You are receiving this message as a member of the Advisor – RO Network. Please distribute within your unit as necessary.

The following message was sent to Associate Deans on Wednesday, April 15.

The Registrar’s Office has been contacted by several units in which Skills, Clinics and Practicum components of the program have not been able to be completed in the Winter Term as planned due to COVID-19. In the event that a course with a practical component must be completed in a future term, students will be assigned a grade of CO (Continuing in Course) for the Winter Term portion of the course. Students will register again in a section of the same course in a future term. The final grade will be assigned to students in the term in which the course is completed. Note that students will not be assessed tuition for subsequent registrations in a course that has been graded CO. Below are messages that may be sent to instructors and students in your unit to whom this may apply.

Instructors

If students are not able to complete the requirements for Skills, Clinics, or Practicum courses in Winter Term 2020, instructors should assign the students a grade of CO in Aurora. CO is a placeholder indicating that the student is continuing in the course. The students will reregister in another section of the course in an upcoming Summer, Fall, or Winter term in order to complete the course. The final grade should be assigned in the term the student completes the course.

Students

If you are unable to complete the requirements for a Skills, Clinic, or Practicum course in Winter Term 2020 you will be assigned a grade of CO. CO is a placeholder indicating that you are continuing in the course. You will reregister to complete the course in an upcoming term (your faculty, college, or school will provide information when it is time to reregister).
