This webinar focuses on the Commissioner’s Fall 2013 report released in November, which covers:

- Meeting the Goals of the International Convention on Biological Diversity
- Conservation of Migratory Birds
- Protected Areas for Wildlife
- Funding Programs for Species at Risk
- Recovery Planning for Species at Risk
- Ecological Integrity in National Parks
- Federal and Departmental Sustainable Development Strategies
- Environmental Petitions

The Auditor General of Canada is the Commissioner of the Environment and Sustainable Development. He provides objective, independent analysis of the federal government role in fostering sustainable development.
