NORTH KOREA & THE DANGER OF NUCLEAR WAR

Lecture by MICHEL CHOSSUDOVSKY

!!THE UM EVENT !!

We are at a dangerous crossroads. Miscalculation could lead to the unthinkable. What distinguishes the 1962 Cuban Missile Crisis from today’s crisis is that Kennedy and Khrushchev were acutely aware of the dangers of nuclear annihilation. Trump is not.

“Mistakes” often determine the course of world history.

Prof. Chossudovsky returns for the first time in over a decade to engage the people of Winnipeg and discuss what can be done to stop this war.

Michel Chossudovsky is an award-winning author, Professor of Economics (emeritus) at the University of Ottawa, Founder and Director of the Centre for Research on Globalization (CRG), Montreal, and Editor of Global Research. He is the author of eleven books. His writings have been published in more than twenty languages.

Monday
January 15
