If you are buying the whole book, you do not need to buy the two chapters. When you buy the book, please ensure buying it with the access key for MyLab Finance as buying the two separately would cost more than the new book with key included. The professor recommends getting the hard-copy of the textbook that comes with the access key (from the U of M bookstore), the access key with e-book via the MyLab site is an alternative (but the e-book is more difficult to navigate).</p>
