will complete each of the following requirements: a) 2610\* Health and Physical Aspects of Aging; b) 2650\* The Social Aspects of Aging; c) one field placement SWRK 3150 or SWRK 4120 in aging d) one Field Focus of Social Work Practice course (SWRK 4200 or SWRK 4300) in aging. Students are encouraged to take courses from the participating units other than Social Work.

NOTE: \*These courses are offered on a rotational basis by participating units.

Upon the successful completion of these requirements, a notation will be added to the student's transcript. For further information on the Interfaculty Option in Aging, please refer to the Faculty's website [https://umanitoba.ca/faculties/social\\_work/](https://umanitoba.ca/faculties/social_work/)

## SECTION 2: Admission Requirements

The following is a summary of the admission requirements to the Bachelor of Social Work program. Equivalent academic courses completed at recognized universities elsewhere will be considered. All admission requirements, as well as application deadline dates and forms, are included in an applicant information bulletin that is available from the Admissions

Office, Enrolment Services, 424 University Centre; this information is also posted on the university's website.

## 2.1 Admission to the Fort Garry Social Work Program

### Admission Requirements

Completion of 30 credit hours of university level courses which are acceptable to the University of Manitoba.

The written English and mathematics requirements are recommended to be completed as part of University 1. If these requirements are not met in University 1 (i.e. the first 30 credit hours), as per the university policy, they must be completed within the first 60 credit hours of the programs. General Academic Regulations for a complete list of all courses which satisfy the university written English and mathematics requirement. Minimum GPA for consideration for all applicants (including Educational Equity applicants):

2.5

A Criminal Record Statement and a Child Abuse Registry (CAR) check (for a record of those registered as an offender) must be completed following selection.

Selection criteria: Two applicant pools are created; 60% of all spaces are allocated to applicants with the highest grades, and 40% of all spaces are allocated to applicants based on the Education Equity initiative.

### Concentrated Program

All applicants wishing to complete the program in two years of full-time study must have completed a minimum of 51 credit hours of university study (which are acceptable to the University of Manitoba) prior to admission to the BSW program. Applicants wishing to complete the degree through the two year concentrated program must have an Adjusted Grade Point Average of 3.00 from previous university study. In the event that three credit hours in each of written English and mathematics have not been completed as part of the 51 credit hours of previous university study, they must be completed within the first year of the two-year BSW program.

The deadline for submission of applications in March 1st (for September start date).

### The Selection Process

The selection process is designed to accomplish three objectives: to treat applicants fairly and equitably, to provide the diversity of practitioners required by the profession, and to provide for an efficient admissions process. The faculty selects applicants to the Fort Garry Campus B.S.W. program through two categories as described below.

Academic Achievement Category: 60% of all available positions are awarded on the basis of highest Adjusted Grade Point Average.

Educational Equity Initiative: 40% of all available positions are allocated to those eligible for inclusion in one or more of the Educational Equity Priority Groups and awarded on the basis of highest Adjusted Grade Point Average.

The purpose of the Educational Equity initiative is to achieve equality in professional education so that no person shall be denied educational opportunities or benefits for reasons unrelated to ability. In the fulfillment of this goal, the aim is to correct the conditions of disadvantage in professional education experienced by Canadian Aboriginal peoples, persons with disabilities, LGTBQ, immigrants and refugees to Canada, and persons who are, because of their race or colour, a visible minority in Canada. Giving effect to the principle of educational equity means more than treating persons in the same way; it also requires special measures and the accommodation of difference. Details of the Educational Equity initiative are provided in the application information bulletin.

Students in the Fort Garry Social Work Program must successfully meet the graduation criteria set for all BSW students in the Faculty of Social Work.

## 2.2 Admission to the Inner City Social Work Program

The Inner City Social Work (B.S.W.) ACCESS Program at the William Norrie Centre is an inner-city extension of the Faculty of Social Work. Students admitted to the Inner City Social Work Program are accepted directly into a

four-year B.S.W. program, and do not require prior university study.

-The objective of this program is to enhance the accessibility of the B.S.W. program by preparing as social workers those mature students who have had inner-city or similar social service experience, but who lack the normal university entrance requirements. Special academic and social support is provided to students admitted to the program. Staff assists candidates in arranging funding resources.

-All students complete a total of 123 credit hours of university study. Full time or part-time study is offered.

- Admission to the Inner City Social Work Program is limited. Applicants to the full-time program must be 21 years old, low income, and residents of Winnipeg at the time of application. The deadline date for submitting applications is March 1. Orientation begins mid-August and is mandatory

- A part-time B.S.W. Access program is offered to individuals who meet the above criteria, work for a Winnipeg or Aboriginal agency, and/or have two years employment in human service fields. Deadline for applications for part-time studies is February 1. Classes begin the first week in May.

As per the university's policy, all students are required to complete, within the first 60 credit hours of their programs, a minimum of one three credit hour course with significant content in written English, and a minimum of one three credit hour course with significant content in mathematics. Please refer to the Calendar's General Academic Regulations for a complete list of all courses which satisfy the university written English and mathematics requirement.

Students at the Inner City Social Work Program must successfully meet the graduation criteria set for all BSW students in the Faculty of Social Work. For further information, contact: Inner City Social Work Program, 485 Selkirk Avenue, Winnipeg, Manitoba, R2W 2M6; telephone: (204) 668-8160.

## 2.3 Admission to the Northern Social Work Program

The Northern Social Work (B.S.W.) ACCESS program, based in Thompson Manitoba, is an extension of the Fort Garry Faculty of Social Work. Students are admitted directly into a four-year B.S.W. program and do not require prior university study.

All students complete a total of 123 credit hours of university study. Full time or part-time study is offered.

The objective of this program is to enhance the accessibility of the B.S.W. program by preparing as social workers mature students who, without the support of the program, would be unable to successfully complete a university degree due to lack of financial resources, lack of academic qualifications and remote location. Special academic and personal support is provided to students admitted to the program, as well as some assistance in arranging funding resources.

Students who have completed 30 credit hours of university level courses and have a minimum GPA of 2.5 may apply as External Students.

Admission to the Northern Social Work program is limited. Applicants must meet specified northern residency requirements. The deadline date for submitting applications is March 1 (classes begin in September).

As per the university's policy, all students are required to complete, within the first 60 credit hours of their programs, a minimum of one three credit hour course with significant content in written English, and a minimum of one three credit hour course with significant content in mathematics. Please refer to the Calendar's General Academic Regulations for a complete list of all courses which satisfy the university written English and mathematics requirement. Students in the Northern Social Work program must successfully meet the graduation criteria set for all BSW students in the Faculty of Social Work. For further information, contact the Faculty of Social Work at Thompson, 3 Station Road, Thompson, Manitoba, R8N 0N3; telephone: (204) 677-1450

## 2.4 Admission to the Distance Delivery Social Work Program

The Faculty of Social Work is committed to the accessibility of social work education. The faculty has extended the concept of accessibility to include geographical accessibility through the delivery of the B.S.W. based on two approaches: (1) to individuals by means of an online study program and (2) to community-based groups using the cohort method.

The Distance Delivery B.S.W. program is intended to encourage individuals who are employed in the social services and living outside of Winnipeg, but who may not have had the opportunity to pursue professional social work education.

All students complete a total of 123 credit hours of university study. Full time or part-time study is offered.

Delivery methods for the online study component of the program include a combination of web conferences and online courses. Access to computer, high speed internet and headset with microphone is required.

All course examinations are scheduled and arranged by the university's Registrar's Office to take place in the student's community.

Delivery of the program to the community-based cohorts utilizes the face-to-face delivery with the option of a combination of face-to-face, web conferences, and online study.

Applicants to the Distance Delivery B.S.W. program must meet all three of the following requirements to be admitted into the program:

- Minimum of 30 credit hours of university level courses which are acceptable to the University of Manitoba, with a minimum GPA of 2.5 for consideration of all applicants, including Educational Equity applicants; and
- 1 year (1750 hours) of work experience, within the last 5 years, in the social services; and
- Residency outside of the city of Winnipeg.

Complete and detailed admissions information is available on our web site at [umanitoba.ca/faculties/social work](http://umanitoba.ca/faculties/social%20work) or by calling the Faculty of Social Work Distance Delivery BSW General Office at 204-474-7912.

The deadline for submission of applications is March 1st (for September start date).

As per the university's policy, all students are required to complete, within the first 60 credit hours of their programs, a minimum of one three credit hour course with significant content in written English, and a minimum of one three credit hour course with significant content in mathematics. Please refer to the Calendar's General Academic Regulations for a complete list of all courses which satisfy the university written English and mathematics requirement.

Students in the Distance Delivery B.S.W. program must successfully meet the graduation criteria set for all BSW students in the Faculty of Social Work.

## 2.5 The Université de Saint-Boniface

The Université de Saint-Boniface, in conjunction with the University of Manitoba, now offers a French language Bachelor of Social Work program. Please contact Program Coordinator at 204 237-1818 ext. 447 for more information.

## 2.6 Special Student Admission

A Special Student in Social Work is one who wishes to take undergraduate Social Work courses with no intentions of proceeding to a B.S.W. degree at the present time. In addition, the student is not currently registered at any other university. Students seeking admission as Special Students may

request information from the Faculty of Social Work, 521 Tier Building; telephone (204) 474 7050. Criteria for admission are:

- Successful completion of a minimum of 30 credit hours of university level courses which are acceptable to the University of Manitoba; **and**
- Adjusted Grade Point Average of 2.5 (C+).

Students are reminded they must apply online and submit an official transcript (one bearing the university seal) along with the application form available on the University of Manitoba website. An application fee applies. Once admitted as a Special Student, students will:

- Be limited to completion of nine credit hours of required social work courses plus SWRK 1310 and SWRK 2080.
- Be prohibited from registering for courses until August (refer to Aurora Student for specific dates).
- Have all courses classified as "SS," which means that grades for these courses may not generate a Grade Point Average.

### Students Enrolled in other Faculties/Colleges/Schools

Students currently enrolled in other faculties, colleges or schools at the University of Manitoba may register for Social Work courses provided they have completed a minimum of 30 credit hours of university study and achieved a minimum Cumulative Grade Point Average of 2.5. These students will also be limited to completion of SWRK 1310 and SWRK 2080 plus nine credit hours of required social work courses.

Courses available to Special Students and students enrolled in other faculties, colleges and schools at the University of Manitoba:

<b>Required Social Work Courses:</b>	
SWRK 1310	Introduction to Social Welfare Policy Analysis
SWRK 2080	Interpersonal Communication Skills
SWRK 2090	Human Behaviour and Social Work Practice
SWRK 2110	Emergence of the Canadian Welfare State
SWRK 2130	Comparative Social Welfare Systems
SWRK 3130	Contemporary Canadian Social Welfare
SWRK 3100	Systematic Inquiry in Social Work
<b>Elective Social Work Courses:</b>	
SWRK 2050	Community & Organizational Theory
SWRK 2070	Small Group Dynamics
SWRK 4050	Selected Topics in Social Work
SWRK 4080	Current Issues in Social Welfare

**NOTE:** Special and non-Social Work students are required to abide by the same pre- /co-requisite policy that applies to B.S.W. students.

## SECTION 3: Faculty Academic Regulations

The provisions of the chapter, General Academic Regulations and Requirements, and the chapter, University Policies, apply to all students. In addition, the Faculty of Social Work has regulations and requirements, published below, that apply specifically to its students.

All students are asked to note that some academic policies and regulations are under review and are subject to change.

### 3.1 Prerequisite and Co-requisite Policy

The faculty has established a set of pre-/co-requisite requirements to assist students in planning their program of study. All students must abide by the pre- and corequisite requirements for all courses. Any exceptions to the pre- and corequisite policy MUST be approved by the Committee on Academic Standings prior to course registration.

If a student successfully completes a course for which a pre/co-requisite requirement has not been satisfied, this course will not be considered applicable to their BSW program.

### 3.2 Residence Requirements for a Degree Program

The general university residence requirement applies to the Faculty of Social Work.

### 3.3 Scholastic Progress

Except in circumstances covered in the official regulations referred to below, clear standing in the faculty requires the Degree Grade Point Average of 2.5 (C+) at the end of each term. A minimum grade of 2.0 (C) is required for all Social Work courses. The passing grades for electives taken in other faculties, colleges or schools are those required by the faculties, colleges or schools concerned. Complete statements of the regulations governing scholastic progress in the Faculty of Social Work are published in the B.S.W. Student Handbook. Students wishing to do so may consult the policy governing scholastic progress as written in the B.S.W. Student Handbook with the Chair of the Committee on Academic Standings, or the Dean. In the event of any question or dispute, this set of regulations shall be considered the official version. Directors of off-campus programs and the Student Services and Admissions/ Advising Office at Fort Garry Campus will advise students on issues concerning scholastic progress.

1. The Scholastic Progress document listed in the BSW Student Handbook is intended to be a supplement to the University of Manitoba Undergraduate Academic Calendar. Should discrepancies exist between the information presented in the BSW Student Handbook and the Undergraduate Calendar, the latter shall prevail.

2. Decisions about a student's scholastic progress or required withdrawal on academic grounds are made by the Committee on Academic Standings of the Faculty of Social Work acting on behalf of the Faculty Council. These decisions are made after a student has completed 30 credit hours of coursework as a Faculty of Social Work student. For students that transfer in 51 to 60 credit hours, decisions will be made upon the completion of the initial 15 credit hours as a Faculty of Social Work student.

3. A student's degree grade point average (DGPA) will be calculated and recorded after each academic term in which the student registers.

4. Clear academic standing is required to continue in the Faculty of Social Work. Clear academic standing is attained by meeting all of the following requirements:

- a. A minimum grade of "C" (2.0) in all social work courses and a minimum grade of "D" in non-social work elective courses.
- b. A minimum average of "C+" in all courses taken prior to each review (DGPA a minimum of 2.5).

5. Permission of the Committee on Academic Standings is required to alter any pre-requisite or co-requisite requirements, for exceptional circumstances. Violation of pre/co-requisite policy will result in withdrawing a student from the course to which pre/co-requisite has not been completed.

6. A student who has not attained clear academic standing as defined by Section 4 above will have their academic status reviewed by the Committee on Academic Standings:

- a. A student who passes all courses, but whose DGPA is less than 2.5 minimum may be permitted to proceed on probation for one academic period (as determined by Committee on Academic Standings) unless the

DGPA is less than 2.0. To clear probation, a student must raise their DGPA to 2.5 by the end of the probationary period. A student may not be permitted to proceed in the concentrated program if they are on probationary status.

b. A student who passes all courses, but whose DGPA is less than 2.0 may be required to withdraw from the Faculty of Social Work. The Committee on Academic Standings will take into consideration:

- i. Performance in pass/fail courses;
- ii. Use of academic and personal supports in program; and
- iii. Life circumstances affecting academic performance.
- iv. Students in ACCESS programs (ICSWP and Northern BSW program) and cohorts.

c. A student who fails a non-social work course is subject to the regulations for supplemental privileges of the department concerned. Students should note, nonetheless, that all non-social work elective requirements must be completed.

d. A student who fails to meet the required standard (as per Field Evaluation Form) in Field Instruction may be allowed an extension/addendum, or may be required to repeat, or may be required to withdraw.

e. Unless approved by the Committee on Academic Standings, a student shall not be permitted to alter the co-requisite requirement for Field Instruction and Practices. Appeals notwithstanding, a student must have obtained a clear standing in Field Instruction 1 (SWRK 3150) and 6 credit hours of Practices (SWRK 4200), (including DGPA of 2.5 minimum) or permission of the Committee on Academic Standings in order to proceed to Field Instruction 2 (SWRK 4120) and an additional 6 credit hours of Practices (SWRK 4300).

f. No social work course where a final grade is achieved may be repeated more than once.

g. A student with a failing grade in more than two courses shall be required to withdraw from the Faculty of Social Work.

h. All students must complete within the first 60 credit hours, three credit hours in written English and three credit hours in Mathematics as part of the BSW degree requirements. Students who have not completed their Mathematics or Written English Requirements within the first 60 credit hours will be placed on hold and be required to speak to their Academic Advisor.

i. Unless approved by the Committee on Academic Standings, a student shall not be permitted to repeat a required or elective course or substitute an elective course for another.

In making a decision, the Committee on Academic Standings will take into account the overall academic performance of the student, recommendations of the student's instructors, and any particular circumstances of the student's situation which it deems to be relevant.

7. Subject to the provisions of Section 6 above, failure to attain clear academic standing, or to clear probationary status, are grounds upon which a student shall be required to withdraw from the Faculty of Social Work. When a student is to be considered for requirement to withdraw subject to the provisions of Section 6, the student shall be notified by mail of the date, time and place for the Committee on Academic Standings review meeting. The student shall receive a minimum of ten (10) working days' notice of the meeting date. They may present oral and/or written submissions at such a meeting and may bring an advocate to speak on their behalf. The Chair of the Committee on Academic Standings shall be notified prior to the meeting if the student intends to appear before the Committee.

8. Students must complete all their social work courses and non-social work electives within nine (9) years. Requests for extensions to go beyond the nine-year limit must be submitted to the Committee on Academic Standings for their assessment and possible approval prior to the time limit expiry date. The maximum time limit for an extension is two years. The

Committee shall also determine which, if any, courses previously completed shall need be repeated or replaced.

9. Along with provisions in Section 8 above, Social Work subject courses in the BSW program are valid for 9 years counting from when the student completed the course, including courses taken prior to admission. If a Social Work course expires while the student is still in the Faculty of Social Work, they will be required to repeat the course to fulfill the BSW degree requirements.

10. Students in clear academic standing who plan to re-register should ordinarily indicate their intention to do so by the deadline for applications for admission prior to the session in which they intend to register.

a. Students in clear academic standing who withdraw from the BSW Program for less than two calendar years and are within their nine-year limit may re-register by applying to the Program Site (Fort Garry, Inner City Social Work Program, Thompson or Distance Delivery) of the Faculty of Social Work.

b. Students in clear academic standing seeking to continue their BSW Program after a two calendar year, or more, absence, but within their nine-year limit and who have not registered with another faculty or institute during their absence, must submit a written request to the Committee on Academic Standings for re-entry.

c. Students wishing to re-enter the Faculty who have exceeded their nine-year limit, or who have registered in another faculty or institute during their absence must re-apply for admission to the Faculty through normal application procedures.

11. Students may ask the Committee on Academic Standings for reconsideration of any Standings decision, except the requirement to withdraw on academic grounds. Reconsideration requests should normally be received in writing by the Chair of the Committee of Academic Standings within ten working days of notification of a decision. Students who request a reconsideration shall be informed of the date, time and place of a reconsideration meeting. They may present oral and/or written submissions at such a meeting, and bring an advocate to speak on their behalf. All decisions of the Committee may be appealed to the Senate Committee on Appeals.

12. Notwithstanding the above regulations, students are reminded that the Senate has granted to the Councils of each professional Faculty the right to require any student to withdraw from the program for which they are enrolled. A full statement of the conditions governing this right is found in the following section on Requirement to Withdraw Criteria and Procedures.

13. A student who has been required to withdraw on academic grounds and who wishes to re-enter the Faculty must request reinstatement from the Committee on Academic Standings. The following will apply in such cases:

- The applicant will be expected to demonstrate that they will now be able to meet the academic requirements of the program.

- No application for reinstatement will be considered before a minimum period of 2 years has elapsed from the effective date of the required withdrawal to the effective date of the requested reinstatement.

- If the student is reinstated after the time limit for program completion has expired (see Section 8), the Committee shall determine which, if any, courses previously completed shall be repeated or replaced.

14. Students wishing to re-enter the Faculty who have registered in another faculty or institute during their absence must re-apply for admission to the Faculty through normal application procedures. A student required to withdraw as a result of proceedings under the provisions of the Professional Unsuitability By-Law, or the Student Discipline By-Law, will not normally be reinstated to the Faculty. Exceptional requests may be directed to the Dean of the Faculty.

15. As per the co-requisite policy of the Faculty, when a student withdraws from a Field Instruction course (SWRK 3150, SWRK 4120) the Faculty will automatically withdraw the student from the co-requisite course (Field Focus – SWRK 4200, SWRK 4300). Additionally, when a student withdraws from a Field Focus course (SWRK 4200, SWRK 4300), the Faculty will automatically withdraw the student from the co-requisite course (Field Instruction – SWRK 3150, SWRK 4120).

16. The Faculty's policy concerning voluntary withdrawal from courses is identical to that found in the general regulations for the University, with the exception of co-requisite courses (see Section 6 above). Students are allowed one voluntary withdrawal from SWRK 3150 Field Instruction 1 and one voluntary withdrawal from SWRK 4120 Field Instruction 2.

17. BSW students who are enrolled in the Fort Garry campus, Inner City Social Work Program and Northern Social Work Program may take up to 6 credit hours of online Social Work courses by Distance Delivery. A student requesting to take more than 6 credit hours of distance delivery courses will require approval of the Associate Dean Undergraduate.

18. As a requirement by the Social Work accreditation standards provided by the Canadian Association of Social Work Education (CASWE), a minimum of 40% of BSW degree requirements must be non-social work courses. A minimum of 48 credit hours of non-social work courses must make up the elective requirement of the BSW degree in order to graduate from the program.

### 3.4 Professional Unsuitability Bylaw

The Senate has approved a bylaw granting authority to the faculty to require a student to withdraw for reasons of professional unsuitability (see the chapter, General Academic Regulations and Requirements). The bylaw is published in the B.S.W. Student Handbook. Students are reminded of their obligation to be familiar with all regulations governing their continued progress in the program.

### 3.5 Dean's Honour List

BSW student eligibility for the Dean's Honour List is considered on a term by term basis. To qualify for the Dean's Honour List a student must:

- Have completed a minimum of 9 credit hours in the term under consideration, of which a minimum 6 credit hours must be with a standard grade.
- and

- Have achieved a minimum Term GPA of 3.6  
Pass/Fail courses are included in the credit hour count.

### 3.6 Appeal of Grades

The general university policy for appeal of assigned grades applies to the Faculty of Social Work. As well, the Faculty Council has approved a Social Work policy on the appeal of assigned grades and term work. The policy is outlined in the B.S.W. Student Handbook. The Faculty Council has established the Academic Standing Appeals Committee to deal with these matters.

### 3.7 Distance Courses Open to Fort Garry, Inner City and Northern Social Work Students

Fort Garry, Inner City and Northern BSW students may obtain up to a maximum of 6 credit hours of required social work courses by Distance Delivery. A student requesting to take more than 6 credit hours requires the approval of the Associate Dean (Undergraduate).

### 3.8 Opting Into Field and Practices of the Two-Year Plan

Students may apply for 'opt-in' by fulfilling the following conditions:

- Consult with and submit written request for ‘Opt-in’ to the Coordinator of Student Services and Admission/Advising Office and Field Coordinator no later than February 1.
- Successfully complete all Social Work courses required by the end of Winter term prior to opt-in year (except for SWRK 4210 Feminist Perspectives on Social Work Practice, SWRK 4220 Aboriginal People and Social Work Practice, SWRK 4200 Field Focus of Social Work Practice 1, SWRK 4300 Field Focus of Social Work Practice 2, SWRK 3150 Field Instruction 1 and SWRK 4120 Field Instruction 2) and
- Successfully complete all elective courses (including written English and mathematics requirements) by the end of Winter term prior to opt-in year.
- Achieve a minimum Degree Grade Point Average of 3.00 at point of opting in.
- Final approval to opt-in is also based on faculty resources: space availability in SWRK 4210 Feminist Perspectives on Social Work Practice and SWRK 4220 Aboriginal People and Social Work Practice during Summer Session; space availability in SWRK 4200 Field Focus of Social Work Practice 1 and SWRK 4300 Field Focus of Social Work Practice 2 courses in Fall and Winter terms; and the availability of concentrated field placements.

**3.9 Courses Open to Challenge for Credit**

The Faculty of Social Work accommodates those students who are qualified and who can demonstrate acceptable knowledge and skill, by allowing them to challenge certain Social Work courses. They are:

SWRK 2080	Interpersonal Communication Skills
SWRK 3100	Systematic Inquiry in Social Work
SWRK 3130	Contemporary Canadian Social Welfare

Information on the procedures for challenge is available in the B.S.W. Student Handbook. The dates at which courses may be challenged are given in the academic schedule of the Undergraduate Calendar.

**3.10 Credit for Social Work Courses Taken at Other Universities**

The Faculty of Social Work supports the principle of granting credit for social work courses taken within the last nine years in accredited programs leading to professional social work qualification. Equivalency shall not be granted for SWRK 3150 or SWRK 4120. The Faculty of Social Work will not entertain requests for consideration for equivalency transfer for the SWRK 4200 which is co-requisite to SWRK 3150 and/or SWRK 4120. For more information on granting credits for social work courses please refer to the B.S.W. Student Handbook for more details.

**SECTION 4: Program and Graduation Requirements**

When planning your workload, allow approximately two hours of study/reading time for each hour of class time. It is also advisable to schedule time to use the library. The faculty will offer as many evening courses as possible each year; however, some courses may only be available during daytime.

**4.1 Curriculum Outline**

**A) Three-Year Plan**

This plan allows a Fort Garry Campus student who has completed 30-50 credit hours of general university study prior to admission, to combine Social Work professional courses with other university courses. It requires three years of full-time study, after admission to the faculty, to complete the requirements for the B.S.W. degree. A student who has already completed the 51 credit hours of general university study which are

acceptable to the University of Manitoba may also register for this program ignoring the elective requirements.

**Three-Year Plan Example**

Course No.	Course Name	Credit Hours	Year
SWRK 1310	Introduction to Social Welfare Policy Analysis	3	1
SWRK 2080	Interpersonal Communication Skills	3	1
SWRK 2090	Human Behaviour and Social Work Practice	6	1
SWRK 3140	Introduction to Social Work Practice	3	1
SWRK 3150	Field Instruction 1	12	2
SWRK 4200	Field Focus of Social Work Practice 1	6	2
SWRK 4120	Field Instruction 2	12	3
SWRK 4300	Field Focus of Social Work Practice 2	6	3
SWRK 2110	Emergence of the Canadian Welfare State	3	1
	<b>or</b>		
SWRK 2130	Comparative Social Welfare Systems	3	1
SWRK 3100	Systematic Inquiry in Social Work	3	1
SWRK 3130	Contemporary Canadian Social Welfare	3	2
SWRK 4210	Feminist Perspectives on Social Work Practice	6	2 or 3
SWRK 4220	Aboriginal People and Social Work Practice	6	2 or 3

**NOTES:**

- SWRK 1310 and SWRK 2080 are open to University 1 students,
- All students must take the foundation courses very early in the program. Failure to do so may restrict progression through the program.
- See course descriptions (Section5) for a complete list of pre-/co-requisites.
- Students must take SWRK 1310 before proceeding to SWRK 2110, SWRK 2130, and SWRK 3130. In addition, SWRK 1310, SWRK 2080 and SWRK 2090 are pre- or co-requisite to SWRK 3140.
- All foundation courses (SWRK 1310, SWRK 2080, SWRK 2090 and SWRK 3140) are pre-requisite to SWRK 4200, SWRK 4300, SWRK 4210, SWRK 4220, SWRK 3150 and SWRK 4120. In addition, SWRK 3150 Field Instruction 1 and SWRK 4200 Field Focus of Social Work Practice 1 are pre-requisites to SWRK 4120 Field Instruction 2.
- See Aurora Class Schedule for a list of SWRK 4200 and SWRK 4300 courses.
- Students must take one section of SWRK 4200 and one section of SWRK 4300. Each section is anchored in a different field or focus of social work practice. It is recommended that students take SWRK 4200 and SWRK 4300 courses that corresponds with their field placement area of practice.
- Students must take SWRK 4200 concurrently with SWRK 3150 and SWRK 4300 concurrently with SWRK 4120. If a student withdraws from SWRK 4200, they must also withdraw from SWRK 3150 and if a student withdraws from SWRK 4300, they must also withdraw from SWRK

4120. As well, if a student withdraws from SWRK 3150 they must withdraw from SWRK 4200 and if a student withdraws from SWRK 4120 they must withdraw from SWRK 4300. Students, who fail to withdraw from the co-requisite course, will be withdrawn.

- Student admitted after '97-'98 must complete 3 credit hours of written English and 3 credit hours of mathematics as part of first 30 credit hours (unless completed prior to admission).
- This plan assumes that students do not take courses in the summer.

Year 1 = 21 Credit hours social work courses	6 Credit hours electives
Year 2 = 27 Credit hours social work courses	6 Credit hours electives
Year 3 = 24 Credit hours social work courses	9 Credit hours electives

**Planning Chart for Elective Courses for Three-Year Program**

Required Electives	Credit Hours	Year
Admitted on basis of	30	1
Unallocated transfer		
Electives to be completed		
Written English (W)		1
Mathematics (M)		1

**B) Two-Year Plan (Concentrated Program)**

**Fort Garry Campus**

Fort Garry Campus students who have completed 51 credit hours of general university study prior to admission to the B.S.W. program, and have attained a minimum Adjusted Grade Point Average (A.G.P.A.) of 3.00, are eligible for the two year plan (Concentrated Program). If a student has completed the 51 credit hours of general university study which are acceptable to the University of Manitoba, but does not have the required 3.00 A.G.P.A., or prefers a more extended time period, that student can register for either the three-year plan or the part-time plan.

Students eligible to register for the concentrated program may choose to do so at point of initial registration following admission only.

If any of the required social work courses were part of 51 credit hours completed prior to admission to the BSW program, they will have to be substituted with elective courses after admission to the BSW program. Any outstanding elective courses, including written English and mathematics requirements, must be completed by the end of Winter term in the first year of the BSW Concentrated Program.

Students must maintain a Degree Grade Point Average (D.G.P.A.) of a minimum 3.00 at the end of each term to remain in the Concentrated Program. In an instance where one or both of these requirements are not met, the student's status will be changed from Concentrated to Regular.

Students planning on completing their program in two years must follow the structure outlined below (which requires completing at least 12 credit hours, including SWRK 4210 and SWRK 4220, during the summer).

**Two-Year Plan**

Year 1 (September - August)		
Course No.	Course Name	Credit Hours
SWRK 1310	Introduction to Social Welfare Policy Analysis	3

SWRK 2080	Interpersonal Communication Skills	3
SWRK 2090	Human Behaviour and Social Work Practice	6
SWRK 2110	Emergence of the Canadian Welfare State	3
<b>or</b>		
SWRK 2130	Comparative Social Welfare Systems	3
SWRK 3100	Systematic Inquiry in Social Work	3
SWRK 3130	Contemporary Canadian Social Welfare	3
SWRK 3140	Introduction to Social Work Practice	3
SWRK 4210	Feminist Perspectives on Social Work Practice	6
SWRK 4220	Aboriginal People and Social Work Practice	6
<b>Year 2 (September - May)</b>		
SWRK 3150	Field Instruction 1	12
SWRK 4200	Field Focus of Social Work Practice 1	6
SWRK 4120	Field Instruction 2	12
SWRK 4300	Field Focus of Social Work Practice 2	6
<b>Total credit hours</b>		<b>72</b>

**Note:** See course descriptions (Section 5) for a complete list of pre/co-requisites

**C) The Part-Time Plan**

Please note that it is possible to pursue the Bachelor of Social Work degree through a program of part-time study. Part-time students must complete all the required social work and elective courses within nine years of their admission to the faculty.

**4.2 Field Instruction**

Field instruction provides students with an opportunity to engage, as beginning practitioners, in the processes of social work assessment, planning, intervention, evaluation and integration of theory from classroom course work to placement setting. Students complete their field placement requirements in a variety of programs and agencies. Possible field placement sites may include school settings, government policy departments, correctional services, child and family services, immigrant and refugee services, and health care services and other settings.

Students must successfully complete the following pre-requisite course requirements and be in the appropriate year of their degree plan to be eligible to register for Field Instruction:

SWRK 1310 Introduction to Social Welfare Policy	SWRK 2090 Human Behaviour in Social Work
SWRK 2080 Interpersonal Communication Skills	SWRK 3140 Introduction to Social Work Practice

**The annual deadline for Field Applications: February 1**

Students wishing to divert from their degree plan should consult with their Academic Advisor and/or the Coordinator of Student Services and Admissions/Advising Office before February 1, of the Academic year they wish to pursue Field Instruction.

All B.S.W. students are required to complete two field placement requirements:

SWRK 3150: Field Instruction 1      SWRK 4120: Field Instruction 2

Co-requisite course:      Co-requisite course:  
SWRK 4200: Field Focus of Social      SWRK 4300: Field Focus of Social  
Work Practice      Work Practice

Co-requisite: A course that must be completed in the same term as a second course. This applies to SWRK 3150 and SWRK 4200 as well as SWRK 4120 and SWRK 4300. SWRK 3150: Field Instruction 1 and SWRK 4120: Field Instruction 2 is graded on a PASS/FAIL basis. The Field Focus of Social Work Practice course (SWRK 4200/4300) selected should correspond as closely as possible to the Field Placement's area of practice.

University-appointed, agency-based Field Instructors who have knowledge, skills, and expertise in social work practice provide Field Instruction.

Faculty Field Liaisons are also appointed and available to provide support to Students and Field Instructors throughout the academic session.

Students must demonstrate readiness for practice during the process of securing a placement.

The Field Coordinator is the Instructor of Record for SWRK 3150 and SWRK 4120.

Students seeking field placement in a health related setting are expected to comply with the immunization policies of the designated Health Authority in their region or community area.

All students must meet all agency - specific requirements prior to commencing field placement, such as; Child Abuse Registry Checks, Vulnerable Sector Record Checks, and Criminal Record Checks, or others as determined and specified by the respective field agency. Please note students will be responsible for any additional fees associated with the above requirements.

If concerns are raised regarding a student's behaviour, judgment or practice, and/or if the student demonstrates difficulty in their attempts to attain confirmation of field placement from their performance in the field interview process: the Field Coordinator and Associate Dean of Undergraduate Programs will determine what additional steps may be taken to resolve this matter, or may determine the student is unprepared for meeting the requirements of field placement at this time.

Students are expected to demonstrate initiative and participate actively in all aspects of field placement. If a student is unable to attend field placement due to illness or agency closure, they must make up the field hours for that particular day.

Students are permitted one voluntary withdrawal from the course SWRK 3150: Field Instruction 1 and one voluntary withdrawal from the course SWRK 4120: Field Instruction 2. If a student withdraws from SWRK 3150, they must withdraw from the co-requisite SWRK 4200 and if a student withdraws from SWRK 4120, they must withdraw from co-requisite SWRK 4300. A student with more than one voluntary withdrawal from SWRK 3150 or SWRK 4120 shall be required to withdraw from the Faculty.

If a student fails SWRK 3150 course or SWRK 4200 they cannot take SWRK 4120 or SWRK 4300 until both SWRK 3150/SWRK 4200 requirements are met. Students need to complete both SWRK 3150 and SWRK 4200 to proceed to SWRK 4120 and SWRK 4300. In Accelerated Field/Concentrated Field, if a student fails SWRK 3150 in the Fall Term, they are permitted to continue their SWRK 4200 course through to the end of Winter term. As a result of failing SWRK 3150, in January, you are required to withdraw from both SWRK 4120 AND SWRK 4300. Students interested in taking their placement at their place of employment should consult the BSW Handbook for more details on the policy and procedure.

#### **Prior Learning Assessment and Recognition (PLAR) - SWRK 3152**

PLAR is an option available to any BSW student, regardless of program delivery method.

Any BSW student who has two or more years of Social Work employment experience in the past 5 years may choose to apply for eligibility to register for SWRK 3152 PLAR, in lieu of their first field placement requirement. For more information on how to apply or explore PLAR: [http://umanitoba.ca/faculties/social\\_work/programs/distance/902.html](http://umanitoba.ca/faculties/social_work/programs/distance/902.html)

#### **The annual deadline to apply for PLAR: December 1**

Students enrolled in PLAR are required to complete:

SWRK 3152: Prior Learning Assessment and Recognition

Co-requisite course:  
SWRK 4200: Field Focus of Social Work Practice

To connect with the Field Education Program Team specific to your program please go to: [http://umanitoba.ca/faculties/social\\_work/programs/field\\_education/595.html](http://umanitoba.ca/faculties/social_work/programs/field_education/595.html)

#### **Fort Garry Campus and Inner City Social Work Program:**

Prior to applying for field placement, students are expected to participate in the *Everything you wanted to know about Field* workshop and *The Resumé and Interview Preparation* workshop offered at Fort Garry and Inner City programs prior to Field Information Day. Students are required to e-mail a completed Field Application form, along with an updated résumé, on or before Feb. 1 to the Field Program Assistant.

Please refer to the Field Education Program website for more info [http://umanitoba.ca/faculties/social\\_work/programs/field\\_education/index.html](http://umanitoba.ca/faculties/social_work/programs/field_education/index.html)

Fall/Winter Field Application Form or [http://umanitoba.ca/faculties/social\\_work/media/Fall-Winter\\_Field\\_Application\\_Form.doc](http://umanitoba.ca/faculties/social_work/media/Fall-Winter_Field_Application_Form.doc)

Summer Field Application Form or [http://umanitoba.ca/faculties/social\\_work/media/Summer\\_Field\\_Application.doc](http://umanitoba.ca/faculties/social_work/media/Summer_Field_Application.doc)

Most Field Placement agencies will require that the student participate in an interview process and will indicate to the Field Coordinator acceptance for Field Placement.

Upon receipt of the student's completed Field Application Form, new users to the Intern Placement Tracking (IPT) program will receive a temporary password, user name and an IPT Student Manual. In IPT, students are required to identify up to eight agency preferences for placement, due on or before March 1st. Field placements will not be secured for students who do not submit their request, along with all required documentation, by the aforementioned deadline dates.

The Field Coordinator is responsible for securing a reasonable Field Placement. Please note: a student placement in a field setting is **not guaranteed** based on completion of pre-requisite courses and/or submission of a Field Application Form. Please note: Fort Garry Campus and Inner City Social Work Program Students are **not** to contact field placement agencies or prospective Field Instructors directly.

The Field Coordinator or Field Program Assistant refers students eligible for field to an appropriate field placement agency for consideration of an interview. While efforts will be made to consider a student's field focus area of interest, there is no guarantee of a student being placed in one of her/his identified agency preferences. Final authority for field placement referral and confirmation rests with the Field Coordinator. Decisions may be based on availability of agency openings as well as the educational needs of the student. Students who are offered a field placement will receive confirmation of the placement by e-mail.

All Fort Garry and Inner City students registered in the Fall/Winter term Field Instruction courses (SWRK 3150 and SWRK 4120) are required to

attend field orientation on the first Tuesday of September. As attendance at field orientation is mandatory, regular classes are not scheduled on the first Tuesday in September.

Students requiring additional information may contact the Field Program Assistant at 204-474-6171 or the Field Coordinator at 204-474-8767.

### Fort Garry Campus Regular 3 year Program

Students registered in SWRK 3150 or SWRK 4120 attend field placement two days per week (15 hours) during Fall/Winter terms. Students require a minimum Degree Grade Point Average (D.G.P.A.) of 2.5 to be eligible for field.

### Fort Garry Campus Concentrated Program

Students attend field placement four days per week (30 hours) during Fall/Winter terms for a total of 840 hours, participating in one field placement only. Students contemplating switching to a concentrated field placement are required to have maintained a minimum Degree Grade Point Average (D.G.P.A.) of 3.0. Students should make themselves aware of eligibility requirements of the Concentrated Program and contact the Coordinator of Student Services and Admissions/Advising Office for confirmation of their eligibility no later than February 1.

### Inner City Social Work Program

Students registered in SWRK 3150 or SWRK 4120 attend field placement two days per week (15 hours) during Fall/Winter terms. Students require a minimum Degree Grade Point Average (D.G.P.A.) of 2.5 to be eligible for field.

### Inner City Social Work Program - Accelerated Field:

Students who have completed 75 credit hours including required pre-requisites and have maintained a minimum Degree Grade Point Average (D.G.P.A.) of 3.0 are eligible to apply for the ICSWP Accelerated Field. Students attend field placement four days per week (30 hours) during Fall/Winter Terms for a total of 840 hours, participating in one field placement only. Inner City Social Work Program (ICSWP) students interested in pursuing Accelerated Field are encouraged to consult with their Academic Advisor to confirm eligibility and receive guidance on the procedure. Students wishing to do an Accelerated Field must submit a written request to the Director of ICSWP. If approved, written documentation from the Director can be attached to the student's Field Request Form, February 1.

Students eligible for the ICSWP Accelerated Field undertake Field Instruction 1 (SWRK 3150) and Field Instruction 2 (SWRK 4120) at one field placement between September and April. Students approved to take Accelerated Field must also register for two co-requisite Field/Focus of Social Work Practice (SWRK 4200 and SWRK 4300) courses.

### Fort Garry Campus and Inner City Social Work Program

#### Summer Term SWRK 4120 Field Instruction 2 (May-August):

Summer field placements are an opportunity for BSW students from Fort Garry Campus and ICSWP to complete SWRK 4120: Field Instruction 2 over a shorter period than the regular Fall/Winter academic session. It is an exception to the usual mode of field education at the BSW level. It is offered for the convenience of students and when resources permit. Please note: SWRK 3150: Field Instruction 1 is not offered in summer session.

Students require a minimum Degree Grade Point Average (D.G.P.A.) of 3.0 to be eligible to apply for Summer Field. Students in SWRK 4120: Field Instruction 2 in the summer term must register for the co-requisite course SWRK 4300: Field Focus of Social Work Practice.

Students who have previously received a grade of FAIL in SWRK 3150: Field Instruction 1 are not eligible to take SWRK 4120: Field Instruction 2 in summer session. Students who have previously failed SWRK 4120: Field

Instruction 2 and have been given the opportunity to repeat it are not eligible to repeat SWRK 4120: Field Instruction 2 in summer session.

### Fort Garry Campus and Inner City Social Work Program

Please refer to the BSW Handbook for more details pertaining to Field Instruction Taken at Place of Employment<sup>111</sup>

### Northern Program:

Students work closely with the Field Coordinator in preparing for and securing an appropriate field placement. Please note a student placement in a field setting is **not guaranteed** based on completion of pre-requisite courses.

### 3<sup>rd</sup> Year Students complete SWRK 3150: Field Instruction 1:

Students are required to complete 460 hours including 420 hours in field placement and 40 hours of integrated seminar. Students approved as eligible for field require a minimum Degree Grade Point Average (D.G.P.A.) of 2.5.

### 4<sup>th</sup> Year Students complete SWRK 4120: Field Instruction 2:

Students are required to complete 460 hours including 420 hours in field placement and 40 hours of integrated seminar. Students approved as eligible for field require a minimum Degree Grade Point Average (D.G.P.A.) of 2.5.

Students requiring additional information may contact the Field Coordinator at 204-677-1456.

### Distance Delivery Program:

The student is responsible for securing their own Field Placements and need to follow the guidelines for securing Field Placements as per the website:

#### Distance Delivery Field Education Program:

[http://umanitoba.ca/faculties/social\\_work/programs/distance/903.html](http://umanitoba.ca/faculties/social_work/programs/distance/903.html)

For more information on [Applying for Field](#) check out: [http://umanitoba.ca/faculties/social\\_work/programs/distance/904.html](http://umanitoba.ca/faculties/social_work/programs/distance/904.html)

[Field Application Forms](#) are available online at:

[http://umanitoba.ca/faculties/social\\_work/programs/distance/904.html](http://umanitoba.ca/faculties/social_work/programs/distance/904.html)

Students applying for field placement for the:

### Fall/Winter Term (September to April):

Students must attend a Field Preparation web conference offered throughout the months of September to January and submit a completed Field Application Form by February 1st. Students approved as eligible for field require a minimum Degree Grade Point Average (D.G.P.A.) of 2.5. Students will be required to complete a Field Preparation module outlining guidelines and procedures for applying and securing placements across Canada.

Students registered in SWRK 3150 or SWRK 4120 in Fall/Winter terms (September to April – 28 weeks) attend field placement two days or 15 hours per week for a total of 420 hours. Students who are approved for Field must also register for the co-requisite Field Focus of Social Work Practice (SWRK 4200 or SWRK 4300) course.

### Summer Term (May to August):

Students must attend a Field Preparation web conference offered throughout the months of September to January and must submit a completed Field Application Form by February 1. Students require a minimum Degree Grade Point Average (D.G.P.A.) of 3.0 to be eligible to apply and will be required to complete a Field Preparation module outlining

guidelines and procedures for applying and securing placements across Canada.

Students registered in SWRK 3150 or SWRK 4120 in the Summer term (May to August -14 weeks) attend field placement four days or 30 hours per week for a total of 420 hours. Students who approved for Field must also register for the co-requisite Field Focus of Social Work Practice (SWRK 4200 or SWRK 4300) course.

#### **Accelerated Field Fall/Winter Term (September to April): Field Instruction 1 (SWRK 3150) and Field Instruction 2 (SWRK 4120)**

Students who have completed 75 credit hours including required pre-requisites and have maintained a minimum Degree Grade Point Average (D.G.P.A.) of 3.0 are eligible to apply for Accelerated Field. Students complete Field Instruction 1, SWRK 3150 September – December followed by Field Instruction 2 SWRK 4120 January – April. Students registered in Accelerated Field Instruction attend field placement four days or 30 hours per week for a total of 840 hours by end of term in April.

Students who are approved to take Accelerated Field must also register for two co-requisite Field Focus of Social Work Practice (SWRK 4200 and SWRK 4300) courses.

All students registered in Distance Delivery Field Instruction courses (SWRK 3150 and SWRK 4120) are required to complete several Field Instruction Modules and participate in a one-hour web conference prior to entering field placement. Completion of the Field Instruction Modules and attendance at Field Instruction Web Conference is mandatory.

Students requiring information may contact the Distance Delivery Field Assistant at 204-474-9537 or the Distance Delivery Field Coordinator at 204-474-8316

Field placements will not be approved for students who do not submit the completed Field Application Form by the deadline date. Final approval for field placement rests with the Distance Delivery Field Coordinator. Decisions may be based on availability of agency openings as well as the educational needs of students.

#### **4.3 Requirements for Graduation**

Eligibility for graduation is contingent upon:

- The successful completion of 72 credit hours of required Social Work courses; successful completion means attaining a minimum grade of "C" in all Social Work courses and a minimum Degree Grade Point Average (D.G.P.A.) of 2.50 (C+).
- 
- As a requirement by the Social Work accreditation standards provided by the Canadian Association of Social Work Education (CASWE), a minimum of 40% of BSW degree requirements must be non-social work courses. A minimum of 48 credit hours of non-social work courses must make up the elective requirement of the BSW degree in order to graduate from the program.
- The successful completion of 51 credit hours of electives. Students admitted after 1997/98, are required to successfully complete three credit hours of written English and three credit hours of Mathematics within the first 60 credit hours of their programs. The passing grades for electives taken in other faculties, colleges or schools are those required by the faculties, colleges or schools concerned. A minimum of "C" must be attained in Social Work electives. The minimum Degree Grade Point Average (D.G.P.A.) required for graduation is also 2.50 (C+).
- Total credit hours required for a B.S.W. are 123 (51 credit hours of electives + 72 credit hours of required Social Work courses).

#### **Student Responsibilities**

It is the student's responsibility to be familiar with all the requirements of

the B.S.W. degree, to ensure compliance with degree program requirements, including prerequisite requirements, and to understand all relevant regulations, policies and practices. The final completion of degree requirements is the student's responsibility.

## **SECTION 5: Course Descriptions**

### **SECTION 5: Course Descriptions-1000 Level**

#### **SWRK 1310 Introduction to Social Welfare Policy Analysis**

**3 Cr. Hrs.**

Examination of social welfare policy as the end product of ideologies. Introduction of elements of ideology and the comparison of competing ideological systems. The relationship of economic, political and ethical views of society and their manifestations in societal responses to human need and social services.

### **SECTION 5: Course Descriptions-2000 Level**

#### **SWRK 2050 Community and Organizational Theory**

**3 Cr. Hrs.**

Deals with concepts such as conflict and power which relate social work practice to the nature of secondary human relationships. These are applied to the dynamics within and between communities and organizations.

#### **SWRK 2070 Small Group Dynamics**

**3 Cr. Hrs.**

Group norms, values, and goal as they relate to decision-making and communication patterns in groups. Membership roles and leadership styles are related to group development and group functioning.

#### **SWRK 2080 Interpersonal Communication Skills**

**3 Cr. Hrs.**

A basic core of interpersonal skills for communicating effectively and for establishing and maintaining relationships in one-to-one and group situations. Emphasis is on experiential learning using a variety of techniques.

#### **SWRK 2090 Human Behaviour and Social Work Practice**

**6 Cr. Hrs.**

Students are introduced to a broad range of theories and will develop an understanding of how people and environments reciprocally affect each other. Particular emphasis is placed on understanding how gender, race, ethnicity, socioeconomic factors, age, ability, and sexual orientation contribute to and influence human behaviour throughout the lifespan.

#### **SWRK 2110 Emergence of the Canadian Social Welfare State**

**3 Cr. Hrs.**

An examination of the emergence of the Canadian welfare state from its various colonial inheritances to the Canada Assistance Plan. Social, political, economic, religious, geographical, demographic and cataclysmic factors influencing the development of the welfare state are examined and analyzed. Prerequisite: SWRK 1310. Students may not hold credit for both SWRK 2110.

#### **SWRK 2130 Comparative Social Welfare Systems**

**3 Cr. Hrs.**

The welfare systems of three modern societies are examined and compared. Economic, political, social, religious, geographical, demographic and cataclysmic factors influencing the development of the various models of social provision are analyzed for their significance to the Canadian welfare system. Prerequisite: SWRK 1310. Students may not hold credit for both SWRK 2130.

#### **SWRK 2650 The Social Aspects of Aging**

**3 Cr. Hrs.**

An examination of the social aspects of aging. Emphasis on understanding the aging process as a life transition involving adaptation through interaction with social and physical environments. Students may not hold credit for REC 2650 and IDES 2650 or HMEC 2650 or SWRK 2650. (A required Option in Aging course)

### **SECTION 5: Course Descriptions-3000 Level**

#### **SWRK 3100 Systematic Inquiry in Social Work**

**3 Cr. Hrs.**

Relates systematic methods of scientific inquiry to social work practice; theory building for practice; information collection; descriptive data for

decision-making, understanding technical research material, introduction to issues of research design.

**SWRK 3130 Contemporary Canadian Social Welfare 3 Cr. Hrs.**

An examination of social welfare in Canadian society, leading to an evaluation of present approaches in the light of changing economic and social conditions and changing needs. Prerequisite: SWRK 1310.

**SWRK 3140 Introduction to Social Work Practice 3 Cr. Hrs.**

Introduces students to ecological and other generalist based practice frameworks and the role of professional social workers. Course emphasizes values and knowledge in context of a rational approach to problem solving which includes problem definition, assessment, contracting, intervention and evaluation. Pre- or co-requisite SWRK 1310, SWRK 2080 and SWRK 2090.

**SWRK 3150 Field Instruction 1 12 Cr. Hrs.**

A first educationally directed field experience in which the student will have the opportunity to assume responsibility for social work engagement, assessment, planning, intervention and evaluation, integrating theory from class. While Access Programs may require additional field hours, 420 hours is the minimum required for all BSW students. This time commitment includes involvement with the agency in planning for, and engaging in, practice activity, and evaluation of performance. It also includes educational contact time with the field instructor in individual and/or group sessions. Subject to satisfactory completion and reports, students will be graded on a pass/fail basis. Prerequisites: SWRK 1310, SWRK 2080, SWRK 2090, and SWRK 3140, and consent by course instructor (Field Coordinator). Co-requisite: 6 credit hours of SWRK 4200.

**SWRK 3152 Field Instruction 1 12 Cr. Hrs.**

PLAR(SWRK 3152) is a self-study course in which the student (upon acceptance) will have the opportunity to demonstrate basic knowledge as required of all students in first field placement. Students will be required to demonstrate learning in social work engagement, assessment, planning, intervention and evaluation, as well as integration of values and ethics and theoretical frameworks as attained in pre-requisite foundation courses. Applicants who have been accepted and register in SWRK 3152 in lieu of first field placement, SWRK 3150, will be required to complete workbook assignments on or before designated due dates and to contact PLAR Assessor when additional classification or support is required. Subject to satisfactory completion of assignments and reports, students will be evaluated and graded on a pass/fail basis. Prerequisites: SWRK 1310, SWRK 2080, SWRK 2090, SWRK 3140. Co-requisites: SWRK 4200. Students may not hold credit for both SWRK 3152 and SWRK 3150.

**SECTION 5: Course Descriptions-4000 Level**

**SWRK 4050 Selected Topics in Social Work 3 Cr. Hrs.**

Directed readings or concentrated study in some aspect of social service which is of interest to the student. Students must contract with an instructor prior to registration. Prerequisite: written consent of instructor.

**SWRK 4070 Social Problem and Social Work Practice Seminar 3 Cr. Hrs.**

In-depth study of the problem area, exploration of the ways other disciplines relate to the problem, and strengthening of interventive abilities of the student. Prerequisite: SWRK 3040 / SWRK 3120, SWRK 4200 / SWRK 3150 or written consent of instructor.

**SWRK 4080 Current Issues in Social Welfare 3 Cr. Hrs.**

Study of a particular area of social welfare to improve policies and practices. Students may select one seminar from several which are offered. These may vary from year to year.

services. Emphasis is on experiential learning of knowledge, process and techniques.

**SWRK 4270 Crisis Intervention 3 Cr. Hrs.**

This course provides an overview of the research, theory and application of crisis intervention, methods and techniques within the context of child and family services. Emphasis will be on expanding existing knowledge through experiential learning of crisis intervention processes and techniques.

**SWRK 4120 Field Instruction 2 12 Cr. Hrs.**

A second educationally directed practice experience building on SWRK 3150 in which the student will have the opportunity to carry a sustained professional role in situations which require the integration of values, knowledge, and skill at the level of a beginning professional practitioner. While Access Programs may require additional field hours, 420 hours is the minimum required for all BSW students. This time commitment includes involvement with the agency in planning for, and engaging in, practice activity, and evaluation of performance. It also includes educational contact time with the field instructor in individual and/or group sessions. Subject to satisfactory completion and reports, students will be graded on a pass/fail basis. Prerequisites: 6 credit hours of SWRK 4200, and SWRK 3150, and consent by course instructor (Field Coordinator). Co-requisite: 6 credit hours or SWRK 4300.

**SWRK 4130 Advanced Interpersonal Communication Skills 3 Cr. Hrs.**

An experiential course for self-understanding and self-awareness to produce a disciplined and conscious use of self in professional communication and relationships. Prerequisites: SWRK 2080 and written consent of instructor.

**SWRK 4200 Field Focus of Social Work Practice 6 Cr. Hrs.**

A seminar for the critical examination of social work theory, values, policy and skills in the context of a field or focus of practice. The course integrates policy with practice at micro, meso and macro levels. Course seminar topics may vary from year to year and are organized to cover various fields or focus of practice. Prerequisites: SWRK 1310, SWRK 2080, SWRK 2090, and SWRK 3140. Co-requisite: SWRK 3150. Students cannot hold credit for both SWRK 4150 and SWRK 4200.

**SWRK 4210 Feminist Perspectives on Social Work Practice and Social Welfare Policy 6 Cr. Hrs.**

An analysis of social work practice and welfare policy from a feminist perspective. Course emphasizes the integration of social work intervention with policy in the social welfare context and overlays concepts such as empowerment, ecological practice, oppression, and practice in context of cultural diversity. Prerequisites: SWRK 1310, SWRK 2080, SWRK 2090, and SWRK 3140. Students may not hold credit for both SWRK 4210 and SWRK 4170 or SWRK 4210 and SWRK 4190.

**SWRK 4220 Aboriginal People and Social Work Practice 6 Cr. Hrs.**

An analysis of social work practice and welfare policy from an aboriginal perspective. The course emphasizes the linkage between practice and policy and overlays concepts such as colonization, decolonization, and approaches to practices which include cross culture, structure, and anti-oppression in the context of Aboriginal world views, experience and helping practices. Prerequisites: SWRK 1310, SWRK 2080, SWRK 2090, and SWRK 3140. Students may not hold credit for both SWRK 4220 and SWRK 4160 or SWRK 4220 and SWRK 4180.

**SWRK 4250 Family Group Conferences 3 Cr. Hrs.**

This course provides an overview of the research, theory and application of Family Group Conferencing within the context of child and family services and the implications for intervention. Emphasis is on experiential learning of Family Group Conferencing process and techniques.

**SWRK 4260 Addiction and CFS Practice 3 Cr. Hrs.**

The focus of this course is to increase the student's knowledge about addictions as well as to develop student's skills for intervention with families affected by addiction within the context of child and family

**SWRK 4300 Field Focus of Social Work Practice 2 6 Cr. Hrs.**

A seminar for the critical examination of social work theory, values, policy and skills in the context of a field or focus of practice. The course integrates policy with practice at micro, meso and macro levels. Course seminar topics may vary from year to year and are organized to cover various fields or focus of practice. For students admitted after 1993-1994. Prerequisite: SWRK 4200, SWRK 3150. Co-requisite: SWRK 4120.
