DOCUMENT GUIDE

DOCUMENT NAME: HORIZONTAL FAMILY MEDICINE PSYCHIATRY END OF SHIFT REPORT

DESCRIPTION:

To be completed by the clinical supervisor at the end of a clinical supervision period to contribute to MRAs and ITARs, and to specifically identify the number and nature of procedures completed on a clinical supervision period. This report is specific to horizontal experiences in Psychiatry during Family Medicine Block Time.

NOTE: An MRA should be created upon completion of 50% of the horizontal experience, and at 6 monthly intervals for experiences greater than 12 months duration.

ACCESS TO DOCUMENT:

- Go to Family Medicine website - http://umanitoba.ca/faculties/health_sciences/medicine/units/family_medicine/index.html
- Click on “Documents and Forms”
- Form is available under “Assessments”

**Number of patients seen on this shift:**

**Comments:**

**What has been done well:**

**What could be done differently:**

**Overall Performance**

- [ ] Unable to do this (cannot practice this)
- [ ] Does not do this well (practice with full supervision)
- [ ] Is starting to do this well (practice with supervision on demand)
- [ ] Does this well (ready for “unsupervised” practice)
- [ ] Can supervise others to do this (ready to supervise junior learners)

**Action Plan**

- [ ] Flag for review
