

Student Employment Opportunity

Summer Student - U of M, Ian N. Morrison Research Farm, (Carman) (2 Positions)

Employer: The University of Manitoba, Department of Plant Science

Location: U of M, Ian N. Morrison Research Farm, Carman, Manitoba

Term: Summer 2012 (approximately 4 months)

Qualifications:

Full-time degree or diploma students, with a valid driver's license

Position: Successful applicants will assist in crop production, field research, and maintenance of equipment and facilities of, The University of Manitoba, Ian N. Morrison Research Farm, located at Carman, Manitoba. The research station is 406 acres in size and includes a 10,000 ft² research and continuing education facility. There are over 1000 visitors to the research station each summer. This position provides an excellent opportunity for motivated students with a desire to enhance their farming, agronomy research and field scouting experience. Farm and tractor operation experience is an asset. Additional training provided as required.

Duties: This includes assisting in land preparation, tillage, packaging of seed, staking, calibration of seed equipment and sprayers, seeding, spraying, soil sampling, fertilizer application, crop scouting, computerized data entry, mowing, harvesting of crops, maintenance of equipment, hosting of farm tours and other activities as directed.
