We are seeking a highly motivated Postdoctoral Research Fellow (PDF) (initially for one year, with a possible extension up to four years) with exceptional academic standing to study the socio-economic impacts in the event of oil spills in ice infested waters due to Arctic shipping. Under the supervision of the Director of the Transport Institute of the Asper School of Business of the University of Manitoba, Winnipeg, MB, Canada (UMTI), you will be working as part of an internationally renowned team of researchers as part of a recently funded four-year Genome Canada large scale project, entitled “GENICE: Microbial Genomics for Oil Spill Preparedness in Canada’s Arctic Marine Environment”. In addition, you will be working in other selected projects and activities conducted by the Director, staff, and/or students of UMTI.

Applicants must have a PhD and extensive research experience one or more of the following areas: economics and econometrics, geography, environmental studies, transportation, management science, engineering, and/or other social sciences. Competency and experience on the development and application of quantitative research techniques is essential. Experience in research related to the Arctic and/or socio-economic impacts will be an asset.

The successful candidate will be working at the UMTI (umti.ca), a world-renowned research institute in transportation and logistics. With a history of more than 30 years, UMTI actively undertakes outstanding collaborative scholarly research and publications, facilitate the transfer of knowledge to the professional communities, and train students to become competent scholars in transportation and logistics.

**Diversity and Immigration Statement**

The University of Manitoba is strongly committed to equity and diversity within its community and especially welcomes applications from women, members of racialized communities, Indigenous persons, persons with disabilities, persons of all sexual orientations, and genders, and others who may contribute to the further diversification of ideas. All qualified candidates are encouraged to apply; however, Canadian citizens and permanent residents will be given priority.

**FIPPA Statement**

Application materials, including letters of reference, will be handled in accordance with the protection of privacy provision of The Freedom of Information and Protection of Privacy (Manitoba). Please note that curriculum vitae may be provided to participating members of the search process.

Salary is commensurate with experience and includes a benefits package. All interested applicants should e-mail: 1) a cover letter explaining their research interests and previous research experience, 2) their curriculum vitae, 3) transcripts, and 4) the names and contact information of at least two references to: umti@umanitoba.ca on or before June 30, 2017 (Fri). Please ensure you note “Postdoctoral Research Fellow Advertisement” on the subject line.
