| November 7  | Moshe Ben-Shoshan, MD, M.Sc, Pediatric Allergy and Immunology Specialist | Dr. F. Estelle R. Simons Lectureship  
“The Cross Canada anaphylaxis registry – what we can learn on rate, trigger, and management of anaphylaxis in Canada”  
Objectives:  
1) To discuss the rate and trigger of anaphylaxis in Canada  
2) To discuss biomarkers for anaphylaxis  
3) To present and compare management strategies for anaphylaxis | C       |
| November 14 | Rachel Asiniwasis, MD, FRCP, DABD  
Associate Professor, University of Saskatchewan College of Medicine  
Dermatologist  
Saskatchewan Health Authority | 20th Annual Dr. Arthur Birt Memorial Lecture  
“Complex Dermatology in Remote and Northern Saskatchewan’s First Nations Pediatric Population”  
Objectives:  
1) To raise awareness of and to examine the complex, poorly documented chronic pediatric skin conditions leading to significant morbidity and health care expenditure cost in northern and remote Saskatchewan First Nations communities.  
2) To examine relevant barriers to health care in remote First Nations communities from a social-historical lens, including a discussion on environment and determinants of health. Specific cases will be reviewed with examples.  
3) To discuss initiatives that are gaining some traction in Saskatchewan with Dermatology outreach clinics, and to propose possible solutions to barriers that are being explored with some success to date. | A       |
| November 21 | Kristen Nadeau, MD, MS  
Professor  
University of Colorado School of Medicine  
Pediatric Endocrinology | 3rd Annual Dr. Heather Dean Lecture in Excellence in Pediatric Diabetes Research and Care  
“TBA” | A       |
