Join us for the Centre on Aging's Research in Aging Workshop Series, *The A-B-C's of presenting and designing research posters*. If you're new to creating poster presentations, this is the session for you. The workshop will cover what goes in a research poster, how to design one, and how to handle the oral presentation component. This is a helpful session if you plan to have a poster in the Centre on Aging's Annual Spring Research Symposium and other upcoming conferences. Centre on Aging staff, Nicole Dunn (Associate Director) and Rachel Ines (Administration and Communications Coordinator) will walk you through everything you need to know to prepare for a research poster presentation. Aneet Saran will provide the student perspective by sharing her experience of presenting a poster at a conference.
