Instructors: How to install iClicker Cloud 5.0, create account and courses
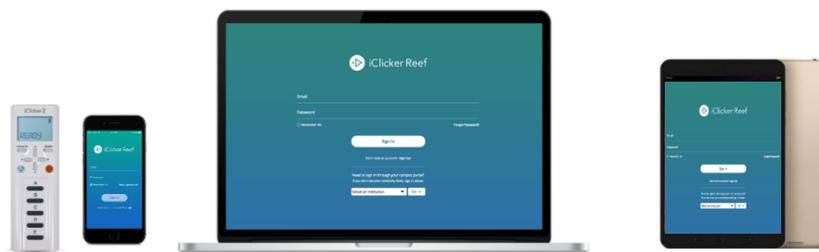

NOTE: iClicker Cloud 5.0 is a new version of iClicker Cloud 4.6. All users will need to download the full version of 5.0 (even if you have already installed iClicker Cloud 4.6 or the Beta version of 5.0). Make sure to remove your old version from your desktop and start using the new version.

iClicker Cloud 5.0 is a required update for Fall 2019 courses. Instructors will have until mid-August to make the switch. In the meantime, instructors can continue using iClicker Cloud 4.6 for summer courses.

Students are not required to upgrade iClicker Reef to participate in the classroom.

Instructors: How to install iClicker Cloud 5.0, create account and courses

Students can participate in class using the iClicker Reef app. Students can also use iClicker Reef app on a smartphone, tablet, laptop, iClicker remote. **The iClicker reef app is used by students to participate in the classroom while iClicker Cloud application is used by instructors to create courses and poll questions.**

Follow the instructions to upgrade or install iClicker Cloud application.

1. Uninstall iClicker Cloud 4.6 from your computer (if applicable). You must have administrator rights on your computer to complete this step and to install a new version of iClicker Cloud. *This step is optional and you can keep both versions until Fall 2019.*

2. Go to https://www.iclicker.com/ and click "Downloads".
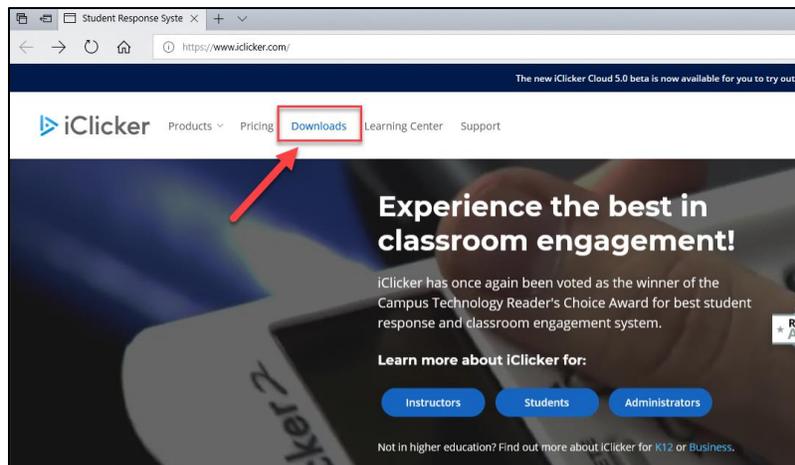

3. Select iClicker Cloud and click Download Options. Next, you have to choose your operational system, Windows or Mac.*iClicker Cloud 5.0 requires Windows 7 or newer with .NET 4.5 or higher or Mac OSX Yosemite (10.10.5) or newer.*
