

### **Dawn Nedohin-Macek, P. Eng, FEC, SMIEEE**

Dawn Nedohin-Macek has been with Manitoba Hydro since completing her engineering degree 20 years ago. After being hired as an Engineer in Training, Dawn moved around the corporation in different departments with different roles.

Dawn has recently become the Telecommunications Department Manager within Manitoba Hydro, The

Telecommunications Department is responsible for the integrated planning, design, procurement, installation, maintenance and operations of telecommunications systems supporting power system protection, control and operations, and general administrative and business operations across the province. Reliable, secure and cost-effective services are delivered through an extensive infrastructure consisting of various technologies including fiber optics, microwave, industrial data network, power line carrier, mobile radio, and telephone and video-conferencing systems.

Dawn has been an instructor for the Manitoba Hydro Leadership From Within course offered to those showing leadership potential, and focuses her teaching on servant leadership.

Dawn graduated from the University of Manitoba with Bachelors degree in Computer Engineering and was active in Institute of Electrical and Electronics Engineers (IEEE) as an undergrad and as a Professional Engineer. Dawn is a Past President of Engineers Geoscientists Manitoba and is the past Chair of the Board of the Alumni Association of the University of Manitoba. Dawn currently serves on the Board of Directors as the Director from Manitoba on Engineers Canada.

Dawn is a Fellow of Engineers Canada and a Senior Member of IEEE.
