CANADA'S ROLE IN INTERNATIONAL CLIMATE CHANGE

Thursday, June 12, 2014 – 7:00 PM

LOCATION: McNally Robinson Atrium, Grant Park Mall, 1120 Grant Ave. **WITH:** Mark Hudson (Department of Sociology, University of Manitoba) and Jo-Ellen Parry (Deputy Director, Climate Change and Energy, International Institute for Sustainable Development) | Moderated by Mary Agnes Welch (Public Policy Reporter, Winnipeg Free Press)

With the recent release of the Intergovernmental Panel on Climate Change's Fifth Assessment Report, the impacts of and solutions to climate change in the international community is moving to the forefront of international policy debate. What role does Canada have in mitigating the effects of climate change? What opportunities do we, as a country, have to make a positive impact on the international stage and what are the risks of inaction to national and international interests? Join us on June 12th for our last Café Politique of the 2013-2014 season.

The Manitoba Institute for Policy Research is based in the department of Political Studies in the Faculty of Arts at the University of Manitoba. The Institute serves as a hub for academic analysis, public policy discourse, and outreach. By engaging Manitobans and increasing access to policy experts in our community through the *Citizen Series*, MIPR hopes to enhance the quality of public discourse in the province.

Free event, all are welcome

RSVP at: www.mipr-june-cp.eventbrite.ca
