

Horse Production and Management

Non-Credit Course

Offered by the Department of Animal Science, University of Manitoba

Date: 10 Mondays from January 10, 2011, to March 21, 2011, from 6:00-9:00 p.m.

Location: 219 Animal Science/Entomology Building
Fort Garry Campus
University of Manitoba

Fee: \$175

The bond between horse and mankind is centuries old. Discover how to enhance this bond by gaining a well-rounded knowledge of the equine species. Learn techniques of horse mastership that will allow you to provide quality care for your equine partner.

This series of lectures will deal with the principles of horse production and management including anatomy and physiology, genetics, selection and breeding, reproductive management, nutrition, stable and pasture management, health and welfare, and equine behaviour. Guest speakers and farm tour included.

Registration: Limited enrollment. Registrants should come to the first meeting of the class unless notified otherwise. Written requests for withdrawals involving tuition refund (subject to a \$10 administration fee) will be accepted before the SECOND meeting of the class. No refunds will be made after that date. The university reserves the right to cancel any course and refund full fee and to reschedule classes cancelled due to unavoidable circumstances.
