APPLICATION DEADLINE: **MARCH 15, 2012**

Adjusted Grade Point Average (AGPA) Calculation:

Admission to the Asper School of Business under Track 1 and Track 2 is determined by an annual academic competition. An AGPA will be calculated for each applicant with the AGPA determining the relative placement of the applicant's name on the rank-ordered selection list. Each applicant must have successfully completed at least the Track 1 or Track 2 Requirements to be eligible to apply. If a student has completed between 24 and 60 hours of university work, the AGPA will be calculated using each grade the student has earned in his/her university work, regardless of the Faculty/School of completion. If a student has completed more than 60 hours of university work, the AGPA will be calculated over the most recently completed 60 hours of university work. Courses which are evaluated pass/fail are excluded from the AGPA calculation.

Priority for Selection:

Each spring the Asper School of Business will predetermine the total number of admission spaces it can provide to Track 1 and Track 2 applicants. The quota will be filled by selecting students from the rank-ordered list of applicants in the following order:

First Priority - Track 1 applicants with an AGPA of 2.60 or greater in descending order of AGPA. Thirty spaces are reserved for the Track 2 applicants with an AGPA of 3.10 or higher in descending order of AGPA.

Second Priority - Track 2 applicants (who are not already admitted under the First Priority) with an AGPA of 3.10 or greater in descending order of AGPA.

Third Priority - Track 1 applicants with an AGPA of 2.00 - 2.59 in descending order of AGPA.

Both Track 1 and Track 2 applicants may require an AGPA well in excess of the minimum to be successful in the annual competition for admission.
