

MLEF (Margaret Laurence Endowment Fund) Student Internships

Each year, paid internships in various local feminist organizations are available for WGS students. In early September, information about and application forms for the internships available that year are circulated to all WGS students. Applications are due shortly thereafter, and all interested WGS students are encouraged to apply.

Internship positions are assigned in late September so that internships may begin in October.

Hourly wages are consistent across the internships, but hours vary between positions.
