

## Summer Student Research & Field Assistant Positions

The Canada-Manitoba Crop Diversification Centre (CMCDC) will be seeking multiple summer students to assist in field research operations for April 30 – August 31, 2012.

Positions at Carberry, Portage la Prairie and Winkler.

CMCDC conducts research on crop diversification, irrigated crop production and potato production. Students will provide assistance with all aspects of agricultural crop field research, technology transfer and centre maintenance.

Employment will be with Agriculture and Agri-Food Canada through the Co-operative Education and Internship Program or the Federal Student Work Experience Program (FSWEP).

Working for Agriculture and Agri-Food Canada through the FSWEP or Co-op/Internship programs may lead to temporary or permanent positions within the federal government after graduation through student bridging mechanisms.

Job advertisements and instructions on how to apply will be posted in **February 2012**. For further information contact Alison Nelson: (204) 834-6016; [alison.nelson@agr.gc.ca](mailto:alison.nelson@agr.gc.ca).

Dead line for applications: 2 April 2012
