Microeconomics studies how rational people makes choices in the face of scarcity and how markets coordinate these choices. We study how markets work to promote economic efficiency, and why markets sometimes fail. We explore the behaviour of consumers and producers in the market, and explain how interference in the market can lower economic surplus. Critical to the study of microeconomics is the role played by incentives. We will study how rational agents respond to incentives. The module will consider the appropriate role for government in the economy, the importance of competition in the market, and the behaviour of markets that exchange factors of production like labour. The aim throughout will be to introduce students to the “economic way of thinking”.

Academic Integrity

Academic Integrity University policy on academic integrity will be enforced. A full description of academic integrity matters, including plagiarism and cheating, can be found in Section 8 of the General Academic Regulations and Requirements of the University of Manitoba. Ignorance of the regulations and policies regarding academic integrity is not a valid excuse for violating them.

Penalties for Academic Dishonesty

The minimum penalty for plagiarism on a written assignment is F on the paper and may result in a grade of F-DISC (discipline) for the course. This notation appears on the student's transcript. For the most serious acts of plagiarism, such as the purchase of an essay and repeat violations, this penalty can also include suspension from the Faculty of Arts for a period of up to one year. The Faculty also reserves the right to submit student work that is suspected of being plagiarized to Internet sites designed to detect plagiarism. The minimum penalty in Arts for academic dishonesty on a test or final examination is F for the test/examination and a grade of F-DISC for the course, plus a one-year suspension from the Faculty of Arts. The F grade and disciplinary notation appears on the student's transcript. For more serious acts of academic dishonesty on a test or examination, such as repeat violations, this penalty can also include suspension for a period of up to five years from the Faculty of Arts.

Additional Information

Writing and Learning Support

The Academic Learning Centre (ALC) offers services that may be helpful to you throughout ECON1010.. Through the ALC, you can meet with a learning specialist to discuss concerns such as time management, learning strategies, and test-taking strategies. The ALC also offers peer supported study groups called Supplemental Instruction (SI) for certain courses that students have typically found difficult. In these study groups, students have opportunities to ask questions, compare notes, discuss content, solve practice problems, and develop new study strategies in a group-learning format.

You can also meet one-to-one with a writing tutor who can give you feedback at any stage of the writing process, whether you are just beginning to work on a written assignment or already have a draft. If you are interested in meeting with a writing tutor, reserve your appointment two to three days in advance of the time you would like to meet.
