1. Program costs are calculated by multiplying the average cost per credit hour in a given faculty by the number of credit hours required to attain a degree.
The number of credit hours that are required for a degree are taken from the General Calendar.
2. The cost for programs in the Faculties of Dentistry and Medicine are calculated by multiplying the cost per standard student by the number of years required to attain a degree.
3. The Diploma program in Dental Hygiene is a two-year program but requires a qualifying year in the Faculties of Arts or Science. These costs reflect the two-year component.
4. Due to the diversity of degrees available through the Clayton H. Riddell Faculty of Environment, Earth, and Resources, these program costs are an approximation based on 90 credit hours for a three-year degree and 120 credit hours for a four-year degree.
5. A new method of allocating expenditures from Physical Plant was employed which resulted in a 10% decrease in program costs for 2007-2008.
6. The Faculty of Music changed its name to the Marcel A. Desautels Faculty of Music in 2008.
