MORAL MINEFIELDS

Understanding Ethical Construction in the Defense Industry

Can you build an ethical cruise missile?

If this is possible, to what extent are the ethics involved under the control of the individual worker? What is the affect associated with working within organizations whose product has an automatic negative connotation among the general population?

Wednesday, April 18
10:30 am - 12:00 pm
539 Drake Centre

Guest Speaker:
Dr. Neil D. Walshe
Assistant Professor of Organizational Behavior at the School of Management, University of San Francisco, California
