INTRODUCTION

Welcome! You have been admitted to one of the programs offered below:

Health Sciences or Health Studies

These programs provide undergraduate students with a professional degree. You will receive a strong foundation of courses in sciences, social sciences, and applied coursework in the programs. All students must complete the 120 credit hours specified in the Undergraduate Calendar http://crscalprod1.cc.umanitoba.ca/Catalog/ViewCatalog.aspx?pageid=viewcatalog&loaduseredits=False.

You have received this orientation package because you have indicated that you wish to register as a student for September 2017. It is your responsibility to carefully read and familiarize yourself with the material in this package. This information will provide you with an awareness of important university policies, the expectations of the degree programs, and an understanding of your program, course work, and timetable. Program information specific to your field of study is enclosed.

GETTING STARTED

- READ the relevant pages in the Undergraduate Calendar and the Program Requirements handout for information you need to know.
- In order to receive correspondence from the University, you must ensure any change of name, address, telephone number, and e-mail is completed on AURORA student.
- As a student, you are responsible for the policies, regulations, and practices that affect you. Be sure to monitor your own progress through your degree; use “Aurora Student” to keep track of your student records. Final completion of degree requirements is your responsibility.
- There are a number of people available to answer your questions as you complete your degree. As well, students receive a program update in the first term of year 3. Please review this report when you receive it and report any problems/concerns to an Academic Advisor.
- We use the University of Manitoba email account listed in Aurora to send information throughout the year regarding awards, courses, and other information important to students.

Information Session | Room 206, Human Ecology Building, 10:30 AM

Do you have questions about…

- Career options
- Student Council
- Academic Monthly Information
- The Programs
- VW deadlines
- anything else ???

An information session is planned for September 6, 2017 (the day before classes begin!). Please plan to attend and we will answer all your questions.
PROGRAM REQUIREMENTS

Each 120 credit hour program can be broken down into a set of courses required to graduate:

- Core Courses: HEAL 2600 (formerly HMEC 2030), HMEC 2000 (formerly HMEC 2050), and HMEC 3000 (formerly HMEC 3100).
- Required Courses: see the Program Requirements online.
- Program Electives: these are courses in your chosen program that are taken from your specific program. Most are your choice, but specific courses may be chosen for you depending on the program you have selected.
- Electives: most are your choice, but some are chosen for you by requirements in the IHP.
- Free Electives: these are courses offered by any faculty at The University of Manitoba

Prerequisites/Corequisites:

It is highly recommended that you review the Undergraduate Calendar to discover the prerequisites for higher level courses. As you begin to build your degree program, most higher level courses require the successful completion of lower level courses, called prerequisites. If a course is called a corequisite, it can be taken at the same time as, or completed before, registration in the higher level course.

Course Outline (also called a syllabus):

You will receive a course outline in each course you take. This provides the rules and requirements for that course. It is your responsibility to meet deadlines and course requirements.

Transfer Courses:

If you came from University 1 to the program, all required courses will automatically transfer into your program. Other courses are your choice. For all other programs, we will transfer in any courses that are not required with a “C” or higher unless otherwise specified by the student. Please let an Academic Advisor know if the courses you would like in your electives area are different than what was transferred into your program. The evaluation of courses from other universities may affect your ability to register in U of M courses, so please visit an Academic Advisor, email to make an appointment.

THE UNDERGRADUATE CALENDAR

- Academic Schedule: lists important dates
- Student Affairs: lists services provided
- General Academic Regulations and Policies: Also refer to the “What to do if…” hand out in the General Office, Fort Garry campus.
- The University of Manitoba Policy on the Responsibilities of Academic Staff with Regard to Students (ROASS)
- Student Discipline By-Law
- Sexual Harassment Policy
- Office of Student Advocacy
- Degree Program SECTION – provides program and course information, and regulations.

THE WEBSITE

umanitoba.ca/faculties/health_sciences/IHP.html

- Careers chosen by graduates
- Program requirements hand outs for each program: go to the program and click on the program requirements information button to print
- Info about transfer credits from other colleges / universities, and much much more!
REGISTRATION PROCEDURES

Registration for courses is done by using AURORA, the university’s registration system. The registration system is also used for:

- Course revisions (before the 2 week revision period ends each term)
- Voluntary withdrawals (before the VW deadline each term)
- Fee assessments (check this every time you make a change)
- Parking registration
- Obtaining final grades in your courses (grades are no longer mailed to students)
- Applying for graduation
- Go to Aurora Student (through umanitoba.ca) then select Enrolment and Academic Records
  > Registration > Registration Time & Status
- Academic History
- GPA – Note: Aurora only lists Cumulative GPA. You will have to contact an Advisor to find out your Degree GPA.

CHECKLIST FOR A SUCCESSFUL REGISTRATION

* Please note the timetable will not be available in print, all access is through the internet.*

Aurora Student allows you to:

- Access and update personal information
- Register for courses (check Aurora for your access date and time starting in July)
- Obtain your registration access time
- Obtain fee statements, grades, and more!

When you register or search for classes in the Course Catalog or Class Schedule, you'll need to search each Term to see complete course offerings. For example, if you want to see the courses available in September, select 'Fall 2017'. If you want to see the courses available in January, select 'Winter 2018'.

Majors, Minors and Concentrations
Declaration opens 4 weeks before registration opens for the effective term
Declaration closes at the end of the day that registration closes for the effective term

Searching the Course Catalog (course descriptions)
Class Schedule (course times and locations)
1. Select the Term you want to search
2. Select a Subject Area (and any other option you want to include in your search).

- Courses displayed in search results may include courses offered in Fall 2017 and Winter 2018.
- Only courses which are offered during the Term you selected will have an active web link to the Class Schedule. If you want to see courses in another Term, you'll need to perform another search using that Term.
- You must include a Subject in each search. A complete list of Subject areas, organized by faculty and department, are offered alphabetically on the Calendar main page.
- Only courses offered in the Term you selected will be displayed.

Hint: If you would like to search for courses in more than one subject at once, while searching the Course Catalog or the Class Schedule, press and hold the Control or Command key while selecting subjects you wish to include in your search.

If you encounter problems with access to the AURORA system on your initial registration day, please email the Academic Advisor’s office at Alisa.Claman@umanitoba.ca. Please include your full name, student number and faculty information.
WHAT’S NEW IN REGISTRATION

REGISTRATION ACCESS TIMES

• Registration begins mid-July to August; once your time starts you’ll continue to have access to the registration system for the remainder of the registration period. Registration access date/time will be available on Aurora in the second week of July.
• To find your date & time: Go to Aurora Student (U of M homepage at manitoba.ca) then select Enrolment and Academic Records > Registration > Registration Time & Status
• On this page you can also check to see if there are any holds that may prevent registration, that your program is listed correctly, and that your student status permits registration

COURSE REGISTRATION NUMBERS (CRN)

Instead of registering for courses using a course number and lecture/lab section, you’ll use the course’s CRN (Course Registration Number) listed online in the Class Schedule. The CRN is a 5 digit number ‘code number’ that corresponds to a given course and lecture section or lab and lab section.

LAB AND LECTURE SECTIONS

The Course Schedule will continue to identify the different times and locations of courses through the use of lecture and lab sections, but the difference is, you’ll use the CRN to register for courses. Labs are ‘B’ sections, and lecture sections are ‘A’ sections (e.g. A01). Be sure to register for both the lab and the lecture section to complete your registration. You MUST register for the lecture and the lab at the SAME time.

Note: for courses with more than one lab section, you’ll need to register using two CRNs; one for the lecture and one for the lab.

e.g. CRN Course Lecture or Lab
54321 MATH1500 A01 (Lecture)
51623 MATH1500 B01 (Lab)

RESERVED SECTIONS

Some courses will have reserved spots for students. You are only permitted to register in reserved sections until the registration system opens to all students in mid-August. Check the Undergraduate Calendar for dates.

Things to think about:

• Try to balance courses in both terms (have an equal number of courses in both terms)
• If you choose not to follow our recommended list of courses, it is helpful to select courses that will be prerequisites for higher level courses in your program
• SPANNED courses (6 cr. hours) –Take place in both fall and winter terms (Sept-Dec and Jan-April). When you register for the first half of a spanned course on the web (Part A), you will automatically be registered in the second half (Part B).

FIRST, plan and timetable your courses (see above instructions) or we will refer you back to those steps.

ABORIGINAL & INTERNATIONAL SERVICES

Aboriginal Student Centre - Open to all Aboriginal students
• Provide support and assistance for academic, cultural, financial, or personal needs including your transition to the university and/or the city, province, country
• Open from 8:30 a.m. to 4:30 p.m. - Drop in or make an appointment
International Centre for Students
• Offer Pre-Departure Information, Advising and referral on cultural adjustment, Immigration applications, leadership development, and volunteer English practice program

WHAT AN ACADEMIC ADVISOR CAN DO FOR YOU

• Provide guidance and direction throughout your program
• Answer specific questions regarding courses, programs, repeating courses, exam deferrals, important dates, voluntary withdrawals, registration etc.
• Offer suggestions for alternative resources such as Learning Assistance, English as a Second Language, Counselling services, etc.
• We are not career counsellors, more information can be found at the Career Resource Centre (474 UC).

To see the Advisor, please email to make an appointment. WE ARE HERE TO HELP YOU!
