This award-winning film discusses Cosmetic use of Pesticides and the Precautionary Principle. It features Dr. Nicole Bruinsima, a family physician who campaigned against the use of pesticides in her community while she struggled with breast cancer.

Followed by a panel discussions with:

- **Brenda Rooney**, Film maker, Precautionary Principle: The Nicole Bruinsma Story
- **Dr. Michelle Dreidger**, Tier II Canada Research Chair in Environment and Health Risk Communication
- **Kristina Hunter**, Senior Instructor, Environmental Science and Studies, and Breast Cancer Survivor
