

University of Manitoba Security Services Monthly September, 2022

Safety Ambassadors

We are pleased to introduce a new initiative to enhance our safety education mandate; the addition of two safety ambassadors dedicated to promoting campus safety and the UM SAFE APP this semester. Ambassadors will be available most days at University Centre and other locations around campus to help educate students and staff on the many useful features available on the app. The ambassadors will also be visiting the Bannatyne campus over the following months. You are welcome to stop by and ask questions and download the app.

Features and safety tools of UM Safe include:

- Work Alone
- Mobile BlueLight
- Friend Walk
- Safe Walk / Safe Ride
- Report a Tip
- Support Resources

UM SAFE APP

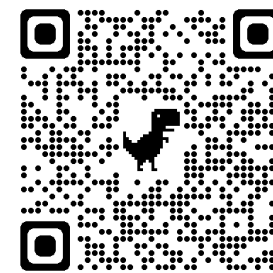

UM Safe is an essential tool that sends safety alerts and provides instant access to campus safety resources. The app includes features such as “Work Alone” and “FriendWalk”, as well as a Mobile BlueLight feature similar to the stationary blue lights on our campuses.

Some of the app features involve interaction with Security Services, and some will be optional — while other features have no interaction with Security Services.

Used by hundreds of higher education institutions and millions of people around the globe, the app was developed by App Armor and is custom branded for the U of M.

The free mobile safety app for students, staff, and faculty is available for iPhone (App Store) and Android (Play Store) devices.

The Mobile BlueLight button will only contact Security Services when the person is within the campus Safe Walk boundaries. If outside of the Safe Walk boundaries, the Mobile BlueLight notification will call 911.
