Clinical Child Psychologist/Neuropsychologist
University of Manitoba & Winnipeg Regional Health Authority

The Department of Clinical Health Psychology in the Max Rady College of Medicine, University of Manitoba in collaboration with the Clinical Health Psychology Program of the Winnipeg Regional Health Authority (WRHA) invite applications for a Contingent Geographic Full-Time Clinical Psychologist (Position#26429), with a flexible start date, commencing May 1, 2019 or as soon as possible thereafter. The position integrates clinical and academic roles (typically 80% clinical; 20% applied research/clinical teaching). The successful applicant will be appointed to the Medical Staff of the WRHA, and will be appointed to the Department of Clinical Health Psychology, Max Rady College of Medicine at the rank of Assistant Professor.

The successful applicant will primarily provide comprehensive assessment of children and youth with neurodevelopmental disorders, based in the multidisciplinary FASD clinic. Depending upon interests and qualifications, the applicant may also provide assessment, consultation and/or treatment for children and youth with a range of medical and mental health conditions, through our Child & Adolescent Psychology general service which works closely with multidisciplinary teams in Children's Hospital.

Position Responsibilities:
- Diagnostic assessment of children and youth with suspected neuro-developmental disorders.
- Consultation with families, caregivers, community supports, and liaison with rural and northern communities.
- Public education and prevention activities.
- Clinical supervision and teaching of psychology residents in our CPA-accredited residency program. Teaching of medical students and learners from other health professions.
- Development of an active program of clinical research.

Qualifications:
- Doctoral degree (PhD or PsyD) in Clinical Psychology from a CPA accredited training program.
- Completion of a CPA accredited Internship/Residency.
- Eligibility for registration as a C. Psych by the Psychological Association of Manitoba www.cpmb.ca
- Education, training and experience in child & adolescent clinical psychology, health psychology and/or neuropsychology.
- Education, training and experience in diagnostic evaluation and cognitive and/or developmental assessment, including the administration and interpretation of standard child psychological tests and measures.
- Excellent interpersonal relationship skills, oral and written communication, and inter-professional teamwork skills.
- Clinical experience with FASD diagnostic assessment would be an asset.
- Education and training in a range of evidence-based psychological treatments for children would be an asset.
- Training, experience, and/or research background and interests in Indigenous health issues would be an asset.
- Satisfactory results of pre-employment criminal records, vulnerable person and child and adult abuse registry checks are required.

Salary and Benefits:
- Placement on WRHA salary scale will be commensurate with qualifications and experience.
- Attractive benefits package is available through the University of Manitoba.
- The Geographical Full Time (GFT) agreement provides the opportunity for on-site private practice.
- The Clinical Health Psychology Program will provide the required clinical supervision for individuals at the C.Psych. Candidate level, until they are registered.

Clinical Health Psychology is unique in Canada, being both an academic department in the Max Rady College of Medicine and a clinical program of the Winnipeg Regional Health Authority, and networked provincially to Psychologists in health regions across Manitoba.
