A s has been highlighted in earlier newsletters, the past year has been a busy time for recruitment of new faculty members; the Department has done well in this respect, particularly given the difficult financial climate. In previous newsletters, I have welcomed new full-time faculty members Dr. Christine Kelly, Dr. Andrew Hatala, and Dr. Nathan Nickel. In this newsletter, I would like to welcome Dr. Derek Kornelsen and Dr. Natalie Riediger, who have recently been appointed to contingent full-time faculty positions at Assistant Professor rank with the Manitoba First Nations Centre for Aboriginal Health Research (MFN CAHR). Natalie has been a Research Associate at MFN CAHR since July 2014. Her research interests include Indigenous health, community-based participatory research, community nutrition, diabetes, and cardiovascular and nutritional epidemiology. She has worked with the research team in Sandy Bay First Nation since 2009 and led a large, mixed method, nutrition study there to explore factors impacting nutritional status. Natalie began her new
From the Department Head, cont'd

appointment at MFN CAHR in February this year. Derek has been a Research Assistant at MFN CAHR since November 2014. His work aims at conceptualizing a mutually beneficial relationship between Indigenous and non-Indigenous peoples by comparing and contrasting Indigenous and Western conceptions of citizenship, or what it means to be part of a political community and belong to a particular place. At MFN CAHR he has worked to develop a research program exploring Indigenous peoples’ connections to land as a social determinant of cultural/social well-being and health. Derek also began his new appointment in February this year.

In addition, there are two new faculty members who have been recently recruited to tenure-track positions at the University of Manitoba in the context of external Canada Research Chairs (CRCs), and whose appointments are pending. One is Dr. Marcelo Urquia, Assistant Professor and proposed Canada Research Chair Tier 2 in applied public health, who will be based at the Manitoba Centre for Health Policy. Marcelo is currently a Research Scientist at the Centre for Research on Inner City Health, in the Li Ka Shing Knowledge Institute, St. Michael's Hospital, and Assistant Professor at the Dalla Lana School of Public Health, University of Toronto. He currently holds a CIHR New Investigator Award and has published widely in areas related to the social determinants of health, maternal and child health, reproductive and perinatal epidemiology, and immigrant and international health. Marcelo will move to Winnipeg and take up his position here in September 2016.

The other new CRC recruit is Dr. Michael Pickles, Assistant Professor and proposed Canada Research Chair Tier 2 in complex adaptive systems, based at the Centre for Global Public Health. Mike is currently a research fellow and mathematical modeller at Imperial College, London. He has been the lead modeller on a large project to assess the impact and cost-effectiveness of the Avahan HIV prevention programme in India, funded by the Bill & Melinda Gates Foundation: this was the first pre-planned use of mathematical modelling to evaluate a large-scale HIV prevention program. He subsequently has worked on the mathematical modelling of the impact of a number of large-scale HIV prevention trials in Africa. He is particularly interested in the epidemiological side of modelling – understanding the epidemiological context and using that knowledge to develop suitable models with the best-quality parameterization. Mike is expected to move to Winnipeg and take up his position here early in 2017.

Finally, as listed in the Announcements Section, Dr. Sharon Macdonald has retired from her full-time position in the Department and the University as of the 31st of March, although she will still be active in a part-time capacity. I would like to take this opportunity to personally thank Sharon for the support that she has provided to me in taking over the headship of the department from her in 2012 and on behalf of the department to thank her for the tremendous contributions that she has made over the past many years. In particular, her work in creatively shaping the community engagement portfolio of the department and in developing the Alan Klass Memorial Health Equity Program has left an enduring legacy that will be felt for years to come.

*Stephen Moses, MD, MPH*
*Head of the Department*
Announcements/Awards

The Department of Community Health Sciences congratulates the following faculty members on promotion effective 30 March 2016:

- Dr. Marni Brownell, promotion to Professor
- Dr. Malcolm Doupe, promotion to Associate Professor
- Dr. Depeng Jiang, promotion to Associate Professor
- Dr. Josee Lavoie, promotion to Professor

The Department of Community Health Sciences welcomes new department members:

- Dr. Derek Kornelsen, Assistant Professor, MFN CAHR
- Dr. Natalie Riediger, Assistant Professor, MFN CAHR
- Dr. Maya Jeyaraman, Assistant Professor (Part-Time, nil-salaried)
- Dr. Rasheda Rabbani, Assistant Professor (Part-Time, nil-salaried)
- Dr. Ian Whetter, Assistant Professor (Part-Time nil-salaried)

The Department bids farewell to Dr. Sharon Macdonald, who retired from her full-time GFT position in CHS on 31 March 2016 and has also stepped down as the Director, Community Development, Max Rady College of Medicine and Director, Alan Klass Memorial Health Equity Program, Rady Faculty of Health Sciences. The department gratefully acknowledges Dr. Macdonald’s continued support over the past years and extends best wishes in retirement years. Sharon has accepted a part-time (nil-salaried) appointment in CHS and will continue to be involved albeit in a reduced capacity.

The Department hosted a retirement reception on 11 March 2016 in honour of Drs. Joseph and Patricia Kaufert. Many out of town guests attended, including previous Department Heads, Drs. John O’Neil, and Kue Young. Greetings were received from well-wishers from across the country and from folks who were not able to attend in-person. Our appreciation to everyone who participated in the celebrations. Pat and Joe will continue to be involved in departmental activities as Senior Scholars.

Queen Elizabeth Scholarship Program
Are you a faculty member with collaborators in other commonwealth countries? Would you be interested in supervising a visiting graduate student for a semester? Or do you have a graduate student here at the U of M that would benefit from an international research placement with your collaborator?

OR

cont’d next page
Announcements/Awards, cont'd

Are you a graduate student interested in getting international research experience in a commonwealth country and expanding your academic networks?

The Queen Elizabeth II Diamond Jubilee Scholarship Program in global and Indigenous health provides $6000 scholarships for three to four month travel research placements.

The deadline for applications is the 15th of June 2016 for travel/research between Nov-March and application deadline 15 September 2016 for travel/research between April-Aug. Please visit our website for more information: [http://umanitoba.ca/centres/cahr/training/6016.html](http://umanitoba.ca/centres/cahr/training/6016.html) or contact QES@umanitoba.ca

The Department congratulates:

- Claudio Rigatto
- Jitender Sareen
- Navdeep Tangri

Sophie Buternowsky recently completed the Supervisory Excellent certification program.

Linda Diffey was awarded 1st place in the poster presentation category of the annual Applied Health Sciences PhD program Research Day. “Implementing Anti-Racist Pedagogy in Health Professional Education: A Realist Review.” Linda Diffey (AHS PhD student) & Javier Mignone (Advisor), April 12, 2016.

Linda Diffey was awarded a 3-year CIHR Doctoral Research Award. Supervisor: Javier Mignone. Project Title: Teaching Indigenous health using anti-racist pedagogy: Exploring the experiences of medical school instructors with the two-eyed seeing framework.

Alan Katz received the 2016 Manitoba College of Family Physicians Award of Excellence.

Murdoch Leeies, recipient of the CIHR Canada Graduate Scholarships-Masters (CGSM).

Dr. Caroline Piotrowski, University of Manitoba 2014 Merit Award for Excellence in Service

Dr. Noralou Roos was awarded one of only seven national research awards, the 2016 Partners in Research Biomedical Science Ambassador Award. The award is in recognition of Dr. Roos’ outstanding work in the field and her leadership in communicating across academic and policy sectors.
Community Engagement

CANU REACH

Over 100 grade 7 participants, Faculty of Health Sciences student volunteers, community and UM/CANU staff attended the year-end celebration on February 11th in the Joe Doupe Concourse. Guests heard from program participants and FHS volunteers about the valuable CANU experience. A couple of young participants indicated they would definitely be back to the campus as future FHS students!

The after-school program for grade 7 students from community schools convened at the Bannatyne campus over a 13-week period and involved various FHS student-led, health science sessions. Close to 100 student volunteers were eligible to receive co-curricular recognition for their participation in the program.

BASKETBALL FUNDRAISER

The 4th annual Staff vs Student fundraiser was held on March 24th in the Joe Doupe gymnasium, with Dr. Ira Ripstein tossing the ceremonial jump ball to start the game. All funds raised support the Basketball for Inner-City Kids (BBICK) and Summer Weekend Inner-City Supervised Hoops (SWISH) programs – two community initiatives that promote and support recreation for youth in the community.

Thank you to Zeenib Kohja (Med 1) and Sayoan Ratna (Med 2) who organized the event! They did a fabulous job of recruiting a roster of players for both teams with good representation from all FHS colleges. Pledges are still being collected and a final dollar amount will be announced shortly. Thank you to the following players who made this event successful:

Staff Roster
Dennis Bayomi, CHI and CHS
Henry Huang, CHRIM/Pediatrics
Dr. Mike Isaac, CHS
Dr. Grant Pierce, SBRC Exec Director & Physiology
Dr. Barb Shay, Head PT, CORS
Dr. Katinka Stecina, Physiology
Dave Waller, Dental IT
Dr. Grace Frankel, Pharmacy
Dr. Oliver Leslie
YunLai Liu, Anatomy
Andy Nguyen, CORS
Peng Zhou, Anatomy
Gurpreet Pabla, MCHP

Student Roster
Justin Tran (PT)
Chris Thiessen (PT)
Jonathan Przybyl (OT)
Danielle DeGagne (OT)
Niza Sinkala (Dentistry)
Neelan Sriranjan (Med 2)
Hayden Glor (Med 1)
Matthew Kochan (Med 1)
Phil Pries (Med 1)
Nick Miller (Med 2)
Bryan Wong (Dentistry)

COMMUNITY EVENTS

CHS supported the following community events
Community Engagement, cont'd
over the last few months:
• Freighthouse Girl’s Hockey team
• Nutrition Council’s Stone-Soup event and fundraiser for school nutrition programs
• North End Community Helpers Network – Volunteer Appreciation Dinner

The Faculty of Health Sciences 46th Annual Winnipeg School Division Science Fair on Wednesday, April 13.

Graduate Program

PhD Graduate:

John Kuwornu. “Using the Episode of Care Approach to Analyse Healthcare Use and Costs of Chronic Obstructive Pulmonary Disease Exacerbations”. Committee: Dr. L. Lix, Community Health Sciences (advisor); Dr. E. Forget, Community Health Sciences; Dr. G. Teare, Community Health Sciences; Dr. J. Quail, Community Health Sciences; Dr. S. Muthukumarana, Statistics; Dr. J. Hoch, Public Health Sciences, University of California (external)

MSc graduates:

Alina Cameron. “The Influence of Social Support in the Lives of People Living with HIV/AIDS in Winnipeg, Manitoba, Canada”. Committee: Dr. M. Becker, Community Health Sciences (advisor); Dr. J. Mignone, Community Health Sciences; Dr. L. Elliott, Community Health Sciences; Dr. M. Payne, Executive Director, Nine Circles Community Health Care, Winnipeg

Oksana Harasemiw. “The Relationship Between Social Isolation, Social Support, and Mental Health”. Committee: Dr. V. Menec, Community Health Sciences (advisor); Dr. S. Shooostari, Community Health Sciences; Dr. C. Mackenzie, Psychology

Sarah Turner. “Examining the Relationship Between Infant Feeding Practices and Child Hyperactive / Inattentive Behaviours in a Canadian Sample”. Dr. T. Afifi, Community Health Sciences (advisor); Dr. M. Brownell, Community Health Sciences; Dr. N. Nickel, Community Health Sciences; Dr. J. Theule, Psychology

MPH Graduates:

Abed Elallegy. “Manitoba Influenza Surveillance Weekly Report: “Measuring Evidence to Action”. Field Placement Supervisor: Dr. Carla Ens, Director of Epidemiology and Surveillance Department. Committee: Drs. R Tate; J. Kettner; B. Roussin; L. Elliott, Community Health Sciences.

Jasdeep Atwal. “Program Evaluation - Public Health Nursing Within Provincial Correctional Centers”. Field Placement Supervisor: Chris Ainley, Department of Corrections. Committee: Drs. R Tate; J. Kettner; B. Roussin; L. Elliott, Community Health Sciences.

Upcoming Executive Committee Meetings

8 June 2016, 10:00 a.m.
14 October 2016, 10:00 a.m.
9 December 2016, 10:00 a.m

Upcoming Departmental Council Meetings

*September 8, 2016, 10:00 a.m.
November 18, 2016, 10:00 a.m.

*followed by Pot Luck Lunch
Public Service

A lot of cake was eaten at goodbye "dos' last autumn - but we were up to the challenge. Not up to the challenge was saying goodbye to four workmates in such a short period of time. All had career opportunities present themselves out of the blue and, as Robin Williams suggested in the movie "Dead Poet's Society", they seized the day. Sad for us but exciting for them. We wish them all the best in their new roles.

Sylvia Sunstrum

Our ever cheerful HR Coordinator returned to the College of Dentistry in late July. Sylvia started at the NMU in January of 2006 making her way over from Dentistry. The NMU has always been a place of camaraderie, respect, and teamwork but when Sylvia started in 2006 she moved it up another notch. When she left a little piece of the NMU seemed to leave with her.

Kathy Harlos

In October of 2015, 25 years after being at the U of M, Kathy left the NMU for a position outside the University. Previous to coming to work with the NMU (August 2009) Kathy was the Office Manager at the Department of Medical Education. And previous to that she worked with the Family Medicine Residency Program.

Gitane Ouellet

When she first started with us she filled recently retired Michelle Vandenbroeck's position as Hospital Based Physician Co-ordinator and Physician Recruiter. Over the years her role expanded greatly. So much so that in early 2013 we had to hire a separate Hospital Based Physician Co-ordinator. Her new title became: Recruitment Officer for Physicians & Allied Health Professionals.

At her going away "do" Kathy mentioned that she never thought she would leave the University or the NMU; but out of the blue an opportunity presented itself; so with heavy hearts and tears in our eyes we bade her and her fabulous dill dip and chips goodbye.

Gitane started with us in July of 2013 as one of our Retinal Screening Nurses. She fit in like peas and carrots with everyone and we were sad to see her leave in September 2015. While Gitane was with us she worked diligently and obtained her Canadian Diabetes Educator Certification in June 2014. We wish her success with the WRHA as a Chronic Disease Management Clinician & Service Co-ordinator. She'll be awesome.
Section/NMU, cont'd

Tannyce Cook
Tannyce started with us in March 2014 and was with us until early October 2015. We wish her all the best and congratulate her on her new position as a Diabetes Co-ordinator with Interlake Tribal Council, Diabetes Co-ordinator. You'll do great.

Old Staff, New Positions

Hai Nguyen
Congratulations to Hai on his new position with us as the Operations Manager. Originally coming to us from the Dean's office, Hai started with us at the beginning of 2014 as our Finance Officer. Great work Hai.

Melissa Balness
Melissa has also changed hats. In January 2013 when she started at the NMU, after having worked eight years with Health Canada, her first hat was as our Hospital Based Physician Co-ordinator.

Later on in the fall 2013 she donned the hat of newly retired Jean Parry as the Executive Assistant to the Senior Director of the Section of First Nations, Métis, and Inuit Health, Melanie McKinnon and the Section Head, Dr. Marcia Anderson DeCoteau.

She is now wearing her HR hat as the Human Resources Co-ordinator. Congratulations Melissa on your new position and on completing the HR Certification Program.

Hellos

Jen Storm
Jen Storm is our new Recruitment Coordinator (Physicians and Allied Health). Before coming to the NMU she spent the past five years at Fort Garry Campus as an Indigenous Student Recruitment Officer. We are thrilled with her experience in community relations and recruitment. She, in turn is excited to use her skills in her new position and to become part of the welcoming community here on Bannatyne campus. Welcome Jen.

Anastasia Chmielowicz
Anastasia Chmielowicz is our new Diabetic Foot Care Nurse. Anastasia took Nursing at the University of Saint Boniface and completed her Bachelor of Science in Nursing by distance with University of Ottawa, graduating in 2013. For over three years she worked on an in-patient Internal Medicine Unit at Saint Boniface Hospital. There she saw a lot of patients with diverse medical conditions, including many dialysis patients. She is looking forward to working with everyone at the NMU and we are happy she is on our team. Welcome Anastasia.

Sonya Sharpe
Sonya Sharpe has ten years of nursing experience including working in Home Care as a Diabetes Educator and in the Diabetic Retinal Screening Program in the Northern Health Region. In 2010 she was on the Planning Committee to bring together representatives from western and central Provinces to a Retinal Screening Workshop hosted by the the NMU at the U of M's Bannatyne Campus. Sonya knows her ropes and hit the ground running. We are pleased to have her join us. Welcome Sonja.

Chander Requin
Chander came from CancerCare Manitoba where she worked for five years as an administrative assistant to five full-time physicians in the Department of Medical
Section/NMU, cont'd

Oncology and Hematology. Chander remarked that everyone here at the NMU has been so welcoming and she is looking forward to the new challenges that lie ahead of her. We are quite confident her knowledge, skills, and experience will be an asset to the Unit. Welcome Chander.

Elder Mary Wilson

Known to many as Grandmother Of Four Directions and She Who Walks With Wolves. Renowned in Canada and many parts of the world as a spiritual teacher, Spirit Walker, and Healer Mary's gentle presence has touched many lives over the past forty years helping people heal, emotionally, physically, and spiritually.

Mary has worked as an Elder at the Circle Of Life Thunderbird House co-creating programs with Elder Mary Richard. And served as an Elder and Spiritual Care person at Neeginan Emergency Centre (First Nations Homeless Shelter). While she was there, Mary created addiction therapy groups, a literacy program, and a safe place for individuals to lay down their pain.

Recently she provided support as Elder for the movie We were Children (Residential School survival) and also with the murdered and missing series Taken. She has been asked by the Province of Manitoba to support as Elder/Therapist for The 60's Scoop (stolen Aboriginal children). Frequently involved as a psychotherapist and interventionist she provides support to many as well as providing individual life coaching and healing.

Over the years she has worked in conjunction with medical specialists (psychiatrists and psychologists), family physicians, as well as social workers, teachers, and lawyers including Manitoba Justice.

As well as providing Elder Services to the staff and students of the Section, Mary is available to all faculty, staff, and students of the Faculty of Health Sciences. She is available for blessings, ceremonies, teachings, individual counselling/healing, and more.

Call 204-480-1318 for more information.

Wayne Chen

Wayne has had a few positions within Financial Services at both Fort Garry and Bannatyne Campuses within Research Accounting (2009-12) and Budget Accounting (2012-16). He obtained his Certified Management Accountant (CMA) designation in 2013 and has experience with financial reporting, budgeting, forecasting, and knowledge of university financial procedures. We are very happy to have Wayne on board.

Tracey Dowson

We welcomed Tracy at the beginning of March to the newly created position of Health Innovation Lead. Tracy has 20 years in health care. First as an OT and then 14 years working in mental health addictions at HSC rehab. She worked 3 years at Interlake - Eastern Regional Health Authority in primary care clinics within Aboriginal communities.

Tracey will be involved in program development. Welcome Tracey.

Trina McKellep

At the beginning of April we welcomed Trina to a new office assistant position. This position will support the Physician Leadership Committee and our Chiefs of Staff. The position will also include duties such as mail, faxes and answering the main phone line (happily no more automated system).

Trina was previously employed at The National Centre for Truth & Reconciliation at Fort Garry Campus.
Section/NMU, cont'd

Rankin Inlet Medical Rehabilitation

Jackie Bryan

Jaclynn (Jackie) Bryan came to Rankin Inlet, NU from Medicine Hat, AB with her trusty sidekick and furry best friend, Monty. Recently Jackie was a Program Coordinator for adults with developmental disabilities. Graduating from the U of A in 2004 with a BSc in Kinesiology and in 2006 with a BSc in Occupational Therapy in 2006 Jackie brings 10 years of experience in health care and 8.5 years of working as a Front Line Occupational Therapist. Jackie is not new to the north; she worked as a teenager in Yellowknife for two summers: a one year stint in Yellowknife, as an OT and two OT locums in Iqaluit, NU. Her passions include photography, crafting, and as a stylist for Colour by Amber, a eco-friendly line of jewelry that empowers women around the world. Jackie is the new Occupational Therapist/Team Lead in Rankin Inlet and will be travelling to Baker Lake, Chesterfield Inlet, and Coral Harbour. She is excited for another opportunity to work in the north and is looking forward to the amazing and unique experiences yet to come.

David Shaffrey

From Dublin, Ireland, to Manchester, England to Vancouver, to Rankin Inlet; our new Physiotherapist has taken the scenic route to arrive in Nunavut. David is a native of Dublin and received his degree in Physiotherapy from Manchester Metropolitan University. He spent six years in Vancouver working in cardio-respiratory medicine, musculoskeletal dysfunction, and concussion management. A big welcome to David.

Hodgson

Hodgson welcomes new physicians, Drs. Melinda Fowler and Ross Dunlop.

Norway House

Northern Remote Family Medicine Program grads (2015) Drs. Carla Gemenhardt and Anita Paniak have been welcomed in Norway House as regular physicians.

The Teen Clinic is now being overseen by the physician team instead of the midwife who previously took care of it. The Outreach Program is held at Helen Betty Osborne School where two physicians provide services to Norway House's High School Students.

New Consultants

In the past few months we have welcomed Dr. Anet Maksymowicz, Obs/Gyn and Dr. Diana Popescu, Paediatrician who are both working in Churchill.

Graduates

Congratulations to Dr. Mohammad Shanti who graduated from the IMG Program in February 2016. Dr. Shanti will be mentored at Percy E. Moore Clinic/ Hospital in Hodgson and in the Fly-In Program area.
5 1/2 Years and 2 Children Later

Deanna (Unit Nurse Supervisor) and Alex (Renal Health Nurse) Miller arrived as a couple in March of 2011 and left as a family of four in early December 2015. Chester, their first child arrived in November of 2012 and Charleigh in 2014.

It's been a busy and full five years for the couple working at the Unit. Our admiration and appreciation for their hard work whilst starting a family couldn't be greater.

They were committed to their work, the patients, and the community. They made many friends and will be missed.

We wish them all the best for their next adventure. And hope they look fondly on their years in Garden Hill.

ILRRH Announcements

Once again the Unit was successful and received full Accreditation from Accreditation Canada.

We welcome Joelle Fear our new Renal Health Nurse who will be the Acting Nurse Supervisor. Joelle has six years of previous dialysis experience and is currently in the process of obtaining her BN that she will complete this fall.

Also new is Carla Flett. Carla is a member of the St. Theresa Point First Nation. She is the third nurse on staff from St. Theresa Point joining Melanie and Natasha who have been with us for a number of years. It is a pleasure to have staff who are knowledgeable about the patients, community, and culture; and knowledgable in the local language. Welcome Carla.
New Research Grants

Katz A (PI), Newman L, Slater J, Green C, Chow D, Davison K, Benham D, Doucette K, Enns J, Northcott D, Randall S, Yeudall F, Distasio J. Demystifying the complex relationship of urban food security and health equity (DECODE)—The impact of urban form on health equity: Towards an understanding of food security. CIHR Team Grant: Environments and Health: Programmatic Grant in Intersectoral Prevention Research. Stage 1 ($50,000); now working on Stage 2 application.

A mixed methods evaluation of Health Canada’s Children’s Oral Health Initiative (COHI). Does it lead to improved oral health for young First Nations and Inuit children? was conditionally approved for funding through the Operating Grant: Population Health Intervention Research program. Canadian Institutes of Health Research. $250,000 (2016-2018) Schloth (Nominated Principal Investigator (PI)); McNally (co-PI); Bertone, M Brownell, J Edwards, A Hayes, KAKinew, J Lavoie, D Martin, ME Moffatt, H Tait-Neufeld, L Star Co-Investigators); Chartier, K Hai-Santiago (Knowledge Users); Nickel (collaborator)
