## **Service Responsibilities**

### **1. Each Day**

- Meet with team in WT557, 0700 hours
- People on call that day, please write your name and pager number on the white wipe board

### **2. Ward Patients**

- See assigned patient in AM, perform focused history and physical exam
- Write note in chart 'SOAP' or Issue Based note
- Order and follow-up lab work and investigations
- If urgent patient issue, notify resident or attending otherwise wait to discuss at noon rounds

### **3. OR Experience**

- Each day, divide the ORs and attend along with the gyne resident
- Meet patient prior to OR and read chart to determine indication for surgery
- After OR, assist with Postop Orders and OR Note
- Assist with transfer of patient to recovery room

### **4. Emergency and Ward Consults**

- i. Triage consults based on patient hemodynamic stability
- ii. See patient and perform history and physical
- iii. Fill out consult form
- iv. Review with resident/attending

If patient for Admission:

- Complete Admission Orders and Admission Form
- Call Report to WRS5
- Keep information regarding patient for sign over

If patient for OR:

- Complete *Consent For OR*
- Book OR: Call HSC OR through paging evenings/weekends. Weekdays call women's hospital OR through paging.

### **5. Clinics**

- Each day notify senior resident of planned clinic for that day

### **6. Gyne Service Phone**

- Each day held by a member of the house staff
- Most daytime consults come to this phone
- Phone number – 794-4344

## Sample Notes

### **Patient Ward Note:**

#### *Uncomplicated Post-Op Patient*

July 1, 2007

8:00

ID: 32 y.o. POD#1 TAH for fibroids

S: Doing well, no complaints. Pain control adequate with PCA. Foley d/c'd today and voiding well. Tolerating clear fluids, no N/V and no flatus yet. Ambulating

O: BP 120/80 HR 68 T 36.5 O2 sat 99%

Abdomen – soft, nontender, BS present, Pfannensteil incision clean, dry and intact

A: POD 1 TAH stable

P: Await blood work results, encourage ambulation and deep breathing

#### *Complicated GyneOncology Patient*

July 1, 2007

8:00

ID: 72 y.o. with Stg 4 ovarian cancer admitted with SBO

S: continues to feel nausea. Vomited 2 times overnight, unable to keep anything down. No flatus. Pain controlled with Fentanyl patch and oral breakthrough with dilaudid. Voiding well.

O: BP 100/64 HR 100 O2 sat 94% RR 10 T 36.7

u/o low with 100 cc over past 4 hours

dry mucous membranes, JVP not seen

Chest: clear, HS normal

Abdomen: distended, scant high pitched bowel sounds, soft and nontender

Extremities: TEDS on, no calf tenderness

#### Issues:

1. Small Bowel Obstruction – still no improvement, not tolerating CF

➤ Plan: npo

- Abdominal X-ray
- Check lytes, BUN cr
- Add Kytril and Ranitidine
- If continues to vomit may need NG tube
- 

2. Hydration – clinically dry

➤ Plan:

- 1 L fluid bolus, increase maintenance iv to 150 cc/hr
- Accurate ins/out
- 

3. Pain Control – adequate

➤ Plan:

- Calculate breath through requirements for yesterday, will discuss with GyneOnc team potential increase to patch dose.
-

4. DVT Prophyl  
➤ Plan:
  - Teds, Heparin 5000 U BID
  -
5. Disposition – OT/PT involved and assisting with ambulation
  - Home care consult pending

**OR Note:**

Attending Physician/Resident, level/Medical Student, level  
Procedure: Total Abdominal Hysterectomy  
Anesth: GA via ETT  
PreOp Dx: Menorrhagia, fibroids  
Post Op: Same  
Findings: Large fibroid uterus, 18 wk size  
Normal ovaries and FT bilaterally  
EBL: 400 cc  
No complications  
Pfannensteil Incision

**Who To Call.....**

**Sick Calls:**

If you are sick – call in AM or PM *each* day you are ill

- Senior OB/Gyne Resident (page through paging 787-2071)
- Kim Zeller [kzeller@hsc.mb.ca](mailto:kzeller@hsc.mb.ca) 204-787-1988

**Call Switches:**

- You need approval from Chief Resident
- Notify Kim Zeller [kzeller@hsc.mb.ca](mailto:kzeller@hsc.mb.ca)

**Management Decisions for Patients:**

*Ward patients*

- Monday – Friday from 8:00 to 17:00, please call the attending who the patient was admitted under (after discussing with Resident if needed)
- After 17:00 and on weekends – call the attending on call, there are 2 attending call groups and you are to call the attending on call that works in the same group as the patient’s primary physician

*Emergency & Ward Consults*

- Ask patient if she has a gynecologist
  - If she does, call the person on call that is part of the same group
  - If she doesn’t, call the attending on call that is the ‘24 Hour Call Person’ (ask each day who this person is)
