CAREERS
The study of languages and literatures provides training for a wide range of professions that require skills in communication, interpretation and research. A first-hand understanding of an area and fluency in one of its languages is often a necessity for careers in translation, journalism, politics, commerce or travel.

Our graduates have found jobs in the diplomatic field, media, publishing and editing, local heritage and cultural agencies, business, and bilingual education.

SUMMERS ABROAD in POLAND
The Department offers summer language seminars in Krakow (Poland). Students can take courses in the language, literature and culture that can be credited towards a degree. Travel award is available.
