RE: Accessing Personal Health Services

Please be advised of the following updates regarding access to personal health care:

(1) University Health Services (UHS); 104A University Centre; Fort Garry Campus

UHS has implemented a new appointment system to help with scheduling and travel considerations for Bannatyne Campus students. The main change is that Bannatyne Campus students will be able to book a 'same day' appointment a day ahead; UHS will set aside specific appointment times for Bannatyne Students at the beginning and the end of each day. When you call to book your appointment (474 - 8411), please let the staff know that you are a student from Bannatyne Campus and UHS will do its best to book an appointment that fits your schedule.

The UHS phone number is listed on your **RESOURCES FOR STUDENTS** laminated card.

(2) Northern Connection Medical Centre; 425 Elgin Avenue

Northern Connection Medical Centre is a newly established primary care clinic located in close proximity to Bannatyne Campus. Northern Connection Medical Centre is specifically accepting undergraduate medical students who do not have a primary care physician in Winnipeg. Appointments may be made by calling 940-8777.

The willingness of NCMC to accept undergraduate medical students is in direct response to needs identified by the MMSA. The teaching clinic was established in partnership with the WRHA, HSC and the Department of Family Medicine, and provides dedicated health services to residents of northern communities and family members of Canadian Forces personnel, in addition to medical students.

The Northern Connection Medical Centre phone number is listed on your **RESOURCES FOR STUDENTS** laminated card.
