

# Experience Record (ER)

## Validating student for experiences to be recognized on their ER

Last updated on: March 15, 2024

To validate student experiences without requesting, follow these steps:

1. Navigate to your **Co-Curricular Opportunities: Validator Home** page by clicking **Co-Curricular Opportunities** on the left blue panel.

4. You can then proceed with approving / declining requests. To do so:

Filter Clear Sort Actions

- Approve Selected
- Approve With Email
- Decline Selected
- Decline With Email
- Email Selected Students

- Checkmark the box beside the student request you want to approve or decline.
- Click **Actions** to open a drop down. **Approve With Email** or **Decline With Email**. This will notify the student of the status of their request.

5. To the right of the **Pending** tab are the **Approved** and **Denied** tabs where you can view previous requests. You can also view the list of positions and activities you are a validator for under the **Validator for the Following Activities** tab.

### Adding Participants without a Request

If you require assistance or would like to provide feedback regarding this document, please contact us at [experiencerecord@umanitoba.ca](mailto:experiencerecord@umanitoba.ca).

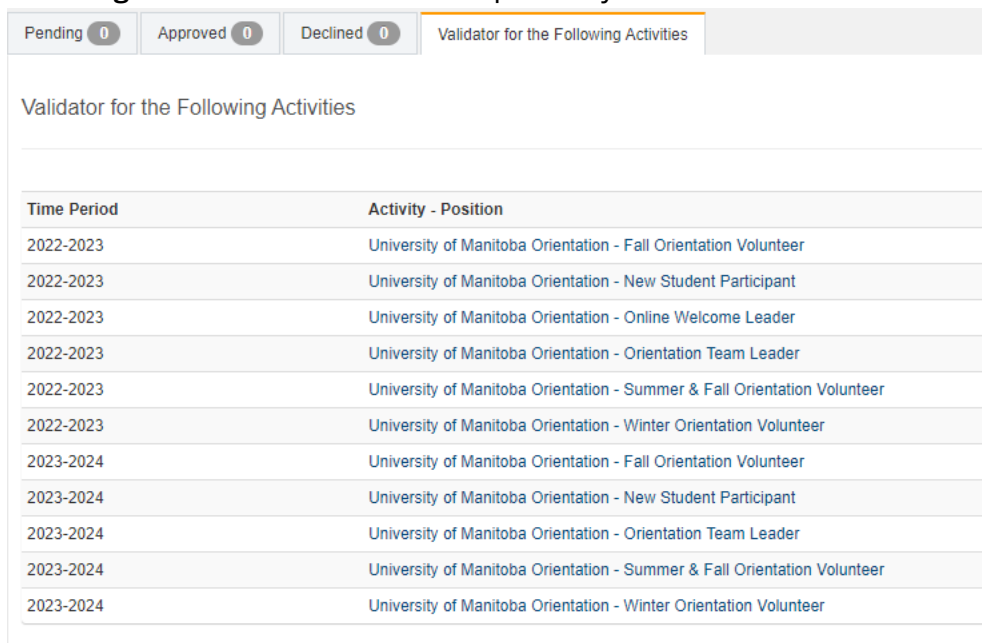

If you know of students who have not requested a certain position to be added on their record, you can manually add the position to their record. To do this:

1. Navigate to your **Co-Curricular Opportunities: Validator Home** page by clicking **Co-Curricular Opportunities** on the left blue panel.

2. From **Co-Curricular Opportunities: Validator Home** page navigate to the **Validator for the Following Activities** tab and select the position you would like to add students to.

3. In the **Position Overview** page, navigate to the **Participants** tab. This tab lists every student who has received recognition.

4. Click the circle with vertical ellipses on the bottom right of the page. This will open an **Actions** pane on the right side of the page.

5. Click **Add Position to Student Record**. This will open a pop-up window.

6. Search for the student in the **User Look-up** field. Click the correct student from the list that appears from your query to add their User ID (typically this is their @myumanitoba.ca email address) on the **User to add** field.

Note: Be careful of selecting the correct student in the case of similar or same names.

7. Alternatively, if you have a list of students to add to this specific position, you can copy and paste their @myumanitoba.ca emails directly onto the **User to add** field. You can upload **150 student emails**, @myumanitoba.ca, at one time using this method.

8. Set the **Validation Status** to **Approved**.

Note: Validators will still be able to edit and log hours for students after approving an Experience Record notation.

The screenshot shows a pop-up window titled "Add a Student to a Co-Curricular Position". At the top right is a close button (X). Below the title bar is a search section with a "User Look-up" label and a text input field. Below the input field is the text "Search for a user by first or last name, email address, username, or user ID." Below this is an "OR" separator. Underneath is a section for adding users, with the instruction "Enter a User ID (one per line) for each Student that should be added to this position". Below this is a "User to add\*" label and a large text area for pasting email addresses. At the bottom of this section is a "Validation Status" dropdown menu with a red box around the label. The dropdown is open, showing options: "Approved" (highlighted in blue), "Pending", and "Declined". Below the dropdown are "Add" and "Close" buttons.

9. Once you have the **Validation Status** to **Approved**, check that the **Email the newly added participants** field is checked. Then click **Add**.
