

Applied Health Sciences Poster Competition – Friday, March 5th, 2010

First Place - \$500

Ashley Stewart-Tufescu, Tamara Taillieu

(Stewart-Tufescu, A., Taillieu, T., & Piotrowski, C.C.)

Exploring trauma symptoms in siblings exposed to intimate partner violence

Second Place - \$250

Kristen Klassen, Kelly Andrushko

(Klassen, K., Andrushko, K., & Dziadekwich, R.)

Determining the important factors in retaining older workers: The 45+ survey

Third Place - \$100

Yijie (Jennifer) Chen

(Chen, Y. & Ready, A. E.)

Relationship of housing and neighbourhood characteristics to physical activity behaviours of community-dwelling older adults

Centre on Aging Award

Lucelia Luna de Melo

(de Melo, L., Segall, A., & Menec, V.)

The relationship between neighbourhood characteristics and walking

Participants

Hamideh Bayrampour

(Bayrampour, H., & Heaman, M.)

Comparison of demographic and obstetric characteristics of Canadian primiparous women at advanced maternal age to younger women

Cheryl Cusack

(Cusack, C., Hall, W., Scruby, L., & Wong, S.)

Public Health Nurses' (PHNs) perceptions of their role in early postpartum discharge

Miriam Gonzalez

(M. Gonzalez, J. Lemaire, J. Mignone, R. Hector, A. Loughead, J. Gervais, B. Hatherly, & B. Broszeit)

Evaluating the effectiveness of a school-based tobacco education program

Jill Hnatiuk

(Hnatiuk, J., Duhamel, T., Katz, A., & Ready, A.E.)

Investigating the role of a kinesiologist in primary care

Kristen Klassen

(Klassen, K., & Blais, C.)

Career exploration experiences for children with disabilities: An alternative model

Jacque Lemaire

(Lemaire, J., Shooshtari, S., Sevenhuysen, G., Cohen, B., & Martens, P.)

An evaluation of community health assessment in Manitoba through a health equity lens

Sheila McRae

(Mascarenhas, R., Lapner, P., **McRae, S.**, Leiter, J., & MacDonald, P.)

Arthroscopic rotator cuff repair with and without arthroscopic acromioplasty in the treatment of full-thickness rotator cuff tears

Sheila McRae

(McRae, S., Leiter, J., Walmsley, C., & MacDonald, P.)

Relationship between pre-operative self-reported shoulder function and pain and body-mass index in patients undergoing rotator cuff repair surgery

Joanne Parsons

(Parsons, J., & Porter, M.)

Does a predictable relationship exist between lower extremity neuromuscular strength and power and the biomechanics of a jump landing, and can those biomechanics be improved with appropriate training?

Pavithra Rajan

(Rajan, P., & Porter, M.)

Achievable ankle training velocities in older adults during different types of resistance training

Kayla Shuster

(Shuster, K. & Piotrowski, C.)

Examining the effects of job stress in policing and its impacts on intimate relationships

Juhi Sinha

(Sinha, J. & Porter, M.)

Reliability of range of motion measurement tools for the aging cervical spine

Tamara Taillieu

(Taillieu, T.L., & Piotrowski, C.)

Explaining the relationship between exposure to interparental conflict and negative child outcomes

Darolyn Walker

(Walker, D., Kozyrskji, A., Becker, A., McGavock, J., and the Great ICE Investigators)

The association between physical activity and arterial stiffness in youth

Lindsey Woodrow

(Woodrow, L.E., Sheppard, P., Gardiner, K., & Gardiner, P.F.)

The effect of exercise training on 5-HT_{2A} and 5-HT_{2C} receptor mRNA levels in rat lumbar motoneurons
