General Notes Regarding Electives

Most electives are not offered every year; some are offered every other year and some are offered less frequently. The listing of a subject as an elective does not guarantee that it will always be available or that it will be possible to fit it into all of the many varied timetable combinations of full- and part-time students. There may be a maximum limit set on the number of students permitted to take an elective in a particular session. Similarly, there will be a minimum limit. If registration is below the minimum, the elective will be cancelled for the session, and those registered will be required to transfer to another elective before the course change deadline date. Students are urged to discuss their elective program with members of the faculty toward the end of their second and third years to obtain advice concerning the best choice of electives for their needs.

Core Music History Electives and Music Theory Electives

CORE MUSIC HISTORY ELECTIVES

In addition to the required first-year Music History courses (MUSC 1004 and MUSC 1014) Bachelor of Music students must choose four additional Music History electives (12 credit hours) from the list below. Bachelor of Music (Music Education) students must choose two Music History elective (6 credit hours) from the list below.

Note: Not all of the listed courses will be offered every year.

Course	Title	Hours
MUSC 1020	Introduction to Popular Music	3
MUSC 1030	History of Musical Theatre	3
MUSC 2072	Jazz History 1	3
MUSC 2082	Jazz History 2	3

	Total Hours	122

- ¹ • Students who have **English** as their teachable minor take 1000 Level English to fulfill the U of M written English requirement
- Students who have **History** as their teachable minor take a 1000 level non-music History to fulfill the U of M written English requirement
- Students who have a teachable minor other than English or History may take any 1000 level, 3 credit hour course that fulfills the U of M written English requirement: consult an advisor before making a selection
- ² A 3 credit hour MATH 1XXX or STAT 1XXX may be taken in place of MUSC 3230.
- ³ For listing of teachable minors, see Senior Years teachable major/minor chart in the Education section of the calendar.
- ⁴ Only those students admitted into their third year in the Faculty of Education for September 2008 and earlier are permitted a 2nd music specialization. Prior to beginning Year 5, students must have completed the Aboriginal Education Requirement and the Special Education/Diversity Requirement, which is defined as 3 credit hours Aboriginal Education and 3 credit hours Special Education/Diversity.
- ⁵ Some teachable minors have specific level/course requirements. See the Applicant Information Bulletin for After-Degree B.Ed. (Senior Years) for specifics or contact a student advisor in the Faculty of Education B.Ed. Student Services office. Some teachable minors have pre-requisite courses or faculty restrictions and may be problematic to complete in a timely manner.
- ⁶ Prior to beginning Year 5 all B.Ed. students must have completed the Aboriginal Education Requirement and the Special Education/Diversity Requirement which is defined as 3 credit hours Aboriginal Education (EDUA 3400 or EDUB 3402) and 3 credit hours Special Education/Diversity (EDUA 3420, EDUB 3426, EDUB 3506, EDUB 3508 or EDUB 3510).

In this program, a "C" or better is required in all courses. Non-music courses must be at the 1000 level or higher.

Note: Apply to Integrated Program during Year 2. Deadline to apply is February 1.

¹ Students with a Music teachable minor take an Education Complementary Course. (admitted to Faculty of Education September 2008 or earlier). Students admitted September 2009 and beyond take a Year 1 Curriculum & Instruction Course in their minor area.

Further information about the integrated program is in the chapter for the Faculty of Education.

Music Minor for Students in Faculties other than the Faculty of Music

Minor Requirements

The music minor requires 18 credit hours of MUSC courses as follows:

Course	Title	Hours
MUSC 1004	Introduction to Music in History 1	3
MUSC 1014	Introduction to Music in History 2	3
MUSC 1110	Music Theory 1	3
Select 9 credit hours in Music courses ¹		9
Total Hours		18

¹ Students pursuing a Music Minor can take any of the music courses in the Academic Calendar for which they have the prerequisites or permission, if required, **except for** MUSC 1400, MUSC 2400, MUSC 3470, MUSC 4160, MUSC 4470. Minor practical study (MUSC 1460, MUSC 2480, MUSC 3480, MUSC 4480) is possible with permission of the Dean.

For a minor in music, it is recommended that MUSC 1004, MUSC 1014 and MUSC 1110 be taken before all other courses.

Note for Ensembles:

1. All Ensembles courses are 2 credit hours each.
2. Students may take a maximum of three ensemble courses as part of a minor in music.
3. Participation in ensembles is determined by audition.

Note: Completion of a minor in music does not satisfy the “teachable minor” required for admission to the After Degree B.Ed. Program in middle years and senior years.

Post-Baccalaureate Diploma in Performance (PBDP)

Overview/Entrance Requirements

The Marcel A. Desautels Faculty of Music offers a Post-Baccalaureate Diploma in Performance (PBDP) designed for musicians who wish to further their performance skills in preparation for further study or professional activity. The unique features of the PBDP program are that students can design their own program of study and tailor it to their own areas of interest. They may take courses at the Faculty as well as in other faculties and schools at the University of Manitoba.

Admission Requirements

Applicants for Admission must submit the completed application form and fee, and must possess a Bachelor of Music degree or a Conservatory Diploma taken in residence. They must also pass an entrance audition, which requires the performance of three works of contrasting styles and/or historical periods appropriate to the audition medium. This audition would normally be held in person, but video auditions may be accepted where distance is a prohibitive factor. Application materials which misrepresent the level of performance ability will be treated as fraudulent, resulting in dismissal from the program. Admission may not be possible for all qualified applicants, as it is dependent on the number of spaces available, the major practical study area, and instructor availability. Applicants who hold the PBDP from the University of Manitoba (or an equivalent Post-Baccalaureate one-year program from another institution) may apply for a second PBDP if studying a different applied instrument than that of their first PBDP in their Major Practical Study, and Recital courses, and if the remaining course credits taken do not duplicate those of the first PBDP.

Admission Procedures

Applications are made through the University's Admission Office (<https://umanitoba.ca/explore/undergraduate-admissions/apply/>) and information can be found on the Faculty's website (<https://umanitoba.ca/music/>). Application deadlines are: February 15 to begin a program in September (Fall Term), or June 15 to begin a program in January (Winter Term).

All those who complete the application and provide the required documentation are granted an audition. Audition dates are scheduled as required.

It is recommended that students be admitted for a program start in Fall Term.

Academic Standing

Regulations for the Post-Baccalaureate Diploma program regarding academic standing, scholastic progress, attendance, required GPA, probation and suspension will follow those governing the Bachelor of Music and Bachelor of Jazz Studies programs as outlined in the Faculty Student Handbook (<https://umanitoba.ca/music/student-experience/bachelor-of-jazz-studies-student-handbook/>).

Maximum Time Limits

Expected time to complete program: 1 year. The maximum time allowed for completing the Post-Baccalaureate Diploma program is 3 years. The Dean may grant extensions for medical or compassionate reasons. Medical: A letter from the student's physician stating the diagnosis and treatment with projected recovery. Compassionate: A letter from the student outlining the reasons for the extension showing that extenuating circumstances beyond the student's control have contributed to the need for an extension. Students will not be permitted to transfer for credit any course completed more than five years prior to the completion date of the diploma.

Courses Available

Undergraduate 3000 and 4000 level courses approved by the Dean may be used as electives in designing the program of study. Students will register for their courses after their program has been determined in consultation with their Major Practical Study Instructor who will act as an advisor during the PBDP. Students may not count toward the PBDP any courses that counted for credit in a previous degree.

Credit Transfer

The Student Advisor in the faculty will process transfer of credits into the PBDP program. A maximum of 12 credit hours of courses may be transferred into the PBDP program provided that they have not counted toward any previous degree. A minimum of 18 credit hours must be taken within the Faculty, although up to the full 30 credit hours of the diploma program may be taken within the Faculty. Transfer of credits from the PBDP program into the Master of Music is processed through the Faculty of Graduate Studies. Courses may not be counted for more than one degree, and may be transferred from the PBDP to the Master of Music only if they have not been counted toward the PBDP, or more than the minimum credit hours have been taken.

Assessment

Student Assessment: Type of evaluation: Academic freedom dictates that there will be variation between classes according to the professor's preferred systems, approaches, materials, readings, and assignments. However, the University of Manitoba regulations as outlined in the General Academic Regulations, (p. 120) state that within the first week of lectures, instructors must inform the class of the method of evaluation to be used in each course. Minimum Grade Requirements: In the Faculty students must attain a grade of “C” or higher for a course to count toward a degree, except in the case of Recital where a minimum of “B” is required. The PBDP program will be governed by these regulations, as outlined in the Faculty Student Handbook (<https://umanitoba.ca/music/student-experience/bachelor-of-jazz-studies-student-handbook/>). Should the student transfer to another faculty in the university that

faculty's regulations would apply relating to transfer of credit. Successful completion of the program will be achieved by receiving a "C" or higher in 30 credit hours. Teacher Assessment: The SEEQ course evaluations will be used in the PBDP program for academic courses, and the Faculty's specialized forms will be used for the performance-related courses.

Degree Requirements

Course	Title	Hours
MUSC 5400	Major Practical Study	6
MUSC 5560	Recital	6
MUSC 5180	Ensemble	3
Select 15 credit hours from 3000 and 4000 level courses recommended by the Faculty Advisor and approved by the Faculty		15
Total Hours		30

Note: A minimum of 18 credit hours must be taken in the Marcel A. Desautels Faculty of Music (although all 30 may be taken within the Faculty).

Reminder: While Faculty staff and faculty are available to clarify Faculty and university regulations and degree requirements, it is the student's responsibility to ensure that diploma and program requirements are met.

Faculty of Science

General Office

Dean: Dr. Brian Mark

Associate Dean(s): Teresa deKievit, Krystyna Koczanski, Peter Loewen, Sean McKenna, Steve Whyard

Campus Address/General Office: 230 Machray Hall

Telephone: (204) 474 8256

Fax: (204) 474 7618

Email Address: Contact a Science Advisor (<https://sci.umanitoba.ca/students/undergraduate-students/academic-advisors/>)

Website: sci.umanitoba.ca (<https://sci.umanitoba.ca>)

Academic Staff: For complete listings of the Faculty of Science Academic Staff, please refer to departmental websites.

The Faculty of Science is made up of 7 departments, which offer a number of different programs, minors, and concentrations. Departments may also work together to offer joint programs. The departments in the Faculty of Science include Biological Sciences, Chemistry, Computer Science, Mathematics, Microbiology, Physics and Astronomy, and Statistics.

Degree programs offered include: B.Sc. General, B.Sc. Major (with Co-operative Option), B.Sc. Double Major, B.Sc. Honours (with a Co-operative Option in some programs), B.Sc. Double Honours, and the B.C.Sc. Honours (Computer Science Honours with a Co-operative Option).

Programs of study include offerings in:

- Actuarial Mathematics
- Biochemistry
- Biological Sciences
- Biotechnology*
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Applied Mathematics with Computer Science Option

- Applied Mathematics with Economics Option
- Applied Mathematics with Statistics Option
- Microbiology
- Physics and Astronomy
- Psychology
- Statistics

*As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.

The Faculty of Science also offers the following Joint Honours.

- Chemistry – Physics Program
- Computer Science – Mathematics Program
- Computer Science – Physics and Astronomy Program
- Computer Science – Statistics Program
- Mathematics – Physics and Astronomy Program
- Mathematics – Economics Program
- Statistics – Actuarial Mathematics Program
- Statistics – Mathematics Program
- Statistics – Economics Program

Programs

Note:

- Students in the B.C.Sc. (Honours), B.Sc. (Honours) or B.Sc. (Major) Co-operative Options will take longer than 4 years to complete degrees as the time to completion includes 12 months of paid employment.
- Students may elect to pursue a Double Honours or Double Major program in consultation with departments concerned. Years to completion and total credit hours may exceed information provided in the table below.
- Minors (optional or required) are part of degree programs - for program length, refer to the Years to Completion.

Degree/Diploma	Years to Completion	Total Credit Hours	Has Co-op Option
Actuarial Mathematics, B.Sc. Honours (p. 817)	4	120	
Applied Mathematics with Computer Science Option, B.Sc. Major (p. 897)	4	120	Yes
Applied Mathematics with Economics Option, B.Sc. Major (p. 900)	4	120	Yes
Applied Mathematics with Statistics Option, B.Sc. Major (p. 903)	4	120	Yes
Biochemistry, B.Sc. Honours (p. 819)	4	120	Yes
Biochemistry, B.Sc. Major (p. 823)	4	120	Yes
Biological Sciences, B.Sc. Honours (p. 829)	4	120	Yes
Biological Sciences, B.Sc. Major (p. 836)	4	120	Yes

Biological Sciences Minor (p. 844)		18	
Biotechnology, B.Sc. Honours (p. 845)	4	120	Yes
Biotechnology, B.Sc. Major (p. 848)	4	120	Yes
Chemistry, B.Sc. Honours (p. 852)	4	120	Yes
Chemistry, B.Sc. Major (p. 855)	4	120	Yes
Chemistry - Physics Joint, B.Sc. Honours (p. 858)	4	120	
Chemistry Minor (p. 857)		18	
Computer Science, B.C.Sc., Honours (p. 859)	4	120	Yes
Computer Science, B.Sc. Major (p. 862)	4	120	Yes
Computer Science - Mathematics Joint, B.Sc. Honours (p. 865)	4	120	Yes
Computer Science - Physics & Astronomy Joint, B.Sc. Honours (p. 868)	4	120	Yes
Computer Science - Statistics Joint, B.Sc. Honours (p. 871)	4	120	Yes
Computer Science Minor (p. 865)		18	
Data Science, B.Sc. Major (p. 874)	4	120	Yes
General B.Sc. (p. 877)	3	90	
Genetics, B.Sc. Honours (p. 879)	4	120	Yes
Genetics, B.Sc. Major (p. 883)	4	120	Yes
Mathematics, B.Sc. Double Honours (p. 891)	4	120	Yes
Mathematics, B.Sc. Honours (p. 888)	4	120	Yes
Mathematics, B.Sc. Major (p. 894)	4	120	Yes
Mathematics - Economics Joint, B.Sc. Honours (p. 907)	4	120	
Mathematics - Physics and Astronomy Joint, B.Sc. Honours (p. 909)	4	120	Yes
Mathematics Minor (p. 906)		18	
Microbiology, B.Sc. Honours (p. 913)	4	120	Yes
Microbiology, B.Sc. Major (p. 918)	4	120	Yes
Microbiology Minor (p. 922)		30	
Physics and Astronomy, B.Sc. Honours (p. 923)	4	120	Yes
Physics and Astronomy, B.Sc. Major (p. 927)	4	120	Yes
Physics and Astronomy Minor (p. 930)		18	
Psychology, B.Sc. Honours (p. 931)	4	120	
Psychology, B.Sc. Major (p. 932)	4	120	Yes
Psychology Minor (p. 935)		18	
Statistics, B.Sc. Honours (p. 935)	4	120	Yes
Statistics, B.Sc. Major (p. 939)	4	120	Yes
Statistics - Actuarial Joint, B.Sc. Honours (p. 942)	4	120	

Statistics - Economics Joint, B.Sc. Honours (p. 943)	4	120	
Statistics - Mathematics Joint, B.Sc. Honours (p. 944)	4	120	Yes
Statistics Minor (p. 942)		18	

Faculty Academic Regulations

Admission to the Faculty of Science

Direct Entry Admissions Requirements

To enter the Faculty of Science directly from high school, a student must have:

1. Manitoba high school graduation with five full credits at the Grade 12 level in courses designate S, G, or U.
2. A minimum 85% average over the following, with no less than 60% in each course:
 - a. English 40S
 - b. Pre-Calculus Mathematics 40S (recommended) or Applied Mathematics 40S; AND,
 - c. One of Biology 40S, Chemistry 40S, Computer Science 40S, or Physics 40S

Students admitted Direct Entry, enter a 4-Year undeclared Major. Please refer to Major (Degree) Academic Regulations (p. 810).

Admissions Changes for Fall 2022 Intake

Applicants applying directly to the Faculty of Science from a Manitoba high school (or equivalent) must meet General Entrance requirements and Specific Admission Requirements. The General Admission Requirement is Manitoba high school graduation (5 full credits at the Grade 12 level in courses designated S, G, or U). The Specific Admission Requirement for the Faculty of Science is a minimum 80% average over the following, with no less than 60% in each course:

1. English 40S
2. Applied Mathematics 40S or Pre-Calculus Mathematics 40S
3. One of Biology 40S, Chemistry 40S, Computer Science 40S, or Physics 40S
4. An academic 40S course

Entrance to Science from University 1: Transiting

To transit from University 1 to the Faculty of Science a student must have completed a minimum of 24 credit hours of courses. If a student has satisfied the minimum requirements for entry to Science, they simply perform the transit function on AURORA Student to enter the Faculty of Science. There are no fees for transiting and there is no application form required. Students who require assistance with transiting to Science from University 1, should contact the Faculty of Science office.

When a student transits from University 1 to the Faculty of Science, they may choose to transit to a 4-year Major program for which they qualify, or they may choose to transit to the General Degree. If a student wishes to enter an Honours program in the Faculty of Science they should contact the Faculty of Science office for assistance. Students intending to enter a four year Major or Honours program should refer to the program grids (p. 804), for courses required for entry into each program. Completion of these courses in University 1 will prepare a student to complete a four year Major or Honours program in four calendar years.

For further information please contact a Faculty of Science Academic Advisor and/or refer to the Faculty of Science applicant

information brochure and the University Admissions website (<https://www.umanitoba.ca/admissions/>).

Note: Students who have exceeded 36 credit hours of "F" grades will not normally be admissible until a suspension has been served. Students may contact the Faculty of Science for further information or advice.

Transit Regulation Changes for Students Transiting to the Faculty of Science for Fall 2022

Students may transit to the Faculty of Science from University 1, prior to Fall Term registration only. The transit function is available on Aurora Student. There are no fees for transiting and there is no application form required.

To be eligible to transit a student must have achieved a minimum cumulative grade point average (CGPA) of 2.00 on 24 credit hours. Students who have completed more than 24 credit hours at the point of transit must have achieved a minimum Adjusted Grade Point Average (AGPA) of 2.00. The AGPA calculation will be on the best graded 24 credit hours at the point of transit.

Students who do not meet the minimum transit eligibility requirements should refer to Admission to Faculties, Schools and Colleges Following University 1 (p. 131) in the Undergraduate Calendar for information regarding how to establish their eligibility.

When a student transits from University 1 to the Faculty of Science, they may choose to transit to a 4-year Major program for which they qualify, or they may choose to transit to the General Degree. If a student wishes to enter an Honours program in the Faculty of Science they should contact the Faculty of Science office for assistance. Students intending to enter a four year Major or Honours program should refer to the program grids (p. 804), Programs and Courses Offered by the Faculty of Science, for courses required for entry into each program. Completion of these courses in University 1 will prepare a student to complete a four year Major or Honours program in four calendar years.

For further information please contact a Faculty of Science Academic Advisor and/or refer to the Faculty of Science applicant information brochure and the University Admissions website (<https://www.umanitoba.ca/admissions/>).

Transfer Students

Students who wish to transfer to the Faculty of Science must have completed a minimum of 24 credit hours of post-secondary courses and have achieved a minimum cumulative grade point average of at least 2.00 to be eligible for consideration. Students who do not meet this minimum may appeal to be considered for admission on the recommendation of the Dean. Please see a Science Academic Advisor for information. External transfer students with 24 credit hours or more of transfer credit are assessed upon admission to the Faculty of Science.

Students on academic suspension as a result of work completed at another post-secondary institution will not normally be considered for admission to the University of Manitoba until the suspension has been served.

Transfer of Credit

External: Please refer to the Admissions website (<https://www.umanitoba.ca/admissions/>) or the Admissions section (p. 131) in the calendar. Courses completed at an external institution ten years prior to registration in the Faculty of Science are not considered for transfer credit. Students should contact a Science Academic Advisor regarding departmental transfer credit policies. **All courses acceptable to the Faculty of Science must be transferred.**

Second Degree Students

Students possessing a first degree from a recognized university program and who have a minimum Cumulative Grade Point Average of 2.00 (or a 2.30 adjusted grade point average – see applicant information bulletin for details on AGPA) on all previous university work are eligible for admission as Second Degree students.

Second degree requirements may be shortened by up to 60 credit hours, and once admitted to a Second Degree Program, students will be expected to conform to all continuation, residency and graduation requirements as indicated below.

Specific information on requirements for a Bachelor of Science degree following the completion of a degree in another faculty or school, or at another university, is available in the general office.

Special Students

After Degree Special Students

Students who have successfully completed a first degree from a recognized university program with a Cumulative Grade Point Average of 2.00 or better are eligible for admission as Special Students.

Auditing Students

Students who wish to audit courses must have written permission from the instructor of the desired course before they can register. Auditing students must register in person in the Faculty of Science general office. The Faculty of Arts will prohibit auditors from registering in their courses until after the initial access period for registration.

Returning to Science after an Extended Leave

Students who have been away from Science for more than a year are blocked from using **Aurora Student**. They must consult with a Science Academic Advisor. If the student has not attended another post-secondary institution, they are eligible to return. The advisor will determine academic progress, registration date and time, and discuss degree plans. Students planning a return to studies are strongly urged to contact an Advisor well in advance of the start of registration. Students who have attended elsewhere since their last registration in Science must normally re-apply for admission and be academically competitive for admission on all of their previous academic work. June 1 is the application deadline for Fall term.

Students who have graduated must re-apply (June 1 for Fall Term – Other deadlines may be found on the Admissions website) and be academically competitive for admission.

Admission as a Dual Credit High School Student

Dual credit courses in high schools may be offered in partnership with school divisions and high schools. This opportunity is designed for students with particular interest in receiving equivalent to university-level training in a subject area and in receiving university-level credit for the training they receive at the high school level. To complete particular courses for university credit prior to their high school graduation by writing a challenge exam, some students may qualify for admission to the

Faculty of Science under our Dual Credit High School Student Admissions Category.

Note that courses offered as dual credit may vary from year to year. Interested high schools should consult the Faculty of Science Dean's Office for course availability and information on the dual credit course approval processes.

All prospective students must provide the following to be eligible for admission as a Dual Credit High School Student:

- evidence of full-time registration in a Manitoba high school,
- written recommendation of academic ability from their high school principal (or designate) confirming that they are academically in good standing and academically prepared to take equivalent to university-level courses,
- written approval of the Department offering the course that they are seeking to challenge and the Faculty of Science Dean's Office,
- completion of course pre-requisites as approved by Senate.

Academic Regulations

Regulations Applicable to All Programs

The provisions of the "General Academic Regulations (p. 120)" and "University Policies and Procedures (p. 42)" apply to all students. In addition, the Faculty of Science has regulations and requirements published below that apply specifically to its students.

Repeating a Course

Permission to repeat a course or a direct equivalent is no longer required. To take a course that is "not to be held" with a previously completed course still requires a registration override. Please contact the Faculty of Science General Office prior to registration.

Science students are subject to the University of Manitoba regulations (see General Academic Regulations, Repeating a Course (p. 60)) and the Faculty of Science degree regulations regarding eligibility to repeat a course. See below for information on Limited Access (p. 808).

Repeating a course will **not** result in the removal of the first attempt and grade in that course from the student's record. The course will appear on the transcript as many times as it has been repeated. The grade in all attempts of a course will be calculated as part of the student's GPA.

There is a limit on the number of 'F' grades permitted in any degree. All courses with "F" grades that are repeated count towards the limit of "F" grades permitted in a Science degree. See Academic Assessment (p. 808) and B.Sc. Major (p. 810) and B.Sc. Honours (p. 811) Academic Regulations.

Students who wish to repeat a course for which they have obtained a grade of "C" or better are encouraged to discuss their choice to do so with a Science Academic Advisor prior to registration.

Note: In most cases, professional Faculties and Schools have specific rules governing the way repeated courses are treated in their admission process. Check the applicant information bulletin of the appropriate Faculty or School, or with the Admissions Office (424 University Centre), or with a Science Academic Advisor for information regarding how different professional programs treat repeated courses in determining admission.

Voluntary Withdrawals

The responsibility for initiating withdrawals rests solely with the student. When eligible to do so, Voluntary Withdrawals must be done through

Aurora Student. No withdrawals will be permitted after the deadlines posted in the Academic Schedule (p. 32). See information on Limited Access (p. 808).

There is no limit on the number of Voluntary Withdrawal hours a student can accumulate.

In exceptional circumstances, Authorized Withdrawals may be permitted on presentation of appropriate documentation. See the "General Academic Regulations" on "Withdrawal from Courses and Programs (p. 125)" or consult a Science Academic Advisor for information.

Limited Access

Limited Access (see University Policy and Procedures- Limited Access section 2.5 (p. 60)) will not affect registration for the 2021-2022 Academic Year (including Summer Term 2022).

Effective 2018 Winter Term - Limited Access Policy in Effect

Limited Access is a registration rule that allows students who have never before completed, or voluntarily withdrawn, from a course (or its equivalent) the opportunity to register for the course before students who are repeating or have previously withdrawn from the course.

If a student has previously taken a course and received a final grade, or voluntarily withdrawn from the course (VW)¹, any future attempt to take that course or its equivalent is considered a repeated course.

¹ A previous VW is only considered a repeat if the student voluntarily withdrew in Winter 2017 or later.

Effective Winter 2018, Limited Access will prevent a student from registering or placing themselves on the waitlist for a course (or equivalent) being repeated until the "Limited Access Term Expiry Date" has passed.

Limited Access applies for three consecutive terms following the term that the course in question was last completed or voluntarily withdrawn (VW).

During these three terms of Limited Access, a student may register to repeat a course, without permission, only when the Limited Access Term Expiry Date has passed.

Once the three terms of Limited Access has expired, any student wishing to repeat a course must request permission to do so from the Faculty of Science General Office prior to registration.

Attendance at Other Institutions

Students who attend other post-secondary institutions without a Letter of Permission must reapply for admission to the Faculty of Science before the application deadline and be academically competitive for admission. Similarly, students registered in the Faculty of Science may not be registered at another academic institution at the same time unless they are registered elsewhere on a Letter of Permission. The penalty for unauthorized or undisclosed attendance may be disciplinary withdrawal or academic suspension.

For more information on Letters of Permission, please refer to the website (<https://umanitoba.ca/registrar/letter-permission/>).

Academic Dishonesty

Academic dishonesty is intentional cheating, fabrication, impersonation, or plagiarism. It is also knowingly or inadvertently helping or attempting to help others to be dishonest. Academic dishonesty lowers scholastic quality and defrauds others who will eventually depend on their own knowledge and integrity.

Plagiarism or any other form of cheating on examinations, term tests, or assignments is subject to academic penalty as serious as suspension or expulsion from the faculty or university.

Students who are unsure of what constitutes academic dishonesty should refer to the regulations in General Academic Regulations, Academic Integrity (p. 124), and consult with a Science Academic Advisor or a faculty member. Information about academic penalties for academic dishonesty is available on the Faculty of Science website.

Academic Assessment

Effective September 2021, each student in the Faculty of Science who has completed a minimum of 12 credit hours will have their academic performance assessed at the end of each term in which they receive a final grade in a minimum of 1 credit hour.

Notations will appear on a student's transcripts based on their performance. The four categories are: **Minimum Met, Academic Warning, On Probation, On Suspension.**

Students who achieve a minimum DGPA of 2.0 at the point of assessment will receive the **Minimum Met** notation on their transcript. This indicates that the student's performance is satisfactory. This does not mean a student has satisfied the specific requirements in their program of study. Students should consult the Undergraduate Academic Calendar for the specific requirements of their program of study.

Students who do not achieve a minimum DGPA of 2.0 will be placed in one of the following assessment categories:

Academic Warning, On Probation, or On Suspension, based on the following conditions.

- Students who have completed 12-23 credit hours at the point of assessment and have a DGPA less than 2.0 will be assessed as **Academic Warning**.
- Students who have completed 24 credit hours or more at the point of assessment and have a DGPA less than 2.0 will be assessed as **On Probation** and will be placed on probation.
- Students currently on probation who do not achieve a minimum TGPA of 2.0, upon subsequent registrations, will be assessed as **On Suspension** and will be suspended from the Faculty of Science. The duration of the suspension along with the notation on the transcript will depend on whether this is a first or a second suspension.

A student will need to meet with an academic advisor if they receive an **Academic Warning** or **On Probation** assessment.

A student who receives an **Academic Warning** assessment will be permitted to register for classes.

A student on probation will be permitted to register for classes. At each point of assessment, their DGPA will be assessed. Once the student has achieved a DGPA of 2.0, they will be assessed as **Minimum Met** and the student will no longer be on probation.

A student on probation is permitted to register for classes, and if their DGPA is still below 2.0, they must achieve a minimum Term GPA (TGPA) of 2.0 or higher to continue to register. If a student does not achieve a minimum TGPA of 2.0 while on probation, the student will be placed on suspension. The duration of a first suspension will be 1 year and the duration of a second (or subsequent) suspension will be 5 years. The notation on the transcript will indicate **On Suspension (for 1 Year)** for a first suspension, and **On Suspension (for 5 years)** for a second suspension.

While on suspension from the Faculty of Science, a student will not be permitted to register in any courses offered by the Faculty of Science. If a student completes courses at another post-secondary institution while serving a suspension, the student will be required to reapply for admission to the University of Manitoba and meet admission requirements. In addition, the student will need to provide evidence that they have served their suspension (i.e. evidence that they have spent the duration of their suspension away from post-secondary studies). Students should consult Other Admission Categories (p. 131) and Attendance at Other Institutions (<https://umanitoba.ca/registrar/letter-permission/>) for more details.

Students who are on academic suspension may not elect courses at another institution for credit toward a Science degree at this university.

Returning from 1-Year Suspension

If a student has intentions to return to the Faculty of Science following a 1-year suspension, the student will be required to contact a Faculty of Science academic advisor before returning.

Upon return from a 1-year suspension, a student will resume studies on probation. The student will be required to meet the requirements outlined above for students on probation. Specifically, failure to achieve a minimum TGPA of 2.0 will result in a second suspension for a duration of 5 years.

Returning from 5-Year Suspension

If a student has intentions to return to the Faculty of Science following a 5-year suspension, the student will be required to contact a Faculty of Science academic advisor before returning.

Upon return to the Faculty of Science following a 5-year suspension, the student will be given the following options:

1. **Resume Studies** – A student choosing this option will keep all previously completed coursework and their DGPA will remain the same, thus the student will be continuing on probation. A student who chooses this option must meet all the requirements of a student on probation, as outlined above. Failure to meet these requirements will result in another 5-year suspension.
2. **Start Afresh** – A student choosing this option may request to bring in up to 30 credit hours of previously completed course work in which they have achieved a “C” or better. Students in this situation will only have the courses which they choose to use as part of their “Start Afresh” as part of their DGPA and will be assigned an initial assessment of *Minimum Met*. A student who chooses this option will be subject to the academic assessment regulations outlined above.

In either case, this does not mean that the previous coursework will be removed from the student history or transcript.

Graduation while on Probation

A student who has satisfied degree requirements for their program of study and is eligible for graduation will be allowed to graduate, regardless of the status of their end-of-term assessment of academic standing. If the assessment category is either *On Probation* or *On Suspension*, the notation will be removed from the final term of the student’s transcript.

Required to Withdraw from Major or Honours

If a student’s last assessment was “Required to Withdraw from the Honours or the Major program,” they **must** consult a Science Academic Advisor prior to registration. An advisor will review new degree plans, determine eligibility for a desired program, and update any affected university records.

Students on “Hold”

If a student is on “Hold”, they are prevented from any registration transaction (including Voluntary Withdrawals) until they have cleared this status. The student must contact the Faculty of Science within the normal deadline to withdraw from a course while on “Hold”.

Term Work and Debarment

A student is responsible for the completion of laboratory work, assignments, tests and other class work as prescribed by departments. A student who does not meet term work requirements to the satisfaction of a department may receive a warning to this effect from the department or the general office. If this warning is ignored, a student may be debarred from the course. Any student debarred from a course receives an automatic grade of “F” in that course.

Deferred Examinations

Students unable to write a final examination because of illness, disability, or for compassionate reasons, must file an application in the Faculty of Science general office for a deferred examination. The application must be filed within 48 hours of the examination. Appropriate documentation must be provided that verifies that the incapacity existed at the time the examination was to be written.

A deferred examination is offered in a manner prescribed by the head of the department concerned. This would normally be written within 30 working days of the last examination in that series. Any other consideration would be determined by the department head.

Students requesting deferred examinations on the grounds that the examinations conflict with vacation or holiday plans shall not be granted deferrals.

A deferred examination is not granted to a student who has written the final examination.

Deferred examinations that need to be re-deferred, and/or requests where a student is seeking a deferral in a third examination series (i.e. Fall 2008, Winter 2009, Winter 2010 – any course) must be approved by the Faculty of Science Committee on Student Standing. Students must appeal, in writing, to the Committee on Student Standing and provide precise documentation that outlines why a deferral request should be granted in their case.

Appeals Involving Academic Regulations

The Committee on Student Standing in Science considers appeals from students who request special consideration in respect of rules and regulations governing their programs of study and qualification for graduation.

Appeals should be addressed to: The Secretary, Committee on Student Standing, General Office, Faculty of Science, 230 Machray Hall.

Appeal for Authorized Withdrawal

Students who have valid and documented reasons for withdrawal, such as medical illness or compassionate circumstances, may be authorized to withdraw without penalty. Requests for authorized withdrawals must be submitted in writing to a Faculty of Science Academic Advisor. Student Advocacy (<https://umanitoba.ca/student-supports/academic-supports/student-advocacy/>) located at 519 University Centre (204-474-7423, student_advocacy@umanitoba.ca) is available to provide information and assistance.

Statute of Limitations

Students who intend to appeal matters concerning regulations or decisions of the Faculty which may affect their registration must arrange

to submit a written appeal, including pertinent documentation to the Secretary of the Faculty of Science CSS, normally within three months following the term in which the course was taken or from the date of the academic decision. Appeals will not be considered beyond three years after the end of the course, or from the date of the academic decision.

Appeal for other Academic Concessions

Students who believe they have grounds for academic concessions based on their personal circumstances should consult with a Science Academic Advisor. Student Advocacy (<https://umanitoba.ca/student-supports/academic-supports/student-advocacy/>) located at 519 University Centre (204-474-7423, student_advocacy@umanitoba.ca) is available to provide information and assistance.

Laboratory Registration

If a course requires registration in both a lecture and a separate appropriate laboratory section, Aurora Student (https://aurora.umanitoba.ca/banprod/twbkwbis.P_GenMenu/?name=homepage) will not permit you to register in that course unless you register for both.

Laboratory Exemptions

Students who think they are eligible for a laboratory exemption must check with the department offering the course to obtain formal consent of this. Once received, deliver the written permission to their faculty or school office, as an override may be required on their academic record. They must register for the laboratory exempt section.

It is the student's responsibility to ensure that they are eligible for a laboratory exemption. If they register for one of these courses and it is subsequently determined that they are not entitled to exemption, they will be required to register for a laboratory section. If no space remains available in the laboratory, they will be required to withdraw from the course.

Laboratory Release

Certain Chemistry and Microbiology courses require that students check out of the laboratory before they withdraw or change lab sections. It is the students responsibility to check with the departmental office prior to making any changes to their laboratory registration. Failure to check out of the laboratory may result in the student's academic records being placed on HOLD.

B.Sc. (General) Degree Academic Regulations

B.Sc. (General) Three Year Degree

The three-year General program is intended to provide diversified training in Science. The program provides students with broad exposure to the major areas of Science at the introductory level with a requirement for more advanced studies in one or more areas of Science.

This program is not intended for students who desire to practice in some field of specialization in the Sciences. Students with that intent are recommended to pursue the Honours or the four-year Major program.

Students are required to have the equivalent of high school Mathematics 40S (either pre-calculus or applied mathematics) and at least one of high school Chemistry 40S or Physics 40S.

B.Sc. General Academic Regulations

A student must complete 90 credit hours with passing grades ("D" or better) in each course. Please note higher grades are usually required for prerequisite purposes. See course descriptions for details. A student must obtain a minimum grade point average of 2.00 on the 90 credit

hours, which constitute the degree to qualify for the degree of Bachelor of Science (General).

B.Sc. General Degree Minimum Performance Requirements

Students in the B.Sc. General Degree program are subject to academic assessment regulations as specified in the Regulations Applicable to all Programs (p. 807) section of the Faculty of Science general Calendar.

B.Sc. General Degree Residence Requirements

There are two ways in which students may fulfill the minimum requirement of credit hours that must be taken at the University of Manitoba: by taking at least 48 credit hours at the University of Manitoba; or by taking at least the final 30 credit hours at the University of Manitoba. The courses used to satisfy the residence requirement must be acceptable for credit in the Faculty of Science. Residency requirements apply to both first and second degree students.

B.Sc. (Major) Degree Academic Regulations

Faculty of Science Direct Entry students are admitted to a 4-Year undeclared Major program. While in the undeclared Major, students will take courses to allow them to declare a specific Major or enter an Honours program. To declare a specific Major or enter an Honours program students will need to satisfy the entry requirements as outlined in each program in the Faculty of Science.

Following the completion of 24-30 credit hours students will declare their Major program, or enter the Honours program, or they may choose to enter the 3-Year General degree. Students who do not qualify for a specific Major or Honours program will be required to move into the 3-Year General degree. Students who wish to be in a Major or Honours program but did not qualify can complete the outstanding requirements while in the General degree program and enter the program upon completion of the requirements.

B.Sc. (Major) Four-Year Degree

The four-year Major programs provide in-depth study in a specific discipline and enable graduates to function competently in a career in their chosen subject area.

While this program is not intended for students pursuing graduate studies, most programs allow students to do so with a minimum of difficulty.

The four-year Major program may be pursued on a part-time basis, although it must be recognized that under those conditions students would require more than four years to complete degree requirements.

B.Sc. (Major) Academic Regulations

To qualify for the degree Bachelor of Science (Major), a student must complete 120 credit hours or more, with minimum grades of "C" on Major Program Specific courses (as specified by the department), "D" or better on the remaining courses, and a minimum Degree Grade Point Average of 2.00.

Program Specific courses are those identified by the department as being core to the given degree. Please refer to the specific departments for clarification.

At least six credit hours **must** be taken from outside the Faculty of Science. Students admitted to a Major program must complete six credit hours of courses from the Faculty of Arts. Students in the Major degree programs may take a maximum of 36 credit hours from outside the Faculty of Science.

B.Sc. (Major) Entrance Requirements

To enter a specific four-year Major program, a student must normally have achieved a minimum grade of "C+" in at least one introductory course designated by the department(s). One of the entry routes to the Physics & Astronomy Major program, has a more rigorous entry requirement than listed above; please see the calendar entry for more details. In addition, to enter a four-year Major program a student shall normally have completed at least 30 credit hours, although a student may enter on the recommendation of the department with only 24 credit hours completed.

Any student who, prior to being admitted to a four-year Major program that has completed more than 30 credit hours will be allowed to apply those excess credit hours which meet the specifications of the program to the four year Major program.

Students must attain a Degree Grade Point Average of at least 2.00 regardless of the point of entry, and must meet continuation requirements as outlined below.

B.Sc. (Major) Continuation Requirements

To continue in the program, a student must maintain a Degree Grade Point Average of 2.00 at each point of assessment. Students who do not meet this minimum will be required to withdraw from the Major program.

There is no minimum term course load requirement for the Major program.

Failed Courses

Any student that exceeds 18 credit hours of failing grades after entering a Major program will be required to withdraw from that program. **Students are also subject to the academic assessment policy**, Regulations Applicable to all Programs (p. 807).

A student will be required to repeat those failed courses specified as required courses for the program; however, with the approval of the department the student may be allowed to substitute a new course for any elective course failed.

Major students reverting to the General program must fulfil all academic requirements of that degree.

B.Sc. (Major) Residence Requirement

To satisfy the Faculty of Science residency requirements, a student must successfully complete at least 60 credit hours at the University of Manitoba. The courses used to satisfy the requirement must be acceptable for credit in the Faculty of Science. Residency requirements apply to both first and second degree students.

B.Sc. Double Major Programs

Students may wish to pursue a Double-Major program in the Faculty of Science. Consultation with, in addition to specific course selection and approval from, the departments involved must occur prior to the commencement of any Double-Major program. Students must also consult with a Faculty of Science Academic Advisor prior to the start of any Double-Major program.

B.Sc. and B.C.Sc. (Honours) Academic Regulations

The Honours programs in the Faculty of Science are study in specific disciplines and the most heavily concentrated programs offered in the faculty. These programs lead most directly to graduate study and are in most cases prescribed extensively by the departments. A student is required to pursue this degree full-time and may be required to achieve

higher grade standards than in other degree programs. The programs are regarded as professional training.

Students graduating from the Honours program in Computer Science receive the degree designation Bachelor of Computer Science (Honours), also noted as B.C.Sc. (Honours).

A student electing an Honours program will normally begin Honours work in second year and must meet the entrance requirements set out below. Honours work will consist of three years of study in prescribed courses beyond the first year and will lead to the B.Sc. (Honours) or the B.C.Sc. (Honours).

Students must complete the university written English and Mathematics requirements as described in the General Academic Regulations (p. 120).

Students admitted to Honours programs must complete six credit hours from the Faculty of Arts. Because many Honours programs in the Faculty of Science do not have room for electives in Years 2, 3 and 4, these six credit hours, including the three credit hours of written English, should be completed in Year 1.

Honours Entrance Requirements

To enter an Honours degree program, a student must have completed at least 24 credit hours, have a minimum DGPA of 3.00 (3.5 for entry to Psychology), and a grade of "B" or better in at least one course designated by the department(s). Please refer to each department for specific information on entrance requirements.

Another way to gain entry to the many Faculty of Science Honours programs is through the **Second Year Entry Route**. If a student finds himself/herself ineligible to enter a desired Honours program following the completion of 24 or more credit hours, eligibility to enter Honours via the second year entry route can be established by taking a minimum of 18 credit hours over consecutive Fall and Winter Terms with a minimum of 9 credit hours in each term. The 18 credit hours chosen must be applicable to the program the student wishes to enter, and the student must achieve at least a "B" average on those 18 credit hours. If a student chooses to attempt more than 18 credit hours over the consecutive Fall and Winter terms, the best applicable 18 credit hours will be used to calculate whether or not the "B" average has been achieved for the purpose of assessing eligibility for entrance to the Honours program of choice. Note: Students wishing to enter an Honours program using the Second Year Entry Route must also have an overall DGPA of at least 3.00 (a 3.5 for Psychology).

Honours Continuation Requirements

To continue in an Honours degree a minimum Degree Grade Point Average of 3.00 (a minimum 3.5 is required for Psychology) is required at each point of assessment.

Students must complete a minimum of 9 credit hours in each Fall and Winter Term (or equivalent for students in the Co-operative option).

Students who do not meet the above minimum requirement will be required to withdraw from the Honours program and may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program.

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc.

General degree program. **Students are also subject to the academic assessment policy**, Regulations Applicable to all Programs (p. 807).

Honours Graduation Requirements

To qualify for the degree, Bachelor of Science (Honours), a student must complete a minimum of 120 credit hours or more with a minimum grade of C on all courses contributing to the credit hours that satisfy the program requirements. The Actuarial Mathematics, the Joint Honours in Statistics and Actuarial Mathematics, and the Joint Honours in Mathematics and Physics & Astronomy have more rigorous requirements; please refer to specific unit for more details.

Additionally, students must have a minimum degree grade point average of 3.00.

Honours Residence Requirement

A student must successfully complete a minimum of 60 credit hours at the University of Manitoba. The courses used to satisfy the requirement must be acceptable for credit in the Faculty of Science. Residency requirements apply to both first and second degree students.

Withdrawal from Honours

Honours students reverting to an alternate degree program must fulfil all academic requirements of that degree.

Double Honours Programs

Double Honours programs may be available as specified under departmental headings. Other programs may be arranged in consultation with the departments concerned.

Minors: Academic Regulations for Science Students

Students in B.Sc. Major and Honours programs may, if they wish, declare and complete a Minor from any department or interdisciplinary program at the University of Manitoba which offers a listed Minor. In the Faculty of Science Minors are listed in the program lists for each department and interdisciplinary program. Other available Minor requirements can be found within the appropriate departmental/school/faculty program lists. Completion of a Minor in a B.Sc. Major or Honours program is entirely optional. Students may not, however, declare both their Major and Minor from the same department/interdisciplinary program. It should be noted that for Honours students any consideration of completing a Minor should be made early on, due to restricted opportunities in later years of their programs. Completion of a Minor may require that a student take more than the minimum number of credit hours required for graduation. If they wish, students may choose to complete and declare multiple Minors in the four year Major and Honours degree programs.

The Minor is not available to students in the B.Sc. General Degree program.

A Minor will normally consist of a minimum of 18 credit hours specified by the department(s) offering the Minor. Courses required in a student's specific Honours or Major degree program are acceptable for use in a chosen Minor, subject to the Faculty of Science regulation stating that students may not declare both their Major and Minor from the same department or interdisciplinary program.

Minors not offered by the Faculty of Science can be selected from the following list. For further information about courses required for the completion of a specific Minor, please refer to the section of the calendar that relates to the chosen area.

- Animal Systems
- Entomology

- Food Science
- Plant Biotechnology
- Soil Science
- Art History
- Anthropology
- Asian Studies
- Canadian Studies
- Catholic Studies
- Central and East European Studies
- Classics
- Greek
- Latin
- Economics
- English
- Film Studies
- Theatre
- French
- Spanish
- Italian
- German
- Russian
- Ukrainian
- Polish
- History
- Icelandic
- Labour Studies
- Linguistics
- Medieval Studies
- Native Studies, Indigenous Languages
- Near Eastern and Judaic Studies
- Philosophy
- Political Studies
- Psychology
- Religion
- Sociology
- Ukrainian Canadian Heritage Studies
- Women's and Gender Studies
- Geography
- Geological Sciences
- Physical Geography
- Environmental Science
- Environmental Studies
- Human Nutrition and Metabolism
- Family Social Sciences
- Textile Sciences
- Management¹, and
- Music.

¹ **Faculty of Management/Asper School of Business:** For entry to the Minor, the prerequisite is a grade of "C" or better in the first 6 hours of Business courses. The Management Minor will consist of any 18 hours of credit in courses offered by the Asper School of Business. Enrolment in this program will be limited to 20 students annually. Students planning to enrol in this minor must consult a Faculty of Science Academic Advisor.

Dean's Honour List, Degree with Distinction, First Class Honours

Dean's Honour List (All Programs)

Students who complete 12 credit hours or more, who achieve a Term Grade Point Average of 3.75 or higher will be placed on the Dean's Honour List. The Dean's Honour List will be calculated after each term.

Degree with Distinction (4-Year Major Degree and 3-Year General Degree)

To obtain a Degree with Distinction a student must achieve a final minimum Degree Grade Point Average of 3.80. The term "Degree with Distinction" will appear on the student's parchment and the student's transcript of marks.

First Class Honours (Honours Degree Only)

To graduate with First Class Honours the student must achieve a final minimum Degree Grade Point Average of 3.80. The term "First Class Honours" will appear on the student's parchment and on the student's transcript of marks.

Faculty of Science Academic Awards

Refer to the University's Award Database (<https://umanitoba.ca/financial-aid-and-awards/>) for information on awards available to Faculty of Science Students.

To be eligible for any award granted exclusively on the basis of academic performance, a student must be enrolled in 100% of a full program as defined by the department.

Academic Advising

Contact Information

Science General Office: 239 Machray Hall

Telephone: (204) 474 8256

Toll-Free: 1 800 432 1960, extension 8256

E-mail: science_advisor@umanitoba.ca

Website: www.umanitoba.ca/science/ (<http://www.umanitoba.ca/science/>)

Science Advisor Availability: sci.umanitoba.ca/students/undergraduate-students/academic-advisors (<https://sci.umanitoba.ca/students/undergraduate-students/academic-advisors/>)

Student Responsibility

Students must ensure that they are selecting the correct courses that will enable them to satisfy their degree requirements. Specific degree requirements are listed in the program grids (p. 804) found in the departmental/program sections. Final completion of specific degree requirements is the student's responsibility. Academic Advisors are available to answer any questions regarding a student's academic progress.

Aurora Student will not check degree requirements. Students are responsible for knowing the requirements of their degree. Consult with a Science Academic Advisor for advice and assistance if uncertain about degree requirements.

Aurora Student will not prevent a student from registering in two (or more) courses that are designated as not to be held for credit with one another. It is the student's responsibility to ensure that they are not registered for courses that are ineligible to be held for credit with one another. Read the course descriptions carefully. If unsure about a course you have selected, check with a Science Academic Advisor prior to the revision deadline. No academic concessions will be granted in this regard.

Students cannot add or change a course classification through Aurora Student (https://aurora.umanitoba.ca/banprod/twbkwbis.P_GenMenu/?name=homepage). Therefore, if an undergraduate student wishes to take a course as a Special Student in their degree, as an Auditor, or as a Challenge for Credit, they must add this course in person in the Science General Office within the normal deadlines for such activity.

General Degree Program

Students in the B.Sc. General program are not required to contact a Science Academic Advisor before registration; however, they are strongly advised to do so. A Science Academic Advisor can answer any questions about degree progress and entry to professional faculties that may affect registration.

Students reverting from a Major or Honours program to the B.Sc. General program must consult a Science Academic Advisor prior to registration, so that their university records may be changed.

Science Academic Advisors may check students' degree progress periodically. These checks are completed after registration. **Reminder: It is the student's responsibility to know and satisfy all degree requirements.**

Honours, Major, and Co-operative Options

Honours students are required to register in a minimum of 9 credit hours during each Fall and Winter Term in which they are registered. Prior to declaring graduation, Honours, Major, and Co-op students are encouraged to have their programs checked by Science Academic Advisors on a regular basis.

Students entering or changing a program must see a Science Academic Advisor so that eligibility can be checked and university records updated

Course Selection

Important Course Selection Information

The courses required to complete the specific Honours, Major, General and Minor programs in Science are listed in the program grids (p. 804) found within each department or program entry.

Not all courses included in the course description sections are currently offered. The course schedule for the current academic year is available through Aurora Student (https://aurora.umanitoba.ca/banprod/twbkwbis.P_GenMenu/?name=homepage). Students should note that space in Honours and Major specific courses may be reserved for students in those programs.

All Honours and Major Degree Programs (4-year degrees) offered by the Faculty of Science satisfy the University "M" (Mathematics) requirement.

Students registered in the 3-Year General Degree programs are responsible for ensuring that they successfully complete a course that will satisfy the University's "M" (Mathematics) requirement.

Students in all programs are responsible for ensuring that they successfully complete a course that will satisfy the University's

“W” (Written English) requirement. It is strongly recommended that this requirement be completed in Year 1.

For a complete listing of courses that satisfy the University’s “W” and “M” requirements refer to the General Academic Regulations (p. 120).

In the Faculty of Science, unless otherwise noted, a minimum grade of “C” is required in any course listed as a prerequisite. See course descriptions.

Equivalent courses offered through Université de Saint-Boniface may be used in lieu of the specified courses identified in the degree program grids (p. 804). See course descriptions in Aurora Student (https://aurora.umanitoba.ca/banprod/bwckctlg.p_disp_dyn_ctlg/) for information on course equivalencies; Université de Saint-Boniface courses are taught in French and end in odd numbers, eg: BIOL 1021.

Note: Course prerequisites may be waived with written consent of the department.

Courses Offered in Other Faculties and Schools

All courses acceptable for credit in any degree program at the University of Manitoba are acceptable for credit in Science (excluding Pass/Fail courses) subject to overall degree requirements. All courses will be included on admission to the Faculty and will be applied toward the elective requirement in all degree programs offered in Science. For course descriptions, including any prerequisites and/or restrictions, please refer to the course descriptions found in each department.

Students are reminded that normally a maximum of 30 credit hours (General Degree) or 36 credit hours (Major Degree) from courses offered by Faculties or Schools other than the Faculty of Science can contribute to degree requirements.

Requirements for Dual Credit High School Students

Students admitted as dual credit high school students will be required to demonstrate their competencies in a course by challenging the university final exam.

Challenge exams will be scheduled by the relevant Department and may be invigilated either on the University of Manitoba campus or at the student’s high school. The University of Manitoba faculty member who is responsible for the delivery of the course will determine the structure and duration of the exam.

High schools will be responsible for delivering the appropriate content to ensure students are prepared for the examinations. If they are willing to do so, a UM faculty member will work with each high school to ensure that high school instructors are provided with the course content equivalent to the content of the corresponding courses offered at the University of Manitoba. Such support includes supplying course outlines, textbook information, and where appropriate, sample midterms and final examinations. These arrangements must be approved by the Department Head within the unit that is responsible for these course offerings at the University of Manitoba.

Students admitted will be subject to the same regulations concerning voluntary withdrawals and appeal procedures as all other students admitted to the Faculty of Science. Limited access restrictions will apply to university courses from which students have voluntarily withdrawn while enrolled as a Dual Credit High School student.

In addition to the university requirements listed above, all dual credit high school courses must adhere to requirements outlined in the provincial dual credit policy. Contact the Faculty of Science Student Services office

for information on available courses and for information regarding which high schools may offer dual credit for their students as an option.

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass"

for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by

the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfill all academic requirements of that degree.

Actuarial Mathematics

This is an interdisciplinary program leading to a Bachelor of Science (Honours) degree in Actuarial Mathematics offered in collaboration with the Warren Centre for Actuarial Studies and Research of the I.H. Asper School of Business. The program covers mathematical, statistical, financial and economic concepts required to develop skills in the modelling and management of financial risk and contingent events. In the Faculty of Science the program has a greater emphasis on the mathematical and statistical courses than does the Actuarial Mathematics program offered by the I.H. Asper School of Business.

The Warren Centre, with the department of Statistics, offers a joint Honours program, please refer to Statistics-Actuarial Mathematics Joint Honours (p. 942).

Actuarial Mathematics, B.Sc. Honours

Actuarial Mathematics Honours Entrance, Continuation, and Graduation Requirements

To enter the program, a student must have completed a minimum of 24 credit hours with a minimum DGPA of 3.00, and also obtained a minimum grade of "B" in one of the courses listed in Year 1 of the program grid. All of the courses listed in Year 1 of the program grid are program requirements and students are strongly urged to take them in the first year.

To continue in the Actuarial Mathematics Honours program, students must maintain a minimum DGPA of 3.00 and complete a minimum of 9 credit hours during each Fall and Winter Term.

To graduate with the B.Sc. Honours degree, a student must achieve a minimum DGPA of 3.00, a minimum grade of "C+" in each of the Honours Program Specific courses below, and a minimum grade of "C" on all remaining courses that contribute to the 120 credit hours of the degree.

Honours Program Specific Courses

Students must achieve a minimum grade of "C+" in each of the following for both prerequisite purposes and graduation requirements.

Course	Title	Hours
ACT 2020	Economic and Financial Applications	3
ACT 2120	Interest Theory	3
ACT 2210	Introduction to Risk Management	3
ACT 3130	Actuarial Models 1	3
ACT 3230	Actuarial Models 2	3
ACT 3340	Financial Derivatives for Actuarial Practice	3
One of:		6
ACT 3630	Models for Life Contingencies	

ACT 3130 & ACT 3230	Actuarial Models 1 and Actuarial Models 2	
ACT 4010	Regression Modeling in Actuarial Science	3
ACT 4020	Short Term Actuarial Mathematics I	3
ACT 4030	Short Term Actuarial Mathematics II	3
ACT 4060	Actuarial Aspects of Investment Practice	3
ACT 4160	Introduction to Property and Casualty Insurance Industry	3

Degree Requirements

- The following substitutions are allowed:
 - MATH 1300 (C) or MATH 1310 in place of MATH 1220 (C),
 - MATH 1500 (B) or MATH 1510 (B) in place of MATH 1230 (C),
 - MATH 1700 (B) or MATH 1710 (B) in place of MATH 1232 (C),
 - STAT 1000 (C) and STAT 2000 (B) in place of STAT 1150.
- Students are strongly urged to complete ACC 1100 in Year 1 when possible. FIN 2200 may be taken in Year 2, 3 or 4; however, it is strongly recommended that it be completed in Year 2. Note that ACC 1100 is a prerequisite for FIN 2200.
- GMGT 2010 fulfills the written English requirement.
- STAT 3450, STAT 3490, ACT 4020 and ACT 4030 may be taken in Year 3 or 4.
- It is recommended that electives in Year 3 and Year 4 be chosen from Actuarial Mathematics, Business courses, Computer Science, Economics, Mathematics (3000 or 4000 level) and Statistics (4000 level courses). Other electives may be selected through consultation with the program director. Examples include:
 - Year 3:* FIN 3410, FIN 3450, FIN 3480, MSCI 3400, STAT 3150, STAT 3550, STAT 3690.
 - Year 4:* FIN 4240, STAT 4100, STAT 4150, STAT 4250, STAT 4630.

Biochemistry

The Biochemistry programs are jointly offered by the Departments of Chemistry and Microbiology.

Programs

Biochemistry, B.Sc. Honours

Biochemistry Honours Entrance, Continuation, and Graduation Requirements

To enter the Joint Honours program in Biochemistry, a student must have completed at least 24 credit hours with a minimum DGPA of 3.00 and also obtained a minimum grade of "B" in CHEM 1110 and a minimum grade of "C+" in CHEM 1120 and BIOL 1020. CHEM 1100, BIOL 1030, PHYS 1050 (or PHYS 1020), MATH 1500, STAT 1150 (or STAT 1000), and 6 credit hours from the Faculty of Arts, including a course that satisfies the "W" requirement are required courses in the program and students are strongly encouraged to complete them in first year.

To continue in the Biochemistry Joint Honours program, students must maintain a minimum DGPA of 3.00, and complete a minimum of 9 credit hours during each Fall and Winter Term.

To graduate with the Biochemistry Joint Honours degree, a student must achieve a minimum DGPA of 3.00 and obtain a minimum grade of "C" on the courses that make up the 120 credit hours of the degree.

Honours Co-operative Option

A co-operative education option is available for Honours students. Students should refer to the Co-operative Education (p. 821) for further information on the Co-op programs.

The course, grade requirements and minimum DGPA requirement for entry and continuation in the Co-operative Option are the same as that for regular Honours program.

Students are required to complete the first and second year requirements of the program and MBIOL 3410 before beginning their first co-op work term.

Degree Requirements

Honours

Course	Title	Hours
Year 1		
CHEM 1100	Introductory Chemistry 1: Atomic and Molecular Structure and Energetics	3
CHEM 1110	Introductory Chemistry 2: Interaction, Reactivity, and Chemical Properties (B)	3
CHEM 1120	Introduction to Chemical Techniques (C+) ¹	3
BIOL 1020	Biology 1: Principles and Themes (C+)	3
BIOL 1030	Biology 2: Biological Diversity, Function and Interactions	3
PHYS 1050 or PHYS 1020	Physics 1: Mechanics or General Physics 1	3
MATH 1500	Introduction to Calculus ²	3
STAT 1150 or STAT 1000	Introduction to Statistics and Computing or Basic Statistical Analysis 1	3
Hours		24

Years 1-2

In Year 1 or Year 2 the following must be completed:

6 credit hours from the Faculty of Arts including the University Written English "W" requirement ³

		Hours
		6
Year 2		
CHEM 2100	Organic Chemistry 1: Foundations of Organic Chemistry	3
CHEM 2110	Organic Chemistry 2: Foundations of Organic Synthesis	3
CHEM 2122	Experimental Organic Chemistry	3
CHEM 2510	Introduction to Analytical Chemistry	3
CHEM 2520	Introduction to Analytical Chemistry Techniques	2
CHEM 2700	Biochemistry 1: Biomolecules and an Introduction to Metabolic Energy	3
CHEM 2710	Biochemistry 2: Catabolism, Synthesis, and Information Pathways	3
CHEM 2720	Principles and Practices of the Modern Biochemistry Laboratory	3

MBIO 4440	Systems Microbiology: from Genomes to Life (No longer offered)	
MBIO 4480	Microbes in our Environment	3
MBIO 4520	Industrial Bioprocesses	3
MBIO 4540	Biological Energy Transduction	3
MBIO 4602	Molecular Genetics of Prokaryotes - Lectures	3
MBIO 4612	Molecular Genetics of Eukaryotes - Lectures	3
MBIO 4672	Applied Molecular Biology	3

Optional courses no longer offered that may be used if taken prior to their deletion: CHEM 2260, CHEM 2290, CHEM 2400, CHEM 2470, CHEM 3260, CHEM 3360, CHEM 3370, CHEM 3380, CHEM 3390, CHEM 3400, CHEM 3490, CHEM 3580, CHEM 3590, CHEM 4600, CHEM 4640, CHEM 4650, CHEM 4690, MBIO 2280, MBIO 3030, MBIO 3280, MBIO 3440, MBIO 3470, MBIO 3480, MBIO 4010, MBIO 4320, MBIO 4470, MBIO 4510, MBIO 4570, MBIO 4580, MBIO 4600, MBIO 4610, and MBIO 4670. **Note:** Several of these courses may not be held with current course offerings found on the above optional course lists. Please refer to the course descriptions for more information about specific course restrictions.

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics

- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of

a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.

- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Biochemistry, B.Sc. Major

Biochemistry Major Entrance, Continuation, and Graduation Requirements

To enter the joint four year Major program, a student must have completed a minimum of 24 credit hours with a minimum DGPA of 2.00, and also obtained a minimum grade of "C+" in CHEM 1110, and a minimum grade of "C" in CHEM 1120 and BIOL 1020. CHEM 1100, BIOL 1030, PHYS 1050 (or PHYS 1020), MATH 1500, STAT 1150 (or STAT 1000), and 6 credit hours from the Faculty of Arts, including a course that satisfies the "W" requirement are required courses in the program and students are strongly encouraged to complete these courses in first year.

To continue in the Bachelor of Science Major degree program, students must maintain a minimum DGPA of 2.00.

To graduate with the Bachelor of Science Major in Biochemistry, a student must complete 120 credit hours or more, with minimum grades of "C" on all Major Program Specific courses (see below), passing grades ("D" or better) on the remaining courses, and a minimum DGPA of 2.00.

Major Program Specific Courses

Chemistry

Course	Title	Hours
CHEM 2100	Organic Chemistry 1: Foundations of Organic Chemistry	3
CHEM 2110	Organic Chemistry 2: Foundations of Organic Synthesis	3
CHEM 2122	Experimental Organic Chemistry	3
CHEM 2510	Introduction to Analytical Chemistry	3
CHEM 2520	Introduction to Analytical Chemistry Techniques	2
CHEM/MBIO 2700	Biochemistry 1: Biomolecules and an Introduction to Metabolic Energy	3
CHEM/MBIO 2710	Biochemistry 2: Catabolism, Synthesis, and Information Pathways	3
CHEM 2720	Principles and Practices of the Modern Biochemistry Laboratory	3
CHEM 3700	Biophysical Chemistry	3
CHEM 3760	Advanced Methods for the Biochemistry Laboratory	4
CHEM 4360 or CHEM 4620	Signalling and Regulation of Gene Expression Biochemistry of Nucleic Acids	3
CHEM 4630	Biochemistry of Proteins	3

MICROBIOLOGY

Course	Title	Hours
MBIO 1010	Microbiology I	3
MBIO 2020	Microbiology II	3
MBIO 3410	Molecular Biology	3
One of the following:		3
BIOL 2520	Cell Biology	
MBIO 3450	Regulation of Biochemical Processes	
MBIO 3460	Membrane and Cellular Biochemistry	
MBIO 4540	Biological Energy Transduction	
MBIO 4612	Molecular Genetics of Eukaryotes - Lectures	

Students in this program should note the following:

Students must satisfy any course prerequisites and co-requisites for courses selected. Care should be taken to select courses in their proper sequence, e.g. CHEM 2710 (MBIO 2710) and MBIO 2020 should be taken in Year 2 as they are prerequisite to a number of subsequent required or optional courses.

Normally 4000 level courses are available only to students in their fourth year. MBIO 4530 and MBIO 4670 are not available to Major students.

Students are encouraged to elect other courses pertinent to the study of biochemistry although this is not required for completion of the degree. The departments of Microbiology and Chemistry will be glad to suggest such supplementary courses upon request.

Students who may wish to transfer to the Honours program in Biochemistry following Year 2 should be sure to complete all courses recommended in Year 2 (see program chart (p. 819)).

Major Co-operative Option

A co-operative education option is available for Major students. Students should refer to the Co-operative Education (p. 825) for further information on the Co-op programs.

The course and minimum grade requirements for entry and continuation in the Co-operative Option are the same as those required for the regular Major program. However, the entry and continuation DGPA requirement is set at a minimum of 2.5.

Students are encouraged, but not required, to take 15 credit hours in each academic term in the third and subsequent years. Students are required to complete the first and second year requirements of the program and MBIO 3410 before beginning their first co-op work term.

Degree Requirements

Four Year Major (Including Co-operative Option if Selected)^{1,2}

Course	Title	Hours
Year 1		
CHEM 1100	Introductory Chemistry 1: Atomic and Molecular Structure and Energetics	3
CHEM 1110	Introductory Chemistry 2: Interaction, Reactivity, and Chemical Properties (C+)	3
CHEM 1120	Introduction to Chemical Techniques (C) ³	3
BIOL 1020	Biology 1: Principles and Themes (C)	3
BIOL 1030	Biology 2: Biological Diversity, Function and Interactions	3
PHYS 1050 or PHYS 1020	Physics 1: Mechanics or General Physics 1	3
MATH 1500	Introduction to Calculus ⁴	3
STAT 1150 or STAT 1000	Introduction to Statistics and Computing or Basic Statistical Analysis 1	3
Hours		24

Years 1-2

In Year 1 or Year 2 the following must be completed:		
6 credit hours from the Faculty of Arts including the University Written English "W" requirement ⁵		6
Hours		6

Year 2

CHEM 2100	Organic Chemistry 1: Foundations of Organic Chemistry	3
CHEM 2110	Organic Chemistry 2: Foundations of Organic Synthesis	3
CHEM 2122	Experimental Organic Chemistry	3
CHEM 2510	Introduction to Analytical Chemistry	3
CHEM 2520	Introduction to Analytical Chemistry Techniques	2
CHEM 2700	Biochemistry 1: Biomolecules and an Introduction to Metabolic Energy	3
CHEM 2710	Biochemistry 2: Catabolism, Synthesis, and Information Pathways	3

CHEM 2720	Principles and Practices of the Modern Biochemistry Laboratory	3
MBIO 1010	Microbiology I ⁶	3
MBIO 2020	Microbiology II	3
Hours		29

Year 3

CHEM 3700	Biophysical Chemistry	3
CHEM 3760	Advanced Methods for the Biochemistry Laboratory	4
MBIO 3410	Molecular Biology	3
Hours		10

Years 3-4

One of:		3
BIOL 2520	Cell Biology	
MBIO 3450	Regulation of Biochemical Processes	
MBIO 3460	Membrane and Cellular Biochemistry	
MBIO 4540	Biological Energy Transduction	
MBIO 4612	Molecular Genetics of Eukaryotes - Lectures	
CHEM 4360 or CHEM 4620	Signalling and Regulation of Gene Expression or Biochemistry of Nucleic Acids	3

21 credit hours of Chemistry and Microbiology (minimum of 6 credit hours from each department). Of these 21 credit hours, at least 12 hours must be 4000 level courses.

21 credit hours of electives⁷

Co-op Requirements (if selected):

SCI 3980	Co-operative Education Work Term 1	0
SCI 3990	Co-operative Education Work Term 2	0
SCI 4980	Co-operative Education Work Term 3	0
SCI 4990	Co-operative Education Work Term 4 (if a 4th work term is selected)	0
Hours		48

Year 4

CHEM 4630	Biochemistry of Proteins	3
Hours		3
Total Hours		120

¹ IMPORTANT: Students in the co-operative program must ensure that they are able to satisfy the prerequisites for all 3000 and 4000 level courses they plan to take.

² The four year Major program need not be completed in the manner prescribed above. This indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their program.

³ CHEM 1126 may be used in lieu of CHEM 1120.

⁴ MATH 1230 or MATH 1510 or MATH 1520 or MATH 1690 may be taken in place of MATH 1500.

⁵ As there are no electives in Year 2 of the program, students should complete the university written English requirement in Year 1. If not completed in Year 1, a "W" course must be completed prior to Year 3 in addition to the required Year 2 courses.

⁶ MBIO 1010 can be taken in Year 1 after BIOL 1020.

⁷ MATH 1010, MATH 1020, the former MATH 1190, the former COMP 1260, the former COMP 1270, COMP 1500 and COMP 1600 may not be chosen to satisfy this requirement.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular

Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Biological Sciences

Acting Head: Jane Waterman

Campus Address/General Office: 212 Biological Sciences Building

Telephone: (204) 474 9610

Email Address: Jane.Waterman@umanitoba.ca

Website: <http://sci.umanitoba.ca/biological-sciences> (<http://sci.umanitoba.ca/biological-sciences/>)

Biological Sciences

Biology is one of the most rapidly evolving and diverse sciences in the modern world, exploring all aspects of life from biomolecules to ecosystems. The Department of Biological Sciences is committed to advancing our understanding of biological structure and function, and developing new tools and technologies to address current and emerging problems facing all living organisms. Connections will be forged between molecules, cells, tissues, organs, organisms, populations, communities, and ecosystems, highlighting the need to explore all levels of biological interactions. Programs emphasize the organism as the key element in studies of the development and evolution of form and function, and the role in adaptations to the environment. Based on a core of fundamental biological principles, our programs explore diverse areas such as organismal biology, environmental biology, genetics, cell biology and development, physiology, ecology, behaviour, and systematics and evolution. The Department focuses on the integration of research

and teaching expertise to create opportunities for growth and novel synergisms in the training of future leaders in the field.

Biological Sciences Theme Areas

Cell, Molecular and Developmental Biology

Students in the Department of Biological Sciences with an interest in the exciting field of cell and developmental biology can select the Cell, Molecular, and Developmental Biology theme for focus. This theme will provide students a selection of courses that highlight fundamental principles and many important advances in this rapidly growing area of contemporary biology. Students can concentrate on aspects that deal with the molecular structures and processes of cellular life and their roles in the function, reproduction, and development of living organisms. The theme is structured such that students can choose from a broad range of disciplines, including biochemistry, molecular biology, morphology, genetics, cell biology, and developmental biology. The organisms under study in this theme are equally diverse, ranging from microbes through to invertebrates, vertebrates, plants, and fungi. The Department collaborates with many other life sciences departments and this theme allows student to develop a highly flexibly course portfolio that includes courses from the Departments of Biological Sciences, Chemistry, Microbiology, or Plant Science.

Specific courses required for the Cell, Molecular, and Developmental Biology Theme in addition to the core course requirements:

Course	Title	Hours
BIOL 3542	Developmental Biology	3
CHEM 1110	Introductory Chemistry 2: Interaction, Reactivity, and Chemical Properties	3
9 credit hours of Biochemistry - select A or B: ¹		9
A:		
CHEM/MBIO 2700	Biochemistry 1: Biomolecules and an Introduction to Metabolic Energy	
CHEM/MBIO 2710	Biochemistry 2: Catabolism, Synthesis, and Information Pathways ²	
CHEM 2720	Principles and Practices of the Modern Biochemistry Laboratory	
B:		
CHEM/MBIO 2730	Elements of Biochemistry 1	
CHEM 2740	Introduction to the Biochemistry Laboratory	
CHEM/MBIO 2750	Elements of Biochemistry 2	

¹ Students are strongly recommended to complete the biochemistry requirements in their second year.

² The CHEM 2710 or MBIO 2710 prerequisite of CHEM 2100 can be used to fulfill the additional course from the list in the program grid.

Ecology and Environmental Biology

Ecology is the study of interactions between organisms and their environment, both in natural settings and human-influenced habitats. In our society ecology and environmental biology provides a scientific link to the living world. Ecologists study the lives of many organisms including animals, plants, fungi, protists, and bacteria. Interactions among these organisms are investigated at many scales ranging from the microscopic to the global. At the individual level, ecology investigates the impact of environmental factors on organisms through their physiology and behaviour. Ultimately, ecologists link these factors

to survival and reproduction in variable environments. At the population level, ecology examines the causes of fluctuations in numbers and changes in distribution of a single species. This work is often the focus of agencies concerned with exploitation, extinction, and rehabilitation of both commercially and esthetically important species. At the community and ecosystem level, ecology considers many coexisting species. It examines the interactions between species within the communities (competition, predation, parasitism, mutualism, etc.) as well as broader investigations of community structure and composition. Ultimately, the skills developed within this theme prepare students for future careers in academia, government agencies, private consulting companies, or NGOs whose mandates encompass ecological and environmental concerns.

Specific courses required for the Ecology and Environmental Biology Theme in addition to the core course requirements:

Course	Title	Hours
BIOL 3310	Foundations of Population Ecology	3
BIOL 3312	Community Ecology	3
BIOL 3314	Field Ecology	3
STAT 2150 or STAT 2000	Statistics and Computing Basic Statistical Analysis 2	3

Environmental and Integrative Physiology

The Environmental and Integrative Physiology theme will be of interest to a wide array of students interested in pursuing employment opportunities in the Environmental, Consulting, Pharmaceutical, Healthcare, and Professional job markets. Based on the suggested courses and sub themes within this program students will be able to graduate with an all inclusive degree or specialize in particular disciplines ranging from molecular physiology to whole organism physiology and eco/environmental physiology, a subject area that is at the interface between ecology and physiology. Students will be exposed to modern research techniques in lab classes and will be taught by instructors and faculty with active research programs within the Department of Biological Sciences.

Specific courses required for the Environmental and Integrative Physiology Theme in addition to the core course requirements:

Course	Title	Hours
CHEM 1110	Introductory Chemistry 2: Interaction, Reactivity, and Chemical Properties	3
9 credit hours of Biochemistry - select A or B:		9
A:		
CHEM/MBIO 2700	Biochemistry 1: Biomolecules and an Introduction to Metabolic Energy	
CHEM/MBIO 2710	Biochemistry 2: Catabolism, Synthesis, and Information Pathways	
CHEM 2720	Principles and Practices of the Modern Biochemistry Laboratory	
B:		
CHEM/MBIO 2730	Elements of Biochemistry 1	
CHEM 2740	Introduction to the Biochemistry Laboratory	
CHEM/MBIO 2750	Elements of Biochemistry 2	
Plus two additional courses from the following:		6
BIOL 3470	Environmental Physiology of Animals 1	

BIOL 3472	Environmental Physiology of Animals 2
BIOL 3400	Plant Physiology
BIOL 3452	Environmental Plant Physiology

Evolution and Biodiversity

Evolution is broadly defined as “descent with modification” and is the process that generates the earth’s biodiversity. The theory of evolution provides a unifying framework for biology because all organisms are descended from a common ancestor. As a result, evolutionary principles permeate research and teaching throughout biology.

Evolutionary biology addresses two overarching questions:

1. What was the history of life?
2. What processes account for adaptation and diversification?

Systematics reconstructs the history of life by studying relationships among species, and involves comparisons of physical appearance, development, biochemistry, genetics, behaviour, ecology and biogeography. Evolutionary Genetics investigates how processes such as natural selection, mutation, and migration interact to cause evolutionary change within populations. Evolutionary history, genetics, and ecological context are required to fully understand the evolution of traits, for example body size, wing shape or leaf structure. Thus evolution integrates knowledge from a wide spectrum of sub-disciplines within biology.

Evolutionary biology has wide-ranging practical applications. Principles of evolution are required to understand: the evolution of pathogens such as HIV and avian influenza; domestication of wild species and consequences of genetic modifications; the identification of natural products; long-term responses to environmental change; and human biology. Courses from this theme will prepare students for academia, medicine, and government agencies or NGO’s that emphasize the cataloguing and conservation of biological diversity.

Specific courses required for the Evolution and Biodiversity Theme in addition to the core course requirements:

Course	Title	Hours
STAT 2150	Statistics and Computing	3
or STAT 2000	Basic Statistical Analysis 2	
One of the following Evolutionary Processes courses:		3
BIOL 3360	Animal Behaviour	
BIOL 4300	Evolution and Adaptation	
BIOL 4362	Behavioural Ecology and Cognitive Ethology	
BIOL 4510	Evolutionary Genetics	
One of the following Biodiversity courses:		3
BIOL 3200	Advanced Invertebrate Biology	
BIOL 3242	Vascular Flora of Manitoba	
BIOL 3250	Lichens and Bryophytes	
BIOL 3270	Introductory Parasitology	
BIOL 4212	Systematics and Biogeography of Fishes	
BIOL 4214	Biology of Amphibians and Reptiles	
BIOL 4216	Biology of Birds	
BIOL 4218	Biology of Mammals	

Integrative Biology

The Integrative Biology theme will be of interest to students planning to pursue careers in the various biology sub disciplines and who wish an undergraduate degree that is “interdisciplinary” within the life science departments that cuts across the traditional boundaries. This program will suit students who are interested in the “after degree” program in Education or who are intending to apply to a professional program (e.g. Medicine, Dentistry, Pharmacy, Medical Rehabilitation) and who would like a broad background in the Life Sciences. With the appropriate choice of Biological Science courses it would be possible to indicate the Integrative Biology theme along with a second theme from the department.

Specific courses required for the Integrative Biology Theme in addition to the core course requirements:

Course	Title	Hours
CHEM 1110	Introductory Chemistry 2: Interaction, Reactivity, and Chemical Properties	3
MBIO 1010	Microbiology I	3
6 credit hours from A or B:		6
A:		
CHEM/MBIO 2700	Biochemistry 1: Biomolecules and an Introduction to Metabolic Energy	
CHEM/MBIO 2710	Biochemistry 2: Catabolism, Synthesis, and Information Pathways	
CHEM 2720	Principles and Practices of the Modern Biochemistry Laboratory	
B:		
CHEM/MBIO 2730	Elements of Biochemistry 1	
CHEM 2740	Introduction to the Biochemistry Laboratory	
CHEM/MBIO 2750	Elements of Biochemistry 2	
12 credit hours of second-year program courses including:		12
BIOL 2200	The Invertebrates	
BIOL 2210	The Chordates	
BIOL 2240	The Non-Flowering Plants	
BIOL 2242	The Flowering Plants	
BIOL 2260	Biology of Fungi and Lichens	
BIOL 2262	Biology of Algae	
BIOL 2420	Human Physiology 2	
BIOL 2600	Introduction to Computational Biology	
One of the following:		3
BIOL 3400	Plant Physiology	
BIOL 3470	Environmental Physiology of Animals 1	
BIOL 3472	Environmental Physiology of Animals 2	
24 credit hours in Biological Sciences (3000/4000 level courses)		24
6 credit hours in Microbiology (3000/4000 level courses)		6

Programs

Degree/Diploma	Years to Completion	Total Credit Hours	Has Co-op Option
Biological Sciences, B.Sc. Honours (p. 829)	4	120	Yes
Biological Sciences, B.Sc. Major (p. 836)	4	120	Yes
Biological Sciences Minor (p. 844)		18	

Biological Sciences, B.Sc. Honours

Biological Sciences Honours Entrance, Continuation, and Graduation Requirements

The Honours program is designed for students planning a professional career in Biological Sciences at the graduate level. Such students are strongly advised to enter the Honours program at the beginning of second year.

Appropriate courses will be arranged in consultation with the Theme Advisor who may be contacted through the Biological Sciences Office (212 Biological Sciences Building). Students must select a specific theme area of study as part of their Biological Sciences program. See the information outlining the different theme areas (p. 827) offered by the Department of Biological Sciences.

To enter the Biological Sciences Honours program a student must have completed at least 24 credit hours with a minimum DGPA of 3.00, and obtained a minimum grade of "B" in BIOL 1030. CHEM 1100, CHEM 1110 (if required for theme), CHEM 1120, STAT 1150 or STAT 1000, and the 3 credit hours of specified Mathematics or Physics are program requirements and students are strongly urged to complete these courses in first year.

To continue in the Biological Sciences Honours program, students must maintain a minimum DGPA of 3.00, and complete a minimum of 9 credit hours during each Fall and Winter Term.

To graduate with the B.Sc. Honours degree, a student must achieve a minimum DGPA of 3.00, and obtain a minimum grade of "C" on the courses that make up the 120 credit hours of the degree.

Honours Co-operative Option

A co-operative education option is available for Honours students. Students should refer to the Co-operative Education (p. 835) for further information on the Co-op programs.

The course, grade requirements and minimum DGPA requirement for entry and continuation in the Co-operative Option are the same as that for regular Honours program.

Before starting the first co-op work term, the following courses must be completed:

Course	Title	Hours
BIOL 1020	Biology 1: Principles and Themes	3
BIOL 1030	Biology 2: Biological Diversity, Function and Interactions	3
CHEM 1100	Introductory Chemistry 1: Atomic and Molecular Structure and Energetics	3

CHEM 1120	Introduction to Chemical Techniques	3
STAT 1150	Introduction to Statistics and Computing	3
or STAT 1000	Basic Statistical Analysis 1	
3 credit hours of specified Mathematics or Physics		3
BIOL 2300	Principles of Ecology	3
BIOL 2500	Genetics 1	3
BIOL 2520	Cell Biology	3
BIOL 3100	Skills in Biological Sciences	3

In addition, students must complete 9-12 credit hours from program 9-12 courses as **outlined in the specific theme grids.**

Degree Requirements

Honours: Cell, Molecular and Developmental Biology Theme (Including Co-operative Option if Selected)

Important Note¹

Course	Title	Hours
Year 1		
BIOL 1020	Biology 1: Principles and Themes	3
BIOL 1030	Biology 2: Biological Diversity, Function and Interactions (B)	3
CHEM 1100	Introductory Chemistry 1: Atomic and Molecular Structure and Energetics	3
CHEM 1110	Introductory Chemistry 2: Interaction, Reactivity, and Chemical Properties	3
CHEM 1120	Introduction to Chemical Techniques ²	3
STAT 1150	Introduction to Statistics and Computing ³	3
or STAT 1000	or Basic Statistical Analysis 1	
Hours		18

Years 1-2

In Year 1 or Year 2 the following must be completed:

3 credit hours of Mathematics or Physics chosen from:		3
MATH 1240	Elementary Discrete Mathematics ⁴	
MATH 1300	Vector Geometry and Linear Algebra ⁴	
MATH 1500	Introduction to Calculus ⁴	
PHYS 1020	General Physics 1	
or PHYS 1050	or Physics 1: Mechanics	
6 credit hours from the Faculty of Arts, including a required "W" course		6
6 credit hours of electives		6
Hours		15

Year 2

BIOL 2300	Principles of Ecology	3
BIOL 2500	Genetics 1	3
BIOL 2520	Cell Biology	3
Select A or B:		9

A: ⁵		
CHEM/MBIO 2700	Biochemistry 1: Biomolecules and an Introduction to Metabolic Energy	
CHEM/MBIO 2710	Biochemistry 2: Catabolism, Synthesis, and Information Pathways	
CHEM 2720	Principles and Practices of the Modern Biochemistry Laboratory	
B: ⁵		
CHEM/MBIO 2730	Elements of Biochemistry 1	
CHEM/MBIO 2750	Elements of Biochemistry 2	
CHEM 2740	Introduction to the Biochemistry Laboratory	
BIOL 2200 or BIOL 2210	The Invertebrates or The Chordates	3
One of:		3
BIOL 2240	The Non-Flowering Plants	
BIOL 2242	The Flowering Plants	
BIOL 2260	Biology of Fungi and Lichens	
BIOL 2262	Biology of Algae	
One additional course from:		3
BIOL 2200	The Invertebrates	
BIOL 2210	The Chordates	
BIOL 2240	The Non-Flowering Plants	
BIOL 2242	The Flowering Plants	
BIOL 2260	Biology of Fungi and Lichens	
BIOL 2262	Biology of Algae	
BIOL 2420	Human Physiology 2	
BIOL 2600	Introduction to Computational Biology	
CHEM 2100	Organic Chemistry 1: Foundations of Organic Chemistry ⁵	
Hours		27
Year 3		
BIOL 3100	Skills in Biological Sciences	3
BIOL 3300	Evolutionary Biology	3
BIOL 3542	Developmental Biology ⁶	3
One of:		3
BIOL 3400	Plant Physiology	
BIOL 3470	Environmental Physiology of Animals 1	
BIOL 3472	Environmental Physiology of Animals 2	
Co-op Requirements (if selected):		
SCI 3980	Co-operative Education Work Term 1	0
SCI 3990	Co-operative Education Work Term 2	0
Hours		12
Years 3-4		
30 credit hours of 3000 or 4000 level Biology courses ⁷		30
12 credit hours of electives		12
Hours		42
Year 4		
BIOL 4100	Honours Thesis	6
Co-op Requirements (if selected):		
SCI 4980	Co-operative Education Work Term 3	0

SCI 4990	Co-operative Education Work Term 4 (if a 4th work term is selected)	0
Hours		6
Total Hours		120

- ¹ The program need not be completed in the manner prescribed in the grid above. The grid indicates one possible arrangement of the 120 credit hours that makes up the degree and is meant to be a guide around which students can plan their program with a view to satisfying the prerequisites of the required courses. These 120 credit hours are a combination of the courses outlined in the grid above and elective courses chosen by the student in consultation with the program advisors.
- ² The former courses CHEM 1300 and CHEM 1310 may be used in place of CHEM 1100, CHEM 1110, and CHEM 1120. CHEM 1122 and CHEM 1126 may be used in lieu of CHEM 1120.
- ³ STAT 1150 is recommended over STAT 1000.
- ⁴
- MATH 1230, MATH 1510, MATH 1520, or MATH 1690 may be taken in place of MATH 1500;
 - MATH 1220 or MATH 1310 may be taken in place of MATH 1300;
 - MATH 1200 may be used in place of MATH 1240.
- ⁵ Students are strongly recommended to complete their biochemistry requirements in their second year. The former courses CHEM 2360 (MBIO 2360) and CHEM 2370 (MBIO 2370) may be used in place of CHEM 2700 (MBIO 2700), CHEM 2710 (MBIO 2710), and CHEM 2720. The former courses CHEM 2770 (MBIO 2770) and CHEM 2780 (MBIO 2780) may be used in place of CHEM 2730 (MBIO 2730), CHEM 2740, and CHEM 2750 (MBIO 2750). If the choice of biochemistry courses includes the requirement of CHEM 2100, CHEM 2100 can be used as the additional course listed above. The former CHEM 2210 may be used in place of CHEM 2100.
- ⁶ The former BIOL 2540 may be used in place of BIOL 3542.
- ⁷ Courses from other departments or faculties may be acceptable for use towards the 30 credit hours of 3000/4000 level Biological Sciences courses required in the Honours program. Please consult with the department theme advisor for permission to use alternate courses.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Honours: Ecology and Environmental Biology Theme (Including Co-operative Option if Selected)

Important Note ¹

Course	Title	Hours
Year 1		
BIOL 1020	Biology 1: Principles and Themes	3
BIOL 1030	Biology 2: Biological Diversity, Function and Interactions (B)	3

CHEM 1120	Introduction to Chemical Techniques ²	3
STAT 1150 or STAT 1000	Introduction to Statistics and Computing ³ or Basic Statistical Analysis 1	3
Hours		15

Years 1-2

In Year 1 or Year 2 the following must be completed:

3 credit hours of Mathematics or Physics chosen from:	3
MATH 1240 Elementary Discrete Mathematics ⁴	
MATH 1300 Vector Geometry and Linear Algebra ⁴	
MATH 1500 Introduction to Calculus ⁴	
PHYS 1020 General Physics 1 or PHYS 1050 or Physics 1: Mechanics	
6 credit hours from the Faculty of Arts, including a required "W" course	6
15 credit hours of electives	15
Hours	24

Year 2

BIOL 2300 Principles of Ecology	3
BIOL 2500 Genetics 1	3
BIOL 2520 Cell Biology	3
BIOL 2200 The Invertebrates or BIOL 2210 or The Chordates	3
One of:	3
BIOL 2240 The Non-Flowering Plants	
BIOL 2242 The Flowering Plants	
BIOL 2260 Biology of Fungi and Lichens	
BIOL 2262 Biology of Algae	
One additional course from:	3
BIOL 2200 The Invertebrates	
BIOL 2210 The Chordates	
BIOL 2240 The Non-Flowering Plants	
BIOL 2242 The Flowering Plants	
BIOL 2260 Biology of Fungi and Lichens	
BIOL 2262 Biology of Algae	
BIOL 2600 Introduction to Computational Biology	
STAT 2150 Statistics and Computing ^{3, 4} or STAT 2000 or Basic Statistical Analysis 2	3
Hours	21

Year 3

BIOL 3100 Skills in Biological Sciences	3
BIOL 3300 Evolutionary Biology	3
BIOL 3310 Foundations of Population Ecology	3
BIOL 3312 Community Ecology	3
BIOL 3314 Field Ecology ⁵	3
One of:	3
BIOL 3400 Plant Physiology	
BIOL 3470 Environmental Physiology of Animals 1	
BIOL 3472 Environmental Physiology of Animals 2	

Co-op Requirements (if selected):

SCI 3980 Co-operative Education Work Term 1	0
SCI 3990 Co-operative Education Work Term 2	0
Hours	18

Years 3-4

21 credit hours of 3000 or 4000 level Biology courses ⁶	21
15 credit hours of electives	15
Hours	36

Year 4

BIOL 4100 Honours Thesis	6
Co-op Requirements (if selected):	

SCI 4980 Co-operative Education Work Term 3	0
SCI 4990 Co-operative Education Work Term 4 (if a 4th work term is selected)	0
Hours	6
Total Hours	120

¹ The program need not be completed in the manner prescribed in the grid above. The grid indicates one possible arrangement of the 120 credit hours that makes up the degree and is meant to be a guide around which students can plan their program with a view to satisfying the prerequisites of the required courses. These 120 credit hours are a combination of the courses outlined in the grid above and elective courses chosen by the student in consultation with the program advisors.

² The former courses CHEM 1300 and CHEM 1310 may be used in place of CHEM 1100 and CHEM 1120. CHEM 1122 and CHEM 1126 may be used in lieu of CHEM 1120.

³ STAT 1150 is strongly recommended over STAT 1000; and STAT 2150 is strongly recommended over STAT 2000.

⁴

- MATH 1230, MATH 1510, MATH 1520, or MATH 1690 may be taken in place of MATH 1500;
- MATH 1220 or MATH 1310 may be taken in place of MATH 1300;
- MATH 1200 may be used in place of MATH 1240.
- Note that STAT 2150 has a prerequisite which requires one of MATH 1230, MATH 1500, MATH 1510, or MATH 1690.

⁵ With departmental approval, other Field Ecology courses may be used in place of BIOL 3314. A list of possible courses can be found on the Departmental Website.

⁶ Courses from other departments or faculties may be acceptable for use towards the 21 credit hours of 3000/4000 level Biological Sciences courses required in the Honours program. Please consult with the department theme advisor for permission to use alternate courses.

Honours: Environmental and Integrative Physiology Theme (Including Co-operative Option if Selected)

Hours		6
Total Hours		120

¹ The program need not be completed in the manner prescribed in the grid above. The grid indicates one possible arrangement of the 120 credit hours that makes up the degree and is meant to be a guide around which students can plan their program with a view to satisfying the prerequisites of the required courses. These 120 credit hours are a combination of the courses outlined in the grid above and elective courses chosen by the student in consultation with the program advisor.

² The former courses CHEM 1300 and CHEM 1310 may be used in place of CHEM 1100, CHEM 1110, and CHEM 1120. CHEM 1122 and CHEM 1126 may be used in lieu of CHEM 1120.

³ STAT 1150 is recommended over STAT 1000.

⁴

- MATH 1230, MATH 1510, MATH 1520, or MATH 1690 may be taken in place of MATH 1500;
- MATH 1220 or MATH 1310 may be taken in place of MATH 1300;
- MATH 1200 may be used in place of MATH 1240.

⁵ The former courses CHEM 2360 (MBIO 2360) and CHEM 2370 (MBIO 2370) may be used in place of CHEM 2700 (MBIO 2700), CHEM 2710 (MBIO 2710), and CHEM 2720. The former courses CHEM 2770 (MBIO 2770) and CHEM 2780 (MBIO 2780) may be used in place of CHEM 2730 (MBIO 2730), CHEM 2740, and CHEM 2750 (MBIO 2750). Number of credit hours of electives depends on the choice of Biochemistry courses and the inclusion of CHEM 2100 (or the former CHEM 2210).

⁶ Courses from other departments or faculties may be acceptable for use towards the 24 credit hours of 3000/4000 level Biological Sciences courses required in the Honours Degree program. Please consult with the theme advisor for permission to use alternate courses.

⁷ Many MBIO courses have specific biochemistry requirements. Students are advised to plan ahead to take all required courses. If a student takes more than 6 credit hours of biochemistry, they will count as electives.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy

- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of

a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.

- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Biological Sciences, B.Sc. Major Biological Sciences Major Entrance, Continuation, and Graduation Requirements

The four year Major program is also designed for students planning a professional career in the Biological Sciences, but who may not be considering graduate training. It will provide intensive training in all areas of Biology comparable to that of the Honours program, but has less demanding performance requirements. Additionally, students may complete the Major degree requirements on a part-time basis if they so choose. Students who so wish, and have appropriate standing and course selection, may transfer to the Honours program at any time up to the commencement of Year 4.

Appropriate courses will be arranged in consultation with the Theme Advisor who may be contacted through the Biological Sciences Office, 212 Biological Sciences Building. Students must select a specific theme area of study as part of their Biological Sciences program. See the

information below outlining the different theme areas offered by the Department of Biological Sciences.

Course BIOL 4100 is not available to students in this program.

To enter the Biological Sciences four-year Major program a student must have completed a minimum of 24 credit hours with a minimum DGPA of 2.00, and obtained a minimum grade of "C+" in BIOL 1030. CHEM 1100, CHEM 1110 (if required for theme), CHEM 1120, STAT 1150 or STAT 1000, and the 3 credit hours of specified Mathematics or Physics are program requirements and students are strongly encouraged to complete these courses in first year.

To continue in the Bachelor of Science Major degree, a student must maintain a minimum DGPA of 2.00.

To graduate with the Bachelor of Science (Major) in Biological Sciences, a student must obtain a minimum DGPA of 2.00 and a minimum grade of "C" or better in all required courses and required option courses.

Major Co-operative Option

A co-operative education option is available for Major students. Students should refer to the Co-operative Education (p. 842) for further information on the Co-op programs.

The course and minimum grade requirements for entry and continuation in the Co-operative Option are the same as those required for the regular Major program. However, the entry and continuation DGPA requirement is set at a minimum of 2.5.

Before starting the first co-op work term, the following prerequisite courses must be completed:

Course	Title	Hours
BIOL 1020	Biology 1: Principles and Themes	3
BIOL 1030	Biology 2: Biological Diversity, Function and Interactions	3
CHEM 1100	Introductory Chemistry 1: Atomic and Molecular Structure and Energetics	3
CHEM 1120	Introduction to Chemical Techniques	3
STAT 1150 or STAT 1000	Introduction to Statistics and Computing Basic Statistical Analysis 1	3
3 credit hours of specified Mathematics or Physics		3
BIOL 2300	Principles of Ecology	3
BIOL 2500	Genetics 1	3
BIOL 2520	Cell Biology	3

In addition, students must complete 9-12 credit hours from program 9-12 courses as **outlined in the specific theme grids**.

Degree Requirements

Four Year Major: Cell, Molecular and Developmental Biology Theme (Including Co-operative Option)

Important Note¹

Course	Title	Hours
Year 1		
BIOL 1020	Biology 1: Principles and Themes	3
BIOL 1030	Biology 2: Biological Diversity, Function and Interactions (C+)	3

CHEM 1100	Introductory Chemistry 1: Atomic and Molecular Structure and Energetics	3
CHEM 1110	Introductory Chemistry 2: Interaction, Reactivity, and Chemical Properties	3
CHEM 1120	Introduction to Chemical Techniques ²	3
STAT 1150 or STAT 1000	Introduction to Statistics and Computing ³ or Basic Statistical Analysis 1	3

Hours 18

Years 1-2

In Year 1 or Year 2 the following must be completed:

3 credit hours of Mathematics or Physics chosen from:		3
MATH 1240	Elementary Discrete Mathematics ⁴	
MATH 1300	Vector Geometry and Linear Algebra ⁴	
MATH 1500	Introduction to Calculus ⁴	
PHYS 1020 or PHYS 1050	General Physics 1 or Physics 1: Mechanics	
6 credit hours from the Faculty of Arts, including a required "W" course		6
6 credit hours of electives		6

Hours 15

Year 2

BIOL 2300	Principles of Ecology	3
BIOL 2500	Genetics 1	3
BIOL 2520	Cell Biology	3
Select A or B:		9

A:⁵

CHEM/MBIO 2700	Biochemistry 1: Biomolecules and an Introduction to Metabolic Energy	
CHEM/MBIO 2710	Biochemistry 2: Catabolism, Synthesis, and Information Pathways	
CHEM 2720	Principles and Practices of the Modern Biochemistry Laboratory	
B: ⁵		
CHEM/MBIO 2730	Elements of Biochemistry 1	
CHEM/MBIO 2750	Elements of Biochemistry 2	
CHEM 2740	Introduction to the Biochemistry Laboratory	

BIOL 2200 or BIOL 2210	The Invertebrates or The Chordates	3
---------------------------	---------------------------------------	---

One of: 3

BIOL 2240	The Non-Flowering Plants	
BIOL 2242	The Flowering Plants	
BIOL 2260	Biology of Fungi and Lichens	
BIOL 2262	Biology of Algae	

One additional course from: 3

BIOL 2200	The Invertebrates	
BIOL 2210	The Chordates	
BIOL 2240	The Non-Flowering Plants	
BIOL 2242	The Flowering Plants	
BIOL 2260	Biology of Fungi and Lichens	
BIOL 2262	Biology of Algae	
BIOL 2420	Human Physiology 2	
BIOL 2600	Introduction to Computational Biology	

CHEM 2100	Organic Chemistry 1: Foundations of Organic Chemistry ⁵	
Hours		27
Year 3		
Co-op Requirements (if selected):		
SCI 3980	Co-operative Education Work Term 1	0
SCI 3990	Co-operative Education Work Term 2	0
Hours		0
Years 3-4		
BIOL 3300	Evolutionary Biology	3
BIOL 3542	Developmental Biology ⁶	3
One of:		3
BIOL 3400	Plant Physiology	
BIOL 3470	Environmental Physiology of Animals 1	
BIOL 3472	Environmental Physiology of Animals 2	
30 credit hours of 3000 or 4000 level Biology courses ⁷		30
21 credit hours of electives		21
Hours		60
Year 4		
Co-op Requirements (if selected):		
SCI 4980	Co-operative Education Work Term 3	0
SCI 4990	Co-operative Education Work Term 4 (if a 4th work term is selected)	0
Hours		0
Total Hours		120

¹ The program need not be completed in the manner prescribed in the grid above. The grid indicates one possible arrangement of the 120 credit hours that makes up the degree and are meant to be a guide around which students can plan their program with a view to satisfying the prerequisites of the required courses. These 120 credit hours are a combination of the courses outlined in the grid above and elective courses chosen by the student in consultation with the program advisors.

² The former courses CHEM 1300 and CHEM 1310 may be used in place of CHEM 1100, CHEM 1110, and CHEM 1120. CHEM 1122 and CHEM 1126 may be used in lieu of CHEM 1120.

³ STAT 1150 is recommended over STAT 1000.

- ⁴
- MATH 1230, MATH 1510, MATH 1520, or MATH 1690 may be taken in place of MATH 1500;
 - MATH 1220 or MATH 1310 may be taken in place of MATH 1300;
 - MATH 1200 may be used in place of MATH 1240.

⁵ Students are strongly recommended to complete their biochemistry requirements in their second year. The former courses CHEM 2360 (MBIO 2360) and CHEM 2370 (MBIO 2370) may be used in place of CHEM 2700 (MBIO 2700), CHEM 2710 (MBIO 2710), and CHEM 2720. The former courses CHEM 2770 (MBIO 2770) and CHEM 2780 (MBIO 2780) may be used in place of CHEM 2730 (MBIO 2730), CHEM 2740, and CHEM 2750 (MBIO 2750). If the choice of Biochemistry courses includes the requirement of CHEM 2100, CHEM 2100 can be used as the additional course listed above. The former CHEM 2210 may be used in place of CHEM 2100.

⁶ The former BIOL 2540 may be used in place of BIOL 3542.

⁷ Courses from other departments or faculties may be acceptable for use towards the 30 credit hours of 3000/4000 level Biological Sciences courses required in the Major Degree program. Please consult with the theme advisor for permission to use alternate courses.

(Letters in brackets indicate minimum prerequisite standing for further study.)

BIOL 3470	Environmental Physiology of Animals 1	
BIOL 3472	Environmental Physiology of Animals 2	
24 credit hours of 3000 or 4000 level Biology courses ⁵		24
24 credit hours of electives		24
Hours		60

Year 4

Co-op Requirements (if selected):		
SCI 4980	Co-operative Education Work Term 3	0
SCI 4990	Co-operative Education Work Term 4 (if a 4th work term is selected)	0
Hours		0
Total Hours		120

¹ The program need not be completed in the manner prescribed in the grid above. The grid indicates one possible arrangement of the 120 credit hours that make up the degree and is meant to be a guide around which students can plan their program with a view to satisfying the prerequisites of the required courses. These 120 credit hours are a combination of the courses outlined in the grid above and elective courses chosen by the student in consultation with the program advisors.

² The former courses CHEM 1300 and CHEM 1310 may be used in place of CHEM 1100 and CHEM 1122. CHEM 1122 and CHEM 1126 may be used in lieu of CHEM 1120.

³ STAT 1150 is recommended over STAT 1000; and STAT 2150 is strongly recommended over STAT 2000.

- ⁴
- MATH 1230, MATH 1510, MATH 1520, or MATH 1690 may be taken in place of MATH 1500;
 - MATH 1220 or MATH 1310 may be taken in place of MATH 1300;
 - MATH 1200 may be used in place of MATH 1240.

Note that STAT 2150 has a prerequisite of one of MATH 1230, MATH 1500, MATH 1510, or MATH 1690.

⁵ Courses from other departments or faculties may be acceptable for use towards the 24 credit hours of 3000/4000 level Biological Sciences courses required in the Major Degree program. Please consult with the theme advisor for permission to use alternate courses.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Four Year Major: Integrative Biology Theme (Including Co-operative Option)

Important Note¹

Course	Title	Hours
Year 1		
BIOL 1020	Biology 1: Principles and Themes	3
BIOL 1030	Biology 2: Biological Diversity, Function and Interactions (C+)	3
CHEM 1100	Introductory Chemistry 1: Atomic and Molecular Structure and Energetics	3

SCI 4990	Co-operative Education Work Term 4 (if a 4th work term is selected)	0
Hours		0
Total Hours		120

- The program need not be completed in the manner prescribed in the grid above. The grid indicates one possible arrangement of the 120 credit hours that make up the degree and are meant to be a guide around which students can plan their program with a view to satisfying the prerequisites of the required courses. These 120 credit hours are a combination of the courses outlined in the grid above and elective courses chosen by the student in consultation with the program advisors.
- The former courses CHEM 1300 and CHEM 1310 may be used in place of CHEM 1100, CHEM 1110, and CHEM 1120. CHEM 1122 and CHEM 1126 may be used in lieu of CHEM 1120.
- STAT 1150 is recommended over STAT 1000.
- MATH 1230, MATH 1510, MATH 1520, or MATH 1690 may be taken in place of MATH 1500;
 - MATH 1220 or MATH 1310 may be taken in place of MATH 1300;
 - MATH 1200 may be used in place of MATH 1240.
- The former courses CHEM 2360 (MBIO 2360) and CHEM 2370 (MBIO 2370) may be used in place of CHEM 2700 (MBIO 2700), CHEM 2710 (MBIO 2710), and CHEM 2720. The former courses CHEM 2770 (MBIO 2770) and CHEM 2780 (MBIO 2780) may be used in place of CHEM 2730 (MBIO 2730), CHEM 2740, and CHEM 2750 (MBIO 2750). Number of credit hours of electives depends on the choice of Biochemistry courses and the inclusion of CHEM 2100 (or the former CHEM 2210).
- Courses from other departments or faculties may be acceptable for use towards the 24 credit hours of 3000/4000 level Biological Sciences courses required in the Major Degree program. Please consult with the theme advisor for permission to use alternate courses.
- Many MBIO courses have specific biochemistry requirements. Students are advised to plan ahead to take all required courses. If a student takes more than 6 credit hours of biochemistry, they will count as electives.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences

- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment;

except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw

from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Biological Sciences Minor

Minor Requirements

Course	Title	Hours
Year 1		
BIOL 1020	Biology 1: Principles and Themes	3

Biotechnology

Note: As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.

Offered jointly by the Departments of Chemistry and Microbiology.

Programs

Degree/Diploma	Years to Completion	Total Credit Hours	Has Co-op Option
Biotechnology, B.Sc. Honours (p. 845)	4	120	Yes
Biotechnology, B.Sc. Major (p. 848)	4	120	Yes

Biotechnology, B.Sc. Honours

Biotechnology Honours Entrance, Continuation, and Graduation Requirements

Note: As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.

To enter the Biotechnology Joint Honours program a student must have completed at least 24 credit hours with a minimum DGPA of 3.00, and also obtained a minimum grade of "B" in CHEM 1110 and a minimum grade of "C+" in CHEM 1120 and BIOL 1020. CHEM 1100, BIOL 1030, MATH 1500, PHYS 1020 (or PHYS 1050), and STAT 1000 are required courses in the program and students are strongly encouraged to complete these courses in first year. Six credit hours of Arts electives, including the written English course should also be taken in Year 1.

Students will select one stream (Analytical or Molecular Biotechnology). All students must complete a common core of required courses plus required stream specific courses. The remaining courses can be selected from the list of recommended electives. This list is meant to give students some idea of appropriate electives; however, students have the option to choose courses not on the list in consultation with the Program Advisors.

To continue in the Biotechnology Joint Honours program, students must maintain a minimum DGPA of 3.00 and complete a minimum of 9 credit hours during each Fall and Winter Term. No more than 15 credit hours of F grades may be accumulated, regardless of whether any course has been repeated and a higher grade achieved. Research Project in Biotechnology (BTEC 4000) must be taken in the final year of the program.

To graduate from the Biotechnology Joint Honours program students must achieve a minimum DGPA of 3.00 and obtain minimum grade of "C" on the courses that contribute to the 120 credit hours that make up the degree.

Students who do not meet these minimum requirements will be required to withdraw from the program and may be eligible to enter the 4-Year Major degree program in Biotechnology. Depending on course selection students may also be eligible to enter other Major Programs (e.g. Biochemistry, Biological Sciences, Chemistry, or Microbiology) and/or the 3-year B.Sc. General Degree program.

Honours Co-operative Option

A co-operative education option is available for Honours students. Students should refer to the Co-operative Education (p. 846) for further information on the Co-op programs.

The course, grade requirements and minimum DGPA requirement for entry and continuation in the Co-operative Option are the same as that for regular Honours program.

Students are required to complete the first and second year requirements of the program and MBIO 3410 before beginning their first co-op work term.

Degree Requirements

Joint Honours (Including Co-operative Option if Selected)

Note: As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.

³ Optional courses and program stream courses requirements can be found in course lists below.

⁴ Refer to list of recommended elective courses below prior to registration in your electives.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Common Core Courses:

BIOL 2520, CHEM 2100, CHEM 2110, CHEM 2122, CHEM 2700/MBIO 2700, CHEM 2710/MBIO 2710, CHEM 2720, CHEM 2510, CHEM 2520, CHEM 3500, CHEM 3760, CHEM 4630, MBIO 1010, MBIO 2020, MBIO 3000, MBIO 3032, MBIO 3410, MBIO 3700, MBIO 4520

Optional Courses:

Appropriate prerequisites must be taken for all Optional courses.

CHEM 3520, CHEM 3700, CHEM 4360, CHEM 4670, MBIO 3430, MBIO 4020, MBIO 4410, MBIO 4440, BIOL 3300, BIOL 4554/BIOL 4556, BIOL 4540, BIOL 4560, PLNT 2530, PLNT 4610, COMP 3820

Program Stream Courses:

Analytical Biotechnology:

MATH 1700¹, CHEM 4370, CHEM 4590, CHEM 4670, CHEM 4700

¹ MATH 1232 or MATH 1710 may be used in place of MATH 1700.

Molecular Biotechnology:

BIOL 4544 or BIOL 4556, MBIO 3600, MBIO 4602, MBIO 4612, MBIO 4672

Note: In some instances prerequisites will be waived upon approval by the appropriate department.

Recommended General Electives if not required in Program stream:

Appropriate prerequisites must also be taken for all Electives.

BIOE 3200, BIOE 3530, BIOE 4510; BIOL 1300 (BOTN 1010), BIOL 2242 (BOTN 2010), BIOL 2380 (BOTN 2180/ZOOL 2180), BIOL 2260 (BOTN 2210), BIOL 2300 (BOTN 2370/ZOOL 2370), BIOL 3550 (BOTN 3190), BIOL 3290 (BOTN 3280), BIOL 3500 (BOTN 3460), BIOL 4500 (BOTN 4180), BIOL 3542 (BIOL 2540), BIOL 4540 (ZOOL 4150), BIOL 4544 (BIOL 3540); CHEM 4360, CHEM 4370, CHEM 4590, CHEM 4620, CHEM 4670, CHEM 4700; COMP 1010, COMP 1020, COMP 1260, COMP 1270; ENG 1420; ENTR 2020; MATH 1700¹; MBIO 3282, MBIO 3010, MBIO 3430, MBIO 4440 (MBIO 3440), MBIO 3450, MBIO 3460, MBIO 3472, MBIO 4480 (MBIO 3480), MBIO 4010, MBIO 4410, MBIO 4470, MBIO 4602, MBIO 4612, MBIO 4672; PHAC 4030, PHAC 4040; PHIL 2740, PHIL 2830; PLNT 3140, PLNT 3500, PLNT 3520, PLNT 3570, PLNT 4310, PLNT 4330, PLNT 4550, PLNT 4560, PLNT 4570, PLNT 4580, PLNT 4590, PLNT 4600; STAT 2000

¹ MATH 1232 or MATH 1710 may be used in place of MATH 1700.

Other suitable courses may be selected through consultation with the department heads

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry

- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty

of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.

- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Biotechnology, B.Sc. Major

Biotechnology Major Entrance, Continuation and Graduation Requirements

Note: As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.

To enter the Biotechnology Joint Major program a student must have completed at least 24 credit hours with a minimum DGPA of 2.00 and also obtained a minimum grade of "C+" in CHEM 1110 and a minimum grade of "C" in CHEM 1120 and BIOL 1020. BIOL 1030, CHEM 1100, MATH 1500, PHYS 1020 or PHYS 1050, and STAT 1000 are required courses in the program and students are strongly urged to complete these courses in first year. Six credit hours of Arts electives, including the written English course should also be taken in Year 1.

Students will select one stream (Analytical or Molecular Biotechnology). All students must complete a common core of required courses plus required stream specific courses. The remaining courses can be selected from the list of recommended electives. This list is meant to give students some idea of appropriate electives; however, students have the option to choose courses not on the list in consultation with the Program Advisors.

To continue in the Major program a student must maintain a minimum DGPA of 2.00. No more than 18 credit hours of F grades can be accumulated regardless of whether any course has been repeated and a higher grade achieved.

To graduate from the Biotechnology Joint Major degree, students must maintain a minimum DGPA of 2.00. Students must also obtain a minimum grade of "C" on all common core and stream specific courses outlined below. There is no term registration load requirement in the Major degree.

Students who do not meet these minimum requirements will be required to withdraw from the program and will normally be eligible to enter the 3-Year B.Sc. General degree program.

Major Co-operative Option

A co-operative education option is available for Major students. Students should refer to the Co-operative Education (p. 850) for further information on the Co-op programs.

The course and minimum grade requirements for entry and continuation in the Co-operative Option are the same as those required for the regular Major program. However, the entry and continuation DGPA requirement is set at a minimum of 2.5.

Students are required to complete the first and second year requirements of the program and MBIO 3410 before beginning their first co-op work term.

Degree Requirements

Joint Four Year Major (Including Co-operative Option if Selected)

Note: As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.

Offered Jointly by the Departments of Chemistry and Microbiology

Course	Title	Hours
Year 1		
BIOL 1020	Biology 1: Principles and Themes (C)	3
BIOL 1030	Biology 2: Biological Diversity, Function and Interactions	3

CHEM 1100	Introductory Chemistry 1: Atomic and Molecular Structure and Energetics	3
CHEM 1110	Introductory Chemistry 2: Interaction, Reactivity, and Chemical Properties (C+)	3
CHEM 1120	Introduction to Chemical Techniques (C)	3
PHYS 1020 or PHYS 1050	General Physics 1 or Physics 1: Mechanics	3
MATH 1500	Introduction to Calculus ¹	3
STAT 1000	Basic Statistical Analysis 1	3
Hours		24

Years 1-2

6 credit hours from the Faculty of Arts including the required "W" course	6
---	---

Hours	6
--------------	----------

Year 2

CHEM 2100	Organic Chemistry 1: Foundations of Organic Chemistry	3
CHEM 2110	Organic Chemistry 2: Foundations of Organic Synthesis	3

MBIO 4520	Industrial Bioprocesses	3

Work Terms (if Co-op Selected):

SCI 4980	Co-operative Education Work Term 3	0
SCI 4990	Co-operative Education Work Term 4 (if a 4th work term is selected)	0
Hours		6
Total Hours		120

¹ MATH 1230, MATH 1510 or MATH 1520 may be used in place of MATH 1500.

² Optional courses and program stream courses requirements can be found in course lists below.

³ Refer to list of recommended elective courses below prior to registration in your electives.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Common Core Courses:

BIOL 2520, CHEM 2100, CHEM 2110, CHEM 2122, CHEM 2700/MBIO 2700, CHEM 2710/MBIO 2710, CHEM 2720, CHEM 2510, CHEM 2520, CHEM 3500, CHEM 3760, CHEM 4630, MBIO 1010, MBIO 2020, MBIO 3000, MBIO 3032, MBIO 3410, MBIO 3700, MBIO 4520

Optional Courses:

Appropriate prerequisites must be taken for all Optional courses.

CHEM 3520, CHEM 3700, CHEM 4360, CHEM 4670, MBIO 3430, MBIO 4020, MBIO 4410, MBIO 4440, BIOL 3300, BIOL 4554/BIOL 4556, BIOL 4540, BIOL 4560, PLNT 2530, PLNT 4610, COMP 3820

Program Stream Courses:**Analytical Biotechnology:**

MATH 1700¹, CHEM 4370, CHEM 4590, CHEM 4670, CHEM 4700

¹ MATH 1232 or MATH 1710 may be used in place of MATH 1700.

Molecular Biotechnology:

BIOL 4544 or BIOL 4556, MBIO 3600, MBIO 4602, MBIO 4612, MBIO 4672

Note: In some instances prerequisites will be waived upon approval by the appropriate department.

Recommended General Electives if not required in Program stream:

Appropriate prerequisites must also be taken for all Electives.

BIOE 3200, BIOE 3530, BIOE 4510; BIOL 1300 (BOTN 1010), BIOL 2242 (BOTN 2010), BIOL 2380 (BOTN 2180/ZOOL 2180), BIOL 2260 (BOTN 2210), BIOL 2300 (BOTN 2370/ZOOL 2370), BIOL 3550 (BOTN 3190), BIOL 3290 (BOTN 3280), BIOL 3500 (BOTN 3460), BIOL 4500 (BOTN 4180), BIOL 3542 (BIOL 2540), BIOL 4540 (ZOOL 4150), BIOL 4544 (BIOL 3540); CHEM 4360, CHEM 4370, CHEM 4590, CHEM 4620, CHEM 4670, CHEM 4700; COMP 1010, COMP 1020, COMP 1260, COMP 1270; ENG 1420; ENTR 2020; MATH 1700¹; MBIO 3282, MBIO 3010, MBIO 3430, MBIO 4440 (MBIO 3440), MBIO 3450, MBIO 3460, MBIO 3472, MBIO 4480 (MBIO 3480), MBIO 4010, MBIO 4410, MBIO 4470, MBIO 4602, MBIO 4612, MBIO 4672; PHAC 4030, PHAC 4040; PHIL 2740, PHIL 2830; PLNT 3140, PLNT 3500, PLNT 3520, PLNT 3570, PLNT 4310, PLNT 4330, PLNT 4550, PLNT 4560, PLNT 4570, PLNT 4580, PLNT 4590, PLNT 4600; STAT 2000

¹ MATH 1232 or MATH 1710 may be used in place of MATH 1700.

Other suitable courses may be selected through consultation with the department heads

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass"

for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by

the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Chemistry

Chemistry is the science concerned with the properties of atoms and molecules, of which all matter is composed. Chemistry is important for all aspects of the material world - food production; the manufacture of medicines, textiles, and plastics; energy production; identifying environmental problems and remedies; and understanding the workings of living organisms. The department offers study in analytical, inorganic, organic and physical chemistry, and in biochemistry.

Biochemistry and Biotechnology ¹

The Department of Chemistry, in conjunction with the Department of Microbiology, offers Joint Honours programs, Joint Honours Co-operative Options, Joint four year Major programs and a Joint four year Major Co-operative Options in Biochemistry and Biotechnology.¹ See Biochemistry Program (p. 818) and Biotechnology Program (p. 844)¹ for full details.

¹ As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.

Programs

Degree/Diploma	Years to Completion	Total Credit Hours	Has Co-op Option
Chemistry, B.Sc. Honours (p. 852)	4	120	Yes
Chemistry, B.Sc. Major (p. 855)	4	120	Yes
Chemistry - Physics Joint, B.Sc. Honours (p. 858)	4	120	
Chemistry Minor (p. 857)		18	

Biochemistry (p. 818)

Biotechnology (p. 844)

Chemistry, B.Sc. Honours Chemistry Honours Entrance, Continuation, and Graduation Requirements

To enter the Honours program in Chemistry, a student must have completed at least 24 credit hours with a minimum DGPA of 3.00, and also obtained a minimum grade of "B" in CHEM 1110. CHEM 1100, CHEM 1120, MATH 1500, MATH 1700, PHYS 1020 (or PHYS 1050), and PHYS 1030 (or PHYS 1070) are required courses in this program and students are strongly encouraged to complete these courses in first year.

To continue in the Chemistry Honours program, students must maintain a minimum DGPA of 3.00 and complete a minimum of 9 credit hours during each Fall and Winter Term.

To graduate from the Chemistry Honours program students must achieve a minimum DGPA of 3.00 and obtain a minimum grade of "C" on the courses that make up the 120 credit hours of the degree.

Honours Co-operative Option

A co-operative education option is available for Honours students. Students should refer to the Co-operative Education (p. 853) for further information on the Co-op programs.

The course, grade requirements and minimum DGPA requirement for entry and continuation in the Co-operative Option are the same as that for regular Honours program.

Students are required to complete 24 credit hours of Chemistry (including CHEM 2510, CHEM 2520, and CHEM 2600) before beginning their first co-op work term.

Degree Requirements

Honours (Including Co-operative Option if Selected)¹

Course	Title	Hours
Year 1		
CHEM 1100	Introductory Chemistry 1: Atomic and Molecular Structure and Energetics	3
CHEM 1110	Introductory Chemistry 2: Interaction, Reactivity, and Chemical Properties (B)	3

CHEM 1120	Introduction to Chemical Techniques ²	3
PHYS 1020 or PHYS 1050	General Physics 1 or Physics 1: Mechanics	3
PHYS 1030 or PHYS 1070	General Physics 2 or Physics 2: Waves and Modern Physics	3
MATH 1500	Introduction to Calculus ³	3
MATH 1700	Calculus 2 ³	3
6 credit hours from the Faculty of Arts, which should include the required "W" course		6

Work Terms (if Co-op selected):		
SCI 3980	Co-operative Education Work Term 1	0
SCI 3990	Co-operative Education Work Term 2	0
	Hours	31
Year 4		
CHEM 4610	Advanced Chemical Techniques	6
CHEM 4710	Research Project in Chemistry or Biochemistry	6
	12 credit hours of Chemistry courses of which at least 9 credit hours are at the 4000 level	12
	6 credit hours of electives	6
Work Terms (if Co-op selected):		
SCI 4980	Co-operative Education Work Term 3	0
SCI 4990	Co-operative Education Work Term 4 (if a 4th work term is selected)	0
	Hours	30
	Total Hours	120

¹ IMPORTANT: The four-year Honours program need not be completed in the manner prescribed in the grid above. The grid indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their program.

² CHEM 1122 and CHEM 1126 may be used in lieu of CHEM 1120. Note: CHEM 1122 is only available to Price Faculty of Engineering students.

³

- MATH 1230, MATH 1510 or MATH 1520 may be taken in place of MATH 1500;
- MATH 1232 or MATH 1710 may be taken in place of MATH 1700;
- MATH 1690 may be taken in place of MATH 1500 and MATH 1700.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics

- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfill all academic requirements of that degree.

Chemistry, B.Sc. Major

Chemistry Major Entrance, Continuation, and Graduation Requirements

To enter the Chemistry Major program a student must have completed at least 24 credit hours with a minimum DGPA of 2.00 and also obtained a minimum grade of "C+" in CHEM 1110. CHEM 1100, CHEM 1120, MATH 1500, MATH 1700, PHYS 1020 (or PHYS 1050), and PHYS 1030 (or PHYS 1070) are required courses in this program and students are strongly encouraged to complete these courses in first year.

To continue in the Major program, a student must have a DGPA of 2.00 at each point of assessment.

To graduate with the Bachelor of Science (Major) in Chemistry, a student must obtain a minimum DGPA of 2.00, and a minimum grade of "C" or better in all required Chemistry courses.

Students who, at the end of Year 1, are undecided between the four year Major and Honours programs should note that the prescription for Honours Year 2 satisfies both the Honours and Major program requirements.

Major Co-operative Option

A co-operative education option is available for Major students. Students should refer to the Co-operative Education (p. 856) for further information on the Co-op programs.

The course and minimum grade requirements for entry and continuation in the Co-operative Option are the same as those required for the regular Major program. However, the entry and continuation DGPA requirement is set at a minimum of 2.5.

Students are required to complete 24 credit hours of Chemistry (including CHEM 2510, CHEM 2520, and CHEM 2600) before beginning their first co-op work term.

Degree Requirements

Four Year Major (Including Co-operative Option if Selected) ¹

Course	Title	Hours
Year 1		
CHEM 1100	Introductory Chemistry 1: Atomic and Molecular Structure and Energetics	3
CHEM 1110	Introductory Chemistry 2: Interaction, Reactivity, and Chemical Properties (C+)	3
CHEM 1120	Introduction to Chemical Techniques ²	3
PHYS 1020 or PHYS 1050	General Physics 1 or Physics 1: Mechanics	3
PHYS 1030 or PHYS 1070	General Physics 2 or Physics 2: Waves and Modern Physics	3
MATH 1500	Introduction to Calculus ³	3
MATH 1700	Calculus 2 ³	3

6 credit hours from the Faculty of Arts, which should include the required "W" course	6
3 credit hours of electives	3

Hours 30

Year 2

CHEM 2100	Organic Chemistry 1: Foundations of Organic Chemistry	3
CHEM 2110	Organic Chemistry 2: Foundations of Organic Synthesis	3
CHEM 2122	Experimental Organic Chemistry	3
CHEM 2300	Inorganic Chemistry 1: Structure and Applications	3
CHEM 2510	Introduction to Analytical Chemistry	3
CHEM 2520	Introduction to Analytical Chemistry Techniques	2

CHEM 3820	Integrated Chemistry Laboratory 1	2
CHEM 3840	Integrated Chemistry Laboratory 2	3
6 credit hours of electives	6	

Work Terms (if Co-op selected):

SCI 3980	Co-operative Education Work Term 1	0
SCI 3990	Co-operative Education Work Term 2	0

Hours 31

Year 4

CHEM 4610	Advanced Chemical Techniques	6
6 credit hours of Chemistry courses at the 4000 level	6	
18 credit hours of electives	18	

Work Terms (if Co-op selected):

SCI 4980	Co-operative Education Work Term 3	0
SCI 4990	Co-operative Education Work Term 4 (if a 4th work term is selected)	0

Hours 30

Total Hours 120

¹ IMPORTANT: The four-year Major program need not be completed in the manner prescribed in the grid above. The grid indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their program.

² CHEM 1122 and CHEM 1126 may be used in lieu of CHEM 1120.
Note: CHEM 1122 is only available to Price Faculty of Engineering students.

³

- MATH 1230, MATH 1510 or MATH 1520 may be taken in place of MATH 1500;
- MATH 1232 or MATH 1710 may be taken in place of MATH 1700;
- MATH 1690 may be taken in place of MATH 1500 and MATH 1700.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics

- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of

a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.

- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Chemistry Minor Minor Requirements

Course	Title	Hours
Year 1		
CHEM 1100	Introductory Chemistry 1: Atomic and Molecular Structure and Energetics	3
CHEM 1110	Introductory Chemistry 2: Interaction, Reactivity, and Chemical Properties (C)	3

Hours		9
Total Hours		18

¹ CHEM 1122 and CHEM 1126 may be used in lieu of CHEM 1120.
Note: CHEM 1122 is only available to Price Faculty of Engineering students.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Chemistry - Physics Joint, B.Sc. Honours

Chemistry - Physics Joint Honours Entrance, Continuation, and Graduation Requirements

The departments of Chemistry and Physics and Astronomy offer a joint Honours program for in-depth study in both Chemistry and Physics & Astronomy.

To enter the Joint Honours Chemistry - Physics program a student must have a minimum grade of "B" in each of CHEM 1100, CHEM 1110, PHYS 1050 (or PHYS 1020 with a B+), PHYS 1070 (or PHYS 1030 with a B+), MATH 1500 (or any equivalent) and MATH 1700 (or any equivalent) and a minimum DGPA of 3.00. CHEM 1120 and MATH 1300 are not entry requirements, but it is recommended they be completed prior to entry.

To continue in the Joint Honours Chemistry - Physics program, a student must maintain a minimum DGPA of 3.00 and complete a minimum of 9 credit hours during each Fall and Winter Term.

To graduate with the Joint Honours Chemistry - Physics degree, a student must obtain a minimum DGPA of 3.00 and present a minimum grade of "C" in each course that contributes to the degree (except for those courses outlined in the above entry requirements).

Computer Science, B.C.Sc., Honours

Computer Science Honours Entrance, Continuation, and Graduation Requirements

The Honours program in Computer Science at the University of Manitoba was the first Honours program in Canada to be given professional accreditation by the Canadian Information Processing Society. The program provides an opportunity to study the subject in greater depth than the other programs in Computer Science and leads to an Honours Bachelor of Computer Science degree (B.C.Sc.). In addition, this program gives professional preparation for careers in areas such as software engineering, system design or project management.

To enter the Honours program in Computer Science, a student must have completed at least 24 credit hours with a minimum DGPA of 3.00, and also obtained a minimum grade of "B" in COMP 1020, "C+" in both MATH 1220 (or MATH 1300) and MATH 1230 (or MATH 1500) (or their equivalents) and "C" in MATH 1700 (or equivalents).

To continue in the Computer Science Honours program, students must maintain a minimum DGPA of 3.00 and complete a minimum of 9 credit hours during each Fall and Winter Term.

To graduate from the Computer Science Honours program students must achieve a minimum DGPA of 3.00 and obtain a minimum grade of "C" on the courses that make up the 120 credit hours of the degree.

Computer Science

Computer technology continues to advance and computer applications are found in all fields and disciplines. As new applications proliferate, opportunities for careers in computing will continue to be strong. Both the Major and the Honours programs offer a co-op option so students may combine education with paid employment experience. The co-operative (co-op) option in Computer Science is well established with the first class graduating in October 1983.

Programs

Outside of computer science and mathematics courses, students are encouraged to select courses such that their programs include at least 15 credit hours of study in science, engineering, or business, and at least 9 credit hours of study in the humanities or social sciences.

Honours Co-operative Option

A co-operative education option is available for Honours students. Students should refer to the Co-operative Education (p. 860) for further information on the Co-op programs.

The course, grade requirements and minimum DGPA requirement for entry and continuation in the Co-operative Option are the same as that for regular Honours program.

Students are required to complete all the first and second year courses in the program grid before their first co-op work term.

¹ Entry to the Honours Co-operative Option is at the end of second year. Employment terms follow 3A (September-December), 3B (May-August) and 4A (January-April). Students in the Co-operative Option must complete three employment terms and receive a passing grade in SCI 3980, SCI 3990, SCI 4980, and SCI 4990 (if selected) prior to the last academic term.

² Additional information on how students may select their courses can be found in the program Overview (p. 859).

³ IMPORTANT: The Honours degree need not be completed in the order prescribed in the grid above. The grid indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their program. Students in the Co-operative Option should be aware that while other arrangements are possible, they may jeopardize their chances of obtaining employment by selecting such arrangements. Students should discuss their planned sequence of courses with the department prior to making adjustments to the sequence above.

⁴

- COMP 1012 may be taken in place of COMP 1010.
- MATH 1210, MATH 1220 or MATH 1310 may be taken in place of MATH 1300;
- MATH 1230, MATH 1510, MATH 1520, or MATH 1690 may be taken in place of MATH 1500;
- MATH 1232, MATH 1710 or MATH 1690 may be taken in place of MATH 1700.
- Honours students are encouraged to take MATH 1220 instead of MATH 1300 and to take MATH 1230 instead of MATH 1500 to better prepare them for later, higher-level studies.
- Students who have previously completed COMP 2130 may use it in lieu of MATH 1240.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)

- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op

Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Computer Science, B.Sc. Major Computer Science Major Entrance, Continuation, and Graduation Requirements

To enter the Major Degree program in Computer Science, a student must have completed at least 24 credit hours with a minimum DGPA of 2.00, and also obtained a minimum grade of "C+" in COMP 1020, "C

+" in both MATH 1300 and MATH 1500 (or their equivalents) and "C" in MATH 1700 (or equivalents).

To continue in the Major program a student must maintain a minimum DGPA of 2.00.

To graduate with the Computer Science Major degree, a student must present a minimum grade of "C+" in: MATH 1300 (or equivalent), MATH 1500 (or equivalent), and a minimum grade of "C" in MATH 1240, MATH 1700 (or equivalent), (STAT 1000 or STAT 1150), COMP 2080, COMP 2140, COMP 2150, COMP 2160, COMP 2280, COMP 3350, COMP 3370, COMP 3430, COMP 4620 and in each of the 18 credit hours of 3000 and 4000 level Computer Science courses that apply to the Computer Science component of their degree program. Additionally, students must achieve a minimum DGPA of 2.00.

This program is suitable for those students interested in combining a fairly extensive program in Computer Science with broad coverage of another subject or subjects of their choice (Science or non-Science). The program offers greater scheduling flexibility, more relaxed entrance requirements, and a wider range for the inclusion of electives from other disciplines than the Honours program, but it is not considered to offer the same professional training as the Honours program. Admission to graduate programs may be conditional upon completion of additional courses. Students intending to proceed to a master's degree from the four year Major program should consult with the department at the beginning of their second year of undergraduate study and in each subsequent year.

The student will be able to transfer to the Honours program, provided that departmental and faculty requirements for the Honours program are satisfied.

Outside of computer science and mathematics courses, students are encouraged to select courses such that their programs include at least 15 credit hours of study in science, engineering, or business, and at least nine (9) credit hours of study in the humanities or social sciences. In addition to the faculty maximum, students may be allowed to take up to an additional 12 credit hours of courses outside of the Faculty of Science, with departmental permission. The permission would typically be granted if a student is completing a minor outside of Science and may have completed a variety of electives outside the Faculty prior to declaring a minor in one department.

Major Co-operative Option

A co-operative education option is available for Major students. Students should refer to the Co-operative Education (p. 863) for further information on the Co-op programs.

The course and minimum grade requirements for entry and continuation in the Co-operative Option are the same as those required for the regular Major program. However, the entry and continuation DGPA requirement is set at a minimum of 2.5.

Students are required to complete all the first and second year courses in the program grid before their first co-op work term.

Degree Requirements

Four Year Major (Including Co-operative Option if Selected)^{1,2,3}

Course	Title	Hours
Year 1		
COMP 1010	Introductory Computer Science 1 ⁴	3
COMP 1020	Introductory Computer Science 2 (C+)	3

Total Hours		120

¹ Entry to the four-year Major Co-operative Option is at the end of second year. Employment terms follow 3A (September-December), 3B (May-August) and 4A (January-April). Students in the Co-operative Option must complete three employment terms and receive a passing grade in SCI 3980, SCI 3990, SCI 4980, and SCI 4990 (if selected) prior to the last academic term.

² Additional information on how students may select their courses can be found in the program Overview (p. 862).

³ IMPORTANT: The four-year Major degree need not be completed in the order prescribed in the grid above. The grid indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their program. Students in the Co-operative Option should be aware that while other arrangements are possible, they may jeopardize their chances of obtaining employment by selecting such arrangements. Students should discuss their planned sequence of courses with the department prior to making adjustments to the sequence above.

⁴

- COMP 1012 may be taken in place of COMP 1010.
- MATH 1210, MATH 1220 or MATH 1310 may be taken in place of MATH 1300;
- MATH 1230, MATH 1510, MATH 1520, or MATH 1690 may be taken in place of MATH 1500;
- MATH 1232, MATH 1710 or MATH 1690 may be taken in place of MATH 1700.
- Honours students are encouraged to take MATH 1220 instead of MATH 1300 and to take MATH 1230 instead of MATH 1500 to better prepare them for later, higher-level studies.
- Students who have previously completed COMP 2130 may use it in lieu of MATH 1240.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)

- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op

Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Computer Science - Mathematics Joint, B.Sc. Honours

Computer Science - Mathematics Joint Honours Entrance, Continuation, and Graduation Requirements

The departments of Computer Science and Mathematics offer a joint Honours program for in-depth study in both Computer Science and Mathematics.

To **enter** the Joint Honours Computer Science - Mathematics program, the student must have a minimum grade of "B" in each of COMP 1020, either MATH 1232 or MATH 1690 (or a minimum grade of "A" in MATH 1700), and have satisfied the Faculty of Science requirements for entry to the honours program. It is recommended that STAT 2150 be completed in Year 1 as an elective.

To **continue in, and graduate from** the program, the student must meet the Faculty of Science requirements for continuation and graduation from the Honours or Honours Co-op program.

Honours Co-operative Option

A co-operative education option is available for Honours students. Students should refer to the Co-operative Education (p. 866) for further information on the Co-op programs.

The course, grade requirements and minimum DGPA requirement for entry and continuation in the Co-operative Option are the same as that for regular Honours program.

Students are required to complete all the first and second year courses in the program grid before their first co-op work term.

¹ Students are strongly advised to take MATH 1220, MATH 1230 and MATH 1232.

The following substitutions are allowed (but not advised), provided the grades indicated in brackets are achieved:

- MATH 1210 (A) or MATH 1300 (A) in place of MATH 1220,
- MATH 1500 (A) or MATH 1510 (A) in place of MATH 1230,
- MATH 1700 (A) or MATH 1710 (A) in place of MATH 1232,
- MATH 1690 (B) in place of MATH 1230 and MATH 1232.

With permission from the department, students may be able to substitute STAT 1000 and STAT 2000 in place of STAT 1150.

² When chosen, the Co-operative Option work terms (SCI 3980, SCI 3990, SCI 4980, and SCI 4990 [if selected]) will normally be completed during the Summer Terms following years 2, 3, and 4 respectively.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology

- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.

- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Computer Science - Physics & Astronomy Joint, B.Sc. Honours

Computer Science - Physics & Astronomy Joint Honours Entrance, Continuation and Graduation Requirements

The departments of Computer Science and Physics & Astronomy offer a joint Honours program for in-depth study in both Computer Science and Physics & Astronomy.

To enter the Joint Honours Computer Science - Physics and Astronomy program, the student must have a minimum grade of "B" in each of

PHYS 1050 (or "B+" in PHYS 1020), PHYS 1070 (or B+ in PHYS 1030), MATH 1300, MATH 1500, MATH 1700 (or any equivalent), COMP 1010 (or COMP 1012) and COMP 1020 and a minimum DGPA of 3.00. Students must complete a minimum of 9 credit hours per term in each Fall and Winter term.

To continue in the Honours program, students must maintain a minimum DGPA of 3.00, complete a minimum of 9 credit hours during each Fall and Winter term (or equivalent for students in the Co-operative option).

To graduate with the Honours degree, a student must obtain a minimum DGPA of 3.00 and present a minimum grade of "C" in each course that contributes to the degree.

Honours Co-operative Option

A co-operative education option is available for Honours students. Students should refer to the Co-operative Education (p. 869) for further information on the Co-op programs.

The course, grade requirements and minimum DGPA requirement for entry and continuation in the Co-operative Option are the same as that for regular Honours program.

Students are required to complete all the first and second year courses in the program grid before their first co-op work term.

¹ PHYS 1050 and PHYS 1070 are recommended.

²

- MATH 1220 or MATH 1310 may be taken in place of MATH 1300;
- MATH 1230, MATH 1510 or MATH 1520 may be taken in place of MATH 1500;
- MATH 1232 or MATH 1710 may be taken in place of MATH 1700;
- MATH 1690 may be taken in place of MATH 1500 and MATH 1700.
- Students who have previously completed COMP 2130 may use it in lieu of MATH 1240.

³ As there are no open electives in Year 2 of the program, students should complete the University written English requirement in Year 1. If not completed in Year 1, a "W" course must be completed prior to Year 3 in addition to the required Year 2 courses.

⁴ Students are required to take at least one of PHYS 2260 or PHYS 2610.

⁵ When chosen, the Co-operative Option work terms (SCI 3980, SCI 3990, SCI 4980, and SCI 4990 [if selected]) will normally be completed during the Summer Terms following years 2, 3, and 4 respectively.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics

- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.

- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Computer Science - Statistics Joint, B.Sc. Honours

Computer Science - Statistics Joint Honours Entrance, Continuation, and Graduation Requirements

The departments of Computer Science and Statistics offer a joint Honours program for in-depth study in both Computer Science and Statistics.

To enter the Joint Honours Computer Science - Statistics Program, the student must have a "B" or better in COMP 1020 and in STAT 2150 and a DGPA of 3.00. Note that MATH 1220¹, MATH 1230¹ and MATH 1232¹ and MATH 1240 are not required to enter the program, however, it is

recommended that they be completed in Year 1 as they are prerequisites to Year 2 courses.

¹The following substitutions are allowed:

- MATH 1500 (B) or MATH 1510 (B) may be taken in place of MATH 1230;
- MATH 1300 (B) may be taken in place of MATH 1220;
- MATH 1700 (B) or MATH 1710 (B) may be taken in place of MATH 1232.

To continue in the Joint Honours Computer Science - Statistics Program, students must maintain a DGPA of 3.00.

To graduate with the Honours degree a student must present a minimum grade of "C" in each course that contributes to the degree. In addition, the student must achieve a minimum DGPA of 3.00.

Honours Co-operative Option

A co-operative education option is available for Honours students. Students should refer to the Co-operative Education (p. 872) for further information on the Co-op programs.

The course, grade requirements and minimum DGPA requirement for entry and continuation in the Co-operative Option are the same as that for regular Honours program.

Students are required to complete all the first and second year courses in the program grid before their first co-op work term.

² The work terms SCI 3980, SCI 3990 and SCI 4980 will normally be completed in the summers following Year 2, Year 3 and Year 4, respectively and must be completed by the last academic term.

³ These must include 3 credit hours of COMP courses at the 3000 level. The following courses are suggested: COMP 3020, COMP 3350, COMP 3490, STAT 3490, STAT 3550, STAT 3690.

⁴ These must include 3 credit hours of COMP courses at the 3000 or 4000 level, 6 credit hours of COMP courses at the 4000 level, and 9 credit hours of STAT courses at the 4000 level. The following courses are suggested: COMP 4380, COMP 4710, STAT 4150, STAT 4250, STAT 4630.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point

Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work

term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Data Science

Campus Address/General Office: 365 Machray Hall

Telephone: 204 272 1563

Email Address: M_Jafari_Jozani@umanitoba.ca

Website: [sci.umanitoba.ca/undergraduate-students/programs/data-science](https://www.sci.umanitoba.ca/undergraduate-students/programs/data-science) (<https://www.sci.umanitoba.ca/undergraduate-students/programs/data-science/>)

Data Science

The Faculty of Science offers an interdisciplinary 4-year Major program in Data Science. Data Science is an emerging field of study that combines computer science, mathematics and statistics to collect, analyze, visualize and interpret data.

Programs

Degree/Diploma	Years to Completion	Total Credit Hours	Has Co-op Option
Data Science, B.Sc. Major (p. 874)	4	120	Yes

Data Science, B.Sc. Major

Data Science Major Entrance, Continuation, and Graduation Requirements

To enter the Major Degree program in Data Science, a student must have completed at least 24 credit hours with a minimum DGPA of 2.00, and also obtained a minimum grade of "C+" in each of COMP 1020, MATH 1232 (or MATH 1700 or MATH 1710), and STAT 1150.

To continue in the Data Science Major Degree program, students must maintain a minimum DGPA of 2.00.

To graduate with the Bachelor of Science (Major) in Data Science, a student must obtain passing grades on all courses, obtain a minimum DGPA of 2.00, and a minimum grade of "C" in all required and optional courses that contribute to the Major.

Major Co-operative Option

A co-operative education option is available. Students should refer to the Co-operative Education (p. 875) for further information on the Co-op programs.

The course and minimum grade requirements for entry and continuation in the Co-operative Option are the same as those required for the regular Major program. However, the entry and continuation DGPA requirement is set at a minimum of 2.5.

Before beginning their first co-op work term, students are required to complete the first and second year requirements of the program.

Degree Requirements

Four Year Major (Including Co-operative Option if Selected)

Course	Title	Hours
Year 1		
COMP 1012	Computer Programming for Scientists and Engineers ¹	3
COMP 1020	Introductory Computer Science 2 (C+)	3
MATH 1220	Linear Algebra 1 ¹	3
MATH 1230	Differential Calculus ¹	3
MATH 1232	Integral Calculus (C+) ¹	3
MATH 1240	Elementary Discrete Mathematics	3
STAT 1150	Introduction to Statistics and Computing (C+)	3
6 credit hours from the Faculty of Arts, which should include the required "W" course		6
3 credit hours of electives		3
Hours		30
Year 2		
COMP 2140	Data Structures and Algorithms	3
DATA 2010	Tools and Techniques for Data Science	3
MATH 2720	Multivariable Calculus ¹	3
MATH 2740	Mathematics of Data Science	3
STAT 2150	Statistics and Computing	3
STAT 2400	Introduction to Probability 1	3
12 credit hours of electives		12
Hours		30

Years 3-4

COMP 3380	Databases Concepts and Usage	3
COMP 4360	Machine Learning	3
DATA 3010	Data Science with Real World Data Sets	3
DATA 4010	Data Science Capstone Project ²	6
MATH 3490	Optimization	3
STAT 3100	Introduction to Statistical Inference	3
STAT 3150	Statistical Computing	3
STAT 3450	Linear Models	3
3 credit hours from:		3
COMP 2080	Analysis of Algorithms	
COMP 2150	Object Orientation	
COMP 4510	Introduction to Parallel Computation	
COMP 4710	Introduction to Data Mining	
3 credit hours from:		3
MATH 2070	Graph Theory 1	
MATH 2080	Introduction to Analysis	
MATH 2090	Linear Algebra 2	
MATH 2180	Real Analysis 1	
MATH 4370	Linear Algebra and Matrix Analysis	
3 credit hours from:		3
STAT 2300	Principles of Data Collection	
STAT 2800	Introduction to Probability 2	
STAT 3030	Introduction to Stochastic Processes	
STAT 3550	Nonlinear Regression Models	
STAT 3690	Multivariate Analysis	
STAT 4100	Statistical Inference	
STAT 4150	Bayesian Analysis and Computing	
STAT 4250	Statistical Learning	
3 additional credit hours from the Faculty of Science ³		3
21 credit hours of electives ³		21
The above 33 credit hours must include at least 12 credit hours of Faculty of Science courses taken at the 3000 or 4000 level.		
Co-op Requirements (if selected):		
SCI 3980	Co-operative Education Work Term 1	0
SCI 3990	Co-operative Education Work Term 2	0
SCI 4980	Co-operative Education Work Term 3	0
SCI 4990	Co-operative Education Work Term 4 (if a 4th work term is selected)	0
Hours		60
Total Hours		120

¹ The following substitutions are allowed:

- COMP 1010 in place of COMP 1012;
- MATH 1300 in place of MATH 1220;
- MATH 1500 or MATH 1510 in place of MATH 1230;
- MATH 1700 (C+) or MATH 1710 (C+) in place of MATH 1232;
- MATH 2150 in place of MATH 2720.

² Should be taken in graduating year.

³ Courses may be chosen from COMP, MATH, or STAT courses included in the course lists in the program grid provided the courses have not been used toward another program requirement.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass"

for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by

the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfill all academic requirements of that degree.

General B.Sc.

B.Sc. General Degree

The three-year General program is intended to provide diversified training in Science. The program provides students with broad exposure to the major areas of Science at the introductory level with a requirement for more advanced studies in one or more areas of Science.

This program is not intended for students who desire to practice in some field of specialization in the Sciences. Students with that intent are recommended to pursue the Honours or the four-year Major program.

Students are required to have the equivalent of high school Mathematics 40S (either pre-calculus or applied mathematics) and at least one of high school Chemistry 40S or Physics 40S.

Students having difficulty with the interpretation of the following regulations or the way in which they are applied, are urged to contact a Science Academic Advisor in the general office. Students are responsible for their own degree progress and completion.

Students admitted into the B.Sc. General degree program prior to September 2021 should consult with a Science Academic Advisor about their degree requirements.

Students anticipating a transfer to either a four-year Major or Honours program at the end of the second or third year should consult with a Science Academic Advisor before registering.

Students must complete 90 credit hours with passing grades ("D" or better) in each course. Please note higher grades are usually required for prerequisite purposes. See course descriptions for details. A student must obtain a minimum grade point average of 2.00 on the 90 credit hours, which constitute the degree to qualify for the degree of Bachelor of Science (General).

Students must complete:

Introductory Level Faculty of Science Courses (21 credit hours)¹

- **9 credit hours from the Computational and Mathematical Sciences:**
 - COMP 1010 (or COMP 1012²), COMP 1020,
 - [(MATH 1220 or MATH 1300 (or equivalent)) or (MATH 1210³), [MATH 1230 or MATH 1500 (or equivalent)], [MATH 1232 or MATH 1700 (or equivalent)], MATH 1240,
 - [STAT 1000^{4,5} (or STAT 2220⁴) or STAT 1150⁵], STAT 2000⁵, STAT 2150
- **6 credit hours from the Physical Sciences⁶:**
 - ASTR 1810, ASTR 1830,
 - CHEM 1100, CHEM 1110, [CHEM 1120 or (CHEM 1122 and CHEM 1126)⁷],
 - (PHYS 1020 or PHYS 1050), [PHYS 1030 or (PHYS 1070 or PHYS 2152)]⁸
- **6 credit hours from the Life Sciences:**
 - BIOL 1020, BIOL 1030, BIOL 1410, BIOL 1412,
 - MBIO 1010, MBIO 1220⁹

¹ When selecting courses to fulfill the Introductory Faculty of Science requirement, a student should consider the subject areas in which they wish to select Advanced Level Faculty of Science courses, and select courses that will fulfill the prerequisite requirements of the Advanced Level courses. A student is encouraged to consult course descriptions and an academic advisor for guidance. Students must satisfy the W requirement, within the first 60 credit hours.

² COMP 1012 is primarily intended for Engineering students and may not be held for credit with COMP 1010.

³ MATH 1210 is intended for Engineering students and may not be held for credit with MATH 1220 or MATH 1300 (or equivalent).

⁴ STAT 2220 is intended for Engineering students and may not be held for credit with STAT 1000 or STAT 1150.

⁵ STAT 1150 may not be held for credit with STAT 1000 or STAT 2000.

⁶ Students must have at least one of High School Chemistry 40S or Physics 40S. Students who do not have either of these high school courses will not be able to satisfy this requirement without taking CHEM 1018, PHYS 1018, or another equivalent. CHEM 1018 or PHYS 1018 may be used to fulfill the Faculty of Science requirement, or an elective requirement.

⁷ CHEM 1122 and CHEM 1126 are intended for Engineering students and may not be held for credit with CHEM 1120.

⁸ PHYS 2152 is intended for Engineering students and may not be held for credit with PHYS 1070.

⁹ MBIO 1220 is primarily intended for students planning to enter the College of Nursing or other health care or related programs. It will not act as a prerequisite to higher level Microbiology courses.

Advanced Level Science Courses (36 credit hours)

To satisfy the advanced level requirements of the 3-year General Degree program, thirty-six (36) credit hours at the 2000, 3000, and (or) 4000 level

must be chosen from courses offered by the Faculty of Science. Courses offered by the Faculty of Science include courses from the departments of Biological Sciences, Chemistry, Computer Science, Mathematics, Microbiology, Physics & Astronomy, and Statistics. Courses with the prefix DATA, FORS, and SCI, are also courses taught by the Faculty of Science and may be used to fulfill this requirement.

Of these 36 credit hours, at least 9 credit hours must be chosen from 3000 or 4000 level courses.

Students should note prerequisite requirements for upper level courses when planning their program.

PHYS 2152, SCI 3980, SCI 3990, SCI 4980, SCI 4990, STAT 2000, and STAT 2220 may not be used to fulfill this requirement.

Other Course Requirements (33 credit hours)

- **Faculty of Science Elective Course (3 credit hours)** - In addition to the 57 credit hours of Faculty of Science courses stated above, students must take an additional 3 credit hours from the Faculty of Science. This course must be at the 1000-level or higher.
- **Other Faculty Courses (12 credit hours)** - Students must take a minimum of 12 credit hours of courses from outside the Faculty of Science, **of which at least six credit hours must be from the Faculty of Arts**. Students may take up to 30 credit hours of courses from outside of the Faculty of Science using the 18 credit hours of electives below.
- **Elective Courses (18 credit hours)** - Students must take 18 credit hours of electives in this program. Elective courses may include courses from within the Faculty of Science, or courses from other faculties.

Degree Requirements

General ¹

Course	Title	Hours
Year 1		
9 credit hours from COMP, MATH or STAT ²		9
6 credit hours from ASTR, CHEM or PHYS ^{3,4}		6
6 credit hours from BIOL or MBIO ⁵		6
Hours		21
Years 1-3		
3 credit hours of Faculty of Science courses		3
12 credit hours from outside of the Faculty of Science, of which at least 6 credit hours must be from the Faculty of Arts		12
18 credit hours of electives		18
Hours		33

Years 2-3

27 credit hours at the 2000 level or higher from the Faculty of Science ⁶ 27

9 credit hours at the 3000 level or higher from the Faculty of Science 9

Hours **36**

Total Hours **90**

¹ Student must satisfy the W requirement in their first 60 credit hours.

² Chosen from:

- (COMP 1010 or COMP 1012), COMP 1020,
- [MATH 1220 or MATH 1300 (or equivalent), or MATH 1210], [MATH 1230 or MATH 1500 (or equivalent)], [MATH 1232 or MATH 1700 (or equivalent)], MATH 1240,
- (STAT 1000 or STAT 2220 or STAT 1150), STAT 2000, STAT 2150.

³ Chosen from:

- ASTR 1810, ASTR 1830,
- CHEM 1100, CHEM 1110, [CHEM 1120 or (CHEM 1122 and CHEM 1126)],
- (PHYS 1020 or PHYS 1050), [PHYS 1030 or (PHYS 1070 or PHYS 2152)].

⁴ Students must have at least one high school Chemistry 40S or Physics 40S, or equivalent.

⁵ Chosen from:

- BIOL 1020, BIOL 1030, BIOL 1410, BIOL 1412,
- MBIO 1010, MBIO 1220.

⁶ PHYS 2152, SCI 3980, SCI 3990, SCI 4980, SCI 4990, STAT 2000, STAT 2220 cannot be used to satisfy this requirement.

Genetics

Campus Address/General Office: 212 Biological Sciences Building

Telephone: 204 474 9245

Genetics

The Faculty of Science offers an interdisciplinary program leading to a B.Sc. (Honours) degree or B.Sc. Major in Genetics. Genetics is the science of heredity dealing with the mechanisms of inheritance and has generated concepts basic to modern biology. Three areas are represented in this program: classical genetics, population genetics, and molecular genetics. Courses from Arts, Agricultural and Food Sciences, and Medicine are included in this program.

Programs

Degree/Diploma	Years to Completion	Total Credit Hours	Has Co-op Option
Genetics, B.Sc. Honours (p. 879)	4	120	Yes
Genetics, B.Sc. Major (p. 883)	4	120	Yes

Genetics, B.Sc. Honours

Genetics Honours Entry, Continuation, and Graduation Requirements

To enter the Honours program in Genetics, a student must have completed at least 24 credit hours with a minimum DGPA of 3.00, and also obtained a minimum grade of "B" in BIOL 1030, and a minimum grade of "C+" in CHEM 1110, CHEM 1120, STAT 1150 or STAT 1000, MATH 1500 and the additional 3 credit hours of specified Mathematics courses are program requirements and students are strongly encouraged to complete these courses in first year.

* Students interested in studying Genetics should note that Grade 12 mathematics and chemistry are prerequisite to CHEM 1100. Effective 2009-2010, students will also require Biology 40S (or equivalent) and any Grade 12 mathematics course (or equivalent) for entry to BIOL 1020 (the required prerequisite for BIOL 1030).

To continue in the Genetics Honours program, students must maintain a minimum DGPA of 3.00, and complete a minimum of 9 credit hours during each Fall and Winter Term.

To graduate with the B.Sc. Honours degree, a student must maintain a minimum 3.00 DGPA and achieve a minimum grade of "C" on all courses that make up the 120 credit hours of the degree.

Honours Co-operative Option

A co-operative education option is available for Honours students. Students should refer to the Co-operative Education (p. 881) for further information on the Co-op programs.

The course, grade requirements and minimum DGPA requirement for entry and continuation in the Co-operative Option are the same as that for regular Honours program.

Students are required to complete the first and second year requirements of the program and MBIO 3410 before beginning their first co-op work term.

- MATH 1240 may be taken in place of MATH 1200.

⁴ Students in the Co-operative Option are advised to ensure that they are able to satisfy the prerequisites for all 3000 and 4000 level courses they plan to take.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Optional Courses for the Genetics Honours and Major Programs (Including Co-operative Options)

Biochemistry and Medical Genetics

Course	Title	Hours
BGEN 4010	Project Course in Human Genetics ¹	6

¹ MBIO 4530 and BGEN 4010 are project courses. A research project is chosen in consultation with the Microbiology department (MBIO 4530) or Biochemistry and Medical Genetics (BGEN 4010) and the Genetics program committee, and is supervised by a staff member. Only one of MBIO 4530 or BGEN 4010 may be selected in this program. These are required courses for students registered in the Genetics Honours program and may be available to students registered in the Genetics Major program by departmental consent.

Biological Sciences

Course	Title	Hours
BIOL 2410	Human Physiology 1	3
BIOL 2420	Human Physiology 2	3
BIOL 3290	Medicinal and Hallucinogenic Plants	3
BIOL 3300	Evolutionary Biology	3
BIOL/PLNT 3400	Plant Physiology	3

BIOL 3542	Developmental Biology	3
BIOL 3560	Comparative Animal Histology	3
BIOL 4500	Molecular Genetics of Plant Development	3
BIOL 4510	Evolutionary Genetics	3
BIOL 4540	Developmental Molecular Biology	3
BIOL 4542	Genes and Development	3
BIOL 4560	Microtechnique	3
BIOL 4650	Biology and Society	3

Chemistry

Course	Title	Hours
CHEM 2110	Organic Chemistry 2: Foundations of Organic Synthesis	3
CHEM 2122	Experimental Organic Chemistry	3
One of:		3
CHEM 2600	Physical Chemistry 1	
CHEM 2260	Course no longer offered	
One of:		3
CHEM 3600	Physical Chemistry 2	
CHEM 2290	Course no longer offered	
CHEM 4360	Signalling and Regulation of Gene Expression	3
CHEM 4370	Glycobiology and Protein Activation	3
CHEM 4620	Biochemistry of Nucleic Acids	3
CHEM 4630	Biochemistry of Proteins	3

Microbiology

Course	Title	Hours
MBIO 2420	Introductory Virology	3
MBIO 3000	Applied Biological Safety	3
MBIO 3010	Mechanisms of Microbial Disease	3
One of:		3
MBIO 3032	Microbiology III: Physiology and Metabolism	
MBIO 3030	Course no longer offered	
MBIO 3430	Molecular Evolution	3
MBIO 3450	Regulation of Biochemical Processes	3
MBIO 3460	Membrane and Cellular Biochemistry	3
One of:		3
MBIO 4020	Immunology	
MBIO 4010	Course no longer offered	
MBIO 4410	Virology	3
MBIO 4530	Project in Microbiology ¹	6
MBIO 4540	Biological Energy Transduction	3
One of:		3
MBIO 4670	Course no longer offered	
MBIO 4570	Course no longer offered	
MBIO 4672	Applied Molecular Biology	3
One of:		3
MBIO 4602	Molecular Genetics of Prokaryotes - Lectures	
MBIO 4600	Course no longer offered	
One of:		3
MBIO 4612	Molecular Genetics of Eukaryotes - Lectures	
MBIO 4610	Course no longer offered	

¹ MBIO 4530 and BGEN 4010 are project courses. A research project is chosen in consultation with the Microbiology department (MBIO 4530) or Biochemistry and Medical Genetics (BGEN 4010) and the Genetics program committee, and is supervised by a staff member. Only one of MBIO 4530 or BGEN 4010 may be selected in this program. These are required courses for students registered in the Genetics Honours program and may be available to students registered in the Genetics Major program by departmental consent.

Computer Science

Course	Title	Hours
COMP 1010	Introductory Computer Science 1	3
COMP 1020	Introductory Computer Science 2	3
COMP 1500	Computing: Ideas and Innovation	3
COMP 1600	Navigating Your Digital World	3

Physics

Course	Title	Hours
PHYS 1020	General Physics 1	3
PHYS 1030	General Physics 2	3
PHYS 1050	Physics 1: Mechanics	3
PHYS 1070	Physics 2: Waves and Modern Physics	3

Animal Science

Course	Title	Hours
ANSC 3500	Principles of Animal Genetics	3
ANSC 4280	Applied Animal Genetics	3

Pharmacology

Course	Title	Hours
PHAC 4030	Drugs in Human Disease I	3
PHAC 4040	Drugs in Human Disease II	3

Plant Science

Course	Title	Hours
PLNT 2530	Plant Biotechnology	3
PLNT/BIOL 3400	Plant Physiology	3
PLNT 3520	Principles of Plant Improvement	3
PLNT 4330	Intermediate Plant Genetics	3
PLNT 4610	Bioinformatics	3

By an appropriate selection of courses from this list, students can obtain particular program emphasis in either plant, human or molecular genetics.

The Honours Co-op program must contain a minimum of 18 credit hours of 4000 level courses as options in Years 3 and 4.

Other suitable optional courses may be arranged through consultation with the Genetics program committee.

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills

to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate

departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the

coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw

from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Genetics, B.Sc. Major

Genetics Major Entrance, Continuation, and Graduation Requirements

To enter the Major Degree program in Genetics, a student must have completed at least 24 credit hours with a minimum DGPA of 2.00, and also obtained a minimum grade of "C+" in BIOL 1030 and CHEM 1110. CHEM 1120, STAT 1150 or STAT 1000, MATH 1500 and the additional 3 credit hours of specified Mathematics courses are program requirements and students are strongly encouraged to complete these courses in first year.

* Students interested in studying Genetics should note that Grade 12 mathematics and chemistry are prerequisite to CHEM 1100. Effective 2009-2010, students will also require Biology 40S (or equivalent) and any Grade 12 mathematics course (or equivalent) for entry to BIOL 1020 (the required prerequisite for BIOL 1030).

To continue in the Genetics Major Degree program, students must maintain a minimum DGPA of 2.00.

To graduate with the Bachelor of Science (Major) in Genetics, a student must obtain passing grades on all courses, obtain a minimum DGPA of 2.00, and a minimum grade of C in all required and optional courses that contribute to the Major.

Major Co-operative Option

A co-operative education option is available for Major students. Students should refer to the Co-operative Education (p. 885) for further information on the Co-op programs.

The course and minimum grade requirements for entry and continuation in the Co-operative Option are the same as those required for the regular Major program. However, the entry and continuation DGPA requirement is set at a minimum of 2.5.

Students are required to complete the first and second year requirements of the program and MBIO 3410 before beginning their first co-op work term.

Degree Requirements

Four Year Major (Including Co-operative Option if Selected)

Course	Title	Hours
Year 1		
CHEM 1100	Introductory Chemistry 1: Atomic and Molecular Structure and Energetics	3

ANSC 4280	Applied Animal Genetics	3

Pharmacology

Course	Title	Hours
PHAC 4030	Drugs in Human Disease I	3
PHAC 4040	Drugs in Human Disease II	3

Plant Science

Course	Title	Hours
PLNT 2530	Plant Biotechnology	3
PLNT/BIOL 3400	Plant Physiology	3
PLNT 3520	Principles of Plant Improvement	3
PLNT 4330	Intermediate Plant Genetics	3
PLNT 4610	Bioinformatics	3

By an appropriate selection of courses from this list, students can obtain particular program emphasis in either plant, human or molecular genetics.

The Honours Co-op program must contain a minimum of 18 credit hours of 4000 level courses as options in Years 3 and 4.

Other suitable optional courses may be arranged through consultation with the Genetics program committee.

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills

to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate

departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the

coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are

responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfill all academic requirements of that degree.

Interdisciplinary Science Courses Mathematics

Acting Head: Shaun Lui

Campus Address/General Office: 342A Machray Hall

Telephone: 204 474 8703

Email Address: mathematics_dept@umanitoba.ca

Website: sci.umanitoba.ca/mathematics (<https://sci.umanitoba.ca/mathematics/>)

Mathematics

Mathematics provides the language, reasoning and analytic tools that many other disciplines use to investigate their areas. These include all the physical sciences, computer and engineering sciences, social sciences, and the biological and health sciences. A wide range of business, industrial, and government programs rely on mathematics to provide insight and analysis. Students may specialize in mathematics alone or in combinations with physics, computer science, economics, or statistics.

Note: Students entering either the Faculty of Arts or Science, and intending to take courses from the department, are strongly advised to speak to a Science Academic Advisor or a faculty advisor in the department concerning an appropriate choice of mathematics courses. They may also consult the Department of Mathematics website (<https://sci.umanitoba.ca/mathematics/>).

Programs

Degree/Diploma	Years to Completion	Total Credit Hours	Has Co-op Option
Applied Mathematics with Computer Science Option, B.Sc. Major (p. 897)	4	120	Yes

Applied Mathematics with Economics Option, B.Sc. Major (p. 900)	4	120	Yes
Applied Mathematics with Statistics Option, B.Sc. Major (p. 903)	4	120	Yes
Mathematics, B.Sc. Double Honours (p. 891)	4	120	Yes
Mathematics, B.Sc. Honours (p. 888)	4	120	Yes
Mathematics, B.Sc. Major (p. 894)	4	120	Yes
Mathematics - Economics Joint, B.Sc. Honours (p. 907)	4	120	
Mathematics - Physics and Astronomy Joint, B.Sc. Honours (p. 909)	4	120	Yes
Mathematics Minor (p. 906)		18	

Computer Science - Mathematics Joint, B.Sc. Honours (p. 865)

Statistics - Mathematics Joint, B.Sc. Honours (p. 944)

Mathematics, B.Sc. Honours

Mathematics Honours Entrance, Continuation, and Graduation Requirements

To enter the Honours program in Mathematics, a student must have completed at least 24 credit hours with a minimum DGPA of 3.00, and also obtained a minimum grade of "B" in either MATH 1232 or MATH 1690, or a minimum grade of "A" in MATH 1700

To continue in the Mathematics Honours program, students must maintain a minimum DGPA of 3.00, and complete a minimum of 9 credit hours during each Fall and Winter Term.

To graduate with the B.Sc. Honours degree, a student must achieve a minimum 3.00 DGPA and achieve a minimum grade of "C" on all courses that make up the 120 credit hours of the degree.

List of Year 2 Mathematics electives (of which two are required for the core requirements):

Course	Title	Hours
MATH 2030	Combinatorics 1	3
MATH 2040	Curves and Surfaces	3
MATH 2070	Graph Theory 1	3
MATH 2160	Numerical Analysis 1	3
MATH 2170	Number Theory 1	3

Students are encouraged to discuss potential electives with a departmental advisor.

Honours Co-operative Option

A co-operative education option is available for Honours students. Students should refer to the Co-operative Education (p. 890) for further information on the Co-op programs.

The course, grade requirements and minimum DGPA requirement for entry and continuation in the Co-operative Option are the same as that for regular Honours program.

Students will need to have completed MATH 2020, MATH 2080, MATH 2090, MATH 2150 and MATH 2180 (or their equivalents as approved by the department of Mathematics) before entrance into the Co-op Program. Students who plan on, or are required to, take MATH 3470 and MATH 3472 are recommended to take these in the Fall and Winter (respectively) of Year 3 (similarly with MATH 3320 and MATH 3322).

Degree Requirements

Honours (Including Co-operative Option if Selected)

Course	Title	Hours
Year 1		
MATH 1220	Linear Algebra 1 ¹	3
MATH 1230	Differential Calculus ¹	3
MATH 1232	Integral Calculus (B) ¹	3
MATH 1240	Elementary Discrete Mathematics	3
Hours		12
Years 1-2		
STAT 1150	Introduction to Statistics and Computing ¹	3
COMP 1010	Introductory Computer Science 1 ¹	3
The following must be completed in Year 1 or Year 2:		
6 credit hours from the Faculty of Arts, which should include the required "W" course		6
15 credit hours of electives		15
Hours		27
Year 2		
MATH 2020	Algebra 1	3
MATH 2080	Introduction to Analysis	3
MATH 2090	Linear Algebra 2	3
MATH 2150	Multivariable Calculus	3
MATH 2180	Real Analysis 1	3
6 credit hours from the following list:		6
MATH 2030	Combinatorics 1	
MATH 2040	Curves and Surfaces	

MATH 2070	Graph Theory 1	
MATH 2160	Numerical Analysis 1 ²	
MATH 2170	Number Theory 1	
Hours		21

Years 3-4

36 credit hours of Mathematics courses, which must include the following:

MATH 3320	Algebra 2	3
MATH 3340	Complex Analysis 1	3
MATH 3390	Introduction to Topology	3
MATH 3440	Ordinary Differential Equations	3
MATH 3470	Real Analysis 2	3
MATH 3472	Real Analysis 3	3

One of the two concentrations listed below (see Concentration tab for course requirements) 18

Applied and Computational Mathematics

Pure Mathematics

12 credit hours of Mathematics courses from the following (if not already taken as a required 2nd year elective): 12

MATH 2030 Combinatorics 1

MATH 2070 Graph Theory 1

MATH 2160 Numerical Analysis 1

MATH 2170 Number Theory 1

All Year 3 and 4 Mathematics courses

12 credit hours of approved (not necessarily mathematics) electives 12

Co-op Requirements (if selected):

SCI 3980	Co-operative Education Work Term 1	0
SCI 3990	Co-operative Education Work Term 2	0
SCI 4980	Co-operative Education Work Term 3	0
SCI 4990	Co-operative Education Work Term 4 (if a 4th work term is selected)	0

Hours **60**

Total Hours **120**

¹ Students are strongly advised to take MATH 1220, MATH 1230 and MATH 1232.

The following substitutions are allowed (but not advised), provided the grades indicated in brackets are achieved:

- MATH 1210 (A) or MATH 1300 (A) in place of MATH 1220,
- MATH 1500 (A) or MATH 1510 (A) in place of MATH 1230,
- MATH 1700 (A) or MATH 1710 (A) in place of MATH 1232,
- MATH 1690 (B) in place of MATH 1230 and MATH 1232.

With permission from the department, students may be able to substitute STAT 1000 and STAT 2000 in place of STAT 1150.

COMP 1012 may be used in lieu of COMP 1010.

² Department strongly recommends choosing MATH 2160 as one of the electives in Year 2.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Applied and Computational Mathematics Concentration

Course	Title	Hours
MATH 3420	Numerical Analysis 2	3
MATH 3460	Partial Differential Equations	3
MATH 4370	Linear Algebra and Matrix Analysis	3
9 additional credit hours to be chosen from:		9
MATH 3322	Algebra 3	
MATH 3330	Computational Algebra	
MATH 4280	Basic Functional Analysis	
MATH 4320	Dynamical Systems ¹	
MATH 4330	Fundamentals of Approximation Theory ¹	
MATH 4380	Mathematical Biology ¹	
MATH 4390	Numerical Approximation Theory ¹	
MATH 4440	Numerical Analysis of Partial Differential Equations	
MATH 4460	Partial Differential Equations 2 ¹	

¹ These courses may not be offered every year, but are usually offered once every second year. Please refer to Aurora Student (<https://aurora.umanitoba.ca>) for courses offered in the current year and to the website of the Department of Mathematics (<https://www.sci.umanitoba.ca/mathematics/>) for the planned schedule of future course offerings.

Pure Mathematics Concentration

Course	Title	Hours
MATH 3322	Algebra 3	3
One of:		3
MATH 3410	Introduction to Mathematical Logic ¹	
MATH 3480	Set Theory ¹	
MATH 4260	Abstract Measure Theory	3
One of:		3
MATH 4300	Combinatorial Geometry ¹	
MATH 4340	Introduction to Algebraic Geometry ¹	
MATH 4360	Introduction to Differential Geometry ¹	
6 additional credit hours to be chosen from:		6
MATH 3360	Combinatorics 2	
MATH 4240	Advanced Group Theory ¹	
MATH 4270	Algebraic Topology	
MATH 4280	Basic Functional Analysis	
MATH 4290	Complex Analysis 2	
MATH 4450	Number Theory 2	
MATH 4470	Rings and Modules ¹	

¹ These courses may not be offered every year, but are usually offered once every second year. Please refer to Aurora Student (<https://aurora.umanitoba.ca>) for courses offered in the current year and to the website of the Department of Mathematics (<https://www.sci.umanitoba.ca/mathematics/>) for the planned schedule of future course offerings.

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point

Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work

term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Mathematics, B.Sc. Double Honours Mathematics Double Honours

A student may elect Honours in Mathematics (including Co-operative Option) and one other field, subject to the approval of both departments.

To enter the Double Honours program in the Mathematics field, a student must have completed at least 24 credit hours with a minimum DGPA of 3.00, and also obtained a minimum grade of "B" in either MATH 1232 or MATH 1690, or a minimum grade of "A" in MATH 1700. Students should consult the other participating department to identify entry requirements for that field.

To continue in the Mathematics Double Honours program, students must maintain a minimum DGPA of 3.00, and complete a minimum of 9 credit hours during each Fall and Winter Term.

To graduate with the B.Sc. Honours degree, a student must achieve a minimum 3.00 DGPA and achieve a minimum grade of "C" on all courses that make up the degree.

Degree Requirements

Double Honours (Including Co-operative Option if Selected)

A student may elect Honours in Mathematics (including Co-operative Option) and one other field, subject to the approval of both departments. The Mathematics prescription for a Double Honours program is as indicated below. It is a minimum of 120 credit hours, comprising of courses listed below, and the required courses from the other department.

Course	Title	Hours
Year 1		
MATH 1220	Linear Algebra 1 ¹	3
MATH 1230	Differential Calculus ¹	3
MATH 1232	Integral Calculus (B) ¹	3
MATH 1240	Elementary Discrete Mathematics	3
STAT 1150	Introduction to Statistics and Computing ¹	3

MATH 2170	Number Theory 1	
All Year 3 and 4 mathematics courses of which at least 9 credit hours must be 4000 level		
Hours		15
Total Hours		78

¹ Students are strongly advised to take MATH 1220, MATH 1230 and MATH 1232.

The following substitutions are allowed (but not advised), provided the grades indicated in brackets are achieved:

- MATH 1210 (A) or MATH 1300 (A) in place of MATH 1220,
- MATH 1500 (A) or MATH 1510 (A) in place of MATH 1230,
- MATH 1700 (A) or MATH 1710 (A) in place of MATH 1232,
- MATH 1690 (B) in place of MATH 1230 and MATH 1232.

With permission of the department, students may be able to substitute STAT 1000 and STAT 2000 in place of STAT 1150.

COMP 1012 may be used in lieu of COMP 1010.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics

- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.

- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Mathematics, B.Sc. Major

Mathematics Major Entrance, Continuation, and Graduation Requirements

To enter the four year Major in Mathematics, a student must have a "C+" in either MATH 1232 or MATH 1690 or a minimum grade of "B" in MATH 1700, and have satisfied all Faculty requirements for entry to the program.

To continue in the Mathematics Major degree program students must maintain a minimum DGPA of 2.00.

To graduate with the B.Sc. Major degree, a student must achieve a minimum DGPA of 2.00, and a minimum grade of "C" in each of the Major Program Specific Courses.

Major Program Specific Courses

Course	Title	Hours
MATH 1220	Linear Algebra 1	3
MATH 1230	Differential Calculus	3
MATH 1232	Integral Calculus	3
MATH 1240	Elementary Discrete Mathematics	3
MATH 2020	Algebra 1	3
MATH 2030	Combinatorics 1	3
MATH 2080	Introduction to Analysis	3
MATH 2090	Linear Algebra 2	3
MATH 2150	Multivariable Calculus	3
MATH 2160	Numerical Analysis 1	3
MATH 2180	Real Analysis 1	3
MATH 3320	Algebra 2	3
MATH 3340	Complex Analysis 1	3
MATH 3360	Combinatorics 2	3
MATH 3390	Introduction to Topology	3
MATH 3440	Ordinary Differential Equations	3
MATH 3460	Partial Differential Equations	3
and 6 credit hours from the Year 2 Mathematics electives:		
MATH 2040	Curves and Surfaces	3
MATH 2070	Graph Theory 1	3
MATH 2170	Number Theory 1	3

A student may substitute any 3000/4000 level MATH course for either of the above two electives.

Major Co-operative Option

A co-operative education option is available for Major students. Students should refer to the Co-operative Education (p. 895) for further information on the Co-op programs.

The course and minimum grade requirements for entry and continuation in the Co-operative Option are the same as those required for the regular Major program. However, the entry and continuation DGPA requirement is set at a minimum of 2.5.

Students will need to have completed MATH 2020, MATH 2080, MATH 2090, MATH 2150 and MATH 2180 (or their equivalents as approved by the department of Mathematics) before entrance into the Co-op Program. Students who plan on, or are required to, take MATH 3470 and MATH 3472 are recommended to take these in the Fall and Winter (respectively) of Year 3 (similarly with MATH 3320 and MATH 3322).

Degree Requirements

Four Year Major (Including Co-operative Option if Selected)

Course	Title	Hours
Year 1		
MATH 1220	Linear Algebra 1 ¹	3
MATH 1230	Differential Calculus ¹	3
MATH 1232	Integral Calculus (C+) ¹	3

MATH 1240	Elementary Discrete Mathematics	3
Hours		12

Years 1-2

STAT 1150	Introduction to Statistics and Computing ¹	3
COMP 1010	Introductory Computer Science 1 ¹	3
15 credit hours of approved electives		15

The following must be completed in Year 1 or Year 2:

6 credit hours from the Faculty of Arts, which should include the required "W" course	6
---	---

Hours **27**

Year 2

MATH 2020	Algebra 1	3
MATH 2080	Introduction to Analysis	3
MATH 2090	Linear Algebra 2	3
MATH 2150	Multivariable Calculus	3
MATH 2180	Real Analysis 1	3

6 credit hours from the following: 6

MATH 2030	Combinatorics 1	
MATH 2040	Curves and Surfaces	
MATH 2070	Graph Theory 1	
MATH 2160	Numerical Analysis 1	
MATH 2170	Number Theory 1	

Hours **21**

Years 3-4

48 credit hours from the following: 48

MATH 2030	Combinatorics 1	
MATH 2070	Graph Theory 1	
MATH 2160	Numerical Analysis 1	
MATH 2170	Number Theory 1	

and any 3000/4000 level Mathematics courses, which must include:

MATH 2030	Combinatorics 1 (if not already taken as Year 2 elective)	
MATH 2160	Numerical Analysis 1 (if not already taken as Year 2 elective)	
MATH 3320	Algebra 2	
MATH 3340	Complex Analysis 1	
MATH 3360	Combinatorics 2	
MATH 3390	Introduction to Topology	
MATH 3440	Ordinary Differential Equations	
MATH 3460	Partial Differential Equations	

12 credit hours of approved electives 12

Co-op Requirements (if selected):

SCI 3980	Co-operative Education Work Term 1	0
SCI 3990	Co-operative Education Work Term 2	0
SCI 4980	Co-operative Education Work Term 3	0
SCI 4990	Co-operative Education Work Term 4 (if a 4th work term is selected)	0

Hours **60**

Total Hours **120**

¹ Students are strongly advised to take MATH 1220, MATH 1230 and MATH 1232.

The following substitutions are allowed (but not advised), provided the grades indicated in brackets are achieved:

- MATH 1210 (B) or MATH 1300 (C+) in place of MATH 1220,
- MATH 1500 (B) or MATH 1510 (B) in place of MATH 1230,
- MATH 1700 (B) or MATH 1710 (B) in place of MATH 1232,
- MATH 1690 (C+) in place of MATH 1230 and MATH 1232.

With permission from the department, students may be able to substitute STAT 1000 and STAT 2000 in place of STAT 1150.

COMP 1012 may be used in lieu of COMP 1010.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics

- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.

- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfill all academic requirements of that degree.

Applied Mathematics with Computer Science Option, B.Sc. Major

Four Year Major in Applied Mathematics with Option (Computer Science, Economics, Statistics) Entrance, Continuation and Graduation Requirements

These programs provide a sound general knowledge of applied mathematics together with a significant number of courses in the option area. Courses in the Computer Science option provide training in aspects of computer science which are most useful to the practicing mathematician. Courses in the Computer Sciences, Economics, and

Statistics options are fundamental to each area and provide a strong, mathematical basis for further study.

To enter the four year Major in Applied Mathematics with one of the above three options, a student must have a "C+" in either MATH 1232 or MATH 1690 or a minimum grade of "B" in MATH 1700, and have satisfied all faculty requirements for entry to the program.

To continue in the Applied Mathematics Major degree programs, students must maintain a minimum DGPA of 2.00.

To graduate with the B.Sc. Major degree, a student must achieve a minimum DGPA of 2.00, and a minimum grade of "C" in each of the Major Program Specific courses.

Applied Mathematics Major Program Specific Courses

Course	Title	Hours
MATH 1220	Linear Algebra 1	3
MATH 1230	Differential Calculus	3
MATH 1232	Integral Calculus	3
MATH 1240	Elementary Discrete Mathematics	3
MATH 2070	Graph Theory 1	3

- STAT 1000 (C) and STAT 2000 (B) in place of STAT 1150.

COMP 1012 may be used in lieu of COMP 1010.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills

to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate

departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the

coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw

from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Applied Mathematics with Economics Option, B.Sc. Major

Four Year Major in Applied Mathematics with Option (Computer Science, Economics, Statistics) Entrance, Continuation and Graduation Requirements

These programs provide a sound general knowledge of applied mathematics together with a significant number of courses in the option area. Courses in the Computer Science option provide training in aspects of computer science which are most useful to the practicing mathematician. Courses in the Computer Sciences, Economics, and Statistics options are fundamental to each area and provide a strong, mathematical basis for further study.

To enter the four year Major in Applied Mathematics with one of the above three options, a student must have a "C+" in either MATH 1232 or MATH 1690 or a minimum grade of "B" in MATH 1700, and have satisfied all faculty requirements for entry to the program.

To continue in the Applied Mathematics Major degree programs, students must maintain a minimum DGPA of 2.00.

To graduate with the B.Sc. Major degree, a student must achieve a minimum DGPA of 2.00, and a minimum grade of "C" in each of the Major Program Specific courses.

Applied Mathematics Major Program Specific Courses

Course	Title	Hours
MATH 1220	Linear Algebra 1	3
MATH 1230	Differential Calculus	3
MATH 1232	Integral Calculus	3
MATH 1240	Elementary Discrete Mathematics	3
MATH 2070	Graph Theory 1	3
MATH 2080	Introduction to Analysis	3
MATH 2090	Linear Algebra 2	3

MATH 2150	Multivariable Calculus	3
MATH 2160	Numerical Analysis 1	3
MATH 2180	Real Analysis 1	3
MATH 3340	Complex Analysis 1	3

SCI 4990	Co-operative Education Work Term 4 (if a 4th work term is selected)	0
Hours		24
Total Hours		120

¹ Students are strongly advised to take MATH 1220, MATH 1230 and MATH 1232.

The following substitutions are allowed (but not advised), provided the grades indicated in brackets are achieved:

- MATH 1210 (B) or MATH 1300 (C+) in place of MATH 1220;
- MATH 1500 (B) or MATH 1510 (B) in place of MATH 1230;
- MATH 1700 (B) or MATH 1710 (B) in place of MATH 1232;
- MATH 1690 (C+) in place of MATH 1230 and MATH 1232;
- STAT 1000 (C) and STAT 2000 (B) in place of STAT 1150.

COMP 1012 may be used in place of COMP 1010.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics

- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.

- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

- Chemistry
- Computer Science
- Genetics
- Mathematics

- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.

- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Mathematics Minor

Minor Requirements

Course	Title	Hours
Years 1-4		
MATH 1220	Linear Algebra ¹	3
MATH 1230	Differential Calculus ¹	3
MATH 1232	Integral Calculus ¹	3
A minimum of 9 credit hours from:		9
MATH 1240	Elementary Discrete Mathematics ¹	

2000 and (or) 3000 level Mathematics courses	
Hours	18
Total Hours	18

- ¹
- MATH 1500 or MATH 1510 may be taken in place of MATH 1230;
 - MATH 1210 (B) or MATH 1300 may be taken in place of MATH 1220;
 - MATH 1700 or MATH 1710 may be taken in place of MATH 1232.
 - MATH 1200 may be taken in place of MATH 1240, but these courses are not equivalent. i.e. students should note that MATH 1240 is a prerequisite to some 2nd year mathematics courses of which MATH 1200 is not a prerequisite.

Mathematics - Economics Joint, B.Sc. Honours

Mathematics - Economics Joint Honours Entrance, Continuation, and Graduation Requirements

The Department of Mathematics along with the Department of Economics (Faculty of Arts) offer a joint Honours program for students wishing in depth study in Mathematics and Economics. Refer to the Faculty of Arts for Economics course listings (p.).

To enter the Joint Honours Mathematics - Economics program, the student must have a minimum grade of "B" in: ECON 1010 and ECON 1020 (or ECON 1210 and ECON 1220), either MATH 1232 or MATH 1690 (or a minimum grade of "A" in MATH 1700) and have satisfied the Faculty of Science requirements for entry to the honours program.

To continue in the Joint Honours Mathematics - Economics program, students must maintain a minimum DGPA of 3.00, and complete a minimum of 9 credit hours during each Fall and Winter Term.

To graduate with the B.Sc. Honours degree, a student must achieve a minimum 3.00 DGPA and achieve a minimum grade of "C" on all courses that make up the 120 credit hours of the degree.

Degree Requirements

Joint Honours

Course	Title	Hours
Year 1		
One of A or B:		6
A:		
ECON 1010	Introduction to Microeconomic Principles (B)	
ECON 1020	Introduction to Macroeconomic Principles (B)

MATH 3610	Introduction to Mathematical Modelling	
MATH 4370	Linear Algebra and Matrix Analysis	

Any Mathematics course at the 4000 level

3 credit hours of Mathematics courses at the 3000 or 4000 level 3

Hours 60

Total Hours 120

¹ Students are strongly advised to take MATH 1220, MATH 1230 and MATH 1232.

The following substitutions are allowed (but not advised), provided the grades indicated in brackets are achieved:

- MATH 1210 (A) or MATH 1300 (A) in place of MATH 1220,
- MATH 1500 (A) or MATH 1510 (A) in place of MATH 1230,
- MATH 1700 (A) or MATH 1710 (A) in place of MATH 1232,
- MATH 1690 (B) in place of MATH 1230 and MATH 1232.

With permission from the department, students may be able to substitute STAT 1000 and STAT 2000 in place of STAT 1150.

² Some courses may be taken in a different year than indicated; STAT 1150, COMP 1010, ECON 3040 may be taken in Year 2. The normal prerequisite for ECON 3040 is ECON 2040 (or the former ECON 3170), which will be waived for students in this program who have completed Year 1.

³ Of the 24 credit hours in electives in Economics in Years 3 and 4, no more than 6 credit hours may be at the 2000 level or below and at least 6 credit hours must be at the 4000 level. Students are encouraged to take ECON 4010, ECON 4020 and ECON 4040.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular

Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Mathematics - Physics and Astronomy Joint, B.Sc. Honours

Mathematics - Physics and Astronomy Joint Honours Entrance, Continuation, and Graduation Requirements (Including Co-operative Option)

To enter the Joint Honours Mathematics - Physics Honours program the student must have a minimum grade of "B" in: MATH 1232 or MATH 1690 (or a minimum grade of "A" in MATH 1700), PHYS 1050 (or "B+" in PHYS 1020) and PHYS 1070 (or "B+" in PHYS 1030).

To continue in the Honours program, students must maintain a minimum DGPA of 3.00, complete a minimum of 9 credit hours each Fall and Winter Term.

To graduate with the B.Sc. Honours degree, a student must achieve a minimum DGPA of 3.00 and a minimum grade of "C+" in each of the Honours Program Specific courses¹, and a minimum grade of "C" on all remaining courses that contribute to the 120 credit hours of the degree.

¹ The Honours Program Specific courses consist of all the Physics and Astronomy courses listed in the program grid (p. 910), with the exception of PHYS 1020, PHYS 1050, PHYS 1030 and PHYS 1070.

Honours Co-operative Option

A co-operative education option is available for Honours students. Students should refer to the Co-operative Education (p. 911) for further information on the Co-op programs.

The course, grade requirements and minimum DGPA requirement for entry and continuation in the Co-operative Option are the same as that for regular Honours program.

Degree Requirements

Hours		30
Total Hours		120

¹ Students are strongly advised to take MATH 1220, MATH 1230 and MATH 1232.

The following substitutions are allowed (but not advised), provided the grades indicated in brackets are achieved:

- MATH 1210 (A) or MATH 1300 (A) in place of MATH 1220,
- MATH 1500 (A) or MATH 1510 (A) in place of MATH 1230,
- MATH 1700 (A) or MATH 1710 (A) in place of MATH 1232,
- MATH 1690 (B) in place of MATH 1230 and MATH 1232.

With permission from the department, students may be able to substitute STAT 1000 and STAT 2000 in place of STAT 1150.

² Students are advised to take PHYS 1050 and PHYS 1070.

³ The corequisite or prerequisite of PHYS 2496 is waived for students in this program. It is recommended that students audit PHYS 2496 in second year and PHYS 3496 in third year.

⁴ As there are no electives in Year 2 of the program, students should complete the university written English requirement in Year 1. If not completed in Year 1, a "W" course must be completed prior to Year 3 in addition to the required Year 2 courses.

⁵ The pre-or corequisite of PHYS 3496 is waived for students in this program. It is recommended that students audit PHYS 2496 in second year and PHYS 3496 in third year.

⁶ Students may take STAT 1000 and STAT 2000 in lieu of STAT 1150.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass"

for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by

the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Microbiology

Head: Deborah Court

Campus Address/General Office: 213 Buller Building

Telephone: 204 474 9372

Email Address: Deborah.Court@umanitoba.ca

Website: sci.umanitoba.ca/micro/ (<https://sci.umanitoba.ca/micro/>)

Microbiology

Microbiology is the study of microorganisms such as bacteria, viruses, fungi, protozoa, and algae, and their interactions with the environment. It is also an area of study that plays a pivotal role in understanding other life science disciplines, such as medicine, agriculture, ecology, and pharmacy. Molecular and systems microbiology are part of the program, which spans applied, environmental and medical microbiology.

Microbiology Prerequisite Information

Students are advised to take courses in the year suggested in the program grids; otherwise difficulties may arise with timetabling and prerequisite requirements. Students are responsible for all prerequisites and corequisites of the courses required or selected in all programs. Since Chemistry courses form an integral part of all Microbiology programs, students should note that Grade 12 mathematics and chemistry are prerequisite to CHEM 1100. Students will also require Biology 40S (or equivalent) and any Grade 12 mathematics course (or equivalent) for entry to BIOL 1020 (the prerequisite for BIOL 1030 and MBIO 1010).

Biochemistry and Biotechnology¹ Programs

The Department of Microbiology, in conjunction with the Department of Chemistry, offers Joint Honours programs, Joint Honours Co-operative Option programs, Joint four year Major programs and Joint four year Major Co-operative Option programs in Biochemistry and Biotechnology¹. See Biochemistry Program (p. 818) and Biotechnology Program (p. 844)¹ for full details.

Degree/Diploma	Years to Completion	Total Credit Hours	Has Co-op Option
Microbiology, B.Sc. Honours (p. 913)	4	120	Yes
Microbiology, B.Sc. Major (p. 918)	4	120	Yes
Microbiology Minor (p. 922)		30	

BIOCHEMISTRY

Joint Microbiology and Chemistry Programs: See Biochemistry (p. 818)

BIOTECHNOLOGY¹

Joint Microbiology and Chemistry Programs: See Biotechnology (p. 844)

¹ As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.

Microbiology, B.Sc. Honours Microbiology Honours Entrance, Continuation, and Graduation Requirements

To enter the Honours program in Microbiology, a student must have completed at least 24 credit hours with a minimum DGPA of 3.00, and also obtained a minimum grade of "B" in MBIO 1010, and a minimum grade of "C+" in CHEM 1110. CHEM 1120, BIOL 1020, BIOL 1030, STAT 1150 (or STAT 1000), and the 3 credit hours of specified Mathematics or Physics are program requirements and students are strongly encouraged to complete these courses in first year.

To continue in the Microbiology Honours program, students must maintain a minimum DGPA of 3.00, and complete a minimum of 9 credit hours during each Fall and Winter Term.

To graduate from the Microbiology Honours program students must achieve a minimum DGPA of 3.00 and obtain a minimum grade of "C" on the courses that make up the 120 credit hours of the degree.

Students who wish to elect CHEM 2600, CHEM 3600 or CHEM 2510 as options should note the prerequisites in making a choice of mathematics courses.

CHEM 2100 must be taken before MBIO 2710 (CHEM 2710). Courses (MBIO 2700 and CHEM 2700) and (MBIO 2710 and CHEM 2710) are the same and credit cannot be held for both. Microbiology students will normally register in MBIO 2700 and MBIO 2710, but CHEM 2700 and CHEM 2710 will be regarded as equivalents.

By careful choice of electives, programs may be selected giving emphasis to various areas of Microbiology, e.g., Biochemistry and Molecular Biology or Environmental and Ecological Microbiology. In choosing optional courses, students should be aware of any prerequisite requirements.

¹ As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.

Programs

Honours Co-operative Option

A co-operative education option is available for Honours students. Students should refer to the Co-operative Education (p. 916) for further information on the Co-op programs.

The course, grade requirements and minimum DGPA requirement for entry and continuation in the Co-operative Option are the same as that for regular Honours program.

Before beginning their first co-op work term, students are required to complete the first and second year requirements of the program, in addition to MBIO 2710 (CHEM 2710) and CHEM 2720, MBIO 3010 and MBIO 3410.

Degree Requirements

Honours

Note¹

Course	Title	Hours
Year 1		
MBIO 1010	Microbiology I (B) ²	3
BIOL 1020	Biology 1: Principles and Themes	3
BIOL 1030	Biology 2: Biological Diversity, Function and Interactions	3
CHEM 1100	Introductory Chemistry 1: Atomic and Molecular Structure and Energetics	3
CHEM 1110	Introductory Chemistry 2: Interaction, Reactivity, and Chemical Properties (C+)	3
CHEM 1120	Introduction to Chemical Techniques ³	3
Hours		18

Years 1-2

In Year 1 or Year 2 the following must be completed:

3 credit hours of Mathematics or Physics chosen from:	3
MATH 1240	Elementary Discrete Mathematics ⁴
MATH 1300	Vector Geometry and Linear Algebra ⁴
MATH 1500	Introduction to Calculus ⁴
PHYS 1020	General Physics 1
or PHYS 1050	or Physics 1: Mechanics
One of:	3
STAT 1150	Introduction to Statistics and Computing ⁵
STAT 1000	Basic Statistical Analysis 1 ⁵

6 credit hours from the Faculty of Arts, which should include the required "W" course	6
6 credit hours of electives	6
3 credit hours of Microbiology courses	3

Hours	21
--------------	-----------

Year 2

MBIO 2020	Microbiology II	3
MBIO/CHEM 2700	Biochemistry 1: Biomolecules and an Introduction to Metabolic Energy	3
MBIO/CHEM 2710	Biochemistry 2: Catabolism, Synthesis, and Information Pathways ⁶	3
CHEM 2720	Principles and Practices of the Modern Biochemistry Laboratory	3
BIOL 2500	Genetics 1	3
BIOL 2520	Cell Biology	3
CHEM 2100	Organic Chemistry 1: Foundations of Organic Chemistry	3

Hours	21
--------------	-----------

Year 3

MBIO 3010	Mechanisms of Microbial Disease	3
MBIO 3032	Microbiology III: Physiology and Metabolism	3
MBIO 3410	Molecular Biology	3
MBIO 3600	Molecular Microbiology Techniques	3
MBIO 3700	Experimental Microbiology Laboratory	3

Hours	15
--------------	-----------

Years 3-4

24 credit hours of Microbiology courses including (a single course may meet more than one of these requirements):

- One course from each of Lists A, B, C, D, and E (see below);⁷

- 12 credit hours at the 4000-level;

- 3 credit hour course with a laboratory or tutorial (List F)⁷

12 credit hours from the Options List (see below)	12
---	----

3 credit hours of electives	3
-----------------------------	---

Hours	39
--------------	-----------

Year 4

MBIO 4530	Project in Microbiology	6
-----------	-------------------------	---

Hours	6
--------------	----------

Total Hours	120
--------------------	------------

¹ MBIO 1220 and MBIO 1410 cannot be used to satisfy course requirements in a Major or Honours program.

² MBIO 1010 may be completed in either year 1 or year 2. It is recommended that it be completed in first year.

³ CHEM 1126 may be taken in place of CHEM 1120.

⁴

- MATH 1220 or MATH 1310 may be taken in place of MATH 1300;
- MATH 1230, MATH 1510, MATH 1520 or MATH 1690 may be taken in place of MATH 1500.
- MATH 1200 may be used in place of MATH 1240.

⁵ STAT 1150 is recommended over STAT 1000.

⁶ It is strongly recommended that MBIO 2710 (or CHEM 2710) and CHEM 2720 be completed prior to Year 3 as they are prerequisite to many upper level MBIO courses.

⁷

- **List A:** MBIO 2230, MBIO 3282, MBIO 3472, MBIO 4480, MBIO 4520;

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass"

for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by

the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Microbiology, B.Sc. Major

Microbiology Major Entrance, Continuation, and Graduation Requirements

To enter the Major Degree program in Microbiology, a student must have completed at least 24 credit hours with a minimum DGPA of 2.00, and also obtained a minimum grade of "C+" in MBIO 1010 and in CHEM 1110. BIOL 1020, BIOL 1030, STAT 1150 (or STAT 1000) and the 3 credit hours of specified Mathematics or Physics are program requirements and students are strongly urged to complete these courses in first year.

* Students interested in studying Microbiology should note that Grade 12 mathematics and chemistry are prerequisite to CHEM 1100. Students will also require Biology 40S (or equivalent) and any Grade 12 mathematics course (or equivalent) for entry to BIOL 1020 (the prerequisite for BIOL 1030 and MBIO 1010).

To continue in the Microbiology Major Degree, students must maintain a minimum DGPA of 2.00.

To graduate from, the 4-year Major degree program in Microbiology, students are required to obtain a minimum DGPA of 2.00.

Potential entrants to this program should also note the following:

- Students who wish to elect CHEM 2600, CHEM 3600 or CHEM 2510 as options should note the prerequisites in making a choice of mathematics courses.
- CHEM 2100 must be taken before MBIO 2710 (CHEM 2710). Courses (MBIO 2700 and CHEM 2700) and (MBIO 2710 and CHEM 2710) are the same and credit cannot be held for both. Microbiology students will normally register in MBIO 2700 and MBIO 2710, but CHEM 2700 and CHEM 2710 will be regarded as equivalents in the four year Major program.
- Students must note course and grade prerequisites when selecting 3000 and 4000 level Microbiology courses.
- Microbiology MBIO 4530 is not available in this program without special permission.

By careful choice of electives, programs may be selected giving emphasis to various areas of Microbiology, e.g., Biochemistry and Molecular Biology or Environmental and Ecological Microbiology. In choosing optional courses, students should be aware of any prerequisite requirements.

The listed requirements are minimum requirements. Students are reminded that should they wish to take further courses in Microbiology, they are at liberty to do so within the degree regulations.

Major Co-operative Option

A co-operative education option is available for Major students. Students should refer to the Co-operative Education (p. 920) for further information on the Co-op programs.

The course and minimum grade requirements for entry and continuation in the Co-operative Option are the same as those required for the regular Major program. However, the entry and continuation DGPA requirement is set at a minimum of 2.5.

Before beginning their first co-op work term, students are required to complete the first and second year requirements of the program, in addition to MBIO 2710 (CHEM 2710) and CHEM 2720, MBIO 3010 and MBIO 3410.

Degree Requirements

Four Year Major (Including Co-operative Option if Selected)^{1,7,8}

Course	Title	Hours
Year 1		
MBIO 1010	Microbiology I (C+) ²	3
BIOL 1020	Biology 1: Principles and Themes	3
BIOL 1030	Biology 2: Biological Diversity, Function and Interactions	3
CHEM 1100	Introductory Chemistry 1: Atomic and Molecular Structure and Energetics	3
CHEM 1110	Introductory Chemistry 2: Interaction, Reactivity, and Chemical Properties (C+)	3
CHEM 1120	Introduction to Chemical Techniques ³	3
Hours		18

Years 1-2

In Year 1 or Year 2 the following must be completed:		
3 credit hours of Mathematics or Physics chosen from:		3
MATH 1240	Elementary Discrete Mathematics ⁴	
MATH 1300	Vector Geometry and Linear Algebra ⁴	

MATH 1500	Introduction to Calculus ⁴	
PHYS 1020 or PHYS 1050	General Physics 1 or Physics 1: Mechanics	
One of:		3
STAT 1150	Introduction to Statistics and Computing ⁵	
STAT 1000	Basic Statistical Analysis 1 ⁵	
6 credit hours from the Faculty of Arts, which should include the required "W" course		6
9 credit hours of electives		9
Hours		21

Year 2		
MBIO 2020	Microbiology II	3
MBIO/CHEM 2700	Biochemistry 1: Biomolecules and an Introduction to Metabolic Energy	3
MBIO/CHEM 2710	Biochemistry 2: Catabolism, Synthesis, and Information Pathways ⁶	3
CHEM 2720	Principles and Practices of the Modern Biochemistry Laboratory	3
BIOL 2500	Genetics 1	3
BIOL 2520	Cell Biology	3
CHEM 2100	Organic Chemistry 1: Foundations of Organic Chemistry	3
Hours		21

Years 3-4		
MBIO 3010	Mechanisms of Microbial Disease ⁷	3
MBIO 3032	Microbiology III: Physiology and Metabolism	3
MBIO 3410	Molecular Biology ⁷	3
MBIO 3600	Molecular Microbiology Techniques	3
MBIO 3700	Experimental Microbiology Laboratory	3
24 credit hours of Microbiology courses including 15 credit hours at the 4000 level		24
9 credit hours of Microbiology courses or courses chosen from the option list (see below) ⁹		9
12 credit hours of electives		12
Co-op Requirements (if selected):⁷		
SCI 3980	Co-operative Education Work Term 1	0
SCI 3990	Co-operative Education Work Term 2	0
SCI 4980	Co-operative Education Work Term 3	0
SCI 4990	Co-operative Education Work Term 4 (if a 4th work term is selected)	0
Hours		60
Total Hours		120

¹ MBIO 1220 and MBIO 1410 cannot be used to satisfy course requirements in a Major or Honours program.

² MBIO 1010 may be completed in either Year 1 or Year 2. It is recommended that it be completed in the first year.

³ CHEM 1126 may be taken in place of CHEM 1120.

⁴

- MATH 1220 or MATH 1310 may be taken in place of MATH 1300;
- MATH 1230, MATH 1510, MATH 1520 or MATH 1690 may be taken in place of MATH 1500.
- MATH 1200 may be used in place of MATH 1240.

⁵ STAT 1150 is recommended over STAT 1000.

⁶ It is strongly recommended that MBIO 2710 (or CHEM 2710) and CHEM 2720 be completed prior to Year 3 as they are prerequisite to many upper level MBIO courses.

⁷ Students in the Co-operative Option must completed MBIO 3010 and MBIO 3410 before their first employment term.

⁸ IMPORTANT: The four year Major program need not be completed in the manner prescribed in the grid above. The grid indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their program.

⁹ MBIO 4530 may be selected only by special permission.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science

- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty

of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.

- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Physics and Astronomy

Head: Robert Stamps

Campus Address/General Office: 301 Allen Building

Telephone: 204 474 9817

Email Address: physics@umanitoba.ca

Website: sci.umanitoba.ca/physics-astronomy (<https://sci.umanitoba.ca/physics-astronomy/>)

Physics and Astronomy

Physics is the discipline that by experiment and logical analysis examines the laws of nature that form the basis for all relationships and interactions between matter and energy. Knowledge of physics is also essential in other natural sciences, such as chemistry and geology, and to professions such as engineering, medicine and dentistry. Astronomy, the other focus of this department, examines the universe, the earth and the planets, as well as phenomena such as quasars, pulsars, comets, and asteroids; a planetarium and an astronomical observatory are part of this program. In both Physics and Astronomy mathematical skills are developed simultaneously.

The Department of Physics and Astronomy and the Department of Electrical and Computer Engineering have defined focus areas of study within their own programs. Students taking the courses recommended for these focus areas will find it easier to transfer between programs in Physics and Astronomy and Electrical and Computer Engineering programs. Students interested in obtaining more information about transferring to a Physics program from Electrical Engineering should consult with the Head of the Physics department.

Variations in any of the Physics and Astronomy programs may be possible, but must be approved by the head of the department and the Science general office.

Joint Honours

The Department of Physics and Astronomy offers joint Honours programs in conjunction with the Departments of Mathematics, Computer Science, and Chemistry.

Programs

Degree/Diploma	Years to Completion	Total Credit Hours	Has Co-op Option
Physics and Astronomy, B.Sc. Honours (p. 923)	4	120	Yes
Physics and Astronomy, B.Sc. Major (p. 927)	4	120	Yes
Physics and Astronomy Minor (p. 930)		18	

Chemistry - Physics Joint, B.Sc. Honours (p. 858)

Computer Science - Physics & Astronomy Joint, B.Sc. Honours (p. 868)

Mathematics - Physics & Astronomy Joint, B.Sc. Honours (p. 909)

Physics and Astronomy, B.Sc. Honours

Physics and Astronomy Honours Entrance, Continuation, and Graduation Requirements

To enter the Honours programs in Physics and Astronomy, a student must have completed at least 24 credit hours with a minimum DGPA of 3.00, and also obtained a minimum grade of “B” in PHYS 1070, or a “B+” in PHYS 1030. Students are strongly encouraged to complete MATH 1300, MATH 1500 and MATH 1700 in Year 1. Not only are these courses required in the Physics and Astronomy programs, they are required prerequisites to several second year Physics and Astronomy required courses.

To continue in the Physics and Astronomy Honours program, students must maintain a minimum DGPA of 3.00, and complete a minimum of 9 credit hours during each Fall and Winter Term.

To graduate with the B. Sc. Honours degree, a student must achieve a minimum DGPA of 3.00 and minimum grade of “C” in each course that contributes to the 120 credit hours of the degree.

There are a number of awards – the Coish, the C.P. Loewen, the Neamtan, the Roulston, and the Sen Scholarships – available in this program.

Double Honours

The Department of Physics and Astronomy offers a double honours degree in conjunction with the Biochemistry program.

Honours Co-operative Option

A co-operative education option is available to Honours students. Students should refer to the Co-operative Education (p. 926) for further information on the Co-op programs.

The course, grade requirements and the minimum DGPA requirement for entry and continuation in the Co-operative Option are the same as that for the regular Honours program.

Degree Requirements

Honours: Astronomy and Astrophysics (Including Co-operative Option if Selected)

³ Students who have already taken COMP 1010 before joining the program may count COMP 1010 in lieu of COMP 1012. However, students who have not taken COMP 1010 before entering the program must then take COMP 1012.

⁴ Although they are not required courses in the Physics programs, MATH 2080, MATH 2180, and MATH 3340 are recommended electives for the Physics Honours and Four Year Major degrees.

IMPORTANT: The Honours program need not be completed in the manner prescribed in the grid above. The grid indicates the recommended arrangement of the required courses and is meant to be a guide around which students can plan their program.

(Letters in brackets refer to minimum prerequisite standing required for further study.)

Honours: Medical and Biological (Including Co-operative Option if Selected)

Note¹

Hours		30
Total Hours		120

¹ Students must achieve a minimum grade of "C" in all courses contributing to the Honours program.

- ²
- PHYS 1050 and PHYS 1070 are recommended.
 - MATH 1220 may be taken in place of MATH 1300;
 - MATH 1230 or MATH 1510 or MATH 1520 may be taken in place of MATH 1500;
 - MATH 1232 or MATH 1710 may be taken in place of MATH 1700;
 - MATH 1690 may be taken in place of MATH 1500 and MATH 1700.

³ Students who have already taken COMP 1010 before joining the program may count COMP 1010 in lieu of COMP 1012. However, students who have not taken COMP 1010 before entering the program must then take COMP 1012.

⁴ Students may take STAT 1000 and STAT 2000 in lieu of STAT 1150.

IMPORTANT: The Honours program need not be completed in the manner prescribed in the grid above. The grid indicates the recommended arrangement of the required courses and is meant to be a guide around which students can plan their program.

(Letters in brackets refer to minimum prerequisite standing required for further study.)

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Genetics

- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.

- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Physics and Astronomy, B.Sc. Major Physics and Astronomy Four Year Major Entrance, Continuation and Graduation Requirements

The program is intended for students who wish to learn Physics as part of a general education, or combine Physics with other disciplines. There are many options with this degree which might include a career in education, high technology, business, or science journalism. The large number of electives will allow the students to obtain significant background in another field such as Chemistry, Life Sciences, Computer Science, Mathematics, Physical Geography, Geophysics or Geology. In

some cases, these can be recognized formally as a minor or part of a double major program.

To enter the four year Major program in Physics and Astronomy, a student must have PHYS 1050 (C+) or PHYS 1020 (B). In addition, students must have satisfied the faculty requirements for entry to the four year Major program. Students are strongly encouraged to complete PHYS 1070 or PHYS 1030 as well as MATH 1300, MATH 1500, and MATH 1700 in Year 1. Not only are they required courses in the Physics and Astronomy programs, these courses are required prerequisites to several required second year Physics and Astronomy courses.

To continue in the Bachelor of Science Major degree, a student must maintain a minimum DGPA of 2.00.

To graduate with a Bachelor of Science (Major) in Physics and Astronomy, a student must obtain a minimum DGPA of 2.00.

Major Co-operative Option

A co-operative education option is available to Major students. Students should refer to the Co-operative Education (p. 929) for further information on the Co-op programs.

The course and minimum grade requirements for entry and continuation in the Co-operative Option are the same as those required for the regular Major program. However, the entry and continuation DGPA requirement is set at a minimum of 2.5.

Degree Requirements

- ¹
- PHYS 1050 and PHYS 1070 are recommended.
 - MATH 1220 may be taken in place of MATH 1300;
 - MATH 1230 or MATH 1510 or MATH 1520 may be taken in place of MATH 1500;
 - MATH 1232 or MATH 1710 may be taken in place of MATH 1700;
 - MATH 1690 may be taken in place of MATH 1500 and MATH 1700.

- ² Students who do not take PHYS 1070 or PHYS 1030 in Year 1 must postpone PHYS 2600 until Year 3. PHYS 2260, PHYS 2610 and PHYS 2650 may be taken in Year 2 or Year 3 if the respective prerequisites are met.

- ³ Students who have already taken COMP 1010 before joining the program may count COMP 1010 in lieu of COMP 1012. However, students who have not taken COMP 1010 before entering the program must then take COMP 1012.

- ⁴ Although they are not required courses in the Physics programs, MATH 2080, MATH 2180, and MATH 3340 are recommended electives for the Physics Honours and Four Year Major degrees.

IMPORTANT: The four year Major program need not be completed in the manner prescribed in the grid above. The grid indicates the recommended arrangement of the required courses and is meant to be a guide around which students can plan their program

(Letters in brackets refer to minimum prerequisite standing required for further study.)

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point

Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work

term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Psychology

Psychology is the scientific study of behaviour and mental processes, including the biological bases of behaviour and cognitive processes, and behavioural and cognitive neuroscience. The Honours and Major

programs combine courses in Psychology with related courses in Science. Courses from the Faculty of Arts are included in this program. The Faculty of Science offers programs leading to a B.Sc. (Honours) degree in Psychology and a B.Sc. (Major and Major Co-op) degree in Psychology.

Programs

Degree/Diploma	Years to Completion	Total Credit Hours	Has Co-op Option
Psychology, B.Sc. Honours (p. 931)	4	120	
Psychology, B.Sc. Major (p. 932)	4	120	Yes
Psychology Minor (p. 935)		18	

Psychology, B.Sc. Honours

B.Sc. Psychology Honours Entrance, Continuation, and Graduation Requirements

To enter the Honours program, students must have obtained a grade of "B" or better in PSYC 2260 and a grade of "B" in six credit hours in courses offered by the Faculty of Science. In addition, students must have obtained a degree grade point average of 3.50. Introductory courses in Biological Sciences, Chemistry, Computer Science, Mathematics or Statistics are highly recommended.

Students will normally take PSYC 2260 in Year 2 and enter Honours in Year 3. Students who qualify for entry to the Four Year Major in Psychology after Year 1 should choose that option. See the Four Year Major entry requirements for details.

To continue in the Honours program, a student must register in a minimum of 9 credit hours in each Fall and Winter Term and must meet all of the continuation criteria of the Faculty of Science. In addition, students must maintain a minimum degree grade point average of 3.50 based on all courses in the program. Students who do not meet the minimum continuation requirement will be required to withdraw from the Honours program.

To graduate, a student must obtain 120 credit hours of courses with grades of "C" or better in each course and with a minimum degree grade point average of 3.00. In addition, students must complete the program of study in the grid (p. 931).

Note: Psychology courses cannot be used to fulfill either the introductory or advanced level Science requirements in the Three Year B.Sc. General Degree.

Psychology Courses

All Psychology courses are available to Science students.

Psychology courses taught at the Université de Saint-Boniface can be used to satisfy degree requirements.

Psychology, B.Sc. Major

B.Sc. Psychology Major Entrance, Continuation, and Graduation Requirements

To enter the Major program, students must have obtained a grade of "C+" or better in PSYC 1200 (or in both PSYC 1211 and PSYC 1221) and in six credit hours in courses offered by the Faculty of Science and meet the Faculty of Science requirements for entry to the Major program. Introductory courses in Biological Sciences, Chemistry, Computer Science, Mathematics, or Statistics are highly recommended.

To continue in the Major program, a student must meet all of the continuation criteria of the Faculty of Science. This includes maintaining a minimum DGPA of 2.00 at each point of assessment, and no more than 18 credit hours of failing grades after entry to the program. Students who do not meet the minimum continuation requirement will be required to withdraw from the Major program.

To graduate with the degree of Bachelor of Science (Major), a student must complete 120 credit hours of courses with passing grades ("D" or better) in each course, with a minimum DGPA of 2.00. In addition, the student must complete the program of study as listed in the program grid (p. 932).

Major Co-operative Option

A co-operative education option is available for Major students. Students should refer to the Co-operative Education (p. 933) for further information on the Co-op programs.

Entry and continuance in the Four Year Major Co-operative require completion of PSYC 2250 and PSYC 2260 with a grade of "C" or better, and a DGPA of 3.00 or higher. Students who fail to maintain a DGPA of 3.00 while enrolled in the Co-operative Option will be required to withdraw from the option and revert to the Four Year Major or the B.Sc. General.

Note: Psychology courses **cannot** be used to fulfill either the introductory or advanced level Science requirements in the Three Year B.Sc. General Degree.

Psychology courses taught at the Université de Saint-Boniface can be used to satisfy degree requirements.

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point

Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work

term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfill all academic requirements of that degree.

Psychology courses taught at the Université de Saint-Boniface can be used to satisfy degree requirements.

Statistics

Head: Liqun Wang

Campus Address/General Office: 318 Machray Hall

Telephone: 204 474 8172

Email Address: Stats_Dept@umanitoba.ca

Website: sci.umanitoba.ca/statistics (<https://sci.umanitoba.ca/statistics/>)

Statistics

Statistics is a discipline grounded in mathematics that has practical applications in many other areas. Statistics is an analytical discipline that helps other disciplines carry out research projects and studies that involve measurement, comparison, and interpretation. Statistics is a useful ancillary subject to other sciences, the social sciences, and many of the professional programs. The department offers joint programs with Computer Science, Mathematics, Economics and Actuarial Mathematics.

Programs

Statistics, B.Sc. Honours

Statistics Honours Entrance, Continuation, and Graduation Requirements

To enter the Honours program in Statistics, a student must have completed at least 24 credit hours with a minimum DGPA of 3.00, and also obtained a minimum grade of "B" in STAT 2150.

STAT 1150, MATH 1220, MATH 1230, MATH 1232 and MATH 1240 are all requirements of the Statistics Honours degree program and students are strongly encouraged to take these courses in Year 1.

To continue in the Statistics Honours program, students must maintain a minimum DGPA of 3.00, and complete a minimum of 9 credit hours during each Fall and Winter Term.

To graduate with the B.Sc. Honours degree, a student must achieve a minimum DGPA of 3.00 and minimum grade of "C" in each course that contributes to the 120 credit hours of the degree.

Honours Co-operative Option

A co-operative education option is available for Honours students. Students should refer to the Co-operative Education (p. 937) for further information on the Co-op programs.

The course, grade requirements and minimum DGPA requirement for entry and continuation in the Co-operative Option are the same as that for regular Honours program.

Students are required to complete the first and second year requirements of the program; and STAT 2300 and STAT 3450 before beginning their first co-op work term.

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry

- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is

developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student

must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the

academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfill all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfill all academic requirements of that degree.

Statistics, B.Sc. Major

Statistics Major Entrance, Continuation, and Graduation Requirements

To enter the Major Degree program in Statistics, a student must have completed at least 24 credit hours with a minimum DGPA of 2.00, and also obtained a minimum grade of “C+” in STAT 2150.

STAT 1150, MATH 1220, MATH 1230, MATH 1232 and MATH 1240 are all requirements of the Statistics Major degree program and students are strongly encouraged to take these courses in Year 1.

To continue in the four year Major program a student must maintain a minimum DGPA of 2.00.

To graduate from the four year Major program a student must obtain a minimum DGPA of 2.00, and a minimum grade of “C” in the Major Program Specific courses, which include all program required courses (see program grid (p. 939)) and optional courses selected from lists A, B and C.

Major Co-operative Option

A co-operative education option is available for Major students. Students should refer to the Co-operative Education (p. 940) for further information on the Co-op programs.

The course and minimum grade requirements for entry and continuation in the Co-operative Option are the same as those required for the regular Major program. However, the entry and continuation DGPA requirement is set at a minimum of 2.5.

Students are required to complete the first and second year requirements of the program; and STAT 2300 and STAT 3450 before beginning their first co-op work term.

Degree Requirements

Four Year Major (Including Co-operative Option if Selected) ¹

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point

Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work

term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Statistics - Actuarial Joint, B.Sc. Honours

Statistics - Actuarial Mathematics Joint Honours Entrance, Continuation, and Graduation Requirements

The Department of Statistics and the Warren Centre for Actuarial Studies and Research offer a joint Honours program for students wishing in depth study in Statistics and Actuarial Mathematics.

To enter the Joint Honours program, students must have completed 24 credit hours with a minimum DGPA of 3.00. Students must also obtain a minimum grade of "B" in STAT 2150. All of the courses listed in Year 1 of the program grid are program requirements and students are strongly urged to take them in the first year.

To continue in the Joint Honours Statistics - Actuarial Mathematics program, students must maintain a minimum DGPA of 3.00, and complete a minimum of 9 credit hours during each Fall and Winter Term.

To graduate with the B. Sc. Honours degree, a student must achieve a minimum DGPA of 3.00 and a minimum grade of "C+" on all required Actuarial Mathematics (ACT) courses and a grade of "C" on all remaining courses that contribute to the 120 credit hours of the degree.

¹ The following substitutions are allowed:

- MATH 1300 or MATH 1310 in place of MATH 1220,
- MATH 1500 (B) or MATH 1510 (B) in place of MATH 1230,
- MATH 1700 (B) or MATH 1710 (B) in place of MATH 1232.
- STAT 1000 and STAT 2000 (B) in place of STAT 1150.

² Students are strongly urged to complete ACC 1100 in Year 1 when possible. FIN 2200 may be taken in Year 2, 3 or 4; however, it is strongly recommended that it be completed in Year 2. Note that ACC 1100 is a prerequisite for FIN 2200.

³ The 12 credit hours of electives in Statistics in Years 3 and 4 must all be at the 3000 level or higher, at least 9 of which must be at the 4000 level. The following courses are recommended: STAT 3150, STAT 3490, STAT 3550, STAT 3690, STAT 4150, STAT 4250, STAT 4630.

⁴ ACT 4020 and ACT 4030 may be taken in Year 3 or 4.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Statistics - Economics Joint, B.Sc. Honours

Statistics - Economics Joint Honours Entrance, Continuation, and Graduation Requirements

The Department of Statistics along with the Department of Economics (Faculty of Arts) offer a Joint Honours program for students wishing in depth study in Statistics and Economics. For Economics course listings, refer to the Faculty of Arts (p.).

Students will normally take STAT 2150 in second year and enter Honours in Year 3.

To enter the Joint Honours Statistics - Economics program in the Faculty of Science, the student must have a minimum grade of "B" in both of ECON 1010 and ECON 1020 (or ECON 1210 and ECON 1220) and STAT 2150; and have satisfied the Faculty of Science requirements for entry to the honours program. Students are strongly encouraged to take MATH 1220, MATH 1230, MATH 1232 and MATH 1240 in Year 1.

To continue in the Joint Honours Statistics - Economics program in the Faculty of Science, a minimum DGPA of 3.00 is required.

To graduate with the B.Sc. Joint Honours Statistics - Economics degree from the Faculty of Science, a student must achieve a minimum DGPA of 3.00, and a minimum grade of "C" in each course that contributes to the 120 credit hours of the degree.

- STAT 1000 and STAT 2000 (B) in place of STAT 1150.

Students must attain specific grade requirements in order to meet the upper level course prerequisites. Consult course descriptions for further information.

² Of the 21 credit hours of electives in Economics in Years 2, 3 and 4, no more than 6 credit hours may be at the 2000 level or below; ECON 2030 and ECON 3040 are recommended in Year 2 or 3. The normal prerequisite for ECON 3040 is ECON 2040, which will be waived for students in this program who have completed Year 1.

³ The 15 credit hours of electives in Statistics in Years 3 and 4 must all be at the 3000 level or higher, at least 9 of which must be at the 4000 level. The following courses are recommended: STAT 3030, STAT 3490, STAT 3550, STAT 3690, STAT 4150, STAT 4250, STAT 4630.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Statistics - Mathematics Joint, B.Sc. Honours

Statistics - Mathematics Joint Honours Entrance, Continuation, and Graduation Requirements

The departments of Statistics and Mathematics offer a joint Honours program for students wishing in depth study in Statistics and Mathematics. A Co-op Option is available.

To enter the Honours program students must have satisfied the Faculty of Science requirements for entry to the program, and have obtained a minimum grade of "B" in STAT 2150, and either MATH 1232 or MATH 1690 (or a minimum grade of "A" in MATH 1700).

To continue in the Honours program, students must maintain a minimum DGPA of 3.00.

To graduate with the B. Sc. Honours degree, a student must achieve a minimum DGPA of 3.00 and a minimum grade of "C" on all remaining courses that contribute to the 120 credit hours of the degree.

Honours Co-operative Option

A co-operative education option is available for Honours students. Students should refer to the Co-operative Education (p. 945) for further information on the Co-op programs.

The course, grade requirements and minimum DGPA requirement for entry and continuation in the Co-operative Option are the same as that for regular Honours program.

¹ Students are strongly advised to take MATH 1220, MATH 1230, MATH 1232.

The following substitutions are allowed (but not advised), provided the grades indicated in brackets are achieved:

- MATH 1210 (A) or MATH 1300 (A) in place of MATH 1220;
- MATH 1500 (A) or MATH 1510 (A) in place of MATH 1230;
- MATH 1700 (A) in place of MATH 1232;
- MATH 1690 (B) in place of MATH 1230 and MATH 1232;
- STAT 1000 and STAT 2000 (B) in place of STAT 1150.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point

Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work

term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (p. 806).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfill all academic requirements of that degree.

Faculty of Social Work

General Office

Dean: Dr. Michael Yellow Bird

Associate Dean(s): Dr. Maria Cheung- Undergraduate Programs; Dr. Judith Hughes- Graduate Studies & Research

Academic Staff: Please refer to the Faculty's website (<https://umanitoba.ca/social-work/faculty-and-staff/>)

Degree Offered

The Bachelor of Social Work Program

Historically, the social work profession has focused on the well-being of people as well as the social structures and conditions that prevent a just and equal society. The Bachelor of Social Work Program is a

professional program that is designed to prepare generalists who are knowledgeable of social work theories, and who can demonstrate skills related to practice, research, and social policy analysis. Students and graduates undertake these activities in accordance with the Canadian Association of Social Workers' Code of Ethics. The program is accredited by the Canadian Association for Social Work Education.

Graduates have competence for entry-level social work positions in a variety of different practice areas. The program is based on the principles of social justice, human rights, and anti-oppression, with an emphasis on critical thinking and understanding the structural roots of social problems. Foundation courses are grounded in critical theoretical frameworks including Indigenous world views, feminism, and anti-racism.

The program is offered at multiple geographic sites including the Fort Garry Campus, the William Norrie Centre (Inner-city), the Université de Saint-Boniface, and Thompson, Manitoba (Northern Social Work Program) as well as by Distance Delivery.

Faculty Academic Regulations

Admission Requirements

The following is a summary of the admission requirements to the Bachelor of Social Work program. Equivalent academic courses completed at recognized universities elsewhere will be considered. All admission requirements, as well as application deadline dates and forms, are included in an applicant information bulletin that is available from the Admissions Office (<https://umanitoba.ca/admissions/viewbook/academics/#undergraduate-programs-of-study>), Enrolment Services, 424 University Centre; this information is also posted on the university's website.

Admission to the Fort Garry Social Work Program

Admission Requirements

Completion of 30 credit hours of university-level courses which are acceptable to the University of Manitoba.

The written English and mathematics requirements are recommended to be completed as part of University 1. If these requirements are not met in University 1 (i.e. the first 30 credit hours), as per the university policy, they must be completed within the first 60 credit hours of the programs. General Academic Regulations (p. 120) for a complete list of all courses which satisfy the university written English and mathematics requirement. Minimum GPA for consideration for all applicants (including Educational Equity applicants): 2.5

A Criminal Record Statement and a Child Abuse Registry (CAR) check (for a record of those registered as an offender) must be completed following selection.

Selection criteria: Two applicant pools are created; 60% of all spaces are allocated to applicants with the highest grades, and 40% of all spaces are allocated to applicants based on the Education Equity initiative.

Concentrated Program

All applicants wishing to complete the program in two years of full-time study must have completed a minimum of 51 credit hours of

university study (which are acceptable to the University of Manitoba) prior to admission to the BSW program. Applicants wishing to complete the degree through the two-year concentrated program must have an Adjusted Grade Point Average of 3.00 from previous university study. In the event that three credit hours in each of written English and mathematics have not been completed as part of the 51 credit hours of previous university study, they must be completed within the first year of the two-year BSW program.

The deadline for submission of applications is March 1st (for the September start date).

The Selection Process

The selection process is designed to accomplish three objectives: to treat applicants fairly and equitably, to provide the diversity of practitioners required by the profession, and to provide for an efficient admissions process. The faculty selects applicants to the Fort Garry Campus B.S.W. program through two categories as described below.

Academic Achievement Category: 60% of all available positions are awarded on the basis of the highest Adjusted Grade Point Average.

Educational Equity Initiative: 40% of all available positions are allocated to those eligible for inclusion in one or more of the Educational Equity Priority Groups and awarded on the basis of the highest Adjusted Grade Point Average.

The purpose of the Educational Equity initiative is to achieve equality in professional education so that no person shall be denied educational opportunities or benefits for reasons unrelated to ability. In the fulfilment of this goal, the aim is to correct the conditions of disadvantage in professional education experienced by Canadian Indigenous peoples, persons with disabilities, LGBTTTQ, immigrants and refugees to Canada, and persons who are, because of their race or colour, a visible minority in Canada. Giving effect to the principle of educational equity means more than treating persons in the same way; it also requires special measures and the accommodation of difference. Details of the Educational Equity initiative are provided in the application information bulletin.

Students in the Fort Garry Social Work Program must successfully meet the graduation criteria set for all BSW students in the Faculty of Social Work.

Admission to the Inner City Social Work Program

The Inner City Social Work (B.S.W.) ACCESS Program at the William Norrie Centre is an inner-city extension of the Faculty of Social Work. Students admitted to the Inner City Social Work Program are accepted directly into a four-year B.S.W. program and do not require prior university study.

The objective of this program is to enhance the accessibility of the B.S.W. program by preparing as social workers those mature students who have had inner-city or similar social service experience, but who lack the normal university entrance requirements. Special academic and social support is provided to students admitted to the program. Staff assists candidates in arranging funding resources.

All students complete a total of 123 credit hours of university study. Full time or part-time study is offered.

Admission to the Inner City Social Work Program is limited. Applicants to the full-time program must be 21 years old, low income, and residents of Winnipeg at the time of application. The deadline date for submitting applications is March 1. Orientation begins mid-August and is mandatory.

A part-time B.S.W. Access program is offered to individuals who meet the above criteria, work for a Winnipeg or Aboriginal agency, and/or have two years of employment in human service fields. The deadline for applications for part-time studies is February 1. Classes begin the first week in May.

As per the university's policy, all students are required to complete, within the first 60 credit hours of their programs, a minimum of one three credit hour course with significant content in written English, and a minimum of one three credit hour course with significant content in mathematics.

Please refer to the Calendar's General Academic Regulations for a complete list of all courses which satisfy the university written English and mathematics requirement.

Students at the Inner City Social Work Program must successfully meet the graduation criteria set for all BSW students in the Faculty of Social Work. For further information, contact:

Inner City Social Work Program
485 Selkirk Avenue
Winnipeg, Manitoba, R2W 2M6
Telephone: (204) 668-8160

Admission to the Northern Social Work Program

The Northern Social Work (B.S.W.) ACCESS program, based in Thompson Manitoba, is an extension of the Fort Garry Faculty of Social Work. Students are admitted directly into a four-year B.S.W. program and do not require prior university study.

All students complete a total of 123 credit hours of university study. Full time or part-time study is offered.

The objective of this program is to enhance the accessibility of the B.S.W. program by preparing as social workers mature students who, without the support of the program, would be unable to successfully complete a university degree due to lack of financial resources, lack of academic qualifications and remote location. Special academic and personal support is provided to students admitted to the program, as well as some assistance in arranging funding resources.

Students who have completed 30 credit hours of university-level courses and have a minimum GPA of 2.5 may apply as External Students.

Admission to the Northern Social Work program is limited. Applicants must meet specified northern residency requirements. The deadline date for submitting applications is March 1 (classes begin in September).

As per the university's policy, all students are required to complete, within the first 60 credit hours of their programs, a minimum of one three credit hour course with significant content in written English, and a minimum of one three credit hour course with significant content in mathematics. Please refer to the Calendar's General Academic Regulations (p. 120) for a complete list of all courses which satisfy the university written English and mathematics requirement. Students in the Northern Social Work program must successfully meet the graduation criteria set for all BSW students in the Faculty of Social Work. For further information, contact the:

Faculty of Social Work at Thompson
3 Station Road
Thompson, Manitoba, R8N 0N3
Telephone: (204) 677-1450

Admission to the Distance Delivery Social Work Program

The Faculty of Social Work is committed to the accessibility of social work education. The faculty has extended the concept of accessibility to include geographical accessibility through the delivery of the B.S.W. based on two approaches:

1. to individuals by means of an online study program and
2. to community-based groups using the cohort method.

The Distance Delivery B.S.W. program is intended to encourage individuals who are employed in the social services and living outside of Winnipeg, but who may not have had the opportunity to pursue professional social work education.

All students complete a total of 123 credit hours of university study. Full time or part-time study is offered.

Delivery methods for the online study component of the program include a combination of web conferences and online courses. Access to a computer, high-speed internet and a headset with a microphone is required.

All course examinations are scheduled and arranged by the university's Registrar's Office to take place in the student's community.

Delivery of the program to the community-based cohorts utilizes face-to-face delivery with the option of a combination of face-to-face, web conferences, and online study.

Applicants to the Distance Delivery B.S.W. program must meet all three of the following requirements to be admitted into the program:

- Residency outside of the city of Winnipeg; and
- 1 year (1750 hours) of work experience, within the last 5 years, in the social services; and
- Minimum of 30 credit hours of university-level courses which are acceptable to the University of Manitoba, with a minimum GPA of 2.5 for consideration of all applicants, including Educational Equity applicants.

Complete and detailed admissions information is available on our website or by calling the Faculty of Social Work Distance Delivery BSW General Office at 204-474-7912.

The deadline for submission of applications is March 1st (for the September start date).

As per the university's policy, all students are required to complete, within the first 60 credit hours of their programs, a minimum of one three credit hour course with significant content in written English, and a minimum of one three credit hour course with significant content in mathematics. Please refer to the General Academic Regulations (p. 120) for a complete list of all courses which satisfy the university written English and mathematics requirement.

Students in the Distance Delivery B.S.W. program must successfully meet the graduation criteria set for all BSW students in the Faculty of Social Work.

The Université de Saint-Boniface

The Université de Saint-Boniface, in conjunction with the University of Manitoba, now offers a French language Bachelor of Social Work program. Please contact the Program Coordinator at 204 237-1818 ext. 447 for more information.

Special Student Admission & Students Enrolled in other Faculties/Schools

Special Student Admission

A Special Student in Social Work is one who wishes to take undergraduate Social Work courses with no intentions of proceeding to a B.S.W. degree at the present time. In addition, the student is not currently registered at any other university. Students seeking admission as Special Students may request information from the Faculty of Social Work, 521 Tier Building; telephone (204) 474 7050. Criteria for admission are:

- Successful completion of a minimum of 30 credit hours of university level courses which are acceptable to the University of Manitoba; and
- Adjusted Grade Point Average of 2.5 (C+).

Students are reminded they must apply online and submit an official transcript (one bearing the university seal) along with the application form available on the University of Manitoba website. An application fee applies. Once admitted as a Special Student, students will:

- Be limited to completion of nine credit hours of required social work courses plus SWRK 1310 and SWRK 2080.
- Be prohibited from registering for courses until August (refer to Aurora Student for specific dates).
- Have all courses classified as "SS," which means that grades for these courses may not generate a Grade Point Average.

Students Enrolled in other Faculties/Colleges/Schools

Students currently enrolled in other faculties, colleges or schools at the University of Manitoba may register for Social Work courses provided they have completed a minimum of 30 credit hours of university study and achieved a minimum Cumulative Grade Point Average of 2.5. These students will also be limited to completion of SWRK 1310 and SWRK 2080 plus nine credit hours of required social work courses.

Courses available to Special Students and students enrolled in other faculties, colleges and schools at the University of Manitoba:

Faculty Academic Regulations

Limited Access (see University Policy and Procedures-Limited Access section 2.5 (p. 60)) will not affect registration for the 2021-2022 Academic Year (including Summer Term 2022).

The provisions of the General Academic Regulations (p. 120), and the University Policies and Procedures (p. 42), apply to all students. In addition, the Faculty of Social Work has regulations and requirements, published below, that apply specifically to its students.

All students are asked to note that some academic policies and regulations are under review and are subject to change.

Prerequisite and Co-requisite Policy

The faculty has established a set of pre-/co-requisite requirements to assist students in planning their program of study. All students must abide by the pre- and corequisite requirements for all courses. Any exceptions to the pre- and corequisite policy MUST be approved by the Committee on Academic Standings prior to course registration.

If a student successfully completes a course for which a pre/co-requisite requirement has not been satisfied, this course will not be considered applicable to their BSW program.

Residence Requirements for a Degree Program

The general university residence requirement applies to the Faculty of Social Work.

Scholastic Progress

Except in circumstances covered in the official regulations referred to below, clear standing in the faculty requires the Degree Grade Point Average of 2.5 (C+) at the end of each term. A minimum grade of 2.0 (C) is required for all Social Work courses. The passing grades for electives taken in other faculties, colleges or schools are those required by the faculties, colleges or schools concerned. Complete statements of the regulations governing scholastic progress in the Faculty of Social Work are published in the B.S.W. Student Handbook. Students wishing to do so may consult the policy governing scholastic progress as written in the B.S.W. Student Handbook with the Chair of the Committee on Academic Standings, or the Dean. In the event of any question or dispute, this set of regulations shall be considered the official version. Directors of off-campus programs and the Student Services and Admissions/ Advising Office at Fort Garry Campus will advise students on issues concerning scholastic progress.

1. The Scholastic Progress document listed in the BSW Student Handbook is intended to be a supplement to the University of Manitoba Undergraduate Academic Calendar. Should discrepancies exist between the information presented in the BSW Student Handbook and the Undergraduate Calendar, the latter shall prevail.
2. Decisions about a student's scholastic progress or required withdrawal on academic grounds are made by the Committee on Academic Standings of the Faculty of Social Work acting on behalf of the Faculty Council. These decisions are made after a student has completed 30 credit hours of coursework as a Faculty of Social Work student. For students that transfer in 51 to 60 credit hours, decisions will be made upon the completion of the initial 15 credit hours as a Faculty of Social Work student.
3. A student's degree grade point average (DGPA) will be calculated and recorded after each academic term in which the student registers.
4. Clear academic standing is required to continue in the Faculty of Social Work. Clear academic standing is attained by meeting all of the following requirements:

- a. A minimum grade of "C" (2.0) in all social work courses and a minimum grade of "D" in non-social work elective courses.
 - b. A minimum average of "C+" in all courses taken prior to each review (DGPA a minimum of 2.5).
5. Permission of the Committee on Academic Standings is required to alter any pre-requisite or co-requisite requirements, for exceptional circumstances. Violation of pre/co-requisite policy will result in withdrawing a student from the course to which pre/co-requisite has not been completed.
 6. A student who has not attained clear academic standing as defined by Section 4 above will have their academic status reviewed by the Committee on Academic Standings:
 - a. A student who passes all courses, but whose DGPA is less than 2.5 minimum may be permitted to proceed on probation for one academic period (as determined by Committee on Academic Standings) unless the DGPA is less than 2.0. To clear probation, a student must raise their DGPA to 2.5 by the end of the probationary period. A student may not be permitted to proceed in the concentrated program if they are on probationary status.
 - b. A student who passes all courses, but whose DGPA is less than 2.0 may be required to withdraw from the Faculty of Social Work. The Committee on Academic Standings will take into consideration:
 - i. Performance in pass/fail courses;
 - ii. Use of academic and personal supports in the program; and
 - iii. Life circumstances affecting academic performance.
 - iv. Students in ACCESS programs (ICSWP and Northern BSW program) and cohorts.
 - c. A student who fails a non-social work course is subject to the regulations for supplemental privileges of the department concerned. Students should note, nonetheless, that all non-social work elective requirements must be completed.
 - d. A student who fails to meet the required standard (as per Field Evaluation Form) in Field Instruction may be allowed an extension/addendum, or may be required to repeat, or may be required to withdraw.
 - e. Unless approved by the Committee on Academic Standings, a student shall not be permitted to alter the co-requisite requirement for Field Instruction and Practices. Appeals notwithstanding, a student must have obtained a clear standing in Field Instruction 1 (SWRK 3150) and 6 credit hours of Practices (SWRK 4200), (including DGPA of 2.5 minimum) or permission of the Committee on Academic Standings in order to proceed to Field Instruction 2 (SWRK 4120) and an additional 6 credit hours of Practices (SWRK 4300).
 - f. No social work course where a final grade is achieved may be repeated more than once.
 - g. A student with a failing grade in more than two courses shall be required to withdraw from the Faculty of Social Work.
 - h. All students must complete within the first 60 credit hours, three credit hours in written English and three credit hours in Mathematics as part of the BSW degree requirements. Students who have not completed their Mathematics or Written English Requirements within the first 60 credit hours will be placed on hold and be required to speak to their Academic Advisor.
 - i. Unless approved by the Committee on Academic Standings, a student shall not be permitted to repeat a required or elective course or substitute an elective course for another.
- In making a decision, the Committee on Academic Standings will take into account the overall academic performance of the student, recommendations of the student's instructors, and any particular circumstances of the student's situation which it deems to be relevant.
7. Subject to the provisions of # 6 above, failure to attain clear academic standing, or to clear probationary status, are grounds upon which a student shall be required to withdraw from the Faculty of Social Work. When a student is to be considered for a requirement to withdraw subject to the provisions of # 6, the student shall be notified by mail of the date, time and place for the Committee on Academic Standings review meeting. The student shall receive a minimum of ten (10) working days' notice of the meeting date. They may present oral and/or written submissions at such a meeting and may bring an advocate to speak on their behalf. The Chair of the Committee on Academic Standings shall be notified prior to the meeting if the student intends to appear before the Committee.
 8. Students must complete all their social work courses and non-social work electives within nine (9) years. Requests for extensions to go beyond the nine-year limit must be submitted to the Committee on Academic Standings for their assessment and possible approval prior to the time limit expiry date. The maximum time limit for an extension is two years. The Committee shall also determine which, if any, courses previously completed shall need to be repeated or replaced.
 9. Along with provisions in # 8 above, Social Work subject courses in the BSW program are valid for 9 years counting from when the student completed the course, including courses taken prior to admission. If a Social Work course expires while the student is still in the Faculty of Social Work, they will be required to repeat the course to fulfil the BSW degree requirements.
 10. Students in clear academic standing who plan to re-register should ordinarily indicate their intention to do so by the deadline for applications for admission prior to the session in which they intend to register.
 - a. Students in clear academic standing who withdraw from the BSW Program for less than two calendar years and are within their nine-year limit may re-register by applying to the Program Site (Fort Garry, Inner City Social Work Program, Thompson or Distance Delivery) of the Faculty of Social Work.
 - b. Students in clear academic standing seeking to continue their BSW Program after a two calendar year, or more, absence, but within their nine-year limit and who have not registered with another faculty or institute during their absence, must submit a written request to the Committee on Academic Standings for re-entry.
 - c. Students wishing to re-enter the Faculty who have exceeded their nine-year limit, or who have registered in another faculty or institute during their absence must re-apply for admission to the Faculty through normal application procedures.
 11. Students may ask the Committee on Academic Standings for reconsideration of any Standings decision, except the requirement to withdraw on academic grounds. Reconsideration requests should normally be received in writing by the Chair of the Committee of Academic Standings within ten working days of notification of a decision. Students who request a reconsideration shall be informed of the date, time and place of a reconsideration meeting. They may present oral and/or written submissions at such a meeting, and bring an advocate to speak on their behalf. All decisions of the Committee may be appealed to the Senate Committee on Appeals.

12. Notwithstanding the above regulations, students are reminded that the Senate has granted to the Councils of each professional Faculty the right to require any student to withdraw from the program for which they are enrolled. A full statement of the conditions governing this right is found in the following section on Requirement to Withdraw Criteria and Procedures.
13. A student who has been required to withdraw on academic grounds and who wishes to re-enter the Faculty must request reinstatement from the Committee on Academic Standings. The following will apply in such cases:
 - The applicant will be expected to demonstrate that they will now be able to meet the academic requirements of the program.
 - No application for reinstatement will be considered before a minimum period of 2 years has elapsed from the effective date of the required withdrawal to the effective date of the requested reinstatement.
 - If the student is reinstated after the time limit for program completion has expired, the Committee shall determine which, if any, courses previously completed shall be repeated or replaced.
14. Students wishing to re-enter the Faculty who have registered in another faculty or institute during their absence must re-apply for admission to the Faculty through normal application procedures. A student required to withdraw as a result of proceedings under the provisions of the Professional Unsuitability By-Law, or the Student Discipline By-Law (p. 86), will not normally be reinstated to the Faculty. Exceptional requests may be directed to the Dean of the Faculty.
15. As per the co-requisite policy of the Faculty, when a student withdraws from a Field Instruction course (SWRK 3150, SWRK 4120) the Faculty will automatically withdraw the student from the co-requisite course (Field Focus – SWRK 4200, SWRK 4300). Additionally, when a student withdraws from a Field Focus course (SWRK 4200, SWRK 4300), the Faculty will automatically withdraw the student from the co-requisite course (Field Instruction – SWRK 3150, SWRK 4120).
16. The Faculty's policy concerning voluntary withdrawal from courses is identical to that found in the general regulations for the University, with the exception of co-requisite courses. Students are allowed one voluntary withdrawal from SWRK 3150 and one voluntary withdrawal from SWRK 4120.
17. BSW students who are enrolled in the Fort Garry campus, Inner City Social Work Program and Northern Social Work Program may take up to 6 credit hours of online Social Work courses by Distance Delivery. A student requesting to take more than 6 credit hours of distance delivery courses will require approval of the Associate Dean Undergraduate.
18. As a requirement by the Social Work accreditation standards provided by the Canadian Association of Social Work Education (CASWE), a minimum of 40% of BSW degree requirements must be non-social work courses. A minimum of 48 credit hours of non-social work courses must make up the elective requirement of the BSW degree in order to graduate from the program.

Professional Unsuitability Bylaw

The Senate has approved a bylaw granting authority to the faculty to require a student to withdraw for reasons of professional unsuitability (see University Policy and Procedures- Student Discipline Bylaw (p. 86)). The bylaw is published in the B.S.W. Student Handbook. Students are reminded of their obligation to be familiar with all regulations governing their continued progress in the program.

Dean's Honour List

BSW student eligibility for the Dean's Honour List is considered on a term by term basis. To qualify for the Dean's Honour List a student must:

- Have completed a minimum of 9 credit hours in the term under consideration, of which a minimum of 6 credit hours must be with a standard grade.
- and
- Have achieved a minimum Term GPA of 3.6

Pass/Fail courses are included in the credit hour count.

Appeal of Grades

The general university policy for appeal of assigned grades applies to the Faculty of Social Work.

Final Examinations & Final Grades Policy (p. 53)

The Faculty Council has established the Academic Standing Appeals Committee to deal with these matters.

Distance Courses Open to Fort Garry, Inner City and Northern Social Work Students

Fort Garry, Inner City, and Northern BSW students may obtain up to a maximum of 6 credit hours of required social work courses by Distance Delivery. A student requesting to take more than 6 credit hours requires the approval of the Associate Dean (Undergraduate).

Opting Into Field and Practices of the Two-Year Plan

Students may apply for "opt-in" by fulfilling the following conditions:

- Consult with and submit written request for "Opt-in" to the Coordinator of Student Services and Admission/Advising Office and Field Coordinator no later than February 1.
- Successfully complete all Social Work courses required by the end of Winter term prior to opt-in year (except for SWRK 4210, SWRK 4200, SWRK 4300, SWRK 3150 and SWRK 4120) and
- Successfully complete all elective courses (including written English and mathematics requirements) by the end of the Winter term prior to opt-in year.
- Achieve a minimum Degree Grade Point Average of 3.00 at point of opting in.
- Final approval to opt-in is also based on faculty resources: space availability in SWRK 4210 and SWRK 4220 during Summer Session; space availability in SWRK 4200 and SWRK 4300 courses in Fall and Winter terms; and the availability of concentrated field placements.

Courses Open to Challenge for Credit

The Faculty of Social Work accommodates those students who are qualified and who can demonstrate acceptable knowledge and skill, by allowing them to challenge certain Social Work courses. They are:

Course	Title	Hours
SWRK 2080	Interpersonal Communication Skills	3
SWRK 3100	Systematic Inquiry in Social Work	3
SWRK 3130	Contemporary Canadian Social Welfare	3

Information on the procedures for a challenge is available in the B.S.W. Student Handbook. The dates at which courses may be challenged are given in the academic schedule of the Undergraduate Calendar.

Credit for Social Work Courses Taken at Other Universities

The Faculty of Social Work supports the principle of granting credit for social work courses taken within the last nine years in accredited programs leading to professional social work qualification. Equivalency shall not be granted for SWRK 3150 or SWRK 4120. The Faculty of Social Work will not entertain requests for consideration for equivalency transfer for the SWRK 4200 which is a co-requisite to SWRK 3150 and/or SWRK 4120. For more information on granting credits for social work courses please refer to the B.S.W. Student Handbook for more details.

Program and Graduation Requirements

General Information

When planning your workload, allow approximately two hours of study/reading time for each hour of class time. It is also advisable to schedule a time to use the library. The faculty will offer as many evening courses as possible each year; however, some courses may only be available during the daytime.

Field Instruction

Field instruction provides students with an opportunity to engage, as beginning practitioners, in the processes of social work assessment, planning, intervention, evaluation and integration of theory from classroom course work to placement setting. Students complete their field placement requirements in a variety of programs and agencies. Possible field placement sites may include school settings, government policy departments, correctional services, child and family services, immigrant and refugee services, and health care services and other settings.

Students must successfully complete the following pre-requisite course requirements and be in the appropriate year of their degree plan to be eligible to register for Field Instruction:

Course	Title	Hours
SWRK 1310	Introduction to Social Welfare Policy Analysis	3
SWRK 2080	Interpersonal Communication Skills	3
SWRK 2090	Human Behaviour and Social Work Practice	6
SWRK 3140	Introduction to Social Work Practice	3

The annual deadline for Field Applications: February 1

Students wishing to divert from their degree plan should consult with their Academic Advisor and/or the Coordinator of Student Services and Admissions/Advising Office before February 1, of the Academic year they wish to pursue Field Instruction.

All B.S.W. students are required to complete two field placement requirements:

Course	Title	Hours
SWRK 3150	Field Instruction 1	12
Co-requisite course:		
SWRK 4200	Field Focus of Social Work Practice	
SWRK 4120	Field Instruction 2	12
Co-requisite course:		
SWRK 4300	Field Focus of Social Work Practice 2	

Co-requisite: A course that must be completed in the same term as a second course. This applies to SWRK 3150 and SWRK 4200 as well as SWRK 4120 and SWRK 4300. SWRK 3150 and SWRK 4120 is graded on a PASS/FAIL basis. The Field Focus of Social Work Practice course

(SWRK 4200/SWRK 4300) selected should correspond as closely as possible to the Field Placement’s area of practice.

University-appointed, agency-based Field Instructors who have knowledge, skills, and expertise in social work practice provide Field Instruction.

Faculty Field Liaisons are also appointed and available to provide support to Students and Field Instructors throughout the academic session.

Students must demonstrate readiness for practice during the process of securing a placement.

The Field Coordinator is the Instructor of Record for SWRK 3150 and SWRK 4120.

Students seeking field placement in a health-related setting are expected to comply with the immunization policies of the designated Health Authority in their region or community area.

All students must meet all agency-specific requirements prior to commencing field placement, such as; Child Abuse Registry Checks, Vulnerable Sector Record Checks and Criminal Record Checks, or others as determined and specified by the respective field agency. Please note students will be responsible for any additional fees associated with the above requirements.

If concerns are raised regarding a student’s behaviour, judgment or practice, and/or if the student demonstrates difficulty in their attempts to attain confirmation of field resulting from their performance in the field interview process: the Field Coordinator and Associate Dean of Undergraduate Programs will determine what additional steps may be taken to resolve this matter, or may determine the student is unprepared for meeting the requirements of field placement at this time.

Students are expected to demonstrate initiative and participate actively in all aspects of field placement. If a student is unable to attend field placement due to illness or agency closure, they must make up the field hours for that particular day.

Students are permitted one voluntary withdrawal from the course SWRK 3150 and one voluntary withdrawal from the course SWRK 4120. If a student withdraws from SWRK 3150, they must withdraw from the co-requisite SWRK 4200 and if a student withdraws from SWRK 4120, they must withdraw from co-requisite SWRK 4300. A student with more than one voluntary withdrawal from SWRK 3150 or SWRK 4120 shall be required to withdraw from the Faculty.

If a student fails SWRK 3150 course or SWRK 4200 they cannot take SWRK 4120 or SWRK 4300 until both SWRK 3150/SWRK 4200 requirements met. Students need to complete both SWRK 3150 and SWRK 4200 to proceed to SWRK 4120 and SWRK 4300. In Accelerated Field/Concentrated Field, if a student fails SWRK 3150 in the Fall Term, they are permitted to continue their SWRK 4200 course through to the end of Winter term. As a result of failing SWRK 3150, in January, you are required to withdraw from both SWRK 4120 and SWRK 4300. Students interested in taking their placement at their place of employment should consult the BSW Handbook for more details on the policy and procedure

Prior Learning Assessment and Recognition (PLAR)
SWRK 3152

PLAR is an option available to any BSW student, regardless of program delivery method.

Any BSW student who has two or more years of Social Work employment experience in the past 5 years may choose to apply for eligibility to register for SWRK 3152 PLAR, in lieu of their first field placement requirement. For more information on how to apply or explore PLAR, please see the website (<https://umanitoba.ca/social-work/>).

The annual deadline to apply for PLAR: December 1

Students enrolled in PLAR are required to complete:

Course	Title	Hours
SWRK 3152	Prior Learning Assessment and Recognition of Field Practice	12
Co-requisite course:		
SWRK 4200	Field Focus of Social Work Practice	

To connect with the Field Education Program Team specific to your program, please see the website (https://umanitoba.ca/faculties/social_work/programs/field_education/595.html).

Fort Garry Campus and Inner City Social Work Program

Prior to applying for field placement, students are expected to participate in the *Everything you wanted to know about Field* workshop and *The Résumé and Interview Preparation* workshop offered at Fort Garry and Inner City programs prior to Field Information Day. Students are required to e-mail a completed Field Application form, along with an updated résumé, on or before Feb. 1 to the Field Program Assistant.

Please refer to the Field Education Program section of the website for more information.

Most Field Placement agencies will require that the student participate in an interview process and will indicate to the Field Coordinator acceptance for Field Placement.

Upon receipt of the student's completed Field Application Form, new users to the Intern Placement Tracking (IPT) program will receive a temporary password, user name and an IPT Student Manual. In IPT, students are required to identify up to eight agency preferences for placement, due on or before March 1st. Field placements will not be secured for students who do not submit their request, along with all required documentation, by the aforementioned deadline dates.

The Field Coordinator is responsible for securing a reasonable Field Placement. Please note, student placement in a field setting is **not guaranteed** based on completion of pre-requisite courses and/or submission of a Field Application Form. Please note: Fort Garry Campus and Inner City Social Work Program Students are not to contact field placement agencies or prospective Field Instructors directly.

The Field Coordinator or Field Program Assistant refers students eligible for field to an appropriate field placement agency for consideration of an interview. While efforts will be made to consider a student's field focus area of interest, there is no guarantee of a student being placed in one of her/his identified agency preferences. The final authority for field placement referral and confirmation rests with the Field Coordinator. Decisions may be based on the availability of agency openings as well as the educational needs of the student. Students who are offered a field placement will receive confirmation of the placement by e-mail.

All Fort Garry and Inner City students registered in the Fall/Winter term Field Instruction courses (SWRK 3150 and SWRK 4120) are required to attend field orientation on the first Tuesday of September. As attendance

at field orientation is mandatory, regular classes are not scheduled on the first Tuesday in September.

Students requiring additional information may contact the Field Program Assistant at 204-474-6171 or the Field Coordinator at 204-474-8767.

Fort Garry Campus Regular 3 year Program

Students registered in SWRK 3150 or SWRK 4120 attend field placement two days per week (15 hours) during Fall/Winter terms. Students require a minimum Degree Grade Point Average (D.G.P.A.) of 2.5 to be eligible for field.

Fort Garry Campus Concentrated Program

Students attend field placement four days per week (30 hours) during Fall/Winter terms for a total of 840 hours, participating in one field placement only. Students contemplating switching to a concentrated field placement are required to have maintained a minimum Degree Grade Point Average (D.G.P.A.) of 3.0. Students should make themselves aware of eligibility requirements of the Concentrated Program and contact the Coordinator of Student Services and Admissions/Advising Office for confirmation of their eligibility no later than February 1.

Inner City Social Work Program

Students registered in SWRK 3150 or SWRK 4120 attend field placement two days per week (15 hours) during Fall/Winter terms. Students require a minimum Degree Grade Point Average (D.G.P.A.) of 2.5 to be eligible for field.

Inner City Social Work Program - Accelerated Field

Students who have completed 75 credit hours including required pre-requisites and have maintained a minimum Degree Grade Point Average (D.G.P.A.) of 3.0 are eligible to apply for the ICSWP Accelerated Field. Students attend field placement four days per week (30 hours) during Fall/Winter Terms for a total of 840 hours, participating in one field placement only. Inner City Social Work Program (ICSWP) students interested in pursuing Accelerated Field are encouraged to consult with their Academic Advisor to confirm eligibility and receive guidance on the procedure. Students wishing to do an Accelerated Field must submit a written request to the Director of ICSWP. If approved, written documentation from the Director can be attached to the student's Field Request Form, February 1.

Students eligible for the ICSWP Accelerated Field undertake Field Instruction 1 (SWRK 3150) and Field Instruction 2 (SWRK 4120) at one field placement between September and April. Students approved to take Accelerated Field must also register for two co-requisite Field/Focus of Social Work Practice (SWRK 4200 and SWRK 4300) courses.

Fort Garry Campus and Inner City Social Work Program Summer Term SWRK 4120 (May-August)

Summer field placements are an opportunity for BSW students from Fort Garry Campus and ICSWP to complete SWRK 4120 over a shorter period than the regular Fall/Winter academic session. It is an exception to the usual mode of field education at the BSW level. It is offered for the convenience of students and when resources permit it. Please note: SWRK 3150 is not offered in summer session.

Students require a minimum Degree Grade Point Average (D.G.P.A.) of 3.0 to be eligible to apply for Summer Field. Students in SWRK 4120 in the summer term must register for the co-requisite course SWRK 4300.

Students who have previously received a grade of **fail** in SWRK 3150 are not eligible to take SWRK 4120 in summer session. Students who have

previously failed SWRK 4120 and have been given the opportunity to repeat it are not eligible to repeat SWRK 4120 in summer session.

Fort Garry Campus and Inner City Social Work Program

Please refer to the BSW Handbook for more details pertaining to Field Instruction Taken at Place of Employment[1]

Northern Program

Students work closely with the Field Coordinator in preparing for and securing an appropriate field placement. Please note a student placement in a field setting is not guaranteed based on completion of pre-requisite courses.

3rd Year Students complete SWRK 3150

Students are required to complete 460 hours including 420 hours in field placement and 40 hours of integrated seminar. Students approved as eligible for field require a minimum Degree Grade Point Average (D.G.P.A.) of 2.5.

4th Year Students complete SWRK 4120

Students are required to complete 460 hours including 420 hours in field placement and 40 hours of integrated seminar. Students approved as eligible for field require a minimum Degree Grade Point Average (D.G.P.A.) of 2.5.

Students requiring additional information may contact the Field Coordinator at 204-677-1456.

Distance Delivery Program

The student is responsible for securing their own Field Placements and need to follow the guidelines for securing Field Placements as per the website:

Distance Delivery Field Education Program (<https://umanitoba.ca/explore/programs-of-study/social-work-distance-delivery-bsw/>)

Students applying for field placement for the:

- **Fall/Winter Term (September to April):**

Students must attend a Field Preparation web conference offered throughout the months of September to January and submit a completed Field Application Form by February 1st. Students approved as eligible for field require a minimum Degree Grade Point Average (D.G.P.A.) of 2.5. Students will be required to complete a Field Preparation module outlining guidelines and procedures for applying and securing placements across Canada.

Students registered in SWRK 3150 or SWRK 4120 in Fall/Winter terms (September to April – 28 weeks) attend field placement two days or 15 hours per week for a total of 420 hours. Students who are approved for Field must also register for the co-requisite Field Focus of Social Work Practice (SWRK 4200 or SWRK 4300) course.

- **Summer Term (May to August):**

Students must attend a Field Preparation web conference offered throughout the months of September to January and must submit a completed Field Application Form by February 1. Students require a minimum Degree Grade Point Average (D.G.P.A.) of 3.0 to be eligible to apply and will be required to complete a Field Preparation module outlining guidelines and procedures for applying and securing placements across Canada.

Students registered in SWRK 3150 or SWRK 4120 in the Summer term (May to August -14 weeks) attend field placement four days or 30 hours per week for a total of 420 hours. Students who are approved for Field must also register for the co-requisite Field Focus of Social Work Practice (SWRK 4200 or SWRK 4300) course.

- **Accelerated Field Fall/Winter Term (September to April)**

Field Instruction 1 (SWRK 3150) and Field Instruction 2 (SWRK 4120)

- Students who have completed 75 credit hours including required pre-requisites and have maintained a minimum Degree Grade Point Average (D.G.P.A.) of 3.0 are eligible to apply for Accelerated Field. Students complete SWRK 3150 September – December followed by SWRK 4120 January – April. Students registered in Accelerated Field Instruction attend field placement four days or 30 hours per week for a total of 840 hours by end of term in April.

Students who are approved to take Accelerated Field must also register for two co-requisite Field Focus of Social Work Practice (SWRK 4200 and SWRK 4300) courses.

All students registered in Distance Delivery Field Instruction courses (SWRK 3150 and SWRK 4120) are required to complete several Field Instruction Modules and participate in a one-hour web conference prior to entering field placement. Completion of the Field Instruction Modules and attendance at Field Instruction Web Conference is mandatory.

Students requiring information may contact the Distance Delivery Field Assistant at 204-474-9537 or the Distance Delivery Field Coordinator at 204-474-8316

Field placements will not be approved for students who do not submit the completed Field Application Form by the deadline date. Final approval for field placement rests with the Distance Delivery Field Coordinator. Decisions may be based on the availability of agency openings as well as the educational needs of students.

Requirements for Graduation

Eligibility for graduation is contingent upon:

- The successful completion of 72 credit hours of required Social Work courses; successful completion means attaining a minimum grade of "C" in all Social Work courses and a minimum Degree Grade Point Average (D.G.P.A.) of 2.50 (C+).
- As a requirement by the Social Work accreditation standards provided by the Canadian Association of Social Work Education (CASWE), a minimum of 40% of BSW degree requirements must be non-social work courses. A minimum of 48 credit hours of non-social work courses must make up the elective requirement of the BSW degree in order to graduate from the program.
- The successful completion of 51 credit hours of electives. Students admitted after 1997/98, are required to successfully complete three credit hours of written English and three credit hours of Mathematics within the first 60 credit hours of their programs. The passing grades for electives taken in other faculties, colleges or schools are those required by the faculties, colleges or schools concerned. A minimum of "C" must be attained in Social Work electives. The minimum Degree Grade Point Average (D.G.P.A.) required for graduation is also 2.50 (C+).

- Total credit hours required for a B.S.W. are 123 (51 credit hours of electives + 72 credit hours of required Social Work courses)

Student Responsibilities

It is the student's responsibility to be familiar with all the requirements of the B.S.W. degree, to ensure compliance with degree program requirements, including prerequisite requirements, and to understand all relevant regulations, policies and practices. The final completion of degree requirements is the student's responsibility.

The Interfaculty Option in Aging is offered by the following faculties/colleges: Arts, Agriculture and Food Sciences, Medicine, Nursing, Kinesiology and Recreation Management, and Social Work. To complete the option, students will complete each of the following requirements:

Course	Title	Hours
NURS 2610 or KIN 2610	Health and Physical Aspects of Aging	3
SWRK 2650 or FMLY 2650	The Social Aspects of Aging ¹	3
or		
SWRK 3150 or SWRK 4120	Field Instruction 1 Field Instruction 2	12
SWRK 4200 or SWRK 4300	Field Focus of Social Work Practice Field Focus of Social Work Practice 2	6

¹ These courses are offered on a rotational basis by participating units.

Students are encouraged to take courses from the participating units other than Social Work.

Upon the successful completion of these requirements, a notation will be added to the student's transcript. For further information on the Interfaculty Option in Aging, please refer to the website (<https://umanitoba.ca/explore/programs-of-study/aging-interfaculty-option/>).

Social Work, B.S.W.

Curriculum Outline

Students should contact their Academic Advisors from their program delivery sites for information on curriculum outlines.

A) Three-Year Plan

This plan allows a Fort Garry Campus student who has completed 30-50 credit hours of general university study prior to admission, to combine Social Work professional courses with other university courses. It requires three years of full-time study, after admission to the faculty, to complete the requirements for the B.S.W. degree. A student who has already completed the 51 credit hours of general university study which are acceptable to the University of Manitoba may also register for this program ignoring the elective requirements.

Three-Year Plan Example

Course	Title	Hours
SWRK 1310	Introduction to Social Welfare Policy Analysis	3
SWRK 2080	Interpersonal Communication Skills	3
SWRK 2090	Human Behaviour and Social Work Practice	6
SWRK 3140	Introduction to Social Work Practice	3
SWRK 3150	Field Instruction 1	12

SWRK 4120	Field Instruction 2	12
SWRK 4200	Field Focus of Social Work Practice	6
SWRK 4300	Field Focus of Social Work Practice 2	1-6
SWRK 2110	Emergence of the Canadian Social Welfare State	3
or SWRK 2130	Comparative Social Welfare Systems	
SWRK 3100	Systematic Inquiry in Social Work	3
SWRK 3130	Contemporary Canadian Social Welfare	3
SWRK 4210	Feminist Perspectives on Social Work Practice and Social Welfare Policy	6
SWRK 4220	Aboriginal People and Social Work Practice	6

Notes:

- SWRK 1310 and SWRK 2080 are open to University 1 students,
- All students must take the foundation courses very early in the program. Failure to do so may restrict progression through the program.
- See course descriptions (p.) for a complete list of pre-/co-requisites.
- Students must take SWRK 1310 before proceeding to SWRK 2110, SWRK 2130, and SWRK 3130. In addition, SWRK 1310, SWRK 2080 and SWRK 2090 are pre- or co-requisite to SWRK 3140.
- All foundation courses (SWRK 1310, SWRK 2080, SWRK 2090 and SWRK 3140) are pre-requisite to SWRK 4200, SWRK 4300, SWRK 4210, SWRK 4220, SWRK 3150 and SWRK 4120. In addition, SWRK 3150 and SWRK 4200 are pre-requisites to SWRK 4120.
- See Aurora Class Schedule for a list of SWRK 4200 and SWRK 4300 courses.
- Students must take one section of SWRK 4200 and one section of SWRK 4300. Each section is anchored in a different field or focus of social work practice.
- Students must take SWRK 4200 concurrently with SWRK 3150 and SWRK 4300 concurrently with SWRK 4120. If a student withdraws from SWRK 4200, they must also withdraw from SWRK 3150 and if a student withdraws from SWRK 4300, they must also withdraw from SWRK 4120. As well, if a student withdraws from SWRK 3150 they must withdraw from SWRK 4200 and if a student withdraws from SWRK 4120 they must withdraw from SWRK 4300. Students, who fail to withdraw from the co-requisite course, will be withdrawn.
- Students admitted after '97-'98 must complete 3 credit hours of written English and 3 credit hours of mathematics as part of first 60 credit hours (unless completed prior to admission).

This plan assumes that students do not take courses in the summer.

Course	Title	Hours
Year 1		
Select 21 credit hours in Social Work Courses		21
Select 6 credit hours in Electives		6
Hours		27
Year 2		
Select 27 credit hours in Social Work Courses		27
Select 6 credit hours in Electives		6
Hours		33

Year 3	
Select 24 credit hours in Social Work Courses	24
Select 9 credit hours in Electives	9
Hours	33
Total Hours	93

Planning Chart for Elective Courses for Three-Year Program

Course	Title	Hours
Required Electives		
Admitted on basis of (Year 1)		30
Unallocated transfer		
Electives to be completed		
Written English (W) (Year 1)		
Mathematics (M) (Year 1)		

B) Two-Year Plan (Concentrated Program) – Fort Garry Campus

Fort Garry Campus students who have completed 51 credit hours of general university study prior to admission to the B.S.W. program, and have attained a minimum Adjusted Grade Point Average (A.G.P.A.) of 3.00, are eligible for the two year plan (Concentrated Program). If a student has completed the 51 credit hours of general university study which are acceptable to the University of Manitoba, but does not have the required 3.00 A.G.P.A., or prefers a more extended time period, that student can register for either the three-year plan or the part-time plan.

Students eligible to register for the concentrated program may choose to do so at point of initial registration following admission only.

If any of the required social work courses were part of 51 credit hours completed prior to admission to the BSW program, they will have to be substituted with elective courses after admission to the BSW program. Any outstanding elective courses, including written English and mathematics requirements, must be completed by the end of Winter term in the first year of the BSW Concentrated Program.

Students must maintain a Degree Grade Point Average (D.G.P.A.) of a minimum 3.00 at the end of each term to remain in the Concentrated Program. In an instance where one or both of these requirements are not met, the student’s status will be changed from Concentrated to Regular.

Students planning on completing their program in two years must follow the structure outlined below (which requires completing at least 12 credit hours, including SWRK 4210 and SWRK 4220, during the summer).

Two-Year Plan

Course	Title	Hours
Year 1		
(September-August)		
SWRK 1310	Introduction to Social Welfare Policy Analysis	3
SWRK 2080	Interpersonal Communication Skills	3
SWRK 2090	Human Behaviour and Social Work Practice	6
SWRK 2110 or SWRK 2130	Emergence of the Canadian Social Welfare State or Comparative Social Welfare Systems	3
SWRK 3100	Systematic Inquiry in Social Work	3
SWRK 3130	Contemporary Canadian Social Welfare	3
SWRK 3140	Introduction to Social Work Practice	3

SWRK 4210	Feminist Perspectives on Social Work Practice and Social Welfare Policy	6
SWRK 4220	Aboriginal People and Social Work Practice	6
Hours		36

Year 2

(September-May)		
SWRK 3150	Field Instruction 1	12
SWRK 4200	Field Focus of Social Work Practice	6
SWRK 4120	Field Instruction 2	12
SWRK 4300	Field Focus of Social Work Practice 2	6
Hours		36
Total Hours		72

Note: See course descriptions (<https://catalog.umanitoba.ca/undergraduate-studies/social-work/social-work-bsw/undergraduate-studies/social-work/social-work-bsw/#coursestext>) for a complete list of pre/co-requisites

C) The Part-Time Plan

Please note that it is possible to pursue the Bachelor of Social Work degree through a program of part-time study. Part-time students must complete all the required social work and elective courses within nine years of their admission to the faculty.

Required Social Work Courses

Course	Title	Hours
SWRK 1310	Introduction to Social Welfare Policy Analysis	3
SWRK 2080	Interpersonal Communication Skills	3
SWRK 2090	Human Behaviour and Social Work Practice	6
SWRK 2110	Emergence of the Canadian Social Welfare State	3
SWRK 2130	Comparative Social Welfare Systems	3

Elective Social Work Courses

Course	Title	Hours
SWRK 2050	Community and Organizational Theory	3
SWRK 2070	Small Group Dynamics	3
SWRK 4050	Selected Topics in Social Work	3
SWRK 4080	Current Issues in Social Welfare	3

Note: Special and non-Social Work students are required to abide by the same pre-/co-requisite policy that applies to B.S.W. students.

Undergraduate Course Descriptions

A

- Accounting (ACC) (p. 959)
- Actuarial Studies (ACT) (p. 960)
- Agribusiness and Agricultural Economics (ABIZ) (p. 961)
- Agriculture (AGRI) (p. 963)

Accounting

ACC 1100 Introductory Financial Accounting 3 cr

(Lab required) Examination of accounting postulates underlying the preparation and presentation of financial statements.

Equiv To: ACC 1101

ACC 1110 Introductory Managerial Accounting 3 cr

(Lab required). Role of accounting in creation and application of business information used by decision-makers in the management of enterprise.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ACC 1100 (009.110) (D). Prerequisite or Concurrent Requirement: ECON 1010 (D) and ECON 1020 (D) or the former ECON 1200 (D).

Equiv To: ACC 1111

ACC 2010 Intermediate Accounting - Assets 3 cr

Accounting policies and practices dealing with calculation and measurement of assets and related reporting problems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ACC 1100 (C+).

Equiv To: ACC 2011

ACC 2020 Intermediate Accounting - Equities 3 cr

Consideration of current accounting relating to equities with attention to the accounting treatment of current and long-term liabilities, income tax allocation, share capital, and surplus. May not be held with FIN 3250 or ACC 2021.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (ACC 2010 or ACC 2011) and (FIN 2200 or FIN 2201).

Equiv To: ACC 2021

Mutually Exclusive: FIN 3250

ACC 3030 Advanced Accounting 3 cr

Topics include: partnerships, consolidations, mergers, reporting on conglomerates, and fund accounting. Not offered every year. May not be held with ACC 3031.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (ACC 2010 (C) or ACC 2011 (C)) and (ACC 2020 (C) or ACC 2021 (C)).

Equiv To: ACC 3031

ACC 3040 Cost Accounting 3 cr

Study of accounting concepts and functions as they relate to product costing, planning, control, and decision-making.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ACC 1110 (C+).

Equiv To: ACC 3041

ACC 3080 Canadian Income Taxation 3 cr

(Lab required). Structure and concepts of the Canadian income tax system, calculation of income and tax thereon for individuals and corporations, introduction to planning principles. May not be held with ACC 3050 or ACC 3051.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ACC 1100 (C+).

Equiv To: ACC 3050, ACC 3051

ACC 3530 Accounting Information Systems 3 cr

Role of accounting systems in total management information systems; design and installation of accounting systems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ACC 1110 or ACC 1111 (D) and MIS 2000 or MIS 2001 (D).

ACC 4010 Auditing 3 cr

Study of philosophy and concepts of auditing, legal and ethical responsibilities of the auditor, basic techniques of auditing including statistical sampling and flowcharting, and the operational audit. May not be held with ACC 4011.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (ACC 2010 (C) or ACC 2011 (C)) and (ACC 2020 (C) or ACC 2021 (C)).

Equiv To: ACC 4011

ACC 4030 Accounting Theory 3 cr

Examination of principles and postulates of accounting theory. Coverage of selected topics will vary from year to year depending on interests of course participants. May not be held with ACC 4031.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (ACC 2020 or ACC 2021 (C)) and (FIN 2200 or FIN 2201 (C)).

Equiv To: ACC 4031

ACC 4040 Advanced Managerial Accounting 3 cr

A critical examination of managerial accounting techniques and the controllership function.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ACC 3040 (D).

Actuarial Studies

ACT 2020 Economic and Financial Applications 3 cr

A synthesis of macroeconomic issues, quantitative aspects of finance using interest theory, and insurance economics.

ACT 2120 Interest Theory 3 cr

The application of calculus and probability to discrete and continuous interest functions. Key topics are the measurement of interest, present and accumulated values, and annuities. May not be held with the former ACT 3320.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite or co-requisite: MATH 1232 (C) or MATH 1690 (C) or MATH 1700 (B) or MATH 1710 (B).

Equiv To: ACT 3320

ACT 2210 Introduction to Risk Management 3 cr

Mathematical tools for the quantitative assessment of risk and their application to problems encountered in risk management.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite or co-requisite: STAT 2400 (D) or consent of instructor.

ACT 3130 Actuarial Models 1 3 cr

Elementary concepts respecting the quantification of the financial impact of contingent payments. May not be held with ACT 3630.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ACT 2120 (C+) and [STAT 2800 (D) or the former STAT 3400 (D) or the former STAT 3500 (D)].

Mutually Exclusive: ACT 3630

ACT 3230 Actuarial Models 2 3 cr

Intermediate and advanced concepts respecting the quantification of the financial impact of contingent payments. Not to be held with ACT 3630.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ACT 3130 (C+).

Mutually Exclusive: ACT 3630

ACT 3340 Financial Derivatives for Actuarial Practice 3 cr

Introduction of interest rate models and rational valuation of derivative securities.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ACT 2020 (C+) or consent of instructor.

ACT 3530 Actuarial Models 4 3 cr

Survival Models, Stochastic Process Models, and Simulation Models. May not be held with the former 010.447.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ACT 3130 (C+). Prerequisite or Concurrent Requirement: ACT 3230 (D).

ACT 3630 Models for Life Contingencies 6 cr

Knowledge of the theoretical basis of contingent payment models and the application of those models to insurance and other financial risks. Not to be held with ACT 3130 and ACT 3230.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or co-requisite: ACT 2120 (C+); and [STAT 2800 (C) or the former STAT 3400 (C) or the former STAT 3500(C)].

Mutually Exclusive: ACT 3130, ACT 3230

ACT 4000 Advanced Actuarial Topics 3 cr

A selection of advanced topics of current actuarial interest.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ACT 3230 (D).

ACT 4010 Regression Modeling in Actuarial Science 3 cr

Construction of generalized linear models and regression-based time series models with actuarial applications. May not be held with IDM 4050 when titled "Time Series and Regression Analysis for Management".

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or co-requisite: STAT 2800 (D) or the former STAT 3400 (D) or the former STAT 3500 (D).

Mutually Exclusive: IDM 4050

ACT 4020 Short Term Actuarial Mathematics I 3 cr

Introduction to useful frequency and severity models, aggregate models, coverage modifications, risk measures and construction and selection of parametric models. This course covers part of the learning objectives of Short-Term Actuarial Mathematics Exam by the Society of Actuaries (SoA). May not be held with the former ACT 4140 or the former ACT 4630.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or co-requisite: STAT 2800 (D) or the former STAT 3400 (D) or the former STAT 3500(D).

Equiv To: ACT 4140

Mutually Exclusive: ACT 4630

ACT 4030 Short Term Actuarial Mathematics II 3 cr

Introduction to useful credibility theory, insurance and reinsurance coverage, and pricing and reserving for short term insurance coverages. This course covers part of the learning objectives of Short-Term Actuarial Mathematics Exam by the Society of Actuaries (SoA). May not be held with the former ACT 4240 or the former ACT 4630.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ACT 4020 (C+) (or the former ACT 4140(C+)).

Equiv To: ACT 4240

Mutually Exclusive: ACT 4630

ACT 4060 Actuarial Aspects of Investment Practice 3 cr

This course examines stochastic interest rates and tools and techniques for coping with general product issues in asset/liability management. May not be offered every year. Students may not hold credit for both ACT 4060.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: FIN 2200 (C+).

ACT 4150 Pension Mathematics 3 cr

Actuarial applications for defined benefit pension plans. Actuarial cost methods, funding levels, operation of pension plans from an actuarial perspective. Students may not hold credit with ACT 7550. May not be offered every year.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ACT 3230 (D).

Equiv To: ACT 7550

ACT 4160 Introduction to Property and Casualty Insurance Industry 3 cr

The introduction to the Property and Casualty Insurance Industry and the discussion of relevant topics.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or Corequisite: ACT 2120 (C+) or consent of instructor.

ACT 4250 Managing Insurance Operations in the International Business Environment 3 cr

Introduction of the risks inherent in insurance products and assets, as well as the relationships between assets and liabilities across the entire operations of the global insurance enterprise.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: FIN 2200 (C+) or consent of instructor.

ACT 4340 Actuarial Modeling Methods 3 3 cr

Classical, Bayesian and Buhlmann Credibility Models. The connection between Credibility Theory and Experience Rating. Underlying assumptions for the different methods. Simulation in Estimating and Fitting Actuarial Models. May not be offered every year.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ACT 4020 (C+) (or the former ACT 4140(C+)).

Mutually Exclusive: ACT 4630

Agribusiness and Agricultural Economics (ABIZ)

ABIZ 0440 Agricultural Economics & Marketing 1 4 cr

Introduction to key economic concepts and business principles and their application to Canadian agribusiness.

ABIZ 0450 Agricultural Economics and Marketing 2 4 cr

(Lab required) The application of economic analysis in the study of marketing: concepts, policy, practices and institutions. May not be held with ABIZ 2510.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ABIZ 0440 (C).

Mutually Exclusive: ABIZ 2510

ABIZ 0460 Financial Management 1 4 cr

Study of accounting principles and financial information for the preparation and presentation of financial statements to facilitate the management of farms and agricultural businesses.

ABIZ 0470 Financial Management 2 4 cr

(Lab required) Study of analysis of financial statements and financial information by decision makers managing the finances of farms and agricultural businesses.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ABIZ 0460 (C).

ABIZ 0710 Agricultural Policy 3 cr

Review of agriculture, international trade and food safety policies affecting the production and distribution of agricultural commodities and food products.

ABIZ 0730 Financial Risk Management 3 cr

Various approaches to managing market risk will be studied, including forward pricing, hedging using futures and options along with insurance, diversification and the use of technology to manage production risk.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ABIZ 0470 (C) or pre- or corequisite: ABIZ 0450 (C).

ABIZ 0740 Special Topics in Business Management 3 cr

Selected topics of current interest in Business Management.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of Director of the School of Agriculture.

ABIZ 0750 Advanced Agricultural Financial Management and Lending 3 cr

This course will offer realistic templates for assessing loan application cases and determining financial need, production feasibility and repayment for lenders. Students will analyze lender portfolios and the financial management of various enterprises. Students will learn to apply financial management concepts in evaluating investment options in farm and agribusiness decision-making. May not be held with ABIZ 0690 or DAGR 0730.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ABIZ 0470.

Mutually Exclusive: ABIZ 0690, DAGR 0730

ABIZ 1000 Introduction to Agribusiness Management 3 cr

Introduction to management principles applied to agribusiness. Topics covered will include cooperative and corporate organizations, financial analysis, marketing and planning. All students will prepare a business plan. Students will use spreadsheet skills with respect to processing information and preparing forecasts.

Attributes: Recommended Intro Courses

ABIZ 1010 Economics of World Food Issues and Policies 3 cr

Determinants of global food consumption, production and the factors underpinning food security and malnutrition. The importance of international trade in balancing countries' supply and demand for food, examination of trade barriers and institutions facilitating trade.

Attributes: Recommended Intro Courses

ABIZ 2210 Transportation Principles 3 cr

This course is a study of demand forecasting, cost analysis, regulation of carriers, role of transport in economic development, project appraisal, and transport planning focusing upon the agricultural, agri-food and other supply chains. Also offered as SCM 2210. May not be held with SCM 2210.

Equiv To: SCM 2210

ABIZ 2390 Introduction to Environmental Economics 3 cr

Economics of management of water, air and land resources quality, and the economics of conservation. The economic implications of environmental standards, licensing criteria and pollution charges will be illustrated by current issues. Students may not hold credit for both ABIZ 2390 and ECON 2390.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [A grade of "C" or better in ECON 1010 or ECON 1011 or the former ECON 1200 or the former ECON 1201] or [a grade of "C" or better in both ECON 1210 (or ECON 1211 and ECON 1220 (or ECON 1221))].

Equiv To: ECON 2390

ABIZ 2510 Introduction to Agricultural and Food Marketing 3 cr

Economic principles and institutions involved in the Canadian agricultural and food marketing system with applications to farming and agribusiness. May not be held with ABIZ 0450.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: A minimum grade of C in ECON 1010 (or ECON 1011 or the former ECON 1200 or the former ECON 1201) or both ECON 1210 (ECON 1211) and ECON 1220 (ECON 1221).

Mutually Exclusive: ABIZ 0450

ABIZ 2520 Introduction to Management Sciences 3 cr

(Lab required) An introduction to management science techniques and models relevant to the agricultural and agri-food sectors. Topics include linear programming, distribution problems, decision theory and queuing models. May not be held with MSCI 2150 or MSCI 2151.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: A minimum grade of C in [MATH 1300 (MATH 1301) or MATH 1210] and [MATH 1500 (MATH 1501) or MATH 1510 or MATH 1520]. Pre- or corequisite: AGRI 2400 or STAT 1000 or STAT 1001.

Equiv To: MSCI 2150, MSCI 2151

ABIZ 2610 Agricultural Law 3 cr

This course explores the complex set of laws affecting the agricultural and agri-food sectors, focusing upon those laws critical for effective planning and sound decision making with respect to farm operations, agribusinesses and agri-food sector institutions. Topics include but are not limited to Manitoba's and Canada's legal systems, the major laws affecting the stakeholders listed above, and the legal resolution of issues in the agricultural and agri-food sectors. May not be held with the former DAGR 0760.

Mutually Exclusive: DAGR 0760

ABIZ 2620 Agricultural Human Resource Management 3 cr

Students will carry out processes such as job analysis and design, recruitment and selection, training and development, performance management and compensation management to develop a comprehensive human resource management plan for an agricultural enterprise. An overview of human resource legislation will be provided and resources to support human resource management decision making will be identified. May not be held with AGRI 3030 when titled "Agricultural Human Resource Management" or HRIR 2440 or the former DAGR 0530.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ABIZ 1000 (C) or DAGR 0480 (C).

Mutually Exclusive: AGRI 3030, DAGR 0530, HRIR 2440, HRIR 2441

ABIZ 3080 Introduction to Econometrics 3 cr

(Lab required) The application of statistical tools, especially regression analysis for estimating economic relationships and testing economic hypotheses and model specification through the use of spreadsheets and data sets related to agricultural and agri-food sector applications. May not be held with ECON 3040 (or the former ECON 3180).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: A minimum grade of D in [AGRI 2400 or STAT 2000 (STAT 2001) or ECON 2040 or the former ECON 3170] and [ECON 1010 (ECON 1011) and ECON 1020 (ECON 1021) or the former ECON 1200 (the former ECON 1201)].

Equiv To: ECON 3040, ECON 3180

ABIZ 3120 Commodity Futures Markets 3 cr

Theory and economic functions of commodity markets, including futures and options markets, with a focus on agricultural commodities. The roles of the various participants; the determination of inter-temporal prices and various aspects of hedging will be studied.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: A minimum grade of C in [ECON 1010 (ECON 1011) or the former ECON 1200 (the former ECON 1201)] or [ECON 1210 (ECON 1211) and ECON 1220 (ECON 1221)] and a minimum grade of D in AGRI 2400 or STAT 2000 (STAT 2001).

ABIZ 3510 Economics of Food Policy 3 cr

Economics of market intervention; trade policy analysis, and agricultural protection, exports, subsidies, tariffs, quotas; intermediate versus final goods; currency exchange rates and agricultural trade policy; trade agreements. Not to be held with ABIZ 3500.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ECON 2010 or the former ECON 2450.

Mutually Exclusive: ABIZ 3500

ABIZ 3520 Food Distribution and International Merchandising (3-0-0-0) 3 cr

An introduction to management concepts and their application to domestic and international merchandising.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (ABIZ 1000), and (ABIZ 2510 or MKT 2210).

ABIZ 3530 Farm Management 3 cr

Management decisions and business planning as they relate to farm production, marketing and financing activities. Identifying potential markets; comparative advantage analysis; organizational form and contractual requirements; alternative marketing and production strategies; financing production and marketing activities; develop farm business plan.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ABIZ 1000.

ABIZ 3540 Financial Risk Management 3 cr

Topics explored will include risk expected returns and valuation of capital; addressing risk in the context of capital budgeting; derivative securities (i.e. futures and options) and financial risk management; the management of risk within and outside of agricultural production; and public policy.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: A minimum grade of D in [AGRI 2400 or STAT 1000 (STAT 1001)] and [ABIZ 1000 or ABIZ 2510].

ABIZ 3550 Environmental Policy 3 cr

Environmental policy development and enactment in Canada; federal and provincial review processes; socio-political aspects of policy development; chemical and pesticide licensing procedures and environmental effects monitoring; environmental policy and sustainability; case studies; discussion of various policies; ethics of development, preservation and conservation; environmental risk management.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ABIZ 2390 or ECON 2390.

ABIZ 3560 Agribusiness Portfolio Management 3 cr

The application of portfolio management to agribusiness, including asset allocation, portfolio construction and analysis, and operation of investment instruments and capital markets. Includes Canadian Securities Course. Recommended G.P.A. of 2.80 or higher.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Major in Agribusiness or Accounting and/or Finance, with 60 credit hours, ACC 1100 and ECON 1010 OR ECON 1020 or the former ECON 1200, or permission from instructor.

ABIZ 4120 Intermediate Econometrics 3 cr

A course in applied econometrics that explores the regression model and how it may be applied. Special emphasis is placed on violations to the assumptions of least squares, specification error, and applying the model to production, marketing, forecasting and other applications. Also offered as ECON 4120 by the Department of Economics.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Written consent of instructor; this course assumes students have had a sound background in economic theory (e.g. micro and macro), as well as single variable calculus, linear algebra, and basic statistics.

ABIZ 3080 or ECON 3180 is highly recommended.

Equiv To: ECON 4120

ABIZ 4240 Agricultural Economics Special Project 3 cr

Students will undertake a project to analyze an applied problem and present results in a research and/or extension paper. A list of relevant readings will be assigned. Permission of the Department Head required.

ABIZ 4260 Price Analysis 3 cr

Theory and methods of price analysis, commodity markets and the demand and supply factors that underpin seasonal, cyclical and secular changes in commodity prices. Not to be held with ABIZ 4250.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [ECON 2010 or the former ECON 2450] and [ABIZ 3080 or ECON 3040 or the former ECON 3180].

Mutually Exclusive: ABIZ 4250

ABIZ 4500 Agribusiness Strategies Seminar 3 cr

This course will provide participants with insights into management strategies and decision making, as well as the responsibilities, tensions and pressures encountered by senior management. Some classes will include participation by senior management followed by a debriefing session.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ACC 1100 (C) and ABIZ 1000 (C) and 84 credit hours completed toward the Agribusiness degree program.

Agriculture (AGRI)

AGRI 1010 Business Communication 3 cr

Strengthen the thinking, writing, speaking and listening skills required by IEAP students to succeed in the agricultural, food science or agribusiness world. Students will develop an understanding of cultural influence in communication tasks used in academic and workplace settings.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre-requisite: Must be enrolled in the Internationally Educated Agriologists Program.

AGRI 1600 Introduction to Agrifood Systems 3 cr

(Lab required) This course explores agricultural production systems with special focus on the Canadian Prairies. Students will develop scholarly, social, communication and professional skills that will enable them to be successful in the application of technical knowledge to food production challenges. This course will include a field trip component. May not be held with the former AGRI 1500.

Mutually Exclusive: AGRI 1500

AGRI 2002 Agricultural and Food Sciences Co-operative Education Work Term 1 3 cr

A work assignment of a minimum of 420 hours in business, industry, government or research for co-operative education students. Requires submission of a written report covering the work completed during the professional assignment. This course is restricted to students where a co-operative education work term placement in the Agricultural and Food Sciences Co-operative Education Program has been confirmed. May not be held with the former AGRI 4550. Course evaluated on a pass/fail basis.

Mutually Exclusive: AGRI 4550

AGRI 2030 Technical Communications 3 cr

Lectures and workshops to develop written and oral communication skills for preparing and presenting scientific and technical reports. Basic composition skills, communication graphics and job interview techniques are included.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: 24 credit hours of University coursework.

Attributes: Written English Requirement

AGRI 2180 Introductory Toxicology 3 cr

A survey of general principles underlying the effects of toxic substances on biological systems, including history, scope and applications of toxicology, the mechanisms of toxic action, and some major types of toxicants. This course is co-taught with BIOL 2380 and ENVR 2180. May not be held with BIOL 2380 (BIOL 2381), the former BIOL 2382, ENVR 2180, ENVR 2190 or the former AGRI 2190.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [BIOL 1030 (BIOL 1031) or HEAL 1502] and [(CHEM 1100 (CHEM 1101) and CHEM 1120 (CHEM 1121)) or one of CHEM 1110 (CHEM 1111) or CHEM 1130 or the former CHEM 1320 or the former CHEM 1310 (the former CHEM 1311)].

Equiv To: BIOL 2380, BOTN 2180, ENVR 2180, ZOOL 2180

Mutually Exclusive: AGRI 2190, BIOL 2382, BOTN 2190, ENVR 2190, ZOOL 2190

AGRI 2300 Indigenous Issues in Food Systems 3 cr

An overview of the historical and contemporary relationships between food systems and Indigenous people. The course will provide background to allow students to craft their own solutions to food system issues faced by Indigenous people.

AGRI 2400 Experimental Methods in Agricultural and Food Sciences 3 cr

(Lab required) Experimental design and data analysis using examples relevant to agricultural, food and human nutritional sciences. Ethics in research; critical thinking in data analysis; quantitative data analysis methods; applications of statistical analyses.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: AGRI 1600 or HNSC 1200 or HNSC 1210 or the former AGRI 1500.

AGRI 2500 Managing Farm Safety 3 cr

This course provides introductory information on farm safety. It is designed to raise awareness about safety issues and legislation in the agricultural industry, and to encourage students to reflect upon safety at their own worksite or in farm operation. May not be held with the former DAGR 0520 or DAGR 0660 when titled "Introduction to Farm Safety."

Mutually Exclusive: DAGR 0520, DAGR 0660

AGRI 2510 Managing Farm Business Transition 3 cr

This course is designed to provide students with the tools and knowledge to incorporate transition management into farm business management planning. Students will be introduced to profiles/dynamics, business structures, as well as financial and managerial influences that affect farm and business transition options. There will be an application of real farm examples as context to the instructional material. May not be held with the former DAGR 0550 or DAGR 0660 when titled "Succession/Transition Considerations in Farm Management."

Mutually Exclusive: DAGR 0550, DAGR 0660

AGRI 3002 Agricultural and Food Sciences Co-operative Education Work Term 2 3 cr

A work assignment of a minimum of 420 hours in business, industry, government or research for co-operative education students. Requires submission of a written report covering the work completed during the professional assignment. This course is restricted to students where a co-operative education work term placement in the Agricultural and Food Sciences Co-operative Education Program has been confirmed. Course evaluated on a pass/fail basis. May not be held with the former AGRI 4560.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: AGRI 2002 or the former AGRI 4550.

Mutually Exclusive: AGRI 4560

AGRI 3030 Modern Topics in Agriculture 1 3 cr

An interdisciplinary course including topical national and international issues in agriculture. The course will vary from year to year to provide material of current interest in a wide variety of subject areas. Student participation by means of seminars will be encouraged.

Mutually Exclusive: ABIZ 2620, HRIR 2440, HRIR 2441

AGRI 3040 Modern Topics in Agriculture 2 3 cr

Similar to AGRI 3030.

AGRI 4000 Practising the Profession of Agrology 1 3 cr

Introduction to the profession of Agrology in Manitoba with an emphasis on understanding the structure of the agriculture industry, the agriculture network and how it functions. Laboratory sessions will focus on guest speakers and tours of companies and agencies in the agriculture industry.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Must be enrolled into the Internationally Educated Agrologists Program (IEAP).

AGRI 4002 Agricultural and Food Sciences Co-operative Education Work Term 3 3 cr

A work assignment of a minimum of 420 hours in business, industry, government or research for co-operative education students. Requires submission of a written report covering the work completed during the professional assignment. This course is restricted to students where a co-operative education work term placement in the Agricultural and Food Sciences Co-operative Education Program has been confirmed. Course evaluated on a pass/fail basis. May not be held with the former AGRI 4570.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: AGRI 3002 or the former AGRI 4560.

Mutually Exclusive: AGRI 4570

AGRI 4010 Practising the Profession of Agrology II 3 cr

This course will cover the role of a practising agrologist in Manitoba, with an emphasis on professional ethics and responsibilities, regulations of the agriculture profession in Canada, and the culture of the work environment. Laboratory sessions focus on guest speakers and tours of companies and agencies in the agriculture industry.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Students must be enrolled in the Internationally Educated Agrologists Program.

AGRI 4100 Current Issues in Agricultural Systems 3 cr

Integration of current issues in agricultural systems including land, plant, and animal systems, coupled to the food and nutrition needs of society. Emphasis on ethics, equity, economics, and professional approaches to challenges in food systems using case studies, teamwork and scientific communication to specialists and the public. This is a capstone course restricted to students in year 4 of the B.Sc. Agribusiness, Agriculture, or Agroecology degree programs. May not be held with FOOD 4100 or HNSC 4100.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: AGRI 2030 and Faculty approval.

Mutually Exclusive: FOOD 4100, HNSC 4100

Agroecology (AGEC)

AGEC 2370 Principles of Ecology 3 cr

(Lab required) Principles of ecology at the individual, population, community, and ecosystem levels. May not be held with BIOL 2300 or BIOL 2301 or BIOL 2390.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 1030 (BIOL 1031) or BIOE 2590.

Equiv To: BIOL 2300, BOTN 2370, BOTN 2371, ZOOL 2370, ZOOL 2371

Mutually Exclusive: BIOL 2390

American Sign Language (ASLL)

ASLL 1000 American Sign Language 1 3 cr

(Lab required) Designed for students with little or no knowledge of ASL. Students learn basic ASL vocabulary and grammatical structures to facilitate conversational practice at the beginning level, including introducing oneself, asking basic questions about family, friends, and surroundings, and discussing day to day activities. Learning and practicing fingerspelling is included for English "loanwords". Aspects of Deaf culture and the Deaf community are introduced.

Attributes: Humanities, Recommended Intro Courses

Animal Science (ANSC)

ANSC 0420 Animal Biology and Nutrition 4 cr

An introduction to animal structure and function. Genetics, growth and reproduction will be related to animal production. Further, the digestive systems of various livestock species will be studied and related to types of feedstuffs that each species can utilize. The general function of nutrients within animals will also be discussed. Nutrient content of feedstuffs and application to nutrient requirements will be discussed.

ANSC 0600 Animal Health and Welfare 3 cr

This course explores the common livestock and poultry diseases of the Prairie provinces. Emphasis will be placed on prevention through management and health programs, but treatment of specific diseases will also be addressed. Additionally, animal welfare as it relates to commercial animal production will be discussed.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ANSC 0420 (C).

ANSC 0670 Beef Cattle Production and Management 4 cr

(Lab required) This course provides an overview of the beef cattle industry including types of beef cattle enterprises and factors affecting profitability of production. Application of principles of nutrition, genetics and physiology in the management of beef cattle enterprises will be covered. May not be held with ANSC 4520.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ANSC 0420 (C).

Mutually Exclusive: ANSC 4520

ANSC 0680 Dairy Cattle Production and Management 4 cr

(Lab required) This course provides a study of current production practices in Canada's dairy industry with focus on nutrition, reproduction, genetics, health, replacement rearing and marketing. May not be held with ANSC 4530.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ANSC 0420 (C)

Mutually Exclusive: ANSC 4530

ANSC 0690 Swine Production and Management 4 cr

(Lab required) This course focuses on the swine industry, including the types of swine enterprises and factors affecting profitability of production. Application of principles of nutrition, genetics and physiology in the management of swine are covered. May not be held with ANSC 4640 or the former ANSC 4540.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ANSC 0420 (C).

Mutually Exclusive: ANSC 4540, ANSC 4640

ANSC 0700 Poultry Production and Management 4 cr

(Lab required) This course provides an overview of the poultry industry, including its marketing system, breeding, hatchery practices, management and feeding within large scale turkey and chicken enterprises. May not be held with ANSC 4550.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ANSC 0420 (C).

Mutually Exclusive: ANSC 4550

ANSC 0720 Special Topics in Livestock Management 3 cr

Selected topics of current interest in livestock management.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Written consent of Director of the School of Agriculture.

ANSC 0730 Horse and Stable Management 3 cr

Principles of horse production, including breeding, reproductive management, nutrition, behavior, health and general management.

Applications to major sections of the horse industry. There will be one or two field trips.

ANSC 2500 Animal Production 3 cr

(Lab required) Production practices in the major animal industries in Canada, focusing on key factors including the biology of growth, reproduction and nutrition. Issues related to welfare, environment, housing, and contributions to the Canadian economy are introduced.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: AGRI 1600 (or the former AGRI 1510) (D).

ANSC 2510 Anatomy and Physiology 1: Control Systems 3 cr

(Lab required) This course covers the structure, functions and interactions of the coordinating/regulatory systems in the animal body, including the nervous, muscular, cardiovascular, respiratory, renal and endocrine systems.

ANSC 2520 Anatomy and Physiology 2: Nutrient Utilization 3 cr

(Lab required) This course deals with the digestion, absorption and utilization of nutrients by farmed species. Basic characteristics of the digestive system, aspects of regulation of feed intake and rates of passage, intermediary metabolism of nutrients, growth and development, health, and other factors influencing nutrient utilization.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ANSC 2510 and [CHEM/MBIO 2730 and one of CHEM 2740 or CHEM 1120 (CHEM 1121)] or [the former CHEM/MBIO 2770] or [CHEM/MBIO 2700 (CHEM/MBIO 2701) and one of CHEM 2720 (CHEM 2721) or CHEM 1120 (CHEM 1121)] or [the former CHEM/MBIO 2360 (the former CHEM/MBIO 2361)].

ANSC 2540 Companion Animal Nutrition and Management 3 cr

This course covers the functional anatomy, genetics, nutrition, reproduction, behaviour, and diseases of non-equine companion animals and ornamental fish.

ANSC 3500 Principles of Animal Genetics 3 cr

Topics discussed will include population genetics, quantitative variation, selection and mating systems with particular reference to domestic species.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PLNT 2520.

ANSC 3510 Feeds and Feeding 3 cr

A detailed discussion of feedstuffs used for domestic animals, animal nutrient requirements, ration balancing, feedstuff processing and feed safety.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ANSC 2520.

ANSC 3520 Animal Reproduction 3 cr

The comparative anatomy and physiology of reproduction of farmed animals will be emphasized. Focus will be on the natural synchronization of reproductive processes and the potential to regulate and improve reproductive efficiency.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ANSC 2510.

ANSC 3530 The Animal and Its Environment 3 cr

(Lab required) This course explores how an animal is influenced by its environment with respect to effects upon health, welfare and performance. Principles of farmed animal behaviour, welfare and behavioural management, health, and facility design and modification will be considered in the context of animal/environment interactions.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ANSC 2510 (D).

ANSC 4090 Livestock Problems 3 cr

A minor thesis on livestock problems, prepared by the student under direction. (For Animal Systems Majors only).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Consent of department head.

ANSC 4220 Animal Science Investigations 6 cr

Minor research on some problem in animal science. Instruction and supervision in setting up the project, in collecting and processing data, and in writing the report. (For fourth-year students in Animal Systems Major only.)

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Consent of Department Head.

ANSC 4240 Mathematical Modeling of Biological Systems 3 cr

Lectures and computer based laboratory exercises will be used to discuss mathematical modeling methods applied to biological systems taking aspects of animal science as a model to develop modeling techniques.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 1500 or MATH 1520 or equivalent.

ANSC 4280 Applied Animal Genetics 3 cr

Application of principles of animal breeding. Modern methods, techniques, and programs for genetic improvement of cattle, sheep, and swine.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ANSC 3500.

ANSC 4410 Grassland Agriculture: Plant, Animal and Environment 3 cr

Inter-relationships between the biological components of grassland agriculture as they relate to forage production on the Canadian Prairies. Topics include utilization by wild and domestic animals, plant community relationships and role of forages in multiple land use planning. This course also given in Plant Science as PLNT 4410.

Equiv To: PLNT 4410

ANSC 4500 Animal Health 3 cr

Responses of basic animal functions to challenge by potentially pathogenic organisms, genetic or metabolic disorders, and toxicants will be discussed. Strategies for prevention and treatment will be outlined. Offered in 2005-2006 and alternate years thereafter.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ANSC 2520.

ANSC 4510 Domesticated Animal Behaviour 3 cr

An awareness and understanding of normal behaviors of animals will be emphasized. Relationships between behavior, welfare and management will be explored. Emphasis will be on farmed animals but companion animals, wild animals and laboratory species will also be discussed. Offered in 2006-07 and alternate years thereafter.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ANSC 2520 or consent of the instructor.

ANSC 4520 Ruminant Production Systems-Meat 3 cr

(Lab required) To provide an appreciation of the ruminant industry in terms of size, complexity and relationship to the economy and give an understanding of the breeding, feeding, management and marketing strategies for modern ruminant production systems. May not be held with ANSC 0670.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: A minimum of 60 credit hours and ANSC 2500 (D).

Mutually Exclusive: ANSC 0670

ANSC 4530 Ruminant Production Systems-Milk 3 cr

(Lab required) This course provides a description of the ruminant milk industry in terms of size, complexity and relationship to the economy and gives an understanding of the breeding, feeding, management and marketing practices in a modern system for milk production. May not be held with ANSC 0680.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: A minimum of 60 credit hours and ANSC 2500 (D).

Mutually Exclusive: ANSC 0680

ANSC 4550 Avian Production Systems 3 cr

(Lab required) Describes the various avian production systems in terms of size, complexity, and relationship to the economy and gives an understanding of the management and marketing practices in the usual poultry systems. May not be held with ANSC 0700.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: A minimum of 60 credit hours and ANSC 2500 (D).

Mutually Exclusive: ANSC 0700

ANSC 4570 Advanced Applied Animal Nutrition 3 cr

An advanced study of theoretical and applied aspects of monogastric and ruminant nutrition. A laboratory component will provide training in current techniques in feed analyses and computer modeling. Offered in 2005-2006 and alternate years thereafter.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ANSC 3510.

ANSC 4640 Swine Production Systems 3 cr

(Lab required) Describes the swine industry in terms of size, complexity and relationship to the economy and gives an understanding of the breeding, feeding, management and marketing practices in a modern production unit. Outlines other monogastric production systems of relevance to the agriculture industry. May not be held with ANSC 0690 or the former ANSC 4540.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: A minimum of 60 credit hours and ANSC 2500 (D).

Equiv To: ANSC 4540

Mutually Exclusive: ANSC 0690

Anthropology (ANTH)

ANTH 1210 Human Origins and Antiquity 3 cr

An introduction to physical anthropology and archaeology. Topics include: biological evolution, evolution and comparative behaviour of primates, fossil evidence for human evolution, and the emergence of human culture. Students may not hold credit for both ANTH 1210 and ANTH 1211.

Equiv To: ANTH 1211

Attributes: Social Science, Recommended Intro Courses

ANTH 1220 Cultural Anthropology 3 cr

The comparative study of human societies and cultures, including language, economic and political organization, family and kinship, ritual and belief systems, cultural stability and change. Students may not hold credit for ANTH 1220 and any of: ANTH 1221 or ANTH 1520.

Equiv To: ANTH 1221, ANTH 1520

Attributes: Social Science, Recommended Intro Courses

ANTH 1520 Critical Cultural Anthropology 3 cr

An introduction to social cultural anthropology that critically examines production and exchange systems, age, gender, kinship and other social distinctions, belief systems, politics, and interactions between cultural systems. Learning and performance assessment is based upon supervised reading and essay writing. Students may not hold credit for ANTH 1520 and any of: ANTH 1220 or ANTH 1221.

Equiv To: ANTH 1220, ANTH 1221

Attributes: Social Science, Recommended Intro Courses, Written English Requirement

ANTH 2000 Culture, Society, and Power 3 cr

An advanced introduction to cultural anthropology that focuses on anthropological approaches to the cross-cultural organization, dynamics, and tensions of social relationships at individual, group, and societal levels. Students may not hold credit for ANTH 2000 and any of: ANTH 2001 or the former ANTH 2390 or the former ANTH 2391.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in one of: ANTH 1220 or ANTH 1221 or ANTH 1520] or written consent of instructor.

Equiv To: ANTH 2001

Mutually Exclusive: ANTH 2390, ANTH 2391

Attributes: Social Science

ANTH 2020 Relatedness in a Globalizing World 3 cr

Anthropological approaches to diverse practices of human relatedness across cultures and over time, including 21st century reconfigurations or marriage, family, reproduction and kinship.

Attributes: Social Science, Written English Requirement

ANTH 2040 Native North America: A Sociocultural Survey 3 cr

An ethnographic survey of the cultures of Native North American peoples. Students may not hold credit for both ANTH 2040 and ANTH 2041.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in one of: ANTH 1220 or ANTH 1221 or ANTH 1520] or written consent of instructor.

Equiv To: ANTH 2041

Attributes: Social Science

ANTH 2060 European Archaeology 3 cr

This course will survey the archaeological record of Europe from the earliest human occupation through the rise of early cities and complex societies. Case studies will be used to examine the social, political, economic, and technological adaptations of early human societies in the region.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ANTH 1210 or ANTH 1211] or written consent of instructor.

Attributes: Social Science

ANTH 2100 Introduction to Archaeology 3 cr

A general introduction to the principles of archaeology and the materials, analyses, and interpretations encountered in archaeological study. Students may not hold credit for both ANTH 2100 and ANTH 2101.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ANTH 1210 or ANTH 1211] or written consent of instructor.

Equiv To: ANTH 2101

Attributes: Social Science

ANTH 2230 Anthropology of Travel and Tourism 3 cr

Anthropological approaches to the study of cultural practices and phenomena of travel and tourism. Travel is examined in various social, historical, and cultural contexts as a way of seeing and experiencing the world. Emphasis is placed on the intersection of culture, colonialism, capitalism, and globalization, with practices of travel, including mass tourism.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in one of: ANTH 1220 or ANTH 1221 or ANTH 1520] or written consent of instructor.

Attributes: Social Science, Written English Requirement

ANTH 2240 Plagues and People 3 cr

Examines selected plagues in evolutionary, ecological, and epidemiological context, and considers the complex biological, social, and economic repercussions for human populations. Foci include past, present, and emerging infectious disease epidemics.

Attributes: Social Science

ANTH 2300 Anthropology of Childhood 3 cr

Anthropological approaches to the study of children and childhood. Childhood is examined as a social and historical construction, and children are analyzed as active contributors to their social worlds. Cross-cultural ethnographic material relating to children and youth is critically read and discussed.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in one of: ANTH 1220 or ANTH 1221 or ANTH 1520] or written consent of instructor.

Attributes: Social Science

ANTH 2350 Ethnology of Sub-Saharan Africa 3 cr

A survey of culture and society in traditional and contemporary Africa. Students may not hold credit for both ANTH 2350 and the former ANTH 2351.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in one of: ANTH 1220 or ANTH 1221 or ANTH 1520 or the former ANTH 2360 or the former ANTH 2361] or written consent of instructor.

Equiv To: ANTH 2351

Attributes: Social Science

ANTH 2370 Language and Culture 3 cr

The investigation of the complex interaction of language and culture, including linguistic perspectives on prehistory, ethnosemantics, and sociocultural correlations of linguistic variation. Students may not hold credit for both ANTH 2370 and ANTH 2011.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in one of: ANTH 1220 or ANTH 1221 or ANTH 1520] or written consent of instructor.

Equiv To: ANTH 2011

Attributes: Social Science

ANTH 2380 Art, Symbols, Cultures 3 cr

Studies of the social contexts and functions of human artistic and symbolic behaviour in cross-cultural perspective. Students may not hold credit for both ANTH 2380 and ANTH 2381.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in one of: ANTH 1220 or ANTH 1221 or ANTH 1520] or written consent of instructor.

Equiv To: ANTH 2381

Attributes: Social Science

ANTH 2430 Ecology, Technology and Society 3 cr

Ecological analysis of the interplay of socio-political and technological processes in different types of societies. Focus upon the ecological side-effects and selected technologies, economic mechanisms and political institutions. Students may not hold credit for both ANTH 2430 and ANTH 2500. May not be used for Major or Minor in Anthropology.

Mutually Exclusive: ANTH 2500, ENG 3020

Attributes: Social Science

ANTH 2450 Ethnology of China 3 cr

Issues in the anthropological study of contemporary China will be introduced in comparative perspective. The emphasis will be on issues such as economic development, changing gender relations, population growth and migration, and the politics of culture.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in one of: ANTH 1220 or ANTH 1221 or ANTH 1520] or written consent of instructor.

Attributes: Social Science

ANTH 2470 Anthropology of Mass Communication 3 cr

This course focuses on media production and dissemination and on images of the world created by media. Media practices and products are addressed in relation to the formation of social relations and identities, the shaping of peoples' sense of time and space, and media's role in the construction of communities and in processes of socio-economic and cultural change.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in one of: ANTH 1220 or ANTH 1221 or ANTH 1520] or written consent of instructor.

Attributes: Social Science

ANTH 2500 Culture, Environment, and Technology 3 cr

Study of ecological systems, focusing on processes of adaptation in societies differing in organization and in views of technology. Demographic and technological changes are examined in relation to cultural, political and ideological factors. Students may not hold credit for both ANTH 2500 and ANTH 2430.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in one of: ANTH 1220 or ANTH 1221 or ANTH 1520] or written consent of instructor.

Mutually Exclusive: ANTH 2430

Attributes: Social Science

ANTH 2510 Anthropology of Economic Systems 3 cr

A comparative study of factors bearing upon production, exchange, and consumption of goods, practices and ideas in varying social contexts. The course also examines the articulation of economic systems in the global political economy.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in one of: ANTH 1220 or ANTH 1221 or ANTH 1520] or written consent of instructor.

Attributes: Social Science

ANTH 2530 Anthropology of Political Systems 3 cr

Analysis of political institutions and their changing nature in diverse societies and forms of society, with attention to authority, leadership, decision-making, power and its disguises, and forms of resistance.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in one of: ANTH 1220 or ANTH 1221 or ANTH 1520] or written consent of instructor.

Attributes: Social Science

ANTH 2550 Culture and the Individual 3 cr

The study of the interrelations between life-cycle, psychological functioning and malfunctioning, and social and cultural institutions. Emphasis is placed on enculturation and life-cycle rituals. Students may not hold credit for both ANTH 2550 and ANTH 2551.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in one of: ANTH 1220 or ANTH 1221 or ANTH 1520] or written consent of instructor.

Equiv To: ANTH 2551

Attributes: Social Science

ANTH 2560 Anthropology of Illness 3 cr

Comparative study of cultural factors involved in health/illness: concepts of disease and curing practices.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in one of: ANTH 1220 or ANTH 1221 or ANTH 1520] or written consent of instructor.

Attributes: Social Science

ANTH 2570 Urban Anthropology 3 cr

Comparison of the processes of urbanization and various forms of urbanism, with attention to archaeological evidence and the emergence of urbanism and urbanization in developing nations.

Attributes: Social Science

ANTH 2600 Old World Prehistory 3 cr

A survey of the archaeological evidence and cultural interpretations of Old World cultures from the beginning of the Pleistocene to the development of agriculture.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ANTH 1210 or ANTH 1211] or written consent of instructor.

Attributes: Social Science

ANTH 2610 Old World Civilizations 3 cr

Archaeological evidence and cultural interpretations of the origins of complex societies from the development of agriculture to the beginnings of written history in the Old World.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ANTH 1210 or ANTH 1211] or written consent of instructor.

Attributes: Social Science

ANTH 2620 New World Prehistory 3 cr

Archaeological evidence and cultural interpretations of those New World cultures which did not develop civilizations, from the earliest inhabitants until the period of initial European contact.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ANTH 1210 or ANTH 1211] or written consent of instructor.

Attributes: Social Science

ANTH 2630 New World Civilizations 3 cr

Archaeological evidence and cultural interpretations of the growth and development of complex societies in the New World from the origins of agriculture to the period of initial European contact. Emphasis will be placed on the "high cultures" of Central and South America.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ANTH 1210 or ANTH 1211] or written consent of instructor.

Attributes: Social Science

ANTH 2640 Manitoba Prehistory 3 cr

Archaeological evidence and culture history of prehistoric populations which inhabited the various environmental zones of Manitoba.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ANTH 1210 or ANTH 1211] or written consent of instructor.

Attributes: Social Science

ANTH 2650 Archaeology of the Ancient Near East 3 cr

This course is an overview of the prehistory and early historical periods of the ancient Near East. Considerable attention is given to the fundamental transitions that transform the human existence and create the foundations for later civilization, such as: (1) the colonization of the region by humans; (2) the emergence of food production (domestication of plants and animals), settled village life, and hierarchical social organization; (3) the rise of states, urban centers, and writing; and (4) the emergence of militaristic empires. The course examines both archaeological and historical evidence with a heavy emphasis on material culture, primary archaeological, and historical data, and the process of scholarly interpretation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in one of: ANTH 1210 or ANTH 1211] or written consent of instructor.

Attributes: Social Science

ANTH 2690 Peoples and Cultures of Contemporary Latin America 3 cr

An ethnographic survey of the cultural diversity of contemporary Latin America with selected case study examples drawn from Mexico and Central America, South America, and the Hispanic Caribbean. Case studies are selected to represent a variety of anthropological perspectives.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in one of: ANTH 1220 or ANTH 1221 or ANTH 1520] or written consent of instructor.

Attributes: Social Science

ANTH 2820 Human Osteology 3 cr

An examination of normal and pathological skeletal anatomy. Quantitative methods of analysis for archaeological and forensic applications.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ANTH 1210 or ANTH 1211] or written consent of instructor.

Attributes: Social Science

ANTH 2860 Evolution and Human Diversity 3 cr

An introduction to the interacting roles of heredity, culture and environment in human families and populations. Introduces the biological bases for variation within/between human populations. Students may not hold credit for both ANTH 2860 and ANTH 2861.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ANTH 1210 or ANTH 1211] or written consent of instructor.

Equiv To: ANTH 2861

Attributes: Social Science

ANTH 2880 Human Evolution 3 cr

Intensive study of human organic evolution within hominid primates. Consideration of the relationships of socio-cultural adaptation to human evolution.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ANTH 1210 or ANTH 1211] or written consent of instructor.

Attributes: Social Science

ANTH 2890 Human Population Biology 3 cr

Intensive study of the evolutionary implications of genetic variation within/between human populations in relationship to ecological and cultural variation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ANTH 2860] or written consent of instructor.

Attributes: Social Science

ANTH 2910 Historical Archaeology 3 cr

An archaeological survey of the early post-European period in North America. Case studies will emphasize selected regions, time periods, and topics that may include: the western Canadian fur trade; European colonialism in North America; international colonialism.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ANTH 1210 or ANTH 1211] or written consent of instructor.

Attributes: Social Science

ANTH 2930 Archaeology of a Selected Area 3 cr

Detailed examination of the archaeology of a geographical area that is of current interest to faculty and students. The areas will rotate annually and will include but not be limited to the Caribbean, Europe, the Northwest Coast, Canada, the Arctic and the sub-Arctic. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ANTH 1210 or ANTH 1211] or written consent of instructor.

Attributes: Social Science

ANTH 3200 Anthropology of Food 3 cr

Considers the diversity of ways that anthropologists have used food as a productive entry point for understanding culture, society, and human ecology. The course will survey highpoints in the history of the anthropology of food and address current topics such as food security and food movements.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in one of: ANTH 1220 or ANTH 1221 or ANTH 1520] or written consent of instructor.

Attributes: Social Science

ANTH 3320 Women in Cross-Cultural Perspective 3 cr

Critical perspectives on the role of women cross-culturally, with ethnographic reference to non-Western societies and cultures. Students may not hold credit for both ANTH 3320 and ANTH 3321.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in one of: ANTH 1220 or ANTH 1221 or ANTH 1520] or written consent of instructor.

Equiv To: ANTH 3321

Attributes: Social Science

ANTH 3330 Sex and Sexualities 3 cr

Comparative approaches to the study of human sexuality and the diversity of sexual expression and identification from a feminist and cross-cultural ethnographic perspective. Sex and sexualities are examined as social and cultural constructions, experiences, discourses, identities, and practices located in specific local contexts and shaped by wider social processes including colonialism and globalization. Students may not hold credit for ANTH 3330 and any of: the former WOMN 3330 or the former ANTH 3350 or WOMN 3500 with the topic "Anthropology of Sex and Sexualities."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in a minimum of three credit hours of Anthropology or Women's and Gender Studies courses] or written permission of instructor.

Equiv To: ANTH 3350, WOMN 3330

Attributes: Social Science, Written English Requirement

ANTH 3380 Anthropology and Contemporary Social Issues 3 cr

Anthropological perspectives on poverty, social accountability, colonialism, racism, education, ecological degradation and violence. Students may not hold credit for both ANTH 3380 and ANTH 3381.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in each of ANTH 2000 (or ANTH 2001) and 3 credit hours from the following: ANTH 2020 or ANTH 2530 or ANTH 2831] or [a grade of "C" or better in the former ANTH 2390 or the former ANTH 2391] or written consent of instructor.

Equiv To: ANTH 3381

Attributes: Social Science

ANTH 3470 History of Anthropology 3 cr

A temporal survey of the development of major paradigms and theoretical movements in anthropological thought and method. Students may not hold credit for both ANTH 3470 and ANTH 3471.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in each of ANTH 2000 (or ANTH 2001) and 3 credit hours from the following: ANTH 2020 or ANTH 2530 or ANTH 2831] or [a grade of "C" or better in the former ANTH 2390 or the former ANTH 2391] or written consent of instructor.

Equiv To: ANTH 3471

Attributes: Social Science

ANTH 3500 Peoples of the Arctic 3 cr

Ethnographic survey of the aboriginal peoples of the circumpolar regions of Asia, North America, and Greenland. Attention will be given to the aboriginal and post-contact situations among such peoples. Students may not hold credit for both ANTH 3500 and ANTH 3501.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in one of: ANTH 1220 or ANTH 1221 or ANTH 1520] or written consent of instructor.

Equiv To: ANTH 3501

Attributes: Social Science

ANTH 3550 Canadian Subcultures 3 cr

An anthropological study of dimensions of community, ethnicity, and social class in Canadian society. Students may not hold credit for both ANTH 3550 and ANTH 3551.

Equiv To: ANTH 3551

Attributes: Social Science

ANTH 3600 Archaeological Method and Theory 3 cr

The historical development and current application of theoretical and methodological frameworks for archaeological interpretation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ANTH 2100] or written consent of instructor.

Attributes: Social Science

ANTH 3720 Demography of Past Populations 3 cr

This course provides students with a basic understanding of demographic methods and techniques applied in analysis of long term changes in the demographic patterns of anthropological populations.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ANTH 1210 or ANTH 1211] or written consent of instructor.

Attributes: Social Science

ANTH 3730 Forensic Anthropology 3 cr

This course provides the theory, methods, and techniques for forensic identification of human skeletal remains, including estimation of sex, age-at-death, stature, population affinities and features of personal biology. The laboratory component of this course, where students work with actual human skeletal remains, is a major component.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in ANTH 2820.

Attributes: Social Science

ANTH 3740 Human Growth and Variation 3 cr

An examination of variation in human body form and composition in the context of normal growth and development viewed in an evolutionary perspective.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ANTH 2860] or written consent of instructor.

Attributes: Social Science

ANTH 3750 Anthropological Perspectives on Globalization and the World-System 3 cr

An anthropological perspective on the modern world-system and the expansion of capitalism into peripheral areas of the world; the transformation of indigenous societies and cultures; the rise of ethnic conflict, protest and resistance; and a comparative examination of selected global and transnational processes. Students may not hold credit for both ANTH 3750 and ANTH 3751.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in one of: ANTH 1220 or ANTH 1221 or ANTH 1520 or ANTH 2000 or ANTH 2001 or the former ANTH 2390 or the former ANTH 2391] or written consent of instructor.

Equiv To: ANTH 3751

Attributes: Social Science

ANTH 3810 Anthropology of Belief Systems 3 cr

A comparative study of belief systems, rituals, and ceremonies in non-Western and Western societies and cultures. Students may not hold for credit both ANTH 3810 and ANTH 3811.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in one of: ANTH 1220 or ANTH 1221 or ANTH 1520] or written consent of instructor.

Equiv To: ANTH 3811

Attributes: Social Science

ANTH 3910 Archaeological Field Training 6 cr

Theory and practical field experience in the investigation of archaeological sites from the formulation of research designs through data analysis in the field. Offered in alternate summers. See Anthropology Department for details.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ANTH 2100] and written consent of instructor.

Attributes: Social Science

ANTH 3930 Ethnographic Research Methods 3 cr

A survey of ethnographic research methods with an emphasis on qualitative approaches, including both field and analytical techniques. Students may not hold credit for both ANTH 3930 and the former ANTH 3390.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ANTH 2000] or written consent of instructor.

Equiv To: ANTH 3390

Attributes: Social Science

ANTH 3950 Artifact Analysis 3 cr

Analytic and interpretive methods for treating archaeologically recovered materials such as lithics, ceramics and other artifacts are addressed through lectures, demonstrations and other laboratory exercises.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ANTH 2100] or written consent of instructor.

Attributes: Social Science

ANTH 3960 Cultural Resource Management 3 cr

A survey of the concepts, methods, and techniques used in the management of cultural, especially archaeological, heritage resources. The roles of public agencies, private contractors, and heritage legislation in Canadian CRM are reviewed.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ANTH 2100] or written consent of instructor.

Attributes: Social Science

ANTH 3970 Ethnography of a Selected Region 3 cr

An ethnographic survey of the culture(s) of a selected geographical area currently of interest to faculty and students. The areas to be studied may differ from year to year. Students may not hold for credit both ANTH 3970 and ANTH 3971. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in one of: ANTH 1220 or ANTH 1221 or ANTH 1520] or written consent of instructor.

Equiv To: ANTH 3971

Attributes: Social Science

ANTH 3980 Botanical Analysis in Archaeology 3 cr

Analytic and interpretive methods for treating archaeologically recovered plant remains and soils are addressed through lectures, demonstrations, and laboratory exercises.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ANTH 2100] or written consent of instructor.

Attributes: Social Science

ANTH 3990 Faunal Analysis in Archaeology 3 cr

Analytic and interpretive methods of treating archaeologically recovered faunal remains are addressed through lectures, demonstrations, and laboratory exercises.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ANTH 2100] or written consent of instructor.

Attributes: Social Science

ANTH 4760 Practicum in Archaeology 3 cr

This course is designed to provide advanced undergraduate students in archaeology with individualized practical experience in different aspects of archaeology by working with professional archaeologists.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ANTH 2100] and written consent of instructor.

Attributes: Social Science

ANTH 4780 Selected Topics in Cultural Anthropology 3 cr

The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor or department head.

Attributes: Social Science

ANTH 4790 Selected Topics in Archaeology 3 cr

The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor or department head

Attributes: Social Science

ANTH 4800 Seminar in Applied Anthropology 6 cr

A review of the history of applied anthropology and investigation of major case studies, research methodologies, intervention strategies, and substantive areas of application.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor or department head.

Attributes: Social Science

ANTH 4830 Advanced Reading and Research 3 cr

The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor and department head.

Attributes: Social Science

ANTH 4840 Advanced Independent Work 6 cr

The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor and department head.

Attributes: Social Science

ANTH 4850 Advanced Seminar in Anthropological Theory 3 cr

An analysis of the process of theory formation in the social sciences in general and in cultural (social) anthropology in particular. The theoretical content of various contemporary "schools" in anthropology is critically analyzed.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ANTH 3470 or ANTH 3471] or written consent of instructor or department head.

Attributes: Social Science

ANTH 4860 Selected Topics in Biological Anthropology 3 cr

Topics in biological anthropology which will vary depending on the needs of students and the interest of the instructor. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor or department head.

Attributes: Social Science

Arabic (ARA)

ARA 1000 Elementary Arabic 6 cr

(Lab required) An introductory course in written and oral Arabic, for students with little or no previous knowledge of the language. Language laboratory exercises will be included in addition to class time. Students may not hold credit for ARA 1000 and any of: the former ARA 2260 or the former SEM 2260. Not open to students who have previously obtained credit in ARA 2000.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

Equiv To: ARA 2260, SEM 2260

Attributes: Humanities, Recommended Intro Courses

ARA 2000 Intermediate Arabic 6 cr

(Lab required) This intermediate class will improve writing, reading, conversation and listening comprehension for everyday Arabic, and cover many of the important grammatical features of the language. By the end of this course, the learner should be able to communicate in many situations with fluency or near fluency.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ARA 1000 or the former ARA 2260 or the former SEM 2260] or written consent of instructor.

Attributes: Humanities, Recommended Intro Courses

ARA 3000 Advanced Arabic 6 cr

Students who have already mastered beginning and intermediate vocabulary and grammar will learn to use the language in a broader cultural context, developing their skills in reading and writing Arabic. The course utilizes communication-based activities and interactive learning techniques.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ARA 2000] or written consent of instructor.

Attributes: Humanities

Arts Interdisciplinary (ARTS)

ARTS 1110 Introduction to University 3 cr

A seminar course designed to help students make the transition to university by imparting the knowledge, skills, and attitudes requisite for success in university study. Each section limited to 30 students. Open only to students who have completed fewer than 60 credit hours of course work. Students may not hold credit for both ARTS 1110 and ARTS 1111.

Equiv To: ARTS 1111

Attributes: Recommended Intro Courses, Written English Requirement

ARTS 1160 Leadership: An Interdisciplinary Approach 3 cr

This course provides an introduction to the key issues and concerns of leadership and leadership studies, focusing on the central question of "what is leadership." Students will examine the philosophical and historical foundations of leadership theory and practice, along with the more contemporary (and often more theoretical) reflections on both leadership practices and the varied disciplines that study them. This course will satisfy the Faculty of Arts Social Science requirement. Students may not hold credit for both ARTS 1160 and LEAD 2010.

Mutually Exclusive: LEAD 2010

Attributes: Social Science, Recommended Intro Courses

ARTS 2020 Introduction to Health Humanities 3 cr

This interdisciplinary course is aimed at students interested in the health professions who are looking to gain awareness of the critical ways in which humanities disciplines can help to attune future health professionals to a number of critical and complicated issues that they will encounter in their practices. These issues include the problem of defining health, bioethical questions (abortion, physician assisted suicide, genetic testing, etc.), and relationships between patients and health professionals. This course will make use of a number of important disciplinary practices from the humanities and social sciences to attune students to these issues and give them the resources for handling them better in professional health care contexts.

Attributes: Humanities

ARTS 3010 Arts Co-operative Option 1 1 cr

Work assignments in business, industry, or government for students admitted to the Arts Co-operative Option. Required submission of a written report covering the work completed during the work term. This course is evaluated on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of the Arts Co-operative Option Coordinator and the Faculty of Arts.

ARTS 3020 Arts Co-operative Option 2 1 cr

Work assignments in business, industry, or government for students admitted to the Arts Co-operative Option. Required submission of a written report covering the work completed during the work term. This course is evaluated on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ARTS 3010 and written consent of the Arts Co-operative Option Coordinator and the Faculty of Arts.

ARTS 3030 Arts Co-operative Option 3 1 cr

Work assignments in business, industry, or government for students admitted to the Arts Co-operative Option. Required submission of a written report covering the work completed during the work term. This course is evaluated on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ARTS 3020 and written consent of the Arts Co-operative Option Coordinator and the Faculty of Arts.

Asian Studies (ASIA)

ASIA 1420 Asian Civilizations to 1500 (B) 3 cr

A study of major themes in the history and culture of China and Japan, the Indian subcontinent and Southeast Asia from ancient times to around 1500. Also offered as History HIST 1420. May not hold credit with HIST 1420.

Equiv To: HIST 1420

Mutually Exclusive: HIST 1410

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

ASIA 1430 Asian Civilization from 1500 (B) 3 cr

A study of major themes in the history and culture of China and Japan, the Indian subcontinent and Southeast Asia in modern times. Also offered as History HIST 1430. May not hold credit with HIST 1430.

Equiv To: HIST 1430

Mutually Exclusive: HIST 1410

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

ASIA 1750 Introduction to Korean 6 cr

(Lab required) An introduction to spoken and written Korean for students with little or no previous knowledge of the language. Students will be taught basic pronunciation, vocabulary, and grammar, as well as the Hangul writing system. Students who have received all or a portion of their elementary or secondary education in the Korean language may not normally enrol. Not open to students who have previously obtained credit in ASIA 2750.

Attributes: Humanities, Recommended Intro Courses

ASIA 1760 Introduction to Chinese (Mandarin) 6 cr

An introduction to modern vernacular (Mandarin) Chinese in spoken and written form. Grounding in pronunciation, basic grammar, vocabulary, and some written characters. Students who have received all or a portion of their elementary or secondary education in the Chinese language may not normally enrol. Not open to students who have previously obtained credit for ASIA 2760 or ASIA 3760 or the former ASIA 2360.

Equiv To: ASIA 2360

Attributes: Humanities, Recommended Intro Courses

ASIA 1770 Introduction to Japanese 6 cr

This course teaches basic Japanese grammar, vocabulary, pronunciation, and about 190 written characters. The course is intended for students with no prior knowledge of Japanese. Students with prior knowledge of the language are required to take a placement test or to meet with the Program Director or designate for an interview. This includes heritage learners (students who speak the language and/or whose family member(s) communicate with them in the language) and students whose knowledge comes from self-study, private instruction, or who have studied Japanese at high school or at institutions other than the University of Manitoba. Not open to students who previously obtained credit for ASIA 2770 or ASIA 3770.

Attributes: Humanities, Recommended Intro Courses

ASIA 1780 Basic Sanskrit 6 cr

Students will first learn the Devanagari script then proceed to reading, writing, conversation, grammar and vocabulary. Not open to students who previously obtained credit for ASIA 2780.

Attributes: Humanities

ASIA 1790 Basic Hindi-Urdu 6 cr

Training in conversation, reading and writing of modern standard Hindi and some elements of Urdu. Students will learn to read and write the Devanagari script, and learn the basic grammar of the language. Not open to students who have previously obtained credit for the former ASIA 2790 or the former ASIA 3790.

Attributes: Humanities

ASIA 2080 South Asian Civilization 3 cr

An interdisciplinary study of the Indian subcontinent from the ancient to the contemporary period, focusing on geographic, religious, historic, sociological, and political developments. Students may not hold credit for both ASIA 2080 and the former ASIA 2070.

Mutually Exclusive: ASIA 2070

Attributes: Humanities

ASIA 2570 History, Culture, and Society in Chinese Film 3 cr

This course will focus on the presentation of various aspects of twentieth century Chinese culture through the medium of film. Films will be selected largely from those recently produced in China, Taiwan, and Hong Kong, with some attention to recent North American movies by ethnic Chinese directors.

Attributes: Humanities

ASIA 2580 Women in Chinese Film 3 cr

This course will focus on the cinematic presentation of women in Chinese films. Films will be selected largely from those produced recently in China, Taiwan, and Hong Kong, as well as in North America by ethnic Chinese directors. The intention is to review how the image of women as reflected in Chinese cinema has changed with time, place, and modern technology.

Attributes: Humanities

ASIA 2600 Japanese Film 3 cr

A survey of cinematic art in Japan, with emphasis on the major directors and trends of the postwar period. Films to be studied will be drawn from the work of Mizoguchi, Ozu, Kurosawa, the "New Wave" directors of the 1960s, the comedies of Itami, and films of contemporary directors such as Kitano and Miyazaki.

Attributes: Humanities

ASIA 2610 Modern Chinese Literature in Translation 3 cr

A study of 20th and 21st century Chinese literature (in English translation) from the May 4th Movement to the present. With a special focus on prose fiction, students will be introduced to the historical and critical context of literary production in modern China. Lectures and texts in English. Students may not hold credit for both ASIA 2610 and the former ASIA 2660.

Mutually Exclusive: ASIA 2660

Attributes: Humanities

ASIA 2620 Japanese Civilization 3 cr

An interdisciplinary study of Japanese civilization from earliest times to the Meiji Restoration. All aspects of traditional Japanese culture will be examined, including geography, religion, philosophy, history, sociology, economics and politics. The nature of Japanese cultural identity will be taken as a unifying theme.

Attributes: Humanities

ASIA 2630 Chinese Civilization 3 cr

An interdisciplinary study of Chinese civilization from earliest times to the Opium War. All aspects of traditional Chinese culture will be examined, including geography, religion, philosophy, history, sociology, economics, and politics. A central unifying theme will be the examination of Chinese cultural identity.

Attributes: Humanities

ASIA 2650 Premodern Chinese Literature in Translation 3 cr

A study of pre-modern Chinese literature up to 1911. Includes writings in early history and philosophy, essays, poetry, short stories and novels. Lectures and texts in English.

Attributes: Humanities

ASIA 2662 Chinese Diaspora Literature 3 cr

This course focuses on the contemporary literature of the Chinese diaspora. Through a reading of prose fiction by writers of Chinese ethnicity living in locations like Taiwan, Hong Kong, Southeast Asia, Australia and North America, we will explore the notion of "different ways of being Chinese." Some of the material studied will have been originally written in English, but much of it will be read in English translation. Lectures and texts in English.

Attributes: Humanities

ASIA 2670 Modern Japanese Literature in Translation 3 cr

This course is intended as an introduction to Japanese Literature from the Meiji era (1868-1912) to the present day. Although some attention will be paid to poetry, the emphasis will be on short stories and the novel.

Attributes: Humanities

ASIA 2750 Intermediate Korean 6 cr

(Lab required) A continuation of the study of spoken and written Korean for students who have successfully completed ASIA 1750. Students will be taught advanced pronunciation, vocabulary, and grammar. Students who have received all or a portion of their elementary or secondary education in the Korean language may not normally enrol except by special permission of the instructor.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [ASIA 1750] or written consent of instructor.

Attributes: Humanities

ASIA 2760 Intermediate Chinese (Mandarin) 6 cr

Continues the introduction of basic vocabulary, grammatical structures, and written characters. Emphasis will be given to the development of aural/oral skills. Not open to students who have previously obtained credit for ASIA 3760 or the former ASIA 2360.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ASIA 1760] or written consent of instructor.

Equiv To: ASIA 2360

Attributes: Humanities, Recommended Intro Courses

ASIA 2770 Intermediate Japanese 6 cr

For students who have taken Japanese ASIA 1770. Continues the introduction of basic vocabulary, grammatical structures and more written characters. Greater emphasis will be given to the development of aural/oral skills. Not open to students who have previously obtained credit in ASIA 3770.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ASIA 1770] or written consent of instructor.

Attributes: Humanities, Recommended Intro Courses

ASIA 2780 Intermediate Sanskrit 6 cr

Advanced grammar, vocabulary, and syntax to enable the student to read epic and pauranic materials.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ASIA 1780] or written consent of instructor.

Attributes: Humanities

ASIA 3480 Selected Topics in Asian Studies 1 3 cr

An intensive study of specially selected authors or themes in Asian Studies. The particular subject will vary year to year. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of Asian Studies coordinator.

Attributes: Humanities

ASIA 3490 Selected Topics in Asian Studies 2 3 cr

An intensive study of specially selected authors or themes in Asian Studies. The particular subject will vary year to year. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of Asian Studies coordinator.

Attributes: Humanities

ASIA 3520 The Japanese Theatre 3 cr

(Lab required) An overview and practical introduction to the Japanese theatre. Combines the study of theatre history and representative traditional and modern genres (kagura, nō, kyōgen, kabuki, bunraku, shingeki) with training in traditional movement and dance, and the performance of short , kyōgen plays.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in at least one of: ASIA 1770 or ASIA 2620 or THTR 1220] or written consent of instructor.

Attributes: Humanities

ASIA 3560 Themes and Genres in Asian Literature 3 cr

A study of selected works of Asian literature organized around specific themes or genres in English translation. Content may vary from year to year, but will include literary works from two or more regions and two or more historical periods. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ASIA 1420 (or HIST 1420) or ASIA 1430 (or HIST 1430)] or written consent of instructor.

Attributes: Humanities

ASIA 3600 Japanese Popular Culture 3 cr

This course examines various examples of popular culture in contemporary Japan, including popular literature, film, television, popular music, and leisure activities. Attention will also be paid to popular culture theory and methods of analysis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ASIA 2620] or written consent of instructor.

Attributes: Humanities

ASIA 3750 Advanced Korean 6 cr

A continuation of the study of spoken and written Korean for students who have successfully completed ASIA 2750. Students will engage in group projects, discussions, and presentations on topics covered in the course and in a range of communicative situations. Students will also be introduced to authentic examples of Korean novels, essays, journal articles, movies, TV dramas, and selections from Korean history and arts. Students who have received all or a portion of their elementary or secondary education in the Korean language may not normally enroll except by special permission of the instructor.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ASIA 2750] or written consent of instructor.

Attributes: Humanities

ASIA 3760 Advanced Chinese (Mandarin) 6 cr

This course is for those who have taken Intermediate Chinese or who have obtained basic language skills in Mandarin Chinese elsewhere. A balanced approach to reading, writing, and aural/oral skills will be employed. Students will use advanced prepared texts and will also be introduced to selected examples of contemporary Chinese literature. Not open to students who previously obtained credit for the former ASIA 3660 or the former ASIA 2360.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ASIA 2760] or written consent of instructor.

Equiv To: ASIA 2360

Attributes: Humanities

ASIA 3770 Advanced Japanese 6 cr

This course is designed for those who have taken ASIA 2770 Intermediate Japanese or have basic linguistic skills in Japanese and wish to improve their ability in the Japanese language previously acquired.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ASIA 2770] or written consent of instructor.

Attributes: Humanities

ASIA 3780 Advanced Reading in Japanese 3 cr

This course allows students to further develop their skills in the Japanese language through a focus on reading. Course material will be drawn from examples of modern literature and film scripts.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ASIA 3770] or written consent of instructor.

Attributes: Humanities

ASIA 3792 Linguistic Analysis of Japanese 3 cr

This course analyses structures and usage of the Japanese language, using linguistic methodology to understand the language and associated social, cultural, psychological, and cognitive factors.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ASIA 2770] or written consent of instructor.

Attributes: Humanities

Astronomy (ASTR)

ASTR 1810 Introduction to Astronomy: The Magnificent Universe 3 cr

(Lab Required) This introductory astronomy course surveys our magnificent Universe. The topics covered in this course outline the properties of stars and planets that can be observed and the physics necessary to interpret these observations. It also includes an introduction to galaxies and cosmology. Using lectures and laboratory sections, it provides an astronomy background and introduction to the scientific method. It ranges from introductory physical background to considering current research problems. This course is taught with algebra and trigonometry used frequently. May not be held with the former PHYS 1810.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (one of Physics 40S, PHYS 0900 (P), or equivalent) and (70% or better in one of Pre-calculus Mathematics 40S, Applied Mathematics 40S, or equivalent). It is strongly recommended that students attain a minimum of 70% as the average of their marks in Physics 40S and Pre-calculus Mathematics 40S.

Equiv To: PHYS 1810

Attributes: Science, Recommended Intro Courses

ASTR 1830 Life in the Universe 3 cr

This descriptive, general interest course explores the topic of life in the universe. Some of the following topics will be covered. (1) Some astronomy fundamentals (gravity, light). (2) The solar system (an introduction to the solar system, the formation of the solar system, the origin of life on Earth, extremophiles, the conditions needed for life, possible locations for life in the solar system). (3) Exoplanets (discovery methods, properties of detected Exoplanets, the Habitable Zone). (4) Star system formation (pre-stellar disks, planetary migration). (5) The Interstellar medium (nebulae, molecular clouds). (6) Our Milky Way galaxy as an environment for life and the Drake Equation. (7) The Search for Extra Terrestrial Intelligence (SETI). This course is qualitative with simple arithmetic and trigonometry used occasionally. May not be held with the former PHYS 1830.

Equiv To: PHYS 1830

Attributes: Science, Recommended Intro Courses

ASTR 2000 Foundations of Astrophysics 3 cr

This course covers the foundations of astrophysics, with emphasis on the core physical principles and processes that govern astronomical phenomena. The course emphasizes how the physics of matter, radiation, gravity, magnetic fields, and the interaction between light and matter can be used to understand a range of astrophysical phenomena, including fundamental processes, fascinating energetic objects, and topics at the forefront of modern research.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (one of PHYS 1070, PHYS 1071, or PHYS 2152) or (a "C+" or better in PHYS 1030 or PHYS 1031) and (one of MATH 1232, MATH 1690, MATH 1700, MATH 1701, MATH 1710, or the former MATH 1730) or permission of the department. ASTR 1810 is recommended.

Attributes: Science

ASTR 2070 Observational Astronomy Techniques 3 cr

(Lab Required) Students will learn the basic astronomy tools and practical concepts pertaining to observational astronomy. Lecture topics include spectroscopy, the optics of mirrors and lenses relevant to telescopes, types of telescopes, and factors that affect the quality of astronomical observations. The practical aspects include observational project development, and hands-on telescope experience using the University of Manitoba's Ewen Campus Observatory (ECO) and the Glenlea Astronomical Observatory (GAO) as well as smaller 8-inch portable telescopes. May not be held with the former PHYS 2070.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (one of PHYS 1070, PHYS 1071, or PHYS 2152) or (a "C+" or better in PHYS 1030 or PHYS 1031) and (one of MATH 1232, MATH 1690, MATH 1700, MATH 1701, MATH 1710, or the former MATH 1730) and (one of ASTR 1810, the former PHYS 1810, ASTR 1830, the former PHYS 1830, or ASTR 2000) or permission of the department.

Mutually Exclusive: PHYS 2070

Attributes: Science

ASTR 3070 Observational Astronomy Project 3 cr

(Lab Required) Students will learn to develop and execute an observational research project. Students will choose their research topic with the constraint that the data be collected using the University of Manitoba's Astronomical Observatory at Glenlea Astronomical Observatory and the Ewen Campus Telescopes. The optical observational data will be supplemented by archival data from professional research telescopes such as the Hubble Space Telescope, Chandra X-ray Observatory and others. The course covers the determination of observational constraints, the use of filters, methods of data analysis, and interpretation of results. The research project will be written into a report and presented.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ASTR 2070 or the former PHYS 2070 or permission of the department.

Attributes: Science

ASTR 3180 Stars 3 cr

This course provides an overview of the physics of stars, including all phases of stellar evolution: from star formation, to the main-sequence phase, to star death, to the formation of degenerate or compact remnants such as white dwarfs, neutron stars and black holes. Topics include radiative transfer, stellar structure and atmosphere, nuclear fusion, stellar evolution, degenerate stars, and other exotic forms of compact stellar remnants. May not be held with the former PHYS 3180.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ASTR 2000 or permission of the department.

Equip To: PHYS 3180

Attributes: Science

ASTR 3230 The Phenomenology of Galaxies 3 cr

This course investigates galaxies from the perspective of recent observational data, exploring characteristics that theories have yet to explain. Topics include sources of their radiation, such as stars, gas and dust; their structure and kinematics, which indicate the existence of dark matter; and their formation and evolution, which has implications for cosmological studies. May not be held with the former PHYS 4230.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ASTR 2000 or permission of the department. ASTR 2070 or ASTR 3180 is recommended.

Mutually Exclusive: PHYS 4230

Attributes: Science

ASTR 4020 Cosmology and Black Holes 3 cr

Topics include static solutions of Einstein's equations, gravitational waves, static models for stars (white dwarfs, neutron stars), dynamic models for stars (Birkhoff theorem, black holes), and cosmology (Robertson-Walker metric, Friedmann equations). Further topics discussed in the course are cosmic inflation, dark matter and energy, as well as large-scale structure of the universe. May not be held with the former PHYS 4020.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHYS 4010.

Equip To: PHYS 4020

Mutually Exclusive: ASTR 7020

Attributes: Science

ASTR 4100 High-Energy Astrophysics 3 cr

This course provides an overview of the field of high-energy astrophysics and of high-energy missions, with emphasis on X-ray and gamma-ray astrophysical sources and relevant radiation processes. Radiation and high-energy processes include synchrotron radiation, bremsstrahlung, Inverse Compton scattering, pion decay, and particle acceleration.

Astrophysical sources include accreting compact objects, supernovae and their remnants, gamma-ray bursts, and clusters of galaxies. The course can include topics relevant to nuclear astrophysics and will train students in writing observing proposals for high-energy facilities. May not be held with PHYS 4300 when the topic is "High-Energy Astrophysics".

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (PHYS 2386 or the former PHYS 2380) and PHYS 2600 and PHYS 3670. ASTR 2000 is recommended.

Mutually Exclusive: ASTR 7100, PHYS 4300

Attributes: Science

ASTR 4200 Radio Astronomy 3 cr

This course will provide an introduction to observational radio astronomy and processes in radio astrophysics. Topics will include: an introduction to radio astronomy; basic radiative transfer; blackbody radiation and radiation from an accelerated charge; radio telescopes, receivers, and interferometers; thermal continuum sources (e.g., HII regions); non-thermal continuum sources (e.g., radio galaxies); pulsars; and spectral-line sources (e.g., the 21 cm line, radio recombination lines, and rotational energy transitions in simple molecules). May not be held with PHYS 4300 when the topic taught is "Radio Astronomy."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (PHYS 2386 or the former PHYS 2380) and PHYS 2600 and PHYS 3670. ASTR 2000 is recommended.

Mutually Exclusive: ASTR 7200, PHYS 4300

Attributes: Science

ASTR 4400 Magnetohydrodynamics, Astrophysical Plasmas, and the Interstellar Medium 3 cr

This course develops a theoretical understanding of interstellar magnetic fields for a diverse range of astrophysical objects, processes, and phenomena. The theoretical aspects of magnetohydrodynamics (MHD), including waves, shocks, instabilities, and turbulence are discussed. MHD and plasma physics are applied to the magneto-ionic interstellar medium of our galaxy, including supernova remnants. Magnetic fields in molecular clouds and cores are examined, with emphasis on their role in star formation. The course also develops a theoretical foundation for the physics of cosmic ray diffusion and acceleration.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: PHYS 3630 and PHYS 3670.

Mutually Exclusive: ASTR 7400

Attributes: Science

Biochem. and Medical Genetics (BGEN)

BGEN 2000 Medical Cell Biology 3 cr

This course will outline the molecular mechanisms underpinning human cellular biological processes, their role in specialized human cells, normal development and homeostasis, and how changes in cellular function can lead to the pathobiology of human diseases.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: A minimum grade of C+ in HEAL 1502, or BIOL 1030 or BIOL 1031.

BGEN 2010 Applied Nutrition for Pharmacy Practice 2 cr

This course will provide an evidence-based guide for pharmacists on how nutrition and supplements can be applied in the management of disease or enhancement of health in pharmacy practice. Topics will focus on the underlying biochemical basis for nutrition management of selected chronic metabolic and genetic diseases. Chronic disorders for which pharmacists are most frequently consulted will be selected for discussion. Other topics could include frequently encountered diets or supplements.

BGEN 3010 Genetics in Biomedicine 3 cr

This course provides students with an overview of the field of human genetics from the research laboratory to the clinic. This course will cover the topics of epigenetics, patterns of inheritance, population genetics, complex traits, prenatal diagnosis and ethics. May not be held with BGEN 3022 or BGEN 3024 or the former BGEN 3020.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: A minimum grade of C+ in BGEN 2000 or BIOL 2520 or BIOL 2521.

Mutually Exclusive: BGEN 3020, BGEN 3022, BGEN 3024

BGEN 3022 Introduction to Human Genetics A 3 cr

Introduction to basic principles of human genetics with emphasis on pedigrees analysis, population genetics and cytogenetics. May not be held with BGEN 3010 or the former BGEN 3020.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 2500 or BIOL 2501 or BGEN 2000 or instructor permission.

Mutually Exclusive: BGEN 3010, BGEN 3020

BGEN 3024 Introduction to Human Genetics B 3 cr

Principles of human genetics with emphasis on clinical applications, including human development, disease treatments, prenatal diagnosis and ethics. May not be held with BGEN 3010 or the former BGEN 3020.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BGEN 3022.

Mutually Exclusive: BGEN 3010, BGEN 3020

BGEN 4010 Project Course in Human Genetics 6 cr

A research project chosen in consultation with and supervised by a faculty member. A written report is required. The course is available primarily to final year Honours students in the Honours Genetics program. Selection of project and supervision to be arranged prior to September 30 and submitted in writing to department head. Deadline for submission of first draft to supervisor by March 1. Deadline for submission of final draft to supervisor and course coordinator is March 31.

Biological Sciences (BIOL)

BIOL 1000 Biology: Foundations of Life 3 cr

A course in unifying principles of biology including cell biology, bioenergetics, cell division, genetics and evolution. May not be used for credit in a Major or Honours program in the Biological Sciences. May not be held with BIOL 1001, BIOL 1020, or BIOL 1021.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Any grade 12 or 40S Mathematics course (50%) or MSKL 0100.

Equiv To: BIOL 1001

Mutually Exclusive: BIOL 1020, BIOL 1021

Attributes: Science, Recommended Intro Courses

BIOL 1010 Biology: Biological Diversity and Interaction 3 cr

An introduction to biological diversity including prokaryotes, protists, fungi, plants and animals; the form and function of plants and animals and basic concepts of ecology. May not be used for credit in a Major or Honours program in the Biological Sciences. May not be held with BIOL 1011, BIOL 1030, or BIOL 1031.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Any grade 12 or 40S Mathematics course (50%) or MSKL 0100.

Equiv To: BIOL 1011

Mutually Exclusive: BIOL 1030, BIOL 1031

Attributes: Science, Recommended Intro Courses

BIOL 1020 Biology 1: Principles and Themes 3 cr

(Lab Required) A laboratory-based course in unifying principles of biology including cell biology, bioenergetics, cell division, genetics and evolution. This course is intended for Major and Honours students in the Biological Sciences. May not be held with BIOL 1021, BIOL 1000, BIOL 1001, or BIOE 2590. Students who complete BIOL 1000 as the prerequisite for BIOL 1020 will not be allowed to use both BIOL 1000 and BIOL 1020 towards their degree program as the two courses may not be held for credit with one another.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Biology 40S (50%) and [any 40S Mathematics (50%) or MSKL 0100] and [one of 40S Chemistry (50%), CSKL 0100, 40S Physics (50%), or PSKL 0100] or BIOL 1000.

Equiv To: BIOL 1021

Mutually Exclusive: BIOE 2590, BIOL 1000, BIOL 1001

Attributes: Science

BIOL 1030 Biology 2: Biological Diversity, Function and Interactions 3 cr

(Lab Required) A laboratory-based course introducing biological diversity including prokaryotes, protists, fungi, plants and animals; the form and function of plants and animals and basic concepts of ecology. This course is intended for major and honours students in the Biological Sciences. Not to be held with BIOL 1031, BIOL 1010 or BIOL 1011, BIOE 2590. NOTE: BIOL 1030 is a prerequisite to further courses in Microbiology and to most courses in Biological Sciences. It is also intended for students proceeding to Agricultural and Food Sciences, Dentistry, Human Ecology, Medicine, Optometry, Pharmacy, Veterinary Science, Physical Education and Science.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 1020 or BIOL 1021.

Equiv To: BIOL 1031

Mutually Exclusive: BIOE 2590, BIOL 1010, BIOL 1011

Attributes: Science

BIOL 1300 Economic Plants 3 cr

A survey of economically important plants and their products. The history of plant use, plants in folklore and medicine, fermentation and viticulture, domestication of plants, and forestry are the major topics covered. Chemical, structural, and nutritional aspects of plant products are also discussed.

Equiv To: BOTN 1010

Attributes: Science, Recommended Intro Courses

BIOL 1340 The State of the Earth's Environment: Contemporary Issues 3 cr

A presentation of contemporary environmental issues focusing on the scientific basis of problems caused by the growth of human population, use and depletion of resources, pollution, and damage to the environment. The current state of our knowledge bases will be discussed, along with improvements in them that may be necessary. The course will consider needs for action, priorities, and opportunities. May not be used to meet a program requirement of an Honours or Major program in the Biological Sciences. Not to be held with ENVR 1000.

Mutually Exclusive: ENVR 1000

Attributes: Science, Recommended Intro Courses

BIOL 1410 Anatomy of the Human Body 3 cr

(Lab Required) Microanatomy and gross anatomy discussed including changes occurring from conception to old age. Although this course may be used as an elective in an Arts or Science program, it may not be used to meet a program requirement of an Honours or Major program in the Biological Sciences. May not be held with BIOL 1411. No prerequisite. High school Biology strongly recommended.

Equiv To: BIOL 1411, ZOO 1320

Attributes: Science, Recommended Intro Courses

BIOL 1412 Physiology of the Human Body 3 cr

(Lab Required) Function of all systems discussed with homeostatic regulatory mechanisms as foundation themes. Although this course may be used as an elective in an Arts or Science program, it may not be used to meet a program requirement of an Honours or Major program in the Biological Sciences. Not available to students who have previously obtained credit in, or are currently registered in both of BIOL 2410 (BIOL 2411) and BIOL 2420 (BIOL 2421) or BIOL 1413. This prerequisite is waived for students in the Baccalaureate Program for Registered Nurses.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 1410 or BIOL 1411; or one of BIOL 1030, BIOL 1031.

Equiv To: BIOL 1413, ZOO 1330

Mutually Exclusive: BIOL 2410, BIOL 2411, BIOL 2420, ZOO 2530, ZOO 2531

Attributes: Science, Recommended Intro Courses

BIOL 2200 The Invertebrates 3 cr

(Lab Required) Biology and phylogeny of invertebrates. Emphasis on common taxa and on those groups of particular phylogenetic significance. Not to be held with BIOL 2201.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of BIOL 1030, BIOL 1031.

Equiv To: BIOL 2201, ZOO 2600, ZOO 2601

Attributes: Science

BIOL 2210 The Chordates 3 cr

(Lab Required) A study of the origin, evolutionary history and structure of the major groups of Chordates. Provides the foundation for more specialized courses such as Biology of Fishes, Ornithology, and Systematics and Biogeography of Fishes. Not to be held with BIOL 2231.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of BIOL 1030, BIOL 1031.

Mutually Exclusive: BIOL 2231, ZOO 2320, ZOO 2501

Attributes: Science

BIOL 2240 The Non-Flowering Plants 3 cr

(Lab Required) An introduction to the mosses and liverworts, ferns and their allies, and conifers, specifically treating their structure, reproduction, identification and ecological significance.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of BIOL 1030, BIOL 1031.

Equiv To: BOTN 2110

Attributes: Science

BIOL 2242 The Flowering Plants 3 cr

(Lab Required) A study of the structure and function of the flowering plants. Lecture topics are supplemented by laboratory exercises that focus on the anatomy and morphology of roots, stems, leaves and reproductive organs.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 1030 or BIOL 1031.

Equiv To: BOTN 2010

Attributes: Science

BIOL 2260 Biology of Fungi and Lichens 3 cr

(Lab Required) An introduction to the fungi, both free living and lichenized, with emphasis on the major taxonomic groupings, their organization and structure, their life histories, identification and general economic significance. May not be held with BIOL 2261.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 1030 or BIOL 1031.

Equiv To: BIOL 2261, BOTN 2210

Attributes: Science

BIOL 2262 Biology of Algae 3 cr

(Lab Required) (Formerly BIOL 3260) Lectures and laboratories dealing with the cellular features of major groups of algae and their phylogenetic and adaptive significance. The basics of algal taxonomy are also covered. Not to be held with the former BIOL 3260.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of BIOL 1030, BIOL 1031.

Equiv To: BOTN 2290

Mutually Exclusive: BIOL 3260

Attributes: Science

BIOL 2300 Principles of Ecology 3 cr

(Lab required) Principles of ecology at the individual, population, community, and ecosystems levels. This course is the normal prerequisite to other courses in ecology. May not be held with BIOL 2301, BIOL 2390, or AGEC 2370.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 1030 or BIOL 1031. Prerequisite or concurrent requirement: one of STAT 1150, STAT 1000, STAT 1001, or STAT 2220.

Equiv To: AGEC 2370, BIOL 2301, BOTN 2370, BOTN 2371, ZOO 2370, ZOO 2371

Mutually Exclusive: BIOL 2390, BOTN 2280, ZOO 2290

Attributes: Science

BIOL 2301 Principes d'écologie 3 cr

(Laboratoire requis) Principes d'écologie au niveau de l'individu, de la population, de la communauté et de l'écosystème. C'est normalement le cours préalable aux autres cours d'écologie. On ne peut se faire créditer BIOL 2301 et BIOL 2300, BIOL 2390 ou AGEC 2370.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable : BIOL 1031 ou BIOL 1030. Préalable ou concomitant : un de STAT 1001, STAT 1000 ou STAT 1150.

Equiv To: AGEC 2371, BIOL 2300, BOTN 2370, BOTN 2371, ZOO 2370, ZOO 2371

Mutually Exclusive: BIOL 2390, BOTN 2280, ZOO 2290

Attributes: Université de Saint-Boniface

BIOL 2380 Introductory Toxicology 3 cr

A survey of general principles underlying the effects of toxic substances on biological systems, including consideration of the history, scope and applications of toxicology, the mechanisms of toxic action, and some major types of toxicants. This course is also taught in Environmental Science as ENVR 2180 and in Agriculture as AGRI 2180. May not be held with BIOL 2381, the former BIOL 2382, ENVR 2180, ENVR 2190, AGRI 2180 or AGRI 2190.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [BIOL 1030 or BIOL 1031] and [(CHEM 1100 and one of CHEM 1110, CHEM 1120, CHEM 1126, or CHEM 1130) or (one of CHEM 1311, the former CHEM 1310, or the former CHEM 1320)].

Equiv To: AGRI 2180, BIOL 2381, BOTN 2180, ENVR 2180, ZOO 2180

Mutually Exclusive: AGRI 2190, BIOL 2382, BOTN 2190, ENVR 2190, ZOO 2190

Attributes: Science

BIOL 2390 Introductory Ecology 3 cr

The course involves a study of the interrelationships of living organisms (including human) with each other and with their environment. It is not normally acceptable as a prerequisite to other courses in ecology. Not to be held with BIOL 2300, BIOL 2301, or AGEC 2370.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of BIOL 1010, BIOL 1030, BIOL 1031.

Equiv To: BOTN 2280, ZOO 2290

Mutually Exclusive: AGEC 2370, BIOL 2300, BIOL 2301, BOTN 2370, BOTN 2371, ZOO 2320, ZOO 2370, ZOO 2371

Attributes: Science

BIOL 2410 Human Physiology 1 3 cr

The mechanisms of action of the body's major control systems (nervous and endocrine) and of the muscular and reproductive systems are examined. Not to be held with BIOL 2411 or BIOL 3460.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of BIOL 1030, BIOL 1031 or BIOL 1412; or a "C+" or better in both BIOL 1000 (or equivalent - BIOL 1001) and BIOL 1010 (or equivalent - BIOL 1011).

Equiv To: BIOL 2411, ZOO 2530, ZOO 2531

Mutually Exclusive: BIOL 1412, BIOL 1413, BIOL 3460, ZOO 1330, ZOO 3530

Attributes: Science

BIOL 2420 Human Physiology 2 3 cr

An examination of homeostatic regulation by the body's major effector organ systems (cardiovascular, respiratory, digestive, renal, and immune). Not to be held with BIOL 2421.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Completion of BIOL 2410 (D), or BIOL 2411 (D), or BIOL 3460 (D); or consent of department.

Equiv To: BIOL 2421, ZOO 2540, ZOO 2541

Attributes: Science

BIOL 2440 Human Reproductive Physiology 3 cr

This course provides an in-depth understanding of human reproduction with particular emphasis on intrinsic control mechanisms and extrinsic methods of regulation of reproduction. This course also provides the basis for the understanding of alterations from normal mechanisms of reproductive processes. Check with the Department of Biological Sciences for course availability.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: BIOL 1410 and BIOL 1412; or consent of department.

Equiv To: ZOO 2140

Attributes: Science

BIOL 2500 Genetics 1 3 cr

(Lab Required) Principles of heredity, gametogenesis and the cytological basis of inheritance in plants and animals. The concepts of dominance and genetic interaction, sex and inheritance, linkage, chromosomal variations, quantitative and population genetics, the genetic code. Not to be held with BIOL 2501 or PLNT 2520.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of BIOL 1030, BIOL 1031.

Equiv To: BIOL 2501, BOTN 2460, BOTN 2461, PLNT 2520

Mutually Exclusive: MBIO 1410

Attributes: Science

BIOL 2520 Cell Biology 3 cr

The microscopic and submicroscopic aspects of cellular structure and function are considered with emphasis on the living cell as a dynamic system. Not to be held with BIOL 2521.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of BIOL 1030, BIOL 1031.

Equiv To: BIOL 2521, ZOO 2280, ZOO 2281

Attributes: Science

BIOL 2600 Introduction to Computational Biology 3 cr

(Lab required) Biologists working in fields from genomics to ecology to physiology collect, analyze, and interpret their data using quantitative methods. More and more, biological researchers are encountering data (genomic, environmental, phenotypic) in unprecedented volumes that require new data handling approaches. The overall goal of this course is to introduce biology students to the types of biological questions that can be answered by applying computational methods to large-scale, publicly available data sets. The course will include a survey of several major public biological data repositories and will introduce students to the tools that biologists use to access, explore, analyze and visualize these data. This course is restricted to Faculty of Science students in a Major or Honours program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (BIOL 1030 or BIOL 1031) or [(STAT 1150 or (STAT 1000 and STAT 2000)) and (one of BIOL 1000, BIOL 1001, BIOL 1010, or BIOL 1011)].

Attributes: Science

BIOL 2890 Special Topics in Biology 3 cr

Biology encompasses a broad array of ideas and special topic areas.

In this course, students can pursue a specific topic in detail through lectures, seminars and research projects. Normally taken by declared Honours and Major students in Biological Sciences. This course can be completed as a topics course multiple times under different titles.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of department.

Attributes: Science

BIOL 2892 Special Topics in Biology with Laboratory 3 cr

(Lab required) Biology encompasses a broad array of ideas and special topic areas. In this course, students can pursue a specific topic in detail through lectures, laboratories, seminars and research projects. Normally taken by declared Honours and Major students in Biological Sciences. This course can be completed as a topics course multiple times under different titles.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of department.

Attributes: Science

BIOL 3100 Skills in Biological Sciences 3 cr

This course will introduce students to the concepts and skills necessary to succeed in a research directed Biology-based career, including: communication skills (scientific writing and oral presentations), critical thinking, strategies for employment and graduate training, familiarization with the range of biological research, and exposure to a variety of Biology-based careers. This course is restricted to Honours students in the Biological Sciences or departmental permission.

Equiv To: BOTN 3570, ZOO 3750

Attributes: Science

BIOL 3200 Advanced Invertebrate Biology 3 cr

Topics of current interest within diverse phyla of Invertebrates to be surveyed. Students may develop approved research proposals and present up-to-date research summaries.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 2200 or BIOL 2201.

Equiv To: ZOO 3610

Attributes: Science

BIOL 3242 Vascular Flora of Manitoba 3 cr

(Lab Required) A survey of the vascular plants of Manitoba emphasizing identification, nomenclature and classification, and including brief accounts of the distribution and post-glacial history of the main floristic associations within the province. Students must submit a collection of at least 20 different vascular plants identified to species. A guide to the collection should be obtained from the Department of Biological Sciences office in the Spring/Summer prior to commencing the course.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 2240 or BIOL 2242 or permission of the department.

Equiv To: BOTN 3070

Attributes: Science

BIOL 3250 Lichens and Bryophytes 3 cr

(Lab required) The biology, evolution, and ecology of lichens and bryophytes. Emphasis is placed on the role of lichens and bryophytes in the ecosystem, gene flow, animal interactions, co-evolution, secondary compounds, and species identification. May not be held with the former BIOL 3240 or the former BIOL 4246.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 2240 or BIOL 2260 or BIOL 2261.

Mutually Exclusive: BIOL 3240, BIOL 4246, BOTN 3260, BOTN 4050

Attributes: Science

BIOL 3270 Introductory Parasitology 3 cr

(Lab required) General course covering major parasitic phyla: namely, Protozoa, Platyhelminthes, Aschelminthes, Acanthocephala, and Arthropoda. Emphasis will be on principles of parasitology.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 2200 or BIOL 2201; or consent of department.

Equiv To: ZOO 3460

Attributes: Science

BIOL 3280 Forest Botany 3 cr

An examination of the structure and dynamics of plant communities in forested ecosystems. Topics include forest type classification, physiological and anatomical responses of representative forest species, decomposition and nutrient cycling, disturbance and forest succession.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: BIOL 2242; and one of BIOL 2300, BIOL 2301 or AGEC 2370; or consent of the department.

Equiv To: BOTN 3270

Attributes: Science

BIOL 3290 Medicinal and Hallucinogenic Plants 3 cr

A botanical and historical survey of medicinal, hallucinogenic and poisonous plants used in various cultures. Not to be held with BIOL 3291.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a minimum of 30 hours of university credit, or consent of department.

Equiv To: BIOL 3291, BOTN 3280

Attributes: Science

BIOL 3300 Evolutionary Biology 3 cr

(Lab Required) Evolution is the ultimate cause of biological diversity. This course introduces the major questions and research methods in evolutionary biology. Topics include evolutionary genetics, adaptation, speciation, and the reconstruction of evolutionary history.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: one of BIOL 2500, BIOL 2501, or PLNT 2520; and any one of the following: BIOL 2200, BIOL 2210, BIOL 2231, BIOL 2240, BIOL 2260, BIOL 2261, BIOL 3260; or consent of department.

Equiv To: BOTN 3000, ZOO 3000, ZOO 3001

Attributes: Science

BIOL 3310 Foundations of Population Ecology 3 cr

(Lab Required) The study of living populations, through experimentation and theory, will be examined. Topics investigated will include population regulation, competition, predation, disease, harvest, nonlinear and spatial dynamics and individual based models. Concepts and methods are reinforced through tutorials and evaluated by assignments and examinations.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of BIOL 2300, BIOL 2301, or AGEC 2370] and [one of STAT 1150, STAT 2000, or STAT 2001] or consent of department.

Equiv To: ZOO 3680

Attributes: Science

BIOL 3312 Community Ecology 3 cr

Lectures and laboratories emphasizing the structure and function of terrestrial biotic communities with emphasis upon selected Manitoba situations.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [one of BIOL 2300, BIOL 2301, or AGEC 2370] and [one of STAT 1150, STAT 1000, STAT 1001, or AGRI 2400]; or consent of department.

Equiv To: BOTN 3540

Attributes: Science

BIOL 3314 Field Ecology 3 cr

Lectures and field exercises examine problems, techniques, and assumptions involved in measuring parameters of biological populations, communities, and environmental variables. The bulk of this course will be delivered during a field trip to a site determined by the instructor.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of BIOL 2300, BIOL 2301, or AGEC 2370] and [one of STAT 1150, STAT 2000, or STAT 2001]; or consent of department.

Equiv To: BOTN 3420, ZOO 3450

Attributes: Science

BIOL 3318 Boreal Ecology 3 cr

A survey of ecological factors in the formation, evolution, and survival of northern biota.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of BIOL 2300, BIOL 2301, or AGEC 2370] and [one of STAT 1150, STAT 1000, or STAT 1001]; or consent of department.

Equiv To: ZOO 3380

Attributes: Science

BIOL 3340 Biology of Primitive Fungi and Allies 3 cr

Studies on the evolution of ancestral fungi, relevant Chromista and slime molds within the broader context of evolution of derived fungi and ancient groups basal to fungi and animals. The course also encompasses cogent life histories, development, structure, taxonomy, and fundamental biochemistry. General methods for environmental collection, isolation and study of these organisms will be presented in lectures.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 2260 or BIOL 2261, or consent of the department.

Attributes: Science

BIOL 3350 Data Analysis in Ecology 3 cr

This course will consider methods of collection and analysis of ecological data, emphasizing experimental design of ecological studies, sampling, analysis of ecological data sets, and presentation techniques. May not be held with the former BIOL 4320.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of BIOL 2300, BIOL 2301, or AGECE 2370] and [one of STAT 1150, STAT 2000, or STAT 2001]; or consent of department.

Mutually Exclusive: BIOL 4320, ZOO 4200

Attributes: Science

BIOL 3360 Animal Behaviour 3 cr

An introduction to the study of animal behaviour, including mechanisms and evolutionary explanations of behaviour, as well as current ideas in animal behaviour. Topics include the genetic, physiological aspects of behaviour, and introductions to key topics in behavioural ecology.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of BIOL 2300, BIOL 2301, or AGECE 2370] and [one of STAT 1150, STAT 1000, or STAT 1001] and [one of BIOL 2200, BIOL 2201, BIOL 2210, or BIOL 2231]; or consent of department.

Equiv To: ZOO 3100

Attributes: Science

BIOL 3370 Limnology 3 cr

(Lab required) Lectures and laboratories providing an introduction to the physics, chemistry and biology of lakes.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [one of BIOL 2300, BIOL 2301, or AGECE 2370] and [one of STAT 1150, STAT 1000, or STAT 1001]; or consent of department.

Equiv To: ZOO 3500

Attributes: Science

BIOL 3372 Wetland Ecology 3 cr

Lectures and field exercises examine the biotic (algae, macrophytes, invertebrates, and vertebrates) and abiotic (hydrology, nutrient cycling) properties of Manitoba's wetlands. Various wetland types, including prairie potholes, peatlands, and coastal marshes will be considered in lectures and field work. The course is offered in Summer Session.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of BIOL 2300, BIOL 2301, or AGECE 2370] and [one of STAT 1150, STAT 1000, or STAT 1001]; or consent of department.

Equiv To: BOTN 3580, ZOO 3580

Attributes: Science

BIOL 3400 Plant Physiology 3 cr

(Lab required) An integrative view of major physiological processes in plants, spanning the biochemical, cellular, tissue, organ and whole plant levels of organization. The focus will be on photosynthesis, respiration, plant water relations, plant mineral nutrition, and the role of hormonal and extrinsic factors in the regulation of plant growth. This course is taught together with PLNT 3400. Students may not hold credit for both BIOL 3400 and PLNT 3400. May not be held with the former BIOL 3450 or the former PLNT 3500.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: BIOL 2242; and [(CHEM 2700 or MBIO 2700) and CHEM 2720], or [(CHEM 2730 or MBIO 2730) and CHEM 2740], or [one of the former CHEM 2360, CHEM 2361, the former CHEM 2770, the former MBIO 2360, MBIO 2361, or the former MBIO 2770]; or consent of the department.

Equiv To: PLNT 3400

Mutually Exclusive: BIOL 3450, BOTN 2020, PLNT 3500

Attributes: Science

BIOL 3452 Environmental Plant Physiology 3 cr

(Lab Required) A physiological study of plant-environment interactions with emphasis on the development of strategies to survive abiotic stresses including heat, cold, drought, flooding, shade, excess light and UV light. The unique mechanisms used by plants (including the fascinating carnivorous species) to obtain nutrients in deficient environments will also be covered.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of BIOL 3400, the former BIOL 3450, PLNT 3400, or the former PLNT 3500 or consent of the department.

Equiv To: BOTN 3010

Attributes: Science

BIOL 3470 Environmental Physiology of Animals 1 3 cr

(Lab Required) This course is intended to acquaint students with some of the major environmental challenges encountered by animals and stresses the diversity of physiological solutions to these problems in aquatic and terrestrial organisms. Areas covered may include thermal biology, circulation, gas exchange and buoyancy regulation. Laboratories explore related subjects in various animals. This course may not be held for credit with the former BIOL 3462.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 2200 or BIOL 2210; or consent of department.

Mutually Exclusive: BIOL 3462, ZOO 3540

Attributes: Science

BIOL 3472 Environmental Physiology of Animals 2 3 cr

(Lab Required) This course is intended to acquaint students with the control and integration of organ systems and body functions of animals, and their biochemical and physiological adaptations to environmental perturbations. Areas covered may include neuroendocrinology, excretion, and water, salt, and acid-base balance. Laboratories explore related subjects in various animals. This course may not be held for credit with BIOL 3460.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: BIOL 2200 or BIOL 2210 or consent of department.

Mutually Exclusive: BIOL 3460, ZOO 3530

Attributes: Science

BIOL 3500 Genetics 2 3 cr

(Lab required) The course complements Genetics I (BIOL 2500, BIOL 2501) and deals with various aspects of linkage and crossing over, gene function, allelism, mutation and repair, the use of bacteria and viruses as genetic tools, basics of developmental genetics and extra-nuclear inheritance. May not be held with BIOL 3501.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of BIOL 2500, BIOL 2501, or PLNT 2520]; and one of [(CHEM 2710 or MBIOL 2710) and CHEM 2720] or [CHEM 2740 and (CHEM 2750 or MBIOL 2750)], or [one of the former CHEM 2370, CHEM 2371, the former MBIOL 2370, MBIOL 2371, the former CHEM 2780, or the former MBIOL 2780]; or consent of department.

Equiv To: BIOL 3501, BOTN 3460

Attributes: Science

BIOL 3501 Génétique 2 3 cr

(Laboratoire requis) Complément du cours d'introduction à la génétique BIOL 2501 (BIOL 2500). Présentation des divers aspects de la liaison génique et la recombinaison génique, de la fonction des gènes, l'allélisme, des mutations et de la réparation, de l'utilisation des bactéries et des virus comme outils génétiques, des bases de la génétique du développement et de l'hérédité extranucléaire. On ne peut se faire créditer BIOL 3501 et BIOL 3500.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalables : un de [BIOL 2501 ou BIOL 2500 ou PLNT 2520]; et un de [(CHEM 2711, CHEM 2710, MBIOL 2711 ou MBIOL 2710) et (CHEM 2721 ou CHEM 2720)] ou (CHEM 2740 et (CHEM 2750 ou MBIOL 2750)) ou [un des anciens (CHEM 2371, CHEM 2370, MBIOL 2371, MBIOL 2370, CHEM 2780 ou MBIOL 2780)] ou autorisation professorale.

Equiv To: BIOL 3500, BOTN 3460

Attributes: Université de Saint-Boniface

BIOL 3542 Developmental Biology 3 cr

Principles and concepts of developmental biology will be presented including early embryo development, tissue patterning, morphogenesis, germ cell formation, stem cell biology, organ and nervous system development, growth and regeneration. Fundamental developmental concepts as well as the cellular, genetic and molecular mechanisms behind development will be covered utilizing invertebrate, vertebrate and plant examples. May not be held with the former BIOL 2540.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of BIOL 2500, BIOL 2501, or PLNT 2520] and [one of BIOL 2520 or BIOL 2521], or consent of the department.

Mutually Exclusive: BIOL 2540, ZOO 2150

Attributes: Science

BIOL 3550 Plant Anatomy 3 cr

(Lab Required) A study of the anatomical aspects of the growth and development of plants cells, tissues and organs. Laboratory exercises will complement material.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 2242.

Equiv To: BOTN 3190

Attributes: Science

BIOL 3560 Comparative Animal Histology 3 cr

(Lab Required) This course focuses on the cell and tissue organization of animals. Cell morphology and specialization, tissue types and a survey of the cellular and tissue organization of all organ systems are covered. The primary focus is on mammals but comparative aspects of other animal groups are also included. May not be held with BIOL 3561.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of BIOL 2210, BIOL 2520, or BIOL 2521.

Equiv To: BIOL 3561, ZOO 3060, ZOO 3061

Attributes: Science

BIOL 3561 Histologie animale comparée 3 cr

(Laboratoire requis). Étude de l'organisation cellulaire et tissulaire des animaux, de la morphologie cellulaire, de la spécialisation, des types de tissus et de l'organisation cellulaire et tissulaire de tous les systèmes. Accent mis sur les mammifères, mais des études comparatives avec d'autres groupes animaux seront aussi incluses. On ne peut se faire créditer BIOL 3561 et BIOL 3560.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Préalable: un de BIOL 2210, BIOL 2231, BIOL 2521 ou BIOL 2520.

Equiv To: BIOL 3560, ZOO 3060, ZOO 3061

Attributes: Université de Saint-Boniface

BIOL 3600 Biological Diversity and Sustainability 3 cr

Anthropogenic drivers of change of many components of biological diversity; the resulting impacts on ecosystem capacity to provide on-going goods and services that are essential constituents of well-being and ultimately sustainability.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of BIOL 2300, BIOL 2301, or AGEC 2370] and [one of STAT 1000, STAT 1001, or STAT 1150].

Attributes: Science

BIOL 3980 Work Term 1 0 cr

Work assignment in business, industry, or government for students registered in the Biological Sciences Cooperative Option. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

Equiv To: BOTN 3980, ZOO 3980

Attributes: Science

BIOL 3990 Work Term 2 0 cr

Work assignment in business, industry, or government for students registered in the Biological Sciences Cooperative Option. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

Equiv To: BOTN 3990, ZOO 3990

Attributes: Science

BIOL 4100 Honours Thesis 6 cr

The student will conduct a research project, chosen in consultation with a Biological Sciences faculty member acting as an advisor, and produce a thesis in which the project, the results and conclusions are presented. The student will defend the thesis at an oral examination held on completion of the thesis. This course is restricted to 3rd and 4th year Honours Biological Science students.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 3100 or consent of department.

Equiv To: BOTN 4600

Mutually Exclusive: ZOO 4110

Attributes: Science

BIOL 4210 Biology of Fishes 3 cr

(Lab Required) Lectures survey organ systems, life history, and the population biology of fishes. The ecological analysis of fish communities is addressed through a field trip and a series of workshops on the analysis of field data. Evaluation is based upon work related to the field trip and examinations based upon the lecture material.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 2210 or BIOL 2231.

Equiv To: ZOOL 4170

Attributes: Science

BIOL 4212 Systematics and Biogeography of Fishes 3 cr

(Lab Required) A study of the evolutionary history, interrelationships and distribution patterns of the fish-like vertebrates. Laboratories will cover the identification of the major groups of fish-like vertebrates.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 2210 or BIOL 2231; or consent of department.

Equiv To: ZOOL 4220

Attributes: Science

BIOL 4214 Biology of Amphibians and Reptiles 3 cr

(Lab Required) Lectures consider the evolution, biology and adaptations of amphibians and reptiles. Laboratories and student presentations will deal with classification, structure, identification, and methods of field and laboratory study of these animals.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 2210 or BIOL 2231; or consent of department.

Equiv To: ZOOL 4230

Attributes: Science

BIOL 4216 Biology of Birds 3 cr

(Lab required) Biology of birds including: morphology, systematics, evolution, life histories and breeding biology, ecology, migration, and distribution of birds.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 2210 or BIOL 2231.

Equiv To: ZOOL 4240

Attributes: Science

BIOL 4218 Biology of Mammals 3 cr

(Lab required) Structure, classification, evolution, life histories, biogeography and ecology of mammals, including conservation. Techniques of studying mammals. Identification of the mammals of Manitoba. Typically offered alternating years.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [BIOL 2210 or BIOL 2231]; and [one of BIOL 2300, BIOL 2301 or AGECE 2370] and [one of STAT 1150, STAT 1000, or STAT 1001]; or consent of department.

Equiv To: ZOOL 4250

Attributes: Science

BIOL 4220 Marine Biodiversity 3 cr

Examines key ecological principles governing the maintenance of marine biodiversity, particularly in northern ecosystems. Topics include the definitions and global patterns of biodiversity and the ecological mechanisms influencing changes in these patterns in the context of applied population, community and ecosystem ecology. The course will also emphasize practical solutions, including fisheries' harvest models and marine protected areas.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of BIOL 2300, BIOL 2301, or AGECE 2370] and [one of STAT 1150, STAT 1000, or STAT 1001]; or consent of department.

Equiv To: ZOOL 4260

Attributes: Science

BIOL 4262 Wildlife and Fisheries Parasitology 3 cr

(Lab Required) Parasites of major vertebrate groups of economic importance in temperate regions. Emphasis on: identification, means of control, and how to evaluate the impact of parasites on animal populations. A major project is required.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 3270.

Equiv To: ZOOL 4720

Attributes: Science

BIOL 4300 Evolution and Adaptation 3 cr

Lectures and discussion on advances in evolutionary research.

Topics will include systematics, evolutionary genetics, evolution and development, co-evolution, mating systems, species ranges, eco-evolutionary dynamics, and evolution in society. This course may not be held for credit with either of BIOL 4240 or BIOL 4242.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 3300.

Mutually Exclusive: BIOL 4240, BIOL 4242

Attributes: Science

BIOL 4310 Applications of Population Ecology in Fisheries and Wildlife 3 cr

(Lab Required) The material introduced in BIOL 3310 is developed into the quantitative analyses of field data to form a basis for conservation and management. Topics covered include: surplus harvest models, virtual population analysis, spatial population modeling, bioeconomics, and quantitative adaptive management. Concepts are reinforced through tutorials.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 3310.

Equiv To: ZOOL 4850

Attributes: Science

BIOL 4312 Analysis of Biological Communities 3 cr

A survey of methods and approaches to the analysis of biological and environmental data containing many variables. Offered in alternate years.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of BIOL 2300, BIOL 2301, or AGECE 2370] and [one of STAT 1150, STAT 2000, or STAT 2001].

Equiv To: BOTN 4650

Mutually Exclusive: BIOL 7440, BOTN 7440

Attributes: Science

BIOL 4314 Arctic Field Ecology 3 cr

This hands-on field course will be held in Churchill, MB. While participating in ongoing monitoring and research, students will learn techniques for estimating wildlife abundance, distribution, behaviour, and reproductive parameters. The course is offered in Summer Term. A field trip fee will be assessed in addition to tuition fees. May not be held with BIOL 4800 when topic is Arctic Field Ecology - Churchill, MB.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of BIOL 2300, BIOL 2301, or AGECE 2370] and [one of STAT 1150, STAT 1000, or STAT 1001] and instructor permission.

Mutually Exclusive: BIOL 4800

Attributes: Science

BIOL 4330 Plant Interactions 3 cr

This course examines the ecology of interactions between plants and their biotic environment - other plants, animals and soil microbes. This is a reading course. Students will participate in discussions of key papers, examine recent and historic literature, and write a term paper examining a selected topic.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 2300; or consent of department.

Equiv To: BOTN 4150

Attributes: Science

BIOL 4362 Behavioural Ecology and Cognitive Ethology 3 cr

(Lab Required) Examines proximate and ultimate questions relating to mating and parental behaviour, communication, social parasitism and animal intellect to provide insight into the intimate relationship between behavioural evolution and the environment. Laboratory and field exercises complement major topics considered in lectures.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 3360 or consent of department.

Equiv To: ZOOL 4280

Attributes: Science

BIOL 4374 Aquatic Botany 3 cr

This course examines the relationship between algae, fungi and macrophytes, and the physical, chemical and biological properties of the aquatic environment. Specific adaptations to life in water, and patterns of distribution and succession in rivers, lakes and wetlands will be covered.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of BIOL 2300, BIOL 2301, or AGEC 2370] and [one of STAT 1150, STAT 1000, or STAT 1001]; or consent of department.

Equiv To: BOTN 4010

Attributes: Science

BIOL 4380 Environmental Toxicology 3 cr

(Lab Required) A survey of the principles governing the dynamics of chemicals in the environment, with emphasis on the biological systems, using case histories of known pollution problems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of CHEM 2370, CHEM 2371, MBIO 2370, MBIO 2371, CHEM 2780, or MBIO 2780] and [one of BIOL 2300, BIOL 2301, or AGEC 2370] and [one of STAT 1150, STAT 1000, or STAT 1001] and [one of BIOL 2410, BIOL 2411, BIOL 3470, BIOL 3472, the former BIOL 3460, the former BIOL 3462]; or consent of department.

Equiv To: ZOOL 4840

Attributes: Science

BIOL 4400 Revegetation of Disturbed Lands 3 cr

A physiological and ecological study of disturbed plant communities with emphasis on stresses associated with both mining activities and agricultural practices and processes of assisted recovery.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of BIOL 3400, PLNT 3400, the former BIOL 3450, or the former PLNT 3500]; and [one of BIOL 2300, BIOL 2301, or AGEC 2370] and [one of STAT 1150, STAT 1000, or STAT 1001]; or consent of department.

Attributes: Science

BIOL 4460 Comparative Animal Energetics 3 cr

Energetic strategies of animals living in ecologically diverse environments. Integration of physiological, morphological and behavioural adaptations with an emphasis on vertebrate species.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: BIOL 2210 or BIOL 2231; and one of BIOL 2410, BIOL 2411, BIOL 3470 (BIOL 3462), or BIOL 3472 (BIOL 3460); or consent of department.

Equiv To: ZOOL 4830

Attributes: Science

BIOL 4470 Sensory-Motor Physiology 3 cr

Information flow in the nervous system and the control of behaviour.

The diverse roles that ion channels and synaptic circuitry play in sensory reception, neuronal integration and motor control are emphasized. This course is restricted to students in year 3 or 4 of a Major or Honours degree program in Biological Sciences or in Chemistry (Biopharmaceutical Focus Area), or in the B.Sc. in Biosystems Engineering.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 2410 and BIOL 2420, or BIOL 2411 and BIOL 2421, or BIOL 3470 and BIOL 3472 (the former BIOL 3460 and BIOL 3462), or consent of department.

Equiv To: ZOOL 4160

Attributes: Science

BIOL 4480 Comparative Endocrinology 3 cr

The structure, control, and function of vertebrate endocrine systems.

BIOL 2520, BIOL 2521, one of BIOL 2410, BIOL 2411, BIOL 3470 or BIOL 3472, and a course in biochemistry are strongly recommended as prerequisites.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: one of BIOL 1030 or BIOL 1031 and successful completion of 60 credit hours of university coursework.

Equiv To: ZOOL 4600

Attributes: Science

BIOL 4500 Molecular Genetics of Plant Development 3 cr

Analysis of plant development at the molecular level. Recent advances in model system genetics will be highlighted including seedling, root, shoot, and flower development as well as environmental responses.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 2500 or BIOL 2501.

Equiv To: BOTN 4180

Attributes: Science

BIOL 4510 Evolutionary Genetics 3 cr

(Lab Required) Evolutionary genetic processes are the foundation upon which much of understanding of biology is built. This course uses lectures, discussions, and computer-based analyses of real data sets to introduce the core concepts of theoretical population genetics and the applications of these ideas for the study of evolution. May not be held with BIOL 4890 when the topic is "Evolutionary Genetics". Registration is restricted to students in the B.Sc. Honours or Major programs, including Co-op programs, in Biological Sciences and Genetics.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (one of BIOL 3300, BIOL 3301, or consent of department) and (one of MATH 1200, MATH 1210, MATH 1211, MATH 1220, MATH 1230, MATH 1240, MATH 1241, MATH 1300, MATH 1301, MATH 1310, MATH 1500, MATH 1501, MATH 1510, MATH 1520, the former MATH 1530, or MATH 1690).

Mutually Exclusive: BIOL 4890

Attributes: Science

BIOL 4540 Developmental Molecular Biology 3 cr

(Lab Required) An examination of early development with emphasis on the molecular events. Sex determination, gametogenesis and early embryogenesis will be discussed.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 3542 or the former BIOL 2540; or consent of department.

Equiv To: ZOOL 4150

Attributes: Science

BIOL 4542 Genes and Development 3 cr

An in depth examination of selected topics in embryonic development, emphasizing the genetic control of the cell and molecular mechanisms that direct embryogenesis. The course emphasizes hypothesis testing and the evolution of development, including studies of both animal and plant development.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: BIOL 2520 or BIOL 2521; and BIOL 3542 (or the former BIOL 2540); or consent of department.

Equiv To: ZOOL 4270

Attributes: Science

BIOL 4544 Advanced Developmental and Cellular Biology 3 cr

(Lab Required) The course focuses on contemporary concepts and approaches in developmental biology, including theoretical and practical aspects. The emphasis is on the laboratory component. May not be held with the former BIOL 3540.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: BIOL 2520 or BIOL 2521 and BIOL 3542 or the former BIOL 2540; or consent of the department.

Attributes: Science

BIOL 4554 Molecular Biology Techniques for Eukaryotes - DNA 3 cr

(Lab Required) A techniques intensive course focusing on the understanding of molecular biology techniques, troubleshooting problems, writing reproducible laboratory experiments for publications, accurate recording of procedures in lab journals, and bioinformatics exercises from a DNA perspective. This course is designed for 4th year undergraduate and graduate students interested in understanding the theory and application of molecular methods specifically focusing on eukaryotic DNA. Students will learn essential and cutting-edge molecular biology techniques involved in gene structure, amplification, transformation, and sequencing among others. This course may not be held for credit with BIOL 4552.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 2520.

Mutually Exclusive: BIOL 4552

Attributes: Science

BIOL 4556 Molecular Biology Techniques for Eukaryotes - RNA 3 cr

(Lab Required) This is a "hands-on" techniques course designed for the 3rd and 4th year undergraduate level. The purpose of this course is to train students in the current molecular biology techniques dealing with highly sensitive RNA molecules. The students will learn all essential steps involved to identify the messenger RNA expression of a particular target protein in plant or animal (invertebrates) systems. This course may not be held for credit with BIOL 4552.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 2520.

Mutually Exclusive: BIOL 4552

Attributes: Science

BIOL 4560 Microtechnique 3 cr

(Lab Required) This intensive course covers a spectrum of animal tissue and cell preparation techniques for microscopy and a survey of the variety of types of microscopy. These span all types of microscopy; live cell techniques, fixation and tissue processing methods for both paraffin embedding media and plastic media, sectioning and staining imaging and image processing, introduction to histochemistry and immunocytochemistry and electron microscopy. This is a practical course with a major hands-on laboratory emphasis. This course is restricted to students in year 3 or 4 of a Major or Honours degree program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: BIOL 1030 or BIOL 1031 (C+); or consent of department.

Equiv To: ZOOL 4140

Attributes: Science

BIOL 4650 Biology and Society 3 cr

(Lab Required) An exploration of the intersection of biology with society and the societal implications of research in areas such as genetics, biotechnology, ecology and evolution through lectures and tutorials. The course will examine how biological research is presented in the public sphere, and consider common public misunderstandings of the science. Students will examine some of the ethical issues that arise in the practice and application of biological sciences and develop skills in the communication and clarification of biological principles to the public. Students must be enrolled in third year (or higher) of a major or honours program in Biological Sciences, Biotechnology or Genetics. May not be held with BIOL 4890 when titled "Biology and Society".

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: One of BIOL 2500, BIOL 2501 or PLNT 2520 (C+), or permission of instructor.

Mutually Exclusive: BIOL 4890

Attributes: Science

BIOL 4800 Special Topics in Field Biology 3 cr

Lectures, field studies and research projects on a selected topic. Course content to vary from year to year depending on instructor. Usually offered during the summer months.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of department.

Equiv To: BOTN 4800, ZOOL 4800

Mutually Exclusive: BIOL 4314

Attributes: Science

BIOL 4890 Special Topics in Biology 3 cr

Biology encompasses a broad array of ideas and special topic areas.

In this course, students can pursue a specific topic in detail through lectures, seminars and research projects. Normally restricted to third and fourth year Honours and Major students.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Consent of department.

Equiv To: BOTN 4890, ZOOL 4890

Mutually Exclusive: BIOL 4510, BIOL 4650

Attributes: Science

BIOL 4892 Special Topics in Biology with Laboratory 3 cr

(Lab required) Biology encompasses a broad array of ideas and special topic areas. In this course, students can pursue a specific topic in detail through lectures, laboratories, seminars and research projects. Restricted to third and fourth year Honours and Major students in Biological Sciences. Space permitting students in other programs will be permitted to register. This course can be completed as a topics course multiple times under different titles.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of department.

Attributes: Science

BIOL 4980 Work Term 3 0 cr

Work assignment in business, industry, or government for students registered in the Biological Sciences Cooperative Option. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

Equiv To: BOTN 4980, ZOOL 4980

Attributes: Science

BIOL 4990 Work Term 4 0 cr

Work assignment in business, industry, or government for students registered in the Biological Sciences Cooperative Option. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

Equiv To: BOTN 4990, ZOOL 4990

Attributes: Science

Biosystems Engineering (BIOE)

BIOE 0222 Precision Agriculture- Technological Tools for Decision Making 4 cr

(Lab required) Precision agriculture is a philosophy of agricultural management that has been enabled by modern technology. This course will examine both the technology and the techniques that can be used to improve the efficiency of agricultural operations by decreasing costs, increasing profits, and decreasing hazards to the environment. Students will be introduced to current and emerging technologies for crop, livestock and business management. Students will have the opportunity to apply data generated from these technologies to support decision making required by farm managers.

BIOE 0600 Farm Machinery 4 cr

Operating principles of basic farm implements with emphasis on seed cleaning, seeding, tillage, haying, and harvest machines including their selection, adjustment, efficiency, and cost of operation with respect to test data.

BIOE 0700 Agricultural Buildings and Environments 4 cr

Factors that impact the practicality of farm buildings. Components of buildings, including materials and construction techniques. Techniques of maintaining building environments to facilitate production and/or storage.

BIOE 0710 Materials Handling and Electrical Controls 3 cr

Fundamental concepts and systems approach to storing, conditioning, moving, processing, and metering of agricultural produce. Principles and practices of fans, grain drying, dust control, and electrical supply. Students may not hold credit for BIOE 0710.

BIOE 2110 Transport Phenomena 3 cr

(Lab required) Principles of heat transfer, solar radiation, psychometrics, molecular diffusion, mass transfer and refrigeration and their application to biosystems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ENG 1460.

BIOE 2480 Impact of Engineering on the Environment 3 cr

Students will gain an understanding of overall sustainability of industrial activities, life-cycle and risk assessment techniques for sustainability, and design improvements to enhance environmental performance of engineered systems. This course will introduce basic methodologies for conducting environmental impact assessments, including physical, chemical, ecological, social and economic impacts. May not be held with the former BIOE 4480. Registration restricted to Biosystems Engineering students.

Mutually Exclusive: BIOE 4480

BIOE 2590 Biology for Engineers 3 cr

(Lab required) Provide theories and principles of Biology to engineering students and present applications of biological principles to engineering problems. Fundamental theories involved in cell structure and function, metabolism, genetics and heredity, bacteria and virus structure and function, plant and animal structure and function are covered. An introduction to animal and plant physiology is also provided. Laboratory sessions and term assignments focus on the engineering applications of these basic theories and principles to provide a good understanding of the role of Biology in Engineering. May not be held with BIOL 1020 or BIOL 1030

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: CHEM 1100 or the former CHEM 1300.

Mutually Exclusive: BIOL 1020, BIOL 1021, BIOL 1030, BIOL 1031

BIOE 2600 Plant and Animal Physiology for Engineers 4 cr

(Lab required) Plant and animal physiology as affected by environment for use in the design of agricultural machines, structures, and food processes for biological products; models of simulation of plant and animal growth. May not be held with the former AGRI 2200.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOE 2590.

Mutually Exclusive: AGRI 2200

BIOE 2790 Fluid Mechanics 4 cr

(Lab required) Definition of fluid; fluid properties; variation of pressure in a fluid; hydrostatic forces; buoyancy; kinematics of flow; control volumes; continuity; Bernoulli's equation; energy equation; flow in closed conduits; open channel flow. Not to be held with CIVL 2790.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ENG 1440 (or ENG 1441) and (MATH 1710 or MATH 1700 or MATH 1701).

Mutually Exclusive: CIVL 2790

BIOE 2800 Solid Mechanics 4 cr

(Lab required) Analysis of deformable bodies; stress and strain in three dimensions; equilibrium equations and strain-displacement relations; constitutive relations and mechanical behaviour of materials; radially symmetric and plane problems in elasticity; relevant experimental demonstrations. Not to be held with CIVL 2800.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ENG 1440 (or ENG 1441) and (MATH 1710 or MATH 1700 or MATH 1701).

Mutually Exclusive: CIVL 2800

BIOE 2900 Biosystems Engineering Design 1 4 cr

(Lab required) An introduction to the professional discipline of Biosystems Engineering and the philosophy of systems thinking that is used by the Biosystems engineer. Students will be introduced to several principles (i.e., safety engineering, human factors engineering and biomimicry) that should be considered during the design process, and will be given opportunity to apply these principles to design problems. The course will provide opportunity for students to develop technical communication, project management and teamwork skills. May not be held with BIOE 2580.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ENG 1430.

Equiv To: BIOE 2580

BIOE 3100 Agricultural Engineering Fundamentals for Agronomists 3 cr

(Lab required) The course will provide fundamental technical competencies from the discipline of agricultural engineering for the study of agronomy. Students will be introduced to i) concepts from "smart" farming, ii) functions of machinery for production agriculture, iii) water management for production agriculture, and iv) safe storage and handling of grains and oilseeds.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PLNT 2500 (D).

BIOE 3270 Instrumentation and Measurement for Biosystems 4 cr

(Lab required) Basic instrumentation for measuring electrical and non-electrical quantities associated with biosystems engineering and industry; transducers for automatic control.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [MATH 2132 (or the former MATH 2110)] and ENG 1450.

BIOE 3320 Engineering Properties of Biological Materials 4 cr

(Lab required) Engineering properties of biological and interacting materials within the system. Relationship between composition, structure, and properties of plant, animal, and human tissues. Definition and measurement of mechanical, thermal, electromagnetic, chemical and biological properties and their variability. Use of these properties in engineering calculations.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [Math 2130 (or the former Math 2110)] and [BIOE 2800 or CIVL 2800 or MECH 2222 (or the former Mech 2220)].

BIOE 3400 Design of Structural Components in Machines 4 cr

(Lab required) Design of structural components in machines; designing for axial tension and compression, connections for axial loadings, pinned trusses, bending, torsion, and combined loads; designing for welded connections; use of fluid power to enable movement of structural components. Students will use the computer as a design tool. May not be held with the former BIOE 4530.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOE 2800 or CIVL 2800 or MECH 2222.

Equiv To: BIOE 4530

BIOE 3530 Engineering Fundamentals 3 cr

(Lab required) Principles of heat transfer, steam, psychometrics, fluid mechanics, material balances, electricity and refrigeration. Cannot be held for credit in the Price Faculty of Engineering.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [MATH 1300 or equivalent] and [MATH 1500 or equivalent] or the former MATH 1680.

BIOE 3590 Mechanics of Materials in Biosystems 4 cr

(Lab required) In this course students will be exposed to both the theory and physical behaviour of materials when subjected to loads. The course will be delivered using a combination of lectures and hands-on labs. The materials presented include a wide range of materials biosystems engineers may be involved with, including plastics, bone, wood, concrete, steel, other biological materials and composites.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOE 2800 or CIVL 2800, or MECH 2222.

BIOE 3900 Biosystems Engineering Design 2 4 cr

(Lab required) An introduction to the use of reverse engineering to deduce design features from previously-designed products or systems. Considerations such as design for sustainability and design for disassembly will be discussed. Students will have opportunity to use reverse engineering principles i) to understand how components fit together to form functional systems, ii) to identify flaws and iii) to propose design improvements. Students will learn appropriate techniques for documenting the reverse engineering process. Theory of project management will also be taught and discussed.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [BIOE 2900 or the former BIOE 2580] and ENG 2022 or the former ENG 2020].

BIOE 4240 Graduation Project 3 cr

Either an independent or a directed study including at least one of: a comprehensive literature review, an experimental research project, or an engineering design problem. The project is to be concluded by a formal report or thesis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: BIOE 3270 or approval of department.

BIOE 4390 Unit Operations 1 4 cr

(Lab required) Equipment and systems used in handling, mixing, size reduction, separation and size enlargement of value-added food products.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: BIOE 2790 or CIVL 2790 or MECH 2262. Pre- or

Corequisites: BIOE 3320 and BIOE 3270.

BIOE 4412 Design of Light-Frame Building Systems 4 cr

(Lab required) Light-frame buildings as a structural and environmental system; structural loads in building systems; energy (heat), moisture and air contaminants in building systems; built-environment for building occupants. Lab activities provide students with an opportunity to construct small-scale structures. Students will be introduced to alternative building systems. May not be held with CIVL 4024.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: BIOE 2110 and BIOE 3590.

Mutually Exclusive: CIVL 4024

BIOE 4414 Imaging and Spectroscopy for Biosystems 4 cr

(Lab required) The purpose of this course is to familiarize senior Biosystems Engineering students with the fundamentals of imaging and spectroscopy for biosystems. Techniques of image acquisition, storage, processing, and pattern recognition will be taught. Various spectroscopy techniques and their applicability to biological materials will be discussed. Analysis of data using statistical, artificial neural networks and chemometric methods will be covered. Offered in alternate years.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOE 3270.

BIOE 4416 Topics in Biosystems Engineering 3 cr

(Lab required) This course will cover contemporary topics in Biosystems Engineering. The specific topics and a detailed outline will be available at the time of registration.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of the department.

BIOE 4420 Crop Preservation 4 cr

(Lab required) Biological and physical deterioration during storage. Methods of preserving and storing cereals, oilseeds, and other agricultural crops.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOE 2110.

BIOE 4440 Bioprocessing for Biorefining 4 cr

(Lab required) This course will provide students with an understanding of the principles involved in the design of proper conditions for processing of biomaterials for production of high-quality biofuels and bioproducts. The content of this course is built on the principles of physics, transport phenomena, thermodynamics, reaction, kinetics, fermentation, and industrial unit operations.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOE 2110. Pre- or co-requisite: BIOE 3320.

BIOE 4460 Air Pollution Assessment and Management 4 cr

(Lab required) Air pollutant sources and characteristics, their impact on the environment, their behaviour in the atmosphere. Methods of sampling and measurement and the basic technological alternatives available for separation/removal and control. Particular problems of regional interest are discussed.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or co-requisites: BIOE 2790 or CIVL 2790 or MECH 2262 or the former MECH 2260.

BIOE 4560 Structural Design in Wood 4 cr

(Lab required) Design using wood as a structural material in light-frame buildings. Consideration of design constraints associated with sawn lumber as well as based composite materials. Emphasis on use of computer based design aids.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CIVL 3770 or BIOE 3590.

BIOE 4590 Management of By-Products from Animal Production 4 cr

(Lab required) Topics covered include solid and liquid manure, manure characteristics, manure collection, storage, land application and utilization, biological treatment, design of equipment and facilities for manure handling. Environment issues, such as odour and water pollution associated with manure management will also be discussed.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: BIOE 2790 or CIVL 2790 or MECH 2262 or the former MECH 2260.

BIOE 4600 Design of Water Management Systems 4 cr

(Lab required) To introduce the basic theoretical principles in the design of irrigation and drainage systems. Topics covered include the determination of irrigation depth and interval, evapotranspiration, measurement and analysis of precipitation, design of sprinkler and drip irrigation systems, selection of pumps, surface and subsurface drainage design, water quality issues, salinity management, and the environmental impact of water management practices.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Co-requisite: SOIL 4060 or CIVL 3730 or consent of instructor.

BIOE 4610 Design of Assistive Technology Devices 4 cr

(Lab required) Application and design of technology for individuals with disabilities; emphasizing the development of the requisite knowledge, skills, and attitudes to evaluate, design, and implement client-centred assistive technology. A multi-disciplinary approach to learning and applying knowledge will be emphasized with engineering and medical rehabilitation students collaborating on a design project.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 1412.

BIOE 4620 Remediation Engineering 4 cr

(Lab required) The theoretical basis for the engineering design of different remediation technologies to treat contaminated soil and groundwater will be introduced. Methods for site characterization, monitoring of progress in remediation, and modeling of the remediation process will be presented. Different methods such as soil washing, air sparging, bioremediation, phytoremediation, constructed wetlands, electrokinetic remediation, reactive barriers will be discussed.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOE 2790 or CIVL 2790 or MECH 2262 or the former MECH 2260.

BIOE 4640 Bioengineering Applications in Medicine 4 cr

(Lab required) This course surveys bioengineering applications and medicine from a clinical engineering perspective. Topics include: clinical engineering practice; device development legislation; biomedical sensors; biosensors; biomaterials and biocompatibility; as well as the principles of and design for medical imaging equipment.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: BIOL 1410 and BIOL 1412 and BIOE 3320.

BIOE 4650 Textiles in Healthcare and Medical Applications 4 cr

This course provides students with an introduction to medical textiles and healthcare products used in current practices, as well as fundamentals for designing textile products and devices that improve the health and quality of life of human beings. The course includes both basic topics related to healthcare and medical textiles (i.e., materials and structures, nanofibers for medical uses, comfort and health problems with textiles, biocompatibility and biostability issues) and applications of textile products for healthcare and medical end uses (i.e., protective and hygiene textiles, external devices, tissue engineering and intelligent/smart textiles).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOE 2590. Pre- or Co-requisite: BIOE 3320.

Equiv To: TXSC 3500, TXSC 4500

BIOE 4900 Biosystems Engineering Design 3 4 cr

An opportunity for the Biosystems Engineering student to practice fundamental engineering competencies (project management, technical communication) in the preparation of a preliminary design for the client. Students will be expected to demonstrate professionalism as a part of a design team. May not be held with BIOE 3580.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOE 3900.

Equiv To: BIOE 3580

BIOE 4950 Biosystems Engineering Design 4 4 cr

An opportunity for the Biosystems Engineering student to validate a conceptual solution to an engineering problem through fabrication and testing of a prototype. Students will be expected to employ project management skills to ensure completion of both prototype and an engineering report for a client by the end of the semester. May not be held with BIOE 4580.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOE 4900.

Equiv To: BIOE 4580

Biotechnology (BTEC)

BTEC 3980 Work Term 1 0 cr

Work assignments in business, industry or government for students registered in the Biotechnology Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

Attributes: Science

BTEC 3990 Work Term 2 0 cr

Work assignments in business, industry or government for students registered in the Biotechnology Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

Attributes: Science

BTEC 4000 Research Project in Biotechnology 6 cr

(Lab Required) Students can carry out independent biotechnology based research in their area of interest under the supervision of a faculty member or an approved external biotechnology professional. Results will be presented as an interim oral report and a written journal style paper. Registration restricted to Year 4 Honours Biotechnology students. Not to be held with any other Research Project courses such as MBIO 4530 or CHEM 4710.

Mutually Exclusive: CHEM 4710, CHEM 4711, MBIO 4530, MBIO 4531

Attributes: Science

BTEC 4980 Work Term 3 0 cr

Work assignments in business, industry or government for students registered in the Biotechnology Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

Attributes: Science

BTEC 4990 Work Term 4 0 cr

Work assignments in business, industry or government for students registered in the Biotechnology Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

Attributes: Science

Canadian Studies (CDN)

CDN 1000 Introduction to Canada 3 cr

A multidisciplinary introduction to the main political, economic, social, cultural and geographic features that have shaped Canada's past and current realities. May not be held with CDN 1130.

Mutually Exclusive: CDN 1130

Attributes: Humanities, Recommended Intro Courses

CDN 3730 Canadian Identity: An Interdisciplinary Approach 3 cr

An interdisciplinary lecture/seminar (art, economics, history, literature) course which will explore Canadian identity. Themes to be studied include the Aboriginal past, French/British colonization, land/regions and ethnic diversity.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in a minimum of 24 credit hours of courses at the 1000-level or above.

Attributes: Humanities

CDN 4410 Seminar in Canadian Studies 6 cr

A seminar course whose content may vary from year to year. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

Attributes: Humanities

Catholic Studies (CATH)

CATH 1190 Introduction to Catholic Studies 3 cr

An initiation into diversity, richness, and significance of Roman Catholicism in its many different forms and expressions, seeking to highlight the resources and techniques available for pursuing an interdisciplinary study of Catholicism as a field of intellectual inquiry.

Attributes: Humanities, Written English Requirement

CATH 2000 Special Topics in Catholic Studies 3 cr

The subject matter of this course will vary from year to year, but it will deal with a special topic of current interest in the interdisciplinary program in Catholic Studies. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in CATH 1190] or written consent of program coordinator.

Mutually Exclusive: CATH 2700

Attributes: Humanities

CATH 2010 Literature and Catholic Culture 1 3 cr

The course will focus on the portrayals of Catholic Culture in literature of the 20th Century prior to Vatican II Council. Students will also study the formal features of poetry, drama, and prose focusing on the Catholic Tradition.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in CATH 1190 or ENGL 1200 or ENGL 1201 or ENGL 1300 or ENGL 1301] or [a grade of "C" or better in each of ENGL 1400 (the former ENGL 1310) and ENGL 1340] or written consent of instructor.

Attributes: Humanities, Written English Requirement

CATH 2020 Literature and Catholic Culture 2 3 cr

The course will focus on the portrayals of Catholic Culture in literature of the 20th and 21st Century following Vatican II Council. Students will also study the formal features of poetry, drama, and prose involving the Catholic Tradition.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ENGL 1200 or ENGL 1201 or ENGL 1300 or ENGL 1301] or [a grade of "C" or better in each of ENGL 1400 (the former ENGL 1310) and ENGL 1340] or written consent of instructor.

Attributes: Humanities, Written English Requirement

CATH 2100 Field Studies in Catholic Culture 6 cr

Offered as part of the Summer Session, this course consists of on-campus study followed by travel to major sites and museums.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: none, but CATH 1190 is recommended.

Attributes: Humanities

CATH 2200 Catholicism and Human Sexuality 3 cr

This course explores the Catholic Church's understanding of sexual expression with a focus on topics such as reciprocity and performance, fidelity, romantic love, sexual identities, and intimacy with special attention given to the works of Pope John Paul II and other contemporary Catholic thinkers. Students may not hold credit for both CATH 2200 and CATH 2000 when titled "Catholicism and Sexual Expression."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in CATH 1190] or written consent of instructor.

Attributes: Humanities

CATH 2300 The Jesuits: Their Legacy and Influence 3 cr

The Society of Jesus (the Jesuit order) has aroused admiration and respect as well as fear and suspicion throughout its eventful history. The Jesuits have left an indelible mark on the Catholic Church as well as the modern world itself in their roles as explorers, intellectuals, artists, scientists, and teachers. This course focuses on Jesuit contributions to science, education, the fine arts, politics, and social reform since the order's foundation in 1534. Students may not hold credit for both CATH 2300 and CATH 2000 when titled "The Jesuits: Their Legacy and Influence."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in CATH 1190] or written consent of instructor.

Attributes: Humanities

CATH 2400 Mystics, Saints, and Sinners: The Quest for Holiness in the Catholic Church 3 cr

This course will explore the Roman Catholic notion of sanctity as it developed over the course of history. From martyr to mystic and ascetic to activist, variations of holiness will be examined in relation to the regions, periods, and interests that shaped them. It provides both a chronological and an interdisciplinary overview of sanctity from the New Testament to the present with a special focus on the lives of the saints, relics, shrines, and canonization treatises.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in CATH 1190] or written consent of instructor.

Attributes: Humanities

CATH 2500 Reshaping the Catholic Landscape in Canada 3 cr

A survey of Catholic identity in Canada as it has shifted from the arrival of French missionaries in the 17th century until today. Emphasis will be placed on the roles that early Catholic immigrants from Europe played in the development of both the Church and the national character of Canada as well as how recent immigrants from South America, the Caribbean, Asia, and Africa continue to shape them.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in CATH 1190] or written consent of instructor.

Attributes: Humanities

CATH 2600 Pilgrimage and the Localization of Catholic Devotion 3 cr

The historical and contemporary fascination with holy places continues to permeate Catholic tradition. This course focuses on the identification and analysis of regions in which localized piety has either once existed or thrives today. It also places a strong emphasis on how the quest for sacred space remains a fundamental part of wider devotion within the Church.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in CATH 1190] or written consent of instructor.

Attributes: Humanities

CATH 2700 Catholicism and the Paranormal 3 cr

A critical introduction into the Catholic Church's historical and contemporary reactions to the supernatural with a focus on topics such as apparitions, levitation, ghosts and possession, mystical visions, Eucharistic miracles, bilocation, the occult, stigmata, as well as other unexplained religious phenomena. Students may not hold credit for both CATH 2700 and CATH 2000 when titled "Catholicism and the Paranormal."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in CATH 1190] or written consent of instructor.

Mutually Exclusive: CATH 2000

Attributes: Humanities

CATH 3900 Catholic Social Teaching 3 cr

An introduction to Catholic social teaching with a dual focus on critical theory and praxis. Students will engage the Church's position on issues such as human dignity, solidarity with minority and oppressed populations, the common good, subsidiarity, rights and responsibilities, as well as the preferential option for the poor.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in each of CATH 1190 and an additional 3 credit hours of CATH courses] or written consent of instructor.

Attributes: Humanities

Chemistry (CHEM)

CHEM 1018 Chemistry - The Central Science 3 cr

An atomic understanding of our world and ourselves impinges on every aspect of human life and culture. In this course students will learn the principles of chemistry that provide the deepest understanding of topics such as human health, the environment, energy, consumer products, fine arts, agriculture, technology, foods, industry, the history of science and more. The course will cover the classification of matter, chemical change as well as fundamental chemistry calculations. CHEM 1018 may not be used for credit in a Chemistry honours, joint honours, or major program. Not available to students who have previously obtained credit in (grade of C or better) CHEM 1100 or CHEM 1101 or the former CHEM 1300 or the former CHEM 1301.

Mutually Exclusive: CHEM 1100, CHEM 1101, CHEM 1300, CHEM 1301

Attributes: Science, Recommended Intro Courses

CHEM 1100 Introductory Chemistry 1: Atomic and Molecular Structure and Energetics 3 cr

This course provides a basic understanding of the fundamentals of chemistry. By the end of this course, students will understand the periodic table, energy in chemistry, atomic and molecular structures, and the concept of chemical reactivity. May not be held with the former CHEM 1300 or CHEM 1301.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of Chemistry 40S (50%), CSKL 0100 (P), or the former CHEM 0900 (P)] and [one of Applied Mathematics 40S (50%), Pre-calculus Mathematics 40S (50%), the former Mathematics 40S (300) (50%), or MSKL 0100].

Mutually Exclusive: CHEM 1018, CHEM 1300, CHEM 1301

Attributes: Science, Recommended Intro Courses

CHEM 1110 Introductory Chemistry 2: Interaction, Reactivity, and Chemical Properties 3 cr

This course builds upon students' foundation in chemistry to give them a better understanding of chemical reactivity and physical properties. May not be held with the former CHEM 1310 or CHEM 1311.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of CHEM 1100, the former CHEM 1300, or CHEM 1301.

Mutually Exclusive: CHEM 1310, CHEM 1311

Attributes: Science, Recommended Intro Courses

CHEM 1120 Introduction to Chemical Techniques 3 cr

This course builds understanding in chemistry through active learning in the lab. By performing lab experiments, students will gain skills in making observations, safe handling of chemicals, handling laboratory equipment, quantitative analysis, data processing, and scientific communication. These skills are fundamental for student success in chemistry. In addition, students will be given a broader appreciation of chemistry in the world by introducing them to chemical sustainability, chemical responsibility and chemical applications. May not be held with CHEM 1122, CHEM 1126, the former CHEM 1310 or CHEM 1311.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [70% in Chemistry 40S and (one of 70% in Pre-Calculus Mathematics 40S, 70% in Applied Mathematics 40S, or a "B" or better in MSKL 0100)] or [one of CHEM 1100, the former CHEM 1300, CHEM 1301, CSKL 0100 (P), or the former CHEM 0900 (P)].

Mutually Exclusive: CHEM 1122, CHEM 1126, CHEM 1310, CHEM 1311

Attributes: Science, Recommended Intro Courses

CHEM 1122 Introduction to Chemical Techniques for Engineering 1 1.5 cr

For Price Faculty of Engineering students only. This course builds understanding in chemistry through active learning in the lab. By performing lab experiments, students will gain skills in making observations, safe handling of chemicals, handling laboratory equipment, quantitative analysis, data processing, and scientific communication. These skills are fundamental for student success in chemistry. In addition, students will be given a broader appreciation of chemistry in the world by introducing them to chemical sustainability, chemical responsibility and chemical applications. May not be held with CHEM 1120, the former CHEM 1310 or CHEM 1311.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [70% in Chemistry 40S and (one of 70% in Pre-Calculus Mathematics 40S, 70% in Applied Mathematics 40S, or a "B" or better in MSKL 0100)] or [one of CHEM 1100, the former CHEM 1300, CHEM 1301, CSKL 0100 (P), or the former CHEM 0900 (P)].

Mutually Exclusive: CHEM 1120, CHEM 1121, CHEM 1310, CHEM 1311

Attributes: Science

CHEM 1126 Introduction to Chemical Techniques for Engineering 2 1.5 cr

This course builds understanding in chemistry through active learning in the lab. By performing lab experiments, students will gain skills in making observations, safe handling of chemicals, handling laboratory equipment, quantitative analysis, data processing, and scientific communication. These skills are fundamental for student success in chemistry. In addition, students will be given a broader appreciation of chemistry in the world by introducing them to chemical sustainability, chemical responsibility and chemical applications. May not be held with CHEM 1120, the former CHEM 1310 or CHEM 1311.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or corequisite: CHEM 1122.

Mutually Exclusive: CHEM 1120, CHEM 1121, CHEM 1310, CHEM 1311

Attributes: Science

CHEM 1130 Introduction to Organic Chemistry 3 cr

Structures, properties and reactions of organic molecules. May not be held with the former CHEM 1320, CHEM 2100, the former CHEM 2210, or CHEM 2211.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of CHEM 1100, the former CHEM 1300, or CHEM 1301.

Mutually Exclusive: CHEM 1320, CHEM 2100, CHEM 2101, CHEM 2210, CHEM 2211

Attributes: Science, Recommended Intro Courses

CHEM 2100 Organic Chemistry 1: Foundations of Organic Chemistry 3 cr

An introduction to the concepts of organic reactivity and bonding in organic molecules. Preparation and properties of functionalized organic molecules. May not be held with CHEM 1130, the former CHEM 1320, the former CHEM 2210 or CHEM 2211.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [CHEM 1110 and (one of CHEM 1120 or CHEM 1126)] or the former CHEM 1310 or CHEM 1311.

Mutually Exclusive: CHEM 1130, CHEM 1320, CHEM 2210, CHEM 2211

Attributes: Science

CHEM 2110 Organic Chemistry 2: Foundations of Organic Synthesis 3 cr

An introduction to fundamental concepts of organic reactions and synthetic strategies. The application of functional group interconversions to organic synthesis will be discussed. May not be held with the former CHEM 2220 or CHEM 2221.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of CHEM 2100 or the former CHEM 2210 or CHEM 2211.

Mutually Exclusive: CHEM 2220, CHEM 2221

Attributes: Science

CHEM 2122 Experimental Organic Chemistry 3 cr

This course will introduce organic chemistry synthetic methods, purification techniques and product analyses. As well, infrared, ¹H and ¹³C NMR spectroscopy theory and applications as applicable to organic chemistry will be taught. Students will gain experience conveying information through different media as well as chemical literacy skills. May not be held with the former CHEM 2220 or CHEM 2221.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [CHEM 1110 and (one of CHEM 1120 or CHEM 1126)] or the former CHEM 1310 or CHEM 1311.

Mutually Exclusive: CHEM 2220, CHEM 2221

Attributes: Science

CHEM 2240 Applied Chemistry for Engineers 3 cr

Bonding, surface chemistry, phase rule, electrochemistry, materials and descriptive inorganic chemistry of selected elements.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: CHEM 1100, the former CHEM 1300, or CHEM 1301.

Attributes: Science

CHEM 2300 Inorganic Chemistry 1: Structure and Applications 3 cr

Overview of chemical bonding, structure and reactivity across the Periodic Table, illustrated by examples highlighting inorganic aspects of materials science and biochemistry. This course will cover an overview of periodic trends and their relationships to some properties of the elements, aspects of chemical bonding, reactivity of some inorganic molecules and materials, with examples of applications of inorganic chemistry in a variety of settings. May not be held with the former CHEM 2380, the former CHEM 2381, the former CHEM 2400 or CHEM 2401.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [CHEM 1110 and (one of CHEM 1120 or CHEM 1126)] or the former CHEM 1310 or CHEM 1311.

Mutually Exclusive: CHEM 2380, CHEM 2381, CHEM 2400, CHEM 2401

Attributes: Science

CHEM 2510 Introduction to Analytical Chemistry 3 cr

This course will introduce students to the theoretical principles on which quantitative analytical methods are based, and will prepare students to plan and perform experimental work and to interpret the results. May not be held with the former CHEM 2470 or CHEM 2471.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [CHEM 1110 and (one of CHEM 1120 or CHEM 1126)] or the former CHEM 1310 or CHEM 1311.

Mutually Exclusive: CHEM 2470, CHEM 2471

Attributes: Science

CHEM 2520 Introduction to Analytical Chemistry Techniques 2 cr

Practical laboratory designed to introduce students to the art of traditional/classical wet analytical chemistry techniques. Experiments focus on quantitative analytical chemistry determinations using gravimetric, titrimetric and spectrophotometric methods. May not be held with the former CHEM 2470 or CHEM 2471.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [(CHEM 1110 and (one of CHEM 1120 or CHEM 1126)) or (the former CHEM 1310 or CHEM 1311)].

Mutually Exclusive: CHEM 2470, CHEM 2471

Attributes: Science

CHEM 2560 Water Quality Analysis for Engineers 3 cr

(Lab Required) Principles and applications of chemical and instrumental methods for the analysis of water quality. This course is restricted to students in Civil Engineering.

Attributes: Science

CHEM 2600 Physical Chemistry 1 3 cr

An exploration of the underlying principles of atomic and molecular spectroscopy and the application of such tools to probe chemical and physical properties of matter on a microscopic scale. Aspects of ultraviolet, visible, vibrational, rotational and nuclear magnetic resonance spectroscopies are explored. May not be held with the former CHEM 2260, CHEM 2261, the former CHEM 2280, or the former CHEM 2281.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [(CHEM 1110 and (one of CHEM 1120 or CHEM 1126)) or (the former CHEM 1310 or CHEM 1311)] and [one of MATH 1230, MATH 1500, MATH 1501, MATH 1510, MATH 1520, the former MATH 1530, or MATH 1690].

Mutually Exclusive: CHEM 2260, CHEM 2261, CHEM 2280, CHEM 2281

Attributes: Science

CHEM 2700 Biochemistry 1: Biomolecules and an Introduction to Metabolic Energy 3 cr

An introductory course dealing with the kinds of molecules encountered in biochemistry, and the concept of metabolic energy as a product of catabolism and a requirement for biosynthesis. Also offered as MBIO 2700. May not be held with the former CHEM 2360, CHEM 2361, the former CHEM 2770, CHEM 2730, the former CHEM 2860, the former MBIO 2360, MBIO 2361, MBIO 2700, MBIO 2730, or the former MBIO 2770.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [(CHEM 1110 and (one of CHEM 1120 or CHEM 1126)) or (the former CHEM 1310 or CHEM 1311)] and [BIOL 1030 or BIOL 1031].

Equiv To: MBIO 2700

Mutually Exclusive: CHEM 2360, CHEM 2361, CHEM 2730, CHEM 2770, CHEM 2860, MBIO 2360, MBIO 2361, MBIO 2730, MBIO 2770

Attributes: Science

CHEM 2710 Biochemistry 2: Catabolism, Synthesis, and Information Pathways 3 cr

An introductory course dealing with the basic metabolic processes that occur in living cells, including the production and use of metabolic energy, the breakdown and synthesis of biomolecules; the synthesis of DNA, RNA and proteins; and the regulation of these processes. Also offered as MBIO 2710. May not be held with the former CHEM 2370, CHEM 2371, CHEM 2750, the former CHEM 2780, the former MBIO 2370, MBIO 2371, MBIO 2710, MBIO 2750, or the former MBIO 2780.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of CHEM 2700, the former CHEM 2360, CHEM 2361, the former CHEM 2860, MBIO 2700, the former MBIO 2360, or MBIO 2361] and [one of CHEM 2100, the former CHEM 2210, or CHEM 2211].

Equiv To: MBIO 2710

Mutually Exclusive: CHEM 2370, CHEM 2371, CHEM 2750, CHEM 2780, MBIO 2370, MBIO 2371, MBIO 2750, MBIO 2780

Attributes: Science

CHEM 2720 Principles and Practices of the Modern Biochemistry Laboratory 3 cr

This course will provide an introduction to the practical and theoretical foundations of the most commonly used techniques in the modern biochemistry laboratory. May not be held with the former CHEM 2370, CHEM 2371, CHEM 2740, the former CHEM 2780, the former MBIO 2370, MBIO 2371, or the former MBIO 2780.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [CHEM 1110 and (one of CHEM 1120 or CHEM 1126)] or the former CHEM 1310 or CHEM 1311. Note: This course may be used in the B.Sc. General Degree towards the Advanced Level Science requirements for either Chemistry or Microbiology.

Mutually Exclusive: CHEM 2370, CHEM 2371, CHEM 2740, CHEM 2780, MBIO 2370, MBIO 2371, MBIO 2780

Attributes: Science

CHEM 2730 Elements of Biochemistry 1 3 cr

Basic concepts of biochemistry including the properties of biomolecules (amino acids and proteins, enzymes, carbohydrates, lipids, and nucleic acids) and aspects of energy production in cells. Primarily for students in Agricultural and Food Sciences and four-year Biological Sciences programs in Science. May not be used as part of an Honours, Major, or Minor program in Chemistry. May not be used as part of an Honours or Major program in Microbiology. This course is also given in Microbiology as MBIO 2730. May not be held with the former CHEM 2360, the former CHEM 2361, CHEM 2700, CHEM 2701, the former CHEM 2770, the former CHEM 2860, the former MBIO 2360, the former MBIO 2361, MBIO 2700, MBIO 2701, MBIO 2730, or the former MBIO 2770.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of CHEM 1110, CHEM 1111, CHEM 1130, the former CHEM 1310, the former CHEM 1311, or the former CHEM 1320] and [six credit hours of university level BIOL courses or (HEAL 1500 and HEAL 1502)].

Equiv To: MBIO 2730

Mutually Exclusive: CHEM 2360, CHEM 2361, CHEM 2700, CHEM 2701, CHEM 2770, MBIO 2360, MBIO 2361, MBIO 2700, MBIO 2701, MBIO 2770

Attributes: Science

CHEM 2740 Introduction to the Biochemistry Laboratory 3 cr

This course is intended primarily for students in Agricultural and Food Sciences and four-year Biological Sciences programs who would benefit from hands-on experience of the most commonly used techniques in the modern biochemistry laboratory. The course will provide practical training in the use of micropipettors and spectrophotometers for the quantitation and analysis of proteins and enzymes, carbohydrates and DNA. Students will learn the application of various chromatographic and centrifugation-based techniques for biomolecule purification and analysis with an emphasis on topics of specific relevance to agriculture and food sciences. May not be used as part of an Honours, Major, or Minor program in Chemistry or in Microbiology. May not be held with the former CHEM 2370, the former CHEM 2371, CHEM 2720, CHEM 2721, the former CHEM 2780, the former MBIO 2370, the former MBIO 2371, or the former MBIO 2780.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: one of CHEM 1110, CHEM 1111, CHEM 1130, the former CHEM 1310, the former CHEM 1311, or the former CHEM 1320.

Mutually Exclusive: CHEM 2370, CHEM 2371, CHEM 2720, CHEM 2721, CHEM 2780, MBIO 2370, MBIO 2371, MBIO 2780

Attributes: Science

CHEM 2750 Elements of Biochemistry 2 3 cr

The continuation of CHEM 2730/MBIO 2730, dealing with nitrogen and lipid metabolism, representative biosynthetic pathways, and synthesis and importance of DNA, RNA and proteins. Primarily for students in Agricultural and Food Sciences and four-year Biological Sciences programs in Science. May not be used as part of an Honours, Major, or Minor program in Chemistry. May not be used as part of an Honours or Major program in Microbiology. This course is also given in Microbiology as MBIO 2750. May not be held with the former CHEM 2370, the former CHEM 2371, CHEM 2710, CHEM 2711, the former CHEM 2780, the former MBIO 2370, the former MBIO 2371, MBIO 2710, MBIO 2711, MBIO 2750, or the former MBIO 2780.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: one of CHEM 2730, CHEM 2700, CHEM 2701, the former CHEM 2770, the former CHEM 2360, the former CHEM 2361, the former CHEM 2860, MBIO 2730, MBIO 2700, MBIO 2701, the former MBIO 2770, the former MBIO 2360, or the former MBIO 2361.

Equiv To: MBIO 2750

Mutually Exclusive: CHEM 2370, CHEM 2371, CHEM 2710, CHEM 2711, CHEM 2780, CHEM 2860, MBIO 2370, MBIO 2371, MBIO 2710, MBIO 2711, MBIO 2780

Attributes: Science

CHEM 3100 Organic Chemistry 3: Advanced Organic Synthesis 3 cr

The course consists of a detailed discussion of the reactions that facilitate functional group interconversions in organic synthesis. The opportunity to explore specific topics in considerable detail will develop a solid foundation for strategies in organic synthesis. The concept of retrosynthesis will be used to further develop these strategies. May not be held with the former CHEM 3390.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of CHEM 2110, the former CHEM 2220, or CHEM 2221.

Mutually Exclusive: CHEM 3390

Attributes: Science

CHEM 3120 Advanced Organic Chemistry Laboratory Techniques 2 cr

This course will develop advanced techniques of organic chemistry synthetic methods as well as introduce advanced physical organic methods in the studying of thermodynamics and/or kinetics of organic reactions. The application of ¹H and ¹³C NMR spectroscopy to the analysis of reaction mixtures and purified products will be taught. Students will further refine their skills in the analysis and accurate reporting of chemical characterization data. May not be held with the former CHEM 3580 or the former CHEM 4690.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: one of (CHEM 2110 and CHEM 2122), the former CHEM 2220, or CHEM 2221.

Mutually Exclusive: CHEM 3580, CHEM 4690

Attributes: Science

CHEM 3300 Inorganic Chemistry 2: Reactivity and Properties 3 cr

Advanced chemistry of the elements with emphasis on chemical reactivity, electronic structure and physical properties of inorganic compounds. May not be held with the former CHEM 3380 or the former CHEM 3400.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of CHEM 2300, the former CHEM 2380, the former CHEM 2381, the former CHEM 2400, or CHEM 2401.

Mutually Exclusive: CHEM 3380, CHEM 3400

Attributes: Science

CHEM 3320 Inorganic Chemistry Laboratory 2 cr

Laboratory with focus on synthesis, reactivity and characterization of inorganic compounds. This course will explore a range of inorganic compounds using various synthetic methods, characterization tools and property measurements. Data recording, data analysis and report writing are integral parts of this course. May not be held with the former CHEM 3380 or the former CHEM 3400.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of CHEM 2300, the former CHEM 2380, the former CHEM 2381, the former CHEM 2400, or CHEM 2401.

Mutually Exclusive: CHEM 3331, CHEM 3380, CHEM 3400

Attributes: Science

CHEM 3500 Instrumental Analysis 3 cr

A course dealing with the theory of standard instruments used for chemical and biochemical analyses. An introduction to the interpretation of data obtained from such analyses. May not be held with the former CHEM 3590 or ENVR 3550.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of (CHEM 2510 and CHEM 2520), the former CHEM 2470, or CHEM 2471.

Mutually Exclusive: CHEM 3590, ENVR 3550

Attributes: Science

CHEM 3520 Instrumental Analysis Laboratory 2 cr

A course dealing with the practical use of standard instruments used for chemical and biochemical analyses. Students will learn a variety of state-of-the-art analytical techniques that will benefit their training as chemists, and learn the principles of experimental method development. May not be held with the former CHEM 3590 or ENVR 3550.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of (CHEM 2510 and CHEM 2520), the former CHEM 2470, or CHEM 2471. Pre- or corequisite: CHEM 3500.

Mutually Exclusive: CHEM 2523, CHEM 3590, ENVR 3550

Attributes: Science

CHEM 3600 Physical Chemistry 2 3 cr

This course provides an introduction to thermodynamics and related topics in chemistry. The thermodynamics governing processes will be explored. In particular, the behaviour of real gases, ideal and non-ideal solutions and reactions involving these materials will be explored from a detailed thermodynamic perspective. May not be held with the former CHEM 2290 or the former CHEM 2291.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of CHEM 2600, the former CHEM 2260, CHEM 2261, the former CHEM 2280, or the former CHEM 2281] and [one of MATH 1700, MATH 1701, MATH 1710, MATH 1690, or MATH 1232].

Mutually Exclusive: CHEM 2290, CHEM 2291

Attributes: Science

CHEM 3620 Physical Chemistry Laboratory 2 cr

This laboratory course introduces students to a wide range of experimental methods to explore the physical properties of matter and the important thermodynamic and kinetic aspects of reactions. May not be held with the former CHEM 2290 or the former CHEM 2291.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of CHEM 2600, the former CHEM 2260, CHEM 2261, the former CHEM 2280, or the former CHEM 2281] and [one of MATH 1700, MATH 1701, MATH 1710, MATH 1690, or MATH 1232].

Mutually Exclusive: CHEM 2290, CHEM 2291, CHEM 3331

Attributes: Science

CHEM 3700 Biophysical Chemistry 3 cr

The application of physical chemistry to biological problems, with an emphasis on quantitative interpretation. Topics include enzyme kinetics, bioenergetics, transport processes and spectroscopy. May not be held with the former CHEM 3570 or CHEM 3571.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of CHEM 2700, the former CHEM 2360, CHEM 2361, the former CHEM 2860, MBIO 2700, the former MBIO 2360, or MBIO 2361] and [one of MATH 1230, MATH 1500, MATH 1501, MATH 1510, or MATH 1520].

Mutually Exclusive: CHEM 3570, CHEM 3571

Attributes: Science

CHEM 3760 Advanced Methods for the Biochemistry Laboratory 4 cr

A laboratory-focused course introducing students to advanced methods in the purification, structural and functional analysis of important biomolecules. Registration is restricted to students in a B.Sc. Honours or Major program in Biochemistry. Space permitting, students in B.Sc. Honours or Major programs in Chemistry or Microbiology may register with permission from the course instructor. May not be held with the former CHEM 4700.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [(one of CHEM 2710 or MBIO 2710) and CHEM 2720] or one of the former CHEM 2370, CHEM 2371, the former MBIO 2370, MBIO 2371.

Mutually Exclusive: CHEM 4700

Attributes: Science

CHEM 3820 Integrated Chemistry Laboratory 1 2 cr

This course will serve as an introduction to laboratory projects that are designed to be conducted in an independent manner by individual students. This course will provide an opportunity for students to get laboratory experience that is beyond what is typically offered in a discipline-specific undergraduate laboratory course.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [one of CHEM 2122, the former CHEM 2220, or CHEM 2221] and [one of CHEM 2520, the former CHEM 2470, or CHEM 2471] and nine additional credit hours of CHEM courses at the 2000 level or above.

Attributes: Science

CHEM 3840 Integrated Chemistry Laboratory 2 3 cr

This course will serve as an advanced laboratory project course that is designed for independent study by individual students. This course will provide an opportunity for students to get laboratory experience that is more reflective of a research environment.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: CHEM 3820.

Attributes: Science

CHEM 3980 Work Term 1 0 cr

Work assignments in business, industry or government for students registered in the Chemistry Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

Attributes: Science

CHEM 3990 Work Term 2 0 cr

Work assignments in business, industry or government for students registered in the Chemistry Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

Attributes: Science

CHEM 4100 Materials Chemistry 3 cr

This course emphasizes the synthesis, structure, properties and applications of a wide variety of materials, providing insight into the chemistry behind many common and high-tech materials and devices. Specific examples include solar cells, fibre optics, batteries, polymer composites, magnetic and multiferroic materials. May not be held with CHEM 4570 when titled "Materials Chemistry".

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: CHEM 3300, the former CHEM 3400, or the former CHEM 3380.

Attributes: Science

CHEM 4110 Introduction to Computational Chemistry 3 cr

This course provides an introduction to modern Computational Chemistry and its application to chemical problems, with a strong focus on practical applications. May not be held with the former CHEM 3260 or the former CHEM 4660.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of CHEM 2600, the former CHEM 2260, CHEM 2261, the former CHEM 2280, or the former CHEM 2281] and nine additional credit hours of CHEM courses at the 2000 level or above.

Mutually Exclusive: CHEM 3260, CHEM 4660

Attributes: Science

CHEM 4130 Elementary Quantum Chemistry and Molecular Bonding 3 cr

Elementary quantum chemistry and its applications to structure and bonding in molecules and solids. May not be held with the former CHEM 3360.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: CHEM 2600, the former CHEM 2260, CHEM 2261, the former CHEM 2280, or the former CHEM 2281.

Mutually Exclusive: CHEM 3360

Attributes: Science

CHEM 4150 Symmetry, Spectroscopy, and Structure 3 cr

Applications of symmetry in chemistry; molecular spectroscopy; structure of solids. May not be held with the former CHEM 3370.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: CHEM 2600, the former CHEM 2260, CHEM 2261, the former CHEM 2280, or the former CHEM 2281.

Mutually Exclusive: CHEM 3370

Attributes: Science

CHEM 4170 Introduction to Polymer Chemistry 3 cr

This course will provide a general introduction to important aspects of polymer chemistry. Specifically, students will be introduced to concepts relevant to the synthesis, characterization of physical chemistry and properties of polymers and polymer materials. Additionally, topics such as specialty polymers and advanced applications from contemporary literature will be explored. May not be held with the former CHEM 3490.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: CHEM 3600, the former CHEM 2290, or the former CHEM 2291.

Mutually Exclusive: CHEM 3490

Attributes: Science

CHEM 4360 Signalling and Regulation of Gene Expression 3 cr

The biochemistry of cell response to external stimuli, with emphasis on animals. Cell surface receptors and ligands; signalling to the nucleus; phosphorylation and proteolysis; transcription; gradients in cell patterning. May not be held with CHEM 4361.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of CHEM 2710, the former CHEM 2370, CHEM 2371, MBIO 2710, the former MBIO 2370, or MBIO 2371.

Equiv To: CHEM 4361

Attributes: Science

CHEM 4370 Glycobiology and Protein Activation 3 cr

The role of carbohydrate containing biomolecules in biochemistry and their importance for understanding some genetic diseases. The importance of limited proteolysis in activation of biomolecules. May not be held with CHEM 4371.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of CHEM 2710, the former CHEM 2370, CHEM 2371, MBIO 2710, the former MBIO 2370, or MBIO 2371.

Equiv To: CHEM 4371

Attributes: Science

CHEM 4570 Topics in Inorganic Chemistry 3 cr

A variety of topics from recent literature. This is an advanced 4000 level course. Registration requires departmental permission. This course may not be offered every year - check with department for availability.

Attributes: Science

CHEM 4580 Topics in Organic Chemistry 3 cr

Selected topics dealing with the structure and reactivity of organic compounds. This is an advanced 4000 level course. Registration requires departmental permission. This course may not be offered every year - check with department for availability.

Attributes: Science

CHEM 4590 Bioanalytical Methods 3 cr

(Lab required) This course introduces different methods used currently for the analysis of biological materials. Qualitative and quantitative aspects are explored. Instrumentation is described and practical methods are designed.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of CHEM 3500, the former CHEM 3590, or ENVR 3550.

Attributes: Science

CHEM 4610 Advanced Chemical Techniques 6 cr

A workshop course consisting of lectures, problem solving, and lab based advanced instrumental techniques. The course is designed to train potential research students in techniques like NMR, mass spectroscopy, and chromatography. This course is required of all final year Honours students in Chemistry. May not be held with the former CHEM 4600.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [CHEM 3300, the former CHEM 3400, or the former CHEM 3380] and [CHEM 3500 or the former CHEM 3590] and [CHEM 3600, PHYS 3670, the former CHEM 2290, or the former CHEM 2291].

Mutually Exclusive: CHEM 4600

Attributes: Science

CHEM 4620 Biochemistry of Nucleic Acids 3 cr

The structure of nucleic acids; synthesis and sequence determination; interaction with drugs and protein. May not be held with CHEM 4621.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of CHEM 2710, the former CHEM 2370, CHEM 2371, MBIO 2710, the former MBIO 2370, MBIO 2371.

Equiv To: CHEM 4621

Attributes: Science

CHEM 4630 Biochemistry of Proteins 3 cr

The structure and function of proteins, their physical and chemical properties and methods for studying them. May not be held with CHEM 4631.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of CHEM 2710, the former CHEM 2370, CHEM 2371, MBIO 2710, the former MBIO 2370, or MBIO 2371.

Equiv To: CHEM 4631

Attributes: Science

CHEM 4670 Drug Design and Drug Discovery 3 cr

An understanding of the design, synthesis and interactions of drug molecules. Emphasis will be on novel drug-like molecules in the early stages of drug discovery with special focus on brain diseases and infectious diseases.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of CHEM 2110, CHEM 2221, or the former CHEM 2220] and [one of CHEM 2700, the former CHEM 2360, CHEM 2361, MBIO 2700, the former MBIO 2360, MBIO 2361, or the former CHEM 2860].

Attributes: Science

CHEM 4680 Organometallic Chemistry 3 cr

Chemistry of organometallic compounds of the transition metals and representative elements.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of CHEM 3100, CHEM 3300, the former CHEM 3400, the former CHEM 3380, the former CHEM 3390.

Attributes: Science

CHEM 4710 Research Project in Chemistry or Biochemistry 6 cr

(Lab required) A research project in any aspect of chemistry or biochemistry, chosen in consultation with the course administrator and an appropriate supervising faculty member. Written reports and oral presentation at the end of the project will be required. The course is normally available only to final year students in chemistry programs. May not be held with CHEM 4711 or MBIO 4530.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of the course administrator.

Equiv To: CHEM 4711

Mutually Exclusive: BTEC 4000, MBIO 4530, MBIO 4531

Attributes: Science

CHEM 4800 Topics in Physical/Theoretical Chemistry 3 cr

Selected topics related to physical chemistry properties of matter, their measurement, and computational methods for studying them. This is an advanced 4000 level course, registration only by Departmental permission. This course may not be offered every year - check with department for availability.

Attributes: Science

CHEM 4802 Topics in Analytical Chemistry 3 cr

Selected topics on the most recent and sensitive techniques described in the literature in the Analytical, Bioanalytical and Environmental areas. A selection of topics among separation, surface, ionization, spectroscopy, voltammetry and spectrometry techniques will be covered. This is an advanced 4000 level course, registration only by Department permission. This course may not be offered every year - check with department for availability.

Attributes: Science

CHEM 4804 Topics in Biochemistry 3 cr

Selected advanced topics relevant to the study of biomolecules. This is an advanced 4000 level course, registration only by Departmental permission. This course may not be offered every year - check with department for availability.

Attributes: Science

CHEM 4980 Work Term 3 0 cr

Work assignments in business, industry or government for students registered in the Chemistry Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

Attributes: Science

CHEM 4990 Work Term 4 0 cr

Work assignments in business, industry or government for students registered in the Chemistry Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

Attributes: Science

Civil Engineering (CIVL)

CIVL 2770 Civil Engineering Materials 5 cr

(Lab required) Principles of testing; testing standards; instrumentation; data acquisition systems; mechanical properties of steel, iron, cement, concrete, asphalt, wood and composites; classification and particle size analysis of soils and aggregates.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ENG 1440. Co-requisite: CIVL 2800.

CIVL 2780 Civil Engineering Systems 4 cr

(Lab required) Introduction to applied systems analysis approach. Use of applied systems analysis in Civil Engineering. Optimization techniques: linear programming; dynamic programming; other techniques. Evaluation: decision analysis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (MATH 1710 or MATH 1700) (C).

CIVL 2790 Fluid Mechanics 4 cr

(Lab required) Definition of fluid; fluid properties; variation of pressure in a fluid; hydrostatic forces; buoyancy; kinematics of flow; control volumes; continuity; Bernoulli's equation; momentum equation; energy equation; flow in closed conduits; open channel flow.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ENG 1440, MATH 1710 or MATH 1700.

Mutually Exclusive: BIOE 2790

CIVL 2800 Solid Mechanics 1 4 cr

(Lab required) Analysis of deformable bodies; stress and strain in three dimensions; equilibrium equations and strain-displacement relations; constitutive relations and mechanical behaviour of materials; radially symmetric and plane problems in elasticity; relevant experimental demonstrations.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ENG 1440, MATH 1710 or MATH 1700.

Mutually Exclusive: BIOE 2800

CIVL 2830 Graphics for Civil Engineers 2 cr

(Lab required) Orthographic Drawing: Object Orientation and Views, Space Dimensions, Surfaces, Lines, and Hidden Features. Computer-based Drawings. Applications: Steel and Reinforced Concrete Structures, Digital Terrain Models. Ethical, Legal and Professional Issues.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Co-requisite: CIVL 2840.

Mutually Exclusive: ENG 1400, MECH 2112

CIVL 2840 Civil Engineering Geomatics 3 cr

(Lab required) Geomatics in civil engineering, map-making, map-reading, computerized maps; leveling; distance measurement angles, directions, traverses; coordinate geometry; electronic survey instruments; global positioning system; geographic information systems; digital photogrammetric methods and data; aspects of route surveying. Not to be held with CIVL 2820.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre or Co-requisite: MATH 1210 (C), Co-requisite: CIVL 2830.

Mutually Exclusive: CIVL 2820

CIVL 3590 Numerical Methods in Engineering Analysis 4 cr

(Lab required) Variety of numerical techniques applicable to solutions of problems in civil engineering. Students may not hold credit for CIVL 3590 and MATH 2120.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: COMP 1010 or COMP 1012 (C). Pre or Co-requisite: MATH 2132 or prerequisite MATH 2100.

Equip To: MATH 2120, MECH 2150

CIVL 3690 Environmental Engineering Analysis 4 cr

(Lab required) Introduction to environmental engineering analysis concepts, basic water and wastewater quality testing. Water pollution and water quality in rivers and lakes. Design principles used for design of unit operations and processes applied in water and/or wastewater treatment.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [(CHEM 1110 and CHEM 1126) or CHEM 1311 or the former CHEM 1310], [ENG 2030 or ENG 2040 (or the former ENG 2010)], [STAT 2220 or (STAT 1000 and STAT 2000)].

CIVL 3700 Environmental Engineering Design 4 cr

(Lab required) Design principles are developed for water, solid/soil and air pollution control. Application of the principles in design projects which may include surface and groundwater remediation, solid waste management, landfilling, soil remediation and site assessment; municipal and industrial wastewater treatment; odour and air pollution abatement facilities.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: CIVL 3690.

CIVL 3710 Finite Element Analysis 4 cr

(Lab required) One-dimensional analysis of fluid flow, seepage and heat transfer; truss, beam and frame elements; two-dimensional problems; isoparametric elements and Gauss quadrature; time-dependent problems, diffusion, consolidation, and time integration methods; introduction to commercial packages; solution of problems in civil engineering (seepage, dams, pavements).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [CIVL 2790, CIVL 2800], [CIVL 3590 or MATH 2120].

CIVL 3730 Geotechnical Materials and Analysis 4 cr

(Lab required) Soil and rock properties: laboratory and field techniques; in situ states of stress and consolidations; constitutive models; stress beneath loaded areas and around tunnels; analysis of simple retaining structures and slopes; stability and settlement of shallow and deep foundations in soil and rock.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (GEOL 1340 or the former GEOL 2250), CIVL 2770, CIVL 2800.

CIVL 3740 Hydraulics 4 cr

(Lab required) Hydraulics of uniform and gradually varied flow; backwater computation and classification of surface water profiles; hydraulic jumps, spillways, and stilling basins; flow over weirs; hydraulic models; theory of turbo-machinery.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: CIVL 2790.

CIVL 3750 Hydrology 4 cr

(lab required) Basic hydrological processes; precipitation; evapotranspiration; infiltration and runoff; analytical methods; hydrograph theory and application; application to reservoir design; project floods and flow forecasting; statistical analysis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite or corequisite: STAT 2220 or (STAT 1000 and STAT 2000).

CIVL 3760 Structural Analysis 4 cr

(Lab required) Different structural forms and load distribution, analysis of cables; statically determinate curved, beams and frames; influence lines; energy methods and deflections of structures; flexibility and stiffness methods; computer-aided structural analysis; introduction to structural dynamics.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: CIVL 2800.

CIVL 3770 Design of Steel Structures 4 cr

(Lab required) Introduction to design of steel structures; loading calculations based on building codes; structural configurations; design of beams, columns, beam-columns and connections based on limit state design.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CIVL 2770, CIVL 3760.

CIVL 3790 Transportation Engineering 1 4 cr

(lab required) Introduction to transportation. Overview of Canada and U.S. transport systems. Fundamentals of Overport systems analysis. Introduction to sequential demand modeling. Analysis and evaluation of uninterrupted flow on highways. Basics of geometric design of highways. Basics of design of at-grade intersections. Introduction to computer applications in transportation engineering. Basics of pavement engineering and design.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CIVL 2840, CIVL 2770, CIVL 2780, (STAT 2220 or (STAT 1000 and STAT 2000)).

CIVL 4000 Uncertainty Analysis in Civil Engineering Systems 4 cr

(Lab required) Fundamentals of uncertainty, risk, reliability and decision making in Civil Engineering applications. Mathematical basis for analyzing the effects of uncertainty on Civil Engineering design. Data driven modelling and analysis of multi-variable Civil Engineering systems. Computer-based numerical and simulation methods to evaluate uncertainty in Civil Engineering applications. Risk analysis using Bayesian Decision Theory.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CIVL 3590, MATH 2130, and STAT 2220.

CIVL 4020 Masonry Design and Construction 4 cr

(Lab required) Introduction to the building codes that govern masonry design. Advanced design procedures for masonry members and structures. Single-story and multi-story building design.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: CIVL 3760.

CIVL 4022 Properties and Design of Concrete Mixtures 4 cr

(Lab required) Constituent materials (cement, admixtures, etc.) of concrete; performance-based design and control of concrete mixtures; fresh, hardened and durability properties of concrete.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: CIVL 2770.

CIVL 4024 Sustainable Building Design: Principles of Best Practice 4 cr

(Lab required) Best practices in sustainable design; current standards that govern building envelope components, cladding systems, membranes, interface details and indoor air quality. Industry challenges; presents fundamental principles of building science and demonstrates their application to the design, repair and maintenance of buildings; building systems; how environments affect material performance. May not be held with BIOE 4412 or BIOE 4700.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: CIVL 3760, Pre or Corequisite: CIVL 3770.

Mutually Exclusive: BIOE 4412, BIOE 4700

CIVL 4030 Advanced Structural Design 4 cr

(Lab required) Special topics in structural engineering including analysis and design of prestressed concrete structures, fibre-reinforced polymer (FRP)- reinforced concrete structures, and wood structures.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or corequisite: CIVL 3770.

CIVL 4032 Bridge Engineering 4 cr

(Lab required) Fundamentals of highway bridge engineering, base knowledge of bridge construction technology and tools for structural analysis and evaluation for most common bridge types built in North America according to current standards.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: CIVL 3760.

CIVL 4040 Structural Dynamics 4 cr

(Lab required) Dynamic loads in civil engineering; overview of structural dynamics; single-degree-of-freedom systems; free-vibration, harmonic, periodic and impulsive loads; multi-degree-of-freedom systems; distributed systems; beam vibrations; steady-state vibrations of foundations; introduction to earthquake engineering; elastic waves in soils, response and design spectrums; wind vibrations.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: CIVL 3760.

CIVL 4050 Engineering Economics 3 cr

Introduction to engineering economics. Time value of money and discounted cash flow calculations. Comparing alternatives. Replacement analysis and life-cycle costing. Public sector engineering economy studies. Private sector engineering economy studies. Before and after-tax analysis. Applications in cost-estimating. Applications in asset management systems. Basic accounting. Accommodating capital limitations. Dealing with inflation. Dealing with risk and uncertainty.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STAT 2220 or (STAT 1000 and STAT 2000).

Equiv To: ENG 3000

CIVL 4100 Engineering Management and the Environment 4 cr

(Lab required) Teams of students apply environmental management techniques, such as: impact assessment, site assessment, and auditing to selected engineering construction projects and operations; several oral and written reports are required. Co- or

PR/CR: A minimum grade of C is required unless otherwise indicated.

prerequisite: CIVL 3700.

CIVL 4120 Water Treatment Plant Design 4 cr

(Lab required) Design of unit processes used in potable water treatment plants: solid/liquid separation, oxidation, coagulation, filtration, adsorption and disinfection. Determination of design parameters through laboratory studies. Water treatment plants design standards and guidelines.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: CIVL 3690.

CIVL 4130 Solid Waste Management 4 cr

(Lab required) Engineering principles and the practice of integrated management of solid wastes, including characteristics, sorting, utilization and final disposal in landfill. Principles of leachate and hazardous waste management and disposal.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre or Co-requisite: CIVL 3700.

CIVL 4180 Environmental Systems 4 cr

(Lab required) Development of a river water quality model; waste allocation modelling; modelling of the sites selection process; analysis of environmental impact using technical and non-technical (i.e. sociological, ethical, aesthetic) parameters.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CIVL 2780, CIVL 3690, CIVL 3750.

CIVL 4200 Groundwater Contamination 4 cr

(Lab required) Introduction to the principles of groundwater chemistry; chemical evolution of natural groundwater flow systems; sources of contamination; mass transport processes; hydrochemical behaviour of contaminants; nuclear waste disposal; non-aqueous phase organics; aquifer remediation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CIVL 2790 and (GEOL 1340 or GEOL 2250). Pre or Co-requisite: CIVL 3690.

CIVL 4220 Geotechnical Design 4 cr

(Lab required) Site characterization; design and construction of surface footings, deep foundations, tunnels, earth and rock support systems; design and remediation of slopes; frozen soils and foundation design; geosynthetics and geofabrics in geotechnical construction; reinforced earth; geoenvironmental issues; tailing dams, clean-up, and remediation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: CIVL 3730.

CIVL 4230 Geotechnical Engineering 4 cr

(Lab required) Case-history approach to geotechnical engineering practice from civil and mining engineering; relationship between predicted and observed behaviour; surface and shallow footings; propped walls and bulkheads; rock and soft ground tunneling; deep foundations; rock and soil slopes; culverts; geoenvironmental problems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: CIVL 3730.

CIVL 4232 Geotechnical Earthquake Engineering 4 cr

(Lab required) Introduction to soil dynamics and geotechnical earthquake engineering. Behavior of soil subjected to various types of dynamic or cyclic loadings; liquefaction and lateral spreading of soil; design of shallow and deep foundations. retaining structures, slopes and pavements subject to seismic loading; design code provisions.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: CIVL 3730.

CIVL 4250 Groundwater Hydrology 4 cr

(Lab required) Introduction to the theory of groundwater flow, flow nets, regional groundwater flow, well hydraulics, role of groundwater in geologic and engineering processes, multiphase flow.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CIVL 2790, GEOL 1340 (or the former GEOL 2250), MATH 2130 (or MATH 2110), MATH 2132 (or MATH 2100).

Mutually Exclusive: GEOL 3450

CIVL 4300 Design of Urban Water Systems 4 cr

(Lab required) Water supply and the design of water distribution systems. Urban hydrology and design of wastewater and stormwater collection systems. Manitoba specific applications will be discussed.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CIVL 2790. Pre-or Corequisites: CIVL 3750.

CIVL 4330 Graduation Project 4 cr

The student will undertake an original study involving engineering design, procedure, or experimental investigation that emphasizes the student's initiative and judgement. The student must demonstrate an ability to plan, conduct and formally report on the study by written thesis and oral presentation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: Completion of 120 credit hours, ENG 2010.

CIVL 4332 Civil Engineering Thesis Project 4 cr

The student will undertake an original study involving engineering design, procedure, or experimental investigation that emphasizes the student's initiative and judgement. The student must demonstrate an ability to plan, conduct and formally report on the study by written thesis and oral presentation. May not be held with CIVL 4330.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: Completion of 120 credit hours, and [ENG 2030 or ENG 2040 (or the former ENG 2010)].

Equip To: CIVL 4330

CIVL 4350 Hazardous Waste Treatment 4 cr

(Lab required) Sources and classification of hazardous and industrial wastes. Overview of the waste management problem. Theory and applications of various physical, chemical, and thermal, waste treatment processes. Waste elimination options and strategies.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: CIVL 3690.

CIVL 4360 Water Resources Planning and Management 4 cr

(Lab required) Introduction to the theory and application of water resources planning and management as a constrained optimization problem with multiple conflicting objectives. Water laws including international, inter-provincial and local regulations will be discussed. The process for planning a water resource project, including identifying the problems and opportunities, resource and demand forecasting, plan formulation and evaluation, and optimization will be discussed.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CIVL 2780, CIVL 3590. Pre-or co-requisite: CIVL 3750.

CIVL 4380 Infrastructure Engineering and Construction Management 4 cr

(Lab required) Infrastructure engineering; drainage systems, maintenance engineering and management. Construction and project management; workplace health and safety, construction site field trips, construction equipment, temporary facilities, project management. Elements of law for civil engineers.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ENG 3000 or CIVL 4050.

CIVL 4390 Reinforced Concrete Structures 4 cr

(Lab required) Limit state design of reinforced concrete; analysis and design of beams and one-way slabs subjected to bending and shear; bond, cracking and deflection considerations; column design; isolated footings.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CIVL 2770, CIVL 3760.

CIVL 4400 Transportation Engineering 2 4 cr

(Lab required) Fundamentals of traffic control for highways. Capacity and level of service analysis on urban streets. Urban supplement to geometric design guide for Canadian roads. Modelling vehicle performance. Elements of railway engineering. Design for trucks. Transportation systems management. Application of intelligent transportation systems. Basic pavement design methods. Introduction to pavement management systems. Highway accidents and design for safety. Legislative and policy framework for transportation engineering.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: CIVL 3790.

CIVL 4410 Transportation Systems 4 cr

(Lab required) Contemporary approaches to transportation planning. Data for transportation planning. Advanced demand analysis and modelling. Illustrative transport planning studies. Planning and design for public passenger transportation. Planning and design for barrier-free transportation and transport of disabled persons. Goods movement and trucking studies. Planning and design for motor carrier operations. Planning and design for grain handling and transportation. Transport planning in developing countries. Evaluating transport plans and projects. Transport and the environment. Transport and energy. Vehicle operating costs and engineering unit cost models.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: CIVL 3790.

CIVL 4420 Highway Pavement Design 4 cr

(Lab required) Soil classification and properties; soil-moisture-density-strength relationships; earthwork operations and specifications; soil stabilization; granular bases; surface drainage; structural design of flexible and rigid pavements.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or co-requisites: CIVL 3790.

CIVL 4460 Technology, Society, and the Future 3 cr

Impact of technology and technological change on society - past, present, future; specific technologies, e.g. construction, machine power, computers, communications, medical, military: the process of technological change; invisible effects of technology; technology and resource use; sustainable development, limits to growth and the role of technology.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: A grade of "C" or better in one of the courses from the list of Written English for Engineering Students, or the former ENGL 1310, or the former ENGL 1320.

CIVL 4470 Watershed Processes 4 cr

(Lab required) Rainfall-runoff processes, flood routing; characteristics and mechanics of flow in (natural) channels; computer modelling of watershed hydrology and hydraulics; influence of man-made structures; river morphology, sediment transport prediction, design of a stable channel; river ice processes.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: CIVL 3750. Pre or co-requisite: CIVL 3740.

CIVL 4500 Contemporary Topics in Civil Engineering 4 cr

This course will cover contemporary topics in Civil Engineering. The specific topics and a detailed outline will be available at the time of registration prior to the start of the registration period for the session in which the course will be offered.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of the department head.

CIVL 4590 Design Project 6 cr

An interdisciplinary project-based course involving engineering design, teamwork and delivered in studio format. Students are expected to work in pre-assigned teams under the guidance of professional engineers on a pre-determined project. Lecture material will cover project management, construction, environmental and economic issues. Each team will be required to give an oral presentation of their design project.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [ENG 2030 or ENG 2040 (or the former ENG 2010)], CIVL 2840, CIVL 3690, CIVL 3730, CIVL 3740, CIVL 3750, CIVL 3770, and CIVL 3790.

Classical Studies (CLAS)

CLAS 1270 Introduction to Ancient Greek Culture 3 cr

Ancient archaeological and literary evidence (in English translation) is the basis for a survey of the major social, political, religious, intellectual, artistic and literary institutions and achievements of the Greeks from the Bronze Age to the early Roman Imperial Period. The Greeks are studied in the context of the ancient Mediterranean world but also with reference to their continuing contributions to world civilization.

Attributes: Humanities, Recommended Intro Courses

CLAS 1280 Introduction to Ancient Roman Culture 3 cr

Ancient archaeological and literary evidence (in English translation) is the basis for a survey of the major social, political, religious, intellectual, artistic and literary institutions and achievements of the Romans, from the period of the monarchy to the onset of the Middle Ages. The Romans are studied in the context of the ancient Mediterranean world but also with reference to their continuing contributions to world civilization.

Attributes: Humanities, Recommended Intro Courses

CLAS 1520 Greek and Roman Mythology 3 cr

A survey of Greek and Roman divine and heroic myths with attention to the nature and definition of myth, Greek and Roman legends, the relationship between myth and religion, the sources of myth (literary and artistic), and the influence of classical myth on subsequent artists and writers. Students may not hold credit for both CLAS 1520 and the former CLAS 2520.

Mutually Exclusive: CLAS 2520

Attributes: Humanities

CLAS 2140 Greek History: Pre-Classical Greece, 1200-479 BC 3 cr

This course covers the crucial formative centuries which prefigured the Classical period of Greek history. It focuses upon the Dark Age (ca. 1200-700), when the political framework of later Greece was established, and the subsequent cultural renaissance of the seventh and sixth centuries BC.

Attributes: Humanities

CLAS 2150 Greek History: Classical Greece, 479-323 BC 3 cr

This course covers the heyday of imperial, democratic Athens, her crushing defeat by Sparta, now allied with Persia, and the ensuing crisis of the city-state which culminated in Greek subjection to Macedonian kings, Philip and Alexander.

Attributes: Humanities

CLAS 2160 Roman History: The Roman Republic, 753-30 BC 3 cr

This course covers the history of Rome from its supposed foundation in 753 BC to the end of the Republic in 30 BC. The course considers not only the events of Roman Republican history but also how historians of ancient Rome interpreted these events.

Attributes: Humanities

CLAS 2170 Roman History: The Roman Empire, 30 BC-AD 337 3 cr

This course covers the history of Rome under emperors, from the ascension of Augustus to the death of Constantine, the first Christian emperor, in AD 337. An important theme in the course is the rise of Christianity.

Attributes: Humanities

CLAS 2180 Ancient Greece and Rome through Film 3 cr

Using film as an entry point for the discussion of the ancient Greeks and Romans, this course explores myth, ancient literary genres, and cultural practices. Included will be films that directly engage with their source material, are modern reinterpretations, and that respond to universal themes or narrative patterns. May not be held with CLAS 2500 when taught as Ancient Greece and Rome through Film.

Mutually Exclusive: CLAS 2500

Attributes: Humanities

CLAS 2210 Women in Ancient Greece and Rome 3 cr

This course analyzes the changing roles of women in ancient Greek and Roman society (roughly 800 BCE to 400 CE). Using ancient texts, inscriptions, artworks, and archaeological remains, students will examine women's roles in family life, marriage practices, religion, politics, and the economy. Although the majority of ancient evidence about women is created by men and concerns the upper classes, the course will also seek evidence of female viewpoints and the lives of lower-class women.

Attributes: Humanities

CLAS 2460 Field Studies in Greek Archaeology and History 6 cr

Offered as part of the Summer Session, the course consists of three weeks of on-campus study followed by three weeks of travel to major sites and museums. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: none, but one or more of CLAS 1270 or CLAS 1280 or CLAS 2140 or CLAS 2150 or CLAS 2670 is recommended.

Attributes: Humanities

CLAS 2490 Field Studies in Roman Archaeology and History 6 cr

Offered as part of the Summer Session, the course consists of three weeks of on-campus study followed by three weeks of travel to major sites and museums. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: none, but one or more of CLAS 1270 or CLAS 1280 or CLAS 2160 or CLAS 2170 or CLAS 2680 is recommended.

Attributes: Humanities

CLAS 2500 Aspects of Classical Culture and Languages 3 cr

The content of this course will vary, being devoted each time to surveying a special area of Classical civilization such as athletics, technology, warfare, death, slavery, education, or reception in modern film or literature. Ancient textual and archaeological evidence will form the basis of discussion. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Mutually Exclusive: CLAS 2180

Attributes: Humanities

CLAS 2612 Greek Literature in Translation 3 cr

A survey in English of selected works of such major figures in Greek literature as Homer, Aeschylus, Sophocles, Euripides, Aristophanes, Herodotus, Thucydides, and Plato. The course includes discussion of the influence of these and other works on the arts and literature of the world. Students may not hold credit for both CLAS 2612 and the former CLAS 3610.

Equiv To: CLAS 3610

Attributes: Humanities, Written English Requirement

CLAS 2622 Latin Literature in Translation 3 cr

A survey in English of selected works of such major figures in Latin literature as Vergil, Ovid, Terence, Livy, Cicero, Horace and Seneca. The course includes discussion of the influence of these and other works on the arts and literature of the world. Students may not hold credit for both CLAS 2622 and the former CLAS 3620.

Equiv To: CLAS 3620

Attributes: Humanities, Written English Requirement

CLAS 2670 Greek Art and Archaeology 3 cr

A survey, illustrated with slides, of the Minoan, Mycenaean, and classical Greek civilizations. The relevant archaeological sites and artistic works will be studied.

Attributes: Humanities

CLAS 2680 Roman Art and Archaeology 3 cr

A survey, illustrated with slides, of the civilization and art of the Roman world. The Etruscan civilization and archaeological sites of Hellenistic Greece as they influence the art of Republican and Imperial Rome will be studied.

Attributes: Humanities

CLAS 2710 Greek and Latin Elements in English 3 cr

A systematic study of the contribution of the classical languages to modern English, including the vocabulary of the sciences. The course is intended as a practical means of enhancing English vocabulary while it also emphasizes that the linguistic contributions are a reflection of the broad historical and cultural influences of classical antiquity on the modern world.

Attributes: Humanities

CLAS 3250 Aegean and Italian Prehistory 3 cr

This course provides a detailed archaeological and historical view of Mediterranean culture and society from the Neolithic period of the sixth millennium BC through the early centuries of the first millennium BC. The course ends with a look ahead to the Early Iron Age.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in one of: CLAS 1270, CLAS 2140, CLAS 2150, ANTH 2060, FAAH 1030, HIST 1200, HIST 1201, HIST 1350] or written consent of department head.

Attributes: Humanities

CLAS 3260 Hellenistic Civilization: History and Archaeology 3 cr

The Hellenistic period spans the years from the death of Alexander the Great in 323 BC to the death of the Ptolemaic queen Cleopatra VII in 31 BC. This course explores both the political and, more generally, the cultural history of the period using both textual and archaeological sources.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in one of: CLAS 1270, CLAS 1280, CLAS 2140, CLAS 2150, FAAH 1030, HIST 1200, HIST 1201, HIST 1350] or written consent of department head.

Attributes: Humanities

CLAS 3264 Pompeii and Herculaneum 3 cr

This course will study the art and archaeology of Pompeii, Herculaneum, and other sites destroyed by Mount Vesuvius in 79 C.E., with attention to social history, artistic developments, and daily life. Students may not hold credit for both CLAS 3264 and the former CLAS 3730 when titled "Pompeii and Herculaneum."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [CLAS 1270, CLAS 1280, CLAS 2160, CLAS 2170, CLAS 2680, FAAH 1030, HIST 1200, HIST 1201, HIST 1350] or written consent of department head.

Attributes: Humanities

CLAS 3270 The World of Late Antiquity: History and Archaeology 3 cr

This course examines the later Roman Empire, beginning with the reign of Constantine in the early fourth century and ending in the mid sixth century. It combines historical and archaeological sources for the study of political, religious and social developments within the period.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in one of: CLAS 1270, CLAS 1280, CLAS 2170, CLAS 2680, FAAH 1030, HIST 1200, the former HIST 1201, HIST 1203, HIST 1350] or written consent of department head.

Attributes: Humanities

CLAS 3650 Religion in Ancient Greece 3 cr

The religious beliefs and practices of the Greeks from the prehistoric period through the beginnings of the Hellenistic period as related to their political, social, intellectual, and domestic institutions; based on the study of both literary and archaeological evidence.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in one of: CLAS 1270, CLAS 1520, CLAS 2140, CLAS 2150, CLAS 2670, CLAS 3670, RLG 3640, or the former CLAS 2520] or written consent of department head.

Attributes: Humanities

CLAS 3660 Religion in Ancient Rome 3 cr

The religious beliefs and practices of the Romans from earliest times until the reign of Constantine as related to their political, social, intellectual, and domestic institutions; based on the study of both literary and archaeological evidence from Italy and the rest of the Roman world.
PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in one of: CLAS 1280, CLAS 1520, CLAS 2160, CLAS 2170, CLAS 2680, CLAS 3670, RLGN 3640, or the former CLAS 2520] or written consent of department head.

Attributes: Humanities

CLAS 3670 Religion in the Hellenistic and Roman Mediterranean 3 cr

This course explores the wide variety of religious traditions, practices, and beliefs of the Mediterranean region in the Hellenistic and Roman period (c. 300 BCE to 300 CE). This period is exemplified by a great deal of continuity, but it was also a time of experimentation, innovation, and cultural entrepreneurship. Also offered by Religion as RLGN 3640. Students may not hold credit for both CLAS 3670 and RLGN 3640.

Equiv To: RLGN 3640

Attributes: Humanities

CLAS 3680 Studies in a Classical Literary Genre 1 3 cr

The content of this course will vary, being devoted each time to a particular type of Greek and Roman literature such as epic, tragedy, comedy, satire, rhetoric, the novel, historical writings, scientific writing, etc. Lectures and discussions of the literature and its influence will be based on readings in English translation. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Attributes: Humanities

CLAS 3682 Greek and Roman Epic 3 cr

The core readings in this course will consist of contemporary English translations of a substantial portion of the Greek and Latin epic corpus, including complete or partial works by Homer, Apollonius Rhodius, Vergil, Ovid, Lucan and Statius. The classical epics will be studied with reference to their place in literary and cultural history. Students may not hold credit for both CLAS 3682 and CLAS 3680 when titled "Greek and Roman Epic Poetry."

Attributes: Humanities

CLAS 3684 Greek and Roman Tragedy 3 cr

This course examines the tragic drama of fifth-century Athens and imperial Rome (in translation), with particular emphasis on the extant plays of Aeschylus, Sophocles, Euripides, and Seneca in their respective historical, intellectual and cultural contexts. Students may not hold credit for both CLAS 3684 and CLAS 3680 when titled "Greek and Roman Tragedy."

Attributes: Humanities

CLAS 3710 Aspects of Classical Culture 1 3 cr

The content of this course will vary, being devoted each time to the investigation of a special area of Classical civilization such as athletics, technology, the erotic, the occult, cuisine, law, medicine, architecture, education. Lectures and discussions will be based on the study of both archaeological and literary evidence. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [CLAS 1270 or CLAS 1280] or written consent of department head.

Attributes: Humanities

Computer Science (COMP)

COMP 1010 Introductory Computer Science 1 3 cr

(Lab Required) An introduction to computer programming using a procedural high level language. May not be held with COMP 1011 or COMP 1012 or COMP 1013.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: any grade 12 or 40S Mathematics, or equivalent.

Equiv To: COMP 1011

Mutually Exclusive: COMP 1012, COMP 1013

Attributes: Science, Recommended Intro Courses

COMP 1012 Computer Programming for Scientists and Engineers 3 cr

(Lab Required) An introduction to computer programming suitable for solving problems in science and engineering. Students will implement algorithms for numerical processing, statistical analysis and matrix operations. Not to be held with COMP 1010, COMP 1011 or COMP 1013.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Mathematics 40S or equivalent. Co-requisite: MATH 1230 or MATH 1500 or MATH 1501 (or equivalent).

Equiv To: COMP 1013

Mutually Exclusive: COMP 1010, COMP 1011

Attributes: Science

COMP 1020 Introductory Computer Science 2 3 cr

(Lab Required) More features of a procedural language, elements of programming. May not be held with COMP 1021.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: COMP 1010 or COMP 1011; or COMP 1012 or COMP 1013; or High School Computer Science 40S (75%) and any grade 12 or 40S Mathematics, or equivalent.

Equiv To: COMP 1021

Attributes: Science, Recommended Intro Courses

COMP 1500 Computing: Ideas and Innovation 3 cr

An introduction to the topics of Computer Science and problem solving. Students will learn concepts in computer programming. May not be used to fulfill computer science requirements in a Computer Science Honours, Joint Honours, Major, General or Minor program. May not be taken once in a declared Computer Science Honours, Joint Honours, Major, General or Minor program. May be used as an elective if taken prior to entry.

Attributes: Science, Recommended Intro Courses

COMP 1600 Navigating Your Digital World 3 cr

Topics related to digital society such as security, encryption and data storage, issues of social and ethical importance, and current events. May not be used to fulfill computer science requirements in a Computer Science Honours, Joint Honours, Major, General or Minor program. May not be taken once in a declared Computer Science Honours, Joint Honours, Major, General or Minor program. May be used as an elective if taken prior to entry. May not be held with the former COMP 1270.

Mutually Exclusive: COMP 1270, COMP 1271

Attributes: Science, Recommended Intro Courses

COMP 2080 Analysis of Algorithms 3 cr

Methods of analyzing the time and space requirements of algorithms. Average case and worst case analysis. Models of computation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MATH 1240, MATH 1241 or COMP 2130; and one of COMP 2140, or the former COMP 2061. STAT 1000 or STAT 1001 or STAT 1150 is strongly recommended.

Attributes: Science

COMP 2130 Discrete Mathematics for Computer Science 3 cr

An introduction to the set theory, logic, integers, combinatorics and functions for today's computer scientists.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: COMP 1020 or COMP 1021, and one of: MATH 1210, MATH 1211, MATH 1220, MATH 1300, MATH 1301, MATH 1310; and one of: MATH 1230, MATH 1500, MATH 1501, MATH 1510, MATH 1520, or MATH 1690.

Mutually Exclusive: MATH 3120

Attributes: Science

COMP 2140 Data Structures and Algorithms 3 cr

(Lab Required) Introduction to the representation and manipulation of data structures. Topics will include lists, stacks, queues, trees, and graphs. May not be held with COMP 2061.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: one of COMP 1020, COMP 1021.

Equiv To: COMP 2061

Attributes: Science

COMP 2150 Object Orientation 3 cr

Design and development of object-oriented software. Topics will include inheritance, polymorphism, data abstraction and encapsulation. Examples will be drawn from several programming languages.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: COMP 2160; and one of COMP 2140 or COMP 2061.

Attributes: Science

COMP 2160 Programming Practices 3 cr

(Lab Required) Introduction to issues involved in real-world computing. Topics will include memory management, debugging, compilation, performance, and good programming practices.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: COMP 1020 (C+) or COMP 1021 (C+).

Attributes: Science

COMP 2190 Introduction to Scientific Computing 3 cr

An applied computational course introducing topics such as approximation by polynomials, solution of non-linear equations, linear systems, simulation and computational geometry. May not hold with COMP 2191.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: One of COMP 1020 or COMP 1021, or COMP 1012 or COMP 1013; and one of MATH 1230, MATH 1500, MATH 1501, MATH 1510, MATH 1520, or MATH 1690. Prerequisite or concurrent registration: One of MATH 1220, MATH 1300, MATH 1301, or MATH 1310.

Equiv To: COMP 2191

Attributes: Science

COMP 2280 Introduction to Computer Systems 3 cr

(Lab Required) Data representation and manipulation, machine-level representation of programs, assembly language programming, and basic computer architecture. Not available to students who have previously completed ECE 3610.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: COMP 2140, COMP 2160, and one of MATH 1240, MATH 1241 or COMP 2130.

Mutually Exclusive: ECE 3610

Attributes: Science

COMP 2980 Workterm 1 0 cr

Work assignment in business, industry, or government for students registered in the Computer Science Cooperative Option. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail)

Attributes: Science

COMP 3010 Distributed Computing 3 cr

An introduction to the development of client server and peer-to-peer systems through web applications, distributed programming models, and distributed algorithms.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: COMP 2150 or ECE 3740.

Attributes: Science

COMP 3020 Human-Computer Interaction 1 3 cr

Human-computer interaction: human factors and usability, user-centered design, prototyping, usability evaluation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of COMP 2140 or COMP 2061. A course in cognitive psychology, such as PSYC 2480, is recommended.

Attributes: Science

COMP 3030 Automata Theory and Formal Languages 3 cr

An introduction to automata theory, grammars, formal languages and their applications. Topics: finite automata, regular expressions and their properties; context-free grammars, pushdown automata and properties of context-free languages; Turing machines and their properties.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: COMP 2080.

Attributes: Science

COMP 3040 Technical Communication in Computer Science 3 cr

This course is designed to help students become more effective and confident writers in the context of the computing profession. Students will be introduced to a broad range of written and oral presentation styles used in the computing workplace.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Students must be enrolled in third year (or higher) of a majors or honours program in the Department of Computer Science.

Attributes: Science

COMP 3090 Digital Logic 2 3 cr

Design and implementation of digital circuits. Minimization and state reduction, asynchronous circuits, arithmetic circuits, implementation using modern hardware techniques. May not to be held with ECE 2220.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: COMP 2280.

Mutually Exclusive: ECE 2220

Attributes: Science

COMP 3170 Analysis of Algorithms and Data Structures 3 cr

Fundamental algorithms for sorting, searching, storage management, graphs, databases and computational geometry. Correctness and analysis of those algorithms using specific data structures. An introduction to lower bounds and intractability.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: one of COMP 2140 or COMP 2061; and COMP 2080.

Attributes: Science

COMP 3190 Introduction to Artificial Intelligence 3 cr

Principles of artificial intelligence: problem solving, knowledge representation and manipulation; the application of these principles to the solution of 'hard' problems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of COMP 2140 or COMP 2061.

Attributes: Science

COMP 3290 Introduction to Compiler Construction 3 cr

Introduction to the standard compiler phases: scanning, parsing, symbol-table management, code generation, and code optimization. The emphasis is on the simpler techniques for compiler construction such as recursive descent.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: COMP 2140 (or COMP 2061) and COMP 2280 (or ECE 3610). COMP 2160 is recommended.

Attributes: Science

COMP 3350 Software Engineering 1 3 cr

Introduction to software engineering. Software life cycle models, system and software requirements analysis, specifications, software design, testing and maintenance, software quality.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: COMP 2150 or ECE 3740.

Attributes: Science

COMP 3370 Computer Organization 3 cr

Principles of computer systems architecture, organization and design. Performance, instruction sets, processors, input/output, memory hierarchies.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: COMP 2280 or ECE 3610.

Attributes: Science

COMP 3380 Databases Concepts and Usage 3 cr

An introduction to database systems including the relational, hierarchical, network and entity-relationship models with emphasis on the relational model and SQL.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of COMP 2140 or COMP 2061.

Attributes: Science

COMP 3430 Operating Systems 3 cr

(Lab Required) Operating systems, their design, implementation, and usage.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: one of COMP 2140 or COMP 2061; and COMP 2280 or ECE 3610. COMP 2160 is recommended.

Attributes: Science

COMP 3440 Programming Language Concepts 3 cr

An introduction to major concepts involved in the design of modern programming languages. The imperative, functional, and logical families and differences between them. Facilities for high level data and control structures, modular programming, data typing, and other topics will be covered.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of COMP 2140 or COMP 2061.

Attributes: Science

COMP 3490 Computer Graphics 1 3 cr

An introductory course in computer graphics including topics such as raster graphics, two and three dimensional transforms, and simple rendering.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: COMP 2140; and either COMP 2190, or both: MATH 1300 (or MATH 1220, MATH 1310, MATH 1301, MATH 1210 or MATH 1211) and MATH 1500 (or MATH 1230, MATH 1501, MATH 1510 or MATH 1520).

Attributes: Science

COMP 3820 Introduction to Bioinformatics Algorithms 3 cr

An introduction to problems in molecular biology and computational solutions. Focus on design and analysis of efficient algorithms.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: COMP 2080. Suggested prerequisite: MBIO 1410.

Suggested concurrent requirement: COMP 3170.

Attributes: Science

COMP 3980 Workterm 2 0 cr

Work assignment in business, industry, or government for students registered in the Computer Science Cooperative Option. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: COMP 2980 (P).

Attributes: Science

COMP 4020 Human-Computer Interaction 2 3 cr

Advanced issues in the field of human-computer interaction. Topics will be selected from current research and development issues in the field of HCI.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: COMP 3020. A course in cognitive psychology such as PSYC 2480 is recommended.

Attributes: Science

COMP 4050 Project Management 3 cr

Introduction to the issues involved in managing large, complex software projects.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: COMP 3350.

Attributes: Science

COMP 4060 Topics in Computer Science 3 cr

This course will examine topics of interest at the fourth-year level. Specific topics will vary from year to year. Topics will be selected from current research in computer science.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Departmental permission.

Attributes: Science

COMP 4140 Introduction to Cryptography and Cryptosystems 3 cr

Description and analysis of cryptographic methods used in the authentication and protection of data. Classical cryptosystems and cryptoanalysis, the Advanced Data Encryption Standard (ADES) and Publickey cryptosystems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of COMP 3170, MATH 2170, or the former MATH 2500.

Attributes: Science

COMP 4180 Intelligent Mobile Robotics 3 cr

Topics include artificial intelligence, computer vision, human-robot interaction, and multi-robot systems. These abstract components are grounded in the problem of developing a team of intelligent mobile robots. All topics are covered with specific emphasis on applied problems, e.g. real-time performance. Not to be held with the former COMP 4060 –“Mobile Robotics”.

PR/CR: A minimum grade of C is required unless otherwise indicated.
Prerequisites: COMP 2160 and COMP 3190.

Attributes: Science

COMP 4190 Artificial Intelligence 3 cr

Reasoning with temporal knowledge; causal reasoning; plausible reasoning; nonmonotonic reasoning; abductive reasoning.

PR/CR: A minimum grade of C is required unless otherwise indicated.
Prerequisite: COMP 3190.

Attributes: Science

COMP 4200 Expert Systems 3 cr

Organization of expert systems; knowledge representation in expert systems; inference; knowledge engineering; tools for building expert systems; limitations of expert systems.

PR/CR: A minimum grade of C is required unless otherwise indicated.
Prerequisite: COMP 3190.

Attributes: Science

COMP 4300 Computer Networks 3 cr

(Lab required) This course examines the principles of computer networks, including network architectures, algorithms, protocols, and performance. May not be held with the former COMP 3720 or the former COMP 4720 or ECE 3700.

PR/CR: A minimum grade of C is required unless otherwise indicated.
Prerequisite: COMP 2280 and COMP 3010.

Mutually Exclusive: COMP 3720, COMP 4720, ECE 3700

Attributes: Science

COMP 4340 Graph Theory Algorithms 1 3 cr

Spanning trees, connectivity, planar graphs, directed graphs, networks, colouring problems and tours are studied and their applications to computer science will be highlighted.

PR/CR: A minimum grade of C is required unless otherwise indicated.
Prerequisite: COMP 3170.

Mutually Exclusive: MATH 2070, MATH 2071, MATH 2400, MATH 3370

Attributes: Science

COMP 4350 Software Engineering 2 3 cr

Advanced treatment of software development methods. Topics will be selected from requirements gathering, design methodologies, prototyping, software verification and validation.

PR/CR: A minimum grade of C is required unless otherwise indicated.
Prerequisite: COMP 3350.

Attributes: Science

COMP 4360 Machine Learning 3 cr

Learning strategies; evaluation of learning; learning in symbolic systems; neural networks, genetic algorithms. May not be held with ECE 4450.

PR/CR: A minimum grade of C is required unless otherwise indicated.
Prerequisite: COMP 3190 or [STAT 2400, and MATH 2740, and DATA 2010].

Mutually Exclusive: ECE 4450

Attributes: Science

COMP 4380 Database Implementation 3 cr

Implementation of modern database systems including query modification/optimization, recovery, concurrency, integrity, and distribution.

PR/CR: A minimum grade of C is required unless otherwise indicated.
Prerequisite: COMP 3380.

Attributes: Science

COMP 4420 Advanced Design and Analysis of Algorithms 3 cr

Algorithm design with emphasis on formal techniques in analysis and proof of correctness. Computational geometry, pattern matching, scheduling, numeric algorithms, probabilistic algorithms, approximation algorithms and other topics.

PR/CR: A minimum grade of C is required unless otherwise indicated.
Prerequisites: COMP 3170 and (STAT 1000 or STAT 1001 or STAT 1150).

Attributes: Science

COMP 4430 Operating Systems 2 3 cr

Design and implementation of modern operating systems. Detailed analysis of an open source modern operating system and hands-on experience with its kernel and major components.

PR/CR: A minimum grade of C is required unless otherwise indicated.
Prerequisites: COMP 2160 and COMP 3430.

Attributes: Science

COMP 4490 Computer Graphics 2 3 cr

Methods in computer graphics including topics such as representation of curves and surfaces, viewing in three dimensions, and colour models.

PR/CR: A minimum grade of C is required unless otherwise indicated.
Prerequisite: COMP 3490.

Attributes: Science

COMP 4510 Introduction to Parallel Computation 3 cr

An overview of the architectures of current parallel processors and the techniques used to program them. Not to be held with ECE 4530.

PR/CR: A minimum grade of C is required unless otherwise indicated.
Prerequisites: COMP 3370 and COMP 3430.

Mutually Exclusive: ECE 4530

Attributes: Science

COMP 4520 Undergraduate Honours Project 3 cr

A research based project on a specific area of computer science. Students must find a faculty supervisor and write a proposal in their penultimate term. If acceptable, the defined research is to be carried out in the student's final term. Permission to take the course is given on an individual basis. Available to 4th Year students only.

PR/CR: A minimum grade of C is required unless otherwise indicated.
Prerequisite: departmental permission.

Attributes: Science

COMP 4550 Real-Time Systems 3 cr

An introduction to the theory and practice of real-time systems. Topics include the design of real-time systems, scheduling, event based processing, and real-time control. This course may not be held for credit if a student has previously completed both of ECE 4240 and ECE 3760.

PR/CR: A minimum grade of C is required unless otherwise indicated.
Prerequisites: COMP 3430 and COMP 3370.

Mutually Exclusive: ECE 3760, ECE 4240

Attributes: Science

COMP 4560 Industrial Project 3 cr

Students will work in teams on an industrial project. Projects are supplied by the Department.

PR/CR: A minimum grade of C is required unless otherwise indicated.
Prerequisites: COMP 3350 and departmental permission.

Attributes: Science

COMP 4580 Computer Security 3 cr

(Lab Required) Computer security and information management. This course will examine state-of-the-art knowledge about the issues relevant to data and computer security.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: COMP 3430 and COMP 3010.

Attributes: Science

COMP 4620 Professional Practice in Computer Science 3 cr

Background and rationale to view Computer Science in a professional context. Examination of professional ethics, intellectual property, and privacy considerations important to Computer Scientists. May not be held with the former COMP 3620. This course is restricted to students in a Computer Science Major, Honours, or Joint Honours program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: 6 credit hours of COMP courses at the 3000 or 4000 level.

Equip To: COMP 3620

Attributes: Science

COMP 4690 Computer Systems and Architecture 3 cr

Investigation of today's modern computer architecture and system design concepts, including requirements, specifications, and implementation. Instruction sets, instruction-level parallelism, speculative execution, multi-threaded architectures, memory hierarchy, multiprocessors, storage design and implementation, and interconnection networks.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: COMP 3370.

Attributes: Science

COMP 4710 Introduction to Data Mining 3 cr

Introduction to data mining concepts and their applications.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: COMP 3380 or consent of department.

Attributes: Science

COMP 4740 Advanced Databases 3 cr

Parallel, distributed, object-oriented, object-relational, and XML databases; other emerging database technologies.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: COMP 3380.

Attributes: Science

COMP 4980 Workterm 3 0 cr

Work assignment in business, industry, or government for students registered in the Computer Science Cooperative Option. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: COMP 3980 (P).

Attributes: Science

COMP 4990 Workterm 4 0 cr

Work assignment in business, industry, or government for students registered in the Computer Science Cooperative Option. Requires submission of a written report covering the work completed during the four-month professional assignment (Pass/Fail).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: COMP 4980 (P).

Attributes: Science

Agriculture Diploma (DAGR)

DAGR 0410 Skills for Agricultural Communication and Decision Making 4 cr

(Lab required) A course designed to improve critical thinking and abilities in written and oral communication to support student success in their academic careers and as agricultural industry professionals.

DAGR 0480 Introductory Farm Management 3 cr

Students will be introduced to the various roles that are carried out by farm managers. Students will be required to attend interview sessions outside of scheduled classes with an assigned Farm Management Advisor. The Advisor will support students as they apply their management skills and knowledge to a real farm business or a case farm. There will be one full day field trip. May not be held with the former DAGR 0680.

Mutually Exclusive: DAGR 0680

DAGR 0490 Applied Farm Management 3 cr

An introduction to an objectives-driven plan that deals with production and financial management. Students will generate and analyze enterprise budgets and financial statements. Students will be required to attend interview sessions outside of scheduled classes with an assigned Farm Management Advisor. The Advisor will support students as they apply their management skills and knowledge to a real farm business or a case farm. There will be three full day field trips. May not be held with the former DAGR 0680.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: DAGR 0480 and ABIZ 0460. Pre or Co-requisite: ABIZ 0470.

Mutually Exclusive: DAGR 0680

DAGR 0510 Farm Management Practicum 3 cr

Students will have the opportunity for practical hands-on experience and to apply the knowledge they have acquired to intensify study of livestock or crop production management. May not be held with DAGR 0630 when titled "Glenlea."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Consent of the Director of the School of Agriculture.

DAGR 0540 Exploring New Opportunities in Adding On-Farm Value 4 cr

(Lab required) A practical study of the opportunities for farm operators to increase value return for farm products with innovative approaches to production, processing and marketing. Students will learn from case studies the challenges and realities of value chain integration. Students will develop their ability to critically evaluate business plans for farm product enterprises.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ABIZ 0460 and DAGR 0480. Pre- or corequisites: ABIZ 0470 and DAGR 0490.

DAGR 0610 Advanced Communication and Leadership 3 cr

A course designed to improve leadership potential and develop advanced communication skills for agricultural industry professionals.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: DAGR 0410.

DAGR 0630 Special Project 3 cr

This project allows a student to make practical application of scientific knowledge acquired and/or to intensify the study of a topic of particular interest. A satisfactory report is required to qualify for credit.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Consent of the Director of the School of Agriculture.

DAGR 0660 Special Topics in General Agriculture 3 cr

Selected topics of current interest in General Agriculture. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Written consent of Director of the School of Agriculture.

Mutually Exclusive: AGRI 2500, AGRI 2510, DAGR 0520, DAGR 0550

DAGR 0910 Integrated Sustainable Agri-Food Systems 3 cr

The agri-food system encompasses how food is being produced, processed, transported, marketed and consumed. The three pillars of sustainability (economic, social and environmental) will be used to evaluate and improve agricultural sustainability, and will also be applied to the agri-food system (beyond production). Sustainable solutions are unique to each agricultural situation and require long-term thinking and evidence-based decision-making. Focus will be on the balance between food production practices and protecting the natural resources on which agriculture is reliant. There will be a full-day field trip.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or corequisite: DAGR 0980.

DAGR 0920 Current Issues in Agriculture and Food 3 cr

The course will present current day and potential future issues facing Canada's agri-food sector. Students will be required to identify and optimize solutions to these issues, with a focus on the roles and responsibilities of farmers, other food producers and agri-food industry members. The impact of these issues on farms and the agri-food industry now and in the future will be emphasized as will the role farmers can play in in policy development in response to these issues. An opportunity for students to engage with several guest speakers from the agri-food community. There will be two or three full-day field trips. May not be held with DAGR 0690.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: DAGR 0980.

Mutually Exclusive: DAGR 0690

DAGR 0980 Farm Management Project 1 3 cr

Development of a comprehensive objectives-driven plan that deals with production and financial management. Students will be required to attend interview sessions outside of scheduled classes with an assigned Farm Management Advisor. The Advisor will support students as they apply their management skills and knowledge to a real farm business or a case farm. There will be two full-day field trips. Additionally, students must submit a satisfactory set of financial and production records for the farm they will be basing their project on by July 15th in order to enter DAGR 0980. May not be held with the former DAGR 0690.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ABIZ 0470 and DAGR 0490. Pre- or corequisite: ABIZ 0450.

Mutually Exclusive: DAGR 0690

DAGR 0990 Farm Management Project 2 3 cr

Refinement of a comprehensive objectives-driven plan that deals with production and financial management. Students will be required to attend interview sessions outside of scheduled classes with an assigned Farm Management Advisor. The Advisor will support students as they apply their management skills and knowledge to a real farm business or a case farm. Students will present and defend their plan to a panel composed of academics and industry representatives. May not be held with the former DAGR 0690.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: DAGR 0980.

Mutually Exclusive: DAGR 0690

Data Science (DATA)

DATA 2010 Tools and Techniques for Data Science 3 cr

(Lab Required) An introduction to the field of data science with an emphasis on the fundamental tools and techniques that underlie the field of data science.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [MATH 1240 or MATH 1241] and [one of MATH 1300, MATH 1301, or MATH 1220] and [one of MATH 1700, MATH 1701, MATH 1710, or MATH 1232]. Pre- or co-requisites: COMP 2140 and STAT 2150.

Attributes: Science

DATA 3010 Data Science with Real World Data Sets 3 cr

(Lab Required) This course will expose students to real-world data sets in the study of data science.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: DATA 2010.

Attributes: Science

DATA 4010 Data Science Capstone Project 6 cr

A project course where students apply the knowledge and skills acquired in earlier coursework to a substantial data science problem. It will enable the development of soft skills, and explicit consideration of important topics including Ethics, Communication, Data Privacy, Data Presentation and Insight Delivery, all of which are key elements for a training in Data Science, beyond the technical content. This course is restricted to Faculty of Science students in the Data Science Major or Major Co-op. Students are expected to take this course in their final year.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: DATA 3010 and permission of the instructor.

Attributes: Science

Dental Diagnostic and Surgical (DDSS)

DDSS 1100 Periodontology 1 1 cr

A pre-clinical laboratory and didactic course designed to (1) introduce students to periodontal examination procedures and to basic non-surgical periodontal therapy, (2) develop skills related to periodontal instrumentation and treatment, and (3) present fundamental concepts of periodontal anatomy, physiology and microbiology in health and disease. May not be held with DDSS 1020.

Mutually Exclusive: DDSS 1020

DDSS 1110 Radiology 1 1 cr

A series of lectures which introduces the student to: the elementary principles of dental radiology; radiation physics, radiation biology, imaging techniques, x-ray equipment and radiation protection. May not be held with DDSS 1140.

Mutually Exclusive: DDSS 1140

DDSS 2100 Periodontology2 2 cr

A basic didactic course with emphasis on (1) diagnosis, classification, treatment and prevention of different forms of plaque-induced periodontal diseases, (2) oral-systemic disease associations; (3) non-plaque induced gingival alterations, (4) periodontal treatment of medically compromised patients. May not be held with DDSS 2120.

Mutually Exclusive: DDSS 2120

DDSS 2110 Radiology 2 1 cr

A series of lectures in the theoretical and practical principles of radiographic interpretation of common oral pathologic conditions as well as selected examples of pathologic conditions exhibiting important radiographic principles. May not be held with DDSS 2180.

Mutually Exclusive: DDSS 2180

DDSS 2122 Oral Pathology 5 cr

A series of lectures emphasizing recognition, description, etiopathogenesis, clinical and/ or radiographic features, biologic behaviour, treatment and/or management of oral and paraoral conditions. May not be held with DDSS 2010.

Mutually Exclusive: DDSS 2010

DDSS 2130 Pain and Anxiety Control 1 1 cr

A series of lectures to introduce the student to: local anaesthetics, local anaesthesia techniques, avoidance and management of complications and selection of appropriate drugs and techniques. May not be held with DDSS 2020.

Mutually Exclusive: DDSS 2020

DDSS 3102 Periodontology 3 3 cr

This combined lecture and clinical course is designed to provide experience which will allow students to apply previous didactic learning to the clinical environment in the field of Periodontology. The classroom sessions provide description and discussion of periodontal treatment modalities and techniques, including non-surgical, surgical intervention, and implant treatment. Inter-relationships with other clinical disciplines also receive considerable attention. May not be held with the former DDSS 3220.

Mutually Exclusive: DDSS 3220

DDSS 3112 Oral Diagnosis and Radiology 1 2 cr

This course includes a lecture component covering history-taking, clinical examination, diagnosis and treatment of soft and hard tissue lesions, emergency treatment, dental treatment of patients with systemic disease, and clinical experience. May not be held with DDSS 3200.

Mutually Exclusive: DDSS 3200

DDSS 3120 Pain and Anxiety Control 2 1 cr

This course consists of lectures/seminars and clinical experience in: physiology of pain psychology of anxiety, management of medical emergencies, parenteral injections, and therapeutics of the various modalities of pain and anxiety control. May not be held with DDSS 3230.

Mutually Exclusive: DDSS 3230

DDSS 3132 ORAL AND MAXILL SURGERY 1 2 cr

This course consists of lectures, seminars and clinics, covering all aspects of oral and maxillofacial surgery with an emphasis on those procedures performed by the general practitioner. May not be held with DDSS 3210.

Mutually Exclusive: DDSS 3210

DDSS 3142 Medicine 2 cr

Lectures or seminars describing the basic mechanisms, symptoms, diagnosis and management of various disease processes included in internal medicine and their dental correlations. May not be held with DDSS 3030.

Mutually Exclusive: DDSS 3030

DDSS 3152 Temporomandibular Disorders and Orofacial Pain 2 cr

The course reviews the foundational clinical sciences in pain biology, and function of the masticatory muscles and TMJ. It discusses the contemporary classification, diagnosis and management of Temporomandibular disorders and related orofacial pain disorders. May not be held with DDSS 3190.

Mutually Exclusive: DDSS 3190

DDSS 3162 Pharmacology and Therapeutics 3 cr

A discussion of the basic pharmacodynamics, pharmacokinetics, mechanisms of actions, doses and adverse effects of therapeutic agents prescribed and administered by dentists. This will include antibiotics, analgesics, anxiolytics, anti-viral and anti-fungal agents. Subsequently drugs used in the management of systemic diseases will be discussed including mechanisms of actions and adverse effects, with particular focus on those which are dentally-related. May not be held with the former ORLB 3320 or the former ORLB 3060 or the former ORLB 3310.

Mutually Exclusive: ORLB 3060, ORLB 3310, ORLB 3320

DDSS 4112 Oral Diagnosis and Radiology 2 2 cr

(Formerly DDSS 4200) This clinical course is designed to give the student clinical experience with: treatment planning, diagnostic techniques, differential diagnosis, emergency treatment and non-surgical management related to oral pathologic conditions. May not be held with DDSS 4200.

Mutually Exclusive: DDSS 4200

DDSS 4122 Oral & Maxillofacial Surgery 2 1 cr

(Formerly DDSS 4210) This course consists of lectures, seminars and clinics covering all aspects of oral and maxillofacial surgery with an emphasis on those procedures performed by the general practitioner. May not be held with DDSS 4210.

Mutually Exclusive: DDSS 4210

DDSS 4150 Hospital Dentistry 1 cr

(Formerly DDSS 4130) This course is designed to provide the student with a familiarization with hospital protocol, reinforcement of understanding in medicine, surgery, pharmacology and therapeutics, the dental treatment of medically compromised patients at the Health Sciences Centre, and handicapped patients in other institutional settings. May not be held with DDSS 4130. Course evaluated on a pass/fail basis.

Mutually Exclusive: DDSS 4130

Dental Hygiene (HYGN)

HYGN 1232 Oral and Dental Anatomy 3 cr

This course consists of a self-study CD and laboratory work dealing with the normal development, morphology, structure, and functions of the dentition and related structures.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Corequisites: HYGN 1234 and HYGN 1236.

HYGN 1234 Preclinical Dental Hygiene 2 cr

This introductory course teaches the necessary dental hygiene skills in laboratory and preclinical settings. Students are introduced to foundational assessment and implementation skills necessary to begin client care at the novice level.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Corequisites: HYGN 1232 and HYGN 1236.

HYGN 1236 Dental Hygiene Theory and Practice I 4 cr

This introductory course provides the necessary foundational knowledge requisite for preclinical experience and early client care. It includes the theory and principles underlying the practice of dental hygiene based on the four phases of the Dental Hygiene Process of Care and the concept of Professionalism.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Corequisites: HYGN 1232 and HYGN 1234.

HYGN 1238 Dental Hygiene Clinical Practice I 3 cr

The course focus is on the cognitive, psychomotor and affective knowledge and skills requisite to the dental hygiene process of care. It includes the principles underlying the practice of dental hygiene and facilitates the development of a self-directed and self-aware professional.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: HYGN 1234 and HYGN 1236. Corequisite: HYGN 1242.

HYGN 1242 Dental Hygiene Theory and Practice II 4 cr

A continuation of foundational knowledge requisite for clinical care on less complicated clients that includes the theory and principles underlying the practice of dental hygiene based on the Dental Hygiene Process of Care.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: HYGN 1234 and HYGN 1236. Corequisite: HYGN 1238.

HYGN 1262 Dental Radiology 3 cr

An introduction to the production of x-rays, radiation biology, radiation protection, imaging materials, imaging techniques, recognition of radiographic landmarks and structures, and quality control of radiographs.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Corequisites: HYGN 1234 and HYGN 1238.

HYGN 1270 Biology of the Head and Neck 3 cr

Anatomy, physiology, histology and embryology of the head and neck.

HYGN 1280 Microbiology and Infectious Diseases 3 cr

A study of different types of microorganisms. Infectious diseases will be discussed in terms of reservoirs, transmission, pathogenesis, treatment and prevention. Emphasis will be given to common communicable diseases, the oral microflora and its role in disease and health.

HYGN 1292 Dental Hygiene Preclinical Restorative Techniques 2 cr

A study of the principles and techniques of restorative dentistry. Introduction information on restorative dentistry specialties.

HYGN 1320 Dental Materials 2 cr

A study of the properties of materials used in the oral environment for restorative, prosthetic, orthodontic and preventive purposes. Laboratory demonstrations and exercises are designed to demonstrate the correct preparation and handling of dental materials.

HYGN 1340 Communications 2 cr

This course provides an introduction to basic principles of communication in relation to everyday and professional interactions. The students are sensitized to the process of communication, its complexities and its related dynamics. Particular attention is given to enabling students to develop effective professional communication skills that have the potential to promote client compliance and harmonious working relationships.

Attributes: Written English Requirement

HYGN 1352 Community Health I 3 cr

An introductory, participatory course in community oral health promotion intended to inspire a sense of community responsibility in students as health professionals responding to community needs through classroom teaching, interviews and debates.

HYGN 1360 Periodontology I 2 cr

A study of the normal tissues of the periodontium, and an introduction to periodontal diseases, their etiology, epidemiology and treatment, especially as these relate to dental hygiene practice. A critical analysis of periodontal cases is included.

HYGN 2100 Dental Hygiene Portfolio 2 cr

This two credit hour course houses the evaluation component of the programmatic portfolio of student competencies that all students commence at enrolment and complete prior to graduation.

HYGN 2280 Pharmacology 2 cr

Drugs used in clinical practice; a general knowledge of drugs by groups with emphasis on agents such as local anesthetics, analgesics, and antibiotics used extensively in the practice of dentistry.

HYGN 2300 Pathology 3 cr

A study of the principles of general and oral pathology involving pathologic mechanisms, disorders of physiologic systems, and pathologic conditions and diseases affecting oral and para-oral structures.

HYGN 2312 Dental Hygiene Clinical Practice II 4 cr

This competency-based clinical course amalgamates theoretical knowledge and clinical skills in both general clinical and community based clinical settings. Students provide care to clients with moderate oral health needs. This course is evaluated on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: HYGN 1238 and HYGN 1242. Corequisite: HYGN 2314.

HYGN 2314 Dental Hygiene Theory and Practice III 4 cr

Learning, motivation, and behaviour modification theories are applied to oral health promotion. Dental hygiene care plans are developed using a human needs model and process of care. Ethics, jurisprudence and practice standards are discussed.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: HYGN 1238 and HYGN 1242. Corequisite: HYGN 2312.

HYGN 2316 Dental Hygiene Clinical Practice III 4 cr

This course advances the student's clinical dental hygiene skills to a level of minimal competency. Students provide dental hygiene care to clients with high oral health needs to facilitate their attainment of optimal oral health. This course is evaluated on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: HYGN 2312 and HYGN 2314. Corequisite: HYGN 2318.

HYGN 2318 Dental Hygiene Theory and Practice IV 5 cr

The oral health needs of persons with disabilities and the development of dental hygiene care plans to address those needs are discussed as well as issues of access to dental hygiene care, employment, quality assurance, and professional growth and development.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: HYGN 2312 and HYGN 2314. Corequisite: HYGN 2316.

HYGN 2340 Periodontology II 2 cr

Continuation of the study of etiology, diagnosis and treatment of periodontal disease.

HYGN 2350 Biology of Oral Tissues 2 cr

Consideration of physiology of the oral environment and its microflora in relation to health, dental caries and periodontal diseases.

HYGN 2362 Community Health II 3 cr

Student abilities to deliver community oral health education/promotion programs, with attention given to barriers and strategies used to meet the unique needs of target populations less likely to have optimal oral health are further developed.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: HYGN 1352.

HYGN 2370 Nutrition in Dentistry 2 cr

An examination of the fundamentals of nutrition and the relationship between nutrition and health within the context of the health professions. The focus is on nutritional strategies used to promote health and in the treatment of common health conditions. The primarily on-line content is followed up with a combination of oral health specific patient/clinical exercises for Dental Hygiene students. May not be held with HNSC 2170 or ORLB 2330, HNSC 2170, or the former ORLB 2150 or the former PHRM 2420.

Mutually Exclusive: HNSC 2170, ORLB 2150, ORLB 2330, PHRM 2420

HYGN 2380 Pain Management 2 cr

This course is designed to enhance the dental hygiene student's knowledge of the mechanisms of pain control through the administration of topical and local anesthetic agents. Emphasis will be placed on the pharmacology of dental anesthetic agents and their interaction with the client's current conditions and medications.

HYGN 4412 Dental Hygiene Practice Management and Leadership 3 cr

This course is designed to provide the student with the necessary knowledge and skills to facilitate the transition to the practice environment. The focus of the course is leadership, workplace dynamics, management, developing alternate practice settings and working with third party payers. Oral health care management in a variety of organizations such as community health agencies, private practice, research and industry will all be discussed.

HYGN 4460 Community Health Independent Study 3 cr

This course is a practicum and/or independent study course focusing on the design and/or implementation and evaluation of the health promotion program process in; the field. Students may choose to host an oral health awareness raising event for the public, provide community-based oral health promotion activity at a selected site, develop a small-scale oral health promotion program for an underserved population group or a similar community-based project.

HYGN 4470 Community Health Independent Study II 3 cr

This course is a continuation of HYGN 4460 (Community Health Independent Study) and provides a further opportunity for the student to build on the previous independent study course or focus on the design and/or implementation and evaluation of an additional health promotion program. In either case, students may choose from oral health awareness raising event for the public, community-based oral health promotion activity, small-scale oral health promotion programming or similar community oral health project.

HYGN 4492 Current Issues in Dental Hygiene 3 cr

This seminar course focuses on current topics concerning the profession of dental hygiene in Canada and Internationally. Exploration of global topics will enable the student to glean a broad view of the profession.

HYGN 4500 Advanced Oral Pathology 3 cr

A web-based CD-ROM distance education course designed to present the clinical and pathobiologic aspects of diseases that affect oral and maxillofacial tissues or present with significant oral manifestations of systemic diseases. This course is presented in conjunction with the University of Manitoba and the University of British Columbia.

HYGN 4510 Microbiology and Immunology 3 cr

This Web CT course is offered in conjunction with the University of British Columbia. Microbiological and immunological concepts that are the scientific basis for understanding human response in health and disease will be explored. This course builds on knowledge acquired from dental hygiene entry-to-practice level education and dental hygiene practice.

HYGN 4520 Advanced Independent Study I 3 cr

This course will enable the degree-completion student to explore issues or areas of interest in dental hygiene with the mentorship of a dental hygiene faculty member. Dependent upon the extent of the project, students may enroll in either three or six hours of study.

HYGN 4530 Teaching Practicum 3 cr

This course provides students with a seminar course in clinical teaching methodologies and the opportunity to practice teach within an undergraduate dental hygiene program under the supervision and mentorship of dental hygiene faculty members.

HYGN 4540 Advanced Teaching Practicum 3 cr

This course is a continuation of HYGN 4530 (Teaching Practicum) and provides the opportunity to extend the practice teaching experience into a second term, thus strengthening the individual's skills as a dental hygiene educator. This experience will occur under the supervision and mentorship of dental hygiene faculty members.

HYGN 4550 Advanced Independent Study II 3 cr

This course is a continuation of HYGN 4520 (Advanced Independent Study) and provides the opportunity for the student to pursue a more complex project which cannot be completed within the first course. Students will have selected their project topic in HYGN 4520 and will continue their exploration and write-up of this topic with the guidance of a dental hygiene faculty mentor.

Dentistry (DENT)

DENT 1202 Early Clinical Experience 3 cr

A series of lectures and clinical participation sessions designed to introduce the student to clinical dentistry and the relevance of basic science courses in the dental curriculum. May not be held with DENT 1010. Course evaluated on a pass/fail basis.

Mutually Exclusive: DENT 1010

DENT 1210 Dental Practice Management 1 1 cr

This course is an introduction to the Dental Practice Management curriculum which is distributed throughout the four year program. It comprises the modules on the Essentials of Effective Leadership and Strategic Leadership; Managing the Workplace and Conflict Resolution; Essentials of Interpersonal Communication Skills; and Team Building.

DENT 2202 Introduction to Comprehensive Care 4 cr

This course is an introduction to an integrated, patient-centered program with patient needs as the primary focus. The course introduces students to clinical protocol and patient record documentation and communication. Students receive experience in comprehensive treatment planning as well as basic treatments in periodontics, operative dentistry, and pain control. Course evaluated on a pass/fail basis. May not be held with DENT 2430.

Mutually Exclusive: DENT 2430

DENT 2440 IDDP ORIENTATN 6 cr

DENT 3210 Dental Practice Management 3 1 cr

This course is the third in a series of Dental Practice Management courses distributed throughout the four-year program. It comprises the modules on managerial decision-making and negotiations; operations management; self-assessment in practice; and effective management of patient and employees.

DENT 4202 Interdisciplinary Patient Centred Care Case Studies 2 cr

(Formerly DENT 4020) Lectures and development of portfolio case designed to enable the student to obtain, organize and critically evaluate information in order to facilitate treatment planning. May not be held with DENT 4020.

Mutually Exclusive: DENT 4020

DENT 4210 Dental Practice Management 4 2 cr

(Formerly RSTD 4170) The management, evaluation, economics, organization, design, location, selection and marketing of a dental practice are covered by lectures and seminars. In addition, ethical considerations of dental practice, the options available to new dental graduates and the role of professional associations are discussed. May not be held with RSTD 4170.

Mutually Exclusive: RSTD 4170

DENT 4222 General Practice Dentistry 10 cr

This course is designed to consolidate the theoretical and clinical building blocks of all previous dental courses into the development of a comprehensive dental care methodology. Clinical instruction and experience will facilitate the senior dental students in developing effective patient management tools and advance their technical skills to the level of a novice general dentist. May not be held with the former DENT 4030.

Mutually Exclusive: DENT 4030

DENT 4232 General Practice Seminars 2 cr

Topics relating to General Practice Dentistry are reviewed and reinforced in preparation for clinical practice and National Board Examinations. This course supports the General Practice Dentistry (DENT 4222) program with procedure reviews as needed. May not be held with DENT 4030.

Mutually Exclusive: DENT 4030

DENT 4240 Dental Jurisprudence 1 cr

(Formerly RSTD 4160) This course provides an overview of the Canadian legal system. It defines and discusses legal concepts relevant to dentistry including issues in negligence, contracts, confidentiality, business and human rights. Identifying a dentist's legal responsibilities to patients, peers, employees, profession and society will underlie the entire course. May not be held with RSTD 4160.

Mutually Exclusive: RSTD 4160

Economics (ECON)

ECON 1010 Introduction to Microeconomic Principles 3 cr

This course introduces students to the study of microeconomics. Topics include: demand and supply, price determination, market structure and resource allocation; the behaviour of consumers and firms; and market intervention by government. Selected economic topics are examined such as: welfare programs, environmental regulation, the economics of discrimination, pay equity, and taxation. Students may not hold credit for ECON 1010 and any of: ECON 1011 or ECON 1210 or ECON 1211 or ECON 1220 or ECON 1221 or the former ECON 1200 or the former ECON 1201.

Equiv To: ECON 1011

Mutually Exclusive: ECON 1200, ECON 1201, ECON 1210, ECON 1211, ECON 1220, ECON 1221

Attributes: Social Science, Recommended Intro Courses

ECON 1020 Introduction to Macroeconomic Principles 3 cr

This course introduces students to the study of macroeconomics. Topics include: aggregate performance and policy; the determinants of national income, employment and the price level, the role of monetary and fiscal policies in stabilizing the economy and promoting economic growth. Students may not hold credit for ECON 1020 and any of: ECON 1021 or ECON 1210 or ECON 1211 or ECON 1220 or ECON 1221 or the former ECON 1200 or the former ECON 1201.

Equiv To: ECON 1021

Mutually Exclusive: ECON 1200, ECON 1201, ECON 1210, ECON 1211, ECON 1220, ECON 1221

Attributes: Social Science, Recommended Intro Courses

ECON 1210 Introduction to Canadian Economic Issues and Policies 3 cr

A survey of some major principles underlying, and influences acting upon the Canadian economy and its regions. Students may not hold credit for ECON 1210 and any of: ECON 1211 or ECON 1010 or ECON 1011 or ECON 1020 or ECON 1021 or the former ECON 1200 or the former ECON 1201.

Equiv To: ECON 1211

Mutually Exclusive: ECON 1010, ECON 1011, ECON 1020, ECON 1021, ECON 1200, ECON 1201

Attributes: Social Science, Recommended Intro Courses

ECON 1220 Introduction to Global and Environmental Economic Issues and Policies 3 cr

A survey of some major principles and policies characterizing the world economy and the environment. Students may not hold credit for ECON 1220 and any of: ECON 1221 or ECON 1010 or ECON 1011 or ECON 1020 or ECON 1021 or the former ECON 1200 or the former ECON 1201.

Equiv To: ECON 1221

Mutually Exclusive: ECON 1010, ECON 1011, ECON 1020, ECON 1021, ECON 1200, ECON 1201

Attributes: Social Science, Recommended Intro Courses

ECON 2010 Microeconomic Theory 1 3 cr

This course builds on ECON 1010 to examine in greater detail microeconomic concepts of supply, demand, and industry structure. The course also includes the study of externalities, public goods, information asymmetries, and risk and uncertainty. Students may not hold credit for ECON 2010 and any of: ECON 2451, the former ECON 2450, or the former ECON 2700.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ECON 1010 or ECON 1011 or the former ECON 1200 or the former ECON 1201] or [a grade of "C" or better in both ECON 1210 (or ECON 1211) and ECON 1220 (or ECON 1221)].

Equiv To: ECON 2450, ECON 2451, ECON 2700

Attributes: Social Science

ECON 2020 Macroeconomic Theory 1 3 cr

A study of classical macroeconomic models of the determination of economic aggregates such as national income, consumption, investment, government spending, exports, imports, and economy-wide variables such as the interest rate, the foreign exchange rate, the price level and inflation, and the unemployment rate. The influence of fiscal and monetary policies on the aggregate economy is examined. Students may not hold credit for ECON 2020 and any of: ECON 2471, the former ECON 2470, or the former ECON 2800.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ECON 1020 or ECON 1021 or the former ECON 1200 or the former ECON 1201] or [a grade of "C" or better in both ECON 1210 (or ECON 1211) and ECON 1220 (or ECON 1221)].

Equiv To: ECON 2470, ECON 2471, ECON 2800

Attributes: Social Science

ECON 2030 Mathematical Economics 1 3 cr

Introduction to mathematical methods used in economic analysis including differentiation, matrix algebra, comparative statics, and optimization. Students may not hold credit for both ECON 2030 and the former ECON 2530.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of 1000 level Economics] and [a grade of "C" or better in MATH 1230 or MATH 1500 or MATH 1501 or MATH 1520].

Equiv To: ECON 2530

Attributes: Social Science

ECON 2040 Quantitative Methods in Economics 3 cr

An introduction to statistical methods relevant to Economics, which include: descriptive statistics; probability and probability distributions; hypothesis testing; and ordinary least squares regression. The use of contemporary econometric software is required. Students may not hold credit for both ECON 2040 and the former ECON 3170.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six credit hours of 1000 level Economics.

Equiv To: ECON 3170

Attributes: Mathematics Requirement, Social Science

ECON 2050 Economic Analytics Using Computer-based Methods 3 cr

This computer-based course will introduce basic economic analytics such as index numbers, cost-revenue-profit relationships, demand/supply dynamics, decision-making using probability models, investment decisions, time-value of money, seasonal adjustment of data, forecasting, measures of poverty/inequality, and optimization methods such as linear programming. Students will also gain proficiency in numerical computation such as Excel, an important analytical tool used in business, government, and academic research for managing and analyzing data. Students may not hold credit for both ECON 2050 and the former ECON 2610 when titled "Measurement and Computation in Economics."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six credit hours of 1000 level Economics.

Mutually Exclusive: ECON 2610

Attributes: Social Science

ECON 2310 Canadian Economic Problems 6 cr

Application of economic theory to a broad range of problems such as agriculture, trade, foreign ownership, regional disparities, competition policy, education. Students may not hold credit for both ECON 2310 and ECON 2311.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six credit hours of 1000 level Economics.

Equiv To: ECON 2311

Attributes: Social Science

ECON 2350 Community Economic Development 3 cr

A study of the economic development problems of northern and native communities in Manitoba. Students may not hold credit for ECON 2350 and any of: NATV 3120 or the former NATV 4310.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: none.

Mutually Exclusive: NATV 3120, NATV 4310

Attributes: Social Science

ECON 2362 Economics of Gender 3 cr

This course will use both neo-classical and feminist economic theory to explore how gender differences may lead to different economic outcomes for men and women, both within families and in the marketplace. Topics covered may include gender aspects of production (both inside and outside the household), leisure, marriage and divorce, fertility, childcare, education, migration, aging and development. Students may not hold credit for both ECON 2362 and the former ECON 2360.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in ECON 1010 or ECON 1011 or ECON 1210 or ECON 1211 or the former ECON 1200 or the former ECON 1201.

Mutually Exclusive: ECON 2360

Attributes: Social Science

ECON 2390 Introduction to Environmental Economics 3 cr

The economics of management of water, air and land resource quality, and the economics of conservation. The economic implications of environmental standards, licensing, criteria and pollution charges will be illustrated by current issues. Students may not hold credit for both ECON 2390 and ABIZ 2390.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ECON 1010 or ECON 1011 or the former ECON 1200 or the former ECON 1201] or [a grade of "C" or better in both ECON 1210 (or ECON 1211) and ECON 1220 (or ECON 1221)].

Equiv To: ABIZ 2390

Attributes: Social Science

ECON 2400 Introduction to Energy Economics 3 cr

A study of the economic relationships in energy production, consumption, demand and supply, pricing and conservation, energy policy and the development of new and renewable energy sources.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six credit hours of 1000 level Economics.

Attributes: Social Science

ECON 2410 The Manitoba Economy 3 cr

Application of economic theory to the historical development and present structure of the provincial economy.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: none.

Attributes: Social Science

ECON 2510 The Economy of Ukraine 3 cr

A study of the Ukrainian economy in Eastern Europe: socioeconomic history, state and structure of the Ukrainian economy within the former Soviet Union, prospects and problems of economic restructuring.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: none.

Attributes: Social Science

ECON 2520 Economics of Sports and Leisure 3 cr

Economic analysis of current issues in professional and amateur sports, and leisure.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: none.

Attributes: Social Science

ECON 2540 Political Economy 1: Production and Distribution 3 cr

A study of the theories, institutions, policies and relations of power in national and global economic society with reference to the production of market and non-market goods and services and the distribution of necessary and surplus output. Particular attention will be given to the role of the state in the regulation of markets and the distribution of surplus.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six credit hours of 1000 level Economics.

Attributes: Social Science

ECON 2550 Political Economy 2: Economic Growth and Fluctuations in a Global Economic Environment 3 cr

A study of the theories, institutions, policies and relations of power in national and global economic society with reference to economic growth, international trade and finance, economic fluctuations, inflation and unemployment. Particular attention will be given to the role of the state in the regulations of macroeconomic activity.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six credit hours of 1000 level Economics.

Attributes: Social Science

ECON 2610 Special Topics in Economics 3 cr

This course will vary from year to year depending on the needs of students and the interests and availability of instructors. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of 1000 level Economics] or written consent of instructor.

Mutually Exclusive: ECON 2050, ECON 2670

Attributes: Social Science

ECON 2620 Special Topics in Economics 6 cr

This course will vary from year to year depending on the needs of students and the interests and availability of instructors. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of 1000 level Economics] or written consent of instructor.

Attributes: Social Science

ECON 2630 An Introduction to the World's Economies 6 cr

An examination of the world's economies from a broad-based economics perspective (including economic theories, institutional perspectives and historical evidence) to explain the development and limits of the world's changing and differing economies, and economic growth patterns in the light of the private business sector, labour relations and the role of the state. Students may not hold credit for both ECON 2630 and ECON 2620 Special Topics in Economics when titled Introduction to the World's Economies.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six credit hours of 1000 level Economics.

Attributes: Social Science

ECON 2670 Income Distribution 3 cr

An introduction to how income, and its accumulation as wealth, is distributed between individuals, as well as between classes of economic actors. Measures of income inequality, wealth and poverty are introduced. Empirical data and theories aimed at explaining the distribution of income and broad trends that have emerged over time are reviewed.

Redistributive policies undertaken by governments and various normative approaches to the economic analysis of income inequality are also examined, with an emphasis on modern policy options and challenges. Students may not hold credit for both ECON 2670 and ECON 2610 when offered with the topic "Income Distribution".

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of 1000 level Economics] or written consent of instructor.

Mutually Exclusive: ECON 2610

Attributes: Social Science

ECON 3010 Microeconomic Theory 2 3 cr

This course uses basic calculus and optimization techniques to study consumer and firm behaviour, demand and supply theory, monopoly, monopolistic competition, oligopoly, and the Edgeworth Box analysis of an exchange economy. Students may not hold credit for ECON 3010 and any of: ECON 2461, the former ECON 2460, or the former ECON 3700.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C+" or better in ECON 2010 or ECON 2451 or the former ECON 2450 or the former ECON 2700] and [a grade of "C" or better in MATH 1230 or MATH 1500 or MATH 1501 or MATH 1520].

Equiv To: ECON 2460, ECON 2461, ECON 3700

Attributes: Social Science

ECON 3020 Macroeconomic Theory 2 3 cr

Theories of national income, employment, inflation, balance of payments, stabilization policy, and economic growth within the framework of macroeconomic models of an open economy with particular attention to empirical evidence from Canada, the U.S., and other countries. This course requires the use of calculus. Students may not hold credit for ECON 3020 and any of: ECON 2481, the former ECON 2480, or the former ECON 3800.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C+" or better in ECON 2020 or ECON 2471 or the former ECON 2470 or the former ECON 2800] and [a grade of "C" or better in MATH 1230 or MATH 1500 or MATH 1501 or MATH 1520].

Equiv To: ECON 2480, ECON 2481, ECON 3800

Attributes: Social Science

ECON 3030 Mathematical Economics 2 3 cr

Mathematical methods used in economic analysis. Topics will include optimization with constraints, exponential and logarithmic functions, integrals, dynamic analysis, basic differential equations, and Hamiltonians. Students may not hold credit for both ECON 3030 and the former ECON 3730.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ECON 2030 or the former ECON 2530] or written consent of instructor.

Equiv To: ECON 3730

Attributes: Social Science

ECON 3040 Introduction to Econometrics 3 cr

This course builds on ECON 2040 by introducing: multivariate ordinary least squares regression using matrices; heteroscedasticity; and autocorrelation. Additional topics may include: instrumental variables; binary choice models; and panel data models. Students may not hold credit for ECON 3040 and either ABIZ 3080 or the former ECON 3180.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C+" or better in ECON 2040 or the former ECON 3170] or [a grade of "C" or better in six credit hours of 1000 level Economics and STAT 2000 or STAT 2001].

Equiv To: ABIZ 3080, ECON 3180

Attributes: Social Science

ECON 3160 Managerial Economics 3 cr

An introduction to the economic foundations of managerial decision making, which includes pricing strategies, boundaries of the firm, investment in human capital, and incentive contract design. Also offered by Management as GMGT 3160. May not be held with GMGT 3160.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in both ECON 1010 (or ECON 1011) and ECON 1020 (or ECON 1021), or the former ECON 1200, or the former ECON 1201] and [a grade of "C" or better in MATH 1230 or MATH 1500 (or MATH 1501) or MATH 1510 or MATH 1520].

Equiv To: GMGT 3160

Attributes: Social Science

ECON 3362 Labour Economics 1 3 cr

An introduction to labour economics, including labour supply, labour demand and the determination of wages and employment. Students may not hold credit for both ECON 3362 and the former ECON 3360.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in ECON 2010 or ECON 2451 or the former ECON 2450 or the former ECON 2700.

Mutually Exclusive: ECON 3360

Attributes: Social Science

ECON 3364 Labour Economics 2 3 cr

Analysis of topics in labour economics such as unemployment, immigration, gender discrimination and the impact of unions. Students may not hold credit for both ECON 3364 and the former ECON 3360.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in ECON 3362.

Mutually Exclusive: ECON 3360

Attributes: Social Science

ECON 3374 Public Expenditure Analysis and Policy Evaluation 3 cr

The study of the role of government in the economy, government budget and expenditure evaluation issues, benefit-cost analysis, as well as government intervention regulation, public pricing, and ownership issues. Students may not hold credit for both ECON 3374 and the former ECON 3370.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in ECON 2010 or ECON 2451 or the former ECON 2450 or the former ECON 2700.

Mutually Exclusive: ECON 3370

Attributes: Social Science

ECON 3376 Taxation, Tax Policy and Inter-government Public Finance Issues 3 cr

A study of the principles of taxation, tax policy in Canada and elsewhere, government deficit and debt issues and fiscal federalism with emphasis on inter-governmental finance issues. Students may not hold credit for both ECON 3376 and the former ECON 3370.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in ECON 2010 or ECON 2451 or the former ECON 2450 or the former ECON 2700.

Mutually Exclusive: ECON 3370

Attributes: Social Science

ECON 3392 An Introduction to Development Economics 3 cr

The definition and major challenges of development and an introduction to theories of growth and development. Students may not hold credit for both ECON 3392 and the former ECON 3390.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ECON 2010 or ECON 2451 or the former ECON 2450 or the former ECON 2700] and [a grade of "C" or better in ECON 2020 or ECON 2471 or the former ECON 2470 or the former ECON 2800] or written consent of instructor.

Mutually Exclusive: ECON 3390

Attributes: Social Science

ECON 3394 Development Economics: Problems and Policies 3 cr

Processes and problems of development policies to accelerate change. Economic relations between developed and developing regions. Students may not hold credit for both ECON 3394 and the former ECON 3390.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ECON 2010 or ECON 2451 or the former ECON 2450 or the former ECON 2700] and [a grade of "C" or better in ECON 2020 or ECON 2471 or the former ECON 2470 or the former ECON 2800] and [a grade of "C" or better in ECON 3392 or ECON 2630] or written consent of instructor.

Mutually Exclusive: ECON 3390

Attributes: Social Science

ECON 3610 Special Studies 3 cr

This reading course will vary from year to year depending on the needs of students and the interests of instructors. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

Attributes: Social Science

ECON 3620 Special Studies 6 cr

This reading course will vary from year to year depending on the needs of students and the interests of instructors. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

Attributes: Social Science

ECON 3640 Economics of the Financial System 3 cr

Flows of funds through the financial system; savings and investment and asset choices of households and firms; intermediation by financial institutions; arbitrage between and within countries, government financial policy, with special reference to Canada. Students may not hold credit for ECON 3640 and any of: ECON 3641 or FIN 3460.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in one of: ECON 2010 or ECON 2451 or ECON 3010 or ECON 2461 or the former ECON 2450 or the former ECON 2460 or the former ECON 2700 or the former ECON 3700.

Equiv To: ECON 3641

Mutually Exclusive: FIN 3460

Attributes: Social Science

ECON 3650 Monetary Macroeconomics and Policy 3 cr

Demand for and supply of money; term structure of interest rates; tools of central banking; design and conduct of monetary policy. Students may not hold credit for both ECON 3650 and ECON 3651.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in one of: ECON 2020 or ECON 2471 or ECON 3020 or ECON 2481 or the former ECON 2470 or the former ECON 2480 or the former ECON 2800 or the former ECON 3800.

Equiv To: ECON 3651

Attributes: Social Science

ECON 3670 International Trade 3 cr

A study of the theory of international trade and modern trade issues including the effect of economic integration on growth, distribution, national policy and the environment.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in one of: ECON 2010 or ECON 2451 or the former ECON 2450 or the former ECON 2700. ECON 3010 or ECON 2461 or the former ECON 2460 is recommended.

Attributes: Social Science

ECON 3680 International Finance 3 cr

A study of the theory of international financial markets and issues in open economy macroeconomics focusing on the balance of payments, exchange rates and the effects of international financial integration on national economies.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in one of: ECON 2020 or ECON 2471 or the former ECON 2470 or the former ECON 2800. ECON 3020 or ECON 2481 or the former ECON 2480 is recommended.

Attributes: Social Science

ECON 3690 Economic Issues of Health Policy 3 cr

The structure, functioning and financing of the Canadian health care delivery system and the demand for health care in Canada.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six credit hours of 1000 level Economics.

Attributes: Social Science

ECON 3692 Economic Determinants of Health 3 cr

The objective of this course is to provide an economics perspective on the epidemiological transition from infectious to chronic disease. This course will contrast the biomedical, consumer choice and political economy approaches and their policy implications.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in ECON 1010 or ECON 1011 or ECON 1210 or ECON 1211 or the former ECON 1200 or the former ECON 1201.

Attributes: Social Science

ECON 3710 Sustainable Development: Issues and Policy 3 cr

An examination of the theory and practice of economic sustainability, ecological sustainability, and social sustainability, with emphasis on analysing current issues and designing policies to achieve sustainable development.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six credit hours of 1000 level Economics.

Attributes: Social Science

ECON 3720 Urban and Regional Economics and Policies 3 cr

An introduction to the study of the determinants of the spatial distribution of economic activity among urban centres and regions. Particular attention will be paid to such contemporary Canadian problems as regional disparities, urban and environmental decay, and urban renewal, and the policy issues involved in dealing with these problems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in ECON 2010 or ECON 2451 or the former ECON 2450 or the former ECON 2700.

Attributes: Social Science

ECON 3742 Industrial Organization and Firm Strategy 3 cr

Market structure and firms' strategic decisions will be analyzed. Topics may cover monopoly pricing strategies such as price discrimination; non-pricing strategies such as advertising, quality decisions and differentiated products; dynamic oligopoly models; mergers; anti-competitive behaviour; and auctions. This course assumes students have a sound background in economic theory, as well as single-variable calculus and basic statistics. Students may not hold credit for both ECON 3742 and the former ECON 3740.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ECON 2010 or ECON 2451 or the former ECON 2450 or the former ECON 2700] or written consent of instructor.

Mutually Exclusive: ECON 3740

Attributes: Social Science

ECON 3810 Alternative Approaches to Macroeconomic Analysis 3 cr

A survey of Post-Keynesian, Cambridge, Marxian, and institutionalist approaches to macroeconomic fluctuations, contrasting their theoretical and policy frameworks with those of mainstream macroeconomics.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C+" or better in ECON 2020 or ECON 2471 or the former ECON 2470 or the former ECON 2800.

Attributes: Social Science

ECON 4010 Advanced Microeconomic Theory 3 cr

An intensive study of advanced microeconomic analysis using optimization techniques involving multivariate calculus. Topics will include consumer theory, producer theory, general equilibrium, intertemporal choice, risk and insurance markets, and asymmetric information (moral hazard and adverse selection).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "B" or better in ECON 3010 or ECON 2461 or the former ECON 2460 or the former ECON 3700.

Attributes: Social Science

ECON 4012 Topics in Advanced Microeconomic Theory 3 cr

An intensive review of selected topics in advanced microeconomic theory.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "B" or better in ECON 3010 or ECON 2461 or the former ECON 2460 or the former ECON 3700. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Attributes: Social Science

ECON 4020 Topics in Advanced Macroeconomic Theory 3 cr

An intensive review of selected topics in advanced macroeconomic theory. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "B" or better in ECON 3020 or ECON 2481 or the former ECON 2480 or the former ECON 3800.

Attributes: Social Science

ECON 4040 Seminar in Applied Econometrics 3 cr

An applied course with a research component that incorporates real-world data and contemporary econometric software with an emphasis on the application of econometrics to a range of microeconomic and macroeconomic problems. Topics may include: endogeneity; instrumental variables; generalized method of moments; generalized least squares; limited dependent variable models; univariate and multivariate time series models; and panel data models. Students may not hold credit for ECON 4040 and any of: ABIZ 4120 or the former ECON 4120.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C+" or better in ECON 3040 or the former ECON 3180.

Equiv To: ABIZ 4120, ECON 4120

Attributes: Social Science

ECON 4042 Topics in Econometrics 3 cr

This is a theoretical course that addresses more advanced econometric topics with the intent of preparing students for graduate-level studies in econometrics. Standard topics will be examined in more depth. Students may not hold credit for both ECON 4042 and the former ECON 4130.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C+" or better in ECON 3040 or the former ECON 3180.

Equiv To: ECON 4130

Attributes: Social Science

ECON 4050 History of Economic Thought 1 3 cr

A seminar course on the history of economic thought up to 1870.

Attention is given to the evolution and significance of major theoretical concepts and approaches, the people who developed them and the attendant social, intellectual and economic context. Students may not hold credit for both ECON 4050 and the former ECON 4410.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

Mutually Exclusive: ECON 4410

Attributes: Social Science

ECON 4052 History of Economic Thought 2 3 cr

A seminar course on the history of economic thought since 1870.

Attention is given to the evolution and significance of major theoretical concepts and approaches, the people who developed them, and the attendant social, intellectual and economic context. Students may not hold credit for both ECON 4052 and the former ECON 4410.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in ECON 4050.

Mutually Exclusive: ECON 4410

Attributes: Social Science

ECON 4140 Evaluation of Economic Policy and Programs 3 cr

This is a course in applied micro-economic policy analysis using the techniques of cost-benefit analysis as its foundation. Students will learn the welfare foundations of cost-benefit analysis, techniques for decision-making under conditions of risk and uncertainty, and how these techniques may be applied to public policy. The course will include examples from all areas of public policy, including health, education, social services criminal justice, etc.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

Attributes: Social Science

ECON 4430 Theories of Economic Development 6 cr

A study of theories, problems, and policies of economic growth and development both for advanced and underdeveloped countries.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor. ECON 2020 (or the former ECON 2800) and ECON 3020 (or the former ECON 3800) are recommended but not required.

Attributes: Social Science

ECON 4490 Special Studies 3 cr

This readings course will vary from year to year depending on the needs of students and the interests of instructors. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

Attributes: Social Science

ECON 4500 Special Studies 6 cr

This readings course will vary from year to year depending on the needs of students and interests of instructors. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

Attributes: Social Science

ECON 4610 Economics and Society Field Placement Seminar 3 cr

A seminar to be taken concurrently with ECON 4620 in which each student will relate theory and practice. This course is also offered as GPE 4510 and LABR 4510. Students may not hold credit for ECON 4610 and either GPE 4510 or LABR 4510. Intended for students in the Economics Single Advanced Major (Economics and Society Stream) or Honours (Economics and Society Stream).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of the Associate Head (Economics and Society Stream). Corequisite: ECON 4620.

Equiv To: GPE 4510, LABR 4510

Attributes: Social Science

ECON 4620 Economics and Society Field Placement 6 cr

An educationally directed field experience in which the student will undertake specific tasks and assignments in some aspects of Community Economic Development and/or economic policy. Field placement options include community-based organizations, government departments and agencies, policy and research organizations, unions, and other employers. This course is also offered as GPE 4520 and LABR 4520. Students may not hold credit for ECON 4620 and either GPE 4520 or LABR 4520. Intended for students in the Economics Single Advanced Major (Economics and Society Stream) or Honours (Economics and Society Stream).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of the Associate Head (Economics and Society Stream). Corequisite: ECON 4610.

Equiv To: GPE 4520, LABR 4520

Attributes: Social Science

ECON 4820 Workshop on Canadian Economic Policy 6 cr

In depth examination of policy issues on selected topics such as unemployment, inflation, international trade, transfer payments, health care, the environment. A major research paper will be expected of all students. Registration is restricted to students who have formally declared an Advanced Major in Economics or Honours Economics. Students may not hold credit for ECON 4820 and any of: ECON 4822 or the former ECON 4830.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in each of ECON 2040 (or the former ECON 3170) and ECON 3040 (or the former ECON 3180)] and [a grade of "C" or better in ECON 2010 (or ECON 2451 or the former ECON 2450 or the former ECON 2700)] and [a grade of "C" or better in ECON 3010 (or ECON 2461 or the former ECON 2460 or the former ECON 3700)] and [a grade of "C" or better in ECON 2020 (or ECON 2471 or the former ECON 2470 or the former ECON 2800)] and [a grade of "C" or better in ECON 3020 (or ECON 2481 or the former ECON 2480 or the former ECON 3800)].

Equiv To: ECON 4830

Attributes: Social Science

ECON 4822 Economic Research and Communication 6 cr

This is the capstone course for students in their final year of the B.A. (Adv.) major in Economics. The aim of this course is to develop some of the research, analytical, and writing skills that will allow students to utilize knowledge and quantitative skills acquired in previous economics courses. Registration is restricted to students who have formally declared an Advanced Major in Economics or Honours Economics. Students may not hold credit for ECON 4822 and any of: ECON 4820 or the former ECON 4830.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in each of ECON 2040 (or the former ECON 3170) and ECON 3040 (or the former ECON 3180)] and [a grade of "C" or better in ECON 2010 (or ECON 2451 or the former ECON 2450 or the former ECON 2700)] and [a grade of "C" or better in ECON 3010 (or ECON 2461 or the former ECON 2460 or the former ECON 3700)] and [a grade of "C" or better in ECON 2020 (or ECON 2471 or the former ECON 2470 or the former ECON 2800)] and [a grade of "C" or better in ECON 3020 (or ECON 2481 or the former ECON 2480 or the former ECON 3800)].

Equiv To: ECON 4820, ECON 4830

Attributes: Social Science

Education Admin, Fndns & Psych (EDUA)

EDUA 1560 Adult Learning and Development 3 cr

A study of the extensive knowledge of lifespan development and its importance for adult education practitioners. With a focus on development, learning and change, emphasis is placed on the importance of context and individual differences in adult learning.

EDUA 1570 Foundations of Adult Education 3 cr

An introduction to the field of Education from a local and global perspective. Attention will be given to historical movements in adult education, philosophical perspectives, participation and motivation, transformative perspectives on adult learning, and current and future perspectives on adult education. Not to be held with EDUA 5300.

Equiv To: EDUA 5300

EDUA 1580 Program Planning in Adult Education 3 cr

An introduction to the theory and practice of program planning in adult education. Attention is given to the context in which learning is to take place, the structuring of adult learning opportunities, and the logistics of successful programming.

EDUA 1590 Facilitating Adult Education 3 cr

A study of theoretical and practical aspects of facilitation in adult education.

EDUA 3000 Canadian School Systems and Their Public Purposes 3 cr

The purpose of the course is to explore with teacher candidates the ways in which schooling and teachers work is shaped by, and shapes, particular administrative, social, political, economic, historical, legal, organizational, and professional contexts. May not be held with EDUA 2810.

Equiv To: EDUA 2810

EDUA 3002 Contested Spaces in Education 3 cr

An examination of educational ideas and practices that are often contested in the context of a diverse society. The course also focuses on understanding schooling through historical, philosophical, sociological, and cross-cultural perspectives. May not be held with EDUA 1810.

Equiv To: EDUA 1810

EDUA 3404 Indigenous Education 3 cr

A study of fundamental issues, philosophies, and models of Indigenous education. Within a multi-modal and interactive setting, cultural, spiritual, social, and political perspectives regarding Indigenous education will be critically explored. May not be held with the former EDUA 1500 or the former EDUA 3400.

Equiv To: EDUA 1500, EDUA 3400

EDUA 3420 Cross-Cultural Education 3 cr

Theory and practical applications related to understanding the complexities of culture, race, ethnicity, social inequality in classrooms, focusing on Aboriginal groups, immigration, and the needs of students in culturally diverse classrooms. May not be held with EDUA 1540.

Equiv To: EDUA 1540

EDUA 3500 Recent Developments in Educational Administration and Foundations 3 cr

Topics will vary depending on the needs and interests of students, and will include specialized topics in educational administration and foundations.

EDUA 3502 Recent Developments in Educational Psychology 3 cr

Topics will vary depending on the needs and interested of teacher candidates, and will include specialized topics in educational psychology not studied in regular program courses.

EDUA 3506 Foundations of Moral and Religious Education 3 cr

Examination of the theory and practice of moral and religious education, including curricular and pedagogical issues in both humanistic and religious perspectives. May not be held with EDUA 1510.

Equiv To: EDUA 1510

EDUA 3508 Measurement and Evaluation 3 cr

Theory and practical applications are stressed in the preparation, use, and interpretation of various approaches to assessing student learning. May not be held with EDUA 1502.

Equiv To: EDUA 1502

EDUA 3510 Communication and Interpersonal Relationships in Education 3 cr

The purpose of this course is to help teacher candidates increase their awareness, understanding and proficiency in communication and interpersonal relationships. Emphasis in this course is on the integration of theory, research and practice in the areas of communication and interpersonal relationships in schools. May not be held with EDUA 1550.

Equiv To: EDUA 1550

EDUA 4000 Inclusive Education 3 cr

An examination of concepts and issues related to meeting the diverse needs of all students, including methods and resources that respond to diversity in classrooms and schools. May not be held with EDUA 2800.

Equiv To: EDUA 2800

EDUA 5010 Introduction to Educational Administration 3 cr

A study of the basic concepts, tasks and processes of administration as they apply to education. Not to be held with EDUA 5011.

Equiv To: EDUA 5011

EDUA 5012 Legal and Administrative Aspects of Schools for Clinicians 3 cr

This course will involve an examination of the form, functioning and organizational aspects of schooling through the lenses of legislation, policy, and public expectations. Students will gain an understanding of The Public Schools Act and The Education Administration Act (and associated Regulations), as well as other pertinent statutes, and their individual and collective application to, and impact upon, the work of school personnel in Manitoba. May not be held for credit with EDUA 5080 where title is "Legal and Administrative Aspects of Schools for Clinicians".

Mutually Exclusive: EDUA 5080

EDUA 5014 Educational Leadership 3 cr

This course focuses on the concept of educational leadership and its relevance to the organization of schooling (primarily public schooling) in Manitoba and the lives of those people (students, teachers, parents, administrators etc.) most closely associated with school. May not be held with EDUA 5080 when titled "Educational Leadership".

Mutually Exclusive: EDUA 5080

EDUA 5020 Principles of Curriculum Development 3 cr

An examination of approaches to curriculum design. Influences on the design process, and aspects of implementation. Emphasis is given to teacher participation in creating curriculum. Not to be held with EDUA 5021.

Equiv To: EDUA 5021

EDUA 5030 Management of Educational Institutions 3 cr

A study of basic patterns of organization and the administrator's role in educational institutions. The focus is on decision making, communicating, planning and evaluating in educational institutions. Not to be held with EDUA 5031.

Equiv To: EDUA 5031

EDUA 5040 Personnel Administration in Education 3 cr

An examination of the administrator's relationships with other personnel in education, with emphasis on personnel policy, staff development and motivation. Not to be held with EDUA 5041.

Equiv To: EDUA 5041

EDUA 5060 Principles of Instructional Supervision 3 cr

An analysis of theoretical models of instruction and supervision and their application in education. Not to be held with EDUA 5061.

Equiv To: EDUA 5061

EDUA 5080 Recent Developments in Educational Administration 1 3 cr

An opportunity to examine the theoretical bases for, and application of, recent or emerging developments in educational administration.

Mutually Exclusive: EDUA 5012, EDUA 5014, EDUA 5302

EDUA 5090 Recent Developments in Educational Administration 2 3 cr

A continuation of certain topics of EDUA 5080 to extend and develop studies previously undertaken in these areas.

EDUA 5100 Issues in the Administration of Education 3 cr

An analysis of issues in the administration of educational organizations. Not to be held with EDUA 5101.

Equiv To: EDUA 5101

EDUA 5200 Readings in Educational Foundations 3 cr

Readings and research in selected areas of the study of education.

EDUA 5210 Recent Developments in Educational Foundations 1 3 cr

An opportunity to examine the theoretical bases for, and application of, recent or emerging developments in educational foundations.

EDUA 5230 Studies in International Education 3 cr

An examination of educational issues and practices in other countries, especially those of the third world. Emphasis will be given to teaching and administration in developing countries.

EDUA 5302 Gender and Sexual Diversity in Education and Community 3 cr

This course explores the various historical, political, and social struggles facing lesbian, gay, bisexual, trans*, two-spirit, and queer (LGBTQ) people in educational contexts and their communities. The course explores LGBTQ experiences with, and concerns relating to, policy, curriculum, administration, school experience, support, pedagogy, and community organizations. Students in this course will learn strategies for making their learning environments more inclusive of gender and sexuality diversity. May not be held with EDUA 5080 when titled "LGBTQ Issues in Education & Community" or "Gender and Sexual Diversity in Education and Community."

Mutually Exclusive: EDUA 5080

EDUA 5480 Counselling Skills 3 cr

Emphasis will be on the development of counselling skills such as attending and listening, reflection of content and feelings, feedback and self-disclosure, focusing and summarization. This course is evaluated on a pass/fail basis. May not be held with EDUA 5481. While students from other departments including Psychology and Social Work can enrol in this course, priority will be given to Education students.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite or co-requisite: EDUA 5500 or EDUA 5501.

Equiv To: EDUA 5481

EDUA 5490 Field Placement in Counselling 3 cr

A field-based counselling situation for students to apply counselling skills under qualified professionals in the field, and supported by university instructors. This course is evaluated on a pass/fail basis. Enrolment limited. Not to be held with EDUA 5491.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite or co-requisite: [EDUA 5500 or EDUA 5501 (C)] and [EDUA 5480 or EDUA 5481 (P)].

Equiv To: EDUA 5491

EDUA 5500 Theories and Issues in Counselling 3 cr

A study of the philosophy and theories of counselling, issues in school and community-based settings. May not be held with EDUA 5501.

Equiv To: EDUA 5501

EDUA 5510 Elementary School Counselling 3 cr

An examination of the role and functions of the counsellor in the elementary school. Not to be held with EDUA 5511.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite or co-requisite: EDUA 5500 or EDUA 5501 (C).

Equiv To: EDUA 5511

EDUA 5520 Ethics in Counselling 3 cr

In this course, participants will be introduced to the Codes of Ethics for counsellors. Major ethical issues related to the following topics will be discussed: informed consent, confidentiality, record-keeping, boundary issues, training and competence, clinical supervision and multicultural and diversity issues. Participants will get an opportunity to practice various ethical decision-making models.

EDUA 5530 Secondary School Counselling 3 cr

A study of counselling as related to secondary-school practice. Emphasis on the secondary-school counsellor's role and functions. Examination of the various counsellor services: educational, orientation, staff, etc. Not to be held with EDUA 5531.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite or co-requisite: EDUA 5500 or EDUA 5501 (C).

Equiv To: EDUA 5531

EDUA 5540 Group Counselling 3 cr

A study of groups, group leadership and related skill development, especially as related to a counsellor's functioning in the schools and community-based settings. May not to be held with EDUA 5541.

Equiv To: EDUA 5541

EDUA 5550 Psychology of Human Relationships 3 cr

A study of interpersonal relationships. A laboratory approach is used to increase the personal sensitivity of the participants to people. Particularly suitable for teachers, school administrators, and other professionals. Not to be held with EDUA 5551.

Equiv To: EDUA 5551

EDUA 5570 Family Life Education 3 cr

A study of human sexuality and family relationships. Consideration is given to research findings, teaching resources and the methods, development, and cooperation with home and community. Not to be held with EDUA 5571.

Equiv To: EDUA 5571

EDUA 5580 Career Development 3 cr

Study and application of theories of career development, occupational choice, and decision making; evaluation and design or self-knowledge programs in counselling for decision. Not to be held with EDUA 5581.

Equiv To: EDUA 5581

EDUA 5590 Career Information 3 cr

A study of work, local employment, and training; analysis of career information; evaluation and design of career resource centres; a development study of career education.

EDUA 5602 Introduction to Inclusive Education 6 cr

A survey course for educators interested in inclusive education—legislative, pedagogical, attitudinal and systemic barriers to inclusion and exemplary inclusive provisions are covered. Topics include SRV, the organization and implementation of inclusive classroom, school-wide, and community supports. May not be held with the former EDUA 5600 or EDUA 5601.

Equiv To: EDUA 5600, EDUA 5601

EDUA 5612 Field Experience in Inclusive Education 6 cr

A field-based situation for full or part-time students to apply inclusive education skills under the supervision of qualified school staff and supported by professional peer mentors and university instructors. Approximately 160 hours of field-based service required. This course is evaluated on a pass/fail basis. May not be held with the former EDUA 5610.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or corequisites: [EDUA 5602 (or the former EDUA 5600) or EDUA 5601 or equivalent] and [EDUA 5632 (or the former EDUA 5630) or EDUA 5631 or equivalent] and [EDUA 5662 (or the former EDUA 5660) or EDUA 5661 or equivalent].

Equiv To: EDUA 5610

EDUA 5620 Teaching Children Through Alternative and Augmented Communication 3 cr

An examination of alternative and augmented communication issues, services, supports, and inclusive teaching and learning strategies.

EDUA 5632 Assessment and Instruction in Inclusive Education 6 cr

An examination of curriculum-based and classroom-based assessment to guide the instruction of students experiencing learning or behavioral difficulties in inclusive classrooms. May not be held with the former EDUA 5630 or EDUA 5631.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or corequisites: EDUA 5602 (or the former EDUA 5600) or EDUA 5601 or equivalent.

Equiv To: EDUA 5630, EDUA 5631

EDUA 5642 Inclusive Education: Transition from School to Adult Life 3 cr

An examination of the practices for supporting students from preschool until they transition into adulthood, including the nature of support services and an analysis of factors influencing program development and effectiveness. May not be held with the former EDUA 5640 or the former EDUA 5650.

Mutually Exclusive: EDUA 5640, EDUA 5650

EDUA 5652 FASD and other Neurodiverse Conditions in the Classroom 3 cr

This course will examine how FASD and other neuro-behavioural/developmental conditions are diagnosed, and their associated learning and behavioural characteristics. Theoretical academic frameworks and educational strategies to optimize students' success in the classroom also will be explored. May not be held with the former EDUA 5770.

Equiv To: EDUA 5770

EDUA 5662 Delivering Supports for Inclusive Education 3 cr

A critical study of the nature of learning support and an analysis of factors influencing program development and effectiveness. May not be held with the former EDUA 5660 or EDUA 5661.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or corequisites: EDUA 5602 (or the former EDUA 5600).

Equiv To: EDUA 5660, EDUA 5661

EDUA 5680 Promoting Responsible Behaviour in Educational Settings 3 cr

The course is designed to provide teachers with an understanding of the needs of children who display maladaptive behaviours in a school setting. Conceptualization of behaviour disorders, identification/assessment procedures, and intervention strategies will be studied. The purpose of the course is to enable teachers to generate intervention strategies which are appropriate in an educational setting. Not to be held with EDUA 5681.

Equiv To: EDUA 5681

EDUA 5690 Focus on Exceptionality: Gifted and Talented 3 cr

Students will be introduced to various topics and issues in the realm of gifted education, including theoretical models; relevant research, and appropriate teaching and assessment practices.

EDUA 5710 Readings in Educational Psychology 1 3 cr

Directed readings and study of topics in various aspects of education from the psychological viewpoint.

EDUA 5730 Recent Developments in Educational Psychology 1 3 cr

An opportunity to examine the theoretical bases for, and practical application of, recent or emerging developments in this area.

EDUA 5740 Recent Developments in Educational Psychology 2 3 cr

An opportunity to examine the theoretical bases for, and practical application of, recent or emerging developments in this area.

EDUA 5760 Psychology of Instruction in Educational Contexts 3 cr

Designed primarily, although not exclusively, for classroom teachers and school personnel. A critical examination of major theoretical foundations and models of instruction. The course aims at the integration and application of traditional and emerging approaches and strategies of classroom instruction.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [EDUA 1800 (C)] or [PSYC 1200 (C)], or equivalent.

Equiv To: EDUA 5761

EDUA 5800 Introduction to Educational Research 3 cr

A study of scientific inquiry in the field of education. Research and statistical methods are surveyed within the context of educational research. Particularly recommended for students interested in the evaluation and application of research findings. Not to be held with EDUA 5801.

Equiv To: EDUA 5801

EDUA 5810 Theory of Test Construction 3 cr

Particular attention is given to problems of item analysis, validity, reliability, and test evaluation in the educational setting. Norm and criterion referenced tests are considered. Not to be held with EDUA 5811.

Equiv To: EDUA 5811

EDUA 5930 Observing Child Behaviour 3 cr

The use of qualitative observation techniques, especially in educational settings, to understand children's behaviour, thinking, and motivations.

Equiv To: EDUA 5931

EDUA 5940 Language and Symbolic Process 3 cr

The focus in this course is on the role of symbolic learning in the development of the young child. A study of theories on symbol formation is intended to serve as a framework for examining the emergence of representational capacities in movement, gesture, play, drawing and three dimensional media.

Education Curric, Tchg, & Lrng (EDUB)

EDUB 1600 Teaching General Music 3 cr

A study of teaching music in Early and Middle Years schools. For both classroom teachers and Music specialists, the course covers all traditional areas of music instruction as well as music's role across the curriculum.

EDUB 1610 CyberPedagogy: Technology Production in Education 3 cr

An examination of technologies in education focusing on the production, and creation of educational computer-based new media.

Equiv To: EDUB 1810, EDUB 1840

EDUB 1614 K-8 Curriculum Studies 3 cr

A focused study of the philosophy, purposes and content of K-8 provincial curriculum documents; current learning theories, teaching approaches and instructional planning in both discipline-based and interdisciplinary contexts; and assessment and evaluation of student learning. Not to be held with EDUB 1840 where the course section taken was "General Curriculum."

EDUB 2160 Teaching Music in Early/Middle Years 3 cr

The specialized study and application of curriculum, instructional approaches and techniques relevant to music education at the early and middle years levels (K-8). This course is intended for music specialists (music majors/minors, or with permission or instructor).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EDUB 1200 and EDUB 1940 or permission of instructor.

EDUB 3010 Classroom Community and Early Years Literacy 3 cr

This course is designed to provide an introductory study of English language and literacy in Early Years education and how it relates to development of classroom communities. May not be held with EDUB 1010.

Mutually Exclusive: EDUB 1010

EDUB 3012 Early Years Mathematics and Quantitative Reasoning for All Learners 3 cr

This course addresses mathematical sense making, quantitative reasoning, and practical instructional approaches in the context of the Manitoba Early Years mathematics curriculum towards a developing mathematics teacher identity. May not be held with EDUB 1000 or EDUB 1050.

Mutually Exclusive: EDUB 1000, EDUB 1050

EDUB 3014 Early Years Science and Social Studies: Pedagogy and Curriculum 3 cr

Instructional approaches to helping young children construct knowledge about the natural world and the human society they inhabit. Attention is given to planning for learning in science and in social studies represented by current research, and provincial outcomes documents. May not be held with EDUB 1040 or EDUB 1060.

Mutually Exclusive: EDUB 1040, EDUB 1060

EDUB 3016 Creative Collaboration in the Arts 3 cr

An exploration of art, drama, and music. An emphasis will be placed on the value of play in early childhood development, the creative process, aesthetics, constructivism and the emergent curriculum. May not be held with EDUB 1030 or EDUB 2030.

Mutually Exclusive: EDUB 1030, EDUB 2030

EDUB 3018 Multi-Language Development in Early Years 3 cr

This course examines English as an Additional Language (EAL) development related to early years education. Issues to be addressed include: trends in EAL education, orienting newcomer students and parents to the school context, EAL-inclusive lesson/ unit planning, the new EAL curriculum, cooperative learning, and other related issues.

EDUB 3050 Middle Years Learners & Learning 3 cr

This course will explore the theoretical concepts of learning and development, both for Middle Years students and teachers as adult professional learners. This is a professional inquiry into practice and learning to observe students to assess their social and emotional, cognitive, and physical development, and how this information impacts learning and classroom dynamics. May not be held with EDUB 1800.

Equiv To: EDUB 1800

EDUB 3052 Middle Years: Teaching for Learning - Developing a Responsive Pedagogy 3 cr

This course focuses on effective teaching across curriculum areas with emphasis on classroom based assessment to develop a learner-responsive pedagogy. Strategies for integrating educational technologies into teaching and assessing for learning will be addressed. May not be held with EDUB 2100.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EDUB 3050.

Equiv To: EDUB 2100

EDUB 3054 Introduction to Teaching Mathematics in Middle Years 1 3 cr

This course introduces Middle Years teacher candidates to pedagogically appropriate teaching in Mathematics. May not be held with EDUB 1140.

Equiv To: EDUB 1140

EDUB 3056 Teaching English Language Arts in Middle Years 3 cr

A study of curriculum, theories, and instructional approaches and techniques relevant to teaching English Language Arts in the Middle Years. This course will include a focus on teacher candidates' literacy practices and the processes of Middle Year students' literacy learning. May not be held with EDUB 1100.

Equiv To: EDUB 1100

EDUB 3058 Teaching Science in Middle Years 3 cr

This course facilitates the development of teacher candidates' view of (1) themselves as educators of science and (2) science as a learning area. The course focus is on the learning and teaching practices that contribute to engagement and learning for diverse student populations in Middle Years science. May not be held with EDUB 2130.

Equiv To: EDUB 2130

EDUB 3060 Teaching Social Studies in Middle Years 3 cr

The course focus is on the learning and teaching practices that contribute to engagement and learning for diverse student populations in Middle Years social studies. Contemporary learning, teaching and assessment models and practices are investigated with integrated inquiry unit planning as the central activity. May not be held with EDUB 2110.

Equiv To: EDUB 2110

EDUB 3062 Teaching the Arts in Middle Years 3 cr

A study of current arts curricula (dance, drama, music, visual arts) and pedagogical practices. Emphasis will be placed on the critical role that the arts play in creating rich classroom learning communities, as well as the role of technology in arts teaching and learning. May not be held with EDUB 1120 or EDUB 2120.

Mutually Exclusive: EDUB 1120, EDUB 2120

EDUB 3064 Teaching Physical Education/Health Education in Middle Years 3 cr

Engagement in physical activities in the gymnasium/ classroom that highlight teaching learning strategies in PE/HE pedagogy. A central theme in this course is the promotion and understanding of physical and health literacies in our classes. May not be held with EDUB 1130 or EDUB 2150.

Mutually Exclusive: EDUB 1130, EDUB 2150

EDUB 3100 Senior Years: Principles and Processes for Teaching 3 cr

A general curriculum and instruction course designed to illuminate the connections between theory and practice and offers a practical approach to planning, teaching, and learning regardless of subject area specialty. Teacher candidates will critically consider the qualities of an effective Senior Years learning environment and recognize the elements at work. May not be held with EDUB 1510.

Equiv To: EDUB 1510

EDUB 3102 Senior Years: Language and Literacy Across the Curriculum 3 cr

A deeper examination of the relationship between language, literacy and learning through an interdisciplinary approach, including how to understand language and literacy as a part of multiple sociocultural practices that are interconnected within various identities and contexts. May not be held with EDUB 2510.

Equiv To: EDUB 2510

EDUB 3110 Senior Years Curriculum & Instruction: The Arts 3 cr

A curriculum and instruction course for the clustered subject areas of Arts: Visual Arts, Dance, Drama and Music with opportunities to examine the pedagogical possibilities of their particular art form. The course will explore foundational principles for the study of curriculum, instructional strategies, and assessment in the Arts. May not be held with EDUB 1200.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or Corequisite: EDUB 3100.

Equiv To: EDUB 1200

EDUB 3120 Senior Years Curriculum & Instruction: Languages 3 cr

A curriculum and instruction course for the cluster subject areas for languages. This course provides an introduction to the study of curriculum, instructional strategies and assessment in teaching languages and how to make connections between research, theory, and practice in the teaching/learning of languages in the Manitoba context. May not be held with EDUB 1210, EDUB 1280, EDUB 1350.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or Corequisite: EDUB 3100.

Equiv To: EDUB 1210, EDUB 1280, EDUB 1350

EDUB 3130 Senior Years Curriculum & Instruction: Social Sciences 3 cr

A curriculum and instruction course for the cluster of subject areas for the Social Sciences: History, Geography, Native Studies. This course provides the foundational principles for the study of curriculum, instructional strategies and assessment in the Social Sciences. May not be held with EDUB 1230.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or Corequisite: EDUB 3100.

Equiv To: EDUB 1230

EDUB 3140 Senior Years Curriculum & Instruction: Sciences 3 cr

A curriculum and instruction course for the cluster of subject areas for the Natural Sciences includes: General Science, Biology, Chemistry, Physics, Mathematics, Human Ecology, Physical Education/Health Education, and Computer Science. This course provides teacher candidates with the foundational principles for the study of curriculum, instructional strategies and assessment in the Natural Sciences. May not be held with EDUB 1240, EDUB 1250, EDUB 1260, EDUB 1270.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or Corequisite: EDUB 3100.

Equiv To: EDUB 1240, EDUB 1250, EDUB 1260, EDUB 1270

EDUB 3310 Early Years: Practicum 1 3 cr

Practical teaching experience for Early Years in a Manitoba school with the guidance and under the supervision of a faculty advisor and cooperating teacher(s). May not be held with the former EDUB 1960. This is a pass/fail course.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or corequisites: [3 credit hours from: EDUA 3404 (or the former EDUA 3400), EDUB 3406 (or the former EDUB 3402), EDUB 3018] and [3 credit hours from EDUB 3010, EDUB 3012].

Mutually Exclusive: EDUB 1960

EDUB 3312 Early Years: Practicum 2 3 cr

Practical teaching experience for Early Years in a Manitoba school with the guidance and under the supervision of a faculty advisor and cooperating teacher(s). May not be held with the former EDUB 1960. This is a pass/fail course.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EDUB 3310. Pre- or corequisites: [3 credit hours from EDUA 3404 (or the former EDUA 3400) or EDUB 3406 (or the former EDUB 3402)] and EDUB 3010, EDUB 3012, EDUB 3018.

Mutually Exclusive: EDUB 1960

EDUB 3320 Middle Years: Practicum 1 3 cr

Practical teaching experience for Middle Years in a Manitoba school with the guidance and under the supervision of a faculty advisor and cooperating teacher(s). May not be held with the former EDUB 1970. This is a pass/fail course.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or corequisites: EDUB 3050 and [3 credit hours from: EDUA 3404 (or the former EDUA 3400), EDUB 3406 (or the former EDUB 3402), EDUB 3506 (or the former EDUB 1620), EDUB 3508 (or the former EDUB 1820), EDUA 3420, EDUB 3426, EDUB 3510].

Equiv To: EDUB 1970

EDUB 3322 Middle Years: Practicum 2 3 cr

Practical teaching experience for Middle Years in a Manitoba school with the guidance and under the supervision of a faculty advisor and cooperating teacher(s). May not be held with the former EDUB 1970. This is a pass/fail course.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EDUB 3320. Pre- or corequisites: EDUB 3052 and [3 credit hours from: EDUA 3404 (or the former EDUA 3400) or EDUB 3406 (or the former EDUB 3402)] and [3 credit hours from: EDUB 3506 (or the former EDUB 1620), EDUB 3508 (or the former EDUB 1820), EDUA 3420, EDUB 3426, EDUB 3510].

Equiv To: EDUB 1970

EDUB 3330 Senior Years: Practicum 1 3 cr

Practical teaching experience for Senior Years in a Manitoba school with the guidance and under supervision of a faculty advisor and cooperating teacher(s). May not be held with the former EDUB 1980. This is a pass/fail course.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or corequisites: EDUB 3100 and [3 credit hours from: EDUB 3110, EDUB 3120, EDUB 3130, EDUB 3140] and [3 credit hours from: EDUA 3404 (or the former EDUA 3400), EDUB 3406 (or the former EDUB 3402), EDUB 3506 (or the former EDUB 1620), EDUB 3508 (or the former EDUB 1820), EDUA 3420, EDUB 3426, EDUB 3510].

Mutually Exclusive: EDUB 1980

EDUB 3332 Senior Years: Practicum 2 3 cr

Practical teaching experience for Senior Years in a Manitoba school with the guidance and under the supervision of a faculty advisor and cooperating teacher(s). May not be held with the former EDUB 1980. This is a pass/fail course.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EDUB 3330. Pre- or corequisites: [3 credit hours from: EDUA 3404 (or the former EDUA 3400) or EDUB 3406 (or the former EDUB 3402)] and [3 credit hours from: EDUB 3506 (or the former EDUB 1620), EDUB 3508 (or the former EDUB 1820), EDUA 3420, EDUB 3426, EDUB 3510].

Mutually Exclusive: EDUB 1980

EDUB 3406 Indigenous Perspectives and the Curriculum 3 cr

The course will focus on fostering teacher candidate pedagogical knowledge, orientations and capabilities for developing and implementing curricula for kindergarten through to Grade 12 that reflect Indigenous perspectives. May not be held with the former EDUB 1602, the former EDUB 3402 or EDUB 1840 when titled "Integrating Aboriginal Perspectives into the Manitoba Curriculum."

Equiv To: EDUB 1602, EDUB 3402

Mutually Exclusive: EDUB 1840

EDUB 3426 La pédagogie du français de base aux niveaux intermédiaire et de la jeune enfance 3 cr

Ce cours sert d'introduction aux principes et aux pratiques de base dans le domaine de l'enseignement et de l'apprentissage du Français comme langue seconde (FL2) ou additionnelle. Les participants au cours examineront les principes fondamentaux et la mise en pratique de l'enseignement et de l'apprentissage du français en tant que langue seconde ou additionnelle. L'accent est mis sur les pratiques pédagogiques de l'approche communicative expérientielle, telle qu'approuvée par le Ministre d'éducation du Manitoba. Puisque ce cours forme partie de la liste de cours répondant au 'Diversity Requirement' de Ministère de l'éducation, une philosophie d'ouverture et d'inclusion de la diversité sous-tendent l'essentiel de ce cours. May not be held with EDUB 1830.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: 18 credit hours of French or permission of instructor.

Equiv To: EDUB 1830

EDUB 3502 Recent Developments in Curriculum, Teaching and Learning 1 3 cr

The study of emerging topics in curriculum, teaching, and learning not studied in regular program courses.

Mutually Exclusive: EDUB 3510

EDUB 3504 Academic and Professional English for Multilingual Teachers 3 cr

This course provides English language development for multilingual teachers of English as a second/additional language and other subject areas. The focus is on teacher, classroom, and professional English that can be applied in various contexts. May not be held with EDUB 1604.

Equiv To: EDUB 1604

EDUB 3506 Principles and Procedures of Second Language Education 3 cr

Examination of principles and demonstration of procedures for developing basic second language knowledge and skills in various contexts, e.g., ESL, EFL, AL, HL, IL. May not be held with the former EDUB 1620.

Equiv To: EDUB 1620

EDUB 3508 Language and Content Instruction of EAL Students 3 cr

Principles and procedures of teaching ESL/Bilingual students in subject-area classrooms, using content-based language instruction and language sensitive content instruction. May not be held with the former EDUB 1820.

Equiv To: EDUB 1820

EDUB 3510 Language Awareness for Teachers 3 cr

This course will focus on responding to students from immigrant, refugee and Indigenous backgrounds in the classroom, understanding how to teach pronunciation, grammar, word choice and subject area content. Through structural linguistics, this course aims to enhance teacher candidates' confidence in, and knowledge of, language structures necessary for teaching EAL learners. May not be held with EDUB 3502 when titled, "Language Awareness for Teachers".

Mutually Exclusive: EDUB 3502

EDUB 3512 Literature for Adolescents 3 cr

A survey of the literature available for adolescents. The course includes reading and discussion of the literature, and consideration of techniques for encouraging extensive reading. May not be held with EDUB 1710.

Equiv To: EDUB 1710

EDUB 3514 Literature for Children 3 cr

A survey of the literature available for children. The course includes reading and a discussion of the literature, and consideration of techniques for encouraging extensive reading. May not be held with EDUB 1720.

Equiv To: EDUB 1720

EDUB 3516 Art Across the Curriculum 3 cr

This course will emphasize the importance of visual learning and its potential for teaching in the various curriculum areas at all levels. Opportunities for studio work, discussion and planning will be provided. May not be held with EDUB 1730.

Equiv To: EDUB 1730

EDUB 3518 Drama Across the Curriculum 3 cr

For all students, specialist and non-specialist, who wish to develop a greater understanding and practice of drama in the classroom across the curriculum. May not be held with EDUB 1740.

Equiv To: EDUB 1740

EDUB 3520 Historical Development of Physical Science up to the 20th Century 3 cr

The major ideas and discoveries in science of the Ionians and the Greeks, the scientific revolution of the 16th and 17th centuries, and the 'modern' period of science, up to the 20th century will be explored with an emphasis on science education and scientific literacy. May not be held with EDUB 1760, PHYS 2700.

Equiv To: EDUB 1760, PHYS 2700

EDUB 3522 Recent Developments in Learning and Teaching Senior Years Mathematics 3 cr

The study of selected topics in mathematics in Senior Years. May not be held with EDUB 1800.

Equiv To: EDUB 1800

EDUB 3524 Practical Work in School Science 3 cr

This course, which is appropriate for early, middle and senior teacher candidates, will critically examine the role of practical work in the teaching and learning of school science. Topics will include: demonstrations, experiments, investigations, field experiences, simulations, data collection and interpretation, new educational technologies, assessment and laboratory safety. May not be held with EDUB 1870.

Equiv To: EDUB 1870

EDUB 3526 Integration of Technological Literacy Across the K-12 Curriculum 3 cr

Training teachers to analyze and teach about technological principles within the content area, and to develop specific teaching and learning interventions to infuse technological literacy across content areas. May not be held with EDUB 1780.

Equiv To: EDUB 1780

EDUB 3528 Media Literacy 3 cr

The role of media in society, designed to assist educators in all disciplines and levels to develop an informed and critical understanding of the mass media and its impact on teaching and learning. May not be held with EDUB 1680.

Equiv To: EDUB 1680

EDUB 3530 Beyond Schools: Experiencing Teaching and Learning in Community Settings 3 cr

This course provides a community-based field experience. Students will attend a weekly seminar and spend 20 hours a week for six weeks at a host site. The focus of the course is to consider, challenge, and broaden understandings of education, curriculum, and pedagogy within the context of social justice. Site examples: arts programs, nature reserves, youth programs. This is a pass/fail course. May not be held with EDUB 1840 when titled "Beyond Classrooms: Teaching and Learning in Community- Based Settings".

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: 3 credit hours from: EDUB 3312, EDUB 3322, EDUB 3332.

Equiv To: EDUB 1840

EDUB 3532 Basic Experiences in Movement and Dance Education 3 cr

A study of teaching movements/ dance education in Early (K-4) and Middle Years (5-8) schools. For both classroom teachers and physical education specialists, the course covers all traditional areas of movement instruction as well as movements' role across the curriculum. May not be held with EDUB 1750.

Equiv To: EDUB 1750

EDUB 3534 Creating Communities of Writers in Diverse Classrooms and Contexts 3 cr

This course is designed to support teacher candidates in developing their confidence as writers and in expanding their pedagogical knowledge and approaches as teachers of writing. Open to teacher candidates in all streams and teachable areas.

EDUB 4010 Pedagogy for Sustainable Well-being: Science, Mathematics and Social Studies 6 cr

An exploration and critical reflection on theory, research, and practice in education for sustainability in science, mathematics, and social studies and the ways in which multiple literacies can assist children in consolidating their knowledge and understanding of sustainable well-being. Course offered off-campus. May not be held with EDUB 2040, EDUB 2050 or EDUB 2060.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: EDUB 3012, EDUB 3014, EDUB 3312. Corequisite: EDUB 4012.

Mutually Exclusive: EDUB 2040, EDUB 2050, EDUB 2060, EDUB 4013

EDUB 4012 Pedagogy in Multiple Literacies: Children as Meaning Makers 6 cr

A school-based course, taught in collaboration with EDUB 4010 Pedagogy for Sustainable Well-being: Science, Mathematics, and Social Studies, providing opportunities for teacher candidates to be immersed with children and teachers in curriculum inquiry related to learning languages/ literacies, learning about languages/literacies, and learning through languages. Course offered off-campus. May not be held with EDUB 2000, EDUB 2010, EDUB 2070, and EDUB 2080.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EDUB 3010, EDUB 3312. Corequisite: EDUB 4010.

Mutually Exclusive: EDUB 2000, EDUB 2010, EDUB 2070, EDUB 2080

EDUB 4014 Early Years: Physical Education/ Health Education 3 cr

The focus of this course is to promote the development of movement and personal management skills for lifelong activity and fitness. Teacher candidates will learn to create activities and strategies within the gymnasium/classroom that incorporate physical activity into daily routines. May not be held with EDUB 1020 or EDUB 2020.

Mutually Exclusive: EDUB 1020, EDUB 2020

EDUB 4050 Middle Years: Creating Classroom Learning Environments 3 cr

A study of the effective teaching practices which are essential for creating positive learning environments in middle-years classroom communities. Emphasis is placed on the social processes and pedagogy, especially the use of formative assessment and integrated curriculum approaches. May not be held with EDUB 1110 or EDUB 2400.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EDUB 3052.

Mutually Exclusive: EDUB 2400

EDUB 4052 Teaching Mathematics in Middle Years 2 3 cr

This course focuses on advanced instructional strategies in the teaching of mathematics in the middle years. May not be held with EDUB 2140.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EDUB 3054.

Equiv To: EDUB 2140

EDUB 4100 Teacher and Technology 3 cr

An introduction to educational and information technology in the classroom. Focus will be on the utilization of technology, the development of information skills for teachers and critical analyses of the potential of educational technology. May not be held with EDUB 1990.

Equiv To: EDUB 1990

EDUB 4102 Themes in Senior Years 3 cr

Themes in Senior Years is a topics course designed to expose students to current issues and topics relevant to professional thinking and practice.

Topics are offered and represent those pedagogical practices that enhance and expand upon broad forms of teaching practice. Students will focus on an area of interest to experience pedagogies that promote choice and multiple modes of expression. May not hold credit for more than one topic under this course number. May not be held with EDUB 2500.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EDUB 3332.

Equiv To: EDUB 2500

EDUB 4110 Senior Years: Teaching Art 3 cr

The development of skills for planning, teaching, and assessing visual art in a Senior Years setting. May not be held with EDUB 2200.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: EDUB 3100 and [3 credit hours from: EDUB 3110, EDUB 3120, EDUB 3130, EDUB 3140].

Equiv To: EDUB 2200

EDUB 4112 Senior Years: Teaching Music 3 cr

An advanced study of curriculum, and instructional approaches and techniques relevant to the teaching of music in Senior Years. May not be held with EDUB 2240.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: EDUB 3100 and [3 credit hours from: EDUB 3110, EDUB 3120, EDUB 3130, EDUB 3140].

Equiv To: EDUB 2240

EDUB 4113 Didactique en chimie (secondaire) 3 cr

Étude des programmes et des méthodes d'enseignement en chimie au niveau secondaire.

Attributes: Université de Saint-Boniface

EDUB 4114 Senior Years: Teaching Drama & Theatre 3 cr

An examination of the issues of arts, pedagogy, creative process and program development. May not be held with EDUB 2250.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: EDUB 3100 and [3 credit hours from: EDUB 3110, EDUB 3120, EDUB 3130, EDUB 3140].

Equiv To: EDUB 2250

EDUB 4120 Senior Years: Teaching English Language Arts 3 cr

An in-depth study of the curriculum and pedagogy relevant to inquiries into curriculum and pedagogy relevant to teaching English Language Arts in diverse, 21st century classrooms. May not be held with EDUB 2210.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: EDUB 3100 and [3 credit hours from: EDUB 3110, EDUB 3120, EDUB 3130, EDUB 3140].

Equiv To: EDUB 2210

EDUB 4122 Senior Years: Teaching French 3 cr

A course that will focus on theory and practices as well as strategies in teaching French as a Secondary Language. Students will address issues and challenges faced in FSL literacy and spend time focusing on inclusion in the FSL classroom and benefits of allophone students in the FSL classroom. May not be held with EDUB 2340.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: EDUB 3100 and [3 credit hours from: EDUB 3110, EDUB 3120, EDUB 3130, EDUB 3140].

Equiv To: EDUB 2340

EDUB 4124 Senior Years: Teaching Languages 3 cr

A course that will focus on theory and practices as well as strategies in teaching Heritage, Aboriginal, or International Languages. Students will address issues and challenges faced in literacy and spend time focusing on inclusion in the classroom. May not be held with EDUB 2350.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: EDUB 3100 and [3 credit hours from: EDUB 3110, EDUB 3120, EDUB 3130, EDUB 3140].

Equiv To: EDUB 2350

EDUB 4130 Senior Years: Teaching Geography 3 cr

Designed to prepare students to become teachers of Geography using the Manitoba Senior Years Social Sciences curriculum. May not be held with EDUB 2220.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: EDUB 3100 and [3 credit hours from: EDUB 3110, EDUB 3120, EDUB 3130, EDUB 3140].

Equiv To: EDUB 2220

EDUB 4132 Senior Years: Teaching History 3 cr

Designed to prepare students to become teachers of history with expertise to help students acquire historical knowledge, historical thinking, and attain the enduring understanding (topics) listed in the Manitoba Curriculum documents for history/ social studies. May not be held with EDUB 2230.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: EDUB 3100 and [3 credit hours from: EDUB 3110, EDUB 3120, EDUB 3130, EDUB 3140].

Equiv To: EDUB 2230

EDUB 4134 Senior Years: Teaching Native Studies 3 cr

An examination of the curricular and pedagogical issues relating to the teaching of Native Studies in Senior Years. Includes the study of trends and current issues relevant to the Canadian indigenous experience.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: EDUB 3100 and [3 credit hours from: EDUB 3110, EDUB 3120, EDUB 3130, EDUB 3140].

EDUB 4140 Senior Years: Teaching Biology 3 cr

An exploration of the Manitoba Science Curriculum Framework for Biology in grades 11 and 12, focusing particularly on the foundational principles underlying the learning and teaching of science in these documents, as well as the key scientific concepts in each unit of the curriculum. Following contemporary approaches to teaching and learning, particularly conceptual change and socio-scientific issues (SSI), readings and discussions will focus on content-specific issues related to teaching and learning biology at the senior level. May not be held with EDUB 2260.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: EDUB 3100 and [3 credit hours from: EDUB 3110, EDUB 3120, EDUB 3130, EDUB 3140].

Equiv To: EDUB 2260

EDUB 4142 Senior Years: Teaching Chemistry 3 cr

An exploration of the Manitoba Science Curriculum Framework for Chemistry in grades 11 and 12, focusing particularly on the foundational principles underlying the learning and teaching chemistry. May not be held with EDUB 2270.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: EDUB 3100 and [3 credit hours from: EDUB 3110, EDUB 3120, EDUB 3130, EDUB 3140].

Equiv To: EDUB 2270

EDUB 4144 Senior Years: Teaching Computer Science 3 cr

A study of the curriculum, instructional approaches, and assessment as they pertain to teaching computer science at the secondary level. Teacher candidates will compare and contrast technical, educational, assessment and professional development aspects of computer-related secondary school courses. This involves knowing and understanding the strengths and limitations of current curriculum documents. May not be held with EDUB 2330.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: EDUB 3100 and [3 credit hours from: EDUB 3110, EDUB 3120, EDUB 3130, EDUB 3140].

Equiv To: EDUB 2330

EDUB 4146 Senior Years: Teaching General Science 3 cr

An overview of the theory and practice of teaching General Science in the context of the Manitoba Curriculum Framework at the Grade 9- 10 level. General principles of science and education, conceptual development, cognitive and learning theories, and scientific literacy, are presented and discussed. Emphasis is placed on using conceptual development models to help science teachers present concepts and topics. May not be held with EDUB 2280.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: EDUB 3100 and [3 credit hours from: EDUB 3110, EDUB 3120, EDUB 3130, EDUB 3140].

Equiv To: EDUB 2280

EDUB 4148 Senior Years: Teaching Human Ecology 3 cr

A study of the planning and teaching of home economics. Emphasis will be placed on the new research on teaching, learning, assessment, principles of educational change, ICT, inclusivity, current brain research and how it affects learning, differentiated instruction, and multiple intelligences. May not be held with EDUB 2290.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: EDUB 3100 and [3 credit hours from: EDUB 3110, EDUB 3120, EDUB 3130, EDUB 3140].

Equiv To: EDUB 2290

EDUB 4150 Senior Years: Teaching Mathematics 3 cr

A study of the curriculum and instructional approaches to teaching mathematics, including how mathematics is learned, how to structure learning opportunities for students, and developing and expressing, pedagogically sound approaches to teaching mathematics courses in secondary schools. May not be held with EDUB 2300.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: EDUB 3100 and [3 credit hours from: EDUB 3110, EDUB 3120, EDUB 3130, EDUB 3140].

Equiv To: EDUB 2300

EDUB 4152 Senior Years: Teaching Physical Education/Health Education 3 cr

A course designed to prepare teacher candidates to work with students in ways that enable and encourage them to develop the commitment and capacity to lead an active healthy lifestyle. The course will also develop and enhance students' life skills to promote physical and health literacy, and health related behaviours. May not be held with EDUB 2310.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: EDUB 3100 and [3 credit hours from: EDUB 3110, EDUB 3120, EDUB 3130, EDUB 3140].

Equiv To: EDUB 2310

EDUB 4154 Senior Years: Teaching Physics 3 cr

An exploration of the Manitoba Science Curriculum Framework for Physics in grades 11 and 12, focusing particularly on the foundational principles underlying the learning and teaching of physics. May not be held with EDUB 2320.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: EDUB 3100 and [3 credit hours from: EDUB 3110, EDUB 3120, EDUB 3130, EDUB 3140].

Equiv To: EDUB 2320

EDUB 4310 Early Years Practicum 3 3 cr

Practical teaching experience for Early Years in a Manitoba school with the guidance and under the supervision of a faculty advisor and cooperating teacher (s). This is a pass/fail course. May not be held with EDUB 2960.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EDUB 3312.

Mutually Exclusive: EDUB 2960

EDUB 4312 Early Years Practicum 4 3 cr

Practical teaching experience for Early Years in a Manitoba school with the guidance and under the supervision of a faculty advisor and cooperating teacher (s). This is a pass/fail course. May not be held with EDUB 2960.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EDUB 4310. Pre- or Corequisite: EDUA 4000.

Mutually Exclusive: EDUB 2960

EDUB 4320 Middle Years: Practicum 3 3 cr

Practical teaching experience for Middle Years in a Manitoba school with the guidance and under the supervision of a faculty advisor and cooperating teacher (s). This is a pass/fail course. May not be held with EDUB 2970.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EDUB 3322. Pre- or Corequisite: EDUB 4050.

Mutually Exclusive: EDUB 2970

EDUB 4322 Middle Years: Practicum 4 3 cr

Practical teaching experience for Middle Years in a Manitoba school with the guidance and under the supervision of a faculty advisor and cooperating teacher(s). This is a pass/fail course. May not be held with EDUB 2970.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EDUB 4320. Pre- or Corequisite: EDUA 4000.

Mutually Exclusive: EDUB 2970

EDUB 4330 Senior Years: Practicum 3 3 cr

Practical teaching experience for Senior Years in a Manitoba school with the guidance and under the supervision of a faculty advisor and cooperating teacher(s). This is a pass/fail course. May not be held with EDUB 2980.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EDUB 3332. Pre- or corequisites: 6 credit hours from: EDUB 4110, EDUB 4112, EDUB 4114, EDUB 4120, EDUB 4122, EDUB 4124, EDUB 4130, EDUB 4132, EDUB 4134, EDUB 4140, EDUB 4142, EDUB 4144, EDUB 4146, EDUB 4148, EDUB 4150, EDUB 4152, EDUB 4154.

Mutually Exclusive: EDUB 2980

EDUB 4332 Senior Years: Practicum 4 3 cr

Practical teaching experience for Senior Years in a Manitoba school with the guidance and under the supervision of a faculty advisor and cooperating teacher(s). This is a pass/fail course. May not be held with EDUB 2980.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EDUB 4330. Pre-or corequisite: EDUA 4000.

Mutually Exclusive: EDUB 2980

EDUB 4502 Recent Developments in Curriculum, Teaching and Learning 2 3 cr

The study of emerging topics in curriculum, teaching and learning not studied in regular program courses.

EDUB 5012 Video Art, Culture, and Education 3 cr

This course will focus on fostering students pedagogical, historical, theoretical, and sociological knowledge, as well as creative video skills. Students will learn about developing and implementing video across the curricula from grade 1 to grade 12 in order to incorporate video making and current viewing practices into classrooms. May not be held for credit with EDUB 1840 or EDUB 5220 where the title is 'Video Art, Culture, and Education.'

Equiv To: EDUB 1840

EDUB 5014 Pedagogy and Film 3 cr

A study of films and their relationships to contemporary educational practice. The approach will be a critical one exploring and analyzing films and their relationships to teaching, teachers, students and curricula. The emphasis is on understanding film as a powerfully educative media in its own right as well as its complex relationships with traditional school knowledge. May not be held with EDUB 5220 when titled "Pedagogy and Film: Studying the Moving Image" or EDUB 5230 when titled "Portrayal of Teaching in the Popular Media".

Mutually Exclusive: EDUB 5220, EDUB 5230

EDUB 5040 Theory and Practice of Teaching Art (Elementary) 6 cr

The theory and practice of teaching Art in the Elementary School will be examined through an inquiry into both the development of the child through his/her art expression and related curricular experiences.

EDUB 5060 Theory and Practice of Teaching Art in the Senior Years 1 3 cr

An overview of major aspects of Art Education in the context of Senior Years 1 curriculum through a study of current theory, a variety of studio areas and related aesthetic concepts.

EDUB 5100 Developing Competency Skills in Enterprise Education 1 3 cr

Promotes the development and integration of skills of creativity, innovation, self-reliance and responsibility in students, within the framework of an enterprise education/entrepreneurship paradigm. Participants develop teaching strategies and materials and learn to integrate these skills into current educational practices.

PR/CR: A minimum grade of C is required unless otherwise indicated.
Corequisite: EDUB 5110.

EDUB 5110 Developing Competency Skills in Enterprise Education 2 3 cr

This course continues the promotion and application of student competency skills, within the framework of an enterprise education/entrepreneurship paradigm. Participants plan and organize a school, community or business venture, develop plans for the promotion and marketing of the product or service, arrange financial support, and make a presentation of their venture plan to a panel of evaluators.

PR/CR: A minimum grade of C is required unless otherwise indicated.
Corequisite: EDUB 5100.

EDUB 5120 Music in the Early Years/Middle Years School 1 3 cr

A course to assist classroom teachers plan for music making activities based on knowledge and proficiency in the use of Orff instruments and recorder.

EDUB 5130 Music in the Early Years/Middle Years School 2 3 cr

A course to assist classroom teachers plan for music making activities based on knowledge and proficiency in the use of a wide range of string instruments (guitar, baritone ukulele, dulcimer, etc).

EDUB 5140 Special Methods in Music 1 3 cr

An advanced study of the Orff method as it applies to Early and Middle Years schools with emphasis on ensemble performance. The course is designed for the music specialist.

EDUB 5150 Special Methods in Music 2 3 cr

An advanced study of the Kodaly method as it applies to Early and Middle Years schools with emphasis on the contributions of the method to fine choral performance. The course is designed for the music specialist.

EDUB 5160 School Band 3 cr

An advanced study of the methods for initiating and continuing a band in Middle and Senior Years schools with emphasis on the contributions of a band program to Middle Years education.

EDUB 5190 School Music Productions 3 cr

A study of the principles and procedures for presenting school music productions.

EDUB 5200 Readings in Curriculum, Teaching and Learning 1 3 cr

Readings and research in special areas of curricular study related to curriculum, teaching and learning.

EDUB 5210 Readings in Curriculum, Teaching and Learning 2 3 cr

Readings and research in special areas of curricular study related to curriculum, teaching and learning.

EDUB 5220 Recent Developments in Curriculum, Teaching and Learning 1 3 cr

An opportunity to examine the theoretical bases for, and practical application of, recent or emerging developments in the area.

Mutually Exclusive: EDUB 5014, EDUB 5514, EDUB 5518, EDUB 5522, EDUB 5524

EDUB 5230 Recent Developments in Curriculum, Teaching and Learning 2 3 cr

A continuation of certain topics of EDUB 5220 to extend and develop the study previously undertaken in these areas.

Mutually Exclusive: EDUB 5014, EDUB 5342

EDUB 5250 Music: Advanced Choral Methods 3 cr

Advanced methods in choral instruction and conducting through a study of choral literature related to school music programs.

EDUB 5330 Teaching Language and Literacy in the Content Areas 3 cr

An examination of approaches to literacy in the content areas (science, mathematics, social studies, etc); emphasis on strategies for reading, writing, and studying, materials, and material assessment, procedures, and supporting research.

EDUB 5342 Becoming Writers: Power, Place and Pedagogy in Teaching Writing 6 cr

This course invites participants to engage in becoming stronger writers and more effective teachers of writing. The course is designed with the premise that to become better teachers of writing, teachers must become writers themselves. This is an intensive and experiential course that affords opportunities to write, participate in writing groups, delve into professional literature in writing craft and pedagogy, interact with guest speakers, explore place and place-writing as inquiries into power and (in) justice, and design and lead a teaching demonstration. The course is open to all, regardless of prior writing experience. May not be held with EDUA 5220 when titled 'Writing Workshop: Writing for/as Human Rights' or EDUB 5230 when titled 'Curriculum Development: Writing for/as Human Rights.'

Mutually Exclusive: EDUA 5220, EDUB 5230

EDUB 5350 Current Issues in Language and Literacy 3 cr

A special topics course designed to update students on the most recent developments in Language and Literacy Education.

EDUB 5360 Children's Literature 3 cr

The nature and psychology of literature for children in the elementary grades. Areas for consideration include an examination of materials, use of evaluative criteria to assess the materials, and research findings concerning development, interest and use of the material. Not to be held with EDUB 5361.

Equiv To: EDUB 5361

EDUB 5370 Adolescent Literature 3 cr

The nature and psychology of literature for students in Grades 7-12. Areas for consideration include an examination of materials, use of evaluative criteria to assess the materials, and research findings concerning development, interest and use of the material. Not to be held with EDUB 5371.

Equiv To: EDUB 5371

EDUB 5380 Theory and Practice in Written Composition 3 cr

A course designed to explore the nature of written composition and to provide practice in various types of writing.

EDUB 5390 The Teaching of Written Composition 3 cr

A course designed to assist teachers in organizing and implementing writing programs. Consideration will be given to motivational strategies, useful writing activities and exercises, and practice in editing and evaluation.

EDUB 5400 Diagnostic and Remedial Techniques in Language Arts 6 cr

Diagnosis and correction at the classroom level. Opportunities for detailed analysis of diagnostic instruments. Practical aspects include diagnosis of language arts problems, prescriptions, and correction on the basis of evaluation.

EDUB 5470 Recent Developments in Curriculum: Mathematics and Natural Sciences 1 3 cr

This course will provide an opportunity to examine the theoretical bases for, and practical application of, recent or emerging developments in the area.

Equiv To: EDUB 5471

EDUB 5480 Recent Developments in Curriculum: Mathematics and Natural Sciences 2 3 cr

A continuation of certain topics of EDUB 5470 to extend and develop the previous study undertaken in these areas.

EDUB 5510 ESL Materials Development and Practicum 3 cr

A general survey of published ESL instructional materials will form the basis for students to design learning experiences to be implemented in a supervised practicum. Students who feel they would benefit from some English as an Additional Language support and have limited prior teaching experience should take EDUB 5524 prior to the practicum course. May not be held with the former EDUB 1860.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre or corequisite: EDUB 5580 or instructor's permission.

Equiv To: EDUB 1860

EDUB 5512 Teacher Development and Leadership in Second Language Education 3 cr

This course explores current approaches in the development of second language teachers and initiatives to facilitate leadership in programs inclusive of language learners.

EDUB 5514 Assessment and Testing of ESL/EAL Learners 3 cr

This course will examine various methods in assessment and testing of English language learners, including formative, summative and alternative assessment strategies. Attention will be paid to the following areas: initial and ongoing needs assessment, evaluating without tests, and questioning the educative value of assessment and testing. May not be held with EDUB 5220 when titled "Assessment and Testing of ESL/EAL Learners".

Mutually Exclusive: EDUB 5220

EDUB 5516 Teaching Literacy, Academics, and Language (LAL) Learners 3 cr

This course will introduce course participants to the theoretical and practical aspects of teaching K-12 LAL learners, who are new comers to Manitoba and have limited or no previous schooling experiences due to war or refugee status. These learners need to develop literacy and foundational academic skills in addition to learning English as an additional language as they usually have little or no literacy in any language. Course participants will examine LAL students' backgrounds, learn different instructional strategies and develop appropriate materials to meet diverse needs of LAL learners effectively. May not be held with EDUB 5220 when titled "Teaching Literacy, Academics, and Language (LAL) Learners".

EDUB 5518 Intercultural Communication in Transnational Contexts 3 cr

This course provides an introduction to theory and practice related to intercultural communication. Students will investigate the ways in which language, culture, and nonverbal communication play out in cross cultural contact. Students will become attuned to the values, beliefs, and assumptions they hold generally and about communication specifically as they interact with people unlike themselves. The course combines theory and research as well as the application of concepts, both in class and out of class, by way of activities, simulations, and interactions with people of other cultures. May not be held with EDUB 5220 when titled "Intercultural Communication in Transnational Contexts".

Mutually Exclusive: EDUB 5220

EDUB 5520 Grammar in ESL Learning and Instruction 3 cr

A survey of English grammar and its applications to teaching all levels of ESL, from beginning to very advanced. Lectures, readings, group discussions, and demonstrations are designed to develop knowledge and skills necessary to teach oral and written grammar in traditional and innovative ways.

EDUB 5522 English as an Additional Language Teaching for Academic and Specific Purposes 3 cr

This course provides up-to-date views of Teaching English for specific and academic purposes, including a brief history and relevant definitions. Issues related to needs assessment, curriculum development, course design, materials development, evaluation and assessment, and teacher development will be discussed, focusing on both local and international settings. May not be held with EDUB 5220 when titled "English as an Additional Language Teaching for Academic and Specific Purposes".

Mutually Exclusive: EDUB 5220

EDUB 5524 Language Development for Multilingual Educators 3 cr

Multilingual/Non-Native English-Speaking (NNES) teachers in Canada face unique challenges when teaching English, including using culturally-appropriate language registers and teaching methods, and facing discrimination in the workplace because of the varieties of English they speak. This course addresses these challenges. May not be held with EDUB 5220 when titled "Language Development for Multilingual Educators".

Mutually Exclusive: EDUB 5220

EDUB 5530 ESL and Content Instruction 3 cr

Principles and procedures of teaching ESL/bilingual students in subject-area classrooms, using content-based language instruction and language sensitive content instruction.

EDUB 5540 Vocabulary and Pronunciation Instruction 3 cr

Principles and procedures in teaching English vocabulary and pronunciation for effective communication (sounds, spellings, word and sentence stress, rhythm, intonation, connected speech, integration). May not be held with the former EDUB 1640.

Equiv To: EDUB 1640

EDUB 5550 Library Reference and Informational Materials 6 cr

Principles of reference and research with special emphasis on interdisciplinary investigation; the problems of access to information; types of reference sources, their evaluation and selection for library reference collections; services to library users.

EDUB 5580 Fundamentals of ESL (English Second Language) Instruction 3 cr

Examination of principles and demonstration of procedures for teaching ESL in Canada and EFL overseas.

EDUB 5600 The Teaching of Social Studies in the Early and Middle Years 3 cr

This course concentrates on the teaching of social studies in schools from Kindergarten to approximately Grade Nine, with particular reference to the implications of social studies teachers of the characteristics of students at those levels.

EDUB 5660 Theoretical Foundations of Social Studies 3 cr

This course examines recent developments in social studies education. It aims to familiarize students with the debates, the research and the innovations (successful and otherwise) that have characterized social studies curriculum.

EDUB 5690 Seminar in Business Education 6 cr

Curriculum development; methodologies; evaluation and measurement; research.

EDUB 5760 Recent Developments in Mathematics Education 3 cr

Reading and research in mathematics education (selected topics).

EDUB 5770 Diagnosis and Remediation in Elementary School Mathematics 3 cr

Diagnostic and remedial methods in elementary school mathematics. Not to be held with EDUB 5771.

Equiv To: EDUB 5771

EDUB 5840 Internet Pedagogy 3 cr

Theory and practice of teaching and learning with the Internet. Focus on instructional applications of the Internet, for all levels from K-12 as well as adult, post-secondary and training settings. Current research will be examined and monitored for its relevance to this fast-changing field.

EDUB 5850 Theory and Practice of Designing and Developing Web-based Courses 3 cr

Theory and practice of the design, development and evaluation of on-line web-based distance education courses for K-12 through adult/post-secondary programs.

EDUB 5860 Project Management in Education and Training 3 cr

Theory and practice of project management principles in education and training. Emphasis on application of concepts and procedures of educational project management including planning and proposal creation for developmental and/or research activities in educational agencies.

EDUB 5870 Mentoring for Teachers 3 cr

An examination of mentoring practices with particular focus on educative ways of mentoring teacher candidates and new teachers

EDUB 5940 Instructional Product Development 3 cr

Systematic development of an instructional product. Includes needs assessment, goal setting, writing objectives, task analyses, product development, evaluation techniques.

Electr. and Computer Engin. (ECE)

ECE 2160 Electronics 2E 5 cr

(Lab required) Characteristics of integrated circuits and transistors; design of DC and AC amplifiers in the steady state.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 2262.

ECE 2220 Digital Logic Systems 5 cr

(Lab required) Boolean algebra and logic primitives, net-work simplification techniques, physical realizations, number systems and codes; analysis and design of asynchronous and synchronous sequential circuits; applications to computation, measurements, and control.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ENG 1450

Mutually Exclusive: COMP 3090

ECE 2240 Numerical Methods for Electrical Engineers 4 cr

(Lab required) Numerical methods applied to Electrical Engineering problems; mathematical models of physical systems, solutions of linear and non-linear equations, numerical differentiation and integration methods and associated errors, introduction to solution analysis. May not be held with MATH 2120. Prerequisites ECE 2262, COMP 1012, MATH 2132

Equiv To: MATH 2120

ECE 2262 Electric Circuits 4 cr

(Lab required) The application of circuit concepts; network theorems and formal methods, steady state analysis, frequency and transient response, application of the Laplace transform in the analysis of linear time-invariant networks.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [ENG 1450. Pre- or corequisite: MATH 2132 or [MATH 2100 and MATH 2110].

Equiv To: ECE 2260

ECE 3010 Elements of Electric Machines and Digital Systems 4 cr

(Lab required) Introduction to elementary concepts in ac circuits, electric machines, and digital sub-systems. Topics include electrical impedance, capacitors, inductors, electric motors, logic gates, decoders, multiplexing, flip flops, registers, microprocessor structures, I/O and data acquisition. Not available to students in Electrical or Computer Engineering.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ENG 1450, MATH 2132, and a year class designation of Year 3 or Year 4.

Equiv To: ECE 3680

ECE 3540 Advanced Circuit Analysis and Design 4 cr

(Lab required) Application of the Laplace Transform in the analysis of linear time-invariant networks, poles, zeros and frequency response; natural frequencies; general network theorems; two ports; energy and passivity; transmission lines; time and frequency domain.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 2262 (or ECE 2260) and MATH 3132 (or MATH 3100).

ECE 3580 Foundations of Electromagnetics 4 cr

(Lab required) (Formerly ECE 2130) Fundamental laws of field theory; Maxwell's equations in integral and point form.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 2240, PHYS 2152, and MATH 3132 (MATH 3100).

Equiv To: ECE 2130

ECE 3590 Electromagnetic Theory 4 cr

(Lab required) Maxwell's equations; plane electromagnetic waves; transmission line theory; electromagnetic radiation and introduction to antennas.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 3580 (or the former ECE 2130.)

ECE 3600 Physical Electronics 4 cr

(Lab required) Basic solid state theory; properties of semi-conductors; principles of metal-semiconductor junctions, p-n junctions and transistors; optoelectronic processes.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: PHYS 2152 (or PHYS 1070) and MATH 3132 (or MATH 3100), and ECE 3670.

ECE 3610 Microprocessing Systems 4 cr

(Lab required) Fundamentals of microprocessors and microcomputers; data flow; machine programming; architectures and instructions sets; stacks, subroutines, I/O, and interrupts; interfacing fundamentals; designing with microprocessors.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 2220.

Mutually Exclusive: COMP 2280

ECE 3650 Electric Machines 5 cr

(Lab required) Continuation of ECE 3720, including steady state and transient performance and introductory power systems theory.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 3720

ECE 3670 Electronics 3E 4 cr

(Lab required) Continuation of ECE 2160, including device models, feedback, regulators, frequency effects, oscillators, and bistability and gates.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 2160.

ECE 3700 Telecommunication Network Engineering 4 cr

(Lab required) This course will introduce modem concepts in telecommunications, including LANs, WANs, telephone networks, wireless and mobile networks, and Internet networks. Focus will be on design engineering, and management of networks, and on network programming for client server architectures.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: COMP 2140.

Mutually Exclusive: COMP 3720, COMP 4300

ECE 3720 Electric Power and Machines 4 cr

(Lab required) Principles and applications of electric power, energy conversion and machines.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 2262.

ECE 3730 Principles of Embedded System Design 4 cr

(Lab required) This course will introduce students to the design and implementation of embedded systems. Topics include introduction to UML and data structures, A-to-D, D-to-A, serial bus architectures, embedded computing, bus-based computer systems, program design and analysis, networks, and hardware-software co-design.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ECE 2160, ECE 3610 and (COMP 1010 or COMP 1012).

ECE 3740 Systems Engineering Principles 1 4 cr

(Lab required) Complexity and other system measures and analysis, system architectures and architectural elements for embedded systems, hardware and software, incremental design elaboration. Coding, testing, debugging, verification and validation. Project planning, cost analysis and maintenance. Real-time systems, graphical user interfaces and computational models.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: COMP 2140.

ECE 3750 Systems Engineering Principles 2 4 cr

(Lab required) Reliability measures and analysis, software system architectures, system metrics, system verification for embedded systems. Coding practices for large scale embedded system development. Real-time systems, graphical user interfaces, and computational models.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 3740.

ECE 3760 Digital Systems Design 1 4 cr

(Lab required) Design methodologies for the development of digital hardware, including system specification, component allocation, functional partitioning, specification refinement, implementation, verification, and testing. Hardware-software co-design.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 4240.

Mutually Exclusive: COMP 4550

ECE 3770 Digital Systems Design 2 4 cr

(Lab required) Executable system specification and a methodology for system partitioning and refinement into system-level components. Models and architectures, specification languages, translation to an HDL, system partitioning, design quality estimation, specification refinement into synthesizable models.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 4240 and MATH 3120.

ECE 3780 Signal Processing 1 4 cr

(Lab required) Introduction to signals and systems; spectral analysis (Fourier Series) of continuous-time periodic signals; spectral analysis of aperiodic signals (Fourier Transform); the impulse response and convolution operator; frequency analysis of linear time-invariant systems; applications to filtering, communications systems, and biological systems; A/D conversion; sampling. Laboratory periods will be used to give students hands-on experience in programming many of the techniques covered in the theoretical parts of the course.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ECE 2262 or ECE 2260 and MATH 3132 or MATH 3100.

ECE 3790 Engineering Algorithms 4 cr

(Lab required) Numerical algorithms, optimization, statistical description of data random number generation, string processing, geometric algorithms, algorithm machines, dynamic programming and NP complete problems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or Corequisite: COMP 2140 and MATH 3132 (or the former MATH 3100).

ECE 4100 Introduction to Microelectronic Fabrication 4 cr

(Lab required) Introduction to the fabrication of integrated circuits (ICs). Emphasis is on silicon based devices. Topics include water preparation, oxidation, thin film deposition, diffusion and ion implantation, lithography, wet and dry etching and metallization. An introduction to MEMS and micromachining technology is given.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 3670.

ECE 4150 Control Systems 4 cr

(Lab required) Principal methods of analysis and design for feedback control systems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 2160 and ECE 3780.

ECE 4160 Control Engineering 4 cr

(Lab required) Design of control systems by frequency domain and root locus method; state equations; introduction to nonlinear analysis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 4150.

ECE 4180 Introduction to Robotics 4 cr

(Lab required) This course provides fundamental concepts of robotics, including robot classification and applications, robot kinematics, sensor and actuators, sensor interfacing, motor control, trajectory planning, and robot programming.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ECE 4150 and (ECE 4240 or ECE 3730).

ECE 4240 Microprocessor Interfacing 4 cr

(Lab required) Interfacing of microcomputers to the external world: interfacing of I/O devices with minimum hardware and software; data acquisition with and without microprocessors; data communication, transmission and logging with small computers.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 2160 and ECE 3610.

Mutually Exclusive: COMP 4550

ECE 4250 Digital Communications 4 cr

(Lab required) Transmission of digital data; error rates, interference. Information measures, information rate and channel capacity. Coding.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 4260 and ECE 3780.

ECE 4260 Communications Systems 4 cr

(Lab required) Development and applications of random processes. Analysis and comparison of modulation schemes: AM, FM, PM, PCM.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ECE 3780 and STAT 2220.

ECE 4270 Antennas 4 cr

(Lab required) Radiation fundamentals, linear antennas, point source arrays, aperture antennas, antenna impedance, antenna systems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 3590.

ECE 4280 Engineering Electromagnetics 4 cr

(Lab required) Plane, cylindrical and spherical waves, introduction to scattering and diffraction, waveguides, transmission line applications.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 3590.

ECE 4290 Microwave Engineering 4 cr

(Lab required) Microwave circuit analysis; passive and active devices; communication system power budget and signal-to-noise ratio calculations.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 3590.

ECE 4300 Electrical Energy Systems 1 4 cr

(Lab required) Power system component modelling and computational methods for system problems such as load flow, faults, and stability.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 3650.

ECE 4310 Electrical Energy Systems 2 4 cr

(Lab required) Generating stations. Power system stability and optimal operation. EHV-ac and HVDC power transmission. Power system protective relaying and reliability evaluation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ECE 4150 and ECE 4300.

ECE 4360 High Voltage Engineering 4 cr

(Lab required) The course serves as an introduction to high voltage engineering, including basics of electrical breakdown, high voltage generation, high voltage test systems, measurement and analysis techniques as applied to power system apparatus, such as cables, insulators, transformers, and generators.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 3580, ECE 3720.

ECE 4370 Power Electronics 4 cr

(Lab required) Thyristor device theory and operation, controlled rectifiers and line-commutated inverters, and forced commutation as applied to d/c choppers and a/c variable frequency and voltage inverters.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ECE 3720 and ECE 2160.

ECE 4390 Engineering Computations 4E 4 cr

(Lab required) Development and application of numerical methods for the solution of electrical and computer engineering problems. Optimization techniques. Finite difference, finite element and boundary element methods. Solution of large systems of linear and non-linear equations.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 3132, ECE 2240.

ECE 4420 Digital Control 4 cr

(Lab required) Mathematical modelling of sampling switches. Z-transforms. Response and stability of systems involving sampling. Design of digital compensators.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ECE 4830 and ECE 4150.

ECE 4430 Design of RF Devices and Wireless Systems 4 cr

(Lab required) Techniques for the system level design, simulation, fabrication, and testing of RF devices and microwave circuits, including the basics of radar and RFID technology. May not be held with ECE 4860 when titled "Design of RF Devices and Wireless Systems".

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 3590.

Mutually Exclusive: ECE 4860

ECE 4440 Computer Vision 4 cr

(Lab required) Image formation and sensing, image compression, degradation and restoration, geometrical and topological properties, pattern classification, segmentation procedures, line-drawing images, texture analysis, 3-D image processing.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 3780.

ECE 4450 Applied Computational Intelligence 4 cr

(Lab required) Computational intelligence and machine learning algorithms and their application in solving complex engineering problems. May not be held with COMP 4360 or ECE 4850 when titled "Applied Computational Intelligence".

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 3132.

Mutually Exclusive: COMP 4360, ECE 4850

ECE 4520 Simulation and Modelling 4 cr

Monte Carlo Methods, random processes, simulation of complex systems in the design of computer systems. Use of statistical interference and measures of performance in hardware and software systems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: STAT 2220 and COMP 2140.

ECE 4530 Parallel Processing 4 cr

(Lab required) This course provides an overview of parallel processing (classification of parallel processing architectures and other select topics), parallel programming strategies (embarrassingly parallel partitioning, divide-and-conquer, and other select topics), applied design and implementation of parallel software solutions (including distributed computing, shared memory computing, and GPGPU computing), and evaluation of parallel performance (time and memory complexity, speedup, efficiency, Amdahl's law, Gustafson's law).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (COMP 2140 and ECE 3790) or (ECE 2240 and ECE 3730).

Mutually Exclusive: COMP 4510

ECE 4540 Wireless Networks 4 cr

(Lab required) Introduction to wireless communications systems, network architectures, protocols and applications. Topics include mobile computing systems, signals propagation, channel modelling, modulation, and networking standards.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 3700 and ECE 3780.

ECE 4560 Modern Computing Systems 4 cr

(Lab required) Advanced topics in computer architecture and organization, such as instruction set architecture, performance measures, pipeline processor design, data and instruction cache, data dependencies, branch prediction and penalties, superscalar architecture, multithreading, out-of-order execution, speculative execution, overlapping register windowing, and multiprocessor system design. May not be held with ECE 4850 when titled "Modern Computing Systems".

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 3610.

Mutually Exclusive: ECE 4850

ECE 4580 Optoelectronics 4 cr

(Lab required) Basic theory of quantum mechanics; solution of Schrodinger equations; interaction of radiation with matter; masers and lasers; propagation, modulation, excitation and detection in optical waveguides; introduction to fiber and integrated optics.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 3600.

ECE 4600 Group Design Project 6 cr

The engineering curriculum must culminate in a significant design experience which is based on the knowledge and skills acquired in earlier course work and which gives students an exposure to the concepts of team work and project management.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [ENG 2030 or ENG 2040 or the former ENG 2010] and ECE 3780 and [(ECE 3580 (or the former ECE 2130), ECE 3720, ECE 3670 and ECE 3610) or (ECE 3700, ECE 3760 and ECE 3740)].

ECE 4610 Biomedical Instrumentation and Signal Processing 4 cr

(Lab required) Introduction to biological systems and the application of engineering principles to medical problems. Students design systems to acquire and analyze biological signals in the laboratory. Content includes introduction to relevant physiology and anatomy of cells, skeletal muscles, heart and cardiovascular systems, human balance and biomechanics, recording and analyzing biological signals (ECG, EMG, respiratory sounds), design of instrumentation amplifiers for signal conditioning, medical instrumentation safety and health hazards.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ECE 2160 and ECE 3780.

ECE 4740 Digital Systems Implementation 4 cr

(Lab required) Implementation methodologies and technologies for digital systems, including VLSI implementations, PCB implementations, and rapid prototyping (FPGA). Not to be held with ECE 4500.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 4240.

ECE 4830 Signal Processing 2 4 cr

(Lab required) Representation of discrete-time signals and systems in the time and frequency domains; the z-transform; application to various discrete-time linear time-invariant systems; design of digital filters. Laboratory periods will be used to give students hands-on experience in programming many of the techniques covered in the theoretical parts of the course.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ECE 3780.

ECE 4850 Topics in Electrical and Computer Engineering 1 4 cr

(Lab required) This course will cover contemporary topics in Electrical and Computer Engineering via lectures and laboratory sessions. The specific topics and a detailed course outline will be available at the time or registration.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of the Department.

Mutually Exclusive: ECE 4450, ECE 4560

ECE 4860 Topics in Electrical and Computer Engineering 2 4 cr

(Lab required) This course will cover contemporary topics in Electrical and Computer Engineering via lectures and laboratory sessions. The specific topics and a detailed course outline will be available at the time or registration.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of the Department.

Mutually Exclusive: ECE 4430

ECE 4870 Topics in Electrical and Computer Engineering 3 3 cr

This lecture based course will cover contemporary topics in Electrical and Computer Engineering. The specific topics and a detailed course outline will be available at the time of registration.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of the Department.

ECE 4880 Topics in Electrical and Computer Engineering 4 3 cr

This lecture based course will cover contemporary topics in Electrical and Computer Engineering. The specific topics and a detailed course outline will be available at the time of registration.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of the Department.

Engineering (ENG)

ENG 1420 Engineering Processes for Non-Engineering Students 3 cr

Develops a basic understanding of the engineering profession with emphasis on basic technical principles, Systems Engineering, and Project Management. Special emphasis will be placed upon the interface between management and engineering and the role management plays in the conduct of technical projects and manufacturing. NOTE: This course is not available for credit to students registered in the Price Faculty of Engineering.

ENG 1430 Design in Engineering 3 cr

The creative process; the design process; working in a team. The engineering profession from the perspective of students and professionals. Academic, legal and ethical considerations.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [A minimum grade of 60% in Pre-Calculus Mathematics 40S (or a minimum grade of "C" in one of MATH 0401, MATH 1018, MATH 1230, MATH 1500, MATH 1501, MATH 1510, MATH 1520, MATH 1690, MSKL 0100, or the former MATH 1680)] and [a minimum grade of 60% in Physics 40S (or a passing grade in PHYS 0900 or PSKL 0100; or a minimum grade of "C" in PHYS 1018, PHYS 1050, or PHYS 1051)] and [a minimum grade of 60% in Chemistry 40S (or a passing grade in CHEM 0900 or CSKL 0100; or a minimum grade of "C" in CHEM 1018, CHEM 1100, CHEM 1301, or the former CHEM 1300)] or their equivalents.

Attributes: Recommended Intro Courses

ENG 1440 Introduction to Statics 3 cr

(Lab required) Statics of particles; rigid bodies, equilibrium of rigid bodies; analysis of structures; distributed forces. Not to be held with ENG 1441 .

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [A minimum grade of 60% in Pre-Calculus Mathematics 40S (or a minimum grade of "C" in one of MATH 0401, MATH 1018, MATH 1230, MATH 1500, MATH 1501, MATH 1510, MATH 1520, MATH 1690, MSKL 0100, or the former MATH 1680)] and [a minimum grade of 60% in Physics 40S (or a passing grade in PHYS 0900 or PSKL 0100; or a minimum grade of "C" in PHYS 1018, PHYS 1050, or PHYS 1051)] and [a minimum grade of 60% in Chemistry 40S (or a passing grade in CHEM 0900 or CSKL 0100; or a minimum grade of "C" in CHEM 1018, CHEM 1100, CHEM 1301, or the former CHEM 1300)] or their equivalents.

Equiv To: ENG 1441

Attributes: Recommended Intro Courses

ENG 1450 Introduction to Electrical and Computer Engineering 3 cr

(Lab required) Part I: Current, voltage, energy, potential, power Ohm's law; independent sources; capacitor, inductor, ideal diode, op-amp; Kirchoff's law; simple circuits (Resistive, RC, RL, OP-Amp; Diode); introduction to ac theory (Sinusoidal waveform, phase relations of voltage and current waveforms for R,L,C. RL and RC circuits). Part II: Applications (Digital Logic, motors).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [A minimum grade of 60% in Pre-Calculus Mathematics 40S (or a minimum grade of "C" in one of MATH 0401, MATH 1018, MATH 1230, MATH 1500, MATH 1501, MATH 1510, MATH 1520, MATH 1690, MSKL 0100, or the former MATH 1680)] and [a minimum grade of 60% in Physics 40S (or a passing grade in PHYS 0900 or PSKL 0100; or a minimum grade of "C" in PHYS 1018, PHYS 1050 or PHYS 1051)] and [a minimum grade of 60% in Chemistry 40S (or a passing grade in CHEM 0900 or CSKL 0100; or a minimum grade of "C" in CHEM 1018, CHEM 1100 or CHEM 1301 or the former CHEM 1300)] or their equivalents.

Attributes: Recommended Intro Courses

ENG 1460 Introduction to Thermal Sciences 3 cr

(Lab required) Properties of pure substances; first law for closed systems; first law for open systems; second law; examples of power cycles and refrigeration cycles.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [A minimum grade of 60% in Pre-Calculus Mathematics 40S (or a minimum grade of "C" in one of MATH 0401, MATH 1018, MATH 1230, MATH 1500, MATH 1501, MATH 1510, MATH 1520, MATH 1690, MSKL 0100, or the former MATH 1680)] and [a minimum grade of 60% in Physics 40S (or a passing grade in PHYS 0900 or PSKL 0100; or a minimum grade of "C" in PHYS 1018, PHYS 1050 or PHYS 1051)] and [a minimum grade of 60% in Chemistry 40S (or a passing grade in CHEM 0900 or CSKL 0100; or a minimum grade of "C" in CHEM 1018, CHEM 1100 or CHEM 1301 or the former CHEM 1300)] or their equivalents.

Attributes: Recommended Intro Courses

ENG 1900 Occupational Health and Safety Awareness 3 cr

Occupational health and safety will be discussed from the perspectives of various professions to understand 1) the issues relevant to individual professions and 2) how these individual perspectives may conflict. The overall goal for the course is to ensure that the student gains an appreciation for the importance of occupational health and safety to society.

ENG 2022 Engineering CAD Technology for Biosystems 3 cr

(Lab required) Instruction in the use of current CAD technology for conveying design through the use of graphics. Students will gain knowledge in technical drawing, 3D modelling techniques, production technology, and visual communication. Registration restricted to students in Engineering.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOE 2900 or the former BIOE 2580.

Mutually Exclusive: MECH 2112

ENG 2030 Engineering Communication: Strategies for the Profession 3 cr

Students work in a team-based environment to produce deliverables comparable to the engineering workplace. In-class tutorials focus on the sharpening of individual students' writing skills through an analytical, problem-solving and critical thinking approach. Students are exposed to a variety of communicative scenarios and emphasis is placed on development of a repertoire of skills necessary for effective communication in the engineering profession. Not to be held with the former ENG 2010.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ENG 1430 and one of the courses from the list of Written English Courses for Engineering Students.

Mutually Exclusive: ENG 2010

ENG 2040 Engineering Communication: Strategies, Practice and Design 3 cr

This team-based course focuses on a rhetorical approach, communication strategies and guided practice in the design of engineering communications. May not be held with the former ENG 2010.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ENG 1430 and one of the courses from the list of Written English Courses for Engineering Students.

Mutually Exclusive: ENG 2010

ENG 3000 Engineering Economics 3 cr

This course offers an introduction to the economic aspects of the engineering discipline. It covers applied economic concepts such as: time value of money, taxation in cash flows, breakeven points, inflation of goods, cost/benefit ratios, income and depreciation, and general microeconomic concepts. The focus includes analysis techniques such as: cash flow analysis, cost-based analysis, rate of return analysis, sensitivity analysis, replacement analysis, and risk mitigation. Concepts are introduced in the context of sustainability and project management fundamentals in a professional practice setting. May not be held with CIVL 4050.

Equiv To: CIVL 4050

ENG 3020 Technology, Society and the Future 3 cr

Impact of technology and technological change on society-past, present, future; specific technologies, e.g. construction. machine power, computers, communications, medical, military; the process of technological change; invisible effects of technology; technology and resource use; sustainable development, limits to growth and the role of technology. May not be held with CIVL 4460 or ANTH 2430.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: A grade of "C" or better in one of the courses from the list of Written English Courses for Engineering Students, or the former ENGL 1310.

Equiv To: CIVL 4460

Mutually Exclusive: ANTH 2430

ENG 4010 Practicing Professional Engineering in Manitoba 3 cr

An introduction to the practice of professional engineering in Manitoba, including culture, professional organization and regulation, employability aspects, engineering ethics and law.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Must be enrolled in the Internationally-Educated Engineers Qualification Program (IEEQ).

Mutually Exclusive: ENG 4020

ENG 4012 IEEQ CO-OP ASSIGNMENT 1 cr

Professional work assignment in business, industry, or government for cooperative education students in the IEEQ Program. Requires submission of a written report covering the work completed during a minimum 16-week work period. (Pass/Fail grade only).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: enrolled in IEEQ Program with 80% of courses complete, including ENG 4010; good academic standing.

ENG 4020 Professional Engineering Practice in Manitoba 4 cr

(Lab required) An introduction to the practice of professional engineering in Manitoba. Professional culture, organization and regulation; industry topics; engineering ethics and law. Emphasis on professional communication development. Restricted to students enrolled in the IEEQ Program. May not be held with ENG 4010.

Mutually Exclusive: ENG 4010

ENG 4100 Contemporary Topics in Engineering Practice 4 cr

This course will cover contemporary topics relating to the practice of professional engineering. The specific topics and a detailed outline will be available prior to the start of the registration period for the session in which the course will be offered. As the course content will vary from year to year, students may take this course more than once for credit.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of the Centre for Engineering Professional Practice and Engineering Education.

ENG 4110 Operational Excellence 4 cr

(Lab required) Methodical application of operational excellence and engineering principles and theory to address real industry problems, with emphasis on the data and fact-based engineering method of problem solving. Grounded in the Plan-Do-Study-Act system. Covers the seven step problem solving method (problem definition, examine the current situation, root cause analysis, action planning and testing, study the results, standardize the changes, and draw conclusions), applied concepts (Lean Six Sigma Management) and the fundamentals of teamwork, team dynamics and change management. It is expected that students will be challenged in terms of their understanding of the method, concepts, analytics, and the tools, and their application to solving 'real' operational problems. Students must attend both lecture and tutorial. Students will be required to attend meetings at industrial partner facilities. May not be held with MECH 4342 where the topic is Operational Excellence.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or Co-requisites: STAT 2220 or (STAT 1000 and STAT 2000).

Mutually Exclusive: MECH 4342

ENG 4800 Co-operative Work 1 1 cr

Work assignment in business, industry, or government for the Price Faculty of Engineering co-operative education stream students. Requires submission of a written report covering the work completed during the four-month professional assignment. It is assumed that courses ENG 4800, ENG 4810, ENG 4820, ENG 4830, ENG 4840 will be taken in order. Those registering for this course must have applied for and been accepted into the Price Faculty of Engineering co-operative stream. Not to be held with BIOE 2000, CIVL 2900, ECE 4720, MECH 2050 or ENG 4012. This course is graded on a pass/fail basis.

Equiv To: BIOE 2000, CIVL 2900, ECE 4720, ENG 4012, MECH 2050

ENG 4810 Co-operative Work 2 1 cr

Work assignment in business, industry, or government for the Price Faculty of Engineering co-operative education stream students. Requires submission of a written report covering the work completed during the four-month professional assignment. It is assumed that courses ENG 4800, ENG 4810, ENG 4820, ENG 4830 and ENG 4840 will be taken in order. Those registering for this course must have applied for and been accepted into the Price Faculty of Engineering co-operative education stream. Not to be held with: BIOE 3000, CIVL 3910, ECE 4720, or MECH 3050. This course is graded on a pass/fail basis.

Equiv To: BIOE 3000, CIVL 3910, ECE 4720, MECH 3050

ENG 4820 Co-operative Work 3 1 cr

Work assignment in business, industry, or government for the Price Faculty of Engineering co-operative education stream students. Requires submission of a written report covering the work completed during the four-month professional assignment. It is assumed that courses ENG 4800, ENG 4810, ENG 4820, ENG 4830 and ENG 4840 will be taken in order. Those registering for this course must have applied for and been accepted into the Price Faculty of Engineering co-operative education stream. Not to be held with: BIOE 4000, CIVL 4920, ECE 4720, or MECH 4050. This course is graded on a pass/fail basis.

Equiv To: BIOE 4000, CIVL 4920, ECE 4720, MECH 4050

ENG 4830 Co-operative Work 4 1 cr

Work assignment in business, industry, or government for the Price Faculty of Engineering co-operative education stream students. Requires submission of a written report covering the work completed during the four-month professional assignment. It is assumed that courses ENG 4800, ENG 4810, ENG 4820, ENG 4830, ENG 4840 will be taken in order. Those registering for this course must have applied for and been accepted into the Price Faculty of Engineering co-operative education stream. Not to be held with: CIVL 4930, ECE 4720, or MECH 4060. This course is graded on a pass/fail basis.

Equiv To: CIVL 4930, ECE 4720, MECH 4060

ENG 4840 Co-operative Work 5 1 cr

Work assignment in business, industry, or government for the Price Faculty of Engineering co-operative education stream students. Requires submission of a written report covering the work completed during the four-month professional assignment. It is assumed that courses ENG 4800, ENG 4810, ENG 4820, ENG 4830 and ENG 4840 will be taken in order. Those registering for this course must have applied for and been accepted into the Price Faculty of Engineering co-operative education stream. Not to be held with: CIVL 4940. This course is graded on a pass/fail basis.

Equiv To: CIVL 4940

English (ENGL)

ENGL 0930 English Composition 3 cr

Designed to help students write better essays. Course focuses on effective expression; sentence, paragraph, and essay construction; and the writing process. A great deal of writing is required; instructors address the particular needs of individual students. Students may not enter English courses numbered above the 1000 level directly from this course. This course is not designed to teach English as a second language. This course does not satisfy the Humanities requirement.

Attributes: Recommended Intro Courses, Written English Requirement

ENGL 0940 Writing About Literature 3 cr

Designed to supplement and to complement ENGL 0930, the course may be taken by itself. The course focuses on writing about literature through the study of the short story and poetry. Students may not normally enter English courses numbered above the 1000 level directly from this course. This course is not designed to teach English as a second language. This course does not satisfy the Humanities requirement.

Attributes: Recommended Intro Courses, Written English Requirement

ENGL 1200 Representative Literary Works 6 cr

An introduction to the study of literature, with emphasis on the development of reading and writing skills. Poetry, prose and drama from various historical periods. Texts for each section will be announced. Students may not hold credit for both ENGL 1200 and ENGL 1201. English 40S or the former English 300 are strongly recommended, but English 40G or the former 301 or 305 will also be accepted.

Equiv To: ENGL 1201

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

ENGL 1300 Literature since 1900 6 cr

An introduction to the study of literature, with emphasis on the development of reading and writing skills. Poetry, prose and drama from Canada, Britain, the United States and other countries. Texts for each section will be announced. Students may not hold credit for both ENGL 1300 and ENGL 1301. English 40S or the former English 300 are strongly recommended, but English 40G or the former 301 or 305 will also be accepted.

Equiv To: ENGL 1301

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

ENGL 1340 Introduction to Literary Analysis 3 cr

This course is intended to provide students with reading, writing, and analytic skills required for literary studies.

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

ENGL 1400 Thematic Approaches to the Study of Literature 3 cr

An introduction to the study of literature, with emphasis on the development of reading and writing skills. Poetry, prose, and drama from various thematic perspectives. Texts for each section will be announced. English 40S or the former English 300 are strongly recommended, but English 40G or the former 301 or 305 will also be accepted. Students may not hold credit for both ENGL 1400 and the former ENGL 1310.

Equiv To: ENGL 1310

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

ENGL 2000 Intermediate Writing and Research 6 cr

Designed to teach students how to read, write, and research at the university level, this course stresses effective expository writing, prose reading, and research skills. There is no prerequisite for this course. Students may not hold credit for both ENGL 2000 and ENGL 2001. NOTE: Credit in ENGL 2000 is acceptable toward a degree in Arts or Science, but does not satisfy the humanities requirement in the Faculty of Arts. It may not be offered for credit in the 30 hours for a Major (General) or the 18 hours for a Minor but may be offered for credit in the 48 hours for the Major (Advanced).

Equiv To: ENGL 2001

Attributes: Written English Requirement

ENGL 2070 Literature of the Sixteenth Century 6 cr

A survey of poetry, prose and drama by major and minor writers in historical context. Students may not hold credit for both ENGL 2070 and ENGL 2071.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ENGL 1200 or ENGL 1201 or ENGL 1300 or ENGL 1301] or [a grade of "C" or better in each of ENGL 1400 (or the former ENGL 1310) and ENGL 1340].

Equiv To: ENGL 2071

Attributes: Humanities, Written English Requirement

ENGL 2080 Medieval Literature 6 cr

A survey of poetry, prose and drama by major and minor writers in historical context.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ENGL 1200 or ENGL 1201 or ENGL 1300 or ENGL 1301] or [a grade of "C" or better in each of ENGL 1400 (or the former ENGL 1310) and ENGL 1340].

Attributes: Humanities, Written English Requirement

ENGL 2090 Literature of the Seventeenth Century 6 cr

A survey of poetry, prose and drama by major and minor writers in historical context. Students may not hold credit for both ENGL 2090 and ENGL 2091.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ENGL 1200 or ENGL 1201 or ENGL 1300 or ENGL 1301] or [a grade of "C" or better in each of ENGL 1400 (or the former ENGL 1310) and ENGL 1340].

Equiv To: ENGL 2091

Attributes: Humanities, Written English Requirement

ENGL 2120 Literature of the Restoration and Eighteenth Century 6 cr

A survey of poetry, prose and drama by major and minor writers in historical context.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [ENGL 1200 or ENGL 1201 or ENGL 1300 or ENGL 1301] or [ENGL 1400 (or the former ENGL 1310) and ENGL 1340].

Attributes: Humanities, Written English Requirement

ENGL 2130 Literature of the Romantic Period 6 cr

A survey of poetry, prose and drama by major and minor writers in historical context.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ENGL 1200 or ENGL 1201 or ENGL 1300 or ENGL 1301] or [a grade of "C" or better in each of ENGL 1400 (or the former ENGL 1310) and ENGL 1340].

Attributes: Humanities, Written English Requirement

ENGL 2140 Literature of the Victorian Period 6 cr

A survey of poetry, prose and drama by major and minor writers in historical context.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ENGL 1200 or ENGL 1201 or ENGL 1300 or ENGL 1301] or [a grade of "C" or better in each of ENGL 1400 (or the former ENGL 1310) and ENGL 1340].

Attributes: Humanities, Written English Requirement

ENGL 2160 British Literature since 1900 6 cr

A survey of poetry, prose and drama by major and minor writers in historical context. Students may not hold credit for both ENGL 2160 and ENGL 2161.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ENGL 1200 or ENGL 1201 or ENGL 1300 or ENGL 1301] or [a grade of "C" or better in each of ENGL 1400 (or the former ENGL 1310) and ENGL 1340].

Equiv To: ENGL 2161

Attributes: Humanities, Written English Requirement

ENGL 2170 American Literature to 1900 6 cr

A survey of poetry, prose and drama by major and minor writers in historical context.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ENGL 1200 or ENGL 1201 or ENGL 1300 or ENGL 1301] or [a grade of "C" or better in each of ENGL 1400 (or the former ENGL 1310) and ENGL 1340].

Attributes: Humanities, Written English Requirement

ENGL 2180 American Literature since 1900 6 cr

A survey of poetry, prose and drama by major and minor writers in historical context.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ENGL 1200 or ENGL 1201 or ENGL 1300 or ENGL 1301] or [a grade of "C" or better in each of ENGL 1400 (or the former ENGL 1310) and ENGL 1340].

Attributes: Humanities, Written English Requirement

ENGL 2190 Special Topics 3 cr

The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ENGL 1200 or ENGL 1201 or ENGL 1300 or ENGL 1301] or [a grade of "C" or better in each of ENGL 1400 (or the former ENGL 1310) and ENGL 1340].

Attributes: Humanities, Written English Requirement

ENGL 2270 Canadian Literature 6 cr

A survey of poetry, prose and drama by major and minor writers in historical context.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ENGL 1200 or ENGL 1201 or ENGL 1300 or ENGL 1301] or [a grade of "C" or better in each of ENGL 1400 (or the former ENGL 1310) and ENGL 1340].

Attributes: Written English Requirement

ENGL 2280 Film and Literature 6 cr

The interrelationships between literature and film through an analysis of significant films, novels, poems and plays. Special attention to adaptations of Shakespeare, modern drama, the 19th century novel, the modern novel, and popular fiction.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ENGL 1200 or ENGL 1201 or ENGL 1300 or ENGL 1301] or [a grade of "C" or better in each of ENGL 1400 (or the former ENGL 1310) and ENGL 1340] or [a grade of "C" or better in each of FILM 1290 and FILM 1310 (or the former FILM 1300)]. Also offered as FILM 2280. Students may not hold credit for both ENGL 2810 and FILM 2280.

Equiv To: FILM 2280

Attributes: Humanities, Written English Requirement

ENGL 2490 Literature in Translation 3 cr

Content of this course will vary from year to year and from section to section. See the course descriptions available from the English Department. Each section of this course will be double-numbered with the department of the instructor teaching the course. Restrictions: See note 4 in the program table under section 8.10.2 English. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ENGL 1200 or ENGL 1201 or ENGL 1300 or ENGL 1301] or [a grade of "C" or better in each of ENGL 1400 (or the former ENGL 1310) and ENGL 1340].

Attributes: Humanities, Written English Requirement

ENGL 2550 Critical Practise 3 cr

An introduction to the critical idioms and methods for the analysis of literary texts. This course emphasizes the application of critical idioms and methods in the analysis of literary texts. Students may not hold credit for both ENGL 2550 and the former ENGL 2800.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ENGL 1200 or ENGL 1201 or ENGL 1300 or ENGL 1301] or [a grade of "C" or better in each of ENGL 1400 (or the former ENGL 1310) and ENGL 1340].

Attributes: Humanities, Written English Requirement

ENGL 2570 The Novel 6 cr

A survey of the development of the novel as a genre.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ENGL 1200 or ENGL 1201 or ENGL 1300 or ENGL 1301] or [a grade of "C" or better in each of ENGL 1400 (or the former ENGL 1310) and ENGL 1340].

Attributes: Humanities, Written English Requirement

ENGL 2600 Writing and Gender 3 cr

The literary representation of gender, the influence of the author's gender on writing, and other issues of gender in literature.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ENGL 1200 or ENGL 1201 or ENGL 1300 or ENGL 1301] or [a grade of "C" or better in each of ENGL 1400 (or the former ENGL 1310) and ENGL 1340].

Attributes: Humanities, Written English Requirement

ENGL 2620 Introduction to Print Culture and Book History 3 cr

This course will introduce students to a broad range of methodologies and topics important for the study of book history, print and post-print culture. Students will study texts from and/or about the four main areas of book history: manuscript, hand-press printing, machine press printing, and digital publishing while also being introduced to the methodologies of authorship and reception studies.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in one of: ENGL 1200 or ENGL 1201 or ENGL 1300 or ENGL 1301] or [a grade of "C" or better in each of ENGL 1400 (the former ENGL 1310) and ENGL 1340].

Attributes: Written English Requirement

ENGL 2650 Introduction to Critical Theory 3 cr

An introduction to the history and application of critical theory for the study of literature and other media. The course will cover at least three distinct schools of critical theory and at least two distinct historical eras.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ENGL 1200 or ENGL 1201 or ENGL 1300 or ENGL 1301] or [a grade of "C" or better in each of ENGL 1400 (or the former ENGL 1310) and ENGL 1340].

Attributes: Humanities, Written English Requirement

ENGL 2760 Introductory Creative Writing 3 cr

Offers students the chance to explore the basic forms of creative writing - poetry, fiction, and drama - whether or not they have made previous formal attempts to write in these forms. A sample of the student's writing is not required for admission to this course. The format is seminar and workshop and will include, as needed, lectures on the fundamentals of creative writing. Students may not register concurrently for ENGL 2760 and ENGL 3500. Not open to students who have previously obtained credit for any of ENGL 3500 or the former ENGL 3790.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ENGL 1200 or ENGL 1201 or ENGL 1300 or ENGL 1301] or [a grade of "C" or better in each of ENGL 1400 (the former ENGL 1310) and ENGL 1340].

Attributes: Humanities, Written English Requirement

ENGL 2830 Literature of Africa and/or the Caribbean 3 cr

This course will explore the literatures of Africa and the Caribbean by writers from Nigeria, South Africa, Kenya, Zimbabwe, Grenada, Jamaica, and/or Trinidad. We will also examine the theories often associated with postcolonialism - theories of marginality, power, alterity, ethnicity, race, locality, space, the subaltern, mimicry, hybridity, nationalism, diaspora, class, migration, multiculturalism, minority discourse, resistance, and historical revisionism - in a comparative context. Accordingly, we will be reading both fictional and theoretical works. The central objective of this course is to offer an overview of some contemporary world literature written in English. Students will also be encouraged to examine the texts from a variety of complimentary literary perspectives including new historicism, feminism, and Marxism.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ENGL 1200 or ENGL 1201 or ENGL 1300 or ENGL 1301] or [a grade of "C" or better in each of ENGL 1400 (or the former ENGL 1310) and ENGL 1340].

Attributes: Humanities, Written English Requirement

ENGL 2900 Genre 3 cr

Selections in literature of a particular genre. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ENGL 1200 or ENGL 1201 or ENGL 1300 or ENGL 1301] or [a grade of "C" or better in each of ENGL 1400 (or the former ENGL 1310) and ENGL 1340].

Attributes: Humanities, Written English Requirement

ENGL 2940 Short Fiction 3 cr

Representative writers.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ENGL 1200 or ENGL 1201 or ENGL 1300 or ENGL 1301] or [a grade of "C" or better in each of ENGL 1400 (or the former ENGL 1310) and ENGL 1340].

Attributes: Humanities, Written English Requirement

ENGL 2960 Drama 3 cr

An introduction to dramatic forms and conventions. Students may not hold credit for both ENGL 2960 and ENGL 2961.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ENGL 1200 or ENGL 1201 or ENGL 1300 or ENGL 1301] or [a grade of "C" or better in each of ENGL 1400 (or the former ENGL 1310) and ENGL 1340].

Equiv To: ENGL 2961

Attributes: Humanities, Written English Requirement

ENGL 2980 Poetry 3 cr

Introduction to poetic language and forms.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ENGL 1200 or ENGL 1201 or ENGL 1300 or ENGL 1301] or [a grade of "C" or better in each of ENGL 1400 (or the former ENGL 1310) and ENGL 1340].

Attributes: Humanities, Written English Requirement

ENGL 3000 Chaucer 6 cr

Critical study of the works of this author, including historical context.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six hours of English at the 2000 level.

Attributes: Humanities, Written English Requirement

ENGL 3010 Shakespeare 6 cr

Critical study of the works of this author, including historical context. Students may not hold credit for both ENGL 3010 and ENGL 3011.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six hours of English at the 2000 level.

Equiv To: ENGL 3011

Attributes: Humanities, Written English Requirement

ENGL 3030 Studies in Sixteenth-Century Literature 3 cr

NOTE: The content of this course will vary from year to year. Students are asked to consult the Department of English, Theatre, Film & Media website for detailed course descriptions. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six hours of English at the 2000 level.

Attributes: Humanities, Written English Requirement

ENGL 3050 Studies in Old English 6 cr

NOTE: The content of this course will vary from year to year. Students are asked to consult the Department of English, Theatre, Film & Media website for detailed course descriptions. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six hours of English at the 2000 level.

Attributes: Humanities, Written English Requirement

ENGL 3080 Studies in Medieval Literature 3 cr

NOTE: The content of this course will vary from year to year. Students are asked to consult the Department of English, Theatre, Film & Media website for detailed course descriptions. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six hours of English at the 2000 level.

Attributes: Humanities, Written English Requirement

ENGL 3090 Studies in Seventeenth-Century Literature 3 cr

NOTE: The content of this course will vary from year to year. Students are asked to consult the Department of English, Theatre, Film & Media website for detailed course descriptions. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six hours of English at the 2000 level.

Attributes: Humanities, Written English Requirement

ENGL 3120 Studies in Restoration and Eighteenth-Century Literature 3 cr

NOTE: The content of this course will vary from year to year. Students are asked to consult the Department of English, Theatre, Film & Media website for detailed course descriptions. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six hours of English at the 2000 level.

Attributes: Humanities, Written English Requirement

ENGL 3130 Studies in the Romantics 3 cr

NOTE: The content of this course will vary from year to year. Students are asked to consult the Department of English, Theatre, Film & Media website for detailed course descriptions. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six hours of English at the 2000 level.

Attributes: Humanities, Written English Requirement

ENGL 3140 Studies in the Victorians 3 cr

NOTE: The content of this course will vary from year to year. Students are asked to consult the Department of English, Theatre, Film & Media website for detailed course descriptions. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different. Students may not hold credit for both ENGL 3140 and ENGL 3141.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six hours of English at the 2000 level.

Equiv To: ENGL 3141

Attributes: Humanities, Written English Requirement

ENGL 3170 Studies in American Literature 3 cr

NOTE: The content of this course will vary from year to year. Students are asked to consult the Department of English, Theatre, Film & Media website for detailed course descriptions. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six hours of English at the 2000 level.

Attributes: Humanities, Written English Requirement

ENGL 3180 Studies in Renaissance Literature 3 cr

NOTE: The content of this course will vary from year to year. Students are asked to consult the Department of English, Theatre, Film & Media website for detailed course descriptions. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six hours of English at the 2000 level.

Attributes: Humanities, Written English Requirement

ENGL 3190 Studies in Special Topics 6 cr

NOTE: The content of this course will vary from year to year. Students are asked to consult the Department of English, Theatre, Film & Media website for detailed course descriptions. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six hours of English at the 2000 level.

Attributes: Humanities, Written English Requirement

ENGL 3270 Studies in Canadian Literature 3 cr

The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different. Students may not hold credit for both ENGL 3270 and ENGL 3271.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six hours of English at the 2000 level.

Equiv To: ENGL 3271

Attributes: Humanities, Written English Requirement

ENGL 3500 Creative Writing 6 cr

This advanced seminar will include practical and theoretical components and will focus on the generation and revision of work within the main literary genres: prose, poetry, drama, and memoir, with an emphasis on preparing pieces for publication. Students may not hold credit for both ENGL 3500 and the former ENGL 3790.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ENGL 2760] or written consent of instructor, based on a letter of application and a writing sample to be submitted electronically to the Department general office no later than one month prior to the start of the course.

Mutually Exclusive: ENGL 3790

Attributes: Humanities, Written English Requirement

ENGL 3530 Special Topics in Creative Writing 3 cr

This advanced studies course will include practical and theoretical components and will focus on a particular area of writing craft or poetics without an emphasis on end-of-term publication or production. Possible topics include prose fiction, poetry, memoir, dramaturgy, and screenwriting. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [a grade of "C" or better in ENGL 2760] or written consent of instructor, based on a letter of application and a writing sample to be submitted electronically to the Department general office no later than one month prior to the start of the course.

Attributes: Humanities, Written English Requirement

ENGL 3550 Studies in British Literature since 1900 3 cr

NOTE: The content of this course will vary from year to year. Students are asked to consult the Department of English, Theatre, Film & Media website for detailed course descriptions. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six hours of English at the 2000 level.

Attributes: Humanities, Written English Requirement

ENGL 3620 Special Topics in Print Culture and Book History 3 cr

Content of this course will vary from year to year and from section to section. However, all courses under this designation will be primarily (but not exclusively) focused on the conditions of dissemination and/or reception of the works being discussed and on their material form. Students are asked to consult the Department of English, Theatre, Film & Media website for detailed course descriptions. As the course content will vary from year to year, students may take this course more than once for credit.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six hours of English at or above the 2000 level.

Attributes: Humanities, Written English Requirement

ENGL 3630 Studies in Critical Theory 3 cr

NOTE: The content of this course will vary from year to year. Students are asked to consult the Department of English, Theatre, Film & Media website for detailed course descriptions. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six hours of English at the 2000 level.

Attributes: Humanities, Written English Requirement

ENGL 3670 Studies in the Novel 6 cr

NOTE: The content of this course will vary from year to year. Students are asked to consult the Department of English, Theatre, Film & Media website for detailed course descriptions. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different. Students may not hold credit for both ENGL 3670 and ENGL 3671.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six hours of English at the 2000 level.

Equiv To: ENGL 3671

Attributes: Humanities, Written English Requirement

ENGL 3800 Special Studies 3 cr

NOTE: The content of this course will vary from year to year. Students are asked to consult the Department of English, Theatre, Film & Media website for detailed course descriptions. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six hours of English at the 2000 level.

Attributes: Humanities, Written English Requirement

ENGL 3890 Studies in Writing and Gender 3 cr

NOTE: The content of this course will vary from year to year. Students are asked to consult the Department of English, Theatre, Film & Media website for detailed course descriptions. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six hours of English at the 2000 level.

Attributes: Humanities, Written English Requirement

ENGL 3960 Special Topics in Drama 3 cr

Advanced study of selected topics. NOTE: The content of this course will vary from year to year. Students are asked to consult the Department of English, Theatre, Film & Media website for detailed course descriptions. Students can earn multiple credits for this course only when the topic subtitle is different. Students may not hold credit for both ENGL 3960 and ENGL 3961.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six hours of English at the 2000 level.

Equiv To: ENGL 3961

Attributes: Humanities, Written English Requirement

ENGL 3970 Special Topics in Poetry 3 cr

Advanced study of selected topics. NOTE: The content of this course will vary from year to year. Students are asked to consult the Department of English, Theatre, Film & Media website for detailed course descriptions. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six hours of English at the 2000 level.

Attributes: Humanities, Written English Requirement

ENGL 3980 Studies in Modernism 3 cr

NOTE: The content of this course will vary from year to year. Students are asked to consult the Department of English, Theatre, Film & Media website for detailed course descriptions. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six hours of English at the 2000 level.

Attributes: Humanities, Written English Requirement

ENGL 3990 Studies in Post-Modernism 3 cr

NOTE: The content of this course will vary from year to year. Students are asked to consult the Department of English, Theatre, Film & Media website for detailed course descriptions. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in six hours of English at the 2000 level.

Attributes: Humanities, Written English Requirement

ENGL 4630 Honours Seminar 3 cr

This course may vary from year to year depending on the needs and interests of instructors and students. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities, Written English Requirement

ENGL 4770 Honours Seminar 1 6 cr

This course may vary from year to year depending on the needs and interests of instructors and students. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities, Written English Requirement

Entomology (ENTM)

ENTM 0610 Beekeeping 2 cr

Introduction to beekeeping that includes economics and marketing of honey and beeswax, equipment and its construction, pollen and nectar plants, pollination, management systems, diseases and pests, honey handling, package bees, wintering of bees, etc.

ENTM 0620 Insect Pest Management 4 cr

Characteristics, damage, and identification; insecticide use and safety; life histories and control of common Manitoba livestock, field and farmyard insects. General principles of pest management in agriculture will also be discussed.

ENTM 1000 World of Bugs 3 cr

A survey of insect biology and life styles with emphasis on insect diversity and human-insect interactions.

Attributes: Recommended Intro Courses

ENTM 2050 Introductory Entomology 3 cr

A basic course for students requiring a foundation in entomology. The anatomy, life history, identification, adaptations, and relations of insects to humans are examined along with methods of collecting and preserving insect specimens.

ENTM 3160 Veterinary and Wildlife Entomology 3 cr

An introduction to the insects and their relatives that affect domestic animals, pets and wildlife. Special consideration is given to life histories, insect/host interaction, evolutionary relationships, impact on host vertebrates and pest management. Not all courses are offered every year. Please contact the department regarding course availability.

ENTM 3162 Manitoba's Insect Fauna 3 cr

A collection of insects is required. Emphasis is placed on collecting techniques, specimen preparation, diversity of species collected, organization and curatorial skills, and accuracy of identification. Students should contact instructors in April preceding registration in this course.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ENTM 2050.

ENTM 3170 Crop Protection Entomology 3 cr

A course for students requiring a foundation in entomology and knowledge of major insect pest groups in Western Canada. The pests and principles for their control (chemical, cultural, mechanical, physical and biological methods) are explored with emphasis on the entire ecosystem. Students may not hold credit in ENTM 3170.

ENTM 3180 Field Techniques in Entomology 3 cr

A field course to provide a foundation in field sampling and collection techniques for insects in natural and agroecosystems. The course is run at the University of Manitoba Star lake research station near Whiteshell MB. Transportation to and from the University and accommodations are included. Six day intensive field-based course.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: none.

ENTM 3190 Introduction to Applied Entomology 3 cr

A course providing a foundation in applied entomology covering topics including: basic insect biology, insect pest management, insect biodiversity and the biological services provided by insects. Online lecture presentations, weekly readings and online laboratories. May not be held with ENTM 3170.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: none.

Equiv To: ENTM 3170

ENTM 4000 Topics in Entomology 3 cr

A Course of assigned readings and literature review essays for students in the minor in Entomology program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ENTM 2050 and consent of department head.

ENTM 4250 Pesticide Toxicology 3 cr

Action, behaviour, and fate of pesticides in target and non-target species and in the environment. Past, present, and future chemical control agents will be discussed on the basis of chemical and biochemical knowledge. Not all courses are offered every year. Please contact the department regarding course availability.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: A course in biochemistry.

ENTM 4280 Aquatic Entomology 3 cr

Adaptations and significance of insects to aquatic habitats, with emphasis on identification. Aquatic insects as indicator species of pollution and their response to chemical pesticide application. A collection of aquatic insects is required. Not all courses are offered every year. Please contact the department regarding course availability.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ENTM 2050; AGEC 2370 or BIOL 2300; or consent of instructor.

ENTM 4320 Pollination Biology 3 cr

The biology, ecology of social, semisocial and solitary insect pollinators and their ecological interactions with entomophilous plants. Not all courses are offered every year. Please contact the department regarding course availability.

ENTM 4500 Insect Taxonomy and Morphology 3 cr

Study of insect structure combined with evolution of insect orders. Modern concepts of subspecies, species and higher taxa. Collection required (contact instructor for details in April/May of preceding year.) Students may not hold credit for ENTM 4500.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ENTM 2050 or consent of instructor.

ENTM 4520 Physiological Ecology of Insects 3 cr

The effect of environmental factors such as temperature, moisture, light and other organisms on the physiology and ecology of insects. Not all courses are offered every year. Please contact the department regarding course availability.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ENTM 2050 or consent of instructor.

Entrepreneurship/Small Bus. (ENTR)

ENTR 2010 Managing the Smaller Business 3 cr

Small firms dominated the Canadian economic scene and contribute to the nations' economic welfare in a major way but pose different managerial issues and problems for their owner/managers than larger organizations. This course will focus specifically on how to effectively manage and grow the smaller firm. Students may not hold credit for both ENTR 2010 and ENTR 3100. This course is not open to students in the Asper School of Business. This course is not for students who will pursue a major in Entrepreneurship/Small Business. U1 students may take this course.

Mutually Exclusive: ENTR 3100

Attributes: Recommended Intro Courses

ENTR 2020 Starting a New Business 3 cr

This is a course for students in all Faculties who may wish to start a business of their own at some time or assess their potential for such an option. It will cover a broad range of topics to increase your understanding of what it takes to succeed in an entrepreneurial career. Students may not hold credit for both ENTR 2020 and ENTR 4100. This course is not open to students in the Asper School of Business. This course is not for students who will pursue a major in Entrepreneurship/Small Business. U1 students may take this course.

Mutually Exclusive: ENTR 4100

Attributes: Recommended Intro Courses

ENTR 2030 Introduction to Entrepreneurship: Business and Social Perspectives 3 cr

Examines entrepreneurship via a social, environmental and economic sustainability perspective. Provides proven methods of entrepreneurial thinking to help students explore the relationship between society's need for economic development and costs to and benefits for the environment or other stakeholders, including rural and indigenous communities.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GMGT 1010 (D).

ENTR 3100 Small Business Management 3 cr

An appreciation of the primary issues that should be considered in starting and managing a small business within the Canadian context. Students may not hold credit for both ENTR 3100 and ENTR 2010.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ACC 1100 (D), and MKT 2210 (D), and GMGT 2060 (formerly GMGT 2080) (D), and ENTR 2030 (C).

Mutually Exclusive: ENTR 2010

ENTR 3102 Technological Entrepreneurship 3 cr

An overview of the inter-relationship between technology and entrepreneurship. An appreciation of the role of technical entrepreneurship in the economy, how a technology strategy is developed, implemented and defended as well as the societal implications of technological entrepreneurship. May not be held with the former GMGT 3050.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MKT 2210 (D), and ENTR 2030 (C).

Equiv To: GMGT 3050

ENTR 3104 Selected Topics in Small Business/Entrepreneurship 3 cr

A study of selected areas of recent development related to small business/entrepreneurship. Topics may include innovation and creativity, venture financing, opportunity identification and recognition, franchising and entry strategies of new business, social entrepreneurship, international entrepreneurship and entrepreneurial histories (e.g. IDEA recipients).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ENTR 2030 (C).

ENTR 3106 Family Business Management 3 cr

An examination of the unique challenges inherent in the management of a family business. Topics include founder relinquishment, the need for succession planning and firm regeneration, the core actors and their issues, ownership structure and estate planning.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: (GMGT 2060 (D) or GMGT 2080 (D)), and ENTR 2030 (C).

ENTR 4100 New Venture Analysis 3 cr

A project oriented course focusing on the identification and evaluation of viable new venture concepts and their associated risks, problems, and opportunities. Students may not hold credit for both ENTR 4100 and ENTR 2020. Students are strongly encouraged to take FIN 3240 prior to ENTR 4100.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MKT 2210 (D) and ACC 1110 (D) and [GMGT 2060 (D) (or GMGT 2080 (D))] and FIN 2200 (D), and ENTR 2030 (C).

Mutually Exclusive: ENTR 2020, ENTR 4511

Envir. Design Landsc & Urban (EVLU)

EVLU 3000 History of Designed Environments 3 cr

A critical examination and appraisal of design for dwelling in the context of settlement with emphasis on representation of diverse positions on key issues in design practice. Studies will include consideration of cross cultural precedents and lessons from around the world.

EVLU 3002 Site Planning 3 cr

An investigation of the relationship between natural and cultural processes in the formation of the built environment, including a review of the methods and strategies employed for site programming, inventory, analysis, and development at different scales of intervention.

EVLU 3004 Ecology and Design 2 3 cr

This course will focus on an examination of ecological and technological perspectives on the planning, design and making of the physical environment. This will include a meshing of prediction and advocacy concerning new models of sustainable urbanization, focusing on green technology and infrastructure. Key theories and their application to landscapes at varied scales will be considered along with salient literature, current issues, design precedents and potentials for creative expression and interpretation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EVDS 2200.

EVLU 3006 Studio 3: Dwelling/ Precinct/ Everyday Life 9 cr

A studio/lecture course that examines the notion of dwelling through spatial design with a concentration at the scale of the precinct in the private to semi-private realm focusing on the needs of the individual, on spatial qualities, materials, and site design detail. Theoretical, analytical, conceptual, design, planning and communication skills in landscape + urbanism will be developed and applied in distinct projects. Emphasis is on habitat by design, issues of contested space, ecological design and sustainability. The course may include a field trip (location and cost to be determined on a yearly basis) and will include an obligatory pre-term drawing workshop.

EVLU 3008 Studio 4: Networks and Infrastructure 9 cr

A critical exploration of analytical, conceptual, and developmental aspects of design of the public realm in an experimental studio setting. Social, political, economic, communication, and ecological networks will be studied at the scale of neighborhood and community in the urban realm.

EVLU 3010 Landscape and Urbanism Theory 3 cr

An examination through lectures, readings, seminars and essay assignments, of twentieth and twenty first century philosophical thinking, which has been influential in the theory and practice of landscape architecture, planning and urbanism. Emphasis is on ideas, paradigms, and manifestos. This will include a study of the social, political, religious, cultural, technological, and aesthetic forces behind landscape and urbanism, and the forms that these forces have generated.

EVLU 3012 Site Morphology and Grading 3 cr

An examination of the means and methods used to create landscapes that are shaped by earthwork grading. This will include the study of the forces, principles, and techniques in the modelling and manipulation of the ground plane and the resolution of cultural, ecological and hydrological design considerations implicit in landform design. The course may include a pre-term drafting workshop.

EVLU 3014 Placemaking Fundamentals 3 cr

An introduction to placemaking as an integrated community-based application of landscape and urbanism concepts, based on topical themes, such as the Great Neighbourhood or Edens Lost and Found.

EVLU 4000 Philosophy, Ethics and Aesthetics 3 cr

An examination of philosophical issues and debates regarding ethics and aesthetics, and their influence and potential upon urban design and urban form in the past and present, and to speculate upon the future.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EVLU 3010.

EVLU 4002 Construction Materials 3 cr

A comprehensive introduction to construction materials, methods and processes. Examination of regulatory issues of human safety and techniques for communicating construction proposals with application to how this information is incorporated into contracts. Field trips to nurseries, quarries, lumber yards, and urban sites where students can observe materials transformed to comply with the requirements of designers.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EVLU 3012.

EVLU 4004 Inquiry by Environmental Design: Researching Space-Place Transformation 3 cr

An exploration of the design/research relationship, from a critical and creative thinking perspective will be the core of this course, viewing design and research as linked forms of inquiry into space-place transformation. A focus will be on design/research methods and approaches appropriate to informing and investigating designed environments and community design contexts.

EVLU 4006 Special Topics in Community Design 3 cr

This course will involve a critical examination of specific topics such as: health and community design; inner city environments; and Canadian community planning and design, and its contexts.

EVLU 4008 Plants, Ecosystems and Design 3 cr

The examination of cultural and technical aspects of designing with plants will be explored in an urban context through field investigations, lectures, seminars and assignments. Issues of plant identification, planting design types, their application to contemporary landscape architecture, technical requirements, planting details and ecological integration in the urban environment will be included.

EVLU 4010 Community Design Process and Method: Advanced Placemaking 3 cr

An introduction to the integration of perception, intention and placemaking associated with manifestations of community, especially communities of interest, and systems of 'communities of communities'. A consideration of the relationship of space-place transformation and placemaking, via participatory design processes will be examined as part of a critical design and planning process.

EVLU 4012 Studio 5: Possible Urbanism(s) 9 cr

A radical exploration of analytical, conceptual, and socio-political aspects of urban public place in an experimental studio setting. An emphasis will be placed on design as mediation between competition demands. The studio incorporates the theory and application of three dimensional simulation technology in design.

EVLU 4014 Studio 6: Emergent Futures 9 cr

This studio integrates planning and design from the scale of urban infrastructure through to design detail in the context of landscape and urbanism. An emphasis is placed on the challenges of relevant equitable environmental and social design in the post-industrial world. The studio incorporates the theory and application of CAD and GIS technology in design.

EVLU 4016 History of Landscape and Urbanism 3 cr

An historical survey of human made landscapes and urban settlement form, patterns, and types, including major themes and movements.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EVLU 3000.

EVLU 4018 Principles of Urban Design 3 cr

This course will examine urban design principles, practices, and applications including political and social systems, and their impacts on the contemporary urban condition.

Environment (ENVR)

ENVR 1000 Environmental Science 1 - Concepts 3 cr

This course will introduce students to the conceptual framework of the environment by examining its physical, biological, and social components. General topics to be considered will include ecological principles and the responses of natural and managed systems to disturbance; population growth; biodiversity and conservation; and environmental sustainability. Not to be held with BIOL 1340.

Mutually Exclusive: BIOL 1340

Attributes: Recommended Intro Courses

ENVR 2000 Environmental Science 2 - Issues 3 cr

This course will briefly review the major features of the structure and function of natural systems along with the degree to which these have been compromised. The main component of the course, however, will concentrate on the identification of the issues that underlie environmental degradation, while exploring alternative conditions that have the potential to reverse current trends and ultimately contribute to ecological sustainability.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ENVR 1000 (C) or BIOL 1340 (C).

Attributes: Recommended Intro Courses

ENVR 2010 Field Topics in Environment 1.5 cr

Field and practical experience in selected topics of current interest in the Environmental Science and Studies, with the content to vary depending on the needs of students and faculty.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department head.

ENVR 2020 Extended Field Topics in Environment 3 cr

Field and practical experience in selected topics of current interest in the Environmental Science and Studies, with the content to vary depending on the needs of students and faculty.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department head.

ENVR 2180 Introductory Toxicology 3 cr

A survey of general principles underlying the effects of toxic substances on biological systems, including consideration of the history, scope and applications of toxicology, the mechanisms of toxic action, and some major types of toxicants. Not to be held with ENVR 2190 or BIOL 2380 or BIOL 2382 or AGRI 2180 or AGRI 2190.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [BIOL 1030 or BIOL 1031 (C)], and [(CHEM 1310 or CHEM 1311 (C), or CHEM 1320 (C)).

Equiv To: AGRI 2180, BIOL 2380, BIOL 2381, BOTN 2180

Mutually Exclusive: AGRI 2190, BIOL 2382, BOTN 2190, ENVR 2190, ZOO 2190

ENVR 2190 Toxicological Principles 1.5 cr

A survey of general principles underlying the effects of toxic substances on biological systems, including consideration of the history, scope and applications of toxicology, and the mechanisms of toxic action. Not to be held with ENVR 2180 or BIOL 2380, or BIOL 2382, or AGRI 2180, or AGRI 2190.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [BIOL 1030 or BIOL 1031 (C)], and [CHEM 1310 or CHEM 1311 (C), or CHEM 1320 (C)].

Equiv To: AGRI 2190, BIOL 2382, BOTN 2190, ZOO 2190

Mutually Exclusive: AGRI 2180, BIOL 2380, BIOL 2381, BOTN 2180, ENVR 2180, ZOO 2180

ENVR 2350 Technical Communication in the Environmental Sectors 3 cr

(Lab Required) An introduction to technical communication skills required for environmental practitioners in research, government, and industry.

The course covers technical writing and literature search techniques, business writing including reports, memos and e-mails, professional presentation skills, and fundamental internet skills. Practical experience is gained through assignments and laboratory exercises.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ENVR 1000 or BIOL 1340 (C), or permission of department head.

ENVR 2550 Environmental Chemistry 3 cr

(Lab Required) An introduction to the chemistry of the environment. Emphasis will be on the composition of the natural environment and the processes of natural and human-introduced chemical species that take place within it. The course will provide students with the chemical basis for understanding the environment and environmental problems. Not to be held with CHEM 2550.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: CHEM 1310 or CHEM 1311 (C).

Equiv To: CHEM 2550

ENVR 2810 Environmental Critical Thinking and Scientific Research 3 cr

Course is designed to aid students in the development of a skeptical, scientific approach to thinking about environmental and geographical problems and issues, as well as applying that skepticism and critical thinking to develop well balanced research hypotheses and data collection methods. May not be held with the former ENVR 2270 or the former GEOG 2530.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ENVR 1000 (C) or GEOG 1280 (C) or GEOG 1290 (C); GEOG 1700 (C) or GPE 1700 (C); or consent of department.

Mutually Exclusive: ENVR 2270, GEOG 2530

Attributes: Written English Requirement

ENVR 2900 Professional Development in the Environmental Sectors 1 1.5 cr

Through self directed learning students are introduced to the environmental sectors and issues including workplace health and safety, the respectful workplace, managing workloads and expectation, and professionalism. The course is a mandatory requirement to Cooperative Education Option admission.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: 30 credit hours of university credit.

ENVR 3000 Multidisciplinary Topics in Environmental Science 1 3 cr

Selected topics of current interest in the Environmental Sciences and Studies. Course content to vary with each offering depending on the needs and interests of students and faculty.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: Permission of department head, and 60 credit hours of university credit.

ENVR 3010 Field Topics in Environmental Science 1 1.5 cr

Field and practical experience in selected topics of current interest in the Environmental Sciences and Studies, with the content to vary depending on the needs and interests of students and faculty.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department head.

ENVR 3020 Extended Field Topics in Environmental Science 1 3 cr

Field and practical experience in selected topics of current interest in the Environmental Sciences and Studies, with the content to vary depending on the needs and interests of students and faculty.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department head.

ENVR 3110 Environmental Conservation and Restoration 3 cr

(Lab Required) Environmental conservation and restoration are introduced and approaches based on science and traditional knowledge are contrasted. An emphasis is placed on systems thinking and both local and international case studies.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: BIOL 2390 (C), or BIOL 2300 (C), or AGECE 2370 (C), or permission of department head.

ENVR 3140 Aquatic Ecosystem Services 3 cr

This course introduces the field of Ecosystem Services, an analytical framework for evaluating the economic, cultural, and biogeochemical contributions that ecosystems make to human health and well-being. Examples will be drawn from aquatic ecosystems and cover topics such as pollution and contamination cleanup, commercial and subsistence food provisioning, climate regulation, and cultural uses in folklore, art, religion, science, and recreation. A special emphasis will be made on microbes as key drivers of aquatic ecosystems, including topics in microbial diversity, metabolism, and evolution.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [BIOL 1010 or BIOL 1011] or [(BIOL 1020 or BIOL 1021) and (BIOL 1030 or BIOL 1031)]; and [(one of CHEM 1100, CHEM 1101, the former CHEM 1300, or the former CHEM 1301) and (CHEM 1120 or CHEM 1121)] or ENVR 2000.

ENVR 3160 Environmental Responsibilities and the Law 3 cr

Environmental responsibilities and their legal framework in terms of policies, legislation, standards and guidelines and the tools to manage responsibility are examined through lectures, case study review and discussion. Environmental liability and due diligence are reviewed in relation to responsibilities of organizations and individuals. Strategies to manage environmental liabilities, including environmental and risk assessment, are also discussed. Not to be held with (ENVR 3150 or ENVR 2650).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ENVR 2000 (C) or permission of department head.

Equiv To: ENVR 2650, ENVR 3150

ENVR 3180 Methods in Ecotoxicology 3 cr

(Lab Required) This is a laboratory-based course exploring and critiquing the development, conduction and interpretation of toxicity tests in ecotoxicology. Students will learn how to perform standard bioassays for a variety of species (plants, invertebrates, and vertebrates) as well as systems (aquatic and terrestrial) at different levels of biological organization, from the individual to the ecosystem.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ENVR 2180 or BIOL 2380 or AGRI 2180, or permission of instructor or department head.

Equiv To: ENVR 3300

ENVR 3250 Environmental Assessment 3 cr

This course engages with the theory, principles and practices of environmental assessment as a planning and decision-making process to identify and mitigate adverse effects of development projects. Environmental assessment is defined in the context of federal and provincial legislation, and applicable standards and guidelines. Assignments involve practical experiences, case study review and basic report preparation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [ABIZ 3550 or ENVR 3160 or the former ENVR 3150] and [BIOL 2300 or BIOL 2301 or AGECE 2370] or [BIOL 2390] or permission of department head or instructor.

ENVR 3340 Circumpolar Cultures and Lifestyles 3 cr

This course provides an introduction to the culture, lifestyles, belief systems, material culture, art, environmental issues, and politics of Aboriginal Peoples in northern Canada, Greenland, Alaska, Siberia and Scandinavia.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department head.

Equiv To: NATV 3340

ENVR 3350 Environmental Management Systems 3 cr

This course provides an introduction to environmental management systems and specific material on the ISO 14001 international EMS standard. Auditing principles and techniques are described with specific guidance on auditing an ISO 14001 EMS.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department head.

ENVR 3400 Introduction to Environment and Health 3 cr

An overview of the linkages between human health and environmental issues. The course discusses the nature of environmental hazards, human exposure and health outcomes. Major environmental and human health issues such as air pollution, hazardous substances, endocrine disruptors and products in the home are covered.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: 60 credit hours of university credit.

ENVR 3500 Project in Environmental Science 3 cr

A research project in any aspect of environmental science, chosen in consultation with the department head and an appropriate supervising faculty member. Written reports and oral presentation on the results of the project will be required. The course is normally available only to final year students in the Environmental Science or Studies Program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department head.

ENVR 3550 Environmental Analysis 3 cr

(Lab Required) An introduction to classical and modern techniques for sampling, sample pre-treatment, and analysis of chemical substances in aquatic atmospheric and terrestrial environments and the interpretation of data obtained from such analyses. Not to be held with CHEM 3590.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ENVR 2550 (C), or CHEM 2550 (C), or CHEM 2470 (C), or permission of department head.

Mutually Exclusive: CHEM 2523, CHEM 3500, CHEM 3520, CHEM 3590

ENVR 3750 Green Building and Planning 3 cr

An overview of the concepts and tools of Green building design and Green Planning. The course covers the history and trends in Green Building and Planning, related policies, tools and techniques. There is a strong emphasis on learning from local case-studies through seminars and field trips.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ENVR 2000 and 57 credit hours, or permission of department head.

ENVR 3850 Sustainable Manitoba (A) 3 cr

This course approaches local sustainability issues from an interdisciplinary perspective. By looking at the ecological, social and economic aspects from a variety of discipline perspectives, a fuller understanding of sustainability is achieved. The broad range of perspectives is achieved through participation of guest speakers from other faculties and outside of the university as well as excursion outside the classroom. Not to be held with GEOG 3850.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: 60 credit hours of course work, or permission of department head.

Equiv To: GEOG 3850

ENVR 3890 Geography and Wellness 3 cr

This course explores how human environment relations influence our mental, emotional, and physical wellbeing. Students will delve into current research in health and wellness geography and related disciplines, particularly focusing on: therapeutic landscapes, ecological loss and grief, sacred spaces, and environmental influences on mental wellbeing. Also offered as GEOG 3890. May not be held with GEOG 3890.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ENVR 1000 or GEOG 1200 or GEOG 1280 or GEOG 1700 or GPE 1700 or permission of the department head.

Equiv To: GEOG 3890

ENVR 3900 Professional Development in the Environmental Sectors 2 1.5 cr

Attendance and participation in seminars, conferences and workshops to foster greater interaction between students and practitioners in the environmental sectors. Students improve professional skill sets through assignments and mock interviews. The normal sequence for participation is after completion of ENVR 3980.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ENVR 2900 (C), and 60 credit hours of university credit.

ENVR 3910 Coop Work Term Report 1 1.5 cr

Work term report, completed in conjunction with the coop placement, designed to integrate professional experiences with the concepts and theories explored through academic study. Students must be admitted into the Coop program to be registered, and receive credit.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ENVR 2900 (C). Prerequisite or Concurrent Requirement: ENVR 3980.

ENVR 3920 Coop Work Term Report 2 1.5 cr

Work term report, completed in conjunction with the coop placement, designed to integrate professional experiences with the concepts and theories explored through academic study. Students must be admitted into the Coop program to be registered, and receive credit.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ENVR 3980 (P). Prerequisites or Concurrent Requirements: ENVR 3900, and ENVR 3990.

ENVR 3980 Coop Work Term 1 0 cr

Work assignments in business, industry, research or government for students registered in the Honours or Major Cooperative program. This course is graded pass/fail.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ENVR 2900 (C).

ENVR 3990 Coop Work Term 2 0 cr

Work assignments in business, industry, research or government for students registered in the Honours or Major Cooperative program. This course is graded pass/fail.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite or Concurrent Requirement: ENVR 3900.

ENVR 4000 Multidisciplinary Topics in Environmental Science 2 3 cr

Selected topics of current interest in the Environmental Sciences and Studies. Course content to vary with each offering depending on the needs and interests of students and faculty.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: Permission of department head, and 60 credit hours of university credit.

ENVR 4010 Field Topics in Environmental Science 2 1.5 cr

Field and practical experience in selected topics of current interest in the Environmental Sciences and Studies, with the content to vary depending on the needs and interests of students and faculty.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department head.

ENVR 4020 Extended Field Topics in Environmental Science 2 3 cr

Field and practical experience in selected topics of current interest in the Environmental Sciences and Studies, with the content to vary depending on the needs and interests of students and faculty.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department head.

ENVR 4050 Ecosystem Management 3 cr

This course will provide students with an understanding of the practical applications of ecological science, environmental policy, and resource management approaches in the large-scale planning of landscapes. The course will review ecological principles and trace the historical development of the ecosystem concept. Comparisons are made to other possible environmental management approaches. The synthesis of major elements and concepts will be reinforced through case studies on the Manitoba landscape, with an emphasis on practical learning by students through field seminars and group discussions. Not to be held with GEOG 4050.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department head.

Equiv To: GEOG 4050

ENVR 4060 Biogeography 3 cr

This course will provide students with a general understanding of the historical, ecological, analytical, and conservation aspects of biogeography. The course will also have a dual focus on the principles and concepts of reasons for the distribution of plants and animals worldwide, as well as incorporating discussion on as many local (Manitoba, Canada, North America) examples as possible. Not to be held with GEOG 4060.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department head.

Equiv To: GEOG 4060

ENVR 4110 Critical Thinking and the Environment 3 cr

(Lab Required) Topical issues and responses regarding the environment including conservation, management, and policy making are critically evaluated at local, national, and global scales. Term projects emphasizing applied work with environmental organizations and researchers are presented.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ENVR 2000 (C), and 72 credit hours of course work, or permission of department head.

ENVR 4180 Ecotoxicological Risk Characterization 3 cr

An advanced course that will give students working knowledge of current techniques for defining and mitigating the environmental risks associated with chemical and other contaminants. The course will cover the topics of problem definition, effects characterization, exposure characterization, risk assessment, causality, weight of evidence and risk communication and management.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: One of ENVR 2180, BIOL 2380, BIOL 2381 or AGRI 2180 or permission of instructor or department head.

ENVR 4400 Advanced Issues in Environment and Health 3 cr

An evaluation of global and local environmental health issues and the assessment and management tools used to manage these risks. Case studies of environmental issues and their human health effects are covered. Students have the opportunity to work on a substantial interdisciplinary environmental health project.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ENVR 3400 (C).

Equiv To: ENVR 4220

ENVR 4500 Thesis Project in Environmental Science and Studies 6 cr

A research thesis project in any aspect of environmental science or environmental studies, chosen in consultation with the course coordinator and an appropriate supervisor, typically a faculty member. Written reports and oral presentation on the results of the thesis project will be required. The course is normally available only to final year students in the Environmental Science Honours or Environmental Studies Honours Program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: Permission of course coordinator, and a GPA of 3.00 in the last 30 credit hours.

ENVR 4550 Aquatic Chemistry 3 cr

An examination of biogeochemical processes affecting the distribution, speciation and bioavailability of chemical substances in the aquatic environment. The theoretical basis for the chemical behaviour of natural water systems is discussed, as well as the description of the processes involved in wastewater treatment. Not to be held with CHEM 4550.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ENVR 3550 (C), or CHEM 3590 (C), or permission of department head.

Equiv To: CHEM 4550

ENVR 4650 Advanced Issues in Environmental Law and Policy 3 cr

This course provides an in-depth review of Canadian law and policy relating to environmental protection and management. In particular, the course describes the laws governing a variety of topics related to the environment, including constitutional responsibilities, federal and provincial environmental legislation, water law, parks and protected areas, wildlife and fisheries management, species at risk, and international law including climate change.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a minimum grade of C in ENVR 3160 (or the former ENVR 2650), or permission of department head.

ENVR 4872 Advanced Methods in Geomatics 3 cr

(lab required) This course focuses on the theory and application of geomatics in spatial problem solving in geography and the environment. The use of geomatics' technologies including GIS, Earth observation and spatial numerical methods will be covered. Students will learn the theoretical underpinning of spatial statistical concepts and will experiment with data exploration, inference and hypothesis testing. Lab assignments will provide practical experience with GIS and other geomatics software as well as CRAN-R. Not to be held with GEOG 4590 or GEOG 4720 or GEOG 4872.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GEOG 3730 or permission of instructor.

Equiv To: GEOG 4590, GEOG 4720, GEOG 4872

ENVR 4910 Coop Work Term Report 3 1.5 cr

Work term report, completed in conjunction with the coop placement, which is designed to integrate professional experiences with the concepts and theories explored through academic study. Students must be admitted into the Coop program to be registered, and receive credit.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ENVR 3990 (P).

ENVR 4980 Work Term 3 0 cr

Work assignments in business, industry, research or government for students registered in the Honours or Major Cooperative program. This course is graded pass/fail.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ENVR 3990 (P).

Environment, Earth & Resources (EER)

EER 1000 Earth: A User's Guide 3 cr

This course will present a multi-disciplinary introduction to the Planet Earth as both the source of essential resources and as the site of resulting negative impacts. Focus in the course will be provided by addressing important and current topics, case studies, and concepts that the well-educated citizen of the Earth should understand and will include natural and human-induced processes within a broad range of spatial and temporal scales.

Attributes: Recommended Intro Courses

Environmental Architecture (EVAR)

EVAR 3000 Pre-Modern Architectural History and Theory I 3 cr

Provides a historical and theoretical understanding of early Greek, Roman, Gothic and non-western architectural topics and their influence. Content is explored using primary texts where possible, and through critical analysis of selected topics. May not be held for credit with the former EVDS 2690, EVDS 2610, ARCH 6320 or ARCH 6420.

Equiv To: ARCH 6430, EVDS 2620

EVAR 3002 Pre-Modern Architectural History and Theory II 3 cr

Provides a historical and theoretical understanding of Gothic and Renaissance architectural topics and their influence, up to the work of Claude Perrault. Content is explored using primary texts where possible, and through critical analysis of selected topics. May not be held for credit with EVDS 2620 or ARCH 6340.

Equiv To: ARCH 6340, EVDS 2620

EVAR 3004 ARCH TECH 1 3 cr

Construction materials and structural theory in the analysis and design of simple wood-frame, masonry and light steel construction; fundamental passive energy systems and design strategies for material and energy reduction. May not be held for credit with EVDS 1690 or ARCH 6480.

Equiv To: ARCH 6480

EVAR 3006 Architectural Technology 2-Building Construction, Structures & Envelopes 3 cr

Architectural, environmental and technical aspects of construction focusing on low-rise and medium sized wood, steel and masonry construction including issues of material production/manufacturing, soils, foundation, envelope systems, basic mechanical systems and their integration and acoustic concerns. May not be held for credit with the former EVDS 2670, EVDS 2700, ARCH 6520 or ARCH 6530

Equiv To: ARCH 6530, EVDS 2670, EVDS 2700

EVAR 3008 Architecture Design Studio 1 9 cr

An architectural study of the human condition in relation to the natural and built environment through design oriented research exploration, analysis, evaluation and interpretation of a selected subject of inquiry. Various ways of seeing and making are applied as tools for critical thinking to align content with modes of representation. May not be held for credit with former EVDS 2630 or ARCH 6380.

Mutually Exclusive: ARCH 6380, EVDS 2640

EVAR 3010 Architecture Design Studio 2 9 cr

Building upon first term explorations, architectural propositions are developed that seek to clarify relations between human inhabitation and the physical environment in a regional context. Design principles influenced by programmatic, theoretical, historical, technological material and environmental criteria are examined. May not be held for credit with former EVDS 2640 or ARCH 6390.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EVAR 3008.

Mutually Exclusive: ARCH 6390, EVDS 2640

EVAR 3012 Architecture Technology Preparation: Structural Concepts 3 cr

A preparatory block course introducing the fundamentals of structural concepts in architecture that prepares students for the foundation technology courses in architecture. May not be held for credit with EVDS 2300 (or former EVDS 1690), EVDS 1700 or ARCH 6480.

Equiv To: ARCH 6480, EVDS 1690, EVDS 1700, EVDS 2300

EVAR 3014 Drawing: Freehand/Digital 3 cr

An introduction to drawing skills that allows students to become articulate in proposing and studying architecture through drawing. The course covers a range of media. May not be held for credit with the former ARCH 6532 or ARCH 6370

Equiv To: ARCH 6370, ARCH 6532

EVAR 4000 Modern Architectural History and Theory I 3 cr

Provides a historical and theoretical understanding of the origins of modernity in architecture. Content is explored using primary texts where possible, and through critical analysis of selected topics. May not be held for credit with former EVAR 3700, EVAR 3470, ARCH 6460 or ARCH 6450.

Equiv To: ARCH 6460, EVAR 3470, EVAR 3700

EVAR 4002 Architectural Technology 3-Building Systems 3 cr

Integrated building systems focusing on multi-story steel and concrete construction including: passive and active heating, cooling, and ventilation methods, strategies and designs, electrical, water, communication, security, fire protection, and vertical transportation systems; and building code constraints. May not be held for credit with the former EVAR 3560, EVAR 3570, ARCH 6500 or ARCH 6510.

Equiv To: ARCH 6500, ARCH 6510, EVAR 3560, EVAR 3570

EVAR 4004 Architecture Design Studio 3 9 cr

This studio focuses on the broader cultural implications of social interaction and the collective inhabitation of the built and natural environments. Architecture design explorations are influenced by a thorough examination of programmatic, theoretical, historical, technological, material and environmental criteria. May not be held for credit with the former EVAR 3680 or ARCH 6400

Mutually Exclusive: ARCH 6400, EVAR 3680

EVAR 4006 Modern Architectural History and Theory II 3 cr

Provides an historical and theoretical understanding of 20th century topics in architecture (western and non-western). Content is explored using primary texts where possible, and through critical analysis of selected topics. May not be held with the former EVAR 3330, EVAR 3480, ARCH 6440 or ARCH 6470.

Equiv To: ARCH 6440, ARCH 6470, EVAR 3330, EVAR 3480

EVAR 4008 Arch Tech 4: Comprehensive Design Technology Report 3 cr

A technical knowledge project-based course integrating with Arch Studio 4. Comprehensive technology issues include: site; material; energy; structures; construction; sustainability; environmental factors; building code; life safety. Student's work will include analysis, technical drawings and calculations.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Corequisite: EVAR 4010 Arch Studio 4

EVAR 4010 Architecture Design Studio 4 9 cr

The previous terms investigations are further developed and synthesized into a comprehensively designed environment. Architectural propositions seek to clarify specific relations between details and the overall design, through the integration of complex social, cultural, programmatic, theoretical, historical, technological, material and environmental principles, systems and criteria. May not be held with the former EVAR 3690 or ARCH 6410.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EVAR 4004. Corequisite: EVAR 4008 .

Mutually Exclusive: ARCH 6410, EVAR 3690

Environmental Design (EVDS)

EVDS 1600 Introduction to Environmental Design 3 cr

An introduction to the philosophies, theories, practices, processes and methods that collectively compose the discipline of Environmental Design. The focus will be on the social, environmental, and technological issues that shape the built environment and on an examination of the challenges and roles facing environmental designers in the contemporary world.

Attributes: Recommended Intro Courses

EVDS 1602 Visual Literacy 3 cr

This course examines the contemporary visual and spatial environment, its critical historical influences and emerging cultural issues. The structure of image and form, the foundations of spatial and visual knowledge and the importance of materiality as they pertain to Environmental Design will be advanced as well as disciplinary appropriate methods of communication.

Attributes: Recommended Intro Courses

EVDS 1660 History of Culture, Ideas and Environment 1 3 cr

Historical survey of key works from the foundations of civilization to the Enlightenment, including interdisciplinary perspectives in art, architecture, interior design, landscape architecture and urban planning considered in the physical, socio-economic, political, artistic and cultural contexts. May not be held with FAAH 1030.

Mutually Exclusive: FAAH 1030

EVDS 1670 History of Culture, Ideas and Environment 2 3 cr

A historical survey of western movements in art, architecture, interior design, landscape architecture and urban planning considered within the physical, socio-economic, political, artistic and cultural context. An introduction to the historical influence of the art, design and culture of non-western traditions will be included. Emphasis is on works created after the Enlightenment. May not be held with FAAH 1040.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EVDS 1660.

Mutually Exclusive: FAAH 1040

EVDS 1680 Environmental Technology 3 cr

An examination of the scientific principles embodied in the natural laws which govern the science and technology of building, landscape and environmental design in the context of sustainable development. Factors of climate, geology and natural resource systems and their effects upon the built environment at a range of scales are introduced.

EVDS 2100 Urban Media Lab 3 cr

An introduction to visual methods of representation and related media including drawing, photography and video. The intention is to critically engage the urban and suburban contexts as a laboratory for investigating cultural values, aesthetic issues, design principles, and representational techniques, 'prerequisite' to undertaking design studio work. Course evaluated on a pass/fail basis.

EVDS 2200 Ecology and Design 3 cr

An examination of principles of Ecology and Design works in which these tenets are considered, engaged, and/or demonstrated. Topics fundamental to the science of Ecology will structure the course content. Emphasis will be placed on understanding the forces and systems working within and between natural, social and human environments.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EVDS 2702.

EVDS 2300 Materials, Structures and Assemblies 3 cr

This course provides an introduction to applied statics, construction materials and construction system assemblies for landscape, building, and interior constructions. Construction material properties and applications, including impacts on resource depletion and on sustainable building practices will be introduced along with basic strategies and methods to analyze and calculate forces in simple structures.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EVDS 1680 (C+).

EVDS 2400 Visual Media 1 3 cr

An introduction to technical and free-hand drawing processes and techniques, and in various media - to develop, to express, and to communicate design intentions. The focus will be directed to abstract and concrete methods of representation. Emphasis will be placed on the integral relationship between thinking, drawing, and making in relation to critically observing the world at large, and in relation to design studio work.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EVDS 1602 (C+). Corequisite: EVDS 2500.

EVDS 2500 Design Studio 1 6 cr

Introduction to the elements and principles of visual and spatial design, design process and techniques, requisite methods of representation and communication, and design intentions. Studio work will explore different ways of space and form-making, beginning at the site of the body, in both abstract and environmental contexts.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EVDS 1600 (C+). Corequisite: EVDS 2400.

EVDS 2600 Tectonic Precedent 3 cr

An examination of seminal built works of environmental design, at a range of scales, from the 19th and 20th centuries, with an emphasis on examples that are representative of diverse positions of key issues in contemporary design practice. Methodologically, this course endeavours to critically evaluate the relationships between perception, intention, and making through the exploration of the material and tectonic nature of the work(s).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EVDS 1670 (C+).

EVDS 2690 Design Since 1800 3 cr

An examination of key architectural treatises of the 19th and 20th centuries that are representative of the predominant ideals of their time and the influence they have had in the construction of the built environment.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre-requisite: EVDS 1670.

EVDS 2702 Natural and Human Systems 3 cr

An application of the scientific principles embodied in the natural laws which govern environmental design. Aspects of the bio-physical factors, energy, human physiology and perception, comfort, and resource management are reviewed in the context of sustainable planning and design practices.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EVDS 1680 (C+).

EVDS 2800 Visual Media 2 3 cr

This course bridges technical and freehand drawing introduced in Visual Media 1, with computer/digital media. This course advances contemporary digital media in relation to emerging modes of 2, 3, and 4 dimensional modes of representation, in the context of design studio work, and in relation to graphic standards associated with professional design practice.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EVDS 2400. Corequisite: EVDS 2900.

EVDS 2900 Design Studio 2 6 cr

An exploration of the fundamental relationships between space, form and order in the context of the built environment, from body to place. Pedagogical emphasis will be directed towards design process, cultural intentions, and environmental accountability.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EVDS 2500. Corequisite: EVDS 2800.

EVDS 3250 Advanced Computing in Environmental Design 3 cr

Advanced Computing in Environmental Design builds upon skills obtained in the introductory course. The advanced course provides an opportunity for students to explore detailed applications of computational technologies in design & planning.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EVDS 2800 or EVDS 2650.

EVDS 3710 Special Topics 3 cr

Independent study related to environmental design. Content may vary according to the interest of the community, students, profession, and the faculty. Written consent of the instructor(s) and program coordinator required.

EVDS 3740 Introduction to AutoCad in Design 3 cr

The course will familiarize the student with the AutoCad program. The course content begins at an introductory level and will progress to a level which will prepare the student for work within a professional office. The course will explore the use of AutoCad for the creation of presentation drawings as well as working drawings.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EVDS 2800 or ARCH 6370 or written permission of Instructor.

EVDS 3800 Cooperative Education/Integrated Work Term 1 1 cr

Cooperative education/work assignment in practice, business, industry or government for Faculty of Architecture students. Requires submission of a written report and portfolio covering the work completed during each four-month professional assignment. Students participating in the program must have completed at least 85 credit hours towards a university degree prior to placement. Those registering for this course must have applied for and been accepted into the Faculty of Architecture cooperative stream. Course evaluated on a pass/fail basis.

EVDS 3900 Cooperative Education/Integrated Work Term 2 1 cr

Cooperative education/work assignment in practice, business, industry or government for Faculty of Architecture students. Requires submission of a written report and portfolio covering the work completed during each four-month professional assignment. Students participating in the program must have completed at least 85 credit hours towards a university degree prior to placement. Those registering for this course must have applied for and been accepted into the Faculty of Architecture cooperative stream. This course is evaluated on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EVDS 3800.

EVDS 4800 Cooperative Education/Integrated Work Term 3 1 cr

Cooperative education/work assignment in practice, business, industry or government for Faculty of Architecture students. Requires submission of a written report and portfolio covering the work completed during each four-month professional assignment. Students participating in the program must have completed at least 85 credit hours towards a university degree prior to placement. Those registering for this course must have applied for and been accepted into the Faculty of Architecture cooperative stream. This course is evaluated on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EVDS 3900.

EVDS 4900 Cooperative Education/Integrated Work Term 4 1 cr

Cooperative education/work assignment in practice, business, industry or government for Faculty of Architecture students. Requires submission of a written report and portfolio covering the work completed during each four-month professional assignment. Students participating in the program must have completed at least 85 credit hours towards a university degree prior to placement. Those registering for this course must have applied for and been accepted into the Faculty of Architecture cooperative stream. This course is evaluated on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EVDS 4800.

Environmental Interior Environ (EVIE)

EVIE 3000 Field Studies 3 cr

This course introduces students to the field of Interior Design through firsthand experience and study of innovative and significant examples of historic and contemporary work from interior design and related fields, in a major design center. The course consists of lectures and a field trip. Location may vary from year to year.

EVIE 3002 Interior Design History and Theory 1 3 cr

Examination of concepts, theories and writings related to the development of Interior Design as a discipline, to Modernism. Not to be held for credit with the former EVIE 3650.

Equiv To: EVIE 3650

EVIE 3004 Materials, Assemblies and Detailing 3 cr

Workshop and lecture course on materials, joinery and invention. Review of the principles of framing, bracing, and tension applied to casegoods and furniture; exploration of a variety of soft and hard materials and constructions with an emphasis on sustainability. Not to be held for credit with the former EVIE 3630.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EVDS 2200.

Equiv To: EVIE 3630

EVIE 3006 Interior Design Media 3 cr

This course develops a student's ability to use drawing as a reflective, problem-solving, designing and visual communication tool; techniques for representing volume, depth and scale, and interfaces with digital photography and media are a focus.

EVIE 3008 Interior Design Studio 3.1 6 cr

Interior Design studio exploring the body as the primary reference in design, and the semantic and cultural meanings of objects and architectural elements as mediators of space. Integration of drawing, design and making through projects.

EVIE 3010 Interior Design Studio 3.2 6 cr

An in-depth investigation, by design, of the nature of interiors including the physical and perceptual, spatial elements and order, human involvement and experience. Exploration and development of spatial solutions using a variety of visual media. Not to be held for credit with the former EVIE 3680.

Mutually Exclusive: EVIE 3680

EVIE 3012 Interior Light and Colour 3 cr

This course examines interior lighting and colour theories and concepts emphasizing human and ecological issues, exploration of spatial design strategies and practices. Not to be held for credit with the former EVIE 3610.

Mutually Exclusive: EVIE 3610

EVIE 3014 Human Factors and Environmental Experience 3 cr

Theoretical and practical issues related to human characteristics, needs, behaviours, and interactions with and within the built interior environment.

EVIE 3016 Topics in Interior Design 3 cr

This course will explore topics at the cutting edge of interior design, examining political, economic, sociological and technological influences on current and future directions in interior design; examination of current research, writing, projects and works from related and diverse fields.

EVIE 4000 Interior Design History and Theory 2 3 cr

Examinations of concepts, theories and writings related to the development of interior Design as a discipline and profession, from Modernism to the present day. Not to be held for credit with the former EVIE 3660.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EVIE 3002.

Equiv To: EVIE 3660

EVIE 4002 Indoor Systems 1 3 cr

In-depth, whole building examination of various integrated active and passive environmental controls systems. Focus on working with existing commercial building construction and environmental systems when integrating new interior design and ecological concepts and strategies. Introduction to building performance assessment, construction drawings and schedules. Not to be held for credit with the former EVIE 3620.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EVIE 3004 and EVIE 3012. Co-requisite: EVIE 4010.

Equiv To: EVIE 3620

EVIE 4004 Indoor Systems 2 3 cr

Broad exploration of a variety of contemporary and innovative building technologies and their integration with interior design. Focus on ecological, new building construction concepts and measure, delivered in the context of integrated design team processes and building systems innovation. Integration and coordination of interior architectural elements with active and passive building systems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EVIE 4002.

EVIE 4006 Design Methods and Processes 3 cr

Development of knowledge and abilities to collect, analyze, synthesize, interpret, and apply information for the purpose of identifying and solving interior design problems. Not to be held for credit with the former EVIE 3640.

Equiv To: EVIE 3640

EVIE 4008 Digital Media (AutoCAD) 3 cr

This course focuses on the creation of two-dimensional architectural working drawings in a set of construction documents through the use of advanced features in CAD. Students will learn the concepts of formatting units, text, dimensions, multi-leaders, and layouts, using both non-annotative and annotative scaling techniques. How to use CAD software in a three-dimensional environment to create realistic shapes is also included. May not be held with EVIE 3670.

Equiv To: EVIE 3670

EVIE 4010 Interior Design Studio 4.1 6 cr

Projects that explore the interaction between urban context, programmatic requirements and design concepts; integration of building technology and three-dimensional spatial development; development of communication skills and methods. Not to be held with the former EVIE 3690.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: EVIE 3010. Co-requisite: EVIE 4002.

Equiv To: EVIE 3690

EVIE 4012 Interior Design Studio 4.2 6 cr

Design studio with the potential for collaboration, exploring regional and global influences, communication technology, history and temporality in the design of interior environments.

EVIE 4014 Advanced Interior Design Media 3 cr

Focus on the concepts of building information modeling (BIM), parametric design, analysis, and construction documentation using current software. Demonstrates effect of this type of software on presentation and construction documentation through the use of intelligent building components and interdependent views of the building model, including acquisition of statistical and other quantitative information.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or corequisite: EVIE 4008 or consent of instructor.

Family Social Sciences (FMLY)

FMLY 1000 Families in Contemporary Canadian Society 3 cr

(Formerly FMLY 1020) This course provides an introduction to issues in contemporary families from an interdisciplinary perspective. Changing and diverse family forms and experiences are reviewed. An overview of issues pertinent to family well-being, including but not limited to immigration, poverty, homelessness, racism, addiction, disability, divorce, and physical and mental illness is provided. Not to be held with FMLY 1020.

Equiv To: FMLY 1020

Attributes: Recommended Intro Courses

FMLY 1010 Human Development in the Family 3 cr

Introductory survey of key aspects of human development processes within the family context from a life span perspective. Not to be held with NURS 1260.

Mutually Exclusive: NURS 1260

Attributes: Recommended Intro Courses

FMLY 1012 Introduction to Social Development 3 cr

This course is an introduction to social development with a particular emphasis on families and communities. Social development is concerned with the advancement of the common good, the effective management of social problems, the meeting of human needs, and the equitable distribution of society's resources. As such, this course explores the social factors and conditions that promote or hinder social development and how this affects the well-being of individual, families, and communities in contemporary societies. Not to be held with FMLY 1900

Equiv To: FMLY 1900

FMLY 1420 Family Management Principles 3 cr

An introductory course that uses an ecosystem perspective resources, decision-making, planning, implementing, evaluating, and communication within family contexts. Applications to balancing work and family, individual and family stress, family finance, environmental issues, and the use of time and human resources will be made.

Attributes: Recommended Intro Courses

FMLY 2012 Development, Conflict, and Displacement 3 cr

The course is an introduction to development, conflict, and displacement as they affect individuals, families and communities. Specifically, this course examines the current phenomenon of induced displacement due to social conflicts, natural disasters, or uneven development in developing countries. Students will examine concepts and issues arising from induced displacement and explore community based responses to this problem. Not be held with FMLY 2900.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FMLY 1012 or consent of the instructor.

Equiv To: FMLY 2900

FMLY 2400 Family Financial Health 3 cr

A survey of topics that have an impact on the financial health of Canadian families, including personal money management, mortgage financing, credit and debt, educational and retirement planning, taxation, insurance, savings and investments. The course prepares students to help families maximize resources and increase their financial literacy. May not be held with the former FMLY 2070.

Equiv To: FMLY 2070

FMLY 2500 Diversity and Families 3 cr

(Formerly FMLY 2350) Using the theoretical frameworks of intersectionality and social ecology, this class addresses how diversity in Canada is influenced by age, gender, ability, ethnicity, race, as well as family relationships, institutions and social policies. A focus on human rights and anti-racism education is emphasized. Not to be held with FMLY 2350.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FMLY 1000 (FMLY 1020) or FMLY 1010 or equivalent.

Equiv To: FMLY 2350

FMLY 2600 Foundations of Childhood Developmental Health 3 cr

This course examines the theoretical and empirical foundations of childhood development and their implications for promoting developmental health. Specifically, the course considers the biological and environmental factors that influence developmental health given physical, cognitive, emotional and social development from the prenatal period to middle childhood. May not be held with PSYC 2290 or PSYC 2291.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FMLY 1010.

Mutually Exclusive: PSYC 2290, PSYC 2291

FMLY 2650 The Social Aspects of Aging 3 cr

An examination of the social aspects of aging. Emphasis on understanding the aging process as a life transition involving adaptation through interaction with social and physical environments. May not be held with the former HMEC 2650 or SWRK 2650 or SWRK 2651 or REC 2650.

Equiv To: HMEC 2650, REC 2650, SWRK 2650

FMLY 2800 Family Violence 3 cr

A survey of the extent and nature of various forms of family violence across the life course. Topics include physical and sexual child abuse, sibling violence, partner violence, and elder abuse. Emphasis is on prevalence, incidence, causes, consequences and solutions.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FMLY 1010 or FMLY 1000 (FMLY 1020) or PSYC 1200 or SOC 1200.

FMLY 3012 Theories of Social Development 3 cr

This course is a survey of social development theories that have influenced the study and practice of development since the 1950s. It addresses the question of why theories of social development are necessary and why different theories emerged at particular times in history. This course examines explanations of development and underdevelopment as they impact on individuals, families and communities. Not be held with FMLY 3900.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FMLY 1012.

Equiv To: FMLY 3900

FMLY 3220 Death and the Family 3 cr

An examination of dying and death of family members throughout the family life cycle. Specific topics included are the meaning of death, the process of dying, caring relationships, grief and bereavement.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FMLY 1000 (FMLY 1020) or PSYC 1200 or SOC 1200.

FMLY 3240 Families in Later Years 3 cr

An investigation of family issues in the later years of life, such as housing, intergenerational relations, adjustment to retirement, sibling relations, grandparenting, death.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [FMLY 1010 and FMLY 1000 (FMLY 1020)] or PSYC 1200 or SOC 1200.

FMLY 3330 Parenting and Developmental Health 3 cr

Examines parenting and its influence on developmental health, with consideration of change across time, the context in which parenting occurs, and the effect of the parent-child relationship on developmental health.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: FMLY 2600 or FMLY 3600.

FMLY 3400 Families as Consumers 3 cr

An examination of the factors that influence the consumer behaviour of individuals and families across the life course, with particular attention to the situation of vulnerable consumers. Theory, education, policy and practice are related to contemporary consumer issues and the impact of consumption behaviour on the environment. Not to be held with the former FMLY 3450.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [FMLY 2400 or FMLY 2070] and [ECON 1210 or ECON 1220 or ECON 1010 or ECON 1020].

Equiv To: FMLY 3450

FMLY 3470 Selected Studies in the Family I 3 cr

The opportunity to carry out an individual study in the area of the family of particular interest to the student. When enrolment warrants, the department may offer selected topics in a regular course format.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

FMLY 3600 Adolescents in Families and Society 3 cr

This course is designed to help students understand the nature of adolescent relationships with their families in communities. The application of theory and research on adolescent relationships to professional practice with families and communities is emphasized.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FMLY 2600 and completion of 54 credit hours.

FMLY 3750 Fundamentals of Health Promotion 3 cr

This course provides an interdisciplinary life course perspective on theories and methods of health promotion. Current research, practices and policies in health promotion targeting individuals, families and communities will be critically reviewed with regard to issues of gender, culture, age, functional ability, socio-economic status, sexual orientation, and other determinants of health.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: HEAL 2600 or KPER 1200 (or the former PERS 1200) or KPER 1400 (or the former PERS 1400).

FMLY 3780 Introduction to the Development of Programs for Children and Families 3 cr

An introduction to the theory and practice of program development with special emphasis on programs for children and families. The course will cover techniques for conducting need assessments, as well as the process of planning and implementing programs to address community need.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: HNSC 2000 (or the former HMEC 2000 or the former HMEC 2050).

FMLY 3790 Introduction to the Evaluation of Programs for Children and Families 3 cr

An introduction to the theory and practice of program evaluation with special emphasis on child and family programs. Considers the purpose of evaluation, types of evaluation, evaluation design and analysis, and the evaluation process.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: HNSC 2000 (or the former HMEC 2000 or the former HMEC 2050).

FMLY 3800 Conflict Resolution in the Family 3 cr

Students will examine the nature and development of conflict in family relationships throughout the life span. Implications of conflict for the quality of family relationships and individual development will be addressed.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FMLY 2800 and completion of 54 credit hours.

FMLY 3802 Intimate Partner Violence 3 cr

A critical examination of theory and research on violence in intimate relationships. Topics will include violence in dating, common-law, marital, ex-partner and same-sex relationships.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FMLY 2800.

FMLY 3806 Children, Violence and Rights 3 cr

Violence against children in their families takes many forms, from sexual exploitation to honour killings. We will explore, through a child rights lens, the forces contributing to violence against children, its impact on human lives, and approaches to prevention being implemented around the world. Not to be held with FMLY 3804.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FMLY 2800.

Equiv To: FMLY 3804

FMLY 4012 Social Development Policies 3 cr

This course examines the formulation of social development policies and the impact of these policies on the well-being of individuals, families, and communities. The course uses a seminar format to foster students' capacity to understand and examine policy issues. Students will develop skills in understanding, analyzing, and formulation social development policies. Actual social development case studies will be evaluated and alternative family and community oriented policies discussed. Not be held with FMLY 4900.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FMLY 1012.

Equiv To: FMLY 4900

FMLY 4220 Aging and Risk in a Global Context 3 cr

This course will take an interdisciplinary perspective on definitions of risk associated with a variety of determinants that shape the daily lived experience of older adults, their families and communities, and the institutions that care for them. Students will evaluate programs, policies and research, and engage in a final project of their choice. Pre- or

PR/CR: A minimum grade of C is required unless otherwise indicated.

Corequisites: FMLY 2650 (or the former HMEC 2650) or SWRK 2650 or SWRK 2651 or REC 2650 or NURS 2610 or KIN 2610.

FMLY 4300 Field Experience 6 cr

Provide students with field experience in a supervised setting. The course consists of 120 hours of supervised work in an assigned setting and seminar time with peers and field experience coordinator. Grade is pass/fail.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: 84 credit hours and consent of instructor.

FMLY 4330 Management of Family Stress 3 cr

Theories which influence family behaviour during stress are discussed, and coping/managerial skills to mitigate the effects of the stressors are examined. Stress management advice from agencies and in educational settings is analyzed.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FMLY 1000 (FMLY 1020).

FMLY 4400 Family Economics: Poverty and Wealth 3 cr

Analysis of principles, major problems and trends in the economic welfare of individuals and families in both the Canadian and global economies. Emphasis on families and their relationships to the economy such as income inequality, family economic policy, human capital, poverty and resource distribution within families.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [FMLY 2400 or FMLY 2070] and [one of ECON 1210 or ECON 1220 or ECON 1010 or ECON 1020]. Not to be held with the former FMLY 4450.

Equiv To: FMLY 4450

FMLY 4470 Selected Studies in the Family II 3 cr

The opportunity to carry out advanced study in the area of the family of particular interest to the student. When enrolment warrants, the department may offer selected topics in a regular course format.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

FMLY 4480 Work and Family Issues 3 cr

An exploration of the interface between paid work and unpaid work and families in the Canadian and international contexts. Topics include demographic trends; parenting, child and elder care; management of work-family conflict; development of workplace solutions; and social policy implications.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FMLY 2400 (or FMLY 2070) and 84 credit hours.

FMLY 4500 Senior Thesis 6 cr

The preparation and presentation of a comprehensive review of the literature and an empirical investigation of an approved topic. Application required. Enrolment limited.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Registered in the final year of the Family Social Sciences program and consent of Department Head.

FMLY 4600 Risk and Resilience in Behavioural and Social Development 3 cr

The development of behavioural and social difficulties are examined from a risk and resilience perspective. The interaction of factors at all levels of the human ecological system are considered in terms of their impact on increasing risk and/or building resilience in children and youth.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FMLY 2600

FMLY 4602 Family Relationships, Health and Well-being 3 cr

This course provides an in-depth survey of the interaction between family relationship dynamics, and health and well-being across the life course period. The influence of family members on health-related behaviours is reviewed and preventive family-based interventions are evaluated.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FMLY 3600.

FMLY 4604 Children in Adversity 3 cr

Millions of children live with violence, trauma and other adverse circumstances. We will explore the interactions among individual, family, cultural, legal and policy factors as they affect children's developmental pathways in the face of adversity. May not be held with FMLY 4600.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FMLY 2600 or FMLY 3600.

Equiv To: FMLY 4600

FMLY 4606 A Social Justice Perspective on Indigenous Maternal and Child Health 3 cr

This course examines the local and global challenges regarding the health care and health care needs of Indigenous peoples, with particular attention to childbearing women, new mothers, and young children. Interdisciplinary theories and methods applied to the study of Indigenous peoples are critically evaluated from Indigenous and social justice perspectives.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FMLY 2500 (FMLY 2350) or NURS 3330 or NATV 1220 or NATV 1240.

FMLY 4800 Senior Seminar in Family Violence and Conflict Resolution 3 cr

Advanced study in the areas of family violence and/or conflict resolution. Special emphasis is placed upon current research and/or practice.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FMLY 3800 and completion of 72 credit hours.

FMLY 4802 Family Violence Prevention 3 cr

Family violence prevention theories, research, practices and policies will be critically reviewed with regard to issues such as gender, culture, sexual orientation and others. Not to be held with the former FMLY 4800.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: FMLY 2800.

Equiv To: FMLY 4800

Film Studies (FILM)

FILM 1290 The Art of the Film 1 3 cr

The study of film as an art form, entertainment and document.

Attributes: Humanities, Recommended Intro Courses

FILM 1310 Film History 3 cr

In this course students will examine films from more than one period in film history, exploring the relationships among and between films in terms of genre, style, theme, structure, and other aesthetic elements. Students will study films selected from various periods of world cinema, taking into consideration how and in what ways films bear the traces of their time and place, or are affiliated with relevant movements in art, history, or society, or have been shaped by technical and artistic developments in the art of film. Students may not hold credit for both FILM 1310 and the former FILM 1300.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in FILM 1290] or written consent of instructor.

Equiv To: FILM 1300

Attributes: Humanities, Recommended Intro Courses

FILM 2040 Documentary Film 3 cr

Theories and forms of the non-fiction as an art form, an information carrier and a propaganda tool. Students may not hold credit for both FILM 2040 and the former FILM 2420.

Equiv To: FILM 2420

Attributes: Humanities

FILM 2280 Film and Literature 6 cr

The interrelationships between literature and film through an analysis of significant films, novels, poems and plays. Special attention to adaptations of Shakespeare, modern drama, the 19th century novel, the modern novel, and popular fiction.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in each of FILM 1290 and FILM 1310 (or the former FILM 1300)] or [a grade of "C" or better in ENGL 1200 or ENGL 1201 or ENGL 1300 or ENGL 1301] or [a grade of "C" or better in each of ENGL 1400 (or the former ENGL 1310) and ENGL 1340]. Also offered as ENGL 2280. Students may not hold credit for both FILM 2280 and ENGL 2280.

Attributes: Humanities

FILM 2300 The Popular Film 3 cr

Current trends in film as a form of culture. Emphasis on recently released films as mirrors of existing social myths and values.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in each of FILM 1290 and FILM 1310 (or the former FILM 1300)] or written consent of instructor.

Attributes: Humanities

FILM 2330 Film and Contemporary Thought 3 cr

Recent films viewed in the light of current intellectual developments. Screenings are complemented by readings in contemporary political theory, philosophy, art, psychology, critical theory, etc.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in each of FILM 1290 and FILM 1310 (or the former FILM 1300)] or written consent of instructor.

Attributes: Humanities

FILM 2370 Experimental Cinema 3 cr

Formal innovations in avant-garde and underground films and videos, their significance and influence on the feature film industry.

Attributes: Humanities

FILM 2380 The International Cinema 1 3 cr

An examination of major works of international cinema, focusing upon the contributions of individual countries, or relevant global issues. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in each of FILM 1290 and FILM 1310 (or the former FILM 1300)] or written consent of instructor.

Attributes: Humanities

FILM 2400 The American Film to 1950 3 cr

The aesthetic development of the American Film from the early days until the beginning of television.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in each of FILM 1290 and FILM 1310 (or the former FILM 1300)] or written consent of instructor.

Attributes: Humanities

FILM 2410 The American Film from 1950 3 cr

An examination of the Hollywood film from the decline of the studio system.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in each of FILM 1290 and FILM 1310 (or the former FILM 1300)] or written consent of instructor.

Attributes: Humanities

FILM 2430 The Canadian Film 3 cr

The development of the film industry in Canada in its varied forms, with emphasis upon key films, regional differences and Manitoba contributions.

Attributes: Humanities

FILM 2460 Film Genres 3 cr

An examination of a major cinematic genre (e.g. the gangster film, the western, the musical) with emphasis upon the permanence and evolution of generic conventions and the ability of filmmakers to register personal visions within these conventions. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in each of FILM 1290 and FILM 1310 (or the former FILM 1300)] or written consent of instructor.

Attributes: Humanities

FILM 3250 Special Topics in Film 3 cr

An intensive examination of selected topics in film. Students are asked to consult the English, Theatre, Film & Media website for detailed course descriptions. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in each of FILM 1290 and FILM 1310 (or the former FILM 1300)] or written consent of instructor.

Mutually Exclusive: FILM 3440

Attributes: Humanities

FILM 3270 Special Topics in Film 3 6 cr

An intensive examination of selected topics in film including creative filmmaking projects. Contents of the course will vary according to the needs and interests of students and faculty. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in each of FILM 1290 and FILM 1310 (or the former FILM 1300)] and written consent of instructor.

Mutually Exclusive: FILM 3440

Attributes: Humanities

FILM 3400 The Director's Cinema 3 cr

An intensive critical look at the career of one or two major filmmakers. Students are asked to consult the English, Theatre, Film & Media website for detailed course descriptions. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in each of FILM 1290 and FILM 1310 (or the former FILM 1300)] or written consent of instructor.

Attributes: Humanities

FILM 3420 Film Theory 3 cr

A survey of Film Theory from its beginnings to the present: Eisenstein to André Bazin to Christian Metz and others (film theories, not reviewers).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in each of FILM 1290 and FILM 1310 (or the former FILM 1300)] or written consent of instructor.

Attributes: Humanities

FILM 3430 Screenwriting 3 cr

An introduction to the techniques and procedures of screenwriting. Students will be expected to complete a screenplay. Students may not hold credit for both FILM 3430 and Screenwriting as previously offered under the title of Special Topics.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in each of FILM 1290 and FILM 1310 (or the former FILM 1300)] or written consent of instructor.

Attributes: Humanities

FILM 3440 Filmmaking 3 cr

Digital filmmaking equipment is used to understand the rudiments of cinematography, editing, lighting, and directing. Students will make at least one short film. Students may not hold credit for both FILM 3440 and any of FILM 3250, FILM 3260, or FILM 3270 when titled "Filmmaking".

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in each of FILM 1290 and FILM 1310 (or the former FILM 1300)] or written consent of instructor.

Mutually Exclusive: FILM 3250, FILM 3260, FILM 3270

Attributes: Humanities

FILM 3450 The Animated Film 3 cr

The art of animation from early cell and puppet films to computer animation and current experimentation. Special attention is given to the "Golden Age of Animation" and to Canada's continuing contribution.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in each of FILM 1290 and FILM 1310 (or the former FILM 1300)] or written consent of instructor.

Attributes: Humanities

FILM 3460 Acting for the Camera 3 cr

This course is a practical exploration of the acting techniques appropriate for work in film and television. Each student will be required to perform a significant number of scene bits and a few full scenes on video camera. Students will develop skills connected with directing actors in film; intensive preparatory scene analysis, storyboarding, and camera operation during performance. Students may not hold credit for both FILM 3460 and Acting for the Camera as previously offered under the title of Special Topics.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in each of FILM 1290 and FILM 1310 (or the former FILM 1300)] or written consent of instructor.

Attributes: Humanities

FILM 3650 Advanced Filmmaking 3 cr

This course is for students who have taken FILM 3440 Basic Filmmaking and offers an opportunity to pursue longer, more technically ambitious work. Students are required to shoot one (1) 10 minute 16mm film; transfer that film to video; edit and soundtrack it.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C+" or better in FILM 3440] and written consent of instructor.

Attributes: Humanities

Finance (FIN)

FIN 2200 Corporate Finance 3 cr

(Lab required). An introduction to corporate finance regarding the allocation and acquisition of funds. Topics include: discounted cash flows, capital budgeting, financial instruments, cost of capital, risk-return trade-offs, market efficiency, capital structure and the use of derivatives. May not be held with FIN 2201.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [A grade of "D" or better in ACC 1100 or ACC 1101] and [a grade of "C" or better in MATH 1230 or MATH 1500 or MATH 1501 or MATH 1520] and [a grade of "C" or better in STAT 1000 or STAT 1001 or STAT 1150] and [a grade of "C" or better in both ECON 1010 (or ECON 1011) and ECON 1020 (or ECON 1021) or the former ECON 1200 (or the former ECON 1201)].

Equiv To: FIN 2201

FIN 3240 Entrepreneurial Finance 3 cr

Study of entrepreneurial finance, addressing both investment and financing decisions of new ventures, covering both in theory and in practice. May not be held for credit in any program with FIN 3470 and may not be used in place of FIN 3470.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FIN 2200 (D).

Mutually Exclusive: FIN 3470

FIN 3250 Financial Statement Analysis 3 cr

A study of the methods and techniques used for interpretation of annual financial reports and the significance of alternative accounting policies on reported income. Students may not hold credit for both FIN 3250 and ACC 2020.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ACC 1100 (D).

Mutually Exclusive: ACC 2020, ACC 2021

FIN 3270 Personal Financial Planning 3 cr

An introduction to financial planning techniques used in professional practice. Topics include financial assessment, income tax planning, risk management, insurance, debt and credit management, investments, retirement planning, and estate planning.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FIN 2200 (D).

FIN 3400 Investment Banking 3 cr

The practice and theory of investment banking including valuation, initial public offerings, mergers and acquisitions, and restructuring.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FIN 2200 (C+).

FIN 3410 Investments 3 cr

An introduction to investment analysis and modern portfolio theory. Topics include equilibrium in the capital markets, fixed income securities, equities and derivative instruments. May not be held with FIN 3411.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [A grade of "C+" or better in FIN 2200 or FIN 2201] and [a grade of "C" or better in MATH 1220 or MATH 1300 or MATH 1301 or MATH 1310] and [a grade of "C" or better in STAT 2000 or STAT 2001 or STAT 2150].

Equiv To: FIN 3411

FIN 3420 Security Analysis 3 cr

This course provides a practical application of techniques to analyse a company for investment purposes and evaluate purchases of stock and fixed-income securities. Topics include financial statement analysis, ratio analysis, alternative methods for forecasting corporate profits and dividends, risk assessment, and valuation techniques.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: FIN 2200 (C+).

FIN 3440 Real Estate Investments 3 cr

An introduction to real estate finance. Topics include valuation, financing, transaction, tax and legal issues.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FIN 2200 (C+).

FIN 3450 International Finance 3 cr

An introduction to the theory of comparative advantage, foreign exchange markets, international parity relations, international debt and equity markets, international debt operating exposures, and international capital budgeting.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FIN 2200 (C+).

Equiv To: FIN 3451

FIN 3460 Financial Markets and Institutions 3 cr

A study of financial systems with emphasis on Canada. Major topics include monetary policy, financial markets, financial institutions, financial regulation and risk management. May not be held with ECON 3640 or ECON 3641.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [A grade of "C+" or better in FIN 2200 or FIN 2201] and [a grade of "C" or better in MATH 1220 or MATH 1300 or MATH 1301 or MATH 1310] and [a grade of "C" or better in STAT 2000 or STAT 2001 or STAT 2150].

Mutually Exclusive: ECON 3640, ECON 3641

FIN 3470 Small Business Finance 3 cr

Study of the financial issues faced by small business enterprises. May not be held with FIN 3240.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FIN 2200 (D).

Mutually Exclusive: FIN 3240

FIN 3480 Corporate Finance Theory and Practice 3 cr

Intermediate Corporate Finance including the following topics: Capital budgeting theory and techniques, determination of relevant cost of capital, capital structure, dividend policy, leasing and other special topics. May not be held with FIN 3481.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [a grade of "C+" or better in FIN 2200 or FIN 2201] and [a grade of "C" or better in MATH 1220 or MATH 1300 or MATH 1301 or MATH 1310] and [a grade of "C" or better in STAT 2000 or STAT 2001 or STAT 2150].

Equiv To: FIN 3481

FIN 4230 Selected Topics in Finance 3 cr

A study of current issues in finance. Topics considered will depend on the interests and needs of the participants.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FIN 2200 (C+).

FIN 4240 Financial Modeling 3 cr

Spreadsheet implementation of practitioner-oriented financial models. May not be held with FIN 4230 when titled "Financial Modeling".

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FIN 3410 (C).

Equiv To: FIN 4230

FIN 4250 Behavioral Finance 3 cr

Understand how human biases impact the financial decisions of market participants and the practical implications.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FIN 2200 (C+).

FIN 4260 Advanced Finance Theory 3 cr

Theories that provide the foundation for modern corporate finance. Empirical tests of finance theories. Implications for managers.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: FIN 3410 (D) and FIN 3480 (D).

FIN 4270 Options and Futures 3 cr

Mechanics of futures, options and swaps markets. Topics include arbitrage, hedging, forward rate agreements, models of derivative valuation and value-at-risk.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FIN 3410 (D).

FIN 4400 Financial Management Practices 3 cr

Application of theoretical models in finance to real-world problems using cases. Topics include working capital management, long-term investment and financing decisions, valuation, risk management, reorganizations and international financial management.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FIN 3480 (D).

Fine Art, Art History Courses (FAAH)

FAAH 1030 Introduction to Art 1A 3 cr

A basic study/survey of world art history and theory to the early Renaissance. This course is a prerequisite to further study in art history and theory of art. May not be held with the former FAAH 1050 or EVDS 1660.

Equiv To: FAAH 1050

Mutually Exclusive: EVDS 1660

Attributes: Recommended Intro Courses

FAAH 1040 Introduction to Art 2A 3 cr

A basic study/survey of world art history and theory from the Renaissance to the present. May not be held with the former FAAH 1060 or EVDS 1670.

Equiv To: FAAH 1060

Mutually Exclusive: EVDS 1670

Attributes: Recommended Intro Courses

FAAH 1100 Survey of Asian Art 3 cr

An introductory survey of the arts of India, China and Japan from prehistory to the present. May not be held with FAAH 2100.

Equiv To: FAAH 2100

FAAH 2060 Medieval to Early Renaissance Art and Architecture 3 cr

An introduction to the study of Medieval art and architecture in Europe, from the very beginnings of a specifically Christian artistic tradition to the beginning of the Renaissance.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: FAAH 1030 or EVDS 1660.

FAAH 2070 Renaissance to Baroque Art and Architecture 3 cr

An introduction to the study of Renaissance art and architecture up to the Baroque era in the context of the social, political and economic circumstances of this time.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: FAAH 1040 or EVDS 1670.

FAAH 2080 Modern to Contemporary Art 3 cr

A study of the major movements, themes, and media of Western Art from the late 18th century to the present.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: FAAH 1040 or EVDS 1670.

FAAH 2090 Art of the North American Aboriginal Peoples 3 cr

A study of the art and artifacts of the indigenous peoples of North America (other than the Inuit). No prerequisite.

FAAH 2110 Women and Art 3 cr

This art history course will examine the aesthetics, ideology and social conditions that have shaped women's relationships to the visual arts and to art history, as artists, as patrons, and as subject matter. No prerequisite.

FAAH 2910 Field Studies in Art History I 3 cr

This off-campus travel course will provide students with the opportunity to study firsthand the art and architecture of a particular city or region in a broad cultural context. Course location may vary from year to year. Offered during Summer Session only.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Written permission of instructor.

FAAH 2920 Field Studies in Art History 2 3 cr

This off-campus travel course will provide students with the opportunity to study firsthand the art and architecture of a particular city or region in a broad cultural context. Course location may vary from year to year. Offered during Summer Session only.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Written permission of instructor.

FAAH 2930 Writing about Art 3 cr

This course is designed to give students in Art History and Studio programs the opportunity to develop their writing skills with a focus on academic and critical writing on both historical and contemporary art. The practical needs of professional artists will also be covered. May not be held with the former FA 2620.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: FAAH 1030 or FAAH 1040 or FAAH 1100 or EVDS 1660 or EVDS 1670.

Equiv To: FA 2620

Attributes: Written English Requirement

FAAH 3130 Topics in Medieval Art and Architecture 3 cr

Significant topics in Medieval art and architectural history. Topic will vary from year to year.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FAAH 2060 or written permission of the instructor.

FAAH 3140 Topics in Renaissance and Baroque Art and Architecture 3 cr

Significant topics in Renaissance and Baroque art and architectural history. Topic will vary from year to year.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FAAH 2070 or written permission of the instructor.

FAAH 3150 Topics in 18th and 19th Century Art 3 cr

Significant topics in 18th and 19th century art history. Topic will vary from year to year.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FAAH 2070 or FAAH 2080 or written permission of the instructor.

FAAH 3160 Topics in 20th Century Art 3 cr

Significant topics in 20th century art history. Topic will change from year to year.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FAAH 2080 or written permission of the instructor.

FAAH 3180 History of Photography 3 cr

The development of photography from its origins to the present.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: FAAH 1040 or EVDS 1670.

FAAH 3190 History of Ceramics 3 cr

This course will examine the history of ceramics, extending from prehistory in Asia to recent work in Europe, the United States and Canada. No prerequisite, or written permission of instructor, but STDO 2230 (Ceramics 1) will be helpful.

FAAH 3200 Art in New Media 3 cr

This course will consider art produced in non-traditional media during the Modern era, i.e. since the 18th century, with emphasis on developments during the 20th century and particularly the last 40 years.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: FAAH 1040 or EVDS 1670.

FAAH 3202 Contemporary Art History 3 cr

This course will consider the art history of the past few decades with an emphasis on recent and contemporary developments.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FAAH 2080 or written permission of the instructor.

FAAH 3212 Introduction to The Theory of Art 3 cr

This lecture course is a introduction to major theoretical and critical approaches to art. The course will explore theories regarding formal aspects of art as well as social, cultural and ideological concerns, historically significant critical movements, and issues of production, exhibition and reception. May not be held with FAAH 3210.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (FAAH 1030 or EVDS 1660) and (FAAH 1040 or EVDS 1670) or FAAH 1050 and FAAH 1060.

Equiv To: FAAH 3210

FAAH 3220 Topics in Aboriginal Art 3 cr

This course will cover significant topics in the art of the North American Aboriginal peoples, including the Inuit. Topic will vary from year to year.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FAAH 2090 or FAAH 3430, as appropriate, or written permission of the instructor.

FAAH 3230 Chinese Art and Architecture 3 cr

A survey of the art and architecture of China beginning with the Shang-Yin Period (2000 BCE) and continuing to the present.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FAAH 2100 or FAAH 1100 or written permission of the instructor.

FAAH 3240 Japanese Art and Architecture 3 cr

A survey of the art and architecture of Japan beginning with the Jomon Period (300 BCE to 300 CE) and continuing through the Heisei Period (1989 - present).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FAAH 2100 or FAAH 1100 or written permission of the instructor.

FAAH 3250 Topics in Art History 3 cr

This course will vary from year to year depending on the needs of students and the interests and availability of instructors. May not be taken for credit with a course equivalent to the topic currently offered.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Any 2nd year course or written permission of instructor.

FAAH 3260 Canadian Art and Architecture to World War 2 3 cr

A study of Canadian art up to World War 2.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: FAAH 1040 or EVDS 1670.

FAAH 3270 Canadian Art Since World War 2 3 cr

A study of Canadian art from World War 2 to the present.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: FAAH 1040 or EVDS 1670.

FAAH 3280 Early Byzantine Art and Architecture 3 cr

A study of the origin and evolution of early Byzantine Art and Architecture.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FAAH 2060.

FAAH 3290 Later Byzantine Art and Architecture 3 cr

A study of later Byzantine Art and Architecture to the end of the Middle Ages. Special emphasis will be placed on the influence of Byzantine art on the modern traditions of Eastern Europe.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FAAH 2060 or FAAH 3280.

FAAH 3430 Inuit Art 3 cr

The history and analysis of Inuit Art.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (FAAH 1030 or EVDS 1660) and (FAAH 1040 or EVDS 1670); or FAAH 2090.

FAAH 3590 Islamic Art and Architecture 3 cr

A contextual and thematic study of Islamic art and architecture beginning in the 7th century and continuing through the present.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (FAAH 1030 or EVDS 1660) and (FAAH 1040 or EVDS 1670); or FAAH 2100 or FAAH 1100.

FAAH 3780 Twentieth Century American Art Until 1950 3 cr

Realism, modernism, and regionalism are among the topics given special emphasis in this study of late 19th and 20th century American art.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one 2000-level in the appropriate area as defined by the instructor, or written permission of the instructor.

FAAH 3930 Introduction to Curatorial Studies 3 cr

A survey introduction to the theory and practice of art display and gallery collecting.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FAAH 2080 or by permission of the instructor.

FAAH 3940 History of Visual Communication 3 cr

A concentration of the advent of Modernism in visual communication and subsequent graphic design movements in the twentieth century. May not be held with STDO 3960.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: STDO 2660 or [(FAAH 1030 or EVDS 1660) and (FAAH 1040 or EVDS 1670)].

Equiv To: STDO 3960

FAAH 4060 Seminar in Art Theory and Criticism 3 cr

A seminar treating selected topics in the theory and criticism of art.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FAAH 3210 or written permission of the instructor.

FAAH 4070 Seminar in Art History 1 3 cr

Seminar treating special topics in Art History.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one 300-level in the appropriate area as defined by the instructor, or written permission of the instructor.

FAAH 4090 Seminar on Contemporary Issues in Art 3 cr

A seminar treating contemporary issues in art. The topic varies from year to year.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one 3000-level course in the appropriate area as defined by the instructor, or written permission of the instructor.

FAAH 4250 Seminar on Curatorial Studies 3 cr

Students receive hands-on experience within a critical context of curating an exhibition. Instructional methods include seminar format and practicum in School of Art Gallery.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: FAAH 3930 and one 3000-level Art History course or by permission of the instructor.

FAAH 4710 Directed Study 1 3 cr

Directed study in art history.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Written permission of instructor and director.

FAAH 4720 Directed Study 2 3 cr

Directed study in art history.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Written permission of instructor and director.

Fine Art, General Courses (FA)

FA 1020 Mathematics in Art 3 cr

Specific theory, structuring systems, and mathematical methods and principles used in works of art from various historical periods and contexts will be explored in relation to Euclidean and non-Euclidean geometries. Topics include linear perspective; shapes, patterns, balance and symmetry; ratio, proportion, and harmony; and order, dynamics, and chaos. The course will be one half art and one half mathematics, team-taught by faculty from the School of Art and the Department of Mathematics. This course is also given in the Department of Mathematics as MATH 1020. This is a terminal course and may not be used as a prerequisite for other Mathematics courses. This course cannot be used as part of an Honours, Major, General or Minor program in the mathematical sciences. Not available to any student already holding a grade of "C" or better in any Mathematics courses with the exception of MATH 1010, the former MATH 1190, MATH 1191. Not to be taken concurrently with any other Mathematics course with the exception of MATH 1010, the former MATH 1190, or MATH 1191. Not to be held for credit with MATH 1020. No prerequisite.

Equiv To: MATH 1020

Mutually Exclusive: MATH 1200, MATH 1201, MATH 1210, MATH 1211, MATH 1220, MATH 1230, MATH 1232, MATH 1240, MATH 1241, MATH 1300, MATH 1301, MATH 1310, MATH 1500, MATH 1501, MATH 1510, MATH 1520, MATH 1690, MATH 1700, MATH 1701, MATH 1710

Attributes: Mathematics Requirement, Science, Recommended Intro Courses

FA 1990 First Year Field Trip 0 cr

A field trip conducted by members of faculty. When the field trips are destined for the United States, students requiring a visa should make arrangements to obtain the visa at least 90 days before field trip departure date. A field trip exemption is not grantable except under extreme/extraordinary/visa issues circumstances. The field trip is required for a BFA General Degree and the Diploma program. Students unable to obtain a visa should contact their student advisor.

Fine Art, Studio Courses (STDO)

STDO 1210 Drawing: Studio 1 3 cr

Students are introduced to key concepts and competencies used in contemporary drawing practice. Prerequisite for further study in fine arts studio courses. May not be held with STDO 1200.

Mutually Exclusive: STDO 1200

Attributes: Recommended Intro Courses

STDO 1240 Figure Study 1 3 cr

Traditional and experimental approaches to rendering the figure, culminating in the production of a portfolio of drawings. Prerequisite to further study in the Fine Arts Studio courses. May not be held with STDO 1200 or STDO 1230.

Mutually Exclusive: STDO 1200, STDO 1230

Attributes: Recommended Intro Courses

STDO 1250 Drawing: Studio 2 3 cr

Building on competencies developed in STDO 1210 Drawing: Studio 1, students integrate individual research with methods and materials of contemporary drawing. Prerequisite for further study in fine arts studio courses. May not be held with STDO 1200.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 1210.

Mutually Exclusive: STDO 1200

Attributes: Recommended Intro Courses

STDO 1410 Visual Language 3 cr

An introduction to communication in contemporary visual art through traditional and experimental 2D and 3D modes. Prerequisite for further study in fine arts studio courses. May not be held with the former STDO 1220.

Mutually Exclusive: STDO 1220

Attributes: Recommended Intro Courses

STDO 1450 Open Studio 1 3 cr

Expanding concepts and ideas developed in Visual Language, students investigate the nature of contemporary art and design. Prerequisite for further study in fine arts studio courses. May not hold with the former STDO 1220.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 1410.

Mutually Exclusive: STDO 1220

Attributes: Recommended Intro Courses

STDO 1470 Materials Studio 3 cr

Students choose among individual studio area modules to learn material technologies used in art, facilitating students' ability to work in School of Art workshops. Prerequisite for further study in fine arts studio courses. May not be held with STDO 1220.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 1410.

Mutually Exclusive: STDO 1220

Attributes: Recommended Intro Courses

STDO 1480 Digital Essentials 3 cr

An introduction to the core software skills and digital methods that may be applied to art, design and research practices. Topics will provide students a basic understanding of digital platforms within a creative environment.

STDO 1510 Art Now 3 cr

Introduction to current activities in art practices through gallery talks/visits, journal writing, formal critique methods and research methodology. It supports FA 1990 (Field Trip) which all first year BFA students must take. Pre-requisite to further study in Fine Arts Studio courses. May not be held with STDO 1200, STDO 1220 or STDO 1430.

Mutually Exclusive: STDO 1200, STDO 1220, STDO 1430

Attributes: Recommended Intro Courses

STDO 2210 Introduction to Sculpture 6 cr

This course introduces materials, processes and ideas informing the making of contemporary sculptural practices.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: Successful completion of 21 credit hours of 1000-level STDO courses.

STDO 2212 Intermediate Sculpture 3 cr

The course explores sculptural practices at an intermediate level, developing skills in a variety of materials and media. The course will provide the opportunity for independent thought, conceptual growth and project planning and implementation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (STDO 2210 and STDO 2214) or STDO 2690 when titled Mould Making.

STDO 2214 Mould Making 3 cr

This course focuses on plaster as the primary mould making material. Students will have the opportunity to use other media in the projects they make from their moulds so long as it is something that can be released from the surface of the plaster. May not be held with STDO 2690 when titled Mould Making.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: successful completion of 21 credit hours of 1000-level STDO courses.

Mutually Exclusive: STDO 2690

STDO 2220 Introduction to Painting 6 cr

Basic instruction in oil painting and pictorial composition.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Successful completion of 21 credit hours at 1000-level STDO courses.

STDO 2222 Intermediate Painting 3 cr

A continuation of STDO 2220 Introduction to Painting this course provides focused technical instruction and opportunities to develop an individual painting practice. May not be held with STDO 3680 when titled Intermediate Painting.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 2220.

Mutually Exclusive: STDO 3680

STDO 2230 Ceramics 1 6 cr

Introduction to ceramic art, including contemporary processes, techniques, and history.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Successful completion of 21 credit hours at 1000-level STDO courses.

Mutually Exclusive: STDO 2310, STDO 2320

STDO 2250 Drawing 1 6 cr

Creative use of drawing with emphasis on the human figure. May not be held with STDO 2240.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: Successful completion of 21 credit hours at 1000-level STDO courses.

Equiv To: STDO 2240

STDO 2310 Introduction to Wheel - Throwing 3 cr

This course will cover the basics of wheel throwing and gas kiln firing. Technical and conceptual content will be provided through a series of assigned projects. May not be held with STDO 2230.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Successful completion of 21 credit hours of 1000 level studio courses.

Mutually Exclusive: STDO 2230

STDO 2320 Introduction to Handbuilding 3 cr

This course will cover the basics of hand building with clay and electric kiln firing. Technical and conceptual content will be provided through a series of assigned projects. May not be held with STDO 2230.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Successful completion of 21 credit hours of 1000 level studio courses.

Mutually Exclusive: STDO 2230

STDO 2380 Intermediate Wheel-Throwing 3 cr

The course builds on elements learned in STDO 2310 Beginning Wheel Throwing. Students will be taught the correct procedures for the further manipulation of wheel thrown cylinders. Emphasis will be on creating objects with spouts, lids, as well as multiples.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 2310 or STDO 2690 when titled Beginning Wheel Throwing.

Mutually Exclusive: STDO 2690

STDO 2400 Introduction to Photography 6 cr

Introduction to the camera and photographic techniques with problems in creative visual expression.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Successful completion of 21 credit hours at 1000-level STDO courses.

STDO 2420 Intermediate Film Photography 3 cr

Students will explore aspects of analogue photography at the intermediate level, including photographing on medium-format film, printing on fibre paper, darkroom experimentation, and historical processes such as cyanotype printing. May not be held with STDO 2690 when titled Intermediate Film Photography or STDO 3680 when titled Intermediate Photo.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 2400.

Mutually Exclusive: STDO 2690, STDO 3680

STDO 2430 Intermediate Digital Photography 3 cr

This course will provide students with the ability to further advance their technical and conceptual abilities in digital photography.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 2400.

STDO 2460 Digital Photography 1 6 cr

This is a Studio course introducing the basic technical foundation and critical understanding of contemporary photo-based image production. May not be held with STDO 2450.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: Successful completion of 21 credit hours at 1000-level STDO courses.

Equiv To: STDO 2450

STDO 2500 Printmaking Intaglio A 3 cr

An introduction to the basic techniques in Intaglio.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: Successful completion of 21 credit hours at 1000-level STDO courses.

Equiv To: STDO 2550

STDO 2502 Printmaking Intaglio B 3 cr

A continuation in the basic techniques in Intaglio.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: STDO 2500 or STDO 2550.

STDO 2510 Printmaking Silkscreen A 3 cr

An introduction to the basic techniques in Silkscreen.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: Successful completion of 21 credit hours at 1000-level STDO courses.

Equiv To: STDO 2550

STDO 2512 Printmaking Silkscreen B 3 cr

A continuation in the basic techniques in Silkscreen.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: STDO 2510 or STDO 2550.

STDO 2520 Printmaking Lithography A 3 cr

An introduction to the basic techniques in Lithography.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: Successful completion of 21 credit hours at 1000-level STDO courses.

Equiv To: STDO 2550

STDO 2522 Printmaking Lithography B 3 cr

A continuation in the basic techniques in Lithography.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: STDO 2520 or STDO 2550.

STDO 2530 Relief and Monoprints 3 cr

This course introduces the student to working in a printshop environment, using various mediums and methods of creating works on paper. Projects are structured to explore traditional and experimental approaches to monoprinting and relief printmaking. Technical proficiency and skill will require practice and attention to detail.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: Successful completion of 21 credit hours at 1000-level STDO courses.

STDO 2610 Video 1 6 cr

The creative use of video as an art medium.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Successful completion of 21 credit hours at 1000-level STDO courses.

STDO 2630 Introduction to Design 3 cr

An introduction to the creative use of design elements and principles applied to problems in Graphic Design.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Successful completion of 21 credit hours at 1000-level STDO course.

STDO 2640 Intermediate Design 3 cr

A continuation of the investigation of the creative use of advanced design elements and principles applied to problems in Graphic Design. The course provides a grounding in the concepts, techniques and skills required to solve specific problems, develop a personal design process and acquire a deeper understanding of visual media.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 2630.

STDO 2650 Digital Design Technology 3 cr

This course is an introduction to the computer as a creative tool and to explore industry standard software for use in the creative graphic design applications.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Successful completion of 21 credit hours at 1000-level STDO courses.

STDO 2662 Typography Studio 3 cr

Students will explore both form and functional typography in studio practice. Consideration of how shifts in the appearance of language can change the way it signifies. A review of how typography has developed historically and the context that it exists in today, where the interrelated systems of reading, technology, culture and language meet, asking us to understand typography as a relational practice. This course is a prerequisite for students wishing to pursue higher level course work in graphic design.

STDO 2670 Design Theory and Criticism 1 3 cr

An introduction to the nature of the design process and the principles of visual perception and visual language with a focus on the cultural and commercial roles of visual communication design practice.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Successful completion of 21 credit hours at 1000-level STDO courses and FAAH 1030 and FAAH 1040.

STDO 2680 Special Topics 3 cr

Selected projects in Fine Art Studio of current interest.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Successful completion of 21 credit hours at 1000 level STDO courses.

STDO 2690 Special Topics in Studio Practice 1 3 cr

Individual three credit hour courses offered in multiple discipline areas. Courses will provide opportunities for skill building, conceptual development and depth of topics of interest.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre-requisites: twenty-one credit hours of 1000-level Studio courses or written permission of the instructor.

Mutually Exclusive: STDO 2214, STDO 2380, STDO 2420

STDO 2712 Interdisciplinary Studio 1 3 cr

Complementary to 2000-level Studio practice courses. Students will engage in discussion, readings and practical studio work. May not hold with the former STDO 2710.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre-requisites: Twenty-one credit hours at 1000- level Studio courses.

Equip To: STDO 2710

STDO 2740 Open Media 6 cr

This interdisciplinary studio course encourages the research, creation, and presentation of works of a diverse nature.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: Successful completion of 21 credit hours at 1000 level STDO courses.

STDO 2810 Introduction to Performance Art 3 cr

An introduction to the language and form of performance art, including live performance, performance based installation, and interactive and relational performances. May not be held with STDO 3680 when titled "Introduction to Performance Art".

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Successful completion of 21 credit hours of 1000- level STDO courses.

Mutually Exclusive: STDO 3680

STDO 3110 Projects in Sculpture 3 cr

Advanced instruction and studio practice in sculpture with a focus on individual research and sustained, self-directed projects. May not be held with STDO 3680 when titled Projects in Sculpture.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 2212.

Mutually Exclusive: STDO 3680

STDO 3120 Projects in Painting 3 cr

Advanced instruction and studio practice in painting with a focus on individual research and sustained, self-directed projects. May not be held with STDO 3680 when titled Self Directed Projects in Painting, Projects in Painting, or Independent Projects in Painting.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 2220.

Mutually Exclusive: STDO 3680

STDO 3130 Projects in Ceramics 3 cr

Advanced instruction and studio practice in ceramics with a focus on individual research and sustained, self-directed projects. May not be held with STDO 3680 when titled Independent Projects in Ceramics.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: (STDO 3380 or STDO 3680 when titled Advanced Wheel Throwing with Clay) or (STDO 3390 or STDO 3680 when titled Advanced Hand Building with Clay).

Mutually Exclusive: STDO 3680

STDO 3140 Projects in Photography 3 cr

Advanced instruction and studio practice in photography with a focus on individual research and sustained, self-directed projects. May not be held with STDO 3680 when titled Self Directed Projects in Photography or Independent Projects in Photography.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 2400.

Mutually Exclusive: STDO 3680

STDO 3330 Advanced Drawing 2 6 cr

An upper level drawing course with an emphasis on finished drawings and experimental techniques.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 2250.

STDO 3360 Ceramic Sculpture 6 cr

This course investigates methods used to create large-scale clay forms and small-scale mixed-media works. Concept, material, and presentation will be the focus as paper clay, paper plaster moulds, reinforcement techniques, experimental surfaces, 3D digital fabrication methods, and presentation are investigated. May not be held with STDO 3680 when titled Ceramic Sculpture.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 3390 or STDO 3680 when titled Advanced Hand Building with Clay.

Mutually Exclusive: STDO 3680

STDO 3370 Advanced Ceramics 6 cr

Continuation of Ceramics 1 (STDO 2230).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 2230.

Mutually Exclusive: STDO 3380, STDO 3390

STDO 3380 Advanced Wheel Throwing with Clay 3 cr

A continuation of STDO 2310 Beginning Wheel Throwing with Clay. This course will focus on advanced techniques in wheel throwing and the firing of gas and atmospheric kilns. May not be held with STDO 3370.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 2310 or permission of the School of Art.

Mutually Exclusive: STDO 3370

STDO 3390 Advanced Hand Building with Clay 3 cr

A continuation of STDO 2320 Beginning Hand Building with Clay with a focus on experimental and innovative practices. May not be held with STDO 3370. Prerequisite: STDO 2320 or permission of the School of Art.

Mutually Exclusive: STDO 3370

STDO 3420 Advanced Painting 6 cr

Continuation of Painting 1 (STDO 2220) with increasing emphasis on painting techniques, theory, and use of expressive idioms.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 2220.

STDO 3422 Advanced Painting 3 cr

A continuation of STDO 2222 Intermediate Painting with increasing emphasis on individual development, theory and use of expressive idioms.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 2220.

STDO 3460 Advanced Sculpture 6 cr

Continuation of Sculpture 1 (STDO 2210), with emphasis on one of modeling, carving, or construction.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 2210.

STDO 3462 Advanced Sculpture 3 cr

The course explores sculptural practices at an advanced level, developing skills in a variety of materials and media at a self-determinate level. The course will provide the opportunity for independent thought, conceptual growth and project planning and implementation. May not be held with STDO 3680 when titled Topics in Advanced Sculpture.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 2212.

Mutually Exclusive: STDO 3680

STDO 3480 Advanced Photography 1 6 cr

Continuation of Photography 1 (STDO 2400) or Digital Photography (STDO 2450), with emphasis on print quality and personal imagery.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 2400 or STDO 2450.

STDO 3482 Advanced Film Photography 3 cr

Students will gain advanced techniques for artists using film photography, such as studio photography, artificial lighting, and large-format camera exposures and development. These major skills will be complemented by honing students' ability to resolve a photographic artwork through its most ideal presentation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 2400.

STDO 3490 Photography 2 9 cr

Advanced instruction toward individual expression. (Major course)

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C+" or better in STDO 2400 or STDO 2450.

STDO 3670 Special Topics 6 cr

Projects of an unusual nature. Click on View "Timetable" to see current offerings.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written permission of instructor and director.

STDO 3672 Special Topics in Design 3 cr

Courses will provide opportunities for skill building, conceptual development and depth on topics of interest within the area of Design. This course can be completed as a topics course multiple times under different titles.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 2640.

STDO 3674 Special Topics in Printmaking 3 cr

Course will provide opportunities for skill building, conceptual development and depth on topics of interest within the area of Printmaking. This course can be completed as a topics course multiple times under different titles.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: 6 credit hours of STDO 2500 or STDO 2502 or STDO 2510 or STDO 2512 or STDO 2520 or STDO 2522 or STDO 2530 or STDO 2690 when titled Silkscreen Textiles or STDO 3680 when titled Relief and Monoprints.

STDO 3680 Special Topics in Studio Practice 2 3 cr

Individual three credit hour courses offered in multiple discipline areas. Courses will provide opportunities for skill building, conceptual development and depth on topics of interest.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre-requisites: will vary depending on the course.

Mutually Exclusive: STDO 2222, STDO 2420, STDO 2810, STDO 3110, STDO 3120, STDO 3130, STDO 3140, STDO 3360, STDO 3462

STDO 3682 Special Topics in Painting 3 cr

This course will provide opportunities for skill building, conceptual development and depth on topics of interest within the area of Painting. This course can be completed as a topics course multiple times under different titles.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 2220.

STDO 3684 Special Topics in Photography Special Topics in Photography 3 cr

This course will provide opportunities for skill building, conceptual development and depth on topics of interest within the area of Photography. This course can be completed as a topics course multiple times under different titles.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 2400.

STDO 3686 Special Topics in Sculpture 3 cr

Courses will provide opportunities for skill building, conceptual development and depth on topics of interest within the area of Sculpture. This course can be completed as a topics course multiple times under different titles.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 2210.

STDO 3688 Special Topics in Ceramics 3 cr

Courses will provide opportunities for skill building, conceptual development and depth on topics of interest within the area of Ceramics. This course can be completed as a topics course multiple times under different titles.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: 6 credit hours from STDO 2214, STDO 2310, STDO 2320, or STDO 2690 when titled Beginning Wheel Throwing or Beginning Handbuilding with Clay.

STDO 3710 Special Topics in Indigenous Contemporary Art Practices 3 cr

This course will provide opportunities for skill building, conceptual development and depth, and historical and theoretical considerations of topics concerning Indigenous Contemporary Art Practice.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Successful completion of 21 credit hours at 1000 level STDO courses.

STDO 3720 Special Topics in BIPOC Contemporary Art Practices 3 cr

This course will provide opportunities for skill building, conceptual development and depth, and historical and theoretical considerations of topics concerning BIPOC Contemporary Art Practices.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Successful completion of 21 credit hours at 1000 level STDO courses.

STDO 3830 Advanced Printmaking A 3 cr

An upper level print media course allowing students to develop work in one or more of the print process.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Successful completion with a minimum of a grade of "C" in one of the following courses: STDO 2500, STDO 2502, STDO 2510, STDO 2515, STDO 2520, STDO 2522 or STDO 2530.

STDO 3840 Advanced Printmaking B 3 cr

An upper level print media course allowing students to develop work in one or more of the print processes.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of C in STDO 3830.

STDO 3910 Projects in Design 3 cr

This course builds on students' abilities to solve graphic design problems in visual communications as developed in STDO 2640 Intermediate Design, and to increase the repertoire of design problems typically encountered in professional practice.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 2630 and STDO 2640 and STDO 2662.

Mutually Exclusive: STDO 3940

STDO 3920 Advanced Design 3 cr

This course builds on students' abilities to solve graphic design problems in visual communications as developed in STDO 2640 Intermediate Design, and to increase the repertoire of design problems typically encountered in professional practice. May not be held with the former STDO 3930.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 3910.

Mutually Exclusive: STDO 3930

STDO 3950 New Media Design 3 cr

An exploration of the 'new media' revolution within a critical graphic design context. The course is also an introduction to the tools and principles of new media content creation and information architecture.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 2650.

STDO 3972 Interdisciplinary Studio 2 3 cr

Complementary to 2000-level and 3000-level Studio practice courses. Students will engage in discussion, readings, and practical studio work. May not hold with the former STDO 3970.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre-requisites: twenty-one credit hours of 1000-level Studio courses.

Equiv To: STDO 3970

STDO 4450 Advanced Drawing 3 6 cr

Advanced individual instruction in creative drawing.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 3330 or STDO 3630.

STDO 4520 Advanced Ceramics 2 6 cr

Individual instruction (Ceramics) with concentration in the areas most relevant to the student's creative development.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 3370 or STDO 3620.

STDO 4530 Advanced Painting 2 6 cr

Individual instruction with concentration in the areas most relevant to the student's creative development.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 3420 or STDO 3600.

STDO 4550 Advanced Sculpture 2 6 cr

Individual instruction with concentration in the areas most relevant to the student's creative development.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 3460 or STDO 3650.

STDO 4570 Advanced Printmaking 2A 3 cr

Continuation of Advanced Printmaking 2. Students may not hold credit for both STDO 4540 and STDO 4570.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 3830 and STDO 3840, or STDO 3890 and STDO 3900.

STDO 4610 Advanced Printmaking 2B 3 cr

Continuation of Advanced Printmaking 2A. Students may not hold credit for both STDO 4540 and STDO 4610.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 4570.

STDO 4700 Advanced Photography 2 6 cr

Advanced individual instruction in creative photography.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 3480 or STDO 3490.

STDO 4710 Design Senior Studio 1 6 cr

(Lab required) This course provides an opportunity for students to propose and develop a self-directed term-long design project. Peer learning and collaboration will be encouraged using yearly thematic focus to frame the class research. May not be held with STDO 4810 or STDO 4820. Prerequisite: STDO 3910.

Mutually Exclusive: STDO 4810, STDO 4820

STDO 4720 Design Senior Studio 2 6 cr

(lab required) This course provides an opportunity for students to propose and develop a self-directed term-long design project. Peer learning and collaboration will be encouraged using a yearly thematic focus to frame the class research. May not be held with STDO 4810 or STDO 4820.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 4710.

Mutually Exclusive: STDO 4810, STDO 4820

STDO 4730 Design Honours Seminar 1 3 cr

Design Honours Seminar will complement the work and research in Design Honours Studio 1 and 2 and provide critical conversations around contemporary design. The course emphasizes writing about design as well as covering issues related to the documentation and dissemination of design thinking, design process and designed outcomes. May not be held with STDO 4910.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Successful completion of 15 credit hours of 3000 level studio courses. Corequisite: STDO 4710.

Mutually Exclusive: STDO 4910

STDO 4810 Senior Studio 1 6 cr

Students develop and complete a self-directed program of Studio work. Regular peer and faculty review of Studio program of work. Taught by individual faculty or two-faculty teams. May not hold with STDO 4880 or 054.488. Open only to students in fourth year Honours.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre-requisite: 15 credit hours of 3000 level Studio courses. Co-requisite: STDO 4910.

Mutually Exclusive: STDO 4710, STDO 4720, STDO 4880

STDO 4820 Senior Studio 2 6 cr

Taken after Senior Studio 1 (STDO 4810) students develop and complete their self-directed program of Studio work. Regular peer and faculty review of Studio program of work. Taught by individual faculty or two-faculty teams. Open only to students in fourth year of Honours program. May not be held with STDO 4880.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 4810. Co-requisite: STDO 4920.

Mutually Exclusive: STDO 4710, STDO 4720, STDO 4880

STDO 4870 Visual Research Methods in Design 3 cr

An examination of the technologies and techniques of visual communication production with a focus on the concepts of business and production management. This studio course is a part of the graphic design area sequence.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (STDO 3910 or STDO 3920 or the former STDO 3930 or the former STDO 3940) and STDO 3950.

STDO 4910 Honours Seminar 1 3 cr

This Seminar is taken in the fourth year of the Bachelor of Fine Arts Honours Degree as the first of two Honours Seminar courses and taken co-currently with Senior Studio 1 and Senior Studio 2. Issues of professional practice are examined against contemporary art theory. Students document their work and create artist statements and interact with visiting artists. May not be held with STDO 4890.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: 15 credit hours of 3000-level Studio courses. Co-requisite: STDO 4810.

Equiv To: STDO 4890

Mutually Exclusive: STDO 4730

STDO 4920 Honours Seminar 2 3 cr

A continuation of STDO 4910, Honours Seminar 1. Issues of professional practice are examined against contemporary art theory. Students document their work and create artists statements and interact with visiting artists. May not be held with STDO 4890.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: STDO 4820.

Equiv To: STDO 4890

Food Science (FOOD)

FOOD 1000 Food Safety Today and Tomorrow 3 cr

A contemporary examination of the safety of the food supply - where, how and why problems may arise and what is and can be done to consistently achieve high quality, safe food. Controversial issues (residues, organic, biotechnology, irradiation) will be discussed in a balanced manner, and prospects for the future presented.

Attributes: Recommended Intro Courses

FOOD 2500 Food Chemistry 3 cr

(Lab required) The chemical components of food. Chemical problems and chemical changes which exist uniquely in foods.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [(CHEM/MBIO 2730 and CHEM 2740) or the former CHEM/MBIO 2770] or [(CHEM/MBIO 2700 (CHEM/MBIO 2701) and CHEM 2720 (CHEM 2721)) or the former CHEM/MBIO 2360 (the former CHEM 2361)].

FOOD 3010 Food Process 1 3 cr

The basic principles and practices of the major techniques used in food processing and preservation are covered. Emphasis is placed on thermal processing, drying, evaporation, chilling, freezing, separation, packaging and sanitation. Also preservation by salting, smoking, microwave, radiation and chemical techniques is presented. Critical issues in food regulations are introduced.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: any MATH course at the 1000 level.

FOOD 3160 Frozen Dairy Products 3 cr

Technology of frozen dairy products, including selection and processing of materials and handling of products. Standards and quality control programs for major dairy products will be covered. Offered in 2006-07 and alternate years thereafter.

FOOD 3170 Cheese and Fermented Milk Products 3 cr

Selection and evaluation of raw materials and lactic cultures are covered. Processing, packaging and distribution of cheddar and cottage cheese, cultured milk, cream and yogurt are studied. Offered in 2005-2006 and alternate years thereafter.

FOOD 3200 Baking Science and Technology 3 cr

The science and technology of transforming wheat into quality baked foods. Focus will be on the biophysical and biochemical basis for the functionality of intrinsic wheat constituents, e.g. starch, and gluten proteins, and extrinsic ingredients, e.g. yeast, chemical leaveners, fats, oxidants, enzymes and other improvers. Principles of product formulations and modern processing techniques used to add value to wheat as diverse foods will also be covered.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [(CHEM/MBIO 2730 and CHEM 2740) or the former CHEM/MBIO 2770] or [(CHEM/MBIO 2700 (CHEM/MBIO 2701) and CHEM 2720 (CHEM 2721)) or the former CHEM/MBIO 2360 (the former CHEM 2361)].

FOOD 3210 Food Engineering Fundamentals 3 cr

Applications of engineering fundamentals to unit operations in the food industry.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOE 3530.

FOOD 3220 Grains for Food and Beverage 3 cr

The science and technology behind the functionality of major Canadian cereal grains and grain legumes for food and beverage. Grains covered include wheat, barley, oats, peas, beans, and lentils in the context of their processing into products such as bread, pasta and beer, and foods high in dietary fibre. Details are presented on the differing physical and chemical attributes of grains to make quality products with focus on the roles of protein, starch, and non-starch polysaccharides.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FOOD 2500 or equivalent.

FOOD 3500 Processing of Animal Food Products 3 cr

(Lab required) Processing of materials of animal origin will be studied with emphasis on product quality and safety. The impact of initial characteristics and further processing will be discussed as factors that can affect nutritive value, convenience, functionality, appearance, palatability, and food safety of the final product. Additionally, the course will provide practical experience in identifying the quality parameters, detecting defects, and applying technologies to obtain different foods of animal origin, through labs and field trips.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [CHEM/MBIO 2730 and CHEM 2740 (or the former CHEM/MBIO 2770)] or [CHEM/MBIO 2700 (CHEM/MBIO 2701) and CHEM 2720 (CHEM 2721) (or the former CHEM/MBIO 2360 (the former CHEM/MBIO 2361))].

FOOD 4010 Food Process 2 3 cr

The processing of specific food groups is covered. The functions and changes in the primary chemical components (carbohydrates, proteins and lipids) of the commodities receive special consideration. New technologies including thermal/nonthermal processing, radiation, extrusion, minimal processing and other advanced processing methods will be studied.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FOOD 3010.

FOOD 4100 Current Issues in Food and Human Nutrition 3 cr

Integration of current issues in food and human nutritional sciences. Emphasis on ethics, equity, economics, and professional approaches to challenges in food and human nutritional sciences using case studies, team work, and scientific communication to specialists and the public. This is a capstone course restricted to students in year 4 of the B.Sc. Food Science degree programs. May not be held with HNSC 4100 or AGRI 4100 or the former FOOD 4120.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: AGRI 2030 and Faculty approval.

Equiv To: FOOD 4120

Mutually Exclusive: AGRI 4100, HNSC 4100

FOOD 4150 Food Microbiology 1 3 cr

Relationships of microorganisms to processing and spoilage of food.

FOOD 4160 Food Analysis 1 3 cr

This course exposes students to the principles, methods, and techniques of qualitative and quantitative physical, chemical and biological analyses of foods. Major emphasis is placed on understanding the basic principles of classical and instrumental methods of analysis. Criteria for the choice of various analytical methods, methods for treating data and sampling techniques will be studied.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FOOD 2500.

FOOD 4200 Quality Control in Foods 3 cr

Fundamentals of quality control and their industrial application through physical, chemical, microbiological, statistical and sensory methods will be studied. Statistical process control (SPC) will be mainly covered; required background knowledge of statistics will be reviewed briefly.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FOOD 3010.

FOOD 4230 Food Research 3 cr

Research interests and aptitudes of students are developed through specific project assignments related to the food industry.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of Department Head required.

FOOD 4240 Analysis of Water and Wastes 3 cr

Introduction to the principles and application of the standard methods employed in the analysis of water and wastes in the food processing industry.

FOOD 4250 Food Analysis 2 3 cr

Advanced techniques employed in the physico-chemical analysis of food products as preparation for research, development, and inspection roles in government and in industry.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FOOD 4160.

FOOD 4260 Water Management in Food Processing 3 cr

The course is devoted to the management of water and wastewater in food processing. The roles of water in food processing, recycle and reuse opportunities, treatment options for water and wastewater are presented. The course also discusses water stewardship in relation to food processing, water and wastewater regulations and implication for HACCP and ISO. Laboratory sessions are designed for the student to become familiar with Standard Methods for the Examination of Water and Wastewater.

Equiv To: FOOD 4240

FOOD 4310 Introduction to HACCP 3 cr

This course will cover the principles related to hazard analysis and critical control points (HACCP), a food safety and self-inspection system that is widely endorsed internationally by industry, consumer and regulatory groups. HACCP examines chemical, physical and biological hazards and identifies critical control points involved in producing, manufacturing and processing food products. Prerequisite or co requisite: FOOD 4150 or consent of instructor.

FOOD 4500 Food Safety and Regulations 3 cr

Current food safety issues; government, industry and consumers' role in organizing a safe food supply system; food laws and regulations in Canada and internationally. Preventative measures to increase food safety and sanitation will also be covered. Offered in 2005-2006 and alternate years thereafter.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: FOOD 4150 or FOOD 4300.

FOOD 4510 Food Product Development 3 cr

This course will help the student gain an understanding of the product development procedure as it relates to the food industry. Emphasis will be on application of basic knowledge of foods and food processing in designing a new product. May not be held with HNSC 4280.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: FOOD 3010 (D) and MKT 2210 (D) and [AGRI 2400 or STAT 2000 or STAT 2001] (D).

Equiv To: HNSC 4280

FOOD 4540 Functional Foods and Nutraceuticals 3 cr

The course will examine the bioactive components of functional foods and nutraceuticals, their sources, chemistry, process technology, efficacy, safety and regulation. Also offered as HNSC 4540. May not be held with HNSC 4540.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [CHEM/MBIO 2730 and CHEM 2740 (or the former CHEM/MBIO 2770)] or [CHEM/MBIO 2700 (CHEM/MBIO 2701) and CHEM 2720 (CHEM 2721) (or the former CHEM/MBIO 2360 (the former CHEM/MBIO 2361))].

Equiv To: HNSC 4540

Forensic Science (FORS)

FORS 2000 Introductory Forensic Science 3 cr

Survey course which introduces forensic science via a series of guest lectures provided by experts from within the university and from the community (e.g., Winnipeg Police, RCMP, Chief Medical Examiner, etc.). Multidisciplinary topics will be covered including how a case is studied, use of scientific techniques in investigations, collection of evidence, the role of the expert witness, and presentation of evidence in court.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: BIOL 1030 (C+), CHEM 1310 (C+).

Attributes: Science, Written English Requirement

FORS 3000 Forensics Processing and Analysis 3 cr

(Lab Required) Theory and practice of processing and analysis of various types of forensic evidence. Lectures will be given by experts from within the university and within the community. Topics covered in lecture and lab exercises include protocols to identify, document and protect visible and latent forensic scientific evidence, analytical methods with forensic applications, rules and procedures governing the collection of evidence and the use of scientific data in court.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FORS 2000.

Attributes: Science

French (FREN)

FREN 1152 Introductory French 1 3 cr

(Lab required) This course is the first in the introductory French language sequence. Students are not required to register for both courses. A basic study of the fundamental structures of French including regular and irregular verbs in the present and the passé composé, with oral and written practice. For students with no prior knowledge of French or who have studied French up to and including Grade 11 or its equivalent. Students with Grade 12 French may not normally take the course. Students may not hold credit for both FREN 1152 and the former FREN 1150. Not open to students who have previously obtained credit in FREN 1154 or FREN 1190 or FREN 1200 or FREN 1252 or the former FREN 1250. Not for credit in French Major or Minor.

Mutually Exclusive: FREN 1150

Attributes: Humanities, Recommended Intro Courses

FREN 1154 Introductory French 2 3 cr

(Lab required) This course is the second in the introductory French language sequence. Students are not required to register for both courses. A continuing study of the fundamental structures of French including the imparfait, future and conditional, with oral and written practice. For students with limited prior knowledge of French or who have studied French up to and including Grade 11 or its equivalent or who have successfully completed Introductory French 1. Students may not hold credit for both FREN 1154 and the former FREN 1150. Not open to students who have previously obtained credit in FREN 1190 or FREN 1200 or FREN 1252 or the former FREN 1250. Not for credit in French Major or Minor.

Mutually Exclusive: FREN 1150

Attributes: Humanities, Recommended Intro Courses

FREN 1190 Français 6 cr

Un cours comportant des éléments de langue, de linguistique et de littérature destiné aux étudiants issus des écoles françaises ou aux étudiants de la filière immersion. Students may not hold credit for both FREN 1190 and FREN 1200.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Senior Matriculation French or written consent of department head.

Mutually Exclusive: FREN 1200

Attributes: Humanities, Recommended Intro Courses

FREN 1200 French 1 6 cr

Language study and practise and readings in French and French-Canadian culture. Students may not hold credit for both FREN 1200 and FREN 1190.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [Senior Matriculation French] or [a grade of "C" or better in FREN 1154 or the former FREN 1150].

Mutually Exclusive: FREN 1190

Attributes: Humanities, Recommended Intro Courses

FREN 1252 Français oral 1 3 cr

For students whose mother tongue is not French, and who wish to improve their understanding, fluency and correctness in spoken French. Regular attendance is obligatory. Direct access to FREN 2610. Not open to students from Français or Immersion high school programs. Students may not hold credit for both FREN 1252 and the former FREN 1250.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [Senior matriculation French] or [a grade of "B" or better in FREN 1154 (or the former FREN 1150) or "C" or better in FREN 1200] or written consent of department head.

Mutually Exclusive: FREN 1250

Attributes: Humanities, Recommended Intro Courses

FREN 2022 La grammaire au bureau (A) 3 cr

Ce cours vise à acquérir, analyser et pratiquer le vocabulaire du français des affaires et de l'administration. Un accent sera mis sur l'acquisition de structures grammaticales propres à la rédaction de textes du domaine des affaires. Students may not hold credit for both FREN 2022 and FREN 2630 with the topic "Français commercial."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in FREN 1190 or FREN 1200] or written consent of department head.

Attributes: Humanities

FREN 2610 Français oral 2 (A) 3 cr

Ce cours vise à l'amélioration de la compréhension du français parlé ainsi qu'au développement de la facilité et de la correction de l'expression orale. Une attention particulière sera vouée au développement du vocabulaire ainsi qu'à la maîtrise des structures grammaticales. Le cours n'a pas été conçu pour les étudiants qui sont déjà bilingues.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in FREN 1252 or the former FREN 1250] or written consent of department head.

Attributes: Humanities

FREN 2620 Grammaire et lexique (A) 3 cr

Révision intensive de la grammaire et enrichissement du vocabulaire.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in FREN 1190 or FREN 1200] or written consent of department head.

Attributes: Humanities

FREN 2630 Special Studies (A) 3 cr

The content of this course will vary from year to year depending on the needs and interests of instructors and students. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in FREN 1190] or [a grade of "C+" or better in FREN 1200] or [a grade of "C" or better in FREN 2620] or written consent of department head.

Attributes: Humanities

FREN 2640 Special Studies (B) 3 cr

The content of this course will vary from year to year depending on the needs and interests of instructors and students. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: FREN 1190 or FREN 1200 (C+) or FREN 2620 or written consent of department head.

Attributes: Humanities

FREN 2660 Analyses textuelles (A) 3 cr

A partir de textes courts en prose et en vers, l'étudiant(e) apprendra à reconnaître les moyens linguistiques et stylistiques dont dispose l'auteur pour créer l'expressivité de son texte.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in FREN 1190] or [a grade of "C+" or better in FREN 1200] or [a grade of "C" or better in FREN 2620] or written consent of department head.

Attributes: Humanities

FREN 2680 Littérature féminine française (B) 3 cr

Une étude de textes écrits par des femmes et analysés selon la perspective des théories féministes contemporaines.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in FREN 1190] or [a grade of "C+" or better in FREN 1200] or [a grade of "C" or better in FREN 2620] or written consent of department head.

Attributes: Humanities

FREN 2700 Poésie et théâtre canadiens-français (B) 3 cr

Introduction à la poésie et au théâtre canadiens-français à partir d'un choix d'oeuvres.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in FREN 1190] or [a grade of "C+" or better in FREN 1200] or [a grade of "C" or better in FREN 2620] or written consent of department head.

Attributes: Humanities

FREN 2720 Roman français du vingtième siècle (B) 3 cr

Ce cours est destiné à initier l'étudiant(e) au roman français du vingtième siècle. Les romanciers étudiés seront choisis parmi les plus connus, tels que Proust, Gide, Colette, Mauriac, Cocteau, Camus, Robbe-Grillet, Duras, Cardinal et Yourcenar.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in FREN 1190] or [a grade of "C+" or better in FREN 1200] or [a grade of "C" or better in FREN 2620] or written consent of department head.

Attributes: Humanities

FREN 2728 Littérature et cinéma dans l'espace francophone 3 cr

Suivant une approche comparative, ce cours s'intéresse à quelques interactions possibles entre la littérature et le cinéma de l'espace francophone. Il y sera question d'étudier, soit des romans et leurs adaptations cinématographiques, soit la reprise littéraire des films, soit la représentation littéraire du cinéma, soit le développement d'un même thème par ces différents media, dont on découvrira les modes de représentation spécifiques. Ce cours servira de tremplin à l'exploration des relations intermédiaires et intertextuelles entre le cinéma et la littérature; il permettra de discuter, entre autres, des enjeux théoriques, sociologiques et idéologiques de la réécriture du filmique au littéraire ou du littéraire au filmique.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in FREN 1190] or [a grade of "C+" or better in FREN 1200] or [a grade of "C" or better in FREN 2620] or written consent of department head.

Attributes: Humanities

FREN 2740 Théâtre et poésie du dix-neuvième siècle (B) 3 cr

Initiation aux poètes et aux dramaturges représentatifs des mouvements romantique, symboliste et réaliste à partir d'un choix d'oeuvres.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in FREN 1190] or [a grade of "C+" or better in FREN 1200] or [a grade of "C" or better in FREN 2620] or written consent of department head.

Attributes: Humanities

FREN 2770 Littératures francophones d'Afrique et des Antilles (B) 3 cr

Études des principales tendances littéraires de l'Afrique et des Antilles francophones depuis l'époque coloniale jusqu'à nos jours: négritude, engagement anticolonial, post-indépendance et désillusion, créolité, immigration. Lecture d'oeuvres marquantes.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in FREN 1190] or [a grade of "C+" or better in FREN 1200] or [a grade of "C" or better in FREN 2620] or written consent of department head.

Attributes: Humanities

FREN 2780 Idéologie et oppression dans le roman français contemporain (B) 3 cr

Étude du thème de divers genres d'oppression dans le roman français contemporain. Analyse philosophique du concept de l'idéologie. Students may not hold credit for both FREN 2780 and FREN 2640 when titled "Idéologie et oppression."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in FREN 1190] or [a grade of "C+" or better in FREN 1200] or written consent of department head.

Attributes: Humanities

FREN 2810 Civilisation française moderne (A, B, C) 3 cr

Ce cours a pour objet l'étude de la civilisation française au plus tôt depuis le XVII^e siècle, au plus tard depuis la Révolution. Il portera sur les transformations connues par la France dans ses structures politiques, sociales et ses modes de vie. Il s'attachera simultanément au mouvement des idées et à la création artistique dans les domaines de l'architecture, de la sculpture, de la peinture et de la musique.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in FREN 1190] or [a grade of "C+" or better in FREN 1200] or [a grade of "C" or better in FREN 2620] or written consent of department head.

Attributes: Humanities

FREN 2820 Le cinéma africain (B) 3 cr

Ce cours est destiné à initier l'étudiant(e) au cinéma africain. Les films étudiés, choisis parmi les plus connus, serviront à illustrer la diversité des options thématiques, esthétiques et idéologiques des cinéastes africains. Students may not hold credit for both FREN 2820 and FREN 2640 when titled "Cinéma africain."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in FREN 1190] or [a grade of "C+" or better in FREN 1200] or [a grade of "C" or better in FREN 2620] or written consent of department head.

Attributes: Humanities

FREN 2870 Stylistique comparée 1 (A) 3 cr

Initiation à la stylistique comparée du français et de l'anglais. Ce cours comporte des exercices de traduction et d'analyse de traductions.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in FREN 1190] or [a grade of "C+" or better in FREN 1200] or [a grade of "C" or better in FREN 2620] or written consent of department head.

Attributes: Humanities

FREN 2910 Expression écrite 1 (A) 3 cr

Une étude des techniques de composition libre. Le cours comportera notamment une révision de la phrase complexe et une analyse d'éléments de rhétorique particulièrement utiles pour la rédaction en français.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in FREN 1190] or [a grade of "C+" or better in FREN 1200] or [a grade of "C" or better in FREN 2620] or written consent of department head.

Attributes: Humanities

FREN 3020 Révision intensive de la grammaire française (A) 3 cr

Étude systématique et avancée de la grammaire française avec révision de vocabulaire. Ce cours est la suite logique de FREN 2620 (Grammaire et lexique) mais on peut s'y inscrire sans l'avoir suivi. Dans ce cours-ci, nous parlerons des nuances de la langue qui ne sont pas traitées en deuxième année mais nous reverrons aussi quelques-unes des questions fondamentales examinées auparavant.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in any 2000-level French course] or written consent of department head. FREN 2610 may not be used as a prerequisite.

Attributes: Humanities

FREN 3022 Les communications au bureau (A) 3 cr

Ce cours vise à acquérir, analyser et pratiquer le vocabulaire du français des affaires et de l'administration. Un accent sera mis sur la maîtrise des outils linguistiques et des techniques spécifiques propres à la rédaction de textes de type commercial et administratif. Students may not hold credit for both FREN 3022 and FREN 2630 with the topic "Français commercial."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in any 2000-level French course] or written consent of department head. FREN 2610 may not be used as a prerequisite.

Attributes: Humanities

FREN 3100 Littérature française du dix-huitième siècle (B) 3 cr

Après une introduction portant sur le dix-huitième siècle en France, on étudiera quelques-uns des grands auteurs et dramaturges de ce siècle, tels Montesquieu, Voltaire, Prévost, Marivaux, Beaumarchais et Rousseau.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in any 2000-level French course] or written consent of department head. FREN 2610 may not be used as a prerequisite.

Attributes: Humanities

FREN 3140 Roman canadien-français (B) 3 cr

Ce cours est destiné à initier l'étudiant(e) au roman canadien-français à partir d'un choix d'oeuvres. Un accent particulier sera mis sur l'interprétation historique.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in any 2000-level French course] or written consent of department head. FREN 2610 may not be used as a prerequisite.

Attributes: Humanities

FREN 3160 Roman et nouvelle français du dix-neuvième siècle (B) 3 cr

Étude des principaux romanciers romantiques, réalistes et naturalistes à partir d'un choix d'oeuvres.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in any 2000-level French course] or written consent of department head. FREN 2610 may not be used as a prerequisite.

Attributes: Humanities

FREN 3350 Français oral 3 (A) 3 cr

Ce cours vise au perfectionnement de la facilité d'expression, de la correction et de la compréhension du français oral. Le professeur se servira de certains aspects de la culture canadienne-française, et dans une moindre mesure de la culture française, pour stimuler la conversation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in FREN 2610] or written consent of department head.

Attributes: Humanities

FREN 3500 Littérature du 17e siècle (B) 3 cr

Ce cours constitue une analyse d'ouvrages marquants tirés du domaine de la littérature française classique.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in any 2000-level French course] or written consent of department head. FREN 2610 may not be used as a prerequisite.

Attributes: Humanities

FREN 3580 Travail indépendant (A, B) 3 cr

Ce demi-cours s'étendra sur toute la durée des deux trimestres. Chaque étudiant sera placé sous la direction d'un professeur qui l'assistera dans l'établissement d'un programme de lectures relatif à un domaine d'intérêt particulier pour l'étudiant en question. A la fin du cours l'étudiant présentera un mémoire à son directeur. Not available for credit towards a Major or Minor in French. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

FREN 3830 Special Studies (A) 3 cr

The content of this course will vary from year to year depending on the needs and interests of instructors and students. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in any 2000-level French course]. FREN 2610 may not be used as a prerequisite.

Attributes: Humanities

FREN 3840 Special Studies (B) 3 cr

The content of this course will vary from year to year depending on the needs and interests of instructors and students. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in any 2000-level French course]. FREN 2610 may not be used as a prerequisite.

Mutually Exclusive: FRAN 3343

Attributes: Humanities

FREN 3850 Civilisation canadienne-française (A, B, C) 3 cr

Aspects du développement de la culture du Canada français. Éléments de la vie politique, sociale et artistique des Québécois et des francophones hors Québec surtout au 20e siècle.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in any 2000-level French course] or written consent of department head.

Attributes: Humanities

FREN 3860 Études sur Beauvoir (B) 3 cr

Le but de ce cours est d'étudier l'oeuvre et la pensée de Simone de Beauvoir dont l'importance dans les études féministes continue d'être très marquée. Un choix de textes sera effectué parmi ses essais philosophiques, ses romans et son autobiographie.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in any 2000-level French course] or written consent of department head. FREN 2610 may not be used as a prerequisite.

Attributes: Humanities

FREN 3870 Stylistique comparée 2 (A) 3 cr

Étude approfondie des principes et techniques de la traduction accompagnée d'exercices et d'analyses de traductions d'un niveau élevé.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in FREN 2870] or written consent of department head.

Attributes: Humanities

FREN 3910 Expression écrite 2 (A) 3 cr

Ce cours est une étude des techniques de composition libre à un niveau avancé. Il comportera notamment des exercices avec la phrase complexe et l'étude et la pratique d'un certain nombre de genres de français écrit.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [any 2000-level French course] or written consent of department head.

Attributes: Humanities

FREN 3920 Enjeux majeurs en littératures francophones postcoloniales (B) 3 cr

L'objectif de ce cours est d'approfondir un aspect important en littératures francophones postcoloniales d'Afrique et des Caraïbes ou d'étudier les oeuvres d'un auteur francophone majeur originaire d'Afrique ou des Caraïbes. Students may not hold credit for both FREN 3920 and FREN 3840 when titled "Littérature africaine."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in any 2000-level French course] or written consent of department head. FREN 2610 may not be used as a prerequisite.

Attributes: Humanities

FREN 4426 Initiation à la recherche 3 cr

Ce cours qui s'étendra sur toute la durée des deux trimestres, consiste en la préparation d'un travail de recherche et d'analyse, en plus d'une bibliographie. Chaque étudiant-e sera encadré-e par un-e professeur-e du département. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

FREN 4610 Études spécialisées 3 cr

Le contenu de ce cours variera d'année en année selon les besoins et les intérêts des étudiants et du professeur. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

FREN 4620 Pratiques et théories critiques (B) 3 cr

Ce cours est destiné à initier l'étudiant(e) à l'analyse critique de textes littéraires. Le choix des pratiques et des théories critiques dépendra de l'instructeur.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

FREN 4640 Séminaire: Littérature française du vingtième siècle (B) 3 cr

Le but de ce cours est d'offrir à l'étudiant(e) une introduction à certaines oeuvres littéraires complexes, mais essentielles, de ce siècle, dans les différents ordres de la poésie, du théâtre et du roman. Elles pourraient être prises à des auteurs comme Claudel, Valéry, Saint-John Perse, Antonin Artaud, Proust, Gide, Sartre, Yourcenar.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

FREN 4650 Études sur l'Ancien Régime (B) 3 cr

L'étude des oeuvres d'un auteur, d'une période ou d'un thème d'avant la Révolution française, du XVIIe au XVIIIe siècles. Le choix des oeuvres, de la période ou du thème dépendra des besoins et des intérêts des étudiants et de l'instructeur.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

FREN 4710 Séminaire de langue (A) 3 cr

L'objet de ce cours est d'affermir la maîtrise du français chez l'étudiant(e) par des études de grammaire approfondie, une approche méthodique des problèmes majeurs de rhétorique et de la stylistique, ainsi que par une pratique régulière de l'expression orale destinée à en assurer l'aisance et la correction.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

FREN 4730 Traduction (A) 3 cr

Une formation dans la traduction d'extraits tirés d'oeuvres de prosateurs anglais et français. Seront également traduits des textes de nature technique traitant de l'actualité politique, sociale, économique, juridique, etc.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

General Management (GMGT)

GMGT 1010 Business and Society 3 cr

The course will provide overarching frameworks to examine the nature, role, and importance of business in society. Key internal operations of business organizations will be discussed (e.g. finance, marketing, operations), but the majority of the course examines the relationships that business firms must balance among key stakeholders in their external environment (i.e. government, owners, customers, communities, suppliers, future generations, etc.). Students will examine various institutional contexts (e.g. economic, political-legal, and socio-cultural) and critically think about relationships between business and society, mindfully considering alternative approaches to management. Special emphasis will be placed on contemporary social issues in business (e.g. sustainable development, corporate social responsibility).

Attributes: Recommended Intro Courses, Written English Requirement

GMGT 2010 Business Communications 3 cr

The course provides an introduction to theoretical, cultural, and ethical bases of effective communication. Another goal is to develop students' interpersonal, oral, and written communication skills at individual, group, and organizational levels. The students will also develop analytical, problem-solving, rhetorical, and critical thinking abilities required in organizational and business settings. Students are strongly recommended to take GMGT 2010 in their first 45 credit hours. Not to be held for credit with the former GMGT 2000.

Equiv To: GMGT 2000

Attributes: Written English Requirement

GMGT 2036 Introduction to Business 2 3 cr

Inter-University Services course.

Equiv To: GMGT 2080

GMGT 2060 Management and Organizational Theory 3 cr

Examination of the underlying principles concerning the formation of organizations and their internal management. Emphasis on the study and analysis of various theoretical approaches to organization theory and management. Students may not hold for credit with either GMGT 2080 or GMGT 2030.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GMGT 1010 (D).

Equiv To: GMGT 2061, GMGT 2080, GMGT 2081

Mutually Exclusive: GMGT 2030

Attributes: Recommended Intro Courses

GMGT 2070 Introduction to Organizational Behaviour 3 cr

Examination of the impact of human behaviour on the formal and informal organization. Topics include leadership, work groups, organizational conflict, and communications.

Attributes: Recommended Intro Courses

GMGT 2120 Business/Government Relations 3 cr

Analysis of the interaction between business firms and government in the creation, modification, and implementation of government policies that affect business. Study of the ways business can influence government decision-making.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [ECON 1010 (D) and ECON 1020 (D)] or ECON 1200 (D).

Equiv To: GMGT 2121

GMGT 2144 Unallocated Credit 3 cr

Campus Manitoba course.

GMGT 3010 Management Decision-Making 3 cr

Introduces students to the decision-making process and factors that enter into making decisions, including the objectives and approaches to decision-making, the basic type of managerial decisions, and exemplifications of decision in operations. Decision making will be viewed as a multi-dimensional process involving values, psychology, sociology, social psychology, and politics. The course presents a variety of perspectives useful for making and evaluating decisions in all kinds of organizations.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: GMGT 2070 (D).

GMGT 3030 Contemporary Social Issues in Business 3 cr

Study of key issues in the relationship of business organizations and society with emphasis on the impact of management.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [GMGT 2060 or former GMGT 2080 (D)] and GMGT 2070 (D).

GMGT 3160 Managerial Economics 3 cr

An introduction to the economic foundation of managerial decision making, which includes pricing strategies, boundaries of the firm, investment in human capital and incentive contract design. Also offered by the Faculty of Arts as ECON 3160. May not be held with ECON 3160.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in both ECON 1010 (or ECON 1011) and ECON 1020 (or ECON 1021), or the former ECON 1200, or the former ECON 1201] and [a grade of "C" or better in MATH 1230 or MATH 1500 (or MATH 1501) or MATH 1510 or MATH 1520].

Equiv To: ECON 3160

GMGT 3300 Commercial Law 3 cr

General history of law, the organization of courts, the Canadian Constitution, federal and provincial legislative functions. Legal concepts and problems relating to business organization, contracts, principal and agent, negotiable instruments, common torts, and bankruptcy proceedings.

Equiv To: GMGT 3301

GMGT 4010 Administrative Policy 3 cr

Studies of policies available to business enterprise; with case studies to focus attention on problems involved in formulating and administering policies with interdisciplinary considerations. Take only in final term of program or with consent of department head.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: prior to being admitted to GMGT 4010, students must be in Year 4, in the final term prior to graduation in the Asper School and have successfully completed (with a minimum grade of (D) in each course) all 30 credit hours of courses specified in Year 2 of the 4-Year Program. Prerequisite or Concurrent Requirement: all remaining core courses specified in Year 3 and 4 of the 4-Year Program (with a minimum grade of (D) in each course).

Equiv To: GMGT 4011

GMGT 4110 Commercial Law 2 3 cr

Aspects of the law relating to business units, including a study of the law relating to proprietorships, partnerships and corporations, and secured transactions. Not taught every year.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GMGT 3300 (D).

GMGT 4210 Seminar in Management and Capitalism 3 cr

This course provides students with an understanding of the institutions, developments, and debates associated with modern capitalism and their implications for management. Students will explore alternative management perspectives and bi-directional interactions within the context of larger issues. It is designed to ensure that students are introduced to a variety of different perspectives, and that no single perspective is unduly privileged over others.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GMGT 1010 (D) or GMGT 2120 (D).

Geography (GEOG)

GEOG 1280 Introduction to Human Geography 3 cr

This course studies aspects of the human world: population, settlement and resources. Not to be held with GEOG 1200 or GEOG 1201, or GEOG 1281.

Equiv To: GEOG 1281

Mutually Exclusive: GEOG 1200, GEOG 1201

Attributes: Recommended Intro Courses

GEOG 1290 Introduction to Physical Geography 3 cr

This course studies aspects of our physical environment: climate, landforms, soils and vegetation. Not to be held with GEOG 1291 or GEOG 1200 or GEOG 1201.

Equiv To: GEOG 1291

Mutually Exclusive: GEOG 1200, GEOG 1201

Attributes: Recommended Intro Courses

GEOG 1700 Social Justice in the 21st Century: Global Political Economy and Environmental Change 3 cr

Introduces students to political economy and cultural geography through the close analysis of contemporary world events, including but not limited to instances of violent conflict, environmental change, international negotiations, political processes and events, social movements, and policy developments. A multimedia approach will advance students' understanding of geopolitical events from political economy and spatial perspectives. Specific content of the course will change year-by-year in response to developments in national and world politics. Also offered by the Faculty of Arts as GPE 1700. Students may not hold credit for both GPE 1700 and GEOG 1700.

Equiv To: GPE 1700

Attributes: Recommended Intro Courses

GEOG 2200 Introduction to Thematic Cartography (TS) 3 cr

(Lab Required) An introduction to the principles of map compilation and reproduction, including analysis and cartographic display of spatially referenced data. Emphasis will be placed on cartographic data manipulation, generalization, and symbolization, map design, visualization and communication. Not to be held with GEOG 2221.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of C or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

GEOG 2272 Natural Hazards (PS) 3 cr

Environmental hazards to human settlement and economy are examined with particular attention to meteorological, soil erosion, mass wasting, earthquake and volcanic phenomena. Not to be held with GEOG 2440.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of C or better in one of GEOG 1290, GEOL 1340, or GEOL 1410, GEOG 1291, GEOG 1200, GEOG 1201, GEOL 1360 or permission of department head.

Mutually Exclusive: GEOG 2440

GEOG 2300 Atmospheric Thermodynamics, Clouds and Precipitation (PS) 3 cr

Critical thermodynamic processes are discussed that are associated with the Earth's atmosphere including dry and moist processes, phases of water, stability, cloud development and precipitation processes.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (one of GEOG 1290, GEOG 1291, GEOG 1200 or GEOG 1201), and (one of MATH 1230, MATH 1500, MATH 1501, MATH 1510, MATH 1520 or MATH 1530) or permission of department head or instructor,

GEOG 2310 Introduction to Process Hydrology (PS) 3 cr

This course introduces students to the near-surface components of the hydrological cycle, including the processes of precipitation, evaporation, water-biosphere interactions, infiltration, overland and stream flow.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (one of GEOG 1290, GEOG 1291, GEOG 1200 or GEOG 1201) and (one of PHYS 1020, PHYS 1021, PHYS 1050, PHYS 1051, MATH 1230, MATH 1500, MATH 1501, MATH 1510, MATH 1520 or MATH 1530) or permission of department head or instructor.

GEOG 2330 Place, Populations and Mobility: Geographic Perspectives (HS) 3 cr

An examination of the factors controlling the number and distribution of human population. Variations in fertility, mortality and mobility will be analyzed and the causes and consequences reviewed. Not to be held with GEOG 2480.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of C or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

Mutually Exclusive: GEOG 2480, GEOG 2481

GEOG 2372 Geography of Tourism (HS) 3 cr

This course examines the social, economic and environmental dimensions of tourism and recreation. Historical and contemporary experiences from around the world will be studied. Not to be held with GEOG 2410.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of C or better in (GEOG 1200) or GEOG 1280, or permission of department head.

Mutually Exclusive: GEOG 2410

GEOG 2520 Geography of Natural Resources (HS) 3 cr

An introduction to the basic concepts of the subject and the distribution of resources. Stress will be placed on Canadian resources and resource requirements but examples from other resource systems will also be used.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of C or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

GEOG 2540 Weather and Climate (PS) 3 cr

This half-course examines the nature, controls, and observations of weather and the variation of climate in time and space.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

Equiv To: GEOG 2541

GEOG 2550 Geomorphology (PS) 3 cr

This half-course surveys a broad array of landforms in the world and the geomorphic processes responsible for their creation. Attention is strongly focused on those landform processes originating at the earth's surface.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: (GEOG 1200) or GEOG 1201 (C), or GEOG 1290 or GEOG 1291 (C), or permission of department head.

Equiv To: GEOG 2551

GEOG 2570 Geography of Canada (A) 3 cr

A regional study of Canada in which the major regions of Canada are studied with respect to geographical patterns of their physical environment, settlement, culture, economic activity, and land use. Not to be held with GEOG 2560, GEOG 2561 or GEOG 3431.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of C or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

Mutually Exclusive: GEOG 2560

GEOG 2580 Geography of the United States (A) 3 cr

A regional study of the United States in which the major regions of the United States are studied with respect to geographical patterns of their physical environment, settlement, culture, economic activity, and land use. Not to be held with GEOG 2560, GEOG 2561.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of C or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

Mutually Exclusive: GEOG 2560

GEOG 2630 Geography of Culture and Environment (HS) 3 cr

An introduction to the cultural geographic study of environment, focusing on the evolution of landscape, the creation of regions, and human relationships with nature.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: (GEOG 1200) or GEOG 1201 (C), or GEOG 1280 or GEOG 1281 (C), or permission of department head.

GEOG 2640 Geography of Culture and Inequality (HS) 3 cr

An introduction to the cultural geographic study of human and place inequalities, focusing on behaviour in landscape, group differences, and human identities.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: (GEOG 1200) or GEOG 1201 (C), or GEOG 1280 or GEOG 1281 (C), or permission of department head.

GEOG 2700 Introduction to Arctic System Science 3 cr

This course introduces students to the various components of the Arctic system, including the terrestrial and marine environments, polar atmosphere, biological and chemical oceanography.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GEOG 1290 or (GEOG 1291)(C), or GEOG 1200 or (GEOG 1201)(C) or ENVR 1000 (C) or GEOL 1340 (C).

GEOG 2870 Introduction to Economic Geography (HS) 3 cr

This course introduces the field of economic geography, paying particular attention to the historical, environmental and spatial dimensions that shape the global economy and current economic order, including: wealth and poverty, production patterns and community chains, consumption and retail processes; natural resources; the state's role in economic governance; global labour; and the ways in which economic structures and processes shape gender and ethnicity. Course materials will be global in scope but will provide both a macro- and micro-economic perspective. May not be held with the former GEOG 2210 or GEOG 2211.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: A minimum grade of C in a course in Geography at the 1000 level.

Mutually Exclusive: GEOG 2210, GEOG 2211

GEOG 2900 Geography of Canadian Prairie Landscapes (A) 3 cr

This course introduces students to the various geographical themes, concepts and processes within the context of the natural and anthropogenic development of the Canadian prairie region. It traces the evolution of the prairie landscape. It will focus on academic writing in the discipline. Not to be held with GEOG 2450.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of C or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

Mutually Exclusive: GEOG 2450

Attributes: Written English Requirement

GEOG 2930 Introduction to Oceanography 3 cr

This course provides an introduction to the physical, chemical, biological and geological processes in the world oceans and their interactions with the overall Earth system. This course is interdisciplinary, applying geological, chemical and biological processes to the study of the world's oceans.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: A minimum grade of "C" in GEOG 1290 (or GEOG 1291) or GEOG 1200 (or GEOG 1201) or ENVR 1000 or GEOL 1340.

GEOG 3200 Introduction to Remote Sensing (TS) 3 cr

(Lab Required) The course is an introduction to the principles of optical, active and passive microwave remote sensing. A review of satellite and sensors and their geographic applications will be presented, along with digital image analysis techniques. Laboratory assignments will provide hands-on experience in dealing with remote sensing data.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (one of GEOG 1200, GEOG 1201, GEOG 1290 or GEOG 1291) and (one of PHYS 1020, PHYS 1021, PHYS 1050, PHYS 1051, MATH 1230, MATH 1300, MATH 1301, MATH 1310, MATH 1500, MATH 1501, MATH 1510 or MATH 1520) or permission of department head.

GEOG 3272 Social Vulnerability to Natural Hazards (HS) 3 cr

This course examines differing social vulnerability to natural hazards, before, during and after disasters, including class, gender, age, health, language, and ethnicity.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: a grade of C or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or GPE 1700 or GEOL 1340 or GEOL 1410 or permission of department head.

GEOG 3310 Atmospheric Dynamics, Storms and Radar (PS) 3 cr

The course covers the critical dynamic processes that are associated with the Earth's atmosphere including forces that control wind, the kinematics of the wind field, general circulation, hodographs, thermal wind, laws of motion, mid-latitude circulations, convective storms and the utility of weather radar.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GEOG 2300 (C), or permission of department head.

GEOG 3320 Introduction to Microclimates and Micrometeorology (PS) 3 cr

This course introduces the concept of energy balance climatology and examines relationships among climate, microclimate, and environments of the Earth's surface and human-made environments. Studies include bioclimates and hydroclimates.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (GEOG 2310 (C)), and (GEOG 2300 (C)), or permission of department head.

GEOG 3340 Migration and Mobility in a Globalized World 3 cr

This course surveys the geographic dimensions of migration and mobility of populations, with emphasis of contemporary events.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: a grade of C or better in GEOG 2330 or (GEOG 2480), or permission of department head.

GEOG 3390 Introduction to Climate Change and Its Causes (PS) 3 cr

The primary objective of this course is to provide students with a general understanding of the physical and astronomical factors that drive global climate change. Focus will be given to current and future climate change in the context of observations and modeling. Not to be held with GEOG 3610.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a minimum of three credit hours from Geography or Environment courses, or permission of department head.

Mutually Exclusive: GEOG 3610

GEOG 3460 Urban Geography (HS) 6 cr

The course studies the processes and trends of urbanization; the classification of cities; central-place theory; cities as systems; land-use patterns; social forces and factorial ecology; and urban transport problems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: (GEOG 1200) or GEOG 1201 (C), or GEOG 1280 or GEOG 1281 (C), or permission of department head.

GEOG 3640 Social Geography of the Environment (HS) 3 cr

This course provides an intermediate-level assessment of current geographical approaches to society and environment. Students are exposed to critical realist, social constructionist, Marxist, feminist and post-Colonial traditions as they are applied to environmental and social justice, globalization and public health. It includes discussion and a community-based learning project.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of C or better in (GEOG 1200 or GEOG 1201) or GEOG 1280 or GEOG 1281, or permission of department head.

GEOG 3730 Geographic Information Systems (TS) 3 cr

(Lab Required) Weekly two-hour lab. The course introduces students to the evolving science, technology and applications of Geographic Information Systems (GIS). Related geospatial technologies such as Global Navigation Satellite Systems and Remote Sensing, as well as the field of Geomatics will be introduced. Not to be held with GEOG 2250.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of C or better in a minimum of three credit hours from Geography, Geology or Environment courses numbered at the 1000 and/or 2000 level, or permission of instructor or department head.

Equiv To: GEOG 2250

GEOG 3740 Field Studies in Geography (A,TS) 6 cr

A field course designed to introduce students to either a detailed area study or to field techniques employed for specific geographic enquiry.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department head.

GEOG 3750 Field Studies in Geography (A,TS) 3 cr

A field course designed to introduce students to either a detailed area study or to field techniques employed for specific geographic enquiry.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of C or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

GEOG 3760 Special Topics in Geography 6 cr

This course will vary from year to year depending on the needs of students and the interests of instructors.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department head.

Equiv To: GEOG 3761

GEOG 3770 Special Topics in Geography 3 cr

This course will vary from year to year depending on the needs of students and the interests of instructors.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department head.

GEOG 3810 Quantitative Research Methods in Geography (TS) 3 cr

This course focuses on the quantitative analytical methods available for the interpretation on physical and human geography applications. May not be held with the former GEOG 3680.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ENVR 2810 or the former GEOG 2530 or STAT 1000 or STAT 1001 or STAT 1150, or permission of department head.

Mutually Exclusive: GEOG 3680

Attributes: Mathematics Requirement

GEOG 3850 Sustainable Manitoba (A) 3 cr

This course approaches local sustainability issues from an interdisciplinary perspective. By looking at the ecological, social and economic aspects from a variety of discipline perspectives, a fuller understanding of sustainability is achieved. The broad range of perspectives is achieved through participation of guest speakers from other faculties and outside of the university as well as excursion outside the classroom. Not to be held with ENVR 3850.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: 60 credit hours of course work, or permission of department head.

Equiv To: ENVR 3850

GEOG 3860 Animal Geographies (HS) 3 cr

This course presents a variety of topics concerning the interactions between humans and animals, how humans influence and use animals, and the many roles animals play in human lives and environments. Animal Geographies lies at a meeting point between physical and human geography, where we must consider the blurring boundaries between what it means to be animal/human, and the implications of how animals are used and represented. A wide variety of perspectives, beliefs, and points of view will be explored.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department head.

GEOG 3870 Food Geographies 3 cr

This course provides a critical examination of the geographies of food at a variety of scales, from the body to the global. The course focuses on themes in three interconnected areas: 1) food production and the global food system from farm to plate including agribusiness and alternative food production and distribution models; 2) food consumption habits and beliefs and foodways as geographically contingent material culture; and 3) food (in) security and its relationship to health and wellbeing. This course is cross-listed as HNSC 3870. May not be held with HNSC 3870.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of C or better in GEOG 1280 or GEOG 1281 or HNSC 1200 or GEOG 1200, or permission of department head.

Equiv To: HNSC 3870

GEOG 3890 Geography and Wellness (HS) 3 cr

This course explores how human environment relations influence our mental, emotional, and physical wellbeing. Students will delve into current research in health and wellness geography and related disciplines, particularly focusing on: therapeutic landscapes, ecological loss and grief, sacred spaces, and environmental influences on mental wellbeing. Also offered as ENVR 3890. May not be held with ENVR 3890.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ENVR 1000 or GEOG 1200 or GEOG 1280 or GEOG 1700 or GPE 1700 or permission of the department head.

Equiv To: ENVR 3890

GEOG 3920 Biological Oceanography 1: Lower Trophic Levels 3 cr

In this course, students will gain a background on the study of biological oceanography. Biological oceanography is a very active and important field of study worldwide due to the spatial coverage and biological activity of the world's oceans. This course examines the interaction of marine organisms with other biological life, as well as with the physical environment.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: A minimum grade of "C" in both GEOG 2930 and BIOL 1030.

GEOG 4050 Ecosystem Management 3 cr

This course will provide students with an understanding of the practical applications of ecological science, environmental policy, and resource management approaches in the large-scale planning of landscapes. The course will review ecological principles and trace the historical development of the ecosystem concept. Comparisons are made to other possible environmental management approaches. The synthesis of major elements and concepts will be reinforced through case studies on the Manitoba landscape, with an emphasis on practical learning by students through field seminars and group discussions. Not to be held with ENVR 4050.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department head.

Equiv To: ENVR 4050

GEOG 4060 Biogeography 3 cr

This course will provide students with a general understanding of the historical, ecological, analytical, and conservation aspects of biogeography. The course will also have a dual focus on the principles and concepts of reasons for the distribution of plants and animals worldwide, as well as incorporating discussion on as many local (Manitoba, Canada, North America) examples as possible. Not to be held with ENVR 4060.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department head.

Equiv To: ENVR 4060

GEOG 4200 Advanced Methods in Remote Sensing 3 cr

(Lab Required) Provides instruction in the current theory and application of remote sensing technology to Earth system Science. Emphasis will be placed on the processing and interpretation of remote sensing imagery and the integration of remote sensing data with other spatial data.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GEOG 3200 (C), or permission of department head.

GEOG 4260 Sacred Lands 3 cr

Students will increase their understanding of the importance and significance of Sacred Lands and Sacred Spaces to International Indigenous Peoples. Experiential learning, seminars, and a field component may be included. Not to be held with NATV 4260.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department head.

Equiv To: NATV 4260

GEOG 4280 Gender and the Human Environment 3 cr

This upper-level seminar course will develop in students a depth and breadth of understanding appropriate to the honours undergraduate/graduate level in the area of gender geography scholarship. From critical social science theoretical positions, this course asks students to examine what we can learn about how humans live on the earth if we see them as gendered. Just as we may also understand humans and their interactions in and with spaces, places and environments through the lenses of race, ethnicity, class, age and/or combinations of these categories with gender.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of C or better in a minimum of six credit hours in Geography, or permission of department head.

GEOG 4290 Geographies of Health and Health Care 3 cr

This course provides an introduction to and critical examination of the geographies of health and healthcare. Topics include perceptions and determinations of health and health care; health care delivery, focusing on spatial patterns and inequities; and the relationship between environment and health, particularly impacts of environmental contamination.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department head.

GEOG 4300 Synoptic Meteorology and Weather Analysis 3 cr

Applied aspects of meteorology are described in terms of weather analysis and forecasting techniques for synoptic-scales and meso-scales using various meteorological tools. An introduction to severe weather forecasting techniques will also be described.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GEOG 3310 (C), or permission of department head.

GEOG 4310 Boundary-Layer Climatology and Micrometeorology 3 cr

A seminar course on advanced topics in microclimatology and micrometeorology.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GEOG 3320 (C), or permission of department head.

GEOG 4330 Concepts in Atmospheric Modeling 3 cr

This course will primarily focus on numerical modeling applications and techniques of the Earth's atmosphere with an emphasis on weather prediction. This includes understanding basic modeling terminology, numerical schemes, structure of models, types of models, what is required to run a model, and an introduction to data assimilation and ensemble techniques to weather prediction. Not to be held with GEOG 4320.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GEOG 3310 (C) or GEOG 3320 (C), or permission of department head.

Equip To: GEOG 4320

GEOG 4350 Parks and Protected Areas Planning and Management: Field Studies 6 cr

The course is taught in two segments, an on-campus component and field study component taking place in Banff National Park. The on-campus component examines the historical development of the concept of parks and protected areas, the role of interpretation, management and research in the parks and emerging issues in the management of parks and protected areas. In addition, during the on-campus component planning for the field will take place. The field segment will focus on a wide variety of management issues with particular attention to Banff National Park. Emerging issues and trends will be examined and past management responses evaluated. There will be opportunities for students to investigate specific management issues of interest to them and to participate in current research being conducted in the park. This course is also offered in the Faculty of Kinesiology and Recreation Management as REC 4350.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department head.

Equip To: REC 4350

GEOG 4390 Global Climate Change 3 cr

Students will be introduced to the complexities of climate changes through a series of introductory lectures and reading assignments that focus on recent scientific publications and review articles (mathematical skills are not required). Both sides of the climate change debate will be addressed in weekly assignments, and students will defend their conclusions in classroom discussion. Each student will take on a project in some aspect of climate change – glaciers, sea ice, temperature trends, precipitation, agriculture, animal migration, aerosols, or a regional impact.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of C or better in GEOG 3390 (or GEOG 3610), or permission of department head.

GEOG 4560 Techniques in Climatology 3 cr

This course will examine field and analysis techniques that form the basis of climatological research, with particular emphasis on contemporary research in the areas of microclimatology and micrometeorology. Techniques for the examination of biophysical and biogeochemical processes driving the surface exchanges of heat, water and greenhouse gases form an important component of this course. The aim of the course is to prepare the student for independent research in applied climatology and meteorology, including the affiliated fields of ecology, hydrology, oceanography, as well as other fields of atmospheric science.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GEOG 3320, or permission of department head or instructor.

GEOG 4650 Models in Regional Analysis 3 cr

Emphasis is placed on the use of regression techniques in regional analysis including the classical ordinary least squares methods and two-stage least squares. Migration and industrial location models are developed and calibrated using these techniques.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department head.

GEOG 4660 Honours Thesis 6 cr

This course involves the production of a thesis under the supervision of a department faculty member.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department head.

GEOG 4670 Selected Issues 3 cr

Intensive study of selected geographic issues.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Prearranged written consent of an individual instructor and permission of department head.

GEOG 4750 Understanding Contemporary Environmentalism: Power and Discourse 3 cr

This course will provide students with an advanced understanding of the relationships between nature and society by examining the rise of environmentalism through the past 50 years. Special attention will be paid to recent developments within the field of environmentalism and to theoretical work in the field of political ecology.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of the Instructor,

GEOG 4780 Storms-Mesoscale 3 cr

This course focuses on a range of storms and mesoscale phenomena in the summer or winter. These include thunderstorms, tornadoes, squall lines, lightning, low level jets, gust fronts, blizzards, freezing rain, orographic storm, and polar lows. The emphasis is on the physical mechanisms leading to these events and it also examines how they may change in our changing climate. Not to be held for credit with GEOG 7780.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: A grade of "C" or better in GEOG 3310 or permission of department head.

Equiv To: GEOG 7780

GEOG 4872 Advanced Methods in Geomatics 3 cr

This course focuses on the theory and application of geomatics in spatial problem solving in geography and the environment. The use of geomatics' technologies including GIS, Earth observation and spatial numerical methods will be covered. Students will learn the theoretical underpinning of spatial statistical concepts and will experiment with data exploration, inference and hypothesis testing. Lab assignments will provide practical experience with GIS and other geomatics software as well as CRAN-R. Not to be held with ENVR 4872, GEOG 4590 or GEOG 4720.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GEOG 3730 or permission of Instructor.

Equiv To: ENVR 4872, GEOG 4590, GEOG 4720

GEOG 4930 Oceanography: Chemical 3 cr

This course deals with the sources, distribution, and transformation of chemical constituents of the oceans, and the processes that control them. The emphasis will be given to biologically or climatically significant elements such as carbon, nitrogen, phosphorus, iron and mercury in the Arctic Ocean.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ENVR 2550 and GEOG 2930 or permission by department head.

GEOG 4940 Arctic Sea Ice 3 cr

This course aims to (i) provide students with a strong background on the importance and current knowledge of Arctic sea ice and (ii) train students on current field techniques used in research pertaining to sea ice-related investigations. To attain these goals, the course will combine field safety training, classroom lectures and assignments, and direct field experience through a field trip pertaining to physical and biogeochemical processes of the snow-covered sea-ice environment.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: permission of the instructor.

GEOG 4960 Oceanography: Biological II Higher Trophic Levels 3 cr

This course will examine the oceanographic-biological coupling occurring in the Arctic region, focusing on environmental conditions related to higher trophic levels and impacts of climate change. This course will extend the learning of the 3000-level course that examines biological oceanography, which focuses on the environmental factors that control primary production and lower trophic levels in the world's oceans.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: A minimum grade of "C" in both GEOG 3920 and a 2000-level BIOL course or permission of instructor.

Geological Sciences (GEOL)

GEOL 1340 The Dynamic Earth 3 cr

(Lab required) An introduction to dynamics of the Earth's interior and surface that created the environment in which life evolved and that continue to change the world in which people now live. Not to be held with the former GEOL 1440 or the former GEOL 2250. Required for students intending to proceed in further courses in the Geological Sciences

Mutually Exclusive: GEOL 1440, GEOL 2250

Attributes: Recommended Intro Courses

GEOL 1400 Time-Trekker's Travelog: Our Evolving Earth 3 cr

Take a trip across billions of years, as we explore awesome times in the evolution of our planet and its life – from dust to us! Not to be held with GEOL 1350.

Equiv To: GEOL 1350

Attributes: Recommended Intro Courses

GEOL 1410 Natural Disasters and Global Change 3 cr

Discover how and when natural disasters occur, and how to identify and recognize them. Explore the Earth processes that lead to natural disasters and global change. Not to be held with the former GEOL 1360.

Equiv To: GEOL 1360

Attributes: Recommended Intro Courses

GEOL 1420 Exploring the Planets 3 cr

Discover the Solar System as we explore ancient ideas and modern concepts. Emphasis will be on recent space exploration and a comparison of the Earth and its neighbours. Not to be held with the former GEOL 1370.

Equiv To: GEOL 1370

Attributes: Recommended Intro Courses

GEOL 2060 Introductory Geophysics 3 cr

(Lab required) An introduction to geophysical exploration, Earth physics, seismology, electrical methods, and potential fields. Emphasis will be on quantitative modeling and will include geophysical measurements and handling of data.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [GEOL 1340 (or the former GEOL 1440 (C))], and [MATH 1300 or MATH 1301 or MATH 1310 or MATH 1500 or MATH 1501 or MATH 1510 or MATH 1520 or the former MATH 1530 (C)], and [PHYS 1020 or PHYS 1021 or PHYS 1050 or PHYS 1051 (C)].

GEOL 2350 Canada Rocks: The Geology of Canada 3 cr

This is a general interest course. Journey through the spectacular story of Canada's geology- its rocks and how they were assembled over time into the amazing country that we live in today.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: a grade of C or better in [a minimum of 3 credit hours of university-level geology] or [GEOG 1290 or GEOG 1291] or [the former GEOG 1200 or the former GEOG 1201] or EER 1000.

GEOL 2390 Environmental Geology 3 cr

Examination of geological processes and material as they interact with human activities, environmental planning, and management.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [Minimum 3 credit hours of university-level geology] or [GEOG 1290 or GEOG 1291], or [the former GEOG 1200 or GEOG 1201].

GEOL 2440 Structural Geology 1 3 cr

(Lab Required) Elementary mechanical principles of rock deformation, brittle and continuous deformation, geometry of faults, folds, joints, cleavage, lineations. Descriptive geometric and stereonet solution to structural geology problems, cross sections, structural contour maps.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GEOL 1340 (C+), and [MATH 1300, or MATH 1210, or MATH 1500, or MATH 1510, or MATH 1520].

GEOL 2500 Introduction to Mineralogy 3 cr

(Lab Required) An introduction to the chemistry, physics and classification of minerals. Brief, systematic description of about 200 of the most important minerals. Laboratory: hand specimen identification. Not to be held with the former GEOL 2540.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: GEOL 1340 (C+) and [one of Chemistry 40S (50%), CKSL 0100 (P) or the former CHEM 0900 (Pass)]. (CHEM 1100 or CHEM 1101) and (one of CHEM 1120, CHEM 1121, or CHEM 1126) are highly recommended.

Mutually Exclusive: GEOL 2540

GEOL 2520 Igneous and Metamorphic Petrology 3 cr

(Lab Required) The classification, occurrence and origin of igneous and metamorphic rocks. The study and identification of rocks using hand specimens and thin sections.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [GEOL 2500 and GEOL 2800] or [the former GEOL 2540].

GEOL 2530 Introductory Sedimentary Petrology and Stratigraphy 3 cr

(Lab Required) An introduction to sedimentary deposits and principles of stratigraphic analysis. Occurrence, classification and origin of sedimentary deposits. Facies concept, stratigraphic classification and correlation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [GEOL 2500 and GEOL 2800] or [the former GEOL 2540].

GEOL 2570 Energy and Mineral Resources 3 cr

An introduction to the geological factors and processes responsible for the origin, concentration and distribution of fuels, geothermal resources, metallic and nonmetallic minerals.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Any university-level Geology course.

GEOL 2770 Principles of Inorganic Geochemistry 3 cr

(Lab Required) The cosmic abundance of the elements, nucleosynthesis, geological differentiation of the elements; chemical petrology of igneous, metamorphic and sedimentary rocks. An introduction to aqueous and low-temperature geochemistry.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [GEOL 2500 or the former GEOL 2540] and [one of MATH 1300, MATH 1301, MATH 1210, MATH 1211, MATH 1230, MATH 1500, MATH 1501, MATH 1510, or MATH 1520]. Pre or Corequisite: [(CHEM 1100 or CHEM 1101) and (one of CHEM 1120, CHEM 1121 or CHEM 1126)] or the former CHEM 1300 or the former CHEM 1301.

GEOL 2800 Optics and Spectroscopy of Minerals 3 cr

(Lab Required) Use of the petrographic microscope; microscopic recognition of common rock-forming minerals; introduction to spectroscopic techniques in geosciences (including optical, vibrational and luminescence techniques).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or Corequisite: GEOL 2500 or the former GEOL 2540.

GEOL 3110 Petrogenesis of Igneous Rocks 3 cr

(Lab Required) Crystallization processes in magma and resultant textures; physical, chemical, and kinetic processes of magmatic systems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: GEOL 2520 and GEOL 2770.

GEOL 3130 Communication Methods in the Geological Sciences 3 cr

(Lab Required) Practice in oral and written description of geologic subjects; tools of library and database research; manuscript organization; abstract writing; preparation of tables, figures, and audio-visual material. This course is for students in the Honours and Major Geological Sciences programs only.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: GEOL 2440 and GEOL 2520 and GEOL 2530.

Attributes: Written English Requirement

GEOL 3140 Gemology 3 cr

(Lab Required) An introduction to the scientific study of natural and synthetic gem materials, methods of their identification and principles of gemstone appraisals. Laboratory: identification of gemstones using optical methods.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [GEOL 2500 and GEOL 2800] or [the former GEOL 2540].

GEOL 3310 Paleontology 3 cr

(Lab Required) The study of fossils: invertebrate paleontology, with an introduction to paleontologic principles, vertebrate paleontology, and paleobotany.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [GEOL 1340 (C+) and GEOL 1400] or [BIOL 1030 or BIOL 1031].

GEOL 3420 Engineering Geology 3 cr

Engineering properties of rocks and soils, laboratory testing and site investigations in engineering geology. Engineering geology of tunnels, bridges, dams, reservoirs, shorelines, sanitary landfills, landslides, seismic risk areas, etc.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: GEOL 2440 and GEOL 2520 and GEOL 2530.

GEOL 3440 Structure and Metamorphism 3 cr

(Lab required) Structural and metamorphic geology, links between deformation and metamorphism, and the application of pressure-temperature and time paths to study metamorphic equilibria. Not to be held with the former GEOL 3290.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: GEOL 2440 and GEOL 2520 and GEOL 3910.

Equiv To: GEOL 3290

GEOL 3450 Hydrogeology 3 cr

(Lab required) The hydrologic cycle and basic hydrologic processes; properties of aquifers and principles of groundwater flow; well hydraulics and groundwater resource evaluation; regional groundwater flow and subsurface geology; and basic chemical hydrogeology. May not be held with CIVL 4250.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [MATH 1230 or MATH 1500 or MATH 1501 or MATH 1510 or MATH 1520] and [PHYS 1020 or PHYS 1021 or PHYS 1050 or PHYS 1051] and [(CHEM 1100 or CHEM 1101) and (one of CHEM 1120, CHEM 1121, or CHEM 1126)] or [the former CHEM 1300 or the former CHEM 1301] and [GEOL 2060 or GEOG 2310 or (one of STAT 1000, or STAT 1001, or STAT 1150)] and [GEOL 2530].

Mutually Exclusive: CIVL 4250

GEOL 3490 Glacial Geology and Geomorphology 3 cr

(Lab required) Principles of landform development with emphasis on glacial deposition. Aerial photo and map interpretation in lab. Not to be held with the former GEOG 3580.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GEOL 2530.

Mutually Exclusive: GEOG 3580

GEOL 3740 Exploration Seismology 3 cr

(Lab required) Collection of seismic data (land and sea); simple elastic wave theory; geometry of refraction and reflection seismology; rock velocity determination; seismic noise and signal; data corrections; data enhancement techniques; representation of data; survey procedures.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [GEOL 2060 (C)] and [MATH 1500 or MATH 1501 (C) or MATH 1510 (C) or MATH 1520 (C) or the former MATH 1530 (C) or MATH 1690 (C)].

GEOL 3750 Geology and Geophysics of the Planets 3 cr

(Lab required) Physical and chemical nature of the inner and outer planets and their satellites, asteroids and meteorites. The application of geophysical, geochemical and petrological techniques to planetology; remote sensing study of geological features of planetary surfaces and atmospheres.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: GEOL 2060, GEOL 2520, and GEOL 2530, or permission of department.

GEOL 3810 Applied Geophysics 3 cr

(Lab required) The application of geophysical methods in exploration and in environmental and engineering projects.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [GEOL 2060] and [GEOL 2500 or the former GEOL 2540].

GEOL 3900 Sedimentology 3 cr

(Lab Required) The study of depositional environments of sedimentary rocks. Facies analysis and modeling of sedimentary deposits.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GEOL 2530.

GEOL 3910 Introduction to Field Mapping 3 cr

Course introducing field mapping techniques including field navigation and basic geologic interpretations. Students are responsible for costs of room and board during the field course. Offered in the Summer Term.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: GEOL 2440 and GEOL 2520 and GEOL 2530 and permission of department.

GEOL 4250 Theory and Application of Geophysical Inversion Methods 3 cr

(Lab required) Introduction to linear and non-linear geophysical inversion theory.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [GEOL 2060 (C)] and [MATH 1210 (C) or MATH 1300 (C) or MATH 1301 (C) or MATH 1310 (C)].

GEOL 4260 Applied Geophysics Field Course 3 cr

Field instruction in the planning and execution of geophysical surveys and the use of geophysical equipment; analysis, interpretation and reporting of acquired geophysical data. Taught with the first half of GEOL 4740 in the summer term. Students are responsible for costs of room and board during the field course. Not to be held with GEOL 4740.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: GEOL 3810, GEOL 2440, GEOL 2520, GEOL 2530, and permission of department.

Mutually Exclusive: GEOL 4740

GEOL 4270 Advanced Studies in Earth Sciences 3 cr

Advanced study in a selected subject in Earth sciences. As the course content will vary from year to year, students may take this course more than once for credit.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of department head.

GEOL 4280 Instrumental Techniques in Geology 3 cr

(Lab required) Lecture and laboratory course introducing modern instrumental techniques for the characterization of materials. Includes coverage of diffraction, spectroscopy, mass spectrometry, electron and scanning probe techniques. Emphasis is placed on basic principles, instrument operation, data analysis and sample preparation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: GEOL 2520 and GEOL 2530 and GEOL 2770 and permission of department.

GEOL 4300 Mineral Deposits 3 cr

(Lab required) The tectonic setting and deformational and structural nature of ore deposits. The physics and chemistry of ore deposition and ore bearing fluids. The mineralogical, textural and environmental constraints on resource exploitation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: GEOL 3110 and GEOL 3900.

GEOL 4310 Paleontologic Principles 3 cr

(Lab required) Interpretation of Earth history using fossils: topics in taxonomy, functional morphology, paleoecology, evolution, biostratigraphy, and biogeography.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GEOL 3310 or permission of department.

GEOL 4320 Physics of the Earth: Seismology and Heat Flow 3 cr

Seismology and the structure, physical properties and equations of state of the Earth's interior; thermal constitution and the history of the Earth.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: GEOL 2060 and [MATH 2130 or MATH 2720 or MATH 2721]. Pre- or co-requisite: MATH 3132 or PHYS 2490 or PHYS 3496.

GEOL 4330 Physics of the Earth: Geomagnetism and Gravity 3 cr

Potential field theory; magnetic properties of Earth materials; figure and rotation of the Earth; theory and application of Earth's gravity and magnetic fields.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: GEOL 2060 and [MATH 2130 or MATH 2720 or MATH 2721]. Co-requisite: MATH 3132 or PHYS 2490 or PHYS 3496..

GEOL 4360 Mineral Exploration Techniques 3 cr

(Lab required) Methodologies used in exploration and evaluation of Canadian mineral deposits and case studies illustrating the application of these methods.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GEOL 3910 and GEOL 2770. Recommended pre- or corequisite: GEOL 4300.

GEOL 4370 Global Change 3 cr

Examination of the major processes controlling global change through time. The causes, magnitude, and periodicity of changes in the geological record resulting from the variability and interaction of continents, oceans, atmospheres, climate, Earth-sun relationships, and ice sheets, with an emphasis on paleoclimate.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GEOL 3900. Pre- or corequisite: GEOL 3490.

GEOL 4380 Mineral Resource Development 3 cr

Examination of economic, political, social, and environmental considerations that affect exploration and mining activity.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GEOL 3130 (C+). Pre- or corequisite: GEOL 4300 or GEOL 3810.

GEOL 4520 Petroleum Geology 3 cr

(Lab required) A study of the physical properties, origins and maturation, migration, and accumulation of petroleum products.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [GEOL 2060 and GEOL 3900] or [GEOL 2530 and either (GEOL 3810 or GEOL 3740)].

GEOL 4670 Global Tectonics 3 cr

(Lab required) The structure and properties of, and physical processes taking place within, the Earth's interior. Continental cratons and their margins, orogenic belts, structural and petrologic features of the ocean basins, modern diastrophism, global tectonic theories.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [GEOL 3110, GEOL 3440 (or the former GEOL 3290), GEOL 3900] or [GEOL 2440, GEOL 2520, GEOL 2530 and two of the following courses: GEOL 4250, GEOL 4320, GEOL 4330, GEOL 4810].

GEOL 4740 Geophysics Field Course 6 cr

Field instruction in planning and execution of geophysical surveys and use of geophysical equipment; analysis, interpretation and reporting of acquired geophysical data. Students are responsible for costs of room and board during the field course. Taught in the summer term. Not to be held with GEOL 4260.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: GEOL 2440, GEOL 2520, GEOL 2530, GEOL 3810, and permission of department.

Mutually Exclusive: GEOL 4260

GEOL 4810 Geophysical Data Analysis 3 cr

The theory and application of spectral methods in geophysics. The use of Fourier Transforms, convolution, power spectra, coherence, transfer functions, covariance, correlation and filtering.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 2132 or PHYS 2490 or PHYS 2496 or permission of department.

GEOL 4870 Honours Thesis 6 cr

A thesis based on a geoscience research project conducted by a fourth-year student in Geology or Geophysics. Selection of a project and supervisor to be arranged prior to registration, submitted in writing to and approved by the department head. This course is for Honours students only and is to be taken in the student's final year before graduation. Not to be held with GEOL 4920.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GEOL 3130 and permission of department head.

Mutually Exclusive: GEOL 4920

GEOL 4890 Basin Analysis 3 cr

(Lab required) The study of major sedimentary basins. Qualitative and quantitative aspects of basin origin, classification, evolution, fluid content and diagenesis, and sedimentary facies architecture.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [GEOL 3900 and GEOL 2060] or [GEOL 2530 and (GEOL 3740 or GEOL 3810)].

GEOL 4910 Advanced Field Mapping 3 cr

Course developing field mapping techniques including independent mapping and interpretation and synthesis in complex geological terrains. Students are responsible for costs of room and board during the field course. Offered in the summer term.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: GEOL 3440 or (the former GEOL 3290), GEOL 3110, GEOL 3900, GEOL 3910, and permission of department.

GEOL 4920 Technical Report 3 cr

A technical report based on a geoscience research project conducted by a fourth year Major student in Geology or Geophysics. Selection of a project and supervisor to be arranged prior to registration, submitted in writing to and approved by the department head. This course is for students in the Major program only and is available during the student's final year of study before graduation. Not to be held with GEOL 4870. Technical reports written for this course are not considered compliant with National Instrument 43-101.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GEOL 3130 and permission of department head.

Mutually Exclusive: GEOL 4870

German (GRMN)

GRMN 1120 Beginning German (A) 6 cr

(Lab required) Three hours of lectures, plus one hour of language lab or conversation class per week. The course is intended for students with little or no previous knowledge of German. Basic grammar is included, but emphasis is placed on the development of broad reading and speaking skills. Satisfactory completion of this course enables students to proceed to GRMN 2100 or GRMN 2103. Students may not hold credit for GRMN 1120 and any of: GRMN 1123 or GRMN 1125 or the former GRMN 1121. Students with Grade 12 German or its equivalent may not normally take the course for credit. Not open to students who have previously obtained credit for GRMN 2100 or GRMN 2103 or GRMN 2105 or the former GRMN 2101.

Equip To: GRMN 1121

Mutually Exclusive: GRMN 1123, GRMN 1125

Attributes: Humanities, Recommended Intro Courses

GRMN 1300 Masterpieces of German Literature in English Translation (C) 3 cr

Language of instruction: English. The course introduces students to representative works (prose, poetry, and drama) by German-speaking writers such as Goethe, Kleist, Thomas Mann, Kafka, and Rilke, with an emphasis on the ages of Classicism, Romanticism, and Modernism. Stresses the development of English reading and writing skills. The course is designed for students who have little or no prior knowledge of German literature.

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

GRMN 1310 Love in German Culture in English Translation (C) 3 cr

Language of instruction: English. An introduction to the discourse and meaning of love through German culture from the Middle Ages to the present; analyzes the expression of different concepts of love (spiritual, courtly, erotic, romantic, sexual, free, same-sex, familial, virtual) in literature and other cultural forms. Stresses the development of English reading and writing skills. The course is designed for students who have little or no prior knowledge of German culture.

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

GRMN 2100 Intermediate German (A) 6 cr

Grammar review, exercises, development of practical oral skills, conversation and modern usage. Introduction to German poetry and prose. Students may not hold credit for GRMN 2100 and any of: GRMN 2103 or GRMN 2105 or the former GRMN 2101.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [German 40S] or [a grade of "C" or better in GRMN 1120 or GRMN 1125 or the former GRMN 1121] or written consent of department head.

Equip To: GRMN 2101

Mutually Exclusive: GRMN 2103, GRMN 2105

Attributes: Humanities, Recommended Intro Courses

GRMN 2120 Introduction to German Culture from 1918 to the Present (C) 3 cr

Language of instruction: English. An introduction to the culture of contemporary German-speaking countries; analyzes literature and other cultural forms since the end of World War I, including the Weimar Republic, the Third Reich and the Holocaust, divided Germany, Re-Unification, and the European Union.

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

GRMN 2130 Introduction to German Culture from the Beginnings to 1918 (C) 3 cr

Language of instruction: English. An introduction to the culture of the German-speaking countries from the Romans to the end of World War I; analyzes literature and other cultural forms and their relation to the rise of the German Nation in the 19th century and its first "fall" in the 20th century.

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

GRMN 2140 Exploring German Literature (B) 3 cr

Language of instruction: German. In this intermediate course, we will read and discuss a number of works belonging to different literary genres by major German-speaking authors, such as Kafka, Mann, Brecht, Böll, Grass, Jelinek, Wolf, and others. Activities and assignments in this course will focus on the development of reading competency in different literary genres, the expansion of students' German vocabulary, and the development of German written and oral expression.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in GRMN 2100 or GRMN 2105 or GRMN 3200 or GRMN 3201 or the former GRMN 2101] or written consent of department head.

Attributes: Humanities, Recommended Intro Courses

GRMN 2480 Special Topics in German (B) 3 cr

Language of instruction: German. Topics dealing with German literature and culture. Course content will vary from year to year depending on the interests and needs of students and staff. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in GRMN 2100 or GRMN 2105 or GRMN 3200 or GRMN 3201 or the former GRMN 2101] or written consent of department head.

Attributes: Humanities

GRMN 2500 Special Topics in German in English Translation (C) 3 cr

Language of instruction: English. Topics dealing with German literature and culture. Course content will vary from term to term depending on the interests and needs of students and staff. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

GRMN 2510 German Fairy Tales from the Brothers Grimm to Hollywood (C) 3 cr

Language of instruction: English. Study of the German fairy tales with a specific emphasis on the "folk fairy tales" collected by the Brothers Grimm and their adaptations in the 20th and 21st centuries in film (Disney, DEFA, among others), literature, and music. The course familiarizes students with the historical, cultural, and national contexts of the original fairy tales, and trains students in different approaches to understanding those fairy tales (gender, psycho-analysis, child developmental psychology, horror, and others).

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

GRMN 3200 Deutsche Sprachpraxis 1 (A) 6 cr

Modern German usage through conversation, writing and practical exercises; study of contemporary fictional and non-fictional texts and films. Emphasis on vocabulary and structural and stylistic problems. Students may not hold credit for both GRMN 3200 and GRMN 3201.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in GRMN 2100 or GRMN 2105 or the former GRMN 2101 or written consent of department head.

Equip To: GRMN 3201

Attributes: Humanities

GRMN 3220 Deutsche Sprachpraxis 2 (A) 3 cr

Advanced work on various aspects of the German language, involving intensive practice in writing and conversational skills; translation of literary and non-literary materials from and into German; and exercise in stylistic and structural analysis of literary and non-literary German in a variety of registers and contexts.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in GRMN 3200 or GRMN 3201.

Attributes: Humanities

GRMN 3230 Business German (A) 3 cr

An introduction to the contemporary terminology and usage of German in the workplace. Listening, speaking, reading, and writing skills will be developed through a variety of activities. This course also aims at developing cross-cultural awareness. The course prepares the student for the business exam *Zertifikat für den Beruf*. Students may not hold credit for both GRMN 3230 and GRMN 3211.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in GRMN 2100 or GRMN 2105 or GRMN 3200 or GRMN 3201 or the former GRMN 2101] or written consent of department head.

Mutually Exclusive: GRMN 3211

Attributes: Humanities

GRMN 3232 Introduction to German Translation (A) 3 cr

Language of instruction: German. An introduction to the art of translation (German to English) with a focus on translation principles, language analysis, and hands-on translation of texts from a variety of fields.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in GRMN 3200 or GRMN 3201] or written consent of department head.

Attributes: Humanities

GRMN 3234 Special Topics in German Language (A) 3 cr

Language of instruction: German. Topics dealing with learning the German language. Advanced German language practice. Course content will vary from year to year depending on the interests and needs of students and staff. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in GRMN 3200 or GRMN 3201] or written consent of department head.

Attributes: Humanities

GRMN 3240 German Enlightenment and Classicism (B) 3 cr

Language of instruction: German. A study of selected texts of the German Enlightenment and Classicism, including works by Lessing, Schiller, Goethe and others; advanced language practise.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in GRMN 2140 or GRMN 3200 or GRMN 3201] or written consent of department head.

Attributes: Humanities

GRMN 3250 German Romanticism (B) 3 cr

Language of instruction: German. Study of selected fairy tales, novellas, letters, poetry and other texts by authors such as Novalis, Tieck, E.T.A. Hoffmann, and Kleist; topics discussed include the relationship between Enlightenment and Romanticism, the role of women, the discovery of the uncanny, the role of the fantastic, and romantic vampires, advanced language practise.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in GRMN 2140 or GRMN 3200 or GRMN 3201] or written consent of department head.

Attributes: Humanities

GRMN 3260 Representations of the Holocaust (B) 3 cr

Language of instruction: German. This course will focus on the literary rendering, including film versions and German memorial culture, of the Holocaust experience by authors from the German-speaking countries, such as Anna Seghers, Jurek Becker, Paul Celan, Max Frisch, Peter Weiss, Ruth Klüger, W.G. Sebald, and others. Students may not hold credit for both GRMN 3260 and GRMN 3262.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in GRMN 2140 or GRMN 3200 or GRMN 3201] or written consent of department head.

Equiv To: GRMN 3262

Attributes: Humanities

GRMN 3262 Representations of the Holocaust in English Translation (C) 3 cr

Language of instruction: English. This course will focus on the literary rendering, including film versions and German memorial culture, of the Holocaust experience by authors from the German-speaking countries, such as Anna Seghers, Jurek Becker, Paul Celan, Max Frisch, Peter Weiss, Ruth Klüger, W.G. Sebald, and others. Students may not hold credit for both GRMN 3262 and GRMN 3260.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in a minimum of 24 credit hours of university level coursework] or written consent of department head.

Equiv To: GRMN 3260

Attributes: Humanities, Written English Requirement

GRMN 3270 Studies in Contemporary German Cinema (C) 3 cr

Language of instruction: English. Studies the major accomplishments of East and West German cinema of the postwar period, as well as cinematic trends since German unification. We will consider questions of narrative, genre, and authorship, examine film's relationship to other media, and focus on the dynamic interaction between film history and social history.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in a minimum of 24 credit hours of university level coursework] or written consent of department head.

Attributes: Humanities, Written English Requirement

GRMN 3282 Sex, Gender and Cultural Politics in the German-Speaking World in English Translation (C) 3 cr

Language of instruction: English. Explores a wide range of literary and cultural texts that deal with sex and gender in the German-speaking world. Discussion will address topics such as representation of women and men in literature and the social and historical climate in which the literature was and is produced. Students may not hold credit for both GRMN 3282 and GRMN 3280.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in a minimum of 24 credit hours of university level coursework] or written consent of department head.

Equiv To: GRMN 3280

Attributes: Humanities, Written English Requirement

GRMN 3290 History in Literature in German-Speaking Countries (B) 3 cr

Language of instruction: German. Analyzes how history is represented and remembered in literature and other genres. The course will focus on the representation of one historical period such as the Weimar Republic or the Nazi Third Reich. Please consult the instructor for details on which historical period as it appears in literature will be considered.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in GRMN 2140 or GRMN 3200 or GRMN 3201] or written consent of department head.

Attributes: Humanities

GRMN 3390 German Representations of War (C) 3 cr

Language of instruction: English. Focuses on representations of war, particularly World War II from a German and European perspective in fiction, historiography, film, photography, and memorial culture. Students may not hold credit for both GRMN 3390 and GRMN 3392.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in a minimum of 24 credit hours of university level coursework] or written consent of department head.

Equiv To: GRMN 3392

Attributes: Humanities, Written English Requirement

GRMN 3500 Special Topics in German (B) 3 cr

Language of instruction: German. Topics dealing with German literature and culture. Course content will vary from year to year depending on interests and needs of students and staff. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in GRMN 2140 or GRMN 3200 or GRMN 3201] or written consent of department head.

Attributes: Humanities

GRMN 3510 Special Topics in German in English Translation (C) 3 cr

Language of instruction: English. Topics dealing with German literature and culture. Course content will vary from year to year depending on interests and needs of students and staff. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in a minimum of 24 credit hours of university level coursework] or written consent of department head.

Attributes: Humanities, Written English Requirement

GRMN 3530 Special Topics in Comparative German and Slavic Studies (C) 3 cr

Language of instruction: English. Topics comparing German and Slavic – Ukrainian, Russian, Polish – literatures and cultures. Course is co-taught by a member from the German and one from the Slavic Section. Course content will vary from year to year depending on interests and needs of students and staff. Possible topics include Memory of World War II, Cold War and Post-Cold War, and Modernism. Students may not hold credit for both GRMN 3530 and SLAV 3530 when topic is the same. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in a minimum of 24 credit hours of university level coursework] or written consent of department head.

Attributes: Humanities, Written English Requirement

GRMN 4200 Literary and Cultural Theory (C) 3 cr

Language of instruction: English. A survey of the major theoretical approaches to German literatures and cultures. Discusses the aesthetics of Enlightenment and Idealism, Nietzsche, Freud, Prague Structuralism, hermeneutics, semiotics, the Frankfurt School, collective memory, gender studies, and multi-culturalism; application of theories to German literary texts and other cultural examples.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

GRMN 4210 Survey of Second Language Acquisition and Methods of Language Teaching in German (B) 3 cr

Language of instruction: German. For advanced undergraduate students with a high proficiency in German who are interested in the learning and teaching of German as a foreign / second language; the course provides a general introduction to theories and approaches in second language acquisition (SLA) and to methods of the teaching of German as a foreign language. This course is not acceptable for credit in a Bachelor of Education program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

GRMN 4540 Introduction to German Language Structure (B) 3 cr

Language of instruction: German. An introduction to the scientific study of the German language and to the role of the language teacher in the examination, analysis, and description of the German language. Topics include grammar, word formation, meaning, sound systems, language acquisition and change, and language in society.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

GRMN 4570 Honours Thesis in German Studies (B,C) 3 cr

The Thesis presents the results of an independent research project supervised by a faculty member. The thesis can be written in German or in English.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

GRMN 4600 Senior Seminar in German Studies (B) 3 cr

Language of instruction: German. Introduces basic methodology of German literary and cultural studies (genres, periods, resources, bibliographical methods). Examines German culture during critical periods in German history with specific emphasis on literature. Students work closely with a faculty advisor during the semester and are expected to produce a major research paper.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

GRMN 4660 Special Topics in German (B) 3 cr

Language of instruction: German. The specific content of this course will vary from year to year. A description of the course is available in advance at the Department Office. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

GRMN 4670 Special Topics in German in English Translation (C) 3 cr

Language of instruction: English. The specific content of this course will vary from year to year. A description of the course is available in advance at the Department Office. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

Global Political Economy (GPE)

GPE 1700 Social Justice in the 21st Century: Global Political Economy and Environmental Change 3 cr

Introduces students to political economy and cultural geography through the close analysis of contemporary world events, including but not limited to instances of violent conflict, environmental change, international negotiations, political processes and events, social movements, and policy developments. A multimedia approach will advance students' understanding of geopolitical events from political economy and spatial perspectives. Specific content of the course will change year-by-year in response to developments in national and world politics. Also offered by Clayton H. Riddell Faculty of Environment, Earth, and Resources as GEOG 1700. Students may not hold credit for both GPE 1700 and GEOG 1700.

Equiv To: GEOG 1700

Attributes: Social Science, Recommended Intro Courses

GPE 2700 Perspectives on Global Political Economy 3 cr

An interdisciplinary seminar exploring issues in political economy at the global level from the perspectives of Anthropology, History, Economics, Political Studies, and Sociology.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of Global Political Economy coordinator.

Attributes: Social Science, Written English Requirement

GPE 3700 A Survey of Global Political Economy 3 cr

Provides students with a systemic intellectual history of the field of Global Political Economy. The course delineates Global Political Economy as a distinctive scholarly tradition, discusses the separation of economics and politics, and surveys the tradition from classical political economy through historical materialism, development economics, imperialism, world systems theory, and more. Students will relate these approaches to contemporary issues in GPE such as economic and ecological crises, inequality, or corporate power.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in GPE 1700 or GEOG 1700] or written consent of instructor.

Attributes: Humanities

GPE 4510 Global Political Economy Field Placement Seminar 3 cr

A seminar to be taken concurrently with GPE 4520 in which each student will relate theory and practice. This course is also offered as ECON 4610 and LABR 4510. Students may not hold credit for GPE 4510 and either ECON 4610 or LABR 4510. Intended for students in the Global Political Economy Single Advanced Major.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of the Global Political Economy Program Coordinator. Corequisite: GPE 4520.

Equiv To: ECON 4610, LABR 4510

Attributes: Social Science

GPE 4520 Global Political Economy Field Placement 6 cr

An educationally directed field experience in which the student will undertake specific tasks and assignments in some aspects of Community Economic Development and/or economic policy. Field placement options include community-based organizations, government departments and agencies, policy and research organizations, unions, and other employers. This course is also offered as ECON 4620 and LABR 4520. Students may not hold credit for GPE 4520 and either ECON 4620 or LABR 4520. Intended for students in the Global Political Economy Single Advanced Major.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of the Global Political Economy Program Coordinator. Corequisite: GPE 4510.

Equiv To: ECON 4620, LABR 4520

Attributes: Social Science

GPE 4700 Studies in Global Political Economy 6 cr

An advanced interdisciplinary seminar that will study the effects of institutions, structures, and dynamics operating in the current global political economy. Students, working in groups, will be expected to do case studies on selected local (or regional) political economies.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of Global Political Economy coordinator.

Attributes: Social Science

Greek (GRK)

GRK 1010 Introduction to the Reading of Ancient Greek 1 3 cr

Readings in Ancient Greek poetry and prose with related exercises in grammar and composition intended to prepare students to read Classical and Hellenistic Greek.

Mutually Exclusive: GRK 1030

Attributes: Humanities, Recommended Intro Courses

GRK 1020 Introduction to the Reading of Ancient Greek 2 3 cr

Further readings in Ancient Greek poetry and prose with related exercises in grammar and composition intended to prepare students to read Classical and Hellenistic Greek. Students may not hold credit for both GRK 1020 and GRK 1030.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in GRK 1010.

Mutually Exclusive: GRK 1030

Attributes: Humanities, Recommended Intro Courses

GRK 1030 New Testament Greek 6 cr

The grammar and syntax of New Testament Greek. Normally taught only in the Approved Teaching Centres. May be used for credit towards the Major or Minor in Greek only with written consent of department head. Students may not hold credit for GRK 1030 and any of: GRK 1010 or GRK 1020.

Mutually Exclusive: GRK 1010, GRK 1020

Attributes: Humanities, Recommended Intro Courses

GRK 1060 Introductory Modern Greek 1 3 cr

A practical introduction to the written and spoken language for those with little or no knowledge of Modern Greek. Personal instruction in script, vocabulary, aural comprehension, pronunciation and syntax is supplemented with the use of audio recording in the laboratory or via other media such as the internet. Not for credit towards the Major or Minor in Classical Studies.

Attributes: Humanities, Recommended Intro Courses

GRK 1070 Introductory Modern Greek 2 3 cr

The continuation of GRK 1060 with further personal instruction in vocabulary, aural comprehension, pronunciation and syntax supplemented with the use of audio recordings in the laboratory or via other media such as the internet. Not for credit towards the Major or Minor in Classical Studies.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in GRK 1060] or written consent of department head.

Attributes: Humanities, Recommended Intro Courses

GRK 2060 Intermediate Modern Greek 1 3 cr

Continued study and practice in oral and written communication in Modern Greek. Course work includes conversation, prose composition and reading of selected texts from Greek literary works and popular media. Not for credit towards a Major or Minor in Classical Studies.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in GRK 1070] or written consent of department head.

Attributes: Humanities

GRK 2070 Intermediate Modern Greek 2 3 cr

Continued study and practice in oral and written communication in Modern Greek. Course work includes conversation, prose composition and reading of selected texts from Greek literary works and popular media. Not for credit towards a Major or Minor in Classical Studies.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in GRK 2060] or written consent of department head.

Attributes: Humanities

GRK 2700 Intermediate Readings in Ancient Greek 3 cr

Further readings in ancient Greek poetry and prose with related exercises in grammar and composition intended to advance the student's skill at reading Classical and Hellenistic Greek. Students may not hold credit for both GRK 2700 and the former GRK 1310.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in GRK 1020 or GRK 1030.

Equip To: GRK 1310

Attributes: Humanities

GRK 2710 The Acts of the Apostles 3 cr

The complete Book of Acts is read in Greek with attention to related textual, linguistic and historical matters. Students may not hold credit for both GRK 2710 and the former GRK 1330.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in GRK 2700 or the former GRK 1310] or written consent of department head.

Equip To: GRK 1330

Attributes: Humanities

GRK 2732 Readings in Greek Poetry 3 cr

Readings from the works of selected poets of the Archaic and Classical periods. Students may not hold credit for both GRK 2732 and the former GRK 2730.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in GRK 2700 or the former GRK 1310.

Equip To: GRK 2730

Attributes: Humanities

GRK 2752 Readings in Greek Prose Literature 3 cr

Readings from the works of selected prose authors of the Classical period. Students may not hold credit for both GRK 2752 and the former GRK 2750.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in GRK 2700 or the former GRK 1310.

Equip To: GRK 2750

Attributes: Humanities

GRK 2770 Greek Prose Composition and Sight Translation 3 cr

Assignments in writing Greek prose and practice in the techniques for effective reading of prose and poetry at sight.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in GRK 2700 or the former GRK 1310.

Attributes: Humanities

GRK 2790 History of the Greek Language 3 cr

A survey of the language from its Indo-European pre-history to the modern era. The phonological, morphological and lexical aspects of the language are investigated in the light of Greek literary and inscriptional documents and some comparative evidence from cognate languages.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in GRK 2700 or the former GRK 1310] or [a working knowledge of Modern Greek and written consent of department head].

Attributes: Humanities

GRK 2810 Prose Writings of the Hellenistic and Greco-Roman Periods 3 cr

Reading of selected literary and historical documents relating to Judaism and early Christianity.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in any of: GRK 2700 or GRK 2710 or the former GRK 1310 or the former GRK 1330.

Attributes: Humanities

GRK 3750 Homer 3 cr

At least three complete books of the Iliad or Odyssey are read with attention to compositional technique and metre.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in GRK 2732 or GRK 2752 or the former GRK 2730 or the former GRK 2750] or written consent of department head.

Attributes: Humanities

GRK 3770 Greek Poetry of the Archaic Period 3 cr

Reading of selections from Hesiod, the Homeric Hymns and such lyric poets as Sappho, Alcaeus, Anacreon, Pindar and Bacchylides.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in GRK 2732 or GRK 2752 or the former GRK 2730 or the former GRK 2750] or written consent of department head.

Attributes: Humanities

GRK 3790 The Greek Tragedians 3 cr

Reading of at least one tragedy from among those of Aeschylus, Sophocles or Euripides.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in GRK 2732 or GRK 2752 or the former GRK 2730 or the former GRK 2750] or written consent of department head.

Attributes: Humanities

GRK 3810 Aristophanes 3 cr

Reading of at least one complete comedy.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in GRK 2732 or GRK 2752 or the former GRK 2730 or the former GRK 2750] or written consent of department head.

Attributes: Humanities

GRK 3830 The Greek Historians 3 cr

Selected readings from the works of Herodotus and Thucydides and/or the historical works of Xenophon.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in GRK 2732 or GRK 2752 or the former GRK 2730 or the former GRK 2750] or written consent of department head.

Attributes: Humanities

GRK 3850 Plato 3 cr

Readings of two of the shorter dialogues or of selections from several dialogues.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in GRK 2732 or GRK 2752 or the former GRK 2730 or the former GRK 2750] or written consent of department head.

Attributes: Humanities

GRK 3870 The Attic Orators 3 cr

Readings from the works of such orators as Isocrates, Lysias and Demosthenes.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in GRK 2732 or GRK 2752 or the former GRK 2730 or the former GRK 2750] or written consent of department head.

Attributes: Humanities

GRK 3930 Advanced Studies in Greek Prose Literature 3 cr

Readings in a particular genre such as philosophy, history, or rhetoric with substantial reading in secondary critical or interpretive literature. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in GRK 2732 or GRK 2752 or the former GRK 2730 or the former GRK 2750 or written consent of department head.

Attributes: Humanities

GRK 3940 Advanced Studies in Greek Poetry 3 cr

Readings in a particular genre such as epic, tragedy, comedy, lyric or epigram with substantial reading in secondary critical or interpretive literature. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in GRK 2732 or GRK 2752 or the former GRK 2730 or the former GRK 2750 or written consent of department head.

Attributes: Humanities

Health Studies (HEAL)

HEAL 1500 Foundations of Human Biology 1 3 cr

This course starts by describing simple molecules and cells and progressively introduces the student to more sophisticated aspects of human biology. The course will detail the general organization of the human body and describe many of the main systems responsible for its function. Students registered in a Major or Honours program in Biological Sciences can use this course only as an elective.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: Biology 40S (or equivalent) or Chemistry 40S or CHEM 1018.

HEAL 1502 Foundations of Human Biology 2 3 cr

This course will introduce various elements of human biology encompassing the nervous, endocrine, and reproductive systems. It will also provide basic knowledge in genetics and microbiology. Students registered in a Major or Honours program in Biological Sciences can use this course only as an elective.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: HEAL 1500 (C+).

HEAL 1600 Health and Health Professions 3 cr

(Formerly BIOL 1110) Students discuss the Inter-relationship between health, health determinants, and the impact that sciences, health-science, behavioural-social sciences, and technology, have on health care and the health professions. Participants will consider their own role as health care consumers. Not to be held with BIOL 1110.

Equiv To: BIOL 1110

HEAL 2600 Integration of Health Determinants of Individuals 3 cr

Students study, integrate and apply the determinants that affect the health of individuals throughout the lifespan to selected case or learning scenarios. The case or learning scenarios present a variety of issues in the delivery of health-related services that are intended to benefit individual health.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: One of CHEM 1100 (the former CHEM 1300) or BIOL 1020 or HEAL 1502 or STAT 1000; and one of PSYC 1200 or SOC 1000 (or the former SOC 1200) or consent of instructor.

HEAL 3000 Introduction to Social Epidemiology 3 cr

This course provides an overview of the basic concepts, principles and methods of social epidemiology and their applications for research and practice from a human ecology perspective. Applications to social determinants of health across the life course may include but are not limited to income and food security, early child development and others. May not be held with the former HMEC 3000.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: HNSC 2000 or PSYC 2250 [or the former HMEC 2000 or the former HMEC 2050] and HEAL 2600 [or the former HMEC 2030].

Equiv To: HMEC 3000

HEAL 3600 Integration of Health Determinants for Communities 3 cr

Students study, integrate and use community level determinants of population health in selected case or learning scenarios. These cases present a variety of issues in the design of health related services that are intended to benefit population health.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: HEAL 2600 with a grade of "C" or higher and 39 credit hours in the Curriculum for Interdisciplinary Health or consent of instructor.

HEAL 3610 Mechanisms of Disease 1 3 cr

This course will provide an overview of cellular processes and immunology, followed by an introduction to common processes underlying the development of human diseases. These include: cell injury and death (including metabolism and aging); neoplasia, inflammation; toxins and trauma; genetic diseases and susceptibility; and immune dysregulation. The focus will be on both local and systemic disease processes, and the progression of cells and tissues from a healthy to a pathological state. For IHP students only.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: BGEN 2000 and CHEM 2740 and (one of CHEM 2700, MBIO 2700, CHEM 2730, MBIO 2730, the former CHEM 2360, the former MBIO 2360, the former CHEM 2770, the former MBIO 2770).

HEAL 4600 Integration of Health Determinants for Canada and the World 3 cr

Students use selected case or learning scenarios to study the determinants of population health that depend on decision making in governmental or international agencies. The case scenarios present a variety of issues in the governance and management of population health.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: HEAL 3600 and 57 credit hours in the Curriculum for Interdisciplinary Health or consent of instructor.

HEAL 4610 Health Studies Capstone 3 cr

Students will explore selected topics from the social sciences to synthesize and evaluate actions that can affect the health of people. The course summarizes the social sciences knowledge that forms the basis for all health related professional work. Restricted to students in Health Sciences and Health Studies.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: A grade of C+ in HEAL 3600 and 57 credit hours in the Curriculum for Interdisciplinary Health or consent of instructor.

Equiv To: HEAL 4620

HEAL 4620 Health Sciences Capstone 1-3 cr

Students will explore selected topics from the biological sciences to synthesize and evaluate actions that can affect the health of people. The course summarizes the biological science knowledge that forms the basis for all health related professional work. May not hold with HEAL 4610.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of C+ in HEAL 3600 and 57 credit hours in the Curriculum for Interdisciplinary Health or consent of instructor.

Equiv To: HEAL 4610

HEAL 4630 Mechanisms of Disease 2 3 cr

This course will expand upon the concepts learned in HEAL 3610 by exploring systemic diseases. The focus will be on understanding how some disease processes are not constrained by individual tissues and/or organs and may progress to affect the patient systemically. Specific diseases such as cancer, diabetes, multiple sclerosis, and HIV will be used as examples. For Bachelor of Health Sciences students only.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: HEAL 3610 (B).

HEAL 4640 Mechanisms of Disease 3 6 cr

(Lab required) Students will learn experimental techniques commonly used in modern biomedical science through lectures and laboratory sessions. Students will have the opportunity to conduct hands-on experiments in a modern research setting by rotating through five laboratory modules that will explore biomedical science methods such as histology and microscopy, cell culture, molecular biology, systems biology and proteomics, and HLA genotyping. These modules will be based on the diseases discussed in HEAL 4630, and will allow students to establish a direct connection between their experimental work and disease mechanisms. For students in the Bachelor of Health Sciences program only.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: HEAL 4630 (B) and HEAL 3610 (B) and instructor permission required.

HEAL 4650 Selected Topics in Interdisciplinary Health 3 cr

The opportunity to carry out individual study in the area of interdisciplinary health. When enrolment warrants, special topics may be offered in a regular course format.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Consent of Instructor and director.

Hebrew (HEB)

HEB 1120 Biblical Hebrew (A) 6 cr

(Formerly SEM 1120) An introductory course with emphasis on basic grammar and syntax. Students will learn to read simple biblical narratives. Students may not hold credit for HEB 1120 and any of: RLGN 1120 or the former SEM 1120.

Equiv To: RLGN 1120, SEM 1120

Attributes: Humanities, Recommended Intro Courses

HEB 1250 Hebrew 1 6 cr

(Formerly SEM 1250) For students with a minimal experience with the language yet with a basic ability to read it. Following current methods in the teaching of a second/ foreign language, the listening-comprehension, speaking, reading and writing skills are developed. Language lab and organized conversation are part of the course. Intended for students with a strictly elementary standing. Students may not hold credit for both HEB 1250 and the former SEM 1250.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of program coordinator.

Equiv To: SEM 1250

Attributes: Humanities, Recommended Intro Courses

HEB 1260 Hebrew 2 6 cr

(Formerly SEM 1260) For students who have taken HEB 1250 or the former SEM 1250 or the equivalent. Spoken and written Hebrew - vocabulary and grammar, organized conversation and reading of selected texts. In addition to regular sessions, either one hour of lab or directed conversation per week is required. Students may not hold credit for both HEB 1260 and the former SEM 1260.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of program coordinator.

Equiv To: SEM 1260

Attributes: Humanities, Recommended Intro Courses

HEB 2210 Modern Hebrew Literature 6 cr

(Formerly SEM 2210) Uri Zvi Greenberg, Lamdan, Sholonsky, Agnon, Burla, Hazzaz, Yizhar, Shamir Amihay, S. Shalom - poetry and prose. The modern Isreal short story. Students may not hold credit for both HEB 2210 and the former SEM 2210.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of program coordinator.

Equiv To: SEM 2210

Attributes: Humanities

HEB 2250 Rabbinic Hebrew 6 cr

(Formerly SEM 2250) Study of the style, vocabulary, grammar, and syntax of halakhic and aggadic rabbinic texts. A representative selection of Talmud, Midrashim Codes, and Responsa will be drawn from both the medieval and modern periods. Students may not hold credit for both HEB 2250 and the former SEM 2250.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of program coordinator.

Equiv To: SEM 2250

Attributes: Humanities

HEB 2280 Introduction to Hebrew Literature 6 cr

(Formerly SEM 2280) A study of the history and forms of Hebrew Literature from biblical to modern times. Students may not hold credit for both HEB 2280 and the former SEM 2280 (055.228).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in HEB 1260 or the former SEM 1260] or written consent of program coordinator.

Equiv To: SEM 2280

Attributes: Humanities

HEB 2350 Hebrew 3 6 cr

(Formerly SEM 2350) For students who have taken HEB 1260 or the former SEM 1260 or the equivalent. Further oral practise, vocabulary expansion and grammar review, and development of reading and writing skills. Students may not hold credit for both HEB 2350 and the former SEM 2350.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of program coordinator.

Equiv To: SEM 2350

Attributes: Humanities

HEB 3360 Hebrew Communication Arts 6 cr

(Formerly SEM 3360) A study of all aspects of Hebrew communication. For advanced students with reasonable fluency in the language. The writing skill on general subjects will be developed as well as comprehension and vocabulary expansion in the reading of more technical texts. Students may not hold credit for both HEB 3360 and the former SEM 3360.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of program coordinator.

Equiv To: SEM 3360

Attributes: Humanities

HEB 3370 Hebrew Language and Literature 6 cr

(Formerly SEM 3370) A study of the structure and usage of modern Hebrew, examination of selections of Major modern writers and development of speaking and writing skills. Review of the history of Hebrew and the application of linguistics to the understanding of the language. Students may not hold credit for both HEB 3370 and the former SEM 3370.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of program coordinator.

Equiv To: SEM 3370

Attributes: Humanities

HEB 3380 The Creation of Modern Hebrew 6 cr

(Formerly SEM 3380) An advanced study of the revival of Hebrew as a spoken language. Other attempts at language planning and revival will be observed. Lectures and discussions will be in Hebrew. Students may not hold credit for both HEB 3380 and the former SEM 3380.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of program coordinator.

Equiv To: SEM 3380

Attributes: Humanities

History (HIST)

HIST 1200 An Introduction to the History of Western Civilization (G) 6 cr

An introductory survey of the cultural history of the Western world from the ancient Greeks to the present. Students may not hold credit for HIST 1200 and any of: HIST 1201 or HIST 1350 or HIST 1360.

Equiv To: HIST 1201

Mutually Exclusive: HIST 1203, HIST 1205, HIST 1350, HIST 1360

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 1260 New Directions in History: Inquiries into the Cultural Basis of the Modern World (G) 3 cr

The history of cultural change focusing on such topics as leisure and popular culture, sexuality and history, and the social consequences of creativity and genius. The specific content will vary from year to year.

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

The history of the social and cultural impact of factors such as changes in technology and communication, warfare, and revolution. The specific content will vary from year to year.

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 1350 An Introduction to the History of Western Civilization to 1500 (G) 3 cr

An introductory survey of the cultural history of the Western World from the earliest civilizations to 1500. Students may not hold credit for HIST 1350 and any of: HIST 1200 or HIST 1201.

Mutually Exclusive: HIST 1200, HIST 1201, HIST 1203, HIST 1205

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 1360 An Introduction to the History of Western Civilization from 1500 (G) 3 cr

An introductory survey of the cultural history of the Western World from 1500 to the present. Students may not hold credit for both HIST 1360 and any of: HIST 1200 or HIST 1201.

Mutually Exclusive: HIST 1200, HIST 1201, HIST 1203, HIST 1205

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 1370 Modern World History: 1500-1800 (M) 3 cr

A study of the forces which created the modern world, including the rise of capitalism and the encounter of Western and non-Western societies. Students may not hold credit for both HIST 1370 and the former HIST 1500.

Mutually Exclusive: HIST 1500

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 1380 Modern World History: 1800-Present (M) 3 cr

A study of the forces which created the modern world, including industrialization, imperialism, decolonization, and the emergence of revolution and counter-revolution. Students may not hold credit for both HIST 1380 and the former HIST 1500.

Mutually Exclusive: HIST 1500

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 1390 History of Colonial Canada: 1500-1885 (C) 3 cr

A study of the development of Canada from its colonial origins to the completion of national and transcontinental unification. Emphasis is on French Canada, Indian-European cultural contact, regional life and social organization, impact of colonialism, and the creation of a national state. Students may not hold credit for HIST 1390 and any of: HIST 1440 or HIST 1441.

Mutually Exclusive: HIST 1401, HIST 1403, HIST 1440, HIST 1441

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 1400 History of the Canadian Nation since 1867 (C) 3 cr

A study of the national development of Canada to the present. Emphasis is placed on French Canada, the regional life and social organization of the country, the impact of continentalism, the development of the economy, and the rise of a national sentiment. Students may not hold credit for HIST 1400 and any of: HIST 1440 or HIST 1441.

Mutually Exclusive: HIST 1401, HIST 1403, HIST 1440, HIST 1441

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 1420 Asian Civilizations to 1500 (B) 3 cr

A study of major themes in the history and culture of China and Japan, the Indian subcontinent and Southeast Asia from ancient times to around 1500. Also offered as Asian Studies ASIA 1420. May not be held with ASIA 1420 or the former HIST 1410.

Equiv To: ASIA 1420

Mutually Exclusive: HIST 1410

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 1430 Asian Civilizations from 1500 (B) 3 cr

A study of major themes in the history and culture of China and Japan, the Indian subcontinent and Southeast Asia in modern times. Also offered as Asian Studies ASIA 1430. May not be held with ASIA 1430 or the former HIST 1410.

Equiv To: ASIA 1430

Mutually Exclusive: HIST 1410

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 1440 History of Canada (C) 6 cr

A study of Canadian development from earliest days to the present. Emphasis is placed on Aboriginal societies, the history of French Canada, the regional life and social organization of the country, the impact of colonialism and continentalism, and the rise of nationalisms. Students may not hold credit for HIST 1440 and any of: HIST 1441 or HIST 1390 or HIST 1400.

Equiv To: HIST 1441

Mutually Exclusive: HIST 1390, HIST 1400, HIST 1401, HIST 1403

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2010 Indigenous History in Canada (C) 6 cr

A historical survey of Indigenous peoples in Canada from early times to the present. The course will cover pre-contact peoples, responses to the European arrival, military alliances, the fur trade, the Métis, treaties, government policies and Indigenous responses, and cultural resurgence and political organizing since 1945. Also offered as NATV 2012. May not be held for credit with NATV 2012 or the former HIST 2280.

Equiv To: NATV 2012

Mutually Exclusive: HIST 2280

Attributes: Humanities, Written English Requirement

HIST 2020 The Métis in Canada (C) 3 cr

A history of the Métis in Canada. Also offered as NATV 2020. May not be held for credit with NATV 2020.

Equiv To: NATV 2020

Attributes: Humanities

HIST 2140 Colonial Latin America (A) 3 cr

A survey of the major developments in Latin America from the Indigenous cultures and European Conquest to Independence in 1821.

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2150 Independent Latin America (A) 3 cr

A survey of the major developments in Latin America from Independence in 1821 to the present.

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2180 The History of Catholicism to 1540 (G) 3 cr

The history of Roman Catholicism from the first century to 1540. Emphasis will be placed on the external forces and internal developments that have shaped Catholicism.

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2200 Labour History: Canada and Beyond (C) 3 cr

This course explores the history of working people's struggles, victories and defeats in Canada, with attention to gender, "race" and ethnicity. Topics include the origins and evolution of labour unions and workplace rights and the role of politics and social movements. Also offered as LABR 2200. May not be held with LABR 2200.

Equiv To: LABR 2200

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

A general survey of British history from 1485 to the present. Emphasis is placed on constitutional, political, and diplomatic themes; social, economic, and cultural factors are also discussed. Students may not hold credit for both HIST 2210 and HIST 2211.

Equiv To: HIST 2211

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2220 The Shaping of Modern Ireland, 1500-Present (E) 6 cr

The history of Ireland from 1500 to the end of the twentieth century focusing on changes in political, social, religious, economic and cultural relationships in shaping Modern Ireland.

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2230 History of the United States from 1607 (A) 6 cr

A survey of the development of the American people and their institutions from Colonial times to the present day. Students may not hold credit for HIST 2230 and any of: HIST 2750 or HIST 2760 or HIST 2761.

Mutually Exclusive: HIST 2041, HIST 2750, HIST 2760, HIST 2761

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2240 History of Antisemitism and the Holocaust (E) 6 cr

A survey of the role of the Jewish minority in Christian Europe over the past two thousand years. First term will focus on the evolution of anti-Jewish ideas and policies. Second term will be a study of the Nazi German Holocaust and, in particular, the role of antisemitism as a causal factor therein. Students may not hold credit for both HIST 2240 and the former JUD 2940.

Equiv To: JUD 2940

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2250 Social History of the Jews: Antiquity to Present (G) 6 cr

A social, economic, and political history of the Jewish experience from the beginnings of the Jewish diaspora to the present, covering Jewish communities in medieval and modern Europe, the Middle East, and North America.

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2282 Inventing Canada (C) 3 cr

This course examines the "invention" and "reinvention" of Canada both before and after Confederation. It examines the process of invention from a range of different perspectives: political, cultural, economic, and social.

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2286 Modern Canada (C) 3 cr

This course addresses the history of Canada since the First World War with attention to social, political, economic, diplomatic and cultural topics such as: interwar and postwar life, struggles for equality, international and internal conflict, immigration, new technologies, nationalism, aboriginal affairs, the arts and Canada's role in the world. Students may not hold credit for HIST 2286 and any of: the former HIST 2970, the former HIST 2971, or the former HIST 3050.

Mutually Exclusive: HIST 2970, HIST 2971, HIST 3050

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2288 History of Social Movements in Canada (C) 3 cr

This course examines how Canadian democracy has historically been contested, debated, and challenged. It will focus on the post-Confederation history of social movements, citizen engagement, and state responses to dissent. The course will discuss grassroots movements of workers, the poor, women, indigenous peoples, and racial and ethnic minorities. Students may not hold credit for both HIST 2288 and the former HIST 2284.

Equiv To: HIST 2284

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2350 Europe 1789-1870 (E) 3 cr

The History of Europe during the French Revolution and the conservative reaction to it, focusing on political ideologies and national and international politics. Students may not hold credit for both HIST 2350 and the former HIST 2370.

Mutually Exclusive: HIST 2370

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2360 Europe 1870 to the Present (E) 3 cr

The history of Europe since 1870, focusing on industrialisation, imperialism, political ideologies, and national and international politics. Students may not hold credit for HIST 2360 and either HIST 2361 or the former HIST 2370.

Mutually Exclusive: HIST 2370

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2390 Early Modern Europe, 1450-1789 (E) 6 cr

This course is a survey of early modern European history. It will include such major topics as the Renaissance, the printing revolution, the Reformation, European interactions with the rest of the world and imperialism, the military revolution, the witch trials and the Enlightenment.

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2400 History of Human Rights and Social Justice in the Modern World (M) 3 cr

Introductory course examining the emergence of the modern human rights era and social justice movements globally. Possible topics of study: human rights as global norm; non-Western conceptions of rights; workplace rights; indigenous rights; women's and gender rights.

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2420 The Medieval World (D) 6 cr

A survey of the society and culture of the Middle Ages, from 500-1500.

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2500 History of Africa (R) 6 cr

A broad survey of African history from pre-colonial times through colonialism to the post-colonial present.

Mutually Exclusive: HIST 2215

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2502 The Modern Middle East: A Critical Survey (R) 6 cr

Survey of the major issues in the history of the modern Middle East. Emphasis on understanding today's social and political context in the Middle East through the lens of history. Students may not hold credit for both HIST 2502 and HIST 2900 with the topic "The Middle East from the Rise of Islam to the Nation State."

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2600 Introduction to Ukraine (E) 3 cr

A history of Ukraine and its people, beginning with medieval Kievan Rus' and ending in the 18th century with Ukraine's absorption into Russian and Austrian empires.

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2610 Making of Modern Ukraine (E) 3 cr

A history of cultural, religious, economic and political forces, in the period 1800 to the present, that stimulated Ukraine's struggle for national independence from foreign domination.

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2654 History of the People's Republic of China, 1949-Present (B) 3 cr

This course examines the history of the People's Republic of China from its founding in 1949 through the present day. The course considers continuity and change between the Maoist and post-1976 periods as well as changing meanings of socialism and their impact on state power and social orders.

Mutually Exclusive: HIST 2089

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2660 History of the Soviet Union (E) 3 cr

Attention will be given in particular to the Russian Revolution, the nature of the Soviet political system, the major social and economic experiments, and the Soviet role in international politics. Students may not hold credit for HIST 2660 and any of: HIST 2661 or the former HIST 2490 or the former HIST 3471.

Equiv To: HIST 2661

Mutually Exclusive: HIST 2490, HIST 3471

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2670 History of Capitalism (M) 3 cr

A study of the emergence and evolution of the capitalist system stressing its effects on human culture from the 15th to the 20th Centuries. Students may not hold credit for both HIST 2670 and HIST 2671.

Equiv To: HIST 2671

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2680 A History of Socialism from the French Revolution to the Present (M) 3 cr

The history of socialism, both revolutionary and nonrevolutionary from the French Revolution to the present. The course covers the history of theory and political action, and of both European and non-European socialism.

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2730 Modern World History, 1914-1945: The 30 Years' Crisis (M) 3 cr

A global economic, social, political and cultural history of the twentieth century history from World War I to the eve of the Cold War, emphasizing the impact of war and economic crisis. Students may not hold credit for HIST 2730 and any of: HIST 2381 or the former HIST 2380.

Mutually Exclusive: HIST 2380, HIST 2381

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2732 Modern World History, 1945-1992: The Age of Three Worlds (M) 3 cr

A global, economic, social, political and cultural history of the twentieth century from the onset of the Cold War and decolonization to the collapse of the Soviet Union. Students may not hold credit for HIST 2732 and any of: HIST 2381 or the former HIST 2380 or the former HIST 2720.

Mutually Exclusive: HIST 2380, HIST 2381, HIST 2720

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2734 Modern World History, 1980-Present: New World Order? (M) 3 cr

A global, economic, social, political and cultural history of the twenty-first century, emphasizing the on-going development of the post Cold War international economic and political order. Students may not hold credit for HIST 2734 and any of: HIST 2381 or the former HIST 2380 or the former HIST 2720.

Mutually Exclusive: HIST 2380, HIST 2381, HIST 2720

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2750 History of the United States from 1607 to 1877 (A) 3 cr

A survey of the development of the American people and their institutions from Colonial times to Reconstruction. Students may not hold credit for HIST 2750 and any of: HIST 2230 or HIST 2041.

Equiv To: HIST 2041

Mutually Exclusive: HIST 2230

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2760 History of the United States from 1877 (A) 3 cr

A survey of the development of the American people from Reconstruction to the present. Students may not hold credit for HIST 2760 and any of: HIST 2761 or HIST 2230.

Equiv To: HIST 2761

Mutually Exclusive: HIST 2230

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2840 A History of Russia to 1917 (E) 3 cr

A survey of the historical development of Russia from its beginnings to the end of the Imperial period. Students may not hold credit for HIST 2840 and any of: HIST 2841 or the former HIST 2490 or the former HIST 3471.

Equiv To: HIST 2841

Mutually Exclusive: HIST 2490, HIST 3471

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2900 Topics in Social History (G) 6 cr

The content of this course will vary from year to year. A description of the course is available in advance at the History Department Office. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 2990 The History of Catholicism since 1540 (G) 3 cr

The history of Roman Catholicism from about 1540 to the present. Emphasis will be placed on Catholic responses to the modern world and to movements of theological and institutional reform. Students may not hold credit for both HIST 2990 and HIST 2991.

Equiv To: HIST 2991

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

HIST 3020 South America since 1945 (A) 3 cr

Major developments since 1945 on the continent of South America, with special emphasis on major political movements, Marxism and populism, the impact of industrialization, and South America's international role.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of history] or written consent of department head.

Attributes: Humanities

HIST 3052 Canada since the 1960s (C) 3 cr

Examines fundamental topics and themes in Canada's politics, economy and society from the 1960s to the present, including: Quebec nationalism after 1960; western regionalism and the reassertion of provincial rights since the 1970s; the women's movement and first nations' activism since the 1960s; constitutional reform, patriation and the Charter of Rights and Freedoms in the 1980s and 1990s; free trade and globalization since the 1980s.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of history] or written consent of department head.

Attributes: Humanities

HIST 3054 Canada and the United States (C) 3 cr

This course will undertake a detailed and comprehensive study of Canada's relationship with its neighbour from the eighteenth century to the present. Students may not hold credit for both HIST 3054 and the former HIST 3220.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of history] or written consent of department head.

Mutually Exclusive: HIST 3220

Attributes: Humanities

HIST 3062 German and German-Jewish History, 1618 to the Present (E) 6 cr

The history of Germany from 1618 to the present with a focus on the experience of German Jewry. Students may not hold credit for HIST 3062 and any of: the former HIST 3060 or the former HIST 3064 or the former HIST 3066.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of history] or written consent of department head.

Mutually Exclusive: HIST 3060, HIST 3064, HIST 3066

Attributes: Humanities

HIST 3080 Consumer Culture in the United States (A) 3 cr

This course will trace the development of American consumer society from the colonial era to the present. Topics addressed include the histories of: branding, mass distribution, department stores, advertising, mass-market magazines, consumer organizing, and consumer protest.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of history] or written consent of department head.

Attributes: Humanities

HIST 3090 Studies in Asian History (B) 3 cr

The content of this course will vary. It is designed to provide in-depth examination of specialized themes or areas in modern Asian history. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of history] or written consent of department head.

Attributes: Humanities

HIST 3110 Topics in History 1 (G) 3 cr

An opportunity for the intensive study of selected topics or themes in history. The content varies, but may include work in social and cultural history or on specialized subjects. Consult the History Department and the Registration Guide for particulars. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of history] or written consent of department head.

Mutually Exclusive: HIST 3504, HIST 3506

Attributes: Humanities

HIST 3138 History of Medieval Italy, 1300-1500 (D) 3 cr

An examination of the political, social, economic and cultural history of the Italian peninsula during the later Middle Ages. Students may not hold credit for both HIST 3138 and the former HIST 3140.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of history] or written consent of department head.

Mutually Exclusive: HIST 3140

Attributes: Humanities

HIST 3212 Global Sweatshops, Global Struggles (M) 3 cr

This course explores the past and present of sweated work in various industries in the Global North and South. We explore circumstances that support sweatshops, including off-shoring and the new international division of labour, migrant, child and female labour forces; global supply chains and the role of retailers and contractors. We also compare and evaluate strategies to eliminate sweatshops, include NGO activities, government regulations, consumer boycotts and the international labour, student and social justice movements. Also offered as Labour Studies LABR 3220. Students may not hold credit for both HIST 3212 and LABR 3220.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of History or written consent of the department head] or [a grade of "C" or better in three credit hours of 1000 level Labour Studies or written consent of the Labour Studies coordinator].

Equip To: LABR 3220

Attributes: Humanities

HIST 3214 Canada's Left: Rebellion and Repression (C) 3 cr

This course traces the emergence and evolution of Canada's left from the late nineteenth century to the present, with an emphasis on its two main streams, communism and social democracy. Topics include the relationship between popular, party, labour, and ethnic lefts; left parties and mainstream politics; the left in the evolution of human rights and in other public policies; the treatment within various lefts of gender, race, sexuality and ethnicity; popular movements; legal constraints and state repression. Also offered as LABR 3214. Not to be held with LABR 3214.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of History or written consent of department head] or [a grade of "C" or better in three credit hours of 1000 level Labour Studies or written consent of Labour Studies coordinator].

Equip To: LABR 3214

Attributes: Humanities

HIST 3250 Canada and the World, 1867 to the Present (C) 6 cr

A study of selected aspects of Canada's external relations since Confederation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of history] or written consent of department head.

Attributes: Humanities

HIST 3260 Commerce, Rights and Empire in European Thought, 500-2000 (M) 3 cr

This course will scrutinize the intersection of commerce and governance in Europe from c.500 to the present, paying particular attention to the way that debates about commerce, war and peace have generated notions of human rights over the past three centuries. We will explore whether and how debates about the proper way to govern trade played important roles not only in the creation of the modern categories of the "state" and the "economy," but also in understandings of the person as a rational actor of politics with substantial rights.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of history] or written consent of department head.

Attributes: Humanities

HIST 3272 The Métis Nation: The Modern Era 3 cr

A study of the dispossession on the Métis Nation after 1870, their resurgence in the 1950s and contemporary issues affecting Métis people in Canada. Also offered as NATV 3270. May not be held for credit with NATV 3270.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of Canadian History] or written consent of department head.

Equiv To: NATV 3270

Attributes: Humanities

HIST 3290 The United States from World War II to the War on Terror (A) 6 cr

This course offers a social, cultural, economic, and political exploration of the United States from World War II to the present day. It examines how actual military conflicts (World War II, Vietnam) and metaphoric wars (the War on Poverty, the War on Drugs) have shaped American Society.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of history] or written consent of department head.

Attributes: Humanities

HIST 3340 Studies in the History of Digital Culture (G) 3 cr

This course will examine the social-cultural meanings of computer and communications technologies. The course will predominantly treat the twentieth and twenty-first centuries, examining the evolution of technologies from the 1930s to today. Focused on the global west, the course will also consider the worldwide implications and reach of digital cultures and technologies. Students may not hold credit for both HIST 3340 and the former HIST 3120 with the topic "History of Digital Culture."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of history] or written consent of department head.

Attributes: Humanities

HIST 3430 Britain, 1714-1815 (E) 6 cr

An examination of the political structure, constitutional developments, colonial problems, and social and religious changes, the impact of the industrial revolution, and the reaction to the French Revolution in Britain during this period.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of history] or written consent of department head.

Attributes: Humanities

HIST 3442 Race, Ethnicity, Immigration, and Nation in Canadian History (C) 3 cr

This course examines topics in the history of immigration, colonization, race, and ethnicity in Canada. Beginning with the incursions of European immigrants onto First Nations territories, the course investigates attitudes and policies concerning immigration, the interaction of colonization and immigration, discourses of race and ethnicity, and race and ethnic relations within Canadian society. Students may not hold credit for both HIST 3442 and HIST 3780 with the topic "Race and Immigration in Canadian History."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of history] or written consent of department head.

Attributes: Humanities

HIST 3504 Apartheid South Africa and the Struggle for Human Rights (R) 3 cr

An examination of the apartheid system and its impact with special emphasis on local and international struggles against the system. Students may not hold credit for both HIST 3504 and HIST 3110 with the topics "Nelson Mandela from Prisoner to President" and "Apartheid and the Struggle for Democracy and Human Rights."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of history] or written consent of department head.

Mutually Exclusive: HIST 3110

Attributes: Humanities

HIST 3506 History of South Africa: From Jan van Riebeck to Nelson Mandela (R) 3 cr

This course explores the various intersections of statecraft, the economy, society and identity by looking at how resources, labour and political control played out in changing mechanisms of power, accommodation and resistance in South Africa during the colonial and apartheid eras. Students may not hold credit for both HIST 3506 and HIST 3110 with the topic "History of South Africa: from Jan van Riebeck to Nelson Mandela."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of history] or written consent of department head.

Mutually Exclusive: HIST 3110

Attributes: Humanities

HIST 3550 Popular Culture, Crime and Punishment in England, 1550-1850 (E) 3 cr

A history of crime and the institutions for its control and punishment in England from the Tudor period to the turn of the nineteenth century. We will trace the connections between crime and larger processes such as war, the economy and urbanization. Topics will include the changing patterns of crime, the role of gender in the application of law, the reform of the criminal law and the emergence of imprisonment.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of history] or written consent of department head.

Attributes: Humanities

HIST 3574 Disease and Society in the Modern World (M) 3 cr

This course will emphasize the relationship between disease and imperialism, capitalist development, and war; and examine social and state responses. The course will explore connections between the biological and the cultural aspects of infectious disease experiences. Students may not hold credit for both HIST 3574 and HIST 3110 with the topics "History of Disease" and/or "History of Health and Disease."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of history] or written consent of department head.

Attributes: Humanities

HIST 3576 History of Women, Gender and Sexuality in Canada (C) 3 cr

This course examines the history of women, gender, and sexuality in Canada's past. Specific topics may include women, gender and sexuality in Indigenous peoples, English and French colonization, nation-building, immigration and urbanization, politics, race, migration and racialization, violence, war, and protest. May not be held with HIST 3572.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of history] or written consent of department head.

Mutually Exclusive: HIST 3570, HIST 3572

Attributes: Humanities

HIST 3580 Topics in Recent World History (M) 3 cr

An in-depth treatment of selected topics in world history since 1945. The content of the course will vary from year to year, and a precise description is available in advance from the History department office. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of history] or written consent of department head.

Attributes: Humanities

HIST 3730 A History of Western Canada (C) 6 cr

A regional history emphasizing the development of a Western perspective upon the nation. Topics include the fur trade and Red River Settlement, transition to Canadian institutions, the wheat economy, immigration, labour and political movements, cultural changes.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of history] or written consent of department head.

Attributes: Humanities

HIST 3740 Topics in Latin American History (A) 3 cr

The contents of this course will be announced each year. Consult the History Department. It is designed to provide in-depth studies of specialized subjects and themes in modern Latin American history. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of history] or written consent of department head.

Attributes: Humanities

HIST 3750 Indigenous Peoples in Modern Latin America (A) 3 cr

A study of indigenous peoples in modern Latin America. Topics to be discussed will include the construction of racial hierarchies and exclusionary nation-states, indigenous engagements with leftist politics and revolution as well as struggles for political autonomy and cultural rights. Students may not hold credit for both HIST 3750 and HIST 3740 with the topic "Indigenous Peoples and the Nation-State in Modern Latin America."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of history] or written consent of department head.

Attributes: Humanities

HIST 3760 Problems in United States History (A) 3 cr

The subject matter of this course will be announced each year. Consult the History department. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different. Students may not hold credit for both HIST 3760 and HIST 3761.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [six credit hours of history] or written consent of department head.

Equip To: HIST 3761

Mutually Exclusive: HIST 3095

Attributes: Humanities

HIST 3780 Studies in Canadian History 1 (C) 3 cr

The content of this course will vary. It is designed to provide in-depth studies of specialized topics and themes in Canadian history. A precise description of the course is available in advance at the History department office. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different. Students may not hold credit for both HIST 3780 and HIST 3781.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of history] or written consent of department head.

Mutually Exclusive: HIST 3031

Attributes: Humanities

HIST 3800 History of Winnipeg from 1870-2000 (C) 3 cr

A study of the social history of the city of Winnipeg from its origins through to the Aboriginal Justice Inquiry (1991). Students may not hold credit for both HIST 3800 and the former HIST 3790 with the topic "History of Winnipeg."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of history] or written consent of department head.

Attributes: Humanities

HIST 3910 The Ukrainians in Canada (C) 3 cr

A history of the Ukrainian community in Canada. Topics to be discussed will include immigration, social and political organizations, churches, cultural assimilation, Ukrainian contributions to Canada, and relations with Ukraine.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of history] or written consent of department head.

Attributes: Humanities

HIST 3990 Seminar in Selected History Topics (G) 6 cr

This course will provide a systematic introduction to advanced research seminars, paying particular attention to the development of: oral skills and public presentation of ideas and research; focused historiographical discussion and analysis; and advanced historical research and writing skills. This course provides the skills and preparation for Year IV of the History Honours program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of History] and written consent of department head.

Attributes: Humanities

HIST 4000 Topics in History (G) 3 cr

The content of this course will vary. It is designed to provide students with specialized topics and themes in History. A description of the course is available in advance at the History Department Office. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

HIST 4010 Imperialism, Decolonization and Neo-Colonialism, 1700 to the Present (M) 6 cr

Studies in the theories and practise of imperialism from an historical perspective.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

HIST 4040 The Later Middle Ages (D) 6 cr

Selected topics in economics, social, cultural, art, and religious history of the later medieval world.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

HIST 4050 England in the Long Eighteenth Century (E) 6 cr

Selected themes in the history of England's long eighteenth century, from 1660-1840. Specific topics will vary from year to year, but will generally include the transformation of political culture, the consequences of war, the question of national identities, the emergence of commercial society and the changes in social structure.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of the department head.

Attributes: Humanities

HIST 4060 Gender History in Canada (C) 6 cr

Gender history explores the roles, images, and experiences of masculinity and femininity in the past. This course will familiarize students with the changing theoretical and historiographical terrain of gender history. It will draw on the international literature but focus on the history of gender in Canada, examining how historians analyse masculinity, femininity, the family, sexuality, politics, race/ethnicity, moral regulation, class, nation, and colonialism.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

HIST 4070 Issues in Modern Asian History 1: Selected Topics (B) 3 cr

The content of this course will vary. Emphasis will be on analysis of important issues and recent developments in the history and historiography of modern Asia. Consult the History Department for particulars. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

HIST 4100 Studies in United States History Since 1877 (A) 6 cr

An examination of United States history from the close of the Reconstruction era to the present. Students will gain exposure to the political, economic, social and/or cultural history of the United States. Course content may vary according to the instructor.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

HIST 4110 Selected Topics in British History (E) 6 cr

A seminar course whose content will vary. A description of the course is available in advance at the History department office. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head. .

Attributes: Humanities

HIST 4120 History of Aboriginal Rights (C) 6 cr

A study of Aboriginal rights from early contact to the present with a particular emphasis on treaties, the courts, and Aboriginal efforts to enforce specific forms of rights.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

HIST 4150 The Social History of the Latin American State (A) 6 cr

Readings on the history of Latin America since colonial times, focused on the dynamic relationship between different social groups and the state. Based on an interdisciplinary theoretical framework, this historical overview will cover different geographical areas, issues, and social factors.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

HIST 4280 Topics in the Cultural History of Canada (C) 6 cr

Studies in Canadian cultural, communications, and intellectual history. Topics will vary from year to year but a description is available in advance at the History department office.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

HIST 4310 Topics in Social History (G) 6 cr

The content of this course will vary. It is designed to provide students with specialized topics and themes in Social history. A description of the course is available in advance at the History department office. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

HIST 4320 Studies in Modern World History (M) 6 cr

Advanced historical study of topics in world and global history. Specific thematic, methodological, and theoretical approaches may vary by instructor.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

HIST 4340 Introduction to Archival Science (G) 6 cr

A thorough introduction to archival theory and practise with special emphasis on the history and development of archives and their place in modern society, terminology, collection development, appraisal arrangement, access, conservation, research aids and related archival principles.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

HIST 4400 Historical Method and Historiography (G) 6 cr

A study of historical methods and historiography.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

HIST 4500 Jewish and European History and Historiography (E) 6 cr

This seminar examines issues relating to Jewish history and historiography in the context of European history and historiography.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

HIST 4580 The Great Historians (G) 6 cr

The readings of a select number of modern and classical historians.

Preparation of a research paper on a particular historiographic problem.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

HIST 4660 History of Health and Disease (G) 6 cr

Introduction to some of the principal issues and approaches in the history of health and disease. It is not meant to be a strictly chronological survey. Topics and themes may include the development of nursing and medical professions; transformation of the hospital; mental health; alternative therapies; colonization, infectious disease and aboriginal health; and health and the state.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

HIST 4680 Social History of Health and Disease in Modern Canada (C) 6 cr

This course explores the history of health and health care in Canada, with a focus on the late 19th and 20th centuries. Topics will include colonization, infectious disease, and Aboriginal health; the evolution of medical and nursing professions; the emergence of the modern hospital; mental health, psychiatry and the asylum; cancer; alternative therapies; childbirth; health and old age; and health and the state. Analytical categories of gender, race, ethnicity, class, and sexuality will run throughout the material.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

HIST 4870 Contemporary Latin America (A) 6 cr

A study of selected historical developments in Latin America since the Cuban Revolution, with emphasis on most recent themes.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

HIST 4890 Canadian Social History (C) 6 cr

A study of the evolution of Canadian society with intensive analysis of topics such as the pioneer community, immigration, ethnic history, urban development.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

HIST 4960 Studies in European History (E) 6 cr

A seminar course whose content will vary from year to year. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

HIST 4990 Selected Topics 6 cr

A program of independent reading and/or research on selected topics, undertaken and arranged by a student in consultation with prospective instructor, upon the written approval of the department head. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Attributes: Humanities

Human Anat. and Cell Science (ANAT)

ANAT 1030 Human Anatomy 3 cr

To present the essentials of the organization and structure of the human body. Surface, functional and applied anatomy will be taken into consideration. For Pharmacy students only.

Human Ecology General (HMEC)

HMEC 4060 Special Studies in Human Ecology 3 cr

Human Nutritional Sciences (HNSC)

HNSC 1100 Nutrition for Healthy Living 3 cr

An introduction to nutrition and practical approaches for healthy diet and disease prevention. Not to be held with HNSC 1210.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: Enrollment in the Aboriginal Community Wellness Diploma program.

Equiv To: HNSC 1210

HNSC 1200 Food: Facts and Fallacies 3 cr

This course will present facts and fallacies about food from harvest to market forms. Emphasis will be placed on technological development, consumer concerns and factors affecting nutritional quality. Current issues related to food safety and nutritional trends will also be discussed.

Attributes: Recommended Intro Courses

HNSC 1210 Nutrition for Health and Changing Lifestyles 3 cr

This course addresses the relationship between nutrition and health. The focus is on healthy eating and on strategies for modifying food patterns within the context of lifestyle and culture. May not be held with HNSC 1100. Not available to students who hold credit for HNSC 2170.

Equiv To: HNSC 1100

Attributes: Recommended Intro Courses

HNSC 2000 Research Methods and Presentation 3 cr

(Lab required) An introduction to research designs, methods and techniques, as well as the practice of disseminating results, in the context of selected determinants of health. Applications in natural and social sciences will be presented. Skills related to presenting research findings will be taught. May not be held with HMEC 2000 or HMEC 2050.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: AGRI 2400 (D) or STAT 1000 (STAT 1001) (D) or STAT 1150 (D).

Mutually Exclusive: HMEC 2000, HMEC 2050

Attributes: Written English Requirement

HNSC 2130 Nutrition Through the Life Cycle 3 cr

Examination of nutritional needs throughout the life cycle, the nutritional concerns of different age groups and the development of healthy eating practices.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: HNSC 1210.

HNSC 2140 Basic Principles of Human Nutrition 3 cr

The scientific principles underlying nutrient function and dietary requirements.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (CHEM/MBIO 2700 (CHEM/MBIO 2701) or CHEM/MBIO 2730, or the former CHEM/MBIO 2770 or the former CHEM/MBIO 2360 (the former CHEM/MBIO 2361)) and [(HNSC 1200 and HNSC 1210) or FOOD 2500]. Pre- or corequisites: CHEM 2720 (CHEM 2721) or CHEM 2740 or the former CHEM/MBIO 2770 or the former CHEM/MBIO 2360 (the former CHEM/MBIO 2361).

HNSC 2150 Composition, Functional and Nutritional Properties of Foods 3 cr

Food composition, food market forms, food composition data for nutritional assessment and labelling.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: HNSC 1200 and HNSC 1210 and CHEM 1100 (CHEM 1101) (or the former CHEM 1300 or the former CHEM 1301).

HNSC 2160 Principles of Food Preparation and Preservation 3 cr

(Lab required) Food preparation, preservation, handling and storage; quality and safety implications; scientific basis for culinary practice; use and application of equipment.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [HNSC 1200 or HNSC 1210] and CHEM 1100 (CHEM 1101), (or the former CHEM 1300 or CHEM 1301).

HNSC 2170 Nutrition for Health Professionals 2 cr

An examination of the fundamentals of nutrition and the relationship between nutrition and health within the context of the health professions. The focus is on nutritional strategies used to promote health and in the treatment of common health conditions. May not be held with HYG 2370, or the former ORLB 2150, ORLB 2330, or the former PHRM 2420. This course is restricted to students registered in Nursing or Pharmacy.

Mutually Exclusive: HNSC 1210, HYG 2370, ORLB 2150, ORLB 2330, PHRM 2420

HNSC 3220 Food and Nutrition Literacy Education 3 cr

Students will develop a critical understanding of the influences on food and nutrition behaviours and how to impact these positively through evidence-informed food and nutrition education strategies. May not be held with the former HNSC 3320.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [PSYC 1200 or SOC 1000 (or the former SOC 1200)] and HNSC 2130 and HNSC 2140.

Equiv To: HNSC 3320

HNSC 3260 Food Quality Evaluation 3 cr

(Lab required) Discussion of quality concepts and quality assurance principles for food applications, and of methods for evaluation of sensory, chemical and physical aspects of quality. The course will include food industry visits and demonstrations of food testing techniques.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: A minimum grade of D in AGRI 2400 or STAT 2000 or STAT 2001 and a minimum 60 credit hours completed (or a minimum 30 credit hours completed from a second degree program).

HNSC 3300 Vitamins and Minerals in Human Health 3 cr

The physiological importance of vitamins and minerals in the human body, including factors affecting dietary requirements, metabolism and roles in disease progression and prevention.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [(CHEM/MBIO 2750 and CHEM 2740 (or the former CHEM/MBIO 2780)) or (CHEM/MBIO 2710 (CHEM/MBIO 2711) and CHEM 2720 (CHEM 2721) (or the former CHEM/MBIO 2370 (the former CHEM 2371)))] and HNSC 2140 and [BIOL 1412 (BIOL 1413) or BIOL 2420 (BIOL 2421)].

HNSC 3310 Macronutrients and Human Health 3 cr

Macronutrient functions and metabolic roles in human health, including the prevention and pathogenesis of various diseases.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [CHEM/MBIO 2750 and CHEM 2740 (or the former CHEM/MBIO 2780) or CHEM/MBIO 2710 and CHEM 2720 (or the former CHEM/MBIO 2370 (CHEM 2371))] and HNSC 2140 and [BIOL 1412 (BIOL 1413) or BIOL 2420 (BIOL 2421)].

HNSC 3330 Ingredient Technology for Designed Foods 3 cr

Chemical and functional properties of ingredients and their application in designed foods: low fat, low calorie, high fibre, high energy and innovative food products.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (CHEM/MBIO 2700 (CHEM/MBIO 2701) or CHEM/MBIO 2730, or the former CHEM/MBIO 2770 or the former CHEM/MBIO 2360 (the former CHEM/MBIO 2361)) and [HNSC 2150 or FOOD 2500]. Pre- or corequisites: CHEM 2720 (CHEM 2721) or CHEM 2740 or the former CHEM/MBIO 2770 or the former CHEM/MBIO 2360 (the former CHEM/MBIO 2361).

HNSC 3342 Management for Food and Nutrition Professionals 3 cr

Management strategies and cost control principles as applied to food and nutrition organizations. Topics include leadership, organizational design, teamwork, human resource management, performance improvement, cost management, and the interpretation of financial statements. May not be held with HNSC 3340.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: A minimum grade of D in [HNSC 2150 or HNSC 2160] and [GMGT 1010 or ABIZ 1000].

Equiv To: HNSC 3340

HNSC 3350 Culture and Food Patterns 3 cr

(Lab required) A study of the cultural, sociological and psychological aspects of food patterns and behaviour.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (PSYC 1200 or SOC 1000 or the former SOC 1200) and (HNSC 1200 or HNSC 1210).

HNSC 3400 Nutrition Assessment and Counselling 3 cr

(Lab required) Introduction to the fundamentals of professional dietetic practice, nutrition assessment, interviewing and counselling as part of the nutrition care process. For students registered in the Human Nutritional Sciences degree.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or co-requisite: HNSC 3310 (D).

HNSC 3870 Food Geographies 3 cr

This course provides a critical examination of the geographies of food at a variety of scales, from the body to the global. The course focuses on themes in three interconnected areas: 1) food production and the global food system from farm to plate including agribusiness and alternative food production and distribution models; 2) food consumption habits and beliefs and foodways as geographically contingent material culture; and 3) food (in) security and its relationship to health and wellbeing. This course is cross-listed with GEOG 3870.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: A grade of "C" or better in GEOG 1280, GEOG 1281, GEOG 1200 or HNSC 1200, or permission of the department head.

Equiv To: GEOG 3870

HNSC 4100 Current Issues in Food and Human Nutrition 3 cr

Integration of current issues in food and human nutritional sciences. Emphasis on ethics, equity, economics, and professional approaches to challenges in food and human nutritional sciences using case studies, team work, and scientific communication to specialists and the public. This is a capstone course restricted to students in year 4 of the B.Sc. Human Nutritional Sciences degree programs. May not be held with FOOD 4100 or AGRI 4100 or the former HNSC 4160.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: HNSC 2000 (or the former HMEC 2000) and Faculty approval.

Equiv To: HNSC 4160

Mutually Exclusive: AGRI 4100, FOOD 4100

HNSC 4120 Senior Thesis 3 cr

The preparation and presentation of a report based on a survey of the literature or on a laboratory investigation of an approved topic. Application required. Enrolment limited. Not to be held with HNSC 4122 or HNSC 4600.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: Students must be registered in their final year of Human Nutritional Sciences program or the Minor in Human Nutrition and Metabolism.

Mutually Exclusive: HNSC 4122, HNSC 4600

HNSC 4122 Research Project in Human Nutritional Sciences 6 cr

A research project in any aspect of human nutritional sciences, chosen in consultation with the supervising faculty member. A written report and a poster or oral presentation required at the end of the project. Students must be registered in their final year of Human Nutritional Sciences program. Application required. Enrolment limited. May not be held with HNSC 4120 or HNSC 4600.

Mutually Exclusive: HNSC 4120, HNSC 4600

HNSC 4140 Quantity Food Production and Management 3 cr

(Lab Required) Menu planning. Food costing. Experience in standard methods of institutional food production and service.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: HNSC 3342 (D) and a valid Food Handlers Certificate.

HNSC 4260 Selected Topics in Human Nutrition 3 cr

Recent developments in human nutrition research.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

HNSC 4270 Sensory Evaluation of Food 3 cr

(Lab Required) Sensory perception, principles of the sensory analysis of food, requirements for sensory testing, test methods, selection and training of panelists, statistical analysis and interpretation of data.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: A minimum grade of D in AGRI 2400 or STAT 2000 or STAT 2001 and a minimum 60 credit hours completed (or a minimum 30 credit hours completed from a second degree program).

HNSC 4280 Food Product Development 3 cr

This course focuses on food industry product development procedures. Emphasis will be on application of basic knowledge of foods and food processing in designing a new product. May not be held with FOOD 4510.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MKT 2210 (D) and [AGRI 2400 or STAT 2000 or STAT 2001] (D) and [FOOD 3010 or HNSC 3330] (D).

Equiv To: FOOD 4510

HNSC 4290 Food, Nutrition and Health Policies 3 cr

Principles and applications of policies, regulations and legislation in the areas of food and health that address nutrition and health problems of populations.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: HNSC 2000 (or the former HMEC 2000 or the former HMEC 2050) (D) and HNSC 2130 (D).

HNSC 4300 Community Nutrition Intervention 3 cr

Principles of planning and evaluating nutrition related interventions. Examples of community needs assessments, program planning strategies and types of program evaluation will be examined.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: HNSC 3220 (or the former HNSC 3320).

HNSC 4310 Nutrition and the Elderly 3 cr

The role of nutrition in health promotion and disease prevention during aging.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: A minimum 60 credit hours completed (or a minimum 30 credit hours completed from a second degree program).

HNSC 4320 Nutrition Management of Disease States 3 cr

(Lab Required) Nutritional assessment and dietary management of acute and chronic disease states.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre or corequisites: HNSC 3220 (or the former HNSC 3320)(D) and HNSC 3300(D) and HNSC 3310 (D).

HNSC 4340 Maternal and Child Nutrition 3 cr

The role of nutrition in normal human development from conception through childhood.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: A minimum 60 credit hours completed (or a minimum 30 credit hours completed from a second degree program).

HNSC 4350 Nutrition in Exercise and Sport 3 cr

The application of nutritional regimens to meet exercise requirements and improve athletic performance. Current practices and recommendations for different types of sports will be examined.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: A minimum 60 credit hours and a C in HNSC 1210 and [BIOL 1412 or KPER 3470].

HNSC 4362 Nutrition Option Practicum 6 cr

Practical applications of nutrition principles in a variety of nutrition-related field placements in the community. This course is open to students in 3rd or 4th year of the Human Nutritional Sciences degree program. Application to the department is required. Limited enrolment.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: HNSC 2000 (or the former HMEC 2000) (C). Pre or co-requisite: HNSC 3220 (or the former HNSC 3320) (C).

HNSC 4364 Foods Industry Option Practicum 6 cr

This course involves supervised application of food quality, safety, and management principles in a commercial or government setting. Requirements include 280 hours of work related to the field experience. Application to Department is required. Limited enrolment. This practicum course is to be completed in the final year of the Food Industry Option.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: HNSC 3260 (D) and HNSC 3330 (D) and FOOD 4150 (D) and [GMGT 1010 or ABIZ 1000] (D).

HNSC 4500 Clinical Nutrition I 3 cr

An introduction to the principles of patient care in the hospital settings. Students will gain theoretical and practical knowledge to assess and apply recommendations and guidelines to specific clinical disease states. May not be held with HNSC 4320.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre or corequisites: HNSC 3220 (D) (or the former HNSC 3320), HNSC 3300 (D), HNSC 3310 (D) and HNSC 3400 (D).

Equiv To: HNSC 4320

HNSC 4540 Functional Foods and Nutraceuticals 3 cr

This course will examine the bioactive components of functional foods and nutraceuticals, their sources, chemistry, process technology, efficacy, safety and regulation. Also offered as FOOD 4540. May not be held with FOOD 4540.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: CHEM/MBIO 2730 and CHEM 2740 (or the former CHEM/MBIO 2770) or CHEM/MBIO 2700 (CHEM/MBIO 2701) and CHEM 2720 (CHEM 2721) (or the former CHEM/MBIO 2360 or the former CHEM/MBIO 2361).

Equiv To: FOOD 4540

HNSC 4550 Clinical Nutrition II 3 cr

Practical application of patient care: Nutritional assessment and dietary management of acute and chronic disease states. In this interactive course, students will build upon the basic principles covered in the HNSC 4500 (Clinical Nutrition I) integrating the theory with practical practice. May not be held with HNSC 4320.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Co-requisite: HNSC 4500.

Equiv To: HNSC 4320

HNSC 4600 Practice-based Research in Human Nutritional Sciences 3 cr

A practice-based research project for students pre-selected into the Manitoba Partnership Dietetic Education Program. Enrolment limited to pre-selected students; to be taken in the Winter term in the same year that their Dietetic Internship starts. Departmental approval required. May not be held with HNSC 4120 or HNSC 4122.

Mutually Exclusive: HNSC 4120, HNSC 4122

Human Res. Mgmt/Indus Relat. (HRIR)

HRIR 2440 Human Resource Management 3 cr

Introduction to principles and procedures in the management of human resources. Topics include diversity management, conflict resolution, employment, law, planning, job analysis, performance appraisal, staffing, compensation, union-management relations, and current issues. May not be held with HRIR 2441 or ABIZ 2620 or AGRI 3030 when titled "Agricultural Human Resource Management" or the former DAGR 0530.

Equiv To: HRIR 2441

Mutually Exclusive: ABIZ 2620, AGRI 3030, DAGR 0530

HRIR 3430 Selected Topics in Industrial Relations 3 cr

Analysis of specific topics or issues in the employment relationships in an industrial society.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [HRIR 2440 (D)] and [HRIR 3450 (D)] or consent of instructor.

HRIR 3450 Labour and Employment Relations 3 cr

This course is to enhance knowledge and understanding of labour and employment relations in Canada and beyond. It addresses various issues and debates about these relations; their history, structure, and functioning; management employment relations practices; the role of labour unions; collective bargaining; and contemporary developments and alternatives.

HRIR 4410 Staffing and Management Development 3 cr

A review of: employment planning; recruitment and selection; internal placement; out placement; performance appraisal; career development. Training needs analysis, methods and evaluation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: HRIR 2440 (D).

Equiv To: HRIR 4411

HRIR 4420 Compensation 3 cr

A review of the major concepts and design of compensation systems including: strategy, internal equity, external competitiveness, rewarding individual contributions, performance incentives, employee benefits, government regulations, union role in compensation; budgets and administration.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: HRIR 2440 (D).

Equiv To: HRIR 4421

HRIR 4480 Collective Bargaining and Administration 3 cr

Focuses on the legal framework, processes and issues pertaining to the negotiation and administration of collective agreements, building on the foundation provided by HRIR 3450. Students will learn practical strategies for collective bargaining by participating in mock collective bargaining and how to conduct in-depth analysis of grievance arbitration cases. May not be held with HRIR 4481.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: HRIR 3450 (D) or HRIR 3451 (D).

Equiv To: HRIR 4481

HRIR 4520 Comparative Industrial Relations and Human Resource Management 3 cr

To provide an international perspective on industrial relations (IR) and human resource management (HRM) through analysis and comparison of IR systems and HRM practice across selected countries and of current developments therein. Also covers theories and issues relevant to these topics. Students are encouraged, but not required, to complete HRIR 3450 (D) prior to taking this course.

Equiv To: HRIR 4521

Hungarian (HUNG)

HUNG 1000 Introduction to Hungarian 1 3 cr

(Lab required) The course is intended for students with little or no previous knowledge of Hungarian. Students are introduced to basic grammar and vocabulary as well as aspects of Hungarian culture. Emphasis is placed on communication skills. Satisfactory completion of this course enables students to proceed to HUNG 1002 Introduction to Hungarian 2.

Attributes: Humanities, Recommended Intro Courses

HUNG 1002 Introduction to Hungarian 2 3 cr

(Lab required.) The course is intended for students with some elementary knowledge of Hungarian. Students will expand their understanding of basic grammar and vocabulary, as well as aspects of Hungarian culture. Emphasis is placed on communication skills.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in HUNG 1000] or written consent of department head.

Attributes: Humanities, Recommended Intro Courses

HUNG 2100 Hungarian Culture and Language 6 cr

Taught in English. This course is an immersive study experience in Budapest and Szeged in Hungary. The program features an exploration of Hungarian culture, life and society in excursions, classes, and guest lectures, and some practical language training of introductory conversational Hungarian.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of Department Head.

Attributes: Humanities

Icelandic (ICEL)

ICEL 1200 Introduction to Icelandic 6 cr

(Lab required) Language of instruction: English. Intended for students with little or no previous knowledge of Icelandic. Emphasis will be placed on functional spoken and written comprehension and communication, with some basic Icelandic grammar. Pronunciation and conversation skills are developed in weekly language laboratory sessions. May not be held with the former ICEL 1240. Not open to students with native oral fluency.

Equiv To: ICEL 1240

Attributes: Humanities, Recommended Intro Courses

ICEL 1210 Conversational Icelandic 3 cr

This course is offered as part of the Summer Session course offerings. Intensive study of conversational Icelandic during a field trip to Iceland. Students will be trained in groups in a classroom setting before they try their language skills in authentic situations. The course is designed for beginners as well as intermediate students. Regular attendance is obligatory. Taught in English. Open to all students.

Attributes: Humanities, Recommended Intro Courses

ICEL 1300 Introduction to Swedish 3 cr

The course is intended for beginners. Emphasis will be placed on conversation skills and reading comprehension, and students will also learn the basic grammatical structures of the language and how to write short compositions. Pronunciation is developed in weekly language laboratory exercises. Open to all students.

Attributes: Humanities, Recommended Intro Courses

ICEL 1400 Introduction to Contemporary Culture in Iceland 3 cr

The aim of this course is to study and explore a selection of literature, music, and visual art, and cultural critique. Students will also get an opportunity to study and explore both global and local Icelandic cultural characteristics and the fusion of cultural influences in contemporary Iceland. Open to all students. Taught in English. Students may not hold credit for both ICEL 1400 and the former ICEL 1220.

Mutually Exclusive: ICEL 1220

Attributes: Humanities, Recommended Intro Courses

ICEL 1410 Introduction to Culture in Medieval Iceland 3 cr

The aim of this course is to study a selection of sagas, history fragments and mythological sources. Students will also get an opportunity to explore the way in which world-renowned modern poets and writers have been drawn to, and seriously seduced by, the culture of medieval Iceland. Open to all students. Taught in English. Students may not hold credit for both ICEL 1410 and the former ICEL 1220.

Mutually Exclusive: ICEL 1220

Attributes: Humanities, Recommended Intro Courses

ICEL 2200 Intermediate Icelandic 1 6 cr

Languages of instruction: English and Icelandic. Emphasis on expanding the vocabulary and knowledge of more complex grammatical structures. Students develop their spoken and written comprehension and communication through conversational practice, oral presentations, watching films and television shows, studying fictional as well as non-fictional texts and writing short papers in Icelandic. May not be held with the former ICEL 2240.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ICEL 1200 or the former ICEL 1240, or written consent of instructor.

Equiv To: ICEL 2240

Attributes: Humanities

ICEL 2220 Modern Icelandic Literature in Translation 3 cr

A study of modern Icelandic literature through an analysis of a selection of works by Icelandic writers in English translation from around 1900 until the present.

Attributes: Humanities

ICEL 2230 Contemporary Icelandic-Canadian Literature 3 cr

An examination of contemporary Icelandic-Canadian literature in English, its individual characteristics and place within the broader field of Canadian literature.

Attributes: Humanities

ICEL 2310 An Introduction to Old Icelandic Language and Literature 6 cr

Text: Sigrid Valfell and James E. Cathey. *Old Icelandic: An Introductory Course* (Oxford, 1981).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

ICEL 2400 Icelandic Folktales in a European Context 3 cr

Reading of Icelandic legends and fairy tales and how they compare with stories from Northern and Central Europe. For the analysis, students will be introduced to central concepts and approaches to the study of folktales. Open to all students. Taught in English. Students may not hold credit for both ICEL 2400 and the former ICEL 2250 (012.225).

Equiv To: ICEL 2250

Attributes: Humanities

ICEL 2410 Special Topics 3 cr

Topics dealing with Icelandic literature, culture or language. Course content will vary from year to year depending on interest and needs of students and staff. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Attributes: Humanities

ICEL 2420 Poetics of Immigration in Icelandic-Canadian Literature 3 cr

A study of Icelandic-Canadian literature, focusing on the poetics of immigration in the writings of Icelandic settlers and the first generation of Icelandic-Canadians. As a special assignment, students will study the voice of the poet, philosopher, and social prophet Stephan G. Stephansson, and the universal references of his poetics. Taught in English. Open to all students. Students may not hold credit for both ICEL 2420 and the former ICEL 2300.

Mutually Exclusive: ICEL 2300

Attributes: Humanities

ICEL 2430 Translation of Cultures in Icelandic-Canadian Literature 3 cr

A study of Icelandic-Canadian literature, focusing on the translation of cultures in the writings of modern and contemporary Icelandic-Canadian poets and writers. Students will read a selection of prose and poetry.

They will also study ideas on the indispensable role of the translation of cultures in the context of world literature. Open to all students. Taught in English. Students may not hold credit for both ICEL 2430 and the former ICEL 2300.

Mutually Exclusive: ICEL 2300

Attributes: Humanities

ICEL 3200 Intermediate Icelandic 2 6 cr

Language of instruction: Icelandic. Emphasis on advanced syntax and grammar, word formation, and the use of idiomatic phrases. Reading of selected fictional and non-fictional texts, spoken and written discussion, translation exercises, oral presentations and written composition. May not be held with the former ICEL 3230.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ICEL 2200 or the former ICEL 2240, or written consent of instructor. Pre- or corequisite: LING 1000 or LING 1440 or the former LING 1200 or the former ENGL 2470 or written consent of instructor.

Equiv To: ICEL 3230

Attributes: Humanities

ICEL 3210 Romanticism in Icelandic Literature 3 cr

The aim of this course is to study the concept of Romanticism in Icelandic literature and the key players in the Romantic movement in nineteenth century Iceland. A selection of poems, prose texts, and fragments will be read carefully, in particular the writings of Jónas Hallgrímsson. Taught in English.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in a minimum of 30 credit hours of university level coursework] or written consent of department head.

Attributes: Humanities

ICEL 3320 Old Norse Mythology 3 cr

The myths and cults of the pre-Christian gods in the Nordic countries studied on the basis of the original sources (in English translation) and related to pre-Christian Nordic society. Open to all students; taught in English.

Attributes: Humanities

ICEL 3330 Icelandic Sagas in Translation 3 cr

The Medieval Icelandic sagas tell stories of outlaws, blood feuds and epic Viking battles. They also contain evidence of Norse pagan practices, the arrival of Christianity in Northern Europe, as well as the earliest documented contact between Europeans and North America's Indigenous peoples. In this course students will explore several of the Icelandic sagas in English translation through a variety of literary, historical and cultural contexts. Open to all students; taught in English. ICEL 3320 is recommended, but not required.

Attributes: Humanities

ICEL 3400 Old Icelandic Literature 6 cr

A study of selected Icelandic sagas and Eddic poems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

ICEL 4420 History of the Icelandic Language 3 cr

A study of the development of the Icelandic language from the twelfth century to the present day.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

ICEL 4440 The Icelanders in Canada 3 cr

A history of the emigration of Icelanders to North America and the Icelandic communities in Canada, their social and political organizations, churches, and cultural assimilation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

ICEL 4460 Special Topics 3 cr

A seminar course whose content will vary from year to year. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head.

Attributes: Humanities

Immunology

IMMU 2000 Fundamentals in Immunology 3 cr

This course will provide an overview of the basic processes of immune cells and general immunology. Throughout the course the emphasis is upon the human immune system and how its successes, failures, and compromises affect the lives of each and everyone one of us.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: HEAL 1502 or BIOL 1030.

Intensive English Program (IEP)

IEP 1500 English - Beginner II 0 cr

IEP 2000 English - Intermediate I 0 cr

IEP 2500 English - Intermediate II 0 cr

IEP 3000 English - Advanced I 0 cr

IEP 3500 English - Advanced II 0 cr

IEP 4000 English - Advanced III 0 cr

Interdisciplinary Management (IDM)

IDM 2982 Co-op Work Term 1 1 cr

Work assignment in business, industry, or government for students registered in the Asper School of Business co-operative option. For Asper students only. May not be held with the former IDM 2980.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Written permission from the Asper School of Business Co-operative Education Office.

Mutually Exclusive: IDM 2980, IDM 2983

IDM 3982 Co-op Work Term 2 1 cr

Work assignment in business, industry, or government for students registered in the Asper School of Business co-operative option. For Asper students only. May not be held with the former IDM 3980.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: IDM 2982 with a minimum grade of C and written permission from the Asper School of Business Cooperative Education Office.

Mutually Exclusive: IDM 3980, IDM 3983

IDM 4050 Readings in Management 3 cr

Supervised readings in one of the areas of Management. Students are limited to a maximum of six hours of readings and research courses.

Mutually Exclusive: ACT 4010

IDM 4070 Management Research 1 3 cr

Individually supervised preparation of a detailed research proposal for an advanced study in one of the areas of Management. Students are limited to a maximum of six hours of readings and research courses.

IDM 4080 Management Research 2 3 cr

Individually supervised research and preparation of a paper in one of the areas of Management based on the proposal developed in IDM 4070. Students are limited to a maximum of six hours of readings and research courses.

IDM 4982 Co-op Work Term 3 1 cr

Work assignment in business, industry, or government for students registered in the Asper School of Business co-operative option. For Asper students only. Not to be held with the former IDM 4980.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: IDM 3982 with a minimum grade of C and written permission from the Asper School of Business Co-operative Education Office.

Mutually Exclusive: IDM 4980, IDM 4983

International Business (INTB)

INTB 2200 International Management 3 cr

Analysis of the practice of management in an international setting. Examines the cultural, political, and economic environments which influence managerial decision-making in an international context.

Italian (ITLN)

ITLN 1080 Introductory Italian 6 cr

An introduction to the Italian language for students with little or no knowledge of Italian. The course emphasizes the learning and practise of vocabulary, grammar and the development of both written and spoken Italian. A language laboratory will help students practise and improve their oral Italian. Not open to students who have previously obtained credit in ITLN 2080.

Attributes: Humanities, Recommended Intro Courses

ITLN 2080 Intermediate Italian 6 cr

This course consists of a thorough review of grammatical structures for students with previous knowledge of Italian. Readings of a number of twentieth-century Italian authors are used as a basis for discussion. Language study and practise is emphasized in the classroom and in the language laboratory.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ITLN 1080] or written consent of department head.

Attributes: Humanities

ITLN 2090 Speaking in Italian 3 cr

Offers extensive practice in idiomatic spoken language. Grammar review with a focus on oral fluency. Conversation will be based on social, political, and cultural aspects of Italian life.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ITLN 1080] or written consent of department head.

Attributes: Humanities

ITLN 2100 Writing in Italian 3 cr

This course strengthens writing skills in Italian, with special emphasis on the grammatical structure of the Italian language for effective communication.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ITLN 1080] or written consent of department head.

Attributes: Humanities

ITLN 2200 Let's Get Graphic: Italian through Graphic Novels 3 cr

In this language course you will learn the four basic skills (speaking, listening, reading and writing) in the context of popular fumetti (graphic novels) in Italian culture. By the end of the course you will be able to describe people, events and situations, in the present, past and future, and you will have acquired the necessary vocabulary to communicate about everyday situations.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ITLN 1080] or written consent of department head.

Attributes: Humanities

ITLN 2300 Special Studies in Italian 3 cr

The content of this course will vary from year to year depending on the needs and interests of instructors and students. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ITLN 1080 or written consent of department head.

Attributes: Humanities

ITLN 3050 Italian Through Literature 3 cr

Through the study of selected works and authors, students will gain a better understanding of Italy's history and culture.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ITLN 2080] or [a grade of "C" or better in each of ITLN 2090 and ITLN 2100] or written consent of department head.

Attributes: Humanities

ITLN 3060 Italian Through Film 3 cr

The aim of this course is to better understand modern and contemporary Italy, by viewing, meditating upon and discussing those films produced in Italy which most reflect the country, its language and culture, and its literature.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ITLN 2080] or [a grade of "C" or better in each of ITLN 2090 and ITLN 2100] or written consent of department head.

Attributes: Humanities

ITLN 3760 Italian Translation Workshop 3 cr

A practical course on translating many types of text from and into Italian, as well as terminology development. Special emphasis on the use of the Internet and other computer-mediated resources.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ITLN 2080] or [a grade of "C" or better in each of ITLN 2090 and ITLN 2100] or written consent of department head.

Attributes: Humanities

ITLN 3770 Modern Italian Usage 3 cr

Polish your Italian for business and professional work situations from client relations to terminology, including e-mail and Internet. Course will be customized according to students' professional interests.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in ITLN 2080] or [a grade of "C" or better in each of ITLN 2090 and ITLN 2100] or written consent of department head.

Attributes: Humanities

ITLN 3780 A Voyage through the Italian Mind: An Italian Culture Course 3 cr

This course aims to portray what it means to be Italian from an Italian's point of view. You will discover the exciting richness of the people, trends and passions, food, and pop culture of Italy, while also exploring the extraordinary contribution that Italy has made to the world. The course will be taught in English and has no prerequisite.

Attributes: Humanities

Judaic Civilization (JUD)

JUD 2340 Contemporary Israel 3 cr

A study of the history and development of modern Israel. Topics discussed include the economic, social, cultural and religious structures of the contemporary Jewish state. Attention will also be focused on the status of Israeli minorities such as Moslems and Christians.

Attributes: Humanities

JUD 2370 Jewish-Gentile Relations 3 cr

A socio-historical study of the cultural, religious, and intellectual interaction between Jewish and non-Jewish cultures, e.g., the relationship of Judaism with other cultures of the ancient Near East and Hellenism, with medieval and modern Christendom and Islam, and with modern/contemporary secularism.

Attributes: Humanities

JUD 2650 Field Studies in Biblical Lands 6 cr

Offered as a Travel/Study course, the course consists of an on-campus orientation session followed by a period of travel while visiting and studying at some major sites and points of interest.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

Attributes: Humanities

JUD 3010 Topics in Jewish Studies 3 cr

An opportunity for the study of selected topics or themes in Jewish Studies. Consult the Judaic Studies program office or website for details. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Attributes: Humanities

Kinesio, Phys Ed, & Recreation (KPER)

KPER 1200 Physical Activity, Health and Wellness 3 cr

An examination of the importance of physical activity for health and wellness. Provides an overview of the present and recommended levels of physical activity, the factors influencing participation in physical activity, Indigenous peoples' approaches to health, the role of recreation in health and wellness, and individual, organizational and national interventions for increasing physical activity. May not be held with the former PHED 1200 or the former PERS 1200.

Equiv To: PERS 1200, PHED 1200

Attributes: Recommended Intro Courses

KPER 1400 Concepts of Recreation and Leisure 3 cr

The nature and scope of recreation and leisure, the past influences and implications for the future. An overview of the types and roles of various components of the leisure service delivery system. May not be held with the former PERS 1400 or the former REC 1400.

Equiv To: PERS 1400, REC 1400

Attributes: Recommended Intro Courses

KPER 1500 Foundations of Physical Education and Kinesiology 3 cr

An introduction to physical education and kinesiology as a profession and a discipline, including an overview of sub-disciplines, resources, and careers; a personal physical assessment; and principles for achieving physical fitness. This course includes a field trip component. May not be held with the former PERS 1500 or the former PHED 1500.

Equiv To: PERS 1500, PHED 1500

Attributes: Recommended Intro Courses

KPER 2000 Special Topics (Introductory) 3 cr

An introductory examination of selected topics in the fields of kinesiology, physical education and recreation. Topics will vary depending on faculty expertise and student need. This course can be completed as a topics course multiple times under different titles.

KPER 2120 Academic Skills in Kinesiology and Recreation Management 3 cr

This course provides interdisciplinary and multidisciplinary academic preparation and communication skills for students pursuing undergraduate degrees from the Faculty of Kinesiology and Recreation Management.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: KPER 1400 (or the former PERS 1400 or the former REC 1400), or KPER 1500 (or the former PERS 1500 or the former PHED 1500).

Attributes: Written English Requirement

KPER 2170 History of Physical Activity and Leisure 3 cr

This course examines the post-Confederation history of Canadian sport, physical education, physical fitness and recreation, as well as the growth of public programs. Using the concepts of social class, gender, race, and ethnicity, the focus is on the ways in which Canadian physical activity, recreation, and sport have been organized since Confederation and the processes by which people have fashioned them, within the dynamic of economic, social, and political struggles and changes. May not be held with the former PERS 3170 or the former KIN 3170, or the former PHED 3170, or the former PHED 3070.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [KPER 1200 (C) (or the former PERS 1200, or the former PHED 1200)] and KPER 2120 (C).

Equiv To: KIN 3170, PERS 3170, PHED 3070, PHED 3170

KPER 2200 Planning Principles 3 cr

While contexts in practice may vary, planning is an essential competency for all professional in recreation, kinesiology, and physical education.

This course emphasizes principles and processes in effective planning, implementation, and evaluation. May not be held with the former PERS 2200 or the former PHED 3080 or the former REC 2530.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [KPER 1200 (or the former PERS 1200 or the former PHED 1200)] or [KPER 1400 (or the former PERS 1400 or the former REC 1400)] or [KPER 1500 (or the former PERS 1500 or the former PHED 1500)].

Equiv To: PERS 2200

Mutually Exclusive: PHED 3080, REC 2530

KPER 2320 Human Anatomy 3 cr

(Lab required) Structure of the skeletal, articular, and muscular systems of the human body. May not be held with the former KIN 2320 or the former PHED 2320.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: BIOL 1412 (C) or BIOL 1413 (C) or BIOL 2420 (C), or BIOL 2421 (C) or the former ZOO 1330 (C).

Equiv To: KIN 2320, PHED 2320

Mutually Exclusive: REHB 1480, REHB 1490, REHB 1500

KPER 2330 Biomechanics 3 cr

(Lab required) The mechanical and anatomical analysis of human movement. May not be held with the former KIN 2330 or the former PHED 2330.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: KPER 2320 (or the former KIN 2320 or the former PHED 2320).

Equiv To: KIN 2330, PHED 2330

Mutually Exclusive: PHED 2310

KPER 2350 Introduction to Research 3 cr

(Lab required) Students will become familiar with the basic principles and methods of research in the humanities, biological, life and social sciences. Students will develop the conceptual foundations and practical skills needed to locate, understand, and evaluate primary research publications. May not hold with the former PERS 3350, the former KIN 3350, the former REC 3350 or the former REC 2010.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: STAT 1000 (D) or STAT 1001 (D) or STAT 1150 (D).

Equiv To: KIN 3350, PERS 3350, REC 2010, REC 3350

KPER 2540 Psychology of Sport and Physical Activity 3 cr

This course provides students with an understanding of psychological variables affecting individuals within sporting and activity contexts. Topics to be explored include motivation, arousal/anxiety, group dynamics and youth involvement in sport. May not be held with the former KIN 2540 or the former PHED 2540.

Equiv To: KIN 2540, PHED 2540

KPER 2700 Motor Control and Learning 3 cr

(Lab required) Principles underlying human motor performance and motor skill learning. May not be held with the former KIN 3450 or the former PHED 3450.

Equiv To: KIN 3450, PHED 3450

KPER 3100 Inclusive Physical Activity and Leisure 3 cr

This course introduces the foundations of inclusive physical activity and leisure and the application of this knowledge to individuals from diverse backgrounds and experiences with a focus on people with various forms of impairment. May not hold with the former PERS 3100, the former PHED 3390, or the former REC 3060.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: KPER 2120.

Equiv To: PERS 3100, PHED 3390, REC 3060

KPER 3140 Health Promotion 3 cr

An introduction to health promotion with emphasis on the benefits of physical activity for health and wellness, factors influencing participation in physical activity, health promotion strategies, and interventions for increasing physical activity applied at the individual, organizational, and national levels.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [KPER 2200 (or the former PERS 2200)] and [KPER 2350 (or the former PERS 3350 or the former KIN 3350 or the former REC 3350 or the former REC 2010)].

KPER 3460 Sociology of Physical Activity and Leisure 3 cr

This course examines sociological factors that influence and shape participation in the areas of physical activity, sport and leisure. The exploration of students' own experiences in this field is emphasized, using an analytical model examining experiences as they arise out of the interplay of social structure and individual agency. May not be held with the former PERS 3460 or the former PHED 3460.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: KPER 2120 (C).

Equiv To: PERS 3460, PHED 3460

KPER 3470 Exercise Physiology 3 cr

(Lab required) Physiological and functional responses to acute and chronic exercise, focusing on the cardiovascular, respiratory and neuromuscular systems. May not be held with the former KIN 3470, the former PHED 3470, or the former PHED 3430.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: BIOL 1412 (C), (or the former ZOO 1330), or BIOL 1413 (C), or BIOL 2420 (D), (or the former ZOO 2540), or BIOL 2421 (D).

Equiv To: KIN 3470, PHED 3430, PHED 3470

KPER 3512 Principles of Fitness Training 3 cr

(Lab required) Theoretical concepts of designing programs employing the principles of overload and adaptation are applied over the entire healthy population, from inactive sedentary individuals to elite athletes, for all age groups. May not be held with the former KIN 3512, the former KIN 3090, or the former PHED 3090.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: KPER 3470 (C) (or the former KIN 3470, or the former PHED 3470, or the former PHED 3430).

Equiv To: KIN 3090, KIN 3512, PHED 3090

KPER 3550 Growth and Motor Development 3 cr

Detailed study of physical growth and motor development from conception to adolescence, with implications for physical activity programs. May not be held with the former PHED 2550.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: KPER 2700 (C) (or the former KIN 3450 or the former PHED 3450).

Equiv To: PHED 2550

KPER 3630 Service and Experiential Learning 3 cr

This service-learning course combines cognitive learning and affective service to enhance student learning by connecting theory with practical experience and thinking with action. In a holistic learning environment, students apply service and experiential learning theories to community issues in physical activity and leisure while reflecting on their experiences and gaining deeper appreciation and skill development.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: KPER 2200 (C) or PERS 2200 (C) or the former PHED 3080 (C) or the former REC 2530 (C).

KPER 4000 Special Topics 3 cr

A theoretical and practical examination of selected topics in the fields of recreation, leisure, physical education and kinesiology. Topics will vary depending on faculty expertise and student need. This course can be completed as a topics course multiple times under different titles.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [KPER 1200 (or the former PERS 1200 or the former PHED 1200)] or [KPER 1400 (or the former PERS 1400 or the former REC 1400)] or [KPER 1500 (or the former PERS 1500 or the former PHED 1500)] or department approval.

KPER 4020 Philosophy of Physical Activity and Leisure 3 cr

Issues in sport, physical education and recreation will be examined from a philosophical perspective. May not be held with the former PERS 3340, the former KIN 3340, the former REC 3340, or the former PHED 2340.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: KPER 2120 (C).

Equiv To: KIN 3340, PERS 3340, PHED 2340, REC 3340

KPER 4100 Current Issues 3 cr

This is a capstone course to be completed in the final term. The course will examine current issues and strategies for addressing themes in the broad fields related to kinesiology, recreation management and physical education. May not be held with the former PERS 4100.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: Successful completion of 90 credit hours of course work in the BKin or BRMCD degree.

Equiv To: PERS 4100

KPER 4110 The Olympics and the Global Sporting Event 3 cr

Critical examination of the sporting and cultural significance of the modern Olympic Games and other global events, with emphasis given to the Olympic and Paralympic Games that occur in the year the course is offered. May not be held with the former PERS 4110.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: KPER 3460 (C), (or the former PERS 3460 or the former PHED 3460).

Equiv To: PERS 4110

KPER 4310 Physical Activity Counselling 3 cr

This course introduces students to physical activity counselling and the associated interpersonal and counselling skills as well as the relevant theories that underpin behaviour change and counselling techniques. Through case studies, readings, research, discussions, simulations, role plays and real counselling work, students will learn, reflect on and practice proven counselling skills to build motivation and facilitate behaviour change. May not be held with the former PERS 4310.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [KPER 2540 (C) (or the former KIN 2540 or the former PHED 2540)] or [REC 3180 (C)] or [PSYC 2660 (C) (or the former PSYC 3660)].

Equiv To: PERS 4310

KPER 4320 Sport and the Body 3 cr

A critical analysis of current interdisciplinary topics pertaining to sport and the body. This course tackles difficult and controversial questions related to the active body. May not be held with the former PERS 4320.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: KPER 3460 (C) (or the former PERS 3460 or the former PHED 3460) or permission of the instructor.

Equiv To: PERS 4320

KPER 4340 Sport, Film and Society 3 cr

This seminar format course encourages students to use films as "texts" through which important socio-cultural themes related to the study of sport, recreation, physical activity, dance, and physical education can be explored. It builds upon themes explored in courses such as KPER 3460 and uses film as a way to examine the intersections between the representations of key historical and sociological concepts such as class, gender, and race/ethnicity and the representations of sport and the moving body. The course is organized around these themes and includes a variety of film genres, primarily feature films and documentaries. Each seminar includes one or more screening upon which class discussions are based. The course concludes with a screening of the films made by students themselves, a key component of the course evaluation. May not be held with the former PERS 4340.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: KPER 3460 (C) (or the former PERS 3460 or the former PHED 3460) or permission of the instructor.

Equiv To: PERS 4340

KPER 4600 Directed Study 3 cr

Completion of an independent study or fieldwork experience, including a major written submission, approved by the department and under the direction of a faculty member. This course can be completed as a topics course multiple times under different titles.

KPER 4630 Supervised Fieldwork Experience 12 cr

The fieldwork practicum is a professionally supervised field experience that provides an opportunity to apply knowledge gained in academic courses and exposure to new concepts of professional practice in the fields of physical activity, health and wellness or leisure. Students are placed for a 13-week period of full time work within a suitable agency. This course is evaluated on a pass/fail basis. May not be held with the former PERS 4630, the former REC 3080, the former PHED 4620, or the former KIN/REC 4630.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: Successful completion of 90 credit hours of course work in the BKin or BRMCD degree and a minimum DGPA of 2.5 and permission of instructor.

Equiv To: KIN 4630, PERS 4630, PHED 4620, REC 3080, REC 4630

KPER 4632 Supervised Fieldwork Experience A 6 cr

The fieldwork practicum is a professionally supervised field experience that provides an opportunity to apply knowledge gained in academic courses and exposure to new concepts of professional practice in the fields of physical activity, health and wellness or leisure. Students are placed in a professional environment with a mentor/direct supervisor. This course is evaluated on a pass/fail basis. May not be held with the former PERS 4630 or the former KIN 4630 or the former REC 4630 or the former REC 3080 or the former PHED 4620.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: Successful completion of 90 credit hours of course work in the BKin or BRMCD degrees and a minimum DGPA of 2.5 and permission of instructor.

Mutually Exclusive: KIN 4630, PERS 4630, PHED 4620, REC 3080, REC 4630

KPER 4634 Supervised Fieldwork Experience B 6 cr

The fieldwork practicum is a professionally supervised field experience that provides an opportunity to apply knowledge gained in academic courses and exposure to new concepts of professional practice in the fields of physical activity, health and wellness or leisure. Students are placed in a professional environment with a mentor/direct supervisor. This course is evaluated on a pass/fail basis. May not be held with the former PERS 4630 or the former KIN 4630 or the former REC 4630 or the former REC 3080 or the former PHED 4620.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: Successful completion of 90 credit hours of course work in the BKin or BRMCD degrees and a minimum DGPA of 2.5 and permission of instructor.

Mutually Exclusive: KIN 4630, PERS 4630, PHED 4620, REC 3080, REC 4630

KPER 4810 Senior Thesis Preparation 3 cr

An opportunity for continuing FCRM students in 4th year to participate in independent research. Under the supervision of a faculty member, each student will create and defend a research prospectus and literature review, and then develop a methodology to conduct a research study.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: KPER 2120 (C) and (KPER 2320 (C) or the former PERS 3550 (C)) and a minimum DGPA of 3.0 and approval of instructor.

KPER 4820 Senior Thesis Research Project 3 cr

A 4th year research experience involving the delivery and dissemination of a research project under the supervision of a faculty member. Students will create, produce, and defend a written research document building on skills developed in KPER 4810.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: KPER 4810 (C) and approval of instructor.

Kinesiology (KIN)

KIN 2200 Basic Trauma and Life Support 3 cr

(Lab required) Assessment and management of medical emergencies common to sports. Topics will include on-field primary and secondary surveys, airway management, assessment and management of head, spinal, chest, abdominal and extremity trauma. Open only to Athletic Therapy students or with permission of the instructor. May not be held with the former KIN 3200 or the former PHED 3200.

Mutually Exclusive: KIN 3200, PHED 3200

KIN 2610 Health and Physical Aspects of Aging 3 cr

An introduction to health, well-being and aging. Emphasis on health as multidimensional including physical, social and mental health. Integration of theory and research in examining selected issues related to health and physical aspects of aging. This is an Option in Aging course and may not be held for credit with PHED 2610 or NURS 2610.

Equiv To: NURS 2610, PHED 2610

KIN 2750 Athletic Therapy Skills 3 cr

This course will focus upon the theoretical study and practical application of massage therapy (basic and advanced) and sport specific taping, splinting and bracing techniques. The intent of this course is to help prepare students for their future in the profession of Athletic Therapy. May not hold for credit with PHED 2020 or PHED 3180. Open to Athletic Therapy students only.

Mutually Exclusive: PHED 2020, PHED 3180

KIN 3160 Pathology and Sport Medicine 3 cr

(Lab required) Analysis of types of injuries and emergency procedures, and practical experience in first aid, taping and wrapping, massage, and various preventive techniques. May not be held with the former PHED 3160 or the former PHED 3060.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: KPER 2320 (or the former KIN 2320 or the former PHED 2320).

Equiv To: PHED 3060, PHED 3160

KIN 3320 Advanced Human Anatomy 3 cr

(Lab Required) This course will concentrate on the structure and function of the human body's various tissues, organs and systems with particular emphasis upon basic histology, function and gross anatomy. This course will help prepare students who are interested in pursuing careers in Athletic Therapy and Kinesiology. Note: A fieldwork fee is attached to the course.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: KPER 2320 (or the former KIN 2320 or the former PHED 2320).

KIN 3330 Functional Assessment and Restoration A 3 cr

(Lab required) General principles of assessment and restoration; assessment of acute and chronic musculo-skeletal injuries of the lower extremity; rehabilitation techniques to ensure full restoration of function. May not be held with KIN 3300 (PHED 3300).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: KIN 3320 (C). Corequisite: KIN 3912 or permission of instructor.

Mutually Exclusive: KIN 3300, PHED 3300

KIN 3332 Functional Assessment and Restoration B 3 cr

(Lab required) Assessment of acute and chronic musculo-skeletal injuries of the upper extremity and spine; rehabilitation techniques to ensure full restoration of function. May not be held with KIN 3300 (PHED 3300).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: KIN 3330 (C).

Mutually Exclusive: KIN 3300, PHED 3300

KIN 3400 Therapeutic Modalities 3 cr

(Lab required) This course will concentrate on the use of therapeutic modalities commonly utilized in the profession of Athletic Therapy. It will introduce the student to various thermal mechanical, and electromagnetic agents used for therapeutic purposes. May not be held with the former PT 2720.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: KIN 3320 or permission of instructor.

Equiv To: PT 2720

KIN 3510 Physical Activity and Aging 3 cr

The study of the aging process and the effects of exercise and lifestyle factors on the health and fitness of the aging adult. This is an Option in Aging course. May not be held with the former KIN 4500 or the former PHED 4500.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: KPER 3470 (C) (or the former KIN 3470, or the former PHED 3470, or the former PHED 3430), or permission of the instructor.

Equiv To: KIN 4500, PHED 4500

KIN 3700 Advanced Motor Control and Learning 3 cr

This course focuses on the fundamentals of the nervous system as they relate to human movement and the application to motor control and learning. Emphasis is placed on an advanced understanding and application of theories and models of motor control and learning, including the introduction to how different components of the central and peripheral nervous systems contribute to movement.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: KPER 2700 (or the former KIN 3450 or the former PHED 3450).

KIN 3912 Athletic Therapy Practicum 4 cr

To provide clinical and on-field internship experiences on campus and in the community for prospective Athletic Therapy candidates. This course is evaluated on a pass/fail basis. May not hold for credit with the former PHED 3910 or the former KIN 3910.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [KIN 2750 (or the former PHED 2020 or the former PHED 3180)] and [KIN 2200 (or the former KIN 3200 or the former PHED 3200)].

Co-requisite: KIN 3330 or permission of instructor.

Mutually Exclusive: KIN 3910, PHED 3910

KIN 3914 Clinical Block Placement 2 cr

Clinical internship experiences on campus and in the community for prospective Athletic Therapy candidates. This course is evaluated on a pass/fail basis. May not be held for credit with KIN 3910 (PHED 3910).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (KIN 3332, KIN 3400, and KIN 3912) or permission of instructor.

KIN 4040 Advanced Exercise and Health Psychology 3 cr

This course provides students with an advanced understanding of research, theory and contemporary issues in exercise and health psychology. Using a variety of methods, such as case studies, narrative, and research articles, students will learn to critically read and evaluate research in the field. Students will also explain and apply influential theories and models. Contemporary research topics covered in this class include psychological influences on health behaviours, including exercise, as well as the psychological outcomes of these health behaviours.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: KPER 2540 (or the former KIN 2540 or the former PHED 2540) or permission of instructor.

KIN 4060 Drugs and Ergogenic Aids in Sport 3 cr

A multidisciplinary examination of drugs, hormones, dietary supplement and methods used by athletes in attempting to enhance athletic performance. Ethical concerns and mechanisms of action will be examined for steroids, stimulants, masking agents, blood doping, and hormonal and dietary supplements among others. May not hold for credit with PHED 4060. Recommended prerequisite BIOL 1412 (ZOO 1330) or BIOL 2420 (ZOO 2540).

Equiv To: PHED 4060

KIN 4070 Development and Movement Disorders 3 cr

This course is designed to provide the student with an understanding of neuroscience as it relates to motor control and learning through consideration of foundational content in how the central and peripheral nervous systems contribute to movement control and the contributions of sensory feedback. The role of the nervous system for motor function will be explored through an understanding of a selection of developmental and acquired neurological disorders. Students will have an opportunity to examine the application of a selection of the content and theories to the study of a sample of neurological and/or developmental disorders. May not be held with the former PERS 4200 when titled "Developmental and Movement Disorders."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: KPER 2700 (C), or the former KIN 3450 (C), or permission of the instructor.

Mutually Exclusive: PERS 4200

KIN 4160 Advanced Pathology and Sport Medicine 3 cr

Basic principles of pathology and clinical manifestations of cardiac respiratory, and neurologic disorders. Preventative measures, assessments and treatment methods employed in care of patients with these disorders will also be examined. May not be held for credit with PHED 4050.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [KIN 3160 (C) (or the former PHED 3160, or the former PHED 3060)] and [KIN 3320 (C)] and [KPER 3470 (C) (or the former KIN 3470, or the former PHED 3470, or the former PHED 3430)].

Equiv To: PHED 4050

KIN 4260 Human Factors and Ergonomics 3 cr

This course reviews principles of human factors and ergonomics and explores the systematic application of human capabilities, limitations and behaviours with regard to the design of usable elements within specific environments. Emphasis is placed on the interactive nature of human-machine systems, the development of ergonomic models, and the techniques used to assess the design of modern work and living environments.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: KPER 2700 (or the former KIN 3450 or the former PHED 3450).

KIN 4330 Advanced Biomechanics 3 cr

(Lab required) A biomechanical analysis of the skills and techniques of the major sports, games, and exercises. May not be held with the former PHED 4360.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: KPER 2330 (or the former KIN 2330 or the former PHED 2330 or the former PHED 2310).

Equiv To: PHED 4360

KIN 4370 Physiology of Exercise in Extreme Environments 3 cr

Learn how humans exercise and work under five environmental extremes: heat, cold, hypobaria (altitude), hyperbaria (under water) and microgravity (space). After learning how each environment limits exercise and poses health risks, students will then apply knowledge of exercise physiology to determine how training and acclimatization can mitigate these limitations to maximize performance. Knowledge attained in this course will be valuable professionally (e.g., providing training for athletes in heat and cold), for personal recreation (e.g., mountaineering, SCUBA diving), or research (e.g., microgravity). May not be held with KPER 4000 or the former PERS 4200 when titled "Physiology of Exercise in Extreme Environments."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: KIN 3470 (C).

Mutually Exclusive: PERS 4200

KIN 4400 Therapeutic Exercise Rehabilitation 3 cr

This course will concentrate on therapeutic exercise for the upper and lower extremities, torso and spine. Content will focus upon using exercise and basic therapy techniques to restore function by addressing deficiencies in range of motion, flexibility, strength, power, endurance, proprioception, coordination, agility and speed. Prerequisites [KIN 3160 (or the former PHED 3160 or the former PHED 3060)] and [KPER 3512 (or the former KIN 3512, or the former KIN 3090, or the former PHED 3090)] and [KIN 3332] or permission of instructor.

KIN 4460 Fitness Appraisal and Lifestyle Counselling 3 cr

(Lab required) Theoretical knowledge and practical training related to physical activity, fitness and lifestyle appraisal and counselling. Note: This course prepares students for certification as a Certified Personal Trainer (CPT) by the Canadian Society for Exercise Physiology. B.Kin. students who wish to prepare for certification as a Certified Exercise Physiologist (CEP) by the Canadian Society for Exercise Physiology, should consult the Undergraduate Program Administrator for information. May not be held for credit with PHED 4460.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: KPER 3470 (or the former KIN 3470 or the former PHED 3470 or the former PHED 3430). Pre- or Co-requisites: [KPER 1200 (or the former PERS 1200 or the former PHED 1200)] and [KIN 3512 (or the former KIN 3090 or the former PHED 3090)]. Requires an active Recreation Services Membership.

Equiv To: PHED 4460

KIN 4470 Advanced Exercise Physiology 3 cr

An advanced examination of the physiological factors that affect human performance during physical activity. This will include exposure to related research and the development of techniques for its critical assessment. May not be held with PHED 4410.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: KPER 3470 (C) (or the former KIN 3470, or the former PHED 3470, or the former PHED 3430).

Equiv To: PHED 4410

KIN 4540 Advanced Topics in Sport Psychology 3 cr

This course will provide the student with a deeper understanding of psychological variables affecting individuals within sport contexts, including an exploration of various research methods and theories/ research related to motivation, youth, and applied work in sport psychology. May not hold with the former PHED 4540.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: KPER 2540 (or the former KIN 2540 or the former PHED 2540).

Equiv To: PHED 4540

KIN 4560 Advanced Fitness Appraisal and Lifestyle Counselling 3 cr
(Lab required) Advanced theoretical knowledge and experiential learning related to physical activity, fitness and lifestyle assessment, counselling, and exercise prescription for apparently healthy and clinical populations. Prepares students for certification as a Certified Exercise Physiologist (CEP) by the Canadian Society of Exercise Physiology. Requires an active Recreation Services membership. May not be held with the former PHED 4350.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [KIN 4460 (C) (or the former PHED 4460)] and [KPER 3512 (C) (or the former KIN 3512, or the former KIN 3090, or the former PHED 3090)].

Equiv To: PHED 4350

KIN 4910 Athletic Therapy Practicum 6 cr

To provide clinical and on-field internship experiences on campus and in the community for prospective Athletic Therapy candidates. May not be held for credit with PHED 4910. Evaluated pass/fail.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: KIN 3914 (KIN 3910, PHED 3910) (C) and KIN 3400 (C) and KIN 3320 (C).

Mutually Exclusive: PHED 4910

Labour Studies (LABR)

LABR 1260 Working for a Living 3 cr

An introduction to the study of working lives in the contemporary world and the global transformation that has made working for wages central to human existence. Students may not hold credit for both LABR 1260 and the former LABR 1270.

Equiv To: LABR 1270

Attributes: Social Science, Recommended Intro Courses, Written English Requirement

LABR 1290 Introduction to the Canadian Labour Movement 3 cr

An introduction to the development of the contemporary working-class movement in Canada and to workplace issues today.

Attributes: Social Science, Recommended Intro Courses, Written English Requirement

LABR 2100 The Political Economy of Labour 3 cr

This course examines the dynamics of work organization, the production and reproduction of labour power, labour markets and class conflict in capitalist societies, with attention to contemporary Canada. Students may not hold credit for LABR 2100 and any of: the former LABR 2420 or the former ECON 2420.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [three credit hours of 1000 level Labour Studies] or written consent of the Labour Studies coordinator.

Mutually Exclusive: ECON 2420, LABR 2420

Attributes: Social Science

LABR 2110 Special Topics in Labour Studies 3 cr

This course will vary from term to term depending on the needs of students and the interests of the instructor. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Attributes: Social Science

LABR 2200 Labour History: Canada and Beyond (C) 3 cr

This course explores the history of working people's struggles, victories and defeats in Canada, with attention to gender, "race" and ethnicity. Topics include the origins and evolution of labour unions and workplace rights and the role of politics and social movements. Also offered as HIST 2200. May not be held with HIST 2200.

Equiv To: HIST 2200

Attributes: Social Science, Recommended Intro Courses, Written English Requirement

LABR 2300 Workers, Employers and the State 3 cr

This course examines the social, economic and political contexts of work and the relations, rules and structures that shape the interactions between workers, employers and the state. Topics include workers' and management rights, the rights, obligations and functions of unions, the legal contexts of labour/management relations, and initiatives for increasing equity. Students may not hold credit for both LABR 2300 and the former LABR 3300.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in three credit hours of 1000 level Labour Studies] or written consent of the Labour Studies coordinator.

Equiv To: LABR 3300

Attributes: Social Science, Written English Requirement

LABR 3010 Labour Law 3 cr

An introduction to legislation and interpretation, legal procedures, and quasi-judicial boards as they concern the organization of trade unions, collective bargaining, settlement of disputes, labour standards, workers' compensation, unemployment insurance and human rights.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in both LABR 1260 (the former LABR 1270) and LABR 1290] or [a grade of "C" or better in both HRIR 3450 and 6 credit hours of other HRIR courses] or written consent of the Labour Studies coordinator.

Attributes: Social Science

LABR 3030 Labour and the Bargaining Process 3 cr

A course to explain labour's involvement in the negotiation process including the mechanics and the theoretical issues of bargaining. The course focuses on contemporary issues.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in three credit hours of 1000 level Labour Studies] or written consent of the Labour Studies coordinator.

Attributes: Social Science

LABR 3050 Issues in Occupational Health and Safety and Workers' Compensation 3 cr

This course will explore historical, legal and political issues surrounding health and safety in Canadian workplaces with an emphasis on Manitoba. It will critically examine both the Workers' Compensation and the Workplace Health and Safety systems as they currently exist and review the role of workers, employers, unions and government in these processes. It will investigate various challenges and emerging issues in health and safety including but not limited to industrial disease, gender concerns, precarious employment and globalization.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in LABR 3060] or written consent of the Labour Studies coordinator.

Attributes: Social Science

LABR 3060 Workplace Health and Safety 3 cr

An introduction to occupational health, industrial hygiene and industrial safety emphasizing the impact of chemical hazards on the body, the measure and control of hazards and the causes and prevention of industrial accidents.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in both LABR 1260 (the former LABR 1270) and LABR 1290] or [a grade of "C" or better in both HRIR 3450 and 6 credit hours of other HRIR courses] or written consent of the Labour Studies coordinator.

Attributes: Social Science

LABR 3070 Labour Relations and Occupational Health and Safety Law 3 cr

The economic costs of workplace injuries and sickness; the history of occupational health and safety laws and their implementation; the history and functions of workers' compensation; collective bargaining on health and safety.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in both LABR 1260 (the former LABR 1270) and LABR 1290] or [a grade of "C" or better in both HRIR 3450 and 6 credit hours of other HRIR courses] or written consent of the Labour Studies coordinator.

Attributes: Social Science

LABR 3080 Labour and Community Organizing 3 cr

This course examines the theory and practice of collaborative community and labour organizing, with particular emphasis on Latin America, to identify the strengths and limitations of this approach for reviving unions, protecting workers' rights and advancing social justice.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in three credit hours of 1000 level Labour Studies] or written consent of the Labour Studies coordinator.

Attributes: Social Science

LABR 3090 Globalization and Labour 3 cr

An examination of the impact of global capitalism on the lives of workers (both paid and unpaid) in the Global South and North in the early 21st century. Using concepts of class, gender and "race," the course addresses key challenges facing working people, the crisis of workers' movements, and new movements emerging in response to this crisis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor.

Attributes: Social Science

LABR 3110 Special Studies in Labour Studies 3 cr

This course will vary from year to year depending on the needs of students and the interests of the instructor. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of 1000 level Labour Studies] or written consent of the Labour Studies coordinator.

Mutually Exclusive: LABR 3370, SOC 3370, SOC 3371

Attributes: Social Science

LABR 3120 Special Studies in Labour Studies 3 cr

This course will vary from year to year depending on the needs of students and the interests of the instructor. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of 1000 level Labour Studies] or written consent of the Labour Studies coordinator.

Attributes: Social Science

LABR 3130 Employment Legislation and the Protection of Workers 3 cr

An examination of the legal rights and obligations of workers and employers, and the enforcement mechanisms for the non-unionized workplace, over the course of the employment relationship from hiring through to termination or retirement. Special emphasis will be placed on statutory and common law, personal employment contracts, wrongful and constructive dismissal, human rights legislation and jurisprudence.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [both LABR 1260 (the former LABR 1270) and LABR 1290] or [both HRIR 3450 and 6 credit hours of other HRIR courses] or written consent of the Labour Studies coordinator.

Attributes: Social Science

LABR 3140 Pensions and Benefits 3 cr

The nature and role of pensions in the life cycle of workers and the issue of pension funds control on distribution. The role of non-wage benefits in the labour compensation package.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [three credit hours of 1000 level Labour Studies] or [both HRIR 3450 and six credit hours of other HRIR courses] or written consent of the Labour Studies coordinator.

Attributes: Social Science

LABR 3200 Workers' Self-Management 3 cr

An examination of historical and contemporary examples of self-managed workplaces and the theory of a participatory economy based on workers' self-management.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [six credit hours of 1000 level Labour Studies] or written consent the Labour Studies coordinator.

Attributes: Social Science

LABR 3210 Working People in Hard Times 3 cr

What have recent changes in work and society meant for people who work for wages or who live with those who do? How did these changes happen? What do they mean for youth today? How do the growing demands of our jobs affect our lives with family and friends? How have employers' actions affected unions, and how have unions responded? This course will explore these questions and others that arise from them.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [three credit hours of 1000 level Labour Studies] or written consent of the Labour Studies coordinator.

Attributes: Social Science

LABR 3214 Canada's Left: Rebellion and Repression (C) 3 cr

This course traces the emergence and evolution of Canada's left from the late nineteenth century to the present, with an emphasis on its two main streams, communism and social democracy. Topics include the relationship between popular, party, labour, and ethnic lefts; left parties and mainstream politics; the left in the evolution of human rights and in other public policies; the treatment within various lefts of gender, race, sexuality and ethnicity; popular movements; legal constraints and state repression. Also offered as HIST 3214. Not to be held with HIST 3214.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [six credit hours of History or written consent of department head] or [three credit hours of 1000 level Labour Studies or written consent of Labour Studies coordinator].

Equiv To: HIST 3214

Attributes: Social Science

LABR 3220 Global Sweatshops, Global Struggles 3 cr

This course explores the past and present of sweated work in various industries in the Global North and South. We explore circumstances that support sweatshops, including off-shoring and the new international division of labour, migrant, child and female labour forces; global supply chains and the role of retailers and contractors. We also compare and evaluate strategies to eliminate sweatshops, including NGO activities, government regulations, consumer boycotts and the international labour, student and social justice movements. Also offered as HIST 3212. Students may not hold credit for both LABR 3220 and HIST 3212.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [three credit hours of 1000 level Labour Studies or written consent of the Labour Studies coordinator] or [six credit hours of History or written consent of the department head].

Equiv To: HIST 3212

Attributes: Social Science

LABR 3230 Human Rights at Work 3 cr

This course is an introduction to the basic human rights protections in Canadian workplaces that have developed as a result of collective bargaining, human rights legislation, The Charter of Rights and Freedoms and decisions of courts and tribunals. The course will also examine the concept of human rights on a broader, international and national level. Students may not hold credit for both LABR 3230 and LABR 3110 when titled "Human Rights at Work."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [three credit hours of 1000 level Labour Studies] or written consent of the Labour Studies coordinator.

Attributes: Social Science

LABR 3240 Becoming an Advocate 3 cr

This course introduces students to concepts and structures pertaining to workers' advocacy and administrative law, including areas such as human rights, occupational health and safety, Workers' Compensation, and the duty of fair representation. Students may not hold credit for LABR 3240 and any of LABR 3110 or LABR 3120 when titled "Becoming an Advocate."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [three credit hours of 1000 level Labour Studies] or written consent of the Labour Studies coordinator.

Attributes: Social Science

LABR 3370 Sociology of Work 3 cr

An examination of work as a central aspect of human social life; its changing nature and content in response to technological, political, and social change; how work is organized and understood by employers and workers; its consequences for individuals, social institutions, and society. Students may not hold credit for LABR 3370 and any of: SOC 3370, SOC 3371, and LABR 3110 when taught as "Sociology of Work".

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [LABR 1260 or LABR 1290] or [SOC 1200 or the former SOC 1201] or [both SOC 1211 and SOC 1221].

Equiv To: SOC 3370, SOC 3371

Mutually Exclusive: LABR 3110

Attributes: Social Science

LABR 3400 Racism and Work 3 cr

This course explores three central questions: What are racism and colonialism? How do racism and colonialism shape work in Canada? What strategies exist for combating racism at work, and which are most effective? Students may not hold credit for both LABR 3400 and LABR 3110 when titled "Racism and Work."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [three credit hours of 1000 level Labour Studies] or written consent of the Labour Studies coordinator.

Attributes: Social Science

LABR 3510 Industrial Relations 6 cr

A study of comparative employer-employee relationships in Canada and other selected countries as affected by market forces, social traditions, and government action. Students may not hold credit for both LABR 3510 and the former ECON 3510.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [both LABR 1260 (the former LABR 1270) and LABR 1290] or [six credit hours of 1000 level Economics].

Equiv To: ECON 3510

Attributes: Social Science

LABR 3700 History of Working People and Labour Movements 1700 to the Present 6 cr

A survey of working class history with emphasis upon the varieties of labour movements and trade unions. The course will refer to the social and political experience of working people in Great Britain, Europe and the United States and will devote one term to Canadian topics. May not be held with the former HIST 3700.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in six credit hours of Labour Studies or History] or written consent of the Labour Studies coordinator.

Equiv To: HIST 3700

Attributes: Social Science

LABR 4110 Selected Topics in Labour Studies 3 cr

This course will vary from year to year depending on the needs of students and the interests of the instructor. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of the Labour Studies coordinator.

Attributes: Social Science

LABR 4510 Labour Studies Field Placement Seminar 3 cr

A seminar to be taken concurrently with LABR 4520 in which each student will relate theory and practice. This course is also offered as ECON 4610 and GPE 4510. Students may not hold credit for LABR 4510 and either ECON 4610 or GPE 4510. Intended for students in the Labour Studies Advanced Major.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of the Labour Studies coordinator.

Corequisite: LABR 4520.

Equiv To: ECON 4610, GPE 4510

Attributes: Social Science, Written English Requirement

LABR 4520 Labour Studies Field Placement 6 cr

An educationally directed field experience in which the student will undertake specific tasks and assignments in some aspects of labour relations. Field placement options include a labour union, professional association, employer, provincial department of labour, public archives. This course is also offered as ECON 4620 and GPE 4520. Students may not hold credit for LABR 4520 and either ECON 4620 or GPE 4520. Intended for students in the Labour Studies Advanced Major.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of the Labour Studies coordinator.

Corequisite: LABR 4510.

Equiv To: ECON 4620, GPE 4520

Attributes: Social Science

Latin (LATN)

LATN 1080 Introduction to the Reading of Latin 1 3 cr

Readings in Latin poetry and prose with related exercises in grammar and composition intended to prepare students to read Classical and Medieval Latin.

Attributes: Humanities, Recommended Intro Courses

LATN 1090 Introduction to the Reading of Latin 2 3 cr

Further readings in Latin poetry and prose with related exercises in grammar and composition intended to prepare students to read Classical and Medieval Latin.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in LATN 1080.

Attributes: Humanities, Recommended Intro Courses

LATN 2700 Intermediate Readings in Latin 3 cr

Further readings in Latin prose and poetry with related exercises in grammar and syntax as continued preparation for the reading of Classical and Medieval Latin. Students may not hold credit for both LATN 2700 and the former LATN 1320.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in LATN 1090] or written consent of department head.

Equiv To: LATN 1320

Attributes: Humanities

LATN 2720 Selected Readings in Republican and Augustan Poetry 3 cr

Readings from among the comedies of Plautus and Terence, the shorter poems of Catullus, and the *Metamorphoses* of Ovid.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in LATN 2700 or the former LATN 1320.

Attributes: Humanities

LATN 2740 Selected Readings in Republican and Augustan Prose 3 cr

Readings from among the works of Livy and Caesar and the letters and philosophical writings of Cicero.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in LATN 2700 or the former LATN 1320.

Attributes: Humanities

LATN 2760 Latin Prose Composition and Sight Translation 3 cr

Assignments in writing Latin prose and practice in the techniques for effective reading of poetry and prose at sight.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in LATN 2700 or the former LATN 1320.

Attributes: Humanities

LATN 2780 History of the Latin Language 3 cr

A survey of the language from its Indo-European pre-history to its position as the matrix of the Romance languages. Phonological, morphological and lexical aspects of the language are investigated in the light of Latin documents and some comparative evidence from cognate languages.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in LATN 2700 or the former LATN 1320.

Attributes: Humanities

LATN 2800 Readings in Medieval or Renaissance Latin 3 cr

Selections of prose and poetry written after the beginning of the fourth century after Christ.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in LATN 2700 or the former LATN 1320.

Attributes: Humanities

LATN 3740 Roman Comedy 3 cr

Reading of at least two plays from among the comedies of Plautus and Terence.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in LATN 2720 or LATN 2740] or written consent of department head.

Attributes: Humanities

LATN 3760 Orations of Cicero 3 cr

Reading of at least two complete speeches from among the political and forensic works of Cicero.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in LATN 2720 or LATN 2740] or written consent of department head.

Attributes: Humanities

LATN 3780 Roman Satire 3 cr

Reading of selected Satires of Horace and Juvenal and of excerpts from the *Apocolocyntosis* of Seneca and the *Satyricon* of Petronius.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in LATN 2720 or LATN 2740] or written consent of department head.

Attributes: Humanities

LATN 3800 Lyric and Elegiac Poetry of the Augustan Age 3 cr

Selected Odes and Epodes of Horace and amatory elegies of Propertius, Ovid and Tibullus.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in LATN 2720 or LATN 2740] or written consent of department head.

Attributes: Humanities

LATN 3820 Vergil's Aeneid 3 cr

Reading of at least three books of the *Aeneid*.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in LATN 2720 or LATN 2740] or written consent of department head.

Attributes: Humanities

LATN 3840 Vergil's Eclogues and Georgics 3 cr

Reading of the *Eclogues* in their entirety and at least two books of the *Georgics*.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in LATN 2720 or LATN 2740] or written consent of department head.

Attributes: Humanities

LATN 3860 The Roman Historians 3 cr

Reading of selected passages from the works of Livy, Caesar, Sallust and Tacitus.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in LATN 2720 or LATN 2740] or written consent of department head.

Attributes: Humanities

LATN 3880 Poetry of the Silver Age 3 cr

Reading of one or two tragedies of Seneca with selections from the works of Martial, Statius or Lucan.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in LATN 2720 or LATN 2740] or written consent of department head.

Attributes: Humanities

LATN 3932 Advanced Studies in Latin Prose Literature 3 cr

Readings in a particular genre such as philosophy, history, or rhetoric with substantial reading in secondary critical or interpretive literature.

The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in LATN 2720 or LATN 2740 or LATN 2800 or written consent of department head.

Attributes: Humanities

LATN 3942 Advanced Studies in Latin Poetry 3 cr

Readings in a particular genre such as epic, lyric, comedy or elegy with substantial reading in secondary critical or interpretive literature. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in LATN 2720 or LATN 2740 or LATN 2800 or written consent of department head.

Attributes: Humanities

Law (LAW)

LAW 1102 Contracts 5 cr

This course covers the basic principles of contract law, including how a contract is formed; what is an offer; what constitutes acceptance; whether all promises are enforceable as a contract; when parties should be allowed to avoid obligations; what happens if one party misrepresents the quality of subject matter of the contract; what happens when a party makes a mistake about what they buy or sell; what should happen if one party takes advantage of another for a better deal for themselves. May not be held with LAW 1100.

Mutually Exclusive: LAW 1100

LAW 1140 Criminal Law and Procedure 5 cr

A general introduction to criminal law and procedure dealing with principles of criminal liability, common defenses to criminal charges, selected specific offences, and the basic procedures to be followed in the administration of criminal justice in Canada.

LAW 1460 Constitutional Law 5 cr

An examination of the legal problems arising from the nature of the Canadian political structure and, in particular, the distribution of legislative powers between the federal parliament and the provincial legislatures and an introduction to the impact of the Canadian Charter of Rights and Freedoms.

LAW 1480 Torts and Compensation Systems 5 cr

A general introduction to the law of torts and other compensation systems such as the Workers' Compensation and Criminal Injuries Compensation schemes.

LAW 1500 Property 5 cr

A general introduction to the principles of property with special emphasis on the principles of real property, their historical development and modern application.

LAW 1530 Legal System 2 cr

An introduction to the study of law including initial analysis of various aspects of legal history, the structure of the legal system, legal reasoning, statutory interpretation, dispute resolution and the role of the judiciary.

LAW 1540 Legal Methods 5 cr

An introduction to legal research and writing skills and oral advocacy. This course is graded on a pass/fail basis. May not be held with LAW 1542. This course is graded on a pass/fail basis.

LAW 2400 Wills and Succession 3 cr

The law of testate and intestate succession, Part IV of The Marital Property Act, and The Dependents' Relief Act.

LAW 2490 Trusts 3 cr

The nature and functions of modern inter vivos and testamentary trusts. The creation of express, private trusts, charitable trusts, resulting trusts, and constructive trusts. The administration of trusts, and real and personal remedies of beneficiaries under trusts.

LAW 2602 Evidence 3 cr

A study of the rules relating to the admissibility and weight of evidence in judicial proceedings. May not be held with LAW 2600.

Mutually Exclusive: LAW 2600

LAW 2640 Family Law 3 cr

An overview of key legal issues regarding familial relationships and family breakdown in Canadian society. Topics include cohabitation, marriage, separation, divorce, child custody and access, spousal and child support and property division.

LAW 2650 Introduction to Advocacy 3 cr

A detailed study of the conduct of a case from its inception through to trial. The course requires that students prepare and conduct a trial. This course is graded on a pass/fail basis.

LAW 2672 Civil Procedure 3 cr

An introduction to the rules of civil procedure. May not be held with LAW 2670

Mutually Exclusive: LAW 2670

LAW 2680 Legal Negotiation 3 cr

Most legal disputes settle before trial. This course examines how lawyers assist their clients through effective interviewing, counseling, strategic planning and negotiation as well as some of the mechanisms, both judicial and non-judicial, that facilitate pre-trial dispute settlement.

LAW 2690 Corporations I 3 cr

A study of the major legal, practical and policy issues arising out of the formation and operation of business organizations in Canada, with a particular focus on business corporations. Students will examine major principles of Canadian corporate law, including corporate personality, management power, majority rule and minority protection.

LAW 2700 Income Tax Law and Policy 3 cr

The object of this course is to develop a working knowledge of the basic principles and rules of the income tax system as these apply to individuals. A parallel objective is the discovery of the major policy positions that inform the personal income tax system and the development of the ability to use tax policy analysis to evaluate advantages of, and problems with, the current system.

LAW 3012 International Business Law 3 cr

Explores the legal, practical and social realities of international business transactions.

LAW 3014 International Trade Law 3 cr

The course will deal with the doctrine, practice and policy issues in international trade and business.

LAW 3016 Corporations II 3 cr

An advanced study of corporations law from various theoretical and practical perspectives.

LAW 3018 Human Rights Law 3 cr

Critical and constructive study, at an advanced level, of a significant major subject or set of topics in Human Rights Law.

LAW 3020 Clinical Administrative Law 3 cr

The primary purpose of this course is to train students in lawyering skills. Students will be required to engage in classroom work and participate in simulated exercises. Emphasis will be given to the difference between board and court advocacy.

LAW 3022 Insurance Law 3 cr

Introduction to the basic principles of insurance law. The fundamental elements to most types of policies will be examined with particular emphasis on property and liability insurance. The terms and provisions specific insurance policies and coverages such as automobile, property, liability policies will also be covered.

LAW 3024 The Legal Profession and Professional Responsibility 3 cr

A general introduction to the problems of professional responsibility and the ethics of lawyers individually, as well as the legal profession collectively. Topics dealt with will include ethical problems of the lawyer in the role of the advocate and in the role of counsellor (confidentiality, conflict of interest, etc.); professional responsibility in the delivery of legal service (competency, fee determination, specialization, regulation etc) and the legal profession and the public interest (governance of profession, discipline, professional liability etc) These problems are to be studied by the critical examination of case law, codes, canons, and other published materials, by classroom discussion and debate on problems; and by workshops and panels which involve practising lawyers.

LAW 3026 Trademarks and Patents 3 cr

An in-depth examination of the law of Trade-marks and Patents, including underlying policy objectives.

LAW 3028 Copyright Law 3 cr

An in-depth examination of the law of Copyright.

LAW 3030 Research Paper B 3 cr

Details in each case to be worked out with the Associate Dean. 10,000 words for 3 credit hours. May not be held with LAW 3490.

Mutually Exclusive: LAW 3490

LAW 3032 Court of Queen's Bench Clerkship 3 cr

Students will be expected to provide research assistance to the Justices, and students will be asked to provide written memoranda and other research to help the Justices prepare for trial or application hearings. Discussions of legal issues may follow from the work that students do. May not be held with LAW 3250 when titled "Court of Queen's Bench Clerkship" Grading: Pass/Fail.

Mutually Exclusive: LAW 3250

LAW 3034 Court of Appeal Clerkship 3 cr

Students will be expected to provide research assistance to the Justices, and students will be asked to provide written memoranda to help the Justices prepare for hearings. Discussions of legal issues may follow from the other work that students do. Grading is on a Pass/Fail basis.

LAW 3050 Commercial Law 3 cr

A study of secured transactions and negotiable instruments.

LAW 3070 Gender and the Law 3 cr

An exploration of ideas about gender differentiation in law, the legal system, legal education and the legal profession. It will offer an introduction to the feminist critique of law and feminist theories about sexual equality and discrimination.

LAW 3090 Children, Youth and the Law 3 cr

Relationships between child, family, state and law are examined within an interdisciplinary context, focusing on such issues as rights theories and the public/private distinction; regulation of young offenders, child protection and state intervention; children in the courts; and the particular challenges of older children/ young adults at the boundary between childhood and adulthood.

LAW 3120 Philanthropy and the Law 3 cr

This course investigates the origins of, and regulation of, charities and charity law as well as regulation of other non-profit entities. Typical topics considered in this course include the social, economic and cultural importance of an ethic of giving, the tax benefits attendant upon charitable status, dimensions of fund-raising, public and private foundations and terrorism and international charities.

LAW 3132 Clinical Family 3 cr

This course will serve as a bridge between the introductory family law course and the Advanced Family Law course, enabling students to develop a deeper understanding of the issues in this area of the law and to be better prepared to assimilate the necessary skills to be successful in this high demand area of practice. Registration restricted to students in Year 3. This course is evaluated on a pass/fail basis. May not be held with LAW 3250 when titled Clinical Family.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: LAW 2640.

LAW 3170 Dispute Resolution 3 cr

This course offers a detailed exploration of the theory and practice of dispute resolution focusing on the various approaches, private and court-connected, currently used to resolve conflict. In critically examining selected alternative dispute resolution mechanisms, the course exposes students to issues such as rights-based and interest-based dispute resolution, power, gender and culture in ADR processes and the functions, and skills required of, third party interveners. May not be held with the former LAW 3160 or LAW 3162.

Mutually Exclusive: LAW 3160, LAW 3162

LAW 3212 Immigration Law 3 cr

The refugee definition; the need for refugee protection; procedural protection for refugee claimants; a comparative study of refugee determination systems; the legality of a refugee sanctuary movement; the legal status of refugee claimants in Canada; refugee and immigrant detention; the relevance of Charter guarantees to refugees and immigrants; visa requirements and airline fines; the international system of refugee protection; racist intention and effect in immigration and refugee law; material misrepresentation as a ground of exclusion; medical inadmissibility; equivalence of Canadian and foreign criminal offenses for purposes of exclusion; the relevance of foreign laws in determining family composition of sponsored immigrants. May not be held with LAW 3200.

Mutually Exclusive: LAW 3200

LAW 3220 Competitions B 3 cr

Credit for selected students who satisfactorily participate in those academic competitions approved by Faculty Council. This course is graded on a pass/fail basis.

LAW 3230 Aboriginal Peoples and Land Claims 3 cr

The course shall provide an overview of land claims and treaty land entitlement policies in Canada and their impact upon land claims by Aboriginal communities.

LAW 3250 Current Legal Problems D 3 cr

Critical and constructive study, at an advanced level, of a significant major subject or set of topics. This course is graded on a pass/fail basis.

Mutually Exclusive: LAW 3032

LAW 3302 Clinical Criminal Law 6 cr

The primary purpose of this offering is to train students in lawyering skills in the criminal law area. To this end, instruction is given on an intensive basis in small groups. Students may be required to engage in classroom work; to participate in various forms of simulation exercises and to conduct actual client based cases under the supervision of the instructor. Particular emphasis will be given to questions of professional responsibility and ethics. Registration restricted to students in Year 3. This course is evaluated on a pass/fail basis. May not be held with LAW 3300.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (LAW 2602 or LAW 2600) and LAW 3590. Co-requisite: LAW 3532 or LAW 3340.

Mutually Exclusive: LAW 3300

LAW 3310 Aboriginal Peoples and the Law 3 cr

A study of the laws relating to Aboriginal Peoples in North America from the colonial period to the present. Special emphasis will be given to aboriginal rights, hunting and fishing rights, the legal aspects of Indian Treaties and the Indian Act. A more general treatment will be given to a study of Aboriginal Peoples' relationship to civil and criminal law in modern Canadian society.

LAW 3330 Employment Law 3 cr

A detailed study of employment law including employment principles, constructive and wrongful dismissal, just cause, human rights and remedies.

LAW 3334 Global and Domestic Governance of Tainted Finance 3 cr

The object of this course is to explore the law and policy related to the regulation of tainted finance. It aims to critique and appraise the merits of governance, both international and domestic. It begins with a broad overview of the relationship between tainted finance and global problems and then moves to consideration of discrete aspects. May not be held with LAW 3980 when titled "Global and Domestic Governance -Tainted Finance".

LAW 3336 Law and Popular Culture 3 cr

This course will study legal popular culture. This course will critically examine television programs and films that are concerned with law, lawyers and justice. This course will study them with a view to discovering how popular culture constitutes law (the influence of popular culture on law) and how law helps create popular cultural understandings of justice, including popular perceptions of lawyers and legal institutions (the influence of law on popular culture). This course will theorize about the capacity of law and popular culture to generate social meaning. This course will use a number of theoretical approaches including: critical legal studies, feminist legal theory, film studies, conflict resolution theory, and cultural studies theory. These theories will inform readings of the TV shows and movies, and will help students critically question the visions of justice advanced by both the theories and the popular culture. In doing so, the course also critiques the jurisprudence (or legal philosophy) offered in popular culture films and television shows and examines key concepts such as justice and equality. May not be held with LAW 3980 when titled "Law and Popular Culture."

LAW 3338 Sentencing 3 cr

The vast majority of criminal charges result in a conviction, whether by guilty plea or conviction at trial. This seminar focuses on the principles and practice of sentencing, while also looking in some detail at the sanction of imprisonment, penal policy and prisoner's rights. This course will be run as an advanced seminar class. May not be held with LAW 3980 when titled "Sentencing".

LAW 3340 Advanced Advocacy 3 cr

Advanced topics in trial presentation, procedure and evidence with concentration on jury trials.

LAW 3342 Agency and Partnership 3 cr

This course deals comprehensively with the law of agency, including the various ways in which and authorities with which an agent can be empowered, the contractual and tort liabilities of Principals, Agents and Third Party's arising from an exercise of authority by Agents, and the duties and rights of Agents. The pairing of the law of agency and partnership is natural because the law of agency is a foundational pillar of the partnership business form. Next to the corporation, partnership is the most common form in which entrepreneurs carry on business. The course will provide an introduction to the law governing partnerships. May not be held with LAW 3980 when titled "Agency and Partnership".

LAW 3344 Internships 3 cr

This course will serve as a bridge between the academic study of law and the practice of law. Connecting academic study with community service through structured reflection contributes to learning that is deeper, longer lasting and more generalizable to new situations and contexts. An Internship will provide opportunities for cooperative experiences and addressing legal problems, this will require students to engage in problem solving by drawing on the substantive knowledge they have acquired over the course of their law studies. May not be held with LAW 3250 when titled "Current Legal Problems - Internship". This course is graded on a pass/fail basis.

LAW 3346 Access to Justice 3 cr

This course explores how individuals seek to manage their legal problems by engaging with and navigating the civil justice system in Manitoba. Topics which may be covered in the course include: public legal services; the proliferation of self-represented litigants; the role of pro bono services; rural and remote Access to Justice (A2J); the costs of justice; the state of A2J research; the provision of legal services by non-lawyers; on line dispute resolution; and, technology, innovation and the legal practice of the future. May not be held with LAW 3980 when titled "Access to Justice".

LAW 3348 Bankruptcy and Insolvency 3 cr

This course provides students with an introduction to Canadian bankruptcy insolvency law under the Bankruptcy and Insolvency Act. By the end of the course students will understand the main components of Canadian bankruptcy and insolvency law as well as the key policy issues. May not be held with LAW 3980 when titled "Bankruptcy and Insolvency".

LAW 3352 Sexual Expression, Conduct and Work in Canada 3 cr

This course surveys selected issues involving sexual work, performances, expression and the criminal law. The main focus of the course is on the development of obscenity and indecency laws, prostitution-related laws, voyeurism laws, artistic expression, revenge pornography, cyber sexual crimes, bestiality laws, campus sexual regulation and hateful sexual speech. Study of these topic areas is based on a doctrinal, socio-legal and anthropological history of sexual regulation beginning in ancient Pompeii and leads to an assessment of law in modern day Canada. The course thus explores theories underpinning freedom of expression, equality and liberty. The course engages doctrinal issues in criminal law, constitutional law, tort law and to a certain extent, jurisprudence and the philosophies inherent in law and society approaches. WARNING: This course contains graphic (though legal) sexual content. May not be held with LAW 3980 when titled "Sexual Expression, Conduct and Work in Canada".

LAW 3354 Moot Researcher 3 cr

The Moot Researcher will be expected to conduct the research necessary for a University of Manitoba team for a specific national moot competition. The Moot Researcher must actively participate in the writing and editing of a factum and attend all meetings of the moot team as a group, including oral advocacy practices. The workload of the researcher is expected to be closely monitored by the faculty supervisor. Activities assigned by the supervisor might include the following: attending the competition with the moot team, to conduct exigent research arising at the competition; writing memorandums of law or bench memos to assist with the factum preparation or questions arising out of practices; and writing a reflective paper. The researcher will be required to docket her/his time. Although considerable time and effort is involved, the exercise provides a unique and rewarding development of the skills necessary for appellate research. May not be held with LAW 3250 when titled "Moot Researcher." This course is graded on a pass/fail basis.

LAW 3360 Advanced Legal Research 3 cr

This course will provide students with the wherewithal to conduct legal research across a number of jurisdictions using both print and digital formats. Students are evaluated on a number of research exercises, a midterm examination, a major research pathfinder and a presentation of research results.

LAW 3362 Animals and the Law 3 cr

From a law perspective, the study of animals thus provides opportunity to think critically about: Crown ownership versus private property ownership; regulatory takings; natural resources and environmental legal frameworks; tort law; trade law; property law; intellectual property and regulation of biotechnology; regulation of food and agriculture; migrant workers and employment and immigration law and policy; animal health and welfare; animal rights and standing; and ultimately, the role of law. May not be held with LAW 3980 when titled "Animals and the Law".

LAW 3364 Law and Resistance 3 cr

This course examines the intersections between law and resistance, including the ways in which individuals, groups and/or communities may challenge the dominant power of various entities (governments, institutions, corporations or other organizations, Indigenous communities) or individuals and the decisions they make and the actions they take. The course shall also explore the spectrum of responses that legal systems employ to legitimize or punish the conduct of such resisters. Acts of resistance may have an impact (directly or indirectly) in shaping the law-its creation, interpretation or enforcement. May not be held with LAW 3980 when titled "Law and Resistance".

LAW 3370 The Legislative Process 3 cr

A study of how statutes and regulations are made in the Province of Manitoba, and how lawyers can effectively represent their clients in the context of lawmaking by politicians, civil servants and regulators.

LAW 3380 Issues in Law and Bio Ethics 3 cr

The course deals with the legal aspects of prevention, creation, alteration, maintenance and termination of life through medical and other scientific means.

LAW 3392 Securities Law 3 cr

A study of the basic concepts and application of the securities regulatory system in Canada. May not be held with LAW 3390.

Mutually Exclusive: LAW 3390

LAW 3394 Internet and E-Commerce Law 3 cr

This is a perspectives course. It will cover legislation, case law and practical drafting techniques in many areas in order to better equip students in the practice of law, and at the same time invite students to reflect upon the political and social issues that arise as "cyberlaw" develops. Subject matter of the course: The legislation, court decisions, policy debates and practical drafting and litigation techniques connected with the internet and e-commerce. A variety of issues will be covered, including: freedom of expression issues, jurisdiction, internet speech regulation; online privacy issues; intellectual property issues, including domain names and downloading of copyright material; internet commerce issues, such as the law of contracts pertaining to online contracting. May not be held with LAW 3980 when titled "Internet and Ecommerce Law".

LAW 3410 Canadian Legal History 3 cr

The historical background of the Canadian legal system.

LAW 3450 Remedies 3 cr

A study of the law relating to damages, specific performance, injunctions, and other equitable remedies.

LAW 3510 Corporate Taxation 3 cr

A study of federal tax laws as they affect corporation income, as well as a discussion of the effects of income tax laws on corporate and other commercial planning.

LAW 3520 Taxation of Trusts and Estates 3 cr

A study of taxation principles as they relate to partnership and trust income and estate planning.

LAW 3530 Administrative Law 3 cr

An introduction to administrative law generally, with concentration on the judicial review of the exercise of statutory authority by administrative entities.

LAW 3532 Intensive Criminal Law 3 cr

This course follows the general introduction to the complexities and principles of criminal law presented in earlier courses on criminal law and evidence. It emphasizes the ways in which these complexities and principles play out in practice and has a strong practical component. It is well-suited for students considering working in the field of criminal law. The first half of the course will address the demands placed on prosecutors and defence counsel at various points of a prosecution, including, inter alia, application for judicial interim release, the preparation of pre-trial motions, direct and cross-examination, and sentencing. These demands are not only statutory, but also logistical, tactical and ethical. The second half of the course will look at these demands in the context of certain "special" criminal law contexts, including, inter alia, impaired driving, young offenders, domestic violence, and drug prosecutions. Registration restricted to students in Year 3. May not be held with LAW 3250 when titled "Intensive Criminal Law". Grading: Pass/Fail.

LAW 3590 Charter Issues in Criminal Law 3 cr

The rules of Criminal Procedure and principles underlying and unifying such rules with a particular emphasis on the effect of the Charter of Rights and Freedoms on those rules.

LAW 3600 Environmental Law 3 cr

The balance between technical development and the life-support capacity of the environment. The acquisition and nature of private rights in natural resources and their control by legislation and common law. Remedies for environmental degradation. Constitutional and international legal issues.

LAW 3620 Comparative Law 3 cr

An introduction to civil law; a brief historical survey, codification, judicial philosophy, detailed study of selected comparative law topics in tort and contract with special reference to the Civil Code of the Province of Quebec. An introduction to Soviet law, detailed study of selected topics in Soviet law.

LAW 3674 Advanced Public Law 3 cr

This course provides students with a fuller appreciation and knowledge of several topics of interest and importance for Canadian public law, including the changing boundaries of public law in our "shrinking" state, the scope and meaning of judicial, administrative and bureaucratic independence, the role of international human rights norms in Canadian constitutional and administrative law, the intersection between the Canadian Charter of Rights and Freedoms and administrative law and the role of guidelines, policies and other "soft law" in public administration. Although focused on Canadian public law, the course may include a comparative component and draw from the public law experience of other jurisdictions. May not be held with LAW 3980 when titled "Advanced Public Law".

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: LAW 3530.

LAW 3690 Real Estate Transactions 3 cr

The law relating to vendors and purchasers of land and to mortgages and other security on land.

LAW 3740 Public International Law 3 cr

Public international law has a complex history, one that lends itself to conflicting interpretations. It has also been the object of a variety of competing theoretical projects, most of which diverge radically on questions of form and substance. This course provides an historically and theoretically reinforced introduction to the basic rules, principles, and institutions of public international law.

LAW 3770 Labour-Management Relations 3 cr

A survey of the development of trade unions; their present status under both federal and provincial legislation regarding the right of association, collective bargaining, and the settlement of disputes.

LAW 3824 Scholarly Publications 3 cr

The course will provide students with hands-on experience in working with scholarly writing. Students will develop their evaluation and critical analysis skills through the process of editing for publication all submissions to the Journal. May not be held with the former LAW 3820 or the former LAW 3822. Grading: Pass/Fail.

Mutually Exclusive: LAW 3822

LAW 3826 Advanced Scholarly Publications 3 cr

The course will provide students with hands-on experience in working with scholarly writing. Students will develop their evaluation and critical analysis skills through the process of completing full substantive and copy edits on two or three articles during the course of the year. Working as Senior Editors students will develop their interpersonal skills by communicating with authors and by supervising and managing the work of Junior Editors. May not be held with LAW 3250 when titled "Advanced Scholarly Publications". Grading: Pass/Fail.

LAW 3828 Preventing Wrongful Convictions 3 cr

This course examines the causes of wrongful convictions, how to avoid them, detection mechanisms and remedies that should be provided under international instruments when a miscarriage of justice has occurred. The course starts by examining the environmental factors that nurture a miscarriage of justice, including the adversarial system of criminal justice. It then examines the role of the various players in the criminal justice system, and how each can inadvertently feed into a wrongful conviction - individually, or in combination with other factors. May not be held with LAW 3980 when titled "Preventing Wrongful Convictions".

LAW 3832 Legal Aid Clinic 3 cr

Students who are selected to act as student supervisors at the University Law Centre during the summer and who continue to actively serve the University Law Centre during their third year may, by successfully completing a written assignment approved by a faculty supervisor, opt for the Legal Aid Clinic. May not be held with LAW 3830. Grading: Pass/Fail.

Mutually Exclusive: LAW 3830

LAW 3852 Private International Law 3 cr

It has to do with choosing what place to sue, what law applies when the law of more than one place might apply, and with the enforceability of judgments through foreign courts. May not be held with LAW 3850.

Equip To: LAW 3850

LAW 3862 Business Transactions: The Art of the Deal 6 cr

A study, involving practical exercises of certain aspects of solicitors' work, including interviewing, negotiating, counseling and memo writing.

LAW 3880 Municipal and Planning Law 3 cr

A general course in municipal law, including important aspects of land-use control and planning law. Although the course deals generally with the nature, structure, functions, and powers of the various units comprising the local level of government, the focus is primarily on municipal corporations. Topics covered include assessment and taxation, land-use planning and control, tort liability, judicial review of bylaws, qualification and accountability of councillors, and the law relating to expropriation, as well as some discussion of contemporary urban problems.

LAW 3940 Canadian Charter of Rights and Freedoms 3 cr

An in-depth study of the legal, philosophical and historical foundations of the Canadian Charter of Rights and Freedoms. Included is a study of both the American and European experience with Charters of Rights as well as Canadian case law.

LAW 3980 Current Legal Problems B 3 cr

Critical and constructive study, at an advanced level, of a significant major subject or set of topics.

LAW 3990 Externship 12 cr

The primary purpose of the Externship is to allow students an opportunity to work in a legal context where they gain professional knowledge and skills related to law, the legal profession and legal practice. Particular emphasis will be given to questions of professional responsibility and ethics. Within the workplace, students will be required to participate in various forms of exercises and to conduct work within an actual work setting where they face real day-to-day work situations under the supervision of practicing lawyers. Depending on the nature of the placement, they may be required to engage in classroom work. Registration restricted to students in Year 3. Grading: Pass/Fail.

Leadership (LEAD)

LEAD 2010 Learning to Lead 3 cr

This seminar provides students with an introduction to and understanding of effective leadership and its application to a variety of group and organizational contexts. The classes encourage interdisciplinary discussions of theoretical, philosophical, historical, and technical elements of effective leadership. The course allows students to reflect on and develop their own leadership style through interactive lectures, experiential activities, and action learning in groups and organizations in which students want to lead and be led. This seminar is intended for all students that have an interest in leadership theory and effective leadership practices. Students may not hold credit for both LEAD 2010 and ARTS 1160.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Students must have completed 15 credit hours of passed courses to register in LEAD 2010.

Mutually Exclusive: ARTS 1160

LEAD 3010 Negotiation and Conflict Management 3 cr

Leaders are regularly called upon to manage conflict, promote cooperation, and resolve competing interests. With a focus on negotiation as a means of conflict resolution, this course blends contemporary research and theory with practical, first-hand experience. Students' effectiveness as negotiators will be developed with readings and class discussions focused on the social and psychological underpinnings of negotiation, and applied with weekly hands-on experiences, ranging from bilateral bargaining games to complex, multi-issue, multilateral negotiation scenarios.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: Year three standing (or by permission of instructor).

LEAD 3020 Team Building and Diversity 3 cr

The ability to work effectively with team members is crucial to individual functioning and promotion within organizations. This course examines the structure and dynamics of teams with an aim to understanding team-building, team dynamics, diversity, and managing team conflict. Part of working effectively in teams is understanding diversity and how to encourage collaboration in diverse teams. This course will therefore cover topics related to diversity and cross-cultural awareness. Equivalent to but students may not hold credit for LEAD 3020 and GMGT 3020 with topics Diversity Management and Team Building or Diversity Management or Team Building.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: GMGT 2060 (D) [or GMGT 2080 (D)] and GMGT 2070 (D).

Equiv To: GMGT 3020

LEAD 3030 Corporate, Social, and Environmental Responsibility 3 cr

This course examines the responsibilities of business that accompany maximizing shareholder wealth. This includes balancing the needs of a variety of stakeholders (including owners, employees, customers, suppliers, competitors, neighbours, future generations) among a variety of forms of well-being (e.g. financial, ecological, environmental, social, spiritual, physical). Students will learn theory and best practices. Students are encouraged to take this course in the final two years of their program of studies at the I.H. Asper School of Business.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: GMGT 1010 (D) and GMGT 2060 (D) [or GMGT 2080] (D).

LEAD 3040 Special Topics in Leadership and Organization 3 cr

The content of this course will change from year to year based on: cutting edge topics, research innovations, and trends in leadership. Example topics might include: Organizational Health and Safety; Organizational Justice; Women and Leadership; Advanced Organizational Behaviour; Advanced Organizational Theory.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: GMGT 2060 (D) [or GMGT 2080 (D)] and GMGT 2070 (D), or by permission of instructor.

LEAD 4010 Leading Change 3 cr

Organizations regularly face change due to market demands, competition, and economic pressures. The ability to lead change effectively is crucial to organizational success. This course will focus on how to: understand resistance to change, manage change processes, and support employees in times of uncertainty.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: GMGT 2060 (D) [or GMGT 2080] (D) and GMGT 2070 (D).

LEAD 4020 Leadership, Power and Politics in Organizations 3 cr

This course provides students with an introduction to and understanding of effective leadership and its application to a variety of group and organizational contexts. The course will also describe and enable students to make sense of organizations as political entities and understanding the use of power and social influence. The classes encourage interdisciplinary discussions of theoretical, historical, and practical elements of effective leadership and power. Through interactive lectures and experiential activities, students will have the opportunity to reflect on and develop their own leadership style, to understand how to use and manage power, and to recognize and apply social influence tactics. Students entering second year are strongly recommended to take LEAD 2010 prior to taking LEAD 4020.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: GMGT 2070 (D).

Linguistics (LING)

LING 1000 Introduction to Linguistics 3 cr

Introduction to the scientific study of human language. Basic principles of sound systems, word structure, sentence structure, and meaning across the languages of the world. May not be held with the former LING 1200.

Mutually Exclusive: LING 1200

Attributes: Social Science, Recommended Intro Courses

LING 1010 Language in Context 3 cr

Language as a communication system embedded in a particular geographical, historical, and social context. Psychological and neurological aspects of language. Acquisition of first and second languages. May not be held with the former LING 1200.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in LING 1000] or written consent of instructor.

Mutually Exclusive: LING 1200

Attributes: Social Science, Recommended Intro Courses

LING 1310 Indigenous Languages of Manitoba 3 cr

A survey of the linguistic structure, history, and current status of the languages and language families that are indigenous to Manitoba.

Attributes: Social Science, Recommended Intro Courses

LING 1360 Languages of Canada 3 cr

A survey of languages and linguistic problems encountered in North America, with particular attention to questions of relationship and classification. Examples will be drawn from both indigenous and immigrant languages.

Attributes: Social Science

LING 1440 Descriptive Grammar of Modern English 3 cr

What are the criteria that are used to distinguish "good" from "bad" grammar? What are the rules we need to know in order to speak and write "properly"? In focusing on basic concepts in traditional grammar, this course reviews parts of speech, the English tense system, sentence types (e.g., active vs. passive), question formation and types of embedded clauses. It examines the rules of traditional grammar and explores the linguistic structures that lie behind the rules. This course is not intended for students learning English; it presupposes native or near-native competence in English. Not open to students who are currently enrolled in, or have previously obtained credit in LING 2400 or the former LING 2200.

Mutually Exclusive: LING 2200, LING 2400

Attributes: Social Science

LING 1460 Words 3 cr

What is a word? How do the meanings and forms of words change over time? This course provides an introduction to the structure and history of words, with special attention to the origins of English vocabulary.

Attributes: Social Science, Recommended Intro Courses

LING 1620 Language and the Media 3 cr

The study of how language interacts with media. Investigation of the forms of language found in media discourse; how patterns in such language use contribute to recognizable media genres and styles; social themes and consequences that arise from media language.

Attributes: Social Science, Recommended Intro Courses

LING 2100 Phonetics and Phonology 3 cr

Fundamentals of the linguistic study of speech sounds. Exercises in phonetic transcription and phonological analysis in a variety of languages. May not be held with the former LING 1380 or the former LING 2420.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in LING 1000 or the former LING 1200] or written consent of instructor.

Mutually Exclusive: LING 1380, LING 2420

Attributes: Social Science

LING 2202 Multilingualism 3 cr

Study of various aspects of multilingualism from a sociolinguistic perspective. The course will introduce concepts such as bilingualism, diglossia, pidgins and creoles, code-switching, language maintenance, language loss and language shift, language policy and planning, language revitalization, and linguistic landscape.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [LING 1010 or the former LING 1200] or written consent of instructor.

Attributes: Social Science

LING 2210 Language and Gender 3 cr

An exploration of the multiple relationships between language and gender. How are gender differences manifested and perpetuated through language use? How are these differences acquired, and what do they reflect? How does gender interact with other factors such as class, sexual orientation, and ethnicity in language? May not be held with the former LING 1420.

Mutually Exclusive: LING 1420

Attributes: Social Science

LING 2330 Historical Linguistics 3 cr

How languages change over time at all levels of linguistic structure. Methods for reconstructing earlier linguistic stages. Language families and linguistic prehistory. May not be held with the former LING 2640.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in LING 1010 or the former LING 1200] or written consent of instructor.

Equiv To: LING 2640

Attributes: Social Science

LING 2340 Language Endangerment 3 cr

A survey of the causes and effects of language shift and language loss, as well as techniques for the documentation and revitalization of endangered languages. Students may not hold credit for both LING 2340 and the former LING 3820 when titled "Language Endangerment and Language Revitalization."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in LING 1000 or the former LING 1200] or written consent of instructor.

Mutually Exclusive: LING 3820

Attributes: Social Science

LING 2400 Morphology and Syntax 3 cr

Fundamentals of the linguistic study of the structure of words and sentences. Exercises in morphological and syntactic analysis in a variety of languages. May not be held with the former LING 2200 or the former LING 2460.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in LING 1000 or the former LING 1200] or written consent of instructor.

Mutually Exclusive: LING 1440, LING 2200, LING 2460

Attributes: Social Science

LING 2500 Semantics and Pragmatics 3 cr

This course introduces students to basic theories of semantics and pragmatics, with application to the analysis of linguistic data. Topics covered include sense vs. reference, lexical relations, presupposition and topicality, participant roles, information structure, speech acts, metaphor, and metonymy.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in LING 1000 or the former LING 1200] or written consent of instructor.

Attributes: Social Science

LING 2600 Verbal Art 3 cr

Puns, punchlines, slogans and the chant of the auctioneer are as much instances of verbal art as are rhetorical flourishes and formal literary structures. With spoken language as its major focus, this course draws on a variety of languages, sources and genres to study artistic and playful uses of language.

Attributes: Social Science

LING 2740 Interpretation Theory 3 cr

A survey of interpretation theory, including specifics of language use and problems in the transfer of linguistic, cultural, and pragmatic information in interpretation, the interpreter's access to meaning, and the development of theories of interpretation. This course draws heavily on the field of ASL/English interpretation for illustration, but knowledge of ASL is not a requirement.

Attributes: Social Science, Written English Requirement

LING 2800 Communication Disorders 3 cr

A general introduction to the major pathologies of speech, language and hearing as viewed against the background of normal linguistic structures and functions. The distinction between mechanically- and neurologically-based disorders is illustrated in terms of aetiology, diagnosis and approaches to treatment.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in LING 1000 or the former LING 1200] or written consent of instructor.

Attributes: Social Science

LING 2840 Anatomy of Speech Production 3 cr

An intensive survey of the principal organs of speech and hearing, their embryology, and the general features of their evolutionary history. Some consideration will also be given to their pathological impairment. May not be held with the former LING 2830.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [LING 1000 or the former LING 1200] or written consent of instructor.

Equiv To: LING 2830

Attributes: Social Science

LING 2870 Neuroanatomy of Hearing and Speech 3 cr

A survey of the structures of the central and peripheral nervous systems as they relate to the production and perception of speech and the processing of language. Includes a survey of linguistic aphasiology and a review of neurological deficits associated with abnormal language behaviour. May not be held with the former LING 2850.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in LING 1000 or the former LING 1200] or written consent of instructor.

Equiv To: LING 2850

Attributes: Social Science

LING 3110 Phonological Analysis 3 cr

Key concepts in segmental and suprasegmental phonology. Emphasis on the development of skills in analysis and argumentation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in LING 2100 or the former LING 2420] or written consent of instructor.

Attributes: Social Science

LING 3130 Acoustic Phonetics 3 cr

The physical principles involved in the production, propagation and reception of sound. The subjective characteristics of sounds (loudness, pitch and quality) are related to their objective parameters (intensity, frequency and spectrum). The physical methods and the types of equipment used to analyze the basic physical properties of sounds will be demonstrated. May not be held with the former LING 2880.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in LING 2100 or the former LING 1380] or written consent of instructor.

Mutually Exclusive: LING 2880

Attributes: Social Science

LING 3210 Sociolinguistics 3 cr

Study of the relationship between language and its social context. This course explores aspects of linguistic variation within and across speech communities, and considers language variation according to the socio-economic status, ethnicity, age, gender, and geographical distribution of its speakers. It will also cover other topics such as identity and ideology. May not be held with the former LING 2620.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [a grade of "C" or better in both LING 1010 (or the former LING 1200) and LING 2210 (or the former LING 1420)] or written consent of instructor.

Mutually Exclusive: LING 2620

Attributes: Social Science

LING 3310 Structure of a Specific Language 3 cr

Every language has unique properties that deepen our overall understanding of linguistic structure. In this course, the phonology, morphology, and syntax of a specific language are systematically explored on the basis of field records and descriptions which have become classics. The language of study will vary from year to year. May not be held with the former LING 3200.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [a grade of "C" or better in each of LING 2100 (or the former LING 2420) and LING 2400 (or the former LING 2200)] or written consent of instructor.

Mutually Exclusive: LING 3200

Attributes: Social Science

LING 3320 Structure of an Algonquian Language 3 cr

Introduction to the linguistic analysis of the languages of the Algonquian family through the in-depth study of the structure of a particular Algonquian language. The language of study will vary from year to year. Students may not hold credit for LING 3320 and any of: NATV 3222 or NATV 3224 or the former NATV 2320 or the former LING 3200 or the former LING 3820 when titled "Structure of the Cree Language" or "Structure of the Ojibway Language."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [a grade of "C" or better in each of LING 2100 (or the former LING 2420) and LING 2400 (or the former LING 2200)] or written consent of instructor.

Equiv To: NATV 3222, NATV 3224

Mutually Exclusive: LING 3200, LING 3820, NATV 2320

Attributes: Social Science

LING 3330 Structure of ASL 3 cr

An examination of ASL as a signed, as opposed to spoken, language. Topics include phonetic, phonological, morphological and syntactic structures. May not be held with the former LING 3300.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in LING 2400 or the former LING 2200] or written consent of instructor.

Mutually Exclusive: LING 3300

Attributes: Social Science

LING 3340 ASL in Context 3 cr

This course situates the structure and use of ASL in a broader context, drawing on perspectives from fields such as discourse analysis, cognitive linguistics, sociolinguistics, and language acquisition. May not be held with the former LING 3300.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in LING 1000 or the former LING 1200] or written consent of instructor.

Mutually Exclusive: LING 3300

Attributes: Social Science

LING 3350 Language and Gesture 3 cr

While it was once thought that gestures were more or less peripheral to language and were used in largely non-principled ways, current studies continue to build evidence that gesture is central to meaning construction. This course looks at current thought and theory regarding the role of gesture from an evolutionary perspective, as semantic and grammatical units, as co-speech elements, and in signed language. Students may not hold credit for both LING 3350 and LING 3840 when titled "Language and Gesture."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in 9 credit hours of Linguistics courses] or written consent of instructor.

Mutually Exclusive: LING 3840

Attributes: Social Science

LING 3410 Syntactic Analysis 3 cr

An exploration of problems in the structure of phrases and clauses, including typological variation and connections with morphology and semantics. Emphasis on the development of skills in analysis and argumentation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in LING 2400 or the former LING 2200 or the former LING 2460] or written consent of instructor.

Attributes: Social Science

LING 3510 Cognitive Semantics 3 cr

This course examines meaning from a cognitive linguistics viewpoint, including embodied meaning and embodied language, the 'viewer' and the thing being viewed, construal and image schemas, mental network and mental spaces theories, subjective and intersubjective meaning, metaphor and metonymy theory, and the role of language usage in building semantic knowledge.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [LING 2500 (C+) Semantics and Pragmatics] or written consent of instructor.

Attributes: Social Science

LING 3860 Child Language Development 3 cr

The study of first language acquisition from infancy through childhood. Aspects of phonology, morphology, pragmatics and syntax acquisition are discussed, as well as formal theories of acquisition, second language and bilingual acquisition, atypical development and the relationship of language acquisition with literacy. Also offered as PSYC 3860. Students may not hold credit for LING 3860 and any of: PSYC 3860 or the former LING 2860 or the former PSYC 2860.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [a grade of "C" or better in 9 credit hours of Linguistics courses] or [a grade of "C" or better in PSYC 2290 or PSYC 2291] or written consent of department head.

Equip To: LING 2860, PSYC 2860, PSYC 3860

Attributes: Social Science

LING 3880 Second Language Acquisition 3 cr

Theories, methods, and findings concerning the various aspects of learning a second language. Examination of variables that impact second language acquisition and development. May not be held with the former LING 2720.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in LING 1010 or the former LING 1200] or written consent of instructor.

Mutually Exclusive: LING 2720

Attributes: Social Science

LING 4110 Phonological Theory 3 cr

Contemporary approaches to the study of sound systems are introduced through the examination of selected phonological issues drawn from the primary research literature. May not be held with the former LING 3140.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C+" or better in LING 3110 or the former LING 2420] or written consent of instructor.

Mutually Exclusive: LING 3140

Attributes: Social Science

LING 4210 Language Variation and Change 3 cr

The field of variationist sociolinguistics is introduced through a survey of the primary research literature and practical experience in methods of data collection and analysis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C+" or better in LING 3210 or the former LING 2620] or written consent of instructor.

Attributes: Social Science

LING 4300 Field Methods 3 cr

Working with a speaker of an unfamiliar (and, usually, unrecorded) language, students are apprenticed in the collection, analysis, and interpretation of raw data. May not be held with the former LING 3400.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C+" or better in both LING 3110 (or the former LING 2420) and LING 3410 (or the former LING 2200)] or written consent of instructor.

Mutually Exclusive: LING 3400

Attributes: Social Science

LING 4410 Syntactic Theory 3 cr

The goals and tenets of contemporary syntactic theory are introduced through the examination of selected syntactic issues drawn from the primary research literature. May not be held with the former LING 3120.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C+" or better in LING 3410 or the former LING 2200] or written consent of instructor.

Mutually Exclusive: LING 3120

Attributes: Social Science

LING 4920 Topics in Linguistics 3 cr

Topics of current interest in linguistics.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Attributes: Social Science

LING 4930 Topics in ASL 3 cr

Topics of current interest in ASL linguistics.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Attributes: Social Science

LING 4940 Special Studies 3 cr

Supervised study on a topic in linguistics.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of instructor. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Attributes: Social Science

Management Info. Systems (MIS)

MIS 2000 Information Systems for Management 3 cr

(Lab required) Introduction to information systems in organizations, systems development/acquisition, and management issues concerning information technology in organizations.

Equiv To: MIS 2001

MIS 3010 Business Data Analytics 3 cr

The course covers the process of data analysis: extracting, transforming, analyzing, visualizing, and interpreting data by using popular analytics software and techniques. May not be held with MIS 4250 when titled "Data Analytics".

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MIS 2000 (C+) or MIS 2001 (C+).

Mutually Exclusive: MIS 4250

MIS 3500 Database Management Systems 3 cr

Designing, developing and managing database systems, by using mainstream design methodologies and popular development tools.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [MIS 3510 (D)] and [COMP 1010 (C)].

MIS 3510 Systems Analysis and Design 3 cr

Analyzing business tasks, processes, information and information technology, and designing information systems by employing methodologies, techniques and popular software used by information systems professionals.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MIS 2000 (C+).

MIS 3520 Data Communications and Networking 3 cr

A study of basic data communications topics, including communication media, protocols, network security, network topologies (local and wide area networks), Web development and network management issues.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MIS 2000 (C+).

MIS 4250 Advanced Topics in Management Information Systems 3 cr

A study of current issues in MIS. The topics for this course will vary over time, depending on student interests, faculty interests, and student demand. Not offered every year.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

Mutually Exclusive: MIS 3010

MIS 4500 Management Information Systems Strategy 3 cr

A survey of the various issues associated with managing information as a resource. Explores MIS planning frameworks and tools, and the linkages between information systems, organizational structure and organizational strategy. A survey of the various issues associated with managing information as a resource. Explores MIS planning frameworks and tools, and the linkages between information systems, organizational structure and organizational strategy.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: at least two of the following: ACC 3530 (D), MIS 3500 (D), MIS 3510 (D), MIS 3520 (D), MIS 4250 (D).

Management Science (MSCI)

MSCI 2150 Introduction to Management Sciences 3 cr

An introduction to management science techniques and models. Topics include linear programming, distribution problems, decision theory and queuing models. May not be held with ABIZ 2520 or MSCI 2151.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [a grade of "C" or better in MATH 1230 or MATH 1520 or MATH 1500 (or MATH 1501)] and [a grade of "C" or better in STAT 1000 (or STAT 1001) or STAT 1150].

Equiv To: ABIZ 2520, MSCI 2151

MSCI 3400 Intermediate Management Science 3 cr

Operations research models used in the analysis of management problems. Topics include network analysis, deterministic inventory models, dynamic programming and game theory.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MSCI 2150 (D) or consent of instructor.

Equiv To: MSCI 3401

MSCI 4200 Topics in Management Science 3 cr

Topics of current interest in management science. Not taught every year.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MSCI 2150 (D).

MSCI 4220 Management Science Models in Business and Industry 3 cr

An applied course providing practical experience in modeling and solving business and industrial problems. Emphasis to be placed upon analysis, formulation, solution and implementation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MSCI 3400 (D) or MSCI 4200 (D) or MSCI 4230 (D) or MSCI 4200 (D).

Marketing (MKT)

MKT 2210 Fundamentals of Marketing 3 cr

Analysis of marketing problems, emphasizing various alternatives available for achieving economic efficiency in the distribution process; public policy with respect to marketing.

Equiv To: MKT 2211

Attributes: Recommended Intro Courses

MKT 3220 Marketing Research 3 cr

Study of the planning and implementation of research required to make informed marketing decisions. May not be held with MKT 3221.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MKT 2210 (D) or MKT 2211 (D) or consent of instructor.

Equiv To: MKT 3221

MKT 3230 Consumer Behaviour 3 cr

Study of buying behaviour of individuals and organizations as affected by psychological and sociological forces within society.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MKT 2210 (D).

Equiv To: MKT 3231

MKT 3240 Selected Topics in Marketing 3 cr

Analysis of marketing as it relates to specialized fields.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MKT 2210 (D).

Mutually Exclusive: MKT 3242, MKT 3246, MKT 3248

MKT 3242 Brand Management 3 cr

Examination of the holistic and integrative considerations that affect brand management. May not be held with MKT 3240 when titled "Branding".

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MKT 2210 (D) or MKT 2211 (D).

Mutually Exclusive: MKT 3240

MKT 3246 Sustainability Marketing 3 cr

This course will examine strategies that organizations can adopt to be successful in meeting the triple bottom line (people, planet, profit) within the broader framework of sustainability. May not be held with MKT 3240 when titled "Sustainability Marketing". Prerequisites: MKT 2210 (D) or MKT 2211 (D).

Mutually Exclusive: MKT 3240

MKT 3248 Digital Marketing 3 cr

This course will explore various digital marketing channels, best practices, tools and techniques to analyze how marketing strategies and tactics are used to capture opportunities and create value for consumers in the digital age. May not be held with MKT 3240 when titled Digital Marketing.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MKT 2210 (D) or MKT 2211 (D).

Mutually Exclusive: MKT 3240

MKT 3300 International Marketing 3 cr

A study of international similarities and differences in marketing structures, functions and processes as related to the socio-economic and cultural environment and a consideration of the opportunities and problems of international marketing.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MKT 2210 (D).

MKT 3310 Retail and Channel Management 3 cr

The study of the functions performed by traditional and e-commerce distributors. Topics include location and competitive analysis, promotion, merchandising, buying, design, selection and historical development. Topics include location and competitive analysis, promotion, merchandising, buying, design, selection and historical development.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MKT 2210 (D).

MKT 3340 Services Marketing 3 cr

An examination of the differences in the marketing of goods versus services. Topics covered include service process design and management, problem identification and resolution, positioning issues, the importance of human resources, and promotional issues.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MKT 2210 (D).

MKT 3390 Integrated Marketing Communications 3 cr

The process of using promotional tools in a unified way so that a synergistic communications is created. The course examines the roles of advertising, sales promotion, direct marketing, and the internet within this broader framework.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MKT 2210 (D).

MKT 4210 Marketing Management 3 cr

An examination of strategies and tactics marketing managers use for products and services at various stages in the product life cycle.

Uses qualitative and quantitative analyses to develop critical thinking essential for making marketing decisions. Can only be taken in final year of program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [MKT 3220 (D) or MKT 3230 (D)], and [one other 3000 or 4000 level Marketing course (D)], and [ACC 1110 (D)]. Pre- or co-requisite: either MKT 3220 (D) or MKT 3230 (D), but not both.

Equiv To: MKT 4211

MKT 4270 Sales Management 3 cr

The study of the management of the personal selling area including an examination of the selling function, the sales manager, and sales management.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MKT 2210 (D).

Equiv To: MKT 4271

Mathematics (MATH)

MATH 1010 Applied Finite Mathematics 3 cr

(Lab Required) For students needing to fill the requirement of a university level mathematics course. Introduces students to modern applications of discrete mathematics. Topics include: mathematics of finance, linear programming, graph theory, and game theory. This is a terminal course and may not be used as a prerequisite for other Mathematics courses.

This course cannot be used as part of an Honours, Major, General or Minor program in the mathematical sciences. Not available to any student already holding a grade of "C" or better in any Mathematics course with the exception of MATH 1020, FA 1020, the former MATH 1190 or MATH 1191. Not to be taken concurrently with any other Mathematics course with the exception of MATH 1020, FA 1020 or MATH 1191. No prerequisite.

Mutually Exclusive: MATH 1200, MATH 1201, MATH 1210, MATH 1211, MATH 1220, MATH 1230, MATH 1232, MATH 1240, MATH 1241, MATH 1300, MATH 1301, MATH 1310, MATH 1500, MATH 1501, MATH 1510, MATH 1520, MATH 1690, MATH 1700, MATH 1701, MATH 1710

Attributes: Mathematics Requirement, Science, Recommended Intro Courses

MATH 1018 Pre-Calculus in Practice 3 cr

(Lab required) Essential topics in pre-calculus, with an emphasis on applications and elementary mathematical modelling in the sciences. This course is intended primarily for students who do not have credit for Pre-calculus Mathematics 40S (60%) and wish to continue in a subsequent course in Mathematics. May not be used for credit in a Mathematics Honours, Joint Honours, or Major program. Not available to students who have previously obtained credit (grade of C or better) in MATH 1200, MATH 1201, MATH 1210, MATH 1211, MATH 1220, MATH 1230, MATH 1240, MATH 1241, MATH 1300, MATH 1301, MATH 1310, MATH 1500, MATH 1501, MATH 1510, MATH 1520, or MATH 1690.

Mutually Exclusive: MATH 1200, MATH 1201, MATH 1210, MATH 1211, MATH 1220, MATH 1232, MATH 1240, MATH 1241, MATH 1300, MATH 1301, MATH 1310, MATH 1500, MATH 1501, MATH 1510, MATH 1520, MATH 1690, MATH 1700, MATH 1701, MATH 1710

Attributes: Mathematics Requirement, Science, Recommended Intro Courses

MATH 1020 Mathematics in Art 3 cr

Specific theory, structuring systems, and mathematical methods and principles used in works of art from various historical periods and contexts will be explored in relation to Euclidean and non-Euclidean geometries. Topics include: linear perspective; shapes, patterns, balance and symmetry; ratio, proportion and harmony; and order, dynamics, and chaos. The course will be one half art and one half mathematics, team-taught by faculty from the School of Art and the Department of Mathematics. This course is also given in the School of Art as FA 1020. This is a terminal course and may not be used as a prerequisite for other Mathematics courses. This course cannot be used as part of an Honours, Major, General or Minor program in the mathematical sciences. Not available to any student already holding a grade of "C" or better in any Mathematics course with the exception of MATH 1010, the former MATH 1190, or MATH 1191. Not to be taken concurrently with any other Mathematics course with the exception of MATH 1010 or MATH 1191. No prerequisite.

Equiv To: FA 1020

Mutually Exclusive: MATH 1200, MATH 1201, MATH 1210, MATH 1211, MATH 1220, MATH 1230, MATH 1232, MATH 1240, MATH 1241, MATH 1300, MATH 1301, MATH 1310, MATH 1500, MATH 1501, MATH 1510, MATH 1520, MATH 1690, MATH 1700, MATH 1701, MATH 1710

Attributes: Mathematics Requirement, Science, Recommended Intro Courses

MATH 1080 Fundamentals of Mathematical Reasoning 3 cr

(Lab required) Logic, reasoning, problem solving, introduction to set theory, mathematical induction, introduction to number theory, bases of arithmetic and the standard algorithms, working with fractions and functions. The course is recommended for students intending to become early or middle years school teachers. This course cannot be used as part of an Honours, Major, General or Minor program in the mathematical sciences.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Pre-Calculus Mathematics 40S or the former Mathematics 40S (300) or a minimum grade of 65% in Applied Mathematics 40S or MSKL 0100 offered by Extended Education.

Attributes: Mathematics Requirement, Science, Recommended Intro Courses

MATH 1090 Mathematical Reasoning in Euclidean Geometry 3 cr

(Lab required) Introduction to Euclidean geometry with emphasis on mathematical reasoning. Perimeter, area, volume, triangle congruence, parallel lines and quadrilaterals, similarity, circles, coordinate geometry or transformation geometry. The course is recommended for students intending to become early or middle years school teachers. This course cannot be used as part of an Honours, Major, General or Minor program in the mathematical sciences.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 1080.

Attributes: Mathematics Requirement, Science, Recommended Intro Courses

MATH 1200 Elements of Discrete Mathematics 3 cr

(Lab Required) Sequences and series, trigonometry, complex numbers, algebra of polynomials, approximation of zeros of functions, linear difference equations. Not to be held with MATH 1210, MATH 1211 or MATH 1201. Not available to any student holding credit in any Mathematics course numbered 2000 or higher, unless MATH 1200 is a required course in a student's program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a minimum grade of 60% in Pre-calculus 40S or the former Mathematics 40S (300), or a grade of 60% or better in the MSKL 0100 offered by Extended Education.

Equiv To: MATH 1201

Mutually Exclusive: FA 1020, MATH 1010, MATH 1018, MATH 1020, MATH 1191, MATH 1210, MATH 1211

Attributes: Mathematics Requirement, Science, Recommended Intro Courses

MATH 1210 Techniques of Classical and Linear Algebra 3 cr

(Lab Required) To introduce a variety of practical algebraic concepts and skills necessary for the study of calculus and advanced engineering mathematics. The emphasis of this course is in the development of methodology and algebraic skill necessary for successful completion of subsequent engineering mathematics courses. This course is intended for Engineering and Geophysics students only. May not be held with MATH 1200, MATH 1201, MATH 1211, MATH 1220, MATH 1300, MATH 1301, or MATH 1310.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: a minimum grade of 60% in Pre-calculus Mathematics 40S or the former Mathematics 40S (300), or MSKL 0100 offered by Extended Education.

Equiv To: MATH 1211

Mutually Exclusive: FA 1020, MATH 1010, MATH 1018, MATH 1020, MATH 1191, MATH 1200, MATH 1201, MATH 1300, MATH 1301, MATH 1310

Attributes: Mathematics Requirement, Science, Recommended Intro Courses

MATH 1220 Linear Algebra 1 3 cr

(Lab required) This course is intended for students in mathematically rich disciplines including those planning to enter an Honours or Major program in Mathematics or Statistics. An introduction to vectors, matrices, systems of linear equations and three-dimensional geometry. May not be held with MATH 1210, MATH 1211, MATH 1300, MATH 1301, MATH 1310, or the former MATH 1680.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Pre-calculus Mathematics 40S (70%) or the former Mathematics 40S (300) (70%), or the MSKL 0100 offered Extended Education (B).

Mutually Exclusive: FA 1020, MATH 1010, MATH 1018, MATH 1020, MATH 1191, MATH 1210, MATH 1211, MATH 1300, MATH 1301, MATH 1310, MATH 1680

Attributes: Mathematics Requirement, Science, Recommended Intro Courses

MATH 1230 Differential Calculus 3 cr

(Lab required) The course is intended for students in mathematically rich disciplines including those planning to enter an Honours or Major program in Mathematics or Statistics. Rigorous treatment of limits, continuity, and differentiation (with epsilon-delta proofs), applications in optimization problems, related rates, l'Hopital's rule, curve sketching, Taylor polynomials. Not to be held with MATH 1500, MATH 1501, MATH 1510, MATH 1520, the former MATH 1680, or MATH 1690.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Pre-calculus Mathematics 40S (70%) or the former Mathematics 40S (300) (70%), or the MSKL 0100 offered by Extended Education (B).

Mutually Exclusive: FA 1020, MATH 1010, MATH 1018, MATH 1020, MATH 1191, MATH 1500, MATH 1510, MATH 1520, MATH 1680, MATH 1690

Attributes: Mathematics Requirement, Science, Recommended Intro Courses

MATH 1232 Integral Calculus 3 cr

(Lab required) This course is intended for students in mathematically rich disciplines including those planning to enter an Honours or Major program in Mathematics or Statistics. Integral calculus: theory and techniques of integration, curve sketching (parametric and polar), volume, arc length, surface area and partial derivatives. Sequences and series. Not to be held with MATH 1690, MATH 1700, MATH 1701, MATH 1710.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 1230 or MATH 1500 (B) or MATH 1501 (B) or MATH 1510 (B).

Mutually Exclusive: FA 1020, MATH 1010, MATH 1018, MATH 1020, MATH 1191, MATH 1690, MATH 1700, MATH 1710

Attributes: Mathematics Requirement, Science, Recommended Intro Courses

MATH 1240 Elementary Discrete Mathematics 3 cr

(Lab required) The course is intended for students in mathematically rich disciplines including those planning to enter an Honours or Major program in Mathematics or Statistics. An introduction to mathematical ideas, proof, techniques, and mathematical writing, explored through topics in discrete mathematics. May not be held with MATH 1241 or MATH 3120.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Pre-calculus Mathematics 40S (60%) or the former Mathematics 40S (300) (60%), or MSKL 0100.

Equiv To: MATH 1241

Mutually Exclusive: FA 1020, MATH 1010, MATH 1018, MATH 1020, MATH 1191, MATH 3120

Attributes: Mathematics Requirement, Science, Recommended Intro Courses

MATH 1300 Vector Geometry and Linear Algebra 3 cr

(Lab Required) An introduction to vectors, matrices, systems of linear equations and three-dimensional geometry. May not be held for credit with MATH 1210, MATH 1211, MATH 1220, MATH 1310, MATH 1301, or the former MATH 1680.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a minimum grade of 60% in Pre-calculus Mathematics 40S or the former Mathematics 40S (300), or MSKL 0100 offered by Extended Education. NOTE: A minimum grade of 70% in Applied Mathematics 40S may be used as a prerequisite to this course.

Equiv To: MATH 1301, MATH 1310

Mutually Exclusive: FA 1020, MATH 1010, MATH 1018, MATH 1020, MATH 1191, MATH 1210, MATH 1211, MATH 1220, MATH 1680

Attributes: Mathematics Requirement, Science, Recommended Intro Courses

MATH 1310 Matrices for Management and Social Sciences 3 cr

(Lab Required) Matrix methods with examples relevant to the Management and Social Sciences. Topics include vectors, matrices, systems of linear equations, and determinants; applications include economic models, the simplex method for linear programming, Markov chains, and game theory. May not be held with MATH 1210, MATH 1211, MATH 1220, MATH 1300, MATH 1301, or the former MATH 1680.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a minimum grade of 60% in Pre-calculus Mathematics 40S or the former Mathematics 40S (300), or MSKL 0100 offered by Extended Education. NOTE: A minimum grade of 70% in Applied Mathematics 40S may be used as a prerequisite to this course.

Equiv To: MATH 1300, MATH 1301

Mutually Exclusive: FA 1020, MATH 1010, MATH 1018, MATH 1020, MATH 1191, MATH 1210, MATH 1211, MATH 1220, MATH 1680

Attributes: Mathematics Requirement, Science, Recommended Intro Courses

MATH 1500 Introduction to Calculus 3 cr

(Lab Required) Differentiation and integration of elementary functions, with applications to maxima and minima, rates of change, area, and volume. May not be held with MATH 1230, MATH 1501, MATH 1510, MATH 1520, the former MATH 1680, or MATH 1690.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a minimum grade of 60% in Pre-calculus Mathematics 40S or the former Mathematics 40S (300), or MSKL 0100 offered by Extended Education.

Equiv To: MATH 1501, MATH 1510, MATH 1520, MATH 1530

Mutually Exclusive: FA 1020, MATH 1010, MATH 1018, MATH 1020, MATH 1191, MATH 1230, MATH 1680, MATH 1690

Attributes: Mathematics Requirement, Science, Recommended Intro Courses

MATH 1510 Applied Calculus 1 3 cr

(Lab Required) Functions and graphs; limits and continuity; differentiation of functions defined explicitly, implicitly and parametrically; applications of derivatives to velocity and acceleration, related rates, maxima and minima; differentials, indefinite and definite integrals, application of integration to area. Physical applications in this course make it especially suitable for students intending to take programs in engineering. May not be held with MATH 1230, MATH 1500, MATH 1501, MATH 1520, the former MATH 1530, the former MATH 1680, or MATH 1690.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (a grade of 60% in one of Pre-calculus Mathematics 40S, or the former Mathematics 40S (300), or MSKL 0100 offered by Extended Education) and (one of Physics 40S (300), PHYS 0900 (P), or PSKL 0100 (P) offered by Extended Education).

Equiv To: MATH 1500, MATH 1501, MATH 1520, MATH 1530

Mutually Exclusive: FA 1020, MATH 1010, MATH 1018, MATH 1020, MATH 1191, MATH 1230, MATH 1680, MATH 1690

Attributes: Mathematics Requirement, Science, Recommended Intro Courses

MATH 1520 Introductory Calculus for Management and Social Sciences 3 cr

(Lab Required) Differentiation and integration of functions of one variable and partial differentiation of functions of several variables. Emphasizes applications in the areas of management and social science. May not be held with MATH 1230, MATH 1500, MATH 1501, MATH 1510, the former MATH 1680, or MATH 1690.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a minimum grade of 60% in Pre-calculus Mathematics 40S or the former Mathematics 40S (300), or MSKL 0100 offered by Extended Education.

Equiv To: MATH 1500, MATH 1501, MATH 1510, MATH 1530

Mutually Exclusive: FA 1020, MATH 1010, MATH 1018, MATH 1020, MATH 1191, MATH 1230, MATH 1680, MATH 1690

Attributes: Mathematics Requirement, Science, Recommended Intro Courses

MATH 1690 Calculus 6 cr

(Lab Required) An introduction to the calculus of functions of one variable. This course covers the same material as MATH 1500 and MATH 1700 together, but in greater depth. Exposure to high school calculus (45S) is desirable, but not essential. This course is intended for students planning to enter an Honours or 4 year Major program in Mathematics. May not be held with MATH 1230, MATH 1232, MATH 1500, MATH 1501, MATH 1510, MATH 1520, the former MATH 1680, MATH 1700, MATH 1701, MATH 1710.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a minimum grade of 80 % in Pre-calculus Mathematics 40S or the former Mathematics 40S (300).

Mutually Exclusive: FA 1020, MATH 1010, MATH 1018, MATH 1020, MATH 1191, MATH 1230, MATH 1232, MATH 1500, MATH 1501, MATH 1510, MATH 1520, MATH 1680, MATH 1700, MATH 1701, MATH 1710

Attributes: Mathematics Requirement, Science, Recommended Intro Courses

MATH 1700 Calculus 2 3 cr

(Lab Required) Theory and techniques of integration, curve sketching, volume, arc length, surface area and partial derivatives. May not be held with MATH 1232, MATH 1690, MATH 1701, MATH 1710.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: A grade of "C" or better in one of MATH 1230, MATH 1500, MATH 1501, MATH 1510, MATH 1520, or the former MATH 1680.

Equiv To: MATH 1701, MATH 1710, MATH 1730

Mutually Exclusive: FA 1020, MATH 1010, MATH 1018, MATH 1020, MATH 1191, MATH 1232, MATH 1690

Attributes: Mathematics Requirement, Science, Recommended Intro Courses

MATH 1710 Applied Calculus 2 3 cr

(Lab Required) Applications of integration to volumes, centres of mass, moments of inertia, work and fluid pressure; differentiation of trigonometric, inverse trigonometric, exponential, and logarithmic functions; techniques of integration; polar coordinates. Physical applications in this course make it especially suitable for students intending to take programs in engineering. May not be held with MATH 1232, MATH 1690, MATH 1700, MATH 1701.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: A grade of "C" or better in one of MATH 1230, MATH 1500, MATH 1501, MATH 1510, MATH 1520, or the former MATH 1680.

Prerequisite or concurrent Requirement: PHYS 1050 or PHYS 1051.

Equiv To: MATH 1700, MATH 1730

Mutually Exclusive: FA 1020, MATH 1010, MATH 1018, MATH 1020, MATH 1191, MATH 1232, MATH 1690

Attributes: Mathematics Requirement, Science, Recommended Intro Courses

MATH 2020 Algebra 1 3 cr

(Lab required) The course is intended for students in mathematically rich disciplines. Groups, rings, fields: elementary concepts and examples. May not be held with MATH 2021 or the former MATH 3350.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 2090 or MATH 2091 or the former MATH 2352 or the former MATH 2300 (B) or MATH 2301 (B).

Equiv To: MATH 2021

Mutually Exclusive: MATH 3350

Attributes: Mathematics Requirement, Science

MATH 2030 Combinatorics 1 3 cr

(Lab required) Introductory combinatorics, including basic counting, permutations and combinations, enumeration, inclusion-exclusion, pigeonhole principle, solving basic recursions, relations, and derangements. May not be held with MATH 2031 or the former MATH 3400.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MATH 1240 or MATH 1241 or (the former MATH 2202 and one of the former MATH 2350 or the former MATH 2352) or consent of instructor.

Equiv To: MATH 2031

Mutually Exclusive: MATH 3400

Attributes: Mathematics Requirement, Science

MATH 2040 Curves and Surfaces 3 cr

(Lab required) Curves and surfaces in the plane and space. Intrinsic geometry of curves and surfaces: Serret Frenet frames, first and second fundamental forms, curvature and the Gauss map. Geodesics and parallel transport. Theorema Egregium and Gauss-Bonnet theorems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of MATH 1232, MATH 1690, MATH 1700 (B), MATH 1701 (B), or MATH 1710 (B)] and [one of MATH 1220, MATH 1210 (B), MATH 1211 (B), MATH 1300 (C+), or MATH 1301 (C+)] or consent of instructor. Pre- or corequisite: one of MATH 2150, MATH 2151, MATH 2720, or MATH 2721.

Attributes: Mathematics Requirement, Science

MATH 2070 Graph Theory 1 3 cr

(Lab required) Introduction to graphs, digraphs, and multigraphs. Topics include trees, cycles and circuits, planarity, basic graph algorithms, and applications of graph theory to social and physical sciences. May not be held with MATH 2071 or the former MATH 2400 or COMP 4340.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [MATH 1240 or MATH 1241] and [one of MATH 1220, MATH 1210 (B), MATH 1211 (B), MATH 1300 (C+), or MATH 1301 (C+)].

Equiv To: MATH 2071

Mutually Exclusive: COMP 4340, MATH 2400

Attributes: Mathematics Requirement, Science

MATH 2080 Introduction to Analysis 3 cr

(Lab required) The course is intended for students in mathematically rich disciplines. Fundamental properties of the real number system as a complete ordered field, Archimedean property, existence of square roots, density of rational numbers, uncountability of real numbers. Sequences, subsequences, limit theorems, monotonicity, Bolzano-Weierstrass theorem, Cauchy sequences. Rigorous treatment of limits and continuity of functions of one and several variables. Uniform continuity. Applications. May not be held with MATH 2081 or the former MATH 2202.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of MATH 1232, MATH 1690, MATH 1700 (B), MATH 1701 (B), or MATH 1710 (B)] and [one of MATH 1220, MATH 1210 (B), MATH 1211 (B), MATH 1300 (C+), MATH 1301 (C+)] and [MATH 1240 or MATH 1241].

Equiv To: MATH 2081

Mutually Exclusive: MATH 2202

Attributes: Mathematics Requirement, Science

MATH 2090 Linear Algebra 2 3 cr

(Lab required) The course is intended for students in mathematically rich disciplines. Abstract vector spaces, linear transformations, bases and coordinatization, matrix representations, orthogonalization, diagonalization, principal axis theorem. May not be held with MATH 2091, the former MATH 2300, the former MATH 2301, the former MATH 2350, or the former MATH 2352.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of MATH 1220, MATH 1210 (B), MATH 1211 (B), MATH 1300 (C+), or MATH 1301 (C+).

Equiv To: MATH 2091

Mutually Exclusive: MATH 2300, MATH 2301, MATH 2350, MATH 2352

Attributes: Mathematics Requirement, Science

MATH 2120 Introductory Numerical Methods for Engineers 4 cr

(Lab Required) Numerical methods applied to problems in engineering; roots of nonlinear equations and systems of linear equations, numerical differentiation and integration, initial-value problems. For Engineering and Geophysics students only. May not be held with MATH 2600 or MATH 2601.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: one of COMP 1010, COMP 1011, COMP 1012, COMP 1013; pre- or corequisite: MATH 2132 or the former MATH 2100.

Mutually Exclusive: MATH 2160, MATH 2161, MATH 2600, MATH 2601, MECH 2150

Attributes: Mathematics Requirement, Science

MATH 2130 Engineering Mathematical Analysis 1 3 cr

(Lab required) Multivariable differential and integral calculus up to and including multiple integrals in cylindrical and spherical coordinates. This course is intended for students in Engineering and Geophysics programs. May not be held for credit with MATH 2150, MATH 2151, MATH 2720, MATH 2721, the former MATH 2110, or the former MATH 2750.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (MATH 1210 or MATH 1211) and (one of MATH 1232, MATH 1690, MATH 1700, MATH 1701, or MATH 1710).

Mutually Exclusive: MATH 2110, MATH 2150, MATH 2151, MATH 2720, MATH 2721, MATH 2750

Attributes: Mathematics Requirement, Science

MATH 2132 Engineering Mathematical Analysis 2 3 cr

(Lab required) Infinite series, Taylor and Maclaurin Series; ordinary differential equations including Laplace transforms. This course is intended for students in Engineering and Geophysics programs. May not be held for credit with the former MATH 2100, the former MATH 2730, the former MATH 2731, the former MATH 2800, or the former MATH 2801.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (MATH 1210 or MATH 1211) and (one of MATH 1232, MATH 1690, MATH 1700, MATH 1701, or MATH 1710).

Mutually Exclusive: MATH 2100, MATH 2730, MATH 2731, MATH 2750, MATH 2800, MATH 2801

Attributes: Mathematics Requirement, Science

MATH 2150 Multivariable Calculus 3 cr

(Lab required) The course is intended for students in mathematically rich disciplines. Parametric curves, arc length and curvature. Functions of several variables. Level curves. Partial derivatives, gradient, divergence and curl. Max/min problems. Double and triple integrals, line and surface integrals of functions and vector fields, and applications. Green's, Stokes, and divergence theorems. May not be held with MATH 2130, MATH 2151, MATH 2720, MATH 2721, or the former MATH 2750.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 2080 or MATH 2081 or the former MATH 2202.

Equiv To: MATH 2151

Mutually Exclusive: MATH 2130, MATH 2720, MATH 2721, MATH 2750

Attributes: Mathematics Requirement, Science

MATH 2160 Numerical Analysis 1 3 cr

(Lab required) Elementary techniques of numerical solution of mathematical problems: solution of equations, linear systems of equations, nonlinear equations; finite and divided differences, interpolation; numerical differentiation and integration. May not be held with MATH 2120, MATH 2161, the former MATH 2600, or the former MATH 2601.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of MATH 1232, MATH 1690, MATH 1700 (B), MATH 1701 (B), or MATH 1710 (B)] and [one of MATH 1220, MATH 1210 (B), MATH 1211 (B), MATH 1300 (C+), or MATH 1301 (C+)].

Equiv To: MATH 2161

Mutually Exclusive: MATH 2120, MATH 2600, MATH 2601, MECH 2150

Attributes: Mathematics Requirement, Science

MATH 2170 Number Theory 1 3 cr

(Lab required) Prime numbers, unique factorization, linear congruences, Chinese remainder theorem, multiplicative functions, primitive roots and quadratic reciprocity. May not be held with the former MATH 2500 or the former MATH 2501.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: (MATH 2090 or MATH 2091) or (MATH 1240 or MATH 1241) or (the former MATH 2350 or the former MATH 2352) or (a "B" or better in the former MATH 2300 or the former MATH 2301).

Mutually Exclusive: MATH 2500

Attributes: Mathematics Requirement, Science

MATH 2180 Real Analysis 1 3 cr

(Lab required) Introduction to metric spaces including connectedness, compactness and continuity; topics in infinite series of numbers, and sequences and series of functions. May not be held with the former MATH 3230.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 2080 or MATH 2081 or the former MATH 2202.

Equiv To: MATH 2181

Mutually Exclusive: MATH 3230

Attributes: Mathematics Requirement, Science

MATH 2720 Multivariable Calculus 3 cr

(Lab required) Calculus of several variables. This course is intended for students in one of the following programs: Actuarial Mathematics, Data Science, Statistics (Honours or Majors), Physics (Honours or Majors) Geophysics (Honours or Majors), and Physical Geography. May not be held with MATH 2130, MATH 2150, MATH 2151, MATH 2721, the former MATH 2110, or the former MATH 2750.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (one of MATH 1220, MATH 1210 (B), MATH 1211 (B), MATH 1300, MATH 1301, or MATH 1310) and (one of MATH 1232, MATH 1690, MATH 1700, MATH 1701, or MATH 1710).

Equiv To: MATH 2721

Mutually Exclusive: MATH 2110, MATH 2130, MATH 2150, MATH 2151, MATH 2750

Attributes: Mathematics Requirement, Science

MATH 2740 Mathematics of Data Science 3 cr

(Lab required) This course introduces some of the mathematical tools used in Data Science. Topics include linear algebra: least squares, singular value decomposition, principal components analysis, and graph theory: centrality, social network theory, clustering. This course can only be used as an elective in an Honours, Major, or Joint Honours program in Mathematics.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [(a "B" or better in MATH 1210 or MATH 1211) or (one of MATH 1220, MATH 1300, or MATH 1301)] and (one of MATH 1232, MATH 1690, MATH 1700, MATH 1701, or MATH 1710).

Attributes: Mathematics Requirement, Science

MATH 3120 Applied Discrete Mathematics 3 cr

(Lab Required) Sets, groups, graphs, and Boolean algebra. For Engineering students only. May not be held with COMP 2130.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ECE 2220 and MATH 2130.

Mutually Exclusive: COMP 2130, MATH 1240, MATH 1241

Attributes: Mathematics Requirement, Science

MATH 3132 Engineering Mathematical Analysis 3 3 cr

(Lab required) Vector integral calculus; series of Ordinary differential equations; Fourier series and Partial differential equations. This course is intended for students in Engineering and Geophysics programs. May not be held with former MATH 3100, the former MATH 3740, or the former MATH 3800.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MATH 2130 and MATH 2132.

Mutually Exclusive: MATH 3100, MATH 3740, MATH 3800

Attributes: Mathematics Requirement, Science

MATH 3142 Engineering Mathematical Analysis 4 3 cr

Introduction to discrete mathematics; systems of linear differential equations; complex function theory and applications. For Engineering and Geophysics students only. May not be held with MATH 3110, MATH 3700, MATH 3710, or MATH 3800.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MATH 2130; and MATH 2132 or the former MATH 2110. NOTE: MATH 3132 is highly recommended.

Mutually Exclusive: MATH 3110, MATH 3700, MATH 3710, MATH 3800

Attributes: Mathematics Requirement, Science

MATH 3320 Algebra 2 3 cr

Basic structure theory of groups, integral domains and field extensions. Not to be held with the former MATH 3350.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 2020 or MATH 2021 or (the former MATH 3300 and consent of instructor).

Mutually Exclusive: MATH 3350

Attributes: Mathematics Requirement, Science

MATH 3322 Algebra 3 3 cr

A continuation of topics in Algebra 1 and Algebra 2. More structure theory of groups, general ring theory, fields and field extensions, Galois theory.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 3320 or (the former MATH 3350 and consent of instructor).

Attributes: Mathematics Requirement, Science

MATH 3330 Computational Algebra 3 cr

An introduction to the use of computers for symbolic mathematical computation, involving solving nonlinear systems and differential equations. A suitable software package will be used to explore applications.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 2090 or MATH 2091 or the former MATH 2300 or the former MATH 2301 or the former MATH 2350 or the former MATH 2352 or consent of instructor.

Attributes: Mathematics Requirement, Science

MATH 3340 Complex Analysis 1 3 cr

Analytic functions, Cauchy's theorem and integral formula, series representation of analytic functions, calculus of residues, Rouché's theorem and the principle of the argument. May not be held with the former MATH 3710.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (MATH 2180 or the former MATH 3230) and [MATH 2150 or MATH 2151 or MATH 2720 (B) or MATH 2721 (B) or the former MATH 2750].

Mutually Exclusive: MATH 3710

Attributes: Mathematics Requirement, Science

MATH 3360 Combinatorics 2 3 cr

Advanced topics in combinatorics, including generating functions, elementary design theory, recurrences, chains and antichains, Polya counting. The course is challenging and is intended for students in mathematically rich disciplines. May not be held with the former MATH 4400.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 2030 or MATH 2031 or the former MATH 3400.

Mutually Exclusive: MATH 4400

Attributes: Mathematics Requirement, Science

MATH 3370 Graph Theory 2 3 cr

Advanced topics in graph theory, including matchings and coverings, optimization, factors, flows, extremal graph theory, basic Ramsey theory, connectivity, and spectral graph theory. Selected applications in science and operations research are studied. The course is challenging and is intended for students in mathematically rich disciplines. May not be held with COMP 4340.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 2070 or MATH 2071 or the former MATH 2400 (B) or permission of instructor.

Mutually Exclusive: COMP 4340

Attributes: Mathematics Requirement, Science

MATH 3380 Introduction to Projective Planes 3 cr

Affine planes and projective planes, cross ratio, complex projective plane (the great unifier), Desargues' theorem, projective planes over division rings, Pappus' theorem and commutativity, the fundamental theorem for projectivities on a line, introduction of coordinates in a projective plane. May not be held with the former MATH 2552 or the former MATH 3430.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 2020 or MATH 2021 or the former MATH 3300 or the former MATH 3350 or consent of instructor.

Mutually Exclusive: MATH 2550, MATH 2551, MATH 2552, MATH 3430

Attributes: Mathematics Requirement, Science

MATH 3390 Introduction to Topology 3 cr

Topological spaces, continuity, connectedness, compactness, separation properties. May not be held with the former MATH 3240.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 2180 or the former MATH 3230 or consent of instructor.

Mutually Exclusive: MATH 3240

Attributes: Mathematics Requirement, Science

MATH 3410 Introduction to Mathematical Logic 3 cr

Propositional and first-order logic. Recursion theory. May not be held with the former MATH 4250.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 2020 or MATH 2021 or the former MATH 2202 or the former MATH 2352 or consent of instructor.

Mutually Exclusive: MATH 4250

Attributes: Mathematics Requirement, Science

MATH 3420 Numerical Analysis 2 3 cr

Numerical methods for eigenvalue problems, nonlinear systems, initial-value problems, boundary-value problems; finite difference methods for ordinary and partial differential equations; error analysis. Not to be held with the former MATH 3600 or the former MATH 3601.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [MATH 2090 or MATH 2091 or the former MATH 2300 (B) or the former MATH 2301 (B) or the former MATH 2352] and [MATH 2150 or MATH 2151 or MATH 2720 (B) or MATH 2721 (B) or the former MATH 2750] and (MATH 2160 or MATH 2161 or the former MATH 2600 or the former MATH 2601). Pre- or corequisite: MATH 3440 or the former MATH 2800 or the former MATH 2801.

Mutually Exclusive: MATH 3600

Attributes: Mathematics Requirement, Science

MATH 3440 Ordinary Differential Equations 3 cr

Theory and applications of ordinary differential equations; existence and uniqueness of solutions, linear systems, simple nonlinear systems. This course is theory-based and is intended for students in mathematically rich disciplines. Not to be held with the former MATH 3800.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 2180 or [(MATH 1300 (B) or MATH 1301 (B)) and (the former MATH 2730 (B) or the former MATH 2731 (B) or the former MATH 2750)].

Mutually Exclusive: MATH 3800

Attributes: Mathematics Requirement, Science

MATH 3460 Partial Differential Equations 3 cr

Method of characteristics for first order PDEs, wave, beam, heat and Laplace equations, derivation of PDEs, existence and uniqueness, energy estimates, well-posedness, maximum principles, separation of variables. Not to be held with the former MATH 3810.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [(MATH 2150 or MATH 2151 or the former MATH 2750) or ((MATH 2720 (B) or MATH 2721 (B)) and (the former MATH 2730 (B) or the former MATH 2731 (B)))] and [MATH 3440 or the former MATH 3800].

Mutually Exclusive: MATH 3810

Attributes: Mathematics Requirement, Science

MATH 3470 Real Analysis 2 3 cr

Functions of bounded variation, Riemann-Stieltjes integration and Lebesgue integration. Not to be held with the former MATH 3740 or the former MATH 3760.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [MATH 2150 or MATH 2151 or MATH 2720 (B) or MATH 2721 (B) or the former MATH 2750] and (MATH 2180 or the former MATH 3230).

Mutually Exclusive: MATH 3740, MATH 3760

Attributes: Mathematics Requirement, Science

MATH 3472 Real Analysis 3 3 cr

Fourier series and Fourier transforms; orthogonal systems and L2 theory, convergence and approximation. Multivariable calculus of maps from R_n to R_m , general chain rule and general notion of derivative, implicit function and inverse function theorems. Not to be held with the former MATH 3740 or the former MATH 3760.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 3470.

Mutually Exclusive: MATH 3740, MATH 3760

Attributes: Mathematics Requirement, Science

MATH 3480 Set Theory 3 cr

Axiomatic set theory. Cardinality, well-ordered sets, ordinal numbers, cardinal numbers. Axiom of Choice. Ordinal and cardinal arithmetic. Transfinite induction and recursion. May not be held with the former MATH 3220.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 2020 or MATH 2021 or the former MATH 2202 or consent of instructor.

Mutually Exclusive: MATH 3220

Attributes: Mathematics Requirement, Science

MATH 3490 Optimization 3 cr

(Lab required) This course introduces the theory and practice of optimization. Both unconstrained and constrained problems are considered, as well as continuous and discrete optimization. Topics include linear programming, unconstrained optimization, constrained nonlinear optimization and integer programming. Applications to Statistics and Data Science will be explored.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of MATH 2090, MATH 2091, MATH 2740, the former MATH 2300, the former MATH 2301, the former MATH 2350, or the former MATH 2352] and [one of MATH 2150, MATH 2151, MATH 2720, MATH 2721, or the former MATH 2750].

Attributes: Mathematics Requirement, Science

MATH 3610 Introduction to Mathematical Modelling 3 cr

An introduction to the principles and techniques involved in the design, development, solution, testing and revision of mathematical models of real world phenomena illustrated through the discussion of case studies. May not be held with the former MATH 3820 or the former MATH 3821.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 2150 or MATH 2151 or MATH 2720 (B) or MATH 2721 (B) or MATH 2130 (B) or consent of Instructor.

Mutually Exclusive: MATH 3820, MATH 3821

Attributes: Mathematics Requirement, Science

MATH 4240 Advanced Group Theory 3 cr

Representation theory of finite groups, presentations of finite and infinite groups, or other topics.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 3322 or the former MATH 3350 or consent of instructor.

Attributes: Mathematics Requirement, Science

MATH 4260 Abstract Measure Theory 3 cr

Lebesgue and abstract measures, measurable functions, convergence theorems, absolutely continuous functions, measure spaces, the Radon-Nikodym theorem, Fubini's and Tonelli's theorems. Not to be held with the former MATH 4750.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 3472 or the former MATH 3740 (B+) or the former MATH 3760.

Mutually Exclusive: MATH 4750

Attributes: Mathematics Requirement, Science

MATH 4270 Algebraic Topology 3 cr

This course will serve as an introduction to elements of homotopy or homology theory. Not to be held with the former MATH 4230.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (MATH 3320 or the former MATH 3300) and (MATH 3390 or the former MATH 3240), or consent of instructor.

Mutually Exclusive: MATH 4230

Attributes: Mathematics Requirement, Science

MATH 4280 Basic Functional Analysis 3 cr

Banach spaces, Hahn-Banach, open mapping and closed graph theorems, principle of uniform boundedness, linear operators and functionals, dual space, L_p and L_q spaces, weak and weak* topologies, Hilbert spaces and compact operators on a Hilbert space. Not to be held with the former MATH 4750.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [MATH 3472 or the former MATH 3740 (B+) or the former MATH 3760] and (MATH 3390 or the former MATH 3240), or consent of instructor.

Mutually Exclusive: MATH 4750

Attributes: Mathematics Requirement, Science

MATH 4290 Complex Analysis 2 3 cr

Conformal mappings, normal families, harmonic and subharmonic functions, Perron's family, Dirichlet problem and Green's function. Not to be held with the former MATH 4710.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [MATH 3340 or the former MATH 3700 (B+) or the former MATH 3710] and (MATH 3390 or the former MATH 3240).

Mutually Exclusive: MATH 4710

Attributes: Mathematics Requirement, Science

MATH 4300 Combinatorial Geometry 3 cr

Topics in combinatorial geometry, including arrangements of convex bodies, introduction to polytopes, problems in discrete geometry, repeated distances, and geometric graphs.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 3360 or the former MATH 3400 or consent of instructor.

Attributes: Mathematics Requirement, Science

MATH 4320 Dynamical Systems 3 cr

Techniques for the qualitative analysis of nonlinear systems of ordinary differential equations and discrete-time systems. Not to be held with the former MATH 4800.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 3440 or the former MATH 3800.

Mutually Exclusive: MATH 4800

Attributes: Mathematics Requirement, Science

MATH 4330 Fundamentals of Approximation Theory 3 cr

Theoretical aspects of approximation theory: density, existence, uniqueness; direct and inverse theorems for polynomial approximation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (MATH 2080 or MATH 2081 or the former MATH 2202) and (MATH 2160 or MATH 2161 or the former MATH 2600 or the former MATH 2601), or consent of instructor.

Attributes: Mathematics Requirement, Science

MATH 4340 Introduction to Algebraic Geometry 3 cr

This course will introduce students to the basics of affine and projective varieties through a combination of basic theoretical tools and elementary examples.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 3322 or the former MATH 3350 or consent of instructor.

Attributes: Mathematics Requirement, Science

MATH 4360 Introduction to Differential Geometry 3 cr

Manifolds and submanifolds; vector and tensor fields, Lie brackets and derivatives. Also at least one of the following: exterior differential calculus and Stokes' theorem, introduction to Riemannian geometry, symplectic geometry and hamiltonian mechanics. Not to be held with the former MATH 4730.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [MATH 3472 or the former MATH 3740 (B) or the former MATH 3760] and (MATH 3390 or the former MATH 3240).

Mutually Exclusive: MATH 4730

Attributes: Mathematics Requirement, Science

MATH 4370 Linear Algebra and Matrix Analysis 3 cr

Vector and matrix norms, matrix factorizations, eigenvalues and eigenvectors, theory of non-negative matrices. Applications to differential equations, math biology, numerical analysis, digital image processing, data mining, GPS, Markov chains, graph theory, etc. will be given in this course. Not to be held with the former MATH 4310.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 2090 or MATH 2091 or the former MATH 2300 (B) or the former MATH 2301 (B) or the former MATH 2350 or the former MATH 2352.

Mutually Exclusive: MATH 4310

Attributes: Mathematics Requirement, Science

MATH 4380 Mathematical Biology 3 cr

Formulation, analysis and simulation of suitable models in mathematical biology. Applications will be chosen from fields such as population dynamics, epidemiology, ecology, immunology and cellular dynamics. Not to be held with the former MATH 3530.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 4320 or the former MATH 3800 or consent of instructor.

Mutually Exclusive: MATH 3530

Attributes: Mathematics Requirement, Science

MATH 4390 Numerical Approximation Theory 3 cr

Computational aspects of approximation by interpolatory polynomials, convolutions, artificial neural networks, splines and wavelets.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [MATH 2150 or MATH 2151 or MATH 2720 (B) or MATH 2721 (B) or the former MATH 2750] and (MATH 2160 or MATH 2161 or the former MATH 2600 or the former MATH 2601), or consent of instructor.

Attributes: Mathematics Requirement, Science

MATH 4440 Numerical Analysis of Partial Differential Equations 3 cr

Finite difference method, mathematical theory of Elliptic PDEs, finite element method, iterative solution of linear systems. Emphasis will be on the error analysis (stability, consistency and convergence) of the various methods.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (MATH 3420 or the former MATH 3600 or the former MATH 3601) and (MATH 3460 or the former MATH 3810) and [MATH 3470 or the former MATH 3740 (B) or the former MATH 3760], or consent of instructor. It is recommended that MATH 4370 be taken prior to or at the same time.

Attributes: Mathematics Requirement, Science

MATH 4450 Number Theory 2 3 cr

Algebraic number theory, arithmetic geometry and analytic number theory, Diophantine equations, examples such as arithmetic of elliptic curves and Dirichlet L-functions. Not to be held with the former MATH 3450.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [(MATH 2020 or MATH 2021) and MATH 2170] or [(the former MATH 2500 or the former MATH 2501) and the former MATH 2202 and the former MATH 2750], or consent of instructor.

Mutually Exclusive: MATH 3450

Attributes: Mathematics Requirement, Science

MATH 4460 Partial Differential Equations 2 3 cr

Green's function, Poisson, heat, Schrodinger and wave equations in two and three spatial dimensions, variational characterization of eigenvalues, Fourier and Laplace transforms, introduction to functional analytic techniques in PDEs. Not to be held with the former MATH 4810.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (MATH 3460 or the former MATH 3810) and [MATH 3470 or the former MATH 3740 (B) or the former MATH 3760], or consent of instructor. .

Mutually Exclusive: MATH 4810

Attributes: Mathematics Requirement, Science

MATH 4470 Rings and Modules 3 cr

The general theory of (non-commutative) rings, modules and algebras.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MATH 3322 or the former MATH 3350 or consent of instructor.

Attributes: Mathematics Requirement, Science

MATH 4910 Project Course in Mathematics 3 cr

A research project by the student in consultation with the department head and an appropriate supervising Faculty member. A written report will be required to be submitted by the end of the term. An oral examination may be required. This course is restricted to students in the fourth year of the Honours or Major program in Mathematics and is not available to Graduate Students. This course may not be held for credit with MATH 4900.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Consent of Department.

Mutually Exclusive: MATH 4900

Attributes: Mathematics Requirement, Science

MATH 4920 Topics in Mathematics 3 cr

Topics of current interest in Mathematics or Applied Mathematics upon the interests and requirements of students and faculty, and will include specialized topics not available in regular course offerings.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of department.

Attributes: Mathematics Requirement, Science

MATH 4921 Sujets choisis en mathématiques 3 cr

Sujets d'intérêt courant en mathématiques ou en mathématiques appliqués, selon les besoins et intérêt des étudiants et professeurs, incluant notamment des sujets spécialisés non disponibles dans les autres cours offerts par le secteur. L'étudiant(e) ne peut se faire créditer à la fois le MATH 4921 et le MATH 4920. Préalable: autorisation par le chef du secteur des sciences mathématiques.

Equiv To: MATH 4920

Mechanical Engineering (MECH)

MECH 2112 Fundamentals of Mechanical and Computer Aided Design 5 cr

(Lab required) Provide instruction on the application of computer aided design software packages. The students will work in groups in the design and development of a product using CAD packages and digital fabrication technologies. May not be held for credit with CIVL 2830, the former ENG 2020, ENG 2022, MECH 2010, or MECH 2012.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: ENG 1430.

Mutually Exclusive: CIVL 2830, ENG 2020, ENG 2022, MECH 2010, MECH 2012

MECH 2150 Mechanical Engineering Modelling and Numerical Methods 4 cr

(Lab required) A case-study-based introduction to modelling and numerical methods with mechanical engineering applications. Selected problems, primarily from second and third year mechanical engineering course material, will be used to teach modelling. Derivation and application of appropriate numerical methods will be performed to solve the case study problems using a hands-on approach. A high level computer language and accompanying toolkit/built-in functions will be introduced for solution of the cases. May not be held for credit with MATH 2120.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: COMP 1012 or COMP 1013. Pre- or Corequisites: MATH 2132 and ([MECH 2262] or BIOE 2790 or CIVL 2790).

Equiv To: CIVL 3590

Mutually Exclusive: MATH 2120, MATH 2160, MATH 2161, MATH 2600, MATH 2601

MECH 2202 Thermodynamics 4 cr

(Lab required) Cycles, transient flow processes, entropy, gas mixtures, psychrometry combustion. May not be held for credit with MECH 2200.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ENG 1460, (MATH 1500 or MATH 1510 and MATH 1700 or MATH 1710).

Equiv To: MECH 2200

MECH 2222 Mechanics of Materials 4 cr

(Lab required) Topics covered in this course include: axial and torsional loading, stress-strain and deformation in statically determinate/indeterminate systems, thermally induced stress, and stresses in beams (including reinforced beams) under pure bending and bending with shear. The mechanical properties of materials under various loading modes will be addressed.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [PHYS 1050] and [ENG 1440 or ENG 1441 (ENG 1350)] and COMP 1012 and [MATH 1710 or MATH 1700].

Equiv To: MECH 2220, MECH 2270

MECH 2262 Fundamentals of Fluid Mechanics 4 cr

(Lab required) Fundamental concepts used in the analysis of fluid behaviour, pressure in stationary fluids, forces on submerged surfaces, buoyancy, integral methods, Bernoulli equation, pipeline analysis. May not be held for credit with the former MECH 2260.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: PHYS 1050 and ENG 1440 and ENG 1460 and MATH 2130 (or the former MATH 2110). Pre or Co requisite: MATH 2132 (or the former MATH 2100).

Mutually Exclusive: MECH 2260

MECH 2272 Engineering Materials 1 4 cr

(Lab required) Introduction to engineering materials; defects, strengthening mechanisms, and plasticity in engineering metals and alloys; fundamentals and application of heat treatment of metallic materials including topics such as diffusion, phase diagram, phase transformation, and thermal processing; mechanical properties of engineering metallic materials and their relationship to structure, defects, various strengthening mechanisms, and processing; structure of non-metallic polymers and ceramics. May not be held for credit with MECH 2270, MECH 2290 or MECH 3540. Prerequisites; [CHEM 2240 or CHEM 1310] and [MECH 2222 (or MECH 2220)].

Equiv To: MECH 2270, MECH 3540

Mutually Exclusive: MECH 2290

MECH 3170 Project Management 4 cr

(Lab required) Topics covered include project planning, scheduling, resource allocation, process analysis, layout and control. The course will make use of industrial projects for developing a strong design and analytical approach pertinent to project management. May not be held for credit with the former MECH 4170.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MECH 2112 (or the former MECH 2010 or the former MECH 2012) or CIVL 2830.

Mutually Exclusive: MECH 4170

MECH 3420 Vibrations and Acoustics 4 cr

(Lab required) Vibrations and computer simulations of single-degree-of-freedom systems, viscous and friction damping, MD of systems and modal analysis, measurement and sources of noise, noise control.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MECH 3482 (formerly MECH 2120 and MECH 3480), and MATH 3132 (formerly MATH 3100).

MECH 3430 Measurements and Control 4 cr

(Lab required) Mathematical modelling of mechanical systems. Feedback systems and stability. Digital control; analog to digital and digital to analog control systems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MATH 3132 (or MATH 3100) and ENG 1450 (or 130.118).

MECH 3460 Heat Transfer 4 cr

(Lab required) This is the first course in heat transfer. Topics covered include fundamental concepts relevant to heat transfer analysis, steady-state and transient conduction, forced and free convection, external and internal flows, heat exchangers and fundamentals of radiation. May not be held for credit with the former MECH 3470.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MECH 2150, MATH 3132 (or the former MATH 3100) and ENG 1460. Pre- or corequisite: MECH 3492 (or the former MECH 3490).

Mutually Exclusive: MECH 3470

MECH 3482 Kinematics and Dynamics 4 cr

(Lab required) Fundamentals of 2D and 3D rigid body motions (kinematics) and the forces/moments (kinetics) needed to produce such motions. Applications will emphasize elements of machine design. May not be held for credit with MECH 2120 or MECH 3480.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: PHYS 1050 and [ENG 1440 or ENG 1441] and COMP 1012 and [MATH 1710 or MATH 1700].

Equiv To: MECH 2120

Mutually Exclusive: MECH 3480

MECH 3492 Fluid Mechanics and Applications 4 cr

(Lab required) The angular momentum principle, introduction to differential analysis of fluid motion, internal and external incompressible viscous flow, fluid machinery and multiple-path systems, fluid coupling and torque couplings and torque converters. May not be held for credit with the former MECH 3490.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MECH 2262 (or the former MECH 2260). Pre- or Corequisite: MECH 2150 or CIVL 3590 or MATH 2120.

Mutually Exclusive: MECH 3490

MECH 3502 Stress Analysis and Design 4 cr

(Lab required) Strength and stability of columns, torsion of thin-walled members, unsymmetric loading and shear centres, beam deflection and energy methods. May not be held for credit with MECH 2220 or MECH 3500.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MECH 2222 (formerly MECH 2220), and MATH 2130 (formerly MATH 2110).

Mutually Exclusive: MECH 3500

MECH 3520 Aerodynamics 4 cr

(Lab required) Aeronautical definitions, compressible flow, plane normal shock waves, Mach. no. and shock waves in two-dimensional flow, potential flow theory in two-dimensional and axisymmetric flows. Two-dimensional wing theory, finite wing theory panel methods, elements of boundary layer theory. Compressibility and wings, wing design, flow control.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MECH 2150 and MECH 3492 (or the former MECH 3490).

MECH 3542 Engineering Materials 2 4 cr

(Lab required) Mechanical properties of engineering non-metallic materials such as polymers, ceramics and composites, and their relationship to structure and processing; introduction to various shaping and joining processes used in manufacturing, their advantages and limitations; selection and application of engineering materials. May not be held for credit with MECH 2270, MECH 2290 or MECH 3540.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MECH 2272 (formerly MECH 2270).

Equiv To: MECH 2270, MECH 3540

Mutually Exclusive: MECH 2290

MECH 3550 Robotics and Computer Numerical Control 4 cr

(Lab required) This course builds up a foundation in the area of Computer Aided Manufacturing (CAM) such as computer numerically controlled machine tools and robotics. Intense hands on experience is provided in the laboratory sessions on part programming using Computer Aided Design (CAD) packages and robots to demonstrate application in the area of CAM. Several case studies and manufacturing applications will be discussed.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MECH 2112 (or the former MECH 2010 or the former MECH 2012) or CIVL 2830.

MECH 3562 Introduction to Optimization 4 cr

(Lab required) The objective of this course is to develop the ability to formulate and analyze problems that will be encountered in a manufacturing system. The skills acquired will allow the students to approach problems from an optimization perspective. The students will be provided experience in related software packages. May not be held for credit with the former MECH 3560.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (MECH 2112 or the former MECH 2010 or the former MECH 2012 or CIVL 2830) and STAT 2220.

Mutually Exclusive: MECH 3560

MECH 3570 Manufacturing Automation 4 cr

(Lab required) This course builds upon the foundation developed in a previous course: namely Robotics and Computer Numerical Control. The course covers a wide variety of topics in the area of computer controlled automation. The students are provided with hands on experience in design for automation. It will synthesize several aspects associated with integrated operation of computer controlled automated devices.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MECH 3550.

MECH 3582 Manufacturing Planning and Quality Control 4 cr

(Lab required) The course covers topics such as: group technology, just-in-time, computer aided process planning, statistical process control and manufacturing planning and control. Issues related to the integration of several areas that fall within CIM are emphasized. Systems approach is introduced. May not be held with the former MECH 3580.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MECH 2112 (or the former MECH 2010 or the former MECH 2012) or CIVL 2830.

Mutually Exclusive: MECH 3580

MECH 3592 Simulation Modeling and Facility Planning 4 cr

(Lab required) The objective of this course is to introduce simulation for manufacturing operations and the concepts of facilities location and layout. The students will learn how to program WITNESS, a simulation language, and through simulation, explore the effects of facility planning; resource availability e.g. machines and quality related problems on manufacturing productivity and timing. May not be held with MECH 3590.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MECH 2112 (or the former MECH 2010 or the former MECH 2012) or CIVL 2830.

Mutually Exclusive: MECH 3590

MECH 3602 Manufacturing Process Fundamentals 4 cr

(Lab required) This course will give students hands on experience with numerous manufacturing processes, machines and systems. Using CNC mills, lathes, conventional machine shop equipment and hand tools, the students will manufacture mechanical components, assemble them and troubleshoot any problems. The object is to provide students with hands-on exposure to the application of basic manufacturing process tools. May not be held for credit with MECH 3600.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MECH 2112 (or the former MECH 2012 or the former MECH 2010) or CIVL 2830.

Mutually Exclusive: MECH 3600

MECH 3652 Machine Design 4 cr

(Lab required) Stress and failure analysis and the design of machine elements; shafts and couplings, threaded fasteners and power screws, clutches and power transmission components; spur, bevel, worm and helical gears; lubrication, journal and roller bearings. May not be held for credit with MECH 4650.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (MECH 3482 or the former MECH 2120) and (MECH 3502 or the former MECH 3500).

Equiv To: MECH 4650

MECH 3982 Mechanical Laboratories in Solid Mechanics 2 cr

(Lab required) Laboratory course on topics that compliment and reinforce concepts developed in second and third year mechanical engineering courses in mechanics of solids and structures, and vibrations. May not be held for credit with the former MECH 3980, MECH 4980, or MECH 4990.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (ENG 2030 or ENG 2040 or the former ENG 2010) and (MECH 2222 or the former MECH 2220). Pre- or corequisites: MECH 3420 and (MECH 3502 or the former MECH 3500).

Mutually Exclusive: MECH 3980, MECH 4980, MECH 4990

MECH 3992 Mechanical Laboratories in Thermofluids 2 cr

(Lab required) Laboratory course on topics that compliment and reinforce concepts developed in second and third year mechanical engineering courses in thermofluids. May not be held for credit with the former MECH 3980, MECH 4980, or MECH 4990.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (ENG 2030 or ENG 2040 or the former ENG 2010), (MECH 2202 or the former MECH 2200), and (MECH 2262 or the former MECH 2260). Pre- or corequisites: MECH 3460 or the former MECH 3470.

Mutually Exclusive: MECH 3980, MECH 4980, MECH 4990

MECH 4162 Thesis 6 cr

This course will give students the opportunity to gain research or design experience in their area of interest. Thesis topics must be approved by the head of the department or designate. Restriction: Only students with a year class distinction of 4 or higher in Mechanical Engineering may register for this course and eligible to graduate. May not be held for credit with MECH 4160.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: ENG 2030 or ENG 2040 (or the former ENG 2010).

Mutually Exclusive: MECH 4160

MECH 4182 Aerospace Structures: Analysis and Design 4 cr

(Lab required) Methodology and techniques for design of aerospace structures and components to preclude failure with minimum weight, cost and resource consumption. Analysis of structural, air, gust and manoeuvre loads. May not be held for credit with MECH 4180.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MECH 3502 (or MECH 3500).

Mutually Exclusive: MECH 4180

MECH 4192 Aerospace Materials and Manufacturing Processes 4 cr

(Lab required) Properties of aerospace structural materials including glass and graphite fibre composites, light metal alloys and high strength steels. Properties of high temperature materials; superalloys ceramics, intermetallic compounds, metal matrix composites. Specialized methods for manufacture of these materials. May not be held for credit with MECH 4190.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MECH 3542 (formerly MECH 3540).

Mutually Exclusive: MECH 4190

MECH 4200 Gas Turbine Propulsion Systems 4 cr

(Lab required) Gas turbine systems, shaft power cycles, gas turbine propulsion cycles, centrifugal compressors, axial flow compressors, combustion systems, design performance predictions, off-design operations and transient behaviour of gas turbines. Design performance predictions.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MECH 2202 (or MECH 2200) and MECH 3520.

MECH 4292 IC Engines 4 cr

(Lab required) Thermodynamics of internal combustion engines and engine cycles; fuels and fuel systems; combustion; emission control systems; electronic engine controls and strategies; intake and exhaust systems; camshafts and valvetrain dynamics; balancing; performance and testing. May not be held for credit with MECH 4290.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MECH 2202 (or the former MECH 2200).

Mutually Exclusive: MECH 4290

MECH 4310 Contemporary Topics in Mechanical Engineering 1 4 cr

(Lab required) This course will cover contemporary topics in Mechanical Engineering. The specific topics and a detailed outline will be available at the time of registration prior to the start of the registration period for the session in which the course will be offered.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of the department.

Mutually Exclusive: MECH 4542

MECH 4322 Contemporary Topics in Mechanical Engineering II 4 cr
(Lab required) This course will cover contemporary topics in Mechanical Engineering. The specific topics and a detailed outline will be available at the time of registration prior to the start of the registration period for the session in which the course will be offered. May not be held for credit with MECH 4320.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Departmental Permission.

Mutually Exclusive: MECH 4320, MECH 4482, MECH 4582

MECH 4330 Contemporary Topics in Manufacturing Engineering I 4 cr
(Lab required) This course will cover contemporary topics in Manufacturing Engineering. The specific topics and a detailed outline will be available at the time of registration prior to the start of the registration period for the session in which the course will be offered.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Permission of the department.

MECH 4342 Contemporary Topics in Manufacturing Engineering II 4 cr
(Lab required) This course will cover contemporary topics in Manufacturing Engineering. The specific topics and a detailed outline will be available at the time of registration prior to the start of the registration period for the session in which the course will be offered. May not be held for credit with MECH 4340.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Departmental Permission.

Mutually Exclusive: ENG 4110, ENG 7510, MECH 4340, MECH 4432

MECH 4350 Topics in Engineering Material 1 4 cr
(Lab required) This course will cover contemporary topics in engineering materials. The specific topics and a detailed outline will be available prior to the start of registration period for the session in which the course will be offered.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Departmental Permission.

MECH 4360 Topics in Engineering Materials 2 4 cr
(Lab required) This course will cover contemporary topics in engineering materials. The specific topics and a detailed outline will be available prior to the start of registration period for the session in which the course will be offered.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Departmental Permission.

MECH 4412 Heating, Ventilation and Air Conditioning 4 cr
(Lab required) Psychometric processes, equipment selection, and the design of heating and cooling systems for typical buildings. May not be held for credit with MECH 4410.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MECH 2202 (formerly MECH 2200).

Mutually Exclusive: MECH 4410

MECH 4432 Systems Engineering 4 cr
(Lab required) The engineering support process as applied to the entire product life cycle from requirements definition to disposal. Focus on the system as a whole; from the outside, its interaction with its environment and other systems; and from the inside, its design requirements and implementation. May not be held with MECH 4342 when titled "Systems Engineering." Restricted to students in third year or above.

Mutually Exclusive: MECH 4342

MECH 4452 Aircraft Performance, Dynamics and Design 4 cr
(Lab required) A study of the morphology of aerospace vehicles; basic components and their functions, Aircraft performance; drag, thrust, lift, basics of orbital mechanics. May not be held for credit with MECH 4450.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MECH 3520.

Mutually Exclusive: MECH 4450

MECH 4472 Mechanical Vibration 4 cr
(Lab required) Nonlinear Vibrations: mathematical theory for lumped vibratory systems; response of systems to nonharmonic excitation; solutions by Laplace transforms and Fourier analysis; introduction to the matrix formulation of vibration problems and vibration of distributed systems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MECH 3420.

MECH 4482 Applied Aerospace Instrumentation 4 cr
(Lab required) Principles and practices of test and measurement system design and analysis for aerospace applications. Topics include transducers, signal conditioning, data acquisition and analysis, uncertainty analysis, calibration and correlation, system design and maintenance, and piping and instrumentation diagrams, and an introduction to LabVIEW software. This course may include a field trip component. May not be held for credit with MECH 4322 when titled "Applied Instrumentation".

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MECH 3430 and [(MECH 3982 and MECH 3992) or the former MECH 3980 or (the former MECH 4980 and the former MECH 4990)].

Mutually Exclusive: MECH 4322

MECH 4510 Fundamentals of Finite Element Analysis 4 cr
(Lab required) Fundamentals of the Finite Element Method, basic components in a Finite Element procedure, application of FEM to solve engineering problems and use of commercial software.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (MECH 2150 or MATH 2120) and (MATH 3132 or MATH 3100) and MECH 2222 (or the former MECH 2220).

MECH 4532 Advanced Strength of Materials 4 cr
(Lab required) Stress and strain in three dimensions; thick walled cylinders, beams of elastic foundations, unsymmetrical bending and sheet-stringer construction, curved beams. Additional topics such as the analysis of fibre-composite material, techniques in experimental stress analysis and studies in metallics fatigue may be presented. May not be held for credit with MECH 4530.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MECH 3502 (formerly MECH 3500).

MECH 4542 Principles of Turbomachinery 4 cr
(Lab required) Principles and design of turbomachinery, including fluid dynamics, thermodynamics and engineering applications. A variety of turbomachines are introduced, including hydraulic pumps and turbines, centrifugal compressors and fans, and axial flow compressors and fans. May not be held for credit with MECH 4310 when titled "Turbomachinery."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MECH 2202 (or the former MECH 2200) and MECH 3492 (or the former MECH 3490).

Mutually Exclusive: MECH 4310

MECH 4550 Noise Control 4 cr

(Lab required) An elective course open to all branches of Engineering; a recommended course for students taking Air Conditioning. Wave propagation, transducers and measurement techniques, psycho-acoustic criteria, legislation, techniques of noise and vibration control.

MECH 4560 Selected Topics in Fluid Mechanics 4M 4 cr

(Lab required) Topics may include: wind tunnel design; experimental techniques; some exact solutions of the conservation equations; fundamentals of turbulence; secondary flows; fluidization; elementary meteorology; fluidics; other topics of current interest.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [MATH 3132 or the former MATH 3100] and [MECH 3492 or the former MECH 3490].

MECH 4582 Vehicle Testing, Condition Monitoring, and Fault Analysis 4 cr

(Lab required) General testing and fault diagnostic techniques for ground vehicles including common signal analysis techniques, vibration testing and fault analysis methods. Basic knowledge of vibration based condition monitoring including the basic theory and applications of engineering tools, damage analysis and detection, and modal analysis. May not be held for credit with MECH 4322 when titled "Ground Vehicle Testing Technology."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MECH 3420.

Mutually Exclusive: MECH 4322

MECH 4620 Corrosion of Metals and Alloys 4 cr

(Lab required) Electrochemical basis of corrosion, corrosion prevention by cathodic protection, inhibitors, alloying and heat treatment, passivation, stress corrosion cracking, corrosion fatigue; ionic and electronic conduction; oxidation of metals and alloys.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MECH 3542 (or MECH 3540).

MECH 4672 Advanced Mechanism Design 4 cr

(Lab required) Graphical, analytical and computer techniques for the analysis and design of mechanisms to produce a desired set of motion characteristics; design of linkages, double lever, slider and dwell mechanism; cognate linkages. Kinetic synthesis tasks function generation, path generation and motion generation. May not be held for credit with MECH 4670.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MECH 3482 (formerly MECH 2120).

Mutually Exclusive: MECH 4670

MECH 4680 Energy Conservation and Utilization 4 cr

(Lab required) Energy supply and demand, advanced thermodynamic cycles, conventional energy sources, alternative energy, conservation of energy, environmental considerations.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MECH 2202 (formerly MECH 2200).

MECH 4690 Topics in Heat Transfer and Energy 3 cr

(Lab required) Some combination of the following advanced topics: conduction heat transfer, radiation, heat-exchanger design, two-phase phenomena, fluidization, alternative energy, energy conservation. Other topics of current interest may also be included.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MECH 3460 (or MECH 3470).

Mutually Exclusive: MECH 4694

MECH 4692 Renewable Energy 4 cr

(Lab required) Introduction to renewable energy systems, current and future global energy issues and the need for renewable energy applications, and distributed renewable energy generation. Renewable energy systems that will be considered are; solar heat, solar PV, biomass heat and power, hydro power, and wind power. Students will develop simple numerical models of renewable energy systems. Prerequisites MECH 2202 (formerly MECH 2200) and MECH 2262 (formerly MECH 2260). Pre- or Co requisite; MECH 3460 (formerly MECH 3470).

MECH 4694 Advanced Topics in Heat Transfer 4 cr

(Lab required) Some combination of the following advanced topics; conduction heat transfer radiation, heat-exchanger design, two-phase phenomena, fluidization, alternative energy, energy conservation. Other topics of current interest may also be included. May not be held for credit with MECH 4690.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MECH 3460 (or MECH 3470).

Mutually Exclusive: MECH 4690

MECH 4702 Design of Thermal Systems 4 cr

(Lab required) Modeling of thermal systems; system simulation; design applications of optimization methods: Lagrange multipliers, search methods, and dynamic geometric and linear programming. May not be held for credit with MECH 4700.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MECH 2202 (or MECH 2200).

Mutually Exclusive: MECH 4700

MECH 4812 Automotive Engineering 4 cr

(Lab required) Introduction to vehicle dynamics; power trains; braking systems; road loads, aerodynamics and fuel efficiency; ride and suspension systems; steering systems; tire properties and dynamics; structural analysis and crash safety; performance vehicle design. May not be held for credit with MECH 4810.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MECH 3502 (or the former MECH 3500). Pre or Co-requisite: MECH 3420.

Mutually Exclusive: MECH 4810

MECH 4822 Numerical Heat Transfer in Fluid Flow 4 cr

(Lab required) General conservation equations; specific forms of the conservation equations and energy equations; finite difference methods: one dimensional steady problems, one dimensional unsteady problems, two dimensional steady problems; two dimensional unsteady problems; convection, solution for the flow fluid. May not be held for credit with the former MECH 4820.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (MATH 3132 or the former MATH 3100), (MECH 2150 or MATH 2120), MECH 3460 (or the former MECH 3470) and MECH 3492 (or the former MECH 3490).

Mutually Exclusive: MECH 4820

MECH 4832 Biomaterials in Biomedical Engineering 4 cr

(Lab required) Biomechanics and design of hard biomaterials and soft biomaterials and their applications in orthopedics, cardiovascular and neural systems. Course includes fundamental biological concepts, materials science fundamentals and medical/clinical concerns.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MECH 3542 (or the former MECH 3540) or (BIOE and BIOE 3590).

MECH 4860 Engineering Design 5 cr

(Lab required) Design projects; teams of students prepare written and oral design reports on solutions to specific problems from Manitoba industries; series of seminars by invited speakers.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: eligibility for graduation in the current academic year or registered in third year Industrial Cooperative Education Program. Prerequisites: (ENG 2030 or ENG 2040 or the former ENG 2010) and MECH 3170 and (MECH 3652 or the former MECH 4650).

MECH 4870 Fracture and Failure of Engineering Materials 4 cr

(Lab required) Criteria for crack initiation and propagation leading to structural failure. Fracture mechanics and fracture toughness phenomena. Effects of structure geometry, loading rate, environment, temperature, composition and microstructure on material integrity.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MECH 3542 (or MECH 3540).

MECH 4900 Mechatronics System Design 4 cr

(Lab required) The course covers topics in the analysis of control systems and components with the goal to provide students with tools and an understanding of issues related to integrating mechanical, electronic and software components towards building mechatronic devices. Hands-on-experience is provided in the laboratory sessions on simulation and actual computer control of various devices. Problems considered would include application to fluid power systems, systems integration and validation. The focus is placed on learning to work with real hardware.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MECH 3430.

MECH 4930 Mechanical Engineering Industry Internship (IIP) 0 cr

Supervised work experience normally of 12-16 months duration, concluded by a work report. (Pass/Fail grade only.)

Medical Rehabilitation (REHB)

REHB 2450 Research Methodology for Medical Rehabilitation 3 cr

A theory and practical course designed to provide a basic understanding of research principles and their application in Medical Rehabilitation. 45 hours.

Microbiology (MBIO)

MBIO 1010 Microbiology I 3 cr

(Lab required) Topics will include the definition and history of microbiology, concepts of practical microbiology, prokaryotic cell structure, prokaryotic specialization in gene expression and transfer of genetic information, the role of microbes in environments including the human body, and applications of microbiology to food production and biotechnology. May not be held with MBIO 1011.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [BIOL 1020 or BIOL 1021] and [one of CHEM 1100, the former CHEM 1300, or CHEM 1301].

Equiv To: MBIO 1011

Mutually Exclusive: MBIO 1220, MBIO 2100, MBIO 2101, MBIO 2110, MBIO 2111

Attributes: Science, Recommended Intro Courses

MBIO 1220 Essentials of Microbiology 3 cr

An introduction to the essential principles of microbiology including immunity, with emphasis on microbial disease. Not available to students who have previously obtained credit in or are currently enrolled in MBIO 1010 or MBIO 1011 (or the former MBIO 2100 or MBIO 2101). NOTE: MBIO 1220 is intended for students planning to enter the College of Nursing or other health care or related programs. Students that have completed MBIO 1010 but wish to take MBIO 1220 to satisfy Faculty of Nursing entrance requirements must obtain departmental permission prior to registering for MBIO 1220. MBIO 1220 cannot be used to satisfy the requirements of the Microbiology Honours or Major degree programs. MBIO 1220 can be used as an elective course in any Science program.

Mutually Exclusive: MBIO 1010, MBIO 1011, MBIO 2100, MBIO 2101

Attributes: Science, Recommended Intro Courses

MBIO 1410 Introduction of Molecular Biology 3 cr

An introduction to the mechanisms, themes and patterns that are present in the molecular biology of organisms ranging from bacteria to humans. The basic applications of molecular biology to disciplines such as medical microbiology, criminology, genetic fingerprinting, genome sequencing, and bioinformatics will be discussed. NOTE: MBIO 1410 is intended for students outside of Microbiology and Biological Sciences who require an introduction to molecular biology, such as those with interests in bioinformatics, biophysics, or bioengineering. Although this course may be used as an elective in an Arts or Science program, it may not be used to meet a program requirement for an Honours or Major program in Microbiology. Not available to students who have previously obtained credit in, or are currently enrolled in the following courses: the former MBIO 2410, BIOL 2500, BIOL 2501, MBIO 2020, MBIO 2021, the former MBIO 2100, MBIO 2101, MBIO 3410 or MBIO 3411.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of grade 12 Biology, grade 12 Chemistry, BIOL 1000, CHEM 1000, or higher level Chemistry or Biology course; or consent of department.

Mutually Exclusive: BIOL 2500, BIOL 2501, MBIO 2020, MBIO 2021, MBIO 2100, MBIO 2101, MBIO 2410, MBIO 3410, MBIO 3411

Attributes: Science, Recommended Intro Courses

MBIO 2020 Microbiology II 3 cr

(Lab required) Topics will include bacterial growth, chromosome replication, the specifics of transcription and translation and their application to the regulation of microbial gene expression. Families of bacterial and animal viruses, their modes of reproduction and pathogenicity will be discussed. Mutation and gene transfer in bacteria will be introduced. May not be held with MBIO 2021.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [MBIO 1010 or MBIO 1011] and [(CHEM 1110 and (CHEM 1120 or CHEM 1126)) or (the former CHEM 1310 or CHEM 1311 or the former CHEM 1320)].

Equiv To: MBIO 2021

Mutually Exclusive: MBIO 1410, MBIO 2110, MBIO 2111

Attributes: Science

MBIO 2230 Introductory Biogeochemistry 3 cr

The roles and interactions of biological, chemical and geological reactions in determining the composition of the environment. Microorganisms as major agents of biogeochemical change and their roles in the element cycles will be especially emphasized.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of CHEM 1110, the former CHEM 1310, or CHEM 1311] and [one of MBIO 1010, MBIO 1011, BIOL 1030, or BIOL 1031].

Attributes: Science

MBIO 2420 Introductory Virology 3 cr

An introduction to the general principles of eukaryotic virology, with emphasis on animal virus systems. These principles will be reinforced and expanded to deal with specific viruses that cause acute and chronic infections in humans. Topics to be discussed include the molecular structure of viruses; the basic multiplication strategies of the major virus families; mechanisms of host immune evasion and viral latency, persistence, and oncology.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (MBIO 1010 or MBIO 1011) and (BIOL 2520 or BIOL 2521).

Attributes: Science

MBIO 2700 Biochemistry 1: Biomolecules and an Introduction to Metabolic Energy 3 cr

An introductory course dealing with the kinds of molecules encountered in biochemistry, and the concept of metabolic energy as a product of catabolism and a requirement for biosynthesis. Also offered as CHEM 2700. May not be held with the former MBIO 2360, MBIO 2361, MBIO 2730, the former MBIO 2770, the former CHEM 2360, CHEM 2361, CHEM 2700, CHEM 2730, the former CHEM 2860, the former CHEM 2770.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [(CHEM 1110 and (one of CHEM 1120 or CHEM 1126)) or (the former CHEM 1310 or CHEM 1311)] and [BIOL 1030 or BIOL 1031].

Equiv To: CHEM 2700

Mutually Exclusive: CHEM 2360, CHEM 2361, CHEM 2730, CHEM 2770, CHEM 2860, MBIO 2360, MBIO 2361, MBIO 2730, MBIO 2770

Attributes: Science

MBIO 2710 Biochemistry 2: Catabolism, Synthesis, and Information Pathways 3 cr

An introductory course dealing with the basic metabolic processes that occur in living cells, including the production and use of metabolic energy, the breakdown and synthesis of biomolecules; the synthesis of DNA, RNA and proteins; and the regulation of these processes. Also offered as CHEM 2710. May not be held with the former MBIO 2370, MBIO 2371, MBIO 2750, the former MBIO 2780, the former CHEM 2370, CHEM 2371, CHEM 2750, or the former CHEM 2780.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of MBIO 2700, the former MBIO 2360, MBIO 2361, CHEM 2700, the former CHEM 2360, CHEM 2361, or the former CHEM 2860] and [one of CHEM 2100, the former CHEM 2210, or CHEM 2211].

Equiv To: CHEM 2710

Mutually Exclusive: CHEM 2370, CHEM 2371, CHEM 2750, CHEM 2780, MBIO 2370, MBIO 2371, MBIO 2750, MBIO 2780

Attributes: Science

MBIO 2730 Elements of Biochemistry 1 3 cr

Basic concepts of biochemistry including the properties of biomolecules (amino acids and proteins, enzymes, carbohydrates, lipids, and nucleic acids) and aspects of energy production in cells. Primarily for students in Agricultural and Food Sciences and four-year Biological Sciences programs in Science. May not be used as part of an Honours, Major, or Minor program in Chemistry. May not be used as part of an Honours or Major program in Microbiology. This course is also given in Chemistry as CHEM 2730. May not be held with the former CHEM 2360, the former CHEM 2361, CHEM 2700, CHEM 2701, CHEM 2730, the former CHEM 2770, the former CHEM 2860, the former MBIO 2360, the former MBIO 2361, MBIO 2700, MBIO 2701, or the former MBIO 2770.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of CHEM 1110, CHEM 1111, CHEM 1130, the former CHEM 1310, the former CHEM 1311, or the former CHEM 1320] and [six credit hours of university level BIOL courses or (HEAL 1500 and HEAL 1502)].

Equiv To: CHEM 2730

Mutually Exclusive: CHEM 2360, CHEM 2361, CHEM 2700, CHEM 2701, CHEM 2770, MBIO 2360, MBIO 2361, MBIO 2700, MBIO 2701, MBIO 2770

Attributes: Science

MBIO 2750 Elements of Biochemistry 2 3 cr

The continuation of CHEM 2730/MBIO 2730, dealing with nitrogen and lipid metabolism, representative biosynthetic pathways, and synthesis and importance of DNA, RNA and proteins. Primarily for students in Agricultural and Food Sciences and four-year Biological Sciences programs in Science. May not be used as part of an Honours, Major, or Minor program in Chemistry. May not be used as part of an Honours or Major program in Microbiology. This course is also given in Chemistry as CHEM 2750. May not be held with the former CHEM 2370, the former CHEM 2371, CHEM 2710, CHEM 2711, CHEM 2750, the former CHEM 2780, the former MBIO 2370, the former MBIO 2371, MBIO 2710, MBIO 2711, or the former MBIO 2780.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: one of CHEM 2730, CHEM 2700, CHEM 2701, the former CHEM 2770, the former CHEM 2360, the former CHEM 2361, the former CHEM 2860, MBIO 2730, MBIO 2700, MBIO 2701, the former MBIO 2770, the former MBIO 2360, or the former MBIO 2361.

Equiv To: CHEM 2750

Mutually Exclusive: CHEM 2370, CHEM 2371, CHEM 2710, CHEM 2711, CHEM 2780, CHEM 2860, MBIO 2370, MBIO 2371, MBIO 2710, MBIO 2711, MBIO 2780

Attributes: Science

MBIO 3000 Applied Biological Safety 3 cr

A comprehensive overview of applied biological safety in research and industrial environments and the disease-causing features of relevant infectious agents and considerations for their containment.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [MBIO 1010 or MBIO 1011] and [one of CHEM 1110, CHEM 1130, the former CHEM 1310, or CHEM 1311, or the former CHEM 1320]; or permission of instructor.

Attributes: Science

MBIO 3010 Mechanisms of Microbial Disease 3 cr

A consideration of host-parasite relationships, an introduction to the immune response, microbial pathogenesis, viral diseases, clinical microbiology and public health, and an introduction to antimicrobial agents. May not be held with MBIO 3011.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MBIO 2020 (MBIO 2021) or the former MBIO 2100 or former MBIO 2101.

Equiv To: MBIO 3011

Attributes: Science

MBIO 3032 Microbiology III: Physiology and Metabolism 3 cr

The course will include an introduction to microbial growth and genomics approaches used for the analysis of microbial metabolism. Using these tools, the physiology of microbial cell walls, transport, and motility, as well as microbial metabolism as related to ATP production, respiration, fermentation and carbon fixation will be discussed. May not be held with the former MBIO 3030, or MBIO 3031.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [MBIO 2020 or MBIO 2021] and [one of MBIO 2710, the former MBIO 2370, MBIO 2371, CHEM 2710, the former CHEM 2370, or CHEM 2371].

Mutually Exclusive: MBIO 2100, MBIO 2101, MBIO 3030, MBIO 3031

Attributes: Science

MBIO 3282 Microbial Communities 3 cr

This course will examine microbial communities, which will be discussed in terms of their composition, physiological adaptations and their effects on their abiotic and biological surroundings. Topics will include nutrient cycling, biodegradation and adaptation to extreme environments, and the applications arising from these microbial functions. Methods for quantitation of microbial biomass and biological activity will be discussed. May not be held with the former MBIO 2280 or the former MBIO 3280.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [MBIO 1010 or MBIO 1011] and [one of CHEM 1110, the former CHEM 1310, or CHEM 1311]. MBIO 2020, MBIO 2021, or MBIO 1410 are recommended prerequisites.

Mutually Exclusive: MBIO 2280, MBIO 3280

Attributes: Science

MBIO 3410 Molecular Biology 3 cr

A rigorous treatment of the foundations of modern day molecular biology as it pertains to molecular disease, gene and cell manipulation, and cellular controls. May not be held with MBIO 3411.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of MBIO 2700, CHEM 2700, MBIO 2730, CHEM 2730, the former MBIO 2360, MBIO 2361, the former CHEM 2360, CHEM 2361, the former MBIO 2770, or the former CHEM 2770] and [one of MBIO 2020, MBIO 2021, BIOL 2520, BIOL 2521, BIOL 2500, BIOL 2501, or PLNT 2520].

Equiv To: MBIO 3411

Mutually Exclusive: MBIO 1410

Attributes: Science

MBIO 3430 Molecular Evolution 3 cr

An analysis starting with prebiotic evolution, progressing through the elaboration of macromolecules and examining their adaptation to their function as cellular components. Proteins, carbohydrates, and nucleic acids as structural, catalytic, and genetic elements in evolution of living systems.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of MBIO 2020, MBIO 2021, MBIO 2710, the former MBIO 2370, MBIO 2371, CHEM 2710, the former CHEM 2370, CHEM 2371, MBIO 2750, the former MBIO 2780, CHEM 2750, the former CHEM 2780, BIOL 2500, BIOL 2501, PLNT 2520, BIOL 2520, or BIOL 2521.

Attributes: Science

MBIO 3450 Regulation of Biochemical Processes 3 cr

Mechanisms of regulation of enzyme activity, including allostery, control of selected biosynthetic and degradative pathways and regulation of gene expression. May not be held with MBIO 3451.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [MBIO 2020 or MBIO 2021] and [one of MBIO 2710, the former MBIO 2370, MBIO 2371, CHEM 2710, the former CHEM 2370, or CHEM 2371]; or consent of the department.

Equiv To: MBIO 3451

Attributes: Science

MBIO 3460 Membrane and Cellular Biochemistry 3 cr

(Lab required) Isolation, fractionation, structure and function of cellular membranes and subcellular components. The central role of these elements in the biochemistry of cellular processes will be stressed. May not be held with MBIO 3461.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [(MBIO 2710 or CHEM 2710) and CHEM 2720] or [one of the former MBIO 2370, MBIO 2371, the former CHEM 2370, or CHEM 2371].

Equiv To: MBIO 3461

Attributes: Science

MBIO 3472 Microbial Systematics 3 cr

Characterization and classification of the major group of microorganisms. Bases for divisions and the relatedness among organisms will be studied. May not be held with the former MBIO 3470.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of MBIO 3032, the former MBIO 3030, or MBIO 3031] and [one of MBIO 2710, the former MBIO 2370, MBIO 2371, CHEM 2710, the former CHEM 2370, or CHEM 2371].

Mutually Exclusive: MBIO 3470

Attributes: Science

MBIO 3600 Molecular Microbiology Techniques 3 cr

A laboratory-based course, intended to teach the fundamental techniques required to work in a modern molecular microbiology laboratory. Students will develop a thorough understanding of the theory underpinning the techniques introduced in this course, laboratory skills in current molecular microbiology techniques, and application of techniques to investigate scientific questions, such as the identification of unknowns. Learning outcomes include development of technical skills, competency in following protocols, presentation of results and scientific writing. May not be held with the former MBIO 4600, MBIO 4601, or MBIO 4030 when titled Advanced Microbial Genetics Lab.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [MBIO 3410 or MBIO 3411]; and [(MBIO 2710 or CHEM 2710) and CHEM 2720] or [one of the former MBIO 2370, MBIO 2371, the former CHEM 2370, or CHEM 2371].

Mutually Exclusive: MBIO 4030, MBIO 4600, MBIO 4601

Attributes: Science

MBIO 3700 Experimental Microbiology Laboratory 3 cr

This laboratory course will introduce students to the morphological and physiological study of microorganisms. Students will reinforce their basic laboratory skills while carrying out discovery-based experiments involving microscopy, antibiotic susceptibility testing, bacterial enumeration, physiology and identification. May not be held with the former MBIO 3030 or MBIO 3031.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MBIO 3032; and [(MBIO 2700 or CHEM 2700) and CHEM 2720] or [one or the former MBIO 2370, MBIO 2371, the former CHEM 2370, or CHEM 2371].

Mutually Exclusive: MBIO 3030, MBIO 3031

Attributes: Science

MBIO 3980 Work Term 1 0 cr

Work assignments in business, industry or government for students registered in the Microbiology Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MBIO 2370 (MBIO 2371) or CHEM 2370 (CHEM 2371).

Attributes: Science

MBIO 3990 Work Term 2 0 cr

Work assignments in business, industry or government for students registered in the Microbiology Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

Attributes: Science

MBIO 4020 Immunology 3 cr

Topics will include antigens, antibodies, antigen-antibody reactions, immunogenetics, regulation of immune reactions, complement, hypersensitivities, autoimmunity, immunodeficiencies, transplantation and tumour immunology. May not be held with the former MBIO 4010, the former MBIO 4011, or MBIO 4021.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of MBIO 3010, MBIO 3011, MBIO 3410 (B), or MBIO 3411 (B).

Equiv To: MBIO 4021

Mutually Exclusive: MBIO 4010, MBIO 4011

Attributes: Science

MBIO 4030 Special Topics in Microbiology 3 cr

Microbiology is a very broad field that encompasses a wide range of specialized topics. In this course, students can pursue a specific topic in detail through lectures, assigned readings, seminars and research projects. The course is normally restricted to third and fourth year Honours and Major students. Topics to be covered by the course shall be decided by the instructor(s) in consultation with the student(s) and with the approval from the Department. Grades are based on written assignments and reports. Evaluation may also include oral presentation and poster presentation(s).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Consent of Department.

Mutually Exclusive: MBIO 3600, MBIO 4700

Attributes: Science

MBIO 4032 Special Topics in Microbiology 3 cr

(Lab required) Microbiology is a very broad field that encompasses a wide range of specialized topics. In this course, students can pursue a specific topic in detail through laboratory-based research projects and may include lectures, assigned readings, and presentation of seminars. The course is normally restricted to third and fourth year Honours and Major students in Microbiology, Biochemistry, and Genetics. Topics to be covered by the course shall be decided by the instructor(s) in consultation with the student(s) and with the approval from the Department.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Consent of Instructor.

Attributes: Science

MBIO 4410 Virology 3 cr

A comprehensive examination of fundamental properties of viruses, virus taxonomy, and the different ways in which viruses replicate. The ways viruses cause disease and experimental methods used in virology also will be examined. May not be held with MBIO 4411.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [MBIO 3010 or MBIO 3011] and [MBIO 3410 or MBIO 3411] and [one of MBIO 2710, the former MBIO 2370, MBIO 2371, CHEM 2710, the former CHEM 2370, or CHEM 2371].

Equiv To: MBIO 4411

Attributes: Science

MBIO 4480 Microbes in our Environment 3 cr

(Lab required) A course investigating the diversity of roles microbes play in our immediate environment, and how they affect it. Environments to be examined may include the human body, waste treatment facilities and extreme environments. Molecular tools to study the community structure and roles of individual organisms will also be discussed. May not be held with the former MBIO 3480 or the former MBIO 4320.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of MBIO 3700, the former MBIO 3030, or MBIO 3031] and [one of MBIO 2710, the former MBIO 2370, MBIO 2371, CHEM 2710, the former CHEM 2370, or CHEM 2371].

Mutually Exclusive: MBIO 3480, MBIO 4320

Attributes: Science

MBIO 4520 Industrial Bioprocesses 3 cr

(Lab required) Bioprocesses for a range of commercially important healthcare and industrial products including antibiotics, vaccines, steroids, therapeutic recombinant proteins, monoclonal antibodies, and ethanol will be discussed. Other topics will include bioreactor design, metabolic engineering, applied genetic engineering and animal cell technology. This course may not be held for credit with the former MBIO 4510.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [one of MBIO 3700, the former MBIO 3030, or MBIO 3031] and [one of MBIO 2710, the former MBIO 2370, MBIO 2371, CHEM 2710, the former CHEM 2370, or CHEM 2371].

Mutually Exclusive: MBIO 4510

Attributes: Science

MBIO 4530 Project in Microbiology 6 cr

(Lab Required) A research project chosen in consultation with the department head, and supervised by a staff member. A written report is normally required. The course is available only to final year Honours students in Microbiology, the Joint Microbiology-Chemistry programs, or the Genetics program. May not be held with CHEM 4710.

Mutually Exclusive: BTEC 4000, CHEM 4710, CHEM 4711

Attributes: Science

MBIO 4531 Projet de recherche en microbiologie 6 cr

Projet de recherche choisi en consultation avec l'administrateur du cours ou un superviseur approprié de la Faculté. Un rapport écrit à mi-parcours et un rapport oral et écrit à la fin du projet sont exigés. Cours offert uniquement aux étudiantes et étudiants dans leur dernière année du programme de majeure conjointe en biochimie-microbiologie, d'un programme spécialisé en microbiologie, ou d'un programme en génétique. On ne peut se faire créditer MBIO 4531 et MBIO 4530, CHEM 4711 ou CHEM 4710.

Equiv To: MBIO 4530

Mutually Exclusive: BTEC 4000, CHEM 4710, CHEM 4711

Attributes: Université de Saint-Boniface, Science

MBIO 4540 Biological Energy Transduction 3 cr

Biochemistry of biological processes involving interconversion of different forms of energy such as oxidative phosphorylation, membrane transport and contractile processes. May not be held with MBIO 4541.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: one of MBIO 2710, the former MBIO 2370, MBIO 2371, CHEM 2710, the former CHEM 2370, or CHEM 2371. MBIO 3032, the former MBIO 3030, or MBIO 3031 is recommended as a prerequisite to this course.

Equiv To: MBIO 4541

Attributes: Science

MBIO 4602 Molecular Genetics of Prokaryotes - Lectures 3 cr

A detailed examination of genetic mechanisms of replication, expression, mutability, repair and transposition of DNA in bacteria and their viruses, and their applications in recombinant DNA technology. The contribution of these genetic mechanisms to virulence in bacterial pathogens will also be examined. May not be held with the former MBIO 4600 or MBIO 4601.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [MBIO 3410 or MBIO 3411] and [MBIO 2020 or MBIO 2021] and [one of MBIO 2700, the former MBIO 2360, MBIO 2361, MBIO 2730, the former MBIO 2770, CHEM 2700, the former CHEM 2360, CHEM 2361, CHEM 2730, the former CHEM 2770].

Equiv To: MBIO 4603

Mutually Exclusive: MBIO 4600, MBIO 4601

Attributes: Science

MBIO 4612 Molecular Genetics of Eukaryotes - Lectures 3 cr

A comprehensive study dealing with replication and expression of DNA, genome structure, and the involvement of genes in diseases such as cancer. May not be held with the former MBIO 4610.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [MBIO 3410 or MBIO 3411] and [one of MBIO 2710, the former MBIO 2370, MBIO 2371, CHEM 2710, the former CHEM 2370, or CHEM 2371]. BIOL 2500 or BIOL 2501 is recommended.

Mutually Exclusive: MBIO 4610

Attributes: Science

MBIO 4672 Applied Molecular Biology 3 cr

The overall objective of this course is to introduce and describe the current molecular techniques and their application to biological problems. These include, but are not limited to, basic gene cloning, mutagenesis and over-expression. May not be held with the former MBIO 4570, the former MBIO 4670, the former MBIO 4580, MBIO 4581.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [MBIO 3410 or MBIO 3411] and [one of MBIO 2710, MBIO 2711, the former MBIO 2370, the former MBIO 2371, CHEM 2710, CHEM 2711, the former CHEM 2370 or the former CHEM 2371].

Mutually Exclusive: MBIO 4570, MBIO 4580, MBIO 4581, MBIO 4670

Attributes: Science

MBIO 4700 Computational Molecular Microbiology 3 cr

The introduction to bioinformatics concepts achieved by applying computational tools to analyse sequence/molecular data relevant to Microbiology. The course will introduce existing bioinformatics tools that deal with biological databases, sequence alignment, gene and protein structure prediction, molecular phylogenetics, genomics and proteomics. May not be held with MBIO 4030 when the topic was Applied Bioinformatics Resources for Microbial Based Research.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a "B" or better in MBIO 3410 or MBIO 3411.

Mutually Exclusive: MBIO 4030

Attributes: Science

MBIO 4980 Work Term 3 0 cr

Work assignments in business, industry or government for students registered in the Microbiology Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

Attributes: Science

MBIO 4990 Work Term 4 0 cr

Work assignments in business, industry or government for students registered in the Microbiology Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

Attributes: Science

Midwifery (MDFY)

MDFY 2010 Preparation for Professional Midwifery Education and Practice 3 cr

This course provides students with an understanding of the midwifery model of care in remote, rural, and urban settings in Manitoba and contrasts this model with those in other Canadian jurisdictions and internationally. Students also learn about the historical context of midwifery and the issues related to the future of the midwifery profession in Canada, including Indigenous midwifery practices. This course introduces theories and models of teaching and learning as it relates to the health promotion of individuals, groups, and communities. Strategies for interpersonal communication and counseling are introduced.

MDFY 2020 Bioscience for Midwives 3 cr

(Lab required) This course provides an overview of the biochemical and microbiological concepts that underlie screening and diagnostic testing in the childbearing year. Content areas include practical applications of clinical chemistry, specimen collection, medical microbiology, and the interpretation of laboratory results.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MDFY 2010, MDFY 2440, NURS 2522, and NURS 3550.

MDFY 2030 Pharmacology for Midwives 3 cr

This course introduces concepts of pharmacotherapeutics. It provides an overview of basic concepts in pharmacology and introduces therapeutics relevant to the pharmacological aspects of the practice of midwifery. Unifying concepts include pharmacokinetics, pharmacodynamics, toxicology, adverse reactions in pregnancy and lactation, and in the neonate. This course includes content related to traditional Indigenous midwifery practices.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MDFY 2010, MDFY 2440, NURS 2522, and NURS 3550.

MDFY 2040 Normal Childbearing Skills 6 cr

(Lab required) This course provides students with fundamental theory, assessment skills, and psychomotor skills to support clinical practice in the normal childbearing year.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MDFY 2010, MDFY 2440, NURS 2522, and NURS 3550.

MDFY 2090 Normal Childbearing Clinical Practice and Tutorial 12 cr

This clinical practice course enables students to apply the knowledge, skills and judgment related to the normal childbearing process to clinical practice. This course offers students the opportunity to reflect about and critically analyze clinical practice experiences and to share this analysis with their peers and instructors. This course will include content related to traditional Indigenous midwifery practices. This course is evaluated on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MDFY 2020, MDFY 2030, and MDFY 2040.

MDFY 2440 Human Reproductive Physiology 3 cr

(Lab required) This course provides an in-depth understanding of human reproduction with particular emphasis on intrinsic control mechanisms and extrinsic methods of regulation of reproduction. This course also provides the basis for the understanding of alterations from normal mechanisms of reproductive processes.

MDFY 3010 Advanced Clinical Skills I 3 cr

This week long intensive course provides students with a series of lectures and practical skills labs to build on clinical skills acquired in MDFY 2040 and MDFY 2090. This course expands on knowledge and skills related to intrapartum care such as, perineal repair, emergency skills, fetal health surveillance, ethical issues, and other relevant topics. Knowledge related to effective interprofessional consultation and communication is introduced. This course is graded on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MDFY 2090.

MDFY 3020 Midwifery Clinical Practice and Interprofessional Roles 3 cr

This clinical practice experience focuses on preparing the student for their interprofessional placements. Students will be in midwifery clinical placements during the span of the course and complete the didactic part of this course online. This course expands on knowledge and skills related to variations in normal during the prenatal, intrapartum and postpartum periods. Knowledge related to effective interprofessional consultation and communication is reinforced. This course is graded on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MDFY 2090.

MDFY 3030 Interprofessional Practice I 6 cr

This clinical practice course provides students with the opportunity to develop their skills in the provision of culturally safe care in culturally diverse settings. The tutorial offers students the opportunity to reflect about and critically analyze clinical practice experiences and to share this analysis with their peers and instructors. This course includes content related to traditional Indigenous midwifery practices. This course is graded on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MDFY 2090.

MDFY 3032 Interprofessional Practice II 6 cr

This clinical practice course enables the student to advance their skills in the provision of care during the childbearing year in interprofessional clinical settings. The tutorial offers students the opportunity to reflect about and critically analyze clinical practice experiences and to share this analysis with their peers and instructors. This course includes content related to traditional Indigenous midwifery practices. This course is graded on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MDFY 3010, MDFY 3020 and MDFY 3030.

MDFY 3050 Newborn Feeding: Methods and Contemporary Issues 3 cr

This course enables the student to obtain knowledge related to all methods of newborn feeding and the evidence related to the outcomes of each method. Students will also learn about strategies for promotion and support of breastfeeding. This course also addresses policy issues related to breastfeeding in the context of family systems theory and feminist theory.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MDFY 3010, MDFY 3020 and MDFY 3030.

MDFY 3060 Professional Issues in Midwifery 3 cr

This course enables the student to engage in a critical analysis of ethical, professional and emerging trends in the profession of midwifery in Manitoba, Canada and the international context. This course includes content related to traditional Indigenous midwifery practices.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MDFY 3010, MDFY 3020 and MDFY 3030.

MDFY 3090 Complex Care I Clinical Practice and Tutorial 12 cr

This clinical practice course provides students with the knowledge and skills to begin to manage pathological and high risk conditions of pregnancy, birth, and newborn care. The focus is on advanced assessment and intervention for clients requiring complex care during the childbearing year. This course will include content related to traditional Indigenous midwifery practices. This course is graded on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre-requisites: MDFY 3032, MDFY 3050, and MDFY 3060.

MDFY 4010 Advanced Clinical Skills II 3 cr

(Lab required) This course provides students with a series of lectures and practical skills labs to build on clinical skills acquired in MDFY 3090. This course expands on knowledge and skills related to prenatal, intrapartum and postpartum care with a focus on developing fundamental skills in managing complex care for the clients and newborns. Professional behaviour and interprofessional communication continues to be a focus.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MDFY 3090. This course is graded on a pass/fail basis.

MDFY 4090 Complex Care II Clinical Practice and Tutorial 12 cr

This clinical practice course enables the student to apply knowledge and skills related to the management of more complex and emergency care scenarios in the clinical setting. The focus is on the role of the primary midwife regarding more independent management, consultation and transfer related to these conditions. The tutorial offers students the opportunity to reflect about and critically analyze clinical practice experiences and to share this analysis with their peers and instructors. This course includes content related to traditional Indigenous midwifery practices. This course is graded on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MDFY 3090.

MDFY 4100 Clerkship and Tutorial 12 cr

This clinical practice course enables the student to demonstrate entry-level competence as a primary care provider in midwifery practice. In this course students demonstrate independent decision-making and apply full range of their academic knowledge to professional practice. This course offers students the opportunity to reflect about and critically analyze clinical practice experiences as the primary care provider, and to share this analysis with their peers and instructors. This course includes content related to traditional Indigenous midwifery practices. This course is graded on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MDFY 4010 and MDFY 4090.

Music (MUSC)

MUSC 1004 Introduction to Music in History 1 3 cr

A survey of Western music from early monophony to c. 1750 through an examination of genres and aesthetic foundations. The course will include comparison to non-Western musical traditions.

MUSC 1010 Music Matters: Excursions in Western Musical Culture 3 cr

This course introduces and explores selected western musical phenomena from aesthetic, social, and historical perspectives. Topics will include art and vernacular musics; style and genre; social function and context; the nature and varieties of musical experience. May not be held with MUSC 1050. This course may not be used for credit towards the Bachelor of Music or the Bachelor of Jazz Studies degree.

Mutually Exclusive: MUSC 1050

Attributes: Recommended Intro Courses

MUSC 1014 Introduction to Music in History 2 3 cr

A continuation of MUSC 1004, covering the eras from c. 1750 to the present. A survey of Western music from c. 1750 to the present through an examination of genres and aesthetic foundations. The course will include contemporary art music and comparison to non-Western musical traditions.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 1004 or consent of the Faculty of Music.

MUSC 1020 Introduction to Popular Music 3 cr

This course begins with a brief examination of the origins of the popular music industry in the late 19th and early 20th centuries through the development of rock 'n' roll in the 1950s and then surveys the subsequent proliferation of different types of popular music into the 21st century. The course will address representative genres artists, and record labels in their cultural, political, historical, and technological contexts.

Attributes: Recommended Intro Courses

MUSC 1030 History of Musical Theatre 3 cr

A broad survey of the development and history of musical theatre from the early days of Vaudeville and burlesque through its evolution to the grand scale Broadway productions of today. This course is designed to reveal the origins and development of modern musical theatre through the study of influential artists, movements and major figures. This course will include a field trip component.

Attributes: Recommended Intro Courses

MUSC 1050 The Well-Tempered Concert-Goer 3 cr

This course is an introduction to the art of music with the listening component based on attendance at live performances by Winnipeg's superior performing ensembles. Topics include instruments of the orchestra, musical materials, forms and structures, historical periods and biographical information on composers. This course may not be used for credit towards the Bachelor of Music or Bachelor of Jazz Studies degree.

Mutually Exclusive: MUSC 1010

Attributes: Recommended Intro Courses

MUSC 1110 Music Theory 1 3 cr

This course is designed to develop fluency in the writing and recognition of the elements of music: melodic and harmonic intervals, modes and scales, rhythm and metre, triads and inversions, and the principles of melodic and homophonic design. This course is normally restricted to students admitted to the Bachelor of Music or Bachelor of Jazz Studies program. Non-Music students will only be admitted if there is sufficient room in the class.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 1930 with a grade of "C" or better, or knowledge of music rudiments demonstrated by a rudiments test administered by the Faculty of Music before the first day of classes.

Attributes: Recommended Intro Courses

MUSC 1112 Jazz Theory 1 3 cr

This course is designed to develop fluency in the writing and recognition of the elements of jazz: melodic and harmonic intervals, modes and scales, rhythm and meter, harmonic structure, and the principles of melodic and homophonic design. May not be held with the former MUSC 2112.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 1110 or consent of the Faculty of Music.

Mutually Exclusive: MUSC 2112

MUSC 1120 Music Theory 2 3 cr

An examination of the idioms of vocal melody through the writing and analysis of duple paraphrase, duple- and syncopated-rhythm counterpoint in two parts, and tonal homophony leading to the Chorale phrase and Bar form.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in MUSC 1110.

Attributes: Recommended Intro Courses

MUSC 1180 Ensemble 2 cr

Participation in University Symphony Orchestra, University Wind Ensemble, Women's Choir, Concert Choir, University Jazz Orchestra, University Concert Band or University Singers, as is appropriate to the student's background and/or major applied area (placement to be determined by ensemble committee).

MUSC 1184 Jazz Ensemble 2 cr

Participation in jazz ensemble(s) as assigned by the ensemble committee. May not be held with the former MUSC 1182. Course entry is subject to audition for students not enrolled in the Bachelor of Jazz Studies program.

Equiv To: MUSC 1182

MUSC 1190 Ensemble 2 cr

Participation in a Faculty of Music Ensemble other than the one designated in MUSC 1180 or MUSC 1184 (placement to be determined by the Ensemble Committee).

MUSC 1194 Jazz Improvisation 1 3 cr

The practical application of rhythmic, melodic, and harmonic devices, as well as scales, chords, and substitutions in the context of song forms, song fragments, and repertoire. May not be held with the former MUSC 1192.

Mutually Exclusive: MUSC 1192

MUSC 1280 Musical Style and Structure 1 3 cr

An integrated study of the history and theory of Western music to 1750. Continuation in the Music Minor requires a grade "C" or better in this course. This course may not be used as credit towards the Bachelor of Music or the bachelor of Jazz Studies degree.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 1930 or Conservatory Canada Grade 4 Theory or RCM Advanced Rudiments or consent of the Faculty of Music.

Attributes: Recommended Intro Courses

MUSC 1290 Musical Style and Structure 2 3 cr

An integrated study of the history and theory of Western music from 1750 to the present. Continuation in the Music Minor requires a grade of "C" or better in this course. This course may not be used for credit towards the Bachelor of Music or the Bachelor of Jazz Studies degree.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 1280 or consent of the Faculty of Music.

Attributes: Recommended Intro Courses

MUSC 1384 Musicianship 1 2 cr

(Lab required) A practical approach to the cultivation of critical aural perception, specifically, to develop the student's sight-singing, transcription and keyboard skills. May not be held with MUSC 1380 or MUSC 1386. For Music students only.

Equiv To: MUSC 1380, MUSC 1386

MUSC 1386 Jazz Musicianship 1 2 cr

(Lab required) A practical approach to the cultivation of critical aural perception, specifically, to develop the student's sight-singing, transcription, and keyboard skills within a jazz context. For Music students only. May not be held with MUSC 1384.

Equiv To: MUSC 1384

MUSC 1388 Jazz Musicianship 2 2 cr

(Lab required) A practical approach to the cultivation of critical aural perception, specifically, to develop the student's sight-singing, transcription, and keyboard skills within a jazz context. A continuation of MUSC 1386. For Music students only. May not be held with MUSC 1394.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 1386 or consent of the Faculty of Music.

Equiv To: MUSC 1394

MUSC 1394 Musicianship 2 2 cr

(Lab required) A continuation of MUSC 1384. May not be held with MUSC 1388 or the former MUSC 1390. For Music students only.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 1384 or consent of the Faculty of Music.

Equiv To: MUSC 1388, MUSC 1390

MUSC 1400 Major Practical Study 6 cr

Individual instruction in one of the following: any of the standard orchestral instruments (strings, woodwinds, brasses, percussion), classical guitar, harp, harpsichord, lute, organ, piano, recorder composition or voice. An important constituent of the grading procedure for this course is performance in, and attendance at, the recitals/concerts of the Faculty of Music. For Music students only.

MUSC 1404 Introduction to Composition 1 3 cr

A study of contemporary theoretical and practical approaches to rhythm, pitch, timbre, texture and form. For Music students only or with permission from the Faculty of Music.

MUSC 1414 Introduction to Composition 2 3 cr

A continuation of MUSC 1404 Introduction to Composition 1. For Music students only or with permission from the faculty of Music.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 1404.

MUSC 1460 Minor Practical Study 3 cr

Individual instruction in an area other than that selected for MUSC 1400 or in composition by special permission. Written consent of the director is required prior to registration.

MUSC 1930 Rudiments of Music 3 cr

An introduction to fundamental aspects of music such as sound generation, notation, melodic and harmonic construction, with emphasis on an aural approach. This course may not be used for credit towards the Bachelor of Music or the Bachelor of Jazz Studies degree.

Attributes: Recommended Intro Courses

MUSC 2072 Jazz History 1 3 cr

A broad survey of the development of jazz and early popular styles of the 20th Century up until the early 1950s. This course is designed to reveal the origins of modern jazz and conventional jazz performance practices.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 1014 or consent of the Faculty of Music.

MUSC 2082 Jazz History 2 3 cr

A broad survey of jazz styles from 1950 to the present, with an emphasis on the development of contemporary performance practices.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 2072 or consent of the Faculty of Music.

MUSC 2100 Introduction to Music Teaching and Learning 3 cr

This course provides an introduction to philosophical, sociological, and psychological perspectives relevant to music teaching and learning, including reflective practice, development of music teacher identity, and critical analysis of pedagogical principles.

MUSC 2110 Music Theory 3 3 cr

An examination of the idioms of instrumental melody through the writing and analysis of triple paraphrase, triple- and quadruple-rhythm counterpoint in two parts, and chromatic homophony leading to the Minuet and binary form.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 1120 or the consent of the Faculty of Music.

MUSC 2120 Music Theory 4 3 cr

An examination of the diffusion of tonality in instrumental textures through the writing and analysis of chromatic paraphrase, florid counterpoint in two parts and chromatically-extended homophony leading to the Cavatina and ternary form.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 2110 or consent of the Faculty of Music.

MUSC 2122 Jazz Theory 2 3 cr

AA continuation of Jazz Theory 1. New topics will include transcription analysis, transposition of lead sheets, modal and substitute harmony.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 1112 or the former MUSC 2112 or consent of the Faculty of Music.

MUSC 2180 Ensemble 2 cr

Participation in University Symphony Orchestra, University Wind Ensemble, Women's Choir, Concert Choir, University Jazz Orchestra, University Concert Band or University Singers, as is appropriate to the student's background and/or major applied area (placement to be determined by ensemble committee).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 1180 or consent of the Faculty of Music.

MUSC 2184 Jazz Ensemble 2 cr

Participation in jazz ensemble(s) as assigned by the ensemble committee. May not be held with the former MUSC 2182. Course entry is subject to audition for students not enrolled in the Bachelor of Jazz Studies program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 1184 or the former MUSC 1182.

Equiv To: MUSC 2182

MUSC 2190 Ensemble 2 cr

Participation in a Faculty of Music Ensemble other than the one designated in MUSC 2180 or MUSC 2184 (placement to be determined by the Ensemble Committee).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 1190 or consent of the Faculty of Music.

MUSC 2194 Jazz Improvisation 2 3 cr

A continuation of MUSC 1194 Jazz Improvisation 1. The practical application of rhythmic, melodic, and harmonic devices, as well as scales, chords, and substitutions in the context of song forms, song fragments, and repertoire. May not be held with the former MUSC 2192.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 1194 or the former MUSC 1192 or consent of the Faculty of Music.

Mutually Exclusive: MUSC 2192

MUSC 2384 Musicianship 3 2 cr

(Lab required) A continuation of MUSC 1394. May not be held with MUSC 2380 or MUSC 2386. For Music students only.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 1394 or consent of the Faculty of Music.

Equiv To: MUSC 2380, MUSC 2386

MUSC 2386 Jazz Musicianship 3 2 cr

(Lab required) A practical approach to the cultivation of critical aural perception, specifically, to develop the student's sight-singing, transcription, and keyboard skills within a jazz context. A continuation of MUSC 1388. For Music students only. May not be held with MUSC 2384.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 1388 or consent of the Faculty of Music.

Equiv To: MUSC 2384

MUSC 2388 Jazz Musicianship 4 2 cr

(Lab required) A practical approach to the cultivation of critical aural perception, specifically, to develop the student's sight-singing, transcription, and keyboard skills within a jazz context. A continuation of MUSC 2386. For Music students only. May not be held with MUSC 2394.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 2386 or consent of the Faculty of Music.

Equiv To: MUSC 2394

MUSC 2394 Musicianship 4 2 cr

(Lab required) A continuation of MUSC 2384. May not be held with MUSC 2388 or MUSC 2390. For Music students only.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 2384 or consent of the Faculty of Music.

Equiv To: MUSC 2388, MUSC 2390

MUSC 2400 Major Practical Study 6 cr

Individual instruction, normally in the area chosen in MUSC 1400.

An important constituent of the grading procedure for this course is performance in and attendance at the recitals/concerts of the Faculty of Music. For Music students only.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 1400 or MUSC 1414.

MUSC 2460 Conducting 3 cr

The principles and development of baton technique and expressive gestures. Fundamentals of vocal and instrumental score reading, preparation and interpretation.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MUSC 1120 or equivalent, or consent of the Faculty of Music.

MUSC 2480 Minor Practical Study 3 cr

Individual instruction in an area other than that selected for MUSC 2400.

Normally a continuation of MUSC 1460. Written consent of the director is required to register.

MUSC 3010 Advanced Diction 1 3 cr

Advanced training in rules of pronunciation, language use and translation skills in Italian and German. May not be held with MUSC 3820 when titled Advanced Diction 1.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Consent of the Faculty of Music.

Mutually Exclusive: MUSC 3820

MUSC 3012 Advanced Diction 2 3 cr

Advanced training in rules of pronunciation, language use and translation skills in French and English. May not be held with MUSC 3820 when titled Advanced Diction 2.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Consent of the Faculty of Music.

Mutually Exclusive: MUSC 3820

MUSC 3034 Medieval Music History 3 cr

A study of music history with emphasis on historical, stylistic, and cultural developments and issues of the Middle Ages. May not be held with the former MUSC 1070 or the former MUSC 3054.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 1014 or consent of the Faculty of Music.

Mutually Exclusive: MUSC 1070, MUSC 3054

MUSC 3044 Renaissance Music History 3 cr

A study of music history with emphasis on historical, stylistic, and cultural developments and issues of the Renaissance. May not be held with the former MUSC 1070 or the former MUSC 3054.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 1014 or consent of the Faculty of Music.

Mutually Exclusive: MUSC 1070, MUSC 3054

MUSC 3050 Research Methods 3 cr

Techniques of bibliography and expository writing in music. Minor research projects in selected areas; the use of primary and secondary sources.

MUSC 3056 Plainchant and Liturgy in Medieval Europe 3 cr

Intensive study of plainchant and liturgy in medieval Europe. Topics will include the development and standardization of "Gregorian" chant, issues of style and genre, related repertoires, and issues of historiography and performance practice. May not be held with MUSC 3830 when titled Seminar in Gregorian Chant.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Consent of the Faculty of Music.

Mutually Exclusive: MUSC 3830

MUSC 3064 Baroque Music History 3 cr

A history of European art music from the late 16th to the early 18th centuries (the so-called Baroque period) beginning with the invention of opera and the monodic and concerted styles in Italy and their subsequent adoption in the rest of Europe and the emergence of national schools and culminating in the works of Bach and Handel. Not to be held with MUSC 1080.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MUSC 1014 or consent of the Faculty of Music.

Equiv To: MUSC 1080

MUSC 3074 Classical Music History 3 cr

A history of European art music from the early-18th to the early-19th centuries (the so-called Classical period) beginning with the innovations of Neapolitan opera and sinfonia their subsequent adoption in the rest of Europe, culminating in the Viennese school of Haydn, Mozart and Beethoven. Not to be held with MUSC 2070.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MUSC 1014 or consent of the Faculty of Music.

Equiv To: MUSC 2070

MUSC 3084 Romantic Music History 3 cr

A study of the changing styles, forms and contexts of music from the late 18th century to 1915 (the Romantic Period). Not to be held with MUSC 2080.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MUSC 1014 or consent of the Faculty of Music.

Equiv To: MUSC 2080

MUSC 3090 Introduction to Ethnomusicology 3 cr

A study of style, performance methods and social role of selected non-Western and indigenous Western music, with particular emphasis on native Canadian music, through readings in field studies and methodology.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 1014.

MUSC 3100 Opera Repertoire 3 cr

The nature of the opera, its beginnings and development to modern times.

MUSC 3102 Composition, Technology and Improvisation for Music Educators 3 cr

This course explores the development of musical creativity through active participation in composition, improvisation, and informal music learning. Students will engage with a variety of activities, strategies and tools appropriate for numerous music education contexts.

MUSC 3104 History of Opera 1: from Monteverdi to Mozart 3 cr

A history of opera from its origins to the late eighteenth century, tracing various styles, genres and composers through representative works in the central Italian, as well as the French, English and German schools.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MUSC 1014 or consent of the Faculty of Music.

MUSC 3112 Jazz Composition and Arranging 1 3 cr

A study of the fundamentals of part writing such as instrumental range and transposition, various styles of unison writing, simple harmonic writing, melodic, harmonic and rhythmic devices along with standard and non-standard song structures. Course will culminate in a recital of student compositions and arrangements.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 2122 or consent of the Faculty of Music.

MUSC 3114 History of Opera II: from Mozart to the Modern Era 3 cr

A history of opera from the late 18th century and the masterpieces of Mozart to the present, tracing the various styles, genres and composers through representative works.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 1014 or consent of the faculty of Music.

MUSC 3116 Standard Orchestral Excerpts and Solos 1 (Cello and Bass) 3 cr

An in-depth study of standard orchestral excerpts for Cello and Bass from the Baroque and Classical eras, with emphasis on technical and stylistic analysis, execution, and preparation for professional auditions and performance. May not be held with MUSC 3830 when titled Cello Orchestral Excerpts Part 1. Performance stream students (Cello and Bass) only.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Instructor approval.

Mutually Exclusive: MUSC 3830

MUSC 3118 Standard Orchestral Excerpts and Solos 2 (Cello and Bass) 3 cr

An in-depth study of standard orchestral excerpts for Cello and Bass from the Romantic and Modern eras, with emphasis on technical and stylistic analysis, execution, and preparation for professional auditions and performance. May not be held with MUSC 3830 when titled Cello Orchestral Excerpts Part 2. Performance stream students (Cello and Bass) only.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Instructor approval.

Mutually Exclusive: MUSC 3830

MUSC 3126 Jazz Composition and Arranging 2 3 cr

A continuation of MUSC 3112. The student will write for larger ensembles, including jazz orchestra. Course will culminate in a performance of student compositions and arrangements. May not be held with the former MUSC 4112.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 3112 or consent of the Faculty of Music.

Mutually Exclusive: MUSC 4112

MUSC 3150 Orchestration 3 cr

A study of the technical capabilities and tonal characteristics of orchestral instruments, as well as practical scoring and arranging for various groups, from chamber to full orchestra and band.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 2120 or MUSC 2122 or consent of the Faculty of Music.

MUSC 3180 Ensemble 2 cr

Participation in University Symphony Orchestra, University Wind Ensemble, Women's Choir, Concert Choir, University Jazz Orchestra, University Concert Band or University Singers, as is appropriate to the student's background and/or major applied area (placement to be determined by ensemble committee).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 2180 or consent of the Faculty of Music.

MUSC 3184 Jazz Ensemble 2 cr

Participation in jazz ensemble(s) as assigned by the ensemble committee. May not be held with the former MUSC 3182. Course entry is subject to audition for students not enrolled in the Bachelor of Jazz Studies program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 2184 or the former MUSC 2182.

Equiv To: MUSC 3182

MUSC 3190 Ensemble 2 cr

Participation in a Faculty of Music Ensemble other than the one designated in MUSC 3180 or MUSC 3184 (placement to be determined by the Ensemble Committee).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 2190 or consent of the Faculty of Music.

MUSC 3194 Jazz Improvisation 3 3 cr

A continuation of MUSC 2194 Jazz Improvisation 2. The practical application of rhythmic, melodic, and harmonic devices, as well as scales, chords, and substitutions in the context of song forms, song fragments, and repertoire. May not be held with the former MUSC 3192.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 2194 or the former MUSC 2192 or consent of the Faculty of Music.

Mutually Exclusive: MUSC 3192

MUSC 3200 Orff Schulwerk 1 6 cr

(Lab required) The philosophy, techniques and materials in Orff-Schulwerk, including practical activities in the areas of Basic Orff, creative movement, recorder, aural skills, and choral techniques. Applicants should have a working knowledge of music rudiments. May not be held with the former MUSC 3130 or the former MUSC 3106, or MUSC 3360 when titled Choral, Recorder and Movement.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: A grade of "C" or better in MUSC 1930 or consent of instructor.

Mutually Exclusive: MUSC 3106, MUSC 3130, MUSC 3360

MUSC 3210 Orff Schulwerk 2 6 cr

(Lab required) An exploration of Orff-Schulwerk theory and pedagogy with materials and activities in Basic Orff, creative movement, recorder, aural skills, and choral techniques. This course is designed to further participants' musical growth and their understanding of lesson planning and curriculum for the elementary years. Laboratory component includes the study of both soprano and alto recorders. May not be held with the former MUSC 3140.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Grade of "C+" or better in MUSC 3200 or the former MUSC 3106 or the former MUSC 3130 or consent of Instructor.

Equiv To: MUSC 3140

MUSC 3220 Kodály Music Education 1 6 cr

(Lab required) An introduction to contemporary Kodály- inspired pedagogy for preschool and early years contexts. In addition to exploring philosophy, practice, and materials for music teaching and learning, course participants will have opportunities to develop their personal vocal, musicianship and conducting skills in the lab component. May not be held with the former MUSC 3108 or MUSC 3360 when titled Kodály 1: Pedagogy and Materials.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in MUSC 1930 or consent of the Instructor.

Mutually Exclusive: MUSC 3108, MUSC 3360

MUSC 3222 Kodály Music Education 2 6 cr

(Lab required) Inspired pedagogy, lesson planning, and project work for upper elementary and middle years with continued development of musicianship, conducting, and ensemble music- making in the lab component.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 3220 or the former MUSC 3108 or consent of the Instructor.

MUSC 3230 Acoustics of Music 3 cr

A study of the physical basis of music; consideration of the nature of musical sound, tone production of typical musical instruments, scales, and temperaments, and architectural acoustics. Experiments and projects.

Attributes: Mathematics Requirement

MUSC 3270 Performance Skills 3 cr

For performance majors in the Faculty of Music. Provides training in performance-related skills of the music profession, including such topics as acting, body awareness, self-promotion, career management, master classes, concert organizing, concert promotion and participation.

MUSC 3360 Topics in Music Education 3 cr

This course may vary from year to year depending on the needs and interests of instructors and students.

Mutually Exclusive: MUSC 3220

MUSC 3380 From Rock to Rap and Beyond: A History of Popular Music in the Later 20th Century 3 cr

A survey of popular music in North America and Britain from the mid-sixties to the present, beginning with the two foremost bands of the British Invasion, the Beatles and Stones, and the development of folk rock....The nineties focuses on the continual mainstreaming of music on the edge of rap, alternative and world beat.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 1014 or consent of the Faculty of Music.

MUSC 3390 From Ragtime to Rock 'n' Roll: A History of Popular Music in the 20th Century 3 cr

A survey of popular music in North America from the ragtime craze and Tin Pan Alley tradition, through the development of blues and country to the emergence of Rhythm and Blues and Rock 'n' Roll to the beginnings of the British Invasion.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 1014 or consent of the Faculty of Music.

MUSC 3404 From New Wave to Rave: A History of Popular Music in the Late 20th Century 3 cr

A survey of popular music from the end of twentieth century, beginning with the revolutions that occurred during the late seventies and early eighties (disco and rap, punk and hardcore) that transformed pop music, setting the course for music of the two final decades of the century.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 1014 or consent of the Faculty of Music.

MUSC 3470 Major Practical Study 6 cr

Individual instruction, normally in the area chosen in MUSC 2400.

An important component of the grading procedure for this course is performance in and attendance at the recitals/concerts of the Faculty of Music. For Music students only.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 1014, MUSC 1120, MUSC 1394, and MUSC 2400.

MUSC 3480 Minor Practical Study 3 cr

Individual instruction in an area other than that selected for Major Practical Study. Normally a continuation of MUSC 2480. Written consent from the Faculty of Music is required prior to registration.

MUSC 3550 Recital 1 3 cr

The program must be approved by the applied instructor and the jury members. For Music students only.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 1014, MUSC 1120, MUSC 1394, and MUSC 2400, or consent of the Faculty of Music.

MUSC 3554 Jazz Recital 1 3 cr

Preparation and performance of a public recital. The program must be approved by the applied instructor and jury members.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MUSC 1014, MUSC 1112, MUSC 1388, and MUSC 2400 or consent of the Faculty of Music. For Music students only

Mutually Exclusive: MUSC 3552

MUSC 3620 Independent Study 1 3 cr

Individual project designed by the student and a supervising faculty member. This study may be in an academic or applied area. Approval from the Faculty of Music is required.

MUSC 3650 Electroacoustic Music 3 cr

An introduction to electroacoustic music composition with the focus on acousmatic music. The course covers sound aesthetics, historical perspective of electro-acoustic music, repertoire and basic studio techniques such as sound editing, digital signal processing, multi-channel techniques and sound mixing.

MUSC 3690 Percussion Techniques 3 cr

Class instruction in percussion instruments. Development of basic playing techniques and examination of materials and procedures for individual and group instruction.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 2460 or consent of the Faculty of Music.

MUSC 3730 Early Music Development 3 cr

Procedures and materials for the development of musicality in children through listening activities, movement, creativity, singing and classroom instruments.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or co-requisites: MUSC 2460 or the former MUSC 3770 or consent of the Faculty of Music.

MUSC 3772 Vocal Pedagogy for Choirs 3 cr

The study of basic principles of vocal pedagogy and technique as they apply to educational settings and choral contexts. Study of the anatomy and physiology of breathing, phonation, and resonant tone production. Overview of stages of vocal development, and introduction to diction of choirs. Examination of materials and procedures for group vocal instruction. May not be held with the former MUSC 3770.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 2460 or consent of the Instructor.

Mutually Exclusive: MUSC 3770

MUSC 3780 Woodwind Techniques 3 cr

Class instruction in woodwind instruments. Development of music playing techniques and examination of materials and procedures for individual and group instruction.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 2460 or consent of the Faculty of Music.

MUSC 3790 Brass Techniques 3 cr

Class instruction in brass instruments. Development of basic playing techniques and examination of materials and procedures for individual and group instruction.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 2460 or consent of the Faculty of Music.

MUSC 3800 String Techniques 3 cr

Class instruction in string instruments. Development of basic playing techniques and examination of materials and procedures for individual and group instruction.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 2460 or consent of the Faculty of Music.

MUSC 3820 Topics in Music 3 cr

This course may vary from year to year depending on the needs and interests of instructors and students.

Mutually Exclusive: MUSC 3010, MUSC 3012, MUSC 3992

MUSC 3830 Topics in Music 3 cr

This course may vary from year to year depending on the needs and interests of instructors and students.

Mutually Exclusive: MUSC 3056, MUSC 3116, MUSC 3118

MUSC 3884 Introduction to Jazz for Music Educators 3 cr

Procedures for organizing, rehearsing, and directing small and large group jazz ensembles. Study of repertoire and performance materials, with emphasis on personal understanding of jazz improvisation and style. Not to be held with MUSC 3880.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MUSC 2460 or consent of the Faculty of Music.

Equiv To: MUSC 3880

MUSC 3894 Guitar Techniques 3 cr

Class instruction in guitar technique. Development of basic techniques and examination of materials and procedures for individual and group instruction.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 2460 or consent of the Faculty of Music.

MUSC 3964 History of Western Art Music After 1900 3 cr

A survey of the processes, contexts and conceptual constructs of Western art music from 1900 to present.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MUSC 1014 or consent of the Faculty of Music.

MUSC 3974 Music Theory After 1900 3 cr

A survey of music theoretical approaches, analytical techniques and compositional trends in Western art music from 1900 to the present.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 2120 or MUSC 2122, or consent of the Faculty of Music.

MUSC 3992 Advanced Counterpoint 3 cr

The study of contrapuntal structures in modal, tonal, neo-tonal and/or post-tonal music. This course will include the analysis of composition in two or more parts in a variety of historical genres, and the creation of pieces modeled directly on the works studied. May not be held with MUSC 3820 when titled Advanced Counterpoint.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MUSC 1014 and MUSC 2120.

Mutually Exclusive: MUSC 3820

MUSC 4010 French Diction and Repertoire 3 cr

Specialized instruction in French diction, translation and transcription using the International Phonetic Alphabet, with direct application to performance activities in French vocal repertoire. This course will be rotated on a three-year cycle with MUSC 4020 and MUSC 4030.

MUSC 4020 Italian Diction and Repertoire 3 cr

Specialized instruction in Italian diction, translation and transcription using the International Phonetic Alphabet, with direct application to performance activities in Italian vocal repertoire. This course will be rotated on a three-year cycle with MUSC 4010 and MUSC 4030.

MUSC 4030 German Diction and Repertoire 3 cr

Specialized instruction in German diction, translation and transcription using the International Phonetic Alphabet, with direct application to performance activities in German vocal repertoire. This course will be rotated on a three-year cycle with MUSC 4010 and MUSC 4020.

MUSC 4110 Special Area Paper 3 cr

The student will select a particular area of special interest or significance, work under supervision of a faculty member, and present results in an extended paper. For Music students only.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (MUSC 2120 or MUSC 2122), MUSC 2394 and MUSC 3470.

MUSC 4130 History of Women in Music 3 cr

A study of the female contribution to the art of music from the Middle Ages to the present; emphasis on the changing roles of, and attitudes towards, women as composers and performers.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 1014 or consent of the Faculty of Music.

MUSC 4140 History of Canadian Music 3 cr

A survey of music in Canada from Colonial times to the present, encompassing both folk, popular and classical traditions.

MUSC 4156 Choral Music Literature and Programming 3 cr

Survey of historic and contemporary choral repertoire including major choral forms, composers, and performance practice, with a focus on representative works. Introduction to concert programming and planning for diverse choral ensembles. Examination of materials and resources for organizing and administering community, church, and school coral programs. May not be held with the former MUSC 4150 or the former MUSC 4154.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 2460 or consent of Instructor.

Equiv To: MUSC 4150, MUSC 4154

MUSC 4160 Major Practical Study 3 cr

Individual instruction, normally in the area chosen in MUSC 3470. An important constituent of the grading procedure for this course is performance in and attendance at the recitals/concerts of the Faculty of Music. For Music students only.

MUSC 4180 Ensemble 2 cr

Participation in University Symphony Orchestra, University Wind Ensemble, Women's Choir, Concert Choir, University Jazz Orchestra, University Concert Band or University Singers, as is appropriate to the student's background and/or major applied area (placement to be determined by ensemble committee).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 3180 or consent of the Faculty of Music.

MUSC 4184 Jazz Ensemble 2 cr

Participation in jazz ensemble(s) as assigned by the ensemble committee. May not be held with the former MUSC 4182. Course entry is subject to audition for students not enrolled in the Bachelor of Jazz Studies program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 3184 or the former MUSC 3182.

Equiv To: MUSC 4182

MUSC 4190 Ensemble 2 cr

Participation in a Faculty of Music Ensemble other than the one designated in MUSC 4180 or MUSC 4184 (placement to be determined by the Ensemble Committee).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 3190 or consent of the Faculty of Music.

MUSC 4194 Jazz Improvisation 4 3 cr

A continuation of MUSC 3194 Jazz Improvisation 3. The practical application of rhythmic, melodic, and harmonic devices, as well as scales, chords, and substitutions in the context of song forms, song fragments, and repertoire. May not be held with the former MUSC 4192.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 3194 or the former MUSC 3192 or consent of the Faculty of Music.

Mutually Exclusive: MUSC 4192

MUSC 4212 Orff Schulwerk 3 6 cr

(Lab required) Continues instruction in the theory, philosophy, and pedagogy related to Orff process. Students are expected to create, orchestrate and perform at a high level, and to reach a high standard of competence in the art of teaching especially at the middle school level. Course work features mixed meters, and an exploration of medieval modes and their place in music history and in the Schulwerk. Competence in composing and arranging in the Elemental style and familiarity with materials from the Schulwerk, and Medieval, Renaissance, and Contemporary sources is developed along with recorder work using the full complement of recorders. Fluency on alto and soprano recorder is expected prior to start of the course. May not be held with the former MUSC 3140.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Grade B or better in MUSC 3210 or consent of Instructor.

Equiv To: MUSC 3140

MUSC 4224 Kodály Music Education 3 6 cr

Kodály-inspired pedagogy for older beginners, senior years contexts, and community ensembles, with continued skill development in musicianship, conducting, and ensemble music-making in the lab component. Open to students outside of the Faculty of Music with written permission from the Faculty of Music.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in MUSC 3222 or consent of Instructor.

MUSC 4330 Advanced Analysis 3 cr

A survey of analytical approaches to tonal and post-tonal music. Aspects of musical structure, perception and performance will be explored through readings and the analysis of major works from the core repertoire.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 2120 or MUSC 2122 or consent of the Faculty of Music.

MUSC 4360 Wind Repertoire 3 cr

A selected survey of wind literature from 1500 to the present.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (MUSC 4772 or the former MUSC 4770) and (MUSC 4782 or the former MUSC 4780), or consent of the Faculty of Music.

MUSC 4370 Wind Conducting Techniques 3 cr

A study of the psychological, philosophical and practical aspects of conducting wind ensembles at all levels.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (MUSC 4772 or the former MUSC 4770) and (MUSC 4782 or the former MUSC 4780), or consent of the Faculty of Music.

MUSC 4380 Piano Repertoire 3 cr

A comprehensive survey of major composers and their compositions for solo Piano. (Required course for piano Performance majors)

MUSC 4390 Piano Chamber Music Literature Seminar 3 cr

A selected survey of piano chamber music.

MUSC 4430 Pedagogy and Repertoire 3 cr

A consideration of approaches to the teaching of style and technique, through an examination of the repertoire for the student's major practical study.

MUSC 4440 Vocal Pedagogy 3 cr

An exploration of the foundations of the singer's art and craft, including the physical nature of the singing voice, stages of development, and various national, historical and individual pedagogical approaches to the teaching of singing. Required course for voice majors in Performance and General concentrations.

MUSC 4442 Jazz Pedagogy 2 3 cr

A continuation of Jazz Pedagogy 1, with a focus on high school students. Class members will teach and perform with students from the Faculty of Music Preparatory Division.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 3442 or consent of the Faculty of Music.

MUSC 4452 Jazz Pedagogy 3 cr

An introduction to the fundamentals of pedagogy within a jazz-specific context. May not be held with the former MUSC 3442 or the former MUSC 4442.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 3194 or the former MUSC 3192 or consent of the Faculty of Music.

Equiv To: MUSC 4442

Mutually Exclusive: MUSC 3442

MUSC 4470 Major Practical Study 6 cr

Individual instruction, normally in the area chosen in MUSC 3470.

An important component of the grading procedure for this course is performance in and attendance at the recitals/concerts of the Faculty of Music. For Music students only.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: (MUSC 2120 or MUSC 2122), MUSC 2394 and MUSC 3470 with a grade of "C" or better in each of the courses.

MUSC 4480 Minor Practical Study 3 cr

Individual instruction in an area other than that selected for Major Practical Study. Normally a continuation of MUSC 3480. Written consent of the director is required prior to registration.

MUSC 4490 Piano Pedagogy 3 cr

An introduction to teaching of styles and techniques through an examination of piano repertoire. (Required course for piano and organ majors in Performance and General Concentrations.)

MUSC 4520 Coaching Skills 3 cr

Introduction to and training in philosophies and techniques of vocal coaching including both song and operatic repertoire.

MUSC 4530 Operatic Piano 3 cr

Development of skills required of an operatic pianist, including standard arias, operatic scores, working with conductors and developing an orchestral sound. May include participation in community opera events. (by audition only)

MUSC 4560 Recital 2 6 cr

Preparation and performance of a public graduation recital. The program, which must be approved by the applied instructor and jury members. For Music Students only.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 2120, MUSC 2394 and MUSC 3550 or consent of the Faculty of Music.

MUSC 4562 Jazz Recital 2 6 cr

Preparation and performance of a public graduation recital. The program must be approved by the applied instructor and the jury members. For Music Students only.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 2082, MUSC 2122, MUSC 2394 and MUSC 3554 or consent of the Faculty of Music.

Mutually Exclusive: MUSC 4564

MUSC 4564 Jazz Recital 2 3 cr

Preparation and performance of a public graduation recital. The program must be approved by the applied instructor and the jury members. For Music students only. May not be held with the former MUSC 4562.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MUSC 2082, MUSC 2122, MUSC 2388, and MUSC 3554 or consent of the Faculty of Music.

Mutually Exclusive: MUSC 4562

MUSC 4630 20th to 21st Century Piano Repertoire 3 cr

Piano repertoire from 1900 to the present.

MUSC 4650 Interactive Computer Music 3 cr

An introduction to interactive computer music composition. The course covers different techniques for interaction between performers and a computer. Experiments will be done using major software for live MIDI and audio processing. The course also covers sound synthesis. Possibilities are given to write with either projects involving performers or multi-disciplinary projects (e.g., installation including visual elements).

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 3650 or consent of the Faculty of Music.

MUSC 4660 Computer Assisted Composition 3 cr

An introduction to Computer Assisted Composition. The course covers a variety of mathematical models for structuring musical parameters, such as probability, iterative functions, spectral pitch organization, rule-based systems and morphological models. Different environments using the Lisp language are used as a base for experiments.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 1414 or consent of the Faculty of Music.

MUSC 4752 Elementary and Middle Years Choral Methods 3 cr

Introduction to methods and pedagogical approaches for students in elementary and middle years choirs. Application of vocal technique, score preparation, and advanced conducting principles to unison, 2-part, and 3-part vocal music for unchanged and changing voices in a variety of styles. Examination of materials and resources for classroom instruction in choral music, including appropriate repertoire and methods assessment. May not be held with MUSC 4750.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 3772 or the former MUSC 3770 or consent of the Instructor.

Equiv To: MUSC 4750

MUSC 4762 Senior Years and Community Choral Methods 3 cr

Methods and pedagogical approaches for rehearsing, evaluating, organizing, and conducting changed voices in school and community ensembles. Introduction of teaching strategies and application of vocal technique, score preparation, and advanced conducting principles to mixed voice repertoire in a variety of genres for diverse groups of singers. Examination of materials and resources related to choral music instruction. May not be held with the former MUSC 4760.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 2460, MUSC 3772, the former MUSC 3770, MUSC 4752, the former MUSC 4750 or consent of the Instructor.

Equiv To: MUSC 4760

MUSC 4772 Instrumental Music Methods 1 3 cr

The study of principles and methods related to beginning and middle school instrumental pedagogy. Techniques for teaching individual instruments in a group setting and the instruction/administering of a large ensemble program. Close examination of the fundamentals of tone production, technique and instrument specific skills. The study of rehearsal techniques, lesson planning, score preparation and assessment practices. Examination of appropriate instructional materials and repertoire for beginning and middle school instrumental ensembles. May not be held with the former MUSC 4770.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 2460. Pre- or corequisites: MUSC 3690 or MUSC 3780 or MUSC 3790 or MUSC 3800 or MUSC 3894 or consent of Instructor.

Equiv To: MUSC 4770

MUSC 4782 Instrumental Music Methods 2 3 cr

The continued study of instrumental pedagogy at the high school level. Continued development of approaches to score study, rehearsal techniques and repertoire selection. Application of conducting skills for advancing instrumental ensembles. May not be held with the former MUSC 4780.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: MUSC 3780 and MUSC 3790 and MUSC 4772 or the former MUSC 4770 or consent of the Faculty of Music. Pre-corequisite: MUSC 3690 or consent of the Instructor.

Equiv To: MUSC 4780

MUSC 4894 Advanced Guitar Techniques 3 cr

This course is an extension of MUSC 3894 with a particular focus on developing curricular resources for creative composition, diverse musical styles, and informal music learning. This course provides a brief introduction to electric guitar and ukulele.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MUSC 3894 or consent of the Faculty of Music.

MUSC 4896 Cultural Perspectives for Music Educators 3 cr

A study of non-Western musical practices and approaches to learning music, and implications for music teaching. This course is intended to prepare students for the diversity of the 21st century music classroom and studio.

Native Studies (NATV)

NATV 1220 Indigenous Peoples in Canada, Part 1 3 cr

A survey of the political, social, and economic situations of the contemporary First Nations, Métis, and Inuit Peoples of Canada from pre-contact to 1945. Students may not hold credit for both NATV 1220 and NATV 1200.

Mutually Exclusive: NATV 1200

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

NATV 1240 Indigenous Peoples in Canada, Part 2 3 cr

A survey of the political, social, and economic situations of the contemporary First Nations, Métis, and Inuit Peoples of Canada from 1945 to the present. This course may include a field trip component. Students may not hold credit for both NATV 1240 and NATV 1200.

Mutually Exclusive: NATV 1200

Attributes: Humanities, Recommended Intro Courses, Written English Requirement

NATV 1250 Introductory Cree 1 3 cr

(Lab required) Practical course intended for students who are not fluent in Cree. Emphasis will be on oral work for the purpose of learning basic sounds and grammatical patterns. Some attention will be given to the structural differences between Cree and English. Regular attendance and active participation are obligatory. This course is a prerequisite for NATV 1260 Introductory Cree 2.

Attributes: Humanities, Recommended Intro Courses

NATV 1270 Introductory Anishinaabemowin (Ojibwe) 1 3 cr

Practical course intended for students who are not fluent in Anishinaabe (Ojibwe). Emphasis will be on oral work for the purpose of learning basic sounds and grammatical patterns. Some attention will be given to the structural differences between Anishinaabemowin and English. Regular attendance and active participation are obligatory. This course is a prerequisite for NATV 1280 Introductory Anishinaabemowin 2.

Attributes: Humanities, Recommended Intro Courses

NATV 1280 Introductory Anishinaabemowin (Ojibwe) 2 3 cr

Continuation of NATV 1270 Introductory Anishinaabemowin (Ojibwe) 1. Practical course intended for students who are not fluent in Anishinaabemowin. Emphasis will be on oral work for the purpose of learning basic sounds and grammatical patterns. Some attention will be given to the structural differences between Anishinaabemowin and English. Regular attendance and active participation are obligatory.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: a grade of "C" or better in NATV 1270.

Attributes: Humanities, Recommended Intro Courses

NATV 1300 Selected Topics in Introductory Indigenous Language 3 cr

An introduction to an Indigenous language in Canada. Depending on the instructor, this course may have a field component. The content of this course may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

Attributes: Humanities

NATV 2020 The Métis in Canada 3 cr

A history of the Métis of Canada. Also offered as HIST 2020. May not be held for credit with HIST 2020.

Equiv To: HIST 2020

Attributes: Humanities, Written English Requirement

NATV 2080 Inuit Society and Culture 3 cr

An examination of the subsistence organization, social organization, cosmology and ceremonies of Inuit from a regional and comparative perspective. While this course will focus on Eastern Arctic Inuit comparison will also be made to Greenlanders, Inuvialuit, Inupiat and Yup'ik. We will conclude the course by examining colonial history and the rise of Nunavut. The course may include a field trip component. Students may not hold credit for both NATV 2080 and NATV 2000 with the topic "Inuit Society and Culture."

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in NATV 1200] or [a grade of "C" or better in both NATV 1220 and NATV 1240] or written consent of department head.

Attributes: Humanities

NATV 2420 Inuit Literature in Translation 3 cr

An examination of various literary forms produced by Inuit including oral tradition and songs, life histories, contemporary novels and modern political writings.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: [a grade of "C" or better in NATV 1200] or [a grade of "C" or better in both NA TV 1220 and NA TV 1240] or written consent of instructor or department head.

Attributes: Humanities

NATV 4290 Independent Research 3 cr

Supervised research or field work. Results will be presented in a form appropriate to the subject of study. The course content may vary. Students can earn multiple credits for this course only when the topic subtitle is different.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: written consent of department head, based on a written research proposal, must be obtained before registration.

Attributes: Humanities

Nursing (NURS)

NURS 1500 Preparing for Professional Nursing Education 3 cr

Students will develop knowledge, skills, attitudes, and approaches to learning that increases their opportunity for success in baccalaureate nursing education. Restricted to the students in the Aboriginal Cohort in Nursing program.

Equiv To: UCNN 1500

NURS 2100 Introduction to Family Caregiving Across the Lifespan 3 cr

This course provides an interdisciplinary approach to introduce the concept of family caregiving. In this course, students will be provided with information regarding caregivers and the vital role(s) they play in providing support and assistance to those who have physical, psychological, or developmental needs. Health-related quality of life and wellness, legal, economic, and policy issues related to caregiving are explored.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: SOC 1000 (or SOC 1221 or the former SOC 1200) or PSYC 1200 (or PSYC 1221).

NURS 2110 Health Assessment of Individuals 3 cr

The focus is on health assessment of adults including the normal changes which occur in childhood and aging. The course will provide opportunity to learn the health history and physical examination skills essential to health assessment.

Equiv To: NURS 2210

NURS 2200 Selected Topics in Aging and Health 3 cr

Emphasis will be placed on theory and research related to a current topic in aging and health. Special attention will be directed to integrating concepts and processes of aging. A practicum/field work component will be an integral part of the course.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: core courses in the Inter-faculty Option in Aging or permission from the course leader.

NURS 2500 Health and Illness 1: Pathophysiology/ Pharmacology/ Assessment 6 cr

This course provides students with a comprehensive survey of selected pathophysiological processes that produce alterations in human health, and the related pharmacological interventions and health assessment techniques. May not be held with the former NURS 2120, the former NURS 2220, the former NURS 3290, or the former NURS 3310.

Equiv To: UCNN 2500

Mutually Exclusive: NURS 2120, NURS 2220, NURS 3290, NURS 3310

NURS 2510 Client and Context 1: Human Growth & Development 2 cr

This course provides students with knowledge of normal human growth and development across the lifespan. May not be held with NURS 1260. Registration is normally restricted to students in Year 2 of the program.

Equiv To: UCNN 2510

Mutually Exclusive: NURS 1260

NURS 2514 Health and Illness 3: Pathophysiology/Pharmacology/ Assessment 6 cr

This course provides students with a comprehensive survey of selected pathophysiological processes that produce alterations in human health, and the related pharmacological interventions and health assessment techniques. Registration is normally restricted to students in Year 2 of the program. May not be held with the former NURS 2120, the former NURS 2220, the former NURS 3290 or the former NURS 3310.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: NURS 2500.

Equiv To: UCNN 2514

Mutually Exclusive: NURS 2120, NURS 2220, NURS 3290, NURS 3310

NURS 2518 Health & Illness 2: The Older Client 3 cr

This course provides students with knowledge of the age-related changes and illnesses experienced by older adults. It introduces students to health problems commonly occurring in this age group. Nursing strategies to encourage, maintain and enhance functional abilities and independence in older adults in the context of long term care are evaluated. Registration is normally restricted to students in Year 2 of the BN program. May not be held with NURS 2230 or NURS 2512.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre or co-requisites: NURS 2500 or NURS 2510.

Equiv To: UCNN 2518

Mutually Exclusive: NURS 2230, NURS 2512

NURS 2520 Professional Foundations 1: Development of Professional Identity 2 cr

This course provides the student with an introduction to the conduct, knowledge and values that characterize a professional registered nurse. Registration is normally restricted to students in Year 2 of the program.

Equiv To: UCNN 2520

NURS 2522 Client & Context 2: Human Diversity 3 cr

This course provides students with knowledge of the social factors that enhance or diminish the health of individuals, families and communities. Students will also analyze the concept of client-centred care and its relevance in the practices of health care professionals. Registration is normally restricted to students in Year 2 of the BN program. May not be held with NURS 2516.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre or co-requisites: NURS 2500 and NURS 2520.

Equiv To: UCNN 2522

Mutually Exclusive: NURS 2516, UCNN 2516

NURS 2530 Nursing Skills 1 1 cr

This course introduces students to the basic health assessment and psychomotor skills necessary to provide novice-level nursing care in the practice setting. Registration is normally restricted to students in Year 2 of the program. This course is graded on a Pass/Fail Basis. May not be held with NURS 2120 and NURS 2130. Pre-or

PR/CR: A minimum grade of C is required unless otherwise indicated.

Co-requisite: NURS 2500.

Equiv To: UCNN 2530

Mutually Exclusive: NURS 2120, NURS 2130

NURS 2532 Nursing Skills 2 1 cr

This course introduces students to the basic health assessment and psychomotor skills necessary to provide novice-level nursing care in the practice setting. Registration is normally restricted to students in Year 2 of the program. This course is graded on a Pass/Fail Basis. May not be held with NURS 2120 and NURS 2130.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: NURS 2530 and NURS 2540. Pre- or Co-requisite: NURS 2514.

Equiv To: UCNN 2532

Mutually Exclusive: NURS 2120, NURS 2130

NURS 2540 Nursing Practice 1 2 cr

This course enables students to demonstrate clinical competence by applying the theoretical knowledge, psychomotor skills and health assessment skills covered in Year 1 Term 1 courses in the practice setting. Registration is normally restricted to students in Year 2 of the program. This course is graded on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or co-requisites: NURS 2500, NURS 2510, NURS 2518 (or the former NURS 2512), NURS 2520 and NURS 2530.

Equiv To: UCNN 2540

Mutually Exclusive: NURS 2190, RRCN 2190, UCNN 2190

NURS 2542 Nursing Practice 2 3 cr

This course enables students to demonstrate clinical competence by applying the theoretical knowledge, psychomotor skills and health assessment skills covered in Year 1 Term 2 courses in the practice setting. This course is graded on a pass/fail basis. May not be held with NURS 2190.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or co-requisites: NURS 2514, NURS 2522 (or the former NURS 2516), and NURS 2532.

Equiv To: UCNN 2542

Mutually Exclusive: NURS 2190, RRCN 2190, UCNN 2190

NURS 2610 Health and Physical Aspects of Aging 3 cr

An introduction to health, well-being and aging. Emphasis on health as multidimensional including physical, social and mental health. Integration of theory and research in examining selected issues related to health and physical aspects of aging. May not be held with NURS 2610 and PHED 2610. (A required Option in Aging course)

Equiv To: KIN 2610, PHED 2610

NURS 3200 Nursing of Individuals and Families with Long-Term Illness and Disability 4 cr

Nursing of individuals and families of all age groups who require palliative nursing measures or need assistance in adapting to long-term illness. The learner will participate in planning relevant clinical experiences to meet own learning objectives.

NURS 3220 Community Health Nursing I 4 cr

An analysis of concepts of prevention of disease/dysfunction and promotion of health in community based populations. Focus is on primary and secondary prevention and the promotion of health with identified risk groups. Population groups are assessed for risks to their physical and psychosocial health and current preventive and promotive measures analyzed and critiqued. The impact of macro systems in promoting health are discussed. MNHW NURS 3360.

Equiv To: NURS 3360

NURS 3230 Perspectives on Mental Health Nursing 4 cr

Emphasis will be placed on the mental health needs of individuals and their families who are experiencing mental health problems and/or mental illness. Diverse perspectives on mental health and illness will be explored. A clinical practicum will provide an opportunity to apply mental health nursing principles in community settings.

NURS 3330 Women and Health 3 cr

Introduction to health concepts and issues as they relate to women from a woman's health perspective. Emphasis on enhancing self-care and prevention. Studies the relationship between a woman and the Canadian Health Care System, and appropriate methodology for self-care, vis-a-vis nutrition, reproduction, menarche, menopause, etc. Caution: This course is not intended for 1st year students.

NURS 3350 Counselling Skills for Nurses 3 cr

Builds on the significance of interpersonal skills in nursing practice in health and illness. Examines theoretical basis and practical application of a counselling approach with clients. Students will have the opportunity for experiential learning.

Equiv To: UCNN 3350

NURS 3390 Nursing in Rural Environments 4 cr

Emphasis will be placed on the health needs of residents in a rural environment. The nature of nursing and issues encountered in a rural setting, whether in a health care institution or a community health nursing practice are explored. A clinical practicum is an integral part of the course.

NURS 3400 Men's Health: Concerns, Issues and Myths 3 cr

An exploration and examination of concerns, issues and myths surrounding men's health and men's health related behaviours. Students will develop a knowledge base for promoting health and preventing illness in men.

NURS 3430 Seminar in Professional Nursing Foundations 2 cr

The study and application of academic skills, nursing informatics and theoretical foundations, designed to assist diploma-prepared registered nurses to successfully transition to university and the Baccalaureate Program for Registered Nurses. May not be held with NURS 3190.

NURS 3450 Introduction to Legal and Ethical Foundations of Nursing Practice 3 cr

The legal and ethical foundations that guide nursing practice are examined. The process of critical analysis and reasoning will be applied to common legal and ethical issues.

Equiv To: NURS 3560, RRCN 3450, UCNN 3450

NURS 3510 Client and Context 3: Supportive and Palliative Care 3 cr

This course provides students with the knowledge and critical thinking skills to provide supportive and palliative nursing care to individuals and families experiencing a variety of life-threatening illnesses including end of life. Registration is normally restricted to students in Year 3 of the program. May not be held with the former NURS 4250.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: HNSC 2170 and NURS 2542.

Equiv To: UCNN 3510

Mutually Exclusive: NURS 4250

NURS 3512 Health and Illness 4: Acute and Chronic Illness 5 cr

This course provides students with the knowledge and critical thinking skills necessary to provide nursing care to individuals and families experiencing acute and chronic illness. Registration is normally restricted to students in Year 3 of the program. May not be held with the former NURS 3290 or the former NURS 3310.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: HNSC 1210 and NURS 2542.

Equiv To: UCNN 3512

Mutually Exclusive: NURS 3290, NURS 3310

NURS 3514 Health and Illness 5: Mental Health and Illness 3 cr

This course provides students with the knowledge and critical thinking skills necessary to provide nursing care to individuals and families experiencing acute and chronic mental illness and/or mental health problems. Registration is normally restricted to students in Year 3 of the program. May not be held with the former NURS 4260.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: NURS 3512, NURS 3510 and NURS 3540.

Equiv To: UCNN 3514

Mutually Exclusive: NURS 4260

NURS 3520 Professional Foundations 2: Health Education 2 cr

This course provides students with the knowledge and skills necessary to provide health information to clients across the lifespan in a variety of settings in both planned and spontaneous situations. Emphasis will be placed on client assessment and the appropriate use of existing health information resources. Registration is normally restricted to students in Year 3 of the program. May not be held with NURS 2230 or NURS 4200.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: NURS 2542.

Equiv To: NURS 4200, UCNN 3520, UCNN 4200

Mutually Exclusive: NURS 2230

NURS 3530 Nursing Skills 3 1 cr

This course introduces students to the basic health assessment and psychomotor skills necessary to provide intermediate-level nursing care in the practice setting. Registration is normally restricted to students in Year 3 of the program. This course is graded on a Pass/Fail basis. May not be held with the former NURS 3280.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: NURS 2542.

Equiv To: UCNN 3530

Mutually Exclusive: NURS 3280

NURS 3532 Nursing Skills 4 1 cr

This course provides students with the opportunity to consolidate the health assessment and psychomotor skills necessary to attain proficiency in the provision of nursing care. Registration is normally restricted to students in Year 3 of the BN program. This course is graded on a pass/fail basis. May not be held with NURS 3280.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: NURS 3540. Pre- or Co-requisite: NURS 3514.

Equiv To: UCNN 3532

Mutually Exclusive: NURS 2130, NURS 3280

NURS 3540 Nursing Practice 3 4 cr

This course enables students to demonstrate clinical competence by applying the theoretical knowledge, psychomotor skills and health assessment skills covered in Year 3 Term 1 courses in the practice setting. Registration is normally restricted to students in Year 3 of the program. This course is graded on a Pass/Fail basis. May not be held with the former NURS 3300, the former NURS 3310, or the former NURS 4270.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or Co-requisites: NURS 3512, NURS 3510, NURS 3520, and NURS 3530.

Equiv To: UCNN 3540

Mutually Exclusive: NURS 3300, NURS 3310, NURS 4270

NURS 3542 Nursing Practice 4 4 cr

This course enables students to demonstrate clinical competence by applying the theoretical knowledge and simulation skills covered in Year 3 Term 2 courses in the practice setting. Registration is normally restricted to students in Year 3 of the program. This course is graded on a Pass/Fail basis. May not be held with the former NURS 3300, the former NURS 3310, or the former NURS 4270.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or Co-requisites: NURS 3514, NURS 3550, NURS 3560 and NURS 3532.

Equiv To: UCNN 3542

Mutually Exclusive: NURS 3300, NURS 3310, NURS 4270

NURS 3550 Professional Foundations 3: Evidence Informed Practice in the Health Sciences 4 cr

This course provides students with the knowledge and skills to locate and critically appraise nursing and health care literature, and to make decisions about how research knowledge can be transferred into nursing and health care practice. Registration is normally restricted to students in Year 3 of the program. May not be held with the former NURS 3210.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: NURS 2542.

Equiv To: UCNN 3550

Mutually Exclusive: NURS 3210

NURS 3560 Professional Foundations 4: Law and Ethics in Nursing Practice 3 cr

This course provides the student with knowledge regarding the legal and ethical foundations that guide nursing practice. Registration is normally restricted to students in Year 3 of the program. May not be held with NURS 3450 or NURS 4220.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: NURS 2542.

Equiv To: NURS 3450, RRCN 3450, UCNN 3450, UCNN 3560

Mutually Exclusive: NURS 4220

NURS 4160 Community Health Nursing II 4 cr

Application, integration and synthesis of knowledge and skills in the utilization of the nursing process with families. Development of skills in the process of change with families. Orientation to the concept of prevention and health promotion as focal concepts in the practice of nursing with families in communities. May not be held with NURS 4300.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or co-requisite: NURS 3220.

Equiv To: NURS 4300

NURS 4170 Issues and Trends in Nursing and Health Care 3 cr

Study of the forces shaping nursing education, service and research and analysis of current issues in nursing and health care. The learner will develop awareness of professional nursing roles and responsibilities.

Mutually Exclusive: NURS 4310

NURS 4190 Leadership in Nursing Practice 3 cr

Focuses on selected theories of leadership and management. Effective interpersonal behaviour in health care organizations will be examined. The learner will explore own potential to effect change in the health care system.

Mutually Exclusive: NURS 4310

NURS 4210 Independent Study in Nursing 4 cr

The learner will have an opportunity to formulate a learning contract to explore, in depth, an area of nursing. This learning contract is to include a major emphasis on the theoretical basis of the selected topic.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: 35 credit hours of completed study in the program.

NURS 4290 Clinical Practicum 10 cr

This course enables students to integrate and critically apply concepts, theories and relevant research to an area of practice and a client group of their choice. Care will address all levels of health, reflect application of a focused body of theory, and consider concepts of leadership, research, ethics, family and community care. Course is evaluated on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: all courses in the program.

Mutually Exclusive: NURS 4580

NURS 4500 Health and Illness 6: Gender and Reproductive Health 3 cr

This course provides students with the knowledge and critical thinking skills to provide nursing care in response to the social construction of gender; gender-related health care needs; and the reproductive health needs of individuals and families. Registration is normally restricted to students in Year 4 of the program. May not be held with NURS 2240.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: NURS 3542.

Equiv To: UCNN 4500

Mutually Exclusive: NURS 2240

NURS 4510 Client and Context 4: Family Health 3 cr

This course provides students with the knowledge and critical thinking skills to support the health promotion of families across the lifespan. Registration is normally restricted to students in Year 4 of the program. May not be held with NURS 2240.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: NURS 3542.

Equiv To: UCNN 4510

Mutually Exclusive: NURS 2240

NURS 4520 Professional Foundations 5: Interprofessional and Collaborative Practice 3 cr

This course provides students with the knowledge, attitudes and skills necessary to collaborate with other care providers, including those from other health care disciplines, to problem solve and make decisions to enhance client care outcomes. For Bachelor of Nursing students. Registration is normally restricted to students in Year 4 of the program. For Baccalaureate Program for Registered Nurses students: permission of the College of Nursing Registrar. For students in the Faculties of Health Sciences; Social Work; Education; Kinesiology and Recreation Management; Arts, Department of Psychology; and Faculty of Agricultural and Food Sciences, Department of Human Nutritional Sciences: completion of at least Year 3 of their program and permission of the Nursing Registrar. Students from other faculties and programs interested in taking this course will be considered on a case-by-case basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: NURS 3542.

Equiv To: UCNN 4520

NURS 4530 Nursing Practice 5 4 cr

This course enables students to demonstrate clinical competence by applying the knowledge and skills covered in Years 2 and 3 and Term 1, Year 4 courses, in the clinical setting. Registration is normally restricted to students in Year 4 of the program. This course is graded on a pass/fail basis. May not be held with NURS 2180.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Pre- or Co-Requisites: NURS 4500, NURS 4510, NURS 4520.

Equiv To: UCNN 4530

Mutually Exclusive: NURS 2180

NURS 4540 Health and Illness 7: Community and Population Health 5 cr

This course provides students with the knowledge and critical thinking skills to work with groups and communities to support population based health promotion and disease prevention. Registration is normally restricted to students in Year 4 of the program. May not be held with the former NURS 4420 or the former NURS 4440.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: NURS 4530.

Equiv To: UCNN 4540

Mutually Exclusive: NURS 4420, NURS 4440

NURS 4550 Professional Foundations 6: Leadership and Change Management 4 cr

This course provides the student with knowledge regarding contemporary issues in nursing and health care, and the forces that shape contemporary and future nursing practice. Emphasis is placed on leadership development, change theory and critical inquiry. Registration is normally restricted to students in Year 4 of the program. May not be held with the former NURS 4310.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: NURS 3542.

Equiv To: UCNN 4550

Mutually Exclusive: NURS 4310

NURS 4560 Professional Foundations 7: Preparation for Nursing Practice 7 1 cr

This course will enable students, in collaboration with the course leader, to assess their readiness for NURS 4580: Nursing Practice 7 and to remediate any knowledge or skill deficits identified during the assessment process. Students will also complete all requirements necessary for the selection and confirmation of the clinical setting in which they will complete NURS 4580: Nursing Practice 7. Registration is normally restricted to students in Year 4 of the program. This course is graded on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Co-requisite: NURS 4570.

Equiv To: UCNN 4560

NURS 4570 Nursing Practice 6 4 cr

This course enables students to demonstrate clinical competence by applying knowledge and skills covered in Years 2, 3 and 4 courses in the clinical setting. Registration is normally restricted to students in Year 4 of the program. This course is graded on a pass/fail basis. May not be held with the former NURS 4430.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: NURS 4530. Pre-or Co-requisites: NURS 4540 and NURS 4550. Co-requisite: NURS 4560.

Equiv To: UCNN 4570

Mutually Exclusive: NURS 4430

NURS 4580 Nursing Practice 7 9 cr

This course enables students to consolidate the knowledge, skills, and attitudes included in the Bachelor of Nursing program and achieve the CRNM entry-level competencies. May not be held with NURS 4290. Registration in this course is dependent on the completion of all other courses in the program. This course is graded on a pass/fail basis.

Equiv To: UCNN 4580

Mutually Exclusive: NURS 4290, UCNN 4290

Occupational Therapy (OT)

OT 4130 Re-Entry Fieldwork 8 cr

Self-directed period of fieldwork preparation followed by a seven-week fieldwork education experience under the supervision of a licensed occupational therapist. Course evaluated on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: an earned degree in occupational therapy, permission of Head of Department of Occupational Therapy.

Operations Management (OPM)

OPM 3630 Simulation Models for Operations Management 3 cr

Seminar on the concept, techniques, and application of simulation for problem-solving and decision-making in operations management. Existing operational models will be studied and applied in computerized form.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: Consent of instructor.

OPM 3640 Project Planning and Control 3 cr

Seminar on management of complex projects of various kinds with emphasis on planning and control by means of network methods. PERT and CPM methods computer applications.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: consent of instructor.

OPM 3650 Management of Quality and Reliability 3 cr

This course offers a practical introduction to modern quality assurance and reliability management concepts, methods and practices. It builds upon the relevant subject matter in basic courses in production management and prepares for positions in the field of quality and reliability management.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: SCM 2160 [or the former OPM 2600 (D)] and STAT 1000 (C).

OPM 3660 Operations Management in Service Organizations 3 cr

This course explores the applications of operations management concepts to the management of service operations. The characteristics of a service operation, while generally comparable to manufacturing a product, often place a unique demand upon the service manager. These demands, along with the analysis of actual company situations through case study applications, are emphasized.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: SCM 2160 [or former OPM 2600] (D) and STAT 1000 (C).

OPM 3670 POM Project in Industry 3 cr

An applied course, designed to bridge the gap between theoretical concepts developed in previous POM courses and current industrial practices by means of an industrial project.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: [SCM 2160 or former OPM 2600 (D)] and STAT 1000 (C) or consent of instructor.

OPM 4620 Production Management Seminar 3 cr

Problems, development, and application of analytical methods in production and operations management with emphasis on planning and control.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: MSCI 2150 (D) and SCM 2160 or OPM 2600 (D).

Oral Biology (ORLB)

ORLB 1302 Cell and Tissue Biology 4 cr

Structure, function and chemical composition of eucaryotic cells and oral bacteria will be studied. Taste signaling, diseases, and molecular interactions within and between cells and the immune system will be described in detail. May not be held with ORLB 1050.

Mutually Exclusive: ORLB 1050

ORLB 1310 Head, Neck and Nervous System, Part 1 4 cr

Gross anatomy of the head and neck are described and observed by regional dissection. Overviews of the nervous system and surface anatomy of the mouth are included. May not be held with ORLB 1060.

Mutually Exclusive: ORLB 1060

ORLB 1320 Head, Neck and Nervous System, Part 2 3 cr

An introduction to the structure and function of the central and peripheral nervous systems and associated structures, the neurophysiology and the stomatognathic system, pain and analgesics. May not be held with ORLB 1070.

Mutually Exclusive: ORLB 1070

ORLB 1330 Human Growth and Development 3 cr

Human development from the origin of the reproductive cells through fertilization, conception, embryonic/fetal development, birth, growth and aging. Particular emphasis is given to development and growth of structures of the head and neck. May not be held with ORLB 1080.

Mutually Exclusive: ORLB 1080

ORLB 1340 Oral Tissues, Structure and Function 3 cr

This course is designed to present the normal morphology, developmental biology, biochemical structure, metabolism and functions of the dentition and para oral tissues, cartilage, bone and exocrine glands of the head and neck. Structural functional aspects of oral anatomy, biochemistry/molecular biology and physiology will be included. May not be held with ORLB 1090.

Mutually Exclusive: ORLB 1090

ORLB 1500 BSC DENT 1 0 cr**ORLB 2300 Pathology and Microbiology 1 1 cr**

Study of the basic mechanisms of microbial pathogenicity and general pathology as they relate to dentistry and dental treatment. Includes the pathogenesis of bacterial, viral and fungal infections and the aetiology of neoplastic, inflammatory and metabolic diseases. May not be held with ORLB 2100.

Mutually Exclusive: ORLB 2100

ORLB 2312 Structure and Function of Major Organ Systems 4 cr

This course emphasizes the basic structure at both organ and cellular levels of a number of organ systems and an understanding of their role in total body function. May not be held with ORLB 2070.

Mutually Exclusive: ORLB 2070

ORLB 2320 Cariology and Plaque Associated Diseases 3 cr

A study of the various dietary, host and microbial factors in the etiology of dental caries and periodontal disease, and a discussion of the various methods of plaque control. May not be held with the former ORLB 2090.

Mutually Exclusive: ORLB 2090

ORLB 2330 Nutrition in Dentistry 2 cr

An examination of the fundamentals of nutrition and the relationship between nutrition and health within the context of the health professions. The focus is on nutritional strategies used to promote health and in the treatment of common health conditions. The primarily on-line content is followed up with a combination of oral health specific patient/clinical exercises for Dentistry students. May not be held with ORLB 2150, HYG 2370, HNSC 2170, or PHRM 2420.

Mutually Exclusive: HNSC 2170, HYG 2370, ORLB 2150, PHRM 2420

ORLB 2500 BSC DENT 2 0 cr**ORLB 3300 Pathology and Microbiology 2 1 cr**

A study of selected infectious diseases and the application of general diagnostic pathology in dental practice. May not be held with ORLB 3020.

Mutually Exclusive: ORLB 3020

Pharm. D (PHMD)

PHMD 1000 Introduction to Professional Practice 1 cr

This course provides an introduction to various aspects of professional practice with a focus on patient care and safety. The course will include discussion and activities that incorporate cultural diversity, determinants of health, health literacy and Indigenous health. Registration is normally restricted to students in Year 1 of the program. Students will be graded on a pass/fail basis.

PHMD 1002 Applied Pharmacy Practice Lab 1 4 cr

(Lab required) This course is an introduction to community pharmacy practice with a focus on communication skills that are patient centered. The course provides opportunities to apply knowledge when completing patient assessments that will ensure positive patient outcomes. The process of prescription filling includes ensuring the legal requirements are met, minimizing errors, calculations and adverse drug reactions. Students will be introduced to drug information resources, adherence aids and physical assessment. May not be held with PHRM 1110 or the former PHRM 1100. Registration is normally restricted to students in Year 1 of the program.

Mutually Exclusive: PHRM 1100, PHRM 1110

PHMD 1004 Introduction to Pharmacotherapy Literature 1 cr

An introduction to the concepts of evidence-based medicine and applied medical/biostatistics in the evaluation of relevant pharmacotherapy literature. Registration is normally restricted to students in Year 1 of the program.

PHMD 1006 Pharmacy Informatics 1 cr

This course will introduce students to the use of information and communication technologies for delivering patient care and fostering collaboration between healthcare providers. Students will also be introduced to the professional, ethical, and legal implications of using such technologies for communicating health information. Registration is normally restricted to students in Year 1 of the program.

PHMD 1008 Medicinal Chemistry 4 cr

This course explores the physicochemical aspects of drug structure in absorption, distribution, metabolism, and excretion and the interaction between drugs and their receptors as they relate to the biochemical, pharmacological, and therapeutic actions of medicinal compounds. Students will learn the fundamental relationships between the structures of drugs and the resulting activity. May not be held with PHRM 2222 or the former PHRM 2220 or PHRM 3220. Registration is normally restricted to students in Year 1 of the program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: CHEM 2370 or MBIO 2370.

Mutually Exclusive: PHRM 2220, PHRM 2222, PHRM 3220

PHMD 1010 Applied Pathophysiology 4 cr

A comprehensive foundation of the underlying patho-physiological mechanisms associated with various types of human disease. Course content will serve as an essential requirement to prepare students for subsequent advanced clinical courses related to diagnosis and medical management (pharmacological and non-pharmacological approaches) of the disease(s). May not be held with PHRM 1430. Registration is normally restricted to students in Year 1 of the program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: BIOL 2420.

Mutually Exclusive: PHRM 1430, PHRM 1440

PHMD 1012 Extemporaneous Pharmaceutical Compounding 3 cr

(Lab required) In a classroom and laboratory setting, this course provides an introduction to the compounding of pharmaceutical products and the physicochemical basis of product formulation. Practical aspects of formulation and patient counselling regarding the products is also explored. May not be held with PHRM 1300. Registration is normally restricted to students in Year 1 of the program.

Mutually Exclusive: PHRM 1300, PHRM 1310

PHMD 1014 Clinical Therapeutics 1 3 cr

This course introduces principles of drug therapy for the management of both self-care conditions and ambulatory ailments, with an additional focus on health promotion. Within the conditions covered, identifying signs and symptoms to complete a differential diagnosis, development of treatment plans and follow-up monitoring will be emphasized. Treatment approaches discussed will include non-pharmacological options, non-prescription options and some prescription treatments. May not be held with PHRM 2320 or the former PHRM 2310. Registration is normally restricted to students in Year 1 of the program.

Mutually Exclusive: PHRM 2310, PHRM 2320

PHMD 1016 Pharmaceutics 3 cr

(Lab required) This course introduces principles of formulation and good pharmaceutical manufacturing practice, including aspects of product development and assessment, stability testing, and quality control. It also explores the application of dosage forms to clinical situations. May not be held with PHRM 2270. Registration is normally restricted to students in Year 1 of the program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHMD 1012.

Mutually Exclusive: PHRM 2270

PHMD 1040 Service Learning / IPE 1 1 cr

The course is a service-learning experience that provides students an opportunity to work in community-based patient or client centered settings. The course will focus on developing communication skills, interprofessional collaboration with other healthcare students and patient advocacy while working with patients or clients from diverse backgrounds. The course also includes an opportunity for students to experience various pharmacy practice environments through a job shadowing experience under the supervision of practicing pharmacists and senior pharmacy students. Registration is normally restricted to students in Year 1 of the program. Students will be graded on a pass/fail basis.

PHMD 2000 Drug Delivery 3 cr

(Lab required) This course discusses the concepts and application of various drug delivery and drug administration routes to improve therapeutic outcomes. The course is a continuation of PHMD 1012 and PHMD 1016, and is directly associated to drug dosage forms and preparations. May not be held with PHRM 3320. Registration is normally restricted to students in Year 2 of the program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHMD 1016.

Mutually Exclusive: PHRM 3320

PHMD 2004 Critical Appraisal of Pharmacotherapy Literature 1 4 cr

This course develops skills in the critical appraisal of common research designs used in the pharmacotherapy literature with emphasis on the evaluation of research to inform practice. Registration is normally restricted to students in Year 2 of the program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHMD 1004.

PHMD 2006 Applied Biopharmaceutics and Pharmacokinetics 3 cr

This course introduces the principles of Biopharmaceutics and Pharmacokinetics to understand and predict how drugs are absorbed, distributed, metabolized and eliminated from the body. Students will apply these principles to the practical application of dosage calculations using various scenarios. May not be held with PHRM 2280. Registration is normally restricted to students in Year 2 of the program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHMD 1016.

Mutually Exclusive: PHRM 2280

PHMD 2008 Pharmacy Law 1 cr

In this course Federal and Provincial Legislation as well as the ethical and professional standards that govern the profession of pharmacy and how they apply to practice will be discussed. Successful completion of this course meets the Jurisprudence Examination requirement for licensure. Registration is normally restricted to students in Year 2 of the program.

PHMD 2010 Principles of Biotechnology 2 cr

Introduction to biotechnology in pharmaceutical science and pharmacy. Students will learn the concepts and technologies used in production of biologics and will understand pharmaceutical considerations of biotech products. May not be held with PHRM 3640. Registration is normally restricted to students in Year 2 of the program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: CHEM 2370 or MBIO 2370.

Mutually Exclusive: PHRM 3640

PHMD 2012 Pharmacogenetics 2 cr

This course examines the influence of genetic variation in the population on the pharmacodynamics and pharmacokinetics of drugs. A general introduction to pharmacogenetics will cover basic genetics necessary to understand the course material. Selected drugs will be examined in depth showing how genetic variation alters an individual's pharmacodynamic and pharmacokinetic response. Based on the individual's genetic variation, dose adjustments or alternative therapies will be recommended. Registration is normally restricted to students in Year 2 of the program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: CHEM 2370 or MBIO 2370.

PHMD 2016 Clinical Pharmacokinetics - Pharmacodynamics 3 cr

This course is designed to develop and integrate the advanced knowledge and skills required to apply pharmacokinetics-pharmacodynamics (PK-PD) to therapeutic drug management and patient care. Emphasis is on (1) demonstrating the value of PK-PD in selecting and monitoring drug therapies that maximize efficacy and minimize toxicity, and (2) appropriately using PK-PD formulae and models that account for factors such as patient demographics, organ function, disease states and drug interactions. May not be held with PHRM 3550 or the former PHRM 3500. Registration is normally restricted to students in Year 2 of the program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHMD 2006.

Mutually Exclusive: PHRM 3500, PHRM 3550

PHMD 2020 Introductory Pharmacy Practice Experience - Community 4 cr

This four week introductory rotation provides pharmacy students with an opportunity to contribute to patient care in a community pharmacy setting. Pharmacy students will build upon the knowledge, skills and abilities they have developed during the first year and a half of the Pharm.D. program. Opportunity will be provided to help pharmacy students cultivate their patient care skills and begin to gain personal clinical experiences working with a variety of patients and other members of the healthcare team encountered in a community pharmacy. Students will begin to make health care decisions with the help and guidance of a pharmacist preceptor. Pharmaceutical care, pharmacy law and ethics, the operation of a community pharmacy, formal presentations, drug information, patient safety and interprofessional practice are key areas of this rotation. Registration is normally restricted to students in Year 2 of the program. Students will be graded on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHMD 2008, PHMD 2022 and PHMD 2026.

PHMD 2022 Applied Pharmacy Practice Lab 2-1 2 cr

This course develops essential skills required for the community pharmacy practice. Focus is on prescription triage and counselling, patient assessment and education, effective communication, care plan development and documentation, working with in a health care team, use of home medical devices, immunization, lab ordering and interpretation. May not be held with PHRM 2100. Registration is normally restricted to students in Year 2 of the program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: PHMD 1002 and PHMD 1014.

Mutually Exclusive: PHRM 2100

PHMD 2024 Applied Pharmacy Practice Lab 2-2 2 cr

This course develops essential skills required for institutional pharmacy practice. Focus is on hospital prescription triage, medication distribution, patient assessment and education, discharge counselling, effective communication, care plan development and documentation, and working within a health care team. May not be held with PHRM 2100. Registration is normally restricted to students in Year 2 of the program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: PHMD 2022 and PHMD 2026.

Mutually Exclusive: PHRM 2100

PHMD 2026 Clinical Therapeutics 2-1 4 cr

Aspects of providing direct patient care are covered to identify, solve and prevent actual or potential drug-related problems. Emphasis is placed on the evaluation, selection and monitoring of drug therapy as it applies to patient care. May not be held with PHRM 3310. Registration is normally restricted to students in Year 2 of the program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHMD 1014 .

Mutually Exclusive: PHRM 3310

PHMD 2028 Clinical Therapeutics 2-2 4 cr

Aspects of providing direct patient care are covered to identify, solve and prevent actual or potential drug-related problems. Emphasis is placed on the evaluation, selection and monitoring of drug therapy as it applies to patient care. May not be held with PHRM 3310. Registration is normally restricted to students in Year 2 of the program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHMD 2026 .

Mutually Exclusive: PHRM 3310

PHMD 2030 Introductory Pharmacy Practice Experience - Hospital 4 cr

This four week introductory rotation provides students with an opportunity to actively participate in patient care within a hospital pharmacy practice setting. Pharmacy students will build upon the knowledge, skills and abilities they have developed during the first two years of the Pharm.D. program. Opportunity will be provided to allow pharmacy students to continue to cultivate their patient care skills and gain personal clinical experiences working with a variety of patients and other members of the healthcare team within a hospital setting. Students will begin to make healthcare decisions with the help and guidance of a pharmacist preceptor. Area of focus include: the role of the hospital pharmacist as part of the healthcare team; understanding the patient chart; documentation of patient care; pharmaceutical care; ordering and interpreting lab values as required for the management of drug therapy; case presentations; drug information; patient/medication safety; and interprofessional practice. Registration is normally restricted to students in Year 2 of the program. Students will be graded on a pass/fail basis.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: PHMD 2008, PHMD 2016, PHMD 2024 and PHMD 2028.

PHMD 2040 Service Learning / IPE 2 1 cr

This course is a continuation of PHMD 1040 and is an opportunity for students to further develop skills related to communication with a focus on patient advocacy and interprofessional collaboration. Registration is normally restricted to students in Year 2 of the program. Prerequisite: PHMD 1040. Students will be graded on a pass/fail basis.

PHMD 3002 Applied Pharmacy Practice Lab 3 4 cr

The course develops advanced skills required for pharmacy practice in all settings (i.e. community, hospital, and primary care). The focus is on interaction with patients and other health care professionals and the application of advanced knowledge, skills and values required for the provision of exemplary pharmaceutical care. May not be held with PHRM 3110 or the former PHRM 3100. Registration is normally restricted to students in Year 3 of the program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: PHMD 2024 and PHMD 2028.

PHMD 3004 Critical Appraisal of Pharmacotherapy Literature 2 cr

This course develops skills in the critical appraisal of research in the fields of pharmacoepidemiology and pharmacoconomics with emphasis on how this research may inform decisions regarding medication safety, drug approval, and drug evaluation. May not be held with PHRM 3520 or the former PHRM 3510. Registration is normally restricted to students in Year 3 of the program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHMD 2004

Mutually Exclusive: PHRM 3510, PHRM 3520

PHMD 3006 Advanced Clinical Therapeutics 6 cr

A problem-based clinical therapeutics course that builds on PHMD 1014, PHMD 2026 and PHMD 2028. The emphasis is on the provision of pharmaceutical care to enhance students' ability to identify, resolve and prevent drug-related problems in advanced clinical scenarios. Registration is normally restricted to students in Year 3 of the program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHMD 2028.

PHMD 3008 Concepts of Integrative Medicine 2 cr

Introduction to the integrative medicine paradigm of health care. Systems of complementary and alternative medicine as well as utilization of natural health products are emphasized. May not be held with PHRM 3430. Registration is normally restricted to students in Year 3 of the program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHMD 2028.

PHMD 3010 Pharmacy Management 4 cr

The course introduces basic business management concepts with a focus on pharmacy practice. The course will provide an introduction to strategic planning, marketing principles, human resource management and operational and financial management of different pharmacy practice areas. May not be held with PHRM 4230. Registration is normally restricted to students in Year 3 of the program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: PHMD 2020 and PHMD 2030

Mutually Exclusive: PHRM 4230

PHMD 3012 Applied Professional Practice 3 cr

This course offers the opportunity to explore professionalism, ethics and contemporary issues of the health care system. May not be held with PHRM 3230 or the former PHRM 3210. Registration is normally restricted to students in Year 3 of the program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHMD 1000

Mutually Exclusive: PHRM 3210, PHRM 3230

PHMD 3014 Clinical Therapeutics 3 8 cr

A case-based therapeutics course that builds on PHMD 2028. The course will integrate knowledge from previous pharmacy courses with newly acquired therapeutic knowledge, incorporating critical evaluation skills and clinical judgment into clinical case topic discussions in order to enhance students' ability to identify, resolve and prevent drug-related problems for individual patients. Not to be held with PHRM 4310.

Registration is normally restricted to students in Year 3 of the program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHMD 2028.

PHMD 3016 Toxicology of Medications and Drugs of Abuse 2 cr

Toxicology of prescription and non-prescription medications and drugs of abuse. The emphasis is on the study of emergency treatments of the overdosed patient. Forensic aspects of common poisonings and drug overdoses are also discussed. May not be held with PHRM 4450.

Registration is normally restricted to students in Year 3 of the program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: PHMD 2016 and PHMD 2028.

PHMD 4000 Pharmacy Research Project 6 cr

This course is designed to give students experience in scientific research. Each student will select an advisor from the Rady Faculty of Health Sciences and define a pharmacy or pharmacy practice based problem to research. Students are then required to complete their research and present their findings to an Advisory Committee in both oral and written format. Registration is normally restricted to students in Year 4 of the program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisite: PHMD 3004. Students will be graded on a pass/fail basis.

PHMD 4020 Advanced Pharmacy Practice Experience- Community 8 cr

This eight week rotation focuses on the provision of patient focused pharmacy care in a community pharmacy practice setting. Pharmacy students will complete rotations at community pharmacy practice sites offering an expanded scope of pharmacy practice. Pharmacy students will build upon the knowledge, skills and abilities they have developed during the first three years of the PharmD curriculum to further refine their clinical skills in preparation to enter independent practice. As Pharmacy Interns students will serve as an active member of the healthcare team and provide safe and effective care under the indirect supervision of a pharmacist preceptor to a variety of patients presenting with chronic and acute conditions. Registration is normally restricted to students in Year 4 of the program.

PR/CR: A minimum grade of C is required unless otherwise indicated.

Prerequisites: PHMD 2020 and PHMD 3006 and PHMD 3014. Students will be graded on a pass/fail basis.

PHMD 4030 Advanced Pharmacy Practice Experience- Hospital 8 cr
