## **Saving Lake Winnipeg**

Thursday, March 27, 2014 - 6:00 PM

LOCATION: Winnipeg FreePress News Café, 237 McDermot Ave

**SPEAKERS:** Norm Brandson (former Deputy Minister of the Department of Conservation and Water Stewardship), Dr. Alexis Kanu (Executive Director, Lake Winnipeg Foundation) and Dr. Henry David Venema (VP Business Development, International Institute for Sustainable Development)

Lake Winnipeg has been recognized by the Global Nature Fund as one of the most threatened lakes in the world. A multitude of environmental hazards put the lake at risk, leaving Manitobans with many questions: Where is the excess phosphorus in the lake coming from and how can it be reduced? What are the dangers of having large areas of water covered in algae? What can be done to restore the health of the lake? Join us as Norm Brandson, Dr. Alexis Kanu and Dr. Henry David Venema address these issues and examine the challenges going forward.

The **Manitoba Institute for Policy Research** in based in the department of Political Studies in the Faculty of Arts at the University of Manitoba. The institute furthers debates and discussions on matters of public policy, administration, and governance both in Manitoba and across the country. By engaging Manitobans and increasing access to policy experts in our community through the *Citizen Series*, the MIPR hopes to enhance the quality of public discourse in the province.

\$10 buys you Pizza and a Pint. The Policy is free.
