Despite the most advanced medical technology and increased awareness about healthy living, we are sicker than ever. In the film, Dr. Campbell, a nutritional biochemist (Cornell University), tackles the issue of diet and disease. Come join the discussion about how moving toward a plant-based diet may make be the answer!

Place: Park Theatre, 698 Osborne Street

Time: November 21st (Mon) at 7:00 pm

Panellists

Dr. Jim House (head of HNSC)
