

E. H. Price – Gold Sponsor

Price is the leading manufacturer of HVAC equipment in North America. Our factories use the latest state-of-the-art technology to research and produce the best HVAC products in the business.

The Price organization, founded in 1946, was first established as a sales company. Our manufacturing endeavors arose from our belief that we could supply superior products and services at a competitive price. Customer service has always been a vital priority.

The founding principles of the company have never changed - business integrity, first class service and a commitment to people. Our dependable quality, reliable delivery and knowledgeable follow-up service have made Price a market leader in air distribution products and related equipment.

At Price, we first began developing products 40 years ago in our first laboratory. Since then our laboratory has expanded and evolved into Price Research Center North (PRCN), located in Winnipeg, Manitoba.

Manufacturing facilities in Canada and the USA, as well as a distribution network encompassing Canada, USA, selected European, Middle East and Asia Pacific countries attest to the ever expanding horizons of Price.

Whatever the size of your project, whatever the complexity, Price has the quality designed product, resources, technology and tools to make your next project a success.

Manitoba Hydro – Silver Sponsor

Manitoba Hydro is a provincial crown corporation, providing electricity to over 357,000 customers throughout Manitoba and natural gas to more than 265,000 customers in various communities. The utility also exports and imports electricity through three wholesale markets in Canada and the midwestern United States.

Manitoba Hydro has over 6,200 staff across Manitoba, making it one of the province's largest employers. With capital assets-in-service at original cost approaching \$13 billion, the corporation is one of the largest integrated electricity and natural gas utilities in Canada.

Recognized within the industry for its high level of customer service and reliability, Manitoba Hydro is also a leader in energy efficiency. The utility aggressively promotes energy conservation through a multitude of residential, commercial, and industrial Power Smart* programs. Manitoba Hydro is also well known for its environmental practices, positive relationships with First Nations, and support of communities and charitable organizations throughout the province.

Manitoba Hydro is governed by The Manitoba Hydro-Electric Board, whose members are appointed by the Lieutenant-Governor in Council.
