

JOB TITLE: **New Graduate / Architectural Intern [3-4 positions]**  
POSITION DURATION: **9 months** [with potential to lead to a permanent position], **full time**  
LOCATION: **266 McDermot Ave, Winnipeg**  
SALARY: **Compensation commensurate with experience**  
START DATE: **August 2019**

### POSITION OVERVIEW

5468796 is looking for an artistically talented architectural intern for a full-time position in a fun and inspiring environment. Our office is full of passionate people and the project scales and types vary widely, but challenging the status quo, experimenting with new ideas and delivering exceptional outcomes regardless of the project scale or budget is always our goal. The position is suited for a team-minded, new graduate [M.Arch or B.Env.D] or an architectural intern.

### COMPANY DESCRIPTION

5468796 Architecture Inc. is a Winnipeg-based studio established in 2007. Working around a single table, the practice unites the diverse knowledge and experience of 22 professionals. Together, 5468796 believes that every client, user, and civic environment – regardless of budget – deserves an outcome that advances architecture. In the past eleven years, the firm has achieved numerous design awards and recognitions, both nationally and internationally. The firm’s work has been published in over 150 books and publications and a Houston-based Rice Design Alliance recently stated that they ‘truly believe 5468796 to be one of the most talented young design firms worldwide.’

5468796 makes design advocacy an ongoing pursuit through critical practice, professorships at the Universities of Manitoba, Toronto, Montreal; and through numerous public engagements. In 2012, 5468796 represented Canada at the Venice Biennale in Architecture [along with Jae Sung Chon] and in 2013 they were selected as the recipient of the 2013 Prix de Rome Award in Architecture for Canada by the Canada Council for the Arts. Locally the firm is best known for the notorious Old Market Square ‘CUBE’, the Avenue on Portage and the nearly completed 62M condominiums, dubbed as the ‘flying saucer’ at the foot of the Disraeli Bridge. Most recently, the firm’s founders have been appointed as Morgenstern Visiting Professors for the 2019 winter term at the Illinois Institute of Technology in Chicago.

In addition to practice, 546’ers are design activists and advocates. They are passionate about making architecture an integral part of the broader culture by spearheading non-profit initiatives like Table for 12 + 1200, Chair Your Idea or the Winnipeg Design District.

## RESPONSIBILITIES

The successful candidate is expected to work as a team member in an assisting role directly under a project architect or a Principal on a variety of project types and scales from project conception to completion, including schematic design, design development, construction documents phase, tender, and construction administration phases. The candidate would also be expected to provide expertise in visualization of various projects and design elements and therefore **proficient skill in 3D modelling and rendering software is a must**. The position will also include scale model-, construction document-, and presentation materials production.

## QUALIFICATIONS

- M. Arch or Bachelors degree in architecture or closely related design field.
- Work experience in an architectural practice is an asset but not a requirement.
- Expertise in 3D modelling + rendering: Sketchup, Rhino, V-ray, etc
- Proficiency in any CAD program (knowledge of Vectorworks is considered an asset), Photoshop, InDesign, Pages, Numbers.
- Design talent, ability to communicate + diagram key concepts
- Good organizational + clear communication skills, verbally, in writing, graphically, and in drawing format
- Team-minded with a go-getter attitude, ability to roll with the punches and get things done
- Interest in design culture and the larger purpose of architecture
- Ability to self-edit and receive constructive critique

5468796 is an innovative, fast growing practice in a unique niche market. Our future looks very bright, and so could yours... it's inspiring around here! We've also work hard to build a workplace where people feel like part of a family. If you share our values, we'd love to talk.

*If you qualify for this position, we encourage you to apply by submitting a cover letter and a resume to [johanna@5468796.ca](mailto:johanna@5468796.ca) and a link to your portfolio.*
