Graduates from the M.O.T. program have the degree designation M.O.T. It is important to note that occupational therapy is a regulated health profession, by law. To be eligible for employment in Manitoba, graduates must register with the College of Occupational Therapists of Manitoba (COTM) and must successfully complete the Canadian Association of Occupational Therapists (CAOT) National Certification Examination. Regulations are similar in most other Canadian provinces, in that occupational therapists must be registered with the regulatory body in that jurisdiction and must pass the CAOT National Certification Exam. Writing of the national exam is scheduled twice a year. The University's Occupational Therapy Department provides a list of potential M.O.T. graduates to verify their eligibility to write the National Certification Exam. Newly-educated occupational therapists are eligible for registration with COTM (or other provincial regulatory body) and for employment prior to convocation and/or writing the national exam, provided they have successfully completed all academic and fieldwork requirements for the M.O.T. program, and have provided the appropriate personnel at the regulatory body with a letter of verification from the Head of the Department of Occupational Therapy (students must request these letters). For information on the registration process in Manitoba, you can visit the COTM website at www.cotm.ca (<http://www.cotm.ca/>) or contact them by calling (204) 957-1214. Other provinces have similar provisions to allow some form of registration and thus employment prior to convocation. A listing of provincial regulatory organizations is available from COTM.

Expected Time to Graduate: Regular program - 2 years; Accelerated program - 1 year

Registration Information

Students should familiarize themselves with the Faculty of Graduate Studies 'GRAD' courses applicable to their program (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/registration-information/>). If you have questions about which GRAD course(s) to register in, please consult your home department/unit.

Prior to registration, all new and returning students must meet with their advisor to determine their program of study. All course additions and withdrawals (registration revisions) must be approved in the same manner.

Course registration information for the incoming first year students will be forwarded to them by the Department/Program Assistant. Returning students will have course registration information sent to their U of M email account.

Not all courses will be offered each year. Please check the Aurora catalog to find out when a course is offered.

Regulations

Students must meet the requirements as outlined in both Supplementary Regulation and BFAR documents as approved by Senate.

Supplementary Regulations

Individual units may require specific requirements above and beyond those of the Faculty of Graduate Studies, and students should consult unit supplementary regulations (<https://umanitoba.ca/graduate-studies/supplementary-regulations/>) for these specific regulations.

Bona Fide Academic Requirements (BFAR)

Bona Fide Academic Requirements (BFAR) (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#BFAR>) represent the

core academic requirements a graduate student must acquire in order to gain, and demonstrate acquisition of, essential knowledge and skills.

All students must successfully complete:

- GRAD 7300 prior to applying to any ethics boards which are appropriate to the student's research or within the student's first year, whichever comes first; and
- GRAD 7500 within the first term of registration;

unless these courses have been completed previously, as per Mandatory Academic Integrity Course (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#GRAD7500>) and Mandatory Research Integrity Online Course (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#GRAD7300>).

Students must also meet additional BFAR that may be specified for their program.

General Regulations

All students must:

- maintain a minimum degree grade point average of 3.0 with no grade below C+,
- meet the minimum and not exceed the maximum course requirements, and
- meet the minimum and not exceed the maximum time requirements (in terms of time in program and lapse or expiration of credit of courses).

Physical Therapy, M.P.T.

Physical Therapy

Dean: Dr. Reg Urbanowski

Head: Dr. Mark Garrett

Campus Address/General Office: R106-771 McDermot Avenue, Bannatyne Campus

Telephone: 204-480-1379

Fax: 204-789-3927

Email Address: CORS.PTprogram@umanitoba.ca

Website: umanitoba.ca/rehabsciences/pt/ (<https://umanitoba.ca/rehabsciences/pt/>)

Academic Staff: Please refer to the Physical Therapy website (<https://umanitoba.ca/rehabilitation-sciences/faculty-staff/#department-of-physical-therapy>) for Academic staff information.

Physical Therapy Program Information

The Master of Physical Therapy is an entry-to-practice education credential that is for individuals who do not have a previous degree in physical therapy and/or for those individuals who are not eligible to practice in Canada with their current academic preparation.

The Master of Physical Therapy Program at the University of Manitoba has been accredited by Physiotherapy Education Accreditation Canada (PEAC). The status of Accreditation – Fully Compliant was granted to the program for the period until April 30, 2026.

Admission Information

Admission to the Faculty of Graduate Studies

Application and Admission Procedures are found in the Academic Guide (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/application-admission-registration-policies/>).

Admission requirements for Master's students are found in the Master's Degrees General Regulations (https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/masters-degrees-general-regulations/#Admission_FGSMasters) section of the Guide.

M.P.T. Admission Requirements

Requirements include: completion of a previous undergraduate degree, in any area of study; minimum grade point average of 3.25 in the last 60 credit hours of study; successful completion of at least 24 credit hours in one regular fall/winter session (from September to April); equivalent IB and/or AP courses will be accepted in lieu of prerequisite courses; successful completion of the Multiple Mini-Interview; a minimum grade of a 3.0 or a "B" in the following prerequisite courses:¹

- Human Anatomy (3 credit hours)
- Human Physiology (3 credit hours)
- Introductory Biology with genetics content (3 credit hours)
- Introductory Psychology (6 credit hours)
- Childhood Development (3 credit hours)
- Aging (3 credit hours)
- Introductory Statistics (3 credit hours)
- English Literature (6 credit hours)

¹ All prerequisite courses need to be completed by the Fall term in the year prior to entry. Equivalent academic courses completed at the University of Manitoba or recognized universities elsewhere will be considered.

English Language Proficiency: For those not educated in English, the Department of Physical Therapy complies with the English language requirements established by the University of Manitoba Faculty of Graduate Studies, the Canadian Alliance of Physiotherapy Regulators (<http://www.alliancept.org/>) and the College of Physiotherapists of Manitoba (<http://www.manitobaphysio.com/for-ieps/registration-2/language-requirements/>). These minimum scores are required to be admitted into the Faculty of Graduate Studies; to be licensed as a student physical therapist in Manitoba; and to be considered eligible to sit the national Physiotherapy Competency Examination upon graduation. For more details on acceptable English Language Proficiency tests, see the M.O.T. program of study (<https://www.umanitoba.ca/explore/programs-of-study/physical-therapy-mpt/#how-to-apply>) page.

Application Information

Students should complete and submit their online application with supporting documentation (if applicable) by the date indicated on the M.P.T. program of study (https://umanitoba.ca/faculties/graduate_studies/admissions/programs/physical_therapy.html) page.

Degree Requirements

Students in the M.P.T. program must complete 103 credit hours of coursework. All academic and clinical education courses and a

professional portfolio must be successfully completed in order to graduate.

Clinical Education Requirements

Clinical education is integrated throughout the M.P.T. program and typically follows major academic components to consolidate knowledge and skills learned in class. It consists of 4x 6 week and 1x 5 week clinical placements at a variety of sites. All students should be prepared to complete a clinical placement at a site outside of Winnipeg during the course of the program. Students must fulfil the health-related certifications, background checks and licensing requirements outlined below in order to participate in clinical placements. Additional information regarding these requirements is sent to new applicants following their acceptance into the program.

Health Requirements

Following their acceptance into the program, all new M.P.T. students will receive instructions regarding completion of the *Immunization Package* from the Rady Faculty of Health Sciences Immunization Program. Students are required to return their completed packages, including immunization records, by the date published in the packages. New and returning students must meet immunizations requirements as identified by the Rady Faculty of Health Sciences Immunization Program in order to participate in clinical placements.

Mask Fit Certification

Current *mask fit certification* is required for M.P.T. students to participate in clinical placements at many sites. There are a variety of masks in use at these clinical placement sites, so the program will make arrangements for mask fit testing of students after they have commenced the program and their clinical placement sites are known. Students are not to arrange their own mask fit testing prior to commencing the program as they may be tested on a mask that is not in use at their clinical placement sites.

Cardiopulmonary Resuscitation (CPR) Certification

M.P.T. students are required to obtain CPR certification annually. Certification must be through a Heart & Stroke Foundation certified course at the level of *Basic Life Support: BLS Provider* or higher (e.g. *Advanced Cardiac Life Support: ACLS*). Students must provide proof of certification by September 1 of every year while in the program, and the certification must have an issue date no earlier than August 1 of that year.

Criminal Record Check, Adult Abuse Registry Check and Child Abuse Registry Check

M.P.T. students are required to obtain and submit a *Criminal Record Check with vulnerable sector search* annually in order to participate in clinical placements. Students must submit the check by September 1 of every year while in the program, and the check must have an issue date no earlier than August 1 of that year. M.P.T. students are also required to obtain an *Adult Abuse Registry Check* and a *Child Abuse Registry Check* annually in order to participate in clinical placements. The program will apply for these two checks on behalf of students after they have commenced classes. (N.B.: Some clinical sites require the above three documents to be less than 6 months old at the start of the placement, so students may need to reorder the checks in the same academic year if they attend one of these sites.)

College of Physiotherapists of Manitoba (CPM) Registration

M.P.T. students must obtain student registration with CPM by September 15 of every year while in the program in order to participate in clinical placements. Students must submit their original Criminal Record Check with their application form and fee when registering with CPM.

Rehabilitation Sciences, M.Sc.

Rehabilitation Sciences

Chair: Sandra Webber

Campus Address/General Office: R106-771 McDermot Avenue

Telephone: 204-789-3897

Fax: 204-789-3927

Email Address: CORs.MScRehab@umanitoba.ca

Website: umanitoba.ca/rehabilitation-sciences/ (<https://umanitoba.ca/rehabilitation-sciences/>)

Academic Staff: Please refer to the Rehabilitation Sciences website (<https://umanitoba.ca/rehabilitation-sciences/research-and-scholarly-activity/#our-researchers>) for current staff listing.

Rehabilitation Sciences Program Information

The College of Rehabilitation Sciences currently offers a Master of Science (Rehabilitation Sciences) degree program. The purpose of this program is to provide research training to individuals in the field of rehabilitation.

The College of Rehabilitation Sciences, along with the Faculty of Kinesiology and Recreation Management, offers a multi-faculty Ph.D. in Applied Health Sciences. (p. 1478)

Admission Information

Admission to the Faculty of Graduate Studies

Application and Admission Procedures are found in the Academic Guide (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/application-admission-registration-policies/>).

Admission requirements for Master's students are found in the Master's Degrees General Regulations (https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/masters-degrees-general-regulations/#Admission_FGSMasters) section of the Guide.

Rehabilitation Sciences M.Sc. Admission Requirements

Admission requirements include a 4 year Baccalaureate degree or equivalent in Physical Therapy, Occupational Therapy, Respiratory Therapy, or a related discipline (e.g., kinesiology, biomedical engineering, exercise science).

Application Information

Students should complete and submit their online application with supporting documentation by the date indicated on the Rehabilitation Sciences M.Sc. program of study (<https://>

umanitoba.ca/faculties/graduate_studies/admissions/programs/medical_rehabilitation.html) page.

Degree Requirements

All students must include REHB 7280 Rehabilitation Theory and Research Design (3 credit hours) as part of the required 12 credit hours of coursework. The remaining 9 credit hours are to be chosen by the student through consultation with the advisor.

A reduction from the minimum of 12 credit hours to 6 credit hours (REHB 7280 plus 3 additional credit hours) may be permitted for students entering the program with an entry-to-practice degree at the Master's level. In such cases, a specific program of study must be proposed by the primary advisor and approved by the Program Chair.

Oral and Maxillofacial Surgery Program Information

The Master of Dentistry (Oral and Maxillofacial Surgery) includes a four-year hospital residency for which a Post-Graduate Training Certificate is awarded. The program is certified and fully accredited by the Commission on Dental Accreditation of Canada and, as such, is also recognized by the American Dental Association. The primary objective of the program is to train dentists to become competent, ethical Oral and Maxillofacial surgeons for practice in Canada.

Admission Information

Admission to the Faculty of Graduate Studies

Application and Admission Procedures are found in the Academic Guide (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/application-admission-registration-policies/>).

Admission requirements for Master's students are found in the Master's Degrees General Regulations (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/masters->

[degrees-general-regulations/#Admission_FGSMasters](#)) section of the Guide.

Oral and Maxillofacial Surgery M.Dent. Admission Requirements

Applicants must be Canadian citizens or permanent residents of Canada and be in possession of a National Dental Examining Board of Canada Certificate. They must comply with provincial requirements for licensing of interns and residents. Some additional post-graduate experience is desirable.

Application Information

Students should complete and submit their online application with supporting documentation by the date indicated on the Oral and Maxillofacial Surgery M.Dent. program of study (https://umanitoba.ca/faculties/graduate_studies/admissions/programs/oms.html) page.

Degree Requirements

Students must complete:

- All clinical rotations and assignments as set out in the four years of hospital residency training;
- All courses listed under the "Progression Chart".
- An essay/research project DDSS 7220 in a specified area selected in consultation with the department is required.

Expected Time to Graduate: 4 years

- meet the minimum and not exceed the maximum time requirements (in terms of time in program and lapse or expiration of credit of courses).

Dental Diagnostic and Surgical Sciences, M.Dent., (Periodontics)

Dental Diagnostic & Surgical Sciences

Head: A. Shah

Program Director: A. Kelekis-Cholakakis (Acting)

Campus Address/General Office: D343 - 780 Bannatyne Avenue

Telephone: 204-789-3684

Fax: 204-272-3077

Email Address: periodontics@umanitoba.ca

Website: umanitoba.ca/faculties/health_sciences/dentistry/ddss/ (https://umanitoba.ca/faculties/health_sciences/dentistry/ddss/)

Periodontics Program Information

The three-year Master of Dentistry (Periodontics) program entails clinical training, lectures, seminars in the clinical and related basic sciences and research. The program is certified and fully accredited by the Commission on Dental Accreditation of Canada and, as such, is also recognized by the American Dental Association.

The program provides periodontal consultation and treatment services, including dental implants, to patients attending the Faculty of Dentistry

and patients referred by private practice dentists in Winnipeg and throughout Manitoba. Residents are provided the opportunity to treat a full range of periodontal problems and to participate in on-going clinical and basic periodontal research. The Graduate Periodontal Clinic simulates a private periodontal practice and provides dental hygienist and dental assistant support to residents. A conscious sedation hospital rotation as well as private practice periodontal office rotations are part of the curriculum as well.

Admission Information

Admission to the Faculty of Graduate Studies

Application and Admission Procedures are found in the Academic Guide (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/application-admission-registration-policies/>).

Admission requirements for Master's students are found in the Master's Degrees General Regulations (https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/masters-degrees-general-regulations/#Admission_FGSMasters) section of the Guide.

Periodontics M.Dent. Admission Requirements

Applicants must have a D.M.D. degree or its equivalent from an approved college or university.

Application Information

Students should complete and submit their online application with supporting documentation by the date indicated on the Periodontics M.Dent. program of study (https://umanitoba.ca/faculties/graduate_studies/admissions/programs/periodontics.html) page.

Degree Requirements

Students must complete:

- All courses listed under the "Progression Chart".
- An Essay/Research project (DDSS 7220) in a specified area selected in consultation with the department.

Expected Time to Graduate: 3 years

Progression Chart

Course	Title	Hours
Years 1-3

CHSC 6810	Biostatistics for Clinicians	3
ORLB 7090	Pharmacology and Therapeutics (Bi-yearly course – may be taken in Year 2)	3
Hours		58
Year 3		
Thesis Defence ¹		
Hours		0
Total Hours		58

- ¹ The oral defence is open to all and the student has 20 to 25 minutes for a presentation. Typically, 5 minutes is permitted per examiner in a first round of questions, then a second round with an opportunity for follow-up questions from each examiner. Questions may be permitted from the audience should time permit. The entire oral examination should not exceed 1 hour, following which the committee will deliberate on whether the candidate passes, passes subject to revision of the thesis or fails.

Registration Information

Students should familiarize themselves with the Faculty of Graduate Studies 'GRAD' courses applicable to their program (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/registration-information/>). If you have questions about which GRAD course(s) to register in, please consult your home department/unit.

Regulations

Students must meet the requirements as outlined in both Supplementary Regulation and BFAR documents as approved by Senate.

Supplementary Regulations

Individual units may require specific requirements above and beyond those of the Faculty of Graduate Studies, and students should consult unit supplementary regulations (<https://umanitoba.ca/graduate-studies/supplementary-regulations/>) for these specific regulations.

Bona Fide Academic Requirements (BFAR)

Bona Fide Academic Requirements (BFAR) (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#BFAR>) represent the core academic requirements a graduate student must acquire in order to gain, and demonstrate acquisition of, essential knowledge and skills.

All students must successfully complete:

- GRAD 7300 prior to applying to any ethics boards which are appropriate to the student's research or within the student's first year, whichever comes first; and
- GRAD 7500 within the first term of registration;

unless these courses have been completed previously, as per Mandatory Academic Integrity Course (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#GRAD7500>) and Mandatory Research Integrity Online Course (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#GRAD7300>).

Students must also meet additional BFAR that may be specified for their program.

General Regulations

All students must:

- maintain a minimum degree grade point average of 3.0 with no grade below C+,
- meet the minimum and not exceed the maximum course requirements, and
- meet the minimum and not exceed the maximum time requirements (in terms of time in program and lapse or expiration of credit of courses).

Oral Biology, M.Sc.

Head: Dr. James Gilchrist

Campus Address/General Office: D212 - 780 Bannatyne Avenue

Telephone: 204-789-3683

Fax: 204-789-3948

Email Address: oral.biology@umanitoba.ca (oral_biology@umanitoba.ca)

Website: umanitoba.ca/faculties/health_sciences/dentistry/oral_biology/ (https://umanitoba.ca/faculties/health_sciences/dentistry/oral_biology/)

Academic Staff: Please refer to the Oral Biology website (https://umanitoba.ca/faculties/health_sciences/dentistry/oral_biology/758.html) for Academic staff information.

Oral Biology Program Information

The Department of Oral Biology offers graduate instruction and research leading to Master of Science and Doctor of Philosophy degrees.

Admission Information

Admission to the Faculty of Graduate Studies

Application and Admission Procedures are found in the Academic Guide (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/application-admission-registration-policies/>).

Admission requirements for Master's students are found in the Master's Degrees General Regulations (https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/masters-degrees-general-regulations/#Admission_FGSMasters) section of the Guide.

Oral Biology M.Sc. Admission Requirements

Students should possess an appropriate professional degree or B.Sc. degree with a satisfactory background in biological sciences.

Application Information

Students should complete and submit their online application with supporting documentation by the date indicated on the Oral Biology M.Sc. program of study (https://umanitoba.ca/faculties/graduate_studies/admissions/programs/oral_biology.html) page.

Degree Requirements

The M.Sc. program requires satisfactory completion of course requirements as specified by each student's supervisory committee and a thesis based on original research. Minimum course requirements are 12 credit hours **which must include** course ORLB 7190 (unless students have previous credit for this or an equivalent course).

M.Sc. students are expected to attend all departmental seminars. Students shall present one seminar on their research to the department each year, updating it each year.

In addition, students must pass an oral examination on the subject of the thesis and matters relating thereto.

Expected Time to Graduate: 2 years

Academic Staff: Please refer to the Oral Biology website (https://umanitoba.ca/faculties/health_sciences/dentistry/oral_biology/758.html) for Academic staff information.

Oral Biology Information

The Department of Oral Biology offers graduate instruction and research leading to Master of Science and Doctor of Philosophy degrees.

Admission Information

Admission to the Faculty of Graduate Studies

Application and Admission Procedures are found in the Academic Guide (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/application-admission-registration-policies/>).

Admission requirements for doctoral students are found in the Doctor of Philosophy General Regulations (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/doctor-philosophy-general-regulations/>) section of the Guide.

Oral Biology Ph.D. Admission Requirements

A M.Sc. degree is required, although students of exceptional or proven ability holding an appropriate professional degree or a B.Sc. (Hons.) degree may be admitted.

Application Information

Students should complete and submit their online application with supporting documentation by the date indicated on the Oral Biology Ph.D. program of study (https://umanitoba.ca/faculties/graduate_studies/admissions/programs/oral_biology.html) page.

Degree Requirements

The Ph.D. program requires satisfactory completion of course requirements as determined by each student's advisory committee and a thesis based on original research. Minimum course requirements shall be 12 credit hours at the 7000 level beyond the Master's degree, **and must include** course ORLB 7190 (unless students have previous credit for this or an equivalent course). **Courses taken during the Master's programs cannot be transferred as credits towards the Ph.D. program.**

Ph.D. students are expected to attend all departmental seminars. Students shall present at least one seminar on their own research to the department each year.

Expected Time to Graduate: 4 years

Preventive Dental Science (Orthodontics), M.Sc.

Preventive Dental Science

10/14/22

Head/Program Director: W.A. Wiltshire

Campus Address/General Office: P131-790 Bannatyne Avenue

Telephone: 204-789-3641

Fax: 204-977-5699

Email Address: orthodontics@umanitoba.ca

Website: umanitoba.ca/faculties/health_sciences/dentistry/pds/ (https://umanitoba.ca/faculties/health_sciences/dentistry/pds/)

Academic Staff: Please refer to the Preventive Dental Science (https://umanitoba.ca/faculties/health_sciences/dentistry/pds/faculty-staff.html) website for Academic staff information.

Preventive Dental Science Information

The department of Preventive Dental Science offers programs leading to the Master of Science (Orthodontics Speciality) and Master of Dentistry (Pediatric Dentistry) degrees.

Admission Information

Admission to the Faculty of Graduate Studies

Application and Admission Procedures are found in the Academic Guide (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/application-admission-registration-policies/>).

Admission requirements for Master's students are found in the Master's Degrees General Regulations (https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/masters-degrees-general-regulations/#Admission_FGSMasters) section of the Guide.

Orthodontics M.Sc. Admission Requirements

Applicants must be a graduate of a full-time minimum four-year University-based dentistry program and have at least one year of clinical experience.

Application Information

Students should complete and submit their online application with supporting documentation by the date indicated on the Preventive Dental Science M.Sc. (Orthodontics) program of study (https://umanitoba.ca/faculties/graduate_studies/admissions/programs/orthodontics.html) page.

Degree Requirements

Students must successfully complete:

- All courses listed under the "Progression Chart"
- A thesis based on original research and acceptable to the Faculty of Graduate Studies and successful oral defence is also required, as well as submission of a peer-reviewed paper suitable for publication to the satisfaction of the Program Director.

Prosthodontics, M.Sc.

Restorative Dentistry

Head: Vanessa Swain

Program Director: Igor Pesun

Campus Address/General Office: D227 - 780 Bannatyne Avenue

Telephone: 204-789-3516

Fax: 204-789-3916

Email Address: prosth@umanitoba.ca

Website: umanitoba.ca/dentistry/restorative-dentistry (<https://umanitoba.ca/dentistry/restorative-dentistry/>)

Restorative Dentistry Information

The department of Restorative Dentistry offers a program leading to the Master of Science (Prosthodontics) degree.

Admission Information

Admission to the Faculty of Graduate Studies

Application and Admission Procedures are found in the Academic Guide (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/application-admission-registration-policies/>).

Admission requirements for Master's students are found in the Master's Degrees General Regulations (https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/masters-degrees-general-regulations/#Admission_FGSMasters) section of the Guide.

Prosthodontics M.Sc. Admission Requirements

A D.M.D. or D.D.S. from a minimum four-year undergraduate Dental School is required. A D.M.D. or D.D.S. that is only three years in length is acceptable if the undergraduate dental school is accredited in Canada.

Application Information

Students should complete and submit their online application with supporting documentation by the date indicated on the Prosthodontics M.Sc. program of study (<https://umanitoba.ca/explore/programs-of-study/prosthodontics-msc/>) page.

Degree Requirements

The M.Sc. program is comprised of didactic, laboratory, and clinical course requirements, and a research thesis. The minimum number of credit hours required in the program is 99 hours.

Thesis Defense ¹		
Hours		16
Total Hours		99

¹ The oral defense is open to all and the student has 20 to 25 minutes for a presentation. Typically, 5 minutes is permitted per examiner in a first round of questions, then a second round with an opportunity for follow-up questions from each examiner. Questions may be permitted from the audience should time permit. The entire oral examination should not exceed 1 hour, following which the committee will deliberate on whether the candidate passes, passes subject to revision of the thesis or fails.

Registration Information

Students should familiarize themselves with the Faculty of Graduate Studies 'GRAD' courses applicable to their program (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/registration-information/>). If you have questions about which GRAD course(s) to register in, please consult your home department/unit.

Regulations

Students must meet the requirements as outlined in both Supplementary Regulation and BFAR documents as approved by Senate.

Supplementary Regulations

Individual units may require specific requirements above and beyond those of the Faculty of Graduate Studies, and students should consult unit supplementary regulations (<https://umanitoba.ca/graduate-studies/supplementary-regulations/>) for these specific regulations.

Bona Fide Academic Requirements (BFAR)

Bona Fide Academic Requirements (BFAR) (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#BFAR>) represent the core academic requirements a graduate student must acquire in order to gain, and demonstrate acquisition of, essential knowledge and skills.

All students must successfully complete:

- GRAD 7300 prior to applying to any ethics boards which are appropriate to the student's research or within the student's first year, whichever comes first; and
- GRAD 7500 within the first term of registration;

unless these courses have been completed previously, as per Mandatory Academic Integrity Course (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#GRAD7500>) and Mandatory Research Integrity Online Course (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#GRAD7300>).

Students must also meet additional BFAR that may be specified for their program.

General Regulations

All students must:

- maintain a minimum degree grade point average of 3.0 with no grade below C+,
- meet the minimum and not exceed the maximum course requirements, and
- meet the minimum and not exceed the maximum time requirements (in terms of time in program and lapse or expiration of credit of courses).

Biochemistry and Medical Genetics, M.Sc.

Biochemistry and Medical Genetics

Head: Dr. B. Triggs-Raine

Associate Head: Dr. S. Gibson

Grad Chair: Dr. J. Wigle

Campus Address/General Office: 336 - 745 Bannatyne Avenue

Telephone: 204-789-3593

Fax: 204-789-3900

Email Address: bmgadmin@umanitoba.ca

Website: umanitoba.ca/medicine/biochem/ (<https://umanitoba.ca/medicine/biochem/>)

Academic Staff: Please refer to the Biochemistry website (https://umanitoba.ca/faculties/health_sciences/medicine/units/biochem/faculty/facultylists.html) for Faculty information.

Biochemistry and Medical Genetics Program Information

The department offers programs leading to the Masters of Science and the Doctor of Philosophy degrees. There are a wide range of potential thesis projects broadly related to one of the following areas of research: cancer, computational biology, epigenetics, genetic basis of development and disease, and regenerative medicine.

Admission Information

Admission to the Faculty of Graduate Studies

Application and Admission Procedures are found in the Academic Guide (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/application-admission-registration-policies/>).

Admission requirements for Master's students are found in the Master's Degrees General Regulations (https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/masters-degrees-general-regulations/#Admission_FGSMasters) section of the Guide.

Biochemistry and Medical Genetics M.Sc. Admission Requirements

Applicants must have an advanced (four year) degree with an appropriate background in biochemistry, genetics, or a closely related subject area; and, a minimum 3.5 GPA (based on a 4.5 scale), or equivalent, in the previous 60 credit hours of university study, or equivalent (normally 2 years). In addition, during this period there should be no grade less than C+ in any biochemistry, genetics, or life science course deemed relevant to the proposed course of study.

Admission will depend upon the availability of a Faculty Member to supervise the student and resources to support the student's research.

In rare cases, applicants with GPA's lower than 3.5 or with a grade below C+ in the previous 60 credit hours may be admitted to this department, based upon individual circumstances and the support of their prospective advisors. Students in this situation should consult with their prospective advisor and the Chair of the Graduate Student Admissions and Awards Committee.

Application Information

Students should complete and submit their online application with supporting documentation by the date indicated on the Biochemistry and Medical Genetics M.Sc. program of study (https://umanitoba.ca/faculties/graduate_studies/admissions/programs/bio_chem.html) page.

Degree Requirements

Students must complete a minimum of 9 credit hours of coursework in addition to BGEN 7000 Research Seminar for Master's Students.

A written thesis is required for the research-based Master's degree.

Expected Time to Graduate: 2-3 years

Registration Information

Students should familiarize themselves with the Faculty of Graduate Studies 'GRAD' courses applicable to their program (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/registration-information/>). If you have questions about which GRAD course(s) to register in, please consult your home department/unit.

All new and returning graduate students in the department of Biochemistry and Medical Genetics are required to complete a Course Approval Form in consultation with their supervisor **prior** to registering for courses and making program changes. The Course Approval Form must be signed by the student, supervisor, graduate chair or the department head and submitted to the graduate program coordinator. Only courses

that are included on the Course Approval Form will be credited to the student's program. All course additions and withdrawals (registration revision) must be approved in the same manner by completing or filling out the Registration Revision Form available on the website.

Consult the department office or browse the web for a list of course offerings.

It should be noted that not all courses are offered every year and some courses will be held only with a minimum enrolment. Please check the Aurora catalog to find out when a course is offered.

Regulations

Students must meet the requirements as outlined in both Supplementary Regulation and BFAR documents as approved by Senate.

Supplementary Regulations

Individual units may require specific requirements above and beyond those of the Faculty of Graduate Studies, and students should consult unit supplementary regulations (<https://umanitoba.ca/graduate-studies/supplementary-regulations/>) for these specific regulations.

Bona Fide Academic Requirements (BFAR)

Bona Fide Academic Requirements (BFAR) (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#BFAR>) represent the core academic requirements a graduate student must acquire in order to gain, and demonstrate acquisition of, essential knowledge and skills.

There are a wide range of potential thesis projects broadly related to one of the following areas of research: cancer, computational biology, epigenetics, genetic basis of development and disease, and regenerative medicine.

Admission Information

Admission to the Faculty of Graduate Studies

Application and Admission Procedures are found in the Academic Guide (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/application-admission-registration-policies/>).

Admission requirements for doctoral students are found in the Doctor of Philosophy General Regulations (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/doctor-philosophy-general-regulations/>) section of the Guide.

Biochemistry and Medical Genetics Ph.D. Admission Requirements

A thesis-based Master's degree (of at least 2 years in duration), or equivalent, in biochemistry, genetics, or a closely related field, from a Canadian university is required for direct admission to the Ph.D. program. In addition, a cumulative GPA of 3.5 (4.5 scale), or equivalent, and no grade less than C+ in the courses taken during the Master's program is required.

Generally, there is no direct entry into the Ph.D. program for students with Master's degrees from non-Canadian universities. Admission will also depend upon the availability and willingness of a Faculty Member to supervise the student and resources to support the student's research.

TRANSFER TO A PH.D. PROGRAM

Students registered for a Master's degree who have made excellent progress over the first year in their program may be considered for transfer to the Ph.D. program. The transfer process, as outlined in the supplemental regulations, must be completed within 16 months of the student's commencement in the Master's program.

Application Information

Students should complete and submit their online application with supporting documentation by the date indicated on the Biochemistry and Medical Genetics Ph.D. program of study (https://umanitoba.ca/faculties/graduate_studies/admissions/programs/bio_chem.html) page.

Degree Requirements

Students who transition from the M.Sc. program are required to take 6 credit hours (in addition to the 10 credit hours required in fulfillment of the MSc program). Students holding a thesis-based M.Sc. degree who enter directly into the Ph.D. program must take a minimum of 9 credit hours.

A written thesis is required for the Doctoral degree.

Expected Time to Graduate: 4–5 years

Academic Staff: Please refer to the website for Faculty information http://umanitoba.ca/faculties/health_sciences/medicine/units/community_health_sciences/

Community Health Sciences Program Information

The Diploma in Population Health (Dip.P.H.) is a course-based program intended to provide senior clinicians in teaching hospitals and managers in provincial and regional health authorities with core knowledge and skills in the population health sciences which will allow them to become more effective consumers and utilizers of health research data.

This program is under review and not accepting applications at this time.

Degree Requirements

This program is under review and not accepting applications at this time.

Eighteen credit hours of course work from 7000-level courses (nine from required courses, nine from electives).

Expected Time to Graduate: 1 year.

Progression Chart

(https://umanitoba.ca/faculties/health_sciences/medicine/units/chs/)

Academic Staff: Please refer to the Community Health Sciences website (https://umanitoba.ca/faculties/health_sciences/medicine/units/chs/faculty_and_staff/) for Faculty information.

Community Health Sciences Program Information

CHS offers broad, multidisciplinary, graduate training at the Master and Doctoral levels in the concepts and methods of the population-based health sciences and their application in the practice of public health and preventive medicine.

The Doctoral program is designed to produce individuals who will teach in the community health sciences, train other researchers, design and execute major research projects, and serve as senior advisors and consultants in the area of health care policy and planning.

In contrast, our two Master's programs, the Master of Science and Master of Public Health degrees, are intended to satisfy the demand of local, regional, provincial and federal health departments for trained community health professionals. The M.Sc. program has a research focus requiring completion of a thesis while the M.P.H. program has a field-placement integrating applied public health concepts.

Admission Information

Admission to the Faculty of Graduate Studies

Application and Admission Procedures are found in the Academic Guide (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/application-admission-registration-policies/>).

Admission requirements for Master's students are found in the Master's Degrees General Regulations (https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/masters-degrees-general-regulations/#Admission_FGSMasters) section of the Guide.

Community Health Sciences M.P.H. Admission Requirements

The M.P.H. program is open to individuals with four-year degrees in the health sciences or allied health professions or with honours degrees in the biological or social sciences, and a minimum of three years experience working in a field of health.

Application Information

Students should complete and submit their online application with supporting documentation by the date indicated on the Community Health Sciences M.P.H. program of study (https://umanitoba.ca/faculties/graduate_studies/admissions/programs/651.html) page.

Degree Requirements

The M.P.H. program consists of 30 credit hours from 7000-level core and elective courses. Following course work completion the student may select one of two routes as part of this program of study, by completing either a zero component supervised field placement or capstone research project. The majority of students will only be eligible for the field placement. Students with extensive prior public health experience may be eligible for the capstone research project.

Expected Time to Graduate: 2 years full-time, 4 years part-time

Registration Information

Students should familiarize themselves with the Faculty of Graduate Studies 'GRAD' courses applicable to their program (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/registration-information/>). If you have questions about which GRAD course(s) to register in, please consult your home department/unit.

Prior to registration, all new and returning students must meet with their advisor to determine their program of study. Part of the process prior to registration may include obtaining permission from the relevant course instructor (see course catalog or CHS website course offerings for courses needing instructor permission). All course additions and withdrawals must have prior advisor approval. Students should register themselves via Aurora Student on the University of Manitoba website. If students encounter difficulties with registration they may contact the Community Health Sciences Graduate Program office for assistance.

It should be noted that not all courses are offered each year and some courses will be held with a minimum enrolment. Please check Aurora class schedule or visit the Community Health Sciences website for a list of current course offerings.

Regulations

Students must meet the requirements as outlined in both Supplementary Regulation and BFAR documents as approved by Senate.

Supplementary Regulations

Individual units may require specific requirements above and beyond those of the Faculty of Graduate Studies, and students should consult

unit supplementary regulations (<https://umanitoba.ca/graduate-studies/supplementary-regulations/>) for these specific regulations.

Bona Fide Academic Requirements (BFAR)

Bona Fide Academic Requirements (BFAR) (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#BFAR>) represent the core academic requirements a graduate student must acquire in order to gain, and demonstrate acquisition of, essential knowledge and skills.

All students must successfully complete:

- GRAD 7300 prior to applying to any ethics boards which are appropriate to the student's research or within the student's first year, whichever comes first; and
- GRAD 7500 within the first term of registration;

unless these courses have been completed previously, as per Mandatory Academic Integrity Course (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#GRAD7500>) and Mandatory Research Integrity Online Course (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#GRAD7300>).

Students must also meet additional BFAR that may be specified for their program.

General Regulations

All students must:

- maintain a minimum degree grade point average of 3.0 with no grade below C+;
- meet the minimum and not exceed the maximum course requirements, and
- meet the minimum and not exceed the maximum time requirements (in terms of time in program and lapse or expiration of credit of courses).

Community Health Sciences, M.Sc.

Community Health Sciences

Head: Sharon Bruce

Grad Chair: S. Michelle Driedger

Campus Address/General Office: S111, Medical Services Building, 750 Bannatyne Avenue

Telephone: 204-789-3655

Fax: 204-789-3905

Email Address: chsinfo@umanitoba.ca

Website: umanitoba.ca/faculties/health_sciences/medicine/units/chs/ (https://umanitoba.ca/faculties/health_sciences/medicine/units/chs/)

Academic Staff: Please refer to the Community Health Sciences website (https://umanitoba.ca/faculties/health_sciences/medicine/units/chs/faculty_and_staff/) for Faculty information.

Community Health Sciences Program Information

CHS offers broad, multidisciplinary, graduate training at the Master and Doctoral levels in the concepts and methods of the population-based health sciences and their application in the practice of public health and preventive medicine.

The Doctoral program is designed to produce individuals who will teach in the community health sciences, train other researchers, design and execute major research projects, and serve as senior advisors and consultants in the area of health care policy and planning.

In contrast, our two Master's programs, the Master of Science and Master of Public Health degrees, are intended to satisfy the demand of local, regional, provincial and federal health departments for trained community health professionals. The M.Sc. program has a research focus requiring completion of a thesis while the M.P.H. program has a field-placement integrating applied public health concepts.

Admission Information

Admission to the Faculty of Graduate Studies

Application and Admission Procedures are found in the Academic Guide (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/application-admission-registration-policies/>).

Admission requirements for Master's students are found in the Master's Degrees General Regulations (https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/masters-degrees-general-regulations/#Admission_FGSMasters) section of the Guide.

Community Health Sciences M.Sc. Admission Requirements

Admission requirements are those of the Faculty of Graduate Studies.

Application Information

Students should complete and submit their online application with supporting documentation by the date indicated on the Community Health Sciences M.Sc. program of study (https://umanitoba.ca/faculties/graduate_studies/admissions/programs/651.html) page.

Degree Requirements

Twenty-one credit hours of course work from 7000-level courses: nine credit hours from required courses, three credit hours from methods and nine credit hours from electives and a thesis.

Students in the biostatistics concentration must complete nine credit hours of core courses, six credit hours of methods courses, six credit hours of electives, and a thesis.

Expected Time to Graduate: 2 years full-time, 4 years part-time

Progression Chart

Master of Science (Community Health Sciences)

Course	Title	Hours
Year 1		
GRAD 7300	Research Integrity Tutorial	0
GRAD 7500	Academic Integrity Tutorial	0
CHSC 7320	Organization and Financing of the Canadian Health Care System	3
CHSC 7520	Principles of Epidemiology	3
CHSC 7860	Methods and Concepts for Community Health Sciences	3
Select one of the following:		3
CHSC 7820	Biostatistics for Community Health Sciences ¹	

CHSC 7810	Biostatistics for the Health and Human Sciences (with Advisor's permission)	
CHSC 7738	Qualitative Research Methods in Community Health Sciences	
CHSC 7XXX	Three Approved Elective Courses designated as 7000 level offered by Community Health Sciences ²	9
Proposal Work / Proposal Defense ³		
Hours		21
Year 2		
GRAD 7000	Master's Thesis ⁴	0
Hours		0
Total Hours		21

¹ Since an undergraduate level course in Statistics is a pre-requisite for CHSC 7820, all students must have completed such a course at time of admission, or will be required to take additional statistical training if they intend to complete CHSC 7820.

² On the recommendation of the student's advisor and with approval of the Director of the CHSC Graduate Program elective courses for the M.Sc. program may be taken in other departments.

³ Students may work on their thesis proposal while taking courses, however, the proposal defense can be held after CHSC 7520, CHSC 7860 and CHSC 7820 or CHSC 7810 or CHSC 7738 courses have successfully been completed.

⁴ Proposal work / proposal defense continuation (if not completed within year 1), Research and write-up; Thesis Defense.

Master of Science Concentration in Biostatistics (Community Health Sciences)

Course	Title	Hours
Year 1		
GRAD 7300	Research Integrity Tutorial	0
GRAD 7500	Academic Integrity Tutorial	0
CHSC 7320	Organization and Financing of the Canadian Health Care System	3
CHSC 7520	Principles of Epidemiology	3
CHSC 7860	Methods and Concepts for Community Health Sciences	3
CHSC 7830	Advanced Biostatistics for Community Health Sciences	3
STAT 7080	Advanced Statistical Inference	3
CHSC/STAT 7XXX	Two Approved Elective Courses designated as 7000 level offered by Community Health Sciences and/or Statistics ¹	6
Proposal Work / Proposal Defense ²		
Hours		21
Year 2		
GRAD 7000	Master's Thesis	0
Proposal Work Continuation / Proposal Defense (if not completed within Year 1), Research; Thesis Defense		
Hours		0
Total Hours		21

¹ Normally, a student should take three credit hours from each department, but this will be determined by the student in consultation with his/her advisor.

² Students may work on their thesis proposal while taking courses. However, in the Biostatistics concentration, the proposal defense can only be held after CHSC 7520, CHSC 7860, and CHSC 7830 courses have successfully been completed.

Note:

CHSC 7820, an additional core requirement for the MSc program will normally be waived for students accepted to the Biostatistics concentration, with appropriate documentation.

Registration Information

Students should familiarize themselves with the Faculty of Graduate Studies 'GRAD' courses applicable to their program (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/registration-information/>). If you have questions about which GRAD course(s) to register in, please consult your home department/unit.

Prior to registration, all new and returning students must meet with their advisor to determine their program of study. Part of the process prior to registration may include obtaining permission from the relevant course instructor (see course catalog or CHS website course offerings for courses needing instructor permission). All course additions and withdrawals must have prior advisor approval. Students should register themselves via Aurora Student on the University of Manitoba website. If students encounter difficulties with registration they may contact the Community Health Sciences Graduate Program office for assistance.

It should be noted that not all courses are offered each year and some courses will be held with a minimum enrolment. Please check Aurora class schedule or visit the Community Health Sciences website for a list of current course offerings.

Regulations

Students must meet the requirements as outlined in both Supplementary Regulation and BFAR documents as approved by Senate.

Supplementary Regulations

Individual units may require specific requirements above and beyond those of the Faculty of Graduate Studies, and students should consult unit supplementary regulations (<https://umanitoba.ca/graduate-studies/supplementary-regulations/>) for these specific regulations.

Bona Fide Academic Requirements (BFAR)

Bona Fide Academic Requirements (BFAR) (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#BFAR>) represent the core academic requirements a graduate student must acquire in order to gain, and demonstrate acquisition of, essential knowledge and skills.

All students must successfully complete:

- GRAD 7300 prior to applying to any ethics boards which are appropriate to the student's research or within the student's first year, whichever comes first; and
- GRAD 7500 within the first term of registration;

unless these courses have been completed previously, as per Mandatory Academic Integrity Course (<https://catalog.umanitoba.ca/archived->

calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#GRAD7500) and Mandatory Research Integrity Online Course (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#GRAD7300>).

Students must also meet additional BFAR that may be specified for their program.

General Regulations

All students must:

- maintain a minimum degree grade point average of 3.0 with no grade below C+,
- meet the minimum and not exceed the maximum course requirements, and
- meet the minimum and not exceed the maximum time requirements (in terms of time in program and lapse or expiration of credit of courses).

Community Health Sciences, Ph.D.

Community Health Sciences

Head: Sharon Bruce

Grad Chair: S. Michelle Driedger

Campus Address/General Office: S111, Medical Services Building, 750 Bannatyne Avenue

Community Health Sciences Program Information

CHS offers broad, multidisciplinary, graduate training at the Master and Doctoral levels in the concepts and methods of the population-based health sciences and their application in the practice of public health and preventive medicine.

The Doctoral program is designed to produce individuals who will teach in the community health sciences, train other researchers, design and execute major research projects, and serve as senior advisors and consultants in the area of health care policy and planning.

In contrast, our two Master's programs, the Master of Science and Master of Public Health degrees, are intended to satisfy the demand of local, regional, provincial and federal health departments for trained community health professionals. The M.Sc. program has a research focus requiring completion of a thesis while the M.P.H. program has a field-placement integrating applied public health concepts.

Admission Information

Admission to the Faculty of Graduate Studies

Application and Admission Procedures are found in the Academic Guide (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/application-admission-registration-policies/>).

Admission requirements for doctoral students are found in the Doctor of Philosophy General Regulations (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/doctor-philosophy-general-regulations/>) section of the Guide.

Community Health Sciences Ph.D. Admission Requirements

The Ph.D. program is open to individuals with research-based M.A. and M.Sc. degrees. A thesis advisor must be identified at the time of application.

Application Information

Students should complete and submit their online application with supporting documentation by the date indicated on the Community Health Sciences Ph.D. program of study (https://umanitoba.ca/faculties/graduate_studies/admissions/programs/651.html) page.

Degree Requirements

Eighteen credit hours of coursework from 7000-level courses (six from required courses, twelve from electives), candidacy examination and thesis. In addition, twelve credit hours of prerequisite courses, or their equivalents, must have been completed before entering the program or must be taken during the first year in the PhD program.

Expected Time to Graduate: 4 years full-time, 6 years part-time

¹ The following courses are considered prerequisites to the PhD program which may or may not be required, depending on the student's background, Master's degree and training. These courses *may* count toward the PhD requirement of 12 electives credit hours.

² Since an undergraduate level course in Statistics is a pre-requisite for CHSC 7820, all students must have completed such a course at time of admission, or will be required to take additional statistical training if they intend to complete CHSC 7820.

Total Credit Hours: 18 – 24 as standard; up to 12 credit hours as auxiliary which in some instances may represent the necessary prerequisites.

Registration Information

Students should familiarize themselves with the Faculty of Graduate Studies 'GRAD' courses applicable to their program (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/registration-information/>). If you have questions about which GRAD course(s) to register in, please consult your home department/unit.

Prior to registration, all new and returning students must meet with their advisor to determine their program of study. Part of the process prior to registration may include obtaining permission from the relevant course instructor (see course catalog or CHS website course offerings for courses needing instructor permission). All course additions and withdrawals must have prior advisor approval. Students should register themselves via Aurora Student on the University of Manitoba website. If students encounter difficulties with registration they may contact the Community Health Sciences Graduate Program office for assistance.

It should be noted that not all courses are offered each year and some courses will be held with a minimum enrolment. Please check Aurora class schedule or visit the Community Health Sciences website for a list of current course offerings.

Regulations

Students must meet the requirements as outlined in both Supplementary Regulation and BFAR documents as approved by Senate.

Supplementary Regulations

Individual units may require specific requirements above and beyond those of the Faculty of Graduate Studies, and students should consult unit supplementary regulations (<https://umanitoba.ca/graduate-studies/supplementary-regulations/>) for these specific regulations.

Bona Fide Academic Requirements (BFAR)

Bona Fide Academic Requirements (BFAR) (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#BFAR>) represent the core academic requirements a graduate student must acquire in order to gain, and demonstrate acquisition of, essential knowledge and skills.

All students must successfully complete:

- GRAD 7300 prior to applying to any ethics boards which are appropriate to the student's research or within the student's first year, whichever comes first; and
- GRAD 7500 within the first term of registration;

unless these courses have been completed previously, as per Mandatory Academic Integrity Course (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#GRAD7500>) and Mandatory Research Integrity Online Course (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#GRAD7300>).

Students must also meet additional BFAR that may be specified for their program.

General Regulations

All students must:

- maintain a minimum degree grade point average of 3.0 with no grade below C+,
- meet the minimum and not exceed the maximum course requirements, and
- meet the minimum and not exceed the maximum time requirements (in terms of time in program and lapse or expiration of credit of courses).

Genetic Counselling, M.Sc.

Genetic Counselling

Head: Dr. B. Triggs-Raine

Associate Head: Dr. S. Gibson

Grad Chair: Ms. J. Hartley

Campus Address/General Office: 336 - 745 Bannatyne Avenue

Telephone: 204-789-3593

Fax: 204-789-3900

Email Address: bmgadmin@umanitoba.ca

Website: umanitoba.ca/faculties/health_sciences/medicine/units/biochem/ (https://umanitoba.ca/faculties/health_sciences/medicine/units/biochem/)

Academic Staff: Please refer to the Biochemistry website (https://umanitoba.ca/faculties/health_sciences/medicine/units/biochem/faculty/facultylists.html) for Faculty information.

Genetic Counselling Program Information

The Genetic Counselling Program offers a Master of Science degree in Genetic Counselling. This program is accredited by the Accreditation Council for Genetic Counseling (ACGC). Graduates will be eligible to sit for certification through the American Board of Genetic Counseling (ABGC) and/or the Canadian Association of Genetic Counsellors (CAGC).

Admission Information

Admission to the Faculty of Graduate Studies

Application and Admission Procedures are found in the Academic Guide (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/application-admission-registration-policies/>).

Admission requirements for Master's students are found in the Master's Degrees General Regulations (https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/masters-degrees-general-regulations/#Admission_FGSMasters) section of the Guide.

Genetic Counselling M.Sc. Admission Requirements

Applicants require the following:

- Bachelor's degree (or equivalent) that should include undergraduate genetics courses in principles of genetics, cell biology, human genetics and molecular biology
- At least one course in psychology
- Courses in developmental biology, statistics and embryology are an asset but not required
- Minimum 3.7 GPA (on a 4.5 scale) or equivalent in the most recent 60 credit hours of university study

- Practical counselling experience (ex: crisis programs, planned parenthood, peer-to-peer counselling, which usually have a training component)

Application Information

Students should complete and submit their online application with supporting documentation by the date indicated on the Genetic Counselling M.Sc. program of study (https://umanitoba.ca/faculties/graduate_studies/admissions/programs/genetic_counselling.html) page.

Degree Requirements

Students must submit an acceptable thesis and pass an oral thesis examination, all clinical rotations, ancillary experiences and 30 credit hours of coursework.

Expected Time to Graduate: 2 years

Progression Chart

Course	Title	Hours
Year 1		
GRAD 7300	Research Integrity Tutorial	0
GRAD 7500	Academic Integrity Tutorial	0
BGEN 7000	Research Seminar M.Sc. ¹	1

BGEN 7160	Theory and Practice of Genetic Counselling	3
BGEN 7040	Seminars in Human Genetics	3
Hours		11
Total Hours		31

¹ BGEN 7000 is one credit hour over the course of the program.

² The elective course will be selected from Counselling Skills II (COUNS 0200), Working with Families (COUNS 0240) or Counselling Theories (COUNS 0202) selected in consultation with the program director based on past experience and training (as documented). For course descriptions please visit <https://umextended.ca/>

Ancillary Requirements

- Course on Research Ethics (CORE)
- Personal Health Information (PHIA) session
- Attend one Patient Support Group Meeting
- Complete one Community Outreach presentation
- Participate in Molecular Diagnostic Out of Centre Meeting
- Participate in Pan-Can Genetic Counselling Rounds
- Participate in Genetic Academic Session:
 - a. Present at One Genetic Academic Session per Year
 - b. Lead One Journal Club Per Year

Registration Information

Students should familiarize themselves with the Faculty of Graduate Studies 'GRAD' courses applicable to their program (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/registration-information/>). If you have questions about which GRAD course(s) to register in, please consult your home department/unit.

All new and returning graduate students in the department of Biochemistry and Medical Genetics are required to complete a Course Approval Form in consultation with their supervisor **prior** to registering for courses and making program changes. The Course Approval Form must be signed by the student, supervisor, graduate chair or the department head and submitted to the graduate program coordinator. Only courses that are included on the Course Approval Form will be credited to the student's program. All course additions and withdrawals (registration revision) must be approved in the same manner by completing or filling out the Registration Revision Form available on the website.

Consult the department office or browse the web for a list of course offerings.

It should be noted that not all courses are offered every year and some courses will be held only with a minimum enrolment. Please check the Aurora catalog to find out when a course is offered.

Regulations

Students must meet the requirements as outlined in both Supplementary Regulation and BFAR documents as approved by Senate.

Supplementary Regulations

Individual units may require specific requirements above and beyond those of the Faculty of Graduate Studies, and students should consult unit supplementary regulations (<https://umanitoba.ca/graduate-studies/supplementary-regulations/>) for these specific regulations.

Bona Fide Academic Requirements (BFAR)

Bona Fide Academic Requirements (BFAR) (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#BFAR>) represent the core academic requirements a graduate student must acquire in order to gain, and demonstrate acquisition of, essential knowledge and skills.

All students must successfully complete:

- GRAD 7300 prior to applying to any ethics boards which are appropriate to the student's research or within the student's first year, whichever comes first; and
- GRAD 7500 within the first term of registration;

unless these courses have been completed previously, as per Mandatory Academic Integrity Course (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#GRAD7500>) and Mandatory Research Integrity Online Course (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#GRAD7300>).

Students must also meet **additional BFAR** that may be specified for their program.

General Regulations

All students must:

- maintain a minimum degree grade point average of 3.0 with no grade below C+,
- meet the minimum and not exceed the maximum course requirements, and
- meet the minimum and not exceed the maximum time requirements (in terms of time in program and lapse or expiration of credit of courses).

Human Anatomy and Cell Science, M.Sc.

Human Anatomy and Cell Science

Head: S. Hombach-Klonisch

Campus Address/General Office: 130 Basic Medical Sciences Building, 745 Bannatyne Avenue

Telephone: 204-789-3411

Fax: 204-789-3920

Email Address: hacs.info@umanitoba.ca

Website: umanitoba.ca/healthsciences/medicine/units/anatomy/ (<https://umanitoba.ca/healthsciences/medicine/units/anatomy/>)

Academic Staff: Please see the HACS website (https://umanitoba.ca/faculties/health_sciences/medicine/units/anatomy/haresearch.html) for Faculty information.

Human Anatomy Program Information

The Department of Human Anatomy and Cell Science (HACS) offers graduate training at both the Master of Science and Doctor of Philosophy levels.

Admission Information

Admission to the Faculty of Graduate Studies

Application and Admission Procedures are found in the Academic Guide (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/application-admission-registration-policies/>).

Admission requirements for Master's students are found in the Master's Degrees General Regulations (https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/masters-degrees-general-regulations/#Admission_FGSMasters) section of the Guide.

Human Anatomy and Cell Science M.Sc. Admission Requirements

The following categories of students may be accepted for graduate study in this department:

- Four-year undergraduate Science degree with a minimum GPA of 3.0.
- Students who have completed a three-year general undergraduate degree may be admitted following completion of the required pre-Master's courses. Contact the Department for details.
- Graduates in medicine or dentistry holding M.D., D.M.D. (D.D.S.), or equivalent degrees.
- Other suitable graduates will be considered.

Application Information

Students should complete and submit their online application with supporting documentation by the date indicated on the Human Anatomy Cell Science M.Sc. program of study (https://umanitoba.ca/faculties/graduate_studies/admissions/programs/hacs.html) page.

Degree Requirements

Students are required to take Biomedical Trainee Skills (IMED 7410) plus 6 credit hours of approved coursework at the 7000 level. Students must then complete a thesis.

Expected Time to Graduate: 2-3 years

Progression Chart

Course	Title	Hours
Year 1		
GRAD 7300	Research Integrity Tutorial	0
GRAD 7500	Academic Integrity Tutorial	0

core academic requirements a graduate student must acquire in order to gain, and demonstrate acquisition of, essential knowledge and skills.

All students must successfully complete:

- GRAD 7300 prior to applying to any ethics boards which are appropriate to the student's research or within the student's first year, whichever comes first; and
- GRAD 7500 within the first term of registration;

unless these courses have been completed previously, as per Mandatory Academic Integrity Course (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#GRAD7500>) and Mandatory Research Integrity Online Course (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#GRAD7300>).

Students must also meet additional BFAR that may be specified for their program.

General Regulations

All students must:

- maintain a minimum degree grade point average of 3.0 with no grade below C+,
- meet the minimum and not exceed the maximum course requirements, and
- meet the minimum and not exceed the maximum time requirements (in terms of time in program and lapse or expiration of credit of courses).

Human Anatomy and Cell Science, Ph.D.

Human Anatomy and Cell Science

Head: S. Hombach-Klonisch

Campus Address/General Office: 130 Basic Medical Sciences Building, 745 Bannatyne Avenue

Telephone: 204-789-3411

Fax: 204-789-3920

Email Address: hacs.info@umanitoba.ca

Website: umanitoba.ca/healthsciences/medicine/units/anatomy/ (<https://umanitoba.ca/healthsciences/medicine/units/anatomy/>)

Academic Staff: Please see the HACS website (https://umanitoba.ca/faculties/health_sciences/medicine/units/anatomy/haresearch.html) for Faculty information.

Human Anatomy Program Information

The Department of Human Anatomy and Cell Science (HACS) offers graduate training at both the Master of Science and Doctor of Philosophy levels.

Admission Information

Admission to the Faculty of Graduate Studies

Application and Admission Procedures are found in the Academic Guide (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/application-admission-registration-policies/>).

Admission requirements for doctoral students are found in the Doctor of Philosophy General Regulations (<https://catalog.umanitoba.ca/>

[archived-calendars/2021-2022/graduate-studies/academic-guide/doctor-philosophy-general-regulations/](#)) section of the Guide.

Human Anatomy and Cell Science Ph.D. Admission Requirements

Admission requirements are those of the Faculty of Graduate Studies.

Application Information

Students should complete and submit their online application with supporting documentation by the date indicated on the Human Anatomy Cell Science Ph.D. program of study (https://umanitoba.ca/faculties/graduate_studies/admissions/programs/hacs.html) page.

Degree Requirements

Students are required to take Readings in Anatomy (ANAT 7330) plus a minimum of 3 credit hours of approved coursework at the 7000 level. Students must then complete a thesis.

Expected Time to Graduate: 4-5 years

Progression Chart

Course	Title	Hours
Year 1		
GRAD 7300	Research Integrity Tutorial	0
GRAD 7500	Academic Integrity Tutorial	0
ANAT 7330	Readings in Anatomy	3
ANAT/IMED 7XXX	Approved coursework designated 7000 level including at least one course from the list below ¹	3
Hours		6
Years 2-3		
GRAD 8010	Doctoral Candidacy Examination	0
Thesis Proposal ²		
Hours		0
Years 3-4		
GRAD 8000	Doctoral Thesis ³	0
Hours		0
Total Hours		6

¹ The coursework required for an individual student will be specified in consultation with the student's faculty advisor, and will depend upon the student's background.

² The thesis proposal should be completed within two years of entering the program.

³ Prior to submission of their thesis for examination, the student normally will be expected to have presented their research at scientific meetings; and, contributed to a manuscript that is submitted, in press, or published.

Note:

- Mandatory attendance at seminars that are part of the Departmental Seminar Program is required.

Approved Coursework

Course	Title	Hours
ANAT 7460	Human Histology: Basic Tissues	1.5
ANAT 7462	Human Histology: Blood, Immune, and Cardiopulmonary Systems	1.5
ANAT 7464	Human Histology: Gastrointestinal System and Endocrine Glands	1.5
ANAT 7466	Human Histology: Reproductive and Urinary Systems, Skin, and Special Senses	1.5
ANAT 7380	Human Developmental Anatomy (Embryology)	3
ANAT 7392	Human Neuroanatomy	3
ANAT 7470	Graduate Gross Anatomy	6
IMED 7004	Human Brain Imaging Methods	1.5
IMED 7092	Cell Biology A Introductory	3
IMED 7094	Cell Biology B Special Topics	3
IMED 7112	Fundamental Cellular Neurobiology	1.5
IMED 7114	Fundamental Neural Development and Plasticity	1.5
IMED 7116	Fundamental Systems Neuroscience	1.5
IMED 7118	Fundamental Neurobiology of Disease	1.5
IMED 7180	Molecular Approaches in Medical Research	3
IMED 7200	Cancer Biology	3
IMED 7210	Epigenetics in Development and Human Diseases	1.5
IMED 7242	Nucleic Acids: Structure and Function in Normal Development and Diseases	1.5
IMED 7244	Nucleic Acids: Manipulation in Biomedical Research	1.5
IMED 7290	Developmental Biology	3
IMED 7300	Microscopy, Optics, Imaging and Analysis in Health Research	3
IMED 7302	Advanced Molecular Imaging	3

Registration Information

Students should familiarize themselves with the Faculty of Graduate Studies 'GRAD' courses applicable to their program (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/registration-information/>). If you have questions about which GRAD course(s) to register in, please consult your home department/unit.

All programs of study must be approved by the Chair of Graduate Studies or by the department.

Not all courses are offered each year. Please consult with your Advisor and the department office or check with the catalog for a list of courses offered.

Students should register themselves by signing up for the Aurora Student on-line service of the University of Manitoba website. All course additions and or withdrawals (registration revisions) must be approved by the department.

Regulations

Students must meet the requirements as outlined in both Supplementary Regulation and BFAR documents as approved by Senate.

Supplementary Regulations

Individual units may require specific requirements above and beyond those of the Faculty of Graduate Studies, and students should consult

unit supplementary regulations (<https://umanitoba.ca/graduate-studies/supplementary-regulations/>) for these specific regulations.

Bona Fide Academic Requirements (BFAR)

Bona Fide Academic Requirements (BFAR) (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#BFAR>) represent the core academic requirements a graduate student must acquire in order to gain, and demonstrate acquisition of, essential knowledge and skills.

All students must successfully complete:

- GRAD 7300 prior to applying to any ethics boards which are appropriate to the student's research or within the student's first year, whichever comes first; and
- GRAD 7500 within the first term of registration;

unless these courses have been completed previously, as per Mandatory Academic Integrity Course (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#GRAD7500>) and Mandatory Research Integrity Online Course (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#GRAD7300>).

Students must also meet additional BFAR that may be specified for their program.

General Regulations

All students must:

- maintain a minimum degree grade point average of 3.0 with no grade below C+,
- meet the minimum and not exceed the maximum course requirements, and
- meet the minimum and not exceed the maximum time requirements (in terms of time in program and lapse or expiration of credit of courses).

Immunology, M.Sc.

Immunology

Head: A. Marshall

Campus Address/General Office: 471 Apotex Centre, 750 McDermot Avenue

Telephone: 204-789-3509

Fax: 204-789-3921

Email Address: Silvia.Panameno@umanitoba.ca

Website: umanitoba.ca/faculties/health_sciences/medicine/units/immunology/ (https://umanitoba.ca/faculties/health_sciences/medicine/units/immunology/)

Academic Staff: Please see the Immunology website (https://umanitoba.ca/faculties/health_sciences/medicine/units/immunology/contactus.html) for Faculty information.

Immunology Program Information

The Department offers a diverse program of graduate studies and research in Immunology, leading to Master of Science and Doctor of Philosophy degrees.

Admission Information

Admission to the Faculty of Graduate Studies

Application and Admission Procedures are found in the Academic Guide (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/application-admission-registration-policies/>).

Admission requirements for Master's students are found in the Master's Degrees General Regulations (https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/masters-degrees-general-regulations/#Admission_FGSMasters) section of the Guide.

Immunology M.Sc. Admission Requirements

The Department of Immunology requires a minimum TOEFL score of 250 (computer based) or 88 (internet based, with a minimum of 20 points from each section of the test). In most cases a grade point average (GPA) above 3.5 is needed to be competitive for available positions in the program.

Application Information

Students should complete and submit their online application with supporting documentation by the date indicated on the Immunology M.Sc. program of study (https://umanitoba.ca/faculties/graduate_studies/admissions/programs/immunology.html) page.

Degree Requirements

The minimum course load consists of 9 credit hours, which includes the mandatory core course IMMU 7020. Students must submit an acceptable thesis and pass a thesis oral examination.

Expected Time to Graduate: 2 - 3 years

Progression Chart

Course	Title	Hours
Year 1		
GRAD 7300	Research Integrity Tutorial	0
GRAD 7500	Academic Integrity Tutorial	0
IMMU 7020	Immunobiology	6
Approved coursework at the 7000 level		3
Hours		9
Year 2		
GRAD 7000	Master's Thesis	0
Hours		0
Total Hours		9

Notes:

- All students are required to attend the weekly Immunology Research Seminar and weekly Immunology Journal Club for the duration of their program (2 hours per week Sept-May), and do a presentation once per year in each program.
- An outline of the proposed thesis research must be presented orally to the advisory committee, in a closed session, within the first 3 months of the program.

Registration Information

Students should familiarize themselves with the Faculty of Graduate Studies 'GRAD' courses applicable to their program (<https://>

catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/registration-information/). If you have questions about which GRAD course(s) to register in, please consult your home department/unit.

All new and returning students must meet with their advisor to determine their program of study prior to registration. Once the student has met with their advisor and subsequently receives approval from the Department Head, they must contact the Administrative Assistant, who will register the student in their courses.

All course additions and withdrawals (registration revisions) must be approved in the same manner.

Regulations

Students must meet the requirements as outlined in both Supplementary Regulation and BFAR documents as approved by Senate.

Supplementary Regulations

Individual units may require specific requirements above and beyond those of the Faculty of Graduate Studies, and students should consult unit supplementary regulations (<https://umanitoba.ca/graduate-studies/supplementary-regulations/>) for these specific regulations.

Bona Fide Academic Requirements (BFAR)

Bona Fide Academic Requirements (BFAR) (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#BFAR>) represent the core academic requirements a graduate student must acquire in order to gain, and demonstrate acquisition of, essential knowledge and skills.

All students must successfully complete:

Registration Information

Students should familiarize themselves with the Faculty of Graduate Studies 'GRAD' courses applicable to their program (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/>

registration-information/). If you have questions about which GRAD course(s) to register in, please consult your home department/unit.

All new and returning students must meet with their advisor to determine their program of study prior to registration. Once the student has met with their advisor and subsequently receives approval from the Department Head, they must contact the Administrative Assistant, who will register the student in their courses.

All course additions and withdrawals (registration revisions) must be approved in the same manner.

Regulations

Students must meet the requirements as outlined in both Supplementary Regulation and BFAR documents as approved by Senate.

Supplementary Regulations

Individual units may require specific requirements above and beyond those of the Faculty of Graduate Studies, and students should consult unit supplementary regulations (<https://umanitoba.ca/graduate-studies/supplementary-regulations/>) for these specific regulations.

Bona Fide Academic Requirements (BFAR)

Bona Fide Academic Requirements (BFAR) (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#BFAR>) represent the core academic requirements a graduate student must acquire in order to gain, and demonstrate acquisition of, essential knowledge and skills.

All students must successfully complete:

- GRAD 7300 prior to applying to any ethics boards which are appropriate to the student's research or within the student's first year, whichever comes first; and
- GRAD 7500 within the first term of registration;

unless these courses have been completed previously, as per Mandatory Academic Integrity Course (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#GRAD7500>) and Mandatory Research Integrity Online Course (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#GRAD7300>).

Students must also meet additional BFAR that may be specified for their program.

General Regulations

All students must:

- maintain a minimum degree grade point average of 3.0 with no grade below C+,
- meet the minimum and not exceed the maximum course requirements, and
- meet the minimum and not exceed the maximum time requirements (in terms of time in program and lapse or expiration of credit of courses).

Medical Microbiology & Infectious Diseases, M.Sc.

Medical Microbiology and Infectious Diseases

Head: Dr. Keith Fowke

Campus Address/General Office: 543 Basic Medical Sciences Building, 745 Bannatyne Avenue

Telephone: 204-789-3444

Fax: 204-789-3926

Email Address: angela.nelson@umanitoba.ca

Website: umanitoba.ca/faculties/health_sciences/medicine/units/medical_microbiology/ (https://umanitoba.ca/faculties/health_sciences/medicine/units/medical_microbiology/faculty/index2.html)

Academic Staff: Please refer to the Medical Microbiology website (https://umanitoba.ca/faculties/health_sciences/medicine/units/medical_microbiology/faculty/index2.html) for academic staff information.

Medical Microbiology and Infectious Diseases Program Information

The Department of Medical Microbiology and Infectious Diseases offers programs of study leading to the Master of Science and Doctor of Philosophy degrees with research and academic experience suitable for a career in Basic Microbiology or Infectious Diseases.

Admission Information

Admission to the Faculty of Graduate Studies

Application and Admission Procedures are found in the Academic Guide (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/application-admission-registration-policies/>).

Admission requirements for Master's students are found in the Master's Degrees General Regulations (https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/masters-degrees-general-regulations/#Admission_FGSMasters) section of the Guide.

Medical Microbiology and Infectious Diseases M.Sc. Admission Requirements

Graduates in Medicine, Dentistry, Veterinary Medicine, or general Science may apply for entry into this graduate program. The department requires that an incoming student have a minimum Grade Point Average of 3.0, or its equivalent, in the 60 credit hours (or two years depending on the type of transcript) immediately preceding first registration. Students with a three-year B.Sc. degree must normally enrol in a pre-Master's course arranged in consultation with the Graduate Studies Committee and the head of the department.

Pre-Master's Option

This unit offers a Pre-Master's program of study (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/general-regulations-pre-masters/>). The Pre-Master's program of study is intended to bring a student's background up to the equivalent of the required 4-year degree in the major department/unit, and to provide the student with any necessary prerequisites for courses to be taken in the Master's program. Completing the Pre-Master's program does not guarantee acceptance to the Master's program.

Application Information

Students should complete and submit their online application with supporting documentation by the date indicated on the Medical Microbiology and Infectious Diseases M.Sc. program of study (umanitoba.ca/faculties/graduate_studies/admissions/programs/medical_microbiology.html) page.

umanitoba.ca/faculties/graduate_studies/admissions/programs/medical_microbiology.html) page.

Degree Requirements

The minimum of 12 credit hours of coursework in Medical Microbiology and Infectious Diseases normally includes the departmental required course MMIC 7050 Microbial Pathogenicity (6 credit hours) plus 6 additional credit hours at the 6000 level or above. Students must also complete a thesis.

Students are required to participate in the Medical Microbiology and Infectious Diseases seminar and graduate journal club programs, which meet regularly.

Expected Time to Graduate: 2 - 3 years

Progression Chart

Course	Title	Hours
Year 1		
GRAD 7020	Master's Re-registration ¹	0
GRAD 7300	Research Integrity Tutorial	0
GRAD 7500	Academic Integrity Tutorial ²	0
MMIC 7050	Microbial Pathogenicity ³	6
Select 6 credit hours at the 6000 level or above (not restricted to home department)		6
Hours		12
Year 2		
GRAD 7000	Master's Thesis ⁴	0
Hours		0
Total Hours		12

¹ Must be included in registration every term throughout the program.

² All graduate students must register for and complete GRAD 7500 in their first term of study. This is a zero (0) credit-hour course intended to introduce students to their basic responsibilities regarding academic integrity and to the resources available to them.

³ Successful completion of this course is a department requirement to graduate.

⁴ Must present proposal to Student Advisory Committee for approval.

Registration Information

Students should familiarize themselves with the Faculty of Graduate Studies 'GRAD' courses applicable to their program (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/registration-information/>). If you have questions about which GRAD course(s) to register in, please consult your home department/unit.

Prior to registration, all new and returning students must meet with their advisor to determine their program of study. Students should register themselves by signing up for the Aurora Student service on the University of Manitoba website. If difficulties are incurred students may contact the Graduate Studies Committee Office Assistant as per the information below.

All course additions and withdrawals (registration revisions) must be approved in the same manner.

Not all courses are offered each year.

Regulations

Students must meet the requirements as outlined in both Supplementary Regulation and BFAR documents as approved by Senate.

Supplementary Regulations

Individual units may require specific requirements above and beyond those of the Faculty of Graduate Studies, and students should consult unit supplementary regulations (<https://umanitoba.ca/graduate-studies/supplementary-regulations/>) for these specific regulations.

Bona Fide Academic Requirements (BFAR)

Bona Fide Academic Requirements (BFAR) (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#BFAR>) represent the core academic requirements a graduate student must acquire in order to gain, and demonstrate acquisition of, essential knowledge and skills.

All students must successfully complete:

- GRAD 7300 prior to applying to any ethics boards which are appropriate to the student's research or within the student's first year, whichever comes first; and

Medical Microbiology and Infectious Diseases Program Information

The Department of Medical Microbiology and Infectious Diseases offers programs of study leading to the Master of Science and Doctor of Philosophy degrees with research and academic experience suitable for a career in Basic Microbiology or Infectious Diseases.

Admission Information

Admission to the Faculty of Graduate Studies

Application and Admission Procedures are found in the Academic Guide (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/application-admission-registration-policies/>).

Admission requirements for doctoral students are found in the Doctor of Philosophy General Regulations (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/doctor-philosophy-general-regulations/>) section of the Guide.

Medical Microbiology and Infectious Diseases Ph.D. Admission Requirements

Admission requirements are those of the Faculty of Graduate Studies.

Application Information

Students should complete and submit their online application with supporting documentation by the date indicated on the Medical Microbiology and Infectious Diseases Ph.D. program of study (https://umanitoba.ca/faculties/graduate_studies/admissions/programs/medical_microbiology.html) page.

Degree Requirements

Where admission to the Ph.D. is directly from a Master's Degree, a minimum of 6 credit hours at the 7000 level or higher plus a thesis is required. Any further coursework beyond the minimum 6 credit hours at the 7000 level must be at the 3000 level or above.

Where students have completed the minimum of 12 credit hours of 7000 level coursework required to transfer to the Ph.D., 6 additional credit hours of 7000 level or higher coursework plus a thesis are required.

If the candidate has not already taken a course during their prior Master's degree studies that is equivalent to MMIC 7050 Microbial Pathogenicity (as determined by the department Head, or designate), then this course must normally be taken as part of the Ph.D. program of study.

Expected Time to Graduate: 5 - 6 years

Progression Chart

GRAD 8010	Doctoral Candidacy Examination ²	0
GRAD 8000	Doctoral Thesis	0
GRAD 8020	Doctoral Re-registration	0
	Hours	0
	Total Hours	6-12

¹ If not already completed during prior Master's degree studies.

² The candidacy exam will be taken by all Ph.D. students no later than 12 months prior to their expected graduation date and preferably much earlier given possible time constraints due to overlaps with [thesis writing](#).

Registration Information

Students should familiarize themselves with the Faculty of Graduate Studies 'GRAD' courses applicable to their program (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/registration-information/>). If you have questions about which GRAD course(s) to register in, please consult your home department/unit.

Prior to registration, all new and returning students must meet with their advisor to determine their program of study. Students should register themselves by signing up for the Aurora Student service on the University of Manitoba website. If difficulties are incurred students may contact the Graduate Studies Committee Office Assistant as per the information below.

All course additions and withdrawals (registration revisions) must be approved in the same manner.

Not all courses are offered each year.

Regulations

Students must meet the requirements as outlined in both Supplementary Regulation and BFAR documents as approved by Senate.

Supplementary Regulations

Individual units may require specific requirements above and beyond those of the Faculty of Graduate Studies, and students should consult unit supplementary regulations (<https://umanitoba.ca/graduate-studies/supplementary-regulations/>) for these specific regulations.

Bona Fide Academic Requirements (BFAR)

Bona Fide Academic Requirements (BFAR) (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#BFAR>) represent the core academic requirements a graduate student must acquire in order to gain, and demonstrate acquisition of, essential knowledge and skills.

All students must successfully complete:

- GRAD 7300 prior to applying to any ethics boards which are appropriate to the student's research or within the student's first year, whichever comes first; and
- GRAD 7500 within the first term of registration;

unless these courses have been completed previously, as per Mandatory Academic Integrity Course (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#GRAD7500>) and Mandatory Research Integrity Online Course (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#GRAD7300>).

[calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#GRAD7300](https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#GRAD7300)).

Students must also meet [additional BFAR](#) that may be specified for their program.

General Regulations

All students must:

- maintain a minimum degree grade point average of 3.0 with no grade below C+;
- meet the minimum and not exceed the maximum course requirements, and
- meet the minimum and not exceed the maximum time requirements (in terms of time in program and lapse or expiration of credit of courses).

Pathology, M.Sc.

Pathology

Head: Dr. Gabor Fischer

Campus Address/General Office: 401 Brodie Centre, 727 McDermot Avenue

Telephone: 204-789-3212

Fax: 204-789-3931

Email Address: pathology@umanitoba.ca

Website: umanitoba.ca/faculties/health_sciences/medicine/units/pathology/ (https://umanitoba.ca/faculties/health_sciences/medicine/units/pathology/)

Academic Staff: Please refer to the Pathology website (https://umanitoba.ca/faculties/health_sciences/medicine/units/pathology/path_faculty.html) for Academic staff information.

Pathology Program Information

The Department of Pathology offers two programs leading to a Master of Science degree. Honours Science graduates with a strong background in biology can carry out coursework, plus one of a research based program and thesis; or, a practicum leading to a paramedical qualification as a Pathologist's Assistant.

Admission Information

Admission to the Faculty of Graduate Studies

Application and Admission Procedures are found in the Academic Guide (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/application-admission-registration-policies/>).

Admission requirements for Master's students are found in the Master's Degrees General Regulations (https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/masters-degrees-general-regulations/#Admission_FGSMasters) section of the Guide.

Pathology M.Sc. Admission Requirements

Admission requirements are those of the Faculty of Graduate Studies.

Application Information

Students should complete and submit their online application with supporting documentation by the date indicated on the Pathology M.Sc. program of study (https://umanitoba.ca/faculties/graduate_studies/admissions/programs/pathology.html) page.

Degree Requirements

M.Sc. Research/Thesis-based Program

All students in this program are required to take a minimum of 9 credit hours of coursework, to carry out a supervised research project, and to present an acceptable thesis.

Maximum time to complete the program is 4 years for full-time students.

M.Sc. Pathologists' Assistant Program

All students are required to successfully complete the major courses as listed in Progression Chart below. Further requirements include:

1. Complete a Medical Terminology workbook/course prior to the start of the program.
2. Complete a log book of a required number of surgical and autopsy cases.
3. A written and Practical Examination is given at the completion of PATH 7036 and PATH 7042, for which students must acquire a Pass grade/or a grade equivalent to a B.
4. Successfully complete a research/practicum project on a subject related to Pathology work.

It is highly recommended that students complete this program in 2 years.

Progression Chart

Pathologists' Assistant Program

To graduate with a Master of Pathologists' Assistant degree, a student must have passed the following courses outlined below and must have achieved a minimum grade of a B average in Introduction to Disease Mechanisms (IMED 7212). Students will also have to successfully complete a research/practicum project on a subject related to Pathology work and it will be defended as a Thesis.

Course	Title	Hours
Year 1		
ANAT 7470	Graduate Gross Anatomy (Part A)	6
IMED 7212	Introduction to the Mechanisms of Disease	3
PATH 7032	Pathologists Assistant Field Practicum I	4
GRAD 7300	Research Integrity Tutorial	0
GRAD 7500	Academic Integrity Tutorial	0
ANAT 7470	Graduate Gross Anatomy (Part B)	6
PATH 7120	Diseases of Human Organ Systems	1.5
PATH 7034	Pathologists Assistant Field Practicum II	4
PATH 7036	Pathologists Assistant Field Practicum III	4
Research/Practicum Project ¹		
Hours		28.5
Year 2		
GRAD 7000	Master's Thesis	0
PATH 7130	Clinical Pathological Correlations 1	1.5
PATH 7038	Pathologists Assistant Filed Practicum IV	4
PATH 7140	Clinical Pathological Correlations 2	1.5
PATH 7042	Pathologists Assistant Field Practicum V	4
Research/Practicum Project ²		
Hours		11
Total Hours		39.5

¹ Student will begin to start working on their research/practicum project on a subject related to Pathology work.

² Student should almost be completed their research/practicum project which they will present by the end of summer term.

Research/Thesis-Based Program

All students in the program are required to take a minimum of 9 credit hours of coursework, to carry out a supervised research project, and to present an acceptable thesis.

Course	Title	Hours
Year 1		
GRAD 7300	Research Integrity Tutorial	0
GRAD 7500	Academic Integrity Tutorial	0
IMED 7212	Introduction to the Mechanisms of Disease	3
GRAD 7XXX	Additional Graduate Courses ¹	6
Thesis Outline ²		
Hours		9
Year 2		
GRAD 7000	Master's Thesis ³	0
Hours		0
Total Hours		9

¹ Additional credit hours at the 7000 level are mandatory to a total a minimum of 9 credit hours. These additional courses vary from student to student and course select will be made in consultation with the advisor.

² Three months following the commencement of their program and following consultation with their supervisor, the student should submit a detailed thesis outline to their committee for advice and approval. The outline should be 1-2 pages long, adhering to the following format: Introduction (Background); Hypothesis; Objectives; Proposed Methods/ Potential Significance of Work.

³ Students continue to work on their thesis. Students are required to allow 4 weeks for members of their advisory committee to read their thesis or practicum prior to the oral exam

Registration Information

Students should familiarize themselves with the Faculty of Graduate Studies 'GRAD' courses applicable to their program (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/registration-information/>). If you have questions about which GRAD course(s) to register in, please consult your home department/unit.

Regulations

Students must meet the requirements as outlined in both Supplementary Regulation and BFAR documents as approved by Senate.

Supplementary Regulations

Individual units may require specific requirements above and beyond those of the Faculty of Graduate Studies, and students should consult unit supplementary regulations (<https://umanitoba.ca/graduate-studies/supplementary-regulations/>) for these specific regulations.

Bona Fide Academic Requirements (BFAR)

Bona Fide Academic Requirements (BFAR) (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#BFAR>) represent the

core academic requirements a graduate student must acquire in order to gain, and demonstrate acquisition of, essential knowledge and skills.

All students must successfully complete:

- GRAD 7300 prior to applying to any ethics boards which are appropriate to the student's research or within the student's first year, whichever comes first; and
- GRAD 7500 within the first term of registration;

unless these courses have been completed previously, as per Mandatory Academic Integrity Course (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#GRAD7500>) and Mandatory Research Integrity Online Course (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#GRAD7300>).

Students must also meet additional BFAR that may be specified for their program.

General Regulations

All students must:

- maintain a minimum degree grade point average of 3.0 with no grade below C+;
- meet the minimum and not exceed the maximum course requirements, and
- meet the minimum and not exceed the maximum time requirements (in terms of time in program and lapse or expiration of credit of courses).

Pharmacology and Therapeutics, M.Sc.

Pharmacology and Therapeutics

Head: Chris Anderson

Campus Address/General Office: A205 Chown Building, 753 McDermot Avenue, Winnipeg, MB, R3E 0T6

Telephone: 204-789-3553

Email Address: pharmacology@umanitoba.ca

Website: <https://umanitoba.ca/medicine/department-pharmacology-and-therapeutics> (<https://umanitoba.ca/medicine/department-pharmacology-and-therapeutics/>)

Academic Staff: Please refer to the Pharmacology and Therapeutics website (https://umanitoba.ca/faculties/health_sciences/medicine/units/pharmacology/faculty_members/) for Academic staff information

Pharmacology and Therapeutics Program Information

The department offers both Master of Science and Doctor of Philosophy degrees. A joint M.D.-Ph.D. program is available to students in Medicine.

Admission Information

Admission to the Faculty of Graduate Studies

Application and Admission Procedures are found in the Academic Guide (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/application-admission-registration-policies/>).

Admission requirements for Master's students are found in the Master's Degrees General Regulations (https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/masters-degrees-general-regulations/#Admission_FGSMasters) section of the Guide.

Pharmacology and Therapeutics M.Sc. Admission Requirements

Qualified students holding B.Sc., M.Sc., B.Pharm., D.V.M. or M.D. degrees may apply for entry into Graduate Programs. Ancillary work in Pharmacology may be arranged for students pursuing their major studies in related departments.

Normally, a student will have a prospective advisor identified as a requirement for admission.

Application Information

Students should complete and submit their online application with supporting documentation by the date indicated on the Pharmacology and Therapeutics M.Sc. program of study (https://umanitoba.ca/faculties/graduate_studies/admissions/programs/pharmacology.html) page.

Degree Requirements

Course requirements will depend on prior degree held and research experience.

Expected Time to Graduate: 2 – 3 years

Progression Chart

Pharmacology and Therapeutics Program Information

The department offers both Master of Science and Doctor of Philosophy degrees. A joint M.D.-Ph.D. program is available to students in Medicine.

Admission Information

Admission to the Faculty of Graduate Studies

Application and Admission Procedures are found in the Academic Guide (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/application-admission-registration-policies/>).

Admission requirements for doctoral students are found in the Doctor of Philosophy General Regulations (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/doctor-philosophy-general-regulations/>) section of the Guide.

Pharmacology and Therapeutics Ph.D. Admission Requirements

Students with a research based M.Sc. degree in a related field (Science, Pharmacy, and Nursing) may be admitted directly into the Ph.D. Program. Students with a B.Sc. (Hons) degree (or 4-year equivalent) and no graduate degree will first be admitted to the M.Sc. Program.

If recommended by the Advisory Committee and the Department Graduate Committee, an M.Sc. student may be encouraged to apply for transition into the Ph.D. Program. Students with an M.Sc. in an unrelated field will be evaluated on an individual basis.

Application Information

Students should complete and submit their online application with supporting documentation by the date indicated on the Pharmacology and Therapeutics Ph.D. program of study (https://umanitoba.ca/faculties/graduate_studies/admissions/programs/pharmacology.html) page.

Degree Requirements

Course requirements will depend on prior degree held and research experience. Entry with a B.Sc. (Hon) degree (or four year equivalent) may require a course schedule similar to that described for the M.Sc. degree. Students entering with a graduate degree (M.Sc.) will have a course schedule that is dependent on previous course work.

Expected Time to Graduate: 3 – 5 years

Progression Chart

- meet the minimum and not exceed the maximum course requirements, and
- meet the minimum and not exceed the maximum time requirements (in terms of time in program and lapse or expiration of credit of courses).

Physician Assistant Studies, M.P.A.S.

Master of Physician Assistant Studies

Program Director: Ian Jones

Campus Address/General Office: 260 Brodie - 727 McDermot Avenue

Telephone: 204-272-3094

Fax: 204-480-1372

Email Address: mpas@umanitoba.ca

Website: umanitoba.ca/physicianassistant/ (<https://umanitoba.ca/physicianassistant/>)

Academic Staff: Please see the M.P.A.S. website (https://umanitoba.ca/faculties/health_sciences/medicine/education/paep/contact_info.html) for Academic staff information

Master of Physician Assistant Studies Program Information

The Master of Physician Assistant Studies (M.P.A.S.) degree is a nationally accredited coursework-based graduate program, designed to educate generalist medical providers who are eligible for the national certification exam and qualify for PA licensure in Manitoba.

Admission Information

Admission to the Faculty of Graduate Studies

Application and Admission Procedures are found in the Academic Guide (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/application-admission-registration-policies/>).

Admission requirements for Master's students are found in the Master's Degrees General Regulations (https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/masters-degrees-general-regulations/#Admission_FGSMasters) section of the Guide.

M.P.A.S. Admission Requirements

This program is open to Canadian Citizens or Permanent Residents of Canada who are graduates of four-year bachelor's degrees from recognized colleges and universities, with a minimum Grade Point Average of 3.0 in the most recent 60-credit hours of study (full time or part-time study). Note that a GPA of 3.5 or better is competitive.

Completion of the required courses, Human Anatomy, Human Physiology, and Biochemistry, from an accredited university or college, is required. Undergraduate level asset courses include Microbiology and Psychology. All courses require at least three credit hours each for consideration.

MPAS uses the Multiple-Mini Interview (MMI) Panel Interview and a Written Essay as part of the selection process for candidates. The program also requires Situational Judgement Testing (e.g., Canadian Professional Health Sciences CASPer test).

On enrolment, accepted students must be eligible for the Educational Register with the College of Physicians and Surgeons of Manitoba (<http://cpsm.mb.ca/>).

Application Information

Students should complete and submit their online application with supporting documentation by the date indicated on the M.P.A.S. program of study (https://umanitoba.ca/faculties/graduate_studies/admissions/programs/paep.html) page.

Degree Requirements

The MPAS is a two year program. The first year consists of 56 credit hours of coursework, delivered in three semesters from September - July as a combination of lecture, clinical skills training, and seminars. The second year includes 30 credit hours (48 weeks) of core clinical rotations. All courses are required major courses, and students must maintain full-time registration throughout the Program.

Expected Time to Graduate: 26 months inclusive of the National Certification Examination

Physiology & Pathophysiology Program Information

The department offers graduate programs leading to the Master of Science and Doctor of Philosophy degrees.

Admission Information

Admission to the Faculty of Graduate Studies

Application and Admission Procedures are found in the Academic Guide (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/application-admission-registration-policies/>).

Admission requirements for Master's students are found in the Master's Degrees General Regulations (https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/masters-degrees-general-regulations/#Admission_FGSMasters) section of the Guide.

Physiology & Pathophysiology M.Sc. Admission Requirements

Applicants must possess a four-year Bachelor's degree (or equivalent); or, three-year Bachelor's degree plus successful completion of Post Baccalaureate Diploma in Medical Physiology & Pathophysiology from the University of Manitoba.

Application Information

Students should complete and submit their online application with supporting documentation by the date indicated on the Physiology & Pathophysiology M.Sc. program of study (https://umanitoba.ca/faculties/graduate_studies/admissions/programs/physiology.html) page.

Degree Requirements

A minimum of 9 credit hours or 1.5 full-credit equivalents (FCE) in 7000 level courses from any suitable discipline is mandatory for completion of the M.Sc. program; a 0.5 FCE corresponds to a course that runs for a full term. In most cases, a student will be required to complete:

Course	Title	Hours
PHGY 7252	Respiratory Physiology & Pathophysiology ¹	1.5
PHGY 7254	Cardiovascular Physiology & Pathophysiology ¹	1.5
PHGY 7256	Endocrine Physiology & Pathophysiology ¹	1.5
PHGY 7258	Neurophysiology & Pathophysiology ¹	1.5
IMED 7410	Biomedical Trainee Skills	3

¹ 4 x 1.5 credit hours or 1.0 FCE total.

Expected Time to Graduate: 2 years

Progression Chart

Course	Title	Hours
Year 1		
PHGY 7252	Respiratory Physiology & Pathophysiology	1.5
PHGY 7254	Cardiovascular Physiology & Pathophysiology	1.5
PHGY 7256	Endocrine Physiology & Pathophysiology	1.5
PHGY 7258	Neurophysiology & Pathophysiology	1.5
IMED 7410	Biomedical Trainee Skills	3
Hours		9
Year 2		
GRAD 7000	Master's Thesis	0
Hours		0
Total Hours		9

Students may be required to take other courses.

Registration Information

Students should familiarize themselves with the Faculty of Graduate Studies 'GRAD' courses applicable to their program (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/registration-information/>). If you have questions about which GRAD course(s) to register in, please consult your home department/unit.

Prior to registration, all new and returning students must meet with their advisor to determine their program of study. All course additions and withdrawals (registration revisions) must be approved in the same manner.

Please note that registration for all students will be completed by the graduate program assistant for the department once the worksheet provided each term has been completed and signed by the student's advisor.

Not all courses are offered every year and some courses will be held only with a minimum enrolment.

Regulations

Students must meet the requirements as outlined in both Supplementary Regulation and BFAR documents as approved by Senate.

Supplementary Regulations

Individual units may require specific requirements above and beyond those of the Faculty of Graduate Studies, and students should consult unit supplementary regulations (<https://umanitoba.ca/graduate-studies/supplementary-regulations/>) for these specific regulations.

Bona Fide Academic Requirements (BFAR)

Bona Fide Academic Requirements (BFAR) (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#BFAR>) represent the core academic requirements a graduate student must acquire in order to gain, and demonstrate acquisition of, essential knowledge and skills.

All students must successfully complete:

- GRAD 7300 prior to applying to any ethics boards which are appropriate to the student's research or within the student's first year, whichever comes first; and
- GRAD 7500 within the first term of registration;

unless these courses have been completed previously, as per Mandatory Academic Integrity Course (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#GRAD7500>) and Mandatory Research Integrity Online Course (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#GRAD7300>).

Students must also meet additional BFAR that may be specified for their program.

General Regulations

All students must:

- maintain a minimum degree grade point average of 3.0 with no grade below C+,
- meet the minimum and not exceed the maximum course requirements, and
- meet the minimum and not exceed the maximum time requirements (in terms of time in program and lapse or expiration of credit of courses).

Note: Physiology & Pathophysiology requires a higher minimum course grade. Students are required to maintain a **B (3.0)** in all course work.

Physiology & Pathophysiology, Ph.D.

Physiology & Pathophysiology

Head: Dr. Peter Cattini

Grad Chair: Dr. Brent Fedirchuk

Campus Address/General Office: 433 Basic Medical Sciences Building

Telephone: 204-789-3694

Fax: 204-789-3934

Email Address: peter.cattini@umanitoba.ca (physiology@umanitoba.ca)

Website: umanitoba.ca/faculties/health_sciences/medicine/units/physiology/ (https://umanitoba.ca/faculties/health_sciences/medicine/units/physiology/)

Academic Staff: Please refer to the Physiology & Pathophysiology website (https://umanitoba.ca/faculties/health_sciences/medicine/units/physiology/contacts/) for current staff listing.

Physiology & Pathophysiology Program Information

The department offers graduate programs leading to the Master of Science and Doctor of Philosophy degrees.

Admission Information

Admission to the Faculty of Graduate Studies

Application and Admission Procedures are found in the Academic Guide (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/application-admission-registration-policies/>).

Admission requirements for doctoral students are found in the Doctor of Philosophy General Regulations (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/doctor-philosophy-general-regulations/>) section of the Guide.

Physiology & Pathophysiology Ph.D. Admission Requirements

Admission requirements are those of the Faculty of Graduate Studies.

Application Information

Students should complete and submit their online application with supporting documentation by the date indicated on the Physiology & Pathophysiology Ph.D. program of study (https://umanitoba.ca/faculties/graduate_studies/admissions/programs/physiology.html) page.

Degree Requirements

Students who have obtained a Master's degree (including 9 or more credit hours of coursework at the 7000 level) will be required to take a minimum of an additional 9 credit hours to meet the requirements of the Ph.D. For students transferring from the M.Sc. program into the Ph.D., a minimum of 6 credit hours are required to meet the requirements of the Ph.D. beyond the 9 credit hours obtained under the M.Sc. program.

Additional courses that are deemed appropriate by the Student's Advisory Committee may be taken with the approval of the Department of Physiology & Pathophysiology Graduate Program Committee, up to a maximum of 24 credit hours (4 FCE). Note: a 0.5 FCE corresponds to a course that runs for a full term.

Expected Time to Graduate: 4 years

Surgery, M.Sc.

Surgery

Head: Dr. Edward Buchel

Grad Chair: Krista Hardy

Campus Address/General Office: 3rd Floor- SMD Building, 825 Sherbrook Street

Telephone: 204-787-1219

Fax: 204-940-8970

Email Address: surgery_graduate@umanitoba.ca (surgery_graduate@umanitoba.ca)

Website: umanitoba.ca/faculties/health_sciences/medicine/units/surgery/ (https://umanitoba.ca/faculties/health_sciences/medicine/units/surgery/)

Academic Staff: Please refer to the Surgery website (https://umanitoba.ca/faculties/health_sciences/medicine/units/surgery/) for current staff listing.

Surgery Program Information

The Master of Science program is open to residents in Surgery at the University of Manitoba who are currently enrolled in a Royal College of Physicians and Surgeons of Canada (RCPSC) speciality training program through the Max Rady College of Medicine in the Rady Faculty of Health Sciences.

The RCPSC program is a postgraduate clinical speciality certification program and residents earn the designation of M.Sc. as an additional degree to their certification. Through the Thesis Stream, the Surgery program provides surgical residents a year free of clinical¹ duties to complete the required course hours.

¹ It is strongly advised that residents discuss with their Program Director the expectations of their responsibilities within their Program during the year of research.

Surgery M.Sc. Admission Requirements

This program is **only** open to holders of an M.D. degree who are currently enrolled in a postgraduate residency program in the Max Rady College of Medicine at the University of Manitoba. As residents incorporate this program as part of their residency training, concurrent curriculum registration is required.

Applicants must complete the *Application Guide & Supplemental Form* available online through the MSc website. An appointment must be made through the Department of Surgery Research & Graduate Office with the Graduate Chair to review the applicant's research proposal and all accompanying documentation for approval before admissions to the Faculty of Graduate Studies can be approved.

Application Information

Students should complete and submit their online application with supporting documentation by the date indicated on the Surgery M.Sc. program of study (<https://umanitoba.ca/explore/surgery-msc/>) page.

Degree Requirements

Students must complete:

- The minimum course requirements of 12 credit hours at the 7000 level;
- Twelve months' work of research, under the direct supervision of an approved Thesis Advisor;
- Submit a major thesis on the research project;
- Defend their thesis to a Committee of Examiners, demonstrating adequate knowledge of the subject involved

Expected Time to Graduate: 2 years

Progression Chart

Course	Title	Hours
Year 1		
Required Courses		
GRAD 7300	Research Integrity Tutorial	0
GRAD 7500	Academic Integrity Tutorial	0
SURG 7012	Surgery- Major Course in Surgical Problems (Part A & Part B)	3
SURG 7030	Advanced Surgery	3
Elective Courses		
Select 6 credit hours of the following:		6
SURG 7022	Surgery- Specialty Rounds in Surgical Problems (Part A & Part B)	
CHSC 7810	Biostatistics for the Health and Human Sciences	
CHSC 7820	Biostatistics for Community Health Sciences	
CHSC 7830	Advanced Biostatistics for Community Health Sciences	
Hours		12
Year 2		
GRAD 7000	Master's Thesis	0
Hours		0
Total Hours		12

Notes:

- Within six months of the student's MSc program the student shall present their thesis proposal to their Advisory Committee.
- Surgery recommends one year full-time study and two years to complete and defend for graduation; preferred to be completed prior to the end of their final year of training (June 30).
- A decision to extend this time will be made by the Department of Surgery Graduate Chair on a case-by-case basis.

Registration Information

Students should familiarize themselves with the Faculty of Graduate Studies 'GRAD' courses applicable to their program (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/registration-information/>). If you have questions about which GRAD course(s) to register in, please consult your home department/unit.

All new or returning graduate students must contact the Department.

Regulations

Students must meet the requirements as outlined in both Supplementary Regulation and BFAR documents as approved by Senate.

Supplementary Regulations

Individual units may require specific requirements above and beyond those of the Faculty of Graduate Studies, and students should consult unit supplementary regulations (<https://umanitoba.ca/graduate-studies/supplementary-regulations/>) for these specific regulations.

Bona Fide Academic Requirements (BFAR)

Bona Fide Academic Requirements (BFAR) (<https://catalog.umanitoba.ca/archived-calendars/2021-2022/graduate-studies/academic-guide/academic-performance-general/#BFAR>) represent the core academic requirements a graduate student must acquire in order to gain, and demonstrate acquisition of, essential knowledge and skills.

- maintain a minimum degree grade point average of 3.0 with no grade below C+,
- meet the minimum and not exceed the maximum course requirements, and
- meet the minimum and not exceed the maximum time requirements (in terms of time in program and lapse or expiration of credit of courses).

Course Descriptions

A

- Accounting (ACC) (p. 1606)
- Agribusiness and Agricultural Economics (ABIZ) (p. 1605)
- Animal Science (ANSC) (p. 1606)
- Anthropology (ANTH) (p. 1607)
- Applied Health Sciences (AHS) (p. 1608)
- Architecture (ARCH) (p. 1608)
- Architecture Interdisciplinary (ARCG) (p. 1609)
- Astronomy (ASTR) (p. 1609)

B

- Biochem. and Medical Genetics (BGEN) (p. 1610)
- Biological Sciences (BIOL) (p. 1611)
- Biomedical Engineering (BME) (p. 1612)
- Biosystems Engineering (BIOE) (p. 1613)

C

- Canadian Studies St. Boniface (CDSB) (p. 1614)
- Chemistry (CHEM) (p. 1614)
- City Planning (CITY) (p. 1615)
- Civil Engineering (CIVL) (p. 1616)
- Classical Studies (CLAS) (p. 1618)
- Community Health Sciences (CHSC) (p. 1619)
- Computer Science (COMP) (p. 1624)

D

- Dental Diagnostic and Surgical (DDSS) (p. 1625)
- Disability Studies (Grad St.) (DS) (p. 1626)

E

- Economics (ECON) (p. 1627)
- Education Admin, Fndns & Psych (EDUA) (p. 1628)
- Education Curric, Tchg, & Lrng (EDUB) (p. 1631)
- Education Ph.D. Courses (EDUC) (p. 1633)
- Electr. and Computer Engin. (ECE) (p. 1634)
- Engineering (ENG) (p. 1637)
- English (ENGL) (p. 1638)
- Entomology (ENTM) (p. 1639)
- Entrepreneurship/Small Bus. (ENTR) (p. 1639)

F

- Finance (FIN) (p. 1639)
- Fine Art, Studio Courses (STDO) (p. 1640)
- Food Science (FOOD) (p. 1641)
- Foods and Nutr Grad Studies (FDNT) (p. 1641)
- French (FREN) (p. 1641)

G

- General Management (GMGT) (p. 1642)
- Geography (GEOG) (p. 1643)

- Geological Sciences (GEOL) (p. 1645)
- German (GRMN) (p. 1646)
- Graduate Studies (GRAD) (p. 1646)
- Greek (GRK) (p. 1647)

Agribusiness and Agricultural Economics (ABIZ)

ABIZ 7110 Attributes of Market Organization 3 cr

Analysis of agricultural market structure, conduct and performance of processing industries.

ABIZ 7140 Resource Efficiency and Allocation in Agriculture 3 cr

Seminar on research issues in production economics related to technological change, risk and uncertainty, management and firm growth.

ABIZ 7230 Agricultural Market Regulation 3 cr

A review of economic theories of regulation and their application in agricultural marketing. Analysis of specific regulation in agricultural markets.

ABIZ 7240 Research in Agricultural Marketing 3 cr

Advanced economic theory and quantitative techniques relevant to agricultural marketing. Topics include model building, market demand and supply, market regulation, and review of literature on marketing research.

ABIZ 7260 Econometrics with Applications in Food, Agribusiness and Resources 3 cr

Econometrics as applied to food, agriculture, agribusiness, resources and related areas. Econometric applications in these areas may cover generalized least squares, instrumental variables, nonstationarity and other topics. Econometric software and data will be used. Students will conduct a related applied econometric study.

ABIZ 7270 Research Methodology 3 cr

Critical discussion of scientific methodology and the scientific status of agricultural economics. Discussion of methodological issues as they relate to the research process in agricultural economics.

ABIZ 7300 Topics in Agricultural Economics 3 cr

Application of economic analysis to contemporary problems in agriculture.

ABIZ 7310 Agricultural Economic Development 3 cr

Theory and policy of agricultural development in underdeveloped countries: problems of stimulating growth in agriculture and evaluation of alternative approaches to economic development of agriculture.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

ABIZ 7330 Transportation Economics and Research 3 cr

Rate determination and cost analysis for different modes of transportation; transportation issues in Canadian agriculture; and research techniques in transportation problems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

ABIZ 7350 Regional Development 3 cr

Review policy, goals, theories, methods and applications relevant to analyzing Canadian and developing country rural development, regional economic growth and project evaluation.

ABIZ 7360 Current Issues in Policies Relating to Agriculture 3 cr

Seminar dealing with current issues in policies relating to agriculture.

ABIZ 7380 Agricultural Policy 3 cr

Bearing of economic theory on agricultural policy: relevance of allocative efficiency, distributive equity and other criteria, and economic evaluation of alternative policies.

ABIZ 7400 Forecasting and Simulation Models 3 cr

Application of simulation modelling to characterizing and predicting the behaviour of complex systems (ecological, engineering and economic). Foundations of simulation and statistical approaches to analysis are emphasized.

ABIZ 7410 Agricultural Finance 3 cr

Analysis of financial structure and goal criteria of agricultural firms, analysis of financial markets and institutions, evaluation and application of techniques in risk analysis, investment analysis, financial analysis, and growth and evaluation models.

ABIZ 7430 Advanced Theory of Resource Economics 3 cr

Economic theory of the development and management of natural resources. Application of capital theory, investment theory, the theory of externalities and decision-making theories to resource utilization and management. A strong background in microeconomics is required. Also offered as ECON 7430 by the Department of Economics.

Equiv To: ECON 7430

ABIZ 7460 Research Management 3 cr

Application of research management concepts in agriculture and the resource sectors. Research definitions and methodology; the macro environment in relation to research (social and grantor priorities, economic and institutional constraints, institution and project (micro) level (priorities, objectives, budgeting, time and personnel management, performance assessment): proposal and report writing; project evaluation.

ABIZ 7630 Theory of International Trade 3 cr

Theories of trade flow; trade and income distribution; economic growth and changes in trade flows; instruments of trade intervention; international labour and capital movements; and economic integration. Also offered as ECON 7630 by the Department of Economics.

Equiv To: ECON 7630

ABIZ 7940 Production Economics 3 cr

Development of static microeconomic theories of the firm, functional forms, aggregation issues, productivity analysis, risk and uncertainty, and an introduction to dynamics. The following are emphasized; a rigorous treatment of the models using duality; a critical understanding of the limitations and possibilities for generalizing the models; and relevance of the models for empirical research, especially in agriculture. Also offered as ECON 7940 by the Department of Economics.

Equiv To: ECON 7940

ABIZ 7950 Advanced Agricultural Demand Analysis 3 cr

Critical evaluation of economic theory as applied to agricultural demand. Topics include demand systems; equilibrium; product transformation over time, place and form; and price analysis. Also offered as ECON 7950 by the Department of Economics. Not to be held with ECON 7950 or the former ABIZ 7100 or the former ECON 7900.

Equiv To: ABIZ 7100, ECON 7900, ECON 7950

Accounting (ACC)

ACC 7010 Accounting Fundamentals 3 cr

This course covers the principles underlying accounting, with an emphasis on the interpretation of accounting information and its usefulness to stakeholders. Not to be held with ACC 6050.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MSCI 5110 Basic Quantitative Analysis for Management 1 AX (auxiliary) cr hrs.

Equiv To: ACC 6050

ACC 7020 Managerial Accounting 1.5 cr

Provide the information required within an organization to effectively plan and control business results and make sound decisions. Involves the generation, communication, interpretation and sharing of information to facilitate decision-making across functions. Not to be held with ACC 6060.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ACC 7010 Accounting Fundamentals.

Mutually Exclusive: ACC 6060

Animal Science (ANSC)

ANSC 7140 Animal Science Seminar 3 cr

Reports and discussions on current problems and investigational work with mammals and poultry. This course is graded pass/fail.

ANSC 7220 Genetic Principles of Animal Improvement 3 cr

Designed for the development of a framework of theory for the study of the genetics of populations. Changing gene frequency. Genetic and environmental subdivision of the phenotypic variance. Principles of selection.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ANSC 3500 or equivalent.

ANSC 7360 Advanced Reproductive Physiology, Male 3 cr

A lecture-seminar course on sexual function and testicular physiology in males of livestock species; environmental factors influencing reproductive efficiency; recent developments in semen preservation and artificial insemination.

ANSC 7370 Advanced Reproductive Physiology, Female 3 cr

A lecture-seminar on current topics related to female reproduction in the livestock species.

ANSC 7380 Endocrine Control of Animal Metabolism 3 cr

A lecture-seminar course on current topics concerning the control of physiological processes of -importance in domestic animal species.

ANSC 7390 Advanced Animal Science Seminar 3 cr

Ph.D. Candidates are expected to complete a grant application form, review and critique current literature, and present a seminar on current research topics. This course is graded pass/fail.

ANSC 7400 Quantitative Genetics in Animal Science 3 cr

A study of advanced techniques used in animal breeding research, their theoretical basis, analysis and interpretation. Case studies in the student's area of interest will be examined. Prerequisite ANSC 7220 or its equivalent.

ANSC 7440 Protein Nutrition and Metabolism 1.5 cr

Lectures and critical reviews will be used to discuss recent/significant research advances in the fields of protein nutrition and metabolism, pertinent to mammalian physiology. Also offered as HNSC 7440 by the Department of Human Nutritional Sciences.

Equiv To: HNSC 7440

ANSC 7450 Energy and Carbohydrate Nutrition and Metabolism 1.5 cr

Lectures and critical reviews will be used to discuss recent/significant research advances in the field of energy/carbohydrate nutrition and metabolism, pertinent to mammalian physiology. Also offered as HNSC 7450 by the Department of Human Nutritional Sciences.

ANSC 7460 Lipid Nutrition and Metabolism 1.5 cr

Lectures and critical reviews will be used to discuss recent/significant research advances in the field of lipid nutrition and metabolism, pertinent to mammalian physiology. Also offered as HNSC 7460 by the Department of Human Nutritional Sciences.

Equiv To: HNSC 7460

ANSC 7470 Vitamin Nutrition and Metabolism 1.5 cr

Lectures and critical reviews will be used to discuss recent/significant research advances in the field of vitamin nutrition and metabolism, pertinent to mammalian physiology. Also offered as HNSC 7470 by the Department of Human Nutritional Sciences.

Equiv To: HNSC 7470

ANSC 7480 Mineral and Trace Element Nutrition and Metabolism 1.5 cr

Lectures and critical reviews will be used to discuss recent/significant research advances in the field of mineral nutrition and metabolism, pertinent to mammalian physiology. Also offered as HNSC 7480 by the Department of Human Nutritional Sciences.

Equiv To: HNSC 7480

ANSC 7490 Phytochemical Nutrition and Metabolism 1.5 cr

Lectures and critical reviews will be used to discuss recent/significant research advances in the field of phytochemical nutrition and metabolism, pertinent to mammalian physiology. Also offered as HNSC 7490 by the Department of Human Nutritional Sciences.

Equiv To: HNSC 7490

ANSC 7500 Methodology in Agricultural and Food Sciences 3 cr

The application of experimental techniques and procedures to agricultural and food sciences research. Recording, processing, interpretation, and critical appraisal of experimental data.

ANSC 7510 Special Topics in Animal Nutrition 3 cr

Students will be required to investigate and report on a nutrition problem in a species other than that of their thesis research. Projects may be avian, bovine, ovine, swine or laboratory animal species.

ANSC 7520 Special Topics in Animal Improvement 3 cr

Assigned readings, papers and discussions specific problems in animal genetics. Analysis of original data may be required.

ANSC 7530 Special Topics in Animal Physiology 3 cr

Students will investigate a minor research problem in an area of physiology other than that in which the major is being taken. Problems areas may include: digestion, environment, renal function or reproduction.

ANSC 7540 Advanced Applied Animal Nutrition 3 cr

An advanced study of the theoretical and applied aspects of monogastric and ruminant nutrition. A laboratory component will provide training in current techniques in feed analyses and computer modeling.

ANSC 7550 Special Topics in Animal Behaviour and Welfare 3 cr

Assigned readings, papers and discussions on specific issues in animal behaviour. A short behavioural experiment may be required.

ANSC 7560 Mathematical Modeling of Agricultural Systems 3 cr

Lectures and computer based laboratory exercises will be used to discuss various aspects of model development focusing on mechanistic (compartmental analysis), growth functions and an introduction to linear programming. Construction of a simulation model may be required. Not to be held with ANSC 4240 Mathematical Modeling of Biological Systems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 1500 or MATH 1520

Anthropology (ANTH)

ANTH 7000 Professional Development in Anthropology 0 cr

The course is designed for graduate students to develop the professional skills needed to pursue careers in anthropological research, teaching, and practice. The course prepares students for academic and applied careers through regular group meetings, participation in workshops, and departmental community outreach initiatives. This course is graded Pass/Fail.

ANTH 7040 Seminar in Ethnography of Power Systems 3 cr

Comparative study of a particular theme or problem in political anthropology.

ANTH 7050 Seminar in the Anthropology of Religion 3 cr

An intensive analysis of religion as a cultural subsystem, dealing comparatively with ideologies, rituals, and ceremonies and the various anthropological theories put forward to explain religious behaviour.

ANTH 7070 Seminar in the Anthropology of Illness 3 cr

Selected topics in the study of cultural factors involved in health/illness, with emphasis upon a particular cultural system. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

ANTH 7100 Anthropology of Human Rights 3 cr

This seminar examines diverse global conceptualizations and practice of human rights and social justice with particular attention to instances where human rights are emergent, and where they are contested or are subjects of conflict. May not be held with ANTH 7900 under the same topic subtitle.

Mutually Exclusive: ANTH 7900

ANTH 7102 Environmental Conflict, Rights and Justice 3 cr

This course will focus on anthropological studies and perspectives related to environmental issues. Students will gain familiarity with current academic debates and new theoretical approaches to nature, environmental rights, and environmental justice issues. May not be held with ANTH 7900 under the same topic subtitle.

Mutually Exclusive: ANTH 7900

ANTH 7130 Cultural Ecology 3 cr

An examination of the systematic nature of culture and its interrelationships with natural environmental factors.

ANTH 7140 Ethnographic Research Methods 3 cr

Approaches and techniques in field research.

ANTH 7350 Prehistoric Human Ecology 3 cr

Data and techniques involved in the reconstruction of past environments, with special emphasis on the influences of environment on prehistoric cultural development.

ANTH 7380 Archaeological Laboratory Techniques 3 cr

Laboratory techniques for analysis and presentation of archaeological data.

ANTH 7400 Seminar in the Archaeology of a Selected Area 3 cr

An intensive survey of the archaeology of a major region or culture area of the world. Content will vary according to the interests of the instructor. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

ANTH 7410 Seminar in Selected Topics in Archaeology 3 cr

The seminars will consist of an intensive examination of major methodological, analytical and interpretive issues in current archaeological research. Content will vary according to the interests of the instructor. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

ANTH 7430 Archaeological Interpretive Methods 3 cr

This course is an intensive seminar on major methodological issues in archaeological analysis and interpretation.

ANTH 7440 Archaeological Theory 3 cr

Archaeological theory as seen from historical and contemporary perspectives.

ANTH 7450 Cultural Resource Management 3 cr

An intensive examination of archaeological cultural resource management. Emphasis will be placed on current Canadian CRM issues and on practical applications of concepts and methods.

ANTH 7460 Advanced Faunal Analysis in Archaeology 3 cr

The course will cover the major theoretical, methodological, and practical issues in the analysis of archaeological faunal remains. Topics are addressed through lectures, demonstrations, and laboratory exercises.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ANTH 3990 or written consent of instructor.

ANTH 7630 History of Anthropological Theory 3 cr

A broad overview of the history of anthropological theory and method from the 18th century to World War II. Focus on British and American developments in the context of the rise of industrialization and imperialism.

ANTH 7640 Contemporary Anthropological Theory 3 cr

Investigation, comparison and evaluation of contemporary approaches to culture theory in the areas of symbolism, social organization and ecology.

ANTH 7650 Applied Anthropology 3 cr

Investigation of major case studies, research methodologies, intervention strategies, and substantive areas of application in applied anthropology. Topical emphases such as economic development, health care delivery, resettlement schemes, will reflect the interests of the instructor.

ANTH 7720 Seminar in Human Adaptability 3 cr

An intensive study of human population biology in diverse environments inhabited by human populations. Emphasis on selected examples of cultural adaptability as a specifically human mechanism for dissipating stress on the biological system.

ANTH 7790 Advanced Topics in Human Skeletal Biology 3 cr

Analysis of metric and nonmetric morphological skeletal variation in human populations, with emphasis on the cultural and physical environment. Exemplary problems are drawn from the literature as well as from current research.

ANTH 7830 Social Organization 3 cr

Selected theories of social organization in cross cultural perspective. Subject matter may include kinship, age grading, territorial groupings, social stratification or ethnicity.

ANTH 7900 Problems in Ethnological Research 3 cr

Problems in ethnological research. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Mutually Exclusive: ANTH 7100, ANTH 7102

ANTH 7930 Special Problems in Human Biology 3 cr

Special problems in Human Biology. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

ANTH 7940 Graduate Reading and Research 1 3 cr

Reading and research. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

ANTH 7950 Graduate Reading and Research 2 3 cr

Reading and research. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Applied Health Sciences (AHS)

AHS 7000 Research and Practice in Applied Health Sciences 3 cr

The objective is to promote in students advanced knowledge, skills, and abilities needed to evaluate and conduct multidisciplinary, applied health research. This course is theoretical in nature and will require a high level of independence and participation by students.

AHS 7002 Seminar I Applied Health Sciences 0 cr

A monthly interdisciplinary seminar on current issues in applied health sciences, involving presentation by students, faculty, and invited speakers from inside and outside the University of Manitoba. Attendance and participation are required for AHS students during the first year of their doctoral program.

AHS 7004 Seminar II Applied Health Sciences 0 cr

A monthly interdisciplinary seminar on current issues in applied health sciences, involving presentation by students, faculty, and invited speakers from inside and outside the University of Manitoba. Attendance and participation are required for AHS students during the second year of their doctoral program.

AHS 7010 Introductory Research Project in Applied Health Sciences 6 cr

Students will conduct a research project under the direction of their advisor. To include all research phases: identification of question, literature review, proposal writing, conducting research, analyzing data and reporting results. Topics, paradigms and methods will vary by student. Intended for students who do not possess a research-based Master's degree. Course graded pass/fail.

Architecture (ARCH)

ARCH 6450 Inquiry by Design 3 cr

(Formerly 050.645) An exploration of design/research, to contrasting design and research via dialectical and practical inquiry. Research design and research methods instruction, in support of applied research to critique design theory and to build new design knowledge.

ARCH 7000 Advanced Technology Topics I 1.5 cr

One five-week seminar and/or project-based topics offering in-depth study of advanced building systems, technology, and methods. Options are grounded in faculty research and build upon foundation technology courses. Some topics may be deemed mandatory at the department's discretion. Topics may be taken in the fall and/or winter terms.

ARCH 7010 Advanced Technology Topics 2 1.5 cr

One five-week seminar and/or project-based topics offering in-depth study of advanced building systems, technology, and methods. Options are grounded in faculty research and build upon foundation technology courses. Some topics may be deemed mandatory at the department's discretion. Topics may be taken in the fall and/or winter terms.

ARCH 7020 Research Topics: History and Theory 1 1.5 cr

One five-week lecture, seminar and/or project-based topics offering an in-depth study of an historical and/or theoretical subject. Options are grounded in faculty research and build upon foundation history/theory courses. Some topics may be deemed mandatory at the department's discretion. Topics may be taken in the fall and/or winter terms.

ARCH 7030 Research Topics: History and Theory 2 1.5 cr

One five-week lecture, seminar and/or project-based topics offering an in-depth study of an historical and/or theoretical subject. Options are grounded in faculty research and build upon foundation history/theory courses. Some topics may be deemed mandatory at the department's discretion. Topics may be taken in the fall and/or winter terms.

ARCH 7040 Professional Practice 3 cr

Is concerned with the duties and responsibilities of an architectural practice; its divisions, office organization and administration, in Manitoba and Canada. The lectures relate in scope and standard to current models of practice and their requirements, including issues of building economics and construction cost control.

ARCH 7050 Arch Studio 5 and Comprehensive Program Report 9 cr

Develop design explorations and seek to clarify relations between architectural criteria and the urban/natural environments in national or international contexts. Conceptual, programmatic, material, technological, economic, and political principles and systems employed are to be evident in the Comp. Prog Report.

ARCH 7060 Arch Studio 6 9 cr

The previous term's investigations are further developed into a comprehensive architectural design proposal. The thorough integration of design and programming criteria, with building and environmental systems and assemblies are examined.

ARCH 7070 Design Research Studio 9 cr

This final design studio involves concerted research and design explorations of an individually defined subject of inquiry, within a selected studio thematic focus. These investigations are intended to prepare students for their final Design Thesis.

ARCH 7080 Technology Thesis Report 3 cr

Technology Thesis Report is an advanced project-based course done in conjunction with the Design Thesis project. The report is related to an individual student's design thesis topic, focusing on specific aspects of technology and applied tech. research. Advisor supervision and external engineering consultancy or agreed equivalent are required.

ARCH 7100 Advanced Technology Topics 3 cr

Seminar and/or project-based topics offering in-depth study of advanced building systems, technology, and methods. Options are grounded in faculty research and build upon foundation technology courses. Some topics may be deemed mandatory at the department's discretion. Topics may be taken in the fall and/ or winter terms. Different topics under the same course may be taken for credit.

ARCH 7120 Research Topics: History and Theory 3 cr

Lecture, seminar and/or project-based topics offering an in-depth study of an historical and/or theoretical subject. Options are grounded in faculty research and build upon foundation history/theory courses. Some topics may be deemed at the department's discretion. Topics may be taken in the fall and or winter terms. Different Topics under the same course number many be taken for credit.

ARCH 7350 Legal Aspects of Architectural Practice 3 cr

Discusses the importance of the knowledge of law as it relates to professional practice of architecture, including a discussion of the historical development of legal responsibilities of a practicing professional generally and of architects specifically. There is also discussion of trends in the development of professional responsibility and liability.

Architecture Interdisciplinary (ARCG)

ARCG 6102 Topics in Environmental Processes 3 cr

A detailed study of some special topics in architecture, city planning, landscape architecture or interior design.

ARCG 7070 Topics in Environment P & D 1 3 cr

A course designed for graduate students in the departments of Architecture, Landscape Architecture, and City Planning to pursue interdepartmental studies in environmental processes and design (Architecture, Landscape Architecture, and City Planning).

ARCG 7080 TPS ENV P&D 2 3 cr

A course designed for graduate students in the departments of Architecture, Landscape Architecture, and City Planning to pursue interdepartmental studies in environmental processes and design (Architecture, Landscape Architecture, and City Planning).

ARCG 7090 LEED Core Concepts and Strategies 3 cr

This course provides a comprehensive overview of techniques, approaches, materials and technologies used in creating more sustainable buildings and communities in Canada. It provides an introduction to the LEED Rating System and is formulated as a preparatory course for persons interested in becoming a LEED Green Associate in Canada.

ARCG 7102 Studio Topics in Environmental Processes 6 cr

A detailed studio study of some special topics in architecture, city planning, landscape architecture or interior design.

ARCG 7150 Cooperative Education/ Integrated Work Term 1 0 cr

Work assignment in practice, business, industry, or government. Requires acceptance into the Faculty of Architecture Co-op/I graduate stream and submission of a written report covering the work completed for each four-month professional assignment. Course evaluated on a pass/fail basis.

ARCG 7202 Studio Topics in Environmental Process and Design 9 cr

A detailed studio study of special topics in architecture, city planning, landscape architecture or interior design to pursue interdepartmental studies in environmental design processes.

ARCG 7250 Cooperative Education/Integrated Work Term 2 0 cr

Work assignment in practice, business, industry, or government. Requires acceptance into the Faculty of Architecture Co-op/I graduate stream and submission of a written report covering the work completed for each four-month professional assignment. Course evaluated on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ARCG 7150.

ARCG 7350 Cooperative Education/Integrated Work Term 3 0 cr

Work assignment in practice, business, industry, or government. Requires acceptance into the Faculty of Architecture Co-op/I graduate stream and submission of a written report covering the work completed for each four-month professional assignment. Course evaluated on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ARCG 7250.

Astronomy (ASTR)

ASTR 7020 Cosmology and Black Holes 3 cr

Topics include static solutions of Einstein's equations, gravitational waves, static models for stars *(white dwarfs, neutron stars), dynamic models for stars (Birkhoff theorem, black holes), and cosmology (Robertson-Walker metric, Friedmann equations). Further topics discussed in the course are cosmic inflation, dark matter and energy, as well as large-scale structure of the universe. Students may not hold credit for both ASTR 4020 and ASTR 7020.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHYS 7010.

Mutually Exclusive: ASTR 4020, PHYS 4020

ASTR 7100 High-Energy Astrophysics 3 cr

This course provides an introduction to the growing field of high-energy radiation processes and astrophysical sources. Processes include Bremsstrahlung, inverse Compton scattering, pion decay, and particle acceleration. Sources include compact objects, supernovae and their remnants, gamma-ray bursts, clusters of galaxies. Students may not hold credit for both ASTR 4100 and ASTR 7100.

Mutually Exclusive: ASTR 4100

ASTR 7200 Radio Astronomy 3 cr

This course provides an introduction to observational radio astronomy and processes in radio astrophysics. Topics include radiative transfer; blackbody radiation; radio telescopes, receivers, and interferometers; thermal (e.g., HII regions) and non-thermal (e.g., radio galaxies) continuum sources; pulsars and spectral-line sources. Students may not hold credit for both ASTR 4200 and ASTR 7200.

Mutually Exclusive: ASTR 4200

ASTR 7400 Magnetohydrodynamics, Astrophysical Plasmas, and the Interstellar Medium 3 cr

This course develops a theoretical understanding of the interstellar magnetic fields for a diverse range of astrophysical objects, processes, and phenomena. Furthermore, the theoretical aspects of magnetohydrodynamics, and foundations for the physics of cosmic ray diffusion and acceleration, are also discussed. Students may not hold credit for both ASTR 4400 and ASTR 7400.

Mutually Exclusive: ASTR 4400

Biochem. and Medical Genetics (BGEN)

BGEN 7000 Research Seminar M.Sc. 1 cr

Consists of presentations of the student's current research. For Masters students only.

BGEN 7020 Proteins 3 cr

Three hours per week, one term. Purification, bioinformatics, characterization, expression, structure, folding and engineering of proteins.

BGEN 7040 Seminars in Human Genetics 3 cr

Current research in human genetics will be explored in the context of the evolving genetic counselling profession. Term paper, reflections and presentations.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: Enrollment in the M.Sc. Genetic Counselling Program or consent of instructor.

BGEN 7070 Special Topics in Human Genetics 3 cr

An assignment, tutorial and discussions course taken only through consultation with the head of the department. The topics will vary depending upon students' needs and interests, and may include specialized topics not available in regular course offerings.

BGEN 7090 Principles and Practice of Human Genetics 3 cr

Lectures, tutorials and assignments designed to review major topics in human genetics and give practical experience in the analysis and interpretation of human genetics data and critical review of published work.

BGEN 7120 Laboratory Methods in Human and Medical Genetics 3 cr

A seminar and assignment course covering an outline of the methods currently in use in human and medical genetic diagnostic and research laboratories. The principles of cell culture, cytogenetic, molecular and biochemical genetic techniques that are used in the diagnosis of human genetic disease and the study of human variation will be reviewed. Students will undertake a practical assignment and write a report.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

BGEN 7130 Genetic Epidemiology of Human Populations 3 cr

Lectures, tutorials, and assignments on key concepts, principles, and their applications in mapping the genetic loci/variants for monogenic and complex human diseases/traits.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BGEN 7090 or consent of instructor.

BGEN 7142 Clinical Genetics 1 3 cr

This course lays the groundwork for the development of genetic counselling clinical skills. Concepts include pedigree development and analysis, history taking, and risk evaluation as it relates to the genetic counselling practice. Overviews of human development, prenatal genetics, cancer genetics, carrier screening and hemoglobinopathies are provided.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Enrollment in the M.Sc. Genetic Counselling Program or consent of instructor.

BGEN 7144 Clinical Genetics 2 3 cr

This course builds on the genetic counselling clinical skills developed in BGEN 7142 course. The genetic counselling approach to rare and common genetic/metabolic conditions in the adult and pediatric populations is discussed. The roles of the genetic counsellor, clinical geneticist, other medical specialist and allied health in an interdisciplinary approach to patient care is explored.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BGEN 7142, enrollment in the M.Sc. Genetic Counselling Program or consent of instructor.

BGEN 7160 Theory and Practice of Genetic Counselling 3 cr

Advanced theoretical and practical aspects of genetic counselling. Ethics, grief, and culture will be explored in the context of genetic counselling practice. Active participation component includes role plays/practical case scenarios.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Enrollment in the M.Sc. Genetic Counselling Program or consent of instructor.

BGEN 7180 Clinical and Molecular Cytogenetics 3 cr

Cytogenetic methodology; chromosome architecture; karyotype interpretation; indications for referral; chromosome syndromes and anomalies; prenatal diagnosis; chromosomal basis of oncogenesis; flow cytometry; immunogenetics; fluorescent in situ hybridization; the application of molecular technology to chromosome analysis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

BGEN 7200 Topics in Biochemistry 1 3 cr

Advanced study and reading on two topics chosen by the course director in consultation with the student's supervisor. Topics include but are not limited to Neurochemistry, Lipids, Carbohydrates, Biomembranes, Inborn Errors, Cytoskeleton Proteins.

BGEN 7210 Topics in Biochemistry 2 3 cr

Advanced study and reading on two topics chosen by the course director in consultation with the student's supervisor. Topics include but are not limited to Neurochemistry, Lipids, Carbohydrates, Biomembranes, Inborn Errors, Cytoskeleton Proteins.

BGEN 7250 Gene Expression and Epigenetics 3 cr

Three hours per week, one term. Chromatin structure. Epigenetic regulation of transcription. Gene expression regulation. Bioinformatics.

BGEN 7260 Cellular and Molecular Biochemistry 3 cr

Three hours per week, one term. Recent research advances on the study of cellular components, assembly and organization of plasma membrane components, cell signaling, and cell cycle.

BGEN 7270 Introduction to Genetic Counselling Clinic Rotation 4 cr

This rotation will allow students to observe and participate in various genetic counselling settings. Participation will allow for skill development and practical application of genetic counselling fundamentals. Course graded Pass/Fail.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: acceptance into the M.Sc. Genetic Counselling program.

BGEN 7280 Advanced Genetic Counselling Clinic Rotation 4 cr

This rotation will provide year two students full participation in various genetic counselling settings. Students will be able to use advance genetic counselling skills, building on their skill set from the previous introduction to genetic counselling clinical rotation course. This course is evaluated on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BGEN 7270.

BGEN 7290 Visiting Genetic Counselling Student Elective 0 cr

A clinical rotation of varying length designed to provide a genetic counselling student not from the University of Manitoba with clinical education and training within a clinical site associated with the University of Manitoba MSc in Genetic Counselling Program (GCP). Course credit is assigned by the student's home institution. Course graded Pass/Fail.

BGEN 8000 Research Seminar Ph.D. 1 cr

Consists of presentations of the student's current research. For Ph.D. students only.

Biological Sciences (BIOL)

BIOL 7100 Core Skills in Biological Sciences Research 3 cr

Learning skills for a career in scientific research in Biological Sciences including: using the scientific method, applying for NSERC funding, maintaining a CV, abstract writing, ethics in research, research protocols and biosafety and biohazards, statistical designs and their assumptions, literature searching, critical thinking, critiquing the scientific literature, making teaching and research presentations. Not to be held with Methodology of Research ANAT 7090.

BIOL 7140 Advanced Physiology 6 cr

An in-depth study of topics related to how changing internal and external environments influence life sustaining physiological processes. Topics include plant and animal stress, endocrine & electrophysiology, metabolism and molecular biology of solute transport.

Equiv To: ZOOL 7140

BIOL 7142 Advanced Physiology 3 cr

An in-depth study of topics selected from physiological research of the department including plant, animal, stress physiology, ecophysiology, electrophysiology, endocrine or neurophysiology and others. Topics will be focused on the research area of each student to acquire specialized knowledge in a particular topic.

BIOL 7202 Evolutionary Biology 3 cr

An in-depth study of topics selected from research interests within the department that may cover an evolutionary theme. This course will allow students to acquire or expand on specialized knowledge in a particular evolutionary topic through a series of readings or a combination of readings and lectures.

BIOL 7220 Critical Thinking in Biological Sciences 3 cr

A core graduate level course within the Ph.D. program designed to stimulate discussion and thought in key areas applicable to the student's research discipline.

BIOL 7230 Advanced Topics in Zoology 6 cr

A seminar on current research topics in Zoology.

Equiv To: ZOOL 7230

BIOL 7240 Wetland Ecology 6 cr

A study of marsh, bog, and fen communities, with emphasis on their history, soil-plant relationships, and species distribution. Field work at the University Field Station (Delta Marsh) and nearby bog and fen sites will be an integral part of the course.

Equiv To: BOTN 7240

BIOL 7250 Advanced Evolution and Systematics 3 cr

This course will first consider theoretical and practical aspects of systematics, and then consider how systematic and population-level studies have illuminated our understanding of evolutionary processes.

BIOL 7302 Environmental Biology and Ecology 3 cr

An in-depth study of topics selected from environment and ecology interests of the department, including population ecology, fisheries biology, plant/animal interactions, animal behaviour, ecosystem dynamics and restoration. Topics will be chosen to acquire specialized knowledge in a particular topic.

BIOL 7352 Aquatic Biology 3 cr

An in-depth study of topics covering all aspects of aquatic biological interests in the department including wetland ecology, limnology, oceanography, toxicology, conservation, and others. Topics will focus on the research interests of students so they may acquire specialized knowledge in particular areas.

BIOL 7360 Problems in Biological Statistics 3 cr

The course discusses statistical problems and techniques which specifically apply to biological research. Laboratory exercises will be based primarily on examples from field research.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STAT 3130 or the consent of the instructor.

Equiv To: ZOOL 7360

BIOL 7370 Special Topics in Algal Ecology 6 cr

Directed study and project(s) in selected aspects of the ecology of freshwater phytoplankton, periphyton and metaphyton.

Equiv To: BOTN 7370

BIOL 7440 Methods and Approaches to the Analysis of Biological Data Part 1 3 cr

Methods for handling biological data arising from field surveys; planning and undertaking biological studies. Theory of experimental design, vegetation sampling, multivariate analysis, techniques of remote sensing, spatial analysis and modeling.

Equiv To: BOTN 7440

Mutually Exclusive: BIOL 4312

BIOL 7450 Methods and Approaches to the Analysis of Biological Data Part 2 3 cr

Analysis of complex biological data sets arising from field surveys, vegetation sampling and remote sensing using techniques from Part 1.

Equiv To: BOTN 7450

BIOL 7502 Cell and Developmental Biology 3 cr

An advanced topics course which will be an in-depth study of current research topics in cellular and developmental biology. An undergraduate background in cell and developmental biology or related areas is required.

BIOL 7540 Methods for Analysing Biological Data 3 cr

A survey of methods and approaches for analyzing biological data containing many variables, suitable for graduate students. Offered in alternate years. Not to be held with BIOL 4312.

Equiv To: BIOL 4312, BIOL 4650, BOTN 7440

BIOL 7554 Molecular Biology of Eukaryotes (DNA) 3 cr

This is a lab intensive techniques course designed for 4th year undergraduate and graduate students interested in understanding the theory application of molecular methods specifically focusing on eukaryotic DNA. Students will learn essential and cutting-edge molecular techniques involved in gene-structure, amplification, transformation and sequencing.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre-requisite: BIOL 2520 (Cell Biology) or equivalent.

BIOL 7556 Molecular Biology of Eukaryotes (RNA) 3 cr

This is a lab intensive techniques course designed for 4th year undergraduate and graduate students interested in understanding the theory and application of molecular methods specifically focusing on eukaryotic RNA. Students will learn essential and cutting-edge molecular techniques involved in identifying messenger RNA expression of a particular target protein in plant or animal tissue.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 2520 (Cell Biology) or equivalent.

BIOL 7580 Topics in Plant Pathology 3 cr

Current and specialized aspects of plant pathology studied through lectures, seminars, prescribed readings and laboratory projects.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 4250 or equivalent, or consent of department head.

Equiv To: BOTN 7380

BIOL 7590 Pathology of Trees and Shrubs 3 cr

Lectures, seminars and readings focusing on special problems relating to the pathology of woody plants. Emphasis on ornamental shrub, shade tree, and forest tree species of local importance.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 4250 or equivalent, or consent of department head.

Equiv To: BOTN 7390

BIOL 7600 Topics in Biological Sciences 3 cr

A general topics course to reflect an in-depth study of current interest topics to extend or acquire specialized knowledge in a particular area of biological interest. A subtitle may be added to the current title to reflect specialized interests.

BIOL 7602 Directed Studies in Biological Sciences 3 cr

A course to provide a broad knowledge of different topics within Biological Sciences peripheral to the specific topic of the student's thesis and will not become the introductory chapter of the thesis. Students will complete assignments by themselves but will participate and be evaluated as a group.

BIOL 7880 Ecology Project Course 3 cr

This course provides experience in the organization and execution of team research into current ecological issues. Teams consist of a graduate student team leader, 3-6 undergraduates, and a faculty advisor. Each project team identifies a specific research question, creates a proposal for answering it, and presents their results in a public forum.

Equiv To: BOTN 7880, ZOO 7880

Biomedical Engineering (BME)

BME 7000 Biomedical Engineering Seminar 0 cr

The goal of this course is to train students with research methods and scientific presentations as well as providing exposure to the top research achievements in Biomedical Engineering (BME). In this bi-weekly seminar course, both students and established researchers will present on BME research topics. Course graded pass/fail.

BME 7012 Foundation of Physiology 2 cr

The goal of this course is to introduce human physiology for engineering students with no background in physiology. The offers the foundation of function and regulation of the systems and major organs of the human body.

BME 7022 Biomedical Instrumentation 2 cr

The goal of this course is to introduce the basics of biomedical instrumentation to students with no background in engineering. The course offers basics of electrical circuits, design of instrumentation amplifiers using EMG as an example, signal digitization and electrical safety of medical devices.

BME 7024 Basics of Electromagnetic 2 cr

The goal of this course is to introduce the basics of electromagnetic principles to students with no background in engineering. It will offer lectures on electrostatics, electric fields in matter, magnetostatics, electrodynamics, and Poynting's theorem.

BME 7026 Basics of Biological Signal Analysis 2 cr

The goal of this course is to introduce the basics of biological signal analysis to students with no background in signal processing. The course offers classification of signals and systems, stochastic nature of biological signals, Fourier Transform of signals, and power spectral analysis.

BME 7028 Basics of Biomechanics 2 cr

The goal of this course is to introduce the basics of biomechanics to students with no background in engineering. The course offers basics of mechanical and anatomical analysis of human movement, principles of human motor performance and motor learning and applications on rehabilitation.

BME 7040 Biomedical Ethics 0 cr

The goal of this course is to introduce the ethical issues encountered in biomedical research. The course presents several actual examples and offers the fundamental ethical rules of any biomedical research. This course is graded on a pass/fail basis.

BME 8990 Current Research Topics in Biomedical Engineering 3 cr

A discussion of current topics in biomedical engineering. The latest in instrumentation, procedures and practices relevant both to clinical engineering and ongoing research are covered.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Consent of instructor.

Biosystems Engineering (BIOE)

BIOE 7040 Fluid Mechanics of Unsaturated Porous Solids 3 cr

Statics and dynamics of two immiscible fluid phases occupying the voids of porous solids. Concepts include capillary pressure, bubbling pressure, saturation, intrinsic and relative permeability, pore-size distribution indices.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

BIOE 7110 Grain Storage 3 cr

A synthesis of major aspects of the storage of grain including: abiotic and biotic characteristics of stored grain bulks, regional variables, grain pressure theories, methods of controlling deterioration, and health hazards.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

BIOE 7140 Advanced Irrigation and Drainage 3 cr

Selected advanced problems and new developments in irrigation and drainage. Interrelationships between irrigation and drainage and the environment.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

BIOE 7180 Bioprocessing 3 cr

This course allows students with a background in either biological sciences or engineering to gain an understanding of biochemical engineering processes. Topics include production of biofuels, bioplastics, biopharmaceuticals, and processing technologies. This course is also offered in the Department of Microbiology as MBIO 7070. BIOE 7180 is not to be held with MBIO 7070.

Equiv To: MBIO 7180

BIOE 7200 Bulk Solids Storage and Handling 3 cr

Fundamental characteristics of bulk solids, bulk solids flow during storage and handling, loads in bulk solids storage and handling systems, mechanical, pneumatic and hydraulic conveying of bulk solids, safety in storage and handling of bulk solids.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

BIOE 7210 Numerical Modelling of Biosystems 3 cr

Applications of numerical methods to the solution of problems dealing with biological systems: structure analysis, mechanical behaviour of biological materials, moisture sorption and desorption, cooling and heating of biological materials, and flow through saturated and unsaturated porous media. Solution of transient and non-linear problems. Use of commercial finite element packages for problem solving.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

BIOE 7220 Advanced Machine Design Analysis for Biosystems 3 cr

Analysis of machines for use in biosystems with respect to design and functional performance, in-field traction, operator safety and comfort, and energy source, transmission and application. Engineering analyses will be used to study biosystems machinery problems of current and future interest.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

BIOE 7230 Advanced Topics on Light-Frame Buildings 3 cr

Structural and environmental design and analysis of light-frame buildings. Topics include: loads in light-frame buildings; frame design; construction management; environmental control in light-frame buildings; and structure-environment interactions.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

BIOE 7240 Special Problems in Biosystems Engineering 3 cr

Advanced work in a specialized field involving engineering applications to biological systems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

BIOE 7250 Mechanical Behavior of Biological Materials 3 cr

Elastic and inelastic behavior of biological materials under applied load. Emphasis on unprocessed and semi-processed food products. Use of mechanical behavior properties in the design of handling, storage, processing and sensing systems for food products.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

BIOE 7260 Research Methods in Biosystems Engineering 3 cr

Introduction to quantitative research methods emphasizing reproducible research and analysis. Topics include statement of research objectives and hypotheses; moving through experimentation, measurements, and data acquisition; and ending with exploratory analysis, statistical analyses and estimation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

BIOE 7270 Advanced Seminar in Biosystems Engineering 3 cr

A series of seminars to be given by Ph.D. candidates on research topics of current interest in Biosystems Engineering.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

BIOE 7280 Advanced Topics in Biosystems Engineering 3 cr

An opportunity to extend, update or acquire specialized knowledge in particular area of interest.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

BIOE 7290 Biosystems Engineering Seminar 1 3 cr

Oral and written presentation of engineering research is discussed.

Students are expected to actively participate in weekly seminars and to present two seminars both orally and written.

BIOE 7300 Food Process Engineering 3 cr

Food engineering concepts are presented using quantitative relationships that define the process. Various advanced methods of heating and processing foods are discussed and their mathematical and physical relationships described. Descriptive information of typical equipment assists students in utilizing engineering principles in design.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

BIOE 7310 Materials Incorporation into Soil 3 cr

Types and characteristics of agricultural materials; solid and liquid waste (including manure) incorporation; crop residue incorporations, seed placement; chemical incorporation; methods and equipment; performance evaluation; measurement technique.

BIOE 7320 Membrane Processes for Water and Waste Treatment 3 cr

Principles of membrane filtration, classification, design and manufacture. Principle mechanisms of mass transport to the membrane surface and particle/solute rejection. Investigation of membrane bio-fouling and bio-film control strategies. Fundamentals of reverse osmosis, nano-, ultra-, and micro-filtration process design and operation. Practical applications of membranes in the area of water and wastewater treatment. Innovative and novel bio-reactor designs utilizing membrane filtration for environmental reclamation.

BIOE 7350 Bioresource Engineering and Sustainability 3 cr

Students will gain an understanding of overall sustainability of industrial activities, energy usage, and resource depletion. Course topics will include: environmental emissions (as it relates to air and water pollution, solid and hazardous wastes, noise and traffic impacts); life-cycle assessment and related techniques for evaluating sustainability; design improvements to enhance environmental performance of engineered systems; and methodologies for assessing social and economic impacts of new developments.

BIOE 7360 Biological Systems: Behaviour, Modelling and Simulation 3 cr

Applications of engineering principles and mathematical methods to model and simulate biological ecosystems. Course materials will analyze critical elements of a biological system and interactions among these elements, principles and techniques of modelling biological systems, the modeling process, estimation of model parameters, and model analysis and validation. Examples of existing models will be discussed and used to simulate various biological systems.

BIOE 7370 Engineering Properties of Fibres for Industrial Uses 3 cr

Students will gain an understanding of various engineering properties of fibre and textiles for industrial uses. Case studies are used to illustrate the failure of textiles in engineering applications. The course will emphasize how to engineer and evaluate a fibre for biomedical, geotechnical, or athletic applications.

BIOE 7380 Biomaterial Science and Engineering 3 cr

The course provides students with an overview of materials that are synthesized for, or have agricultural, environmental or biomedical applications, including their sources, physical/chemical/biological properties and applications. The course includes the synthesis/isolation/fabrication and characterization of biomaterials, and the structure-property relationship of those materials. Students will be exposed to concepts on several material characterization techniques at the morphological, chemical and biological level.

Canadian Studies St. Boniface (CDSB)

CDSB 7010 CDN PEUP TERR 6 cr

Equiv To: CDSB 7011

CDSB 7020 CDN ID MYTH IM 6 cr

Equiv To: CDSB 7021

CDSB 7030 PROB MET ET CDN 3 cr

Equiv To: CDSB 7031

CDSB 7040 TEXT CDN BASE 3 cr

Equiv To: CDSB 7041

CDSB 7051 Francophonies canadiennes et internationales 3 cr

Ce cours en ligne explore l'émergence de la francophonie institutionnelle et le rôle du Canada dans ce processus. Il traite des enjeux sociaux, culturels, économiques et politiques de la francophonie à l'échelle régionale, nationale et internationale ainsi que des défis contemporains de la francophonie dans le contexte de la mondialisation, des enjeux identitaires et socioéconomiques chez les francophones en situation minoritaire.

CDSB 7071 L'état canadien : mondialisation et flux migratoires 3 cr

Ce cours en ligne propose une approche interdisciplinaire pour étudier les enjeux multiples qui entourent le sujet des flux migratoires au Canada dans le contexte de la mondialisation de l'économie et des communications. Il s'agira également de saisir l'histoire des phénomènes migratoires en tenant compte des facteurs politiques, économiques et sociaux et d'explorer les effets de l'immigration sur les expressions culturelles (arts et littérature).

Chemistry (CHEM)

CHEM 7400 Topics in Biochemistry 3 cr

A lecture and seminar course dealing with selected topics of current interest in biochemistry and molecular biology.

CHEM 7410 Spectroscopy and Molecular Structure 3 cr

Applications of spectroscopic methods to chemical problems with emphasis on mass spectrometry and related techniques.

CHEM 7450 Topics in Organic Chemistry 3 cr

A discussion of current and general topics related to novel and interesting areas of organic chemistry appearing in the current literature.

CHEM 7460 Topics in Synthetic Organic Chemistry 3 cr

A course designed to acquaint students with specific methods of synthesis.

CHEM 7520 Topics in Physical Chemistry 3 cr

The topics will vary, depending on student needs and interests; they may include, but will not be limited to the following: electrochemistry, surface chemistry, electrochemical kinetics, or other specialized topics not available in regular course offerings.

CHEM 7550 Design of Organic Synthesis 3 cr

Conceptual methodology in the design of synthesis will be discussed with inclusion of computer-aided approaches. Examples from the current literature will be used to emphasize the conceptual aspects.

CHEM 7560 Organometallic Chemistry 3 cr

Recent advances in synthetic and structural organometallic chemistry.

CHEM 7580 Chemical Crystallography 3 cr

Theory and practice of crystal structure analysis with emphasis on single crystal x-ray diffractometry; structure-activity relationships in small organic and inorganic compounds; introduction to protein and nucleic acid crystal structure analysis.

CHEM 7600 Topics in Inorganic Chemistry 3 cr

Topics of current research interest in the area of inorganic chemistry including, but not limited to synthesis, structures, catalysis and reaction mechanisms.

CHEM 7700 Topics in Analytical Chemistry 3 cr

Topics of current research interest in analytical chemistry including, but not limited to, mass spectrometry of large molecules, separation techniques, analysis of metals, surface analytical techniques, analysis of environmental samples, analysis of 'real' samples, and sampling techniques.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CHEM 4590 or permission of instructor.

CHEM 7800 Topics in Theoretical Chemistry 3 cr

Topics of current research interest in theoretical and computational chemistry from such areas as ab initio quantum chemistry, molecular simulations, nonlinear reaction dynamics, spectroscopy and statistical mechanics.

CHEM 7900 Seminar in Current Research Issues in Chemistry 3 cr

Student-led seminars covering areas of interest to the faculty and students in the graduate Chemistry program, and current research issues in the field of Chemistry (including biochemistry, spectroscopy, organic chemistry, physical chemistry, organic synthesis, organometallic chemistry, inorganic chemistry, analytical chemistry and theoretical chemistry).

City Planning (CITY)

CITY 6020 PL METH TECH 1 3 cr**CITY 7020 Planning Methods and Techniques II 3 cr**

A survey of quantitative and qualitative methods and techniques used in planning analysis and decision making including sampling survey, case study, contingency and spatial analysis as well as phenomenological and simulation techniques and methodologies.

CITY 7030 Planning Theory 1 3 cr

The principal ideas and ideals influencing planning thought and practice, ranging from rational comprehensive planning to theories of societal guidance, ethics and the human-environment interface.

CITY 7050 City Planning Capstone 6 cr

This course prepares students to undertake a self-directed planning research project, under the supervision of a City Planning faculty member and a second reader. Students conduct original research and analysis to address a contemporary issue in planning practice. Limited to students enrolled in the second year of the Master of City Planning (M.C.P.) degree.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CITY 7410, CITY 7030, and CITY 7020.

CITY 7070 Housing and Urban Revitalization 3 cr

Housing and urban revitalization in the Canadian context. Housing demand and supply, structure of the housing market, Canadian housing policy, affordability and other selected housing issues; processes and strategies related to urban decline and revitalization.

CITY 7160 Land Development 3 cr

Application of theories and techniques of urban land development, formulation of industrial policies and financial and political implications of land development.

CITY 7200 Urban Analysis 3 cr

Theoretical framework for the dominant theories of urban structure, property and land-use relevant to city planning.

CITY 7270 Seminar in Regional Planning 3 cr

An exploration of eco-regional planning drawing on concepts of city-states (or city-regions) and bioregionalism; including contemporary theme research, and a region-specific analysis to inform an understanding of regional planning's past, present and future.

CITY 7300 Urban Society 3 cr

An interdisciplinary seminar on social policy and social planning in the contemporary urban setting. National, provincial and local contexts shaping the provision of welfare and well-being. Demonstration of selected social planning techniques. Application to current issues.

CITY 7310 Law and Local Government 3 cr

Topics of common law, torts, real property, land use planning and control, expropriation, and local government, including some recent cases.

CITY 7340 Urban Development 3 cr

The mechanics of urban development and its socio-economic implications and underlying political forces. Practical field experience is involved in the form of an internship.

CITY 7350 Thesis/Practicum Preparation 0 cr

A preparatory course for students registered in thesis or practicum. Methods of constructing problems, formulating hypotheses, methods of investigation, sources of information, and appropriate form and content of thesis and/or practicum. This course is graded pass/fail.

CITY 7360 Development Process for Design Professions 3 cr

Introduction to the development process and method. Site selection and planning. Feasibility and case studies. The dynamics of development teams, including marketing strategies and management of completed projects. Joint public and private enterprises.

CITY 7370 Urban Design 3 cr

Theory and concepts of urban design from historical and contemporary perspectives. Urban design seen as (a) a multidisciplinary activity, (b) conscious three-dimensional design, and (c) process and public policy. Implementation and control techniques of urban design. Case studies.

CITY 7410 Planning Design 1 6 cr

Studio/workshop developing problem solving techniques and design skills in an area subject to environmental, social and economic change. Preparation of a planning report comprising of research and analysis, evaluation of feasible alternative strategies and designs, synthesis and recommendations for implementation. Case studies from planning journals and planning practice in cities and regions.

CITY 7420 Planning Design 2 6 cr

Studio/workshop building upon CITY 7410 as applied to an area of greater complexity, requiring the evaluation and integration of contributions from several planning-related disciplines. Selected projects emphasize both the multidisciplinary and interdisciplinary nature of planning, and in the resolutions of the problems posed. Case studies from planning journals and planning practice in cities and regions.

CITY 7430 Planning Design 3 (Urban Design) 6 cr

The application of urban design theories and techniques to a large scale urban area of complex land uses and community development issues. The studio is also open to advanced students in architecture, landscape architecture and interior design and develops a broad approach to multi-disciplinary problem solving design solutions.

CITY 7440 Planning Design 4 6 cr

Advanced planning design studio/workshop, experimental and innovative in approach and content, involving special techniques and skills. Studio may also be off-campus and/or focused on a special topic centred around a distinguished guest expert.

CITY 7450 Concepts in Sustainable Planning and Design 3 cr

Examination of the concepts and theories involved in the development of sustainability as a force in socio-economic and environmental decision-making. Explores the implications of sustainability for contemporary design and planning thought and practice.

CITY 7460 Urban Ecology and Environmental Management 3 cr

Theoretical frameworks and theories in urban ecology and environmental management as they apply to municipal institutional frameworks and the role of environmental planning in urban and regional government.

CITY 7470 Professional Planning Practice 3 cr

An examination of the professional practice and praxis of planning, presented in collaboration with the Manitoba Association of the Canadian Institute of Planners, emphasizing the practice aspects of planning processes, and the political, institutional and legal systems that direct and/or inform planning.

Civil Engineering (CIVL)

CIVL 7010 Modern Railway Engineering 3 cr

A course in aspects of the design, construction, and operation of modern railways, examining main lines, branch lines, and terminals.

CIVL 7040 Analysis and Design of Freight Transport Systems 3 cr

Overview of the structure and organization of Canada's freight transport system; measurement, analysis and forecasting of freight movements; transportation system performance; operating, service and cost characteristics of freight transport systems; design considerations for freight handling facilities; case studies in analysis and design of freight transport systems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: CIVL 4840 or permission of the instructor for non-engineering students specializing in transport studies.

CIVL 7050 Transportation Engineering in Developing Regions 3 cr

Aspects of transportation in developing regions that differ significantly from those of conventional North American practice. Factors and assumptions in developing region context; analysis and design of surface transportation systems and components in developing regions; special aspects of professional practice; case studies from Third World and northern Canada.

CIVL 7060 Analysis and Design of Passenger Transport Systems 3 cr

Passenger travel forecasting principles and techniques; demand models; passenger transportation system performance; vehicle cycles; cost functions; congestion; evaluation; examination of case studies.

CIVL 7090 Water Resources Systems 3 cr

The application of operations research/systems analysis techniques to water resources and urban and environmental systems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor.

CIVL 7100 Prestressed Concrete 3 cr

A study of the analysis and design of prestressed concrete structures; pre-tensioning; post-tensioning; importance of material properties; modern design specifications.

CIVL 7140 Structural Masonry 3 cr

Masonry materials, properties and behaviour. Plain and reinforced masonry, axial load, flexure, combined loading. Design methods, building code developments, building design.

CIVL 7190 Solid Mechanics 3 cr

Cartesian Tensors, analysis of stress and strain, constitutive relations, formulation and solution of problems in 2-D and 3-D elasticity, Hankel integral transforms, plasticity; yield surface and criteria, flow rule, plastic potential, hardening, viscoelasticity; creep, relaxation, basic viscoelastic models, stress-strain relations, correspondence principle.

CIVL 7200 Topics in Environmental Engineering 3 cr

Includes topics such as energy and the environment, solid waste management, and environmental problems in transport. Topics are studied through case histories of contemporary issues.

CIVL 7210 Solid Waste Composting and Disposal 3 cr

Advanced engineering principles related to resource recovery and solid waste disposal. Biological conversion technologies and the disposal of solid wastes are discussed in detail.

CIVL 7260 Behaviour of Reinforced Concrete Members 3 cr

Study of the actual behaviour and strength of reinforced concrete members; examination of recent significant publications, correlation to research with current design specifications and codes.

CIVL 7300 Use of Fibre-Reinforced Polymers (FRP) in Structural Design 3 cr

Fibre-reinforced polymers (FRP) constituents and properties; design of concrete structures internally reinforced with FRP, concrete members prestressed with FRP, externally bonded FRP laminates for strengthening and rehabilitation of structures; construction details and case studies of projects using FRP reinforcement.

CIVL 7340 Sustainability in Construction 3 cr

Introduction and overview of sustainable construction and green buildings, green building assessment tools; the green building process; green building design, construction and commissioning, the economics of green buildings and future directions in sustainable construction and green buildings.

CIVL 7350 Topics in Advanced Structural Engineering 3 cr

Lectures and seminars on selected advanced topics in structural engineering; current problems; implications on current research.

CIVL 7360 Landslides and Slope Failures: Identification, Causes, and Control 3 cr

Slope movement types and processes in soil and rock masses; recognition and identification: factors influencing stability; field investigation and instrumentation; strength properties and their measurement; stability analysis; assessment of hazard and risk analysis; stability in open pit mining; remedial measures including stabilization, protection, and warning.

CIVL 7370 Advanced Construction Management 3 cr

Strategic management of construction organizations; strategy systems and processes; health and safety management; human resources management; benchmarking; financing; budgeting; value management and financial performance; and quantitative decision-making for construction organizations.

CIVL 7400 Finite Element Method in Engineering Mechanics 3 cr

Review of flexibility and stiffness methods; concept of finite elements and energy formulations; various shape functions; solutions of planar and three-dimensional elasticity problems; beams, plates and shells; special problems, e.g., seepage, non-linear material.

CIVL 7430 Special Topics in Geotechnical Engineering 3 cr

A tutorial approach to the study of topics in soil, rock and ice engineering not covered in the formal coursework.

CIVL 7450 Soil Properties and Behaviour 3 cr

Testing methods for strength, compressibility and hydraulic conductivity of engineering soils; traditional models for soil characterization; introduction to hypoelastic and elastic plastic modelling; extension of models to account for strain-rate, temperature, and unsaturation; influence of soil chemistry; relationship between laboratory results and computational needs.

CIVL 7460 Geotechnical Design with Geosynthetics 3 cr

Properties and test methods of geosynthetics (i.e., geotextiles, geogrids, geomembranes, geonets and geocomposites); functions of geosynthetics (separation, reinforcement, filtration, drainage and containment); design of reinforced soil structures (retaining walls, slopes, embankments and unpaved roads); design of filtration and drainage works; design of lined waste containment facilities; case histories.

CIVL 7480 Soils Engineering 3 cr

Analysis and design for construction in engineering soils: review of soil strength and compressibility, site characterization, stability and settlements of shallow foundations, deep foundations, earth retaining structures, slope design and remediation, earth dams. Emphasis will be placed on published records comparing predictions with field performance.

CIVL 7610 Special Topics in Theoretical and Applied Mechanics 3 cr

Lectures and seminar on selected advanced topics in the field of mechanics; current problems and research.

CIVL 7650 Selected Topics in Water-Resources Development 3 cr

Lectures and seminars on selected advanced topics in water-resources engineering.

CIVL 7652 River Ice Engineering 3 cr

This course will provide students with an introduction to River Ice Engineering topics and principles. River ice processes such as freeze-up, ice growth, break-up and jamming will be explained in detail. The effects of ice on river hydraulics and hydraulic systems operation will be investigated. River and lake ice mechanics, ice safety and ice mitigation strategies will be discussed. Where possible, students will have an opportunity to gain practical experience through labs and project work.

CIVL 7654 Advanced Hydraulics 3 cr

This course provides an introduction to advanced hydraulics, including physical hydraulic modelling, sediment transport (cohesive and non-cohesive) and analysis and design of several different types of hydraulic structures. Additional advanced topics such as coastal engineering and fish passage will be covered as appropriate.

CIVL 7656 Advanced Fluid Mechanics 3 cr

Introduce concepts in advanced fluid mechanics including topics in theoretical fluid mechanics, experimental fluid mechanics and environmental fluid mechanics.

CIVL 7658 Computational Hydraulics 3 cr

Introduce concepts and procedures for the computational modelling of open channel hydraulic engineering problems including numerical methods and best modelling practices.

CIVL 7660 River Engineering 3 cr

Classification of rivers; regime of river channels; channel patterns, sediment transport; design of stable channels; engineering interference (diversions, dams, dredging); river training works; hydraulic-model studies of rivers.

CIVL 7680 Soil/Ground Improvement Techniques 3 cr

Analysis and design of mechanical and chemical treatment techniques commonly applied to problem foundation soils for civil engineering structures. Mechanical modification; hydraulic modification; modification by admixtures; modification by reinforcement and confinement; in-situ evaluation of soil improvement and monitoring.

CIVL 7700 Water Resources Planning 3 cr

Principles and methodologies of planning water resources development projects. An evaluation of a major multi-purpose project from interdisciplinary viewpoints, incorporating those of designers, planners, critics and political decision makers.

CIVL 7710 Coastal Hydraulics 3 cr

Mechanics of wave motion; wave and water level predictions; types and design of coastal protection; littoral processes.

CIVL 7720 Groundwater and Solute Transport Modelling 3 cr

The physics and numerical solution of mathematical models of steady-state and transient groundwater flow and mass transport in the saturated and unsaturated zones; introduction to the finite difference and finite element methods; popular software; other modelling techniques, including random-walk particle methods; modelling groundwater contamination; non-linear problems; applications to regional groundwater flow and groundwater recharge, aquifer resource evaluations, contamination prediction.

CIVL 7730 Groundwater Engineering 3 cr

The role of geology and hydrogeology in the siting, design of engineering structures; synthesis of groundwater mechanics in various geologic environments; case studies in construction dewatering, groundwater resource evaluation, subsidence, seepage in dams and foundations and slope stability; basic review of analytic solutions and numerical methods.

CIVL 7740 Special Topics in Hydrology 3 cr

Selected topics examining the statistical aspects of hydrology. Time series analysis; disaggregation processes; flood frequency analysis; analysis of extremes.

CIVL 7750 Advanced Civil Engineering Systems 3 cr

Optimization of Civil Engineering Systems. Use of linear and dynamic programming and network theory in all aspects of civil engineering. Introduction to the use of stochastic processes in operations research. Particular emphasis is given to water resources and environmental and transportation engineering.

CIVL 7760 Recent Developments in Bridge Engineering and Structural Health Monitoring 3 cr

Introduction to Intelligent Sensing for Innovative Structures (ISIS); Introduction to Civionics and Structural Health Monitoring; Sensors and Data Acquisition Systems; Theoretical Evaluation of Bridge Decks; Theoretical Evaluation of Cantilever Slabs; Theoretical Evaluation of Girders; Theoretical Evaluation of Columns; Bridge Inspections and Maintenance; Conceptual Design and Aesthetic Design of Bridges.

CIVL 7770 Hydrological Processes 3 cr

Runoff generation and runoff modelling; scale effects in hydrology; ramifications of distributed and lumped approaches; computer models of watershed modelling; optimization schemes and minimization functions; special concerns dealing with digital elevation models.

CIVL 7776 Advanced Concrete Technology 3 cr

Advanced properties of concrete are introduced through studying key constituent materials (e.g. cement, mineral and chemical admixtures). Concepts of design and control of concrete mixtures are described through defining performance criteria in the field. Characteristics and applications of special concretes (e.g. high-performance and self-consolidating concrete) are covered. Each topic is discussed with respect to mechanisms of action, construction specifications and requirements in Canadian and American standards.

CIVL 7778 Durability of Concrete 3 cr

Durability of concrete as a material. Deterioration of concrete in the field due to various damage mechanisms. Frost damage, corrosion of reinforcement, sulfate attack, etc. Durability-based design requirement in building codes.

CIVL 7780 Advanced Behaviour and Design of Steel Structures 3 cr
Behaviour and design of welded thin-walled members; plate girders, composite construction, beam-columns, and connections. Special topics such as stability of metal structures and bracing requirements are also covered.

CIVL 7790 Pavement Evaluation and Performance 3 cr
Pavement classification, pavement management, performance measures, condition surveys, sensor technology, material sampling, test methods on asphalt binders and unbound layers, non-destructive testing, sources of variability, pavement maintenance, rehabilitation, long-term performance.

CIVL 7800 Design of Light Industrial Steel Buildings 3 cr
Design criteria for metal building systems; behaviour and design of tapered and prismatic built-up columns and girders; design of gable frames; behaviour and design of cold-formed members; bracing requirements for metal buildings and design of connections.

CIVL 7810 Flow and Transport in Fractured Rock 3 cr
The physics and numerical solution of mathematical models of flow and transport processes in fractured rocks; scale effects; single, dual, and mixed modelling techniques; heat flow and transport in fractured rock systems; applications to local and regional groundwater flow.

CIVL 7820 Operational Hydrology 3 cr
Hydrographic analysis; relation between the physical processes and the hydrograph; estimation and prediction. Floods; statistical analysis; maximum probable floods. Water supply; estimates of dependable flow, simulation, synthetic flow series, statistical analysis.

CIVL 7840 Traffic Systems Analysis 3 cr
Mathematical theories of traffic flow, introductory queueing theory with application to traffic performance at intersections; travel forecasting principles and techniques; the use of simulation in traffic engineering design.

CIVL 7850 Advanced Structural Dynamics 3 cr
Responses of single-degree-of-freedom and multi-degree-of-freedom systems, damped and undamped systems, linear and inelastic systems to dynamic excitations; free vibration, forced vibrations. Special emphasis on responses of civil structures to seismic and blast loadings.

CIVL 7870 Advanced Engineering Analysis 3 cr
Analytical techniques used in engineering, including such topics as the application of complex variables, partial differential equations, generated Fourier series, integral transforms, and special functions, to advanced problems in civil engineering.

CIVL 7920 Theory of Water Treatment 3 cr
Physical and chemical characteristics of water; water treatment processes including coagulation/flocculation, sedimentation, filtration, softening, adsorption, ion exchange, disinfection, and membrane processes.

CIVL 7930 Theory of Waste Treatment 3 cr
Characteristics of waste-specific and generic determinations; unit operations and unit process for physical, chemical and biological treatment and transformation of particulate and dissolved contaminants. Biochemical transformations and degradation of hazardous pollutants; unit processes for enhanced nutrient removal and hazardous waste treatment. Full treatment trains for industrial and municipal waste treatment, including solids handling.
PR/CR: A minimum grade of C is required unless otherwise indicated.
Prerequisite: CIVL 3700 and CIVL 3690 or permission of instructor.

CIVL 7950 Environmental Engineering Laboratory 3 cr
Laboratory work in water and wastewater analysis and treatment processes related to water quality management.
PR/CR: A minimum grade of C is required unless otherwise indicated.
Prerequisites: CIVL 7930 and CIVL 7920.

CIVL 7960 Environmental Engineering Design 3 cr
Design of unit operations. Planning, cost effectiveness analysis, and conceptual design of a whole wastewater treatment plant.
PR/CR: A minimum grade of C is required unless otherwise indicated.
Prerequisites: CIVL 7930.

CIVL 7990 Special Topics in Transportation 3 cr
Lectures and seminars on selected topics in transportation not covered in the formal coursework.

Classical Studies (CLAS)

CLAS 7000 Proseminar in Classical Studies 1 0 cr
Seminars in which faculty members or invited speakers introduce subfields, methods, and resources within Classics. Attendance and participation are required from Classics MA students during the first year of their program. This is part of a pair of required courses. This course is graded Pass/Fail.

PR/CR: A minimum grade of C is required unless otherwise indicated.
Prerequisite: none.

CLAS 7002 Proseminar in Classical Studies 2 0 cr
Seminars in which faculty members or invited speakers introduce subfields, methods, and resources within Classics. Attendance and participation are required from Classics MA students during the first year of their program. This is part of a pair of required courses. This course is graded Pass/Fail.

PR/CR: A minimum grade of C is required unless otherwise indicated.
Prerequisite: none.

CLAS 7300 Topics in Greek Art and Archaeology 3 cr
This course will investigate aspects of Greek art, archaeology, and material culture, emphasizing different topics, methods, genres, or theoretical approaches. Possible topics include artistic media, the archaeology of particular regions, and archaeological approaches to the economy and other issues in social history. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

CLAS 7302 Topics in Roman Art and Archaeology 3 cr
This course will investigate aspects of Roman art, archaeology, and material culture, emphasizing different topics, methods, genres, or theoretical approaches. Possible topics include artistic media, the archaeology of particular regions, and archaeological approaches to the economy and other issues in social history. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

CLAS 7310 Readings in Selected Topics 3 cr
Intensive study of one or more authors in Greek or Latin literature or of a special topic in ancient history. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

CLAS 7400 Major Research Paper 0 cr

Develop advanced skills in the formulation of a focused research question, develop a method for approaching it, assemble an in-depth bibliography comprising primary and secondary sources, and independently write a research paper of 8,000-10,000 words documenting the results of this research. This course is graded on a pass/fail basis.

Community Health Sciences (CHSC)

CHSC 6810 Biostatistics for Clinicians 3 cr

This course is designed for students in clinical Master's programs in Medicine, Pharmacy, Dentistry and Nursing. It is designed as a basic biostatistics course that will introduce the tools needed to read and understand quantitative health literature.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre-requisite: Permission of instructor.

CHSC 7200 Current Concepts in Global Health: Populations, Policies and Programs 3 cr

The course will focus on global patterns of mortality and morbidity, and the organization of health care services. Social, cultural, and economic issues will be related to health and health services.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: instructor permission.

CHSC 7212 Critical Perspectives on Gender and Health 3 cr

This course explores gendered health issues from an interdisciplinary feminist perspective. Placing particular emphasis on the intersections amongst race, class, gender, and sexuality, this course explores how the contemporary concepts of "health" and "illness" have come to make sense in and through constructions of masculinity and femininity. Using feminist theories of gender embodiment to examine a range of topics pertaining to health, this course requires students to question common-sense and bio-medical understandings of health and illness.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Instructor permission required.

CHSC 7220 Health and Health Services of First Nations, Métis and Inuit Peoples 3 cr

Seminar-based course critically examines First Nations, Metis and Inuit health status, health care services, historical assumptions about indigenous populations, and 'pre-Canada' world events influencing European colonization of this land with resultant marginalization of original indigenous Peoples.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Students outside CHS require instructor permission to register.

CHSC 7230 MATERNAL HEALTH 3 cr**CHSC 7232 Families and Care Across the Life Course 3 cr**

Advanced study of the provision of care by family members and friends for dependent children and adults with long-term care needs in the context of increasing diversity and population aging. Topics include theoretical perspectives on care, the gendered nature of care, consequences of care and policy implications.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Students outside CHS require instructor permission.

CHSC 7250 Science and Practice of Knowledge Translation in Health Research 3 cr

This course will provide students with an overview of the fundamental aspects and current state of knowledge translation (KT) science and practice in health research and care. The topics covered in this course will equip the student with the basic principles required to integrate knowledge translation science into health research and apply best KT evidence and methodologies to their dissemination and implementation activities.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Instructor permission is required.

CHSC 7270 Epidemiology of Chronic (Non-Cancer) Diseases 3 cr

The objective is to study the natural history of chronic diseases including the distribution of diseases, risk and prognostic factors, rationale and strategies for prevention. The methodological issues concerning the investigation of severe disease are also discussed.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CHSC 7520, CHSC 7820, or instructor permission.

CHSC 7290 Economic Evaluation of Health Care 3 cr

The objectives of this course are to enable students to understand economic evaluation methodologies (cost-effectiveness, cost-benefit, cost-utility analysis) as applied to health care and to familiarize them with the applied literature on economic evaluation of health care.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CHSC 7810 or CHSC 7820, and CHSC 7520, or instructor permission.

CHSC 7300 Health Policy and Planning 3 cr

This course defines health policy and describes the planning and decision-making process. Case studies will be used to illustrate and critique the substance, process and outcome of policy papers that address contemporary policy issues.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Students outside CHS require instructor permission.

CHSC 7310 Epidemiology of Health Care 3 cr

This course will discuss the advantages and disadvantages of using large administrative data bases for research purposes. Substantive topics dealt with include: population health and the role of medical care, assessing system performance, quality of care and outcomes, short- and long-term outcome studies, technology assessment, and use of pharmaceuticals. Policy implications are considered. Students are required to learn SAS, a computer programming language and to analyze and interpret data for the term project.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Instructor permission is required.

CHSC 7320 Organization and Financing of the Canadian Health Care System 3 cr

The purpose of this course is to help students develop the knowledge and skills to understand and improve Canadian healthcare. The course provides an introduction to the way the Canadian health system is organized and financed; covers key policy issues and controversies; and examines the challenge of change.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Students outside CHS require instructor permission.

CHSC 7330 Cultural Perspectives on Illness and Medical Practice 3 cr

The objective of this course is to make students aware of the ways in which disease, illness, and medical practice are socially and culturally mediated. The course will examine cultural influences on the experience and expression of illness and consider the medical practitioner's role in the development and provision of culturally responsive health care.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Students outside CHS require instructor permission.

CHSC 7360 Clinical Trials 3 cr

The Randomized Clinical Trial is the only true experiment in clinical research. This course is intended to give students detailed knowledge of the design and implementation of RCTs. Students will participate in a qualitative review of RCTs. Students outside CHS require instructor permission.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CHSC 7520, CHSC 7820.

CHSC 7362 Systematic Reviews and Meta-Analysis 3 cr

Systematic reviews and meta-analysis are integral to research success. Lectures and skill sessions will parallel the steps needed for successful completion of rigorous systemic reviews and meta-analyses of intervention studies. Instructor permission is required.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CHSC 7520 and CHSC 7820.

CHSC 7380 Prevention and Health 3 cr

The course will cover frameworks used in formulating preventive strategies. Topics will include risk factor assessment, screening, health education, legislation, litigation, lifestyle and prevention. Actual case studies will be used. Students outside CHS require instructor permission.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CHSC 7520.

CHSC 7390 Health Promotion 3 cr

Examination of the history, theories, principles, and settings for health promotion. Assumptions underlying the discipline and how they affect practice are explored. Different conceptualizations of health and implications for practice are examined. Recent health promotion strategies are critically analyzed using case studies.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Students outside CHS require instructor permission.

CHSC 7400 Directed Readings I: In Epidemiologic Methods 3 cr

An opportunity for advanced students to acquire knowledge in a defined and specific area of interest.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: permission of instructor and Graduate Program Director.

CHSC 7410 Directed Readings: II - In Epidemiology 3 cr

An opportunity for advanced students to acquire knowledge in a defined and specific area of interest.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor and Graduate Program Director.

CHSC 7430 Seminars on Advanced Topics: II - In Methods of Health Care 3 cr

Seminars dealing with current research issues, emerging methodologies and analytical techniques will be offered for advanced students.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Students outside CHS require instructor permission.

CHSC 7450 Epidemiology of Communicable Diseases 3 cr

Overview of epidemiological principals in communicable disease investigation and prevention and specific issues in controls of certain specific communicable diseases of public health importance in Canada will be introduced. Students outside CHS require instructor permission.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CHSC 7520, CHSC 7820.

CHSC 7460 Environmental and Occupational Health 3 cr

The aim of the course is to acquaint the student with the role of the environment (general and specifically working) as the determinant of health. The content of the course will be presented in the form of lectures, seminars, and field visits. Students outside CHS require instructor permission.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CHSC 7520.

CHSC 7490 Empirical Perspectives on Social Organization and Health 3 cr

This course will focus on a selected review of the epidemiological literature which has integrated social factors in the investigation of the distribution of health and illness in society. The course will review a selection of important empirical studies in investigating the roles played by social, psychological and economic status factors in determining health and illness. Emphasis will be placed on identifying the central theoretical and methodological approaches to defining and measuring socioeconomic status in this literature. Students outside CHS require instructor permission.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CHSC 7520, CHSC 7820.

CHSC 7500 Conc. Public Health 3 cr

Public Health is a multi-disciplinary field of inquiry and practice that addresses the social and biological dimensions of population health. This course represents part one (with CHSC 7502) that is designed to provide students with a breadth of exposure to core competencies and content areas important to public health practice. This course provides students with an introduction to the historical and current theoretical debates relating to the science and art of protecting, promoting and restoring the health of the population through organized societal activity, public health law and ethics. Students will also gain relevant introductions to inequities in health, Indigenous health, environmental and occupational health, knowledge translation, and so forth. Specific content for each part of the two courses will be structured in such a way to complement more advanced program offerings in these topic areas.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Instructor permission is required for students not admitted to the CHS Master of Public Health Program.

CHSC 7502 Core Concepts in Public Health 2 3 cr

Public Health is a multi-disciplinary field of inquiry and practice that addresses the social and biological dimensions of population health. This course represents part two (with CHSC 7500) of the breadth of exposure to core competencies and content areas important to public health practice. Combined with CHSC 7500, this course adds to relevant debates relating to the science and art of protecting, promoting and restoring the health of the population through organized societal activity, public health law and ethics. Students will also gain relevant introductions to health policy, health promotion, prevention and health, and so forth. Specific content for each part of the two courses will be structured in such a way to complement more advanced program offerings in these topic areas.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Instructor permission is required for students not admitted to the CHS Master of Public Health program.

CHSC 7510 Problem Solving in Public Health 3 cr

This seminar based course focuses on current issues and topics in community health to advance skills of thinking critically and communicating clearly about practical solution to public health problems. Students outside CHS require instructor permission.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CHSC 7520.

CHSC 7520 Principles of Epidemiology 3 cr

This course will introduce the basic concepts and methods of epidemiology, including the definition and measurement of health status and health determinants in populations, assessing health risks and inferring causation, and issues in the design and analysis of population health studies.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Students outside CHS require instructor permission.

CHSC 7530 Applied Public Health Epidemiology 3 cr

This course builds on the Principles of Epidemiology course through an applied focus. It discusses the application of epidemiologic principles in applied public health practice including the investigation of outbreaks, disease surveillance and the basic concepts of social network analysis, vaccine epidemiology and mapping. Students will also gain an understanding of the principles of prevention in public health practice, the benefits of qualitative methods and the role of the laboratory in outbreak investigation. They will receive instruction on the use of software for database development, data entry, analysis and presentation of results. Students outside CHS require instructor permission.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CHSC 7520, CHSC 7810 or CHSC 7820.

CHSC 7540 Advanced Epidemiology 3 cr

Advanced epidemiologic research methods focusing on selected epidemiological issues (bias, confounding, matching, etc.). Discussion will be directed to both epidemiological and statistical considerations to find the optimal solution to a research problem. Students outside CHS require instructor permission.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CHSC 7520 (B+ minimum grade), CHSC 7820 (B+ minimum grade).

CHSC 7560 Epidemiology of Cancer 3 cr

This course introduces the magnitudes, risk factors and prevention strategies of cancer. It focuses on current knowledge related to the etiology of cancer, medical interventions and potential for prevention. Students outside CHS require instructor permission.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CHSC 7520.

CHSC 7580 Public Health Field Placement 0 cr

The aim of the field placement is to highlight the relationship between learning and application of public health principles and practice through the integration of coursework with supervised fieldwork undertaken in local, provincial, or national public health settings. It is specifically designed for MPH students who do not have extensive public health experience, or who seeks a public health experience in a setting different from their primary professional background, and is open to any MPH student seeking further public health practice experience. In addition to meeting educational objectives (to be set in consultation with the MPH Advisory committee and the Field Placement Supervisor at the host agency), students will participate in the day-to-day activities of the host agency. The site of the field placement will be based on the student's career interests and learning needs, and be located in a public health organization or agency, or situated within a public health program or service. Field placements are expected to be anywhere from 12 – 16 weeks full time equivalent (minimum is 12 weeks) and evaluated on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: Students must have the permission of the Director of the Graduate Program to register.

CHSC 7590 Capstone Research Project in Public Health 0 cr

The capstone project in public health is designed as an alternative to CHSC 7580 for eligible MPH students who already have extensive public health practice experience. The aim of the capstone project is for a student to develop some research experience in carrying out a research project, limited in scope, that has applied public health relevance. The capstone research project is expected to be conducted within 12 – 16 weeks full time equivalent (minimum is 12 weeks). For the majority of students, their project will be part of a larger research program led by a Faculty PI who will be a research supervisor for the project. On occasion, students may develop an independent research question to pursue, but this will be done in consultation with faculty, and the project will need to be completed within the allotted timeframe. As part of the project, students will consult the relevant published literature, other sources, develop and carry out a research plan, write a report of their findings, and make a public presentation. Prior to the start of the capstone project, the student will have already developed the research question and a proposal that has been reviewed by the Research Project Supervisor and the MPH Advisory Committee, following which, if appropriate, a submission to the research ethics office will have been initiated. Evaluation is based on a pass/fail basis. Students must have the permission of the Director of the Graduate Program to register.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CHSC 7860.

CHSC 7610 Advanced Topics in Community Health 1 1.5 cr

Special advanced research topics in Community Health Sciences.

CHSC 7620 Advanced Topics in Community Health 2 1.5 cr

Special advanced research topics in Community Health Sciences.

CHSC 7630 Work and Family Interrelationships 3 cr

In this course students will engage in advanced study of the intersection of earning and caring activities of families over the life course and how these activities interrelate at the community, provincial, national, and global levels. The influence of gender and demographic trends will be explored and family, private sector, and public sector responses to the issue will be examined. There will also be an emphasis on relating current research to relevant theoretical perspectives and professional practice. May not be held with the former FMLY 7230.

Mutually Exclusive: FMLY 7230

CHSC 7632 Evaluation of Family, Health and Social Development Programs 3 cr

This course teaches the theory and practice of program evaluation with a focus on health and social development programs. It emphasizes a utilization-focused evaluation approach. It studies program evaluation from a "real world" perspective, including the political and ethical issues related to evaluation. The course provides strong theoretical foundations. Students put this into practice by working with a particular agency/program to fully develop an evaluation plan to be actually used by the agency/program. May not be held with the former FMLY 7500.

Mutually Exclusive: FMLY 7500

CHSC 7634 Research Data Centre Research Methods Part I 1.5 cr

This course will introduce the processes and methods involved in using Statistics Canada's confidential master data files at the Research Data Centre (RDC). Students will gain skills in conducting secondary analyses in order to address important health and social policy research questions. May not be held with the former FMLY 7510.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre or Co-requisite: Graduate level biostatistics course or equivalent.

Mutually Exclusive: FMLY 7510

CHSC 7636 Research Data Centre Research Methods Part II 1.5 cr

A continuation of the introduction to the processes and methods involved in using Statistics Canada's confidential master data files at the Research Data Centre (RDC). Students will gain skills in conducting secondary analyses in order to address important health and social policy research questions. May not be held with the former FMLY 7520.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre-requisite: Successful completion of Part I (CHSC 7634).

Mutually Exclusive: FMLY 7520

CHSC 7638 Children and Violence 3 cr

An examination of children's experiences of violence at the levels of families, communities and societies. Relevant theoretical and measurement issues are addressed, as well as the developmental outcomes of various forms of violence. The incidence and prevalence of violence in children's lives is examined. Models of prevention, intervention and policy are explored. May not be held with the former FMLY 7620.

Mutually Exclusive: FMLY 7620

CHSC 7640 Family Violence 3 cr

Advanced study of current topics in family violence. Topics may include child abuse, sibling abuse, parent abuse, dating violence, intimate partner violence, and elder abuse. Emphasis is on understanding and critiquing current theory and research. May not be held with the former FMLY 7800.

Mutually Exclusive: FMLY 7800

CHSC 7642 Family Conflict and Health and Well-being 3 cr

The origins and manifestation of conflict in family relationship across the life course will be reviewed with an emphasis on its relation to individual, dyadic, and family health and well-being. May not be held with the former FMLY 7810.

Mutually Exclusive: FMLY 7810

CHSC 7644 Social Development in Theory and Practice 3 cr

This advanced seminar examines the concepts and practices of social development within specific contexts. It examines the interplay between theory and practice and the epistemological underpinnings of social development research, programs, and policies as applied to families, communities, and populations. Case studies are assessed and critiqued. May not be held with the former FMLY 7930.

Mutually Exclusive: FMLY 7930

CHSC 7710 Social Aspects of Aging 3 cr

This course is an advanced seminar designed to examine current social issues in aging. The course is organized around selected topics related to aging. Where possible, the Canadian experience will be compared to international trends and diversity will be highlighted. The first section is a review of the field of gerontology, ageism, demographic trends, theoretical perspectives and methods and the second section explores contemporary social issues.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Students outside CHS require instructor permission.

CHSC 7720 Health and Aging 3 cr

This course is an advanced seminar designed to examine health and health care issues in aging. Where possible, the Canadian (or Manitoban) experience will be highlighted. Key topics in the health domain will be covered, such as frailty, mental health and dementia. The provision of care for older adults will also be covered, focusing on both the formal care system, as well as informal care providers.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Students outside CHS require instructor permission.

CHSC 7730 Topics in Health Services Research 3 cr

This course will expose students to select health services research topics that are particularly relevant in Manitoba and Canada. Students are expected to actively engage in seminars led by health services researchers and decision-makers, and also provide informative presentations in their own area of research. Students will also gain knowledge about various communication and knowledge translation strategies. Students outside CHS require instructor permission.

CHSC 7738 Qualitative Research Methods in Community Health Sciences 3 cr

The purpose of this course is to provide students with fundamental knowledge on theoretically informed qualitative inquiry for applied health services and health policy research. The course will include an introduction to social theory and respective qualitative methodologies best suited for population health, health services, social and cultural determinants of health, and health policy research. By the end of the course, students will have an understanding of the principles and practices involved in: integrating theory and qualitative methods; community engagement in qualitative research, including indigenous methodologies and diverse cultural contexts; the design of a theory driven qualitative research study; various ways of generating and analyzing qualitative data; integrated Knowledge Translation; and ethics, among other topics.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Students outside CHS require instructor permission.

CHSC 7740 Advanced Qualitative Research Methods in Community Health Sciences 3 cr

The purpose of this seminar-based course is to provide students with advanced knowledge on transformative qualitative research methodologies, methods and analysis related to redressing health inequities from a strength-based interdisciplinary perspective. Using case study and other applied approaches students will gain knowledge and experience in: the application of critical social theories to health research; understanding processes of community, stakeholder, and partnership engagement from multiple scales and perspectives (e.g. indigenous populations locally and globally); various ways of generating qualitative data and analyzing texts consistent with selected theory; developing different products for knowledge exchange activities; and the ethics and politics inherent within the research process.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CHSC 7738 (formerly FMLY 7710) or instructor permission is required.

CHSC 7810 Biostatistics for the Health and Human Sciences 3 cr

An introduction to statistical ideas and techniques for health sciences and human research. Describing data, patterns in data, the normal distribution. Principles of estimation and principles of hypothesis testing. Principles and practice of the major statistical tests (t tests, analysis of variance, Chi squared tests, correlation and regression). Nonparametric statistical techniques. The use of statistical software to carry out statistical analysis. Analytical decision strategies.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Students outside CHS require instructor permission.

CHSC 7820 Biostatistics for Community Health Sciences 3 cr

The course will cover techniques of research design and analysis for community health researchers. Topics include: principles of experimental design, study size determination, statistical software as an analytical tool, techniques for the analysis of continuous outcomes, analysis of variance for multi-way, factorial and split-unit experiments, and multiple regression and general linear models. Introduction to more advanced statistical methods including logistic regression and survival models. Instructor permission is required.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: 3 credit hour statistics course within five years.

CHSC 7830 Advanced Biostatistics for Community Health Sciences 3 cr

This course focuses on Generalized Linear Models. Upon completion of the course, students will be able to: 1) give examples of different types of data arising in public health studies; 2) understand differences and similarities between standard linear regression and models for discrete outcomes; 3) use modern statistical concepts such as binomial and Poisson in public health studies; 4) understand models for polytomous outcomes; 5) conduct and interpret logistic, conditional logistic (case-control), and prohibit regression inference; 6) conduct and interpret time-related outcome variables including survival analysis and proportional hazard regression; 7) conduct and interpret Poisson outcome variables and Poisson regression. Instructor permission is required.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CHSC 7820 with minimum grade B+.

CHSC 7840 Current Topics in Biostatistics: Design and Analysis 3 cr

This course will introduce students to leading-edge advanced study design and statistical analysis methods for health research. The course will use case studies to explore the study design and analysis topics and their applications.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre-requisite: CHSC 7520; CHSC 7820 with minimum grade of B+; CHSC 7860, or instructor permission is required.

CHSC 7850 Advanced Biostatistical Methods for Hierarchical and Longitudinal Data 3 cr

The course teaches statistical methods for analyzing hierarchical ("multi-level") data. Mixed models are rapidly becoming the principal statistical tools for understanding hierarchical or "multi-level" data, such as the academic achievement of students within school classes within schools and perhaps within communities. The longitudinal application of "mixed models" provides analysis of temporal trajectories, for example, of the health of individuals (potentially nested within families, or communities) over time. Mixed models also can be utilized to analyze relationships, for example between health and income, over time, for individuals or families within communities, etc. The course will focus on the conceptualization, estimation and interpretation of mixed models in SAS. The primary emphasis will be on linear mixed models for continuous outcomes, however, nonlinear mixed models for categorical or count outcomes will also be discussed. Instructor permission is required.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: CHSC 7820 with a minimum grade of B+.

CHSC 7860 Methods and Concepts for Community Health Sciences 3 cr

This course is designed to provide a practical introduction to qualitative, quantitative, and mixed method approaches used in health research. The emphasis in the course will be on developing research questions, selecting appropriate methods, and writing a research proposal. Students outside CHS require instructor permission.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Co-requisites: 1) CHSC 7520 and ONE of the following: CHSC 7820 or CHSC 7810 or CHSC 7738.

CHSC 7870 Health Survey Research Methods 3 cr

Students critically examine the use of health survey methodology within epidemiology. They also learn to apply survey methodology, as a means to gain a strong appreciation of the reflective, theoretical and analytical thinking required to successfully design and implement epidemiological health surveys. Students outside CHS require instructor permission.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CHSC 7520.

CHSC 8600 Senior seminar in Community Health Sciences 3 cr

This course is an advanced seminar designed to examine various aspects of health research and health. The emphasis in the course will be on: interrogating assumptions that underlie what research is conducted and how it is conducted; including a diversity of experiences and perspectives in research; and critically appraising the quality of research. This is an advanced course intended for Ph.D. students.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CHSC 7810 or CHSC 7820, or CHSC 7738, and CHSC 7860; instructor permission is required for students outside the Community Health Sciences Ph.D.

Computer Science (COMP)

COMP 7210 Research Methodologies 3 cr

This course explores the research process in general and the resources for research in computer science. Traditional research approaches and use of emerging technology will be discussed. Attendance at department seminars and classes is required.

COMP 7570 Advanced Topics in Computer Science 1 3 cr

Topics of current research interest in areas of computer science, available on an occasional basis, subject to the interests and availability of faculty.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

COMP 7600 Graduate Workterm I 0 cr

Work assignment in business, industry, or government for students registered in the Computer Science Graduate Cooperative Option. Requires submission of a written report covering the work completed during the four-month professional assignment. Graded Pass/Fail.

COMP 7720 Advanced Topics in Algorithms 3 cr

Topics of current research interest in advanced algorithms. Possible topics include string matching, data compression, computational geometry, probabilistic algorithms; subject to the interests and availability of faculty.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: COMP 3170 or equivalent or written consent of instructor.

COMP 7750 Advanced Topics in Computation Theory 3 cr

Topics of current research interest in computation and complexity theory. Possible topics include decidability and complexity theoretic issues in parallel computation, cryptography, graph theory, or number theory, subject to the interests and availability of faculty.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

COMP 7770 Coding Theory 3 cr

Algebraic background of coding theory. Possible topics include theory of linear codes; Hamming, Golay, Reed-Miller, Macdonald, and Hadamard codes; structure of finite fields; application to cyclic and Bose Chaudhuri codes; and decoding algorithms and error-correcting bounds.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

COMP 7780 Queuing Theory and Performance Evaluation 3 cr

Theory and application of queuing systems applied to problems of computer systems performance. Possible topics include investigation of deterministic and stochastic models of single and multiple queuing systems using analytical, numerical, and simulation techniques; performance evaluation methods for computer systems and communications networks.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: written consent of instructor.

COMP 7800 Graduate Workterm II 0 cr

Work assignment in business, industry, or government for students registered in the Computer Science Graduate Cooperative Option. Requires submission of a written report covering the work completed during the four-month professional assignment. Graded Pass/Fail.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: COMP 7600.

COMP 7810 Computer Networks 3 cr

A selection of current research topics in computer networks, including advanced network architectures, protocols, and systems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

COMP 7850 Advances in Parallel Computing 3 cr

This course introduces advanced research topics in parallel architectures, parallel programming, parallelizing compilers, runtime systems, and parallel I/O.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

COMP 7860 Advanced Topics in Computer Systems 3 cr

Topics of current research interest in database and operating systems. Possible topics include: operating systems, parallel systems, real-time systems, networks, and database systems; subject to the interests and availability of faculty.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

COMP 7890 Advanced Topics in Languages and Software 3 cr

Topics of current research interest in software engineering. Possible topics include requirement analysis, software architecture, software evolution, and software verification and validation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

COMP 7900 Graduate Workterm III 0 cr

Work assignment in business, industry, or government for students registered in the Computer Science Graduate Cooperative Option. Requires submission of a written report covering the work completed during the four-month professional assignment. Graded Pass/ Fail.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: COMP 7800.

COMP 7910 Advanced Graphics 3 cr

Advanced topics in computer graphics. Possible topics include advanced lighting models and radiosity, ray tracing, computational photography, graphics architectures, procedural graphics, model and mesh processing, splines and curves, and advanced rendering techniques.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: written consent of instructor.

COMP 7920 Advanced Topics in Graphics and Human Interfaces 3 cr

Topics of interest in advanced Human-Computer Interaction (HCI). Possible topics include quantitative and qualitative evaluations, crowdsourcing methods and applications, personal informatics, persuasive technologies, technologies for special populations, and information visualization. COMP 4020 is recommended.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

COMP 7922 Computational Geometry 3 cr

The design and analysis of efficient algorithms for geometric problems. Possible topics include convex hull algorithms; Voronoi diagrams and Delaunay triangulations; point location; range searching; geometric data structures; geometric intersection algorithms; guarding and visibility graphs; geometric packing, covering, and partitioning; geometric duality; arrangements of lines and circles; unit disc graphs and proximity graphs.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: written consent of instructor.

COMP 7924 Graph Drawing 3 cr

The design and analysis of efficient algorithms for drawing a given graph in the plane subject to given constraints and optimization criteria. Possible topics include drawing rooted trees, planarity testing, drawing planar graphs, straight-line drawings, point-set embeddings, visibility graphs, and contact graph representations.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

COMP 7926 Computational Finance 3 cr

Application of Computer Science to the field of Computational Finance. Possible topics include an overview of equity, fixed income, derivative markets; stochastic calculus, Black-Scholes model; volatility, risk and value-at-risk; binomial tree, Monte-Carlo, finite-difference, and other numerical methods, complex financial instruments such as swaps, collateral debt obligations; derivatives mishaps.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

COMP 7928 Probabilistic Graphical Models 3 cr

Probabilistic graphical models and their applications in advanced machine learning. Possible topics include directed model (Bayesian networks), undirected models (Markov random fields), inference, and learning in various application domains, e.g., computer vision, natural language processing, bioinformatics, and speech processing.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

COMP 7932 Advanced Intelligent Interactive Systems 3 cr

Topics of interest at the intersection of Human-Computer Interaction (HCI) and applied Artificial Intelligence (AI). Possible topics include recommender systems, information extraction and summarization, intelligent learning environments, usability concerns, evaluation, and reasoning under uncertainty.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: written consent of instructor.

COMP 7934 Topics in Bioinformatics 3 cr

Topics of interest in Bioinformatics. Possible topics include genome assembly, protein structure prediction and sequence feature prediction.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

COMP 7936 Advanced Human-Robot Interaction 3 cr

A survey of fundamentals and current topics in Human-Robot Interaction, including tele-operation, collocated work, and social human-robot interaction. Students will read a range of research publications on Human-Robot Interaction, and develop an original research project relating to interaction with robots.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

COMP 7938 Software Testing and Quality Assurance 3 cr

Fundamental techniques and state-of-the-art research in software quality assurance. The primary focus is on software testing techniques, but other quality assurance approaches are also discussed, such as static analysis, code review, defect prediction, and fault localization.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

COMP 7942 Real-Time Embedded Systems 3 cr

Topics of interest in embedded systems, especially systems for real-time control and sensing. Extensions to distributed embedded systems are also discussed. Possible topics include scheduling, schedulability, servo motors, constraints in embedded systems, advanced real-time scheduling, control theory, distributed systems, and related programming languages.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

COMP 7944 Advanced Data Mining 3 cr

Topics of interest in data mining, include advanced data mining concepts and their applications.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

COMP 7946 Wireless Sensor Networks 3 cr

Topics of interest in wireless sensor networks, including architectures, protocols, and applications. Case studies of previous work and open areas of research will also be discussed.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

COMP 7948 Combinatorial Optimization 3 cr

Classical and current techniques in combinatorial optimization. Topics include linear and integer programming, matching algorithms, graph algorithms, networks and flows, and matroids.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

COMP 7950 Advanced Topics in Artificial Intelligence 3 cr

Topics of current research interest in artificial intelligence chosen from such areas as: expert systems, knowledge representation, intelligent systems, planning systems, multi-agent systems, symbolic logic, knowledge engineering, and automated reasoning; subject to the interests and availability of faculty.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: COMP 3190 or equivalent or written consent of instructor.

COMP 7952 Grid and Cloud Computing 3 cr

Distributed computing systems; commercial grid services; working with real grid networks; applications on grid networks; virtualization and cloud computing; grid and cloud architecture and execution models; MapReduce; resource management (brokering, allocation, scheduling); quality of service guarantee; pricing cloud resources; economic and finance models; case studies.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

COMP 7960 Image Processing 3 cr

A detailed study of methods used in image processing. Major topics include image transformations, image enhancement, feature extraction, image analysis, and filtering.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

Dental Diagnostic and Surgical (DDSS)

DDSS 7010 Biology and Pathology of the Periodontium 6 cr

Selected topics in cell biology precedes a comprehensive and detailed survey of the periodontium, its constituent tissues and its function; the cell dynamics of inflammation and wound healing and the histopathology of the early and advanced periodontal lesion.

DDSS 7030 Advanced Oral Radiology 1 cr

This course is proposed to accommodate the accreditation requirements of the Graduate Periodontal residency program, and to include other graduate level residents, due to the emerging three dimensional imaging being more utilized in the fields of dentistry.

DDSS 7050 Oral Medicine and Oral Diagnosis 3 cr

This course provides the student, through clinical rotations, with the opportunity to enhance diagnostic and non-surgical management of oral pathologic conditions including mucosal and intrabony lesions, temporomandibular joint disorders, and oral manifestations of systemic disease in both otherwise healthy and medically compromised patients.

DDSS 7120 Advanced Clinical Periodontics 4 cr

This seminar course will review contemporary clinical periodontics by considering assigned readings in current texts and review articles. This course is intended to assure that students have a comprehensive overview of conventional periodontal therapy early in their education.

DDSS 7130 Occlusion 3 cr

A seminar series devoted to the diagnosis, treatment planning and management of patients with craniomandibular disorders.

DDSS 7160 Basic Clinical Periodontics 2 cr

This course is given at the onset of the program to provide an opportunity to review the basic aspects of Periodontics. The lab component will review scaling and root planning techniques, instrumentation and oral hygiene aids to familiarize residents with North American amamentarium.

DDSS 7210 Clinical Practice in Periodontics 18 cr

Designed to provide the clinical experience which is essential for specialty practice in Periodontics (circa 1600 hours).

DDSS 7220 Essay/Research Project 0 cr

An essay/research project is required for each student. It is selected in consultation with, and approved by the department head. This course is graded pass/fail.

DDSS 7230 Advanced Oral Pathology 6 cr

Common and/or significant oral and paraoral disorders, relevant to various dental specialties, are discussed using a seminar format. Recognition, description, etiopathogenesis, clinical and/or radiographic features, histopathologic findings, biologic behavior and management of such conditions are emphasized.

DDSS 7240 Advanced Oral and Maxillofacial Surgery Seminar 1 3 cr

This course includes a thorough review of the applied scientific basis for the practice of oral and maxillofacial surgery and emphasizes surgical anatomy and pathology, diagnosis and technique. Instruction will be given by means of lectures, seminars, case presentations and a critical review of current literature. Year I.

DDSS 7250 Clinical Advanced Oral and Maxillofacial Surgery 1 6 cr

The first year of hospital residency includes training in history taking and physical diagnosis; hospital protocols and ward procedure; minor oral surgery procedures and pain control techniques; operating room procedures and general in-patient care. Year I.

DDSS 7260 Advanced Oral and Maxillofacial Surgery Seminar 2 3 cr

Lectures, seminars, case presentations and reviews of current literature will emphasize the state of current knowledge regarding the clinical practice of advanced oral and maxillofacial surgery. Year 2.

DDSS 7270 Clinical Advanced Oral and Maxillofacial Surgery 2 6 cr

The second year of the hospital residency training program includes training in minor oral surgery, including dento-alveolar, pre-prosthetic surgery and implantology. It also provides an introduction to advanced oral and maxillofacial surgery and maxillofacial imaging. A rotation to Internal Medicine is included. Year II.

DDSS 7280 Clinical Advanced Oral and Maxillofacial Surgery 3 6 cr

The third year of the hospital residency training program includes rotations in Anaesthesia, Internal Medicine, General and Plastic Surgery, Surgical Intensive Care and Emergency Room. It also includes training in advanced oral and maxillofacial surgery. An elective rotation may also be arranged. Year III.

DDSS 7290 Clinical Advanced Oral and Maxillofacial Surgery 4 6 cr

The fourth year of the hospital residency training program is devoted to advanced oral and maxillofacial surgery. The student is designated chief resident and assumes a greater degree of responsibility in patient care and administrative activities. Year IV.

DDSS 7300 Dental Implantology 3 cr

A seminar course devoted to providing an in-depth understanding of the basic and applied aspects of the placement of dental root form implants in humans. This course is a prerequisite to the actual surgical placement of implants undertaken in DDSS 7210.

Disability Studies (Grad St.) (DS)

DS 7010 Disability Studies 6 cr

Explores the key concepts and issues in disability studies. Includes a critical examination of models and theories of disability, Canadian and other national laws and international standards, social and economic policy, and professional and service responses.

DS 7020 History of Disability 3 cr

Traces the historical development of responses to disability, by the medical/rehabilitation community, the governments, advocacy organizations and others. Canadian history will be the initial framework and the historical developments in other countries (including the UK, France, the USA, the Caribbean) will be used as a comparison.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or co-requisite: DS 7010.

DS 7030 Evaluation and Application of Research Methods in Disability Studies 3 cr

Provides a critical evaluation of quantitative and qualitative research methodologies used in disability studies. Methods to address disability used in different disciplines as well as transformative and empowerment methodologies such as participatory action and feminist disability research will be examined.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or co-requisite: DS 7010.

DS 7040 Selected Topics in Disability Studies 3 cr

One key theme will be chosen for each year from the interests and availability of faculty. Topics could include women with disabilities, international dimensions of disability, disability policy and practice, disability organizing and other topics developed over time.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or co-requisite: DS 7010.

Economics (ECON)

ECON 6040 Survey of Mathematical Topics for Economists 3 cr

A review of mathematical concepts used in economics, particularly at the graduate level. Topics include linear economic systems and matrix algebra, differentiation and optimisation, integration, economic dynamics and optimisation through time, and difference and differential equations. This course cannot be counted toward the minimum degree requirements for M.A. and Ph.D. degrees. This course is graded pass/fail.

ECON 7000 M.A. Research Workshop 3 cr

An examination of research methodology to assist students in understanding the process of research in Economics. Students will complete a research project under direct supervision. This is a required course for students in the M.A. by course work. This course is graded pass/fail.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of department head.

ECON 7010 Econometrics I 3 cr

An advanced course in estimation and hypothesis testing in various regression models. Topics may include: asymptotic distribution theory; ordinary least squares estimation; maximum likelihood estimation; generalized least squares estimation; generalized method of moment estimation; and seemingly unrelated regressions estimation.

ECON 7020 Econometrics II 3 cr

An advanced applied course in cross-section and panel data econometrics. Topics may include logit, probit, heckman selection, and poisson; instrumental variables, difference-in-differences, regression discontinuity; fixed and random effects; dynamic panel models; quantile regression, nonparametric estimation; bootstrapping.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECON 7010.

ECON 7032 Econometrics III 3 cr

Theory and applications of time-series analysis. Topics may include stationary univariate process; maximum likelihood estimation; Markov-switching models; state-space models; unit root process; vector autoregressive models; spurious regression; cointegration; and vector error correction models. Prerequisite ECON 7010.

ECON 7040 Topics in Applied Microeconomics I 3 cr

Advanced study in a selected topic in applied microeconomics. Topics covered in rotation include, but are not limited to labour economics, health economics, public finance, industrial organization, international trade, environmental economics, evaluation of public policy, production economics and applied game theory.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: A grade of C+ or better in ECON 7722 or former ECON 7720.

ECON 7050 Topics in Applied Microeconomics II 3 cr

Advanced study in a selected topic in applied microeconomics. Topics to be covered in rotation include, but are not limited to labour economics, health economics, public finance, industrial organization, international trade, environmental economics, evaluation of public policy, production economics and applied game theory.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECON 7722 or former ECON 7720.

ECON 7060 Advanced Heterodox Theory 3 cr

This course is a review and examination of heterodox economic theory. Core topics include the theory of capitalist production, effective demand and economic fluctuations, growth and accumulation, crisis theory, and the state and economic policy.

ECON 7130 Advanced Development Economics 3 cr

Introduction to development economics at the graduate level. A core objective is to provide breadth in terms of the coverage of salient topics in economic development and rigor in terms of the level of analysis. The course presumes a substantive background in the basic tools of economic analysis. This is a required course for doctoral students who intend to make development economics one of their field specializations.

ECON 7140 Topics in Development Economics 3 cr

A generic course title intended to accommodate various topics in development economics. The specific topic will be chosen by the instructor.

ECON 7150 Evaluation of Public Policy and Programs 3 cr

This course will provide students with an advanced and critical understanding of the foundations and assumptions of modern program evaluation using cost-benefit, cost-effectiveness, public decision/choice theory and economic analysis. Case examples are drawn from government and non-government programs.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

ECON 7170 Topics in Heterodox Economics I 3 cr

Selected study of advanced work in a selected field of heterodox economics.

ECON 7180 Topics in Heterodox Economics II 3 cr

Selected study of advanced work in a selected field of heterodox economics.

ECON 7202 Industrial Organization 3 cr

The emphasis will be on market structures and strategic interaction among firms. Topics such as oligopoly pricing, price discrimination, strategic entry deterrence, product differentiation, advertisement, research and development, auction design, regulation, and anti-competitive behavior will be covered. Students may not hold credit for both ECON 7202 and the former ECON 7200.

Mutually Exclusive: ECON 7200

ECON 7300 Directed Special Studies in Economics 3 cr

Intensive study of advanced work in a selected field of economics. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

ECON 7430 Advanced Theory of Resource Economics 3 cr

Economic theory of the development and management of natural resources. Application of capital theory, investment theory, the theory of externalities and decision-making theory to resource utilization and management. A strong background in microeconomics is required. Also offered as ABIZ 7430 by the Department of Agribusiness and Agricultural Economics.

Equiv To: ABIZ 7430

ECON 7510 Advanced Monetary Macroeconomics 3 cr

Mainstream and other theories of how money matters to macroeconomics, theory and practice of policy rules for both monetary and other stabilization policy tools.

ECON 7540 Advanced History of Economic Thought 3 cr

Detailed study of a selected topic, or a selection of related topics, in the history of economic thought. Topic(s) vary from year to year, and are normally related to the research interests of the instructor(s) and/or students.

ECON 7610 Approaches, Methodologies and Techniques in Economic History 3 cr

A review of methodologies, approaches, techniques, and contemporary controversies in economic history.

ECON 7630 Theory of International Trade 3 cr

Theories of trade flow; trade and income distribution; economic growth and changes in trade flows; instruments of trade intervention; international labour and capital movements; and economic integration.

ECON 7640 International Money and Finance 3 cr

Analysis of the theory of international money and finance. Assessment of existing international institutions dealing with money and finance. Theory, rationale and evaluation of structural adjustment policies.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECON 7630, or both the former ECON 7500 and ECON 7510, or permission of instructor.

ECON 7650 Advanced Macroeconomic Theory 1 3 cr

A review of contemporary macroeconomic theories and their applications; analysis of static equilibrium and disequilibrium models; exploration of such models' implications for cyclical behaviour and for policymaking.

ECON 7660 Advanced Macroeconomic Theory 2 3 cr

Analysis of cyclical models and of equilibrium growth models, and a review of contemporary theories of stabilization policy.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECON 7650.

ECON 7670 Advanced Macroeconomic Topics 3 cr

Not currently offered.

ECON 7690 Structuralist Theories of Development 3 cr

Study of structuralist classical Marxist and Neo-Marxist theories of development and underdevelopment. Appraisal of the development strategies which follow from the various theories.

ECON 7722 Advanced Microeconomic Theory I 3 cr

This course will cover topics in theories of consumer demand, production and cost, distribution, market equilibrium, market organization, general equilibrium and welfare. Students may not hold credit for both ECON 7722 and the former ECON 7720.

Equiv To: ECON 7720

ECON 7732 Advanced Microeconomic Theory II 3 cr

This course will cover topics in game theory. Static and dynamic games with complete or incomplete information will be studied. Topics such as market failure arising from asymmetric information, firm behavior in oligopolistic markets, auctions, signaling, free riding, externalities, and public goods will be discussed. Students may not hold credit for both ECON 7732 and the former ECON 7730.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECON 7722.

Equiv To: ECON 7730

ECON 7790 Advanced Labour Economics 3 cr

A review of the theoretical and empirical foundations of modern labour economics.

ECON 7940 Production Economics 3 cr

Development of static microeconomic theories of the firm, functional forms, aggregation issues, productivity analysis, risk and uncertainty and in introduction to dynamics. The following are emphasized: a rigorous treatment of the models using duality; a critical understanding of the limitations and possibilities for generalizing the models; and relevance of the models for empirical research, especially in agriculture. Also offered as ABIZ 7940 by the Department of Agribusiness and Agricultural Economics. May not be held with ABIZ 7940 or ABIZ 7130.

Equiv To: ABIZ 7940

ECON 7950 Advanced Agricultural Demand Analysis 3 cr

Critical evaluation of economic theory as applied to agricultural demand. Topics include demand systems; equilibrium; product transformation over time, place and form; and price analysis. Also offered as ABIZ 7950 in the Department of Agribusiness and Agricultural Economics. Students may not hold credit for ECON 7950 and any of: ABIZ 7950 or the former ECON 7900 or the former ABIZ 7100.

Equiv To: ABIZ 7100, ABIZ 7950, ECON 7900

Education Admin, Fndns & Psych (EDUA)

EDUA 7010 Educational Administration as a Field of Study and Practice 3 cr

An overview of educational administration, focusing on a review of some of the main intellectual traditions in the study of educational administration and on an analysis of some of the forces which shape administrative practice. Not to be held with EDUA 7011.

Equiv To: EDUA 7011

EDUA 7020 Politics of Education 3 cr

A review of the political features of educational organizations, with emphasis on value systems, community power structures, local government, and political change. Not to be held with EDUA 7021.

Equiv To: EDUA 7021

EDUA 7030 Educational Finance 3 cr

Study of economic and financial aspects of education, with emphasis on costs and analysis of expenditures; sources and types of revenue; productivity and efficiency, planning and budgeting. Not to be held with EDUA 7031.

Equiv To: EDUA 7031

EDUA 7040 Legal Aspects of Education 3 cr

Studies of legal issues in education. Not to be held with EDUA 7041.

Equiv To: EDUA 7041

EDUA 7050 Theoretical Perspectives on Educational Administration 3 cr

A study of the main currents of organization theory and administrative thought and their implications for the study and administration of educational organizations. Not to be held with EDUA 7051.

Equiv To: EDUA 7051

EDUA 7060 Organizational Planning and Development in Education 3 cr

A review of approaches to planning and development in education. Major emphasis is placed on the systematic development of educational organizations. Not to be held with EDUA 7061.

Equiv To: EDUA 7061

EDUA 7070 The Analysis of Educational Organizations 3 cr

The application of methods of organizational analysis to educational institutions. Not to be held with EDUA 7071.

Equiv To: EDUA 7071

EDUA 7090 Seminar in Administrative Problems in Education 3 cr

Application of theoretical concepts in field situations. Not to be held with EDUA 7091.

Equiv To: EDUA 7091

EDUA 7100 Topics in Educational Administration (Readings) 1 3 cr

A readings course in topics of significance to educational administration.

EDUA 7110 Topics in Educational Administration (Field) 2 3 cr

A projects and field study course in topics of significance to educational administration.

EDUA 7113 Éducation pour un avenir viable 3 cr

Exploration en profondeur de la pédagogie et de l'apprentissage dans le domaine de l'éducation pour un avenir viable. Étude de la théorie et des pratiques reliées à ce domaine. Expérimentation de stratégies innovatrices qui ont pour but d'intégrer l'éducation à l'environnement dans les contextes éducatifs et communautaires.

EDUA 7200 Philosophy of Education 3 cr

A study of the philosophic foundations of education. Emphasis will be given to various schools of philosophic inquiry as they relate to education and to contemporary philosophy of education issues.

EDUA 7210 Educational Sociology 3 cr

An examination of the relationship between education and society, with particular attention to ethnicity, family, and socio-economic status and to the role of the school in the socialization process in the Canadian context. Not to be held with EDUA 7211.

Equiv To: EDUA 7211

EDUA 7230 Social Criticism in Education 3 cr

A critical examination of education, giving special attention to various perspectives which challenge conventional interpretation of education and schooling.

EDUA 7240 Values in Education 3 cr

Examines the place of values in education. It explores the notion of values, its pervasiveness in education, the approaches to values in education, and the trends and issues related to values in education. Not to be held with EDUA 7241.

Equiv To: EDUA 7241

EDUA 7250 Comparative Education 3 cr

An analysis of educational systems and problems in selected environments in terms of social, political, economic, cultural and other contexts.

EDUA 7270 Seminar in Cross-Cultural Education 1 3 cr

A critical analysis of the social theories and research which form the basis of cross-cultural education. Not to be held with EDUA 7271.

Equiv To: EDUA 7271

EDUA 7280 Seminar in Cross-Cultural Education 2 3 cr

A critical analysis of the approaches and research in cross-cultural education. Not to be held with EDUA 7281.

Equiv To: EDUA 7281

EDUA 7300 History of Canadian Education from 1867 3 cr

A study of the historical development of education in Canada from 1867 to the present.

EDUA 7330 Topics in Educational Foundations (Readings) 1 3 cr

A reading and research course in topics of significance to educational foundations.

EDUA 7340 Seminar in Educational Thought 3 cr

Intensive studies of the works of selected educational theorists.

EDUA 7402 Development of Adult Education and Post-Secondary Education 3 cr

A survey structures, theory, philosophies, and curricula of educational systems for adults, as affected by cultural, political, religious, theological and institutional contexts both national and internationally. Not to be held with the former EDUA 7400 or the former EDUA 5400.

Equiv To: EDUA 5400, EDUA 7400

EDUA 7404 Lifelong Learning in Educational Settings 3 cr

Explores recent issues, research, and theories about learning across the lifespan, with emphasis on adulthood, as learning is affected by cultural, political, and interpersonal contexts.

EDUA 7406 Topics in Adult and Post-Secondary Education 3 cr

This course provides an opportunity for students to investigate methodologically, in depth, significant trends and topics from both the scholarly literature of adult and post-secondary education and internet resources.

EDUA 7408 Seminar in Adult and Post-Secondary Education 3 cr

This course entails an examination of topical issues in adult education and post-secondary education with particular focus on scholarly developments in Canada and Manitoba, based on student interests and thesis or comprehensive examination foci, with learning process instructor facilitated.

EDUA 7412 Governance of Post-Secondary Education 3 cr

This course examines the history of the governance of post-secondary institutions, the roles of stakeholders in governance, and factors influencing governance in post-secondary institutions today.

EDUA 7414 Seminar in the Administration of Post-Secondary Education 3 cr

This course has as its focus the application of theoretical concepts of field situations. It will explore administrative skills and their application to selected issues of post-secondary education.

EDUA 7420 Program Planning in Adult Education 3 cr

Introduction to factors affecting the planning of programs for adults. Examination of various planning models in relation to principles of adult education. A consideration of theory with major emphasis on directions for planning a program for adults. Local examples will be used.

EDUA 7510 Seminar in Current Issues in Counselling 3 cr

Focus on research, theoretical and professional developments; critical contemporary issues; and specific social problems in counselling. Not to be held with EDUA 7511.

Equiv To: EDUA 7511

EDUA 7520 Practicum Seminar in Counselling 6 cr

Supervised experience in individual and/or group counselling. Attention is given to analysis of case studies using audio- and video-tapes. A minimum of 180 hours of counselling experience in placement situations is required. This course is evaluated on a pass/fail basis. May not be held with EDUA 7521.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: EDUA 5480 (or EDUA 5481) and grade of C+ or better in EDUA 5520 and EDUA 7550 (or EDUA 7551), and permission of the instructor.

Equiv To: EDUA 7521

EDUA 7530 Group Counselling: Theory and Practice 6 cr

Study of theories, rationale, objectives, and research. Acquisition of an experiential understanding of group work through participation in class activities. Development of leadership skills in group counselling by conducting counselling groups under supervision. Not to be held with EDUA 7531.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EDUA 5540 or EDUA 5541 (C+) and EDUA 5480 or EDUA 5481 (P).

Equiv To: EDUA 7531

EDUA 7540 Programs in Career Development 3 cr

A practical course designed for helpers wishing a wider knowledge of career development programs. Participants will investigate and evaluate a wide variety of career counselling techniques and programs and will develop specific, innovative programs to meet the needs of their future counsellors. Not to be held with EDUA 7541.

Equiv To: EDUA 7541

EDUA 7550 Theories of Counselling 3 cr

The objectives of counselling, assessment of counselling outcomes, theories of personality and counselling. Not to be held with EDUA 7551.

Equiv To: EDUA 7551

EDUA 7560 Cross-Cultural and Diversity Counselling 3 cr

A study of the influences of multiculturalism and diversity on counselling as a professional activity, addressing counsellor self-awareness, identity, beliefs and skills. Not to be held with EDUA 7740 titled Cross-Cultural Counselling or EDUA 7561.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: EDUA 5500 and EDUA 5480.

Equiv To: EDUA 7561, EDUA 7740

EDUA 7602 Seminar in Inclusive Education 6 cr

A forum for the discussion of topics related to inclusive educational issues. The overall goal of the course is to challenge students thinking about inclusive education, reflect on their own practices in light of the topics covered in class, and to encourage growth in their inclusive pedagogic practices. Opportunities will be provided for students to examine issues related to their particular professional and scholarly needs. May not be held with the former EDUA 7600 or EDUA 7601.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or corequisite: 18 credit hours in Inclusive Education at the 5000 level or equivalent (C+).

Mutually Exclusive: EDUA 7600, EDUA 7601

EDUA 7610 Behavioural Issues in Educational Settings 3 cr

This course is designed to give teachers and school counsellors the necessary theoretical background as well as the practical tools to implement programs for children in conflict. May not be held with EDUA 7611.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or co-requisite: EDUA 5602 (or the former EDUA 5600) or EDUA 5601 or EDUA 5680 or EDUA 5681 (C+).

Equiv To: EDUA 7611

EDUA 7630 Advanced Assessment and Instruction in Inclusive Education 3 cr

This advanced-level course addresses diagnostic/prescriptive techniques used to ameliorate learning and behavioural problems in inclusive education. Emphasis is on the development and analysis of related instructional delivery systems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or co-requisite: EDUA 5632 (or the former EDUA 5630) or EDUA 5631 (C+).

EDUA 7652 Field Experience in Inclusive Education 6 cr

A minimum of 200 hours of supervised placement in an inclusive education setting. Scheduled seminars facilitate directed study and discussion. This course is evaluated on a pass/fail basis. May not be held with the former EDUA 7650 or EDUA 7651.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: 18 credit hours at the 5000 level in Inclusive Education or its equivalent (C+).

Mutually Exclusive: EDUA 7600, EDUA 7601

EDUA 7710 Development in Learning Environments 3 cr

Explores recent advances in developmental psychology as they apply to learning in classrooms and other education-related settings. Emphasis will be given to cognitive change, but motivation and social skill development will also be considered as they relate to cognitive development. Not to be held with EDUA 7710.

EDUA 7712 Working with Family, School and Community Systems 3 cr

Examining the effective development and implementation of support teams in school settings to establish collaborative and respectful partnerships between families, schools, and specialists. Not to be held with EDUA 7740 titled Working with Family, School, & Community Systems.

Equiv To: EDUA 7740

EDUA 7720 Psychology of Classroom Learning 3 cr

Explores recent advances in cognitive research as they apply to classroom learning and to other education-related settings. Emphasis will be given to information processing theory, situated cognition, and the development of expertise, as they relate to educational processes, especially in classrooms. Not to be held with EDUA 7721.

Equiv To: EDUA 7721

EDUA 7740 Topics in Educational Psychology 1 3 cr

A reading and research course in topics of significance to educational psychology.

EDUA 7743 La pédagogie universelle 3 cr

Nature et fondements de la pédagogie universelle. Thématiques de la gestion de la diversité en éducation et inclusion scolaire. Approfondissement du concept de la pédagogie universelle: fondements, principes de flexibilité, lignes directrices, modèles de planification de l'enseignement et modalités d'évaluation.

EDUA 7750 Topics in Educational Psychology 2 3 cr

A reading and research course in topics of significance to educational psychology.

EDUA 7751 Sujets particuliers en psychologie de l'éducation 2 3 cr

Lecture et recherche sur des sujets d'importance en psychologie de l'éducation.

EDUA 7760 Interview Techniques with Children and Adolescents 3 cr

Focuses on the principles/processes of interviewing and counselling children, adolescents, parents, and school personnel by integrating theory and practice. Pre or co-requisites can be one of the following: EDUA 7550, PSYC 7030, PSYC 7070, PSYC 7022, PSYC 7080, SWRK 6050, SWRK 7290, SWRK 7310.

Equiv To: EDUA 7761

EDUA 7800 Methods of Educational Research 3 cr

A study of design and data collection techniques for educational research in field settings. Topics covered include quasi-experimentation, survey and observational techniques, simulation, content analysis, and sociometry. Not to be held with EDUA 7801.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EDUA 5800 or EDUA 5801 (C+) or consent of instructor.

Equiv To: EDUA 7801

EDUA 7810 Evaluating Educational Programs 3 cr

An introduction to current approaches to evaluating educational programs. A review of various evaluation methods/approaches, along with consideration of specific design, ethical, consulting and political issues will be the main focus of this course. Specific skills to be developed are the implementation of educational evaluations, data collection and analysis, and final report writing.

EDUA 7840 Qualitative Research Methods in Education 3 cr

An introduction to qualitative research methods. While the theoretical underpinnings of qualitative research will be discussed, emphasis is placed on learning to conduct a study including design, collecting and analyzing data, and research ethics. May not be held with EDUA 7841.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EDUA 5800 or EDUA 5801 or equivalent (C+).

Equiv To: EDUA 7841

EDUA 7850 Design and Analysis of Educational Research (Quantitative) 3 cr

A study of the use of quantitative methods of analyzing educational research data. Descriptive and inferential procedures commonly used in educational research will be discussed and students will learn to use statistical packages. The course will also address when it is appropriate to employ quantitative designs and present common designs and their associated analyses.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EDUA 5800 or 5801 (C+).

EDUA 7860 Advanced Topics in Educational Research 3 cr

An advanced study of special topics in educational research with an in-depth study of specific topics which will change from year to year.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EDUA 5800 or EDUA 5801 (C+).

EDUA 7870 Measurement and Evaluation in Schools 3 cr

An advanced study of the principles of measurement and evaluation and their application to teaching and learning in schools. Current issues in measurement and evaluation, including alternative forms of classroom assessment and standard setting, will be discussed.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EDUA 5810 or EDUA 5811 (C+) or equivalent, or consent of instructor.

Education Curric, Tchg, & Lrng (EDUB)

EDUB 7010 Seminar in Art Education 1 3 cr

An examination of the major historical, philosophical, psychological and socio-cultural foundations of art education. The study of major developments in each of these areas will form a basis for understanding current theory and practice.

EDUB 7020 Seminar in Art Education 2 3 cr

The study of the methodology, content and problems of art education research, curriculum development and practice. Students will explore research methodology and curriculum design through individualized projects related to classroom practice.

EDUB 7030 The Arts in Education 3 cr

An examination of the role of the arts in general education. Emphasis will be placed on knowledge of the role of perception, aesthetic valuing and cognition in arts education, and application of this understanding and knowledge to educational practice.

EDUB 7040 Seminar in Educational Drama 3 cr

A critical examination of the literature and current research in educational drama. Consideration will be given to the philosophy, theory, and practice of drama in the classroom, and the evaluation of programs.

EDUB 7050 Seminar in Educational Theatre 3 cr

A critical examination of the literature and current research in educational theatre. Consideration will be given to the philosophy, theory, and practice of theatre in the school setting, and to the evaluation of programs.

EDUB 7060 Seminar and Practicum in Clinical Diagnosis and Remediation 6 cr

A thorough study of the etiology, diagnosis, and treatment of complex reading disabilities; practical experience under supervision in diagnosing reading problems and in prescribing, treating, interpreting, and reporting findings.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EDUB 5400 (C+).

EDUB 7070 Classical Research in Reading 3 cr

A critical review, analysis, and synthesis of classical research studies in the psychology, psycholinguistics, sociology, and pedagogy of reading. Students may not hold credit for EDUB 7071.

Equiv To: EDUB 7071

EDUB 7090 Seminar in Reading Processes 3 cr

A critical examination of theories and models of reading; a thorough study of the reading processes in relation to language, vision, hearing, neurological development, cognition and motivation.

EDUB 7100 Language and Literacy Curriculum Inquiry in the Early Years 3 cr

A study of language and literacy curriculum in the early years of schooling. Participants will identify and examine issues and problems arising out of theory, research, and curriculum practices in early years classrooms. Participants will have the opportunity to develop and pursue a curriculum project in accordance with their professional research interests.

EDUB 7110 Research in Language and Literacy Development 3 cr

An exploration of language and literacy development issues of professional interest to teachers. Participants will critically analyze language/literacy development theories, published research, and classroom observations. Opportunities will be created for participants to conduct their own language/literacy development inquiry in an educational setting. May not be held with EDUB 7111.

Equiv To: EDUB 7111

EDUB 7120 Curricular Issues in English Language Arts Education 3 cr

This course will address a number of problematic issues in the development and implementation of school-based instruction in English language arts through critically considering the relationship of current theory, research and pedagogy.

EDUB 7130 Becoming Writers: Power, Place and Pedagogy in Teaching Writing 6 cr

This course invites participants to engage in becoming stronger writers and more effective teachers, advocates, and researchers of writing. The course is designed with the premise that to become better teachers of writing (at any level), teachers must become writers themselves. This is an intensive and experiential course that affords opportunities to write; participate in writing groups; delve into professional literature in writing craft, research, theory and pedagogy; interact with guest speakers; explore thematic and social justice inquiries in writing, and design and lead a teaching demonstration. The course is open to all, regardless of prior writing experience. May not be held with EDUA 7142 or EDUB 7340 when titled "Writing Workshop: Writing for/as Human Rights" or EDUB 7350 when titled "Curriculum Development: Writing for/as Human Rights".

Mutually Exclusive: EDUB 7340, EDUB 7350

EDUB 7142 Topics in Curriculum, Teaching, and Learning 3 cr

An advanced study of practices, ideas, and theories in curriculum, teaching and/or learning. The specific topics will vary to reflect changing priorities, trends, and interests in the field of curriculum studies. Students can earn multiple credits for this course only when the topic subtitle is different.

EDUB 7150 Seminar in Reading and Response to Literature 3 cr

This course is designed to familiarize students with the historical and philosophical trends in reading and response to literature; it will survey major developmental reading and literary response trends, examine the epistemological assumptions associated with those developments and explore the developing thought in how students process written texts, in particular, literary texts. The course will also examine curricular implications in reading and literary response.

EDUB 7160 Language Teacher as Researcher 3 cr

The purpose of this course is to investigate the characteristic parameters of teachers as researchers in the context of their own classroom. Three fundamental principles provide a curricular perspective to guide the participants: voice, conversation, and community. With this perspective, the language teacher engages in classroom inquiry with the goal of understanding language and teaching through the learners as curricular informants. May not be held with EDUB 7161.

Equiv To: EDUB 7161

EDUB 7180 Research in Written Composition 3 cr

A critical analysis of research and research methods in written composition process and pedagogy. Consideration will be given to classic studies, historical development, current trends and research, and evaluation procedures as they apply to the study and teaching of writing. May not be held with EDUB 7181.

Equiv To: EDUB 7181

EDUB 7190 Research in Language for Learning 3 cr

A critical study of the research literature in how language can support learning in all areas of schooling. The course will focus on the role of language in supporting learning in all subject areas and will specifically investigate the research about the role of talking, reading, and writing as tools for learning. May not be held with EDUB 7191.

Equiv To: EDUB 7191

EDUB 7210 Seminar in E.S.L. Theory and Practice 3 cr

Opportunity will be given to examine critically the major theories and methodologies used in E.S.L. instruction and research.

EDUB 7212 Critical Applied Linguistics in a Global Context 3 cr

We will examine the role of English comparatively and internationally in a variety of educational systems and regimes, relating the micro-relations of applied linguistics to the macro relations of society, exploring the roles of critical theory in language teaching and learning, and developing self-reflexivity as scholars in second language education.

EDUB 7220 Research Issues and Application in TESL (Teaching English as a Second Language) 3 cr

This course focuses on a survey of ESL and language development research issues, procedures, and findings. This research review will serve as the basis for students to plan individual research and conduct a pilot study.

EDUB 7250 Theoretical Foundations of the Social Studies 3 cr

An examination of the development of social studies education, including the theories, research, ideas and ideologies that have and continue to shape social studies curriculum and pedagogy.

EDUB 7260 Seminar in Social Science Education 3 cr

An examination of current trends and developments in social science education as they affect the school curriculum at all grade levels, K-12. Particular attention will be paid to questions of curriculum contents, teaching strategies and student evaluation.

EDUB 7270 Culture, Citizenship and Curriculum 3 cr

An examination of the role of school curricula in preserving, transmitting and transforming conceptions and practices of culture and citizenship, with particular reference to social and political education in schools.

EDUB 7280 Early Years Curriculum: Philosophical Traditions and Future Directions 3 cr

An exploration and evaluation of models, issues, and priorities in Early Years curriculum (K-4). Participants will design curriculum which realizes and particularizes the theories, models, concepts and engagements being examined in the course. May not be held with EDUB 7281.

Equiv To: EDUB 7281

EDUB 7290 Curriculum Research in Early Years: Young Children and Social Semiotics 3 cr

An investigation of the social nature of learning and children's use of semiotic systems (language, art, music, dance, drama, and mathematics) as ways of knowing in the Early Years (K-4) classroom. Participants will conceive, organize, and conduct a research project that allows them to develop an understanding of children's use of one or more semiotic systems within a curriculum context.

EDUB 7330 Inquiry in Curriculum and Instruction 3 cr

An examination of the issues involved in critiquing and synthesizing inquiry in curriculum and instruction studies in the humanities and social sciences. The course will also introduce students to the variety of ways in which inquiry may be conducted in instructional settings and will focus on how the research on curriculum and instruction can be validly synthesized across studies.

EDUB 7350 Independent Studies in Curriculum: Humanities and Social Sciences 3 cr

Independent study of selected issues related to curriculum and instruction in the humanities and social sciences. This course may be used for field studies.

Mutually Exclusive: EDUB 7130

EDUB 7390 Curriculum in Vocational Education 3 cr

A review of the major curriculum changes in vocational education with reference to the public school, the community college and post-compulsory institutions. Emphasis will be on models, supportive research and curricular design strategies.

EDUB 7416 Teaching and Learning in Post-Secondary Education 3 cr

An in-depth study of teaching and learning in post-secondary education contexts grounded in current theoretical, research and pedagogical literatures.

EDUB 7420 Study of Teaching 3 cr

Views of teaching, paradigms, and methodologies for studying teaching and carrying out inquiries into teaching. May not be held with EDUB 7421.

Equiv To: EDUB 7421

EDUB 7430 Trends in Vocational Education 3 cr

An examination of the historical trends in vocational education as influenced by a changing society. Special emphasis will be placed on the contributions of individuals on the impact of federal and provincial legislation as it affects vocational education.

EDUB 7440 Seminar in Home Economics Education 3 cr

An application of current research to the design, implementation and evaluation of programs in home economics education.

EDUB 7450 Seminar in Educational Technology 3 cr

A review of current research in educational technology and a critical appraisal of recent technology in instructional development.

EDUB 7460 Information Technology and Education 3 cr

A theoretic study of information media and environments, their educational and societal impact, and their educational application.

EDUB 7470 Seminar in Mathematics Education 3 cr

An analysis of methods and materials in mathematics education, a review of research, and a critical appraisal of current curriculum development.

EDUB 7480 Advanced Seminar in Mathematical Diagnosis and Remedy 3 cr

A close examination of the theory and practice of mathematical diagnosis and remedy across the school curriculum.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor.

EDUB 7490 Theories of Teaching Mathematics (Secondary) 3 cr

An examination of the objectives of secondary school mathematics, mathematics curriculum organization and development, theories of learning and teaching secondary school mathematics, and mathematics assessment programs.

EDUB 7500 Seminar in Science Education 3 cr

A review of current research in science education, and a critical appraisal of current curriculum, pedagogy, and learning developments in science education.

EDUB 7510 Educational Problems and Advanced Methods in Health and/or Physical Education 3 cr

An examination of the relationship of research to educational practice in the teaching of health and/or physical education.

EDUB 7520 Contemporary Curricula in Health and/or Physical Education 3 cr

An examination of principles and content of health and/or physical education curricula and programs. Logistical and social-political factors associated with implementation will be examined.

EDUB 7530 Curriculum Development and Implementation in Language and Literacy 3 cr

A study of historical antecedents - issues, theory and research - in relation to both the reading and writing curriculum contrasted with current structuralist, poststructuralist and deconstructivist views of knowledge construction with emphasis on discourse synthesis, individual cognitive processes and social influences on literacy learning. Not to be held with EDUB 7531.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: A minimum of 3 credit hours of reading courses (C+).

Equiv To: EDUB 7531

EDUB 7540 Final Seminar in Curriculum, Teaching and Learning 3 cr

Seminar and workshop on processes and products in writing and defending an M.Ed. final inquiry paper. Both qualitative and quantitative research models will be acknowledged. Not to be held with EDUB 7541.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Minimum 24 credit hours completed in a comprehensive M.Ed. Program (C+).

Equiv To: EDUB 7541

EDUB 7550 Historical and Contemporary Approaches to Curriculum 3 cr

Historical Developments of curriculum as a field of study and inquiry, including the philosophical, social, political, and cultural contexts of curriculum.

EDUB 7560 Theory and Practice of Curriculum Design and Development 3 cr

An examination of the theory and practice of the design, development, implementation and evaluation of curricula for K-12 and adult/post-secondary levels.

EDUB 7570 Contemporary Perspectives and Practices in Music Education 3 cr

A study of current and emerging perspectives and practices in music education with emphasis on recent theory and research as it relates to music teaching and learning at all levels.

EDUB 7580 Social, Cultural, and Political Theories in Second Language Acquisition 3 cr

Examination of historical and contemporary theories, research, and issues regarding social, cultural, and political approaches to the study of additional language learning and teaching.

EDUB 7590 Internationalization of Technical and Vocational Education and Training 3 cr

An exploration and critical evaluation of basic assumptions underlying the theories and values of globalization and the internationalization of technical and vocational education and training (TVET). Emphasis will be placed on the examination of how these theories and values influence institutions, programs, policies and practices in TVET.

EDUB 7600 Action Research in Education 3 cr

The study of the theory and practice of action and participatory action research in education including models, principles and practices, criteria for assessing quality, ethics, and modes of representation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EDUA 5800 or EDUA 5801 (C+).

EDUB 7990 Seminar in Environmental Education 3 cr

Designed for students wishing to concentrate on science teaching and learning within the context of environmental education. Existing and projected programs and approaches to environmental education will be subjected to critical analysis.

Education Ph.D. Courses (EDUC)

EDUC 7030 Doctoral Tutorial in Education 3 cr

A course of directed independent study relevant to a student's area of doctoral specialization.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GRAD 8010 Candidacy Examination (P).

EDUC 7040 Current Issues in Mathematics Education 6 cr

An investigation of topics of current theoretical and practical significance in mathematics education. Students will be required to complete a series of explorations, typically involving observation or experimentation in the field, which will be the focus of discussion.

EDUC 7050 Doctoral Study in Education 3 cr

Directed study of contemporary research and theory in selected areas within the field of education. The content of this course will vary from year to year and will depend upon students' research interests.

EDUC 7060 Advanced Seminar in Educational Administration 1 3 cr

A study of alternative conceptions of educational administration, from its origins as a field to the present. Attention will be given both to historical and contemporary theories of administration. Limited to Ph.D. students and compulsory for Ph.D. students with a focus in educational administration.

EDUC 7070 Advanced Seminar in Educational Administration 2 3 cr

A consideration of some of the central problems of contemporary social theory and their relationship to the study and practice of educational administration. The course is limited to Ph.D. students and is compulsory for Ph.D. students with a focus in educational administration.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or co-requisite: EDUC 7060 (C+).

EDUC 7080 Language and Rhetoric Education 3 cr

Current theories of language with a particular emphasis on concepts of education as discourse and instruction as a rhetorical activity.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: admission into the Ph.D. program in Language and Literacy Education.

EDUC 7090 Language Arts Curriculum 3 cr

How current research, scholarship and theorizing in the areas of language, literature and curriculum studies can assist in developing fresh approaches to reconceiving the nature and purpose of the language arts curriculum as a linguistic, political and cultural enterprise.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: admission into the Ph.D. program in Language and Literacy Education.

EDUC 7100 Reading Education 3 cr

Current trends, curricular issues and new concerns in reading education including the continuing tension between traditional and progressive ideologies. Identifies, from an historical perspective, what has changed, what has not and why; reflects on what is known and what to study; and sets a research agenda for the study of literacy.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: admission into the Ph.D. program in Language and Literacy Education.

EDUC 7110 Doctoral Seminar in Science Education 3 cr

An exploration of current research, scholarship and thinking in science education as exemplified by key themes and current issues related to science and science education.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: admission into the Ph.D. program in Science Education.

EDUC 7120 Current Issues in Science Education 3 cr

An examination of current issues in science education by way of selected topics tailored to individual students' programs and interests.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: admission into the Ph.D. program in Science Education.

EDUC 7130 Language and Identity in Second Language Contexts 3 cr

An exploration of linguistic and cultural issues arising from the internationalization of English as a second language (ESL) teaching and learning, including current research of linguistic imperialism, linguistic human rights, cultural hybridization, sexual politics, and the feminization of speech.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EDUB 7210 (C+) or permission of instructor.

Electr. and Computer Engin. (ECE)

ECE 7010 High Voltage Techniques and Insulation Design Criteria 3 cr

Laboratory generation and measurement techniques related to ac and dc high voltages, conventional and steep front high voltage pulses, composite voltages and pulsed currents. Charge measurements. Test techniques for assessing insulation quality and life.

ECE 7020 Power Transmission Lines: Phenomenon and Insulation Design 3 cr

High voltage dc, ac and hybrid transmission line corona modes, electrostatic and ionized field calculations, field effects of overhead transmission lines. Surge propagation including corona effect. Transmission line insulation design to withstand normal/abnormal voltages and conditions. Modern and conventional arrestors. Principles and practice of insulation coordination.

ECE 7030 Advanced Electrical Machines 3 cr

Magnetically-coupled circuits, energy conversion principles, field generation in ac machines, windings and inductances, reference frame theory, dc machine and dc drives, scalar control of induction machines, vector control of induction machines, drives for special machines.

ECE 7040 Signal and Data Compression 3 cr

The course presents the theory of signal and data compression with their applications in engineering, including lossless compression (Shannon-Fano, Huffman, arithmetic and dictionary) and lossy compression, including scalar and vector quantization. References to sub-band and transform coding (wavelets and fractal) and analysis-synthesis coding will be made.

ECE 7050 Switching and Automata Theory 3 cr

The course presents basic material in discrete mathematics and the theory of switching circuits. It provides electrical and computer engineering students with a firm basis in the modern theory of logic design, and illustrates some applications through formal characterization of combinational functions and sequential machines, using contemporary techniques for the automatic synthesis and diagnosis of digital systems.

ECE 7060 Power system Protection 3 cr

Philosophy of power system protection; Typical protection schemes; Instrument transformers; Protection hardware and application; Protection relay testing techniques; Software models of relays and their use in simulation studies.

ECE 7070 Power System Analysis 3 cr

Power system operation; load flow analysis; transient stability modeling and simulation using the classical model; detailed machine models for transient stability analysis, modeling of exciters, governors, and FACTS devices for transient stability analysis; methods of transient stability analysis; voltage stability concepts and assessment.

ECE 7072 Advanced Power Electronics 30 cr

AC/DC and DC/DC converters, switching functions, voltage source converters, advanced PWM techniques, analytical modeling and simulation, control system design, applications of power electronics in motor drives and power systems, additional topics of current interest.

ECE 7076 Advanced Electric Machines and Drives 3 cr

Magnetically-coupled circuits, energy conversion principles, field generation in ac machines, windings and inductances, reference frame theory, dc machine and dc drives, scalar control of induction machines, vector control of induction machines, drives for special machines.

ECE 7170 Queuing Systems for Telecommunications 3 cr

Applied stochastic models for queuing systems; analysis of queuing models using matrix-analytic methods and also traditional transform based approaches. Course will focus on applications; how to develop models that represent real communication network problems and how to analyze them.

ECE 7180 Embedded Systems Engineering 3 cr

A Structured approach to the design of modern digital systems is presented with specific emphasis on embedding computer applications. Topics will include the formal methodology of digital design together with selected topics from the current research literature

ECE 7190 Micromachining and MEMS Technology 3 cr

The course focuses on micromachining and micro-electro-mechanical systems (MEMS). Topics include microfabrication technologies, microactuators, and microsensors. Applications to optical, electrical, mechanical, chemical, and biological systems are discussed.

ECE 7200 Advanced Wireless Communication 3 cr

The course covers several advanced issues in wireless communication networks. Topics of study will include trends and future of mobile computing, advanced wireless technologies, multimedia wireless LANs, wireless ad hoc networks, energy mgmt, channel coding, privacy issues in wireless networking.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Either ECE 4250 or ECE 4700.

ECE 7202 Cognitive Wireless Networks 3 cr

The course will address both the theoretical concepts and system-level implementation issues for cognitive wireless networks. The topics covered will include information-theoretic analysis of cognitive radio systems, challenges and issues in designing cognitive radio systems, architectures and protocols for cognitive wireless networks, distributed adaptation and optimization methods, channel allocation cognitive machine learning techniques, interoperability issues, cross-layer optimization of cognitive radio systems, and applications of cognitive radio networks.

ECE 7204 Queueing Systems for Telecommunications 3 cr

Applied stochastic models for queueing systems; analysis of queueing models using matrix-analytic methods and also traditional transform-based approaches. Course will focus on applications; how to develop models that represent real communication network problems and how to analyze them.

ECE 7210 Fractal and Chaos Engineering 3 cr

This course presents the general theory of fractals and their applications in engineering, including fractal modelling of complex phenomena, such as dielectric discharges, and fractal image compression. It also relates fractals to chaos and dynamics.

ECE 7220 Topics in VLSI Test and Fault Tolerance 3 cr

Faults and fault models for VLSI. Test generation algorithms. Design for testability: scan design for sequential circuits; built-in test; testable PLA design. Totally self-checking logic. Fault tolerance in VLSI: yield and performance enhancement through redundancy. System level diagnosis: applications to VLSI processor arrays.

ECE 7230 Artificial Neural Circuits and Networks 3 cr

Examination of electronic neural networks and related computational systems, both from a circuit theory and from a system-theory perspective. Digital and analog VLSI implementations of neural systems are presented and compared. Connections with other systems from physics, biology and computer science are made.

ECE 7240 Signal Theory 3 cr

Representation and analysis of deterministic signals: Continuous and Discrete; Random processes and spectral analysis; Bandlimited signals and systems.

ECE 7250 Information Theory and Applications 3 cr

Development of information theory and the engineering implications for the design of communication systems and other information handling systems.

ECE 7260 Broadband Communication Networks 3 cr

This course provides fundamentals for designing and analyzing broadband communication networks. The major content includes: structure and organization of broadband communication networks, typical protocols and technologies applied in broadband communication networks mathematical network modeling, and performance analysis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Undergraduate level Probability Theory & Random Processes.

ECE 7270 Scattering and Diffraction of Electromagnetic Waves 6 cr

Formulation and analysis of scattering problems by classical methods. Radar cross section of smooth bodies by geometrical and physical optics. Diffraction by edges. Impedance and Leontovitch boundary conditions.

ECE 7280 Static Compensation in Power Systems 3 cr

Requirements for Static Compensation in Power Systems. The thyristor controlled reactor (TCR) and thyristor switched capacitor (TSC). Advanced GTO thyristor compensators. Operation and control of compensators. Load Compensation, filter design and specifications.

ECE 7310 Power System Transient Simulation 3 cr

Methods of Network Equation Formulation; Modeling of network nonlinearities and transmission lines; Modeling of electrical machines and controls.

ECE 7320 Sampled-Data Control Systems 3 cr

Analysis and design of discrete-time systems, compensation to improve stability and performance, introduction to digital logic control.

ECE 7330 Experimental Methods for Electronic Materials 3 cr

Methods for growing and analyzing electronic materials. Growth will include chemical vapour deposition, diffusion, and plasma processing. Analysis will include capacitance, voltage and current voltage techniques.

ECE 7370 Memory Devices and Systems 3 cr

Review of computing system architectures. Memory structures and implementations: static, dynamic, synchronous, asynchronous, single and multiport. Testability of memories. Smart memories. Memories for VLSI: configurable and reconfigurable. Case study of a CMOS self-synchronizing RAM.

ECE 7400 Neural Nets and Neurocomputing 3 cr

Foundations of neural networks. Basic architecture and different structures. Associative networks. Mapping networks. Spatio-temporal networks. Learning and adaptability. Supervised and unsupervised learning. Stability. Adaptive resonance networks. Self-organization. Examples of existing systems. Applications.

ECE 7410 Phased Array Antennas 3 cr

Linear and Planar Arrays Theory; Pattern Synthesis Techniques, Analysis and Design of Radiating elements, Phase Shifters and Beam-Forming Network; Scanning Techniques; Effect of phase, amplitude and mechanical errors on Array Performance.

ECE 7430 Experimental Methods of Microwave Engineering 3 cr

Methods for determining: scattering parameters; insertion, mismatch and return loss; cavity parameters. Detector and mixer performance characteristics. Power measurement. System noise determination. Antenna radiation pattern and gain measurements.

ECE 7440 Current Research Issues in Electrical Engineering 3 cr

Presentation of important research developments in the area of Electrical Engineering, selected to complement other established graduate courses. Approval of the head of the department is required to register for this course.

ECE 7450 High Frequency Integrated Circuit Design and Analysis 3 cr

Monolithic microwave integrated circuit fabrication and circuit design techniques. Analysis and modeling of microwave passive components and GaAs active devices. High frequency circuit simulation techniques. Basic circuit examples.

ECE 7460 Real time Process Engineering 3 cr

Identification, description, and analysis of the behaviour of systems of real-time communicating processes, and the application of real-time process algebras in the design of hardware and software systems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: COMP 3430.

ECE 7540 Selected Topics of Solid State Electronics 3 cr

Homojunction and heterojunction phenomena; Gunn effect, organic semiconductors, properties of thin films, quantum electronic devices, space charge limited current devices, and newly developed solid state electronic devices.

ECE 7560 Principles of Signal Compression and Coding 3 cr

This course covers the fundamental principles underlying lossy coding of information signals for communication and storage: scalar and vector quantization; introduction to rate-distortion theory and high-rate theory; entropy-coded quantization; principles of predictive coding; transform coding and bit-allocation; trellis coding; channel-optimized quantization; applications.

ECE 7590 Telecommunication Networking 3 cr

This course will cover issues in the design and analysis of telecommunication networks and systems in terms of physical implementation, protocols, routing algorithms, management, software interfaces, and applications. Focus will be on high speed LAN, WAN and Telecommunication networks using a systems engineering perspective.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: although no prerequisites are required, either course ECE 4250 or COMP 4300 would be recommended.

ECE 7650 Current Research in Computer Engineering 3 cr

Presentation of important research developments in the area of Computer Engineering, selected to complement other established graduate courses in this area.

ECE 7660 Logic Problem Solving 3 cr

Introduction to declarative techniques in symbolic problem solving with emphasis on relational representations, query construction, and recursive formulations of knowledge structures in engineering.

ECE 7670 Optimization Methods for Computer-aided Design 3 cr

Constrained optimization of functions of several variables. Optimization methods suitable for the solution of engineering problems by modern digital computers. Both gradient and direct search methods are included.

ECE 7680 Dielectric Properties and Phenomena 3 cr

Elementary structure of matter, polarization, response of dielectrics to static and periodic fields, ionization and decay processes, electrical breakdown of gases, liquids, and solids.

ECE 7700 Nonlinear Systems Analysis 1 3 cr

Introduction to nonlinear phenomena; linearization; state-space methods - quantitative and qualitative; introduction to the principal methods of determining stability.

ECE 7720 Optimal Control 1 3 cr

Introduction to optimal control systems; topics will include statement of the control problem, controllability, calculus of variations, Pontryagin's Maximum Principle, and design of optimal controls.

ECE 7740 Physical Electronics 1 3 cr

Fundamental principles. Wave mechanics, statistical mechanics, structure of matter, free electron theory and electron emission, band theory of solids, electrical conduction, and transport phenomena.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 3600 or equivalent.

ECE 7750 Physical Electronics 2 3 cr

Properties of materials. Semiconductors, junction phenomena; ferroelectrics, magnetic materials, superconductivity, optical processes, effects of radiation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 3600 and ECE 4190 or equivalent.

ECE 7780 Microwave Circuits 3 cr

Circuit properties of microwave transmission systems. Matrix representation and analysis of microwave networks, microwave junctions, resonators, and impedance matching networks.

ECE 7810 Solution of Fields by Numerical Methods 1 3 cr

Numerical integration, differentiation. Finite-difference solutions of the Poisson, Laplace and Helmholtz equations. Initial-value problems. The eigen problem. Examples chosen from electromagnetic, thermal, fluid-flow, stress, and other fields.

ECE 7880 Distributed Energy Generation 3 cr

Rationale for distributed generations (DG); Distributed electricity generation technologies (thermal and renewable); Availability of renewable energy resources; Technical and economic evaluation of DG projects; DG grid integration issues and interconnection standards; Microgrids.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Energy Systems I or equivalent course.

ECE 7890 Power System Control 3 cr

The application of modern systems engineering methods to power system problems.

ECE 7920 Human Physiology for Engineers 3 cr

The analysis and measurements of human physiological systems. Anatomical descriptions are limited to those required to support the functional analysis. Mathematical modeling is reinforced by analog and digital computer models.

ECE 7990 HVDC Transmission 1 3 cr

Rectifier-inverter fundamentals. Compounding and regulation. Grid firing control systems. Reactive power requirements. Ground return and electrode design. Transmission lines. Economics and efficiency.

ECE 8000 HVDC Transmission 2 3 cr

Protection. Harmonics: telephone interference. Corona: radio and television interference. Analytical methods. Conversion equipment, the use of solid devices. Selected topics from current literature.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 7990.

ECE 8010 Advanced Network Synthesis 3 cr

Mathematical treatment of various approximation techniques, matrix transformation methods applied to equivalent networks of minimum sensitivity or other criteria, theory of multivariable functions, lumped-distributed network synthesis.

ECE 8050 Topics in Microelectronics 3 cr

Equilibrium and non-equilibrium processes in semiconductors, properties of junctions and thin films, carrier transport phenomena, effects of traps, and selected topics pertinent to recent literature in microelectronics.

ECE 8110 Digital Systems Design 3 cr

Fixed-instruction-set microprocessor design; microprogramming, bit-slice based design; parallel processing and multiprocessing; applications to data acquisition, data logging, and data communications.

ECE 8130 Statistical Communication Theory 3 cr

Representations of random processes; signal detection and estimation techniques.

ECE 8140 Digital Communications and Coding 3 cr

Fundamentals of information theory; source and channel coding; digital modulation techniques.

ECE 8150 Digital Signal Processing 3 cr

Discrete-time linear system theory, digital filter design techniques, discrete Fourier transforms including FFT, discrete Hilbert transform, Walsh-Hadamard transforms high-speed convolution and correlation - techniques.

ECE 8190 Topics in Antenna Theory and Design 3 cr

Antennas as a boundary value problem, antenna parameters, analysis and synthesis methods, antenna measurements.

ECE 8200 Advanced Engineering Electromagnetics 3 cr

Solution of wave equation; special theorems and concepts, computer aided analysis.

ECE 8210 Power Electronic Circuits 3 cr

Thyristor properties, ac controllers, controlled rectifiers, dc to dc converters (choppers), and inverters. Permission of instructor required. Credit not to be held with ECE 4370.

ECE 8220 Digital Image Processing 3 cr

Digital representation of images. Two-dimensional operations and transforms. Image enhancement, restoration, and coding. Reconstruction from projections.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 3580 or equivalent desirable.

ECE 8230 Pattern Recognition and Scene Analysis 3 cr

Supervised and unsupervised learning techniques. Linear discriminant analysis. Scene analysis methods.

ECE 8270 Computer Communication Networks 3 cr

Overview of existing computer networks. Elements of queueing theory. Error, delay, cost and capacity analysis. Fixed assignment schemes. Packet and switched networks. Random access. Satellite networks. Hybrid protocols.

ECE 8280 Electromagnetic Field Modelling 3 cr

Coulombian and amperian models for polarized media and magnetized media; uniqueness theorems, formulation and classical methods of analysis of static, stationary and quasistationary field problems; modelling of electromagnetic fields in the presence of moving solid conductors; elements of relativistic electrodynamics.

ECE 8300 Computer Vision 3 cr

This course is an extension of ECE 8220 "Digital Image Processing." Techniques of image modelling, segmentation, texture analysis, matching and inference will be studied.

ECE 8310 Computer-Aided Design in Biomedical Engineering 3 cr

Representation of surfaces in space. 3D display methods and hardware. 3D boundary tracing and texture. Biosterometry and stereophotogrammetry in biomedicine. Some aspects of computer-aided manufacturing of prostheses and other topics.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: an introductory course in computing or equivalent experience and one year of any physical, engineering or biological science.

ECE 8320 Advanced Topics in Power Systems 3 cr

Study of selected topics of recent advances in electrical power systems.

ECE 8360 VLSI Design Methodology 3 cr

Design of custom and semi- custom Very Large Scale Integrated (VLSI) circuits and systems including design for testability. Static and dynamic VLSI circuits; software design tools, layout, logic and timing simulation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ECE 2220 and ECE 4240 or equivalent.

ECE 8370 Topics in Biomedical Engineering 3 cr

A discussion of current topics in biomedical engineering. The latest in instrumentation, procedures and practices relevant both to clinical engineering and ongoing research are covered.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 4400 or consent of instructor.

ECE 8380 Reflector Antennas 3 cr

Mathematical analysis of common reflector antennas including effects of various types of feed structures.

ECE 8400 Intelligent Systems 3 cr

Continuation of ECE 7660 "Resolution Problem Solving," plan formation, default and temporal reasoning as applicable to engineering.

Engineering (ENG)

ENG 7010 The Engineering Design Process 3 cr

Consideration of the Engineering Design process and the logic upon which it is based. Explores both the history and possible future directions of the process from technical, social and environmental points of view.

ENG 7020 Topics in Engineering Practice 3 cr

This course will cover topics relating to the practice of professional engineering. The specific topics and a detailed outline will be available prior to the start of the registration period for the session in which the course will be offered. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of the Director of the Centre for Engineering Professional Practice and Engineering Education.

ENG 7030 The Discipline of Engineering Education 3 cr

An in-depth examination of the discipline of engineering education, including its evolution, its characteristics, application, and theoretical developments.

ENG 7040 Foundations of Engineering Education Research 3 cr

Engineering education research conceptual and theoretical frameworks, methodologies and methods in both qualitative and quantitative paradigms, and the scholarship of teaching & learning in engineering education.

ENG 7510 Operational Excellence 3 cr

This course will provide students with a solid understanding of the fundamentals of operational excellence through the methodical application of engineering principles and theory to address real industry problems, grounded in the Plan-Do-Study-Act system. May not be held with either MCEG 7600 or MECH 4342 where the topic was Operational Excellence. Good knowledge of Statistics is recommended.

Mutually Exclusive: MCEG 7600, MECH 4342

English (ENGL)

ENGL 7030 Studies in American Literature 3 cr

A detailed study of an aspect of American Literature. Topics will vary from year to year. Not to be held with the former ENGL 7020. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Mutually Exclusive: ENGL 7020

ENGL 7050 Studies in Canadian Literature 3 cr

A detailed study of an aspect of Canadian Literature. Topics will vary from year to year. Not to be held with the former ENGL 7040. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Mutually Exclusive: ENGL 7040

ENGL 7070 Studies in British Literature since 1900 3 cr

A detailed study of an aspect of post-1900 British Literature. Topics will vary from year to year. Not to be held with the former ENGL 7060. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Equiv To: ENGL 7060

ENGL 7090 Studies in Contemporary Literature 3 cr

A detailed study of an aspect of contemporary literature in English. Topics will vary from year to year. Not to be held with the former ENGL 7080. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Mutually Exclusive: ENGL 7080

ENGL 7140 Studies in International Literature 3 cr

A detailed study of an aspect of international literature in English. Topics will vary from year to year. Not to be held with the former ENGL 7100. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

ENGL 7160 Studies in Modernism 3 cr

A detailed study of an aspect of Modernism. Topics will vary from year to year. Not to be held with the former ENGL 7150. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Mutually Exclusive: ENGL 7150

ENGL 7170 Studies in Media 3 cr

A detailed study of an aspect of media and literature. Topics will vary from year to year. Not to be held with the former ENGL 7250. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Mutually Exclusive: ENGL 7250

ENGL 7180 Studies in Old English Poetry 6 cr

Studies in Old English poetry. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

ENGL 7190 Special Topics in Literary Figures 3 cr

Focuses on the works of an individual author. Subjects will vary from year to year. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

ENGL 7300 Creative Writing 3 cr

This seminar will foster advanced craft in a variety of literary genres and will include an analytic and a workshop component. Admission will be at the instructor's discretion, based on the submission of a creative portfolio.

ENGL 7590 Teaching Literature at University 0 cr

Description not available for this course.

ENGL 7600 Bibliography 3 cr

Description not available for this course.

ENGL 7690 Special Topics in Literary Periods 1 3 cr

Description not available for this course. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

ENGL 7710 Special Topics in Literary Genres 1 3 cr

No description available. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

ENGL 7750 Directed Reading 1 3 cr

Directed Reading 1. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

ENGL 7800 Studies in Drama/Theatre 3 cr

Focuses on drama possibly using some consideration of theatrical practice and performance. Topics will vary from year to year. Not to be held with the former ENGL 7790. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Mutually Exclusive: ENGL 7790

ENGL 7840 Studies in Critical Theory 3 cr

Explores literary theory. Topics will vary from year to year. Not to be held with the former ENGL 7830. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Mutually Exclusive: ENGL 7830

ENGL 7860 Topics in Cultural Studies 3 cr

Provides an overview of the theory and practice of cultural studies. Topics will vary from year to year. Not to be held with the former ENGL 7850. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Mutually Exclusive: ENGL 7850

ENGL 7880 Studies in Literature and Film 3 cr

Brings together literature and film. Topics will vary from year to year. Not to be held with the former ENGL 7870. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Mutually Exclusive: ENGL 7870

ENGL 7900 Studies in Medieval Literature 3 cr

A detailed study of an aspect of Middle English literature. Topics will vary from year to year. Not to be held with the former ENGL 7890. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Mutually Exclusive: ENGL 7890

ENGL 7920 Studies in Early Modern Literature 3 cr

A detailed study of an aspect of Early Modern literature. Topics will vary from year to year. Not to be held with the former ENGL 7910. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Mutually Exclusive: ENGL 7910

ENGL 7940 Studies in Eighteenth-Century Literature 3 cr

A detailed study of an aspect of eighteenth-century literature. Topics will vary from year to year. Not to be held with the former ENGL 7930. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Mutually Exclusive: ENGL 7930

ENGL 7960 Studies in Romanticism 3 cr

A detailed study of an aspect of romanticism. Topics will vary from year to year. Not to be held with the former ENGL 7950. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Mutually Exclusive: ENGL 7950

ENGL 7980 Studies in Nineteenth-Century British Literature 3 cr

A detailed study of an aspect of Nineteenth-Century British Literature. Topics will vary from year to year. Not to be held with the former ENGL 7970. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Mutually Exclusive: ENGL 7970

Entomology (ENTM)

ENTM 7120 Insect Population Management 3 cr

Term papers, tutorials and workshops to study systems of managing populations of injurious and useful insects based upon models of the processes of insect population dynamics. Not all courses are offered every year. Please contact the department regarding course availability.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

ENTM 7150 Advanced Entomology 1 3 cr

A required course for M.Sc. students in Entomology. Students must submit essays and seminars in areas chosen to fit the requirements of their program. They are required to prepare for and participate actively in discussion sessions and other class meetings. Not available for credit in a Ph.D. program.

ENTM 7200 Advanced Insect Taxonomy 3 cr

Tutorials, laboratory periods and discussion of classification and evolution of insects. Offered 2005-2006. Not all courses are offered every year. Please contact the department regarding course availability.

ENTM 7210 Special Topics in Entomology 3 cr

The content of this course will deal with specific topics of entomology at the advanced level.

ENTM 7220 Advanced Entomology 3 cr

A required course for Ph.D. students in Entomology. Students must submit essays and present seminars in areas chosen to fit the requirements of their program. They are required to prepare for and participate actively in discussion sessions and other class meetings. Not available for credit in a M.Sc. program.

ENTM 7230 Advanced Pollination Biology 3 cr

Tutorials, assignments and discussion periods of current topics relating to the physiology and life history of insect pollinators and their ecological interactions with entomophilous plants. Subjects studied may be selected to fit the interests of individual students.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Consent of instructor.

ENTM 7240 Advances in Physiological Ecology of Insects 3 cr

The effect of environmental factors such as temperature, moisture, light and other organisms on the physiology and ecology of insects. Not all courses are offered every year. Please contact the department regarding course availability. Not to be held for credit with ENTM 4520.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ENTM 2050 or consent of instructor. Not to be held for credit with ENTM 4520.

Entrepreneurship/Small Bus. (ENTR)

ENTR 7240 Entrepreneurship and New Venture Formation 1.5 cr

Entrepreneurship and enterprising behaviour with an emphasis on the identification and evaluation of viable new venture concepts and their development into successful enterprises.

Finance (FIN)

FIN 7000 Managerial Economics 1.5 cr

Supply, demand, elasticity, perfect competition, monopoly, revenue and cost functions, and determinants of competitive advantage are considered in this course. Economic profit, accounting profit and value creation are compared so they are used properly in the context of optimal business strategy. Not to be held with either IDM 7720 or FIN 7120.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MSCI 5110 and MIS 5120 (or the former MIS 5110).

Equiv To: FIN 7120, IDM 7720

FIN 7010 Professional Financial Ethics 3 cr

This course focuses on the required code of ethics handbook of practice for the Chartered Financial Analyst Program within a broader ethics in finance perspective, and compliance with the legal and regulatory frameworks governing financial markets in both Canada and the United States. Not to be held with FIN 7240 when the subtitle is equivalent.

Mutually Exclusive: FIN 7240

FIN 7020 Corporate Finance 3 cr

The financial management of businesses including agency problems, valuation, capital budgeting, risk/return relationships, the term structure of interest rates, market efficiency, long-term financing, capital structure, and the use of options and futures for risk management. Not to be held with either of FIN 6070 or FIN 6072.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre-requisite: MSCI 5110, FIN 7000 and MIS 5120 (or the former MIS 5110).

Equiv To: FIN 6070, FIN 6072

FIN 7080 International Finance 3 cr

The theory and practice of financial management in an international context. Includes foreign currency markets, exchange rates, measurement and management of foreign currency risk, international financing, and foreign direct investment.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FIN 7020 (or FIN 6070 or FIN 6072).

FIN 7130 Alternative Markets and Instruments 1.5 cr

This course will provide an overview of alternative investments pricing and roles in portfolio construction. Topics will include real estate, private equity, commodities, managed futures, hedge funds, and distressed debt.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FIN 7020 (or former FIN 6072).

FIN 7140 Financial Modeling 3 cr

This course will cover spreadsheet implementation of practitioner-oriented financial models. May not be held with FIN 4240 (cross listed undergrad course).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FIN 7152.

Equiv To: FIN 4240

FIN 7152 Investment Policy 3 cr

The theory and practice of investment management. Topics include: portfolio theory and management, market efficiency, options and futures. This course cannot be held with FIN 7150.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FIN 7020 (or FIN 6070 or FIN 6072).

Equiv To: FIN 7150

FIN 7180 Behavioural Finance 3 cr

This course will explore how human biases impact the financial decisions of market participants and their practical implications. Topics will include prospect theory, heuristics, market anomalies, and behavioural corporate finance. May not be held with FIN 4250 (cross listed undergrad course).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FIN 7020 (or former FIN 6072).

Equiv To: FIN 4250

FIN 7190 Fixed Income Securities 3 cr

This course introduces students to a wide variety of fixed income securities and their markets, and prepares students for the fixed income area in CFA examinations. Topics covered include: debt securities, risks or investing in bonds, the pricing of fixed income securities, the measurement of interest rate risk, the term structure and volatility of interest rates, mortgage-backed and asset-backed securities, the valuation of mortgage-backed and asset-backed securities, credit analysis and interest rate derivatives, among other topics. Prerequisite FIN 7020.

Mutually Exclusive: FIN 7260

FIN 7192 Portfolio Management 3 cr

This course explores the theory and practice of portfolio management: Topics include asset allocation, currency management, fixed income portfolio management, equity portfolio management, risk management and application of derivatives, execution of portfolio decisions, monitoring and rebalancing, and performance evaluation. Students targeting the professional asset management career or planning to take the CFA exam may find this course useful. Prerequisite FIN 7020.

Mutually Exclusive: FIN 7260

FIN 7220 Advanced Seminar in Finance 3 cr

A case-oriented course that will require extensive preparation and presentation of selected cases in corporate financial management; emphasis on the application of theoretical models of finance to real problems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FIN 7020 (or FIN 6070 or FIN 6072) or consent of instructor.

FIN 7232 Financial Intermediaries and Capital Markets 3 cr

Topics include: the major participants in the capital markets and their functions, the demand and supply of money and the structure of interest rates, non-money financial instruments, recent developments and international factors in the capital markets and capital market risk issues. This course cannot be held with FIN 7230.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite or co-requisite: FIN 7020 (or FIN 6070 or FIN 6072).

Equiv To: FIN 7230

FIN 7240 Readings in Accounting and Finance 3 cr

Supervised readings in one of the areas of accounting and finance.

Mutually Exclusive: FIN 7010

FIN 7260 Selected Topics in Finance 3 cr

A study of selected topics in finance relating to advanced issues in theory and practice. Topics considered will depend on the interests and needs of the participants.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FIN 7020 (or FIN 6070 or FIN 6072) plus others if specified by the professor.

Mutually Exclusive: FIN 7190, FIN 7192

FIN 7520 Finance 2: Corporate Finance (Ph.D) 3 cr

Theoretical issues in corporation finance. Issues covered will include investment choice and shareholder unanimity, capital structure, dividend irrelevancy, corporate and personal taxes, bankruptcy costs, agency cost, asymmetric information and signalling models, theory of the firm, and corporate takeovers.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: admission to the Ph.D. program in Management (Finance) or approval by instructor.

Fine Art, Studio Courses (STDO)

STDO 7010 Studio Concentration 1 3 cr

Advanced individual instruction and critique in the student's chosen studio area by faculty and visiting artists.

STDO 7020 Studio Concentration 2 3 cr

A continuation of Studio Concentration 1. Advanced individual instruction and critique in the student's chosen studio area by faculty and visiting artists.

STDO 7030 Studio Concentration 3 3 cr

A continuation of Studio Concentration 2. Advanced individual instruction and critique in the student's chosen studio area by faculty and visiting artists.

STDO 7040 Studio Concentration 4 3 cr

A continuation of Studio Concentration 3. Advanced individual instruction in the student's chosen studio area, culminating in the thesis exhibition.

STDO 7110 Graduate Seminar 1 3 cr

An investigation of contemporary art concepts in the context of the studio program of work.

STDO 7120 Graduate Seminar 2 3 cr

A continuation of Graduate Seminar 1. An investigation of contemporary art concepts in the context of the studio program of work.

STDO 7130 Graduate Seminar 3 3 cr

A continuation of Graduate Seminar 2. A further investigation of contemporary art concepts in the context of the studio program of work.

STDO 7210 Themes in Contemporary Art Studio 3 cr

Individual pursuit of studio investigations under a specific theme.

STDO 7230 Contemporary Art Theory 3 cr

An examination of art theory from structuralism, post-structuralism, semiotic, sociological and psychoanalytic methods.

STDO 7300 Special Topics in Fine Art 3 cr

Varying from offering to offering, this course will cover significant topics in Fine Art.

Food Science (FOOD)

FOOD 7090 Unit Process Operations 3 cr

A study of unit operations which are commonly utilized in the food industry with emphasis on separation processes, particle size reduction and heat transfers.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite or co-requisite: BIOE 3530 or equivalent.

FOOD 7130 Food Science Seminar 3 cr

Verbal and written presentation of selected topics in Food Science. This is a required course for all M.Sc. candidates in the Food Science Department.

FOOD 7150 Food Proteins 3 cr

An examination of the structural and functional properties of proteins in foods. Laboratory sessions will emphasize experimental approaches to study proteins in foods, including topics such as surface characterization, thermal properties, rheological behaviour, and chemical modification.

FOOD 7160 Food Carbohydrates 3 cr

A study of the physico-chemical properties and functionality of food carbohydrates. Laboratory sessions will focus on quantitation, structural characterization, thermal properties and rheological behaviour of carbohydrates.

FOOD 7180 Food Science of Cereal Grains 3 cr

The course deals with cereal grains used for human food, the structure of constituents, and the relationship of constituent structure to functionality in the processing of the grains into food products. Emphasis will be on constituents and properties that contribute to optimum processing of wheat.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CHEM 2360 or CHEM 2770 or MBIO 2360 or MBIO 2770, or permission of instructor.

FOOD 7200 Advanced Food Microbiology 3 cr

Detection and quantitation of foodborne microorganisms and related toxins using developing methodology, including rapid microbiological assays with a comprehensive account of basic principles and advanced techniques.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MBIO 2100, FOOD 4150 or consent of instructor.

FOOD 7240 Topics in Food Science 3 cr

An in-depth study of selected topics of current relevance in Food Science. Available to students in the M.Sc. programs and in the Interdepartmental Ph.D. in Food and Nutritional Sciences.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of Department Head.

FOOD 7260 Advanced Meat Science 3 cr

Builds on fundamental aspects of muscle biochemistry and function to explain how pre- and post-harvest technology affect meat quality and safety. Issues of current concern, their resolution as well as recent advances will be discussed.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Consent of instructor.

FOOD 7270 Food Rheology 3 cr

Evaluation of the textural properties of foods provides critical information in the development of quality food products. This course deals with the principles and methodologies in food rheology and includes an examination of the rheological properties of selected food systems.

Foods and Nutr Grad Studies (FDNT)

FDNT 7120 Advanced Seminar in Food and Nutritional Sciences 3 cr

A critical review of selected topics in food and nutritional sciences presented in both verbal and written forms. This is a required course for all Ph.D. students in the interdepartmental food and nutritional sciences program.

French (FREN)

FREN 6000 French Reading Knowledge 0 cr

For graduate students in other departments which require a reading knowledge of French. This course is graded pass/fail.

FREN 6010 Spanish Reading Test 0 cr

No description available.

FREN 6030 Italian Reading Test 0 cr

No description available.

FREN 7520 Topics in Literary Periods 1 3 cr

Topics in Literary Periods 1. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

FREN 7540 Topics in Literary Genres 1 3 cr

Topics in Literary Genres 1. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

FREN 7560 Topics in Critical Theory and Practice 1 3 cr

The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

FREN 7580 Special Topics 1 3 cr

Special Topics 1. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

FREN 7660 Études sur Diderot 3 cr

Ce cours comprendra une étude d'aspects choisis de l'oeuvre et de la pensée de Diderot.

FREN 7740 Études sur Beauvoir 3 cr

Une sélection d'oeuvres de Simone de Beauvoir étudiées selon la perspective de la critique féministe contemporaine.

FREN 7760 La Critique littéraire féministe 3 cr

Une sélection de textes littéraires et théoriques analysés selon la perspective de la critique féministe contemporaine.

FREN 7770 Tendances nouvelles du roman 3 cr

Une étude de romans publiés depuis vingt ans selon la perspective de la critique contemporaine.

General Management (GMGT)

GMGT 7060 Readings in Business Administration 3 cr

Supervised readings in one of the areas of business administration including human resource management, industrial relations, organizational behaviour, policy and environment.

GMGT 7070 Administrative Studies Research Project 6 cr

Research in any one of the areas of administrative studies.

GMGT 7080 Research Methods 3 cr

Principles of research design and data collection with examples drawn across the areas of marketing management, industrial relations, policy analysis, etc. Both cases and computer-based exercises are used.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MSCI 5100.

GMGT 7090 Organizational Decision-Making 3 cr

A study of the goal-setting and decision-making processes in organizations and the implications for the growth and survival of such organizations.

GMGT 7100 Interpersonal Processes 3 cr

An examination of theories of interpersonal behaviour and processes as they apply to managerial situations. Emphasis upon individual behaviour and change, group dynamics, leadership behaviour, and communications.

GMGT 7110 Business and Its Environment 3 cr

Analysis of the environmental factors within which a business operates.

GMGT 7120 Organizational Power and Politics 3 cr

An examination of personal, interpersonal and organizational power in the context of organizational politics. Topics covered include rational versus political models of organizations, the accumulation and management of personal power, the politics of decision-making, the politics of managerial succession, the politics of budgets, authority, intergroup conflict, and bargaining and negotiation processes.

GMGT 7200 Critical and Creative Thinking 1.5 cr

This course introduces students to different ways of thinking about cognitive dimensions of organizational leadership. Approaches include the creative (divergent perspective), the critical (convergent perspective) and the holistic (systems-perspective) with special emphasis on understanding the nature and appropriateness of different forms of cognition in organizational leadership.

GMGT 7210 Strategy 3 cr

Students will integrate and apply concepts from various functional areas in analyzing organizational resources and capabilities, and environmental opportunities and threats. Students will study evolving strategic management problems and practices, and examine issues of formulation and implementation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ACC 7010 (or ACC 6050), FIN 7020 (or FIN 6072), GMGT 7200, GMGT 7220 (or one of HRIR 7450 and GMGT 6030), MKT 7010 (or MKT 6080), and OPM 7120 (or OPM 6090). Pre- or Co-requisites: FIN 7000 (FIN 7120 or IDM 7720), ACC 7020 (or ACC 6060), MIS 7120 (or MIS 6150), IDM 7120 (or IDM 7060), IDM 7130, and IDM 7510.

GMGT 7220 Managing People in Organizations 3 cr

This course examines strategies and methods for the management of people in organizations, their implications for organizational effectiveness, and both the challenges and opportunities they present to managers within the Canadian context and beyond.

GMGT 7350 Administration: Selected Topics 3 cr

Topics in one of the areas of business administration including human resource management, industrial relations, organizational theory and behaviour, and business policy and strategic management.

GMGT 7360 Organizational Behaviour and Self Development 3 cr

This course will operate in a seminar format with two goals. The first goal is to provide an environment in which the student can develop and manage to successful conclusion a project in which they have significant intrinsic interest. The second goal is to improve the student's understanding of the inner life of an organization by increasing his/her ability to discriminate between the organizational "ropes to skip and the ropes to know."

GMGT 7370 Managing Innovation 3 cr

An examination of organizational design characteristics in the context of a competitive international perspective. Emphasis is on an organizational and technological innovation to facilitate the development of new products or processes or to implement change in existing products or processes. Topics covered include Canadian experience and policy, facilitators and inhibitors in the creative process, diffusion of innovations, and the aims of the patent process.

GMGT 7400 Readings in Organizational Behaviour (Ph.D.) 3 cr

An examination of theory and research from the social and administrative sciences that focuses on the interaction between organizations and their environments. The evaluation and synthesis of theoretical and empirical work in this area will be emphasized.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: admission to the Ph.D. program in Management (Organizational Behaviour) or approval by instructor.

GMGT 7410 Doctoral Seminar in Organizational Behaviour (Ph.D.) 3 cr

An examination of theory and research from the social and administrative sciences that is relevant to the behaviour of individuals and groups within organizations. Emphasis will be placed on evaluation and synthesis of theoretical and empirical work in this area.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: admission to the Ph.D. program in Management (Organizational Behaviour) or approval by instructor.

GMGT 7440 Doctoral Seminar in Organizational Theory (Ph.D.) 3 cr

The major goal of this course is to familiarize students with central schools of thought within organization theory. As with other theories in the social sciences, these schools of thought tend to be based on differing assumptions about the nature of the organizational world, the operation of causality, epistemology, and the role of human actors.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: admission to the Ph.D. program in Management (Organizational Behaviour) or approval by instructor.

GMGT 7510 Strategic Leadership and Managing Change 1.5 cr

An examination of the role of the manager as a change agent and processes associated with strategic vision and change. Analysis of factors affecting strategic decisions and how organizations adapt to their environment. Emphasis is upon the role of leaders: transformational leadership, charisma, organizational design and managing organizational culture change.

GMGT 7520 Issues in Managerial Communication 3 cr

An examination of strategies and development of skills for effective oral, written, non-verbal, interpersonal, group, cross-cultural, and ethical communication in management.

GMGT 7530 Selected Topics 3 cr

An examination of current issues in areas which could, for example, include: organizational behaviour, organizational theory, strategy, human resource management, and industrial relations.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

GMGT 7540 Doctoral Seminar in Research Methods (Ph.D.) 3 cr

Principles of research design and data collection appropriate for the areas of marketing, management, industrial relations, policy analysis, finance, management science, etc. Research problems and issues will be discussed from a number of perspectives. Conceptual material, statistical analyses, theoretical material and the utilization of statistical application software are used as the bases for seminar discussion.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: admission to the Ph.D. program in Management or approval by instructor.

GMGT 7710 Managerial Communication 1.5 cr

Focus is on the interpersonal, intergroup, and intra-organizational communication skills required for effective leadership, and the objectives are to assist the participants in the following: increasing the clarity, correctness, and effectiveness of written and oral communication; recognizing and analysing communication dynamics at work in personal, group, and organizational interactions; increasing combination flexibility and proficiency in times of corporate challenge, change, and crisis.

GMGT 7720 Business Conditions Analysis 1.5 cr

To provide an awareness of key components of the economic/business environment. Identifies critical indicators that affect decision-making and suggests strategies for forecasting future conditions. Topics covered include critical demographic trends, the change technological frontier, international trade, finance, and investment trends, and trends in interest rates and exchange rates. A theoretical overview will precede the discussion of business conditions indicators.

GMGT 7740 Business/Government Relations 1.5 cr

Focuses on the logic of political-economic-business relations. The point of view is that of the manager. Specific tools of analysis are discussed that assist managers in understanding and working with aspects of public policy which interface with their private sector decisions.

Geography (GEOG)

GEOG 7010 Selected Topics in Geography 3 cr

Advanced study of a selected topic from any one of the department's fields of specialization.

GEOG 7030 Regional Analysis 3 cr

A seminar course reviewing theories of regional development which have planning applications. Further, it assesses government policy aimed at regional intervention and notes procedures of evaluation.

GEOG 7080 Quantitative Methods 3 cr

A discussion of analysis and model construction in the study of urban and rural systems; analysis of socioeconomic and demographic data, construction of measures, and testing of models.

GEOG 7180 Methodology of Agricultural Geography 3 cr

The course first provides an understanding of social and economic concepts in agricultural geography, and then examines methods of data collection, sampling techniques, and analysis with relevance to specific research topics.

GEOG 7200 Environment, Resources, and Population 3 cr

This course discusses the contemporary imbalance between population and resources. The consequences of resource exploitation upon the natural environment are also examined.

GEOG 7260 Selected Regional Issues in Geography 3 cr

Advanced study of specific issues and problems in selected world regions.

GEOG 7290 Energy Analysis 3 cr

A survey of origins, methods and applications of energy analysis, a new technique of system energetics designed to provide information for a more efficient use of scarce natural resources.

GEOG 7310 Geographic Theory and Methodology 3 cr

A discussion of the meaning of explanation in human geography, the status of geography as a science and the construction of theory.

GEOG 7332 Concepts in Atmospheric Modelling 3 cr

This course will primarily focus on numerical modelling applications and techniques of the Earth's atmosphere with an emphasis on weather prediction. This includes understanding basic modelling terminology, numerical schemes, structure of models, types of models, what is required to run a model, and an introduction to data assimilation and ensemble techniques to weather prediction.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of instructor.

GEOG 7360 Interdisciplinary Perspectives on Issues in the Environment 3 cr

An intensive examination of research relating to various issues in the environment, this course will challenge students to consider crosscutting themes found in the literature and from their own learning experiences, and apply them to environmental problems.

GEOG 7380 Advanced Ecotoxicology: Understanding Stress Ecology 3 cr

Ecotoxicology characterizes how organisms interact with anthropogenic and natural stressors in an ecological context. This course is an examination of the fundamental science, approaches and issues being addressed in the field. Students should have a four-year science-based undergraduate degree and be registered in a graduate program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of instructor.

GEOG 7400 Field Topics in Arctic Systems 3 cr

Field and practical experience in selected topics of multidisciplinary research in Arctic System Science from science theory to field sampling, to modeling and remote measurements. Focuses on the ocean-sea ice-atmosphere interface and its relationship with the biological and geochemical processes operating in the cryosphere.

GEOG 7420 Synoptic Meteorology and Weather Analysis 3 cr

The course covers applied aspects of meteorology in terms of weather analysis and forecasting techniques for synoptic-scales and meso-scales using various meteorological tools. An introduction to severe weather forecasting techniques will also be described. Familiarity with computers is essential.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of instructor.

GEOG 7440 Climate Change 3 cr

The course will provide an overview of General Circulation Models (GCMs) and how these models are used to study various aspects of global climate change. More specifically the course will deal with the coupling between the atmosphere, hydrosphere, lithosphere and biosphere from the perspective of Earth System Science.

GEOG 7450 Boundary-Layer Climatology and Micrometeorology 3 cr

A seminar-based course devoted to the study of advanced topics in microclimatology and micrometeorology.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of instructor.

GEOG 7470 Techniques in Climatology 3 cr

This course overviews the theoretical basis that underpins the measurement and application of climate elements in micrometeorological and microclimatological research.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of instructor.

GEOG 7480 Advanced Methods in Remote Sensing 3 cr

This course provides instruction in the current theory and application of remote sensing technology to Earth System Science. Emphasis will be placed on the processing and interpretation of remote sensing imagery and the integration of remote sensing data with other spatial data.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GEOG 3200 (C), or permission of instructor .

GEOG 7500 Biogeography 3 cr

The course will emphasize principles and approaches to understanding biogeography on a worldwide scale with specific examples from Canadian and Manitoban research. Topics discussed include the physical environment and biological interactions, effects of disturbance and climate change, the geography of biological diversity, evolution and extinction.

GEOG 7580 Gender and the Human Environment 3 cr

From criticalsocial science theoretical positions, this course asks student to examine what we can learn about how humans live on the earth if we see them as gendered. Just as we may also understand humans and their interactions in and with spaces, places and environments through the lenses of race, ethnicity, class,age and /or combinations of these categories with gender. Cannot be held for credit with GEOG 4280.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor.

Equiv To: GEOG 4280

GEOG 7610 Graduate Seminar in E&G (Masters) 3 cr

The course allowed students to develop research and communication skills and provides a greater understanding of research within geography, environmental science and environmental studies; it is organized around presentations given by the students on their area of expertise; course graded pass/fail.

GEOG 7620 Graduate Seminar in E&G (PhD 1) 1.5 cr

The course allowed students to develop research and communication skills and provides a greater understanding of research within geography, environmental science and environmental studies; it is organized around presentations given by the students on their area of expertise; course graded pass/fail.

GEOG 7630 Graduate Seminar in E&G (PhD 2) 1.5 cr

The course allowed students to develop research and communication skills and provides a greater understanding of research within geography, environmental science and environmental studies; it is organized around presentations given by the students on their area of expertise; course graded pass/fail.

GEOG 7780 Storms-Mesoscale 3 cr

This course focuses on a range of storms, and mesoscale phenomena in the summer and winter. These include thunderstorms, tornadoes, squall lines, lightening, low level jets, gust fronts, blizzards, freezing rain, orographic storm, and polar lows. The emphasis in on the physical mechanisms leading to these events and it also examines how they may change in our warming climate. This course cannot be held for credit with GEOG 4780.

Equiv To: GEOG 4780

GEOG 7872 Advanced Methods in Geomatics 3 cr

This course focuses on advanced theory and application of geomatic methods and technologies in spatial problem solving. Laboratories provide practical experience in the application of spatial multivariate methods.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of instructor.

GEOG 7910 Contemporary Issues in Artic Science 3 cr

The course will deal with the coupling between the ocean-sea ice-atmosphere (OSA) interface and examine the role of these processes in physical-biological coupling. Seminars will be presented on both scientific and methodological principles required to understand how climate change affects the Arctic system.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of Department Head.

GEOG 7930 Oceanography: Chemical 3 cr

This course deals with the sources, distribution, and transformation of chemical constituents of the oceans, and the processes that control them. The emphasis will be given to biologically or climatically significant elements such as carbon, nitrogen, phosphorus, iron and mercury in the Arctic Ocean. Not to be held with GEOG 4930.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of the Department Head.

Equiv To: GEOG 4930

GEOG 7940 Sea Ice in Arctic Marine System 3 cr

This course will provide a general background on the importance and current knowledge of sea ice with a focus on the Arctic marine system. The material will be provided in a highly disciplinary manner, touching on fields of geophysics, physical geography, biology and chemistry. Not to be held with GEOG 4940.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of Instructor.

Equiv To: GEOG 4940

GEOG 7960 Oceanography: Biological II High Trophic Levels 3 cr

This course will examine the oceanographic-biological coupling occurring in the Arctic region, focusing on environmental conditions related to higher trophic levels and impacts of climate change. The aim of this course will extend the learning of the 3000-level course that examines the biological oceanography, which focus on the environmental factors that control primary production and lower tropic levels in the world's oceans. Not to be held with GEOG 4960.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of Department head.

Equiv To: GEOG 4960

Geological Sciences (GEOL)

GEOL 7200 Earth Systems of Central Canada 3 cr

An overview of the Earth structure, bedrock geology, surficial geology and hydrology of Manitoba and adjacent regions from an Earth systems perspective; and the occurrence and development of mineral, petroleum and water resources.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: enrolment in a M.Sc. or Ph.D. program, and permission of department.

GEOL 7230 Geophysics of the Earth's Crust and Mantle 3 cr

Processes in crust-mantle evolution and geophysical methods used to study this region of the earth.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (GEOL 4320), and (GEOL 4330).

GEOL 7310 Quaternary Geology 3 cr

Seminars and lectures on sedimentary aspects of the Quaternary Epoch with emphasis on glaciation. The glacial and interglacial stratigraphic record on the continents and in the ocean basins. Three-day field trip in mid-September.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (GEOL 3490), and (GEOL 3900).

GEOL 7350 Remote Sensing in the Earth and Planetary Sciences 3 cr

Selected topics in remote sensing with emphasis on geophysical and geologic problems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: B.Sc. (Honours Geology, Geophysics, or Geological Engineering), or permission of instructor for graduates of other disciplines.

GEOL 7470 Advanced Petroleum Geology and Geochemistry 3 cr

Lectures and seminars examining the four major components of petroleum geology: source and migration, reservoir, trap, and economics. Major emphasis on the origin and generation of petroleum and source rock geology. Field trip and core logging required.

GEOL 7480 Advanced Seismology 1 3 cr

Theory of wave propagation; source mechanisms; other selected topics.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GEOL 7260.

GEOL 7490 Advanced Seismology 2 3 cr

Seismic surface waves and normal modes of Earth, Earth tides and dynamic evolution.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GEOL 7480 or equivalent.

GEOL 7540 Isotope Geology and Geochronology 3 cr

The principles and methods of isotopic age determination and the measurement of geological rate processes using certain radioactive nuclides and the variations of the isotopic compositions of their daughter products. The evolution of the earth's mantle, continental and oceanic crust. The application of light, stable isotope fractionation to understanding geological processes.

GEOL 7550 Hydrothermal Petrochemistry 3 cr

The chemistry, mineralogy, and petrology of mineral deposits and alteration zones of the hydrothermal type, and their association with igneous and tectonic events. Theory and experimental data on metasomatic processes.

GEOL 7590 Advanced Paleontology 1 3 cr

Topics in paleobiology of the invertebrates, and principles of paleontology. Upon request, course may be adapted to individual requirements of students in other disciplines (for example, specific groups of invertebrates, paleoecology, trace fossils, etc.).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (GEOL 3310), and (GEOL 4310), or permission of instructor.

GEOL 7600 Advanced Paleontology 2 3 cr

Topics in paleobiology of the invertebrates, and principles of paleontology. Upon request, course may be adapted to individual requirements of students in other disciplines (for example, specific groups of invertebrates, paleoecology, trace fossils, etc.).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GEOL 3310, or GEOL 4310, or permission of instructor.

GEOL 7700 Advanced Clastic Sedimentology 3 cr

Lectures and seminars on clastic depositional environments. Critical evaluation of accepted facies models followed in each case by examination of the ancient record. One week field trip and core logging required.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GEOL 3900, or permission of instructor.

GEOL 7720 Geophysical Imaging and Data Processing 3 cr

Advanced frequency filter design; deconvolution methods for seismogram; velocity and wavefield stacking; various digital methods for potential field data; principles of tomography and geophysical imaging techniques.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (GEOL 3740), and GEOL 7260, or permission of instructor.

GEOL 7740 Workshop in the Geological Sciences 1 3 cr

Critical, in-depth group study of problems and new concepts in the geological sciences; discussion of current research by staff and visiting scientists; students will pursue individual research interests and will work with staff on specific topics.

GEOL 7750 Workshop in the Geological Sciences 2 3 cr

Critical, in-depth group study of problems and new concepts in the geological sciences; discussion of current research by staff and visiting scientists; students will pursue individual research interests and will work with staff on specific topics.

GEOL 7760 Seminar in Geological Sciences 3 cr

A discussion of topics of current interest from the whole spectrum of geological sciences to inform students on research work outside their specialty. Required of all graduate students. For ancillary credit only. Geological Sciences Colloquium. Weekly discussion of topics of current interest. Presentation of recent research from geological literature, the department, and visitors. Required of all graduate students who have received credit for GEOL 7760.

GEOL 7780 Advanced Carbonate Sedimentology 3 cr

Lectures and seminars on selected topics of carbonate sedimentology, including depositional environments, lithofacies sequences and diagenesis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GEOL 3900, or permission of instructor.

GEOL 7790 Advanced Instrumental Techniques in Geology 3 cr

Lectures and laboratory course covering the application of microbeam, mass spectrometer, diffraction and wet geochemical analytical techniques in mineralogy and geochemistry. Includes coverage of ICP, PIXE, powder and single crystal diffraction and electron microprobe analysis.

GEOL 7810 Electromagnetic Methods in Geophysics 3 cr

Examination of the theory and application of electromagnetic methods in geophysics. Topics include: electrical properties of earth materials, review of EM methods, EM theory for layered media, EM responses of simple structures and case studies.

GEOL 7820 Environmental Geophysics 3 cr

Examination of the application of geophysics to environmental targets. Topics will vary according to student interest and may include aspects of new-surface geophysics, engineering geophysics, geophysics of global climate change and geophysical risk assessment.

German (GRMN)

GRMN 6000 Reading Language Test 0 cr

No description available.

GRMN 7200 Literary and Cultural Theory 3 cr

A survey of the major theoretical approaches to German and Slavic literature and cultures. Discusses the aesthetics of Enlightenment and Idealism, Nietzsche, Freud, Russian Formalism, Prague Structuralism, hermeneutics, semiotics, dialogism (Bakhtin), the Frankfurt School, collective memory, gender studies, post-colonialism, and multi-culturalism.

GRMN 7210 Introduction to Second Language Acquisition and Methods of Language Teaching 3 cr

This course provides a general introduction to theories and approaches in second language acquisition (SLA) and methods of language teaching specifically designed for MA students of German and Slavic languages.

GRMN 7240 Colloquium in German Studies 1 3 cr

A detailed study of theoretical and methodological questions in German literature and culture. Course contents will vary from year to year depending on the needs and interests of students and staff.

GRMN 7242 Colloquium in German Studies 2 3 cr

A detailed study of German stylistics, German as a Second Language, or the structure of the German language. Course contents will vary from year to year depending on the needs and interests of students and staff.

GRMN 7300 Special Topics in German Literature and Culture 1750-1945 1 3 cr

Topics dealing with German literature and culture focusing on an author, a systematic topic or period between 1750 and 1945. Contents will vary from year to year depending on the needs of students and staff. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

GRMN 7330 Seminar in Contemporary German Literature and Culture 3 cr

Topics dealing with German literature and culture in the second half of the 20th and in the 21st century. Contents will vary from year to year depending on the needs of students and staff.

GRMN 7340 Seminar in German Film and Media Studies 3 cr

Studies a variety of German media theories and sources, including newspaper, television and film in the 20th and in the 21st centuries.

GRMN 7350 Seminar in German and European Literature and Culture 3 cr

Topics dealing with German literature and culture within a European comparative context. Contents will vary from year to year depending on the needs of students and staff.

GRMN 7360 Independent Studies in German 3 cr

Each student will work with an instructor to prepare a reading program in an appropriate area, depending on the needs of students and staff. The student will present written assignments as required. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Graduate Studies (GRAD)

GRAD 6000 Summer Research 0 cr

Research

GRAD 6100 Visiting Canadian Student Research Course 0 cr

Registration in GRAD 6100 is to formalize the status of visiting Canadian Graduate Student Researchers. Students must meet the terms of the Canadian Graduate Student Research Mobility Agreement (CGSRMA), and submit the Visiting Graduate Student Research Authorization form to be eligible to register.

GRAD 7000 Master's Thesis 0 cr

Should show in general, that the student has mastery of the field and is fully conversant with relevant literature. The process, schedule, format, and style must meet the requirements of the Faculty of Graduate Studies. After approval of the thesis by the thesis examining committee and the completion of any revisions required by that committee, two copies of the thesis must be submitted to the Graduate Studies general office. Thesis students must pass an oral examination on the subject of the thesis and matters relating thereto as prescribed by the department. This course is graded pass/fail.

GRAD 7010 Comprehensive Examination 0 cr

Takes the form of an exercise in the practical application of knowledge and skills, involving the careful definition of a problem and a report on the results in a manner suitable for evaluation by an examining committee. The comprehensive examination is an independent work, for an architectural project selected to demonstrate professional knowledge and skills, culminating in a public presentation. A faculty member serves as an advisor. Consultation, advice, and criticism will be provided by other members of the Faculty and specialized professionals in the various technical and related fields. This course is graded pass/fail.

GRAD 7020 Master's Re-registration 0 cr

Masters re-registration

GRAD 7022 Master's Re-registration 0 cr

MBA and MPA students who are not registering for any courses in Fall and/or Winter terms must register for GRAD 7022 in order to retain status.

GRAD 7030 Master's Practicum 0 cr

Takes the form of an exercise in the practical application of knowledge and skills, involving the careful definition of a problem and a report on the results in a manner suitable for evaluation by an examining committee. This course is graded pass/fail.

GRAD 7050 M.Eng. Project and Report 6 cr

Project and Report

GRAD 7060 Diploma Re-registration 0 cr

Diploma re-registration

GRAD 7090 Design Thesis 0 cr

The Design Thesis is an independently driven creative work developed within a focused subject of inquiry and directed by architectural questions. It is carried out through intensive research, study, and design explorations that culminate in a thoroughly developed architectural proposition. It is to be fully recorded in a final document.

GRAD 7200 MFA Thesis/Studio Exhibition 0 cr

The MFA Thesis is comprised of a written statement and visual thesis that must show that the student has developed an original contribution to knowledge in visual art. The process, schedule, format, and style must meet the requirements of the Faculty of Graduate Studies. Thesis students must pass an oral examination on the subject of the written statement and visual thesis. This course is graded pass/fail.

GRAD 7300 Research Integrity Tutorial 0 cr

In a highly interactive environment, participants will be exposed to practical advice on how to deal with challenging situations that may arise while doing research within their own area of expertise. The course also addresses the latest standards, codes, and policies in the responsible conduct of research both locally and globally. Online tutorial delivered through UM Learn with no pre- or co-requisites. This course graded on a pass/fail basis.

GRAD 7500 Academic Integrity Tutorial 0 cr

New and continuing Masters and Doctoral students will learn about academic integrity by participating in online tutorials. A brief learning-check will be written after the tutorials have been viewed. Students newly admitted to a graduate program must successfully complete this course within the first term of registration. The course grade is a pass/fail.

GRAD 8000 Doctoral Thesis 0 cr

Doctoral Thesis

GRAD 8010 Doctoral Candidacy Examination 0 cr

Doctoral Candidacy Examination

GRAD 8020 Doctoral Re-registration 0 cr

Doctoral re-registration

Greek (GRK)

GRK 7100 Greek Literature 3 cr

A reading course involving a selected Greek author or authors, or a set of related works. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

GRK 7110 Topics in Greek History 3 cr

This course will investigate aspects of Greek history, emphasizing different topics, sources, and theoretical approaches. Possible focuses for the course include a period of Greek history, or a particular region of the Greek world. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

History (HIST)

HIST 7110 Advanced Historical Methodologies 6 cr

This course provides advanced training in key methodologies for historical research and knowledge mobilization. The goal of the course is to familiarize students with the protocols, ethics, procedures, and best practices for historical research in a variety of settings. Students will have opportunities to apply this training to specific projects and to develop a range of skills for historical research, alongside building critical understanding of various historical methodologies. Students will also complete certification in key areas such as oral history and research ethics.

HIST 7190 Studies in United States History since 1877 6 cr

An examination of United States history from the close of the Reconstruction era to the present. Students will gain exposure to the political, economic, social, and/or cultural history of the United States. Course content may vary according to the instructor.

HIST 7220 Selected Topics in British History 6 cr

A detailed examination of selected topics and problems in British history. Topics and content will vary from year to year. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

HIST 7230 Nineteenth-Century Britain 6 cr

A study of British culture, politics, and diplomacy, 1830-1900.

HIST 7240 State and Society in Latin American History 6 cr

Readings focused on state/society relations in the history of Latin America since colonial times. After considering different theoretical approaches, the course will analyze recent works that cover different historical periods, countries, issues, and social factors.

HIST 7270 Special Studies in Social History 6 cr

A seminar course, the content of which will vary from year to year. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

HIST 7290 Reading Seminar in Canadian History, 1860 to the Present 6 cr

While the specific content may vary from year to year, the general approach shall be to ensure a broad sampling of the secondary literature in Canadian history. Political, social and economic themes will be emphasized and particular concern shall be taken with historiographical controversy. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

HIST 7330 History of Western Canada 6 cr

A research course in western Canadian history. The range of subjects will vary from year to year depending on the interests of the students. The subjects range from the fur trade to modern political, social, and economic issues.

HIST 7372 History of Archiving and Archival Records 6 cr

An examination of aspects of the history of archival thought, activities, and records from antiquity to the present. Canadian and international examples since the nineteenth century are emphasized. Students may not hold credit for both HIST 7372 and the former HIST 7370.

Equiv To: HIST 7370

HIST 7382 Archiving in the Digital Age 6 cr

An examination of selected contemporary issues in archival theory and activities in Canada and internationally, with emphasis on the impact of computerization on archiving. The issues are studied in relation to the history of archiving and archival records. Students may not hold credit for both HIST 7382 and the former HIST 7380.

Equiv To: HIST 7380

HIST 7390 Internship in Archival Studies 3 cr

The internship provides an introductory work experience in a Canadian archives to students who have successfully completed the first year of archival studies. The internship will be no less than three months in duration. It is done in the summer after the first year of study.

HIST 7392 Selected Topics in Archival Studies 3 cr

A detailed examination of selected topics and problems in Archival Studies. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

HIST 7470 The Later Middle Ages 6 cr

Selected topics in economics, social, cultural, art and religious history of the later medieval world.

HIST 7500 Jewish and European History and Historiography 6 cr

This seminar examines issues relating to Jewish history and historiography in the context of European history and historiography.

HIST 7510 Early Modern European History 6 cr

A seminar which studies early modern Europe from the perspective of new approaches to historiography.

HIST 7520 The Age of Enlightenment 6 cr

Emphasis on 18th century French intellectual history and its relationship to the origins and course of the French Revolution. Some reading knowledge of French is almost essential.

HIST 7560 The Russian Revolution 6 cr

The events constituting the Revolution proper (1917-21) will be studied in relation to their historical background and in the light of their subsequent impact both nationally and globally.

HIST 7600 Northern Historical Studies 6 cr

This course is based upon a number of studies of various aspects of the North. Particular emphasis is given to the North in relation to the fur trade, exploration, and Canadian development.

HIST 7630 History of Health and Disease 6 cr

An introduction to principal issues and approaches in the history of health and disease. It is not meant to be a strictly chronological survey. Topics and themes may include the development of nursing and medical professions; the transformation of the hospital; mental health; alternative therapies; colonization, infectious disease and aboriginal health; and health and the state.

HIST 7640 Social History of Health and Disease in Modern Canada 6 cr

This course explores the history of health and health care in Canada, with a focus on the late 19th and 20th century. Topics will include colonization, infectious disease, and Aboriginal health; the evolution of medical and nursing professions and the modern hospital; mental health; cancer; alternative therapies; childbirth; and old age. Analytical categories of gender, race, ethnicity, class, and sexuality will run throughout the material.

HIST 7672 Studies in Canadian History 6 cr

This course will focus on social, intellectual, political, and economic themes with emphasis on the western Canadian experience. Specific topics will vary from year to year depending upon the interests of the instructor. Students may not hold credit for both HIST 7672 and the former HIST 7670.

Equiv To: HIST 7670

HIST 7700 Historical Method 6 cr

A seminar and workshop in historical method. The topics covered will encompass conventional research, analysis and writing, as well as the application of social science techniques to the analysis of historical problems, the fundamentals of data processing, and computer applications.

HIST 7710 History and Cultural Studies 6 cr

A working guide to interdisciplinary approaches of the new field of Cultural Studies, examining its principal theoretical bases and existing and potential applications for the historian.

HIST 7730 Modern Latin America 6 cr

An examination of selected themes such as economic and social change, political modernization, and external influences and intervention in Latin America during the 19th and 20th centuries.

HIST 7740 England in the Long Eighteenth Century 6 cr

Selected themes in the history of England's long eighteenth century from 1660-1840. Specific topics will vary from year to year but will generally include the transformation of political culture, the consequences of war, the question of national identities, the emergence of commercial society and the changes to social structure.

HIST 7750 Gender History in Canada 6 cr

Explores the roles, images and experiences of masculinity and femininity in the past. Will familiarize students with the changing theoretical and historiographical terrain of gender history. It will draw on the international literature but focus on the history of gender in Canada, examining how historians analyse masculinity, femininity, the family, sexuality, politics, race/ethnicity, moral regulation, class, nation, and colonialism.

HIST 7760 History of Aboriginal Rights 6 cr

A study of Aboriginal rights from early contact to the present with a particular emphasis on treaties, the courts, and Aboriginal efforts to enforce specific forms of rights.

HIST 7770 Selected Topics 6 cr

A program of independent reading and/or research on selected topics, undertaken and arranged by a student in consultation with his prospective instructor, upon the approval of the Graduate Chair. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

HIST 7772 Selected Topics 3 cr

The content of this course varies. Courses offered under this number will be advanced graduate seminars investigating topics that are not part of an existing seminar course. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

HIST 7774 Independent Study/Reading 3 cr

The content of this course will vary. It will be an advanced, independent reading/study course for graduate students, on a topic of particular interest to the student. Normally the topic will be one that the student cannot study in an existing seminar course. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

HIST 7776 Major Research Paper 0 cr

The Major Research Paper (MRP) is a piece of original writing based on primary research, submitted in fulfillment of the JMP in History, Major Research Project stream. It is of roughly 34-40 pages (8,500-12,000 words). The student consults the Chair of the Joint Discipline Committee in History to select an Advisor. The student meets with the Advisor to develop a topic for the paper. After the MRP is submitted, it is circulated to a second reader. The MRP is graded pass/fail.

HIST 7820 Issues in Modern Asian History: Selected Topics 3 cr

Content will vary. Emphasis will be on the analyses of important issues and recent developments in the history and historiography of modern Asia. Consult the History Department for particulars. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

HIST 7910 Studies in Modern World History 6 cr

Advanced historical study of topics in world and global history. Course examines historiographical debates in the field and may include opportunities for original primary research. Specific thematic, methodological, and theoretical approaches may vary by instructor.

HIST 7920 Popular Radicalism in the Modern World 6 cr

Selected topics in the history of popular movements of social and political protest in the modern world. The course considers problems such as the conditions and motivations that give rise to social movements, the development of radical theory and political practice, and the culture of dissent.

HIST 7930 Imperialism, Decolonization and Neo-Colonialism 1700-Present 6 cr

An exploration of theoretically informed literature that has attempted to engage with and understand Imperialism and Colonialism, Anti-colonial nationalism, National liberation movements and Neo-Colonialism.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor.

HIST 9090 UW GHIST-7507 Gender History in Canada 6 cr

Course may be taken as part of a Master of History program offered jointly with the University of Winnipeg.

HIST 9130 UW GHIST-7002 Independent Study/Reading 3 cr

Course may be taken as part of a Master of History program offered jointly with the University of Winnipeg.

HIST 9312 UW HIST 4212 Topics in Modern European History 6 cr

Course may be taken as part of a Master of History program offered jointly with the University of Winnipeg.

HIST 9322 UW HIST-4902 Selected Topics in the History of Science 6 cr

Course may be taken as part of a Master of History program offered jointly with the University of Winnipeg.

HIST 9420 UW GHIST-7210 Early Modern European History 6 cr

Course may be taken as part of a Master of History program offered jointly with the University of Winnipeg.

HIST 9540 UW GHIST-7608 Studies in American History to 1877 6 cr

Course may be taken as part of a Master of History program offered jointly with the University of Winnipeg.

HIST 9570 UW HIST 4610 The Origins of the Civil War in the United States 6 cr

Course may be taken as part of a Master of History program offered jointly with the University of Winnipeg.

HIST 9580 UW HIST 4910 Themes in the History of Medicine 6 cr

Course may be taken as part of a Master of History program offered jointly with the University of Winnipeg.

HIST 9610 UW GHIST-7517 Studies in Canadian History 6 cr

Course may be taken as part of a Master of History program offered jointly with the University of Winnipeg.

HIST 9612 UW HIST 4103 Colonization and the Age of Modernity in Latin America 6 cr

Course may be taken as part of a Master of History program offered jointly with the University of Winnipeg.

HIST 9620 UW HIST 4213 Topics in Early Modern Women's History 6 cr

Course may be taken as part of a Master of History program offered jointly with the University of Winnipeg.

HIST 9632 UW GHIST-7903 History of Health and Disease 6 cr

Course may be taken as part of a Master of History program offered jointly with the University of Winnipeg.

HIST 9640 UW HIST-4130 History and Memory 6 cr

Course may be taken as part of a Master of History program offered jointly with the University of Winnipeg.

HIST 9642 UW GHIST-7007 History and Memory 6 cr

Course may be taken as part of a Master of History program offered jointly with the University of Winnipeg.

HIST 9646 UW GHIST-7108 Studies on Modern World History 6 cr

Course may be taken as part of a Master of History program offered jointly with the University of Winnipeg.

HIST 9648 UW GHIST-7001 Selected Topics 3 cr

Course may be taken as part of a Master of History program offered jointly with the University of Winnipeg.

HIST 9650 UW HIST-4112 History of the Atlantic World, 1450-1825 3 cr

Course may be taken as part of a Master of History program offered jointly with the University of Winnipeg.

HIST 9670 UW HIST 4830 The History of Museums and Collecting 6 cr

Course may be taken as part of a Master of History program offered jointly with the University of Winnipeg.

Human Anat. and Cell Science (ANAT)

ANAT 7012 Advanced Brain Imaging Methods 1.5 cr

Basic concepts and theories behind advanced brain imaging methods will be introduced, which includes multivariate pattern analysis and machine learning. Then, students will run the learned analyses using sample data in class and in homework.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: IMED 7004.

ANAT 7014 Functional Human Anatomy 2 cr

This course is an overview of human anatomy from a functional perspective. The students will be introduced to the structure and function of neuromuscular system. The course is specifically designed for students enrolled in programs in which a background in biology and /or anatomy is not a prerequisite (e.g. biomedical engineering). May not be held with the former BME 7014.

Equiv To: BME 7014

ANAT 7060 Advanced Human Macroscopic (Gross) Anatomy 6 cr

Dissection, with special emphasis on regions relative to the research projects and interests of students concerned. Both terms.

ANAT 7250 Experimental Teratology 3 cr

Basic principles of experimental teratology in lectures, seminars, and practical work. The causes, embryological basis, and mechanisms of developmental defects will be covered.

ANAT 7320 Introduction to Scanning and Transmission Electron Microscopy 3 cr

Designed to provide general theoretical aspects of electron microscopy and practical knowledge of electron microscopic laboratory procedures. 3 hours lecture/lab per week, one term. Minimum enrollment: 5 students.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructors.

ANAT 7330 Readings in Anatomy 3 cr

Regular tutorials on selected topics in Anatomy and research related to student's research work. The tutorials will be incorporated into the Department's seminar program.

ANAT 7380 Human Developmental Anatomy (Embryology) 3 cr

Human development as it is of practical application to medical subjects.

ANAT 7392 Human Neuroanatomy 3 cr

(Laboratory required). The objective of this course is to provide an introduction to the structure and function of the nervous system from an anatomical perspective. It is intended primarily for graduate students registered in the Department of Human Anatomy and Cell Science. The course consists of a combination of lectures and laboratory sessions. The lectures will provide an introduction to the basic structure and function of the nervous system. Disorders of the nervous system will be discussed to highlight the function of different components of the nervous system. Laboratory sessions will be scheduled at regular intervals to provide students the opportunity to examine the three-dimensional structure of the nervous system.

ANAT 7400 Morphological Techniques 3 cr

Designed to develop advanced morphological techniques such as immunohistochemistry and cell culture.

ANAT 7460 Human Histology: Basic Tissues 1.5 cr

A lecture and lab course that examines the histological features of the 4 basic tissue types found within the human body. The microscopic structure will be correlated to function in each of the basic tissues of the human body. The clinical significance of structural and functional changes at the histological level will also be presented. May not be held with ANAT 7360.

Mutually Exclusive: ANAT 7360

ANAT 7462 Human Histology: Blood, Immune, and Cardiopulmonary Systems 1.5 cr

A lecture, lab, and student presentation course that examines the histological features of the blood, immune system, cardiovascular, and respiratory systems within the human body. The microscopic structure will be correlated to function in each of these systems. The clinical significance of structural and functional changes at the histological level will also be presented. May not be held with ANAT 7360.

Mutually Exclusive: ANAT 7360

ANAT 7464 Human Histology: Gastrointestinal System and Endocrine Glands 1.5 cr

A lecture, lab, and student presentation course that examines the histological features of the gastrointestinal system (including associated glands) and endocrine glands within the human body. The microscopic structure will be correlated to function in each of these systems. The clinical significance of structural and functional changes at the histological level will also be presented. May not be held with ANAT 7360.

Mutually Exclusive: ANAT 7360

ANAT 7466 Human Histology: Reproductive and Urinary Systems, Skin , and Special Senses 1.5 cr

A lecture, lab, and student presentation course that examines the histological features of the reproductive system, urinary system, skin and special senses within the human body. The microscopic structure will be correlated to function in each of these systems. The clinical significance of structural and functional changes at the histological level will also be presented. May not be held with ANAT 7360.

Mutually Exclusive: ANAT 7360

ANAT 7470 Graduate Gross Anatomy 6 cr

A comprehensive Human Gross Anatomy study of the structures of the whole human body. The structure and function of the body systems will be covered through lectures (such as anatomical, clinical, radiological, cross sectional) and complemented by laboratory sessions with cadaver dissection of whole cadavers, including review and reading sessions.

Human Nutritional Sciences (HNSC)

HNSC 7070 Advanced Problems in Foods 3 cr

Selected topics related to consumer acceptability of foods.

HNSC 7110 Advanced Problems in Nutrition 3 cr

Studies of selected problems and programs in community nutrition emphasizing program planning and evaluation.

HNSC 7200 Seminar in Food and Nutrition Research 3 cr

A critical study of selected topics in food and nutrition research involving oral presentations and discussions. This is a required course for all M.Sc. students in the department of Foods and Nutrition.

HNSC 7440 Protein Nutrition and Metabolism 1.5 cr

Lectures and critical reviews will be used to discuss recent/significant research advances in the fields of protein nutrition and metabolism, pertinent to mammalian physiology. Also offered as ANSC 7440 by the Department of Animal Science.

Equiv To: ANSC 7440

HNSC 7450 Energy and Carbohydrate Nutrition and Metabolism 1.5 cr

Lectures and critical reviews will be used to discuss recent/significant research advances in the field of energy/carbohydrate nutrition and metabolism, pertinent to mammalian physiology. Also offered as ANSC 7450 by the Department of Animal Science.

Equiv To: ANSC 7450

HNSC 7460 Lipid Nutrition and Metabolism 1.5 cr

Lectures and critical reviews will be used to discuss recent/significant research advances in the field of lipid nutrition and metabolism, pertinent to mammalian physiology. Also offered as ANSC 7460 by the Department of Animal Science.

Equiv To: ANSC 7460

HNSC 7470 Vitamin Nutrition and Metabolism 1.5 cr

Lectures and critical reviews will be used to discuss recent/significant research advances in the field of vitamin nutrition and metabolism, pertinent to mammalian physiology. Also offered as ANSC 7470 by the Department of Animal Science.

Equiv To: ANSC 7470

HNSC 7480 Mineral and Trace Element Nutrition and Metabolism 1.5 cr

Lectures and critical reviews will be used to discuss recent/significant research advances in the field of mineral nutrition and metabolism, pertinent to mammalian physiology. Also offered as ANSC 7480 by the Department of Animal Science.

Equiv To: ANSC 7480

HNSC 7490 Phytochemical Nutrition and Metabolism 1.5 cr

Lectures and critical reviews will be used to discuss recent/significant research advances in the field of phytochemical nutrition and metabolism, pertinent to mammalian physiology. Also offered as ANSC 7490 by the Department of Animal Science.

Equiv To: ANSC 7490

HNSC 7500 Chemistry and Function of Food Lipids 1.5 cr

Lectures and critical reviews will be used to discuss recent/significant research advances in the field of food lipid development, processing, analysis and function.

HNSC 7510 Flavour Chemistry and Sensory Properties of Foods 1.5 cr

Lectures and critical reviews will be used to discuss recent/significant research advances in the field of food flavour and off-flavour chemistry and in the mechanics of sensory assessment.

HNSC 7520 Nutraceuticals in Human Health 1.5 cr

Lectures and critical reviews will be used to discuss recent/significant research advances in the field of nutraceuticals and the impact of food and raw materials on nutrition and human health.

HNSC 7530 Nutrition in Public Policy 1.5 cr

Focus on public policy related to the nutrition and health status of Canadians, including food and nutrition policies, health public policy, influence of trade regulations, context of health systems, social and economic environments.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor

HNSC 7540 Nutritional Epidemiology 1.5 cr

Focus on epidemiology principles and survey techniques for assessing and predicting individual nutritional status, assessing relevant community resources and reporting results to granting agencies and decision makers.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor

HNSC 7560 Current Topics in Human Nutrition 1.5 cr

Lectures and critical reviews will be used to discuss recent/significant research advances in nutrition and foods research.

HNSC 7570 Theoretical Approaches to Dietary Change Intervention 1.5 cr

Theoretical approaches to dietary behaviour change and critical analysis of their application in nutrition intervention programs for individuals and populations.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor

Human Res. Mgmt/Indus Relat. (HRIR)

HRIR 7140 Topics in Industrial Relations/Human Resource Management 3 cr

An in-depth analysis of various topics in industrial relations and human resource management.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite or co-requisite: GMGT 7220.

HRIR 7162 Staffing 3 cr

This graduate seminar provides an understanding of the staffing function of HRM. It focuses on how recruitment, selection, performance and retention management, function within an organization to gain a competitive advantage through the management of work and people.

Pre-or

PR/CR: A minimum grade of C is required unless otherwise indicated.

co-requisite: GMGT 7220.

HRIR 7164 Training and Development 3 cr

This graduate seminar provides an understanding of the training and development functions of HRM. The course focuses on how to design, implement, and evaluate a training program, and employee development and career management.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite or co-requisite: GMGT 7220.

HRIR 7166 Compensation 3 cr

A review of the major concepts and design of compensation systems such as: strategy, external competitiveness, rewarding individual contributions, performance incentives, employee benefits, government regulations, union role in compensation, budgets and administration. Pre-or

PR/CR: A minimum grade of C is required unless otherwise indicated.

co-requisite: GMGT 7220.

HRIR 7168 The Management of Labour and Employee Relations 3 cr

An examination of the systems of labour and employee relations in Canada as it compares with the systems of other countries. Emphasis upon understanding and managing labour and employee relations in a changing economy. Not to be held with HRIR 7500. Pre-or

PR/CR: A minimum grade of C is required unless otherwise indicated.

co-requisite: GMGT 7220.

Equiv To: HRIR 7500

HRIR 7460 Collective Bargaining 3 cr

The labour management relations in the negotiation and administration of the collective agreement. The analysis of conflict and the application of bargaining theories.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or co-requisite: GMGT 7220.

Human Rights (HMRT)

HMRT 7100 Theory and Practice of Human Rights: Critical Perspectives 3 cr

This course critically analyzes, from an interdisciplinary perspective, the theory and practice of human rights as a framework for social justice. The course examines historical and current human rights struggles to better understand the potential, politics, challenges and limitations of the international human rights framework.

HMRT 7200 Selected Topics in Human Rights Research and Methods 3 cr

This seminar course will explore multidisciplinary approaches to qualitative, quantitative, legal, and/or community-based research methods, as applicable to academic human rights research and projects overseen by governmental and non-governmental organizations. particular attention will be paid to the intricacies of ethically, politically and culturally sensitive research.

HMRT 7300 Human Rights Law 3 cr

Critical and constructive study, at an advanced level, of a significant major subject or set of topics in Human Rights Law. Restrictions: Must be enrolled in one of the following programs: Faculty of Law, Master of Human Rights. This course is cross-listed with LAW 3018. Students may not hold credit for both LAW 3018 and HMRT 7300.

Equiv To: LAW 3018

HMRT 7510 Special Topics in Human Rights 3 cr

Critical and constructive study, at an advanced level, of a significant major subject or set of topics in Human Rights. Students may earn multiple credits for this course only when the topic subtitle is different.

HMRT 7800 Research paper in Human Rights 3 cr

An independent reading and/or research course on a selected topic in human rights, undertaken and arranged in consultation with the prospective instructor, upon the approval of the program director, the course content may vary. Students may earn multiple credits for this course only when the topic subtitle is different.

Icelandic (ICEL)

ICEL 7040 Advanced Icelandic 6 cr

Advanced modern Icelandic usage through translation (English-Icelandic/Icelandic-English), practical exercises, and free composition. Study of fictional and non-fictional texts.

ICEL 7050 Individual Modern Authors 6 cr

Icelandic literature in the 20th century. Study of modern and contemporary Icelandic literature focusing on a major author.

ICEL 7060 Old Icelandic Prose: Seminar 6 cr

Study of Old Norse-Icelandic sagas focusing on a specific genre or theme.

ICEL 7070 Old Icelandic Poetry: Seminar 6 cr

Study of Old Norse-Icelandic poetry focusing on a specific genre or theme.

Immunology (IMMU)

IMMU 7020 Immunobiology 6 cr

This course provides a broad perspective of the evolving concepts of the mechanisms underlying the regulation of the immune response. Students admitted to this course will be expected to have sufficient background knowledge of general biology.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: IMMU 7070 plus cognate courses in molecular biology, or by consent of instructors.

IMMU 7030 Seminars in Immunology 3 cr

Presented by senior graduate students on advanced research topics not directly related to the student's thesis subject. The purpose of this course is to test the student's ability to evaluate critically a specialized topic both orally and in an essay form. This course is graded pass/fail.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: IMMU 7110 or IMMU 7020 or by consent of instructors.

IMMU 7040 Immunological Methodology 3 cr

This lecture course is designed to provide an understanding of modern methods used for basic research in Immunology or other biomedical disciplines utilizing immunological techniques.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: IMMU 7070 or by consent of instructors.

IMMU 7070 Introductory Immunology 3 cr

This course provides a broad survey of modern immunology, covering such topics as molecular concepts of antigenic specificity, chemistry of antibodies and their interactions with antigens and cells, regulation of the immune response, transplantation and tumor immunology.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: general courses in chemistry, biochemistry and biology, or by consent of instructors.

IMMU 7090 Selected Topics in Immunology 3 cr

Assigned reading and written literature review on topics not normally covered in other IMMU courses. Course content will vary depending on the advances in the field and interests of the students.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: IMMU 7070 or IMMU 7100 or consent of instructors.

IMMU 7100 Advanced Topics in Immunology 3 cr

Lectures and assigned reading providing an advanced level understanding of the molecular and cellular mechanisms governing the immune response. The course will build on basic knowledge learned in IMMU 7070 and emphasize recent advances and recently-developing concepts in the field of Immunology.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: IMMU 7070 or by consent of instructors.

IMMU 7110 Molecular Immunology 6 cr

This course covers in depth the structure, molecular biology and function of immunoglobulins, histocompatibility antigens, regulatory factors receptors and adhesion molecules on cells of the immune system; mechanisms of immunochemical reactions and the immunogenicity of antigens.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: IMMU 7070 plus undergraduate courses in organic chemistry, physical chemistry and biochemistry, or by consent of instructors.

Interdisciplinary Management (IDM)

IDM 7010 Industry Project 3 cr

Supervised study and research of a problem opportunity in business or management. Specific course requirements determined by the faculty member assigned to be the course coordinator. In addition, each project will be supervised by a faculty member expert in the area. Projects consist of written report(s) containing substantive, practical evidence and analytically structured comments, academic materials, and bibliographical references. Pass/Fail basis only.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: completion of all 600-level MBA courses (or equivalent experience) and consent of MBA program director.

IDM 7020 Managing for Sustainable Development 1.5 cr

Strategic issues related to the manager's role in sustainable development, including enterprises in the renewable and non-renewable resource sectors, life-cycle analysis, and full cost accounting. Emphasis is placed on environmental management control systems, environmental performance measurement, reporting, and the impact of environmental management on strategic management decisions.

IDM 7030 Social and Community Awareness Project 0 cr

An experiential project examining issues related to economically and/or socially disadvantaged individuals and groups with emphasis on corporate social responsibility. This course is graded pass/fail.

IDM 7040 Leadership and Personal Development Seminar 0 cr

Preparation in computer, technical, interpersonal, and team-building skills for MBA MANITOBA program. This course is graded pass/fail.

IDM 7050 International Study Trip 3 cr

A supervised international experience to examine the relationship between corporations, senior managers, and social institutions in selected countries. Examination of the interplay between culture, economic development, management systems and strategies in other countries. Emphasis upon establishment of business networks on an international basis.

IDM 7070 Fundamental Professional & Leadership Seminar 1.5 cr

Series of seminars covering fundamental topics essential for modern management including business ethics and managing diversity.

IDM 7080 Professional and Leadership Seminar 1.5 cr

Series of seminars covering fundamental topics essential for modern management including such topics as: aboriginal business, managerial law, situational leadership, creating shareholder value, developing a business plan, and career management.

IDM 7090 Interdisciplinary Management Topics 3 cr

This is a graduate-level MBA course on a very specialized topic and is offered on an infrequent basis. Course content will be an examination of specialized topics or issues which may cross-pollinate with other business related areas. The overall aim of the course is to provide solid practical knowledge about a developing subject, to understand both implications and potential applications for organizations and their leadership today and in the future. Some topics could, for example, include Global Social Enterprise, Global Sales Distribution, Channel Management, Big Data and the Corporation, Infrastructure and Real Estate, and Coaching International Teams. Students may not hold credit for IDM 709 and IDM 7092 with the same topic title.

Equiv To: IDM 7092

IDM 7092 Interdisciplinary Management Topics 1.5 cr

This is a graduate-level MBA course on a very specialized topic and is offered on an infrequent basis. Course content will be an examination of specialized topics or issues which may cross-pollinate with other business related areas. The overall aim of the course is to provide solid practical knowledge about a developing subject, to understand both implications and potential applications for organizations and their leadership today and in the future. Some topics could, for example, include Global Social Enterprise, Global Sales Distribution, Channel Management, Big Data and the Corporation, Infrastructure and Real Estate, and Coaching International Teams. Students may not hold credit for IDM 709 and IDM 7092 with the same topic title.

Equiv To: IDM 7090

IDM 7120 Executive Leadership and Responsibilities 3 cr

This course explores the nature of the challenges inherent in senior leadership. After contemplating the generic challenge of responsible executive leadership, students engage in extended dialogues with several executives concerning their experience in leading organizations with special attention to selected program themes. Not to be held with IDM 7060.

Mutually Exclusive: IDM 7060

IDM 7130 Contemporary Themes in Business 1.5 cr

This course exposes students to salient themes found in the modern business environment. Students will develop a broad appreciation for the challenges and opportunities presented by these contemporary themes (e.g. International and Emerging Markets: Sustainability: Entrepreneurship and Innovation).

IDM 7140 Co-op for Professional Graduate Programs 3 cr

Work assignment in business, industry, or government for students registered in an Asper School of Business Professional Graduate Co-operative Education Program. For Asper Professional Graduate students only.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Written permission from the Asper School of Business Professional Graduate Co-operative Education Program, IDM 5120, a current degree GPA of 3.00 or higher, and completion of at least 27 credit hours in the current degree program.

IDM 7510 Strategic Leadership and Managing Change 1.5 cr

An examination of the role of the manager as a change agent and processes associated with strategic vision and change. Analysis of factors affecting strategic decisions and how organizations adapt to their environment. Emphasis is upon the role of leaders: transformational leadership, charisma, organizational design and managing organizational culture change.

Interdisciplinary Medicine (IMED)

IMED 7004 Human Brain Imaging Methods 1.5 cr

The role of in vivo brain imaging (e.g., CT, MRI, PET, SPECT) have been rapidly increasing in the multiple disciplines that investigate the human brain in both clinical and nonclinical domains. The basic concepts, mechanisms and analytical techniques will be introduced for different imaging methods. Students will gain knowledge about what can be done and what cannot be done with each modality.

IMED 7092 Cell Biology A Introductory 3 cr

Lecture, seminar, tutorial and/or demonstration course devoted to basic structure and molecular functions of the different parts of the cell, beginning with the nucleus and concluding with the cell membrane. Topics include basic genetic inheritance principles, chromosomes and gene regulation, protein synthesis and sorting, mitochondrial functions and genetics, biochemical and electrical properties of cell membrane functions.

IMED 7094 Cell Biology B Special Topics 3 cr

Lecture, seminar, tutorial and/or demonstration course devoted to the coordination and integration of cellular functions in complex multicellular organisms. Topics include functional interactions between extracellular matrix, cytoskeletons and membranes, cell and extracellular matrix interactions, cell-to-cell communication including signal transduction mechanisms, concepts in the regulation of cell growth and cell death and pluripotent stem cells, and their relevance to normal organ/body development and malignancy.

IMED 7096 Stem Cell Biology: Introduction to the Principles of Regenerative Medicine 1.5 cr

"Stem Cell Biology" focuses on current knowledge of stem cell biology and regenerative medicine. We will discuss different conceptual aspects of stem cell properties and potency with a solid coverage of fundamental concepts including stem cell niches and microenvironment. We will further highlight the importance of stem cells in relation to human diseases including cancer (cancer stem cells), spinal cord injury, stem cell modeling of neurological disorders, and transplantation. Finally, this course will have an informative session on important ethical issues surrounding embryonic stem cells. This course is suitable for a broad range of graduate students with relevant research interests in stem cell biology and regenerative medicine.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: A basic course in Biology or consent of the instructor(s).

IMED 7098 Cancer Stem Cell Concepts and Therapeutic Applications 1.5 cr

This course will introduce normal and cancer stem cell concepts, with an emphasis on the hierarchical of tumours and the diverse roles of tissue microenvironment in sculpting tumour cell phenotypes. Also, targeting of putative cancer stem cells will be discussed in the context of developing novel treatment strategies.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Undergraduate course in cell biology or consent of instructor(s).

IMED 7100 Fundamentals of Neuroscience 6 cr

An interdepartmental multidisciplinary course providing a comprehensive overview of cellular, molecular, developmental and systems neuroscience, as well as the neurobiology of disease. Emphasis will be placed on the application of the fundamental principles of neuroscience to contemporary lab research. ANAT 7270 will provide instruction in neuroanatomy and structure-function in the nervous system.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of instructor.

IMED 7104 Neural Stem Cells: Biology and Regenerative Medicine Applications 1.5 cr

This course will discuss current concepts in Neural Stem Cells from basic neurobiology (development, fate specification and maintenance) to their potential clinical applications in treating a broad range of neurological disorders through cell transplantation as well as gene and drug delivery. Neural stem cells play critical roles in the nervous system and the course is developed to build the necessary knowledge for graduate students and residents within all disciplines in neurosciences.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: By instructor approval only.

IMED 7106 Stem Cell Therapy and Tissue Engineering 1.5 cr

Stem cell therapy opens up new avenues and has the potential to provide permanent solutions to many irreversible disorders in the body. This course will discuss different aspects of stem cell mediated repair and challenges involved in taking stem cells to the clinical applications. This course will further discuss the use of biomaterials based approaches to enhance homing and engraftment of transplanted stem cells in different organs. The course will also provide an overview of current status of stem based clinical trials, regulatory requirements in clinical practice, and ethical issues that arise.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: by instructor approval only.

IMED 7110 Foundations of Scientific Teaching in Bioscience Education 1.5 cr

This course has been designed to provide doctoral students with an overview of evidence-based principles of learning and teaching, and to enable them to incorporate these principles into the scientific teaching theory, within the context of Bioscience education. The course also prepares the students, as future faculty, to think about learning and teaching as a scholarly endeavor.

IMED 7112 Fundamental Cellular Neurobiology 1.5 cr

This lecture-based course covers the fundamentals of cellular/molecular neurobiology of the nervous system. It will normally be offered on a two year cycle, and students interested in registering should contact the Course Director.

IMED 7114 Fundamental Neural Development and Plasticity 1.5 cr

This lecture-based course covers the fundamentals of development and plasticity of the nervous system. It will normally be offered on a two year cycle, and students interested in registering should contact the Course Director.

IMED 7116 Fundamental Systems Neuroscience 1.5 cr

This lecture-based course covers the fundamentals of systems based neuroscience. It will normally be offered on a two year cycle, and students interested in registering should contact the Course Director.

IMED 7118 Fundamental Neurobiology of Disease 1.5 cr

This lecture-based course covers the fundamental neurobiology of diseases of the nervous system. It will normally be offered on a two year cycle, and students interested in registering should contact the Course Director.

IMED 7120 Medical Biochemistry 3 cr

Biochemistry of carbohydrates, lipids, proteins and nucleic acids focused on those areas relevant to structure and function of the human body and disease processes. All students are expected to have completed an introductory biochemistry course. The course will consist of lectures, tutorials, and assigned studies.

IMED 7130 Foundations in Human Population and Evolutionary Genetics 1.5 cr

This course will examine how human evolutionary history and sociogenetic processes have shaped contemporary patterns of genetic variation, how we can use these patterns to understand the histories and relationships of contemporary human populations, and appropriate methods to assay and interpret these genetic variation patterns.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Incoming students must have passed the graduate Medical Genetics (IMED 7170) course or its undergraduate equivalent, Introduction to Human Genetics (BGEN 3020), or equivalent course prior to taking this course.

IMED 7140 Advanced Topics in Human Population and Evolutionary Genetics 1.5 cr

This course will examine the latest genetic evidence on the origins and evolution of anatomically modern humans and their peopling of the world, the coevolution of genes and culture, and the emergence and dispersal of genetic risk factors for Mendelian and complex diseases and traits that afflict contemporary human populations.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Incoming students must have passed the Foundations in Human Population and Evolutionary Genetics (IMED 7130) or an equivalent course prior to taking this course.

IMED 7170 Medical Genetics 3 cr

Designed to introduce graduate students to the field of human genetics. Both basic science and clinical issues will be discussed in this course.

IMED 7180 Molecular Approaches in Medical Research 3 cr

For students who wish to understand advances made in medicine/biology through molecular and developmental approaches. Topics for discussion will be selected from the recent literature in consultation with participating students. The course will consist of lectures and discussions as well as written and oral presentation of papers by the students.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

IMED 7190 Medical Immunology 3 cr

This interdisciplinary course deals with the molecular and cellular mechanisms underlying immunologically mediated human diseases.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: IMMU 7070 plus cognate courses in human biology or by consent of instructors.

IMED 7200 Cancer Biology 3 cr

Biology of cancer including genetics, biochemistry, diagnostics and therapeutics with a focus on fundamental, translational and clinical application.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: All students are expected to have completed an introductory biochemistry, cell biology or genetics course and will require consent of instructor.

IMED 7210 Epigenetics in Development and Human Diseases 1.5 cr

Emphasis on current understanding about the dynamic mechanisms that instruct when and where genomic DNA is turned on or off. We will discuss the epigenetic mechanisms that control differentiation of specialized cell types during development. Additionally, this course will highlight recent advancements on the impact of epigenetics in neurodevelopmental diseases with regards to the etiology, progression, diagnosis and treatment. In this respect, application of stem cell biology in regenerative medicine, genome-wide genetic-epigenetic strategies and gene therapy approaches will be discussed.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: A basic course in biology, or consent of instructor.

IMED 7212 Introduction to the Mechanisms of Disease 3 cr

(Formerly: PATH 7020) This course introduces the student to the basic principles of disease processes, with use of case models to illustrate mechanisms. An assigned review, in conjunction with an essay and power point presentation will form part of the course. There are no course prerequisites.

IMED 7242 Nucleic Acids: Structure and Function in Normal Development and Diseases 1.5 cr

This course is designed to provide students with a basic knowledge on nucleic acids structure and function. It will highlight how DNA and RNA contribute to the mechanisms and underlying normal development as well as pathologies including cancer and genetic diseases. To be fully beneficial for the student, it is highly recommended that this course be taken together with IMED 7244.

IMED 7244 Nucleic Acids: Manipulation in Biomedical Research 1.5 cr

This course is designed to provide students with a basic knowledge on nucleic acids manipulation. It will highlight how DNA and PNA can be modified and used in Biomedical Research. To be fully beneficial for the student, it is highly recommended that this course be taken together with IMED 7242.

IMED 7280 Medical Computational Biology 3 cr

"Medical Computational Biology" provides the basic knowledge necessary for students to pursue research in the use of computational methods in biomedical research. The course will focus on concepts necessary for applying computation to genomics, transcriptomics and proteomics experimental data and their application to topics relevant to human health. This course is suitable for a broad range of students with interest in large scale biomedical research.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: a basic course in biology and mathematics or the consent of the instructor(s).

IMED 7290 Developmental Biology 3 cr

Emphasizes current principles of organ system development and its application to transgenic approaches to gene function in the context of a whole, developing organism.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: IMED 7090 or consent of instructor.

IMED 7300 Microscopy, Optics, Imaging and Analysis in Health Research 3 cr

Theory and practice of modern microscopy, optics, molecular imaging, and analyses used in health research. Participants will gain in depth knowledge through seminars by local and external experts in the field and by hands-on laboratory work in preparing samples for imaging and analyses. Images will be acquired using equipment at the Genomic Centre for Cancer Research and Diagnosis at the Manitoba Institute of Cell Biology. Students will also participate in interactive tutorials and journal club.

IMED 7302 Advanced Molecular Imaging 3 cr

Seminar course in which students will learn about innovative methods and advanced analyses of molecular imaging in biomedical research including 2-dimensional and 3-dimensional fluorescent in situ hybridization, live-cell imaging, spectral imaging, and multi-colour imaging. Students will participate in hands-on laboratory exercises, interactive tutorials and journal club.

IMED 7304 Functional Genomics and Whole Genome Analyses 3 cr

Seminar course in which students will learn about functional genomics and approaches to whole genome analyses using array technologies. Course content will be delivered by local and external experts in the field. Students will participate in hands-on laboratory exercises with microarray platforms and computer-based data analyses, interactive tutorials and journal club.

IMED 7410 Biomedical Trainee Skills 3 cr

A course theoretical and practical instruction in scientific investigation, including research ethics, research design, data evaluation and presentation, as well as critical reviewing and preparation of applications for research funding.

Interior Design (IDES)

IDES 7000 Graduate Seminar in Interior Design 3 cr

A seminar course for students registered in thesis or practicum designed to assist in the determination of a relevant topic; formulation of a hypothesis, academic writing sources of information and the appropriate form and content of the thesis practicum.

IDES 7060 Special Studies 3 cr**IDES 7170 Design Research Methods 3 cr**

Building on EVIE 3640 Design Inquiry, this course addresses the role of quantitative and qualitative research methods in interior design. The subject will address the principles of quantitative and qualitative research methodologies; focusing on the relationship between research and interior design. Specifically identifying gaps in existing research; critical analysis and interpretation of existing research; representation of research intentions, methodologies, and results.

IDES 7180 Theory Seminar 1 - Contemporary Issues in Design 3 cr

A theoretical exploration of contemporary design issues as they apply to Interior Design, supporting the work of design studio. Historical precedent in relation to human activity, sensory stimulus, technological and social change, ecological awareness, and aesthetic judgment forms the context for discussion and debate.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EVIE 3002 and EVIE 4000 or equivalent.

IDES 7190 Theory Seminar 2 - Critical Perspectives 3 cr

An examination of theoretical and philosophical approaches to design. Examines the practice of interior design through a variety of critical and historical perspectives. Different modes of thought and manners of questioning will be used to debate issues.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EDES 7180.

IDES 7200 Masters Studio 1 - Strategic Issues 6 cr

Master Studio 1 focuses on developing strategic approaches to design, which address complex contextual issues and adaptive reuse of large-scale public space. Studio explorations responding to a range of complex contextual design issues. The studio focuses on methods of strategic analysis such as mapping and scenario planning to inform the configuration and resolution of new interior spatial forms. Large scale public space and the changing nature of contemporary culture will form the basis for the design projects.

IDES 7210 Masters Studio 2 - Events and Making 6 cr

Master Studio 2 is focused on the Event: exploring the nature of temporary inhabitation through the creation of a unique place/installation as the site for cultural/community celebration. Design/build studio explorations focused upon issues of temporality, technology, and design intention. Small-scale public places and cultural context will form the basis for design studio projects.

IDES 7220 Masters Studio 3 6 cr

Focuses on the creation of specialized interior environments informed by traditional and emerging forms of research. Research into Practice: a research-focused, problem based, studio bridging Studio 3 will examine specialized interior professional design issues and diverse research sources. Master projects in areas such as: work environments, healthcare, education or hospitality, through precedent and research. The studio may be run as a collaborative program and may be delivered as an International studio experience.

IDES 7230 Sensory Technology 4 3 cr

Examination of the influences and effects of emerging communication systems and building technologies; building and furniture systems; in the context of human well-being and environmental concerns. The study of the design consequences and environmental impact of interior services and systems; communication technologies; building regulations, codes and infrastructure; detailing and specification of projects drawn from design studio.

IDES 7240 Sensory Technology 5 3 cr

A self-directed exploration of new and/or divergent technologies, with significance to the design of interior environments. Students will propose a self-directed design or research project, nominating a full time staff advisor; for the subject instructors' approval. The proposal will clearly establish learning objectives and outcomes, and assessment criteria.

IDES 7250 Professionalism and Practice 3 cr

Introduction to the profession and practice of Interior Design; types of practice; regulating bodies; education; career development; professional and social responsibilities; examination and critique of practice, projects and design issues.

IDES 7270 Travelling Concepts in Photography 3 cr

This course is a graduate level photography elective that combines the practice, theory and history of photography. The outcome is to stimulate the use of photography as a visionary and hands-on tool. The final outcome will be an exhibition of student work.

IDES 7280 Advanced Topics in Contemporary Interior Design Seminar 3 cr

This seminar is a forum for discovering the character of current international design practices. It emphasizes the development of writing skills by exploring models for formulating criticism and applying them through a sequence of written exercises. Discussions focused on the criticism of actual spaces and published architectural environments occur.

IDES 7290 Work Experience Program 0 cr

The Work Experience Program provides 175 hours of practical experience over 5 weeks in the interior design profession. Knowledge and skills in job search techniques are developed and applied, while experience in the workplace informs expectations of practice and contributes to successful work transition upon graduation. Course graded pass/fail.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Co-requisites: MID Studio 1 IDES 7200 and MID Studio 2 IDES 7210.

International Business (INTB)

INTB 7030 Comparative Management 3 cr

Comparative study and evaluation of management philosophy and practices in cross-cultural setting; the cultural, economic, and political environment which influence management decision-making. Not taught every year.

INTB 7032 Comparative Industrial Relations and Human Resource Management 3 cr

Equiv To: INTB 7150

INTB 7040 International Organizational Behaviour 3 cr

The examination of dilemmas and opportunities that managers face when they work in a cross-cultural setting. The purpose of this course is to develop the necessary understandings and skills to effectively manage problems arising from the interaction of people from different cultures in work settings. Not to be held with INTB 7030.

Equiv To: INTB 7030

INTB 7730 International Business 1.5 cr

Develop an appreciation of business decision-making in an international/global context. Learning activities are focused towards developing intellectual and interpersonal skills in order for managers to function more effectively in international markets.

Kinesio, Phys Ed, & Recreation (KPER)

KPER 7000 Research in Kinesiology and Recreation Studies 3 cr

Concepts and issues in designing, implementing, and disseminating research in areas broadly related to kinesiology and leisure. It is recommended that students complete this compulsory course within their first year of enrollment in the Master's program. May not be held with the former PERS 7000.

Equiv To: PERS 7000

KPER 7002 Qualitative Research Methods 3 cr

This advanced qualitative research course will expose students to the history, philosophy and epistemological background of the qualitative research tradition, its methods and application to health, physical activity and leisure. May not be held with the former PHED 7160 of the same title.

Mutually Exclusive: PHED 7160

KPER 7004 Quantitative Research Methods 3 cr

To extend the student's theoretical understanding of quantitative research designs related to the field of kinesiology and recreation management. Data management and analysis methods will be discussed. Students will gain a theoretical knowledge of common statistical tests. May not be held with the former PHED 7160 of the same title.

Mutually Exclusive: PHED 7160

KPER 7006 Mixed Methods Research in Kinesiology and Recreation Studies 3 cr

This course will explore mixed methods research approaches. Specifically, research design, data collection, analysis and interpretation will be explored.

KPER 7100 Molecular Mechanisms of Exercise Physiology I 1.5 cr

Investigating the mechanisms underlying exercise-induced adaptations in health and disease. (Part 1). Advanced level Exercise Physiology, Physiology or Animal Biology or instructor permission is required.

KPER 7102 Molecular Mechanisms of Exercise Physiology II 1.5 cr

Investigating the mechanisms underlying exercise-induced adaptations in health and disease. (Part 2). Advanced level Exercise Physiology, Physiology or Animal Biology or instructor permission required.

KPER 7200 Sensorimotor Integration: Fundamental Theories in Motor Control and Learning 3 cr

Topics covered will introduce students to the historical developments and current thinking around how humans control and learn to perform skilled action. May not be held with the former PHED 7160 "Motor Control".

Kinesiology degree or permission by instructor required.

Mutually Exclusive: PHED 7160

KPER 7202 Instrumentation and Signal Processing in Human Movement Science 3 cr

Building critical analysis and application of biophysical research methods and analysis, develop numeracy skills in addition to scientific writing and oral presentation skills.

KPER 7204 Exercise Adaptations in Whole Body Physiology 3 cr

This course will cover how exercise training results in adaptations to whole body physiology. Units taught: metabolic systems; cardiovascular-respiratory systems; neuromuscular-skeletal systems; neuroendocrine systems; and immune system. Weekly discussion of topics.

KPER 7400 Humanities and Social Sciences in Exercise, Leisure, Physical Education and Sport 3 cr

This course will include the presentation of current research and scholarship on physical activity, health, and leisure from social science and humanities perspectives.

KPER 7402 Community Development: Qualitative Methods 1.5 cr

Students will be introduced to traditions in the qualitative field, explore theoretical foundations that underpin qualitative inquires and develop capacity to think critically about ethical issues involved in research processes (working with marginalized groups and conducting community-based research).

KPER 7404 Indigenous Land-Based Skills 3 cr

This course brings Indigenous cultural perspectives and practical skills to students in Kinesiology and Recreational Management in Indigenous land based learning.

KPER 7406 Social Psychology of Exercise, Leisure, Sport and Tourism 3 cr

This course will explore social psychological principles and theories and their application to the study of exercise, health, sport, leisure and/or tourism.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: REC 3180: Social Psychology of Leisure, or KPER 2540: Psychology of Sport and Exercise, or PSYC 2540: Social Psychology, or discretion of instructor.

KPER 7410 Leisure, Recreation, Parks and Tourism: Concepts and Theories 1.5 cr

Critical analysis of the dominant concepts, theories, and research associated with the development of basic and applied knowledge in fields of leisure, parks and tourism.

KPER 7420 Diversity/Disability and Inclusion Studies to Leisure, Sport, Health and Physical Education 1.5 cr

Overview of the theories/philosophies, current issues, research trends and methodological considerations in the area of diversity/disability and inclusion studies. This course focuses on scholarly approaches that promote equity, access and social inclusion in the contexts of leisure, sport, health and PE.

KPER 7430 Critical Race Theory, Indigeneity, in Leisure, Recreation and Sport 1.5 cr

This course openly discusses issues of race, racism, and settler colonialism. Students will develop an understanding of the role of praxis in CRT and Indigenous scholarship. Students will read, digest, critique, apply, and understand CRT and Indigenous scholarship.

KPER 7440 Cultural Studies in Leisure, Recreation and Sport 1.5 cr

Students will learn to use interdisciplinary critical perspectives to examine the diverse and sometimes contested meanings of cultural objects and processes, establishing a basic knowledge of the theoretical paradigms of Cultural Studies.

KPER 7450 Land-Based Education and Outdoor Recreation and Sport 1.5 cr

Current trends and research related to the social and physical implications of leisure behaviour in the natural environment.

KPER 7800 Directed Study in Kinesiology and Recreation 3 cr

Provides opportunities for in-depth individualized study within a specific area of interest. Can be completed twice (different topics) for maximum of six credits. Only 3 credits may count toward the minimum requirement of 12 credits in the FKRM Graduate Program.

KPER 7802 Directed Study in Kinesiology and Recreation 1.5 cr

This course provides in-depth individualized study and exploration within a specific, focused area of interest within a topic area pertaining to Kinesiology or Recreation Management. This course may allow students to study a topic in great detail that may be pertinent and important to their degree.

KPER 7860 Special Topics 3 cr

The study of the contemporary research and theory in a selected area. Topics will vary, depending on faculty expertise and student need.

KPER 7862 Special Topics 1.5 cr

The study of the contemporary research and theory in a selected area through consideration of relevant literature. The course may also provide opportunities for the application of theories or models within the selected topic.

Labour Studies (LABR)

LABR 7110 Advanced Topics in Labour Studies 3 cr

The course will vary from year to year depending on the needs of students and the interests of the instructor.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of the Labour Studies coordinator. As the course content will vary from year to year, students may take this course more than once for credit.

Landscape Architecture (LARC)

LARC 6150 Landscape Architecture Communication 3 cr

The objectives of this course are to promote an awareness of the diversity of graphic expression and to encourage experimentation. Students are given the opportunity to practice drawing and graphic communication skills and techniques through studio exercises.

LARC 7002 Land Construction and Professional Practice 3 cr

Introduction, investigation and fundamental exercises in landscape design and construction documentation, and construction administration for landscape construction projects.

LARC 7020 Field Studies 3 cr

A one- or two-week field study block course at the start of winter term or during mid-term break, co-requisite with winter term studios.

LARC 7040 Design Research 3 cr

The focus is on critical review of the literature, the formulation of research methods appropriate to securing, analyzing, and interpreting of research in Landscape Architecture, and the examination of approaches to design as a mode of enquiry and research.

LARC 7110 Landscape Architecture Studio 1 9 cr

An introductory study of structure and order within nature and the built environment. Instruction in the principles of design, the basic elements of graphic and spatial composition, and the vocabulary and methods of approach to landscape architectural design within a variety of contexts. The course may include an obligatory pre-term drawing workshop and a field studies trip; location and cost to be determined on a yearly basis.

LARC 7120 Special Topics in Landscape Architecture 3 cr

An assignment and conference course. A detailed study of some special topics in landscape architecture, including environmental sustainability, urban landscape technology, and housing form.

LARC 7160 Landscape Architectural Field Ecology 3 cr

Field study of plant taxonomy and ecology. Approximately two weeks duration immediately prior to the beginning of fall term. For Landscape Architecture students or with consent of department head.

LARC 7222 Landscape Architecture Studio 2 9 cr

An exploration of analytical, conceptual, and developmental aspects of urban public places in an experimental studio setting. An emphasis is placed on design as mediation between competing demands. The studio incorporates the application of three-dimensional simulation technologies in design.

LARC 7250 Landscape Architecture Theory 3 cr

Investigation of the theoretical foundations of landscape architecture in order to understand the complex nature of its practice, to identify its disciplinary boundaries, understand its multidisciplinary nature and to investigate assumptions and myths that permeate its limited discourse.

LARC 7310 Landscape Design Seminar 1 3 cr

A cross-cultural overview of significant discourses with an emphasis on the influence of critical design inquiry upon specific landscape interventions.

LARC 7320 Landscape Design Seminar 2 3 cr

An examination of the means by which ideas are expressed in and through design with a focus on modes of communication, representation and engagement.

LARC 7330 Landscape Architecture Studio 3 9 cr

The study of design application of highly complex problem domains of the urban, suburban, town site, or rural landscape.

LARC 7340 Landscape Architecture Studio 4 9 cr

Comprehensive design studio involving transition between larger scale planning/design proposals for an urban/regional area and site design; includes principles of spatial modeling.

LARC 7400 Landscape Topics 3 cr

A critical examination of an individual topical study of relevance to contemporary landscape architecture. This course will lead to the completion of a practicum of thesis proposal. Course graded pass/fail.

Latin (LATN)

LATN 6000 Latin Reading Test 0 cr

(Formerly 003.600) For graduate students in other departments which require a reading knowledge of Latin

LATN 7200 Latin Literature 3 cr

A reading course involving a selected Latin author or authors, or a set of related works. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

LATN 7210 Topics in Roman History 3 cr

This course will investigate aspects of Roman history, emphasizing different topics, sources, and theoretical approaches. Possible focuses for the course include a period of Roman history, or a particular region or province of the Roman Empire. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Law (LAW)

LAW 7110 Graduate Legal Research and Theory 2 cr

Begins with visits to the Law Library and to the Provincial Archives of Manitoba, Government Records Centre, then epistemological problems are studied to define each student's research questions for the thesis; and thereafter weekly seminars explore doctrinal, interdisciplinary, comparative, and theoretical research perspectives (natural law to legal positivism, critical legal studies and post-modernism).

LAW 7120 Research Paper in Law 3 cr

Independent reading and/or research course on selected topic in law undertaken and arranged in consultation with the prospective instructor, upon approval of the Associate Dean (Research & Graduate Studies). Course content may vary. Students may earn multiple credits for this course only when the topic subtitle is different.

LAW 7130 Topics in Law 3 cr

An independent reading and/or research course on a selected topic in law undertaken and arranged in consultation with the prospective instructor, upon approval of the Associate Dean Research & Graduate Studies. The course content may vary. Students may earn multiple credits for this course only when the topic subtitle is different.

Linguistics (LING)

LING 7500 Linguistic Variation and Change 3 cr

Focuses on sources, causes and patterns of linguistic change, spread of changes and the resulting relationships among languages.

LING 7510 Linguistic Typology 3 cr

Highlights universals and differences in phonological, morphological and/or syntactic structures drawn from data from a wide variety of languages.

LING 7550 Phonology 3 cr

Presents a theoretical approach to current issues in phonological analysis, building and testing hypotheses about phonological data.

LING 7570 Semantic Theory 3 cr

A theoretical approach to current issues in semantics focusing on formal and logical aspects of meaning.

LING 7620 Seminar in North American Indian Languages 3 cr

The linguistic structure of a North American language or group of languages. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

LING 7630 Syntax 3 cr

Presents a theoretical approach to current issues in syntactic analysis, building and testing hypotheses about syntactic data.

LING 7650 Field Methods 3 cr

Provides practical experience in techniques for data collection, analysis and interpretation of original data, through guided work with a speaker of a language unfamiliar to students. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

LING 7920 Special Problems in Linguistic Research 3 cr

Specialized topics in linguistics. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

LING 7940 Graduate Reading and Research 1 3 cr

Independent reading and/or research on a selected topic. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

LING 7950 Graduate Reading and Research 2 3 cr

Independent reading and/or research on a selected topic. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Management Info. Systems (MIS)

MIS 7120 Management Information Systems 1.5 cr

Helps students to develop an understanding of information systems and technology (IST) management as a critical element of organizational competitiveness. The course covers information systems strategy, IST security, sourcing, project management and governance. Not to be held with MIS 6150.

Mutually Exclusive: MIS 6150

Management Ph.D. (PHDM)

PHDM 7110 Doctoral Seminar in Management (Ph.D.) 3 cr

Examination of the philosophy of science in management and overview of management research typologies, methods, and the role of research in the practice of management.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: admission to the Ph.D. program in Management or approval by instructor.

PHDM 7140 Management Research Project 1 (Ph.D.) 0 cr

Examination of research design and preparation of theoretical paper in management. This course is evaluated on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: admission to the Ph.D program in Management or approval by instructor.

PHDM 7150 Management Research Project 2 (Ph.D.) 0 cr

Examination of research design and preparation of empirical paper in management. This course is evaluated on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: admission to the Ph.D program in Management or approval by instructor.

Management Science (MSCI)

MSCI 6070 Quantitative Analysis for Management 3 cr

Introduction to the use of quantitative techniques, and computers to solve management problems. Mathematical optimization models, network analysis, and probability models.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MSCI 5100.

MSCI 7140 Quantitative Analysis for Management 3 cr

Introduction to the use of quantitative techniques, and computers to solve management problems. Mathematical optimization models, network analysis, and probability models. Not to be held with MSCI 6070 OR MSCI 2150.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MSCI 5110 (or MSCI.5100).

Equiv To: MSCI 2150, MSCI 6070

MSCI 7550 Readings in Management Science (Ph.D.) 3 cr

A study of recent literature in the Management Sciences and their applications, with emphasis on new developments.

MSCI 7560 Doctoral Seminar in Management Science (Ph.D.) 3 cr

Seminars on the selected research topics of recent advances in the field of Management Science covering areas of current interests.

MSCI 7680 Mathematical Optimization Models 3 cr

A specialized course in mathematical optimization. Linear programming, integer programming, Fritz John and Kuhn-Tucker theorems, quadratic programming, nonlinear programming, duality, network analysis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: OPM 7120 (or OPM 6090).

Marketing (MKT)

MKT 7010 Marketing Management 3 cr

Discussion of the marketing function and its importance to the organization. The course will focus on strategic and tactical issues related to market segmentation, positioning, targeting, product management, pricing, promotion, and distribution, both from a for-profit and not-for-profit perspective.

MKT 7080 Selected Topics in Marketing 3 cr

A study of selected areas of recent development in the field of marketing. Topics may include the marketing of services, market research, business to business marketing, marketing channel systems, personal selling or sales management, and physical distribution.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MKT 7010 or MKT 6080.

MKT 7100 Readings in Marketing (Ph.D.) 3 cr

A survey of current literature in the major areas of marketing and marketing research. Emphasis upon empirical developments as they affect the application of marketing concepts.

MKT 7110 Doctoral Seminar in Marketing (Ph.D.) 3 cr

Advanced study of marketing thought integrating the functional areas of marketing. Seminars on selected research topics and recent developments in the field.

MKT 7120 Ph.D. Seminar in Buyer Behavior (Ph.D.) 3 cr

Concepts and literature relating psychological and sociological perspectives to buyer behaviour in Marketing.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

MKT 7200 Decisions and Concepts in Marketing 3 cr

Application of the principles of marketing from a managerial viewpoint; emphasis on marketing planning, strategy, and control; and appraisal of the effectiveness of marketing activities.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MKT 7010 (formerly MKT 6080).

MKT 7210 Marketing and Competitive Behaviour 3 cr

Designed to give the student a deeper understanding of the dynamics of marketing behavior. Oriented towards theoretical conceptualizations of the problems and practices in marketing areas.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MKT 7010 (formerly MKT 6080).

MKT 7220 Seminar in Marketing 3 cr

Study of selected topics in marketing with emphasis on recent theoretical developments and their application.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MKT 7010 (formerly MKT 6080).

MKT 7232 Consumer Behaviour 3 cr

The intensive study of customer psychology associated with the development of effective marketing techniques. An in-depth knowledge of what motivates customers and the manner in which they make purchase decisions helps managers in predicting customer reactions to changes in the marketing mix and to the introduction of new products and services. Course topics first examine customers at the individual-level, and then address the interdependent aspects of consumption behavior by examining its social and cultural context.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or co-requisite: MKT 7010 (formerly MKT 6080).

MKT 7300 International Marketing 3 cr

A study of problems and opportunities of marketing in foreign environments. It will focus on the cultural, economic and geographical problems encountered in managing the marketing function from a Canadian manager's perspective.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MKT 7010 (formerly MKT 6080).

MKT 7500 Readings in Marketing 3 cr

Supervised readings in one of the areas of Marketing.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MKT 7010 (formerly MKT 6080) and at least one other graduate level marketing course.

Mathematics (MATH)

MATH 7240 Advanced Group Theory 3 cr

Representation theory of finite groups, presentations of finite and infinite groups, or other topics. May not be held with MATH 4240.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of department.

Equiv To: MATH 4240

MATH 7260 Abstract Measure Theory 3 cr

Lebesgue and abstract measures, measurable functions, convergence theorems, absolutely continuous functions, measure spaces, the Radon-Nikodym theorem, Fubini's and Tonelli's theorems. May not be held with MATH 4260 and the former MATH 4750.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department.

Equiv To: MATH 4260, MATH 4750

MATH 7270 Algebraic Topology 3 cr

This course will serve as an introduction to elements of homotopy or homology theory. May not be held with MATH 4270 and the former MATH 4230.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department.

Equiv To: MATH 4230, MATH 4270

MATH 7280 Basic Functional Analysis 3 cr

Banach spaces, Hahn-Banach, open mapping and closed graph theorems, linear operators and functionals, dual space, Hilbert spaces and compact operators. May not be held with MATH 4280 and the former MATH 4750.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department.

Equiv To: MATH 4280, MATH 4750

MATH 7290 Complex Analysis 2 3 cr

Conformal mappings, normal families, harmonic and subharmonic functions, Perron's family, Dirichlet problem and Green's function. May not be held with MATH 4290 and the former MATH 4710.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department.

Equiv To: MATH 4290, MATH 4710

MATH 7300 Combinatorial Geometry 3 cr

Topics in combinatorial geometry, including arrangements of convex bodies, introduction to polytopes, problems in discrete geometry, repeated distances, and geometric graphs. May not be held with MATH 4300.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department.

Equiv To: MATH 4300

MATH 7320 Dynamical Systems 3 cr

Techniques for the qualitative analysis of nonlinear systems of ordinary differential equations and discrete-time systems. May not be held with MATH 4320 and the former MATH 4800.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department.

Equiv To: MATH 4320, MATH 4800

MATH 7330 Fundamentals of Approximation Theory 3 cr

Theoretical aspects of approximation theory: density, existence, uniqueness; direct and inverse theorems for polynomial approximation. May not be held with MATH 4330.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department.

Equiv To: MATH 4330

MATH 7340 Introduction to Algebraic Geometry 3 cr

This course will introduce students to the basics of affine and projective varieties through a combination of basic theoretical tools and elementary examples. May not be held with MATH 4340.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department.

Equiv To: MATH 4340

MATH 7360 Introduction to Differential Geometry 3 cr

Manifolds and submanifolds. One of: exterior calculus and Stokes' theorem, Riemannian or symplectic geometry, and Hamiltonian mechanics. May not be held with MATH 4360 and the former MATH 4730.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department.

Equiv To: MATH 4360, MATH 4730

MATH 7370 Linear Algebra and Matrix Analysis 3 cr

Norms, matrix factorizations, eigenvalues/eigenvectors, theory of non-negative matrices. Applications to differential equations, math biology, numerical analysis, graph theory, etc. May not be held with MATH 4370 and the former MATH 4310.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department.

Equiv To: MATH 4310, MATH 4370

MATH 7380 Mathematical Biology 3 cr

Formulation, analysis and simulation of models in math biology. Applications will be chosen from population dynamics, epidemiology, ecology, immunology and cellular dynamics. May not be held with MATH 4380 and the former MATH 3530.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department.

Equiv To: MATH 3530, MATH 4380

MATH 7390 Numerical Approximation Theory 3 cr

Computational aspects of approximation by interpolatory polynomials, convolutions, artificial neural networks, splines and wavelets. May not be held with MATH 4390.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of the department.

Equiv To: MATH 4390

MATH 7440 Numerical Analysis of Partial Differential Equations 3 cr

Finite difference method, theory of Elliptic PDEs, finite element method, iterative solution of linear systems. Emphasis will be on the error analysis. May not be held with MATH 4440 and the former MATH 8150.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department.

Equiv To: MATH 4440, MATH 8150

MATH 7450 Number Theory 2 3 cr

Algebraic number theory, arithmetic geometry and analytic number theory, Diophantine equations, examples such as arithmetic of elliptic curves and Dirichlet L- functions. May not be held with MATH 4450 and the former MATH 3450.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department.

Equiv To: MATH 3450, MATH 4450

MATH 7460 Partial Differential Equations 2 3 cr

Green's function, Poisson, heat, Schrodinger and wave equations, Fourier and Laplace transforms, introduction to functional analytic techniques. May not be held with MATH 4460 and the former MATH 4810.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department.

Equiv To: MATH 4460, MATH 4810

MATH 7470 Rings and Modules 3 cr

The general theory of (non-commutative) rings, modules and algebras. May not be held with MATH 4470.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department.

Equiv To: MATH 4470

MATH 8010 Advanced Matrix Computations 3 cr

Matrix computation, decomposition of matrices, iterative methods, sparse matrices, eigenvalue problems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: linear algebra, computing, numerical analysis, and consent of instructor.

MATH 8110 Applied Finite Element Analysis 3 cr

Theory and practice of the finite element method of the solution of partial differential equations and its application to engineering and scientific problems. It includes the h, p and h-p versions, a priori and a posteriori error estimates, adaptability and the structure of finite element software.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: numerical analysis and partial differential equations or consent of the instructor.

MATH 8140 Advanced Numerical Analysis of Differential & Integral Equations 3 cr

Continuation of MATH 4440/7440. Topics include spectral methods, time dependent equations, multigrid, domain decomposition methods, problems on infinite domains, methods for boundary integral equations, Riemann-Hilbert problems and integrable systems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of the department.

MATH 8210 Topics in Combinatorics 1 3 cr

Topics will be chosen from the areas of algebraic combinatorics, coding theory, design theory, enumerative combinatorics, graph theory,

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: approval of department.

MATH 8310 Partial Differential Equations 3 3 cr

Continuation of MATH 4460/7460. Topics include functional analytic techniques for linear and nonlinear partial differential equations, conservation laws, KdV equation, singular perturbation, viscosity solutions.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: Permission of the department.

MATH 8410 Seminar in Applied and Computational Mathematics 1 3 cr

Designed to accommodate special topics in applied or computational areas of mathematics not included in other course offerings. Students are advised to consult the department as to availability.

MATH 8420 Seminar in Applied and Computational Mathematics 2 6 cr

Designed to accommodate special topics in applied or computational areas of mathematics not included in other course offerings. Students are advised to consult the department as to availability.

MATH 8430 Seminar in Mathematics 1 3 cr

Designed to accommodate special topics not included in topics courses.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: approval of department.

MATH 8440 Seminar in Mathematics 2 6 cr

Designed to accommodate special topics not included in topics courses.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: approval of department.

MATH 8510 Topics in Algebra 1 3 cr

Designed to accommodate special topics not included in topics courses.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: approval of department.

MATH 8520 Topics in Algebra 2 6 cr

Topics will be chosen from the areas of associative and non-associative algebras, Boolean algebra and lattice theory, category theory, group theory, ring theory and universal algebra.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: approval of department.

MATH 8610 Topics in Analysis 1 3 cr

Topics will be chosen from the areas of asymptotics, functional analysis, operator theory, real and complex variables, summability theory, topological vector spaces.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: approval of department.

MATH 8620 Topics in Analysis 2 6 cr

Topics will be chosen from the areas of asymptotics, functional analysis, operator theory, real and complex variables, summability theory, topological vector spaces.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: approval of department.

MATH 8720 Topics in Foundations 2 6 cr

Topics will be chosen from the areas of logic, model theory, recursive functions, set theory.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: approval by department

MATH 8810 Topics in Geometry 1 3 cr

Topics will be chosen from the areas of algebraic curves, combinatorial geometry, Euclidean geometry, fractal geometry, groups and geometrics, projective geometry.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: approval of department.

MATH 8910 Topics in Topology 1 3 cr

Topics will be chosen from the areas of compactifications and related extensions, covering properties, rings of continuous functions, set-theoretic topology, topological groups, uniformities and related structures.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: approval of department.

MATH 8996 MSc project 1 6 cr

This is a project course exclusively for students enrolled in the Course-based MSc program. Students must submit a written report, on the order of 40 to 60 pages, which can be a survey of a topic in mathematics, for instance. This course is taken under the supervision of a faculty member. Course graded pass/fail.

MATH 8998 MSc project 2 6 cr

This is a project course exclusively for students enrolled in the teaching track of the Course-based MSc program. Students must submit a written report, on the order of 20-30 pages, which can be a survey of a topic in mathematics, for instance. In addition, students are required to teach one undergraduate course. This course is taken under the supervision of a faculty member. Course graded pass/fail.

Mech. Engineering Graduate (MECG)

MECG 7150 Conduction Heat Transfer 3 cr

Steady and unsteady state heat transfer by conduction, single and multidimensional systems. Conduction with moving boundaries and computer uses of finite difference techniques.

MECG 7160 Convective Heat Transfer 3 cr

Conservation principles and flux laws. Differential and integral equations of the boundary layer. Momentum and heat transfer for laminar and turbulent flow inside tubes and over external surfaces.

MECG 7170 Radiation 3 cr

Thermal radiation properties, blackbody radiation, heat exchange by radiation among surfaces in the presence or absence of participating media. Theory and measurement techniques, network methods, solar energy utilization.

MECG 7190 Classical Fluid Mechanics 1 3 cr

Bernoulli's equation, equations of motion, two-dimensional motion, streaming motions, aerofoils, sources and sinks, moving cylinders, theorem of Schwartz and Christoffel, jets and currents.

MECG 7200 Classical Fluid Mechanics 2 3 cr

Helmholtz motions, right linear vortices, waves. Stokes stream function, spheres and ellipsoids, solid moving through a fluid, vortex motion, viscosity.

MECG 7220 Boundary Layer Theory 3 cr

Basic concepts of boundary layer and separation. Navier-Stokes equations, exact solutions. Momentum and energy equations, approximate solutions; boundary layer control, and thermal boundary layers.

MECG 7240 Turbomachinery 3 cr

Generalized flow relations in rotating machinery, velocity triangles, limitation on work done per stage and Mach number effects, vortex flow, flow in cascades, blade temperatures and stresses, performance of turbomachines.

MECG 7260 Theory of Vibrations 3 cr

The formulation of vibration problems using variational principles; matrix formulation of the free and forced vibrations of discrete and continuous systems; the effect of damping; approximate methods for solving the equations of motion; numerical techniques.

MECG 7290 Diffusion in Solids 3 cr

Diffusion equations, atomic theory of diffusion, diffusion in dilute alloys, diffusion in a concentration gradient, diffusion in non-metals, high diffusivity paths, thermal diffusion, and electrolysis in solids.

MECG 7330 Phase Transformation in Solids 3 cr

Advanced treatment of phase transformations in solids such as precipitation, eutectoid decomposition, and martensitic reactions.

MECG 7340 Corrosion and Oxidation of Metallic Materials 3 cr

Topics include the electromechanical basis of corrosion, corrosion prevention by inhibitors, alloying and heat treatment passivity, stress corrosion crackling and fatigue, crack initiation and propagation, solid state chemistry including ionic and electronic conduction, and oxidation of metals and alloys.

MECG 7350 Research Topics in Physical Metallurgy and Metal Physics 3 cr

Topics selected from recent researches in physical metallurgy and metal physics.

MECG 7370 Modern Research Techniques 3 cr

Laboratory course designed to introduce the research student to a wide variety of equipment and techniques useful in metallurgical research, discussion, and laboratory.

MECG 7380 Electron Microscopy of Materials 3 cr

Theory and practice of electron microscopy, with emphasis on the application of transmission technique to materials research.

MECG 7390 Dislocation Theory 3 cr

Description of a dislocation; the stress field around a dislocation; forces on a dislocation; dislocation reactions in crystals, dislocation multiplication, pole mechanisms, twinning, stacking fault tetrahedron. Peierls force and related topics; image forces, interactions with point defects and other topics.

MECG 7400 Solidification of Metals and Alloys 3 cr

The theory of solidification with respect to microstructure and solute distribution. Practical applications such as casting semiconductors and zone refining.

MECG 7410 Theory of Turbulence 3 cr

Development and application of statistical theories to isotropic, nonisotropic, and homogeneous turbulent fluid motion.

MECG 7420 Selected Topics in Turbulence 3 cr

An extension of MECG 7410 to investigate the specialized problems of turbulence such as space-time correlation functions and spectral transfer in constrained and unconstrained fluid flows.

MECG 7450 Biomechanics 3 cr

Topics in kinematics related to normal gait and prosthetic devices; properties of materials used for prostheses; arterial, bone, and composite materials, including design and manufacturing methods.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 2090 or consent of instructor.

MECG 7460 Topics in Heat Transfer 1 3 cr

Selected topics in heat transfer based on MECG 7150, MECG 7160, and MECH 7170. Topics will be chosen from the following: conduction with and without internal heat generation, combined mode heat transfer problems, boiling and condensation heat transfer, heat exchanger design, propulsion systems heat transfer problems, special problems in forced, free and mixed convection, and two-phase flow.

MECG 7470 Topics in Heat Transfer 2 3 cr

A continuation of certain topics of MECG 7460 to include the most recent advances in these areas.

MECG 7500 Topics in Aerodynamics 3 cr

Topics in Aerodynamics.

MECG 7600 Selected Topics in Engineering Design 3 cr

Lectures and seminars on selected advanced topics in the field of mechanical engineering design.

Mutually Exclusive: ENG 7510

MECG 7610 Engineering Properties of Polymers 3 cr

A survey of the physics of crystalline and amorphous polymers, including molecular weight distribution measurements, physics of rubber elasticity, theories of the glass transition, crystallinity measurements, crystallization kinetics, mechanical properties of crystalline and amorphous polymers.

MECG 7620 Fracture of Materials and Structures 3 cr

Griffith criterion for crack propagation, stress intensity factors, plasticity effects, experimental methods for evaluation of criteria, J-integral, crack opening displacement. Microscopic aspects, dislocations at the crack tip, cleavage fracture, nil ductility temperature. Fatigue, creep, stress corrosion cracking.

MECG 7680 Advanced Operations Research 3 cr

Formulations and algorithms for the following problems, set partitioning, set covering, clustering, location, layout, order picking, vehicle routing, vehicle scheduling. Applications of these problems to planning of manufacturing systems, scheduling of production, systems, materials handling systems and planning for warehouse and storage systems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MECH 4760 or consent of instructor.

MECG 7690 Computer Integrated Manufacturing 3 cr

Basic concepts of microcomputer hardware and software with special emphasis on different manufacturing applications. These include data acquisition and analysis, machine monitoring and diagnostics, process control, robotics, machine tool control, automatic testing and quality control.

MECG 7740 Selected Topics in Robot Technology 3 cr

The role of digital computers and digital interface equipment in the control and operation of robots. Fundamentals of robot kinematics and coordinate systems. Various robotic sensing systems such as vision, tactile, proximity, ultrasonic. The selection of topics may change from time to time depending on student interest and advances in the field of robotic technology.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MECH 4840 or consent of instructor.

MECG 7760 Advanced Solid Mechanics 3 cr

Selected advanced topics in solid mechanics; e.g., relationship between solid physics and solid mechanics, mechanical properties for static, low- and high-cycle fatigue, failure theories and mechanisms, theory of shell structures, numerical methods, applications.

MECG 7770 Computer-Aided Engineering 3 cr

Principles and mathematical formulation of computer-aided design, manufacturing and database management systems; related topics pertinent to computer integrated design and manufacturing systems.

MECG 7780 Selected Topics in Engineering Mechanics 3 cr

Lectures and seminars on selected advanced topics in engineering mechanics such as space dynamics, orbital mechanics and kineto-elastodynamics, current problems, implications in current research.

MECG 7790 Transport Phenomena in Porous Media 3 cr

Single and multiphase flow in porous media. Porosity, permeability, capillary pressure, relative permeability, electrical properties.

MECG 7800 Topics in Porous Media 3 cr

An extension of MECG 7790 to allow investigation of special topics; e.g., computational methods, experimental techniques, mixed transport phenomena (diffusion/dispersion, conductive/convective heat transfer), advanced concepts, etc.

MECG 7810 Computational Thermofluids 3 cr

An introduction to the solution of thermofluids problems. Computational techniques (finite difference, finite element, boundary element). Modelling of turbulent flow. Spectral methods.

MECG 7840 Systems Modelling and Simulation 3 cr

Topics may include: Models and Model Building. Mathematical Models: analytical solutions, numerical solutions, steady-state solutions. Modeling techniques: state models, linear graphs, bond graphs, transfer functions, large-scale models, linear vs nonlinear models. Simulation of Systems (discrete/continuous) on digital computers; numerical operations and algorithms. Simulation Languages (discrete/continuous) applied to analysis and design of dynamic and control systems, or, services and manufacturing systems.

PR/CR: A minimum grade of C is required unless otherwise indicated.
Prerequisite: consent of instructor.

MECG 7850 Applied Finite Element Method 3 cr

Weighted Residuals, Boundary versus Finite Element Method, Conventional and Special elements, Equality and Inequality Constraints, Error Estimates, Self-adaptive Techniques and Mixed Formulations.

PR/CR: A minimum grade of C is required unless otherwise indicated.
Prerequisites: CIVL 4240 or instructor approval.

MECG 7860 Selected Topics in Control Engineering 3 cr

Lectures and seminars on selected advanced topics in the field of systems and control that include mechanical systems, dynamics, control theory and mechatronics.

MECG 7890 M.Sc. Graduate Research Seminar 1 cr

Seminar presentation and discussion of current research topics in mechanical, industrial and materials engineering research.

MECG 7900 Ph.D. Graduate Research Seminar 1 cr

Seminar presentation and discussion of current research topics in mechanical, industrial and materials engineering research.

MECG 7910 System Design for Robots and Teleoperators 3 cr

Definitions and classification. Kinematics: transformations, forward and inverse kinematic solution methods, differential kinematic equations, motion trajectories. Dynamics: energy method vs. Newton-Euler formulation. Actuators; electric, hydraulics and pneumatics. Control: requirement and methods for control of robots and teleoperators.

PR/CR: A minimum grade of C is required unless otherwise indicated.
Prerequisites: MECH 3430, MECH 3480 or equivalent.

MECG 7920 Engineering Mechanics of Composite Materials 3 cr

Brief overview of composites; constituents; properties; processing and application; micro-mechanics of reinforcement; elastic behaviour of unidirectional lamina; strength of unidirectional lamina; elastic behaviour of multi-directional laminates; stress and failure analysis of multidirectional laminates; hygrothermal effects and durability; introduction to textile composites.

MECG 7930 Advanced Non-Linear Systems Analysis 3 cr

Topics may include (i) Modelling of Constrained Dynamic Systems, including derivation of dynamic equations for constrained systems using Lagrangian equations and/or Newton-Euler equations; (ii) Advanced Stability Theories, including construction of Lyapunov functions and Lyapunov's stability control; and (iii) Introduction to Analysis of Non-smooth Systems, including Filippov's solution analysis and extended Lyapunov's stability theory to non-smooth systems. Applications to computer modelling of bipedal locomotion, analysis of robotic contact tasks and stability analysis of power systems will be addressed.

MECG 7940 Experimental Methods in Fluid Mechanics 3 cr

Topics will be chosen from: Review of fluid mechanics, combustion and turbulence theory; role of experiments; conventional measurement methods for temperature, pressure and velocity; laser-based techniques for local and global velocity measurements (Laser Doppler Anemometry (LDA), Phase-Doppler Anemometry (PDA), Particle Image Velocimetry (PIV)); other laser-based techniques for imaging and concentration measurements in reacting and non-reacting single and two-phase flows.

MECG 7950 Selected Topics for Productivity Improvement in Manufacturing 3 cr

Will address techniques that can assist North American manufacturing and improve productivity in the global market place in the 21st century. Topics include: productivity techniques, quality, cost, manufacturing control and other pertinent issues.

Medical Microbiology (MMIC)

MMIC 6010 Biological Safety 3 cr

Critical Analysis of biological safety in the research, diagnostic and hospital environment; assessment of the underlying causes of laboratory acquired infections and the administrative, engineering and personal protective control measures available; analysis of current and new bio-containment technologies, risk assessment tools, the need for scientific based decision making and the public perception versus real risk.

MMIC 7012 Fundamental Virology 3 cr

This is an introductory graduate-level course with a focus on virus gene organization, the different levels of regulated viral gene expressions, and their different replication mechanisms, covering experimental design and advanced knowledge and information on various ways in which viruses replicate in hosts and interact with cellular machinery to cause disease.

MMIC 7040 Clinical Bacteriology 6 cr

Scientific basis of routine laboratory methods used in the diagnosis of bacterial infection: specimen handling techniques; laboratory organization.

MMIC 7050 Microbial Pathogenicity 6 cr

Comparative structure of virulent and avirulent bacteria, biochemical basis of virulence; host defenses.

MMIC 7140 Clinical Parasitology 3 cr

The course will consist of a series of lectures on the epidemiology, molecular pathogenesis, clinical features, diagnosis (clinical and laboratory), treatment and prevention of human disease; each class is followed by a laboratory period in which the student obtains some practical experience.

MMIC 7160 The Molecular Basis of Antibiotic Action 3 cr

Historical development, mechanism of action, principles of antimicrobial susceptibility testing and molecular and genetic basis for antibiotic resistance transfer. Prerequisite courses include Microbial Physiology or Biochemistry and at least an introductory course in Genetics and the consent of instructor.

MMIC 7170 Molecular Biology of Animal Viruses 3 cr

Lecture and conference course. Recent advances in molecular aspects of virus structure, replication, genetics, and spectrum of virus-host cell interaction.

PR/CR: A minimum grade of C is required unless otherwise indicated.
Prerequisites: MMIC 7010 or consent of instructor.

MMIC 7190 Readings in Infectious Diseases 3 cr

The student will conduct an appropriate in depth literature search on three aspects of a mutually agreed topic and present the "state of the science" and a critical review of it, to the instructor. This will be done as a series of interactive sessions.

MMIC 7210 Clinical Virology 3 cr

Each group of viruses will be presented in a lecture dealing with the General Virology and taxonomy, epidemiology, clinical aspects of the diseases, laboratory diagnosis, treatment options, anti-virals' classes with their mechanisms of action as well as susceptibility testing (where applicable), and prevention (including infection control measures, chemo- and immunoprophylaxis (where applicable)). The course consists of lecture and optional laboratory component (non-mandatory rotation for Graduate students only at CPL, Virus Detection and Serology sections).

MMIC 7220 The Ecology of Infectious Diseases 6 cr

Explores the study of infectious diseases in a global context from the perspective of biomedical, clinical, health systems/services and social, cultural and environmental determinants of health and disease. The course features didactic, self-directed reading and interactive small group sessions.

Medical Rehabilitation (REHB)

REHB 7010 Neurosciences 3 cr

To provide the student with a comprehensive understanding of the neurophysiological basis of motor behaviour including: motor control mechanisms, pathophysiological correlates, and clinical manifestations of central nervous system lesions involving motorcentres.

REHB 7170 Topics in Rehabilitation 3 cr

A readings, tutorial, and/or practical course designed to provide an in-depth study of one or more rehabilitation topics to extend or acquire specialized knowledge in a particular area of interest. A subtitle will be added to the current title to reflect specialized interests.

REHB 7180 Readings in Rehabilitation 3 cr

A readings course in theory or research relevant to rehabilitation. A subtitle will be added to the current title to reflect specialized interests.

REHB 7230 Independent Study 6 cr

Over two university terms, students complete an in-depth study of evidence for practice in an area of interest which will include a review of relevant literature and the development and completion of a small scale project.

REHB 7260 Assistive Technology 3 cr

A theory and practice course designed to develop an advanced understanding of the application of technology for individuals with disabilities as a means to occupation. Particular emphasis will be on evaluating the impact and understanding the theory guiding the use of assistive technology, and developing an understanding of the contexts in which assistive technologies are used.

REHB 7280 Rehabilitation Theory and Research Design 3 cr

This is a required course in the MSc Rehabilitation Sciences degree. It focuses on quantitative and qualitative research methodologies and research designs used in rehabilitation research. Theories and frameworks central to rehabilitation research are incorporated throughout.

Microbiology (MBIO)

MBIO 7010 Graduate Seminar in Microbiology 1 3 cr

Seminars covering areas of interest to the faculty and students in the graduate Microbiology program, and current developments in the broad field of microbiology (including microbial physiology, environmental microbiology, virology, pathogenicity, genetics, molecular biology, biochemistry, biotechnology, and cell culture). Open to all qualified students by permission of the Microbiology department head.

MBIO 7020 Graduate Seminar in Microbiology 2 3 cr

Seminars covering areas of interest to the faculty and students in the graduate Microbiology program, and current developments in the broad field of microbiology (including microbial physiology, environmental microbiology, virology, pathogenicity, genetics, molecular biology, biochemistry, biotechnology, and cell culture). Open to all qualified students by permission of the Microbiology department head.

MBIO 7030 Graduate Seminar in Microbiology 3 3 cr

Seminars covering areas of interest to the faculty and students in the graduate Microbiology program, and current developments in the broad field of microbiology (including microbial physiology, environmental microbiology, virology, pathogenicity, genetics, molecular biology, biochemistry, biotechnology, and cell culture). Open to all qualified students by permission of the Microbiology department head.

MBIO 7040 Graduate Microbiology 3 cr

Topics and current developments in the field of microbiology will be covered. A combined discussion, seminar and written exam format may be used. Inquire at the department for availability.

MBIO 7050 Environmental Microbiology 3 cr

Topics and current developments in the field of environmental microbiology will be covered. A combined lecture, discussion, assignment and seminar format may be used. Inquire at the department for availability.

MBIO 7060 Microbial Interactions 3 cr

Topics and current developments in the field of microbial interactions will be covered. A combined discussion, seminar and written exam format may be used. Inquire at the department for availability.

MBIO 7070 Bioprocessing 3 cr

This course allows students with a background in either biological sciences or engineering to gain an understanding of biochemical engineering processes used to enable important chemical conversions by biological systems. Topics include bioprocessing for production of biofuels, bioplastics, and biopharmaceuticals, upstream processing technologies, fermentation and bioreactor systems, and downstream processing for product recovery. These will be related to present or potential industrial applications. This course is also offered in the Department of Biosystems Engineering as BIOE 7180. MBIO 7070 cannot be held with BIOE 7180.

MBIO 7100 Advanced Concepts in Molecular Biology 3 cr

Recent advances in the molecular basis and control of gene activity; information transfer and molecular evolution. Inquire at the department for availability

MBIO 7160 Special Problems in Microbiology 3 cr

An assignment and conference course to be taken only through consultation with the head of the department. The topics will vary, depending upon student needs and interests, and will include specialized topics not available in regular course offerings.

M BIO 7200 Macromolecular Structure Analysis 3 cr

This course introduces the principles of X-ray crystallography as applied to the study of protein and nucleic acid structure. Protein crystallization and practical aspects of X-ray diffraction, structure determination and analysis are covered. This course is suitable for students with a background in microbiology, biochemistry or chemistry. Inquire at the department for availability.

Music (MUSC)

MUSC 7000 Music History Seminar 3 cr

The study of the nature of past and current concepts and practices in the discipline of music history

MUSC 7050 Bibliography and Research Methods 3 cr

The techniques of bibliography and research methods in music are studied through research projects in selected areas relevant to each student's major field of study. Skill is developed in the use of primary and secondary sources, expository writing and documentation

MUSC 7060 Advanced Diction 1 1 cr

Advanced training in rules of pronunciation, language use and translations skills in Italian and German. Lab Required.

MUSC 7070 Advanced Diction 2 1 cr

Advanced training in rules of pronunciation, language use and translations skills in French and English. Lab Required.

MUSC 7110 Music Theory Seminar 3 cr

A comprehensive survey of 20th century analytical methodologies of tonal and post-tonal music.

MUSC 7180 Ensemble 3 cr

Studio instruction and monitored pre-professional training activities in chamber music leading to the presentation of ensemble performance.

MUSC 7380 Piano Repertoire Seminar 2 cr

Advanced study of the repertoire for solo piano up to the early 20th century.

MUSC 7390 Piano Chamber Music Literature Seminar 2 cr

Advanced survey of piano chamber music.

MUSC 7400 Major Practical Study 1 3 cr

Private studio instruction and monitored pre-professional training activities in one of the following: composition, conducting, or any one of the standard instruments or voice.

MUSC 7410 Major Practical Study 2 3 cr

A continuation of Major Practical Study 1.

MUSC 7490 Advanced Piano Pedagogy 2 cr

Consideration of advanced approaches to the teaching of styles and techniques through an examination of piano repertoire.

MUSC 7520 Coaching Skills 2 cr

Advanced training in philosophies and techniques of vocal coaching including both song and operatic repertoire.

MUSC 7530 Operatic Piano 2 cr

Development of skills required of an operatic pianist, including standard Arias, operatic scores, working with conductors and developing orchestral sound. May include participation in community opera events (by audition only).

MUSC 7600 Advanced Orchestration 3 cr

Advanced practical work in orchestration for various-sized large ensembles up to and including full orchestra. Detailed study of selected scores and work on individual orchestration projects.

MUSC 7630 20th to 21st Century Piano Repertoire 2 cr

Advanced study of piano repertoire since 1900.

MUSC 7810 Electroacoustic Music 3 cr

A study of the techniques of electroacoustic music.

MUSC 7860 Topics in Music 3 cr

Course orientation will vary according to the needs and interests of students. A specific topic will be chosen for each offering of the course.

Native Studies (NATV)

NATV 7100 Seminar in Advanced Anishinaabemowin 3 cr

This course will further investigate Anishinaabemowin grammar. Various types of stories in different dialects will be used to illustrate the complexities of Anishinaabemowin. The students will translate English stories into Anishinaabemowin and will also learn to transcribe oral stories in Anishinaabemowin and translate them. Students will also be introduced to historical orthographies used in materials at HBC archives, the Manitoba Museum, and other repositories for transcribing Anishinaabemowin language in the past.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in NATV 3190 or permission of the Instructor or Department Head.

NATV 7220 Selected Topics in Native Studies 3 cr

A critical examination of issues in selected areas of Native Studies designed to meet the special needs of graduate students interested in exploring interdisciplinary perspectives in Native Studies. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

NATV 7230 Methodology and Research Issues in Native Studies 3 cr

A review of research methods, such as oral histories, and research issues, such as ethics and intellectual property rights, within the context of Native Studies.

NATV 7240 Issues in Colonization 3 cr

An examination of the factors influencing colonization, assimilation and indigenization. Explores the colonization and decolonization processes, theories of colonization and ways of promoting indigenization without assimilation.

NATV 7250 Culture: Theory and Praxis 3 cr

A study of selected material in Métis, Aboriginal, or Inuit studies, designed to meet the special needs of graduate students interested in exploring interdisciplinary perspectives in Native Studies.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

NATV 7280 Native Studies Colloquia 1 cr

Theoretical, methodological, ethical and contextual issues in Native Studies are explored from the perspectives of formally and informally trained experts using a colloquia format. Students are required to attend regularly. This course is taken more than once to fulfil program requirements. Time slots to be determined the first week of September (Pass/Fail). The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

NATV 7290 Seminar in Aboriginal Economy 3 cr

This seminar deals with a variety of specific topics in Aboriginal Economy. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

NATV 7310 Critical Theory and Native Studies 3 cr

This course will assess the relevance of the concepts produced by recent social theory to the situation of Aboriginal peoples and the contribution made by "fourth world" contexts to social theory. Marxism, feminism, post-structuralism, post-colonial theory, and cultural theory will be among the perspectives examined.

NATV 7320 Trauma Theory in Indigenous Writing in Canada and Australia 3 cr

This course will compare selected texts by Indigenous authors from Canada and Australia and examine them through the lens of trauma theories – those developed by Holocaust scholars but also those which draw on Indigenous worldviews.

NATV 7330 Advanced Seminar in Indigenous Research 3 cr

A team-taught seminar that provides an in-depth study of the major theoretical, methodological, and ethical issues in Indigenous research with an emphasis on the interdisciplinary scholarship of Native Studies faculty.

Natural Resource Management (NRI)

NRI 7070 Readings in Natural Resources Management 1 3 cr

Student planned research in an area of interest. Course syllabus designed by student and approved by NRI faculty.

NRI 7080 Readings in Natural Resources Management 2 3 cr

Student planned research in an area of interest. Course syllabus designed by student and approved by NRI faculty.

NRI 7110 Field Seminar 3 cr

Exploration of selected issues in resource and environmental studies in field settings, arranged for groups of students. This course is subject to a field trip fee.

NRI 7120 Mineral Resources Management and Policy 3 cr

This course provides an interface between managers and mineral resources, focusing on a selection of practical topics related to minerals and mining. Role of mining activities in the development process; global, national, and provincial distribution of resources; policy issues relating to environmental, economic, and political consequences of non-renewable resource exploitation.

NRI 7130 Energy Resources Management and Policy 3 cr

This course covers global energy issues, objectives, strategies, and policies, and the environmental impacts of alternative energy sources; Canadian energy issues, objectives, strategies, and policies. The course stresses the need for a sound understanding of energy issues of fundamental importance, ability to assess alternatives, appreciation of policy strategies and instruments, and the ability to formulate an energy policy for a region.

NRI 7160 Projects in Natural Resources Management 1 3 cr

Team research project in an area of interest. Application of problem-solving skills to current issues in natural resources management.

NRI 7170 Projects in Natural Resources Management 2 3 cr

Team research project in an area of interest. Application of problem-solving skills to current issues in natural resources management.

NRI 7180 Sustainable Development and Natural Resources 3 cr

An examination of the context, concepts, principles, and applications of sustainable development and natural resources at the international, national, and regional levels. Sustainable development is considered from three perspectives - environment, economy, and peoples' well-being. Particular attention is focused upon the implications of sustainable development for natural resources and environmental management. Permission of the instructor required. Students are advised to consult with Institute faculty prior to admission.

NRI 7182 Sustainability, Economics, and Natural Resources 3 cr

Economic aspects of sustainability are a critical component of sustainable development. The relationship between environment, economy, and the human dimensions of natural resources comprise the primary focus of the course. Specific topics include environmental/ecological economics, externalities, project assessment, benefit cost analysis, the economics of renewable and non-renewable resource management and economic aspects of globalization.

NRI 7190 Natural Resources Administration and Law 3 cr

The objective of this course is to explore the legal frameworks and processes in Canada related to natural resource management. After a general review of the Canadian legal system with a particular focus on administrative law, national and international regulatory frameworks related to the ownership and disposition of specific natural resources are explored. Through class discussion, case studies and presentation, the law governing the use and development of natural resources is examined and critiqued. This course is cross-listed with LAW 3980 "Natural Resources Law."

NRI 7200 The Role of Information Management in Sustainable Resource Use 3 cr

This course reviews some of the key concepts of spatial analysis including geographic information systems, remote sensing, image processing, and cartography. The second part of the course is based on the application of these concepts to a resource management issue using a case study approach. Students will gain familiarity with the following software: Idrisi for GIS; Adobe Photoshop for image processing; and Adobe Illustrator for cartography. Classes will have three components, discussion/presentation; lecture; and lab.

NRI 7222 Human Dimensions of Natural Resources and Environmental Management 3 cr

The human dimensions of Natural Resources and Environmental Management will be considered through the following thematic units: definitions, history, and paradigms of management; intersection of science with politics, actors, groups and participatory processes; Traditional Ecological Knowledge (TEK), communications and environmental perception; institutions, common theory and adaptive co-management.

NRI 7232 Ecological Dimensions of Resource and Environmental Management 3 cr

Current concepts and theories in landscape ecology, plant and animal ecology, life-history strategies, food webs, and population and community ecology are discussed as they relate to management. Common themes throughout the course include the importance of scale, the influence of science on management, adaptive management, and critical thinking.

NRI 7242 Resource and Environmental Management Policy 3 cr

The complexity of natural resources and environmental policy formulation, implementation, and analysis is the primary focus. Specific topics include: modern state, government and policy development processes; policy community and stakeholders, and role of pressure and interest groups; policy analysis, research and evaluation are examined from a variety of perspectives. Theory and practice are linked in addressing course objectives.

NRI 7252 Environmental Management Practice 3 cr

Environmental Management systems (e.g. 14001 and Natural step), best management practices and project management. Tools: Awareness (Environmental Policy, Environmental Impacts, Risk Assessment, Life Cycle Assessment), Action (Objectives, Targets, Risk Reduction, Indicators, Monitoring, Activities), Advance (Sustainability Report, Triple Bottom Line, Environmental Audit).

NRI 7262 Master's Thesis Research Seminar 3 cr

This course will provide a practical introduction to thesis research. The core objective is to assist students in designing their research, including such tasks as considering an appropriate research paradigm, establishing researchable problems, setting goals and objectives, choosing appropriate methods, analyzing data, preparing research proposals, project administration, among other topics. Special attention will be paid to conducting interdisciplinary research in the field of natural resources management.

NRI 7280 Regional Development in Northern Manitoba 3 cr

A comprehensive examination of natural resources, socio-economic conditions, and institutional structures forms the basis for an evaluation of long-term sustainability and developmental strategies for Manitoba's North. Permission of the instructor required. Students are advised to consult with Institute faculty prior to admission.

NRI 7290 Environmental Impact Assessment 3 cr

Course is a fundamental tool of decision making regarding natural resources and the environment and will provide students with an understanding of how environmental assessment is designed, administered and operates in the field.

NRI 7302 Conservation Biology and Biodiversity Management 3 cr

The course explores management and conservation of biodiversity at the genetic, species, and ecosystem levels of biological organization, and from local to global scales. Emphasis is placed on understanding human impacts on biodiversity, critically evaluating the importance of biodiversity conservation, and political, economic, ecological, and philosophical implications and drivers of conservation.

NRI 7310 Ph.D. Thesis Research Seminar 3 cr

Designing research and methodology specific to a project; reviewing the philosophy of interdisciplinary approaches to Natural Resources and environmental management and trends in the field; analyzing appropriateness of a project with trends and directions in interdisciplinary research; conducting and administering research; communicating and disseminating results of research.

NRI 7320 Environmental Risk and Hazards 3 cr

Environmental risk and hazards are viewed in terms of complex processes of natural systems and social formation. Analysis of processes and events is assisted by theoretical formulation, development of models and examination of site- or type-specific empirical cases.

NRI 7330 Water Resources: Analysis, Planning and Management 3 cr

Considering fresh water as a resource, this course initially examines theoretical models and management approaches and practices; water supply requirement, measurements, and management; demand management; and environmental sustainability. The second part encompasses selected aspects of watershed hydrology and management; water and ecosystem health; and river basin management strategies and policies. The final part evaluates institutional arrangements and jurisdictional responsibilities; transboundary issues, opportunities and implications.

NRI 7340 Environmental Justice and Ecosystem Health 3 cr

Explores Ecosystem health and environmental justice issues to realize both the possibilities and barriers to sustainability. Risk, resource distribution and power/decision-making are analyzed across race, gender and class differences. Diverse views, theories and methods on community health consider well-being, quality of life, vulnerability and ecological integrity.

NRI 7350 Study Design and Quantitative Methods for Resource and Environmental Management 3 cr

This course addresses the quantitative analysis of environmental and natural resources data, emphasizing strong study design to prevent analytical difficulties. Focus is on preparing graduate students in environmental and resources management for dealing with the typical characteristics of environmental data, and for analyses specific to resources data.

NRI 7360 Qualitative Field Methods for Community-based Resource and Environmental Management 3 cr

The purpose of this course is to provide students with the knowledge and skills necessary to undertake qualitative research relevant to CBRM. The course will be offered in a studio format with an emphasis on student participation in a research team and the practical application of data collection procedures in field setting.

NRI 7370 Sustainable Livelihoods, Food Resources and Community Food Security 3 cr

About one third of a household's total environmental impact is related to food considering all the effects of livestock, agriculture and the food industry on water, soil and air, the overuse of fish resources, transport and packaging waste. This course analyzes sustainable livelihoods and food security/sovereignty in the food system (production, processing, marketing, etc.).

NRI 7380 Project Management in Natural Resources and Environmental Management 3 cr

This pass/fail course will provide students with a grounding in the knowledge and skills required to undertake a project within a professional workplace. The core objectives of this course are to encourage critical thinking about project management and develop the skills necessary to formulate, undertake and evaluate a project in the field of NREM.

Nursing (NURS)

NURS 7110 Readings in Selected Topics 3 cr

An intensive readings course for graduate students in nursing. Topics may be selected within the general field of nursing to suit the special needs and research interests of students, for example, transcultural nursing, women's health, or palliative care. Students must have a faculty member agree to advise them before registering.

NURS 7120 Capstone Project 0 cr

The course - based option in the Master of Nursing Program culminates in the Capstone Project. The Capstone Project provides students with the opportunity to demonstrate the ability to analyze, interpret, apply, and communicate knowledge acquired throughout their MN Program. Course graded pass/fail.

NURS 7210 Qualitative Research Methods in Nursing 3 cr

Students will develop knowledge in qualitative research in nursing and health care, including the philosophical assumptions, theories, ethical issues, designs, methodologies, and knowledge translation strategies that are integral elements of qualitative research.

NURS 7212 Systematic Reviews: Focus on Qualitative and Observational Studies 3 cr

This course provides students with the opportunity to learn the essential steps of a systematic review and synthesis of the research literature, with a focus on qualitative and observational studies, to produce reliable evidence for health care practice.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: NURS 7220 and NURS 7210 or equivalent.

NURS 7220 Quantitative Research Methods in Nursing 3 cr

Students will apply the steps of the quantitative research process to address problems identified in nursing practice, education, and/or administration. Students will also analyze the contributions that quantitative research has made to knowledge development in nursing.

NURS 7320 Philosophy of Nursing Science 3 cr

Students will analyze nursing's theoretical and specific evolution, and assess issues related to the role that theory and research play in a practice discipline. Emphasis will be placed upon the evaluation of conceptual and theoretical perspectives applicable to the student's chosen area of focus. May not be held with NURS 7090.

Equiv To: NURS 7090

NURS 7330 Clinical Consolidation 0 cr

This course provides the student with the opportunity to demonstrate the acquisition and integration of the knowledge, skills and attitudes commensurate with the Nurse Practitioner scope of practice in the clinical setting at the entry-level competency level. This course is evaluated on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: NURS 7502.

NURS 7340 Evidence Informed Practice 3 cr

Students will evaluate evidence-informed practice and its relationship to health care delivery and policy. Basic epidemiological statistics, literature searching, systematic reviews, critical appraisal, implementation science, and health intervention evaluation are integral elements of the course.

Equiv To: NURS 7080

NURS 7352 Leadership in Advanced Practice Nursing 3 cr

Students will develop their knowledge of leadership in advanced nursing practice. Leadership theory, change management, policy development, ethical leadership, models of practice, and professional development are key elements of the course. These will be evaluated within the context of contemporary health care systems, and the legislative and fiscal environments within leadership in advanced nursing practice takes place. May not be held with NURS 7350.

Equiv To: NURS 7350

NURS 7360 Integrative Focus 6 cr

Students will integrate previous coursework within their substantive area: clinical practice, education or administration. Students develop self-directed learning goals and the faculty advisor facilitates goal development and provides guidance. Practice in their substantive area is required.

NURS 7400 Introduction to Advanced Nursing Practice 3 cr

This course will provide an overview of the Nurse Practitioner curriculum with a focus on core content, concepts, and design of learning activities. This course is graded pass/fail.

Mutually Exclusive: NURS 7462

NURS 7402 Advanced Pathophysiology and Therapeutics in Nurse Practitioner Practice 2 cr

The student will apply advanced knowledge in the pathophysiology and therapeutics underlying nursing concepts common to primary care conditions, and will integrate this knowledge to provide safe and effective clinical reasoning and prescribing practices within the scope of NP practice.

NURS 7410 Advanced Health Assessment & Diagnostic Reasoning 2 cr

This course develops advanced health assessment and critical thinking skills required of advanced practice as a nurse practitioner.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: NURS 7400 Introduction to Advanced Nursing Practice.

Mutually Exclusive: NURS 7412

NURS 7412 Advanced Health Assessment 3 cr

The student will perform advanced health assessments to create differential diagnoses for well clients of all ages in the context of primary care. Emphasis is on diagnostic reasoning and clinical judgment within the Nurse Practitioner scope of practice.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre or Co-requisite: NURS 7402. Not to be held with NURS 7410 and NURS 7420.

Mutually Exclusive: NURS 7410, NURS 7420

NURS 7420 Clinical Practice 1 1 cr

Within the Nurse Practitioner scope of practice, this clinical course focuses on advanced nursing practice assessment of clients of all ages in a primary care setting. This course is graded pass/fail.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre-requisite: NURS 7400 Introduction to Advanced Nursing Practice. Pre- or co-requisite: NURS 7410 Advanced Health Assessment & Diagnostic Reasoning.

Mutually Exclusive: NURS 7412

NURS 7430 Nurse Practitioner 1 6 cr

Within the Nurse Practitioner scope of practice, the student will develop advanced knowledge and skills as a primary care provider to address health issues affecting clients of all ages related to the HEENT (head, ears, eyes, nose, & throat), respiratory, and cardiovascular systems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre-requisite: NURS 7412.

NURS 7440 Clinical Practice 2 3 cr

Within the Nurse Practitioner scope of practice, this clinical course focuses on advanced nursing practice with clients who are experiencing health problems related to the HEENT, respiratory and cardiovascular systems. Course is graded pass/fail.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: NURS 7440 Introduction to Advanced Nursing Practice and NURS 7420 Clinical Practice 1.

Mutually Exclusive: NURS 7442

NURS 7442 Clinical Practice 1 3 cr

This course provides the student with the opportunity to demonstrate the acquisition and integration of the knowledge, skills and attitudes commensurate with the Nurse Practitioner scope of practice in the clinical setting at the beginner level. This course is evaluated on a pass/fail basis. Not to be held with NURS 7440.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre or Co-requisite: NURS 7430.

Mutually Exclusive: NURS 7440

NURS 7450 Nurse Practitioner 2 5 cr

Within the Nurse Practitioner scope of practice, the student will develop advanced knowledge and skills as a primary care provider to address health issues affecting clients of all ages related to the reproductive, hematological, and genitourinary/renal system systems. Pre-requisite: NURS 7430.

NURS 7460 Community Health: Key Components for Nurse Practitioners 1 cr

This course furthers theoretical and practical knowledge of key components of community health within primary care. The emphasis of this course is on the community as client.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre-requisite: NURS 7400 Introduction to Advanced Nursing Practice.

Mutually Exclusive: NURS 7462

NURS 7462 Advanced Practice Nursing in Primary Care Settings 2 cr

The student will examine advanced nursing care in primary care settings, including population health needs, the determinants of health, ethical practice, cultural safety and social justice. Emphasis will be on the development and evaluation of evidence-informed interventions to meet the health needs of Manitobans. Not to be held with NURS 7400 and NURS 7460.

Mutually Exclusive: NURS 7400, NURS 7460

NURS 7470 Nurse Practitioner 3 5 cr

Within the Nurse Practitioner scope of practice, the student will develop advanced knowledge and skills as a primary care provider to address health issues affecting clients of all ages related to the neurological, metabolic and gastro-intestinal systems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: NURS 7450.

NURS 7480 Clinical Practice 3 4 cr

Within the Nurse Practitioner scope of practice, this clinical course focuses on advanced nursing practice with clients who are experiencing health problems related to the gastrointestinal, hematology, genitourinary/renal, neurology, metabolic, and reproductive systems. Course is graded pass/fail.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: NURS 7400 Introduction to Advanced Nursing Practice and NURS 7440 Clinical Practice 2.

Mutually Exclusive: NURS 7482

NURS 7482 Clinical Practice 2 4 cr

This course provides the student with the opportunity to demonstrate (the acquisition and integration of the knowledge, skills and attitudes commensurate with the Nurse Practitioner scope of practice in the clinical setting at the intermediate level. This course is evaluated on a pass/fail basis. Not to be held with NURS 7480.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: NURS 7442, pre or co-requisite: NURS 7470.

Mutually Exclusive: NURS 7480

NURS 7490 Nurse Practitioner 4 5 cr

Within the Nurse Practitioner scope of practice, the student will develop advanced knowledge and skills as a primary care provider to address health issues affecting clients of all ages related to mental health, and the musculoskeletal and dermatological systems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre-requisite: NURS 7470.

NURS 7500 Clinical Practice 4 4 cr

Within the Nurse Practitioner scope of practice, this clinical course focuses on advanced nursing practice with clients who are experiencing health problems related to musculoskeletal, dermatological and mental health issues. Course is graded pass/fail.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre-requisite: NURS 7400 Introduction to Advanced Nursing Practice and NURS 7480 Clinical Practice 3.

Mutually Exclusive: NURS 7502

NURS 7502 Clinical Practice 3 4 cr

This course provides the student with the opportunity to demonstrate the acquisition and integration of the knowledge, skills and attitudes commensurate with the Nurse Practitioner scope of practice in the clinical setting at the proficient level. This course is evaluated on a pass/fail basis. Not to be held with NURS 7500.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: NURS 7482. Pre or co-requisite: NURS 7490.

Mutually Exclusive: NURS 7500

NURS 8002 Advanced Philosophy of Nursing Science 3 cr

Through a critical evaluation of relevant concepts, paradigms, theories, and conceptual frameworks in science and nursing, students will advance their thesis endeavors.

NURS 8010 Advanced Qualitative Research for Nursing 3 cr

This course will advance the student's critical understanding of the philosophical foundations and application of qualitative research methods in nursing and health care. Students will engage in a critical examination of the epistemological, ethical and methodological underpinnings of qualitative research. The implications of qualitative research, and its advancement and impact on policy development in nursing and health care are integral elements of the course.

NURS 8020 Advanced Knowledge Translation & Health Care Policy 3 cr

Through critical analysis of knowledge translation and health policy frameworks, students will advance their knowledge of evidence-to-practice strategies that maximize research uptake in interprofessional, clinical, and political contexts. Students will draw on the course concepts to inform their area of research.

NURS 8030 Doctoral Student Seminars I 0 cr

A dynamic seminar series for first year doctoral students to stimulate and facilitate academic discourse, professional socialization, proposal/thesis/development, funding opportunities and integration into the professional, university and national/international community of nursing scientists and their collaborative partners. This course is evaluated on a pass/fail basis.

NURS 8040 Doctoral Student Seminars II 0 cr

A dynamic seminar series for second year doctoral students to stimulate and facilitate academic discourse, professional socialization, proposal/thesis/development, funding opportunities and integration into the professional, university and national/international community of nursing scientists and their collaborative partners. This course is evaluated on a pass/fail basis.

NURS 8220 Advanced Quantitative Research Design & Methods in Nursing and Health Care 3 cr

This course prepares doctoral students in nursing and other health related programs to expand their knowledge and skills in advanced level quantitative design and methods. Emphasis in the course is on critically appraising issues specific to the design, measurement, and analysis of data for advanced level quantitative studies in nursing and healthcare. Students will also analyze ethical and policy issues related to quantitative research designs.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: NURS 7220 or equivalent; pre- or co-requisite: CHSC 7810 statistics course or equivalent.

Occupational Therapy (OT)

OT 6100 Human Determinants of Occupational Performance 6 cr

Students study the anatomical, physiological, biomechanical, and psychosocial factors that underlie the physical, cognitive and affective components of human capacities. Content is presented in the context of understanding the relationship between human capacities and occupational performance, the ability to carry out activities and tasks of self-care, productivity and leisure throughout the lifespan.

OT 6110 Fundamentals of Occupational Therapy Theory 3 cr

Students study the foundational values and beliefs of occupational therapy, the fundamentals of occupational therapy theory, and the relationship between occupation, health and well-being. Processes and approaches that guide practice with clients of various ages and in a variety of settings are introduced.

OT 6122 Foundations of Health and Well-being 3 cr

This course explores foundational knowledge in topics essential for understanding the concepts of and influences on health and well-being. Students engage in theory based and practical activities to understand models of disability, concepts of health, social determinants of health, cultural competence and safety, power and privilege. Course evaluated on a pass/fail basis.

OT 6130 Occupational Therapy Practice Skills 1 3 cr

Through instruction, case illustration and practice laboratory sessions students are introduced to practice skills related to the occupational therapy process. Occupational therapy skills and approaches used to identify occupational performance issues are introduced and practiced. Basic assessment of physical, cognitive, and affective performance components are taught. Students participate in problem solving and basic interventions around issues of occupational performance.

OT 6142 Professionalism and Enabling Occupation 7 cr

This course introduces the principles of professionalism and therapeutic strategies to promote enabling occupations, collaborative partnerships and client-centred practice. Guided by professional documents, emphasis is placed on reflective practice, communication, and ethical and legal dimensions of practice.

OT 6190 Fieldwork Preparation 1 cr

This course provides foundational knowledge and skills required to participate effectively in the fieldwork component of the Occupational Therapy Program. Course evaluated on a pass/fail basis.

OT 6200 Basic Fieldwork 4 cr

Students are placed in practice settings for four weeks of fieldwork experience under the supervision of a registered occupational therapist(s). Experiences are offered in a wide variety of practice settings. Course evaluated on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: OT 6190.

OT 6300 Analysis of Occupation 4 cr

Students examine the relationships between components of human performance and engagement in occupations. Students analyze self-care, productivity and leisure occupations to identify physical, cognitive and affective components required for function. Adapting and grading principles and methods are applied. Course evaluated on a Pass/Fail basis.

OT 6310 The Environment and Occupational Performance 4 cr

An examination of physical, social, cultural and institutional aspects of the environment and their relationship to occupational performance throughout the life span. Students will begin to identify the environment in terms of enablers and obstacles to function for individuals with variable capacities.

OT 6320 Health Conditions and Occupational Performance 4 cr

An introduction to diseases, disorders and impairments as barriers to human occupational performance including an introduction to occupational therapy management approaches to enabling function.

OT 6330 Occupational Therapy Practice Skills 2 4 cr

This course builds on OT Practice Skills 1. With a focus on practice skills related to the occupational therapy process, students gain further practice in assessment of occupational performance issues and physical, cognitive, and affective performance components. Students are introduced to assessment of environmental factors that influence occupational performance and participate in problem solving and interventions around occupational performance issues.

OT 6352 Foundations of Evidence-informed Occupational Therapy 4 cr

Students are introduced to research principles and methods used to support evidence-informed occupational therapy. Students learn to critically appraise qualitative and quantitative research to answer clinical questions and apply evidence to occupational therapy.

OT 6400 Intermediate Fieldwork 1 8 cr

Students are placed in practice settings for eight weeks of fieldwork experience under the supervision of a registered occupational therapist(s). Experiences are offered in a wide variety of practice settings. Course evaluated on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: OT 6200.

OT 7542 Professionalism and Leadership in Enabling Occupation 1 4 cr

Building on the Professionalism and Enabling Occupation course, emphasis is placed on leadership using a client-centred, culturally safe and equity based approach. Integrated topics are addressed: advanced communication skills; leadership in practice and in the profession; and program development and evaluation.

OT 7560 Occupational Therapy Process 1 6 cr

Working in small group tutorials and using problem-based learning methods, students apply the occupational therapy process to selected learning scenarios within a variety of service delivery models, professional roles and practice environments.

OT 7572 Occupational Therapy Practice Skills 3 6 cr

Building on knowledge and skills learned in Occupational Therapy Skills 1 & 2, students are introduced to advanced concepts, theories and models which guide client-centred occupational therapy. Students apply theory to practice and continue to develop skills for evaluation and intervention of occupational performance issues.

OT 7600 Intermediate Fieldwork 2 8 cr

Students are placed in practice settings for eight weeks of fieldwork experience under the supervision of a registered occupational therapist(s). Experiences are offered in a wide variety of practice settings. Course evaluated on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: OT 6400.

OT 7742 Professionalism and Leadership in Enabling Occupation 2 4 cr

This course builds upon previous Professionalism courses and emphasizes leadership in practice using a client-centred, culturally safe and equity based approach. Integrated sections are addressed: Leadership in Program Development and Evaluation, Client-centred Practice in Macro Environments, Leadership in Team Knowledge Translation, and Transition to Practice.

OT 7752 Critical Inquiry Research Project 6 cr

Working with an assigned faculty advisor, students complete a research study relevant to occupational therapy. Students critique the literature, plan and conduct a capstone project, and relate their findings through a process of knowledge translation.

OT 7760 Occupational Therapy Process 2 6 cr

Building on knowledge and skills learned in Occupational Therapy Process 1, students work in small group tutorials and use problem-based learning methods to apply the occupational therapy process to selected learning scenarios across the continuum of community health and new/emerging areas of practice.

OT 7772 Occupational Therapy Practice Skills 4 6 cr

Building on knowledge and skills learned in Occupational Therapy Practice Skills 1, 2 and 3, students evaluate and apply concepts, theories and models of client-centred occupational therapy. Students develop skills to select, justify, perform and interpret evaluations and interventions to address occupational performance issues.

OT 7800 Advanced Fieldwork 6 cr

Students are placed in practice settings for a six weeks of fieldwork experience under the supervision of a registered occupational therapist(s). Experiences are offered in a wide variety of practice settings. Course evaluated on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: OT 7600 and all MOT academic courses.

Operations Management (OPM)

OPM 7120 Operations and Supply Chain Management 3 cr

Operations and Supply Chain Management focuses on the management of processes that transform inputs into valuable outputs within supply chains. This case method course will allow students to learn systematic ways of seeing, thinking, and managing key related processes.

OPM 7130 Supply Chain Sustainability 3 cr

This course takes a broad look at supply chain sustainability. Supply chain management includes logistics/transportation, purchasing, and a few aspects of marketing. Sustainability is a multi-dimensional concept, spanning environmental, social and economic issues. Delivery is via interactive lectures, small group discussions, and writing/presenting a sustainability term paper.

OPM 7140 Seminar in Supply Chain Management 3 cr

This graduate seminar addresses key subject areas in supply chain management, primarily via the review of recent academic literature in the field. The material is approached from an overall management perspective, with little emphasis on specific operational or mathematical techniques.

OPM 7150 Operations Strategy 3 cr

This course examines issues of operations strategy. Representative topics include the development of operational capabilities for competitive advantage, capacity strategy, operations improvement, vertical integration and outsourcing, managing operating networks, and new process development.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: OPM 7120 or former OPM 6090.

OPM 7160 Purchasing and Supply Management 3 cr

Purchasing and supply management are sometimes considered equal yet separate areas of business; and sometimes they are considered to be interchangeable. Purchasing is now one of the key strategic elements of an organization. The broad goal of the course is for students to better understand the strategic side of purchasing, as well as tactical approaches that support the strategy. The course builds from an initial discussion of strategic and tactical purchasing to a consideration of key processes that support the strategic goal and tactical imperative.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: OPM 7120 (or the former OPM 6090).

OPM 7170 Project Management 3 cr

Topics covered in this course will include project initiating, planning, executing, monitoring and controlling, and closing. Knowledge areas such as scope, schedule, cost, risk, and HR management will be discussed. The course will make use of industrial projects for developing a strong planning and analytical approach pertinent to project management.

OPM 7180 Sustainable Lean Management 3 cr

Sustainable Lean Management will provide students with a basic understanding of the components of Sustainable Lean Management in the context of Profit, People and Plant (the triple bottom line) and the opportunity to practically apply the principles, methods and tools of Sustainable Lean Management to real problems. Sustainable Lean Management, at its core, is about systematically identifying the strategic problems of an organization and methodically solving those problems while simultaneously growing and developing the potential of people to the benefit of all stakeholders of the enterprise.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: OPM 7120.

OPM 7300 Topics in Advanced Production and Operations Management 3 cr

A study of recent developments in production systems and management. Topics include systems design, plant location and layout, inventory systems planning and control.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: OPM 7120 (or OPM 6090).

Oral Biology (ORLB)

ORLB 7090 Pharmacology and Therapeutics 3 cr

A combined lecture and seminar course on the pharmacological basis of therapeutics. Special attention will be paid to drugs used commonly in the practice of dentistry, their side effects and their interaction.

ORLB 7100 Oral Microbial Ecology 3 cr

Study of principles of ecology in relation to the various ecosystems in the oral cavity. In depth examination of the taxonomic relationships of oral bacterial species. Emphasis will be placed on the growth and metabolic activities of oral bacteria which lead to successful colonization of the mouth.

ORLB 7110 Infectious Diseases and the Oral Cavity 3 cr

The description of the aetiology of microbial infections in the mouth and infections elsewhere in the body which involve oral bacteria. The control of such infections by vaccines, antibiotics and antimicrobial drugs. Treatment of infections in the immuno-suppressed, post-operative infections and nosocomial infections. The relationships of host immune system to the oral flora.

ORLB 7120 Special Problems in Oral Biology 3 cr

Each student will be required to carry out a minor research project in an area of oral biology other than that of their thesis work. The results of this project will be presented in a seminar and submitted as a written report.

ORLB 7130 Macromolecular Interactions of Connective Tissue in Health and Disease 6 cr

A comprehensive study of the macromolecular constituents of connective tissue, of their synthesis, metabolism, macromolecular interaction in health and disease, and of their regulatory mechanisms.

ORLB 7140 Cell Membrane and Cell Signaling 3 cr

This course will cover the structure and function of cell membrane receptors. The mechanisms and regulation of membrane coupled signal transduction pathways including those stimulated by oral tastants and drugs will also be covered.

ORLB 7150 MECH ORAL & MAX DIS 3 cr

This course deals with the molecular pathology of the oral cavity and maxillofacial complex.

ORLB 7162 Neurophysiology of Pain 3 cr

This course examines the peripheral and central mechanisms associated with pain. Endogenous pain control systems and the pharmacological treatment of pain will also be covered.

ORLB 7180 Recent Advances in Oral Biology 6 cr

This course is given by staff in the form of lectures and tutorials. Additional lectures may be given by visiting scientists. Students are expected to familiarize themselves with the relevant literature and are examined for an in-depth appreciation of the topics covered.

ORLB 7190 Communication Skills in Dental Research 3 cr

A course to develop written, visual and oral communication skills in scientific and clinical disciplines related to dentistry.

Pathology (PATH)

PATH 7010 Investigative Pathology 6 cr

The student will complete a supervised project in the field of anatomic and/or clinical pathology, the results to be submitted in an acceptable report. The student will be examined on his/her knowledge in the field relating to his project.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PATH 7020 or departmental consent.

PATH 7032 Pathologists Assistant Field Practicum I 4 cr

(Formerly PATH 7030) The course will follow a format of lectures, webinars, discussions, assignments, and hands-on practical experience. The course will include rotations in the various medical laboratories associated with Pathology, which will include a one week Histopathology rotation, and two 3 month Autopsy rotations. The remainder of the time will see the student in clinical rotations in Surgical Pathology. During the rotations the student will attend various rounds and lectures associated with the departments. Course graded Pass/Fail.

PATH 7034 Pathologists Assistant Field Practicum II 4 cr

The course will follow a format of lectures, webinars, discussions, assignments, and hands-on practical experience. The course will include rotations in the various medical laboratories associated with Pathology, which will include a one week Histopathology rotation, and two 3 month Autopsy rotations. The remainder of the time will see the student in clinical rotations in Surgical Pathology. During the rotations the student will attend various rounds and lectures associated with the departments. Course graded Pass/Fail.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PATH 7032.

PATH 7036 Pathologists Assistant Field Practicum III 4 cr

The course will follow a format of lectures, webinars, discussions, assignments, and hands-on practical experience. The course will include rotations in the various medical laboratories associated with Pathology, which will include a one week Histopathology rotation, and two 3 month Autopsy rotations. The remainder of the time will see the student in clinical rotations in Surgical Pathology. During the rotations the student will attend various rounds and lectures associated with the departments. Course graded Pass/Fail.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PATH 7034.

PATH 7038 Pathologists Assistant Filed Practicum IV 4 cr

The course will follow a format of lectures, webinars, discussions, assignments, and hands-on practical experience. The course will include rotations in the various medical laboratories associated with Pathology, which will include a one week Histopathology rotation, and two 3 month Autopsy rotations. The remainder of the time will see the student in clinical rotations in Surgical Pathology. During the rotations the student will attend various rounds and lectures associated with the departments. Course graded Pass/Fail.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PATH 7036.

PATH 7042 Pathologists Assistant Field Practicum V 4 cr

The course will follow a format of lectures, webinars, discussions, assignments, and hands-on practical experience. The course will include rotations in the various medical laboratories associated with Pathology, which will include a one week Histopathology rotation, and two 3 month Autopsy rotations. The remainder of the time will see the student in clinical rotations in Surgical Pathology. During the rotations the student will attend various rounds and lectures associated with the departments. Course graded Pass/Fail.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PATH 7038.

PATH 7120 Diseases of Human Organ Systems 1.5 cr
(Formerly PATH 7020) The course introduces the student to the pathology of major organ systems of the human body via lectures, assigned readings and discussion, and oral presentations. The course will provide coverage of disease mechanisms and the pathology of specific organ systems including: gastrointestinal, genitourinary, reproductive, breast, hematolymphoid, cardiovascular and respiratory systems.
PR/CR: A minimum grade of C is required unless otherwise indicated.
Prerequisite: IMED 7212.

PATH 7130 Clinical Pathological Correlations 1 1.5 cr
(Formerly: PATH 7020) The course provides an opportunity to synthesize clinical skills and theoretical knowledge in the identification, classification, and staging of cancer with emphasis on Primary Tumor (T); Regional Lymph Nodes (N); Distant Metastasis (M) TNM staging. Course graded pass/fail.
PR/CR: A minimum grade of C is required unless otherwise indicated.
Prerequisites: IMED 7212.

PATH 7140 Clinical Pathological Correlations 2 1.5 cr
The course provides an opportunity to synthesize clinical skills and theoretical knowledge in the identification, classification, and staging of cancer with emphasis on Primary Tumor (T); Regional Lymph Nodes (N); Distant Metastasis (M) TNM staging. Course graded pass/fail.
PR/CR: A minimum grade of C is required unless otherwise indicated.
Prerequisite: PATH 7130.

Peace and Conflict Studies (PEAC)

PEAC 7010 Interpersonal Communication, Problem-Solving, and Trust-building 3 cr
Examines the role of language and communication in conflict and conflict resolution. These theoretical and practice perspectives are fundamental to the field of conflict analysis and resolution/peace studies. The role of power, gender, and culture in communication and conflict are reviewed. Theories and practical skills for successful communication, collaborative problem-solving, and trust-building are explored. This class is relevant for addressing conflicts within diverse settings.

PEAC 7020 Theories of Conflict and Conflict Resolution 3 cr
Provides an overview of the theoretical foundations of the interdisciplinary field of conflict analysis and resolution, examining macro and micro theories regarding the causes of conflicts and approaches to their resolution. Conflicts are complex and take shape on multiple, interlocking planes. The course focuses on theory and the implications of these theories for practice.

PEAC 7030 International Conflict Resolution and Peace-building 3 cr
Examines international conflict resolution and post-accord peace-building. Theories regarding the causes of international conflict are reviewed. Approaches for just and enduring resolution to international conflicts, building peace, and the promotion of a global civil society are explored.

PEAC 7040 Violence Intervention and Prevention 3 cr
Examines different definitions and types of violence from the interpersonal to the global levels (e.g., family violence, youth and gang violence, violence in the workplace, hate crimes, and war). Theories of human aggression and causes of violence, as well as approaches for violence intervention and prevention are reviewed. Theories of nonviolence are explored.

PEAC 7050 Intercultural Conflict Resolution and Peace-Building 3 cr
Examines the role of socially constructed identities and meaning in intergroup conflicts in a variety of contexts. Culture is broadly conceived to encompass a variety of identities, including differences along racial, ethnic, religious, gender, and class lines. Various models for resolution are reviewed. The nature of and ethics of intervention in cultures other than one's own are explored.

PEAC 7060 Special Topics in Peace and Conflict Studies 1 3 cr
The topics addressed in this course will vary depending on faculty expertise and student need. Topics could include but will not be restricted to: "Gender and Conflict;" "Storytelling: Identity, Power and Transformation;" "Ethnic Conflict Analysis and Resolution;" "Children and War;" "Peace Education;" "Transformational Conflict Resolution;" "Role of Religion in Conflict and Peace."

PEAC 7070 Special Topics in Peace and Conflict Studies 2 3 cr
The topics addressed in this course will vary depending on faculty expertise and student need. Topics could include but will not be restricted to: "Gender and Conflict;" "Storytelling: Identity, Power and Transformation;" "Ethnic Conflict Analysis and Resolution;" "Children and War;" "Peace Education;" "Transformational Conflict Resolution;" "Role of Religion in Conflict and Peace."

PEAC 7110 International Human Rights and Human Security 3 cr
This course examines the shift in focus from state security to people. Human security is a bridge between the inter-related fields of development, human rights and conflict resolution. The course explores how these efforts at exploring the human condition can best be understood and applied.

PEAC 7120 Peacebuilding and Social Justice 3 cr
This course examines the role of peacebuilding in short term crisis intervention and longer term conflict transformation processes. Social justice is addressed at the systems level as it impacts the achievement of sustainable reconciliation. Crisis management in conflict settings, the root causes of conflict and its prevention are explored.

PEAC 7122 Dispute Systems Design 3 cr
Examines the role of conflict resolution within organizations and diverse settings (workplace, schools, communities, multiparty conflicts, international conflicts). The course focuses on analyzing how conflict is built into organizational structures and systems, and redesigning the system to produce effective human relations.

PEAC 7124 Gender, Conflict and Peacemaking 3 cr
Examines the role of gender in conflict and peacemaking in areas of armed conflict. Women tend to be impacted and respond to conflict in ways different from men. The course explores the theoretical and practical contributions of women activists, peace researchers and educators have made toward understanding the role of gender

PEAC 7126 Ethnic Conflict Analysis and Resolution 3 cr
Examines theories of ethnic conflict and the intervention methods used by states, international organizations and conflict resolution and peace practitioners to analyze, manage and resolve ethnic conflicts. Case studies are used to explain conflict analysis and resolution and peacebuilding.

PEAC 7128 Storytelling: Identity, Power and Transformation 3 cr
Examines the role of narrative and storytelling in conflict resolution, theory, research and practice. The relationship between language and power and destructive or constructive relationships is explored. The use of storytelling-based projects as a means of peacebuilding and community building are explored.

PEAC 7230 Gender, Conflict and Peacemaking 3 cr

Examines the role of gender in conflict and peacemaking in areas of armed conflict. Women tend to be impacted and respond to conflict in ways different from men. The course explores the theoretical and practical contributions women activists, peace researchers and educators have made toward understanding the role of gender.

PEAC 7240 Indigenous World Views and Approaches to Peacebuilding 3 cr

Examines indigenous models of peacebuilding from community level to national level. Emphasis is placed on restorative processes fundamental to cohesive relationships with others. This is achieved through ceremony, empathy, compassion, conflict resolution and restoration part of the peacebuilding models of indigenous peoples.

PEAC 7250 Restorative and Social Justice 3 cr

Examines the principles of restorative justice, the theoretical foundations of the restorative justice movement, and the development of new restorative justice programs. Restorative justice healing, re-integration and reconciliation are explored in a variety of contexts, including colonized and postcolonial indigenous communities.

PEAC 7260 Peace Education 3 cr

Examines the role of peace education as students seek to make sense of complicated and perilous events in their society. The course provides students with a background in the area of social justice, peace studies and conflict resolution.

PEAC 7280 Children and War 3 cr

Examines the impact of international war, civil war, and genocide on young people. The role of gender, class, and culture are explored; as well as the role of peacemakers, governments, and communities for addressing these issues. The implications for both the political socialization of children as well as how young people may be actors in political solutions will be explored.

PEAC 7300 Special Topics 1: Children and War 3 cr

Examines the impact of international war, civil war and genocide on children. Today's children are tomorrow's world citizens, and their events will shape the future in unforeseeable ways. Young people are socio-economic and political agents, expressive through violence, peace work and other creative forms.

PEAC 7400 Special Topics 2: Directed Readings in Peace and Conflict Studies 3 cr

This course is designed for MA students in Peace and Conflict Studies. Course requirements including readings and assignments will be selected and developed by the Professor in conjunction with the students' interests.

PEAC 7500 Practicum 3 cr

Students develop awareness of theoretical knowledge, practice skills and abilities necessary for intervention in community, group and organizational conflicts at a practicum site. Students integrate theory and experiential learning into practice to analyze the conflict, during the intervention, and post intervention reflection.

Pharmacology (PHAC)

PHAC 7042 Cardiovascular Regulation and Drug Action 2 1.5 cr

The normal homeostatic regulation of the cardiovascular system, its modification by drugs, and the sites and characteristics of drug actions affecting the cardiovascular system.

PHAC 7062 Drug Distribution, Metabolism and Excretion A 1.5 cr

The mechanisms by which the body handles the absorption, distribution and elimination of drugs and the impact this has on biological response.

PHAC 7064 Drug Distribution, Metabolism and Excretion B 1.5 cr

The mechanisms influencing the absorption, distribution and elimination of drugs from the body and their impact on pharmacodynamic and pharmacokinetic properties.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHAC 7062 or its equivalent.

PHAC 7110 Topics in Pharmacology 6 cr

(Formerly 089.711) Short research projects on various properties and effects of newer drugs. Presentation of oral and written reports by graduate students on research conducted. Open only to graduate students in Pharmacology.

PHAC 7136 General Pharmacology 3 cr

General pharmacological principles including pharmacodynamics of the more important groups of drugs, the factors which control and modify their effects, and the basis for rational selection and administration of drugs in the treatment of common diseases.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of department.

PHAC 7162 Neuropharmacology 1.5 cr

A broad sample at the graduate level of the pathophysiology, pharmacological treatments, and current research related to common neurological disorders. These will be didactic lectures followed by discussion of current topics in neuropathology and neuropharmacology.

PHAC 7164 Pharmacology Grant Writing Course 1.5 cr

The objective of this course is to teach students how to formulate, write, and present a professional research grant on the subject of their pharmacology graduate research. Students will be required to write and present a research grant under the close supervision of the course director.

PHAC 7180 Recent Advances in Pharmacology 3 cr

Lectures given by staff, followed by group discussions on current research, new developments in drugs and re-evaluation of currently employed drugs, their mechanism of action, etc. Three hours per week both terms. Open only to graduate students in Pharmacology.

PHAC 7190 Pharmacokinetics of Drug Disposition 3 cr

Lectures and problem-solving sessions directed at appropriate modelling of the disposition of drugs in the body.

PHAC 7212 Clinical Trial A 1.5 cr

Evaluate the essential elements of clinical trials as the basis for determining the potential value of interventions advocated for the treatment of diseases in humans. Topics include designing a study question, types of clinical trial designs, methods for randomization, sample size calculations, and ethics. The format will include assigned readings, lectures, discussion and assignment preparation.

PHAC 7214 Clinical Trial B 1.5 cr

Evaluate the essential elements of clinical trials as the basis for determining the potential value of interventions advocated for the treatment of diseases in humans. Topics include recruitment, baseline assessment, reporting morbidity and mortality, data collection, and survival analysis. While it is suggested that PHAC 7212 is taken before PHAC 7214 since there is a natural progression of information, it is not required that both courses are taken.

PHAC 7222 Molecular Pharmacology 2 3 cr

Lectures, seminars and selected readings on the mechanism of action of therapeutic and recreational drugs. This course covers 6 major themes: G-protein coupled receptors; Ion channels; Transporters; Lipid signaling; Tyrosine kinase receptors and tyrosine kinase-associated receptors.

PHAC 7230 Fundamental in Pharmacology for Health Care I 3 cr

This course will build on foundational knowledge of human physiology and examine basic pharmacokinetic (drug metabolism) and pharmacodynamic (drug action) principles of specific drug classes related to the autonomic nervous system, cardiovascular system (edema, hypertension, arrhythmia, angina, blood clotting, heart failure, hyperlipidemia), diabetes, thyroid, inflammation and pain. Remaining major drug classes will be covered in PHAC 7240. Students may take one or both courses. Taking both courses must be done in the same academic year (Sept to April) or with permission from the Department Head. Course delivery will involve lectures followed by clinical case-based tutorials.

PHAC 7240 Fundamentals in Pharmacology for Health Care II 3 cr

This course will build on foundational knowledge of human physiology and examine basic pharmacokinetic (drug metabolism) and pharmacodynamic (drug action) principles of specific drug classes related to the central nervous system (depression, psychosis, anxiety, epilepsy, movement disorders (e.g. Parkinson's)), infection (bacterial, viral, fungal), cancer, asthma, allergy, osteoporosis, gastrointestinal system, reproduction and special topics (pregnancy, geriatrics, drugs of abuse). Remaining major drug classes will be covered in PHAC 7230. Students may take one or both courses. Taking both courses must be done in the same academic year (Sept to April) or with permission from the Department Head. Course delivery will involve lectures followed by clinical case-based tutorials.

Pharmacy (PHRM)

PHRM 7080 Biopharmaceutics and Relevant Pharmacokinetics 3 cr

Lecture course on biopharmaceutics with particular emphasis on the application of pharmacokinetic principles in the design of conventional and sustained-release drug dosage forms, assessment of drug bioavailability, and selection of dosage regimens.

PHRM 7102 Pharmacoepidemiology 3 cr

This course will enable students to develop expertise in study designs applicable to pharmacoepidemiology. Sources of data, including automated databases, analytical methodologies and special issues in pharmacoepidemiology will be discussed.

PHRM 7120 Medical and Scientific Writing 3 cr

Lectures and exercises on the preparation of medical and scientific manuscripts, including papers for publication or oral presentation, progress reports, reviews, short papers, grant applications and similar projects.

PHRM 7130 Novel Drug Delivery Systems 3 cr

Advanced course dealing with the role of drugs and drug products in the treatment of disease with emphasis on pharmaceuticals and physical pharmacy. Current and future status of drug delivery systems, their design and evaluation will also be examined.

PHRM 7160 Pharmacy Seminar 1 MSc 3 cr

Seminars and lectures on selected topics in pharmacy. Students are required to present both oral and written reports on research topics.

PHRM 7170 Pharmacy Seminar 2 MSc 3 cr

Lectures and group discussions on recent developments in pharmaceutical fields. Students are required to give an oral presentation. **PR/CR: A minimum grade of C is required unless otherwise indicated.** Prerequisite: PHRM 7160.

PHRM 7180 Pharmaceutical Implications of Biotechnology 3 cr

Introduction to biotechnology in pharmaceutical sciences and pharmacy. Students will be introduced to concepts from molecular biology, immunology, biotechnology and pharmacogenomics. Implications of biotechnology in pharmaceutical biopharmaceutical research.

PHRM 7202 Advanced Topics in Pharmacoepidemiology - Level 1 3 cr

Reserved to M.Sc. students in Pharmacy seeking a concentration in Pharmacoepidemiology. Students must have obtained approval for their thesis proposal in pharmacoepidemiology before enrolling in PHRM 7202. Advanced topics regarding study design and analytical methodology in pharmacoepidemiology are discussed. Prerequisite PHRM 7102 (or equivalent).

PHRM 7260 Pharmacy Seminar 1 PhD 3 cr

Seminars and lectures on selected topics in pharmacy. Students are required to present both oral and written reports on research topics.

PHRM 7270 Pharmacy Seminar 2 PhD 3 cr

Lectures and groups discussions on recent developments in pharmaceutical fields. Students are required to give an oral presentation. **PR/CR: A minimum grade of C is required unless otherwise indicated.** Prerequisites: PHRM 7260 or PHRM 7160 if the student direct transfers from M.Sc.

PHRM 7302 Advanced Topics in Pharmacoepidemiology - Level 2 3 cr

Reserved to Ph.D. students enrolled in Pharmacy and seeking a concentration in Pharmacoepidemiology. Students must have obtained approval for their thesis proposal in pharmacoepidemiology before enrolling in PHRM 7302. Advanced topics regarding study design and new analytical methodology in pharmacoepidemiology are discussed. Prerequisite PHRM 7102 (or equivalent).

Philosophy (PHIL)

PHIL 7110 Graduate Seminar 6 cr

Not currently offered.

PHIL 7120 Graduate Reading 1 3 cr

A reading course for graduate students in philosophy. Subject matter may be arranged to suit the special needs and interests of students; the course might, for example, be devoted to modal logic, or the free will problem, the ontological argument, phenomenology, the philosophy of W.V. Quine, etc. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PHIL 7130 Graduate Reading 2 3 cr

A reading course for graduate students in philosophy, similar to PHIL 7120. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PHIL 7140 Epistemology 3 cr

A study of selected topics in epistemology. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PHIL 7160 Metaphysics 3 cr

A study of selected topics in metaphysics. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PHIL 7180 Graduate Reading 3 3 cr

A reading course for graduate students in philosophy, similar to PHIL 7120. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PHIL 7190 Graduate Reading 4 3 cr

A reading course for graduate students in philosophy, similar to PHIL 7120. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PHIL 7200 Topics in Ethics 1 3 cr

Basic topics in moral theory. Readings will include contemporary articles and books. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PHIL 7210 Topics in Ethics 2 3 cr

Basic topics in moral theory. Readings will include contemporary articles and books. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PHIL 7230 Topics in Logic and the Philosophy of Logic 2 3 cr

Selected topics in mathematical logic, inductive logic, the philosophy of logic, and the methodology of the natural and formal sciences. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PHIL 7400 Independent Research Paper 1 0 cr

This course is for students taking Option B in the M.A. program in Philosophy. The student will supply a paper with original research under the guidance of the research paper advisor. Course graded Pass/Fail.

PHIL 7410 Independent Research Paper 2 0 cr

This course is for students taking Option B in the M.A. program in Philosophy. The student will supply a paper with original research under the guidance of the research paper advisor. Course graded Pass/Fail.

Physical Therapy (PT)

PT 6100 Foundations of Physical Therapy 5 cr

Through lecture, labs and seminars, students are introduced to the theory of physical therapy knowledge, skills, attitudes and behaviours. Course content includes conceptual frameworks, principles surrounding safe and ethical professional conduct in the current health care environment. Course is graded pass/fail.

PT 6110 Foundations to Evidenced-Based Practice 1 1 cr

Students will learn to critically evaluate the evidence for physical therapy practice and rehabilitation and will be challenged to become involved in contributing to the evidence for their future practice.

PT 6124 Physical Therapy and Hospital Based Care 4 cr

Through lecture, tutorial and laboratory sessions, students learn the role of physical therapy in hospital settings. Students will learn knowledge, skills and behaviours which support physical therapy assessment and treatment.

PT 6130 Applied Sciences for Physical Therapy 1 4 cr

Through lecture, tutorial and laboratory sessions, students will learn the application of exercise and pain physiology to body structure and function and how it relates to activity and participation.

PT 6140 Neuromusculoskeletal Anatomy for Physical Therapy 3 cr

Through lecture and laboratory sessions, students learn detailed musculoskeletal anatomy of the upper and lower limbs, head, neck and trunk. Bones, joints, ligaments, muscles, nerves and vessels are included, and integration of structure and function is emphasized. Students are also introduced to the anatomy of the spinal cord and peripheral nerves.

PT 6221 Clinical Skills for Physical Therapy in Neuromusculoskeletal Conditions 1 6 cr

Through lecture, tutorial and laboratory sessions, students apply physical therapy assessment, diagnostic and treatment skills for upper quadrant neuromusculoskeletal conditions across the lifespan.

PT 6224 Clinical Skills for Physical Therapy in Neuromusculoskeletal Conditions 2 6 cr

Through lecture, tutorial and laboratory sessions, students apply physical therapy assessment, diagnostic and treatment skills for lower quadrant neuromusculoskeletal conditions across the lifespan.

PT 6230 Applied Sciences for Physical Therapy 2 6 cr

Through lecture, tutorial and laboratory sessions, students will learn the application of anatomy, biomechanics, physiology, pathology and exercise to the neuromusculoskeletal system. Scientific and medical theoretical basis for physical therapy intervention will be covered.

PT 6250 Integrated Practice for Neuromusculoskeletal Conditions 3 cr

Students integrate relevant information for physical therapy management of neuromusculoskeletal conditions through problem-based learning. Case studies reflect current key indicator conditions from the Entry-to-Practice Physiotherapy Curriculum: Content Guidelines for Canadian University Programs.

PT 6260 Physical Therapy Practice and Professional Issues 1 3 cr

Through lecture and tutorial sessions, students will address various professional topics to develop their knowledge concerning of business, ethical and legal principles for physical therapy practice.

PT 6291 Neuromusculoskeletal Clinical Education 1 6 cr

First of two six-week experiential learning periods in the clinical community, providing opportunity for students to assess and treat clients with musculoskeletal disorders under supervision. Includes 3-4 hours of preparatory sessions prior to the placements, and 3-4 hours of follow up including debriefing group discussion and presentation of reflective journals.

PT 6292 Neuromusculoskeletal Clinical Education 2 6 cr

Second of two six-week experiential learning periods in the clinical community, providing opportunity for students to assess and treat clients with neuromusculoskeletal disorders under supervision. Prerequisite PT 6291.

PT 6310 Foundations to Evidenced-Based Practice 2 2 cr

Students will learn to identify appropriate research and /or evaluation questions and appropriate methodologies for the rehabilitation context and the general process of conducting a research/evaluation study to facilitate future participation in research. Course graded pass/fail.

PT 7121 Clinical Skills for Physical Therapy Neurological Conditions 5 cr

Through lecture, tutorial and laboratory sessions, students apply physical therapy assessment, diagnostic and treatment skills for neurological conditions across the lifespan.

PT 7124 Clinical Skills for Physical Therapy in Cardiorespiratory Conditions 5 cr

Through lecture, tutorial and laboratory sessions, students apply physical therapy assessment, diagnostic and treatment skills for cardiorespiratory conditions across the lifespan.

PT 7150 Integrated Practice for Cardiorespiratory and Neurological Conditions 3 cr

Students integrate relevant information for physical therapy management of complex cardiorespiratory and neurological conditions through lectures, labs and small group work with a focus on interprofessional collaborative practice. Case studies may include but are not limited to: geriatrics, developmental disorders, spinal cord injuries, ARDS, critical care, etc.

PT 7160 Physical Therapy Practice and Professional Issues 2 3 cr

Through lecture and tutorial sessions, students will integrate their knowledge and clinical experience concerning business, ethical and legal principles for physical therapy practice.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PT 6260.

PT 7230 Applied Sciences for Physical Therapy 3 3 cr

Through lecture, tutorial and laboratory sessions, students will learn the application of anatomy, physiology and pathology to the cardiovascular and pulmonary systems. This course provides the theoretical basis for physical therapy intervention for cardiovascular and pulmonary disorders.

PT 7292 Neurosciences Clinical Education 6 cr

A six-week experiential learning period in the clinical community, providing opportunity for students to assess and treat clients with neurological disorders under supervision. Includes 3 - 4 hours of preparatory sessions prior to the placements, and 3 - 4 hours of follow up including debriefing group discussion and presentation of reflective journals.

PT 7294 Cardiovascular and Pulmonary Clinical Education 5 cr

A five-week experiential learning period in the clinical community, providing opportunity for students to assess and treat clients with cardiovascular and pulmonary disorders under supervision. Includes 3-4 hours of preparatory sessions prior to the placement, and 3-4 hours of follow up including debriefing group discussion and presentation of reflective journals. Course is pass/fail.

PT 7330 Applied Sciences for Physical Therapy 4 3 cr

Through lecture, tutorial and laboratory sessions, students will learn the application of anatomy, physiology and pathology to the neurological system. Scientific and medical theoretical basis for physical therapy intervention will be covered.

PT 7390 Elective Clinical Education 6 cr

One six-week experiential learning period in the clinical community to complement previous clinical placements, address gaps in previous clinical placements and /or to explore emerging practice roles in physiotherapy.

PT 7410 Exercise Prescription and Manual Therapy for Physical Therapists 3 cr

Through a variety of learning strategies, students further develop exercise prescription and manual therapy skills in physical therapy assessment, diagnosis and treatment for individuals across the lifespan.

PT 7500 Physical Therapy Evaluation/Research Project 6 cr

Under the supervision of a faculty advisor the student will develop and complete a physical therapy or rehabilitation- focused research or evaluation project. Course graded pass/fail.

Physician Assistant Education (PAEP)

PAEP 7000 Physiology and Pathophysiology for Physician Assistants 3 cr

This brief introduction is designed to impart an understanding of normal physiological functioning of the human body. This basic science course builds upon the entry knowledge of the Physician Assistant student, by presenting the pathophysiology of disease by organ systems. The emphasis is on the homeostatic mechanisms for all the major organ systems. Evaluation will be by successful completion of exercises, class participation and written examination, demonstrating to faculty proficiency in course principles.

PAEP 7002 Physiology and Pathophysiology for Physician Assistants II 3 cr

A continuation of the material presented in Physiology and Pathophysiology for Physician Assistants. A basic science course which builds upon the entry knowledge of the PAEP learner by presenting normal physiology and the pathophysiology for disease by organ systems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Admission to PAEP Year 1

PAEP 7010 Human Anatomy for Physician Assistants 3 cr

This brief comprehensive introduction is designed to impart an understanding of gross functional anatomy of the human body. This basic science course builds upon the entry knowledge of the student by presenting clinical human anatomy, correlated to clinical applications, assessment and pathology of disease. Evaluation will be by successful completion of exercises, class participation and written examination, demonstrating to faculty proficiency in course principles.

PAEP 7030 Professional Studies of Physician Assistants 3 cr

This course is designed to provide the student with an understanding of the role the Physician Assistant plays within the structure of the Canadian Health Care System. This introduction is designed to impart an understanding of the interaction between the various stakeholders. Ethical considerations in health care and the legal aspects of the PA role in Canada will be addressed. Evaluation will be by successful completion of a presentation (evaluated by classmates), participation in ethical problem solving exercises and written examination, demonstrating to faculty proficiency in course principles. Students are expected to submit a research paper on an ethics topic of choice and write a short-answer examination at the end of the course.

PAEP 7042 Biochemistry for Physician Assistants 1 cr

A brief introduction to medical biochemistry.

PAEP 7045 Research and Clinical Practice for Physician Assistants 1 cr

An introduction to the skills required for quality improvement efforts and critical appraisal of medical literature in clinical practice and evidenced based medicine.

PAEP 7046 Genetics for Physician Assistants 1 cr

A brief introduction to medical genetics.

PAEP 7048 Pediatrics for Physician Assistants 3 cr

A brief, comprehensive didactic introduction to the field of obstetrics and gynecology designed to prepare the physician assistant to diagnose and treat, within his or her scope of practice, common obstetrics and gynecology conditions as would be encountered in a primary care setting.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Successful completion of MPAS year 1.

PAEP 7050 Obstetrics and Gynecology for Physician Assistants 3 cr

A brief, comprehensive didactic introduction to the field of obstetrics and gynecology designed to prepare the physician assistant to diagnose and treat, within his or her scope of practice, common obstetrics and gynecology conditions as would be encountered in a primary care setting.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre-requisite: Successful completion of MPAS year 1.

PAEP 7052 Patient Assessment for Physician Assistants I 2 cr

A comprehensive introduction to the clinical assessment of a patient, delivered as a group of three courses. Part I introduces basic history-taking and physical exam skills. Patient Assessment II and Patient Assessment III extend these skills to other clinical settings.

PAEP 7054 Patient Assessment for Physician Assistants II 2 cr

Continues developing the skills in history taking and physical examination introduced in patient Assessment for Pas I. Learners are introduced to the Standardized Patient Program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Admissions to PAEP Year 1.

PAEP 7056 Patient Assessment for Physician Assistants III 2 cr

A brief, comprehensive introduction to diagnostic imaging techniques and interpretation of diagnostic images designed to enable Physician Assistants, within their scope of practice, to diagnose and treat medical, surgical, and infectious disease.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Admission to PAEP Year 1.

PAEP 7068 Adult Medicine for Physician Assistants I 6 cr

A comprehensive, system-based introduction to the clinical disciplines of medicine. Adult Medicine I is the first part of a two-course sequence; content areas include endocrinological, gastrointestinal and neurological, medicine, ophthalmology, and hematology/oncology.

PAEP 7078 Adult Medicine for Physician Assistants II 6 cr

A comprehensive, system-based introduction to the clinical disciplines of medicine. Adult Medicine II is the second part of a two-course sequence; content areas include cardiovascular, musculoskeletal, renal, dermatologic and respiratory medicine, and otolaryngology.

PAEP 7082 Diagnostic Imaging for Physician Assistants 1 cr

A brief, comprehensive introduction to diagnostic imaging techniques and interpretation of diagnostic images designed to enable Physician Assistants, within their scope of practice, to diagnose and treat medical, surgical and infectious disease.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Admissions to PAEP Year 1

PAEP 7084 Microbiology for Physician Assistants 1 cr

A brief introduction to Medical Microbiology.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Admissions to PAEP Year 1.

PAEP 7090 Principles of Psychiatry for Physician Assistants 3 cr

A brief, comprehensive introduction designed to impart an understanding of mental and behavioral health. Based on the special needs of a patient populations, the patient's presentation and unique contributing factors, the PA will be able to evaluate and analyze the patient's needs, providing the required specialty assessment for the psychiatric patient. Evaluation will be by successful completion of a practical and written evaluation, demonstrating the faculty proficiency in the course material.

PAEP 7100 Principles of Surgery for Physician Assistants 3 cr

A brief, comprehensive introduction designed to impart an understanding of surgical diseases. Upon completion, the Physical Assistant student, with their scope of practice, will be able to diagnose, refer and treat the medical, surgical and infectious diseases from a surgical perspective.

Evaluation will be by successful completion of a practical and written evaluation, demonstrating to faculty proficiency in the principals of surgery and application of surgical skills.

PAEP 7110 Emergency and Critical Care for Physician Assistants 3 cr

A brief, systems-based comprehensive introduction designed to impart an understanding of emergency and intensive care medicine. This course will equip the Physician Assistant student with the skills necessary to diagnose, refer and treat medical, surgical and infectious disease emergencies and life threatening conditions. The Advanced Cardiac Life Support (ACLS) course is a mandatory component of the Emergency and Critical Care course. It is organized by the Department of Emergency Medicine and is designed to provide the student with advanced knowledge and experience on how to handle a cardiac arrest. Most Physician Assistant students find the course invaluable regardless of what specialty they enter. Evaluation is based on successful completion of a practical evaluation, problem solving exercises, displaying proficiency in clinical skills and a written examination, demonstrating to faculty proficiency in course principles.

PAEP 7150 Year 1 Comprehensive Examination 0 cr

A pass/fail, multiple choice examination designed to assess students' knowledge of clinically relevant Year 1 material prior to entry into the clinical year.

PAEP 7202 Family Medicine for Physician Assistants 6 cr

A clinical rotation designed to impart a practical understanding of Family Medicine, to prepare the physician assistant, within his or her scope of practice, to diagnose and manage conditions and issues related to primary care medicine and general practice.

PAEP 7204 Clinical Elective for Physician Assistants I 1.5 cr

This course consists of two weeks of clinical time, offering an introduction to the clinical discipline of the Physician Assistant learner's choice. Course objectives will be developed by the learner in collaboration with PAEP faculty members.

PAEP 7206 Clinical Elective for Physician Assistants II 1.5 cr

This course consists of two weeks of clinical time, offering an introduction to the clinical discipline of the Physician Assistant learner's choice. Course objectives will be developed by the learner in collaboration with PAEP faculty members.

PAEP 7210 Clinical Internal Medicine for Physician Assistants 3 cr

A brief, clinical rotation designed to impart a practical understanding in the area of internal medicine. There will be an internal medicine speciality focus in this rotation versus the general exposure seen in Family Medicine. Upon completion, the Physician Assistant student will, within their scope of practice, be able to diagnose, refer and treat the medical, surgical and infectious conditions related to the field of internal medicine.

PAEP 7212 External Electives for Physician Assistant Students 0 cr

A clinical rotation of varying length designed to provide a physician assistant student not from the University of Manitoba with clinical education and training in a medical discipline of the student's choice at a University of Manitoba clinical teaching unit. Course credit is assigned by the student's home institution.

PAEP 7220 Clinical Surgery for Physician Assistants 3 cr

The 6-week General Surgery service rotation provides Physician Assistant-Student with clinical experience in a surgical learning environment. The PA-Student competencies addresses relate to the generalist role a PA requires to support surgery services and the skills required in surgical practice.

PAEP 7240 Clinical Pediatrics for Physician Assistants 3 cr

A brief, clinical rotation designed to impart a practical understanding of health and diseases in the field of pediatrics. Upon completion, the Physician Assistant student, within their scope of practice, will be able to diagnose, refer and treat the medical, surgical and infectious conditions related to the field of pediatric medicine.

PAEP 7250 Clinical Psychiatry for Physician Assistants 3 cr

A brief, clinical rotation designed to impart a practical understanding of mental health and psychiatric disease to the Physician Assistant. Upon completion, the Physician Assistant student, within their scope of practice, will be able to diagnose, refer and treat the medical, surgical and infectious conditions related to psychiatric medicine.

PAEP 7260 Community Health for Physician Assistants 3 cr

Community Health for PAs is a 4-week clinical experience focusing on primary health care and community services. Community health focuses on the maintenance, protection, and improvement of the patient's and communities' health status. The learners' experience occurs in community health organizations that provide primary healthcare, health promotion, and community services using interdisciplinary teams of health providers. Course graded pass/fail.

PAEP 7270 Clinical Emergency Medicine for Physician Assistants 3 cr

The Physician Assistant must have the knowledge and skills to manage life-threatening emergent medical or surgical issues. The competencies acquired during the Emergency Medicine clinical rotation build upon material taught during the academic year of the program. PAEP 7270 is a six-week rotation at designated Emergency Departments in Manitoba.

PAEP 7280 Clinical Obstetrics and Gynecology for Physician Assistants 3 cr

A brief, clinical rotation in obstetrics and gynecology designed to impart a practical understanding of reproductive health. Upon completion, the Physician Assistant student, within their scope of practice, will be able to diagnose, refer and treat the medical, surgical and infectious conditions related to the field of reproductive, obstetrical and gynecologic health.

PAEP 7300 Comprehensive Assessment of Clinical Skills 0 cr

The Comprehensive Assessment of Clinical Skills is a comprehensive summary of clinical performance using information from PA-ITRES, mini-CEX evaluations, and observed histories/physical exams. This assessment will be graded on a pass/fail basis.

PAEP 7350 PAEP Final Project 0 cr

A capstone project that may take a variety of formats as dictated by Program faculty. Students will, in consultation with a faculty mentor, develop and research a topic for presentation to faculty and peers.

Physics (PHYS)

PHYS 7010 General Relativity 1: A Relativistic Theory of Gravity 3 cr

Topics include Newtonian gravity, the theory of special relativity, relativistic hydrodynamics, relativistic electrodynamics, curved space-time, tensor calculus, and Einstein's equations. This course is taught together with PHYS 4010. Students may not hold credit for both PHYS 4010 and PHYS 4020.

Equiv To: PHYS 4010, PHYS 4020

PHYS 7250 Seminar course in Advanced Physics 6 cr

Selected topics in advanced physics may be offered from time to time by the faculty or visiting lecturers. Credit for this course will be determined by the head of the department of Physics.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

PHYS 7260 Mass Spectroscopy 3 cr

Two lectures per week for one term. The course covers the techniques and applications of mass spectroscopy. Special emphasis is given to the general principles of ion optics for use in the design of modern instruments.

PHYS 7360 Medical Radiation Physics 3 cr

The relevant physics of the production and interaction of radiation beams used in both diagnostic and therapeutic medicine will be covered. Such beams included X- and g-rays, particle beams, visible and I.R. radiation, microwaves, and ultrasound.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHYS 4560 or consent of instructor.

PHYS 7370 Radiation Therapy Physics 3 cr

The calculations and measurements necessary to determine the radiation dose distribution in patients receiving radiotherapy will be presented. Newer treatment modalities, e.g., pion therapy and hyperthermia will be discussed.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: PHYS 4510, PHYS 4560, or consent of instructor.

PHYS 7380 Radiation Biology 3 cr

The interaction of ionizing and non-ionizing radiations with living systems. The relevance to Radiotherapy. Nuclear medicine and diagnostic radiology.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHYS 1020 or consent of instructor.

PHYS 7390 Radiation Protection 3 cr

Ionizing radiation including X-ray, g-ray, neutrons, alpha-, beta-, and heavy ion-particle sources, bioeffects, and protection principles are covered. Non-ionizing radiation, including laser light, radio- frequency waves, ultraviolet and infrared light, and ultrasound, sources, bioeffects, and exposure protection guidelines are studied.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: PHYS 7360 and PHYS 7380 or consent of instructor.

PHYS 7400 Linear Systems for Imaging 3 cr

Fundamental principles of image formation, analysis of the characteristics of medical images, parametric description of image quality; application to transmission radiography.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

PHYS 7410 Diagnostic Methods 3 cr

This course is an intensive introduction to the fundamentals of medical imaging using magnetic resonance imaging and ultrasound. Included is an in-depth look at the physics and mathematics of image formation. Note this course is challenging with a great deal of mathematical content.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: PHYS 7400/4400 or consent of instructor.

PHYS 7422 Physics of X-ray Imaging 3 cr

X-ray imaging is the oldest form of medical imaging, yet continues to undergo dramatic technological development and innovation. This course will cover topics related to clinical and diagnostic x-ray imaging, including: x-ray production; x-ray detection; special radiographic systems; mammography; fluoroscopy; digital imaging; computed tomography and theoretical and practical aspects of image reconstruction and image quality.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: PHYS 7400/PHYS 4400 or consent of instructor.

PHYS 7430 Physics of Nuclear Medicine 3 cr

Nuclear medicine covers a range of topics from radionuclide based imaging methods to treatments through administration of radioisotopes. Knowledge of nuclear structure, radioactive decay and the interaction of radiation with matter are essential to understanding the application of radiotracer methods to medicine and the function of highly sophisticated nuclear medicine imaging equipment. This course will cover topics related to clinical and diagnostic nuclear medicine including: radioactive decay; interaction of radiation with matter; radionuclide and radiotracer production counting statistics; radiation detection systems; nuclear medicine imaging systems; emission computed tomography; image reconstruction and evaluation and radiation dosimetry.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHYS 7400/4400 or consent of instructor.

PHYS 7440 Advanced Topics in Physics 3 cr

Selected topics in advanced physics. This course may be offered from time to time by the faculty or visiting lecturers.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: consent of instructor.

PHYS 7460 Methods in Medical and Health Physics 1 - (Medical Imaging and Radiation Protection) 3 cr

This practical course is designed to give students hands-on experience with equipment, clinical techniques and methods of analysis in medical imaging and health physics. Topics such as: dosimetry of unsealed sources, radiation shielding design and surveys, meter calibration, decontamination and plume dispersal, CT, Ultrasound, X-ray and Nuclear Medicine imaging techniques, mammography and quality assurance in medical and health physics will be covered. Students are required to take both PHYS 7460 and PHYS 7470 which will be offered in consecutive years. Note: only students accepted to the Medical Physics Program will be allowed to register for this course

PHYS 7470 Methods in Medical and Health Physics 2 - (Radiotherapy and Radiation Biology) 3 cr

This practical course is designed to give students hands-on experience with equipment, clinical techniques and methods of analysis in radiotherapy and radiation biology. Topics such as: error analysis and data reduction, dosimetry of ionizing radiation, radiotherapy treatment planning, calibration, HDR brachytherapy, micro-dosimetry and quality assurance in medical physics, will be covered. Students are required to take both PHYS 7460 and PHYS 7470 which will be offered in consecutive years. Note: only students accepted to the Medical Physics Program will be allowed to register for this course.

PHYS 7500 Condensed Matter Physics 1 3 cr

The principles of electrical and vibrational properties of primarily crystalline structures. Topics include free electron theory, electron-electron interactions, screening, phonons, electron-phonon coupling and transport properties.

PHYS 7510 Condensed Matter Physics 2 3 cr

A comprehensive survey of advanced topics in condensed matter physics. The topics may change from year to year but include collective excitations, defects, localized states, superconductivity, Josephson effect, superfluids, quantum Hall effect.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHYS 7500 or consent of instructor.

PHYS 7530 Physics of Magnetism 3 cr

A comprehensive survey of magnetism and magnetic materials. Topics include the origins of magnetic interactions, types of magnetic order, domain structures, magnetization processes, dynamics, thin films, applications.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHYS 7500 or consent of instructor.

PHYS 7540 Statistical Mechanics 3 cr

The principles of statistical mechanics. Topics include statistical ensembles, entropy, Fermi gas, Bose-Einstein condensation, superfluidity, phase transitions and equilibria, fluctuations, Fluctuation-Dissipation and Wiener-Khintchin theorems, liquids and dense gases.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHYS 4390 or consent of instructor.

PHYS 7550 Advanced Statistical Mechanics 3 cr

An advanced treatment of phase transitions and critical phenomena in a variety of systems. Topics include solvable models, mean field theory, Landau theory, scaling laws, series methods, renormalization group methods, linear response theory, generalized rigidity.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHYS 7540 or consent of instructor.

PHYS 7560 Relativistic Quantum Mechanics 3 cr

Relativistic single particle equations for bosons and fermions, quantization of fields, interacting fields, elementary quantum electrodynamics, covariant perturbation theory and Feynman diagrams.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHYS 7420 or consent of instructor.

PHYS 7570 Nuclear Physics 3 cr

Hadron and lepton scattering, the nucleon-nucleon interaction, nuclear structure, nuclear shell model, nuclear excitations and decay, hadronic interactions and decays, the quark model.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHYS 4510 or consent of instructor.

PHYS 7580 Advanced Topics in Nuclear Physics 3 cr

A selection of advanced topics in nuclear and intermediate energy physics.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHYS 7570 or consent of instructor.

PHYS 7590 Electromagnetic Theory 3 cr

Maxwell's equations, electromagnetic potentials, gauge conditions, conservation laws, Green function methods, diffraction theory, simple radiating systems, Lagrangian derivation of Maxwell's equations and the covariant structure of electromagnetism.

PHYS 7600 Applied Electromagnetism 3 cr

Wave guides and resonant cavities, charged particles collision theory, Bremsstrahlung, radiation of moving charged particles, multipole radiation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHYS 7590 or consent of instructor.

PHYS 7630 Particle Physics 3 cr

Basic particles and interactions, symmetries and conservation laws, the quark model, deep inelastic scattering, electroweak theory, introduction to QCD.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHYS 7420 or consent of instructor.

PHYS 7660 Astronomy 1: The Phenomenology of Galaxies 3 cr

Describes astronomical standards such as intensity magnitudes, colour and metallicity; the properties of stars and the interstellar medium; galactic structure, kinematics, and the evolution of galactic components.

PHYS 7670 Astronomy 2: Galactic Dynamics 3 cr

A continuation of PHYS 7660, this course provides mathematical descriptions of potential theory, disk dynamics and spiral structure, collisions between galaxies, and dark matter. Additional topics are galaxy evolution, large-scale structure of the universe and cosmology.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHYS 7660.

PHYS 7680 Astrophysics 1: Stars 3 cr

Covers the basic physical concepts required to extract qualitative estimates of astrophysical parameters, describes several aspects of observational astronomy, and it emphasizes in a more mathematical way the astrophysics of stellar structure and evolution.

PHYS 7690 Astrophysics 2: Interstellar Matter and Galaxies 3 cr

Emphasizes the physics of interstellar matter and dust grains, gaseous nebulae, basic hydrodynamics, shock waves, and supernova remnants.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHYS 7680.

PHYS 7700 Research Project in Medical Health Physics 0 cr

Students undertake a relevant research project in an approved laboratory. At least six months of full-time research is expected. The research project report shall be submitted in a style and length as specified by the department. A comprehensive oral examination will follow the submission of the project report.

PHYS 7710 Quantum Optics 6 cr

Matter-radiation interaction, spectral line broadening, quantization of the radiation field, degree of coherence of light; number, coherent, chaotic and squeezed states of light, quantum theory of detection, laser theory, resonance fluorescence, light scattering, non-linear quantum optics.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor.

PHYS 7720 Quantum Mechanics 1 3 cr

Topics include the concepts and foundations of quantum mechanics, continuous and discrete symmetries, time dependent perturbation theory including interaction with electromagnetic fields and scattering theory. Not to be held with the former PHYS 7420.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHYS 4380 (C+).

Physiology (PHGY)

PHGY 7010 Readings in Physiology 6 cr

Tutorial course covering recent contributions in an area of physiology related to a student's research interests.

PHGY 7030 Special Physiology 6 cr

Seminar and reading course on physiology of particular systems.

PHGY 7150 Cardiac Physiology 3 cr

Tutorial and reading course on cardiac physiology; emphasis on the energetics of cardiac contraction and its relationship to ultrastructural and biochemical properties of the heart.

PHGY 7160 Vascular Physiology 3 cr

Lectures and seminars on physiology of blood vessels including hemodynamics, rheology of blood, and the function and structure of smooth muscle.

PHGY 7170 Endocrine and Metabolic Physiology 3 cr

Special topics in endocrine and metabolic physiology emphasizing current concepts.

PHGY 7172 Advanced Endocrine and Metabolic Physiology 1.5 cr

A seminar course on advanced topics in endocrine and metabolic physiology and diseases. The course focuses on developing skills required to present and critique research data on endocrine and metabolic physiology & pathophysiology.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHGY 7256 or consent of course coordinator.

PHGY 7180 Advanced Topics in Physiology 3 cr

Advances in selected areas of physiology, research proposals related to the student's area of interest, procedures for grant writing and refereeing grant proposals, evaluation of citations and impact factors.

PHGY 7190 Research Topics in Physiology 3 cr

Seminars on research presentations by staff and senior students in physiology.

PHGY 7230 Molecular and Cellular Aspects of Organ Physiology 3 cr

Tutorial course: Function of various organs in the light of current concepts regarding structure and function at the molecular and cellular level.

PHGY 7252 Respiratory Physiology & Pathophysiology 1.5 cr

Lecture, readings, and student-directed discussion course dealing with fundamental biophysical processes and function of major respiratory organ systems (including membrane transport and muscle contraction in respiratory physiology), illustrated with pathophysiological structures and function, and their relationship to disease. The course will also examine current therapeutic approaches and active areas of research interest.

PHGY 7254 Cardiovascular Physiology & Pathophysiology 1.5 cr

Lecture, readings, and student-directed discussion course dealing with fundamental biophysical processes and function of major cardiovascular organ systems, illustrated with pathophysiological structures and function, and their relationship to disease. The course will also examine current therapeutic approaches and active areas of research interest.

PHGY 7256 Endocrine Physiology & Pathophysiology 1.5 cr

Lecture, readings, and student-directed discussion course dealing with fundamental biophysical processes and function of major endocrine (including reproductive) organ systems, illustrated with pathophysiological structures and function, and their relationship to disease. The course will also examine current therapeutic approaches and active areas of research interest.

PHGY 7258 Neurophysiology & Pathophysiology 1.5 cr

Lecture, readings, and student-directed discussion course dealing with fundamental biophysical processes and function of major neurophysiology organ systems, illustrated with pathophysiological structures and function, and their relationship to disease. The course will also examine current therapeutic approaches and active areas of research interest.

PHGY 7260 Advanced Neurological Sciences 3 cr

Seminar, readings and lecture course covering original research papers leading to the most significant advances in the neurological sciences. Emphasis is placed on student comprehension of major research directions in the broad field of neurological sciences.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHGY 7240 or equivalent and consent of instructor.

PHGY 7270 Physiology of Striated Muscle 3 cr

A lecture and seminar course dealing with the physiology and biophysics of skeletal and cardiac muscle.

PHGY 7290 Physiology of the Airways 3 cr

A lecture and seminar course dealing with the physiology of the airways in the intact animal and with the role of smooth muscle in controlling airway function. The fundamental properties of airway smooth muscle in controlling airway function will be emphasized.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHGY 7240 or equivalent and consent of instructor.

PHGY 7300 Molecular Endocrinology 3 cr

A lecture and seminar course on advances in molecular and cellular aspects of endocrinology and other systems. The course is taught by members of the Gene Technology Group and topics will reflect current research interests. These include the roles of hormones/growth factors in cancer, growth and development, and reproduction, and the regulation of hormone gene families. This course is designed for individuals with knowledge in the areas of molecular and/or cell biology.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

PHGY 7310 Principles of Electronics for Life Sciences 3 cr

Lectures on basic principles of electricity and electronics of particular application to electrophysiology.

PHGY 7320 Instrumentation for Electrophysiology 3 cr

Lectures on the application of principles of electricity and electronics to electrophysiology.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHGY 7310.

PHGY 7330 Physiology of Smooth Muscle 3 cr

A lecture and seminar course dealing with the biophysics, electrophysiology, pharmacology and biochemistry of the smooth muscle in the major organ systems.

PHGY 7340 Cardiovascular Electrophysiology 3 cr

A comprehensive lecture and seminar course on the electrical activity of the cardiovascular system. The fundamental electrical properties of cardiac and vascular muscle cell membranes, currents and channels as studied by intracellular microelectrodes, voltage clamp and patch clamp techniques will be stressed.

PHGY 7350 Cardiovascular Pathophysiology 3 cr

A comprehensive lecture course on disease in the cardiovascular system. Topics to be covered include methods of analysis of cardiac viability, heart failure, arrhythmias, heart diseases (congenital, valvular, pericardial, cardiomyopathy), hypertension, stroke, atherosclerosis and myocardial infarction.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHGY 7240.

PHGY 7360 Trends in Cardiovascular Sciences 3 cr

This is a comprehensive seminar-based course dealing with recent advances in cardiovascular research given by local fellows and prominent scientists. Students are expected to participate in the series and present their own research data seminar. This course will enable the trainees to learn how to prepare research seminars, handle question/answer sessions after a seminar and prepare a formal report.

PHGY 7370 Cardiovascular Molecular Biology 3 cr

This course introduces the principles of molecular biology and their application to the cardiovascular system in health and disease, with a focus on gene regulation, cardiac development and the use of transgenic models. The course comprises lectures and student self-directed learning assignments.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHGY 7254 or permission of instructor.

PHGY 7380 Cardiovascular Cell Biology 3 cr

A comprehensive lecture course on morphology, biochemical composition and function of the cardiac and smooth muscle cell, with particular emphasis on developmental and injury-related issues. Topics include the description of various cardiac cells and their immediate extracellular environment, intercellular communication, cardiac development, control of cell cycle, hyperplasia and hypertrophy, cardiac growth factors, mechanism of injury and cell death, regeneration, heat shock proteins and cardioprotection.

PHGY 7390 Gene Therapy 3 cr

Advanced course detailing new frontiers in the application of gene therapy and technological protocols currently utilized in treating cardiovascular diseases such as cardiomyopathy, hypertension, congenital birth defects and restenosis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: PHGY 7370, PHGY 7380 or permission of the course coordinator.

PHGY 7400 Cellular and Molecular Biology of the Vascular System 3 cr

This course provides current concepts in vascular biology at the molecular level as well as the pathogenesis and treatment of vascular diseases for the purpose of graduate studies. Students may also learn up-to-date techniques in research of vascular cell biology and the diagnosis of vascular diseases through laboratory demonstrations.

Plant Science (PLNT)

PLNT 7120 Special Problems in Plant Science 3 cr

Reading or assignment or research on specific aspects of crop development, crop production, weed science, plant pathology, plant biochemistry or plant physiology.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

PLNT 7130 Topics in Plant Breeding and Genetics 3 cr

An in-depth study of selected topics of current interest in the fields of plant breeding and genetics.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

PLNT 7162 Plant Genomics 3 cr

Detailed analysis of advanced genomic techniques, experimental approaches, and progress in current plant genomic projects.

PLNT 7164 Genetic Mapping in Plants 3 cr

Application of genetic mapping analyses for the dissection of traits in plant species. Linkage mapping, quantitative trait locus (QTL) mapping, association mapping, and related analyses will be reviewed in detail. Emphasis will be placed on practical applications in genetic studies. The analysis and interpretation of real data will be conducted in computer tutorial sessions.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PLNT 4330 or consent of instructor.

PLNT 7170 Advanced Plant Breeding 3 cr

Advanced training in modern methods of plant breeding.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PLNT 3520 or consent of instructor.

PLNT 7250 Plant Science Seminar 3 cr

Principles of oral and poster presentations, visual aid design and organization are discussed and then applied by students in presentations of their current research, and agricultural issues. Course evaluated on a pass/fail basis.

PLNT 7340 Advanced Weed Science 3 cr

Weed biology and ecology in the context of weed management, covering theory, current information, investigative approaches and experimental techniques. Topics explored include: weed population biology, modelling, weed community ecology, herbicide efficacy and herbicide resistant weeds.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PLNT 3540 or equivalent or consent of instructor.

PLNT 7420 Advanced Plant Science Seminar 3 cr

The development of a research proposal, instruction and practice in scientific writing and presentation of a seminar. For Ph.D. students only. Course evaluated on a pass/fail basis.

PLNT 7480 Epidemiology of Plant Disease 3 cr

Lectures, seminars and discussions relating epidemiological principles to plant disease development and control. The course examines in-depth the interrelationships of host, pathogen and environment. Measurement of epidemiological parameters is stressed in relation to disease assessment, disease forecasting and disease management.

PLNT 7610 Topics in Crop Physiology 3 cr

An in-depth study of selected topics of current interest in the field of Crop Physiology.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

PLNT 7612 Advanced Plant Physiology 3 cr

Examination of current concepts of regulation and limitations of photosynthesis, nitrogen metabolism, and assimilate partitioning in field and horticultural crops. Content will include the mode of action of plant growth regulators and herbicides in these processes.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: PLNT 3400 or BIOL 3400 or the former PLNT 3500, PLNT 4590 or consent of instructor.

PLNT 7620 Topics in Agronomy 3 cr

An in-depth study of selected topics of current interest in the field of Agronomy.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

PLNT 7630 Topics in Plant Pathology 3 cr

An in-depth study of selected topics of current interest in the field of Plant Pathology.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

PLNT 7660 Advanced Crop Production 3 cr

A lecture-seminar course to investigate environmental, crop management and genetic limitations to growth, yield formation, yield, water use efficiency and quality of field, forage and horticultural crops. Interactions will be stressed and emphasis will be placed on sustainable crop production systems. Simple and complex relationships will be demonstrated using models.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

PLNT 7670 Quantitative Genetics and Plant Breeding 3 cr

The theoretical basis of quantitative genetic variation. The genetic structure of plant breeding populations. Estimation, interpretation and use of genetic parameters in cross-pollinated and self-pollinated plant species. Variance components, genotype x environment interaction, inbreeding, heterosis, selection, heritability and combining ability.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: PLNT 3520 and PLNT 4330 or consent of instructor.

PLNT 7690 Bioinformatics 3 cr

An introduction to the theory, strategies, and practice of data management, analysis and utilization in molecular biology. Topics include DNA and protein sequence analysis, biological databases, genomic mapping and analysis of gene expression data. This course will include problem-solving exercises using Unix server-based software. Not to be held with PLNT 4610.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PLNT 2530 or PLNT 3140 or PLNT 4310 or the former PLNT 4540 or MBIO 3410 or consent of instructor.

Equip To: PLNT 4610

Political Studies (POLS)

POLS 6010 The Manitoba Legislative Internship Seminar 6 cr

This credit is granted to six individuals who annually complete the assignment as Legislative Interns within the Manitoba Legislative Assembly.

POLS 7100 The Study of Politics 3 cr

This course introduces students to the academic discipline of Political Science via an exploration of its origins, evolutions, and challenges. Particular emphasis is placed on contemporary issues and debates. Course graded pass/fail.

POLS 7110 Major Research Paper 0 cr

The Major Research Paper (or MRP) is designed for M.A. students in Political Studies who are doing the course-based stream. Students in this course will pursue individual research projects in an area of interest to them, once they have completed the majority of other program coursework. This course is evaluated on a pass/fail basis.

POLS 7130 Theories and Issues in Public Administration 3 cr

Integrating theory and practice helps to better understand the challenges facing public administration. Topics covered include changing approaches to management, human resource and financial management, reporting, accountability, citizen engagement, and network governance. Restricted to MPA students.

POLS 7132 Public Policy Process and Issues 3 cr

An introduction to the idea of policy analysis, including key foundational concepts and significant theories, models, and approaches; how and why the policy process operates as it does (empirical) and how and why some think it should (normative); and specific policy issues. Restricted to MPA students.

POLS 7134 Qualitative Methods and Communications for the Public Sector 3 cr

Communication coupled with an understanding of qualitative research approaches are key to success in public administration. Topics include research design, policy research, referencing, evaluating writing and research, and presenting for results. Restricted to MPA students.

POLS 7136 Governance and Administration 3 cr

An introduction to theories of organization and bureaucracy linked to administrative practices in the public sector. Governance models (Traditional Public Administration, New Public Management, Multi-level Governance) in the Canadian, provincial, and local context will be explored. Restricted to MPA students.

POLS 7138 Quantitative Methods for Policy Analysis 3 cr

An introduction to quantitative methods, including research design, data collection techniques, basic statistical analysis, statistical significance, contingency tables, multiple regression; with an emphasis on reading tables and graphs and understanding statistical assumptions. Restricted to MPA students.

POLS 7140 Principles of Public Finance for Policy Analysis 3 cr

An introduction to basic economic theories and tools used in public sector economics, which may include the economics/politics of taxing policies, externalities, theories of intergovernmental grants, major Canadian government spending programs, and new developments. Restricted to MPA students.

POLS 7142 Selected Topics in Public Administration 3 cr

A course on a selected topic in the discipline of Public Administration. The content of this course will vary. Please contact department for a course description. Students can earn multiple credits for this course only when the topic subtitle is different.

POLS 7230 Comparative Politics of Advanced Industrial States 3 cr

An introduction to the field of comparative politics through an examination of the key political issues facing advanced industrial states and how different political systems fare in dealing with them. Students may not hold credit for both POLS 7230 and the former POLS 7720.

Mutually Exclusive: POLS 7720

POLS 7270 Selected Topics in Politics 3 cr

A course on a selected topic in the discipline of Political Science. The content of this course will vary. Please contact department for a course description. Students can earn multiple credits for this course only when the topic subtitle is different.

POLS 7280 Directed Readings in Politics 3 cr

An independent reading and/or research course on a selected topic in political studies, undertaken and arranged in consultation with the prospective instructor, upon the approval of the Graduate Committee. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

POLS 7290 Directed Readings in Politics 2 6 cr

An independent reading and/or research course on a selected topic undertaken and arranged in consultation with the prospective instructor, upon approval of the Graduate Committee. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

POLS 7300 Directed Readings in Public Administration 3 cr

An independent reading and/or research course on a selected topic undertaken and arranged in consultation with the prospective instructor, upon approval of the Graduate Committee. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

POLS 7330 State-Civil Society Relations 3 cr

An examination of how the state relates to civil society actors, notably the voluntary sector in Canada. Students will critically assess the role voluntary organizations play - and should play - in governing process.

POLS 7340 Canadian Government 3 cr

Examines the core institutions of Canadian Government and politics including parliamentary government, federalism, the Constitution and the Charter of Rights and Freedoms.

POLS 7350 Canadian Democracy 3 cr

Examines the core institutions and processes of Canadian democracy including political parties, elections, voting, social movements, interest groups and public opinion.

POLS 7370 Seminar in the Theory and Practice of Public Administration 6 cr

The intent of this course is to provide insight into the exigencies of actual public administration. The course will be conducted on a topical basis within the framework of certain trends facing Canadian governments today. (The course will attempt to utilize, to the fullest extent possible, the particular expertise of students in the program, faculty members, and of both elected and appointed public officials.)

POLS 7410 Selected Topics in Political Behaviour 1 3 cr

A systematic examination of empirical research in the area of political socialization and political culture.

POLS 7470 Strategic Human Resource Management in Government 3 cr

A study of the human resource management functions, including planning, staffing, training, performance management, compensation and labour relations, in ways that optimize organizational performance. This course will also address contemporary challenges including recruitment and retention, managing change, demographic shifts, and information technology.

POLS 7520 The Political Classics 3 cr

A thorough study of selected works with special attention to methodology, historical content, theoretical position and universal significance.

POLS 7530 International Political Economy 3 cr

An examination of the systematic study of international political economy. Particular attention is paid to the foreign economic policies of advanced industrialized states and the various issues surrounding the redistribution of wealth and influence in the contemporary international system.

POLS 7550 Contemporary Issues in Canadian Politics 3 cr

A seminar series examining a contemporary debate in Canadian politics and government. The specific topic will vary from year to year depending on faculty interest and specialization.

POLS 7610 Political Theory and Contemporary Issues 3 cr

An examination of recent theoretical perspectives on contemporary political institutions, problems and values.

POLS 7710 Liberalism and Its Critics 3 cr

An advanced study of liberalism and various theoretical challenges to its ethical and political claims.

POLS 7790 International Relations Theory 3 cr

A critical assessment of basic theories and models used in International Relations, emphasizing theoretical approaches and research.

POLS 7800 MPA Co-operative Education Term 1 0 cr

This work term enables MPA students to gain experience in public or non-profit sector employment. Work terms are normally paid positions offered by employers in the public or non-profit sectors for a minimum of 13 weeks. Learning objectives are established by the employer, in conjunction with the student and Co-op Course Director. Students with significant public or non-profit sector work experience may apply to have this course requirement waived. Course graded pass/fail.

POLS 7810 MPA Co-operative Education Term 2 0 cr

This work term enables MPA students to gain experience in public or non-profit sector employment. Work terms are normally paid positions offered by employers in the public or non-profit sectors for a minimum of 13 weeks. Learning objectives are established by the employer, in conjunction with the student and Co-op Course Director. Students with significant public or non-profit sector work experience may apply to have this course requirement waived. Course graded pass/fail.

POLS 7850 Contemporary Strategic and Security Studies 6 cr

An advanced course in strategic studies. The evolution of strategic thought in the modern period will be examined, and particular emphasis will be placed on the role of armed force in relation to the problem of international security. Normally students will be expected to have taken POLS 4730 or its equivalent as prerequisite.

POLS 7910 Multivariate Research Methods 3 cr

Introduction to the theory and application of multivariate regression models in political analysis.

POLS 7980 Professional Development 3 cr

Students will build employment-related skills such as interpersonal communications, presentation, leadership, career development, and software-related skills. They will bridge theory and practice through participation and reflection in community events and workshops. Restricted to MPA students. Course graded Pass/Fail.

POLS 7990 MPA Capstone Seminar 3 cr

Students pursue individual supervised projects that allow them to integrate theory and practice in an original topic in public administration and/or public policy, drawing on their skills and knowledge gained through the program. These projects will be presented in a semester-end colloquium. Restricted to MPA students.

POLS 9010 UW POL 4301 Administrative Theory 6 cr

Course may be taken as part of a Master of Public Administration program offered jointly with the University of Winnipeg.

POLS 9020 UW POL 4400 Seminar in Canadian Politics 6 cr

Course may be taken as part of a Master of Public Administration program offered jointly with the University of Winnipeg.

POLS 9030 UW POL 4415 State and Economy 6 cr

Course may be taken as part of a Master of Public Administration program offered jointly with the University of Winnipeg.

POLS 9040 UW GPOL 7700 Theories and Issues in Public Administration 3 cr

Course may be taken as part of a Master of Public Administration program offered jointly with the University of Winnipeg.

POLS 9090 UW GPOL-7331 Directed Readings in Public Administration 6 cr

Course may be taken as part of a Master of Public Administration program offered jointly with the University of Winnipeg.

POLS 9242 UW POL-4505 Politics of Urban Planning 3 cr

Course may be taken as part of a Master of Public Administration program offered jointly with the University of Winnipeg.

POLS 9250 UW GPOL 7710 Public Policy Process and Issues 3 cr

Course may be taken as part of a Master of Public Administration program offered jointly with the University of Winnipeg.

POLS 9260 UW GPOL 7720 Governance and Administration 3 cr

Course may be taken as part of a Master of Public Administration program offered jointly with the University of Winnipeg.

POLS 9340 UW GPOL-7300 Seminar in Theory and Practice of Public Administration I 3 cr

Course may be taken as part of a Master of Public Administration program offered jointly with the University of Winnipeg.

POLS 9350 UW GPOL-7305 Seminar in Theory and Practice of Public Administration II 3 cr

Course may be taken as part of a Master of Public Administration program offered jointly with the University of Winnipeg.

POLS 9370 UW GPOL-7320 Seminar in the Public Policy Process 3 cr

Course may be taken as part of a Master of Public Administration program offered jointly with the University of Winnipeg.

POLS 9380 UW GPOL-7325 Seminar in Public Policy Issues 3 cr

Course may be taken as part of a Master of Public Administration program offered jointly with the University of Winnipeg.

POLS 9420 UW GPOL 7730 Principles of Public Finance for Policy Analysis 3 cr

Course may be taken as part of a Master of Public Administration program offered jointly with the University of Winnipeg.

POLS 9470 UW GPOL-7335 Directed Readings in Public Administration 3 cr

Course may be taken as part of a Master of Public Administration program offered jointly with the University of Winnipeg.

POLS 9540 UW POL 4515 Inner City Seminar 6 cr

Course may be taken as part of a Master of Public Administration program offered jointly with the University of Winnipeg.

POLS 9560 UW POL 4105 Seminar in Global Political Economy 3 cr

Course may be taken as part of a Master of Public Administration program offered jointly with the University of Winnipeg.

POLS 9570 UW POL 4100 Seminar in Global Politics 3 cr

Course may be taken as part of a Master of Public Administration program offered jointly with the University of Winnipeg.

POLS 9606 UW GPOL-7385 Special Topics in Public Administration 3 cr

Course may be taken as part of a Master of Public Administration program offered jointly with the University of Winnipeg.

POLS 9608 UW POL 4121 Special Topics in Global Politics 3 cr

Course may be taken as part of a Master of Public Administration program offered jointly with the University of Winnipeg.

POLS 9610 UW GPOL 7760 MPA Capstone Seminar 3 cr

Course may be taken as part of a Master of Public Administration program offered jointly with the University of Winnipeg.

POLS 9620 UW GPOL 7770 Professional Development 3 cr

Course may be taken as part of a Master of Public Administration program offered jointly with the University of Winnipeg.

POLS 9630 UW GPOL 7740 Quantitative Methods for Policy Analysis 3 cr

Course may be taken as part of a Master of Public Administration program offered jointly with the University of Winnipeg.

POLS 9640 UW GPOL 7750 Qualitative Methods and Communication for the Public Sector 3 cr

Course may be taken as part of a Master of Public Administration program offered jointly with the University of Winnipeg.

Preventive Dental Science (PDSO)

PDSO 7000 Neural Basis of Oropharyngeal Function 3 cr

A program of problem-oriented seminars on the sensory and reflex mechanisms affecting the respiratory and alimentary functions of the mouth and pharynx, mandibular posture and movement and respective application to oropharyngeal dysfunction and orthodontic therapy. One seminar per week for one term.

PDSO 7020 The Mechanics of Orthodontic Therapy 6 cr

The mathematics of three dimensional space, force and moment systems are given as the basis for considering the mechanics of orthodontic treatment. The mechanical properties of some orthodontic materials are studied as a background for appliance design. The quantitative aspects of tooth movement are discussed in terms of patient treatment planning. Seminar and laboratory sessions.

PDSO 7040 Clinical Craniofacial Growth and Development 3 cr

A program of student-based seminars on the morphogenesis of craniofacial structures and their significance to clinical problems.

PDSO 7060 Cephalometric Analysis 3 cr

A seminar program on the application of cephalometric radiography to craniofacial morphological research, orthodontic diagnosis and case analysis.

PDSO 7070 Biology of Orthodontics and Facial Orthopedics 3 cr

A program of student-based seminars and lectures on the biological basis of orthodontic and facial orthopedic diagnosis and therapeutic technique.

PDSO 7101 Preventive Programs in Pediatric Dentistry 3 cr

This course will be offered during the second year (term III). The prerequisite for this course will be the completion of the required courses in the first year of the program. In clinical terms this course will be taught with the following courses: Management and Restorative Treatment of Pediatric Patients II. Course is evaluated on a pass/fail basis.

PDSO 7102 Hospital Pediatric Dentistry I 6 cr

This course will be offered during the first year (term I and II). The prerequisite for this course will be the dental degree obtained prior to applying to the program. In clinical terms this course will be taught with the following courses: Management and Restorative Treatment of Pediatric Patients I and Special Needs and Emergency care in Pediatric Patients. Course is evaluated on a pass/fail basis.

PDSO 7103 Hospital Pediatric Dentistry II 6 cr

This course will be offered during the first year (term III and IV). The prerequisite for this course will be completion of the required courses in the first year of the program. In clinical terms this course will be taught with the following courses: Management and Restorative Treatment of Pediatric Patients II and Preventive Programs in Pediatric Dentistry. Course is evaluated on a pass/fail basis.

PDSO 7104 Management and Restorative Treatment of Pediatric Patients I 6 cr

This course will be offered during the first year (term I and II). The prerequisite for this course will be the dental degree obtained prior to applying to the program. In clinical terms this course will be taught with the following courses: Hospital Pediatric Dentistry I and Preventive and Community Pediatric Dentistry. Course is evaluated on a pass/fail basis.

PDSO 7105 Management and Restorative Treatment of Pediatric Patients II 6 cr

This course will be offered during the second year (term III and IV). The prerequisite for this course will be the completion of the required courses in the first year of the program. In clinical terms this course will be taught with the following courses: Hospital Pediatric Dentistry II and Preventive Programs in Pediatric Dentistry. Course is evaluated on a pass/fail basis.

PDSO 7106 Preventive and Community Pediatric Dentistry 3 cr

This course will be offered during the first year (term I). The prerequisite for this course will be the dental degree obtained prior to applying to the program. In clinical terms this course will be taught with the following courses: Management and Restorative Treatment of Pediatric Patients I. Course is evaluated on a pass/fail basis.

PDSO 7107 Special Needs and Emergency Care in Pediatric Patients 3 cr

This course will be offered during the first year (term I). The prerequisite for this course will be the dental degree obtained prior to applying to the program. In clinical terms this course will be taught with the following courses: Management and Restorative Treatment of Pediatric Patients I and Hospital Pediatric Dentistry I. Course is evaluated on a pass/fail basis.

PDSO 7108 Growth and Development - Management of the Developing Occlusion 3 cr

A program of resident presentations and seminars on the biology of interceptive orthodontics and dentofacial orthopaedics and their significance to clinical pediatric dentistry.

PDSO 7110 Pharmacology and Toxicology in Pediatric Dentistry 3 cr

Residents will be expected to obtain knowledge of pharmacology and toxicology of commonly used medications in clinical pediatric dentistry. A number of seminars will be conducted to obtain adequate knowledge and skills in this course.

Psychology (PSYC)

PSYC 7012 Ethics, History and Profession of School Psychology 1 3 cr

An overview of the fundamental concepts and issues of professional School Psychology. Ethical, professional, regulatory and legal issues pertaining to the practice of school psychology are examined. Also examined are the history of school psychology and the organization of educational systems. Students may not hold credit for both PSYC 7012 and the former PSYC 7010.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor required for non-School Psychology students.

Mutually Exclusive: PSYC 7010

PSYC 7014 Ethics, History and Profession of School Psychology 2 3 cr

A continuation of the examination of fundamental concepts and issues of professional School Psychology. Ethical, professional, regulatory and legal issues pertaining to the practice of school psychology are examined. Also examined are the history of school psychology and the organization of educational systems. Students may not hold credit for both PSYC 7014 and the former PSYC 7010.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor required for non-School Psychology students.

Mutually Exclusive: PSYC 7010

PSYC 7022 Psycho-educational Assessment and Measurement 1 3 cr

Designed to provide students with training in the basic principles of psychological assessment and related measurement concepts, highlighting the process of data-based decision making. Emphasis will be placed on how information from a variety of psycho-educational sources is used to identify profiles for planning intervention programs. Students may not hold credit for both PSYC 7022 and the former PSYC 7020.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor required for non-School Psychology students.

Mutually Exclusive: PSYC 7020

PSYC 7024 Psycho-educational Assessment and Measurement 2 3 cr

A continuation of training in the basic principles of psychological assessment and related measurement concepts, highlighting the process of data-based decision making. Emphasis will be placed on how information from a variety of psycho-educational sources is used to identify profiles for planning intervention programs. Students may not hold credit for both PSYC 7024 and the former PSYC 7020.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor required for non-School Psychology students.

Mutually Exclusive: PSYC 7020

PSYC 7030 Learning and Cognitive Impairment 3 cr

An examination of cognitive and medical disorders that have a direct impact on learning, including disabilities, reading failure, mental retardation, Attention Deficit Hyperactivity Disorder, pervasive development disorders (e.g. autism), fetal alcohol syndrome, and co-occurring conditions. Effective compensatory interventions and social, behavioural and affective consequences will be emphasized.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor required for non-School Psychology students.

PSYC 7040 Teaching Strategies, Learning Styles, and Academic Remediation 3 cr

Provides an overview of basic theories of learning as applied to effective classroom instruction. Knowledge of individual differences in learning and principles of best practices in classroom instruction will be applied to the development of effective and curriculum adaptations for students with specific academic problems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor required for non-School Psychology students.

PSYC 7050 Junior Practicum in School Psychology 3 cr

Supervised practice with school children in a field setting. Emphasis on development of skills in assessing intelligence, academic skills and social-emotional difficulties, and on communication of findings to parents, teachers, and school administrators through written and verbal reports. Pass/Fail course.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor.

PSYC 7060 Senior Practicum in School Psychology 6 cr

Supervised practice in a school setting. The focus is on development of skills relevant to case conceptualization, intervention, and supervision of junior practicum students. Pass/Fail course.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: PSYC 7050, permission of instructor.

PSYC 7070 Social, Emotional, and Personality Assessment of Children/Youth 3 cr

An overview of theory, research, and the educational implications of social, emotional, and personality assessment of children and adolescents. A variety of methods are examined with an emphasis on empirically-supported practices in the assessment of psychopathology and socio-emotional functions.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor required for non-School Psychology students.

PSYC 7080 Child/Youth Psychopathology 3 cr

Examines mental health conditions, covering a range of internalizing and externalizing disorders in children and youth. Biopsychosocial and ecological models, risk and resiliency, and developmental and cultural issues are examined. Structured and semi-structured diagnostic interviews are reviewed.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor required for non-School Psychology students.

PSYC 7082 Intervening with Children and Social Systems 3 cr

Examines psychotherapy with social systems, including children, families, and groups. A lifespan perspective will be employed. Diversity issues within each relevant social grouping will be highlighted. Restricted to students in clinical or school psychology.

PSYC 7090 Behavioural Assessment and Intervention in School Settings 3 cr

Behavioural management strategies and techniques for children and adolescents who present with serious disruptive and/or emotional and behavioural disorders in schools. A wide range of techniques and strategies are considered.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor required for non-School Psychology students.

PSYC 7120 Consultation and Supervision 3 cr

An examination of theories and models of school-based consultation and collaboration. Practice with techniques and procedures associated with effective consultation with teachers, school administrators, and parents.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor required for non-School Psychology students.

PSYC 7130 School Psychology Research Design and Program Evaluation 3 cr

Provides students with knowledge and skills needed to understand, design, and conduct evaluations of intervention programs for individuals experiencing academic or behaviour difficulties in school. Addresses the aims, theories and methods of program evaluation, including relevant research design and statistical methods.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor required for non-School Psychology students.

PSYC 7140 Clinical Research Design 3 cr

This course addresses issues of research design relevant to clinical research. Topics include reliability and validity of measurement, correlational, quasi-experimental, and experimental designs, clinical significance, and power analysis. Students complete a research proposal relevant to their thesis interests.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor required for non-Clinical students.

PSYC 7150 Readings in Autism Spectrum Disorders 3 cr

Students will read recent research in Autism Spectrum Disorders, acquire skills to critically evaluate empirical evidence, and examine implications for practice. Among the topics covered will be assessment, diagnosis, epidemiology, and applied behaviour analysis early intervention.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor.

PSYC 7160 Cross-Cultural Social Psychology 3 cr

Cross-cultural psychology is the critical and comparative study of the linkages between cultural norms and thoughts, feeling and behaviour. This course focuses on Cross-cultural Social Psychology. Therefore, the assigned readings deal with topics that Social Psychology in general examines.

PSYC 7170 Theories of Close Relationships 3 cr

Students will be exposed to the theories that apply to the initiation, development, maintenance, and dissolution of relationships. The primary focus will be on evolutionary theory, attachment styles, communal and exchange relationships, equity theory, interdependence theory and the investment model, attributional theories, and theories of love.

PSYC 7180 Self-Regulation and Health 3 cr

This course examines how self-regulatory processes such as goal-setting and self-awareness can affect behaviours that promote or undermine human health. A wide range of health-related behaviours is considered such as smoking, exercise, safe-sex practices, and eating.

PSYC 7190 Social Psychology and Health 3 cr

This course considers health from a social psychological perspective. Weekly readings and discussion will focus on social cognitive processes and social influence processes that may mediate between stress and illness or may direct people's judgments of their health and choices of health-related behaviours.

PSYC 7192 Psychology of Health and Aging 3 cr

This course considers how adults adapt to the challenges of aging and the accompanying health problems. Seminar discussions will focus on selected psychological theories and related empirical literature regarding belief systems that operate in the face of health- and age-related challenges. Students may not hold credit for both PSYC 7192 and PSYC 7310 with the topic "Health and Aging."

PSYC 7200 Quantitative Methods in Psychology 1 3 cr

An introduction to descriptive and inferential statistics as it relates to the analysis of psychological data. Topics such as shapes of distributions, measures of central tendency and variability, hypothesis testing, and interval estimation, single and multifactor analyses, classical and robust methods of analysis will be discussed.

PSYC 7210 Quantitative Methods in Psychology 2 3 cr

Applied statistics for psychologists, with a focus on regression analysis, linear models, and generalized linear models. Emphasis will be placed on the application of statistical methods and computer software in psychological research. Not to be held with the former PSYC 8420.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PSYC 7200 or permission of instructor.

Equiv To: PSYC 8420

PSYC 7220 Autism Practicum 1 3 cr

Graduate students will be taught to provide applied behavior analysis training for children with autism. Students will be taught many of the skills expected of tutors and senior tutors in the St. Amant Applied Behavior Analysis Program for Children with Autism.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor.

PSYC 7230 Autism Practicum 2 3 cr

Graduate students will learn to supervise tutors and parents providing applied behavior analysis training for children with autism. Students will be taught many of the skills expected of a clinical consultant in the St. Amant Applied Behavior Analysis Program for Children with Autism.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PSYC 7220 and permission of instructor.

PSYC 7240 Developmental Disabilities Practicum 1 3 cr

Students will work closely with behavior analysts in the Psychology Department at St. Amant to assess problems, design and execute appropriate interventions, and conduct follow-ups for persons with developmental disabilities.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor.

PSYC 7250 Developmental Disabilities Practicum 2 3 cr

Graduate students will work closely with behavior analysts in the Psychology Department at St. Amant in the provision of applied behavior analysis consultation services for front line staff caring for persons with developmental disabilities.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PSYC 7240 and permission of instructor.

PSYC 7260 Case Conceptualization and Communication 1 0 cr

In this course students will be exposed to the theory and practice of case conceptualization and communication. Students are required to be present for presentations of clinical cases and participate in discussions of them. Grading is Pass/Fail.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor required for non-Clinical students.

PSYC 7270 Case Conceptualization and Communication 2 0 cr

In this course students will be exposed to the theory and practice of case conceptualization and communication. Students are required to be present for presentations of clinical cases and participate in discussions of them. Grading is Pass/Fail.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor required for non-Clinical students.

PSYC 7280 History and Systems of Psychology 3 cr

A survey of the major contemporary systems of psychology and their history.

PSYC 7290 Psychopathology and Diagnosis 3 cr

Advanced study of abnormal behaviour, diagnostic approaches, and related research. Not to be held with the former PSYC 7870.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor required for non-Clinical students.

Equiv To: PSYC 7870

PSYC 7300 Applied Behavior Analysis in Developmental Disabilities 3 cr

Students will read recent applied behavior analytic research in behavioral assessments and interventions for people with developmental disabilities, acquire skills to critically evaluate empirical evidence, and examine implications for practice. Students may not hold credit for both PSYC 7300 and PSYC 7310 with the topic "Research in Developmental Disabilities."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor.

PSYC 7310 Current Topics 1 3 cr

An intensive study of the contemporary research and theory in a selected field of psychology. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PSYC 7320 Foundations of Evidence-Based Treatment 3 cr

This course is designed to provide students with both a knowledge/evidence base for the foundations of psychotherapy and practical skills that will prepare them for more advanced learning via supervised work with clients. Not to be held with the former PSYC 8410.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor required for non-Clinical students.

Equiv To: PSYC 8410

PSYC 7330 Cognitive Development 3 cr

You will gain an advanced understanding of core theories and fundamental issues in cognitive development research. You will also gain an in-depth understanding of a particular cognitive developmental research issue of your choice.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

PSYC 7340 Sensory Processes 1 3 cr

An intensive review of current research and theories in visual processes. Both behavioural and physiological aspects of vision will be considered.

PSYC 7350 Sensory Processes 2 3 cr

An intensive review of current theories and research in audition, smell, taste, and the cutaneous senses.

PSYC 7362 Ethics and Professional Issues in Applied Behaviour Analysis and Psychology 3 cr

This course is intended to provide an introduction to ethical and professional issues relevant to the science and practice of applied behaviour analysis and psychology. Students in this course will become familiar with the code of ethics for behaviour analysts and psychologists; relevant Provincial legislations; examine ethical issues pertaining to practice and research with humans; and examine essential skills to be an effective professional.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor.

PSYC 7380 Advanced Research Design 3 cr

The use of randomized subjects, block, factorial, latin square, and repeated measures designs in psychological research is discussed. Ancillary topics considered are unbalanced designs, multiple linear regression, magnitude estimation and simultaneous inference. Students will also use statistical packages to analyze data from psychological experiments.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PSYC 8420 or permission of instructor.

PSYC 7400 Measurement and Scaling Theory 3 cr

Discussion of measurement theory, data theory, and scaling models.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: the former PSYC 7390 or permission of instructor.

PSYC 7410 Advanced Psychometric Theory 3 cr

Current theory and research in psychometrics.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PSYC 7400 or permission of instructor.

PSYC 7420 Multivariate Methods in Psychology 3 cr

Designing and analyzing behavioural science experiments containing multiple dependent (criterion) and independent (predictor) variables is discussed. The use of statistical packages is illustrated.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PSYC 7210 or the former PSYC 8420 or permission of instructor.

PSYC 7430 Advanced Physiological Psychology 3 cr

The physiological correlates of sensation, perception, learning, motivation, and complex behaviour.

PSYC 7470 Advanced Developmental Psychology 3 cr

Theory and research in contemporary developmental psychology.

PSYC 7492 Psychology of Addiction 3 cr

This course allows for advanced study in an integrative psychology of addictive disorders. Topics will include the history, epidemiology, psychopharmacology, and biological and psychosocial etiologies of addictive behaviours. Evidence-based treatments will also be covered.

PSYC 7520 Ethics and Professional Issues in Clinical Psychology 3 cr

Study of professional issues in clinical psychology. Historical development and present status of clinical psychology; what defines a profession; ethics codes, standards of practice, and legal requirements; training, internships, and accreditation; professional organizations, registration, and advocacy; employment in public and private sectors. Grading is Pass/Fail. Not to be held with the former PSYC 8070.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor required for non-Clinical students.

Equiv To: PSYC 8070

PSYC 7550 Intellectual and Cognitive Assessment 3 cr

This course will provide clinical students with a thorough overview of key issues and clinical knowledge related to intellectual and cognitive assessment of children and adults. Learning will take place through a combination of lectures, course readings, discussion, group exercises, student presentations, and hands-on practical experience with cognitive tests. Not to be held with the former PSYC 8150.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor required for non-Clinical students.

Equiv To: PSYC 8150

PSYC 7560 Personality and Psychological Assessment 3 cr

This course will provide clinical students with a thorough overview of key issues and clinical knowledge related to personality and psychological assessment of youth and adults. Learning will take place through a combination of lectures, course readings, discussions, group exercises, student presentations, and hands-on practical experience with personality and psychological tests. Not to be held with the former PSYC 8160.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor required for non-Clinical students.

Equiv To: PSYC 8160

PSYC 7620 Person X Situation Interactionism 3 cr

We will first explore research demonstrating the impact of personality and situations, separately, on behavior. We will then examine the debate that arose about whether understanding the person or the situation would have the most scientific merit. We spend the remainder (and majority) of the course discussing the theories and research that arose from that debate. The majority of this research has an interactionist perspective, taking both the person and his/her situation into account. Students may not hold credit for both PSYC 7620 and PSYC 7310 with the topic "Person X Situation Interactionism."

PSYC 7650 Theory and Research in Personality 3 cr

A lecture and reading course designed to familiarize the student with the concepts and operations associated with various approaches to the study of individual differences and patterns of difference in behaviour; emphasis is placed on research and that function of theory which generates research.

PSYC 7660 Intergroup Relations 3 cr

This course examines intergroup relations from a social psychological perspective. Key topics include sources of prejudice and discrimination, the "target's" perspective, and strategies for reducing prejudice and discrimination. Activities may include participating in class discussions, giving presentations, and writing several short papers and a research proposal. Students may not hold credit for both PSYC 7660 and PSYC 7310 when titled "Intergroup Relations."

PSYC 7670 Seminar in Personality 1 3 cr

An intensive examination of the current methods and research arising from the classical theories of personality.

PSYC 7680 Seminar in Personality 2 3 cr

An examination of individual difference variables suggested by the various personality theories. Particular emphasis will be given to current research and theory.

PSYC 7700 Problems in Psychological Research 3 cr

No description available for this course.

PSYC 7710 Problems in Psychological Research 3 cr

No description available for this course.

PSYC 7720 Problems in Psychological Research 3 cr

No description available for this course.

PSYC 7730 Problems in Psychological Research 3 cr

No description available for this course.

PSYC 7740 Problems in Psychological Research 3 cr

No description available for this course.

PSYC 7750 Problems in Psychological Research 3 cr

No description available for this course.

PSYC 7760 Problems in Psychological Research 3 cr

No description available for this course.

PSYC 7770 Problems in Psychological Research 3 cr

No description available for this course.

PSYC 7780 M.A. Thesis Proposal Development 0 cr

Students registering for this course will work under the supervision of their advisor to prepare a complete draft of the M.A. Thesis Research Proposal. Students enrolled in a thesis-based M.A. program in Psychology must register for this course in one of their first four (4) terms of full-time study. The course must culminate in submission of a complete draft of the M.A. Thesis Research Proposal to all members of the thesis advisory committee. This course will be graded on a pass/fail basis as determined by majority opinion of the thesis advisory committee.

PSYC 7790 Ph.D. Dissertation Proposal Development 0 cr

Students registering for this course will work under the supervision of their advisor to prepare a complete draft of the Ph.D. Dissertation Research Proposal. Ph.D. students must register for this course in one of their first eight (8) terms of full-time study. The course must culminate in submission of a complete draft of the Ph.D. Dissertation Research Proposal to all members of the thesis advisory committee. This course will be graded on a pass/fail basis as determined by majority opinion of the thesis advisory committee.

PSYC 7800 Seminar in Quantitative Methods in Psychology 1 3 cr

Special topics and recent advances in the design and analysis of behavioural science data will be discussed.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PSYC 7760 or permission of instructor.

PSYC 7810 Seminar in Quantitative Methods in Psychology 2 3 cr

An extension of the material covered in PSYC 7800 with particular emphasis on quantitative techniques typically employed in such areas as discrimination learning, personality, etc.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PSYC 7760 or permission of instructor.

PSYC 7820 Interventions I 3 cr

This course examines empirically-supported interventions ranging from primary through tertiary prevention/intervention efforts directed at individuals, groups, and families, as well as classroom- and school-based intervention and prevention programs to promote a range of adaptive outcomes and intervene in a range of maladaptive pathways.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor required for non-School Psychology students.

PSYC 7830 Interventions II 3 cr

This course examines empirically-supported interventions ranging from primary through tertiary prevention/intervention efforts directed at individuals, groups, and families, as well as classroom- and school-based intervention and prevention programs to promote a range of adaptive outcomes (e.g., social competence, positive peer relations) and intervene in a range of maladaptive pathways (e.g., development of internalizing and externalizing problems and disorders). The course briefly introduces some specific programs available to assist in intervention design; however, the focus is on broad theoretical principles and aspects of evidence-based perspectives. Opportunities to integrate assessment and intervention will be presented throughout the course.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C+" or better in PSYC 7820.

PSYC 7900 Foundations of Health Psychology 3 cr

For advanced students in psychology seeking specialized expertise in health, this course will review major topics such as the human body, the mind/brain connection, research methods, psychology and health care, terminal illness, pain and chronic disease, stress/coping, and health-related behaviours.

PSYC 7910 Clerkship-Practicum in Clinical Psychology 0 cr

Supervised practice in a clinical service facility operated by the university or approved by the clinical training program. Direct client contact to provide experience in assessment and therapy, based on case conceptualization and supervision by clinical faculty. Enrollment normally restricted to students in Clinical Psychology. Pass/Fail course.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

PSYC 7920 Clerkship-Practicum in Clinical Psychology 0 cr

Supervised practice in a clinical service facility operated by the university or approved by the clinical training program. Direct client contact to provide experience in assessment and therapy, based on case conceptualization and supervision by clinical faculty. Enrollment normally restricted to students in Clinical Psychology. Pass/Fail course.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

PSYC 7930 Clerkship-Practicum in Clinical Psychology 0 cr

Supervised practice in a clinical service facility operated by the university or approved by the clinical training program. Direct client contact to provide experience in assessment and therapy, based on case conceptualization and supervision by clinical faculty. Enrollment normally restricted to students in Clinical Psychology. Pass/Fail course.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

PSYC 7940 Clerkship-Practicum in Clinical Psychology 0 cr

Supervised practice in a clinical service facility operated by the university or approved by the clinical training program. Direct client contact to provide experience in assessment and therapy, based on case conceptualization and supervision by clinical faculty. Enrollment normally restricted to students in Clinical Psychology. Pass/Fail course.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

PSYC 7950 Clerkship-Practicum in Clinical Psychology 0 cr

Supervised practice in a clinical service facility operated by the university or approved by the clinical training program. Direct client contact to provide experience in assessment and therapy, based on case conceptualization and supervision by clinical faculty. Enrollment normally restricted to students in Clinical Psychology. Pass/Fail course.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

PSYC 7952 Clerkship-Practicum in Clinical Psychology 0 cr

Supervised practice in a clinical service facility operated by the university or approved by the clinical training program. Direct client contact to provide experience in assessment and therapy, based on case conceptualization and supervision by clinical faculty. Enrollment normally restricted to students in Clinical Psychology. Pass/Fail course.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

PSYC 7954 Clerkship-Practicum in Clinical Psychology 0 cr

Supervised practice in a clinical service facility operated by the university or approved by the clinical training program. Direct client contact to provide experience in assessment and therapy, based on case conceptualization and supervision by clinical faculty. Enrollment normally restricted to students in Clinical Psychology. Pass/Fail course.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

PSYC 7956 Clerkship-Practicum in Clinical Psychology 0 cr

Supervised practice in a clinical service facility operated by the university or approved by the clinical training program. Direct client contact to provide experience in assessment and therapy, based on case conceptualization and supervision by clinical faculty. Enrollment normally restricted to students in Clinical Psychology. Pass/Fail course.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

PSYC 7958 Clerkship Practicum in Clinical Psychology 0 cr

Supervised practice in a clinical service facility operated by the university or approved by the training program. Direct client contact to provide experience in assessment and therapy based on case conceptualization and supervised by clinical faculty. Enrollment normally restricted to students in Clinical Psychology. Pass/Fail course.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

PSYC 7980 Internship in Clinical Psychology 0 cr

Supervised practice in a clinical setting outside the university involving more responsible, more autonomous, and more professional work than is present in either clerkship or practicum.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: four terms of PSYC 7910 - PSYC 7950.

PSYC 7990 The Psychology of Language 3 cr

Examination of recent advances in the study of human language use. Topics such as memory for meaning, language development and language comprehension will emphasize the interactions between modern cognitive psychology and linguistics.

PSYC 8040 Psychology of Aging 3 cr

An intensive review of current research and theory. Biological, psychological, and social aspects of aging are related to each other.

PSYC 8050 Human Brain Functions 3 cr

The physiological basis of human cognitive processes is discussed from various perspectives. Different theories and different research strategies are discussed critically.

PSYC 8080 Case Conceptualization and Communication 3 3 cr

In this course students will learn the theory and practice of case conceptualization and communication. Students will prepare and present clinical cases using well-defined models of treatment and case formulation strategies.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor required for non-Clinical students.

PSYC 8090 Clinical Supervision in Psychology 3 cr

This course will review the major models, ethical issues, and recommended strategies and practices of clinical supervision. Learning modalities will include discussion of readings, role-playing, and supervised supervision of student clinicians. Pass/Fail course.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor required for non-Clinical students.

PSYC 8100 Social and Community Intervention 3 cr

A general introduction to community psychology and community mental health. Historical, conceptual, and philosophical underpinnings of community psychology and community mental health; community assessment and intervention; alternative approaches to contemporary social problems; understanding social policy and the role of the public sector; community research methods. Not to be held with the former PSYC 8170.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor required for non-Clinical students.

Equiv To: PSYC 8170

PSYC 8110 Program Evaluation and Consultation 3 cr

An overview of program evaluation and consultation as major areas of applied psychological practice; analysis of contemporary social and health problems; development, implementation, and evaluation of human service programs; understanding human service organizations; the role of consultant and common types of consultation; ethical issues in program evaluation and consultation. Not to be held with the former PSYC 8180.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor required for non-Clinical students.

Equiv To: PSYC 8180

PSYC 8200 Development and Its Deviations 1 3 cr

Developmental deviations will be related to such factors as genetic influences, physiological development, early experiences, language, intellectual and mental abilities, social and ethnic influences, parent-child interactions, and peer group interactions. Methods of special treatment will be considered.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor required for non-Clinical students.

PSYC 8220 Topics in Abnormal Psychology 3 cr

An in-depth study of various areas in the field of psychopathology.

PSYC 8230 Clinical Neuropsychology 3 cr

The understanding and evaluation of cognitive, sensory, and motor functions as they relate to cerebral dysfunction.

PSYC 8240 Seminar in Behaviour Modification 3 cr

This seminar deals with a variety of specific topics in behaviour modification.

PSYC 8250 Practical Applications of Behaviour Modification 3 cr

This course deals with the design, implementation, and evaluation of program packages, based on behaviour modification, to different population and problem areas.

PSYC 8260 Individual Organism Research Methodology 3 cr

An extensive coverage of the methods by which behaviour can be studied in individual organisms, including the rationale for the use of such methods as opposed to methods involving the averaging of group data.

PSYC 8270 Seminar in Basic Operant Research 3 cr

This seminar deals with selected topics in basic operant research.

PSYC 8280 Supervised Field Study in Behaviour Modification 1 3 cr

Supervised training will take place in a service facility typically located off the University campus. Students will work closely with a supervisor in assessing a problem, designing and executing an intervention program and conducting a follow-up.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of the instructor.

PSYC 8282 Supervised Field Study in Behaviour Modification 1 3 cr

Supervised training will occur in a setting typically located off campus. Students will work closely with a supervisor in assessing a problem, designing and executing an intervention program and conducting a follow-up with clients without developmental disabilities or autism.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

PSYC 8290 Supervised Field Study in Behaviour Modification 2 3 cr

Supervised training will take place in a service facility typically located off the University campus. Students will work closely with a supervisor in assessing a problem, designing and executing an appropriate intervention program and conducting a follow up.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of the instructor.

PSYC 8292 Field Study in Behaviour Modification 2 3 cr

Supervised training will occur in a setting typically located off campus. Students will work closely with a supervisor in assessing a problem, designing and executing an intervention program and conducting a follow-up with clients without developmental disabilities or autism.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

PSYC 8300 Behavioural Assessment 3 cr

This course teaches students how to conduct behavioural assessment as a necessary feature of the three interrelated processes of problem identification, program design and outcome evaluation in the application of behaviour modification techniques.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of the instructor.

PSYC 8330 Family Therapy Seminar 3 cr

This course deals with both family theory and practice by reviewing the current literature on family systems and providing case discussions, peer supervision and small group simulated tasks.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Corequisite: current enrollment in PSYC 7910 - PSYC 7950 or GRAD 7030 or permission of the instructor.

PSYC 8370 Logic of Research Design 3 cr

A survey of nonstatistical issues in research design, focusing on precise formulation of research questions and implication for research design. Design problems from various psychological areas are solved by students in the laboratory the purpose being to strengthen critical ability and to identify commonalities across areas in methodological approach. Broader philosophical issues relevant to research design, such as the meaning of causality, are also addressed.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PSYC 8420 or permission of instructor.

PSYC 8380 History and Theory in Developmental Psychology 3 cr

A history of fundamental concepts in developmental psychology with consideration of important philosophical, theoretical, and empirical influences on the contemporary field.

PSYC 8430 Cognitive Behaviour Therapy 3 cr

Students learn the theory and practice of empirically supported therapies that emphasize cognitive and behavioural methods. Opportunities for CBT skill development, which can be applied to a wide range of psychological problems, are provided. Students may not hold credit for PSYC 8430 and any of: the former PSYC 8340 or the former PSYC 8400.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor required for non-Clinical students.

Religion (RLGN)

RLGN 7020 Special Topics 1 3 cr

Description not available for this course. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

RLGN 7030 Special Topics 2 3 cr

Description not available for this course. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

RLGN 7080 Seminar in Research Methods and Theory 3 cr

Description not available for this course.

RLGN 7130 Seminar in Hinduism 3 cr

An advanced study of select aspects of the Hindu tradition.

RLGN 7140 Seminar in Buddhism 3 cr

An advanced study of select aspects of the Buddhist tradition.

RLGN 7150 Seminar in Islam 3 cr

An advanced seminar in the study of Islam.

RLGN 7160 Seminar in Judaism 3 cr

An advanced seminar in the study of Judaism.

RLGN 7170 Seminar in Formative Christianity 3 cr

Advanced studies in selected aspects of formative Christianity.

RLGN 7180 Seminar in Early Modern, Modern and Contemporary Christianity 3 cr

Advanced studies in developments of Western Christianity since 1500.

RLGN 7190 Seminar in Religion and Philosophy 3 cr

Examination of the relation between religion and philosophy through selected figures and themes.

RLGN 7200 Seminar in Religion and Psychology 3 cr

Examination of selected developments in psychology and religion and religion and/or in psychoanalysis and the study of religion.

RLGN 7210 Studies in Religious Concepts and Practices 3 cr

Advanced study of selected religious concepts and practices topics.

RLGN 7220 Seminar in Religions and Historiography 3 cr

Advanced studies in the interactions among specific religious traditions, ideologies and historiography.

RLGN 7230 Thesis Seminar 3 cr

Exploration of a range of academic writing techniques and of their theoretical aspects.

RLGN 7240 Textual Studies in Original Languages 3 cr

Close study of primary texts in their original languages.

RLGN 7250 Research Seminar 3 cr

Study of selected theoretical and methodological issues in the study of religion.

RLGN 7270 Seminar in Christianity 3 cr

Critical study or selected historical and/or theoretical issues in selected periods of Christianity.

RLGN 7300 Seminar in Religion and Culture 3 cr

Study of selected religion-and-culture figures, issues, or themes.

RLGN 8310 Seminar in Judaism 3 cr

Selected issues in the study of Judaism.

RLGN 9190 UW REL 3999 Languages for Religious Studies 6 cr

Course may be taken as part of a Master of Religion program offered jointly with the University of Winnipeg.

Restorative Dentistry (RSTD)

RSTD 7010 Dental Laboratory Technology 4 cr

This course is intended to assure that residents have a comprehensive overview of conventional, and digital dental laboratory technologies. It consists of lecture, seminar and laboratory periods and will review foundational and digital dental laboratory techniques and its application to prosthodontics. The student will fabricate prosthetic devices for patients.

RSTD 7012 Advanced Prosthodontic Seminars 1-TMD, Occlusion, Articulators 1 cr

This course consists of lecture, seminar, clinical, and laboratory sessions to review contemporary prosthodontics as it relates to TMD, occlusion and articulators. The student will examine relevant current texts and review articles. The student will be required to lead sessions on the evaluation of these topics as related to prosthetic dentistry.

RSTD 7014 Classic Fixed Prosthodontic Literature Review 1 cr

This course will consider classic concepts underlying the current practice of fixed prosthodontics by reviewing assigned readings from the scientific literature. Students will be expected to apply principles of critical evaluation in order to identify and appreciate the limitations of these studies and thus the limitations of the current concepts derived from them.

RSTD 7016 Clinical Practice in Prosthodontics 1 8 cr

This course consists of an integrated, patient-centered clinical programs. Seminars will analyze diagnosis and treatment plan cases using records of individuals seeking prosthodontic treatment. Patients will be assigned to students to provide the required clinical experiences for a contemporary speciality prosthodontic practice.

RSTD 7018 Current Prosthodontic Literature Review 1 1 cr

This course will consider the concepts underlying the current practice of prosthodontics by reviewing assigned readings from the current scientific literature. Students will be expected to apply principles of critical evaluation in order to identify and appreciate the limitations of these studies and thus the limitations of the current concepts derived from them.

RSTD 7022 Advanced Prosthodontic Seminars 3 - Removable Partial Dentures, Dental Materials 1 cr

This course consists of lecture, seminar, clinical, and laboratory sessions to review contemporary prosthodontics as it relates to removable partial dentures, dental materials. The student will examine relevant current texts and review articles. The student will be required to lead sessions on the evaluation of these topics as related to prosthetic dentistry.

RSTD 7024 Classic Complete Denture Prosthodontic Literature Review 1 cr

This course will consider concepts underlying the current practice of complete denture prosthodontics by reviewing assigned readings from the scientific literature. Students will be expected to apply principles of critical evaluation in order to identify and appreciate the limitations of these studies and thus the limitations of the current concepts derived from them.

RSTD 7026 Clinical Practice in Prosthodontics 3 8 cr

This course consists of an integrated, patient-centered clinical program. Seminars will analyze diagnosis and treatment plan cases using records of individuals seeking prosthodontic treatment. Patients will be assigned to students to provide the required clinical experiences for a contemporary speciality prosthodontic practice. Pre-requisite is successful completion of RSTD 7116.

RSTD 7028 Current Prosthodontic Literature Review 3 1 cr

This course will consider the concepts underlying the current practice of prosthodontics by reviewing assigned readings from the current scientific literature. Students will be expected to apply principles of critical evaluation in order to identify and appreciate the limitations of these studies and thus the limitations of the current concepts derived from them. Prerequisite is successful completion of RSTD 7118.

RSTD 7032 Advanced Prosthodontic Seminars 5 - Implant Prosthodontics 1 cr

This course consists of lecture, seminar, clinical, and laboratory sessions to review contemporary prosthodontics as it relates to implant prosthodontics. The student will examine relevant current texts and review articles. The student will be required to lead sessions on the evaluation of these topics as related to prosthetic dentistry.

RSTD 7036 Clinical Practice in Prosthodontics 5 8 cr

This course consists of an integrated, patient-centered clinical program. Seminars will analyze diagnosis and treatment plan cases using records of individuals seeking experiences for a contemporary speciality prosthodontic practice. Prerequisite is successful completion of RSTD 7126.

RSTD 7038 Current Prosthodontic Literature Review 5 1 cr

This course will consider the concepts underlying the current practice of prosthodontics by reviewing assigned readings from the current scientific literature. Students will be expected to apply principles of critical evaluation in order to identify and appreciate the limitations of these studies and thus the limitations of the current concepts derived from them. Prerequisite is successful completion of RSTD 7128.

RSTD 7100 Dental Materials 6 cr

This course consists of lecture, seminar and laboratory periods. The student will examine the current literature relevant to the program and will gain experience in the testing procedures used to evaluate dental materials. A project involving the evaluation of a dental material will be required of each student.

RSTD 7112 Advanced Prosthodontic Seminar 2 - Complete Dentures, Maxillofacial Prosthodontics 1 cr

This course consists of lecture, seminar, clinical, and laboratory sessions to review contemporary prosthodontics as it relates to complete dentures, speech pathology, geriatric dentistry and maxillofacial prosthodontics. The student will examine relevant current texts and review articles. The student will be required to lead sessions on the evaluation of these topics as related to prosthetic dentistry.

RSTD 7114 Classic Removable Partial Denture Prosthodontic Literature Review 1 cr

This course will consider classic concepts underlying the current practice of removable partial denture prosthodontics by reviewing assigned readings from the scientific literature. Students will be expected to apply principles of critical evaluation in order to identify and appreciate the limitations of these studies and thus the limitations of the current concepts derived from them.

RSTD 7116 Clinical Practice in Prosthodontics 2 8 cr

This course consists of an integrated, patient-centered clinical program. Seminars will analyze diagnosis and treatment plan cases using records of individuals seeking prosthodontic treatment. Patients will be assigned to students to provide the required clinical experiences for a contemporary speciality prosthodontic practice. Prerequisite is successful completion for RSTD 7016.

RSTD 7118 Current Prosthodontic Literature Review 2 1 cr

This course will consider the concepts underlying the current practice of prosthodontics by reviewing assigned readings from the current scientific literature. Students will be expected to apply principles of critical evaluation in order to identify and appreciate the limitations of these studies and thus the limitations of the current concepts derived from them. Prerequisite is successful completion of RSTD 7018.

RSTD 7122 Advanced Prosthodontic Seminars 4 - Conventional Fixed Prosthodontics 1 cr

This course consists of lecture, seminar, clinical, and laboratory sessions to review contemporary prosthodontics as it relates to conventional fixed prosthodontics. The student will be required to lead sessions on the evaluation of these topics as related to prosthetic dentistry.

RSTD 7124 Classic Implant Prosthodontic Literature Review 1 cr

This course will consider classic concepts underlying the current practice of implant prosthodontics by reviewing assigned readings from the scientific literature. Students will be expected to apply principles of critical evaluation in order to identify and appreciate the limitations of these studies and thus the limitations of the current concepts derived from them.

RSTD 7126 Clinical Practice in Prosthodontics 4 8 cr

This course consists of an integrated, patient-centered clinical program. Seminars will analyze diagnosis and treatment plan cases using records of individuals seeking prosthodontic treatment. Patients will be assigned to students to provide the required clinical experiences for a contemporary speciality prosthodontic practice. Prerequisite is successful completion of RSTD 7026.

RSTD 7128 Current Prosthodontic Literature Review 4 1 cr

This course will consider the concepts underlying the current practice of prosthodontics by reviewing assigned readings from the current scientific literature. Students will be expected to apply principles of critical evaluation in order to identify and appreciate the limitations of these studies and thus the limitations of the current concepts derived from them. Prerequisite is successful completion of RSTD 7028.

RSTD 7132 Advanced Prosthodontic Seminars 6- Practice Management, Ethics, and Sleep Medicine 1 cr

This course consists of lecture, seminar, clinical, and laboratory sessions to review contemporary prosthodontics as it relates to practice management, ethics, infection control, and sleep medicine. The student will examine relevant current texts and review articles. The student will be required to lead sessions on the evaluation of these topics as related to prosthetic dentistry.

RSTD 7136 Clinical Practice in Prosthodontics 6 8 cr

This course consists of an integrated, patient-centered clinical program. Seminars will analyze diagnosis and treatment plan cases using records of individuals seeking prosthodontic treatment. Patients will be assigned to students to provide the required clinical experiences for a contemporary specialty prosthodontic practice. Pre-requisite is successful completion of RSTD 7036.

RSTD 7138 Current Prosthodontic Literature Review 6 1 cr

This course will consider the concepts underlying the current practice of prosthodontics by reviewing assigned readings from the current scientific literature. Students will be expected to apply principles of critical evaluation in order to identify and appreciate the limitations of these studies and thus the limitations of the current concepts derived from them. Prerequisite is the successful completion of RSTD 7038.

RSTD 7150 Orthodontic Materials 3 cr

Students will examine in depth through lectures, seminars and research of the current literature, those materials used by orthodontists in their clinical practice. The relationship between materials properties and clinical performance will be emphasized.

Russian (Slavic Studies) (RUSN)

RUSN 6000 Language Reading Test 0 cr

This course is graded pass/fail.

Slavic Studies (Pol,Rusn,Ukrn) (SLAV)

SLAV 7200 Literary and Cultural Theory 3 cr

A survey of major theoretical approaches to German and Slavic literatures and cultures. Discusses the aesthetics of Enlightenment and Idealism, Nietzsche, Freud, Russian Formalism, Prague Structuralism, hermeneutics, semiotics, dialogism (Bakhtin), the Frankfurt School, collective memory, gender studies, post-colonialism, and multi-culturalism.

SLAV 7210 Introduction to Second Language Acquisition and Methods of Language Teaching 3 cr

This course provides a general introduction to theories and approaches in second language acquisition (SLA) and methods of language teaching specifically designed for MA students of German and Slavic languages.

SLAV 7400 Selected Topics in Slavic Literatures 3 cr

Seminar discussions of various problems in Slavic literatures as related to the students' field of research. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

SLAV 7410 Seminar in Contemporary Slavic Literatures 3 cr

Selected problems in contemporary Slavic literatures as related to the students' field of research.

SLAV 7420 Studies in Modernism 3 cr

A study of the representative works of modernism in Slavic countries with a focus on the years 1890-1930. The styles and movements that characterized the period will be examined. References will be made to the art of the period.

SLAV 7430 Special Topics in Slavic Studies 3 cr

An independent study course in Slavic literatures, cultures, or folklore. Topics will be selected to meet students' research or study interests. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Social Work (SWRK)

SWRK 6010 Data Analysis for Social Work Research 3 cr

An intermediate course in the analysis of quantitative social work data. The course will emphasize application and interpretation of analytical techniques useful in the pursuit of social justice through social work.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre or co-requisite: SWRK 7620 or instructor approval. Priority to be provided to MSW students in course registration.

SWRK 6020 Social Work Practice Seminar 6 cr

Introduces students to ecological and other generalist practice models in the provision of social services. Attention is given to key contextual aspects of social work practice such as gender, poverty, and culture in the study of professional roles and ethics. Intervention modalities considered range from direct practice with individuals to strategies of community change.

SWRK 6030 Canadian Social Welfare Policy 6 cr

An examination of the elements of ideology, and the application of competing ideological systems in the study of social welfare policy. This course also examines the history of Canadian social welfare from European contact to contemporary developments.

SWRK 6040 Anti-Oppressive Social Work Practice 3 cr

An Overview of Anti-Oppressive social work practice. Focuses on application of this approach to a wide variety of service participants and the connections between policy and practice. Implications for the profession are explored.

SWRK 6050 Field Practice 6 cr

An educationally focused practice experience where the student carries a sustained professional role as a beginning practitioner. Requires 450 hours of time including an orientation program, engagement in practicum activities under supervision, educational contact time with the field instructor and evaluation of performance. For Pre-MSW students only. Subject to satisfactory completion and reports, students will be graded on a pass/fail basis.

SWRK 6060 Social Work and Aboriginal People 3 cr

Focuses on the analysis of social welfare policy and social work practice from an Aboriginal perspective. The influence of colonization as an attribute of oppression is examined along with an exploration of developments oriented to the goal of decolonization and empowerment.

SWRK 6070 Qualitative Research in Social Work 3 cr

An intermediate course in qualitative approaches for research for the pursuit of social justice through social work. It will examine various approaches to the design and analysis of qualitative social work research.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre or co-requisite: SWRK 7620 or instructor approval.

SWRK 7002 Foundation in Social Work Practice and the Profession 3 cr

Situates the social work profession within the context of a settler colonial state and examines the intersection of knowledge, theory, values, ethics, and power relations that form the foundation of the profession and shape interventions and norms within social service agencies.

SWRK 7180 Advanced Field Practice 0 cr

A student directed specialized practice experience where the focus is on the integration of theory, research and practice. Requires 450 hours of supervised, advanced practice following approval of a proposal developed by the student. Students will be graded on a pass/fail basis. Pre or Co Requisite: SWRK 7190.

SWRK 7190 Integrating Theory and Research in Advanced Field Practice 3 cr

Requires application of theory and research to analysis of selected activities undertaken in Advanced Field Practice. Pre or Co- requisite: SWRK 7180.

SWRK 7220 Selected Topics in Social Work 3 cr

A tutorial approach which permits the graduate student to develop an area of concentration independently but with assistance and mutual work with a faculty member.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written permission of instructor.

SWRK 7230 Problem Seminar 3 cr

Students focus on the theory, social policy and social work practice implications of a given social problem area.

SWRK 7280 Readings in Social Work and Social Welfare Research 3 cr

A tutorial in specialized research methodology to be offered only to students who have highly specialized research interests which are not commonly offered in other courses.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: an introductory research course and consent of the instructor.

SWRK 7300 Clinical Evaluation of Social Work Interventions 3 cr

This course examines methods of evaluating clinical social work interventions with individuals, couples, families, and other small groups.

SWRK 7430 Evaluation Research in Social Work Practice 3 cr

A course focused on the development of knowledge and skills in applying methods of evaluation to policies and programs in the human services. Analytical and practice skills in program evaluation are developed through an examination of theories, models, and case study applications.

SWRK 7440 Policy Analysis in Social Work Practice 3 cr

A course focused on the development of knowledge and skills for planning social policies and social programs with special attention to the importance of policy analysis. Analytical and practice skills are developed through case studies and a critical review of theories and models.

SWRK 7450 Advanced Research Methods 1 3 cr

An overview of design and methodology options in quantitative and qualitative social work research, with special emphasis on practice in community settings.

SWRK 7460 Advanced Research Methods 2 3 cr

Advanced quantitative analysis of social work policy and practice, with emphasis on multivariate analysis techniques.

SWRK 7470 Advanced Research Methods 3 3 cr

Advanced qualitative analysis of social work policy and practice, with emphasis on analyzing appropriate case studies, and interview and documentary information.

SWRK 7520 Dissertation Seminar 0 cr

A required non-credit course on special issues to support students in preparing their formal dissertation proposals. Topics include scholarly findings, research methodology, and data analysis. Graded as P/F.

SWRK 7530 Critical Issues in Social Work 3 cr

An opportunity for students to engage in the study of a specific field or topic in social work. Taken as a course, tutorial or offered as a special Ph.D. seminar when numbers permit.

SWRK 7600 Critical Perspectives and Social Work 3 cr

This course focuses on exploring the relationship between critical social theories and social work. Students will examine social work theory and practice from critical theoretical perspectives and analyze their current and past policy and practice experiences from these perspectives.

Mutually Exclusive: SWRK 7720

SWRK 7620 Paradigms, Methodologies, and Methods for Social Work Research 3 cr

An intermediate course that provides an overview of research paradigms, methodologies, and methods. Students will be prepared to employ research as critical consumers, mobilizers, and producers of knowledge to further social work based on social justice.

SWRK 7630 Advanced Social Work Practice with Individuals and Families 3 cr

This course provides the foundation for advanced social work practice with individuals and families in their social contexts. Perspectives for intervention are examined and critiqued including ecological, systems, postmodern, indigenous, and structural approaches.

SWRK 7640 Application and Critique of Theory and Research in Social Work Practice with Individuals and Families 3 cr

Using supervised practice experiences, this course develops advanced skills for assessment, intervention, and evaluation of direct practice with individuals and families within the context of social work's commitment to addressing social injustice. The course will extend over two terms.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre or co-requisites: SWRK 7630 and SWRK 7300.

SWRK 7650 Advanced Social Work Practice with Groups 3 cr

This course will increase students' knowledge and skill in reflexive social work practice with groups in a broad range of health and social service settings.

SWRK 7660 Social Work Perspectives on Practice with Networks, Neighbourhoods and Communities 3 cr

This course aims to develop students' knowledge and skills in reflexive social work practice with networks, neighbourhoods and communities.

SWRK 7670 Community Mobilization: Application of Concepts in Social Work Practice with Groups, Networks and Co 3 cr

This course integrates theories about community with practical application. Students will also gain knowledge of agencies based in community practice. This course will extend over two terms.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre or co-requisite: SWRK 7660.

SWRK 7700 Grounding Our Foundation in Indigenous Knowledges and Social Work 0 cr

This course provides a general overview of Indigenous approaches to healing and helping. Connections to social work practice/policy are identified. The course is focused on experiential and participatory learning and involves a 5-day intensive retreat. Students will be graded on a pass/fail basis.

SWRK 7710 Remembering Our Histories 3 cr

This course will set a foundation for understanding historical perspectives of Indigenous knowledges in relation to social work. Raise awareness of traditional and spiritual; connections to languages, families, communities, nations, and lands to establish an understanding of "relationship" in Indigenous ways of being. Students will be graded on a pass/fail basis.

SWRK 7720 Critical Theory and Indigenous Peoples 3 cr

This course will review critical social theories with primary focus on colonialism and social justice, in relation to social work. Anti-colonialism, anti-oppressive approaches, feminist approaches and other critical perspectives, in relation to Indigenous Peoples, will be examined from Indigenous perspectives. May not hold with SWRK 7600.

Mutually Exclusive: SWRK 7600

SWRK 7730 Indigenous Research Methodologies and Knowledge Development 3 cr

This course will examine research epistemologies and methodologies based in Indigenous ontologies and social experiences in the context of social work research with Indigenous Peoples. The course will present the influences of colonization, Indigenism, and decolonization on knowledge development.

SWRK 7740 Indigenous Peoples, Identity, and Social Work 3 cr

This course will give students an understanding of how they see themselves and how their relationships at individual, family, clan, community, and nation levels contribute to identity development. It deepens understanding of how people view themselves and react in contemporary contexts. Students will be graded on a pass/fail basis.

SWRK 7750 Indigeneity, Power, Privilege, and Social Work 3 cr

This course will examine identity development influenced by gender, ethnicity, Indigeneity, internalized oppression, aboriginalism, internalized domination, whiteness, white privilege, racism, and in relation to social policies and social work practice with individuals, families, communities, and nations.

SWRK 7760 Project/Thesis Seminar 1 0 cr

This course will focus on initiating knowledge development in practice settings. Students will learn to apply Indigenous and critical social work epistemological and methodological concepts by finalizing their project/thesis proposal and beginning their projects. Students will be graded on a pass/fail basis.

SWRK 7770 Social Challenges and Indigenous Helping Practices 3 cr

This course will teach students how Indigenous Elders, traditional teachers and /or medicine people identify, interpret and meet current social challenges. The course looks at how positive identities and relationships are fostered through traditional Indigenous helping practices and how they currently inform social work. Students will be graded on a pass/fail basis.

SWRK 7780 Social Work, Social Challenges, and Indigenous Peoples 3 cr

This course will present challenges Indigenous peoples face through lenses of critical theories, particularly decolonization and social justice. It reviews social policies and social work practices affecting Indigenous peoples, including those of Indigenous organizations that centre Indigenous perspectives.

PR/CR: A minimum grade of C is required unless otherwise indicated.
Prerequisite: SWRK 7750.

SWRK 7790 Project/Thesis Seminar 2 0 cr

This course will continue to guide students on their application/research of Indigenous practice knowledges in their chosen projects/theses and to ensure the student is actively implementing the projects/theses as outlined in their approved proposals. Students will be graded on a pass/fail basis.

SWRK 7800 Indigenism 3 cr

This course will focus on Indigenous knowledges shared through group participation in Indigenous helping practices. It looks at how these practices could be supported by social workers in communities and organizations for people facing social challenges. Students will be graded on a pass/fail basis.

SWRK 7810 Anti-Colonial Social Work 3 cr

This course will focus on design and participation in community service and research projects. This course will challenge the student to include reflection, application, and evaluation of critical social work knowledge and research on how the student project (s) and/or action(s) contribute to development of anti-colonialism, social justice, and Indigenism.

SWRK 7820 Project Seminar 3 3 cr

Students in this course will complete their major projects. Students will also complete a written paper and oral presentation addressing their respective projects.

SWRK 8010 Perspectives on Knowledge for Social Work 3 cr

A seminar focusing on the definition, development, legitimization, and transmission of knowledge for social work practice. A range of approaches will be discussed including scientific approaches (logical positivism), post-modern approaches, indigenous and culturally based approaches, and critical approaches.

SWRK 8020 Development of the Social Work Profession 3 cr

A seminar focusing on the development of social work from mainstream and marginalized people's perspectives (including Aboriginal people and women), and its relationship; to current professional issues. Histories, ideological, economic, theoretical, and political factors will be considered in examining selected fields of practice.

SWRK 8030 Advanced Qualitative Research in Social Work 6 cr

A seminar and laboratory course in the understanding and use of a wide range of epistemological and methodological approaches to research related to social work. This will include a focus on the views and practices of Aboriginal peoples, women, and other marginalized persons.

PR/CR: A minimum grade of C is required unless otherwise indicated.
Pre-requisite: A grade of "B" or better in a Master's level qualitative research course taken within five years or instructor approval.

SWRK 8040 Advanced Quantitative Research in Social Work 6 cr

A seminar and laboratory course in the use of multivariate statistics in analyzing experimental, quasi-experimental, survey and administrative data related to social policy, social services, and social work practice.

PR/CR: A minimum grade of C is required unless otherwise indicated.
Pre-requisite: A grade of "B" or better in a Master's level quantitative research course taken within five years or instructor approval.

SWRK 8100 Social Work Past and Present: Trends, Institutions and Practices 3 cr

Development of Social Work in Canada, with international comparisons, through examination of social processes and intellectual trends shaping the profession, such as colonization, Indigenous issues, feminism, neoliberalism and globalization, and highlighting of practices, methods and models. Cannot be held with SWRK 8020.

Equiv To: SWRK 8020

Sociology (SOC)

SOC 7110 Seminar in Sociology of Religion 3 cr

A comparative and analytical study of religion with particular reference to such areas as integration, change, ideology, value orientation, normative structures, social class, intergroup relations, personality systems.

SOC 7120 Seminar in Sociology of Education 3 cr

An analytical treatment of the influence of education, as a basic social institution, on society its functions in socialization, change, control, social mobility, social progress, etc. and the influence of society on the organization, content, and goals of education.

SOC 7160 Selected Topics 3 cr

An intensive study of the contemporary research and theory in a selected field of sociology. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

SOC 7190 Seminar in Selected Topics in Sociological Theory 3 cr

The content of this course may vary from year to year, depending on interest and need. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

SOC 7240 Seminar in Selected Topics in Research and Methods 3 cr

The content of this course may vary from year to year, depending on interest and need. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

SOC 7280 Seminar in Theoretical Criminology 3 cr

An advanced course dealing with theory and research in the field of criminology with emphasis placed on an evaluation of existing theories of crime, law, and social justice.

SOC 7300 Seminar in the Sociology of Law and Social Control 3 cr

A critical examination of classical and contemporary sociological theories of law and social control and their import for understanding substantive issues relating to the law-society relationship.

SOC 7310 Seminar in Intergroup Relations 3 cr

This seminar will provide an opportunity for detailed study of intergroup (religious, racial, and ethnic) relations in contemporary Canadian society. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

SOC 7320 Seminar in Political Sociology 3 cr

A critical examination of classical and contemporary sociological theories and current empirical research concerned with the relationship between politics and society. Particular emphasis is placed upon the origin, development, nature and future of the welfare state from a comparative perspective.

SOC 7340 Seminar in the Sociology of the Family 3 cr

This seminar investigates various conceptual frameworks which are developing in the study of the family today, including research problems and procedures unique to such study. Various approaches will be examined.

SOC 7350 Advanced Reading and Research 1 3 cr

Directed study of a selected area within the general field of sociology. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

SOC 7370 Issues in Health Care Seminar 3 cr

An advanced seminar designed to examine current issues in health care. The content of this course may vary from year to year depending on interest and need.

SOC 7390 Survey Research Methods 3 cr

Through the use of secondary electronic data sources, students learn all aspects of survey research. Topics covered include: sampling, question and questionnaire construction, index construction and scaling methods, techniques of establishing validity and reliability, order effects, conducting interviews, coding, data analysis, and budgeting. Previous experience with multivariate data analysis at the undergraduate level is strongly encouraged.

SOC 7400 Advanced Quantitative Research Methods 3 cr

This course emphasizes the understanding and application of advanced quantitative data analysis techniques to sociological research problems. Issues in regression decomposition, path analysis, log-linear analysis, discriminant function analysis, principal components and factor analysis, as well as non-parametric statistical tests are covered as they relate to sociological research concerns. Statistical packages are used to illustrate sociological examples.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [SOC 4570 or the former SOC 4480] or written consent of department head.

SOC 7420 Qualitative Research Methods for Sociological Inquiry 3 cr

This course provides an overview of methodologies of qualitative research for sociological inquiry. Discussion focuses on the ontological and epistemological foundations of qualitative methods and the variety of approaches and techniques available within interpretive and critical paradigms. Issues such as sampling, reflexivity, analysis, interpretation, theoretical development, rigor and representation will be discussed.

SOC 7430 Seminar in Classical Sociological Theory 3 cr

A critical examination of certain central aspects of the sociological tradition. The content of this course may vary from year to year depending on interest and need.

SOC 7440 Seminar in Contemporary Sociological Theory 3 cr

An examination of current trends in sociological theory. The content of this course may vary from year to year depending on interest and need.

SOC 7450 Selected Topics in Criminology 3 cr

An advanced seminar in a selected area of criminology. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

SOC 7470 Evaluating Social Programs 3 cr

Designed as a course in applied sociology, students will review the models and methodologies used for evaluating social programs. The course will introduce the necessary conceptual and analytic tools to design and carry out program evaluations.

SOC 7480 Social Inequality 3 cr

A critical examination of classical and contemporary theories and current empirical research concerned with various dimensions of social inequality (such as class, gender and race) and social stratification from a comparative perspective.

SOC 7490 Globalization 3 cr

A sociological examination of the globalization of trade, production and finance, including the creation of multilateral trading blocs (e.g., APEC, EU, NAFTA) and international organizations (e.g., WTO, IMF, the World Bank) and their impact upon social inequality, the welfare state and the environment in developed and developing nations.

Soil Science (SOIL)

SOIL 7100 Soil Physical Chemistry 3 cr

Topics of discussion: ionic equilibria, ion exchange and ionic transport including soil-plant relationships.

SOIL 7110 Soil Physics I - General 3 cr

First and second laws of thermodynamics, Darcy's law, saturated and unsaturated flow, simulation modeling of moisture movement, soil aeration, water availability to seeds, strength properties of unsaturated soils.

SOIL 7130 Soil Chemistry 3 cr

Chemical equilibria and soil solution chemistry; surface chemistry and solid-solution reactions; mineral structure, colloid chemistry and analytical techniques; fate of nutrients and pollutants; reactions of fertilizers.

SOIL 7140 Soil Nitrogen 3 cr

Discussion of organic and inorganic nitrogen in soils, nitrogen fixation, mineralization, nitrification, denitrification, and plant availability of soil nitrogen. Students will be required to review literature on assigned topics.

SOIL 7170 Agricultural Micrometeorology 3 cr

Discussion of mass and energy transport in the boundary layer, evaporation and transpiration of water, light absorption and transmission of carbon dioxide in plant canopies and climate change impacts on micrometeorological processes.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: SOIL 3060 and/or consent of instructor.

SOIL 7180 Environmental Chemistry of Pesticides and Related Compounds 3 cr

Pesticide chemodynamics, biological and non-biological transformations of pesticides in water, soil and biota, bioaccumulation and food chain distribution of pesticides and related xenobiotics and environmental fate models will be discussed.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Consent of instructor.

SOIL 7210 Topics in Soil Fertility 3 cr

Advanced study of behaviour and crop requirements for selected nutrients (except for nitrogen, as covered in SOIL 7140. Students will be required to review literature and prepare seminars on assigned topics.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: SOIL 4520 or consent of instructor.

SOIL 7220 Principles of Scientific Research and Communication 3 cr

Principles of scientific research; management skills; writing skills; oral and poster presentation; preparation of research proposal and thesis (pass/fail). These topics will focus on aspects of soil science and will give students experience in writing and presenting scientific material to increase their professionalism as soil scientists.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Consent of instructor.

SOIL 7230 Topics in Landscape and Processes I 3 cr

An examination of methods of landscape characterization and of landscape processes, their impacts, interactions and modelling.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Consent of instructor.

SOIL 7240 Topics in Landscape Processes II 3 cr

A continuation of SOIL 7230.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Consent of instructor.

SOIL 7250 Topics in Soil Science 3 cr

Several courses in soil science are sectioned into modules. Modules of one credit hour on special topics are also available. Students may select three modules from the various courses or from special topics for SOIL 7250.

SOIL 7270 Advanced Soil Ecology 3 cr

Examine the role of soil organisms and their communities in decomposition, elemental cycling, and pathogen/pest suppression in managed and natural soil systems. Understand methods of studying biochemical activity and communities in soil. Take a specific research topic of choice and develop an understanding of the organisms and communities, environmental controls of key biological processes involved and apply your knowledge to resolving a specific research issue.

Statistics (STAT)

STAT 7060 Advanced Theory of Probability 3 cr

Probability as measure, convolutions, limit laws, conditional probability and expectation, law of large numbers and other selected topics.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

STAT 7080 Advanced Statistical Inference 3 cr

Selected topics from recent developments in parametric and/or non-parametric statistical inference.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

STAT 7100 Analysis of Discrete Data 3 cr

Inference concerning discrete distributions, analysis of categorical data, and other selected topics.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

STAT 7140 Linear Models 3 cr

Theory of linear models, regression analysis, and analysis of variance.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

STAT 7200 Multivariate Analysis I 3 cr

Multivariate normal distribution, Hotelling's T^2 , Classification methods, principal components and canonical correlations.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

STAT 7220 Seminar in Statistics 1 3 cr

A seminar course on new development in statistics.

STAT 7240 Advanced Topics in Statistics 1 3 cr

Special advanced research topics in statistics.

STAT 7250 Advanced Topics in Statistics 2 3 cr

Special advanced research topics in statistics.

STAT 7260 Time Series 3 cr

The auto-correlation function and spectrum, various processes, model identification, estimation and forecasting.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

STAT 7270 Bayesian Inference 3 cr

Bayesian decision problems, priors, Jeffrey's Rule, robustness of posteriors, Bayesian justification of ANOVA.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

STAT 7290 Statistical Consulting 3 cr

The role of a statistics consultant. Practical consulting experience.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of department.

STAT 7310 Research Tools for Statistics 0 cr

This course provides instruction in the use of a number of tools required for graduate level research in statistics. Topics include instruction in various software, such as LaTeX, R, SAS, etc. as well as Library usage, presentation and communication skills.

STAT 7320 Research Project in Statistics 3 cr

This course will provide the student with practical experience in doing research in the statistical sciences. Students will be matched with a faculty advisor and carry out a research project. Deliverables include a final research report and a presentation to the department.

STAT 7350 Advanced Topics in Statistics 3 1.5 cr

Special advanced research topics in statistics.

STAT 7360 Advanced Topics in Statistics 4 1.5 cr

Special advanced research topics in statistics.

Supply Chain Management (SCM)

SCM 7010 Advanced Supply Chain Management 3 cr

Provides students at the graduate level with an in-depth examination of the major issues associated with the management of supply chains. The course content includes both managerial and technical matters, and addresses issues such as the importance of supply chain management in meeting global competition, internet and e-business application, supply chain integration and relationships, sharing risks and rewards, and the reduction of variance in supply chain performance.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: A degree in business or discipline related to supply chain management or approval by instructor.

SCM 7014 Seminar in Production and Operations Management 3 cr

To critically review, gain a deeper understanding and academic appreciation of the core POM literature; to develop mature researchable ideas that fill research gaps in the area of POM as identified in the articles and in-class discussions; to pursue research topics in POM and conceptualize, craft, and shape intriguing research questions that may lead to long-term researchable programs; to present their research ideas/articles and critique the merits/shortcomings of others' research work in the area of POM

SCM 7040 Logistics Management 3 cr

Logistics Management is the part of supply chain management that plans, implements, and controls the efficient, effective forward and reverse flow and storage of goods, services, and related information between the point of origin and the point of consumption in order to meet customers' requirements. This course provides a practical, management perspective of the following areas of logistics: distribution, transportation, international logistics, inventory control, sustainable logistics practices, key performance indicators, supply chain finance, leadership in a supply chain role, and an introduction to logistics technology including RFID and ERP systems.

SCM 7042 Purchasing and Procurement in Supply Chains 3 cr

Purchasing and procurement functions are about much more than bringing goods and services into an organization. They are the foundation of strong, collaborative relationships with suppliers. Since many companies source products from around the globe more frequently than ever, a procurement manager needs strong capabilities. These skills cannot just be learned on the job: they need to be taught. As well, the value of procurement is now recognized as an integral part of cost control within the organization. In this course, you'll learn the basics of procurement, including what a supply chain looks like, the purchasing cycle, essential tools and strategies for making the best purchasing relationships work, managing bids, and more.

SCM 7044 Supply Relationship Management 3 cr

Successful Supplier Relationship Management (SRM) needs effective contract and performance management in place for the selected suppliers. Also, a successful SRM programme needs full engagement from the key stakeholders across the business. However, engaging internal stakeholders in SRM activities is challenging and the ability to sell internally and externally is essential. Since maximising the value that is captured from major suppliers delivers significant business benefits, this course covers the approaches needed internally and externally to secure value delivery from suppliers.

SCM 7046 Sustainable Supply Chain Management 3 cr

Sustainability efforts can open many opportunities for businesses—product innovation can lead to first-mover advantage, environmental product differentiation can open new markets, green sourcing and waste reduction can reduce operating cost, etc. At the same time, they can present significant challenges—governments and communities are imposing higher standards on pollution, resource exploitation, etc. This course aims to provide students with an understanding of the sustainability challenges and opportunities facing supply chains today. We will look at some of the factors that are contributing to the adoption of sustainability strategies, such as legislations that are penalizing negative environmental and social impacts, and society's expectations of business in terms of health, human rights, and the environment. The supply chains today cannot be concerned only with creating shareholder value; their performance is also measured in terms of social, environmental and economic impact.

SCM 7048 Advanced Supply Chain Management 3 cr

Advanced Supply Chain Management (ASCM) provides a theoretical basis for multi-disciplinary analysis and improvement of supply chains and networks, focusing especially on supply chain modelling methods to support managerial decision making. Supply chains are often globally interconnected systems with a large variety of complex relationships. This is also affecting the ways in which goods and services are developed, produced, processed and delivered to the market.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MSCI 7140.

SCM 7050 Co-op in Supply Chain Management and Logistics 3 cr

This course aims to provide students with a hands-on experience in Supply Chain Management and Logistics. Students will be placed in positions within organizations operating in the Province of Manitoba and Canada to experience supply chain management and logistics management in practice. A pre-employment training to students without significant work experience in North America may be required. The pre-employment training and placement of students will be performed in coordination with the Asper School of Business Graduate Co-operative Education Program, always striving to match the interests of the student with the interests of the hosting organization. This course is graded on a pass/fail basis.

SCM 7052 Applied Project in Supply Chain Management and Logistics 3 cr

This course aims to provide students with a hands-on experience in Supply Chain Management and Logistics. Students will explore and address real issues in the supply chain and logistics sector in the context of the Province of Manitoba and/or Canada under the supervision of a Faculty Member of the Department of Supply Chain Management, Asper School of Business, and in close connection with the target organization. This course is graded on a pass/fail basis.

Surgery (SURG)

SURG 7012 Surgery- Major Course in Surgical Problems (Part A & Part B) 3 cr

A series of short-course modules offered by surgeon-researchers covering the diverse aspects of knowledge translation in surgical research and practice. A compulsory course for MSc students in the Department of Surgery.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Students outside of Surgery require Graduate Chair permission.

SURG 7022 Surgery- Specialty Rounds in Surgical Problems (Part A & Part B) 3 cr

Under the mentorship of the student's advisor, independent study on the practice, theory and critical reflection methods of surgical research through the attendance to relevant specialty rounds and journal clubs; directed reading and reflective writings. Permission from Graduate Chair.

SURG 7030 Advanced Surgery 3 cr

Designed to expose students to specific surgery issues that are relevant to their thesis research at Department of Surgery Subspecialty Rounds; demonstrating an understanding of knowledge development and exchange, critical appraisal, practice-based evidence and their connections to translational activities. Permission from Graduate Chair.

SURG 7040 Surgical Epidemiology and Biostatistics 3 cr

Prepare students to design studies suitable for a wide variety of research questions including diagnostic, etiologic and prognostic, and treatment outcomes, with focus on surgical issues. It should also provide the students with the essential biostatistical and epidemiologic tools to critique medical literature. The evaluation will be based on submission of a complete proposal to answer a research question of each student's choice.

Women's and Gender Studies (WOMN)

WOMN 7170 Directed Readings in Women's Studies 3 cr

Advanced study of selected topics in Women's Studies from an interdisciplinary perspective. The content of the course may vary from year to year and will be arranged by the coordinator of the Women's and Gender Studies Program in consultation with the appropriate representatives of departments. Students must complete a Reading Course Application Form available from the Women's and Gender Studies office. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of the Women's and Gender Studies coordinator and the instructor.

WOMN 7270 Advanced Topics in Women's Studies 3 cr

Advanced study of selected topics in Women's Studies from an interdisciplinary perspective. The content of the course may vary from year to year and will be arranged by the coordinator of the Women's and Gender Studies Program in consultation with the appropriate representatives of departments. Interdisciplinary analysis of contemporary issues, debates and theories in Women's Studies. Topics will vary from year to year and may include, for example, gender theory, sexualities, or feminist pedagogy. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of the Women's and Gender Studies coordinator and course instructor.

Université de Saint-Boniface Profile and Programs Offered

L'Université de Saint-Boniface

Profil de l'université

L'Université de Saint-Boniface (l'Université), fondée en 1818, est située dans le quartier francophone au cœur même de la ville de Winnipeg. Ce quartier est situé sur les rives des rivières Rouge et Seine, dans l'est de Winnipeg.

L'Université de Saint-Boniface est le plus ancien établissement postsecondaire de l'Ouest canadien et est l'université de langue française au Manitoba. Elle est située à deux pas du centre-ville de Winnipeg, carrefour de nombreuses activités culturelles et sportives. L'Université est accessible à toute personne apte à poursuivre des études postsecondaires en français. Avec une vingtaine de programmes (<https://ustboniface.ca/programmes-detudes/>) et 1 400 étudiants et étudiantes provenant de 25 pays, l'Université offre une éducation universitaire générale et spécialisée ainsi qu'une formation technique et professionnelle. À l'Université, nous avons l'intime conviction que l'apprentissage doit se poursuivre toute la vie! Notre Division de l'éducation permanente offre une formation continue (<https://ustboniface.ca/division-education-permanente/>) (langues, développement professionnel, développement personnel, etc.) de qualité exceptionnelle ainsi que des programmes uniques destinés aux enfants d'âge scolaire.

Bien ancrée dans son milieu, l'Université contribue pleinement à la vitalité et à l'épanouissement de la francophonie manitobaine, canadienne et internationale. Grâce à son enseignement de qualité et à sa recherche dynamique, elle rayonne largement au-delà de ses frontières. Établissement à dimension humaine, l'Université se définit comme un milieu interculturel inclusif qui contribue au développement global de la personne.

Formation universitaire

L'Université de Saint-Boniface offre une gamme de programmes (<https://ustboniface.ca/programmes-detudes/>) universitaires de premier cycle en arts, en travail social, en traduction, en sciences, en éducation et en administration des affaires, ainsi que des programmes d'études supérieures en éducation et en études canadiennes.

Les étudiants et les étudiantes peuvent être admis directement en arts, en sciences ou en administration des affaires selon les critères d'admission spécifiques. Les étudiants et les étudiantes qui ne répondent pas aux critères d'admission directe doivent compléter une première année universitaire (<https://ustboniface.ca/u1/>) (U1) avant de s'inscrire au programme de baccalauréat de leur choix.

Des études universitaires entreprises à l'Université de Saint-Boniface ouvrent également la voie à des programmes dans d'autres universités, notamment l'Université du Manitoba. Pour vous renseigner sur ces possibilités, veuillez communiquer avec le Service d'orientation pédagogique (<https://ustboniface.ca/orientation/>) de l'USB.

Annuaire

L'annuaire (<http://ustboniface.ca/annuaire/>) de l'Université de Saint-Boniface est désormais disponible en ligne seulement.

Admission

Vous voulez poursuivre vos études à l'Université de Saint-Boniface? La première étape est de déposer votre candidature à un des programmes de votre choix. Pour en savoir davantage, visitez la rubrique Futurs étudiants (<https://ustboniface.ca/futursetudiants/>) du site Web de l'USB.

Inscription

Dès que vous recevrez une confirmation écrite de votre admission à un programme particulier, vous pourrez vous inscrire en remplissant un formulaire d'inscription disponible au Registrariat.

- Si vous choisissez d'étudier à l'Université de Saint-Boniface, vous devez vous inscrire auprès de cet établissement, même si vous comptez suivre un ou plusieurs cours à l'Université du Manitoba. Vous devrez toutefois payer des frais de cours auprès de l'Université du Manitoba pour les cours que vous y suivez.
- Si vous voulez vous inscrire à un ou à plusieurs cours à l'USB, mais que votre établissement d'appartenance est l'Université du Manitoba ou tout autre collège affilié à l'Université du Manitoba, vous devez vous inscrire auprès de votre établissement d'appartenance.
- Deux jours ouvrables après votre inscription, votre facture sera disponible dans votre portail MonUSB. Veuillez consulter l'**avis aux étudiants** pour vous renseigner davantage sur les factures.

Chaque faculté, école et programme peut avoir des règlements académiques précis. Il vous revient de prendre connaissance des règlements qui vous concernent et de les respecter. Pour connaître ces renseignements, veuillez consulter l'annuaire (<https://client-snap.dev8.leefrog.com/umanitoba-ca/external.html?link=http://ustboniface.ca/annuaire>), sous la rubrique de votre faculté ou école ou sous la rubrique Règlements académiques. Consultez également la section réservée à votre programme, qui pourrait contenir ses propres exigences.

Exigences linguistiques

En général, les exigences linguistiques minimales pour tous les programmes d'études universitaires et collégiaux exigent l'inscription à un plein cours ou à deux demi-cours de français. La réussite de ce ou ces cours est une condition d'obtention du diplôme. Veuillez noter que ces exigences constituent un minimum seulement.

Les profils linguistiques servent à vous diriger vers les cours de langue appropriés et à proposer les mesures d'enrichissement qui permettront de combler les lacunes, le cas échéant. Il ne s'agit pas de tests d'admission, mais plutôt de tests de classement.

Toute personne qui s'inscrit une première fois à l'USB fait dresser son profil linguistique en français par le Service de perfectionnement linguistique (SPL) avant de s'inscrire.

Puisque certains programmes exigent aussi des connaissances de la langue anglaise, les personnes admises à ces programmes et qui connaissent peu l'anglais doivent également faire dresser leur profil linguistique en anglais avant de s'inscrire.

Registrariat

Le Registrariat (<https://ustboniface.ca/registrariat/>) est le point d'entrée pour étudier à l'Université de Saint-Boniface. Entre autres, il offre de l'appui et de l'information sur l'admission à un programme, l'inscription aux cours, l'aide financière disponible et l'horaire des cours et des examens.

Le Registrariat est ouvert du lundi au vendredi de 8 h 30 à 16 h 30.

Maîtrise ès arts, études canadiennes et interculturelles

Program Information

The Maîtrise ès Arts, études canadiennes et interculturelles is offered by the Université de Saint-Boniface, an affiliated college of the University of Manitoba, **in French only**, and **only via the Internet**. Students are generally mid-career and are enrolled in the programme on a part-time basis, out of personal interest or for career enhancement. Graduates can pursue careers in the federal or provincial public service, in journalism, in the Foreign Service, or in the private sector; in addition, graduates of the programme may be admitted to doctoral programs, subject to program requirements.

Graduates of this program will receive a Maîtrise ès Arts en études canadiennes et interculturelles.

Degree Requirements

In addition to the minimum course requirements of the Faculty of Graduate Studies found in the Graduate Studies Regulations, (p. 1341) students must complete a minimum number of 18 credit hours of graduate coursework. In addition, students must submit an acceptable thesis and pass a thesis oral examination.

All students must complete GRAD 7300 and GRAD 7500. Students newly admitted to a graduate program must successfully complete this course within the first term of registration, unless the course has been completed previously.

Language Requirement: Reading and comprehension skills in both French and English; coursework and the thesis may be written in either French or English, subject to availability of a bilingual instructor.

Expected Time to Graduate: 2 - 3 Years. Please refer to Time in Program (p. 1354).

Registration Information

Admission Requirements

In addition to the minimum admission requirements of the Faculty of Graduate Studies found in the Graduate Studies Regulations, (p. 1341) students must have taken four years of studies at the university level. A pre-M.A. program is not available at this time.

Admission Deadlines

Students should complete and submit their online application with supporting documentation (if applicable) by the date indicated in the following table:

Term	Start Date	Canadian/US	International
Fall	September	June 1	March 1
Winter	January	October 1	July 1
Summer	May	February 1	November 1

Education - St Boniface Program Information

The maîtrise en éducation program is offered by the Université de Saint-Boniface, an affiliated college of the University of Manitoba. The department offers the following specializations: Inclusive Special Education; Educational Administration; Guidance and Counselling; Language, Literacy and Curriculum. Some courses are the French equivalent of the courses offered at the Faculty of Education, University of Manitoba. Many courses are specific to French education in the Province of Manitoba.

Degree Requirements

In addition to the minimum course requirements of the Faculty of Graduate Studies found in the Graduate Studies Regulations (p. 1341), students must complete the following, based on their program route:

Thesis route: A Thesis and 18 credit hours are required. At least 12 credit hours must be taken at the 7000 level in the Faculty of Education; 6 credit hours may be taken at the 5000/7000 level in the Faculty of Education or at the 3000 level or above in other faculties.

Practicum route: A practicum and 18 credit hours are required. At least 12 credit hours must be taken at the 7000 level in the Faculty of Education; 6 credit hours may be taken at the 5000/7000 level in the Faculty of Education or at the 3000 level or above in other faculties. Candidates who opt for the practicum route must pass an oral examination open to all members of the University community and the public.

Comprehensive examination route: 30 credit hours are required. At least 18 credit hours must be taken at the 7000 level in the Faculty of Education; 12 credit hours may be taken at the 5000/7000 level in the Faculty of Education or at the 3000 level or above in other faculties. The comprehensive examination features an oral and a written component and may take the form of a literature review or a school-based project

All students must complete GRAD 7300 and GRAD 7500. Students newly admitted to a graduate program must successfully complete this course within the first term of registration, unless the course has been completed previously.

Language Requirement

The language of instruction and communication at USB is French. Students admitted to USB must be sufficiently proficient in French to be able to understand classroom lectures, to write assignments and to participate in classroom discussions in **French**. All coursework must be written in French, as well as theses, practicum reports and comprehensive examinations. International students admitted to the M.en Éd. Program at USB will not be required to complete an English Language Proficiency Test. However, all students must have knowledge of written English in order to understand the regulations and policies of the Faculty of Graduate Studies as well as assigned course readings in English.

Expected Time to Graduate: 2 years. Please see Time in Program. (p. 1354)

Registration Information

Admission Requirements

The minimum admission requirements are those of the Faculty of Graduate Studies found in the Graduate Studies Regulations. (p. 1341)

All students must complete, during the program or prior to entry into the program, course EDUA 5801.

Admission Deadlines

Students should complete and submit their online application with supporting documentation (if applicable) by the date indicated in the following table:

Term	Start Date	Canadian/US	International
Fall	September	June 1	March 1
Winter	January	October 1	July 1
Summer	May	February 1	November 1

Anthropology (ANTH)

ANTH 1211 L'origine et l'antiquité de l'humanité 3 cr

Introduction à l'anthropologie physique et à l'archéologie. Évolution biologique, évolution et cultures des primates, fossiles démontrant la théorie de l'évolution, de l'origine et du développement de la culture humaine. On ne peut se faire créditer ANTH 1211 et ANTH 1210.

Equiv To: ANTH 1210

Attributes: Université de Saint-Boniface, Social Science, Recommended Intro Courses

ANTH 1221 Anthropologie culturelle 3 cr

Étude comparative des sociétés et des cultures humaines. Les sujets suivants seront présentés : institutions familiales, sociales, économiques et politiques, langage vocal humain, systèmes de parenté, de rites et de croyances, stabilité et changements culturels. On ne peut se faire créditer ANTH 1221, ANTH 1220, ANTH 1520.

Equiv To: ANTH 1220, ANTH 1520

Attributes: Université de Saint-Boniface, Social Science, Recommended Intro Courses

ANTH 2001 Culture, société et pouvoir 3 cr

Aperçu des idées centrales à l'analyse des relations sociales, en mettant l'emphase sur l'individu, l'identité, le genre, la « race », l'ethnicité, la classe sociale et la dynamique de caste. On ne peut se faire créditer ANTH 2001 et ANTH 2000, l'ancien ANTH 2391 ou ANTH 2390.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans un des ANTH 1221, ANTH 1220, ANTH 1520, ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: ANTH 2000

Mutually Exclusive: ANTH 2390, ANTH 2391

ANTH 2011 Langage et culture 3 cr

Considération générale de la nature du langage et des interrelations entre le langage et les autres aspects de la culture. Corrélations socioculturelles des variations linguistiques. Ethnographie de la communication. Origine et évolution du langage. On ne peut se faire créditer ANTH 2011, ANTH 2010 et ANTH 2370.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans un de ANTH 1221, ANTH 1220, ANTH 1520, ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: ANTH 2370

Attributes: Université de Saint-Boniface, Social Science

ANTH 2013 Initiation à la recherche en sciences sociales 3 cr

Cours permettant de comprendre et d'apprécier la recherche menée dans les différentes disciplines de sciences humaines. Enjeux épistémologiques et éthiques. Problématique et questions de recherche. Logique des différents types de devis de recherche. Techniques d'analyse et de cueillette de données, incluant l'ethnographie, l'observation directe, l'entrevue, le groupe de discussion, l'analyse documentaire, le travail d'archive et le sondage. Ce cours est aussi donner comme SOC 2013. On ne peut se faire créditer ANTH 2013 et SOC 2013, SOC 2292, SOC 2294, ou l'anciens ANTH 2831, SOC 2291, SOC 2290.

Equiv To: SOC 2013

Mutually Exclusive: ANTH 2831, SOC 2290, SOC 2291

Attributes: Université de Saint-Boniface, Social Science

ANTH 2041 Les Amérindiens de l'Amérique du Nord : une étude socioculturelle 3 cr

Survot ethnographique des cultures des peuples amérindiens de l'Amérique du Nord. L'étudiant(e) qui détient les crédits du ANTH 2041 ne peut se faire créditer aucun des cours ANTH 2040.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: [une note minimale de C dans un de: ANTH 1220 ou ANTH 1221 ou ANTH 1520] ou le consentement écrite du professeur.

Equiv To: ANTH 2040

Attributes: Université de Saint-Boniface, Social Science

ANTH 2071 Religions amérindiennes et inuites 3 cr

Étude comparative et interprétative des valeurs, croyances et pratiques religieuses propres aux traditions autochtones. Attention particulière accordée aux religions traditionnelles, à l'impact du christianisme sur ces religions, et à l'émergence de la spiritualité autochtone contemporaine en mettant l'accent sur l'expérience et les structures, fonctions et significations des mythes, récits et rituels qui composent l'idéologie religieuse autochtone.

Attributes: Université de Saint-Boniface, Social Science

ANTH 2101 Introduction à l'archéologie 3 cr

Introduction générale à l'étude des principes de l'archéologie et à l'analyse et l'interprétation des matériaux et artefacts rencontrés dans les études en archéologie. On ne peut se faire créditer ANTH 2101 et ANTH 2100.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans ANTH 1210 ou ANTH 1211, ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: ANTH 2100

ANTH 2381 Arts, symboles et cultures 3 cr

Étude des contextes sociaux et des fonctions des comportements artistiques et symboliques humains dans une perspective comparative. On ne peut se faire créditer ANTH 2381 et ANTH 2380.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans un de ANTH 1221, ANTH 1220, ANTH 1520, ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: ANTH 2380

Attributes: Université de Saint-Boniface, Social Science

ANTH 2551 Culture et l'individu 3 cr

Étude des corrélations entre le cycle de vie, les fonctions et dysfonctions psychologiques, et les institutions sociales et culturelles. Accent mis sur les rituels d'enculturation et du cycle de vie. On ne peut se faire créditer ANTH 2551 et ANTH 2550.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans un de ANTH 1221, ANTH 1220, ANTH 1520, ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: ANTH 2550

Attributes: Université de Saint-Boniface, Social Science

ANTH 2861 Évolution et diversité humaine 3 cr

Une introduction à l'étude de l'interaction des rôles de l'hérédité, de la culture et de l'environnement dans les diverses populations du genre humain et introduction aux principes biologiques de base expliquant les variations des populations humaines. On ne peut se faire créditer ANTH 2861 et ANTH 2860.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans ANTH 1211 ou ANTH 1210, ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: ANTH 2860

ANTH 3321 Femmes, sociétés et cultures 3 cr

Étude critique des rôles de la femme selon une approche interculturelle à partir d'analyses ethnographiques des sociétés et des cultures africaines, amérindiennes et asiatiques. On ne peut se faire créditer ANTH 3321 et l'ANTH 3320.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : [une note minimale de C dans un des cours suivants : ANTH 1221 ou ANTH 1220 ou ANTH 1520] ou l'autorisation écrite du professeur.

Equiv To: ANTH 3320

Attributes: Université de Saint-Boniface, Social Science

ANTH 3381 Problèmes sociaux contemporains et l'anthropologie 3 cr

Étude de la pauvreté, de la responsabilité sociale, du colonialisme, du racisme, de l'éducation, de la dégradation de l'écologie et de la violence du point de vue anthropologique. On ne peut se faire créditer ANTH 3381 et ANTH 3380.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: (une note minimale de C dans ANTH 2000 ou ANTH 2001 et un cours de 3 crédits parmi ANTH 2020, ANTH 2530, ou ANTH 2831) ou (une note minimale de C dans l'ancien ANTH 2390 ou ANTH 2391), ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: ANTH 3380

Attributes: Université de Saint-Boniface, Social Science

ANTH 3461 Ethnologie des Amérindiens de l'Amérique du Nord 3 cr
Études ethnographiques et ethnologiques de quelques sociétés amérindiennes de l'Amérique du Nord. On étudiera aussi les changements survenus depuis les premiers contacts. L'étudiant(e) ne peut se faire créditer à la fois le ANTH 3461 et le ANTH 3460.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : [une note minimale de C dans un des cours suivants : ANTH 1220 ou ANTH 1221 ou ANTH 1520] ou l'autorisation écrite du professeur.

Equiv To: ANTH 3460

Attributes: Université de Saint-Boniface, Social Science

ANTH 3471 Histoire de la pensée anthropologique 3 cr
Étude du développement des principaux paradigmes des courants théoriques et méthodologiques en anthropologie. L'étudiant(e) ne peut se faire créditer à la fois le ANTH 3471 et le ANTH 3470.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans [ANTH 2000 ou ANTH 2001 + un cours de 3 cr.hrs. de niveau 2000 du groupe B] ou [l'ancien ANTH 2391 ou l'ancien ANTH 2390] ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: ANTH 3470

Attributes: Université de Saint-Boniface, Social Science

ANTH 3501 Peuples de l'Arctique 3 cr
Étude ethnographique des peuples autochtones des régions circumpolaires d'Asie, d'Amérique du Nord et du Groënland, avec une attention spéciale portée aux situations causées par différents contacts culturels. L'étudiant(e) ne peut se faire créditer à la fois le ANTH 3501 et le ANTH 3500.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : [une note minimale de C dans un des cours suivants : ANTH 1220 ou ANTH 1221 ou ANTH 1520] ou l'autorisation écrite du professeur.

Equiv To: ANTH 3500

Attributes: Université de Saint-Boniface, Social Science

ANTH 3531 Peuples d'Amérique du Sud 6 cr
Étude de certaines cultures sudaméricaines, notamment celles des Andes, de l'Amazonie et de la Patagonie, Seront analysées les premières civilisations de même que l'adaptation des autochtones à la société contemporaine.

Attributes: Université de Saint-Boniface, Social Science

ANTH 3551 Sous-cultures canadiennes 3 cr
Étude anthropologique de la communauté, de l'ethnicité et du statut social dans la société canadienne. On ne peut se faire créditer ANTH 3551 et ANTH 3550.

Equiv To: ANTH 3550

Attributes: Université de Saint-Boniface, Social Science

ANTH 3751 Globalisation et mondialisation: Une perspective anthropologique 3 cr
Perspective anthropologique sur la mondialisation et sur l'expansion du capitalisme dans les zones périphériques du monde. Étude de la transformation des sociétés et cultures autochtones; de l'émergence des conflits ethniques; et de la résistance. Approche comparative de processus transnationaux et globaux particuliers. L'étudiant(e) ne peut se faire créditer à la fois le ANTH 3751 et le ANTH 3750.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans ANTH 2000 ou ANTH 2001 ou ANTH 1220 ou ANTH 1221 ou ANTH 1520 ou l'ancien ANTH 2390 ou l'ancien ANTH 2391 ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: ANTH 3750

Attributes: Université de Saint-Boniface, Social Science

ANTH 3811 Anthropologie des systèmes de croyances 3 cr
Étude comparative des systèmes de croyances, de rites sacrés et de cérémonies dans les sociétés et les cultures du monde. On ne peut se faire créditer ANTH 3811 et ANTH 3810.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : [une note minimale de C dans un des cours suivants : ANTH 1221 ou ANTH 1220 ou ANTH 1520] ou l'autorisation écrite du professeur.

Equiv To: ANTH 3810

Attributes: Université de Saint-Boniface, Social Science

ANTH 3971 Ethnographie régionale 3 cr
Survol ethnographique de la culture d'une aire géographique d'intérêt pour le département ou l'étudiant. Le contenu variera d'année en année alors l'étudiant(e) peut se faire créditer ce cours plus d'une fois. On ne peut se faire créditer ANTH 3971 et ANTH 3970.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans un des cours suivants : ANTH 1220, ANTH 1221, ANTH 1520, ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: ANTH 3970

Attributes: Université de Saint-Boniface, Social Science

Arts Interdisciplinary (ARTS)

ARTS 1111 Introduction aux études universitaires (3) 3 cr
Cours offert sous forme de séminaires dont le but est de faciliter la transition vers l'université. Développement des connaissances, des compétences et des attitudes nécessaires pour bien réussir les études universitaires. Il y a un maximum de 30 inscriptions par section. On ne peut se faire créditer à la fois ARTS 1111 et ARTS 1110. Ce cours est offert uniquement aux étudiants qui ont complété moins de 60 crédits.

Equiv To: ARTS 1110

ARTS 4011 Expérience de culmination: stage 3 cr
Stage en milieu de travail. Activité de fin d'études qui permet d'intégrer les connaissances, de parfaire les compétences fondamentales et d'acquérir une expérience de la pratique professionnelle.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : avoir complété au moins 45 crédits avec une moyenne minimale de 3 et l'autorisation écrite du décanat.

ARTS 4013 Expérience de culmination: mémoire 3 cr

Mémoire de baccalauréat. Activité de fin d'études qui permet d'intégrer les connaissances, de parfaire les compétences fondamentales et d'acquies une expérience de la pratique érudite.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: avoir complété au moins 45 crédits avec une moyenne minimale de 3 et l'autorisation écrite du décanat.

ARTS 4015 Expérience de culmination: projet d'équipe 3 cr

Projet d'équipe portant sur une étude de cas réel. Activité de fin d'études qui permet d'intégrer les connaissances, de parfaire les compétences fondamentales et d'acquies une expérience de la pratique professionnelle ou érudite.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: avoir complété au moins 45 crédits avec une moyenne minimale de 3 et l'autorisation écrite du décanat.

Biological Sciences (BIOL)

BIOL 1001 Biologie : Les fondements de la vie 3 cr

Étude de certains principes unificateurs de la vie. Attention particulière à la biologie cellulaire, à la bioénergétique, à la division cellulaire, à la génétique et à l'évolution. Ne peut être utilisé dans un programme de majeure ou de spécialisation. On ne peut se faire créditer BIOL 1001 et BIOL 1000, BIOL 1020 ou BIOL 1021.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : un de Mathématiques 40S (50%), MATH 0401 ou MSKL 0100.

Equiv To: BIOL 1000

Mutually Exclusive: BIOL 1020, BIOL 1021

Attributes: Université de Saint-Boniface, Science, Recommended Intro Courses

BIOL 1011 Biologie : La diversité biologique et ses interactions 3 cr

Introduction à la diversité (les procaryotes, les protistes, les champignons, les plantes et les animaux), à la forme et à la fonction des plantes et des animaux ainsi qu'aux principaux concepts de l'écologie. Ne peut être utilisé dans un programme de majeure ou de spécialisation. On ne peut se faire créditer BIOL 1011 et BIOL 1010, BIOL 1030 ou BIOL 1031.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : un de Mathématiques 40S (50%), MATH 0401 ou MSKL 0100.

Equiv To: BIOL 1010

Mutually Exclusive: BIOL 1030, BIOL 1031

Attributes: Université de Saint-Boniface, Science, Recommended Intro Courses

BIOL 1021 Biologie I: Thèmes et Principes 3 cr

(Laboratoire requis) Les principes unificateurs à la base de la biologie dont la biologie cellulaire, la bioénergétique, la division cellulaire, la génétique et l'évolution. Pour ceux et celles qui veulent suivre un programme de sciences biologiques avec majeure ou spécialisation. On ne peut se faire créditer BIOL 1021 et BIOL 1020, BIOL 1001, BIOL 1000 ou BIOL 2590. Si BIOL 1001 (BIOL 1000) sert de préalable à BIOL 1021 (BIOL 1020), on ne peut se faire créditer BIOL 1001 et BIOL 1021 dans le cadre d'un même programme.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [Biologie 40S (50%)], [un de Mathématiques 40S (50%), MATH 0401 ou MSKL 0100] et [un de Chimie 40S (50%), CSKL 0100, Physique 40S (50%) ou PSKL 0100]; ou BIOL 1001 ou BIOL 1000.

Equiv To: BIOL 1020

Mutually Exclusive: BIOE 2590, BIOL 1000, BIOL 1001

Attributes: Université de Saint-Boniface, Science

BIOL 1031 Biologie II : Diversité biologique, fonction et interaction 3 cr

(Laboratoire requis) Introduction à la biodiversité dont les eucaryotes, les protistes, les champignons, les plantes et les animaux, la forme et la fonction des plantes et des animaux et les principes de base de l'écologie. Pour ceux et celles qui veulent suivre un programme de sciences biologiques avec majeure ou spécialisation. On ne peut se faire créditer BIOL 1031 et BIOL 1030, BIOL 1011, BIOL 1000 ou BIOE 2590. Note : BIOL 1031 est préalable aux cours de biochimie (CHEM 2361) et aux cours plus avancés de microbiologie, et à la plupart des cours de sciences biologiques. Il prépare aussi aux études en agriculture, en sciences alimentaires, en dentisterie, en écologie humaine, en médecine, en optométrie, en pharmacie, en sciences vétérinaires, en éducation physique et en sciences.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans BIOL 1021 ou BIOL 1020.

Equiv To: BIOL 1030

Mutually Exclusive: BIOE 2590, BIOL 1010, BIOL 1011

Attributes: Université de Saint-Boniface, Science

BIOL 1411 Anatomie du corps humain 3 cr

(Labo requis) Discussions sur la micro-anatomie et la macro-anatomie incluant les changements qui se produisent de la conception à la vieillesse. Bien que ce cours fasse partie des cours au choix dans un programme en arts ou en sciences, il ne peut rencontrer les exigences de la spécialisation ni du programme de majeure en sciences biologiques. Aucun préalable n'est requis pour ce cours mais le cours de biologie du niveau secondaire est vivement recommandé. On ne peut se faire créditer BIOL 1411 et BIOL 1410.

Attributes: Université de Saint-Boniface

BIOL 1413 Physiologie du corps humain 3 cr

(Laboratoire requis) Étude des fonctions de tous les systèmes ainsi que des mécanismes de normalisation homéostatique. Bien que ce cours fasse partie des cours au choix dans un programme en arts ou en sciences, il ne peut satisfaire aux exigences de la spécialisation ni du programme de majeure en sciences biologiques. On ne peut se faire créditer BIOL 1413 et BIOL 1412, BIOL 2411 (BIOL 2410) ou BIOL 2421 (BIOL 2420). Ce préalable ne s'applique pas au programme de baccalauréat en sciences infirmières.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans BIOL 1411 ou BIOL 1410; ou une note minimale de C dans BIOL 1031 ou BIOL 1030.

Equiv To: BIOL 1412

Mutually Exclusive: BIOL 2410, BIOL 2411

Attributes: Université de Saint-Boniface

BIOL 2201 Les invertébrés 3 cr

(Laboratoire requis) Étude phylogénétique et biologique des invertébrés insistant sur les taxa et les groupes qui ont une importance phylogénétique particulière. On ne peut se faire créditer BIOL 2201 et BIOL 2200.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans BIOL 1031 ou BIOL 1030.

Equiv To: BIOL 2200, ZOO 2600, ZOO 2601

Attributes: Université de Saint-Boniface

BIOL 2231 L'évolution et la structure morphologique des chordés 6 cr

(Laboratoire requis) Étude de l'histoire évolutive de la structure et des adaptations des chordés basée sur les animaux fossilisés et sur les animaux vivants. Établissement des bases pour l'étude des groupes majeurs de chordés. On ne peut se faire créditer BIOL 2231 et BIOL 2210.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans BIOL 1031 ou BIOL 1030.

Mutually Exclusive: BIOL 2210

BIOL 2261 Les champignons et les lichens 3 cr

(Laboratoire requis) Introduction aux champignons et aux lichens. L'accent est mis sur les groupes taxinomiques majeurs, leur organisation et leurs structures, leurs cycles de vie, leur identification et leur importance écologique générale. On ne peut se faire créditer BIOL 2261 et BIOL 2260 ou l'ancien BOTN 2210.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : BIOL 1031 ou BIOL 1030.

Equiv To: BOTN 2210, BOTN 2260

Attributes: Université de Saint-Boniface

BIOL 2381 Introduction à la toxicologie 3 cr

Survot des principes généraux à la base des effets des substances toxiques sur les systèmes biologiques, tout en prenant en considération l'histoire, l'étendue et les applications de la toxicologie, les mécanismes d'action des toxines et certains types majeurs de toxines. On ne peut se faire créditer BIOL 2381 et BIOL 2380, ENVR 2180, ENVR 2190, AGRI 2180, AGRI 2190 (ou les anciens BIOL 2382).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [BIOL 1031 ou BIOL 1030] et [(CHEM 1101 ou CHEM 1100 et un de CHEM 1111, CHEM 1110, CHEM 1121, CHEM 1120, CHEM 1126 ou CHEM 1130) ou (un des anciens CHEM 1311, CHEM 1310 ou CHEM 1320)].

Equiv To: AGRI 2180, BIOL 2380, BOTN 2180, ENVR 2180, ZOO 2180

Mutually Exclusive: AGRI 2190, BIOL 2382, BOTN 2190, ENVR 2190, ZOO 2190

Attributes: Université de Saint-Boniface

BIOL 2411 Physiologie du corps humain 1 3 cr

Étude des principaux mécanismes de contrôle du corps (systèmes nerveux et endocrinien) ainsi que des systèmes musculaire et reproducteur. On ne peut se faire créditer BIOL 2411 et BIOL 2410 ou BIOL 3460.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans BIOL 1031 ou BIOL 1030 ou dans BIOL 1413 ou BIOL 1412 ou une note minimale de C+ dans BIOL 1001 ou BIOL 1000 et dans BIOL 1011 ou BIOL 1010.

Equiv To: BIOL 2410, ZOO 2530, ZOO 2531

Mutually Exclusive: BIOL 1412, BIOL 1413, BIOL 3460, ZOO 1330, ZOO 3530

Attributes: Université de Saint-Boniface

BIOL 2421 Physiologie du corps humain 2 3 cr

Étude de la régulation homéostatique par les systèmes effecteurs du corps (cardiovasculaire, respiratoire, digestif, rénal et immunitaire). On ne peut se faire créditer BIOL 2421 et BIOL 2420.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de D dans BIOL 2411 ou BIOL 2410 ou un D dans BIOL 3460 ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: BIOL 2420, ZOO 2541

Attributes: Université de Saint-Boniface

BIOL 2501 Génétique 1 3 cr

(Laboratoire requis) Principes de l'hérédité, de la gamétogénèse et des fondements cytologiques de la transmission héréditaire chez les plantes et les animaux. Concepts de dominance et d'interaction génétique, de détermination du sexe, de la transmission des caractères liés au sexe et des gènes liés, variations chromosomiques, génétique des populations et code génétique. NOTE : Ce cours ne peut pas être reconnu en microbiologie (MBO). On ne peut se faire créditer BIOL 2501 et BIOL 2500 ou PLNT 2520.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans BIOL 1031 ou BIOL 1030.

Equiv To: BIOL 2500, BOTN 2461

Mutually Exclusive: MBO 1410

Attributes: Université de Saint-Boniface

BIOL 2521 Biologie cellulaire 3 cr

Étude de la fonction des organites cellulaires conjointement avec leur structure microscopique ou leur ultrastructure, en insistant sur l'ensemble de la vie cellulaire en tant que système dynamique. On ne peut se faire créditer BIOL 2521 et BIOL 2520.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans BIOL 1031 ou BIOL 1030.

Equiv To: BIOL 2520, ZOO 2280, ZOO 2281

Attributes: Université de Saint-Boniface

BIOL 3291 Plantes médicinales et hallucinogènes 3 cr

Survot botanique et historique des plantes médicinales, hallucinogènes et toxiques utilisées dans diverses cultures. On ne peut se faire créditer BIOL 3291 et BIOL 3290.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : Minimum de 30 heures crédits universitaires ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: BIOL 3290

Attributes: Université de Saint-Boniface

BIOL 3301 Biologie évolutive 3 cr

(Laboratoire requis) Introduction aux sujets principaux et aux méthodes de recherche en biologie évolutive. Les sujets incluent : génétique évolutive, adaptation, spéciation et reconstruction de l'histoire de l'évolution. On ne peut se faire créditer BIOL 3301 et BIOL 3300.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de C dans BIOL 2501, BIOL 2500 ou PLNT 2520 et un de BIOL 2240, BIOL 2261, BIOL 2260, BIOL 3260, BIOL 2210, BIOL 2231, BIOL 2201 ou BIOL 2200 avec une note minimale de C, ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: BIOL 3300, BOTN 3001, ZOO 3001

Attributes: Université de Saint-Boniface

Canadian Studies St. Boniface (CDSB)

CDSB 7011 Le Canada: Peuple et Territoire 6 cr

Le Canada se définit par son vaste territoire et son extraordinaire diversité sociale et économique. Étude de la présence millénaire des divers groupes autochtones; le dualisme canadien; l'immigration massive menant à la création d'une société multiculturelle et multilingue; les régionalismes; la situation de la femme canadienne; l'évolution du fédéralisme canadien; l'état de la famille canadienne et ses variantes régionales et de certains autres thèmes pertinents.

Equiv To: CDSB 7010

CDSB 7021 Le Canada : Identités, mythes, images 6 cr

Exploration en profondeur des diverses identités canadiennes en tentant de suivre l'évolution des images que les Canadiennes et les Canadiens se sont faites d'eux-mêmes au cours des siècles. Examen des mythes qui se sont développés chez les divers peuples canadiens depuis les débuts en retraçant leurs racines dans un passé plus ou moins lointain. Examen de l'historiographie nationale comme élément qui façonne l'identité canadienne.

Equiv To: CDSB 7020

CDSB 7031 Problèmes méthodologiques en études canadiennes 3 cr

Cours qui aide à définir et à mener à terme un mémoire de maîtrise ou tout autre travail de recherche majeur en études canadiennes. Accent sur les approches interdisciplinaires appliquées aux problèmes canadiens et l'élaboration d'une recherche concrète dans ce domaine. Cette recherche peut être le mémoire de maîtrise.

Equiv To: CDSB 7030

CDSB 7041 Textes canadiens de base 3 cr

Un certain nombre d'oeuvres sont indispensables à une connaissance approfondie du Canada. Familiarisation avec le plus grand nombre d'oeuvres possibles tirées de ce " canon "; évaluation de ces oeuvres de façon critique. On aura à présenter virtuellement une analyse critique d'une demi-douzaine d'oeuvres canadiennes, choisies en consultation avec la personne responsable du cours.

Equiv To: CDSB 7040

CDSB 7061 Peuples autochtones du Canada : Amérindiens, Inuit et Métis 3 cr

Ce cours en ligne permettra de saisir la diversité des peuples autochtones du Canada, de comprendre les défis auxquels ils font face et d'analyser les rapports qu'ils entretiennent avec les autres composantes de la société canadienne et le reste du monde. L'accent sera mis sur leurs aspirations, leurs perspectives, leurs revendications, leurs réussites et leur contribution à la formation de l'identité canadienne.

CDSB 7073 Sujet choisi en études canadiennes et interculturelle 3 cr

Étude d'un thème choisi en études canadiennes et interculturelles. Le contenu variera d'année en année. On peut se faire créditer CDSB 7073 plus d'une fois à condition que le sujet particulier ne soit pas le même.

CDSB 7081 Droits de la personne et histoire sociale au Canada 3 cr

Ce cours en ligne propose une approche interdisciplinaire qui permettra de saisir les enjeux sociaux, culturels, économiques et politiques qui jalonnent l'histoire de la reconnaissance et de l'exercice des droits de la personne dans la société canadienne. La reconnaissance et l'exercice des droits de la personne, plus particulièrement au Canada, seront abordés dans la perspective de leur impact social tout au long de cette évolution.

CDSB 7171 La Charte canadienne des droits et libertés 3 cr

Une étude systématique des droits et libertés garantis par la Charte à travers les jugements de la Cour intellectuelle de la protection des droits au Canada, ainsi qu'un survol des lois canadiennes relatives aux droits de la personne. Cours à double cote avec POLS 3171. On ne peut se faire créditer CDSB 7171 et POLS 3171.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : Une moyenne de « B » dans 120 crédits universitaires et l'approbation écrite du professeur.

CDSB 7173 Le Canada dans le système mondial 3 cr

Aperçu du rôle et d'influence de l'État canadien au sein du système mondial depuis la Deuxième Guerre mondiale. Analyse des grandes mutations du système mondial et leurs effets sur la formulation et la conduite de la politique étrangère et de la défense canadienne. La participation canadienne au sein des institutions et forums multilatéraux en relation avec le processus de mondialisation. Cours à double cote avec POLS 3563. On ne peut se faire créditer CDSB 7173 et POLS 3563, POLS 3560 ou POLS 3561.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : Une moyenne de B dans 120 crédits universitaires et l'autorisation écrite du professeur.

CDSB 7271 Studies in Canadian Literature 3 cr

Study of a selection of contemporary works of historical fiction from Canada. Analysis of the ways in which history, narrative and the nation interconnect. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different. Cross-listed with ENGL 3271. CDSB 7271 may not be held with ENGL 3271.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of instructor.

Chemistry (CHEM)

CHEM 1101 Structures atomiques et moléculaires, et énergie chimique 3 cr

Consolidation des concepts chimiques fondamentaux appris au secondaire. Description plus approfondie du tableau périodique des éléments, de la nature de l'énergie en chimie, des structures atomiques et moléculaires, et des concepts de réactivité chimique. On ne peut se faire créditer CHEM 1101 et CHEM 1100 (ou les anciens CHEM 1301, CHEM 1300).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [un de Chimie 40S (50%), CSKL 0100 (P) ou l'ancien CHEM 0900 (P)] et [un de Mathématiques appliquées 40S (SO %), Mathématiques pré-calcul 40S (50%), MATH 0401, l'ancien Mathématiques 40S (300) (50%) ou MSKL 0100 (C)].

Equiv To: CHEM 1100

Mutually Exclusive: CHEM 1018, CHEM 1300, CHEM 1301

Attributes: Université de Saint-Boniface, Science, Recommended Intro Courses

CHEM 1111 Interaction, réactivité et propriétés chimiques 3 cr

Consolidation des concepts chimiques fondamentaux appris au secondaire. Descriptions plus approfondies de la réactivité chimique et des propriétés physiques de la matière. On ne peut se faire créditer CHEM 1111 et CHEM 1110 (ou les anciens CHEM 1311, CHEM 1310).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : un de CHEM 1101 ou CHEM 1100 ou un des anciens (CHEM 1301 ou CHEM 1300).

Equiv To: CHEM 1110

Mutually Exclusive: CHEM 1310, CHEM 1311

Attributes: Université de Saint-Boniface, Science, Recommended Intro Courses

CHEM 1121 Introduction aux techniques chimiques 3 cr

(Laboratoire autonome) perfectionnement des compétences en matière d'observations, de manipulation sécuritaire de produits chimiques, de manipulation d'équipement de laboratoire, d'analyses quantitatives, de traitements de données et de communication scientifique. Démonstration de l'importance de la chimie pour la société via une introduction aux concepts de développement durable, à la sécurité chimique et aux différentes applications de la chimie. On ne peut se faire créditer CHEM 1121 et CHEM 1120 ou CHEM 1122 ou CHEM 1126 ou les anciens CHEM 1311 et CHEM 1310.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [Chimie 40S (70%) et (un de Mathématiques pré-calcul 40S (70%), Mathématiques appliquées 40S (70%) ou MSKL 0100 (B))] ou [un de CHEM 1101, CHEM 1100, CSKL 0100 (P) ou un des anciens [CHEM 1301, CHEM 1300, ou CHEM 0900 (P)]].

Equiv To: CHEM 1120

Mutually Exclusive: CHEM 1122, CHEM 1126, CHEM 1310, CHEM 1311

Attributes: Université de Saint-Boniface, Science, Recommended Intro Courses

CHEM 2101 Chimie organique 1 : Principes de la chimie organique 3 cr

Introduction aux concepts de liaisons et de réactivité chez les molécules organiques. Propriétés et préparation des composés organiques renfermant un groupe fonctionnel. On ne peut se faire créditer CHEM 2101 et CHEM 2100, CHEM 1130 ou (les anciens CHEM 2211, CHEM 2210, CHEM 1320).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : [(CHEM 1111 ou CHEM 1110) et un de (CHEM 1121, CHEM 1120, CHEM 1126)] ou un des anciens [CHEM 1311, CHEM 1310].

Equiv To: CHEM 2100

Mutually Exclusive: CHEM 1130, CHEM 1320, CHEM 2210, CHEM 2211

Attributes: Université de Saint-Boniface, Science

CHEM 2111 Chimie organique 2 : Principes de la synthèse organique 3 cr

Introduction à la réactivité des composés organiques et aux stratégies de synthèse. L'application de l'interchangeabilité des groupes fonctionnels dans la synthèse des composés sera examinée. On ne peut se faire créditer CHEM 2111 et CHEM 2110 (ou les anciens CHEM 2221, CHEM 2220).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : CHEM 2101 ou CHEM 2100 ou un des anciens (CHEM 2211 ou CHEM 2210).

Equiv To: CHEM 2110

Mutually Exclusive: CHEM 2220, CHEM 2221

Attributes: Université de Saint-Boniface, Science

CHEM 2123 Chimie organique expérimentale 3 cr

(Laboratoire autonome) introduction aux méthodes de synthèses organiques, aux techniques de purification et aux analyses de produits. Les théories et les applications de la spectroscopie IR et RMN du ¹H et du ¹³C en chimie organique seront présentées. Développement des compétences en communication scientifique par l'entremise de diverses plateformes médiatiques ainsi que d'aptitudes pour la littérature chimique. On ne peut se faire créditer CHEM 2123 et CHEM 2122 (ou les anciens CHEM 2221, CHEM 2220).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [(CHEM 1111 ou CHEM 1110) et (un de CHEM 1121, CHEM 1120 ou CHEM 1126)] ou un des anciens (CHEM 1311, CHEM 1310).

Equiv To: CHEM 2122

Mutually Exclusive: CHEM 2220, CHEM 2221

Attributes: Université de Saint-Boniface, Science

CHEM 2301 Chimie inorganique 1 : Structure et applications 3 cr

Revue de la liaison chimique, de la structure et de la réactivité à travers le tableau périodique des éléments à partir d'exemples liant la chimie inorganique à la science des matériaux et à la biochimie. Aperçu des tendances périodiques et de leurs relations avec certaines propriétés des éléments, de la liaison chimique et de la réactivité de certains composés et matériaux inorganiques, accompagné d'applications variées de la chimie inorganique. On ne peut se faire créditer CHEM 2301 et CHEM 2300 (ou les anciens CHEM 2381, CHEM 2380, CHEM 2401, CHEM 2400).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [(CHEM 1111 ou CHEM 1110) et (un de CHEM 1121, CHEM 1120 ou CHEM 1126)] ou [(un des anciens CHEM 1311 ou CHEM 1310)].

Equiv To: CHEM 2300

Mutually Exclusive: CHEM 2380, CHEM 2381, CHEM 2400, CHEM 2401

Attributes: Université de Saint-Boniface, Science

CHEM 2511 Introduction à la chimie analytique 3 cr

Un cours de chimie analytique quantitative fournit une formation utile à presque tous les scientifiques. Ce cours outille les étudiants et étudiantes avec les principes théoriques à la base des méthodes analytiques, avec l'habilité de planifier et d'exécuter des expériences et ensuite d'interpréter les résultats. On ne peut se faire créditer CHEM 2511 et CHEM 2510 (ou les anciens CHEM 2471 et CHEM 2470).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [(CHEM 1111 ou CHEM 1110) et un de (CHEM 1121, CHEM 1120 ou CHEM 1126)] ou [un des anciens (CHEM 1311 ou CHEM 1310)].

Equiv To: CHEM 2510

Mutually Exclusive: CHEM 2470, CHEM 2471

Attributes: Université de Saint-Boniface, Science

CHEM 2521 Introduction aux techniques de la chimie analytique 2 cr

Introduction aux techniques traditionnelles et classiques d'analyses chimiques. Les expériences mettront l'emphase sur les déterminations quantitatives à l'aide de méthodes gravimétrique, titrimétrique et spectrophotométrique. On ne peut se faire créditer CHEM 2521 et CHEM 2520 (ou les anciens CHEM 2471 et CHEM 2470).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [(CHEM 1111 ou CHEM 1110) et (un de CHEM 1121, CHEM 1120 ou CHEM 1126)] ou (un des anciens CHEM 1311 ou CHEM 1310)].

Equiv To: CHEM 2520

Mutually Exclusive: CHEM 2470, CHEM 2471

Attributes: Université de Saint-Boniface, Science

CHEM 2523 Complément de techniques de la chimie analytique 1 cr

(Laboratoire autonome) activités de laboratoire en complément de CHEM 2521. Introduction pratique à des instruments choisis de la chimie analytique moderne. Applications de la chimie analytique à l'analyse environnementale, à la chimie alimentaire et aux domaines industriels et pharmaceutiques. Emphase sur la préparation des échantillons, les méthodes de calibration, le fonctionnement des instruments et l'interprétation des données. On ne peut se faire créditer CHEM 2523 et CHEM 3520 ou ENVR 3550 ou l'ancien CHEM 3590.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [(CHEM 1111 ou CHEM 1110) et (un de CHEM 1121, CHEM 1120 ou CHEM 1126)] ou (un des anciens CHEM 1311 ou CHEM 1310)]. Préalable ou corequis : CHEM 2521 ou CHEM 2520.

Mutually Exclusive: CHEM 3520, CHEM 3590, ENVR 3550

Attributes: Université de Saint-Boniface, Science

CHEM 2601 Chimie physique 1 3 cr

Introduction aux principes théoriques de la spectroscopie atomique et moléculaire et leurs applications à l'étude des propriétés chimiques et physiques à l'échelle microscopique. Exploration des spectroscopies ultraviolet et visible, de vibration, de rotation et de résonance magnétique nucléaire. On ne peut se faire créditer CHEM 2601 et CHEM 2600 (ou les anciens CHEM 2261, CHEM 2260, CHEM 2281 et CHEM 2280).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [(CHEM 1111 ou CHEM 1110) et (un de CHEM 1121, CHEM 1120 ou CHEM 1126)] ou (un des anciens CHEM 1311 ou CHEM 1310)] et [(un de MATH 1230, MATH 1501, MATH 1500, MATH 1510, MATH 1520) ou (un des anciens MATH 1530 ou MATH 1690)].

Equiv To: CHEM 2600

Mutually Exclusive: CHEM 2260, CHEM 2261, CHEM 2280, CHEM 2281

Attributes: Université de Saint-Boniface, Science

CHEM 2701 Biochimie I : molécules biochimiques et introduction à l'énergie métabolique 3 cr

Le cours vise à faire découvrir le fonctionnement de la cellule en examinant les composés biochimiques les plus importants - les protéines, les glucides, les acides nucléiques ainsi que les lipides. Une introduction à la bioénergétique sera faite en utilisant les concepts d'énergie libre, de catabolisme ainsi que d'ATP. Ce cours est aussi donné comme MBIO 2701. On ne peut se faire créditer CHEM 2701 et CHEM 2700, MBIO 2701, MBIO 2700, MBIO 2730, CHEM 2730, ou les anciens (MBIO 2361, MBIO 2360, CHEM 2361, CHEM 2360, MBIO 2770, CHEM 2770, CHEM 2860).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [un de [(CHEM 1111 ou CHEM 1110) et un de (CHEM 1121 ou CHEM 1120 ou CHEM 1126)] ou un des anciens (CHEM 1311 ou CHEM 1310)] et un de (BIOL 1031 ou BIOL 1030).

Equiv To: CHEM 2700, MBIO 2700, MBIO 2701

Mutually Exclusive: CHEM 2360, CHEM 2361, CHEM 2730, CHEM 2770, CHEM 2860, MBIO 2360, MBIO 2361, MBIO 2730, MBIO 2770

Attributes: Université de Saint-Boniface, Science

CHEM 2711 Biochimie II : catabolisme, synthèse et voies d'information 3 cr

Introduction aux processus métaboliques cellulaires de base incluant la production et l'utilisation de l'énergie moléculaire, la dégradation et la synthèse des molécules biochimiques, la synthèse de l'ADN, de l'ARN et des protéines et la régulation de ces processus. Ce cours est aussi donné comme MBIO 2711. On ne peut se faire créditer CHEM 2711 et CHEM 2710, MBIO 2711, MBIO 2710, CHEM 2750, MBIO 2750, ou les anciens (CHEM 2371, CHEM 2370, MBIO 2371, MBIO 2370, MBIO 2780, CHEM 2780).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [un de (CHEM 2701, CHEM 2700, MBIO 2701, MBIO 2700) ou un des anciens (MBIO 2361, MBIO 2360, CHEM 2361, CHEM 2360; CHEM 2860)] et [un de (CHEM 2101, CHEM 2100) ou un des anciens (CHEM 2211 ou CHEM 2210)].

Equiv To: CHEM 2710, MBIO 2710

Mutually Exclusive: CHEM 2370, CHEM 2371, CHEM 2750, CHEM 2780, MBIO 2370, MBIO 2371, MBIO 2750, MBIO 2780

Attributes: Université de Saint-Boniface, Science

CHEM 2721 Principes et techniques de laboratoire en biochimie moderne 3 cr

Le cours va fournir une introduction aux idées théoriques et pratiques des techniques utilisées dans le laboratoire de biochimie moderne. On ne peut pas se faire créditer CHEM 2721 et CHEM 2720, CHEM 2740, ou les anciens (CHEM 2371, CHEM 2370, CHEM 2780, MBIO 2371, MBIO 2370, MBIO 2780).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : un de (CHEM 1111 ou CHEM 1110) et un de (CHEM 1121, CHEM 1120 ou CHEM 1126) (ou les anciens CHEM 1311 ou CHEM 1310). Ce cours peut être utilisé pour "Advanced Level Science requirements" en Chimie ou Microbiologie.

Mutually Exclusive: CHEM 2370, CHEM 2371, CHEM 2740, CHEM 2780, MBIO 2370, MBIO 2371, MBIO 2780

Attributes: Université de Saint-Boniface, Science

CHEM 3331 Applications de la spectroscopie en chimie inorganique 3 cr

Introduction à la synthèse et à la purification de composés inorganiques, et étude de leurs propriétés à l'aide de techniques spectroscopiques. Les expériences fourniront une formation solide de base dans les aspects théorique et pratique des spectroscopies UV-Vis, IR et RMN 1H et 13C tel qu'appliquées à la chimie inorganique. On ne peut se faire créditer CHEM 3331 et CHEM 3320 ou CHEM 3620 ou (les anciens CHEM 3380 et CHEM 3400).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [(CHEM 2123, CHEM 2122, CHEM 2601 ou CHEM 2600) ou (un des anciens CHEM 2221, CHEM 2220, CHEM 2261, CHEM 2260, CHEM 2281 ou CHEM 2280)]. Préalable ou corequis : [(CHEM 2301 ou CHEM 2300) ou (un des anciens CHEM 2381, CHEM 2380, CHEM 2401 ou CHEM 2400)].

Mutually Exclusive: CHEM 3320, CHEM 3380, CHEM 3400, CHEM 3620

Attributes: Université de Saint-Boniface, Science

CHEM 3701 Chimie biophysique 3 cr

Application de la chimie physique aux problèmes biologiques avec l'accent sur l'interprétation quantitative. Les sujets comprennent la cinétique enzymatique, la bioénergétique, les processus de transport ainsi que la spectroscopie. On ne peut se faire créditer CHEM 3701 et CHEM 3700 (ou les anciens CHEM 3571, CHEM 3570).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [un de (CHEM 2701, CHEM 2700, MBIO 2701, ou MBIO 2700) ou un des anciens (CHEM 2361, CHEM 2360, CHEM 2860, MBIO 2361 ou MBIO 2360)] et [un de MATH 1230, MATH 1501, MATH 1500, MATH 1510, MATH 1520].

Equiv To: CHEM 3700

Mutually Exclusive: CHEM 3570, CHEM 3571

Attributes: Université de Saint-Boniface, Science

CHEM 3761 Laboratoire avance de biochimie 4 cr

(Laboratoire autonome) cours axé sur le laboratoire qui présente des méthodes avancées de purification et d'analyse structurale et fonctionnelle de biomolécules importantes. On ne peut se faire créditer CHEM 3761 et CHEM 3760 (ou l'ancien CHEM 4700).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [un de (CHEM 2711, CHEM 2710, MBIO 2711, MBIO 2710) et un de (CHEM 2721, CHEM 2720)] ou [un des anciens CHEM 2371, CHEM 2370, MBIO 2371, MBIO 2370].

Equiv To: CHEM 3760

Mutually Exclusive: CHEM 4700

Attributes: Université de Saint-Boniface, Science

CHEM 4361 Signalisation et régulation de l'expression génétique 3 cr
Biochimie de la réponse cellulaire aux stimuli externes, en mettant l'accent sur les animaux. Les récepteurs à la surface des cellules, les ligands, la signalisation au noyau, la phosphorylation, la protéolyse, la transcription et les gradients dans le typage cellulaire. On ne peut se faire créditer CHEM 4361 et CHEM 4360.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : un de (CHEM 2711, CHEM 2710, MBIO 2711 ou MBIO 2710) ou un des anciens (CHEM 2371, CHEM 2370, MBIO 2371, MBIO 2370).

Equiv To: CHEM 4360

Attributes: Université de Saint-Boniface, Science

CHEM 4371 Glycobiologie et activation des protéines 3 cr

Le rôle des biomolécules contenant des glucides en biochimie et leur importance dans la connaissance des maladies génétiques. L'importance de la protéolyse limitée dans l'activation des biomolécules. On ne peut se faire créditer CHEM 4371 et CHEM 4370.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : un de (CHEM 2711, CHEM 2710, MBIO 2711 ou MBIO 2710) ou un des anciens (CHEM 2371, CHEM 2370, MBIO 2371, MBIO 2370).

Equiv To: CHEM 4370

Attributes: Université de Saint-Boniface, Science

CHEM 4621 Biochimie des acides nucléiques 3 cr

La structure des acides nucléiques; synthèse et détermination des séquences; interactions avec les protéines et les médicaments. On ne peut se faire créditer CHEM 4621 et CHEM 4620.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : un de (CHEM 2711, CHEM 2710, MBIO 2711 ou MBIO 2710) ou un des anciens (CHEM 2371, CHEM 2370, MBIO 2371, MBIO 2370).

Equiv To: CHEM 4620

Attributes: Université de Saint-Boniface, Science

CHEM 4631 Biochimie des protéines 3 cr

Les structures et fonctions des protéines, leurs propriétés physiques et chimiques et les méthodes utilisées pour les étudier. On ne peut se faire créditer CHEM 4631 et CHEM 4630.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : un de (CHEM 2711, CHEM 2710, MBIO 2711, MBIO 2710) ou (un des anciens CHEM 2371, CHEM 2370, MBIO 2371, MBIO 2370).

Equiv To: CHEM 4630

Attributes: Université de Saint-Boniface, Science

CHEM 4711 Projet de recherche en chimie ou biochimie 6 cr

Un projet de recherche dans n'importe quel aspect de la chimie ou de la biochimie, choisi en consultation avec l'administrateur du cours ou un superviseur approprié de la Faculté. Des rapports écrits et des présentations orales à la fin du projet seront nécessaires. Cours normalement offert seulement lors de leur dernière année du programme de chimie. On ne peut se faire créditer CHEM 4711 et CHEM 4710, MBIO 4531 ou MBIO 4530.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : autorisation écrite de la professeure ou du professeur.

Equiv To: CHEM 4710

Mutually Exclusive: BTEC 4000, MBIO 4530, MBIO 4531

Attributes: Université de Saint-Boniface, Science

Computer Science (COMP)

COMP 1011 Introduction à l'informatique I 3 cr

(Laboratoire requis) Introduction à la programmation par un langage procédural évolué. On ne peut se faire créditer COMP 1011 et COMP 1010, COMP 1013 ou COMP 1012.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : n'importe quel cours de mathématiques de 12e année ou de niveau 40S, ou l'équivalent.

Equiv To: COMP 1010

Mutually Exclusive: COMP 1012, COMP 1013

Attributes: Université de Saint-Boniface, Science, Recommended Intro Courses

COMP 1013 Programmation informatique pour scientifiques et ingénieurs 3 cr

(Laboratoire requis) Une introduction à la programmation informatique propre à la résolution de problèmes en science et en génie. Les étudiants développent des algorithmes pour le traitement numérique, l'analyse statistique et les opérations sur des matrices. On ne peut se faire créditer COMP 1013 et aucun des COMP 1012, COMP 1010, COMP 1011.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : Mathématiques 40S (précalcul) ou l'ancien Mathématiques 40S (300). Concomitant : MATH 1500 ou MATH 1501 (ou équivalent).

Equiv To: COMP 1012

Mutually Exclusive: COMP 1010, COMP 1011

Attributes: Université de Saint-Boniface

COMP 1021 Introduction à l'informatique II 3 cr

(Laboratoire requis) Introduction à la programmation orientée objet, aux structures de données informatiques et à l'algorithmique. On ne peut se faire créditer COMP 1021 et COMP 1020.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : [Une note minimale de C dans un de COMP 1011, COMP 1010, COMP 1013 ou COMP 1012] ou [Informatique 40S (75%) et n'importe quel cours de mathématiques de 12e année ou de niveau 40S, ou l'équivalent].

Equiv To: COMP 1020

Attributes: Université de Saint-Boniface, Science, Recommended Intro Courses

COMP 1261 Introduction aux services informatiques modernes I 3 cr

Le traitement de texte, les chiffriers, les systèmes pour la gestion de données et le traitement graphique. Aucune connaissance préalable en informatique n'est nécessaire. On ne peut s'y inscrire si on est inscrit à un programme de majeure ou de spécialisation en informatique.

Equiv To: COMP 1260

Attributes: Université de Saint-Boniface, Science, Recommended Intro Courses

COMP 2191 Introduction au calcul scientifique 3 cr

Informatique appliquée présentant des concepts tels que l'approximation par polynômes, la résolution d'équations non linéaires, les systèmes linéaires, la simulation et la géométrie analytique. On ne peut se faire créditer COMP 2191 et COMP 2190.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [une note minimale de C dans un de COMP 1021, COMP 1020, COMP 1013 ou COMP 1012] et [une note minimale de C dans un de MATH 1230, MATH 1501, MATH 1500, MATH 1510, MATH 1520 ou MATH 1690]. Préalable ou concomitant : un de MATH 1220, MATH 1301, MATH 1300 ou MATH 1310.

Equiv To: COMP 2190

Attributes: Université de Saint-Boniface, Science, Recommended Intro Courses

Economics (ECON)

ECON 1011 Introduction à la microéconomie 3 cr

Étude des principes de base de la microéconomie, plus particulièrement l'offre et la demande, la détermination des prix, les structures de marché, l'allocation des ressources, le comportement des consommateurs et des entreprises ainsi que quelques exemples d'interventions du gouvernement dans les marchés. Des sujets comme l'inégalité économique, l'équité, les effets externes, les biens collectifs ou autres enjeux politiques ou de microéconomie peuvent aussi être traités dans ce cours. On ne peut se faire créditer ECON 1011 et ECON 1201, ECON 1200, ECON 1211, ECON 1210, ECON 1221 ou ECON 1220.

Equiv To: ECON 1010

Mutually Exclusive: ECON 1200, ECON 1201, ECON 1210, ECON 1211, ECON 1220, ECON 1221

ECON 1021 Introduction à la macroéconomie 3 cr

Étude des principes de base de la macroéconomie, plus particulièrement l'offre et la demande agrégées, les indicateurs économiques que sont le chômage et l'inflation, le PIB et le niveau de vie, les finances publiques et la politique budgétaire, la monnaie et la politique monétaire. Quelques éléments de l'économie mondiale tels que taux de change et balance des paiements peuvent aussi être traités dans ce cours. On ne peut se faire créditer ECON 1021 et ECON 1201, ECON 1200, ECON 1211, ECON 1210, ECON 1221 ou ECON 1220.

Equiv To: ECON 1020

Mutually Exclusive: ECON 1200, ECON 1201, ECON 1210, ECON 1211, ECON 1220, ECON 1221

ECON 1211 Introduction aux politiques et aux problèmes économiques canadiens 3 cr

Une étude de principes majeurs qui sous-tendent et de certains facteurs qui influencent l'économie canadienne et de ses régions. L'étudiant(e) qui détient les crédits du ECON 1211 ne peut se faire créditer aucun des cours ECON 1210, l'ancien ECON 1200, l'ancien ECON 1201, ECON 1010, ECON 1020, ECON 1011 ou ECON 1021.

Equiv To: ECON 1210

Mutually Exclusive: ECON 1010, ECON 1011, ECON 1020, ECON 1021, ECON 1200, ECON 1201

Attributes: Université de Saint-Boniface, Social Science, Recommended Intro Courses

ECON 1221 Introduction aux politiques et aux problèmes économiques mondiaux 3 cr

Une étude de principes majeurs qui marquent l'économie mondiale et l'environnement. L'étudiant(e) qui détient les crédits du ECON 1221 ne peut se faire créditer aucun des cours ECON 1220, l'ancien ECON 1200, l'ancien ECON 1201, ECON 1010, ECON 1020, ECON 1011 ou ECON 1021.

Equiv To: ECON 1220

Mutually Exclusive: ECON 1010, ECON 1011, ECON 1020, ECON 1021, ECON 1200, ECON 1201

Attributes: Université de Saint-Boniface, Social Science, Recommended Intro Courses

ECON 2311 Problèmes économiques du Canada 6 cr

Application de la théorie économique aux problèmes actuels du Canada: les disparités régionales, l'agriculture, l'échange, la pratique concurrentielle, la propriété étrangère et l'éducation, etc. L'étudiant(e) ne peut se faire créditer à la fois le ECON 2311 et le ECON 2310.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans six heures-crédits au niveau 1000 en sciences économiques.

Equiv To: ECON 2310

Attributes: Université de Saint-Boniface, Social Science

ECON 2451 Théorie microéconomique et ses applications 1 3 cr

Théorie de la demande du consommateur, de la production et des coûts, de la demande des facteurs de production et de la structure des marchés dans une perspective historique et institutionnelle. L'étudiant(e) qui détient les crédits du ECON 2451 ne peut se faire créditer aucun des cours ECON 2450 ou ECON 2700.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: [une note minimale de C dans ECON 1010 ou ECON 1011 ou l'ancien ECON 1200 ou l'ancien ECON 1201] ou [une note minimale de C dans chacun de ECON 1210 (ou ECON 1211) et ECON 1220 (ou ECON 1221)].

Equiv To: ECON 2450

Attributes: Université de Saint-Boniface, Social Science

ECON 2461 Théorie microéconomique et ses applications 2 3 cr

Théorie du marché des facteurs de production, de la distribution et de l'équilibre général, économie du bien-être et faillite des marchés, dans une perspective historique et institutionnelle. L'étudiant(e) qui détient le crédits du ECON 2461 ne peut se faire créditer aucun des cours ECON 2460 ou ECON 3700.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans un des cours suivants: ECON 2450 ou ECON 2451 ou ECON 2700.

Equiv To: ECON 2460

Attributes: Université de Saint-Boniface, Social Science

ECON 2471 Théorie macroéconomique et ses applications 1 3 cr

Étude des fluctuations dans le revenu national, la production, l'emploi la monnaie et les prix ainsi qu'étude des politiques de stabilisation, dans une perspective historique et institutionnelle. L'analyse s'effectue à partir d'un modèle macroéconomique d'une économie fermée. L'étudiant(e) qui détient les crédits du ECON 2471 ne peut se faire créditer aucun des cours ECON 2470 ou ECON 2800.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: [une note minimale de C dans ECON 1020 ou ECON 1021 ou l'ancien ECON 1200 ou l'ancien ECON 1201] ou [une note minimale de C dans chacun de ECON 1210 (ou ECON 1211) et ECON 1220 (ou ECON 1221)].

Equiv To: ECON 2470

Attributes: Université de Saint-Boniface, Social Science

ECON 2481 Théorie macroéconomique et ses applications 2 3 cr

Théorie du revenu national, de l'emploi, de l'inflation, de la balance des paiements. Politiques de stabilisation et croissance économique. L'analyse s'effectue à partir d'un modèle macroéconomique d'une économie ouverte dans une perspective historique et institutionnelle. L'étudiant(e) qui détient le crédits du ECON 2481 ne peut se faire créditer aucun des cours ECON 2480 ou ECON 3800.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans un des cours suivants: ECON 2470 ou ECON 2471 ou ECON 2800.

Equiv To: ECON 2480

Attributes: Université de Saint-Boniface, Social Science

ECON 3301 Histoire économique du Canada 6 cr

Étude de la croissance économique du Canada en soulignant l'influence de l'Europe et des États-Unis. L'étudiant(e) ne peut se faire créditer à la fois le ECON 3301 et le ECON 3300.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: aucun.

Equiv To: ECON 3300

Attributes: Université de Saint-Boniface, Social Science

ECON 3641 L'économie et le système financier 3 cr

Les flux des fonds prêtables et le système financier. L'épargne et l'investissement: l'offre et la demande d'actifs financiers des ménages et des entreprises. Théorie bancaire et intermédiaires financiers. L'arbitrage parmi les marchés financiers et les pays; politiques gouvernementales avec attention particulière au contexte canadien. L'étudiant(e) qui détient les crédits du ECON 3641 ne peut se faire créditer aucun des cours ECON 3640 ou FIN 3460.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans un des cours suivants: ECON 2450 ou ECON 2451 ou ECON 2460 ou ECON 2461 ou ECON 2700 ou ECON 3700.

Equiv To: ECON 3640

Mutually Exclusive: FIN 3460

Attributes: Université de Saint-Boniface, Social Science

ECON 3651 Théorie et politique monétaires 3 cr

La demande et l'offre de monnaie. La structure des taux d'intérêts. Les outils de la politique monétaire. La gestion monétaire par la banque centrale et le gouvernement. L'étudiant(e) ne peut se faire créditer à la fois le ECON 3651 et le ECON 3650.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: une note minimale de C dans un des suivants: ECON 2470 ou ECON 2471 ou ECON 2480 ou ECON 2481 ou ECON 2800 ou ECON 3800.

Equiv To: ECON 3650

Attributes: Université de Saint-Boniface, Social Science

ECON 3661 La pensée économique et les institutions sociales 6 cr

L'évolution de la pensée économique dans son interaction avec l'évolution des institutions sociales et les conditions matérielles et intellectuelles des diverses époques. L'étudiant(e) ne peut se faire créditer à la fois le ECON 3661 et le ECON 3660.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: [une note minimale de C dans six heures-crédits au niveau 1000 en sciences économiques] ou autorisation écrite du professeur.

Equiv To: ECON 3660

Attributes: Université de Saint-Boniface, Social Science

Education Admin, Fndns & Psych (EDUA)

EDUA 1801 Psychologie de l'apprentissage et de l'enseignement 1:**Théorie et pratique 3 cr**

Étude des concepts théoriques reliés à la nature de l'apprentissage et du développement en milieu scolaire, ou autre, et des pratiques qui en découlent.

Attributes: Université de Saint-Boniface

EDUA 2011 Psychologie du Développement 3 cr

Étude des principes de base du développement humain et de leur importance dans l'établissement de procédés efficaces de communication en classe. Étude d'un développement normal et des problèmes communs en éducation.

Attributes: Université de Saint-Boniface

EDUA 2031 Psychologie de l'Enfance Exceptionnelle 3 cr

Initiation à l'étude des besoins des enfants nécessitant une approche spéciale qui leur permet de se développer au maximum de leur potentiel. Examen particulier du rôle de l'enseignante ou de l'enseignant en vue d'identifier et de combler ces besoins.

Attributes: Université de Saint-Boniface

EDUA 2041 Psychologie de l'Enfant 3 cr

Étude de l'interaction entre l'enfant et son entourage. Analyse particulière de l'influence des parents, des adultes, des frères et des sœurs et de l'école sur l'évolution psychologique, affective, sociale et morale de l'enfant.

Attributes: Université de Saint-Boniface

EDUA 2801 Psychologie de l'apprentissage et de l'enseignement II: Éducation spéciale inclusive 3 cr

Étude des approches et des pratiques visant à répondre aux besoins diversifiés de tous les élèves, incluant les méthodes et les ressources disponibles pour inclure tous les élèves dans les classes et les écoles régulières.

Attributes: Université de Saint-Boniface

EDUA 2901 Le rôle de l'école dans la société 3 cr

Étude du système scolaire canadien et manitobain, dans le contexte d'une société diversifiée. Ce cours vise, dans un premier temps, à faire prendre conscience des enjeux historique, philosophique, sociologique et transculturel liés à l'enseignement. Dans un deuxième temps, il amènera les étudiantes et étudiants à comprendre le rôle de l'enseignant et de l'enseignante au sein de l'organisation du point de vue professionnel, légal et administratif.

EDUA 3011 Mesure et Évaluation 3 cr

Théorie et application pratique dans la préparation, l'utilisation et l'interprétation de tests composés par les instituteurs et les institutrices; utilisation et interprétation de divers types de tests standards; techniques de statistiques connexes.

Attributes: Université de Saint-Boniface

EDUA 3021 Principes de Programmation Scolaire 3 cr

Analyse des principes fondamentaux qui gouvernent l'élaboration des programmes scolaires et étude de l'application de ces principes à certains programmes actuels.

Equiv To: EDUA 3020

Attributes: Université de Saint-Boniface

EDUA 3051 Troubles Particuliers de L'Apprentissage 3 cr

Initiation à l'étude de certains troubles perçus dans le développement des élèves. Étude du rôle de l'enseignante ou de l'enseignant dans le dépistage de ces troubles et application de programmes particuliers de rééducation.

Attributes: Université de Saint-Boniface

EDUA 3061 Informatique En Éducation I 3 cr

Applications pédagogiques des ordinateurs. Exploitation des logiciels, des progiciels et des didactiques applicables à l'enseignement.

Attributes: Université de Saint-Boniface

EDUA 3071 Développement du Langage chez le Jeune Enfant 3 cr

Étude des expériences sensorimotrices et des étapes de la communication prélinguistique et linguistique allant de l'expression vocale au développement syntaxique. Appréciation de l'importance de l'environnement linguistique et de la cognition dans le développement, l'acquisition et l'apprentissage de la langue première. Analyse particulière du développement d'une langue seconde aux niveaux préscolaire et primaire en immersion. Il est préférable mais non obligatoire de suivre le EDUA 2011 au préalable.

Attributes: Université de Saint-Boniface

EDUA 3201 Diversité culturelle dans les écoles 3 cr

Les écoles accueillent un grand nombre d'élèves provenant de groupes sociaux marginalisés selon, entre autres, leur race, leur ethnie, leur langue maternelle, leur religion, leur orientation sexuelle ou leur statut socioéconomique. Étude de la question de la diversité culturelle, prise dans un sens large, dans le contexte de l'enseignement. Acquisition des connaissances ainsi que des attitudes et des stratégies nécessaires pour favoriser l'équité et la qualité des apprentissages des élèves, peu importe leurs antécédents, leurs particularités ou leurs circonstances.

EDUA 3305 Intégration et identité professionnelles 6 cr

Développement de l'habileté à faire le lien entre la pratique et la théorie et à mettre en oeuvre une gestion efficace de sa pratique pédagogique. On ne peut se faire créditer EDUA 3305 et l'ancien EDUA 3303.

Mutually Exclusive: EDUA 3303

EDUA 3313 Perspectives autochtones en contexte scolaire 3 cr

Introduction aux perspectives culturelles autochtones et métisses en contexte scolaire : dimensions historique, anthropologique, éthique et pédagogique. Développement de compétences professionnelles relatives à l'enseignement dans un environnement autochtone et métis.

EDUA 3323 La pratique réflexive dans la formation professionnelle 3 cr

Analyse d'expériences vécues lors du stage pratique menant à une prise de conscience de son propre style d'enseignement.

EDUA 3993 Éducation française en contextes minoritaire et d'immersion 3 cr

Étude des aspects historique, démographique, culturel, linguistique, identitaire et des approches pédagogiques qui encadrent le phénomène de l'éducation française en milieu minoritaire au Manitoba (écoles d'immersion et écoles françaises).

EDUA 5011 Introduction à L'Administration Scolaire 3 cr

Étude des concepts, des tâches et des processus de l'administration tels qu'ils s'appliquent à l'éducation. On ne peut se faire créditer le EDUA 5011.

Equiv To: EDUA 5010

Attributes: Université de Saint-Boniface

EDUA 5021 Principes d'Élaboration de Curriculum 3 cr

Étude des différentes approches d'élaboration de curriculum, des facteurs qui en influencent le processus d'élaboration et des aspects de l'implantation. Participation de l'enseignant ou de l'enseignante à l'élaboration du curriculum. On ne peut se faire créditer le EDUA 5021.

Equiv To: EDUA 5020

Attributes: Université de Saint-Boniface

EDUA 5031 Gestion des établissements scolaires 3 cr

Étude des modes fondamentaux d'organisation et du rôle de l'administration au sein d'un établissement scolaire. Attention particulière accordée à la prise de décision, à la communication, à la planification et à l'évaluation. On ne peut se faire créditer le EDUA 5031.

Equiv To: EDUA 5030

Attributes: Université de Saint-Boniface

EDUA 5041 Administration du personnel scolaire 3 cr

Étude des rapports de l'administratrice ou de l'administrateur avec le personnel, en mettant l'accent sur la politique de gestion, le perfectionnement et la motivation du personnel. On ne peut se faire créditer le EDUA 5041.

Equiv To: EDUA 5040

Attributes: Université de Saint-Boniface

EDUA 5061 Principes de la supervision en enseignement 3 cr

Étude des modèles théoriques d'enseignement et de supervision et de leur application dans la pratique. On ne peut se faire créditer le EDUA 5061, EDUA 5060.

Equiv To: EDUA 5060

Attributes: Université de Saint-Boniface

EDUA 5071 Comportement organisationnel en éducation 3 cr

Étude des théories et des recherches en sciences du comportement et en sciences sociales qui ont trait au comportement des individus et des groupes dans une structure organisationnelle. Analyse de la portée de ces théories et recherches par rapport à l'administration des établissements scolaires. On ne peut se faire créditer le EDUA 5071.

Equiv To: EDUA 5070

Attributes: Université de Saint-Boniface

EDUA 5081 Courants Actuels en Administration Scolaire 1 3 cr

Étude des fondements théoriques et de l'application pratique des développements récents et des nouveaux courants en administration scolaire.

Equiv To: EDUA 5080

Attributes: Université de Saint-Boniface

EDUA 5091 Courants Actuels en Administration Scolaire 2 3 cr

Prolongement de l'étude de certains sujets abordés dans le EDUA 5081 en vue d'approfondir les études entreprises dans ces domaines.

Equiv To: EDUA 5090

Attributes: Université de Saint-Boniface

EDUA 5101 Questions importantes en administration scolaire 3 cr

Étude de sujets d'importance en administration scolaire. Le contenu variera d'année en année, il sera donc possible de se faire créditer ce cours plus d'une fois. On ne peut se faire créditer le EDUA 5101 (EDUA 5100).

Equiv To: EDUA 5100

Attributes: Université de Saint-Boniface

EDUA 5241 Problèmes en rapport avec l'éducation interculturelle 3 cr

Étude de problèmes particuliers auxquels les minorités culturelles font face dans le milieu scolaire. On ne peut se faire créditer le EDUA 5241.

Equiv To: EDUA 5240

EDUA 5431 Introduction à la dramathérapie 3 cr

Ce cours offre aux intervenants en milieu scolaire (enseignants, conseillers, etc.) une introduction à la dramathérapie, y compris son histoire, ses processus clés et le choix des approches courantes.

EDUA 5481 Techniques de counselling 3 cr

Acquisition de techniques de counselling telles que l'attention et l'écoute, le reflet du contenu et des émotions, la rétroaction et la révélation de soi, la focalisation et le résumé. On ne peut se faire créditer le EDUA 5481 et EDUA 5480. Une note de réussite ou échec sera attribuée pour ce cours.

Equiv To: EDUA 5480

Attributes: Université de Saint-Boniface

EDUA 5491 Stage en counselling 3 cr

Situation réelle de counselling où les étudiantes et les étudiants auront l'occasion, sous la supervision de professionnels compétents et avec l'appui de leur professeur ou de leur professeure, de mettre en pratique les techniques de counselling qu'ils ont apprises. Une note de réussite ou échec sera attribuée pour ce cours. On ne peut se faire créditer le EDUA 5491 et EDUA 5490.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables ou concomitants: EDUA 5501 ou EDUA 5500 ou EDUA 5481 ou EDUA 5480 ou l'autorisation de la professeure ou du professeur.

Equiv To: EDUA 5490

Attributes: Université de Saint-Boniface

EDUA 5501 Théories de counselling scolaire 3 cr

Étude de la philosophie et des théories du counselling. Sujets importants en orientation et en counselling scolaires. On ne peut se faire créditer le EDUA 5501.

Equiv To: EDUA 5500

Attributes: Université de Saint-Boniface

EDUA 5521 Counselling et éthique 3 cr

Introduction au code de déontologie des conseillères et des conseillers. Discussion des problématiques morales en lien avec les sujets suivants: consentement libre et éclairé, confidentialité, tenue des dossiers, respect des limites, formation et compétence, supervision clinique, multiculturalisme et diversité. Possibilité de mettre en pratique des modèles de prise de décision. On ne peut se faire créditer le EDUA 5521 (EDUA 5520).

Equiv To: EDUA 5520

EDUA 5531 Counselling au secondaire 3 cr

Étude du counselling au secondaire. Rôle et fonctions de la conseillère ou du conseiller à l'école secondaire. Étude des divers services offerts par le conseiller. Éducation, orientation, personnel, etc. On ne peut se faire créditer EDUA 5531 et EDUA 5530.

Equiv To: EDUA 5530

Attributes: Université de Saint-Boniface

EDUA 5541 Counselling de Groupes 3 cr

Étude des groupes, de l'animation de groupe et de l'acquisition des compétences connexes, particulièrement en ce qui a trait à la fonction de la conseillère ou du conseiller en milieu scolaire. On ne peut se faire créditer le EDUA 5541 et EDUA 5540.

Equiv To: EDUA 5540

Attributes: Université de Saint-Boniface

EDUA 5551 Psychologie des Relations Humaines 3 cr

Étude des relations interpersonnelles. Approche de type laboratoire visant à augmenter la sensibilité personnelle des étudiantes et des étudiants aux autres personnes. Cours qui s'adresse particulièrement au personnel enseignant, administratif et professionnel en milieu scolaire. On ne peut se faire créditer le EDUA 5551.

Equiv To: EDUA 5550

Attributes: Université de Saint-Boniface

EDUA 5571 Éducation familiale 3 cr

Étude de la sexualité humaine et des relations familiales, axée sur les résultats de la recherche, les ressources et les méthodes pédagogiques, le développement, ainsi que la collaboration avec les membres de la famille et la collectivité. On ne peut se faire créditer le EDUA 5571.

Equiv To: EDUA 5570

Attributes: Université de Saint-Boniface

EDUA 5581 Orientation de carrières 3 cr

Étude et application des théories sous-tendant l'orientation de carrières, le choix de carrière et la prise de décision; évaluation et conception de programmes de connaissance de soi aux fins de prises de décision dans une contexte de counselling. On ne peut se faire créditer le EDUA 5581.

EDUA 5601 Introduction à l'éducation inclusive 6 cr

Survivance des préoccupations dans le domaine de l'éducation inclusive. Étude des barrières à l'inclusion en ce qui concerne les lois, la pédagogie, les attitudes et les organisations, de même que les modalités d'inclusion exemplaires. On ne peut se faire créditer le EDUA 5601.

Equiv To: EDUA 5600

Attributes: Université de Saint-Boniface

EDUA 5621 L'enseignement aux enfants au moyen de la communication alternative et augmentée 3 cr

Examen des problématiques liées à la communication alternative et augmentée, des services, des ressources, de l'enseignement inclusif et des stratégies d'apprentissage. On ne peut se faire créditer EDUA 5621 et EDUA 5620.

Equiv To: EDUA 5620

EDUA 5631 Évaluation et programmation en éducation inclusive 6 cr

Étude des modalités d'évaluation basées sur le curriculum et sur le fonctionnement de la classe en vue de guider l'instruction des élèves éprouvant des difficultés d'apprentissage et de comportement en contexte d'inclusion. On ne peut se faire créditer le EDUA 5631 et EDUA 5630.

Equiv To: EDUA 5630

Attributes: Université de Saint-Boniface

EDUA 5661 Gestion des programmes d'orthopédagogie et de soutien 3 cr

Étude des modalités d'évaluation basées sur le curriculum et sur le fonctionnement de la classe en vue de guider l'instruction des élèves éprouvant des difficultés d'apprentissage et de comportement en contexte d'inclusion. On ne peut se faire créditer le EDUA 5631.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable ou concomitant: le EDUA 5601 ou l'équivalent.

Equiv To: EDUA 5660

Attributes: Université de Saint-Boniface

EDUA 5671 Stratégies pour l'organisation de classes et d'écoles inclusives 3 cr

Étude de l'organisation et de la mise en oeuvre à l'échelle de l'école de mécanismes de soutien visant à favoriser l'accès à ces écoles, l'apprentissage, la socialisation, le comportement, les rapports avec la famille, la participation de professionnels de la santé et les services communautaires. Analyse des stratégies d'organisation visant à améliorer la consultation, la coopération, la collaboration et le perfectionnement professionnel. On ne peut se faire créditer le EDUA 5671 et EDUA 5670.

Equiv To: EDUA 5670

Attributes: Université de Saint-Boniface

EDUA 5681 Promotion d'un comportement responsable en milieu scolaire 3 cr

Étude des besoins des enfants ayant des problèmes de comportement en milieu scolaire. Analyse de la conceptualisation des troubles du comportement, des procédures d'identification et d'évaluation de ces troubles, ainsi que des stratégies d'intervention. Conception des stratégies d'intervention appropriées en milieu scolaire. On ne peut se faire créditer EDUA 5681 et EDUA 5680.

Equiv To: EDUA 5680

Attributes: Université de Saint-Boniface

EDUA 5701 Psychologie sociale de l'éducation 3 cr

Examen des facteurs sociaux qui influencent le rendement et l'adaptation de l'élève à l'école. Importance accordée au fonctionnement des petits groupes et aux interactions en classe, ainsi qu'à l'analyse de la structure sociale de l'école et du rôle social de l'enseignant et de l'enseignante. On ne peut se faire créditer le EDUA 5701 (EDUA 5700).

Equiv To: EDUA 5700

Attributes: Université de Saint-Boniface

EDUA 5731 Courants Actuels en Psychologie de l'Éducation 1 3 cr

Examen des courants théoriques et des applications pratiques récents ou en émergence dans ce domaine. Le contenu variera d'année en année, il sera donc possible de se faire créditer ce cours plus d'une fois. On ne peut se faire créditer EDUA 5731 (EDUA 5730).

Equiv To: EDUA 5730

Attributes: Université de Saint-Boniface

EDUA 5741 Courants actuels en psychologie de l'éducation 2 3 cr

Étude des fondements théoriques et des applications pratiques de développements récents et de nouveaux courants dans ce domaine.

Equiv To: EDUA 5740

Attributes: Université de Saint-Boniface

EDUA 5751 Psychologie de l'Enseignement en Contexte Scolaire 3 cr

Étude des théories fondamentales d'apprentissage telles qu'elles sont appliquées à l'enseignement en salle de classe et utilisées dans l'élaboration des programmes. Analyse du traitement de l'information cognitive et des aspects comportemental, développemental et psychosocial.

Equiv To: EDUA 5750

Attributes: Université de Saint-Boniface

EDUA 5761 Psychologie de l'Enseignement en Contexte Scolaire 3 cr

Conçu principalement, mais non exclusivement, à l'intention des enseignantes, des enseignants et du personnel scolaire. Étude critique des fondements théoriques et des modèles d'enseignement principaux. Intégration et application d'approches et de stratégies d'enseignement existantes ou nouvelles. On ne peut se faire créditer le EDUA 5761 et EDUA 5760.

Equiv To: EDUA 5760

Attributes: Université de Saint-Boniface

EDUA 5801 Introduction à la recherche en éducation 3 cr

Étude de l'investigation scientifique dans le domaine de l'éducation. Examen des méthodes de recherche et d'analyse statistique dans le contexte éducatif. Cours particulièrement recommandé aux étudiantes et aux étudiants qui s'intéressent à l'évaluation et à la mise en application des résultats de la recherche. On ne peut se faire créditer le EDUA 5801.

Equiv To: EDUA 5800

Attributes: Université de Saint-Boniface

EDUA 5811 Théories de Construction de Tests 3 cr

Étude des problèmes reliés à l'analyse d'items, à la validité, à la fidélité et à l'utilisation des tests dans le processus d'évaluation en milieu scolaire. Considération des tests normatifs et critériés. On ne peut se faire créditer le EDUA 5811.

Equiv To: EDUA 5810

Attributes: Université de Saint-Boniface

EDUA 5851 Application de l'Informatique en Éducation 2 3 cr

Cours avancé sur l'utilisation de logiciels d'apprentissage dans les classes ordinaires et dans l'enseignement aux élèves ayant des difficultés d'apprentissage. On ne peut se faire créditer le EDUA 5851 et EDUA 5850.

Equiv To: EDUA 5850

Attributes: Université de Saint-Boniface

EDUA 5901 Éducation et Processus du Développement 1 3 cr

Survot du processus du développement de la conception à la puberté. Importance accordée aux fondements biologiques, au développement cognitif et aux aspects sociaux du comportement dans leurs rapports avec le processus éducatif. On ne peut se faire créditer le EDUA 5901.

Equiv To: EDUA 5900

Attributes: Université de Saint-Boniface

EDUA 5911 Éducation et Processus de Développement 2 3 cr

Étude de la croissance et du développement à l'âge postérieur à la puberté. Attention particulière accordée à leurs effets sur l'apprentissage au niveau secondaire. On ne peut se faire créditer le EDUA 5911.

Equiv To: EDUA 5910

Attributes: Université de Saint-Boniface

EDUA 5921 Le Jeu Chez l'Enfant 3 cr

Examen du rôle du jeu dans l'apprentissage chez l'enfant, en incluant la perspective historique. Discussion du jeu en tant que partie intégrante du développement de l'enfant. Distinction entre les activités ludiques et non ludiques, considération des attributs conceptuels, perceptuels, linguistiques et physiques du jeu. On ne peut se faire créditer le EDUA 5921.

Equiv To: EDUA 5920

Attributes: Université de Saint-Boniface

EDUA 5931 Observation du Comportement de l'Enfant 3 cr

Étude des techniques d'observation qualitatives qui peuvent être utilisées en milieu scolaire pour mieux comprendre le comportement de l'enfant, ses modes de penser et ses motivations. On ne peut se faire créditer le EDUA 5931.

Equiv To: EDUA 5930

Attributes: Université de Saint-Boniface

EDUA 5951 L'inclusion et la diversité 3 cr

Étude des enjeux de la diversité pour la pratique en orthopédagogie en contexte scolaire. Analyse des considérations éthiques et pratiques de la diversité qui influencent la nature et l'efficacité de l'orthopédagogie auprès des membres de la communauté scolaire.

EDUA 5953 L'inclusion et l'approche écologique 3 cr

Étude et analyse de l'inclusion scolaire, en lien avec le paradigme de la dénormalisation ainsi que du Processus de production du handicap (PPH), des stratégies visant à éliminer les barrières à l'inclusion et d'une renégociation du rôle des intervenants, dont celui de l'orthopédagogue.

EDUA 7011 Administration scolaire en tant que champ d'étude et d'application 3 cr

Aperçu de l'administration scolaire. Importance particulière accordée à quelques-unes des grandes traditions intellectuelles du domaine de l'administration scolaire et analyse de certaines forces qui influencent la pratique de l'administration. On ne peut se faire créditer le EDUA 7011.

EDUA 7021 La politique en éducation 3 cr

Étude des caractéristiques politiques des organismes scolaires: répartition des pouvoirs dans la communauté, gouvernement local, changements politiques et rôle des divers systèmes de valeurs en éducation. On ne peut se faire créditer le EDUA 7021.

EDUA 7031 Le financement scolaire 3 cr

Étude des dimensions économiques et financières de l'éducation. Analyse des coûts et des dépenses, des sources et des types de revenus, de la productivité et de l'efficacité, de la planification et du budget. On ne peut se faire créditer le EDUA 7031.

EDUA 7041 Aspects légaux en éducation 3 cr

Étude des questions légales dans le monde de l'éducation. On ne peut se faire créditer le EDUA 7041 (EDUA 7040).

Equiv To: EDUA 7040

EDUA 7051 Perspectives théoriques de l'administration scolaire 3 cr

Étude des tendances en matière de théorie organisationnelle et de pensée administrative ainsi que de la portée de celles-ci sur l'étude et l'administration d'organisations scolaires. On ne peut se faire créditer le EDUA 7051.

Equiv To: EDUA 7050

EDUA 7061 Planification organisationnelle et développement éducationnel 3 cr

Revue des diverses approches à la planification et au développement éducationnel. Importance particulière accordée au développement systématique des organismes d'enseignement. On ne peut se faire créditer les EDUA 7061.

EDUA 7071 Analyse des Organismes D'Enseignement 3 cr

Application de méthodes d'analyse organisationnelle aux établissements d'enseignement. On ne peut se faire créditer le EDUA 7071.

EDUA 7081 Principes d'organisation et de mise en application du curriculum 3 cr

Revue des approches de modification et d'application du curriculum. Importance particulière accordée aux approches systématiques de modification des programmes en éducation. On ne peut se faire créditer le EDUA 7081.

EDUA 7091 Séminaire - Problèmes administratifs en éducation 3 cr

Application de concepts théoriques à des situations concrètes. On ne peut se faire créditer le EDUA 7091.

EDUA 7101 Sujets particuliers en administration scolaire 1 3 cr

Lecture sur des sujets d'importance en administration scolaire.

EDUA 7111 Sujets particuliers en administration scolaire 2 3 cr

Recherche-action sur des sujets d'importances en administration scolaire. Le contenu de ce cours variera d'année en année, il sera donc possible de se faire créditer ce cours plus d'une fois. On ne peut se faire créditer EDUA 7111 (EDUA 7100).

Equiv To: EDUA 7110

EDUA 7211 Éducation et société 3 cr

Étude du rapport qui existe entre l'éducation et la société. Regard particulier sur l'appartenance ethnique, la famille, le statu socioéconomique et le rôle que joue l'école en tant qu'agent de socialisation dans un contexte canadien. On ne peut se faire créditer le EDUA 7211.

EDUA 7231 Critique sociale en éducation 3 cr

Examen critique de l'éducation. Regard particulier sur les diverses perspectives qui remettent en question une interprétation traditionnelle de l'éducation et de la scolarisation. On ne peut se faire créditer EDUA 7231 et EDUA 7230.

Equiv To: EDUA 7230

EDUA 7241 Valeurs en éducation 3 cr

Étude de la place occupée par les valeurs en éducation. Approfondissement de la notion de valeur et de son omniprésence dans le domaine de l'éducation, ainsi que des approches, des tendances et des questions relatives aux valeurs en éducation. On ne peut se faire créditer EDUA 7241.

Equiv To: EDUA 7240

EDUA 7281 Séminaire sur l'éducation interculturelle 2 3 cr

Analyse critique des approches et de la recherche en éducation interculturelle. On ne peut faire créditer EDUA 7281 (EDUA 7280).

Equiv To: EDUA 7280

EDUA 7511 Séminaire sur des sujets d'actualité en counselling 3 cr

Progrès d'ordre professionnel, théorique et scientifique. Questions actuelles importantes. Problèmes sociaux particuliers en counselling. On ne peut se faire créditer EDUA 7511.

Equiv To: EDUA 7510

EDUA 7521 Séminaire - Stage en counselling 6 cr

Expérience supervisée en counselling individuel et de groupe, Analyse d'études de cas au moyen d'enregistrements. Exige un minimum de 180 heures de stage. Une note de réussite ou échec sera attribuée pour ce cours.

Equiv To: EDUA 7520

EDUA 7531 Groupes en counselling: théorie et pratique 6 cr

Étude de théories, de fondements logiques, d'objectifs et de recherches. Acquisition d'une compréhension expérientielle du travail en groupe par la participation aux activités en salle de classe. Acquisition de techniques d'animation de counselling de groupe au moyen d'expériences de counselling de groupe sous supervision.

Equiv To: EDUA 7530

EDUA 7541 Programmes d'orientation de carrières 3 cr

Cours destiné aux conseillères et aux conseillers qui souhaitent approfondir leurs connaissances des programmes d'orientation de carrières. Examen et évaluation de programmes et de diverses techniques de counselling. Elaboration de programmes innovateurs qui répondent aux besoins de ceux et celles qui ont recours aux services de counselling. On ne peut se faire créditer le EDUA 7541.

EDUA 7551 Théories de counselling 3 cr

Objectifs du counselling, évaluation des résultats du counselling, théories de la personnalité et du counselling. On ne peut se faire créditer le EDUA 7551 (EDUA 7550).

EDUA 7561 Counselling et diversité en milieu scolaire 3 cr

Étude des enjeux de la diversité pour la pratique en counselling en contexte scolaire. Analyse des considérations éthiques, théoriques et pratiques de la diversité qui influencent la nature et l'efficacité du counselling auprès d'une clientèle issue de divers milieux. On ne peut pas se faire créditer EDUA 7561 et EDUA 7560.

Equiv To: EDUA 7560

EDUA 7601 Séminaire en éducation inclusive 6 cr

Forum de discussions sur des sujets reliés à divers handicaps. Étude en profondeur de problèmes reliés aux besoins professionnels particuliers des étudiants et des étudiantes. On ne peut se faire créditer le EDUA 7601.

Equiv To: EDUA 7600

Mutually Exclusive: EDUA 7602, EDUA 7652

EDUA 7611 Séminaire sur l'éducation des enfants aux prises avec des troubles de comportement 3 cr

Cours à l'intention des enseignants et des enseignantes, et des conseillers et des conseillères scolaires. Études des connaissances théoriques et des outils nécessaires à l'élaboration et à la mise en oeuvre des programmes éducatifs pour les élèves aux prises avec des troubles de comportement.

EDUA 7621 Séminaire sur la déficience intellectuelle 3 cr

Examen des résultats de la recherche portant sur les problèmes liés à l'enseignement aux personnes ayant une déficience intellectuelle et à leur apprentissage.

EDUA 7651 Stage en éducation inclusive 6 cr

Un minimum de 200 heures de stage supervisées s'inscrivant dans un contexte d'éducation inclusive. Des séminaires sont prévus afin de créer un cadre qui facilite l'étude dirigée et la discussion. On ne peut se faire créditer EDUA 7651. Une note réussite ou échec sera attribuée pour ce cours.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: 18 crédits au niveau 5000 en éducation inclusive ou l'équivalent.

Attributes: Université de Saint-Boniface

EDUA 7721 Psychologie de l'apprentissage en salle de classe 3 cr

Examen des développements récents en psychologie cognitive et de leurs applications dans le domaine de l'apprentissage en salle de classe ou dans d'autres milieux éducatifs. Étude approfondie des théories du traitement de l'information, de la cognition incarnée et de l'acquisition de la connaissance, en rapport avec le processus d'apprentissage et la gestion de classe.

EDUA 7741 Sujets particuliers en psychologie de l'éducation I 3 cr

Lecture et recherche sur des sujets d'importance en psychologie de l'éducation. Le contenu variera d'année en année, il sera donc possible de se faire créditer ce cours plus d'une fois. On se peut se faire créditer EDUA 7741 (EDUA 7740).

EDUA 7761 Techniques d'entrevue avec les enfants et les adolescents et adolescentes 3 cr

Étude des principes et des méthodes d'entrevue et de counselling auprès d'enfants, d'adolescents et d'adolescentes, de parents, d'enseignants et d'enseignantes, ou de toute autre personne intervenant auprès de l'enfant. Intégration de la théorie et de la pratique relatives au processus de communication et d'observation diagnostique et thérapeutique en situation naturelle auprès de l'enfant.

EDUA 7771 Informatique avancée en psychologie de l'éducation 3 cr

Recours aux innovations récentes de la technologie de l'enseignement assisté par ordinateur, en tenant compte des besoins de la clientèle étudiante de cycle supérieur de la Faculté d'éducation.

EDUA 7801 Méthodes de recherche en éducation 3 cr

Étude des devis expérimentaux et des techniques de collecte de données dans la recherche éducative dans le milieu: devis quasi expérimentaux, enquête et techniques d'observation, simulation, analyse du contenu et sociométrie. On ne peut se faire créditer le EDUA 7800 et EDUA 7801.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: le EDUA 5801 ou l'ancien EDUA 6801 ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: EDUA 7800

EDUA 7841 Méthodes de recherche qualitative en éducation 3 cr

Introduction aux méthodes de recherche qualitative. Discussion de l'éthique de la recherche et des théories qui sous-tendent la recherche qualitative. Cours axé sur les démarches à suivre pour effectuer une recherche, y compris la méthodologie et la collecte et l'analyse de données. On ne peut se faire créditer EDUA 7841 et EDUA 7840.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: EDUA 5801 ou l'équivalent.

EDUA 7901 Les troubles de santé mentale chez les enfants et adolescents 3 cr

Étude des troubles de santé mentale chez les enfants et les adolescents en contexte scolaire.

Education Curric, Tchg, & Lrng (EDUB)

EDUB 1061 Langue et Littérature 3 cr

Initiation au monde de la littérature : comment comprendre et se produire dans différentes situations à l'aide de stratégies propres à son style et au contexte.

Equiv To: EDUB 1060

Attributes: Université de Saint-Boniface

EDUB 1411 L'Enseignement des Sciences de la Nature au Secondaire 3 cr

Principes généraux sous-tendant l'enseignement des sciences, le développement conceptuel, les théories d'apprentissage, la culture scientifique, le caractère de la science, les interactions entre les sciences, la technologie, la société et l'environnement. Accent mis sur les modèles pédagogiques qui tiennent compte du développement conceptuel chez les apprenants et apprenantes afin de soutenir l'enseignement de divers thèmes scientifiques. Cours obligatoire pour ceux et celles qui veulent enseigner les programmes de sciences de la nature au niveau secondaire.

Attributes: Université de Saint-Boniface

EDUB 1501 Éducation au Secondaire 3 cr

Étude des prémisses qui sous-tendent les objectifs de l'éducation au secondaire, le rôle de l'enseignant ou de l'enseignante au secondaire et les programmes d'études dans les écoles.

Attributes: Université de Saint-Boniface

EDUB 2011 Stages et Séminaires II 3 cr

Poursuite plus poussée de la pratique de l'enseignement dans les écoles, soutenue par des discussions en petits groupes portant sur le matériel de simulation et sur les pratiques observées dans les écoles.

Attributes: Université de Saint-Boniface

EDUB 2021 Communication 3 cr

Activités dont le but est de développer l'adresse en communication sous toutes ses formes. Étude de la dynamique de dons de communication oraux et écrits qui s'appliquent plus à l'enseignant et à l'enseignante dans son interaction avec les individus et les groupes. Étude de la communication tant verbale que non verbale.

Attributes: Université de Saint-Boniface

EDUB 2041 Littérature pour adolescents 3 cr

Aperçu de la littérature appropriée aux élèves de la 7e à la 12e année. Critères d'évaluation littéraire et problèmes dont l'étude sera placée dans un contexte historique, social et psychologique.

Attributes: Université de Saint-Boniface

EDUB 2081 Perfectionnement de l'Expression Orale I 3 cr

Comparaison de son expression orale en français à la norme internationale (au plan de la structure de la phrase, de la phonétique et du vocabulaire). Suite à ce diagnostic, perfectionnement de la langue parlée.

Attributes: Université de Saint-Boniface

EDUB 2121 Littérature Pour Enfants 3 cr

Aperçu général de la littérature enfantine créatrice disponible dans les divers moyens de communication; établissement de critères pour l'évaluation de livres et de matériaux connexes; problèmes du lecteur en difficulté et du non-lecteur. Établissement des normes en vue de porter un jugement d'appréciation sur la littérature enfantine en mettant l'accent sur l'analyse critique et l'interprétation de la littérature replacée dans son contexte historique, sociologique et psychologique.

Attributes: Université de Saint-Boniface

EDUB 2171 Atelier en Art (dessin) à l'Élémentaire 3 cr

Cours pratique. Étude des techniques et du matériel appropriés permettant d'acquérir des notions de l'enseignement créatif à l'élémentaire et au primaire.

Attributes: Université de Saint-Boniface

EDUB 2181 La Bibliothèque, Source de Référence 3 cr

Utilisation des livres et des bibliothèques comme sources de références et de recherche au niveau universitaire.

Attributes: Université de Saint-Boniface

EDUB 2191 Perfectionnement de l'Expression Orale II 3 cr

Comparaison de son expression orale en français à la norme internationale (au plan de la structure de la phrase, de la phonétique et du vocabulaire). Suite à ce diagnostic, perfectionnement de la langue parlée.

Attributes: Université de Saint-Boniface

EDUB 2201 Enseignement de l'Anglais au Primaire d'Immersion 3 cr

Étude de la philosophie de l'apprentissage de l'anglais au primaire d'immersion, afin de pouvoir identifier les transferts et interférences dans l'apprentissage des deux lectures (anglaise et française) et de tenir compte de ceux-ci dans l'enseignement. Concomitant : EDUB 3211.

Attributes: Université de Saint-Boniface

EDUB 2211 Perfectionnement du français oral et écrit 3 cr

(Laboratoire requis) Ce cours permettra aux étudiantes et aux étudiants d'améliorer leurs compétences langagières en français, tant à l'oral qu'à l'écrit, dans le but d'enseigner en français à tous les niveaux. Ce cours est accompagné de séances de travaux dirigés d'une durée d'une heure et demie par semaine. Ces séances obligatoires permettront de mettre en pratique les notions théoriques présentées dans le cadre du cours.

*Ce cours de perfectionnement ne compte pas pour le baccalauréat en éducation. Les cours additionnels pour le perfectionnement linguistique sont au-delà des 60 crédits du baccalauréat en éducation.

EDUB 2341 TCH FR SR2 3 cr

Equiv To: EDUB 2340

EDUB 2501 Sujets Particuliers en Éducation au Secondaire 3 cr

Étude de thèmes et de questions reliés à l'enseignement au secondaire et au développement de l'identité professionnelle de l'enseignante ou de l'enseignant débutant. Coordination des activités qui varieront d'année en année avec des expériences en milieu scolaire.

Attributes: Université de Saint-Boniface

EDUB 2511 L'intégration de la langue dans toutes les matières 3 cr

Initiation à la langue comme outil d'enseignement et d'apprentissage et aux moyens offerts aux enseignants et aux enseignantes pour intégrer la langue dans toutes les matières et enrichir la compréhension du contenu.

Attributes: Université de Saint-Boniface

EDUB 3011 Pratique du Microenseignement 3 cr

Étude du comportement de l'enseignante ou de l'enseignant. Utilisation de vidéos fournissant le décor pour la pratique contrôlée de quelques-uns des éléments de l'enseignement, en particulier de l'analyse et de l'application des techniques suivantes : l'exposition, l'interrogation, la discussion et la démonstration. On ne peut se faire créditer le EDUB 3011 et le EDUB 3161.

Equiv To: EDUB 3161

Attributes: Université de Saint-Boniface

EDUB 3013 Microenseignement et pratiques pédagogiques 3 cr

Réflexions sur la mise en pratique d'habiletés d'enseignement par l'analyse de leçons, d'activités ou de cours.

Equiv To: EDUB 3010

Attributes: Université de Saint-Boniface

EDUB 3021 Sujets Particuliers en Sciences Humaines 3 cr

Étude de sujets choisis dans le domaine de l'enseignement des sciences humaines.

Attributes: Université de Saint-Boniface

EDUB 3031 La Lecture au Secondaire 3 cr

Étude des habiletés de base en lecture et des relations de celles-ci avec les divers contenus disciplinaires du niveau secondaire. Examen de divers outils susceptibles de contribuer au développement des habiletés en lecture ainsi que diverses techniques d'évaluation.

Attributes: Université de Saint-Boniface

EDUB 3101 Méthodologie de la lecture à l'élémentaire I 3 cr

Étude de l'apprentissage et de l'enseignement de la lecture à l'élémentaire dans les écoles franco-manitobaines et les écoles d'immersion.

Compréhension en lecture, analyse des structures textuelles, lecture à voix haute et analyse du mot. Survol des habiletés préalables à la lecture et de quelques techniques d'évaluation de la lecture.

Attributes: Université de Saint-Boniface

EDUB 3161 Stages et séminaires III 3 cr

Choix d'expérience initiale ou d'enrichissement dans un des domaines suivants : niveau scolaire primaire ou intermédiaire, situation en éducation spécialisée ou expérience dans un service communautaire relié de façon ponctuelle à l'éducation totale. Aspects théoriques et pratiques traités en ateliers d'initiation et en discussions de groupes. Une note de réussite ou d'échec sera attribuée pour ce cours. On ne peut se faire créditer le EDUB 3161 et le EDUB 3011.

Attributes: Université de Saint-Boniface

EDUB 3171 Stages Et Séminaires Iii 3 cr

Cours qui fournira de multiples occasions de rédiger différents genres de textes en français. Composition, transcription et révision de textes. Familiarisation avec le processus de l'écrit qui peut être adapté et appliqué aux niveaux primaire, élémentaire et secondaire.

Attributes: Université de Saint-Boniface

EDUB 3211 Enseignement du Français au Primaire d'Immersion 3 cr

Enseignement du français langue seconde au primaire. Étude des principes de la communication orale et écrite dans la salle de classe, de la nouvelle pédagogie dans l'enseignement de la lecture et de l'écrit et de l'intégration des savoirs et des matières. Concomitant : EDUB 2201.

Attributes: Université de Saint-Boniface

EDUB 3251 Sujets Particuliers - Curriculum et Pédagogie 3 cr

Étude de sujets choisis en enseignement et apprentissage en immersion.

Attributes: Université de Saint-Boniface

EDUB 3261 L'Acquisition et l'Apprentissage du Français en Contexte d'Immersion 3 cr

Cours théorique. Familiarisation avec les théories explicatives de l'acquisition et l'apprentissage d'une langue seconde et les approches pédagogiques qui en découlent. On ne peut se faire créditer le EDUB 3261.

Attributes: Université de Saint-Boniface

EDUB 3271 Développement Langagière en Immersion Française à l'Élémentaire 3 cr

Étude des aspects pratiques de l'enseignement en situation d'immersion à l'élémentaire. Sensibilisation aux méthodes et aux techniques susceptibles de développer les compétences en français langue seconde.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: EDUB 3261.

Attributes: Université de Saint-Boniface

EDUB 3281 Développement Langagière en Immersion Française 3 cr

Étude des aspects pratiques de l'enseignement en situation d'immersion au secondaire. Sensibilisation aux méthodes et aux techniques susceptibles de développer les compétences en français langue seconde.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: EDUB 3261.

Attributes: Université de Saint-Boniface

EDUB 3291 Principes et pratiques de l'évaluation des apprentissages 3 cr

Ce cours permettra aux étudiantes et aux étudiants de comprendre les approches et les principes permettant d'évaluer la progression des apprentissages et le degré d'acquisition des compétences des élèves.

EDUB 3305 Introduction à l'enseignement 3 cr

Ce cours fournira des occasions d'exploration, de discussion et de réflexion professionnelle sur divers aspects théoriques de l'enseignement. Le cours est destiné aux étudiantes et étudiants en première année du baccalauréat en éducation. On ne peut se faire créditer EDUB 3305 et l'ancien EDUB 1011.

Mutually Exclusive: EDUB 1011

EDUB 3307 Stages en milieu scolaire 1 3 cr

Ces stages en milieu scolaire seront effectués sous la surveillance du personnel de la Faculté et de l'école d'accueil et présenteront aux étudiantes et étudiants des occasions d'observation, de consultation et de mise en application des aspects théoriques de l'enseignement et de l'apprentissage. Le cours est destiné aux étudiants en première année du baccalauréat en éducation. On ne peut se faire créditer EDUB 3307 et l'ancien EDUB 1011. Une note de réussite ou d'échec sera attribuée pour ce cours.

Mutually Exclusive: EDUB 1011

EDUB 3311 Perfectionnement du français 3 cr

Approfondissement des notions de la grammaire des particularités orthographiques du français. Étude des outils et des stratégies à l'autocorrection. Bref aperçu des anglicismes, de la cohérence textuelle et des stratégies de lecture et d'écriture. *Ce cours de perfectionnement ne compte pas pour le baccalauréat en éducation. Les cours additionnels pour le perfectionnement linguistique sont au-delà des 60 crédits du baccalauréat en éducation.

EDUB 3321 Analyse grammaticale et rédaction 3 cr

Revision des notions grammaticales. Apprentissage des diverses techniques de rédaction. Étude contrastive de l'anglais et du français. Maîtrise de la revision linguistique.

EDUB 3991 Étude Individuelle 3 cr

Étude individuelle et recherche dirigées vers un sujet d'intérêt.

Attributes: Université de Saint-Boniface

EDUB 3993 Étude Individuelle 3 cr

Étude individuelle et recherche dirigées vers un sujet d'intérêt

Equiv To: EDUB 3990

Attributes: Université de Saint-Boniface

EDUB 4011 Stages pratiques 9 cr

Période d'application, en milieu scolaire, des connaissances acquises, sous la surveillance du personnel de la Faculté et de l'école qui reçoit le ou la stagiaire. Une note de réussite ou d'échec sera attribuée pour ce cours.

Attributes: Université de Saint-Boniface

EDUB 4013 Stages 3 cr

Période d'application, en milieu scolaire, des connaissances acquises, sous la surveillance du personnel de la Faculté et de l'école qui reçoit le ou la stagiaire.

Mutually Exclusive: EDUB 4010

Attributes: Université de Saint-Boniface

EDUB 4021 Didactique - Élémentaire 6 cr

Étude des programmes actuels au niveau élémentaire et des méthodes pratiques d'enseignement.

Attributes: Université de Saint-Boniface

EDUB 4023 Didactique - Élémentaire 6 cr

Étude des programmes actuels au niveau élémentaire et des méthodes pratiques d'enseignement.

Attributes: Université de Saint-Boniface

EDUB 4051 Méthodologie générale 3 cr

Étude des fondements et de l'application de la méthodologie.

Attributes: Université de Saint-Boniface

EDUB 4061 Didactique en anglais (secondaire) 3 cr

Étude des programmes et des méthodes d'enseignement en anglais au niveau secondaire.

Attributes: Université de Saint-Boniface

EDUB 4071 L'enseignement du français de base au secondaire 3 cr

Étude de l'enseignement et de l'apprentissage du français langue seconde aux niveaux intermédiaire et secondaire. Familiarisation avec l'approche communicative en tenant compte du programme d'études et des ressources disponibles au Manitoba.

Attributes: Université de Saint-Boniface

EDUB 4081 Didactique en géographie (secondaire) 3 cr

Étude des programmes et des méthodes d'enseignement en géographie au niveau secondaire.

Attributes: Université de Saint-Boniface

EDUB 4091 Didactique en langues vivantes (secondaire) 3 cr

Étude des programmes et des méthodes d'enseignement en langues vivantes au niveau secondaire.

Attributes: Université de Saint-Boniface

EDUB 4101 Didactique en histoire (secondaire) 3 cr

Étude des programmes et des méthodes d'enseignement en histoire au niveau secondaire.

Attributes: Université de Saint-Boniface

EDUB 4103 Didactique en biologie (secondaire) 3 cr

Étude des programmes et des méthodes d'enseignement en biologie au niveau secondaire.

EDUB 4171 Didactique en physique (secondaire) 3 cr

Étude des programmes et des méthodes d'enseignement en physique au niveau secondaire.

Attributes: Université de Saint-Boniface

EDUB 4181 Didactique en mathématiques (secondaire) 3 cr

Étude des programmes et des méthodes d'enseignement en mathématiques au niveau secondaire.

Attributes: Université de Saint-Boniface

EDUB 4201 Didactique du/en français au secondaire 3 cr

Cours axé sur des questions didactiques soulevées par les programmes d'études de français langue première et ceux de français langue seconde - immersion établis, pour les niveaux 7e années à Secondaire 4, par la Division du Bureau de l'éducation française, du ministère d'Éducation, Citoyenneté et Jeunesse Manitoba.

EDUB 5201 Lectures dirigées en curriculum, en enseignement et en apprentissage 1 3 cr

Lectures et recherches traitant de domaines particuliers de l'étude du curriculum.

EDUB 5221 Courants actuels en curriculum, en enseignement et en apprentissage 1 3 cr

Étude de la théorie qui sous-tend les courants actuels et les problématiques émergentes dans le domaine et de leurs applications pratiques.

Equiv To: EDUB 5220

EDUB 5231 Courant Actuels en Curriculum, en Enseignement et en Apprentissage 2 3 cr

Approfondissement de thèmes choisis qui ont fait l'objet d'études dans le EDUB 5221.

Equiv To: EDUB 5230

EDUB 5261 Introduction aux fondements de la lecture 3 cr

Étude de la nature de la lecture par rapport à diverses composantes du développement humaine telles que le langage, la vue, l'ouïe, la cognition et la motivation. On ne peut se faire créditer le EDUB 5261.

Attributes: Université de Saint-Boniface

EDUB 5271 Enseignement de la lecture 3 cr

Étude des fondements du programme d'enseignement de la lecture; objectifs du programme, conditions d'apprentissage, démarches et matériel pédagogiques et évaluation des apprentissages. On ne peut se faire créditer le EDUB 5271.

Attributes: Université de Saint-Boniface

EDUB 5321 Séminaire sur les Arts Langagiers 1 3 cr

Séminaire de recherche et de lecture, qui comprend une analyse approfondie des fondements théoriques de l'étude et de l'enseignement des arts langagiers à l'élémentaire et de la recherche qui sous-tend ces fondements. Réflexion sur la portée pratique de ces théories dans l'enseignement en ce qui a trait à la communication orale, à l'écoute et à la création dramatique. On ne peut se faire créditer le EDUB 5321.

Attributes: Université de Saint-Boniface

EDUB 5331 L'enseignement de la langue et de la littératie dans les matières 3 cr

Étude de la façon dont on aborde la littératie dans les diverses matières (sciences, mathématiques, sciences humaines, etc.). Examen attentif des stratégies concernant la lecture, l'écriture et l'étude, des ressources et de l'évaluation de ces ressources, des procédures, des recherches à l'appui. On ne peut se faire créditer le EDUB 5331.

Attributes: Université de Saint-Boniface

EDUB 5341 Fondements de la littératie 3 cr

Étude de la nature de la littératie par rapport aux dimensions du développement humain et de l'enseignement telles que le langage, la vision, l'audition, la cognition, la motivation et l'objectif de l'enseignement. On ne peut se faire créditer EDUB 5341 et EDUB 5261.

Equiv To: EDUB 5261

Attributes: Université de Saint-Boniface

EDUB 5351 Problématiques Actuelles en Langue et en Littératie 3 cr

Étude de sujets particuliers qui vise à faire connaître les courants actuels en enseignement de la langue et de la littératie.

EDUB 5361 Fondements de la Littératie 3 cr

Étude de la nature et de la psychologie de la littérature enfantine à l'élémentaire. Aperçu du matériel existant, établissement de critères d'évaluation de ce matériel et résultats des recherches portant sur l'élaboration, le niveau d'intérêt et l'utilisation du matériel. On ne peut se faire créditer le EDUB 5361.

Attributes: Université de Saint-Boniface

EDUB 5371 Littérature pour Adolescents et Adoléscentes 3 cr

Étude de la nature et de la psychologie de la littérature destinée aux élèves de la 7e à la 12e année. Aperçu du matériel existant, établissement de critères d'évaluation de ce matériel et résultats des recherches portant sur l'élaboration, le niveau d'intérêt et l'utilisation du matériel. On ne peut se faire créditer le EDUB 5371.

Attributes: Université de Saint-Boniface

EDUB 5391 Enseignement de l'écrit 3 cr

Organisation et mise en oeuvre des programmes de l'écrit. Présentation de stratégies en rapport avec la motivation, d'activités et d'exercices propices à l'apprentissage de l'écrit, et d'exercices de révision et d'évaluation. On ne peut se faire créditer EDUB 5391 et EDUB 5390.

Equiv To: EDUB 5390

EDUB 5431 Développements Récents en Curriculum: Humanités 3 cr

Examen des courants théoriques et des applications pratiques récents ou en émergence dans ce domaine.

Attributes: Université de Saint-Boniface

EDUB 5471 Courants Actuels en Curriculum: Mathématiques et Sciences Naturelles 3 cr

Examen des courants théoriques et des applications pratiques récents ou en émergence dans ce domaine.

Equiv To: EDUB 5470

Attributes: Université de Saint-Boniface

EDUB 5531 Théorie et pratique de l'enseignement du français 6 cr

Étude de la théorie actuelle et des nouvelles pratiques de l'enseignement du français langue seconde. Examen attentif de l'analyse des procédures pédagogiques et de la tâche d'enseignement. Initiation à la recherche dans le domaine de l'enseignement d'une langue seconde. On ne peut se faire créditer le EDUB 5531.

Attributes: Université de Saint-Boniface

EDUB 5533 Théorie et Pratique de l'Enseignement du Français Langue Seconde 3 cr

Ce cours fournit une mise à jour des théories et des pratiques de l'enseignement et de l'apprentissage en français langue seconde (immersion et français de base).

EDUB 5535 L'utilisation des médias en enseignement du français de base 3 cr

Appréciation critique des médias, et ce, à partir d'une étude approfondie du sujet. Utilisation des médias pour appuyer des thèmes explorés en situation de salle de classe et développement des stratégies pédagogiques qui en découlent.

EDUB 5537 Théorie et Pratique des Arts Visuels et l'Enseignement du Français de Base 3 cr

Examen des approches et des méthodes récentes dans l'enseignement des arts visuels et application des théories apprises au moyen d'exercices pratiques et de projets. Familiarisation avec le langage plastique et développement d'un esprit critique face aux diverses disciplines en arts visuels dans la classe de français de base. Ce cours favorisera l'expression artistique individuelle.

EDUB 5539 L'enseignement du français de base et les TIC 3 cr

Liens entre l'apprentissage, la pédagogie et les TIC. Mise à l'essai et évaluation des logiciels éducatifs. Utilisation pédagogique des logiciels comme Word, Excel, et Power Point. Développement des compétences techniques avec un certain nombre de logiciels. Intégration des compétences théoriques et techniques dans la création des activités pédagogiques. Consultation et évaluation de sites Web. Création d'un plan de site Web pour une unité d'apprentissage. Cours en ligne.

EDUB 5541 Enseignement du français 6 cr

Revue critique du programme d'études : buts et objectifs, divers aspects de la discipline du français, théorie et pratique de l'enseignement, recherche et évaluation des techniques méthodologiques pour un meilleur enseignement du français. On ne peut se faire créditer le EDUB 5541.

Attributes: Université de Saint-Boniface

EDUB 5543 Les arts dramatiques et l'enseignement du français de base 3 cr

Exploration de l'art dramatique comme approche dans la classe de français langue seconde. Familiarisation avec le langage du domaine et la documentation récente. Ateliers pratiques reliés aux divers aspects de l'art dramatique pertinents à l'enseignement des compétences langagières.

EDUB 5545 French Immersion for Teachers Intermediate C/D 3 cr

Ce cours de perfectionnement linguistique vise les enseignantes et enseignants du français langue seconde, ou des personnes qui se destinent à l'enseignement du français langue seconde, et qui veulent se perfectionner en français grâce à l'approche communicative.

EDUB 5547 French Immersion for Teachers Advanced/ Perfectionnement 3 cr

Ce cours de perfectionnement linguistique vise les enseignantes et enseignants du français langue seconde, ou des personnes qui se destinent à l'enseignement du français langue seconde, et qui veulent se perfectionner en français grâce à l'approche communicative.

EDUB 5549 Didactique en français de base 3 cr**EDUB 5761 Courants Actuels en Enseignement des Mathématiques 3 cr**

Lectures et recherches sur l'enseignement des mathématiques (sujets particuliers).

Equiv To: EDUB 5760

Attributes: Université de Saint-Boniface

EDUB 5771 Diagnostic et intervention en enseignement des mathématiques à l'élémentaire 3 cr

Méthodes diagnostiques et ressources orthopédagogiques en enseignement des mathématiques à l'élémentaire. On ne peut se faire créditer le EDUB 5771.

Equiv To: EDUB 5770

Mutually Exclusive: EDUB 5773

Attributes: Université de Saint-Boniface

EDUB 5773 Identification des besoins et intervention pédagogique inclusive en numératie 3 cr

Méthodes d'évaluation des besoins particuliers des élèves dans le domaine de la numératie; stratégies et ressources pour différencier, adapter, modifier ou individualiser l'enseignement et l'apprentissage des mathématiques. On ne peut se faire créditer EDUB 5773 et EDUB 5771.

Mutually Exclusive: EDUB 5771

EDUB 7071 Ouvrages marquants de recherche en lecture 3 cr

Examen, analyse et synthèse critiques des ouvrages marquants de recherche en lecture dans les domaines de la psychologie, de la psycholinguistique, de la sociologie et de la pédagogie de la lecture. On ne peut se faire créditer le EDUB 7071, EDUB 7070.

EDUB 7111 Recherche sur l'acquisition de la langue et le la littératie 3 cr

Exploration des problématiques propres à l'acquisition de la langue et de la littératie susceptibles d'intéresser les enseignantes et enseignants sur le plan professionnel. Les participantes et participants feront une analyse critique des théories qui sous-tendent l'acquisition de la langue et de la littératie, de la recherche publiée et d'observations en salle de classe. Ils auront l'occasion d'effectuer leur propre recherche sur l'acquisition de la langue et de la littératie dans un milieu éducatif. On ne peut se faire créditer le EDUB 7111.

Equiv To: EDUB 7110

EDUB 7161 L'enseignante et l'enseignant de langue en tant que chercheurs 3 cr

Examen de paramètres caractéristiques des enseignantes et des enseignants en tant que chercheurs dans le contexte de leur propre salle de classe. Trois principes fondamentaux guident les participantes et participants: voix, conversation et communauté. Sous cet angle particulier, les enseignantes et enseignants de langue effectuent une recherche en salle de classe dans le but de comprendre la langue et l'enseignement par l'entremise des élèves interrogés dans le domaine du curriculum. On ne peut se faire créditer le EDUB 7161 (EDUB 7160).

EDUB 7181 La recherche en rédaction 3 cr

Analyse critique de la recherche et des méthodes de recherche en rédaction et en pédagogie. Regard particulier sur les études classiques, l'histoire, les courants actuels et la recherche ainsi que les méthodes d'évaluation en rapport avec l'étude et l'enseignement de la rédaction. On ne peut se faire créditer le EDUB 7181 ou EDUB 7180.

Attributes: Université de Saint-Boniface

EDUB 7191 Recherches sur le rôle de la langue dans l'apprentissage 3 cr

Analyse critique des résultats de la recherche afin de comprendre la façon dont la langue peut faciliter l'apprentissage dans tous les domaines scolaires. Regard sur le rôle que joue la langue pour faciliter l'apprentissage des matières. Examen particulier de la recherche portant sur l'expression orale, la lecture et l'écriture en tant qu'outils servant à l'apprentissage. On ne peut se faire créditer EDUB 7191.

Equiv To: EDUB 7190

EDUB 7201 La littératie et l'élaboration de politiques 3 cr

Un séminaire portant sur l'élaboration de politiques en littératie et leurs effets sur notre conceptualisation d'un curriculum littéraire et nos définitions de la littératie. Regard particulier sur le concept de fonctionnalité en littératie et les politiques sur l'enseignement de la littératie. On ne peut se faire créditer le EDUB 7201.

Equiv To: EDUB 7200

EDUB 7241 La sociolinguistique et la pédagogie du Français langue seconde 3 cr

Ce cours explore le domaine de la sociolinguistique et cible en particulier la perspective microscopique (régionale) portant sur l'éducation en Français langue seconde ou additionnelle au Manitoba.

EDUB 7341 Sujets particuliers en curriculum: humanités et sciences humaines 3 cr

Lecture et recherche sur des sujets d'importance dans le domaine du curriculum en humanités et en sciences humaines.

Equiv To: EDUB 7340

Attributes: Université de Saint-Boniface

EDUB 7361 Sujets particuliers en curriculum: Mathématiques et sciences naturelles 1 3 cr

Lecture et recherche sur des sujets d'importance pour le développement du curriculum dans ces domaines spécialisés.

Equiv To: EDUB 7360

EDUB 7371 SP CURR M&S N 2 3 cr

Equiv To: EDUB 7370

Education St. Boniface (EDSB)

EDSB 5011 L'éducation bilingue, l'immersion et l'acquisition précoce d'une langue seconde 3 cr

Étude du développement linguistique de l'enfant tout en considérant un grand nombre de facteurs socioaffectifs et cognitifs qui influencent le développement linguistique, facteurs permettant de réfléchir à toute la question de l'immersion et d'appliquer ces connaissances à la situation qui existe au Manitoba.

Equiv To: EDSB 5010

Attributes: Université de Saint-Boniface

EDSB 5031 Histoire de l'éducation française au Manitoba 3 cr

Les fondements de l'éducation française au Manitoba. Examen, dans une perspective historique, des événements majeurs, de nature sociologique et politique, qui ont marqué le développement de l'éducation française au Manitoba. On ne peut se faire créditer le EDSB 5031.

Equiv To: EDSB 5030

Attributes: Université de Saint-Boniface

EDSB 5041 Théories d'Apprentissage en Situation d'Immersion 3 cr

Étude des connaissances théoriques concernant les processus, les mécanismes et les facteurs reliés à l'apprentissage d'une langue seconde. Développement d'une compréhension plus englobante de l'expérience pratique en immersion.

Equiv To: EDSB 5040

Attributes: Université de Saint-Boniface

EDSB 5061 Théories d'Apprentissage en Milieu Minoritaire 3 cr

Familiarisation avec les recherches en éducation compensatoire et bilingue et dégagement des implications en regard de l'apprentissage en milieu minoritaire.

Equiv To: EDSB 5060

Attributes: Université de Saint-Boniface

EDSB 5071 Difficultés dans l'Enseignement du Langage Écrit 3 cr

Familiarisation avec les principes et les méthodes de prévention des difficultés d'apprentissage du langage écrit en tenant compte du contexte franco-manitobain.

Equiv To: EDSB 5070

Attributes: Université de Saint-Boniface

EDSB 5081 Stage et Séminaires de Recherche-Action 6 cr

Utilisation du processus et des méthodes de recherche-action en vue de la résolution de problèmes éducatifs pratiques. Cours qui exige un minimum de 150 heures consacrées au stage de recherche. Pour s'inscrire à ce cours, il faut être en fonction dans le milieu éducatif.

Equiv To: EDSB 5080

Attributes: Université de Saint-Boniface

English (ENGL)

ENGL 1061 Anglais langue seconde I 3 cr

Révision et approfondissement de la grammaire anglaise. Élargissement du vocabulaire propre à la langue soutenue et sensibilisation aux pièges posés par les gallicismes d'ordre lexical et syntaxique. Étude des principes fondamentaux de rédaction: style, organisation et argumentation. Étude pratique de l'anglais parlé dans diverses situations. Expressions idiomatiques. Amélioration de la prononciation. Apprentissage des principes de base et exercices pratiques d'art oratoire en anglais. On ne peut se faire créditer le ENGL 1061.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : Admission sur recommandation du SPL. Voir section 9.14 (Profil linguistique en anglais) de l'annuaire de l'USB.

Equiv To: ENGL 1041

Attributes: Université de Saint-Boniface, Humanities

ENGL 1071 Anglais langue seconde II 3 cr

Suite d'ENGL 1061. Révision et approfondissement de la grammaire anglaise. Élargissement du vocabulaire propre à la langue soutenue et sensibilisation aux pièges posés par les gallicismes d'ordre lexicale et syntaxique. Étude des principes fondamentaux de rédaction, notamment sur le plan du style, l'usage idiomatique, et le vocabulaire. Étude pratique de l'anglais parlé dans diverses situations. Expressions idiomatiques. Amélioration de la prononciation. Apprentissage des principes de base et exercices pratiques de l'art oratoire en anglais. On ne peut se faire créditer ENGL 1071. Une note minimale de C (60%) est requise pour réussir ENGL 1071.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : [une note minimale de C dans ENGL 1061] ou la recommandation du Service de perfectionnement linguistique.

Equiv To: ENGL 1051

Attributes: Université de Saint-Boniface, Humanities

ENGL 1081 Pratique avancée de l'anglais 3 cr

(Laboratoire requis) Acquisition de compétences avancées en anglais à l'écrit et à l'oral. Exercices pratiques de compréhension, d'expression orale, de rédaction de rapports et de correspondance.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: Une note minimale de C en ENGL 1071 ou la recommandation du Service de perfectionnement linguistique.

ENGL 1201 Representative Literary Works 6 cr

An introduction to the study of literature, with emphasis on the development of reading and writing skills. Poetry, prose and drama from various historical periods. Texts for each section will be announced. Students may not hold credit for ENGL 1201 and any of: ENGL 1200, English 40S or the former English 300 are strongly recommended, but English 40G or the former 301 or 305 will also be accepted.

Equiv To: ENGL 1200

Attributes: Université de Saint-Boniface, Humanities, Recommended Intro Courses, Written English Requirement

ENGL 1301 Literature Since 1900 6 cr

An introduction to the study of literature, with emphasis on the development of reading and writing skills. Poetry, prose and drama from Canada, Britain, the United States and other countries. Texts for each section will be announced. Students may not hold credit for ENGL 1301 and any of: ENGL 1300, English 40S or the former English 300 are strongly recommended, but English 40G or the former 301 or 305 will also be accepted.

Equiv To: ENGL 1300

Attributes: Université de Saint-Boniface, Humanities, Recommended Intro Courses, Written English Requirement

ENGL 2001 Intermediate Writing and Research 6 cr

Designed to teach students how to read, write, and research at the university level, this course stresses effective expository writing, prose reading, and research skills. Note : Credit in ENGL 2001 is acceptable toward a degree in Arts or Science, but does not satisfy the humanities requirement in the Faculty of Arts. It may not be held for credit in the 30 hours for a Major (General) or the 18 hours for a Minor but may be held for credit in the 48 hours for the Major (Advanced). On ne peut se faire créditer ENGL 2001 et ENGL 2000.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: none.

Equiv To: ENGL 2000

Attributes: Université de Saint-Boniface, Written English Requirement

ENGL 2071 Literature of the Sixteenth Century 6 cr

A survey of poetry, prose and drama by major and minor writers in historical context. Students may not hold credit for ENGL 2071 and ENGL 2070.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite : a grade of C or better in one of : ENGL 1201, ENGL 1200, ENGL 1301, ENGL 1300, or both ENGL 1400 (or the former ENGL 1310) and ENGL 1340.

Equiv To: ENGL 2070

Attributes: Université de Saint-Boniface, Humanities

ENGL 2091 Literature of the Seventeenth Century 6 cr

A survey of poetry, prose and drama by major and minor writers in historical context. Students may not hold credit for ENGL 2091 and ENGL 2090.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite : a grade of C or better in one of : ENGL 1201, ENGL 1200, ENGL 1301, ENGL 1300, or a grade of C or better in each of ENGL 1400 (or the former ENGL 1310) and ENGL 1340.

Equiv To: ENGL 2090

Attributes: Université de Saint-Boniface, Humanities

ENGL 2161 British Literature since 1900 6 cr

A survey of poetry, prose and drama by major and minor writers in historical context. Students may not hold credit for both ENGL 2160 and ENGL 2161.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites : a grade of C or better in one of : ENGL 1201, ENGL 1200, ENGL 1300, ENGL 1301 or a grade of C or better in each of ENGL 1310 and ENGL 1340.

Equiv To: ENGL 2160

Attributes: Université de Saint-Boniface, Humanities

ENGL 2961 Drama 1 3 cr

An introduction to dramatic forms and conventions. Students may not hold credit for both ENGL 2961 and ENGL 2960.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite : a grade of C or better in one of ENGL 1201, ENGL 1200, ENGL 1300, ENGL 1301 or both of ENGL 1310 and ENGL 1340.

Equiv To: ENGL 2960

Attributes: Université de Saint-Boniface, Humanities

ENGL 3011 Shakespeare 6 cr

Critical study of the works of this author, including historical context. Students may not hold credit for ENGL 3011 and any of: ENGL 3010.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six hours of English at the 2000 level.

Equiv To: ENGL 3010

Attributes: Université de Saint-Boniface, Humanities

ENGL 3141 Studies in the Victorians 3 cr

NOTE: The content of this course will vary from year to year. Students are asked to consult the Department of English, Film, and Theatre Handbook for detailed course descriptions. As the course content will vary from year to year, students may take this course more than once for credit. Students may not hold credit for ENGL 3141 and any of: ENGL 3140.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six hours of English at the 2000 level.

Equiv To: ENGL 3140

Attributes: Université de Saint-Boniface, Humanities

ENGL 3271 Studies in Canadian Literature 3 cr

Students may not hold credit for ENGL 3271 and any of : ENGL 3270. As the course content will vary from year to year, students may take this course more than once for credit.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite : a grade of C or better in six hours of English at the 2000 level.

Equiv To: ENGL 3270

Attributes: Université de Saint-Boniface, Humanities

ENGL 3671 Studies in the Novel 6 cr

NOTE: The content of this course will vary from year to year. Students are asked to consult the Department of English, Film, and Theatre Handbook for detailed course descriptions. As the course content will vary from year to year, students may take this course more than once for credit. Students may not hold credit for both ENGL 3671 and ENGL 3670.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six hours of English at the 2000 level.

Equiv To: ENGL 3670

Attributes: Université de Saint-Boniface, Humanities

ENGL 3961 Special Topics in Drama 3 cr

Advanced study of selected topics. Students may not hold credit for ENGL 3961 and ENGL 3960.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of C or better in 6 hours of English at the 2000 level.

NOTE: The content of this course will vary from year to year. Students are asked to consult the Department of English Handbook for detailed course descriptions. Students can earn multiple credits for this course only when the topic subtitle is different.

Equiv To: ENGL 3960

Attributes: Université de Saint-Boniface, Humanities

Entrepreneurship/Small Bus. (ENTR)

ENTR 4511 Entrepreneurship et création d'entreprises 3 cr

Ce cours porte sur la création d'entreprise. Lancement d'une entreprise; caractéristiques de l'entrepreneur; plan d'entreprise; définition du projet; détermination du marché; fonctions administratives; problèmes particuliers au lancement d'une entreprise, aide gouvernementale. On ne peut se faire créditer ENTR 4100.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: ACC 1101, ACC 1100 et MKT 2211 ou MKT 2210 (D), et [GMGT 2030 (D) ou GMGT 2061 (D) ou GMGT 2060 (D) ou (GMGT 2081 (D)) ou GMGT 2080 (D)].

Mutually Exclusive: ENTR 4100

Finance (FIN)

FIN 2201 Gestion financière 3 cr

(Laboratoire requis) Introduction aux principes de la gestion financière de l'entreprise en particulier dans le choix du financement, le choix de l'investissement et de la gestion des fonds. On ne peut se faire créditer FIN 2201 et FIN 2200.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: [ACC 1101 ou ACC 1100 avec une note minimale de D], [MATH 1230 ou MATH 1501 ou MATH 1500 ou MATH 1520 avec une note minimale de C], [STAT 1001 ou STAT 1000 ou STAT 1150 avec une note minimale de C], [ECON 1011 (ou ECON 1010) et ECON 1021 (ou ECON 1020) ou l'ancien ECON 1201 (ou l'ancien ECON 1200) avec une note minimale de C].

Equiv To: FIN 2200

FIN 3411 Investissements 3 cr

Introduction aux marchés de capitaux à l'efficacité des opérations de couverture, les différents concepts financiers, aux modèles de fixation de prix sur les gains en capital, à la théorie et à la gestion de portefeuille, aux options et les marchés à terme, aux investissements internationaux et à l'efficacité des marchés. Les étudiants apprendront les concepts financiers, manipuleront des outils et des techniques, ainsi que leur utilisation dans les prises de décision d'investissement. Les étudiants doivent avoir une bonne connaissance du logiciel Excel, car les travaux du cours exigent l'analyse des données sur des feuilles de calcul. On ne peut se faire créditer FIN 3411 et FIN 3410.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: [une note minimale de C+ dans FIN 2201 ou FIN 2200] et [une note minimale de C dans MATH 1220 ou MATH 1301 ou MATH 1300 ou MATH 1310] et [une note minimale de C dans STAT 2001 ou STAT 2000 ou STAT 2150].

Equiv To: FIN 3410

FIN 3451 Finance internationale 3 cr

Introduction à l'étude des aspects internationaux du financement d'une compagnie et des marchés internationaux de capitaux.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: FIN 2201 avec une note minimale de C+.

Equiv To: FIN 3450

FIN 3481 Financement d'entreprise: Théories et pratiques 3 cr

Approfondir la compréhension que les étudiants ont de la théorie financière et des techniques financières ainsi que de leur application aux politiques financières d'entreprise. Parmi les sujets étudiés, on compte: le coût du capital, le choix des investissements, la structure financière, les politiques de dividende, le crédit-bail, les options réelles, les fusions et les acquisitions ainsi que d'autres sujets spéciaux. On ne peut se faire créditer FIN 3481 et FIN 3480.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: [une note minimale de C+ dans FIN 2201 ou FIN 2200] et [une note minimale de C dans MATH 1220 ou MATH 1301 ou MATH 1300 ou MATH 1310] et [une note minimale de C dans STAT 2001 ou STAT 2000 ou STAT 2150].

Equiv To: FIN 3480

FIN 4401 Pratiques de gestion financière 3 cr

Ce cours a pour but d'approfondir et de consolider la compréhension des concepts de base de finance déjà acquis aux cours d'introduction et intermédiaire, et comment appliquer ces connaissances par moyen des simulations de cas et des vraies situations d'affaires. Les grands problèmes d'éthique, de la responsabilité sociale des entreprises, des règles de gouvernance d'entreprise, et du leadership seront aussi discutés. La pensée critique et le travail d'équipe joueront des rôles importants dans l'analyse de ces cas. On ne peut se faire créditer FIN 4401 et FIN 4400.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de D dans FIN 3481 ou FIN 3480.

Equiv To: FIN 4400

Français St. Boniface (FRAN)

FRAN 1021 L'art de parler 3 cr

Correction et amélioration du français parlé (structures de phrases, aspects grammaticaux d'erreurs courantes). Distinction entre la langue parlée et la langue écrite. Prise de conscience des différents registres de la langue en fonction des différentes situations de communication. Apprentissage des techniques de l'expression orale : exposé, débat, discours.

Attributes: Université de Saint-Boniface, Humanities

FRAN 1091 Rédaction universitaire 3 cr

(Laboratoire requis) Initiation aux méthodes de travail universitaire : les techniques du résumé, du compte rendu et de la dissertation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans (FRAN 1007 et FRAN 1009) ou l'ancien FRAN 1001, si on les a suivis.

Attributes: Université de Saint-Boniface, Humanities

FRAN 1111 Grammaire et laboratoire 3 cr

(Laboratoire requis). Approfondissement des notions de la grammaire. Attention particulière accordée à l'analyse de la phrase. On ne peut s'inscrire à FRAN 1111 et à FRAN 1007 ou FRAN 1009 de façon concomitante.

Attributes: Université de Saint-Boniface, Humanities

FRAN 2523 Atelier de théâtre 6 cr

Initiation à la pratique de l'art théâtral. Ateliers sur les grandes théories du théâtre, les techniques de l'art dramatique, les écoles de jeu depuis le XVIII^e siècle et les divers aspects pratiques d'une production théâtrale : jeu de lumières, conception et plantation d'un décor. On ne peut se faire créditer FRAN 2523 et l'ancien FRAN 2521.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [une note minimale de C dans FRAN 1091] et [une note minimale de C dans FRAN 1021 ou FRAN 1111].

Mutually Exclusive: FRAN 2521

Attributes: Université de Saint-Boniface, Humanities

FRAN 2531 Introduction au théâtre 1 3 cr

Étude de plusieurs œuvres, des principaux aspects techniques et des diverses théories dramatiques - du théâtre grec au théâtre du XIX^e siècle.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [une note minimale de C dans FRAN 1091] et [une note minimale de C dans FRAN 1021, ou FRAN 1111, ou l'ancien FRAN 1071].

Attributes: Université de Saint-Boniface, Humanities

FRAN 2541 Introduction au théâtre 2 3 cr

Étude de plusieurs œuvres, des principaux aspects techniques et des diverses théories dramatiques.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [une note minimale de C dans FRAN 1091] et [une note minimale de C dans FRAN 1021, ou FRAN 1111, ou l'ancien FRAN1071].

Attributes: Université de Saint-Boniface, Humanities

FRAN 2641 Le discours amoureux dans la littérature française 3 cr

Étude des diverses formes du discours amoureux et de ses stratégies rhétoriques et linguistiques dans la littérature romanesque française.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [une note minimale de C dans FRAN 1091] et [une note minimale de C dans FRAN 1021, ou FRAN 1111, ou l'ancien FRAN 1071].

Attributes: Université de Saint-Boniface, Humanities

FRAN 2881 Civilisation canadienne-française 3 cr

Étude des éléments représentatifs du peuple canadien-français : grands courants de pensées, mouvements de l'histoire, évolution de la société et de la mentalité.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [une note minimale de C dans le FRAN 1091] et [une note minimale de C dans un des FRAN 1021 ou FRAN 1071 ou FRAN 1111].

Attributes: Université de Saint-Boniface, Humanities

FRAN 2931 Initiation à la linguistique 3 cr

Approfondissement des principaux concepts de la linguistique moderne. Du signe au signe linguistique. Introduction aux différents niveaux d'analyse linguistique : phonétique et phonologique, morphologie flexionnelle et lexicale, sémantique, syntaxe.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans FRAN 2103.

Mutually Exclusive: FRAN 2103

Attributes: Université de Saint-Boniface, Humanities

FRAN 3121 Histoire du français 1 3 cr

Histoire externe du français. Présentation de la notion de parenté linguistique et des familles de langues. La sous-famille des langues romanes et les origines de la langue française. Les conditions politiques et sociohistoriques de la du français et de son institutionnalisation. Histoire de l'évolution de statut du français en France, au Canada et dans le monde. On ne peut se faire créditer FRAN 3121 et l'ancien FRAN 2123 ou l'ancien FRAN 3951.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans FRAN 2103.

Mutually Exclusive: FRAN 2123, FRAN 3951

FRAN 3531 Le théâtre québécois 3 cr

Aperçu historique et étude du théâtre québécois de Lescarbot à Tremblay. Étude des œuvres de Gratien Gélinas, de Marcel Dubé, de Michel Tremblay, etc.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de C dans FRAN 2223 et FRAN 2303.

Attributes: Université de Saint-Boniface, Humanities

FRAN 3541 Le théâtre de l'Ouest 3 cr

Étude d'œuvres d'auteurs franco-manitobains, tels que Roger Auger, Claude Dorje, Marcien Ferland, etc.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de C dans FRAN 2223 et FRAN 2303.

Attributes: Université de Saint-Boniface, Humanities

FRAN 3641 Le rire dans la littérature française 3 cr

Étude du développement de la veine comique à travers la littérature française, de son origine au Moyen-Age jusqu'aux temps modernes en passant par ses manifestations au cours des différents siècles.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : note minimale de C dans FRAN 2223 et dans FRAN 2303.

Attributes: Université de Saint-Boniface, Humanities

FRAN 3651 Littérature et vision tragique du monde 3 cr

Étude du développement de la veine tragique à travers la littérature française, de son origine au Moyen-Age jusqu'aux temps modernes en passant par ses manifestations au cours des différents siècles.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de C dans FRAN 2223 et dans FRAN 2303.

Attributes: Université de Saint-Boniface, Humanities

FRAN 3661 L'esprit de la Révolution française 3 cr

Le maintien des formes classiques qui atteignent, au début du XVIII^e siècle, un summum d'élégance et de raffinement et l'apparition, d'une part, des idées nouvelles qui entraîneront la chute de l'ancien régime et, d'autre part, d'une sensibilité annonciatrice d'un âge nouveau.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de C dans FRAN 2223 et dans FRAN 2303.

Attributes: Université de Saint-Boniface, Humanities

FRAN 3671 Études de poésie 3 cr

Études des formes poétiques de la Renaissance (Marot, poètes de la Pléiade, poètes baroques), du Romantisme (Lamartine, Musset, Vigny, Hugo), du Parnasse (Gautier) et du début du Symbolisme (Baudelaire).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de C dans FRAN 2223 et FRAN 2303.

Attributes: Université de Saint-Boniface, Humanities

FRAN 3731 Initiation aux littératures francophones 3 cr

Introduction générale portant sur l'ensemble de la production littéraire dans les pays francophones autres que le Canada français et la France. Étude des contextes socio-historiques qui ont favorisé l'épanouissement de cette littérature. Étude de thèmes majeurs, de structures et d'esthétiques particulières retrouvés dans une sélection d'oeuvres choisies.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de C dans FRAN 2223 et FRAN 2303.

Attributes: Université de Saint-Boniface, Humanities

FRAN 3851 Littérature de l'Ouest : poésie, nouvelles 3 cr

Étude de la poésie et des nouvelles produites dans l'Ouest francophone du Canada depuis le siècle dernier. L'évolution des styles et des thèmes par l'analyse de textes choisis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans FRAN 2223 et FRAN 2303.

Attributes: Université de Saint-Boniface, Humanities

FRAN 3861 Littérature de l'Ouest : roman 3 cr

Étude des romans produits dans l'Ouest francophone du Canada depuis le siècle dernier. Évolution du genre romanesque de style et d'inspiration classique et traditionnelle jusqu'à l'expression moderne et post-moderne des écrivains franco-canadiens de l'Ouest.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de C dans FRAN 2223 et FRAN 2303.

Attributes: Université de Saint-Boniface, Humanities

FRAN 3931 Lexicologie et lexicographie 3 cr

Objectifs de la lexicologie; étude des unités lexicales dans le cadre de la théorie linguistique; analyses lexicales à partir de textes choisis. Problèmes théoriques et pratiques de la lexicographie.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans le FRAN 2931.

Attributes: Université de Saint-Boniface, Humanities

FRAN 3941 Syntaxe du français contemporain 3 cr

Approfondissement des notions de base en syntaxe. Le concept de grammaticalité et l'objet d'étude de la syntaxe. Étude des catégories grammaticales et analyse de l'organisation syntaxique du français. La représentation en arbres syntagmatiques et l'analyse des constituants de la phrase. Syntaxe et lexic. On ne peut se faire créditer FRAN 3941 et l'ancien FRAN 2941.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans FRAN 2931.

Mutually Exclusive: FRAN 2941

Attributes: Université de Saint-Boniface, Humanities

FRAN 3991 Création littéraire: conte et nouvelle 3 cr

Création de contes, de nouvelles et d'autres textes fictifs à partir d'une étude détaillée des genres narratifs. Une partie du cours sera consacrée à l'étude des divers types de phrase et des contextes où ils pourraient être employés.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans FRAN 2223 et FRAN 2303.

Attributes: Université de Saint-Boniface, Humanities

FRAN 4071 Sujets particuliers 3 cr

Contenu variable d'année en année selon les besoins des étudiantes et des étudiants, et selon la spécialité du professeur ou de la professeure. Il est possible de se faire créditer ce cours plus d'une fois pourvu que le contenu du cours soit chaque fois différent.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans un cours FRAN de niveau 3000.

Attributes: Université de Saint-Boniface, Humanities

FRAN 4081 Littérature et cinéma 3 cr

Étude d'oeuvres littéraires et de leur réalisation cinématographique conduisant à un examen de problèmes de l'adaptation à l'écran d'une oeuvre littéraire ainsi qu'à une comparaison des techniques d'expression des deux arts et à une réflexion sur la création dans les deux langages spécifiques, le langage textuel et le langage visuel.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : note minimale de C dans un cours FRAN niveau 3000 (littérature).

Attributes: Université de Saint-Boniface, Humanities

FRAN 4121 Histoire du français 2 3 cr

Histoire interne du français. Étude du processus de changement linguistique et des principaux facteurs qui l'influencent à partir du cas de l'évolution de la langue française. Étude de la formation lexicale et morphosyntaxique du français et de l'élaboration de son orthographe. On ne peut se faire créditer FRAN 4121 et l'ancien FRAN 2123.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: une note minimale de C dans FRAN 2931 et FRAN 3121 (ou l'ancien FRAN 2123).

Mutually Exclusive: FRAN 3123

FRAN 4551 L'âge d'or du théâtre français 3 cr

Étude thématique, dramatique et esthétique de six pièces représentatives de l'école classique du théâtre français (XVII^e siècle).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans un cours de littérature FRAN de niveau 3000.

Attributes: Université de Saint-Boniface, Humanities

FRAN 4561 Le théâtre français du XVIII^e siècle 3 cr

Étude du renouveau des formes dramatiques dans quelques oeuvres du théâtre français du XVIII^e siècle.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans un cours de littérature FRAN de niveau 3000.

Attributes: Université de Saint-Boniface, Humanities

FRAN 4591 Création littéraire: théâtre 3 cr

Étude des procédés d'écriture d'une pièce de théâtre. Ateliers d'écriture, débouchant sur la création d'une pièce.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans un cours de FRAN - théâtre, niveau 3000.

Attributes: Université de Saint-Boniface, Humanities

FRAN 4661 Nouveaux visages du roman 3 cr

Étude détaillée de quelques oeuvres romanesques produites depuis le début des années 1980 (romans de Le Clézio, Perec, Duras, Sarraute, etc.).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans un cours de littérature FRAN de niveau 3000.

Attributes: Université de Saint-Boniface, Humanities

FRAN 4731 Littérature africaine 3 cr

Introduction à la littérature des pays africains francophones. Étude de textes qui ont marqué le XXe siècle, avec un accent mis sur les productions après l'ère des Indépendances.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de C dans FRAN 3343 et FRAN 3731.

Attributes: Université de Saint-Boniface, Humanities

FRAN 4741 Littérature maghrébine 3 cr

Étude d'une sélection d'oeuvres francophones écrites par des auteurs maghrébins. Exploration de certains aspects particuliers à cette littérature : histoire, culture, thèmes, structures, langue, technique et style.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de C dans FRAN 3343 et FRAN 3731.

Attributes: Université de Saint-Boniface, Humanities

FRAN 4751 Littérature antillaise 3 cr

Introduction générale à la littérature antillaise avec une mise en situation historique et socioculturelle. Étude des thèmes majeurs, des particularités stylistiques dans quelques oeuvres choisies parmi les plus représentatives des tendances littéraires depuis le XIXe siècle.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de C dans FRAN 3343 et FRAN 3731.

Attributes: Université de Saint-Boniface, Humanities

FRAN 4931 La langue dans la littérature 3 cr

Aperçu historique des usages et des perceptions de la « langue littéraire » chez différents auteurs écrivant en français depuis le XVIe siècle jusqu'au XXIe siècle. Étude des tensions qui résultent de la coprésence de diverses normes langagières et variétés linguistiques et de ses effets sur la création littéraire. Analyse de plusieurs oeuvres littéraires du monde francophone.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de C dans FRAN 2103 et dans FRAN 2303.

Attributes: Université de Saint-Boniface, Humanities

FRAN 4971 Sociolinguistique 3 cr

Initiation aux rapports que l'on peut établir entre la langue et la société, aux domaines d'étude et aux méthodes de la sociolinguistique.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans le FRAN 2931.

Attributes: Université de Saint-Boniface, Humanities

FRAN 4991 Création littéraire : poésie 3 cr

Mise en pratique des techniques de création poétique (étude des rythmes, des images, des sonorités, etc.) pour la réalisation d'oeuvres poétiques originales.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans un cours de littérature FRAN de niveau 3000.

Attributes: Université de Saint-Boniface, Humanities

General Management (GMGT)

GMGT 1011 Les entreprises et la société 3 cr

Analyse de la nature, du rôle, de l'impact et de l'importance des entreprises dans la société. Les activités internes des entreprises (ex. finances, marketing, opérations) seront discutées, mais la majorité du cours étudiera des relations entre les entreprises et les parties prenantes clés dans l'environnement externe (y inclut les gouvernements, les propriétaires, les clients, les communautés, les fournisseurs, et les générations à venir). Le étudiant et les étudiantes examineront les contextes institutionnels variés (ex. économiques, politico-légaux, et socioculturels) et appliqueront la pensée critique aux relations entre entreprises et la société, avec considération des modèles alternatifs de gestion. Accent sur les sujets sociaux contemporains en management (ex. le développement durable, la responsabilité sociale des entreprises). On ne peut se faire créditer à la fois GMGT 1011 et GMGT 1010.

Equiv To: GMGT 1010

GMGT 2001 INT TO COMMUNIC 3 cr

Equiv To: GMGT 2000

GMGT 2011 Business Communications and Critical Thinking 3 cr

(Lab required) An introduction to theoretical, cultural and ethical bases of effective communication. Students will develop interpersonal, oral and written communication skills at individual, group and organizational levels and will also develop analytical, problem-solving, rhetorical and critical thinking abilities required in organizational and business settings. Recommend that GMGT 2011 be taken in their first 30 credit hours. Not to be held for credit with GMGT 2010 or GMGT 2001 or GMGT 2000.

Equiv To: GMGT 2000, GMGT 2001, GMGT 2010

GMGT 2061 Management et théorie des organisations 3 cr

Analyse des principaux concepts qui sous-tendent la formation des organisations et leur gestion interne. L'accent est mis sur l'analyse des différentes approches théoriques relatives à la théorie des organisations et au management. On ne peut se faire créditer le GMGT 2061 et GMGT 2081 ou GMGT 2031.

Equiv To: GMGT 2060, GMGT 2080, GMGT 2081

Mutually Exclusive: GMGT 2030

GMGT 2071 Introduction au comportement organisationnel 3 cr

Analyse de l'impact du comportement humain sur l'organisation formelle et informelle. Les sujets traités sont le leadership, les groupes de travail, les conflits au sein de l'organisation et la communication. On ne peut se faire créditer le GMGT 2071 et GMGT 2070 ou GMGT 2030.

Equiv To: GMGT 2070

Attributes: Université de Saint-Boniface, Recommended Intro Courses

GMGT 2081 Introduction au management et à la théorie de l'organisation 3 cr

Analyse des principaux concepts régissant la formation d'organisations et leur gestion interne. L'accent est mis sur l'analyse de différentes approches théoriques concernant l'organisation et sa gestion. L'étudiant (e) ne peut se faire créditer à la fois le GMGT 2080 et le GMGT 2030.

Equiv To: GMGT 2060, GMGT 2061, GMGT 2080

Mutually Exclusive: GMGT 2030

Attributes: Université de Saint-Boniface, Recommended Intro Courses

GMGT 2121 Les entreprises et le gouvernement 3 cr

Analyse des rapports entre le gouvernement et les entreprises au niveau de la conception, de la modification et de la mise en place des politiques gouvernementales affectant l'entreprise. Analyse des moyens dont disposent les entreprises pour influencer la prise de décision des gouvernements.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: ECON 1200 ou ECON 1201 (D).

Equiv To: GMGT 2120

GMGT 2141 Introduction aux communications 3 cr

Communication orale dans le milieu des affaires. Rédaction de documents écrits venant appuyer les activités d'écoute et de parole. Apprentissage des connaissances grammaticales, syntaxiques et lexicales. Apprendre à s'exprimer en public.

GMGT 3301 Droit commercial 3 cr

Sommaire historique du droit, organisation des tribunaux, constitution du Canada, attributions législatives du gouvernement fédéral et des assemblées provinciales. Notions juridiques et problèmes attenants à: l'organisation des entreprises, la rédaction des contrats, le mandant et le mandataire, les effets négociables, les débits et les procédures de faillite.

Equiv To: GMGT 3300

GMGT 3561 Séminaire en management 3 cr

Analyse de la gestion d'organisation: Réflexion critique sur des sujets d'actualité pertinents. L'étudiant(e) ne peut se faire créditer à la fois le GMGT 3561 et le GMGT 3020 ou le GMGT 3560.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: GMGT 2061 (D) ou GMGT 2060 (D) ou GMGT 2081 (D) ou GMGT 2080 (D) et GMGT 2071 (D) ou GMGT 2070 (D).

Equiv To: GMGT 3020

GMGT 3581 Éthique et responsabilité sociale 3 cr

Le rôle social de l'entreprise. L'environnement interne et externe de l'entreprise; les problèmes sociaux et les activités de responsabilité sociale; l'éthique professionnelle du gestionnaire contemporain, la comptabilité sociale; les groupes défavorisés; etc. On ne peut se faire créditer GMGT 3581.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: GMGT 2071 ou GMGT 2070 ou et GMGT 1011 ou GMGT 1010.

Equiv To: GMGT 3580

GMGT 4011 Gestion stratégique des organisations 3 cr

Étude de la gestion stratégique des organisations. L'étude de cas permettra à l'étudiante ou à l'étudiant d'intégrer les connaissances acquises tout en mettant l'accent sur les questions qui entourent l'élaboration des stratégies et la gestion des politiques établies. Ce cours ne sera suivi qu'à la fin du programme ou avec l'autorisation écrite du professeur ou de la professeure.

Equiv To: GMGT 4010

GMGT 4121 Commerce International 3 cr

Étude des échanges internationaux à travers les politiques économiques internationales, les ententes régionales, les tarifs commerciaux, les institutions internationales et le financement des échanges.

Equiv To: GMGT 4120

GMGT 4151 Gestion des organisations sans but lucratif 3 cr

Description et analyse de la dynamique des organismes sans but lucratif (OSBL) : leur environnement spécifique, leur fonctionnement interne et leurs modes d'intervention dans la communauté. Approfondissement de la compréhension de la spécificité du secteur tertiaire, ce qui rend apte à y intervenir efficacement soit en tant que gestionnaires, soit en tant que bénévoles. On ne peut pas obtenir de crédits à la fois pour GMGT 4151 et GMGT 4150.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : GMGT 2061 ou GMGT 2060, GMGT 2081 ou GMGT 2080, GMGT 2071 ou GMGT 2070, HRIR 2440 ou HRIR 2441.

Equiv To: GMGT 4150

GMGT 4211 Séminaire en gestion et capitalisme 3 cr

Étude des institutions, des évolutions et des débats associés au capitalisme moderne et de leurs implications pour la gestion. Exploration d'autres perspectives de gestion et des interactions bidirectionnelles dans le contexte d'enjeux plus vastes. Cours conçu de manière à présenter une diversité de perspectives afin de ne pas en privilégier une par rapport aux autres. On ne peut se faire créditer le GMGT 4211 et le GMGT 4210.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: GMGT 1011 (D) ou GMGT 1010 (D) ou GMGT 2121 (d) ou GMGT 2120 (D).

Equiv To: GMGT 4210

GMGT 4551 Développement d'habiletés de gestionnaire 3 cr

Développement de certaines habiletés nécessaires au succès professionnel. Les principaux apprentissages sont: la gestion du stress, la communication orale, la négociation, la recherche d'emploi, les techniques de créativité et d'innovation, la gestion des relations vie privée/vie professionnelle.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: GMGT 2070 (D).

Geography (GEOG)

GEOG 1281 Introduction à la géographie humaine 3 cr

Étude des divers aspects du milieu humain: la population, l'habitat et les ressources naturelles. L'étudiant ne peut se faire créditer avec le GEOG 1280, ou GEOG 1200 ou GEOG 1201.

Equiv To: GEOG 1280

Mutually Exclusive: GEOG 1200, GEOG 1201

GEOG 1291 Introduction à la géographie physique 3 cr

Étude des divers aspects de l'environnement physique: le climat, le relief, les sols et la végétation. L'étudiant ne peut se faire créditer avec GEOG 1290, ou GEOG 1200 ou GEOG 1201.

Equiv To: GEOG 1290

Mutually Exclusive: GEOG 1200, GEOG 1201

GEOG 2211 Géographie économique (HS) 6 cr

Introduction à l'expression spatiale des activités économiques. Le cours traite du concept de ressource, de la localisation et de l'utilisation des ressources naturelles, des théories sur les facteurs de localisation des activités industrielles, de l'agriculture et des fondements du développement régional.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans un minimum de 3 heures-crédits de géographie de niveau 1000 ou l'autorisation écrite du professeur.

Equiv To: GEOG 2210

Mutually Exclusive: GEOG 2870

Attributes: Université de Saint-Boniface

GEOG 2213 Géographies autochtones et relations interculturelles 3 cr

L'étude de la relation des peuples autochtones du Canada au milieu, au territoire, à l'urbanisation, au changement culturel et au colonialisme. Concepts et méthodes en géographie historique, sociale, culturelle et critique. L'étudiant ne peut se faire créditer GEOG 2213 et GEOG 3771. Sujets particuliers en géographie: Géographie autochtones et relations interculturelles.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans un minimum de 6 crédits de géographie de niveau 1000 ou l'autorisation professorale.

Mutually Exclusive: GEOG 3771

GEOG 2215 Géographie sociale et culturelle 3 cr

Étude des dimensions socio-culturelles à la base de l'organisation de l'espace, ainsi que de la construction et du développement des paysages humains. Ce cours offre une approche différenciée des expressions possibles du monde social (genre, ethnicité ou classe sociale) par une analyse des processus qui les façonnent et par l'examen de leurs interactions avec les structures spatiales. On ne peut se faire créditer GEOG 2215 et GEOG 3771. Sujets particuliers en géographie: Géographie autochtones et relations interculturelles.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans un minimum de 6 crédits de géographie de niveau 1000 ou l'autorisation professorale.

Mutually Exclusive: GEOG 3771

GEOG 2331 Espace, populations et migrations : perspectives géographiques 3 cr

Étude des facteurs qui déterminent le nombre et la répartition des populations. Analyse des variations dans la fécondité, la mortalité et les migrations, ainsi qu'une analyse des causes et conséquences de ces variations. On ne peut se faire créditer GEOG 2331 et: GEOG 2330, GEOG 2481 ou GEOG 2480.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : Une note minimale de C dans un cours de géographie de 3 crédits de niveau 1000 ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: GEOG 2330

Mutually Exclusive: GEOG 2480, GEOG 2481

GEOG 2541 Météorologie et climatologie (PS) 3 cr

Étude de la nature, des contrôles et des observations du temps et des variations spatio-temporelles du climat.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans un minimum de 3 heures-crédits de géographie de niveau 1000, ou l'autorisation écrite du professeur.

Equiv To: GEOG 2540

Attributes: Université de Saint-Boniface

GEOG 2551 Géomorphologie (PS) 3 cr

Vue d'ensemble des reliefs variés de la surface du globe et des processus géomorphologiques responsables de leur formation. (Laboratoire hebdomadaire).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans un minimum de 3 crédits de géographie de niveau 1000 ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: GEOG 2550

Attributes: Université de Saint-Boniface

GEOG 2651 Géographie politique I 3 cr

Étude des relations qui existent entre l'État et son territoire: sa localisation, ses frontières et ses disparités régionales. On ne peut se faire créditer GEOG 2651 et GEOG 2430.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans un minimum de 3 crédits de géographie de niveau 1000 ou l'autorisation écrite de la professeure ou du professeur.

Mutually Exclusive: GEOG 2430

Attributes: Université de Saint-Boniface

GEOG 2661 Géographie politique II 3 cr

Étude des rapports de force entre les États et leurs relations avec l'espace, les ressources, la population et les groupes ethniques. On ne peut se faire créditer GEOG 2661 et GEOG 2430.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans GEOG 2651 ou l'autorisation écrite de la professeure ou du professeur.

Mutually Exclusive: GEOG 2430

Attributes: Université de Saint-Boniface

GEOG 3411 Géographie de l'eau 3 cr

L'eau, élément essentiel de la géographie physique. Bilan d'eau, cycle hydrologique, infiltration, percolation et écoulement, eaux souterraines, hydrologie fluviale et marine. Cours d'eau, lacs et océans, environnement. On ne peut se faire créditer GEOG 3411 et GEOG 3410.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans le GEOG 1291 ou GEOG 1290 ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: GEOG 3410

Attributes: Université de Saint-Boniface

GEOG 3421 L'eau, enjeu géostratégique 3 cr

L'eau, un enjeu stratégique d'importance: un survol historique des enjeux liés à l'eau et les enjeux actuels, la répartition inégale de la ressource .eau. et son partage équitable, les solutions techniques, économiques, institutionnelles et juridiques envisagées et le droit international.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans le GEOG 1280 ou GEOG 1281, et les deux GEOG 2651 et GEOG 2661 (ou le GEOG 2430, ou l'autorisation écrite du professeur.

Equiv To: GEOG 3420

Attributes: Université de Saint-Boniface

GEOG 3431 Géographie de Canada (A) 3 cr

Étude du Canada par région. On ne peut se faire créditer GEOG 3431 et GEOG 3430, GEOG 2560, GEOG 2570 ou GEOG 3701.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans un minimum de 6 crédits de géographie de niveau 1000, ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: GEOG 2570

Mutually Exclusive: GEOG 2560, GEOG 3700, GEOG 3701

Attributes: Université de Saint-Boniface

GEOG 3481 Particularités de la géographie du Canada (A) 3 cr

Étude des problèmes propres à la géographie canadienne: régions, urbanisme, milieu rural, ressources, utilisation du sol.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans un des cours suivants: GEOG 2560, GEOG 2570, GEOG 3431 ou GEOG 3430, ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: GEOG 3480

Attributes: Université de Saint-Boniface

GEOG 3501 Géographie de l'Europe (A) 6 cr

Vue générale sur la géographie du continent européen et plus spécifiquement sur l'Union européenne. L'accent sera placé sur quelques pays.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans un minimum de 6 heures-crédits de géographie de niveau 1000, ou l'autorisation écrite du professeur.

Equiv To: GEOG 3500

Attributes: Université de Saint-Boniface

GEOG 3761 Sujets particuliers en géographie 6 cr

Le contenu variera d'année en année, il sera donc possible de se faire créditer ce cours plus d'une fois.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : un cours (3 crédits) de niveau 2000 ou 3000 avec une note minimale de C. Préalable : l'autorisation du professeur ou de la professeure.

Equiv To: GEOG 3760

GEOG 3771 Sujets particuliers en géographie 3 cr

Le contenu variera d'année en année, il sera donc possible de se faire créditer ce cours plus d'une fois.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : l'autorisation écrite de la professeure ou du professeur.

Mutually Exclusive: GEOG 2213, GEOG 2215

GEOG 3821 Les territoires de la francophonie mondiale (A, HS) 3 cr

La mise en place des espaces francophones partout dans le monde : le développement et l'éclatement des empires français et belge. La territorialité et l'identité au sein de la francophonie internationale.

Répartition géographique et développement institutionnel. Ententes politiques et aspirations territoriales. On ne peut se faire créditer GEOG 3821 et GEOG 3820.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans un minimum de 6 crédits de géographie de niveau 1000.

Equiv To: GEOG 3820

Attributes: Université de Saint-Boniface

GEOG 3831 L'espace francophone panaméricain (A, HS) 3 cr

L'étude des communautés francophones des Amériques dans le temps et dans l'espace. La mise en place de la francophonie panaméricaine et les circonstances de son éclatement. Ses enjeux économiques, sociaux, politiques et culturels. Les infrastructures, les institutions et les réseaux francophones.

Equiv To: GEOG 3830

Attributes: Université de Saint-Boniface

GEOG 3841 Les espaces francophones de l'Afrique, de l'Asie et de l'Océanie (A, HS) 3 cr

L'étude des communautés francophones africaines, asiatiques et océaniques. Les étapes de la colonisation et de la décolonisation, l'évolution vers l'indépendance et l'accession au statut d'État souverain. La mise en place des infrastructures, des institutions et des réseaux francophones.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans GEOG 3821.

Equiv To: GEOG 3840

Attributes: Université de Saint-Boniface

German (GRMN)

GRMN 1123 Introduction à l'allemand 1 3 cr

Trois heures de cours plus une heure de laboratoire de langue par semaine. Le cours est destiné aux étudiants et aux étudiantes n'ayant aucune connaissance de l'allemand ou n'en ayant qu'une connaissance minime. Le cours comporte une initiation à la grammaire fondamentale, mais l'accent est mis sur le développement d'aptitudes à la lecture et à la conversation. On ne peut se faire créditer GRMN 1123 et l'ancien GRMN 1121 ou GRMN 1120. On ne peut s'inscrire à ce cours si on a déjà obtenu des crédits pour l'allemand 40S ou GRMN 2100 ou GRMN 2101.

Mutually Exclusive: GRMN 1120, GRMN 1121

GRMN 1125 Introduction à l'allemand 2 3 cr

Trois heures de cours plus une heure de laboratoire de langue par semaine. Le cours est destiné aux étudiants et aux étudiantes n'ayant aucune connaissance de l'allemand ou n'en ayant qu'une connaissance minime. Le cours comporte une initiation à la grammaire fondamentale, mais l'accent est mis sur le développement d'aptitudes à la lecture et à la conversation. On ne peut se faire créditer GRMN 1125 et l'ancien GRMN 1121 ou GRMN 1120. On ne peut s'inscrire à ce cours si on a déjà obtenu des crédits pour l'allemand 40S ou GRMN 2100 ou GRMN 2101.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : GRMN 1123.

Mutually Exclusive: GRMN 1120, GRMN 1121

GRMN 2103 Allemand intermédiaire 1 (A) L 3 cr

Trois heures de cours et une heure de conversation par semaine. Révision de la grammaire, exercices, développement des compétences orales pratiques, conversation et usage moderne. Introduction à la prose et à la poésie allemande. On ne peut se faire créditer GRMN 2103 et GRMN 2101 ou GRMN 2100.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : Allemand 40S ou une note minimale de C dans GRMN 1121, GRMN 1120 ou GRMN 1125, ou l'autorisation écrite de la professeure ou du professeur.

Mutually Exclusive: GRMN 2100, GRMN 2101

GRMN 2105 Allemand intermédiaire 2 (A) L 3 cr

Trois heures de cours et une heure de conversation par semaine. Révision de la grammaire, exercices, développement des compétences orales pratiques, conversation et usage moderne. Exploration plus approfondie de la prose et de la poésie allemande. On ne peut se faire créditer GRMN 2105 et GRMN 2101 ou GRMN 2100.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : Allemand 40S ou une note minimale de C dans GRMN 2103, ou l'autorisation écrite de la professeure ou du professeur.

Mutually Exclusive: GRMN 2100, GRMN 2101

GRMN 3201 Deutsche sprachpraxis I 6 cr

Usage de l'allemand contemporain par la conversation, l'écriture et les exercices pratiques; étude de textes fictifs et non-fictifs et de films. L'accent est mis sur l'acquisition de vocabulaire et sur les particularités stylistiques et structurelles. On ne peut se faire créditer le GRMN 3201 et le GRMN 3200.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans GRMN 2100 ou GRMN 2101.

Equiv To: GRMN 3200

Attributes: Université de Saint-Boniface, Humanities

GRMN 3211 Allemand commercial 6 cr

Initiation, au moyen d'exercices oraux et écrits, au vocabulaire commercial et aux techniques d'écriture dans le domaine des affaires. Révision de la grammaire allemande avec l'accent sur la composition et la conversation appliquées au domaine commercial. On ne peut se faire créditer GRMN 3211 et GRMN 3210.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: [une note minimale de C dans GRMN 2101 ou GRMN 2100 ou le GRMN 2110] ou l'autorisation écrite du professeur ou de la professeure.

Mutually Exclusive: GRMN 3230

Attributes: Université de Saint-Boniface, Humanities

GRMN 3601 Sujets particuliers 3 cr

Contenu variable en fonction des besoins et des intérêts des étudiantes et des étudiants et de la professeure ou du professeur. On ne peut se faire créditer GRMN 3601 et GRMN 3600. Le contenu variera d'année en année, il sera donc possible de se faire créditer ce cours plus d'une fois.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans GRMN 2101 ou GRMN 2100, ou l'autorisation écrite de la professeure ou du professeur.

Attributes: Université de Saint-Boniface, Humanities

History (HIST)

HIST 1203 Introduction à la civilisation occidentale I (E) 3 cr

Aperçu de l'histoire politique, sociale et culturelle du monde occidental de l'Antiquité à 1648. Étude de l'Antiquité gréco-romaine, du Moyen-Âge en Europe occidentale et orientale, de la Réforme et des guerres de religions. Approche globale de l'histoire, situant les interactions de l'Occident avec le reste du monde, notamment le monde musulman et l'Asie. On ne peut se faire créditer HIST 1203 et HIST 1200, ou HIST 1350, ou HIST 1360, ou l'ancien HIST 1201.

Mutually Exclusive: HIST 1200, HIST 1201, HIST 1350, HIST 1360

HIST 1205 Introduction à la civilisation occidentale II (E) 3 cr

Aperçu de l'histoire politique, sociale et culturelle du monde occidental de 1648 à nos jours. Étude des explorations maritimes, des révolutions, de l'émergence de l'État-nation, de la révolution industrielle et des guerres du XXe siècle. Approche globale de l'histoire, soulignant les interactions entre l'Occident et le reste du monde. On ne peut se faire créditer HIST 1205 et HIST 1200, ou HIST 1350, ou HIST 1360, ou l'ancien HIST 1201.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: Une note minimal de C dans HIST 1203 ou l'autorisation professorale.

Mutually Exclusive: HIST 1200, HIST 1201, HIST 1350, HIST 1360

HIST 1401 Histoire du Canada, des origines à 1800 (C) 3 cr

Étude générale de l'histoire du Canada, des <<origines>> à 1800. Analyse des personnages, institutions et processus ayant marqué l'histoire du Canada durant cette période. Étude de la diversité géographique, sociale et sociale et culturelle du Canada. Sociétés amérindiennes, colonisations européennes, Régime français, Conquête britannique, etc. On ne peut se faire créditer HIST 1401 et HIST 1440, ou HIST 1390, ou HIST 1400 ou l'ancien HIST 1441.

Mutually Exclusive: HIST 1390, HIST 1400, HIST 1440, HIST 1441

HIST 1403 Histoire du Canada, de 1800 à aujourd'hui (C) 3 cr

Étude générale de l'histoire du Canada, du XIXe siècle à aujourd'hui. Analyse des personnages, des institutions et des processus ayant marqué l'histoire du Canada durant cette période: immigration, rébellions, Acted'Union, industrialisation, Confédération, développement de l'Ouest, rôle du Canada dans les guerres mondiales, crise et prospérité économiques, enjeux constitutionnels, le Canada et le monde. On ne peut se faire créditer HIST 1403 et HIST 1440, ou HIST 1390, ou HIST 1400, ou l'ancien HIST 1441.

Mutually Exclusive: HIST 1390, HIST 1400, HIST 1440, HIST 1441

HIST 2041 Histoire des États-Unis jusqu'en 1877 (A) 3 cr

Une vue générale du développement du peuple américain et de l'établissement jusqu'à la période de Reconstruction. L'étudiant(e) ne peut se faire créditer à la fois le HIST 2041 et le HIST 2230.

Mutually Exclusive: HIST 2230

Attributes: Université de Saint-Boniface, Humanities

HIST 2089 Histoire contemporaine de la Chine (B) 3 cr

Étude de l'histoire contemporaine de la Chine, de 1912 à nos jours. Analyse des dimensions politiques, économiques et culturelles de la chute de l'Empire chinois, de l'émergence des partis nationalistes et communistes, de la guerre civile, de la République populaire de Chine et des autres Chines à Taiwan et outre-mer. On ne peut se faire créditer HIST 2089 et l'ancien HIST 3121 Sujets spéciaux 2: Histoire de la chine, HIST 3121 ou HIST 2654 ou HIST 2650.

Mutually Exclusive: HIST 2650, HIST 2654, HIST 3121

HIST 2213 Histoire des guerres du Vietnam (B) 3 cr

Étude des dimensions locale, régionale, nationale et internationale des trois guerres du Vietnam (1946-1954, 1965-1975, 1978-1989). Analyse des conflits, tels des affrontements au niveau local, régional, national et international, impliquant le Vietnam, la France, les États-Unis, mais ainsi que la Chine et le Cambodge. On ne peut se faire créditer HIST 2213 et l'ancien HIST 3121 Sujets spéciaux 1: Histoire des guerres du Vietnam.

Mutually Exclusive: HIST 3121

HIST 2215 Introduction à l'histoire de l'Afrique (R) 3 cr

Introduction aux principaux développements politiques, économiques et culturels de l'Afrique de l'émergence des civilisations à nos jours. Approche globale de l'histoire visant à étudier les relations entre les populations du continent africain entre elles et avec le reste du monde. On ne peut se faire créditer HIST 2215 et HIST 2500.

Mutually Exclusive: HIST 2500

HIST 2217 Histoire des sciences (T) 3 cr

Étude générale de l'histoire des sciences, des <<origines>> à nos jours. Analyse des mutations de la pensée scientifique notamment durant les périodes de l'Antiquité, du Moyen Âge, de la Modernité et de l'Époque contemporaine et sur les espaces européen, asiatique, américain et africain. Introduction à l'épistémologie: notions de science, de vérité et d'objectivité.

HIST 2219 Introduction à l'histoire du genre (T) 3 cr

Analyse historique de différents thèmes reliés à l'histoire du genre de l'Antiquité à nos jours. Parmi les thèmes abordés: corps et sexualité, genre et relations à l'autre et, masculinité et, féminité, dans la Rome antique, l'Europe, le monde musulman, les empires et les guerres mondiales. Introduction au genre comme catégorie d'analyse.

HIST 2221 L'Amérique latine de l'indépendance à nos jours (A) 3 cr

Étude historique de l'Amérique latine des XIXe et XXe siècles. Analyse des moments majeurs correspondant à des changements importants tant du point de vue socio-économiques que politique, tels que les débuts de l'indépendance (1820-1850), le libéralisme oligarchique (1860-1920), le populisme et ses crises (1930-1980), le néolibéralisme (1990-). On ne peut se faire créditer HIST 2221 et HIST 2150.

Equiv To: HIST 2150

HIST 2283 Histoire des francophones de l'Ouest canadien (C) 3 cr

Étude historique et thématique du fait français de l'Ouest canadien (Man., Sask., Alb., C.-B.) de ses premiers établissements au XVIIIe siècle jusqu'aux communautés actuelles. Différents événements, processus historiques et thèmes (socio-économie, politique, culture, religion) seront analysés. La francophonie ouest-canadienne se compose de communautés minoritaires ayant des histoires propres sans être isolées les unes des autres.

HIST 2285 Histoire du cinéma (T) 3 cr

Analyse du cinéma comme produit, agent et médium de représentation de l'Histoire. Étude des enjeux reliés à la narration par l'image en mouvement et des bulletins cinématographiques d'actualités. Étude des représentations du passé et du futur, comme les films sur l'Antiquité, les guerres mondiales, et la science-fiction.

HIST 2311 Sujet choisi en histoire I (T) 3 cr

Étude un thème choisi en histoire. Le contenu varie d'année en année. Il sera donc possible de se faire créditer ce cours plus d'une fois.

HIST 2361 L'Europe de 1870 à nos jours (E) 3 cr

Étude historique des événements, enjeux et processus ayant marqué l'Europe depuis 1870 tels que l'unification allemande et la guerre franco-prussienne, l'industrialisation, les tensions de classes et le socialisme, le nouvel impérialisme et les fascismes, le féminisme, les guerres mondiales, la Révolution russe, l'entre-deux-guerres, la Guerre Froide, l'État providence et sa remise en cause néolibérale et l'unification européenne. On ne peut se faire créditer HIST 2361 et HIST 2360.

Equiv To: HIST 2360

HIST 2661 Histoire de l'Union soviétique (E) 3 cr

Une attention particulière sera donnée à la Révolution russe de 1917, à la nature et au fonctionnement du système politique soviétique, aux expériences sociales et économiques du régime soviétique ainsi qu'au rôle des Soviétiques dans la politique internationale. L'étudiant(e) qui détient le crédits du HIST 2661 ne peut se faire créditer aucun des cours HIST 2660, HIST 2490 ou l'ancien HIST 3471.

Equiv To: HIST 2660

Mutually Exclusive: HIST 2490, HIST 3471

Attributes: Université de Saint-Boniface, Humanities

HIST 2671 Histoire du capitalisme (T) 3 cr

Étude de l'émergence et de l'évolution de capitalisme ainsi que de ses conséquences sociales du 15e siècle jusqu'à nos jours. L'étudiant(e) ne peut se faire créditer à la fois le HIST 2671 et le HIST 2670.

Equiv To: HIST 2670

Attributes: Université de Saint-Boniface, Humanities

HIST 2675 Histoire du communisme (T) 3 cr

Étude histoire du communisme et d'autres formes de contestation du capitalisme. Analyse des idées, des systèmes communistes en Europe, en Asie, en Amérique latine, en Afrique et des mouvements transnationaux de solidarité internationale.

HIST 2761 Histoire des États-Unis depuis 1877 (A) 3 cr

Une revue générale du développement du peuple américain à partir de la Reconstruction jusqu'au présent. L'étudiant(e) qui détient le crédits du HIST 2761 ne peut se faire créditer aucun des cours HIST 2760 ou HIST 2230.

Equiv To: HIST 2760

Mutually Exclusive: HIST 2230

Attributes: Université de Saint-Boniface, Humanities

HIST 2841 Histoire de la Russie jusqu'en 1917 (E) 3 cr

Un survol historique du développement de la Russie jusqu'à la fin de la période impériale. L'étudiant(e) qui détient le crédits du HIST 2841 ne peut se faire créditer aucun des cours HIST 2840 ou HIST 2490 ou l'ancien HIST 3471.

Equiv To: HIST 2840

Mutually Exclusive: HIST 2490, HIST 3471

Attributes: Université de Saint-Boniface, Humanities

HIST 2991 Histoire de l'Église catholique depuis 1540 (T) 3 cr

Histoire de l'Église catholique depuis 1540 jusqu'à nos jours. On portera attention particulièrement à la réponse que l'Église a donnée à la modernisation du monde ainsi qu'à l'évolution théologique et aux réformes institutionnelles. L'étudiant(e) ne peut se faire créditer à la fois le HIST 2991 et le HIST 2990.

Equiv To: HIST 2990

Attributes: Université de Saint-Boniface, Humanities

HIST 3011 La guerre au 20e siècle (T) 3 cr

Ce cours aborde le phénomène de la guerre au 20e siècle dans tous ses aspects: militaires, économiques, sociaux, culturels, humains. Il sera question des deux guerres mondiales et de la Guerre froide mais aussi des guerres régionales ou locales. Nous traiterons aussi des différentes formes que la guerre a prises au siècle dernier: décolonisation, guérilla, terrorisme.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: [avoir obtenu une note minimale de C dans six crédits en histoire] ou l'autorisation écrite de la professeure ou du professeur.

Attributes: Université de Saint-Boniface, Humanities

HIST 3031 Histoire de la francophonie canadienne minoritaire (C) 3 cr

Étude historique et thématique de la francophonie canadienne minoritaire à travers ses différentes communautés, des premiers établissements en Acadie et dans la vallée du Saint-Laurent, aux implantations contemporaines en Ontario, en Acadie de l'Atlantique et dans l'Ouest canadien. Les thèmes abordés comprennent notamment l'économie, les structures sociales, les institutions, les références identitaires et le juridique. On ne peut se faire créditer HIST 3031 et l'ancien HIST 3781 Études choisies en histoire du Canada I: La francophonie minoritaire canadienne ou HIST 3781 Les communautés francophones minoritaires du Canada.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans 6 crédits en histoire ou l'autorisation professorale.

Mutually Exclusive: HIST 3780, HIST 3781

HIST 3087 L'Asie et le monde (B) 3 cr

Étude historique des relations intérieures et extérieures de l'Asie, de l'Antiquité à nos jours de vue politique, économique, social et culturel. On ne peut se faire créditer HIST 3087 et l'ancien HIST 3111 Sujets spéciaux 1: L'Asie et le monde.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans 6 crédits en histoire ou l'autorisation professorale.

Mutually Exclusive: HIST 3111

HIST 3093 Histoire des empires (T) 3 cr

Étude comparée des empires de l'Antiquité à nos jours. Analyse des stratégies employées pour conquérir et maintenir le pouvoir sur des territoires et des populations diverses. On ne peut se faire créditer HIST 3093 et l'ancien HIST 3111 Sujets spéciaux 1: Histoire des empires.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans 6 crédits en histoire ou l'autorisation professorale.

Mutually Exclusive: HIST 3111

HIST 3095 La guerre de Sécession: causes, déroulement et conséquences (A) 3 cr

Étude historique de la guerre de Sécession de ses causes profondes (tensions entre État fédéral et États, esclavagisme, clivages Nord-Sud) et cause immédiates (élection Lincoln), de son déroulement (batailles, décisions politiques et tournants) et de ses conséquences (Reconstruction). On ne peut se faire créditer HIST 3095 et l'ancien HIST 3761 Sujets particuliers en histoire des États-Unis I: La guerre de sécession: causes, déroulement et conséquences.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans 6 crédits en histoire ou l'autorisation professorale.

Mutually Exclusive: HIST 3760, HIST 3761

HIST 3097 Histoire du Manitoba (C) 3 cr

Étude historique du Manitoba de ses origines à nos jours. Analyse des peuples, personnages, événements et processus structurants, tels que les Premières Nations, les Métis, les missionnaires, la traite des fourrures, l'entrée dans la Confédération, la question scolaire, la francophonie, les crises, l'immigration. On ne peut se faire créditer HIST 3097 et l'ancien HIST 3721.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans 6 crédits en histoire ou l'autorisation.

Mutually Exclusive: HIST 3721

HIST 3101 Histoire de l'Éducation en Occident depuis 1500, une introduction (T) 3 cr

Introduction à l'histoire de l'éducation en Occident. Présentation des grands jalons au cours des cinq cents dernières années. Parmi les thèmes abordés, il y aura la création et de l'évolution des différents niveaux d'écoles, la programmation, le financement, la place de l'Église et celle de l'État dans l'éducation, les méthodes d'enseignement, les différences entre les sexes, la progression de l'alphabétisation et de la scolarisation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: [avoir obtenu une note minimale de C dans six crédits en histoire] ou l'autorisation écrite de la professeure ou du professeur.

Attributes: Université de Saint-Boniface, Humanities

HIST 3103 Histoire contemporaine des religions au XIXe et XXe siècle (T) 3 cr

Étude des mouvements religieux et de leurs transformations au cours de l'histoire des dix-neuvième et vingtième siècles. Étude du christianisme, de l'islam, du bouddhisme, des religions syncrétiques et des mouvements millénaristes. Analyse de leur rôle dans la colonisation, la décolonisation et les mouvements nationalistes. Analyse de leur lien avec le capitalisme, le communisme et la guerre froide.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans 6 crédits en histoire ou l'autorisation professorale.

HIST 3111 Sujets spéciaux 1 (G) 3 cr

Occasion d'étudier un thème choisi en histoire. Le contenu varie mais doit comprendre un travail en histoire sociale ou culturelle ou sur un sujet spécifique. Consulter le département d'histoire et le Guide d'inscription.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: [avoir obtenu une note minimale de C dans six crédits en histoire] ou l'autorisation écrite de la professeure ou du professeur. Le contenu variera d'année en année alors l'étudiant(e) peut se faire créditer ce cours plus d'une fois.

Mutually Exclusive: HIST 3087, HIST 3093

Attributes: Université de Saint-Boniface, Humanities

HIST 3141 Histoire de la démocratie (T) 3 cr

Ce cours aborde un sujet au coeur de l'actualité: la démocratie et, plus spécialement la démocratisation des États dans le monde depuis le 19e siècle. Nous abordons les aspects théoriques de la démocratie et l'évolution de la mise en pratique de la théorie démocratique.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: [avoir obtenu une note minimale de C dans six crédits en histoire] ou l'autorisation écrite de la professeure ou du professeur.

Attributes: Université de Saint-Boniface, Humanities

HIST 3227 Philosophie de l'histoire (T) 3 cr

Introduction à la philosophie de l'histoire. Étude historique des réflexions philosophiques concernant le processus et le pratique historique, à travers les œuvres notamment de saint Augustin, Hegel, Marx, Collingwood, Hempel, Riccoeur. Réflexion sur la pertinence de la philosophie de l'histoire pour les historiens. Aussi offert sous la cote PHIL 3227. On ne peut se faire créditer HIST 3227 et PHIL 3227.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans 6 crédits en histoire ou en philosophie ou l'autorisation professorale.

Equiv To: PHIL 3227

HIST 3301 Histoire du terrorisme contemporain (T) 3 cr

Étude d'un aspect particulier des conflits sociopolitiques qui ont marqué l'histoire contemporaine : le terrorisme. L'évolution historique de ce phénomène est traitée tant du point de vue de sa notion / définition(s), son / ses idéologie (s), ses objectifs ou buts, que de ses revendications, sa géographie et ses méthodes d'action.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans 6 crédits en Histoire ou l'autorisation écrite de la professeure ou du professeur.

Attributes: Université de Saint-Boniface

HIST 3311 Sujet choisi en histoire II (T) 3 cr

Étude d'un thème choisi en histoire. Le contenu variera d'année, il est donc possible de se faire créditer ce cours plus d'une fois.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans 6 crédits en histoire ou l'autorisation ou l'autorisation professorale.

HIST 4013 Qu'est-ce que l'histoire? Perspectives philosophiques et sociales (T) 3 cr

Questionnement sur la nature de la connaissance historique, tant du point de vue philosophique que social. Analyse des fins et des moyens de la connaissance historique. Étude des fonctions sociales de l'histoire: mémoire, enseignement, musée, patrimoine.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: avoir obtenu un minimum de 30 crédits, dont 9 en histoire, ou l'autorisation professorale.

HIST 4421 Histoire de l'histoire (T) 3 cr

Analyse du développement de la pratique historique de ses origines jusqu'à nos jours. Étude des approches du savoir historique ayant marqué son histoire dont l'histoire-enquête grecque, l'histoire-magistra vitae romaine, l'histoire théologique médiévale, l'histoire érudite moderne, l'histoire méthodique, les > histoires.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: avoir obtenu un minimum de 30 crédits, dont 9 en histoire, ou l'autorisation professorale.

Human Res. Mgmt/Indus Relat. (HRIR)

HRIR 2441 Gestion des ressources humaines 1 3 cr

Introduction au système de gestion des ressources humaines. Les sujets abordés ont trait à: la planification, l'analyse de postes, la formation, la gestion de la diversité, la gestion des carrières. l'évaluation du rendement, l'acquisition des ressources humaines, les modes de reconnaissance et la problématique de la gestion des ressources humaines dans un contexte en constant changement. On ne peut se faire créditer à la fois le HRIR 2441 et le HRIR 2440.

Equiv To: HRIR 2440

Mutually Exclusive: ABIZ 2620, AGRI 3030, DAGR 0530

HRIR 3451 Relations industrielles 3 cr

Equiv To: HRIR 3450

HRIR 3511 Gestion des ressources humaines 2 3 cr

La planification des tâches, la structuration des rôles et du travail, la coordination et la réalisation des activités feront l'objet d'un apprentissage théorique associé au développement d'habiletés.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: HRIR 2440 (D).

HRIR 3541 Gestion des équipes de travail 3 cr

Initiation à la gestion des équipes de travail en mettant l'accent sur les dimensions humaines et administratives du travail en équipe.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: GMGT 2070 (D).

HRIR 4411 Dotation et développement des ressources humaines 3 cr

Le cours est une analyse approfondie et pratique des problèmes de dotation et de développement des ressources humaines au sein des organisations. À travers ce cours, les étudiant(e)s développeront leurs habiletés d'intervention dans des domaines tels que la planification des emplois, le recrutement et la sélection, l'évaluation de la performance, l'analyse des besoins de formation, l'implantation et le contrôle d'un programme de formation, etc.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: HRIR 2440 (D).

Equiv To: HRIR 4410

HRIR 4421 Rémunération 3 cr

Ce cours est une analyse des principaux concepts et des systèmes de rémunération incluant: stratégie, équité salariale, compétitivité, reconnaissance des contributions individuelles, incitatifs de performance, avantages sociaux, politiques gouvernementales, rôle des syndicats dans la rémunération, incidences et gestion du processus de rémunération.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: HRIR 2440 (D).

Equiv To: HRIR 4420

HRIR 4481 La négociation collective 3 cr

Ce cours est une analyse des éléments et enjeux de la négociation collective et de la gestion des conventions collectives et une analyse du cadre juridiques des négociations publiques et privées. Le système canadien de relations industrielles est comparé à d'autres systèmes nationaux.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: HRIR 3450 (D).

Equiv To: HRIR 4480

HRIR 4511 Gestion de la diversité 3 cr

La gestion de la diversité du point de vue historique, social, légal et opérationnel. L'influence de la diversité de la main-d'oeuvre sur les politiques, les pratiques et les procédures de l'organisation. Modèle du développement organisationnel pluraliste relié à un ensemble de systèmes sociaux.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: HRIR 2440 (D).

HRIR 4521 Relations industrielles et gestion des ressources humaines comparées 3 cr

Perspective internationale des relations industrielles (RI) et de la gestion des ressources humaines (GRH) par l'analyse et l'étude comparée des systèmes de relations industrielles et des pratiques de gestion des ressources humaines dans certains pays ainsi que des développements actuels. Théories et questions pertinentes à cette matière. On ne peut se faire créditer le HRIR 4521, le HRIR 4520. Préalable recommandé mais non obligatoire: le HRIR 3451.

Equiv To: HRIR 4520

HRIR 4531 Gestion du changement 3 cr

Changement et développement organisationnel: processus de changement, agent de changement. Domaines d'intervention: changements dans l'environnement et l'organisation, processus sociaux, culture d'entreprise, techno-structure, qualité de vie au travail. Dilemmes et perspectives.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: HRIR 2440 (D).

HRIR 4541 Innovations en gestion des ressources humaines 3 cr

Présentation des nouveaux courants en gestion des ressources humaines; examen de ses fondements, présentation des modèles d'implantation et en analyse critique.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: HRIR 2441 (HRIR 2440).

Intercultural Studies - CUSB (INTC)

INTC 1101 Introduction aux relations interculturelles 3 cr

Initiation à l'étude des rapports entre les groupes culturels. Survol des principales approches théoriques employées en sciences humaines et sociales. Application de ces théories pour explorer des enjeux interculturels contemporains tels que l'immigration, la réconciliation avec les peuples autochtones, le racisme, les conflits ethniques et religieux, et les politiques d'accommodation de la diversité.

INTC 2203 Penser le leadership 3 cr

Étude interdisciplinaire de la théorie et la pratique du leadership. Survol des grandes approches éthiques pouvant guider la prise de décision. Description des sources psychologiques et sociales du leadership, des types de leaders et de leur impact. Présentation de quelques techniques de persuasion et d'activisme employées par les leaders. On ne peut se faire créditer INTC 2203 et PHIL 2203.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans 15 crédits universitaires.

Equiv To: PHIL 2203

INTC 3101 Médiation et communications interculturelles 3 cr

Initiation à la pratique de la médiation culturelle. Exercices de perfectionnement des compétences interculturelles. Survol de méthodes d'intervention pour réduire les conflits et faciliter le rapprochement entre groupes majoritaires, peuples autochtones et métis, communautés francophones et personnes migrantes.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans 45 crédits universitaires.

INTC 3103 Sujet choisi en études interculturelles 3 cr

Occasion d'étudier un thème choisi en études interculturelles. Le contenu du cours varie, mais il vise à faire un travail sur un sujet précis touchant les rapports entre les cultures (consulter un professeur ou une professeure de la Faculté et le Guide d'inscription). Le contenu variera d'année, il est donc possible de se faire créditer ce cours plus d'une fois.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans 6 crédits de la majeure en leadership interculturel ou l'autorisation professorale.

Interdisciplinary Management (IDM)

IDM 2983 Stage coopératif I 1 cr

Stage de travail rémunéré dans le domaine des affaires, en industrie ou dans le secteur public pour l'étudiante ou l'étudiant inscrit au programme coopératif de l'École d'administration des affaires. On ne peut se faire créditer IDM 2983 et (IDM 2980 ou IDM 2982).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: Permission écrite du Comité du programme coopératif de l'École d'administration des affaires.

Mutually Exclusive: IDM 2980, IDM 2982

IDM 3983 Stage coopératif II 1 cr

Stage de travail rémunéré dans le domaine des affaires, en industrie ou dans le secteur public pour l'étudiante ou l'étudiant inscrit au programme coopératif de l'École d'administration des affaires. On ne peut se faire créditer IDM 3983 et (IDM 3980 ou IDM 3982).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: IDM 2983 (C) et la permission écrite du Comité du programme coopératif de l'École d'administration des affaires.

Mutually Exclusive: IDM 3980, IDM 3982

IDM 4983 Stage coopératif III 1 cr

Stage de travail rémunéré dans le domaine des affaires, en industrie ou dans le secteur public pour l'étudiante ou l'étudiant inscrit au programme coopératif de l'École d'administration des affaires. On ne peut se faire créditer IDM 4983 et (IDM 4980 ou IDM 4982).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: IDM 3983 (C) et la permission écrite du Comité du programme coopératif de l'École d'administration des affaires.

Mutually Exclusive: IDM 4980, IDM 4982

International Business (INTB)

INTB 2201 Introduction au management international 3 cr

Acquisition de connaissances et de savoir-faire relatifs à la gestion, au maintien et au contrôle du flux international de personnes, d'informations, de fonds, de biens ou de services, à des fins commerciales, entrepreneuriales ou caritatives.

Equiv To: INTB 2200

INTB 3001 Gestion interculturelle 3 cr

Mise en évidence de l'influence de facteurs culturels sur les pratiques de gestion et la vie des entreprises. Présentation des dimensions de la culture de chaque pays étudié (religion, valeurs, normes, histoire, etc.) et développement d'outils pour faciliter l'adaptation des employés étrangers dans ces pays et le développement d'une communication interculturelle efficace avec leurs ressortissants. On ne peut se faire créditer INTB 3001 et GMGT 3521 ou INTB 4501.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: GMGT 2071.

INTB 4501 Cultures du monde 3 cr

Un aperçu des principales cultures du monde. Étude des relations entre la culture d'un peuple et ses rapports économiques internationaux.

INTB 4581 Problèmes contemporains en gestion internationale 3 cr

Étude des thèmes relatifs aux problèmes et aux défis que pose la gestion dans un contexte international. Le contenu du cours peut varier d'une année à l'autre en fonction de l'actualité, des besoins et des intérêts de la clientèle étudiante.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: INTB 2201 ou GMGT 4121 ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: INTB 4580

International Studies - CUSB (INTL)

INTL 1011 Introduction aux études internationales 3 cr

Introduction à l'étude du monde contemporain sous un angle interdisciplinaire. Le cours analyse les fondements historique, politique et les principaux outils méthodologiques et théoriques qui président à l'étude de la société internationale contemporaine.

Attributes: Université de Saint-Boniface

INTL 3011 Sujets particuliers en études internationales 3 cr

Le contenu du cours variera. Contacter le secteur pour une description de cours.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: consentement écrit du chef de département.

Attributes: Université de Saint-Boniface

Management Info. Systems (MIS)

MIS 2001 Les systèmes d'information de gestion 3 cr

(Laboratoire requis) Introduction aux systèmes d'information dans les organisations, au développement et à l'acquisition des systèmes et à la gestion des systèmes d'information. On ne peut se faire créditer ACC 1101 et ACC 1100

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: ACC 1101 ou ACC 1100 avec une note minimale de D, ou l'autorisation écrite du professeur.

Equiv To: MIS 2000

Management Science (MSCI)

MSCI 2151 Introduction aux sciences de la gestion 3 cr

Introduction aux techniques et aux modèles des sciences de la gestion. La programmation linéaire, les problèmes d'affectation et de transport, la théorie de la décision et les files d'attente. On ne peut se faire créditer MSCI 2151 et MSCI 2150 ou ABIZ 2520.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : Une note minimale de C dans (MATH 1520 ou MATH 1501 ou MATH 1500 ou MATH 1230) et (STAT 1150 ou STAT 1001 ou STAT 1000).

Equiv To: ABIZ 2520, MSCI 2150

MSCI 3401 Sciences de la gestion II 3 cr

Modèles de recherche opérationnelle utilisés dans l'analyse de problèmes de gestion. Les réseaux, les problèmes d'inventaire du point de vue déterministe, la programmation dynamique, la théorie des jeux. On ne peut se faire créditer MSCI 3401 et MSCI 3400.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : MSCI 2151 ou MSCI 2150, ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: MSCI 3400

Marketing (MKT)

MKT 2211 Principes de marketing 3 cr

Analyse des problèmes précis de marketing, l'accent étant mis sur l'analyse de différentes façons de maximiser les bénéfices dans le processus de la distribution des biens et des services; le marketing et la société.

Equiv To: MKT 2210

Attributes: Université de Saint-Boniface, Recommended Intro Courses

MKT 3221 Recherche en marketing 3 cr

Étude de la planification et de la mise en oeuvre de la recherche comme exigence pour prendre des décisions éclairées en marketing. On ne peut se faire créditer MKT 3221 et MKT 3220.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: Une note minimale de D dans MKT 2211 ou MKT 2210 ou l'autorisation professorale.

Equiv To: MKT 3220

MKT 3231 Comportement du consommateur 3 cr

Étude de l'influence de l'environnement et de l'influence individuelle sur le comportement du consommateur.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: MKT 2210 (D).

Equiv To: MKT 3230

MKT 3291 Publicité 3 cr

Analyse du rôle et de la gestion de la publicité dans le cadre du plan marketing. Théorie de la communication et la formulation de messages publicitaires, établissement du budget, la sélection des médias et l'analyse de l'efficacité de la publicité.

MKT 3301 Marketing international 3 cr

Analyse comparée des structures, des fonctions et des processus de marketing dans des environnements sociaux, culturels et économiques variés. Diagnostic de l'environnement externe et élaboration des stratégies de marketing mix international.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : MKT 2211.

Attributes: Université de Saint-Boniface

MKT 3311 Gestion de commerce de détail et du canal de distribution 3 cr

Equiv To: MKT 3310

MKT 4211 Gestion du marketing 3 cr

Examen des stratégies et des tactiques marketing que les managers utilisent pour leurs produits et services à différents niveaux du cycle de vie du produit. Utilisation des analyses qualitatives et quantitatives pour développer la pensée critique essentielle à la prise de décision en marketing. Ne peut être pris qu'en dernière année du programme. On ne peut se faire créditer le MKT 4211 et le MKT 4210.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: [(MKT 3221 (D) ou le MKT 3220 (D) ou le MKT 3231 (D) ou le MKT 3230 (D)] et un cours additionnel de marketing niveau 3000 ou 4000 (D) et [ACC 1111 (D) ou ACC 1110 (D)]. Prérequis ou concomitant: seulement un des deux cours suivants: (MKT 3221 ou le MKT 3220 (D) ou MKT 3231 ou le MKT 3230 (D)).

Equiv To: MKT 4210

MKT 4271 Administration des ventes 3 cr

Analyse de l'administration de la vente personnelle, y compris l'analyse la fonction-vente, la supervision de la force de vente et la gestion des ventes.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: MKT 2210 (D).

Equiv To: MKT 4270

Mathematics (MATH)

MATH 1081 Principes fondamentaux du raisonnement mathématique 3 cr

(Laboratoire requis) La logique, le raisonnement, la résolution de problèmes, une introduction à la théorie des ensembles, l'induction mathématique, une introduction à la théorie des nombres, les bases de l'arithmétique et les algorithmes standard, l'utilisation des fractions et des fonctions. Ce cours est recommandé pour les étudiants qui aimeraient devenir enseignant au niveau élémentaire ou intermédiaire. On ne peut se faire créditer MATH 1081 et MATH 1080.

Equiv To: MATH 1080

Attributes: Mathematics Requirement

MATH 1091 Raisonnement mathématique en géométrie euclidienne 3 cr

(Laboratoire requis) Introduction à la géométrie euclidienne avec emphase sur le raisonnement mathématique. Périmètre, aire, volume. congruence de triangles, lignes parallèles et quadrilatères, similitudes, cercles, géométrie des coordonnées et géométrie des transformations. Ce cours est recommandé pour les étudiants qui aimeraient devenir enseignant au niveau élémentaire ou intermédiaire. On ne peut se faire créditer MATH 1091 et MATH 1090.

Equiv To: MATH 1090

Attributes: Mathematics Requirement

MATH 1191 Sujets choisis en mathématiques 6 cr

Cours offrant aux étudiants et aux étudiantes de diverses facultés un aperçu des mathématiques modernes. Sujets à l'étude tirés des systèmes de nombres, de la géométrie et de la combinatoire. Cours terminal et ne pouvant être reconnu comme préalable à aucun autre cours universitaire en mathématiques. Ne peut pas être reconnu aux fins d'un programme spécialisé ou général, majeure ou mineure en sciences mathématiques. Sont exclus ceux qui ont obtenu une note de C ou plus dans un cours de mathématiques, à l'exception de MATH 1010 ou MATH 1020 (FA 1020). Seul concomitant en mathématiques : MATH 1010 ou MATH 1020 (FA 1020). Aucun préalable.

Mutually Exclusive: MATH 1201, MATH 1210, MATH 1211, MATH 1220, MATH 1230, MATH 1232, MATH 1240, MATH 1241, MATH 1300, MATH 1301, MATH 1310, MATH 1500, MATH 1501, MATH 1510, MATH 1520, MATH 1690, MATH 1700, MATH 1701, MATH 1710

Attributes: Université de Saint-Boniface, Mathematics Requirement, Science, Recommended Intro Courses

MATH 1211 Techniques d'algèbre classique et linéaire 3 cr

(Laboratoire requis) Introduire une variété de concepts algébriques pratiques et d'outils nécessaires pour l'étude du calcul et des mathématiques avancées de l'ingénieur. L'emphase est mise sur le développement d'une méthodologie et d'outils algébriques nécessaires pour la réussite d'études plus avancées dans les mathématiques de l'ingénieur. Ce cours s'adresse uniquement aux étudiants en génie et en géophysique. On ne peut se faire créditer MATH 1211 et aucun de MATH 1210, MATH 1200, MATH 1201, MATH 1300, MATH 1301, MATH 1310.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de 60% dans Mathématiques 40S (précalcul) ou l'ancien Mathématiques 40S (300) ou une note minimale de 60% dans le cours Mathematical Skills offert par la Extended Education Division de l'Université du Manitoba ou le cours MATH 0401 Habiletés mathématiques offert à l'Université de Saint-Boniface.

Equiv To: MATH 1210

Mutually Exclusive: FA 1020, MATH 1010, MATH 1018, MATH 1020, MATH 1191, MATH 1200, MATH 1201, MATH 1220, MATH 1300, MATH 1301, MATH 1310

Attributes: Université de Saint-Boniface

MATH 1241 Éléments de mathématiques discrètes 3 cr

(Laboratoire requis) Ce cours est destiné aux étudiantes et aux étudiants des disciplines riches en mathématiques. Introduction aux idées mathématiques, aux méthodes et techniques de démonstration et à l'écriture mathématiques, exploré à partir de sujets des mathématiques discrètes. On ne peut se faire créditer MATH 1241 et MATH 1240 ou MATH 3120.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : [une note minimale de 60% en MATH 40S pré-calcul (ou l'ancien MATH 405 (300))] ou [MATH 0401 ou MSKL 0100].

Equiv To: MATH 1240

Mutually Exclusive: FA 1020, MATH 1010, MATH 1018, MATH 1020, MATH 1191, MATH 3120

Attributes: Mathematics Requirement, Recommended Intro Courses

MATH 1301 Géométrie vectorielle et algèbre linéaire 3 cr

(Laboratoire requis) Introduction aux vecteurs, aux matrices, aux systèmes d'équations linéaires et à la géométrie à trois dimensions. On ne peut se faire créditer MATH 1301 et MATH 1211, MATH 1210, MATH 1220, MATH 1300 ou MATH 1310 (ou l'ancien MATH 1680).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : [une note minimale de 60 % dans Mathématiques 40S (pré-calcul) (ou l'ancien Mathématiques 40S (300))] ou [une note minimale de C dans MATH 0401 ou MSKL 100 offert par la Extended Education de l'Université du Manitoba].

Equiv To: MATH 1300, MATH 1310

Mutually Exclusive: FA 1020, MATH 1010, MATH 1018, MATH 1020, MATH 1191, MATH 1210, MATH 1211, MATH 1220, MATH 1680

Attributes: Université de Saint-Boniface, Mathematics Requirement, Science, Recommended Intro Courses

MATH 1501 Introduction au calcul 3 cr

(Laboratoire requis) Différentiation et intégration des fonctions élémentaires avec application à la théorie des extrêmes, aux taux de changements ainsi qu'aux aires et aux volumes. On ne peut se faire créditer MATH 1501 et MATH 1230, MATH 1500, MATH 1510, MATH 1520 ou MATH 1690 (ou les anciens MATH 1530, MATH 1680).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : [une note minimale de 60 % dans Mathématiques 40S (pré-calcul) ou l'ancien Mathématiques 40S (300)] ou [une note minimale de C dans MATH 0401 ou MSKL 100 offert par la Extended Education de l'Université du Manitoba].

Equiv To: MATH 1500, MATH 1510, MATH 1520, MATH 1530

Mutually Exclusive: FA 1020, MATH 1010, MATH 1018, MATH 1020, MATH 1191, MATH 1230, MATH 1680, MATH 1690

Attributes: Université de Saint-Boniface, Mathematics Requirement, Science, Recommended Intro Courses

MATH 1701 Calcul II 3 cr

(Laboratoire requis) Théories et techniques d'intégration, tracés de courbes, calculs de volume, de longueurs d'arc, d'aires et des dérivées partielles. On ne peut se faire créditer MATH 1701 et MATH 1232, MATH 1690, MATH 1700 ou MATH 1710.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : Une note minimale de C dans un de MATH 1230, MATH 1501, MATH 1500, MATH 1510, MATH 1520 (ou les anciens MATH 1530, MATH 1680).

Equiv To: MATH 1700, MATH 1710, MATH 1730

Mutually Exclusive: FA 1020, MATH 1010, MATH 1018, MATH 1020, MATH 1191, MATH 1232, MATH 1690

Attributes: Université de Saint-Boniface, Mathematics Requirement, Science, Recommended Intro Courses

MATH 2021 Algèbre 1 3 cr

(Laboratoire requis) Ce cours est destiné aux étudiantes et aux étudiants dans des disciplines riches en mathématiques. Groupes, anneaux, corps : concepts élémentaires et exemples. On ne peut se faire créditer MATH 2021 et MATH 2020 (ou l'ancien MATH 3350).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : [une note minimale de C dans MATH 2091 ou MATH 2090 (ou l'ancien MATH 2352)] ou [une note minimale de B dans l'ancien MATH 2301 (ou l'ancien MATH 2300)].

Equiv To: MATH 2020

Mutually Exclusive: MATH 3350

Attributes: Mathematics Requirement

MATH 2031 Combinatoire 1 3 cr

(Laboratoire requis). Introduction à la combinatoire, incluant les principes de base de dénombrement, les permutations et combinaisons, l'énumération, le principe d'inclusion-exclusion, le principe du pigeonier, les solutions de récurrences simples, les relations, et les dérangements. On ne peut se faire créditer MATH 2031 et MATH 2030 (ou les anciens MATH 2451, MATH 2450, MATH 3400).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C en MATH 1241 ou MATH 1240 (ou un des anciens MATH 2202 ou MATH 2352).

Equiv To: MATH 2030

Mutually Exclusive: MATH 2450, MATH 2451, MATH 3400

Attributes: Mathematics Requirement

MATH 2071 Théorie des graphes 1 3 cr

(Laboratoire requis) Introduction aux graphes, digraphes et multigraphes. Les sujets comprennent les arbres, les cycles, les circuits, les graphes planaires, les algorithmes élémentaires et les applications des graphes aux sciences sociales et physiques. On ne peut pas se faire créditer MATH 2071 et MATH 2070 (ou l'ancien MATH 2400) ou COMP 4340.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [MATH 1241 ou MATH 1240] et [(MATH 1220) ou (MATH 1301 (C+) ou MATH 1300 (C+)) ou (MATH 1211 (B) ou MATH 1210 (B))].

Equiv To: MATH 2070

Mutually Exclusive: COMP 4340, MATH 2400

Attributes: Mathematics Requirement

MATH 2081 Introduction à l'analyse 3 cr

(Laboratoire requis) Propriétés fondamentales du système de nombres réels en tant que corps ordonné complet, propriété archimédienne, existence de racines carrées, densité des nombres rationnels, non dénombrabilité des nombres réels, suites, sous suites, théorèmes sur les limites, monotonie, théorème de Bolzano-Weierstrass, suites de Cauchy, traitement rigoureux des limites, continuité des fonctions à une ou plusieurs variables, continuité uniforme et applications. On ne peut se faire créditer MATH 2081 et MATH 2080 (ou l'ancien MATH 2202).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [MATH 1232 ou MATH 1690 ou MATH 1701 (B) ou MATH 1700 (B) ou MATH 1710 (B)] et [MATH 1220 ou MATH 1301 (C+) ou MATH 1300 (C+) ou MATH 1211 (B) ou MATH 1210 (B)] et [MATH 1241 ou MATH 1240].

Equiv To: MATH 2080

Mutually Exclusive: MATH 2202, MATH 2711, MATH 2730, MATH 2731

Attributes: Mathematics Requirement

MATH 2091 Algèbre linéaire 2 3 cr

(Laboratoire requis) Espaces vectoriels abstraits, transformations linéaires, bases et systèmes de coordonnées, représentations matricielles, orthogonalisation, diagonalisation, théorème des axes principaux. On ne peut se faire créditer MATH 2091 et MATH 2090 (ou les anciens MATH 2300, MATH 2301, MATH 2350, MATH 2352).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : MATH 1220 ou MATH 1301 (C+) ou MATH 1300 (C+) ou MATH 1211 (B) ou MATH 1210 (B).

Equiv To: MATH 2090

Mutually Exclusive: MATH 2300, MATH 2301, MATH 2352

Attributes: Mathematics Requirement

MATH 2151 Calcul à plusieurs variables 3 cr

(Laboratoire requis) Ce cours est destiné aux étudiantes et aux étudiants dans des disciplines riches en mathématiques. Introduction aux fonctions à plusieurs variables des points de vue algébrique et géométrique telles qu'on les retrouve dans le calcul des courbes et surfaces de niveaux, les dérivations partielles et le calcul du gradient, de la divergence et du rotationnel. On aborde aussi les problèmes de Min/Max, le calcul des intégrales doubles, triples, curvilignes et de surfaces, les fonctions vectorielles, les champs de vecteurs et leurs applications ainsi que les théorèmes de Green, de Stokes et de la divergence. On ne peut se faire créditer MATH 2151 et MATH 2130, MATH 2150, MATH 2720, MATH 2721, (ou l'ancien MATH 2750).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans MATH 2081 ou MATH 2080 (ou l'ancien MATH 2202).

Equiv To: MATH 2150

Mutually Exclusive: MATH 2130, MATH 2720, MATH 2721, MATH 2750

Attributes: Mathematics Requirement

MATH 2161 Analyse numérique 1 3 cr

(Laboratoire requis) Techniques élémentaires de résolutions numériques des équations linéaires et non-linéaires : techniques des différences finies, techniques d'interpolation, techniques de dérivation et d'intégration numériques. On ne peut se faire créditer MATH 2161 et MATH 2160 ou MATH 2120 (ou les anciens MATH 2600, MATH 2601).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [MATH 1232 ou MATH 1690 ou MATH 1701 (B) ou MATH 1700 (B) ou MATH 1710 (B)] et [MATH 1220 ou MATH 1301 (C+) ou MATH 1300 (C+) ou MATH 1211 (B) ou MATH 1210 (B)].

Equiv To: MATH 2160

Mutually Exclusive: MATH 2120, MATH 2600, MATH 2601, MECH 2150

Attributes: Mathematics Requirement

MATH 2301 Algèbre linéaire II 3 cr

Suite de MATH 1301. Espaces vectoriels à dimensions finies; transformations linéaires et matrices; vecteurs réels et valeurs réelles. La diagonalisation et ses applications. Espaces avec produits scalaires. On ne peut se faire créditer MATH 2301 et MATH 2300, l'ancien MATH 2350, MATH 2352 ou MATH 3130.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de C dans MATH 1301, MATH 1300 ou MATH 1310, et un de MATH 1501, MATH 1500, MATH 1510, MATH 1520, MATH 1530 ou MATH 1690.

Equiv To: MATH 2300

Mutually Exclusive: MATH 2090, MATH 2091, MATH 2350, MATH 2352, MATH 3130

Attributes: Université de Saint-Boniface, Science

MATH 2311 Géométrie euclidienne et non euclidienne 3 cr

(Laboratoire requis) Les axiomes d'Euclide, la géométrie des triangles et des cercles, les transformations du plan, les constructions avec règle et compas, la puissance d'un point et l'axe radical, la division et les faisceaux harmoniques, l'inversion et les problèmes d'Apollonius. Introduction aux axiomes d'Hilbert, à la géométrie projective et aux géométries non euclidiennes. On ne peut se faire créditer MATH 2311 et les anciens MATH 2551, MATH 2550 ou MATH 2552.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : [une note minimale de B dans MATH 1301 ou MATH 1300] ou [une note minimale de C dans MATH 1220].

Mutually Exclusive: MATH 2550, MATH 2551, MATH 2552

Attributes: Mathematics Requirement

MATH 2451 Mathématiques combinatoires 6 cr

Introduction à certains sujets d'intérêt courant en mathématiques combinatoires : les techniques d'énumération, les graphiques, les dessins de blocs et les généralisations, les récursions linéaires. On ne peut se faire créditer MATH 2451 et MATH 2450.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de "C" dans un cours d'introduction aux sciences mathématiques, à l'exception de MATH 1000, MATH 1010, MATH 1020, FA 1020, et MATH 1191 ou MATH 1190, ou l'autorisation écrite du directeur du Département des sciences mathématiques.

Equiv To: MATH 2450

Mutually Exclusive: MATH 2031

Attributes: Université de Saint-Boniface, Science

MATH 2501 Introduction à la théorie des nombres 3 cr

Étude de la divisibilité, de la factorisation unique, des congruences linéaire et quadratique et du théorème de Fermat. On ne peut se faire créditer MATH 2501 et MATH 2500.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans un cours d'introduction en sciences mathématiques à l'exception de MATH 1000, MATH 1010, MATH 1020, FA 1020 et MATH 1191 ou MATH 1190, ou l'autorisation écrite du directeur du Département des sciences mathématiques.

Equiv To: MATH 2500

Attributes: Université de Saint-Boniface, Science

MATH 2551 Géométrie moderne 6 cr

Approche moderne à la géométrie à l'aide de transformations géométriques. Sujets variés, tels isométries, symétries, similarités, inversion circulaire et groupes. On ne peut se faire créditer MATH 2551 et MATH 2550.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de C dans MATH 1690 ou un de MATH 1501, MATH 1500, MATH 1510, MATH 1520, MATH 1530; aussi, un de MATH 1301, MATH 1300, MATH 1310, MATH 1701, MATH 1700, MATH 1710 ou MATH 1730.

Equiv To: MATH 2550

Mutually Exclusive: MATH 2311, MATH 2552, MATH 3380

Attributes: Université de Saint-Boniface, Science

MATH 2601 Mathématiques numériques I 3 cr

Techniques élémentaires de solution numérique de problèmes mathématiques : solution d'équation; différences finies; interpolation, systèmes d'équations; différentiation numérique; intégration numérique. On ne peut se faire créditer le MATH 2601 et le MATH 2600, MATH 2120.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : MATH 1301 ou MATH 1300 ou MATH 1310, MATH 1690, MATH 1701 ou MATH 1700, MATH 1710, et COMP 1011 ou COMP 1010 ou son équivalent, ou l'autorisation écrite du professeur.

Equiv To: MATH 2600

Mutually Exclusive: MATH 2120, MATH 2160, MATH 2161, MECH 2150

Attributes: Université de Saint-Boniface, Science

MATH 2701 Calcul III A 3 cr

Calcul des variables multiples. On ne peut se faire créditer le MATH 2701 et le MATH 2751.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : le MATH 1301 ou MATH 1311 et un des MATH 1691, MATH 1701, MATH 1711 ou MATH 1731.

Equiv To: MATH 2751

Attributes: Université de Saint-Boniface, Mathematics Requirement

MATH 2711 Calcul III B 3 cr

Analyse, suites et séries. On ne peut se faire créditer le MATH 2711 et le MATH 2751.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : un de MATH 1690, MATH 1701, MATH 1711 ou MATH 1731 et un de MATH 1201 ou MATH 2201. Concomitant : MATH 1301 ou le MATH 1311.

Equiv To: MATH 2751

Mutually Exclusive: MATH 2081

MATH 2721 Calcul à plusieurs variables 3 cr

(Laboratoire requis) Calcul différentiel et intégral à plusieurs variables. On ne peut se faire créditer MATH 2721 et MATH 2720, MATH 2151, MATH 2150 ou MATH 2130 (ou les anciens MATH 2751, MATH 2750, MATH 2110).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [MATH 1301 ou MATH 1300 ou MATH 1220 ou MATH 1211 (B) ou MATH 1210 (B) ou MATH 1310] et [MATH 1701, MATH 1700, MATH 1232, MATH 1690, MATH 1710 ou l'ancien MATH 1730].

Equiv To: MATH 2720

Mutually Exclusive: MATH 2110, MATH 2130, MATH 2150, MATH 2151, MATH 2750

Attributes: Université de Saint-Boniface, Science

MATH 2801 Équations différentielles ordinaires et leurs applications I 3 cr

Introduction à la théorie des équations différentielles ordinaires. Techniques pratiques de solution, principalement en ce qui a trait aux équations du premier ordre et aux équations linéaires d'ordre plus élevé. Systèmes linéaires. Applications à des problèmes en sciences ou à d'autres domaines. On ne peut se faire créditer le MATH 2801 et le MATH 2800 ou le MATH 2132 ou le MATH 2100.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : MATH 1301 ou MATH 1300 ou MATH 1310. Concomitant : MATH 2721, MATH 2720 ou MATH 2750.

Equiv To: MATH 2800

Mutually Exclusive: MATH 2100, MATH 2132

Attributes: Université de Saint-Boniface, Science

MATH 3331 Algèbre computationnelle 3 cr

Une introduction à l'utilisation des ordinateurs pour le calcul symbolique mathématique, incluant la résolution des systèmes non linéaires et les équations différentielles. Un logiciel approprié sera utilisé pour explorer les applications. On ne peut se faire créditer MATH 3331 et MATH 3330.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans MATH 2091 ou MATH 2090 (ou les anciens MATH 2301, MATH 2300, MATH 2352) ou l'autorisation écrite du professeur ou de la professeure.

Equiv To: MATH 3330

MATH 3361 Combinatoire 2 3 cr

Sujets avancés en combinatoire, incluant fonctions génératrices, théorie élémentaire de la conception, récurrences, chaînes et antichaînes, énumération de Pólya. Ce cours est exigeant et s'adresse à des étudiantes et étudiants dans des disciplines riches en mathématiques. On ne peut se faire créditer MATH 3361 et MATH 3360 (ou l'ancien MATH 4400).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans MATH 2031 ou MATH 2030 (ou l'ancien MATH 3400).

Equiv To: MATH 3360

Mutually Exclusive: MATH 4400

MATH 3821 Introduction à la modélisation mathématique 3 cr

Introduction aux principes et aux techniques entourant le design, le développement, la résolution, l'expérimentation et la révision de modèles mathématiques de phénomènes du « vrai monde », à l'aide d'études de cas. On ne peut se faire créditer MATH 3821 et MATH 3820.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : MATH 2600 ou MATH 2601, puis MATH 2800 ou MATH 2801 (C). Préalable ou concomitant : STAT 1001 ou STAT 1000.

Equiv To: MATH 3820

Mutually Exclusive: MATH 2140, MATH 3610

Attributes: Université de Saint-Boniface

MATH 3911 Sujets choisis en mathématiques 1 3 cr

Sujet d'intérêt courant en mathématiques ou en mathématiques appliquées, selon les besoins et intérêts des étudiantes et des étudiants et de la professeure ou du professeur, incluant notamment des sujets spécialisés non abordés dans les autres cours offerts par le secteur.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : l'autorisation écrite de la professeure ou du professeur.

Attributes: Université de Saint-Boniface

Microbiology (MBIO)

MBIO 1011 Microbiologie I 3 cr

(Laboratoire requis) Définition et historique de la microbiologie, des concepts pratiques de la microbiologie, de la structure des cellules procaryotes, de l'expression des gènes spécifiques aux procaryotes, du transfert de l'information génétique, du rôle des microbes dans l'environnement incluant le corps humain, ainsi que des applications de la microbiologie dans la production des aliments et dans la biotechnologie. On ne peut se faire créditer MBIO 1011 et MBIO 1010 (ou les anciens MBIO 2101, MBIO 2100, MBIO 2111 ou MBIO 2110).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : (BIOL 1021 ou BIOL 1020) et [(CHEM 1101 ou CHEM 1100) ou un des anciens (CHEM 1301, CHEM 1300)].

Equiv To: MBIO 1010

Mutually Exclusive: MBIO 1220, MBIO 2100, MBIO 2101, MBIO 2110, MBIO 2111

Attributes: Science

MBIO 2021 Microbiologie II 3 cr

(Laboratoire requis) Étude de la croissance bactérienne, de la réplication de l'ADN, des processus de la transcription et de la traduction ainsi que leurs rôles dans la régulation de l'expression génétique. Présentation des familles des bactéries et de virus animaux, de leurs modes de reproduction, de leurs pouvoirs pathogènes. Introduction aux mutations et au transfert de gènes bactériens. On ne peut se faire créditer MBIO 2021 et MBIO 2020 (ou les anciens MBIO 2111 et MBIO 2110).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [MBIO 1011 ou MBIO 1010] et [(CHEM 1111 ou CHEM 1110) et (CHEM 1121, CHEM 1120 ou CHEM 1126)] ou un des anciens (CHEM 1311 ou CHEM 1310 ou CHEM 1320)].

Equiv To: MBIO 2020

Mutually Exclusive: MBIO 1410, MBIO 2110, MBIO 2111

Attributes: Université de Saint-Boniface, Science

MBIO 2701 Biochimie I : molécules biochimiques et introduction à l'énergie métabolique 3 cr

Le cours vise à faire découvrir le fonctionnement de la cellule en examinant les composés biochimiques les plus importants – les protéines, les glucides, les acides nucléiques ainsi que les lipides. Une introduction à la bioénergétique sera faite en utilisant les concepts d'énergie libre, de catabolisme ainsi que d'ATP. Ce cours est aussi donné comme CHEM 2701. On ne peut se faire créditer MBIO 2701 et MBIO 2700, CHEM 2701, CHEM 2700, MBIO 2730, CHEM 2730, ou les anciens (MBIO 2361, MBIO 2360, CHEM 2361, CHEM 2360, MBIO 2770, CHEM 2770, CHEM 2860).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : un de [(CHEM 1111 ou CHEM 1110) et un de (CHEM 1121 ou CHEM 1120 ou CHEM 1126) ou un des anciens (CHEM 1310 ou CHEM 1311)] et un de (BIOL 1031 ou BIOL 1030).

Equiv To: CHEM 2700, CHEM 2701, MBIO 2700

Mutually Exclusive: CHEM 2360, CHEM 2361, CHEM 2730, CHEM 2770, MBIO 2360, MBIO 2361, MBIO 2730, MBIO 2770

Attributes: Université de Saint-Boniface, Science

MBIO 2711 Biochimie II : catabolisme, synthèse et voies d'information 3 cr

Introduction aux processus métaboliques cellulaires de base incluant la production et l'utilisation de l'énergie moléculaire, la dégradation et la synthèse des molécules biochimiques, la synthèse de l'ADN, de l'ARN et des protéines et la régulation de ces processus. Ce cours est aussi donné comme CHEM 2711. On ne peut se faire créditer MBIO 2711 et MBIO 2710, CHEM 2711, CHEM 2710, CHEM 2750, MBIO 2750, ou les anciens (CHEM 2371, CHEM 2370, MBIO 2371, MBIO 2370, MBIO 2780, CHEM 2780).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : [un de (CHEM 2701, CHEM 2700, MBIO 2701, MBIO 2700) ou un des anciens (MBIO 2361, MBIO 2360, CHEM 2361, CHEM 2360, CHEM 2860)] et [un de (CHEM 2101, CHEM 2100) ou un des anciens (CHEM 2211 ou CHEM 2210)].

Equiv To: CHEM 2710, CHEM 2711, MBIO 2710

Mutually Exclusive: CHEM 2370, CHEM 2371, CHEM 2750, CHEM 2780, MBIO 2370, MBIO 2371, MBIO 2750, MBIO 2780

Attributes: Université de Saint-Boniface, Science

MBIO 3011 Mécanismes des maladies microbiennes 3 cr

Étude des relations hôtes-parasites. Introduction à la réponse immunitaire, à la pathogénie microbienne, aux maladies virales, à la microbiologie clinique, à la santé publique et aux agents antimicrobiens. On ne peut se faire créditer MBIO 3011 et MBIO 3010.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de C dans MBIO 2021, MBIO 2020 ou les anciens MBIO 2100, MBIO 2101.

Equiv To: MBIO 3010

Attributes: Université de Saint-Boniface, Science

MBIO 3031 Microbiologie III 3 cr

(Laboratoire requis) Introduction à la croissance microbienne et aux approches génomiques utilisées pour l'analyse du métabolisme microbien. En utilisant ces outils, la physiologie de la paroi cellulaire microbienne, le transport, la mobilité ainsi que le métabolisme microbien en relation avec la production d'ATP, la respiration, la fermentation et la fixation du carbone seront discutés. On ne peut se faire créditer MBIO 3031 et MBIO 3030, MBIO 2101 ou MBIO 2100.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de C dans MBIO 2021 ou MBIO 2020 ou l'autorisation de la professeure ou du professeur et une note minimale de C dans un de MBIO 2371, MBIO 2370, CHEM 2371 ou CHEM 2370.

Equiv To: MBIO 3030

Mutually Exclusive: MBIO 2100, MBIO 2101, MBIO 3032, MBIO 3700

Attributes: Science

MBIO 3411 Biologie moléculaire 3 cr

Traitement rigoureux des bases de la biologie moléculaire moderne reliées à la maladie moléculaire, aux manipulations génétiques et cellulaires, ainsi qu'aux contrôles cellulaires. On ne peut se faire créditer MBIO 3411 et MBIO 3410.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [(un de MBIO 2701, MBIO 2700, CHEM 2701, CHEM 2700, MBIO 2730 ou CHEM 2730) ou (un des anciens MBIO 2361, MBIO 2360, CHEM 2361, CHEM 2360, MBIO 2770, CHEM 2770)] et [un de MBIO 2021, MBIO 2020, BIOL 2521, BIOL 2520, BIOL 2501, BIOL 2500, PLNT 2520].

Equiv To: MBIO 3410

Mutually Exclusive: MBIO 1410

Attributes: Université de Saint-Boniface, Science

MBIO 3451 Régulation des processus biochimiques 3 cr

Mécanismes de régulation de l'activité enzymatique, incluant l'allostérie, le contrôle de certaines routes biosynthétiques ou dégradatives sélectionnées, ainsi que la régulation de l'expression génétique. On ne peut se faire créditer MBIO 3451 et MBIO 3450.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [MBIO 2021 ou MBIO 2020] et [(un de MBIO 2711, MBIO 2710, CHEM 2711 ou CHEM 2710) ou (un des anciens MBIO 2371, MBIO 2370, CHEM 2371 ou CHEM 2370)], ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: MBIO 3450

Attributes: Université de Saint-Boniface, Science

MBIO 3461 Biochimie membranaire et cellulaire 3 cr

(Laboratoire requis) Isolement, fractionnement, structure et fonction des membranes cellulaires et des composés subcellulaires. Mise en évidence du rôle central joué par ces éléments dans la biochimie des processus cellulaires. On ne peut se faire créditer MBIO 3461 et MBIO 3460.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : [un de (MBIO 2711, CHEM 2711, MBIO 2710, CHEM 2710) et un de (CHEM 2721, CHEM 2720)] ou [un des anciens (MBIO 2371, CHEM 2371, MBIO 2370, CHEM 2370)].

Equiv To: MBIO 3460

Attributes: Université de Saint-Boniface, Science

MBIO 4021 Immunologie 3 cr

Étude des antigènes, des anticorps, des réactions antigènes-anticorps, de l'immunogénétique, de la régulation de la réponse du système immunitaire, du complément, des réactions d'hypersensibilité, de l'auto-immunité, des déficiences immunitaires, de l'immunologie des greffes et des tumeurs. On ne peut se faire créditer MBIO 4021 et MBIO 4020 (ou les anciens MBIO 4011, MBIO 4010).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : MBIO 3011, MBIO 3010, MBIO 3411 (B) ou MBIO 3410 (B).

Equiv To: MBIO 4020

Mutually Exclusive: MBIO 4010, MBIO 4011

MBIO 4411 Virologie 3 cr

Analyse détaillée des propriétés fondamentales des virus, de la taxonomie virale ainsi que des façons dont les virus se reproduisent. Examen des méthodes expérimentales utilisées en virologie et des façons dont les virus provoquent des maladies. On ne peut se faire créditer MBIO 4411 et MBIO 4410.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [MBIO 3011 ou MBIO 3010] et [MBIO 3411 ou MBIO 3410] et [MBIO 2711, MBIO 2710, CHEM 2711 ou CHEM 2710 (ou un des anciens MBIO 2371, MBIO 2370, CHEM 2371 ou CHEM 2370)].

Equiv To: MBIO 4410

Attributes: Université de Saint-Boniface, Science

MBIO 4541 Transduction de l'énergie biologique 3 cr

Biochimie des processus biologiques comportant l'interconversion des différentes formes d'énergie comme la phosphorylation oxydative, le transport dans les membranes et les processus de contractions. On ne peut se faire créditer MBIO 4541 et MBIO 4540.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : MBIO 2711, MBIO 2710, CHEM 2711 ou CHEM 2710 (ou un des anciens MBIO 2371, MBIO 2370, CHEM 2371 ou CHEM 2370). MBIO 3031 ou MBIO 3032 est recommandé.

Equiv To: MBIO 4540

Attributes: Université de Saint-Boniface, Science

MBIO 4581 Technologie de l'ADN recombinant 3 cr

Techniques d'isolement de plasmides, la digestion de l'ADN par les enzymes (endonucléases) de restriction, le clonage, la détermination de la séquence des nucléotides dans l'ADN, la transformation de l'ADN, le transfert de gènes. On ne peut se faire créditer MBIO 4581 et MBIO 4570.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans MBIO 3411 ou MBIO 3410.

Equiv To: MBIO 4580

Mutually Exclusive: MBIO 4670, MBIO 4672

Attributes: Université de Saint-Boniface, Science

MBIO 4603 Génétique moléculaire des procaryotes 3 cr

Étude détaillée des principes qui sous-tendent les mécanismes moléculaires de la génétique bactérienne en se concentrant sur la conjugaison, la transduction, la transformation, la recombinaison et les éléments génétiques mobiles. Les rôles de ces mécanismes dans les approches moléculaires et dans la pathogénie de certains pathogènes bactériens seront également abordés. On ne peut se faire créditer MBIO 4603 et MBIO 4602 ou les anciens (MBIO 4601 et MBIO 4600).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [MBIO 3411 ou MBIO 3410] et [MBIO 2021, MBIO 2020] et [un de (MBIO 2701, MBIO 2700, CHEM 2701, CHEM 2700, MBIO 2730, CHEM 2730) ou un des anciens (MBIO 2361, MBIO 2360, CHEM 2361, CHEM 2360, MBIO 2770, CHEM 2770)].

Equiv To: MBIO 4602

Mutually Exclusive: MBIO 4600, MBIO 4601

Attributes: Université de Saint-Boniface, Science

Operations Management (OPM)

OPM 2601 Principes de la gestion des opérations et de la production 3 cr

Étude des notions de base en gestion des opérations et de la production, systèmes de production, conception de système, analyse et contrôle.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable ou concomitant : STAT 1001 ou l'équivalent.

Equiv To: OPM 2600

OPM 4611 Gestion de projets 3 cr

Étude de la gestion de projets. Définition et contexte d'application de la gestion de projets. Techniques, approches et outils de gestion d'un projet en fonction de la structure organisationnelle de l'entreprise et des contraintes de temps, de coût et de qualité.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: GMGT 2081, GMGT 2080 et OPM 2601, OPM 2600.

Philosophy (PHIL)

PHIL 1291 Pensée critique 3 cr

Ce cours aide les étudiants à penser clairement et de manière critique, à présenter, à défendre et à évaluer des arguments. On discutera des bons et des mauvais raisonnements, des sophismes quotidiennes et de certaines formes de raisonnement telles que le syllogisme catégorique et des moyens et des manières de définir les mots. Les étudiants ne peuvent se faire créditer à la fois les cours PHIL 1291 et un quelconque des cours suivants: PHIL 1290 ou PHIL 1320 ou PHIL 1321.

Equiv To: PHIL 1290, PHIL 1329

Mutually Exclusive: PHIL 1320, PHIL 1321

PHIL 1401 Introduction à l'éthique 3 cr

Introduction aux notions fondamentales de la morale et de l'éthique et présentation des théories morales occidentales les plus importantes pour notre appréciation de notre condition morale actuelle : la morale des vertus (Aristote), la morale religieuse (le catholicisme), la morale déontologique (Kant) et la morale utilitariste (Bentham et Mill). Études de problèmes moraux contemporains à partir de ces théories. On ne peut se faire créditer PHIL 1401 et aucun de l'ancien PHIL 2530, l'ancien PHIL 2531.

Mutually Exclusive: PHIL 2531

PHIL 1511 Introduction historique à la philosophie 6 cr

Introduction aux grands penseurs de la civilisation occidentale des anciens grecs tels que Platon et Aristote jusqu'aux philosophes analytiques et (si possible) aux existentialistes contemporains. Introduction aux grandes questions telles que la nature de la réalité, l'existence de Dieu, la connaissance humaine et la moralité. La logique élémentaire sera aussi étudiée. L'étudiant(e) qui détient les crédits du PHIL 1511 ne peut se faire créditer aucun des cours PHIL 1510 ou PHIL 1200 ou PHIL 1260. Le cours PHIL 1510 fait partie à la fois du groupe 1 et du groupe 2.

Equiv To: PHIL 1200, PHIL 1261, PHIL 1510

Attributes: Université de Saint-Boniface, Humanities, Recommended Intro Courses

PHIL 2171 Sujets particuliers 3 cr

Les sujets traités varient d'année en année. Compte tenu du fait que le contenu de ce cours varie d'année en année, il peut être suivi plus d'une fois.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans trois crédits de philosophie ou avoir complété un minimum de 30 crédits universitaires.

PHIL 2203 Penser le leadership 3 cr

Étude interdisciplinaire de la théorie et la pratique du leadership. Survol des grandes approches éthiques pouvant guider la prise de décision.

Description des sources psychologiques et sociales du leadership, des types de leaders et de leur impact. Présentation de quelques techniques de persuasion et d'activisme employées par les leaders. Aussi offert sous la cote INTC 2203. On ne peut se faire créditer PHIL 2203 et INTC 2203.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans 15 crédits universitaire.

Equiv To: INTC 2203

PHIL 2301 Philosophie politique 6 cr

Analyse et évaluation des doctrines des grands penseurs politiques tels que Platon, Hobbes, Locke, Mill, Marx; leurs idéaux de justice, de liberté, de bonheur, d'égalité et d'épanouissement personnel, leurs théories sur la nature humaine et sur les fondements de la société. L'étudiant(e) ne peut se faire créditer à la fois le PHIL 2301 et le PHIL 2300.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: après avoir complété et réussi 30 unités de cours universitaires.

Equiv To: PHIL 2300

Attributes: Université de Saint-Boniface, Humanities

PHIL 2631 Le rationalisme continental 3 cr

Étude des philosophes du continent: Descartes, Spinoza, Leibniz, qui ont perçu la raison plutôt que l'expérience comme la clé de toute connaissance de l'Univers. On ne peut se faire créditer à PHIL 2631 et PHIL 2630.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: [une note minimale de C dans six heures-crédits au niveau 1000 en philosophie] ou autorisation écrite du professeur.

Equiv To: PHIL 2630

Attributes: Université de Saint-Boniface, Humanities

PHIL 2641 L'empirisme britannique 3 cr

Revue et analyse des théories des grands empiristes britanniques: Locke, Berkeley et Hume, sur la nature et les fondements de la connaissance humaine et ses relations avec l'expérience. On ne peut se faire créditer à la fois PHIL 2641 et PHIL 2640.

Equiv To: PHIL 2640

Attributes: Université de Saint-Boniface, Humanities

PHIL 2661 Aristote 3 cr

Étude des idées les plus importantes d'Aristote sur la réalité, la connaissance, la nature humaine, la morale et la politique. On ne peut se faire créditer PHIL 2661 et PHIL 2660.

Equiv To: PHIL 2660

Attributes: Université de Saint-Boniface, Humanities

PHIL 2701 Philosophie de la religion 6 cr

Examen critique des raisons pouvant justifier l'attitude religieuse. Le cours portera entre autres sur l'existence de Dieu et sa nature, le mal, la raison et la foi, la signification du discours religieux, la révélation, les miracles, le mysticisme. On ne peut se faire créditer PHIL 2701 et PHIL 2700 ou PHIL 2730.

Equiv To: PHIL 2700

Mutually Exclusive: PHIL 2730

Attributes: Université de Saint-Boniface, Humanities

PHIL 2741 Éthique et biomédecine 3 cr

Le cours examine quelques-unes des plus importantes questions d'éthique soulevées par les récents développements en biologie et en médecine. Les sujets à couvrir incluent: l'attribution de rares ressources médicales limitées, la manipulation génétique; l'euthanasie vs la prolongation de la vie; l'avortement et l'infanticide ainsi que l'expérimentation sur des sujets humains. On ne peut se faire créditer PHIL 2741 et [PHIL 2290 ou PHIL 2531].

Equiv To: PHIL 2740

Mutually Exclusive: PHIL 2290, PHIL 2531

PHIL 2751 Éthique et environnement 3 cr

Examen de certaines questions éthiques importantes en rapport avec la pollution de l'environnement et de l'épuisement des ressources. On étudiera (entre autres) : l'idéal des limites de la liberté et de l'environnement, la rareté et l'idéal de la justice, la croissance versus l'état de stabilité économique, les droits des animaux et l'éthique de la survie vs. l'éthique du bien être. On ne peut se faire créditer PHIL 2751 et [PHIL 2290 ou PHIL 2531].

Equiv To: PHIL 2750

Mutually Exclusive: PHIL 2290, PHIL 2531

PHIL 2781 Musique et comportement humain 3 cr

Examen critique de l'influence de la musique sur le comportement humain à partir des penseurs les plus marquants à ce sujet : Pythagore, Platon, Aristote, Philodème de Gadara, Nietzsche, Adorno et Bloom. Écoute d'extraits musicaux pour ancrer les notions dans la réalité musicale ancienne et contemporaine.

PHIL 2811 Philosophie de l'éducation 3 cr

Présentation des thèmes centraux à la philosophie de l'éducation : quels sont les traits désirables à acquérir, pourquoi le sont-ils et comment peut-on les acquérir. Le cours présente également différentes réponses à ces questions qu'apportent les théories de la nature humaine. On ne peut se faire créditer PHIL 2811 et aucun de l'ancien PHIL 2810, l'ancien PHIL 3550, l'ancien PHIL 3551.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : avoir complété avec succès 30 crédits universitaires.

Equiv To: PHIL 2810

Mutually Exclusive: PHIL 3550, PHIL 3551

PHIL 2823 Philosophie de l'existence 3 cr

Présentation des principaux thèmes de ce courant philosophique et mise en relief de la vision particulière des auteurs étudiés, en particulier celle de Sören Kierkegaard, de Karl Jaspers, de Martin Buber, de Gabriel Marcel, de Jean-Paul Sartre et de Paul-Louis Landsberg. On ne peut se faire créditer PHIL 2823 et l'ancien PHIL 2820 ou PHIL 2821.

Mutually Exclusive: PHIL 2820, PHIL 2821

PHIL 2831 Éthique des affaires 3 cr

Le cours explore l'application de la théorie éthique dans les affaires. Les sujets discutés incluent normalement: les théories sur la justice, la responsabilité des corporations, l'éthique dans la publicité, la protection du consommateur et de l'environnement, les préférences à l'embauche. On ne peut se faire créditer PHIL 2831 et PHIL 2830.

Equiv To: PHIL 2830

PHIL 2841 Éthique de la guerre et de la paix 3 cr

Une étude des questions éthiques relatives à la guerre et à la recherche de la paix qu'on trouve traitées dans les oeuvres des plus grands philosophes et des penseurs politiques et militaires choisis. Les théories morales pertinentes telles que la non-violence, la guerre sainte, la guerre juste, les raisonnements éthiques qui sous-tendent les politiques de dissuasion seront examinées de manière critique dans le contexte historique et contemporain. On ne peut se faire créditer à la fois PHIL 2841 et PHIL 2840.

Equiv To: PHIL 2840

PHIL 2861 Philosophie du droit 3 cr

Une introduction à la philosophie du droit et au système réglementaire en général. Les sujets abordés incluent: le concept de loi (la loi et la religion, la loi naturelle, et les lois des livres), la relation, s'il y a lieu, entre la loi et la moralité et les politiques du droit au Canada et ailleurs. On ne peut se faire créditer à la fois PHIL 2861 et PHIL 2860.

Equiv To: PHIL 2860

PHIL 2871 La philosophie et le droit 3 cr

Examen de la philosophie du droit à partir des questions non traitées du cours PHIL 2861. L'étudiant examinera des thèmes tels que: la culpabilité et la responsabilité; les théories du châtement; le droit à la dissidence; le raisonnement légal et l'éthique professionnelle. On ne peut pas se faire créditer à la fois PHIL 2871 et PHIL 2870.

Equiv To: PHIL 2870

PHIL 2901 Philosophie de la démocratie 3 cr

A partir d'une réflexion portant sur l'émergence de la démocratie et de ses fondements, d'une réflexion portant sur son implantation de plus en plus universelle et d'une réflexion portant sur ce que la démocratie contient comme promesses et dangers, le cours, à l'aide des penseurs les plus importants pour approcher la démocratie, veut aider les étudiant(e)s à mieux comprendre philosophiquement le système politique dans lequel ils vivent.

PHIL 3223 Philosophie et littérature 3 cr

Les sujets abordés incluent : l'analyse de l'acte de la lecture, la structure fondamentale de l'œuvre littéraire, les qualités esthétiques de la nouvelle et du roman, la vérité et le mensonge en littérature, le rôle de la littérature dans l'éducation. Dans la deuxième partie, on propose une analyse philosophique des œuvres célèbres de Heinrich von Kleist, de Dostoïevski et d'Orwell.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : avoir complété avec succès 30 crédits universitaires.

PHIL 3225 Anthropologie philosophique 3 cr

L'anthropologie philosophique naît du questionnement et de la réflexion portant sur la nature et le sens de la vie humaine. Au-delà de l'analyse proprement philosophique des traits caractéristiques de l'être humain, elle cherche à intégrer et à mettre en valeur les contributions des sciences humaines. Après avoir présenté les points de vue des principaux représentants de ce courant de pensée (Scheler, Plessner, Gehlen, Straus), ce cours propose une réflexion approfondie sur les principales dimensions de l'existence humaine. On ne peut se faire créditer PHIL 3225 et PHIL 3571.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : avoir complété avec succès 30 crédits universitaires.

Mutually Exclusive: PHIL 3571

PHIL 3227 Philosophie de l'histoire 3 cr

Introduction à la philosophie de l'histoire. Étude historique des réflexions philosophiques concernant le processus et la pratique historique, à travers les oeuvres notamment de St-Augustin, Hegel, Marx, Collingwood, Hempel, Ricoeur. Réfléchir à la pertinence de la philosophie de l'histoire pour les historiens. Aussi offert sous la cote HIST 3227. On ne peut se faire créditer PHIL 3227 et HIST 3227.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans 6 crédits en histoire ou en philosophie ou l'autorisation professorale.

Equiv To: HIST 3227

PHIL 3591 Nietzsche 3 cr

À partir de la présentation biographique du philosophe et d'une brève présentation de ses opposants philosophiques (Socrate, Rousseau, le judéo-christianisme, le wagnérisme), le cours permet l'approfondissement des thèses et thèmes les plus importants de la pensée nietzschéenne : volonté de puissance, surhomme, mort de Dieu, nihilisme, amor fati, éternel retour du même, etc.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : 30 crédits universitaires.

Physics (PHYS)

PHYS 1021 Physique générale I 3 cr

(Laboratoire requis) Initiation à la physique ne requérant pas de calcul et traitant de certains thèmes tirés de la mécanique et de la thermodynamique avec des exemples tirés des sciences biologiques et physiques. Ce cours, de même que le PHYS 1031, est particulièrement conseillé aux étudiants désireux d'avoir une vue d'ensemble de la physique ou qui ont l'intention d'entreprendre des études dans les sciences de la santé. Il est fortement recommandé aux étudiants d'obtenir une note de 70% dans les cours Mathématiques 40S (pré-calcul) et de Physique 40S. Il peut aussi servir comme cours de base pour un programme de spécialisation en physique ("B+" ou mieux) ou de majeure en physique ("B" ou mieux). On ne peut se faire créditer PHYS 1021 et PHYS 1020, PHYS 1050, PHYS 1051, PHYS 1410, ou PHYS 1420.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: [un de Physique 40S, PHYS 0900, PSKL 0100 ou l'équivalent], et [un de Mathématiques 40S (pré-calcul), Mathématiques appliquées 40S avec une note minimale de 70%, MATH 0401, MSKL 0100 ou l'équivalent].

Equiv To: PHYS 1020

Mutually Exclusive: PHYS 1018, PHYS 1050, PHYS 1051, PHYS 1410, PHYS 1420

Attributes: Université de Saint-Boniface, Mathematics Requirement, Science, Recommended Intro Courses

PHYS 1031 Physique générale II 3 cr

(Laboratoire requis) Découvrez comment la physique est à la base de toute la haute technologie du monde dans lequel on vit et comment on y vit. Apprenez à utiliser des concepts physiques simples et intuitifs, qu'on peut décrire avec peu de mathématiques et sans calcul différentiel et intégral, pour comprendre divers sujets tels que la production d'électricité, les causes de l'effet de serre, ce qui fait briller un diamant, les lasers, la chirurgie LASIK pour les yeux et le fonctionnement de l'œil humain. Comme PHYS 1021, ce cours particulièrement conseillé pour avoir une vue d'ensemble de la physique ou avant d'entreprendre des études en sciences de la santé. On ne peut se faire créditer PHYS 1031 et PHYS 1030, l'ancien PHYS 1410 ou l'ancien PHYS 1420.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans un de PHYS 1021, PHYS 1020, PHYS 1051 ou PHYS 1050.

Equiv To: PHYS 1030

Mutually Exclusive: PHYS 1410, PHYS 1420

Attributes: Université de Saint-Boniface, Mathematics Requirement, Science, Recommended Intro Courses

PHYS 1051 Physique I : La mécanique 3 cr

(Laboratoire requis) La mécanique est la science des fusées! Elle permet de décrire la trajectoire des objets en mouvement (cinématique) et de les expliquer (dynamique). Les concepts de base du calcul ainsi que les lois de la conservation du moment et de l'énergie sont utilisés pour développer les outils nécessaires à la description, à l'analyse et à la prédiction des mouvements linéaires ou en rotation dans les systèmes mécaniques simples. Une brève introduction à la théorie de la relativité restreinte d'Einstein offre un avant-goût des approches modernes.

Ce cours est destiné particulièrement aux étudiants qui voudraient poursuivre leur programme d'études dans les sciences physiques ou en ingénierie. On ne peut se faire créditer PHYS 1051 et PHYS 1050, PHYS 1021, PHYS 1020, l'ancien PHYS 1410 ou l'ancien PHYS 1420.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: [un de Physique 40S avec une note minimale de 60%, PHYS 0900, PSKL 0100 ou l'équivalent]. Préalables ou concomitants : [un de MATH 1230, MATH 1501, MATH 1500, MATH 1510, MATH 1520, l'ancien MATH 1530 ou MATH 1690].

Equiv To: PHYS 1050

Mutually Exclusive: PHYS 1018, PHYS 1020, PHYS 1021, PHYS 1410, PHYS 1420

Attributes: Université de Saint-Boniface, Science, Recommended Intro Courses

PHYS 1071 Physique II : La physique des ondes et la physique moderne 3 cr

(Laboratoire requis) Au cœur des communications modernes, les ondes et les oscillations sont la clé de la compréhension du monde qui nous entoure, des échelles subatomiques jusqu'au cosmos lui-même en passant par la biologie, le débit de la circulation, la bourse et les changements climatiques. Découvrez le mystérieux monde quantique, les bases de la dernière nanotechnologie et dans quelles circonstances les particules sont des ondes et les ondes, des particules. Explore le modèle de l'atome de Bohr et découvrez le principe d'incertitude de Heisenberg. Ce cours fait appel au calcul différentiel et intégral pour traiter les concepts sous-jacents de l'ingénierie et de la physique moderne. Destiné, comme PHYS 1051, à ceux et celles qui veulent suivre un programme d'études en sciences physiques. On ne peut se faire créditer PHYS 1071 et PHYS 1070, l'ancien PHYS 1410 ou l'ancien PHYS 1420 ou PHYS 2152.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [une note minimale de C dans PHYS 1051 ou PHYS 1050] ou [une note minimale de B dans PHYS 1021 ou PHYS 1020] et [une note minimale de C dans un de MATH 1230, MATH 1501, MATH 1500, MATH 1510 ou MATH 1520 ou l'ancien MATH 1530]. Préalable ou concomitant : un de MATH 1232, MATH 1690, MATH 1701, MATH 1700 ou l'ancien MATH 1710. Recommandé pour entrer dans les programmes spécialisés (avec une note minimale de B).

Equiv To: PHYS 1070

Mutually Exclusive: PHYS 1410, PHYS 1420, PHYS 2152

Attributes: Université de Saint-Boniface, Science, Recommended Intro Courses

PHYS 1301 Énergie et environnement 6 cr

Présentation des particularités physiques générales de notre environnement. Étude de certains problèmes d'actualité, à savoir l'atmosphère, le cosmos, la structure de la matière et de l'énergie, les sources d'énergie, l'application des principes de la physique à la technologie moderne, etc. Projections de films et démonstrations. La participation aux discussions et au choix des sujets à traiter est encouragée. Conçu pour les étudiantes et étudiants de toutes les facultés, ce cours n'exige aucune connaissance des mathématiques ou de la physique. Il ne peut être reconnu aux fins des programmes de mineure ou de majeure en physique. On ne peut se faire créditer PHYS 1301 et PHYS 1300.

Equiv To: PHYS 1300

Mutually Exclusive: PHYS 1303

Attributes: Université de Saint-Boniface, Science, Recommended Intro Courses

PHYS 1303 Énergie et durabilité 3 cr

Ce cours présente les différentes sources d'énergie découvertes par l'homme, leurs méthodes d'exploitation et impact sur l'environnement. Étude des concepts physiques sous-jacents et des diverses solutions retenues : combustion du bois, énergies fossiles et nucléaires, récentes technologies de production d'énergie renouvelable. Analyse des conséquences de l'exploitation des ressources sur la préservation de l'environnement et de la ressource elle-même. Réflexion sur le lien étroit entre l'évolution de l'humanité et l'énergie qu'elle produit. Ce cours est conçu pour les étudiantes et étudiants de toutes les facultés. Les mathématiques pourront être utilisées pour soutenir et clarifier certaines discussions mais ne fera appel qu'à des connaissances de base. Ce cours ne peut pas être reconnu aux fins d'un programme de mineure, de majeure ou spécialisé en physique. On ne peut se faire créditer PHYS 1303 et [PHYS 1301, l'ancien PHYS 1300, PHYS 2350].

Mutually Exclusive: PHYS 1300, PHYS 1301, PHYS 2350

Attributes: Université de Saint-Boniface, Science

PHYS 2261 Optique 3 cr

(Laboratoire requis) Étude de la réfraction, de la réflexion, des systèmes de lentilles simples et des systèmes optiques, de la dispersion, de l'achromatisme. Vue élémentaire de la diffraction, de l'interférence et de la polarisation. On ne peut se faire créditer PHYS 2261 et PHYS 2260.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [une note minimale de C dans PHYS 1051 ou PHYS 1050] ou [une note minimale de C+ dans PHYS 1021 ou PHYS 1020] et [une note minimale de C dans un de MATH 1230, MATH 1501, MATH 1500, MATH 1510, MATH 1520, ou MATH 1690]. Prérequis ou concomitants : [un de PHYS 1031, PHYS 1030, PHYS 1071, PHYS 1070 ou PHYS 2152] et [un de MATH 1220, MATH 1301, MATH 1300 ou MATH 1310] et [un de MATH 1232, MATH 1690, MATH 1701, MATH 1700 ou MATH 1710].

Equiv To: PHYS 2260

Attributes: Université de Saint-Boniface, Science

Political Studies (POLS)**POLS 1503 Introduction à la politique 1 3 cr**

Introduction aux concepts fondamentaux à l'analyse des phénomènes politiques. Problèmes et enjeux associés à l'exercice de l'autorité et à la construction de la légitimité politique. Exploration des dynamiques politiques au sein des institutions politiques : démocraties libérales et régimes autoritaires. On ne peut se faire créditer POLS 1503 et POLS 1500 ou l'ancien POLS 1501.

Mutually Exclusive: POLS 1500, POLS 1501, POLS 1502

POLS 1505 Introduction à la politique II 3 cr

Aperçu des principales idéologies contemporaines. Évaluation de leur rôle dans les dynamiques politiques. Parmi les idéologies existantes, seront principalement abordées : libéralisme, néo-libéralisme, conservatisme, fascisme, néo-conservatisme, socialisme, anarchisme, féminisme. On ne peut se faire créditer POLS 1503 et POLS 1500 ou l'ancien POLS 1501.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: POLS 1503.

Mutually Exclusive: POLS 1500, POLS 1501

POLS 2003 Introduction à la politique comparée I 3 cr

Introduction à l'étude comparative de processus et dynamiques politiques internes aux états, dans différents contextes historiques, culturels et institutionnels. Méthodes, approches, typologies et concepts utilisés dans l'analyse comparée des dynamiques et processus politiques : révolutions sociales, contre-révolution, modernisation, démocratisation, industrialisation, formes variées d'action collective. On ne peut se faire créditer POLS 2003 et POLS 2000.

Mutually Exclusive: POLS 2000, POLS 2602

POLS 2005 Introduction à la politique comparée II 3 cr

Introduction à l'étude comparative des institutions et des régimes politiques dans différents contextes historiques, culturels et institutionnels. Méthodes, approches, typologies et concepts utilisés dans l'analyse comparée des institutions et régimes politiques : démocraties libérales, régimes totalitaires, autoritaires et post-communistes. On ne peut se faire créditer POLS 2005 et POLS 2000.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : POLS 2003.

Mutually Exclusive: POLS 2000, POLS 2602

POLS 2043 Introduction à la politique globale I 3 cr

Introduction à l'analyse des actions et des interactions politiques au sein du système mondial. Analyse de la formation et des transformations des normes et du cadre institutionnel qui influencent les interactions entre les divers acteurs du système mondial : compétition, conflit et coopération. Analyse du processus d'institutionnalisation des asymétries de pouvoir au sein du système mondial sur la longue durée. On ne peut se faire créditer POLS 2043 et POLS 2040 ou l'ancien POLS 2041.

Mutually Exclusive: POLS 2040, POLS 2041, POLS 2502

POLS 2045 Introduction à la politique globale II 3 cr

Aperçu des grandes traditions théoriques pour l'étude des actions et des interactions politiques internationales : idéalisme, réalisme et marxisme. Aperçu des transformations contemporaines des structures et dynamiques du système mondial : Sécurité, guerre, droit et institutions internationales et émergence des acteurs transnationaux. On ne peut se faire créditer POLS 2045 et POLS 2040 ou l'ancien POLS 2041.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : POLS 2043.

Mutually Exclusive: POLS 2040, POLS 2041, POLS 2504

POLS 2073 Introduction à la politique canadienne 1 : État et société 3 cr

Étude du processus de formation et de transformation de l'État canadien de la Confédération au contexte contemporain. Analyse du développement des formes d'intervention étatique sur la société canadienne et de leurs transformations sur la longue durée. Analyse des forces sociales, des conflits sociaux et des idéologiques politiques, tant au niveau national que régional, sur la configuration des institutions politiques canadiennes. On ne peut faire créditer POLS 2073 et l'ancien POLS 2071 ou POLS 2070.

Mutually Exclusive: POLS 2070, POLS 2071, POLS 2702

POLS 2075 Introduction à la politique canadienne II : Institutions et politiques publiques 3 cr

Étude des principales institutions politiques canadiennes, incluant la Constitution, le fédéralisme, le système électoral, les pouvoirs exécutif, législatif, judiciaire, administratif et médiatique. Le cours analysera aussi des politiques publiques centrales qui illustrent le fonctionnement et l'interaction de ces institutions. On ne peut se faire créditer POLS 2075 et l'ancien POLS 2071 ou POLS 2070.

Mutually Exclusive: POLS 2070, POLS 2071, POLS 2702

POLS 2513 Pensée politique classique 3 cr

Les grandes questions de la pensée politique analysées à travers la lecture critique des auteurs classiques depuis l'Antiquité jusqu'au XVI^e siècle. Permanence, pertinence actuelle et discontinuités de la réflexion politique. Les auteurs, situés dans leur contexte historique, comprendront notamment Platon, Aristote, Cicéron, Saint Augustin, Saint Thomas d'Aquin et Machiavelli. On ne peut se faire créditer POLS 2513 et POLS 2510 ou l'ancien POLS 2511.

Mutually Exclusive: POLS 2510, POLS 2511, POLS 3310

POLS 2515 Pensée politique moderne 3 cr

Introduction à la genèse et au développement des grands courants de pensée des XVII^e, XVIII^e et XIX^e siècles. Les idées libérales et leurs critiques situées dans leur contexte historique. Les concepts du libéralisme et les idées de l'égalitarisme social. Les auteurs étudiés incluront notamment Hobbes, Locke, Rousseau, Burke, Smith et Marx. On ne peut se faire créditer POLS 2515 et POLS 2510 ou l'ancien POLS 2511.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : POLS 2513.

Mutually Exclusive: POLS 2510, POLS 2511, POLS 3380

POLS 2561 Questions d'actualité en politique canadienne 6 cr

Analyse des activités du gouvernement canadien dans certains domaines problématiques ainsi qu'une revue des différentes approches à ces problèmes.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : [un de l'ancien POLS 1501, POLS 1500, l'ancien POLS 1561 ou POLS 1560] ou [POLS 1503 et POLS 1505], ou l'autorisation écrite de la professeure ou du professeur.

Attributes: Université de Saint-Boniface, Social Science

POLS 2571 Initiation à l'administration publique 6 cr

Une revue des principes fondamentaux, du recrutement du personnel et de l'organisation ainsi que de la gestion fiscale au sein du gouvernement. L'étudiant ne peut se faire créditer à la fois le POLS 2571 et le POLS 2570.

Equiv To: POLS 2570

Mutually Exclusive: POLS 2902

Attributes: Université de Saint-Boniface, Social Science

POLS 3141 Sujets particuliers en politique 1 3 cr

Contenu du cours variable d'année en année. Contacter le département pour une description de cours. On ne peut se faire créditer POLS 3141 et POLS 3140 (019.314). Le contenu variera d'année en année, il sera donc possible de se faire créditer ce cours plus d'une fois.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : l'autorisation écrite de la professeure ou du professeur.

Attributes: Université de Saint-Boniface, Social Science

POLS 3151 Sujets particuliers en politique 2 3 cr

Contenu du cours variable d'année en année. Contacter le département pour une description de cours. On ne peut se faire créditer POLS 3151 et POLS 3150. Le contenu variera d'année en année, il sera donc possible de se faire créditer ce cours plus d'une fois.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : l'autorisation écrite de la professeure ou du professeur.

Attributes: Université de Saint-Boniface, Social Science

POLS 3161 Droits de la personne et libertés civiles 3 cr

Une étude des fondements des systèmes modernes de droits de la personne dans les démocraties libérales. Les thèmes abordés incluent les principaux arguments philosophiques relatifs aux droits de la personne, les principales théories des droits, ainsi que les conventions internationales et les systèmes de protection des droits de la personne.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [une note minimale de C dans POLS 2515 ou POLS 2510 (ou l'ancien POLS 2511) ou POLS 2070 (ou l'ancien POLS 2171) ou (POLS 2073 et POLS 2075)] ou l'autorisation de la professeure ou professeur.

Equiv To: POLS 3160

POLS 3171 La Charte canadienne des droits et libertés 3 cr

Une étude systématique des droits et libertés garantis par la Charte à travers les jugements de la Cour suprême. Des thèmes supplémentaires sont abordés, dont les sources historiques, politiques et intellectuelles de la protection des droits au Canada, ainsi qu'un survol des lois canadiennes relatives aux droits de la personne.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [une note minimale de C dans POLS 2071 ou POLS 2070 (ou l'ancien POLS 2171) ou (POLS 2073 et POLS 2075)] ou l'autorisation de la professeure ou du professeur.

Equiv To: POLS 3170

POLS 3181 Droits humains dans le système mondial 3 cr

Analyse du développement des droits humains comme projet politique. Introduction aux chartes et instruments juridiques internationaux encadrant les droits humains. Analyse de leur développement, évolution et mise en application depuis 1945. Mise en relation du processus de mondialisation et de ses effets en termes d'insécurité des populations vulnérables. Analyse de situations de violation de droits humains (civils, politiques, économiques et sociaux) dans le contexte de la mondialisation au moyen d'études de cas.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : Une note minimale de C dans POLS 2041 ou POLS 2040, ou dans POLS 2043 et POLS 2045, ou l'autorisation écrite de la professeure ou du professeur.

POLS 3211 Sociopolitique des conflits armés 3 cr

Analyse des causes (endogènes et exogènes), déroulement, conséquences et prévention des conflits armés à partir d'études de cas. Évolution des notions de conflit, de guerre et de sécurité. Transformations de la pratique et de la conduite des conflits armés depuis 1945.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : Une note minimale de B dans POLS 2040 ou POLS 2041 ou POLS 2043 et POLS 2045.

POLS 3251 Économie politique internationale 3 cr

Étude des interrelations entre processus politiques, production et distribution de la richesse dans l'environnement international. Accent mis autant sur le développement historique, les perspectives théoriques majeures que sur les enjeux fondamentaux en économie politique internationale. On ne peut se faire créditer POLS 3251 et POLS 3250.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans POLS 2040 ou POLS 2041 ou POLS 2043 et POLS 2045 ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: POLS 3250

Mutually Exclusive: POLS 3540

Attributes: Université de Saint-Boniface, Social Science

POLS 3563 Le Canada dans le système mondial 3 cr

Aperçu du rôle et de l'influence de l'État canadien au sein du système mondial depuis la Deuxième Guerre mondiale. Analyse des grandes mutations du système mondial et leurs effets sur la formulation et la conduite de la politique étrangère et de la défense canadienne. La participation canadienne au sein des institutions et forums multilatéraux en relation avec le processus de mondialisation. On ne peut se faire créditer POLS 3563 et POLS 3520 ou POLS 3561.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de C dans POLS 1500 ou POLS 1501 ou dans POLS 1503 et POLS 1505 ou l'autorisation écrite de la professeure ou du professeur.

Mutually Exclusive: POLS 3512, POLS 3514, POLS 3520, POLS 3561

POLS 3621 Violence politique 3 cr

Causes et formes de la violence visant le changement politique, le contrôle de l'État, le renversement d'un régime ou la modification des frontières politiques existantes. Analyse de la violence politique mobilisée par les acteurs étatiques et non-étatiques tant à l'intérieur qu'à l'extérieur des frontières nationales. Manifestations extrêmes de la violence politique : Guérillas, terrorisme et terrorisme d'État, émeutes, violence à caractère ethnique et religieux.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : Une note minimale de C dans POLS 1500 ou POLS 1501 ou dans POLS 1503 et POLS 1505.

Mutually Exclusive: POLS 3540

POLS 3771 Organisations internationales: L'ONU et ses institutions spécialisées 3 cr

Étude du rôle et des fonctions joués par les organisations internationales au sein du système mondial. Analyse du système des Nations Unies et de ses diverses composantes en relation avec les mutations de la configuration des rapports de pouvoir au sein du système mondial. Apports et limites des mécanismes assurant le principe de sécurité collective et la résolution pacifique des différends. On ne se peut faire créditer POLS 3371 et POLS 3550.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : Une note minimale de C dans [POLS 2040 ou POLS 2041 ou POLS 2043] et POLS 2045, ou l'autorisation professorale.

Mutually Exclusive: POLS 3550

POLS 3841 Les approches théoriques en relations internationales 3 cr

Étude des différentes approches théoriques utilisées dans l'analyse des relations internationales, ainsi que des méthodologies utilisées par les analystes de la politique internationale. On ne peut se faire créditer POLS 3841 et POLS 3840.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans POLS 2041 ou POLS 2040 ou dans POLS 2043 et POLS 2045, ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: POLS 3840

Mutually Exclusive: POLS 4580

Attributes: Université de Saint-Boniface, Social Science

POLS 3881 Politique étrangère comparée 3 cr

Étude comparative des facteurs internationaux, régionaux et domestiques qui façonnent la formulation de la politique étrangère des États. Analyse des causes des similarités et différences dans la formulation de la politique étrangère des États à partir d'études de cas choisies.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : Une note minimale de C dans POLS 2040 ou POLS 2041 ou POLS 2043 et POLS 2045.

Equiv To: POLS 3880

POLS 3951 Méthodes de recherche en sciences politiques 3 cr

Introduction aux principales méthodes de recherche quantitative et qualitative utilisées dans l'étude des phénomènes politiques. Les méthodes abordées sont : conduite d'entrevues, analyse de contenu, études comparatives, questionnaires de sondage, échantillonnage, éthique de la recherche et analyse statistique de base. On ne peut se faire créditer POLS 3951 et POLS 3950.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : Une note minimale de C dans 6 crédits de sciences politiques de niveau 2000 ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: POLS 3950

Psychology (PSYC)

PSYC 1211 Introduction à la psychologie I 3 cr

Étude des processus fondamentaux sous-jacents à la psychologie tels que les bases biologiques des comportements, les processus sensoriels, la perception, les états de conscience, l'apprentissage et la mémoire. Description des méthodes de recherche propres à la psychologie scientifique. On ne peut se faire créditer PSYC 1211 et PSYC 1201 ou PSYC 1200.

Mutually Exclusive: PSYC 1200, PSYC 1201

Attributes: Université de Saint-Boniface, Social Science

PSYC 1221 Introduction à la psychologie II 3 cr

Étude des connaissances utilisées par les psychologues pour aider l'être humain dans sa compréhension personnelle et ses interactions sociales. Exploration des motivations, de l'intelligence, de la personnalité et de la psychopathologie. Description des outils et des méthodes de travail propres à la psychologie appliquée. On ne peut se faire créditer PSYC 1221 et PSYC 1201 ou PSYC 1200.

Mutually Exclusive: PSYC 1200, PSYC 1201

Attributes: Université de Saint-Boniface, Social Science

PSYC 2251 Introduction à la recherche en psychologie 3 cr

Étude de la psychologie comme discipline scientifique et description des méthodes de collecte et d'interprétation des données en psychologie. Cours obligatoire pour la majeure devant être suivi en deuxième année. Accompagné d'une séance de travaux dirigés hebdomadaire. On ne peut se faire créditer PSYC 2251 et PSYC 2250.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans PSYC 1201 ou PSYC 1200, ou dans PSYC 1211 et PSYC 1221, ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: PSYC 2250

Attributes: Université de Saint-Boniface, Social Science

PSYC 2261 Introduction aux méthodes de recherche en psychologie 3 cr

Étude des concepts inductifs d'inférence et d'explication. Les schèmes de recherche en psychologie. Cours obligatoire pour la majeure devant être suivi en deuxième année. Accompagné d'une séance de travaux dirigés hebdomadaire. Reconnu aux fins des exigences en mathématiques pour l'obtention du baccalauréat. On ne peut se faire créditer PSYC 2261 et PSYC 2260.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans PSYC 2251 ou PSYC 2250.

Equiv To: PSYC 2260

Attributes: Université de Saint-Boniface, Mathematics Requirement, Social Science

PSYC 2291 Le développement de l'enfant 3 cr

Étude du développement psychologique normal de la période prénatale à la puberté. Présentation des méthodes de recherche utilisées dans l'étude de l'enfant. On ne peut se faire créditer à la fois PSYC 2291 et PSYC 2290.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans PSYC 1201 ou PSYC 1200, ou dans PSYC 1211 et PSYC 1221, ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: PSYC 2290

Mutually Exclusive: FMLY 2600

Attributes: Université de Saint-Boniface, Social Science

PSYC 2361 Cerveau et comportement 3 cr

Étude de la relation entre le cerveau et les comportements. Apprentissage des éléments fondamentaux du système nerveux et comment ils s'intègrent pour assumer les sensations, le contrôle moteur, les émotions, le sommeil, l'apprentissage et la mémoire. On ne peut se faire créditer PSYC 2361 et aucun de PSYC 2360, PSYC 3530 ou PSYC 3540 quand l'intitulé est "Cerveau et comportement".

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de C dans PSYC 1200 ou dans l'ancien PSYC 1201 ou une note minimale de C dans PSYC 1211 et PSYC 1221, ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: PSYC 2360

PSYC 2441 Principes de modification du comportement 3 cr

Discussion des hypothèses fondamentales, des principes et des méthodes de modification du comportement à partir d'exemples tirés du comportement humain, normal et anormal. Projets de recherche supervisés dans des secteurs d'application précis ou recherche fondamentale sur le comportement. On ne peut se faire créditer PSYC 2441 et PSYC 2440.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de C dans PSYC 1201 ou PSYC 1200 ou dans PSYC 1211 et PSYC 1221, ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: PSYC 2440

Attributes: Université de Saint-Boniface, Social Science

PSYC 2481 Processus cognitifs 3 cr

Une introduction aux processus langage, supérieurs dans une perspective de traitement de l'information. Les sujets abordés incluent l'attention, le développement cognitif, l'imagerie, le langage, la mémoire et la résolution de problèmes. Le cours sera basé sur de nombreuses références aux résultats expérimentaux récents. L'étudiant(e) ne peut se faire créditer à la fois le PSYC 2481 et le PSYC 2480.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: [une note minimale de C dans le PSYC 1200 ou le PSYC 1201] ou [une note minimale de C dans tous les deux PSYC 1211 et PSYC 1221] ou l'autorisation écrite du professeur.

Equiv To: PSYC 2480

Attributes: Université de Saint-Boniface, Social Science

PSYC 2491 Psychologie de l'anormal 3 cr

Étude de la théorie et de la recherche dans le domaine du comportement anormal de l'être humain. Discussion des formes principales des troubles psychologiques, leur prévention et leur traitement. On ne peut se faire créditer PSYC 2491 et aucun des PSYC 2490, l'ancien PSYC 3460, l'ancien PSYC 3461.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de C dans PSYC 1200 ou dans l'ancien PSYC 1201 ou une note minimale de C dans PSYC 1211 et PSYC 1221, ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: PSYC 2490, PSYC 3460, PSYC 3461

PSYC 2531 Psychologie de la personnalité 3 cr

Étude de la théorie et de la recherche dans les principes qui gouvernent le développement de la personnalité. On ne peut se faire créditer PSYC 2531 et aucun de PSYC 2530, l'ancien PSYC 3451, l'ancien PSYC 3450.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de C dans PSYC 1200 ou dans l'ancien PSYC 1201 ou une note minimale de C dans PSYC 1211 et PSYC 1221, ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: PSYC 2530, PSYC 3450, PSYC 3451

PSYC 2541 Psychologie sociale 3 cr

Introduction aux façons par lesquelles nous affectons et sommes affectés par le comportement des autres. Les sujets abordés incluent typiquement : attitudes et changement d'attitudes, croyances et jugements sociaux, conformisme, persuasion, normes et rôles sociaux, dynamiques de groupes, préjugés, agression, altruisme, attraction et relations interpersonnelles ainsi que les conflits intergroupes. On ne peut se faire créditer PSYC 2541 et aucun de PSYC 2540, l'ancien PSYC 2410, l'ancien PSYC 2411, l'ancien PSYC 2420 ou l'ancien PSYC 2421.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de C dans l'ancien PSYC 1201 ou dans PSYC 1200 ou une note minimale de C dans PSYC 1211 et PSYC 1221, ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: PSYC 2540

Mutually Exclusive: PSYC 2410, PSYC 2411, PSYC 2420, PSYC 2421

Attributes: Université de Saint-Boniface, Social Science

PSYC 3131 Psychologie de la santé 3 cr

Introduction au domaine de la psychologie de la santé. On y étudie comment les interactions complexes entre des facteurs environnementaux, psychologiques, neurologiques et immunitaires contribuent au maintien de la santé et, par conséquent, au développement des maladies. On ne peut se faire créditer PSYC 3131 et aucun de PSYC 3130, PSYC 3530 ou PSYC 3531 quand l'intitulé est "Psychologie de la santé".

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de C dans PSYC 2541 ou PSYC 2540 ou l'ancien PSYC 2410 ou l'ancien PSYC 2411 ou l'ancien PSYC 2420 ou l'ancien PSYC 2421 ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: PSYC 3130

Mutually Exclusive: PSYC 3530, PSYC 3531

PSYC 3151 Domaines d'application de la modification du comportement 3 cr

Descriptions détaillées des lignes directrices pour le design, la mise en pratique et l'évaluation des méthodes de modification du comportement. Possibilité de réaliser un projet de recherche supervisé dans des domaines d'application spécifique ou de recherche fondamentale sur le comportement. On ne peut se faire créditer PSYC 3151 et aucun des PSYC 3150, l'ancien PSYC 2451, l'ancien PSYC 2450.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans PSYC 2441 ou PSYC 2440, ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: PSYC 3150

Mutually Exclusive: PSYC 2450, PSYC 2451

PSYC 3311 Le développement de l'adolescent 3 cr

Étude du développement psychologique normal de la puberté au stade adulte, à l'aide des résultats de recherches scientifiques. On ne peut se faire créditer PSYC 3311 et aucun des PSYC 3310, l'ancien PSYC 2311, l'ancien PSYC 2310.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans PSYC 2291 ou PSYC 2290, ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: PSYC 2310, PSYC 2311, PSYC 3310

PSYC 3341 Design et analyse de données en recherche en psychologie 3 cr

Étude des méthodes visant à contrôler la validité interne des études en psychologie. L'échantillonnage aléatoire et stratifié, la distribution aléatoire, la configuration factorielle et les plans à mesures répétées sont discutés. Les méthodes d'analyse descriptive et d'analyse multivariée sont présentées. L'utilisation de logiciels statistiques est illustrée. On ne peut se faire créditer PSYC 3341 et PSYC 3340 ou l'ancien PSYC 4570.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de B dans PSYC 2261 ou PSYC 2260 ou PSYC 2300 ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: PSYC 3340, PSYC 4570

PSYC 3351 Neurosciences du comportement 3 cr

Présentation des fondements de la neurobiologie du comportement. Accent mis sur les propriétés du traitement de l'information du système nerveux de façon à offrir un cadre de référence à la compréhension de thèmes tels la perception, l'attention, le sommeil et la vigilance, la motivation et l'apprentissage. On ne peut se faire créditer PSYC 3351 et PSYC 3350, PSYC 3331 ou PSYC 3330.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de C dans PSYC 1201 ou PSYC 1200 ou dans PSYC 1211 et PSYC 1221, ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: PSYC 3330, PSYC 3331, PSYC 3350

Attributes: Université de Saint-Boniface, Social Science

PSYC 3441 Perception 3 cr

Survol des méthodes et des techniques qui traitent de l'interaction entre les informations sensorielles et les informations existantes au sein de l'organisme. La psychophysique, les constances perceptuelles, l'apprentissage perceptuel, l'adaptation et les distorsions. On ne peut se faire créditer PSYC 3441 et PSYC 3160.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de C dans PSYC 1201 ou PSYC 1200 ou dans PSYC 1211 et PSYC 1221, ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: PSYC 3160

Attributes: Université de Saint-Boniface, Social Science

PSYC 3481 Psychologie des relations interculturelles et intergroupes 3 cr

Étude des aspects psychologiques impliqués dans les relations entre individus ou groupes d'individus issus de cultures ou sous-cultures différentes. Définition des concepts de stéréotype, de préjugé et de discrimination et exploration de leurs sources d'influence respectives. Présentation des grandes théories qui visent à expliquer les conflits interculturels et intergroupes et celles qui visent à promouvoir de bonnes relations entre cultures. On ne peut se faire créditer PSYC 3481 et INTL 4481.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans PSYC 1201 ou PSYC 1200 ou dans PSYC 1211 et PSYC 1221, ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: INTL 4481

PSYC 3511 Psychologie industrielle et organisationnelle 3 cr

Examen des modèles théoriques contemporains et de la recherche portant sur les aspects psychologiques impliqués dans le comportement en milieu de travail. Les thèmes abordés incluent la sélection du personnel, les processus de groupes, la satisfaction, la productivité et la culture organisationnelle. On ne peut se faire créditer PSYC 3511 et PSYC 3510.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: [une note minimale de C dans le PSYC 1200 ou le PSYC 1201] ou [une note minimale de C dans tous les deux PSYC 1211 et PSYC 1221] ou l'autorisation écrite du professeur.

Equiv To: PSYC 3510

PSYC 3531 Problèmes contemporains 1 3 cr

Contenu variable d'année en année, mais traitant généralement d'un sujet d'actualité concernant la psychologie ou l'analyse psychologique d'un problème d'intérêt public. On ne peut se faire créditer PSYC 3531 et PSYC 3530 quand le sujet est le même. Le contenu varie d'année en année, il est donc possible de se faire créditer ce cours plus d'une fois.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : [une note minimale de C dans PSYC 1200 ou l'ancien PSYC 1201] ou [une note minimale de C dans PSYC 1211 et PSYC 1221], et l'autorisation écrite de la professeure ou du professeur.

Equiv To: PSYC 3530

Mutually Exclusive: PSYC 3130, PSYC 3131

Attributes: Université de Saint-Boniface, Social Science

PSYC 3631 Mesure et évaluation en psychologie 3 cr

Étude et application des principes de la mesure dans divers domaines psychologiques. Étude des concepts de validité, de constance, d'échelonnement, et de variance. Introduction à la construction et à l'utilisation de différents tests psychologiques. On ne peut se faire créditer PSYC 3631 et PSYC 3630.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de B dans PSYC 2261 ou PSYC 2260 ou l'ancien PSYC 2300, et l'autorisation écrite de la professeure ou du professeur.

Equiv To: PSYC 3630

Attributes: Université de Saint-Boniface, Social Science

PSYC 3641 Introduction à la neuropsychologie 3 cr

Un survol des connaissances actuelles touchant les relations entre le cerveau et les comportements humains. Organisation du système nerveux, désordres neurologiques, effets des lésions cérébrales sur les comportements (agnosie, aphasie, apraxie, négligence, etc.) asymétrie cérébrale, applications cliniques.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans PSYC 1201 ou PSYC 1200 ou dans PSYC 1211 et PSYC 1221 ou l'autorisation écrite de la professeure ou du professeur.

Attributes: Université de Saint-Boniface, Social Science

Religion (RLGN)

RLGN 1283 Le Christianisme ancien et médiéval (A) 3 cr

Étude des affirmations et des pratiques chrétiennes à partir de l'histoire du christianisme dès son début jusqu'à la fin du moyen âge. On ne peut se faire créditer RLGN 1283 et l'ancien RLGN 1281.

Mutually Exclusive: RLGN 1281

RLGN 1285 Le Christianisme depuis la renaissance (A) 3 cr

Étude des affirmations et des pratiques chrétiennes à partir de l'histoire du christianisme de la Réforme protestante jusqu'au présent. On ne peut se faire créditer RLGN 1285 et l'ancien RLGN 1281.

Mutually Exclusive: RLGN 1281

RLGN 1323 Introduction aux religions du monde I 3 cr

Aperçu de l'histoire, des grandes idées et pratiques des grandes religions du monde à partir de leur littérature et de leurs traditions : l'hindouisme, le bouddhisme, le sikhisme, le confucianisme et le taoïsme. On ne peut se faire créditer RLGN 1323 et RLGN 1321 ou RLGN 1320.

Equiv To: RLGN 1322

Mutually Exclusive: RLGN 1320, RLGN 1321

RLGN 1325 Introduction aux religions du monde II (B) 3 cr

Un aperçu de l'histoire, les grandes idées et pratiques des grandes religions du monde à partir de leur littérature et les traditions : le judaïsme, le Christianisme, l'Islam et les traditions des Amériques et de l'Afrique. On ne peut se faire créditer RLGN 1325 et RLGN 1320 ou RLGN 1321.

Equiv To: RLGN 1324

Mutually Exclusive: RLGN 1320, RLGN 1321

RLGN 1421 Éthique religieuse (C) 3 cr

Un examen de la pensée éthique de représentants d'une ou de plusieurs traditions religieuses. Une attention spéciale est portée sur des sujets comme la nature du bien et de la vertu, la place des lois ou commandements, et en relation entre la religion et la moralité. L'étudiant(e) qui détient les crédits du RLGN 1421 ne peut se faire créditer aucun des cours RLGN 1420.

Equiv To: RLGN 1420

Attributes: Université de Saint-Boniface, Humanities, Recommended Intro Courses

RLGN 2161 Introduction à l'Ancien Testament 3 cr

Un aperçu de l'histoire, de la littérature et des idées religieuses de l'Ancien Testament. On ne peut se faire créditer RLGN 2161 et RLGN 2231 ou RLGN 2160.

Equiv To: RLGN 2160

Mutually Exclusive: RLGN 2231

RLGN 2171 Introduction au Nouveau Testament 3 cr

Un aperçu de l'histoire, de la littérature et des idées religieuses du Nouveau Testament. On ne peut se faire créditer RLGN 2171, RLGN 2170 ou RLGN 2711.

Equiv To: RLGN 2170

Mutually Exclusive: RLGN 2711

RLGN 2413 Les religions établies au Canada (C) 3 cr

Un aperçu historique des institutions et groupes religieux établis avant le 19^e siècle, au Canada, notant comment ceux-ci répondent aux caractéristiques spéciales de la vie canadienne. On ne peut se faire créditer RLGN 2413 et RLGN 2410 ou RLGN 2411.

Mutually Exclusive: RLGN 2410, RLGN 2411

RLGN 2415 Les nouvelles religions au Canada (C) 3 cr

Un aperçu historique et phénoménologique des nouvelles institutions et groupes religieux au Canada, visant comment ceux-ci répondent aux caractéristiques spéciales de la vie canadienne. On ne peut se faire créditer RLGN 2415 et RLGN 2410 ou RLGN 2411.

Mutually Exclusive: RLGN 2410, RLGN 2411

RLGN 2591 La religion et les problèmes sociaux (C) 3 cr

Les problèmes tels que l'ordre, la justice, la guerre, le changement social, la désobéissance civile, l'avortement et l'euthanasie seront considérés à la lumière des ressources d'une ou de plusieurs traditions religieuses. L'étudiant(e) ne peut se faire créditer à la fois le RLGN 2591 et le RLGN 2590.

Equiv To: RLGN 2590

Attributes: Université de Saint-Boniface, Humanities

RLGN 2681 Les femmes et les religions 1 (C) 3 cr

Le contenu de ce cours varie d'année en année. Toutefois, il traite, à travers divers modèles interprétatifs contemporains, de sujets d'intérêt courant en lien avec la compréhension et le rôle des femmes dans les différentes traditions religieuses. On ne peut pas se faire créditer RLGN 2681 et RLGN 2680.

Equiv To: RLGN 2680

RLGN 3131 La religion et la pensée moderne (C) 3 cr

Étude des idées contenues dans certaines idéologies modernes telles que le marxisme, la théorie de l'évolution, les méthodes d'interprétation biblique, la psychologie moderne, l'athéisme et l'humanisme face à la religion. On ne peut se faire créditer à la fois le RLGN 3131 et RLGN 3251 ou RLGN 3130.

Equiv To: RLGN 3130

Mutually Exclusive: RLGN 3251

RLGN 3531 Problèmes contemporains 1 (C) 3 cr

Exploration de sujets particuliers d'intérêt courant en religion, de certains aspects de méthodologie, de l'étude de la religion ou d'une analyse de certains problèmes courants d'intérêt général, du point de vue religieux. Le contenu variera d'année en année, il sera donc possible de se faire créditer ce cours plus d'une fois. On ne peut se faire créditer RLGN 3531 et RLGN 3530.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: l'autorisation écrite de la professeure ou du professeur.

Attributes: Université de Saint-Boniface, Humanities

RLGN 3541 Problèmes contemporains 2 (C) 3 cr

Exploration de sujets particuliers d'intérêt courant en religion, de certains aspects de méthodologie de l'étude de la religion ou d'une analyse de certains problèmes courants d'intérêt général du point de vue religieux. Le contenu variera d'année en année, il sera donc possible de se faire créditer ce cours plus d'une fois. On ne peut se faire créditer RLGN 3541 et RLGN 3540.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: l'autorisation écrite de la professeure ou du professeur.

Attributes: Université de Saint-Boniface, Humanities

Science Interdisciplinary (SCI)

SCI 3981 Stage professionnel 1 pour le volet coopératif en sciences 0 cr

Stage de travail de quatre mois (minimum de 12 semaines) à temps plein, supervisé, dans une entreprise, une industrie ou une agence gouvernementale. Réservé aux étudiantes et aux étudiants admis et inscrits au volet coopératif du Baccalauréat ès sciences avec majeure conjointe en biochimie-microbiologie. Les ateliers de formation professionnelle et l'évaluation des compétences linguistiques scientifiques en anglais doivent être complétés avant de pouvoir s'inscrire à son premier stage. Un rapport final doit être complété avec succès. Une note de réussite ou échec sera attribuée pour ce cours.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: l'autorisation écrite de la personne responsable des stages du Département des sciences expérimentales.

SCI 3991 Stage professionnel 2 pour le volet coopératif en sciences 0 cr

Stage de travail de quatre mois (minimum de 12 semaines) à temps plein, supervisé, dans une entreprise, une industrie ou une agence gouvernementale. Réservé aux étudiantes et aux étudiants admis et inscrits au volet coopératif du Baccalauréat ès sciences avec majeure conjointe en biochimie-microbiologie. Les ateliers de formation professionnelle et l'évaluation des compétences linguistiques scientifiques en anglais doivent être complétés avant de pouvoir s'inscrire à son premier stage. Un rapport final doit être complété avec succès. Une note de réussite ou échec sera attribuée pour ce cours.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: [avoir réussi (P) SCI 3981 ou SCI 3980 (ou un des anciens MBIO 3981, MBIO 3980)] et [l'autorisation écrite de la personne responsable des stages du Département des sciences expérimentales].

SCI 4981 Stage professionnel 3 pour le volet coopératif en sciences 0 cr

Stage de travail de quatre mois (minimum de 12 semaines) à temps plein, supervisé, dans une entreprise, une industrie ou une agence gouvernementale. Réservé aux étudiantes et aux étudiants admis et inscrits au volet coopératif du Baccalauréat ès sciences avec majeure conjointe en biochimie-microbiologie. Les ateliers de formation professionnelle et l'évaluation des compétences linguistiques scientifiques en anglais doivent être complétés avant de pouvoir s'inscrire à son premier stage. Un rapport final doit être complété avec succès. Une note de réussite ou échec sera attribuée pour ce cours.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: [avoir réussi (P) SCI 3991 ou SCI 3990 (ou un des anciens MBIO 3991, MBIO 3990)] et [l'autorisation écrite de la personne responsable des stages du Département des sciences expérimentales].

SCI 4991 Stage professionnel 4 pour le volet coopératif en sciences 0 cr

Stage de travail de quatre mois (minimum de 12 semaines) à temps plein, supervisé, dans une entreprise, une industrie ou une agence gouvernementale. Réservé aux étudiantes et aux étudiants admis et inscrits au volet coopératif du Baccalauréat ès sciences avec majeure conjointe en biochimie-microbiologie. Les ateliers de formation professionnelle et l'évaluation des compétences linguistiques scientifiques en anglais doivent être complétés avant de pouvoir s'inscrire à son premier stage. Un rapport final doit être complété avec succès. Une note de réussite ou échec sera attribuée pour ce cours.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: [avoir réussi (P) SCI 4981 ou SCI 4980 (ou un des anciens MBIO 4981, MBIO 4980)] et [l'autorisation écrite de la personne responsable des stages du Département des sciences expérimentales].

Social Work (SWRK)

SWRK 1313 Émergence de l'état providence Canadien de bien-être social 3 cr

L'étude des transformations au fil du temps dans les politiques pour assurer le bien-être social au Canada. Le cours met l'accent sur les sociétés autochtones, l'époque coloniale, l'émergence, le développement et l'effritement de l'État-providence canadien, et les défis actuels et les futures tendances dans les politiques de bien-être social. On ne peut se faire créditer SWRK 1313 et SWRK 2110 ou l'ancien SWRK 2111.

Mutually Exclusive: SWRK 2110, SWRK 2111

Attributes: Recommended Intro Courses

SWRK 2033 Travail social et santé mentale 3 cr

Exploration du champ de la santé mentale des questions de pratique et de politiques sociales dans le domaine de la santé mentale. Accent est mis sur les outils nécessaires pour faire une analyse critique de différentes approches en santé mentale, une compréhension générale des politiques et programmes dans le domaine, connaissances en prévention de la maladie mentale, ainsi que sur la manière d'intervenir efficacement une fois qu'une maladie mentale a été diagnostiquée.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: [SWRK 2081 ou SWRK 2080], [SWRK 2093 ou SWRK 2090 ou l'ancien SWRK 2091] et [SWRK 3141 ou SWRK 3140].

SWRK 2043 Travail social auprès des individus et des familles 3 cr

Exploration des axes théoriques et d'application pratique du service social individuel et familial qui visent l'évaluation des problèmes personnels et interpersonnels, mais aussi du développement d'habiletés et de méthodes d'intervention appropriées auprès des individus et des familles.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: [SWRK 2081 ou SWRK 2080], [SWRK 2093 ou SWRK 2090 ou l'ancien SWRK 2091] et [SWRK 3141 ou SWRK 3140].

SWRK 2053 Travail social auprès des communautés 3 cr

Acquisition de connaissances théoriques et d'habiletés permettant d'analyser les structures organisationnelles et de comprendre les questions liées à la pratique du travail social auprès des communautés. Application de ces concepts à la dynamique en vigueur au sein des communautés et des organisations et entre celles-ci. On ne peut se faire créditer SWRK 2053 et SWRK 2050 ou l'ancien SWRK 2051.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: [SWRK 2081 ou SWRK 2080], [SWRK 2093 ou SWRK 2090 ou l'ancien SWRK 2091], [SWRK 3141 ou SWRK 3140] et [SWRK 2073 ou SWRK 2070 ou l'ancien SWRK 2071].

Mutually Exclusive: SWRK 2050, SWRK 2051

SWRK 2073 Travail social auprès des petits groupes 3 cr

Explication des normes de groupe, des valeurs et des buts qui influencent la prise de décision et les modèles de communication dans les groupes. Influence du rôle des membres et des styles de leadership sur le développement et le fonctionnement du groupe. On ne peut se faire créditer SWRK 2073 et SWRK 2070 ou l'ancien SWRK 2071.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: [SWRK 2081 ou SWRK 2080], [SWRK 2093 ou SWRK 2090 ou l'ancien SWRK 2091] et [SWRK 3141 ou SWRK 3140].

Mutually Exclusive: SWRK 2070, SWRK 2071

SWRK 2081 Habiletés en communication interpersonnelle 3 cr

Acquisition d'une gamme essentielle d'habiletés interpersonnelles pour communiquer efficacement et pour établir et maintenir des relations tant dans des situations individuelles que de groupe. Accent sur l'apprentissage expérientiel utilisant une variété de techniques. On peut se faire créditer SWRK 2081 et SWRK 2080.

Equiv To: SWRK 2080

Attributes: Université de Saint-Boniface

SWRK 2093 Travail social et comportement humain 3 cr

Application d'une théorie générale des systèmes à l'étude de la situation de la personne dans sa famille et dans son environnement avec examen subséquent des implications pour la pratique du travail social. Critique de modèles du développement. Sessions sur les dimensions du comportement qui s'avère critiques par rapport à la pratique du travail social. On ne peut se faire créditer SWRK 2093 et SWRK 2090 ou l'ancien SWRK 2091.

Mutually Exclusive: SWRK 2090, SWRK 2091

SWRK 2101 Perspectives sur les transitions de la vie et de l'individu 3 cr

Examen de l'impact du cours transitoire de la vie sur le bien-être psychosocial des individus. Concentration sur les crises et les impasses problématiques qui surgissent aux moments décisifs avec leurs implications pour l'intervention en travail social. On ne peut se faire créditer SWRK 2101 (SWRK 2100).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : première moitié de SWRK 2091.

Equiv To: SWRK 2100

SWRK 2113 L'analyse des politiques de bien-être social 3 cr

Étude de la politique de bien-être social en tant que produit fini d'idéologies. Introduction à quelques éléments de l'idéologie et comparaison des systèmes idéologiques concurrents. Analyse de l'interaction des visions économiques, politiques et ethniques de la société et de leurs manifestations en tant que réponses sociétales aux besoins humains et aux services sociaux. On ne peut se faire créditer SWRK 2113 et SWRK 1310 ou l'ancien SWRK 1311.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: SWRK 1313 ou SWRK 2110 ou l'ancien SWRK 2111.

Mutually Exclusive: SWRK 1310, SWRK 1311

Attributes: Recommended Intro Courses

SWRK 2651 Aspects sociaux du vieillissement 3 cr

Examen des aspects sociaux du vieillissement. Accent sur la compréhension du processus de vieillissement dans toute transition de vie impliquant une adaptation à l'interaction entre l'environnement social et l'environnement physique. On ne peut se faire créditer le SWRK 2651 et le REC 2650 ou IDES 2650 ou HMEC 2650 ou REC 2650.

Equiv To: HMEC 2650, IDES 2650, REC 2650

SWRK 3103 Méthodologie de la recherche en travail social 3 cr

Lien entre les méthodes systématiques de recherche scientifique et la pratique du travail social, la construction théorique pour la pratique, la collecte d'information et de données descriptives pour le processus décisionnel pour la compréhension des matériaux techniques de la recherche et introduction aux enjeux et aux défis des devis de recherche. On ne peut se faire créditer SWRK 3103 et SWRK 3100 ou l'ancien SWRK 3101.

Mutually Exclusive: SWRK 3100, SWRK 3101

SWRK 3111 Perspectives sur la déviance 3 cr

Étude des problèmes humains à l'aide de plusieurs modèles analytiques communément appliqués dans la pratique du travail social. On se peut se faire créditer SWRK 3111, SWRK 3110.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : première moitié de SWRK 2091.

Equiv To: SWRK 3110

SWRK 3131 L'État canadien contemporain du bien-être social 3 cr

Étude du bien-être social dans la société canadienne menant à une évaluation des approches actuelles à la lumière des transformations économiques des conditions sociales et des besoins mouvants. On ne peut se faire créditer le SWRK 3131 et SWRK 3130.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: [SWRK 1313 ou SWRK 1310 ou l'ancien SWRK 1311] et [SWRK 2113 ou SWRK 2110 ou l'ancien SWRK 2111].

Equiv To: SWRK 3130

Attributes: Recommended Intro Courses

SWRK 3141 Introduction à la pratique du travail social 3 cr

Introduction aux cadres opératoires de la pratique du travail social et le rôle des travailleuses sociales et travailleurs sociaux professionnels. Accent mis sur les valeurs et les connaissances incluant ainsi la définition même du problème, la consultation, le contrat, l'intervention et l'évaluation. Acquisition d'une formation de base en intervention sociale et de saisir la réalité sociale des individus selon différents contextes et diverses problématiques. On ne peut se faire créditer SWRK 3141 et SWRK 3140.

Equiv To: SWRK 3140

Attributes: Université de Saint-Boniface, Recommended Intro Courses

SWRK 3151 Formation à la pratique du terrain 1 12 cr

Première expérience de formation pratique sur le terrain au cours de laquelle l'étudiant ou l'étudiante aura l'occasion d'assumer une responsabilité dans son engagement pour le travail social, la consultation, la planification, l'intervention, l'évaluation et l'application concrète de la théorie apprise en classe. Le premier stage comprend 459 heures, dont 420 heures de stages sur le terrain et 39 heures pour le séminaire d'intégration aux stages. Les heures requises sur le terrain sont calculées sur une base de 28 semaines, 2 jours par semaine, 7.5 heures par jour, pour un total de 420 heures. Ces heures comprennent la participation aux activités de stage et l'évaluation de la performance. Ces heures incluent aussi les réunions et les entrevues formatives avec la personne qui supervise le stage sur une base individuelle ou en groupe. Le séminaire d'intégration aux stages comprend 13 sessions obligatoires d'ateliers d'application d'habiletés de 3 heures chacune aux deux semaines pendant les deux semestres pour un total de 39 heures. On ne peut se faire créditer SWRK 3151 et SWRK 3150.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: [SWRK 2113 ou SWRK 1310 ou l'ancien SWRK 1311], SWRK 2043, [SWRK 2081 ou SWRK 2080], [SWRK 2093 ou SWRK 2090 ou l'ancien SWRK 2091] et [SWRK 3141 ou SWRK 3140].

Equiv To: SWRK 3150

SWRK 3153 Formation à la pratique du terrain 1: Reconnaissance des acquis (RDA) 12 cr

La RDA (SWRK 3153) est un cours d'autoformation grâce auquel l'étudiante ou l'étudiant juge admissible, aura l'occasion de démontrer des habiletés et des connaissances de base comme tous les étudiants doivent le faire lors de leur première formation (stage) pratique. Ils devront démontrer leurs connaissances de l'engagement, de l'évaluation des besoins ou de la problématique, du plan d'action, de l'intervention et de l'évaluation de l'intervention en service social ainsi que leur intégration des valeurs et de l'éthique et des cadres théoriques acquis par l'entremise des cours de base préalables. Les personnes admises et inscrites au cours SWRK 3153 en remplacement d'un premier stage pratique (SWRK 3151) devront réaliser tous les travaux du cahier de travail dans les délais prévus et communiquer avec l'évaluateur ou l'évaluatrice du cours de RDA lorsque des explications ou un soutien additionnel sont nécessaires. Si les travaux et les rapports sont exécutés de façon satisfaisante, les étudiantes et étudiants seront ensuite évalués et obtiendront une note finale, soit « passage » ou « échec ». On ne peut se faire créditer SWRK 3153 et SWRK 3150, SWRK 3151 ou SWRK 3152. Préalables: SWRK 1311 (SWRK 1310), SWRK 2081 (SWRK 2080), SWRK 2091 (SWRK 2090) et SWRK 3141 (SWRK 3140). Concomitant: SWRK 4201 (SWRK 4200).

Equiv To: SWRK 3150, SWRK 3151, SWRK 3152

Attributes: Université de Saint-Boniface

SWRK 4051 Sujets spéciaux 3 cr

Lectures dirigées ou études concentrées sur un aspect particulier du service social selon l'intérêt de l'étudiant ou de l'étudiante. On ne peut se faire créditer le SWRK 4051 et SWRK 4050.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : l'autorisation écrite de la professeure ou du professeur.

Equiv To: SWRK 4050

SWRK 4071 Problèmes sociaux et pratique du travail social 3 cr

Étude en profondeur des situations à problèmes. Exploration des voies par lesquelles d'autres disciplines envisagent ou abordent le problème et renforcement des habiletés d'intervention chez l'étudiant ou l'étudiante. On ne peut se faire créditer SWRK 4071 et SWRK 4070.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: SWRK 3141 ou SWRK 3140, ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: SWRK 4070

SWRK 4081 Enjeux actuels en bien-être social 3 cr

Étude d'un champ particulier du bien-être social en vue d'améliorer les politiques et les pratiques. L'étudiante ou l'étudiant aura à choisir un séminaire parmi de nombreux autres qui sont offerts. Ceux-ci peuvent varier d'une année à l'autre.

Equiv To: SWRK 4080

SWRK 4121 Formation à la pratique du terrain II 12 cr

Seconde expérience de formation pratique sur le terrain construite à partir du cours SWRK 3151. Occasion d'apporter une contribution professionnelle soutenue dans des situations nécessitant une intégration des valeurs, connaissances et aptitudes au niveau débutant d'un intervenant professionnel. Le stage comprend 459 heures, dont 420 heures de stages sur le terrain et 39 heures pour le séminaire d'intégration aux stages. Les heures requises sont calculées sur une base de 28 semaines, 2 jours par semaine, 7.5 heures par jour, pour un total de 420 heures. Ces heures comprennent la participation aux activités de stage et l'évaluation de la performance. Ces heures incluent aussi les réunions et les entrevues formatives avec la personne qui supervise le stage sur une base individuelle ou en groupe. Le séminaire d'intégration aux stages comprend 13 sessions obligatoires d'ateliers d'application, d'habiletés de 3 heures chacune aux deux semaines pendant les deux semestres pour un total de 39 heures. On ne peut se faire créditer SWRK 4121 et SWRK 4120.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: [SWRK 3151 ou SWRK 3150], [SWRK 2053 ou SWRK 2050 ou l'ancien 2051] et [SWRK 2073 ou SWRK 2070 ou l'ancien SWRK 2071].

Concomitants: SWRK 4303.

Equiv To: SWRK 4120

SWRK 4131 Habiletés en communication interpersonnelle avancée 3 cr

Cours expérientiel pour la compréhension de soi et la vigilance à soi pour produire une utilisation consciente et disciplinée de soi dans la communication et les relations professionnelles.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : SWRK 2081 (SWRK 2080) et l'autorisation écrite de la professeure ou du professeur.

Equiv To: SWRK 4130

SWRK 4213 Les perspectives féministes de la pratique du travail social 3 cr

Analyse de la pratique du travail social et de la politique de bien-être social selon la perspective féministe. Accent mis sur l'imbrication synergique de l'intervention sociale avec les politiques dans le contexte du bien-être social et avec des concepts superposés tels que: potentialisation, pratique écologique, oppression et pratique en contexte de diversité culturelle. Il doit être admis que les femmes ne sont pas un groupe homogène et qu'en tenant compte des caractéristiques comme la classe, l'âge, l'orientation sexuelle, on contribue à une diversité d'expériences, de besoins et d'intérêts pour les femmes. On ne peut se faire créditer SWRK 4213 et SWRK 4210 ou l'ancien SWRK 4211.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: [SWRK 2113 ou SWRK 1310 ou l'ancien SWRK 1311], SWRK 2043, [SWRK 2081 ou SWRK 2080], [SWRK 2093 ou SWRK 2090 ou l'ancien SWRK 2091] et [SWRK 3141 ou SWRK 3140].

Mutually Exclusive: SWRK 4210, SWRK 4211

SWRK 4221 Peuples autochtones et pratique du travail social 6 cr

Analyse de la pratique du travail social et de la politique de bien-être social à partir d'une perspective autochtone. Étude des thèmes historiques et contemporains qui ont influencé le rapport entre les peuples autochtones et l'État Canadien. L'exploration de diverses approches et pratiques de changements (système client et système services) qui supporteront la survie, l'autodétermination, le bien-être socioculturel et la résilience de la collectivité autochtone. On ne peut se faire créditer SWRK 4221 et SWRK 4220.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: [SWRK 2113 ou SWRK 1310 ou l'ancien 1311], SWRK 2043, [SWRK 2081 ou SWRK 2080], [SWRK 2093 ou SWRK 2090 ou l'ancien 2091] et [SWRK 3141 ou SWRK 3140].

Equiv To: SWRK 4160, SWRK 4180, SWRK 4220

SWRK 4303 Champs d'intervention et de pratique du travail social 3 cr

Séminaire d'enseignement des habiletés requises dans la pratique du travail social soit en contexte de stage ou d'intervention pratique. Insistance sur la pratique en termes de planification des changements (le système client), les politiques et les réseaux d'interrelations (le système service). Les séminaires peuvent varier d'une année à l'autre et sont organisés pour couvrir une variété de domaines ou de cadres d'intervention pratiques. On ne peut se faire créditer SWRK 4303 et SWRK 4300 ou l'ancien SWRK 4301.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: [SWRK 2113 ou SWRK 1310 ou l'ancien 1311], SWRK 2043, [SWRK 2081 ou SWRK 2080], [SWRK 2053 ou SWRK 2050 ou l'ancien SWRK 2051], [SWRK 2073 ou SWRK 2070 ou l'ancien SWRK 2071], [SWRK 2093 ou SWRK 2090 ou l'ancien 2091], [SWRK 3141 ou SWRK 3140] et [SWRK 3151 ou SWRK 3150]. Concomitant: SWRK 4121 ou SWRK 4120.

Mutually Exclusive: SWRK 4300, SWRK 4301

Sociology (SOC)

SOC 1211 Introduction à la microsociologie 3 cr

Introduction systématique à la perspective sociologique : points de vue théorique, méthodes et domaines de recherche. Initiation à l'étude de la socialisation, des groupes, de la famille, de l'école, des minorités, des rôles sexuels. On ne peut se faire créditer SOC 1211 et SOC 1000 ou l'anciens SOC 1200 ou SOC 1201.

Mutually Exclusive: SOC 1000, SOC 1200, SOC 1201

Attributes: Université de Saint-Boniface, Social Science

SOC 1221 Introduction à la macrosociologie 3 cr

Introduction systématique à la perspective sociologique : points de vue théoriques, méthodes et domaines de recherche. Initiation à la culture, à la stratification sociale, aux mouvements sociaux, à la population, aux institutions politiques, aux différents systèmes de la société. On ne peut se faire créditer SOC 1221 et SOC 1000 ou l'anciens SOC 1200 ou SOC 1201.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : SOC 1211.

Mutually Exclusive: SOC 1000, SOC 1200, SOC 1201

Attributes: Université de Saint-Boniface, Social Science

SOC 2013 Initiation à la recherche en sciences sociales 3 cr

Cours permettant de comprendre et d'apprécier la recherche menée dans les différentes disciplines de sciences humaines. Enjeux épistémologiques et éthiques. Problématique et questions de recherche. Logique des différents types de devis de recherche. Techniques d'analyse et de cueillette de données, incluant l'ethnographie, l'observation directe, l'entrevue, le groupe de discussion, l'analyse documentaire, le travail d'archive et le sondage. Ce cours est aussi donner comme ANTH 2013. On ne peut se faire créditer SOC 2013 et ANTH 2013, SOC 2292, SOC 2294, ou l'anciens ANTH 2831, SOC 2291, SOC 2290.

Equiv To: ANTH 2013

Mutually Exclusive: ANTH 2831, SOC 2290, SOC 2291

Attributes: Université de Saint-Boniface, Social Science

SOC 2221 Théories sociologiques classiques 3 cr

Aperçu de la théorie sociologique classique. Les principaux penseurs et les principales écoles de pensée en sociologie. On ne peut se faire créditer SOC 2221 et SOC 2220.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : SOC 1000 ou (SOC 1211 et SOC 1221) ou les anciens SOC 1200 ou SOC 1201.

Equiv To: SOC 2220

Attributes: Université de Saint-Boniface, Social Science

SOC 2261 Sociologie de la ville et du milieu urbain 3 cr

Étude des dimensions sociale et culturelle du phénomène urbain. Analyse de l'expérience urbaine, des formes de socialité et des inégalités sociales. On ne peut se faire créditer SOC 2261, SOC 2260, SOC 2271 ou SOC 2270.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : SOC 1000 ou (SOC 1211 et SOC 1221) ou les anciens SOC 1200 ou SOC 1201.

Equiv To: SOC 2260, SOC 2270, SOC 2271

SOC 2311 Choix de problèmes sociaux 3 cr

Analyse d'un ou de plusieurs problèmes sociaux contemporains (autres que le crime et la délinquance). On pourra examiner, par exemple, des problèmes tels que la pauvreté, la guerre, l'environnement, la consommation de drogues, la mortalité. Pour plus de détails sur le contenu du cours, consulter le guide d'inscription ou s'adresser au professeur. On ne peut se faire créditer SOC 2311 et SOC 2310.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : SOC 1000 ou (SOC 1211 et SOC 1221) ou les anciens SOC 1200 ou SOC 1201.

Equiv To: SOC 2310

Attributes: Université de Saint-Boniface, Social Science

SOC 2321 La société canadienne et sa culture 3 cr

Analyse sociologique des institutions canadiennes en adoptant, comme point de référence, des perspectives historiques, culturelles, économiques et politiques. On ne peut se faire créditer SOC 2321 et SOC 2320.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : SOC 1000 ou (SOC 1211 et SOC 1221) ou les anciens SOC 1200 ou SOC 1201.

Equiv To: SOC 2320

Attributes: Université de Saint-Boniface, Social Science

SOC 2331 Psychosociologie 3 cr

Examen de la relation entre individu, groupe et société, en soulignant l'interaction comme étant le processus qui donne à la vie quotidienne sa forme, sa direction et sa signification. Les sujets discutés peuvent inclure : le soi, le processus de formation de l'identité, la motivation, le contrôle des émotions. On ne peut se faire créditer SOC 2331 et SOC 2330.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : SOC 1000 ou (SOC 1211 et SOC 1221) ou les anciens SOC 1200 ou SOC 1201.

Equiv To: SOC 2330

Attributes: Université de Saint-Boniface, Social Science

SOC 2371 Rapports ethniques 3 cr

Introduction aux dimensions sociologiques et sociopsychologiques des rapports ethniques au Canada. On ne peut se faire créditer SOC 2371 et SOC 2370.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : SOC 1000 ou (SOC 1211 et SOC 1221) ou les anciens SOC 1200 ou SOC 1201.

Equiv To: SOC 2370

Attributes: Université de Saint-Boniface, Social Science

SOC 2391 L'organisation sociale 3 cr

Étude des forces qui influencent la formation de l'ordre dans la société, son maintien et son changement, le contrôle social, le conflit de pouvoir, l'intégration. On ne peut se faire créditer SOC 2391 et SOC 2390.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : SOC 1000 ou (SOC 1211 et SOC 1221) ou les anciens SOC 1200 ou SOC 1201.

Equiv To: SOC 2390

Attributes: Université de Saint-Boniface, Social Science

SOC 2461 La famille 3 cr

Analyse sociologique des diverses formes et pratiques familiales dans les sociétés contemporaines, ainsi que de leur évolution à partir de formes plus anciennes. Sont également étudiés les rapports entre les formes familiales et le contexte social global. On ne peut se faire créditer SOC 2461 et le SOC 2460.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : SOC 1000 ou (SOC 1211 et SOC 1221) ou les anciens SOC 1200 ou SOC 1201.

Equiv To: SOC 2460

Attributes: Université de Saint-Boniface, Social Science

SOC 2511 Criminologie 3 cr

Introduction générale aux théories de comportement déviant et de criminologie. L'explication du crime en se référant aux facteurs physiques, psychologiques et sociaux. On ne peut se faire créditer SOC 2511 et le SOC 2510.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : SOC 1000 ou (SOC 1211 et SOC 1221) ou les anciens SOC 1200 ou SOC 1201.

Equiv To: SOC 2510

Attributes: Université de Saint-Boniface, Social Science

SOC 2531 Sociologie du Manitoba 6 cr

Étude sociologique de la population du Manitoba avec un accent sur ses regroupements culturels et sa stratification sociale. On ne peut se faire créditer SOC 2531 et l'ancien SOC 2530.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : SOC 1000 ou (SOC 1211 et SOC 1221) ou les anciens SOC 1200 ou SOC 1201.

Equiv To: SOC 2530

Attributes: Université de Saint-Boniface, Social Science

SOC 3331 Origines de la pensée sociologique 3 cr

Une introduction systématique à la pensée sociologique, de ses origines philosophiques jusqu'au milieu du 19e siècle. Examen de la pensée sociale qui deviendra la base de la théorie sociologique. On ne peut se faire créditer SOC 3331 et SOC 3330.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : SOC 2221 ou SOC 2220.

Equiv To: SOC 3330

Attributes: Université de Saint-Boniface, Social Science

SOC 3371 Sociologie du travail 3 cr

Analyse du travail comme dimension centrale de la vie contemporaine. La transformation qu'a connu le travail dans le temps et par rapport aux changements politiques, technologiques et sociaux. L'organisation du travail du point de vue des travailleurs et des employeurs. L'impact du travail sur les individus, les institutions sociales et la société en général. On ne peut se faire créditer SOC 3371 et SOC 3370 ou LABR 3370.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : SOC 1000 ou (SOC 1211 et SOC 1221) ou les anciens SOC 1200 ou SOC 1201.

Equiv To: LABR 3370, SOC 3370

Attributes: Université de Saint-Boniface, Social Science

SOC 3391 Théories sociologiques contemporaines 3 cr

Comparaison systématique des théories sociologiques contemporaines. Évolution compétitive des diverses écoles en sociologie et surtout l'apport des théoriciens les plus importants. On ne peut se faire créditer SOC 3391 et SOC 3390.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : Une note minimale de C dans SOC 2221 ou SOC 2220.

Equiv To: SOC 3390

Attributes: Université de Saint-Boniface, Social Science

SOC 3471 Sociologie politique 3 cr

Évaluation critique de la théorie et des recherches sociologiques relatives aux rapports de force dans la société. Les divers aspects du pouvoir (économique, politique, idéologique), des conflits de classe, de la socialisation, de l'origine, des fonctions et de l'évolution de l'État.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : SOC 1000 ou (SOC 1211 et SOC 1221) ou les anciens SOC 1200 ou SOC 1201.

Equiv To: SOC 3470

Attributes: Université de Saint-Boniface, Social Science

SOC 3581 Culture, médias et société 3 cr

Étude de l'influence des médias dans les sociétés contemporaines; analyse de la production, de la circulation et de la consommation de diverses formes médiatiques et de leur impact sur la vie sociale. On ne peut se faire créditer SOC 3581 et SOC 3580 ou l'anciens SOC 3591 ou SOC 3590.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : SOC 1000 ou (SOC 1211 et SOC 1221) ou les anciens SOC 1200 ou SOC 1201. SOC 2331 ou SOC 2330 est recommandé.

Equiv To: SOC 3580, SOC 3590, SOC 3591

SOC 3731 Société et éducation 3 cr

Examen critique des enjeux de l'éducation et de leur impact sur l'évolution de la société. Questions telles que : le curriculum; l'interaction au sein de la classe compte tenu des caractéristiques socio-économiques des élèves (sexe, ethnique, niveau de revenu et profession des parents, etc.). Cours s'adressant particulièrement aux personnes qui se préparent à faire carrière en éducation. On ne peut se faire créditer SOC 3731 et SOC 3730.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : SOC 1000 ou (SOC 1211 et SOC 1221) ou les anciens SOC 1200 ou SOC 1201.

Equiv To: SOC 3730

Attributes: Université de Saint-Boniface, Social Science

SOC 3811 Sociologie de la sexualité et des rôles sexuels 3 cr

Étude exploratoire des rapports entre les hommes et les femmes dans la société contemporaine. Examen du processus de construction sociale de la sexualité et des rôles sexuels, à travers une perspective historique de comparaison entre les cultures. On ne peut se faire créditer SOC 3811 et SOC 3810.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : SOC 1000 ou (SOC 1211 et SOC 1221) ou les anciens SOC 1200 ou SOC 1201.

Equiv To: SOC 3810

Attributes: Université de Saint-Boniface, Social Science

SOC 3871 Inégalités sociales 3 cr

Présentation des inégalités sociales dans la société capitaliste actuelle. Examen critique des explications proposées au sujet des diverses dimensions de l'inégalité sociale telles qu : la classe sociale d'appartenance, les rôles sexuels et l'appartenance ethnique. Discussions au sujet de la pauvreté, de la répartition sociale, de la richesse, du chômage, de l'évolution des postes et des contextes de travail à l'ère de la mondialisation. On ne peut se faire créditer SOC 3871 et SOC 3890 ou l'ancien SOC 3870.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : SOC 1000 ou (SOC 1211 et SOC 1221) ou les anciens SOC 1200 ou SOC 1201.

Equiv To: SOC 3870

Attributes: Université de Saint-Boniface, Social Science

Spanish (SPAN)

SPAN 1171 Introduction à l'espagnol I 3 cr

(Laboratoire requis) Ce cours est conçu pour des étudiants et des étudiantes ayant très peu ou n'ayant aucune connaissance de l'espagnol. Les étudiants et les étudiantes dont la langue maternelle est l'espagnol ou possédant des crédits d'espagnol 40 S ou l'équivalent ne peuvent s'inscrire à ce cours sans permission spéciale. On ne peut se faire créditer SPAN 1171 et aucun des cours suivants : SPAN 1180 ou l'ancien SPAN 1181 (ancien TRAD 1181). Ce cours n'est pas accessible aux étudiants qui ont déjà obtenu des crédits pour SPAN 1262 ou l'ancien SPAN 1260 ou SPAN 1261 (ancien TRAD 1261) ou SPAN 1272 ou l'ancien SPAN 1270 ou SPAN 1271 (ancien TRAD 1271) ou SPAN 1280 ou SPAN 1290.

Mutually Exclusive: SPAN 1180, SPAN 1181, TRAD 1181

SPAN 1191 Introduction à l'espagnol II 3 cr

(Laboratoire requis) Cours destiné aux étudiants et étudiantes connaissant déjà l'alphabet et le système de sons espagnols, ayant une compréhension élémentaire de la langue et maîtrisant les bases de la communication et de l'écriture équivalentes à celles qui seraient obtenues à SPAN 1171. On ne peut se faire créditer SPAN 1191 et SPAN 1190, l'ancien SPAN 1181 (TRAD 1181) ou SPAN 1180. Cours non accessible aux étudiants et étudiantes qui ont déjà obtenu des crédits pour l'ancien SPAN 1260, l'ancien SPAN 1261 (TRAD 1261), SPAN 1262, SPAN 1263, SPAN 1270, l'ancien SPAN 1271 (TRAD 1271), SPAN 1272, SPAN 1273, SPAN 1280, SPAN 1290.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans SPAN 1171, ou l'autorisation écrite du professeur ou de la professeure.

Equiv To: SPAN 1190

Mutually Exclusive: SPAN 1180, SPAN 1181, SPAN 1260, SPAN 1261, SPAN 1270, SPAN 1271, SPAN 1272, SPAN 1273, SPAN 1280, SPAN 1290, TRAD 1181, TRAD 1261, TRAD 1271

SPAN 1263 Espagnol intermédiaire : grammaire et conversation 1 3 cr

(Laboratoire requis) Ce cours est la première partie de l'espagnol intermédiaire. L'accent est mis sur le développement des compétences intermédiaires en lecture, écriture, expression orale et compréhension orale. Les principaux objectifs sont de renforcer les compétences de communication et de renforcer la sensibilisation sociale et culturelle du monde hispanophone. Ce cours n'est pas ouvert aux étudiants parlant couramment l'espagnol. Les étudiant(e)s ayant obtenu un crédit pour l'espagnol à l'école secondaire (40S) peuvent s'inscrire directement à ce cours. On ne peut se faire créditer SPAN 1263 et aucun de Spanish 40S, SPAN 1262, SPAN 1280, SPAN 1290, l'ancien SPAN 1260 ou l'ancien SPAN 1261 (ancien TRAD 1261).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: une note minimale de C dans SPAN 1180 ou l'ancien SPAN 1181 ou l'ancien TRAD 1181 ou SPAN 1190 ou (SPAN 1171 et SPAN 1191) ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: SPAN 1262

Mutually Exclusive: SPAN 1260, SPAN 1261, SPAN 1280, SPAN 1290, TRAD 1181, TRAD 1261

SPAN 1273 Espagnol intermédiaire : grammaire et conversation 2 3 cr

(Lab. requis) Ce cours est la deuxième partie de l'espagnol intermédiaire. L'accent est mis sur le développement des compétences intermédiaires en lecture, écriture, expression orale et compréhension orale.

Les principaux objectifs sont de renforcer les compétences de communication et de renforcer la sensibilisation sociale et culturelle du monde hispanophone. Ce cours n'est pas ouvert aux étudiants parlant couramment l'espagnol. On ne peut se faire créditer SPAN 1273 et aucun de SPAN 1272, SPAN 1271, SPAN 1280, SPAN 1290, l'ancien SPAN 1270, l'ancien TRAD 1271.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de C dans SPAN 1263 ou SPAN 1262 ou l'ancien SPAN 1260 ou SPAN 1261 ou l'ancien TRAD 1261 ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: SPAN 1272

Mutually Exclusive: SPAN 1180, SPAN 1181, SPAN 1190, SPAN 1191, SPAN 1270, SPAN 1271, SPAN 1280, SPAN 1290, TRAD 1271

SPAN 2361 Espagnol commercial 3 cr

(Ancien TRAD 2361) Initiation au vocabulaire commercial et aux techniques d'écriture dans le domaine des affaires. Accent mis sur la composition appliquée au domaine commercial: rédaction de lettres, comptes rendus d'activités ou de réunion, etc.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans SPAN 1261 (TRAD 1261), l'ancien SPAN 1260, SPAN 1280, SPAN 1290 ou SPAN 1262 ou l'autorisation écrite de la professeure ou du professeur.

SPAN 2461 Amérique latine : chocs et métissages culturels 3 cr

Analyse des oeuvres littéraires, cinématographiques et artistiques, ainsi que des récits et des témoignages portant sur les rencontres qui ont eu lieu dans le « Nouveau monde » entre les civilisations et les peuples précolombiens et les Conquistadors, puis Colons, espagnols, et les conséquences de ces rencontres au fil du temps. Étude principalement les traces culturelles laissées sur les périodes qui ont marqué de façon permanente et profonde les cultures des pays latino-américains : la Conquête, le système esclavagiste et la formation des états-nations. Cette analyse recouvre différents types de productions culturelles : récits, témoignages, histoire, littérature, cinéma, peinture, sculpture, discours politiques, etc. On ne peut se faire créditer SPAN 2461 et SPAN 2671

Espagnol sujet special 1 : Amérique latine : choc et métissages culturels.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : SPAN 1263 ou SPAN 1262, SPAN 1280 ou SPAN 1290; ou l'ancien SPAN 1261 ou l'ancien SPAN 1260; ou l'autorisation professorale.

Mutually Exclusive: SPAN 2671

Attributes: Université de Saint-Boniface

SPAN 2551 Espagnol : langue avancée et composition 3 cr

Le but de ce cours, destiné aux étudiantes et aux étudiants qui ont atteint une maîtrise de niveau intermédiaire de l'espagnol, est d'améliorer leur niveau de langue et l'habileté de leur expression écrite. On ne peut se faire créditer SPAN 2551 et SPAN 2550.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : Une note minimale de C dans SPAN 1261 ou SPAN 1262 ou SPAN 1280 ou SPAN 1290 ou l'ancien SPAN 1260 ou l'ancien TRAD 1261, ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: SPAN 2550

SPAN 2553 Perfectionnement et pratique de l'espagnol, langue et grammaire 1 3 cr

Cours de perfectionnement et de consolidation linguistique et grammaticale. L'objectif général est d'atteindre un niveau intermédiaire avancé dans la connaissance et la maîtrise de la langue espagnole. Certains aspects grammaticaux, lexicaux et phonétiques complexes seront étudiés, ainsi que certains aspects culturels à travers des activités écrites et orales. Le cours est orienté vers la correction formelle et la réflexion ainsi que vers la fluidité et l'utilisation appropriée de la grammaire et du vocabulaire. On ne peut se faire créditer SPAN 2553 et SPAN 2671

Espagnol sujet special 1 : Perfectionnement et pratique de l'espagnol, langue et grammaire 1.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : SPAN 1263 ou SPAN 1262, SPAN 1280 ou SPAN 1290; ou l'ancien SPAN 1261 (TRAD 1261) et l'ancien SPAN 1260; ou l'autorisation professorale.

Mutually Exclusive: SPAN 2671

Attributes: Université de Saint-Boniface

SPAN 2571 El espanol a través del cine hispanoamericano 3 cr

(Ancien TRAD 2571) Les cultures espagnole et latino-américaine à partir d'oeuvres cinématographiques issues de ces cultures. Accent sur la discussion et l'expression orale.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans SPAN 1271 (TRAD 1271), SPAN 1270, SPAN 1280, SPAN 1290 ou SPAN 1272 ou l'autorisation écrite de la professeure ou du professeur.

Equiv To: TRAD 2571

SPAN 2573 Espagnol sujet spécial I 3 cr

Le contenu de ce cours varie en fonction des besoins et des intérêts des étudiants et des professeurs. La formule du tutorat peut être utilisée. Le contenu du cours varie d'année en année. Puisque les contenus varient d'année en année et que le cours se crée selon les besoins des étudiantes et des étudiants, les étudiantes et les étudiants pourraient suivre ce cours plus d'une fois.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: Note minimale de "C" ou plus au cours d'espagnol TRAD 1261 ou le consentement écrit du professeur.

SPAN 2591 Femmes et culture en Espagne et en Amérique latine 3 cr

Panorama de la culture latino-américaine abordée à partir de la production féminine. Étude des oeuvres des femmes, de leurs conditions de production dans une perspective féministe et dans le cadre théorique des études culturelles. Panorama incluant divers pays et diverses époques, ainsi que différents types de production (littérature, cinéma, peinture et sculpture).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans SPAN 1262 (SPAN 1261, TRAD 1261), l'ancien SPAN 1260, SPAN 1280 ou SPAN 1290 ou l'autorisation écrite de la professeure ou du professeur.

SPAN 2671 Espagnol sujet spécial I 3 cr

Cours à contenu variant en fonction des besoins et des intérêts des personnes qui le suivent et de celles qui l'enseignent. La formule de tutorat peut être utilisée. Le contenu variera d'année en année alors l'étudiant(e) peut se faire créditer ce cours plus d'une fois.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans SPAN 1262 (SPAN 1261, TRAD 1261), l'ancien SPAN 1260, SPAN 1280 ou SPAN 1290 ou l'autorisation écrite de la professeure ou du professeur.

Mutually Exclusive: SPAN 2461, SPAN 2553

SPAN 3271 Espagnol sujet spécial II 3 cr

Cours au contenu variant en fonction des besoins et des intérêts des personnes qui le suivent et de celles qui l'enseignent. La formule du tutorat peut être utilisée. Cours dont le contenu varie d'année en année et pouvant donc être suivi plus d'une fois.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C à un cours d'espagnol de niveau 2000 ou l'autorisation écrite de la professeure ou du professeur.

Mutually Exclusive: SPAN 3463, SPAN 3465, SPAN 3467

SPAN 3341 Grammaire et syntaxe de l'espagnol 3 cr

Ce cours comprend une étude approfondie et détaillée de la grammaire et de la syntaxe de l'espagnol. On ne peut se faire créditer le SPAN 3340, SPAN 3341 et l'ancien SPAN 3280. Une note de « C » ou plus dans n'importe quel cours d'espagnol de niveau 2000 ou le consentement par écrit du professeur.

Equiv To: SPAN 3280, SPAN 3340

SPAN 3461 Littérature et civilisation d'Amérique latine 3 cr

(Ancien TRAD 3461) Initiation aux grands auteurs d'Amérique latine, ainsi qu'aux caractères spécifiques des sociétés latino-américaines : valeurs, pratiques culturelles, mais aussi politiques, commerciales et professionnelles.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans SPAN 1261 (TRAD 1261) ou SPAN 1260.

Equiv To: TRAD 3461

SPAN 3463 Le réalisme magique dans la littérature latino-américaine 3 cr

Étude des oeuvres significatives de la littérature latino-américaine appartenant à l'esthétique du réalisme magique. À travers l'interprétation et l'analyse des oeuvres littéraires importantes, ce cours étudiera les problématiques spécifiques à la culture latino-américaine dans le contexte des tensions et des relations entre différents sujets, institutions, groupes sociaux et genres. On ne peut se faire créditer SPAN 3463 et SPAN 3271 Espagnol sujet spécial 2 : Le réalisme magique dans la littérature latino-américaine.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : importe quel cours d'espagnol de niveau 2000 ou l'autorisation professorale.

Mutually Exclusive: SPAN 3271

Attributes: Université de Saint-Boniface

SPAN 3465 Perfectionnement et pratique de l'espagnol, langue et grammaire 2 3 cr

Cours de perfectionnement et de consolidation linguistique et grammaticale. L'objectif général est d'atteindre un niveau avancé élevé dans la connaissance et la maîtrise de la langue espagnole. Certains aspects grammaticaux, lexicaux et phonétiques complexes seront étudiés, ainsi que certains aspects culturels à travers des activités écrites et orales. Le cours est orienté vers la correction formelle et la réflexion ainsi que vers la fluidité et l'utilisation appropriée de la grammaire et du vocabulaire. On ne peut se faire créditer SPAN 3465 et SPAN 3271 Espagnol sujet spécial 2 : Perfectionnement et pratique de l'espagnol, langue et grammaire 2.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : importe quel cours d'espagnol de niveau 2000 ou l'autorisation professorale.

Mutually Exclusive: SPAN 3271

Attributes: Université de Saint-Boniface

SPAN 3467 Représentations du handicap en Espagne et Amérique latine 3 cr

Réflexion sur la représentation du handicap dans le dialogue social (télévision, cinéma, littérature, presse, etc.). Analyse et déconstruction des stéréotypes et des idées préconçues sur les personnes en situation de handicap présents dans les représentations qui circulent dans les sociétés hispanophones. Étude des mécanismes de la construction de l'identité/altérité que résultent dans l'exclusion et le rejet des personnes handicapées. On ne peut se faire créditer SPAN 3467 et SPAN 3271 Espagnol sujet spécial 2 : Représentations du handicap en Espagne et Amérique latine.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : importe quel cours d'espagnol de niveau 2000 ou l'autorisation professorale.

Mutually Exclusive: SPAN 3271

Attributes: Université de Saint-Boniface

SPAN 3561 Cours avancé d'espagnol professionnel 3 cr

(Ancien TRAD 3561) Pratique de la traduction de l'espagnol vers le français vers l'espagnol à partir de textes pragmatiques à caractère professionnel.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans SPAN 2361 (TRAD 2361).

Equiv To: TRAD 3561

SPAN 3881 Violence, révolutions et dictatures dans la culture hispanophone 3 cr

Panorama de la culture latino-américaine suivant l'histoire de la violence. On étudiera les manifestations culturelles reliées aux événements qui ont marqué l'histoire de l'Amérique latine: révolutions, guérillas, dictatures. Le contenu du cours se centre sur les manifestations des artistes et d'autres producteurs culturels vis-à-vis de la violence (apologistes ou pacifistes?).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: Avoir obtenu (C) ou plus dans au moins un cours d'espagnol de niveau 2000 ou le consentement écrit du professeur.

Statistics (STAT)

STAT 1001 Analyse statistique de base I 3 cr

(Laboratoire requis) Introduction aux principes fondamentaux de la statistique et aux procédures utilisées en analyse de données. Étude de la cueillette de données, de l'affichage et de l'élagage de données, des relations entre variables, des distributions échantillonnales, de l'estimation, des tests de signification et de l'inférence pour les moyennes. Ce cours n'est pas recommandé pour les étudiantes et les étudiants qui veulent poursuivre dans un programme de statistique ou dans une autre discipline qui requiert de bonnes habiletés en méthodes statistiques (voir la description de STAT 1150). On ne peut se faire créditer STAT 1001 et STAT 1000, STAT 1150 ou STAT 2220.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : N'importe quel cours de mathématiques de 12e année ou de niveau 40S, ou l'équivalent.

Equiv To: STAT 1000

Mutually Exclusive: STAT 1150, STAT 2220

Attributes: Université de Saint-Boniface, Mathematics Requirement, Science, Recommended Intro Courses

STAT 2001 Analyse statistique de base II 3 cr

(Laboratoire requis) Étude des procédures d'estimation et de tests d'hypothèses pour les moyennes et les proportions dans les contextes d'échantillonnage à une, deux ou plusieurs variables. Introduction à l'analyse de variance, à la régression et à la corrélation. Les méthodes non paramétriques, la conception d'expériences, les modèles probabilistes. Ce cours n'est pas recommandé pour les étudiantes et les étudiants qui veulent poursuivre dans un programme de statistique ou dans une autre discipline qui requiert de bonnes habiletés en méthodes statistiques (voir la description de STAT 2150). On ne peut se faire créditer STAT 2001 et STAT 2000 ou STAT 1150.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : une note minimale de C dans STAT 1001 ou STAT 1000.

Equiv To: STAT 2000

Mutually Exclusive: STAT 1150

Attributes: Université de Saint-Boniface, Mathematics Requirement, Science, Recommended Intro Courses

Supply Chain Management (SCM)

SCM 2161 Gestion de la chaîne logistique et des opérations 3 cr

Étude de la gestion de la chaîne logistique (GCL) et des opérations. Positionne la gestion des opérations comme un domaine d'étude fondamental à l'intérieur de la GCL. Se focalise sur l'approche processus et la conception de système. L'étudiant (e) qui détient les crédits du SCM 2161 ne peut se faire créditer aucun des cours OPM 2601 ou OPM 2600 ou SCM 2160.

Equiv To: OPM 2600, OPM 2601, SCM 2160

Theatre (THTR)

THTR 1001 Initiation à l'improvisation théâtrale 3 cr

Ce cours vise à initier les étudiants aux aspects fondamentaux de l'improvisation théâtrale. À ce titre, il aborde différents aspects de l'improvisation comme l'expression des sentiments et du corps, la mise en scène, le jeu à partir d'un motif, la créativité, l'écoute du public, la capacité d'attention, l'initiative, la réceptivité, la spontanéité sur scène et l'utilisation des accessoires.

THTR 1021 Introduction à l'analyse du texte théâtral 3 cr

S'il est indéniable que le texte de théâtre a beaucoup progressé depuis une trentaine d'années, en revanche la pratique du théâtre demeure encore souvent marquée par la difficulté de saisir le texte comme tel, comme s'il fallait toujours s'en remettre à la représentation pour que le texte théâtral soit considéré comme un véritable objet d'études. Ce cours permettra à l'étudiant-e de combler cette lacune tout en l'initiant aux aspects les plus saillants du texte théâtral. On pourra ainsi se demander s'il existe une spécificité du texte de théâtre, si l'étude du théâtre peut se passer de la représentation ou du texte théâtral. Cette investigation permettra d'aborder des questions qui touchent aussi bien à l'organisation et à la structuration du texte théâtral, qu'à la fiction, l'espace, le temps, l'énoncé, l'énonciation, le personnage et l'action.

THTR 2521 Art théâtral et techniques de scène 3 cr

Ce cours vise à initier les étudiants aux équipements spécialisés de la scène. Il y sera question d'éclairage (théorie de la lumière et de la couleur, fonctionnement des projecteurs, maîtrise de la console d'éclairage, création d'un ensemble scénique homogène) et des principes de la sonorité (fonctionnement des divers appareils: lecteurs, microphones, amplificateurs, réverbérateurs, etc.). Ce cours abordera aussi la sonorité: théorie du son, éventail de bruitsages, utilisation d'effets sonores et de musique dans un spectacle, enregistrement. Enfin, ce cours se penchera sur la question de la régie: direction technique et direction de production théâtrale.

THTR 2531 Le jeu corporel 3 cr

Ce cours vise à initier les étudiants aux diverses approches du corps comme langage scénique: les rapports entre le langage et le geste, les fonctions de la gestuelle dans un jeu équilibré. Il sera aussi question des rapports entre le corps et l'espace, le corps et les rythmes. Il s'agira enfin de mettre l'accent sur les grandes tendances qui se dégagent des problématiques actuelles sur les rapports entre le corps et le jeu.

THTR 2541 L'expression orale au théâtre 3 cr

Étude de l'expression orale et de la communication sous leurs différents aspects. Étude des règles de la prononciation, de l'élocution et de la prosodie de français contemporain. Étude des diverses techniques de l'élocution théâtrale comme moyen de communication et comme moyen de l'art dramatique (registres tragique, dramatique et comique). Analyse des facteurs et des fonctions du langage et de la communication. Initiation aux techniques de lecture à première vue et aux textes à mémoriser. Initiation aux diverses techniques respiratoires et vocales.

THTR 2551 Improvisation théâtrale 3 cr

Ce cours reprend les grands principes de l'improvisation théâtrale proposés dans le THTR 1000 (Initiation à l'improvisation théâtrale), mais il les applique cette fois à nombre de thématiques, de situations et d'aspects différents du jeu improvisé. À ce titre, ce cours aborde et explore d'autres dimensions de l'improvisation théâtrale, tout en se fondant sur les acquis du cours l'improvisation de première année.

THTR 3521 Interprétation, voix et expression orale 3 cr

Étude de la voix sur le plan interprétatif et expressif. Les divers rapports entre la voix, l'expressivité individuelle, collective et le spectacle. Les rythmes de la voix (modulations, hésitations, accélérations...). Les rapports entre la voix, le corps et l'espace. Les principes de l'improvisation vocale et du jeu choral.

THTR 3531 Jeu et caméra 3 cr

Ce cours vise à initier les étudiants au rôle créateur de la caméra. À ce titre, les rapports entre le jeu de l'acteur et les différents types de cadrages relatifs au septième art seront abordés. En outre, il y sera question de compréhension et d'interprétation de scripts, ainsi que de nombreux aspects relatifs au jeu de l'acteur sur un plateau de tournage: scènes de combat, essayage de costumes, apprentissage d'accents étrangers, maniement d'armes, principes de jeu avec des animaux ou des doublures. Du reste, ce cours accordera une attention particulière à la question des auditions.

THTR 3541 Le jeu réaliste 3 cr

Connaissance théorique et pratique des techniques de jeu réaliste selon la méthode de Stanislavski et de l'Actors' Studio. Le rôle et les fonctions du corps, les techniques de l'identification et de l'incarnation; le rôle des émotions, l'écoute des partenaires de jeu, l'observation, la construction globale du personnage. Techniques et esthétiques du jeu réaliste.

THTR 3551 Clown et masques 3 cr

Ce cours vise à initier les étudiants aux aspects fondamentaux de l'art du clown et du rôle des masques dans l'engagement physique au théâtre. Aussi aborde-t-il les différents aspects du jeu du clown et de la pratique de jeu masqué (théâtre antique, Commedia dell'arte), comme la gestuelle, le langage, le mouvement, l'espace, l'utilisation des accessoires et l'importance de l'intégration du clown à la formation de l'acteur.

THTR 3561 Scénographie 3 cr

Introduction à la scénographie du point de vue historique et évolutif (du théâtre de l'Antiquité grecque au théâtre de la dérision). Introduction au travail d'agencement des moyens techniques et artistiques de la scénographie, en tenant compte des rapports entre le texte théâtral et l'espace de la scène. Mise en relief des différentes étapes de la conception scénographique (décors, costumes, jeu de lumières, effets scéniques, etc.). Réflexion sur le travail de scénographes réputés comme Walter Gropius, Yannis Kokkos et Wieland Wagner.

THTR 3571 Atelier de théâtre 3 cr

Cours d'initiation à la pratique théâtrale dans son ensemble: jeu, scénographie, mise en scène. Ce cours constitue une synthèse de tous les aspects de l'art dramatique en prévision de scènes devant la salle de classe et/ ou pour des invitées à la fin du trimestre. Des aspects incontournables de l'art dramatique figureront au programme de ce cours: la concentration, l'écoute personnelle et collective, le monologue intérieur, la mémoire sensorielle et affective, l'analyse approfondie de scènes, la construction de personnages, le travail à l'extérieur des répétitions ainsi que le comportement lors de répétitions.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: Avoir réussi l'un des deux cours consacrés à l'improvisation (THTR 1001, THTR 2551), 4 cours de 2e année et 2 cours de 3e année.

THTR 4521 Mise en scène 3 cr

Ce cours vise à initier les étudiants aux principes relatifs à la mise en scène. Les rapports entrent l'art de la mise en scène et certaines théories esthétiques seront abordées. également de mettre l'accent sur les grandes tendances qui se dégagent des problématiques actuelles de la mise en scène. Ce cours propose aussi une réflexion critique sur la mise en scène comme forme d'interprétation qui mène à la création théâtrale.

THTR 4531 Mise en scène II 3 cr

Ce cours reprend les principes de Mise en scène I et les applique à la dramaturgie, à la scénographie, à différentes esthétiques historiques et au jeu de l'acteur. À ce titre, ce cours permet à l'étudiant de mieux connaître les ressources artistiques et pratiques à la disposition du metteur en scène. À travers une série de travaux pratiques et de projets, l'étudiant pourra parachever ses connaissances de la mise en scène. Tout en insistant sur les divers aspects de la mise en scène, ce cours accordera aussi une importance particulière à la direction des acteurs.

THTR 4541 Jouer les genres théâtraux: comédie, tragédie et drame 3 cr

Cours de synthèse dans lequel les étudiants aborderont les techniques de jeu liées aux genres théâtraux: la comédie, la tragédie et le drame. À ce titre, une attention particulière sera apportée à l'action comique, tragique et dramatique sous le rapport des conflits et des renversements de situation, des rythmes vocaux (répliques, interaction entre comédiens), des didascalies, du contexte culturel des oeuvres dramaturgiques et du contexte théâtral en général. Ce cours permettra aussi d'aborder la question de la composition et de l'interprétation d'un personnage, en fonction de la compréhension du texte et des techniques de jeu.

THTR 4551 Atelier de théâtre et production 3 cr

L'objectif de ce cours consiste à produire une pièce de théâtre, soit une création collective, soit une oeuvre de répertoire. La contribution et l'implication des étudiant-e-s seront essentielles car ils devront prendre en charge, sous la supervision du professeur, les divers aspects d'une production théâtrale: publicité, décors, costumes, éclairages, bruitages jeu et, dans une moindre mesure, mise en scène. À ce titre, ce cours donne l'occasion aux étudiant-e-s de mettre en pratique ce qu'ils auront appris dans d'autres cours de la Spécialisation en études théâtrales; ce qui leur permettra d'acquérir à la fois une plus grande autonomie et une expérience indispensable dans le domaine des arts de la scène.

Traduction (St. Boniface) (TRAD)

TRAD 2071 Grammaire normative 6 cr

Dans le cadre d'une révision approfondie de la grammaire, apprentissage des particularités orthographiques du français. Les formes et les fonctions des parties du discours, en insistant sur le verbe et ses conjugaisons ainsi que sur les règles d'accord et de concordance à l'intérieur de la phrase simple et de la phrase complexe.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: réussite de l'examen d'admission aux programmes de traduction ou avoir obtenu une note minimale de B dans FRAN 1091 et FRAN 1111.

Attributes: Université de Saint-Boniface, Humanities

TRAD 2101 Analyse et résumé de textes 1 3 cr

Apprentissage des techniques d'analyse et de résumé de textes pragmatiques français de façon à développer l'aptitude interprétative (extraction du sens) et les capacités expressives (reformulation). Textes, écrits ou audiovisuels, touchant à l'actualité et aux divers domaines avec lesquels le traducteur sera appelé à se familiariser. N.B. Ce cours, obligatoire dans le cadre du baccalauréat spécialisé, ne l'est pas pour le certificat de traduction. Toutefois, si l'examen d'admission révélait des lacunes par rapport à l'analyse ou au résumé, l'étudiante ou l'étudiant pourrait devoir suivre ce cours en plus de ceux prévus pour le certificat.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: réussite de l'examen d'admission ou une note minimale de B+ au FRAN 1111] ou l'autorisation écrite du professeur ou de la professeure.

Attributes: Université de Saint-Boniface, Humanities

TRAD 2111 Informatique et traduction 3 cr

Introduction à l'usage des ordinateurs en traduction: banques de données terminologiques, dictionnaires électroniques, traduction assistée par ordinateur. Introduction à la traduction automatique. Internet pour les traducteurs.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: réussite de l'examen d'admission ou l'autorisation écrite du professeur ou de la professeure.

Attributes: Université de Saint-Boniface, Humanities

TRAD 2151 Introduction à la traduction 3 cr

Initiation à la pratique de la traduction, à sa terminologie et aux méthodes de travail. Réflexion sur la responsabilité du traducteur vis-à-vis de ceux qu'il traduit (auteurs, représentants politiques, etc.) et de ses lecteurs.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: réussite de l'examen d'admission ou l'autorisation écrite de la professeure ou du professeur.

Attributes: Université de Saint-Boniface, Humanities

TRAD 2301 Culture générale I 3 cr

Cours autodidactique pluridisciplinaire. L'étudiant(e) établit son corpus à partir d'une liste de lecture et en accord avec le(la) responsable de son programme d'étude.

Attributes: Université de Saint-Boniface, Humanities

TRAD 3011 Lexicologie comparée 3 cr

Étude des domaines abordés par la lexicologie et comparaison des structures lexicosémantiques de l'anglais et du français dans l'optique de la traduction. Ce cours abordera entre autres des notions telles que la contextualisation; la cooccurrence; les interférences linguistiques (anglicismes, gallicismes, faux amis); et la modulation lexicale en traduction.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: avoir réussi l'examen d'admission ou obtenu l'autorisation du professeur ou de la professeure.

Attributes: Université de Saint-Boniface, Humanities

TRAD 3051 Syntaxe comparée 3 cr

Étude contrastive des structures syntaxiques de l'anglais et du français dans l'optique de la traduction. Apprentissage des techniques de transfert et particulièrement de la transposition syntaxique à l'aide de nombreux exercices pratiques. Correction des problèmes de syntaxe provenant d'interférences linguistiques: calques, mauvais emplois des prépositions, des temps, etc. On ne peut se faire créditer le TRAD 3051.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: réussite de l'examen d'admission ou l'autorisation du professeur ou de la professeure.

Attributes: Université de Saint-Boniface, Humanities

TRAD 3101 Analyse et résumé de textes II 3 cr

Pratique des techniques d'analyse et de résumé à partir de textes français ou anglais. La reformulation en français sera l'occasion d'un exercice intellectuel proche de la traduction. Recherches documentaires visant non seulement à l'amélioration des connaissances générales, mais aussi à l'établissement de glossaires. N.B. Ce cours, obligatoire dans le cadre du baccalauréat spécialisé, ne l'est pas pour le certificat de traduction. Toutefois, si l'examen d'admission révélait des lacunes par rapport à l'analyse ou au résumé, l'étudiante et l'étudiant pourrait devoir suivre ce cours en plus de ceux prévus pour le certificat.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans le TRAD 2101.

Attributes: Université de Saint-Boniface, Humanities

TRAD 3111 Laboratoire I 3 cr

Travaux pratiques dans des conditions semblables à celles d'un bureau de traduction (qualité du produit fini, gestion du temps, échéances, etc.). Révision des travaux par le professeur ou la professeure.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : une note minimale de C dans TRAD 2101 et TRAD 3101 ou dans TRAD 3261 et TRAD 3131.

Attributes: Université de Saint-Boniface, Humanities

TRAD 3121 Lexicographie comparée 3 cr

Étude contrastive de dictionnaires unilingues et bilingues anglais/français. Lecture de manuels de lexicographie et comparaison de divers dictionnaires unilingues et bilingues.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: réussite de l'examen d'admission ou l'autorisation écrite du professeur ou de la professeure.

Attributes: Université de Saint-Boniface, Humanities

TRAD 3131 Terminologie bilingue et documentation 3 cr

Initiation aux diverses méthodes d'acquisition de la documentation permettant une application à la traduction: utilisation des encyclopédies, des ouvrages et des revues spécialisées à des fins terminologiques.

Apprentissage de l'utilisation des banques de données et établissement de fiches terminologiques.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: une note minimale de C dans TRAD 2101 et TRAD 3101] ou une note minimale de C dans TRAD 2151 ou l'autorisation écrite du professeur ou de la professeure.

Attributes: Université de Saint-Boniface, Humanities

TRAD 3141 Rédaction professionnelle comparée I 3 cr

Étude comparative de documents professionnels anglais et français afin de mettre en lumière les différences qui peuvent exister dans les méthodes de présentation ou d'expression en anglais et en français. Production de textes professionnels variés (lettres, procès-verbaux, curriculum vitae, etc.).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: une note minimale de C dans les TRAD 3101 ou dans TRAD 2151, ou l'autorisation écrite du professeur ou de la professeure.

Attributes: Université de Saint-Boniface, Humanities

TRAD 3261 Traduction générale (anglais-français) 3 cr

Mise en pratique des principes de traduction présentés dans le cours TRAD 2151 (Introduction à la traduction) auquel il fait suite. Textes à traduire de nature générale et portant sur divers domaines de l'actualité et de la vie professionnelle.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans le TRAD 2151.

Attributes: Université de Saint-Boniface, Humanities

TRAD 3271 General Translation (French-English) 3 cr

Apprentissage et application des règles de base de la traduction vers l'anglais de textes français d'intérêt général. Par une approche analytique du sens, découverte des principaux aspects du maniement du langage pour pouvoir saisir les idées d'un message et leur articulation, et les reformuler en exploitant les ressources de l'anglais.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans au moins un des cours suivants: le ENGL 2000 ou le ENGL 2001 ou le TRAD 2101 ou le TRAD 2151.

Attributes: Université de Saint-Boniface, Humanities

TRAD 3281 Sujets particuliers 3 cr

Contenu variable en fonction des besoins et des intérêts des étudiants et des professeurs.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: un cours (3 crédits) de niveau 2000 avec une note minimale de C ou l'autorisation de la professeure ou du professeur.

Attributes: Université de Saint-Boniface, Humanities

TRAD 3301 Culture générale II 3 cr

Cours autodidactique pluridisciplinaire. L'étudiante ou l'étudiant établit son corpus à partir d'une liste de lecture et en accord avec le ou la responsable de son programme d'étude.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans le TRAD 2301.

Attributes: Université de Saint-Boniface, Humanities

TRAD 3581 Sujets particuliers 3 cr

Contenu variable en fonction des besoins et des intérêts. Cette cote de cours peut être utilisée pour différents titres de cours spécifiques.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans TRAD 3261 et TRAD 3131 ou l'autorisation écrite de la professeure ou du professeur.

TRAD 3981 Sujets particuliers 3 cr

Contenu variable en fonction des besoins et des intérêts. Cette cote de cours peut être utilisée pour différents titres de cours spécifiques.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans TRAD 3261 et TRAD 3131 ou l'autorisation écrite de la professeure ou du professeur.

TRAD 4011 Atelier de traduction professionnelle 3 cr

Travaux pratiques de traduction en atelier où la simulation des conditions réelles de travail devra permettre d'améliorer sa productivité sous le rapport du temps et de la qualité.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans TRAD 3261 ou TRAD 3271 et une note minimale de C dans TRAD 3131, ou l'autorisation écrite du professeur ou de la professeure.

Attributes: Université de Saint-Boniface, Humanities

TRAD 4031 Analyse du discours I 3 cr

Le discours comme réseau de relation, fait de langage et fait social. Son inscription dans le schéma de la communication. Initiation à la théorie de communication. La notion de littérarité selon plusieurs modèles théoriques, notamment la théorie de réception et le modèle marxiste. Application à l'analyse de textes littéraires et pragmatiques. On ne peut se faire créditer le TRAD 4031 et l'ancien TRAD 4021.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: l'autorisation écrite du professeur ou du chef de département de français ou de traduction.

Mutually Exclusive: TRAD 4021

Attributes: Université de Saint-Boniface, Humanities

TRAD 4033 Analyse du discours II 3 cr

Le discours comme réseau de relation, fait de langage et fait social. Son inscription dans le schéma de la communication. Initiation à la théorie de communication. La notion de littérarité selon plusieurs modèles théoriques, notamment la sémiotique et les perspectives psychoanalytiques. Application à l'analyse de textes littéraires et pragmatiques. On ne peut se faire créditer le TRAD 4033 et l'ancien TRAD 4021.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: l'autorisation écrite du professeur ou du chef de département de français ou de traduction.

Mutually Exclusive: TRAD 4021

Attributes: Université de Saint-Boniface, Humanities

TRAD 4051 Révision 3 cr

Principes de la révision. Vérification et amélioration de textes traduits. Exercices comparatifs et raisonnés pour développer les facultés analytiques, le sens critique et l'habileté à manier la langue d'arrivée.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans le TRAD 3261 ou l'autorisation écrite du professeur ou de la professeure.

Attributes: Université de Saint-Boniface, Humanities

TRAD 4061 Terminologie appliquée 3 cr

Travaux pratiques destinés à renforcer l'efficacité et la qualité des recherches documentaires et terminologiques exigées par la traduction de textes spécialisés.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans le TRAD 3131.

Attributes: Université de Saint-Boniface, Humanities

TRAD 4071 Mémoire de traduction 3 cr

Travail indépendant réalisé sous la supervision d'un professeur à la toute fin du programme de l'étudiante ou de l'étudiant. Traduction commentée d'un texte d'environ 2500 mots accompagnée d'une analyse textuelle et d'un lexique élaboré à partir du texte à traduire. Recherche documentaire et terminologique à des fins traductionnelles. N.B. Ce cours doit être suivi à la toute fin du programme. Il faut avoir conservé une moyenne cumulative de B pour pouvoir s'inscrire au mémoire.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: une note minimale de C dans [TRAD 3261 ou TRAD 3271] et TRAD 3131.

Attributes: Université de Saint-Boniface, Humanities

TRAD 4081 Sous-titrage 3 cr

Survolt des processus traductologiques et des techniques du sous-titrage. Volet pratique sur la traduction cinématographique à l'aide des sous-titres.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans un des cours suivants: le TRAD 4251, TRAD 4091 ou le TRAD 4281.

Attributes: Université de Saint-Boniface, Humanities

TRAD 4091 Gestion d'un service de traduction 3 cr

Principes de base de la gestion appliquée à un service de traduction. Gestion et la coordination des équipes en réseau Internet, tant sur le plan national qu'international. N.B. À l'intention des finissants et des finissantes du baccalauréat spécialisé ou du certificat de traduction, mais ouvert à d'autres avec l'autorisation écrite de la professeure ou du professeur.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans le TRAD 2151 et TRAD 3261 ou TRAD 3271.

Attributes: Université de Saint-Boniface, Humanities

TRAD 4101 Mémoire de terminologie 3 cr

Travail de recherche supervisé en terminologie de l'École de traduction. Recherche thématique sur un sujet et élaboration de fiches terminologiques. Approfondissement de ses compétences dans la manipulation des bases de données terminologiques, leur mise à jour et leur enrichissement. N.B. Ce cours devrait se faire à la toute fin du programme de l'étudiante ou de l'étudiant. Il faut avoir conservé une moyenne de B pour pouvoir s'inscrire au mémoire.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: une note minimale de B dans TRAD 3131 ou TRAD 4061.

Attributes: Université de Saint-Boniface, Humanities

TRAD 4111 Laboratoire II 3 cr

Travaux pratiques dans des conditions semblables à celles d'un bureau de traduction (qualité du produit fini, présentation, gestion du temps, relations interpersonnelles, etc.). Traduction des textes appartenant à des domaines de spécialité ou qui présentent un degré de difficulté plus élevé.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans TRAD 3111.

Attributes: Université de Saint-Boniface, Humanities

TRAD 4141 Rédaction professionnelle comparée 2 3 cr

Étude comparative de documents professionnels anglais et français. Rédaction, en anglais, de documents professionnels divers.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans le ENGL 2001 ou ENGL 2000 ou TRAD 3271.

Attributes: Université de Saint-Boniface, Humanities

TRAD 4231 Translation in the Social Sciences 3 cr

Révision et pratique des principes de la traduction vers l'anglais à partir de textes français appartenant au domaine des sciences sociales. Etablissement de dossiers documentaires et de fiches terminologiques bilingues.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans le TRAD 3271 et TRAD 3131.

Attributes: Université de Saint-Boniface, Humanities

TRAD 4241 Legal Translation 3 cr

Révision et pratique des principes de la traduction vers l'anglais à partir de textes français appartenant au domaine juridique. Etablissement de dossiers documentaires et de fiches terminologiques dans ces domaines.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans le TRAD 3271 et TRAD 3131.

Attributes: Université de Saint-Boniface, Humanities

TRAD 4251 Literary Translation 3 cr

Révision et pratique des principes de la traduction vers l'anglais à partir de textes littéraires français. Analyse du style et des modes d'expression et recherche d'équivalences en langue d'arrivée.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans le TRAD 3271.

Attributes: Université de Saint-Boniface, Humanities

TRAD 4261 Initiation à l'interprétation 3 cr

Initiation à la traduction orale français-anglais et anglais-français. Développement de l'expression orale dans ces deux langues.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables: une note minimale de C dans le TRAD 3261 et le TRAD 3271.

Attributes: Université de Saint-Boniface, Humanities

TRAD 4263 Théories de la traduction 3 cr

Étude des courants théoriques contemporains dans le domaine de la traduction, allant des sourcistes aux ciblistes. Accent particulier mis sur les approches intermédiaires, qui font ressortir la place du traducteur, des institutions, etc. dans le modèle.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: réussite d'au moins deux cours de traduction de niveau 3000.

Attributes: Université de Saint-Boniface, Humanities

TRAD 4271 Scientific and Technical Translation 3 cr

Révision et application des principes de la traduction vers l'anglais à partir de textes appartenant aux domaines scientifiques et techniques. Établissement de dossiers documentaires et terminologiques dans ces domaines.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans le TRAD 3271 et TRAD 3131.

Attributes: Université de Saint-Boniface, Humanities

TRAD 4273 Traduction biomédicale et pharmaceutique 3 cr

Analyse et traduction de différents genres de textes dans le domaine biomédical et pharmaceutique. Accent mis sur les systèmes notionnels, terminologiques et phraséologiques propres au domaine et sur le développement d'une démarche d'exploitation de connaissances spécialisées.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans TRAD 3261 et TRAD 3131.

TRAD 4281 Adaptation publicitaire 3 cr

Initiation à l'adaptation et à la traduction de textes publicitaires. Apprentissage des méthodes de modulation intralinguistique et interlinguistique de l'énoncé publicitaire en fonction de facteurs linguistiques, affectifs et sociaux.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans TRAD 3261 ou TRAD 3271.

Attributes: Université de Saint-Boniface, Humanities

TRAD 4361 Traduction spécialisée (anglais-français) 3 cr

Révision et application des principes de la traduction vers le français à partir de textes pragmatiques anglais appartenant à divers domaines de spécialisation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans le TRAD 3261 et TRAD 3131.

Attributes: Université de Saint-Boniface, Humanities

TRAD 4371 Specialized Translation (French-English) 3 cr

Révision et application des principes de la traduction vers l'anglais de textes pragmatiques français appartenant à divers domaines de spécialisation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans le TRAD 3271 et TRAD 3131.

Attributes: Université de Saint-Boniface, Humanities

TRAD 4381 Traduction en sciences sociales (anglais-français) 3 cr

Familiarisation avec le langage propre aux sciences sociales et qui tient compte de méthodes de recherche et d'analyse bien définies, tant en anglais qu'en français et auquel on aura recours chaque fois que le texte de départ l'exigera, tout en enrichissant sa culture générale.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans TRAD 3261 et TRAD 3131.

Attributes: Université de Saint-Boniface, Humanities

TRAD 4391 Traduction juridique (anglais-français) 3 cr

Révision et application des principes de la traduction vers le français de textes juridiques anglais appartenant à divers aspects du droit: textes législatifs, règlements, textes de jurisprudence, de doctrine, contrats.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans le TRAD 3261 et TRAD 3131.

Attributes: Université de Saint-Boniface, Humanities

TRAD 4401 Traduction littéraire (anglais-français) 3 cr

Application des principes de la traduction vers le français à des textes littéraires. Analyse des procédés stylistiques anglais et recherche d'équivalences en français. Pratique de la rédaction expressive.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans le TRAD 3261.

Attributes: Université de Saint-Boniface, Humanities

TRAD 4411 Traduction scientifique et technique (anglais-français) 3 cr

Révision et application des principes de la traduction vers le français à partir de textes appartenant aux domaines scientifiques et techniques. Établissement de dossiers documentaires et terminologiques dans ces domaines.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans le TRAD 3261 et TRAD 3131.

Attributes: Université de Saint-Boniface, Humanities

TRAD 4421 Version commerciale et économique (anglais-français) 3 cr

Révision et application des principes de la traduction vers le français de textes pragmatiques spécialisés dans les domaines du commerce et de l'économie. Établissement de lexiques bilingues et enrichissement des connaissances dans ce domaine de spécialisation. Pratique de rédaction dans le style commercial.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans le TRAD 3261 et TRAD 3131.

Attributes: Université de Saint-Boniface, Humanities

TRAD 4501 Initiation à la localisation 3 cr

Utilisation de divers outils informatiques indispensables à la localisation et à l'adaptation de logiciels pour des publics très variés. Réflexion sur le rôle du traducteur au sein de l'équipe linguistique et technique.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans TRAD 2111 et TRAD 3261 ou TRAD 3271 ou l'autorisation du professeur ou de la professeure.

Attributes: Université de Saint-Boniface, Humanities

TRAD 4531 Traduction militaire 3 cr

Le cours portera sur l'étude des textes relatifs aux différents aspects de la vie militaire (différents corps d'armes: terre, air, marine), les grades militaires, les armes, l'histoire militaire, le rôle de l'armée dans la société moderne.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de B dans TRAD 2111 et TRAD 2151 et TRAD 3261 et TRAD 3271 et TRAD 4411.

Attributes: Université de Saint-Boniface, Humanities

TRAD 4991 Révision II- Postédition 3 cr

Initiation à la révision de traductions machines. Réflexion sur la place de la traduction automatique et des problématiques qu'elle pose au sein des services de traduction et pour l'avenir de la profession. Application des principes de la révision à des textes prétraduits appartenant à divers domaines.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: une note minimale de C dans TRAD 3261 et dans TRAD 4051, ou l'autorisation professorale.

Academic Advisors

With three campuses in Winnipeg and over 100 programs across 24 faculties, the University of Manitoba offers more learning, teaching and research opportunities than any other post-secondary institution in the province. This can also lead to a lot of questions.

Helping students achieve academic success is a group of dedicated Academic Advisors.

If you need help, please find your Faculty/program's advisor here: www.umanitoba.ca/student/academic-advisors/academic-advisors-list (<http://www.umanitoba.ca/student/academic-advisors/academic-advisors-list.html>)

Academic Integrity

Academic Integrity Coordinator: Loie Gervais

Phone: 204 290 3856

Email: Loie.Gervais@umanitoba.ca

Academic Learning Centre

Campus Address/General Office: 205 Tier (U1 First Year Centre)

Phone: 204 480 1481

Fax: 204 474 7659

Mental Health on Campus Success Through Wellness

The University of Manitoba's Campus Mental Health Strategy, Success Through Wellness, is a call to action for all of us to view the promotion and support of mental health as our collective responsibility. The strategy focuses equally on students, staff and faculty members, examining all aspects of the university and identifying ways in which we can be a community that is committed, caring, healthy, responsive, supportive and resourceful.

Location: 137 Education Building

Phone: 204-474-8323

Website: umanitoba.ca/student/mentalhealth (<http://umanitoba.ca/student/mentalhealth/>)

Office of Human Rights and Conflict Management

Campus Address/General Office: 201 Allen Building

Telephone: (204) 474-6348

Fax: (204) 474-7526

Email: Human.Rights@umanitoba.ca

Website: umanitoba.ca/human_rights (http://umanitoba.ca/human_rights/)

The mission of Office of Human Rights and Conflict Management is to promote a respectful working and learning environment in which individuals are treated equitably and diversity is valued.

Parking Services

Campus Address/General Office: Welcome Centre, 423 University Crescent

Telephone: (204) 474-9483

Fax: (204) 474-7658

Website: umanitoba.ca/parking (<http://umanitoba.ca/parking/>)

- 3400 parking spaces are available for purchase by students
- Parkade, meters, pay and display and ticket-dispenser areas supply an additional 1,600 spaces
- Motorcycles are accommodated in two convenient locations.
- Commuter and Resident parking permits can be purchased online by credit card
- Fort Garry Campus wide Shuttle service available from September to April

PlayCare Daycare Centre

PlayCare Daycare Centre has been closed for over a year but there is another campus daycare Campus Children's Centre.

Rainbow Pride Mosaic (RPM)

Campus Address/General Office: 180 Helen Glass Centre

Email: lgbttqrep@umsu.ca

Web: umsu.ca/student-clubs-associations/student-clubs/rainbow-pride-mosaic/ (<https://umsu.ca/student-clubs-associations/student-clubs/rainbow-pride-mosaic/>)

Recreation Services

Campus Address/General Office: Active Living Centre - 430 University Crescent

Telephone: (204) 474-6100

Fax: (204) 474-7503

Website: <https://umanitoba.ca/community/sport-recreation/recreation-services> (<https://umanitoba.ca/community/sport-recreation/recreation-services/>)

- Wide variety of recreation facilities Intramurals and Sports Clubs
- Intramural sports
- Adult recreation instructional programs
- Fitness assessment, counselling, programming and fitness leadership development
- Children's camps

Registrar's Office

Campus Address/General Office: 400 University Centre

Telephone: (204) 474-9420

Toll Free North America: (877) 474-9420

Fax: (204) 275-2589

Website: umanitoba.ca/registrar (<http://umanitoba.ca/registrar/>)

- Registration information
- Address and name changes
- Application and information for graduation
- Application for Letters of Permission
- Convocation ceremonies
- Fee assessment (charges and refunds), and fee appeals
- Examinations fee appeals
- Final grade reporting
- Graduation parchment replacement
- International student health insurance,
- Student photo ID cards
- Transcripts
- T2202A education tax forms.
- Academic Calendar
- Course Schedule

Sports (Bison Sports)

Telephone: (204) 474-9611 or (204) 474-9234

Website: [gobisons.ca](http://www.gobisons.ca/) (<http://www.gobisons.ca/>)

- Member of Canada West Universities Athletic Association
- Regional association within Canadian Interuniversity Sport (CIS).
- Bison teams include basketball, football, golf, cross country, hockey, soccer, swimming, track and field, and volleyball

Student Accessibility Services

Student Accessibility Services (SAS) is here to provide supports for students with disabilities.

Our offices are located on 3 floors of University Centre: 155 Test/Exam Centre; 335 Assistive Technology Lab; 520 Administrative Office. We also have Bannatyne Campus and Norrie Campus office hours.

Telephone: (204) 474-7423 Fax: (204) 474-7567

Email: student_accessibility@umanitoba.ca

Website: <https://umanitoba.ca/student-supports/accessibility> (<https://umanitoba.ca/student-supports/accessibility/>)

Student Advocacy

Campus Address/General Office: 519 University Centre

Telephone: (204) 474-7423

Fax: (204) 474-7567

Email: student_advocacy@umanitoba.ca

Website: umanitoba.ca/student/advocacy (<http://umanitoba.ca/student/advocacy/>)

- Assists students in the resolution of conflicts arising from actions or decisions taken by the University.
- Offers workshops and orientations to students, staff and faculty
- Resources on academic dishonesty, incivility, final grade appeal, term work grade appeal, student conduct

Student Counselling Centre

Fort Garry Campus: 474 University Centre

Telephone: (204) 474-8592

Bannatyne Campus: S207 Medical Services Building

Telephone: (204) 789-3857

Website: umanitoba.ca/student/counselling (<http://umanitoba.ca/student/counselling/>)

Individual counselling, group programs, crisis management, consultation and assessment:

- Career planning and counselling
- Career mentor program
- Employment advising
- Job postings
- Support for students intending to/or already participating in co-op education/internship programs

Student Life

Campus Address/General Office: 225 University Centre

Telephone: (204) 474-9093

Email: student_life@umanitoba.ca

Website: <http://umanitoba.ca/student/studentlife/>

Ongoing training and development of student leaders in the campus and residence community:

- Parents Orientation
- Service Study Tours

Student Residences

Residence (On-Campus Accommodation)

Campus Address/General Office: 101-120 Dafoe Road

Telephone: (204) 474-9922

Toll Free: (800) 859-8737
Fax: (204) 474-7662
Email: residence@umanitoba.ca
Website: umanitoba.ca/student/housing/ (<http://umanitoba.ca/student/housing/>)

Six residences on the University's Fort Garry campus provide accommodation for over 1200 students

Off-Campus Housing

Website: och.cc.umanitoba.ca (<https://och.cc.umanitoba.ca/>)

UMSU Service Centre

(Formerly Answers Information Booth)

Campus Address/General Office: 101 UMSU University Centre
Website: umsu.ca/businesses/servicecentre/ (<http://umsu.ca/businesses/servicecentre/>)
Telephone: (204) 474-8211, (204) 474-6822

- Information on nearly everything on campus
- Transit post-secondary discounted bus passes
- Sales of long distance phone cards
- Campus lost and found
- Poster approvals for University Centre

University Health Service

Campus Address/General Office: 104 University Centre
Telephone: (204) 474-8411
Fax: (204) 474-7573
Website: umanitoba.ca/student/health (<http://umanitoba.ca/student/health/>)

- Accessible by all currently registered University of Manitoba students
- Physicians and a visiting consultant psychiatrist
- An after hours on-call telephone service for urgent matters
- An on-site laboratory
- Travel health advice and required immunizations

University of Manitoba Aboriginal Students Association (UMASA)

Location: Migizii Agamik – Bald Eagle Lodge, Room 109 - 114 Sidney Smith St.
Telephone: 204-474-8396
Email: UMASACOUNCIL@gmail.com
Website: umanitoba.ca/student/indigenous/umasa.html (<http://umanitoba.ca/student/indigenous/umasa.html>)

University of Manitoba Students' Union (UMSU)

Campus Address/General Office: 101 University Centre
Telephone: (204) 474-6822
Fax: (204) 269-1299
Email: umsu@umsu.ca
Website: umsu.ca (<http://umsu.ca/>)

- The university-wide representative body for undergraduate students at the University of Manitoba
- Advocates on behalf of students to University administration and to all levels of government
- Organizes many informational and entertaining student-focused events throughout the year
- Offers a collection of services to help students save money and enhance their campus experience
- UMSU is Local 103 of the Canadian Federation of Students (CFS), a provincial and national organization that provides representation and cost-saving services for its members.

Womyn's Centre

Campus Address/General Office: 190 Helen Glass Centre
Email: womensrep@umsu.ca
Website: umsu.ca/student-clubs-associations/student-clubs/womens-centre/ (<https://umsu.ca/student-clubs-associations/student-clubs/womens-centre/>)

Addendum of missed courses. October 31, 2022

Undergraduate Courses

CDN 1130 Introduction to Canadian Studies **6 Cr. Hrs.**

This course will introduce students to an interdisciplinary study of Canadian themes and issues from early exploration to the present. The emergence of Canada as a nation will be studied within the context of four themes: the aboriginal past; the land; political and economic structures; art and culture. As a first-year course in Canadian studies students will be encouraged to develop their writing, research and library skills.

ENGL 3020 Milton **6 Cr. Hrs.**

Critical study of the works of this author, including historical context. Students may not hold credit for both ENGL 3020 and the former ENGL 3021. Prerequisite: a grade of "C" or better in six hours of English at the 2000 level.

ENGL 3540 Special Topics in Creative Writing 2 **6 Cr. Hrs.**

This advanced studies course will include practical and theoretical components and will focus, in a more sustained way than does ENGL 3530, on a particular area of writing craft or poetics without an emphasis on end-of-term publication or production. Possible topics include prose fiction, poetry, memoir, dramaturgy, and screenwriting. Prerequisites: [a grade of "C" or better in ENGL 2760] or written consent of instructor, based on a letter of application and a writing sample to be submitted electronically to the Department general office no later than one month prior to the start of the course. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

ENGL 3660 Special Studies **6 Cr. Hrs.**

Prerequisite: a grade of "C" or better in six hours of English at the 2000 level. NOTE: The content of this course will vary from year to year. Students are asked to consult the Department of English, Theatre, Film & Media website for detailed course descriptions. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

GRMN 3280 Sex, Gender and Cultural Politics in the German-Speaking World (B) **3 Cr. Hrs.**

Language of instruction: German. Explores a wide range of literary and cultural texts that deal with sex and gender in the German-speaking world. Discussion will address topics such as representation of women and men in literature and the social and historical climate in which the literature was and is produced. Students may not hold credit for both GRMN 3280 and GRMN 3282. Prerequisite: [a grade of "C" or better in GRMN 2140 or GRMN 3200 or GRMN 3201] or written consent of department head.

GRMN 3392 German Representations of War (B) 3 Cr. Hrs.

Language of Instruction: German. Focuses on representations of war, particularly World War II from a German and European perspective in fiction, historiography, film, photography, and memorial culture. Students may not hold credit for GRMN 3392 and GRMN 3390. Prerequisite: [a grade of "C" or better in GRMN 2140 or GRMN 3200 or GRMN 3201] or written consent of department head.

GRMN 4610 Independent Work (B) 3 Cr. Hrs.

Language of instruction: German. Each student will work with an instructor to prepare a reading program in an appropriate area and present written assignments as required. Prerequisite: written consent of department head. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

HEAL 4500 Injury Prevention Across the Life Course 3 Cr. Hrs.

This course provides an interdisciplinary life course perspective on theories and methods of injury prevention. Current research, practices and policies in injury prevention across a wide variety of contexts, including but not limited to homes, communities, sport and the workplace, will be critically reviewed with regard to issues of gender, culture, age, functional ability, socio-economic status, sexual orientation, and other determinants of health. Prerequisites: HEAL 2600 or FMLY 1000 or SOC 1200 or PSYC 1200.

HIST 3572 The History of Women, Gender, and Sexuality in Canada (C) 6 Cr. Hrs.

This course examines the history of women, gender, and sexuality in Canada's past and how gender and sexuality have structured the histories of Indigenous people, English and French colonization, nation-building, immigration and urbanization, politics, war, and protest. Students may not hold credit for both HIST 3572 and the former HIST 3570. Prerequisite: [a grade of "C" or better in six credit hours of history] or written consent of department head.

LAW 3366 Language Rights - Droits linguistiques 3 Cr.Hrs.

Le cours de Droits linguistiques aborde les différents aspects juridiques et politiques de la protection par l'état de sa diversité linguistique. Après une introduction mettant l'accent sur le contexte social, politique et culturel des droits linguistiques au Canada et au Manitoba, le cours examinera le droit constitutionnel et législatif applicable au niveau fédéral et dans les provinces canadiennes, les droits linguistiques autochtones, et la protection des droits linguistiques en droit international et ailleurs au monde. Le cours se conclura par un examen des visions des communautés de langues officielles en situation minoritaire (et tout particulièrement, la communauté franco-manitobaine) face à leur avenir. May not be held with LAW 3980 when titled "Language Rights." Taught in English and French.

MBIO 3031 Microbiologie III 3 Cr. Hrs.

(Laboratoire requis) Introduction à la croissance microbienne et aux approches génomiques utilisées pour l'analyse du métabolisme microbien. En utilisant ces outils, la physiologie de la paroi cellulaire microbienne, le transport, la mobilité ainsi que le métabolisme microbien en relation avec la production d'ATP, la respiration, la fermentation et la fixation du carbone seront discutés. On ne peut se faire créditer MBIO 3031 et MBIO 3030, MBIO 2101 ou MBIO 2100. Préalables : une note minimale de C dans MBIO 2021 ou MBIO 2020 ou l'autorisation de la professeure ou du professeur et une note minimale de C dans un de MBIO 2371, MBIO 2370, CHEM 2371 ou CHEM 2370.

MBIO 4440 Systems Microbiology: from Genomes to Life 3 Cr. Hrs.

(Lab Required) The purpose of this course is to use knowledge of the components of the bacterial cell to synthesize an understanding of the growth of microbes and their adaptation to their environments. The most recent research tools and systems biology approaches will be discussed. This course may not be held for credit with MBIO 3440. Prerequisites: MBIO 3030 (MBIO 3031)(C); or the former MBIO 2110 (MBIO 2111)(C); and one of MBIO 2370, MBIO 2371, CHEM 2370, CHEM 2371(C).

NATV 1000 Orientation Course: The Colonizers and the Colonized 3 Cr. Hrs.

The course which is offered as part of the summer session consists of an introduction to the colonization process as it regards Aboriginal people and the processes of decolonization undertaken by the people since 1970. Prerequisite: this is a special course designed for first year entering Aboriginal students. Registration is restricted and written consent must be obtained from the instructor prior to registration.

NATV 1200 Indigenous Peoples in Canada 6 Cr. Hrs.

A survey of the political, social, and economic situations of the contemporary First Nations, Métis, and Inuit Peoples of Canada. Students may not hold credit for both NATV 1200 and any of: NATV 1220 or NATV 1240.

NATV 1260 Introductory Cree 2 3 Cr. Hrs.

(Lab required) Continuation of NATV 1250 Introductory Cree 1. Practical course intended for students who are not fluent in Cree. Emphasis will be on oral work for the purpose of learning basic sounds and grammatical patterns. Some attention will be given to the structural differences between Cree and English. Regular attendance and active participation are obligatory. Prerequisite: a grade of "C" or better in NATV 1250.

NATV 1290 Introductory Inuktitut 3 Cr. Hrs.

A practical course in conversational Inuktitut focusing on basic grammatical structures, everyday vocabulary, and using syllabics. This course is offered as part of the Pangnirtung Summer Travel/Study Program. Prerequisite: written consent of department head.

NATV 2000 Selected Topics in Indigenous Studies 3 Cr. Hrs.

The content of this course will vary. Depending on instructor, this course may have a field component. Contact the Department of Native Studies for details. Prerequisite: [a grade of "C" or better in NATV 1200] or [a grade of "C" or better in both NATV 1220 and NATV 1240] or written consent of department head. Students can earn multiple credits for this course only when the topic subtitle is different.

NATV 2012 Indigenous History in Canada 6 Cr. Hrs.

A historical survey of Indigenous peoples in Canada from early times to the present. The course will cover pre-contact peoples, responses to the European arrival, military alliances, the fur trade, the Métis, treaties, government policies and Indigenous responses, and cultural resurgence and political organizing since 1945. Also offered as HIST 2010. May not be held for credit with HIST 2010 or the former HIST 2280.

NATV 2030 Working with Indigenous Elders 3 Cr. Hrs.

This course provides an opportunity for students to develop culturally relevant community service skills in Native Studies and to acquire an understanding of traditional teachings by Elders from the Cree and Anishinaabe (Ojibwe) traditions. The course includes participation in the annual Elders and Traditional Teachers Gathering conference. Students may not hold credit for both NATV 2030 and NATV 2000 when titled "Working with Elders." Prerequisite: [a grade of "C" or better in NATV 1200] or [a grade of "C" or better in both NATV 1220 and NATV 1240] or written consent of instructor or department head.

NATV 2040 The Dakota, Lakota, and Nakota Nations 3 Cr. Hrs.

An interdisciplinary study of the history and traditional cultures of the Indigenous Peoples of the Northern Plains. Prerequisite: [a grade of "C" or better in NATV 1200] or [a grade of "C" or better in both NATV 1220 and NATV 1240] or written consent of department head.

NATV 2060 Eastern Woodlands Encounters Columbus to Confederation 3 Cr. Hrs.

An interdisciplinary study of the history and traditional cultures of the Indigenous peoples of the Great Lakes and Maritimes. Emphasis will be on the Anishinaabe (Ojibway, Saukteaux), Haudenosaunee (Iroquois Confederacy) and Maritime Algonquin Nations. Prerequisite: [a grade of "C" or better in NATV 1200] or [a grade of "C" or better in both NATV 1220 and NATV 1240] or written consent of department head.

NATV 2070 Cree, Innu, and Dene Nations 3 Cr. Hrs.

This course will examine the subsistence organization, social organization and cosmology of both the Cree and Dene. We will further examine the history of the aboriginal-European encounter and the impact of colonialism on contemporary political and land rights struggles. While we will consider the region as a whole, we will specifically focus on the James Bay Cree and Rock Cree of Northern Manitoba, and secondly on the Saisi Dene, north of the Churchill River. This course may include a field trip component. Prerequisite: [a grade of "C" or better in NATV 1200] or [a grade of "C" or better in both NATV 1220 and NATV 1240] or written consent of department head.

NATV 2100 Indigenous Spirituality 3 Cr. Hrs.

This course allows students to work with Indigenous elders or traditional teachers, exposing them to cultural and spiritual concepts. Emphasis is on Anishinaabe or Cree teachings, though other First Nations approaches may be offered. This course may include a field trip component. Students may not hold credit for both NATV 2100 and NATV 3000 when titled "Aboriginal Wisdom and Spirituality."

NATV 2110 Introduction to Indigenous Community Development 3 Cr. Hrs.

Community development is the main strategy available for achieving the level of governance that most Aboriginal communities seek. It involves a plan that captures the spirit of a community and stirs the imagination of the members. Obstacles include lack of time, resources, vision and understanding of what a community plan for development can accomplish. This course will examine community development within an Aboriginal context. Students may not hold credit for both NATV 2110 and NATV 2000 when titled "Introduction to Aboriginal Community Development." Prerequisite: [a grade of "C" or better in NATV 1200] or [a grade of "C" or better in both NATV 1220 and NATV 1240] or written consent of department head.

NATV 2220 Indigenous Societies and the Political Process**3 Cr. Hrs.**

An analysis of contemporary Canadian (and U.S.) political and administrative processes as they affect Indigenous people. Depending on instructor, this course may have a weekend field trip. Contact the Department of Native Studies for details.

NATV 2250 Intermediate Cree**6 Cr. Hrs.**

Continuation of introductory courses and entry-level course for fluent speakers. Development of conversational fluency. Cree orthography, composition and translation, introduction to the linguistic structure of Cree. Prerequisite: [a grade of "C" or better in both NATV 1250 and NATV 1260] or [Matriculation Cree] or written consent of instructor or department head.

NATV 2272 Intermediate Anishinaabemowin (Ojibwe) 1**3 Cr. Hrs.**

This course is a continuation of Introductory Anishinaabemowin (Ojibwe) 1 and 2 and the entry-level course for fluent speakers. It focuses on development of conversational fluency, Anishinaabemowin orthography, composition and translation. Students may not hold credit for both NATV 2272 and the former NATV 2270. Prerequisite: [a grade of "C" or better in both NA TV 1270 and NA TV 1280] or [Matriculation Anishinaabemowin] or written consent of instructor or department head.

NATV 2274 Intermediate Anishinaabemowin (Ojibwe) 2**3 Cr. Hrs.**

This course is a continuation of Intermediate Anishinaabemowin (Ojibwe) 1. It focuses on the further development of conversational fluency, Anishinaabemowin orthography, and translation and also offers an introduction to the linguistic structure of Anishinaabemowin. Students may not hold credit for both NATV 2274 and the former NATV 2270. Prerequisite: [a grade of "C" or better in NA TV 2272] or written consent of instructor or department head.

NATV 2300 Cree Literature**3 Cr. Hrs.**

A survey of Cree literature based on the extensive study of particular texts in cultural, historical and spiritual contexts. Prerequisite: [a grade of "C" or better in NATV 2250 or NATV 1200] or [a grade of "C" or better in both NATV 1220 and NATV 1240] or written consent of department head.

NATV 2310 Anishinaabe (Ojibwe) Literature**3 Cr. Hrs.**

A survey of Anishinaabemowin (Eastern, Western, Chippewa, Saulteaux, Odawa, others) literature based on the extensive study of particular texts in cultural, historical and spiritual contexts. Prerequisite: [a grade of "C" or better in both NATV 2272 and NATV 2274] or [a grade of "C" or better in both NATV 1220 and NATV 1240] or [a grade of "C" or better in NA TV 1200 or the former NA TV 2270] or written consent of department head.

NATV 2274 Intermediate Anishinaabemowin (Ojibwe) 2 3 Cr. Hrs.**NATV 2410 Indigenous Literature in Canada 3 Cr. Hrs.**

A study of literature by and about Indigenous Peoples in Canada, Indigenous oral tradition, personal narratives, protest literature, poetry, plays and novels will be explored to give an appreciation of Indigenous philosophies, experiences, traditions and cultures. Prerequisite: [a grade of "C" or better in NA TV 1200] or [a grade of "C" or better in both NA TV 1220 and NA TV 1240] or written consent of department head.

NATV 2430 Indigenous Women's Stories 3 Cr. Hrs.

This course will investigate through the medium of literature - life writing, fiction, creative non-fiction, poetry - and film experiences of Indigenous women in North America, particularly in Canada, as articulated in their own voices. Prerequisite: [a grade of "C" or better in NATV 1200] or [a grade of "C" or better in both NATV 1220 and NATV 1240] or written consent of instructor or department head.

NATV 2450 Images of the "Indian" in North American Society 3 Cr. Hrs.

Will trace the portrayal of Indigenous peoples 1492 to the present. Emphasis will be on material and theoretical depictions, and will require reading as well as study of art pieces, tourist objects, cartoons, movies and so forth. Prerequisite: [a grade of "C" or better in NATV 1200] or [a grade of "C" or better in both NATV 1220 and NATV 1240] or written consent of department head.

NATV 2510 Indigenous Experience in the U.S. to 1860 3 Cr. Hrs.

This course is a survey of the Indigenous experience in the U.S. from contact to 1860. The participation of Native nations in the political and military conflicts leading to American Independence will be highlighted as well as the development of Federal Indian Policy as the United States struggled to create its own identity.

NATV 2520 Indigenous Experience in the U.S. 1860-Present 3 Cr. Hrs.

This course will examine the historical experience of the Native Peoples of North America with respect to their cultures and the policies developed in the United States to force detribalization and assimilation from 1860 to the present.

NATV 2530 Introduction to Indigenous Theory 3 Cr. Hrs.

This course, will address the ways that Indigenous worldviews constitute theoretical approaches and alternative methodologies to address issues of Indigenous history, politics, and literature, and how they relate to notions of Indigenous self-determination, feminism(s), cultural production, gender, as demonstrated in scholarly and theoretical texts, film, personal narratives, and fiction. Pre- or corequisite: NATV 1200 or [NATV 1220 and NATV 1240]

NATV 3000 Selected Topics 3 Cr. Hrs.

The content of this course will vary. Contact the department for a course description. Prerequisite: written consent of department head. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

NATV 3100 Indigenous Healing Ways 3 Cr. Hrs.

This course allows students to work with Indigenous elders or traditional teachers on concepts of healing and wellness. Emphasis is on Anishinaabe or Cree healing practices, though other First Nations approaches may be offered. This course may include a field trip component. Students may not hold credit for both NATV 3100 and NATV 3000 when titled "Exploring Aboriginal Healing." Prerequisite: [a grade of "C" or better in NATV 2100] or written consent of the department head.

NATV 3120 Exploring Indigenous Economic Perspectives 3 Cr. Hrs.

Explore the impact of legal, constitutional and governance issues on the internal and external operating environment affecting Indigenous economic development. Current strategies for successful partnerships between industry and Indigenous peoples will also be examined. Students may not hold credit for NATV 3120 and any of: ECON 2350 or the former IDM 3000 or the former NATV 4310. Prerequisite: [a grade of "C" or better in NATV 1200] or [a grade of "C" or better in both NATV 1220 and NATV 1240] or written consent of instructor or department head.

NATV 3130 International Indigenous Literatures 3 Cr. Hrs.

This course will compare selected texts by Indigenous authors from Canada, U.S.A., New Zealand and Australia. Following the history of the respective literature in each country, it will examine the role of Indigenous writing – poetry, fiction, plays – in de/colonization processes in settler societies. Prerequisite: [a grade of "C" or better in NATV 2410] or written consent of instructor or department head.

NATV 3140 Indigenous Resistance Literature 3 Cr. Hrs.

This course will trace and explore the history and practice of Indigenous resistance writing in Canada. Attention will be given to political and creative writing in contrapuntal response to the Canadian colonial situation. Classes will be based largely on seminar discussions and readings. Prerequisite: [a grade of "C" or better in NATV 2410] or written consent of instructor or department head.

NATV 3150 Residential School Literature 3 Cr. Hrs.

This course focuses on the analysis of literary responses to Residential Schools in the form of memoirs, fiction, poetry, and plays; it will also include aesthetic representations of school experiences through other media like film and art. Prerequisite: [a grade of "C" or better in NATV 1200] or [a grade of "C" or better in both NATV 1220 and NATV 1240] or written consent of instructor or department head.

NATV 3160 Fundraising for Indigenous Organizations 3 Cr. Hrs.

This course examines effective fundraising skills as critical for the longevity of many programs in the Indigenous community. While government fundraising is an important source, understanding grantsmanship and other funding strategies are critical for sustained program existence and effective use of scarce human and financial resources. Students may not hold credit for both NATV 3160 and NATV 3000 when titled "Financing Strategies for Aboriginal Non-Profit Initiatives." Prerequisite: [a grade of "C" or better in NA TV 1200] or [a grade of "C" or better in both NA TV 1220 and NA TV 1240] or written consent of department head.

NATV 3170 Indigenous Peoples and Racism in Canada 3 Cr. Hrs.

This course will trace the historical and colonial roots of racism Indigenous Peoples experienced in Canadian history as well as examine its practices in contemporary society and culture. Concepts such as systemic racism, cultural difference and anti-racist education may be explored. Class format will include readings, seminar discussions, some films and lectures. Critical reading and analysis is expected. Students may not hold credit for both NATV 3170 and NATV 3000 when titled "Racism and Aboriginal Peoples." Prerequisite: [a grade of "C" or better in NA TV 1200] or [a grade of "C" or better in both NA TV 1220 and NA TV 1240] or written consent of instructor or department head.

NATV 3222 Structure of Anishinaabemowin (Ojibwe) Language**3 Cr. Hrs.**

A detailed structural analysis of Anishinaabe (Ojibwe) with special attention to the problem of dialect variation and to the contrastive analysis of Anishinaabemowin and English. Students may not hold credit for both NATV 3222 and the former NATV 2330. Prerequisite: [a grade of "C" or better in both NATV 2272 and NATV 2274] or [a grade of "C" or better in the former NATV 2270] or written consent of department head.

NATV 3224 Structure of the Cree Language**3 Cr. Hrs.**

A detailed structural analysis of Cree with special attention to the problem of dialect variation and to the contrastive analysis of Cree and English. Students may not hold credit for both NATV 3224 and the former NATV 2320. Prerequisite: [a grade of "C" or better in NATV 2250] or written consent of department head.

NATV 3240 Indigenous Medicine and Health**3 Cr. Hrs.**

The health, disease, and medical practices of North American Indigenous peoples. A survey of the health and health care of North American Indigenous peoples from pre-contact to modern times. Special attention will be paid to traditional concepts of health and healing practices.

NATV 3270 The Métis Nation: The Modern Era**3 Cr. Hrs.**

A study of the dispossession of the Métis Nation after 1870, their resurgence in the 1950s and contemporary issues affecting Métis people in Canada. Also offered as HIST 3272. May not be held for credit with HIST 3272. Prerequisite: [a grade of "C" or better in NATV 1200] or [a grade of "C" or better in both NATV 1220 and NATV 1240] or written consent of department head.

NATV 3280 Indigenous Peoples and the Canadian Justice System **3 Cr. Hrs.**

A study of Indigenous peoples' relationships to civil and criminal law in modern Canadian society. Prerequisite: [a grade of "C" or better in NATV 1200] or [a grade of "C" or better in both NATV 1220 and NATV 1240] or written consent of department head.

NATV 3290 Independent Research **3 Cr. Hrs.**

Supervised research or field work. Results will be presented in a form appropriate to the subject of study. Written consent of department head, based on a written research proposal, must be obtained before registration. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

NATV 3300 Indigenous Language Planning and Development **3 Cr. Hrs.**

The social and political setting of the indigenous languages of North America. Issues and methods in language policy development, maintenance, standardization, and innovation. Prerequisite: a grade of "C" or better in six credit hours of Native Languages at the second year level.

NATV 3310 Canadian Law and Indigenous Peoples **3 Cr. Hrs.**

A survey of laws relating to Indigenous peoples in Canada. Topics will include legal aspects of Indigenous title, First Nations treaties, First Nation and Metis land claims, the Indian Act, hunting and fishing rights, self-government, and constitutional issues. Prerequisite: [a grade of "C" or better in NA TV 1200] or [a grade of "C" or better in both NA TV 1220 and NA TV 1240] or written consent of department head.

NATV 3330 Indigenous People, Science and the Environment **3 Cr. Hrs.**

This course will examine current Indigenous environmental and development issues both locally and internationally. The basic principles of Indigenous philosophy and how present forms of development on Indigenous land has conflicted with this philosophy will be examined. Prerequisite: written consent of department head.

NATV 3340 Circumpolar Cultures and Lifestyles **3 Cr. Hrs.**

An interdisciplinary study of inter-relationships between the history, traditional lifestyles, politics, and environment of circumpolar Indigenous peoples. Prerequisite: written consent of department head.

NATV 3350 Indigenous Organizations **6 Cr. Hrs.**

A study of local, regional and national Indigenous organizations in contemporary North America and their interaction with government and private agencies. A field component may be included depending on instructor. Contact the Department of Native Studies for details. Students may not hold credit for both NA TV 3350 and the former NA TV 3320. Prerequisite: [a grade of "C" or better in NA TV 1200] or [a grade of "C" or better in both NA TV 1220 and NA TV 1240] or written consent of department head.

NATV 3360 Aboriginal Women of Canada 3 Cr. Hrs.

This course explores and critically examines from interdisciplinary and post-colonial perspectives historical and contemporary processes, representation, experiences and social issues specific to Indigenous women of Canada. Prerequisite: [a grade of "C" or better in NATV 1200] or [a grade of "C" or better in both NATV 1220 and NATV 1240] or written consent of instructor or department head.

NATV 3370 Political Development in the North 3 Cr. Hrs.

An examination of historical and contemporary political processes in Nunavut, Northwest Territories, and Yukon including the negotiation and implementation of Indigenous land claims. Prerequisite: [a grade of "C" or better in NATV 1200] or [a grade of "C" or better in both NATV 1220 and NATV 1240] or written consent of instructor.

NATV 3380 Gender and Indigenous Societies 3 Cr. Hrs.

An examination of the theoretical issues that surround the cultural construction of Indigenous gender leading into detailed ethnographic and historical case studies. Prerequisites: [a grade of "C" or better in NATV 1200] or [a grade of "C" or better in both NATV 1220 and NATV 1240] or written consent of instructor.

NATV 3390 Cultural Continuity and Change in Cumberland Sound**3 Cr. Hrs.**

This course examines the rich and complex history of Cumberland Sound. The course also discusses the specific character of Inuit culture in Cumberland Sound and, in a series of lectures on contemporary community dynamics, looks at recent expressions of culture. Students may not hold credit for both NATV 3390 and NATV 3000 when titled "Culture and History in Cumberland Sound."

NATV 4200 First Nations' Government 3 Cr. Hrs.

A review and critical examination of the evolution of First Nations' self-government with a focus on contemporary issues, models and trends. Prerequisite: written consent of department head.

NATV 4210 Seminar in Contemporary and Historical Métis Issues 3 Cr. Hrs.

A study of the literature, both primary and secondary, dealing with the Métis people in Canada. Prerequisite: written consent of department head.

NATV 4220 Environment, Economy and Aboriginal Peoples 3 Cr. Hrs.

An analysis of sustainable development issues discussed within a cultural context. Depending on the instructor, this course may have a field component. Contact the Department of Native Studies for details. Prerequisite: written consent of department head.

NATV 4230 Traditional Knowledge and Indigenous Studies**Research****3 Cr. Hrs.**

A study of issues influencing oral histories, case studies, interviews, and other techniques used in research with Indigenous people. Depending on the instructor, this course may have a field component. Contact the Department of Native Studies for details. Prerequisite: written consent of department head.

NATV 4240 Arctic Lifestyles**3 Cr. Hrs.**

An interdisciplinary study of the interrelationships between culture, economy, and ecology in the Arctic region. Depending on instructor, this course may have a field component. Contact the Department of Native Studies for details. Prerequisite: written consent of department head.

NATV 4250 Indigenous Identities**3 Cr. Hrs.**

An interdisciplinary study of Aboriginal values, cultures and contemporary identities with emphasis on the impact of colonization. Prerequisite: [a grade of "C+" or better in NATV 1200 or "C+" or better in both NATV 1220 and NATV 1240] and [a grade of "C+" or better in 6 credit hours in Native Studies] or written consent of instructor.

NATV 4280 Missionaries, Colonialism, and Indigenous People**3 Cr. Hrs.**

A study of Indigenous responses to Christian missions with a particular emphasis on resistance, syncretism, and "prophet" movements. Prerequisite: [a grade of "C" or better in 15 credit hours of Native Studies] or written consent of instructor.

NATV 4300 Advanced Selected Topics in Indigenous Studies**3 Cr. Hrs.**

The content of this course will vary from year to year. Contact the Department for a course description. Prerequisite: written consent of department head. As the course content will vary from year to year, students may take this course more than once for credit.

NATV 4320 Indigenous Economic Leadership**3 Cr. Hrs.**

An analysis of current leadership strengths and challenges facing Indigenous organizations. Out of this analysis will come understanding of strategies for working effectively with Indigenous organizations. Students may not hold credit for both NATV 4320 and the former IDM 4090. Prerequisite: [a grade of "C" or better in NATV 1200] or [a grade of "C" or better in both NATV 1220 and NATV 1240] or written consent of instructor.

NATV 4330 Indigenous Aesthetics**3 Cr. Hrs.**

This course will be centered on Indigenous philosophies and aesthetic theories regarding literature, film, theatre and visual arts produced by Indigenous writers, artists and filmmakers in Canada with special emphasis on conceptualizations of an oral "communitist," activist and resistance aesthetics. Prerequisite: [a grade of "C" or better in 15 credit hours of Native Studies courses which must include NATV 2410] or written consent of instructor or department head.

NATV 4340 Representation and Discourse **3 Cr. Hrs.**

This course examines the discourse of representation surrounding Indigenous Peoples and Canada's historical and cultural productions. Although the focus is on Canadian material and experience, the course draws on international post-colonial approach in the critical study of archival and historical records, literary works and contemporary Indigenous expressions. Method of study includes historiography, film and literary criticism and post-colonial theory. Prerequisite: [a grade of "C" or better in NATV 2410] or written consent of instructor or department head.

RUSN 3200 Advanced Russian 1 **3 Cr. Hrs.**

Advanced composition, translation, reading and study of selected literary and other texts. Development of overall communication skills. Students may not hold credit for both RUSN 3200 and the former RUSN 3930. Prerequisite: [a grade "C" or better in RUSN 2810 or RUSN 2820] or written consent of department head.

RUSN 3210 Advanced Russian 2 **3 Cr. Hrs.**

Continues RUSN 3200. Further work in advanced composition, translation, reading and study of selected literary and other texts. Development of overall communication skills. Students may not hold credit for RUSN 3210 and any of: the former RUSN 3930 or the former RUSN 3940. Prerequisite: [a grade "C" or better in RUSN 3200] or written consent of department head.

Graduate Courses

FIN 7100 Financial Economics 3 Cr. Hrs.

Course provides Ph.D students with a broad theoretical understanding of financial economics required for advanced study of theoretical finance. It covers a variety of topics and discusses the application in different areas of finance. Good knowledge of microeconomics, probability and statistics, and calculus is required. Prerequisite: admission to the Ph.D. program in Management (Finance) or approval by instructor. Not to be held with FIN 7500.
