Notes:

1. CHEM 2100 (Organic Chemistry 1: Foundations of Organic Chemistry) can be substituted for CHEM 1130 (Introduction to Organic Chemistry).
2. Students selecting BIOL 1020 and BIOL 1030 are not required to complete BIOL 1410. If BIOL 1020 and BIOL 1030 are taken, BIOL 1412 will be used towards free electives, reducing the total credit hours of free electives required from 24 to 21. Under required courses, students must take BIOL 1412 (Physiology of the Human Body) or students can substitute both BIOL 1410 and BIOL 1412 with both BIOL 2410 (Human Physiology 1) and BIOL 2420 (Human Physiology 2).
3. STAT 2000 (Basic Statistical Analysis 2) can be substituted for AGRI 2400 (Experimental Methods in Agricultural and Food Sciences).
4. Under required courses, students can take either CHEM 2730/MBIO 2730 (Elements of Biochemistry 1) or CHEM 2700/MBIO 2700 (Biochemistry I: Biomolecules and an Introduction to Metabolic Energy).
5. Under required courses, students can take either CHEM 2740 (Introduction to the Biochemistry Laboratory) or CHEM 2720 (Principles and Practices of the Modern Biochemistry Laboratory).
6. Under required courses, students can take either CHEM 2750/MBIO 2750 (Elements of Biochemistry
2) or CHEM 2710/MBIO 2710 (Biochemistry 2: Catabolism, Synthesis, and Information Pathways).
7. There are 24 credit hours of Free Electives required in the Food Option. If both SOC 1000 and BIOL 1410 are taken, then there are 24 credit hours of Free Electives required. If one of the 6 credit hours options are taken (PSYC 1200 or BIOL 1020 and BIOL 1030) then there are 21 credit hours required. If both BIOL 1020 and BIOL 1030 with PSYC 1200 are taken, there are 18 credit hours of Free Electives required.
Students may apply for the Cooperative Education Program. Two work terms are required to graduate with Co-op designation. Co-op courses (3 credit hours each) are used towards Free Electives.
8. Program Electives - can be from either the Asper School of Business (any level), OR any 3000 or 4000 level FOOD (Food Science) courses (note some FOOD courses are co-taught with HNSC courses).
Students must have the correct pre-requisites for the Program Elective and need to plan accordingly.
*These courses are usually offered every 2 nd year - planning ahead is important.
