### Note\*

- Each term there will be a series of topic courses offered as electives. Instructor presentations will take place on **Sept.8th** & in November (TBC) and handled similar to the studio selection process. Registration will take place after this process.
- During the two year program, **a minimum** of two technology topics and two research topics courses are required.
- Students may take up to six credits of 3000 level or higher electives from all departments within the Faculty as well as other approved University courses. Approval is through the graduate student advisor in consultation with the department head.

For registration questions or problems check with the contacts on the welcome letter email.

*\*Schedule subject to change up to and including the first week of classes.*
