Claudio Rigatto [B.Sc.Med./93, MD/93], FRCPC

Dr. Claudio Rigatto is an associate professor of internal medicine and head of the section of nephrology in the Max Rady College of Medicine, Rady Faculty of Health Sciences, University of Manitoba. He is a recognized expert in biomarkers and risk prediction in acute kidney injury and chronic kidney disease (CKD). His current research, funded by the Canadian Institutes of Health Research and the Natural Sciences and Engineering Research Council, is focused on developing novel point-of-care tests for early detection and risk prediction in CKD.

Dr. Rigatto has published more than 120 peer-reviewed articles, has presented at numerous national and international meetings, and is currently co-chair and scientific officer of the Kidney Foundation of Canada Biomedical Research Committee. As section head of nephrology and associate medical director of the Manitoba Renal Program, he co-leads a team of 26 academic nephrologists tasked with organizing renal care for Manitoba. He is experienced in translating novel research into clinical systems and practice.
