IN THE CLINICAL TRAINING PROGRAM
WHO ARE ON INTERNSHIP
(PILOT/DRAFT VERSION)

Progress for the year running May 1, _________ to April 30, _________
(year) (year)

Student name (LAST, First):
Student number:
Current program and year (e.g., MA2):
Status: O Full-time O Part-time
Academic advisor:

INSTRUCTIONS: This self-assessment is intended to complement the annual FGS progress report that your advisor must submit to the Faculty of Graduate Studies before May 15th. You should complete this form on or before May 5th and be circulated to your advisor (or advisory committee) to help inform your FGS progress report evaluation. Your advisor will also bring this form to your annual clinical student evaluation meeting in May. MA and PhD students who are not yet on internship complete a detailed version of this self-assessment report. Because you are completing a full-time internship most aspects of that detailed assessment are not relevant to you. As a result, please use the space below to comment on progress you have made over the past year on your dissertation research. Also comment on noteworthy achievements in the past year with respect to: (a) non-thesis research, teaching, and honours/awards.

You are responsible for ensuring that your advisor submits the final copy of this form and the completed FGS progress report to the Psychology Graduate Office, on or before May 15th. Copies of both forms will be retained in our records; we recommend that you also keep copies.
