

Upper Extremity 2

Dr. J. E. Bruni, B.Sc., M.Sc., Ph.D., University of Manitoba

ACROSS

- 1 Shaft of a long bone
- 6 Muscles that act on the thumb
- 8 Nerve when injured produces wrist-drop
- 10 Vein formed by union of basilic and brachial veins
- 11 Trunk of brachial plexus formed by combined roots C5 and C6
- 13 Motion bringing thumb and little finger together
- 14 Muscles abducting fingers
- 17 Action of serratus anterior on scapula

- 20 Most mobile joint in the body
- 24 Wall of axilla formed by subscapularis, teres major and latissimus dorsi
- 26 Shoulder joint
- 28 Designation applied to hand upon distal lesion of ulnar nerve
- 29 Arm abductor
- 30 Lumbricals in each hand (number)
- 32 Nerve responsible for "saturday night palsy"
- 34 Muscles that act on the little finger
- 35 Boat-like wrist bone

- 38 Number of muscles in the anterior compartment of arm
- 39 "Crows beak" process of scapula
- 40 Bones of the digits
- 41 Nerve supplying muscles of anterior compartment of arm

DOWN

- 2 Movement describing ulnar deviation of hand at wrist
- 3 Largest bone of the upper extremity

- 4 Use commonly served by median cubital vein
- 5 Action of trapezius on scapula
- 7 Nerve supplying trapezius muscle
- 9 Continuation of axillary vein
- 12 Bones of the palm of hand
- 15 Membrane separating flexor from extensor compartments of arm
- 16 Armpit
- 18 Muscles attaching upper limb to trunk
- 19 "Bye-bye" muscles

- 21 Lateral rotation of hand so that the palm turns up
- 22 Muscles having opposed actions
- 23 Radiohumeral joint
- 25 Muscles holding humerus head in glenoid fossa (2 wds.)
- 27 Movement describing forward excursion of the arm in the sagittal plane
- 31 Muscles of posterior compartment of the arm
- 33 Radiocarpal joint (common name)
- 36 Bones of the wrist
- 37 Anterior surface of hand

WORD BANK: Accessory, adduction, antagonistic, apposition, axilla, axillary, basilic, carpal, clawhand, coracoid, deltoid, diaphysis, elbow, elevation, flexion, four, glenohumeral, humerus, hypothenar, interossei, interosseous, lumbricals, metacarpals, musculocutaneous, navicular, phalanges, posterior, protraction, radial, rhomboids, rotatorcuff, shoulder, supinate, thenar, three, triceps, ulnar, upper, venipuncture, volar, wrist.
