Nursing		21,646		63,017			
Pharmacy				112,696			
Science			28,311		37,748	37,748	
Social Work		42,903	55,416				

1. Program costs are calculated by multiplying the average cost per credit hour in a given faculty by the number of credit hours required to attain a degree.  
The number of credit hours that are required for a degree are taken from the General Calendar.
2. The cost for programs in the Faculties of Dentistry and Medicine are calculated by multiplying the cost per standard student by the number of years required to attain a degree.
3. The Diploma program in Dental Hygiene is a two-year program but requires a qualifying year in the Faculties of Arts or Science. These costs reflect the two-year component.
4. As of 2008-2009 the discontinued Integrated Bachelor of Education/Human Ecology program had zero enrolment and as such has been deleted from this table.
5. Due to the diversity of degrees available through the Clayton H. Riddell Faculty of Environment, Earth, and Resources, these program costs are an approximation based on 90 credit hours for a three-year degree and 120 credit hours for a four-year degree.
6. A new method of allocating expenditures from Physical Plant was employed which resulted in a 10% decrease in program costs for 2007-2008.
