THURSDAY, JANUARY 23, 2013 - 7:00PM

With Dr. Sarah Hannan, Ainsley Krone and  
Monique St. Germain | Moderated by Dr. Steven Lecce

The protection of children is not just important, but an absolute priority for the well-being of our society. With the rapid changes in technology, we see increases in issues related to child protection and technology. The challenges of cyber bullying and its negative impacts are just one example facing policy makers, implementers, and parents. Please join us as we discuss some of the key ideas surrounding child protection and technology in the 21st century

**The Manitoba Institute for Policy Research** is based in the department of Political Studies in the Faculty of Arts at the University of Manitoba. The Institute serves as a hub for academic analysis, public policy discourse, and outreach. By engaging Manitobans and increasing access to policy experts in our community through the *Citizen Series*, the MIPR hopes to enhance the quality of public discourse in the province.
