Program: Centre on Aging Speaker Series: Webinar

Duration: 1 hour

Description: This webinar and discussion session will attempt to frame out the various factors contributing to the abuse and neglect of older people in Canadian long term care, which has been brought into full light by the COVID-19 pandemic. Factors discussed will include cross-Canada COVID-19 data in relation to older people and long term care facilities, regulation and allocation of health care resources, recent military report findings, definitions of elder abuse, the dangers of isolation and the human rights context. It is hoped that the webinar will further serve as an informal meeting place for those interested in elder care reform and the realization of integrated, intergenerational, age-friendly communities.
