SCIENCE AND POLICY: LAKE WINNIPEG WATERSHED

Thursday, April 17, 2014 - 7:00 PM

LOCATION: McNally Robinson Atrium, Grant Park Mall, 1120 Grant Ave

WITH: Hon. Gord Mackintosh (Minister of Conservation and Water Stewardship), Norm Brandson and Terry Duguid (co-authors of Restoring the Health of Lake Winnipeg, a Report by the Lake Winnipeg Implementation Committee)

Moderated by Paul Vogt (Executive-in-Residence, MIPR)

An issue central to the future of Manitoba is the health and vitality of Lake Winnipeg and its watershed. It is an issue that will remain on the Manitoba policy agenda for years to come. We must ask what is happening to Lake Winnipeg and what we can do about it. This evening's discussion will focus on what the science is telling us and what options we have moving forward.

The Manitoba Institute for Policy Research is based in the department of Political Studies in the Faculty of Arts at the University of Manitoba. The Institute serves as a hub for academic analysis, public policy discourse, and outreach. By engaging Manitobans and increasing access to policy experts in our community through the *Citizen Series*, MIPR hopes to enhance the quality of public discourse in the province.

Free event, all are welcome
