4. **Approval of the Visionary (re)Generation Plan**

Dr. Barnard commented on the University’s good fortune in having a very strong team both within the University and external to the University working on this Plan. He noted that the plan received strong support at Senate and is now before the Board for approval. Mr. Konowalchuk expressed his thanks to the University for its commitment to the lengthy planning process for the Visionary (re)Generation Plan. He thanked the many individuals who worked on the plan, including Rejeanne Dupuis and Jonathan Hildbrand from the Campus Planning Office, Ian Hall from the Sustainability Office, the members of the Planning Working Group; the City of Winnipeg, and the design team: Antonio Gómez-Palacio from Dialog, Cibinel Architecture, the MMM Group, and Wayne Swanton from Janet Rosenberg and Studio.

Mr. Gómez-Palacio began the presentation. He commented that most Board members would have already seen the plan so there would be no surprises and may be somewhat anticlimactic. He added that the University should be proud of this plan as it is the culmination of a tremendous process of ideas coming together. He stated that the University must now embrace and commit to the plan as it moves into the implementation phase.

Mr. Gómez-Palacio provided an update on where the process sits now. He said that since the Board reviewed the concept plan there has been further consultation with external and internal groups as well as with Senate. He noted that if the plan is approved there will be an informational open house held.

Mr. Gómez-Palacio noted that since the Board saw the Concept Plan the Indigenous knowledge and perspectives have been made clearer, the planning frameworks and accompanying policies have been expanded to form the operational backbone of the plan, and the plan implementation strategy has been incorporated into the document.

Mr. Gómez-Palacio listed three drivers for change; the desire to create a complete community, the need to Indigenize the campus, and the recognition that the campus could be made more sustainable. He stated creating a complete community would mean developing a diverse, walkable and accessible campus with increased services and amenities. He added that this would create a stronger sense of place and identity. Mr. Gómez-Palacio explained that the plan is intended to contribute to goals of reconciliation, collaboration, decolonization, and Indigenous
achievement by design through incorporating Indigenous principles into how the campus is shaped. Mr. Gómez-Palacio stated that planning for resilience will require the simultaneous pursuit of ecological, social and economic sustainability and will result in a compact built form with diverse mobility options, a walkable campus that reduces car dependency, the preservation and enhancement of ecological systems on campus, innovative approaches to storm water management, and the strengthening of cultural identities through collaborative processes.

Mr. Gómez-Palacio listed the following principles used in developing the plan:

1) Destination: Reasons to come and reasons to stay
2) Sustainable: Campus as a Living Lab
3) Community: Build for Density, Design for People
4) Connected: Network the Campus, Connect to the City
5) Indigenous: Weave Culture into Campus Planning and Design
6) Transformative: Research, Learning, Working and Living

Mr. Gómez-Palacio listed the four character areas: The Core Campus, The Point Lands, The South Community, and The North Community. He explained that The Core Campus area would see most of the Phase One work, including strengthening the main east-west axis along Curry Place, developing building infill opportunities, Dafoe Road character enhancements, expanded transit access, and the creation of Sidney Smith Street as a "Main Street" on the north-south axis.

Mr. Gómez-Palacio stated that the plan will develop a very green campus with a lot of well-connected and diverse open spaces that will support an active, transit-oriented campus. He stated that the built form would allow for an animated and transparent feel at grade level.

Regarding implementation of the plan, Mr. Gómez-Palacio stressed that this is intended to be a dynamic and flexible living document that will accommodate change over time. He added that the document will act as a framework for decision making and continuous engagement will be key to its evolution.

Mr. Millington asked what kind of Indigenous community involvement has there been in the design and planning. Mr. Gómez-Palacio said that a two-day symposium was held with Indigenous participation from many different places, including New Zealand and New Mexico. He added that two groups were established for ongoing consultation with the Indigenous Community and this will remain an important part of the process.

Mr. Sherbo asked if people's tendency to take shortcuts rather than groomed pathways had been taken into account with respect to landscaping. Mr. Gómez-Palacio said that there are sometimes physical and perceived barriers to using pathways such as ice and inadequate lighting. He added that in addition to a path, pedestrians need a destination and all that will be taken into account in order to create a welcoming environment that is attractive, animated, and provides a sense of safety and community.
Mr. Bock commented on tree planting and improved access to the river as quick wins. Mr. Gómez-Palacio replied that it will be important in the first year or two to demonstrate some movement in the plan and many things that could be done without great expense, including planting trees now so they will be mature trees when the development happens in the coming years.

Mr. Stone inquired about housing diversity and affordability options. Mr. Gómez-Palacio stated that the team had looked at affordable lifestyles more broadly, noting that the plan would make it viable to live without a car which would increase affordability. He added that diversity of building typologies and structures would also allow for more affordable lifestyles.

In response to a question from Mr. Zegalski, Mr. Gómez-Palacio explained that high streets will be located to take advantage of increased numbers of people on campus on event days at the stadium. He added that the main streets have to be viable all year so it would be ideal to capture the energy of the stadium without sacrificing the rest of the plan. Mr. Zegalski asked about the timeline for the Southwood Land Area Plan (LAP). Mr. Gómez-Palacio replied that it would be developed quite soon after the development agency is established.

Dr. Barnard said that a group had recently been brought together to work on developing a limited partnership and this proposal would come to the Board for approval. Ms. Bovey cautioned that because members of the Board had a maximum term of nine years the review period should be structured such that some corporate memory remains on the Board. She added that the Board should receive regular updates.

It was moved by Dr. Barnard and seconded by Ms. Reichert:

**THAT the Board of Governors approve, in principle, the Visionary (re)Generation Master Plan, as recommended by Senate on April 6, 2016.**

**CARRIED**

Ms. Bovey thanked everyone for their excellent work on this forward looking and inclusive plan. Mr. Gómez-Palacio suggested that a round of applause was in order for the Board of Governors.

5. Report from the President

Mr. Sargeant said that he had been pleased to see the President’s statement on the recent sexual assault issue at Brandon University. He noted that sexual assault is a criminal offense and asked why it is not automatically dealt with as a criminal offense. Dr. Barnard responded that many things are investigated by the university to determine where they eventually need to end up. That is to determine if they are matters that the University should be dealing with or if they should be handed over to other authorities.

Mr. Sargeant observed that some of the commentary surrounding the recent issue at Brandon University seemed to minimize or play down sexual assault, even to the point of comparing it to a workplace safety issue. Dr. Barnard agreed with Mr. Sargeant’s comments and stated that the
University of Manitoba does not see it that way. Mr. Sargeant commented that he agreed with Margaret Wente who stated in her Globe and Mail column that, for the most part, the investigations should be left to the police and the justice system where the expertise lies rather than handled by the University where there is little or no expertise in investigating crimes or alleged crimes.

Mr. Sargeant wondered if there may be some liability for the University if it is aware that a criminal offence has occurred or is alleged to have occurred but is not reported to the authorities. Chancellor Secter observed that the threshold of proof for the University is different from the justice system. In many cases there is not sufficient evidence for the police to pursue an investigation, but some complementary response is needed in those situations that may or may not meet the level for a criminal complaint. In response to Mr. Sargeant’s comment that the criminal aspect has not been addressed, Chancellor Secter said that this may be a result of how cases are presented in the media.

Dr. Barnard remarked that the University has had cases that have resulted in criminal proceedings, but many more that have not proceeded at the complainant’s request. Mr. Bock observed that the purpose of a criminal complaint is to charge, try, convict and punish and that a university investigation has a broader and different objective. He stated that a complementary process is needed.

Ms. Kunzman thanked the President for releasing the statement and for recognizing that supports are needed for victims. She added that these steps will help to build a culture of consent.

In response to a question from Mr. Sherbo, Dr. Barnard stated that absolutely no hint of wrongdoing should be read into the departure of Paul Kochan from the University.

**MOTION TO MOVE TO CLOSED AND CONFIDENTIAL**

It was moved by Mr. Sargeant and seconded by Mr. Robertson:

**THAT the meeting move into Closed and Confidential Session.**

Dear Dr. Hultin,

Please accept this letter as formal support for the Janette Soutar Memorial Scholarship. This scholarship would be used to support students with disabilities who are enrolled at the University of Manitoba.

In the 2014-2015 academic year there were 1100 students registered with Student Accessibility Services. The number of students registered at Student Accessibility Services has increased from 228 to 1100 in the last 15 years. I have included a table to show the percentage of students registered with SAS in relation to the overall student population at the University of Manitoba in the last three years. However there would be more students with disabilities at the UM, who may not request services.

SAS staff report that students discuss the limited financial resources available to students with disabilities when pursuing their academic studies. In addition, the National Educational Association of Disabled Students, (NEADS), states that,

"...throughout the working years (15-64 years of age) people with disabilities remain about twice as likely as those without disabilities to live with low income. People with disabilities are much less likely than people without to have jobs. Even where employed, people with disabilities are 1.5 times more likely than people without to live with low income."³

This scholarship would assist in providing financial resources to students with disabilities. I feel that the Janette Soutar Memorial Scholarship will assist in demonstrating the University of Manitoba’s commitment to supporting students with disabilities.

Sincerely,

Carolyn Christie
Coordinator
Student Accessibility Services

1. NEW OFFERS

Charles Card Bursary in Medicine
Don Card has established an annually funded bursary of $1,000 for a five year term, to support students in their first year of study in the College of Medicine at the University of Manitoba. Each year, beginning in 2016-2017 and ending in 2020-2021, one bursary of $1,000 will be offered to an undergraduate student who:

1. is enrolled full-time in the first year of the Undergraduate Medical Education program in the College of Medicine, and is in good standing;
2. has demonstrated financial need on the standard University of Manitoba bursary application form.

The Dean of the College of Medicine (or designate) will name the selection committee for this award. The donor will notify Financial Aid and Awards by March 31 in any year the award will not be offered as indicated above.

The Board of Governors of the University of Manitoba has the right to modify the terms of this award if, because of changed conditions, it becomes necessary to do so. Such modification shall conform as closely as possible to the expressed intention of the donor in establishing the award.

Hoops from the Heart Scholarship
Using ongoing proceeds from the annual Hoops from the Heart event, a trust fund was established in 2015 at the University of Manitoba to recognize student athletes from the inner city on the Bison Basketball teams. The Manitoba Scholarship and Bursary Initiative has made a contribution to the fund. Each year, beginning in 2016-2017, and as long as there are funds available, one scholarship of $1,500 will be offered to an undergraduate student who:

1. has resided in the City of Winnipeg (current city limits) prior to graduating from high school;
2. is eligible to compete in Canadian Interuniversity Sport (CIS) and is a member of either the Bison Men’s or Women’s Basketball team;
3. is enrolled full-time, as defined by CIS regulations, in any faculty or school at the University of Manitoba;
4. is enrolled in a minimum of 9 credit hours in each of the terms of competition;
5. has achieved either:
   (a) as an entering student, a minimum average of 80% on those high school courses used for admission to the University, or
   (b) as a continuing student, a minimum degree grade point average of 2.0.

The scholarship will rotate each year between the Men’s and Women’s Basketball teams. If, in any given year, there is no eligible recipient on the appropriate team, the award may be offered to a student on the other team and the rotation will reset.

Preference in selection will be given first to students who have graduated from a Winnipeg School Division #1 high school and, secondly to students who have resided in the Winnipeg School Division #1 catchment area.

If, in any given year, there are not enough funds in the account to offer the award as indicated above, the selection committee will have the discretion to either: (i) not offer the award that year, or (ii) to offer the
award using the amount remaining in the fund. If the award is not offered, the rotation will be held over to the next year the award is offered.

The Athletic Director (or designate) will name the selection committee for this award, which will include the Head Coaches of the Bison Men’s and Women’s Basketball teams (or designates).

The Board of Governors of the University of Manitoba has the right to modify the terms of this award if, because of changed conditions, it becomes necessary to do so. Such modification shall conform as closely as possible to the expressed intention of the donor in establishing the award.

The terms of this award will be reviewed annually against the Canadian Interuniversity Sport (CIS) criteria governing “Athletic Financial Awards Policy” (also referred to as “Athletics Scholarships Policy”), currently numbered C50.10 in the CIS Operations Manual.

**John T.K. Lee International Study Scholarship**

Mr. John T.K. Lee, B.Comm.(Hons.)/1975, established an endowment fund at the University of Manitoba with an initial gift of $25,000 in 2015, and a commitment to a total gift of $100,000 by 2018. The purpose of the fund is to recognize students participating in the International Exchange Program of the I.H. Asper School of Business by providing scholarships. Each year, beginning in 2017-2018, scholarships will be offered to undergraduate students who:

1. are enrolled full-time (minimum 80% course load) in the I.H. Asper School of Business;
2. have achieved a minimum degree grade point average of 3.0;
3. have been accepted to the I.H. Asper School of Business International Student Exchange program;
4. have achieved among the highest degree grade point averages of the students accepted into the program.

The selection committee will have the discretion to determine the number and value of scholarships offered each year based on the annual income.

The Dean of the I.H. Asper School of Business (or designate) will ask the International Exchange Program Director (or designate) to name the selection committee for this award.

The Board of Governors of the University of Manitoba has the right to modify the terms of this award if, because of changed conditions, it becomes necessary to do so. Such modification shall conform as closely as possible to the expressed intention of the donor in establishing the award.

**Mahatma Gandhi Scholarship in Human Rights**

Dr. Krishnamurti and Dr. Ganga Dakshinamurti established an endowment fund at the University of Manitoba with an initial gift of $100,000 in 2016. The Manitoba Scholarship and Bursary Initiative will make a contribution to this fund.

Dr. Krishnamurti Dakshinamurti is the President of the Mahatma Gandhi Centre of Canada, which since 2010, has annually conferred the Mahatma Gandhi Peace Award to recognize and honour original thinkers and initiators of conflict resolution, and holds an annual dinner and awards ceremony for the recipients. It is the intention of the Mahatma Ghandi Centre of Canada to donate the proceeds from this annual function to the endowment fund each year.

The purpose of the fund is to recognize graduate students who have a focus in human rights research, social justice, and peace and conflict studies. Each year, beginning in 2017-2018, the available annual income from the fund will be used to offer one or more scholarships to graduate students who:

1. are enrolled full-time in a Master’s or Ph.D. program in the Faculty of Graduate Studies at the University of Manitoba;

Senate, March 2, 2016
(2) have achieved a minimum grade point average of 3.5 based on the previous 60 credit hours (or equivalent) of study;
(3) are currently undertaking research with a focus in human rights, social justice, or peace and conflict studies.

Preference in selection will be given to students who are working in collaboration with the Canadian Museum for Human Rights.

Candidates will be required to submit an application that includes: a) a current academic transcript, b) a (500 word maximum) summary of their thesis proposal, and c) a letter of support from their thesis supervisor.

The selection committee will have the discretion to determine the number and value of the awards based on the available funds.

RE: Enterprise Rent-A-Car Foundation Scholarships

Dear Dr. Hultin,

The I.H. Asper School of Business supports the amendment of the Enterprise Rent-A-Car Foundation Scholarships.

In the Fall Term of 2015, the I.H. Asper School of Business’ self-declared undergraduate Indigenous student population was 4.1% of total enrolment, compared to the University of Manitoba undergraduate Indigenous student population average of 7.8%.

Indigenous student enrolment data for the past five years in the I.H. Asper School of Business is provided for context in the table below.¹

Re: Endowed Professorship in Business Ethics

Dr. Michael Benarroch, Dean of the Asper School of Business, has provided a letter of support for the proposal to establish an endowed professorship in Business Ethics. This professorship aligns with strengths in the Asper School of Business and the Department of Business Administration.

The policy on Chairs and Professorships specifies that:

1. the professorship be established consistent with the academic goals and objectives of the University;
2. the professorship be partially funded from external sources outside of the University operating funds, and that the funds normally must be sufficient to cover 20% of the salary and benefits of the incumbent and provide for an appropriate level of unrestricted research/scholarly support;
3. the funds for the professorship be provided by way of an endowment or through a schedule of annual expendable gifts for a defined period of not less than five years, or by an appropriate combination of endowment and annual expendable gifts;
4. the professorship shall be attached to a department, faculty, school, college, centre or institute of the University, and have goals consistent with the unit to which it is attached;
5. the establishment of the professorship is not tied to the appointment of a particular individual;
6. individuals appointed to the professorship normally shall have the academic qualifications commensurate with an appointment at the rank of Professor, Associate, or Assistant; and
7. the initial term of the appointment of the professorship shall be 3-5 years, and if renewal is permitted, such renewal shall be subject to a successful performance review and the availability of funds.

The proposed professorship in Business Ethics satisfies all of the above requirements except for items 2 and 3. The annual income generated from the endowment fund will support research expenses and will provide a stipend of $10,000 per year. The proposal provides for the possibility of the appointment of an individual at the rank of Assistant Professor, Associate Professor or Professor. The initial appointment will be for a five-year period with the possibility for renewal.
I am in support of the proposal from the Asper School of Business and request that you present it to the Senate Committee on University Research for consideration and recommendation to Senate and then to the Board of Governors.

If you have any questions or concerns, I would be pleased to meet with you.

- Clarification re: Chairs and Professorships
MEMORANDUM

TO: Mr. Jeff Leclerc, University Secretary

FROM: Digvir Jayas, Vice-President (Research and International) and Chair, Senate Committee on University Research

DATE: March 14, 2016

SUBJECT: Clarification re: Chairs and Professorships

The Chairs and Professorships Policy was revised November 25, 2014. Section 2.8 now states “Individuals appointed to Chairs and Professorships normally shall have academic qualifications commensurate with an appointment at the rank of Assistant Professor, Associate Professor, or Professor.”

Past proposals for chairs and professorships will have the wording from the previous policy, indicating that a rank of professor was required. The Senate Committee on University Research (SCUR) is recommending that all pre-existing, SCUR approved research chairs and professors, could be filled, at renewal time, with individuals holding an appointment of Assistant Professor, Associate professor, or Professor. This would allow chairs and professors proposed under the old policy to be covered by the new policy, without requiring re-submitting individual proposals.

At its March 10, 2016 meeting, SCUR moved “That the terms of reference for all previously approved research Chairs and Professors be amended such that the Chairs or Professorships can be filled with individuals holding an appointment of Assistant Professor, Associate Professor or Professor.

This motion was carried. Please include the recommendation from SCUR on the next Senate agenda. Please feel free to contact me should you require any further information.

Thank you.

AGENDA ITEM: Implementation of Master of Social Work in Indigenous Knowledges

RECOMMENDED RESOLUTION:

For information only.

Action Requested: ☐ Approval ☐ Discussion/Advice ☑ Information

CONTEXT AND BACKGROUND:

The Master of Social Work in Indigenous Knowledges was approved by the Board of Governors at its meeting of June 24, 2014. The University received notification on January 13, 2016 that the program had been approved by the Advanced Learning Division, Education and Advanced Learning.

The Provost and Vice-President (Academic) has authorized the implementation of the program effective September 2016.

RESOURCE REQUIREMENTS:

The University will receive $125,000 in grant funding in 2015/2016, to complete the development and implementation of the program and to enhance the indigenization of existing courses in the existing Master of Social Work program.

Commencing in 2016/2017, the University would receive an incremental grant increase of $485,000, subject to passage of Appropriation Act, 2016, that would result in ongoing baseline support of $610,000 to support the Master of Social Work in Indigenous Knowledges and the Indigenous Knowledge cluster.

- Correspondence from Vice-President (Academic) and Provost RE: Master of Social Work in Indigenous Knowledges
January 22, 2016

To: Jay Doering, Dean, Faculty of Graduate Studies and Vice-Provost, Graduate Education

From: Joanne C. Keselman, Provost and Vice-President (Academic)

Subject: Master of Social Work in Indigenous Knowledges

On January 13, 2016, we received formal notification from the Advanced Learning Division (ALD), Education and Advanced Learning, that the proposal for a new Master of Social Work in Indigenous Knowledges has been approved.

In their letter, ALD acknowledged the efforts of the Faculty of Social Work in creating a program that will provide students with the opportunity to explore Indigenous forms of caring which are applicable to the unique circumstances of Indigenous clients and communities in Manitoba. They also supported the Indigenous Knowledge cluster proposed for students within the existing Master of Social Work (MSW) program. The new cluster will serve to ensure that students in the existing MSW program are exposed to programming and experiences that are relevant to Indigenous identities and realities.

As part of the approval, the University will receive $125,000 in grant funding in 2015/16 to support a September 2016 implementation of the MSW-IK. This grant is intended to complete both the development and implementation of the new program and enhance the indigenization of courses in the existing MSW program, where possible.

Further, commencing 2016/17, Government has approved an incremental grant increase of $485,000, subject to passage of Appropriation Act, 2016, resulting in ongoing baseline of $610,000 in support of the MSW-IK and the Indigenous Knowledge cluster. Notwithstanding the qualification, I am authorizing implementation of this program, with the goal of admitting students in 2016. This decision is based on the strength of the implementation plan for the MSW-IK that has been provided by the Dean, Faculty of Social Work, the solid commitment of Social Work faculty to the implementation of this program along these timelines, the priority placed on the MSW-IK through our academic governance process, and the importance of the program to our community.

On behalf of the University of Manitoba, I extend my congratulations to all those who have worked so hard to design this exciting new graduate program.

Attached you will find the letter I received from Rayna Esposito and Emily Jones, Co-Presidents of the Interior Design Association of Students. The letter details how proper notice was provided to the students about the referendum initiative, including the disbursement and the vote date, through emails sent and presentations made by the student council.

As Rayna and Emily explain, the students wish to contribute $1.66 per credit hour for a two year term, to the Architecture Endowment Fund. This will result in a contribution of $3,600 (pending enrolment) to the university. This contribution is to be collected from each student in each term when fees are paid, beginning in the fall of the 2016/2017 fiscal year.

I would appreciate it if you would present these results to the Board of Governors for approval.

AGENDA ITEM: UMSU Student Organization Fee Increases to W.U.S.C.

RECOMMENDED RESOLUTION:

That beginning in 2016/2017 academic year the fees collected by UMSU on behalf of W.U.S.C. (World University Services of Canada) be increased to $3.75, in order to reflect their successful referenda during the March 2016 UMSU General Election and Referendum.

Apply this increase as of Fall 2016 semester fee levies.

Annually thereafter, index the fee to inflation following the Consumer Price Index (CPI) for the Province of Manitoba as reported by Statistics Canada for the 12 month period ending on September 30, as is presently practiced.

Action Requested: ☑ Approval  ☐ Discussion/Advice  ☐ Information

CONTEXT AND BACKGROUND:

In the 2016 UMSU General Meeting, members were given the opportunity to vote on a referendum question asking to increase the levy currently collected for World University Services of Canada by $2.50 per year. 3,754 students voted on this question with 2,446 voting in favour of the increase and 1,224 voting against the fee. This surpasses the majority required under UMSU Governing Documents to accept as a decision of the student body.

CONNECTION TO THE UNIVERSITY PLANNING FRAMEWORK:

IMPLICATIONS:

World University Services Canada provides vital services to Refugee Students, and their costs have been steadily rising year in and year out. This request for an increase will allow them to rise to address the needs of the students that fall under them, and students have shown their support of the endeavor.
ALTERNATIVES:

Should this fee increase not be approved, WUSC will certainly not be able continue to provide the same level of services, as the buying power of their levy deceases every year.

GENERAL

On May 12, 2016, the University of Manitoba received the largest gift in its history. Ernest and Evelyn Rady, through the Rady Family Foundation, committed $30 million to support the Faculty of Health Sciences, which will henceforth be known as the Rady Faculty of Health Sciences. In addition, the College of Medicine has been renamed the Max Rady College of Medicine. The gift, which is part of the $500 million Front and Centre capital campaign, will generate about $1.6 million each year for student financial aid, research, and equipment and capital upgrades.

The 136th Annual Spring Convocation for the conferring of Degrees and the awarding of Academic Honours will be held May 31 to June 2, 2016. As part of Convocation, honorary degrees will be conferred upon Bonnie Buhler, Andrew Coyne, Heather Reisman, Gerald Schwartz, Bryce Douglas and Susan Lewis. Degrees were conferred upon graduates of the Max Rady College of Medicine during its Convocation on May 12, 2016, at which Dr. Paul Henteleff was the honorary degree recipient.

A national conference entitled “Pathways to Reconciliation” will take place in Winnipeg from June 15 to 18, 2016, offering an opportunity for reflection and dialogue one year after the Truth and Reconciliation Commission issued its seminal report. The conference will be hosted at The University of Winnipeg in partnership with the University of Manitoba and the National Centre for Truth and Reconciliation, and offer more than 30 workshops and panels with keynote speakers such as the Honourable Frank Iacobucci, former Supreme Court Justice; Cindy Blackstock, Executive Director, First Nations Child and Family Caring Society of Canada; Stephen Kakfwi, former Premier of the Northwest Territories; and Chief Dr. Robert Joseph, Ambassador for Reconciliation Canada and hereditary Chief of the Gwawaenuk First Nation.

In response to the Truth and Reconciliation Commission of Canada’s “Calls to Action”, the Provost’s office submitted a summary report on UM indigenous achievement to the U15 Group of Canadian Research Universities providing examples of how we are implementing recommendations from the TRC Report. Please see attached Appendix 1.

ACADEMIC MATTERS

- Mark Torchia, centre for the advancement of teaching and learning, received a Governor General's Innovation Award for the development of the NeuroBlate® System. He (and Mr. Richard Tyc, Monteris Medical), will be honored at Rideau Hall in Ottawa later this month.

- Rotimi Aluko, human nutritional sciences, has been appointed Editor-in-Chief for the Journal of Food Biochemistry.

- Ifeanyi Nwachukwu, human nutritional sciences’ graduate student, received the American Oil Chemists’ Society Honored Student Award for 2016; the Society’s highest award for student members.
• David Onyemata, student and University of Manitoba Bison football player, was drafted by the NFL’s New Orleans Saints. He is only the 12th Canadian Interuniversity Sport football player drafted into the NFL.

• Abolfazl Hajihassani, soil science graduate student, has been selected as the John M. Webster Outstanding Student from the Society of Nematologists in the USA. The award is available to students in the last year of their Ph.D. and who have shown excellence in academics, publishing, and outreach.

• Orrin Mackay and Amina Younas, arts undergraduate students, were awarded the prestigious German Academic Exchange Service University Summer Course grant. This grant program provides scholarships for students to attend German universities and focus mainly on German language and literary, cultural, political and economic aspects of modern and contemporary Germany. Orrin will study at the University of Heidelberg, and Amina at the University of Freiburg.

• As part of its response to the Truth and Reconciliation Commission of Canada’s “Calls to Action”, the Faculty of Education hosted three events for the general public, educators and stakeholders:
  o March 22, 2016, Justice Senator Murray Sinclair gave a presentation on how teacher education can best respond to the “Calls to Action”;
  o March 26, 2016, a panel conversation with Justice Sinclair and Ry Moran (Director, National Centre for Truth and Reconciliation), was held; and
  o April 25, 2016, a panel conversation with respected Indigenous Education researchers and professors Dr. Jan Hare (University of British Columbia), Dr. Dwayne Donald (University of Alberta) and Dr. Marie Batiste (University of Saskatchewan) were held to build on previous discussions and set in place a plan of action.

• The Asper School’s Master of Business Administration (MBA) case competition team placed second overall at the Epic 24-Hour Case Competition. The Asper team beat all Canadian schools.

• The College of Medicine’s Student Art Show was held April 26-29, 2016. Each year a committee of medical students puts out a call for submissions for an annual art show and this year, members of the Faculty of Health Sciences were invited to submit their work. The purpose of the event is to encourage students to keep in touch with their creative and artistic interests.

• The International Centre for Students hosted a reception in honour of the 2016 graduating international students. More than 100 students were recognized; the largest number of international graduates to date.

RESEARCH MATTERS

• On March 23 the Gairdner Foundation announced Distinguished Professor Frank Plummer (Medical Microbiology/Community Health Sciences) as the 2016 Canada Gairdner Wightman Award recipient. The award recognizes his outstanding leadership in medicine and medical science.

  Throughout his career, Plummer has been at the cutting edge of research on sexually transmitted infections (STIs), particularly HIV/AIDS. He has additionally enabled the careers of his trainees,
colleagues and collaborators. He co-founded the University of Manitoba-University of Nairobi Collaborative Research Program in the early 1980s and brought other academic institutions into the collaboration, including the University of Washington, Oxford University, University of Ghent, the Tropical Diseases Institute of Antwerp, and the University of Toronto. This consortium is the leading infectious diseases research initiative in sub-Saharan Africa.

His ground-breaking achievements include: the early identification and confirmation that there is indeed a largely heterosexually transmitted epidemic of HIV in Africa; the important role of conventional STIs in enhancing and facilitating HIV infection; understanding the important role of breastfeeding in the transmission of HIV from mothers to children; finding that hormonal contraceptive methods can facilitate HIV transmission; important protective factor of male circumcision for HIV acquisition in men; identification of highly HIV-exposed sex workers who are resistant to HIV infection and the subsequent understanding of acquired immunity to HIV; and most importantly, the importance of focused prevention programs for sex workers and their clients in reducing HIV transmission in both of these groups and in the general community.

Plummer is the third Canada Gairdner Wightman Award recipient from the University of Manitoba. Previous winners were Henry Friesen (2001) and Allan Ronald (2006). Plummer will be honoured at the Gairdner Foundation Awards Gala on October 27, 2016 in Toronto.

- On April 7, 2016 the recipients of the 2015 Rh Awards and the 2015 Dr. John M. Bowman Memorial Winnipeg Rh Institute Foundation Award were celebrated at an awards presentation, lecture and reception. The Rh Awards are given to academic staff members who are in the early stages of their careers and who display exceptional innovation, leadership and promise in their respective fields. The recipients are: Applied Sciences – Dr. Mohamed Bassuoni (Civil Engineering), Health Sciences – Dr. Kelly Russell (Pediatrics & Child Health/Children’s Hospital Research Institute of Manitoba) and Dr. Genevieve Thompson (Nursing), Humanities – Dr. Umut Özsu (Law), Interdisciplinary – Dr. Joyce Slater (Human Nutritional Sciences), Natural Sciences – Dr. Mark Belmonte, and Social Sciences – Dr. Donn Short (Law).

- The 2015 Dr. John M. Bowman Memorial Winnipeg Rh Institute Foundation Award recipient is Distinguished Professor David G. Barber (Environment & Geography/Centre for Earth Observation Science); and Canada Research Chair in Arctic-System Science. A public lecture was held following the awards presentation entitled: On Thin Ice: Seven surprising results from shrinking sea ice. Barber’s research is at the forefront of informing Canadian Arctic policy. He has made significant and groundbreaking contributions in the field of sea ice and climate change over the course of his career to date.

AGENDA ITEM: Operating Fund Budget and Financial Plans for Restricted and Endowment Funds – 2016/17

RECOMMENDED RESOLUTION:

That the Board of Governors approve:

- a tuition fee increase of 1.2% effective Regular Session 2016;
- a balanced fiscal operating budget based on $637,615,561 of total revenue, $68,806,575 of fund transfers, and expenditures of $568,808,986; and
- financial plans for Restricted and Endowment Funds for the year ending March 31, 2017 as set out in Attachment 4.

Action Requested: X Approval  □ Discussion/Advice  □ Information

CONTEXT AND BACKGROUND:

GENERAL OPERATING FUND

The General Operating Fund is the largest of the funds which supports the academic mission, non-sponsored research and the administration of the University. General operating revenue sources include the Provincial operating grant, tuition and related fees, federal government grants, net investment income, miscellaneous income, sales of goods and services to external parties and income from ancillary enterprises.

Integrated Planning and Budgeting Process

The annual integrated planning and budgeting process began in the summer with the development and submission of the 2016/17 Operating Estimates to the Manitoba government. Manitoba Education and Advanced Learning (EAL) requested that the University provide an assessment of the impact on 2016/17 operations of no increase to the base operating grant and a 1.5% tuition increase; these calculations resulted in a projected shortfall of $11.4 M.¹

The Board of Governors approved the 2016/17 Estimates submission on September 22, 2015. Subsequently, the President and members of the senior executive and

¹ Other assumptions: enrolment levels equal to the projected 2015/16 levels, general non-salary inflation increase of 1.5%, library acquisition inflation and exchange rate increase of 18%, average increase of 4.5% for utilities, and salary, benefits, travel and expense allowance increase based on anticipated or previously negotiated settlements and forecasts.
administrative team met with the Deputy Minister and senior officials of Education and Advanced Learning in early October to present the Submission.

In fall 2015, all faculties, schools and administrative units were asked to develop strategic resource plans (SRPs) using a prescribed template format that reflected the University’s new strategic plan. In light of the projected financial circumstances outlined in the 2016/17 Estimates Submission, each unit was asked to plan assuming an estimated 4% baseline budget reduction for 2016/17.

A goal for 2016/17 fiscal year was to enhance transparency by improving resource allocation processes and making decision making structures and processes more evident to the University community. Specifically, a new Planning and Budgeting Committee (PBC) was formed to ensure resource allocation decisions were informed by University priorities in appropriate balance with unit-level pressures.

The committee comprised of all Vice-Presidents, decanal representatives, and senior planning and budgeting staff, met on six occasions, and provided advice to the Provost and Vice-President (Academic) on resource allocations and strategic investments using information from SRP submissions, based on alignment with the Strategic Priorities – “Taking Our Place” and planning assumptions.

Where required, the Provost and Vice-Provost (Integrated Planning/ Academic Programs) also met in February 2016 with several Deans and Directors of academic units, the University Librarian and leaders of major support and administrative units to discuss and seek clarification on their strategic resource plans. The results of these discussions in conjunction with advice from PBC formed the proposed recommendations on resource allocations to the President’s Budget Advisory Committee (BAC).

The President, Provost, Vice-Presidents, and senior planning and budgeting staff subsequently met with BAC on three occasions to review the University’s fiscal environment and solicit input and advice on the budget process and the recommendations.

Funding Announcement

On January 7, 2016 the Minister of Education and Advanced Learning announced increases to funding levels for 2016/17 for the University of Manitoba and other universities and colleges in Manitoba, pending approval of The Appropriation Act, 2016. These proposed increases of $8.5M (or 2.5%) to the University’s base operating grant and $0.1M in Access grants, are detailed in Attachment 1. The Manitoba government also advised that tuition and course related fees may increase by up to the current inflation rate of 1.2% for 2016/17. Any differential or surcharge in fees set for courses taken by individuals who are not Canadian citizens or permanent residents of Canada are not governed by Provincial policy and legislation.

The April 19th, 2016 provincial election resulted in a change in government; a budget has not yet been tabled.

Resource Requirements

In anticipation of a 2.5% operating grant increase, revenue and expenses were refined to reflect:
• updated 2015/16 tuition revenues;
• no increase in enrolment in 2016/17;
• a 1.2% inflationary increase for tuition fees;
• a 1.2% increase for most course related fees;
• updated salary and benefit cost estimates based on currently available information; and
• updated information on utilities, library acquisitions, specific purpose expenses and contingency funding requirements.

Attachment 2 details the available 2016/17 Operating Budget Funding from various sources. Operating baseline funding is summarized as follows:

Budgetary increases related to First claims include: salaries and benefits (scale, step, merit, anomalies, promotion increases), program costs, library inflation and exchange reserve, non-salary inflationary costs, contingency, and Fiscal Stability and Budget reserve funding. This reserve funding ($3.7 M) will be set aside to mitigate uncertainties related to U.S. Exchange rate fluctuations, pension valuation, ongoing labour negotiations, and provincial funding for 2016/17 and beyond.

A significant portion of the budgetary increases are related to salaries; further details on salary breakdown by Unit and by Compensation Group is provided in Chart A and B, respectively.
Chart A illustrates the distribution of funding for salary increases by unit. As seen in the chart, of the $11.97 M required for salary increases, 72.6% or $8.7 M is allocated to academic units.

Chart A - Projected Salary Allocations by Unit - $11.97 M

Chart B illustrates the distribution of funding for salary increases by compensation group. As seen in the chart, of the $11.97 M required for salary increases, 52.0% or $6.2 M is allocated to UMFA.

Chart B - Projected Salary Allocations by Compensation Group - $11.97 M
The operating baseline budget shortfall will result in a 3% budget reduction across faculties and units of $10.8 M. Salary turnover savings (from the Academic Position Management process) of $4.3 M will be partially used to cover the remaining shortfall, with the balance, $3.82 M, used for baseline investments in strategic priorities.

A summary of the proposed reduction is provided in Table 1 below.

**Assumptions for Budget Recommendations**

In preparing 2016/17 recommendations the following assumptions were made:

- The University of Manitoba will develop a balanced budget;
- Strategic investments are required to support strategic planning priorities;
- A Manitoba operating grant of 2.5% and tuition increase of 1.2% is anticipated;

RESTRICTED FUNDS

1. Research and Special Funds – 2016/17 Financial Plan

The Research and Special Fund consists of contributions specifically restricted for research or other special activities. Research and Special Funds include external grants and contracts from a variety of federal and provincial granting agencies, industry and non-governmental organizations provided specifically for research, research infrastructure and special activities. Funds are held in trust by the University until they are spent by our researchers, in accordance with the conditions stipulated in the governing contracts and agreements.

The funds received in any given year for research may not all be spent in the year received, therefore, any unspent research funds as at March 31 are carried over to the following year. Revenues are forecasted at $164.8 M for 2016/17; additional detail is provided in Attachment 4.

2. Capital Asset Fund – 2016/17 Financial Plan

The Capital Asset Fund consists of restricted contributions for the purpose of acquiring capital assets and/or making debt repayments. The expenditures related to the construction of buildings or purchase of equipment are not recorded as an expense but are recorded as an asset on the University’s balance sheet. Therefore, the Capital Fund will typically report a surplus unless current year amortization and interest/expense exceeds current year contributions.

Sources of capital funds include:

- Provincial allocations (primarily for deferred maintenance/infrastructure renewal) – see Attachment 1
- Manitoba government allocations for major capital projects
- Provincial Territorial Base Funding
- Federal and Manitoba government programs e.g. MIF, WED, Ag Canada, CGC, etc.
- Canada Foundation for Innovation (CFI) funds and Provincial matching funding
- Debt financing
- Donations through Philanthropy
- Operating, Research and Provision funds (expenditure is reported as an interfund transfer to the Capital Fund)

Specific projects and contracts in excess of $1 million are subject to Board of Governors approval. The preliminary 2016/17 capital plan is detailed in Table 2 below compared to forecasted 2015/16. Attachment 4 provides further details.

3. Trust and Endowment – 2016/17 Financial Plan

The Trust Fund records donations that may be used in their entirety, whereas the Endowment Fund records donations with the stipulation that the funds be invested in perpetuity and investment income earned be used for the purpose designated by the donor.

The revenues of the Trust and Endowment Funds include the net investment income, earned by the investments of the University Investment Trust (UIT) and Specific Trusts plus an estimate of the new donations received.

The expenses are transfers of allocations to the various units in accordance with the spending policy approved by the Board of Governors and as required by the units, plus awards paid directly to students.

Preliminary revenues and expenditures in 2016/17 are provided in Attachment 4.

4. Staff Benefits – 2016/17 Financial Plan

All revenues in the Staff Benefits Fund are restricted and can only be used for the original intended purpose of the Fund, to support benefit plans for University employees. The Fund is comprised of a Pension Reserve, and Self-Insured Plans which consist of Long Term Disability Income and Dental Plans. The University has an obligation to ensure that funds are set aside to maintain this fund.

Attachment 4 includes staff benefit preliminary revenues and expenditures in 2016/17.

SUMMARY

An operating budget of $637,615,561 of revenue, $68,806,575 of fund transfers, and expenditures of $568,808,986 is proposed for 2016/17, which includes:

- Increases to revenues of $11.8 M;
- First claims of $23.0 M;
- Operating budget shortfall of $11.2 M will result in baseline reduction of $10.8;
- APMP savings of $4.3 M will be partially used to cover the remaining shortfall, with the balance of $3.82 M used for strategic investments; and
- Approximately $27.85 M of fiscal (one-time) funding will be allocated for strategic investments.

Attachment 4 details the recommended 2016/17 Budget Plans for All Funds. Attachment 5 is a high level Summary of the 2016/17 Preliminary Operating Budget for baseline and fiscal budget by faculty/ unit.
During the 2016/17 fiscal year, the Board of Governors will receive quarterly reports on each fund comparing actual for each quarter with prior year actual and projected full year results.

ALTERNATIVES:

Various scenarios were considered with respect to balancing priorities related to the strategic planning framework, potential future uncertainties, and the need to address organizational infrastructure challenges as well as provide continuing support to faculties and schools. This proposed budget represents the recommended balance in addressing these needs.

CONSULTATION:

Planning and Budgeting Committee comprised of all Vice-Presidents, decanal representatives, and senior planning and budgeting staff, met on six occasions, and provided advice to the Provost and Vice-President (Academic) on resource allocations and strategic investments using information from SRP submissions, based on alignment with the Strategic Priorities – “Taking Our Place” and planning assumptions.

The Provost and Vice-Provost (Integrated Planning/ Academic Programs) also met in February 2016 with several deans and directors of academic units, the University Librarian and leaders of major support and administrative units to discuss and seek clarification on their strategic resource plans.

Other support and administrative units met with their respective Vice President or President.

Three meetings were held with the President’s Budget Advisory Committee to receive advice and feedback on priorities for strategic investment.

Dear Ms. Bovey and Dr. Barnard:

I am pleased to inform you of the funding decisions made by Government for the 2016/17 fiscal year. As you aware, historically government has announced post-secondary education funding in the period the budget is announced. To allow post-secondary institutions to plan appropriately and to ensure academic excellence and affordability for Manitoba students, I am pleased to announce specific funding allocations for your institution.

Despite the serious challenges presented by the current fiscal environment, post-secondary education remains a major priority for Government. This fact is reflected in the overall support provided to the post-secondary system in 2016/17, which will see operating grants increase by $27,082,000 from $678,847,000 to $705,909,000. The post-secondary system envelope is comprised of the following:

<table>
<thead>
<tr>
<th>Grant Type</th>

<tbody>
<tr>
<td>University Operating grants</td>
<td>$527,027,000</td>

Government has increased Strategic Initiatives envelope from $1,143,000 to $2,041,000 to support the Government’s Post-Secondary Strategy. Specifically, this envelope includes funding of $440,000 to support the transfer credit portal and $350,000 to support institutional efforts to advance Indigenous education in Manitoba
The Capital Envelope for 2016/17 will be $11,571,000 available for major capital, renovations and equipment across the system.

Within the current fiscal context, these investments are significant and represent the ongoing commitment to the post-secondary sector by this government.

The grant allocations available to University of Manitoba for the fiscal year 2016/17 will be as follows:

<table>
<thead>
<tr>
<th>Grant Type</th>

The operating grant includes a provision of $210,350 for first claims, $208,000 for the International Educated Engineers Qualification program, and funding to support base operating requirements of the university. In addition, the operating grant includes funding up to $485,000 to support full implementation of the Masters of Social Work in Indigenous Knowledge program.

The Access grant has been increased by $118,000.

Please continue to provide actual billings for the principal and interest costs associated with deferred maintenance, knowledge infrastructure program and project domino loans.

Please note that all funding increases over 2015/16 amounts is subject to Government passage of the Appropriation Act, 2016.

I look forward to working with you and your colleagues in continuing to build a sustainable post-secondary system for Manitoba.

AGENDA ITEM:  UMSU Student Organization Fee Increases to UMFM

RECOMMENDED RESOLUTION:

That beginning in 2016/2017 academic year the fees collected by UMSU of behalf of UMFM 101.5 be increased to $3.61 per term.

Apply this increase as of Fall 2016 semester fee levies.

Annually thereafter, index the fee to inflation following the Consumer Price Index (CPI) for the Province of Manitoba as reported by Statistics Canada for the 12 month period ending on September 30, as is presently practiced.

Action Requested:  ☑ Approval  ☐ Discussion/Advice  ☐ Information

CONTEXT AND BACKGROUND:

CJUM (UMFM-101.5) has existed as a student and community radio station, collecting a levy since 1996, and has been broadcasting since 1998. As the fee was not indexed to CPI when it was instituted, the buying power of the fee has decreased every year. Setting the rate to $3.61 a term is equivalent to the original rate being indexed, restoring UMFM’s original buying power.

UMSU Council approved the increase, as it will go towards increasing capacity, capital expenses, necessary infrastructure, as well as to hire, retain, and adequately compensate quality staff. UMSU Council wishes to encourage a higher quality radio station, with more diversity of training opportunities and classroom possibilities for students now and in the future.

**IMPLICATIONS:**

An expanded Campus and Community radio programing will allow for more opportunities to students and also allows for increased collaboration with the Faculty of Music to assist students in recording for opportunities in the form of grants, application to other programs and for festivals across the nation. Each year this service is utilized more and more and has become a great boon to musically minded students, as well as a great opportunity for volunteer experience.

**ALTERNATIVES:**

Without a sufficient funding increase, UMFM 101.5 would be forced to reduce both the scale and quality of its programming, and operations as a whole. Opportunities presently provided to students, university community members, and the community at large would have to be dramatically scaled back, as the infrastructure costs are quickly eroding the diminished buying power of the original fee.

UMFM Retroactive Indexing Motion

Motion
WHEREAS UMSU has now recognized the need to index fees to the rate of inflation to maintain the buying power, and;

WHEREAS the UMFM 101.5 fee has never been increased since its inception in 1996 and as such has a buying power of 72 cents on the dollar and;

WHEREAS this decrease in buying power has reduced the services that UMFM has been able to offer to students and the university community as a whole and has placed the station in a situation of imminent infrastructure failure

BE IT RESOLVED that UMSU Council restore the UMFM fee to its original equivalent value of $3.61 per term and;

BE IT FURTHER RESOLVED that this rate be indexed to the Canadian CPI to maintain UMFM’s buying power for years to come

Action Requested: ☒ Approval ☐ Discussion/Advice ☐ Information

CONTEXT AND BACKGROUND:

The Distinguished Professor Selection Committee has discussed recent changes in the composition of the faculty of universities due to the end of mandatory retirement and the trend toward working later in life. The Committee recommends that the University acknowledge the greater proportion of senior faculty members by increasing the number of professors allowed to hold the title.
