

# Abdomen 1

Dr. J.E. Bruni B.Sc., M.Sc., Ph.D., University of Manitoba

## ACROSS

- 3 Nerve providing efferent limb of cremasteric reflex
- 5 Dome-like upper part of stomach
- 7 Cavity roofed over by diaphragm
- 9 Middle region of lower abdominal zone
- 11 Stomach curvature followed by left gastric artery
- 13 Movement responsible for the propulsion of food
- 15 Triangular site of

- indirect hernias
- 16 Bloodless umbilical fold overlying urachus remnant
- 18 Paired arteries of abdominal aorta
- 22 Stages of death
- 25 \_\_\_\_\_ of Langerhans
- 30 Vessels at risk if lateral umbilical folds are cut
- 31 Major vein to the liver
- 33 ``The \_\_\_\_\_ learn from the dead``
- 34 Artery of abdominal origin within inguinal canal

## DOWN

- 1 Plane halfway between jugular notch and pubic symphysis
- 2 ``Belly button``
- 4 Fatty layer of subcutaneous abdominal fascia
- 6 Point of clinical importance in an appendectomy
- 8 Linea \_\_\_\_\_
- 10 Paired visceral arterial branches of abdominal aorta
- 12 Paired organs lying approximately in

- transpyloric plane
- 14 Diverticulum of the small intestine
- 17 Nerve providing afferent limb of cremasteric reflex
- 18 Abdominal muscle enclosed in a sheath
- 19 Sheet-like abdominal tendon
- 20 Artery supplying the gall bladder
- 21 Artery of the foregut
- 23 Artery running along upper border of pancreas
- 24 Plane bordering on 10th costal cartilages

- 25 Source of the appendicular artery
- 26 Foramen of omental bursa
- 27 Protective voluntary tensing of abdominal wall
- 28 Ligament of the stomach
- 29 Stomach curvature followed by gastroepiploic arteries
- 32 Side of body where dome of diaphragm is highest

**WORD BANK:** Abdominal, alba, aponeurosis, campers, celiac, cystic, epigastrics, epiploic, fundus, genitofemoral, gonadal, greater, guarding, hesselbachs, hypogastric, ileocolic, ileoinguinal, islets, kidneys, lesser, living, mcburneys, meckels, median, mortises, omentum, peristalsis, portal, rectus, renal, right, splenic, subcostal, testicular, transpyloric, umbilicus.
