

VEGETATION MANAGEMENT

Vegetation Management Technician/Crew Leaders

Ace Vegetation Service is recruiting herbicide applicators to fill over 40 positions for the summer of 2012. This is a superb and challenging opportunity for innovative individuals interested in *variety, travel, the energy and forestry industries and earning a very good income*. There are advancement opportunities throughout the summer as well as from year to year. Ace's extensive training program will bring the applicator up to date on safety, provide pesticide applicator license training and give the employee a complete background in all aspects of the work, including environmental decision making and application procedures.

As a Vegetation Management Technician you will be applying herbicides to manage brush and noxious weeds on various facilities for the Oil and Gas Companies, Counties, Parks, etc., using backpacks, off-road ATV units, 1 ton trucks and/or heavy equipment. Most of our work is out of town, so you will be staying in hotels, paid for by Ace and you will also receive a meal allowance. Overtime will be paid at time and a half.

Your Responsibilities:

Quality customer contact/public relations
Environmentally responsible decision making
Herbicide application and weed management
Record keeping
Inventory/equipment management

Qualifications:

Must be 18 years of age or older.

We are looking for professional, motivated individuals with strong written and verbal communication skills. You should be in good health, bondable and energetic.

Applicants must be flexible to work long hours, out of doors within a team environment (typically a 2 or 3 person crew).

A valid class 5 driver's license is required and the ability to operate vehicles with a manual transmission is an asset and a class 1 or 3 license is a definite asset. Driver's abstract is required.

A background in plant science, agriculture or forestry is beneficial, but not a requirement.

Preference will be given to applicants with a current Alberta, B.C. or Saskatchewan pesticide license.

Schedule

- Apr 30 to May 15 Training program, Safety review and licensing
- May to August: Following the training program work will commence on projects throughout Western Canada and continue through to August 31.

There are additional projects available in the early spring and late fall for individuals available during these periods.

Application Deadline: February 28th, 2012

Interviews: To be advised

Send Resumes to: FAX: 1-877-955-9426 or Email: acemail@acevegetation.com

If you are hard working, willing to work long hours and be rewarded accordingly as well as adding experience to your resume and improving your skill set, then please submit your resume to Ace.

We look forward to meeting you.
