

Clinical Child Psychologist – Child Protection Centre University of Manitoba & Shared Health Manitoba

The Department of Clinical Health Psychology in the Max Rady College of Medicine, University of Manitoba in collaboration with the Clinical Health Psychology Program, Shared Health Manitoba invite applications for a Geographic Full-Time Clinical Psychologist (**Position #28445**), with a flexible start date, ideally **June 1, 2020** or as soon as possible thereafter. The position integrates clinical and academic roles (typically 80% - clinical; 20% -applied research/clinical teaching). The successful applicant will be appointed to the Medical Staff of Shared Health, and will be appointed to the Department of Clinical Health Psychology, Max Rady College of Medicine at the academic rank commensurate with experience.

The position is based at the Child Protection Centre (CPC) - Health Sciences Centre in Winnipeg. The Clinical Psychologist is part of the CPC interdisciplinary team, which provides consultation and assessment to agency case managers regarding children in care, to facilitate a child-focused intervention strategy. The Psychologist works closely with the other CPC team members to provide a collaborative family-centered approach to care. The successful applicant will primarily provide comprehensive assessment for children who have experienced a potentially harmful family/other situation to guide adjustment and care needs; and assessment of adult parents whose mental health or cognitive symptoms may compromise protective parenting. The Psychologist will contribute to clinical programming development.

Position Responsibilities:

- Diagnostic assessment of children and youth with developmental and trauma based issues.
- Diagnostic assessment of adults with mental health /cognitive issues that impact parental behaviour.
- Development and piloting of clinical programming for children who have experienced maltreatment.
- Consultation with families, caregivers, community supports, and liaison with mandated agency staff.
- Education and prevention activities, as part of an interdisciplinary advocacy team
- Clinical supervision and training in our CPA-accredited psychology residency program. Teaching of medical students and learners from other health professions.
- Development of an active program of applied clinical research.

Qualifications:

- Doctoral degree (PhD or PsyD) in Clinical Psychology from a CPA accredited training program.
- Completion of a CPA accredited Internship/Residency.
- Registered or eligible for registration as a C. Psych by the Psychological Association of Manitoba www.cpmmb.ca
- Education, training and experience in child & adolescent clinical psychology (required), adult psychology and family systems. Training and clinical experience in the area of child maltreatment and trauma preferred.
- Education, training and experience in diagnostic evaluation and cognitive and/or developmental assessment, including the administration and interpretation of standard psychological tests and measures applicable to children and adults
- Education and training in a range of evidence-based psychological treatments for children an asset.
- Training, experience, and/or research background and interests in Indigenous health issues an asset
- Excellent interpersonal relationship skills, oral and written communication, and inter-professional teamwork skills
- Satisfactory results of pre-employment criminal record, vulnerable person and child and adult abuse registry checks are required.

Salary and Benefits:

- Placement on WRHA salary scale will be commensurate with qualifications and experience.
- Attractive benefits package is available through the University of Manitoba.
- The Geographical Full Time (GFT) agreement provides the opportunity for on-site private practice.
- Supervision will be provided by the CHP Program for individuals registered at the C.Psych. Candidate level, until completion of registration requirements for independent practice as a C.Psych.

Clinical Health Psychology is unique in Canada, being both an academic department in the Max Rady College of Medicine and a regional clinical program, with a strong collegial network of psychologists across the province. For more information about our department, visit:
